

Approved Elective Courses for the Master of Science in Gerontology 2016-2017 Academic Year

The following elective courses must be pre-approved by the Gerontology Program's Director for application to your Master's degree. Master's students may take only one 400 level course. All other electives must be at the 500-600 level. All course projects in non-gerontology courses must be age-related. No more than 6 units of elective coursework can be taken outside the GERN prefix.

(Note: Graduate students **must** have prior approval of the Program Director to take 400 level courses. HCA300*) is not available for graduate students)
