CSULB School of Social Work - Master of Social Work (MSW)

About Our Program
The School of Social Work at California State University, Long Beach (CSULB) welcomes your interest in our School and the programs we offer. We are pleased you are committed to a career in social work, a profession dedicated to the development of a just society. Our mission is to educate and graduate diverse, ethical and competent social work students; engage in collaborative, community-based research; and provide meaningful service to the community and the profession. Our goal is to prepare students to enter professional, multicultural social work practice.

Our Master of Social Work (MSW) program is accredited by the Council on Social Work Education (CSWE) and prepares graduates to serve as professional social workers who excel in all levels of practice in economically and socially diverse environments. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions). In addition, students are prepared for advanced, specialized practice in one of the following concentrations: Child and Family Wellbeing, Adulthood and Aging, or Integrated Health.

Our MSW Program emphasizes ecological and systems perspectives which focus on the fit and interactions of a person or system in relation to the various environments likely to be encountered. Within these perspectives, knowledge, values, and skills are used in a change-oriented process within a multicultural context to help individuals and social systems achieve improved quality of life and social participation, including advocacy for just institutions and equitable access to opportunities and resources. Graduates of our program are prepared to work with diverse populations, advocate in a variety of settings, ensure equitable access for disenfranchised populations and promote social justice. We address community challenges related to child welfare, health and behavioral health integrated care, substance use, poverty, homelessness, domestic violence, the growing aging population and social change. We educate students for micro and macro practice and leadership in government agencies, non-profit organizations, schools and non-traditional settings.

The MSW degree requires the completion of 60 semester units over the course of a 2-year program or 3-year program plan. We also offer an Advanced Standing option for those applicants who have completed a recent undergraduate degree in social work from a CSWE-accredited program. In addition to on-campus courses, the MSW curriculum includes a fieldwork sequence which allows students to apply their knowledge, social work practice and intervention skills in a community agency setting under the supervision of qualified field instructors during two 500-hour placements.
Program Plans
The School of Social Work at CSULB offers three program plans for the completion of the MSW degree: 2-Year, 3-Year, and an Advanced Standing option. In addition, we offer a distance education option that follows the 3-year program plan.

2-Year MSW Program
Students admitted to the 2-Year MSW program must complete 60 semester units of coursework. Students enroll in 15 units of coursework (5 courses total) each semester for four (4) semesters as follows: Fall/Spring/Fall/Spring. Students attend classes on Mondays and Fridays during the daytime.

In addition, each student must complete two fieldwork placements: one in the first year of the program and one in the second year of the program. Each placement involves 500 hours of fieldwork, with a total of 1000 hours completed to fulfill degree requirements. Students complete 16 hours of field placement each week between the months of September and May. Field hours are completed Tuesday through Thursday in either two 8-hour weekdays, or one 8-hour weekday & two 4-hour weekday periods.

3-Year MSW Program
Students admitted to the 3-Year MSW program must complete 60 semester units of coursework. Students enroll in 6-9 units of coursework each semester for eight (8) semesters as follows: Fall/Spring/Summer/Fall/Spring/Summer/Fall/Spring. Students attend classes on Monday evenings, Wednesday evenings, and Saturdays during the daytime.

In addition, each student must complete two fieldwork placements: one in the second year of the program and one in the third year of the program. Each placement involves 500 hours of fieldwork, with a total of 1000 hours completed to fulfill degree requirements. Students complete 16 hours of field placement each week between the months of September and May. Field hours are completed Monday through Friday in either two 8-hour weekdays, or one 8-hour weekday & two 4-hour weekday periods.

Advanced Standing MSW Program
Since 2005, our Advanced Standing program has offered students with an undergraduate degree in Social Work from a CSWE-accredited program the opportunity to obtain their MSW degree within 12 months (one summer, one fall & one spring semester). Upon successful completion of an intensive Summer Bridge Program, Advanced Standing MSW students complete 30 units of advanced coursework in the fall and spring semesters. Advanced Standing MSW students attend classes on Mondays and Fridays during the daytime (with additional days in the summer) and complete one 660-hour field internship that starts in June and ends the following May. Students complete 16 hours of field placement each week (Tuesday through Thursday) in either two 8-hour weekdays, or one 8-hour weekday & two 4-hour weekday periods.

Distance Education
The MSW program is also offered at off-campus locations throughout the state. Current distance education sites are in the Sonoma County and Ventura County areas. Courses are taught using face-to-face instruction, as well as interactive television and web-based instructional support. The distance education MSW is offered using a 3-year program plan in the Child and Family Wellbeing concentration. Students attend classes on Saturdays and complete fieldwork requirements during the second and third academic years of the program. The next distance education cohorts are scheduled to begin in fall 2016.
Concentrations

The Master of Social Work (MSW) degree offers opportunity for study in one of three areas of concentration: Child and Family Wellbeing, Adulthood and Aging, or Integrated Health. Students are assigned a concentration during their first year in the program. The second-year courses and field placement will be determined by this concentration. Program stipend recipients and students who choose to complete the Pupil Personnel Services Credential will be assigned to a specific concentration.

Child and Family Wellbeing Concentration
The Child and Family Wellbeing concentration prepares students to use strength-based and evidence-based approaches to promote positive child and family functioning across diverse populations. Through coursework and field placements, students will acquire and enhance their skills to effectively engage, assess and intervene with children and families both preventively and with those experiencing challenges. Students will also gain knowledge of the policies most salient to the lives of children and families and skills to effectively influence such policies. This concentration provides a solid framework for students interested in working in child protective services, schools and other public agencies or community-based non-profits.

Adulthood and Aging Concentration
The Adulthood and Aging concentration prepares students to use strength-based and evidence-based approaches to promote positive adult, older adult, and family functioning across diverse populations. Through coursework and field placements, students will acquire and enhance their skills to effectively engage, assess, and intervene with adults and older adults. Students will gain knowledge of the unique psychosocial needs facing adults, older adults, and their families. Students will examine adulthood and the aging processes from multiple perspectives: biomedical, psychological, socioeconomic, spiritual and cultural while examining contemporary trends that are shaping aging policy, practice, and theory. This concentration provides a solid framework for students interested in working in the areas of adult protective services, supportive services for family caregivers, Alzheimer’s and dementia care services, hospice services, the prison system and community corrections, promotion of healthy aging, long-term care, and health care collaborations.

Integrated Health Concentration
The Integrated Health concentration prepares students to use strength-based and evidence-based approaches to meeting the changing needs of people from diverse populations with physical, behavioral health, and substance use challenges. Through coursework and field placements, students will acquire and enhance their skills to effectively engage, assess, and intervene with individuals who face chronic diseases and co-occurring conditions of mental health challenges and/or substance use. Students will learn to utilize prevention and brief intervention models critical to integrated care and how to work effectively on an interdisciplinary team. Students will learn how evidence-based practice, along with recovery-oriented and strengths-based care philosophies, can foster changes in practice settings and policies. This concentration provides a solid framework for students interested in working to deliver services in outpatient or primary care facilities, community-based behavioral health agencies, hospitals, and acute, chronic and long-term care settings.
Field Education

The field education sequence has an integral role in the MSW curriculum. The experience offers an opportunity for students to integrate and apply theoretical knowledge and social work practice and intervention skills in a community agency setting under the supervision of a qualified field instructor. A variety of agencies within the surrounding counties are utilized, reflecting the diverse settings in which social workers are employed. University field faculty select the most appropriate field placement site for students.

Each student has two field placements and concurrent enrollment in practice courses during the course of study. Each placement involves 500 hours of internship in a community agency setting and attendance and participation in an integrated field seminar that meets weekly on campus. The field education sequence encompasses a total of 1000 hours, for which 12 units of academic credit are given. The academic year schedule begins in September and continues through mid-May. Fieldwork includes attendance in a field seminar as well as internship in the community. Students complete 16 hours per week. This must include either two 8-hour weekdays or one 8-hour weekday and two 4-hour weekday blocks. No weekend placements are available. Students admitted to the Advanced Standing program complete one field placement for a total of 660 hours that begins in June and continues through mid-May.

Students who are employed in social service agencies may request that their agency be evaluated as a site for the second-year field internship only. The agency must be able to meet all criteria established by the School of Social Work to ensure the educational focus of field education and provide a significantly different experience than the student’s current job duties. Evaluation of field placement sites and approval to utilize an agency of employment as a field site will be completed by the field faculty.

The School of Social Work will reject an applicant or disqualify an enrolled student whose record of academic achievement or performance in field education does not meet the minimum standards of the profession.

Admission to the Master of Social Work (MSW) Program
Students are admitted by University Enrollment Services to the MSW Program for the fall semester each year. Prospective students should apply directly to the University and then to the School of Social Work. International students must also apply to the Center for International Education. The School of Social Work begins accepting applications the first week of October for admission the following fall semester.

Application & Deadlines
Applicants must follow the instructions provided in the MSW Application Guidelines that are posted on our website. Applicants must apply to the University and submit their application packet to the School of Social Work by the designated deadline for admission to the MSW program the following fall semester.

Admission Requirements
To be admitted to the MSW Program, applicants must meet the following criteria:
1. Hold a bachelor's degree and be eligible for admission to graduate status at CSULB.
2. Demonstrate satisfactory academic achievement as evidenced by a cumulative undergraduate GPA of 2.5 or above on a 4.0 scale.
3. Completion of a prerequisite course in elementary statistics with a grade of "C" or better.
4. Submission of a complete School of Social Work MSW application packet.
5. Preadmission interviews may be required by the School of Social Work faculty.

NOTE: The GRE is not required.

Admission to MSW Advanced Standing Program
Applicants who have a 3.0 GPA and hold an undergraduate degree in social work from a CSWE-accredited program may be provisionally admitted to the MSW Advanced Standing program. Applicants who are interested in our Advanced Standing program are encouraged to attend an MSW Information Meeting for more updated information.

Information Meetings
The School of Social Work offers information meetings for prospective applicants as an opportunity to learn more about the program and application process. Prospective applicants are strongly encouraged to attend an information meeting in preparation for application to our program. The dates and locations of the meetings are posted on our website: http://www.csulb.edu/colleges/chhs/departments/social-work/master-of-social-work/information-sessions.html.
