CUT THE COST of Health Insurance

A new tax credit helps lower- and middle-income families

Health Insurance Marketplace

What is this tax credit?
The Health Premium Tax Credit reduces the total amount of tax you owe the IRS. If you don’t owe, you can get a bigger refund. You get the tax credit to help cut the cost of your health insurance.

Can I use my tax credit for any health plan?
NO. You MUST buy your health insurance from:
Health Insurance Marketplace
1-800-318-2596
www.healthcare.gov
This new marketplace offers a wide variety of health plans with good benefits. All plans cover prescriptions, hospital stays, doctor visits and more. If you buy different coverage, you won’t get the tax credit help.

How much help will I get?
The amount depends on your family income and your family size. Lower income families get the most help.

When does it start?
The tax credit begins with insurance that starts January 1, 2014 — or later.

Taking Your Credit Now? Get the Right Tax Credit.

If you take the tax credit in advance, changes to your family size or income — or even a new job that offers health insurance — could mean you’re getting the wrong amount of tax credit. To make sure you get the right amount, call when you have changes:

**When can family size change?**
- You get married or divorced
- You have a baby
- You no longer claim your child on your tax return

<tbody>
<tr>

</tr>
</tbody>
</table>

**When can income change?**
- You get a raise
- You lose your job
- You take a salary cut

<table>

**Remember:** It’s your responsibility to tell your state’s Marketplace!

**What if your income changes each month?**
Talk to your Marketplace about taking a partial credit. Your monthly premiums will still be lower but not as much. By taking the rest at tax time, there is less chance of repayment.

**What if your new job offers health insurance?**
Call your state’s Marketplace. You may no longer be eligible for your tax credit.

**AVOID REPAYMENTS!**

**Claudia and Patrick’s story**
“In January, we decided to take the tax credit in advance. On August 1, I got a new job that increased our income so we no longer qualified for the tax credit. We forgot to tell our Health Marketplace. At tax time, we had to pay back $2,000.”
