PROGRAM NOTES

Babblebot Numerology  When I was young, I was briefly seduced by numerology. Now I know better:

// ex falso quodlibet
void foregoneConclusions()
{ _NE , _IE , _PITCHUP , _NE , _T , _EE , _PITCHDN , _NE
, _PA1 , _ENDPHRASE
[ F , _BENDUP , _I , _F , _T , _EE , _F , _OO , _R , _PA1 , _ENDPHRASE
void loop ()

Thrum explores pulse, spectra, and feedback.

Ballad in A
Text by Brendan Kennelly
from Poem from a Three Year Old

Text:

And will the flowers die?
And will the people die?
And every day do you grow old, do I grow old, no I'm not old, do flowers grow old?
Old things—do you throw them out?
Do you throw old people out?
And how you know a flower that's old?

MAX Abruption
MAX and Live improvisation.
“Abruption” – a word invented by Zaq Kenefick

missed connections  “I remember the first time we met, it was like love at first sight and then I seen you at school and I asked u out tru myspace lol…” Not to be confused with its Craigslist classified counterpart, missed connections utilizes voicemail messages as the material by which the piece wends its whimsical odyssey. “u did wat u did and now ur happy like nothing happensd while I’m just here still wondering why. Goodbye my love, you’ll always be my high school sweetheart and ill never forget that.” life goes on - m4w
