Guidelines for field experience (student teaching) for individuals returning for the Adapted Physical Education Added Authorization who already hold a current teaching credential.

1. If the individual holds a position teaching APE, the field experience coursework is completed in their current position. Candidate must meet all competencies and complete the portfolio review.
2. For current credential holder they must complete a field experience for a minimum of 90 hours in an adapted physical education placement setting. This may include:
   a. Teaching APE during prep period under the supervision of an APEAA Credential Teacher.
   b. Teaching APE for special day classes under supervision of an APEAA Credential Teacher or university supervisor.
   c. Other placement as deemed appropriate with a CSU approved University APE Coordinator
