Find Your Way Around the Health Care Law

There’s a lot to learn about the law. Follow your path to learn more about the new protections and benefits for you and your family.

Start Here

Do you have health insurance?

NO

There’s a new, easier way to find a health plan that fits your needs.

The Health Insurance MARKETPLACE

It’s like a shopping mall for health insurance. And help will be available every step of the way - online, by phone and in person.

Here’s how it works:

You get to compare plans side-by-side. Simple language, no guesswork.

All plans will cover the important stuff: doctor visits, emergency and hospital care, prescriptions and more.

2014

Don’t forget—everyone will need to have health coverage starting in 2014.

YES

The health care law makes it easier to protect your family’s health and finances.

Have Medicare?

You’re covered and your guaranteed benefits are protected. So you can get the care you need, when you need it. That means things like doctor visits and hospital stays are still covered.

And there are new protections and benefits that strengthen Medicare:

Yearly wellness visit
More preventive care (like cancer screenings, diet counseling and immunizations)
Cracks down on waste and fraud

You now get big discounts on prescription drugs—both brand name and generic. The discounts will continue until 2020 when the gap is a thing of the past.

Have Questions?

Visit HealthLawAnswers.org to find out what the health care law means for you.

Do you fall in the Medicare Part D doughnut hole?

26

They can stay on your family health insurance plan until they turn 26.

Do you have kids?

You get financial help depending on your income, you may have access to low-cost or free plans.

Simple language, no guesswork.

All plans will cover the important stuff: doctor visits, emergency and hospital care, prescriptions and more.

Don’t forget—everyone will need to have health coverage starting in 2014.
