Website: www.csulb.edu/economics

Faculty: Yutian (Kate) Chen, Alejandra C. Edwards, Elaine F. Frey, Edward Funkhouser, Lisa M. Grobar, Darwin C. Hall, Jack W. Hou, Xuemei Liu, Joseph P. Magaddino, Wade E. Martin, Marshall H. Medoff, Kristen A. Monaco, Chen Feng Ng, Andrew Ojede, Davinder Singh, Seiji Steimetz, Heather Stephens, Steve Yamarik, Guy M. Yamashiro

Advisors

Undergraduate: Yutian Chen, Seiji Steimetz

Graduate: Elaine F. Frey

Career Possibilities

Economist • Agricultural Economist • Financial Analyst • Industrial Analyst • International Trade Economist • Labor Specialist • Market Research Analyst • Tax Analyst • Investment Analyst • Teacher • Securities Salesperson • Bank Management • Loan Officer • Investment Counselor • Social Researcher • Auditor • Credit Analyst • Statistician • Urban Planner (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

When resources are scarce, difficult choices must be made on how resources are to be divided among competing uses. Economics is a social science that addresses the allocation of scarce resources.

Undergraduate Programs

Bachelor of Arts in Economics (120 units)

Requirements Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)

Prerequisites: MATH 103 or higher and one GE Foundation course.

ECON 101 Principles of Microeconomics (3)

Prerequisite/Corequisite: MATH 103 or higher.

ACCT 201 Elementary Financial Accounting (3)

Prerequisites: None

Take one of the following courses:

MATH 115 Calculus for Business (4)

Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.

Students with upper division standing declaring Economics as a major may substitute ECON 300 for ECON 100 and 101.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 380 Economic Statistics (4)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take six additional upper-division courses in Economics of which at least two must be at the 400 level.

The following courses may not be used to satisfy the elective requirement in economics: ECON 300, 306I, 333, 366, 495, and 499.

Option in Mathematical Economics and Economic Theory (120 units)

Requirements

Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)

Prerequisites: MATH 103 or higher and one GE Foundation course.

ECON 101 Principles of Microeconomics (3)

Prerequisite/Corequisite: MATH 103 or higher.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.

MATH 123 Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122.

MATH 224 Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or 222.

MATH 247 Introduction to Linear Algebra (3)

Prerequisite: MATH 123 or 222.

Students with upper-division standing declaring the option may substitute ECON 300 for ECON 100 and 101.

Upper Division:

Economic Theory:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Statistics:

Take all of the following courses:

MATH/STAT 380 Probability and Statistics (3)

Prerequisite: MATH 222 or 224.

STAT 381 Mathematical Statistics (3)

Prerequisites: MATH 247, and MATH 380 or STAT 380.

Advanced Theory and Quantitative Methods:

Take at least one of the following courses:

ECON 403, 410, 411, 420, 485, 486

Elective Courses:

At least four additional upper-division courses in economics of which at least one economics course must be taken at the 400 level. Students may take one course from the following in meeting the elective requirement: MATH 364A, 485; STAT 410 or 450; these will not substitute for the 400-level economics requirement. ECON 300, 306I, 366, 380, 495 and 499 may not be taken to meet the elective requirement.

Bachelor of Arts in Business Economics (120 units)

Requirements

Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)
Prerequisites: MATH 103 or higher and one GE Foundation course.

ECON 101 Principles of Microeconomics (3)
Prerequisite/Corequisite: MATH 103 or higher.

ACCT 201 Elementary Financial Accounting (3)
Prerequisites: None

Students with upper division standing declaring business economics as a major may substitute ECON 300 for ECON 100 and 101.

Take one of the following courses:

MATH 115 Calculus for Business (4)
Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 380 Economic Statistics (4)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take six additional upper division courses from the following groups (at least two must be at the 400 level):

Group A. Analytical Economics

Take at least two courses from the following:
ECON 355, 430, 434, 438, 450, 462, 470.

Group B. Quantitative and Applied Economics

Take at least two courses from the following:
ECON 330, 420, 437, 441, 455, 465, 471, 485, and 486.

Group C. Business and Economics

Take one course from the following:
ECON 320, 333, ACCT 310, FIN 300.

Remaining elective may be any class offered by Economics, except ECON 300, 306I, 366, 495 or 499.

Minor in Economics

The Minor in Economics is available to any non-Economics or non-Business Economics major.

A minimum of 24 units which must include:

Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)
Prerequisites: MATH 103 or higher and one GE Foundation course.

ECON 101 Principles of Microeconomics (3)
Prerequisite/Corequisite: MATH 103 or higher.

Students with upper division standing declaring the minor may substitute ECON 300 for ECON 100 and 101 with departmental consent.

Take one of the following courses:

MATH 115 Calculus for Business (4)
Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)
Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)
Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take at least three additional upper division economics courses, of which at least one must be at the 400 level. The following courses may not be taken as upper division electives in economics: ECON 300, 495, 499

Minor in Business Economics

This minor is being considered for discontinuance.

The Minor in Business Economics is available to any non-Economics or non-Business Economics major.

A minimum of 24 units which must include:

Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)

ECON 101 Principles of Microeconomics (3)

Students with upper division standing declaring the minor may substitute ECON 300 for ECON 100 and 101.

Take one of the following courses:

MATH 115 Calculus for Business (4)

MATH 122 Calculus I (4)

Upper Division:

Take one of the following courses:

ECON 310 Microeconomic Theory (3)

ECON 333 Managerial Economics (3)

Take one of the following courses:

ECON 311 Macroeconomic Theory (3)

ECON 320 Money and Banking (3)

The remaining 9 units (3 courses) may be selected from the upper division courses listed immediately above or any of the following courses:

ECON 355, IS 310 or ECON 330, 380, 372, 420, 430, 434, 441, 450, 455, 463, 485, 486.

Minor in International Economics

The Minor in International Economics is available to any non-Economics or non-Business Economics major.

A minimum of 24 units is required and must include:

Lower Division:

Take all of the following courses:

ECON 100 Principles of Macroeconomics (3)

Prerequisites: MATH 103 or higher and one GE Foundation course.

ECON 101 Principles of Microeconomics (3)

Prerequisite/Corequisite: MATH 103 or higher.

Students with upper division standing declaring the minor may substitute ECON 300 for ECON 100 and 101.

Take one of the following courses:

MATH 115 Calculus for Business (4)

Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.

MATH 122 Calculus I (4)

Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.

Upper Division:

Complete each of the following courses with grades of "C" or better:

ECON 310 Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

ECON 311 Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Take any three of the following courses, of which at least one must be at the 400 level:

ECON 341, 366, 372, 465, 470, 471

Requirements

1. Thirty-two units of upper-division and graduate courses (500- and 600-level courses, of which 26 units must be in economics). All students must develop two fields of concentration in economics, in addition to demonstrating competence in economic theory (microeconomics and macroeconomics), and econometrics.
2. Satisfactory completion of the following courses:
 - ECON 503 Mathematical Economics (3)
Prerequisites: None
 - ECON 510 Advanced Microeconomics (3)
Prerequisites: ECON 403 or 503.
 - ECON 511 Advanced Macroeconomics (3)
Prerequisites: ECON 403 or 503.
 - ECON 585 Econometrics I (4)
Prerequisites: None
 - ECON 586 Econometrics II (4)
Prerequisites: ECON 585.
3. Students must pass two qualifying examinations in the early part of the program; one in microeconomics and one in macroeconomics. Both exams must be attempted at the conclusion of the first full semester's coursework (13 units) that are counted towards the degree. The qualifying exams may be taken no more than two times each.
4. Students must successfully complete coursework in two fields of concentration in economics. Coursework for each concentration includes at least one 500-level prerequisite course and a 600-level course. Students are required to write a research paper in each 600-level course and pass the course with a grade of "B" or better.
5. Students must successfully pass an oral comprehensive exam. The comprehensive exam requires students to defend one of the research papers submitted from a 600-level course. This exam will assess the student's ability to integrate the knowledge in the field of concentration, show critical independent thinking, and demonstrate mastery of the subject matter. A committee of three faculty members will determine if the student has successfully passed the exam based on the quality of the written paper and the oral defense of that paper.

Graduate Programs

Master of Arts in Economics

Candidates in this program are responsible for observing the general requirements stated in this catalog as well as requirements specified by the Department. Information may be obtained from the graduate advisor. A limited number of graduate assistantships are available to qualified students.

Prerequisites

1. A bachelor's degree with a major in economics; or
2. A bachelor's degree with 24 units of upper division courses comparable to those required of a major in economics at this University. (Deficiencies will be determined by the Economics Department.);
3. A minimum undergraduate GPA of 3.0 ("B") in upper division economics courses.
4. Graduate students must consult with the graduate advisor for information concerning department procedures and for approval of their course of study before entering the master of arts program in economics.

Advancement to Candidacy

Satisfy the general requirements of the University for advancement to candidacy.

Courses (ECON)

LOWER DIVISION

100. Principles of Macroeconomics (3)

Prerequisites: MATH 103 or higher and one GE Foundation course.

Money and banking, price changes, national income analysis, business cycles, economic growth, fiscal and monetary policy, international trade.

Not open for credit to students with credit in ECON 202.

101. Principles of Microeconomics (3)

Prerequisite/Corequisite: MATH 103 or higher.

Business organization, price theory, allocation of resources, distribution of income, public economy.

Not open for credit to students with credit in ECON 201.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Fundamentals of Economics (3)

Prerequisites: GE Foundation requirements.

Designed for non-majors. Presents basic training in economics for social studies teachers or citizens who wish to exercise a reasoned judgment about economic issues in public affairs. Content generally same as ECON 100, 101, in condensed form.

Not open for credit to students with credit in ECON 100 or 101 except by consent of the Economics Department.

306I. Environmental Issues of the World Economy (3)

Prerequisites: G.E. Foundation and the Category B requirement, and ECON 101.

Interdisciplinary analysis of human impact on the atmosphere and biological diversity; consideration of policies to foster sustainable development with emphasis on the economic perspective.

Open only to nonmajors.

310. Microeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Analysis of economic concepts and their applications to business situations. Emphasis on supply and demand analysis, costs of production, variations of competition and monopoly, revenues, prices, profits and losses, and other aspects of the operations of the business enterprise.

311. Macroeconomic Theory (3)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Determinants of levels of income, employment, and prices; of secular and cyclical changes in economic activity; and of the effects of public policies upon aggregative economic experience.

313. History of Economic Thought (3)

Prerequisites: ECON 100 and 101, or 300.

Evolution of economics as a science. Doctrines of the different schools of economic thought. Study of the contributions of outstanding economists.

320. Money and Banking (3)

Prerequisites: ECON 100, 101 and either MATH 115 or 122.

Nature and functions of money and its relation to prices; the monetary system of the United States; the functions of banks, bank credit, foreign exchange and monetary control.

330. Game Theory (3)

Prerequisites: ECON 101 or 300.

A formal study of conflict and cooperation, and their application to modeling and analyzing an interactive situation, especially in the context of microeconomics.

333. Managerial Economics (3)

Prerequisites: ECON 100, 101 and either MATH 115 or 122.

The tools of marginal analysis and their application to managerial decisions and planning. Emphasis upon calculating solutions to operational problems. Topics include demand analysis, production and cost, pricing, and output decisions. Product and factor markets will be analyzed.

340. Economics in Movies (3)

Prerequisites: ECON 101 or 300

Application of economic concepts to real-world situations as depicted in movies. Economic analyses of incentives, trade-offs, supply and demand, insurance, the used car market, crime, pollution, and other topics.

341. Global Labor Market Issues (3)

Prerequisites: ECON 101 or 300.

Application of labor economic theory to global labor markets. Focus on international comparison of wages, unemployment, human capital, working conditions, and government labor policy.

Letter grade only (A-F). Only open to non-majors.

355. Law and Economics (3)

Prerequisites: ECON 100 and 101, or 300.

Analysis of economic concepts and their application to law and legal institutions. Emphasis on property law, contract law, accident law, crime control and judicial administration.

366. Introduction to Development Economics (3)

Prerequisites: ECON 100 and 101 or ECON 300.

Economic and social aspects of economic development. General analysis of all aspects of economies in developing countries. Application of concepts to current situation in developing countries from different parts of the world.

Open only to nonmajors.

372. International Economics (3)

Prerequisites: ECON 100 and 101, or 300.

International trade and exchange rate theory. Types of trade control: tariffs, quotas, exchange manipulation, monopolies. Basic U.S. and European commercial policies since 1930.

Not open for credit to students with credit in ECON 470 or 471.

380. Economic Statistics (4)

Prerequisites: ECON 100, ECON 101, and either MATH 115 or MATH 122, with grades of "C" or better in all prerequisite courses.

Use of descriptive and inferential statistical concepts for the analysis of economic data. Topics include measures of central tendency and dispersion, probability theory, discrete and continuous probability distributions, hypothesis testing, regression and correlation analysis.

(Lecture 3 hours, activity 2 hours)

403. Mathematical Economics (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 503.

410./510. Advanced Microeconomics (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Applications of microeconomic theory. Examination and analysis of particular markets and contemporary issues. Specific emphasis on policy analysis for government and business decisions. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 410H.

411./511. Advanced Macroeconomics (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 411H.

420. Forecasting (4)

Prerequisites: ECON 311 and 380 with grades of "C" or better.

Principles and methods of forecasting. Evaluation of the reliability of existing forecasting techniques. Also covers use of the macroeconomic model as a basis for forecasting and the role of forecasts in the formulation of national economic policy.

(Lecture 3 hours, activity 2 hours.)

430. Industrial Organization (3)

Prerequisite: ECON 310 with a grade of "C" or better.

The structure, behavior and performance of firms and industries. Implications of separation of ownership and control, Corporate social responsibility and the profit motive. The dilemma of size versus competition.

434. Economics of Regulation (3)

Prerequisite: ECON 310 with a grade of "C" or better.

A comprehensive survey of the past, present and future of the political regulation of economic and business activity. Consideration of the rationale for regulation and deregulation and the creation, design and removal of regulatory practices.

437. Urban Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Economic analyses of city formation and size, business and residential location decisions, land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods.

Not open for credit to students with credit in ECON 537.

438. Regional Economics (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations.

Not open for credit to students with credit in: ECON 538

441. Labor Economics (3)

Prerequisites: ECON 310 and 380 with grades of "C" or better.

Manpower resources and their utilization, with particular reference to labor unions, collective bargaining and related public policies. Effects of these institutions on production, employment, prices and patterns of income distribution.

450. Public Sector Economics (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Analysis of the theory of public goods. Criteria for efficient allocation of resources between private and public sectors. Possible responses of government externalities, such as environmental degradation. Emphasis on the allocation and distribution effects of government expenditures and taxation.

455./555. Transportation Economics (3)

Prerequisites: ECON 310 and 380 with grades of "C" or better.

Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways.

Letter grade only (A-F).

462./562. Environmental Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined.

463./563. Energy Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility, OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investor and publicly owned utilities, domestic and international policies.

464./564. Natural Resource Economics (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fishery, energy, water, and mineral economics.

465./565. Economic Development (3)

Prerequisites: ECON 310 and 311 with grades of "C" or better.

Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies.

470./570. International Trade (3)

Prerequisite: ECON 310 with a grade of "C" or better.

Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements.

471./571. International Finance (3)

Prerequisites: ECON 311 and 380 with grades of "C" or better.

Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes.

485. Introduction to Econometrics (4)

Prerequisites: ECON 310,311, and 380 with grades of "C" or better.

Introduction to econometrics, with a focus on understanding and applying the classical linear regression model. Emphasis placed on applications of regression analysis.

Letter grade only (A-F). Not open for credit to students with credit in ECON 585. (Lecture 3 hours, activity 2 hours)

486. Econometrics II (4)

Prerequisite: ECON 485 with a grade of "C" or better.

The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics.

(Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in: ECON 586.

490. Selected Topics in Economics (3)

Prerequisite: Consent of instructor.

Topics of current interest in economics selected for intensive development.

May be repeated to a maximum of 6 units. Topics announced in the *Schedule of Classes*.

491H. Senior Honors Seminar in Economics (3)

Prerequisites: Senior standing, ECON 485 or 486, and consent of instructor.

Provides opportunity for students to integrate their knowledge of economics, statistics-econometrics and computer studies. Designed as a seminar in research where students will be expected to write a paper and present their research results orally. Research topics must be approved by instructor.

495. Field Studies Practicum (3)

Prerequisites: ECON 310 or 333 and consent of instructor.

Observation and practical experience, at a managerial level, in an appropriate business or government enterprise.

Applications for permission to enroll must be filed with the Economics Department at least six weeks prior to beginning of the semester involved.

May be repeated to a maximum of 6 units.

499. Directed Study (1-3)

Prerequisite: Consent of instructor.

Independent study under the supervision of a faculty member.

May be repeated to a maximum of 6 units.

GRADUATE LEVEL

500. Business Economics (3)

Workings of the price system in resource allocation with special emphasis on the role of business in the economy. Analysis of the economic implications of various forms of industrial organization and the application of public policy to business activity.

Not open to students majoring in economics or pursuing an M.A. in economics. Letter grade only (A-F).

503. Mathematical Economics (3)

Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems.

Letter grade only (A-F). Not open for credit to students with credit in: ECON 403.

510./410. Advanced Microeconomics (3)

Prerequisites: ECON 403 or 503.

Applications of microeconomic theory. Detailed examination and analysis of particular markets and contemporary issues in light of economic theory. Specific emphasis on policy analysis for government and business decisions.

Letter grade only (A-F). Not open for credit to students with credit in ECON 510H.

511./411. Advanced Macroeconomics (3)

Prerequisites: ECON 403 or 503.

Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics.

Letter grade only (A-F). Not open for credit to students with credit in ECON 511H.

537. Urban Economics (3)

Economic analyses of city formation and size, business and residential location decisions, and land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods.

Letter grade only (A-F). Not open for credit to students with credit in: ECON 437.

538. Regional Economics (3)

Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations.

Letter grade only (A-F). Not open for credit to students with credit in ECON 438.

555./455. Transportation Economics (3)

Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways.

Letter grade only (A-F).

562./462. Environmental Economics (3)

Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined.

Letter grade only (A-F). Same course as ECON 462. Not open for credit to students with credit in ECON 462.

563./463. Energy Economics (3)

Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility. OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investor and publicly owned utilities, domestic and international policies.

Letter grade only (A-F). Same course as ECON 463. Not open for credit to students with credit in ECON 463.

564./464. Natural Resource Economics (3)

Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fishery, energy, water, and mineral economics.

Letter grade only (A-F). Same course as ECON 464. Not open for credit to students with credit in ECON 464.

565./465. Economic Development (3)

Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies.

Letter grade only (A-F).

570./470. International Trade (3)

Prerequisites: ECON 310.

Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements.

Letter grade only (A-F).

571./471. International Finance (3)

Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes.

Letter grade only (A-F).

585. Econometrics I (4)

First course in a two-semester sequence introducing students to basic techniques in econometrics. Basic statistics and the classical linear regression model are covered. Emphasis is given to computing estimators using simulated and actual data sets.

Letter grade only (A-F). (Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in ECON 485.

586. Econometrics II (4)

Prerequisites: ECON 585.

The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics.

Letter grade only (A-F). (Lecture 3 hours, activity 2 hours) Not open for credit to students with credit in ECON 486.

597. Directed Studies (1-3)

Prerequisite: Consent of instructor.

Intensive reading and/or practical research in economics.

Letter grade only (A-F).

660. Seminar in Natural Resources and the Environment (3)

Prerequisites: ECON 510, 511, 585, 586, and one of the following: ECON 562, 563 or 564.

Research methods applied to selected topics from energy, natural resources, and the environment.

Letter grade only (A-F). (Seminar 3 hours.)

666. Seminar in Transportation Economics (3)

Prerequisites: ECON 510, 511, 555, 585 and 586.

Advanced topics in transportation economics including passenger and freight transportation issues, congestion pricing, toll roads, mass transit systems, maritime economics, transportation regulation, firm performance, as well as welfare effects of transportation policy.

Letter grade only (A-F).

670. Seminar in International Trade and Development (3)

Prerequisites: ECON 510, 511, 585, 586, and one of the following: ECON 565, 570 or 571.

Selected topics dealing with current problems and solutions in international trade, finance, and development.

Letter grade only (A-F).

690. Seminar in Economics (3)

Prerequisites: ECON 510, 511, 585, 586, and consent of instructor.

Seminar on topics of current interest in economics.

May be repeated to a maximum of 6 units with different topics.

Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of instructor.

Independent research under the guidance of a faculty member.

Letter grade only (A-F).
