Engineering Distinguished Lecture Series

Engineering for the Body: Reproducing body functions

Thursday, October 24, 2013

Patrick Ikehara
Senior Patent Counsel
Applied Medical
Patenting for the Body

- Patenting Body Functions
- Patenting devices that replicate body functions
- Patenting devices that assist in repairing the body
Considerations

- Create a clear and flexible Objective, Plan, Budget
- Seek/Secure help and knowledge
  - Technical, Business, Legal
- Understand the Time Factor
  - Lifecycles of Product, Patent, Market
  - Speed of Improvements, Change
- Logistics
  - Gathering, Searching, Filing, Prosecuting, Investigating
- Business Tool
Thank you!!!
