SPRING 2024 CED Pulse Survey Results

> CED Assessment & Accreditation Office

In the Spring of 2024, the CED AAO administered the CED Pulse Survey across all undergraduate, graduate, and credential programs. Insights gathered from 630 student responses revealed how factors crucial for fostering a culture of care and belonging within the college linked together like pieces of a larger puzzle. Through our students' voices, we gain valuable insight into what is working and feedback to further ensure our student's success.
