

Dear Applicant,

Thank you for your interest in the Stem Cell training option of the CSULB Biotechnology Certificate Program.

When applying for admission into the program you must send the following items, together in one envelope, directly to Dr. Lisa S. Klig, Department of Biological Sciences, CSULB:

- 1) Completed Stem Cell training application form
- 2) Current transcript
- 3) Professional resume including research experience and scientific presentations/publications
- 4) Letter of recommendation from a research advisor (in a signed sealed envelope)

Once the admissions committee has reviewed all the applications, qualified candidates for the program will be interviewed. This year the deadline for application is noon on Tuesday January 22, 2019, interviews will be conducted mid-February 2019. Admissions decisions will be sent by Monday March 4, 2019.

Thank you.

Sincerely,  
LS Klig

Lisa S. Klig, Ph.D.

Student ID #:

GPA:

Provide your grade in the following courses (use "X" if you haven't taken the course and indicate if you are currently enrolled in the course).

	<b>GRADE</b>
Biotechnology (BIOL477/577)	_____
Biochemistry (CHEM 441A)	_____
Biochemistry (CHEM 441B)	_____
Biochemistry (CHEM 448)	_____
Bioethics and Public Policy (BIOL 462/562)	_____
Stem Cell Biology (BIOL 432/532)	_____
Genetics (BIOL 370 or MICRO 371 & 372)	_____
Molecular Cell Biology (BIOL 340 and/or 540)	_____
Developmental Biology (BIOL 433/533)	_____
Bioinformatics (BIOL 474/574)	_____
Molecular Cell Laboratory (BIOL440L)	_____
Methods in Microbial Genetics (MICRO 372)	_____
Biological Chemistry Laboratory (CHEM 443)	_____
Directed Research at CSULB (BIOL496/697, or MICRO 496/697, or CHEM 496/697)	_____
Seminars (BIOL 480/580)	_____

Briefly describe your experience with tissue culture and/or sterile technique. (100 words maximum)

Briefly describe your future career plans/goals. (100 words maximum)

Describe your interest in stem cell research. (100 words maximum)
