AMPLIFIER POWER SWITCH

DVD / VCR COMBO

ATTENTION
For academic purposes only.

I = On
O = Off
RED LIGHT = POWER ON

SMART PANEL (SP) VOLUME CONTROL

TROUBLESHOOTING
Double check the amplifier on/off switch and cable connections. Volume adjusted with “SP” volume control. (Green lights up to indicate volume.)

If the projector won’t display and is in the ON position, double check your wire connection and laptop mirroring. If it still does not work, contact CSS. Mirror your computer as needed to display projector.
