Student Declination of Annual Influenza Vaccination

The Joint Commission Infection Control Standard IC.4.15 emphasizes that transmission of influenza from health care providers can create serious health care problems. The most successful measure to prevent health care-associated transmission of influenza is healthcare worker vaccination. The Centers for Disease Control and Prevention (CDC) has recommended annual influenza vaccinations for all healthcare workers since 1981.

In accordance with this recommendation, students are now required to receive an annual influenza vaccine. You must present proof of your vaccination to your theory instructor by November 1st. If you choose not to receive the vaccine, we are required to document your reasons for non-participation in the Annual Influenza Vaccination Program. Please read the information below and indicate the reason you have chosen not to receive the vaccination. Please note if this declination is for seasonal influenza vaccine or H1N1 vaccine.

I understand that due to my occupational exposure, I may be at risk for acquiring influenza infection. In addition, I may spread influenza to my patients, other healthcare workers and my family, even if I do not have any symptoms. This can result in serious infection, particularly in persons at high risk for influenza complications.

I have received education about the effectiveness of influenza vaccination as well as the adverse effects. I have also been given the opportunity to be vaccinated with influenza vaccine. However, I decline influenza vaccination at this time. I understand that by declining this vaccine, I continue to be at risk of acquiring influenza, potentially resulting in transmission to my patients. If in the future I want to be vaccinated with influenza vaccine, I can receive the vaccine.

I have chosen not to receive the □ seasonal influenza vaccine and/or the □ H1N1 vaccine for the following reason:

_____ 1. I have already been vaccinated for the current year. (must provide documentation)

_____ 2. I am or may be pregnant and cannot take the multi-dose flu vaccination offered.

_____ 3. I am allergic to eggs, chicken and/or latex.

_____ 4. I have a medical condition which precludes me from receiving the vaccination (i.e. Hemophilia, Guillain Barre or any active neurologic disease)

_____ 5. Other: __________________________________________
