Public Safety Officer III

Job Code: 6465
Facility: Memorial Care – Long Beach Memorial Medical Center, Long Beach CA
Department: Security (LMC-842000)

- Full-Time

At MemorialCare Health System, we believe in providing extraordinary healthcare to our communities and an exceptional working environment for our employees. Memorial Care stands for excellence in Healthcare. Across our family of medical centers, we support each one of our bright, talented employees in reaching the highest levels of professional development, contribution, collaboration and accountability. Whatever your role and whatever expertise you bring, we are dedicated to helping you achieve your full potential in an environment of respect, innovation and teamwork.

Position Summary:

The Public Safety Officer III is a high profile position. Under minimal to no supervision, performs the duties of a Public Safety Officer III for the Security department at Long Beach Memorial Medical Center. Will implement the skills and knowledge learned from the POST Academy and/or formal education and experience, to emphasize the use of coaching, mentoring, instructional skills, and intervention. Whatever your role and whatever expertise you bring, we are dedicated to helping you achieve your full potential in an environment of respect, innovation and teamwork.

Minimum Requirements:

- 6+ months of experience working as a Public Safety Officer or Security Officer, preferably in a Hospital setting.
- Military experience with an emphasis in Military Police (MP) is a plus.
- Excellent guest relations skills are required.
- Computer literacy is required.
- Law Enforcement training is a plus.
- A valid California Driver License and a good driving record with proof of insurance is required.
- A valid California state guard card is required.
- A valid California state baton permit and permit to carry pepper spray is required within 90 days of hire.
- A current American Heart Association Basic Life Support (BLS) Healthcare Provider certification is required, however training may be provided by the hospital.
- Completion of a Law Enforcement POST – Training Regular Basic Course Academy with valid proof of certification is required, or completion of the Basic Course Modular Format constitutes satisfaction of the Regular Basic Course. Training requirement is delivered in a three-level instructional sequence.
Successful completion of the module III (144 hours), Module II (189 hours) and Module I (394 hours) with valid proof of certification is required.

- A Bachelor of Arts (BA) or Bachelor of Science (BS) Degree in Administration of Justice/Criminal Justice will be accepted in lieu of Regular Basic Course POST certification.
- A Valid PC-832 (40hr) class with proof of certification is required along with degree if applicant does not have POST certification.
- Extensive work history in the field of Public Safety/Law Enforcement and/or Security may be considered in lieu of education and POST certification, however the Public Safety Leadership team with make the determination on what experience level may be accepted.

The candidate in this category will be required to maintain certification of PC-832 (40hr) class, remain up to date on penal code revisions, updates, changes, etc. In addition, the candidate will be expected to take continuing education courses, training and seminars relating to law enforcement if an offer of employment is made. This is a high level position that will require this level of training at all times while employed with the department.
