

## Homework 11

*Due Monday, October 17 at 11am (in class)*

1. Listen for the intensifier *so* in your everyday life (media, written, and e-communication are OK). Write down the first 5 occurrences of this adverb as used in an intensifying way, with stress on *so*. That is, 'I am *so* happy.' Do not gather other uses, especially not things like 'That is *so* yesterday.' Note down as much about the situation as possible, including of course the gender of the speaker.
