Students who earn a Home Economics Single Subject Teaching Credential (code 140) will be prepared to teach in middle, junior, and senior high schools, and in adult and career and technical education programs and community colleges. Career opportunities also include positions in cooperative extension, government, and community service agencies; and education program specialist positions in business, industry, and government.

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in Home Economics, prospective Family and Consumer Sciences teachers are also required to complete 45 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Family and Consumer Sciences Credential Advisor early to plan their program.

The Option in Family and Consumer Sciences Education is being revised to meet new state standards for subject matter competence for the Home Economics credential. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

2009/2010 CSULB Catalog • Family and Consumer Sciences Education • 381
Family and Consumer Sciences Education Courses (FCSCE)

287. Family and Consumer Sciences Computer Applications (1)
Development or improvement of computer skills for application in Family and Consumer Sciences discipline classes. Course consists of six modules that will be used to determine basic competency in spreadsheets, presentation software, word processing software, data base software, and communication tools.
Classes offered in online format. Credit/No Credit grading only. (Lecture Activity 1 hour).

290. Computer Applications for Family and Consumer Sciences Professions (3)
Prerequisites: Family and Consumer Sciences Education majors (FCS_BA02); ETEC 444, Fashion Merchandising majors (FCS_BA04); FMD 154 or 252, 155, 252, 253, FMD 154 or 252, 155, 252, 253.
Students will use computer paint-style, illustration and processing software and scanners to develop proficiency in drawing and designing for the workplace. They also will work with clip art, make technical drawings, storyboards, and color and fabric cards.
Letter grade only (A-F). (1 hour lecture discussion and 4 hours activity)

382. Family and Consumer Sciences Education (code FCS_BA02) (120 units)
CHEM 100; COMM 130; ECON 300; EDP 301; EDSS 300H; ETEC 444, HSC 411B; PSY 100, SOC 100 or ANTH 120; CAFS 223, 226, 321i, 322; CDFS 211, 312; FCSCE 286, 259, 482D, 489, 493; FMD 154, 251, 253; HFMH 173, 235, 276; NUTR 132; plus 12 units of one of the following concentrations:
Child Development and Education Occupations:
CDFS 214, 414, 416A, 416B;
Fashion Design, Manufacturing and Merchandising:
FMD 185, 381, 385, 487;
Food Service and Hospitality: HFMH 270, 375, 474, 477.
The candidates for the Home Economics Single Subject Credential must take professional education requirements.
The following courses have prerequisites in addition to classes listed in this FCSCE program of study:
1. HSC 411B - Current CPR (Cardio Pulmonary Resuscitation) Certification as a co-requisite.
2. FMD 355 - ELM (Entry Level Mathematics) test passage.
The following substitutions or waivers have been approved for students in the FCSCE program of study:
1. FMD 258 is waived in FMD 351 and FMD 355.
2. ACCT 201 is waived in FMD 355.
3. EDP 301 is substituted for CDFS 111 in all of the courses for which CDFS 111 is a pre-requisite. CDFS 211, 214, 414, 416A, 416B.
4. ETEC 444 is substituted for IS 233 in FMD 355.
5. FMD 253 is substituted for FMD 355.

299. Introduction to Family and Consumer Sciences (1)
Must be taken during first semester as Family and Consumer Sciences or Dietetics and Food Administration major. Provides a general overview of Family and Consumer Sciences as a discipline of study and a profession. Examines historical and philosophical perspectives and considers issues, trends, and career opportunities within each option in the department.
Letter grade only (A-F). (Lecture-Discussion 1 hour).

387. Electronic Portfolio Development for Family and Consumer Sciences Professionals (2)
Prerequisites: FCSCE 287 and upper division standing.
In-depth instruction in software applications such as graphics, spreadsheets, data bases, web pages, presentation and desktop publishing are applied to FCS professional portfolio development. Ethics, security, and trends are covered; troubleshooting techniques are applied.
Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours).

486. Instructional Strategies for Family and Consumer Sciences Professionals (3)
Prerequisite: Senior Standing.
Must be taken in one of the last two semesters prior to graduation. Utilizes the principles and concepts of each area of Family and Consumer Sciences in developing and implementing a variety of learning experiences appropriate for providing instruction to individuals or groups in informal education, business, government agencies, or other community settings.
Letter grade only (A-F). (Lecture-Discussion 2 hours, Laboratory 3 hours).

490. Special Topics (1-3)
Group investigation of selected topics. Topics will be announced in The Schedule of Classes. May be repeated to a maximum of 9 units. (Seminar 1-3 hours.)

492D. Internship in Family and Consumer Sciences (3)
Prerequisites: Student must be a Family and Consumer Sciences Education major, have senior standing, have a 3.0 overall GPA or a 3.5 major GPA; approval of a Family and Consumer Sciences Education faculty advisor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student under supervision must be approved by major advisor and form the basis for evaluation. May be repeated for 6 units maximum. (Seminar 3 hours.)

497. Directed Studies (1-3)
Prerequisites: Upper division standing, consent of instructor. Independent study under the supervision of a faculty member. Exploration and experience in areas which are not a part of any regular course.
May be repeated to a maximum of 6 units.

499. Professionalism and Leadership in Family and Consumer Sciences (2)
Prerequisites: FCSCE 299, CAFS 3211, 12 units of upper division coursework in Family and Consumer Sciences. Must be taken in one of the last two semesters prior to graduation. Analysis of contemporary issues, public policies and future directions of Family and Consumer Sciences as a discipline of study and as a profession with integrated specializations. Letter grade only (A-F). (Lecture-Discussion 2 hours)
FASHION MERCHANDISING AND DESIGN
College of Health and Human Services
Department of Family and Consumer Sciences

Department Chair: Wendy Reiboldt
Department Office: Family and Consumer Sciences (FCS) Bldg., Room 001
Telephone / Fax: (562) 985-4484 / 985-4414
Website: www.csulb.edu/colleges/healthandhumanservices/fcs

Faculty: Judith Arginlin, Lee Baker, Maria Claver, Gail C. Frank, Avery E. Goldstein, Janine E. Koval, Jacqueline Lee, Margaret Lichty, Suzanne Marshall, Nitin M. Medora, Wendy Reiboldt, Lydia Sondhi, M. Sue Starkey, Ramneet D. Tanna (Emeritus), Richard V. Tuvo, Jong-Moo (Bonnie) Yh
Baccalaureate Program Coordinator: Richard V. Tuvo
Graduate Coordinator: Jacqueline J. Lee
Single Subject Credential Advisor: Margaret Lichty
Administrative Support Coordinators: Miikol Lek, Marina Bondersky
Instructional Support Technician: Bonnie Rice

Career Possibilities
Promotions Specialists • Product Developers • National Promotions Directors • Costume Designers • Designers • Sales Representatives • Buyers • Visual Promotion Directors • Textile Textors (For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences
The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in six option areas of study:
• Child Development and Family Studies
• Consumer Affairs
• Family and Consumer Sciences Education
• Family Life Education
• Fashion Merchandising
• Textiles and Clothing

Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and is first accepted by the University.

Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Fashion Merchandising and Design
A B.A. in Family and Consumer Sciences; Fashion Merchandising or Textiles and Clothing enables students to pursue careers in the design, production and merchandising of textile and apparel products, and to meet individual and family textile and apparel needs.

Course requirements for a B.A. in Family and Consumer Sciences: Fashion Merchandising or Textiles and Clothing are:

Option in Fashion Merchandising
(code FCS_BA04) (120 units)
ACCT 201; CHEM 100 or 111A; CAFF 321; ECON 100 and 101 or 300; HIST 131 or AH 111A; IS 223; MKTG 300; PSY 100; SOC 100 or 142 or ANTH 120; FCS 206 or ART 140; FCS 299, 486 and 499; FM 154 or 252; 155, 251, 253, 258, 351, 353, 355, 492E; 12 units selected from FM 450, 455, 456, 457; or either FM 356 or 451; plus 9 units of advisor approved electives.

Each course on the student's program planner must be completed with a grade of “C” or better. In addition, a course which a grade lower than “C” is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a “C” may proceed with other courses with approval of the Area Coordinator.

Minor in Fashion Merchandising
(code FCS_UM02)
Eighteen units including FM 155, 252, 455 or 457; and 9 units, including at least 6 upper-division units, selected from FM 261, 263, 351, 395, 492E as approved by a Fashion Merchandising and Design faculty advisor. It is the student's responsibility to adhere to all prerequisites listed below. Several prerequisites fulfill general education requirements.
1. Prerequisites for FM 351: FMD 256 and FCS 296
2. Prerequisites for FM 355: ELM passage, ACCT 201; FMD 155, 256; and IS 223, or consent of instructor
3. Prerequisites for FM 455: FMD 351, 356; MKTG 300, senior standing or, consent of instructor
4. Prerequisites for FM 457: ECON 100 and 101 or 300 (fulfills G.E. Category D2b) and FMDS 353, senior standing, or consent of instructor
5. Prerequisites for FM 452E: FMD 451, 455 or 457

The Minor in Fashion Merchandising is available to any non-Fashion Merchandising and Design major.

Option in Textiles and Clothing
(code FCS_BA05) (120 units)
CHEM 100 or 111A; ECON 100 and 101 or 300; HIST 131 or AH 111A; SOC 100 or 142 or ANTH 120; CAFF 321; IS 223; FCS 206 or ART 140; FCS 299, 499; FM 152, 154, 155, 251, 253, 256, 257, 258, FMD 352, 353, 354, 357, 356, 450, 452, 454, 456, 457, 458, 492M.

Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.
Minor in Textiles (code FCS UM03)

Eighteen units including FMD 155, 253, 353, 458, and 457; 3 additional units selected from FMD 450 or 492E. It is the student's responsibility to adhere to all prerequisites listed below. It should be noted that several prerequisites fulfill general education requirements.

1. Prerequisites for FMD 353: FMD 253, FCSE 296 and CHEM 100 or 111A (fulfills G.E. Category B1b).
2. Prerequisites for FMD 450 (fulfills G.E. Category D2 and Global): Completion of GE Foundation courses; ANTH 120 or SOC 100 or 142 (fulfills G.E. Category D2) and upper division standing or consent of instructor.
3. Prerequisites for FMD 452: ECON 100 and 101 or ECON 300 (fulfills G.E. Category D2) and FMD 353, senior standing or consent of instructor.
4. Prerequisite for FMD 458: FMD 353, senior standing, or consent of instructor.
5. Prerequisite for FMD 492E: FMD 451, 455, or 457.

The Minor in Textiles is available to any non-Fashion Merchandising or Textiles and Clothing major.

Fashion Merchandising and Design Courses (FMD)

LOWER DIVISION

152. Quick Sketch for Fashion (3)

Technical drawings of garments and their design features. Letter grade only (A-F). (3 hours activity)

154. Fundamentals of Apparel Production (3)

Analysis of the interrelationships of apparel design and apparel construction. Application of theories and methods of apparel design to garment construction. Letter grade only (A-F). Only open to these majors: Textiles and Clothing (FCS_BA65); Fashion Merchandising (FCS_BA94); Family and Consumer Sciences Education (FCS_BA92). (Lecture-discussion 2 hours, Laboratory 3 hours)

155. Introduction to the Fashion Industry (3)

Organization, structure and interrelationship of industries and services that comprise the business of fashion: terminology, designers, trade organizations and publications. Professional opportunities explored. Letter grade only (A-F). (Lecture-discussion 3 hours)

251. Professional and Personal Apparel Selection (3)

Prerequisites: Completion of G.E. Foundation courses. Apparel selection for professional and personal needs based on design, culture and fashion. Wardrobe analysis and coordination; consumer clothing guidelines. (Lecture-discussion 3 hours)

252. Analysis, Evaluation and Comparison of Ready-to-Wear (3)

Analysis of the quality of materials, design and construction in ready-to-wear garments and accessories; comparison of processes involved in manufacturing; concepts of sizing, principles of fit, aids in buying and selling. (Lecture-discussion 3 hours)

253. Introductory Textiles (3)

A consumer-oriented approach to textile selection, use, and care. Provides a basis for a logical, consistent rationale in choosing apparel and interior textiles. Explores careers within the international textile industry. Letter grade only (A-F). (Lecture-discussion 3 hours)

256. Intermediate Apparel Production (3)

Prerequisites: FMD 154, 155 or 251. Continuation of construction techniques used in apparel production with concentration on current fabrics and techniques used in contemporary ready-to-wear. (1 hour discussion, 6 hours laboratory)

257. Introduction to Apparel Flat Pattern (3)

Prerequisites: FMD 152, 154, 155 or 251. Introduction to the design concept as it applies to flat pattern manipulation. Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours)

258. Fashion Merchandising and Design Practicum (3)

Prerequisite: FMD 154 or 252, 155, 251. Structured fashion retail work/learning experience designed to develop competencies in retail management or related fields. Students must obtain fashion retail salesperson position by first class period. Letter grade only (A-F). (Lecture-activity 3 hours)

UPPER DIVISION

351. Fashion Promotion and Sales (3)

Prerequisites: FMD 258, FCSE 296. Concepts, practices and procedures related to fashion promotion. Includes planning, directing and evaluating promotion activities such as visual merchandising, special events, publicity, and personal and non-personal selling. (Discussion 3 hours)

352. Computerized Apparel Flat Pattern (3)

Prerequisites: FMD 357, 359. Use of computer aided design software for apparel pattern development. Letter grade only (A-F). (Laboratory 6 hours)

353. Intermediate Textiles (3)

Prerequisites: CHEM 100 or 111A; FMD 253, FCSE 296. Interrelationship of fiber, yarn, structure, fabric geometry and finishing treatments to the textile's appearance, comfort, durability and maintenance. Letter grade only (A-F). (Lecture-discussion 2 hours, Laboratory 3 hours)

354. Analysis of Apparel Design and Tailoring (3)

Prerequisites: FMD 258 and 257. Analysis of traditional and contemporary processes in the design and production of tailored apparel. Application of apparel design and production process for couture, ready-to-wear, and individually produced garments. Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours)

355. Fashion Buying I: Planning and Buying Fundamentals (3)

Prerequisites: ELM Passase, NGCT 201, FMD 155, IS 233, FMD 258. Concepts, practices and procedures as well as calculations and computer applications as they relate to apparel retail profit. Includes inventory methods, operating statements and purchase planning procedures. Letter grade only (A-F). (3 hours lecture activity)
356. Fashion Buying 2: Planning and Buying Applications (3)
Prerequisites: FMD 355
Emphasis on developing a strategy for buying using concepts and skills developed in Fashion Buying 1. Buying tasks covered include: identifying and understanding potential customers, developing assortment plans, creating a six-month plan, and developing sales forecasts.
Letter grade only (A-F). (3 hours seminar)

357. Advanced Apparel Flat Pattern (3)
Prerequisites: ELM passage, FMD 253, 354.
Exploration of the total design concept as it applies to pattern manipulation.
Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours)

359. Advanced Computer Applications for Fashion (2)
Prerequisites: ICSL 256
Students refine their proficiency in drawing and designing apparel garments and fashion illustrations using computer paint style and illustration software.
Letter grade only (A-F). (6 hours activity)

450. Cultural Perspectives of Dress (3)
Prerequisites: Completion of G.E. Foundation courses; ANTH 120 or SOC 100 or 142 and upper division standing or consent of instructor.
Factors influencing design of textiles and apparel, techniques of textile and apparel production, and human behavior in the selection of dress in societies and cultural groups. Emphasis on symbolism of textiles and clothing designs as a communicative device for expressing social and cultural values. Impact of other cultures on western dress and impact of western dress on other apparel systems.
(Seminar 3 hours)

451. The Fashion Customer (3)
Prerequisites: FMD 351
Overview of theories on behavior of fashion customers and impact on fashion marketing strategies. Practical application on how to identify specific needs of fashion customers. Examination of impact of marketplace on fashion customers and of laws which protect them.
Letter grade only (A-F). (3 hours lecture discussion)

452. Apparel Draping (3)
Prerequisites: FMD 353, 357, 359 or consent of instructor.
Exploration of the total design concept as it applies to fabric manipulation.
Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours)

454. Experimental Apparel Design (3)
Prerequisites: FMD 452.
Exploration of clothing design and production through the experimental process. Individual investigation of the creative design process; evaluation of equipment, experiences with a variety of fabrics and techniques.
Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours)

455. Global Perspectives in Fashion Merchandising (3)
Prerequisites: FMD 351, 355, and MKTG 300, senior standing or consent of instructor.
Application of merchandising concepts for the budgeting, buying, promoting, and selling of fashion goods and apparel in global retail organizations.
Letter grade only (A-F). (Discussion 3 hours)

456. Historic Perspectives of Fashion (3)
Prerequisites: FMD 251, 253, HIST 131 or AH 111A.
Social, political, economic, geographic and religious forces that affect styles of fashion from antiquity to the present day. Emphasis is on the relationship of historic styles to current fashion. Primary focus is on the fashion influences of the western world.
Letter grade only (A-F). (Seminar 3 hours)

457. International Textiles and Apparel (3)
Prerequisites: ECON 100 and 101 or 300, FMD 353, senior standing, or consent of instructor.
Provides a framework whereby students critically examine the global textiles and apparel industry with emphasis on acquiring basic concepts of global trade. Historical, current, and future processes of globalization are analyzed including the importance of ethics and social responsibility.
Letter grade only (A-F). (3 hours lecture activity)

458. Fashion Product Development (3)
Prerequisites: FMD 353, senior standing, or consent of instructor.
The process of designing and engineering fashion products to be serviceable, producible, salable and profitable for various consumer market segments.
(Discussion 3 hours) Letter grade only (A-F).

492E. Internship in Fashion Merchandising (3)
Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Fashion Merchandising; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design, consent of the instructor; and FMD 451 or 455 or 457.
Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student and supervisor must be approved by major advisor and form the basis for evaluation.
May be repeated for 6 units maximum. (Seminar 3 hours)

492M. Internship in Apparel Design (3)
Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Textiles and Clothing; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design, have consent of the instructor; and FMD 452 or 454. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student and supervisor must be approved by major advisor and form the basis for evaluation.
May be repeated for 6 units maximum. Letter grade only (A-F). (Seminar 3 hours)
FILM AND ELECTRONIC ARTS
College of the Arts

Department Chair: Craig R. Smith
Department Office: University Telecommunications Center (UTC), Room 104
Telephone: (562) 985-5404
Faculty: Jack Anderson, Michael Berlin, Tom Blomquist, Sharyn Blumenfeld, Brian Alan Lane, Jerry Mosher, Michele C. Pounds, Jose Sanchez-H., Craig R. Smith, Diana Wagman
Administrative Coordinator: Donna Thomas
Instructional Support Technician: Steve Hubbert
Information Technology Consultant: Robert Pihy

Career Possibilities
Technical Director • Sound Effects Technician • Film Editor • Producer • Director • Screenwriter • Script Reader • Studio Operations Engineer • Sales Representative for Video Equipment • Teacher • Media Specialist • Public Relations Specialist • Sound Technician • Filmmaker • Cinematographer • Costume Designer • Production Coordinator
(Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
Film and Electronic Arts is an innovative program that emphasizes both theory and practice. Focusing upon the integration of media and the arts, as well as upon the impact of technology on our culture, the curriculum is designed to provide technical skills while developing a foundation in the arts and the humanities.

The faculty provides a variety of expertise and interests which cross traditional media lines while integrating the traditional film, audio, and video production modes.

Career Possibilities

Admission Under Impaction
To be eligible for admission to the major in Film and Electronic Arts, applicants must demonstrate the following prior to the semester for which the application is submitted.

Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have a minimum grade point average of 3.0. The number of applicants who can be admitted is limited by space availability. A minimum of 42 semester units applicable to a CSULB degree must have been completed prior to the term for which admission to the major is sought. Eligible applicants will be selected for admission based on cumulative grade point average.

Transfer students must apply to the University during the initial filing periods for fall or spring semesters.

Currently enrolled students who meet the requirements listed above must submit an Application to the Upper-Division Major form to the Film and Electronic Arts Department by February 1 for the fall semester or October 1 for the spring semester.

Supplemental Screening Criteria
1. During or before the first semester as a declared major, students must complete FEA 299 with a grade of "B" or higher.
2. Students must attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) by the end of the semester in which FEA 299 is completed.
3. Completion of ART 110 or AH 111B.

Students who fail to meet the supplemental screening criteria may not continue in the major and may re-apply only once in accordance with University policy regarding impacted majors.

Bachelor of Arts Film and Electronic Arts

Two B.A. degree options are offered by the department: one in Film and Electronic Media (code FEA_BA01) and one in Film and Video Production (code FEA_BA02).

Students in both options must complete all requirements, prerequisites, and electives in residence at the upper division level.

Option in Film and Electronic Media (code: FEA_BA01) (120 units)

51 units required for the major.

Students are admitted to this option by virtue of meeting the Admission Requirements and Supplemental Screening Criteria listed above.

Requirements
1. Major screening course: FEA 299 with a "B" or better.
3. Media Practice Core (choose two courses from one of the following tracks for a total of 6 units)
   A. Post-Production: FEA 307, 320, 322, 415, 416
   B. Management: FEA 322, 327, 376
   C. Writing: FEA 303, 304, 322, 404, 408
   D. Animation: FEA 337, 437
4. Culture, Media, and Politics (choose three): FEA 310, 317, 318, 380, 394, 412, 466
5. International Media (choose three): FEA 392A, 392B, 392C, 392D; only one of the following may be used to meet this requirement: FEA 454/ITAL 454, FEA 456/FREN 456, FEA 457/GERM 450, FEA 458/RUSS 428, SPAN 428
6. Electives (12 units): This requirement can be met with a sequence of elective courses in FEA. With prior advisor approval, certain non-FEA courses may be counted toward this requirement.
7. Senior Thesis Course: FEA 401.

Option in Film and Video Production (code: FEA_BA02) (120 units)

51 units required for the major.

Students meeting the requirements for admission to the major may apply for admission into the production option by presenting a portfolio to the department in January of their
Minor in Film and Electronic Arts  
(code FEA_UM01)

Total Units Required: 21 units.

Students are admitted to the minor after having completed a minimum of 30 units of college-level course work including all 12 units of General Education Foundation courses with a cumulative GPA of 3.0 or higher.

Requirements
1. Complete FEA 299 with a "B" or better.
2. Complete FEA 206, 303, 310.

Students should consult a departmental advisor regarding ways by which elective units can be grouped into specialized tracks. For example, a basic management skills set might include 327, 376; a basic sound mixing skills set would include 307 and 320; a documentary track would include 380, 382, and 383. Program planners are available from departmental advisor.

Courses (FEA)

LOWER DIVISION

205. Film History (3)
Prerequisites: Major status, FEA 299.
Historical development of cinema.
Letter grade only (A-F).

206. History of Broadcasting (3)
Prerequisites: Pre-major or Major status.
Historical development of broadcasting media and technology with examination of interrelationships between forms, industry, social trends, and culture.
Not open for credit to students with credit in FEA 300. Letter grade only (A-F).

299. Media Aesthetics (3)
Prerequisites: Pre-major or Major status.
Study of aesthetic principle governing media productions. Emphasis on relationships between various art forms and development of critical vocabulary.
Letter grade only (A-F). Not open for credit to students with credit in FEA 599.

UPPER DIVISION

302. Classical Film Theory (3)
Prerequisites: Major status, FEA 299 with "B" or better, or consent of instructor.
Introduction to classical and critical theories of film analysis including Formalism, Realism, Classical Hollywood Cinema, the Auteur Theory, Art Cinema, Genre Studies, and Structuralism.
Letter grade only (A-F).

303. Film and Electronic Media Writing (3)
Prerequisites: Major status, FEA 299 with "B" or better and or consent of instructor.
Study of scripting and other writing skills unique to audio, video, and film.
Letter grade only (A-F).
304. Writing the Short Script (3)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Scriptwriting with emphasis on adaptation and dramatic fiction.
Letter grade only (A-F).

307. Audio Production (3)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Basic principles and techniques of audio production.
Letter grade only (A-F). Course fee may be required. (3 hours lab)

309. Production I: Cinematography (3)
Prerequisite: Admission to Option in Film/Video Production. Basic principles of cinematography and lighting.
Letter grade only (A-F). Course fee may be required. (3 hours laboratory)

310. Media, Ideology and Culture (3)
Prerequisites: Completion of General Education Foundation requirement.
Exploration of the ways media create, pattern, shape, reinforce and/or change culture. Variety of viewpoints, derived from contemporary critical and cultural studies, highlights relationship between culture and images.

312. Television Programming Symposium (3)
Discussion and analysis of creative problems in television industry, current local and network programs. Interviews with visiting executives, producers, directors, writers, performers and technicians.
May be repeated to a maximum of 6 units, only 3 units may be used as credit toward major.

313. New Technologies in Film and Electronic Media (3)
Prerequisites: FEA 206.
Study of developing technologies in film and electronic media, production, distribution, and exhibition. Focus on economic, social, and policy issues raised by technological innovation and the impact of new technology on the industry.
Letter grade only (A-F).

314. Theatrical Film Symposium (3)
Lectures and discussions of creative problems in motion picture industry, current films; interviews with visiting producers, directors, writers, performers and technicians.

316. Mass Media and Popular Culture (3)
Prerequisite: Completion of General Education Foundation requirement.

317. Women in the History of U.S. Film (3)
History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective.
Same course as WSSS 316. Not open for credit to students with credit in WIST 316 or WSSS 316.

318. Theory of Fiction and Film (3)
Prerequisites: Completion of the G.E. Foundation, one or more G.E. Explorations courses, and upper-division standing.
Examination of narrative methods and conventions of American and British fiction and methods and conventions of film; consideration of relationships between artistic structure of fiction and film; study of theoretical and practical approaches to fiction and film.
Same course as ENGL 318. Not open for credit to students with credit in ENGL 318.

320. Sound Design (3)
Prerequisites: Major status, FEA 307
Examination of the basic aesthetic and technical principles of sound design for film and video production.
Letter grade only (A-F). (9 hours lab)

322. Diverse Media: Writing and Production (3)
Diverse Media: Writing/Production
Prerequisite: Major status or consent of instructor.
Workshop in professional writing and production of film, television, theatre, and diverse media. Working as a group, students develop, and exhibit creative works. Provides a professional production experience covering various genres and formats. Not open for credit to students with credit in FEA 403. Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

325. Audio Activity (2)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Group and individual experience in audio production. Specific assignments determined in consultation with instructor.
Credit/No Credit grading only. May be repeated to a maximum of 4 units in different semesters. (4 hours lab)

327. Production Management (3)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Examination of the step-by-step process of budgeting and scheduling feature length motion pictures. Students will learn methods and procedures of breaking down a script, analyzing production elements, preparing a production board, scheduling principal photography, and preparing a comprehensive budget.
Letter grade only (A-F).

328. Film and Video Lighting (3)
Prerequisites: FEA 309. Priority enrollment given to students in Film/Video Production Option.
Examination of the basic aesthetic and technical principles of film and video lighting. Students will explore various creative lighting styles and techniques through lectures and practical exercises.
Letter grade only (A-F).

335. University Television Activity (2)
Prerequisites: Consent of instructor.
Experience in administration and production of video projects at the University Television facility.
Credit/No Credit grading only. May be repeated to a maximum of 4 units. (4 hours lab)

336. Production II: Film Production (3)
Prerequisite: Admission to Option in Film/Video Production; Corequisites: FEA 328.
Preparation for the advanced level of film and video production through research and exercises designed to develop essential filmmaking and video graphic skills.
Letter grade only (A-F). Course fee may be required. (Production laboratory 9 hours)

337. Digital Arts Production (3)
Prerequisite: Major status or consent of instructor.
Techniques and concepts involved in production of visual effects, computer animation, and interactive media. Through screenings, fieldtrips and hands-on production, students explore art and science of digital graphics, 3D-compositing, and 3D-animation. Culminates in development of digital elements for student production.
Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.
338. Television Studio Production (3)
Prerequisites: Major status, FEA 299 or equivalent or consent of instructor.
Course will provide an introduction to principles, techniques and technologies of television studio production, with emphasis on multiple camera approaches to interview, sitcom, music performance and public affairs programs.
Letter grade only (A-F). (Laboratory 9 hours)

339. Commercials for Electronic Media (3)
Prerequisites: Junior/Senior standing or consent of instructor.
Experience of creating, writing and producing commercials that entertain, demonstrate and motivate the target audience.
Letter grade only (A-F).

340. Production III: Advanced Production A (3)
Prerequisites: FEA 336 and approved enrollment in Advanced Narrative Production Track. Experience in group production of original films and videos.
Emphasis is on narrative short projects. Students are required to collaborate with advanced cinematography students in FEA 341.
Letter grade only (A-F). Course fee may be required.

341. Advanced Cinematography I (3)
Prerequisites: FEA 328 and 336 and approved enrollment in Advanced Cinematography Track.
Designed to further student's understanding of art and craft of cinematography, especially lighting, exposure, composition, lenses, film stocks, video formats, filters, telecine, and lab procedures. Students are required to shoot and edit on advanced narrative projects produced in FEA 330.
Letter grade only (A-F). (9 hours laboratory) Course fee may be required.

342. Production IV: Advanced Production B (3)
Prerequisites: FEA 340 and approved enrollment in Advanced Narrative Production Track.
Experience in post production and completion of original films and videos resulting in public exhibition. Emphasis is on film editing.
Letter grade only (A-F). (Laboratory 9 hours)

343. Advanced Cinematography II (3)
Prerequisites: FEA 341 and approved enrollment in Advanced Cinematography Track.
Designed to further student's understanding of art and craft of cinematography. Emphasis is on individual research into specific issues of film and video image making and production of short film and video projects in support of research.
Letter grade only (A-F). (9 hours laboratory) Course fee may be required.

344. Directing (3)
Prerequisites: Admission to the Option in Film/Video Production.
Theory and practical experience in directing of narrative film. Emphasis on directing actors in fictional work.
Letter grade only (A-F).

346l. The European Cinema of Communism, Fascism and Resistance (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division standing.
Focuses on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in-between and following the two world wars. The ensuing and ongoing resistance movements will also be examined.
Same course as HIST 346, RGR 346. Not open for credit to students with credit in HIST 346L, RGR 346L.

350. Hollywood Does Rome (3)
Prerequisites: CLSC 100 or 101 or 202 or consent of instructor.
An investigation of the filmmaker's motives and the methods they have used to portray the ancient Romans from the beginnings of cinema to the present. Topics include "imagining" the past, the "power" of the image, community and society, cultural imperialism, film theory, "language" of myth, and reception theory.
Same course as CLSC 350. Not open for credit to students with credit in CLSC 350.

355. Audio-Video-Film Activity (1)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Group and individual experience in areas of audio-video-film production, and broadcast education. Specific assignments determined in consultation with instructor.
Credit/No Credit grading only. May be repeated to a maximum of 2 units. (2 hours lab)

360. Independent Television Field Production (3)
Prerequisite: FEA 338 or consent of instructor.
Introduction to the creative and managerial requirements of independent television program production. Direct experience with field production for an independent television production company that supplies ongoing cable programming.
Letter grade only (A-F).

378. Film and Electronic Media Sales and Promotion (3)
Prerequisites: Major status, FEA 299 with "B" or better or consent of instructor.
Study of marketing, promotion, and sales among film distributors, production companies, program suppliers, broadcast networks, cable systems, local radio, television, and cable operators. Theory and application of media research principles, promotion strategies, Development of selling skills.
Letter grade only (A-F).

380. Documentary History and Theory (3)
Prerequisites: FEA 206 and 302 or consent of instructor.
Critical study of history, methods, and aesthetics of documentary production. Focus on problems of representation, objectivity, and personal style.
Letter grade only (A-F).

381. Directing the Documentary (3)
Prerequisite: FEA 336. Conquisite: FEA 380.
Exploration of theory and practice of documentary filmmaking. Emphasis on relationship between documentary and fiction film. Production requirement will include shooting and editing a 5-10 minute documentary film/video.
Letter grade only (A-F). Course fee may be required. (Laboratory 9 hours)

382. Digital Documentary Production I (3)
Prerequisites: FEA 336 or consent of instructor.
Theory and practice: researching, structuring, writing, directing and producing a comprehensive digital video documentary (to be completed in FEA 383) with equal emphasis on the interview and visual storytelling.
Letter grade only (A-F). Course fee may be required. (9 laboratory hours)

383. Digital Documentary Production II (3)
Prerequisites: FEA 302 or consent of instructor.
Theory and practice: producing and editing a comprehensive digital video documentary with special emphasis on narration, sound effects, and music. This will entail the completion through post-production of videos begun in FEA 382.
Letter grade only. (Laboratory 9 hours)
392. International Cinema (3)
Prerequisites: FEA 206 and 302, or consent of Instructor.
Variable topics explore domain of international cinema.
Topics announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.
A. European Cinema 1930-1980
B. European Cinema 1960-1990
C. Latin American Cinema
d. Japanese Cinema
E. Spanish Cinema
(Same course as SPAN 428. Not open for credit to students with credit in SPAN 429)

394. American Film Genres (3)
Prerequisites: FEA 206 and 302 or consent of instructor.
Historical and critical examination of Hollywood film genres.
Genres include Western, film noir, science fiction/horror, detective/ gangster, musical, war films, Seventies and family melodrama.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters.

401/501. Contemporary Film Theory (3)
Prerequisites: FEA 206 and 302 or consent of instructor.
Study of contemporary theoretical models of film analysis and
evaluation. Topics include: spectators, Post-Structuralism, Feminism, Psychoanalytic theory, Narratology, Cultural Studies, Postcolonialism, queer theory, Postmodernism, and Reception Studies.
Letter grade only (A-F).

404. Advanced Scriptwriting for Film and Electronic Media (3)
Prerequisites: FEA 303 or 304 with a "D" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor.
Writing dramatic and comedic screenplays and teleplays. Includes study of produced models with emphasis on the creative process.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

405/505. Comedy Writing (3)
Prerequisites: FEA 303 or 304 with a "D" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor.
Study of a variety of historical and contemporary models. Practice in the creation of pilot pieces: stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism.
Letter grade only (A-F).

408/508. Writing the Screen Adaptation (3)
Prerequisites: FEA 303 or 304 with a "D" or better, or ENGL 405 or 407 with a "D" or better, or 508, approval of the MFA (Screenwriting) Coordinators or consent of instructor.
Writing script adaptations, with a study of adaptation theory and successful adaptional models.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

412. American Television and African Americans (3)
Prerequisites: FEA 206 and 310 or consent of instructor.
Comparative examination of the depiction of African Americans in American network and syndicated television in a variety of types of programs.
Letter grade only (A-F).

415. Media Editing (3)
Prerequisites: Admission to the Option in Film/Video Production or consent of instructor.
Principles of non-linear editing in post-production.
Letter grade only (A-F).

416. Advanced Media Editing (3)
Prerequisites: FEA 415, Admission to Option in Film/Video Production or consent of Instructor.
Advanced course in which students edit a project from dailies to final master, using new AVID Media Composer HD, Final Cut Pro, and principles of Hi-Def.
Letter grade only (A-F).

437. 3D Computer Animation (3)
Prerequisites: FEA Majors only, FEA 337 or permission of instructor.
Techniques and concepts in the production of 3D computer animation for short and feature length productions, visual effects and games.
Letter grade only (A-F).

438. Television Studio Directing (3)
Prerequisites: FEA 338 or consent of instructor.
Advanced seminar expanding on the principles, techniques, and technologies of television studio production. Emphasis on multiple camera directing of interview, sitcom, music performance, and public affairs programs.
Letter grade only (A-F). (3 hours laboratory)

454. Italian Cinema (3)
Historical and critical examination of Italian cinema.
Letter grade only (A-F). Same course as ITAL 454. Not open for credit to students with credit in ITAL 454.

456. French Cinema (3)
Historical and critical examination of French cinema.
Letter grade only (A-F). Same course as FREN 456. Not open for credit to students with credit in FREN 456.

457. Between Berlin and Hollywood: German Cinema (3)
Acquaint students with art of the medium, and history of German film, particularly as it is realized through work of the artist most responsible for its success or failure, in this case, the director.
Letter grade only (A-F). Same course as GERH 456. Not open for credit to students with credit in GERH 456.

458. Russian Cinema (3)
Prerequisites: Upper division standing.
Focuses on socio-political and aesthetic aspects of Russian Cinema, delineating following periods: Soviet Silent Cinema, Socialist Realism, Cinema under Thaw, Cinema under Brezhnev and contemporary cinema.
Letter grade only (A-F). Same course as RUSS 428. Not open for credit to students with credit in RUSS 428.

461. Alternative Media (3)
Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and Upper-Division standing.
Critical study of censorship and suppression of information in mainstream media by governmental and corporate entities. Focus on importance of freedom of information and access to diverse viewpoints. Students research environmental, multicultural, peace, and other issues utilizing alternative media.

490/590. Special Topics in Film and Electronic Arts (3)
Major topics. For 590: Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional classified or Full Status in the MFA (Creative Writing Degree Program, or consent of instructor.
Topics of current interest in radio-television-film studied for intensive development.
Topics will be announced in the Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics; only 6 units may be applied toward the U.A.
492. Internship (3)
Prerequisites: Senior standing in major or consent of instructor.
Students intern with cooperating media facilities.
Credit/No Credit grading only. May be repeated to a maximum of 6 units. (6 hours lab)

498./598. Advanced Seminar (3)
Prerequisites: FEA 299 with a "B" or better and senior standing in the FEA major. For 598: Conditional Classified Status in the MFA (Screenwriting) Degree Program or consent of instructor.
Intensive study of significant issues in film and electronic media.
Letter grade only (A-F).

499./599. Special Projects in Film and Electronic Arts (1-3)
Prerequisites: Major status. FEA 299 with a "B" or better. For 599: Conditional Classified Status in the MFA (Screenwriting) Degree Program or consent of instructor.
Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

GRADUATE LEVEL

501./401. Contemporary Film Theory (3)
Prerequisites: FEA 302 and 406/506 and an additional 6 units in film studies or consent of instructor.
Study of contemporary theoretical models of film analysis and evaluation. Topics include: Spectatorship, Post-Structuralism, Feminism, Psychoanalytic Theory, Narratology, Cultural Studies, Postcolonialism, Queer Theory, Postmodernism, and Reception Studies.
Letter grade only (A-F).

505./405. Comedy Writing (3)
Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 457 with a "B" or better, or consent of instructor.
Study of a variety of historical and contemporary modes. Practice in the creation of print pieces; stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism.
Letter grade only (A-F).

508./408. Writing the Screen Adaptation (3)
Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 457 with a "B" or better. For 508: approval of the MFA (Screenwriting) Coordinators or consent of instructor.
Writing script adaptation, with study of adaptation theory and successful adaptation models.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

590./490 Special Topics in Film and Electronic Arts (3)
Prerequisites: Major status. For 590: Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or consent of instructor.
Topics of current interest in film and electronic arts selected for intensive development.
Topics will be announced in the Schedule of Classes. Letter grade only (A-F). May be repeated for a maximum of 9 units with different topics, only 6 units may be applied toward the B.A.

598./498 Advanced Seminar (3)
Prerequisites: FEA 299 with a "B" or better and senior standing in the FEA major. For 598: Conditional Classified Status in the MFA (Screenwriting) Degree Program or consent of instructor.
Intensive study of significant issues in film and electronic arts.
Letter grade only (A-F).

599./499. Special Projects in Film and Electronic Arts (3)
Prerequisites: Major status, FEA 299 with a "B" or better. For 599: Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or consent of instructor.
Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

604A. Graduate Seminar in Dramatic Writing (3)
Prerequisites: FEA 604A and consent of instructor.
Advanced workshop in intensive thematic and collaborative writing, reading, criticism, media history, aesthetics, and instructional paradigms, as students write, workshop, revise, and complete a long-form screenplay.
Letter grade only (A-F).

604B. Graduate Seminar in Dramatic Writing (3)
Prerequisites: FEA 604A and consent of instructor.
Advanced workshop in intensive thematic and collaborative writing, reading, criticism, media history, aesthetics, and instructional paradigms, as students write, workshop, revise, and complete a long-form screenplay.
Letter grade only (A-F).

604C. Graduate Seminar in Dramatic Writing (3)
Prerequisites: FEA 604A and 604B, or consent of instructor.
Advanced workshop in intensive and collaborative writing for media, including long-form screenplay development and drafted to completion by class as a group, then submitted to industry professionals, and finally revised pursuant to creative commentary and business necessity.
Letter grade only (A-F).

604D. Graduate Seminar in Dramatic Writing (3)
Prerequisites: FEA 604A and 604B, or consent of instructor.
Advanced seminar and intensive workshop in creative writing, reading, criticism, media history, aesthetics, and the teaching of a creative writing curriculum. Course leads students to completion of their Thesis Project Proposal.
Letter grade only (A-F).
Option in Finance (code FIN__BS01) (120 units)

The objective of the finance curriculum is to prepare students for a successful career in business with an understanding of the financial decision making process and its impact within the overall framework of the business enterprise. The finance curriculum offers education in the management techniques and regulations applicable to financial management and investments. The curriculum draws on fundamental knowledge of statistics, computer logic and economics to develop advanced financial concepts. It explores the historical and current roles of various financial institutions and regulatory authorities; details the basic principles and techniques for valuing financial instruments on the basis of fundamentals and/or historical pricing trends; explores the methods of managing risk; and examines financial principles that govern international trade. The finance major may direct the concentration toward financial management or investments.

The financial management concentration provides an opportunity for the student to gain an understanding of the role of finance in the corporate environment. An understanding of investments at both the corporate and personal level is the objective of the investments concentration. Within these concentrations students are provided with an opportunity to gain an understanding of the role of the various aspects of law in a business context, including the development of a comprehensive understanding of business ethics.

Financial Management Concentration
1. FIN 350, 400, 470, 490.
2. Three units selected from: FIN 360, 370.

Investments Concentration
1. FIN 390, 450, 485.
2. Six units selected from: FIN 400, 410, 480, 490, or 499A and 499B.

Financial Institutions Concentration
1. FIN 350, 360, 400.
2. Six units selected from FIN 330 or 340, 460, 490.

Financial Engineering Concentration
1. FIN 350, 480, 485, 487.
2. Three units selected from: FIN 410, 450, 490, and a course in computer programming that is subject to approval of Department Chair.

Due to limited number of available openings, applicants will be chosen according to GPA, interest level, and personal interviews. Contact Finance department for further qualification requirements.

Undergraduate Programs

Bachelor of Science in Business Administration

Requirements
In order to graduate with an undergraduate business degree from CSULB, a student must complete a minimum of 120 units. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.
1. ACCT 201, ECON 100, 101; BLAW 220, MATH 108 or 114, 115, and PHIL 160 or 170.
2. All business and pre-business majors shall demonstrate computer literacy and competency prior to taking junior and senior level courses. Requires one of the following:
   A. Passing score (70%) on the Computer Proficiency Examination (CPE).
   B. Completion of IS 233 with Credit (C) or "C" or better grade in a transfer equivalent course.
3. Upper Division:
   A. CBA 300; ACCT 310; ECON 333; FIN 300; BLAW 320; IS 300, 301, 310, HRM 360, MGMT 300, MKTG 300.
   B. MGMT 425 (Capstone) must be taken at CSULB as a senior and after the upper division prerequisite core courses have been completed (ACCT 310, FIN 300, MGMT 300, MKTG 300, IS 301).
4. Completion of Finance, Real Estate and Law Option requirements.
5. Elective courses to total 120 units. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for preparation for business employment.
Courses (FIN)

UPPER DIVISION

300. Business Finance (3)
Prerequisites: ACCT 201 or equivalent, MATH 108 or MATH 115 or equivalent, ECON 100 or ECON 101 or equivalent.
Introductory course for all business majors. Integration of computer applications and management information systems in: (1) Time Value of Money, Risk, Valuation, Cost of Capital; (2) Capital Budgeting; (3) Long-Term Financing Decisions; (4) Working Capital Policy and Management; (5) Financial Analysis and Planning; (6) International Finance; (7) Special topics including Mergers, Acquisition and Bankruptcy.
Letter grade only (A-F).

309i. The Consumer in the Legal and Economic Environment (3)
Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses; upper-division standing.
Economic and ethical components of consumer issues integrated with consumer law. Economic, legal and regulatory environment of consumers for disputing regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships.
(Lecture Discussion 3 hours.) Same course as CA/F 309i. Not open for credit to students with credit in CA/F 309i.

310. Personal Finance (3)
Financial analysis planning and management for the individual.
Topics include owning and financing a home, minimizing taxes, goals and strategies for investing, budgeting, savings plans, controlling expenses and credit usage, determining insurance needs, and planning retirement.
Letter grade only (A-F).

330. Insurance Principles (3)
Principles of risk-bearing and insurance. Life and property-liability insurance needs of the individual. Types of carriers and insurance markets; organization and functions of carriers; industry regulation.
Letter grade only (A-F).

340. Real Estate Principles (3)
Real estate markets, institutions and activities from the perspective of the decision makers involved in real estate. Fundamental physical, legal, regulatory, economic, mathematical and taxation considerations influencing real estate decision and values.
Letter grade only (A-F).

350. Investment Principles (3)
Prerequisite: FIN 300.
Investment markets and transactions; sources of investment information; return vs. risk; margin trading and short selling; investment planning; investing in equities and fixed income securities; speculative tax-sheltered investments; gold and other tangibles; portfolio management. Demonstrations and use of microcomputer technology.
Letter grade only (A-F). Course fee may be required.

360. Capital Markets (3)
Capital formation, rates, markets and institutions. Flow of fund analysis, intermediation, interest rate structures, risks and liquidity.
Letter grade only (A-F).

370. Working Capital Management and Cash Budgeting (3)
Prerequisite: FIN 300.
An introduction to working capital management and policy issues in general and how to manage short term assets and liabilities in particular. Cash forecasting and budgeting and short term investing and financing will be the focus of the course.
Letter grade only (A-F).

400. Intermediate Financial Management (3)
Prerequisites: FIN 300 and ACCT 310 or 320, IS 301.
An intermediate-level, lecture-discussion course in corporate finance. Topics include: cash budgeting, capital budgeting, business acquisition and mergers, cost of capital, and international finance.
Letter grade only (A-F).

410. Microstructure on Institution Services (3)
Prerequisites: FIN 300, IS 301.
Capital markets ranging from securities trading to corporate financing through private placement under public offerings.
In class trading simulations. Various market trading structures; various financing techniques as permitted under the SEC regulations. Use of simulation software.
Letter grade only (A-F).

450. Portfolio Analysis (3)
Prerequisite: FIN 300, IS 301.
Microcomputer technology to perform security analysis including bonds and the bond market, stocks and the stock market, security valuation, fundamental and technical analysis, portfolio management and risk-reward relationships. Microcomputer software programs that perform security analysis and portfolio management, numerous databases.
Letter grade only (A-F). Course fee may be required.

460. Management in Financial Institutions (3)
Prerequisites: FIN 300, IS 301.
Students will be introduced to management of banks and other depository financial institutions.
Banking trends and introductory topics. Asset and Liability Management. Capital adequacy and Management of investment portfolios will be the main focus of the course.
Letter grade only (A-F).

470. Seminar in Financial Management (3)
Prerequisites: FIN 300, IS 301.
This course is designed to enhance students' comprehension of finance theories through case studies. The subject of each designed case is related to specific finance subjects including estimation of cost of capital, resource allocation and capital budgeting, IPOs, stock repurchase, dividend policy, agency cost, and mergers and acquisitions.
Letter grade only (A-F).

480. Derivatives (3)
Prerequisites: FIN 300 and 350, IS 301.
Exchanges, operation of firms, trading mechanics, and construction of a personal-risk profile analysis. Traditional decision variables, including construction of a 2-term portfolio. Basis in futures prices, theory of storage prices, hedger and speculator behavior, and stochastic nature of futures prices.
Letter grade only (A-F). Course fee may be required.

485. Fixed Income Securities (3)
Prerequisites: FIN 300, IS 301.
The course analyzes fixed income securities option embedded fixed income securities and interest rate derivatives. Usual duration and convexity analysis, and the interest rate stochastic processes and other forecasting techniques will be studied. New trends of fixed income securities, various collateralized bond obligations and other asset backed securities, and interest rate arbitrage techniques will be introduced.
Letter grade only (A-F).

2009/2010 CSULB Catalog • Finance • 393
487. Mathematical Modeling in Finance (3)
Prerequisite: FIN 300, IS 301.
Various mathematical and statistical tools will be used in building financial models. Basic mathematical and statistical tools and how these quantitative tools can be utilized in real world valuation models will be demonstrated. The course also applies the languages to the implementation of various quantitative financial models.
Letter grade only (A-F).

490. International Finance (3)
Prerequisite: FIN 300, suggested, CBA 300, IS 301.
International trade theories, international payments, currency value fluctuations and exchange rates, international capital markets, roles of developing countries, international institutions and multinational enterprises. Individual research required.

495. Selected Topics (1-3)
Prerequisite: Consent of instructor, IS 301.
Intensive study of current topics of interest in finance. May be repeated to a maximum of 6 units. Topics will be announced in the Schedule of Classes.

497. Directed Studies (1-3)
Prerequisites: Consent of instructor and Department Chair; on Dean's List and 3.0 GPA or higher in finance. Individual projects, study and research of advanced nature in finance.

499A-B. Applied Portfolio Management (3-3)
Prerequisites: FIN 499A: FIN 350, 400, 450 (either or both FIN 400 and 450 may be taken concurrently), and consent of instructor and Department Chair; IS 301; FIN 499B: FIN 459A and consent of instructor and Department Chair; FIN 499A to be offered in Fall and accepted students must enroll in FIN 499B in Spring.
Participation in management of actual investment portfolio. Research, monitor, and analyze securities and make, buy and sell recommendations for a student-managed investment fund. Contribute to publication of semi-annual fund report. Market, sector and firm analysis with presentations and outside research. Letter grade only (A-F).
FOOD SCIENCE
College of Health and Human Services
Department of Family and Consumer Sciences

Department Chair: Wendy Reiboldt
Department Office: Family and Consumer Sciences (FCS) Bldg., Room 001
Telephone / Fax: (562) 985-4484 / 985-4414
Website: www.csulb.edu/colleges/chh/department/fcs

Faculty: Judith Argin, Lee Blecher, Maria Claver, Gail C. Frank, Avery E. Goldstein, James E. Koval, Jacqueline Lee, Marjorie Lichty, Suzanne Marshall, Nilufar Medora, Wendy Reiboldt, Lydia Sondhi, M. Sue Stanley, Ramesses B. Torna (Emeritus), Richard V. Turvson, Jung-Moo (Ronnie) Yih
Baccalaureate Program Coordinator: Richard V. Turvson
Graduate Coordinator: Jacqueline J. Lee
Single Subject Credential Advisor: Margaret Lichty
Administrative Support Coordinator: Mikel Lok, Marina Bordenley
Instructional Support Technician: Bonnie Rice

Career Possibilities
Principal Food Scientist • Research Associate • Food and Packaging Engineer • Quality Assurance Manager • Research and Development Chemist • Quality Control Chemist • Laboratory Supervisor • Plant Manager • Food and Drug or USDA Inspector • Food Product Evaluator • Food and Ingredient Sales Representative (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Dietetics and Food Administration

The Department of Family and Consumer Sciences offers students a Bachelor of Science degree in Dietetics and Food Administration with two option areas of study:
• Nutrition and Dietetics
• Food Science

Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Requirements for the major include a minimum of 120 units for Food Science. The courses which provide these units are determined by the option the student chooses. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences is required, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is accepted by the University.

Food Science

The Food Science curriculum has an interdisciplinary focus which includes food science, food processing, sensory evaluation, nutrition, chemistry, and microbiology, plus a variety of supporting course work in related disciplines. All courses are designed to develop an understanding of the physical and chemical nature of foods and how it relates to the food industry and consumer safety. The food industry careers awaiting graduates offer diverse opportunities as the world supply expands with technological developments. Career options for professionals in the field of food science include: research and product development, food formulation and processing, consumer safety, sensory evaluation, quality assurance, government organization, and food ingredient sales and marketing.

Option in Food Science (code FCS_BS02) (120 units)

Requirements
BIOC 207; ED P 419 or H SC 403; CHEM 101, 111A, 327, and 448; CAFF 321H; COMM 110, ENGL 101 or 317; FCS 202, 206, 481; FSCI 330, 332, 333, 334, 432, 435, 469, 492F; HPHM 235; MATH 113; MIRC 200, 203, 303, 494; NUTR 132, 224, 313A, 336, PSY 100 or SOC 100, and 10 units to be selected from: CHEM 111B; FCS 497; NUTR 331B; HPHM 275, 477; IS 233 or 300.

Minor in Food Science (code FCS UM04)

Significant preparation for employment in the Food Science Industry may be developed through completion of this program of study.

Eighteen units including FSCI 332, 333, 432, 435, 492F; 3 units selected from FSCI 330, 469, and FCS 497. It is the student's responsibility to adhere to all prerequisites listed below. Some of the prerequisites fulfill General Education requirements.
1. HPHM 235, CHEM 327, and MIRC 200 are prerequisites for FSCI 332.
2. FSCI 332 is a prerequisite for FSCI 338, 432, 435, and 492F.
3. NUTR 132 and FSCI 332 are prerequisites for FSCI 330.

The Minor in Food Science is available to any non-Food Science major.

2009/2010 CSULB Catalog • Food Science • 395
UPPER DIVISION

330. Dairy Science (2)
Prerequisites: NUTR 132, HFHM 235.
Study of dairy science from chemical microbiological, processing, nutritional, and economic standpoints. Integration of recent technology as implemented to feature marketed dairy products both traditional and contemporary.
(Lecture-discussion 2 hours.)

332. Food Science (3)
Prerequisites: CHEM 327, HFHM 235; MICR 200 or equivalent.
Composition and structure of foods; chemical changes in foods that affect their color, flavor, texture, aroma, and nutritive quality during processing and preparation; techniques for food preservation.
Course fee may be required. (Lecture-discussion 2 hours, laboratory 3 hours.)

338. Introduction to Food Processing (3)
Prerequisites: FSCI 332.
Study of industrial concepts of food processing. Raw agricultural commodities through the production phases to a final product acceptable to consumers. (The course may include limited visitations to food preparation sites.)
(Lecture-discussion 3 hours.)

432. Food Analysis (3)
Prerequisites: CHEM 327, FSCI 332 or equivalent.
Application of scientific methods of food analysis. Ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems.
Letter grade only (A-F). Course fee may be required. (Seminar 2 hours, Laboratory 3 hours.)

435. Food Processing, Preservation and Packaging (3)
Prerequisites: FSCI 332 or consent of instructor.
Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutrition. Evaluation of chemical additives. Microbiological aspects of food.
(Lecture-discussion 2 hours, laboratory 3 hours.)

469. Food Product Development (1)
Prerequisites: FSCI 332, or consent of instructor.
Industrial concepts and technology as they apply to food product development and formulation. Includes principles of new product development, ingredient replacements, and product improvements. Development of a prototype, ingredient interactions, and product cost analysis.
Letter grade only (A-F). (Seminar 1 hour)

492F. Internship in Food Science (3)
Prerequisites: Student must be a Family and Consumer Sciences major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Food Science; and FSCI 332. Each prerequisite course must be completed with a grade of "C" or better.
Field experience in which student assumes a pre-professional role in professional setting. Objectives by student with supervisor must be approved by major advisor and form the basis for evaluation. May be repeated for a maximum of 6 units. (Seminar 3 hours.)
Undergraduate Programs

Bachelor of Arts in French
(code RGR_BA01) (120 units)

The major in French consists of 36 upper-division units in the 300-400 level courses indicated below. The number of lower-division units will depend on the amount of French studied previously in high school or college, since students with prior study of French may enter at advanced standing (usually second or third year). The major program satisfies the requirements for the Single-Subject teaching credential in French, but credential candidates must take FREN 414 (Phonetics). Major students should be mindful of the Department’s second language requirement: two college years or equivalent of a second foreign language, other than English. The Department also recommends inclusion of specified history courses in the program of study. These courses offer additional enrichment to the cultural component of the student’s course of study.

Requirements

Lower Division Prerequisite: FREN 214. Does not count toward the required 30 units.

Upper Division: A minimum of 36 units of upper-division courses which must include FREN 312A, 312B, 314, 335, 336, 337, 411, 440, 480 and three of the following courses: 414, 456, 460, 462, 470, 471, 472, 474, 475, 476, 477, 479, 490; one of the following courses may also be used in this category: RGR 346I, 450I. Candidates for the teaching credential must take FREN 414.

Department Requirement: Two years of a second foreign language at college level or equivalent is required of all majors.

Departmental Recommendation: Students specializing in French should include the following courses in their program of study: HIST 131, 132, and one or more of the following: HIST 335, 336, 337. A selection from the following courses would also be appropriate: HIST 332, 333, RGR 346I, 450I.

Bachelor of Arts in French Studies
(code RGR_BA08)

Directors - Clorinda Donato, Stephen Flock
Advisors - Clorinda Donato, Stephen Flock
Program Office - AS 309

The Bachelor of Arts in French Studies provides students with a thorough basis in the study of French Language, History, Literature and Culture within a global context. Students completing the B.A. in French Studies will acquire an interdisciplinary understanding of French history, culture, and society that will prepare them for a broad range of career options both at home and abroad. These include international law and business, teaching, government and foreign service. In addition, the solid background in French and Francophone
history and literature provides a strong foundation for further study at the graduate level in a variety of M.A. and Ph.D. programs.

The French Studies Program situates California State University, Long Beach at the vanguard of scholastic innovation in the burgeoning field of cultural studies. The French Studies major provides a unique opportunity for students to address the cultural, economical, social, and political dimensions of Francophonie. This major reinforces California State University, Long Beach’s established and recognized record as a leader in offering students a global pedagogical experience that can be transferred to the working world of the present and the future.

To meet new demands for professionals, French Studies combines courses from literature, history, and other disciplines. French Studies will enable students to draw from a multifaceted disciplinary basis to interpret cultural phenomena and trends in a variety of global contexts. Students will receive training in historical, linguistic, and literary methods in the complementary areas of French and Francophone history and literature in this major. As the only public institution of higher education in California to approach French Studies at the undergraduate level from both global and cross-disciplinary perspectives, California State University, Long Beach recognizes the cooperative and symbiotic relationship connecting the disciplines of history and literature with respect to a comprehensive understanding of the Francophone World.

French Studies Majors are required to develop a program of study in consultation with the program advisor. In addition to assisting students in the development of the program planner and providing advice on post-graduate options, the program advisor and director maintain close contact with each student in the major. Courses for the program have been selected to foster synergistic growth in French language, literature, culture, and history. Students begin the major at the third-year level, after they have completed two years of college French (or have acquired the equivalent competency) and after they have completed course work in world history. At the third year they will take advanced language and composition, survey courses in French literature, historical methods, and 300-level French History courses. During the senior year, students will take French Civilization, specialized courses in the literature and history of France and the Francophone world, and the French Capstone course. Furthermore, students majoring in French Studies will be encouraged to avail themselves of the opportunity to participate in a study abroad or internship program.

Requirements

Upper Division: A minimum of forty-eight (48) units of upper division course work. Fifteen (15) units must come from the following History courses: HIST 334, 336, 337, 339 and 301. Twenty-one (21) units must come from the following French courses: FREN 312A, 312B, 336, 336, 337, 411 and 440. However, with the Program Director’s consent, the requirement of FREN 312A and 312B may be waived. The remaining twelve (12) units can be selected from the following courses (subject to prior approval of the Program Director and based on course content): HIST 435, 496, FREN 450, 470, 471, 472, 474, 477, 479, 480, 490.

Minor in French (code RGR_UM01)

A minimum of 20 units which must include: FREN 312A, 312B, 314, 411 and at least one other upper-division course in French to make a minimum total of 15 upper-division units. The Minor in French is available to any non-French major.

GRADUATE PROGRAMS

Master of Arts in French (code RGR_MA01)

Prerequisites

1. A bachelor’s degree in French, or:
2. A bachelor’s degree with a minimum of 24 upper-division units in French, comparable to those required of a major in French at this University. Deficiencies will be determined by the advisor after consultation with the student and study of transcript records.

Advancement to Candidacy

1. Approval of the graduate program by the graduate advisor, the faculty advisor and/or departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies.
2. The candidate should file for advancement upon completion of 6 units and preferably no more than 9 units on the program. A 3.0 GPA is required.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses, with a minimum of 24 units in the 500 and 600 series in French;
2. Specifically required courses include: FREN 580* and 696* (*students with a BA in French from CSULB see advisor);
3. Two years of one of the following languages: Italian, Portuguese, Spanish, German, or Russian, or pass an examination at Intermediate level in one of these languages. Major or minor in a second foreign language may be used to fulfill this requirement, upon approval by the Department. For other languages, consult the Graduate Advisor;
4. Maintain a GPA of at least "B" (3.0) in the major;
5. Pass comprehensive examinations on the Graduate Reading List in three areas to be selected by student upon consultation with Graduate Advisor;
6. No more than six units of transfer graduate credits are allowed, subject to approval by the Graduate Advisor. No more than six units of International Programs course work may be credited toward the 24-unit French requirement for the MA at this university;
7. Teaching Associates must take RGR 601, Teaching Methodology. These units do not count toward the required 30 units for completion of the MA.

Single Subject Teaching Credential, French (code 152)

Completion of the French major meets the subject matter competence requirement for the Single Subject Preliminary Credential in French (code 152). Prospective students...
should consult the undergraduate French Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of French are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergrad. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.registrar.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The French Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements
Same as for the major in French but including French Phonetics, FREN 414, as one of the 400-level courses.

French Courses (FREN)

LOWER DIVISION

101A. Fundamentals of French (4)
Prerequisite or corequisite: Any Foundation course.
Fundamental skills of speaking, comprehending, reading and writing. For those who are beginning the study of French or who have had one year of high school French or equivalent. For non-native speakers only, and is not open to heritage speakers or native speakers of French. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (lecture 4 hrs.)

101B. Fundamentals of French (4)
Prerequisite or corequisite: FREN 101A or two years of high school French or equivalent. Corequisite: Any Foundation course.
Fundamental skills of speaking, comprehending, reading and writing. Continuation of FREN 101A. For non-native speakers only, and is not open to heritage speakers or native speakers of French. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (lecture 4 hrs.)

102. Fundamentals of French for Hispanophones (5)
Prerequisites: Two semesters of college Spanish or 3 years of high school Spanish.
Two semesters of elementary French are covered in one in this intensive hybrid course designed for students who are native or heritage speakers of Spanish or have at least intermediate-level proficiency in Spanish or another Romance language. Letter grade only (A-F).

201A. Intermediate French (4)
Prerequisite: FREN 101B or three years of high school French or equivalent, and completion of the 15-unit Foundation requirement (or entering competency equivalent to FREN 101B and completion of concurrent enrollment in at least one Foundation course).
Continued work in speaking, pronunciation, comprehension and writing. For non-native speakers only, and is not open to heritage speakers or native speakers of French. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (lecture 4 hrs.)

201B. Intermediate French (4)
Prerequisite: FREN 201A or four years of high school French or equivalent, and completion of the 15-unit Foundation requirement (or entering competency equivalent to FREN 201A and completion or concurrent enrollment in at least one Foundation course).
Continued work in speaking, pronunciation, comprehension and writing, with some reading of modern writers. For non-native speakers only, and is not open to heritage speakers or native speakers of French. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (lecture 4 hrs.)

214. Intermediate Conversation (3)
Prerequisite: FREN 101B.
Should be taken concurrently with FREN 201A or 201B. Designed to develop basic conversational skills and to prepare for more advanced work in FREN 314. Letter grade only (A-F).

UPPER DIVISION

312A. Advanced French I (3)
Prerequisite: Upper division standing in French or equivalent.
Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

312B. Advanced French II (3)
Prerequisite: Upper division standing in French or equivalent.
Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

314. Advanced Conversation (3)
Prerequisite: FREN 214 or consent of instructor.
Continuation of FREN 214.
Letter grade only (A-F).

335. Survey of French Literature I (3)
Prerequisite: Upper division standing in French.
From the Middle Ages through the Seventeenth Century.

336. Survey of French Literature II (3)
Prerequisite: Upper division standing in French.
Eighteenth to Twentieth Century.

337. Survey of French Literature III: Twentieth Century French and Francophone Literatures (3)
Prerequisites: Upper division standing in French.
Survey of Twentieth Century and Francophone literatures.

411. Advanced French Syntax and Composition (3)
Prerequisites: FREN 312A or equivalent.
Special emphasis on the writing of compositions and developing an awareness of French style, as well as advanced syntax.

414. French Phonetics (3)
Prerequisites: FREN 312 A,B, or consent of instructor.
General concepts of linguistic science. Linguistics applied to the study and teaching of the French language. Articulatory phonetics as a means to form native French pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.

2009/2010 CSULB Catalog • French • 399
423.523. Introduction to French Linguistics (3)
Prerequisites: Completion of FREN 312A/B and 411.
This course presents an overview of French linguistics: phonology, morphology and syntax. The course also focuses on the application of linguistic knowledge to the teaching of French at the high school level in the U.S.

440. French Civilization (3)
Prerequisites: FREN 312A/B (may be taken concurrently with FREN 335 or 336 or consent of instructor).
Significant aspects of French art, culture and social institutions.

456. French Cinema (3)
Prerequisite: Senior standing or consent of instructor.
Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director.
Letter grade only (A-F). Some course as FIA 456. Not open for credit to students with credit in FIA 456.

460.650. The Art of Translation (3)
Prerequisites: Upper division or graduate status. Consent of instructor for third-year students.
Cover translation of French texts into English and of English texts into French, as well as theories of translation and their implications.
Translations may be published in The Translators' French Quarter, a journal of the RGRFLL Department. May be repeated to a maximum of 6 units.

462.562. Reading French Women Writers (3)
Prerequisites: FREN 335, 336, and 337 (Surveys of French Literature, I, II, and III) or consent of instructor.
Cover the literary production of women who wrote and wrote literature in France. French feminism, the question of "écriture féminine" and gender will also be discussed. Does not cover Francophone women writers.
May be repeated to a maximum of 6 units.

470.570. French Literature of the Middle Ages (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative drama, poetry and prose of the period: Texts in modern French.

471.571. French Literature of the Renaissance (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative drama, poetry and prose of the 16th Century.

472.572. French Literature of the Seventeenth Century (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative drama, poetry and prose of the century.

474.574. The Age of Enlightenment (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative writers and thinkers of the century: Drama, poetry and prose.

475.575. Seminar in Francophone Literature (3)
Prerequisites: FREN 337 or consent of Instructor.
May be repeated to a maximum of 15 units with different topics in the same semester.
A. Afrika
B. Caribbean
C. Maghreb
D. Quebec
E. Switzerland

476.576. French Comic Traditions (3)
Prerequisites: FREN 335, 336, 337 or consent of instructor.
Historical overview of French comedic forms; close reading of selected works; elements of comic theory. Includes works such as medieval farce, Molinos's different comic genres, Boeckmann's, Feydeau and absurdist dramatists such as Jarry and Ionesco, as well as film comedies.
Letter grade only (A-F).

477.577. French Literature of the Nineteenth Century (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative writers of the century: Drama, poetry and prose.

478.578. French Literature of the Twentieth Century (3)
Prerequisites: FREN 335, 336 or consent of instructor.
Study of representative writers of the century: Drama, poetry and prose.

480.580. Senior Seminar: Self and Society (3)
Prerequisites: FREN 335, 336 or 337 and two 400-level French courses, or consent of instructor.
This course is an integrative seminar examining a wide variety of literary works, ranging from Medieval through Twentieth-Century Francophone classic texts, and some films with strong literary connections. Emphasis on historical, critical and philosophical writings concerning issues in French-speaking cultures.
Letter grade only (A-F).

490.590. Special Topics in French (1-3)
Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the Schedule of Classes.
May be repeated to a maximum of 12 units with different topics.

494. Internship in French (1-3)
Prerequisites: Consent of instructor and department chair.
Field work in French, supplemented by readings and tutorials under direction of a faculty, internships, small group discussion, teaching, and other assignments directed by a supervising faculty member.
May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in French.

499. Directed Studies (1-3)
Prerequisites: Consent of instructor and department chair.
Independent study undertaken under the supervision of a faculty member.
May be repeated to 3 units provided the material is not the same.
May be repeated to a maximum of 6 units with prior consent of department.

GRADUATE LEVEL

523.423. Introduction to French Linguistics
Prerequisites: Completion of FREN 312A/B and 411.
Principles of phonology, morphology and syntax. Focuses on the application of linguistic knowledge of French to teaching French at high school level in the U.S.

560.460. The Art of Translation (3)
Prerequisites: Upper division or graduate status. Consent of instructor for third-year students.
Cover translation of French texts into English and of English texts into French, as well as theories of translation and their implications. Some translated texts may be published in The Translators' French Quarter, a journal of the RGRFLL Department.

400 • French • 2009/2010 CSULB Catalog
560.480. Self and Society (3)
Prerequisites: FREN 335, 336 or 337 and two 400-level French courses, or consent of instructor.
This course is an integrative seminar examining a wide variety of literary works, ranging from Medieval through twentieth-century Francophone classic texts, and some films with strong literary connections. Emphasis on historical, critical and philosophical writings concerning issues in French-speaking cultures. Letter grade only (A-F).

590.490. Special Topics in French (1-3)
Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the Schedule of Classes. May be repeated to a maximum of 12 units with different topics.

599. Directed Studies (1-3)
Prerequisite: Graduate standing with baccalaureate degree or equivalent.
Graduate level in-depth study on selected topics under supervision of a graduate faculty. Topic and study outline of work undertaken to be on file in Department. Enrollment contingent upon approval of Department Chair and faculty member. May be repeated for a maximum of 6 units with different topics in the same semester. Letter grade only (A-F).

604. Seminar in a Century of French Literature (3)
Prerequisite: Corresponding 400/500 level century survey course or consent of instructor. Intensive studies in one of the following topics. May be repeated to a maximum of 18 units with different topics in the same semester. Letter grade only (A-F).
A.  Seminar in Medieval Literature
B.  Seminar in 16th Century Literature
C.  17th Century
D.  18th Century
G.  Seminar in 19th Century Literature (3)
H.  20th Century

685. Seminar in French Literature or Culture (3)
Prerequisite: Graduate standing in French. Intensive study of a specific aspect of French literature or culture. Subjects to be announced in the Schedule of Classes. Letter grade only (A-F).

696. Research Methodology and Critical Theory (3)
Prerequisite: Graduate standing required. Introduction to methods of research/critical theory. Course familiarizes students with techniques and terminology of critical theory in the French tradition. Focus on theoretical issues such as "production" of meaning in texts, its relation to power, politics, ethics, and pleasure. Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Consent of department chair. Individual study under the guidance of a faculty member. May be repeated to a maximum of 3 units. Letter grade only (A-F).

698. Thesis (2-6)
Planning, preparation, and completion of thesis in French for the master's degree. With consent of graduate advisor only.

Introduction
Geography focuses on the spatial organization of human
and physical landscapes, the interactions
between human society and the physical environment, as
well as on the meanings that people bring to their place in
the world. Geography sits at the nexus of the social and
physical sciences, drawing from a range of theoretical and
methodological approaches for understanding the world
around us. We organize the major into four distinct areas
of concentration – Human Geography, Environmental/
Physical Geography, Geospatial Techniques, and Global
and Regional Studies – as a way to structure the diverse
approaches that geographers use in thinking about
spatial relationships in geographic context. Students are
encouraged to focus within one of these concentrations at
the undergraduate level.

Because of the diversity of the subject matter that it
considers, geography offers a broad, liberal education,
which is applicable to many careers. The Geography
Department offers the Bachelor of Arts and Master of Arts
degrees, Geography Minor, and two certificates: Urban

Studies and Geographic Information Science. Certain
Geography courses are applicable to teaching credential
programs; to the degree in Liberal Studies; and to certificate
programs in Environmental, Urban, Asian, Latin American,
and Russian and East European studies, and GIS. Students
may obtain materials from the department describing the
geography programs and courses recommended for career
preparation or visit its home page at http://www.csulb.edu/
geography/

The Master of Arts degree in geography is designed
for those wishing to expand their geographic competence
beyond that expected of the bachelor's degree. The Master
of Arts degree is becoming a common requirement for
employment advancement and it provides the preparation
necessary for success in geography Ph.D. programs at
other universities. Candidates are responsible for observing
the general requirements stated in this Catalog as well as
the specific departmental requirements contained in the
Geography Master of Arts Handbook.

Undergraduate Programs

Bachelor of Arts in Geography
(code GEOGBA01) (120 units)

Requirements
A grade of "C" or better must be achieved in all upper
division Geography courses.

The Geography major requires at least 39 units of which
at least 9 must be at the 400 level.

Lower Division - 12 units required: GEOG 100 or 120 or
160; GEOG 140, 290, 290.

Upper Division - 27 units required, which must include
at a minimum: GEOG 340 or 355; GEOG 360 and 360,
one Regional course (see list below) and an additional 3
courses within one Concentration (Environmental/Physical
Geography, Human Geography, Geospatial Techniques, or
Global and Regional Studies).

Major Concentrations and Grouping of Geography
Courses

The CSULB Geography Department encourages
geography students to acquire knowledge of the breadth of
the discipline, to develop an understanding of the regional
and systematic approaches to studying and applying
the discipline, and to become proficient in the application of
methods of inquiry and analysis that are employed in the
discipline. To facilitate the development of a prepared and
well rounded geographer, Geography courses are grouped
into Human Geography, Environmental/Physical Geography,
Geospatial Techniques, and Global and Regional Studies.
Students are urged to complete courses in each cluster and
to seek the advice of the undergraduate advisor and other
faculty to identify courses that are best suited to meet their
educational and career objectives. In addition, programs
may be tailored to meet the needs of individual students especially those choosing to double-major.
Environmental/Physical Geography: GEOG 340, 355L, 440, 442, 443, 444, 445, 446, 447, 455, 458, 481
Human Geography: GEOG 319L, 352, 360, 366, 381, 452, 460, 465, 469, 470
Geospatial Techniques: GEOG 400, 402, 473, 474, 475, 482, 484, 485, 486, 487A, 487B, 488
Global and Regional Studies:
Global Studies Courses: 319L, 352, 355L, 452, 460, 468, 470,
Additional Courses
The following courses may be included in the above concentrations with approval of the Undergraduate Advisor:
GEOG 492, 494, 497.
Minor in Geography (code GEOGUM01)
The Minor in Geography is available to any non-Geography major.
The minor requires a minimum of 18 units consisting of GEOG 140, 100 or 120 or 160, and 200 or 380, and at least 9 units of upper division courses with at least one course selected from the 400 series.
Certificate in Geographic Information Science (code GEOGCT01)
Co-Directors: Christopher Lee, Suzanne Wechsler
Requirements
This program offers specialized training in applied and theoretical geospatial techniques including geographic information systems (GIS), remote sensing and cartography. The program is designed to provide experience in quantitative spatial analysis through the use of Geographic Information Systems, working with remotely sensed imagery and field-derived data, and effective communication through maps. The certificate serves as a supplement to standard degree programs. It provides essential training for those seeking careers in the geospatial technologies in both the public and private sector. A brochure describing the GSCiences Certificate Program in greater detail is available in the Geography Department Office, LA 4-106, or on-line at www.csulb.edu/geography.
Certificate Requirements
1. A bachelor’s degree, which may be earned concurrently.
2. Consultation with the Undergraduate Advisor in the Geography Department.
3. 24 units distributed as follows:
   Core requirements, 12 units: GEOG 401 (same as ASAM 319), GEOG 402, or POSC 327.
   Elective Courses, 12 units to be selected from the following: AIS 319 (same as ASAM 319), AFRS 319, CHLS 319, WCSS 319; ANTH 416; ASAM 345; AFRS 339, 452; DESI 367; CAPP 322, 422; GEOG 446; HIST 402, 465, 474; POSC 327; WCSS 432.

Graduate Programs
Master of Arts in Geography (code GEOGMA01)
Prerequisites
1. A bachelor’s degree in geography; or,
2. A bachelor’s degree with 24 units of upper division courses substantially equivalent to those required for a geography major at this University; or,
3. A bachelor’s degree in a related discipline with 24 units of upper division courses in a combination of geography and approved courses in related disciplines.

Methods and Techniques

- These courses develop skills in graphic and statistical communication and field analysis which are used within the various sub-fields of the discipline.
- 206: Introduction to Research Methods for Geographers
- 210: Introduction to Geospatial Techniques
- 300: Map Interpretation and Analysis
- 400: Geographical Analysis
- 402: Qualitative Geographic Analysis
- 412: Thematic Map Design for Presentation and GIS
- 473: Remote Sensing
- 474: Introduction to Digital Image Processing
- 475: Geographical Application Remote Sensing
- 484, 484S: Advanced Concepts in Presentation Cartography
- 486, 486S: Introduction to Geographic Information Systems
- 496: Field Methods in Landscape Analysis
- 457A, 457S: Applications of Geographic Information Science (GIS): Environment and Natural Resources
- 458, 458S: Geographic Information Systems

Global and Regional

GLOBAL:
- 319: International Development
- 352: Geography of Travel and Tourism
- 355: International Environmental Issues
- 452: Geography of the Global Economy
- 469: World Cities/Cities of the World
- 470: Political Geography

REGIONAL:
- 100: World Regional Geography
- 304: California
- 306: United States and Canada
- 308: Africa South of the Sahara
- 309: The Middle East and North Africa
- 313: Southeast Asia
- 314: South Asia
- 315: East Asia
- 316: Europe
- 318: Russia and Its Neighbors
- 320: Pacific Island Area

**404 • Geography • 2009/2010 CSULB Catalog**
Geography Courses (GEOG)

LOWER DIVISION

100. World Regional Geography (3)
Prerequisite/Corequisite: One G.E. Foundation course.
Through a spatial approach, World Regional Geography introduces students to the world's geographic realms and examines their cultural, population and political dynamics, resources and economic development, patterns of settlement and environmental elements. Not open for credit to students with credit in GEOG 100W.

120. Geography of Human Diversity in the United States (3)
Prerequisite/Corequisite: One G.E. Foundation course.
Examines America's Human Diversity from a geographic perspective focusing on the spatial distribution and organization of race/ethnicity and gender/sexuality groups across the U.S.'s rural and urban cultural landscapes while emphasizing the spatial politics of inclusion and exclusion.

140. Introduction to Physical Geography (3)
Prerequisite/Corequisite: One G.E. Foundation course.
Systematic study of the physical environment including human-environmental interaction, environmental hazards, and natural resource. Satisfies the GE B.3 Physical Universe requirement. Not open for credit to students with credit in GEOG 150.

160. Introduction to Human Geography (3)
Prerequisite/Corequisite: One G.E. Foundation course.
Geographic aspects of culture, including the past and present social, political and economic factors that are related to human perception, organization and use of the environment.

200. Introduction to Research Methods for Geographers (3)
Introduction to the scientific method in geography with an emphasis on basic quantitative and qualitative techniques and their applications. Not open for credit to student with credit in first course in statistics.

250. Early World Historical Geography (4)
Prerequisites: Open only to International Student Education Program (ISTEP) students.
Emergence and changing nature of urban life, cultural and technological diffusions, and variations in the intensity of contact and exchange among cultures and civilizations over time. Geographic and historical factors, such as location and place, human/environment interactions, migrations, and diffusion. Same as HIST 250.

280. Introduction to Geospatial Techniques (3)
Introduction to geospatial techniques, which include geographic information science (GIS), cartography, global positioning systems (GPS), and remote sensing. Students will be introduced to the geographic concepts required for spatial analysis.

(3 hours lecture)

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course.

3011. The Urban Scene (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and Upper Division standing.
Analysis of urban life styles; land use and design; population trends; conflicts in the increasingly multicultural urban setting; housing and community development; suburban-central city relationships; human utilization of urban life spaces; opinions of landmark urbanists; and future trends. Not open for credit to students with credit in SOC 419.

304. California (3)
California's diverse natural and cultural environment with emphasis upon social and economic problems and the human response to environmental hazards.

306. United States and Canada (3)
Prerequisites: Completion of GE Foundation requirements.
Cultural, economic and political interests of the major human use regions of the United States and Canada. Describes and interprets the culture patterns of each region in relation to the natural settings in which they have developed.

308. Africa South of the Sahara (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper division standing.
Human and environmental settings of Africa South of Sahara and the ecological, cultural, demographic, economic settlement and political relationships that characterize them.

309. The Middle East and North Africa (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper division standing.
Human and physical settings of the Middle East and North Africa and the cultural, economic, settlement, and political relationships that characterize them stressing those factors which underlie the region's instability and global importance.

313. Southeast Asia (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses, and upper division standing.
Cross-cultural examination of the characteristics and problems found across Southeast Asia. Specifically, environmental and cultural patterns, historical development of the spatial organization of society, demographic and other dynamics of social change, and issues of socio-economic and political development.

Letter grade only (A-F).

314. South Asia (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses, and upper division standing.
Cross-cultural examination of the characteristics and problems found across South Asia. Specific focus on environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development.

Letter grade only (A-F).

315. East Asia (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses, and upper division standing.
Cross-cultural examination of the characteristics and problems found across East Asia. Specifically, environmental and cultural patterns, historical development of the spatial organization of society, demographic and other dynamics of social change, and issues of socio-economic and political development.

Letter grade only (A-F).

316. Europe (3)
Prerequisites: Completion of GE Foundation requirements.
The human and physical patterns of Europe. Current cultural conditions and environmental problems.

318. Russia and Its Neighbors (3)
Prerequisite: Completion of GE Foundation requirements.
Systematic and regional study of the physical, economic and cultural geography of the countries of the former Soviet Union.

2009/2010 CSULB Catalog • Geography • 405
319I. International Development (3)
Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper division standing. Theoretical and practical analysis of social, political, and economic development and alternative developmental models. Contemporary and historical comparison of how "developed" and "developing" areas of the world have confronted various economic, social, and political challenges. Same course as I/ST 319I. Not open for credit to students with credit in I/ST 319I.

321. Geography of Mexico, Central America and the Caribbean (3)
Prerequisites: Completion of GE Foundation requirements. Examines Mexico, Central America and the Caribbean from a regional geographical perspective. Utilizing both historical and contemporary points of view, it identifies and interprets the distinguishing environmental, demographic, cultural, social, economic, and geopolitical characteristics of the area. Not open to students who have taken GEOG 320I. Letter grade only (A-F).

322. Geography of South America (3)
Prerequisites: Completion of GE Foundation requirements. Examines South America from a regional geographical perspective. Utilizing both historical and contemporary points of view, it identifies and interprets the distinguishing environmental, demographic, cultural, social, economic, and geopolitical characteristics of the region. Not open for credit to students who have credit in GEOG 320I. Letter grade only (A-F).

326. Pacific Island Area (3)
Regional synthesis of the physical and cultural geography of Australia, New Zealand and the island groups of Oceania. (3 hours seminar and 2 hours laboratory).

340. Environmental Geography (3)
Prerequisite: GEOG 140 or GEOG 280. Examines the role of environmental factors in American West, including both physical and human factors. Letter grade only (A-F).

352. Geography of Travel and Tourism (3)
Examines the role of travel and tourism in regional geography, including the environmental, economic and social impacts of tourism and the development of regional tourism planning. Letter grade only (A-F).

355I. International Environmental Issues (3)
Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve these. Same course as I/ST 355I. Not open for credit to students with credit in I/ST 355I.

360. Human Geography (3)
Prerequisites: GEOG 100, 120, or 160. Examines the role of human activity in regional geography, including the impacts of population, migration, urbanization, cultural landscapes, and political and economic factors. Letter grade only (A-F).

366. Introduction to Urban Geography (3)
Prerequisites: GEOG 100, 120, 160 or 360 or consent of instructor. Examines cities and urban phenomena from geographical perspective. Introduces core theories, concepts and techniques that geographers have developed to explain the origin, growth, functions, and character of urban places especially in North America. Letter grade only (A-F).

380. Map Interpretation and Analysis (3)
Interprets and analyzes maps as a tool of communication with emphasis on critical analysis, symbolization, scale, projection. (Lectures, problems 3 hours.)

381. Maps and Civilization (3)
Maps and Civilization examines the role maps play in different cultures. Drawing upon the disciplines of cartography, geography, history, and science, it explores maps in Western and non-Western cultures; conventional and alternative cartographies; and mapping activities of men and women. Letter grade only (A-F).

400. Geographical Analysis (4)
Prerequisite: GEOG 200 or any introductory statistics course or consent of instructor. Examines advanced quantitative techniques employed by geographers in analysis of spatial phenomena. Topics covered include multivariate statistical methods as models for geographical analysis. Emphasis on the application of these techniques in geographical research, using statistical software. Letter grade only (A-F).

402. Qualitative Geographic Analysis (4)
Prerequisite: GEOG 200, or consent of instructor. Examines qualitative geographic methodologies and methods through the theoretical frameworks that geographers employ in their research. Introduces survey, interview, and focus group techniques, textual analysis, participant observation, and ethnography. Includes a hands-on research experience. Letter grade only (A-F).

419/519. Geographies of Development and Inequality (3)
Prerequisites: GEOG 360, GEOG 319I, I/ST 310I or permission of the instructor. This course provides critical perspectives of issues facing the theory and practice of development geography. It also analyzes the emergence of non-governmental organizations, social movements and other forms of civic life that promote cultural and context-specific models of development. (Undergraduates register in GEOG 419; graduates in GEOG 519.) Letter grade only (A-F).

440/540. Land and Water Resources (3)
Prerequisites: GEOG 140 or GEOG 340 or 359, or consent of instructor. Examines the interactions between land and water as components of the environment. Focus is on management, use and human impacts, with an emphasis on water resources. (Lectures, discussion.)

442. Biogeography (3)
Prerequisite: GEOG 140. A course in biology, ecology or Geography 340 is strongly recommended. Theories and methods of mapping plant and animal distributions, spatial interaction of species with environmental limiting factors, and the human role in temporal and spatial variation of ecosystems. (Lectures, discussion.)
443. Watersheds: Processes and Management (4)
Prerequisites: GEOG 140 or consent of instructor.
Basic principles of watershed hydrology, including hydrologic processes, runoff behavior, precipitation patterns and watershed models. Evaluation of water quality elements such as nonpoint source pollution. Laboratory and field exercises will include hydrologic data collection, processing and evaluation.
(3 hours Lecture, 2 hours Laboratory)

444. Climatology (3)
Prerequisites: GEOG 140
Descriptive and analytical analysis of elements and controls of climate. Climates of world emphasis on California and North America.
(Lecture, problems 3 hours)

445. Paleoclimatology (4)
Prerequisites: GEOG 444 or consent of instructor.
Methods and theories used in reconstructing and dating climates of the past 2 million years, using such proxies as sediment sequences, packrat middens, ice cores, tree rings, corals, and documentary data. Causes of environmental change and human interactions are analyzed.
(Lecture 3 hours, lab activities 2 hours)

446. Land Use Planning (3)
Examine land use planning, issues and responses concerning land use; coastal zones; environmental resource management; urban growth; design and aesthetics; planning parameters for residential, parks, conservation areas, shopping centers, and industrial areas; urban and regional revitalization, and transportation.
Not open for credit to students with credit in USST 446

447. Landscape Restoration (3)
Prerequisites: GEOG 140 or GEOG 280. GEOG 340 or 355 highly recommended. A course in ecology or biogeography recommended.
Explores philosophical, political, and ecological issues associated with restoring degraded landscapes. Analysis of theoretical works, scientific research, planning documents and case studies. Examines potential for restoring natural landscapes.
(Lecture, problems 3 hrs)

448/454. Environmental Assessment (3)
Prerequisites: GEOG 140 or GEOG 102 or GEOG 269; recommended: LSIP 200 or GEOG 340 or GEOG 35b; or consent of instructor.
Introduction to the policy framework and techniques for assessing impacts on various aspects of the biological and physical environment. The course is a survey of multiple topics involving various types of environmental assessment, including data collection, processing and evaluation.
(Undergraduates register in GEOG 448; graduate registrar in 548.)
(3 hours lecture, activity)

452. Geography of the Global Economy (3)
Prerequisite: GEOG 380 highly recommended.
Examines globalization processes that create integration of world’s economic, political, and cultural systems, but operate unevenly across space and time. Focuses on impact on people and places around the world.
(Lecture, problems) Letter grade only (A-F)

455. People As Agents of Environmental Change (3)
Examines human impact on biophysical environment from long-term and global perspective. Explores regional and global implications of these changes on people and environments. Examines different theories for explaining major human forces that drive environmental change.
(Lecture 3 hours)

458./558. Hazards and Risk Management (3)
Prerequisites: One earth science course (GEOG 140 or GEOL 102 or 160 or consent of instructor) and one social science course (e.g., GEOG 100 or 160 or consent of instructor).
Broad overview of hazards and disasters, whether natural or technological, emphasizing the physical and social dynamics that interact to produce hazard, the spatial and temporal distributions of various hazards, and policy options for disaster prevention, loss reduction, and community resilience.

460. Population Geography (3)
Introduction to geographic study of population. Includes growth and distribution of world population; results of changing births, deaths, and migration; variations in population composition; related problems such as food supplies and environmental deterioration.

462. Feminist Geography (3)
Prerequisite: GEOG 360 or permission of instructor.
Introduction to feminist geography. Critically engage with international research on topics such as geographies of emotion, care and health; femininities and masculinities; feminist post-structural theories and philosophies; and feminist methodological approaches to geospatial research.
Letter grade only (A-F).

465./565. Social Geography (3)
Prerequisite: GEOG 160 or consent of instructor.
The geographies of society, including various methodological and theoretical approaches to social geography. Topics may include socio-spatial inequality, crime, housing, religious systems, medical and health geography, feminist geography, the geography of sexuality, the geography of race, and post-structuralist geography.

467./567. Urban Geography: Metropolitan Problems (3)
Prerequisite: Consent of instructor. (Undergraduates register in GEOG 467; graduates register in GEOG 567.)
Geographic components of metropolitan problems and their solutions. Problems related to transportation systems, housing, evolution of ghettos, urban perception and behavioral patterns will be discussed in terms of theoretical and practically applied urban planning solutions.
(Lecture, problems 3 hrs)

468. World Cities/Cities of the World (3)
Prerequisites: GEOG 100, 120 or 160. GEOG 360 and 386 highly recommended.
Comparative examination of major world cities within the context of their regional and national urban systems. Compares and contrasts cities of developed and developing worlds. Explores divergent urbanization patterns and world city development in major cultural realms.
Letter grade only (A-F).

470. Political Geography (3)
Prerequisite: GEOG 100 or consent of instructor.
Comparative study of the earth’s politically organized regions and related systems. Generating ideas are explored, such as power analysis, power analysis, and functional analysis of political units. Structures political geographic concepts used in analyzing the viability of states and nations.
(Lecture, problems)

471. Geographic Information Science (GIS) For Health (3)
GEOG 200 or SOC 250 or equivalent.
An Introduction to the fundamentals of Geographic Information Science and systems (GIS) including concepts and skills in spatial reasoning and spatial thinking. Explores GIS in spatial query, problem analysis and decision support using health-related applications. Lecturediscussion and Laboratory (2 hours seminar, 2 hours computer laboratory)
Letter grade only (A-F). Same course as HCA 471

2009/2010 CSULB Catalog • Geography • 407
4.86. Field Methods in Landscape Analysis (4)
Prerequisites: GEOG 200 or equivalent and GEOG 380 or consent of instructor.
Introduces field techniques, including formulation of field plans, recording direct observation, field mapping, sampling techniques, interviewing, and organizing and evaluating data for presentation.
(Lecture-discussion 1 hour, supervised field work 6 hours)

4.87A. Applications of Geographic Information Science (GIS): Environment and Natural Resources (4)
Prerequisites: GEOG 140, 485 or 585, 486 or 586 or consent of instructor.
Use of Geographic Information Systems and science for spatial analysis, spatial modeling and decision support in natural resource assessment. Students who possess a background in GIS are introduced to environmental applications. Emphasizes the use of raster GIS.
(3 hours Lecture, 2 hours Laboratory)

4.87B. Applications of Geographic Information Science (GIS): Urban and Economic (4)
Prerequisites: GEOG 486 or 586, 488 or 588 or consent of instructor.
Builds on introductory knowledge of Geographic Information Systems, spatial analysis and spatial data and focuses on urban and economic applications and analyses.
(3 hours Lecture, 2 hours Laboratory)

4.88/S88. Advanced Topics in Geographic Information Science (4)
Prerequisites: GEOG 200 or equivalent; 380, 482, 485 or 585 or consent of instructor.
Advanced concepts in geographic information systems and techniques are introduced and their applications in geography and related disciplines explored.
(Seminar 3 hours; Laboratory 2 hours), Letter grade only (A-F).

492. Internship in Applied Geography (3)
Prerequisites: Geography major with upper division or graduate standing, prior geography coursework or equivalent recommended, and consent of instructor.
Community-based placement to enhance professional preparation in applied geography. May be repeated to a maximum of 6 units; a second semester experience shall differ substantially from first semester experience. Undergraduates may elect Credit/No Credit or letter grading; letter grading only is required for graduate students. Student will work under faculty supervision.

4.94. Special Topics (1-3)
Prerequisite: Consent of instructor.
Application of geographical concepts and methodology to selected contemporary problems. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with consent of department chairman. May not be credited toward the major in geography without written department consent in advance of enrollment.

4.97. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Individually directed studies of special problems in geography. May be repeated to a maximum of 6 units with consent of department chairperson. May not be credited toward the major in geography without written department consent in advance of enrollment.
565/465. Social Geography
Prerequisites: GEOG 160 or consent of instructor.
The geographies of society, including various methodological and
theoretical approaches to social geography. Topics may include
socio-spatial inequality, crime, housing, religious systems, medical
and health geography, feminist geography, the geography of
sexuality, the geography of race, or poststructuralist geography.

567/467. Urban Geography: Metropolitan Problems (3)
Prerequisites: Consent of instructor. (Undergraduates register in
GEOG 467; graduates register in GEOG 567.)
Geographic components of metropolitan problems and their
solutions. Problems related to transportation systems, housing,
evolution of ghettos, urban perception and behavioral patterns will
be discussed in terms of theoretical and practically applied urban
planning solutions.
(Lecture, problem. 3 hrs) Letter grade only (A-F).

575. Geographical Applications in Remote Sensing (4)
Prerequisites: GEOG 140, 160, 473, and 474.
Focuses on remote sensing applications. Students will be
introduced to sophisticated imagery and analysis techniques, as
applied to weather and fire modeling, and lands environmental
problems, of the urban environment.
(Seminar 3 hrs; Laboratory 2 hrs). Letter grade only (A-F).

584. Advanced Concepts in Presentation
Cartography (4)
Prerequisites: GEOG 200 or equivalent; 380 and 492.
Advanced theory and techniques for presentation cartography
including communication, visualization, terrain representation,
animation, and color.
(Seminar 3 hrs; Laboratory 2 hrs). Letter grade only (A-F).

585. Principles of Geographic Information Science
(4)
Prerequisites: GEOG 200 or equivalent, 380 and 492.
Fundamental concepts and techniques of geographic information
systems and science are introduced. Emphasizes spatial analyses
to address spatial questions.
(Seminar 3 hrs; Laboratory 2 hrs). Letter grade only (A-F).

586. Field Methods in Landscape Analysis (4)
Prerequisite: GEOG 380 or consent of instructor.
Introduction to field techniques, including formulation of field plans,
recording direct observation, field mapping, sampling techniques,
interviewing, and organizing and evaluating data for presentation.
(Seminar 1 hour; Field Work 6 hours). Letter grade only (A-F).

587A. Applications of Geographic Information Science
(GIS): Environment and Natural Resources (4)
Prerequisites: GEOG 140; 465 or 585, 488 or 588 or consent of
instructor.
The use of Geographic Information Systems and science for
spatial query, problem analysis, spatial modeling and selection
support in natural resource assessment. Students who possess a
background in GIS are introduced to environmental applications.
Emphasizes the use of raster GIS.
(3 hours Lecture, 2 hours Laboratory)

587B. Applications of Geographic Information Science
(GIS): Urban and Economic (4)
Prerequisites: GEOG 465 or 585, 488 or 588 or consent of
instructor.
Builds on introductory knowledge of Geographic Information
Systems, spatial analysis and spatial data and focuses on urban
and economic applications and analyses.
(3 hours Lecture, 2 hours Computer Laboratory)

GEOLOGICAL SCIENCES
College of Natural Sciences and Mathematics

Department Chair: Stanley C. Finney
Department Office: Peterson Hall (PH) 1 - 102
Telephone/FAX: (626) 985-4909 / (626) 989-8638
Website: www.cnm.csulb.edu/department/geology

Faculty: Elizabeth A. Ambrose, Matthew Becker, Richard J. Behl, Stanley C. Finney, Robert D. Francis, Roswitha B. Grannell, Jack Green, Gregory J. Hott, Thomas Kelly, Nathan Onderdonk, Lora Stevens

Administrative Support Coordinator: Margaret Costello

Advisors:
Undergraduate: Richard J. Behl, Laura Hendriks, James Kael
Graduate: Robert Frances

Students desiring information should contact the Department Office for referral to one of the faculty advisors.

Career Possibilities

- Geologist
- Geophysicist
- Hydrologist
- Mineralogist
- Paleontologist
- Seismologist
- Geophysical Prospector
- Laboratory Assistant
- Skills Engineer
- Stratigrapher
- Crystallographer
- Geodesist
- Environmental Analyst
- Oceanographer
- Teacher
- Petrolologist
- Geobiologist

(For some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.) Various entry-level training positions in business and industry are available for graduates regardless of academic discipline.

Introduction

The Geological Sciences includes the study of the solid earth, the hydrosphere, and the atmosphere. Within the broad field of Geological Science students may elect to take course work leading to professional careers in such areas as hydrogeology, environmental geology, urban geology, engineering geology, petroleum geology, mineral exploration, and government service. The degree programs also prepare students for academic careers in schools or universities, although additional work is usually required for such careers. All Earth Science and Geology majors must contact the Undergraduate Advisor prior to the first semester in residence.

The Geological Sciences Department participates in the Southern California Marine Institute for our new marine geology, oceanography, seismic studies. See the Ocean Studies Institute section of this Catalog for additional information.

Concurrent and/or Summer Enrollment at Another College

Students who wish to take course work at a community or another college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this Catalog. Courses not receiving prior approval will not be accepted for credit by the Department.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department must participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics; for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (F08-106) or Department Office for additional information.

Undergraduate Programs

Bachelor of Science in Geology (code GEOLBS01) (120-126 units)

The bachelor of science degree program is intended to provide a thorough background in the geological sciences for those planning to pursue careers in industry or to do graduate study. The program is designed with the conviction that, in an ever-changing and technologically-oriented industry and research environment, a student must have a strong geological background. As such, he/she needs a program that explores the fundamental geological processes, cultivates skills in integrative three-dimensional geological thinking, provides laboratory and field experience, and stimulates interest in the many subdisciplines of the geological sciences.

Within the broad field of geography, students may elect to follow any one of five emphases: General Geology, Petroleum Geology, Stratigraphy/Sedimentology, Geochemistry/Mineralogy/Petrology, and Structural Geology/Techniques. Each student should contact the undergraduate advisor for assistance in planning the degree program.

Geology majors must receive a grade of "C" or better in all courses required for the major. A minimum of 120-126 units is required for the bachelor of science degree in the various emphases in geology. Emphases other than General Geology are based on the General Geology emphasis, but have structured electives and other variations from that plan. An additional course chosen with the consent of the undergraduate advisor may be recommended for individual emphases. Transfer students should fulfill, prior to transferring, the appropriate lower division curricular...
requirements as outlined in later sections. Particular attention should be paid to fulfilling the lower division math, chemistry, physics, and biology requirements.

Lower Division: GEOL 102, 104, 240, 250, 273; MATH 122, 123; CHEM 111A,B; PHYS 151, 152; BIOL 200.

Additional required courses for the various emphases are listed below.

Upper Division: GEOL 322, 341, 350, 420, 433, 443, 450, 460, 461. Additional required courses for the various emphases are listed below.

1. General Geology (120 units): Six units of elective courses (normally at upper division) approved in advance by the undergraduate advisor.

4. Geochemistry/Mineralogy-Petrology (126 units): MATH 224; CHEM 371A,B; GEOL 122.

5. Structural Geology/Igneous (122 units): GEOL 430, 462; MATH 224, 370A.

Minor in Geology (code GEOLUM01)

The Minor in Geology is available to any non-Geology major.

Twenty units in geology courses that must include:

Lower Division: GEOL 102, 104, 240.

Upper Division: At least 9 additional units of geology approved in advance by the Undergraduate Advisor.

Bachelor of Science in Earth Science (code GEOLBS02) (122-129 units)

The Earth Science program prepares students to understand the natural environment, earth resources, land and ocean use, pollution, geology of the sea floor, and other areas of critical importance to present and future world problems. Career-oriented interdisciplinary emphases are offered in Geohydrology/Environmental Geology, Engineering Geology, Exploration Geophysics, and Marine Geology/Oceanography.

Earth Science majors must receive a grade of "C" or better in all courses required for the major. As outlined below, a minimum of 122 units is required for the various emphases in Earth Science.

Lower Division: GEOL 102, 104, 240, 250, 273; MATH 122, 123, 224; CHEM 111A; PHYS 151, 152. Additional required courses for the various emphases are listed below.

Upper Division: GEOL 322, 350, 428, 433, 443, 460. Additional required courses for the various emphases are listed below.

2. Engineering Geology (123 units): CHEM 111B; C E 205, 345, 346, 445; MAE 373; GEOL 444, 450, 477.

3. Exploration Geophysics (126 units): BIOL 200; MATH 247, 370A; PHYS 310, 340A; GEOL 462; and 8 units selected in consultation with the undergraduate advisor.

Teaching Credential

Requirements Related to a Geoscience Concentration

The Geoscience Concentration meets the subject matter competence requirement for the Single Subject Preliminary Credential in Geosciences (code 192). Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Geoscience teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as post-baccalaureate students. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (http://ced.cscu.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The Geosciences Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

Lower Division: ASTR 100; BIOL 111, 111L, 212, 212L, 213, 213L; CHEM 111A,B; GEOL 102, 104, 160, 273; PHYS 151, 152; MATH 122, 123.

Upper Division: GEOL 341, 443, 448, 433, 450; SCED 403.

GRADUATE PROGRAMS

Master of Science in Geology (code GEOLMS01)

The Department of Geological Sciences offers a comprehensive program of courses coupled with appropriate thesis projects leading to the Master of Science in Geology. Within geology, students specialize in any of a number of sub-disciplines including engineering geology, environmental geochemistry, geology, hydrogeology, marine geology, mineralogy and petrology, paleoecology, petroleum geology, sedimentology, stratigraphy, structural and field geology, and volcanology. In addition, a formal emphasis in geophysics is available. Students may include in their studies courses offered by other departments at CSULB, or courses at California State University Northridge and California State University Los Angeles; CSULB participates with both universities in a joint Master's program.

The objectives of the Master of Science in Geology are (1) to train individuals with the competence required by the geological profession for employment in industry and government agencies, (2) to enable promising students to attain a level of knowledge and research ability required for admission to Ph.D. programs at other universities, and (3) to provide course work and research experience necessary for students planning to teach geology at the community college level.
Emphasis in Geophysics

The emphasis in geophysics is available for students wishing to specialize in the application of geophysical principles to the solution of problems in engineering geology, geohydrology, structural geology, tectonics, petroleum geology, and mineral exploration. Students following this Emphasis are expected to have completed the equivalent of course work required for the B.S. in Earth Science, Geophysics emphasis, and additionally to complete M.S. requirements with a program of geophysical course work approved in advance by both the graduate advisor and a geophysics advisor. Appropriate B.S. programs which provide training suitable for completion of the M.S. in Geology, Geophysics Emphasis, include Civil and Electrical Engineering, Physics, Mathematics, and Geology in addition to Geophysics, although some deficiencies will exist in these alternate programs. Students should confer with the graduate advisor about this program.

Departmental Resources

The CSULB Department of Geological Sciences is very well equipped for a wide variety of field, laboratory, and analytical research. Equipment and facilities include: an 1100 s of geochemistry clean lab with chromatography columns for trace element and isotopic studies, two HP gas chromatographs, a UV spectrophotometer, a Cary Vis/UV spectrophotometer, a CHN elemental analyzer, IR Mass Spectrometer, Analytical Environmental Scanning Electron microscope, vacuum extraction lines for oxygen and carbon isotope studies of carbonate and silicate minerals, three X-ray diffractometers, ppetigraphic thin section-making equipment and microdrill system, a fluid inclusion heating/cooling stage, a PIMA portable infrared spectrometer, a marine multichannel seismic reflection system that includes a digital 24-channel hydrophone streamer and unboom and spinner energy sources, a total station laser surveying system, a precision GPS receiver and processing software, a high-precision LaCoste-Romberg gravimeter, a land-based seismic reflection/refraction system with weight-drop energy sources and 24-channel land seismic data acquisition system, two 8-passenger 4WD field vehicles, Linux workstations and SIO/SERF seismic data processing software, 3D subsurface visualization and mapping software for seismic and well logs (Kingston Suite; 12-station network license), a 24-station computer lab (PC and Macintosh) with high-speed internet connection, laser printers, a digitizer tablet, a 42" HP color inkjet printer/plotter, GIS software (MapInfo and ArcView), desktop publishing and statistical software. The Department operates the Los Angeles Basin Subsurface Data Center, a well log and subsurface data repository with logs on 14,000 wells in southern California, and offshore seismic data. The Department also has access to three ocean-going research vessels, support staff, and dockside facilities of the Southern California Marine Institute (SCMI), a consortium of several California State University campuses, University of Southern California, and Occidental College.

Admission to the Program

The basic requirement for admission to the graduate program is possession of a bachelor's degree or equivalent in geology or earth sciences comparable to degrees offered at CSULB. The student normally will be expected to have completed as an undergraduate acceptable work in certain basic lower division and upper division subjects. Lower division subjects include calculus, calculus-based physics, chemistry, biology, computer programming and statistics. Upper division subjects depend on the degree emphasis and sub-disciplines to be followed by the student, and generally include (but may not be limited to) courses required by the corresponding undergraduate emphases. Students who are missing some of these course work may be admitted to the program but it will be expected to remove deficiencies or present acceptable alternatives.

In addition to the above course work requirements, students are required to take the General test of the Graduate Record Examination and to submit three letters of recommendation prior to entry.

Prospective graduate students in the geological sciences, including CSULB graduates, must formally apply for admission to CSULB as described previously in this Catalog and must also apply directly to the Department of Geological Sciences. All applicants must submit the following documents directly to the Department no later than July 1 for the fall semester or December 1 for the spring semester to receive consideration for admission:

1. Department Application Form, available from the Department Office;
2. Official transcripts of all college level academic work including that done at CSULB, in addition to those transcripts required for general graduate admission to CSULB;
3. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential;
4. Official reports of scores on the General test of the Graduate Record Examination.

A limited number of assistant/associateships are available to fund graduate studies in the Department of Geological Sciences. Applicants wishing to be considered for one of these positions must submit all application materials to the Department Office no later than July 1 for the Fall semester or December 1 for the Spring semester.

Students not meeting the Department's admission standards or application requirements may be admitted on probationary status on a case-by-case basis. Those students will be expected to maintain the same high academic standards as fully admitted students. After two semesters, students admitted on probationary status will be re-evaluated for full admission to the Department.

Initiation of Graduate Study

Students are responsible for all University and Department regulations governing master's degrees as outlined in this Catalog. The regulations governing the degree are those in effect at the time of advancement to candidacy. During this time, students are governed by the most current Catalog. The advising of incoming graduate students is carried out by the graduate advisor, who explains the requirements of the program and carries out initial academic advising. It is required that the student arrange for this initial advising before or during his/her first semester.

All entering students must take GEOL 500 (Introductory Graduate Seminar) during their first Fall semester. This course consists of faculty-given seminars that introduce new students
to the Department and to the faculty and their research. One purpose of this is to encourage the student to find a thesis topic and thesis advisor by the end of the second semester. This is done with the help of the graduate advisor once the student has chosen a sub-discipline or option in which to specialize.

Students are required to maintain a GPA of 3.0 or higher at all times. If at any time a student's GPA drops below 3.0, that student will immediately be placed on probation for a maximum of two semesters. If the student does not bring the GPA back up to 3.0 during the probationary period, he/she will not be allowed to continue as a graduate student in this Department. In order for a student to regain status in the Department after failing to maintain this academic standard, he/she must formally reapply for Department admission.

Advancement to Candidacy

A student must have been advanced to candidacy before initiation of thesis research necessary to complete the M.S. degree. Students are expected to be advanced by the end of their fourth semester. Students may petition the Department for an extension of the four semester time limit on a semester by semester basis. Students should be aware, however, that they are at risk of not receiving credit toward their graduate programs for research started or courses taken prior to advancement. Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and have advanced to candidacy before they apply for graduation. Requests to graduate must be received during the preceding May for Spring/Summer graduation or preceding December for Fall graduation. Filings after the deadlines are not accepted.

Before advancement can proceed, a thesis topic, committee, and graduate program consisting of at least 30 units (see below) must be established by the student and the prospective thesis committee chair. In addition, the following requirements must be met:

1. Prior completion of all deficiencies or incompletes. This includes courses required in the undergraduate major for the emphasis in which the student is pursuing graduate research, as well as additional courses specified by the thesis advisor.
2. Completion of six units of graduate level courses with a 3.0 or higher grade point average and attainment of a 3.0 or higher grade point average in all upper division and graduate work attempted, as well as in courses to be listed in the student's graduate academic program (see below).
3. A passing grade in GEOL 500.
4. Satisfying the Graduation Writing Assessment Requirement (GWAR).
5. Successful completion of an oral qualifying examination given by the student's thesis committee, and acceptance of a written proposal for the thesis research. The student's thesis topic will be the subject of the examination.

Once the above requirements are met, advancement to candidacy proceeds with approval of the committee, graduate advisor, Department Chair and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics. After the student has been advanced, no course work in addition to that specified in the graduate program may be required of the student. In order for a student to change thesis director, topic, committee members, or courses in the graduate program, approvals must be obtained. Under some circumstances this may mean that additional courses are required.

Requirements of Graduate Academic Program

The graduate academic program consists of at least 30 units of courses and is finalized when the student advances to candidacy. Although courses that will eventually become part of the student's academic program may be taken before advancement, it is strongly recommended that students make up any undergraduate deficiencies first, and then advance as early as possible. The program proposed by the thesis committee chair and the student must be approved by the thesis committee, Graduate Advisor, Department Chair, and Associate Dean for Graduate Accountability. Six units of GEOL 698 (Thesis) must be taken as part of the program. Directed Research, GEOL 697, may account for up to three units, but normally cannot be taken before the student completes 12 units of the graduate program with a grade point average of 3.0 or higher.

A minimum of 18 units of 500 or 600 level courses, including Thesis, must be completed, the remaining units (12 or less) may be 300, 400, 500, or 600 level courses, although courses at the 300 level in the Department may not be used in the program. Units may be taken at other universities if suitable courses are not offered at CSULB. Appropriate courses from related areas in science, mathematics, or engineering may be substituted within limits with consent of the Department.

Thesis Defense

All M.S. students are required to submit a thesis that conforms to the University and Department guidelines. The thesis should document the systematic study of a significant geological problem: evidence originality and critical, independent thinking; and conform to appropriate and accepted organization, format, and writing style. Each student should discuss thesis format with his/her thesis committee chair.

All M.S. students are also required to present the results of their research orally. With prior approval, this presentation can take one of many possible formats, including a departmental seminar, a presentation at a regional or national meeting, or a formal thesis defense. The student must schedule his/her presentation at least two weeks in advance, and with the approval of the thesis committee chair (and thesis director). The date of the presentation must be approved by the semester in which the student plans to graduate.

Courses (GEOL)

LOWER DIVISION

102. General Geology (3)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A 1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.
Not open for credit to students with credit in GEOL 105 or 107. Concurrent enrollment in GEOL 104 or 105 recommended. (Lecture, demonstration 5 hrs.)
104. Geology Laboratory (1)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent, and concurrent or prior enrollment in GEOI 102.
Laboratory study of earth materials.
(Laboratory 3 hrs.)

105. Geology Field Laboratory (1)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent, and concurrent or prior enrollment in GEOI 102.
Field trips to areas of geologic significance and field study of earth materials.
May be repeated to a maximum of 3 units with consent of instructor. (Field trips, 6 days per unit.) Course fee may be required for bus trips.

106. Earth Science for Teachers (4)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics, including algebra, geometry, and intermediate algebra or the equivalent.
Introduction to earth science including geology, oceanography, meteorology, solar system and astronomy. Scientific method addressed. Methods of teaching science to K-8 pupils.
Letter grade only (A-F). (Lecture, demonstration 3 hrs., laboratory 3 hrs., field trips.)

110. Natural Disasters (3)
Prerequisites: Completion or concurrent enrollment in courses that fulfill the GE A.1 and B.2 requirements. Concurrent enrollment in GEOI 110 is recommended.
Introductory study of Earth's natural processes that severely impact humans. Includes study of processes causing natural disasters such as earthquakes, volcanic eruptions, landslides, floods, tsunamis, hurricanes, tsunamis, and asteroid impacts.
(Lecture 3 hrs.)

110L Natural Disasters Laboratory (1)
Prerequisites: Completion or concurrent enrollment in courses that fulfill the GE A.1 and B.2 requirements. Concurrent or prior enrollment in GEOI 110.
Laboratory analysis of geological data and field observations of geological features associated with natural disasters.
Course fee may be required. (Laboratory 3 hrs., field trips.)

160. Introduction to Oceanography (3)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.
Origin and extent of oceans, nature of ocean floor, and cause and effect of currents, tides, and waves; and life in the ocean.
(Lecture, discussion 3 hrs.)

160L. Introduction to Oceanography Laboratory (1)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (MAPS 7) or the equivalent; and previous credit or concurrent registration in GEOI 160.
Field and laboratory study of marine environment. Analysis of maps, plus shore and on-water trips for experience in use of oceanographic instruments. Analysis and interpretation of results.
(Laboratory 3 hrs.) Course fee may be required.

190. Environmental Geology (3)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.
(Lecture 3 hrs.)

191. Air and Water Pollution (3)
Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra or the equivalent.
Survey course dealing with the causes and nature of pollution in the air, groundwater, fresh water lakes and streams, and the ocean. Effects of air and water pollution on the environment.
(Lecture 3 hrs.)

240. Historical Geology (4)
Prerequisites: GEOI 106 or both GEOI 102, 104.
History of earth and evolution of animals and plants.
(Lecture 3 hrs., laboratory 3 hrs., field trips.)

250. Introduction to Field Petrology and Geological Field Techniques (3)
Prerequisites: GEOI 102 with 104 or 105; or GEOI 106, all with grades of "C" or better. Corequisites: GEOI 240.
Identification and description of igneous, sedimentary, and metamorphic rocks in the field. Development of fundamental geological field techniques: recording, collection, and interpretation of geological data. Creation and interpretation of geological maps, writing technical reports, and construction of geological illustrations.
Letter grade only (A-F). (Lecture 1 hour, weekend field trips.)

273. Computer and Statistical Methods in Geology (4)
Prerequisites: GEOI 240, MATH 117 or 122. An elementary background in computers is recommended.
Introduction to statistical theory, computer programming, and the use of computer-based statistical and graphical packages as applied to problem-solving in the geological sciences.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.) Course fee may be required.

280. Water Resources and Society (3)
Prerequisites: GEOI 102, 104. A grade of "C" or better in MATH 117, or four years of high school mathematics.
Hydrologic, geologic, and other factors controlling groundwater and surface water occurrence, movement, quality, and contamination. Environmental effects of groundwater and surface water contamination.
(Lecture 3 hours; field trips)

UPPER DIVISION

3001. Earth Systems and Global Change (3)
Prerequisites: Completion of the G.E. Foundation, upper division status, and CHEM 100 or CHEM 111A or GEOI 102 or GEOI 106 with a grade of "C" or better.
Interaction of Earth's systems (biosphere, lithosphere, hydrosphere, cryosphere, and atmosphere) and links between life, oceans, climate, and the solid earth. This approach is used to understand important issues confronting society regarding climatic and environmental change.
Letter grade only (A-F). (Lecture 3 hrs.)
303. Coastal Systems and Human Impacts (3)
Prerequisites: Completion of the G.E. Foundation, one or more
Explorations courses, and upper-division standing: BIOL 102 or 160.
Natural processes impacting human activities in coastal zone and
human influence on natural processes. Includes global warming,
sea level rise, El Nino, port development, ocean outfalls and water
quality, fisheries, and coastal erosion.
May not apply units toward elective requirements of Geology and
Earth Science majors. Letter grade only (A-F). Not open for credit
students with credit in BIOL 103. (Lecture 3 hrs.)

322. Crystallography, Mineralogy and Optical Methods
(5)
Prerequisites: GEOL 250; CHEM 101 or 111A.
Morphological and structural crystallography, crystal structure,
chemistry, classification, origin, occurrence, and association of
minerals reviewed. Analysis and identification of minerals by
petrographic and optical microscope techniques. Analysis of
minerals reviewed including nature of light. 
Letter grade only (A-F). (Lecture 3 hrs., laboratory 2 hrs., field trips)

339. Introduction to Geomorphology (3)
Prerequisites: GEOL 102 with a grade of C or better; or
CHEM 111A or 111B. 
Study of landforms and processes producing and modifying
them. Emphasis is on mechanics of geomorphic processes and
relationships between properties of earth materials and forces
acting on them by gravity, wind, ice, water, waves, and humans.
Conceptual basis of geomorphology addressed.
Prerequisites: GEOL 102 with a grade of C or better; or
CHEM 111A or 111B. 
Lecture grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips)

341. Paleontology and Biostratigraphy (4)
Prerequisites: GEOL 240 and BIOL 200. 
Morphologic, systematic, and ecological aspects of invertebrate
fossils; methods and techniques in collection, preparation,
illustration, and description of fossil. Use of fossils in stratigraphic
work. (Lecture 3 hrs., laboratory 3 hrs., field trips) 
Letter grade only (A-F). (Field trips, 5 days per unit)

350. Spring Field Geology (2)
Prerequisites: GEOL 205 and 443 with grades of "C" or better. 
Lecture and discussion of geological principles. 
Lecture and laboratory 3 hrs. 
Letter grade only (A-F). (Field trips, 5 days per unit)

364. Introduction to Geological Oceanography (2)
Prerequisites: GEOL 102 or 160; and CHEM 111A or MATH 122, or
consent of instructor.
Introduction to basic oceanography and marine geology. 
(Lecture 3 hrs., sea trips)

364L. Laboratory in Geological Oceanography (1)
Prerequisites: GEOL 364.
Laboratory methods and sampling techniques in marine geology. 
(Laboratory 1 hr., sea trips)

370. Geology for Engineers (2)
Prerequisites: MAE 172, CE 130.
Earth processes and materials which influence the design,
construction and operation of engineering works. Not open for credit
to geology majors. (Lecture 2 hrs., field trips)

410. Biogeochmical Cycles (3)
Prerequisites: GEOL 102, 200 or 461; BIOL 102R or 200 or 211A,B or
BIOL 111, 111L, 212, 212L, 213, and 213L; MATH 122; CHEM
111A, B; or GEOL 151. (Undergraduates enroll in GEOL 410; graduates
enroll in GEOL 510.)
Study of carbon, nitrogen, phosphorus, iron, and sulfur cycles
among the lithosphere, hydrosphere, and atmosphere with an emphasis
on transfer rates, mass balance, and residence times. Evaluation of
processes and interactions of these cycles among major ecosystems
(wetlands, rivers, oceans, lakes, estuaries).
Letter grade only (A-F). (Lecture 3 hrs.)

420. Geomorphology (3)
Prerequisites: Upper division or graduate standing in the College
of Natural Sciences and Mathematics; ENGL 100 or equivalent; a
course in geology; consent of instructor.
Writing for scientific audience; writing scientific content at an
advanced level emphasized. Journal articles and abstracts
reviewed. Includes handling descriptive scientific data, distinction
between data and interpretation, logic and argument, clarity
of style, and writing for specific audiences. Literature review.
Enrollment limited.
Letter grade only (A-F). (Lecture 3 hrs.)

422. Advanced Mineralogy (4)
Prerequisites: GEOL 322; CHEM 111B.
Minerals and crystal structure studies emphasizing importance
of non-silicate minerals to sedimentary petrology and economic
geology. Includes physical and optical properties, flame and
diffraction techniques, and X-ray diffraction of native elements.
(Lecture 3 hrs., laboratory 3 hrs., field trips) 
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., field trips)

424. Sedimentary Petrology (4)
Prerequisites: GEOL 329 and 443. (Undergraduates enroll in
GEOL 424; graduates enroll in GEOL 524.)
Microscopic and macroscopic study of the origin and diagenesis
of sedimentary rocks. Identification of grain types, textures,
structures, and cements emphasizing provenance, paleoecology,
paleoenvironmental reconstructions, and post-depositional
alteration.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

428. Igneous and Metamorphic Petrology and
Petrography (4)
Prerequisites: GEOL 322; CHEM 111A, B.
Magmatic and metamorphic rocks and systems
characteristics, including mineralogical and chemical aspects.
Facies origin, evolution of igneous and metamorphic rocks,
modelling of magma genesis. Microscopic, hand specimen
and x-ray analysis of rocks, including fabric and mineral content.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., and field
trips)

430. Seminar in Structural Geology and Tectonics
(3)
Prerequisites: GEOL 433. (Undergraduates enroll in GEOL 430; graduates
enroll in GEOL 530.)
Review of analysis, interpretation, and origin of geologic structures,
mechanics of rock deformation and of large-scale crustal
deformation.
(Lecture 2 hrs., laboratory 3 hrs., field trips)
443. Structural Geology (4)
Prerequisites: GEOL 250, 322; PHYS 151.
Theories/principles of structural geology, orogenesis, and tectonics. Planar linear structures in naturally deformed rocks. Description, classification, interpretation, and kinematic and dynamic analysis of faults/folds. Field measurement, analysis and mapping of structures. Deformation, strength, fracture, and rheological properties of rocks.
Lecture grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., required field trips)

443. Stratigraphy/Sedimentology (4)
Prerequisites: GEOL 240, 322.
Introduction to sedimentology and stratigraphy, flow mechanics and sedimentary structures, laboratory and field methods for the description and classification of sedimentary rocks, depositional systems, sequence stratigraphy, subsurface stratigraphic methods, sedimentation and tectonics, preparation of sedimentologic field reports.
Not open for credit to students with credit in GEOL 545. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., required field trips)

445.444. Engineering Geology (4)
Prerequisites: GEOL 250, 273, 322; MA/II 122, 123; CHEL 111A; PHYS 151, 152. Undergraduates enroll in GEOL 444; graduate students enroll in GEOL 944.
In depth study of the fundamentals of engineering geology and related hazards. Evaluation of aggregate, cement and grouts. Soil and rock engineering characteristics.
Lecture grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.; field trips.)

450. Summer Field Geology (4)
Prerequisites: GEOL 350, 428, 433, and 443.
Four weeks of geological field mapping at a selected area. Preparation of geological reports of the field problems.
(Lecture as needed, daily field work)

460. Introduction to Geophysics (3)
Prerequisites: PHYS 151, 152; MA/II 123; and GEOL 273.
Introduction to geophysics; principles and processes; methods of investigation.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

461. Introduction to Geochemistry (3)
Prerequisites: CHEL 111A; and MA/II 123.
Abundance and migration of elements in the earth; chemical processes in evolution of earth and its crust including geochemistry of organic compounds.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

462. Physics and Chemistry of the Earth's Interior (3)
Prerequisites: GEOL 240, 428; PHYS 152.
Structure and composition of the Earth's interior. Origin and evolution of the Earth. Review of geophysical data, petrologic analysis, and other types of evidence for Earth structure and compositional models.
Lecture grade only (A-F). (Lecture 3 hrs.)

465.565. Physical and Chemical Oceanography (3)
Prerequisites: CHEL 111B, PHYS 100B, and upper division standing in the College of Natural Sciences and Mathematics or Engineering. Undergraduates enroll in GEOL 465; graduate students enroll in GEOL 565.
Physics and chemistry of the oceans, carbon cycle, minor and trace elements in sea water, nutrients, water masses and currents, physical concepts and interpretative theories related to ocean circulation.
(Lecture 3 hrs.)

466. Oceanography Laboratory and Ocean Studies (1)
Prerequisite: Concurrent or prior enrollment in GEOL 465. Analysis and interpretation of oceanographic data, acquisition of data at sea on field trip, and post-cruise analysis and presentation of results.
Not open for credit to students with credit in GEOL 462. (Laboratory 3 hrs., sea trips)

471. Petroleum Geology and Well Log Analysis (4)
Prerequisites: GEOL 240, 443.
Geological application in exploration and production of petroleum, including uses of surface and subsurface techniques. Basic well logging techniques employed, including data collection, reduction, interpretation, and integration among various logging methods as well as with surface geology and geophysical data.
(Lecture 2 hrs., laboratory 6 hrs., field trips.)

477.577. Hydrogeology (3)
Prerequisites: GEOL 102, 104; CHEL 111B; PHYS 152; MA/II 123. Undergraduates enroll in GEOL 477; graduate students enroll in GEOL 577.
Hydrologic, geologic, and other factors controlling ground water flow, occurrence, development, chemistry, and contamination. Elementary ground water flow theory. Well hydraulics.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

485.586. Engineering Geophysics (3)
Prerequisite: GEOL 485 (may be taken concurrently).
Applying geophysical techniques to geology and hydrogeology problems. Geophysical techniques and identification and utilization of specialized techniques. Case histories in site evaluations, subsiding areas, basement topography mapping, seepage problems, water table mapping, groundwater contamination, and subsurface cavities detection.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)
Course fee may be required.

489. Current Topics in Geological Sciences (3)
Prerequisite: Consent of instructor.
Topics of current interest in the geological sciences selected for intensive development.
May be repeated to a maximum of 6 units. Field trips may be required. (Lecture 2 hrs., laboratory 3 hrs.)

B. Urban Geology

490. Current Topics in Geological Sciences (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in the geological sciences selected for intensive development.
May be repeated to a maximum of 6 units. Field trips may be required.

K. Economic Mineral Deposits

495. Investigations in Geology and Other Earth Sciences (1-4)
Prerequisites: Senior standing in geology, earth science or related fields, completion of an upper division course in geology or earth science in the area of the topic chosen and approval of the topic chosen by the Geological Sciences faculty.
Supervised research in geology or the other earth sciences. Field trips may be required.

GRADUATE LEVEL

500. Introductory Graduate Seminar (1)
Prerequisite: Graduate standing.
Introduction to graduate policies and faculty research in Geological Sciences. Abstracts on faculty presentation required of all students.
Course cannot be counted for program requirements for the M.S. degree in Geology. Credit/No Credit grading only. May be repeated to a maximum of 3 units. (Seminar 1 hr.)
510.410. Biochemical Cycles (3)
Prerequisites: GEOL 102, 200 or 481; BIOL 200 or BIOL 211 A/B or BIOL 211 I/L, 212, 212 L, 213, and 213 L; MATH 122; CHEM 111 A, B; or GEOL 191, (Undergraduates enroll in GEOL 410; graduates enroll in GEOL 510.)
Study of carbon, nitrogen, phosphorus, iron, and sulfur cycles among the bio-, hydro-, and geospheres with an emphasis on transfer rates, mass balance, and residence times. Evaluation of processes and interactions among key ecosystems (wetlands, rivers, ocean, lakes, estuaries).
Letter grade only (A-F). (Lecture 3 hrs.)

524.424. Sedimentary Petrology (4)
Prerequisites: GEOL 322 and 443. (Undergraduates enroll in GEOL 424; graduates enroll in GEOL 524)
Microscopic and macroscopic study of the origin and diagenesis of sedimentary rocks. Identification of grain types, textures, structures, and cements emphasizing provenance, palaeoecotectonics, and paleo-environmental reconstructions, and post-depositional alteration.
Letter grade only (A-F). (Lecture 3 hrs.; Laboratory 3 hrs.)

530.430. Seminar in Structural Geology and Tectonics (3)
Prerequisite: GEOL 433. (Undergraduates enroll in GEOL 430; graduates enroll in GEOL 530)
Review of analysis, interpretation and origin of geologic structure, mechanics of rock deformation and of large scale crustal deformation.
(Lecture 2 hrs., laboratory 3 hrs.; field trips.)

537. California Geology (3)
Prerequisites: GEOL 102, 200 or BIOL 211 A/B. (Undergraduates enroll in GEOL 437; graduates enroll in GEOL 537)
Examination of recent theories concerning evolution of California's geological provinces; geological, geochemical, and geophysical evidence for these theories.
Letter grade only (A-F). (Lecture 3 hrs.; field trips.)

544.444. Engineering Geology (4)
Prerequisites: Prerequisites: GEOL 250, 273, 322, MATH 122, 123; CHEM 111 A/B; PHYS 151, 152. (Undergraduates enroll in GEOL 444; graduates enroll in GEOL 544)
In depth study of the fundamentals of engineering geology and related hazards. Evaluation of aggregate, cement and gravels. Soil and rock engineering characteristics.
Letter grade only (A-F). (Lecture 3 hrs.; Laboratory 3 hrs.; field trips.)

554. Environmental Geochemistry (3)
Letter grade only (A-F). (Lecture 3 hrs.; field trips.)

565.465. Physical and Chemical Oceanography (3)
Prerequisites: CHEM 111 B; PHYS 152 or 100B; and upper division standing in the College of Natural Sciences and Mathematics or Engineering. (Undergraduates enroll in GEOL 465; graduates enroll in GEOL 565)
Physics and chemistry of the ocean, carbon cycle, minor and trace elements in sea water, nutrients, water masses and currents, physical concepts and interpretative theories related to ocean circulation.
(Lecture 3 hrs.)

570. Special Topics in Geology (3)
Prerequisite: Consent of instructor.
Investigation of selected topics in geology. May be repeated to a maximum of 9 units toward any single degree with different topics. Seminars with field trips as appropriate.
Letter grade only (A-F). (Seminar 3 hrs.) May be repeated to a maximum of 9 units with different topics in different semesters.

575. Advanced Topics in Sedimentology (3)
Prerequisite: Consent of instructor.
Investigation of topics in sedimentology such as depositional facies analysis, basin evolution, coastal processes, fluvial processes, advanced stratigraphic analysis, and tectonics and sedimentation. Content varies from year to year. May be repeated to a maximum of 9 units toward any single degree with different topics in different semesters. Seminars with field trips as appropriate.
Letter grade (A-F). (Seminar 3 hrs.)

577.477. Hydrogeology (3)
Prerequisites: GEOL 102, 104; CHEM 111 B; PHYS 152; MATH 123. (Undergraduates enroll in GEOL 477; graduates enroll in GEOL 577)
Hydrologic, geologic, and other factors controlling groundwater occurrence, development, chemistry, and contamination. Laboratory groundwater flow theory. Well hydraulics.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

586.486. Engineering Geophysics (3)
Prerequisites: GEOL 486; (Undergraduates enroll in GEOL 486; graduates enroll in GEOL 586)
Applying geophysical techniques to geology and hydrogeology problems: Geophysical techniques, and identification and utilization of specialized techniques. Case histories in site evaluations, subsiding areas, basement topography mapping, seawater problems, water table mapping, groundwater contamination, and subsurface cavities detection.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.) Course fee may be required.

96. Directed Research (1-3)
Prerequisite: Consent of instructor.
Research on a specific subject in geology. Topic for study to be approved and directed by a faculty member in geological sciences.
Letter grade only (A-F).

98. Thesis (1-6)
Prerequisite: Advanced to candidacy for M.S. in Geology, consent of Graduate Committee and graduate advisor. Either laboratory or field investigations, or both, for a total of six semester units to culminate in an approved thesis.
Letter grade only (A-F).
GERMAN
College of Liberal Arts
Department of Romance, German, Russian Languages and Literatures

Department Chair: Lisa Vollendorf
Program Director: Jeffrey High

GERLL Language Coordinator: Markus Muller
Single Subject Coordinator for L.O.T.E.: Jean-Jacques Jutra
Department Office: Academic Services, Room 309
Telephone: (562) 985-4518
Faculty: Nwe Hempel-Lamer, Jeffrey High
Administrative Analyst/Specialist: Cindy McCarty

Students desiring information should contact the department office for referral to one of the faculty advisors. Credential advisors: Undergraduate Advisor, Graduate Advisor.

Career Possibilities
Customs Officer • Immigration Officer • Importer/Exporter • Foreign Service Officer • International Marketing Representative • Travel Professional • Social Worker • Linguist • Foreign Correspondent • Community Organization Worker • Lawyer • Librarian • International Student Advisor • Educator • Peace Corps Worker • Interpreter • Teacher Professor • Translator • CIA/FBI Agent (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The German program develops the student’s language skills and knowledge of literature, history, and current affairs in German-speaking countries, as well as cultural literacy, all of which play an important role for study abroad and employment in a variety of careers. In cooperation with the College of Engineering, the German Program promotes a double major of German and Engineering. In addition, the Program offers a BA in German Studies with a concentration/certificate in the Administration of Travel and Tourism. German Studies maintains exchange programs with the University of Bielefeld, Essen, and Oldenburg as well as Freiburg (Switzerland) and Salzburg (Austria), and all of the universities in Bader-Wurttemberg. German students are also eligible to participate in the German-American Business Student Workshop with the Polytechnic University Hamburg, Germany.

Undergraduate Programs

Bachelor of Arts in German (code RGR_BA02) (120 units)

The German Studies Program promotes competency in the use of language and understanding of cultural history and contemporary society in German-speaking countries. It is designed to meet the needs of students seeking a liberal-arts education with an emphasis on German language and culture; those intending to teach at the elementary, secondary, or the college or university level; and of those planning to use German in professional careers or in pursuit of graduate studies. Efforts are made to accommodate the special needs of students who simultaneously pursue a major in Business, Engineering, or a certificate in Travel and Tourism.

Requirements

Lower Division: One year of intermediate German or equivalent. Students who have completed sufficient high-school German may take upper-division courses as soon as lower-division requirements have been met. Native speakers of German may not enroll for credit in 101A/B or 201A/B.

Upper Division: A minimum of 33 units (36 for Single Subject) of upper-division courses in German, which must include: GERM 301, 302, 415, and 416 and twelve (12) additional units of 400-level literature and culture courses: 430, 440, 450, 458, 459, 460, 480, and 498

Recommendations: Courses should be selected in consultation with the major advisor. The department strongly recommends studies or an internship in a German-speaking country and will assist in such plans.

Single Subject Teaching Credential, German (code 153)

Completion of the German major (plus 6 additional units) meets the subject matter competence requirement for the Single Subject Preliminary Credential in German (code 153). Prospective students should consult the undergraduate German Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of German are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The German Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

The same as for the B.A. plus GERM 303 and 410 or equivalent.

2009/2010 CSULB Catalog • German • 419
Minor in German (code RGR_UM03)

A minimum of 20 upper division units, which must include: GERM 301, 302, 415, and 416.

The Minor in German is available to any non-German major.

Graduate Programs

Master of Arts in German (code RGR_MA02)

The Master of Arts in German prepares students for academic and other professional careers. The Program is committed to support each graduate student in his or her career goals and works together with other programs and departments on campus to help formulate a meaningful and marketable study plan for each student. Many of our graduates go into teaching at the secondary and post-secondary level and are successful in competing for fully supported Ph.D. programs throughout the U.S. We encourage students to study at German-speaking universities and assist with overseas study plans.

For graduate students interested in multimedia teaching technology, the program provides special projects and practical opportunities. Teaching Assistantships are available.

Prerequisites
1. A bachelor of arts degree in German or:
2. A bachelor's degree with a minimum of 24 units of upper-division courses in German. These courses must be comparable to those required of a major in German at the University. Deficiencies will be determined by the department.

Advancement to Candidacy

Advancement to Candidacy should take place upon completion of at least six units, preferably no more than nine units applicable to the program, with at least a 3.0 GPA.

The candidate may file for advancement to candidacy only after she/he has filed a transcript of credits or a change-of-objective form, completed the prerequisites, and fulfilled the Graduation Writing Assessment Requirement (GWAR).

The student graduate program must be approved by the graduate advisor, departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies.

Requirements
1. Completion of a minimum of 30 units of approved upper-division and graduate courses with 24 units in German;
2. A minimum of 18 units in the 500 and 600 series in German which must include GERM 510.
3. A reading knowledge of French, Italian, Latin, Russian, or Spanish. Another language may be substituted only under special circumstances;
4. A comprehensive examination or, with permission of a Graduate Advisor, a thesis.

German Courses (GERM)

LOWER DIVISION

101A. Fundamentals of German (4)
Prerequisite or Corequisite: Any Foundation course.
Beginning the study of German.
or non-native speakers only, and is not open to heritage speakers or native speakers of German. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
(Lecture 4 hrs.)

101B. Fundamentals of German (4)
Prerequisite or Corequisite: Any Foundation course.
Continuation of GERM 101A.
For non-native speakers only, and is not open to heritage speakers or native speakers of German. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
(Lecture 4 hrs.)

201A. Intermediate German (4)
Prerequisite: GERM 101B and completion of the 13-unit Foundation requirement (or entering competency equivalent to GERM 101B and completion or concurrent enrollment in at least one Foundation course). German grammar review with further development of reading, writing, and conversational skills.
For non-native speakers only, and is not open to heritage speakers or native speakers of German. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
(Lecture 4 hrs.)

201B. Intermediate German (4)
Prerequisite: GERM 201A and completion of the 13-unit Foundation requirement (or entering competency equivalent to GERM 201A and completion or concurrent enrollment in at least one Foundation course). German grammar review with further development of reading, writing, and conversational skills.
For non-native speakers only, and is not open to heritage speakers or native speakers of German. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
(Lecture 4 hrs.)

204. German for Reading Knowledge (3)
Prerequisites: GERM 101A,B or equivalent or consent of instructor.
Concentrates on essentials for translation and is designed chiefly for students in any field who are preparing for reading exams in German.

UPPER DIVISION

301. Fiction and Fact: Short Texts (3)
Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of the basic language skills: reading comprehension, composition, and conversation. Emphasis on reading, comprehension, vocabulary building, and idiomatic usage.

302. Language of the German Media (3)
Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of basic skills: reading, comprehension, composition, and conversation. Emphasis on composition, oral reports, and discussion.

303. German Phonetics (3)
Prerequisite: Upper-division standing in German or consent of instructor.
General concepts of linguistic science. Linguistics applied to the study and teaching of the German language. Articulatory phonetics as a means to form native German pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.
305. Speak Along, Sprechen Sie Mit
Prerequisite: Upper-division standing in German.
Intensive practice of spoken German with stress on vocabulary
building, pronunciation, intonacion, and oral comprehension.
Credit/No Credit grading only. May be repeated to a maximum
of 6 units.

306. Translating German to English (3)
Prerequisite: Upper-division standing in German or consent of
instructor.
The preparation of translations from German texts of wide-ranging
subject matter.

309. Business German (3)
Prerequisites: GER 101A, B or equivalent or consent of instructor.
Advanced language course to acquaint students with terminology
of German business. Conversational and written approaches
are used. Emphasis is placed on business correspondence, forms
of business and corporate organizations, transportation, banking,
management, protection, marketing.
Not open for credit to students with credit in GER 307 or 308.

370. German Literature in English (3)
Study of significant German writers. German literary movements,
or a specific literary genre in English translation.
May be repeatable for 6 units in different semesters. Not open for
credit to students with credit in GER 470.

380L. Contemporary Germany: Society and Culture (3)
Prerequisites: Completion of GE Foundation requirements, one
or more Explorations courses, and upper-division standing.
Germany today presents a unique case study for difficulties and
crises in German unity. Course is taught through texts of
fiction and literature. Taught in German.

398. Topics in German (3)
Prerequisite: Upper-division standing in German or consent of
instructor.
Exploration of topics in language, culture, and literature. Specific
topics to be announced in the Schedule of Classes.
May be repeatable to a maximum of 6 units with different topics.

401. Advanced German Syntax and Composition (3)
Prerequisite: GER 301, 302. Practice in developing a style
and vocabulary suitable for the writing of reports and essays on
literary topics.
May be repeated to a maximum of 6 units.

410. History and Stories: German Civilization (3)
Prerequisite: Upper-division standing in German.
Historical development of German institutions, customs and
thought.

415. Under the Italian Spell: Survey of German
Literature and Culture I (3)
Prerequisite: Completion of GE Foundation requirements.
German literature from the Middle Ages to the time of Goethe,
as related to the other arts, to philosophy, and to the social
and political institutions of the time.

416. Toward Europe: Survey of German Literature and
Culture II (3)
Prerequisite: Completion of GE Foundation requirements.
German literature from Romanticism to the present, as related
to the other arts, to philosophy, and to the social and political
institutions of the time.

430-430L. Rhyme Scene Investigation: German Poetry
(3)
Prerequisite: Upper-division standing in German.
German poetry from the Baroque to the present.

440. German Novella in Context (3)
Prerequisite: Upper-division standing in German.
The German Novella as a separate literary genre, represented by
Goethe, Tieck, Kleist, Kallmer, Meyer, Storm, Späthagen, Hesse,
Kafka, Thomas Mann, and others.

450. Reason, Revolution, Reaction (3)
Prerequisite: Upper-division standing in German.
Liberal trends of the 18th century, with emphasis on Lessing,
Wehland, Klopflock, Herder, Goethe and Schiller and the authors
from "Sturm und Drang" to Romanticism.
Letter grade only (A-F).

458. Road to Modernity (3)
Prerequisite: Upper-division standing in German.
Representative literary works of the "Diedormarler," "Junge
Deutschland" and "Postdachtor Realismus" against the back-
ground of the historical, philosophical, and cultural movements
of the time.
Letter grade only (A-F).

459. German Literature from 1890-1945 (3)
Prerequisite: Upper-division standing in German.
Major German prose, drama, and poetry from Naturalism to the
end of World War II.
May be repeatable for 6 units in different semesters.

460. Two Perspectives: 1945 to 1990 (3)
Prerequisite: Upper-division standing in German.
Significant contemporary German writers of prose, drama and
poetry in the context of the divided Germany.
Letter grade only (A-F).

480. Between Berlin and Hollywood: German Cinema
(3)
Acquaint students with the art of the medium, and the history
of German film, particularly as it is realized through the work of
the artists most responsible for its success or failure, in this case,
the director.
Letter grade only (A-F). Same course as FIA 457. Not open for
credit to students with credit in FIA 457.

494. Internship in German (1-3)
Prerequisites: Consent of instructor and department chair.
Field work in German, supplemented by readings and tutorials
under the direction of a faculty member. Internships, small
research group, discussion, preparation, and other assignments
directed by a supervising faculty member.
May be repeated to a maximum of 6 units. No more than 3 units
may be applied to the major in German.

498. Topics in German (3)
Prerequisites: Senior standing in German or consent of instructor.
Selection of topics in language, culture, and literature. Specific
topics to be announced in the Schedule of Classes.
May be repeated to a maximum of 9 units with different topics
in different semesters.

499. Directed Studies (1-6)
Prerequisite: Consent of instructor.
Independent study undertaken under the supervision of a faculty
member.

---

2009/2010 CSULB Catalog • German • 421
GRADUATE LEVEL

510. The Faces of United Germany: Past, Present, and Future (3)
Prerequisite: Admission to the Graduate Program in German or consent of Graduate Advisor in the German Studies. The course locates the present concentration of international research in the disciplines and requires individual research, presentation of findings, and a substantive paper. Letter grade only (A-F).

530. Rhyme Scene Investigation: German Poetry (3)
Prerequisite: Graduate standing in German.
Letter grade only (A-F).

540. German Novella (3)
Prerequisite: Graduate standing in German.
The German Novella as a separate literary genre, represented by Goethe, Tieck, Klopstock, Hoffmann, iterating the historical, philosophical, and cultural movements of the times.
Letter grade only (A-F).

550. Reason, Revolution and Romantic Thought (3)
Prerequisite: Upper-division standing in German.
Intruduction to the 18th century, with emphasis on Lessing, Wieland, Klopotock, Hordor, Goeth and Schiller, and authors from "Sturm und Drang" to Romanticism.
Letter grade only (A-F).

558. Road to Modernity (3)
Prerequisite: Upper-division standing in German.
Representative literary works of the "Biedermeier," "Jureges Deutschland" and "Poetischer Realismus" against the backdrop of the Historical, philosophical, and cultural movements of the times.
Letter grade only (A-F).

559. German Literature from 1890-1945 (3)
Prerequisite: Upper-division standing in German. Major German prose, drama, and poetry from Naturalism to the end of World War II.
May be repeatable for 6 units in different semesters.

560. Two Perspectives: 1945 to 1990 (3)
Prerequisite: Upper-division standing in German.
Significant contemporary German writers of prose, drama and poetry in the context of the divided Germany.
Letter grade only (A-F).

590. Theoretical Approaches (3)
Prerequisite: B.A. in German or equivalent.
Evaluation of various methods in interpreting a literary work of art, different levels of interpretation, concepts of literary movements, complexity of structure related to content, literary appreciation, introduction to bibliographical aids.
May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

598. Topics in German (3)
Prerequisites: B.A. in German or equivalent.
Exploration of topics in language, culture and literature. Specific topics to be announced in the Schedule of Classes.
Letter grade only (A-F). May be repeated to a maximum of 9 units, with different topics in different semesters. Students with credit in GERM 511 may only have a total of 9 units of GERM 511 and GERM 598 combined.

599. Directed Studies (1-3)
Prerequisites: Graduate standing. Consent of instructor and chairperson or graduate advisor. Selected topics in German to be pursued in depth. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

553. Seminar in German Literature (3)
Prerequisite: Corresponding 400-500-level century course or consent of graduate advisor.
Topics dealing with literary trends, literary genres, or individual authors. May be repeated to a maximum of 6 units in different semesters. Intensive studies in:
A. 17th Century Baroque
B. 18th Century Classicism
C. 19th Century Realism
D. 20th Century German Literature

697. Directed Research (1-3)
Prerequisites: Consent of graduate advisor. Required of all candidates for the master of arts in German who do not choose to write a thesis.
Letter grade only (A-F).

598. Thesis (1-4)
Prerequisite: Consent of graduate advisor.
Planning, preparation, and completion of a thesis. Does not count toward 30 units required for the M.A. degree.
GERONTOLOGY
College of Health and Human Services

Faculty Interest Group
Jeanne Bidder (emeritus), Les Blocher, Kay Cerny, Young-Hoe Cho (emeritus), Maria Clower, Tom Crowe, Shelley Erickson, Joseph Fishor, Mohamed Fournier, Gail Frank, Robert Fries, Carmen Gallang, Agathe Glezakos, Catherine Goodman, Kenneth Gregory (emeritus), Sharon Guthrie, Judy Halls, Robert Harman (emeritus), David Harrison, Joellen Hartley, Alan Henderson, Carol Itani, Huzai Jackson, Mary Jacob (emeritus), K. J. James, Marilyn Jones, Barry Leway, Margaret Lichty, Tracey Mayfield, Offat Mohamadi, Clyde Penta, Maudlyn Polts, Bonnie Rader, Molly Rahway, Wendy Reboldt, Pamela Roberts, Jan Schroeder, David Schult, Donna Schwartz, Lydia Sonnen, Kim Sheng Vuu, Lileen Watson, Barbara White, Mary Wolfinbarger

Career Possibilities
General: Community/social services agencies; Health care and long-term care institutions; Federal, State, and local government agencies, including the system of service delivery to older persons under the Older Americans Act; Retirement communities; Academic and other educational and research settings; Professional organizations; Business and industry; Religious organizations; The arts and sciences.

Direct Service: Developing programs such as health promotion, recreation and leisure, and intergenerational activities in senior centers, community agencies, or retirement communities; providing direct care and elder care management; teaching in long-term care settings and their caregivers in hospitals, clinics, nursing homes, assisted living, adult day care or home care programs; Teaching in senior adult community settings; Counseling older persons and their families about issues of caregiving, employment, finances, death and dying, or mental health; Advising older clients about estate planning and investments; Long-term care financing; Housing options; Advocating for older adults as an ombudsman, conservator, or care manager.

Indirect Service: Analyzing issues related to older persons such as retirement income, the health care system, housing alternatives, planning, administering, and evaluating community-based and health-related services for older persons and their families; Writing grants to support programs; Teaching courses on aging to graduate students, college and university students, health care professionals; Advocating on behalf of older persons before legislative bodies; Designing products to meet the special needs and interests of older persons; Developing marketing strategies; Consulting with business, industry, labor, arts and sciences both nationally and internationally about older adults and aging.

Education: Certificate or degree. Some careers require education in a specialty field in addition to gerontology.
Knowledge about aging enhances every career and discipline.
(For more information, see www.carours.csulb.edu.)

Introduction
Gerontology is the scientific study of the processes and phenomena of aging, including biological, psychological, and sociological dimensions. Mission: The California State University, Long Beach. Gerontology Program is dedicated to 1) Improving the lives of middle aged and older individuals in California and around the world by preparing students to work with diverse older adults, families, service providers, businesses, educators, and legislators; 2) Providing timely, high-quality training, consultation, and other services; and 3) Conducting research designed to inform planning and implementation of activities that promote optimal well-being of older adults and their families.

The Gerontology Program's objectives are:
1. To provide a flexible interdisciplinary curriculum that gives new and seasoned professionals the competencies necessary for success in the field of aging.
2. To provide experiential as well as didactic graduate education and professional training in gerontology for individuals planning to become professionals in public and private agencies.
3. To provide professional field experiences in gerontology in order to enhance understanding of concepts, themes, and skills related to aging at various life stages, within different gender and racial/ethnic groups, and among people with various abilities.
4. To provide knowledge and skills necessary to plan, develop, and implement innovative programs to meet the needs of the State's vast and growing aging population.
5. To explore aging-related professional values and ethics.

The Gerontology Program is enhanced by the Gerontology Faculty Interest Group, the Center for Successful Aging and a chapter of Sigma Phi Omega, The National Academic Honor and Professional Society in Gerontology.

The Gerontology Faculty Interest Group is comprised of over 40 CSULB faculty members representing more than 20 disciplines. Members teach courses essential to the Gerontology Program, conduct gerontological research, and provide training and service. Lecturers and emeritus faculty members also are active in the Gerontology Program.

The Center for Successful Aging is part of a complex of centers and organizations on the campus of the California State University, Long Beach that are involved with aging-related issues. The Center for Successful Aging is a transdisciplinary academic/community partnership to promote collaborative innovations in education, practice, policy development and research related to aging, in a culturally diverse society.

Students in the Gerontology Program are eligible for membership in Sigma Phi Omega, the national academic honor and professional society in gerontology that recognizes the excellence of those who study gerontology/aging and the outstanding service of professionals who work with or on behalf of older persons.
CSULB is one of only a few California campuses to offer graduate programs to meet the State’s need for educated, experienced and diverse professional gerontologists. To accomplish this goal, two programs of study are offered:
A Master of Science in Gerontology and a Gerontology Certificate.

**Master of Science in Gerontology**  
(code FCS_MS02)

Interested students should contact Dr. Barbara White at 562-985-1582 or bwhite@csulb.edu

The Master of Science Degree in Gerontology is designed to prepare students with a thorough background in existing theory and research in gerontology, advanced principles of program management, and an enhancement to their baccalaureate preparation for their professional discipline. Students who complete the M.S. in Gerontology will accomplish the following objectives:
1. Acquire advanced education and professional training in gerontology in order to become administrators of state and federal programs, services such as senior centers and retirement homes, businesses, and intergenerational programs.
2. Enhance cultural competence regarding age, cohort, gender, race and ethnicity, and/or diverse abilities.
3. Acquire expertise in planning, developing, implementing, and evaluating innovative programs to meet the needs of older persons.
4. Demonstrate the ability to conduct appropriate research.
5. Exercise sound professional judgment based on high ethical standards and expectations.

**Admission Requirements**
1. Complete the application form to be admitted to the university with graduate standing.
2. Send the following materials to the Gerontology Program, in addition to those sent to the Office of Enrollment Services:
   - A Transcript of all undergraduate and graduate work.
   - Three letters of recommendation reflecting academic potential, personal qualifications, sensitivity, and evidence of ability and motivation to work with older adults and professionals in the field of aging.
   - A current resume.
   - A personal statement of interest in aging and career goals in the field.
3. Admission to the program is contingent on approval by the Gerontology Program Director.

**Prerequisites**
1. A bachelor’s degree from an accredited institution.
2. Evidence of a 3.0 or better grade point average in all undergraduate work. Students with less than a 3.0 grade point average in the last 60 undergraduate semester or 90 quarter units attempted but with evidence of professional promise and experiential background may be admitted conditionally by action of the Program Director.
3. Successful completion of the following courses or their approved substitutes: GERN 400; BIOL 301; PSY 365 or HDEV 357I; ANTH 454; An approved upper-division statistics course.

**Retention**
1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all approved graduate work transferred to meet graduate requirements.
2. Continuous satisfactory progress toward the degree objective.

**Advance to Candidacy**
1. Satisfy the general University requirements for advancement to candidacy.
2. Fulfill the Graduation Writing Assessment Requirement (GWAR) (to be taken during the first term).
3. Complete a minimum of six units of graduate level coursework in gerontology.
4. Be enrolled during the semester or summer session in which advancement to candidacy takes place.
5. Obtain approval for one’s individual program plan from the Gerontology Program Director and then from the Associate Dean of the College of Health and Human Services.

**Requirements**
- **Thesis Option:** Completion of a minimum of 37 units, with at least 26 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 696, 697, and 698. A maximum of six units may be taken outside of the major.
- **Directed Project Option:** Completion of a minimum of 37 units with at least 28 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 697, and 692. A maximum of six units may be taken outside the major.

**Certificate in Gerontology**  
(code FCS_CT03)

Interested students should contact Dr. Maria Cleaver at 562-985-4416 or mcleaver@csulb.edu

The Certificate program is designed to educate individuals as gerontology specialists within a major area of study. Alumni work in community programs, health services organizations, government agencies, and the private sector. The Certificate in Gerontology may be earned in conjunction with a baccalaureate degree or awarded subsequent to earning a bachelor’s degree. Up to six units of courses taken in the student’s major department may be approved to satisfy certificate requirements as may general education and elective courses also used to complete the bachelor’s degree if they contain appropriate gerontology content.

**Requirements**
1. In consultation with the Gerontology Certificate Coordinator, submit to Enrollment Services the intent form to add the Certificate in Gerontology to the major program of study.
2. A bachelor’s degree in any major (may be taken concurrently)
3. A minimum GPA of 2.5
4. 24 units distributed as follows
   - A. Fifteen (15) required units including GERN 400 (meets GE Capstone requirement), ANTH 454, BIOL 301, PSY 365 or HDEV 357I (meets GE Capstone requirement), and GERN 492 (an internship in a gerontology setting).
b. A minimum of nine units chosen in consultation with the Gerontology Certificate Coordinator from a list of approved elective courses (three to six units of appropriate coursework in the major field may partially fulfill this requirement). Three units may be fulfilled by taking GERN 497 or an approved substitute.

5. Application for the Certificate in Gerontology through completion of the appropriate Program Planner in consultation with the Gerontology Certificate Coordinator. This must be done in the semester prior to the completion of the Certificate to assure timely issuance of the Certificate.

Courses (GERN)

UPPER DIVISION

400L. Perspectives on Gerontology (3)
Prerequisites: Completion of the General Education Foundation, one or more Explorations courses, and upper-division standing. Multidisciplinary study of middle age and aging. Includes psychological, physiological, political, economic, and sociological aspects. Effects of culture and environment on aging; history and demographics; health issues. (Lecture-discussion, 3 hrs.)

420/J520. Personal Finance for the Aging (3)
Prerequisites: 400-level course in Consumer Affairs or consent of instructor.
Personal finance as applied to the aging population. Same course as CAFF 420. Not open for credit to students with credit in CAFF 420. (Lecture-discussion 3 hrs.)

424. Independent Living for Disabled and Elderly Persons (3)
Prerequisite: CAFF 321I or 322 or GERN 400I or consent of instructor.
Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging. Letter grade only (A-F). Same course as CAFF 424. Not open for credit to students with credit in CAFF 424. (Lecture/activity, 3 hrs.)

430/J530. Aging and Dementia (3)
Prerequisites: GERN 400I, HDEV 357I or PSY 305, or graduate standing, or consent of instructor.
An examination of physiological, psychological, social and economic aspects of dementia and its impact on the individual, the family and society. Community resources, current research and policy issues are included, with a particular emphasis on Alzheimer's disease. (Lecture-discussion, 3 hrs.)

439. Nutrition and Aging (3)
Prerequisites: NUTR 132 or BIOL 207 or consent of instructor.
Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people. Same course as NUTR 439. Not open for credit to students with credit in NUTR 439. (Lecture-discussion, 3 hrs.)

460/560. Disability, Culture and Society: Issues and Intervention (3)
Prerequisites: Senior or graduate status.
Disability as a social construct. Examines policies and practices to understand the experience of disability, includes historical and contemporary perspectives as well as future issues. (Lecture-discussion, 3 hrs.)

474. Aging and Diversity in California (3)
Prerequisites: GERN 400I, or consent of instructor.
Projects meaningful to California elders and that build skills. Professionals discuss career paths, local aging networks, and how the diverse climates of the state and region shape aging-related events, trends, issues, and programs. Fieldtrips may be required. (Lecture/activity 3 units.)

482. Health Assessment of the Aging Client (3)
Prerequisites: GERN 400I or equivalent and upper division standing or consent of instructor.
Assessment of the physical, psychological and social status of the aging client as they affect health and well-being. Focuses on working with aging clients in a variety of settings to identify actual or potential health-related problems using various techniques. Same course as NRSG 482. Not open for credit to students with credit in NRSG 482. (Lecture-discussion, 3 hrs.)

485. Mental Health and Aging (3)
Prerequisites: GERN 400I, HDEV 357I or PSY 305, ANTH 454, and BIOL 401, or consent of instructor.
Mental health status of older adults over time and within subgroups. Societal responses affecting diagnoses and assessments of competence. Common mental health issues of older adults. Comparison of medical and non-medical therapeutics. Fieldtrips may be required. (Seminar 3 hrs.)

492G. Internship in Gerontology (3)
Prerequisites: Student must be a Gerontology Certificate candidate; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval from the Gerontology Certificate Coordinator; and GERN 400I, ANTH 454, PSY 305 or HDEV 357I. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval from the Area Coordinator.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student and supervisor must be approved by major advisor and form the basis for evaluation. May be repeated for 6 units maximum. Same as FCS 492G. (Seminar 3 hrs.)

497. Directed Studies (1-3)
Prerequisites: GERN 400I, ANTH 454, PSY 305, or HDEV 357I, upper division standing and consent of program director.
Independent study under the supervision of a faculty member. Exploration and experience supplementing and/or complementing regular courses. May be repeated to a maximum of 6 units.

499. Special Studies (1-3)
Group investigation of topics of current interest in gerontology. Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

GRADUATE LEVEL

500. Introduction to the Professional Practice of Gerontology (3)
Prerequisite/Corequisite: GERN 400I or equivalent; graduate standing or consent of instructor.
Graduate level introduction to the professional practice of Gerontology. Emphasis is on application of theoretical concepts, research in practice, ethics, career path exploration, and development of leadership career-related skills and resources. Letter grade only (A-F). (Seminars 2 hours, activity 2 hours.)

2009/2010 CSULB Catalog • Gerontology • 425
520./420. Personal Finance for the Aging (3)
Prerequisites: 400-level course in Consumer Affairs or consent of instructor.
Personal finance as applied to the aging population.
Same course as FCS 520. Not open for credit to students with credit in FCS 520. Letter grade only (A-F). (Lecture-discussion 3 hours.)

524. Independent Living for Disabled and Elderly Persons (3)
Prerequisites: CAFF 3211 or 322 or GERN 4001 or consent of instructor
Independent living concepts related to physically and or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging.
Letter grade only (A-F). Same course as FCS 524. Not open for credit to students with credit in FCS 524.

530./430. Aging and Dementia (3)
Prerequisites: GERN 4001, HDEV 3571 or PSY 355, or graduate standing, or consent of instructor.
An examination of physiological, psychological, social and economic aspects of dementia and its impact on the individual, the family and society. Community resources, current research and policy issues are included, with a particular emphasis on Alzheimer’s disease.

550. Social Policy and Aging (3)
Prerequisites: GERN 4001, HDEV 3571 or PSY 355, or ANTH 454 or consent of instructor.
Major legislation and policies affecting older Americans. Analyses of policy information and change, kinds of data, and social forces that affect development and implementation of aging-related policies and legislation.

563. Evaluation in Family and Consumer Sciences and Gerontology (3)
Prerequisites: Upper division or graduate course in statistics; GERN 4670 (may be taken concurrently) or equivalent.
Principles, design, and methods of program evaluation for use by Family & Consumer Sciences and Gerontology professionals. Selection and development of instrumentation for data collection and interpretation and methods of reporting.
Letter grade only (A-F). (Seminar 3 hours.) Same course as FCS 563. Not open for credit to students with credit in FCS 563.

569./469. Disability, Culture and Society: Issues and Social Intervention (3)
Prerequisites: Senior or graduate student.
Disability as a social construct. Examines policies and practices to understand the experience of disability, includes historical and contemporary perspectives as well as future issues. Emphasis on social and clinical intervention methods as well as programs and resources.
Same course as HEC 569 and SW 569. Not open for credit to students with credit in HEC 569 and SW 569. Letter grade only (A-F).

592. Internship in Family and Consumer Sciences/ Gerontology (3)
Prerequisites: Graduate standing and consent of instructor.
Field experience in which student assumes a self directed responsible role in an agency, business or other community setting.
May be repeated to a maximum of 6 units. (Seminar 3 hours) Letter grade only (A-F).

597. Independent Study (1-3)
Prerequisites: Graduate standing and consent of instructor.
Independent study under the supervision of a faculty member.
Exploration or experience supplementing and/or complementing regular courses to meet student learning goals.
May be repeated for a maximum of six units in different semesters.
Letter grade only (A-F).

599. Special Topics (1-3)
Prerequisites: Graduate standing
Group investigation of topics of current interest in gerontology.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of six units with different topics in different semesters.

660. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)
Prerequisite: Graduate standing.
Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Decision-making, organizational structures and evaluation concepts included.
Letter grade only (A-F). Same course as FCS 660. Not open for credit to students with credit in FCS 660.

610. Seminar in Current Issues, Trends and Research in Gerontology (3)
Prerequisite: Completion of all core courses except GERN 696, 697 or 698 any of which may be taken concurrently.
Students will undertake literature reviews and/or research to explore emerging issues, trends and research in the field of aging studies and/or update their information on the most current gerontological topics.
(Seminar 3 hours.)

692. Gerontology Directed Project (1-4)
Prerequisite: GERN 697.
Students will acquire experiential skills under the guidance of a faculty advisor and supervisor/mentor at an approved project site. Students will identify problems, design and assess a project or conduct research. Results will be presented in a thesis style report.
Letter grade only (A-F).

696. Research Methods (3)
Prerequisite: Upper division course in statistics.
Methodological approaches to contemporary research issues in Family and Consumer Sciences. Course focuses on the design, development, and implementation of a formal research-designed project.
Letter grade only (A-F). (Seminar 3 hours.) Same course as FCS 696. Not open for credit to students with credit in FCS 696.

697. Directed Research (1-3)
Prerequisite: Advancement to candidacy, GERN 500-level courses in area of study and GERN 696.
Independent investigation of research problems under the direction of a faculty member.
Letter grade only (A-F).

698. Thesis (1-4)
Prerequisite: GERN 697, advancement to candidacy.
Planning, preparation and completion of a thesis under supervision of a faculty member. Approval of thesis committee.
Letter grade only (A-F).
GLOBAL LOGISTICS
College of Liberal Arts
Department of Economics

Director: Joseph P. Magaddino
Department Office: Social Science/Public Affairs (SS/PA), Room 361A
Telephone: (562) 985-5061
Email: mag@csulb.edu
Website: www.csulb.edu/economics

FAX: (562) 985-5804
Faculty: Mahyar Amouzegar, Omer Beni, Sai Kulkarni, Joseph P. Magaddino, Waco L. Martin, Kristen A. Monaco, Kheirab Moshirvaziri, Soji S. C. Steinmetz, Steve Yamanik
Graduate Advisor/Associate Director: Kristen A. Monaco

Career Possibilities
International Trade Economist • Labor Specialist • Market Research Analyst • Transportation Planner • Aerial Photo Interpreter • Industrial Development Specialist • GIS Specialist • Environmental Impact Report Writer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Master of Arts in Global Logistics (code ECONMA02)

Prerequisites
1. A bachelor's degree with a grade-point average of 2.75 or better. A student whose overall grade-point average is less than 2.75, but who possesses a strong employment history in supply chain management or logistics or who possesses a recent record of academic excellence by completion of certificate or other coursework, may be admitted by special action of the Admissions Committee.
2. Students are required to submit: a completed application form, transcripts of all undergraduate and graduate coursework; two letters of recommendation from members of the academic profession under whom the applicant studied or from individuals in positions of leadership with whom the applicant worked; and a statement of the applicant's interest in pursuing a career in global logistics.

Advancement to Candidacy
Satisfy the general requirements of the University for advancement to candidacy.

Requirements
Completion of a minimum of 30 units beyond the bachelor's degree and graduate coursework as follows:
1. Core requirements (16 units): Satisfactory completion of ECON 500, 555; GLG 540, 560, 570; and MGMT 500.
2. Satisfactory completion of at least one course in each of the following four emphases (11-12 units):
   A. Supply Chain Logistics (GLG 556 or MGMT 541);
   B. Coordination, Negotiation and Conflict Resolution Emphasis (HRM 654);
   C. Advanced Topics in Logistics (GLG 530 or IS 695 or CEECS 590); and
   D. Seminar in Global Logistics (ECON 666 or GLG 660).
3. Completion of GLG 655 (3 units).

Global Logistics Courses (GLG)

530. Introduction to Optimization Methods in Transportation (3)
Prerequisites: ECON 500.
Optimization methods applied to transportation problems. Introduction to optimization, simple calculus-based function optimization, linear programming, simplex method and computer based solution of linear programming problems. Introduction to network flow, dynamic programming. Practical considerations for large problems; optimal and near optimal solutions. Letter grade only (A-F).

540. Benefit-Cost Analysis for Logistics (2)
Prerequisites: consent of instructor.
This course introduces students to benefit-cost analysis. Includes discussion of private costs and benefits, social costs and benefits, and project analysis. Letter grade only (A-F).

556. Economics of Logistics Management (3)
Prerequisites: M.A.G.L. core (ECON 500 and MGMT 500).
Analysis and design of domestic and international logistics systems. Topics include: transportation, warehousing, inventory control, materials management, systems design and organization.
Not open for credit to students with credit in ECON 556. Letter grade only (A-F).

560. Research Methods for Global Logistics (3)
Prerequisites: M.A.G.L. Core (ECON 500 and MGMT 500).
Applications of research methods to topics in logistics. Topics include: developing a research question, performing a literature review, data collection, and statistical analysis.
Letter grade only (A-F).

570. International Trade and Finance for Logistics (2)
Prerequisites: consent of instructor.
This course examines theories of trade, tariffs, customs, foreign exchange market and international financial institutions.
Letter grade only (A-F).

655. Seminar in Global Logistics (3)
Prerequisites: Completion of at least 27 units in the M.A.G.L. program.
A capstone seminar in global logistics. Students will complete a major research project that allows them to integrate their knowledge of global logistics. Each student will submit a research paper and will be required to make an oral presentation of their research.
Not open for credit to students with credit in ECON 655. Letter grade only (A-F).

690. Advanced Topics in Global Logistics (1-3 units)
Prerequisites: Consent of instructor.
Topics of current interest in global logistics selected for intensive study.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in the same semester.

Introduction
The College of Health and Human Services prepares students for careers in health, wellness, teacher preparation, and social and consumer services. Our accredited graduate and undergraduate programs offer state-of-the-art curriculum though which departments/programs provide optimal learning opportunities in the classroom, in the research laboratory, and in the community. Students are challenged to think creatively and analytically, apply concepts to real world issues, and meet the challenge of fostering quality of life for all.

Senior University

Goals
The College of Health and Human Services' mission is to assist students in discovering the excitement of lifelong learning based on student performance, educating students so that they can achieve their personal and professional goals, and connecting students to careers through internships, practica, and field experiences. Specific college goals include:

- Diversity of faculty and students
- Outstanding academic programs and cutting-edge research
- Adequate resources and facilities to support academic programs, research, and services
- Academic, professional and personal student success
- Alumni involvement in college programs, activities, and initiatives

Degrees Offered
Bachelor of Arts:
Communicative Disorders
Family and Consumer Sciences
Kinesiology
Recreation
Social Work

Bachelor of Science:
Criminal Justice
Dietetics and Food Administration
Health Care Administration
Health Science
Kinesiology
Nursing
Occupational Studies

Master of Arts:
Communicative Disorders
Family and Consumer Sciences
Kinesiology
Occupational Studies

Master of Science:
Criminal Justice
Emergency Services Administration
Gerontology
Health Care Administration
Health Science
Kinesiology
Nursing
Nursing / Public Health (concurrent degree)
Nursing / Health Care Administration (concurrent degree)
Nutritional Science
Recreation Administration

428 • Health and Human Services, College of • 2009/2010 CSULB Catalog
Master of Physical Therapy  
Master of Public Administration  
Master of Public Health: Community Health Education  
Master of Social Work  

Certifications Offered  
- Administration of Campus Recreation and Student Service Programs  
- Administration of Outdoor Recreation Resources  
- Administration of Volunteer Services  
- Food-Service Systems Administration  
- Gerontology  
- Health Care Administration  
- Health Services (School Nursing) Credential  
- Kinesiotherapy  
- Leisure Counseling (graduate)  
- Nurse Practitioner (graduate)  
- Physical Therapy Intern (graduate)  
- Public Management Analysis (graduate)  
- Public Sector Employer-Employee Relations and Personnel Management (graduate)  
- Public Sector Financial Management (graduate)  
- Therapeutic Recreation  
- Transportation Policy and Planning (graduate)  
- Urban Executive Management (graduate)  
- Wilderness Studies  

Credential Programs  
Single subject credential programs are offered in Family and Consumer Sciences, Health Science, and Kinesiology/Physical Education. Students who plan to teach these subjects in the secondary schools are strongly advised to complete the Single Subject credential as early as possible in their studies, so that they fulfill subject matter preparation requirements while completing an undergraduate major. Designated subject credential programs in Adult and Vocational Education are offered in Professional Studies. Services credentials are offered in Communicative Disorders (Clinical Rehabilitation), Nursing (Health Service/School Health), and Social Work (Pupil Personnel – Child Welfare and Attendance).  

College Facilities  
The College of Health and Human Services is characterized by perhaps the greatest diversity of programs in the University. The eleven departments, four programs, and twelve research centers are housed within twelve buildings on campus. During the period 1992-94, the primary facilities received $21,000,000 worth of renovation, including the addition of new equipment in laboratories. As a result, students now have access to state-of-the-art classrooms, laboratories, and clinics with equipment matching that of business/industry. As a student, for example, you could visit our Communicative Disorders Speech and Hearing Clinic, Nursing Simulation Lab, or Physical Therapy Labs and Clinic. You could participate in a discussion on the importance of recreation in your life and the lives of others in a Recreation and Leisure Studies course; or a discussion of diet and nutritional needs in Family and Consumer Sciences; or a seminar on AIDS awareness in the Health Science Department; or a seminar on improvement of the quality of life for all people in the Social Work Department. You may choose to swim in our Olympic-size pool or be tested in the underwater weight tank, while enrolled in a Kinesiology class. The Department of Criminal Justice may walk you through the forensic investigation of a crime. Public Policy and Administration courses will offer you the opportunity to apply new knowledge, skills, and leadership techniques to the solution of public problems; while Professional Studies could provide you with the competencies requisite for successful employment in secondary schools, community colleges, and adult programs.  

As the second largest of the University’s seven colleges, Health and Human Services is comprised of over two-thirds laboratory facilities which accommodate its many laboratory-intensive programs. These programs combine theory with exciting practical application in the campus laboratories, as well as off-campus facilities through field work and internships.  

Professional Accreditation  
Programs in the College have been accredited by the following state and national accrediting agencies: American Association of Colleges of Nursing, American Association of Family and Consumer Sciences, American Dietetic Association, American Physical Therapy Association, American Public Works Association (APWA), American Speech Language and Hearing Association, Association of University Programs in Health Administration, California Commission for Teacher Credentialing, California Council on Parks and Recreation, California State Board of Registered Nursing, California Teaching Commission, Commission on Accreditation of Allied Health Education Programs, Council on Education for Public Health, Council on Social Work Education, National Association for the Education of Young Children, National Association of Schools of Public Affairs and Administration (NASPAA), National Council for Accreditation of Teacher Education, National Recreation and Park Association Council on Accreditation, Western Institute of Nursing.  

The College maintains active involvement in the following organizations:  
- Special Interest Clubs:  
  - Anchors, Army ROTC Association, Army ROTC Rangers (AROTC), California Nursing Student Association, Child and Family Associated Students (CAFAS, Family and Consumer Sciences), Criminal Justice Student Association, Fitness Club, Foodservice and Hotel Management Association (Family and Consumer Sciences), Health Care Administration Forum, Health Science Graduate Student Association, Kinesiology and Physical Education Majors Club, National Student Speech-Language-Hearing Association (Communicative Disorders), Peer Health Educators, Pershing Rifles (AROTC), Physical Therapy Student Association, Public Administration Student Association (PASA, Public Policy and Administration), Recreation and Leisure Studies Alumni Association (RALSSA), Recreation Society (Recreation and Leisure Studies), Social Dance Club, Consumer Affairs Student Association (Family and Consumer Sciences), Sports Medicine
Club (Kinesiology), Student Affiliates of the American Kinesiology Association (Kinesiology), Student Chapter of American Association of Family and Consumer Sciences, Student Dietetic Association (Family and Consumer Sciences), Student Food Science Society (Family and Consumer Sciences), Students Active in Community Health (Family and Consumer Sciences), Students in Fashion (Family and Consumer Sciences).

Professional and Honors Organizations
Alpha Phi Sigma (Criminal Justice), American College of Healthcare Executives, California Association for Health, Epsilon Pi Tau (Professional Studies), Eta Sigma Delta (Hospitality Foodservice and Hotel Management, Family and Consumer Sciences), Eta Sigma Gamma (Health Sciences), Kappa Omicron Nu (Family and Consumer Sciences), Omicron Tau Theta (Professional Studies), Phi Epsilon Kappa (Kinesiology), Pi Alpha Alpha (Public Policy and Administration), Recreation and Dance (CAHF/PERD), Sigma Phi Omego (National Academic and Professional Society in Gerontology), Sigma Theta Tau (Beta Eta Chapter, Nursing).

College and Departmental Organizations
Asian Pacific Islanders Committee (Social Work), Associated Students of Social Work, California Nursing Student Association, Danham/Cleveland Committee (Social Work), College of Health and Human Services Student Council, Gay, Lesbian, Transsexual, Transgender Committee (Social Work), Latino Student Network Committee (Social Work), National Association of Social Work Unit, Social Work Alumni Association.

Courses (HHS)

LOWER DIVISION

100. Skills for Living (3)
Development of skills necessary for achieving success as a student in any HHS major and ultimately as a professional. Additionally, HHS 100 is intended to improve student awareness of health and human services professions, career paths and disciplines.
Letter grade only (A-F). (Lecture/discussion, 3 hours.) Team taught by College of Health and Human Services Faculty.

210. Introduction to Physical Therapy (3)
Corequisite: HHS 100.
Introduction and orientation to rehabilitation with special emphasis on physical therapy. Includes essentials for choosing between rehabilitation professions and preparation for admission to a professional physical therapy educational program.
Letter grade only (A-F). (Lecture/discussion, 3 hours.)

UPPER DIVISION

374. Professional Practice I: Professional Interactions (3)
Prerequisites: Consent of Instructor
Self-awareness of how personality, learning preferences, and personal values affect professional interactions. Includes effective communication, conflict resolution, and eliciting patient values and goals. Also, communicating with patients who have experienced disability, sexual dysfunction, or issues with coping or dying.
Letter grade only (A-F). Lecture/Discussion 3 hours.

401. Applied Anatomy I (3)
Prerequisite: BIOL 208, or equivalent.
Advanced study of structure and function of neuromusculoskeletal systems, with emphasis on surface contour, myology and joint structure and neurovascular supply. Regional emphasis includes upper extremity, head, neck and thorax. Includes dissection laboratory and provided materials.
Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

402. Applied Anatomy II (3)
Prerequisites: BIOL 208, or equivalent, HHS 401.
Continuation of HHS 401, with emphasis on normal anatomy of lower extremities, pelvis, and abdominal region.
Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

403. Tissue Mechanics and Aging (3)
Prerequisites: HHS 401, BIOL 341 and consent of instructor.
Advanced study of tissue (bone, muscle, dense fibrous connective tissue, cartilage, nerve) mechanics and pathomechanics including use, abuse, and aging with application to joint mechanics and therapeutic procedures.
Letter grade only (A-F). (Lecture/discussion 3 hours.)

460. Neuroanatomy (4)
Prerequisites: HHS 401, BIOL 341 Corequisite: HHS 402
Investigation of human neuroanatomy with emphasis on the structure and function of the central nervous system (CNS), cranial nerves, and their connecting neural pathways relative to human function and movement. Neuroanatomical and vascular lesions will be discussed and correlated to common clinical conditions. Emphasis is on applying neuroanatomy for differential diagnosis.
Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

471. Pathology (3)
Prerequisite: BIOL 206; Corequisite: BIOL 341.
Advanced study of abnormal function as result of disease. Includes general pathology and selected pathologies encompassing cardiovascular, pulmonary, musculoskeletal, peripheral and central nervous system, and integumentary systems.
Letter grade only (A-F). (Lecture/discussion 3 hours.)

497. Independent Studies (1-3)
Prerequisites: Consent of Instructor, and for human dissection, one quarter introductory anatomy course, HHS 401 and 402.
Independent projects in any area of physical therapy. Human dissection is available as a special study.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
HEALTH CARE ADMINISTRATION
College of Health and Human Services

Program Director: Tony Siray
Department Office: Engineering Technology Building (ETec.), Room 101
Telephone: (562) 988-5694
Faculty: Janice Frates, Brenda Freshman, Grace Reynolds, Tony Siray, Kevin Makitte
Administrative Assistant: Deby McGill

Career Possibilities
Provider Relations Director • Clinical Administrator • Financial Analyst • Director of Managed Care • Director of Nursing • Medical Facilities Section Director • Nursing Home Administrator • Medical Records Administrator • Social Welfare Administrator • Emergency Medical Services Coordinator • Public Health Director • Community Organization Director (For more information, see www.careers.csulb.edu.) Various entry-level trainee positions in the health care industry are available for graduates regardless of academic discipline.

Introduction
The Health Care Administration program has four major objectives: (1) to provide course work and related experience in order to prepare administrators, skilled in the application of organizational and managerial techniques, for the health care system; (2) to provide continuing education for health administrators in practice as well as others in administrative and leadership positions in the management and the delivery of health services; (3) to consult and to participate in community service activities which complement the instructional and research functions of the faculty and provide appropriate learning experiences for students; and (4) to conduct studies in the administration and operation of the health care delivery system which will contribute to development of faculty teaching abilities and overall professional growth.

The program is designed for the professional administrator or those who wish to become administrators within health care. Five programs are offered:
1. Master of Science in Health Care Administration
2. Bachelor of Science in Health Care Administration
3. Master of Science in Nursing/Master of Science in Health Care Administration
4. Master of Science in Health Care Administration - Accelerated Program
5. Certificate in Health Care Administration

The schedule of graduate and undergraduate course offerings is in the regular Schedule of Classes.

Undergraduate Programs

Bachelor of Science in Health Care Administration (code HCA_BS01)
(120 units)

Admission Requirements
Prerequisites
1. All students must complete a minimum of 13 semester units or the equivalent in prerequisite preparatory course for the major: ACCT 201, ECON 101 or 300, SOC 260 (or equivalent) and BIOL 200 (or equivalent). These courses may be taken after admission to the Program. Computer proficiency in word processing, spreadsheet, database and presentation software is expected. Business calculus (MATH 115) is recommended.
2. An overall grade point average of 2.0 or higher is required for entrance into the program. A minimum grade of "C" is required for each prerequisite course.

Graduation Requirements
1. Complete the requirements for General Education
2. Complete the prerequisite courses.
4. Upper Division (required elective courses): A minimum of 9 additional units from the following: HCA 320, 422, 451, 452, 470I and 471.
5. Complete electives as needed, totaling 120 semester units
6. Fulfill the Graduation Writing Assessment Requirement (GWAR)
7. Each major course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrollment in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses for which it is not a prerequisite with approval of the Undergraduate Advisor.

Graduate Programs

Master of Science in Health Care Administration (code HCA_MS01)
The goal of the M.S. in Health Care Administration program is to prepare individuals to enter administrative positions in hospitals and ambulatory care centers, managed care, long-term care, and mental health settings as well as in multi-institutional system central offices, governmental health agencies, and other health related organizations. Students completing the M.S. in Health
Care Administration will achieve the following objectives: (1) Demonstrate knowledge of the U.S. health care system and fundamental issues affecting the administration of health care services, (2) Demonstrate organizational and managerial skills essential to administrative positions in health care services. (3) Demonstrate specialized knowledge and skills in a variety of functional areas in health care administration, including financial management, marketing, job analysis, compensation management, or public policy analysis. (4) Use ethical principles within administrative positions of responsibility in health care services, and (5) Demonstrate the ability to conduct studies in the organization, financing, administration, and operation of health care delivery systems. The program is designed for persons with a variety of undergraduate experiences who give evidence of interest and potential success in health care management and/or research.

Admission Requirements

Each applicant should request that a copy of all college transcripts and GMAT scores be sent to the graduate advisor, Health Care Administration Program, in addition to original transcripts required by the Office of Admissions and Records. In addition, a current resume should be sent to the Program along with three letters of recommendation.

Admission Criteria

1. Baccalaureate degree from an accredited institution
2. Baccalaureate degree with a minimum of 9 units of course work to include: accounting, economics, and introductory statistics
3. An applicant must have an overall undergraduate grade point average of 3.0 or better. Those applicants with less than 3.0, but with acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Program Graduate Committee
4. Interview with member of faculty or preceptor may be required
5. A current and complete resume including references
6. Submission of scores on recent Graduate Management Admission Test (GMAT)
7. Statement of Purpose
8. Three letters of recommendation.

Prerequisites

The following courses or their equivalent:
1. ACCT 201
2. ECON 101 or 300
3. Introductory Statistics.

Students should contact the Program director for a determination of deficiencies and required remediation.

Graduation Requirements

1. Completion of a minimum 45 units graduate level course work.
3. Completion of any two of the following elective courses: HCA 536, 537, 538, 539, 552 or 580.

Advancement to Candidacy

Students will be instructed to apply for advancement to candidacy after:
1. Completion of 6 units of core course work that applies to the degree with an average grade of "B" or better,
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR), and
3. Approval of Program Director.

Accelerated Program (HCA_MS01E1)

The Master in Health Care Administration Accelerated Program (MSHCA-AP) is designed to prepare working professionals for administrative positions in health care organizations which requires a minimum three years of work experience and combines onlines and weekend courses. The MSHCA-AP program requires 45 credit hours consisting of 15 core courses. The program offers foundation courses early and more advanced healthcare specific courses later in the program.

Accelerated Education Model

YEAR I

FIRST Quarter-Fall
Orientation - No Credit
1. HCA 503 Health Care Economics
2. HCA 505 Organization and Systems of Health Care
SECOND Quarter-Winter
3. HCA 502 The Health Care System
4. HSC 500 Principles of Epidemiology
THIRD Quarter-Spring
5. HCA 524 Advanced Legal and Ethical Aspects of Health Care
6. HCA 515 Advanced Financial Management in Health Care
FOURTH Quarter-Summer
7. HCA 535 Quantitative Methods for Health Administration
8. HCA 510 Human Resources Management in Health Care

YEAR II

FIRST Quarter-Fall
9. HCA 530 Strategic Planning and Marketing in Health Care
10. HCA 517 Advanced Healthcare Information Systems Management
SECOND Quarter-Winter
11. HCA 537 Managed Care
12. HCA 550 Continuous Quality Improvement in Health Services
THIRD Quarter-Spring
13. HCA 698A Project Part I
14. HCA 530 Hospital Management
FOURTH Quarter-Summer
15. HCA 698B Project Part II

Certificate in Health Care Administration
(code HCA_CT01)

The Certificate Program in Health Care Administration is comparable to a minor of 18 semester units and, with prerequisite course work, may require up to 24 semester units for completion. Components of the program include
the forms of organization and operation of health care systems, human resources management, leadership and development, financial management, and marketing. The Certificate may be combined with major programs from a variety of fields including, but not limited to, behavioral and natural sciences, humanities, health professions, business and public administration, and social work and is conferred as a post-baccalaureate certificate (or concurrently with the BS/BA). The courses taken for the certificate (with a grade of "B" or better) may apply toward the MS program at the discretion of the Program Director.

Health care administrators are usually prepared at the masters' degree level for job entry into upper management. There is, however, increased emphasis to prepare health care professionals to function as managers at other levels as well. Increasingly, physicians are also seeking preparation in the elements of management. Those diverse groups use management skills in the health services and related fields. These include hospitals, nursing homes, health departments, health maintenance organizations, health planning and regulatory agencies, health management and review companies, group medical practices, health insurance firms, pharmaceutical and medical supply companies.

Admission Requirements

1. Admission to the University
2. A bachelor's or advanced degree with transcripts (conferred or expected)
3. Consultation with the Program Director
4. A minimum of 18 units is required and may include:
   HCA 312, 341*, 353*, 402, 410 or the equivalent. At the graduate level HCA 502, 505, 510, 515, 530 or equivalent courses are considered for the Certificate Program.
   * Prerequisite: ACC 201
   + Prerequisite: ECON 101
Course substitutions may be made at the consent of the Director.

Master of Science in Nursing/Master of Science in Health Care Administration (code NRSSMCH)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health organizations. An important career path for advanced practice nurses is as nurse executive in the healthcare segment of the health care industry including entrepreneur activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions.

Admission Requirements

1. Bachelor's degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted
2. Current license to practice as a registered nurse in California
3. Admission to graduate standing at the University
4. An upper division or graduate course in biostatistics (HSC 403 or ED P 419)
5. Public Health Nurse Certificate, or eligibility for certificate in California
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below those averages will be evaluated on an individual basis
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT)
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences which are germane to career objectives
10. Current professional resume describing the applicant's relevant experience.

Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status. Student criteria for advancement are as follows:
1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Care Administration:
A. fulfill the Graduation Writing Assessment Requirement (GWAR), and
B. have at least a 3.0 grade point average for all course work attempted as a graduate student
2. Joint approval by the Department of Nursing and Health Care Administration and the Associate Dean in the College of Health and Human Services.

Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:

2009/2010 CSULB Catalog  •  Health Care Administration  •  433
2. An overall GPA of 3.0 or better in all courses
3. Directed project or a thesis
4. "Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program
5. If a student after enrolling in the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met; 60% of units must be earned in residence.

Courses (HCA)

LOWER DIVISION

353. Marketing for Health Services Organizations (3)
Prerequisite: ECON 101 or 300. Corequisite: HCA 202 or HCA 402.
Development of marketing strategies and analyses in a health care setting. Design of services to include pricing, communication, distribution channels, and client motivation and services.
Letter grade only (A-F).

402. The Health Care System (3)
Overview and developmental summary of the American health care system and its driving forces: Organizational forms, financing mechanisms, principal industry stakeholders; professional groups and workforce issues; public health and government.
(Lecture)

410. Health Management and Organization (3)
Prerequisite/Corequisite: HCA 402.
Introduction to health care management practices and concepts. Planning, decision-making, influencing, controlling, effecting change. Effects of environment, technology and human behavior on organizational design.
Letter grade only (A-F). (Lecture)

416. Management and Information Systems (3)
Prerequisite/Corequisite: HCA 402.
Evaluation of concepts, analysis and design of management information systems; management decision models, strategies for implementing system changes.
Letter grade only (A-F). (Lecture)

4221. Global Issues in Health Services (3)
Completion of the GE Foundation, one or more Exploration courses and upper division standing. Examination of factors that impact global health: analysis of health care delivery systems and the governmental, economic, social and political forces that influence them.
Letter grade only (A-F). (Lecture)

439/539. Management Challenges in Long Term Care (3)
Prerequisite/Corequisite: HCA 402 or 502.
Functions and essential skills to manage LTC organizations and facilities: institutional arrangements; Public/Community relations; workforce management; marketing; reimbursement.
Letter grade only (A-F). (Lecture)

450. Quality Assurance in Health Care (3)
Prerequisites: HCA 402, and 485.
Basic elements of quality improvement and organizational responsibilities related to quality assurance. Data analysis for quality improvement, clinical practice guidelines, and future of healthcare quality.
Letter grade only (A-F). (Lecture)

451. Economics of Health (3)
Prerequisites: ECON 101 or 300.
Microeconomic principles and their application to healthcare such as opportunity cost, production of good health, demand for medical care, production and cost theory and cost-benefit analysis. Behavior of health care markets and organizations.
Letter grade only (A-F). (Lecture)

452/552. Medical Group Practice Management (3) F
Prerequisite/Corequisite: HCA 202, 402 or 502; and HCA 450 or 550, and HCA 341 or 516.
Fundamental operational responsibilities of medical group administration today, with emphasis on managed care delivery systems.
Letter grade only (A-F). (Lecture)

434 • Health Care Administration • 2009/2010 CSULB Catalog
465. Analysis and Evaluation of Health Care Services (3)
Prerequisite or Corequisite: HCA 202 or 402 and Prerequisite: PSY 110 or SOC 250 or equivalent.
Techniques of analysis and evaluation applied to health services with respect to organizing, staffing, financing and utilization.
Emphasis on the analytic process, program evaluation, and report of findings.
Letter grade only (A-F).

470L. Latinas/Latinos: Health Status and Health Care Access (3)
Prerequisites: Completion of GE Foundation, one or more Exploration Courses, upper division standing.
Interdisciplinary exploration of policies, epidemiologic, cultural factors influencing disease within Latino subpopulations, their impact upon efficient, equitable service delivery.
Letter grade only (A-F). Same course as CHLS 470L. Not open for credit to students with credit in CHLS 470L. (Lecture)

471. Geographic Information Science (GIS) for Health (3)
Prerequisite: GEOG 200 or SOC 250 or equivalent.
An introduction to the fundamentals of Geographic Information Science and Systems (GIS) including concepts and skills in spatial reasoning and spatial thinking. Explores GIS in spatial query, problem analysis and decision support using health-related applications. Lecture/Discussion and Laboratory (2 hours lecture, 2 hours computer laboratory)
Letter grade only (A-F). Same course as GEOG 471.

480/580. Internship In Health Care Administration (3)
Prerequisites: HCA 341, 402, 465 and HSC 150.
Minimum 120 hours of structured work experience in a health care organization, under direct supervision of a preceptor-employee.
Letter grade only (A-F).

481. Internship and Career Development in Health Care Administration (3)
Prerequisite/Corequisite: HCA 480
A minimum of 120 hours of structured work experience in a health care organization, under the direct supervision of a preceptor-employee. Career development planning, job search and networking.
Letter grade only (A-F).

490. Special Topics in Health Care Administration (1-3)
Topics of special interest in health care administration selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study of special topics under supervision of a faculty member.
May be repeated to a maximum of 6 units with approval of Health Care Administration Program Director. Letter grade only (A-F).

GRADUATE LEVEL

502. The Health Care System (3)
Overview, developmental summary of the American health care system and its driving forces. Major elements of the healthcare system: today’s major health policy issues in a historical, economic and political context.
Letter grade only (A-F). (Lecture)

503. Health Care Economics (3)
Prerequisites: ECON 101 or 300
Application of economic principles to health care, the flow of funds through the health care system including physicians, hospitals, managed care, nursing home and pharmaceutical firms. Third party payment, asymmetric information, and behavior health care systems.
Letter grade only (A-F).

505. Organization and Systems of Health Care (3)
Analysis of operational activities and managerial functions essential to the health care delivery system, with emphasis on management and leadership influence on developing effective systems of care within various institutional arrangements.
Letter grade only (A-F). (Lecture)

510. Human Resources Management in Health Care (3)
Management of human resources in the health care system including human resource planning and staffing, training and development, performance appraisal, job design and analysis, and compensation.
Letter grade only (A-F).

515. Advanced Financial Management In Health Care (3)
Prerequisite: ACCT 201 or 500.
Letter grade only (A-F). (Lecture)

517. Advanced Healthcare Information Systems Management (3)
Prerequisite: HCA 410, 502, 550 or consent of instructor.
Breadth overview of healthcare information systems, close examination of business needs for the information technology (IT) to deliver cost-effective quality health services.
Letter grade only (A-F). (Discussion)

524. Advanced Legal and Ethical Aspects of Health Administration (3)
Federal and state regulation of health care facilities, employees, patients and programs. Ethical and legal perspectives on malpractice, liability, contracts, informed consent, end of life decisions, reproductive health, medical records, confidentiality and required disclosures.
Letter grade only (A-F). (Lecture)

530. Strategic Planning and Marketing in Health Care (3)
Prerequisite/Corequisite: HCA 502.
Strategic planning based on analysis of analyses of secondary quantitative and qualitative data to study changes in technological, social, political, regulatory, and competitive aspects of the health care market.
Letter grade only (A-F).

535. Quantitative Methods for Health Administration (3)
Prerequisite: Statistics.
Application of quantitative and operations research techniques to problems in health care settings. Exposure to decision theory and control systems. Problem solving experiences in resource allocation, procedures, scheduling, forecasting, measurement and cybernetic control.
Letter grade only (A-F).

536. Hospital Management (3)
Prerequisite: HCA 555.
Analysis of hospitals by broad function and specific departments through cases, simulations and visits to develop familiarity with internal operations of acute care hospitals and skills in solving hospital operational problems.
(Lecture)
537. Managed Care (3)
Prerequisite: HCA 402 or 502.
Orientation to the organization and administration of health maintenance organizations, preferred provider organizations and related enterprises. Legal and regulatory issues, marketing, utilization management, premium rating systems, information systems, case/ disease management.
(Seminar 3 hours)

538. Long Term Care Management (3)
Prerequisite: HCA 402 or 502
Overview of long term care services and facilities. Analysis of forces influencing development of long term care in the US; specific organizational aspects affecting outcomes of services.
Letter grade only (A-F). (Lecture)

530/430. Management Challenges in Long Term Care (3)
Prerequisites/Corequisites: HCA 402 or 502.
Functions and essential skills to manage LTC organizations and facilities: institutional arrangements; patient/family/community relations; workforce management; marketing; reimbursement.
Letter grade only (A-F). (Lecture)

550. Continuous Quality Improvement in Health Services (3)
Prerequisites: HCA 502
Administrative and professional issues to assure quality in health care. Historical beginnings; metrics and indicators; state-of-the-art practices; voluntary and governmental monitoring.
Letter grade only (A-F). (Lecture)

552/452. Medical Group Practice Management (3) F
Prerequisites/Corequisites: HCA 202, 402 or 502; and HCA 450 or 550; and HCA 541 or 515.
Fundamental operational responsibilities of medical group administration today, with emphasis on managed care delivery systems.
Letter grade only (A-F). (Lecture)

580/480. Internship in Health Care Administration (3)
Prerequisites: HCA 582, 585, 510, 515, 524, 530, 535, 550.
Minimum 120 hours of structured work experience in a health care organization, under direct supervision of a preceptor-employee. Graduate students study and report on institution's organizational structure, philosophy, problems and personnel.
May be repeated to a maximum of six units in different semesters, which includes previously earned credit in HCA 685. Letter grade only (A-F).

590. Special Topics (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in the various fields of Health Administration and Health Services Management selected for special presentation. Topics will be announced in the Schedule of Classes each semester. Courses may be repeated to a maximum of 9 units with different topics in different semesters. Letter grade only (A-F).

599. Directed Studies (1-3) F,S
Directed study of a special topic to be taken under supervised independent study. May be repeated for a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

695. Integrative Seminar: Critical Analysis of the Health Care System (3) S
Prerequisites/Corequisites: HCA 580, 585.
Systematic, ecological approach to an advanced, critical analysis of U.S. health care system. Emphasis on public policy determinants that have influenced system development, relevant problems, issues.
Letter grade only (A-F).

698A. Project Part I (3)
Prerequisites: Completion of all 500-level courses and advancement to candidacy, or consent of instructor.
To provide students with the skills and techniques of research to design and carry out their own investigation of a health care or health services project. Project is a two-semester course sequence.
Letter grade only (A-F).

698B. Project Part II (3)
Prerequisites: Completion of all HCA 500-level courses, HCA 698A, and consent of the instructor.
Project is a two-semester course sequence; the purpose of HCA 698B is for students to execute and complete the research project proposed and designed in 698A.
Letter grade only (A-F).
HEALTH SCIENCE
College of Health and Human Services

Department Chair: Robert H. Friis
Department Office: Health and Human Services (HHS) 2, Room 115
Telephone: (562) 985-4057

Faculty: Veronica Acosta-Degnon, Stephanie L. Elenon, Dale W. Evans (Emeritus), Gail Farlow, Mohammed R. Forouzesh, Robert H. Friis, Sarahh Gunatilake, Javier Lopez-Zeltina, Gina Piane, Britt K. Ritchie

Liaison, CSULB/VAP Joint Studies Institute: Robert H. Friis
Director, Graduate Studies: Mohammed R. Forouzesh
Director, Undergraduate Studies: Sally Champkin
Director, Radiation Therapy: Stephanie Eshmon
Clinical Coordinator, Radiation Therapy: Cheryl Brody
Coordinator, Single Subject Credential: Sally Champkin
Administrative Support Coordinator: Mark Vele

Career Possibilities

Health Science: Health Educator • Government Inspector • California Middle/High School Health Teacher • Researcher/Evaluator • Health Education Specialist • Public Health Educator • Patient Educator • Radiation Therapist

Radiation Therapy: Staff Therapists • Simulator Therapists • Dosimetrists • Educators • Senior Therapists • Department Managers • Temporary Staffing Therapists • Consultants • Equipment Sales and Marketing (For more information, see www.careers.csulb.edu)

Introduction

The Department offers undergraduate and graduate study in Health Education, and an undergraduate option in Radiation Therapy. For program information, students should contact the department office for referral to one of the faculty advisors: Director of Undergraduate Studies, Director of Radiation Therapy, Director of Graduate Studies or Single Subject Credential Advisor.

All Health Sciences majors and minors are responsible for requirements specified in the University Catalog. Students should meet periodically with either the Director of Undergraduate Studies, the Director of Radiation Therapy, or the Director of Graduate Studies. Faculty advisors will discuss and review the student’s academic program, program requirements and monitor academic progress. Students also have responsibility for keeping track of unit totals required for graduation and insuring that these requirements are met.

Program in Health Education

Health education programs help participants enhance health, prevent disease and disability, as well as help improve the well-being of people in organizations, schools, businesses, and communities. The program focuses on environmental influences, which include the cultural and societal context in which health behavior occurs; it also emphasizes processes for developing and changing individual attitudes and behaviors toward health.

The focus of health education is on planned change. Individuals are encouraged to take responsibility for their own health and to assume responsibility for the health of their families and communities.

As our society continues to change, health problems are redefined. Future health advances will not only come from new technology, but also as the result of community, group, and individual actions. These factors will impact education, lifestyle, environment, and the organization and delivery of health services.

Brochures that describe each of the programs are available at the Health Science Department office.

Courses are designed to satisfy Health Science requirements for:

1. General education.
2. The baccalaureate degree major.
3. Single Subject Teaching Credential in Health Science.
4. Master of Science Degree with a Major in Health Science.
5. Master of Public Health Degree in Community Health Education.
6. Master of Science in Nursing/Master in Public Health

Undergraduate Programs

Bachelor of Science in Health Science

The basic University requirements for graduation with a B.S. Degree in Health Science consist of:

1. completion of all general education requirements,
2. completion of all courses identified on the Program Planner for the Option selected, with no grade lower than a "C" for each listed course or approved substitute,
3. completion of a minimum of 120 units, at least 40 units of which must be upper division. Upper division courses are numbered 300 to 499.

Major Core Requirements

All Health Science majors must complete the required core. The core of the Health Science program contains five areas of competence: Statistics, Program Development, Professionalism, Health Services Organization and Health Promotion. All majors must complete at least one course from each competency area. Courses must be selected in consultation with an advisor.

Option in Radiation Therapy

(code HSC_BS01) (135 units)

Admission Under Impaction

To be eligible for admission to the major in the Health Science Option in Radiation Therapy Technology, applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 200, 207, and 208; MIGR 101; HSC 200;
MATH 119A; PHYS 100A and B; I S 233; and ENGL 102 or the equivalents of these courses. Applicants must have completed a 40-hour observation period in a department of radiation therapy and an observation packet. Applicants must submit a supplemental application to the department by February 1 for the fall semester. The application must be accompanied by: 3 letters of recommendation at least one from a radiation therapist at the observation site noted below, and the others from either employers or instructors, a written personal statement, a summary of academic and work history, and documentation of the availability of transportation to clinical sites for the required internship. Applicants must participate in an interview with the Radiation Therapy Career Assessment Committee. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission on a space-available basis according to the faculty’s judgment of the applicants ability to succeed in the program.

To apply to the Radiation Therapy Option, students must meet all of the requirements listed above.

Admission Under Impaction for Continuing Students

Students who indicate a Radiation Therapy Option major when they enter as freshmen will be assigned a pre-Radiation Therapy major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the Option by the Department. Students who are not accepted into the Option cannot continue as pre-Radiation Therapy majors.

Prior to admission to the Radiation Therapy Option, continuing students must:
1. Complete all of the basic criteria listed above
2. Complete HSC 200 Orientation to Radiation Therapy with a grade of "C" or better.
3. Submit Option Application by February 1.

Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the Option will not be admitted to the university unless they have listed a second choice of major on the application form.

Prior to admission to the Radiation Therapy Option, transfer students must:
1. Complete all of the basic criteria listed above
2. Schedule an appointment with the Radiation Therapy Program Director or Clinical Coordinator
3. Attend a group Radiation Therapy Orientation session
4. Submit by February 1 the Option application.

The Radiation Therapy Option is designed for individuals who wish to pursue a professional program leading to membership in the healthcare team using ionizing radiation in the treatment of malignant and some benign diseases. The Option is competency-based and integrates didactic courses and clinical experience to prepare entry level radiation therapists to become integral partners in the health care team and contributing members of the profession. On a daily basis, the registered radiation therapist is involved in:

2. Providing psychological and emotional support to patients who are dealing with the stress of their illness.
3. Providing education to the patient and their family about their disease and all aspects of treatment.
4. Observing patient progress and recognizing medical problems that require a physician’s attention.
5. Constructing devices to aid in treatment positioning, beam modification, and treatment planning.
6. Calculation of doses and use of treatment planning computers to determine dose distributions.

Successful completion of the Option requirements allows the student eligibility to apply for licensure examinations at the state and national levels to practice as a registered radiation therapist.

This program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT), 20 N. Wacker Drive, Suite 2850, Chicago, IL 60606-3162, phone 312-796-5300 and the State of California, Department of Health Services, Radiologic Health Branch.

Required Radiation Therapy Option Courses

Students will take the following courses in sequence:

All Radiation Therapy courses must be completed with a grade of "C" or better. If a student earns a lower grade, the student must repeat the course and earn an acceptable grade before advancing to the next level of courses.

Option in Community Health Education (code HSC_B502) (120 units)

The Community Health Education option is designed for persons whose occupational objective is to serve as a community health educator with an official, voluntary, or corporate health agency.

Lower Division: BIOL 200, 205, and either CHEM 100 or 111A; MICR 101; an additional anatomy and physiology, BIOL or MICR course approved by department advisor; Spanish (3 units) or language approved by Department Advisor.

Upper Division: HSC 301, 400, 401, 402, 403, 405, 421, 430, 435, 440, 455; Three courses selected from the following: HSC 420, 422, 423, 425, 427, 429, 490; one course selected from the following: NUTR 132; one course selected from the following: PSY 351 or SOC 335; one course selected from the following: SOC 320, 330, 452, 464; and one course selected from the following: CCMM 334, 335.

Option in School Health Education (code HSC_B503) (120 units)

The School Health Option is designed for persons who wish to become health science teachers in California middle/high schools. The program is approved by the California Commission on Teacher Credentialing and meets

438 • Health Science • 2009/2010 CSULB Catalog
subject matter competence requirements for the Health Science Preliminary Single Subject Credential (code 130).

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in Health Science, prospective Health teachers are also required to complete an additional 35 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching as an undergraduate. Courses may also be completed as post-baccalaureate student.

Refer to the Single Subject Teacher Education section of this catalog or the Single Subject Credential Program website (www.cod.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. A student may enroll in the credential program prerequisite course, EDSS 306D, after completing 80% of the required lower division, upper division, and subject matter courses. Prospective students should consult the department’s Health Science Single Subject Advisor early to plan their program.

The Health Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

Lower Division

BIOL 200, 205, 260; MCR 101; CHEM 100 or 111A; approved anatomy and physiology, BIOL or MCR course; PSY 100, Spanish (3 unit minimum) or language equivalent approved by HSC department advisor.

Upper Division

COMM 335 or approved upper division COMM course, EDP 302 or HDEV 307 or PSY 361, ETEC 444, NUTR 132. Select one course from: ANTH 329, CDFS 319, HSC 420, PSY 378, SOC 320, 423.

Subject Matter Courses: HSC 210, 281, 401, 403, 421, 422, 423, 425, 427, 430, 435, 440

Option in Health Care (code HSC_BS04)

120 units

The Option in Health Care is designed for those individuals who have received certification and/or license from an approved allied health/health care program and desire a Bachelor of Science degree. The focus of this option is the development of professional skills for people whose goal is: (a) providing service, or (b) instructing in the health care setting.

Admission Requirements

Once admitted to the University, students are required to complete the following prior to acceptance into the Health Care Option.

1. Obtain certification and/or license from an allied health/health care program from an institution that has been accredited by either a Committee on Post-secondary Accreditation (COPA) approved accreditation agency or the Committee on Allied Health Education and Accreditation (CAHAE). Those individuals who do not have appropriate certification will be counseled by the Department of Health Science regarding where to obtain an appropriate accredited program, and, when possible, concurrent enrollment may be utilized.

2. Earn a minimum GPA of 2.0.

Lower Division: Completion of general education requirements to include: ENGL 100; one of the following: ANTH 120, SOC 100 or PSY 100; and minimum of 12 units in Natural Sciences, approved by department advisor equivalent to: BIOL 200, 205, MCR 101 and an additional anatomy and physiology, BIOL or MCR course approved by faculty advisor; either CHEM 100 or 111A.

Upper Division: (39 units): Required Core: 15 units, (three units from each area); courses must be selected in consultation with an option advisor:

A. Statistics: H SC 403 or ED P 410;
B. Program Development: H SC 430 and H CA 320, or H SC 450 and 316;
C. Professionalism: H SC 451 or HCA 340;
D. Health Organization: H SC 401 or 4201;
E. Health Promotion: H SC 435 or HCA 402;

Additional Coursework

H SC 401 and one of the following: HDEV 320 or H SC 405; one of the following: ANTH 353, SOC 462; one of the following: POSC 328, or ECON 300.

An emphasis in either:

A. Providing Services (12 units): HCA 410, 465; one of the following: ED P 434B, H SC 421 or 492A/B and one of the following: ANTH 319, GERN 400, 482, or NRSG 482; or
B. Instructing in the Health Care Setting (12 units): HCA 410, 465 and one of the following: H SC 493/B (3 units), or ED P 432, and one of the following: ED P 305, 434B or HSC 421.

Minor in Health Science

code HSC (UM01)

Twenty-four units as follows: H SC 301, 401, 430, 435, 440, and three courses from: H SC 400, 4201, 421, 422, 423, 425, 427.

Graduate Programs

Single Subject Credential in Health Science

code 130

The Single Subject Teaching Credential in Health Science prepares one to teach health science in California middle/high schools. Requirements include: a) Bachelor of Science Degree in Health Science with a completion of the school health option from a program approved by the California Commission on Teacher Credentialing or BS/BA and a passing score on the CSET in Health Science b) GPA of 2.75 on the last 60 semester units c) Professional education courses beyond the B.S. which begin with EDSS 3000; Introduction to Teaching Health Science d) student teaching in health science. See the Health Science Single Subject Advisor.

The Health Science Subject Matter Program is being revised to meet new state standards when the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current catalog copy.
For additional information about teaching in California middle/high schools, see the Single Subject Teacher Education Program.

Graduate Program in Health Education

In order to be admitted to the graduate program for study toward a degree, a prospective candidate must apply both to this department and the University. Contact the Director of Graduate Studies for current requirements.

Master of Science in Health Science (code HSC_MS01)
The Master of Science program is designed to provide students with:
1. Intensive study of health education concepts, theories, and processes.
2. Introduction to public health concepts and issues.
3. Research methodology appropriate to field preparation in a specific health topic.

The graduate student is also prepared for a leadership role in a school or community setting and for admission to doctoral programs at other colleges and universities. Admitted graduate students must contact the Director of Graduate Studies for advisement early in their first semester of enrollment in order to develop an approved program of study.

Admission Requirements
Applicants must apply both to the Department and the University. Applications are available from the Office of Enrollment Services.

1. Each applicant must present a copy of official transcript(s) of all work be sent to the Graduate Director in the Health Science Department in addition to the transcripts required by the Office of Enrollment Services.
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline in a minimum of 21 units of upper division course work comparable to that required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of the semester of enrollment. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of competency in the subject area.
3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 80 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of approved graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of the analytic, quantitative and verbal scores from the Graduate Record Examination (GRE) and a copy of the CSU graduate application to the Department.
7. Three letters of recommendation from persons with whom the candidate has worked and who have direct knowledge of the applicant's qualifications and potential as a community health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interest and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant work experience.

Advancement to Candidacy
1. Satisfy the general University requirements for advancement to candidacy:
   A. Fulfill the Graduation Writing Assessment Requirement (GWAR);
   B. Maintain at least a 3.0 average for all course work attempted as a graduate student;
   C. Complete HSC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and the Associate Dean of Academic Programs of the College of Health and Human Services.

Requirements for Completion of the Master of Science
1. A minimum of 43 units of approved upper division and graduate courses including:
   A. 21 units of Health Science courses, which include HCA 502, HSC 500, 503, 570, 581, 696;
   B. 18 units of electives in a specialty field;
   C. 4 units of HSC 698;

Master of Public Health
Option in Community Health Education (code HSC_MH01)
The Master of Public Health in Community Health provides an opportunity for students to specialize in health education and health promotion within the general context of Public Health, to increase competence in designing, implementing, and evaluating social behavior changes in program planning in preparation for serving in various health agencies, prepare for teaching at college and university levels and for administrative positions in public and private health agencies.

Admission Requirements
Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must present a copy of official transcript(s) of all work be sent to the Director of Graduate Studies (in addition to the copies required by the Office of Enrollment Services).
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to those required of the Health Science major.

440 • Health Science • 2009/2010 CSULB Catalog
Master of Science in Nursing/Master of Public Health (code NRSGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the areas of public health nursing with a practice focus on primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intensive learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to specialize in advanced practice public health nursing within the general context of the Masters of Public Health, to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies. The focal point in this curriculum is the Nursing Process, Epidemiological Process Model, and Population Based Theory complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of advanced practice public health nursing.

Each applicant should request a copy of official transcript of all college course work be sent to the Department Graduate Advisor of Nursing in addition to the copies required by the Office of Admissions and Records.

Admission Requirements
1. Bachelor's degree in nursing or currently enrolled in an accelerated RN to Masters program. Those nurses with baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (HSC 403 or Ed. Stat 419) and an ethics course (HSC 451).
5. Public Health Nurse Certificate, or eligibility for certificate in California.
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fail below these averages will be evaluated on an individual basis.
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's professional and academic potential as a health educator.
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences, which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

2009/2010 CSULB Catalog  •  Health Science  •  441
Advancement to Candidacy
A joint committee, consisting of Nursing and Health Science faculty involved in the program, will review files and make determination to advance a candidate to graduate status.

Student Criteria for Advancement
1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Science.
   A. fulfill the Graduation Writing Assessment Requirement (GWAR)
   B. have at least a 3.0 grade point average for all course work attempted as a graduate student.
2. Joint approval by the Department of Nursing and Health Science, and the Associate Dean for Academic Programs of the College of Health and Human Services.

Requirements
1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 620, 625, NRSG 660B, 660A, 680A, 680C, NRSG 680AL, 680BL, 680CL or HSC 626 (in lieu of one 3 unit 680L); NURS 696 or HSC 696; NRSG 695 or HSC 697 or NURS 698
2. An overall GPA of 3.0 or better in all courses
3. Comprehensive written examination or directed project or a thesis
4. Graduate degrees obtained previously will be accepted toward meeting the unit requirements of the concurrent MSN/MPH degree program
5. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met.
6. Transfer units will not be accepted toward the concurrent MSN/MPH program.

Courses (HSC)

LOWER DIVISION

150. Medical Terminology (1)
Development of medical vocabulary emphasizing the building of terms utilizing prefixes, combining forms and suffixes. Includes medical terms for application in the interpretation of medical records.
(Lecture-discussion 1 hour.) Letter grade only (A-F).

200. Orientation to Radiation Therapy (3)
Introduction to the profession of Radiation therapy and an overview of the Option requirements. The role of Radiation therapy in cancer treatment and the role Radiation Therapist in patient care, treatment, simulation, dosimetry and follow-up. 40 hours of clinical fieldwork required. Letter grade only (A-F).

210. Contemporary Health Problems (3)
Prerequisites: Completion of the 13 unit GE foundation requirements. Development of modern health knowledge, attitudes and behavior includes family life, sex education, drug use and abuse, mental health, medical quackery and health frauds, common diseases such as sexually transmitted diseases, heart disease and cancer.

UPPER DIVISION

301. Orientation to Health Science (3)
Must be taken prior to HSC 401 and 430.
Overview of philosophy of Health Science Department Orientation to degree requirements, career opportunities, and theoretical and practical issues of health education as a profession.

310. Radiation Therapy Patient Care I (2)
Prerequisites: Admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Topics covered include the role of the radiation therapist, communication, self-care, basic patient care, patient assessment, infection control, medical emergencies, basic pharmacology and medication administration.
Letter grade only (A-F).

311. Radiation Therapy Patient Care II (2)
Prerequisites: Admission to the Radiation Therapy Option Professional Preparation of consent of instructor, HSC 310.
Topics covered include psychosocial aspects of cancer diagnosis, death and dying, patient education and intervention for treatment related sequelae. Additionally, local, state and national cancer resources are covered.
Letter grade only (A-F).

315. Seminar in Radiation Therapy I (2)
Prerequisites: Concurrent enrollment in HSC 492A, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Introduction to the clinical arena requiring application of previous didactic material. Focus is on the patient, consultation, simulation, treatment, dosimetry and case study review.
(Lecture-discussion 2 hrs)

316. Seminar in Radiation Therapy II (2)
Prerequisites: Concurrent enrollment in HSC 492B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Application of previous didactic material. Comprehensive analysis of case studies in the clinical setting with emphasis on treatment rationale and options.
(Lecture-discussion 2 hours)

320. Radiologic Techniques and Imaging Modalities (3)
Prerequisites: Admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Concepts and processes involved in producing a radiograph will be covered. Additionally, other diagnostic imaging modalities such as CT, MRI, Ultrasound will be covered.
(Lecture-discussion 2 hr) Limited grade only (A-F).

330. Topographic Anatomy (2)
Prerequisites: BIOL 201, 208 admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examination of external anatomic landmarks to internal anatomy. Additionally, cross sectional anatomy is covered with interpretation of port films and other diagnostic films.
(Lecture-discussion 2 hrs) Limited grade only (A-F).

340. Clinical Radiation Therapy (3)
Prerequisites: HSC 209, 320 admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Rationales of radiation therapy treatments; construction of immobilization devices, contours, beam modifiers and positioning aids. Examination of simulation procedures, contrast media, treatment positioning and monitoring.
(Lecture-discussion 2 hrs, Lab 2 hrs) Limited grade only (A-F).

442 • Health Science • 2009/2010 CSULB Catalog
341. Clinical Radiation Therapy II (1)
Prerequisite: HSC 340, concurrent enrollment in HSC 445A, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examination of site specific techniques to treat cancers of the skin, head and neck, lung, esophagus, breast, gastrointestinal, kidney and bladder.
Letter grade only (A-F). (Lecture-discussion, 1 hour)

342. Clinical Radiation Therapy III (1)
Prerequisite: HSC 341, concurrent enrollment in HSC 445B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examination of site specific techniques to treat cancers of the reproductive systems, CNS, eye, endocrine, bone, soft tissues, blood and lymphatics. Pediatric cancer treatments will be included.
Letter grade only (A-F). (Lecture-discussion 1 hour)

400. Principles of Epidemiology (3)
Prerequisite: HSC 301 and 403.
Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and gastroenteric problems.
(Lecture 3 hours)

401. Community Health Education (3)
Prerequisite: HSC 301 and HSC 430.
Concepts of community health education with emphasis on community organization; application of these concepts to health education activities of official, voluntary and professional health agencies.

402. Applied Concepts of Community Health Education (3)
Prerequisite: HSC 430, 431, 432.
Identification and application of concepts unique to community health education; includes examination of theoretical foundations, marketing and promotion techniques, and application of health education strategies.

403. Community Health Statistics (3)
Prerequisite: G.L. math and SOC 290 or PSY 100 or equivalent. Representative topics are descriptive statistics, sample designs, control charts, and variability. Statistical tools for inferential analyses include hypothesis testing and parameter estimation.
(Lecture 2 hours, Activity 2 hours)

405. Health Education Program Evaluation and Measurement (3)
Prerequisite: HSC 403 or equivalent.
Research design, standardized measurements, data collection, analysis, and reporting are used to develop evaluation skills to assess program outcomes. Program activities promoting behavior change in communities, organizations, groups and individuals are evaluated.
(Discussion 3 hours)

411A. Health Science for Elementary Teachers (3)
Prerequisite: Upper-division standing, Corequisite: Current CPR Certification required.
Contemporary teaching of health education in elementary schools emphasizes coordinated school health, children's health, drug abuse, violence, community and human ecology. Based upon California Health Framework, meets state credential requirements.
Not open for credit to health science majors or minors.

411B. Health Science for Secondary Teachers (3)
Prerequisite: Upper-division standing, Corequisite: Current CPR Certification required.
Contemporary teaching of health education in secondary schools emphasizes coordinated school health, drug abuse, violence, community and human ecology. Based upon California Health Framework, meets state credential requirements.
Not open for credit to health science majors or minors.

415. Radiation Biology (2)
Prerequisite: BIOL 207, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Biological effects of radiation at the cellular, organ and whole body levels. Radiobiological effectiveness, linear energy transfer, oxygen enhancement ratio, sensitizers and protectors will be covered.
(Lecture-discussion 2 hours). Letter grade only (A-F).

420L. International Health (3)
Prerequisite: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing.
Analysis of current health problems in the world; examination of contributing social, psychological, physical, legal and cultural factors; international programs for the improvement of world health; structure and functions of world health agencies and organizations.
Course fee may be required.

421. Health Behavior (3)
Survey of contemporary research on the health effects of human behavior. Special emphasis is given to current issues of health behavior, decision-making in contemporary society, values clarification and contemporary theories of behavior change (e.g., health belief model).

422. Environmental Health (3)
Examination of reciprocal relationship existing between man and his environment, with the emphasis directed toward the health related consequences of man's actions in the environment.

423. Consumer Health (3)
Effective selection of health information, products and services; medical quackery and fraudulent health practices; laws and agencies protecting the consumer; health care delivery systems; and influence of corporate control on the consumer movement in contemporary society.

425L. Human Sexuality and Sex Education (3)
Prerequisite: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Recommended: PSY 100.
Biological, sociological, and psychological aspects of human sexuality, the communication of sexual information, the implementation, content and evaluation of family life and sex education in the schools.

427. Drugs and Health (3)
Prerequisite: Upper-division standing.
Study of psychoactive drugs with primary attention to alcohol, cocaine, caffeine, tobacco, hallucinogens, narcotics and other drugs; examination of trends, philosophical issues and behavioral practices associated with drug use and dependence. Includes physiological psycho-social, legal, historical, philosophical and political aspects; treatment-rehabilitation activities and programs; and drug abuse prevention education.
Not open for credit to students with credit in HSC 327.

429. Stress Reduction (3)
Recognition of stress and its causes. Physical and mental symptoms of stress. Influences which reduce or create stress; methods of coping.

---

2009/2010 CSULB Catalog • Health Science • 443
430. School Health Program (3)
Prerequisite: H SC 301.
Intensive analysis of the philosophy, organization and legal aspects of the school health program. Includes school and community coordination for a team approach to health education for the school age individual.

435.J535. Health Promotion and Risk Reduction (3)
Prerequisites: H SC 421 or consent of instructor.
Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors.
(Discussion 3 hours)

440. Applied Concepts of Health Science (4)
Prerequisite: H SC 430.
Identification and application of the concepts and modes of inquiry utilized in the discipline of health sciences; development of appropriate curriculum based upon an analysis of individual, school and community needs and interests.
(Lecture 3 hours; laboratory 3 hours)

445A. Oncologic Pathology I (3)
Prerequisites: BIOI 207, 208, HSC 150, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examination of Oncologic pathology with emphasis on malignant neoplasia; specific attention given to cancers of the skin, head and neck, lung, esophagus, breast, gastrointestinal tract, kidney and bladder.
(Lecture-discussion 3 hours) Letter grade only (A-F).

445B. Oncologic Pathology II (3)
Prerequisites: HSC 445A, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Continuing study of Oncologic pathology with specific attention given to cancers of the reproductive system, central nervous system, eye, endocrine, major digestive glands, bone, soft tissue, blood, lymphatic system and pediatric solid tumors.
(Lecture-discussion 3 hours) Letter grade only (A-F).

451. Ethics Professionalism in Health Care (3)
Examination of professionalism and bioethics, and the process of making moral decisions; ethical issues; professional oaths and codes of ethics; health care ethics and the law.

455. Quality Management in Radiation Therapy (1)
Prerequisites: HSC 470B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Study of the principles of quality management with an emphasis on specific quality assurance tests in radiation therapy. Students will be given the opportunity to either perform or observe a demonstration of each quality assurance test.
(Letter grade only (A-F).

465. Radiation Therapy in the Health Care Industry (3)
Prerequisites: Admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examination of radiation therapy in the current health care market. Focus on various operational and budgetary issues, hospital and governmental accreditation, types of insurance and reimbursement.
(Letter grade only (A-F); Lecture-discussion 3 hours)

470A. Clinical Radiation Physics I (3)
Prerequisites: PHYS 100A, B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Nature and description of the structure of matter and energy; interactions of photons and gamma radiation; instrumentation and measurement of ionizing radiation; beam quality and dose; percentage depth dose, tissue air ratios, treatment dose calculations.
(Lecture-discussion 2 hours, Laboratory 2 hours). Letter grade only (A-F).

470B. Clinical Radiation Physics II (3)
Prerequisites: HSC 470A, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
A continuation of the study of radiation physics with emphasis on electron beams, brachytherapy, intensity modulated radiotherapy, conformal radiotherapy and other emerging technologies. Radiation safety and protection also included.
(Lecture-discussion 2 hours, Laboratory 2 hours). Letter grade only (A-F).

475. Treatment Planning – Dosimetry (2)
Prerequisites: HSC 470A, B, concurrent enrollment in HSC 475B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Examines the effects of treatment distance, field weighting, beam modifiers, irregular fields, tissue inhomogeneities and tissue compensation on dose. Dose calculations for external photon and electron beams.
(Lecture-discussion 2 hours). Letter grade only (A-F).

475L. Treatment Planning – Dosimetry Laboratory (1)
Prerequisites: Concurrent enrollment in HSC 475B, admission to the Radiation Therapy Option Professional Preparation of consent of instructor.
Practical experience with calculation of treatment dose given a variety of clinical situations. Calculations to determine dose to critical structures or methods used to lower or avoid dose. Use of a treatment planning computer for complex field arrangements.
(Laboratory 3 hours) Letter grade only (A-F).

480. Advanced Radiation Therapy (2)
Prerequisites: Must be in final semester of Radiation Therapy Option Professional Preparation.
Synthesis of previous didactic and clinical information; examination of current and future professional issues, technological advances, ethics, professional organizations and continuing education.
(Lecture-discussion 2 hours) Letter grade only (A-F).

485. Internship in Health Education (3)
Prerequisites: H SC 401 and consent of instructor.
Supervised observation and field experience in community health education as conducted by official, voluntary and professional health organizations.

490. Independent Studies in Health Science (1-3)
Prerequisite: Consent of instructor.
Students conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units.

492A. Internship in Health Care (1-7)
Prerequisite: Consent of instructor.
Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation.
Letter grade only (A-F).
492B. Internship in Health Care (1-6)
Prerequisites: Consent of instructor.
Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of all objectives applicable to area of observation.
Lettor grade only (A-F).

GRADUATE LEVEL

500. Principles of Epidemiology (3)
Prerequisites: HSC 501 and HSC 403.
Application of epidemiological procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and genetic processes.
Letter grade only (A-F). (Lecture 3 hours.)

503. Advanced Community Health Statistics (3)
Prerequisite: HSC 403 or equivalent.
Analysis of quantitative health related data. Topics include mean and percentage comparisons, multiple regression, logistic regression, and survival analysis. Use of computers is required.
Letter grade only (A-F). (Discussion 3 hours)

508. Administrative Relationships in Health Education Programs (3)
Prerequisite: Undergraduate major in Health Science or related field.
Introduction to administrative theory, investigation of administrative responsibilities and functions implicit in school health or other health education programs.
Letter grade only (A-F).

529. Advanced Environmental Health (3)
Prerequisite: HSC 422 or consent of instructor.
Organization and methods for promoting human health by controlling environmental factors.
Letter grade only (A-F).

535/435. Health Promotion and Risk Reduction (3)
Prerequisites: HSC 421 or consent of instructor.
Health promotion/risk reduction program content, development and implementation for use in corporate, hospital, and public settings. Intended primarily for Health Science majors.
Letter grade only (A-F). (Discussion 3 hours)

570. Theoretical Concepts and Issues in Health Science (3)
Identification and analysis of current trends, philosophies and issues in health science.
Letter grade only (A-F).

581. Curriculum Development in Health Education (3)
Prerequisites: HSC 430, 440.
Principles of curriculum development; selection and evaluation of resource materials; theory and practice in measurement in health education.
Letter grade only (A-F).

585. Health Education Internship (1-6)
Prerequisite: Consent of the instructor.
Extended applied experience under guidance of faculty and preceptors in an approved health education practice setting.
Letter grade only (A-F). (480 hours of field placement or the equivalent experience.)

590. Independent Study (1-3)
Independent research conducted under the supervision of a full-time faculty member resulting in a written report of the investigation.
Lettor grade only (A-F). May be repeated to a maximum of 6 units with different topics.

624. Seminar in Community Analysis and Program Planning (3)
Prerequisites: HSC 525 or consent of instructor.
Process and techniques of community analysis and program planning.
Letter grade only (A-F).

625. Advanced Community Health Education (3)
Prerequisites: HSC 401 and 405; or consent of instructor.
Advanced study of educational and related theory applicable to the conduct of health education programs in community and other settings. Methods of promoting change; role as program and staff director and evaluation techniques.
Letter grade only (A-F).

626. Integrative Seminar in Public Health (3)
Prerequisites: HSC 570, advancement to candidacy.
Summative critical analysis of current methodologies, research, and practices in public health and health education in particular. Synthesis of coursework, internship, and other relevant experiences in the graduate program.
Letter grade only (A-F).

696. Research Methods (3)
Prerequisites: Undergraduate major in Health Science or related field; undergraduate course in statistics.
Introduction to research methodology in the area of Health Science.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: Advancement to candidacy.
Independent investigation of research problems in health education.
Lettor grade only (A-F).

698. Thesis (1-3)
Prerequisites: HSC 696, advancement to candidacy. Planning, preparation and completion of an approved thesis.
HISTORY
College of Liberal Arts

Department Chair: Nancy L. Quam-Wickham
Department Office: Faculty Offices 2 (FO2), Room 106
Telephone: (562) 985-4431

Faculty: Dorothy Abrahamse (Emeritus), Houri Berberian, Stephen L. Berk (Emeritus), David A. Brezina (Emeritus), Emily Brezina, Paul V. Black (Emeritus), Jeff Blufinger, Alber D. Burke, Augustus Cerillo, Jr. (Emeritus), Patricia A. Cleary, Keith E. Collins (Emeritus), Kenneth R. Curts, Jane David, Edward A. Gosselin (Emeritus), Albert F. Gunnis (Emeritus), David C. Hood, Ali Ilgum, Andrew Jenks, Troy R. Johnson, Arnold P. Karmansky, Marie Kellhor, Margaret Kuo, Arlene Luzarowitz, Guoxing Li, Eileen Luh, Brett Muzelle, Caitlin Murdock, Keith I. Polakoff (Emeritus), Gary W. Reichard (Emeritus), Sarah Schrom, Donald R. Schwartz (Emeritus), Lise Sedroz, David Shostler, Sharon L. Sievers (Emeritus), Arnold R. Springer (Emeritus), Jack Stuart (Emeritus), William A. Weber (Emeritus), Nancy L. Quam-Wickham, Richard Wilde (Emeritus), Hugh Wilford

Advisors:
Undergraduate: Linda Aikana, Caitlin Murdock
Graduate: Houri Berberian

Office Managers: Aimee Casillo, Gris Hernandez

Career Possibilities
Historian • Writer • Editor • Administrators in Historic and Cultural Preservation • Teacher • Museum Curator • Multimedia Specialist • Preservation and Environmental Lawyer • College Instructor • Film Maker • Environmental Review Specialist • Human Resources Manager • Advertising Analyst • Systems Analyst • Insurance Broker • Executive (Some of these, and other careers, require additional education or experience. For more information, see www.csunm.csulb.edu.)

Introduction
Advising in the Department of History is available to all students interested in a major, minor, a teaching credential, or a special major combining History with another discipline. Students are strongly encouraged to see History Department advisors at an early stage in the development of their programs. Undergraduate majors should see History department staff to fill out a work sheet before meeting with the Undergraduate Advisor. Students interested in the M.A. program should contact History department staff for application information. Graduate students should see the Graduate Advisor. Applicants for the Social Science Credential Single Subject Program must see Credential Advisors. All advisors maintain extended hours during the semester and are available at other times by appointment. The Department of History also hosts open advising days in the week prior to each new semester; call the Department for information.

History
History is a discipline at the core of the liberal arts tradition. It seeks to preserve, extend, and reevaluate our study of the past and to connect it with the present. Students who specialize in History are typically those who plan to teach, practice law, or enter government service; however, History students also go into business, librarianship, foundation work, management of local history projects, and fundraising. Some history alumni have become successful writers.

Students contemplating graduate work in History on this campus or elsewhere should get advice early in their undergraduate careers from faculty in their fields of interest and should also give serious consideration to developing proficiency in a foreign language during their undergraduate years.

The History Department awards scholarships and prizes to outstanding undergraduate and graduate students, among which are:
• The Xiaolan Bao Scholarship
• The Douglas McNally Award
• The Stuart Borthwick Award
• The E羚-Heinberger Scholarship
• The Jack Chimski Award
• The Ivy Ahtiqua Scholarship
• The Elizabeth Nelson Award
• The Hardeman Graduate Student Award
• Richard and Louise Wilde Scholarship

For further information about these awards, given annually, students should inquire at the Department office no later than the beginning of the spring semester. Undergraduate and graduate students are eligible for the Department's facilitator program for which they may earn units in the major; see Department staff for applications. Graduate assistantships and researchships are also frequently available to qualified graduate and undergraduate students. The Department also recruits outstanding students for Phi Alpha Theta, the national honor society for History students.

The Department of History offers graduate study leading to the Master of Arts degree. The candidate is responsible for observation of the general requirements stated in this catalog as well as specific departmental requirements listed in the M.A. brochure, available on request from the Department office.

General Education Requirement in United States History
To fulfill State of California requirements, students must take three (3) units of U.S. history. This requirement can be met by HIST 172 or 173. Students who have taken U.S. history at another institution should check with the History Department before enrolling.

Bachelor of Arts in History (code HISTBA01) (120 units)

Requirements

 Majors must take 48 units of history: 0 lower-division and 30 upper-division.
 1. Core: 15 units. All majors must take HIST 301 and 302 with a grade of "C" or better; HIST 499 and one history course that fulfills the gender, race, and ethnicity requirement (from a list of approved courses available from the Undergraduate Advisor). HIST 301 MUST be taken in the first semester of upper-division course work in the major.
HIST 301 is a prerequisite for 302, and both courses are prerequisites for 499.

2. Fields of emphasis: 18 units. All majors have the option of specializing in two or three fields. Option one: two fields of nine units each. Option two: three fields of six units each. The fields are:
   A. Africa and the Middle East
   B. Ancient and Medieval Europe
   C. Asia
   D. Latin America
   E. Modern Europe (Including Britain)
   F. United States
   G. World

3. Breadth: 6 units. Majors must take six units in a field (or fields) of History outside of their fields of emphasis.

4. All majors must develop a portfolio (beginning with HIST 301) reflecting their work in the History major. The portfolio will be evaluated as one of the requirements in the senior seminar, HIST 499. Prerequisites for HIST 499 are completion of HIST 301, 302, and 18 units of upper-division work in the major.

NOTE: History majors are strongly encouraged to include the study of foreign language and literature in their programs. Students working for a single-subject credential in secondary education must consult with the College's secondary education advisor as to the applicable credential major requirements.

Honors in History

Students with a major in history may be admitted to the History Department honors program (option of the University's Honors Program) provided they have:

1. Completed at least 30 semester units of college- or university-level courses, including at least two history courses;
2. A minimum cumulative GPA of 3.3, and a 3.5 in history courses;
3. Submitted to the department honors committee chairperson two letters of recommendation from faculty members;
4. Received admission approval from the departmental honors committee.

Students who have the minimum GPA requirements established by the University Honors Program (3.0 overall and 3.5 in the major, but who do not meet History departmental GPA requirements above may petition the department honors committee for conditional admission to the Department Honors Program.

In order to graduate with Honors in History a student must:

1. Complete all regular requirements for the history major;
2. Complete 3 units in HIST 301;
3. Complete 3 units in HIST 498H: Honors Research;
4. Complete 3 units of HIST 499H: Honors Thesis;
5. Complete 6 units of additional course work chosen in consultation with the Department Honors Advisor; such courses normally will require two analytical papers or a research paper on a honors level of performance;
6. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in history.

Students admitted to the program must maintain a file in the University Honors Program which will include copies of proposals for 498H and 499H.

Oral History Program

This program, housed in the Department of History, is designed to teach and train history students in the use of materials that focus on largely unwritten sources. History majors, and social science credentials students with a history concentration, are urged to take the one-unit workshop. Students in these workshops learn how to design an oral history project, and to conduct interviews. Workshops are especially helpful for students interested in local history, the history of the family, and communities whose written records have not been included in traditional historical materials.

Minor in History (code HISTUM01)

A minimum of 21 units which must include:

Lower Division: A minimum of six units, which must include a six-unit sequence from the following: HIST 211 and 212, 131 and 132.

Upper Division: A minimum of 12 units, which must include at least six units in each of two areas as defined for the major.

Minor in Jewish Studies (code HISTUM02)

The Minor in Jewish Studies consists of a minimum of 19 units. Jewish Studies encourages undergraduate students to acquire the academic breadth and depth to comprehend the major issues, themes, and concepts of a culture and heritage that has had a distinct impact on world civilization. The interdisciplinary minor consists of courses in a variety of disciplines, including literature, history, religion, geography, Hebrew language, and politics. Students will expand their understanding of the broader dynamics of the Jewish experience through different eras and geographic settings, both in Israel and the Diaspora.

Requirements

1. Required core courses: HEBW 101A, HIST 470, RIST 314;
2. Three units from the following elective courses: CWL 342, HIST 431, RIST 311;
3. Six units from the following elective courses: GEOG 309H, HIST 304, 432, POSC 367, RIST 315.

Minor in Latin American Studies

(code HISTUM03)

This minor offers students majoring in any subject an opportunity to supplement their education focusing on interdisciplinary study of Latin America. The flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward General Education requirements, and this major or minor requirements of the cooperating departments.

Requirements

1. Requirements for the Latin American Studies minor:
   A. Successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to student's area of concentration or equivalent fluency as determined by program advisor;
   B. Consultation with program advisor, including formal declaration of minor, and application for graduation.

2. Completion of 21 units distributed as follows:
   A. Core (required of all students): 3 units. Choose either LAS/ HIST/ SOC 161 or SPAN 445.

2009/2010 CSULB Catalog  •  History  •  447
B. Electives: 18 additional units from the following courses, selected from at least two disciplines:
*Special Topics and Independent Study courses in the area of Latin American Studies (including Short Term Study Abroad) must be approved by the advisor.

Minor in Middle Eastern Studies (code HISTUM05)

This minor encourages undergraduate students to acquire a broad and interconnected understanding of the dynamics of Middle Eastern societies, cultures, and histories by taking courses in a variety of disciplines including History, Arabic Language, Political Science, Geography, Art History, International Business, and Religious Studies. Expands understanding of major issues, themes, and concepts associated with a complex and diverse region as Middle East.

Requirements

A minimum of 18 units.

Core Required Courses

Minimum twelve (12) units: At least three (3) units must be in History of the Middle East and four (4) units must be in Arabic.*

Elective Requirements

Must take a minimum of six (6) additional units, selected with an advisor, from the following courses without repeating courses from the core:
ARAS 101A, 101B, 201A, 201B, 250; ART 466/565; CWL 104, 402/502; GEOG 399; HIST 393, 394, 416/516, 418/518, 428, 431/531, 432/532; POSC 367; RIST 331, 490**.

Three (3) of these units may be taken from the following courses, which have a global and comparative perspective, without repeating courses from core:
CBA 200; WGS 401; COP 102; RIST 455; HIST 395**.

*Other languages of the Middle East may be substituted with the approval of the Director of the program.

**Only topics courses relevant to the minor will be accepted.

Master of Arts in History (code HISTMA01)

Prerequisites

1. A bachelor's degree in history with an overall 3.0 GPA or higher or
2. A bachelor's degree with 24 units of upper-division courses in history. Those courses must be comparable to those required of a major in history at this University. Deficiencies are determined by the graduate advisor after consultation with the student and after study of transcript records.

Requirements

The Master of Arts in History is a program of 30 minimum units as defined below.
Core Courses required of all students: HIST 501, 590

Options for Field of Study

The fields are Africa and the Middle East, Ancient/Medieval Europe, Asia, Latin America, Modern Europe, United States, World.

Option One

For students pursuing one field of concentration, 18 Units of graduate level coursework (500/600 numbered courses) in the student's field of concentration.
18 units must include: HIST 510 in the field, HIST 510 outside the field: Research Seminar if offered (for example, HIST 611 [ancient/medieval], 631 [Europe], 663 [Latin America], 673 [US], and 682 [East Asia]).

Option Two

For students pursuing two fields of concentration, 9 units of graduate level coursework (500/600 numbered courses) in each field. Nine units must include: two 510s, one in each field: Research Seminar in the field of concentration (for example, HIST 611 [ancient/medieval], 631 [Europe], 663 [Latin American], 673 [US], and 682 [East Asia]).

Electives applicable to all students:

Six units of electives of graduate (500/600) coursework in History or supporting disciplines relating to the student's Field(s) of Concentration. Upon written approval of the Graduate Advisor, students may substitute three to six units of upper-division (300/400) coursework in History or supporting disciplines relating to the student's Field(s) of Concentration. Graduate students who wish to enroll in double-numbered (400/500) courses must take the 500-level course.

All Students

The courses for Special Preparation (595), Directed Study (695), Directed Research (997), and Thesis (998) may be applied to the 18 unit total only with the permission of the graduate advisor. A student may propose a field other than those cited above with the consent of the Graduate advisor and her/his graduate committee.

A reading knowledge of a foreign language may be required, depending upon the candidate's program of study as recommended by her/his graduate committee.

Advancement to Candidacy

Students should see Graduate Advisor to file Advancement to Candidacy after at least 6 units but no more than 15 units of graduate coursework are completed.

Must have taken 501 as well as have passed the Graduation Writing Assessment Requirement (GWAR) or appropriate designated course. The Writing Proficiency Exam (WPE) is administered several times each academic year by the University Testing Office. Must be attempted in the first semester of graduate work and passed by the time of advancement. Exam may be waived if earned a 4.0 or higher on Writing portion of GRE.

Advancement must take place at least two semesters prior to taking Comprehensive Exams or completing the Thesis. Comprehensive Examination Approval Form or Thesis Committee Agreement Form must be filed with department at time of Advancement. At this point, a student must commit to taking exams or writing a thesis. Advancement to Candidacy is a formal contract listing courses student has taken, is taking, and will take. Changes to contract may be made in consultation with Graduate Advisor.

448 • History • 2009/2010 CSULB Catalog
Culminating Project

Students must take either Comprehensive Exams in one field (two exams) or in two fields, or write a Thesis on one field or incorporating two fields to culminate their Master’s Degree in History.

Comprehensive exams require filing a Comprehensive Examination Approval Form with the department.

Completion of a thesis: a thesis requires filing a Thesis Committee Agreement Form and enrolling in HIST 698 with the thesis advisor for four (4) units.

All candidates for the M.A. degree in history who have selected to write a thesis must demonstrate competency in one foreign language. Exceptions are granted only with the approval of the chair of the graduate student’s committees and the Graduate Advisor.

The language competency requirement may be met in three ways:
1. Through an examination by a faculty member with expertise in the student’s language. The exam will be a translation of about a 500-word text to be completed in two hours; a dictionary is allowed.
2. By taking the equivalent of two full years of university level foreign language courses, with an average GPA of 3.0 in those courses. If the primary concentration is in Ancient/Medieval, a student may also fulfill this requirement by taking one year of Greek and one year of Latin. All course work completed must be within five years of admission to the graduate program.
3. By taking and passing the Educational Testing Service Graduate Foreign Language Exam.

Courses (HIST)

LOWER DIVISION

101. Facts, Evidence and Explanation (3)
Corequisite: ENGL 100.
Explanation of facts, evidence and explanation to explore and develop habits of critical thought using a historical and global perspective. Topics include argument, inductive and deductive reasoning, the relationship of language to logical and theoretical perspectives.
Not open for credit to students with credit in HIST 201.

131. Early Western Civilization (3)
Corequisite: ENGL 100.
History of western civilization from its origins through the 18th century. Stresses society, culture, and political institutions of ancient Near East, classical world, the medieval West, and renaissance and reformation Europe.

132. Modern Western Civilization (3)
Corequisite: ENGL 100.
European society from 16th century to present. Stresses events and phenomena which reshaped political, economic and social structures of the West and their impact throughout the world. Emphasis on intellectual, social and psychological transformation of modern life.

141. Jewish Civilization (3)
Prerequisites/Corequisites: Completion of one GE Foundation course and ENGL 100 or equivalent.
Survey traces diversity and complexity of Jewish traditions from ancient to modern times across different regions, exploring intercultural and assimilationist contacts in Diaspora. Students critically engage with Jewish sources from various eras and regions.

161. Introduction to Latin American Studies (3)
Prerequisite: Completion or concurrent enrollment in ENGL 100. Interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central America, the Caribbean, and South America. Examines political, economic, social, and cultural conditions for conflict, change, and continuity over last five hundred years.
Letter grade only (A-F). Some course as SOC 161 and LAS 161.
Not open for credit to students with credit in SOC 161 and LAS 161.

172. Early United States History (3)
Prerequisite/Corequisite: Completion of one G.E. Foundation course or ENGL 100 or equivalent.
Survey of political, social, economic, and cultural development of the United States from discovery through reconstruction. Focus on the colonial era, establishment of the new nation, societal problems, national growth, disunion, and reconstruction. Material may be covered chronologically or topically.
Not open for credit to students with credit in HIST 162A.

173. Recent United States History (3)
Prerequisite/Corequisite: Completion of one G.E. Foundation course or ENGL 100 or equivalent.
Survey of political, social, economic, intellectual, and cultural development of United States from Reconstruction to present. Focuses on different social groups, movements of people; labor, women’s and minority issues; politics; protest, and war; society and culture.

211. World History: Origins to 1500 (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of pre-modern World History emphasizes interactions between civilizations. Topics include role of universal religions; political, social, and gender structures; economic and demographic development; diffusion of culture and technology via migration, commerce, and imperial expansion.
Not open for credit to students with credit in HIST 111.

212. World Since 1500 (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of modern World History emphasizing global interactions such as economic globalization; demographic, environmental and gender transitions; intellectual, religious and cultural transformations; imperialism and resistance to empire, birth of nations; and historical origins of contemporary world.
Not open for credit to students with credit in HIST 112.

250. Early World Historical Geography (4)
Prerequisites: Open only to Integrated Teacher Education Program (ITEP) students.
Examines emergence and changing nature of urban life, cultural and technological diffusions, and cross-cultural contact and exchange between cultures and civilizations over time. Same as GEOG 250.

290. Special Topics in History (3)
Prerequisite: Completion of GE Foundation requirements.
Topics of current interest in History. Applicability to major requirements will be specified in description of individual topic. Topics announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).
### GENERAL
- 301. Methodology of History
- 302. Theory and History
- 401. History for Secondary Social Science Teachers
- 409. Special Topics in History
- 494. Practicum in History
- 495. Colloquium
- 498. Directed Studies
- 499H. Honors Research
- 499F. Senior Seminar
- 499H. Honors Thesis

### INTERDISCIPLINARY COURSES
- 303L. Rebels and Renegades
- 308L. Law and Civilization
- 309L. Men and Masculinity
- 310L. The Greek World
- 312L. Roman World
- 346L. The European Cinema of Communism, Fascism, and Resistance
- 409L. History of Western Scientific Thought

450  •  History  •  2009/2010 CSULB Catalog
**WORLD HISTORY**

345. Comparative Genocide
349. The History of Food
366. Contemporary World History
435. History of the Francophone World
440, 540. The Silk Roads
441, 541. Mediterranean World
443, 543. The Early Modern Atlantic World
451. The United States in the World
492, 592. Proseminar in World History

**Courses (HIST)**

- **300. The United States Past and Present (3)**
  - Prerequisite: Completion of GE Foundation requirements.
  - Upper-division survey, may not be taken for credit in the United States field. For upper division transfer students in lieu of HIST 172 and 173.

- **301. Methodology of History (4)**
  - Prerequisite: History majors only.
  - Introduction to historiography and methodological issues, skills and competencies exercises, research methods, research presentations, and peer review. Creation of student portfolio used in remaining upper-division courses in major and assessed in HIST 499.
  - Letter grade only (A-F).

- **302. Theory and History (4)**
  - Prerequisite: HIST 301. Required of all History majors. Must be taken in the semester immediately following successful completion of HIST 301.
  - Introduction to history of historical profession, conceptual categories of historical inquiry, the ways theory shapes historical research and writing. Focuses on case studies, significant historical works, major schools of historical interpretation and recent historiographic trends.
  - Letter grade only (A-F).

- **303. Rebels and Renegades (3)**
  - Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
  - Exploration of music, literature and art used by 20th century social and political activists in an effort to understand the goals, tactics and accomplishments such activists used to make the world more just, inclusive and peaceful.

- **304. The Holocaust (3)**
  - Examines the destruction of European Jews by Nazi Germany during the Second World War. Students will trace the roots of antisemitism in European history, the origins of Hitler’s anti-Jewish assault, and the process from ghettoization to extermination.

2009/2010 CSULB Catalog

- **History**

- **451**
308I. Law and Civilization (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examination of law as an intellectual effort to define, direct, and administer human experience. Examination of theories of knowledge, language, meaning, mental processes, social organization, personal responsibility and freedom underlying legal analysis and decision-making in courts as well as in administrative and bureaucratic settings.

309I. Men and Masculinity (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Exploration of male roles from an interdisciplinary perspective focusing on men as workers, friends, lovers, and fathers. Consideration of the choices available to men under the impact of tradition, feminism, and a changing job market. Gender-oriented social and political movements.
Letter grade only (A–F).

310I. The Greek World (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examines major events and ideas in the society and culture of ancient Greece. Emphasis on literature, the arts, and history. Topics include: ancient civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, and Hellenistic culture.
Same course as CLSC 3111. Not open for credit to students with credit in CLSC 3111.

312I. Roman World (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examines major events and ideas in the society and culture of ancient Rome. Emphasis on literature, the arts, and history. Topics include: the Roman Republic, the Empire, the Roman Empire, and the end of the Roman world. Same course as CLSC 312. Not open for credit to students with credit in CLSC 312.

313I. Ancient Greece (3)
Prerequisite: Completion of GE Foundation requirements.
History of the Greek and the Greek world from the earliest times to the Roman conquest.

314I. Roman History (3)
Prerequisite: Completion of GE Foundation requirements.
History of Rome and the Roman world from the Eighth Century B.C. to the Fifth Century A.D.

316. Early Middle Ages (3)
History of Western Civilization from the fall of the Roman Empire in the West to the Crusades. Germanization of the West, evolution of Christian institutions, Slavic expansion, Byzantine civilization of the Eastern Empire, Islamic civilization, Carolingian age, feudalism, and manorial institutions.

317. High Middle Ages (3)
History of Western Civilization from the Crusades to the end of the Middle Ages. Revival of trade, growth of towns and capitalism, origins of modern political institutions, and medieval learning and art.

318. Byzantine Empire (3)
History of the Byzantine Empire from the 4th century AD to Constantinople's fall in 1453; the cultural heritage of the Roman Empire in the eastern Mediterranean; religious controversies and development of eastern Christianity; relations with Islam and medieval Europe.

319. Women in the Ancient and Medieval West (3)
Prerequisite: ENGL 100.
Examines roles and experiences of women in Western Europe from prehistory to the sixteenth century. Themes may include: construction of gender roles, relation between symbols and reality, intersection of private/public life, access to power/opportunity, the possibility of a "woman's culture.
Same course as WGST 312. Not open for credit to students with credit in WST 312 or WGST 312.

330I. Early Modern Europe (3)
Examines the multiple political and cultural re-inventions of Europe between the Italian Renaissance and the French Revolution. Studies the transformation of Europe as a society based around the Mediterranean and the Atlantic world and overseas empires.

331I. History of Modern Europe, 1789 – Present (3)
Prerequisite: Completion of GE Foundation requirements.
This course introduces the social, political, cultural, and economic changes that have transformed European societies from the French Revolution to the present. Letter grade only (A–F).

332. The Age of the Renaissance (3)
Examines the remarkable transformation of Europe during the Renaissance period (1350-1550), including themes of humanism and artistic and literary developments; humanism and politics; religion in the "Age of Reason." Particular emphasis on relationship between power and culture in Italian civilization.

333. Reformation Europe (3)
Examines the consequences of the Reformation and its impact on European societies throughout the sixteenth and seventeenth centuries. The course focuses on the political, economic, and cultural developments that have transformed Europe from the French Revolution to the present.

335. The Shaping of Modern Europe (3)
European political, social, economic, and intellectual life from the Age of Enlightenment to the present. This course will examine the political, economic, and cultural developments that have transformed Europe from the French Revolution to the present.

336. The French Revolution and Napoleon (3)
End of the Old Regime and the French Revolution. The rise of nationalism and the rise of Napoleon, the rise of liberalism and nationalism, and the rise of romanticism and the rise of modernity.

337. Europe in the Nineteenth Century (3)
Prerequisite: Completion of GE Foundation requirements.
Comprising the Napoleonic era and concluding with the First World War, this course examines the political, economic, and social developments that have transformed Europe from the French Revolution to the present. This course will examine the political, economic, and cultural developments that have transformed Europe from the French Revolution to the present.

338. Modern European Women's History (3)
Investigates how European history has impacted on women, and how women's issues have been shaped by historical events. Issues covered are: industrialization, the family, wars and revolutions, health and sexuality, and the "woman question" in politics, culture, and society.
Not open for credit to students with credit in WST 384 or WGST 384.

452  History  2009/2010 CSULB Catalog
339. Europe, 1890-1945 (3)
Prerequisite: Completion of GE Foundation requirements.
Explores the political, social, economic, international, and cultural crises prior to the First World War, the rise of totalitarianism in the Soviet Union and Nazi Germany, the Spanish Civil War, the Second World War, and the Holocaust.

340. Europe Since 1945 (3)
Examines the political, social, economic, and cultural history of Europe since the end of World War II. Themes include post-war recovery, the Cold War, decolonization, the fall of communism, the transformation of Central Europe, and the European Union.

341A. Foundations of Russia (3)
Prerequisite: Completion of GE Foundation requirements.
Evolution of the state structure, diverse cultural patterns, and social structures associated with ancient Russia; rise of Moscow; origins of autocracy and serfdom; westernization and modernization as problems during the imperial period to 1801. Particular emphasis on social history.

341B. Modern Russia (3)
Prerequisite: Completion of GE Foundation requirements.
Interaction with the West from 1801; era of great reforms and revolutionary movements; downfall of imperial Russia; establishment of the Soviet regime; chief political, social, economic and cultural developments in the Soviet era; role of the Soviet Union in world affairs.

342. Modern Eastern Europe (3)
Prerequisite: GE Foundation or consent of instructor.
Examines modern Eastern Europe from the emergence of nation states, to nationalism, world wars, fascism, Communism, conformity, dissent, and revolution. We will explore the role of Eastern Europe as a place and as an idea in modern Europe.

345. Comparative Genocide (3)
Prerequisite: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Explores the modern phenomenon of mass killings of targeted populations in order to achieve a particular demographic, political, or cultural goal. Examines a series of case studies - including the Armenian Genocide, the Holocaust, Cambodia, and Rwanda - to understand not only how and why genocides occur, but also to look at the possibilities of preventative action.

346L. The European Cinema of Communism, Fascism, and Resistance (3)
Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper-division standing.
Focuses on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in between, and following the two world wars. The driving and ongoing resistance movements will also be examined.
Same course as RGR 346L and FEA 346L. Not open for credit to students with credit in RGR 346L and FEA 346L.

347. Tradition and Crisis: Jews in Eastern Europe (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing.
Explores the history of Eastern European Jewry, from its medieval origins to its destruction in the twentieth century. In particular, the course examines the impact of absolutist rule and the attempts to create new frameworks for Jewish identity.

348. Emancipation and Assimilation: Modern Jewish History of Western Europe (3)
Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper-division standing.
Examines modern Jewish history in Western Europe. Topics include the ideas behind emancipation, the attempts to achieve it, and efforts to reconcile Jewishness with modern citizenship.

349. The History of Food (3)
Prerequisite: HIST 211 or 131 or consent of undergraduate/graduate advisor.
Religious and secular role of food, its connection to issues of identity, and significance of securing reliable sources of sustenance as central to political, economic, and military agendas. All underline the usefulness of studying food and our complicated relationships with it throughout history.
Course fee may be required.

351. Medieval England (3)
Analysis of English political institutions, society, religion and economy in the Anglo-Saxon, Norman, Plantagenet, and late medieval eras.

353. Tudor and Stuart England (3)
Social, cultural, religious, political, and dynastic history of England from 1485 to 1714. Renaissance and Reformation; Crown and Parliament; civil war and revolution; the pre-industrial economy; relations with Scotland, Ireland, Europe, and America.

356. Georgian and Victorian Britain (3)
Social, cultural, religious, political, and constitutional history of Britain from 1714 to 1801. Changes in agriculture, commerce, industry, and population; Parliamentary democracy; Irish problems; relations with America, India, Europe, and the world.

357. Recent Britain (3)
Social, cultural, economic, and political history of 20th century Britain. Governments and people: labor, party politics, and the welfare state; two world wars; problems with Ireland and Empire; the end of Empire; race relations; mass media and popular culture; contemporary developments.

362. Colonial Latin America (3)
Prerequisite: Completion of GE Foundation requirements.
Iborean preparation for overseas expansion, discovery and conquest in America, evolution of colonial institutions, dynamic 18th century developments, wars of independence.

364. Latin American Nations (3)
Prerequisite: Completion of GE Foundation requirements.
Political, economic, social and intellectual evolution of Latin America in the 19th and 20th Centuries.

365. Brazil (3)
The course surveys the history of Brazil from 1500 to the present. It covers the colonial, imperial and republican periods, analyzing the impact of slavery on society, the myth of "racial democracy," and contemporary economic and urbanization patterns. It also studies the 1964-1985 dictatorship and the return to democracy, as well as the challenges of twentieth-first century Brazil.

366. Latin American History and Literature (3)
Latin American history through the novel and film. Will integrate literature and the cinema with traditional historical materials in order to provide the student with a deeper understanding of the development of Hispanic America.

370. Chicano History (3)
Prerequisite: Completion of GE Foundation requirements.
Chicanos in the settlement and development of the Southwest and in contemporary U.S. society. Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza. Lator grade only (A-F). Same course as CHLS 300. Not open for credit to students with credit in CHLS 300.

372. United States: Colonial Period (3)
Discovery and settlement of the new world. European institutions in a new environment; development of colonial government, economy and social institutions; European dynastic rivalry and colonial America.
373. United States: Age of Revolution (3)
Clash between British attempts to control and tax the colonies and colonial resistance for both growth of an independent spirit; the American Revolution; problems of the new nation; the constitution.

375. The United States Emerges as a Nation (3)
An analysis of the political, economic, social, and intellectual forces from the adoption of the Constitution through the 1840s.

376. United States: Civil War and Reconstruction (3)
Secession, civil war, and the reconstruction of the nation.

378. United States History: 1877-1920 (3)
Development of the U.S. as an urban, industrial, multicultural society; progressive reform movements; at the city, state, and national level, rise of U.S. as a world power; WWI.

379. United States: Twenties, Depression, and World War II (3)
The conflict-ridden 1920s, the Depression years, and the beginnings of welfare democracy. The United States in World War II.

380A. The United States in the Liberal Era 1945-1968 (3)
The political, social, cultural, and economic history of the United States between World War II and the late 1960s, an era when American involvement in the Cold War helped both sustain and eventually undermine the liberal anti-communal order. Not open to students with credit in HIST 380.

380B. The United States Since 1968 (3)
Explores the Vietnam War, decolonization, suburbanization, consumerism, conservatism, the "new" Cold War, globalization, and the "war on terror." Uses music, film, fiction, and contemporary historical scholarship to address political, economic, and social issues; examines the connections between politics and culture.

382A. Imperial China (3)
Prerequisites: Completion of GE Foundation requirements; upper-division standing. Introduction to Chinese civilization from prehistoric to modern times stressing foundations of Chinese philosophy and material culture, and the creation of Chinese problems: production, reproduction, and population.

382B. Modern China (3)

383A. Japan to 1850 (3)
Prerequisite: Completion of GE Foundation requirements. Japan from prehistory to the nineteenth century; emphasis on social and cultural developments; the evolution of political institutions, and the development of early modern society.

383B. Modern Japan (3)
Prerequisite: Completion of GE Foundation requirements. Japan from 1650 to 1945; collapse of the Tokugawa bakufu and rise of the Meiji state; industrialization, social change, and protest; "Taisho democracy" and the Pacific War.

384. Contemporary Japan (3)
Japan since 1945: impact of Hiroshima and Nagasaki; American occupation of Japan; Japan's "economic miracle," social change and social criticism in literature and film; Japan's role in the contemporary world; conflict with the U.S.

385. History of India (3)
Survey of the South Asian subcontinent from its historic roots, through the founding/consolidation of the Moghul Empire, to the beginnings of Western imperialism and establishment of the British Raj, ending with nationalism and the events in contemporary South Asia.

386. History of Modern Southeast Asia: Colonial Era to the Vietnam War (3)
Survey of political and cultural history of modern Southeast Asia from 1800: Expansion of European influence, growth of nationalism and process of decolonization, and the post-WWII configuration of the area. Both mainland and insular Southeast Asia will be surveyed.

387. The Vietnam War In U.S. History (3)
Prerequisite: G.E. Foundation. Examines the history of American involvement in Vietnam, the experience of Americans (and to some extent, Vietnamese) who fought the Second Indochina War (1954-1975), and the impact of the war on American society.

388. Contemporary China (3)
China from 1949 to the present. The political, economic, and cultural factors that shaped its continuity and change and the impact of its transformation on Greater China, including Hong Kong and Taiwan.

391. The Making of Modern Africa, 1800-1939 (3)
Survey of sub-Saharan Africa from the early 19th through the mid-20th centuries. Examines the European conquest and the entrenchment of colonialism. Emphasizes the relationship between colonial systems and the continuing relevance of these experiences today.

392. Contemporary Africa, 1940-Present (3)
Surveys history of African continent during transition from colonialism to national independence and post-colonialism. The current political, economic, social, and intellectual trends of Africa will be considered in historical context. African art, politics, and perspectives will be explored.

393. Jews of the Modern Middle East (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Explores history, culture, and transformations of important Jewish communities in Middle East. Examines effects of modernization and colonialism on these disparate communities, including phenomena of Jewish colonization of other Jews and impact of exclusivist nationalisms on Jewish identities.

394. Middle Eastern Women (3)
Prerequisites: Upper division status. Explores a wide range of roles played by Middle Eastern women throughout history, seeking to understand their multi-layered thoughts and activities, and discuss the most important issues related to women and gender in Middle Eastern history.

396. Contemporary World History (3)
Prerequisite: HIST 211 or consent of undergraduate graduate advisor. World historical approach to the study of the twentieth century. Themes include: the changing global economy and environment; the advance and retreat of empire; colonialism and post-colonialism; contending ideologies; the intensification of globalization at the end of the century.

4001. History of Western Scientific Thought (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Introduction to history of science for scientists and non-scientists. Evolution of scientists' views of nature and ends of their activities; ways science is affected by and affects contemporary cultures.
401. History for Secondary Social Science Teachers (3)
Prerequisites: completed a majority of all coursework in the Social Science Subject Matter Program.
Capstone course for students in Social Science Subject Matter Program.
Examination of World and American history to promote global perspective and deeper knowledge of historical context within California History-Social Science Framework and Standards, historiography and historical thinking, methodology related to teaching and learning history. Emphasis on embedding interdisciplinary approaches from social sciences in teaching and learning of history.
A grade of "B" or better is required for advancement to student teaching. Letter grade only (A-F).

402. Oral History Methods (1-3)
Through a series of workshops and through field experiences, skills in oral history will be developed which will enable students to use oral history either for their own personal use in family history or for class projects.
Credit/No Credit grading only. Not open for credit to students with credit in CAS 365.

405/505. Classical Japan (3)
Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese aesthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

406A. Asian Women: East and Northeast Asia (3)
Prerequisite: Upper division status.
Exploration of the histories of women in China, Japan and Korea from prehistory to the present. Major themes include women's contributions to society, cultural and political change, and the complex relationship between feminism and nationalism in the modern period.
Same course as ASST 406A and WGES 406A. Not open for credit to students with credit in ASST 406A, WST 406A or WGES 406A.

406B. Asian Women: South and Southeast Asia (3)
Emphasis on modern period; exploration of complexities of women's roles in multicultural, multilingual societies in South and Southeast Asia, including gender as a continuing site of contention in nationalist discourse.
Same course as ASST 406B and WGES 406B. Not open for credit to students with credit in ASST 406B, WST 406B or WGES 406B. Letter grade only (A-F).

407. Japan and the United States in the 20th Century (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examination of relationships between Japan and the United States, emphasizing cultural, economic, and political conflict and cooperation.

409. Early Modern Japan (3)
Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

410. Chinese Emigration/Migration in Modern Period (3)
Emphasis on Chinese in SE Asia, the Americas, and Western Europe; exploration of the implications of human migration for the developing world, and the fluidity and contested nature of "nation states."

416. Central Asia and Afghanistan from the Mongol Era to WWII (3)
Prerequisite: Upper-Division status.
An introductory survey of the history of change and continuity in Afghanistan and Turkistan (currently Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan) during the Mongol Era of the Thirteenth Century and the World War I.

418. Central Asia and Afghanistan, Twentieth Century (3)
Prerequisite: Upper-Division status.
An introductory survey of the history of change and continuity in Afghanistan and Turkistan (currently Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan) during the Twentieth Century.

420. History of the Palestinian-Israeli Conflict (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examination of evolution of Palestinian-Israeli conflict from late nineteenth century to present. Explores how social, economic, and political realities gave birth to competing Zionist and Palestinian national identities evolved over time, highlighting diverse perspectives within each national community, including those informed by gender and class.

431/531. The Middle East (Southwest Asia), 600-1700 (3)
Explores political, cultural, social, and economic developments in the region: emergence of Islam; creation and development of Islamic Empire; rise of dynastic successor states and "gunpowder" empires; European encroachment; and, integration into the emerging world system.

432/532. The Middle East (Southwest Asia), 1700-Present (3)
Explores political, cultural, social, and economic developments in the region: Modernization and reform; problems and impact of modernity and imperialism; state building; nationalism; and, Islamic revivalism.

435. History of the Francophone World (3)
Prerequisites: HIST 132, 212, or approval of advisor.
Commencing with a study of the history of French language, explores methods by which France expanded its global presence. Themes to be covered include French colonialism, resistance to French overseas expansion and issues relative to race and identity.

437. History of Germany 1871 to Present (3)
History of Germany from unification: the First World War, the Weimar Republic, the National Socialist Reich, and the post-war recovery.

440/540. The Silk Roads (3)
Prerequisite: HIST 211 or 131 or consent of undergraduate/graduate advisor.
Examines the Silk Roads from the first century BCE to the end of the fifteenth century CE from a world historical perspective. Emphasis is on economic integration, cultural diffusion, exchange and syncretism, and comparative demographic and political development.

441/541. Mediterranean World (3)
Prerequisite: HIST 211 or 131 or consent of undergraduate/graduate advisor.
Focuses on pre-modern Mediterranean world up to geographical shift of political power and wealth to the Atlantic world with an emphasis on the exchange and interaction of peoples and ideas.
Letter grade only (A-F).

443/543. The Early Modern Atlantic World (3)
Prerequisite: HIST 211 or 132 or consent of undergraduate/graduate advisor.
Examines early modern Atlantic from a world historical perspective with an emphasis on cultural encounter and exchange, environmental interaction, and comparative colonial development from early Iberian maritime expansion through the Atlantic revolutions and wars of independence.
Letter grade only (A-F).
450. Foucault and His Critics: Making A Social Body (3)
Examines Foucaultian texts and works of other theorists in historical context. Also explores the ways in which historians apply Foucault’s theories to investigations of social and political reforms of modern Europe, specifically the history of mass culture and citizenship.

451. The United States in the World (3)
Prerequisites: Upper-Division status.
A survey of American history from the colonial period to the present era framed within a world history context, focusing on comparisons and connections between national and international developments.

452. United States at War (3)
Prerequisites: Completion of GE foundation requirements. This course explores the United States experience of modern warfare. Emphasis is given to the study of the military, the impact of war on society, the role of the United States in global conflicts, and its role in world affairs.

453. American Jewish History (3)
Chronological and thematic approach to American Jewish history. Covers Sephardic, Ashkenazi, European, and American Jewish communities. Examines the impact of immigration, discrimination, and assimilation on Jewish life.

454. History of Pre-Colombian Mexico (3)
History of Mesoamerica from prehistoric times to the Spanish conquest, emphasizing the study of the society and the religious and intellectual life of people of pre-Columbian America.

455. Mexico (3)
Spanish conquest of America; settlement and exploration; colonial life and institutions; the achievement of independence from Spain; revolution, foreign intervention, dictatorship in the 19th century; the Revolution of 1910 and after; contemporary Mexico.

456. The Caribbean and Latin America (3)
History of the Caribbean Islands and Central America from Spanish colonization to the present, with emphasis on Cuba and Central America. Economic, political and cultural development and relations with the United States.

457. Latin American Environmental History (3)
Prerequisite: Upper-Division standing. Completion of the GE Foundation, 3 units Latin American survey (HIST 161 or 364 or equivalent) or consent of instructor.
Explores the environmental history of Latin America from an interdisciplinary perspective, with a focus on the production of nature and society and the transformation of the relationship between human societies and the natural world from pre-European contact to the 21st century.

Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper division standing.
Explores the history of the Spanish Empire (Spain and Spanish America) ca. 1500-1800 through the politics of visual culture (paintings, maps, clothing, festivals, architecture). Historical focus on the social, cultural, and political implications of visual culture. Emphasis on the connections between metropolitan and colonial culture and politics and reading visual culture as historical documentation.
Letter grade only (A-F).

459. Topics in Latin American History (3)
Selected topics in Latin American history. The topic will vary from one semester to the next. May be repeated to a maximum of 9 units with different topics.

460. Long Beach History (3)
Survey of the history of Long Beach, California, 1890 to the present. Emphasis on local and regional politics, economic development, international trade, and the complicated roles of ethnic and racial diversity in a city with both an urban, and suburban, history.

461. Ethnic Groups in Urban America: An Historical Examination (3)
Examination of the origin, migration, settlement and the assimilation of various ethnic groups in American cities since the late 19th century. Emphasis will be on the economic, social, and political struggles encountered by different groups adjusting to urban life.

462. History of the Westward Movement (3)
Examination of the impact of American expansion on the West. Euro-American exploration and migration, ethnic conflict and conquest, gender and family roles on the frontier, environmental changes in the West, development of economic institutions, and urbanization of the region.

463. History of the South (3)
Explores development of the South, including examination of regional culture, traditions, and social crisis in the Antebellum period; conflict and social change; economic transformations: role of women in the region; and the interaction of social groups in the Modern South.

464. California History (3)
Survey of California from the 1950s to the present. Emphasis on migration, cultural diversity, and significant social, political, and economic developments.

465. The History and Culture of American Cities (3)
Prerequisites: Completion of GE foundation requirements, one or more Exploration courses, and upper division standing.
Interdisciplinary exploration of the history and cultural life of American cities from the nineteenth century to the present.

466. American Immigration and Ethnicity (3)
Explores the history of immigration to the United States and the experiences of immigrants in American society. Major themes include political, social, and economic implications of immigration; push and pull factors; nativism; assimilation; and social constructions of ethnicity.

467. The History of Social Activism (3)
Prerequisites: General Education Category A must be completed prior to taking any upper division course.
Social movements are collective efforts to change society. At many times in history they have had dramatic consequences and they continue to be a focus of controversy, conflict, and change today.

470A. American Cultural History (3)
Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.

470B. American Cultural History (3)
Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.
478. Foreign Relations of the U.S. (3)
Incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economic patterns, ideology, and the role of special interest groups in the making of foreign policy.
Same course as JST 478. Not open to credit to students with credit in JST 478.

479. U.S. Constitution: Origins and Early Development (3)
European sources of constitutional thought, colonial background, impact of the American Revolution, the framing period and the rise of a national approach to the study of constitutional law; a comprehensive overview of the evolution of constitutionalism as a basic principle in American thought and institutions.

480. Law and Fundamental Rights in American History (3)
Selected variable topics on civil liberties issues addressing the historical development of constitutional guarantees in the areas of freedom of expression, privacy, church and state, due process, and equal protection.

481. The Environmental History of Early America: 1500-1860 (3)
Prerequisites: ENGL 100 and upper division status.
Explores environmental history, with a focus on how Native Americans, Europeans, Africans (and their descendants) defined relationships with the natural world and manipulated it according to economic needs and cultural values.

482. Recent American Environmental History (3)
An examination of the impact of industrialization and urban growth on the American environment, the emergence of ecological consciousness and green politics, and the creation of the idea of Nature in American culture in the U.S. since the 1800s.

483. Women in Eighteenth-Century England and America (3)
Prerequisites: ENGL 100 and upper division status.
Representations and realities of women’s lives, 1660-1800, using critical methodologies of history and literature; analysis of literary and historical texts to explore law and economics, religion, education and culture, marriage, sex, and health; politics and revolution.

484. Religion in American History (3)
Prerequisite: Completion of GE Foundation requirements.
Explores American religion from European settlement to present. Focuses on interconnections between American religion, politics, and culture—looking at literature, film, music, moral crusades, and built environment. Examines how beliefs structured interactions between social groups.
Not open to students with credit in HIST 371.

485A. History of Women in the U.S. Early Period (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of roles and activities of American women from colonial period to 1850, with focus on slavery, immigration, family, economy, law, and politics.
Only 3 units of 485A-B may be applied to a field of concentration in U.S. History for the major. Same course as WGS 485A. Not open to credit to students with credit in WIST 485A or WGS 485A.

485B. History of Women in the U.S. Since 1850 (3)
Prerequisite: Completion of GE Foundation requirements.
Examines the changing roles and status of women’s economic, political, and social roles. It also explores the suffrage movement, the role played by women in WWII and the changes brought forth during the “second wave” of feminism.
Only 3 units of 485A-B may be applied to a field of concentration in U.S. History for the major. Same course as WGS 485B. Not open for credit to students with credit in WIST 485B or WGS 485B.

486. History of Afro-Americans in the United States (3)
Examines the roots and culture of Afro-Americans from African origins to the present. We will explore the transformation from slavery to freedom, segregation and racial conflict, immigration patterns, societal interactions, and the experiences of women.

487. Film and Chinese History (3)
Exploration of the complex relationship between history and film in modern Chinese history.

488. The Chinese Revolution (3)
Prerequisite: HIST 362B or consent of instructor.
Theory and practice of revolutionary socialism in the People’s Republic of China; historical and ideological background of the Chinese revolution, Mao and the Cultural Revolution, politics, culture and society in China.

489. Topics in Legal History of the United States (3)
Case studies in American law from colonial times to the present: English common law heritage, puritan and frontier influence, the legal profession, judicial traditions, formative stages in criminal law, torts and contracts, and modern trends in legal thought.
May be repeated to a maximum of 6 units with different topics.

490. Special Topics in History (1-3)
Topics of current interest in history selected for intensive development.
May be repeated to a maximum of 6 units with different topics in different semesters, but no more than 3 units may be used to satisfy the requirements for the major. Topics will be announced in the Schedule of Classes.

491. Modern and Contemporary Africa (3)
Conquest of Africa by European states, contrasting colonial systems as they evolved, anti-colonial movements and progress towards self-government or independence, problems of economic and political development, and race tensions in areas of white settlement.

492/592. Proseminar in World History (3)
Prerequisite: Consent of the instructor.
Discussion and analysis of recently published historical works and materials from a world history perspective.
May be repeated to a maximum of 6 units.

494. Practicum in History (1-3)
Prerequisites: Consent of instructor and department chair.
Field work in History, supplemented by reading and tutorials under direction of a faculty member. Internship, small group discussion, teaching, and other assignments directed by supervising faculty member.
May be repeated to a maximum of 6 units, but no more than 3 units may be applied to the major in History.

495. Colloquium (3)
Prerequisites: HIST 301 and nine additional units of upper division History.
Seminar level course exploring a specific historical field or issue chosen by instructor; students expected to analyze and interpret primary and secondary sources in a paper presented to the class.
Part of core requirements for students declaring a major before summer 2001; students declaring a major after spring 2001 will be required to take HIST 495 as a core requirement, not 496.

496. Variable Topics in U.S. History (3)
Variable topics in U.S. history from the 17th century to the present.
This course fits within the 400-level thematic courses of the U.S. field. Some background in U.S. history is strongly encouraged.
May be repeated to a maximum of 6 units, with different topics in different semesters.
498. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study under the supervision of a faculty member.
May be repeated to a maximum of 6 units.

498H. Honors Research (3)
Research for and writing of a senior thesis under the direction of a
departmental advisor.

499. Directed Studies in Oral History (1-6)
Prerequisite: Consent of instructor.
Directed study on a research topic using the methodology of oral
history.
May be repeated to a maximum of 6 units. Same course as CILA 498.
Not open for credit to students with credit in CILA 498.

499. Senior Seminar (4)
Prerequisites: Completion of HIST 301, 302, and 18 units of upper-
division course work in History; at least two courses (6 units) of
which must be in the 499 seminar’s area of concentration.
Students must demonstrate mastery of historical processes and
literature through: 1) portfolio submission; 2) research paper, and
3) oral presentations.
Not open for credit to students who have not met the prerequisites
listed above. Letter grade only (A-F).

GRADUATE LEVEL

501. Theories and Methodologies of History (3)
Prerequisite: Graduate standing in History.
Development of history as a discipline, major schools of historical
interpretation, and recent developments in analysis and theory.
Emphasis will be placed on the interrelationships of history with
other disciplines in the social sciences and humanities.
Letter grade only (A-F).

505/405. Classical Japan (3)
Japan from prehistory to the fifteenth century. Connections to other
Asian cultures, the influence of Buddhism, and development of
Japanese aesthetics exemplified in literature and art; dynamics of
centralized vs. regional power; civil vs. military authority.

510. The Literature of History (3)
Reading and discussion of major works and intensive study of
bibliography and bibliographical aids. Includes a comparative
history component.
Letter grade only (A-F). May be repeated to a maximum of 6 units
in the same semester.

510E. The Literature of History (World) (3)
The literature of World History. Reading and discussion of major
works and intensive study of bibliography and bibliographical aids.
Includes a comparative history component.
Letter grade only (A-F). May be repeated to a maximum of 8 units
in different semesters.

516. Central Asia and Afghanistan from the Mongol Era
to WWI (3)
Prerequisite: Upper Division Status.
An introductory survey of the history of change and continuity in
Afghanistan and Turkistan (currently Kazakhstan, Kyrgyzstan,
Tajikistan, Turkmenistan, and Uzbakistan) during the Mongol Era of
the Thirteenth Century and the World War I.
Letter grade only (A-F).

518. Central Asia and Afghanistan, Twentieth Century (3)
Prerequisite: Upper Division Status. An introductory survey of
the history of change and continuity in Afghanistan and Turkistan
(currently Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and
Uzbekistan) during the Twentieth Century.
Letter grade only (A-F).

531/431. The Middle East (Southwest Asia), 600-1700 (3)
Explores political, cultural, social, and economic developments
in the region: emergence of Islam; creation and development of
Islamic Empire; rise of dynastic successor states and “gunpowder”
empires; European encroachment; and, integration into the
emerging world system.

532/432. The Middle East (Southwest Asia),
1700-Present (3)
Explores political, cultural, social, and economic developments
in the region: Modernization and reform; problems and impact of
modernity and imperialism; state building; nationalism; and, Islamic
revivalism.

540/440. The Silk Roads (3)
Prerequisite: HIST 211 or 121 or consent of undergraduate/graduate advisor.
Examines the Silk Roads from the first century BCE to the end
of the fifteenth century CE from a world historical perspective.
Emphasis is on economic integration, cultural diffusion, exchange
and syncretism, and comparative demographic and political
development.

541. Mediterranean World (3)
Prerequisite: Graduate standing in History.
Focus on pre-modern Mediterranean world up to geographical shift
of political power and wealth to the Atlantic world with an emphasis
on the exchange and interaction of peoples and ideas.
Letter grade only (A-F).

543. The Early Modern Atlantic World (3)
Prerequisite: Graduate standing in History.
Examines early modern Atlantic from a world historical perspective
with an emphasis on cultural encounter and exchange,
environmental interaction, and comparative colonial development
from early modern maritime expansion through the Atlantic
revolutions and wars of independence.
Letter grade only (A-F).

550. Foucault and His Critics: Making A Social Body (3)
Examines Foucauldian texts and works of other theorists in
historical context. Also explores the ways in which historians apply
Foucault’s theories to investigations of social and political reforms of
modern Europe, specifically the history of mass culture and
citizenship.
Letter grade only (A-F).

560/460. Slavery in Latin America (3)
Completion of the GE Foundation, one or more Exploration
courses and upper division standing:
Systems of forced labor in Latin America since European
arrival; the slave trade; slavery in economic context; resistance
and negotiation; plantations and urban slavery; slaves in the
independence wars; manumission and slavery abolition; Afro-latino
Americans post slavery.

Culture in the Early Modern Spanish Empire (3)
Prerequisites: Completion of the GE Foundation, one or more
Exploration courses, and upper division standing.
Explores the history of the Spanish Empire (Spain and Spanish
America) ca. 1500-1800 through the politics of visual culture
(paintings, maps, clothing, festivals, architecture.) Historical
focus on the social, cultural, and political implications of visual
culture. Emphasis on the connections between metropolitan
and colonial culture and politics and reading visual culture as historical
documentation.
Letter grade only (A-F).
577A/477A. American Cultural History (3)
Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.
Letter grade only (A-F).

577B/477B. American Cultural History (3)
Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform.
Letter grade only (A-F).

590. Topics in Comparative History (3)
Prerequisite: Graduate standing in History.
Selected topics in history involving cross-cultural and comparative approaches.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

592/492. Proseminar in World History (3)
Prerequisite: Graduate standing in History.
Discussion and analysis of recently published historical works and materials from a world history perspective.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

595. Special Preparation (3)
Prerequisite: Graduate standing; consent of Graduate Advisor.
Special preparation for the M.A. examinations under faculty direction.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

611. Seminars in Ancient and Medieval History (3)
Prerequisite: Graduate standing in History.
Selected topics in ancient or medieval history.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

631. Seminars in European History (Including Britain and Russia) (3)
Prerequisite: Graduate standing in History.
Directed reading and research in the political, economic, social and cultural history of Europe.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

663. Seminar in Latin American History (3)
Directed reading and research in history, focusing on selected topics in Latin American history.
May be repeated for a maximum of six units in different semesters.
Letter grade only (A-F).

673. Seminars in United States History (3)
Prerequisite: Graduate standing in History.
Selected topics in domestic or international affairs from colonial times to the present.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

682. Seminars in Asian History (3)
Prerequisites: Six units of upper division Asian history or consent of instructor.
Selected topics in Asian history.
May be repeated to a maximum of 6 units in different semesters.
Letter grade only (A-F).

695. Directed Readings (1-3)
Prerequisites: Consent of Instructor.
Readings on an individual basis.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Consent of Instructor.
Research on an individual basis.
Letter grade only (A-F).

698. Thesis (1-4)
Planning, preparation and completion of non-curricular work in history for the master's degree.
HOSPITALITY FOODSERVICE AND HOTEL MANAGEMENT

Career Possibilities
Restaurant Manager • Hotel Manager • Catering Director • Foodservice Manager in College, University or Corporate Setting • Manager in a Bed and Breakfast Facility • Healthcare Hospitality Director • School Foodservice Director • Club Manager • Manager in Senior Nutrition Programs, Stadiums or Amusement Parks • Food Purchaser or Broker (For more information, see www.careers.csulb.edu)

Undergraduate Programs

Bachelor of Science in Hospitality Foodservice and Hotel Management (code FCS_BS05) (120 units)

The Bachelor of Science in Hospitality Foodservice and Hotel Management furnishes students with the necessary background and expertise to excel as managers and leaders in the restaurant, foodservice, hotel, and lodging industries. The program provides a broad-based foundation in both academic and professional courses and includes hands-on practical experience. The program prepares students for entry into a dynamic multi-ethnic and multi-cultural domestic and international job market. Career options include: restaurant manager, hotel manager, catering director, foodservice manager in a college, university, healthcare, or corporate setting, manager in a motel or bed and breakfast facility, school foodservice director, manager in senior dining programs, club stadiums or amusement parks, or as a food purchaser or broker.

In addition to general education requirements (48 units), students must complete a minimum of 40 units from the major department, 24 of which must be upper division.

Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this university and it is accepted by this university.

Requirements:
ACCT 201; CAFF 321; COMM 110; ECON 300 or 101 and 101; FSCE 299 and 495; HFHM 173, 270, 274, 275, 372, 373, 376, 378, 379 (3 units), 474, 476, 492; One class chosen from HRM 360 or 361 or PSY 381; one class chosen from MATH 108, EDP 419, IS 310, HSC 403 or SOC 250; MKTG 300; NUTR 132; PHL 160; One class chosen from PSY 100 or SOC 100; one class chosen from REC 141 or 225 or 340; plus 9 units in one of the following concentrations: a) Hotel and Lodging: HFHM 374, 471, and 472; b) Restaurant and Foodservice: HFHM 375, 473, and 477; c) Hotel, Food and Beverage: HFHM 375 or 472, 473, and 477. Additionally, a minimum of 8 units of pre-approved coursework taken to develop specific interests are selected in consultation with a faculty advisor from the following: Any HFHM major course not selected, CAFF 429; COMM 337; FSCE 496, 497; GEDG 352; GERN 400; additional units of HFHM 379, 492; IS 301; NUTR 336, 439; REC 325, 462, 468; or others as approved by advisor. Each course on the student's program planner must be completed with a grade of "C" or better. Furthermore, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than "C" may proceed with other courses with the approval of the student's faculty advisor.

HFHM 492J requires 800 hours of approved work experience as a prerequisite for this degree. Field study hours in HFHM 379 can be used toward meeting the 800 hours.

Minor in Hospitality Foodservice and Hotel Management (code FCS_UMO5)

Twenty-two units including HFHM 173, 270, three units of 379 or 492J, 15 additional units selected from HFHM 235, 274, 275 or 276, 372, 375, 376, 378, 473, 474, and 477 as approved by a Hospitality Foodservice and Hotel Management faculty advisor.

The Minor in Hospitality Foodservice and Hotel Management is available to any non-Hospitality Foodservice and Hotel Management major.

Foodservice Systems Administration Certificate (code FCS_CT02)
The Certificate program in Foodservice Systems Administration is designed to provide those students pursuing the bachelor's degree in Dietetics and Food
Administration, Business Administration, and other related fields with additional background in foodservice management, increasing their expertise at the management entry level. The program is appropriate for a variety of applications, including foodservice in restaurants, catering, hospitals, public schools, industrial foodservice, hotels and motels, airlines, and in governmental regulatory agencies.

The Certificate may be earned in conjunction with the bachelor’s degree or awarded subsequent to obtaining the degree at CSULB. Courses taken to meet the requirements of the Certificate may be the same ones used to satisfy major, minor or General Education requirements, or the degree requirements of the participating departments.

Requirements
1. A bachelor’s degree in dietetics/food administration, business administration, or other related fields;
2. Satisfactory completion of the following courses:
   A. Nutrition: NUTR 132;
   B. Food Preparation and Service: HFMH 235, 275;
   C. Foodservice Management: HFMH 375, 477, 492;
   D. Business Administration: ACCT 201, HRM 361, 362, 440, MGMT 300, MKTG 300;
   E. Related Fields: CHEM 302, ECON 300.
3. Maintain a GPA of 2.5 in the courses of the program and overall;
4. Consultation with and certification of successful completion by the Director of the Program in the Department of Family and Consumer Sciences.

Courses taken under the Credit/No Credit grading option may not be applied to this Certificate program.

Hospitality Foodservice and Hotel Management Courses (HFMH)

LOWER DIVISION

173. Applied Foodservice Sanitation (1)
Principles of sanitation and safety; the causes and controls of food borne illnesses, sanitary practices with purchasing, receiving, storing and preparing food, principles HACCP, sanitary maintenance of kitchen, dining room and equipment, personal hygiene, and safety of the food handler. Letter grade only (A-F). (Lecture-discussion 1 hour)

235. Principles of Food Preparation (3)
Application of scientific principles in the preparation of selected food products emphasizing physical and chemical properties of food; methods and techniques of food preparation; factors that contribute to quality of prepared foods. Letter grade only (A-F). (Lecture-discussion 2 hours, Laboratory 3 hours) Course fee may be required.

270. Introduction to Hospitality Foodservice and Hotel Management (3)
Introduction to hospitality foodservice and hotel industry and historical overview of field. Careers in hospitality foodservice and hotel management discussed. Overview of organization and current forces shaping foodservice and hotel operations. (Lecture-discussion 3 hours)

274. Global Issues in Hotel and Restaurant Management (3)
Prerequisites: ENGL 100.
International hospitality foodservice and hotel management. Issues and problems in the hotel and restaurant industry from a global perspective. Dynamics of human interaction in a multi-ethnic and multi-cultural global job market. (Discussion 3 hours)

275. Food Production Systems I (3)
Prerequisites: NUTR 132 and HFMH 235.
Factors which influence individual, family and quantity foodservice. Menu planning and food selection, preparation and service in relation to management of time, energy and money. Foodservice practices for regular meals and special occasions. Course fee may be required. (Lecture-discussion 2 hours, laboratory 3 hours)

276. Food Production and Service in Hospitality Foodservice and Hotel Management (3)
Prerequisites: HFMH 235. (Recommended)
Covers fundamentals of planning, organizing, preparing, and serving of meals as applicable to hospitality foodservice and hotel industry. Operations relative to provision of quality food and beverage services included. Letter grade only (A-F). Course fee may be required. (Lecture-discussion 2 hours, laboratory 3 hours)

UPPER DIVISION

301. College Dining Services and Bookstore Administration (3)
Prerequisite: Consent of Instructor.
Academic and experiential learning in the management of college dining services and bookstore. Internship for student employees of Forty Niners Shops, Inc.; 150 hours of work experience, 16 hours of classroom instruction.

372. Hotel and Lodging Management (3)
Prerequisite: HFMH 270.
Organization and management of hotel and lodging facilities. Covers functions of various operational departments and how they interrelate. Importance of assuring quality guest service emphasized. Fieldtrips may be required. (Lecture-discussion 3 hours)

373. Hotel and Restaurant Information Technology (3)
Prerequisites: HFMH 270 or consent of instructor.
Management of information systems as found in the hotel and restaurant industry. The course includes applications of technology and computer systems to facilitate front office, sales and marketing management, restaurant management, customer service, and communications in hotel and restaurant operations. Letter grade only (A-F). (Lecture activity 3 hours)

374. Meeting Planning in Hotels and Restaurants (3)
Prerequisites: HFMH 270.
Planning, organizing, and implementing meetings in the hotel and restaurant industry. Factors necessary to provide food, lodging, and facility services for meetings and special functions are included. Letter grade only (A-F). (Lecture/Discussion 3 hours)

375. Food Production Systems II (3)
Prerequisites: HFMH 175 and 275 or 276.
Quantity food operations are utilized to provide production and operational experiences – menu planning, costing, standardizing recipes, serving, merchandising, sanitation and safety. Commercial and non-commercial settings are used, such as, hospitals, restaurants, hotels, school districts, universities, plus others. Letter grade only (A-F). (Lecture - discussion 2 hours, Laboratory 3 hours)
376. Customer Service Management in the Hospitality Foodservice and Hotel Industry (3)
Prerequisites: HFHM 270.
Components of customer service management and guest relations in the foodservice and lodging industries are examined. Importance of quality customer service and its relationship to the success of operations in the industry will be covered.
Letter grade only (A-F). Fieldtrips and off-campus activities required. (Lecture-activity 3 hours)

378. Legal Issues in Hospitality Foodservice and Hotel Management (3)
Prerequisite: Upper division standing or consent of instructor.
The laws of foodservice and lodging are examined as they have evolved historically and as they exist today. Legal components of foodservice and lodging management will be covered. (Lecture-discussion 3 hours)

379. Field Studies in Hospitality Foodservice and Hotel Management (1-3)
Prerequisite: Upper division standing or consent of instructor.
A structured experiential learning course designed to expand professional experiences and to enhance the development of competencies required for successful performance in hospitality foodservice and hotel management. May be repeated to a maximum of 6 units. (Seminar 1-3 hours)

471. Hotel and Lodging Property Management (3)
Prerequisites: HFHM 372 or consent of instructor.
Management principles and practices applied to the management of hotel and lodging facilities. Strategies for maintaining hotels to ensure customer safety and satisfaction are included. Field trips required. Letter grade only (A-F). (Lecture-activity 3 hour)

472. Advanced Hotel Administration (3)
Prerequisites: HFHM 372.
Principles of organization, administration, and leadership in hotel and lodging operations are explored. Topics include organizational management, human resource management, productivity, marketing, financial management, and quality service management as they are applied to the hotel and lodging industry. Field trips are required. Letter grade only (A-F). (Lecture-activity 3 hour)

473. Beverage Management (3)
Prerequisites: HFHM 275 or 276 or consent of instructor, senior standing.
Overview of the beverage industry, identification, use, and service of wines and other alcoholic and non-alcoholic beverages, with an in-depth analysis of the various elements of beverage operations including purchasing, control, merchandising, and bar management. Field trips required. (Discussion 3 hours)

474. Cost Control in Hospitality Foodservice and Hotel Management (3)
Prerequisites: HFHM 275 or 276 or consent of instructor.
Financial management of food, labor, supplies, and other operational costs; procedures for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; inventory and security management; computer applications; and analysis of financial reports in hospitality foodservice and hotel industry. (Lecture-discussion 3 hours)

476. Hotel and Restaurant Financial Management (3)
Prerequisites: ACCT 201 and HFHM 270.
Managerial and financial analysis of numerical data and reports used for planning, controlling, and decision making in the hotel and restaurant industry. Topics include ratio analysis, internal control, sales, revenue and cost management, cash control, budgeting, and feasibility studies as applied to the hotel and restaurant operations. Letter grade only (A-F). (Lecture-Activity 3 hours)

477. Foodservice Administration (3)
Prerequisites: HFHM 276 or 375 or consent of instructor.
Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as applied to the foodservice industry. Fieldtrips required. (Discussion 3 hours)

492J. Internship in Hospitality Foodservice and Hotel Management (3)
Prerequisites: Student must be a major or minor in Hospitality Foodservice and Hotel Management; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Hospitality Foodservice and Hotel Management; and HFHM 275 or 276 or 372, and 800 hours of approved work experience. Each prerequisite course must be completed with a grade of "C" or better.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation. May be repeated for 6 units maximum. (Seminar 3 hours)
HUMAN DEVELOPMENT
College of Liberal Arts

Chair: Shelley J. Eriksen
Department Office: Psychology (PSY) 205
Telephone: (657) 951-4344
FAX: (657) 951-4237

Faculty: Jeffrey L. Davis, Shelley J. Eriksen, Beth Marke, Pamela Roberts, Heather Raw-Espinosa, Lauren Rauscher, Judith Stevenson, Katherine Van Giffin
Administrative Support Coordinator: Wendy Lopez
Undergraduate Advisor: Lauren Rauscher

Career Possibilities
Elementary or Secondary School Teacher • Occupational Therapist • Physical Therapist • Parent Educator • Health Educator • Student Services • School Administration • Social Work • Program Coordinator • Human Resources • Consumer Research • Health Administrator • Educational Counseling • Admissions or Academic Advising • Youth Program Specialist • Recreation Specialist • Community Organization Worker • Child Life Specialist • Training and Development Specialist • Senior Citizen Center Director • Gerontologist • Victim Witness Case Worker • Peace Corps Worker • Personnel Specialist • Teacher • Adoption Counselor • Marriage and Family Counselor • School Psychologist (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The field of Human Development studies lifespan development within societal and cultural contexts. Accordingly, Human Development is interdisciplinary, examining development primarily from the perspectives of its component disciplines: Anthropology, Biology, Psychology and Sociology.

The Human Development Department offers a B.A. in Human Development and supervises the Human/Child Development concentrations in the Liberal Studies Program. The B.A. program is structured to provide students with:
- a broad knowledge of lifespan human development,
- specific expertise in processes and contexts that affect development,
- methods to evaluate research and theory within human development, and
- practice in the real-world application of knowledge gained in the program.

Within these guidelines, the B.A. is flexible — students can choose courses that best fit their needs and goals.

Students choose from a wide variety of courses for their Foundation Area requirements. Foundation Area courses cover the components of Human Development — the biological, the psychological, and the social and cultural. Students interested in gerontology, for example, may choose to take courses like the Biology of Aging, Introduction to Gerontology and Culture and Aging as their Foundation Area courses, while students interested in child development generally choose different courses for those requirements. Careful selection of Foundation courses can allow students to complete a minor or certificate program (for example, the Gerontology Certificate or Child Development Minor), while completing their major.

In addition to their academic training, Human Development students are taught to apply their knowledge through a semester Practicum. For the Practicum, students typically volunteer in settings pertaining to their career goals. Because the career goals of our students vary, individual students usually are in different practicum sites, including elementary schools, human resource management offices, senior centers, physical therapy units and various social service agencies.

The faculty of Human Development are active researchers, who regularly include interested students in their research programs. Students who are considering graduate school have the opportunity to work as research assistants on a variety of projects and can help present the findings of these projects at professional conferences. Research experience of this type enhances the likelihood that students will be accepted into the graduate program of their choice.

Human Development graduates pursue a variety of careers. At the B.A. level, many take positions in the social services and business. A substantial number of students enroll in Teaching Credential Programs, while others have gone on to graduate school in: Applied Anthropology, Counseling, Criminal Justice, Developmental Psychology, Gerontology, Occupational Therapy, Physical Therapy, School Psychology, Social Work and other fields.

Human Development has an active student club, the Human Development Student Association (HDSA). The HDSA is open to all students enrolled in Human Development courses and has regularly scheduled meetings. Activities sponsored by this HDSA are diverse and include community service projects, sponsoring speakers and films, hosting student-faculty parties, and alumni events. HDSA activities are posted outside the Department Office.

More information on the Human Development Department can be obtained at the Department Office (PSY 205) and the department website. Students who wish to major in Human Development should seek early advising from the Undergraduate Advisor.

Bachelor of Arts in Human Development (code HDEVBA01) (120 units)

Requirements
Lower Division: 9 units from the following: ANTH 120, PSY 100, SOC 100 or HDEV 180.
Core Courses (24 units):
1. HDEV 250, 307, 320, 357, 360, 402 or 403, 470;
2. Twelve units from the following, including at least one course from each foundation area.
Biological: ANTH 318, 319; BIOL 301; H SC 420L, 421, 429L, WGSS 440;
Psychological: ED P 302, 305; COFS 311, 312, 314, 411, 412; GERN 400L, 485; HDEV 300L; PSY 331, 332, 333, 336, 351, 356, 360, 378, 370L, 438, 463;

2009/2010 CSULB Catalog • Human Development • 463
Sociocultural: ANTH 351, 413, 419, 421, 454, 475; ASAM 340, 381; AFRS 410; CHILS 340, 350, 415; CDFS 413; CERN 400; HDEV 300, 340, 379; SOC 320, 325, 351, 345, 346, 423, 464; WGS 401, 420. Students must earn a grade of at least "C" in all upper division major courses.

Minor in Human Development (code HDEVUM01)

The minor in Human Development may be combined with any major at CSULB except Human Development and Liberal Studies, Track II - Human Development Concentration. The minor in Human Development offers students an opportunity to supplement their education with an interdisciplinary study of lifespan development within societal and cultural contexts.

Requirements

A minimum of 7 courses, chosen in consultation with the Human Development Department Advisor, which must include:
1. HDEV 180 or ANTH 120 or PSY 100 or SOC 100
2. HDEV 250, 307, 320, 351, 360
3. One additional Human Development course chosen from HDEV 300, 340, 402, 405, 470.

All students in this minor must take at least 6 courses in Human Development. All students who complete another course as part of their major that is equivalent to a Human Development course (such as a statistics course equivalent to HDEV 250) must substitute another HDEV course for that one.

Courses (HDEV)

UPPER DIVISION

360. Death and Dying (3)
Prerequisites: Completion of GE Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. Not open for credit to students with credit in HDEV 400.
Exploration of social, cultural, and individual aspects of death experience examined from historical, biological, legal, religious, and ethical perspectives. Deathwork, the dying experience, surivorship, ritual and grief examined in light of lifespan, cultural and gender diversity.

367. Approaches to Childhood Through Adolescence (3)
Prerequisites: Completion of GE Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100.
Biological, psychological, and sociocultural aspects in the growth of the individual from conception through early adulthood will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner.
Not open for credit to students with credit in NURS 307.

320. Research Methods in Human Development (4)
Prerequisites: ANTH 120 or PSY 100 or SOC 100 or HDEV 180.
Research methods in human development includes methods and models from anthropology, biology, psychology and sociology as applied to research.
Letter grade only (A-F). Lab 3 hrs; lab 2 hrs.

340. Families and Work: Life Course Processes (3)
Prerequisites: ANTH 120 or PSY 100 or SOC 100 or HDEV 180.
Examination of the historical transformations over time in Western societiees, but especially in the U.S., in the nature of work and how these changes have helped to reshape family forms, relationships, and processes.

357. Approaches to Adulthood Through Aging (3)
Prerequisites: Completion of GE Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100.
Biological, psychological and sociocultural aspects in the development of the individual from late adolescence or youth until death will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner.
Not open for credit to students with credit in NURS 357.

360. Cultural Foundations for Human Development (3)
Prerequisites: HDEV 307, 357. Prerequisite/Corerequisite: HDEV 320.
Examination of the human life cycle from a global and cross-cultural comparative perspective. Consideration of how the phases of human development (and the transitions between them) are contextualized and dealt with in a variety of sociocultural settings worldwide.
Not open for credit to students with credit in HDEV 401.

364. Interpersonal Skills in Human Development (3)
Prerequisites: HDEV 307 and 357.
Designed to develop interpersonal skills identified as necessary to have effective human relations. It includes a presentation of theory and research applicable to processes in interpersonal functioning and human relations. Didactic and experiential learning approaches.
Not open for credit to students with credit in HDEV 4348 or ED P 4348.

402. Development of Thought: Structure, Process and Cultural Influences Across the Life Span (3)
Prerequisites: HDEV 320 and 357.
Examination of theories and current research on the development of thought and problem solving across the lifespan and cross-culturally using a multidisciplinary approach. Specific topics include cognition, problem solving, intelligence, language and thought, understanding numbers, literacy and educational implications.

464 • Human Development • 2009/2010 CSULB Catalog
403. The Acquisition of Culture: Socialization in Cross-cultural Perspective (3)
Prerequisites: HDEV 320, HDEV 360 or an equivalent upper-level cultural anthropology course (e.g. ANTH 414, 415, 419, 423, 424) and consent of instructor.
Examination of socialization as both a universal and culturally specific phenomenon. Topics include cross-cultural variations in teaching and learning, socialization of children and adult novices, socialization as key aspect of social and cultural reproduction and source of innovation and change.

470. Seminar/Practicum (4)
Prerequisites: HDEV 250, 301, 320, 351, 350, and consent of the instructor.
Provides for a sequence of observations and supervised participation with individuals in a variety of community agencies and/or educational settings. Practicum is supplemented by topical seminar discussions for two hours each week.
(Seminar 2 hrs, practicum 6 hrs.)

490. Special Topics in Human Development (3)
Prerequisites: HDEV 301, consent of instructor.
Topics of current interest in human development selected for extensive study.
May be repeated to a maximum of 6 units with different topics. Topics for a given semester will be announced in the Schedule of Classes.

499. Independent Study (1-3)
Prerequisite: Consent of instructor and Chair.
Student will conduct independent laboratory, field, or library research and write a report of the research.
May be repeated to a maximum of 6 units.
INFORMATION SYSTEMS
College of Business Administration

Department Chair: Robert Chi
Department Office: College of Business Administration (CBA) 426
Telephone: (562) 985-4093 (O) 985-5543 (F)
Faculty: Omer S. Bani, Lofth Brown, Christopher Carr, Robert T. Ohi, Michael Cheng, Mohammed B. Khan, Melody K. Kiang, C. Sophie Lee, Ying Liu, Khosrow Mosheivaziri, Thang Nguyen, Dee Bruce Sun, C.J. Watter, Yu-Ming Wang
Administrative Support Coordinator: Gordon Thompson
For MBA with Specialization in Information Systems, see Business Administration, Graduate Programs.

Career Possibilities
MIS Specialist • Computer Analyst • Computer Programmer • Systems Analyst • Telecommunications Specialist • Management Consultant • Other careers requiring computer skills
Applications Development Track - Business Systems Analyst • Applications Programmers • Support Specialists • Software Trainers • Database Designers • IT Administrators
Business Telecommunications Track - Telecommunications and Computer Network Specialists • Network Administrators
Electronic Commerce Track - Web Page Developers and Administrators • Webmasters
Decision Technologies Track - Business Analysts • System Support Managers and Consultants
(Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Business Administration
Requirements
In order to graduate with a business degree from CSULB, a student must complete a minimum of 120 units. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.
1. ACCT 201; ECON 100, 101; BLAW 220; MATH 10B or 114, 115, and PHIL 170.
2. All business and pre-business majors shall demonstrate computer literacy and competency prior to taking junior and senior level courses. Requires one of the following:
   A. Passing score (70%) on the Computer Proficiency Examination (CPE)
   B. Completion of IS 233 with Credit (C) or "C" or better grade in a transfer equivalent course.
3. Upper Division:
   A. CBA 300; ACCT 310; ECON 333; FIN 300; BLAW 320; IS 300, 301, 310; HRM 360; MGMT 300, MKTG 300.
   B. MGMT 425 (Capstone) must be taken at CSULB as a senior and after the upper division prerequisites core courses have been completed (ACCT 310, FIN 300, MGMT 300, MKTG 300, IS 301).
4. Elective courses to total 120 units. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for preparation for business employment.

Option in Management Information Systems (code IS__BS01) (120 units)
Prepares students for careers in Management Information Systems in business, education, and government. Emphasis on systems management, information process and analysis, and new uses of information technology. Fundamentals of business information systems, computer hardware, system and application software, telecommunications, electronic business, and decision support systems are included providing a solid foundation in this rapidly changing field. Curriculum is based on both the DPMA and ACM models.

Choose one of the following four tracks:
Applications Development Track
1. IS 340, 356, 380, 385, 456;
2. Three units selected from: IS 320, 464, 470, 480.
Business Telecommunications Track
1. IS 340, 356, 380, 456,456;
2. Three units selected from: IS 457 or 464.
Electronic Commerce Track
1. IS 340, 356, 380, 456, 484;
2. Three units selected from: IS 456, 480, 483, MKTG 437.
Decisions Technologies Track

Minor in Management Information Systems (code IS__UM01)
Requirements
1. IS 300;
2. 15 units selected from IS 320, 340, 343, 350, 385, 445, 455, 456, 464, 470, 480, 483, 484, and 485.

Courses (15)

LOWER DIVISION
233. Introduction to Computer Systems and Applications (3)
An introduction to the use of the Internet and e-mail, Windows, word processing, spreadsheet, and database applications; basic computer literacy.
Credit/No Credit grading only.

466 • Information Systems • 2009/2010 CSULB Catalog
300. Management Information Systems (3)
Prerequisite: IS 233 or equivalent.
Information systems concepts and components, contemporary organizational applications, development and management of information systems, and future trends. Computer-based team projects requiring integration and application of conceptual and skills-oriented information systems knowledge in business environment.
Letter grade only (A-F).

301. Business Communications (3)
Analysis of principles of collecting, organizing, analyzing, and presenting business information. Written and oral communications involving problem solving in the business management process.
Letter grade only (A-F).

301L Business Communications Writing Laboratory (2)
Prerequisite/Corequisite: IS 301 (a grade of "C" or better if taken previously); consent of instructor.
A remedial, writing-intensive laboratory for undergraduate business students who wish to develop the necessary writing skills for successful professional practice.
Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters.

310. Business Statistics I (3)
Prerequisite: MATH 108 or 114.
Application of statistics to business problems. Data collection and organization, probability theory, measures of central tendency and dispersion, hypothesis testing and estimation, simple regression, and correlation. Use of statistical software.
Letter grade only (A-F).

320. Quantitative Analysis for Business Decisions (3)
Prerequisite: MATH 114 or 108.
Application of quantitative analysis and computer software for solving business problems. Linear programming, integer programming, PERT and CPM inventory control, queuing models, quality control, number basis, transportation and assignment models, and simulation. Use of computer software.
Letter grade only (A-F).

340. Business Application Programming (3)
Prerequisite: IS 300.
Letter grade only (A-F).

343. Business Programming (3)
Prerequisite: IS 300.
Introduction to business computer programming. Use of C++ programming language to familiarize the student with proper programming style and practice.
Letter grade only (A-F).

355. Introduction to Business Telecommunications (3)
Prerequisite: IS 300.
Introduction to concepts and technology of telecommunications and networking in business and organizations. Basics of voice, data, image and video transmission. Fundamentals of networking, use of Internet technology and telecommunication regulation and standards.
Letter grade only (A-F).

380. Database Management (3)
Prerequisite: IS 300.
Introduction to database requirements, analysis and specification, SQL query formulation. Database implementation using relational database management system software, such as Oracle. Design of computerized business forms and reports.
Letter grade only (A-F).

385. Systems Analysis and Design (3)
Prerequisite: IS 300.
Introduction to current and emerging practices, concepts and methods of systems analysis and design. Development process models, requirements analysis and system modeling, conceptual and physical design, systems implementation and maintenance, project management and teamwork, roles and responsibilities of systems analysts.
Letter grade only (A-F).

410. Business Statistics II (3)
Prerequisites: IS 310 and 301.
A second course in business statistics. Sampling distributions, estimation, hypothesis testing, analysis of variance, linear regression and correlation analysis, multiple regression, non-parametric techniques, one-way and two-way analysis of variance, and time series forecasting. Use of appropriate software and spreadsheet modeling.
Letter grade only (A-F).

445/545. Internet Applications Development (3)
Prerequisites: IS 301, 343 or 340.
Design, management, and applications of Internet-based electronic business transaction systems. Special emphasis on Web homepage design and database-driven Web application development. Lecture, hands-on, software project and case studies.
Letter grade only (A-F).

455. Local Area Networks (3)
Prerequisites: IS 301, 355.
Technology and system development of local area networks. Network requirement analysis, design, implementation, and operation from user and network administrator perspectives. Network server management, wide area networks and Internet connectivity, and network security and control.
Letter grade only (A-F).

456. Systems Integration and Security (3)
Prerequisites: IS 301, 355.
Technology, application, operating system, infrastructure, and systems integration in internetworking and enterprise networking. Interoperability, mobile systems, multimedia, distributed and collaborative systems, network management, fault tolerance, security, and middleware. Case studies and hands-on activities.
Letter grade only (A-F).

457. Wireless Systems and Mobile Applications (3)
Prerequisites: IS 301 and 385.
Letter grade only (A-F).

464/564. Network Modeling and Simulation (3)
Prerequisites: IS 301 and 310.
Fundamentals of simulation methodology for performance and feasibility study of business models. Basic probability distributions, random number generation, model formulation, evaluating results, validation, waiting line simulation, and computer network performance measurement via simulation and use of computer software simulation packages.
Letter grade only (A-F).
470. Decision Support Systems (3)
Prerequisites: IS 301, 310, 380.
Use of information systems technologies to support decision making by managers. Emphasis is given to individual and group decision support systems, expert systems, and executive information systems.
Letter grade only (A-F).

480. Advanced Database Management (3)
Prerequisites: IS 301, 300.
Advanced approaches such as object oriented, data warehousing, and client/server methods to database applications and development. Use of entity-relationship analysis to identify objects. Development of relational database systems for a business. Application software development project using cutting-edge database technology.
Letter grade only (A-F).

483. Business Applications Using Java (3)
Prerequisites: IS 300, 301.
Development of business application using Java language. Tools and technologies including data types, program control, object classes and relationship, class inheritance, interfaces, polymorphism, inner classes, the relationship between superclasses and sub classes, event driven programming and socket-based communication in Java.
Letter grade only (A-F).

484/.584. Electronic Commerce (3)
Prerequisites: IS 300, 301.
Letter grade only (A-F).

485. Information Systems Project (3)
Prerequisites: IS 301, 380.
A comprehensive systems project of moderate complexity for a client-server environment using a team approach for requirements analysis, system design, and prototype creation. Project planning and management techniques.
Letter grade only (A-F).

495. Selected Topics (1-3)
Prerequisites: Consent of instructor and GPA of 3.0 or higher in major, IS 301.
Topics of current interest in the field as announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics.

497. Directed Studies (1-3)
Prerequisites: Consent of instructor and Department Chair; student must be on Dean's List with a GPA of 3.0 or higher in Management Information Systems.
Individual projects, research, or study in the option.
INTERDISCIPLINARY STUDIES
University Academic Programs

Associate Vice President for Undergraduate Studies:
Lynn Mahoney
Director, Undergraduate Program: Tim Caron
Office: LIB 214; Phone: (562) 985-2426
Director, Graduate Program: Cecile Lindsey
Office: BH 303; Phone: (562) 985-5225
Website: http://www.csulb.edu/divisions/aa/grad_undergrads/faculty

University Academic Programs is the administrative designation for a group of University-wide academic programs that are interdisciplinary in nature. The Interdisciplinary Studies program offers students the opportunity to develop unique individualized cross-disciplinary majors utilizing courses from appropriate departments at California State University, Long Beach. Each student, with the help of department faculty advisors, must select courses and focus his/her major on the basis of a unifying issue, theme or topic called an area of concentration. The area of concentration must meet three criteria to be acceptable:

- The area of concentration must be interdisciplinary. It must integrate and focus approaches and knowledge from at least two fields or disciplines. The principle of integration can be historical, regional, thematic or problem-focused.
- The area of concentration must not duplicate any existing major on campus or available at another Los Angeles basin CSU campus. The purpose of the Interdisciplinary Studies major is to create an individualized curriculum where no structured or formal program exists.
- The area of concentration must be feasible. Each student's proposed program must be discussed with faculty advisors to ensure that the range and number of courses required will be available.

The student must actively plan his/her program and cultivate relationships with assigned or chosen faculty. The student has the initial responsibility in shaping his/her program, with the guidance of the department advisors.

Bachelor of Arts in Interdisciplinary Studies (code IDSCBA01) (120 units)

The Interdisciplinary Studies Program is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs nor to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an interdisciplinary Studies major when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements;
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval, and
3. The cumulative GPA is 3.0 or better. A higher grade point average may be required if the Primary department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.

4. An Interdisciplinary Studies program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential, the potential addition of the resulting degree, and the ability of the University to support the proposed program. It is the student's responsibility to provide a clear written statement of the goals for his or her program of study, and the reasons these goals cannot be accomplished using an existing major, or combination of major and other available programs, and or concentrations of course work.

Procedures

1. To prepare for the initial interview:
   A. Review the CSULB Catalog Interdisciplinary Studies Program requirements.
   B. Meet with the ISP Director and consider your reasons for selecting an Interdisciplinary Studies major, including why a traditional major, double major, major and a minor, or other conventional educational pathway will not suffice. Discuss with the ISP Director what combination of courses in disciplines/departments you are interested in combining, and explain how this combination will:
      1) facilitate the achievement of your career and/or educational goals and objectives;
      2) provide you with an opportunity to obtain skills and knowledge not otherwise available at CSULB through conventional programs and degree options.

2. Meet with the department's undergraduate advisor, or in the absence of a department undergraduate advisor meet with the department chair from each prospective department from which you propose courses to combine in the IS major. With the guidance of these individuals, create a tentative program of study, subject to the ISP Director's approval.

3. Draft a program of study with the assistance of the Undergraduate Advisor and/or Chairs of the various departments from which courses for your program of study will be used. Arrange a meeting with the Department Undergraduate Advisor and the Department Chair of each of the respective departments. With their guidance develop a list of courses (a program of study) that will constitute your interdisciplinary Studies degree program. Obtain signatures of approval for the Program of Study from these respective Advisors/Chairs. Any subsequent changes must be made using the official Program Addendum forms.

4. Draft a three-to-four page proposal essay outlining the program of study you have created. State what you foresee will be the length of time you will need to complete your degree. Explain why no existing degree will assist you in terms of achieving your intended goals or propelling your future career.
5. Return your program of study along with your typed interdisciplinary studies proposal to the ISP Director. Completed programs must be signed by undergraduate advisors and chairs from all departments from which courses are taken in the Program of Study. The ISP Director is the final signatory on the Program of Study. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that apply exclusively to your proposed Interdisciplinary Studies major until all signatures have been secured. Thus, in the event you are not accepted into the Interdisciplinary Studies program, you will not have impeded your academic progress.

Requirements
1. An interdisciplinary studies major consists of a maximum of four lower-division courses (100-200) and a minimum of 28 units of upper-division courses (300-400) totaling a minimum of 40 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A proposal must accompany the program and be signed by the faculty advisors when the program is submitted to the ISP Director for approval.
3. Interdisciplinary courses (1) taken to satisfy General Education requirements may be double-counted to most Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students may need more than four lower-division courses to prepare for the upper-division courses in their major. However, no more than four of these lower-division courses will be counted in the official program.
6. Students must maintain a 2.0 or better GPA in the program course work in order to remain in the major.
7. Each Program course and prerequisite course must be completed with a grade of "C" or better.

Bachelor of Science in Interdisciplinary Studies (code IDSCBS01) (120 units)

Requirements
The basic requirements and application procedures for the Bachelor of Science in Interdisciplinary Studies shall be the same as the Bachelor of Arts degree in Interdisciplinary Studies. The Bachelor of Science is awarded when the Primary department typically issues a Bachelor of Science degree.

Master of Arts (code IDSCMA01) and Master of Science (code IDSCMS01) in Interdisciplinary Studies

The Master of Arts or Master of Science degree in Interdisciplinary Studies permits students to earn an interdisciplinary master's degree when their special needs or interests cannot be met by an existing CSULB graduate degree program or a degree program at another CSU campus in the LA Basin. The Interdisciplinary Studies master's degree is not a degree divided between or among disciplines, but is a cohesive program of study, which integrates the methodologies, perspectives, and content of two or more disciplines. A master's degree in Interdisciplinary Studies must be justified by legitimate academic goals.

Acceptance of an applicant to an Interdisciplinary Studies master's program is based on such considerations as the academic merit and rationale of the proposed course of study, the applicant's potential for successful completion of a master's program, the potential application of the degree towards the applicant's career and educational goals, and the ability of the University to support the proposed study with faculty, curricula, and facilities. Candidates should carefully assess goals before considering this degree. The degree is administered by the Vice Provost for Academic Affairs and Dean of Graduate Studies serving as the Interdisciplinary Studies Graduate Director.

Prerequisites
The minimum requirements for acceptance to the Graduate Interdisciplinary Studies Program (ISP), in addition to general university requirements for post-baccalaureate admission, are as follows:
1. A Bachelor's degree from an accredited college or university.
2. Upper division or graduate level preparatory course work, as it is required by each department in the program of study. (Upper division units are CSULB 300-400 level courses or their equivalent at another institution; graduate units are CSULB 500-600 units or their equivalents at another institution.)
3. A grade point average of 3.0 in the baccalaureate degree or in the last 60 units of upper division and/or graduate course work completed at an accredited college or university. And a 3.0 average in all prerequisite course work listed on the Prerequisite Check Sheet for the Graduate Interdisciplinary Studies Program. Please note that lower division courses (CSULB 100-299 level courses, or their equivalent at another institution) must be excluded from qualifying G.P.A. calculations.
4. Submit Graduate Record Examination (GRE) scores from the three sections of the General Test taken within five years of applying to the Graduate Interdisciplinary Studies Program.

Acceptance to the Program
Those students who meet all program and University prerequisites for graduate study and whose Interdisciplinary Studies master's programs have been approved by the Vice President of Academic Affairs and Dean of Graduate Studies (Graduate Dean) will be admitted as Classified graduate students in the Interdisciplinary Studies program.

Procedures
Determine if you are eligible to apply to the Graduate ISP by consulting the ISP website: http://www.csulb.edu/divisions/aai/grad_undergrad/isp/. Make sure to keep a copy of all of your application materials for your own records. Application materials should be e-mailed to: Dr. Cecile Lindsay, Vice Provost for Academic Affairs and Dean of Graduate Studies, at clindsay@csulb.edu.
1. If you believe you meet the basic eligibility requirements to apply to the Graduate ISP, contact the Director of the Graduate ISP at least two months prior to the application deadline of March 30 via e-mail at the address shown below to submit an ISP proposal. The proposal should be a 3-5 page Word document detailing the conceptual framework of the program of study you envision. The proposal must address your graduate preparation for such study, as well as future career and educational goals. The program of study is designed to achieve the following:
2. The director will review the proposal in consultation with appropriate faculty. If you receive approval to apply, you must complete the California State University, Long Beach application through CSU Mentor (www.csumentor.edu)
3. Apply to the Graduate Interdisciplinary Studies Program by submitting the following materials to the Director of the Graduate Interdisciplinary Programs:
   A. The Prerequisite Check Sheet for the Graduate Interdisciplinary Studies Program, as completed in consultation with the Graduate Advisors in the primary
   and secondary departments/programs of interest.
   B. The student's proposed Graduate Interdisciplinary Studies Program of Study as completed in consultation with the Graduate Advisors in the primary
   and secondary departments/programs of interest.
   C. GRE scores from the three sections of the General Test, taken within five years of applying to the Graduate Interdisciplinary Studies Program.

Advance to Candidacy

Advance to candidacy is formally approved by the Vice Provost and Dean of Graduate Studies. Any modifications to the Student Program after advancement to candidacy require the approval of the Interdisciplinary Studies Graduate Committee and the Graduate Dean on an official Addendum to Program form to be obtained from the ISP website. Students must have advanced to candidacy at least one full semester prior to graduation, but should do as soon as possible.

The Interdisciplinary Studies Director will submit an Interdisciplinary Studies graduate student's program for advancement to candidacy when the following conditions apply:
1. Satisfactory completion of all prerequisite course work with a minimum 3.0 GPA (see item 3 in Prerequisites above) as well as any additional prerequisites (i.e., departmental qualifying exams);
2. Completion of a minimum of six units of graduate-level (500-600) program work with a 3.0 GPA;
3. Fulfillment of the Graduate Writing Assessment Requirement (GWAr);
4. Approval by the Graduate Dean of the completed Application for Thesis and Committee Form for thesis option programs;
5. Resolution of all incomplete grades (I) on the record;
6. A cumulative 3.0 GPA in all completed program work;
7. Current enrollment in University course work.

Requirements for the Master of Arts Degree

Graduate programs may be composed of graduate level (500-600) and upper division (400) undergraduate level course work.

The unique nature of an interdisciplinary program of study may require more than the minimum number of course units in order to assure academic integrity. Programs of Study in Graduate Interdisciplinary Studies frequently total 36 or more units; it is helpful to use the unit requirement of the primary department as a guide in determining an appropriate number of units for a proposed program.

The Graduate Interdisciplinary Studies Program of Study should consist of no less than 30 units of graduate (500-600) and upper division undergraduate (300-400) course work, including the following requirements:

1. No less than 70% of course work shall be at the 500-600 level. These must be done in residence at CSULB. Extension 500-600 level courses are not acceptable as part of the Graduate ISP.
2. The largest number of graduate units (~70%) shall be completed within a primary department. The primary department will be the degree-issuing department.
3. No more than three units of independent study in addition to thesis in a minimum 30-unit program. Exceptions to this regulation are as follows:
   A. Up to six units of independent study in addition to thesis may be permitted in a minimum 30-unit program when the projected studies are not to be taken in the same department; when the focus of each projected independent study is clearly distinct from the other (as evidenced on Independent Study Agreement Forms for each study to be submitted with all other application materials.);
   B. In excess of six units of independent study in addition to thesis may be permitted in cases when an Interdisciplinary Studies graduate program exceeds the minimum 30 units; when the focus of each independent study is clearly distinct from any others (as evidenced on Independent Study Agreement Forms for each study to be submitted with all other application materials). Programs with more than six units of independent study may be referred to the Interdisciplinary Studies Program Advisory Board for approval and recommendation.

4. Successful completion of a Thesis or Comprehensive Exam. The selection of the Thesis or Comprehensive examination option will be made by the student in consultation with the graduate committee and Graduate Dean. If such an option is available in the primary department identified in the Graduate Student Program of Study. If no option is available, the student will comply with the culminating requirements of the primary department.
5. Students writing a thesis must enroll for thesis credit in their primary department (the primary department identified in their Graduate Student Program of Study);
6. Students opting to write a thesis must identify a thesis committee by the beginning of their second full semester of graduate study, complete a thesis proposal form, and submit it to the Graduate Dean. The Thesis Committee must include a chair (from the primary department) and at least one representative faculty member from each of the disciplines included in the student’s Graduate Program of Study. A thesis committee shall contain no fewer than three members, at least two of which must be tenured-track CSULB faculty. The chair of the committee must be a tenured or tenure-track faculty member.

7. All requirements of the degree program must be completed within seven years of the date when the program was initiated (i.e., no course on the program at the time of graduation may be more than seven years old).

Requirements for the Master of Science Degree

The basic requirements and application procedures for the Master of Science in Interdisciplinary Studies shall be the same as the Master of Arts degree in Interdisciplinary Studies. One distinction, however, is commonly a requirement by the programs that issue a Masters of Science degree that the culminating activity be a thesis. Students will follow the exit requirements of their primary department.
For MBA degree requirements, see Business Administration, Graduate Programs.

Career Possibilities
Import/Export Agent • Foreign Sales Representative • Trade Broker • Buyer • Bank Manager • Financial Manager • Foreign Currency Investment Advisor • International Management Consultant • Relocation Consultant • Customs Broker

Undergraduate Programs

Bachelor of Science in Business Administration

Requirements
In order to graduate with an undergraduate business degree from CSULB, a student must complete a minimum of 120 units. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.

1. ACCT 201: ECON 100, 101; BLAW 220; MATH 108 or 114, 115; and PHIL 160 or 170.
2. All business and pre-business majors shall demonstrate computer literacy and competency prior to taking junior and senior level courses. Requires one of the following:
   A. Passing score (70%) on the Computer Proficiency Examination (CPE).
   B. Correlation of IS 233 with Credit (C) or "C" or better grade in a transfer equivalent course.
3. Upper Division:
   A. CBA 300, ACCT 310, ECON 333; FIN 300; BLAW 320; IS 300, 301, 310; HRM 360; MGMT 300; MKTG 300.
   B. MG 425 (Capstone) must be taken at CSULB as a senior and after the upper division prerrequisite core courses have been completed (ACCT 310 or 320, FIN 300; MGMT 300; MKTG 300; IS 301).
4. Completion of International Business Option requirements.

Option in International Business (code FIN_BS02) (120 units)
The objective of the international business option is to prepare students for the increasingly competitive and interdependent international business world with which they must cope. There is great and growing need for American business school graduates to be better informed about how to compete and do business outside the U.S. as well as in the U.S. market where much of their competition is from foreign firms. Students need to learn how international business practices and customs differ from those in the U.S. They need some familiarity with a language other than English as well as knowledge of culture and world geography.

Requirements
1. ACCT 465; FIN 490; MGMT 405 or 406; MKTG 480.
2. Any one of the following courses: BLAW 424, CBA 454, HRM 465, MGMT 405 or 406 (whichever was not taken in satisfaction of requirement 1); or MKTG 481.
3. Two years (4 semesters or 6 quarters) finishing at the level of 201B (or its equivalent) at the baccalaureate level of one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Portuguese, Russian, or Spanish. Under individual, special circumstances, the Director of the International Business Option may approve a language other than those listed above to satisfy the language requirement for a degree in the option.
4. Choice of the language will determine the country or geographic area of the world about which the student must study a minimum of 2 courses (6 units).
These will be in lieu of 6 other elective units, and can be double counted as part of the student's general education requirement, if approved to meet GE requirements.

G.E. or Elective Courses
Select two courses (6 units), appropriate for your choice of language.

All Languages: ANTH 4121, COMM 330, 452, HIST 3171, 3181, 3191, 3551, LING 413, 425, 470, POSC 371, 485, WGS 4011.
Arabic: ARAB 250, CWL 402, GEOG 3091, HIST 394, 426, 452, POSC 367, RST 3311, 339.
French: CWL 330A, B, GEOG 316, HIST 335, 337, 339, POSC 353, FREN 335, 336 or courses taken at a specified French university with which CSULB has an exchange agreement and taught by instructors from CSULB may be approved by the Director of the International Business Program in partial or full satisfaction of this requirement.
Italian: CWL 330A, B, ECON 361, GEOG 316, HIST 335, 337, 339, POSC 353.
Russian: ECON 361, GEOG 316, HIST 341B, RUSS 310, 410.

2009/2010 CSULB Catalog • International Business • 473
Undergraduate Certificate in International Business (code FIN_CT01)

Phenomenal growth of multi-national companies has been apparent in recent years, with increasing internationalization of the business world. Multi-national firms, governmental agencies, and varied international organizations express heightened demand for management personnel with a broad, global perspective. The Certificate in International Business, Undergraduate Program, combines an undergraduate degree in business with additional training in the area of international business beyond that normally included in a traditional business program. The objective of the program is to enhance the scope and perception of the business student to include the international business environment. Courses used to meet requirements for the Certificate in International Business may also apply toward College of Business Administration degree requirements.

Requirements
1. A bachelor of Science degree in Business Administration.
   This requirement may be completed concurrently with certificate requirements.
2. Eighteen units or more of study at this University in International Business to include six of the following:
   ACC 465; BLAW 424; CBA 300; CBA 484; FIN 490; HRM 458; MGMT 405, 406; MKTG 480 or 481.
3. Grade of "C" or higher required in each course completed.
4. The Certificate Program does not permit use of the Credit/No Credit option. Students with specific geographic areas of interest should consider development of language competence and cultural understanding relative to their area of interest concurrent with their Certificate Program. For additional information or for application to the program, interested persons may contact the Director of International Business Program.

Career Possibilities
Department Program Officer • Foreign Service Officer • Researcher • Teacher • Intelligence Analyst • Social Service Worker • Lawyer • Community Organizer • Journalist • Administrator (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Bachelor of Arts in International Studies (code I/STBA01) (120 units)

The Bachelor of Arts in International Studies is an interdisciplinary degree program designed to provide a rigorous introduction to the complex interrelationships that exist among societies in the modern world. It combines the study of international relations, global and development issues and contemporary belief systems with a concentration on a major world area. In addition, the degree aims to equip students with the skills in language, analytical thinking, research, and economic literacy that are necessary for graduate study and careers in international fields. Further, students in the International Studies program receive direct exposure to an international environment by participating in a foreign study program or an internationally related internship in this country. Because it is interdisciplinary, this program emphasizes the ways in which the expertise and methodologies of various disciplines contribute to the understanding and resolution of international issues.

The program provides a broad understanding of international issues and world cultures through exposure to the various methodologies of the social sciences and liberal arts. It offers pre-professional study for careers in government, communications, business, law, journalism, and international non-government organizations. Students are encouraged to combine a major in International Studies with a second major or minor in a field appropriate to their career plans.

All International Studies majors are required to develop a program of study in consultation with the program advisor. This program should be balanced among the participating disciplines in order to help the student develop a coherent emphasis in a world region and/or a topical area. Majors should choose their foreign language, foreign study or internship experience, and senior seminar research project to reflect this emphasis. The program director also advises about post-graduate study.

Requirements
A minimum of 45 units in a program approved by the International Studies advisor.

Requirements not included in major
Economic Literacy (units not included in total for major; may be fulfilled as part of General Education): ECON 100 and 101. Or, with prior permission of the International Studies Advisor, ECON 300 may be substituted for ECON 100 and 101.

Foreign Language: Three years of college level study or equivalent proficiency in a language appropriate to the program of study and geographic area concentration selected.

Major Requirements
Lower Division - 12 units: IST 200; and an additional 9 units chosen from the following: ANTH 120; HIST 212; GEOG 100 or 112; POSC 215 or 220.

Upper Division - a minimum of 33 units including:
• Cross-Cultural Communication: 3 units, chosen from: ANTH 412I, 413; COMM 330.
• Basics of International Relations: Select 6 units from the following: ECON 372; GEOG 470; HIST/IST 478; POSC 371, 378.
• Development Studies - 6 units, selected from: ANTH 307I; ECON 466; GEOG 468D; HIST 420I; JOUR 312I; POSC 461I; IST 317I, 318I, 319I, 355I; SOC 350; WIST 401I.
• Contemporary Belief Systems: 3 units selected from: ANTH 305I; ECON 313; POSC 306; R/ST 383; SOC 356.

Area Concentration
Choose 9 units from one of the following six areas:
• Asia: IST 300I, 301I, 310, 435I; ANTH 332, 333, 335; GEOG 314I; HIST 382B, 383B, 384, 388, 386, 407I, 488; POSC 302.
• Latin America: ANTH 323, 324; HIST 364, 462, 463, 466; CHHS 310; POSC 358, 481.
• Africa: AFRS 317, 330, 400, 460; GEOG 308I; HIST 391, 392.
• North Africa and the Middle East: GEOG 309I; HIST 431; POSC 367; R/ST 331I, 315.
• Eastern Europe and former Soviet Union: GEOG 318I; HIST 341B.
• Western Europe: FREN 440; GEOG 316; GERM 380, 410, 416; HIST 337, 339, 357, 437; POSC 353; SPAN 430.
• Internship or Foreign Study: (IST 492, 3 units) An internship or foreign study program related to the course of study selected, as approved by major advisor.
• Senior Research Seminar: (IST 490, 3 units) As approved by the director of the International Studies program.

2009/2010 CSULB Catalog • International Studies • 475
Minor in International Studies  
(code ISTUM01)

The Minor in International Studies consists of a minimum of 21 units at least 15 which must be upper division courses, together with at least two years of college level of study (or equivalent proficiency) in a language (other than English) relevant to the student's program of study in International Studies.

Requirements

Economic Literacy: Three units selected from ECON 100, 101, or with the consent of the International Studies advisor, upper division students may take ECON 300. (Units earned in satisfaction of this requirement may not be counted as part of the unit requirement in the minor.)

Lower Division: Three units of UST 200 and three units selected from ANTH 120, HIST 212, GEOG 100 or 160; POSC 215 or 220.

Upper Division: Three units selected from the courses grouped under Cross Cultural Communications or from the courses grouped under Contemporary Belief Systems as those groups are defined for the Bachelor of Arts degree in International Studies.

Either six units selected from the Courses grouped under Development Studies or six units selected from the courses grouped under Basics of International Relations as those groups are defined for the Bachelor of Arts degree in International Studies.

Six units selected from one of the geographic Area Concentrations defined for the Bachelor of Arts degree in International Studies.

Interdisciplinary analysis of social conflict in the world. Case studies will focus on globalization; technology; economic development; trade and aid; population growth; immigration; ideological, religious, ethnic, and gender conflicts; war and civil unrest; human rights; democratization; global citizenship; environmental sustainability.

Letter grade only (A-F). Same course as SOC 318L. Not open for credit to students with credit in SOC 318L.

319L. International Development (3)
Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper division standing.

Theoretical and practical analysis of social, political, and economic development and alternative developmental models. Contemporary and historical comparisons of how “developed” and “developing” areas of the world have contended various economic, social, and political challenges.

Same course as GEOG 319L. Not open for credit to students with credit in GEOG 319L.

320. Migration and Modernity (3)
Prerequisite: Completion of all GE Foundation courses.

Examines global migration from 1700s-present, putting U.S. immigration history in context and emphasizing recent and contemporary trends. Uses history, politics, and culture (literature, photography, and film) to consider migration’s interactions with race, ethnicity, and nationalism.

Letter grade only (A-F).

355L. International Environmental Issues (3)
Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing.

Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve them.

Same course as GEOG 355L. Not open for credit to students with credit in GEOG 355L.

478. Foreign Relations of the U.S. (3)
Incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, and the role of special interest groups on the making of foreign policy.

Same course as HIST 478. Not open for credit to students with credit in HIST 478.

490. Senior Research Seminar in International Studies (3)
Prerequisites: Senior status or consent of the International Studies advisor and instructor.

Capstone research seminar for International Studies majors. Classroom preparation for directed research by students on a topic of their choice integrating international economics, international politics, cross-cultural communication, development studies, contemporary belief systems, language skills, and a geographic area.

Letter grade only (A-F).

492. International Studies Internship/Foreign Study (3)
Prerequisites: Consent of IST advisor; completion of a minimum of 15 upper division units required for the major in International Studies.

A qualified study abroad program or an internship with internationally-oriented, governmental, non-governmental, and for-profit organizations required of IST majors. Internship conducted under joint supervision of program sponsor and CSULB faculty. Final report required for internship.

Credit/No Credit grading only.

476 • International Studies • 2009/2010 CSULB Catalog
493. Special Topics (1-6)
Prerequisite: Consent of instructor.
Analysis of contemporary issues and problems in International Studies.
Topics to be announced in the Schedule of Classes.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor
Individually directed studies of special problems in International Studies.
May be repeated to a maximum of 6 units with consent of program director. May not be credited toward the major in International Studies without written department consent in advance of enrollment. (Supervised) Letter grade only (A-F)

For more information, see www.careers.csulb.edu.)

Introduction
The Italian Program exists thanks to an agreement between the Italian American community in the area and CSULB. This collaboration led to the establishment of the program itself as well as the Center for Italian Studies, named in honor of Mr. George Grazziadio. In acknowledging his Italian origins, his founding gift speaks to his desire to foster Italian Studies in Southern California. Since 2001 the Center has promoted the diffusion of Italian language, culture, and civilization through a variety of cultural events (lectures, conferences, film screenings, etc.) related to Italian and Italian-American Studies. Additionally, the Center offers a number of scholarships to study in Italy and regularly organizes workshops on Italian teaching. Its program of events, which gives students the unique opportunity to be exposed to Italian language and culture in its various facets outside the classroom, is often shaped in collaboration with Italian and Italian-American institutions and organizations in the area.

Bachelor of Arts in Italian Studies (code RGR_BA09) (120 units)
The BA in Italian Studies is a comprehensive program that provides students with a solid humanities-based grounding also applicable to professional fields outside of the humanities. Whereas Italian Studies continues to be a field of choice for students interested in Art, Art History, Music, History, and Comparative Literature, it is increasingly relevant for professions in Fashion, Design, and International Business. The Italian Studies BA Program connects Italy's traditional intellectual and artistic legacy with its dynamic development as a modern industrialized country renowned for combining taste and technological innovation. The job mobility and cultural exchange fostered by the European Community and fueled by the global economy at large have made Italian into a language with vast applicability: the currency of the Italian language worldwide is also reflected in its growth as a subject taught in the American school system. In light of this expansion, the Bachelor of Arts in Italian Studies is a wise choice for students who plan to pursue a teaching career that combines two foreign languages or one foreign language and another subject in the humanities.

In order to meet such diverse needs, the BA Program offers two concentrations: Italian Language and Culture and Interdisciplinary Italian Studies. Regular consultation with advisors is highly recommended to ensure the proper choice of courses in view of future professional careers or continuation of studies at the graduate level.

Students in the BA program are strongly encouraged to study abroad through the CSU International Programs; they can spend from an intensive summer to an entire academic year in Florence and study either at the CSU center and/ or at local academic institutions. While expanding their linguistic and cultural knowledge, through this full-immersion experience, they earn credits towards their degrees. In addition, the Italian BA Program at CSULB offers internship opportunities at Italian and Italian-American institutions in the area.

Once students have met the first- and second-year general language requirements, in the third year they take a common set of core courses in the target language (composition, grammar, conversation as well as literature, literacy analysis, and civilization). In the fourth year they choose between the two concentrations: students intending to earn the teaching credential select the first, Italian Language and Culture, and take all coursework in the Italian language; students interested in a more interdisciplinary approach may select courses from the variety of department offerings (Music, Political Science, Geography, Art and Comparative Literature) included in the second concentration, Interdisciplinary Italian Studies. Both tracks share a common core.

Requirements
The student must complete a minimum of 49 units as approved by Italian Studies Advisors.

One year of a second foreign language is required for the first concentration (Italian Language and Culture).

Lower Division
Competency in the Italian Language (16 units of lower division Italian; ITAL 101A, B, and 201A, B are required.

Some of these courses may be waived for students who have completed sufficient high school Italian or have proved intermediate-level proficiency. Native speakers of Italian may not enroll in ITAL 101A,B or 201A,B.

478 • Italian • 2009/2010 CSULB Catalog
Upper Division: A minimum of 33 upper division units selected as follows:

Basic Core (24 units): ITAL 310, 312A, 312B, 314, 335, 336, 340, 482.

Concentration I - Italian Language and Culture

One year of a second foreign language.

* Candidates who intend to teach Italian are required to take ITAL 414

Concentration II - Interdisciplinary Italian Studies
**Accepted only when syllabus include a good amount of Italian texts.

Electives and Other Courses

Close work with the advisor will enable majors in Italian Studies to design a comprehensive study plan for their entire CSULB experience and for life-long learning. General Education courses and electives should be chosen carefully to coordinate with the major.

Minor in Italian (code RGR_UM02)

The Italian minor can be taken in conjunction with any other major, and it is an excellent choice for students majoring in other Romance languages as well as in Art, Art History, International Business, Comparative Literature, Dance, English, History, Linguistics, Music or the Social Sciences. Besides grammar, composition and conversation classes, it offers courses in literature, civilization, cinema, and language history. The minor in Italian is open to any non-Italian major.

Requirements

Minimum of 18 upper division units,

Required (9 units) ITAL 312A, 312B, 314

Required (9 units) to be chosen from: ITAL 310, 335, 336, 340, 411, 414, 454, 462, 482, 490, 494, 499.

Single Subject Teaching Credential, Italian (code 154)

Completion of Concentration I (Language and Culture) of the Italian major meets the subject matter competence requirement for the Single Subject Preliminary Credential in Italian. Prospective students should consult the undergraduate Italian Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of Italian are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.cod.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

Requirements

Same as for the major in Concentration I (Italian Language and Culture) of the Italian Program.

Courses (ITAL)

LOWER DIVISION

101A. Fundamentals of Italian (4)

Prerequisite or Corequisite: Any Foundation course.

Practice in grammar, reading, pronunciation, writing, and conversation. For those who are just beginning the study of Italian or who have had one year of high school Italian. For non-native speakers only, and is not open to heritage speakers or native speakers of Italian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (4 hrs.) Course fee may be required.

101B. Fundamentals of Italian (4)

Prerequisite or Corequisite: Any Foundation course.

Continuation of ITAL 101A. Practice in grammar, reading, pronunciation, writing and conversation.

For non-native speakers only, and is not open to heritage speakers or native speakers of Italian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (4 hrs.) Course fee may be required.

201A. Intermediate Italian (4)

Prerequisite: ITAL 101B and completion of the Foundation requirement (or entering competency equivalent to ITAL 101B and completion or concurrent enrollment in at least one foundation course). For non-native speakers only, and is not open to heritage speakers or native speakers of Italian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (4 hrs.) Course fee may be required.

201B. Intermediate Italian (4)

Prerequisite: ITAL 201A and completion of the Foundation requirement (or entering competency equivalent to ITAL 201A and completion or concurrent enrollment in at least one foundation course). For non-native speakers only, and is not open to heritage speakers or native speakers of Italian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes. (4 hrs.) Course fee may be required.

214. Intermediate Conversation (3)

Prerequisite: ITAL 101B. Can be taken concurrently with ITAL 210A or 210B.

Designed to develop basic conversational skills and to prepare for more advanced work in ITAL 314.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students must formal prerequisites and/or competency equivalent for advanced study.

310. Introduction to Analysis of Italian Literature (3)

Prerequisite: Upper division standing in Italian or equivalent.

Explores literary terminology and the study of the primary genres in Italian literature through an analysis of exemplary texts. A brief overview of methodologies will also be introduced, i.e., structuralism, sociolinguistics, gender studies, formalism and deconstruction.

2009/2010 CSULB Catalog • Italian • 479
312A. Advanced Italian I (3)  
Prerequisites: Upper division standing in Italian or equivalent. 
Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language. 

312B. Advanced Italian II (3)  
Prerequisites: Upper division standing in Italian or equivalent. 
Review of grammatical principles with regular exercises and composition work for development of increased mastery of written language. 

314. Advanced Conversation (3)  
Prerequisites: ITAL 214 or consent of the instructor. 
Continuation of ITAL 214. More advanced use of spoken Italian to establish strong basis for correct and fluent proficiency in oral idiom. 

335. Survey of Italian Literature I: Middle Ages—Eighteenth Century (3)  
Prerequisites: Upper division standing in Italian or consent of instructor. 
Introductory study of the most important Italian literary works, authors, and movements of Italian literature from the Middle Ages to the Eighteenth Century. 

336. Survey of Italian Literature I: Nineteenth and Twentieth Centuries (3)  
Prerequisites: Upper division standing in Italian or consent of instructor. 
Introductory study of the most important Italian literary works, authors, and movements of Italian literature of the Nineteenth and Twentieth Centuries. 

340. Italian Civilization (3)  
Prerequisites: Upper division standing in Italian or consent of instructor. 
Multidisciplinary study of Italian culture from unification (1861) to present, special emphasis on last thirty years. Crucial historical moments analyzed for social and cultural impact on Italian custom and ways of thinking. Taught in Italian. 

411. Advanced Syntax, Grammar, and Stylistics (3)  
Prerequisites: ITAL 312B. 
Provides an in-depth study of written Italian. Vocabulary development and analysis and imitation of writing styles and forms will be emphasized. 

414. History of the Italian Language (3)  
Prerequisites: ITAL 312B. 
Examines the main developments in the transformation from Latin to Italian, and the debates on what constitutes the Italian language (questione della lingua) 1200—present, including the contributions of Dante Alighieri, Machiavelli, and Alessandro Manzoni. 

454. Italian Cinema (3)  
Prerequisites: Senior standing or consent of instructor. 
Overview of main movements and directors in the history of Italian cinema. Socio-political and aesthetic analysis will be adopted in reading films from the post-war period to the present. Letter grade only (A-F). Same course as FEA 454. Not open for credit to students with credit in FEA 454. 

462. Italian Women Writers (3)  
Prerequisites: Upper division standing in Italian or consent of instructor. 
Studies roles of women writers within history of Italian literature from Middle Ages through Renaissance to contemporary literature. Not open for credit to students with credit in ITAL 424. 

473. Masterpieces of Italian Renaissance Literature (3)  
Prerequisites: ITAL 310, 335, 336 or consent of instructor. 
Readings in Italian Quattrocento and Cinquecento thought to explore the revolution toward the "new learning" and the valorization of human ability, worldly matters, and secular culture. 

482. The Building of the Italian Nation (3)  
Prerequisites: ITAL 310, 335, 336 or consent of instructor. 
Explores literature that promoted creation and building of Italian nation from Middle Ages to present. 

490. Special Topics in Italian (3)  
Prerequisites: Upper division standing in Italian or consent of instructor. 
Study of a particular topic or aspect of Italian literature, language or culture. Specific topics to be announced in the Schedule of Classses. 
May be repeated to a maximum of 12 units with different topics. Course fee may be required. 

494. Internship in Italian (1-3)  
Prerequisites: Consent of Instructor and department chair. 
Field work in Italian, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. 
May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in Italian. 

499. Directed Studies (1-3)  
Prerequisites: Consent of instructor and department chair. 
Independent study under the supervision of a faculty member. 
May be repeated to a maximum of 6 units.
to pursue a career involving the Pacific Rim nations, to go on to post baccalaureate programs in the fields such as international affairs, business, law, journalism, public administration, or education, and/or to obtain a single subject teaching credential in Japanese.

The program is different from a traditional literature-oriented language program. It emphasizes pragmatic language studies aiming for acquisition of communication skills through communication-based instruction, and providing knowledge of language and culture to develop appropriate understanding and attitudes for intercultural communication. The program will be supported by a variety of discipline-specific courses as well as interdisciplinary courses in Anthropology, Art, Asian Studies, Asian American Studies, Business, Comparative World Literature, Economics, Education, Geography, History, International Studies, Linguistics, Philosophy, Political Sciences, Religious Studies, Speech Communication, and other programs offering Japan-related topics.

Planning a Program of Study

The student and undergraduate advisor should plan a coherent program that both fulfills the requirements of the major and covers the student’s areas of interest in allied fields outside the Japanese language.

Students with background in Japanese language competency gained through home use or through primary or secondary school work in the U.S. or Japan must take a placement test administered by the department.

Students are encouraged to study in Japan, either through the CSU Study Abroad Program or independently, after completing at least two years of study (or its equivalent) of Japanese at CSULB.

Residence Requirement for the Majors

At least five upper division courses required for the major must be completed successfully at CSULB. Students are encouraged, however, to complete up to a year of their language study in approved programs of study abroad.

Requirements

A minimum of 44 units is required, including at least 15 units earned in residence at CSULB. JAPN 101 and 102 are prerequisite to the major and may be satisfied by appropriate high school preparation or by examination.

Required courses includes 23 units core courses and 21 units electives from the following three areas: 1. language and language-related courses (12 units), 2. Japanese civilization courses (6 units), and 3. Japan-related or intercultural communication courses (3 units).

Lower Division Required Core Courses (8 units): JAPN 201, 202.

Upper Division Required Courses (36 units):

1. Core Courses (15 units): JAPN 301, 302, 311, 312, 451 (in Japanese);
2. Electives (21 units):
   A. Language and Language Related Courses - 12 units
      selected from: JAPN 350, 370, 371, 385, 421, 422,
      452, 453, 451, 462, 463, 471, 481, 490, 492, 497;
   B. Japanese Civilization (taught in English) - 6 units
      selected from: ANTH 335, A/JST 353, A/JST 470A/B,
      363, R/ST 344;
   C. Japan-Related or Intercultural Communication
      Courses – 3 units selected from: ANTH 307I, 412I,
      413, 490*, ASAM 330, 345, A/JST 300I, 301I, 310,
      320, 406A, 490*, 492, 495I, CWL 403, COMM 309,
      330, ECON 372, EDSS 450, HSC 420I, HIST
      382B, 406B, 478, 496*, JST 317I, 318I, 319I, 475,
      JOUR 312, PHIL 306, POSC 362, 371, 378, 469*,
      489, 490*, R/ST 341, SOC 350, WGS 401I, 406A.

*Special topics courses in departments which regularly offer topical
courses pertinent to this program.

Certificate in Japanese (code A/JSTC03)

The Certificate Program in Japanese offers students an
opportunity to develop spoken and written competency in
modern Japanese, and to acquire a broad introduction to
various aspects of traditional and modern Japan.

The program is designed for students who intend to
pursue a career in the private or public sectors, for
which knowledge of Japan and the command of the language
is useful or necessary, and also for students who intend to
pursue a graduate program in which such knowledge and
competency are required.

Requirements
1. A bachelor’s degree (may be earned concurrently with the
certificate);
2. 15 units of upper division level Japanese language
courses;
3. 12 units of Japan-related upper division work from at
least two disciplines. These units must be selected with
the approval by a member of the advisory committee.

Approved Courses
For Major in Asian Studies, Minor in Asian American
Studies, Certificate in Asian Studies and Certificate in Asian
American Studies:

Single Subject Credential in Japanese
(code 155)

The Japanese subject matter credential program at CSU
Long Beach is designed to provide students with linguistic
and cultural preparation and understanding of humanities
for personal, social, intellectual and cognitive development as
well as development of skills for economic self-sufficiency in
the ever-interwining world of global economy. It is intended to
produce educators prepared to teach Japanese with
the communication proficiency, critical thinking skills, and
sociocultural understanding essential for effective intercultural
communication as well as pedagogical knowledge and
training in teaching Japanese to diverse populations in our
society.

The program requires a minimum of 30 semester units
of upper division courses in Japanese as listed below under
the four subject categories: Language, Linguistics, Culture, and
Literature. Students should take 21 units of core courses and
9 units of electives. All upper division courses are conducted
in the target language and require completion or equivalent
of the four semesters of lower division Japanese language
courses.

All upper division language courses are designed to
develop competency in four skills and content. However,
JAPN 311 and 312 emphasize spoken Japanese at advanced
level, while JAFN 301 and 302 emphasize reading and writing
at advanced level. The content courses represent three areas of
study - Japanese culture, linguistics, and literature. The
culture courses provide an overview of Japanese history from
the prehistoric times to contemporary Japan, and an insight
into Japanese culture and society. The linguistics courses
introduce the sound, meaning, syntactic and discourse
structure of language, and offer a comparison of Japanese
and English as well as other languages. The literature course
introduces selected major literary works, which will provide
resources to cultivate literary appreciation and to develop
cultural understanding of Japan.

A grade of "C" or better is required in all courses
accepted for the Japanese program. The exit requirement is
"Advanced" level Japanese language proficiency.

In addition to meeting the subject matter competence
requirement for the Preliminary Credential, prospective
teachers of Japanese are also required to complete 44 units
of professional preparation in the Single Subject Program,
including student teaching. Students may begin the
professional preparation courses as early as the junior
year. With careful planning, it is possible to complete all of
the credential program courses, except for student teaching,
as an undergraduate. Courses may also be completed as post-
undergraduate. Refer to the Single Subject Teacher
Education section of this Catalog or the Single Subject
Credential Program website (www.ced.csulb.edu/single-
subject) for a description of the professional preparation
requirements, courses, and application procedures.

Prospective students should consult the Japanese Education
Advisor and the Languages Other Than English (LOTE)
Program Advisor early to plan their program.

The Japanese Subject Matter Program is being revised
to meet new state standards. When the revised program has
been approved by the Commission on Teacher Credentialing,
the new course requirements will be in effect and supersede
current requirements.

482 • Japanese • 2009/2010 CSULB Catalog
Core Requirements

24 upper division units selected from the following areas:
1. Language: JAPN 301, 302, 311, 312;
2. Linguistics: JAPN 461;
3. Literature: JAPN 471 plus 421 or 370;
4. Culture: JAPN 451

Electives: a total of 6 units selected from at least two different areas in consultation with a program advisor based on the student's background, interest, and teaching plans.

Language: JAPN 421, 422;
Linguistics: JAPN 462, 463, 481;
Literature: JAPN 370, 371;
Culture: JAPN 350, 452;

Courses (JAPN)

LOWER DIVISION

Prerequisites: One GE Foundation course which may be taken concurrently; formal prerequisites and/or competency equivalent for JAPN 101.
Introduction to pronunciation, reading, writing, conversation, and structure of the Japanese language.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

102. Fundamentals of Japanese (4)
Prerequisites: JAPN 101; One GE Foundation course which may be taken concurrently, or formal prerequisites and/or competency equivalent for advanced study in Japanese.
Introduction to pronunciation, reading, writing, conversation, and structure of the Japanese language.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

201. Intermediate Japanese (4)
Prerequisites: JAPN 102; Completion of GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Japanese.
Continuation of first year Japanese. Further development of listening, speaking, reading, writing, and communication.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

Prerequisites: JAPN 201; Completion of GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Japanese.
Continuation of first year Japanese. Further development of listening, speaking, reading, writing, and communication.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

250. Japanese Anime and Manga (3)
Students examine, analyze, and discuss selected topics in Japanese culture and modern society by analyzing Japanese animation (anime) and printed cartoons (manga). Familiarity with Japanese language is desirable but not required.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

301. Advanced Japanese (3)
Prerequisites: JAPN 202 or its equivalent as determined by the instructor.
Study of modern spoken and written Japanese involving advanced patterns and expressions. Emphasis on reading comprehension, vocabulary building and idiomatic usage.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

302. Advanced Japanese (3)
Prerequisites: JAPN 301 or its equivalent as determined by the instructor.
Study of modern spoken and written Japanese involving advanced patterns and expressions. Emphasis on reading comprehension, vocabulary building and idiomatic usage.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

311. Advanced Spoken Japanese (3)
Prerequisites: JAPN 202 or its equivalent as determined by the instructor.
Advanced study in modern spoken Japanese and Japanese communication.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

312. Advanced Spoken Japanese (3)
Prerequisites: JAPN 311 or its equivalent as determined by the instructor.
Advanced study in modern spoken Japanese and Japanese communication.
Native speakers of Japanese who have completed compulsory education in Japan may not enroll.

350. Japanese Language, Culture, and Communication (3)
Study of Japanese language and culture through sociolinguistic perspectives. Exploration of the interrelationship between the language and culture by focusing on verbal and nonverbal communicative behaviors. Taught in English and Japanese.
Letter grade only for Japanese majors.

370. Japanese Literature in English Translation (3)
Prerequisite: Completion of GL Foundation requirements.
Readings in translation of representative works of major literary genres in Japan covering both the classical and modern periods. Previous knowledge of the language is highly desirable, but not necessary.
(Lecture-discussion 3 hours.)

371. Survey of Japanese Literature (3)
Prerequisite: JAPN 302 or Instructor consent.
Survey of the major literary works from Kojiki to contemporary Japanese authors. Students reflect on the predominant movements, genres, rhetorical devices, literary techniques, and writers of the works. Conducted in Japanese and English. Letter grade only (A-F).

385. Japanese Language and Culture for Heritage Learners (3)
Prerequisite: By consent of instructor or a placement test.
Designed to address the particular needs of students of Japanese as a heritage language, the course emphasizes individual learning to improve formal use of the language in listening, speaking, reading and writing, and cultural knowledge.
May be repeated to a maximum of 6 units in different semesters.
Letter grade only (A-F).
421/.521. Selected Readings/Writing in Japanese (3)
Prerequisites: JAPN 302 or consent of instructor.
Readings from a selection of contemporary materials including literary works, magazines, newspapers, instructional and technical materials.
Letter grade only for Japanese majors.

422/.522. Technical Japanese (3)
Prerequisites: JAPN 421 or equivalent.
Development of receptive and productive skills using authentic materials drawn from business, humanities, sciences, and others that will be selected according to students' interest.
Undergraduates register in JAPN 422; graduates register in JAPN 522. (Lecture) Letter grade only (A-F).

451/.551. Japanese Civilization (3)
Prerequisites: JAPN 302 or equivalents as determined by the instructor.
Introduction and exploration of characteristic features of Japanese civilization and culture through studying selected topics and themes in fields such as art, humanities, sciences, and social sciences.
Conducted in Japanese.
Letter grade only for Japanese majors.

452. Japan: Its Land, People and Culture (3)
Prerequisites: JAPN 302 or 312, or instructor consent.
Students will study the land of Japan and learn how the land's physical features have influenced its people and culture, including history, way of life, and language. Taught in Japanese.
Letter grade only (A-F).

453. Japanese Culture as Social Process (3)
Prerequisites: JAPN 302 and 350, or instructor consent.
Major features of Japanese culture and society are analyzed. Key characteristics of contemporary Japanese society are compared with Western society, emphasizing processes in common. Taught in Japanese and English.
Letter grade only (A-F).

461/.561. The Structure of the Japanese Language (3)
Prerequisites: JAPN 302 or equivalents as determined by the instructor.
Introduction to phonology, morphology, syntax, semantics and discourse of modern Japanese. Conducted in Japanese with some readings in English.
Letter grade only for Japanese majors.

462/.562. Contrastive Analysis of English and Japanese (3)
Prerequisites: JAPN 302 and JAPN 312, or equivalent as determined by the instructor.
Letter grade only for Japanese majors.

463/.563. Acquisition of Japanese as a Second/Foreign Language: Theory and Practice (3)
Prerequisites: LING 101 or 170, or JAPN 461, and JAPN 302 or Placement Test.
Theoretical and practical background of language acquisition of Japanese as a second/foreign language. Aims at building knowledge of current research and its pedagogical implications. Conducted in Japanese with some readings in English.
Letter grade only for Japanese majors.

471. Readings in Modern and Contemporary Japanese Literature (5)
Prerequisite: JAPN 371, or equivalent as determined by the instructor.
Readings of representative works of modern and contemporary Japanese literature including short stories, novels, diaries, memoirs, poetry, and excerpts from novels and plays. Taught in Japanese.
Letter grade only for Japanese majors.

481/.581. Principles and Practice of Teaching Japanese (3)
Prerequisites: JAPN 312, 318, 330, and at least one 400-level course, or equivalents as determined by the instructor.
Introduces Japanese language pedagogy in the U.S. with principles of second language acquisition, and explores linguistic/ pedagogical/curricular issues. Conducted in Japanese with some readings in English.
Letter grade only for Japanese majors.

490. Special Topics in Japanese (3)
Prerequisite: Consent of instructor.
Select topics related to advanced Japanese study.
May be repeated to a maximum of 6 units with different topics.

492/.592. Japanese Internship (1-6)
Prerequisites: Consent of instructor; completion of a minimum of 15 upper division units required for the major in Japanese.
Field work in Japanese under joint direction of activity sponsor and faculty.
Undergraduates register in JAPN 492; graduates register in JAPN 592. Credit/no credit grading only.

497. Directed Studies (1-6)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member.

GRADUATE LEVEL

521/.421. Selected Readings/ Writing in Japanese (3)
Prerequisites: JAPN 302 or consent of instructor.
Readings from a selection of contemporary materials including literary works, magazines, newspapers, instructional and technical materials.
Letter grade only (A-F).

522/.422. Technical Japanese (3)
Prerequisites: JAPN 421 or equivalent.
Development of receptive and productive skills using authentic materials drawn from business, humanities, sciences, and others that will be selected according to students' interest.
Undergraduates register in JAPN 422; graduates register in JAPN 522. (Lecture) Letter grade only (A-F).

551. Japanese Civilization (3)
Prerequisites: JAPN 302 or equivalents as determined by the instructor.
Introduction and exploration of characteristic features of Japanese civilization and culture through studying selected topics and themes in fields such as art, humanities, sciences, and social sciences.
Conducted in Japanese.
Letter grade only (A-F).

561/.461. The Structure of the Japanese Language (3)
Prerequisites: JAPN 302 or equivalents as determined by the instructor.
Introduction to phonology, morphology, syntax, semantics and discourse of modern Japanese. Conducted in Japanese with some readings in English.
Letter grade only (A-F).
562/462. Contrastive Analysis of English and Japanese (3)
Prerequisites: JAPN 302 and JAPN 312, or equivalent as determined by the instructor.
Letter grade only (A-F).

563/463. Acquisition of Japanese as a Second/Foreign Language: Theory and Practice (3)
Prerequisites: LING 101 or 170, or JAPN 461; and JAPN 302 or Placement Test.
Theoretical and practical background of language acquisition of Japanese as a second/foreign language. Aims at building knowledge of current research and its pedagogical implications. Conducted in Japanese with some readings in English.
Letter grade only (A-F).

581/481. Principles and Practice of Teaching Japanese (3)
Prerequisites: JAPN 302, 312, 350, and at least one 400 level course, or equivalents as determined by the instructor.
Introduces Japanese language pedagogy in the U.S. with the principles of second language acquisition and explores linguistic, pedagogical, socio-cultural issues. Conducted in Japanese with some readings in English.
Letter grade only (A-F).

592/492. Japanese Internship (3-6)
Prerequisites: Consent of instructor; completion of a minimum of 15 upper division units required for the major in Japanese.
Field work in Japanese under joint direction of activity sponsor and faculty.
Undergraduates register in JAPN 492; graduates register in JAPN 592. Credit/No Credit grading only.

695. Directed Readings (1-3)
Prerequisites: Consent of Graduate Advisor.
Readings in Japanese on an individual basis.
Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisites: Consent of Graduate Advisor.
Research in Japanese on an individual basis.
Letter grade only (A-F).
Minor in Jewish Studies (code HISTM02)

The Minor in Jewish Studies consists of a minimum of 19 units. Jewish Studies encourages undergraduate students to acquire the academic breadth and depth to comprehend the major issues, themes, and concepts of a culture and heritage that has had a distinct impact on world civilization. The interdisciplinary minor consists of courses in the area of disciplines, including literature, history, religion, geography, Hebrew language, and politics. Students will expand their understanding of the broader dynamics of the Jewish experience through different eras and geographical settings, both in Israel and the Diaspora.

Requirements

1. Required core courses: HIST 141.
2. At least three units from the following courses: CWL 342, CWL 344.
3. At least four units from the following courses:
   HEBW 101A, HEBW 101B.
4. At least three units from the following courses: HIST 304, HIST 347, HIST 348, HIST 393, HIST 428, HIST 431, HIST 432, HIST 470.
5. At least three units from the following courses: RST 310, RST 311, RST 312, RST 314, RST 315, RST 317, RST 319, RST 320A, RST 320B, RST 460.
6. The remaining three units to complete the minor may be satisfied through any of the courses listed above, or GEOG 309I, POSC 367, or other courses as determined by the advisor.

6. In the event that no course is available to satisfy a requirement of the minor, the missing course or courses may be substituted as determined by the program advisor.

Hebrew Courses (HEBW)

101A. Modern Hebrew (4)
Prerequisite or Corequisite: Any Foundation course.
Designed for non-native speakers. Introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.
For non-native speakers only, and is not open to heritage speakers or native speakers of Hebrew. For the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

101B. Modern Hebrew (4)
Prerequisite: HEBW 101A. Corequisite: Any Foundation course.
Continuation of HEBW 101A. Introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.
For non-native speakers only, and is not open to heritage speakers or native speakers of Hebrew. For the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
Bachelor of Arts in Journalism
(code JOURBA80) (120 units)

General Requirements

Computer Prerequisites to Entering Journalism Classes: All students entering journalism skills courses must be familiar with at least one established word-processing program at the level of at least 40 words per minute.

Professional Skills: JOUR 101, 120 and 311 are the basic writing and reporting courses for journalism, and are prerequisites for most upper division skills courses in the department.

Residency Requirements: Transfer students must complete at least 50 percent of their upper-division journalism units at CSULB. Journalism courses taken on another campus may not be substitued for CSULB journalism courses without the approval of the CSULB Department of Journalism.

Distribution of Units: Journalism majors may apply no more than 40 units of journalism courses toward the 120 units required for the degree of Bachelor of Arts. A minimum of 65 units must be in the traditional liberal arts and sciences — courses offered by the Colleges of Liberal Arts and the College of Natural Sciences and Mathematics.

With a minimum of 65 units of liberal arts, Journalism majors may elect up to 15 units outside Journalism and liberal arts and sciences in courses that fall into other categories. Often these are in areas such as business, the arts or health. No more than 15 units in such areas may count toward the 120 units required for graduation. Students should meet with a journalism adviser before declaring the major, the minor or a minor concentration.

Journalism majors are required to have a minor or a minor concentration. Each CSULB department defines its own minor, and those vary between 18 and 24 units. The minor concentration is composed of 15 units, usually two lower-division and three upper-division courses, and it is selected in consultation with a journalism adviser.

Students Interested in Pursuing the Single-Subject Credential in English/Journalism should consult the teaching credential adviser in the Department of English.

Specific Requirements

This degree program requires a minimum of 34 and a maximum of 40 units in the major, of which seven are lower division and 27 to 33 are upper division.

Lower Division: JOUR 101, 110 and 120.

Upper Division: JOUR 311, 430, 431, 495, two courses chosen from among 312, 315, 370, 412, 415, 418 and 494 and three courses chosen from among 300, 305, 310, 316, 320, 321, 331, 340, 374, 380, 382, 420, 422, 424, 440, 471, 473, 480 and 482. In addition, students may take up to five additional units chosen from either of the preceding two lists and/or JOUR 490, 498 and 499.

In addition to the "C" average in the overall major and the "C" average in the upper division major at CSULB, both of which are required by the University, journalism majors must earn a "C" or better in each of these core courses: JOUR 110, 120, 311, 430, 431 and 495.
Minor in Journalism (code JOURM01)
A minimum of 21 units including: JOUR 110, 120, 311, 430 and 431.

Courses (JOUR)

LOWER DIVISION

101. English for Media Writers (1)
Intensive review of grammar, word usage, spelling, and the principles of clear and concise writing for student writers who seek careers in the mass media. Letter grade only (A-F). (1 hour skills.)

110. Introduction to Mass Communications (3)
Prerequisites/Corequisites: One GL Foundation Course.
Origins, development and contemporary role of newspapers, magazines, radio, television, books, new media and films, and such related fields as advertising and public relations. Letter grade only (A-F). (Lecture/Discussion 3 hrs.)

120. Writing Across the Media (3)
Course provides introductory overview on writing techniques used in the print media, in broadcast media, in online media and in preparation of materials for media professionals by public relations practitioners. Focus is on writing news stories and meeting deadlines. Letter grade only (A-F). (Lecture 2 hours, Laboratory 2 hours)

220. Understanding News Media (3)
Prerequisite: Completion of the GE Foundation courses.
Examination of news media in the U.S. including print, broadcast and online news media sources, news narratives, methodologies, ownership patterns, value systems, thought processes, effects and trends.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students must formal prerequisites and/or competency equivalent for advanced study.

300. Beginning Photojournalism (3)
Prerequisites: JOUR 311 with a grade of "C" or better.
Introduction to photojournalism for newspapers, magazines, corporate communications, new media and public relations. Course covers types of photos needed for all aspects of editorial photography, including lighting, use of filters, working with subjects and the photo picture page. Letter grade only (A-F).

305. Media Design (3)
Prerequisites: JOUR 311 with a grade of "C" or better.
Gives students experience in design of printed and online materials. Examines theories, principles and techniques of contemporary media design. Covers historical roots of media design and acquaints students with use of photographs, illustrations, graphs, type and color in visual communication. Letter grade only (A-F).

310. Writing for the Daily Forty-Niner (3)
Prerequisites: "C" or better in JOUR 120, or consent of instructor.
Students cover a beat and/or write general assignment stories as well as produce online story packages for the Daily Forty-Niner newspaper and website. Letter grade only (A-F).

311. Reporting and Information Gathering (3)
Prerequisites: JOUR 120 with a grade of "C" or better.
Teaches students to report, gather, process and transform messages. Includes seeking sources in libraries, public records, books, magazines, journals, corporate reports, computer databases and personal interviews. Letter grade only (A-F).

312. Global News Media (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper-division standing.
Analysis of world's news media with an emphasis on structure, ownership, social and political roles and the degree of government pressure and control. Particular attention paid to economic, political and mass media globalization and its effects on developing countries. Letter grade only (A-F). Course fee may be required.

315. Journalism as Literature (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper-division standing.
Set criteria for defining journalism and literature. Examines great journalistic work of the last 2,000 years, from Plutarch and Caesar to Addison, Steele and Swift, through Twain, Crane, Markham and Caruso, to Whitman, Updike, Didion and Tom Wolfe.

316. Feature Writing (3)
Prerequisites: JOUR 311 with a grade of "C" or better.
Covers the feature article for newspapers, magazines and online media. Discusses style, organization, human interest, use of quotes, leads and article ideas. Emphasis is on clear readable prose. Letter grade only (A-F).

320. Reporting Public Affairs (3)
Prerequisite: JOUR 311 with a grade of "C" or better.
News coverage of police, courts and city, county, state and federal government. Study and practice in methods of investigative reporting. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

321. Introduction to Broadcast Writing (3)
Prerequisite: JOUR 311 with a grade of "C" or better.
Techniques for information gathering, scripting, selecting video and choosing sound bites for rows and feature stories. Letter grade only (A-F). Lecture two hours, Laboratory 2 hours.

331. Publication Editing and Makeup (3)
Prerequisite: JOUR 311 with a grade of "C" or better.
Study of methods in newspaper, magazine and online production and practice in preparing copy for publication, including editing, proofreading, headline writing, using photographs and other display materials, handling news service copy and basic page design. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

340. Introduction to Online Journalism (3)
Prerequisite: JOUR 311 with a grade of "C" or better.
An introduction into the Internet and World Wide Web from the perspective of online journalism. Course provides an introduction to the basics of online publishing and writing. Students work with the tools and technologies to create their own websites and write content for the online environment. Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

370. Principles of Public Relations (3)
Public relations fundamentals: research, planning, communication and evaluation. Study of targeting special publics, the use of public relations tools, developing public relations programs and the importance of social responsibility. Letter grade only (A-F).
374. Written Communication for Public Relations (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 370.
   Students learn to write a wide variety of internal public relations
   materials, including backgrounders, position papers, proposals,
   letters, memos, speeches and crisis communication plans.
   Students develop a crisis communication plan for a nonprofit
   organization as a service-learning project.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

380. Advanced Photojournalism (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 300.
  Photographic reporting with a camera. In-depth study of
   photojournalism with emphasis on creation of photo story ideas,
   photo essays, and feature photos. Photo editing and layout as
   applied to newspapers, magazines, and online media.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

382. Radio News Production (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 321.
   Reporting, writing and editing news and feature stories for
   radio news program. Special emphasis is on radio production
   techniques.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

412. Theories of Mass Communication (3)
   Contemporary theories of mass communication. An overview of
   development of communication theory as it relates to mass media.
   Evaluation of theories of communication process through analysis
   of original research upon which theories were founded. Source,
   message, and audience effects of communication process.
   Letter grade only (A-F).

415. Minorities and the Media (3)
   Analysis of the issues pertaining to minorities (ethnic, racial,
   national origin, gender, sexuality, physical, age and mental ability)
   and how they interface with the mass media.
   Letter grade only (A-F).

418. Media History (3)
   Overview of development of mass media in the United States and
   around the world. Major media figures, trends and industries are
   examined. Examines how individuals' interpretations of past
   historical events affect their sense of the present and what should
   occur in the future.
   Letter grade only (A-F).

420. Investigative Reporting (3)
   Prerequisite: JOUR 311 with a grade of "C" or better.
   Students work in a reporter-editor relationship with instructor in
   researching and writing in-depth pieces on such complex issues as
   mass transit, air pollution, city government, poverty, crime, housing
   and drug abuse. Computer-assisted research and investigative
   and interviewing techniques stressed.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

422. Senior Media Production (1)
   Advanced work on Forty-Niner Publications as editors.
   Credit/No Credit grading only. May be repeated for a maximum of
   3 units in different semesters with consent of instructor.

424. Computer Assisted Reporting (3)
   Prerequisite: JOUR 311 with the grade of "C" or better
   Advanced techniques of new media research stressed.
   Development of skills in document retrieval and analysis
   discussed, with emphasis on publication of in-depth piece.
   Letter grade only (A-F).

430. Law of Mass Communications (3)
   Prerequisite: Junior or senior status.
   Principles and case studies of law of the press, radio, television,
   advertising, public relations and new media with emphasis on
   constitutional guarantees, prior restraints, libel, contempt, privacy,
   taxation, licensing, shield laws, free press vs. fair trial, copyright
   and other laws affecting the mass media.
   Letter grade only (A-F).

431. Mass Media Ethics (3)
   Prerequisite: Junior or Senior Status.
   Study of ethical codes and value systems used in writing,
   producing and presenting news in the United States. Philosophical
   foundations of moral theory and various approaches to ethical
   decisionmaking for journalists and other media practitioners.
   Letter grade only (A-F).

440. Writing for the Web (3)
   Prerequisite: JOUR 311 with a grade of "C" or better
   Understanding online journalism and tools and technologies
   necessary for online publication. Students develop skills in
   computer-assisted reporting methods to conduct online journalistic
   research. Students publish work on class website and other
   professional venues.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.
   Course fee may be required.

471. Public Relations Management and Campaigns (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 370.
   Students work in agency situation to develop a business proposal
   for client involving a formal written plan and oral presentation.
   Students serve as consultants and develop programs for a
   nonprofit organization as a service-learning project.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

478. Public Relations Case Studies (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 370.
   Case studies used to acquaint students with problems encountered
   when working in profit and nonprofit sectors. Emphasis placed
   on analytic planning, critical thinking and programmatic skills.
   Students develop research study examining a public relations
   issue in depth.
   Letter grade only (A-F).

480. Advanced Media Graphics and Photo Editing (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 365.
   Principles of graphics and picture selection for newspaper,
   magazine and online media. Emphasis on preparing material –
   written and visual – for use as single picture or layout presentation.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

482. Television News Production (3)
   Prerequisite: JOUR 311 with a grade of "C" or better, JOUR 321.
   Scripting, voicing, shooting and editing news and feature stories
   for cablecast student program. Special emphasis on videography
   and editing.
   Letter grade only (A-F). Lecture 2 hours, Laboratory 2 hours.

490. Special Topics in Mass Communications (1-3)
   Prerequisite: JOUR 311 with a grade of "C" or better
   Topics of special interest in mass communications selected for
   intensive study. Topics will be announced in the Schedule of
   Classes.
   May be repeated to a maximum of 6 units.

494. Research Methods in Mass Communications (3)
   Basic techniques of research in mass communications and
   mass media. Overview of theory building and hypothesis testing
   procedures as applicable to current problems in the mass
   communication field. Scientific methods, survey and experimental
   design, field studies, analysis of data.
   Letter grade only (A-F).

2009/2010 CSULB Catalog • Journalism • 489
495. Senior Seminar (3)
Prerequisite: JOUR 311 with a grade of "C" or better, senior status.
Analysis of issues and problems in journalism and mass
communications. Examines theoretical and applied issues
related to the media. Discussion topics may include international
communication, copyright, social responsibility, ethics, free speech
and journalism history, among others.
Letter grade only (A-F).

498. Internship (3)
Prerequisite: JOUR 311 with a grade of "C" or better, Junior or
senior status.
Work of an editorial or writing nature at least 10 hours a week with
a journalism or PR organization in the Los Angeles-Orange County
area. Work edited and evaluated by on-site supervisors. Regular
reports to faculty supervisor and meetings with supervisor.
Credit/No Credit grading only.

499. Special Projects (1-3)
Prerequisite: JOUR 311, with a grade of "C" or better, Journalism
Major only.
Advance approval of instructor; (permit required to enroll).
Research in the field of journalism in broadcast, newspaper,
magazine, public relations, advertising, new media or other related
fields. Students must meet once a week with instructor.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).
KINESIOLOGY
College of Health and Human Services

Department Chair: Sharon R. Guthrie
Department Office: Health and Human Services (HHS) 2, Rm. 105
Telephone: (661) 954-4051
Website: http://www.csulb.edu/collisions/health/departments/kines

Department Coordinator: Stacia Ticer

Career Possibilities
Allied Health Professions Programs: Certified Athletic Trainer • Education/Professor • Researcher • Certified Kinesiotherapist

Exercise Science and Fitness: Strength and Conditioning Coach • Education/Professor • Researcher • Exercise Technician • Fitness Specialist • Exercise Physiologist • Exercise Specialist

Physical Education Teacher Education (PETE): Physical Education • Adapted Physical Education Specialist • Sport Coach • High School Athletic Administrator • Education/Professor • Researcher

Sport Studies: Sport Coach • Education/Professor • Researcher • Mental Training Consultant/Sport Psychologist • Sport Manager • College Athletic Administrator

(For more information, see www.careers.csulb.edu.) Various entry-level training positions are available for graduates, regardless of academic discipline.

Introduction
The mission of the Department of Kinesiology is to facilitate wellness among individuals through the study and application of human movement principles across the lifespan and through the management of and participation in physical activity, exercise, and sport. This is accomplished by providing excellence in instruction, scholarship, and service through a multidisciplinary approach including: 1) programs at the undergraduate and graduate levels designed to prepare professionals in human movement, sport, and exercise-related careers; 2) courses that promote general education and interdisciplinary concepts; 3) activity courses and programs designed to induce physical, cognitive, and affective adaptations; and 4) specialized service programs for the community.

The Department's programs offer a course of study for students wishing to prepare for professional careers or related disciplines in physical education teaching (Adapted, Elementary, and Secondary), athletic training, fitness-wellness, exercise science, kinesiotherapy, sport psychology and coaching. The programs have been developed from physiological, psychological, biomechanical, and sociological principles. The Department also serves the needs of students completing majors in other fields who find that certain aspects of kinesiology are important to their professional objectives and personal interests. In meeting the educational needs of these students, the Degrees, Certificates, and Minor available in the Department of Kinesiology include:

- Bachelor of Arts in Kinesiology in two options
  - Bachelor of Science in Kinesiology in five options
  - Master of Arts in Kinesiology in four options
  - Master of Science in Kinesiology in four options
  - California Single Subject Preliminary Teaching Credential Programs in Physical Education (K-12)
  - Adapted Physical Education Specialist Credential (K-12)
  - Minor in Physical Education: Single Subject Credential Add-on
  - Wilderness Studies Certificate
  - Kinesiotherapy Certificate

The Department of Kinesiology, in addition to its Degrees, Certificates, and Minor, assumes the responsibility for the psychological, physiological, and sociological needs and interests of the college student through general education, interdisciplinary, and physical activity course offerings. Students enrolling in physical education activity courses assume responsibility for satisfactory health status appropriate to the class activity.

In addition to the degree requirements for the Bachelor of Arts in Kinesiology and the Bachelor of Science in Kinesiology, the Major must meet the following Department policies and requirements for University graduation:

1. Each major course and prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than a "C" is received must be retaken and successfully completed prior to enrolling in any other course for which it is a prerequisite.
2. Upper-division courses may not be waived by substitution or examination without Department petition and approval.
3. Department approval.

Undergraduate Programs

Bachelor of Arts in Kinesiology

Students pursuing a Bachelor of Arts degree in Kinesiology must complete lower division and upper division core courses and skill proficiency requirements plus courses in a specific area (Option). In meeting the requirements of this degree, the Department offers three specialized Options for study which permit students to develop a conceptual understanding related to human movement and to focus on preparation for one or more specific occupations. The student must demonstrate 1) physical skill proficiency, 2) knowledge of physical fitness, and 3) knowledge in the personal performance activity course completed according to the lower division core requirements for specific Options prior to graduation. A minimum of 120 units are required for graduation.

2009/2010 CSULB Catalog • Kinesiology • 491
Option in Adapted Physical Education – Teacher Education (code KPE_BA02) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Preliminary Teaching Credential in Physical Education (K-12) with a specialist credential in adapted physical education. The emphasis is placed on teaching public school physical education to students with disabilities in preschool through grade 12. The academic and professional course work is designed to provide students with philosophical, theoretical, and applied concepts of teaching adapted physical education.

Lower Division: BIOL 207, 208; PSY 100; KIN 149A, 237, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 270.
Upper Division: KIN 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 387, 388, 427, 460.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training; Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer, American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Completion of this Option meets Commission on Teacher Credentialing requirements for subject matter competence for the Single Subject Credential in Physical Education. In addition to subject matter competence, prospective teachers must complete professional preparation through the Single Subject Credential Program. Refer to the Single Subject Teacher Education section of the Catalog for details. Note: The Option in Adapted Physical Education – Teacher Education is being revised to meet new state standards for subject matter competence for physical education teachers. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements for the Option in Adapted Physical Education – Teacher Education will be in effect and supersede current requirements.

Option in K-12 Physical Education – Teacher Education (code KPE_BA04) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Preliminary Teaching Credential in Physical Education (K-12). The emphasis is placed on teaching public school physical education to students in grades 6 through 12. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching secondary school physical education.

Completion of this Option meets the subject matter competence requirement for the Single Subject Credential in Physical Education (code 175). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Physical Education teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this catalog or the Single Subject Credential Program website (www.csu.full.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Physical Education Advisor early to plan their program.

The Physical Education Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

Lower Division: BIOL 207, 208; PSY 100; KIN 149A, 237, 250, 251, 253, 256, 257, 261, 264, 265, 266, 267, 268, 270.
Upper Division: KIN 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 457, 460, 461, 477.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training; Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer, American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Bachelor of Science in Kinesiology

Students pursuing the Bachelor of Science degree in Kinesiology must complete the course requirements and the physical fitness proficiency of each Option. Students may select their area of specialization from the Options described below. These Options develop a student who has an integrated conceptual understanding of the discipline and its relationship to human movement. Each Option focuses on foundation preparation for a specific occupation or graduate work.

Option in Exercise Science (code KPE_BS01) (120 units)

This Option is designed primarily for those students interested in careers in exercise physiology, biomechanics, or motor control/learning as well as those students contemplating graduate work in those areas or one of the health professions, e.g., physical therapy.

Requirements

Core Courses: BIOL 207, 208; KIN 300, 301, 312.
Lower Division: MATH 113 or higher; CHEM 111A, 111B; KIN 203; PHYS 100A, 100B, PSY 100.
Upper Division: KIN 405, 441; KIN 430 or 431; KIN 483 or BIOL 260; Select three courses from KIN 339L, 462, 465, 466.
*If not taken as one of the major required upper division courses.
A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross); Community First Aid & Safety or Emergency Response or Workplace Training; Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Option in Fitness (code KPE_BS02) (120 units)

This Option is designed for students interested in careers in the fitness industry, e.g., fitness director, manager, program specialist, coordinators, personal trainer, or group instructors in corporate, commercial, YMCA, or other public/private facility.

Core Courses: BIOL 207, 208; KIN 300, 301, 312.
Lower Division: KIN 115; PSY 100 and seven physical activity units distributed over a minimum of two activity categories:
- Aquatics: KIN 125A, 125B, 237;
- Combatives: KIN 106A, 148A, 149A;
- Dance: KIN 182, 280;
- Upper Division: KIN 332, 335, 339, 363, 364, 367, 389, 405, 417, 469, 470, 493, 498D.

Elective Courses: Select twelve units from the following courses: NUTR 439, H SC 421, 423, 427, 429; KIN 207, 309, 315, 332*, 335*, 462, 465, 495; REC 421, 423, 425, 427.

* If not taken as one of the major required upper-division courses.

A fieldwork, field experience, or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training; Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Option in Kinesiology (code KPE_BS03) (120 units)

This Option is designed primarily for those students interested in careers which provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions. Students interested in certification by the American Kinesiology Association (AKTA) must complete additional requirements. Please consult the Department Coordinator and the Kinesiology Certificate Program for additional information.

Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater that the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Kinesiology is an impacted program and has the following supplementary admission criteria.

To be eligible for admission to the Bachelor of Science in Kinesiology Option in Kinesiology, applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must not meet requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 207, BIOL 208, PSY 100, and KIN 210 or their equivalents. Applicants must have completed PSY 200 or its equivalent with a grade of "C" or better. Applicants must have completed a minimum of 100 hours of observation or active participation in a therapeutic or rehabilitation setting. Applicants must submit a supplemental application to the CSULB Department of Kinesiology by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application is available from the KIN Department Office or the KIN web site (www.csulb.edu/ kpe). The supplemental application must be accompanied by 3 letters of recommendation, one letter must be from the therapeutic or rehabilitation setting noted above. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average, with a minimum of 2.75.

Requirements

Core Courses: BIOL 207, 208; KIN 300, 301, 312.
Lower Division: PSY 100, 110, 141, 200; KIN 210, 217, 263, and six activity units selected from the following:
- Upper Division: GERN 400 or BSN 301; HHS 374; KIN 309, 315, 320, 332 or 335, 427, 489F; PSY 341, 370.

A fieldwork, field experience or internship course requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training; Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Option in Sport Psychology and Coaching (code KPE_BS04) (120 units)

The Option in Sport Psychology and Coaching has two Concentrations – one in Sport Psychology and one in Coaching. The course work for both concentrations is the same except for the activity courses and the elective courses. The Option is designed for students interested in careers in: 1) sport psychology; and 2) coaching outside the public school system (K-12), e.g., coaching professional athletes, coaching youth-sport athletes, and coaching in sport academies.
Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Upper Division: KIN 315, 332I, 335, 339I, 472, 475, 478; PSY 356.

Elective Courses for the Concentration in Sport Psychology: Select 15 units (minimum 6 units from KIN and 6 units from PSY) from the following courses: HHS 374; HSC 427; KIN 338, 471, 489A, 495, 497, 499; PSY 301, 332, 355, 370, 373, 475.

Elective Courses for the Concentration in Coaching: Select 12 units (minimum 6 units from KIN) from the following courses: COMM 305, 335, 411; HSC 427; KIN 338, 462, 489A, 495, 497, 499; MTEC 300, 339; REC 321, 322, 324, 340, 427; PSY 351, 453; Select 3 activity units from the following: KIN 250, 253, 255, 257, 264, 266, 267, 268.

A fieldwork, field experience, or internship requires current certification in First Aid (American Red Cross: Community First Aid & Safety or Emergency Response or Workplace Training: Standard First Aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.

Option in Athletic Training (code KPE_B505) (120 units)

This Option is designed for students interested in an athletic training career in the specialization of injury and illness prevention, assessment, treatment and rehabilitation for athletes and all physically active people, including the general public. A National Athletic Trainers' Association Board of Certification, Inc. (BOC) certified athletic trainer works in physicians offices, rural and urban hospitals, hospital emergency rooms, urgent and ambulatory care centers, military hospitals, physical therapy clinics, high schools, college universities, commercial settings, professional sports teams and performing arts companies. A minimum 120 units are required for graduation.

The athletic training Option presents students two paths of educational study. One path of study offers students an overview of athletic training courses that may be applied to related allied health programs. The second path of study prepares a student for a career in athletic training. In addition to the Option's course work, for a student to be eligible to take the National Athletic Trainers' Association Board of Certification, Inc. (BOC) examination, the completion of a two-year program in clinical education is required. The BOC requires the student to be a graduate from a college or university with an accredited athletic training program, then talk and pass the exam administered by the Omaha-based Board of Certification.

The Athletic Training Education Program (ATEP) is accredited by the Commission on Accreditation of Athletic Training Education (CAATE).

Students interested in the CAATE accredited Athletic Training Education Program and/or certification by the Board of Certification (BOC) should meet with the Program Director for Athletic Training Education for additional information.

Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filling period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Athletic Training (code KPE_B505) is an impacted program and has the following supplementary admission criteria:

To be eligible for admission to the Bachelor of Arts in Kinesiology, Option in Athletic Training, applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met requirements for admission to the university as a fresh, transfer or equivalent. Applicants must have completed the following prerequisite courses, each with a grade of "C" or better: BIOL 207, BIOL 208, and PSY 100. Applicants must have completed KIN 207 (Prevention and Care of Athletic Injuries) with a grade of "B" or better or the equivalent of these courses. Applicants must have completed a minimum of 150 hours of athletic training experience. At least 100 of these hours must be attained by participation in a traditional athletic training setting under the supervision of a NATABOC-certified athletic trainer. A maximum of 50 of these hours may be attained in an allied clinical setting, such as sports medicine clinics, summer sports camps, sports performance facilities, hospital facilities, or dance performance centers. Applicants must show proof of current First Aid (Community) certification, CPR (Community) certification, and AED certification. Applicants must submit a supplemental application to the CSULB Department of Kinesiology by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application is available from the KIN Department Office or the KIN web site (www.csulb.edu/kpe). The supplemental application must be accompanied by 3 letters of recommendation; one letter must be from the athletic training setting noted above. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average.

Requirements

Core Courses: BIOL 207, 208; KIN 300, 301, 312.

Lower Division: CHEM 100 or 111A or 114; NUTR 132; HSC 210; KIN 207, 263; PHYS 100A; PSY 100; BIOL 250 or MATH 105 or 106.

A fieldwork, field experience, or internship course requires current certification in First Aid (American Red Cross: community First Aid & Safety or Emergency Response or Workplace Training: Standard first aid or equivalent) and Cardiopulmonary Resuscitation (American Red Cross: Adult CPR or Adult, Infant & Child CPR or CPR for the Professional Rescuer; American Heart Association: Adult CPR or Adult, Infant & Child CPR or ACLS Provider or equivalent) prior to enrollment.
Adapted Physical Education Specialist Credential (code 490)

This program is designed for students interested in the administration and implementation of physical activity programs for persons with disabilities. Completion of this credential authorizes the California Adapted Physical Education Specialist Teaching Credential.

Requirements
1. Bachelor's degree with a teaching major in Kinesiology;
2. Must be obtained concurrently or after completion of K-12;

Minor in Physical Education Teaching (code KPE_UM01)

The minor in Physical Education Teaching is available to any non-Kinesiology major. This minor is designed for those students who are striving for an additional credential. With completion of this minor, the University will recommend the additional credential in Physical Education.

Requirements
A minimum of 34 units as follows: BIOL 107 and KIN 301 or BIOL 208 and KIN 300; KIN 315, 343, 370, 380, 460, 483; EDSS 300P; Eight physical activity units including: KIN 257, 265, 290 or 257; 253 or 255; 264 or 268; 266 or 267; 270.

In addition to the above, each student is required to demonstrate skill proficiency at an average of 3.5 level on a 5 point scale in KIN 343 and the 8 physical activity units completed to satisfy requirements for this minor. Only physical skill proficiency scores in the range of 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

Concentration in Physical Education Elementary Teaching

Requirements
A minimum of 21 units as follows: KIN 301, 312, 315, 370, 427, 476, 477.

Concentration in Physical Education Coaching

Requirements
A minimum of 20 units as follows: KIN 301, 207, 332; a minimum of 11 units selected in consultation with appropriate Kinesiology Advisor from the following: KIN 363, 475, 489B.

Certificate Programs

The Department of Kinesiology offers two different certificate programs each of which is related to a special emphasis provided in the curriculum. All certificate programs are open to students enrolled in the University who meet general admission requirements as follows:
1. Completion of 30 hours of course work;
2. A minimum 2.75 GPA in all completed course work;
3. Admission application and approval by a faculty committee in the certificate program selected.

Wilderness Studies Certificate (code KPE_CTO2)

This program is designed to develop leaders who can provide safe and challenging situations for individuals seeking self-fulfilling experiences in wilderness environments. The program of study will enable the student to acquire appropriate knowledge and skills, and to develop a personal philosophy reflecting understanding and concern for the protection of the environment and safety of participants in wilderness activities.

Requirements
1. Wilderness First Responder (WFR) Certification (50 hours)
2. Resume of Outdoor Experiences
3. Coursework (30-32 units): BIO 100; KIN 242, 244, 246A, 247A, 446, 449K; REC 427. Select three of the following: KIN 243A, 243C, 245; REC 430.

Kinesiotherapy Certificate (code KPE_CTO4)

This program is designed to prepare the student to pass the American Kinesiotherapy Association (AKTA) Certification Test. AKTA certification will qualify the therapist to provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes, and other private and public institutions or in private practice. The student will complete the Kinesiotherapy Option in the undergraduate curriculum plus 27 additional units. Information concerning the certificate can be obtained from the Director of the Kinesiotherapy Program in the Department of Kinesiology.

Students seeking National Kinesiotherapy Certification need to complete the Undergraduate Option in Kinesiotherapy, the Undergraduate Kinesiotherapy Certificate, plus 12 post-baccalaureate internship units with consensus of the Kinesiotherapy Advisor.

Requirements
1. Admission application and approval by Director;
2. Completion of the degree requirements of the Bachelor of Science: Option Kinesiotherapy;
3. Specialization course work requires a "B" grade average for AKTA Certification;
4. Course work: BIOL 107 or GERN 4001; HSC 210 or 411A or 411B or 427; KIN 210, 309, 320, 405 or 499, 427, 438/538, 488/588, 485, 489F, PSY 341.

Graduate Programs

Two degree programs are available to the student: Master of Arts degree in Kinesiology with five options and Master of Science degree in Kinesiology with four options. The student may select the thesis/project track or the comprehensive examination track. The student who chooses the thesis/project track is required to complete a thesis or a project. The student who chooses the comprehensive examination track is required to take KIN 665. The minimum unit requirement for the MA degree major program is 30 units for thesis/project students and 36 units for comprehensive examination students. The minimum unit requirement for the MS degree major program is 33 units for thesis/project students and 39 units for comprehensive examination students.
Admission Criteria
1. A bachelor's degree from an accredited institution with a major in Kinesiology/Physcial Education or the equivalent;
2. If a prospective graduate student has a baccalaureate degree in a field other than Kinesiology or Physical Education, the student may be required to take prerequisite or foundational upper-division undergraduate coursework in Kinesiology. Students must consult with the Associate Chair for Graduate Studies and/or major advisor before enrolling in foundational courses. The courses, which vary depending on the student's academic background and Option, may be taken at CSULB or another college/university. All foundational coursework must be completed prior to Advancement to Candidacy;
3. An overall undergraduate GPA of 2.5 or better and an upper division Kinesiology/Physical Education major GPA of 2.75 or better;
4. A minimum cumulative score of 450 on the verbal, 450 on the quantitative and 3.5 on the analytical writing sections of the Graduate Record Examination.

Advancement to Candidacy
1. Completion of the general University requirements for advancement to candidacy;
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
3. A graduate program must have approval of the student's advisor, Department Associate Chair for Graduate Studies, and Associate Dean of Graduate Studies, Research, and Faculty Affairs for the College of Health and Human Services.

Master of Arts in Kinesiology
Five Options are under the Master of Arts degree in Kinesiology and are described below. The core courses for thesis students are KIN 590, 696, and 698. The core courses for comprehensive examination students are KIN 590, 695, and 696.

Option in Adapted Physical Education
(code KPE_MA04)
This Option is designed to provide advanced preparation in adapted physical activity and the study of individuals with disabilities across the lifespan (preschool to adult).

Requirements
1. KIN 590 and 696;
2. Minimum of 12 units selected from the following: KIN 537, 538, 546, 638, and 697;
3. KIN 698 (4 units) for thesis/project students plus a minimum of 8 elective units;
4. KIN 695 for comprehensive exam students plus a minimum of 15 elective units.

Option in Coaching
(code KPE_MA07)
This option is designed to prepare students for careers in coaching and in student-athlete development.

Requirements
1. KIN 512, 577, 590, 593A, 696; KIN/COUN 539;
2. For Student-Athlete Development students, KIN 523;
3. For coaching students, KIN 578;
4. Student-Athlete Development Students select two from the following list of elective courses: COUN 515, 540, 547, 548, 552, 644B; KIN 572, 573, 574, 575, 578, 593A, 633;
5. Coaching students select two from the following list of elective courses: KIN 523, 540, 551, 560, 562, 571, 572, 573, 574, 593A, 630, 633.
6. KIN 698 (4 units) for thesis/project students;
7. KIN 695 for comprehensive exam students, plus a minimum of 6 elective units from #4 or #5 above that do not duplicate a previous selection and/or KIN 597.

Option in Pedagogical Studies
(code KPE_MA02)
The program of study for this Option is offered only through University College Extension Services at a higher tuition rate. Instruction in this Option is presented in an accelerated cohort program format over 24 months.

This Option provides preparation in student design, instructional development, and evaluation to improve the supervision of skills and develop expertise in behavioral research methods.

Requirements
1. KIN 524, 525, 526, 590, 696, and 697;
2. KIN 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
3. KIN 695 for comprehensive examination students, plus a minimum of 15 elective units.

Option in Sport Management
(code KPE_MA03)
The program of study for this Option is currently offered only through University College Extension Services at a higher tuition rate. Instruction in this Option is presented in an accelerated cohort program format over 18 months.

This Option prepares individuals for careers in athletic administration and sports management. Upon completion of this program (36 units), individuals will be prepared to work in the sports industry in a variety of settings, including professional, intercollegiate, and interscholastic sports and sport-related businesses.

Requirements
1. KIN 511, 512, 513, 514, 521, 577, 590, 591, 592A (6 units) and 696;
2. KIN 698 (4 units) for thesis/project students (Not available to students in the cohort format);
3. KIN 695 for comprehensive exam students.

Option in Individualized, Program, and Generalized Areas
(code KPE_MA00)
This Option is designed to provide the student with curriculum activities that combine one or more Option areas into a program of study. This Option is developed by the student with the advisement of a graduate faculty member and/or the Associate Chair for Graduate Studies. A statement of rationale for the proposal must accompany the program of study.

Requirements
1. KIN 690 and 696;
2. Minimum of 15 units from 500 and/or 600 level coursework in KIN;
3. KIN 698 (4 units) for thesis/project students, plus a minimum of 5 elective units (individualized);
4. KIN 695 for comprehensive examination students, plus a minimum of 12 elective units (generalized and program areas only).

**Master of Science in Kinesiology**

Four Options are under the Master of Science degree in Kinesiology and are described below. The core courses for thesis/project students are KIN 580, 590, 696, and 698. The core courses for comprehensive examination students are KIN 580, 590, 695, and 696.

**Option in Exercise Science (code KPE_MS01)**

This Option is designed to provide up-to-date theoretical principles and practical experiences in exercise physiology and biomechanics.

1. Required Courses: KIN 540, 551, 530, 590, and 606 (15 units);
2. Elective Courses: Select five of the following courses: KIN 541, 552, 553, 562, 565, 594, 630, or 697 (15 units);
3. KIN 698 (4 units) for thesis/project students;
4. KIN 695 for comprehensive examination students, plus a minimum of 6 elective units. (9 units)

**Option in Sport and Exercise Psychology (code KPE_MS02)**

This Option is designed to prepare students for careers in sport and exercise psychology, in particular as athletic performance enhancements specialists and/or as researchers and teachers in academic settings. Requirements

1. KIN 572, 578, 577, 590, 633, 696;
2. Two of the following courses: COUN 510, 513, 515, 522; KIN 512, 571, 573 or 574, 575, 630, 697; PSY 575;
3. KIN 608 (4 units) for thesis/project students, plus a minimum of 5 units from #2 above that do not duplicate a previous selection;
4. KIN 695 for comprehensive exam students, plus a minimum of 12 elective units from #2 above that do not duplicate a previous selection.

**Option in Sports Medicine and Injury Studies (code KPE_MS03)**

This Option is designed to provide an in depth study in the many health-related problems related to individuals who are physically active.

Requirements

1. KIN 540, 551, 560, 561, 562, 590, 633, 696, and 697;
2. KIN 608 (4 units) for thesis/project students, plus a minimum of 3 elective units;
3. KIN 606 for comprehensive examination students, plus a minimum of 9 elective units.

**Option in Exercise Physiology and Nutrition (code KPE_MS04)**

This Option is designed to prepare students for careers in exercise physiology and nutrition.

Requirements

1. Completion of a minimum of 24 units for thesis/project and a minimum of 39 units for comprehensive examination;
2. KIN 551, 560, 552 or 565, 590, and 690 or FCS 696;
3. Select two from the following list of courses: KIN 552, 553, 562, and 565;
4. Select three from the following: NUTR 436, 438, and 439; FCS 530A, 530B, 531, and 655B;
5. KIN 696 or FCS 698 (4 units) for thesis/project;
6. KIN 695 for comprehensive examination plus a minimum of 6 elective units from KIN 594, 595, and #2 and #3 above.

* If not taken as one of the required courses in the Option.

**Courses (KIN)**

**ACTIVITY COURSES**

**100-198. Physical Education Activity (1)**

Broad range of physical education activities designed to provide opportunities to meet health, physical, and recreational needs and interests.

Maximum of 8 units may be applied toward University graduation requirement. Students assume responsibility for satisfactory health status appropriate for class activity. May be offered at beginning (I), intermediate (II), and advanced (III) levels. All classes are co-educational; students may enroll in activity courses offered by Department of Kinesiology. Courses offered within areas are:

*Individual/Dual Activities (1)*

100A. Archery. Course fee may be required.
100B. Intermediate Archery.
102A. Badminton
104A. Bowling. Course fee may be required.
104B. Advanced Bowling. Prerequisite: KIN 104A or consent of instructor.
108A. Golf
112A. Racquetball
114A/B. C. Tennis
145A. Gymnastics
152A. Yoga

*Combative Activities (1)*

108A. Fencing-Foil
107A. Fencing-Sabre
109A. Fitness Walking (1)
110A. Triathlon Fitness (1)
148A. Karate
149A. Self Defense

*Aquatics (1)*

121A. Sailing. Course fee may be required.
124A. Surfing
125A/B. Swimming
126A. Swimming Conditioning
127A. Aqua Aerobics (1)

*Fitness Activities (1)*

142. Group Exercise: Cardio
146A. Jogging
151A. Weight Training and Conditioning
152B. Intermediate Yoga
Prerequisite: KIN 152A or consent of instructor.

---

2009/2010 CSULB Catalog • Kinesiology • 497
Team Activities

161A. Basketball
162A. Beach Volleyball
165A. Flag Football
166. Rugby
167A. Soccer
168A. Ultimate Frisbee (1)
169A. Softball
172A, B, C. Volleyball
Recreational Dance
183A. Recreational Dance Workshop
183B. Recreational Dance Workshop II
Prerequisites: KIN 183A, 185, or consent of instructor.
184. Formation Dancing
Prerequisite: KIN 183B or consent of instructor.
188. Salsa

195. Social Dance
198. Special Activities
   F. Group Exercise: Dance Conditioning (1-3)
   G. Tai Chi Chuan (1)
   H. Combat Jian Shu for Sport (1)
   J. Mat Pilates Level I (1)
   K. Kung Fu (1)

* See Physical Education professional courses for additional activities open to non-majors.

PROFESSIONAL COURSES

Kinesiology majors and minors will be given priority enrollment in classes required for the major. Selected courses are available to the general student body to receive credit toward general education requirements.

LOWER DIVISION

143. Individual Conditioning (1)
   Designed to introduce the student to the activities, equipment, and techniques used in the development of conditioning programs tailored to one's individual needs. May be repeated to a maximum of 8 units.

156. Sports Appreciation (3)
   Prerequisite: One of the GE Foundation courses (may be taken concurrently).
   Introduction to the study of sport as a social institution in American society.

157. Fitness for Living (3)
   Prerequisite: One of the GE Foundation courses (may be taken concurrently).
   Analysis and implementation of the concepts related to exercise for health and fitness.
   (Lecture 2 hours, Activity 2 hours.)

189. Country Dancing (1)
   Instruction and practice in various country dance forms including line dancing, two-step, waltz, contra dancing, round dancing, and mixers. This course is useful for lifelong fitness, socialization, and recreation. May be repeated to a maximum of 8 units.

200. Psychological Skills for Peak Performance in Sport (3)
   Introduction of psychological strategies and skills designed to help individuals achieve optimal performance. Skills such as imagery, goal setting, self-talk, attentional focusing, arousal regulation, and coping are presented.
   (Lecture, 3 hours)

207. Prevention and Care of Athletic Injuries (3)
   Prerequisites: KIN 210 or equivalent.
   Principles and techniques of the prevention and care of common athletic injuries.
   (Lecture 2 hours, Activity 2 hours.)

210. Advanced Emergency Care (3)
   Theory and practice of first aid for the injured. Successful completion of course requirements leads to the American National Red Cross advanced first aid and personal safety and community CPR certificate.
   Course fee may be required.

215. Career Perspectives in Human Movement (1)
   Overview of human movement including professional preparation and employment opportunities. Orientation to current programs and proficiency requirements.
   Students entering the Kinesiology major are required to enroll in this course their first semester of study.

217. Introduction to Kinesiotherapy (2)
   Introduction to profession of Kinesiotherapy intended to provide student with information regarding history of the profession, its educational expectations, standards and scope of practice basic skills needed to enter this field of study.
   Letter grade only (A-F).

218. Introduction to the Fitness Industry (2)
   Prerequisites: Open to Fitness Option students in Kinesiology only or by permission of instructor.
   An introduction to the Fitness profession which will provide the student with information regarding the history of the fitness industry, its educational expectations, standards and scope of practice basic skills needed to enter this field, and career options.
   Letter grade only (A-F).

237. Techniques and Analysis of Aquatic Skills (2)
   Prerequisites: KIN 125A or 125B or consent of instructor, American Red Cross Community First Aid and CPR certification or equivalent. Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. To maintain enrollment, students must pass the swimming proficiency examination that will be administered the first week of instruction.
   Instruction and techniques in individual aquatic skills, hydrodynamic and movement principles, and an exposure to a variety of learning procedures applicable to the development of aquatic skills.
   Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

242. Backpacking (2)
   An experiential examination and analysis in the judgment, knowledge, equipment and skills necessary to safe wilderness travel and living.
   2-3 day field experience required. Course fee may be required.

243A. Winter Mountain Expedition (3)
   Introduction to winter mountaineering skills; study of the mountain environment.
   (Activity 6 hours). (Field experience required). Course fee may be required.
243C. Desert Expedition (3)
Introduction to the skills, attitudes, and knowledge required for safe use and enjoyment of desert areas. An interdisciplinary introduction to the meaning and significance of the desert. Trip planning, map use, methods of safe travel.
Course includes field trip. Course fee may be required. (Activity 6 hours.)

244. Kayaking (2)
An experiential examination and analysis of the judgment, knowledge, equipment, and skills development necessary for safe flat and whitewater kayaking.
2-3 day field experience required. Course fee may be required. (Activity 4 hours.)

245. Wilderness Water Expedition (3)
Introduction to the skills, attitudes, and knowledge required for safe use of various types of wilderness waters. The skills and techniques of boat handling and trip planning. An interdisciplinary introduction to the study of waterways.
(Activity 6 hours.) 2-3 day field experience required. Course fee may be required.

246A. Mountainineering (2)
An experiential examination and analysis in the judgement, knowledge, equipment, and skills necessary to safe mountainineering.
Course includes field trip. Letter grade only (A-F). (Activity 4 hours.) Course fee may be required.

247A. Techniques of Rockclimbing (2)
Introduction to the basic skills, judgment and safety for technical rockclimbing. The skills and techniques of top rope, belaying, rappels and self-rescue.
Course includes field trip. Course fee may be required. (Activity 4 hours.)

250. Techniques of Basketball (1)
Instruction in individual and team skills and techniques utilized in the sport of basketball for successful performance.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

251. Techniques of Flag Football (1)
Open to Kinesiology majors and minors only.
Instruction and practice in catching, throwing, tackling, running. Comprehensives teaching of skills and techniques in Flag Football.
Letter grade only (A-F).

253. Techniques of Soccer (1)
Instruction in individual and team skills and techniques utilized in the sport of soccer for successful performance.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

255. Techniques of Softball (1)
Instruction and practice in catching, throwing, hitting, sliding, base running, and bunting. Comprehensives teaching of skills and techniques in softball.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

257. Techniques of Volleyball (1)
Instruction in individual and team techniques utilized in the sport of volleyball.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

260. Fundamental Rhythms (2)
Instruction and practice in fundamental rhythms involving folk and social dance forms.
Designed for Kinesiology majors and minors, but open to all students. (Activity 4 hours.)

261. Techniques and Analysis of Fundamental Rhythms (2)
Instruction, practice, teaching, and analysis of floor patterns and rhythm variations of basic social and folk dances and their appropriateness to successful teaching of various age groups and skill levels in the public schools.
Open to Kinesiology Pedagogy Majors only. Letter grade only (A-F). (Activity 4 hours.)

263. Techniques of Physical Fitness (2)
Consists of instruction, practice, and evaluation in physical fitness. Cardiorespiratory, muscular strength and endurance, and flexibility activities will be emphasized within the course.
Open to Kinesiology majors only or consent of instructor. Not open for credit to Kinesiology majors in the pedagogy options. Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours.)

264. Techniques of Golf (1)
Instruction and techniques in individual skills and strategies for successful performance in golf.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

265. Techniques of Gymnastics (1)
Open to Kinesiology majors and minors only.
Techniques and instruction of the principles of movement in gymnastics as well as organizational strategies utilized in presenting gymnastics in Physical Education classes.
Letter grade only (A-F).

266. Techniques of Badminton (1)
Instruction and techniques in the skills and strategies for successful performance in badminton.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

267. Techniques of Tennis (1)
Instruction, techniques and analysis in the concepts of teaching, coaching, and playing tennis.
Open to Kinesiology majors and minors only. (Activity 2 hours.)

268. Techniques of Track and Field (1)
Instruction, techniques and analysis in the concepts of teaching, coaching, and performance in track and field.
Open to Kinesiology majors and minors only. Letter grade only (A-F). (Activity 2 hours.)

270. Professional Practices in Public School Physical Education (3)
Prerequisite: Students must meet the University GE writing course requirement. Corequisite: CPR/First Aid/Safety or current certification.
Provides an overview of current professional practices in public school physical education. Students plan, teach, and self-evaluate lessons. Required introductory course for Adapted, Elementary and Secondary Pedagogy options after 30 units of college course work.
Open to Adapted, Elementary, and Secondary Option students in Kinesiology only. Letter grade only (A-F). (Lecture 2 hours, Laboratory 2 hours.)

UPPER DIVISION

300. Biomechanics of Human Movement (3)
Prerequisites: BIOL 208 or equivalent.
Anatomical structure and function, and mechanical principles relating to human motion, including analytical application.
(Lecture 2 hours, laboratory 3 hours.)
301. Exercise Physiology (3)
Prerequisites: BIOL 207 or equivalent 4-unit Human Physiology course with 3-hour lecture and 3-hour laboratory with grade of “C” or better or consent of instructor.
Basic concepts of the physiology of muscular exercise with emphasis on the responses and adaptations of the circulatory system, the respiratory system, and skeletal muscles to the physical stress of acute and chronic exercise.
(Lecture 2 hours, Laboratory 3 hours). Course fee may be required.

304. Clinical Aspects of Athletic Training (5)
Prerequisites: BIOL 207, 208; KIN 207.
Principles and techniques of related clinical concepts applicable to the athletic training setting.
Open to Kinesiology majors in athletic training or consent of instructor. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

306. Medical Aspects of Athletic Training (3)
Prerequisites: BIOL 207, 208; KIN 207.
Principles and techniques of related medical concepts applicable to the athletic training setting.
Open to Kinesiology majors in athletic training or consent of instructor. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

308A. Athletic Training Evaluation I (2)
Prerequisites: BIOL 207; KIN 207, 300.
Theoretical concepts and clinical skills for assessment of athletic injury and illness. The first semester of a two-semester sequence (KIN 308A and 308B). Emphasis is on the injury evaluation process, injury nomenclature, lower extremity and spine.
Open to Kinesiology majors in Athletic Training or consent of instructor. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

308B. Athletic Training Evaluation II (2)
Prerequisites: BIOL 207; KIN 207, 300, 308A.
Theoretical concepts and clinical skills for assessment of athletic injury and illness. The second semester of a two-semester sequence (KIN 308A and 308B). Emphasis is on the thorax and abdomen, upper extremity, eye, face, head, and neck.
Open to Kinesiology majors in Athletic Training or consent of instructor. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

309. Developmental and Therapeutic Exercise (3)
Prerequisites: KIN 300, 301 or consent of instructor. Prerequisites, techniques, and prescription of exercises for development or rehabilitation of the body.
(Lecture 2 hours, Activity 2 hours.)

310. Therapeutic Approaches in Athletic Training (3)
Prerequisites: KIN 308A or 309 or consent of instructor.
Theory and application therapeutic modalities and exercise rehabilitation commonly used in athletic training programs.
Open to Kinesiology majors in the athletic training option only. (Lecture 2 hours, Activity 2 hours)

312. Motor Control and Learning (3)
Prerequisites: BIOL 207, 208, PSY 100.
Basic concepts of the neuro-motor and psychological contributions in the control and acquisition of skilled performance.
Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

315. Motor Development (3)
Prerequisites: BIOL 207, 208; PSY 100 or equivalent.
Developmental perspectives of factors contributing to acquisition of motor control from infancy through adolescence.
(Lecture 2 hours, Activity 2 hours)

320. Adapted Physical Education (3)
Prerequisites: BIOL 208.
Kinesiology majors learn to teach physical activity to persons with disabilities. Discussed are the etiology characteristics and best teaching practices (i.e., inclusion) for persons with mental, learning physical, emotional, sensory, health, and/or multiple disabilities. (Lecture 2 hours, Activity 2 hours)

331. Sociocultural Dimensions of Sport and Human Movement (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations course, and upper-division standing.
Socio-cultural and psychological correlates to human movement.

335. Historical and Cultural Foundations of Sport and Kinesiology in America (3)
Prerequisites: Upper division standing.
Survey of the history of sport and kinesiology. Historical identification of the cultural trends and functions of sport and kinesiology in America.
Open to Kinesiology Majors only.

338. Women in Sport (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Survey of women’s historical and contemporary involvement with sport. The social, cultural, and developmental implications of sport participation for women.

339. Psychology of Sport Behavior and Athletic Performance (3)
Prerequisites: Completion of GE Foundation, PSY 100, and upper-division standing.
Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments.
Same course as PSY 339. Not open for credit to students with credit in PSY 339.

343. Techniques and Analysis of Physical Fitness and Activity (2)
Prerequisite: KIN 270.
Knowledge needed to plan and implement physical activity programs in public schools. Analysis of development, maintenance, intervention, and self assessment of physical fitness. Designed to prepare for FitnessGram assessments and Department’s Physical Fitness Proficiency Examination.
Open to Kinesiology/Physical Education Pedagogy Majors and Minors only. Letter grade only (A-F). (Lecture 1 hour, Activity 3 hours)

354. Technology in Physical Education (3)
Overview of education technology applications, specifically word processing, spreadsheet, video technology, web-based information, Internet related software and technologies, pdf documents, personal digital assistants (PDAs) and use of commercially produced educational software.
Meets computer technology requirement for California Single Subject Preliminary Teaching Credential. Letter grade only (A-F). (Lecture 2 hours, laboratory 2 hours)

363. Theory and Analysis of Group Fitness Instruction (2)
Prerequisite: KIN 203. Open to Fitness Option students in Kinesiology only, or consent of instructor.
Learn to become effective group exercise leaders by understanding responsibilities of fitness leaders, principles of fitness, and leadership skill. Techniques for various group exercise activities will be taught.
Letter grade only (A-F). (Discussion 1 hour, Activity 2 hours)
364. Fitness for Adult Populations with Unique Health Considerations (3)
Prerequisites: KIN 301. Open to Fitness Option students in Kinesiology only, or consent of instructor.
Scientific information regarding exercise testing and exercise prescription for adult special populations. Topics include pregnancy, diabetes, arthritis, stroke, respiratory disorder, coronary artery disease, hypertension, and obesity.
Letter grade only (A-F).

367. Fitness and the Aging Process (3)
Prerequisites: KIN 301. Open to Fitness Option students in Kinesiology only, or consent of instructor.
Provides knowledge in the areas of fitness and the older adult. Topics include theories of aging, age-related changes that affect physical capacity, exercise and its impact on the aging process, and physical activity programming for the older adult.
Letter grade only (A-F). (Discussion 2 hours, Laboratory 2 hours.)

368. Resistance Training for Fitness (3)
Prerequisites: KIN 300, 301. Open to Fitness and Athletic Training Option students in Kinesiology only, or consent of instructor.
Designed to provide the student with theoretical knowledge and practical skills needed to become a personal trainer. The course covers such topics as the business of personal training, client-trainer relationships, fitness and health assessments and exercise prescription.
Letter grade only (A-F). (Discussion 2 hours, Activity 2 hours.)

370. Movement Theory and Practice of Elementary Physical Education (3)
Prerequisite: KIN 270.
Provides Kinesiology Physical Education Teacher Education (PETE) Option candidates with movement theory and practice in elementary school physical education based upon California Physical Education Framework and Content Standards. Practice includes fieldwork experiences in elementary school physical education.
Designed for Kinesiology majors. (Lecture 2 hours, Activity 2 hours.)

Prerequisites: KIN 149, 237, 260, 265, 255, 257, 261, 264, 265, 266, 267, 268, 343, 370 or consent of instructor. Corequisite: EDSS 300P.
Principles, organization and management of activities taught in secondary schools, includes basic organization and management strategies and fieldwork experience in public secondary school physical education.
Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours.)

387. Physical Activities for the Disabled (3)
Prerequisite: KIN 320, 427. Corequisite: KIN 489A.
Adaptation of physical activities, equipment, and facilities for individuals with permanent disabilities affecting motor performance.
(Lecture 2 hours, Activity 2 hours)

388. Program Planning and Instruction in Adapted Physical Education (3)
Prerequisite: KIN 387. Corequisite: KIN 489A.
Emphasis on program planning and the development of teaching skills in Adapted Physical Education.
(Lecture 2 hours, Activity 2 hours)

405. Cardiopulmonary Aspects of Health-Related Exercise Programs (4)
Prerequisites: KIN 210 or current First Aid and CPR certificates, KIN 301.
Theory and practical application of physical fitness assessment. Emphasis will be placed on the use of assessments to design and implement basic fitness programs for apparently healthy individuals.
Letter grade only (A-F). (Lecture 3 hours, Laboratory 3 hours)

407. Management Strategies in Athletic Training (3)
Prerequisites: Senior standing or consent of instructor.
Professional issues, administration, and management strategies of athletic training programs.
Open to Kinesiology majors in the athletic training option only.

427. /527. Physical and Motor Assessment (3)
Prerequisites: KIN 315 or equivalent and KIN 320 or equivalent; upper-division undergraduate or graduate standing; consent of instructor required for graduate students prior to registration.
The selection, administration, and interpretation of standardized and informal tests used in the physical and motor assessment practices of individuals with disabilities.
Upper-division students register in KIN 427; Graduate students register in KIN 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

430. Motor Control Principles and Theory (3)
Prerequisite: KIN 312 or equivalent.
Study of the principles, models, and theories of human movement control. Instruction is directed toward understanding the fundamental principles, theoretical propositions, and neuromuscular models, with applications to sport, physical education, human factors, and human performance.
Letter grade only (A-F).

431. Scientific Foundations of Locomotion (3)
Prerequisites: KIN 300, 312.
Instruction is directed towards understanding the influence of motor control theories, biomechanical principles, and constraints to human movement on locomotion.
Letter grade only (A-F).

438. /538. Motor Dysfunction and the Exceptional Person (3)
Prerequisites: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

441. /541. Applied Biomechanics: Lifting and Work Capacity (3)
Prerequisite: KIN 300 or equivalent (Trigonometry and PHYS 100A recommended).
Study of the mechanical properties of bone, ligament, tendon and skeletal muscle. Development, description, and application of selected biomechanical models to the evaluation of weight lifting, rehabilitation exercises, and occupational lifting tasks. Critical analysis of methods used to assess strength.
Letter grade only (A-F).

448. Wilderness Studies: Leadership Practicum (3)
Analysis and practice of the leadership and teaching techniques appropriate to the conduct of wilderness adventure programs. CourseFee may be required.
457. Applied Theory of Teaching Team Sports (3)
Prerequisites: KIN 250, 253, 255, 257 or consent of instructor.
Comprehensive analysis of the principles of movement, corrections of performance, and organizational strategies utilized in presenting team sports such as basketball, football, soccer, softball, volleyball, floor hockey, speedball, and team handball.
Letter grade only (A-F). (Lecture 2 hours; activity 2 hours.)

460. Applied Theory and Analysis of Non-Traditional Physical Education Games and Activities (2)
Prerequisites: KIN 270, senior standing.
Organization and management to effectively plan and implement a variety of non-traditional physical education games and activities such as cooperative games, problem solving activities, collaborative learning groups, and outdoor educational experiences.
Open to Kinesiology majors and minors only. Letter grade only (A-F). (Lecture 1 hour; Laboratory 1 hour.)

461. Applied Theory of Teaching Individual and Dual Sports (3)
Prerequisites: KIN 237, 264, 265, 266, 267, 268, or consent of instructor; senior standing.
Comprehensive analysis of the principles of movement and organizational strategies utilized in archery, badminton, golf, paddle tennis, pickleball, racquetball, tennis, swimming, orienteering, and track and field.
Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. Letter grade only (A-F). (Lecture 2 hours; Activity 2 hours.)

462./562. Advanced Strength and Conditioning (3)
Prerequisites: KIN 300, 301.
Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized.
Letter grade only (A-F).

463./563. Clinical Exercise Electrocardiography (3)
Prerequisites: DICE 207, KIN 301, and/or consent of instructor. Study of the physiology and pathophysiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

465./565. Biochemical and Hormonal Adaptations to Physical Activity (3)
Prerequisites: Upper division undergraduate or Graduate standing; KIN 301 or equivalent; CHLM 111A or its equivalent.
Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs.
Consent of instructor required for upper division undergraduate students prior to registration. Upper-division undergraduate students register in KIN 465; graduate students register in KIN 565. Letter grade only (A-F). Same course as NUTR 465. Not open for credit to students with credit in NUTR 466.

467. Fundamentals of Personal Training (3)
Prerequisites: KIN 366. Open to Fitness Option students in Kinesiology only, or consent of instructor.
Designed to provide the student with theoretical knowledge and practical skills needed to become a personal trainer. The course covers such topics as the business of personal training, client-trainer relationships, fitness and health assessments and exercise prescription.
Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours.)

469. Fitness Management (3)
Prerequisites: KIN 366.
Provides knowledge in the area of management of fitness programs. Topics will include program development, personnel issues, financial and legal considerations, equipment purchasing, and marketing strategies for fitness programs.
Open to Fitness Option students in Kinesiology only, or by permission of instructor. Letter grade only (A-F).

471./571. Technological Applications in Sport and Exercise Science (3)
Prerequisites: KIN 339I; upper division status or consent of instructor or graduate standing.
Learning and application of advanced computer and technology skills such as Biofeedback, video analysis software, advanced audio and video recording, software for presentations and interactive workshops, worldwide communications, and distance learning/telecommunications.

472./572. Applied Sport Psychology (3)
Prerequisites: KIN 339I; upper division status or consent of instructor or graduate standing.
Application of psychological skills and interventions to enhance athletic performance.

475./575. Psychology of Coaching (3)
Prerequisites: KIN 339I; upper division status or consent of instructor or graduate standing.
Current topics of psychological concern and application as related to athletic performance.
Letter grade only (A-F). Undergraduates register in KIN 475; graduates register in KIN 575. A written report is required for KIN 575.

476. Physical Education for the Elementary School Teacher (3)
Prerequisite: Junior Standing.
Provides multiple subject credential candidates with knowledge and experiences necessary to teach quality physical education lessons based upon the California Physical Education Framework and Content Standards. Content includes the FITNESSGRAM Program (state fitness tests) and subject integration activities.
(Lecture 2 hours, Activity 2 hours)

477. Measurement and Curriculum in Physical Education
Prerequisite: KIN 343 and KIN 370 or consent of instructor.
Course provides students with experiences in content development, program implementation, and evaluation of a physical education program. This service-learning component allows students to teach and critically reflect on subject matter while assisting a population in need.
Letter grade only (A-F). (2 hours lecture discussion, 2 hours lab)

478./578. Psychological Aspects of Exercise and Fitness (3)
Prerequisites: KIN 339I; upper division status or consent of instructor or graduate standing.
Philosophical, psychological and behavioral concepts of physical activity and health states will be discussed. Professional standards and invention strategies will be covered.
Letter grade only (A-F).
Undergraduates register in KIN 478; graduates register in KIN 578. A written report is required for KIN 578.
483. Measurement and Evaluation in Kinesiology (3)
Prerequisites: KIN 300, 301, 312.
Evaluation and analysis of measuring devices and resulting data used in Kinesiology. Interpretation of data using appropriate statistical analyses.
(Lecture 2 hours, Activity 2 hours)

485. Neurological and Pathological Foundations for Kinesiotherapy (3)
Prerequisites: BIOL 267, 268; KIN 300, 301, 320, 485F, or consent of instructor.
Survey of neurological control of normal movement and the implications of various medical pathologies for rehabilitation. Emphasis on inflammatory processes, metabolic and vascular disturbances, traumatic injuries, nutritional deficiencies, neoplasms, degenerative conditions and congenital disorders as related to the practice of Kinesiotherapy.
Letter grade only (A-F)

487/487S. Supervised Activity Instruction Experience (1-3)
Prerequisite: Upper division or graduate standing and consent of instructor.
Experience in the organization of and methods for the activity component of a course in kinesiology. A written report is required for KIN 487 students.
Undergraduate register in KIN 487; graduate register in KIN 487S. May be repeated to a maximum of 4 units. Letter grade only (A-F).
Restricted to majors only. Not open for credit to graduate students with credit in KIN 467. (Conferences 1 hour, Laboratory 2 hours per unit.)

488/488S. Clinical Basis of Kinesiotherapy (3)
Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program.
The theoretical foundations of clinical practice in Kinesiotherapy.
Letter grade only (A-F).

489. Field Work in Physical Activity Settings (1-3)
Prerequisite: Completion of Kinesiology course requirements for the major Option in which field work is taken.
Supervised practice in working with individuals or small to large groups in public or private agencies and schools.
Credit/No Credit grading only. May be repeated to a maximum of 9 units.
A. Fieldwork in Adapted Physical Education B. Fieldwork in Athletic Coaching
D. Fieldwork in Fitness Additional Prerequisites: KIN 467, completion of 200 hours in a corporate fitness setting, 200 hours in a traditional fitness setting, and 100 hours of approved fitness experience. Open to Fitness Option students in Kinesiology only.
F. Fieldwork in Kinesiotherapy G. Fieldwork in Motor Development K. Fieldwork in Wilderness Studies Additional Prerequisites: KIN 242, 244, 246 or 247, 243C or 244. Completion or concurrent of KIN 440, certification in CPR and First Aid, and consent of instructor. Supervised experience and practice working with individuals and groups in public/private agencies and schools involved in wilderness activities. May enroll in 1-3 units of fieldwork. Each unit is equivalent to 40 hours of fieldwork assignment. 2.0 hours minimum required for 3 units, of which at least 40 hours with CSULB Wilderness Studies Program. Balance of hours with public/private agencies.

490A. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and Grade of "B" or better in KIN 267; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form.
Supervised clinical experiences in athletic training. Designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. Requires the completion of a minimum of 150 hours of clinical experience performed under the supervision of an BOC Approved Clinical Instructor.
Credit/No Credit grading only.

490B. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KIN 490A; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form.
Continuation of laboratory and clinical experiences designed to provide formal instruction and evaluation in Entry Level Athletic Training Clinical Proficiencies. Requires completion of 300 hours minimum clinical experience performed under supervision of an BOC Approved Clinical Instructor.
Credit/No Credit grading only.

490C. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KIN 490B.
Continuation of laboratory and clinical experiences designed to provide formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. Requires completion of 300 hours minimum clinical experience performed under supervision of a BOC Approved Clinical Instructor.
Credit/No Credit grading only.

490D. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KIN 490C. Continuation of laboratory and clinical experiences designed to provide formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. Requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an BOC Approved Clinical Instructor.
Credit/No Credit grading only.

490E. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KIN 490D. Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an BOC Approved Clinical Instructor.
Credit/No Credit grading only.

494/494S. Exercise Science Internship (3)
Prerequisites: Upper division or graduate standing with a grade of "B" or better in KIN 300 for a biomechanics internship or KIN 301 for an exercise physiology internship or KIN 312 for a motor control and learning internship; consent of instructor required prior to registration.
Provides practical experience in applying exercise science concepts in a fieldwork setting such as cardiac rehabilitation in a medical setting.
Upper division undergraduate students register in KIN 494; Graduate students register in KIN 494S. Letter grade only (A-F).
May be repeated to a maximum of 6 units.
495/595. Supervised Laboratory Methods (1-3)
Prerequisites: Upper division or graduate standing and consent of instructor.
Provides experience in the methods of the laboratory component for a Kinesiology course, for example, assisting students with their experiments and laboratory reports. Undergraduates register in KIN 495; graduates register in KIN 595. A written report is required for KIN 595 students. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open for credit to graduate students with credit in KIN 495. (Conference 1 hour, Laboratory 2 hours per unit.) May be repeated to a maximum of 4 units.

497. Independent Study (1-3)
Prerequisites: Major or minor in physical education, senior status and consent of Kinology Department.
Student will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units. Letter grade only (A-F).

499. Special Studies (1-3)
Group investigation of topics of current interest in kinesiology or athletics. Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

GRADUATE LEVEL

511. Sports Marketing, Development, and Fund Raising (3)
Prerequisites: Graduate standing and a Baccalaureate Degree in Kinesiology/Physical Education or related field and admission to the Kinesiology Graduate Sports Management Program.
Provides students with an overview of sport marketing. It presents basic marketing terminology and discusses the application of marketing concepts to the development and promotion of the business of sport. Letter grade only (A-F).

512. Legal and Ethical Issues in Sport (3)
Prerequisites: Graduate standing; admission into the Kinesiology Graduate Sports Management Program; or permission of instructor.
Examines legal and ethical issues associated with sport settings. Letter grade only (A-F).

513. Personnel and Facility Management in Athletics (3)
Prerequisites: Graduate standing admission into the Kinesiology Graduate Sport Management Program.
Examines the principles and practices associated with managing personnel and facilities in intercollegiate, intercollegiate, amateur, international, and professional sport. Letter grade only (A-F).

514. Sport Finance
Prerequisites: Graduate standing; admission into the Kinesiology Graduate Sport Management Program.
Discusses financial management principles for use in intercollegiate, intercollegiate, amateur, international, and professional sports. Special emphasis is placed on understanding various means by which sport organizations control costs and increase revenue. Letter grade only (A-F).

521. Foundations of Sport Management (3)
Prerequisites: EDSS 450P or equivalent, or teaching experience (including student teaching).
Introduces students to the business of sport and the functional areas of Sport Management. Discusses the leadership, supervisory philosophies, principles, and practices of managing intercollegiate, intercollegiate, amateur, international, and professional sport.

522. Non-Traditional Activities in K-12 Physical Education (3)
Prerequisite: Graduate standing, admission to the Master of Arts Program in Pedagogical Studies.
Plans, implements, and evaluates nontraditional games and activities. Emphasis is on meeting needs of diverse populations, including students with disabilities, problem-solving, assessment, safety and injury prevention, ethical issues, group discussion, analysis of school outdoor educational experiences. Letter grade only (A-F).

523. Theory and Practice of College Teaching in Kinesiology (3)
Prerequisite: Graduate standing.
Designed to enhance the teaching knowledge and skills of persons who aspire to become or are currently college and university instructors of kinesiology through an examination of the principles and techniques of adult education associated with the discipline. Letter grade only (A-F).

524. Analysis of Teaching in Physical Education (3)
Analysis of teachers and teaching in physical activity environment: focus on developing observational competencies, analysis of research completed and future research designs.

525. Instructional Design in Physical Education (3)
Prerequisites: Undergraduate major in physical education, EDST 300.
A systems approach to designing instruction for the physical education program.

526. Applied Behavior Analysis in Physical Education (3)
Application of applied behavior analysis principles to physical education (sport) with particular emphasis on single subject research designs and behavior analysis in the physical education setting.

527.427. Physical and Motor Assessment (3)
Prerequisites: KIN 315 or equivalent and KIN 320 or equivalent. Upper-division undergraduate or Graduate standing. Includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. Consent of instructor required for graduate students prior to registration. Requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KIN 427; Graduate students register in KIN 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

528. Promoting Physical Activity and Fitness in K-12 Physical Education (3)
Prerequisite: Graduate standing, admission to the Master of Arts Program in Pedagogical Studies.
Develops physical education program plans that are in compliance with California State Content Standards for promoting physically active lifestyles and healthy physical fitness levels for all children, including those with special needs. Letter grade only (A-F).
530. Neuromotor Control (3)
Prerequisites: Graduate standing. KIN 312 or equivalent.
Study of the neurological and muscular contributions to the control of human movement with emphasis on application of concepts to sport, physical activity, and human factors. Instruction is directed toward understanding the fundamental principles of motor control.
Letter grade only (A-F).

537. Physical Education for Special Populations (3)
Foundations in the organization and conduct of Adapted Physical Education.

538./438. Motor Dysfunction and the Exceptional Person (3)
Prerequisite: A basic undergraduate course in Adapted Physical Education or its equivalent.
Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

539. Seminar in Student Athlete Development (3)
Prerequisite: Graduate standing.
Examination of student-athlete administration and advising in higher education: history, principles, techniques, and professional standards for student-athlete programs and services.
Letter grade only (A-F). Same course as COUN 539. Not open for credit to students with credit in COUN 559.

540. Biomechanical Factors in Human Movement (3)
Prerequisite: KIN 580 or equivalent
Study of film, video and force plate data collection for human movement evaluation, including data smoothing techniques. Qualitative kinematic and kinetic analysis examples including gait, jumping and lifting activities. Comparison of 2D versus 3D analyses of movement activities.
Letter grade only (A-F).

541./441. Applied Biomechanics: Lifting and Work Capacity (3)
Prerequisite: KIN 380 or equivalent (Trigonometry and PHYS 100A recommended).
Study of the mechanical properties of bone, ligament, tendon and skeletal muscle. Development, description, and application of selected biomechanical models to the evaluation of weight lifting, rehabilitation exercises, and occupational lifting tasks. Critical analysis of methods used to assess strength.
Letter grade only (A-F).

546. Developmental Aspects of Motor Behavior (3)
Prerequisite: KIN 315 or equivalent.
The study of major factors which contribute to the development of motor skillfulness from birth to maturity.
Letter grade only (A-F).

551. Advanced Exercise Physiology (3)
Prerequisites: KIN 301 or equivalent and BIOL 207 or equivalent. Advanced concepts in exercise physiology. Letter grade only (A-F).

552. Exercise Testing and Training in Health and Disease (3)
Prerequisites: KIN 301 or equivalent and BIOL 207 or equivalent. Physiological principles of exercise testing and exercise training in healthy individuals and patients with diseases such as coronary artery disease.
Letter grade only (A-F).

553. Environmental Aspects of Human Performance (3)
Prerequisites: Graduate standing; KIN 301 or equivalent with a grade of “C” or better from the instructor.
Study of the physiological responses and adaptations associated with exposure to environmental stresses including heat, cold, microgravity, air pollution, and elevated and reduced atmospheric pressures. Emphasis will be placed upon physical performance and its limitations under various environmental conditions.
Letter grade only (A-F).

560. Health Related Problems in Sport (3)
Prerequisites: KIN 207 and 301 or their equivalents and BIOL 207 and 208 or their equivalents.
Examination of health problems related to engaging in vigorous physical activity.
Letter grade only (A-F).

561. Musculoskeletal Injuries in Sport (3)
Prerequisites: KIN 207 and 301 or their equivalents and BIOL 208 or its equivalent.
An in-depth study of the most prevalent musculoskeletal injuries occurring in sports activities, including mechanisms, tissue responses, and management procedures.
Letter grade only (A-F).

562./462. Advanced Strength and Conditioning (3)
Prerequisites: KIN 300, 301.
Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological basis for strength training and adaptations caused by different training regimes are emphasized.
Letter grade only (A-F).

565./465. Clinical Exercise Electrocardiography (3)
Prerequisites: BIOL 207, KIN 301, and/or consent of instructor.
Study physiology and patho-physiology of electrical activity of the heart. Instruction directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)
Prerequisites: Upper division undergraduate or Graduate standing. KIN 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper division undergraduate students prior to registration.
Study of biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis on application of concepts to development of exercise training programs.
Upper division undergraduate students register in KIN 466; graduate students register in KIN 566. Letter grade only (A-F).
Same course as FCS 566. Not open for credit to students with credit in FCS 566.

571./471. Technological Applications in Sport and Exercise Science (3)
Prerequisites: KIN 339; upper division status or consent of instructor or graduate standing.
Learning and application of advanced computer and technology skills such as biofeedback, video analysis software, advanced audio and video recording, software for presentations and interactive workshops, worldwide communications, and distance learning/consultations.
Letter grade only (A-F). Graduates register in KIN 571; undergraduates register in KIN 471. A written report is required for KIN 571 students.

2009/2010 CSULB Catalog • Kinesiology • 505
572.472. Applied Sport Psychology (3)
Prerequisites: KIN 336R, upper division status or consent of instructor or graduate standing.
Application of psychological skills and interventions to enhance athletic performance.
Letter grade only (A-F). Graduates register in KIN 572; undergraduates register in KIN 472. A written report is required for KIN 572 students.

573. History of Sport in the U.S.A. (3)
Prerequisite: KIN 335 or equivalent.
An analysis of the history of American sport as it reflects the dominant themes in American society.

574. Contemporary International Sport (3)
Investigation of contemporary international sport in various world cultures.

575.475. Psychology of Coaching (3)
Prerequisites: KIN 336R, upper division status or consent of instructor or graduate standing.
Current topics of psychological concern and application as related to athletic performance.
Letter grade only (A-F). Graduates register in KIN 575; undergraduates register in KIN 475. A written report is required for KIN 575.

577. Sport in U.S. Culture (3)
Prerequisite: KIN 332R or equivalent.
Analysis of physical activities in U.S. culture. Consideration of the relationships between sports and games and the factors of status, values, environment and cultural change.

578.478. Psychological Aspects of Exercise and Fitness (3)
Prerequisites: KIN 336R, upper division status or consent of instructor or graduate standing.
Philosophical, psychological and behavioral concepts of physical activity and health status will be discussed. Professional standards and invention strategies will be covered.
Letter grade only (A-F).
Graduates register in KIN 578; undergraduates register in KIN 478. A written report is required for KIN 578.

580. Computer Applications in Physical Education (3)
Prerequisites: Graduate standing, consent from instructor.
Introduction to computer hardware and software used in Kinesiology including DOS/Windows and Apple Macintosh operating systems.
Topics include: hardware, operating systems, word processing, spreadsheets, data exchange, presentation graphics/authoring tools, and video capture. Emphasis will be placed on integrating the use of hardware and software into a variety of Physical Education environments.

587.487. Supervised Activity Instruction Experience (1-3)
Prerequisite: Upper division or graduate standing and consent of instructor.
Experience in the organization of and methods for the activity component of a course in kinesiology and physical education.
Undergraduates register in KIN 487; graduates register in KIN 587. A written report is required for KIN 587 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to major students only. Not open for credit to graduate students with credit in KIN 487. (Conference 1 hour, Laboratory 2 hours per unit.)

588.488. Clinical Basis of Kinesiotherapy (3)
Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program.
The theoretical foundations of clinical practice in Kinesiotherapy.
Letter grade only (A-F).

588L. Kinesiotherapy Clinical Training I Laboratory (6)
Corequisite: KIN 588.
Instruction and observation at the Long Beach Veterans Administration Medical Center.

589. Kinesiotherapy Clinical Training II (3)
Prerequisite: Satisfactory completion of KIN 588.
Theory and practice of kinesiotherapy techniques in a medical center setting. 500 hours of instruction and observation at Long Beach Veterans Administration Medical Center.

589L. Kinesiotherapy Clinical Training II Laboratory (3)
Corequisite: KIN 589.
Laboratory instruction and observation at the Long Beach Veterans Administration Medical Center.

590. Statistical Analysis and Measurement in Kinesiology and Physical Education (3)
Prerequisites: EDSE 421, EDSS 450P or 450W, KIN 483 or equivalent.
Introduces students to the logic and application of basic descriptive and inferential statistics (i.e., correlation, regression, and analysis of variance) and includes a critical analysis of selected research publications.
Required of all master's degree candidates. To be completed within first 12 units of 500-650 series courses.

591. Field Studies in Sport Event Management (3)
Prerequisite: Graduate standing; admission to the Kinesiology Graduate Sports Management Program.
Practical field-based course requires students to complete 15 hours of classroom seminar instruction and 120 hours of supervised practical experience in a managed sport setting.
Letter grade only (A-F).

592A. Sports Management Internship (3)
Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KIN 521; approval of Intern Coordinator.
A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity.
Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 8 units.
Letter grade only (A-F).

593A. Coaching Internship (3)
Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator.
A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity.
Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 8 units.
Letter grade only (A-F).
593B. Coaching Internship (6)
Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved coaching setting. Supervised by a University faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Letter grade only (A-F).

594.494. Exercise Science Internship (3)
Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KIN 300 for a biomechanics internship or KIN 301 for an exercise physiology internship or KIN 312 for a motor control and learning internship. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Consent of instructor required prior to registration. Upper-division undergraduate students register in KIN 494; Graduate students register in KIN 594. Letter grade only (A-F). May be repeated to a maximum of 6 units.

595.495.495. Supervised Laboratory Methods (1-3)
Prerequisites: Upper division or graduate standing and consent of instructor. Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. Undergraduates register in KIN 495; graduate students register in KIN 595. A written report is required for KIN 595 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open for credit to graduate students with credit in KIN 495. (Conference 1 hour, laboratory 2 hours per unit) May be repeated to a maximum of 4 units.

596. Practicum in Physical Education Pedagogy (3)
Prerequisites: Graduate standing; admission to the Master of Arts Program in Pedagogical Studies. Students are required to evaluate their teachers and provide documentation that they are addressing all of the physical education standards for individuals ages 2-18 that have been established by the National Board for Teacher Certification (NBPTS). Letter grade only (A-F).

597. Independent Research (1-3)
Prerequisites: Consent of Kinesiology faculty member and graduate advisor. Independent research under the guidance of a faculty member. Varies learning activities utilized to achieve competency related to Physical Education not offered in regular classes. Written report required. Letter grade only (A-F). (Independent Study)

630. Seminar in Motor Learning (3)
Prerequisites: KIN 312. 590 and 696 (may be taken concurrently). Identification and analysis of motor learning principles and theories applicable to training, learning, and rehabilitation in sport, physical education, recreation, and therapeutic settings.

633. Seminar in Sport Psychology (3)
Prerequisite: KIN 339I or permission of instructor. Study of psychological theories and their relationship to human behavior in sport and other physical activity settings.

638. Seminar in Trends Adapted Physical Education (3)
Prerequisites: KIN 537 or 538, or equivalent. An examination and analysis of the current trends in Adapted Physical Education.

671. Seminar in Current Trends and Issues in Kinesiology (3)
Prerequisite: Graduate standing. Examines current trends and issues in Kinesiology, develop and defend personal perspective on significant issues, and identify problems and develop plans for problem-solving in organizational/professional contexts. Letter grade only (A-F).

695. Seminar in Professional Literature (3)
Prerequisite: KIN 590, 696. Critical analysis and synthesis of professional literature in Kinesiology. Professional portfolio required to be submitted during the class. Required of all candidates not electing thesis option.

696. Research Methods (3)
Prerequisite: Undergraduate major in Kinesiology, Physical Education, or related field. Presents diverse methodological approaches to contemporary problems in Kinesiology, research design, data collection, and analysis. Required of all Master's degree candidates. To be completed within the first 12 units of 500-600 series courses.

697. Directed Studies (1-3)
Prerequisites: KIN 590, 696, advancement to candidacy. Research in an area of specialization under the direction of a faculty member.

698. Thesis/Project (1-4)
Prerequisite: KIN 590, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis/project. Professional portfolio required to be submitted during the class.

699. Seminar in Selected Topics (3)
Intensive study of salient problems of current professional importance to experienced physical educators. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the Schedule of Classes.

2009/2010 CSULB Catalog • Kinesiology • 507
Latin American Studies
College of Liberal Arts

Director: Norma Stoltz Chinchilla
Phone: (562) 985-4760
Office: AS 331

Assistant Directors: Alicia del Campo, Jayne Howell
Advisor: Jayne Howell, Alicia del Campo
Phone: (562) 985-5192, (562) 985-2704
Office: FOS 312

Affiliated Faculty: Luis Arroyo (Chicano and Latino Studies), Roland E. Bush (Comparative World Literature), Norma Stoltz Chinchilla (Women's Studies/Sociology), Margaret Coals (Kinesiology), Alejandro Cox-Edwards (Economics), Jim Curtis (Geography), Alicia del Campo (Romance, German, Russian Languages and Literatures), Bonnie Gable (Romance, German, Russian Languages and Literatures), Leah Hoce (Political Science), Jayne Howell (Anthropology), Gary Hylek (Sociology), Javier Lopez-Zelira (Health Sciences), Claire E. Martin (Romance, German, Russian Languages and Literatures), Carlos Pilar (Religious Studies), Saul Pires (Journalism), Jose Rodriguez (Communication Studies), Victor Rodriguez (Chicano and Latino Studies), Josué Sánchez (Film and Electronic Arts), Anne Sandlov (Chicano and Latino Studies), Carlos Sierra (Art Education), John Tschida (Asian and Asian American Studies)

Certificate in Latin American Studies (code COLACT01)

The Certificate offers students a baccalaureate degree in any field an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The Certificate's flexible program of study is ideal for students interested either in intellectual enrichment or professional development. Courses used to meet this certificate may be counted also, where applicable, toward General Education requirements, and the major or minor requirements of the cooperating departments. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor is strongly recommended.

Requirements

The following are the requirements for the Latin American Studies Certificate.

1. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
2. Completion of 24 units distributed as follows:
   A. Core: (Required by all students) 3 units. Choose either LAS 161/HIST 161/SOC 161 (Introduction to Latin American Studies) or SPAN 445 (Latin American Civilization).

Minor in Latin American Studies (code HISTUM03)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward General Education requirements, and the major or minor requirements of the cooperating departments. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student’s area of concentration of the equivalent fluency as determined by the program advisor is strongly recommended.

Requirements

The following are the requirements for the Latin American Studies minor:

1. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
2. Completion of 21 units distributed as follows:
   A. Core: (Required by all students) 3 units. Choose either LAS 161/HIST 161/SOC 161 (Introduction to Latin American Studies) or SPAN 445 (Latin American Civilization).

Courses (LAS)

Lower Division

161. Introduction to Latin American Studies
Prerequisite: Completion or concurrent enrollment in ENGL 100. Interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central America, the Caribbean, and South America. Examines political, economic, social and cultural conditions that have produced conflict, change, and continuity in Latin America over the last five hundred years.

Same course as HIST 161 and SOC 161. Not open for credit to students with credit in HIST 161 and SOC 161.

508 • Latin American Studies • 2009/2010 CSULB Catalog
Certificate in Legal Studies  
(code COLACT03)

The Certificate Program in Legal Studies is designed for students who are interested in the study of law as a cultural product and as a field of critical inquiry. It is not a professional program in para-legal education. The certificate may be earned in conjunction with any baccalaureate degree and should be especially useful to those preparing for careers in government service, business, journalism and education. Courses taken in the program may be used to satisfy major, minor, other credential or general education requirements. No more than 12 units, however, may be in the candidate's major.

The Legal Studies Certificate may be earned concurrently with or following the award of the baccalaureate degree from CSULB or another accredited institution. See pp. 102 and 114.

Requirements

Twenty-four total units distributed as follows:
1. Twenty-one units which must include HIST 308I and an additional 18 units from the courses listed below. The courses taken in the program must be from a minimum of three departments. The selection of courses is made by the student in consultation with an adviser in the program;
2. Project paper (3 units). To be written during the senior year under the supervision of a faculty member participating in the Certificate Program. The paper can be either an exploratory project (in which a subject is researched in a detailed and original manner) or an analytic effort (where fewer sources are used but the discussion of the material is developed more fully).

Legal Studies Courses

ASAM 346; AFRS 339; CRJU 301; ECON 356; BLAW 252, 320; HIST 308I, 380I, 480; PHIL 352, 451I, 452I; POSC 311, 312, 376, 412, 414, 419; SW 350, COMM 441I; WIST 308.

Persons interested in the Program for Legal Studies should contact Dr. Atlie Burke, Director, Department of History.

- Social Science - Tim Kier (985-4425)

Introduction

The College of Liberal Arts provides courses in the Humanities and Social Sciences for all university students, as well as for majors in its disciplines. The College is also responsible for much of the General Education required of all students and provides professional training in Journalism. Through the Liberal Arts, students acquire a fundamental understanding of social and individual behavior and of cultures and belief systems in the past and present. Communication, verbal and written, in English and other languages, and across cultures, is a fundamental emphasis throughout the curriculum. Liberal Arts disciplines also emphasize the acquisition and analysis of information and its uses to understand and help resolve complex social problems. The College of Liberal Arts is the center of the university’s commitment to developing greater knowledge and understanding of international and multicultural issues in the contemporary world. In short, the motto for the Liberal Arts is “The World is Our College.” In teaching students, CLA faculty aim high to inspire them to continue learning, to celebrate diversity, and to engage the world.

Degree Programs Offered

Bachelor of Arts:

- Anthropology
- American Studies
- Asian Studies
- Asian American Studies
- Black Studies
- Business Economics
- Chicano and Latino Studies
- Chinese Studies
- Classics
- Comparative World Literature
- Economics
- English
- Environmental Science and Policy
- Geography
- French
- French Studies
- German
- History
- Human Development
- International Studies
- Italian Studies
- Japanese
- Journalism
- Linguistics
- Philosophy
- Political Science
- Psychology
- Religious Studies
- Sociology
- Spanish
- Communication Studies
- Women’s Studies

Master of Arts:

- Anthropology
- Asian Studies
- Communication Studies
- Economics
- English
- French
- Geography
- German
- Global Logistics
- History
- Linguistics
- Philosophy
- Political Science
- Psychology
- Religious Studies
- Sociology
- Spanish

Master of Fine Arts in English

Master of Science in Psychology

Certificate Programs:

- Africana Studies
- American Indian Studies
- Asian Studies
- Asian American Studies
- Japanese
- Latin American Studies
- Legal Studies in the Liberal Arts
- Medieval and Renaissance Studies
- Russian-East European Studies
- Teaching English as a Second Language
- Technical and Professional Writing
- Urban Studies

Minor Programs:

- Africana Studies
- American Indian Studies
- Anthropology
- Asian Studies
- Asian American Studies
- Business Economics
- Chicano and Latino Studies
- Comparative World Literature
- Classics
- Communication Studies
- English (Literature, Rhetoric and Composition, Creative Writing, or Special Emphasis)
- Economics
- French
- Geography
- German
- Greek
- History
- International Economics
- Italian
- Jewish Studies
- Latin
- Latin American Studies
- Linguistics
- Medieval and Renaissance Studies
- Middle Eastern Studies
- Philosophy
- Political Science
- Public Administration
- Psychology
- Religious Studies
- Russian
- Sociology
- Spanish
- Women’s Studies

Language Courses:

- Arabic
- Chinese (Mandarin)
- Cambodian
- Czech
- French
- German
- Greek
- Hebrew
- Italian
- Japanese
- Latin
- Russian
- Spanish
- Swahili

Special Facilities

The College operates special facilities including anthropology, geography, language, psychology, writing, and general computer laboratories.

Student Activities

Most of the departments in the College of Liberal Arts have either a student association or honor organization which provides students with a program of activities. Students should contact the department of their major to inquire about the kind of organizations available to them or contact the College Coordinator for Student Life and Development, Zion Rodic (562-5814). The College and Associated Students promote the College Student Council with its representation from each department acting as liaison between the College administration, faculty, and members of the College’s student body. The Student Council provides a forum for the development of student leadership skills.

Internships

The College of Liberal Arts offers internships with on- and off-campus cooperating organizations designed to provide students with practice in the field under supervision.
Many individual departments also offer discipline-based internships for advanced students.

**Credential Programs**

Single subject credential programs are offered in English, French, German, Latin, Spanish, Japanese, and Social Science. Students who plan to teach these subjects in the secondary schools are strongly advised to consult the Credential Advisor in the appropriate program as early as possible in their studies, so that they fulfill subject matter preparation requirements while completing an undergraduate major.

**Courses (C/LA)**

**LOWER DIVISION**

**190. Special Topics (1-6)**
Topics of special interest in the liberal arts. Topics will be announced in the Schedule of Classes each semester. May be repeated to a maximum of 8 units with different topics in the same semester.

**195. Introduction to the Learning Community-Transition to College Success (1)**
Prerequisite: Acceptance into the Learning Alliance Program. Provides members of the Learning Alliance with introduction to learning community. Addresses scholarly and academic research skill development, literacy in basic computer skills, methods to integrate two disciplines featured in paired courses, and how to develop a personal academic plan. Initiates community volunteer and service learning requirement. Letter grade only (A-F).

**230. The Home in Comparative Perspective (3)**
Prerequisite: Completion of GE Foundation. Explores how the term “home” has been deployed in a number of different historical, political, social, economic, and geographical contexts. Analysis of primary documents and secondary texts. Conduct independent research and also explore personal meanings associated with the term “home.”

**250. Elementary Statistics (4)**
Prerequisites: Knowledge of mathematical procedures usually covered in elementary high school algebra. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. Three units as HDEV 250. Not open for credit to students with credit in ANTH 202, HDEV 250, MATH 108, 180 or PSY 110, 210. (Discussion 3 hours, laboratory 2 hours.)

**UPPER DIVISION**

**305. British Life and Culture (3)**
Offers in-depth information on a wide range of social, artistic, and intellectual issues relevant to contemporary England. Although course is geared to students participating in the London Semester Program, materials covered are closely related to many topics covered in classes offered during students’ other work on campus. Credit/No Credit grading only.

**485. Oral History Methods (1)**
Through a series of workshops and through field experience, skills in oral history developed which enable students to use oral history either for own personal use in family history or for class projects. Not open for credit to students with credit in HIST 402.

**490. Special Topics (1-3)**
Topics of special interest in the liberal arts for intensive study. Topics will be announced in the Schedule of Classes each semester. May be repeated to a maximum of 9 units with different topics.

**491. Special Topics (2)**
Topics of special interest in the liberal arts for intensive study. Topics will be announced in the Schedule of Classes each semester.

**495. Social Science for Teachers (3)**
Prerequisite: Students must have completed all coursework in the Social Science Subject Matter Program. Capstone course for students in Social Science Subject Matter Program, offered prior to student teaching. Examination of issues in social science education in accord with topics highlighted in the California History/Social Science Framework. A grade of “B” or better is required for advancement to student teaching. Letter grade only (A-F).

**496A/596A. Interdisciplinary Research Seminar (3)**
Prerequisite: Consent of Instructor. Intensive reading and discussion of the literature, methods and current issues in interdisciplinary topic in humanities and social sciences. May be repeated to a maximum of 6 units with different topics in different semesters.

**496B/596B. Interdisciplinary Research Seminar (3)**
Prerequisite: Consent of Instructor. Intensive research on interdisciplinary topic in humanities and social sciences. May be repeated to a maximum of 6 units with different topics in different semesters.

**498. Directed Studies in Oral History (1-6)**
Consent of faculty required. Directed study on a research topic using methodology of oral history. May be repeated to a maximum of 6 units. Same course as HIST 498D. Not open for credit to students with credit in HIST 498D.

**499. Directed Studies: Professional Portfolio (3)**
Prerequisite: Senior Standing in Liberal Arts Major; permission of Instructor and Associate Dean. Qualifying students work in career-related assignments in private or public agencies or businesses, either paid or volunteer. Organized plan including continuing consultation with instructor and written reports reflecting on work experiences relating to Liberal Arts Major. Capstone-level reflection and assessment on completion of major. Minimum of 150 hours of work assignment. Credit/No Credit grading only.

**GRADUATE LEVEL**

**590/490. Special Topics (1-3)**
Topics of special interest in the liberal arts for intensive study. Topics will be announced in the Schedule of Classes each semester. May be repeated to a maximum of 9 units with different topics in different semesters.

**596A/496A. Interdisciplinary Research Seminar (3)**
Prerequisite: Consent of Instructor. Intensive reading and discussion of literature, methods and current issues in interdisciplinary topic in humanities and social sciences. May be repeated to 6 units with different topics in different semesters.

**596B/496B. Interdisciplinary Research Seminar (3)**
Prerequisite: Consent of Instructor. Intensive research on interdisciplinary topic in humanities and social sciences. May be repeated to 6 units with different topics in different semesters.
Bachelor of Arts in Liberal Studies (120 units)

The Liberal Studies major provides a rich, rigorous cross-disciplinary liberal arts program of study. There are two programs in the major: 1) The Integrated Teacher Education Program (ITEP) is for students intending to become teachers who wish to combine subject matter preparation for elementary teaching with coursework leading to a Multiple Subject teaching credential; 2) Track I is for students who seek subject matter preparation for elementary teaching as preparation for a post-baccalaureate credential program.

General Education and the Liberal Studies Major

The General Education requirements for students majoring in Liberal Studies are unique. The Liberal Studies program is not only an approved major, but also an approved alternate general education program. In completing the Liberal Studies major, students concurrently satisfy their General Education requirements. Students changing to another major from Liberal Studies, however, will be subject to the standard University General Education requirements and will want to consult the Academic Advising Center for GE advising.

The Liberal Studies Program

The Liberal Studies Integrated Teacher Education Program (ITEP) combines the study of academic subject matter for elementary school teaching with professional preparation and student teaching. Successful completion of ITEP includes both a Bachelor of Arts degree and a Multiple Subject teaching credential.

Track I of the Liberal Studies program is designed for those students who wish to pursue a Bachelor of Arts degree to prepare them in the academic subject areas relevant to elementary and special education teaching. Track I is an approved pre-professional program of subject matter preparation consistent with the standards established by the California Commission on Teacher Credentialing.

INTEGRATED TEACHER EDUCATION PROGRAM

Bachelor of Arts in Liberal Studies (code L/STBA04)

Multiple Subject Credential – Cross Cultural and Academic Development Emphasis (code 200)

The Integrated Teacher Education Program (ITEP) combines the study of academic subjects aligned to California standards for the K-8 curriculum with professional preparation courses and field experiences leading to a Multiple Subject Credential.

Upon successful completion of the program, students will receive both a Bachelor of Arts in Liberal Studies and a Preliminary Multiple Subject Credential. Within the Integrated Teacher Education Program there are 105 units of required baccalaureate-level coursework and 31 units of credential-specific coursework.

Students in the ITEP program who do not advance to the Credential portion of the program will be eligible to change majors into the Track I program and receive a B.A. in Liberal Studies and may apply for admission to the post-baccalaureate Multiple Subject Credential Program.

There are multiple pathways to the teaching profession. ITEP is designed for students who begin their undergraduate education at CSULB or who transfer into the University in pursuit of both a baccalaureate degree as well as a Multiple Subject teaching credential. Prospective credential candidates who already hold a bachelor’s degree, or who need information about other pathways and options in teacher credentialing, should refer to the sections of this catalog which describe programs in Teacher Education, Single Subject Teacher Education, and Advanced Studies in Education and Counseling. Further information about teacher preparation programs can also be obtained from the College of Education at (562) 985-9259 or by e-mail: coddinfo@csulb.edu or online at www.cse.csulb.edu.

General Education and the Integrated Teacher Education Program

As with other Liberal Studies majors, students in the Integrated Teacher Education Program have unique General Education requirements. ITEP is not only an approved major, but an approved alternate general education program. ITEP students receive their General Education advisement within the Liberal Studies office. In completing ITEP, students concurrently satisfy their general education requirements. Students changing their major from ITEP to a major other than Liberal Studies, however, will be subject to the standard University General Education requirements and will want to consult the Academic Advising Center for GE advising.
The ITEP Curriculum

The ITEP curriculum has two interrelated components. Students complete required coursework in the ITEP Core and they complete coursework in the methodology of teaching, including student teaching. Admission to this final, credential portion of the program requires that students apply and be accepted into the Multiple Subject Credential Program at CSULB. In addition, a minimum of 125 hours of service learning, coordinated by the SERVE Program in the College of Education, must be completed prior to graduation. All courses in the ITEP core must be completed with a grade of "C" or better.

Admission to the Multiple Subject Credential Program

Prior to enrollment in EDEL 300, ITEP students must be formally admitted into the Multiple Subject Credential Program (MSCP). Students should apply to the MSCP during the semester prior to enrolling in EDEL 300. Admission to the MSCP requires that the candidate: 1) purchase the MSCP for ITEP Handbook; 2) complete EDEL 200 with a grade of B or better; 3) attempt the California Basic Educational Skills (CBEST) examination; 4) attain a cumulative grade point average of at least 2.67 or 2.75 in the last 60 units of study; 5) submit a portfolio which includes a SERVE evaluation as well as a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher; 6) attend an interview panel; 7) submit a negative tuberculosis skin test or chest x-ray taken within the last three years. Note: The California Subject Examinations for Teachers: Multiple Subjects (CSET) must be passed to advance to student teaching. All ITEP credential courses must be completed with a GPA of 3.0 or higher and no individual grade lower than "C."

The ITEP Core

A minimum of 105 units distributed in Areas I, II, III, IV, V, VI and VII. No Core classes may be taken Credit/No Credit.

Area I: Language Studies (minimum 22 units)

Group 1. Written Communication: Choose one course from ASAM 100, AFRS 100, CHLS 104, ENGL 100
Group 2. Oral Communication: Choose one course from COMM 130, 330
Group 3. Survey of Literature: Choose one course from CLSC 260, CWI 100, ENGL 180, 250 A or B, 270 A or B, 375
Group 4. Applied Composition: ENGL 309
Group 5. Language Acquisition: Choose one course from CD 325, EDSP 454, LING 329
Group 6. Children's Literature: ENGL 481
Group 7. Integration and Assessment: LIST 400

Area II: Mathematics (minimum 12 units)

Group 1. Probability and Activities-Based Statistics: MTED 205
Group 2. Real Numbers: MTED 110
Group 3. Geometry and Measurement: MTED 211 or 312
Group 4. Integration and Assessment: MTED 402

Area III: Natural Science (minimum 14 units)

Group 1. Earth Science: Choose from GEOL 102 + 104 or 106* (GEOL 106 is the preferred course)
Group 2. Life Science: BIOL 200
Group 3. Physical Science: PHSC 112

Group 4. Integration and Assessment: SCED 401

Area IV: History/Social Science (minimum 19 units)

Group 1. American History: Choose one course from POSC 100, 320*, 381 ("POSC 325 is limited to and only required of students who have met the U.S. Constitution requirement in a state other than California or through Advanced Placement credit and who must meet the Title V California State and Local Government requirements.) Group 2. World History and Geography: Take either HIST/ GEOG 250*, or HIST 211 + GEOG 100 (HIST/GEOG 250 is the preferred course)
Group 5. California History: HIST 473
Group 6. Integration and Assessment: LIST 471

Area V: Arts and Humanities (minimum 15 units)

Group 1. Music: MUS 190
Group 2. Dance or Theater: Choose one course from CWL 124, 3241, DANC 110, 179, THEA 113, 122, 3241
Group 3. Ethics, Values and Beliefs: Choose one course from PHIL 100, 160, 203, 204, 405, R/SST 100, 202, 485
Group 4. Visual Art: ART 300
Group 5. Integration and Assessment: LIST 404

Area VI: Critical Issues in Teaching and Learning (minimum 16 units)

Group 1. Information and Technology Competencies: Choose one course from ETEC 110*, 444 (*ETEC 110 is the preferred course)
Group 2. Critical Thinking: Choose one course from A/S 195, COMM 131, ENGL 102, ETEC 171, HIST 101, PHIL 170, POSC 105, PSY 130
Group 3. Child Development and Learning: Choose one course from EDP 301, HDEV 307
Group 4. Family and School Partnerships: EDSP 355
Group 5. Physical Education: KIN 476
Group 6. Health Science: HSC 411A
Area VII: Introduction to Elementary Education (Minimum 7 units)

Group 1. Teaching and Learning: EDEL 100
Group 2. Introduction to Education: EDEL 200
Group 3. Diversity in Education: EDEL 300

Student Teaching in ITEP

As the final phase of the credential program, student teaching is a half-day for four days and a full day for one day per week for two semesters. All student teachers have one placement in a K-2 classroom and one in a 3-6 classroom.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Teacher Preparation Advising Center one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings, which are held during the first two weeks of each semester. Dates, times, and locations are announced in methods courses, are posted throughout the EDI and ED2 buildings and appear on the Department of Teacher Education Website well in advance of actual meeting dates. Deadlines for submitting applications to student teach are:

2009/2010 CSULB Catalog • Liberal Studies • 513
March 1—to begin student teaching in the Fall semester
October 1—to begin student teaching in the Spring semester.
Students should note that these deadlines are firm. Late applications are not accepted.
Students must meet the following requirements to advance to student teaching:
1. Demonstration of subject-matter competence by passage of all three parts of the California Subject Examinations for Teachers: Multiple Subjects (CSET; Multiple Subjects).
2. Passage of the California Basic Educational Skills Test (CBEST).
3. A negative tuberculin skin test or chest x-ray valid through the completion of student teaching.
4. Proof of character clearance (fingerprint background check).
5. Completion of professional preparation courses (in the MSCP) with a grade-point-average of 3.0 in all subject-specific pedagogy (methods) courses with no grade lower than "C."
6. Submission of a Student Teaching Application by the appropriate deadline.

Asian Language BCLAD

Requirements
The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. The BCLAD Asian Language Emphasis is part of a six campus CSU consortium offering BCLAD preparation and certification in Cambodian (Khmer), Chinese (Mandarin or Cantonese), Korean, or Vietnamese. Courses are taken at CSULB and at one or more CSU campuses.

Students seeking dual language certification in Asian Languages must complete the ITEP program requirements. They also must fulfill the following additional requirements in one of the Asian language emphases (Mandarin or Cantonese, Khmer, Korean, Vietnamese):
1. Culture of Emphasis (one of the following, 3 units):
   Chinese: EWS 301, Ethnic Identity: Chinese Americans (Cal Poly Pomona)
   Cambodian: ASAM 334, Cambodian American Experience (CSU Northridge)
   Korean: AAS 450, The Asian American Child and the Schools (CSU Northridge)
   Or TED 495, Introduction to Korean Culture & Korean American Communities (CSU Dominguez Hills)
   Vietnamese: ASAM 333, Vietnamese American Experience (CSU Long Beach)
2. Bilingual Pedagogy in the Language of Emphasis (one of the following, 3 units):
   Chinese: EDEL 400, Proseminar: Curriculum and Teaching of Reading (CSU Los Angeles)
   OR EDEL 402, Bilingual Teaching English and Chinese, K-8 (CSU Long Beach)
   Cambodian: EDEL 452K, Bilingual Teaching English and Khmer, K-8 (CSU Long Beach)
   Korean: EED 580K, Teaching Reading in the Elementary School (CSU Northridge) OR TED 515A, Bilingual Education: Reading, Language Arts and Content in the Primary Language (Korean) (Cal Poly Pomona)
   OR TED 494S, Teaching for Bilingual Development in Culturally and Linguistically Diverse Settings: Korean Bilingual Education (CSU Dominguez Hills)
   Vietnamese: EDEL 452V, Bilingual Teaching English and Vietnamese, K-8 (CSU Long Beach)
   OR EDEL 448 Methods & Inquiry for Vietnamese BCLAD Candidates (CSU Fullerton)

Note: Culture of Emphasis and Bilingual Pedagogy courses may be taken before admission to the MSCP. See the Coordinator of the Asian BCLAD Consortium for information.

3. Passage of BCLAD subtest #6 in Cantonese, Khmer, Korean, Mandarin or Vietnamese language (listening, speaking, reading, and writing).
4. Student teaching in Bilingual Classrooms EDEL 482E (8 units). This requirement may be used as a substitute for one semester of 482D.

Spanish Language BCLAD

Requirements
The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. The BCLAD Spanish Emphasis is offered on campus or through the BCLAD in Mexico program.

Students seeking dual language certification must complete the ITEP program requirements. They also must fulfill the following additional requirements for Spanish/English BCLAD:
1. Culture of Emphasis (one of the following, 3 units): CHLS 340 Latinos and Education, or CHLS 350 Latino Population in the US.
2. Bilingual Pedagogy of Emphasis (3 units): EDEL 452B, Teaching Reading in Spanish & English, K-8 (BCLAD)
3. Passage of BCLAD subtest #6 Spanish (4 parts: listening, speaking, reading and writing)
4. Student Teaching in Bilingual Classrooms: EDEL 482F (8 units). This requirement may be used as a substitute for one semester of EDEL 482D.

Education Specialist ITEP

Requirements
The Education Specialist ITEP Pathway allows students to work toward a Level I Education Specialist Credential while completing their MSCP ITEP requirements. Students should formally apply to the Education Specialist Credential program at the same time they apply to the MSCP as described earlier. Education Specialist ITEP students must complete all ITEP program requirements taking EDSP 454 in Area I, Group 6 and EDP 301 in Area VI. Group 4. Education Specialist ITEP students must complete all MSCP ITEP credential coursework and requirements as well with the following exceptions:
Students will complete only one semester of student teaching in a general education classroom instead of two.
Education Specialist ITEP students will then complete all Education Specialist Level I coursework and Field Study as listed below:

514 • Liberal Studies • 2009/2010 CSULB Catalog
- Education of Exceptional Individuals EDSPE 350
- Foundations of Inclusive Education EDSPE 480
- Positive Strategies in Classroom Management EDSPE 405
- Assessment and Evaluation of Students with Disabilities EDSPE 564
- Curriculum and Instruction for Students with Disabilities: Literacy, Communication, Social, and Physical Education EDSPE 567
- Curriculum and Instruction for Students with Disabilities: Math, Science, and Life Skills EDSPE 589
- Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate or Severe Disabilities EDSPE 587 or 588B

**TRACK I (code LSTBA01)**

**Requirements**

The minimum unit requirement for the Liberal Studies Track I major is 110 units, which includes both Core and Concentration. Students select an additional 10 units to meet the campus graduation requirement of 120 units. The Track I program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track I program.

The Track I Core consists of a minimum of 102 units distributed across six areas: I. Language Studies (minimum 22 units); II. Mathematics (minimum 9 units); III. Natural Sciences (minimum 14 units); IV. History and Social Sciences (minimum 19 units); V. Arts and Humanities (minimum 15 units) and VI. Learning and Well-Being (minimum 16 units). No course in the Track I core may be taken Credit/No Credit.

The Track I Concentration consists of 12-15 units of integrated course work with advisor approval. No course in the Track I concentration may be taken Credit/No Credit, and no course used to meet Core requirements may be counted toward the concentration.

In addition, 120 hours of approved service-learning in an elementary or middle school must be completed prior to graduation as a means of learning about cultural diversity in the community; about current problems besetting students in the public schools, about successful intervention strategies for students needing special attention, and promotion of individual civic responsibility.

**Service Learning**

The way to earn the required 120 hours of Service Learning is participation in the SERVE (Service Experience for Revitalizing Education) program, which provides orientation and training in addition to school placements. To participate in SERVE, students must have a 2.0 grade-point average, current TB clearance, and be available for either 2 two-hour time blocks or 4 four-hour time block during public school hours over a 10 week period during the semester. For further information and the schedule for orientation and training sessions, contact the Liberal Studies office or SERVE office (ED1-17 or online at www.csd.csulb.edu).

**Track I Core**

A minimum of 98 units distributed in Areas I, II, III, IV, V, and VI. No Core classes may be taken Credit/No Credit.

**Area I: Language Studies (minimum 22 units)**

Group 1. Written Communication: Choose one course from ASAM 100, AFRS 100, CHLS 104, ENGL 100

Group 2. Oral Communication: Choose one course from COMM 130, 335

Group 3. Survey of Literature: Choose one course from CLSC 280, CWL 100, ENGL 180, 250 A or B, 270 A or B, 375

Group 4. Applied Composition: ENGL 309

Group 5. Language Acquisition: Choose one course from CD 329, EDSPE 545, LING 329

Group 6. Children's Literature: ENGL 481

Group 7. Integration and Assessment: LSTBA 400

**Area II: Mathematics (minimum 12 units)**

Group 1. Probability and Activities-Based Statistics: MTED 205

Group 2. Real Numbers: MTED 110

Group 3. Geometry and Measurement: MTED 211 or 312

*(Students who choose a Math Concentration must take MTED 312.)*

Group 4. Integration and Assessment: MTED 402

**Area III: Natural Sciences (minimum 14 units)**

Group 1. Earth Science: Choose from: GEOL 102/104 or 106* (*GEOL 106 is the preferred course)

Group 2. Life Science: BIOL 200

Group 3. Physical Science: PHSC 112

Group 4. Integration and Assessment: SCED 401

**Area IV: History/Social Science (minimum 15 units)**

Group 1. American History: Choose one course from HIST 172, 300

Group 2. American Institutions: Choose one course from POSC 100, 326, 391 (*POSC 326 is limited to and only required of students who have met the U.S. Constitution requirement in a state other than California or through Advanced Placement credit and who must meet the Title V California State and Local Government requirement.)*

Group 3. World History and Geography: Take either HIST/GEOG 250*, or HIST 211+ GEOG 100 (*HIST/ GEOG 250 is the preferred course)

Group 4. Multicultural Dimensions: Choose one course from AIS/ ASAM/BST/CHLS/WGSS 319, ANTH 421/ LING 425

Group 5. California History: HIST 473

Group 6. Integration and Assessment: LSTBA 471

**Area V: Arts and Humanities (minimum 15 units)**

Group 1. Music: MUS 180

Group 2. Dance or Theater: Choose one course from: CWL 124, 3241, DANC 110, 179, THEA 113, 122, 3241

Group 3. Ethics, Values and Beliefs: Choose one course from PHIL 100, 160, 203, 204, 4051, RST 100, 202, 485

Group 4. Visual Art: ART 300

Group 5. Integration and Assessment: LSTBA 404

2009/2010 CSULB Catalog • Liberal Studies • 515
Area VI: Critical Issues in Teaching and Learning (minimum 16 units)

Group 1. Information and Technology Competencies: Choose one course from: ENGL 337, ETEC 110, 444, MTED 301

Group 2. Critical Thinking: Choose one course from: ASTR 190, COMM 131, ENGL 102, ETFC 171, HIST 101, PHIL 170, PSYC 105, PSY 130

Group 3. Child Development and Learning: Choose one course from: EDP 301, HDEV 307

Group 4. Family and School Partnerships: EDSP 355

Group 5. Physical Education: KIN 476

Group 6. Health Science: HSC 411A

Track I Concentration

A minimum of 12 units with advisor approval, at least 9 of which must be at the upper-division (300-400) level (with the exception of the Natural Science concentration) in one of the thematic programs of study identified below. No concentration course may be taken Credit/No Credit. No course used to fulfill a core requirement may be used to fulfill a concentration requirement.

Students must gain approval for a concentration and curricular plan. Normally the proposal is submitted before the student begins to take courses in the concentration. Students declare a concentration by attending a concentration workshop. Students may sign up for a workshop at the Liberal Studies Office. Subsequent modifications of the concentration curriculum must also be approved.

Bilingual Spanish-English

Subject preparation for a Multiple Subject Credential with bilingual, cross-cultural, language and academic development (BCLAD) emphasis requires students to demonstrate proficiency in a targeted language and understanding of the culture of a targeted group. This concentration focuses on the Spanish language and Latino culture to be consistent with the requirements of the BCLAD emphasis in the CSULB credential program. The primary focus of the concentration is development of language skills. Students with demonstrated language proficiency in reading, writing, and speaking at an advanced level may seek to substitute additional culture studies for required language classes. Prior to proposing this concentration or completing any course work toward it, students should meet with the Spanish undergraduate advisor who will be able to determine language proficiency. (The following Core classes are highly recommended for students proposing this concentration: CHLS 319 in Area IV, B, Group 3; EDP 301 in Area IV, Group 1b.) Complete 15 units from:

Area 1. Language Foundations (9 units): SPAN 300, 322

Area 2. Literary Analysis (3 units): SPAN 310

Area 3. Culture Study (3 units) from: CHLS 340, CHLS 350, SOC 340

Cultures, Values and Beliefs

Focus is on humanistic study of cultural traditions, both Western and non-Western, and the values and beliefs that have shaped them. Insight will be gained into motivating and orienting ideas that have given meaning to individual lives and structured human relationships. Special attention is given to religious, philosophical and ethical perspectives. (No course used to meet requirements of the core may be used to meet the requirements of the concentration; no more than 3 units of lower-division (100-200) course work may apply toward the concentration.) Complete 15 units from:

Area 1. Western Culture (3 units):
Choose from CLSC 300I, 311I, 411I, HIST 310I, 3231, 335, 337, 339, 400I, 414I, 477A, 477B

Area 2. Non-Western Cultures (3 units):

Area 3. Values and Beliefs/Western (3 units):
Choose from HIST 371, PHIL 100, 203, 204, 330, 342, 352, 361I, R/ST 102, 3531, 391L, 425, 482, 485

Area 4. Values and Beliefs/Non-Western (3 units):
Choose from AIS 335, ASAM 380, AFRS 353, PHIL 306, R/ST 103, 3311, 341I, 344, 351

Area 5. Ethical Values (3 units):
Choose from MICR 321, PHIL 160, 363, R/ST 302I

Health, Physical Education and Life Management

Provides students with a breadth and depth of knowledge, attitudes and behaviors that prepare them in the areas of health, physical education and fitness, mental health, family life and nutrition. The areas of emphasis include substance use and abuse, family life health and sexuality education, nutrition, violence prevention (including child abuse and suicide prevention), physical activity and fitness, motor skills and stress management. (Credit in the concentration will be granted for either HSC 425I or CDFS 419, but not both.) Complete 15 units from:

Area 1. Health (3 units):
Choose from HSC 421I, 423, 425I, 427

Area 2. Physical Education (3 units): KIN 477

Area 3. Life Management (3 units):
Choose from FCS 132, 319, 419, REC 371

Area 4. Additional Selected Study (6 units):
Choose from those listed in Areas 1 and 3 not completed.

Historical Perspectives

Prepares students in the subjects identified in the History-Social Science Framework for California Public Schools which provides the rationale and coherence for this course work. Emphasis is upon historical perspective not only in terms of Western/American tradition, but also in terms of other world societies and peoples. (The following core courses are recommended for students choosing this concentration: HIST 111 in Area IV, B, Group 2; ANTH 314 in Area IV, B, Group 3 and AIS, ASAM, AFRS, CHLS or WGSS 319 in Area IV, A, Group 3.) Complete 15 units from:

Area 1. Peoples of the World (3 units):
Choose from ANTH 321, 323, 324, 332, 333, 335, GEOG 306, 316, 318, 320

Area 2. Ancient World Civilizations (3 units):
Choose from ANTH 313, 345, 347, AIS 300I, HIST 313, 314, 316, 326A, PSYC 301

516 • Liberal Studies • 2009/2010 CSULB Catalog
Area 3. U.S. Emerges as a Nation (3 units):
    Choose from HIST 372, 375, 477A, 485A, WGS 485A
Area 4. California (3 units):
    Choose from ANTH 322, 349, CHLS 300, GEOG 304,
    HIST 370, POSC 325
Area 5. American Society Today (3 units):
    GEOG 306, HIST 380, 474I, WGS 307I

History/Social Science

In addition to deepening their knowledge of specific subjects in this area of study, students with a concentration in History/Social Science will be exposed to the specific modes of inquiry characteristic of such disciplines as history, anthropology and geography. Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. California Studies is most appropriate for 4th grade teaching, United States Studies for 5th or 6th grade teaching, and Global Studies for 6th grade teaching. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives,
3) Social and Cultural Perspectives, 4) Geographic Perspectives.

Complete 12 units from:

California Studies
Group 1: Anthropological Perspectives:
    Choose one course from: ANTH 412I, ANTH 421L, LING 425
Group 2: Historical Perspectives:
    Choose one course from: AAS 490, ANTH 349, ASAM 200, 220, 335I, CHLS 300, CHLS 335I, HIST 370, 402, 422, 471, 482
Group 3: Social and Cultural Perspectives:
    AAS 335, ANTH 322, ASAM 330, 331, 332, 333, 334,
    CHLS 380/SOC 341, POSC 323, POSC 326
Group 4: Geographic Perspectives: GEOG 120, 304

United States Studies
Group 1: Anthropological Perspectives:
    Choose one course from: ANTH 412I, ANTH 421L, LING 425
Group 2: Historical Perspectives:
    Choose one course from: AAS 105, ANTH 347, ASAM 200, 220, 335I, AFRS 120, 190, 381, CHLS 300,
    330I, 360I, ECON 360I, HIST 370, 372, 373, 378,
    481, 485A, WGS 485A
Group 3: Social and Cultural Perspectives:
    Choose one course from: AAS 335, ANTH 321, ANTH/ WGS 475, ASAM 330, 331, 332, 333, 334, 340,
    345, 346, 347, 352, 370, 380, 381, AFRS 353, 400I,
    410, 420, 423, CHLS 310, 340, 350, 415, ECON
    300, HIST 469, 471, 474I, 485B, 486, LING 470,
    POSC 323, 395I, 424, SOC 320, 325, 340, 345, 346,
    423, 466, WGS 312, 308, 315, 318I, 320, 325, 381,
    485B, 420, 430
Group 4: Geographic Perspectives:
    Choose one course from GEOG 120, 306, 401, U/ST 301

Global Studies
Group 1: Anthropological Perspectives:
    Choose one course from: ANTH 412I, ANTH 421L, LING 425
Group 2: Historical Perspectives:
    Choose one course from: ANTH 307I, ANTH 345, AFRS 350, AFRS 301, AFRS 201, 304, 430, 490, HIST 211, 304, 362,
    384, 382A, 382B, 383A, 383B, 385, 386, 391, 392, 396,
    431, 432, 492, POSC 401, WGS 402
Group 3: Social and Cultural Perspectives:
    AAS 314, 323, 332, 335I, 351, AFRS 320, 393, 459I, AFRS
    337, 404, 490, CHIN 200, ECON 300I, HIST 406B, 466C,
    POSC 220, 371, 380I, 355I, SOC 350, 460I, 494, WGS 301,
    410I, 410, 432
Group 4:

Human Behavior
Provides an understanding of basic principles underlying human behavior. Why do people interpret, believe, feel, think and act as they do? Basic issues include: How people process information and how they organize what they learn into knowledge structures; processes in social learning; how people influence other people and individual differences in ability and personality that affect behavior. These principles will be applied to specific issues in courses selected from a broad range of disciplines. (Credit in the concentration will be granted for either PSY 351 or SOC 335I, but not for both.)

Complete 15 units from:

Area 1. Basic Principles (6 units):
    Choose from ANTH 311, PSY 351, 356, 370, SOC 100, 335I
Area 2. Application/Race and Ethnicity (3 units):
    Choose from ANTH 419, ASAM 340, AFRS 310, 325, 410
Area 3. Application/Gender Roles (3 units):
    Choose from ANTH 351, CDFS 356, HIST 309I, PSY 352,
    354, 366, SOC 325, WGS 314, 325, 420
Area 4. Application/Social Environments (3 units):
    Choose from ANTH 436, CAFF 309I, 410, FIN 309I, HSC 421,
    PSY 381, SOC 320

Human/Child Development
Provides students with a background in the developmental issues of children, adolescents and adults within a family and social context. Specific areas focus on the intellectual and socioemotional development of individuals from birth through aging and the effects of the environments on their development. Factors which affect individual variability in growth and development such as gender, family, racial, ethnic and cultural differences will be explored. (The following core courses are REQUIRED for students selecting this concentration: AAS, ASAM, AFRS, CHLS or WGS 310 in Area IV A, Group 3 and ANTH 120 in Area IV B, Group 3.)

Complete 15 units from:

Area 1. Intellectual and Social Development (3 units):
    Choose from EDP 305, CDFS 314, PSY 463
Area 2. Adult Development (3 units):
    Choose from GER 460, HDEV 357I, PSY 365, SOC 464
Area 3. The Child in the Family (3 units):
    Choose from ASAM 340, AFRS 410, CDFS 319I, 412, 413
Area 4. Social Ecology of Child Development (6 units):
    Choose from AFRS 420, CHLS 350/SOC 340, EDP 302,
    EDSP 350, 485/LING 485, CDFS 411, HDEV 360, NRSY
    481I, SOC 345, 423

2009/2010 CSULB Catalog • Liberal Studies • 517
Language Arts
Provides students with special appreciation for languages, literatures, and their relation to culture through study in three areas: language perspectives, which involves the study of languages (and/or language) and their relationships to literary and cultural patterns; theory and/or criticism which provides the theoretical tools for the analysis and explanation of these relationships and language processes which involves additional practice in the creative and technical aspects of producing linguistic products. (The following core classes are highly recommended for students selecting this concentration: COMM 335 in Area I, Group 2; ANTH 412 in Area IV, B, Group 3; PHIL 100, 103, 203, 204 or 305 in Area V, B, Group 1 and ENGL 200 in Area VI, Group 3a. No more than 3 units of lower division (100-200) course work may apply toward the concentration.)
Complete 15 units from:

Area 1. Language and Culture (3 units):
Choose from ANTH 413, 475, AFRS 180, ENGL 423, 426, LING 413, 423, 426, 450, COMM 309, 330, WGS 475

Area 2. Language and Literature (3 units):
Choose from AS 340, AWST 320, AFRS 140, 343, CHIN 370, CISC 191, CWL 403, 404, 410, 440, 453, ENGL 382, FREN 335, 336, GER 415, 416, JAPN 370, RUSS 340, SPAN 330, 341, WGS 382

Area 3. Language/Theory and Criticism (3 units):
Choose from CML 301, ENGL 318, 364, 410, 484, PHIL 361, 484, RVST 301, FEA 318, COMM 300, 301, 306, 333, THEA 426

Area 4. Language and Process (3 units):
Choose from AFRS 450, ENGL 205, 206, 317, 405, 406, 417, COMM 331, 385, THEA 380

Area 5. Additional Selected Study (3 units):
Choose from ENGL 375, LING 472, COMM 355

Language and Literacy
Students in the Language and Literacy concentration develop their knowledge of and appreciation for Literature while also engaging enhancing their ability to deal with literacy education through additional study of linguistics and culture.
Complete 12 units from:

Group 1. Exploring Literature:
Choose two courses from AS 340, ASAM 260, 261, AFRS 343, 346, CHIN 370, CHRLS 205, CWL 100, 410, ENGL 190, 200A, 200B, 270A, 270B, 270C, 363, 375, 382, 385, 386, 482, JAPN 370, WGS 382

Group 2. Sociolinguistics and Schooling: LING 379

Group 3. Language, Literacy and Culture:

Language Other Than English
Provides opportunity for students to gain access to advanced preparation in reading, writing and speaking a selected language other than English. Provides insights into second language acquisition and the intimate relationships linking language, cognition and culture. Students select one language in which to complete the following requirements.

Complete 15 units from:

Area 1. Advanced Language Study (6 units):
Choose from CHIN 301, 302, FREN 312A, 312B, GER 301, 302, ITAL 312A, 312B, JAPN 301, 302, RUSS 312, 399

Area 2. Conversation (3 units):
Choose from CHIN 490, FREN 214, GER 305, ITAL 214, JAPN 311, RUSS 314, SPAN 314

Area 3. Literature (3 units):
Choose from CHIN 370, FREN 335, 336, GER 415, 416, ITAL 490, JAPN 471, RUSS 310, SPAN 330, 341

Area 4. Additional Study (3 units):
Choose from CHIN 490, FREN 314, 411, 414, GER 303, ITAL 314, 490, JAPN 312, 350, 461, RUSS 499, SPAN 322

Mathematics
Provides advanced study of mathematics consistent with the philosophy of the California Framework in Mathematics and Standards of the National Council of Teachers of Mathematics for the mathematics content taught through the middle grades. (The following core courses are REQUIRED for students choosing this concentration: MTED 312 in Area II, Group 2, MTED 301 in Area V, Group 3c.) Students choosing the Mathematics Concentration must complete MTED 312 with a “C” or better grade prior to registering for MTED 402.
Complete 12 units from:

Group 1. Probability and Activities-Based Statistics:
MTED 205 (must be completed prior to enrollment in MTED 402)

Group 2. History of Mathematics: MTED 415

Group 3. Number Theory: MTED 420

Natural Science
Two pathways provide fundamental skills and abilities to deal confidently with a wide variety of scientific viewpoints applied to various important issues, concrete and significant examples of scientific thinking. Pathway A: “breadth” pathway particularly appropriate for future K-5 teachers. Choose at least one course from three different groups. Pathway B: “depth” pathway particularly appropriate for future teachers of grades 6-8 as well as for students who prefer a stronger emphasis on investigation and experimentation. Choose at least three courses from a single group.
Complete 12 units from:

Pathway A – Breadth – Choose coursework from EACH of the following groups:

Group 1. Earth Science:
Choose one course from: GEOL 160, 190, 240, 300

Group 2. Life Science:
Choose one course from: BIOL 100, 153, MICR 101, 300

Group 3. Physical Science:
Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A

Group 4. Additional Coursework:
If necessary to reach 12 units in the Concentration, choose one course from: ASTR 101L, ASTR 101L, NSCI 309, 373L or any additional class from those listed above.
Pathway B. Depth — Choose an option and take three courses in that option:
Earth Science Option:
Choose three courses from:
GEOG 100, 190, 240, 300L, 341, GEOL 303
Life Science Option:
Choose three courses from:
Biol 100, 153, GEOL 303, MIRC 101, 300L
Physical Science Option:
Choose three courses from: ASTR 100, CHEM 100, 
111A, 111B, 302, PHYS 100A, 100B
Additional Coursework:
If necessary to reach 12 units in the Concentration, 
choose from ASTR 100L; NSCI 309L, 375L, or any 
additional class from any other of the options listed 
above.

U.S. Multicultural Studies

Students should learn from their earliest school years that our nation is composed of people whose backgrounds 
are rooted in cultures from around the world, and they 
should develop respect for the dignity of all people 
and ways of life. This concentration will help potential 
teachers to recognize that the history of community, state, region and 
nation must reflect the experience of men and women of 
different racial, religious and ethnic groups in our pluralistic 
society. (The following core course is REQUIRED for 
students choosing this concentration: AIS, ASAM, AFRS, 
CHLS or WGSS 319 in Area IV, A, Group 3. Courses 
selected should include all four major U.S. ethnic groups. 
No more than 3 units of lower division (100-200) course 
work may apply toward the concentration and no course 
used to satisfy a core requirement may be used to satisfy a 
concentration requirement.)
Complete 15 units from:

Area 1. Education in an Ethnic Perspective (3 units):
Choose from ASAM 310, AFRS 420, CHLS 340
Area 2. Multicultural Perspectives (3 units):
Choose from ANTH 141I, 421L, JING 425, EDP 432I/ 
EDEL 430, NUTR 336, HDEV 360, COMM 330, 
WGSS 401

Area 3. Ethnic Studies (9 units):
No more than one course may be selected from 100- 
200 level courses and from any one department 
(courses cross-listed with CHLS will be considered 
CHLS department courses in this context). Choose 
from AIS 105, 106, 200, 320, 340, 420, ASAM 220, 
340, 345, 370, 380, AFRS 110, 180, 370, 400L, 410, 
CHLS 300/HIST 370, CHLS 310, CHLS 350/SOC 
340, CHLS 352/SOC 341, CHLS 300

Visual and Performing Arts

Allows development of skills in responding to the arts 
as well as in creating and performing. Examines history of 
traditional Western Fine arts as well as role the arts play 
in another cultural tradition. All four components of the 
California Framework for the Visual and Performing Arts are 
addressed: Aesthetic perception, creative expression, arts 
heritage and aesthetic valuing.

Complete 15 units from:

Area 1. Perception, Expression, Heritage, Valuing (6 units):
ART 302 (Course no longer offered. See Liberal 
Studies director for substitution.), MUS 385

Area 2. Fine Arts History (6 units):
If a Theatre course was taken in the Core, include at 
least one Dance course here. Choose from AH 401, 
408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 
430, 437, CML 422I, DANC 110, 435I, MUS 363I, 
364I, 365

Area 3. Multicultural and Ethnic Arts (3 units):
Choose from AIS 320, 420, AH 455, 456, 457, 466, 
467, 468, 469, 470A/B, AFRS 346, 363, MUS 490

Courses (L/ST)

400. Evaluating Literacy (3)
Prerequisites: Limited to Liberal Studies majors, who have 
completed all AREA I Core requirements with a "C" or better grade 
and consent of Chair.
Review, analysis, and assessment of K-8 California State Reading/ 
Language Arts Content Standards and Curriculum Frameworks. 
Contemporary literacy theory and practice with focus on 
language, culture, literature, and development of literacy. Literacy 
assessment and its implications, determinations, and effects.
Letter grade only (A-F).

403. Civic Issues and Values (3)
Prerequisites: Limited to Liberal Studies majors, Track I, who have 
completed all Area IV Core requirements with a "C" or better grade. 
Student literacy in the social sciences and ability to recognize and 
deal with the dynamics of a multicultural, multilingual community 
will be assessed.
Letter grade only (A-F).

404. Arts and Values (3)
Prerequisite: Limited to Liberal Studies majors, who have 
completed all Area IV Core requirements with a "C" or better grade, 
or consent of Chair.
Review, analysis, and assessment of K-8 California State 
Visual and Performing Arts Content Standards and Curriculum Frameworks. 
Relationship between arts criticism and various broader values (historical, social, 
esthetic, ethical). Impact of religion, Enlightenment philosophy, modernism, and 
multiculturalism on the arts.
Letter grade only (A-F).

471. History/Social Science Content and Standards for 
Elementary Classrooms (3)
Prerequisites: Limited to Liberal Studies majors, who have 
completed all Area IV Core requirements with a "C" or better grade.
Review, analysis and assessment of K-8 California State History/ 
Social Science Content Standards and Curriculum Frameworks. 
Student literacy in the social sciences. Integrates geographical and 
historical analysis of California, Early American and Pre-Modern 
World history within a global context.
Letter grade only (A-F).
LINGUISTICS
College of Liberal Arts

Department Chair: Malcolm A. Finney
Department Office: Psychology (PSY) 114
Telephone / FAX: (562) 985-8792 / (562) 985-2593

Faculty: Rebekah J. Abubak, John J. Attinasi, Michael J. Fendel, Malcolm A. Finney, Nancy Hall, Robert M. Hertz, Alexandra M. Joffe, Lorraine E. Kumpf, Barbara LeMaster, Xiaoqing Liang, Carol D. Loro, Sara W. Smith

Advisors:
Undergraduate: Lorraine E. Kumpf
Graduate: Xiaoqing Liang
CLAD: John J. Attinasi

Administrative Coordinator: Phyllis L. Simon

Career Possibilities
English as a Second Language (ESL) Teacher • Bilingual Education Teacher • Intelligence Specialist • Researcher • Teacher • Linguist • Foreign Service Officer • Peace Corps Worker • Librarian • Interpreter • Immigration Officer • Lawyer • Customs Inspector • Import-Export Agent • Philologist • Writer • Editor • Sales Representative • Consultant (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu) Various entry-level positions in business and industry are available for graduates regardless of academic discipline.

Introduction
Linguistics is the science of language. Linguistics majors study the nature of language, the similarities and differences among languages, the physical mechanisms of human languages (both spoken and signed), acquisition of languages, and socialization through languages. Areas include anthropological linguistics, psycholinguistics, sociolinguistics, and applied linguistics, including teaching English as a second or foreign language.

The Department of Linguistics at CSULB offers an undergraduate major and minor in Linguistics, an Interdisciplinary CLAD Minor, a Certificate in Teaching English as a Second Language (TESL), and the MA with four Options: TESL, General, Special, and Language and Culture.

Students desiring general information should contact the department office. Advisors are available for individual appointments during the Fall and Spring semesters to assist students with information about degree requirements and about graduate study.

Undergraduate Programs

Bachelor of Arts in Linguistics (code LINGBA01) (120 units)
The following are department goals for students receiving the BA in linguistics:
• Students will demonstrate knowledge of the fundamental architecture of language in the domains of phonetics and phonology, morphology and syntax, and semantics and pragmatics.
• Students will demonstrate knowledge of the variety of structures by which diverse human languages realize this architecture.
• Students will demonstrate knowledge of the social functions of language and the role of language as a cultural institution.
• Students will demonstrate knowledge of language variation, including historical change and dialected variety.
• Students will demonstrate skills in studying language structure and use.
• Students will demonstrate knowledge of how people acquire first and second languages and the implications for language instruction and educational policy.
• Students will demonstrate skill in critical evaluation of language research and policy.
• Students will experience the opportunity to apply linguistic knowledge in a community setting.
• Students will be able to identify applications of linguistics and related career opportunities such as education, translation, and computational linguistics.
• Students will demonstrate proficiency in English and in at least one other language.
• Students will value life-long learning in the field of linguistics.

Requirements

Lower Division: (6 units) LING 101, 170

Upper Division:
1. 12 units — LING 325, 329, 420, 421
2. 24 units — Select eight (8) courses from LING 413, 423, 425, 426, 428, 433, 470, 472, 486, 490 or PSY 438. Students may substitute up to 6 units of relevant upper-division coursework from other departments, with permission of the Linguistics advisor.

Language Requirement
Sixteen (16) units or equivalent are required. Four semesters (or their equivalent) of a language other than English, with either: (a) two semesters of an Indo-European language plus two semesters of a non-Indo-European language or (b) four semesters of any one language. Students with prior language experience can pass language requirement by examination or other evidence.
Minor in Linguistics (code LINGUM01)

A minor in Linguistics consists of a minimum of 21 units, with at least one course selected from each of five subject area categories. Although not required for the minor, foreign language courses are recommended. In selecting courses, students should be aware that some courses have prerequisites, including language proficiency.

Courses which are counted for a major may not also be counted for a minor, but students who have taken a course from any category as a part of their major may substitute an elective with approval of the Department Chair.

Requirements

Select at least one course from each category:
- Category I: Introduction: ANTH 170, LING 303;
- Category II Phonology: CD 330, FREN 414, GERM 303;
- Category III Syntax: LING 421, FREN 411, SPAN 426;
- Category IV Psycholinguistics and Neurolinguistics: EDSP 454, LING 329, PSY 438;
- Category V Language, Culture, and Society: ANTH 412, 413;
- Electives: a program total of 21 units selected from: any course listed above, CHL S 341, LING 423, 426; PHIL 484; SPAN 427; and various electives on topics courses on linguistics subjects offered through the participating departments. These topics courses are shown on an approved list available in the participating departments.

Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code COEDUM01)

The minor comprises courses that integrate studies of culture, language, learning and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student’s major may not be used.

1. One course from each of the following areas (12 units):
   - Culture: ANTH 421, LING 425 or EDSP 432/4DEL 430
   - Language: EDSP 454 or LING/CD 329
   - Schooling: EDSP/LING 485
   - Development: EDSP 301, EDSP 302, HDEV 3071, or PSY 361

2. Six additional units, selected with an advisor, from the following:
   - Culture: AIS 319, ASAM 319, AFRS 319, CHLS 319, WGSS 319, ANTH 329, ANTH412, ANTH/LING 413, ANTH 419, ANTH 421/LING 425, ANTH/WGSS 475, CHLS/ASAM 351, EDSP 432/4DEL 430
   - Language: ANTH 170; CHLS 402; EDSP 454; ENGL 327; LING/CD 329, LING 325, 3631, 472, 486
   - Schooling: AIS 361, ASAM 310, AFRS 420, CHLS 340, EDSP 305, 476, EDSP 350
   - Development: EDSP 301, 302, HDEV 3071, PSY 361

Graduate Programs

Master of Arts in Linguistics

The program for the M.A. degree in linguistics is designed both for students who wish to pursue further graduate study and those seeking a terminal degree. The program seeks to blend theoretical and applied aspects of linguistics and draws from a variety of disciplines.

The M.A. degree in linguistics offers three options and one concentration:
1. General Linguistics Option
2. Language and Culture Option
3. Teaching English as a Second Language Option
4. Special Concentration

Graduate assistantships may be available to qualified students.

Prerequisites

1. A bachelor's degree with a 3.0 GPA for the most recent 60 units;
2. 21 units of undergraduate coursework as follows (can be taken at CSULB):
   - A. Fifteen (15) units in Linguistics, the following courses or equivalent: Introductory Linguistics (LING/ANTH 170 or LING 325), Language Acquisition LING 329, Phonology LING 420, Syntax LING 421, language variation (LING, 379, 413, 425, 426, 438 or 472), and
   - B. Six (6) units either in linguistics or a language-related field (such as TESL, rhetoric, literature in another language, cross-cultural communication, cognition, or artificial intelligence).

Advancement to Candidacy

1. Satisfaction of the general university requirements for advancement to candidacy, including prerequisites, the Graduation Writing Assessment Requirement (GWAR), and 3.0 GPA.
2. Completion of the foreign language requirement, either:
   - A. Two courses of a foreign language at the upper division level, or the equivalent, or
   - B. Two courses of an Indo-European language and two courses of a non-Indo European language, or equivalent.
3. Completion of six units of course work within the program, exclusive of any classes used to meet prerequisites.
4. Approval of the candidate's graduate program by the Graduate Advisor, the Associate Dean for Instructional Programs of the College of Liberal Arts, and any other individuals identified by relevant university policy.
5. Advancement must take place no later than the semester before the student graduates.

Requirements

1. A minimum of 33 units of approved upper division and graduate courses for the thesis path or a minimum of 34 units of approved upper division and graduate courses of the comprehensive examination path, including
2. A minimum of 21 units at the 500 or 600 level;
3. The completion of the five course core requirement for the degree;
4. The completion of requirements of one of the options or the Special Concentration designated in the program;
5. Completion of one of two culminating experiences:
   A. A thesis and its accompanying oral defense and oral examination (LING 698, 6 units).
   B. The comprehensive examination and its accompanying graduate paper (LING 697, 1 unit).
6. A GPA of 3.00 on all courses included in the program.

Core
1. Two courses from the following three: LING 620, 625, 633.
2. One course from the following: LING 540, 610, 650.
3. One course from the following: LING/PSY 539.
4. One course from the following: LING 590/ANTH 570, LING 596.

General Linguistics Option (code LINGMA02)
The option includes a 15-unit core and 12-18 units of additional selections, including general linguistics courses from the core, such that students take LING 620, 625, 633, 650, 640, 650 and LING/PSY 539. Courses will total 33 units (including LING 668, 6 units) in the thesis pathway, or 34 units (including LING 697, 1 unit) in the comprehensive exam pathway.

Language and Culture Option (code LINGMA03)
This option includes the 15 unit core; the specialization includes: LING 553/ANTH 530, ANTH 630, LING 540, and approved selections from LING/ANTH 413, LING 423, LING 425/ANTH 421, LING 470/ANTH/WGSS 475, LING 650, ANTH 660, ANTH 597; and 697 or 698 for the culminating experience.

Teaching English as a Second Language Option (code LINGMA04)
The TESL option includes a 15 unit core, and either the Comprehensive Exam or Thesis Pathway.
   Comprehensive Exam Pathway: (19 units) required: LING 486, 500, 561, 562, 593, and either LING 560 or 575; plus 1 unit of comprehensive directed research, LING 607.
   Thesis Pathway: (18 units) required: LING 486, 593, and two of the following: LING 500, 561, or 562; plus 6 units of thesis research, LING 698.

Special Concentration (code LINGMA01)
This concentrations is 12-18 units. Students electing this concentration must [1] consult with the Graduate Advisor about their proposal; [2] submit a written justification for the course of study they wish to take, including [3] a list of the classes which are proposed to meet the objectives of this special program. Both the written justification and the course list are subject to approval. Other requirements of the program (e.g. a five course core, GPA, culminating experiences, etc.) cannot be waived or altered by use of the special concentration.

Students wanting graduate credit for certain 400-level courses must consult with the Graduate Advisor before enrolling.
Courses with an "I" suffix are not available for graduate credit.
Note: Graduate students are required to register for the higher (500-level) course whenever a course has a double number. Students may not repeat courses by taking them under different prefix designations, numbers, or titles unless the course description specifically permits.

Certificate in Teaching English as a Second Language (code ENGLCT02)
The Graduate Certificate in Teaching English as a Second Language (TESL) is open to students from any field who desire training for teaching English to speakers of other languages. While the program may be begun as an undergraduate, at least 18 units must be completed as a post-baccalaureate student.

Prerequisites
1. A baccalaureate degree with a GPA of 3.0 on the last 60 units.
2. One introductory course in linguistics: LING 170 or equivalent.

Requirements
1. Twenty-four units, including:
   A. 20 taken in residence;
   B. 18 taken as a graduate student;
   C. 12 taken at a 500-600 level.
   NOTE: Categories A-C combined need only equal 24 units.
2. A GPA of 3.0 in all courses included in the program.
3. Fulfill the Graduation Writing Assessment Requirement (GWAR).
4. Eight courses, one each in eight different categories:
   A. One course in basic ESL methodology: LING *436.
   B. One course in cross-cultural communication: LING *425 (ANTH *421).
   C. One course in language acquisition: LING 329.
   D. One course in intermediate level linguistics: LING 420 or 421.
   E. One course in testing and assessment: LING 562.
   F. One course in curriculum: LING 561.
   G. One course in specialized methodology: LING *460 or 575.
   H. Three units of a practicum: LING 593.
Students who have taken equivalent courses in the above categories but need units to complete certificate requirements may elect to take courses as advised.

Students wanting graduate credit for 400-level courses which have not been approved for graduate credit by the home department must consult with the Program Director or Graduate Advisor before enrolling. Courses with an "I" suffix are not available for graduate credit, but may be used for the Certificate if they were taken while the student was an undergraduate.
Courses (LING)

LOWER DIVISION

101. Introduction to the World's Languages (3)
Prerequisite: ENGL 100.
General introduction to roles that the world’s languages have played historically, socially, culturally and politically. Nature of language, how languages operate, differ, and relate to each other. Contact between languages and change over time. Spoken and written forms of language.

151. Fundamentals of American Sign Language I (3)
Prerequisite: One GE foundation course which may be taken concurrently.
For those who are beginning ASL, or who have had less than two years of high school ASL or equivalent, introduction to pronunciation, receptive and expressive conversational skills without voice, and grammatical structures of American Sign Language (ASL). Includes development of appropriate linguistic/cultural behaviors and awareness of oneself and respect for Deaf Culture.
Letter grade only (A-F).

152. Fundamentals of American Sign Language II (3)
Prerequisite: LING 151 or equivalent.
Second semester introduction to pronunciation, receptive and expressive conversational skills without voice, and grammatical structures of American Sign Language (ASL). Includes development of appropriate linguistic/cultural behaviors and awareness of oneself and respect for Deaf Culture.
Letter grade only (A-F).

170. Introduction to Linguistics (3)
Prerequisite/concurrent: Any GE Foundation course.
Nature of language; its relation to culture; language structure and processes of change; language universals, contrasts and relationships.
Same course as ANTH 170. Not open for credit to students with credit in ANTH 170.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

325. Modern English Grammar (3)
Introduction to current descriptions of English grammar, with reference to structural and transformational models of American English as well as to traditional ones.
Not open for credit to students with credit in ENGL 325. Letter grade only (A-F).

329. Introduction to Language Acquisition (3)
Introduction to the study of the acquisition of first and second languages. Linguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The influence of developmental stages and social and cultural factors on the individual.
Letter grade only (A-F). Same course as C D 329. Not open for credit to students with credit in C D 329.

339. Linguistics for Crosscultural Academic Development [In Secondary School Settings] (3)
Principles of language structure, variation and usage for educators. First and second language acquisition, and related social, cultural and political issues regarding language behavior in middle and high schools. Influences on language attitudes, maintenance and shift.
Letter grade only (A-F). Not open for credit to students with credit in EDSE 329.

363L. Implications of Human Language (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Human language as examined from the perspectives of linguistics and related disciplines. Topics include language acquisition, individual and group differences in the acquisition and use of language, and the social meanings and cultural contexts of language use.

379. Sociolinguistics and Schooling (3)
Prerequisite: LING 325 or equivalent.
Study of language variation in relation to standard language development in society and individuals. Key sociolinguistic concepts: dialect, speech event, repertoire, language community, prescriptive vs. descriptive. Application to verbal classroom language and the development of academic speaking, reading and writing.
Letter grade only (A-F). Not open for credit to students with credit in EDEL 379.

413. Language and Culture (3)
Holistic of language to social and cultural practices and processes: issues of meaning, identity and power within and across cultures.
Same course as ANTH 413. Not open for credit to students with credit in ANTH 413.

420. English Phonology (3)
Prerequisites: Consent of instructor.
Study of the phonology of American English, using articulatory phonetic, phonemic, and distinctive feature analyses.
Not open for credit to students with credit in ENGL 420 or 420L. Letter grade only (A-F).

421. English Syntax (3)
Prerequisites: ENGL 325 or consent of instructor.
Study of the morphology and syntax of American English, using structural, transformational, and recent models.
Not open for credit to students with credit in ENGL 421 Seminar.
Letter grade only (A-F).

423. Semantics (3)
Study of meaning in language.
Same course as ENGL 423. Not open for credit to students with credit in ENGL 423.

425. Education Across Cultures (3)
Same course as ANTH 421.

426. History of the English Language (3)
Development of the English language from its beginnings to the present day.
Same course as ENGL 426. Not open for credit to students with credit in ENGL 426.

428. Applied Linguistics (3)
Linguistic research applied to the study and teaching of linguistics and language skills.
Not open for credit to students with credit in ENGL 428/524. Letter grade only (A-F).

431. Cultural and Linguistic Diversity in Schools (3)
Multicultural education, including concepts of culture, educational equity, social justice, multiple forms of diversity, and anti-bias/anti-racist curriculum. Models of English language acquisition, bilingual education theory, and instructional accommodations for diverse students.
Letter grade only (A-F). Ten hours fieldwork. Same course as EDEL 431. Not open for credit to students with credit in EDEL 431 and EDP 431.

2009/2010 CSULB Catalog • Linguistics • 523
**GRADUATE LEVEL**

**500. Educational Linguistics (3)**
Prerequisites: Nine units of linguistics or consent of instructor.
Graduate introduction to roles of language and linguistics in contemporary education; analysis of context of language acquisition; attitudes toward multilingualism; language policies which set guidelines and expectations for instruction, cultural factors which influence language acquisition.
Letter grade only (A-F). Not open for credit to students with credit in LING 530. (Discussion)

**533. Ethnography of Communication (3)**
Prerequisite: Graduate standing.
Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Major topics presented include: language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy.
Letter grade only (A-F). Same course as ANTH 530. Not open for credit to students with credit in ED P 577.

**539. Language Acquisition (3)**
Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor.
Theory and research on acquisition of first and subsequent languages in children and adults. Psycholinguistic perspectives on phonological, syntactic, semantic, and pragmatic aspects of language. Interacting roles of cognitive processes, individual differences, social influences, and cultural context will be stressed.
Letter grade only (A-F). Same course as PSY 539. Not open for credit to students with credit in PSY 530.

**540. Sociolinguistics (3)**
Prerequisite: Nine units of linguistics or consent of instructor.
Study of the linguistic and social antecedents, correlates, and consequences of language variation in the individual and society. Integration of theoretical models and practical fieldwork.
(2 hrs seminar, 3 hrs lab.)

**560/460. TESL Composition (3)**
Introduction to the rhetoric and composition of students with limited English proficiency. Attention to both the general principles of composition, and the specific issues that face students and teachers in an ESL context.
Letter grade only (A-F).

**561. Second Language Curriculum Development (3)**
Prerequisite: LING 421 or consent of the instructor.
Study of the content of second language instruction, from nongrammatical, communicative approaches to content-based instruction. The course will look at both K-12 and adult language instruction.

**562. Second Language Testing and Assessment (3)**
Prerequisite: LING 421.
Testing and assessment of second language learners, including both standardized tests and teacher-developed modes of assessment.
Letter grade only (A-F).

**575. Literacy and Linguistics (3)**
Prerequisites: Six units in linguistics or consent of instructor.
General introduction to field of literacy studies. Examines relationship between oral and written language, native language literacy and biliterate acquisition, pedagogical practices and issues, and cognitive and sociocultural approaches to literacy development.
Letter grade only (A-F). Not open for credit to students with credit in ED P 575.

---

524. **Linguistics** • 2009/2010 CSULB Catalog
580. Linguistic Field Methods (3)  
Prerequisite: An introductory linguistics course.  
Introduction to linguistic field work with a native speaker of an  
unfamiliar non-European language. Phonetic transcription and  
investigation of phonological, morphological, and syntactic  
structures of the selected language within the context of linguistic  
universalism.  
Letter grade only (A-F). Same course as ANTH 570. Not open for  
credit to students with credit in ANTH 570.  
590. Advanced Special Topics in Linguistics (1-3)  
Prerequisite: Consent of instructor.  
Advanced study of special topics of current interest and concern  
to students in linguistics and allied areas.  
Topics will be announced in the Schedule of Classes. May be  
repeated to a maximum of 6 units with different topics. Letter  
grade only (A-F).  
593. Practicum in TESL (3)  
Prerequisite: LING 442.  
Combined experience in teaching English as a Second Language  
supplemented by reading, discussion, and research. Students  
must pass this to be assigned to regularly scheduled ESL  
classes five hours per week, as well as for meetings with the  
instructor.  
Letter grade only (A-F).  
595. Qualitative Research Methods (3)  
Comprehensive introduction to theory, nature, and use of  
qualitative methods in educational settings. Emphasis on  
application of valid research experiences such as identifying and  
developing research problems appropriate for qualitative investigation,  
study design, qualitative/research data collection techniques, data  
analysis, data interpretation, and presentation of findings.  
Same as EDP 595. Letter grade only (A-F).  
596. Research in Linguistics (3)  
Prerequisite: Advancement to candidacy for the M.A. in  
Linguistics.  
Principles and practice of quantitative and qualitative research  
design, analysis and reporting. Access to sources, evaluation of  
published research, application of tools. Preparation of research  
proposals.  
Letter grade only (A-F). (Seminars, 2 hours; Laboratory, 3 hours.)  
597. Directed Study in Linguistics (1-3)  
Prerequisite: Consent of instructor and advisor.  
Directed study on issues and topics in Linguistics. Not intended to  
replace available courses.  
610. Historical Linguistics (3)  
Prerequisite: LING 460 and 421 or equivalent.  
Advanced study of language change, language families, and  
language relationships using the methods of comparative  
linguistics.  
(2 hours seminar; 2 hours laboratory) Letter grade only (A-F).  
620. Seminar in Syntactic Theory and Analysis (3)  
Prerequisite: LING 451.  
Theories and practices of selected views of syntax in  
contemporary linguistics. Topic may vary from semester to  
semester.  
Letter grade only (A-F).  
625. Seminar in Phonetics and Phonology (3)  
Prerequisite: LING 420.  
Theory and practice of selected views of phonetics and phonology  
in contemporary linguistics.  
(Seminars, 2 hours; Laboratory, 2 hours) Letter grade only (A-F).  

633. Discourse and Grammar (3)  
Prerequisite: LING 421 or consent of instructor.  
Discourse analysis within linguistic theory and method. Focus  
on the relationship of discourse and grammar; relationship of  
morphosyntactic devices to discourse context and of information  
flow to grammar. Pragmatic motivation for grammatical systems.  
Relationships of grammar and genre.  
Letter grade only (A-F).  
650. Seminar in Bilingualism (3)  
Prerequisites: LING 420, 421 or consent of instructor.  
Advanced study of degrees of bilingualism and types of bilingual  
situations. Implications of bilingualism and bilingual social  
situations for linguistics and education.  
Letter grade only (A-F).  
697. Directed Research (1)  
Prerequisite: Advancement to candidacy for the M.A. in  
Linguistics.  
Research in linguistics on a topic connected with the  
Comprehensive Project and Examination for the Master's degree.  
Letter grade only (A-F). May be repeated to a maximum of 3 units.  
698. Thesis (1-6)  
Prerequisite: Consent of graduate committee.  
Planning, preparation and completion of a thesis in linguistics.  

2009/2010 CSULB Catalog • Linguistics • 525
MANAGEMENT AND
HUMAN RESOURCES MANAGEMENT
College of Business Administration

Department Chair: Roger R. Stanton
Department Office: College of Business Administration (CBA) 321
Telephone: (562) 985-4763

Faculty: David J. Abrami, Josh A. Arnold, Philip S. Chang, Chellin Cummings, Asoke Dey, Eric Hensen, Sai Kolpak, Jonathan S. Monat, Richard A. Opland, Sabine Reddy, Daniel Rotting, Vicki M. Scheinw, Roger R. Stanton, Judy Strausis, Xuemei (Sherry) Su, Mark Washburn, Jun Yan

Administrative Support Coordinator: Laura Wickman

For MBA with Specialization in Management and Human Resources Management, see Business Administration, Graduate Programs.

Career Possibilities
Management Trainee • Retail Manager • Buyer • Bank Manager • Credit Manager • Property Manager • Hotel Manager • Restaurant Manager • Office Manager • Project Manager • Sales Representative • Insurance Office Manager • Assessor • Industrial Traffic Manager • City Manager • Community Services Director (Some of these careers require additional education or experience.) Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Undergraduate Programs

Bachelor of Science in Business Administration

Requirements
A minimum of 120 units required to graduate with an undergraduate business degree from CSULB. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.

1. ACCT 201; ECON 100, 101; BLAW 220; MATH 108 or 114, 115, and PHIL 160 or 170.
2. All business and pre-business majors shall demonstrate computer literacy and competency prior to taking junior and senior level courses. Requires one of the following:
   A. Passing score (70%) on the Computer Proficiency Examination (CPE).
   B. Completion of IS 233 with Credit (C) or “C” or better grade in a transfer equivalent course.

3. Upper Division:
   A. CBA 300; ACCT 310; ECON 333; FIN 300; BLAW 320; IS 300, 301, 310; HRM 360; MGMT 300; MKTG 300.
   B. MGMT 425 (Capstone) must be taken at CSULB as a senior and after the upper division prerequisite core courses have been completed (ACCT 310 or 320, FIN 300; MGMT 300; MKTG 300, IS 301).

4. Elective courses to total 120 units required. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for preparation for business employment.

Option in Management
(code MGMTBS01) (120 units)

The objective of the management curriculum is to prepare students for a successful career in management of the business enterprise. Attention is given to the need to create and maintain a desirable internal environment. Interface of that environment with the external environment in relation to success of the enterprise is considered. Philosophical basis for the practice of management, ethical considerations and human values are stressed. The student’s exposure to theory and concepts leads to the acquiring of knowledge and skills to assume first professional positions and progress through middle and upper management careers.

Requirements
1. MGMT 426;
2. 12 units selected from MGMT 326, 405, 410, 411, 412, 413, 414, 421, 430, 454, 455.

Option in Operations Management
(code MGMTBS02) (120 units)

The objective of the operations management curriculum is to prepare and stimulate student competence in the conceptual, systematic and analytical tools prerequisite for entry level and advanced positions in goods-producing and service-orientated industries. Emphasis is placed on the systems approach which stresses the concepts, techniques and policies essential for the economical and effective design, operations and control of manpower, facilities, materials, capital and informational inputs of organizations. Students are introduced to productivity tools such as Total Quality Control, Manufacturing Resource Planning, Just-In-Time Techniques, Simulation and Animation of Production Operations, Optimized Production Techniques, Kanban Systems, Japanese Productivity Techniques, Decision Support Systems.

Requirements
15 units to be taken as follows:
1. Six units from MGMT 410, 411;
2. Three to nine units from MGMT 412, 413, 414;
3. Up to six units from MGMT 426, 430, 454, 455.

Option in Human Resources Management
(code MGMTBS03) (120 units)

The Human Resources Management Option is designed not only for those who have an interest in working in the functional areas of HRM, but also for everyone who wants
405. International and Comparative Management (3)
Prerequisites: MGMT 300, IS 301.
Functions of management in international business; comparative management studies, and the impact of the environment on management performance.
Lettor grade only (A-F).

406. International Business Policy (3)
Prerequisite: MGMT 300, IS 301.
Developing multinational strategies and policies. International economics, economic development, international marketing, international finance, multinational planning, organization, and control. International transactions, economic and political integration, the competitiveness of countries, relations with host societies, and country studies. Case studies and research projects.
Lettor grade only (A-F).

410. Materials Management (3)
Prerequisites: MGMT 300, IS 301.
Basic frameworks for managing material flows into, within, and out of organizations. Inventory models for independent demand items, material requirement planning, and distribution systems. Heavy emphasis on learning supported by MRP II tools and other computer resources.
Lettor grade only (A-F).

411. Production Planning (3)
Prerequisites: MGMT 300, IS 301.
Demand management and production planning problems. Study of forecasting tools and techniques using available computer resources. Examination of aggregate planning, master scheduling, and capacity planning using the framework of an MRP II system.
Lettor grade only (A-F).

412. Production Control (3)
Prerequisites: MGMT 300, IS 301.
Scheduling, controlling, and evaluating manufacturing activities at the shop-floor level. Shop order release, dispatching, priority control, queue management, and input/output monitoring using MRP II software. Job sequencing and scheduling, just-in-time production, Kanban control, and optimized production/technology (OPT) use of software and simulations.
Lettor grade only (A-F).

413. Managing Quality for Productivity (3)
Prerequisites: MGMT 300 and recommended IS 310, IS 301.
Relationship between productivity and quality. Examination of the quality assurance function, statistical quality control, and lot inspection. Relationship between productivity improvement, product quality, and manufacturing strategy.
Lettor grade only (A-F).

414. Purchasing Management (3)
Prerequisites: MGMT 300, IS 301.
Functions, principles, and tools of purchasing management. Relationship of purchasing to other management functions. Use of MRP II systems to simulate purchasing decisions, monitor performance, and track costs.
Lettor grade only (A-F).

421. Entrepreneurship and New Venture Creation (3)
Prerequisites: MGMT 300, IS 301.
Starting a new business. Being an entrepreneur in a free enterprise environment or an entrepreneur in an existing organization. Use of state-of-the-art theory to plan and evaluate business startups. Testing ideas with successful entrepreneurs and creating individual business plans.
Lettor grade only (A-F).

<td>Impact of diversity, culture, and ethnic origin on the work experience. Interaction of language, gender, race, tradition, education, economic structure, and organisational philosophy to create a set of rules for acceptable behavior in complex organizations. Open dialogue, debate, outside research and group presentations. Letter grade only (A-F).</td>
</tr>
</tbody>
</table>
462. Labor-Management Relations (3)
Prerequisite: IS 301.
Principles and practices influencing labor-management relationships. Development, aims, structure, and functions of labor and employer organizations; collective bargaining process; labor law and governmental intervention; impasse resolution; unions and minorities; employee organizations in government and professional sectors; comparative international systems.
Letter grade only (A-F).

463. Organizational Training and Development (3)
Prerequisite: HRM 350 or 361, IS 301.
Review of the field of training and development including learning theory, training needs assessment, design and delivery of training and development programs, evaluation, and program management. Career development and organizational development. Case studies, research, simulation exercises, and student presentations.
Letter grade only (A-F).

465. Personnel Selection and Appraisal (3)
Prerequisite: HRM 361, IS 301.
Letter grade only (A-F).

497. Directed Studies (1-3)
Prerequisites: Consent of instructor and Department Chair; and 3.0 GPA or higher in human resources management courses.
Individual projects, study and research of advanced nature in human resources management.
Letter grade only (A-F).
4. Elective courses to total 120 units. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for preparation for business employment.

Option in Marketing (code MKTGUM01)

(120 units)

The discipline of Marketing, which is fundamental to all business enterprises, is largely a social process. The justification of any enterprise, be it involved in service or in the production or delivery of goods, is that it meets the needs of individuals or segments of society. The function of marketing is to determine those needs, to provide the most effective means of informing actual and potential customers of the availability of the services and goods they require, and to deliver such services and goods.

Requirements

1. Nine units selected from MKTG 310, 330, 410, 420, 430, 437, 465, 480, 481, 492.
2. MKTG 470, 490, 494.

Minor in Marketing (code MKTGUM01)

Requirements

1. MKTG 300;
2. 15 Units selected from MKTG 310, 330, 410, 420, 430, 437, 465, 470, 480, 481, 490, 492, 496 or CBA 300 as approved by the Marketing Department.

Prerequisites

1. IS 310 is a prerequisite for MKTG 470;
2. MKTG 480 is a prerequisite for MKTG 481;
3. MKTG 300 is a prerequisite for MKTG 420, 430, 465, 470, 480, 481, 490 and 492.

Courses (MKTG)

UPPER DIVISION

300. Marketing (3)

Recommended preparation: ECON 300.
Relation of marketing system to other activities in the firm. Firms and domestic and world marketing environments. Economic and social effects on marketing. Human behavior's effects on marketing, communications, information systems, management problems and their solutions.

310. Retail Concepts and Policies (3)

Overview of the retail system. Retail decision making emphasized in relation to these areas: store operation and management, merchandise assortment and pricing, store location and layout, advertising and sales communication, consumer analysis, retail information systems, retail accounting and control.

330. Mass Marketing Communications: Advertising (3)

Principles and practices of advertising. Social and economic importance of advertising and its relation to modern business organization. Importance of an advertising plan, preparation of advertisements, copy and layout, media planning and application of information technology.
410. Services Marketing (3)
Prerequisite: MKTG 300, IS 301.
Applies marketing management techniques, marketing strategies, and processes for service evaluation and service quality improvement to service marketing. Characteristics of services marketing, service management, service evaluation, techniques for improvement, services marketing in global environments, and marketing techniques.
Letter grade only (A-F).

420. Sales Management (3)
Prerequisite: MKTG 300, IS 301.
Management of the sales force. Sales analysis, forecasting techniques, account and territory management, and negotiations. Integrating the personal computer into the sales function. Computer simulation of the decision process in sales management.

430. Promotion Strategies (3)
Prerequisite: MKTG 300, IS 301.

437. Internet Marketing (5)
Prerequisites: MKTG 300, IS 301.
Familiarization with Internet history & Internet technology. Analysis of consumer behavior (domestic and international) on the Internet. Business models; advertising and promotions; website design; pricing; and marketing research using the Internet. News and recent developments in e-commerce are a focus of the class.
Letter grade only (A-F).

465. Business To Business Marketing (3)
Prerequisite: MKTG 300, IS 301.

470. Marketing Research (3)
Prerequisites: MKTG 300, IS 301, 310.

480. International Marketing (3)
Prerequisite: MKTG 500, IS 301.
The study of global marketing theory and practice. The historical, economic, cultural, political, and legal factors that affect marketing decision-making outside the U.S. How to develop and present plans for expediting global marketing opportunities.

481. International Marketing in Selected Markets (3)
Prerequisite: MKTG 300, IS 301.
Taught as a special topics seminar. Depending upon the instructor, topics may include marketing within specific regions such as Asia or Europe, marketing in developing countries, or international aspects of the marketing mix such as global advertising and global retailing.
Letter grade only (A-F).
MATHEMATICS AND STATISTICS
College of Natural Sciences and Mathematics

Department Chair: Robert A. Mena
Undergraduate Associate Chair: Kent G. Merryfield
Graduate Associate Chair: Ngo N. P. Vot
Department Office: Faculty Offices (FO) 3 - 120

Career Possibilities
Mathematician • Statistician • Operations Research Analyst
• Computer Programmer • Wage/Salary Analyst • Teacher • Systems Analyst • Financial Analyst • Corporate Accountant
• Actuary • Surveyor • Information Scientist • Economist
• Securities Analyst • Efficiency Engineer • Meteorologist • Technical Writer • Demographer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csub.edu.) Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Introduction
Mathematics is fundamental to all scientific knowledge, including not only the traditional natural sciences but increasingly the social and economic sciences. The increasing applicability of mathematical methods has been enhanced and accelerated by the development of the computer. Mathematics is also a vital aid to critical and philosophical thinking and, at least to some, a thing of beauty in itself.

The Department of Mathematics and Statistics offers instruction for students at all levels beyond high school mathematics. Its courses provide the computational and analytic skills needed for a variety of majors, as well as the advanced theoretical topics for specialists in mathematics. Its various degree options are intended to provide the student with the knowledge and techniques needed for scientific, management, and statistical applications, and also the theoretical understanding needed for teaching, graduate study and lifelong professional growth. Beyond these, it hopes to instill a spirit of curiosity and healthy skepticism towards mathematical statements and results — a willingness to ask "Is this true?" and "Why?", and to try to find the answers.

Students desiring information should contact the department office for referral to the appropriate faculty advisor: Undergraduate Advisor, Graduate Advisor, and/or Credential Advisor.

Concurrent and/or Summer Enrollment at Another College
Students who wish to take coursework at a community college or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See "Concurrent Enrollment and Transfer of Undergraduate Credit" in this Catalog. Courses not receiving prior approval will not be accepted for credit by the department.

Facilitated Enrollment into Classes
All entering students who declare a major in a degree program offered by this department must participate in the College of Natural Sciences and Mathematics’ Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students’ chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (FO5-106) or department office for additional information.
Undergraduate Programs

The Mathematics and Statistics Department offers four undergraduate degree programs in mathematical sciences:

**Bachelor of Science in Mathematics (code MATHBS01) (120 units)**

The student in this program is required to take a selection of fundamental courses in algebra, statistics, and analysis. It is the most flexible program, in which the greatest number of electives may be chosen by the student. Elective upper division mathematics courses are available which meet the needs of students preparing for a variety of goals, including careers in industry and government, secondary teaching, and graduate study. Students who do not wish to complete the requirements for a declared option in applied mathematics or statistics may wish to elect courses in one or both of these areas as part of this degree program.

**Requirements**

- **Lower Division:** ENGL 101 or 317; MATH 122, 123, 224, 233, 247; CECS 174; PHYS 151.
- **Upper Division:** A minimum of 30 units of approved upper-division MATH or STAT courses selected in consultation with a major advisor, to include MATH 341 or 347, 361A, 361B, 364A, 360 (or STAT 360) and MATH 444 but not MATH 303I, 370A, 370B, or 409. To allow flexibility, only 18 of the required 30 units are specified. Students should choose the remaining 12 units after discussing career goals and interests with an advisor. For additional information and to obtain an advisor, contact the department office.

**Option in Applied Mathematics (code MATHBS02) (120 units)**

The student who is most interested in the applications of mathematics has a choice of two suboptions: the first concentrates on the applications in science and engineering while the second concentrates on the applications to economics and management. In both suboptions, courses are specified in the major areas of applied mathematics and in the field of application. This option prepares students for careers in business, industry or government, or for graduate study.

**Requirements**

- **Suboption I: Area of Application in Science and Engineering**
  - Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; PHYS 151, 152; PHYS 254 or EE 211 or CE 205.
  - Upper Division: MATH 323, 361A, 361B, 364A, 364B, 380 (or STAT 380), 470. A minimum of 9 units from the following: MATH 423, 461, 463, 472, 479, 485, STAT 301, 482. A minimum of 9 units from one of the following three groups:
    - B. EE 310, 370, 382, 411, 460, 482.
    - C. CE 335, 359, 437, 438, 458; MAE 371, 373

- **Suboption II: Area of Application in Economics and Management**
  - Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; ECON 100 and 101, or ECON 300.
  - Upper Division: MATH 323, 361A, 361B, 364A, 360 (or STAT 360), 485; STAT 381, 402. A minimum of 6 units from the following courses: MATH 364B, 423, 463, 470, 479; STAT 410. A minimum of 15 units from one of the following two groups:
    - A. ECON 310, 311 required; and 9 units selected from ECON 333, 410H, 411H, 420, 485, 486.
    - B. ECON 333, MGMT 410 required; and 9 units selected from MGMT 411, 412, 413, 414, 426.

**Option in Statistics (code MATHBS04) (120 units)**

This option provides students with a foundation in statistical methods. The courses required ensure that the student understands both how the techniques are mathematically derived and how they are applied. Statistical analysis is an essential part of any scientific investigation. It is a vital tool in monitoring the quality of products and services and in forecasting. This option prepares students for interesting and rewarding careers in industry, government, and for graduate study in statistics and other quantitative fields.

**Requirements**

- **Lower Division:** ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174
- **Upper Division:** A minimum of 34 units of upper-division MATH or STAT courses to include MATH 333 and 361A, STAT 380, 381, 410, 450 and 452, but not MATH 370A or 370B.

**Option in Mathematics Education (code MATHBS03) (120 units)**

This option is for students preparing to teach mathematics at the secondary school level. Completion of this Option meets subject matter competence requirements for the Single Subject Preliminary Credential Mathematics (code 165).

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Math teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department’s Mathematics Education Advisor early to plan their program.

**Requirements**

- **Lower Division:** MATH 122, 123, 224, 233, 247; one of the following: ENGL 101 or 300 or 317; and one of the following sequences: PHYS 151, 152; or PHIL 170, 270; or eight units of a foreign language.
Minor in Mathematics (code MATHUM01)

Requirements

The Minor in Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 23 or more semester units as follows:

- MATH 122, 123, 224, 247 and 9 units of upper-division MATH or STAT courses to include MATH 301A but not MATH 370A. The student may replace MATH 123 and 224 by MATH 222 and an additional 3 units of upper-division MATH or STAT (excluding MATH 370A) not used to meet the above upper-division requirements.

Minor in Applied Mathematics (code MATHUM02)

Requirements

The Minor in Applied Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 27 or more semester units as follows:

- Lower Division: MATH 122, 123, 224, 247
- Upper Division: MATH 323, 364A or 370A, 380 (or STAT 380) and one course selected from MATH 364B, 423, 470, STAT 381, or 482. The student may replace MATH 123 and 224 by MATH 222 and an additional course from MATH 364B, 423, 470, STAT 381, or 482 not used to meet the above upper-division requirements.

The student may replace MATH 123 and 224 by MATH 222 and one more course from MATH 364B, 423, 470, STAT 381, 482 not used to meet the above upper-division requirements.

Minor in Statistics (code MATHUM03)

Requirements

The Minor in Statistics is available to any non Mathematics major. The student must complete 26 or more semester units by following one of two sequences:

Sequence One: MATH 122, 222, 247, 380 and STAT 381, and any three of the following: MATH 323, STAT 410, 450, 475, 482, 484, and/or 485.

Sequence Two: MATH 122, 123, 224, 247, 380 and STAT 381, and any two of the following: MATH 323, STAT 410, 450, 475, 482, 484, and/or 485.

Graduate Programs

How to Apply

See department's website: www.csulb.edu/depts/math/

To apply for admission to a graduate program in the Department of Mathematics and Statistics, you must apply to the department and to the university.

To apply to the department, send the following to the Graduate Advisor by July 1 for fall admission or December 1 for spring admission:

- complete college transcripts (not necessarily official)
- appropriate Prerequisite Worksheet (available online at above website or from the department office);
- Pure Mathematics Prerequisite Worksheet;
- Applied Mathematics Prerequisite Worksheet;
- Applied Statistics Prerequisite Worksheet.
Master of Science in Mathematics
(code MATHMS01)

Prerequisites
1. A bachelor's degree in mathematics, or a bachelor's degree with a minimum of 24 upper division units in mathematics from an accredited college or university;
2. A grade of "C" or better in MATH 247, 361A-B, 364A and 444, or their equivalents. Deficiencies will be determined by the Graduate Advisor.

Advancement to Candidacy
The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to University requirements, the student must have completed all prerequisite courses listed above with no grade less than "C." Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) on the Program, with at least a 3.0 GPA. Program of study must be approved by the appropriate Graduate Advisor, Department of Mathematics and Statistics Chair, Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics, and Dean of Graduate Studies.

Requirements
1. A minimum of 30 graduate and upper division units in mathematics including:
   A. Three of the following courses: MATH 540A, 550A, 561A, or 562A.
   B. Two additional courses selected from MATH 540B, 550B, 561B, or 562B.
   C. An additional 3 units of 500-level mathematics courses.
2. Complete one of the following:
   A. Pass a comprehensive written examination in two areas of Pure Mathematics. Specific requirements for passing the comprehensive examinations can be found on the Department of Mathematics and Statistics website at www.csulb.edu/depts/math.
   B. Subject to the approval of the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in mathematics and defend it orally.

Option in Applied Mathematics
(code MATHMS02)

Prerequisites
1. A bachelor's degree in mathematics, physics, engineering, or computer science, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A-B, 364A, and MATH/STAT 380, or their equivalents. Deficiencies will be determined by the Graduate Advisor.

Advancement to Candidacy
The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to University requirements, the student must have completed all prerequisite courses listed above with no grade less than "C." Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) on the Program, with at least a 3.0 GPA. Program of study must be approved by the appropriate Graduate Advisor, Department of Mathematics and Statistics Chair and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics and Dean of Graduate Studies.

Option in Applied Statistics
(code MATHMS03)

Prerequisites
1. A bachelor's degree in mathematics, physics, engineering, computer science, or statistics, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A-B, 364A, and MATH/STAT 380, or their equivalents.

Advancement to Candidacy
The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C." Students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and should file for Advancement upon completion of at least six units (and no more than nine units) on the Program, with at least a 3.0 GPA. Program of study must be approved by the appropriate Graduate Advisor, Department of Mathematics and Statistics Chair and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics and Dean of Graduate Studies.

2009/2010 CSULB Catalog • Mathematics and Statistics • 535
Requirements
1. A minimum of 30 graduate and approved upper-division units in mathematics including:
   A. STAT 510, 520, 530.
   B. Four additional courses selected from STAT 482, 484, 532, 540, 550, 560, 570, 572, 574, 580, 590.
   C. At least 16 units of graduate courses (numbered 500 or above) including any such courses used to meet requirements (A) or (B) above and including at least 15 units of graduate mathematics courses other than MATH 607 or 688 and STAT 607 or 698.
2. Complete one of the following:
   A. Pass comprehensive written examinations in two areas of statistics.
   B. Subject to the approval of the Statistics Committee of the Department of Mathematics and Statistics, write a thesis in statistics and defend it orally.
   C. Subject to the approval of the Statistics Committee of the Department of Mathematics and Statistics, complete an approved statistical thesis/project with an industrial company under the guidance of a faculty advisor in statistics. Write a final thesis/project report and give an oral presentation of its outcomes to the department. Specific requirements for completion of the thesis project can be found on the statistics webpage of the department at www.csulb.edu/depts/stat.

Option in Mathematics Education for Secondary School Teachers (code MATHMS04)

Option in Mathematics Education for Secondary School Teachers is designed for people holding a California Single Subject Teaching Credential in mathematics and teaching in middle, junior high, or high schools. This option will give students greater expertise in mathematics and mathematics education (curriculum, teaching, learning, assessment and research). The program includes a blend of courses from pure and applied mathematics as well as mathematics education, and also may include coursework from the College of Education.

Prerequisites
1. A bachelor’s degree in mathematics or mathematics education, or a bachelor’s degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A California Single Subject Credential in mathematics.
3. Course work in mathematics should include MATH 247, 310, 341, 355, 361A or 364A, and MATH/STAT 380 or equivalent with a grade of “C” or better.

Advancement to Candidacy
The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to University requirements stated elsewhere in this Catalog, must have completed prerequisites above and must have satisfied the Graduate Writing Assessment Requirement (GWAR). Must file for Advancement to Candidacy after completion of at least 6 units (and recommend filing before completing 9 units) on Program of Study, with an overall 3.0 grade-point average. Program of Study must be approved by Mathematics Education Graduate Advisor, Department of Mathematics and Statistics Chair and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics and Dean of Graduate Studies.

Requirements for the Option in Mathematics Education for Secondary School Teachers
1. A minimum of 30 units of graduate level or approved upper division coursework which includes the following:
   A. A minimum of 9 graduate or approved upper-division units of mathematics, including at least one 500-level mathematics course. If not previously taken for B.S. or credential, this course of study must include MATH 410 and 444.
   B. A minimum of 15 graduate units of mathematics education including:
      1) MTED 511 and 512; and
      2) At least 9 units in mathematics education chosen in consultation with the Mathematics Education Graduate Advisor from the following courses: MTED 540, 550, 560, 580, 590, 695
   C. A minimum of 6 units of approved upper division or graduate electives from mathematics, mathematics education, or approved College of Education courses, chosen in consultation with the Mathematics Education Graduate Advisor. If the student plans to teach at the Community College level, she/he must take at least 18 units of graduate or approved upper division mathematics from parts A and C. If the student intends to do a thesis or thesis project she/he must take EDP 520 or the equivalent.
2. Complete one of the following three options:
   A. Pass two comprehensive written examinations in mathematics education (one representing 511/512 and one in a selected area - 540, 550, 560, or 580).
   B. Subject to the approval of the Mathematics Education Committee of the Department of Mathematics and Statistics, write a thesis in mathematics education and defend it orally (MTED 688);
   C. Pass the 511/512 comprehensive written examination in mathematics education and complete a thesis project in mathematics education (MTED 698), subject to the approval of the Mathematics Education Committee of the Department of Mathematics and Statistics.

Mathematics Education Thesis
Students choosing the thesis option must consult with the Mathematics Education Graduate Advisor to select a thesis advisor. A thesis is then written in consultation with the mathematics education faculty advisor who will guide the student in choosing the thesis topic and supervise the process of writing the thesis. After a thesis topic is chosen it must be approved by the Mathematics Education Committee. A thesis committee of three faculty members, including the thesis advisor is then chosen to approve the final work. During the writing of the thesis, students must enroll in MTED 698.

536 • Mathematics and Statistics • 2009/2010 CSULB Catalog
Mathematics Education Thesis Project

Students choosing the research thesis project option must seek a Faculty Advisor in mathematics education. A thesis project is then written in consultation with the mathematics education faculty advisor who will guide the student in choosing a topic and supervise the process of writing the thesis project report. After a project topic is chosen it must be approved by the Mathematics Education Committee. During the writing of the thesis project report, students must enroll in MTED 698.

Mathematics Precalculus Courses (MAPB)

1. Elementary Algebra and Geometry (4)
   Prerequisite: Appropriate ELM Score.
   Arithmetic review, elementary algebra, and some basic geometry concepts. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so. (Lecture 4 hrs.)

7. Basic Intermediate Algebra (3)
   Prerequisite: MAPB 1 or appropriate ELM Score.
   Linear functions, their graphs, applications; proportions and percent change, applications to geometry and life; operations on radicals; rational exponents and scientific notation; dimensional analysis; sets, Venn diagrams, basic counting principles, combinations, permutations, probability; elementary data analysis; logarithmic, exponential functions, applications. Cannot be taken for credit toward a university degree. Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so. For students who will not need to take MATH 113, 115 or 117. Credit/No Credit grading only. (Lecture 3 hrs.)

11. Enhanced Intermediate Algebra (4)
    Prerequisite: MAPB 1 or appropriate ELM Score.
    Polynomial, rational, radical expressions, equations; rational exponents, complex numbers; solutions, graphs of linear, quadratic equations, functions; linear systems; graphs of and operations on functions, including the difference quotient and inverse; logarithmic and exponential functions. Applications to science and business emphasized. Cannot be taken for credit toward a university degree. Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so. For students that intend to take MATH 113, 115 or 117. Credit/No Credit grading only. (Lecture 2 hrs., activity 2 hrs.)

Mathematics Courses (MATH)

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this Catalog) is a prerequisite for all mathematics courses. Please contact the ELM Coordinator in the Department of Mathematics and Statistics for details regarding the ELM test score.

LOWER DIVISION

103. Mathematical Ideas (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 7 or 11.
    Surveys variety of concepts in undergraduate mathematics. Includes elementary logic, numeration systems, rational and real numbers, modular number systems, elementary combinatorics, probability and statistics, using real world examples. Not open for credit to students with credit in any MATH or MTED course numbered greater than 103, or the equivalent. (Lecture 3 hrs.)

108. Statistics for Everyday Life (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 7 or 11.
    Exploratory data analysis, methods of visualizing data, descriptive statistics, misuse and manipulation of data in statistical analysis, probability, binomial and normal distributions, hypothesis testing, correlation and regression, contingency tables. Not open for credit to students with credit in MATH 150, 380; MTED 105, 205; STAT 106. Same course as STAT 108. (Lecture 3 hrs.)

109. Modeling with Algebra (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 7 or 11.
    Data, functions, domain, range, representations of functions (verbally, numerically, graphically, algebraically), visualizing functions (increasing, decreasing, maximum, minimum, concave up, concave down). Linear functions, rate of change, slope, modeling data, systems of linear equations, linear inequalities. Exponential, log, growth decay, semi-log plots for modeling. Not open for credit to students with credit in any MATH or MTED course numbered greater than 103, or the equivalent. (Lecture 3 hrs.)

111. Precalculus Trigonometry (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.
    Trigonometric functions and applications. Arithmetic and graphical representation of complex numbers, polar form, DeMoivre’s Theorem. Not open for credit to students with credit in MATH 101, 117 or 122. (Lecture 3 hrs.)

113. Precalculus Algebra (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.
    Equations, inequalities, functions, their graphs, inverses, transformations. Polynomial, rational functions, theory of equations. Exponential, logarithmic functions, modeling. Systems of equations, matrices, determinants. Sequences, series. Not open for credit to students with credit in MATH 112, 115, 117, 119A, 120, or 122. For students who will continue to MATH 115, 117, 119A, 120, or 122. (Lecture 3 hrs.)

114. Finite Mathematics (3)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.
    Combinatorial techniques and introduction to probability. Equations of lines and systems of linear equations, matrices, introduction to linear programming. Not open for credit to students with credit in MATH 233 or 380. (Lecture 3 hrs.)

115. Calculus for Business (4)
    Prerequisite: Appropriate ELM score, ELM exemption, or MAPB 11.
    Functions, derivatives, optimization problems, graphs, partial derivatives. Lagrange multipliers, integration of functions of one variable. Applications to business and economics. Emphasis on problem solving techniques. Not open for credit to students with credit in MATH 119A, 120, or 122. (Lecture 3 hrs., activity 1 hr)

117. Precalculus Mathematics (4)
    Prerequisite: Appropriate MDPT placement or a grade of "C" or better in MAPB 11.
    Polynomial, rational, exponential, logarithmic, and trigonometric functions. Complex numbers, conic sections, graphing techniques. Not open for credit to students with credit in MATH 122. (Lecture 5 hrs., problem session 2 hrs.)
119A. Survey of Calculus I (3)
Prerequisite: Appropriate MDPF placement or a grade of "C" or better in MATH 113.
Functions, limits and continuity, differentiation and integration of functions of one variable including exponential, logarithmic, and trigonometric functions. Graphing, optimization, parametric equations, integration by substitution and by parts, numerical integration. Applications to the life sciences. Emphasis on problem solving.
Not open for credit to students with credit in MATH 115, 120 or 122. (Lecture 3 hrs.)

119B. Survey of Calculus II (3)
Prerequisite: MATH 119A or 122.
Not open for credit to students with credit in MATH 123 or 224. (Lecture 3 hrs.)

120. Calculus for Technology (4)
Prerequisite: Appropriate MDPF placement or a grade of "C" or better in MATH 113.
Real and complex numbers and functions; limits and continuity; differentiation and integration of functions of one variable; introduces calculus of several variables. Science and technology applications.
Not open for credit to students with credit in MATH 122. (Lecture 3 hrs., problem session 2 hrs.)

122. Calculus I (4)
Prerequisite: Appropriate MDPF placement or a grade of "C" or better in MATH 111 and 113, or a grade of "C" or better in MATH 117.
(Lecture 3 hrs., problem session 2 hrs.)

123. Calculus II (4)
Prerequisite: A grade of "C" or better in MATH 122.
Not open for credit to students with credit in MATH 222. (Lecture 3 hrs., problem session 2 hrs.)

222. Intermediate Calculus (4)
Prerequisite: A grade of "C" or better in MATH 122.
Enrollment restricted to CECS majors. Not open for credit to students with credit in MATH 223. Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

224. Calculus III (4)
Prerequisite: A grade of "C" or better in MATH 123 or 222.
(Lecture 3 hrs., problem session 2 hrs.)

233. Fundamental Concepts for Advanced Mathematics (3)
Prerequisite: A grade of "C" or better in MATH 123 or 222.
Fundamentals of logic and set theory, counting principles, functions and relations, induction and recursion, introduction to probability, elementary number theory, congruences. Introduces writing proofs. (Lecture 3 hrs.)

247. Introduction to Linear Algebra (3)
Prerequisite: MATH 222 or prerequisite or corequisite: MATH 224.
Matrix algebra, solution of systems of equations, determinants, vector spaces including function spaces, inner product spaces, linear transformations, eigenvalues, eigenvectors, quadratic forms, and applications. Emphasis on computational methods.
(Lecture 3 hrs.)

297. Directed Study (1-3)
Prerequisite: Consent of instructor.
For students who wish to undertake special study, at the lower division level, which is not a part of any regular course, under the direction of a faculty member. Individual investigation, studies or surveys of selected problems.

UPPER DIVISION

303I. Reflections in Space and Time (3)
Prerequisites: GE foundation, at least one GE Explorations course, upper division standing. An experientially-driven investigation of the mathematical nature of symmetry and patterns. Considers the pervasive appearance and deep significance of symmetry and patterns in art and science. (Lecture 3 hrs.)

310. History of Early Mathematics (3)
Prerequisite/Corequisite: completion of, or concurrent enrollment in a 200-level mathematics course.
History of mathematics through seventeenth century, including arithmetic, geometry, algebra, and beginnings of calculus. Interconnections with other branches of mathematics. Writing component; strongly recommended students enrolling have completed the G.E. A.1 requirement.
(Lecture 3 hrs.)

322. Introduction to Numerical Analysis (4)
Prerequisites: MATH 222 or 224, and a course in computer programming.
Numerical solution of nonlinear equations, systems of linear equations, and ordinary differential equations. Interpolating polynomials, numerical differentiation, and numerical integration. Computer implementation of these methods.
(Lecture discussion 3 hrs., problem session 2 hrs.)

341. Number Theory (3)
Prerequisites: MATH 223 or 222, and at least one of MATH 233, 247, 310, recommended, MATH 233 or 247.
Divisibility, congruences, number theoretic functions, Diophantine equations, primitive roots, continued fractions. Writing proofs.
(Lecture 3 hrs.)

347. Linear Algebra (3)
Prerequisites: MATH 233 and 247.
In-depth study of linear transformations, vector spaces, inner product spaces, quadratic forms, similarity and the rational and Jordan canonical forms. Writing proofs.
(Lecture 3 hrs.)

355. College Geometry (3)
Prerequisite: MATH 247.
Transformations, motions, similarities, geometric objects, congruent figures, axioms of geometry and additional topics in Euclidean and non-Euclidean geometry. Writing proofs.
(Lecture 3 hrs.)
361A. Introduction to Mathematical Analysis I (3)
Prerequisites: MATH 222 or 224, and MATH 233 or 247.
Rigorous study of calculus and its foundations. Structure of the
real number system. Sequences and series of numbers. Limits,
continuity and differentiability of functions of one real variable.
Writing proofs.
(Lecture 3 hrs.)

361B. Introduction to Mathematical Analysis II (3)
Prerequisite: MATH 361A.
Riemann Integration. Topological properties of the real number
line. Sequences of functions. Metric spaces. Introduction to
calculus of several variables. Writing proofs.
(Lecture 3 hrs.)

364A. Ordinary Differential Equations I (3)
Prerequisite: MATH 222 or 224, and prerequisite or concurate
MATH 247.
First order differential equations; undetermined coefficients and
variation of parameters for second and higher order differential
equations; series solution of second order linear differential
equations; systems of first order linear differential equations;
équations applications to science and engineering.
(Lecture 3 hrs.)

364B. Ordinary Differential Equations II (3)
Prerequisite: MATH 364A or 370A.
Existence-uniqueness theorems; Laplace transforms; difference
equations; nonlinear differential equations; stability, Sturm-
Liouville theory; applications to science and engineering.
(Lecture 3 hrs.)

370A. Applied Mathematics I (3)
Prerequisite: MATH 222 or 224.
First order, comon, general, and linear differential equations in two
dimensions. Solution of systems of two first order linear differential
equations; applications.
(Lecture 3 hrs.)

370B. Applied Mathematics II (3)
Prerequisite: MATH 370A.
Arithmetic of complex numbers, functions of a complex variable,
contour integration, residues, conformal mapping, Fourier series,
Fourier transforms; separation of variables for partial differential
equations. Applications.
Not open for credit to mathematics majors. (Lecture 3 hrs.)

380. Probability and Statistics (3)
Prerequisite: MATH 222 or 224.
Random variables; expectation; variance; moment generation functions;
Chebyshev’s and Xi’s inequalities; normal distribution; the central
limit theorem; estimation; confidence intervals. For nonmajors.
(Lecture 3 hrs.)

409. Strategies for Graduate Admission (1)
Prerequisite: Senior or graduate standing.
The nature and expectations of doctoral programs in Mathematics
and related fields. Intensive preparation for GRE mathematics
subject exams.
Credit/No Credit grading only. Does not satisfy Mathematics major
requirements. (Lecture-discussion 1 hr.)

410. History of Modern Mathematics (3)
Prerequisites: MATH 247, 301 and at least three of the following:
History of mathematics from seventeenth century onward.
Development of calculus, analysis, and geometry during this time
period. Other topics discussed may include history of probability
and statistics, algebra and number theory, logic, and foundations.
(Lecture 3 hrs.)

423. Intermediate Numerical Analysis (3)
Prerequisites: MATH 247 and 323.
Numerical solutions of systems of equations, calculation of
eigenvalues and eigenvectors, approximation of functions,
solution of partial differential equations. Computer implementation
of these methods.
(Lecture 3 hrs.)

444. Introduction to Abstract Algebra (3)
Prerequisites: MATH 233 and 247 and at least one of MATH 341 or
347.
Groups, subgroups, cyclic groups, symmetric groups, Lagrange’s
theorem, quotient groups. Homomorphisms and isomorphisms
of groups. Rings, integral domains, ideals, quotient rings,
homomorphisms of rings. Fields. Writing proofs.
Not open for credit to students with credit in MATH 444A. (Lecture
3 hrs.)

451. Differential Geometry (3)
Prerequisite: MATH 364A or 370A.
Structure of curves and surfaces in space, including Frenet
formulas of space curves, frame fields and connection forms;
geometry of surfaces in Euclidean three space; Geodesics and
connections with general theory of relativity.
(Lecture 3 hrs.)

456. Dynamics and Geometry of Chaos (3)
Prerequisites: MATH 247, 361A, or consent of instructor.
An introduction to discrete dynamical systems in one and two
dimensions. Theory of iteration; attracting and repelling periodic
points, symbolic dynamics, chaos, and bifurcation. May include a
computer lab component.
(Lecture 3 hrs.)

461. Introduction to Complex Analysis (3)
Prerequisite: MATH 361A.
Theory and applications of complex variables: Analytic functions,
integrals, power series and applications.
Not open for credit to students with credit in MATH 562A. (Lecture
3 hrs.)

463. Multivariable Calculus (3)
Prerequisites: MATH 224, 247, and 301B.
Topography of Euclidean spaces. Partial derivatives. Derivatives as
linear transformations. Inverse and implicit function theorems.
Jacobian, vector calculus, Green’s and Stokes’ theorems, variational
problems.
(Lecture 3 hrs.)

470. Introduction to Partial Differential Equations (3)
Prerequisite: MATH 370A or 364A.
First and second order equations, characteristics. Cauchy
problems, elliptic, hyperbolic, and parabolic equations.
Introduction to boundary and initial value problems and their
applications.
(Lecture 3 hrs.)

472. Fourier Analysis (3)
Prerequisite: MATH 364A or 370A.
Convolution. Fourier transforms and partial differential
equations. Introduction to distributions. Discrete and fast Fourier
transforms.
(Lecture 3 hrs.)
473/573. Scientific Computing (3)
Prerequisites: MATH 323 and either 364A or 370A.
(Graduates register in MATH 473; graduates in MATH 573.)
Introduction to programming languages, implementations of numerical algorithms for solution of linear algebraic equations, interpolation and extrapolation, integration and evaluation of functions, root finding and nonlinear equations, fast Fourier transforms, minimization and maximization of functions, numerical solutions of differential equations.
Not open for credit to students with credit in MATH 573.

479/579. Mathematical Modeling (3)
Prerequisites: MATH 247, 364A or 370A, 323; and one additional upper-division mathematics course or consent of instructor.
(Graduates register in MATH 479; graduates in MATH 579.)
Application of mathematics to develop models of phenomena in science, engineering, business, and other disciplines. Evaluation of benefits and limitations of mathematical modeling.
(Lecture 3 hrs.)

485. Mathematical Optimization (3)
Prerequisites: MATH 247 and at least one of MATH 323, 347 or 380.
Linear and nonlinear programming: simplex methods, duality theory, theory of matrix, Kuhn-Tucker theory, gradient methods and dynamic programming.
(Lecture 3 hrs.)

491. Honors Seminar in Problem Solving (1)
Prerequisite: Consent of instructor.
Challenging problems from many fields of mathematics, taken largely from national and worldwide college and secondary school competitions. Students required to participate in at least one national competition.
May be repeated to a maximum of 3 units. (Lecture-Discussion 1 hr.)

495. Topics in Modern Mathematics (3)
Prerequisite: Consent of instructor.
Topics of current interest from mathematics literature.

496. Special Problems (1-3)
Prerequisite: Consent of instructor.
Student investigations in mathematics, applied mathematics, mathematics education, or statistics. May include reports and reviews from the current literature, as well as original investigations.
May be repeated to a maximum of 3 units. Letter grade only (A-F).

497. Directed Studies (1-3)
Prerequisites: Junior or senior standing and consent of instructor. Readings in areas of mutual interest to student and instructor which are not a part of any regular course. A written report or project may be required.
May be repeated to a maximum of 3 units.

498H. Senior Thesis - Honors (3)
Prerequisites: Admission to Honors in the Major in Mathematics or to the University Honors Program, and consent of instructor.
Planning, preparation, completion, and oral presentation of a written thesis in mathematics, applied mathematics, mathematics education, or statistics.
Not available to graduate students. Letter grade only (A-F).

540A. Abstract Algebra I (3)
Prerequisite: MATH 444.
Group theory including symmetric groups; group actions on sets; Sylow theorems and finitely generated abelian groups; ring theory including polynomial rings, division rings, Euclidean domains, principal ideal domains, and unique factorization domains.
Letter grade only (A-F). (Lecture 3 hrs.)

540B. Abstract Algebra II (3)
Prerequisite: MATH 540A.
Modules; Field extensions; Finite fields; Splitting fields; Galois theory. Commutative ring theory including chain conditions and primary ideals. Topics of current interest.
Letter grade only (A-F). (Lecture 3 hrs.)

541. Elliptic Curves (3)
Prerequisites: MATH 341, 444, and consent of instructor; MATH 451 and 540A are recommended but not required.
Formal methods of descent; finite fields; Weierstrass normal form; integer, rational points on elliptic curves; group structures of rational points; Mordell's Theorem; computation examples. May include congruent numbers. Cartier's public cryptography challenges, Lenstra's factorization method. Birch and Swinnerton-Dyer Conjecture.
Letter grade only (A-F). (Lecture 3 hrs.)

542. Algebraic Geometry (3)
Prerequisite: MATH 540A or consent of instructor.
An introduction to algebraic geometry: Algebraic sets; affine and projective varieties. Additional topics at the discretion of the instructor may include: Algebraic Curves; Intersection Theory; Invariant Theory; Computational Approaches.
Letter grade only (A-F). (Lecture 3 hrs.)

550A. Topology I (3)
Prerequisite: MATH 361B.
Fundamentals of point-set topology: metric spaces and topological spaces; boxes and neighborhoods; continuous functions; subspaces, product spaces and quotient spaces; separation properties, countability properties, compactness, connectedness; convergence of sequences, nets and filters.
Letter grade only (A-F). (Lecture 3 hrs.)

550B. Topology II (3)
Prerequisite: MATH 550A.
Further topics in point-set topology: local compactness, paracompactness, compactifications; metrizability; Baire category theorem; homology and the fundamental group. Topics may also include uniform spaces, function spaces, topological groups or topics from algebraic topology.
Letter grade only (A-F). (Lecture 3 hrs.)

560A. Functional Analysis I (3)
Prerequisites: MATH 247, 361B.
Linear spaces, metric and topological spaces, normed linear spaces, four principles of functional analysis: Hahn-Banach, Open Mapping, Uniform Boundedness, and Closed Graph theorems; adjoint spaces, normed space convergence, conjugate spaces, and operator spaces; Banach Fixed Point theorem; Hilbert spaces.
Letter grade only (A-F). (Lecture 3 hrs.)

560B. Functional Analysis II (3)
Prerequisite: MATH 560A or consent of instructor.
Spectral theory of operators on normed spaces; special operators; elementary theory of Banach algebras; selected topics from applied functional analysis.
(Lecture 3 hrs.)
561A. Real Analysis I (3)
Prerequisite: MATH 361B.
Theory of measure and integration, focusing on the Lebesgue integral on Euclidean space, particularly the real line. Modes of convergence, Fatou's Lemma, the monotone convergence theorem and the dominated convergence theorem. Fubini's theorem.
Letter grade only (A-F). (Lecture 3 hrs.)

561B. Real Analysis II (3)
Prerequisite: MATH 361A or consent of instructor.
Lp spaces of functions. Holder’s inequality, Minkowski’s inequality. Norm convergence, weak convergence and duality in Lp. Further topics from convergence of Fourier series, measure-theoretic probability, the Radon-Nikodym theorem, other topics depending on time and interest.
Letter grade only (A-F). (Lecture 3 hrs.)

562A. Complex Analysis I (3)
Prerequisite: MATH 361B. (MATH 461 is recommended.)
Asymptotic development of real and complex numbers; elements of point set theory; differentiation and analytic functions, classical integral theorems, Taylor’s series, singularities, Laurent series, calculus of residues.
Letter grade only (A-F). (Lecture 3 hrs.)

562B. Complex Analysis II (3)
Prerequisite: MATH 362A.
Multiple-valued functions, Riemann surfaces; analytic continuation; maximum modulus theorem; conformal mapping with applications, integral functions; gamma function, zeta function, special functions.
Letter grade only (A-F). (Lecture 3 hrs.)

563. Applied Analysis (3)
Prerequisite: MATH 310B and either 364A or 370A.
Hilbert Spaces, lp spaces, Distributions, Fourier Transforms, and applications to differential and integral equations from physics and engineering.
Letter grade only (A-F). (Lecture 3 hrs.)

564. Applied Nonlinear Ordinary Differential Equations (3)
Prerequisites: MATH 351B, 364A or 370A.
Stability and asymptotic analysis, Perturbation methods, Phase plane analysis, Bifurcation, Chaos, Applications to science and engineering.
(Lecture 3 hrs.)

570. Partial Differential Equations (3)
Prerequisites: MATH 364A and 463.
Cauchy's problem; classification of second order equations; methods of solution of hyperbolic, parabolic, and elliptic equations.
Letter grade only (A-F). (Lecture 3 hrs.)

573.473. Scientific Computing (3)
Prerequisites: MATH 323 and either 364A or 370A. (Undergraduate register in MATH 473, graduate in MATH 573.)
Introduction to programming languages, implementations of numerical algorithms for solution of linear algebraic equations, interpolation and extrapolation, integration and evaluation of functions, root finding and nonlinear equations, fast Fourier transform, minimization and maximization of functions, numerical solutions of differential equations.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 473.

574. Stochastic Calculus and Applications (3)
Prerequisites: MATH 351B, 364A or 370A, 360.
(Lecture 3 hrs.)

575. Calculus of Variations (3)
Prerequisites: MATH 361B and either 364A or 370A.
Solution methods for variational problems. First variation. Euler-Lagrange equation, variational principles, problems with constraints, boundary conditions, applications to physics and geometry. May include multiple integral problems, eigenvalue problems, convexity, and second variation.
Letter grade only (A-F). (Lecture 3 hrs.)

576. Numerical Analysis (3)
Prerequisites: MATH 323, 361B, 364A.
Advanced numerical methods. Introduction to error analysis, convergence, and stability of numerical algorithms. Topics may include solution of ordinary differential equations, partial differential equations, systems of linear and nonlinear equations, and optimization theory.
Letter grade only (A-F). (Lecture 3 hrs.)

577. Numerical Solution of Partial Differential Equations (3)
Prerequisite: MATH 423 or MATH 576 or consent of instructor.
(Lecture 3 hrs.)

578. Numerical Linear Algebra (3)
Prerequisites: MATH 247 and 323 or consent of instructor.
Letter grade only (A-F). (Lecture 3 hrs.)

579.479. Mathematical Modeling (3)
Prerequisites: MATH 247, 364A or 370A, 323, and one additional upper division mathematics course, or consent of instructor. (Undergraduate register in MATH 479, graduate in MATH 579.)
Application of mathematics to develop models of phenomena in science, engineering, business, and other disciplines. Evaluation of benefits and limitations of mathematical modeling.
Letter grade only (A-F). (Lecture 3 hrs.)

695. Seminar in Mathematics (3)
Prerequisite: Consent of instructor.
Presentation and discussion of advanced work, including original research by faculty and students. Topics announced in the Schedule of Classes.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Research on a specific area in mathematics. Topics for study to be approved and directed by faculty advisor in the Department of Mathematics and Statistics.
Letter grade only (A-F).

698. Thesis or Project (1-6)
Prerequisite: Advancement to candidacy.
Formal report of research or project in mathematics. May be repeated to a maximum of six units. Letter grade only (A-F).
Mathematics Education Courses (METED)

Satisfying the Entry Level Math (ELM) requirement (see "Undergraduate Programs" section of this Catalog) is a prerequisite for all mathematics education courses.

LOWER DIVISION

110. The Real Number System for Elementary and Middle School Teachers (3)
Prerequisite: ELM or ELM exemption or MAPS 11.
Introduction to problem solving processes and strategies. Development and analysis of structure, properties, and operations of the real number system. Concept and process development using appropriate models, manipulative, and activities.
Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

205. Activity Based Probability and Statistics for Elementary and Middle School Teachers (3)
Prerequisites: ELM or ELM exemption or MAPS 11 and METED 110.
Activity based exploration of randomness, data representation, measures of central tendency and dispersion. Analysis of experiments requiring hypothesizing, experimental design and data gathering. Basic laws of probability and set theory, combinations, permutations, and simulations.
Lecture grade only (A-F). (Lecture 2 hrs., activity 2 hrs.) Not open for credit to mathematics (all options) and statistics majors or for students with credit in METED 105.

211. Geometry and Measurement for Elementary Teachers (3)
Prerequisites: "C" or better in METED 110 and one year of high school geometry.
Problem solving and hands on modeling of real-world geometry situations focusing on parallelism, informal geometry, congruence, similarity, constructions, translations, transformations, measurement in 1, 2, and 3 dimensions (English and Metric units). Computer applications are integrated into the course.
Not open for credit to Mathematics majors or any student with credit in METED 312. (Lecture 2 hrs., activity 2 hrs.)

UPPER DIVISION

301. Computer Applications in Mathematics for Teachers (3)
Prerequisites: One year of high school geometry and one of METED 110 or MATH 122.
Designed for pre-service or inservice teachers. Software evaluation; teacher tools (spreadsheets, databases, email, collaborative tools, and applications); mathematics using technology, programming, technology use issues in schools. Satisfies California Level I teaching credential computer technology standard. Open for credit to pre-service or in-service teaching credential students only. (Lecture 2 hrs., activity 2 hrs.)

311. Topics in Enrichment for Mathematics for the Elementary Teacher (3)
Prerequisites: METED 110 and either METED 211 or MATH 122 or consent of instructor. Formerly MATH 311.
Enrichment topics in mathematics for elementary teacher, such as theory of arithmetic, numeration systems, elementary logic, monosystem, metric system, topological equivalence, probability and statistics and network theory.
Not open for credit to mathematics majors or to students with credit in MATH 311. (Lecture 3 hrs.)

312. Geometry and Measurement for Mathematics Specialists in Elementary and Middle Schools (4)
Prerequisites: METED 110 and one year of high school geometry.
Exploration, conjecture, justification of geometric relationships, applications relevant to teaching geometry (K-10). Problems involving informal geometry, proof, non-Euclidean geometry, congruence, similarity, constructions, translations, tessellations, measurement (English and Metric) in 1, 2, and 3 dimensions. Computer construction utility used.
Not open for credit to Mathematics majors. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

402. Problem Solving Applications in Mathematics for Elementary and Middle School Teachers (3)
Prerequisites: "C" or better in both METED 110, and either METED 211 or 312 or the equivalent and a course in Critical Thinking.
Problem solving processes and strategies. Interrelates and applies content from many mathematics areas (real number system, algebra, number theory, geometry, measurement, probability and statistics); develops questioning strategies, fostering understanding of algebra and geometry. Technology integrated throughout.
Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

411. Topics and Issues in Secondary School Mathematics (3)
Prerequisites: MATH 310, 341, 355, 380, 410, 444; EDSS 300M or consent of instructor.
Analysis of topics and issues in secondary school mathematics curriculum. Problem solving, mathematical connections; communication, structures, conjecture, proof, manipulatives, technology, assessment. Observations/Interview experiences and portfolio assemble required. Intended for students preparing to enter Single Subject Credential Program in mathematics. (Lecture 2 hrs., activity 3 hrs.)

415. History of Mathematics for Elementary and Middle School Teachers
Prerequisite: "C" or better METED 312.
Mathematics ideas through history with orientation toward various civilizations and cross-cultural views. Covers origins and interrelationships of areas of K-9 mathematics curriculum, including arithmetic, algebra, geometry, statistics and probability, cryptography, and other mathematics topics.
Not open for credit to mathematics (all options) or statistics majors or for students with credit in MATH 310 or METED 315. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

420. Number Theory for Elementary and Middle School Teachers
Prerequisite: "C" or better in METED 312.
Concepts and justification involving basic properties of natural numbers, mathematics induction, Euclidean algorithm, and the Fundamental Theorem of Arithmetic. Topics include proofs and problem-solving with divisibility, primes and composites, and prime factorization; congruences and other examples.
Not open for credit to mathematics (all options) or statistics majors or for students with credit in MATH 341 or METED 320. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

424. Algebraic Structures for Elementary and Middle School Teachers
Prerequisite: "C" or better METED 312.
Properties of real and complex numbers, groups, rings, fields and vector spaces; polynomial equations and inequalities; polynomial, rational, radical, absolute value, exponential, and logarithmic functions; matrices and vectors.
Not open for credit to mathematics (all options) or statistics majors or for students with credit in MATH 444 or METED 324. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)
425. Functions, Models and Concepts of Calculus for Elementary and Middle School Teachers
Prerequisite: "C" or better in MTED 312.
Numeric, symbolic, graphical, verbal representation of functions; sequences and sums. Intuitive development of concepts of limit, continuity, derivative, integral. Applications, including differential equations. Algebraic methods and technology emphasized in context of learning calculus. Not open for credit to mathematics (all options) or statistics majors or for students with credit in MTED 325. Letter grade only (A-F). (Lecture 2 hrs; activity 2 hrs.)

430. Connections, Integrations, and Reasoning in Mathematics for Teachers
Prerequisites: "C" or better in MTED 205 or 300; MTED 312, 402, 415, 420, 424, and 425.
Examination, analysis, and integration of mathematics topics appropriate for elementary and middle school teachers. Topics will include problem solving, hypothesis and justification, and mathematics connections and communication.
Not open for credit to mathematics (all options) or statistics majors or for students with credit in MTED 403. Letter grade only (A-F). (Lecture 2 hrs; activity 2 hrs.)

495. Special Topics in Mathematics Education (1-3)
Prerequisite: Consent of instructor.
Topics of interest in Mathematics Education. May be repeated to a maximum of 9 units with different topics in different semesters. Letter grade only (A-F).

GRADUATE LEVEL

500. Advanced Perspectives of Concepts Foundational to Algebra for Teachers (3)
Prerequisite: Multiple Subjects Credential, or consent of instructor.
Analytic investigation of foundational algebra concepts using representations, reasoning and proof, and problem solving. Topics include: number theory, properties of real numbers, proportional reasoning, algebra, discrete mathematics, and functions. This course will not count toward any M.S. degree options in the Department of Mathematics and Statistics. Letter grade only (A-F). (Lecture 3 hrs.)

511. Mathematics Teaching and Learning (3)
Prerequisite: Consent of instructor.
Theories of mathematics teaching and learning. Key issues in mathematics and mathematics education. Historical development and contemporary views of various theoretical perspectives for teaching and learning mathematics, including the roles of standards and visions in mathematics and education organizations. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

512. Curriculum and Assessment in Mathematics (3)
Prerequisite: MTED 511 or consent of instructor.
Theories of mathematics curriculum and forms of assessment. Introduces major philosophies, issues, resources and technologies pertaining to curriculum and assessment of mathematics. Relevant histories and contemporary practices of design and implementation of curriculum and assessment of mathematics. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

540. Algebra in the School Curriculum (3)
Prerequisite: MTED 511; prerequisite or corequisite: MTED 512 or consent of instructor.

550. Geometry and Measurement in the School Curriculum (3)
Prerequisite: MTED 511; prerequisite or corequisite: MTED 512 or consent of instructor.
Content, curriculum, standards, and research in learning and teaching geometry, spatial sense and measurement in K-12. Justification and proof, applications and abstraction, tools and technology in geometry teaching and learning. Current issues in teaching and learning of geometry and measurement. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

560. Analysis in the Secondary Curriculum (3)
Prerequisites: MTED 511 and MATH 361A; prerequisite or corequisite: MTED 512 or consent of instructor.
Fundamental concepts of calculus, functions, mappings, related topics and proofs in real and complex analysis, relating mathematics in secondary curriculum. Issues and techniques in teaching and learning of mathematical analysis. Examination of mathematics education research and mathematics frameworks. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

580. Probability and Statistics in the School Curriculum (3)
Prerequisite: MTED 511; prerequisite or corequisite: MTED 512 or consent of instructor.
Content, curriculum, and research in learning and teaching probability and statistics in K-12 schools. Includes role of applications, abstraction, tools and technology in probability and statistics teaching and learning. Letter grade only (A-F). (Lecture and Discussion, 3 hrs.)

590. Special Topics in Mathematics Education (1-3)
Prerequisite: Consent of instructor.
Advanced study of special topics in the field of mathematics education. May be repeated for a total of six units with different topics. Letter grade only (A-F). (Seminar 1-3 hrs.)

695. Seminar in Mathematics Education (1-3)
Prerequisite: Consent of instructor.
Presentation of and discussion of advanced work in mathematics education. May be repeated for a total of six units. Letter grade only (A-F). (Seminar 1-3 hrs.)

697. Directed Studies in Mathematics Education (1-3)
Prerequisites: MTED 511, 512; EDP 520; Advancement to Candidacy; consent of instructor.
Research project in mathematics education. Letter grade only (A-F).

698. Thesis in Mathematics Education (1-4)
Prerequisites: MTED 511, 512; EDP 520; Advancement to Candidacy; consent of Instructor.
Research in mathematics education culminating in a formal report. Letter grade only (A-F).

Statistics Courses (STAT)

108. Statistics for Everyday Life (3)
Exploratory data analysis, methods of visualizing data, descriptive statistics, misuse and manipulation of data in statistical analysis, probability, binomial and normal distributions, hypothesis testing, correlation and regression, contingency tables. Not open for credit to students with credit in MATH 108, 180, 390, or MTED 105, 205. Some course as STAT 108 (Lecture 3 hrs.)

2009/2010 CSULB Catalog • Mathematics and Statistics • 543
Statistics Courses (STAT)

380. Probability and Statistics (3)
Prerequisite: MATH 222 or MATH 224.
Letter grade only (A-F). Same course as MATH 380. Not open for credit to students with credit in MATH 380. (Lecture 3 hrs.)

381. Mathematical Statistics (3)
Prerequisites: MATH 247, and MATH 380 or STAT 380.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 381.

410/410. Regression Analysis (3)
Prerequisite: STAT 381.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 480 or 590.

450/550. Multivariate Statistical Analysis (3)
Prerequisite: STAT 381; prerequisite or corequisite STAT 410. Undergraduates register in STAT 450; graduates enroll in STAT 550.
Discriminate analysis, principal components, factor analysis, cluster analysis, log-likelihood ratio tests, canonical correlation, multivariate scaling, and some non-linear techniques. Statistical software used.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 483 or 595.

475. Data Analysis with SAS (3)
Prerequisite: STAT 381 or consent of instructor.
Topics include: Statistical analysis including extraction, presentation of data in graphical form, creation, modification of data sets, interpretation of output, writing of reports. Provides SAS programming techniques for aforementioned topics preparation for SAS base certification.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 483.

482. Random Processes (3)
Prerequisites: MATH 247, and MATH 380 or STAT 380.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 382.

484. Actuarial Science: Models (3)
Prerequisite: STAT 381 or consent of instructor.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 484.

485. Actuarial Science: Financial Mathematics (3)
Prerequisite: STAT 381.
Simple and compound interests, stochastic approaches to interest and annuities, stochastic models of stock, Black-Scholes arbitrage pricing of options and other derivative securities, Markowitz portfolio optimization theory, lito financial calculus, filtrations and martingales.
Letter grade only (A-F). (Lecture 3 hrs.)

495/595. Topics in Modern Statistics (3)
Prerequisite: Consent of instructor.
Topics of current interest from statistics literature.
Letter grade only (A-F). Course may be repeated to a maximum of 6 units with different topics. (Lecture 3 hrs.)

497. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Junior or senior standing and consent of instructor. Not open to graduate students.
Letter grade only (A-F).

510/410. Regression Analysis (3)
Prerequisite: STAT 381.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 480 or 590.

520. Statistical Inference (3)
Prerequisite: STAT 381 or consent of instructor.
Properties of a random sample, convergence in probability, law of large numbers, sampling from the normal distribution, the central limit theorem, principles of data reduction, likelihood principle, point estimation, Bayesian estimation, methods of evaluating estimators, hypothesis testing, decision theory, confidence intervals.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 590.

530. Experimental Design (3)
Prerequisite: STAT 381 or consent of instructor.
Design of experiments to permit efficient analysis of sources of variation with application to quality assurance. Factorial and fractional factorial designs; block designs; confounding, Fixed and random effect models. Effects of departure from assumptions; transformations. Response surface techniques. Taguchi methods.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 581.

552. Statistical Quality Control (3)
Prerequisite: STAT 381 or consent of instructor.
Introduction to methods of statistical quality control. Includes control charts, acceptance sampling, process capability analysis, and aspects of experimental design.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 554.

540. Survey Sampling (3)
Prerequisite: STAT 381 or consent of instructor.
Theory and practice of sampling from finite populations. Simple random sampling, stratified random sampling, systematic sampling, cluster sampling, properties of variance estimators including ratio, regression, and difference estimators. Error estimation for complex samples.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 593.

544 • Mathematics and Statistics • 2009/2010 CSULB Catalog
544. Statistical Consulting (3)
Prerequisites: STAT 381 and STAT 410/510 or consent of instructor.
The methodology of statistical consulting: guidelines for client-consultant communications; presentations to clients; basics of writing final technical reports, thorough case studies involving advanced statistical analysis, invited client presentations, real-life projects, group discussions, written and oral statistical reports by students.
Letter grade only (A-F). (Lecture 3 hrs.)

550/450. Multivariate Statistical Analysis (3)
Prerequisite: STAT 381, prerequisite or corequisite STAT 410.
(Undergraduates register in STAT 450; graduates enroll in STAT 550.)
Multivariate analysis, principal components, factor analysis, cluster analysis, logistic regression, canonical correlation, multidimensional scaling, and some nonlinear techniques. Statistical software used.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 455 or 553.

560. Nonparametric Statistics (3)
Prerequisite: STAT 410, or 510, or consent of instructor.
Alternatives to normal theory statistical methods, analysis of categorical and ordinal data, methods based on ranks, measures of association, goodness of fit tests, order statistics.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 455 or 553.

570. Statistical Simulation (3)
Prerequisite: STAT 381 or consent of instructor.
Simulation modeling techniques; generation of discrete and continuous random numbers from given distributions; Monte Carlo methods; discrete event simulations; statistical analysis of simulated data; variance reduction; statistical validation; introduction to simulation languages; industry applications. Statistical packages used.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 557 or 467.

572. Computational Statistics (3)
Prerequisite: STAT 381 or consent of instructor.
Random number generation, sampling and subsampling, exploratory data analysis, Markov chain Monte Carlo methods, density estimation and EM algorithm. Topics of current interest.
Letter grade only (A-F). (Lecture 3 hrs.)

574. Data Mining (3)
Prerequisite: STAT 410, or 510, or consent of instructor.
Basics of data mining algorithms with emphasis on industrial applications. Prediction and classification techniques such as decision trees, neural networks, Multivariate Adaptive Regression Splines, and other methods. Several software packages utilized.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 556.

576. Data Informatics (3)
Prerequisite: STAT 410/510 or consent of Instructor.
Genetic algorithms, fuzzy logic, discrete choice analysis, online analytical processing, structured query language, statistical database management, and text and web mining. Topics of current interest.
Letter grade only (A-F). (Lecture 3 hrs.)

580. Time Series (3)
Prerequisite: STAT 381 or consent of instructor.
Includes moving averages, smoothing, Box-Jenkins (ARIMA) models, testing for nonstationarity, model fitting and checking, prediction and model selection, seasonal adjustment, ARCH, GARCH, cointegration, state-space models. Statistical packages used throughout the course.
Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to students with credit in MATH 582.

590. Statistical Analysis of Medical Data (3)
Prerequisite: STAT 381 or consent of instructor.
Lifetime distributions, hazard and survival functions, censoring and truncation, Kaplan-Meier and Nelson-Aalen estimators, Cox proportional hazard models, re-sample tests, goodness-of-fit tests, Bayesian survival analysis, analysis of multivariate survival data, exploring longitudinal data designs and models, clinical trials.
Letter grade only (A-F). (Lecture 3 hrs.)

595/495. Topics in Modern Statistics (3)
Prerequisite: Consent of instructor.
Topics of current interest from statistics literature.
Letter grade only (A-F). Course may be repeated to a maximum of 6 units with different topics. (Lecture 3 hrs.)

695. Seminar in Applied Statistics (3)
Prerequisite: Consent of instructor.
Presentation and discussion of advanced work in applied statistics. May be repeated to a maximum of six units. Letter grade only (A-F).

697. Directed Studies in Applied Statistics (1-3)
Prerequisite: Consent of instructor.
Research on a specific area in applied statistics. Topic for study to be approved and directed by a statistics faculty member.
Letter grade only (A-F).

698. Thesis or Project (1-6)
Prerequisite: Advancement to candidacy.
Formal report of research or project in mathematics.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
MECHANICAL AND AEROSPACE ENGINEERING
College of Engineering

Department Chair: Hamid Hefazi
Department Office: ECS - 635
Telephone: (562) 985-1563
Website: http://www.csulb.edu/colleges/coe/mae

Faculty: Behnam Bahr, Eric G. Beaudoin, Huan-Hu Chen, Hsin-Piao Chen, Mihir K. Das (Emeritus), Rasim Esfandian, Hamid Hefazi, Min-Tien John, Bei Lu, Parvada Mairiyong, Owair G. Onner (Emeritus), Hamid H. Rostai, Thomas Robinson (Emeritus), Reza Toosi, Jalal Torabiabadi, Paviz Yawan, Hsein-Yang Yeh
Undergraduate Advisors: Jalal Torabiabadi (ME/Program Coordinator), Huan-Hu Chen (AE), Paviz Yawan (FT)
Graduate Advisors: Hamid Rostai (ME), Hsin-Piao Chen (AE)
Administrative Support Coordinator: Leanne Hayes

Students desiring detailed information should contact the department for referral to one of the faculty advisors.

Career Possibilities
Mechanical Engineer • Aerospace Engineer • Facilities Engineer • Manufacturing Engineer • Design Engineer • Sales Engineer • Plant Engineer • Safety Engineer • Tool Engineer • Project Engineer • Utilization/Test Engineer • Automotive Engineer • Production Engineer • Manufacturing Engineer • Standards Engineer • Industrial Engineer • Factory Plant Layout Engineer • Material Schedule • Tool Planner • Safety Engineer • Product Safety Engineer • Production Planner • Statician • Staff Assistant
Specification Writer • Tooling Quality Assurance Worker • Quality Planning Analyst • Process Engineering • Estimator • Manufacturing Engineering • Quality Engineer • Supervisor Vendor Quality • Production Engineer • Material Schedule • Quality Control Technician • Configuration Analyst • Quality Manager • Production Manager • Industrial Engineering • Production Safety Engineer • Safety Engineer • Metrologist • Liaison Worker • Methods and Time-Study Engineer • Traffic Control Engineer • Technical Sales Representative • Process Engineer • Estimator • Associate Engineer • Field Engineer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Accreditation
The Bachelor of Science in Aerospace Engineering and the Bachelor of Science in Mechanical Engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202 – telephone (410) 347-7700; website: http://www.abet.org.

The Culture of Continuous Improvement
The Department of Mechanical and Aerospace Engineering continuously seeks input from its students, alumni, employers, community, and industry leaders in order to improve its programs and ensure that students receive the best possible education and training. It is supported by a professional Advisory and Development Council (ADC) comprised of outstanding engineers and executives from the industry and government in Southern California. The role of the ADC is to form a liaison between the University and industry and to help the administration and faculty remain informed of modern engineering practices.

Mechanical and Aerospace Engineering at CSULB
The mission of the Department of Mechanical and Aerospace Engineering (MAE) is to fulfill the needs of students, of industry and government, and of the local, national, and global community in the area of mechanical and aerospace engineering education and research. The mission is implemented through the following objectives:
1. Provide undergraduate students with a comprehensive education for successful careers in mechanical or aerospace engineering.
2. Provide graduate students with an advanced engineering education for the enhancement of their careers and access to doctoral studies.
3. Provide an environment for students and faculty to engage in creative thinking and research in the areas of mechanical and aerospace engineering.
4. Promote mechanical and aerospace engineering at the University and the broader community.

To achieve this mission, the department offers the following programs:
Undergraduate
• Bachelor of Science in Aerospace Engineering (BSAE);
• Bachelor of Science in Mechanical Engineering (BSME);
• Bachelor of Science in Engineering (BSE) with options in Materials Engineering or Industrial Management Engineering;
• Bachelor of Science in Manufacturing Engineering Technology;
Graduate
• Master of Science in Aerospace Engineering (MSAE);
• Master of Science in Mechanical Engineering (MSME);
• Master of Science in Engineering (MSE) with an emphasis in Management Engineering;
• Ph.D. in Engineering and Industrial Applied Mathematics (offered jointly with Claremont Graduate University).

546 • Mechanical and Aerospace Engineering • 2009/2010 CSULB Catalog
Post-Baccalaureate Certificate Programs

• Certificate in Aerospace Manufacturing
• Certificate in Heating, Ventilating, and Air-Conditioning (HVAC)
• Certificate in Industrial Plastics Processing and Design
• Certificate in Energy Conversion and Power Systems Engineering

Student Organizations

Students have the benefit of joining the student chapters of professional societies:

• AIAA (American Institute for Aeronautics and Astronautics)
• ASME (American Society for Mechanical Engineers)
• SAE (Society of Automotive Engineers)
• SPE (Society of Petroleum Engineers)
• ASHRAE (American Society of Heating, Refrigeration, and Air Conditioning Engineers)
• SME (Society of Manufacturing Engineers)
• ASQ (American Society of Quality)
• Society of Women Engineers (SWE)
• Honor societies such as Tau Beta Pi

As student members of professional societies, students can attend local, regional, national, and international meetings and conferences, participate in student contests, become eligible for sponsored scholarships, interact with professionals from industry, and many other benefits.

Undergraduate Programs

MECHANICAL ENGINEERING PROGRAM

BSME Program Educational Objectives and Program Outcomes

The goal of the undergraduate program in mechanical engineering is to produce well-rounded engineers prepared for careers in mechanical engineering or related disciplines, utilizing an excellent education in the fundamentals of engineering mathematics, sciences, and design. In order to:

1. Create innovative solutions responsive to customer needs and meeting societal challenges.
2. Apply their knowledge in communicating and translating ideas and plans into working engineering systems.
3. Effectively function as a team member and/or leader in global, multi-disciplinary technical environments.

Based on these broad objectives, the following Student Learning Outcomes have been developed:

a. An ability to apply knowledge of mathematics, science, and engineering.

b. An ability to design and conduct experiments, as well as to analyze and interpret data.

c. An ability to design a system, component, or process to meet desired needs with realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.

d. An ability to function on multi-disciplinary teams.

e. An ability to identify, formulate, and solve engineering problems.

f. An understanding of professional and ethical responsibilities.

g. An ability to communicate effectively.

h. The broad education necessary to understand the impact of engineering solutions in a global and societal context.

i. A recognition of the need for, and an ability to engage in, life-long learning.

j. A knowledge of contemporary issues.

k. An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Bachelor of Science in Mechanical Engineering (code MAE_BS01) (134 units)

The realm of mechanical engineering is so extensive that training must be broad and basic, providing grounding in fundamentals which an engineer requires in order to gain competence in any specialized field. In view of this, the mechanical engineering curriculum includes ample foundation courses in mathematics, physics, chemistry, and design graphics. These are followed by courses in energy conversion, thermodynamics, fluid mechanics, mechanics and strength of materials, metallurgy, design, computer-aided design/ computer-aided manufacturing (CAD/CAM). The opportunity to further explore a particular area of interest is provided by additional elective courses in the senior year.

The laboratories of the department are provided with modern equipment for undergraduate instruction in the following areas: instrumentation and measurements, fuels and lubricants, materials and metallurgy, thermodynamics, strength of materials, computer-aided design/computer-aided manufacturing (CAD/CAM). The opportunity to further explore a particular area of interest is provided by additional elective courses in the senior year. The laboratories of the department are provided with modern equipment for undergraduate instruction in the following areas: instrumentation and measurements, fuels and lubricants, materials and metallurgy, thermodynamics, strength of materials, computer-aided design/computer-aided manufacturing (CAD/CAM). The opportunity to further explore a particular area of interest is provided by additional elective courses in the senior year.

The opportunity to further explore a particular area of interest is provided by additional elective courses in the senior year.
Based on these broad objectives, the following Student Learning Outcomes have been developed:

1. The students graduating in aerospace engineering will possess the skills in mathematics, physics and chemistry required to solve real world problems.
2. The students will have a firm understanding of engineering science fundamentals that will enable them to analyze real world problems and propose an appropriate solution to these problems.
3. The students will have the ability to apply their knowledge in aerospace fundamental disciplines to the analysis and design of components. Those aerospace fundamental disciplines include: aerodynamics; aerospace materials and structures; propulsion; space environment and space systems; communications and avionics systems; orbital and flight mechanics; and stability and control.
4. The students will have the ability to work in teams and: (1) carry out simplified design problems from the conceptual level to the realization of a manufacturing plan; or (2) design complex systems such as aircraft or spacecraft, from a preliminary design point of view. Projects address economic and business aspects such as commercial viability.
5. The students will have the ability to design and conduct experiments, as well as to analyze and interpret data.
6. The students will have an understanding of professional and ethical responsibility.
7. The students will have the ability to build on their knowledge and will be trained to be lifelong learners, pursuing and interested in independent study, research, and development.
8. The students will have good oral, written, and graphical communication skills.
9. The students will be trained in the role of the engineer in society and have an awareness of environmental concerns in the engineering profession.
10. The students will have knowledge of contemporary issues and current projects in aerospace engineering and of technical, design, and business challenges faced by the aerospace industry.

**Bachelor of Science in Aerospace Engineering (code MAE_BS02) (134 units)**

The curriculum is designed to supplement mathematics, science and basic engineering courses in order to give students the specialization needed in different areas of aerospace engineering. In addition to acquiring technical knowledge, graduates will have completed appropriate courses in communications and in humanistic social studies.

**Requirements**

A grade of "C" or better must be achieved in all required courses listed below. A minimum of 134 units is required.

**Lower Division:** CHEM 111A; MATH 122, 123, 224; PHYS 151, 152 (or EE 210 and 210L); CE 205; ENGR 101, 102; MAE 101A, 172, 205.

**Upper Division:** ECON 300; MATH 370A; MAE 300, 305, 330, 333, 334, 350, 365, 371, 373, 374, 381, 390, 434, 440, 452, 453, 465, 478, 479, 481, 483, and 6 units of electives from the elective list below.

Electives: MAE 408, 422, 435, 451, 454 and 490A.

**OTHER PROGRAMS**

**Bachelor of Science in Engineering Option in Materials Engineering (code MAE_BS03) (135 units)**

Modern engineering applications in all fields require new materials with properties well beyond those obtainable with the alloys available years ago. New materials, such as composites, ceramics, polymers, semiconductors and their manufacturing processes, are needed for such diverse applications as air transports, undersea deep submergence vessels, magnetic and semiconducting devices. Scientific knowledge in this area has expanded recently at a rate comparable to that experienced by the field of electronics. The materials option is offered to meet the demand for materials oriented engineers.

Course work is directed towards the understanding of the properties of materials in terms of their atomic structure, and emphasis is placed on the behavior of materials in engineering applications. The laboratories have equipment for studies in this field and include facilities for the determination of crystal structure, microscopic and X-ray diffraction, and scanning electron microscope examination of solids, thermal and mechanical treatment and the determination of properties at low and high temperatures.

**Requirements**

Minimum 135 units including University General Education requirements.

**Lower Division:** CHE 200; CHEM 111A, 111B; CE 205, EE 211, 211L; MATH 122, 123, 224; ENGR 101; MAE 172, 205, 272; PHYS 151, 152.

**Upper Division:** CHE 415; CE 406; ECON 300; EE 420; MATH 370A; MAE 392, 393, 394, 395, 396; 409, 459, plus approved engineering elective courses.

For more information on admission to this program, please contact Dr. Jialin Torabzadeh, Undergraduate Advisor, Mechanical Engineering Program.

**Option in Industrial-Management Engineering (code MAE_BS04) (135 units)**

An interdisciplinary degree in which both the College of Business Administration and the College of Engineering provide courses enable students to have a technical engineering background plus a good foundation in business and management practices. The option consists of core engineering courses through the junior year with an addition of business courses in accounting, business law, management, inventory practices and operations research.

Elective structure is such that the student may specialize in either engineering, or a combination of both engineering and business.

**Requirements**

**Lower Division:** ACCT 201; CHEM 111A; CE 205; EE 211, 211L; BLDW 220; MATH 122, 123, 224; ENGR 101; MAE 172, 205; PHYS 151, 152.

**Upper Division:** CE 406; ECON 300; BLDW 390; IS 310; MATH 370A; MGMT 300; MGMT 411 or 412 or 413; MAE 305, 310, 322, 330, 371, 373, 376, 459, 476, and approved electives to total at least 135 units.
Emphasis in Quality Assurance

The primary objective is to prepare graduates to pursue careers related to product manufacturing and quality assurance. Emphasis is placed on specific job skills required of entry-level professionals in the manufacturing industries including oral and written communication, and management principles. The program is applications-oriented, and is available to students interested in a career as Quality Assurance technologists. Designed to meet ABET criteria for accredited programs in engineering technology.

Requirements

Upper Division: ET 419 plus 2 units of electives from ET 4090, BLAW 220.

Fieldwork Requirements

Fieldwork experience is required for the BS in Manufacturing Engineering Technology, consisting of no less than three months of full-time (40 hours/week or equivalent part-time) employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed at least two years of college. The fieldwork must be completed prior to graduation, then certified and approved by the program advisor.

Certificate in Aerospace Manufacturing

(code MAE_CT01)

Director: Hamid Hejazi

This Certificate Program is designed to give students and working engineers an educational opportunity to focus on the complex and dynamic issues related to aerospace manufacturing. The program consists of 19 semester units, with seven required core courses.

Requirements

1. Consent of the Program Director.
2. Preparation of a Program Planner.
3. Satisfactory completion of the required courses as listed below.
4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
5. Completion of a Bachelor of Science degree in an approved major. The Certificate may be awarded concurrently with or subsequent to a baccalaureate degree.

Required Courses

The Certificate Program requires a minimum of 19 semester units (seven core courses): MAE 408, 455, 456, 457, 458; ENGR 511, 574. Students should consult with the program director to assess any needed prerequisites.

Certificate in Heating, Ventilating, and Air-Conditioning Engineering

(code MAE_CT03)

Director: Hamid Rabiei

The 20-unit HVAC Certificate Program is designed to prepare engineering and science students for designing various HVAC systems and to familiarize them with HVAC equipment and their selection process.
With a proper choice of classes, you may also earn this Certificate in conjunction with your bachelor’s degree. Contact the Department of Mechanical and Aerospace Engineering for more information.

Requirements
1. Consultation with the Program Director and preparation of a Program Planner.
2. Satisfactory completion of the required courses, as listed below.
3. Approval of the special project and its satisfactory completion (MAE 491);
4. Completion of a Bachelor of Science degree in an approved major. The Certificate may be awarded concurrently with or subsequent to the baccalaureate degree.

Required Courses
The HVAC Certificate Program requires a minimum of 20 semester units, as indicated below: MAE 330, 431, 438/538, 490E, 491, MAE 333 or CE 335; MAE 440 or CE 336

Certificate in Industrial Plastics Processing and Design (code MAE_CT02)
Director: Min-Ton Jahn

The certificate program in Industrial Plastics Processing and Design is an interdisciplinary program sponsored by the Mechanical and Aerospace Engineering and Chemical Engineering Departments. Polymeric materials rank second in tonnage use currently of all materials, and indications are that in the near future they may surpass metals in total usage. There is a definite need for personnel familiar with the processing and special design considerations necessary to properly make use of the special properties of this broad class of materials. The program permits a student to study in detail the industrial production processes, material testing procedures, economics of the polymers industry and degradation of polymers. All students in the program complete an individual project, consisting of the design of an item, choice of proper polymeric materials for the particular application, choice of the processing operation and construction of the necessary molding tools and testing of the completed device. Contact the Department of Mechanical and Aerospace Engineering.

Requirements
1. A bachelor’s degree in engineering. The certificate may be awarded concurrently with the degree.
2. Satisfactory completion of 22 units minimum from the courses listed below: Polymeric Processing: CHE 200; MAE 471 and either 472 or 476; and a minimum of 3 units in either CHE 490 or MAE 491. Properties of Polymers: MAE 373, 374.
3. Approval of the certificate committee for admission to the certificate program. An advisor will be appointed to you at that time.
4. The advisor’s approval of your completion of the special project.

Certificate in Energy Conversion and Power Systems Engineering (code MAE_CT04)
Director: Jalal Torabzadeh

The 27-unit certificate program is an undergraduate program designed to prepare Electrical and Mechanical Engineering students to become proficient in the analysis and design of power generating systems, such as direct conversion, coal burning, hydraulic, nuclear, solar, wind, and various other types of power plants.

Requirements
1. Consultation with program advisors in Electrical or Mechanical and Aerospace Engineering Departments and preparation of a program planner.
2. Completion of the following core courses: CE 335; EE 350, 452; MAE 330, 336, 431;
3. Completion of 9 units from the following list of elective courses: EE 453, 455, 458, 460, 550, 551, 552, 553; MAE 490, 538;
4. Completion of a Bachelor of Science degree in an approved major. This certificate may be awarded concurrently with or subsequently to baccalaureate degree.

GRADUATE PROGRAMS

The goal of the Master’s programs in mechanical and aerospace engineering, the MSME and MSME, is to provide students with the advanced engineering education needed to enhance their careers and pursue doctoral studies.

Admission to the MSME or MSME degree programs requires a minimum GPA of 2.70 in the last 60 upper-division units completed.

Master of Science in Mechanical Engineering (code MAE_MS02)

The Master of Science in Mechanical Engineering is offered by the Department of Mechanical and Aerospace Engineering, College of Engineering. Built on a broad and basic undergraduate instruction, the graduate level courses and graduate degree, the Master of Science in Mechanical Engineering, develop competence in the fields of design and manufacturing, dynamics and controls, materials and composites, mechanics and Finite Element Methods, and thermal systems. Modern laboratories in CAD, fluid power and mechanics, heat power, control systems, manufacturing, plastics, design, thermodynamics, heat flow, metallurgy, and mechanical properties of materials are maintained for undergraduate and graduate instruction, and graduate research. Design rooms, laboratories within the other engineering departments, computer facilities, and machine shops supplement the mechanical engineering facilities.

Additional details may be found in the Schedule of Classes. For further information and complete degree requirements contact Mechanical and Aerospace Engineering Department.
Admission Procedures

To be considered for admission, the graduate applicant must have earned a bachelor’s degree from an accredited institution, have been in good standing at the last institution attended, and have a grade point average (GPA) of at least 2.7 for the last 60 semester units (90 quarter units) attempted. There is no separate department application, but applicants must submit a second set of transcripts to the department.

Prerequisites

1. A bachelor’s degree in mechanical engineering, engineering, or other appropriate discipline from an accredited college or university with a minimum grade point average (GPA) of 2.7 in the last 60 semester units attempted.
2. Students must consult with the program graduate advisor prior to enrolling in any course for their program.
3. The Graduation Writing Assessment Requirement (GWAR) during the first semester in residence. Failure to attempt to fulfill the GWAR during the first semester will prevent registration in engineering courses in subsequent semesters.

Note: Before being admitted, a qualified student without a mechanical engineering degree must provide a written statement to the MSME graduate advisor that he/she understands that all deficiencies must be removed before attempting graduate-level courses.

Requirements

PLAN I
Completion of a minimum of 30 units beyond the bachelor’s degree in upper-division and graduate courses approved by the student’s Department Graduate Studies Committee, including:
1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.

PLAN II
Completion of a minimum of 36 units beyond the bachelor’s degree in upper-division and graduate courses approved by the student’s Department Graduate Studies Committee, including:
1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.
3. Completion of six units of MAE 697 (Directed Research).

Advancement to Candidacy
Students applying for advancement to candidacy must:
1. have completed all undergraduate deficiencies with grades of "C" or better;
2. have attained an overall grade point average of (GPA) of 3.0;
3. have completed at least 12 units applicable to the degree with a GPA of at least 3.0;
4. have fulfilled the Graduation Writing Assessment Requirement (GWAR). This requirement can also be met by presenting evidence that the student met the requirement while an undergraduate at CSULB or at certain CSU campuses;
5. and have their program of studies approved by the ME program’s graduate advisor.

Master of Science in Aerospace Engineering (code MAE_MS01)

The Master of Science in Aerospace Engineering program was created to educate graduate students in subjects relevant to the requirements of the aerospace industry. This program has been designed for both full-time students and working professionals, and is unique in its emphasis on practical applications and its intimate interaction with the aerospace industry. Several areas of specialization are available for an optimum contribution to the student’s career goals.

The MSAE program involves modern computational and experimental methods and provides the essential information which will permit students to acquire the knowledge and skills which are of immediate practical importance. This knowledge is communicated in the advanced courses listed in the MAE curriculum and used in the conduct of a thesis or project.

The areas of emphasis within the MSAE program include:
- Space systems engineering;
- Aircraft systems engineering;
- Computational fluid dynamics;
- and aerospace structures and materials.

Both graduate and undergraduate programs benefit from the advice of an advisory committee comprised of senior staff from aerospace companies, government agencies, and universities.

Further information may be obtained from the Department of Mechanical and Aerospace Engineering’s website: http://www.csulb.edu/colleges/coe/mae/.

Prerequisites

1. A bachelor’s degree in an accredited curriculum in Aerospace or Mechanical engineering with a minimum grade point average of 2.70 in the last 60 (semester) upper-division units attempted. Applicants with lower GPA may be admitted subject to successful completion of appropriate deficiencies.
2. A bachelor’s degree in engineering, mathematics, science or other appropriate discipline with the requirement that essential undergraduate prerequisites in engineering be satisfied.
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.

Advancement to Candidacy

Prerequisites for advancement to candidacy are:
1. Classified status.
2. An approved program of studies for the Master of Science in Aerospace Engineering.
3. Fulfillment of the CSULB Graduation Writing Assessment Requirement (GWAR).
4. Be enrolled in regular session.
5. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in MAE 698, Thesis.

2009/2010 CSULB Catalog • Mechanical and Aerospace Engineering • 551
Requirements

PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:
1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses in appropriate areas;
3. Completion of six units of MAE 698, and submission of a written thesis.

PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:
1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 697.

Master of Science in Engineering (code COE_MS01)

Admission to the MSE graduate program requires a minimum GPA of 2.7 in the last 60 upper-division units attempted.

For requirements, see the description in the College of Engineering section of this catalog.

The Mechanical and Aerospace Engineering Department administers two emphases under the Master of Science in Engineering. The other prerequisites and requirements are the same as for the MSME and MSME programs.

Management Engineering Emphasis

A special management perspective is required for the successful generation of technical products and services, and thus the Master of Science in Engineering: Program in Management Engineering is offered by the College of Engineering at California State University, Long Beach.

In order to plan, design, direct, and control technical projects, technical managers must be capable of inspiring and developing professional personnel. They must be able to integrate planning, manufacturing, and budgetary concerns of the project and be able to easily communicate with general management.

The Emphasis in Management Engineering primarily admits students with a traditional engineering background. It emphasizes the management of engineering-based endeavors and does not require undergraduate business courses as prerequisites for graduate work.

Well-versed for working students, graduate courses in management engineering are offered in the late afternoon and evening. An individualized program is developed according to each student's undergraduate degree area of interest, or some well-defined industrial application; interdisciplinary approaches are encouraged.

The graduate program supports innovative thesis topics that enable the degree candidate to be knowledgeable about new applications and/or areas in management engineering.

The graduate Emphasis in Management Engineering at California State University, Long Beach seeks to:

- Provide industry and government with engineers who have essential management knowledge and skills.
- Provide engineers with career advancement opportunities in project management and the management of research, manufacturing and other technical enterprises.
- Educate engineers as managers who can effectively plan and implement technological projects.

Ph.D. in Engineering and Industrial Applied Mathematics (code COE_PH01)

For requirements, see the description in the College of Engineering section of this catalog.

Courses (MAE)

LOWER DIVISION

101A. Introduction to Aerospace Engineering (1)
Role of various types of engineering specialties in the development of an actual aerospace vehicle project. Current social, ethical, and environmental issues in Aerospace Engineering solutions. Life-long learning skills using resources from professional societies. Internet is also emphasized.
Letter grade only (A-F). (Lecture-problem 1 hour)

101B. Introduction to Mechanical Engineering (1)
Prerequisite: Freshman standing or consent of Instructor.
Introduction to mechanical engineering as a profession. Past, present, and future trends and related professional opportunities and challenges. Introduction to mechanical engineering curriculum studies. Social, economical, cultural, legal and ethical issues related to mechanical engineering and its applications.
Letter grade only (A-F)

172. Engineering Design Graphics (3)
Graphic concepts and visualization. Graphic expressions using CAD software, emphasis on industry practices involving part and assembly drawings for actual products, standards, tolerances, surface finishes, and other attributes on drawings. Production drawings, projects involving complete design of systems and subsystems.
Letter grade only (A-F). (Lecture-problems 2 hrs., design laboratory 3 hrs.)

205. Computer Methods in Mechanical and Aerospace Engineering (2)
Prerequisites: MATH 122 and PHYS 151.
Application of computer programming to engineering problem solving. Structured approach to problems. Input/output concepts for both numerical and graphical results.
Letter grade only (A-F). (Lecture-problems 1 hour, laboratory 3 hours)

272. Introduction to Manufacturing Processes (2)
Prerequisite: MAE 172.
Manufacturing processes, properties of materials, metals production; foundry, casting, heat treatment; welding, powder metallurgy; plastics, metrology; working metals, press work, machine tool elements, numerical control; metal cutting/forging; drilling, boring, milling; shaping/planning, sawing, brazing, grinding, sanding, gears, gear-cutting. Threads, thread-cutting.
Letter grade only (A-F). (Lecture-problems 1 hour, laboratory 3 hours)
305. Numerical Methods in Mechanical and Aerospace Engineering (3)
Prerequisites: MAE 205 and MATH 370A.
Letter grade only (A-F). (Lecture-problems 3 hours)

310. Safety and Reliability in Systems Design I (3)
Prerequisites: MAE 205, MATH 360A, or consent of instructor.
Introduction to probabilistic design analysis; safety and reliability, tools to assess adequacy of designs; identification of critical elements and practical design guidance; compliance with the requirements. Coherent use of concepts, tools, and programs to produce reliable, safe system designs. Group projects.
Letter grade only (A-F). (Lecture-problems 3 hours)

322. Engineering Materials and Materials Processes (3)
Prerequisites: CHEM 111A, MATH 123, MAE 172.
Letter grade only (A-F). (Lecture-problems 3 hours)

330. Engineering Thermodynamics I (3)
Prerequisites: MATH 224, PHYS 151 or equivalent, and CHEM 111A or consent of instructor.
Laws of thermodynamics. Properties of liquids, gases and vapors. Sources of energy and conversion to work. Introduction to heat transfer and psychrometry.
Letter grade only (A-F). (Lecture-problems 3 hours)

333. Engineering Fluid Dynamics (3)
Prerequisites: CE 209, MATH 310A.
Letter grade only (A-F). (Lecture-problems 3 hours)

334. Aerodynamics I (3)
Prerequisite: MAE 333.
Letter grade only (A-F). (Lecture-problems 3 hours)

336. Power Plant Design (3)
Prerequisite: MAE 330.
Design of power production systems, including steam power plants, gas turbines and auxiliary power units. Survey of alternate power sources including wind, solar, geothermal, ocean thermal and biomass. Group and/or individual design projects.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

337. Thermal Engineering Laboratory (2)
Prerequisites: MAE 336.
Thermodynamics, heat transfer and fluid flow property measurements, measurement of heating value of fuels, energy and performance of thermal systems, including internal combustion engines, power and heat generating systems, refrigeration and air conditioning systems, and heat exchangers.
(Lecture-problems 1 hour, Laboratory 3 hours) Letter grade only (A-F).

350. Flight Mechanics (3)
Prerequisite: CE 205.
Turbojets, propeller and other flights in the vertical plane, turning flight in the horizontal plane. Piston props: flight and other flights in the vertical plane, turning flight in the horizontal plane. Performance analysis and design examples.
(Lecture-problems 3 hours) Letter grade only (A-F).

361. Materials and Properties Laboratory (1)
Prerequisites: ENGL 100 or equivalent, MAE 300, 322, 373.
Study of the effects of thermal processing and mechanical processing on the properties and microstructures of metals, alloys, and other materials. Determination of material properties using tensile test, torsion test, and beam test. Study of the statistical nature and reliability of test results.
(Laboratory 3 hours) Letter grade only (A-F).

365. Aerospace Structures I (3)
Prerequisite: MAE 373.
(Lecture-problems 3 hours) Letter grade only (A-F).

371. Analytical Mechanics II (Dynamics) (3)
Prerequisites: CE 205, MAE 205 or CE 206.
Newton’s Laws and the principles of work and energy and impulse and momentum applied to the study of particles and rigid body motion. Engineering applications with emphasis on plane motion problems. Individual and/or group projects involving in-depth numerical analysis.
(Lecture-problems 3 hours) Letter grade only (A-F).

373. Mechanics of Deformable Bodies (3)
Prerequisite: CE 205.
Application of the principles of mechanics to the design of structural and machine members and connections; stress analysis of beams and columns. Properties and strength of engineering materials. Design projects.
(Lecture-problems 3 hours) Letter grade only (A-F).

374. Mechanical Properties of Materials Laboratory (1)
Prerequisites: MAE 300, 373, ENGL 100 or equivalent.
Physical and mechanical properties of engineering materials and their relationships to structural elements; accuracy of measurements; statistical analysis of experimental data; professional laboratory projects.
(Laboratory 3 hours) Letter grade only (A-F).

375. Kinematics and Dynamics of Mechanisms (3)
Prerequisites: MAE 272, 371.
Fundamentals of linkages, cams, gears and gear trains. Velocity and acceleration analysis of mechanisms leading to dynamic loading of machine parts; dynamic analysis and balancing of rotating machines; internal combustion engine balances. Individual design projects.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).
376. Modelling and Analysis of Dynamic Systems (3)
Prerequisite: MAE 371, MATH 370A.
Modelling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, and hydraulic systems. Use of complex algebra and Laplace transforms. Mathematical modeling of dynamic systems in state-space. Linear systems analysis in time and frequency domains. Introduction to feedback control systems.
(Lecture-problems 3 hours) Letter grade only (A-F).

381. Fundamentals of Spacecraft Dynamics (3)
Prerequisites: PHYS 152, MATH 370A, and MAE 371.
(Lecture-problems 3 hours) Letter grade only (A-F).

390. Aerospace Engineering Seminar (1)
Prerequisite: Upper division standing.
Introduction to effective communication techniques and oral presentations. Guest speakers from industry cover topics such as an engineer's professional practice, social responsibilities, ethical and legal issues, as well as latest developments in Aerospace Engineering. Students write reports regarding these presentations.
(Seminar 1 hour) Letter grade only (A-F).

408/.508. Systems Engineering and Integration (3)
Prerequisite: Senior standing or consent of instructor.
Introduction to tools and methods employed by systems engineers in aerospace industry. Development of systems functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management.
(Lecture-problems 3 hours) Letter grade only (A-F).

409. Modern Computational Aspects in Mechanical Engineering (3)
Prerequisites: Senior standing in engineering and consent of instructor.
Computational aspects of Mechanical Engineering. Subjects include finite element analysis of structures, fluids, or heat transfer; boundary element analysis. May be repeated to a maximum of 6 units with consent of department.
(Lecture-problems 3 hours) Letter grade only (A-F).

422/.522. Composite Materials (3)
Prerequisite: MAE 373.
(Lecture-problems 3 hours) Letter grade only (A-F).

431. Heat Transfer Systems Design (3)
Prerequisites: MAE 305, 330; CE 335.
Analysis of heat transfer by conduction, convection and radiation. Investigation of steady state and transient heat transfer systems. Computer methods. Individual group design projects problems in heat transfer such as electronic packaging, heat exchangers, heat engines, refrigerators, and thermal systems analysis.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

434. Aerodynamics II (3)
Prerequisite: MAE 334.
Compressible flows. Subsonic and supersonic flows around airfoils and wings. Two-dimensional, incompressible boundary layers. Introduction to computational fluid dynamics (CFD). Aerodynamic design considerations. Projects are assigned and written reports are required.
(Lecture-problems 3 hours) Letter grade only (A-F).

435/.535. Computational Fluid Dynamics I (3)
Prerequisites: MATH 370A, MAE 333.
Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows. Full potential equation, grid generation, application to inviscid and viscous subsonic, transonic/ supersonic flows.
(Lecture-Problems 3 hours) Letter grade only (A-F).

438/.538. Heating, Ventilating, Air Conditioning, and Refrigeration (3)
Prerequisites: MAE 330, CE 335.
Basic HVAC system calculations. Thermodynamics and psychrometrics. Design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs.
(Lecture-Problems 3 hours) Letter grade only (A-F).

440. Aerodynamics Laboratory (1)
Prerequisites: MAE 300 and 334.
Experimental techniques in aerodynamics, wind tunnel measurements, use of Pitot tube, hot wire and Laser Doppler Velocimetry systems, flow visualization techniques, calibration of transducers. Computer controlled data acquisition and analysis. Projects are assigned and written reports and oral presentations are required.
Letter grade only (A-F). (Laboratory 3 hours)

451/.551. Aircraft Preliminary Design and Performance (3)
Prerequisite: Consent of instructor.
Complete aircraft preliminary design, including mission definition, specifications, and regulations. Preliminary layout weight and weight empty for a mission. Aircraft geometric characteristics are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. Individual projects required for MAE 551.
The design project is conducted in teams for MAE 451 and individually for MAE 551. (Lecture-Design Project 3 hours) Letter grade only (A-F).

452. Propulsion (3)
Prerequisites: MAE 330, 434.
(Lecture-problems 3 hours) Letter grade only (A-F).

453/.553. Stability and Control of Aerospace Vehicles (3)
Prerequisite: MAE 350 or equivalent.
Additional Projects required for MAE 553. (Lecture-problems 3 hours) Letter grade only (A-F).
454/554. Avionics Systems (3)
Prerequisite: MAE 453.
Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification.
(Lecture-Problems 3 hours) Letter grade only (A-F).

455. Aerospace Manufacturing Laboratory (1)
Prerequisite: Senior standing.
A design project in given and students are required to complete the design taking into account the manufacturing equipment, control and systems available.
(Laboratory 3 hours) Letter grade only (A-F).

456. Production Methods for Aerospace Manufacturing (3)
Prerequisite: Consent of instructor.
Survey of production processes, sequence of operations, equipment and facilities, methods, tools, plans and requirements of various aerospace products. Observation of actual aerospace manufacturing activities.
(Lecture Problems 3 hours) Letter grade only (A-F).

457. Lean Manufacturing (3)
Prerequisite: Senior standing.
Fundamentals of Lean Enterprise. Study of flow to customers and relationship both internal and external to the company. Study of the mechanism of continuous process improvement. Case studies to accomplish value stream analysis and develop a Lean Enterprise improvement plan for the student’s own respective operations.
(Lecture-problems 3 hours) Letter grade only (A-F).

458. World Class Manufacturing Engineering Concepts (3)
Prerequisites: Senior standing in engineering and consent of instructor.
(Lecture-Problems 3 hours) Letter grade only (A-F).

459. Professional Practice Seminar (1)
Prerequisite: Senior standing or consent of instructor.
Professional, social and moral responsibilities of engineers. Examination of ethical and legal issues, including intellectual property and regulatory codes and practices. Students are encouraged to participate in professional societies and attend professional seminars. Licensure is emphasized.
(Lecture-Problems 1 hour) Letter grade only (A-F).

465. Aerospace Structures II (3)
Prerequisite: MAE 365.
(Lecture-problems 3 hours) Letter grade only (A-F).

471. Analysis and Design of Machine Components (3)
Prerequisites: MAE 375 and 376 (or MAE 374).
Application of the principles of mechanics and physical properties of materials to the proportioning of machine elements, including consideration of function, safety, production and economic factors. Group and/or individual design projects of mechanical subsystems and/or subsystems.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

472. Design of Mechanical Engineering Systems (3)
Prerequisites: MAE 330, 373, 375, CE 335. Corequisite: CE 406.
Capstone design course. Design experience includes conceptual design, literature review and analysis. Final designs includes: drawings, manufacturing and assembly of prototypes. Emphasis placed on identifying realistic constraints simulating industrial situations which affect design choices. Teamwork and interaction is encouraged.
(Lecture-Problems 2 hours, Design Laboratory 3 hours) Letter grade only (A-F).

474. Computer–Aided Manufacturing (3)
Prerequisites: MAE 322, 409A.
(Lecture–problems 3 hours) Letter grade only (A-F).

476. Mechanical Control Systems I (3)
Prerequisite: MAE 376.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

478. Aerospace System Design I (3)
Prerequisites: MAE 334, 365, and 381. Corequisite: MAE 434, 465, or 481.
A capstone design experience which integrates aspects of aerospace systems design. Student teams complete a design during the two-semester course sequence. In the first semester, the teams define the requirements and then work through the complete design in the second semester (MAE 479). Letter grade only (A-F). (Lecture-Design Project 2 hours, Laboratory 3 hours)

479. Aerospace Systems Design II (3)
Prerequisite: MAE 478.
Continuation of Aerospace System Design I (MAE 478). The project assigned in teams in MAE 478 are completed. Manufacturing is included when appropriate. Regular design reviews (oral presentations and written reports) are essential components in grading.
(Lecture-Design Project 1 hour, Laboratory 3 hours) Letter grade only (A-F).

481. Space Systems Engineering (3)
Prerequisite: MAE 231.
Systems engineering approach to spacecraft design. Spacecraft systems engineering and spacecraft power subsystem. Radiative and conductive heat transfer. Thermal control subsystems, telecommunications. Command and data handling. Team projects including spacecraft subsystem design are assigned. Written reports and oral presentations are required.
(Lecture-Problems 3 hours) Letter grade only (A-F).

483. Space Flight and Orbital Mechanics (3)
Prerequisites: MATH 370A, MAE 371.
(Lecture-problems 3 hours). Letter grade only (A-F).
490. Special Topics (3)
Prerequisite: Senior standing in engineering and consent of instructor.
Selected topics from recent advances in mechanical and aerospace engineering. Content may vary from semester to semester.
May be repeated to a maximum of 6 units with different topics.
(Lecture-problems 3 hours) Letter grade only (A-F).
A. CAD/CAM
Not open for credit to students with credit in ME 405A. Letter grade only (A-F).
B. Robotics Principles
Major components of a robot and robotic applications. Translational, rotational motion and motion conversions. Modeling of mechanical systems and kinematic chains. Physical control elements, forces encountered, and sensors. Software and hardware considerations, including robot programming. Robot design examples.
Not open for credit to students with credit in ME 405B. Letter grade only (A-F).
D. Hybrid Electrical Vehicles System Design
History, technology, and future of hybrid vehicles. Topics discussed include: advanced transportation and electricity/hybrid vehicles. Design projects involve testing, manufacturing, and modeling of various components for hybrid vehicles. Effects of aerodynamic forces, ergonomics and economics on overall design of the vehicle are investigated.
Not open for credit to students with credit in ME 405D. Letter grade only (A-F).
E. HVAC Systems Design and Equipment
Prerequisites: ME 330, CE 335.
Design of air conditioning systems, the design process, occupant comfort, load calculations, components and control, all air systems, and water systems, and all water systems.
Not open for credit to students with credit in ME 405E. Letter grade only (A-F).
G. Mechatronics
Prerequisites: EE 211, MATH 370A, and MAE 300. Upper-Division standing or consent of instructor.
This lab based course introduces students to the basic elements of modern mechatronic systems which integrate mechanism, electronics, and computer control to achieve a functional system. Topics covered include: basic electronic components, motors, microcontrollers, D/A and A/D conversion, and motor control.
(Lecture-problems 3 hours) Letter grade only (A-F).
491. Special Problems (1-3)
Prerequisite: Senior standing.
Assigned topics in technical literature or laboratory projects and reports on same.
Letter grade only (A-F).
495/595. Rapid Product Development (3)
Prerequisites: MAE 490A, 490B.
Rapid product development using solid modeling. Simplified finite element analysis and optimization of different design proposals. Quality control process via a 3-D scanner and data acquisition software. Product readiness for casting, mold flow analysis or machining via CAM.
(Lecture-problems 3 hours) Letter grade only (A-F).

501. Engineering Analysis I (3)
Prerequisite: MATH 370A.
(Lecture-problems 3 hours) Letter grade only (A-F).
502. Engineering Analysis II (3)
Prerequisite: MAE 501.
Linear algebra, matrix computations, systems of differential equations, eigenvalue problems, iterative solution of systems of algebraic equations, numerical methods for ordinary and partial differential equations, systems of nonlinear equations, optimization.
(Lecture-problems 3 hours) Letter grade only (A-F).
505. Quantitative Methods for Engineering Managers (3)
Prerequisite: MAE 501 or 502 or equivalent.
Concepts and methods using quantitative approaches in engineering management decision making. Computer based tools used in management decision making for subjective approaches. Probabilistic methods, forms of linear program models, network analysis, dynamic programming, Monte Carlo simulation and queuing models. Methods formulating problems are emphasized.
(Lecture-problems 3 hours) Letter grade only (A-F).
506. Management of Engineering Technology and Innovation (3)
Prerequisite: Graduate engineering standing.
Analysis of the principles and theory of engineering administrative organizations, information systems, management functions, decision making tools, strategies, and administrative policy formulation.
(Lecture-problems 3 hours) Letter grade only (A-F).
507. Engineering Project Management (3)
Prerequisite: Graduate engineering standing.
Theory and philosophies of project management, principles of internal and industrial organization planning and control systems, motion in time study, industrial statistics, industrial research as aid to decision making.
(Lecture-problems 3 hours) Letter grade only (A-F).
508/408. Systems Engineering and Integration (3)
Prerequisite: Senior standing or consent of instructor.
Tools and methods employed by systems engineers in aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in context of integrated product teams and the product life cycle. Trade studies and risk management. Projects assigned, written reports and oral presentations are required.
Additional projects required for MAE 508. (Lecture-Problems 3 hours) Letter grade only (A-F).
512/612. Computer Aided Design in Mechanical Engineering (3)
Prerequisites: MAE 490A, 501, 502. (Master's students register in MAE 512 or 612. Ph.D. students register in MAE 612.)
Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer.
(Lecture-problems 3 hours) Letter grade only (A-F).
521. Engineering Metallurgy II (3)
Prerequisite: MAE 322.
Properties and uses of structural steels; heat treatable steels; titanium alloys; nickel and cobalt base alloys; refractory metals; ultra high-strength steels; stainless steels; and metal matrix composite materials. Designing for fracture resistance.
(Lecture-Problems 3 hours) Letter grade only (A-F).

522.4422. Composite Materials (3)
Prerequisite: MAE 375
(Lecture-Problems 3 hours) Letter grade only (A-F).

527. Metals and Plastics Manufacturing Processes (3)
Prerequisite: MAE 322.
Theory of metal forming and plastics processing. Includes metal forging and rolling, metal and plastics extrusion, plastics injection molding, casting. Discussion of appropriate manufucturing methods.
(Lecture-Problems 3 hours) Letter grade only (A-F).

529. Structural Analysis of Composite Laminates (3)
Prerequisite: MAE 522 or consent of instructor.
Bending, vibration and buckling analysis of composite laminates. Shells of composite materials. Joining of composite material structures.
(Lecture-Problems 3 hours) Letter grade only (A-F).

531. Advanced Heat Transfer (3)
Prerequisites: MAE 431, 501
Advanced topics in conduction and convection heat transfer, analytical and numerical solutions to multidimensional heat conduction equations in various geometries. Solutions to laminar and turbulent convection heat transfer problems. External and internal flows, free and forced convection, and mass transfer from external surfaces. Applications in thermal systems design.
(Lecture-Problems 3 hours) Letter grade only (A-F).

532. Combustion I (3)
Prerequisite: MAE 336, 431.
Fundamentals of combustion engineering: fuels; chemical thermodynamics and chemical kinetics; premixed and diffusion flames; ignition and extinction; Hugoniot curve; flammability and explosion limits; pollutant formation and control; applications in spark-, and charged-ignition internal combustion engines; gas-fired and oil-fired furnaces.
(Lecture-Problems 3 hours) Letter grade only (A-F).

533. Gas Dynamics (3)
Prerequisite: MAE 333 or equivalent. Isentropic flow, normal and oblique shocks, Prandtl-Meyer flow, shock expansion theory, method of characteristics, nozzle flow, flow in ducts with friction and heat transfer, solutions of linearized potential equation with applications, slender body theory, similarity rules, transonic flow, shock wave/ boundary layer interactions.
(Lecture-Problems 3 hours) Letter grade only (A-F).

535.4435. Computational Fluid Dynamics I (3)
Prerequisites: MATH 570A, MAE 333.
Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability and convergence, penal method, modeling and computation of boundary layer flows, etc.
Additional projects will be required for MAE 535.
(Lecture-Problems 3 hours) Letter grade only (A-F).

537. Advanced Fluid Dynamics I (3)
Prerequisites: CE 335, MAE 431.
Dynamics of ideal, real and compressible flows, potential flow, vortex flow, the Navier-Stokes equations, integral and differential equations for laminar flow, exact solutions for laminar flow, steady and unsteady compressible flows.
(Lecture-Problems 3 hours) Letter grade only (A-F).

538.4438. Heating, Ventilating, Air Conditioning, and Refrigeration (3)
Prerequisites: MAE 330, CE 335
Basic HVAC system calculations. Thermodynamics and psychrometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs.
Additional projects required for MAE 538.
(Lecture-Problems 3 hours) Letter grade only (A-F).

551. Aircraft Preliminary Design and Performance (3)
Prerequisite: Consent of instructor.
Complete aircraft preliminary design, including mission definition, specifications and regulations. Preliminary takeoff weight and weights empty for a specific mission. Aircraft geometric characteristics are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. The design project is conducted in teams for MAE 451 and individually for MAE 551.
(Lecture Design Project 3 hours) Letter grade only (A-F).

553.4453. Stability and Control of Aerospace Vehicles (3)
Prerequisite: MAE 350 or equivalent.
(Lecture-Problems 3 hours) Letter grade only (A-F).

554.4454. Avionics Systems (3)
Prerequisite: MAE 555.
Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification.
(Lecture-Problems 3 hours) Letter grade only (A-F).

563. Linear Finite Element Analysis (3)
Prerequisite: MAE 460A.
Finite element (FE) forms of differential equations. Isoparametric concepts. Dynamic response of damped elastic structures, modal and direct integration analysis. Automatic mesh generation via solid modeling using IDEAS, automatic adaptation to popular software such as: SINDA, NASTRAN, ANSYS, and ABAQUS. FE fluid flow and heat transfer analysis.
(Lecture-Problems 3 hours) Letter grade only (A-F).

565. Advanced Aerospace Structures (3)
Prerequisite: MAE 465 or consent of instructor.
Application of energy principles and finite element method to aerospace structural components, plates and shells without stiffeners, structural dynamics, material and geometric nonlinear problems. FEA for composite structures, application to simple wings, finite element modeling techniques, application of finite element computer programs.
(Lecture-Problems 3 hours) Letter grade only (A-F).
567. Advanced Mechanics of Deformable Bodies (3)
Prerequisites: MAE 373, 374, 471 or consent of instructor.
Analysis of stress and deflection in unsymmetrical bending, shear center for beams, curved beams. Stress concentration, deformation beyond the elastic limit. Energy methods, Castigliano's Theorem, Rayleigh-Ritz technique.
(Lecture-Problems 3 hours) Letter grade only (A-F).

568. Creep and Fatigue (3)
Prerequisites: MAE 322, 373, or consent of instructor.
Phenomena of creep and fatigue, effect on stress distribution in structural elements, buckling caused by creep, effects of space environment on fatigue; cumulative fatigue damage at normal and elevated temperatures.
(Lecture-Problems 3 hours) Letter grade only (A-F).

572. Structural Design Optimization (3)
Prerequisite: MAL 373 or consent of instructor.
Structural optimization using calculus of variations. Method of Lagrange multipliers, unconstrained and constrained optimization, fast rosenroy techniques, sequential approximation optimization, sensitivity calculations of structural response, variational sensitivity analysis, approximation techniques, optimal design of laminated composite materials etc.
(Lecture-Problems 3 hours) Letter grade only (A-F).

573. Modern Control of Dynamic Systems (3)
Prerequisite: MAE 476.
Advanced topics in analysis and design of modern control systems in mechanical engineering. Topics include state space, Riccati and Liapunov equations, Linear Quadratic Regulator (LQR), Kalman filter, etc. Optimization via calculus of variations, Pontryagin's minimum principle. Control of distributed parameter systems with applications to structural dynamics.
Letter grade only (A-F). (Lecture-problems 3 hours)

574.474. Computer-Aided Manufacturing (3)
Prerequisites: MAE 322, 490A.
(Lecture—problems 3 hours) Letter grade only (A-F).

576. Engineering Vibrations (3)
Prerequisite: MAE 376.
(Lecture—problems 3 hours) Letter grade only (A-F).

578. Haptic Systems for Virtual Reality and Teleoperation
Prerequisites: MAE 501, MAE 376 or 490B and 475 or equivalent.
The course introduces haptic systems, which involve virtual and teleoperated environments that are displayed through force and/or tactile feedback. Topics covered include: human haptic sensing and control, design of haptic interfaces, teleoperation, modelling of virtual environments, control and stability issues.
(Lecture—Problems 3 hours) Letter grade only (A-F).

579. Engineering Acoustics (3)
Prerequisites: MAE 376, 502.
Theory and application of acoustical principles to generation, transmission, measurement and control of sound.
(Lecture—Problems 3 hours) Letter grade only (A-F).

581. Space Vehicle Design (3)
Prerequisite: Graduate engineering standing or consent of instructor.
Space environments and their impact on spacecraft design. Space mission design. Payloads and communications. Integration of attitude determination and control, thermal, propulsion, configuration, telemetry, power, structures, and data handling subsystems.
(Lecture—Problems 3 hours) Letter grade only (A-F).

582. Rocket and Spacecraft Propulsion (3)
Prerequisite: Graduate engineering standing or consent of instructor.
(Lecture—Problems 3 hours) Letter grade only (A-F).

583. Astrodynamics (3)
Prerequisite: MAE 502.
(Lecture—problems 3 hours) Letter grade only (A-F).

585. Spacecraft Attitude Determination and Control (3)
Prerequisite: MAL 371 or equivalent. Rigid body dynamics. Control systems. Spacecraft attitude dynamics and control. Stabilization methods and maneuvers. Impact of flexible structures.
(Lecture—Problems 3 hours) Letter grade only (A-F).

590.490. Advanced Topics in Mechanical and Aerospace Engineering (3)
Prerequisite: Graduate engineering standing or consent of instructor.
Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.
(Lecture—problems 3 hours) Letter grade only (A-F).

595.495. Rapid Product Development (3)
Prerequisite: MAE 490A.
Creating different design proposals for a specified period. Manufacturing design models via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Quality control process via a 3-D scanner and data acquisition software. Product readiness for casting, mold flow analysis. Additional projects required from M.S. students.
(Lecture—problems 3 hours) Letter grade only (A-F).
612/512. Computer Aided Design in Mechanical Engineering (3)
Prerequisites: MAE 490A, 501, 592. (Master’s students register in MAE 512 or 612; Ph.D. students register in MAE 612).
Computer graphics in CAD/CAM. Includes: solid modeling, CAD/CAM systems, visualization, 3D modeling, and computer database management. Additional topics include design and modeling of products, product manufacturing processes, and computer-aided design in manufacturing. (Lectures: 3 hours) Letter grade only (A-F).

635/735. Computational Fluid Dynamics II (3)
Prerequisite: MAE 535.
Computational methods for solving Euler and Navier Stokes equations, implicit and explicit schemes, unstructured grids, artificial diffusion, multi-grid techniques, and convergence acceleration. Application to inviscid and viscous subsonic, transonic, and supersonic flows. Inverse problems and aerodynamic shape optimization. (Lectures: 3 hours) Letter grade only (A-F).

637. Advanced Fluid Dynamics II (3)
Prerequisites: MAE 431, 501, 537.
Transition to turbulent flow, wall bounded and free turbulent shear flows, numerical methods for turbulent flow, turbulence modeling. (Lectures: 3 hours) Letter grade only (A-F).

663/763. Nonlinear Optimized Structures (3)
Prerequisite: MAE 562, consent of instructor. (Master’s students register in MAE 663, Ph.D. students register in MAE 763.)
Analysis, optimization of frame with automatic mesh generation using I-DEAS, with popular software such as: STRUDL, NASTRAN etc. Generation, localization and optimization of complex structures. Sensitivity, buckling analysis etc. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lectures: 3 hours) Letter grade only (A-F).

683. Design of Composite Structures (3)
Prerequisite: MAE 522 or consent of instructor.

672. Stress Analysis in Design (3)
Prerequisite: MAE 567 or consent of instructor.

673. Theory of Elasticity and Plasticity (3)
Prerequisite: MAE 567.

678. Robust Control (3)
Prerequisites: MAE 476 (or an equivalent undergraduate course in classical control systems and state-space design methods), MAE 592 (or an equivalent course in linear algebra and matrix theory). Experience in basic programming and MATLAB are highly recommended.
The course introduces robust analysis and design for multivariable feedback control systems with uncertain dynamics or unknown parameters. Topics include: uncertainty modeling; robust stability; robust performance; mu synthesis; H-infinity control; and applications of linear matrix inequalities. (Lectures: 3 hours) Letter grade only (A-F).

690/790. Advanced Topics in Mechanical and Aerospace Engineering (3)
Prerequisite: Graduate engineering standing or consent of instructor.
Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the Schedule of Classes. Additional projects required for MAE 690. May be repeated for a maximum of 6 units with different topics. (Lectures: 3 hours) Letter grade only (A-F).

691. Directed Studies (1-3)
Study of information in mechanical and aerospace engineering research. (Lectures: 3 hours) Letter grade only (A-F).

697. Directed Research (1-6)
Prerequisite: Graduate standing in Mechanical and Aerospace Engineering.
Theoretical and experimental problems in mechanical and aerospace engineering requiring extensive research and analysis. Advanced research problem. Supervised by a faculty member. (Lectures: 6 hours) Letter grade only (A-F).

735/835. Computational Fluid Dynamics II (3)
Prerequisite: MAE 535.
Methods for solving Euler and Navier Stokes equations, implicit and explicit schemes, variable mesh generation and artificial diffusion, multi-grid techniques, and convergence acceleration. Unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows. Additional topics required for MAE 735. (Lectures: 3 hours) Letter grade only (A-F).

763/863. Nonlinear Optimized Structures (3)
Prerequisite: MAE 567.
Analysis, optimization of frame with automatic mesh generation using I-DEAS, with popular software such as: STRUDL, NASTRAN etc. Generation, localization and optimization of complex structures. Sensitivity, buckling analysis etc. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lectures: 3 hours) Letter grade only (A-F).

795. Advanced Directed Studies (4)
Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Advanced research problem. Supervised by a faculty member. (Lectures: 4 hours) Letter grade only (A-F).

2009/2010 CSULB Catalog • Mechanical and Aerospace Engineering • 559
797. Advanced Directed Research (4)
Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Exploration of theoretical and experimental (if applicable) engineering problems in greater depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report and a seminar. May be repeated to a maximum of 8 units. Letter grade only (A-F).

799. Doctoral Dissertation (4-12)
Prerequisite: Enrollment is limited to students formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics who have passed the preliminary examinations and research tool tests on completion of at least 45 units of coursework. A written dissertation proposal containing an outline of the research to be undertaken and references to relevant source material must be submitted. Only upon a positive recommendation may a student embark on a dissertation. Minimum of 4 units per semester. Letter grade only (A-F).

Kenmoeke (English), Ellen Klink (English); Julia Miller (Art), Lawrence Nolan (Philosophy), Nikha Lucia Serrano (Comparative World Literature), Martine van Elk (English), Lisa Vollendorf (Romanes, German, Russian Languages and Literatures)

Introduction
The Center for Medieval and Renaissance Studies sponsors activities that explore the complex culture of the Middle Ages and the Renaissance. It sponsors a regular lecture series featuring speakers from on and off campus. Occasionally, special seminars are held to commemorate a person, place, or event of significance from these periods; recent topics have included Richard III, Florence and Rome 1200-1600. The Sensual Culture of Venice, 1006 And After Thal, and La Fiaccesima Armada. The Center also sponsors courses on a wide range of medieval and Renaissance issues, supports faculty research both here and abroad, and is associated with most of the local and national societies relevant to research in these fields.

The Center has established an interdisciplinary program which offers students interested in these periods the opportunity to pursue a course of study leading to a Certificate in Medieval and Renaissance Studies. Courses which are used to meet the certificate requirements may be counted, where applicable, toward the General Education requirements, the major, and minor requirements.

Interested students should apply to directors or members of the supporting faculty for further information.

Minor in Medieval and Renaissance Studies (code HISUM04)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of the Middle Ages and the Renaissance. The Minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Interested students should contact the program's advisor prior to or during the first semester of taking classes towards the Minor.

The Minor consists of a minimum of 21 units selected in consultation with the program advisor in addition to demonstrated competence in a foreign language appropriate to the area of concentration. The 21 required units include: 12 units of core classes in History, Literature, and Art History, along with 9 electives chosen from the courses in those disciplines as well as from Music, Political Science, Philosophy, Religious Studies, RGLL, and Theatre.

Requirements
1. Six units from the following courses: HIST 316, 317, 322, 333.
2. Three units of an upper-division course in Literature: CWL 330A, 349†, 414, 420, 430, 431, 432, 440†; ENGL 369, 393, 393, 451, 452, 453, 461, 462, 463, 466, 469†, 489†, FREN 335, 470, 471, 472, 490†; GERM 389†, 415, 489†; GK 409†; ITAL 335, 414, 473, 490†; LAT 490†; SPAN 330†, 400, 438, 448†, 450, 490†, 493†;
3. Three units of an upper-division course in Art History: AH 408, 409, 410, 423, 424, 425, 426, 427, 490†, 498†;
4. Nine additional units from the courses listed above (without repeating the required core) and the following: AH 470A, 470B, HIST 316, 319, 334, 335, 331, 333, 351, 353, 408, 410, 431, 443, 450†, 493†; MUS 360, 400R, 409R, 410R; PHIL 413, 490†; POSC 360, 497†; RGR 450†; RIV 314, 331, 338, 471, 472, 490†; THEA 321, 490†.

Certificate in Medieval and Renaissance Studies (code CLSCT01)

Requirements
1. A bachelor's degree with an approved major. (Certificate may be completed prior to the completion of the B.A. requirement or while in the process of working toward an advanced degree).
2. Consultation and approval of the program with a faculty advisor.
3. Intermediate level language proficiency on the college level, including a course in medieval or Renaissance literature of the language. It is expected that the language will be Anglo-Saxon, French, German, Greek, Itallian, Latin, or Spanish, but with consent of the advisor another language may be substituted.
4. Twenty-four units selected from the following courses. Students should elect to concentrate in either the medieval or Renaissance period.
   A. Required courses (12 units): one of the following sequences for six units: HIST 316 and 317, 317 and 332, or 332 and 333. One of the following literature courses for three units: CWL 330A, 431, 432, 531, 532; ENGL 451, 452, 453, 552, 553, 554. One of the following Art History courses for three units: AH 408, 409, 410, 423, 424, 425, 426, 427, 508, 509, 510, 523, 524, 525, 526, 527.
C. Three units of directed research on a medieval or Renaissance topic in any of the following courses: AH 495, 496, CULT 499, ENGL 499, FREN 499, GERM 499, GK 499, HIST 498, ITAL 490, LAT 490, MUS 490, PHIL 499, POLS 499, RST 499, SPAN 499, THEA 498. Graduate courses: AH 555, 596, ENGL 596, 697, FREN 697, GERM 596, 697, HIST 685, 697, PHIL 697, POLS 599, 697, RST 697, SPAN 599, THEA 694.

†With an approved medieval or Renaissance topic; certain special studies topics may be repeated for credit with approval.

Program Office: HSB 108
Faculty: Captain Toby Humphries, MSG Daniel Johnson
Website: www.csulb.edu/org/armyrotc

Career Possibilities
United States Army Officer, part-time or full-time, with possible career fields in
• Aviation • Armor • Nurse Corps • Engineer • Finance • Military Intelligence • Infantry • Ordnance • Medical • Air
  Defense • Quartermaster • Field Artillery • Chemical • Signal • Transportation (Some of these, and other careers,
  require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The Army Reserve Officers Training Corps (Army ROTC) program offers leadership and management training to
CSULB students. This dynamic four-year program of instruction develops the mental and physical abilities of
students in preparation for positions of leadership with the military and civilian communities. Students
may enroll for academic elective credit without incurring any military service obligation. The curriculum includes
military leadership and management courses; courses which provide an awareness of the heritage of the U.S.
Military; the Armed Forces' role in national defense; professional military subjects; and military
ethics. The program is oriented towards preparing the student for a military career. Students desiring to attain a
highly sought-after commission as a Second Lieutenant in the U.S. Army must meet eligibility requirements and
complete the Military Science/Army ROTC (Reserve Officer Training Corps) Advanced Course. To be eligible for the
Commissioning Program, a student must be enrolled full time (12 units) at CSULB, have at least one and a half years
remaining as a university student, be physically qualified, complete the advanced course and graduate prior to
reaching their 21st birthday.

Financial Assistance
Many opportunities for financial assistance are available to students. Three areas of opportunities are: ROTC cadets
who sign a contract for Advanced Phase, students who earn an ROTC scholarship, and cadets who train with Reserve
or National Guard units. ROTC cadets who sign a contract to participate in ROTC receive a $300 - $500 a month
allowance. Highly competitive two-, three-, and four-year ROTC scholarships are also available. The scholarship
provides payment of full tuition, room and board, books and supplies in addition the $300 - $500 a month allowance for
the duration of the scholarship. Scholarship recipients can also elect to have their room and board costs paid (up to
$10,000), rather than a tuition payment. Students interested in scholarship competition should contact the Military
Science Program at the time of application to the university. Reserve or National Guard training provides two additional

sources of financial assistance: approximately $150 a month for one weekend drill and approximately $145 a month tuition
assistance from the Army Reserve or National Guard "Now GI Bill" benefits.

Equipment and Uniforms
All necessary equipment, uniforms and textbooks for participation in the Military Science/ROTC program are
furnished to the student by the United States Government free of charge. Title to this property, other than expendable items,
remains with the government. Students entering into active commissioned service after graduation are granted a special
$200 uniform allowance.

Four-Year Program
The four-year program curriculum is divided into two parts. The Basic Course is primarily for freshmen and sophomores,
and the Advanced Course is for junior and senior level students. In special cases, the Advanced Course is available to
students working towards graduate degrees.

Basic Course
The Basic Course is a one to two-year period where students may, without obligation, investigate the ROTC Program and
the military as a full- or part-time career. Students may enter and leave during any semester. The curriculum for the Basic Course is consists of the lower division courses listed below. To become an ROTC cadet during the Basic Course requires the student be registered for a Military Science class, completion of an ROTC enrollment form (obtained at the Military Science Department, HSB,
Room 108), and an interview with the ROTC Enrollment Officer. Because this course is for students to examine the
ROTC Program without obligation, participation in ROTC activities is encouraged but not mandatory. Advancement into
the Advanced Course is accomplished either by successfully completing the Basic Course classes, completing ROTC
Summer Basic Camp or completing any military basic training program.

ROTC Leaders Training Course
One method to qualify for the Advanced Course is to successfully complete the challenging 30-day ROTC Summer
Basic Camp. Students normally attend Basic Camp between their second and third academic years. It is important that
potential transfer students who plan to participate in the two-year ROTC program make their intentions known directly
to the Military Science Program no later than May of the year they plan to register at the university even though this
data may precede the date of their final acceptance by the university.

The government will provide a transportation allowance to and from Basic Camp and the student will also receive approximately $600 during the 30 days. All equipment, uniforms, room and medical care are furnished free while
at camp. No military obligation is incurred as a result of attendance. It is recommended though that the student be
committed to pursuing a career in the military either in an active or reserve capacity.
Basic Training

Outstanding students who have successfully served on active duty, regardless of the branch of service, are qualified to enter the Advanced Course. Also, students who have been, or are members of Reserve or National Guard units and have completed basic training are qualified for the Advanced Course. Students may be required to take certain lower division classes even after enrollment in the Advanced Course.

Leader Development/Assessment Course

The Advanced Course is a two-year period where ROTC cadets receive advanced leadership and management training. The cadets receive many hours of hands-on, practical leadership experiences to prepare them for a military career or a management position in the civilian sector. To become a cadet in the Advanced Course a student must complete the Basic Course, or ROTC Summer Basic Camp, or Basic Training. The cadet must also make a commitment to attend all required training activities and sign a contract to accept a commission in the United States Army. In return for the student’s commitment, the Military Science Department will provide $350 - $500 a month, classroom instruction, real leadership opportunities, and continuous feedback on each cadet’s leadership progress.

A 32-day summer training camp, between the two years of the Advanced Course, will be provided for assessing and developing each cadet’s leadership abilities. All equipment, uniforms, room, board, and medical care are furnished free while at this camp. The cadets will also receive pay at the rate of one-half of Second Lieutenant’s basic pay. Upon successful completion of the Advanced Course and graduation from the university, the cadet will be eligible to be commissioned as a Second Lieutenant in the United States Army.

Required Related General Education Subjects

1. Written Communications: (Category A) ENGL 100
2. Human Behavior: (Category D) POSC 100
3. Computer Literacy
4. Mathematical Reasoning: (Category B) MATH 103 or 110

Courses (MS)

LOWER DIVISION
(Open to all University students)

101. Foundations of Officiership (1)
Introduction to issues and competencies that is central to a commissioned officer’s responsibilities, including: the Army Profession; personal development; physical well-being; leadership; values and ethics.

ROTC cadets who sign up for this course must also register for MS 101L. Letter grade only (A-F).

101L. Leadership Laboratory (1)
Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: MS 101.
Assists students in transition from a civilian into a cadet. Exposure to Army values and selected military skills. Introduction to Army leadership techniques through basic leadership experiences and assessment.
Credit/No Credit grading only.

102. Basic Leadership (1)
Prerequisite: Corequisite: MS 101 or consent of instructor. Expands upon topics introduced in MS 101 by focusing on communications, leadership, and problem solving. Course also includes information about the organization of the Army, employment benefits, and work experience of Junior Officers. ROTC cadets who register for this course must also register for MS 102L. Letter grade only (A-F).

102L. Leadership Laboratory (1)
Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: MS 102.
Credit/No Credit grading only. (Activity 2 hours.)

201. Individual Leadership Studies (2)
Prerequisite: MS 101, 102 or concurrent enrollment in MS 102. Using principles of action, experiential and discovery learning, students face challenging physical and mental tasks, including: personal development, goal setting, communication, problem solving, decision making, leadership, teamwork, group processes, stress management, physical fitness and application of lessons to officerhip. ROTC cadets who register for this course must also register for MS 201L. Letter grade only (A-F).

201L. Leadership Laboratory (2)
Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: MS 201. Credit/No Credit grading only. (Activity 4 hours.)

202. Leadership and Teamwork (2)
Prerequisite: MS 201 or consent of instructor. Continuation of MS 201. Continues to employ the principles of action, experiential, and discovery learning. ROTC cadets who register for this course must also register for MS 202L. Letter grade only (A-F).

202L. Leadership Laboratory (2)
Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: MS 202.
Credit/No Credit grading only. (Activity 4 hours.)

UPPER DIVISION

301. Leadership and Problem Solving (3)
Prerequisite: MS 202 and consent of instructor. Enables students with no prior military or cadet experience to learn essential cadet knowledge and skills necessary for the integration into the cadre battalion and successful performance of key cadet tasks. Students are introduced to the Leadership Development Program.

ROTC cadets who register for this course must also register for laboratory in MS 301L. Letter grade only (A-F).

301L. Leadership Laboratory (1)
Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: MS 301.
Serves in leadership positions in the military chain of command at squad, platoon, and company levels. Develop and execute unit plans and orders, train other students in basic skill building, teamwork, execute small unit tactics, and prepare for Leadership Development and Assessment Course.
Credit/No Credit grading only.

302. Leadership and Ethics (3)
Prerequisite: MS 301 and consent of instructor. Continues the development of students as leaders in foundational areas of leadership, interpersonal communications, values and ethics. ROTC cadets who register for this course must also register for laboratory in MS 302L. Letter grade only (A-F).
302L. Leadership Laboratory (1)
Prerequisite: Accepted as a cadet in the Army ROTC Program;
Corequisite: MS 302.
Students serve in leadership positions in military chain of
command at squad, platoon and company levels. Develop and
execute unit plans and orders; train other students in basic skill
building, teamwork, execute small unit tactics, and prepare for the
Leadership Development and Assessment Course training and
evaluation.
Credit/No Credit grading only.

401. Leadership and Management (3)
Prerequisites: MS 302 and consent of instructor.
Begin the final transition from cadet to lieutenant. Focus on the
Army’s training management system, coordinating activities with
staff, and counseling skills.
ROTC cadets who register for this course must also register for
MS 401L. Letter grade only (A-F).

401L. Leadership Laboratory (2)
Prerequisite: Accepted as a cadet in the Army ROTC Program;
Corequisite: MS 402.
Credit/No Credit grading only. May be repeated to a maximum of 4
units. (Activity 4 hours.)

402. Officership (3)
Prerequisites: MS 302 and consent of instructor.
Complete the transition from cadet to Lieutenant. Examine unit ethical
climate and commander’s role as moral anchor of unit. Topics
include military law and leadership, Army organization, tactical and
strategic operations, administrative and logistical management.
Includes Leadership Development and Assessment Course
Capstone Exercise.
ROTC cadets who register for this course must also register for
MS 402L. Letter grade only (A-F).

402L. Leadership Laboratory (2)
Prerequisite: Accepted as a cadet in the Army ROTC Program;
Corequisite: MS 402.
Credit/No Credit grading only. May be repeated to a maximum of 4
units. (Activity 4 hours.)

411. U.S. Military History (3)
Evolution of the art of war with emphasis placed on the changing
natures of warfare as nations adjust to social, political, economic
and technological developments.
ROTC cadets who register for this course must also register for
MS 401L or 402L. Letter grade only (A-F).

497. Independent Studies (1-3)
Prerequisites: Consent of Program Director and prior approval of
topic.
Individual studies with faculty supervision in an area of Military
Science specialization.
Letter grade only (A-F). Limited to a maximum of 3 units per
semester. May be repeated to a maximum of 6 units.
MUSIC

BOB COLE CONSERVATORY OF MUSIC
College of the Arts

Director: John A. Carnahan
Conservatory Office: University Music Center (UMC), Room C306
Telephone: (562) 985-4781
Website: www.csulb.edu/music

Advisors:
Undergraduate: Leland Veil
Graduate Advisor: Leland Veil
Credentialed Advisor: Deborah Mitchell

Applied Music:
Contact the Bob Cole Conservatory of Music for a complete list of applied faculty or visit the conservatory's website at www.csulb.edu/music

Administrative Coordinator: Debi Scroggins

Students desiring information should contact the conservatory office for referral to one of the faculty advisors: Undergraduate Advisor, Music Education (credential) Advisor or Graduate Advisor.

Career Possibilities
Performer • Choral Director • Instrumental Conductor • Music Teacher • Music Director • Composer/Arranger • Copyist • Musical Instrument Sales Representative • Music Librarian • Music Critic • Music Editor • Performing Arts Manager (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The undergraduate music curriculum provides programs for the student: who wishes to become a professional musician; who wishes to enter the teaching profession; for whom music is part of a general education; or who is intending to pursue an advanced degree in music.

All entering freshmen and transfer students are required to take a theory placement test and performance audition which are regularly administered in Spring and late Fall and are also available at the beginning of registration week each semester. Each entering student should inquire at the Music Office for dates and details. In addition, new students are required to meet with the advisor prior to registration.

Each music major must declare a specialization in some performance area (voice, piano, or other orchestral instrument), develop ability in this area, appear in student recitals, and demonstrate progress to the satisfaction of the faculty. NOTE: Due to admissions limitations, the conservatory does not provide instruction in acoustic guitar. A limited number of jazz guitar students will be admitted each year.

All undergraduate music majors are required to pass a screening examination in applied music on their primary instrument or voice before advancement to upper division applied study. This Upper Division Screening Exam (UDSE) will cover repertoire that is determined by each applied area. Specific information regarding this test may be obtained in the music office or from the advisor. The exam will be administered at a regular jury after four (4) semesters of applied study, however transfer students may elect to take it earlier. Failure to pass the exam will result in automatic suspension of all music conservatory scholarship aid and continued applied study.

Each student must pass a piano proficiency examination regardless of the performance area (piano majors excepted). Detailed information may be obtained in the Conservatory Office.

Participation in a major performance organization (MUS 100/300) is required of each music major each semester. The performance ensemble must be approved by the conservatory. Undergraduates are also required to register for Music Forum (MUS 11) every semester in residence to a total of 5 units (does not count toward degree) and MUS 210A, 210B.

The Bob Cole Conservatory of Music offers graduate study leading to the Master of Arts or Master of Music degrees. The candidate should arrange for counseling with the graduate advisor through the conservatory office. Special placement examinations or auditions are required to validate qualifications for graduate work in music.

All general requirements of the University must be met in addition to conservatory requirements listed below. California State University, Long Beach is an accredited institutional member of the National Association of Schools of Music (NASM), 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

Undergraduate Programs

Bachelor of Arts in Music (code MUS_BA01) (120 units)

A non-performance-focused degree that sets music within the broader context of interdisciplinary studies, diversity, and contemporary thought. This humanistic degree has a basic music core, upper-division elective music units focused on popular, world, and film music as well as art music, an individualized track of non-music elective studies that focuses in at least two other disciplines (one major area and one or more minor areas), and a final research project culminating in a comprehensive senior paper.

Audition required prior to entrance for majors to assess performance standard. All applicants to the program must...
meet with the BA advisor prior to, or at the beginning of, the first semester of residence to review the statement of purpose and to draw up an individualized study plan.

Requirements
Music Theory: (16 units)
- MUS 142A/B Harmony I, II (3/3)
- MUS 141A/B Music Analysis I, II (2/2)
- MUS 341 Form and Analysis (3)
Select one course from:
- MUS 372A Jazz Theory I (2)
- MUS 342 Materials of Modern Music (3)
Music History/Literature (18 units, 6 double-counted in GE)
- *MUS 100 The Listener's Approach (3)
- MUS 290 Popular Music in America (3)
- *MUS 490 Music Cultures of the World (3)
Select three courses from:
- MUS 160 Baroque/Classical Music (3)
- MUS 300 Medieval/Renaissance Music (3)
- MUS 374 19th-20th-Century Music (3)
- MUS 363I Music and the Visual Arts (3)
- MUS 364I Music and the Temporal Arts (3)
Performance Ensembles: 6 units required
- MUS 100, 200, 201 and/or 300, 400, 401 (ensemble must meet Conservatory approval)
Applied Music: 6 units required
- MUS 129/329 or X129/329 and completion of Upper-Division Screening Exam (UDSE)

Piano Proficiency:
Successful completion of the piano proficiency exam (equivalent to MUS 226B)

Music Forum:
- MUS 11 (each semester in residence for total of 5 units)
- MUS 210A Writing About Music (1)
- MUS 210B Basic Music Technology
Music History electives (upper division): select 9 units from:
- MUS 303 Jazz, An American Music (3)
- MUS 468I Music and Film (3)
- MUS 467 Studies in Music and Gender (3)
- MUS 471 Studies in Ethnomusicology (3) (may be repeated once for maximum of 6 units)
- MUS 363I Music and the Visual Arts (3)
- MUS 364I Music and the Temporal Arts (3) (if not taken in Music History 18-unit core)

Interdisciplinary Cultural Studies: 12 units, 6 of which must be upper division
- Select 6 units from one major discipline area and an additional 6 units in one or more areas. These areas can be, but are not limited to:
  - Anthropology, Black Studies, Asian and Asian-American Studies, Comparative World Literature and Classics, Film Studies, Geography, History, International Studies, Journalism, Philosophy, Political Science, Religious Studies, Romance, German, Russian Languages, and Women’s Studies

Final Exit Requirement: 4 units
- MUS 466 Research Methods (3) or D Senior Thesis or Project (1) (requires faculty adviser approval)

Bachelor of Music
The Bachelor of Music degree is a high-unit professional degree and requires 132 units for graduation. Music units include the core requirements and one area of specialization called an option. Options include instrumental music (Music Education), Choral-Vocal Music (Music Education), Performance (including concentrations in Winds, Strings, Piano, Percussion, Voice, Opera and Jazz Studies), Composition, and Music History and Literature. Admission to the option is determined by audition and approval of the director of the conservatory. Application for admission to the option should be submitted no later than the beginning of the junior year, and significant progress must be demonstrated during the remaining years.

Music Education: Instrumental Music and Choral-Vocal Music Options – Core Requirements

1. Music History and Literature: MUS 190 (section by advisement, double-counts as GE - C1); 190A, 360, 361, 490 (section by advisement, double-counts as GE - C1); 361I
3. Major Performance Organization: MUS 100/300, one unit each semester in residence
4. Music Forum: MUS 11 each semester in residence to a total of 5 units (does not count toward degree units), MUS 210A, 210B
5. Senior Recital: MUS 423A
6. Keyboard Proficiency: successful completion of conservatory's piano proficiency examination (equivalent to MUS 226B)
7. Chamber Music: Select two units from the following: MUS 200/400 and/or 201/401

Option in Instrumental Music (code MUS BM04) (132 units)
Completion of this option meets the subject matter competence requirement for the Single Subject Preliminary Credential in Music (code 170). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Music teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as part-time or part-time student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.co.cslb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the conservatory’s Music Education Advisor early to plan their program.

The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

2009/2010 CSULB Catalog • Music • 567
Option in Choral-Vocal Music (code MUS_BM01) (132 units)

Completion of this option meets the subject matter competence requirement for the Single Subject Preliminary Credential in Music (code 170). In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Music teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate students. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.csudh.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the Conservatory’s Music Education Advisor early to plan their program.

The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements
MUS 129/329 or X129/X329 (must be taken for 8 units); 122A, 326, 327, 382A, 382B, 386, 419, 425, 480, 481, 485. Select 5 additional courses from MUS 125A, B, C, D, E and F.

Option in Performance (code MUS_BM05) (132 units)

Requirements
Core: (MUS 129, 229/429, or X129, X229/X429) required each semester in residence with an achievement of senior level on major performance medium. Junior Recital (MUS 323) and Senior Recital (MUS 423A) is required of all students.

String Instruments: MUS 200/400 or 201/401 (4 units); MUS 326; choose six units from: 428, 460, 467, 471, 478 and 493.

Wind Instruments: MUS 200/400 or 201/401 (4 units, 2 of which must be either woodwind or brass chamber music); MUS 326, 224 or 424 (4 units); choose six units from: 428, 460, 467, 471, 478 and 493.

Percussion: MUS 200/400 or 201/401 (4 units, 2 of which must be percussion ensemble); 326, choose six units from: 428, 460, 467, 471, 478 and 493.

Voice: MUS 273A, 273B, 273C, 326, 426, and 434A or 434B; choose one class from 428, 460, 467, 469, and 471; Choose an additional two units from MUS 436, 434A or 434B. Completion of Conservatory of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

Opera: MUS 273A, 273B, 273C, 326, 436, 473, and THEA 262 or THEA 111A; two units of MUS 330 or 331 required as part of eight-unit activity requirement; choose two courses from the following: MUS 469, 3-unit theatre elective, 2-unit dance elective (DANC 111A or 113A).

Completion of Conservatory of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

Jazz Studies: MUS 200/201/400/401 (4 units); 271, 371, 372A-B, 390, 416, 474A; Jazz Piano Proficiency: successful completion of conservatory’s Jazz piano proficiency examination (equivalent to MUS 221B); choose 4 units by advisement from the following: 370, 411, 417, 442, 455, 456, 474B and/or 497D.

Option in Composition (code MUS_BM02) (132 units)

Requirements
MUS 129 or 129X to be taken each semester in residence until successful completion of the Upper-Division Screening Examination in applied music (a minimum of 4 units is required); MUS 244A-B, 344 (must be taken concurrently with 322X), 444 (must be taken concurrently with 322X), 422X, and 24 units to be chosen under advisement as follows: 21 units to be selected from MUS 271, 329X (may be repeated multiple times), 370, 371, 372, 411, 441, 442, 443, 444, 446, 455, 456, 457, 460, 495, 495F, 497B-E, and THEA 449 (at least 3 of the 21 units must be selected from MUS 370, 455, 456 or 457); and three units to be selected from MUS 200B, 326, 393, 400B, 415, 422, 425, and 474.
Option in History and Literature (code MUS_BM03) (132 units)

Requirements
Completion of the Bob Cole Conservatory of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German, or Italian). MUS 129 or 120X to be taken each semester in residence until successful completion of the Upper-Division Screening Examination in applied music (a minimum of 4 units is required). MUS 496 (Research Methods), 423C. Select 6 units from: MUS 363I, 364I, 393, 468I. Select 15 units from: MUS 428, 441, 460, 467, 469, 471 (may be repeated up to 6 units), 478, 492A, 492B, 493 (may be repeated up to 6 units), 400R, 400S (College Music may be repeated up to 3 units). Select 3 units of upper division coursework outside music, under advisement, to be related to Senior Thesis topic or include foreign language literature classes.

Minor in Music (code MUS_UM01)

Requirements
A minimum of 18 units, 9 of which must be upper division (300- and 400-level courses). Specific courses are required. A degree plan must be prepared in conference with the conservatory undergraduate advisor prior to beginning this program.

Graduate Programs

Master of Arts in Music (code MUS_MA01)
The Master of Arts degree in Music provides academic concentrations in Musicology, Music Theory, and Music Education.

Prerequisites
1. A Bachelor of Arts degree with a major in music, a Bachelor of Music degree, or a bachelor’s degree with a minimum of 24 units of upper division courses in music comparable to those required of a major in music at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Conservatory of Music graduate advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Arts in music program;
3. All applicants are required to complete the Cole Conservatory Graduate Placement Examination before they register for courses applicable to the Master of Arts degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree.) Applicants for all options of the M.A. degree must present samples of their scholarly writings in music for review by the Graduate faculty. Applicants for the musicology concentration must show evidence of reading and translation ability in one foreign language (French or German);
4. A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Arts program may petition for a special review from the Conservatory graduate committee.

Advancement to Candidacy
The prerequisites for advancement to candidacy are the same as those for the Master of Music.

Requirements
1. Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
2. Core Courses required by all Master of Arts students. 13-15 units; MUS 690 (should be taken the first time it is offered during the student’s residency); MUS 541: one course from MUS 561, 562, 563, 564, 565; MUS 668 (for 4-6 units, dependent upon concentration).
3. Additional courses for Musicology concentration: 3 units from MUS 561, 562, 563, 564, 565 (other than one taken in core); 6 units selected from MUS 561, 562, 563, 564, 565, 566, 569, 571, 576, 578, 592, 593 (not taken in core); 6 units of music electives (students in this concentration are strongly encouraged to select theory as well as performance classes, especially College Musician and New Music Ensemble). Thesis is taken for 6 units in this concentration.
4. Additional courses for Music Theory concentration: MUS 540: 6 units from MUS 541 (may be repeated), 640 (may be repeated); 6 units of electives (students in this concentration are strongly encouraged to select additional history, composition, and performance classes, especially College Musician and College Music). Thesis is taken for 6 units in this concentration.
5. Additional courses for Music Education Concentration: MUS 561, 568 or EDP 400 or 418; 4 units chosen from MUS 526, 527, 568, 582, 583, 587, 594, 596, 690; 6-7 units of electives (students in this concentration are encouraged to select performance and conducting classes). Thesis is taken for 6-8 units in this concentration, dependent upon project.
6. An oral defense of the thesis, recital, or project (MUS 096).

Master of Music Degree (code MUS_MM01)
The Master of Music degree program provides professional concentrations in Composition, Conducting-Instrumental, Conducting-Choral, Jazz Studies, Opera Performance and Instrumental/Vocal Performance.

Prerequisites
1. A Bachelor of Music degree, or a Bachelor of Arts degree with a major in Music or a bachelor’s degree, from an accredited institution, with a minimum of 24 upper division units of music comparable to those required at this University.

2009/2010 CSULB Catalog • Music • 569
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Conservatory of Music graduate advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow the same procedures when making application to the Master of Music in music program;

3. All applicants are required to complete the Cole Conservatory Graduate Placement Examination before they register for courses applicable to the Master of Music degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree);

4. Criteria according to concentration:
   A. Composition: submission and approval of a portfolio of representative original scores and evidence of baccalaureate-level competency as required in the Bachelor of Music Composition Option;
   B. Conducting: successful completion of a conducting examination and approval by the conducting faculty;
   C. Performance: Theory; Performance-Opera; Jazz Studies; and Instrumental/Vocal: an audition both at a performance level and with a repertoire on an instrument or in voice acceptable to the faculty of the specific performance medium.

5. A GPA of 3.0 or better in upper division Music courses. Students who do not meet the 3.0 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Music program may petition for a special review from the Conservatory Graduate Advisory Council.

Advancement to Candidacy

1. Satisfy all the general University requirements, including fulfillment of the Graduation Writing Assessment Requirement (GWAR);

2. Remove all undergraduate deficiencies, which were determined by this Conservatory Graduate Placement Examination and/or the Dean of the College of the Arts;

3. Pass the Cole Conservatory Qualifying Examinations;

4. Submit an approved project or thesis proposal, and a graduate degree program approved by the student's Thesis Committee, the Graduate Advisor, Conservatory Director, and the Dean of the College of the Arts;

5. GPA of 3.0 or higher.

Requirements

1. General requirements for all majors: Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);

2. Core curriculum (13 units) MUS 541; one course from MUS 561, 562, 563, 564, 565, 566 (MUS 513 - Jazz Studies concentration only); MUS 690 (should be taken the first time it is offered during student's residency): MUS 698.

3. An oral defense of the thesis, recital, or project (MUS 698).

Master of Music Concentrations

Composition: MUS 544 and MUS 545; 2 units of MUS 529X or 629X (taken concurrently with MUS 544 and MUS 545); 3 units selected from MUS 555, 556, 557. 6 units selected under advisement from MUS 510, 511, 512, 514, 620, 522, 525, 529X, 540, 543, 545, 555, 556, 557, 597, and 640. 2 units of electives selected under advisement.

Conducting – Instrumental: 2 units of MUS 500, 600, or 601; 4 units of 520W or 620W; select by advisement two courses from MUS 520, 525, 680; 5 – 6 units of electives selected by advisement.

Conducting – Choral: 2 units of MUS 500, 600 or 601; 4 units of 520W or 620W; 519 (must be taken twice); 573, 575; 4 units of music electives by advisement.

Jazz Studies: MUS 510, 512, 514, 601, 2 units; 7 units selected by advisement from MUS 514, 515, 517, 529Y, 629, 543, 552, 587, 587 and/or 597A/D.

Opera Performance: 4 units for MUS 529Q or 629Q; 2 units of MUS 530, 532, 536, 573, THEA 490; and 2 units of electives chosen by advisement. Students in this concentration are strongly encouraged to take MUS 569.

Instrumental Performance: 4 units of MUS 500, 530, 600 or 601; 4 units of MUS 529 or 629 (section by advisement).

Keyboard Specialization: 4 units of MUS 509A-B; 5 units of electives selected by advisement (MUS 577A-B, 600G, 600U strongly encouraged). Other instrumental specializations: 9 units of electives chosen by advisement.

Vocal Performance: 2 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement); MUS 573, choose 4 units from MUS 526, 534A, 534B under advisement; 5 units of electives chosen by advisement.

Teaching Credentials

Students seeking a degree in Music Education refer to the instrumental Music and Choral-Vocal Music options under B.M. degree. All students entering the credential program after August 31, 2003 will be following the SB2047 credential program and should consult the Single Subject Credential Program requirements in this catalog. For further information consult with the Conservatory credential advisor.

Music Performance

Opportunities to participate in various instrumental and vocal ensembles are available to all students regardless of major. Before enrolling in a performing group, students should apply to the director of the organization in which they wish to participate. Music performance courses may be repeated; up to 8 units of credit in MUS 100 or 300 may be counted toward a bachelor's degree. Simultaneous enrollment in more than one organization is permitted.

Courses (MUS)

PREBACCALAUREATE

11. Music Forum (1)

Documented attendance at minimum of 10 concerts and conservatory forum events during term. Units not counted toward degree totals. Not taken the same term as MUS 210A or B or MUS 423.

Credit/No Credit grading only. Required each semester in residence to a maximum of five units in different semesters.
130. Opera (1)
Prerequisites: Consent of instructor.
Performance of excerpts and complete works for lyric theatre; solo and ensemble coaching; intensive language and dictation training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costume, set construction.
(3 hrs or more lab)

131. Music Theater (1)
Prerequisite: Consent of instructor.
Performance of musical theater works and operas. Additional areas include stage management, scheduling, costume, and set construction.
May be repeated to maximum of 4 units, only 2 of which may count toward degree. (2 hrs reh.)

140. Basic Music Theory (2)
Notation and reading of music. Written, aural, and performance experience with scales, intervals, chords, and melodies. Provides essential background for more advanced courses in music theory. Course fee may be required.

141A. musicianship I (2)
Corequisite: MUS 142A.
Study of basic skills in music reading, ear training, sight-singing, melodic and harmonic dictation. Computer assisted instruction is available.
Course fee may be required.

141B. musicianship II (2)
Prerequisite: MUS 141A or satisfactory score on theory placement test. Corequisite: MUS 142B.
Study of skills in music reading, ear training, sight-singing, and melodic and harmonic dictation through modulatory and chromatic harmony. Computer assisted instruction is available.
Course fee may be required.

142A. Harmony I (3)
Corequisite: MUS 141A.
Beginning principles of part writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

142B. Harmony II (3)
Prerequisites: MUS 141A & 142A or satisfactory score on theory placement test. Corequisite: MUS 141B.
Principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

160. History of Music: Baroque/Classic (3)
Prerequisite: MUS 190.
Chronological survey of music and musical styles from 1600 to 1750 with selected readings, recordings, and scores for in-depth study. Priority for music majors and minors, but open to others who can read music.
Letter grade only (A-F).

180. Exploring Music (3)
Fundamentals of music and essentials of music listening. Basic performance skills in singing and playing music. Not open for credit to music majors.
Letter grade only (A-F).

190. Listener’s Approach to Music (3)
Prerequisites or corequisites: ENGL 100 or another General Education Foundation course.
Non-technical course open to all students. Materials, forms and styles of music with extensive listening.

2009/2010 CSULB Catalog • Music • 571
200. Chamber Music (1)
Prerequisite: Consent of instructor.
May be repeated to maximum of 8 units. (2 hrs. or more rehearsal)
A. Brass Ensemble
B. New Music Ensemble
C. String Ensemble
D. University String Quartet
E. University Wind Quintet
F. University Brass Quintet
G. Piano Ensemble
H. Vocal Jazz Ensemble II
J. Jazz Combos
K. Performance
L. Brass Chamber Music
M. Percussion Ensemble
N. Steel Drum Orchestra
O. Woodwind Chamber Music
P. String Chamber Music
Q. Women's Chorus
R. Collegium-Vocal
S. Collegium-Instrumental
T. Saxophone Ensemble
U. Directed Accompanying
V. Studio Orchestra
X. World Percussion Group
Y. World/Tradicional Music Performance
Z. University Percussion Quartet

201. Jazz Ensemble (1)
Prerequisite: Consent of instructor.
May be repeated for maximum of 8 units with different topics in same semester. (3 hrs. or more rehearsal)
A. Jazz Ensemble I
B. Jazz Ensemble II
D. Vocal Jazz Ensemble I

210A. Writing About Music (1)
Basics of research and writing skills unique to the study of music. Includes introduction to music library resources, internet research and music criticism.
Credit/No Credit grading only.

210B. Introduction to Basic Music Technology (1)
Introduction to basic music technology including files types, compression, digital audio, recording, sequencers, and notation programs.
Credit/No Credit grading only.

220A-B. Class Piano (1-1)
Continuation of 120A-B.
(2 hours laboratory)

221A. Class Jazz Piano I (1)
Prerequisite: Successful completion of conservatory's keyboard proficiency exam.
Basic jazz keyboard skills including realization of jazz harmony and progressions with idiomatic chord voicings.
Letter grade only (A-F). (2 hours lab)

221B. Class Jazz Piano II (1)
Prerequisite: MUS 221A or consent of instructor.
Advanced keyboard realization of jazz harmony, performing idiomatic chord voicings and chord progressions performed with trombone and by memory.
Letter grade only (A-F). (2 hours lab)

224. Orchestral Literature; Performance and Styles (1)
Prerequisite: Consent of instructor.
Performance of standard orchestral repertoire in instrumental sectionals for Brass and/or Woodwinds or Strings.
Letter grade only (A-F). Repeatable to 8 units in different semesters. (2 hrs. rehearsal)

229. Individual Instruction for the Music Major (2)
Open to performance majors only.
Private lessons in major performance medium. Application must be made to Director of the Bob Cole Conservatory of Music during semester prior to registration. Registration subject to conservatory's approval.
May be repeated to maximum of 8 units.
A. Baritone/Tuba
B. French Horn
C. Trombone
D. Trumpet
E. Harpsichord
F. Organ
G. Piano
J. Percussion
K. Double Bass
L. Cello
M. Viola
N. Violin
O. Guitar
P. Harp
Q. Voice
R. Bassoon
S. Clarinet
T. Flute
U. Oboe
V. Saxophone

240. Advanced Musicianship (2)
Prerequisites: MUS 141B and 142B or satisfactory score on theory placement exam.
Study of advanced skills in ear training and sight singing.
Letter grade only (A-F). Course fee may be required.

241. Counterpoint (3)
Prerequisites: MUS 141B and 142B.
Analysis and writing of canons, two-part inventions, and fugues.

244A. Composition Workshop I (2)
Prerequisite: MUS 142A and consent of instructor.
Survey of contemporary techniques in composition, music notation and contemporary literature. Short compositions in workshop setting for beginning composers.
Letter grade only (A-F).

244B. Composition Workshop II (2)
Prerequisites: MUS 244A and consent of instructor.
Survey of contemporary techniques in composition, music notation and contemporary literature. Short compositions in workshop setting for beginning composers.
Letter grade only (A-F).

271. Improvisation Techniques I (2)
Basic techniques in improvisation, beginning with simple question and answer phrases and progressing to extended solos. Detailed and applied knowledge of chord progressions.
(1 hr. lab, 2 hrs. lab)
273A. Diction for Singers (2)
Prerequisite: Consent of instructor.
Focus on IPA, International Phonetic Alphabet, and its application in English and Italian. Repertoire focuses on correct pronunciation of art song, choral repertoire, and opera arias.
Letter grade only (A-F).

273B. French Diction for Singers (1)
Prerequisite: MUS 273A.
Focus on mastering application of International Phonetic Alphabet with phonetic trans literation skills to French language. Content focuses on correct pronunciation of art song, choral repertoire, and opera arias.
Letter grade only (A-F).

273C. German Diction for Singers (1)
Prerequisite: MUS 273A.
Focus on mastering application of International Phonetic Alphabet with phonetic trans literation skills to German language. Content focuses on correct pronunciation of art song, choral repertoire, and opera arias.
Letter grade only (A-F).

277. Keyboard Skills (2)
Open to Music majors only.
Development of basic technical skills at the piano, including sight reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.
Not open for credit to students with credit in MUS 277A.

290. Popular Music in America (3)
Prerequisite: Completion of GE Foundation requirements.
Artistic and socio-economic influences on popular music in America from 1840 to present. Special consideration of impact on "rock" music of various cultures and ethnic groups within U.S.

UPPER DIVISION

300. Major Performance Organization (1)
Prerequisite: Consent of instructor.
May be repeated to maximum of 8 units. (3-5 hrs reh.)
A. Concert Band
B. Symphonic Band
C. Wind Symphony
E. Forty-Niner Chorus
F. University Choir
G. Chamber Choir
J. Symphony Orchestra

323. Junior Recital (1)
Prerequisite: MUS 241.
Recital of standard literature for solo instrument or voice in performance option of Bachelor of Music degree. Enrollment restricted to music majors passing conservatory's qualifying examination.

326. Conducting (2)
Prerequisites: Consent of instructor.
Introduction to principles and techniques of conducting and ensemble organization. Study and interpretation of instrumental and choral repertoire using class as laboratory ensemble.
Letter grade only (A-F). (1 hour lecture, 2 hour lab).

327. Choral Organization and Rehearsal Techniques (2)
Rehearsal techniques for the choral musician as well as study of audition techniques, choral tone development, diction, and score preparation as well as organization and management of choral programs.

329. Individual Instruction for Music Majors (1)
Prerequisite: Successful completion of Upper Division Screening Exam on applied instrument or voice.
Open to music majors only. Private lessons in major performance medium. Application must be made to Director of the Bob Cole Conservatory of Music during semester prior to registration. Registration subject to conservatory's approval.
May be repeated to maximum of 10 units.
A. Baritone/Horn
B. French Horn
C. Trombone
D. Trumpet
E. Harpsichord
F. Organ
G. Piano
J. Percussion
K. Double Bass
L. Cello
M. Viola
N. Violin
O. Guitar
P. Harp
Q. Voice
R. Bassoon
S. Clarinet
T. Flute
U. Oboe
V. Saxophone
W. Conducting
X. Composition

330. Opera (1)
Prerequisites: Consent of instructor.
Performance of excerpts and complete works for lyric theatre: solo and ensemble coaching; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction.
May be repeated to maximum of 4 units, only 2 of which may count toward degree. (3 hrs or more reh.)

331. Music Theater (1)
Prerequisite: Consent of Instructor.
Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction.
May be repeated to maximum of 4 units, only 2 of which may count toward degree. (2 hrs reh.)

332. Opera Coaching (1)
Prerequisite: Consent of instructor. Corequisite: MUS 330.
One-on-one and small group coaching for opera majors.
Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (3-5 hrs reh.)

341. Musical Form and Analysis (3)
Prerequisites: MUS 241 or consent of instructor.
Intensive analysis of the historical development of form in tonal music from the early Baroque through the early 20th century.

342. Materials of Modern Music (3)
Prerequisite: MUS 341.
Continuation of intensive analysis of representative compositions of 20th Century with emphasis on writing in selected 20th Century styles.
344. Composition (2)
Prerequisites: MUS 244A B; Corequisite MUS 320X.
Further exploration of contemporary techniques in composition, music aesthetics and contemporary literature.
Not open for credit to students with credit in MUS 344A. Letter grade only (A-F).

360. History of Music: Medieval/Renaissance (3)
Prerequisites: MUS 190.
Chronological survey of music and musical readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music.
Letter grade only (A-F).

363L. Music and the Visual Arts (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 150 or ART 110.
Explores interrelationships between visual arts and music in Western culture by comparing artistic methodologies employed by important visual artists to those employed by important composers of art music from 10th through 20th Centuries.

364L. Music and the Temporal Arts (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing, and one of the following courses: MUS 150 or ART 110.
Study of interrelationships of temporal arts (works of poets, writers, choreographers, and playwrights) and music of important composers of 10th through 20th Centuries.

370. Introduction to Music Technology (3)
Introduction to principles of sound recording, sound production, sound reinforcement, MIDI, and electronic music.

371. Improvisation Techniques II (2)
Continuation of MUS 271.
(1 hr lec, 2 hrs lab)

372A. Jazz Theory I (2)
Prerequisites: MUS 142B or consent of instructor.
Jazz notation, chord progressions, chord voicing, voice leading, jazz harmonization, chord scale relationships, functional and non-functional harmony, and form.
Not open for credit to students with credit in MUS 372. Letter grade only (A-F).

372B. Jazz Theory II (2)
Prerequisites: MUS 372A or consent of instructor.
Analysis of music by jazz masters such as Thad Jones, Bob Brookmeyer, Bob Mintzer, Thelonious Monk, Duke Ellington, and John Coltrane. Includes introduction to many great improvisers through analysis of solo transcription and composition in representative styles.
Letter grade only (A-F).

374. History of Music: Nineteenth/ Twentieth Centuries (3)
Prerequisites: MUS 150, 150B or consent of instructor.
Chronological survey of music and musical styles from 1800 to present, with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music.
Letter grade only (A-F).

382A. Instrumental Ensemble Lab (3)
Prerequisite: Three instrumental methods courses from MUS 125 series.
Examination of organizational procedures for beginning/intermediate and intermediate/advanced ensembles. Performance in secondary instruments is required.

382B. Beginning Jazz Ensemble Lab (1)
Examination of organizational and instructional techniques relating to beginning jazz ensemble performance, as well as performance on secondary instruments and conducting ensemble class sessions. (1 hr lab)

385. Children's Music (3)
Prerequisite: MUS 160.
Introduction to general, vocal, and instrumental musical experiences appropriate for children in grades K-6. Includes participation in singing/listening activities and experience using simple melodic, rhythmic, and harmonic instruments appropriate to age and developmental levels of children. Intended for Liberal Studies majors. Others by consent of instructor.

386. Introduction to Music Education (3)
Prerequisite: MUS 160.
Provides philosophical and pedagogical theory required for design and execution of appropriate music instructional programs at general classroom, middle school, and secondary levels. Includes MIDI, sequencing, and tutorial/managerial software in music classroom/computer lab setting.
Not open for credit to students with credit in MUS 286. Letter grade only (A-F).

393. Jazz, An American Music (3)
Prerequisite: Completion of 13 unit General Education Foundation requirement and upper division standing.
Course presents development of various musical styles, forms, improvisations, significant musical concepts and major figures in past, present and future of jazz, an American music.

400. Chamber Music (1)
Prerequisite: Consent of instructor.
May be repeated to maximum of 8 units. (2 hrs rehearsal)
A. Brass Ensemble
B. Wind Ensemble
C. String Ensemble
D. University String Quartet
E. University Wind Quintet
F. University Brass Quintet
G. Piano Ensemble
H. Vocal Jazz Ensemble II
J. Jazz Combos
K. Performance
L. Brass Chamber Music
M. Percussion Ensemble
N. Steel Drum Orchestra
O. Woodwind Chamber Music
P. String Chamber Music
Q. Women's Chorus
R. Collegium Vocal
S. Collegium Instrumental
T. Saxophone Ensemble
U. Directed Accompanying
V. Studio Orchestra
X. World Percussion Group
Y. World/Traditional Music Performance
Z. University Percussion Quartet

491. Jazz Ensemble (1)
Prerequisite: Consent of instructor.
May be repeated for maximum of 8 units with different topics in same semester. (3 hours or more rehearsal)
A. Jazz Ensemble I
B. Jazz Ensemble II
D. Vocal Jazz Ensemble I

411/511. Film Scoring (3)
Prerequisites: MUS 372, 474, or consent of instructor.
Review development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for film.
films. Includes film mechanics and emotional and psychological requirements of music underscoring. Students create original music for film cues.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
414.514. Techniques for the Jazz Vocalist (2)
Basic stylistic requirements for solo singing in the jazz idiom. Includes analysis of established jazz singers and styles, vocal production for a jazz sound, microphone technique, repertoire, transposition, and lyric interpretation.
Letter grade only (A-F).
415.515. Advanced Concepts in Jazz Theory (3)
Prerequisites: MUS 372, 393, 474, or consent of instructor.
Reviews development of musical styles, forms, genres, significant musical concepts and problems. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study will include detailed analysis of major modern jazz artists.
Letter grade only (A-F).
416.516. Jazz Pedagogy (2)
Prerequisites: MUS 271 or consent of instructor.
Organization and management of school jazz programs, addressing rehearsal techniques, improvisation, repertoire, and conducting.
Letter grade only (A-F).
417.517. Business of Music (2)
Overview of business and artistic process of music industry. Includes popular music, music and media, operation of retail music stores, and concert music. Also includes recent changes in digital recording, broadcasting technology, copyright law, and legal issues.
Letter grade only (A-F).
419.519. Choral Master Class (1)
Prerequisites: Consent of instructor.
Advanced conducting laboratory with emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices.
Letter grade only (A-F). May be repeated to a maximum of 4 units.
422.522. Advanced Choral Conducting and Literature (2)
Prerequisites: MUS 326 and 327 or consent of instructor.
Choral technique, style, and interpretation; choral schools and composers since 18th century; contemporary secular and sacred choral compositions. Class used as laboratory group.
(1 hr lec; 2 hr lab)
423A. Senior Recital (1)
Prerequisites: MUS 341, 342. Corequisites: Concurrent enrollment in MUS 329 or 429.
Eligibility restricted to Music majors passing conservatory's qualifying examination.
Letter grade only (A-F).
423B. Senior Composition Recital (1)
Prerequisites: Senior standing and consent of instructor.
Individual recital of original music written during composition studies while in program. Eligibility restricted to Bachelor of Music composition majors passing conservatory's qualifying examination.
Letter grade only (A-F).
423C. Senior Thesis (1)
Prerequisites: MUS 360, 374, 496 and consent of Director of Music History.
In-depth research paper representing systematic study of significant problem, style, or repertory. Finished product must show thorough command of relevant literature, critical thinking and writing, and original approach. Proposal (outline, abstract, and bibliography) must be submitted for topic approval.
Letter grade only (A-F).
423D. Senior Project (1)
Prerequisites: Senior standing and consent of instructor.
Final project or internship with music or arts organization subject to approval of supervising faculty member.
Letter grade only (A-F).
424. Orchestral Literature: Performance and Styles (1)
Prerequisites: Consent of instructor.
Performance of standard orchestral repertoire in instrumental sectional for Brass and/or Woodwinds or Strings.
Letter grade only (A-F). Repeatable to 8 units in different semesters. (2 hrs. rehearsal)
425.525. Advanced Instrumental Conducting (2)
Prerequisite: MUS 326 or consent of instructor.
Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using class laboratory.
(1 hr lec; 2 hr lab)
426.526. Vocal Development (2)
Prerequisites: Consent of instructor.
Theory and techniques of teaching voice.
427. Piano Pedagogy (3)
Study of philosophies, psychology, and piano teaching methods for children, as well as intermediate and advanced level students.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
428. Seminar in Musical Styles (3)
Prerequisites: MUS 160, 341, 360, 374.
Study development of musical styles, forms, genres, and significant musical concepts and problems. For Music majors only.
429. Individual Instruction for Music Majors (2)
Prerequisite: Successful completion of Upper-Division Screening Exam on applied instrument or voice.
Private lesson in major performance medium. Application must be made to the Director of the Music Department. May be repeated to a maximum of 10 units.
A. Baritone/Tuba
B. French Horn
C. Trombone
D. Trumpet
E. Harpsichord
F. Organ
G. Piano
J. Percussion
K. Double Bass
L. Cello
M. Viola
N. Violin
O. Guitar
P. Harp
Q. Voice
R. Bassoon
S. Clarinet
T. Flute
U. Oboe
V. Saxophone
W. Conducting
X. Composition
434A/534A. German Song Repertoire (2)
Prerequisite: MUS 273A, C.
Preparation of German song literature for performance, with
coaching in language, musical styles, and vocal and accompanying
techniques.
Letter grade only (A-F).

434B/534B. French Song Repertoire (2)
Prerequisite: MUS 273A, B.
Preparation of French song literature for performance, with
coaching in language, musical styles, and vocal and accompanying
techniques.
Letter grade only (A-F).

436/536. Opera Repertoire (2)
Prerequisites: MUS 273B, C or consent of instructor. Two years of
voice study, completion of Conservatory’s Music Foreign
Language Proficiency Exam may be waived upon successful
completion of 101B level course in French, German, or Italian.
Preparation of varied portfolio of voices appropriate selections from
standard operatic repertoire in English, French, German and Italian.
Include translation, lyric diction, ornamentation, tools for role study,
rehearsal and audition techniques.
Letter grade only (A-F).

441. Studies in Musical Analysis (3)
Prerequisite: MUS 341, 342.
Intensive individual and class analysis of representative
compositions of various periods and styles.

442. Orchestration (3)
Prerequisite: MUS 241.
Range, characteristics, and transpositions of all standard orchestral
instruments by writing example transcribing music. Preparation and
proofreading of scores and parts. Readings of student assignments.

443/543. Advanced Orchestration (3)
Prerequisite: MUS 442.
Techniques of arranging, transcribing, and composing for standard
chamber ensembles, chorus and orchestra. Readings of student
orchestration will be included whenever possible.

444. Advanced Composition (2)
Prerequisite: MUS 344, Corequisite: 328X.
Advanced studies in music composition, music aesthetics, and
listening methodologies.
Letter grade only (A-F). May be repeated to maximum of 4 units in
different semesters.

446. Advanced Topics in Listening and Analysis (3)
Prerequisites: MUS 344 or consent of instructor.
Study of traditional and contemporary music literature and analytical
methods, from structural linear analysis to post-modern listening
models. Includes readings in music aesthetics, critical theory, and
intensive score analyses.
Letter grade only (A-F).

454/554. School, Society, and Music Education (3)
Historical, in-depth examination of direction and influence of music
education within America's general education curriculum. Focus on
how music education has reflected and addressed changing
needs of schooling and society from Colonial school movement and
Jeffersonian era to today.
Letter grade only (A-F).

455/555. Computers and Sound (3)
Introduction to software for sound synthesis, sequencing,
digital audio, and sound processing. Understanding and analysis of
contemporary electronic music literature also emphasized. Course
culminates in creative composition or research project.
Letter grade only (A-F).

456/556. Sound Design (3)
Introduces students to principles of composition and analysis of
electro-acoustic media through application of music software,
sampling, digital media, digital signal processing, and
psychoacoustics. Culminates in collaborative creative project
involving video, web, or live theater.
Letter grade only (A-F).

457/557. Composition with Digital Media (3)
Computes created sound projects that combine visual media (including
web-based), and electronic media. Analysis of interdisciplinary
and mixed media works, collaborative work in electronic arts and
readings in critical theory and multimedia.
Letter grade only (A-F).

460/560. Studies in Performance Practices (3)
Prerequisite: MUS 160, 360 or consent of instructor.
Survey of historical performance in vocal and instrumental
music, focusing on primary sources. Spans various genres and
areas.

467/576. Studies in Gender and Music (3)
Prerequisite: MUS 374 or consent of instructor.
Survey of issues surrounding women as musicians (performers and
composers), comparative studies of role men and women have
played in music, and feminist criticism of music.
Letter grade only (A-F).

468. Music and Film (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing, and one of
the following courses: MUS 190, FEA 516, THEA 127, ENGL 180, or
ART 110.
Study of interrelationships of dramatic, visual, and musical arts in
film, with special emphasis on role of music.

469/569. Music of the Theater (3)
Prerequisite: MUS 374.
History and development of music for stage from 1600 to present,
it's conventions and styles. Analysis of representative masterworks.

471/571. Studies in Ethnomusicology (3)
Prerequisites: MUS 374 or consent of instructor.
Emphasis on theory and methodology of ethnomusicological
study. Investigation of music of particular non-western or popular
cultures. For music majors only.
Letter grade only (A-F). May be repeated to maximum of 4 units.

473/573. Advanced Diction for Singers (2)
Prerequisites: MUS 273A, 273B, or consent of instructor.
Advanced principles of diction and International Phonetic Alphabet
(IPA) applied to lyric Italian, French, German, and English
repertoire; intended for Senior and Graduate level vocalists and
choral conductors. Special studies possible in other languages.
Letter grade only (A-F).

474A/574A. Jazz Arranging I (2)
Prerequisite: MUS 372B or consent of instructor.
Fundamentals of jazz arranging, including 4-part writing, harmonic
practices and philosophies of arranging.
Not open for credit to students with credit in MUS 474. Letter grade
only (A-F).

474B/574B. Jazz Arranging II (2)
Jazz arranging for big band through detailed analysis of known big
band writers. Emphasis on reharmonization, the idiomatic use of
counterpoint, styles and song forms.
Letter grade only (A-F).

576 • Music • 2009/2010 CSULB Catalog
477A-B / 577A-B. Piano Accompanying (2-2)
Prerequisite: MUS 277 or consent of instructor.
Instruction and training in techniques of accompanying singers, instrumentalists, and ensembles.

478 / 578. Musical Instruments of World (3)
Prerequisites: MUS 350 or consent of instructor.
Open to music majors and minors. Study of origins and history of musical instruments in western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification.
Letter grade only (A-F).

480 / 580. Marching Band Techniques (2)
Marching fundamentals, charting formations, precision drills, parade techniques and half-time pageantry.

482 / 582. Instrumental Rehearsal Techniques and Literature (3)
Procedures for organization and development of instrumental programs and literature for performing groups.

483A / 583A. Choral Repertoire I (2)
Prerequisite: MUS 326 or consent of instructor.
Examination of five genres of choral repertoire: Mass, motet, cantata, cantico, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors.
Letter grade only (A-F).

483B / 583B. Choral Repertoire II (2)
Prerequisite: MUS 326 or consent of instructor.
Survey of choral and choral/orchestral works from Renaissance to 20th century.
Letter grade only (A-F).

484. Arranging (2)
Prerequisites: MUS 142B and 125T.
Arranging techniques for choir, band, and orchestra in grades K-12.
Letter grade only (A-F).

485 / 585. Music for the Elementary Child (3)
Examination of approaches to developing musical and aesthetic sensibilities in children. Students create vocal, instrumental and listening experiences appropriate for use in grades K-6. Intended for music education majors. Others by consent of instructor.

487 / 587. Microcomputers and Music Learning (3)
Prerequisite: MUS 125T or consent of instructor.
Music education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection. MIDI music composition and contemporary issues and trends.

490. Introduction to Music Cultures (3)
Prerequisite: Completion of GE Foundation requirements.
Music of various world cultures and ethnic groups representative of diversity of United States. Includes music's function, social organization including age and gender roles, distinctive characteristics, types of instruments, and cultural performance standards.

492A / 592A. Studies in Keyboard Music (2)
Prerequisite: MUS 300 or consent of instructor.
Survey of evolution of keyboard music including clavichord, harpsichord, piano, and organ from 18th century to Beethoven.

492B / 592B. Studies in Keyboard Music (2)
Prerequisite: MUS 360 or consent of instructor.
Survey of evolution of keyboard music including clavichord, harpsichord, piano, and organ from Beethoven to present.

493 / 593. Studies in Instrumental Music (3)
A seminar format class on one of the topics in instrumental music, including but not limited to: symphonic literature, survey of program music, history of the concerto, chamber music survey, and history of the wind band.
Letter grade only (A-F). May be repeated to maximum of 6 units.

494 / 594. Music Learning Theory (3)
Investigates research and resulting methodology developed by Dr. Edwin Gould on how children learn music, including nature of music aptitude, Music Learning Theory Curriculum, incorporating Music Learning Theory in music classroom and rehearsal settings, and evaluation and assessment of student learning.
Letter grade only (A-F).

495. Special Topics in Music (3)
Prerequisite: Consent of instructor.
Topics of current interest in various fields of music selected for special presentation and development.
Topics will be announced in Schedule of Classes. May be repeated to maximum of 6 units.

A. Kodaly Concept I: Methodology, Solfege and Conducting
Prerequisite: Consent of Instructor. Corequisite: MUS 494B.
Examination of Kodaly approach to music education with particular emphasis on relevance and application to American music education. Special emphasis is given to sequences of concepts for levels K-3. Includes Solfege, folk song analysis and collection, conducting, games and movement.

B. Kodaly Concept II: Methodology, Solfege and Conducting
Corequisite: 495A.
Examination of Kodaly approach to music education with particular emphasis on relevance and application to American music education. Special emphasis is given to sequence of concepts for levels K-3. Includes Solfege, folk song analysis and collection, conducting, games and movement.

F. Music and Dance Collaboration (3)
Corequisite: Consent of Instructor.
Music and dance students create new works for music and dance. Collaborations may take form of improvisational, semi-improvisational, or through composed creations developed by two dancers and two musicians working in group setting.

496 / 596. Research Methods (3)
Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as introduction to graduate study in music. Required of all MA and MM candidates in music.

497 / 597. Special Topics in Music Composition (3)
Prerequisite: Consent of instructor.
Topics of current interest in field of music composition selected for special presentation and development.
Topics will be announced in Schedule of Classes. Letter grade only (A-F).

B. Sound Design for Theatre
C. Advanced Film Scoring Project
D. Contemporary and Computer Music Notation
E. Composition with Interactive Technologies
G. From Poetry to Songs: Composing Art Songs

499. Special Studies (1-3)
Prerequisite: Consent of instructor.
Individual research or group investigation of selected topics.
May be repeated to maximum of 6 units.

2009/2010 CSULB Catalog • Music • 577
GRADUATE LEVEL

500. Major Performance Organization (1)
Prerequisite: Consent of instructor.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
(3-5 hrs req.)
A. Concert Band
B. Symphonic Band
C. Wind Symphony
D. University Chorus
E. Chamber Choir
J. Symphony Orchestra

510. Improvisation Styles and Literature (3)
Prerequisites: MUS 372, 303, 474, or consent of instructor.
Explores various musical styles, forms, genres, and significant
cultural concepts and musics in Jazz Improvisation. Theoretical work
emphasizes detailed study of harmonic and rhythmic forms, digital
styles and scales, combination of ideas, patterns, use of
experimental materials, transcriptions and historic implications.
Letter grade only (A-F).

511. Film Scoring (3)
Prerequisites: MUS 372, 474, or consent of instructor.
Reviews development of various musical styles, forms, genres, and
significant cultural concepts and musics in Jazz Improvisation. Theoretical work
emphasizes detailed study of harmony and rhythmic forms, digital
styles and scales, combination of ideas, patterns, use of
experimental materials, transcriptions and historic implications.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

512. Advanced Techniques in Jazz Arranging (3)
Prerequisite: MUS 474 or consent of instructor
Advanced scoring techniques used with big band arranging and
orchestrations for studio/pop orchestras. Includes ranges
and capabilities of instruments and scoring for traditional and
contemporary instrumentation. Requires the composition of a
major work to be recorded by CSULB Studio Orchestra.
Letter grade only (A-F). May be repeated to a maximum of 6 units
in different semesters.

513. History and Analysis of Jazz Styles (3)
Prerequisites: MUS 372, 303, or consent of instructor.
Explores development of various musical styles, forms, genres, and
significant cultural concepts and musics in Jazz History.
Letter grade only (A-F).

514. Techniques for the Jazz Vocalist (2)
Prerequisites: MUS 372, 303, 474, or consent of instructor.
Explores development of various musical styles, forms, genres, and
significant cultural concepts and musics in Jazz History.
Letter grade only (A-F).

515. Advanced Concepts in Jazz Theory (3)
Prerequisites: MUS 372, 303, 474, or consent of instructor.
Reviews development of musical styles, forms, genres, significant
musical concepts and problems. Theoretical work emphasizes
detailed study of harmonic, form, idioms, combination of idioms,
and use of experimental materials. Study will include detailed
analysis of major modern jazz arrangers.
Letter grade only (A-F).

516. Pedagogy of Jazz (2)
Prerequisite: MUS 271 or consent of instructor.
Organization and management of school jazz programs,
addressing rehearsals techniques, improvisation, repertoire, and
conducting.
Letter grade only, (A-F).

517. Business of Music (2)
Overview of business and artistic process of music industry. Includes
popular music, music and media, operation of retail music stores,
and film, theoretical, and concert music. Also includes recent changes
in digital recording, broadcasting technology, copyright laws, and
legal issues.
Letter grade only (A-F).

519. Choral Master Class (1)
Prerequisite: Consent of instructor.
Advanced conducting laboratory with emphasis on advanced
conducting, vocal, and rehearsal techniques as well as performance
practices.
Letter grade only (A-F). May be repeated to a maximum of 4 units.

520. Graduate Conducting Seminar (3)
Prerequisite: Consent of instructor.
Advanced baton technique, interpretation, securing proper sound,
organizing routine, and program making.
Letter grade only (A-F).

522. Advanced Choral Conducting and Literature (2)
Prerequisites: MUS 326 and 327 or consent of instructor.
Choral technique, style, and interpretation; choral schools and
composers since 15th century; contemporary secular and sacred
choral compositions. Class used as laboratory group.
Letter grade only (A-F). (1 hr lec., 2 hrs lab)

524. Orchestral Literature: Performance and Styles (1)
Prerequisites: Consent of instructor.
Performance of selected orchestral repertoire in instrumental
sections for Strings and/or Woodwinds or Brass.
Letter grade only (A-F). May be repeated to a maximum of 8 units
in different semesters. (2 hrs rehearsal)

525. Advanced Instrumental Conducting (2)
Prerequisite: MUS 326 or consent of instructor.
Principles and techniques of instrumental conducting and
organization. Study and interpretation of instrumental literature using
class laboratory.
(1 hr lec. 2 hrs lab)

526. Vocal Development (2)
Prerequisite: Consent of instructor.
Theory and techniques of teaching voice.
Letter grade only (A-F).

529. Individual Instruction for Music Majors (1)
Open to graduate students in music only. Private lessons in major
performance medium. Application must be made to Graduate
Advisor of the Bob Cole Conservatory of Music during semester prior
to registration. Registration is subject to conservatory's approval.
May be repeated to maximum of 10 units.
A. Baritone/Tuba
B. French Horn
C. Trombone
D. Trumpet
E. Flugelhorn
F. Organ
G. Piano
J. Percussion
K. Double Bass
L. Cello

578 - Music - 2009/2010 CSULB Catalog
536. Opera (1)
Prerequisites: Consent of instructor.
Performance of excerpts and complete works for lyric theatre; solo and ensemble coaching; intensive language and diction training; preparation and performance of entire role in original language. Additional areas include stage management, scheduling, costuming, set construction.
Letter grade only (A-F). May be repeated to a maximum of 4 units. (5 hrs or more reh.)

531. Music Theater (1)
Prerequisites: Consent of instructor.
Performance of musical theater works and operas, include stage management, scheduling, costuming, and set construction.
(2 hrs reh.)

532. Opera Coaching (1)
Prerequisites: Consent of instructor. Corequisite: MUS 530.
One-on-one and small group coaching for opera majors.
Letter grade only (A-F). May be repeated to a maximum of 4 units in different semesters. (3-5 hrs reh.)

534A./434A. German Song Repertoire (2)
Prerequisites: MUS 273A, C.
Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques.
Letter grade only (A-F).

534B./434B. French Song Repertoire (2)
Prerequisites: MUS 273A, B.
Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques.
Letter grade only (A-F).

536. Opera Repertoire (2)
Prerequisites: MUS 273B, C or consent of instructor.
Preparation of varied portfolio of voice-appropriate solos from standard operatic repertoire in English, French, German and Italian. Includes translation, lyric diction, ornamentation, tools for role study, theatrical and audition techniques.
Letter grade only (A-F).

540. Music Theory Pedagogy (3)
Prerequisites: Placement in MUS 541 based on Graduate Theory Placement Exam, or successful completion of MUS 441.
Survey of curricular options, analysis goals, written and aural-skills concerts, and general pedagogical philosophies in teaching of music theory. Study role content-based goals and objectives in determining teaching and assessment materials. Examination of reciprocal relationship between thinking and listening.
Letter grade only (A-F).

541. Seminar in Musical Analysis (3)
Analysis of forms and techniques of musical compositions in various genres and styles.
May be repeated to maximum of 6 units.

543./443. Advanced Orchestration (3)
Prerequisites: MUS 442.
Techniques of arranging, transcribing, and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

544. Graduate Composition I (2)
Corequisite: MUS 529X.
Study of contemporary techniques in composition, music aesthetics, and contemporary literature.
Letter grade only (A-F).

545. Graduate Composition II (2)
Prerequisite: MUS 544. Corequisite: MUS 529X.
Advanced studies in musical composition, music aesthetics, and listening methodologies.
Letter grade only (A-F). Course may be repeated to maximum of 4 units in different semesters.

554./454. School, Society, and Music Education (3)
Historical, in-depth examination of direction and influence of music education within America's general education curriculum. Focus on how music education has reflected and addressed changing needs of schooling and society from singing school movement and Jeffersonian era to today.
Letter grade only (A-F).

555./455. Computers and Sound (3)
Introduces students to music software for sound synthesis, sequencing, digital audio, and sound processing. Listening and analysis of contemporary electronic music literature is also emphasized. Course culminates in creative composition or research project.
Letter grade only (A-F).

556./456. Sound Design (3)
Introduces students to principles of composition and analysis of electro-acoustic media through application of music software, sampling, digital media, digital signal processing, and psychoacoustics. Course culminates in collaborative creative project involving video, web, or live theater.
Letter grade only (A-F).

557. Composition with Digital Media (3)
Composer creates projects that combine visual media (including web-based), and electronic music. Analysis of interdisciplinary and mixed media works, collaborative work in electronic arts and readings in critical theory and multimedia.
Letter grade only (A-F).

561. Seminar in Medieval and Renaissance Music (3)
Prerequisite: MUS 360, or consent of instructor.
Topics in development of musical styles and genres from Gregorian Chant through late sixteenth-century sacred and secular polyphony.
Letter grade only (A-F). May be repeated to maximum of 6 units.

562. Seminar in Baroque Music (3)
Prerequisites: MUS 341, 360, or consent of instructor.
Stylistic analysis and inquiry into cultural background of composers and genres.
Letter grade only (A-F). May be repeated to maximum of 6 units.

563. Seminar in Classical Music (3)
Prerequisites: MUS 341, 360, or consent of instructor.
Music from Rococo to end of eighteenth century. Philosophical attitudes in relation to musical styles.
Letter grade only (A-F). May be repeated to maximum of 6 units.

564. Seminar in Romantic Music (3)
Prerequisites: MUS 342, 374 or consent of instructor.
Music from Beethoven to end of nineteenth century.
Letter grade only (A-F). May be repeated to maximum of 6 units.
565. Seminar in 20th-Century Music (3)
Prerequisites: MUS 342, 374, or consent of instructor.
Stylistic analysis and music; aesthetic and socioeconomic problems of contemporary music; survey of new music.
Letter grade only (A-F). May be repeated to maximum of 6 units.

568.400. Studies in Performance Practices (3)
Prerequisites: MUS 100, 500 or consent of instructor.
Surveys issues of historical performance in vocal and instrumental music, focusing on primary sources. Span various genres and eras.
Letter grade only (A-F).

569.460. Music of the Theater (3)
Prerequisite: MUS 374.
History and development of music for stage from 1600 to present, its conventions and styles. Analysis of representative masterworks.
Letter grade only (A-F).

571.471. Studies in Ethnomusicology (3)
Prerequisite: MUS 374 or consent of instructor.
Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only.
Letter grade only (A-F). May be repeated to maximum of 6 units.

573.473. Advanced Diction for Singers (2)
Prerequisites: MUS 273A, 273B, or consent of instructor.
Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intensifies for Senior and Graduate level vocalists and choral conductors. Special studies possible in other languages.
Letter grade only (A-F).

574A/474A. Jazz Arranging I (2)
Prerequisite: MUS 372B or consent of instructor.
Fundamentals of Jazz arranging, including 4-part writing, harmonic practices and philosophies of arranging.
Not open for credit to students with credit in MUS 574. Letter grade only (A-F).

574B/474B. Jazz Arranging II (2)
Jazz arranging for big band through detailed analysis of known big band writers. Emphasis on reharmonization, the idiomatic use of counterpoint, styles and song forms.
Letter grade only (A-F).

575. Studies in Choral Music (3)
Prerequisite: Consent of instructor.
Studies in research techniques for choral musicians and exploration of choral masterworks including score preparation, performance practice considerations, and historical investigation. Rehearsal techniques and principles and procedures necessary to effective choral teaching also examined.
Letter grade only (A-F). May be repeated to maximum of 6 units.

576.467. Studies in Gender and Music (3)
Prerequisites: MUS 374 or consent of instructor.
Surveys issues surrounding women as musicians (performers and composers), comparative studies of roles men and women have played in music, and feminist criticism of music.
Letter grade only (A-F).

577A-B/477A-B. Piano Accompanying (2-2)
Prerequisites: MUS 277 or consent of instructor.
Instruction and training in art and techniques of accompanying for singers, instrumentalists, and ensembles.
Letter grade only (A-F).

578.478. Musical Instruments of World (3)
Prerequisites: MUS 360 or consent of instructor.
Open to music majors and minors. Study of origins and history of musical instruments in western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification.
Letter grade only (A-F).

580.480. Marching Band Techniques (2)
Marching fundamentals, charting, formations, precision drills, parade techniques and half-time pageantry.
Letter grade only (A-F).

581. Foundations of Music Education (3)
Open to graduate music majors only. Survey of contemporary aesthetic, philosophical, psychological and sociological trends in music education.
Letter grade only (A-F).

582.482. Instrumental Rehearsal Techniques and Literature (3)
Procedures for organization and development of instrumental programs and literature for performing groups.
Letter grade only (A-F).

583A. Choral Repertoire I (2)
Prerequisites: MUS 320 or consent of instructor.
Examination of five genera of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors.
Letter grade only (A-F).

583B. Choral Repertoire II (2)
Prerequisites: MUS 320 or consent of instructor.
Survey of choral and choral/orchestral works from Renaissance to 20th century.
Letter grade only (A-F).

585.485. Music for Elementary Child (3)
Examination of approaches to developing musical and aesthetic sensibilities in children. Students create vocal, instrumental and listening experiences appropriate for use in grades K-8. Intended for music education majors. Others by consent of instructor.
Letter grade only (A-F).

587.487. Microcomputers in Music Learning (3)
Prerequisites: MUS 125T or consent of instructor.
Music Education: applications of microcomputers, including existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends.
Letter grade only (A-F).

588. Quantitative Issues and Research in Music Education (3)
Prerequisites: MUS 581.
Assessment and curriculum development; appropriate techniques and costing tools for measurement and evaluation of musical behavior; survey and critical analysis of research, especially quantitative, in areas relevant to music education. Design research papers appropriate to field.
Letter grade only (A-F).

592A/492A. Studies in Keyboard Music (2)
Prerequisite: MUS 360 or consent of instructor.
Survey of evolution of keyboard music including clavichord, harpsichord, piano, and organ from 13th century to Beethoven. Not open for credit to students with credit in MUS 592.
592B / 492B. Studies in Keyboard Music (2)
Prerequisite: MUS 360 or consent of instructor.
Survey of evolution of keyboard music including clavichord, harpsichord, piano, and organ from Beethoven to present.

593A / 493. Studies in Instrumental Music (3)
Prerequisite: MUS 374.
Seminars in instrumental music spanning at least two epochs of music history and covering at minimum, two of five categories: solo sonatas (excluding keyboard), chamber music, orchestral/symphonic, wind ensemble/band, and orchestral/chorus.
Letter grade only (A-F).

594A / 494. Music Learning Theory (3)
Investigates research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including nature of music aptitude. Music Learning Theory Curriculum, incorporating Music Learning Theory in music classroom/rehearsal settings, and evaluation/assessment of student learning.
Letter grade only (A-F).

595. Special Topics in Music (1-3)
Prerequisite: Consent of Graduate Advisor and instructor.
Topics of current interest in various fields of music selected for special presentation and development.
Topics will be announced in Schedule of Classes. May be repeated to maximum of 6 units.
A. Kodaly Concept I: Methodology, Self-teaching and Conducting
   Corequisite: Consent of Instructor; MUS 595B must be taken concurrently.
   Examination of Kodaly approach to music education with particular emphasis on relevance and application to American music education. Special emphasis is given to sequence of concepts for levels K-3.
   Includes Self-teaching, folk song analysis and collection, conducting, games and movement.
B. Kodaly Concept II: Methodology, Self-teaching and Conducting
   Corequisite: MUS 595A.
   Examination of Kodaly approach to music education with particular emphasis on relevance and application to American music education. Special emphasis is given to sequence of concepts for levels K-3.
   Includes Self-teaching, folk song analysis and collection, conducting, games and movement.
C. Music and Dance Collaboration
   Corequisite: Consent of Instructor.
   Students create new works for music and dance. Collaborations may take form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in group setting.

597A / 497. Special Topics in Music Composition (3)
Prerequisite: Consent of Graduate Advisor and instructor.
Topics of current interest in various fields of music selected for special presentation and development.
Topics will be announced in Schedule of Classes. Letter grade only (A-F).
B. Sound Design for Theatre
C. Advanced Film Scoring Project
D. Contemporary and Computer Music Notation
E. Composition with Interactive Technologies
G. From Poetry to Song: Composing Art Songs

598. Teaching Music in the University (1)
Prerequisite: position as TA or GA in the Bob Cole Conservatory of Music or consent of instructor.
Seminar on teaching methods, goals, and objectives; covers regulations and responsibilities; preparation of course materials; assessment and evaluation tools; technology in classroom. Required of first-term TAs and GAs with teaching responsibilities.
Letter grade only (A-F). May be repeated to maximum of 3 units.

599. Special Studies (1-3)
Prerequisite: Consent of Graduate Advisor and instructor.
Individual research or group investigation of selected topics.
Letter grade only (A-F). May be repeated to maximum of 6 units of credit.

600. Chamber Music (1)
Prerequisite: Consent of instructor
Letter grade only (A-F). May be repeated to maximum of 8 units. (2 hrs. reh.)
A. Brass Ensemble
B. New Music Ensemble
C. String Ensemble
D. University String Quartet
E. University Wind Quintet
F. University Brass Ensemble
G. Piano Ensemble
H. Vocal Jazz Ensemble II
J. Jazz Combo
K. Performance
L. Brass Chamber Music
M. Percussion Ensemble
N. Steel Drum Ensemble
O. Woodwind Chamber Music
P. String Chamber Music
Q. Women’s Chorus
R. Collegium Vocal
S. Collegium Instrumental
T. Saxophone Ensemble
U. Directed Accompanying
V. Studio Orchestra
X. World Percussion Group
Y. World/Traditional Music Performance
Z. University Percussion Quartet

601. Jazz Ensemble (1)
Prerequisite: Consent of instructor.
May be repeated for maximum of 8 units with different topics in same semester. (3 hrs. or more reh.)
A. Jazz Ensemble I
B. Jazz Ensemble II
C. Vocal Jazz Ensemble I

629. Individual Instruction for Music Majors (2)
Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to Graduate Advisor of the Bob Cole Conservatory of Music during semester prior to registration. Registration is subject to conservatory’s approval.
Letter grade only (A-F). May be repeated to maximum of 12 units credit.
A. Baritone/Tuba
B. French Horn
C. Trombone
D. Trumpet
E. Harpsichord
F. Organ
G. Piano
J. Percussion
K. Double Bass
L. Cello
M. Viola
N. Violin
O. Guitar
P. Harp
Q. Voice
R. Bassoon
S. Oboe
T. Clarinet
U. Bass
V. Saxophone
W. Conducting
X. Composition

2009/2010 CSULB Catalog • Music • 581
640. Seminar in Music Theory (3)
Prerequisites: MUS 541 and consent of instructor. Intensive seminar focusing on analytical and theoretical issues in music. May center on individual composer, theoretical technique, or history of theory. Letter grade only (A-F). May be repeated to maximum of 6 units of degree credit.

645. Seminar in Advanced Composition (3)
Prerequisites: MUS 545 or consent of instructor. Free composition in more extended forms for various combinations of instruments including full orchestra and band. Letter grade only (A-F).

680. Seminar in Instrumental Music Teaching (3)
Prerequisite: Consent of instructor. Principles, procedures, and materials used in teaching instrumental music in public schools. Special attention given to methods and materials used in instrument classes. Letter grade only (A-F).

696. Research Methods (3)
Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as introduction to graduate study in music. Required of all MA and MM candidates in music. Letter grade only (A-F).

698. Thesis or Project (1-6)
Prerequisite: Advancement to Candidacy and consent of Director of Music History. Planning, preparation, research, and completion of thesis or project report or thesis. Enrollment limited to graduate candidates who have passed qualifying examination for their program and who have approved project/thesis proposal. Letter grade only (A-F).
NATURAL SCIENCES AND MATHEMATICS, COLLEGE OF

Dean: Laura Kingsford
Associate Dean for Curriculum and Instruction: Henry C. Fung
Associate Dean for Research and External Support: Andrew Z. Mason
Director for Instructional and Research Facilities: Robert L. Leechen
Director of Development: MaryAnne Horton
Administrative Services Manager: Henry Wu
Assistant to the Dean: Lane Olsen-Cooper
College Office: Faculty Office 5 (F05), Room 104

Introduction
In a world where science plays an increasingly important role and where an understanding of the sciences is essential for a participating and informed citizenry, the College of Natural Sciences and Mathematics provides quality educational opportunities in the life, physical sciences, and mathematics. Students are provided a broad-based, fundamental education in the natural sciences and mathematics, and are challenged to think critically, analytically, and creatively. Alumni of the College demonstrate that science and mathematics graduates are well-prepared to enter graduate and professional schools or to assume responsible positions in industry or government. Employment opportunities for students with backgrounds in science and mathematics are traditionally excellent.

The College is dedicated to the concept that a university has a special responsibility toward academic excellence and the advancement of knowledge. The faculty and staff of the Departments of Biological Sciences (including the former departments of Anatomy and Physiology, Biology, and Microbiology), Chemistry and Biochemistry, Geophysical Sciences, Mathematics and Statistics, Physics and Astronomy, and Science Education are committed to providing an outstanding educational experience for all students.

The College takes its responsibilities in teacher preparation in the sciences and mathematics very seriously. It participates in projects that provide a stronger, more rigorous, and more engaging set of teacher preparation programs at CSULB. With funding from the National Science Foundation, NASA, and the Knight Foundation, and in collaboration with Colleges of Education and Liberal Arts, Long Beach Unified School District, and Long Beach City College, science and mathematics faculty members are working to enrich and align teacher preparation coursework and internship opportunities.

Degrees Offered
Five departments within the College of Natural Sciences and Mathematics offer both the Bachelor of Science and Master of Science degrees. The Department of Science Education offers the Master of Science degree. The Departments of Chemistry/Biochemistry, and Physics/Astronomy also offer the Bachelor of Arts degree. Each degree has unique requirements and students should refer to the particular department's section of this Catalog to determine specific requirements. Ideally, all students participate in the Science Path to Success (for first time freshman) or EONS (Enrollment and Orientation in Natural Sciences and Mathematics for transfer students). Programs offered each June-July (for those entering in August-September) and January (for those entering in January). A department advisor will be available to assist in developing an appropriate academic plan consistent with career goals. During the semester, students may obtain academic advising by contacting the appropriate advisor(s) in the department offering the chosen degree program.

Student Research Opportunities
Faculty members in the College involve more than 200 students annually, both undergraduate and graduate, in a wide variety of research activities. Many of these students are supported by research grants, especially during the summer months. Each year many of these students present the results of their research at scientific conferences. It is not unusual for a student to co-author an article appearing in a major scientific journal.

The faculty’s commitment to these students is based on the knowledge that involvement in scientific research makes the study of science more real and provides strong motivation for the student to pursue a career in science. Since the anticipated need for scientists far exceeds the enrollment of science majors, we are committed to meeting the short-fall by making the study of science at CSULB as “real world” as possible.

Early each fall semester, the College of Natural Sciences and Mathematics in collaboration with its Jensen Student Access to Sciences and Mathematics Center hosts an Annual Research Symposium for students to present their findings of the research conducted in laboratories of CNSM faculty. This Symposium is open to the members of the University and greater Southern California community.
Jensen Student Access to Science and Mathematics (SAS) Center and Programs Offered

A student center (FOS-109) adjacent to the Dean's office is dedicated to promoting success for students who pursue majors in the College and those who take courses in its departments. The Center also facilitates several externally funded programs including the National Institutes of Health (MARC, MBRS-RISE, and Bridges to the Baccalaureate), and National Science Foundation (CRUI, AMP, and Noyce). The Center provides space for studying, tutoring, mentoring, computer access, and meeting sites for student-centered activities. The SAS Center also serves as the resource center for health profession advising, graduate school opportunities, and summer research opportunities and fellowships.

SAS coordinates and assures effective integration of all of our mentoring, enrichment, and outreach programs - including those based on undergraduate research. SAS is dependent on external funding for its success.

There are a host of activities and programs that strive to involve students and promote their success in science and mathematics. Several federally funded programs focus on underrepresented students and address the diversity of our campus. In addition to fostering involvement of students in science and mathematics, they feature an ethnic identity that provides a unique encouragement for 260 of our science majors.

MARC/MBRS Programs. The College hosts both programs funded by The National Institutes of General Medical Sciences: Minority Access to Research Careers (MARC) and Research Institute for Scientific Enhancement (MBRS-RISE). Both programs have the goal of increasing the number and quality of students from specifically targeted groups/populations who pursue careers in scientific research. The 30 students supported by these programs can conduct cutting-edge biomedical research projects in conjunction with a member of the faculty. Virtually all of these students continue study toward advanced degrees in science. The MARC program is an honors program (SPA 3.0) for upper division students, while the MBRS-RISE program can support students as early as the freshman year and also upper division transfer students. As a result of their research activities, most students present papers at scientific conferences and often co-author publications appearing in leading scientific journals. In addition to research involvement, MARC/MBRS-RISE students are active in various outreach and mentoring activities.

Beckman Scholars Program. In 2003, CSULB was selected as one of 13 institutions nationwide to be the recipient of these prestigious Beckman Scholars Awards. The goal of the Beckman Scholars Program at CSULB is to advance the education, research training, and personal development of students who have the potential to achieve distinction in their academic field, as well as become outstanding leaders in their careers and professions. Support is provided for four students working toward bachelor's degrees in chemistry, biology, or physics in the form of student stipends, laboratory supplies and funds for travel to appropriate scientific meetings. In their research experience, students will receive rigorous training by faculty members in the use and applications of a variety of different techniques involved in nucleic acid research, protein biochemistry, biophysics, etc. The program will also provide counseling and career opportunities for entrance into higher degree programs in the sciences.

Bridges to the Baccalaureate Program. This program is funded by the National Institutes of General Medical Sciences and its goal is to provide historically underrepresented community college students with research opportunities in the biomedical sciences and to facilitate their seamless transition into baccalaureate and doctorate granting institutions.

G-DEP Program. The Geoscience Diversity Enhancement Program (G-DEP) is an innovative, collaborative partnership between CSULB Departments of Geological Sciences, Geography, and Anthropology, and several community colleges and local high schools to improve the research and educational experiences of underrepresented students in geoscience (geologic, physical geographic, archaeological and environmental sciences disciplines). The goals of G-DEP are (1) to increase the number of underrepresented students who have a broad educational and research experience in the geosciences; (2) enhance the quantity and quality of Geoscience research and teaching by faculty members from the University, community colleges, and high schools; (3) increase the awareness by community colleges and high school students of the field of geoscience, and related research careers and educational requirements; (4) create a seamless transition of underrepresented students from community colleges to study geosciences at the undergraduate level; and (5) increase the number of geoscience majors who are retained in their disciplines.

LS-AMP Program. The College hosts the National Science Foundation's Louis Stokes Alliance for Minority Participation (LS-AMP) program. Its goal is to improve the mathematics and science preparation for historically underrepresented students majoring in the sciences, mathematics, and engineering and to enhance their opportunities for graduate studies.

Noyce Program. The CSULB Robert Noyce Scholarship Program, funded by the National Science Foundation, encourages talented science, technology, engineering, and mathematics (STEM) majors to become K-12 mathematics and science teachers. This program is responding to the critical need for STEM teachers by encouraging CSULB students to pursue teaching careers in high-need school districts and increasing the number of teachers with strong STEM content knowledge. In an effort to address this need, Noyce provides scholarships for CSULB students to complete their bachelor's and/or a single subject credential in mathematics or science. Noyce Scholars receive $15,000 per year for two years maximum. Scholarship recipients, in return, must serve two years as a mathematics or science teacher in a high-need school district within six years following graduation or completion of the program.

Science Enrichment and Peer Mentor Programs. This program is designed to provide first-time freshmen in the College of Natural Sciences and Mathematics with the guidance and personal support that are vitally important to their success at CSULB. This program allows students to enroll in classes appropriate for their major and background,
provides them with enriched learning experiences, and peer role models during their first academic year. The Science Enrichment Program begins the week prior to the start of the fall semester. In order to be part of the program, students must be declared science or math majors and be enrolled in the preprofessional University 100 course. Peer mentoring provides our college students opportunities for tutoring to strengthen their academic and communication skills.

Honors in Biological Sciences, This program was initiated by a grant from the Howard Hughes Medical Institute. Open to students with majors or career goals in the life sciences or related fields, it features a honors curriculum including courses in bioinformatics and research design as well as undergraduate research leading to a senior honors thesis and presentation at scientific conferences.

Health Professions Advising Office (HPAO). The Health Professions Advising Office (HPAO) provides a wide range of advising and support services designed to meet the needs of CSULB students as they navigate through the often-complex process of preparation and application to professional schools. The HPAO offers individual counseling, academic planning, application assistance, and many other resources designed specifically for students interested in medicine, dentistry, veterinary, pharmacy, optometry, podiatry, chiropractic, physician assistant, physical therapy, and graduate nursing.

The Electron Microscopy Facility
The study of the natural sciences requires observation of the macroscopic, microscopic, and sub-microscopic character of our universe. With this in mind, the College has established a modern Electron Microscope (EM) Facility which is used by several undergraduate courses in addition to undergraduate and graduate research projects. The pride of the EM Facility is the Joel-1200EXII transmission electron microscope (TEM), obtained through a National Science Foundation instrumentation grant. The Joel-1200EXII has a resolution of 0.14 nm and a magnification range from 50 to 1,000,000 times. The EM Facility also houses additional TEMs and an AMR 1000 scanning electron microscope. The latter will be upgraded to include analytical capabilities.

Student Organizations
The College of Natural Sciences and Mathematics Student Council sponsors annual events including: a fall open house and spring picnic, Science Career Days, and the Nobel Laureate Speaker series. Six departmental associations plan various social and academic-related programs that offer peer support, as well as opportunities for students and faculty to interact outside of the classroom.

Four other student-led groups offer activities for students who are planning careers in one of the health professions (medicine, dentistry, etc.). The Organization of PreProfessional Students (T.O.P.P.S.) and Association of Pre-Dental Students (A.P.D.S.) have speaker series with representatives from professional schools, the group also holds social functions and provides a peer advising network. Chicanos/Latinos for Community Medicine (CCM) sponsors community outreach activities, an annual workshop on interviewing techniques, and an annual conference on applying to medical/professional schools.

Southern California Marine Institute (SCMI)
The Institute operates a number of research vessels, and provides the mechanism whereby students from CSULB Ocean Studies Consortium campuses at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, San Diego, and San Marcos, as well as Occidental College and the University of Southern California can share courses and degree programs. In addition, Institute staff conduct research and facilitate the research of CSU faculty. The major focus is on harbors and coastal areas, with emphasis on environmental issues.

California Desert Studies Consortium
CSULB participates in the California Desert Studies Consortium, which has a Desert Studies Center in the heart of the Mojave Desert at Soda Springs near the town of Baker. The surrounding area consists of typical Mojave Desert with dry lakes, sand dunes, and mountain ranges; it is the gateway to Death Valley and the Kelso Dunes. The Center has excellent facilities for teaching field classes and for research. California State University at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Bernardino are the Consortium members.

Institute for Integrated Research in Materials, Environment, and Society (IRIMES)
IRIMES promotes and enhances educational and research opportunities for faculty, graduate and undergraduate students and the greater community at large. The major goals and accompanying benefits include research and scholarly activity, development of instructional programs to provide student training and research; and contribution to community service. IRIMES promotes cross-application of analytical techniques; facilitates access to state-of-the-art instrumentation for researchers; sponsors colloquia, lectures, and conferences; promotes interdisciplinary workshops and collaborations with other universities to create research possibilities for faculty and students; promotes educational programs and research opportunities for CSULB undergraduate and graduate students; provides analytical services for scientific community; and serves as a core CSU facility for elemental microanalysis.

CSUPERB Core Facility for Micro-Chemical Elemental Analysis (FEMCA)
California State University Program for Education and Research in Biotechnology (CSUPERB) has created a core facility for elemental micro-chemical analysis (FEMCA). FEMCA's principal goal is to enhance the educational and research opportunities of students and faculty members in the CSULB system who wish to pursue novel research in biotechnology. The facility builds on strong interdisciplinary ties between the biological, chemical, and physical sciences. FEMCA is housed within IRIMES for molecular and elemental analysis; scanning, transmission and atomic force microscopy; as well as purpose-built clean room facilities for organic and inorganic extractions and sample preparation.
Center for Education in Proteomics Analysis (CEPA)

A grant from the W.M. Keck Foundation and supplemental funds provided by the College of Natural Sciences and Mathematics at CSULB enabled purchase of an Applied Biosystems 4800 Matrix Assisted Laser Desorption Ionization, tandem Time of Flight Mass Spectrometer for protein and polypeptide analysis and identification. CEPA is part of the RMESR Facility for Elemental Micro Chemical Analysis (EMCA), and is the only one of its kind in the USA that focuses on the use of this technology for undergraduate training and research.

Courses (NSCI)

LOWER DIVISION

190A. Experience Success Program - 1 (1)
Prerequisite: Open to freshmen only. Learn and adopt organizational time management study and test-taking skills. Increase your awareness of science and mathematics related career options. Make connections with CNSM programs, resources, and people.
Letter grade only (A-F). (Seminar 1 hr.)

190B. Experience Success Program - 2 (1)
Prerequisite: NSCI 190A. Explore science/math careers via job shadowing experiences and community based mini internships. Learn about summer internship and research opportunities.
Letter grade only (A-F). (Seminar 1 hr.)

200. Introduction to Computer Methods in Science (2)
Prerequisites: Major in the College of Natural Sciences and Mathematics, and MATH 119A or MATH 122 or consent of instructor. Introduction to computer methods used in collecting, analyzing, and presenting scientific data. Introduces word processing, spreadsheet analysis, and elementary programming.
Credit/No Credit grading only. (Lecture 1 hr., discussion 1 hr.)

UPPER DIVISION

308. Community and Careers in the Health Professions (3) S
Prerequisites: Completion of Foundation Courses, one or more Explorations Courses, upper division status, and 3 units of Natural Sciences coursework.
Service-learning, capstone course developing students' critical thinking and analyzing issues on health care delivery including biomedical ethics. Students are required to provide service in a community health care agency. Provides understanding of community needs and fosters greater civic responsibility.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

309I. Women in Science (3) S
Prerequisites: Completion of the G.E. Foundation, six units of general education science courses, upper division standing, and consent of instructor.
Experiences of women in natural science, engineering, and mathematics and obstacles preventing easy access to these careers for women. Includes women's historical roles in science, contributions made, and contributions ignored or downplayed by peers. Disciplines include science, history, and sociology.
Letter grade only (A-F). Same course as WGST 309I. Not open for credit to students with credit in WGST 309I or WGST 309I. (Lecture 3 hrs.)

375L. Science and Society (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing, 3 units of general education natural science courses.
Examining recent discoveries in life and physical sciences impacting our lives. Examining technological advances, discussion of what is science, how is it done, and is it beneficial or destructive? Recent discoveries and underlying basic science will also be critically evaluated.
Letter grade only (A-F). (Lecture 3 hrs.)

490. Special Topics in the Natural Sciences (1-3)
Prerequisites: At least upper division standing in the College of Natural Sciences and Mathematics and consent of instructor. Faculty and student discussions and analysis of a current topic in the natural sciences.
May be repeated to a maximum of 8 units with different topics. Letter grade only (A-F). (Lecture 1-3 hrs.)

492. Internships in Natural Science (3)
Prerequisites: Major in the College of Natural Sciences and Mathematics, completion of 9 units of upper division science coursework, a 2.5 GPA overall or 2.75 GPA in the student's major, and consent of instructor prior to registration.
Qualifying students placed in a major or career-related assignment in private industry or at a public agency. May be placed in either a volunteer or paid work assignment. Research and intern positions may be used for students interested in pursuing a career in science education in K-12 schools.
Coding assignments will be arranged through the Career Development Center and the instructor. Final written report required. Class attendance and internships to be arranged by the instructor. Minimum of 120 hours of field experience required. Credit/No credit grading only. May be repeated to a maximum of 6 units.

498. Investigations in Natural Sciences and Mathematics (1-3)
Prerequisites: Consent of Instructor. Supervised study of current topics in the natural sciences or mathematics by a faculty member in the College of Natural Sciences and Mathematics.
Letter grade only (A-F).
NURSING
College of Health and Human Services

Director of Nursing: Louise Hackabay
Director of Graduate Program: David Kumrow
Director of Undergraduate Program: Beth Koey
Department Office: Nursing Building (NUR), Room 17
Telephone: (562) 985-4466

Faculty: Margaret Brady, Lyn Callahan, Natalie Chesser, Ellen Crooke, Rebecca Dahl, Kathryn Daehn, Carmen Galang, Louise Hackabay, Loyal Johnson (Emeritus), Itho Koey, Bonnie Kolopik (Emerita), Fadilah Kheany, David Kumrow, Ruth G. Mullins (Emerita), Barbara J. Nohr, Nancy Oliver (Emerita), Sharon L. Roberts (Emerita), Judy E. Smith, Christine Talmaide (Emerita), Barbara Whitley.

Students desiring information should contact the department office for dates of opening counseling sessions.

Career Possibilities
Office Nurse • Nurse Consultant • Public Health Nurse • School Nurse • Clinical/Staff Nurse • Industrial Nurse • Private Duty Nurse • Home Health Care Nurse • Clinical Specialist • Nurse Practitioner • Armed Forces Officer • Nurse Supervisor • Teacher • Training Director • Public Health Education (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Nursing

The baccalaureate program offers courses that prepare the student to become a professional nurse. Two distinct categories of students are eligible for admission: The "basic student" who enters the University without having completed a first level nursing program, the "registered nurse student" who, having completed a course of study at the first level, desires further study to expand her or his nursing capabilities to the BSN professional level.

Though each category of student enters at different levels, the terminal objectives of the nursing program are the same for all groups. The "basic student" is eligible to take the examination for licensure to practice as a registered nurse upon completion of the requirements. All graduates are recommended for certification as a public health nurse in the State of California. The program is accredited by the California State Board of Registered Nursing, and the Commission on Collegiate Nursing Education (Commission on Collegiate Nursing Education, 1 Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, phone: 202-887-6731).

The purpose of the bachelor's of science program in nursing is to prepare graduates to function as professional nurses in a variety of settings. Graduates are expected to have acquired foundations for continuing professional development. The curriculum is formulated to help the student develop understanding of self and others, stimulate intellectual curiosity and to develop an ability to work with colleagues to identify and resolve the health issues of individuals and families in a changing society. The professional nurse, while able to assess problems and intervene where health deviations exist, is committed to the role of maintaining health and preventing illness in self and others.

Bachelor of Science in Nursing – Basic
(code NRSGBS01) (135 units)

Admission Under Impaction

To be eligible for admission to the Nursing (Basic), applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses or their equivalent(s), each with a minimum grade of "C": BIOL 207 and 208, MICR 200, CHEM 140 (not included in the Enrollment Plan). Applicants must submit a supplemental application to the department by February 1 for the fall semester or by September 15 for the spring semester. Applicants must complete a test that assesses ability for logical thinking and problem solving (offered by the department at the start of each semester) before their application will be considered. Each applicant must schedule a personal interview with a designated member of the nursing faculty. Applicants must earn a minimum GPA of 2.5 in all Science and General Education pre-requisite courses. Applicants must complete the CSU General Education categories Quantitative Reasoning, Oral Communication, College Composition, and Critical Thinking using courses selected from a list provided by the CSULB Nursing Dept. (see www.csulb.edu). The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission on a space-available basis according to the faculty's judgment of their ability to succeed in the program.

Note: Late fees are charged for student supplies used throughout the nursing program.

Requirements

Prerequisite Natural Science Prerequisites: CHEM 140, BIOL 207, 208, MICR 200, or equivalent.
Prerequisite General Education Courses: English Composition, Quantitative Reasoning, Oral Communication, and Critical Thinking.
Support courses: BIOL 304, 305, NUTR 339, PSY 100, and SOC 100.
Criminal background check, health insurance and malpractice insurance are required for clinical coursework.
To be recommended to the California Board of Registered Nursing (BRN) to take the licensure exam as
a Registered Nurse, students must successfully complete the RN Prelicense Exit Assessment. The results of this assessment will not impact the conferring of the bachelor's degree.

Bachelor of Science in Nursing — Registered Nurse (code NRSGBS02) (120 units)

Admission Requirements
Registered Nurse Applicants are required to apply for admission to the University and do the following:
1. Hold a current license or be eligible for license to practice in California;
2. Graduation from an Accredited Associate Degree program or evaluation of diploma program for equivalency by an Accredited Associate Degree program;
3. Have 56 to 70 transferable units;
4. Maintain malpractice and health insurance throughout clinical coursework and submit to a criminal background check;
5. Attend a group counseling session for RN students and complete the RN application form;
6. Submit official transcripts of any previous college work to the Nursing Department;
7. Fulfill the Graduation Writing Assessment Requirement (GWAR) either prior to admission or within the first semester in the program.
Graduates of diploma schools of nursing are urged to seek information/admission to a community college that offers the opportunity to earn academic credit for a diploma nursing program.

Requirements
Support Courses: CHEM 140, BIOL 304, and an upper division statistics course (PSY 310 or EDP 419).
Nursing Courses: NRS 309, 312, 312L, 400, 402, 402L, 450, 451 and one of the following groups: 452A and 453L or 462 and 454L or 452D and 456L.

Course of Study
A specific combination of general education, prerequisites, nursing and elective courses totaling 129 units for the basic program and 120 units for the R.N. program are required for graduation. All nursing courses in the nursing program must be taken in sequence. In general, the number assigned to each nursing course indicates where it occurs in the sequence. Admission to the first course is by application which will be accepted upon successful attainment of the criteria listed above. The last date to file applications for each semester will be available in the Nursing Department. Progress in the nursing major requires that students maintain a cumulative 2.0 GPA on all units attempted and attain a minimum of a "C" grade in each of the nursing courses as well as all required support courses. The student who earns less than a grade of "C" must repeat that course prior to being admitted to the next course in the nursing course sequence. A nursing course may be repeated one time. The nursing sequence of courses requires a minimum of six semesters for the "basic student." A break in the sequence of nursing courses necessitates readmission on a space-available basis.

Graduate Programs

Master of Science in Nursing
The master of science degree is available to qualified students who desire advanced preparation in a variety of clinical specialty areas. The program is approved by the Board of Registered Nursing, and accredited by the Commission on Collegiate Nursing Education (1 Dupont Circle, NW, Suite 530, Washington, DC, 20036-1120; phone: 202-867-6751).
The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health.
The focal point in this curriculum is the nursing process with strong components of clinical medical knowledge complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of student's choice.
The graduate will have the knowledge and skill to function as an advanced practice nurse in one of several specialty areas. Nursing research skills and the application of nursing theory to practice are major emphases of the curriculum. Each applicant should request a copy of the official transcript of all college course work be sent to the department graduate program of nursing in addition to the copies required by the Office of Admissions and Records.

Prerequisites
1. A bachelor's degree in nursing preferred: A bachelor's degree in a related field will be considered;
2. Current license to practice as a registered nurse in California;
3. PHN Certificate needed for concurrent MSN/MPP program;
4. Admission to graduate standing in nursing at the University;
5. An upper division or graduate course in statistics;
6. A physical assessment course which includes clinical practice (all specialty areas except concurrent MSN/MPP and MSN/MS/HC);
7. An upper division or graduate level course in pathophysiology (all specialty areas except concurrent MSN/MPP and MSN/MS/HC);
8. An overall GPA of 2.75 or better in the last 60 units of the undergraduate BSN Program.

Advancement to Candidacy
1. Satisfy the general University requirements for advancement to candidacy;
2. Completion of all graduate deficiencies;
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
4. Approval of the department graduate advisor and Director of Graduate Studies and Research, College of Health and Human Services.
The M.S. in Nursing requires completion of the required courses in one of the following specialty areas: Adult-Geriatric, Family, Pediatric, Psychiatric-Mental Health, Women's Health Care.

588 • Nursing • 2009/2010 CSULB Catalog
Master of Science in Nursing (code NRSCGS01)

Core Requirements
1. Completion of a minimum of 38 units in approved upper division and graduate courses.
2. An overall GPA of 3.0 or better;
3. Completion of an approved thesis, directed project or comprehensive examination.

Nurse Practitioner Specialty Areas: Family, Pediatric, Adult-Geriatric, Women’s Health Care, and Psychiatric-Mental Health

Requirements
Core courses: NRSG 510, 520, 530, 530L, 540, 550, 560, 596.
Theorists for Advance Practice Nursing I and II: NRSG 667 and 668, or 682 and 683, or 684 and 685, or 686 and 687, or 688 and 689
Clinical Studies in Advance Practice Nursing I-V: NRSG 667AB and 668AB, or 682AB and 683AB, or 684AB and 685AB, or 686AB and 687AB, or 688AB and 689AB, or 692 or 695 or 698

Master of Science in Nursing/Master of Public Health (code NRSGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus of primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies. The curriculum will prepare graduates for eligibility for a California Clinical Nurse Specialist certification and for taking the national Clinical Nurse Specialist certification examination.

Prerequisites
1. An ethics course
2. A cultural diversity course
3. Graduate Record Examination (GRE) - verbal and quantitative scores.
4. Current professional resume describing applicant’s relevant experience.

Requirements
1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MCRG 429; HSC 503 or BIOL 565; HSC 508, 529, 535, 570, 581, 624, 625; NRSG 560, 565, 570, 671, 672, 670L, 671L, 672L; NRSG 596 or HSC 696; NRSG 698 or HSC 697.
2. An overall GPA of 3.0 or better in all courses
3. A thesis or a directed project (Department of Health Science only)
4. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met.

Master of Science in Nursing/Master of Science in Health Care Administration (code NRSGMC01)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health agencies. An important career path for advanced practice nurses is as nurse executive in the diversified segments of the health care industry including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college courses be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

Prerequisites
1. Public Health Nurse Certificate, or eligibility for certificate in California.
2. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
3. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
4. Current professional resume describing the applicant’s relevant experience.

Advancement to Candidacy
A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status.
Requirements for Completion
1. A minimum of 56 units of approved Nursing and Health Care Administration upper division and graduate level courses including: The Program of Study: NRSG 559, 560, 596; 676; 676L; 677; 677L; 678; 678L; 692 or 696, HCA 502, 505, 510, 524, 530, 535, 550.
2. An overall GPA of 3.0 or better in all courses.
3. Directed project or a thesis.
4. *Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.
5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.
   * 60% of units must be earned in residence.

Master of Science in Nursing, Option in Clinical Nurse Specialist – Adult (code NRSGMS02)

This program is designed to expand the scope of nursing practice within acute and chronic care settings. The courses are designed to increase the graduate's clinical skills and knowledge in order to enhance the opportunities for career advancement and quality patient care. The programs was developed to allow each student to identify and define their clinical specialization in acute and chronic care areas such as perioperative, oncology, respiratory, cardiovascular, neurological, medical surgical, or rehabilitative nursing. The programs will prepare graduates to practice in collaborative and leadership roles within hospitals, clinics and community health care organizations as advanced practice nurses. The curriculum will prepare graduates for eligibility for taking the national clinical nurse specialist certification examination.

Prerequisites
   Bachelor's degree in nursing preferred. A bachelor's degree in a related field will be considered if the applicant has completed an upper division public health nursing course and meets all other prerequisites.
   1. Current license to practice as a registered nurse in California.
   2. Admission to graduate standing in nursing at California State University, Long Beach.
   3. Upper Division or graduate course in statistics.
   4. Physical assessment course which includes clinical practice taken within the past five years.
   5. Upper Division course in pharmacology.
   6. Overall GPA of 2.75 or better in the last 60 units of the undergraduate BSN Program.

Requirements for Completion
1. A minimum of 47-48 units of approved upper division and graduate level courses including:
   Core Requirements: NRSG 511A, 521A, 530, 530L, 540, 550, 560, 596
   Concurrent Requirements: NRSG 556A, 556B, 556L
   Clinical Courses Requirements: NRSG 673, 673L, 674, 674L, 675, 675L
   Cumulative Course Requirement: NRSG 698 or 692
2. An overall GPA of 3.0 or better in graduate coursework.
3. Directed project or thesis.

Nurse Practitioner Certificate (code NRSGCT01)

A Nurse Practitioner Certificate is awarded to students who complete 31 units of post-masters course work in one of four Nurse Practitioner specialty areas. Applications from students who hold a masters degree in nursing as a nurse practitioner will be reviewed individually.

Admission
1. Copies of transcripts of Baccalaureate in Nursing and Masters in Nursing degrees.
2. Copy of State of California RN licensure.
3. Three letters/checklists of references
4. Completion of the Department of Nursing Graduate Program Application.

Family Nurse Practitioner

Requirements
   Completion of NRSG 510, 520, 530, 530L, 540, 550, 560, 682, 682 A&B, 683, 683 A&B.

Pediatric Nurse Practitioner

Requirements

Adult-Geriatric Nurse Practitioner

Requirements
   Completion of NRSG 510, 520, 530, 530L, 540, 550, 560, 696, 696 A&B, 697, 697 A&B.

Psychiatric-Mental Health Nurse Practitioner

Requirements
   Completion of NRSG 510, 520, 530, 530L, 540, 550, 560, 688, 688 A&B, 689, 689 A&B.

Women’s Health Care Nurse Practitioner

Requirements
   Completion of NRSG 510, 520, 530, 530L, 540, 550, 560, 688, 688 A&B, 689, 689 A&B.

School Nurse Credential (code 600)

The Post-Baccalaureate School Nurse Services Credential Program consists of 24 units of specific coursework that prepare nurses who have completed a bachelor's degree in nursing to be effective providers of health care within the school setting. Students will develop practical and theoretical expertise in the field of school nursing. This allows them to initiate, coordinate, maintain and evaluate a comprehensive health program so that children's ability to learn in school is maximized. The Post-Baccalaureate School Nurse Services Credential Program at California State University, Long Beach was developed for nurses who seek only the credential.

Admission Requirements
1. Completion of Post-Baccalaureate Application for School Nurse Services Credential Program.
2. Official transcript of Baccalaureate degree in nursing from an accredited university. Candidates must have a minimum overall GPA of 2.75 in their undergraduate program.
4. Copy of current unexpired cardiopulmonary resuscitation card (adult, child, and infant) and copy of unexpired first aid card.
5. Basic Physical Assessment course completed within 5 years.
6. A one-page written statement describing motivation and purpose for obtaining the Post-Baccalaureate School Nurse Service Credential.
7. Three letters of recommendation.

**Requirements**

Completion of 24 units of course work with a grade of "B" or better.

Required: (18 units): NRSG 533, 536 and 536L, H SC 430, EDSP 350, C D 373.
Elective: 6 units from the following: FCS 409, EDP 432, H SC 427, H SC 460, C D 432.

**Health Services (School Nurse) Credential (code 600)**

The Health Services (School Nurse) credential is required of registered nurses working in the California school system.

**Admission**

1. Copies of transcripts of Baccalaureate in Nursing and Masters in Nursing (with a Pediatric Nurse Practitioner or Family Nurse Practitioner specialty) degrees;
2. Copy of State of California RN licensure and entitlement as a Nurse Practitioner;
3. Three letters/checklists of reference;
4. Completion of the Department of Nursing Graduate Program Application.

**Requirements**

Completion of the following with a grade of "B" or better: NRSG 680C and 680L, H SC 430; CD 373.

**Courses (NRSG)**

**LOWER DIVISION**

199. Special Topics (3)
Overview of health care professions with a primary focus on the nursing profession, including nursing history, educational preparation and the roles of nurses, ethics, patients’ and nurses’ Bill of Rights, medical terminology and math for health care professions.
Letter grade only (A-F).

200. Introduction to Nursing Health Care (3)
Prerequisites: Admission to the nursing program. Corequisites: NRSG 200L, 200, BIOL 304, 305, NUTR 339 or consent of instructor. Support courses: BIOL 304 and SOC 100 or PSY 100.
Development of concepts of high level wellness and self care. Introduction to physical and social science principles which provide basis for beginning level nursing theory and practice. Introduction to nursing process and framework for nursing practice.
Letter grade only (A-F). (Lecture-Discussion, 3 hours)

200L. Introduction to Nursing Health Care Clinical (3)
Prerequisites: Admission to the nursing program. Corequisites: NRSG 200, 200L, BIOL 304, 305, NUTR 339 or consent of instructor. Support courses: BIOL 304 and SOC 100 or PSY 100.
Designed to provide guided utilization of beginning level theory and skill in a simulation laboratory. Opportunity provided to experience clinical practice based on concepts of nursing process and framework for nursing practice.
Credit/No Credit grading only. Credit reflects work at the level of "B" or better. May be repeated to a maximum of 8 units. Course fee may be required. (Laboratory 9 hours)

202. Health Care Communication (2)
Prerequisites: Admission to the nursing program, or consent of instructor. Corequisites: NRSG 200, 200L, BIOL 304, 305, NUTR 339 or consent of instructor. Support courses BIOL 304 and SOC 100 or PSY 100.
Conceptual foundations for the nurse-client relationship, therapeutic communication, responding to special client needs and professional issues within a clinically oriented cultural framework.
Letter grade only (A-F). (Lecture-Discussion, 2 hours)

250. Intermediate Nursing Health Care (3)
Prerequisites: NRSG 260, 260L, BIOL 304, 305, NUTR 339, or consent of instructor. Corequisite: NRSG 250L, 250, 250L, 312, 312L, or consent of instructor; satisfactory level ATI testing including remediation as appropriate. Support courses: SOC 100 or PSY 100.
Development of intermediate level theory of physical and psychosocial wellness and accountability. Application of recognized physical and social science principles and current research findings to intermediate level nursing theory and skills essential to actualization of nursing process.
Letter grade only (A-F). (Lecture-Discussion 3 hours)

250L. Intermediate Nursing Health Care Clinical Studies (3)
Prerequisites: NRSG 250, 250L, 250, BIOL 304, 305, NUTR 339, or consent of instructor. Corequisites: NRSG 250L, 312, 312L, 260L, 260L, or consent of instructor. Support courses: SOC 100 or PSY 100.
Guided laboratory experience to assist in synthesizing intermediate theory and gaining skills in application of selected nursing process activities in simulation and in direct patient care.
Letter grade only (A-F). (Laboratory 9 hours) Course fee may be required.

260. Adult Health Care (2)
Prerequisites: NRSG 260, 260L, 260, BIOL 304, 305, NUTR 339, or consent of instructor. Corequisites: NRSG 260L, 250, 250L, 312, 312L, or consent of instructor. Support courses: SOC 100 or PSY 100.
Study of unique needs of aging population. It includes study of gerontological concepts, principles, and theories. Focus on health promotion and delivery of care within framework of nursing process.
Letter grade only (A-F). (Lecture-Discussion)

260L. Adult Health Care Clinical Studies (2)
Prerequisites: NRSG 260, 260L, 260, BIOL 304, 305, or consent of instructor. Corequisites: NRSG 250L, 250, 250L, 312, 312L, or consent of instructor. Support courses: SOC 100 or PSY 100.
Provides experience in applying nursing process to care of aging client in a variety of settings and opportunity for validation of gerontological concepts, principles and theories.
Letter grade only (A-F). (Laboratory 9 hours)

2009/2010SULB Catalog • Nursing • 591
309. Dimensions of Professional Nursing (2)
Prerequisites: Admission to the ADN to BSN program. Support courses: CHEM 140, BIOL 304.
Focuses on analysis of transition from a technical to a professional baccalaureate prepared nurse. Content includes: program and University orientation, role changes, ethics, dimensions of nursing, and training in completion of a research based paper and presentation.
Letter grade only (A-F). (Lecture-Discussion)

312. Health Assessment (2)
Prerequisites: NRSG 200, 200L, 202, NUR 339, BIOL 304, 305, or consent of instructor. Corequisites: NRSG 250, 250L, 260, 260L, 312, or consent of instructor. Support courses: SOC 100 or PSY 100.
Covers techniques of history taking and physical examination of healthy individuals. These techniques are used by nurse in identification of patient problems.
Letter grade only (A-F). (Laboratory-Discussion)

312L. Physical Assessment for Nurses Lab (1)
Prerequisites: NRSG 200, 200L, 202, NUR 339, BIOL 304, 305, or consent of instructor. Corequisites: NRSG 250, 250L, 260, 260L, 312, or consent of instructor. Support course: SOC 100 or PSY 100.
Provides opportunity to apply techniques of history taking and physical examination which are used by nurses in identification of patient problems. Includes demonstration and practice of physical assessment methodology.
(Technical activities and laboratory 2 hours, 1 hour independent student practice). Letter grade only (A-F).

331. Critical Care Nursing (2)
Prerequisites: PSY 100, SOC 100, NRSG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSG 301, 331L, 341, 341L, or consent of instructor. Support courses: NRSG 301, 331, 341, 341L, or consent of instructor. Satisfactory level AT1 testing including remediation as appropriate.
Advanced study of acute and critically ill patient. Focuses on complex knowledge required to provide comprehensive nursing care to patients and families experiencing critical illness or injury. Cultural needs of patients and families are emphasized.
Letter grade only (A-F). (Lecture-Discussion)

331L. Critical Care Nursing Clinical Studies (3)
Prerequisites: PSY 100, SOC 100, NRSG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSG 301, 331, 341, 341L, or consent of instructor. Satisfactory level AT1 testing including remediation as appropriate.
Focuses on application of content presented in NRSG 331 in clinical setting. Emphasis on critical thinking and collaboration with other members of health care team. Will gain experience using advanced technology in this specialized area of nursing.
Letter grade only (A-F). (Laboratory 9 hours)

341. Psychiatric/Mental Health Nursing (3)
Prerequisites: PSY 100, SOC 100, NRSG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSG 301, 331, 331L, 341L, or consent of instructor. Satisfactory level AT1 testing including remediation as appropriate.
Theory for psychiatric mental health nursing. Exploration of psychosocial concepts, cultural, ethical, economic, and legal influences on mental health including factors related to wellness, illness of individuals and family groups, development of self-awareness and of the professional role in psychiatric mental health nursing.
Letter grade only (A-F). (Lecture-Discussion)

341L. Psychiatric/Mental Health Nursing Clinical (3)
Prerequisites: PSY 100, SOC 100, NRSG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSG 301, 331, 331L, 341, or consent of instructor. Satisfactory level AT1 testing including remediation as appropriate.
Provides clinical experiences to apply theories learned in NRSG 341. Will utilize nursing process to apply theories and implement care for clients with psychiatric/mental health issues.
Letter grade only (A-F). (Lecture-Discussion)

353. Legal Aspects of Health Care (2)
Prerequisites: NRSG 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSG 361, 361L, 372, 372L, or consent of instructor.
Presents legal duties and responsibilities of nurses in delivery of health care services. Professional licensure regulations, scope of nursing practice, and ethical issues related to nursing practice are emphasized.
Letter grade only (A-F).

361. Child Health Care (4)
Prerequisites: NRSG 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSG 353, 353L, 361L, 372, 372L, or consent of instructor; satisfactory level AT1 testing including remediation as appropriate.
Theory for pediatric nursing including developmental theories and application of evidence based practice to care for well and ill children, birth through adolescence. Pathophysiological conditions, nursing interventions, family centered care, cultural diversity, physical, social, emotional, and cognitive development are addressed.
Letter grade only (A-F).

361L. Child Health Care Clinical (3)
Prerequisites: NRSG 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSG 353, 353L, 361L, 372L, 372L, or consent of instructor; satisfactory level AT1 testing including remediation as appropriate.
Opportunities to apply concepts from NRSG 361 with a variety of children and their families. Will assess physical, psychological, and cultural issues while planning, implementing, and evaluating care appropriate nursing care for well and ill children.
Letter grade only (A-F). (Laboratory 9 hours)

372. Health Care of the Childbearing Family (3)
Prerequisites: NRSG 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSG 353, 353L, 361L, 372L, or consent of instructor; satisfactory level AT1 testing including remediation as appropriate.
Nursing care of the childbearing family including application of life span developmental theories. Concepts of health promotion/ disease prevention, cultural diversity, and psychosocial influences are included as well as gynecological, obstetric, and women's health nursing care.
Not open for credit to students with credit in NRSG 371. Letter grade only (A-F).

372L. Women's Health Care Clinical (3)
Prerequisites: NRSG 331, 331L, 341, 341L, or consent of instructor. Corequisites: NRSG 353, 353L, 361L, 372L, or consent of instructor; satisfactory level AT1 testing including remediation as appropriate.
Provides opportunity to apply theoretical concepts of special physiological, psychological, social, spiritual and cultural needs of women, families and newborns during antepartum, intrapartum, postpartum and newborn transition period in a supervised clinical setting.
Not open for credit to students with credit in NRSG 371L. Letter grade only (A-F). (Laboratory 9 hours)
400. Health Care Delivery Systems (3)
Prerequisites: NRSG 353, 361, 361L, 372, 372L or consent of instructor; for RNs: NRSG 309, BIOL 304, or consent of instructor.
Corequisites: NRSG 402, 402L, or consent of instructor.
Study of health care delivery systems with emphasis on role of nursing, laws, well-defined problems and their causes, and in-depth study of impact of political, economic and social, ethical, and international issues of health care system.
Letter grade only (A-F).

402. Community Health Nursing (4)
Prerequisites: NRSG 353, 361, 361L, 372, 372L, or consent of instructor; for RNs: Nursing 312, 312L, BIOL 304, or consent of instructor.
Corequisites: NRSG 400, 402L, or consent of instructor; satisfactory level ATI testing including remediation as appropriate.
Focuses on diverse communities, aggregates, and populations to impact health and quality of life as it relates to individuals, families, populations, and systems. Emphasis on prevention and the greater good of the community/population. Course covers disaster preparedness, disaster response.
Letter grade only (A-F).

402L. Community Health Nursing Clinical Studies (3)
Prerequisites: NRSG 353, 361, 361L, 372, 372L, or consent of instructor; for RNs: BIOL 304, or consent of instructor.
Corequisites: NRSG 400, 402, or consent of instructor; satisfactory level ATI testing including remediation as appropriate.
Clinical application of population-focused public health nursing practice with diverse communities. Examination of health and quality of life related to individuals/families, populations, and systems. Emphasis on prevention and the greater good of the community/population. Course covers pertinent health issues within respective clinical settings.
Letter grade only (A-F). (Laboratory 9 hours)

450. Nursing Research (3)
Prerequisites: NRSG 400, 402, 402L. Corequisites: NRSG 451, 452A and 453L or 452B and 454L or 452D and 456L.
Emphasizes application of research theory to evidence-based nursing practice, including ethics in nursing research and research process.
Letter grade only (A-F). (Lecture-Discussion)

451. Nursing Leadership and Management (2)
Prerequisites: NRSG 400, 402, 402L. Corequisites: NRSG 450, 452A and 453L or 452B and 454L or 452D and 456L.
Satisfactory level ATI testing including remediation as appropriate.
Principles of leadership and management as they apply to front line management positions in healthcare. Emphasis understanding role and responsibilities of professional nurse as leader and manager of patient care services within a variety of settings.
Letter grade only (A-F). (Lecture-Discussion). Not open for credit to students with credit in NRSG 400L.

452A. Advanced Nursing in Critical Care (2)
Prerequisites: NRSG 400, 402, 402L, or consent of instructor.
Corequisites: NRSG 451, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Emphasizes and utilizes advanced concepts and theories in critical care/emergency department, management and leadership applied to selected populations. Integration of critical care/emergency department nursing knowledge essential to new professional roles.
Letter grade only (A-F). (Clinical Process)

452B. Advanced Maternal Child Health in Nursing (2)
Prerequisites: NRSG 400, 402, 402L, or consent of instructor.
Corequisites: NRSG 451, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Emphasizes advanced concepts in maternal child nursing and theories of leadership and management applied to selected maternal child settings. Content focuses on a variety of maternal child populations.
Letter grade only (A-F). (Clinical Process)

452D. Advanced Nursing in Community Mental Health (2)
Prerequisites: NRSG 400, 402, 402L, or consent of instructor.
Corequisites: NRSG 450L, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Emphasizes and utilizes advanced concepts and theories in community, oncology and mental health nursing. This course utilizes management and leadership theories as a critical element in caring for a variety of patients.
Letter grade only (A-F). (Clinical Process)

453L. Advanced Nursing in Critical Care Clinical Studies (4)
Prerequisites: NRSG 402, 402L, or consent of instructor.
Corequisites: NRSG 452A, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Provides clinical experiences in critical care/emergency department health care delivery systems and application of theories of management and leadership.
Letter grade only (A-F). (Laboratory 12 hours)

454L. Advanced Nursing in Maternal-Child Clinical Studies (4)
Prerequisites: NRSG 402, 402L, or consent of instructor.
Corequisites: NRSG 452A, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Provides clinical experiences in application of advanced concepts of maternal-child nursing as well as management and leadership theories.
Letter grade only (A-F). (Laboratory 12 hours)

456L. Advanced Nursing in Community Mental Health Clinical (4)
Prerequisites: NRSG 402, 402L, or consent of instructor.
Corequisites: NRSG 452D, 450, 451, or consent of instructor.
Satisfactory level ATI testing including remediation as appropriate.
Provides advanced experiences in a clinical setting. Utilizes knowledge gained through out nursing program to provide care to patients in hospital and community.
Letter grade only (A-F). (Laboratory 12 hours)

456. NCLEX-RN: Preparatory Course (1)
Prerequisites: NRSG 400, 402, 402L, Co Requisites: NRSG 450, 451, 452A and 453L or 452B and 454L or 452D and 456L.
Provides the student with competencies and strategies to enhance transition from student to baccalaureate prepared nurse. Students gain understanding of the role of the National Council of State Boards of Nursing (NCSBN) in developing and administering the RN licensing examination.
Credit/No Credit grading only. Credit reflects work at the level of "D" or better.

481. Parenting (3)
Prerequisites: Completion of GE foundation requirements, one or more exploration courses, and upper division standing.
Effective parenting with emphasis on common parenting concerns and developmental tasks of parents and children.

482. Health Assessment of the Aging Client (5)
Prerequisites: GERH 400 or equivalent and upper standing or consent of instructor.
Assessment of physical, psycho-social status of aging client as they affect health and well being, and identification of actual or potential health related problems using a variety of tools and techniques.
Same course as GERH 482. Not open for credit to students with credit in GERH 482. (Lecture-Discussion, 3 hrs.)
490. Independent Study (1-3)  
Prerequisite: Consent of any nursing faculty. Students who have made arrangements with a faculty advisor for appropriate learning objectives may enroll.  
May be repeated to a maximum of 6 units.

499 / 599. Special Topics in Nursing (1-3)  
Prerequisite: Consent of instructor.  
Topics consistent with contemporary nursing or curricular trends will be announced each semester.  
May be repeated to a maximum of 3 units with different topics.

GRADUATE LEVEL

502. Genetics in Nursing Practice (3)  
Prerequisites: Senior standing or graduate status or consent of instructor.  
Overview of genetics implications for nurses as they provide health services to clients of all ages, diverse ethnic, cultural, lifestyle and geographic areas. Will explore basic mechanisms of genetic inheritance and how genetics has an impact on health promotion, disease prevention and policy implications.  
Letter grade only (A-F).

505. Holistic Nursing Interventions Across the Lifespan (3)  
Prerequisites: Senior standing or graduate status.  
Will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Basics of practicing modalities which will enable them to begin incorporating these modalities into their practice.  
Letter grade only (A-F).

510. Advanced Pathophysiology for Advanced Practice Nursing (2)  
Prerequisite: Admission to the graduate nursing program and completion of upper division pathophysiology course, or consent of instructor.  
Builds upon knowledge developed in undergraduate Pathophysiology course. Integration and communication between organs systems will be explored to gain greater knowledge of disturbances at cellular level which predictably result in organ and system dysfunction.  
Prerequisite to NRSG 660 series. Letter grade only (A-F). Lecture-Activity.

511A. Advanced Pathophysiology for Clinical Nurse Specialists (2)  
Prerequisite: Admission to the Acute Care Adult CNS graduate nursing program or consent of instructor.  
Examines the principles underlying the disturbance of homeostatic mechanisms. Disturbances at the cellular level are explored to enable the student to build an understanding of resultant aberrant organ and system function.  
Letter grade only (A-F).

520. Advanced Pharmacology for Advanced Practice Nursing (3)  
Prerequisite: Admission to the graduate nursing program, or consent of instructor.  
Doses with use of drugs in providing perinatal care, family planning services and/or routine health care.  
Prerequisite to NRSG 660 series. Letter grade only (A-F).

521A. Advanced Pharmacology for Clinical Nurse Specialists (CNS) (3)  
Prerequisite: Admission to the Acute Care Adult CNS graduate nursing program.  
Designed to provide advanced knowledge about pharmacological agents utilized in the management of a variety of acute care clinical situations. Content will focus on the role of CNS.  
Letter grade only (A-F).

530. Advanced Physical Assessment for Advanced Practice Nursing (2)  
Prerequisites: Admission to the graduate nursing program and completion of basic physical assessment course, or consent of instructor.  
Designed for advanced practice nurses and a prerequisite to each specialty track. Through classroom instruction, web based instruction and self-assessment, and on-site clinical review and practice, advanced assessment and diagnostic skills are developed.  
Prerequisite to NRSG 680 series. Letter grade only (A-F).  
Technical activity and laboratory 4 hours.

530L. Advanced Physical Assessment Laboratory (1)  
Prerequisites: Admission to graduate program or consent of instructor. Corequisite: NRSG 530.  
Application of theoretical knowledge of advanced physical assessment in supervised clinical settings appropriate to the specialty of the advanced practice nursing student.  
Credit/No Credit grading only.  
Technical activity and laboratory 3 hours.

535. Physical Assessment in Early Childhood through Adolescence (3)  
Prerequisite: Admission to the School Nurse Credential Program or consent of instructor.  
Presents theoretical content, methods and processes, which are applicable to the clinical practice of nursing in the school setting.  
Explores the competencies for primary health assessment of children from infancy through adolescence.  
Letter grade only (A-F). (2 hours lecture/discussion and 3 hours laboratory)

536. Theories and Practice of School Nursing (3 units)  
Prerequisites: Admission to the School Nurse Credential Program, NRSG 535, CD 535 or 431/531 and HSC 430, or consent of instructor. Corequisite: NRSG 536L.  
Focuses on normal/pathological conditions and the organizational, philosophical, and legal aspects in the delivery of school health programs as well as emphasizing the theoretical bases for the practice of school nursing in the school setting.  
Letter grade only (A-F).

536L. School Nursing Clinical (3 units)  
Prerequisites: Admission to the School Nurse Credential Program, NRSG 535, CD 535 or 431/531 and HSC 430, or consent of instructor. Corequisite: NRSG 536.  
The clinical component of the school nurse program. The student will demonstrate the application of theory within the school setting.  
The focus of the course is on the implementation of the role of the school nurse.  
Credit/No Credit grading only. (9 hours clinical/week)

540. Health Care Economics, Policy, and Management for Advanced Practice Nursing (2)  
Prerequisites: Admission to graduate nursing program or consent of instructor.  
Designed to provide an understanding of economic and political environment of U.S. healthcare system. Principles of economic and organizational theory are explored within context of advanced practice role. Contemporary issues are explored.  
Prerequisite to NRSG 680 series. Letter grade only (A-F). (Lecture-Discussion)

550. Human Diversity and Psychosocial Issues in Health Care for Advanced Practice Nursing (2)  
Prerequisites: Admission to graduate nursing program or consent of instructor.  
Focuses on understanding and developing advanced practice nurse in providing culturally competent care to individuals, families, groups, and communities with diverse cultural backgrounds.
Patterns of human interaction that foster and neglect health and quality of life are analyzed. Contemporary issues are explored. Prerequisite to NRSG 680 series. Letter grade only (A-F). (Lecture-Discussion)

551A. Spanish Language Competency for Advanced Practice Nurses (3)
Prerequisite: Consent of instructor. Provides foundational knowledge and skills to enable advanced practice nurses (APN) to learn and apply principles of cultural competency and Spanish language skills to role of nurse practitioner in conducting a health history and physical assessment for diverse Spanish speaking populations.

551B. Spanish Language Competency for Advanced Practice Nurses (3)
Prerequisite: NRSG 551A or consent of instructor. Principles of cultural competency and Spanish language skills for diagnosing and treating Spanish speaking patients: focuses on hematology, musculoskeletal II, cardiovascular, neurology, dermatology I & II, family violence/substance abuse, nutrition/weight management, developmental disorders, genetics, mental health, ophthalmology, and infectious diseases.

555A. Conditions of Learning and Instruction in Nursing (3)
Application of theories of learning and instruction to patient/student teaching-learning situations. Content covered includes conditions of learning, models of instruction, transfer of learning, behavior modification techniques, variables influencing learning and instruction, and evaluation of instruction. Letter grade only (A-F).

555B. Curriculum Development in Nursing (3)
A systematic study of principles of curriculum development as they apply to different types of nursing programs. Focuses on relationship among philosophy, objectives, selection and organization of learning experiences and evaluative process. Letter grade only (A-F).

555L. Theoretical Concepts Laboratory of Nursing Education (1-4)
Prerequisites: NRSG 556A or consent of instructor. Instructional skills and application of theories of learning and instruction to practice and teaching of nursing within a supervised practice teaching situation. Reference to ways teaching skills relate to broader educational issues such as teaching/learning theory. May be repeated to a maximum of 4 units. Letter grade only (A-F).

559. Nursing Administration (3)
Application of management theories to administration, organizational theory, structure and culture, leadership theories and decision-making processes in clinical settings. Legal-ethical parameters of nursing administration are threaded throughout course. Letter grade only (A-F).

560. Professional Foundations of Theoretical and Professional Roles in Advanced Nursing Practice (2)
Prerequisites: Admission to graduate nursing program or instructor consent. Study of theoretical frameworks and professional roles influencing advanced practice nursing. Analyze and implement major theoretical frameworks for advanced practice. Begin dynamic process of role development by exploring role boundaries and collaborative practice. Prerequisite course to NRSG 580 series. Letter grade only (A-F). (Lecture-Discussion)

565. Theories of Community/Public Health Nursing (3)
Prerequisites: Admission to graduate nursing program and NRSG 560, or consent of instructor. Analysis, synthesis and application of theories from nursing, public health, and other disciplines to community/public health nursing practice. Exploration of population-focused theory and provision of health promotion and prevention services to underserved populations and communities. (Seminar, 3 hours) Letter grade only (A-F).

590. Independent Study (1-3)
Prerequisite: Consent of a nursing faculty member. Independent research under supervision of a nursing faculty member. Letter grade only (A-F).

596. Research Methods in Nursing (3)
Prerequisites: Admission to the graduate nursing program and upper division statistics, or consent of instructor. Nursing research process, including use and testing of nursing theories, development of research proposals including conceptualization of problem, literature search, study design, data collection, analysis and interpretation of findings. Letter grade only (A-F). (Lecture-Discussion.)

599. J499. Special Topics in Nursing (1-3)
Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. Credit may be earned each time a new topic is offered. Letter grade only (A-F).

660B. Theoretical Base for Advanced Nursing Practice (3)
Prerequisites: Admission to graduate nursing program. Pathophysiology, and Physical Assessment, or consent of instructor. Relationship of psycho-social theory to health care with an emphasis on application of theory to clinical practice. Various sections will focus on different areas of clinical interest. Letter grade only (A-F).

667. Women's Health Theories for Advanced Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 667A, 667B. Epidemiology, etiology, differential diagnoses, management, and prevention of common health problems of women before, during, and after the childbearing cycle in ambulatory health care settings with a focus on the role of the nurse practitioner. Letter grade only (A-F).

667A. Women's Health Clinical Studies for Advanced Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program in the women's health nurse practitioner specialty and NRSG 510, 520, 530, 530L, 540, 550, 560, and 596, or consent of instructor. Corequisites: NRSG 667, 667B. One of two courses designed to apply theoretical knowledge and laboratory skills in the management of common health problems of women before, during, and after the childbearing cycle in ambulatory health care settings. Emphasizes the role of the nurse practitioner in gynecology. Letter grade only (A-F). (Laboratory 9 hours)

667B. Women's Health Clinical Studies for Advanced Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program in the women's health nurse practitioner specialty and NRSG 510, 520, 530, 530L, 540, 550, 560, and 596, or consent of instructor. Corequisites: NRSG 667, 667A. One of two courses designed to apply theoretical knowledge and laboratory skills in the management of common health problems of women before, during, and after the childbearing cycle in ambulatory health care settings. Emphasizes the role of the nurse practitioner in obstetrics. Letter grade only (A-F). (Laboratory 9 hours)

2009/2010SULB Catalog • Nursing • 595
668. Women's Health Theories for Advanced Practice Nursing II (3)
Prerequisites: Admission to the graduate nursing program and NRSG 667, 667A, 667B, or consent of instructor. Corequisites: NRSG 668A, 668B.
Epidemiology, etiology, differential diagnoses, management, and prevention of complex health problems of women before, during, and after the childbearing cycle in ambulatory health care settings with a focus on the role of the nurse practitioner.
Letter grade only (A-F).

668A. Women's Health Clinical Studies for Advanced Practice Nursing III (3)
Prerequisites: Admission to the graduate nursing program and NRSG 667, 667A, 667B, or consent of instructor. Corequisites: NRSG 668, 668B.
One of two courses designed to apply theoretical knowledge and laboratory skills in the management of complex health problems of women before, during, and after the childbearing cycle in ambulatory health care settings. Emphasizes the role of the nurse practitioner in gynecology.
Letter grade only (A-F). (Laboratory 9 hours)

668B. Women's Health Clinical Studies for Advanced Practice Nursing IV (3)
Prerequisites: Admission to the graduate nursing program and NRSG 667, 667A, 667B, or consent of instructor. Corequisite: NRSG 668, 668A.
One of two courses designed to allow the student to apply the knowledge and skills of caring for complex health problems of women before, during, and after the childbearing cycle in ambulatory health care settings with a focus on the role of the nurse practitioner. This clinical course focuses on obstetrics.
Letter grade only (A-F).

670. Community Health Theories for Advanced Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 665, or consent of instructor. Corequisites: NRSG 670L.
Examination of Community/Public Health Nursing roles in health program and policy planning for aggregates, populations and communities, theories of community programs and health policy planning explored for underserved and ethically diverse populations.
(Seminar 3 hours). Letter grade only (A-F).

670L. Advanced Community/Public Health Nursing Clinical I (3)
Prerequisites: Admission to graduate nursing program and NRSG 665 or consent of instructor.
Experiences in selected community health settings to prepare for advanced practice emphasis on assessment, planning, and policy development for culturally diverse populations.
Credit/No Credit grading only. (Clinical 9 hours)

671. Community Health Theories for Advanced Practice Nursing II (3)
Prerequisites: NRSG 670 and 670L or consent of instructor. Corequisite: NRSG 671L.
Examination of the Community/Public Health Nursing (CPHN) roles in health program and policy implementation for aggregates, populations, and communities. Theories of community health programs and health policy implementation will be explored for underserved and ethically diverse populations.
(Seminar 3 hours). Letter grade only (A-F).

671L. Advanced Community/Public Health Nursing Clinical II (3)
Prerequisite(s): NRSG 670 and 670L, or consent of instructor. Corequisite: NRSG 671L.
A laboratory course offering clinical experiences in selected community health settings to prepare the student for advanced nursing practice.
(Clinical 9 hours). Letter grade only (A-F).

672. Community Health Theories for Advanced Practice Nursing III (3)
Prerequisites: NRSG 671, 671L, or consent of instructor. Corequisite: NRSG 672L.
Focus on leadership role of the CPHN in the integration of nursing and public health theories in evaluation and implementation strategies for health programs and policies for underserved and ethically diverse populations.
Letter grade only (A-F).

672L. Advanced Community/Public Health Nursing Clinical III (3)
Prerequisite(s): NRSG 671, 671L or consent of instructor. Corequisite: NRSG 672L.
Clinical course offering leadership experiences in selected community health settings to prepare the student for advanced nursing practice in program and health policy evaluation.
Letter grade only (A-F).

673. Theories for Advanced Nursing Practice in Adult Care Clinical Nurse Specialist (CNS): Adult Patients (3)
Prerequisites: NRSG 511A, 521A, 530, 530L, 540, 550, 550L, and 590, or consent of instructor. Corequisites: NRSG 673L.
Emphasis is on the Clinical Nurse Specialist’s (CNS) sphere of influence impacting the health outcomes of diverse patients with multiple, complex health problems and their families by developing advanced competencies necessary for the management of multiple therapeutically interventions.
Letter grade only (A-F).

673L. Clinical Studies for the CNS in Adult Care (3)
Prerequisites: NRSG 511A, 521A, 530, 540, 550, 550L, and 590 or consent of instructor. Corequisite: NRSG 673.
Focuses on implementation of CNS roles of teacher, expert clinician, manager of care, and research in a variety of acute and chronic care settings. Sphere of influence is primarily patient and family related.
Letter grade only (A-F).

674. Theories for Advanced Nursing Practice in Adult Care Clinical Nurse Specialist (CNS): Employees (3)
Prerequisites: NRSG 673 and 673L or consent of instructor. Corequisite: NRSG 674L.
Deals with development of advanced skills and competencies in the management and human resources, educational programs, motivation, consultation, and personnel ethics as they apply to role of clinical nurse specialist.
Letter grade only (A-F).

674L. Clinical Studies for the CNS in Adult Care (3)
Prerequisite: NRSG 673 and 673L or consent of instructor. Corequisite: NRSG 674L.
Focuses on implementation of CNS roles of teacher, expert clinician, manager of care, and research in a variety of acute and chronic care settings. Sphere of influence is primarily the employees.
Letter grade only (A-F).

675. Theories for Advanced Nursing Practice in Adult Care Clinical Nurse Specialist (CNS): The Organizational Setting (3)
Prerequisites: NRSG 674 and 674L or consent of instructor. Corequisite: NRSG 675L.
Focuses on CNS roles as managers of care, change agents, consultants and teachers in a variety of acute and chronic care settings. Sphere of influence is the organizational network.
Letter grade only (A-F).
675L. Clinical Studies for the CNS in Adult Care (3)
Prerequisites: NRSG 674 and 674L, or consent of instructor.
Corequisites: NRSG 675.
Focuses on CNS roles as manager of care, change agent, consultant and therapist in a variety of acute and chronic care settings. Sphere of influence is primarily the employees.
Letter grade only (A-F).

676. Administrative Theories for Nursing Practice I (3)
Prerequisites: NRSG 509, HCA 510, 515 or consent of instructor.
Corequisites: NRSG 676L.
Focus on principles and theories of management that deal with the human element in nursing administration. The specific topics covered are the allocation of human resources and budgeting, stress management, motivation, morale, and job satisfaction, conflict management and collective bargaining.
Letter grade only (A-F). (Discussion)

676L. Administrative Theories for Nursing Practice I (3)
Prerequisites: NRSG 559, HCA 510, 515 or consent of instructor. Corequisite: NRSG 676L.
Application of theories and principles of allocation of resources to administration of nursing services and participating in dealing with factors influencing human performance in nursing administration, such as stress management, motivation, job satisfaction, conflict resolution and collective bargaining.
Letter grade only (A-F). (Technical activities/laboratory 9 hours)

677. Administrative Theories for Nursing Practice II (3)
Prerequisites: NRSG 676, 676L, HCA 502, 505 or consent of instructor. Corequisite: NRSG 677L.
The administration of nursing services in different types of health care delivery systems with emphasis on managed care and issues such as long term care delivery systems, health care policy and health care reform will be discussed in great depth.
Letter grade only (A-F). (Discussion)

677L. Advanced Administrative Nursing Clinical II (3)
Prerequisites: NRSG 676, 676L, HCA 502, 505 or consent of instructor. Corequisites: NRSG 677, HCA 537.
The application of principles related to managed care to administration of nursing services. The leader will be an active participant in dealing with issues related to long-term care, health care policy and health care reform.
Letter grade only (A-F). (Technical activities/laboratory 9 hours)

678. Administrative Theories for Nursing Practice III (3)
Prerequisites: NRSG 677, 677L, HCA 537, or the consent of the instructor. Corequisite: NRSG 678L.
Focus on selected principles and theories of learning and instruction as they relate to staff development, competency-based education and program evaluation. Principles related to marketing nursing services, risk management and career development are operationalized.
Letter grade only (A-F). (Discussion)

678L. Advanced Administrative Nursing Clinical III (3)
Prerequisites: NRSG 677, 677L, HCA 537 or consent of instructor. Corequisite: NRSG 678.
The application of management principles of staff development, competency-based education, program evaluation, marketing, risk management and career development to administration of nursing services in any health care setting.
Letter grade only (A-F). (Technical activities/laboratory 9 hours)

680A, B, C. Theories for Extended Nursing Practice (3,3,3)
Prerequisites: Admission to graduate nursing program, a physical assessment course and upper division pathophysiology course, or consent of instructor. Corequisite: NRSG 680L.
Normal and pathological conditions and management theory base applicable for advanced nurse in clinical areas of concentration. May be repeated to a maximum of 6 units in each suffix. Letter grade only (A-F).

680L. Clinical Studies in Nursing (3)
Prerequisites: Admission to graduate nursing program, a physical assessment course and upper division pathophysiology course, or consent of instructor. Corequisites: NRSG 680A, B, or C.
A laboratory course offering clinical experience in selected settings to prepare for advanced nursing practice. May be repeated to a maximum of 9 units with different topics.

682. Family Theories for Advanced Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 682A, 682B.
Focuses on epidemiology, pathophysiology, clinical presentation, diagnosis, and management of common diseases across the lifespan. Role of family nurse practitioner in health promotion and disease prevention and management.
Letter grade only (A-F).

682A. Family Clinical Studies for Advanced Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596 and clinical pre-test, or consent of instructor. Corequisites: NRSG 682, 682B.
A laboratory course designed to apply theoretical knowledge in supervised clinical settings in family practice. An emphasis placed on socialization into family nurse practitioner role.
Letter grade only (A-F). (Laboratory 9 hours)

682B. Family Clinical Studies for Advanced Practice Nursing II (3) F
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596 or consent of instructor. Corequisites: NRSG 682, 682A.
Second of two courses that allows expanded theoretical knowledge in supervised clinical settings in family practice. Emphasis placed on socialization into family nurse practitioner role.
Letter grade only (A-F). (Laboratory 9 hours)

683. Family Theories for Advanced Practice Nursing II (3) S
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596 or consent of instructor. Corequisites: NRSG 683A, 683B.
Focuses on epidemiology, pathophysiology, clinical presentation, diagnosis, and management of common diseases across the lifespan. Role of family nurse practitioner in health promotion and disease prevention and management.
Letter grade only (A-F).

683A. Family Clinical Studies for Advanced Practice Nursing III (3) S
Prerequisites: Admission to graduate nursing program and NRSG 682, 682A and 682B, or consent of instructor. Corequisites: NRSG 683, 683B.
Second of two courses that allows expanded theoretical knowledge in supervised clinical settings in family practice. Emphasis placed on socialization into family nurse practitioner role.
Letter grade only (A-F). (Laboratory 9 hours)

683B. Family Clinical Studies for Advanced Practice Nursing IV (3) S
Prerequisites: Admission to graduate nursing program and NRSG 682, 682A and 682B, or consent of instructor. Corequisites: NRSG 683, 683A.
Second of two courses that allows expanded theoretical knowledge in supervised clinical settings in family practice. Emphasis placed on socialization into family nurse practitioner role.
Letter grade only (A-F). (Laboratory 9 hours)
684. Pediatric Theories for Advanced Nursing (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 664A, 684B.
Provides Pediatric Nurse Practitioner student with theoretical frameworks for well child care. Focuses on preventive health care, well child management, professional issues and related research of children from infancy through adolescence.
Letter grade only (A-F).
684A. Pediatric Clinical Studies for Advance Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 664, 684B.
First clinical course of pediatric nurse practitioner program. Emphasis application of theory to preventative health care, management of well child and common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)
684B. Pediatric Clinical Studies for Advance Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 664, 684A.
Second clinical course of pediatric nurse practitioner program. Emphasis application of theory to preventative health care, management of well child and common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)
685. Pediatric Theories for Advance Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program and NRSG 684, 684A and 684B, or consent of instructor. Corequisites: NRSG 685A, 685B.
Diagnosis, treatment and management of common pediatric conditions and disorders by pediatric nurse practitioner utilizing a theoretical framework appropriate for pediatric nurse practitioner. Letter grade only. (A-F).
685A. Pediatric Clinical Studies for Advance Practice Nursing III (3)
Prerequisites: Admission to graduate nursing program and NRSG 684, 684A and 684B, or consent of instructor. Corequisites: NRSG 685, 685B.
First of two clinical course deals with application of theory related to assessment, diagnosis, and management by pediatric nurse practitioners of common pediatric health care problems in clinical settings. Letter grade only. (A-F). (Laboratory 9 hours)
685B. Pediatric Clinical Studies for Advance Practice Nursing IV (3)
Prerequisites: Admission to graduate nursing program and NRSG 684, 684A and 684B, or consent of instructor. Corequisites: NRSG 685, 685A.
Application of theory related to assessment, diagnosis, and management by pediatric nurse practitioner of common pediatric health care problems in clinical settings. Letter grade only. (A-F). (Laboratory 9 hours)
686. Adult/Geriatric Theories for Advance Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596, or consent of instructor. Corequisites: NRSG 666A, 666B.
Epidemiology, etiology, differential diagnoses, management and prevention of selected health problems of adult/geriatric patient in primary, secondary and tertiary settings and role of nurse practitioner in these settings in a changing healthcare environment. Letter grade only (A-F).
686A. Adult/Geriatric Clinical Studies in Advance Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596 and clinical pre-test, or consent of instructor. Corequisites: NRSG 666, 686B.
First of two designed to allow adult/geriatric nurse practitioner student to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. Emphasis placed on beginning socialization into nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)
686B. Adult/Geriatric Clinical Studies in Advance Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 596 and clinical pre-test, or consent of instructor. Corequisites: NRSG 666, 686A.
Second of two designed to allow adult/geriatric nurse practitioner student to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. Emphasis placed on beginning socialization into nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)
687. Adult/Geriatric Theories for Advanced Practice Nursing II (3) S
Prerequisites: Admission to graduate nursing program and NRSG 686, 686A and 686B, or consent of instructor. Corequisites: NRSG 686A, 686B.
Epidemiology, etiology, differential diagnosis, management and prevention of additional selected health problems of adult/geriatric patient in primary, secondary and tertiary settings, and a further delineation of role of nurse practitioner in those changing healthcare environment. Letter grade only (A-F).
687A. Adult/Geriatric Clinical Studies in Advanced Practice Nursing III (3) S
Prerequisites: Admission to graduate nursing program and NRSG 686, 686A and 686B, or consent of instructor. Corequisites: NRSG 687, 687B.
First of two designed to allow adult/geriatric nurse practitioner student to apply theory into clinical practice with adult and geriatric patients. Emphasis placed on continuing to socialize into nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)
687B. Adult/Geriatric Clinical Studies in Advanced Practice Nursing IV (3) S
Prerequisites: Admission to graduate nursing program and NRSG 686, 686B and 686D, or consent of instructor. Corequisites: NRSG 687, 687A.
Second of two designed to allow adult/geriatric nurse practitioner student to apply theory into clinical practice with adult and geriatric patients. Emphasis placed on continuing to socialize into nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)
688. Psychiatric-Mental Health Theories for Advance Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 530L, 540, 550, 560 and 564, or consent of instructor. Corequisites: NRSG 688A, 688B.
Study of pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of medical, psychological, and social problems of clients of psychiatric facilities and community mental health agencies. Letter grade only (A-F)
688A. Psychiatric-Mental Health Clinical Studies for Advance Practice Nursing I (3)
Prerequisites: Admission to graduate nursing program and NRS 510, 520, 530, 530L, 540, 550, 560, or consent of instructor. Corequisites: NRS 658, 688B.

First clinical practicum for nurse practitioner students that focused on application of mental health concepts. Theories from prerequisite and concurrent courses are applied and tested.
Credit/No credit grading only. (Laboratory 9 hours)

688B. Psychiatric-Mental Health Clinical Studies for Advance Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program and NRS 510, 520, 530, 530L, 540, 550, 560, or consent of instructor. Corequisites: NRS 658, 688A.

Second clinical practicum for nurse practitioner students that focused on application of mental health concepts. Theories from prerequisite and concurrent courses are applied and tested.
Credit/No credit grading only. (Laboratory 9 hours)

689. Psychiatric-Mental Health Theorists for Advance Practice Nursing II (3)
Prerequisites: Admission to graduate nursing program and NRS 510, 520, 530, 530L, 540, 550, 560, or consent of instructor. Corequisites: NRS 688A, 688B.

Advanced study of pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of medical, psychological, and social problems of clients of psychiatric facilities and community mental health agencies.
Letter grade only (A-F)

689A. Psychiatric-Mental Health Clinical Studies for Advance Practice Nursing III (3) S
Prerequisites: Admission to graduate nursing program and NRS 688, 688A and 688B, or consent of instructor. Corequisites: NRS 689, 688B.

First supervised clinical practicum for nurse practitioner students focused on application of complex mental health concepts. Theories from prerequisite and concurrent nursing theory courses are applied and tested in clinical setting.
Letter grade only (A-F). (Laboratory 9 hours)

689B. Psychiatric-Mental Health Clinical Studies for Advance Practice Nursing III (3) S
Prerequisites: Admission to graduate nursing program and NRS 689, 688A and 688B, or consent of instructor. Corequisites: NRS 689, 688A.

Second supervised clinical practicum for nurse practitioner students focused on application of complex mental health concepts. Theories from prerequisite and concurrent nursing theory courses are applied and tested in clinical setting.
Letter grade only (A-F). (Laboratory 9 hours)

692. Nursing Directed Project (1-4)
Prerequisites: Admission to graduate nursing program, advancement to candidacy, NRS 595, and consent of department graduate advisor.

Planning, preparation and completion of a directed project appropriate to advanced practice nursing. May be repeated to a maximum of 4 units in different semesters.
Letter grade only (A-F)

695. Professional Literature (3)
Prerequisites: NRS 510, 520, 530, 530L, 540, 550, 560, 565, 595, 596, 680L, 680L, 680L, or 690 AB Class series, and advancement to candidacy, or consent of instructor and graduate advisor.

Critical analysis and synthesis by comparative review of professional literature in nursing practice, theory, and research. Not open to credit to students taking NRS 698. Letter grade only (A-F)

Avery E. Goldstein, James E. Koval, Jacqueline Lee, Margaret
Lichty, Suzanne Marshall, Rafael Medrano, Wendy Reiboldt, Lydia
Sonetti, M. Sue Stanley, Ramone B. Tomia (Emeritus), Richard V.
Tuvozon, Jung-Mook (Ronnie) Yeh
Baccalaureate Program Coordinator: Richard V. Tuvozon
Graduate Coordinator: Jacqueline J. Lee
Single Subject Credential Advisor: Margaret Lichty
Administrative Support Coordinators:
Mikal Lok; Mariana Bordenay
Instructional Support Technician: Bonnie Rice

Career Possibilities
Clinical Dietitian • Private Practice Dietitian • Research
Dietitian • School Foodservice Director • Food Products
Sales Representative • Food Technologist • Food Service
Supervisor • Restaurant Manager • Public Health Nutritionist
• Food and Drug Inspector • Public Health and Wellness
Educator (Some of these, and other careers, require
additional education or experience. For more information,
see www.careers.csulb.edu.)

Undergraduate Degrees

Bachelor of Science in Dietetics and Food Administration
The Department of Family and Consumer Sciences
offers students a Bachelor of Science degree in Dietetics
and Food Administration two option areas of study:
• Nutrition and Dietetics
• Food Science
Specific degree and certificate information as well
as option requirements are listed under each option
alphabetically in this Catalog.

Requirements for the major include a minimum of 128
units for Nutrition and Dietetics. In addition to general
education requirements (48 units), a minimum of 40 units
in Family and Consumer Sciences is required, 24 of which
must be upper division. Students transferring from another
college or university will receive transfer credit in required
courses if the course is equivalent to the course at this
University and it is accepted by the University.

Nutrition and Dietetics
Individuals choosing this option will concentrate
their studies in the areas of nutritional science, medical
nutrition therapy, community nutrition, food production
and management of foodservice operations, chemistry,
physiology, plus a variety of supporting course work in
related disciplines. The Nutrition and Dietetics option
with appropriate elective selection fulfills the American
Dietetic Association (ADA) academic requirements for
eligibility to apply for qualifying experiences required
to become a Registered Dietitian. Career opportunities
include: community nutrition programs, health clubs,
private consulting, health and wellness agencies, program
administration, health promotion, government agencies,
hospitals and clinics, foodservice operations, public and
private schools, research, and business and industry.

Option in Nutrition and Dietetics
(code FCS_BS01) (128 units)

ANTH 4121 or HCA 4221 or H SC 4201; BIOL 207 or 342
and 342L; BIOL 250 or ED P 419 or H SC 403 or IS 310;
CHEM 111A, 327, 448, 449; COMM 110; ED P 373; ENGL
100; ENGL 101 or 317; HRM 361 or PSY 381; IS 233 or
300 or FCSE 387; MCR 200; PSY 100; SOC 100; CAFF
321; CDFS 312; FCSE 299, 486, 499; NUTR 132, 234,
331A, 331B, 336, 436, 436L, 438, 438L, 492X or 3 units of
FCSE 497; FSCI 352; HFHM 173, 235, 275. Additionally,
a minimum of 6 units of electives is selected in consultation
with a Nutrition and Dietetics faculty advisor. Recommended
electives include: HFHM 375, 477; FCSE 497; NUTR 439,
492X. If a stronger foundation in Chemistry is desired,
CHEM 320A and 320B may be selected instead of CHEM
327. If a stronger foundation in Biochemistry is desired,
CHEM 441A and CHEM 441B may be selected instead of
CHEM 448.

Students who wish to take the Nutrition and Dietetics
Option as a Pre-professional degree (e.g., medical, etc.)
should check with the appropriate programs to verify
specific requirements.

The American Dietetic Association (ADA)
Didactic Program in Dietetics

The ADA Didactic (Academic) Program in Dietetics
(DPD) is designed to provide students with a foundation
of knowledge and skills in dietetics that will enable them
to perform successfully in a dietetic internship. The DPD is
granted accreditation by the American Dietetic Association
Commission on Accreditation for Dietetics Education, a
specialized accrediting body recognized by the Council
on Postsecondary Accreditation and the United States
Department of Education. It is the responsibility of the
student to consult with the ADA DPD Director to verify
current ADA requirements to become a Registered Dietitian.

Students who choose to meet ADA academic
requirements must select HFHM 375 and 477 as electives
in their major.

Students must receive a grade of "C" or better in the
DPD courses to receive verification of completion of the
ADA program. Approval of a student's academic program by
the CSULB DPD Director requires that the student complete
courses HFHM 477; NUTR 438L, and 438 at CSULB.

600 • Nutrition and Dietetics • 2009/2010 CSULB Catalog
Courses (NUTR)

LOWER DIVISION

132. Introductory Nutrition (3)
Prerequisite: One of the Foundation courses (may be taken concurrently).

Essential nutrients, their physiological functions and human needs during the life cycle; food sources as applied to selection of an adequate diet; problems encountered providing food to meet nutritional needs; food additives and consumer protection.

Not open for credit to students with credit in FCS 232. (Lecture-discussion 3 hours)

234. Orientation to Dietetics and Food Administration (2)
Role of the professional in dietetics and food administration; orientation to career opportunities in Food, Nutrition and Foodservice Systems Management; personnel and physical facilities, including equipment in health care and mass feeding programs.

(Lecture-discussion 1 hour, activity 2 hours.)

UPPER DIVISION

331A. Fundamentals of Human Nutrition (3)
Prerequisites: NUTR 132, BIOL 207, CHEM 302 or 327 or equivalent.

Nutritional needs with emphasis on the physiological and chemical foundation for these needs; factors influencing nutrient needs.

(Lecture-discussion 3 hours.)

331B. Fundamentals of Human Nutrition (3)
Prerequisites: NUTR 331A.

Nutritional needs with emphasis on changes through the life cycle. Introduction to dietary modifications in various pathological conditions. Introduction to nutrition assessment and nutrition education techniques.

(Lecture-discussion 3 hours.)

336. Cultural Aspects of Food and Nutrition (3)
Prerequisites: PSY 100 or SOC 100 or ANTH 120 or equivalent; NUTR 132.

Cross-cultural study of food and nutrition. Factors such as religion, food supply and socioeconomic status are considered as they influence nutritional status and food intake in various populations throughout the world.

(Lecture 3 hours.)

339. Metabolic Functions of Nutrients (1)
Prerequisites: CHEM 140, BIOL 207, and consent of instructor.

Metabolic role of nutrients in the human body; practical application of nutrition to patient care.

Open to nursing Majors only. (Activity 2 hours.) Letter grade only (A-F).

436. Advanced Nutrition (3)
Prerequisites: NUTR 331B, CHEM 448, 449 (may be taken concurrently).

Metabolism of proteins, fats, carbohydrates, minerals and vitamins; interrelationship of nutrients; principles of determining nutritional requirements of individuals.

(Lecture-discussion 3 hours.)

456L. Nutritional Status Assessment Techniques (3)
Prerequisites/Corequisites: NUTR 456 and CHEM 449.

Designed to provide training in nutrition assessment and nutrition counseling. Use of procedures for interviewing, counseling, and instructing patients/clients in various settings comparable to those encountered in dietetic practice. Includes laboratory methods for collection and interpretation of demographic, dietary anthropometrics, biochemical, and clinical data.

Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours, Clinical Practice 3 hours.)

438. Medical Nutrition Therapy (3)
Prerequisites: NUTR 436, 438L (may be taken concurrently).

Therapeutic nutrition. Metabolic changes in specific pathological conditions; dietary modifications used for treatment.

(Lecture-discussion 3 hours.)

439. Nutrition and Aging (3)
Prerequisites: NUTR 132 or BIOL 207 or consent of instructor.

Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people.

Same course as GERN 439. Not open for credit to students with credit in GERN 439. (Lecture-discussion 3 hours.)

461. Community Nutrition (3)
Prerequisites: Upper-division standing, NUTR 331B.

Survey of nutrition programs in the community. Techniques of program planning, implementation, management and evaluation.

Letter grade only (A-F). (Lecture-activity 3 hours.)

492K. Internship in Nutrition and Dietetics (3)
Prerequisites: Student must be a Family and Consumer Sciences: Nutrition and Dietetics major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Nutrition and Dietetics; and HH   275, NUTR 3310 and FCS 332. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.

Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation.

May be repeated for 6 units maximum. (Seminar 3 hours.)

OCEAN STUDIES INSTITUTE
College of Natural Sciences and Mathematics

Director: Larry Allen
Location: Fish Harbor
820 S. Scopello Ave., Terminal Island, CA 90731
Telephone / FAX: (310) 519-3172 / (310) 519-1054
Website: http://www.scni.uw

Introduction
The Ocean Studies Institute was created in 1972 to coordinate teaching, research and community service in ocean studies on member campuses. Members include Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Marcos. The Institute does not offer degrees, but it serves as an administrative liaison to facilitate degree programs offered on member campuses.

The Institute operates a 76-foot research vessel for teaching and research purposes, obtains research grants and contracts, performs research, and is responsible for curriculum planning and facilities acquisition. Presently the Institute serves over 35 departments across eight campuses.

The courses and research in which the Institute is active reflect the broad applied approach of inter disciplinary, mission-oriented projects in harbors and the coastal zone.

Courses (OSI)

UPPER DIVISION

345. Physiology of Marine Animals (4)
Prerequisites: BIOC 111, 111L, 212, 212L, 213, and 213L.
Comparison of the fundamental physiological processes of the major marine phyla, both invertebrate and vertebrate. Laboratory and field investigations will be directed toward marine animals living in this local waters.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

353. Marine Biological Processes (4)
Prerequisites: BIOC 111, 111L, 212, 212L, 213, and 213L.
Study of pelagic and benthic marine ecosystems, including human influences.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

417./517. Marine Benthic Invertibratae of Santa Catalina Island (4)
Prerequisites: OSI 353 and consent of instructor. (Undergraduates enroll in OSI 417; graduates enroll in OSI 517.)
Topics include benthic community structure and function, benthic-pelagic coupling, animal sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local taxa.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

419./519. Marine Ichthyology (4)
Prerequisites: OSI 353 and consent of instructor. (Undergraduates enroll in OSI 419; graduates enroll in OSI 519.)
Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

420./520. Ecology of Marine Fishes (4)
Prerequisites: OSI 419/519 and consent of instructor. (Undergraduates enroll in OSI 420; graduates enroll in OSI 520.)
Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

425./525. Marine Physiology (4)
Prerequisites: BIOC 111, 111L, 212, 212L, 213, and 213L.
(Undergraduates enroll in OSI 425; graduates enroll in OSI 525.)
Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

455./555. Marine Ecological Processes (4)
Prerequisites: OSI 353 or BIOC 350 and consent of instructor; statistics recommended. (Undergraduates enroll in OSI 455; graduates enroll in OSI 555.)
Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects.
Letter grade only (A-F). (Lecture 2 hrs., field 6 hrs.) Course fee may be required.

490./590. Special Topics in Ocean Studies (1-3)
Prerequisites: Consent of instructor. (Undergraduates enroll in OSI 490; graduates enroll in OSI 590.)
Topics from selected areas of Ocean Studies. Course content will vary from section to section.
May be repeated to a maximum of 6 units with consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the Schedule of Classes. Letter grade only (A-F). (Lecture 1-3 hrs.) Course fee may be required.

490L./590L. Laboratory in Special Topics in Ocean Studies (1-3)
Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490L; graduates enroll in OSI 590L.)
Topics from selected areas of Ocean Studies. Course content will vary from section to section.
Letter grade only (A-F). May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the Schedule of Classes. (Laboratory 3-9 hrs.) Course fee may be required.

496. Undergraduate Directed Research (1-3)
Prerequisite: Consent of instructor. Not available to graduate students.
Independent research to be conducted under the supervision of a Catalina Seminar instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report.
Letter grade only (A-F).
517/417. Marine Benthic Invertebrates of Santa Catalina Island (4)
Prerequisite: OSI 353 and consent of instructor. (Undergraduates enroll in OSI 417; graduates enroll in OSI 517.)
Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

519/419. Marine Ichthyology (4)
Prerequisite: OSI 353 and consent of instructor. (Undergraduates enroll in OSI 419; graduates enroll in OSI 519.)
Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

520/420. Ecology of Marine Fishes (4)
Prerequisite: OSI 519/419 and consent of instructor.
(Undergraduates enroll in OSI 420; graduates enroll in OSI 520.)
Fish species assemblages, general ecology, adaptations, and behavior of marine fishes. Emphasis on local marine fishes.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

525/425. Marine Phycolgy (4)
Prerequisite: BIOL 111, 111L, 212, 212L, 213, and 213L.
(Undergraduates enroll in OSI 425; graduates enroll in OSI 525.)
Taxonomy, phylogeny, ecology, and physiology of marine algae. Emphasis on local marine forms.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

555/455. Marine Ecological Processes (4)
Prerequisite: OSI 353 or BIOL 350 and consent of instructor; statistics recommended. (Undergraduates enroll in OSI 455; graduates enroll in OSI 555.)
Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

590/490. Special Topics in Ocean Studies (1-3)
Prerequisite: Consent of instructor. (Undergraduates enroll in OSI 490; graduates enroll in OSI 590.)
Topics from selected areas of Ocean Studies. Course content will vary from section to section.
Letter grade only (A-F). May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the Schedule of Classes. (Lecture 1-3 hrs.) Course fee may be required.

590L/490L. Laboratory in Special Topics in Ocean Studies (1-3)
Prerequisite: Consent of Instructor. (Undergraduates enroll in OSI 490L; graduates enroll in OSI 590L.)
Topics from selected areas of Ocean Studies. Course content will vary from section to section.
Letter grade only (A-F). May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the Schedule of Classes. (Laboratory 1-3 hrs.) Course fee may be required.
PEACE STUDIES
College of Liberal Arts

Director: Judith Stevenson (Human Development)
Telephone: (662) 985-9914
E-mail: jstevenson@csulb.edu

Faculty: Ted Azima (Fine Arts), Amy Bippus (Communication Studies), Aaron Cargile (Communication Studies), Bev DeCleyn (Philosophy), Larry George (International Studies), Mimi Hottchickes (English), Kay LaCoste (Comparative World Literatures and Cultures), Ulma Lasiter (Geography), Sandra McLellan (Film & Electronic Arts), Charles Noble (Political Science), Jyotshala Pattnaik (Teacher Education), Pamela Peters (Human Development), Steve Ross (Linguistics), Carol Shaw-Stetten (Art), Larry Smith, American Indian Studies, Larry Steiner (Political Science), Tori Yosada (Asian and Asian American Studies)

Certificate Program in Peace Studies
(code COLACT02)

The Certificate Program in Peace Studies is designed for students who are concerned about issues of peace and social justice in contemporary society. It is founded on the principle that peace requires not only the absence of violence but also the presence of justice. In alignment with this principle, the program operates around two main premises. First, war and other forms of violence are not inevitable, despite widespread occurrence over time and space. Second, peace without social justice is not possible. Students will have the opportunity to explore past and present conflicts that inhibit the achievement of peace, and will have the opportunity to enlarge their understanding of global and human diversity problems and their solutions. Throughout the program, they will develop an understanding of the underlying causes of violence and conflict that occur at multiple social, cultural, and economic levels while developing skills to become innovators working toward promoting peace and human dignity, advancing social justice, and nurturing a sustainable environment.

This certificate can be earned in conjunction with any baccalaureate or graduate degree, can be earned through the General Education Pathway in Peace & Peace Studies while simultaneously meeting all general education requirements, and should be especially useful for students preparing for careers in humanities, education, health and social services, business, government, environmental studies, and law.

Requirements
Twenty-four (24) units in a program approved by the Director of Peace Studies, to include the following:

1. Core Theory Course (3 units): Take one of the following:
   IST 317; POSC 371

2. Core Skills Course (3 units): Take one of the following:
   COMM 411; SW 491

3. Elective Courses (15 units): Take at least one course from each of the following groups, and then one additional course from any of the groups:
   Group A: Perspectives on Peace, Conflict, Violence, and War (3 units minimum): ANTH 305; COMM 490; CRJU 101; HIST 304, 377, 495; IST 318, 355; POSC 220, 371, 455; PHIL 351; PSY 350
   Group B: Laws, Rights, Responsibilities in Peace and Conflict (3 units minimum): COMM 441; PHIL 352, 376; POSC 412
   Group C: Culture, Race, Gender Influences on Peace and Conflict (3 units minimum): ANTH 315, 311; AFRS 325; COMM 330, 412; HIST 309; LING 470; SOC 340; SPAN 490 or SPAN 593 or HIST 490; WGS 401, 430
   Group D: Empowerment and Peace-Building (3 units minimum): COMM 410, 421; CAFF 309 or FIN 309; EDP 454B; FEA 455; HDEV 364; HSC 429; NRS 401; PSY 330; SOC 427; SW 423

4. Peace Project (3 units, optional): Students in the Certificate program only should complete three units of an independent study project during their senior year with any Peace Studies faculty. Students who are simultaneously completing the General Education pathway in Conflict & Peace Studies need to take an additional 300- or 400-level GE course from groups A, B, C, or D above to complete the 24 required units in this Certificate.

Exceptions or substitutions may be made only with the approval of the Director of the Peace Studies Program.
Department Chair: Martin Herman
Department Office: McAllister Humanities Building (MHB), Rm 917
Telephone: (562) 985-4331
Website: www.csulb.edu/philos

Faculty: Paul Devereux, William M. Johnson (Emeritus), Alex Klein, Marya Lascano, Lawrence Nolan, Jason Roblley, Max Rosenkrantz, Ravi K. Sharma, Julie Van Camp, Charles Wallis, Nellee Welkend, Cory Wheat, Wayne Wright

Advisors:
Undergraduate: Marya Lascano
Graduate: Charles Wallis
Pre-Law: Julie Van Camp

Administrative Support Coordinator: Clarice Ross

Career Possibilities
- Educator
- Lawyer
- Theologian
- Diplomat
- Politician
- Writer
- Researcher
- Lobbyist
- Missionary
- Peace Corps Worker
- Foreign Service Officer
- Fund Raiser
- Development Officer
- Journalist
- Social Worker
- Sales Representative
- Management Trainee
- Claim Adjuster
- Literary Critic
- Program Specialist
- Grant Writer

Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu. Various entry-level positions in business and industry are available for graduates regardless of academic discipline.

Undergraduate Programs

Bachelor of Arts in Philosophy (code PHILBA01) (120 units)

The undergraduate Philosophy program challenges students to think rigorously about some of the most profound questions people consider: "What is most important in a human life?", "What can I know?", "Does God exist?", "Do human beings have free will?", "What are the guidelines for morality?", "What is the soul?", or "the mind"? These and other questions are raised in courses in special areas of philosophical concern such as logic, theory of knowledge, ethics, metaphysics, philosophy of religion, philosophy of science, and aesthetics. They are also raised in their historical context in courses which focus on great philosophers such as Plato, Aristotle, Kant, the great "Rationalists" and the great "Empiricists." In addition, the Philosophy curriculum encourages students to examine our contemporary situation (with such courses as Existentialism, Phenomenology, Philosophy of Language, and Political Philosophy), and to extend their thinking with the philosophies of other cultures (such as those of China, Japan, and India).

The Philosophy Pre-law Program provides undergraduates with a course of study which emphasizes the development of skills in reasoning and argumentation, in linguistic and ethical analysis, and in clear and precise communication. The Department's Center for Applied Ethics brings guest speakers to the campus and sponsors conferences, research, and new courses in medical ethics and business ethics. The Department's Center for the Advancement of Philosophy in Schools (CAPS) places advanced philosophy students into area schools to promote philosophy for children. The Department houses the Center for Cognitive Science, an interdisciplinary collaborative project that encourages a wide range of research and instructional resource development such as talks, conferences, and courses. The center is currently participating in the development of an interdisciplinary undergraduate minor in Cognitive Science. The MA program prepares students for teaching in the community colleges and for doctoral programs in philosophy.

Requirements
A minimum of 36 units in philosophy divided as follows:
Lower Division: PHIL 203, 204, and 270.
Up to 12 lower-division units may be counted toward the major, including either PHIL 100 or 160.
Upper Division: A minimum of 24 units in philosophy, including at least two courses (6 units) from each of the following groups:
- Logic, Metaphysics, Epistemology: PHIL 330, 342, 3811, 382, 4821, 483, 484, 493
- Values and Evaluation: PHIL 3541, 3591, 3611, 3633, 401, 4031, 4061, 4511, 4521, 4531, 4551, 4561, 4562, 496

The required 6 upper-division units remaining are to be selected from philosophy courses with the advice and consent of the student's departmental advisor, and may include PHIL 497H and 498H.

Pre-Law Emphasis
The pre-law emphasis requires the same minimum 36 units required for the major. Prelaw students should include at least four of the following in their course of study: PHIL 3511, 3521, 3633, 401, 4031, 4061, 4511, 4521, 4531, 4551, 4561, 496.

Honors in Philosophy
The Honors in Philosophy program prepares qualified undergraduate philosophy majors with an opportunity to do independent research with a faculty member on a topic of interest to the student and to present the results of that study to other students in a seminar format. The Program has two curricular components:
1. a year-long, two-semester directed studies course (PHIL 498H: Undergraduate Honors Thesis) in which the student learns about advanced research techniques and writes an undergraduate thesis under the close supervision of a faculty member; and
2. a seminar (PHIL 497H: Undergraduate Honors Seminar) in which honors students meet weekly to discuss work in progress and present a final thesis. The Seminar is designed each year with readings, discussions, and discussions...
critiques of student work around the themes of the honors student theses projects that year.
To be eligible for the program, students must:
A. have a 3.3 GPA in the philosophy major and a 3.0 GPA overall;
B. successfully complete all lower-division courses for the major (PHIL 203, 204, and 270);
C. successfully complete at least nine (9) units of upper-division philosophy courses (at least six [6] units at
   CSULB);
D. obtain written agreement from a philosophy faculty member to serve as the Honors Thesis Advisor.
Students enroll in PHIL 498H (Undergraduate Honors Thesis) in Fall and Spring (3 units each semester), and
in PHIL 497H (Undergraduate Honors Seminar) in Spring (3 units), for a total of 9 units in the program. Students
who have been admitted to the honors program and have successfully completed these requirements, along with
the regular requirements for the Major in Philosophy, will graduate with Honors in Philosophy.

Minor in Philosophy (code PHILUM01)
The minor in philosophy provides a structured yet flexible program for the student majoring in a different discipline,
but who is interested in philosophy either as an adjunct to the degree major or as a foundation for the student’s future
intellectual life.
The Minor in Philosophy is available to any non-Philosophy major.

Requirements
A minimum of 18 units in philosophy, divided as follows:
Upper Division: PHIL 203, 204, and 270.
Upper Division: A minimum of 9 units in philosophy, including at least one course (3 units) from each of the
following groups:
Logic, Metaphysics, Epistemology: PHIL 303, 342, 381H, 382, 421, 483, 484, 493
Values and Evaluation: PHIL 351, 352, 361H, 363, 401, 4031, 405I, 451, 4521, 455, 461I, 489, 496

Graduate Programs

Master of Arts in Philosophy
(code PHILMA01)
The Department of Philosophy offers graduate study leading to the Master of Arts degree. The candidate must
satisfy the general requirements stated in this Catalog as well
and more fully in the Philosophy Graduate Student Handbook (available upon request). Applicants must submit to the
University’s Office of Admissions and Records a graduate application (available at that office or on-line). Applicants
must also submit two sets of transcripts from all colleges and universities attended. One set must be submitted to the
Office of Enrollment Services and another set must be sent directly to the Department of Philosophy. Prospective students
should see the Graduate Advisor for assessment and to plan a program of study. Departmental resident positions are
sometimes available for qualified persons, as are Graduate Assistantships. A reader works closely with a member of the
class and is not responsible for instruction. Application for these positions can be made to the Chair of the Philosophy
Department.

Prerequisites

Admission with Classified Status

An applicant may be admitted to the M.A. program in Philosophy in classified status (see the relevant sections in the
Catalog under “Graduate and Post-baccalaureate Applicants”) only after satisfying University requirements for
admission and the following prerequisites to this degree:

1. A bachelor’s degree with a minimum of 24 units of upper-
   division philosophy courses. These courses must be
   comparable to those required for the B.A. in philosophy at
   this University, and must indicate proficiency in the general
   areas of epistemology, metaphysics, ethics, and symbolic
   logic. Deficiencies to be rectified will be determined by the
   Graduate Advisor after consultation with the student and
   after study of transcript records.

2. Satisfactory performance on the Department’s Basic Qualifying Exam (BQE).

Admission with Conditionally Classified Status

Until students have met the requirements for classified
status, they may be admitted and attend the university
with conditionally classified status. Conditionally classified
students who at entry to the philosophy program as a
graduate student have been determined to have no
deficiencies in prerequisite preparation must attempt the
Basic Qualifying Exam (BQE) by the end of their second
(academic year) semester in the program and pass it by
the end of their third (academic year) semester in order
to achieve classified status. Conditionally classified student
who must rectify a deficiency must attempt the BQE by the end of
their third (academic year) semester in the program and
pass it by the end of their fourth (academic year) semester in
order to achieve classified status. (Winter Term and Summer
Session do not count as academic year semesters.)

Basic Qualifying Exam

The BQE comprises two sections that assess the
graduate student’s philosophical foundation and knowledge.
There is a Text portion and an Analytic portion. The analytic
section of the BQE assesses the student’s ability to extract,
explain, and evaluate arguments from short passages.
In reconstructing and evaluating these arguments, the
student must demonstrate an understanding of basic logical
concepts, such as validity, soundness, and cogency. The text
section of the BQE assesses the student’s ability to read,
interpret, and critically evaluate a more lengthy philosophical
text. Successfully passing the text section also requires
general philosophical and historical knowledge, insofar as
these are relevant to the contextual understanding of the text.
Students may attempt one or both sections of the BQE on
those occasions when it is administered. Normally, students
must pass both parts of the BQE by their second attempt.
The BQE must be passed in order for students to achieve
classified status in the graduate program.
Advancement to Candidacy

Advancement to Candidacy is the next step after acquiring classified status (and cannot take place until then) and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the student's department and college. The requirements for advancement, which must be achieved at least one semester before graduation can occur and can only occur in a semester in which the student is enrolled, are:

1. Fulfillment of the CSULB Graduate Writing Assessment Requirement (GWAR)
2. The student must maintain a minimum 3.0 overall grade point average in all units undertaken in the philosophy program
3. Approval of a program of study by the Graduate Advisor, and approval by the department faculty of either a thesis proposal or a proposed set of three comprehensive examinations (see the Graduate Student Handbook for details).
4. Although there is no formal language requirement, the philosophy department may require the student to demonstrate foreign language proficiency if a language proficiency is appropriate to the area of study.

Requirements for the Degree

1. The student's graduate program must consist of not less than 30 units of acceptable upper division and graduate courses, of which at least 24 units must be in philosophy. The remaining 6 units must be chosen in conjunction with the student's faculty advisor and may be taken either in philosophy or in another field of study closely related to the candidate's educational objectives. The program must include a minimum of 18 units of philosophy graduate courses, with a minimum of 6 units from the 690 series. PHIL 687 and 688 may not count toward fulfillment of the 690 series minimum requirement. Undergraduate level courses in Philosophy do not count toward the MA degree requirements. However, under special circumstances and at the discretion of the Graduate Advisor, undergraduate level courses from outside the major may count toward the MA in Philosophy when such work is essential to the successful completion of the student's proposed MA thesis or comprehensive examination preparation.

2. A thesis and oral defense thereof, or a set of three comprehensive examinations.

The Center for Medieval and Renaissance Studies

The Center for Medieval and Renaissance Studies offers two programs to students who want to study medieval and Renaissance political and social history, art, literature, philosophy, religion, music, and drama. Undergraduate students can pursue a Certificate or a minor in Medieval and Renaissance Studies. Graduate students can pursue a Certificate in Medieval and Renaissance Studies. Interested students should turn to the catalog section entitled "Medieval and Renaissance Studies" and/or contact the program directors in MHS 512.

Courses (PHIL)

LOWER DIVISION

100. Introduction to Philosophy (3)
Prerequisites/Corequisites: Any course from GE Foundation categories A.1 (Written English), A.2 (Oral Communication) or A.3 (Critical Thinking), which may be taken concurrently.
Critical analysis of the history, methods, and major problems of philosophy.

160. Introductory Ethics (3)
Prerequisites/Corequisites: Any course from GE Foundation categories A.1 (Written English), A.2 (Oral Communication) or A.3 (Critical Thinking), which may be taken concurrently.
Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life.
Not open for credit to students with credit in PHIL 160W.

170. Critical Reasoning (3)
Prerequisites: Completion of GE Foundation requirements
Category A.1 (Written English), which may be taken concurrently.
Elements of clear, straight, orderly and valid thought, including deductive and inductive reasoning and the accurate use of language. The course explores practical applications of logic.

203. History of Early Western Philosophy (3)
Prerequisite: Completion of GE Foundation requirements.
From Thales to the Renaissance including the systems of Socrates, Plato and Aristotle, and their influence on European philosophy through the medieval period.

204. History of Modern Western Philosophy (3)
Prerequisite: Completion of GE Foundation requirements.
Western philosophy from the Renaissance to Kant, including the development of modern scientific processes, and the philosophical systems of empiricism, rationalism, transcendental idealism, etc.

270. Symbolic Logic I (3)
Introduction to the formal techniques of evaluating arguments.

296. Methods of Philosophical Study (3)
Prerequisite: Three units in Philosophy.
Course prepares the student for philosophical study through education in its research methods and technical vocabulary, by instructing students in how to write a successful philosophical essay, and explaining the scope and nature of some of the central issues of philosophy.

Early Philosophy

306. Philosophies of China and Japan
307. Philosophies of India
421/521. Plato
422/522. Aristotle
490/690. Special Topics – Early Philosophy

Modern Tradition

413/513. Continental Rationalism
414/514. British Empiricism
423/523. Kant
424/524. Hegel
425/525. Wittgenstein
491/691. Special Topics – The Modern Tradition

Prerequisites:

- **Political Philosophy**: Completion of GE Foundation requirements. Historical and critical study of the philosophical thought of China and Japan.
- **Philosophy of India**: Completion of GE Foundation requirements. Historical and critical survey with emphasis on basic ideas and traditions.
- **Philosophy of Religion**: Completion of GE Foundation requirements. Nature and function of religion and of fundamental religious concepts and ideas.

Prerequisite: 3 units of philosophy or consent of instructor.

Problems of ontology and cosmology including such concepts as matter and energy, time and space, evolution and causality.

**351. Political Philosophy (3)**
Prerequisite: Completion of GE Foundation requirements, and upper division standing.
Analysis of fundamental political concepts such as the legitimacy of government, the relation of justice to coercive power, the morality of war, political obligation, and sovereignty; and for a study of political ideologies such as socialism, classical liberalism, and conservatism.

**352. Philosophy of Law (3)**
Prerequisite: Completion of GE Foundation requirements, one or more Exploration courses, and upper division standing.
Study of the historical development of the philosophy of law and examination of the problems in the field ranging from general theories to analysis of fundamental legal concepts and normative issues.

**361. Philosophy of Art (3)**
Prerequisite: Completion of GE Foundation requirements, one or more Exploration courses, and upper division standing.
Discussion of central problems in aesthetics, such as possibility of objectivity in criticism, modern and traditional definitions of a work of art, truth and meaning in the fine arts, natural beauty and its relationship to excellence in music, architecture, etc.

**363. Ethical Theory (3)**
Prerequisite: Completion of GE Foundation requirements, 3 units of philosophy.
In-depth discussion of such issues as obligation, responsibility, social justice, and personal ideals.

**381. Philosophy of Science (3)**
Prerequisite: Completion of GE Foundation requirements, one or more Exploration courses, and upper division standing.
Problems, methods, and fundamental concepts of the sciences, including the relationships of the sciences to each other, to mathematics and to philosophy.

**382. Theory of Knowledge (3)**
Prerequisite: Three units of philosophy.
Investigation of such concepts as knowledge, belief, certainty. Critical study of theories concerning such issues as our knowledge of the external world, the past, other minds.

**400. Business Ethics (3)**
Prerequisites: Completion of G.E. Foundation requirements, at least one Exploration course.
Study of types of ethical dilemmas that take place in business organizations. Acquire concepts and tools needed to manage these complex value conflicts for the well being of individuals, organizations, and society.
Letter grade only (A-F). Same course as CBA 400L. Not open for credit to students with credit in CBA 400L.

**401. Philosophy in Education (3)**
Prerequisites: Completion of the GE Foundation; at least six units of philosophy, and consent of instructor.
Examine philosophical works on education, analyze common exclusion of philosophy from K-12 curriculum, explore integration of philosophy into K-12 curriculum. Student is placed in local school district to lead weekly philosophy sessions. Service Learning.
May be repeated to a maximum of 6 units in different semesters.

**403. Medical Ethics (3)**
Prerequisites: Completion of G.E. Foundation requirements; at least one Explorations course.
Covers main areas of bioethics: reproductive rights and liberties, definitions of health, disease, and disability, end of life care, distribution of health care, goals of health care. Philosophical texts, journal articles from medical humanities, ethics, medicine, and case studies used.

---

608 • Philosophy • 2009/2010 CSULB Catalog
405. Philosophy In Literature (3)
Prerequisites: Completion of G.E. Foundation requirements; at least one Exploration course in philosophy, literature, theater arts; upper-division standing required.
Intensive exploration of philosophical ideas in selected literature with special attention to both philosophical and literary ways of reading and appreciating a text.
Not open for credit to students with credit in PHIL 305.

413./513. Continental Rationalism (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor.
Close study of such major figures as Descartes, Spinoza and Leibniz.

414./514. British Empiricism (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor.
Close study of such major figures as Locke, Berkeley, and Hume.

416./516. Pragmatism (3)
Prerequisite: Three units of philosophy or consent of instructor.
Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead.

417./517. Phenomenology (3)
Prerequisites: Six units of philosophy or consent of instructor.
Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, society, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur.

418./518. Existentialism (3)
Prerequisites: Three units of philosophy or consent of instructor.
Introductory study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus.

419./519. Analytic Philosophy (3)
Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor.
Analysis of major movements in development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Study of contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine.
Letter grade only (A–F).

421./521. Plato (3)
Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor.
Close study of Plato’s thought, based primarily on readings from his works.

422./522. Aristotle (3)
Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor.
Close study of Aristotle’s thought, based primarily on readings from his works.

423./523. Kant (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor.
Intensive study of Kant’s Critique of Pure Reason.

424./524. Hegel (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor.
Study of Hegel’s Philosophy of Mind and Logic, and selected writings by Hegel and other topics.

425./525. Wittgenstein (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor.
Close study of the later philosophy of Wittgenstein, centering on Philosophical Investigations.

451. Liberty and Justice: Race, Ethnicity, and Gender in American Law (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and 6 units of philosophy, or consent of instructor. Junior standing required; Senior standing recommended.
Philosophical and legal analysis of how liberty and justice for different races, ethnic groups and genders have been treated in American law.

452. Law, Philosophy, and the Humanities (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended). Six units of philosophy or consent of instructor.
A comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

455. Philosophical Perspectives on Sex and Love (3)
Prerequisite: Six units of philosophy or consent of instructor.
Philosophical perspectives on sex and love explore philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination.
Same course as WGST 455. Not open for credit to students with credit in WST 455 or WGST 455.

461. Diversity in Criticism and Analysis of the Arts (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended).
Philosophical and critical consideration of the arts by different races, ethnic groups, and genders in the United States.

481. Introduction to Cognitive Science (3)
Prerequisites: Completion of GE Foundation requirements; at least one Explorations course; upper-division standing; at least six units in two areas chosen from Computer Science, Linguistics, Philosophy, and Psychology.
Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines.
Same course as PSY 362. Not open for credit to students with credit in PSY 362.

483./583. Philosophical Psychology (3)
Prerequisites: Six units of philosophy or consent of instructor.
Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose.

484./584. Philosophy of Language (3)
Prerequisites: Six units of philosophy or consent of instructor.
Philosophical thought about language and meaning.

489. Philosophy Internship/Pro-Law (1-6)
Prerequisites: Consent of Philosophy Department Chair; completion of a minimum of 15 upper-division units required for the Philosophy major.
Internship with private organizations and governmental agencies. Work done under the joint supervision of the program sponsor and CSULB Philosophy Pro-Law Advisor. Mid term, final report and internship conferences are required. (Activity 9 hours)
490/590. Special Topics: Early Philosophy (3)
Prerequisites: Six units of philosophy or consent of instructor.
Detailed and intensive study of figures, periods or issues in ancient or
medieval philosophy.
Specific issues, period or figures will be announced in the Schedule
of Classes. May be repeated to a maximum of 9 units with different
topics.

491/591. Special Topics: Modern Tradition (3)
Prerequisites: Six units of philosophy or consent of instructor.
Detailed and intensive study of a significant philosopher or of some
issue or theme of the modern (1850-1950) philosophical era.
Specific titles will be announced in the Schedule of Classes. May be
repeated to a maximum of 9 units with different topics.

492/592. Special Topics: Twentieth Century Philosophy (3)
Prerequisites: Six units of philosophy or consent of instructor.
Detailed and intensive study of a significant philosopher or of a
school or movement of the twentieth century.
Specific title will be announced in the Schedule of Classes. May be
repeated to a maximum of 9 units with different topics.

493/593. Special Topics: Metaphysical Studies (3)
Prerequisites: Six units of philosophy or consent of instructor.
Seminar study of a selected metaphysical topic. Sample topics: Time,
Personal Identity, Philosophical Theology, Philosophy of Action,
Process Philosophy.
Specific title will be announced in the Schedule of Classes. May be
repeated to a maximum of 9 units with different topics.

495/595. Special Topics: Value and Evaluation (3)
Prerequisites: Six units of philosophy or consent of instructor.
Seminar study of a selected topic in value or evaluation. Sample
topics: Theories of Value, Freedom and Determinism.
Specific topics will be announced in the Schedule of Classes. May be
repeated to a maximum of 9 units with different topics.

497H. Undergraduate Honors Seminar (3)
Prerequisites: 1) Admission to the undergraduate Honors Program
in Philosophy, 2) Undergraduate Honors Thesis (PHIL 498) or (with
consent of instructor) taken concurrently.
A capstone seminar designed to prepare exceptional undergraduate
majors for graduate study in philosophy and other disciplines.
Complements Undergraduate Honors Thesis (PHIL 498).
Letter grade only (A-F).

498H. Undergraduate Honors Thesis (3)
Prerequisites: Admission to the undergraduate Honors Program in
Philosophy.
Directed Studies course on a topic chosen by students in consultation
with their Honors Thesis Director. Students register for thesis credits
both fall and spring terms. Students are also required to register for
PHIL 497 during the spring term.
Letter grade only (A-F). May be repeated to a maximum of 6 units in
different semesters.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study of special topics under supervision of a faculty
member. May be repeated to a maximum of 6 units.

GRADUATE LEVEL

513/413. Continental Rationalism (3)
Prerequisites: Six units of philosophy to include PHIL 204, or consent
of instructor.
Close study of such major figures as Descartes, Spinoza and Leibniz.
Letter grade only (A-F).

514/414. British Empiricism (3)
Prerequisites: Six units of philosophy to include PHIL 204, or
consent of instructor.
Close study of such major figures as Locke, Berkeley, and Hume.
Letter grade only (A-F).

516/416. Pragmatism (3)
Prerequisites: Three units of philosophy or consent of instructor.
Development of pragmatism as exemplified in the philosophies of
Peirce, James, Dewey and Mead.
Letter grade only (A-F).

517/417. Phenomenology (3)
Prerequisites: Six units of philosophy or consent of instructor.
Study of one of the major movements of contemporary philosophy.
Theories treated may include knowledge, meaning, emotionality,
embodiment, language, sociality, freedom and religion. Philosophers
treated may include Husserl, Scheler, Heidegger, Merleau-Ponty
and Ricoeur.
Letter grade only (A-F).

518/418. Existentialism (3)
Prerequisites: Three units of philosophy or consent of instructor.
Intensive study of such issues as self-as-existence, freedom and
responsibility in their ethical, religious, political and aesthetic
dimensions. Philosophers treated may include Kierkegaard,
Nietzsche, Marx, Jaspers, Sartre and Camus.
Letter grade only (A-F).

519/419. Analytic Philosophy (3)
Prerequisites: Six units of philosophy to include PHIL 270, or
consent of instructor.
Analysis of major movements in development of Anglo American
philosophy in the twentieth century, such as logical atomism, logical
positivism and ordinary language philosophy. Study of contributions
of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle,
Austin, Strawson, and Quine.
Letter grade only (A-F).

521/421. Plato (3)
Prerequisites: Six units of philosophy to include PHIL 203, or
consent of instructor.
Close study of Plato’s thought, based primarily on readings from his
works.
Letter grade only (A-F).

522/422. Aristotle (3)
Prerequisites: Six units of philosophy to include PHIL 203, or
consent of instructor.
Close study of Aristotle’s thought, based primarily on readings from
his works.
Letter grade only (A-F).

523/423. Kant (3)
Prerequisites: Six units of philosophy to include PHIL 204, or
consent of instructor.
Intensive study of Kant’s Critique of Pure Reason.
Letter grade only (A-F).

524/424. Hegel (3)
Prerequisites: Six units of philosophy to include 204, or consent
of instructor.
Study of Hegel’s Philosophy of Mind and Logic, and selected
writings by Hegel and other topics.
Letter grade only (A-F).

525/425. Wittgenstein (3)
Prerequisites: Six units of philosophy to include PHIL 204, or
consent of instructor.
Close study of the later philosophy of Wittgenstein, centering on
Philosophical Investigations.
552. Advanced Studies in Law, Philosophy, and the Humanities (3)
Prerequisites: Graduate standing.
Composition of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

555.J455. Philosophical Perspectives on Sex and Love (3)
Prerequisites: Six units of philosophy or consent of instructor.
Philosophical perspectives on sex and love explore philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined.

583.J483. Philosophical Psychology (3)
Prerequisite: Six units of philosophy or consent of instructor.
Nature of the mind. Psychological concepts such as attention, consciousness, action, motive, imagination, belief and purpose.
Letter grade only (A-F).

584.J484. Philosophy of Language (3)
Prerequisites: Six units of philosophy or consent of instructor.
Philosophical thought about language and meaning.
Letter grade only (A-F).

590.J490. Special Topics: Early Philosophy (3)
Prerequisites: Six units of philosophy or consent of instructor.
Study of figures, periods or issues in ancient or medieval philosophy.
Specific issues, period or figures will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

591.J491. Special Topics: Modern Tradition (3)
Prerequisites: Six units of philosophy or consent of instructor.
Study of a significant philosopher, or of some issue or theme of the modern (1800-1900) philosophical era.
Specific topics announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

592.J492. Special Topics: Twentieth Century Philosophy (3)
Prerequisites: Six units of philosophy or consent of instructor.
Study of a significant philosopher or of a school or movement of twentieth century. Specific title will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

593.J493. Special Topics: Metaphysical Studies (3)
Prerequisites: Six units of philosophy or consent of instructor.
Seminar study of a selected metaphysical topic.
Specific title will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

596.J496. Special Topics: Value and Evaluation (3)
Prerequisites: Six units of philosophy or consent of instructor.
Seminar of selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism.
Specific topics announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

597. Teaching Philosophy (3)
Prerequisites: Six units of philosophy or consent of instructor.
A practical and theoretical introduction to the aims, methods, responsibilities, and ethics of teaching in the college classroom, with an emphasis on the specific issues involved in teaching philosophy.
Letter grade only (A-F).

599. Graduate Tutorial (1-3)
Prerequisite: Consent of the instructor.
Supervised independent study.
Seniors with a GPA of 3.0 or better may enroll with consent of Department. May be repeated to a maximum of 6 units. Letter grade only (A-F).

620. Seminar in History of Philosophy (3)
Prerequisite: Consent of instructor.
Close study of selected objects in the history of philosophy. The original language may be required.
May be repeated to a maximum of 9 units with different topics.
Letter grade only (A-F).

630. Seminar in Philosophy of Religion (3)
Prerequisite: PHL 330 or consent of instructor.
Critical examination of selected issues, figures and movements.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

663. Seminar in Ethics (3)
Prerequisite: PHL 363 or consent of the instructor.
Systematic examination of topics (such as human rights, pleasure) and theories (such as utilitarianism, contract theory) which are central to moral reasoning.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

680. Seminar in Epistemology (3)
Prerequisite: PHL 382 or consent of instructor.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

681. Seminar in the Philosophy of Science (3)
Current issues in the philosophy of science.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

690. Seminar in Selected Topics of Current Interest (3)
Presentation, discussion and critical evaluation of advanced work (which may include original research of faculty and graduate students) in selected topics of current interest to professional philosophers.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Consent of the student's advisor.
Letter grade only (A-F).

698. Thesis (1-6)
Prerequisite: Consent of graduate advisor.
Preparation and completion of a thesis in philosophy and oral defense thereof.

2009/2010 CSULB Catalog • Philosophy • 611
PHYSICAL THERAPY
College of Health and Human Services

Department Chair: Kay Cerny
Department Office: Engineering Technology Building, Room 130
Telephone: (562) 985-4072
Faculty: Joyce Campbell, Charles L. Carter, Kay Cerny, Jody Cormack, Fatimah Mohamed, Albert C. Russo
Department Coordinator: Gloria Doconay

Graduate Programs

Master of Physical Therapy (code PT__MT01)

The Master of Physical Therapy program is designed to provide entry-level professional preparation to become a physical therapist. The curriculum consists of 68-units of course work preceded by a year of upper division prerequisite courses offered at the University. Applicants to the program must have a Bachelor’s degree and have completed specific lower division prerequisite course work. Following didactic course work, students complete a 24-week internship required for state licensure. Graduates will be prepared to assume responsible, evidence-based clinical practice in a broad spectrum of physical therapy settings and to respond to the changing expectations of an expanding body of knowledge in physical therapy.

Requirements

Complete all prerequisite courses with a minimum of “C” and a minimum grade point average of 3.0 in upper division prerequisites. The Master of Physical Therapy program requires completion of all prerequisite and professional course work described in the following:

Program Prerequisites

Natural Sciences: CHEM 111A, 111B, PHYS 100A, 100B
Biological Sciences: BIOC 208, 211, 211L, 212, 212L, and either 207 or 213, 213L for a total of 12 units, BIOC 341, 441, HHIS 401, 402, 403, 460, 471
Biostatistics: BIOC 260 preferred
Behavioral Sciences: PSY 100, HHIS 374

MPT Core Requirements

Core: PT 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 515, 522, 523, 524, 574, 604, 605, 607, 608, 620, 622, 674, 696, 697 or 698
Electives: PT 590, 611-619 (2 units)

Admission to the Master of Physical Therapy Program

The physical therapy master’s program is open to all college graduates who have met prerequisite requirements and demonstrate academic promise and ability to perform at a satisfactory level during their graduate studies. Application deadline is January 15 for fall admission. To be considered for acceptance into the graduate program, the applicant must:

1. Complete all prerequisite courses with a minimum of “C” and a minimum grade point average of 3.0 in upper-

division prerequisite coursework;
2. Hold, or be eligible to hold, an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by an appropriate campus authority;
3. Have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted;
4. Submit results of the General Aptitude Section of the Graduate Record Examination (quantitative, verbal, and analytical), taken within the past 5 years;
5. Provide academic and personal references as required;
6. Provide documentation of personal experience in a variety of physical therapy settings; and
7. Be recommended by the physical therapy faculty.
8. All candidates whose preparatory education was principally in a language other than English must demonstrate competency in English. Refer to the CSULB Bulletin for requirements for completing the Test of English as a Foreign Language (TOEFL).

The master’s degree program is a 68-unit, four semester plus one summer session, full-time course of study followed by an internship of 12 units. The course of study is most appropriate for graduates with degrees in related fields but does not exclude the person holding a baccalaureate degree in physical therapy. Course work is designed for entry-level professional study.

Advancement to Candidacy Requirements

1. Classified graduate student status.
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
3. A minimum 3.0 grade-point average in all program graduate work as well as a minimum overall 3.0 in all graduate work attempted.
4. Be recommended by a faculty sponsor.
5. Enrollment in regular session.
6. Satisfactory completion of at least one semester of the program.

Requirements for Admittance to Clinical Practice

1. Complete all requirements for the master’s at the time of application to clinical practice.
2. Successfully complete either (a) a research thesis or project (PT 698) or (b) directed studies (PT 697) under the guidance of a faculty advisor.
3. If choice b (above) is selected (PT 697) the student must also successfully complete a program comprehensive examination.

Postgraduate Physical Therapy Internship Certificate (code PT__CT01)

Requirements

12 units of PT 525, 526 and/or 527 (must be completed to be eligible to take the state examination for licensure).

612 • Physical Therapy • 2009/2010 CSULB Catalog
501. Musculoskeletal and Biomechanical Principles (4)
Prerequisites: HHS 401, 402, 403.
Advanced study of joint mechanics and pathomechanics with application to therapeutic procedures, postural and movement of the limbs, temporomandibular joint, neck and trunk. Includes normal gait.
Lecture grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

502. Pathological Gait (1)
Prerequisite: PT 501
Kinetics and kinematics of pathological gait with application to persons with gait disability. Emphasis is on gait analysis and problem solving causes of deviations.
Lecture grade only (A-F). (Laboratory 3 hours)

503. Management of Individuals with Musculoskeletal Disorders I (3)
Prerequisites: PT 501
Physical therapy evaluative process for patients with musculoskeletal disorders including examination, evaluation, diagnosis, prognosis, including anticipated outcomes, criteria for discharge and reexamination.
Lecture grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

504. Management of Individuals with Musculoskeletal Disorders II (4)
Prerequisites: PT 501, 503
The interventions for individuals with disorders of the musculoskeletal system including exercise prescription, strengthening programs, effects of disease, mobility, wellness and prevention, theories of pain and pain management and selected preferred practice patterns provided by physical therapists.
Lecture grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

505. Management of Human Growth and Development (2)
Prerequisites: HHS 401, 460.
Investigation and analysis of human development from birth to senescence with emphasis on concepts of motor, skeletal and neurological development processes necessary to prepare for evaluation and treatment intervention in musculoskeletal and neurological disabilities.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

506. Exercise Physiology for Physical Therapy (2)
Prerequisites: BIOL 341, 441; HHS 401, 460, 471.
Study of systems critical for patient management that are challenged and altered by exercise in health and pathology. Includes exercise measurement, test design, equipment, and pharmacology of exercise.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

507. Examination of Individuals with Neuromuscular Disorders (2)
Prerequisite: HHS 460.
Physical therapist evaluative process for patients with neuromuscular disorders. Includes examination (task and movement analysis, tools and measures for body structure and function, activity, and participation), evaluation, diagnosis, prognosis, anticipated goals, expected outcomes, re-examination, and criteria for discharge.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours)

508. Management of the Pediatric Population (2)
Prerequisites: PT 505, 507.
Physical therapy management of the pediatric patient/client with neuromusculoskeletal disorders. Includes examination, evaluation, diagnosis, prognosis and intervention (with anticipated goals) including reexamination, outcomes and criteria for discharge. Includes pathophysiology, clinical decision making, and prevention/risk factor reduction.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

509. Management of the Cardiopulmonary System (3)
Prerequisites: BIOL 341, 441; PT 505, 507.
Physical therapy management of patients with cardiopulmonary disorders including examination, evaluation, diagnosis, prognosis and intervention (with anticipated goals) including reexamination, outcomes and criteria for discharge. Includes prevention/risk factor reduction.
Lecture grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.) Course fee may be required.

510. Patient Management and Functional Training (2)
Prerequisites: HHS 401, 452 and admission to MPT program.
Patient/client management with emphasis on adaptive and functional training and participation, irrigation for abdominal and home management (including activities of daily living and instrumental activities of daily living) and wound management. May include lectures from medical and physical therapy practitioners.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

511. Management of the Geriatric Population (3)
Prerequisites: PT 503, 594, 505, 507.
Physical therapy management of the geriatric patient/client including examination, evaluation, diagnosis, prognosis and intervention (with anticipated goals) including reexamination, outcomes and criteria for discharge. Includes prevention/risk factor reduction.
Lecture grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.) Course fee may be required.

512. Clinical Electrophysiology I (3)
Prerequisites: BIOL 341; HHS 402, 460.
The investigation of the physiological and neurological basis for the selection of electrophysiological assessment tools and for the selection of electrophysical intervention in the management of neuromusculoskeletal disorders. Includes specific interventions for the management of the patient/client with neuromuscular disorders.
Lecture grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.) Course fee may be required.

513. Clinical Electrophysiology II (2)
Prerequisites: PT 512.
Physiological considerations in the use of neuro stimulation and electromyography with the patient/client with neuromuscular disorders emphasizing the rationale for the selection of electrical stimulation techniques for physical therapy intervention as well as functional use of electrical stimulation. Electrophysical interventions.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.) Course fee may be required.

515. Management of Individuals with Neuromuscular Disorders (2)
Prerequisite: PT 507, Corequisite: PT 523.
Evidence-based physical therapist interventions for patients with disorders of the neuromuscular system including movement facilitation, education, and prevention/risk factor reduction.
Lecture grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours)
522. Clinical Practice I (1)
   Prerequisites: PT 503, 507, 509, 510
   Six weeks of supervised full-time clinical practice in the acute care or
   outpatient orthopedic setting. Includes examination, evaluation, inter-
   vention, advocacy, and client/family caregiver education.
   Credit/No Credit grading only. May be repeated to a maximum of 2
   units in different semesters. (Clinical Practice 6 weeks)

523. Clinical Practice II (1)
   Prerequisite: PT 522. Corequisite: PT 515
   Supervised pro bono clinical practice for management of the client
   with disorders of the neuromuscular system. Includes examination,
   evaluation, intervention, advocacy, and client/family caregiver
   education.
   Credit/No Credit grading only. (Clinic 1 hour)

524. Clinical Practice III (1)
   Prerequisites: PT 507, 515, 523. Corequisite: PT 505
   Supervised advanced pro-bono clinical practice for management
   of the client with disorders of the neuromuscular system. Includes
   examination, evaluation, intervention, advocacy, and client/family
   caregiver education. Focus on problem solving and decision
   making.
   Credit/No Credit grading only. (Clinic 1 hour)

525. Clinical Internship I (3)
   Prerequisites: Completion of all requirements for the MPT degree.
   Six weeks of supervised full-time patient management in a hospital
   system. Satisfactory completion of the internship is required for licensure to practice in the state of
   California.
   Credit/No Credit only. (Clinical internship 6 weeks.) May be repeated
   to a maximum of 6 units in the same semester. The combination of
   PT 526, 528, and 527 must equal a minimum of 12 units.

526. Clinical Internship II (3)
   Prerequisites: Completion of all requirements for the MPT degree.
   Six weeks of supervised full-time patient management in an
   outpatient orthopedic setting. Satisfactory completion of the inter-
   nship is required for licensure to practice in the state of
   California.
   Credit/No Credit only. (Clinical internship 6 weeks.) May be repeated
   to a maximum of 6 units in the same semester. The combination of
   PT 526, 528, and 527 must equal a minimum of 12 units.

527. Clinical Internship III (3)
   Prerequisites: Completion of all requirements for the MPT degree.
   Six weeks of supervised full-time patient management in an
   outpatient orthopedic setting. Satisfactory completion of the inter-
   nship is required for licensure to practice in the state of
   California.
   Credit/No Credit only. (Clinical internship 6 weeks.) May be repeated
   to a maximum of 6 units in the same semester. The combination of
   PT 526, 528, and 527 must equal a minimum of 12 units.

574. Professional Practice Issues (2)
   Prerequisites: HHS 374
   Professional practice issues including evidence-based practice, the
   critical analysis of evidence, and cultural competence. Also the role
   of the physical therapist in facilitation of health care behavior change
   and educating patients and community.
   Letter grade only (A-F). (Lecture/Discussion 2 hours)

590. Special Topics in Physical Therapy (1-3)
   Prerequisite: Consent of instructor.
   Topics of current interest in physical therapy selected for special
   presentation. Topics will be announced in the Schedule of Classes
   when course is offered.
   Letter grade only (A-F). Course may be repeated to a maximum of 6
   units with different topics in the same or different semesters.

597. Independent Studies (1-3)
   Prerequisites: Consent of instructor, and for human dissection, one
   general introductory anatomy course, HHS 401 and 402.
   Independent studies in any area of physical therapy. Human
   dissection is available as a special study.
   Letter grade only (A-F). May be repeated to a maximum of 6 units.
   (Independent studies.)

604. Health Care Issues I (2)
   Prerequisite: Admission to MPT program.
   Investigation of the health care delivery system including the
   regulatory, political, ethical, legal and professional aspects of health
   care.
   Letter grade only (A-F). (Lecture/Discussion 2 hours.)

605. Health Care Issues II (2)
   Prerequisite: Admission to MPT program.
   Investigation and discussion of the process of planned direction,
   organization, management, and economics of physical therapy and
   physical therapy delivery. Includes theories of disease prevention
   and health promotion.
   Letter grade only (A-F). (Lecture/Discussion 2 hours.)

607. Seminar in Cardiopulmonary Clinical Decision Making (1)
   Prerequisites: PT 509.
   Continuing management of patient/client with disorders of
   cardiopulmonary system. Integrates disorders of cardiopulmonary
   system with other disorders that may impact cardiopulmonary
   health. Includes examination, evaluation, Intervention, advocacy,
   and caregiver education.
   Letter grade only (A-F). (Seminar 1 hour)

608. Neurologic Clinical Decision Making (1)
   Prerequisite: PT 507.
   Continuing management of the client with disorders of the
   neuromuscular system. Includes examination, evaluation, inter-
   vention, advocacy, and client/family caregiver education.
   Credit/No Credit grading only. (Clinic 1 hour)

611. Advances in Orthopaedic Physical Therapy (2)
   Prerequisites: PT 503, 504; MPT major or physical therapist.
   Exploration of advanced clinical orthopedic management strategies.
   Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours)

612. Advanced Study in Clinical Electroneuromyography (2)
   Prerequisites: PT 512, 513; MPT major or physical therapist.
   Advanced electromyography assessment and electrical stimulation technology with an emphasis on objective
   documentation and improvement of neurological status, muscle
   performance, walking ability and functional capacity.
   Letter grade only (A-F). (Lecture/Discussion 1 hour, laboratory 3
   hours.) Course fee may be required.

619. Contemporary Issues in Physical Therapy (2)
   Prerequisite: PT 604 and consent of instructor.
   Exploration of contemporary and emerging trends in physical
   therapy practice.
   Letter grade only (A-F). May be repeated to a maximum of 6 units
   with different topics in different semesters. (Lecture 1 hour, lab 3
   hours)

620. Management of Patients with Orthotic and
   Prosthetic Needs (2)
   Prerequisites: PT 502, 503.
   The prescription, application, and fabrication of devices and
   equipment (orthotic, prosthetic, supportive splinting, and taping).
   Letter grade only (A-F). (Lecture/Discussion 1 hour, laboratory 3
   hours.) Course fee may be required.

614 • Physical Therapy • 2009/2010 CSULB Catalog
622. Clinical Pathophysiology (3)
Prerequisites: PT 504, 505, 507, 509, 510, 513.
Pathophysiology of connective tissue in musculoskeletal, neuromuscular, cardiopulmonary and integumentary disorders as a basis for physical therapy evaluation, diagnosis, goal setting and conservative as well as pre and post-operative intervention in patients with multiple systemic disorders.
Letter grade only (A-F). (Lecture/ laboratory/discussion 3 hours)

674. Clinical Problem Solving (1)
Prerequisite: PT 574.
Critical thinking models and activities to promote problem solving and decision making in the physical therapy setting.
Letter grade only (A-F). (Lecture/discussion)

696. Research Methods (2)
Prerequisite: Admission to MPT program.
Scientific inquiry with emphasis on information searching, research design (qualitative and quantitative), and applied statistics. Also includes critical inquiry and clinical decision making guidelines, research ethics, and the development of a proposal on the validation of physical therapy practice.
Letter grade only (A-F). (Lecture/discussion 2 hours.)

697. Directed Research Studies (1-4)
Prerequisites: PT 574, 696, advancement to candidacy and consent of instructor.
Research in an area of specialization in physical therapy under the direction of a faculty sponsor.
Letter grade only (A-F). Must be completed for a total of 4 units.
Course fee may be required.

698. Research Thesis/Project (1-4)
Prerequisites: PT 574, 696, advancement to candidacy and consent of instructor.
Planning, preparation, and completion of thesis or project in physical therapy.
Letter grade only (A-F). Must be completed for a total of 4 units.
PHYSICS AND ASTRONOMY
College of Natural Sciences and Mathematics

Department Chair: Patrick Keneally
Department Office: Peterson Hall PH 1-210
Telephone/FAX: (562) 985-4924/(562) 985-7924
Website: www.csulb.edu/depts/physics/

Faculty: M. Zahir Anwar, Andreadis Bill, Thomas Gredig, Jyeong Gu, Paul Hintzen, Zvomviiro Hlobock, Chi-Yu Hu, Patrick F. Keneally, Chuhuen Kwan, Alfred F. Leung, Zollen Papp, Odan T. Pickett, Subhakar Rajpoot
Advisors:
Undergraduate: Gaton T. Pickett
Graduate: Chuhuen Kwan

Administrative Support Coordinator: Irene Howard

Students desiring information should contact the Department Office for referral to one of the faculty advisors.

Career Possibilities

Physicist • Computer Scientist • Electro-Optical Engineer • Computer Engineer • Meteorologist • Metalurgist • Industrial Health Engineer • Aerospace Engineer • Geophysical • Financial Analyst • Technical Writer • Astronomer • Teacher • Oceanographer • Systems Analyst • Mathematician • Materials Researcher • Quality Control Specialist • Food and Drug Inspector • Scientific Apparatus Salesperson • Nuclear Engineer • Physicist Technicians

Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu and www.aps.org/careers. Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Introduction

The Department of Physics and Astronomy offers two bachelor’s degrees and a master’s degree; descriptions of those programs and the requirements for their completion are given below.

Degree Programs

Each bachelor’s degree offered by the Department is based on a strong, basic program. The Bachelor of Science (B.S.) degree is designed for students interested in immediate employment in industry as well as those who wish to continue on to a Master’s or Ph.D. degree in physics or a related field. The Bachelor of Arts (B.A.) degree is appropriate for those preparing for teaching careers in the physical sciences at the secondary level as well as those whose goal is a liberal education with an emphasis on physics. The curriculum for these baccalaureate degrees provides a broadly-based exposure to theoretical and experimental physics. It also permits students to discuss fundamental concepts and their applications to grasp the discoveries at science’s expanding frontiers, and to develop an appreciation for the amazing beauty of the physical universe.

The Department also offers graduate study leading to the Master of Science (M.S.) degree. The M.S. degree is available in both a general option and an option in applied physics. A student may choose the general plan either with a thesis or, if the department graduate committee gives permission, with a comprehensive examination; the computational plan requires a thesis; and the option in applied physics requires a thesis. Active areas of research are: materials sciences, condensed matter physics (superconductivity, magnetics, polymer physics), computational physics, quantum few-body scattering theory, theory of low-energy atomic collisions, field theory, gauge/gravitational interactions, phenomenology of elementary particles, biophysics, and applied optics. A limited number of teaching assistantships and graduate assistantships are available to students working on the master's degree. Work as a teaching associate (TA) is a valuable part of any degree program. Application should be made to the graduate advisor of the Department of Physics and Astronomy.

Concurrent and/or Summer Enrollment at Another College

Students who wish to take course work at a community college or another college or university to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. Please see "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this Catalog. Courses not receiving prior approval will not be accepted for credit by the Department.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide information and answer questions about the requirements for the chosen degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (FD6-105) or Department Office for additional information.

Undergraduate Programs

Bachelor of Science in Physics (code PHYSBS01) (120 units)

Requirements

Lower Division: PHYS 151, 152, 254, 256; MATH 122, 123, 224; CHEM 111A,B; BIOL 111 and 111L, or 200, or 211A.
Upper Division: ENGL 317; MATH 370A or 364A; MATH 370B or 461; 33 units of upper division physics including PHYS 310, 320, 340A, 340B, 350, 360, 380, 450, and one laboratory course chosen from PHYS 445, 446, 476 and 480. The remaining (up to 8) units are to be chosen from any upper division physics courses.

Grade Requirements

Physics majors must have a "C" average in the major. Physics students must achieve a grade of "C" or better in each required course in the major. The following schedule is typical for an upper division major who is a full-time student.

Junior Year
Fall: PHYS 310, 320, 360; MATH 370A or 364A (or MATH 370B or 461; it is recommended that MATH 370A or 364A be taken before PHYS 310, if possible).
Spring: PHYS 340A, 350, 380; MATH 370B or 461 (if not taken previously).

Senior Year
Fall: PHYS 340B, 450.
Spring: Three upper division physics electives.

Bachelor of Arts in Physics
(code PHYSBA01) (120 units)

This degree is designed for the student who expects to teach at the secondary level, or who seeks a high quality liberal education focusing on science. A minimum of 120 units is required for this degree.

Requirements
Lower Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; CHEM 111A,B; BIOL 111 and 111L, or 200, or 211A.

Upper Division: minimum of 24 units selected in consultation with Physics Department Undergraduate Advisor, at least 18 units of which must be in physics; ENGL 317 or other suitable upper-division writing course from Department of English, determined in consultation with Physics Department Undergraduate Advisor (may be waived for students who achieved a standard score of 24 on the ACT English sub-test or who received an "A" or "B" grade in ENGL 100).

Teaching Credential

Requirements Related to a Teaching Credential with a Physics Concentration

The Physics Concentration meets the subject matter competence requirement for the Single Subject Preliminary Credential in Physics (code 183). Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Physics teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The Physics Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

Lower Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; ASTR 100; BIOL 111/111L, 212/212L, and 213/213L or 211A, B; CHEM 111A,B; GEOL 102, 104, 160.

Upper Division: MATH 364A or 370A; PHYS 310, 340A, either 320 or 422, 476, either 380 or 3 units of 496; SCED 403, 404; EDSS 300C, 450C; EDSE 435, 436, 457.

Minor in Physics (code PHYSUM01)

Requirements

The Minor in Physics is available to any non-Physics major. A minimum of 20 units which must include the following.

Lower Division: PHYS 151, 152, 254, 255.
Upper Division: A minimum of nine units in physics (PHYS 360 will not count toward these nine units).

Graduate Programs

Master of Science in Physics
(code PHYSMS01)

Prerequisites

1. A bachelor's degree with a major in physics; or
2. A bachelor's degree with at least 24 units of upper division physics. (Students deficient in undergraduate preparation must take courses to remove these deficiencies without credit toward the degree at the discretion of the Department Graduate Advisor.)

Requirements

All students must take: PHYS 510, 522, 540A, 550A, 560A, 605 and (545 or 546). In addition to these courses, students may opt for one of two plans:

General Physics Plan

1. PHYS 550B.

EITHER:

2. Completion of at least 2 additional units of graduate-level PHYS courses, 6 units of PHYS 698, a written thesis approved by the student's thesis committee consisting of a thesis chair (a Physics/Astronomy faculty member) and at least two more members, one of which must be a member of the Department, and an oral presentation of the thesis research. Note: Students must be advanced
to candidacy before enrolling in PHYS 698. As early as possible, a graduate student in consultation with the thesis chair should choose a thesis committee.

OR

3. With the permission of the Graduate committee, an additional 6 units of 500-level PHYS courses, and satisfactorily complete a comprehensive examination.

Computational Physics Plan
1. PHYS 502, 590B.
2. 6 units of PHYS 698, a written thesis approved by the student’s thesis committee consisting of a thesis chair (a Physics/Astronomy faculty member) and at least two more members, one of which must be a member of the Department, and an oral presentation of the thesis research. Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student in consultation with the thesis chair should choose a thesis committee.

Advancement to Candidacy
1. The regulations governing the master’s degree are those in effect at the time of advancement to candidacy. Students must fulfill the University requirements for advancement to candidacy.
2. A student must have a "B" average or better in six units of physics applicable toward the master’s degree, of which at least three units are at the graduate level.
3. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serve at least one semester as a teaching assistant or a graduate assistant as part of the M.S. program. Exceptions may be granted by the Graduate Advisor.
4. Approval of the degree program by the graduate advisor, the Department Chair, Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics, and the Dean of Graduate Studies.

Option in Applied Physics
(code PHYSMS02)

The Option in Applied Physics provides a master’s degree program that emphasizes concepts and techniques particularly appropriate for applied physics. It is intended for students having a background in physics, engineering, or a related field.

Prerequisites
1. A bachelor’s degree with a major in physics, or
2. A bachelor’s degree with a major in engineering with upper division physics substantially equivalent to PHYS 310, 340A, B, and 450, as determined by the Department Graduate Advisor, or
3. A bachelor’s degree with upper division physics and mathematics courses essentially equivalent to PHYS 310, 340B, 450; and MATH 370A, B, as determined by the Department Graduate Advisor.

Students deficient in undergraduate preparation must take courses to remove these deficiencies as determined by the Department Graduate Advisor.

Requirements
2. Two courses chosen from PHYS 545, 546, 576 or 580, one of which must be 545 or 546.
3. Completion of at least 2 additional units of graduate-level PHYS course, 6 units of PHYS 696, completion of a written thesis, and an oral presentation of the thesis research. The members of the candidate’s thesis committee must approve the thesis before the student may schedule the oral presentation. Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student should choose a thesis chair who will help in selecting the student’s thesis committee consisting of at least three members (including the thesis chair and at least one other faculty member of the Department).

Advancement to Candidacy
1. The regulations governing the master’s degree are those in effect at the time of advancement to candidacy. Students must fulfill the University requirements for advancement to candidacy.
2. A student must have a "B" average or better in six units of physics applicable toward the master’s degree, of which at least three units are at the graduate level.
3. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serve at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the Graduate Advisor.
4. Approval of the degree program by the graduate advisor, the Department Chair, Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics, and the Dean of Graduate Studies.

Physics Courses (PHYS)

LOWER DIVISION

100A, B. General Physics (A, B) F, S
Prerequisite: MATH 109 or 112 or 113 or 117 or 119A or 120 or 122. PHYS 100A is a prerequisite for PHYS 100B.
Your course in introductory physics. First semester considers properties of matter, mechanics, wave motion, and heat. Second semester considers electricity, light, and atomic and nuclear physics.
Letter grade only (A-F). (Lecture 3 hrs, laboratory 3 hrs.)

102. Introduction to Physics (3) F, S
Prerequisite: MATH 117 (which may be taken concurrently) or three and one-half years of high school mathematics including two years of algebra, one year of geometry and one-half year of trigonometry.
Assists students needing additional preparation before enrolling in PHYS 100A or 151. Basic problems and concepts in physics, particularly mechanics.
Credit/No Credit grading only. Begins in the fourth week of the semester. (Lectures, problem sessions 4 hrs.)
151. Mechanics and Heat (4) F,S
Prerequisite: MATH 122.
Lecturer grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

152. Electricity and Magnetism (4) F,S
Prerequisites: PHYS 151; MATH 123.
Mechanical waves, Coulomb's law, electrostatics, electric circuits, introductory electronics, magnetic fields, induction and Maxwell's equations.
Lecturer grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

201. An Introduction to the Fundamentals of Nano-Technology (3)
Broad overview of the key areas, applications, and emerging importance of nano-scale science and engineering in today's society. For lower-division students thinking of entering majors like physics, biology, and electrical engineering.
Lecturer grade only (A-F). (Lecture 3 hrs.)

254. Applied Modern Physics (3) F,S
Prerequisites: PHYS 152 or EE 210; MATH 224.
Geometrical and physical optics, models of atomic and condensed matter systems.
Not open for credit to students with a "C" or better in PHYS 153 or PHYS 154. Lecturer grade only (A-F). (Lecture 3 hrs.)

255. Laboratory on Modern Physics (1)
Prerequisite: PHYS 254, which may be taken concurrently. Experimental work in optics and modern physics.
Not open for credit to students with a "C" or better in PHYS 153 or PHYS 155. PHYS 255 is equivalent to PHYS 155. Lecturer grade only (A-F). (Laboratory 3 hrs.)

UPPER DIVISION

310. Mechanics I (3) F
Prerequisite: PHYS 151. Prerequisite/Corequisite: MATH 304A or 307A.
Lecturer grade only (A-F). (Lecture 3 hrs.)

320. Classical and Statistical Thermodynamics (3) F
Prerequisite: PHYS 162. Prerequisite/Corequisite: PHYS 254.
Laws of thermodynamics, thermodynamic potentials, kinetic theory methods, phase transitions, equilibrium ensembles and related formalism with applications to classical and quantum systems.
(Lecture 3 hrs.)

330. Experimental Optics and Spectroscopy (3) F
Prerequisites: PHYS 254, 255.
Interference, diffraction, polarization and elementary spectroscopy.
(Lecture 2 hrs., laboratory 3 hrs.)

340A. Electricity and Magnetism I (3) S
Prerequisites: PHYS 152, 310. Prerequisite/Corequisite: MATH 307A or 304A.
Vector calculus, electrostatics, and magnetostatics. Formulation of Maxwell's equations in vector analytic form.
Lecturer grade only (A-F). (Lecture-discussion 3 hrs.)

340B. Electricity and Magnetism II (3) F
Prerequisite: PHYS 340A. Special relativity. Applications of Maxwell's equations: Plane electromagnetic waves, guided waves, radiation, interaction of electromagnetic waves and matter.
(Lecture-discussion 3 hrs.)

350. Modern Physics (3) S
Prerequisites: PHYS 310; MATH 370A or 364A.
Physical phenomena and models leading to development of quantum mechanics. Schrödinger equation, one-dimensional quantum mechanical problems, uncertainty principle, one-electron atoms, elementary applications of quantum mechanics.
(Lecture-discussion 3 hrs.)

360. Physics With Symbolic Algebra Software (3)
Prerequisite: PHYS 152. Prerequisite/Corequisite: MATH 370A or 364A.
Learning symbolic algebra programming (e.g. Mathematica) to enhance the problem-solving abilities of students in physics, engineering and mathematics. Interpolation and fitting of experimental data. Sophisticated graphics, animations, analytic calculations, and numerical solutions for a variety of physics problems.
Lecturer grade only (A-F). (Lecture-discussion 3 hrs.)

380. Electronics (4) S
Prerequisite: PHYS 152.
Network analysis and complex impedance, transistor circuits, operational amplifiers, active filters and oscillators, digital electronics, analog digital interfacing, microprocessors.
Lecturer grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

410./515. Relativity (3) F, odd years
Prerequisite: PHYS 340A. Prerequisite/Corequisite: MATH 370A or 304A. (Undergraduates enroll in PHYS 410; graduates enroll in PHYS 515.)
Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity.
Lecturer grade only (A-F). (Lecture-discussion 5 hrs.)

422./522. Thermal Physics (3) F, even years
Prerequisites: PHYS 310, 320, 360. (Undergraduates enroll in PHYS 422; graduates enroll in PHYS 522.)
Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory.
Lecturer grade only (A-F). (Lecture-discussion 3 hrs)

434./534. Astrophysics (3) F, even years
Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates enroll in PHYS 434; graduates enroll in PHYS 534.)
Topics in astrophysics. A particular semester schedule might include one or two topics from: Stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars.
Lecturer grade only (A-F). (Lecture 3 hrs)

445./545. Experimental Methods in Physics I (3) S, odd years
Prerequisites: PHYS 254, PHYS 450 or consent of instructor.
(Undergraduates enroll in PHYS 445; graduates enroll in PHYS 545.)
Modern physical measurement techniques including scanning probe microscopy and pulsed nuclear magnetic resonance. Noise and fluctuations in physical measurements. Low noise measurement techniques including lock-in amplifier, gated integrator and boxcar averager, bridge circuits, convolution, auto-and cross-correlation and FFT.
Lecturer grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

2009/2010 CSULB Catalog • Physics and Astronomy • 619
446. Experimenta/ Methods in Physics II (3) 
Prerequisites: PHYS 345, 450, or consent of instructor.
(5 undergraduates enroll in PHYS 446; graduates enroll in PHYS 546.)
Modern physical measurement techniques in condensed matter physics in high magnetic fields and low temperatures. Examples are temperature and magnetic field effects in magnetic materials, Miesner effect and superconducting transition temperature in superconductors, and mobility and Hall effect in semiconductors.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

450. Quantum Physics I (3) F
Prerequisites: PHYS 310, 340A, 350.
Schrodinger equation, atomic physics, harmonic oscillator, scattering, perturbation theory, Heisenberg and Dirac representations, spin, symmetries (angular momentum, time reversal, and parity), applications. (Lec-discussion 3 hrs.)

451. Quantum Physics II (3) S, even years
Prerequisites: PHYS 450.
Measurement processes, atomic physics, identical particles, quantum statistics, numerical methods, many-body systems, density matrix, applications.
Letter grade only (A-F). (Lecture-discussion 3 hrs.)

462. Computational Methods in Theoretical Physics (3)
Prerequisites: PHYS 310 and PHYS 450. (Undergraduates enroll in PHYS 462, graduate students enroll in PHYS 562.)
Symbolic and numerical (e.g. Maple, Mathematica) and numerical (e.g. Fortran 95/C++) programming, and their applications: classical mechanics, Hamilton equations, quantum mechanical bound and scattering-state problems, Schrodinger equation, Liebnitz-Schrödinger equation, Dirac equation.
Letter grade only (A-F). (Lecture 3 hrs.)

470. Introduction to Solid State Physics (3) S, odd years
Prerequisites: PHYS 450. (Undergraduates enroll in PHYS 470; graduates enroll in PHYS 560.)
Study of properties of solids from quantum mechanical viewpoint. Includes lattice vibrations, elastic constants, and thermal, electric, and magnetic properties.
Letter grade only (A-F). (Lecture 3 hrs.)

475. Modern Optics (3) F, even years
Prerequisites: PHYS 340A. (Undergraduates enroll in PHYS 475; graduates enroll in PHYS 575.)
Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics, and selected application.
Letter grade only (A-F). (Lecture 3 hrs.)

476. Modern Optics with Laboratory (3)
Prerequisites: PHYS 340A. (Undergraduates enroll in PHYS 476; graduates enroll in PHYS 576.)
Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics, and selected application. Experiments illustrating principles and techniques of electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

480. Computer Interfacing in Experimental Physics (3) S, even years
Prerequisites: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.)
Modern data acquisition and analysis methods using computer-based equipment and high level software. Physics experiments performed with standard personal computers, research quality data acquisition hardware, and programmable instruments. Computer use as tool in execution and interpretation of experiments.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

490. Special Topics in Physics (3)
Prerequisites: Consent of instructor. (Undergraduates enroll in PHYS 490; graduates enroll in PHYS 590.)
Physics topics selected from such areas as atomic and nuclear physics, astrophysics, photonic materials, low temperature physics, acoustics, and theoretical physics. May be repeated to a maximum of 6 units. (Lecture 3 hrs.)

496. Special Problems in Physics (1-3)
Prerequisites: Consent of instructor and senior standing. Physics problems selected by instructor for considered and mature analysis. Written and 10-minute oral reports required.

GRADUATE LEVEL

500. Research Methods (1)
Prerequisites: Consent of instructor. Study of literature about research methods in physics. May be repeated to a maximum of 2 units; only 1 unit may be applied to the Master of Science in Physics. Letter grade only (A-F).

510. Graduate Mechanics (3) F
Prerequisites: PHYS 310.
Variational principles, Lagrange's equations, Hamilton's equations, canonical transformations, Hamilton-Jacobi theory, relativistic mechanics and small oscillation theory.
Letter grade only (A-F). (Lecture 4 hrs.)

515. Relativity (3) F, odd years
Prerequisites: PHYS 340A. Prerequisite or Corequisite: MATH 370A or MATH 350A. (Undergraduates enroll in PHYS 415; graduates enroll in PHYS 515.)
Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity.
Letter grade only (A-F). (Lecture-discussion 3 hrs.)

522/422. Thermal Physics (3) F, even years
Prerequisites: PHYS 310, 320, 380. (Undergraduates enroll in PHYS 422; graduates enroll in PHYS 522.)
Entropy and temperature, Boltzmann distribution and Boltzmann's free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory.
Letter grade only (A-F). (Lecture-discussion 3 hrs.)

534/434. Astrophysics (3) F, even years
Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates enroll in PHYS 434; graduates enroll in PHYS 534.)
Topics in astrophysics. A particular semester schedule might include one or two topics from: Stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars.
Letter grade only (A-F). (Lecture 3 hrs.)
540A. Graduate Electricity and Magnetism and Electrodynamics I (3) S
Prerequisite: PHYS 340B.
Boundary value problems, applications of special functions to electrostatics/magnetoostatics. Green's function techniques, multipole expansion of electrostatic field, dielectric media, Maxwell's equations, electromagnetic waves.
Letter grade only (A-F). (Lecture 3 hrs.)

540B. Graduate Electricity and Magnetism and Electrodynamics II (3) F
Prerequisite: PHYS 540A.
Covariant formalism, simple radiating systems, radiation by moving charges, and topics in electrodynamics chosen from the following: wave guides, magnetohydrodynamics, thermodynamics and electrodynamics of continuous media, and radiation reaction.
Letter grade only (A-F). (Lecture 3 hrs.)

545J.445. Experimental Methods in Physics I (3)
Prerequisites: PHYS 254; PHYS 450 or consent of instructor.
Undergraduates enroll in PHYS 445; graduate students enroll in PHYS 545.
Modern physical measurement techniques including scanning probe microscopy and pulsed nuclear magnetic resonance. Noise and fluctuations in physical measurements. Low noise measurement techniques including lock-in amplifier, gated integrator and boxcar averager, bridge circuits, convolution, auto- and cross-correlation and FFT.
Letter grade only (A-F). (Lecture 2 hrs, laboratory 3 hrs)

546J.446. Experimental Methods in Physics II (3)
Prerequisites: PHYS 254; PHYS 450 or consent of instructor.
Undergraduates enroll in PHYS 446; graduate students enroll in PHYS 546.
Modern physical measurement techniques in condensed matter physics in high magnetic fields and low temperatures. Examples are temperature and magnetic field effects in magnetic materials, Meissner effect and superconducting transition temperature in superconductors, and mobility and Hall effect in semiconductors.
Letter grade only (A-F). (Lecture 2 hrs, laboratory 3 hrs)

550A. Quantum Mechanics I (3) F
Prerequisite: PHYS 450.
Mathematical and postulational basis of quantum mechanics, one-dimensional problems, two-level systems, angular momentum, central potentials, time independent and time dependent perturbation theory.
Letter grade only (A-F). (Lecture 3 hrs.)

550B. Quantum Mechanics II (3) S
Prerequisite: PHYS 550A.
Scattering, rotation group and irreducible tensor operations, identical particles, some classical radiation theory, atoms, path integrals formalism, and other selected topics.
Letter grade only (A-F). (Lecture 3 hrs.)

554. Nuclear Physics (3)
Prerequisite: PHYS 550A.
Deeferon problem, nuclear nuclear potential, shell model, nuclear models, nuclear reactions, elementary particles, weak interactions, strong interactions.
Letter grade only (A-F). (Lecture 3 hrs.)

555. Elementary Particle Physics (3) S, even years
Prerequisites: PHYS 310, 340B, 450.
 Feynman diagram language of scattering and decay, space-time symmetries, relativistic kinematics, hadron quantum numbers and quark models, QED, QCD and gluons, weak interactions.
Letter grade only (A-F). (Lecture 3 hrs.)

560A. B. Mathematical Methods of Physics (3,3)
Prerequisites: MATH 370A,B or equivalent.
Linear vector spaces, eigenvalue problem, functions of complex variable, special functions, properties and methods of solving partial differential equations of physics, integral equations, tensor analysis, and group theory.
Letter grade only (A-F). (Lecture 4.3 hrs.)

562J.462. Computational Methods in Theoretical Physics (3)
Prerequisites: PHYS 310 and PHYS 450. (Undergraduates enroll in PHYS 462; graduate students enroll in PHYS 502).
Symbolic (e.g. Maple/Mathematica) and numerical (e.g. Fortran 85/C++) programming, and their applications: e.g. classical mechanical Hamilton equations, quantum mechanical bound and scattering-state problems, Schrödinger equation, Lippmann-Schwinger equation, Dirac equation.
Letter grade only (A-F). (Lecture 5hrs.)

569J.470. Introduction to Solid State Physics (3) S, odd years
Prerequisite: PHYS 450. (Undergraduates enroll in PHYS 470; graduates enroll in PHYS 569.)
Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties.
Letter grade only (A-F). (Lecture 3 hrs.)

575J.475. Modern Optics (3) F, even years
Prerequisite: PHYS 340A. (Undergraduates enroll in PHYS 475; graduates enroll in PHYS 575.)
Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected applications.
Letter grade only (A-F). (Lecture 3 hrs.)

576J.476. Modern Optics with Laboratory (3)
Prerequisite: PHYS 340A. (Undergraduates enroll in PHYS 476; graduates enroll in PHYS 576.)
Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected application. Experiments illustrating principles and techniques of electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics.
Letter grade only (A-F). (Lecture 2 hrs laboratory 3 hrs)

580J.480. Computer Interfacing in Experimental Physics (3) S, even years
Prerequisite: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.)
Modern data acquisition and analysis methods using computer-based equipment and highly level software. Physics experiments performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. Computer use as tool in acquisition and interpretation of experiments.
Letter grade only (A-F). (Lecture 2 hrs, laboratory 3 hrs.)

590J.490. Special Topics in Physics (3)
Prerequisite: Consent of instructor. (Undergraduates enroll in PHYS 490; graduates enroll in PHYS 590.)
Physics topics selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, low temperature physics, acoustics, and theoretical physics. May be repeated to a maximum of 8 units. (Lecture 3 hrs.)

691. Directed Study (1)
Intensive study of advanced topics in physics. May be repeated to a maximum of 2 units. Letter grade only (A-F).
Physics Courses (PHYS)

694. Seminar in Special Topics (1)
Prerequisite: Graduate standing.
Study of research papers and research methods in selected topics. If demand for more than one subject exists, multiple sections may be given in any one semester.
May be repeated to a maximum of 2 units; only 1 unit may be applied to the master's degree. Letter grade only (A-F). (Seminar 1 hr.)

695. Colloquium (1)
Prerequisite: Graduate standing.
Weekly meetings for presentation and discussion of current research in physics even though only 1 unit is for M.S. degree. Graduate students are expected to attend each semester they are enrolled in University.
Credit/No Credit grading only. (Seminar 1 hr.)

697. Directed Research (1-3)
Theoretical and experimental problems in physics requiring intensive analysis.
Letter grade only (A-F).

698. Thesis (1-6)
Prerequisite: Advancement to candidacy for the M.S. in Physics.
Planning, preparation, and completion of acceptable thesis in partial fulfillment of requirements for master's degree. A half-hour seminar presenting and defending results of the thesis required.
Credit obtained upon formal acceptance of thesis.

Astronomy Courses (ASTR)

LOWER DIVISION

100. Astronomy (3) F,S
Prerequisite/Corequisite: One course from Category B.2 of the GE requirements.
Introductory course in astronomy. The earth moon system and the planets, the stars and their constitution. Survey of the methods of astronomical observation.
(Lecture 3 hrs.)

100L. Introductory Astronomy Laboratory (1) F,S
Prerequisite/Corequisite: One course from Category B.2 of the GE requirements; ASTR 100.
Astronomical coordinates, star maps, magnitude, spectral classification, ages of stars, distance to star clusters.
Not open for credit to students with credit in ASTR 101.
(Laboratory 3 hrs.)

UPPER DIVISION

370L. Planetary Environments (3) F,S
Prerequisites: Completion of the GE Foundation and the GE B.1.A category; upper division status.
Planets and moons analyzed as to surface geology, interiors, atmospheres, etc. Methodologies and scientific reasoning about nature and origins of features. Origin of terrestrial life, including role of extinction events, and probable requirements for life elsewhere in universe.
(Lecture 3 hrs.)

POLITICAL SCIENCE
College of Liberal Arts

Department Chair: Teresa Wright
Department Office: Social Science Public Affairs (SS/PA) Rm 257
Telephone: (562) 985-4701
FAX: (562) 985-4702
Email: posc@csulb.edu
Website: http://www.csulb.edu/dept/polisci/

Faculty: Mary Capistran, Christopher Dennis, Larry George, Cory Sol Goldstein, Leilani Haas, Howard Hoefly, William M. Lottier, Larry Martinez, Charles Noble, Amy Cabrera Rasmussen, Gerry Riposa, Ronald J. Schmidt, Barry H. Steinke, Kevin Wallsten, Jason E. Whitehead, Amy Wiansstrom, Teresa Wright

Administrative Coordinator: Nancy St. Martin

Students desiring information should contact the department office for referral to one of the faculty advisors:

Advisors:
Counselor: Ilene Lihr (History)
Undergraduate: Amy Rasmussen
Graduate: Leilani Haas
Pre-Law: Jason Whitehead

Career Possibilities
Political Scientist • Journalist • Foreign Service Officer • Urban Planner • Paralegal • Labor Relations Specialist • Administrator • Researcher • Lobbyist • Archivist • Probation/Parole Officer • Intelligence Analyst • Teacher • Lawyer • Social Service Worker • Market Research Analyst • Public Survey Worker • Community Organizer • Politician • Legislative Aide • City Manager (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The political science major is designed to provide the student with a systematic knowledge of the nature and scope of political science. A student may elect to major in political science as a preparation for such fields as: (1) college or university teaching, (2) law, (3) government career service, (4) foreign career service, and (5) politics. In addition, a political science major is preparation for general education, good citizenship, and participation in political life. Students interested in the fields mentioned above should consult with an advisor to secure aid in planning their programs.

Pre-Law Program and Preparation
Political Science continues to be one of the most popular and successful routes to law school and careers in the legal field. Combining a broad exposure to liberal arts with an in-depth immersion in government studies and public law, plus opportunities to intern in legal settings, Political Science provides a rich preparation for those interested in pursuing careers in law. Students interested in our program should consult with the Pre-law advisor in Political Science both to plan a carefully thought out undergraduate course of study and to successfully prepare for admission to law schools.

General Education Requirements in Government
The Education Code requires each college graduate to meet (1) a federal government requirement and (2) a California state and local government requirement. Both of these requirements can be met by POSC 100 (for lower division students) or POSC 391 (for upper division students). If the student has completed the federal government requirement, but not the California state and local government requirement, the student should take POSC 326. Students who have taken American federal, state or local government at another institution should check with the political science advisor before enrolling.

Undergraduate programs

Bachelor of Arts in Political Science (code POSCBA01) (120 units)

Requirements
Required Courses: (6 units): POSC 100, 300
Concentration Requirement: (18 units)

Eighteen units in one of the three areas of concentration: Law, Politics and Policy; Political Theory; Global Politics.
Three lower-division units and fifteen upper-division units must be taken in the chosen area of concentration, including the senior seminar in that area.

Breadth Requirement: (15 units)
Fifteen units, no more than six of which may be from the student's area of concentration; no more than three of which may be lower division. Program must include at least three units of a practicum.

POSC 100, the 200-level concentration requirement, and POSC 300 must be completed by the end of the junior year.
Total Units: 30

Honors in Political Science
Students with a major in Political Science may be admitted to the Political Science Department's honors program (option of the University Honors Program) provided they have:
1. Junior standing, completed POSC 300 and at least two additional upper-division courses in Political Science;
2. A minimum of three semesters remaining before graduation;
3. A minimum cumulative GPA of 3.3, and 3.5 in Political Science courses;
4. Submitted to the Department Honors Committee two letters of recommendation from faculty members and an example of a research or analytical paper written for a previously taken course in Political Science;
5. Received admission approval from the Department Honors Committee.

In order to graduate with Honors in Political Science a student must:
1. Complete all regular requirements for the major in Political Science;

2009/2010 CSULB Catalog • Political Science • 623
2. Complete 3 units of POSC 490H: Honors Seminar;
3. Complete 3 units of POSC 491H: Honors Research;
4. Complete 3 units of POSC 492H: Honors Thesis;
5. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in Political Science courses.

Minor in Political Science (code POSCUM01)
The Minor in Political Science is available to any non-Political Science major.
A minimum of 21 units which must include:
Required: POSC 100 or 391, 300
Upper Division: Five upper division courses (300/400 level) which may include one approved political science internship from 418, 447, 448, 496, or 498.

Minor in Public Administration in Political Science (code POSCUM02)
The Minor in Public Administration in Political Science is available to any non-Political Science major.
A minimum of 21 units which must include: (a) POSC 430; (b) 9 units selected from POSC 431, 432; (c) 6 units selected from POSC 300B, 322, 323, 326, 327, 328, 329, 447, 448; (d) Three elective units from any area in political science chosen in consultation with an advisor.

Graduate Programs

Master of Arts in Political Science (code POSCMA01)
The Department of Political Science offers graduate study leading to the master of arts degree. The student is urged to become acquainted with the general requirements of the University and the specific requirements of the department as stated in this Catalog. Important supplementary information about the steps leading to the master’s degree in political science is contained in the Handbook for Graduate Students, which is available on the department website.

Before or soon after entering the program, the graduate student will normally consult with the department graduate advisor.

After beginning graduate study, the student is responsible for obtaining the consent of full-time members of the department’s graduate faculty to serve on her/his graduate committee: one of these committee members, the chair, will be drawn from the student’s major field of concentration and will serve as the student’s academic advisor. The student should seek to have established her/his committee prior to the completion of the first year or the first 15 units of work as a graduate student in political science unless an exception is granted by the Department Graduate Committee.

Prerequisites
1. A bachelor’s degree with a major in political science or a bachelor’s degree with 24 upper division units in political science comparable to those required for a major in political science at this university.
2. Completion of a minimum of one upper-division political theory course equivalent to POSC 301 or POSC 303 at CSULB, with a grade of "B" or better.
3. Students whose undergraduate work is deficient in political science will be required to make up certain courses. Deficiencies will be determined by the Department’s Graduate Committee after taking into account each student’s background and goals. These courses will not count toward credit in the M.A.
4. A 3.0 ("B") GPA in political science courses taken as an undergraduate. A student whose GPA is less than 3.0 may appeal to the Department’s Graduate Committee for a possible waiver of this requirement.
5. Three letters of recommendation (preferably from academic sources).

Advancement to Candidacy
1. Satisfy the general requirements of the University for advancement to candidacy;
2. In order to be recommended for advancement to candidacy, students must obtain the written approval of their master’s degree program of course work by their committee chair and graduate advisor.

Requirements
1. A student’s program is formulated in consultation with an advisor selected from the department’s faculty. A minimum of 30 units of acceptable upper division and graduate courses is required. All students are required to take both POSC 590 and POSC 550. 21 units must be concentrated in three of the fields into which the department’s curriculum is divided. M.A. students, upon the prior approval of the Graduate Advisor, may take 5-6 units of upper division (300/400) coursework in Political Science for elective credit. General Education courses may not be taken for graduate credit.
2. The graduate student must complete one of the following requirements: (a) A comprehensive examination in each of two fields of Political Science; (b) A thesis. Students following the comprehensive examination option will earn 3 units of credit in POSC 697 and those writing a thesis will be granted three units of credit in POSC 696.

Interdisciplinary Minor in Public Policy (code POSCUM03)
The purpose of this program is to enable persons majoring in fields related to public policy to gain a broader understanding of the substance of public policies, the underlying social, economic and political factors related to policy alternatives, the dynamics of the public policy decision-making process, the values implicit in these decisions, and methods by which these aspects of public policy may be analyzed.

The minor consists of 21 units including a core curriculum of 12 units and 9 units of electives. A maximum of 8 units may be taken in the student’s major department, but no units may be counted in both the major and the minor.
Requirements
1. Core Curriculum: (12 units required): Twelve units chosen from among the following courses: ECON 450, POSC 328, PSY 375I, UIST 311.
   Note: It is strongly recommended that students take the core curriculum courses in sequence, the first two courses during the Junior year, the second two during the Senior year.

2. Electives: (9 units required): At least 6 units of the 9 elective units must be taken in one of the policy area concentrations outlined below. The remaining 3 units may be taken from among any of the elective courses approved for the minor.
   Policy Area Concentrations: Community Relations and Social Services, Health Care, Housing and Recreation, Education, Economic Regulation, Justice and Law, Land Use and Ecology, Computational Skills for Public Policy, Foreign Policy and International Relations, Values and Public Policy, Governance and Policy, Law, Politics and Policy

Law, Politics and Policy
POSC 210 Issues of American Politics
POSC 212 How Democratic is the United States?
POSC 311 Constitutional Law: Power
POSC 312 Constitutional Law: Rights
POSC 321 The Media and American Politics
POSC 322 Parties, Campaigns, and Elections
POSC 323 Racial and Ethnic Politics - U.S.
POSC 326 California Government in Comparative Perspective
POSC 327 Urban Politics
POSC 328 Public Policy
POSC 329 Cases in Public Policy Making
POSC 412 Law and Social Change
POSC 414 Jurisprudence
POSC 417 Legal Practice: Court
POSC 418 Legal Practice: Appellate
POSC 419 Senior Seminar in Public Law
POSC 422 Public Opinion and Political Behavior
POSC 423 The American Presidency
POSC 424 The Legislative Process
POSC 429 Senior Seminar in American Government and Politics
POSC 430 Fundamentals of Public Administration
POSC 431 Public Policy Analysis
POSC 432 Public Values and Public Policy
POSC 447 Public Service Internship I
POSC 448 Public Service Internship II

Political Theory
POSC 225 Issues in Political Theory
POSC 301 Classical Political Theory
POSC 303 Modern Political Theory
POSC 304 Recent Political Theory
POSC 306 Contemporary Political Ideologies

POSC 308 American Political Theory
POSC 401 Women in Political Theory
POSC 405 Senior Seminar in Political Theory

Global Politics
POSC 215 Issues of Comparative Politics
POSC 216 Global Politics
POSC 220 Issues in Global Politics
POSC 332 Governments and Politics of Western Europe
POSC 336 Contemporary Latin American Politics
POSC 362 Society and National Politics of China
POSC 367 Governments and Politics of the Middle East
POSC 371 International Politics
POSC 374 International Law
POSC 376 Politics and Practice of the UN
POSC 450 Comparative Political Movements
POSC 455 Comparative Revolutionary Change
POSC 461 The Politics of Development
POSC 463 Nationalism and National Identities
POSC 469 Senior Seminar in Comparative Politics
POSC 480 U.S. Latin American Relations
POSC 481 American Foreign Policy
POSC 485 International Political Economy
POSC 486 National Security Policies
POSC 489 Senior Seminar in International Relations

General
POSC 300 Scope/Methods Political Science
POSC 300B Quantitative Methods in Political Science
POSC 388 Cybersecurity Citizenship
POSC 391 American Government
POSC 395I Politics Through Culture
POSC 400H Honors Seminar
POSC 401H Honors Research
POSC 402H Honors Thesis
POSC 403 Special Topics
POSC 404 Politics of the Future
POSC 405 Washington Center Internship
POSC 407 Special Topics
POSC 408 Practicum in Politics
POSC 409 Readings and Conference in Political Science

Courses (POSC)

LOWER DIVISION

100. Introduction to American Government (3)
Prerequisites/Corequisites: Any GE Foundation course.
Introductory survey of American Political Institutions, politics, and policy, including government and politics in California. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement.

2009/2010 CSULB Catalog • Political Science • 625
105. Introduction to Critical Thinking (3)
Prerequisites/Corequisites: Completion/concurrent enrollment in ENGL 100 or equivalent.
Introduction to critical thinking through study of philosophical writing, political rhetoric, and political propaganda. Emphasis on distinguishing facts from values, inductive from deductive reasoning, emotional responses from reasoned judgments, relationship between language and logic, the role of reference, intellectual honesty.

210. Issues of American Politics (3)
Prerequisite: Completion of GE Foundation requirements and POSC 100.
Intensive study of issues associated with the concepts of democracy, limited government, federalism, separation of powers, judicial review, and preservation of individual rights.

212. How Democratic is the United States? (3)
Prerequisite: Completion of all GE Foundation courses and POSC 100.
Examination of persistent challenges to citizen control of government in the U.S., including growth of executive power; economic inequality, racial inequality, loss of status; decline of political participation and civic engagement.

215. Issues of Comparative Politics (3)
Prerequisite: Completion of GE Foundation requirements and POSC 100.
Intensive study of issues associated with selected foreign governments, modernization, revolution, political change and world ideological conflict.

218. Global Politics (3)
Prerequisite: Completion of all GE Foundation courses and POSC 100.
Study issues central to politics in a global context, such as democracy, communism, fascism, democratization, revolution, liberalism, and anti-liberalism. Examine questions of national sovereignty, as well as the relation between nation states and the rise of non-state and trans-state actors.

220. Issues in Global Politics (3)
Prerequisite: Completion of GE Foundation requirements and POSC 100.
Divergences between nations as they affect political differences between states. The political significance of the encounter of individuals with those of different nationalities.

225. Issues in Political Theory (3)
Prerequisite: Completion of GE Foundation requirements and POSC 100.
Study and discussion of issues including revolution, power, justice, alienation, the nature of democracy, and other important political concepts. Views of theorists such as Plato, Hobbes, Rousseau, Mill, and Marx will be examined.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course.

300. Scope and Methods of Political Science (3)
Prerequisite: POSC 100.
Examiners what political scientists do. Focus on quantitative and qualitative techniques employed by political scientists to understand political phenomena. Examples drawn on all subfields from political science: American politics, comparative politics, international relations, political theory, public law and public policy. Letter grade only (A-F).

300B. Quantitative Methods in Political Science (3)
Prerequisites: Completion of the GE Foundation, POSC 100. Problems of data collection and analysis. Impact of research methods on findings. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course.

Lecture (3 hours)

301. Classical Political Theory (3)
Prerequisites: Completion of the GE Foundation, POSC 100. Ancient Greek and Roman roots of political theory. Socrates and the Sophists; Plato, Aristotle; Cicero, Polybius; and the Stoics. Examines relationships between the individual citizen and the Polis, justice and equality, democracy and dictatorship, the political culture of Mediterranean world.

303. Modern Political Theory (3)
Emergence of modern political thought in Western Europe from the 17th through the 19th centuries. Examines views of state and society in John Locke, Thomas Hobbes, Jean Jacques Rousseau, John Stuart Mill, Edmund Burke, George Hegel, and Karl Marx.

304. Recent Political Theory (3)
Critical examination of major themes in political thought in industrial and post-industrial society, from the late 19th century to today.

306. Contemporary Political Ideologies (3)
Critical examination of the nature and role of ideologies in contemporary politics. Conservatism, liberalism, socialism, communism and fascism in theory and practice.

308. American Political Theory (3)
Critical examination of the ideas of those who have shaped American political consciousness from Puritans to present.

311. Constitutional Law: Power (3)
Prerequisite: POSC 100 or 301 or equivalent. Judicial interpretation of the U.S. Constitution. Judicial review, the power of the President and the Congress; state governmental authority; nature of the American federalism. Not open for credit to students with credit in POSC 315.

312. Constitutional Law: Rights (3)
Prerequisite: POSC 100 or 301 or equivalent. Analysis of the rights and guarantees contained in the Bill of Rights and other constitutional and statutory provisions. Examination of leading cases. Not open for credit to students with credit in POSC 314.

321. The Media and American Politics (3)
Prerequisites: Completion of GE Foundation requirements, POSC 100 or consent of instructor. Role of print and electronic media in American politics and their relationship to politicians and the media. The media's impact on government, policy-making, election campaigning. Prospects for democratic deliberation. Portrayal of political issues and political themes in popular culture.

322. Parties, Campaigns, and Elections (3)
Prerequisites: Completion of GL Foundation requirements. The nature and impact of the American two-party system; why people vote as they do; how candidates seek electoral support. Comparison of American party politics to party politics in other democratic countries.

323. Racial and Ethnic Politics - U.S. (3)
Prerequisites: Completion of the GE Foundation, POSC 100. Examination of the political activities of racial and ethnic minority groups in the United States, including American Indians, African Americans, Latino Americans and Asian/Pacific Americans. Political debates over competing approaches, strategies and public policies promoting equality in the U.S.
326. California Government In Comparative Perspective (3)
Prerequisites: Completion of GE Foundation requirements.
The government and politics of American States including intergovernmental relations. Special focus on political institutions, current issues, and public policies in California. May not be taken to fulfill G.E. credit except under category D 1.b.

327. Urban Politics (3)
Social conflicts, political processes and governmental institutions in American urban areas. Emphasis on urban political culture, power structures, interest groups, social movements, urban governance and policy-making. Evaluation of urban political problems and proposed solutions.

328. Public Policy (3)
Prerequisites: Completion of the GE Foundation; POSC 100.
Analysis of the American policy process with special attention to the social, economic, cultural, and political factors that influence policy choices.

329. Cases in Public Policy Making (3)
Prerequisites: Completion of GE Foundation, POSC 100, and POSC 328. Intensive examination of the policy process through the in-depth analysis of selected public policies. May be repeated to a maximum of 6 units with different topics in different semesters with department approval.

353. Government and Politics of Western Europe (3)
Prerequisites: Completion of the GE Foundation and POSC 100.
Examination of selected European democracies, with emphasis on governmental structure, functions and political processes and their relationship to current problems.

358. Contemporary Latin American Politics (3)
Study of government and politics with emphasis on similarities and differences among Latin American states. Focus on principal groups and major issues in the political process. Conflict among the obstacles to development and other problems will be examined.

362. Society and National Politics of China (3)
Study of the People’s Republic of China, including its origin, ideology, and organization. Contemporary social, economic, and political developments.

367. Governments and Politics of the Middle East (3)
Emergence and development of the contemporary political systems of the Middle East; the Arab-Israeli dispute; the role and importance of the region in international politics.

371. Introduction to International Politics (3)
Prerequisites: Completion of the GE Foundation; POSC 100. Relations among nation states. Why countries sometimes cooperate and sometimes go to war. Roles of international organizations like the UN, the WTO, and NATO; and non-governmental actors like Amnesty International and Al-Qaeda; international trade and finance; war, peace, terrorism and diplomacy.

376. International Law (3)
Nature and historical development of international law; determination of rules of international law; International community under law; recognition of states and governments; jurisdiction, settlement of international disputes; war aggression and neutrality.

378. Politics and Practice of the UN (3)
Examination of historical development of international organization from the Concert of Europe to the United Nations. Analysis of contemporary international organization: its functions, problems and prospects in the context of the world situation. May be repeated to a maximum of 6 units in different semesters, but may only count once toward IR major concentration field requirement.

388. Cyberspace Citizenship (3)
Prerequisites: Completion of GE Foundation requirements, one Explorations course, and upper division standing.

391. American Government (3)
Prerequisites: Completion of GE Foundation requirements.
Survey of American government and politics, including attention to California government. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. Not open for credit to students with credit in POSC 100.

395. Politics Through Culture (3)
Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing.
Study of politics through cultural analysis. Alternative theoretical perspectives on contemporary cultural artifacts such as art, film, music, and the media.

401. Women in Political Theory (3)
Prerequisite: Students must have completed one course in either political science or women’s studies.
Different treatment of women and men in western political theories, including feminism, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as WGST 402. Not open for credit to students with credit in WST 402 or WGST 402.

409. Senior Seminar in Political Theory (3)
Prerequisites: Six units in political theory courses or consent of instructor.
Intensive study of selected conceptual and theoretical problems in political theory. Letter grade only (A-F).

412. Law and Social Change (3)
Prerequisites: Completion of the GE Foundation; POSC 100. Legal strategies pursued by social movements to remedy discrimination in the U.S. Legislative, administrative, and judicial responses. Gender equity, sexual harassment, voting rights, racial discrimination, fair housing, labor standards, sexual orientation, environmental justice, and American Indian rights.

414. Jurisprudence (3)
Fundamental legal philosophies, sources and classifications of law. Relationship of law to other disciplines and societal institutions.

417. Legal Practices: Moot Court (3)
Prerequisites: Completion of either POSC 311 or 312, and one of POSC 412 or 414, and upper division standing.
Study and acquisition of the skills of lawyering, including legal research, reasoning, writing, and trial advocacy. Substantive study of civil liberties. May be repeated to a maximum of 6 units in different semesters.

418. Legal/Judicial Apprenticeship (3)
Prerequisite: Consent of instructor. Courtroom, law office, public legal agency, and/or non-profit legal agency experience in conjunction with reading and research directed by a faculty member. May be repeated for a maximum of six units in different semesters. No more than three units of this course may apply toward the major in political science. A maximum of six units may be earned in 418, 447, 448, and 408 combined.
419. Senior Seminar in Public Law (3)
Prerequisites: Six units in public law courses or consent of instructor.
Intensive study of selected conceptual and theoretical problems in public law.
Letter grade only (A-F).

422. Public Opinion and Political Behavior (3)
What Americans think and feel about politics and why they act as they do. Topics include the formation and development of public opinion; how public opinion is measured; political socialization; political culture; and political participation.

423. The American Presidency (3)
The roles and powers of the American presidency with emphasis on major public policies of recent presidents.

424. The Legislative Process (3)
Analysis of the origin, development, and behavior of U.S. legislative bodies. Leadership, organization and procedures, problems and principles of law-making. Legislative relations with the executive and other governmental agencies.

429. Senior Seminar in American Government and Politics (3)
Prerequisites: Six units in American government and politics courses or consent of instructor.
Intensive study of selected conceptual and theoretical problems in American government and politics.
Letter grade only (A-F).

430. Fundamentals of Public Administration (3)
Principles and practices of federal, state and local administration. Not open for credit to students with credit in POSC 331.

431. Public Policy Analysis (3)
Examination of the meaning and use of concepts and methods employed in public policy decision analysis, including an overview of the decision process, sources and methods of handling policy-relevant data, and methods and techniques of program evaluation and policy analysis.

432. Public Values and Public Policy (3)
Critical examination of selected value choices involving how and by whom public policy is to be made, and choices involving what should be the content and goals of public policy.

447. Public Service Internship I (3)
Prerequisite: Completion of the GE Foundation; POSC 100; consent of instructor.
Internships in one of the various federal, state, or local governmental units in the immediate area. A maximum of six units may be earned in POSC 415, 447, 448, and 498 combined.

448. Public Service Internship II (3)
Prerequisite: Completion of the GE Foundation; POSC 100; consent of instructor.
Internships in one of the various federal, state, or local governmental units in the immediate area. A maximum of six units may be earned in POSC 415, 447, 448, and 498 combined.

450. Comparative Political Movements (3)
Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing.
Comparative study of the causes, progression, and consequences of political movements.

455. Comparative Revolutionary Change (3)
Roots of revolution. Emphasis on the historical setting, ideology, socio-economic factors, political leadership, organization and nationalism. Analysis of revolutionary conditions, courses and tactics past and present.

461. The Politics of Development (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
Problems of political development in the emerging nations of Asia, Africa and Latin America.

463. Nationalism and National Identities (3)
Prerequisites: POSC 100 and completion of GE Foundation requirements.
Impact of nationalism on contemporary world politics. Role of national identities in the rise of political violence, national liberation movements, and the struggle for democracy. Case studies such as Israel, Palestine, United States, Iraq, Russia, Chechnya, Rwanda, India, and Yugoslavia.

469. Senior Seminar in Comparative Politics (3)
Prerequisites: Six units in comparative politics courses or consent of instructor.
Intensive study of selected conceptual and theoretical problems in comparative politics.
Letter grade only (A-F).

481. U.S. - Latin American Relations (3)
Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing.
U.S. policies toward Latin America and the Caribbean. Recent debates about these policies as well as their historical and global contexts. Survey of major issues, including U.S.- Cuba policy, transnational crime/drug trafficking, international finance, trade integration, and migration.

482. American Foreign Policy (3)
Prerequisites: Completion of GE Foundation; POSC 100.
Concepts, strategies, and the shaping of American relations with other states, with special emphasis on the post-World War II period. National security, economic, and political diplomatic concerns as they present new challenges to the United States.

485. International Political Economy (3)
Prerequisites: Completion of GE Foundation; POSC 100.
Politics of global relations, including monetary and trade regimes, markets and multinational corporations. Emphasis on issues of confrontation and collaboration between countries regarding development strategies, trade, and technology transfer. Perspective students are strongly recommended to take POSC 371.

486. National Security Policies (3)
Analysis of strategic posture with emphasis on military, political and economic inter-relationships as they influence national security and international politics.

489. Senior Seminar in International Relations (3)
Prerequisites: Six units in international relations courses or consent of instructor.
Intensive study of selected conceptual and theoretical problems in international relations.
Letter grade only (A-F).

490H. Honors Seminar (3)
Prerequisites: Admission to the Honors Program in Political Science.
The nature and development of political science and its relationship to other disciplines in the Social Sciences. Recent developments in conceptual analysis and theory are emphasized. (Seminar) Course meets with POSC 500.

491H. Honors Research (3)
Prerequisite: Admission to the Honors Program in Political Science.
Research for writing an Honors thesis under the direction of a faculty member. (Independent Study)
492H. Honors Thesis (3)
Prerequisites: PolSc 491H.
Research and writing of an Honors thesis under the direction of a
department faculty advisor.
(Independent Study)

493. Special Topics (3)
Prerequisite: Consent of instructor.
Analysis of selected contemporary issues and problems.
Topics to be announced in the Schedule of Classes.

494L. Politics of the Future (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper division standing.
Study of present day global problems: overpopulation, depletion of
resources, environmental decay and their future political
implications. Examination of alternative policies, future politics
and institutional change. The technological revolutions and the
totalitarian temptation.

496. Washington Center Internship (3)
Prerequisites: Upper division standing and consent of instructor.
Students undertake a 30-35 hr. per week career-related internship in
a federal, corporate or independent sector agency located in
Washington D.C. A final written report is required. Concurrent
enrollment in an independent studies course required.
Credit/No Credit grading only. May be repeated to a maximum of
9 units.

497. Special Topics (3)
Prerequisite: Consent of instructor.
Analysis of selected contemporary issues and problems.
May be repeated to a maximum of 6 units with different topics.
Topics to be announced in the Schedule of Classes.

498. Practicum in Politics (1-3)
Prerequisite: Consent of instructor and department chair.
Political or governmental experience supplemented by reading and
research under the direction of a faculty member.
May be repeated for a maximum of six units in the same semester.
No more than three units may apply toward the major in political
science. A maximum of six units may be earned in PolSc 418, 447,
448, and 498 combined.

499. Readings and Conference in Political Science (1-3)
Prerequisite: Consent of instructor.
Directed reading to permit independent pursuit by advanced
students on topics of special interest.
Hours to be arranged. Graduate students who have had this
course as an undergraduate may repeat it.

GRADUATE LEVEL

500. Foundations and Scope of Political Science (3)
Prerequisite: Graduate status or consent of instructor.
Competing approaches to the analysis of political phenomena.
Substantive models of social and political order and change as
well as methodological arguments about the nature of explanation
in political science.
Letter grade only (A-F).

550. Research Methods in Political Science (3)
Prerequisite: PolSc 350.
Methods of empirical political science research; the formulation of
hypotheses, problems and standards of measurement and
observation; methods of data collection; research design and logic
of data analysis. No prior knowledge of statistics is assumed.
Letter grade only (A-F).

590. Advanced Study (3)
Prerequisite: Consent of Graduate Coordinator and instructor.
Study under the supervision of a faculty member. Students must fulfill requirements of a selected upper
division course plus additional work appropriate to graduate study
as determined by the instructor.
May be repeated to a maximum of 6 units with different topics.

599. Graduate Studies (3)
Prerequisites: Consent of Graduate Coordinator and instructor.
Individual graduate level study and research of special topics
under the supervision of a faculty member.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

600. Seminar in International Politics (3)
Prerequisite: PolSc 371 or equivalent.
Examination of the role of power, multiple dimensions of national
interest, collective security, world peace, nationalism, and
imperialism.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

610. Seminar in Comparative Government (3)
Prerequisite: Three upper division units in comparative
government.
Comparative study of government and politics in selected foreign
countries, intensive study of the political institutions and policies of
selected foreign governments. Emphasis on political parties and
contemporary governmental policy.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

620. Seminar in Political Theory (3)
Prerequisite: PolSc 301 or 303 or equivalent.
Analytical and critical examination of the major concepts of political
theory.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

640. Seminar in American Government and Public Law
(3)
Prerequisite: Three upper division units in American Politics or
Public Law.
Intensive study of topics and problems in American government,
politics, law, and the judicial process.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

695. College Teaching Practicum (3)
Prerequisite: Consent of Graduate Director.
Internship provides teaching experience in community college.
No more than three units of this practicum may be applied to the
Master's requirements in Political Science.
Credit/No Credit grading only.

697. Directed Research (1-6)
Prerequisite: Consent of Department Chair.
Individual research or intensive study under the guidance of a
faculty member. Three credits required of non-thesis students who
have been advanced to candidacy for the master's degree in
political science.
A maximum of 3 units may be earned by students with credit in
PolSc 695. May be repeated to a maximum of 6 units. Letter grade
only (A-F).

698. Thesis (1-4)
Planning, preparation and completion of thesis for the master's
degree.
PROFESSIONAL STUDIES
College of Health and Human Services

Acting Chair: James E. Koval
Department Office: Engineering Technology (ET), Room 236
Telephone: (652) 985-4633
Fax: (652) 985-8615
Faculty: Peter Kreyss, Henry O’Lawrence, Victor C.X. Wang

Administrative Support Coordinator: Kathy Allan

The Department of Professional Studies seeks to provide undergraduate and graduate programs and lifelong learning opportunities for adults who seek professional transition, advancement, and leadership roles in their professions. The department focuses on preparing individuals from diverse backgrounds to be highly educated, technologically skilled, and highly productive professionals.

Career Possibilities
Adult Education Professional (Adult Educator) • Secondary School Teacher • Community College Instructor • Career Counselor • Director of Career and Technical Education (CTE) Programs • Vocational Training Instructor • Training Representative • Vocational Supervisor • Regional Occupational Program (ROP) Instructor • Director of Experiential Learning Centers • Consumer Product Demonstrator/Instructional • Peace Corps Worker • Corporate Trainer (For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Occupational Studies
The Bachelor of Science degree in Occupational Studies is tailored primarily toward adult learners serving in business, industry, labor, government, non-profit organizations, and education settings. Each option within the degree is designed to facilitate professional growth to enable graduates to assume advanced and/or leadership roles in their careers.

Option in Transition Services (code OCSTBS04) (120 units)
The option in transition services prepares students for professional positions in secondary and postsecondary occupational special education, rehabilitative services, and related adult services. Students develop competencies as educational and human resource development specialists in transition services for individuals with disabilities. The curriculum for this option was developed under research sponsored by the Office of Special Education and Rehabilitation Services, United States Department of Education. Students may choose one of two tracks in this option: Rehabilitative Services or Special Education.

Requirements
Rehabilitative Services
1. 15 core units: PROF 300, 419, 421, 456, 485
2. 36 unit concentration: PROF 360, 410, 411, 412, 413, 420, 422, 440, 441, 460, 480
3. Completion of general education requirements and elective courses to total 120 units.

Special Education
1. 12 core units: PROF 300, 421, 456, 485
2. 39 unit concentration: PROF 360, 410, 411, 412, 413, 422, 460, 480; EDP 301 or 302; EDSP 350, 454; ETEC 444
3. Completion of general education requirements and elective courses to total 120 units.

Option in Vocational Arts (code OCSTBS05) (120 units)
This option is designed for individuals seeking professional transition, advancement, and leadership roles in their professions, as well as teachers in employment-related educational programs in the fields of adult education and career and technical education. Students may apply courses in this option toward the California Designated Subjects Teaching Credentials in Adult Education and in Career and Technical Education.

Requirements
1. 18 core units: PROF 300, 419; 420; 421, 456, 485
2. 24 unit concentration: PROF 410, 411, 412, 413, 422, 435, 461, 480
3. Completion of general education requirements and elective courses to total 120 units.

Designated Subjects Credential (code 300)
The Designated Subjects Teaching Credential program (DSC) at CSULB is a teacher education program. Candidates in the program may be hired as vocational and adult education teachers in the local public schools. Candidates are required by credential regulations to complete teacher preparation courses within the first two years of holding the credential.

The Designated Subjects Credential program for both career and technical education and adult education consists of 12 semester units of methodology coursework and three semester units of Health Science.
Level I Courses: PROF 410, 411/511
Level II Courses: PROF 412/512, 413/513, 435

Graduate Programs

Master of Arts in Occupational Studies (code OCSTMA01)

The Master of Arts degree in Occupational Studies is available to qualified students preparing for professional careers in the fields of career, occupational, and vocational education. A major thrust is the development of qualified leadership personnel to serve occupational education programs in public and private education as well as related human resource development programs in California and the nation.

The program in occupational studies consists of three parts. The first part is a 15 unit set of required or core coursework in the following areas:
- History and Foundations of Professional Education (PROF 501)
- Leadership Development (PROF 502)
- Management Skills (PROF 503)
- Research and Evaluation (PROF 505 and 696)

The second part is an area of specialization which is selected by the student in consultation with an advisor. Examples of program specialization areas follow:
- Administrative studies – for persons interested in administration of professional education in public or private sectors.
- Special populations – for persons planning to work with learners who are culturally different, handicapped, and/or limited English proficient in occupational education settings.
- Corporate training and development – for persons interested in development, implementation, and evaluation of training programs in a variety of business or industrial settings.
- Career guidance – for persons interested in counseling and guidance services in education and employment settings.
- Research and evaluation – for persons planning to work in research and evaluation units in public and private agencies or to pursue advanced graduate studies.
- Curriculum and instruction – for persons interested in developing occupational education courses and programs in public and proprietary institutions.

The third program part is the decision to conduct a major research study (the thesis option) or to complete a comprehensive examination near the end of the Master’s program.

Each applicant must submit a copy of transcripts for all college work to the program office, in addition to the official copies required by the Office of Admissions and Records.

Prerequisites
1. A bachelor’s degree in occupational studies, with a minimum of 24 upper division units in vocational education comparable to courses offered at this University, or
2. A bachelor’s degree with a minimum of 24 upper division units comparable to courses offered at this University in the discipline in which the degree was awarded.
3. Successful completion of Departmental Writing Examination.

Advancement to Candidacy
1. Satisfaction of the general University requirements for advancement to candidacy, including successful completion of the Graduation Writing Assessment Requirement (GWAR);
2. Completion of all core courses;
3. Maintenance of “B” average (3.0 GPA) in all work completed in graduate program;
4. Approval of Professional Studies Graduate Faculty and Director of Graduate Studies and Research, College of Health and Human Services.

Requirements
1. Completion of PROF 501, 502, 503, 505, 696;
2. Completion of 30 units of approved upper division and graduate courses and a thesis (PROF 699) and an oral presentation of the thesis approved by Department Graduate Committee, or 36 units of approved upper division and graduate courses and a written comprehensive examination.

Courses (PROF)

UPPER DIVISION

300. Orientation to Professional Studies (3)
Prerequisite: Qualified for admission to the baccalaureate degree program under California Education Code, Sections 85220, 85221, 85222, and 85223.
Philosophy and development of comprehensive employment-related education in California, its present place and functions in the total system of education.
Letter grade only (A-F).

301. Community and Professional Experiential Learning (1-9)
Prerequisite: PROF 300, upper division standing. Open only to majors in options OCSTBS02, OCSTBS03, OCSTBS04, OCSTBS07 of the Bachelor of Science in Occupational Studies degree.
Credit for supervised and documented field experience and professional development in an occupation.
Credit/no credit grading only. Course is repeatable up to 9 units.

330. Literacy for the Workplace (3)
Prerequisite: ENGL 110 or equivalent.
Principles of effective writing and oral communication for education and the workplace; extensive practice in various forms of writing; and case studies of education and workplace reports, negotiations, and oral presentations. Letter grade only (A-F).
Letter grade only (A-F).

360. Foundation of Transition Services (3)
Prerequisite: Consent of instructor.
Overview of the models, personnel roles, practices, and delivery systems of services for youth and adults with special needs in their transition from school to work and independent living.
Letter grade only (A-F).

388L. Technological Literacy (3)
Prerequisite: Completion of GE Foundation requirements, upper division standing, ENGL 100.
Exploration of technological concepts and their impact on individuals, society and culture. Technology as a human adaptive system and its relationship to sociological and ideological systems.
Letter grade only (A-F). (Discussion 3 hours.)
410. Curriculum Development for Designated Subjects (3)
Prerequisites: Enrollment in Designated Subjects Credential Program, BS, or Master's degree programs.
Techniques of curriculum planning and development in occupational and adult education.
Letter grade only (A-F).

411. Instruction and Evaluation for Designated Subjects Teachers (3)
Prerequisites: Undergraduate, PROF 410 or consent of instructor; Graduates: PROF 510 or consent of instructor.
Techniques and evaluation of instruction in adult education and career and technical education Components include motivation, presentation, application, and evaluation techniques.
Letter grade only (A-F).

412. Program Development and Instruction (3)
Prerequisites: Undergraduate: PROF 410 or consent of instructor; Graduate: PROF 510 or consent of instructor.
Advanced techniques of teaching designated subjects. Components include curriculum development, instruction, program planning, classroom management, technology, and teaching practices in adult education and in career and technical education.
Letter grade only (A-F).

413. History and Philosophy of Career and Technical Education (CTE) (3)
Examination of the history, philosophy, legislation, components, and principles of career and technical education, with a specific focus on programs subsumed under the California Designated Subjects Credential (DSC).
Letter grade only (A-F).

417. Technology, Ethics, and Society (3)
Prerequisites: Completion of GE Foundation requirements, upper division standing, ENGL 100.
A framework for understanding the ways in which human societies transform themselves through technological innovation. Ethical questions concerning the social effects of technological change.

419. Human Performance Strategies (3)
Practical and innovative strategies for making optimum use of employees in private and public organizations.
Letter grade only (A-F).

420. Program Evaluation (3)
Analysis of evaluation approaches for programs and systems. Exploration of program evaluation systems currently in operation and design of a functional evaluation plan for a program.
Letter grade only (A-F).

421. Research Design (3)
Study of research designs applicable to a variety of professional fields. Calculation of basic statistics, development of research proposals, use of computers and statistical programs in professional research.
Letter grade only (A-F).

422. Grants and Contract Writing (3)
Study of process of contract and grant proposal writing for public and private funding agencies, including budget preparation.
Letter grade only (A-F).

435. Principles of Adult Education (3)
Instruction on the scope and function of adult education including the local, state, and federal levels. Principles and practices of adult education, philosophical perspectives, and professional issues are discussed.
Letter grade only (A-F).

440. Foundations of Rehabilitation (3)
Development of specialized skills and knowledge needed to assist in working with family systems in rehabilitation settings. Components include analysis of current issues relevant to the inclusion of families in the rehabilitation process.
Letter grade only (A-F).

441. Assessment in Rehabilitation (3)
Prerequisites: PROF 440 or consent of instructor.
Overview of rehabilitation assessment, labor markets, and career planning to help individuals with disabilities enter or return to employment and compete successfully with others. Components include assessment approaches, counseling/career theories, practices of human services and rehabilitation studies, and legislation.
Letter grade only (A-F).

456. Attitude Awareness in Education and the Workplace (3)
Principles of communication, human relations, understanding other people, attitude recognition, and development, and mental steps to motivation.
Letter grade only (A-F).

457. Working Around the World (3)
Prerequisites: Completion of GE Foundation requirements, one or more exploration courses, upper division standing.
The effects of religion, language, culture, political structure, economics, and physical environment on the development of the workplace and people's perceptions of work and occupations.
Letter grade only (A-F).

460. Instructional Methods for Learners with Special Needs (3)
Identification, assessment and instructional development strategies for students or employees with diverse needs.
Letter grade only (A-F).

461. Instructional Methods for Teachers of Diverse Students (3)
Techniques of teaching sociologically, economically, and culturally diverse learners. Emphasis on methods, motivation, counseling, and instructional organization.
Letter grade only (A-F).

470. Seminar (3)
Study of the major problems and issues confronting the educator and practitioner.
Letter grade only (A-F).

480. Internship (1-4)
Internship in community, business, or school employment and training development programs that involve instruction, administration and research.
Letter grade only (A-F).

483. Senior Thesis or Project (1-3)
Identification of, planning, preparation and completion of a project to solve or research problem(s) particular to a business, educational or industrial setting. Written report required.

485. Identifying Management Competencies (3)
Lecture and discussion focusing on identification and development of competencies requisite for effective program management, including discussion of the management of ideas, material, people, and processes and their interrelationships.
Letter grade only (A-F).

485. Emergency Management Operations and Techniques (3)
Management operations and techniques in contemporary emergency service organizations. The role of supervisors, managers, and executives in the leadership process.
Letter grade only (A-F)
488. Case Studies of Critical Incidents (3)
Case studies to illustrate commonly encountered problems and
issues in the management of human-caused and natural disasters.
Incidents will be studied for the purpose of learning best practices
and for the development of mitigation, response, and recovery
plans.
Letter grade only (A-F).

490. Independent Study (1-3)
Individual research and study under the direction of a faculty
member in areas not an integral part of any regular course. Written
report is required.
May be repeated to a maximum of 3 units. Letter grade only (A-F).

492/592. Training the Trainer (4)
Needs assessment, instructional design, facilitation, evaluation,
organizational development, succession planning and international
and cross-cultural training.
Not open for credit to graduate students with credit in PROF 492.
Letter grade only (A-F).

494/594. Organization Development (3)
Concepts, models, theories, and techniques for planning,
facilitating, and evaluating interventions for organizational
development.
Not open for credit to graduate students with credit in PROF 494.
Letter grade only (A-F).

497. Practicum (1-6)
Action-oriented organized learning directed toward identifying the
major problems and issues confronting education and work and
suggesting solutions for the practitioner.

499. Special Topics (1-3)
Topics of current interest will be selected for intensive group study.
Topics will be announced in the Schedule of Classes. May be
repeated to a maximum of 6 units.

GRADUATE LEVEL

501. Foundations of Professional Education (3)
History and development of education for work in the United
States. Multiple purposes and principles, key federal legislation,
and contemporary issues and developments affecting education for
professional preparation and development.
Letter grade only (A-F).

502. Administrative Leadership (3)
Concepts and techniques of personal and professional
administrative leadership.
Letter grade only (A-F). Not open for credit to students with credit in
PPA 502.

503. Program Management (3)
Advanced principles and procedures of management emphasizing
operations, and evaluation of employment and training related
programs.
Letter grade only (A-F).

505. Critical Analysis of Issues and Problems in the
Workplace (3)
Prerequisite: PROF 421 or equivalent.
Application of quantitative and qualitative research techniques.
Topics include research design, survey research, and statistical
analysis.
Letter grade only (A-F).

510. Workforce Development Policy: Trends, Issues,
and Analyses (3)
Prerequisite: Graduate standing.
Techniques for evaluating policy and for understanding the
administrator's central role as a connector between public schools
and universities and between business, industry, and local
communities.
Letter grade only (A-F).

511.411. Instruction and Evaluation for Designated
Subjects Teachers (3)
Prerequisites: Undergraduates: PROF 410 or consent of instructor;
Graduates: PROF 510 or consent of instructor.
Techniques and evaluation of instruction in adult education and
career and technical education. Components include motivation,
presentation, application, and evaluation techniques.
Letter grade only (A-F).

512.412. Advanced Program Development and
Instruction (3)
Prerequisites: Undergraduates: PROF 410 and 411, or consent of
instructor; Graduates: PROF 510 and 511, or consent of instructor.
Advanced techniques of teaching designated subjects.
Components include curriculum development, instruction,
program planning, program evaluation, classroom management,
technology, and teaching practices in adult education and in
career and technical education.
Letter grade only (A-F).

513.413. History and Philosophy of Career and
Technical Education (CTE) (3)
Examination of the history, philosophy, legislation, components,
and principles of career and technical education, with a specific
focus on programs sanctioned under the California Designated
Subjects Credential (DSC).
Letter grade only (A-F).

514. Municipal Law for Administrators (3)
Examination of major laws and legal issues affecting local
government and governmental agencies.
Letter grade only (A-F). Same course as PPA 514. Not open for
credit to students with credit in PPA 514.

535. Intergovernmental Relations (3)
Fundamental concepts and issues of intergovernmental relations
in the United States.
Letter grade only (A-F). Same course as PPA 535. Not open for
credit to students with credit in PPA 535.

555. Government Budgeting and Finance (3)
The formulation phase in the budget cycle. Major concepts
and skills associated with budget preparation for all levels of
government.
Letter grade only (A-F). Same course as PPA 555. Not open for
credit to students with credit in PPA 555.

577. Public Sector Human Resources Management (3)
The civil service system and its impacts on public personnel
systems; laws which affect the operation of a personnel system;
impact of labor negotiations on personnel systems; written
policies and procedures: the personnel system as a change
agent.
Letter grade only (A-F). Same course as PPA 577. Not open for
credit to students with credit in PPA 577.

591. Corporate Training Development (3)
The selection and organization of corporate training curricula and
development of courses of study to be used in public and private
professional education programs.
Letter grade only (A-F).

592/492. Training the Trainer (4)
Needs assessment, instructional design, facilitation, evaluation,
organizational development, succession planning and
international and cross-cultural training.
Not open for credit to graduate students with credit in PROF 492.
Letter grade only (A-F).
593. Corporate Training Methods (3)
Teaching techniques, philosophy, organization and planning in corporate training programs, and public and private education.
Letter grade only (A-F).

594. Organization Development (3)
Concepts, models, theories, and techniques for planning, facilitating, and evaluating interventions for organizational development.
Not open for credit to graduate students with credit in PROF 494.
Letter grade only (A-F).

595. Succession Planning for Organizations (2)
Techniques to ensure the continued, effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time.
Not open for credit to graduate students with credit in PROF 496.
Letter grade only (A-F).

650. Graduate Seminar (3)
Study of selected topics including important legislation, industrial innovations, technical change, and contemporary problems.
Topics will be announced in Schedule of Classes.
Letter grade only (A-F). May be repeated for a maximum of 6 units.

696. Research Methods (3)
Prerequisite: PROF 421 or equivalent.
Selecting, defining and presenting methods of research; demonstration of research theory to problem solution.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: Advancement to candidacy.
Research in an area of specialization under the direction of a faculty member.
Letter grade only (A-F).

698. Thesis (1-4)
Prerequisite: Advancement to candidacy.
Planning preparation and completion of a thesis.
Letter grade only (A-F).
study at the doctoral level. The Master of Science in Human Factors provides training in human-machine interactions, leading to employment or to doctoral study. The Master of Science in Industrial-Organizational Psychology provides training in organizational and personnel work, leading to employment or to doctoral study.

Undergraduate Programs

Bachelor of Arts in Psychology (code PSY BA01) (120 units)

The Psychology Department maintains an undergraduate advising and admissions office in Psychology Building Room 208, (562) 985-5660. Go to http://www.csulb.edu/cla/psychology, select "Undergraduate Program" and "Peer Advisor Center." Advisors are available year round to assist students with admission, registration, degree requirements, and information about graduate study. An undergraduate handbook is available. The number of applicants to the major in Psychology has typically exceeded the number that can be accommodated by the department's resources. For this reason the undergraduate major has been designated as impacted by the California State University and a supplemental application may be required.

Admission Under Impaction

To be eligible for admission to Psychology, applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses, each with a minimum grade of "C": PSY 100, 210, and 220 or their equivalents. Applicants must have completed at least 60 units applicable to a CSULB degree prior to the term for which admission is sought. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission for admission based on cumulative grade point average, with a minimum of 2.25. Students provisionally admitted to the upper-division major must complete PSY 301 with a passing grade no later than the end of their first semester in the major, or they will be dropped from the major.

Learning Goals and Technical Skills

Students who graduate with a major in psychology should have current knowledge of:
1. the major theories in psychology and their influences across subfields and time
2. the major methodologies of psychological research and fundamental statistical concepts
3. the biological processes underlying behavior
4. sensation, perception, information processing and retention

2009/2010 CSULB Catalog • Psychology • 635
5. how behaviors develop and change throughout the life span.
6. how internal, environmental, and social factors influence behavior.
7. individual differences in behavior, including those related to gender, ethnicity, and culture.
8. different perspectives on the origin and treatment of abnormal behavior.
9. ethical issues in teaching, research, and the practice of professional psychology.

In the course of learning the above, students are expected to graduate with the ability to:
1. design and implement research, analyze data appropriately and judge the significance of findings.
2. critically evaluate psychological research as well as popular notions of human nature.
3. use the primary literature of the field and prepare a clear, organized summary of a topic.
4. use computers for the preparation of manuscripts, the analysis of data, and communication.
5. understand and work effectively with a diversity of individuals and groups.
6. apply theory and research to contemporary problems.
7. maintain currency in the field and utilize that knowledge in their lives.

Requirements
The psychology curriculum is designed to provide undergraduate students with a broad background in the principles of Psychology.

Lower Division: (14 units) PSY 100, 210, 241, 220.
Upper Division:
1. 3 units – PSY 301;
2. 6 units – two courses from PSY 331, 332, 333, 336, 340, 341, 342;
3. 3 units – two courses from PSY 351, 356; 361 or 365;
4. 6 units – two courses from (not from the same group):
   A. PSY 354, 360, 368, 370, 380;
   B. PSY 310, 314, 315, 350;
   C. PSY 339, 340, 370, 375, 376, 381;
5. 6 units – 400 level PSY courses. No more than 3 units from 405, 406A or 406B may be counted in this category. PSY 499 cannot be counted to satisfy this requirement.
6. 6 units – any upper division psychology courses not used to satisfy the requirement of sections 2 through 5;
7. 6 units – upper division units in African Studies, American Indian Studies, American Studies, Asian and Asian American Studies, Anthropology, Chicano and Latino Studies, Economics, Educational Psychology, Geography, History, Human Development, Latin American Studies, Political Science, Social Work, Sociology, Women’s Studies. At least 3 units must have an emphasis in contemporary U.S. ethnic studies. A list of acceptable ethnic studies courses may be obtained from the Psychology Advising Office in PSY 206.

Honors in Psychology
Admission Requirements
1. Admitted to the major.
2. A 3.5 GPA in all Psychology courses.
3. At least a 3.25 overall GPA.
4. Letter of support from a psychology faculty member agreeing to serve as Honors Thesis Chair.
5. Submit honors application to the Psychology Honors Advisory Committee.

Requirements
1. Complete all regular requirements for the psychology major.
2. Complete the following: PSY 310 (4 units), 499H (3 units), 499H (3 units), 499H (3 units).
3. Complete 3 units in any other 400-level psychology course exclusive of PSY 405, 406, or 499.

Minor in Psychology (code PSY_U1M01)
The Minor in Psychology is available to any non-Psychology major.
A minimum of 23 units which must include: PSY 100, 210, 241, and 220, nine upper division psychology units including at least one course from PSY 331, 332, 333, 336, 340, 341, or 342; and at least one course from PSY 351, 361, 365, and one elective.

Graduate Programs
Information about graduate programs may be obtained by examining the Department’s website. Go to karl.papubcsulb.edu/cla/psychology, select “Graduate Program.”
The Department of Psychology offers three options for graduate study leading to the Master’s degree. One leads to the Master of Arts degree in Psychological Research. The other two options lead to the Master of Science degree, one in Human Factors, and one in Industrial/Organizational Psychology. In each option a basic core of courses, including a thesis, is required; however, there is the opportunity for additional work in areas of special interest.
The Master of Arts – Psychological Research program prepares students for doctoral study, provides a general background in Psychology, and offers electives in clinical, physiological, and other traditional areas of psychology. The Master of Science in Industrial/Organizational Psychology prepares students primarily for professional work in business setting, although some students proceed to advanced study. The Master of Science in Human Factors program prepares students for careers in applied experimental psychology, with emphasis in aviation psychology and computer usability.

Admission to Graduate Programs
An application for admission may be obtained on the Psychology Department website (go to karl.papubcsulb.edu/cla/psychology, select “Graduate Program”). Acceptance by the department is contingent upon (a) GPA based on last 60 semester units available at the time of application, (b) Graduate Record Examination (GRE) scores.
on the verbal and quantitative sections; and (c) three letters of recommendation. For entry in the fall semester, all application materials, including complete transcripts, GRE scores and letters of recommendation, must be received by the department Graduate Advisor by February 14 for the Master of Science – Industrial/Organizational option, February 21 for the Master of Arts – Psychological Research option, and March 1 for the Master of Science – Human Factors option.

Financial Support

Students accepted into the graduate programs may apply for graduate assistantships (which provide monthly stipends) in Psychology or related departments on campus. Federal Work Study assignments are available in the Department, but must be applied for through the University Financial Aid Office one or two semesters prior to obtaining the assignment; other aid available includes the Graduate Research Fellowship (GRF). One student from the Master of Arts – Psychological Research and the Master of Science – Industrial/Organizational Psychology programs’ entering class may be awarded a J. Robert Newman Scholarship. A Boeing University Relations Human Factors Graduate Scholarship is offered through the Master of Science – Human Factors program.

Master of Arts in Psychology
(code PSY_MA01)

This 30-unit degree program provides graduate psychology training for further study leading toward a doctorate and careers requiring masters level training. Core courses include quantitative and research methods and courses in the basic content areas of Psychology. Students from our program who later enter doctoral programs consistently inform us that they find themselves very well prepared for doctoral study as compared to other students.

Prerequisites

All students fulfill the requirements in Item #1 and choose either Item #2 or Item #3.

1. Six units of college level work in chemistry, physics, biology or mathematics as approved by the graduate advisor.

2. A bachelor’s degree with a major in psychology that includes:
   A. two courses from the following (not from same group):
      1. PSY 331, 332, 333
      2. PSY 336
      3. PSY 340, 341, 342
   B. one of the following: PSY 351, 356, 361, 365
   C. PSY 310 OR
3. A bachelor’s degree with a major other than psychology and 24 units of upper division psychology substantially equivalent to those required for the baccalaureate degree at this university, including:
   A. two courses from the following (not from same group):
      1. PSY 331, 332, 333
      2. PSY 336
      3. PSY 340, 341, 342
   B. one of the following: PSY 351, 356, 361, 365
   C. PSY 310

Advancement to Candidacy

Advancement to Candidacy is the next step after achieving classified status and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student’s major, department, and college. The requirements to advancement are:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 698 (Thesis).
2. Classified status.
3. An approved program of studies for the Master of Arts, Research option degree.
4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
6. Enrollment in regular session.

Requirements

1. The student must complete, as a graduate student, 30 units of graduate coursework (501-699), 24 of which must be in Psychology (not including PSY 697) including:
   A. either PSY 511 or 512 if 411 or 412 or equivalent not taken as an undergraduate;
   B. one course chosen from PSY 518, 527, 533, 541, 556, or 582, if corresponding 400-level course or equivalent not taken as an undergraduate;
   C. PSY 696 (comprehensive exam required);
   D. three courses chosen from PSY 631, 632, 633, 634, 637, 651, 656, 661 or 678 (with comprehensive exams in two of the three courses); PSY 698 (6 units).
2. With the Graduate Advisor’s approval a maximum of six units from related areas may be used for six of the 30 units.
3. Attendance at six Department Colloquia, four of which must be completed prior to final oral examination.
4. Completion of all requirements as established by the M.A. Psychological Research Committee.
5. Comprehensive examinations taken in three of the four required graduate seminars, as outlined in 1C and 1D above.

Master of Science in Psychology

Option in Human Factors
(code PSY_MS04)

The Option in Human Factors under the MS in Psychology is designed to prepare students to apply knowledge of psychology to the design of jobs, information systems, consumer products, workplaces and equipment in order to improve user performance, safety and comfort. Students in the program acquire a background in experimental psychology and research methods. They are trained in the application of the material through courses in human factors, computer applications and interface design. Special topics seminars, in areas such as large-scale

2009/2010 CSULB Catalog • Psychology • 637
simulation and usability testing, complement the core program of study. Finally, students complete a thesis in their chosen area of human factors.

This option is designed as a terminal degree, but also provides excellent preparation for advanced graduate work.

**Prerequisites**

1. An undergraduate major in Psychology or in another field with 24 units of upper division psychology. A minimum grade point average of approximately 3.0 for the last 60 semester units (90 quarter units) and for all Psychology units.

2. The following psychology courses or their equivalents: PSY 310, 331, 332. Students lacking only 310 may be admitted to the program but must complete the course their first semester in attendance.

   Recommended: CECS 174 or any course in computer programming; One of the following psychology courses or their equivalents: PSY 340, 341, 342.

**Advancement to Candidacy**

Satisfy the general requirements of the university for advancement to candidacy.

**Requirements**

1. A minimum of 36 units of upper division and graduate work including PSY 511, 518, 527, 627, 633, 667, 698, 696, 698, 634 or 634; MAE 508, CEEC 448; and 1 course chosen from PSY 512, 544, 666; ENGL 419 or otherwise approved by the program committee.

**Option in Industrial and Organizational Psychology (code PSY_MSIO)**

Students admitted to this 36-unit program prepare for business and industrial positions including personnel selection and organizational development, employee training, applicant and employee testing, etc. Graduates usually go directly into business and industry, though some enter Ph.D. programs.

**Prerequisites**

1. A bachelor’s degree with a major in psychology or 24 upper division units of psychology.

2. PSY 220, 310, 314 or 315, 332 or 333, and 351 or 453/653.

Students may be admitted to the MSIO program if they lack only one required course. The missing course must be completed within the first year of graduate study. However, PSY 314 or 315 AND 351 or 453/653 must be completed prior to MSIO program entry, as they are prerequisites for the first semester MSIO program coursework. Students missing more than one prerequisite course at the time of application may be offered provisional admission if they submit an approved plan to take the missing courses prior to admission to the program.

**Advancement to Candidacy**

Advancement to Candidacy is the next step after achieving classified status and conforming catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student's major, department, and college. The prerequisite to advancement arc:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 688 (Thesis).

2. Classified status.

3. An approved program of studies for the Master of Science, Industrial and Organizational option degree.

4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).

6. Be enrolled in regular session.

**Requirements**

1. The student must complete a minimum of 36 units of graduate course work. The following courses are required: PSY 581, 585, 515, 582, 681, 698, 686, 696, and 698; two courses chosen from PSY 511 or 512 or an approved substitute; one course chosen from PSY 518, 527, 553, 575, 634, 637, 651, 656, or HRM 446. (3)

3. Students with credit in 411 or 412 as undergraduates may petition the MSIO Program Committee to substitute a maximum of 3 units from related areas toward the 36-unit program.

**Courses (PSY)**

**LOWER DIVISION**

100. General Psychology (3)

Prerequisite/Corequisite: One of the GL Foundation courses
Introduction to the scientific study of human behavior. Provides a basis for further study and for application to everyday life. Topics include biological foundations of behavior, motivation, emotion, learning, memory, thinking, personality, development, social behavior, abnormal behavior, methods of therapy.

130. Critical Thinking (3)

Prerequisite: Completion/concurrent enrollment GE A1 requirement
The nature of critical thinking; models and strategies; common fallacies of reasoning; self-regulation in the thinking process; application of critical thinking to specific areas.

150. Personality and Social Behavior (3)

Prerequisite/Corequisite: One of the GE Foundation courses
Psychological principles pertinent to the understanding of personality and interpersonal dynamics. Discussion of research and theories of social motivation, conflict and anxiety, adjustment mechanisms and personality change.

210. Introductory Statistics (4)

Prerequisites: PSY 100 completion of GE A1 requirement, and eligible to take a General Education Mathematics course.
Calculation and meaning of statistical measures. Descriptive and inferential statistics.
Not open for credit to students with credit in PSY 110. (Lecture 3 hours, laboratory 2 hours)

220. Research Methods (4)

Prerequisites: PSY 100, 210 or equivalent and GE A1 requirement.
Introduction to basic research methods in Psychology. Principles of experimentation, naturalistic observation, correlational studies.
Not open for credit to students with credit in PSY 200. (Lecture 3 hours, laboratory and field 3 hours)
241. Psychobiology (3)
Prerequisites: PSY 100, Completion of GE A1 requirement.
Introduction to the study of behavior from a biological point of view. Biological systems and processes underlying behavior, with emphasis on brain mechanisms, presented in the context of fundamental concepts and issues in psychology.
Not open for credit to students with credit in PSY 141.

278. Prevention and Treatment of Domestic Violence (3)
Prerequisite: PSY 100
In-depth look at domestic violence. Students learn about types of violence, prevalence rates and the efficacy of domestic violence. Students also learn about legal, medical and therapeutic responses to domestic violence, as well as prevention and public policy interventions.

UPPER DIVISION

300H. Mind Control or Freedom (3)
Prerequisites: Completion of GE Foundation requirements, PSY 100. Upper division standing.
Theories of persuasion and how people control others using informational, manipulative and coercive approaches; sources of power in society; and the psychological and ethical implications of freedom and responsibility in coping with control attempts by friends, government, advertisers, cults.

301. Introduction to Psychology as a Discipline and Profession (3)
Prerequisite: PSY 100.
Covers scope and value of psychology major including preparation for graduate work, careers available at varying degree levels, ethical considerations, key historical concepts, and essential skills like library search techniques, using APA format, and study skills. (6 hrs activity)

310. Intermediate Statistics (4)
Prerequisites: PSY 100, 210.
Basic theoretical concepts of statistics and use of these concepts in selection and development of model testing, hypothesis testing and parameter estimation procedures. Both single measure (univariate) and correlation (bivariate) concepts are included. (Lecture 3 hours, laboratory 2 hours)

314. Psychological Assessment (3)
Prerequisite: PSY 100, 210, 220.
Principles of assessment applied to the measurement of individual behavior and to programs intended to affect behavior. Includes interviews, tests and other methods.

315. Principles of Psychological Testing (3)
Prerequisites: PSY 100, 210, 220.
Principles and practices of group and individual testing in the fields of intelligence, aptitude, achievement, personality and interest. Emphasis on the evaluation of tests as measuring devices, their applicability and limitations.

327L. Introduction to Human Factors (3)
Prerequisites: Completion of the GE Foundation requirements, one or more Explorations courses and upper division standing.
Introduction to the field of human factors, a discipline concerned with designing products and systems for human use. Letter grade only (A-F).

329A. Advanced Research Methods in Mental Health (3)
Prerequisites: PSY 100, 210, 220, Admission to COR program and consent of instructor.
Introduction to fundamental and advanced methods relevant to mental health research as well as current directions and cutting edge research in the field of mental health. Development and execution of an independent research project on topics related to mental health.

329B. Advanced Research Methods in Mental Health (3)
Prerequisites: PSY 328A, Admission to COR program and consent of instructor.
Introduction to fundamental and advanced methods relevant to mental health research as well as current directions and cutting edge research in the field of mental health. Development and execution of an independent research project on related topics.

331. Sensation and Perception (3)
Prerequisites: PSY 100, 241, 220.
An introduction to the scientific study of sensory processes and perceptual principles from a psychophysical and physiological perspective, and the methods used to investigate them. Topics may include vision, audition, psychophysics, and object and space perception.

332. Cognition (3)
Prerequisites: PSY 100, 241, 220.
Study of higher order processes basic to the acquisition of knowledge. Includes thinking, problem solving, creativity, information processing, decision making, judgment, concepts and imagination.

333. Psychology of Learning (3)
Prerequisites: PSY 100, 241, 220.
Learning is a relatively permanent change in behavior resulting from experience. Emphasizes interaction of biological and environmental variables in the processes of instinct, habituation, sensitization, Pavlovian conditioning, instrumental learning, and cognition; examination of methods, theory and applications.

336. Psychology of Emotion (3)
Prerequisites: PSY 100, 241, 220.
Discussion of research and theories of emotions. Includes the evolution of emotions, neuropsychological mechanisms of emotion, development of emotions, expressions of emotions, and emotions in social relationships, with an emphasis on the emotions of anger, grief, happiness, jealousy, and love.

339L. Psychology of Sport Behavior and Athletic Performance (3)
Prerequisites: Completion of the GE Foundation, PSY 100 and upper division standing.
Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments.
Same course as KIN 339L. Not open for credit to students with credit in KIN 339L.

340. Physiology of Behavior (3)
Prerequisites: PSY 100, 241, 220.
An in-depth examination of central nervous system (CNS) components that create our behavioral capabilities. Topics include major structural and functional aspects of the brain and of selected systems representative of the sensory, integrative, and motor capabilities of the CNS.

341. Neuropsychology (3)
Prerequisites: PSY 100, 241, 220.
Localization of brain regions responsible for human capabilities as studied in patients with brain damage, normal people, and nonhumans. How brain damage is assessed and treated. Relation of findings to function of normal brains.

342. Psychopharmacology (3)
Prerequisites: PSY 100, 241, 220.
Introduction to the effects of major classes of psychoactive drugs on the central nervous system. Topics include anatomical and functional characteristics of neurotransmitter systems; pharmacology of drug administration; and physiological and psychological actions of select classes of psychoactive drugs.

2009/2010 CSULB Catalog • Psychology • 639
346. Evolutionary Psychology (3)
Prerequisites: Completion of GE Foundation and one or more Explorations courses, PSY 100 and upper division standing.
Human social behavior as seen in context of evolutionary biology. Topics include the importance of kinship in human societies, altruism and reciprocally, human sexuality, parent-offspring relations, ethical and legal systems and religion.

350. Psychology and Contemporary Social Issues (3)
Prerequisites: Completion of GE Foundation, PSY 100 and upper division standing.
Application of social psychological principles toward understanding major contemporary social issues. Each issue covered is presented in its historical context, and the economic, political, social and cultural aspects are examined.

351. Social Psychology (3)
Prerequisites: Completion of GL Foundation and PSY 100.
Study of individuals and groups as they are affected by social interactions. Topics may include social cognition, attitudes and persuasion, social influence, interpersonal perception and attraction, aggression, altruism, and group dynamics.
Not open for credit to students in SOC 336.

354. Psychology of Women (3)
Prerequisite: PSY 100.
Examination of women's roles throughout the lifespan including gender differences, body image, pregnancy, sexuality, communication, relationships, motherhood, work, physical and mental health. Attitudes toward women, including violence against women, may be explored.
This course is for both men and women.

356. Personality (3)
Prerequisites: Completion of the GE Foundation and PSY 100.
Survey of classical theories and methods in Personality psychology with a sampling of current research. Examines how and why people differ in personality, and the ways these differences are reflected in thoughts, feelings, motivations, and behaviors.

359. Self-Observation and Self-Development (3)
Prerequisite: PSY 100.
Examination of personal traits and behavior patterns as reflected by objective measures, group interactional procedures and video feedback. Development of self through systematic self-observation.

361. Psychology of Child and Adolescent Development (3)
Prerequisites: Completion of the GE Foundation and PSY 100.
Developmental changes from prenatal development through adolescence. Emphasis on ethnocultural, gender, and social class differences in development combined with emphasis on the universal features of human development. Topic coverage includes physical-motor, social, physiological, and cognitive aspects of development.

362. Autism Spectrum Disorders (3)
Prerequisite: PSY 100
Introduction to autism spectrum disorders (ASDs), including consideration of behavioral and cognitive issues, comorbid disorders, prevalence, possible etiology and psychological impacts on families. Examination of treatment approaches such as behavioral, speech, physical, occupational, educational, dietary and biomedical therapies.

363. Developmental Psychopathology (3)
Prerequisite: PSY 100
This course covers research on psychiatric disorders of children and adolescents from a developmental perspective. The symptoms, causes, course and prevention of the most important childhood disorders are discussed, including conduct disorder, attention deficit hyperactivity, depression, anxiety disorder, autism and mental retardation.

365. Psychology of Adult Development and Aging (3)
Prerequisite: PSY 100.
Methodological and theoretical problems and issues in the study of developmental change processes from young adulthood through old age. Topical coverage includes physical, motor, social, physiological and intellectual aspects of behavioral functioning.

366. Fathers and Fathering: A Psychosocial View (3)
Prerequisites: PSY 100, SOC 100 or CDFS 111.
Overview of psychological literature on parenting with emphasis on fathers/fatherhood in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes.
This course is for both men and women. Same course as CDFS 358. Not open for credit to students with credit in CDFS 358.

368. Asian American Personality and Mental Health (3)
Prerequisites: PSY 100 and upper division standing.
Survey of psychological issues facing Asian Americans, including the historical, sociopolitical, and cultural influences that shape personality and mental health of individuals in the diverse population group.

370. Abnormal Psychology (3)
Prerequisites: Completion of the GE Foundation and PSY 100.
Overview of abnormal behavior as a portion of continuum of human behavior. Covers field's historical approaches, range of psychological disorders, as well as causes, consequences, and treatment of these disorders.

373. Introduction to Clinical Psychology (3)
Prerequisite: PSY 100, 370.
Survey of field of clinical psychology including an introduction to its history, diagnostic procedures, therapeutic approaches, clinical training, research approaches, and ethical issues.

375. Community Psychology (3)
Prerequisites: Completion of the GE Foundation, PSY 100, and upper division standing.
Examination, prevention, and interventions for contemporary social problems. First-hand experience with community assessment, intervention, evaluation, and social policy through community service learning. Emphasis on contemporary analyses, community strengths, and culturally-appropriate solutions.

378. Health Psychology (3)
Prerequisite: PSY 100.
Research and theory regarding attitudes, beliefs, and behaviors related to health and illness. Individual difference variables will be examined. Analysis of applications of psychology to prevention, counseling, and treatment of major health problems.

379. Psychology of Stress (3)
Prerequisite: PSY 100.
Introduction to the scientific study of stress and its relationship to health. Course content will focus on understanding the nature of psychological stress, its physiological correlates, and specific strategies used to help in understanding and managing our own experience of stress.

381. Introduction to Industrial-Organizational Psychology (3)
Prerequisite: PSY 100.
Introduction to theories, methods, findings, and applications of industrial-organizational (I-O) psychology. Topics covered include job analysis, employee recruitment and selection, performance appraisal, employee training and development, work stress, teams, satisfaction, motivation, and leadership.
382. Introduction to Cognitive Science (3)
Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from Computer Science, Linguistics, Philosophy, and Psychology.
Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines.
Same course as Phil 482. Not open for credit to students with credit in Phil 482.
383. Women, Family, and Work Issues (3)
Prerequisite: PSY 100 or equivalent.
Opportunities and challenges women in U.S. face with family and work issues explored. Specifically, cultural influences, complex family compositions, work demands, and the collective influence of these factors on women's life choices examined.
384. Workplace Diversity: Barriers and Strategies (3)
Prerequisite: PSY 100 or equivalent.
Current U.S. workforce is diverse along gender, racial, and multicultural factors, such as men, women, European Americans, African Americans, Latinos, Asian Americans and others. Understanding psychological barriers and developing strategies at the individual, group, and organizational levels to create a positive multicultural workplace will be explored.
390. Special Topics in Psychology (3)
Prerequisite: Consent of instructor.
Topics of current interest in psychology selected for intensive development.
May be repeated for a maximum of 9 units with different topics; no more than 6 units may be used for the major.
401./501. History of Psychology (3)
Prerequisites: Psychology major, PSY 100, 301; six upper division units in psychology.
Historical background and development of psychology as a science. Contributions of major individuals and systems.
Letter grade only (A-F).
405. Field Work in Psychology (3)
Prerequisites: Psychology major (3.0 GPA), 12 units upper division in PSY, PSY 301, consent of Instructor, letter of recommendation. Supervised internship in a Psychology-related position in the surrounding community. Placements include schools, hospitals, clinics, and community mental health agencies.
Credit/No Credit grading only. May be repeated to a maximum of 6 units in different semesters.
406A.B. Applications of Psychology (3)
Prerequisite: Psychology major, PSY 100, 301; consent of instructor.
Theoretical and laboratory training in the topic areas are followed by applied work with clients, schools, businesses, etc., as appropriate. Students are supervised by the course instructor. Students apply for 406A B during the semester before the courses are taken. Letter grade only (A-F).
407./507. Introduction to Family Therapy (3)
Prerequisites: Psychology major, PSY 301 and 375 or 475.
Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice.
Letter grade only (A-F).
411./511. Statistical Design and Analysis of Experiments (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 or consent of instructor.
Focuses on logic, application, and interpretation of analysis of variance (ANOVA) models in addition to other statistical procedures. Various issues of research design and experimentation are also covered.
Letter grade only (A-F).
412./512. Multivariate Statistical Analysis (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 or consent of instructor.
Covers logic, application, and limitations of multivariate (multiple independent and dependent variables) statistics. Topics may include multivariate analysis of variance, single and multiple correlation/regression, logistic regression, factor analysis, and path analysis.
Letter grade only (A-F).
415./515. Test Construction Theory and Practice (3)
Prerequisites: PSY 100, 301, 310, PSY 314 or PSY 315 and Psychology major.
Consideration of problems in the construction of tests for personnel selection, educational screening, personality assessment, aptitude estimating, and measurement of academic achievement. Practice in the development of tests.
Letter grade only (A-F). (Lecture 2 hrs, laboratory 2 hrs)
418./518. Computer Applications in Psychology (3)
Prerequisites: Psychology major, PSY 301; PSY 310 or equivalent or consent of instructor.
Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)
423./523. Qualitative Methods and Analysis. (3)
Prerequisites: Psychology Major, PSY 301.
Overview of qualitative research methods and analysis. Students learn to conduct observations, focus groups and qualitative interviews. Inductive analysis techniques such as content analysis and narrative analysis. Application of these skills in a qualitative evaluation of a real-world program.
Letter grade only (A-F).
427./527. Human Factors (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 and two of the following: PSY 331, 332 or 333.
Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of human factors psychologists. These skills will include systems and analysis, cognitive task analysis, rapid prototyping and usability testing.
(Lecture 2 hrs, laboratory 3 hrs) Letter grade only (A-F).
433./533. Research in Cognition and Learning (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 and 331 or 332 or 333.
Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)
436./536. Psychology of Mood (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 or consent of instructor.
Analyses of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition.
Letter grade only (A-F).
438./538. Psycholinguistics (3)
Prerequisites: Psychology major, PSY 100, 301; six units of linguistics or upper division psychology.
Psychological and linguistic approaches to the study of language. Theory and research in the production and understanding of language, language acquisition, memory for language, and use of language in its social context.
Letter grade only (A-F).

441./541. Research in Physiological Psychology (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310 and one of the following: PSY 340, 341 or 342.
Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, and pharmacological procedures used in neurophysiological research.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

444./544. Cognitive Neuroscience (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310, 332 and one of the following: PSY 340, 341 or 342.
Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.
Letter grade only (A-F).

453./553. Principles of Group Dynamics (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 351 or consent of instructor.
Behavior in groups with attention to such factors as leadership, groupthink, interaction and influence including organization, management, morale, and efficiency. Problems, techniques, and methods of investigation.
Letter grade only (A-F).

456./556. Research in Personality (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 310, 350, or consent of instructor.
Examination of common research methods, especially as they apply to particular theoretical personality paradigms.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

457. Psychology of Sexuality (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 351 or 356 or 370.
Survey of topics in human sexuality with emphasis on developmental psychology of sexuality; attitudes and feelings related to sexuality; sexual variations and deviations; and sexual dysfunction and sex therapy.
Letter grade only (A-F).

463. Social and Personality Development (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 361.
Development of social behavior and personality in children and adults. Coverage will include theoretical approaches and processes, as well as content areas including development of emotions, personality systems, aggression, morality, prosocial behavior, peer relations, and sex differences.
Letter grade only (A-F).

475./575. Clinical Interviewing (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 373.
Study and development of clinical techniques of observation and interview. Coverage includes detailed exposure to Client-Centered and Gestalt counseling methods. Emphasis on understanding theory and acquisition of basic skills.
Letter grade only (A-F).

477. Psychology of Addiction (3)
Prerequisites: Psychology major, PSY 100, 301; and six upper division units in psychology.
Investigation of theory and research on psychological causes and effects of addiction, including analyses of individual differences on major demographic variables of gender, age, and ethnicity.
Considerations of major approaches and methods to recovery from addictive behaviors.
Letter grade only (A-F).

490. Advanced Topics in Psychology (3)
Prerequisites: Psychology major, PSY 100, 301; and one 300-level course in the subject matter of the course.
Advanced study of selected topics in one basic area of psychology e.g., cognition and learning, emotion and motivation, physiological, social, personality or developmental.
May be repeated to a maximum of 8 units with different topics. Topics will be announced in the Schedule of Classes. Letter grade only (A-F).

490H. Special Topics — Honors (3)
Prerequisites: Psychology major, PSY 100, 301; consent of the Psychology Honors Program Advisory Committee.
Advanced study of selected topics in psychology.
Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

495. Psychology and the Law (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 370, and six upper division units in psychology.
Examines relationship between fields of psychology and law, including laws pertaining to psychologists and rights and ethical responsibilities of mental health providers. Topics include forensic psychology, trial consulting, and issues relating to the legal system.
Letter grade only (A-F).

496H. Research Preparation — Honors (3)
Prerequisites: Psychology major, PSY 100, 301; consent of the Psychology Honors Program Advisory Committee.
Development of a senior honors thesis proposal.
Letter grade only (A-F).

498H. Senior Thesis — Honors (3)
Prerequisites: Psychology major, PSY 100, 301; PSY 496H, 496H.
Final completion of an original research project with the product being both an oral and written presentation of the research.
Letter grade only (A-F).

499. Independent Study (1-3)
Prerequisites: Psychology major, PSY 100, 301; and consent of department.
Student will conduct independent laboratory or library research and write a report of the research.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

GRADUATE LEVEL

501J/401. History of Psychology (3)
Prerequisite: Six upper division units in psychology.
Historical background and development of psychology as a science. Contributions of major individuals and systems.
Letter grade only (A-F).
507.407. Introduction to Family Therapy (3)
Prerequisites: PSY 220, 373, 475 or consent of instructor.
Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice.
(Lecture/Discussion) Letter grade only (A-F).

511.411. Statistical Design and Analysis of Experiments (3)
Prerequisite: PSY 310 or consent of instructor.
Focuses on the logic, application, and interpretation of analysis of variance (ANOVA) models in addition to other statistical procedures. Various issues of research design and experimentation are also covered.
(Lecture 3 hours) Letter grade only (A-F).

512.412. Multivariate Statistical Analysis (3)
Prerequisite: PSY 310 or consent of instructor.
Covers logic, application, and limitations of multivariate (multiple independent and dependent variables) statistics. Topics include multivariate analysis of variance, single and multiple correlation/ regression, logistic regression, factor analysis, and path analysis.
(Lecture 3 hours) Letter grade only (A-F).

515.415. Test Construction Theory and Practice (3)
Prerequisites: PSY 310 and either PSY 314 or 315.
Consideration of problems in the construction of tests for personnel selection, educational screening, personality assessment, attitude estimating, and measurement of academic achievement. Practice in the development of tests.
(Lecture 2 hrs, laboratory 2 hrs) Letter grade only (A-F).

518.418. Computer Applications in Psychology (3)
Prerequisites: PSY 310 or equivalent or consent of instructor.
Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications.
(Lecture 2 hrs, laboratory 3 hrs) Letter grade only (A-F).

523.423. Qualitative Methods and Analysis (3)
Prerequisite: Graduate Student Standing.
Overview of qualitative research methods and analysis. Students learn to conduct observations, focus groups and qualitative interviews. Inductive analysis techniques such as content analysis and narrative analysis. Application of those skills in a qualitative evaluation of a real world program.
Letter grade only (A-F).

527.427. Human Factors (3)
Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333.
Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of human factors psychologists. Those skills will include systems analysis, cognitive task analysis, rapid prototyping and usability testing.
(Lecture 2 hrs, laboratory 3 hours) Letter grade only (A-F).

533.433. Research in Cognition and Learning (3)
Prerequisites: PSY 220, 310, and 315 or 353 or 332.
Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics.
(Lecture 2 hrs, lab 3 hrs) Letter grade only (A-F).

536.436. Psychology of Mood (3)
Prerequisites: PSY 100, 220, 310, or consent of instructor.
Analysis of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition.

538.438. Psycholinguistics (3)
Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to study of language. Composition of human language with communication in lower animals. Language development, disorders, symbolism and universals.
(Lecture 3 hours) Letter grade only (A-F).

539. Language Acquisition (3)
Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor.
Theory and research in acquisition of first and subsequent languages in children and adults. Psycholinguistic perspectives on phonological, syntactic, semantic, and pragmatic aspects of language. Interesting roles of cognitive processes, individual differences, social influences, and cultural context will be stressed.
Letter grade only (A-F). Same course as LING 539. Not open for credit to students with credit in LING 539. (Seminar)

541.441. Research in Physiological Psychology (3)
Prerequisites: PSY 220, 310, and 341.
Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, pharmacological procedures used in neurophysiological research.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

544.444. Cognitive Neuroscience (3)
Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342.
Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.
Letter grade only (A-F).

553.453. Principles of Group Dynamics (3)
Prerequisites: PSY 210, 220, 351, or consent of instructor.
Behavior in groups with attention to such factors as leadership, fellowship, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation.
(Lecture/Discussion) Letter grade only (A-F).

556.456. Research in Personality (3)
Prerequisites: PSY 100, 220, 310, 356, or consent of instructor.
Examination of common research methods, especially as they apply to particular theoretical personality paradigms.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

575.475. Clinical Interviewing (3)
Prerequisites: PSY 100, 220, 373.
Study and development of clinical techniques of observation and the interview. Coverage will include a detailed exposure to Client-Centered and Gestalt counseling methods. Emphasis will be on understanding theory and acquisition of basic skills.
Letter grade only (A-F).

581. Organizational Psychology (3)
Prerequisites: PSY 351 or 453/553.
Analysis of organizational behavior and practices from a systems point of view. Consideration of employee motivation, power, leadership, communication, decision-making, and organizational change. Research methods for studying organizations.
Letter grade only (A-F).
582. Research in Industrial and Organizational Psychology (3)
Prerequisites: PSY 220 and 310.
Research methods and problems in industrial psychology. Includes direct observational, psychophysical, regression, survey, experimental, and quasi-experimental methods.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

585. Prosemin in Personnel Psychology (3)
Prerequisites: PSY 314 or 315.
Advanced consideration of problems and procedures in personnel psychology. Emphasis on different fields and synthesis of major areas within this field.
Not open for credit to students with credit in PSY 566. Letter grade only (A-F).

589. Advanced Topics in Industrial and Organizational Psychology (1)
Prerequisites: Acceptance into the Master of Science in Industrial and Organizational Psychology or consent of instructor.
Advanced consideration of selected advanced topics in industrial/organizational psychology.
Not open for credit to students with credit in the same topic in 580. May be repeated to a maximum of six units with different topics in the same semester. Letter grade only (A-F).
A. Large Group Intervention

590. Advanced Topics in Psychology (1-3)
Prerequisites: Consent of instructor. Topics of current interest in psychology selected for intensive development.
May be repeated to a maximum of six units with different topics.
Topics will be announced in the Schedule of Classes. Letter grade only (A-F).

599. Independent Study (1-3)
Prerequisites: Consent of department.
Unclassified graduate student will conduct independent laboratory or library research and write a report of the research.
May be repeated for a maximum of 6 units. Letter grade only (A-F).

627. Human Factors’ Methods
Prerequisites: PSY 227 or consent of instructor.
An advanced graduate-level course on methods commonly used in the field of human factors. These methods include analytic techniques used during the design of human-machine systems (e.g., task analysis, simulation), techniques used to evaluate functioning systems (usability testing, critical incident surveys) and techniques used to measure human performance (e.g., workload, situation awareness).
Letter grade only (A-F).

631. Seminar in Perception and Physiological Psychology (3)
Prerequisites: PSY 331 or 340 or 341 or 342 or consent of instructor; consent of graduate advisor.
Critical examination of selected topics in perception, information processing, and neuropsychological correlates of behavior. Student emphasis on either perception or physiological psychology.
Letter grade only (A-F).

632. Seminar in Learning (3)
Prerequisites: PSY 333 or consent of instructor; consent of graduate advisor.
Advanced consideration of selected topics in learning.
Letter grade only (A-F).

633. Seminar in Perception and Attention (3)
Prerequisites: PSY 331 or 332 or consent of instructor; consent of graduate advisor.
Examination of methods, theories, and experimental evidence in selected topics from the areas of sensation, perception, and attention. Letter grade only (A-F).

634. Seminar in Cognition (3)
Prerequisites: PSY 332 or 333 or consent of instructor; consent of graduate advisor.
Examination of methods, theories, and experimental evidence in selected topics from the area of cognition.
Letter grade only (A-F).

637. Seminar in Emotion and Motivation (3)
Prerequisite: PSY 336 or consent of instructor; consent of graduate advisor.
Advanced consideration of selected topics in animal and human motivation and emotion.
Letter grade only (A-F).

651. Seminar in Social Psychology (3)
Prerequisites: PSY 351 or consent of instructor; consent of graduate advisor.
Critical examination of interpersonal relations, social influence, group membership, leadership, and intergroup relations.
Letter grade only (A-F).

656. Seminar in Personality (3)
Prerequisites: PSY 356 or consent of instructor; consent of graduate advisor.
Theories of personality structure, dynamics, and development. Critical examination of research deriving from different theoretical approaches.
Letter grade only (A-F).

661. Seminar in Developmental Psychology (3)
Prerequisites: PSY 361 or consent of instructor; consent of graduate advisor.
Consideration of theoretical and methodological issues in life-span developmental psychology. Critical examination of research on selected topics, including development of physiological function, intelligence, language, learning processes, sensory processes, perception, personality, and social behavior.
Letter grade only (A-F).

678. Seminar in Health and Behavior Intervention (3)
Prerequisites: PSY 310 or consent of instructor; consent of graduate advisor.
Overview of health psychology and health promotion field. Students learn background of psychology’s role in health professions, health behavior theory and health intervention design and evaluation. Analysis of individual, contextual, structural, and cultural factors impacting health and health intervention.
Letter grade only (A-F).

681. Seminar in Applications of Psychology to Industry (3)
Prerequisites: At least 12 units of graduate-level work within the MSO program including 511 or 512 and 522.
Psychological applications to current problems of industry. Development of thesis proposal and pretest of thesis research techniques required.
Letter grade only (A-F).
683. Issues Organizational Development (3)
Prerequisites: PSY 581.
Examination of theory, research, techniques, and practices in field of organizational development, professional practice of managing change in organizations. Techniques, such as team building, systems analysis, process consultation, large group interventions and survey feedback will be examined.
Letter grade only (A-F).

685. Issues in Training (3)
Prerequisites: PSY 332 or 333, and 505
Discusses theoretical and applied issues with the development of employee training programs. Topics include needs assessment, adult learning theory, training methods, training evaluation, and learning organizations. Experiential assignments reinforce course concepts.
Letter grade only (A-F).

688. Practicum in Industrial and Organizational Psychology (2)
Prerequisites: At least 12 units of graduate-level coursework within the MSIO program.
Practice of industrial psychology or human factors in various industrial settings. Individual research and consultation with industrial or governmental organizations.
Letter grade only (A-F).

690. Research Methods (3)
Prerequisites: PSY 411/511 or 412/512, and consent of graduate advisor.
Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisites: Consent of graduate advisor and department.
Theoretical and experimental problems in psychology requiring intensive analysis.
Letter grade only (A-F).

698. Thesis (1-6)
Prerequisites: Advancement to candidacy, consent of graduate advisor. MSIO students: PSY 681 as prerequisite or corequisite.
Planning, preparation, and completion of a thesis in psychology. Must be repeated for a total of 6 units of credit. Letter grade only (A-F).
GRADUATE CENTER FOR PUBLIC POLICY AND ADMINISTRATION
College of Health and Human Services

Director: David C. Powell
Center Office: Engineering Technology (ET), Room 235
Telephone: (562) 985-4178
Faculty: W. Frank Saber, Martha J. Deede, Edward Martin, William Moore, John W. Ostrowski, David C. Powell, Michelle A. Saint Germain
Department Coordinator: Robin Quirk
Distance Learning: Shawn Bauer
Telephone: (562) 985-4179

Career Possibilities
Management Analyst • City Manager • Financial Analyst • Project Manager • Presidential Management Intern (PMI) • Non-Profit Management (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
Public administrators today are becoming increasingly aware of the fact that government is, indeed, the people’s business. They are challenged to be both effective and efficient. They believe that people tend to support what they help to create. Working with citizens, they have brought the practice of public management to its highest level without giving up the desire to constantly change and improve. This is the difference that today’s public servants are recognized and rewarded in personal and material ways, making the study of public policy and administration a highly desirable career option.

The Graduate Center for Public Policy and Administration offers the Master of Public Administration degree. Options in the degree program include Public Works Administration and Urban Affairs; and graduate certificate programs in Urban Executive Management, the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, and Transportation Policy and Planning. The Center’s graduate program is designed with a professional emphasis and a recognized need to provide course work that will increase the student’s competency in administrative processes and analysis. The Center’s curriculum also is designed to emphasize the student’s ability to apply new knowledge, skills, and leadership techniques to the solution of public problems.

Admission applications are encouraged from persons with successful government service who wish to pursue, part-time or full-time, a graduate program designed to prepare them for new opportunities in public service or to expand or extend their capabilities in a present position. The Center provides education in public policy and administration to professional persons in such fields as public works, social services, public health, community development, criminal justice, educational administration, recreation administration, finance, personnel, policy analysis, urban and regional planning, systems analysis and urban administration. The Center is accredited by the National Association of Schools of Public Affairs and Administration, Commission on Peer Review and Accreditation (NASPA, 1120 G Street, NW, Suite 730, Washington, DC 20005, phone: 202-668-8965).

A detailed summary of requirements, current course offerings and procedures for the Master of Public Administration degree program, the Options in Public Works Administration and in Urban Affairs, and the graduate certificate programs, are contained in student handbooks available from the Graduate Center for Public Policy and Administration and on its website at http://www.csulb.edu/gradmpa.

Admission Requirements
Faculty will consider each application to the MPA program, based upon the following criteria:
1. Minimum 3.0 Undergraduate GPA
2. Demonstrated competence in professional writing. A listing of ways you can demonstrate writing competence is available in the Center office (ET 235) or on the Center website: http://www.csulb.edu/colleges/chiw/departments/ppa/
3. Quality of professional experience as evaluated by Center faculty. This evaluation will be based on the applicant’s current job description, resume, any other materials submitted by the applicant, and the length of professional service.
4. Other evidence of applicant’s potential to undertake and successfully complete the MPA course of study; faculty may consider other evidence submitted by the applicant; for example, scores on optional standardized examinations such as the GRE, GMAT, LSAT, or other recognized standardized examinations.

Following admission to the University and acceptance to the Center, each student should meet with a faculty advisor. The faculty advisor will provide advice to the student on program course requirements and elective opportunities, and counsel the student in the chosen elective area.

A student whose overall grade point average is less than 3.0, but who presents acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Center.

Advancement to Candidacy
1. Fulfillment of the Graduate Writing Assessment Requirement (GWAR)
2. Minimum GPA of 3.0 in all graduate work completed at this University, or transferred from other sources, to meet degree or program requirements.
3. Successful completion (grade of “B” or better) of six units in the MPA program.
4. A grade of "B" or better in all of the following undergraduate courses: microeconomics, basic statistics, American government, and writing or composition.

Transfer of Credit

Students who have completed a graduate certificate program in the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, or Transportation Policy and Planning, may transfer up to 15 units of credit earned in the certificate program to be applied to the Center's Master of Public Administration degree program. The student must apply to the Center for admission as a degree candidate.

Students who have completed the academic requirements for the Master of Public Administration degree, prior to applying for admission to a graduate certificate program in the Center, may apply up to 6 units of credit earned in the MPA program for the required or elective courses in a certificate program.

Master of Public Administration

(code PPA_MP01)

The Center offers an innovative professional graduate program of studies leading to the degree of Master of Public Administration. The 36-unit program is designed with a professional emphasis and a recognized need to provide students with increased competency and perspective of the analytical and administrative processes of government. The MPA degree is sufficiently flexible that students may select a program of elective courses oriented toward a generalist program of study, place emphasis on a specific specialization such as personnel or criminal justice administration, or permit a focus on a specific public program field such as criminal justice administration. In all cases, a common grounding in the core areas of public policy and administration is required; beyond this, considerable freedom of choice enables students to select subjects which fit their particular backgrounds or career objectives.

Admission Requirements

Faculty will consider each application to the MPA program, based upon the following criteria:
1. Minimum 3.0 Undergraduate GPA
2. Demonstrated competence in professional writing: A listing of ways you can demonstrate writing competence is available in the Center office (ET 235) or on the Center website: www.csulb.edu/colleges/chhs/departments/ppa/
3. Quality of professional experience as evaluated by Center faculty. This evaluation will be based on the applicant's current job description, resume, any other materials submitted by the applicant, and the length of professional service.
4. Other evidence of applicant's potential to undertake and successfully complete the MPA course of study: faculty may consider other evidence submitted by the applicant; for example, scores on optional standardized examinations such as the GRE, GMAT, LSAT, or other recognized standardized examinations.

Following admission to the University and acceptance to the Center, each student should meet with a faculty advisor.

The faculty advisor will provide advice to the student on program course requirements and elective opportunities, and counsel the student in the chosen elective area.

A student whose overall grade point average is less than 3.0, but who presents acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Center.

Orientation Requirement

All students must attend a mandatory Center orientation within the first two semesters of acceptance into the MPA Program.

Advancement to Candidacy

1. Fulfillment of the Graduate Writing Assessment Requirement (GWAR)
2. Minimum GPA of 3.0 in all graduate work completed at this University, or transferred from other sources, to meet degree or program requirements.
3. Successful completion (Grade of B or better) of six units in the MPA program.
4. A grade of "B" or better in all of the following undergraduate courses: microeconomics, basic statistics, American government, and writing or composition.
5. Satisfactory completion of the orientation requirement.

Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 21 units of 500/600 level courses in public policy and administration.
2. Satisfactory completion of PPA 500, 555, 577, 660, 670, and 696.
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience.
4. Additional elective course work in elective fields to meet the 36-unit minimum.
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

University Courses Acceptable for the Master of Public Administration

A wide variety of graduate courses in other departments also are acceptable. Graduate course descriptions are found in the department listings in which they are offered. Consult with Center Faculty for more information.

Option in Urban Affairs

(code PPA_MP02)

The purpose of the Option in Urban Affairs in the Master of Public Administration degree is to provide students who have particular interest in urban problems and processes with the opportunity to expand their knowledge and awareness in the field. In this broadly based interdisciplinary program, students can develop an understanding of the systemic nature of the urban environment and the interrelatedness of many urban problems. This program is designed to provide urban managers with ideas and techniques for dealing with various urban situations. Emphasis is on state and local government issues and responses.

2009/2010 CSULB Catalog • Public Policy and Administration • 647
Admission
The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration.

Requirements
1. A minimum of 36 course units in graduate course work, with a minimum of 24 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 610, 660, 670, and 696;
3. Completion of an approved internship program (PPA 685) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 12 units of elective course work selected from: PPA 512, 517, 522, 523, 525, 535, 540, 546, 547, 548, 550, 567, 571, 575, 581, 590, CPJU 530, 504, 621; EDAD 541, 544; EDP 520, 536; GEOG 650, 660; HIST 673; POCS 640; REC 521, 571.
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

Option in Public Works Administration (code PPA_MP03)
This Option is designed to provide advanced knowledge to practitioners and pre-career students in the growing field of public works management. Course work prepares students in general public administration and specialized public works management activities, including appropriate technical subjects such as air and water pollution, water supply, waste disposal and management, energy, housing, and transportation.

Admission
The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration. For this degree option, the experiential background would be targeted to the public works and infrastructure sector.

Requirements
1. A minimum of 36 course units in graduate course work, with a minimum of 27 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 554, 555, 577, 660, 670 and 596;
3. Completion of an approved internship program (PPA 685) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 9 units of elective course work selected from: PPA 515, 522, 535, 540, 547, 560, 552, 560, 575, 590, CE 520.
5. Successful completion of PPA 697 or CE 697 Directed Research and an approved Student Learning Portfolio.

Graduate Certificate in Urban Executive Management (code PPA_CT01)
This program is designed to serve the post-graduate executive development needs of men and women aspiring to top level positions in city and county governments. The goal of this program is to provide urban executives with a comprehensive knowledge of strategic planning processes; dynamics of human relations; strategies for implementing policies; consensus building techniques; and economic and financial forces impacting on local governments.

Prerequisite
In addition to the general admission requirements, applicants for the graduate certificate in Urban Executive Management should have significant upper level management experience in Public Administration, and a minimum of 10 years of progressively responsible management experience in government.

Requirements
1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 542, 547, and 571;

Graduate Certificate in Public Management Analysis (code PPA_CT02)
This program is designed for men and women who work or desire to work in budgeting, policy formulation, financial management, or program evaluation offices of government agencies. The program prepares candidates with such skills as defining a problem; conducting cost benefit analysis; utilizing basic statistical techniques; conducting behavioral/political analysis; preparing and presenting reports; learning to blend qualitative, behavioral, and political skills necessary for success as an analyst in government.

Prerequisite
In addition to general admission requirements, students should be employed in public service or related activities, or have a goal of public service-related activities.

Requirements
1. A minimum of 18 course units in graduate course work, including 4 required and 2 elective courses.
2. Satisfactory completion of PPA 515, 517, 521, and 555;
3. Satisfactory completion of 2 elective courses selected from PPA 522, 523, 540, and 560.

Graduate Certificate in Public Sector Employer-Employee Relations and Personnel Management (code PPA_CT03)
This program is designed for public sector managers and those aspiring to enter public service who need the knowledge, skills, and abilities required to deal effectively with the critical area of public sector employee relations and personnel management. The primary goal is to provide the necessary training for public managers to effectively utilize human resources to their greatest potential in conjunction with the needs of the public organization.
Requirements
1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 555, 575, and 577.
3. Satisfactory completion of 3 elective courses selected from PPA 570, 571 and 581.

Graduate Certificate in Public Sector Financial Management (code PPA_CT04)

This Certificate Program is designed for public managers and others interested in obtaining an understanding of governmental financial management concepts, functions, techniques, and issues. The program is designed to familiarize students with financial management problems and the techniques available for solving them. An emphasis is placed on how to recognize, evaluate, and utilize financial information in decision-making.

Those most interested in pursuing the Certificate would likely fall into one of three categories. First, current private sector finance professionals who wish to develop an understanding of financial management concepts and practices within the public sector. Second, current public sector financial managers who wish to further develop expertise in public sector financial management. Finally, in-service public sector employees who wish to start a career in government finance and who may use the courses for the Certificate as a guide for their course work towards the Master of Public Administration degree.

Requirements
18 units: PPA 555, 590T, 560, 567; ACCT 610; IS 601. Note: Appropriate substitutes for the required courses may be allowed subject to permission of the Public Finance Specialization Faculty Advisor. Also, ACCT 610 and IS 601 have substantial prerequisites. Prospective students should refer to the University Catalog for details.

Graduate Certificate in Transportation Policy and Planning (code PPA_CT05)

The purpose of this certificate program is to provide instruction in the skills and knowledge appropriate to professional activity in transportation policy and planning for urban transportation. Key support areas include urban planning, policy analysis, environmental policy, intergovernmental policy, personnel policy, and grants administration.

Requirements
1. A minimum of 18 course units in graduate course work, including 2 required and 4 elective courses.
2. Satisfactory completion of PPA 522, and 550.
3. Satisfactory completion of 4 elective courses selected from PPA 835, 540, 575, 670; CE 520; ECON 690.

Courses (PPA)

560. Foundations of Public Policy and Administration (3)
Concepts of the discipline; fundamentals of public organization theory, policy formulation and analysis, and administrative and management processes; management in the public interest; and ethics in government.
Letter grade only (A-F).

512. Urban Executive Management (3)
Examines problems confronting today’s urban administrator and offers techniques for solving a variety of pressing problems. Subjects include managing in a local government setting issues such as public policy, planning, financial resources, personnel, and labor relations. Letter grade only (A-F).

514. Municipal Law for Administrators (3)
Examination of major laws and legal issues affecting local government. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain. Letter grade only (A-F). Same course as PROF 514. Not open for credit to students with credit in PROF 514.

515. Administrative Report Writing (3)
Preparation of written documents required of public administrators. Letter grade only (A-F).

517. Analytical Skills Development (3)
Designed to develop or improve the skills needed to perform analytical work in the public sector. Emphasis is on the methods of analysis and evaluation used in public service organizations. Communication of results will also be covered. Letter grade only (A-F).

518. Microeconomics and Public Policy (3)
This course covers the key principles of microeconomics such as supply, demand, and market processes. Further, it provides extensive coverage of topics that concern public decision-making, such as public goods, externalities, welfare analysis, and cost-benefit analysis. Letter grade only (A-F).

521. Microcomputer Management for Public Administrators (3)
Focuses on the design, development, and management of microcomputer systems, and software applications in public organizations. Course elements: analysis of critical concepts and issues relating to management of computer systems, and hands-on computer laboratory experience for design, and use of applications. Letter grade only (A-F).

522. Automating Government Administration (3)
The use of computers to assist government management. Special emphasis on automation of services. Provides an introductory background in computers and their applications to government systems and files for non-computer specialists. Letter grade only (A-F).

523. Urban Information Systems for Public Management (3)
Overview of significant information technologies impacting government management: World-Wide Web and GIS. (Geographic Information Systems) Introduces students to the construction and use of Web pages. Includes an introduction to GIS in public organizations. Extensive use of computers.

524. GIS Management and Applications for Public Managers (3)
Introduces students to the management and applications of Geographic Information Systems (GIS) in the Public Sector. Covers the requirements for designing and managing GIS applications for solving public sector problems. Hands-on use of GIS and analysis of GIS cases. Letter grade only (A-F).

525. Non-Profit Management (3)
Examination of principal characteristics, scope, and functional management areas (e.g., governance, fund development, board development, volunteer and staff management, intersectoral relations; budgeting) in American nonprofit organizations, with particular attention to the important roles of nonprofits in the delivery of health and human services. Letter grade only (A-F).
533. Race, Inequality and Public Policy (3)
Examines the multiple sources of ethnic, racial, gender, and class inequalities in the United States and how public policies have attempted to address these issues.
Letter grade only (A-F).

535. Intergovernmental Relations (3)
Presents concepts and issues of U.S. intergovernmental relations. Topics include history of the field, intergovernmental finances, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues.
Letter grade only (A-F). Same course as PROF 535. Not open for credit to students with credit in PROF 535.

540. Grants Administration and Management (3)
Study of the various types of financial and technical assistance to local public and quasi-public agencies: the strategies for locating and obtaining grant programs support; and the development of effective project systems for externally funded programs.
Letter grade only (A-F).

542. Emergency Planning and Management (3)
Planning and management processes and issues involved in large-scale emergencies; the nature of natural and technological risk and emergency; with attention to public sector roles in contingency planning and response.
Letter grade only (A-F). Same course as PROF 542. Not open for credit to students with credit in PROF 542.

546. The Urban Crisis and the Public Administrator (3)
A survey of the history of urbanization, the literature of urban power relations and decision-making, and the dynamics of race relations in the urban environment. Extensive interface with urban agency representatives will be a major focus of this course.
Letter grade only (A-F).

547. Local Government Economic Development Processes (3)
A detailed discussion of the nature, goals, and processes of locally based economic development programs. Definition of governmental incentives designed to maximize private investment. A thorough explanation of property related revenues from both the public and private perspectives.
Letter grade only (A-F).

548. Housing Problems and the Urban Administrator (3)
Overview of housing problems in contemporary urban society. This course will increase the public administrator’s awareness of the interrelationships between local government administration and housing problems, and facilitate the public administrator’s ability to deal with these problems.
Letter grade only (A-F).

550. Urban Transportation Policy and Planning (3)
Examines urban transportation activities and options for the future. Analyzes local, state, and federal policy. Los Angeles urban transportation development, transit proposals and new policies and activities.
Letter grade only (A-F).

554. Public Works Facilities and Urban Policy (3)
Provides a study of public infrastructure essential to urban communities. Special focus will be given to water, wastewater, transportation, solid waste, public facilities, and schools.
Letter grade only (A-F).

555. Government Budgeting and Finance (3)
Presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and format, basic principles of government accounting, revenue, and capital budgeting.
Letter grade only (A-F). Same course as PROF 555. Not open for credit to students with credit in PROF 555.

560. Public Financial Management (3)
Focuses on financial planning, implementation and management control, financial reporting, and financial analysis used in public service organizations.
Letter grade only (A-F).

567. Basic Governmental (Fund) Accounting (3)
Provides an introduction to the unique characteristics of governmental accounting. Fundamental aspects of recording and reporting of financial transactions in public service organizations are covered. The basics of governmental auditing and financial condition analysis are also covered.
Letter grade only (A-F).

570. Negotiating Dynamics: Strategies and Skills (3)
Examination of negotiating strategies and skills based on tested use of power and psychological principles in negotiations. Different strategies and skills examined for negotiating under varying levels of cooperation and conflict.
Letter grade only (A-F).

571. Leadership Skills and Strategies in the Public Sector (3)
Leaders in urban governments, community based and non-profit organizations are challenged to move their bureaucracies toward solutions to complex problems. Examines administrative leadership, current approaches to organizational excellence and their applicability in a variety of administrative settings.
Letter grade only (A-F).

575. Public Sector Employer-Employee Relations (3)
Analysis of prevailing practice and techniques of collective bargaining and its continuing impact on the economic, political and organization structure in the public sector.
Letter grade only (A-F).

577. Public Sector Human Resources Management (3)
The historical development of the civil service merit system; areas which affect the operations of a personnel system: analysis of the various components of a personnel system; impact of labor negotiations; role of the personnel system as a change agent.
Letter grade only (A-F). Same course as PROF 577. Not open for credit to students with credit in PROF 577.

581. Government/Community Relations (3)
Investigation of relationship between governments and community based organizations, with particular attention to strategies for diagnosing problems and opportunities and prescribing courses of action in areas of public policy where governments and nonprofits converge.
Letter grade only (A-F).

585. Public Policy and Administration Internship (3-12)
Prerequisite: Consent of the instructor. Provides exposure to and understanding of the governmental environment. Students seeking the MPA degree who do not have managerial experience in government are required to participate in the internship program.
May be repeated to a maximum of 12 units. Academic credit earned for the internship program is beyond the 30 units required for the MPA degree. Letter grade only (A-F).

590. Special Topics in Public Policy and Administration (3)
An investigation of a special problem as defined by the instructor that is of current interest to the field of public policy and administration.
May be repeated to a maximum of 9 units with different topics.
Letter grade only (A-F).
S. Small-Scale Survey Research for Public Administrators
T. State and Local Public Finance
597. Directed Studies (1-3)
Prerequisite: Consent of Instructor.
Independent study in public policy and administration.
Letter grade only (A-F).

610. Seminar in Urban Affairs (3)
An interdisciplinary course which will give students an opportunity
to develop expanded awareness of the interrelationships between
various urban problems in the urban systemic environment.
Letter grade only (A-F).

660. Seminar in Organization Theory and Behavior (3)
Examination of theories of organizations and behavior of
members therein. Among the subtopics: generalist management,
bureaucracy, organization structures and design, systems theory,
motivation, leadership, decision-making, group and team
dynamics, power and conflict, culture, organization change and
development.
Letter grade only (A-F).

670. Policy Issue Analysis (3)
Introduces theories and approaches to policy analysis. The core
of the course follows the policy analysis cycle and includes:
problem recognition, problem definition, development of alternative
solutions, analysis of alternatives, selection of policy options,
policy implementation and evaluation.
Letter grade only (A-F).

696. Research Methods in Public Administration (3)
Covers the techniques of public sector research. Topics include
research design, survey research, and statistical analysis. Note:
It is suggested that students take PPA 656 early in their MPA
program. Letter grade only (A-F).

697. Directed Research (3)
Prerequisites: Advancement to candidacy, completion of required
MPA courses, consent of instructor.
Required capstone project. Individual research of a public issue,
Supervision of a full-time faculty member required. Three (3) units
required for graduation.
May be repeated to a maximum of 6 units in different semesters.
Letter grade only (A-F).
RECREATION AND LEISURE STUDIES
College of Health and Human Services

Department Chair: Maridith Jannessen
Department Office: Health and Human Services (HHS) 2 - 116
Telephone: (662) 988-4071

Faculty: Katherine James, Maridith Jannessen, Marilyn A. Jensen (Emeritus), Carolin Lusty, Susan Milthie, Kenneth Silverberg
Department Coordinator: Susan McNamara
Graduate Advisor: Carolin Lusty

Career Possibilities
Recreation Leader • Recreation Therapist • Senior Center Director • Recreation Supervisor • Camp Director • Recreation Facility or Club Manager • Park Ranger • Travel Agent • Sporting Goods Sales Representative • Hotel or Resort Manager • Municipal Supervisor • Employee Services Specialist • Social Director • Travel Guide • Volunteer Services Manager • Park Naturalist • Intramural Director • City Manager • Community Services Director (For more information, see www.careers.csulb.edu.)

Introduction
The experience of leisure is a basic facet of life. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important treatment modality. Leisure and recreation services are also essential for healthy communities in terms of social climate, environmental quality, and economic stability. The provision of recreation services is one of the largest industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining aspects of diverse fields of study and professional practice.

The Department of Recreation and Leisure Studies exists to promote a broader and deeper understanding of the role of leisure and recreation in the lives of all people and to enhance the quality of experiences available to each person. This purpose is expressed in the mission and vision of the Department of Recreation and Leisure Studies. The mission is Engagement, Participation and Leadership. The Department's vision is: To engage students in learning through quality instruction and collaborative communication; To foster student success in academic and professional leadership; To provide opportunities for faculty to be industry leaders through scholarly activity and service; To advance a dynamic curriculum that meets the needs and trends of the profession; To be recognized as a program of study that is recognized for producing outstanding recreational professionals; and, To develop partnerships among faculty, alumni, and the community that provide the foundation for advancing the knowledge of the profession.

The Department is accredited by the Accreditation Council of the National Recreation and Park Association and American Association for Leisure and Recreation (National Recreation and Park Association, Council on Accreditation, 22377 Belmont Ridge Road, Ashburn, VA 20148; phone: 703-858-0784).

Students desiring information on undergraduate or graduate degrees or certificate programs in Therapeutic Recreation, Administration of Campus Recreation and Student Service Programs, Management of Nonprofit and Volunteer Services, Administration of Outdoor Recreation Resources, and Administration of Travel and Tourism should contact the department office for referral to one of the faculty advisors.

Undergraduate Programs

Bachelor of Arts in Recreation (code REC_BA1) (120 units)

Academic Program
The curriculum is designed to prepare men and women for positions of supervision and administration in public recreation and parks, therapeutic recreation, outdoor education, voluntary youth and adult services, camp administration, special event planning and management, travel and tourism, commercial recreation, and armed forces recreation.

The curriculum includes courses selected to provide an understanding of human development, service management, and a variety of specialty areas within leisure service professions.

Departmental Policies
Each major student must maintain a cumulative 2.0 GPA on all units attempted and achieve a "C" or better in each course of the Recreation major to progress in the sequence of study. Students earning less than a "C" grade in a course required in the major must repeat that course.

Students wishing to substitute courses or deviate in any way from the Department requirements must submit a letter of request to the Department faculty. No more than six units of Recreation-prefix courses may be taken by contract. The Internship is "Letter grade only (A-F)." The Internship is taken the last semester before graduation. No other courses may be taken concurrently with the Internship.

Requirements

Lower Division: REC 141, 225
Upper Division: REC 325, 341, 351, 421, 423, 425, 427, 431, 450, 498

Additional Courses: Each major student is required to complete courses in the following groups: REC 100 or 300; Choose one from the following: HDEV 307, 357, or PSY 370; Choose 15 units from the following: REC 321, 322, 324, 337, 340, 371, 428, 430, 433, 451, 452, 454, 457, 465, 467, 468, 469, 470, 490, 499. Choose 3 units from collaborative fields with advisor approval, such as CAFF, CDFS, CRIM, EDP, EDS, FCSE, FMD, FSCI, FFHB, KIN, NUTR, SW.
Minor in Recreation (code REC_UM01)

A minimum of 21 units approved by the departmental minor advisor which must include: REC 141, 225, 321, 340L, 351 and two of the following: REC 220, 322, 324, 337, 371, 428, 430, 431, 433, 462, 473, or 490 with consent of the advisor.

Certificate Programs

The certificate programs offered by the Department of Recreation and Leisure Studies are available to both undergraduate and graduate students, as well as students who already possess a baccalaureate degree and are enrolled in a certificate program, unless otherwise noted. Students pursuing an approved degree at CSULB may complete the certificate programs concurrently with their degree or subsequent to their degree by enrolling as a certificate student. Courses taken to meet the requirements of a certificate may also be used, where appropriate, to meet the General Education requirements or degree requirements of cooperating departments. Extension and/or transfer credit may comprise no more than one-fourth of the course work used to meet baccalaureate certificate requirements. Students wishing to pursue a certificate should contact the department to schedule a meeting with the certificate advisor.

Certificate in Therapeutic Recreation (code REC_CT01)

Therapeutic recreation has been identified as one of the fastest growing fields of employment. Recreational therapists work in clinical and community settings using recreation as a tool to assist post-injury rehabilitation and to improve quality of life for people with disabilities. State and National Certification in therapeutic recreation is often required for employment in this field; the curriculum of this certificate program prepares students for the California Board of Recreation and Park Certification exam and for the National Council for Therapeutic Recreation Certification exam. A baccalaureate degree, which may be awarded concurrently, is required for completion of this certificate program.

Core requirements: REC 351, 451, 452, 454, 458, 498 and six units of advisor approved Recreation courses.

Additional courses: 18 to 19 units, which must be taken with approval from the certificate advisor. This includes: an anatomy/physiology course (3-4 units); abnormal psychology (3 units); a human growth and development across the lifespan course (3 units); and upper division support courses (9 units) from any of the following areas: sociology, psychology, educational psychology, health sciences, adapted physical education, anthropology, biology, communication studies, family and consumer sciences, gerontology, human development, kinesiology/physical education, social work, and special education.

Certificate in Administration of Campus Recreation and Student Service Programs (code REC_CT05)

Campus Recreation and Student Services is a growing field in elementary, secondary and higher education, as it relates to the co-curricular programs offered in support of the educational program, both in public and private institutions.

The Certificate enhances professional development in Student Services such as Student Activities, Student Leadership Development, Residential Life, Student Community Service Volunteer Programs, and Intramurals and Recreational Sports; and Campus Services such as Conferences, Scheduling, Event Planning, and Alumni Relations. For those looking to be Certified Recreation Sports Specialist through NIRSA the courses will prepare them for the certification examination.

Twenty-four (24) units of core requirements including: REC 321, 322, 324, 325, 421, 427, 485; and one (3 unit) evaluation course: REC 441 or equivalent. The remaining six (6) units are electives which must be taken with approval of the advisor of the certificate program. These may include: REC, KIN, HDEV, or HRM courses.

Certificate in Management of Nonprofit and Volunteer Services (code REC_CT02)

Nonprofit organizations require trained professionals to meet the demanding need of managing effective organizations and programs. This certificate program prepares students for employment in nonprofit organizations and volunteer services.

Core requirements: REC 355, 421, 425, 427/527, 429/528, 438.

Additional courses: 6 units of elective courses addressing youth development, communication skills, marketing, evaluation, or working with diverse populations which must be taken with approval of the advisor of the certificate program.

Certificate in Administration of Outdoor Recreation Resources (code REC_CT03)

Outdoor recreation includes both the provision of recreation programs in the outdoors and the management of the parks and public lands that serve as the settings for these recreation experiences. Recreation program management and land management are distinct fields that must work cooperatively. This certificate program prepares students for careers in these interrelated fields.

The curriculum includes courses selected to provide an understanding of outdoor recreation behavior, outdoor education, resource management policies, and an introductory understanding of natural science.

Core requirements: REC 427, 430, 431; REC 357 or SCED 401; REC 433, 435, or 499.

Additional courses: 9 units of elective courses from biology, geology, or geography which must be taken with approval of the advisor of the certificate program.

Certificate in Administration of Travel and Tourism (code REC_CT04)

Travel and tourism is a very large and growing field in which there are usually many opportunities for well-trained individuals. This certificate program provides instruction in the history and theoretical bases of tourism, including its economics, psychology, and sociology as well as the political and legal aspects. The fundamentals of business, food and food service technology, the performing arts, and resource management are themes throughout the program.
Core requirements: REC 462, 468; REC 485 or 498; FCS 270, GEOG 352.

Additional courses: 6 units of upper division courses listed in the University Catalog under the Regional category in the Department of Geography or 6 units of a foreign language; plus 3 additional upper division units selected in consultation with the advisor of the certificate program.

Graduate Programs

Master of Science in Recreation Administration (code REC_MS81)

The Department of Recreation and Leisure Studies offers a program of graduate studies leading to the Master of Science degree in Recreation Administration. The program helps prepare professional personnel who are competent managers of private and public agencies and programs, who can conduct research and evaluation of recreation services, and who can contribute to the development of a professional philosophy of leisure. Usually fine opportunities exist in Long Beach and Southern California for interaction with recreation agencies of all kinds.

Admission

Students seeking admission to the Department of Recreation and Leisure Studies Graduate Program should have an undergraduate degree and a desire for graduate study. Applicants must apply for admission to the Recreation and Leisure Studies Department in addition to being admitted by Enrollment Services/Admissions.

The following items must be submitted:

1. Applicants must meet the criteria for acceptance by the University as a graduate student as outlined in the CSULB Catalog.
2. Every applicant (new or continuing) must apply by submitting a Graduate/Post-Baccalaureate Admission Application to the Office of Admissions and Records, to obtain admission to the University with graduate standing. Applications are available online at the CSU Mentor website.
3. Every applicant must also apply to the Department of Recreation and Leisure Studies, by sending the following to the Graduate Coordinator in the Department of Recreation and Leisure Studies:
   A. Two copies of the CSULB Graduate/Post-Baccalaureate Admissions Application. The original must be sent to Enrollment Services/Admissions and a copy must be sent to the Department of Recreation and Leisure Studies.
   B. Official transcripts of all undergraduate course work, including work done at all community colleges attended. Each applicant must request that official transcripts be sent to both the Graduate Advisor in the Department of Recreation and Leisure Studies and Enrollment Services.
   C. A current resume and a letter of intent that includes a summary of the applicant's reasons for wanting to pursue a master's degree in Recreation Administration. Both documents must be sent to the Department of Recreation and Leisure Studies Graduate Advisor.

D. Three letters of recommendation from persons able to testify to the applicant's academic ability, preferably from former professors. These letters must be sent to the Department of Recreation and Leisure Studies Graduate Advisor.
E. Official test scores on the Graduate Record Exam (GRE) General test. While no specific cut off scores are required on either the verbal or the quantitative section, applicants must score a "4" or higher on the analytic writing section of the GRE.

Admitted graduate students must contact the Department of Recreation and Leisure Studies Graduate Coordinator for advisement early in their first semester of enrollment in order to develop an approved program of study.

Prerequisites

Graduate students must complete the following prerequisites before advancing to candidacy:

1. A bachelor's degree with a major in recreation; or
2. A bachelor's degree with a minimum of 24 units of upper division courses comparable to those required in the undergraduate recreation major at this University. (Students deficient in undergraduate preparation must take courses approved by the department Graduate Coordinator to remove these deficiencies.)
3. Any deficiencies will be determined by the department graduate coordinator review of the student's transcript records, and consultation with the student's faculty advisor and the student.

Advancement to Candidacy

The following are required for student to advance to candidacy:

1. Enrollment in the summer or spring session in which advancement takes place.
2. Completion of the general University requirements for advancement to candidacy, as specified in this bulletin.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
4. Satisfactory completion of REC 521, 571, 591, 595, 696 with a minimum grade of "B" in each of the courses.
5. After consultation with the student's graduate advisor, determination of whether the student will complete the thesis option or the project option.
6. Approval of the student's graduate program by the Department Graduate Advisor and Associate Dean for the College of Health and Human Services.

Requirements

The core requirements for a master's degree in recreation administration are REC 521, 571, 591, 595, and 696. In addition to the core classes, students are required to complete elective units and thesis or project units. The thesis option requires 5 units of REC 599 and four units of REC 698, plus 12 units of electives. The project option requires three units of REC 698 plus 20 units of electives. Elective courses are to be selected after consultation with the graduate advisor. A maximum of 6 units may be taken from 300 or 400-level courses in Recreation. Up to six units of graduate work may be transferred from another accredited university or another department.

654 • Recreation and Leisure Studies • 2009/2010 CSULB Catalog
in CSULB. Transfer credit must be a "B" or better. All students must earn a grade of "A" or "B" for each required course. Students may not have more than 6 units of "C" grades apply toward the major's degree. Advancement to candidacy is necessary before REC 697 or 698 can be taken.

**Thesis or Project**

The thesis or project is a supervised experience in the application of theory and analytical tools to an issue in recreation and leisure services.

The thesis research should prepare students for further graduate work or research in the field. The project should provide an experience that is directly applicable to an occupation in recreation and leisure services. The thesis is a written product of the student's systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, reconciles the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation.

The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The thesis is supervised by a committee of three, including the Thesis Chair. The student must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

The project is a significant undertaking appropriate to the professional field. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written report that includes the project's significance, a review of the literature, objectives, methodology, and a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The coursework is supervised by a committee of three, including the Project Chair, who must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

**Graduate Certificate in Leisure Counseling (code REC_CT06)**

Leisure and recreation experiences add quality and enjoyment to life. When individuals experience significant changes in their lives, often through retirement or disabling injuries, they may need counseling to identify and develop leisure skills appropriate to their new life situations. This certificate program prepares students to use counseling techniques to enhance quality of life through leisure.

Admission/Prerequisites: Persons holding a bachelor’s or master’s degree in Recreation or Therapeutic Recreation or a related allied health field (e.g., Occupational Therapy, Music Therapy, Gerontology, Psychology, Adapted Physical Education, Counseling); two years verified experience in counseling approved by the program advisor.

Core requirements: REC 454/554, 563, 560; EDP 532, 533.

Additional courses: 3 units which must be taken with approval of the advisor of the certificate program.

**Courses (REC)**

**LOWER DIVISION**

100J/300. Orientation to the Recreation Major (3)
Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of followed in the Department of Recreation and Leisure Studies; and computer applications required of all majors.
Letter grade only (A-F). (Discussion, 3 hours) Not open to students with credit in REC 300.

141. Introduction to Leisure Services (3)
Prerequisite/Concurrent: One GE Foundation course.
Survey of public, private and non-profit agencies engaged in leisure services. Examination of populations served. Organizing principles of the recreation and leisure services profession.
Not open to students who have completed REC 241.

220. Universality of Play (3)
Prerequisites: Completion of GE Foundation requirements.
Exploration of ethnic origins of play from international perspective. Influence of play on creativity, drive and self image of society.
(Theory and practicum)

225. Programming Recreation Activities (3)
Methods and materials used in planning and leading organized recreation programs in public and private agencies. Analysis of inter-personal and group skills necessary for effective leadership of recreation activities. Special emphasis on supervised programming field experiences.
Letter grade only (A-F).

**UPPER DIVISION**

300J/100. Orientation to the Recreation Major (3)
Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of followed in the Department of Recreation and Leisure Studies; and computer applications required of all majors.
Letter grade only (A-F). (Discussion, 3 hours) Not open to students with credit in REC 100.

321. Leadership in Recreation and Leisure Studies (3)
Theory and application of leadership as it pertains to leisure service agencies. In depth analysis of interaction between leadership styles and group dynamics. Facilitation techniques necessary for effective group leadership.

322. Recreational Sports Supervision (3)
Organization and supervision of recreational sports for community-wide participation.
(Lecture 2 hours, Activity 2 hours.)

324. Campus Recreation Services (3)
Prerequisites: Junior Standing.
Principles and practices in provision of recreation services on college, secondary, and elementary school campuses.

325. Advanced Program and Event Management (3)
Prerequisites: REC 100 or 300, 141, 225, or consent of instructor.
Advanced management of recreation and leisure service programs with special emphasis on event planning and promotion. Includes interpretation of needs assessments and market analysis, analysis and selection of prospective client bases; program design, marketing, promotion, implementation and evaluation.
Letter grade only (A-F).
337. Environmental and Cultural Interpretation (3)
Principles and practices of environmental and cultural interpretation of outdoor recreation resources, including tours, brochures, slide shows and exhibits.
(Lecture/Activity, 3 hours.)

340. Leisure in Contemporary Society (3)
Prerequisites: Completion of G.E. Foundations requirements; one or more explorations courses; upper division standing.
Enhancing the understanding of leisure in contemporary society by examining the roles of technology, values, and social structure. Focus on the social and technological context of leisure and comparing and contrasting them with individual and social influences such as race/ethnicity, gender, sexuality, age, economic status, ability and religion.

341. Evaluation and Research in Leisure Services (3)
Prerequisites: REC 100 or 300, REC 141; 225, or consent of instructor.
Foundations of current methods and practices of evaluation and research about leisure and leisure services. Includes the critical need for evaluation and research in leisure services; research and evaluation concepts, types, and designs; sampling, and information/data collection, analysis, interpretation, and presentation.
Letter grade only (A-F).

351. Foundations of Therapeutic Recreation (3)
Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor.
Philosophical and historical foundations of therapeutic recreation and principles of planning, implementing and evaluating leisure services for individuals with disabilities.
(Lecture/Activity, 3 hours.)

371. Human Services Programming in Urban Areas (3)
Prerequisites: Completion of the G.E. Foundation requirements. Exploration of the complexity of social, political, and community issues of urban areas in relationship to the provision of recreation and human service needs. Examination of planning, development, and agency collaborations to ensure recreation services development meets community needs.

421. Supervisory and Administrative Practices (3)
Prerequisite: REC 100 or 300, 141, 225, or consent of instructor.
Concepts and techniques of supervision and administration in recreation agencies; emphasis on recruitment, assignment, evaluation and in-service training of recreation personnel.

423. Facility Design and Operation (3)
Prerequisite: REC 326 or consent of instructor.
Theories and practical experience in the design, development, operation, maintenance and administration of various recreational facilities.
Letter grade only (A-F).

425. Financing Leisure Services (3)
Prerequisites: REC 326 or consent of instructor.
Financing and budgeting in public and private sector leisure service agencies; management by objectives as related to fiscal elements.

427. Legal Aspects of Leisure Services (3)
Prerequisites: Upper Division Standing.
Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services.
Letter grade only (A-F). (Discussion, 3 hours.)

428. Principles of Nonprofit/Volunteer Management (3)
Survey of the principles of nonprofit and volunteer services management. The philosophical, historical and social context of the volunteer movement; funding, governance, organization and management of nonprofit organizations and volunteer services; trends and issues; professional development and employment.

430. Recreation in the Ocean Environment (3)
Prerequisites: REC 100 or 300, 141, or consent of instructor.
Study of the skills and techniques of administration of one ocean-oriented recreational resource, including management and trip planning. Will be supplemented with a week long field trip to Santa Barbara Island.
Course fee may be required.

431. Recreation Resource Management (3)
Prerequisites: REC 100 or 300, 141, or consent of instructor.
Review of the techniques of recreation resource management; the role of citizens; government and private agencies in acquisition and development of these resources; development of resource management policies.

433. Management of Organized Camps (3)
Prerequisites: REC 351. 452 or consent of instructor.
Comprehensive therapeutic recreation program development, operation, and management. Advanced principles, issues, and trends in therapeutic recreation.
Letter grade only (A-F).

452. Therapeutic Recreation Treatment/Program Planning (3)
Prerequisites: REC 351 or consent of instructor.
Development of individual treatment/program plans in therapeutic recreation. Includes assessment of leisure and social functioning, problem identification, development of measurable objectives, determination of program content and methods, documentation, and evaluation of the client’s progress.
(Lecture 2 hours, Activity 1 hour.)

454./554. Counseling Techniques in Therapeutic Recreation (3)
Prerequisites: REC 351, 452 or consent of instructor.
Letter grade only (A-F).

457./557. Legislative Action in Therapeutic Recreation (3)
Prerequisites: REC 351 or consent of instructor.
Overview of Therapeutic Recreation as related to national healthcare issues. Includes examination of various legislative issues/hills introduced in congress with a direct effect on the profession. The non-required course includes travel to a midyear conference in Washington D.C.
Letter grade only (A-F).

458./558. Therapeutic Recreation: Facilitating Leisure and Wellness (3)
Prerequisites: REC 100 or 300, 141, 225, or consent of the instructor.
Overview of role of leisure within wellness programs as it relates to therapeutic recreation. Examination of facilitation techniques as a major component of wellness program programs. Includes assessment of leisure functioning; development and implementation of therapeutic recreation programs and services.
Letter grade only (A-F).
462. Travel, Tourism, and Resort Recreation Management (3)
Prerequisites: REC 325 or consent of instructor.
Current procedures and processes in managing travel, tourism and resort recreation organizations. Discussion includes the organization and management of human resources in the marketing of travel, tourism and resort recreation enterprises.

465. Convention and Conference Planning (3)
Prerequisites: REC 325 or consent of instructor.
Organizing, planning, and managing conferences and conventions. Analysis of site and facility selection, scheduling, theme development, programming, affiliated events, exhibit management, registration and overall services.
Letter grade only (A-F).

468. Tourism Planning and Development (3)
Prerequisites: REC 462 or consent of instructor.
Analysis of elements which are included in a community development plan; assessment of the touristic potential of a region or site; enabling legislation, organization, and administration of a tourism development plan; identification of sources of funding and support.
Letter grade only (A-F). Same course as GERN 469. Not open for credit to students with credit in GERN 469 or SW 469.

473./573. Aging and Leisure (3)
Prerequisites: REC 325 or consent of instructor.
Theories, concepts and influences on satisfaction with retirement focusing on physical, psychological, social and economic variables. Overview of the continuum of services, emphasizing leisure services available to older people.

480. Philosophy of Recreation and Leisure (3)
Prerequisites: REC 325, 341, one of the following: REC 421, 425, 427. Open to recreation majors only.
Exploration of the philosophical and ethical basis for current practices in recreation and leisure service organizations.
(Discussion, 3 hours.)

485. Field Work (3)
Prerequisites: Consent of the instructor.
Supervised experience in recreation leadership, supervision or administration approved by faculty advisor or consent of the instructor.
Credit/No credit grading only. May be repeated to a maximum of 6 units in different semesters.

490. Special Studies in Recreation (1-3)
Identification and critical analysis of current problems in selected areas of recreation.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics in different semesters.

498. Internship in Leisure Services (6-9)
Prerequisites: Completion of all major requirements; 1000 hours of verified paid or volunteer leadership experience approved by faculty advisor; or 500 hours of experience and training in both English and a second language consistent with the CSULB Language Proficiency Requirements; and consent of the internship coordinator.
This internship will involve 400 hours of supervised experience in an approved leisure service agency jointly supervised by university and agency personnel.
Letter grade only (A-F). (Field work)

499. Independent Study (1-3)
Prerequisites: Consent of dept. and approval by department chairperson.
Individual projects in areas of special interest. Independent study under the direct supervision of a faculty member.
May be repeated to a maximum of 6 units in different semesters with consent of instructor.

GRADUATE LEVEL

521. Recreation Administration (3)
Organizational theory; planning, staffing and budgeting of recreation programs in governmental and voluntary agencies.
Letter grade only (A-F).

527./427. Legal Aspects of Leisure Services (3)
Prerequisites: Upper Division Standing.
Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services.
Letter grade only (A-F). (Discussion, 3 hours.)

528./428. Principles of NonprofitVolunteer Management (3)
Survey of the principles of nonprofit and volunteer services management. The philosophical, historical and social context of the volunteer movement; funding, governance, organization and management of nonprofit organizations and volunteer services; trends and issues; professional development and employment.

554./454. Counseling Techniques in Therapeutic Recreation (3)
Prerequisites: REC 351, 452 or consent of instructor.
Letter grade only (A-F).

557./457. Legislative Action in Therapeutic Recreation (3)
Prerequisites: REC 351 or consent of instructor.
Overview of Therapeutic Recreation as related to national healthcare issues. Includes examination of various legislative issues/fact legislation introduced in congress with a direct effect on the profession. This non-required course includes travel to a mid-year conference in Washington D.C.
Letter grade only (A-F).

558./458 Therapeutic Recreation: Facilitating Leisure and Wellness (3)
Prerequisites: REC 100 or 300: 141, 225, or consent of the instructor.
Overview of role of leisure within wellness programs as it relates to therapeutic recreation. Examination of facilitation techniques as a major component of wellness promotion programs. Includes assessment of leisure functioning; development and implementation of therapeutic recreation programs and services.
Letter grade only (A-F).

569./469. Disability, Culture and Society: Issues and Intervention (3)
Prerequisite: Senior or graduate status.
Disability as a social construct. Examines policies and practices to understand the experience of disability, includes historical and contemporary perspectives as well as future issues. Emphasis on social and clinical intervention methods as well as programs and resources.
Letter grade only (A-F). Same course as GERN 569 and SW 569. Not open for credit to students with credit in GERN 569.
571. Philosophy, Issues and Trends (3)
Exploration of the current philosophy, trends and issues in the field of recreation.
Letter grade only (A-F).

573.A473. Aging and Leisure (3)
Prerequisites: REC 525 or consent of instructor
Theories, concepts and influences on satisfaction with retirement focusing on leisure-related issues. Overview of the continuum of services, emphasizing leisure services available to older people.

590. Special Topics in Recreation (1-3)
Prerequisite: Consent of instructor.
In-depth investigation of topics of current interest and concern to students experienced in recreation.
May be repeated to a maximum of 6 units with different topics.
Topics to be announced in the Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 3 units with different topics in different semesters.

591. Research Proposal Writing (1)
Prerequisite: REC 696.
Concerned with variations in research design and methodology. Completion of a thesis proposal is a requirement.
Letter grade only (A-F).

595. Management Studies (3)
Administrative studies and surveys, procedures for conducting appraisals of recreation programs and facilities.
Letter grade only (A-F).

599. Independent Study (1-3)
Prerequisites: Consent of Graduate Advisor and Department Chair.
Independent research under the supervision of a Recreation and Leisure Faculty member.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

696. Research Methodology (3)
Research methodology in recreation. To be completed within the first 12 units of the 500/600 series of courses.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisites: REC 696, advancement to candidacy.
Independent investigation of field research problems in recreation.
Letter grade only (A-F). May be repeated to a maximum of 3 units in different semesters.

698. Thesis (1-4)
Prerequisites: REC 591, 696, advancement to candidacy.
Planning, preparation and completion of an approved thesis.
May be repeated to a maximum of 4 units in different semesters.
RELIGIOUS STUDIES
College of Liberal Arts

Department Chair: Carlos R. Piar
Department Office: McIntosh Humanities Building (MHB), Room 619
Telephone: (562) 985-5341
FAX: (562) 985-5040
Email: religious-studies@csulb.edu
Website: www.csulb.edu/depts/reestud

Faculty: Jeffrey L. Broughton, Yecheil Shalom Goldberg, Edward J. Hughes, F. Stanley Jones, Peter M. Lowentheil, Sophia Pandya, Carlos R. Piar, David Jabb-Stewart, Jon R. Stone

Career Possibilities
Religious Education Director • Clergy • Community Organization Worker • College/University Faculty • Social Worker • Hospice Director • Researcher • Writer • Volunteer Services Director • Foreign Service Worker • Counselor
(Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.) Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Undergraduate Programs

Bachelor of Arts in Religious Studies
(code R/STBA01) (120 units)

The department of Religious Studies educates students in the scholarly interpretation of religion. Students develop a critical and appreciative understanding of the complexity of religions and their importance in human life; the academic study of religion thus makes an invaluable contribution to historical and cultural literacy. The elements and forms of religion – texts and institutions, stories, moral values, symbols, ritual, doctrine, etc. – are studied in their cultural and historical contexts with sensitivity and intellectual precision. Students are introduced to the major religious traditions and to religion in the modern world. Religious Studies is interdisciplinary, relating world religions and the religious dimension of human life to both the humanities and the social sciences. Students interested in a degree program should apply to the department chair.

Requirements
A minimum of 36 units is required, distributed in the following way:
Core Courses: R/ST 401 and 6 units from the following: R/ST 100, 102, and 103.
Area Courses: 21 units selected from at least two of the following three categories.
2. Eastern Religions: R/ST 3411, 344, 351, 352, 353, 400*, 499*
3. Religion in the Contemporary World: R/ST 202, 240, 301, 302, 308, 3621, 3831, 3911, 425, 4721, 4821, 485, 490*, 499*

Minor in Religious Studies
(code R/STUM01)
The Minor in Religious Studies is available to any non-Religious Studies major.
A minimum of 21 units in religious studies courses or courses from other departments approved by the Religious Studies Department.
Lower Division: A minimum of six units selected from R/ST 100, 102, 103, 200, 210, or the equivalent.
Upper Division: A minimum of 15 units including three units from each of the following groups:
A. Western Religious Thought: R/ST 311, 312, 314, 315, 322, 331, 375, 376, 425, 4711, 4721;
B. Asian Religious Thought: R/ST 3411, 344, 351, 3531.
Remaining units are to be selected from R/ST courses and the following electives: R/ST 335, AFRS 353, CWL 342, HIST 333, PHIL 330.

Certificate in Religious Studies
(code R/STCT01)
Requirements
A bachelor’s degree with a major in a traditional discipline.
* A minimum of 30 units in religious studies or courses offered in other departments approved by the Religious Studies Department.
Lower Division: A minimum of nine units selected from R/ST 100, 102, 103, 202 or 210.
Upper Division: A minimum of 21 units including one course from each of the following: (a) Biblical Studies: R/ST 311, 312, 322, 375, 376; (b) Western Religious Thought: R/ST 314, 315, 3311, 4711, 4721, 485; (c) Asian Religious Thought: R/ST 3411, 344, 351, 3531. A minimum of twelve upper division units from the preceding courses and the following electives: R/ST 321, 353, 3621, 3831, 420, 490, 496; AFRS 335; ASAM 380; AFRS 353; CWL 342; HIST 333; PHIL 330.

Graduate Programs

Master of Arts in Religious Studies
(code R/STMA01)
Admission
The primary criteria for admission are the same as those for University graduate admission. In addition, the applicant must have a Bachelor’s degree in Religious Studies, or its equivalent, and have achieved a 3.0 GPA in the last 60

2009/2010 CSULB Catalog • Religious Studies • 659
semester units attempted. Two letters of recommendation from instructors in the undergraduate major should be included.

Program Requirements
1. Minimum total units: 30 units of upper division or graduate study, at least 24 of which must be in Religious Studies. The remaining six may be in Religious Studies or another field of study related to Religious Studies and/or the candidate's educational interests. Each student's program must include a minimum of 18 units of graduate courses, at least six of which must be in the 600 series (not including RST 597 and 698). All students must satisfactorily complete RST 501.

2. A thesis or comprehensive examination.

3. Proficiency in a modern research language (German or French) demonstrated by passing either the ETS examination with a score of 400 or better or two years of course work with an average grade of "B" or better. Proficiency in an appropriate ancient research language (Sanskrit, Biblical Aramaic, Hebrew, Chinese, etc.) replaces this requirement for students concentrating in Ancient Mediterranean and Near Eastern Religions or in Buddhist Studies. Exceptions to this requirement, especially for students not planning to pursue further graduate degrees, can be made at the discretion of the Graduate Studies Committee.

4. Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including establishing a date and a committee for the thesis or comprehensive examination. It is best done as early as possible. Students taking a comprehensive examination must be advanced to candidacy no later than the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time they begin their thesis work.

Courses (RST)

LOWER DIVISION

100. Introduction to Religion (3)
Prerequisite or corequisite: One GE Foundation course.
Origin, nature, and function of religion in the individual and culture with emphasis upon and reference to outstanding personalities, sacred writings, and basic features of the world's leading religions.

102. Introduction to World Religions I (Early and Western) (3)
Prerequisite/corequisite: One GE Foundation course.
A survey of representative figures, themes, the schools in Western religious thought, including Judaism, Christianity, and Islam.

103. Introduction to World Religions II (Eastern) (3)
Prerequisite/corequisite: One GE Foundation course.
Survey of Indian, Chinese, and Japanese religious thought. Emphasis will be on original texts in translations.

202. Religion and Society (3)
Prerequisite: Completion of GE Foundation requirements.
Religious and secular views of the relation of persons and society with emphasis upon contemporary problems of personal and social ethics, political responsibility and social structure.

210. Introduction to the Bible (3)
Prerequisite: Completion of GE Foundation requirements.
Overview of Sacred texts of Jews and Christians. Inspiration, Creation, Salvation, and other Biblical themes will be discussed, as well as key persons and events, such as Moses, Jesus, etc.
Not available to students with credit in RST 101A.

230. Hell and Heaven in Judaism (3)
Explores the history and development of notions of the afterlife in Judaism. Jewish ideas about the experience of death and the fate of the dead will be studied in the context of broader reflection on ancient Mesopotamian, Egyptian, and Greek views of the afterlife, as well as brief considerations of Christian and Muslim views of the afterlife.

240. Love, Life, and the World (3)
Prerequisite: Completion of GE foundation requirements.
Examines love in life and the world. Students will explore the philosophical, religious, mystical, psychological, social, and natural historical dimensions of love and complete both practical and research projects that will lead them to a fuller understanding of a loving life.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

301. Approaching Religion (3)
Prerequisite: Completion of GE Foundation requirements.
Study of methods of religious studies, including the comparative and phenomenological study of religions, textual criticism, exegesis, research methods and techniques.

302. Religious and Social Ethical Dimensions of American Diversity (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
Examines religious and social ethical aspects of the adaptation of various American subcultures to the polyglot mainstream of American culture.

308. Comparative Religious Ethics (3)
Prerequisite: Completion of GE Foundation requirements.
Introduction to study of ethics within global perspective while introducing world religions. Major ethical questions and modes of moral reasoning in different religious traditions will be considered while focusing on why ordinary people do good and evil actions.

311. Religion and Literature in the Old Testament (3)
Prerequisite: Completion of the GE foundation requirement, completion of one or more Explorations courses, and upper division standing.
The Old Testament as a religious, historical, and literary document with emphasis on the religion and culture of the early Hebrews. Selected books will be read each term. Emphasis will be on Genesis, Exodus, the early prophets, Isaiah. The period of the conquest and the divided monarchies will be studied.

312. Intertestamental Literature, Palestine History, and Early Christianity (Dead Sea Scrolls) (3)
Prerequisite: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
Historical development of Jewish religion and culture in the Second Temple period from the rise of the Maccabees to the beginnings of Christianity. Emphasis on the rise of the Jewish State, the coming of the Romans and the beginnings of primitive Christianity (Essenesm, Phariseesm and Sadduceesm).
314. Jewish Religion (3)
From the end of the Second Temple period to the close of the Middle Ages. Development from Hellenistic Judaism to Rabbinic Judaism to philosophical theology will be gone into in some detail. Readings from Saadya, Halevi and Maimonides, etc.

315. Modern Jewish Thought (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Development of Jewish thought from enlightenment and emancipation from ghettoes, through attempts at assimilation, the Holocaust and birth of the Jewish State. Development of conservative, reform and orthodoxy Judaism.

317. Jewish Mysticism (3)
Prerequisite: Completion of GE foundation requirements.
Explores some major trends and themes of the Jewish mystical and esoteric tradition. Included are various forms of Kabalah and Hasidism, meditation and mysticism, explanations of and responses to evil, the nature of God and the relationship between human beings and the divine being; poodle dynamics, and the power of ritual.

318. Biblical Hebrew I (3)
Biblical Hebrew I imports the basic grammatical inflections, conjugations, and structures of elementary biblical Hebrew and starts the student on the path of mastering the specific vocabulary of biblical Hebrew. Introduces history and particularity of this language as well as standard reference tools employed in reading biblical Hebrew.

319. Biblical Hebrew II (3)
Prerequisite: JBST 318.
Biblical Hebrew II completes instruction in grammar of biblical Hebrew and introduces major syntactical constructions of this language. Increases student's biblical Hebrew vocabulary, helps skills in use of reference books for biblical Hebrew, and allows initial confrontation with selections from Hebrew Old Testament itself.

320A. Biblical Aramaic I (3)
Prerequisite: Completion of GE Foundation requirements.
Alphabet and grammar of Aramaic, the language of Jesus, will be taught. Cultural excursuses survey the history of the ancient international language Aramaic and its role in understanding Jesus and the Judaism of his time.
Not open for credit to students with credit in JBST 220A.

320B. Biblical Aramaic II (3)
Prerequisite: Completion of GE Foundation requirements.
Advanced grammar and readings in Aramaic, the language of Jesus and the International language of the Near East prior to the importation of Greek. Select cultural excursuses into the historical impact of Aramaic and special study of unpublished manuscripts.
Not open for credit to students with credit in JBST 220B.

322. New Testament and Earliest Christian Literature (3)
Prerequisite: Completion of GE Foundation requirements.
The emergent Christian community, seen through the missionary and pastoral letters, the synoptic gospels, the radical theologies of Paul and John and the dramatic visions of the Apocalypse.

331. Islamic Religion and Culture (3)
Prerequisite: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
The Koran, Muhammad and the rise of Islam as a cosmopolitan faith. The development of Muslim civilization, including literature, theology, philosophy and Sufism (mysticism).

337. Sufism (3)
Prerequisite: Completion of GE Foundation, one or more Explorations courses and upper-division standing.
Covers mainly Sufism and Shi‘ism and their intimate relationship. Examines contribution of some great Sufis and Shi‘ite thinkers to development of inner dimensions of Islam i.e. mysticism, asceticism, and spirituality.
Letter grade only (A-F).

338. Medieval Thought in Judaism, Christianity, and Islam (3)
Prerequisites: Completion of GE Foundation, one or more Explorations Courses and upper-division standing.
Human thought and history of ideas. Survey of history of medieval Jewish, Christian, and Islamic thought. Examines contribution of some great philosophers to development of medieval thought. Highly intellectual dealing mainly with abstract concepts of metaphysics, God, creation, and theory of knowledge.

341. Buddhism (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
The Buddha; early Buddhism; the great vehicles; and the vehicle of incantations. Transmission of Buddhism to China, Korea, Japan, Southeast Asia and Tibet. Emphasis on original texts in translations.

344. Religions of Japan (3)
Prerequisite: Completion of GE Foundation requirements.
Transmission of continental civilization to Japan; shinto, Buddhism and Tokugawa Neo-Confucianism; Geisha culture; and New Religions. Emphasis on original texts in translations.

351. Hinduism (3)
Prerequisite: Completion of GE Foundation requirements.
Introduction to the religious traditions of Hinduism. Emphasis on the historical and textural study of Hinduism through its various literatures (sacred, narrative, poetic, liturgical, and philosophical). Explores Vedic traditions of sacrifice, the speculative philosophy of the Upanishads, the religious epic and mythological literature, the main gods and goddesses, and the devotional poetry of the medieval poet-saints.

352. Religions of India (3)
Prerequisite: Completion of GE Foundation requirements.
A survey of Indian religions to the present. Emphasis will be on the ways that religions of historic India have developed and interacted.

353. Religions of Southeast Asia (3)
Prerequisites: Completion of the GE foundation requirement, completion of one or more Exploration courses, and upper division status.
Introduction to the religions of Southeast Asia. Ancient religion, historical transmission, and adoption of Hindu and Buddhist traditions, and recent developments in modern Southeast Asia will be discussed. Emphasis on the religious culture of mainland Southeast Asia.

362. Religion and Psychology (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examines the religious and psychological interpretation of both individual and community religious activity and experience.
(Lecture 3 hours)

358. Women and Islam in Global Perspective (3)
Prerequisite: Completion of GE Foundation requirements.
This course introduces a wide range of issues regarding women and Islam, and examines some of the diverse religious, social, political, and economic roles that Muslim women have played from the early days of Islam to the present period.
Letter grade only (A-F).
375. The Historical Jesus (3)
Prerequisites: Completion of GE Foundation requirements.
The historical reconstruction of the life and thought of the "Founder" of
Christianity in his contemporary cultural and political environment.
Standard historical and religious-historical methods are introduced
and applied to the preserved sources.

376i. Christian Origins (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Consideration of two factions in the early Church in Palestine in
the first century, one following the "Apostle to the Gentiles," and
the other following the family line of Jesus. Readings from primary
sources: Paul's Letters, Eusebius, and apocryphal literature.

383i. Christianity and Global Ethics (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Examine interaction of Christianity with secular socio-economic
issues related to globalization and response of Christianity to
such ethical issues as poverty, population growth, consumerism,
environmental degradation, war, and genocide.

591i. Religion and Science (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Examines the occasionally harmonious, often acrimonious,
relationship between religion and science. Examines the
fundamental insights and claims of both religion and science,
moving beyond the frequently sharp prejudices they initially bring
to their study to a more reasoned understanding of each alone
and in relation to each other.

401i/501. Methods and Theories in the Study of
Religion (3)
Prerequisite: Consent of Instructor.
Analyzes and compares methodologies used in the discipline of
Religious Studies. Selected methods include: social scientific;
phenomenological; structuralism; textual criticism; exegesis;
personalistic and normative approaches to the study of religion.
Critical hermeneutics such as Mannel, Ferrer, Freudian, and
Post-Modern are also explored.
Letter grade only (A-F).

425. Religion and Modern Literature (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
The role of the writer and poet in the secular modern world as
religious thinker. The themes of alienation, anguish, obscenity, evil,
hope, despair, mystic vision, and salvation will be among those
studied.

458i/558. Women, Religion, and the Developing World
(3)
Prerequisites: Upper division or graduate standing.
This course looks at the causes and implications of globalization,
the impact of globalization on women in the developed world,
and the multi-faceted role that religion and religious constructions of
gender play in this picture.

460i/560. Jewish Christianity (3)
Prerequisite: Consent of Instructor.
History and literature of ancient Jewish Christianity in its
relationship to Gentile Christianity and Judaism, from the relatives
of Jesus through the fourth century.
Letter grade only (A-F).

467i. Religion in Latin America and the Caribbean (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Exploration of role of religion in the history, politics, and culture of
Latin America. Surveys pre-Columbian religion, the impact of the
Encounter, the growth of Protestantism, Liberation Theology, and
the coming of age of Afro-Cuban and Afro-Brazilian religions.
Letter grade only (A-F).

471i. Early Christianity and Society (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Development of Christianity from the New Testament period to
Medieval times with emphasis on the growth of doctrine and
catholic institutions in ancient and medieval society.

472i. Formation of Modern Christianity (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Restructuring and renewal of Christianity, from the Reformation
through the dawn of modern consciousness to the challenge of
20th century secular life.

482i. American Religious Experience (3)
Prerequisites: Completion of GE Foundation requirements, one or
more Explorations courses, and upper-division standing.
Survey of major themes in the unique American religious
experience. Topics include the adaptation of European
Christianity to novel American circumstances, the proliferation of
denominations and the revised religious response to a dynamic
American society.

485. Contemporary Religious Thought (3)
Prerequisite: Completion of GE Foundation requirements.
Critical examination of current trends in religious understanding
against a backdrop of rapid social change. New movements and
issues on the religious scene considered and a variety of
authors representing both East and West will be studied in order
to reveal the emerging patterns of religious thought.

490. Special Topics in Religious Studies (1-3)
Topics of current interest in religious studies selected for intensive
development. A maximum of nine units with different topics may
be used in the major. Topics will be announced in the Schedule of
Courses.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of
special research interest.
May be repeated to a maximum of 6 units.

GRADUATE LEVEL

501i/401. Methods/Theories of Religion (3)
Prerequisite: Consent of Instructor.
Analyzes and compares methodologies used in the discipline of
Religious Studies. Selected methods include: social scientific;
phenomenology; structuralism; textual criticism and exegesis;
personalistic and normative approaches to the study of religion.
Critical hermeneutics such as Mannel, Ferrer, Freudian, and
Post-Modern are also explored.

550. Islam in the Contemporary World (3)
This course examines key thinkers, movements and issues
arising in the global Muslim community in the modern period. It
covers early reform movements, the Iranian Revolution, Islamic
revivalism, religious violence, Progressive Islam, gender justice,
Islam and sexuality, and Muslims in America.
Letter grade only (A-F).

558i/458. Women, Religion, and the Developing World
(3)
Prerequisites: Upper division or graduate standing.
This course looks at the causes and implications of globalization,
the impact of globalization on women in the developing world,
and the multi-faceted role that religion and religious constructions of
gender play in this picture.
560. Jewish Christianity (3)
Prerequisite: Consent of instructor.
History and literature of ancient Jewish Christianity in its relationship to Gentile Christianity and Judaism, from the relatives of Jesus through the fourth century. Letter grade only (A-F).

590. Special Topics in Religious Studies (3)
Prerequisite: Consent of instructor.
Topics of current interest in Religious Studies selected by the faculty for intensive development. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

595. Advanced Study (3)
Prerequisite: Consent of instructor.
Study under the supervision of a faculty member. Student must fulfill requirements of a selected upper division course plus additional work appropriate to graduate study as determined by the instructor of the course. May be repeated to a maximum of 9 units with different topics in the same semester. Letter grade only (A-F).

599. Graduate Tutorial (1-3)
Prerequisite: Consent of instructor.
Supervised and independent study. May be repeated to a maximum of 6 units with different topics in the same semester. Letter grade only (A-F).

684. Seminar in Religion in the Contemporary World (3)
Prerequisite: Consent of Instructor
Advanced inquiry into aspects of religion in the contemporary World, including its ethical, cultural, historical or theoretical dimensions. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

624. Seminar in Ancient Mediterranean Religion (3)
Prerequisite: Consent of instructor.
Advanced inquiry into the religions of the Ancient Mediterranean. Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics.

646. Seminar in Buddhist Studies (3)
Prerequisite: Consent of Instructor.
Advanced inquiry into topics in Buddhist Studies. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

690. Special Topics in Religious Studies (3)
Prerequisite: Consent of instructor.
Topics of current interest in Religious Studies selected by the faculty for intensive development. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Consent of instructor.
Directed Studies to permit individual students to pursue topics of special research interest. May be repeated to a maximum of 9 units in the same semester. Letter grade only (A-F).

698. Thesis (1-6)
Prerequisites: Advancement to candidacy, consent of advisor.
Planning, preparation and completion of thesis for the master's degree. May be repeated to a maximum of 6 units.
ROMANCE, GERMAN, RUSSIAN LANGUAGES AND LITERATURES
College of Liberal Arts

Department Chair: Lisa Vollendorf
Office: Academic Services, Room 309
Telephone: (652) 965-4318

Program Directors:
Clorinda Donato, Stephen Fleck (French)
Carlo Chiarensa (Italian)
Jeffrey High (German)
Harold K. Schetski (Russian)
Lorraine Gassor (Spanish)

Coordinators:
RGRLL Language: Markus Muller
Single Subject for L.O.T.E.: Jean-Jacques Jura

FRENCH - Faculty: Laura Cato Mijares, Clorinda Donato, Stephen Fleck, Asama Naya Guerra, Naple Redoane

GERMAN - Faculty: Jeffrey High, Nele Hormer-Lamer

ITALIAN - Faculty: Carlo Chiarensa, Clorinda Donato, Teresa Flore, Enrico Velto

RUSSIAN - Faculty: Harold K. Schetski

SPANISH - Faculty: Maria Cama, Alcides del Campo, Binnie Gassor, Claire L. Merlina, Leslie Nord, Alexander Rainof, Lisa Vollendorf

Administrative Analyst/Specialist: Cindy McCarty

Students desiring information should contact the department office for referral to one of the faculty advisors. Credentials provided by Undergraduate Advisor, Graduate Advisor.

Teaching Assistantships in French, German, and Spanish
Teaching Assistantships and Research Assistantships are available for qualified students in the French, German and Spanish M.A. Program. New applicants for Teaching Assistantships must have been accepted into the M.A. Program and must present a letter of application, a resume, a complete set of transcripts, and three confidential letters of recommendation to be sent to the Graduate Coordinator. Teaching Assistants are required to enroll in RGR 524 (Second Language Acquisition) and RGR 601 (Teaching Methodology). Students are also encouraged to apply for financial assistance under the Federal Work-Study Program.

Scholarships Available in the Romance, German, Russian Languages and Literatures Department

The Department awards over $20,000 of scholarships annually. Please contact the department office for application deadlines or visit our website at csulb.edu/colleges/cladepartments/RGRLL.

Department Courses (RGR)

UPPER DIVISION

314L. Introduction to Contemporary Europe (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing.
Interdisciplinary introduction to contemporary European cultures and related issues through a combination of travel and study. Introduces to some principles and methods useful for analyzing cultures and their own interactions with them.
Not open for credit to students with credit in CHIS 314L.

315L. Contemporary European Society (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing.
Interdisciplinary approach to understanding cultural and political developments in contemporary European societies. Although study of history serves as foundation of course, perspectives and methodologies of several other social science disciplines are important component.
Not open for credit to students with credit in CHIS 315L.

346L. The European Cinema of Communism, Fascism and Resistance (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing.
Focuses on European cinema of twentieth century as manifestation of totalitarian and ideological movements preceding, in between, and following the two world wars. Ensuing and ongoing resistance movements also examined.
Same course as HIST 346L and FEAS 346L. Not open for credit to students with credit in HIST 346L and FEAS 346L.

424L. Second Language Acquisition (3)
Study of history of second language learning/teaching. Overview of current research in second language acquisition, with special focus on implications for teaching foreign languages. Evaluation and development of methods, materials, and tests.
Letter grade only (A-F). Not open for credit to students with credit in SPAN 424L. Undergraduates register in RGR 424L; graduate register in RGR 524L (Seminar).

425L. Romance Linguistics (3)
Prerequisites: RGR 424L, or SPAN 423L, or ITAL 414L or consent of program director.
Comparative description of the constitution and development of Romance languages in all their aspects: phonological, lexical and morphosyntactical. Taught in English.

450L. Consequences of the Encounter: The Americas, Europe, and Africa (3)
Prerequisites: Completion of the G.E. Foundation requirement, completion of one or more Exploration courses and upper-division standing.
Consequences of Columbian encounter in Africa, Europe and the Americas (1492-present), Art, Literature, and Social Sciences meshed in order to examine encounter’s role in obliteration, suppression and creation of culture in Old and New Worlds.
Same course as CHIS 450L. Not open for credit to students with credit in CHIS 450L.

664 • Romance, German, Russian Languages • 2009/2010 CSULB Catalog
470/470. New Technologies in the Learning of Languages Other Than English (3)
Prerequisites: Advanced communication skills in the target language; basic knowledge of computer use (L1 110 or IS 115 competency for K-12 students); EDCS 200H, or concurrent enrollment, or consent of instructor.
Introduction to computer-based technology in the teaching of Languages Other Than English (LOTLE). Production of basic multimedia presentations and web pages using authoring software. Logical, ethical, privacy and security issues. Meets the Single Subject Credential Program Level I computer proficiency requirement for LOTLE students.
Letter grade only (A-F).

GRADUATE LEVEL

524/424. Second Language Acquisition (3)
Study of the history of second language learning/teaching. Overview of current research in second language acquisition, with emphasis on its implications for teaching foreign languages. Evaluation and development of methods, materials, and tests.
Letter grade only (A-F). Undergraduate register in RGR 424; graduate register in RGR 524. (Seminar)

525/425. Romance Linguistics (3)
Prerequisites: FREN 424, or SPAN 423, or ITAL 414 or consent of program director.
Comparative description of the constitution and development of Romance languages in all their aspects: phonetical, lexical and morpho-phonological. Taught in English.

570/470. New Technologies in the Learning of Languages Other Than English (3)
Prerequisites: (A) Advanced communication skills in the target language. (B) Basic knowledge of computer use (L1/TEC 110 or IS 115 competency for K-12 students). (C) EDCS 200H, or concurrent enrollment, or consent of instructor.
Introduction to computer-based technology in the teaching of Languages Other Than English (LOTLE). Production of basic multimedia presentations and web pages using authoring software. Logical, ethical, privacy and security issues. Meets the Single Subject Credential Program Level I computer proficiency requirement for LOTLE students.
Letter grade only (A-F).

601. Teaching Methodology (3)
Prerequisite: Graduate level or consent of Program Director in French, German, or Spanish and instructor.
Course should be taken prior to teaching in RGR/LL Department. With consent of program director and language coordinator, course can be taken either concurrently or at upper division level.

ARABIC COURSES (ARAB)

101A. Standard Modern Arabic I (4)
Prerequisite or Corequisite: Any Foundation course.
Beginning the study of Arabic. For non-native speakers only. Not open to heritage speakers or native speakers of Arabic. Check for code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

101B. Standard Modern Arabic II (4)
Prerequisite or Corequisite: Any Foundation course, ARAB 101A, or consent of instructor.
Continuation of work in 101A in speaking, pronunciation, comprehension and writing.
For non-native speakers only. Not open to heritage speakers or native speakers of Arabic. Check for code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

201A. Intermediate Arabic (4)
Prerequisite: ARAB 101B or three years of high school Arabic.
Continued work in speaking, pronunciation, comprehension, reading, writing.
For non-native speakers only. Heritage speakers of Arabic need to consult with the Chair or the Language Coordinator for placement in the appropriate course.

201B. Intermediate Arabic (4)
Prerequisite: ARAB 201A or four years of high school Arabic.
Continued work in speaking, pronunciation, comprehension, reading, writing, and culture.
For non-native speakers only. Heritage speakers of Arabic need to consult with the Chair or the Language Coordinator for placement in the appropriate course.

250. Arabic for Arabic Speakers (6)
Designed for heritage speakers of Arabic able to function in informal settings. Builds upon knowledge and skills speakers of Arabic bring to the classroom. Provides language-use experiences that move students beyond the informal situations in which they normally operate.
For heritage speakers of Arabic. If students are non-heritage speakers of Arabic who already completed four semesters of Arabic, they are urged to consult with the chair, the language coordinator or the instructor.

HEBREW COURSES (HEBW)

101A. Modern Hebrew (4)
Prerequisite or Corequisite: Any Foundation course.
Designed for non-native speakers. Introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.
For non-native speakers only. Not open to heritage speakers or native speakers of Hebrew. Check for code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

101B. Modern Hebrew (4)
Prerequisite: HEBW 101A. Corequisite: Any Foundation course.
Continuation of HEBW 101A. Introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.
For non-native speakers only. Not open to heritage speakers or native speakers of Hebrew. Check for code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

2009/2010 CSULB Catalog • Romance, German, Russian Languages • 665
Portuguese Courses (PORT)

101A. Fundamentals of Portuguese (4)
Prerequisite or Corequisite: Any Foundation course.
Fundamental skills of speaking, comprehending, reading and writing. Continuation of PORT 101A.
For non-native speakers only. Not open to heritage speakers or native speakers of Portuguese. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

101B. Fundamentals of Portuguese (4)
Prerequisite or Corequisite: Any Foundation course. Prerequisite: PORT 101A or two years of high school Portuguese or equivalent.
Continuation of PORT 101A. Fundamental skills of speaking, comprehending, reading and writing.
For non-native speakers only. Not open to heritage speakers or native speakers of Portuguese. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

201A. Intermediate Portuguese (4)
Prerequisite or Corequisite: At least one Foundation course.
Prerequisite: PORT 101B or three years of high school PORT or equivalent and completion of the Foundation requirement or entering competency equivalent to PORT 101B.
Continuous work in speaking, pronunciation, comprehension and writing.
For non-native speakers only. Not open to heritage speakers or native speakers of Portuguese. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

201B. Intermediate Portuguese (4)
Prerequisite or Corequisite: At least one Foundation course.
Prerequisites: PORT 201A or four years of high school PORT or equivalent, and completion of the Foundation requirement or entering competency equivalent to PORT 201A.
For those continuing the study of Portuguese or who have had four years of high school Portuguese or equivalent.
For non-native speakers only. Not open to heritage speakers or native speakers of Portuguese. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.
Minor in Russian (code RGR_UM04)

The purpose of the Minor in Russian is to provide interested students with a focused program of study in the Russian language. The Minor in Russian is available to any non-Russian major.

Requirements
Pre-requisites: RUS 101A (4), 101B (4)
Twenty additional units, of which 12 units must be taken in upper-division course work: RUS 201A (4), 201B (4), 310 (3), 312 (3), 314 (3), 410 (3), 428 (3).

Certificate in Russian and East European Studies (code RGR_CT01)

Russian and East European Studies has an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Russian and East European Studies. Courses used to meet this certificate requirement may be counted also, where applicable toward the General Education requirement and the major and teaching minor requirements of the cooperating departments.

Interdisciplinary in concept, it covers the fields of anthropology, economics, geography, history, comparative literature, philosophy, political science and the Russian language.

The expanding opportunities for careers and public service in foreign policy administration, international organization, international business activities, education and information for intercultural understanding, make it useful to organize studies leading to a certificate in this important part of the world. This will tend to enhance the student's possibility for a career in business, education or government, and broaden the scope of understanding.

Interested students should apply to the Director, Russian and East European Studies, Dr. Harold Schefski, Department of Romance, German and Russian.

Requirements
1. A bachelor's degree with an approved major. Certificate can also be earned concurrently with the bachelor's degree.
2. A minimum of two semesters of a Slavic language;
3. 18 units selected from four of the disciplines listed below chosen in consultation with the student's advisor. No more than six units of any one discipline shall apply toward the certificate: ANTH 490*, CWL 349, 449; ECON 400*, GEOG 318, HIST 341A, 341B, 490*, 495*, PHIL 490*, POSC 306, 497; RUSI 101A-B, 201A, 201B, 310, 312, 314, 410, 428; RGR 346I.
4. Cumulative GPA of 2.75 in all courses in the student's approved certificate program.

*May be taken only when course work is applicable to Russian and East European Studies. Consultation with director of the center is required.

Courses (RUSS)

LOWER DIVISION

101A. Fundamentals of Russian (4)
Prerequisites/Corequisites: Any Foundation course.
Beginning the study of Russian. Practice in grammar, reading, pronunciation, writing and conversation.
For non-native speakers only, and is not open to heritage speakers or native speakers of Russian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

101B. Fundamentals of Russian (4)
Prerequisites or Corequisites: Any Foundation course. Russian 101A or equivalent.
Beginning study of Russian. Continuation of Russian 101A. Practice in grammar, reading, pronunciation, writing and conversation.
For non-native speakers only. Not open to heritage speakers or native speakers of Russian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

201A. Intermediate Russian (4)
Prerequisites: RUS 101B and completion of GE Foundation requirements (or entering competency equivalent to RUS 101B and completion or concurrent enrollment in at least one Foundation course)
Oral and written practice with grammar review.
For non-native speakers only, and is not open to heritage speakers or native speakers of Russian. Check for the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

2009/2010 CSULB Catalog • Russian • 667
201B. Intermediate Russian (4)
Prerequisites: RUSS 210A and completion of GE Foundation requirements (or entering competency equivalent to RUSS 210A and completion or concurrent enrollment in at least one Foundation course).
Oral and written practice with grammar review. Continuation of Russian 210A.
For non-native speakers only, and is not open to heritage speakers or native speakers of Russian. Check with the code 138 (for non-native speakers) and 139 (for heritage speakers) in the Schedule of Classes.

UPPER DIVISION
General Education Category A must be completed prior to taking any upper division course except upper division language courses where students need formal prerequisites and/or competency equivalent for advanced study.

310. Russian Literature in English (3)
Prerequisites: Completion of GE Foundation requirements, and any course in literature or European history
Taught in English, this course examines the major themes of Russian life as seen through the literature of the nineteenth and twentieth centuries.

312. Advanced Russian (3)
Required background or experience. Ability to read general material in Russian and to translate non-technical material into the language. Extensive reading of Russian writings, review of grammatical principles, and a general consolidation of the four language skills: reading, oral comprehension, composition, and conversation.

314. Russian Conversation (3)
Prerequisite: Upper-division standing in Russian or consent of instructor.
Intended to meet specific, everyday situations and to provide help to those who intend to use Russian for travel, work, or classroom instruction.

399. Directed Studies in Russian Language (1-3)
Prerequisites: Consent of instructor. Independent study undertaken under the supervision of a faculty member.
A Directed Studies course designed to meet the individual needs of students. Letter grade only (A-F).

410L. Introduction to Russian Civilization (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examination of the characteristic features of Russian culture with special attention to the study of art, architecture, folklore, music, poetry and religion.

428. Russian Cinema (3)
Prerequisite: Upper division standing.
Focuses on the socio-political and aesthetic aspects of Russian Cinema, detailing the following periods: Soviet Silent Cinema, Stalinist Cinema, Cinema under the Thaw, Cinema under Brezhnev, and Contemporary Cinema.
Letter grade only (A-F). Same course as FEA 458. Not open for credit to students with credit in FEA 458.

499. Directed Studies in Russian (1-3)
Prerequisites: Senior standing, consent of instructor.
Readings in areas of mutual interest to student and instructor that are not a part of any regular course. Written report or project may be required.
SCIENCE EDUCATION

Graduate Advisor: Alan Colburn
Administrative Support Coordinator: vacant

Introduction

The Department of Science Education is strongly committed to the improvement of teaching and learning in science at all levels, Pre-Kindergarten through University. The activities of the department are highly diversified, ranging from its roots in teacher preparation through science education projects of national significance. Faculty of the Department of Science Education play an important role in preparing and credentialing elementary and secondary school teachers for science teaching. Significant emphasis is also placed on providing experienced teachers with continuing opportunities to refine and raise the effectiveness of their science teaching. Science Education faculty similarly work with university science department teaching associates. In all its endeavors, the department maintains close ties with the teachers and schools of the greater Long Beach area. The department offers a Master of Science in Science Education degree for the practicing teacher of science in elementary, middle and high schools as well as educators in informal science settings.

The department also undertakes projects aimed at pre-college students. The “Head Start on Science” project, one of only such projects supported by the US Department of Health and Human Services, is developing a “sense of wonder” science component for 4-year old “Head Start” youngsters, their teachers and parents. We have just expanded our early childhood science education outreach with a CPEC grant for K-2 teachers. Other projects include: linkages between, and research about, informal science learning settings and K-16 classrooms, CSUNASAE Education Collaborative, Teaching Secondary School Scholar Partnership (TSSSP), Robert C. Noyce Scholarship Program, and Young Scientists’ Camp. To complement their teaching activities, Science Education faculty members maintain an active program of research and are involved in a variety of local, state, and university organizations and projects to improve science education.

The Department of Science Education houses a suite of instructional classrooms and a multimedia computer laboratory. The classrooms and lab are Internet-wire offering students interactivity and access to many web-based instructional materials. The department is committed to meaningful integration of technology into the teaching and learning of science. The department also maintains an extensive Science Education Curriculum and Materials Resources Center that includes science teaching guides, textbooks, professional journals, and multimedia. Students and local teachers are welcome to explore these resources during campus and daytime hours. The department sponsors the Association of Future Science Educators (AFSE) which is a student chapter of the National Science Teachers Association (NSTA) and California Science Teachers Association (CSTA).

Graduate Programs

Master of Science in Science Education

The M.S. in Science Education is designed primarily for credentialed K-12 teachers and experienced informal educators interested in deepening their understanding of science, education, and the teaching and learning of science. The program includes a blend of courses from the Department of Science Education, the College of Natural Sciences and Mathematics, and the College of Education. The program introduces candidates to Science Education as a field of study, with its own journals, issues, and research areas.

Application

Prospective graduate students in M.S. in Science Education, including CSULB graduates, must formally apply for admission to CSULB as described previously in this Catalog and must also apply directly to the Department of Science Education. All applicants must submit the following documents directly to the department office.

1. Completion of departmental application form, including personal statement. The application form is available in the Department of Science Education office or on the internet (http://www.scienceteaching.org, click on “Masters Info”).

2. Two confidential recommendation letters, sent under separate cover, including one from an administrator or supervisor at a school/institution where the applicant is (or was) employed.

3. Transcripts (in addition to those required by the university; photocopies acceptable).

Prospective graduate students must also receive a positive recommendation following an interview with graduate faculty.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all completed applications and recommend either accepting the applicant as a Classified or Conditionally Classified graduate student, or denying admission. All accepted students should contact the departmental graduate advisor before their first semester for advisement and orientation.

Classified Graduate Student

The Department of Science Education will recommend for admission as a Classified graduate student any applicant who has met all prerequisites and been accepted by the Graduate Studies Committee.
Conditionally Classified Graduate Student

An applicant who fails to meet the criteria for Classified admission to the department may be considered by the Graduate Studies Committee for admission as a Conditionally Classified graduate student. The Graduate Studies Committee will determine what deficiencies each applicant has and specify what the individual must do to make up those deficiencies. The applicant must make up all such deficiencies before attaining Classified status.

Admission to the Department Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student stated in this Catalog under Graduate Degrees and Post Baccalaureate Studies, the Science Education department requires:
- California Multiple Subject or science teaching credential, or the equivalent*;
- GPA of at least 3.0 for the last 60 units of study completed.
- Those students participating in the informal science option may substitute one or more years experience working as an educator in an informal learning setting; a letter of support is required.
- Students are expected to exhibit high standards of writing proficiency. Students missing any admission criteria may only be admitted after receiving the approval of a department graduate faculty committee.

Option in Elementary Science Education (code SCEDMS01)

The option in Elementary Science Education is designed for teachers who are K-8 generalists. Although aimed at those with a Multiple Subject credential, the program may also be appropriate for Single Subject teachers interested in increasing the breadth of their scientific knowledge.

Students completing this option will be prepared to assume positions of greater science leadership at their schools or districts, or go on to further graduate study in science education.

Program of Study

The Program of Study includes successful completion of:
1. 6 units from EDP 400, 419, 420, 519, 520, 595, or ETEC 623 (chosen in consultation with advisor)
2. Science Education core courses: SCED 550, 551, 552, 697
4. Thesis/Project: SCED 698

Option in Secondary Science Education (code SCEDMS02)

The Option in Secondary Science Education is aimed at teachers currently holding a Single Subject credential in Science. Graduate students enrolled in this option complete 9 units of graduate coursework in a Science discipline. The option is ideal for teachers interested in broadening their backgrounds in both Science and Science Education.

Students completing this option will be prepared to assume positions of greater science leadership at their schools or districts, or go on to further graduate study in science education.

Program of Study

The Program of Study includes successful completion of:
1. 6 units from EDP 400, 419, 420, 519, 520, 595, or ETEC 623 (chosen in consultation with advisor)
2. Science Education core courses: SCED 550, 551, 552, 697
3. Science courses: 9 units of graduate level Science (chosen in consultation with advisor)
4. Thesis/Project: SCED 698

Option in Informal Science Education (SCEDMS03)

The option in Informal Science Education is aimed at educators currently working in non-classroom settings such as museums, zoos, and nature centers, as well as those charged with fostering the public understanding of science. Graduate students enrolled in this program will strengthen their understanding of science, gain a deeper conception of the objectives and theories of science education, and examine the contexts of learning beyond the traditional classroom. This option is ideal for informal educators who wish to better understand and facilitate the learning that occurs within their institution. Students completing this option will be prepared to assume positions of greater science leadership within their institutions, or go on to further graduate study in science education.

Program of Study

The Program of Study (33 units) includes the successful completion of:
- Science Education core courses: SCED 550, 551, 552, 553, 697
- 6 units of science courses from: SCED 500, 501, 502, or other graduate-level science courses chosen in consultation with advisor
- 3 units research methodology from: EDP 520, REC 606, in consultation with advisor
- 3 units non-profit management or other practitioner-related course from: REC 526, 521, in consultation with advisor
- 3 units elective, chosen in consultation with advisor
- SCED 698, Thesis

Advancement to Candidacy

1. The regulations governing the master's degree are those in effect at the time of advancement to candidacy. A student must be designated as a Classified Student in good standing prior to advancing to candidacy.
2. A student must satisfy the general requirements of the University, including fulfilling the Graduation Writing Assessment Requirements (GWAR).
3. The student’s M.S. program must be approved by a faculty graduate advisor, the department graduate advisor and the department chair before submission to the Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics.
4. Advancement to candidacy may take place upon satisfactory completion of six units in the M.S. program. A student must have been advanced to candidacy before initiating formal thesis research necessary to complete the M.S. degree.
Courses (SCED)

UPPER DIVISION

362. Elementary School Science Workshop (3)
Prerequisite: SCED 401.
Prepracticum development and use of "hands on" elementary school science teaching/learning activities, units, and learning centers. Letter grade only (A-F). (Lecture 2 hrs., workshop 2 hrs.) Course fee may be required.

401. A Process Approach to Science (3)
Prerequisite: BIOL 200; PSYC 112; GEOL 106, or both GEOL 102 and 104; all with a "C" or better grade. Processes of science as they relate to life, earth, and physical sciences. Practical approaches to understanding how science works modeled and integrated throughout. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

403. Integrated Science (3)
Prerequisites: Completion of all credential breadth requirements for the Single Subject Teaching Credential Program in Science, three-fourths of the credential specialization courses, and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science.
Requires presentations, discussions, critical evaluation by students on selected interdisciplinary topics in sciences, and field work in integrated science assignments. Letter grade only (A-F). (Lecture 3 hrs.)

404. The Nature of Science and Scientific Reasoning for Teachers (3)
Prerequisites: Completion of at least three-fourths of the credential specialization courses for Single Subject Teaching Credential in science and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. Course has three aims: 1) to help students better understand the nature of science - its history, philosophy, psychology, and sociology; 2) to help students better understand methods of science and how to critically evaluate reports about scientific investigations. Finally, third, students learn how to apply these understandings to the 6-12 classroom. Letter grade only (A-F). (Lecture 3 hrs.)

475. Teaching and Learning Science, K-8 (3)
Prerequisite: Admission to the Multiple Subject Credential Program. Methods for teaching elementary school science. Development of sequenced, integrated inquiry-based science lessons addressing the needs of all learners.
60 contact hours, however, actual contact vary as coursework is offered with an on-line distance component (see Schedule of Classes footnote). TPRI Task completion partial fulfillment of course. 10 hours minimum of fieldwork in classrooms where at least 25% of students are classified as English language or concurrent enrollment in EDEL 482.
Letter grade only (A-F). Course fee may be required. Same course as EDEL 475. Not open for credit to students with credit in EDEL 475. (Lecture 2 hrs., activity 2 hrs.)

490/590. Special Topics in Science Education (1-3)
Prerequisite: Consent of Instructor. (Undergraduates enroll in SCED 490; graduates enroll in SCED 590.)
Topics in Science Education. Course content will vary from section to section. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. (Seminar 1-3 hrs.)

496. Directed Studies in Science Education (1-3)
Prerequisites: Consent of Instructor. Supervised study of current topics in science education. Letter grade only (A-F). May be repeated to a maximum of 3 units with different topics in different semesters.

GRADUATE LEVEL

500. Life Science Applications for K-8 Teachers (3)
Prerequisites: Admission to M.S. in Science Education program. BIOL 200. Emphasizes major themes and processes in life sciences, focusing on deepening understanding of concepts and approaches to teaching material in K-8. Approaches to developing teaching inquiry-based/meaningful learning units in biology modeled and integrated throughout course.
Letter grade only (A-F). (Seminar 3 hrs.)

501. Earth Sciences Applications for K-8 Teachers (3)
Prerequisites: Admission to the M.S. in Science Education program and GEOL 102; 110 or GEOL 106. Investigates earth science topics with focus on deepening understanding of earth science concepts and activities in K-8 classrooms and schools. Letter grade only (A-F). (Seminar 3 hrs.)

502. Physical Science Applications for K-8 Teachers (3)
Prerequisites: Admission to M.S. in Science Education program; PSYC 112. Investigates physical science topics with focus on deepening understanding of earth science concepts and activities in K-8 classrooms and schools. Letter grade only (A-F). (Seminar 3 hrs.)

550. Current Issues and Research in Science Education (3)
Prerequisite: Admission to M.S. in Science Education program. SCED 550 is a core course in the M.S. in Science Education. Introduces student to body of research and practical knowledge shared by science education community. Includes choosing, studying, and discussing articles from science education literature relevant to key issues in science education. Course requirements include attending science teacher's conventions. Letter grade only (A-F). (Seminar 3 hrs.)

551. Science Teaching, Learning and Curriculum Models (3)
Prerequisites: Admission to M.S. in Science Education program and SCED 550. SCED 551 is a core course in the M.S. in Science Education. Introduces students to professional literature about science teaching and learning. Traces historical development of elementary/secondary science curriculum models. Students examine role science and education organizations played in reforming science curriculum, and analyze curricula from variety of teaching/learning perspectives. Letter grade only (A-F). (Seminar 3 hrs.)

552. Nature of Science (3)
Prerequisites: Admission to M.S. in Science Education program and SCED 550. A core course in the M.S. in Science Education. Looks at science from historical, philosophical, psychological, and sociological perspectives. Examines perceptions of science and scientists, especially views of science in different cultures and times. Discusses using these perspectives to teach students about nature of science. Letter grade only (A-F). (Seminar 3 hrs.)
553. Science Learning in Informal Settings (3)
Prerequisite: Admission to Science Education M.S. program; consent of instructor. SCED 553 is a core course required of all Science Education M.S. candidates who have declared an option in informal science learning. Examines unique characteristics of non-school learning settings and how they promote (or hinder) scientific understanding. These "non-school settings" include science museums, zoos, aquaria, nature centers and even homes, where media such as television and the Internet play a prominent role. Multiple theoretical perspectives will be examined. Students will engage in their own research project in order to better understand an informal learning. Letter grade only (A-F). (Seminar 3 hrs.)

580. Introduction to College Science Teaching -I (1)
Prerequisite: Admission to Master's-level program in CNSM. This course addresses the fundamentals of college science instruction with an emphasis on immediate classroom application. Strategies for active learning, student assessment, and teacher development are introduced. Letter grade only (A-F). (Seminar 1 hr.)

590.4490. Special Topics in Science Education (1-3)
Prerequisite: Consent of instructor. (Undergraduates enroll in SCED 4490; graduates enroll in SCED 590.) Topics in Science Education. Course content will vary from section to section. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters with consent of instructor. (Seminar 1-3 hrs.)

697. Directed Research (1-3)
Prerequisites: Consent of instructor and admission to M.S. in Science Education program. Independent investigation of a research problem or directed project, under the direction of a faculty member. May be repeated to a maximum of 3 units with different topics in the same semester. Letter grade only (A-F).

698. Thesis (1-3)
Prerequisites: Advancement to Candidacy for the M.S. in Science Education. 18 units of coursework required for M.S. Science Education completed, and consent of the chair of the thesis committee. Planning, preparation, and completion of the thesis project in Science Education. Letter grade only (A-F).

Deborah Mitchell (Music Education)
Margaret Lichly (Home Economics Education)
Emyr Williams (Physical Education)
Angelo Segale (Mathematics Education)

Introduction
A teacher with a Single Subject Credential is authorized to teach the specific subject(s) named on the credential in departmentalized schools. This is commonly done in California high schools and in most California junior high and middle schools. However, a teacher authorized for single subject instruction may be assigned to teach any subject in his or her authorized fields at any grade level: pre-school, kindergarten and grades one through twelve; or in classes organized primarily for adults. The Single Subject Credential Program (SSCP) prepares university students to be credentialed in California for single subject instruction. At CSULB the program includes courses in the student's teaching subject area, in Secondary Education (EDSE), and in Single Subject Education (EDSS).

Students are able to receive information brochures by calling the Teacher Preparation Advising Center at (562) 985-5325 or on the website at www.ccsd.csulb.edu/single-subject.

Single Subject Credential Program
(code 100)
The Single Subject Credential Program is a 45 unit program comprised of one prerequisite, four co-requisites, four core courses, and the capstone student teaching experience and student teaching seminar. EDSS 300, the prerequisite course, must be taken prior to other EDSS and EDSE courses. The co-requisites may be taken prior to or concurrent with EDSS 300, or concurrent with the core courses. All course work must be completed prior to student teaching, except for the student teaching seminar which is taken concurrent with student teaching. Student teaching is a full teaching day, Monday through Friday, for approximately 20 weeks under the guidance of one or more cooperating teachers and a university supervisor.

Program Courses
Prerequisite: EDSS 300 (separate sections offered for each subject area)
Corequisites: EDP 301 or 302 or 305; HSC 411B; EDSP 350; Level I technology course or state-approved exam
Core Courses: EDSE 435, 436, 437; EDSS 450 (separate sections offered for each subject area)
Capstone: EDSS 472 and 473 or, for interns, 572 and 473.

Candidates in the 10 subject area programs can meet the computer technology requirement through the following courses: Art (ART 305), English (ENGL 337), Home Economics (ETEC 444), Health Science (ETEC 444), LOTE (RGR 470), Mathematics (MTED 301), Music (MUS 120T), KIN (KIN 354), Science (EDSS 300C, 450C, 473), Social Science (ETEC 444).

All professional coursework for the credential must be completed within seven years of admission to the program.

In addition to professional preparation, all credential candidates must demonstrate subject matter competence by one of the following: (a) completion of a Commission-approved subject matter program; (b) passing scores on the CSET exam; (c) transcript review. Candidates should confer as early as possible with the Credential Advisor in their subject area to develop an efficient program plan.

Admission to the Program
Before beginning the Single Subject Credential Program, students should be admitted to the university. Apply for admission if you are (a) a graduating senior at CSULB, (b) transferring from another institution, or (c) returning to the university after an absence of one or more semesters. Admission to the university does not constitute admission or acceptance in the SSCP. Application to the program is normally made as part of the course requirements for EDSS 300. Students may take the EDSS 300 course as early as the junior year with a minimum of 60 units.

Program Admission Requirements
1. Complete the prerequisite course EDSS 300 in the appropriate subject area, with a minimum grade of "B."
2. Perform satisfactorily in the 45 hour field work requirement in EDSS 300.
3. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units attempted.
4. Complete a personal interview with program faculty.
5. Submit two recommendation forms that speak to the candidate's potential for successful public school teaching.
6. Submit a written statement of professional goals and philosophy of education.

2009/2010 CSULB Catalog • Single Subject Teacher Education • 673
7. Provide evidence of fingerprint clearance (Certificate of Clearance) through the California Commission on Teacher Credentialing (CTC).

8. Submit a tuberculosis skin test or chest x-ray taken within the previous three years. Tuberculosis clearance must be valid through student teaching.

9. Take the CBEST exam. You must take all three parts of the exam. (Passage of the exam is required to advance to student teaching.)

10. Demonstrate proficiency in reading and writing English by (1) attaining the minimum passing score of 37 on the reading portion of the CBEST exam or by (2) achieving a "C" grade or better in a course satisfying the General Education requirement in literature or philosophy and by (1) attaining the minimum passing score of 37 on the writing portion of the CBEST or by (2) fulfillment of the Graduation Writing Assessment Requirement (GWAR).

11. Demonstrate ability to communicate orally in English at the level required of public school teachers by demonstration of English production skills in the course EDSS 300 and through an oral interview with subject matter program faculty. In the case of candidates for a credential in teaching Languages Other Than English, there is a bilingual interview requirement in English and the target language.

12. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching in public schools through the application documentation, the personal interview, and performance in the course EDSS 300. Candidates must continue to demonstrate appropriate character and personality traits through completion of the program.

13. Submit a completed program application to the EDSS 300 instructor.

14. Complete all requirements for admission to the program unique to the candidate's subject matter program.

**Preliminary Credential**

Successful completion of the Single Subject Credential Program leads to the Preliminary Credential, which is valid for five years.

**Credential Requirements**

1. Hold a bachelor’s degree from an accredited institution.
2. Satisfy the U.S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST.
5. Demonstrate subject matter competence.
6. Complete all prerequisite, co-requisite, core and capstone courses with a "B" average and a minimum grade of "C".
7. Complete all EDSS and EDSE courses. A minimum grade of "B" must be attained in EDSS 450.
9. Successfully complete student teaching and student teaching seminar.
10. Obtain a score of 3 or better on all 4 tasks in the state mandated Teacher Performance Assessment (Cal-TPA).

**Student Teaching**

Student Teaching is a full day, full semester responsibility following the school district calendar (approximately 20 weeks). Students teach three classes which represent different aspects or levels of the single subject major. The other two periods are for preparation and observation. The university determines the specific student teaching assignment. There are a wide variety of schools and teaching situations available in the program service area representative of the diversity of the region.

Advancement to Student Teaching is based upon a second thorough assessment of the candidate's qualifications. The process involves an evaluation of the applicant's file and an interview with faculty in the Single Subject Program. The criteria for advancement are as follows:

1. Potential for success in teaching, as indicated by successful leadership, teaching experience, or work experience. Updated information regarding the candidate's most recent experience, including work in EDSS 450, forms the basis of this assessment.
2. Continuing motivation for and enthusiasm toward teaching, together with those personality traits believed essential for successful teaching. Evidence includes a strong recommendation from the instructor of the 450 class and further recommendations from faculty who have worked with or have interviewed the student since the time of admission to the credential program.
3. Academic competence, overall, and in the teaching major. The level of academic achievement of candidates is expected to be above average.

**Advancement to Student Teaching Requirements**

1. Member in good standing of the Single Subject Credential Program.
2. A GPA of 2.75 in the last 60 units, or 2.67 overall.
3. Complete all program courses, except Student Teaching and Seminar.
4. A minimum "B" grade point average in program courses, including prerequisites, corequisites and core courses, with no grade lower than "C." A minimum 3.0 grade point average must be maintained in all EDSS and EDSE courses. Completion of EDSS 450 with a minimum grade of "B."
5. TB clearance (clearance must be valid though completion of student teaching).
6. Pass the California Basic Educational Skills Test (CBEST), or approved alternate prior to the student teaching application deadline.
7. Course-takers must satisfy the subject matter mastery requirement prior to the first day of student teaching.
9. Attend a student teaching application meeting and submit a student teaching application by October 1 or March 1 of the semester prior to student teaching.

**Student Teaching Application Process**

1. Student Teaching applications are distributed at student teaching information meetings held the first two weeks of the semester. Candidates for advancement to student teaching must attend a meeting. Meeting dates are posted
outside the Single Subject Program office and are available on the website.

2. The application for Student Teaching is reviewed by the student's Single Subject major area. The Credential Center evaluates transcripts. The department then makes a recommendation to the University Single Subject Teacher Education Committee which takes final action. When approved by this committee, the student registers for student teaching. A priority system is used if sufficient funding is not available to allow all qualified applicants to enroll in student teaching.

3. A Certificate of Clearance must be on file in the Credential Center prior to the beginning of Student Teaching.

**Single Subject Internship**

The Internship Program provides an opportunity for qualified Single Subject Credential Program candidates to work as teachers of record while completing their preservice preparation. Internship positions are offered by the district in consultation with the Single Subject Program. An internship is an entry-level paid teaching position in a regular public secondary school classroom. The Intern Credential holder is an employee of the school district on a contractual basis and is subject to all district employment policies. Interns are also program students, subject to program requirements.

Interns hold considerable responsibility as the classroom teacher of record responsible for designing, developing, and implementing curriculum and instruction for a full load of classes for the length of the school year. In addition, they are expected to be fully participating members of the school faculty, including service on school committees, supervision of student activities, and attendance at school and district meetings and inservices. Only candidates who are truly ready for the responsibility and heavy workload should become interns. Candidates should consult with their Credential Program Advisor and the University Coordinator as they explore the possibility of doing an internship.

To be approved for an internship, candidates must meet the following requirements: be in good standing in the program, be enrolled in at least one program course each semester, pass the CBEST (or approved alternate), demonstrate subject matter competence (as determined by CTC subject matter requirements), have character clearance, demonstrate 120 hours of TPE training with 40 of those hours in ELL training, demonstrate relevant successful experience working with students, and show proof of meeting the U. S. Constitution requirement. The internship offer is made by the school district, and must be in the candidate's teaching field. Interns cannot teach out of their field. Candidates must have the approval of the Credential Advisor in their subject area and the approval of the University Coordinator. There must be a District/University Internship Agreement in place between the district and CSULB.

Upon completing all program requirements for advancement to student teaching, Interns use their teaching position as the "student teaching" experience. Interns must submit an application to student teach by the regular deadlines: October 1 for Spring and March 1 for Fall student teaching. Interns register for 15 units of Intern Student Teaching and 3 units of Student Teaching Seminar. A University Supervisor observes the intern periodically during the term, conferring with the intern after site visits, and provides support as needed. The school provides a Site Support Teacher who functions as the Intern's on-site mentor. Interns are evaluated on program evaluation forms that are based on the California Teaching Performance Expectations.

**Intern Application Guidelines** and application materials are available at the Credential Preparation Advising Center (ED1-67). Late applications may not be approved until the following semester. Candidates should contact the Single Subject Program office for a list of districts with which the program has intern contractual agreements.

The Early Completion Intern Option allows qualified candidates to challenge the coursework portion of the internship program and demonstrate their pedagogical skills by passage of the California Teaching Performance Assessment while serving as an intern. See an advisor in the Credential Preparation Advising Center for details.

**Clear Credential**

The Preliminary credential is valid for five years from the date of issuance and is not renewable. During the first five years of teaching, teachers earn the Clear Credential through their District-Sponsored Induction Program.

**Petition Process**

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the Single Subject Program Petition Committee. The Petition Committee reviews the written statement and supporting evidence. After the review, the Committee renders its final decision. Examples of petitionable policies are: the minimum grade point average required for program admission, completing all program courses prior to student teaching, and course equivalencies. Consult the program office for items not listed here. Students follow university policy to appeal a course final grade.

**Single Subject Credential Program Majors**

The subject matter programs listed below have been approved by the California Commission on Teacher Credentialing. Completion of a program as an undergraduate major (or as a returning graduate student) meets the subject matter competence requirement for the teaching credential. With careful planning, it may be possible for undergraduates to complete the professional preparation (education) courses concurrent with the major, with the exception of student teaching and seminar (which may be done the first semester after graduation). Subject matter competence may also be demonstrated by passing the appropriate CSET exam. Candidates should consult the Credential Advisor in their area of interest to develop an efficient program plan.

**Art Education (code 110)**

Course requirements for demonstrating subject matter competence in Art are listed in the Art Department under Bachelor of Arts in Arts, Option in Art Education. Subject matter competence may be met through completion of 30 core units and 36 breadth and preservice units. Consult with the Single Subject Art Education Advisor for specific academic advisement and program information. The Art Subject Matter Program is being revised to meet new state standards. When
the revised program has been approved by the Commission on Teacher Credentialing. The revised course requirements will be in effect and supersede current requirements.

**English Education (code 120)**

Course requirements for demonstrating subject matter competence in English are listed in the English Department under Bachelor of Arts in English, Option in English Education. Subject matter competence may be met through completion of 35 core units and 18 breadth and perspective units. Consult with the Single Subject English Education Advisor for specific academic advisement and program information.

**Languages Other Than English (LOTEN)**

French code 152, German code 153, Italian code 154, Japanese code 155, Latin code 156, Spanish code 158

Course requirements for demonstrating subject matter competence in individual Languages Other Than English are listed under the Bachelor of Arts requirements in the appropriate department (French, German, Italian, Spanish: Romance, German and Russian Languages Dept.; Japanese: Asian and Asian American Studies Dept.; Latin: Comparative World Literature and Classics Dept.). In each instance, the Bachelor of Arts degree leads to subject matter competence in the language. Consult with the Single Subject Languages Other than English Education Advisor for specific academic advisement and program information. The LOTEN Subject Matter Program has been revised to meet new state standards and approved by the Commission on Teacher Credentialing for French, German, Italian, Latin, and Spanish, Japanese and Korean, for which new course requirements will be in effect and supersede current requirements.

**Health Science (code 130)**

Course requirements for demonstrating subject matter competence in Health Science are listed in the Health Science Department under Bachelor of Science in Health Science, Option in School Health Education. Subject matter competence may be met through completion of 20 lower division units and 46 upper division units. Consult with the Single Subject Health Science Education Advisor for specific academic advisement and program information. The Health Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

**Home Economics Education (code 140)**

Course requirements for demonstrating subject matter competence in Home Economics are listed in the Family and Consumer Sciences Department under Bachelor of Arts in Family and Consumer Sciences, Option in Family and Consumer Science Education. Subject matter competence may be met through completion of 35 lower division units and 35 upper division units. Consult with the Single Subject Family and Consumer Sciences Education Advisor for specific academic advisement and program information. The Home Economics Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

**Mathematics Education (code 165)**

Course requirements for demonstrating subject matter competence in Mathematics are listed in the Mathematics and Statistics Department under Bachelor of Science in Mathematics, Option in Mathematics Education. Subject matter competence may be met through completion of 30 lower units and 36 upper division units. Consult with the Single Subject Mathematics Education Advisor for specific academic advisement and program information.

**Music Education (code 170)**

Course requirements for demonstrating subject matter competence in Music are listed in the Music Department under Bachelor of Music, Option in Music Education. Subject matter competence may be met through completion of 65 units for both choral/vocal and instrumental options. Consult with the Single Subject Music Education Advisor for specific academic advisement and program information. The Music Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

**Physical Education (code 175)**

Course requirements for demonstrating subject matter competence in Physical Education are listed in the Kinesiology Department under Bachelor of Arts in Kinesiology, Option in Elementary, Secondary, or Adapted Physical Education. Subject matter competence may be met through completion of 20 lower division units and 40 upper division units. Consult with the Single Subject Physical Education Advisor for specific academic advisement and program information. The Physical Education Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

**Science Education:**

**Biological Sciences (code 184)**

**Chemistry (code 181)**

**Geosciences (code 182)**

**Physics (code 183)**

Course requirements for demonstrating subject matter competence in Sciences are listed in the Science Education Department under Subject Matter Competence for the Single Subject Credential. Breadth and specialization units vary for the four science areas. Consult with the Single Subject Science Education Advisor for specific academic advisement and program information. The Science Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.
Social Science Education (code 185)
The Social Science subject matter program is currently under revision. Consult the Social Science program advisor for new program requirements.

Single Subject Education Courses (EDSS)

UPPER DIVISION

300A-S. Introduction to Teaching (3)
Prerequisite: Advanced sophomore or junior standing.
Structure, organization, culture of schools; curriculum, instruction, assessment, classroom management; history and current status of the subject area; becoming a reflective professional. Submission of application to the Single Subject Credential Program (SSCP). "B" grade or better required for admission to the SSCP. First course in the professional education sequence of the SSCP. Students register for the section bearing the letter associated with their discipline from the list below.
45-hour directed fieldwork required. Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.
(3) Lecture 3 hours
A. Art
C. Science
D. Health Science (F)
E. LOTE: Languages Other Than English
G. English
H. Home Economics (F)
M. Mathematics
N. Music (S)
P. Physical Education
S. Social Science

450A. Curriculum and Methods in Teaching Art (3)
Prerequisite: EDSS 300A; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching art to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Course fee may be required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450C. Curriculum and Methods in Teaching Science (3)
Prerequisite: EDSS 300C; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching science to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
(2) Lecture 2 hours, laboratory 1 hour + TBA Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450D. Curriculum and Methods in Teaching Health Science (3) S
Prerequisite: EDSS 300D; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching health to diverse students.

450F. Curriculum and Methods in Teaching Languages Other Than English (3)
Prerequisite: EDSS 300F; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching world languages to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450G. Curriculum and Methods in Teaching English (3)
Prerequisite: EDSS 300G; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching English to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450H. Curriculum and Methods in Teaching Home Economics (3) S
Prerequisite: EDSS 300H; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching home economics to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450M. Curriculum and Methods in Teaching Mathematics (3)
Prerequisite: EDSS 300M; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching mathematics to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450N. Curriculum and Methods in Teaching Music (3) F
Prerequisite: EDSS 300N; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching music to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.
458P, Curriculum and Methods in Teaching Physical Education (3)
Prerequisite: EDSS 300P; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator; current single subject credential; completion of all skill performance proficiencies with an overall score of 3.5. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching physical education to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

468S, Curriculum and Methods in Teaching Social Science (3)
Prerequisite: EDSS 300S; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Required prior to student teaching.
Objectives, curriculum, materials, instructional strategies, and assessment specific to teaching history and social science to diverse students. Reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks.
Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

472A, B, C, Student Teaching (5, 5, 5)
Concurrent: EDSS 473. Prerequisite: EDSS 450 (A, C, D, F, G, H, I, N, P, or S) and permission of the University Coordinator; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); pass or pass (C/D or D) in CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment in selected programs; approval for advancement to student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Required prior to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

473A-S, Student Teaching Seminar (3)
Prerequisite: Admission to the Single Subject Credential Program, or consent of the Single Subject Credential Program University Coordinator, advanced to student teaching. Concurrent: EDSS 472.
Focus: theory to practice within the context of teaching. Covers curriculum, instruction, assessment, classroom management, equity and access for all students. Prepares candidates for induction into the teaching profession.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
A. Art
C. Science
D. Health Science

490, Curriculum Topics in Selected Academic Subjects (1-3)
Prerequisite: Consent of instructor.
Selected secondary curriculum topics. Academic subject to be covered will be announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics; but only 6 units with a letter grade may be applied toward advanced degrees.

497, Independent Study (1-3)
Prerequisites: Consent of instructor and Single Subject Program Coordinator.
Independent study undertaken under the supervision of a faculty member.
May be repeated to a maximum of 3 units.

GRADUATE LEVEL

572A, B, C, Intern Student Teaching (5, 5, 5)
Concurrent: EDSS 473. Prerequisite: Admission to the Single Subject Intern Program; offer of intern teaching position from a cooperating school district; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); pass or pass (C/D or D) in CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment required in selected programs; approval for advancement to student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Use of the intern's teaching position as student teaching. Must be done in the subject that is authorized on the intern's credential.
Interns must be approved by the program for contract positions in cooperating school districts.
Credit/No Credit grading only ("A" or "B" quality work required for credit). May be repeated to a maximum of 10 units.

Secondary Education Courses (EDSE)

UPPER DIVISION

435, United States Secondary Schools: Intercultural Education (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, I, N, P, or S); and permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program.
Critical reflection on multicultural education in a diverse society. Understanding contemporary secondary schools. Curriculum and student populations in the context of issues and controversies in education.
Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

436, Curriculum, Instruction, Assessment and Classroom Management (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, I, N, P, or S); and admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program.
Explores systematic instruction, theories of learning, curriculum
development, teaching strategies, assessment and evaluation
of student progress, classroom management and discipline, and
establishing successful learning environments for all students.

Fifteen hour fieldwork requirement. Letter grade only (A–F). May be
repeated to a maximum of 6 units.

457. Reading and Writing in the Secondary School (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); and
admission in the Single Subject Credential Program; or permission
of the University Coordinator of the Single Subject Credential
Program. Required course in the Single Subject Credential
Program.

Emphasis on reading and writing assessment and instruction;
textbook selection; vocabulary development; comprehension
strategies; content area reading and study skills; writing instruction;
English Language Development: the reading needs of less
prepared, English language, and accelerated learners; and issues
of diversity and equity.

Fifteen hours of field work required. Letter grade only (A–F). May
be repeated to a maximum of 6 units.

Introduction
The mission of the profession of social work is to improve the quality of life for all people and to enhance human potential for full and productive participation in society. As such, social work has universal application to meet human needs arising from personal-societal interactions. Social Work, based on the history and philosophy of the profession, is committed to working with disenfranchised groups to alleviate poverty and oppression and to empower at-risk groups including families and communities.

The social work method is a change-oriented process which helps individuals and social units of all sizes, structures and functions to discover, mobilize, develop and use their own and outside resources to change personal and social conditions which are barriers to meeting their needs. Change is accomplished through direct service, supervision, consultation, education, community organization, program development and evaluation, organizational and administrative advocacy, policy development, and social or political action.

Social workers are employed in varied settings, such as major societal institutions, health and mental health, child welfare, family services, government, corrections, aging services, recreation, and labor and industry. They work in many job classifications: direct service, community organization, supervision, consultation, management, administration, education and training, policy analysis and research.

The mission of the Department of Social Work is to prepare a diverse student population for Bachelor of Arts in Social Work (BASW) and Master in Social Work (MSW) degrees for professional social work practice. The graduates of these programs are able to:

- demonstrate competent and ethical practice with diverse and multicultural populations from a base that builds on advances in social work knowledge, values and skills;
- enhance the well-being, and address the needs of diverse and multicultural populations across the life span; and
- advocate for social justice and social change and for elimination of oppression and discrimination.

Additionally, the mission is to provide BASW and MSW education which is broadly accessible so that graduates can serve the needs of local, state and international communities in which they practice. In order to accomplish the mission, the Department draws on a diverse faculty who provide quality social work education and contribute to the community, the profession and the advancement of professional knowledge: The Departmental curriculum assists BASW and MSW students to gain professional knowledge and values and develop an understanding of, and skill in social work methods and techniques required to undertake quality practice within the full spectrum of professional tasks. Those expectations are accomplished with the student through the integration of the information and theories of the classroom with supervised practical experience in a variety of social agencies.

The BASW and MSW programs are accredited by the Council on Social Work Education (Council on Social Work Education, Commission on Accreditation, 1725 Duke Street, Alexandria, VA 22314, phone number: 703-883-8880).

Departmental, University and Council on Social Work Education regulations do not permit the substitution of life or work experience for curriculum or degree requirements.

680 • Social Work • 2009/2010 CSULB Catalog
Undergraduate Programs

Bachelor of Arts in Social Work (code SW_BA01) (120 units)

The Department of Social Work offers, in conjunction with the general education requirements, a professional program leading to a Bachelor of Arts in Social Work (BASW). The goals of the BASW program are to prepare students for entry level, professional, generalist social work practice and for graduate social work education, including advanced standing. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with systems of all sizes (individuals, families, groups, communities and institutions).

Social Work majors should consider taking courses as electives or for fulfillment of general education requirements in the ethnic studies, women's studies and gerontology programs in the Colleges of Health and Human Services and Liberal Arts. The Department can make recommendations concerning those courses which would be most useful to students interested in acquiring broader information closely allied to professional social work practice.

Admission Under Impaction

To be eligible for admission to Social Work, applicants must demonstrate the following prior to the semester for which the application is submitted. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on review of the entire application packet. Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed the following prerequisite courses with a minimum grade point average of 2.50: BIOL 205, PSY 100, SOC 100, ANTH 120 or their equivalents, and a course in elementary statistics such as HDEV 250, MATH 108, PSY 110, or SOC 250 or their equivalents. Applicants must submit a supplemental application to the department by the third Friday in February for the fall semester. The application includes statements of biographical and educational background and a description of community and/or social work experience. Each applicant must submit two letters of reference, one academic and one professional. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on review of the entire application packet.

Admission Under Impaction for Continuing Students

Students who indicate a Social Work major when they enter as freshmen will be assigned a pre-social work major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the major by the Department. Students who are not accepted into the major cannot continue as pre-social work majors.

Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the major will not be admitted to the university unless they have listed a second choice of major on the application form.

Additional Requirements

To be allowed to continue in the major, students must complete the following during the first two semesters in the major courses:

A. Pass Abnormal Psychology
B. Fulfill the Graduation Writing Assessment Requirement (GWAR)

Students can contact the Department's admissions office for academic advising concerning the requirements for admission into the BASW program.

Fieldwork

The field sequence has an integral role in the BASW curriculum providing an opportunity for students to apply social work knowledge and practice skills in an agency based educationally focused fieldwork internship. Students complete 450 hours of field placement (SW 495A/B) in their senior year for which they earn 14 academic units. Students complete 16 hours per week in an assigned agency placement. A variety of agencies in the surrounding communities are used, and the Department's field faculty selects the most appropriate field placement site for students.

Sequence of Required Social Work Courses

Full-time students will take the following sequence of courses starting with:

First Level (fall): SW 220, 221, 330, 350
Second Level (spring): SW 331, 340, 341, 351
Third Level (fall): SW 440, 442, 495A
Fourth Level (spring): SW 441, 465, 496B

Part-time students will take the following sequence of courses:

First Level (fall): SW 220, 221
Second Level (spring): SW 330, 350
Third Level (fall): SW 331, 351
Fourth Level (spring): SW 340, 341
Fifth Level (fall): SW 440, 442, 495A
Sixth Level (Spring): SW 441, 465, 496B

All Social Work courses must be completed with a grade no lower than a "C" in classroom courses or a "CR" for practicum or field experience. If a student earns a grade lower than a "C" in a classroom course or a "NC" in a practicum or field experience course, the student must repeat the course. All courses must be taken in sequence.

CalSWEC BASW Program

California Social Work Education Center (CalSWEC) is a unique partnership between social work education and the publicly supported child welfare agencies. A goal of the CalSWEC program is to recruit and prepare a diverse group of social workers for careers in public child welfare. CalSWEC provides financial support to BASW students in exchange for a commitment to work in a public child welfare agency after graduation. The intent of the program is to strengthen and enhance the quality of practice by professionally trained and educated public child welfare social workers.

The IV-E stipends provide support for full-time students enrolled in the BASW program. A CalSWEC reimbursement program is available for part-time students currently employed with the County Social Services department that provides
child welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial support for awarded part-time students will include actual cost of full tuition and fees, book costs as well as a travel allowance.

Application Process

Students must first be admitted into the BASW program. Students are required to complete a CalSWEC application. The application is supplemented with various questions designed to ascertain their interest and level of commitment to a career in public child welfare. Once accepted into the program, students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process. The student is required to sign a contract to secure full-time employment in a public child welfare agency after graduation.

Priority is given to applicants representing diverse population groups currently served by child welfare agencies in California. Fluency in a high demand language is also given priority. Years of service and other child welfare experience also weigh significantly into the selection process. Students in the program must be U.S. citizens or have a permanent visa.

An Awards Committee, made up of representatives of the CSULB Department of Social Work and representatives of public child welfare agencies from counties surrounding the University, will review and finalize selection of candidates to whom the award will be offered.

Requirements

Students participating in the program must meet all the following criteria:

1. Successful BASW admission;
2. Maintain a C (2.0) average;
3. Attendance at mandatory seminars/trainings on specialized topics;
4. Have a valid driver’s license and secure use of a car as required for fieldwork;
5. Undergo pre-screening for county employment;
6. Complete required health screenings;
7. Fulfill work commitment upon graduation; Students participating in the full time program sign a contract to render one year of continuous and satisfactory full-time employment in a public child welfare agency. Students in the part-time program sign a contract to render one year of full-time employment in their home agency for each year of IV-E education support;
8. Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements.

Graduate Programs

Master of Social Work (code SW-MW01)

The Department of Social Work offers a professional program culminating in a Master’s degree in Social Work. Our goal is to prepare students to enter professional, multicultural social work practice. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions). In addition, students are prepared for advanced, specialized practice in concentrations representing Children, Youth and Families or Older Adults and Families.

The MSW program emphasizes ecological and systems perspectives which focus on the fit and interactions of a person in system in relation to the various environments likely to be encountered. Within these perspectives, knowledge, values, and skills are used in a change-oriented process within a multicultural context to help individuals and social systems achieve improved quality of life and social participation, including advocacy for just institutions and equitable access to opportunities and resources.

In addition to the mission noted above, the MSW program provides an educational experience which does the following:

1. Provides knowledge and experience with ethnic diversity, teaches skill in ethnic-sensitive practice, and provides motivation and skill to combat oppressive policies and discrimination. As such, the program actively offers opportunity for graduate education to students of various ethnic, racial, and socio-economic backgrounds who have life experience in bridging cultural gaps;

2. Contributes to the quality of social services delivered in the adjacent communities (Los Angeles, Ventura, San Bernardino, Riverside, and Orange Counties) by providing an opportunity for advanced education to students who are already employed in the social services. Those students may concurrently maintain employment within the social services and participate in the program to develop advanced skills in their area. Quality of services is also enhanced through close collaboration between the Department of Social Work and community service agencies offering fieldwork experiences and through the labor force of MSW’s educated in a program with multicultural emphasis and specializations which reflect the needs of our adjacent community as well as the needs of urban communities nationally;

3. Prepares social workers for leadership and specialized practice with a specific population group. The program maintains high standards and prepares social workers for the depth and complexity of generalist Social Work practice while being able to practice in a chosen area of concentration. Foundation knowledge, values, and skills required for intervention in a multicultural context are applied and developed through work within the area of specialization. Specialization consists of emphasis on a stage of the life cycle: either children, youth, and families or older adults and families. Specialized education is offered concurrently with basic foundation knowledge from entry into the program. Students are expected to have experience in the social services upon which to draw after entry into the program;

4. Teaches analytic skill necessary for reflective and autonomous practice and necessary for contribution to the advancement of knowledge. Social workers should be capable of integrating knowledge and practice, should be able to apply grounded, scientific principles to practice, should be capable of conceptualizing practice principles on the basis of their experience, and therefore should be able to contribute to the development of new knowledge.

682 • Social Work • 2009/2010 CSULB Catalog
5. Educates students to the values and ethics of the profession. The social worker is expected to be committed to the value that people should have equal access to resources, services, and opportunities. Social workers should be advocates of humane and responsive service, have regard for the worth and dignity of the individual, and conduct themselves in accordance with the professional code of ethics.

Concentrations

The Master of Social Work degree offers opportunity for study in two areas of concentration: Older Adults and Families or Children, Youth and Families. The concentrations reflect two of the major areas of social concern and programs in our society. Child neglect and abuse, single parents, drugs and gangs illustrate the tremendous need for service to children and their families. Interestingly, the other end of the age range also reflects neglect and a need for service. The aged, the fastest growing population segment in our society, often lead healthy productive lives; however, many at risk individuals and their families will require services. For example, older adults in the uppermost age brackets are often frail and, therefore, may have a greater need for social services, income maintenance, housing, health and personal care services.

With both groups, the family is often the mediating source, and the social worker needs to be able to work with the family as well. Both groups are represented by large numbers in Southern California, and programs are developing to serve the need. Professional social workers have a vital part to play in ensuring that these services are adequate and sound.

The Children, Youth and Families Concentration (CYF)

The Children, Youth and Families (CYF) concentration prepares students for practice in a variety of settings. Students are exposed to the full range of practice skills and have one year of direct practice experience and a second year of more intense direct practice or administrative practice experience.

Fieldwork placements are available in a variety of agencies in the surrounding five-county area, including public, private and non-profit agencies. Typical settings include child welfare/protective services, health care, mental health, public social services, schools, community-based outpatient agencies, corrections/juvenile justice, residential treatment, programs for persons with developmental disabilities, substance abuse treatment and other specialized programs.

Required Courses for CYF Concentration

SW 560 Direct Intervention with Individuals and Families: Focus on CYF
SW 660 Direct Intervention with Groups and Families: Focus on CYF
SW 670 Social Work Administration
SW 681 Advanced Policy and Political Action: CYF
SW 596 and SW 680 Fieldwork placement in two different CYF agencies
SW 688/689 Master's Thesis
Two electives (any scheduled electives)

Distance Education

The Children, Youth and Families Concentration is also offered at off-campus locations throughout the state. Current distance education sites include Sonoma State University and CSU Channel Islands. Courses are taught using face-to-face instruction, as well as interactive television and web-based instructional support. The distance education MSW is offered using a 3-year, part-time model. Students attend courses on Saturdays and complete fieldwork requirements during the second and third years of the program.

Distance Education Model

Fall-Term

SW 505 Oppressed Groups
SW 503A Human Behavior and Environment in Multicultural Perspectives. Focus on Prenatal through Adolescence

Spring-Term

SW 503B Human Behavior and Environment in Multicultural Perspectives: Focus on Young Adulthood through Old Age
SW 592 Community Projects I

Summer-Term

SW 594A Research Methods I
SW 693 Community Projects II

Fall-Term

SW 600 Elective
SW 596A Field Instruction I
SW 500 Foundations of Generalist Social Work Practice

Spring-Term

SW 594B Research Methods II
SW 596B Field Instruction II
SW 560 Direct Intervention; Focus on CYF

Summer-Term

SW 600 Elective
SW 680A Thesis or Project I

Fall-Term

SW 660 Direct Intervention with Groups
SW 680A Field Instruction III
SW 699A Thesis or Project II

Spring-Term

SW 681 Advanced Policy
SW 680B Field Instruction IV
SW 670 Social Work Administration

The Older Adults and Families Concentration (OAF)

The Older Adults and Families (OAF) concentration prepares students for practice in the delivery of social services to older adults and their families, in the planning and evaluation of social services and in administration of services and policy development. Students experience one year of placement in a direct practice setting and may select either a direct practice or administrative practice setting for their second year.

Fieldwork placements are available in a variety of agencies in the surrounding five-county area including public and private nonprofit agencies. Typical settings include...
health care, adult protective services, mental health, community-based outpatient agencies, rehabilitation, programs for the developmentally disabled, substance abuse treatment, senior programs and other specialty services.

Required Courses for OAF Concentration
SW 561 Direct Intervention with Individuals and Families: Focus on Older Adults
SW 661 Direct Intervention with Groups: Focus on Older Adults
SW 670 Social Work Administration
SW 682 Advanced Policy Seminar: Older Adults and Families
SW 596 and SW 680 Fieldwork placement in two different Aging and Family agencies
SW 698/699 Master's Thesis or Project
Two electives (any selected electives)

Admission to MSW Advanced Standing Program
Students who have a 3.0 GPA and a BSW degree may be conditionally accepted to the MSW Advanced Standing Program. Upon successful completion of an intensive summer bridge module (see below), the core content from the 1st year of the traditional MSW program (or 30 units) will be waived and students will be Advanced to Candidacy to begin year two of the traditional MSW program curriculum.

Admission Criteria for Advanced Standing
In addition to the Department's basic admissions application procedures as well as University application procedures, the following are requirements for all Advanced Standing applicants:

- Graduation, within the last 5 years, from an undergraduate Social Work program that is accredited by the Council on Social Work Education at the time of the applicant’s graduation.
- Applicants must have a cumulative 3.0 (on a 4.0 scale) grade point average for all undergraduate work.
- Provisional acceptance for persons currently enrolled in BASW/BSW programs is contingent on the successful completion of that program plus submission of a reference letter from an undergraduate's current field instructor, as well as a reference letter from the applicant's program advisor or a professor who taught one of the required courses during the senior year (two of the required references).
- All acceptances to the Advanced Standing Program are conditional until University Enrollment Services admits a student and all Summer Bridge modules have been successfully completed.

Waiver of the First Year Core: Common Body of Knowledge
The Master's in Social Work degree is based upon a common body of knowledge. Students with a Bachelor's degree in social work from this University, or from other CSWE accredited undergraduate social work programs, within the last five years, will have met much of the First Year Core requirements. Students' transcripts are reviewed for completion of the necessary coursework for mastery of the common body of knowledge. A 3.0 GPA in the undergraduate social work courses, with no grades below a "C", and 2.5 overall GPA are required to meet the criteria.

Waivers of the First Year Core (30 units) are based upon previous educational background at the undergraduate level and upon completion of Summer Bridge courses and field placement in this social work department. Summer Bridge courses will include modules from each of the program's sequences: research, practice, human behavior and social policy. Summer Bridge fieldwork placement will include 160 hours (16 hours per week). Students, therefore, have provisional admission to the department until they have successfully completed the summer program. When they successfully complete the Summer Bridge courses and field placement, they receive the Waiver of the First Year Core and enter the second year of the MSW program in the fall semester. Students are immediately Advanced to Candidacy upon receiving a Waiver of the First Year Core. The courses that are waived as the First Year Core are: SW 500, 503A, 505, 594B, 596A, 560 or 561, 592, 594A, 594B, 594C, and 503B.

Students, for whom the First Year Core is waived, are not eligible for the Geriatric Social Work Education Consortium, Inter-University Consortium CalSWEC Child Welfare or the PPSC Credentialed Program.

Admission to MSW Program
Students interested in full and part-time study are admitted to the MSW program for the fall or spring semester each year. Prospective students should apply directly to the Department of Social Work as well as to the University. International students must also apply to the Center for International Education (662) 985-5476. The Center accepts applications for the fall term from October 1st - November 30th. Review of applications by the Department begins the first week of September.

Department Deadlines
The Advanced Standing and Summer Block program application deadline is March 1 for the following fall semester. The full-time and part-time program application deadline is the second Friday in April for the following fall semester. The University application deadline for graduate programs is the third Friday in April for the following fall semester.

Admission Requirements
To be admitted on a full-time or part-time basis to the Master of Social Work program, applicants must meet the following criteria:
1. Hold a Bachelor's degree that is grounded in liberal arts, from a university or college of recognized standing and be eligible for admission to graduate standing at CSULB.
2. Demonstrate satisfactory academic achievement as evidenced by a cumulative undergraduate GPA of 2.50 or above on a 4.0 scale for the last 60 units of course work attempted and/or completed toward degree requirements.
3. Completion of a prerequisite course in elementary statistics.
4. Completion of the Department's application which requires inclusion of:
   - three reference letters (academic and professional)
   - a summary of volunteer experience, work experience, and educational background
   - a personal statement
   - an official copy of all college/university transcripts.
Applications that do not contain the above materials are considered to be incomplete, and will not be assessed for admissions decisions. Moreover, applications must be fully packaged by the applicant when submitted.

5. Pre-admission interviews may be required by the Department faculty.

Field Education

The fieldwork sequence has an integral role in the MSW curriculum. The experience offers an opportunity for students to integrate and apply theoretical knowledge and social work practice and intervention skills in a community agency setting under the supervision of a qualified field instructor. A variety of agencies within the surrounding counties are utilized, reflecting the diverse settings in which social workers are employed. University field faculty select the most appropriate field placement site for students.

Each student has two fieldwork placements and concurrent courses in practice courses during the course of study. Each placement involves 500 hours of fieldwork in a community agency setting and attendance and participation in a fieldwork seminar that meets weekly on campus. The fieldwork sequence encompasses a total of 1000 hours, for which 12 units of academic credit are given. Academic year and summer block models of fieldwork placement are available. The academic year schedule, begins in September and continues through mid May. Students take concurrent coursework and a field seminar while enrolled in fieldwork and are currently in fieldwork two or three days (16 hours) per week. This must include either two 8-hour week days or one 8-hour weekday and two 4-hour blocks. A very limited number of agencies include evening hours, and no weekend placements are available. The summer block model of fieldwork occurs during the late spring and summer months, with students completing 36 hours per week in fieldwork while concurrently taking coursework and a field seminar on the remaining work day.

Students who are employed in social service agencies may request that their agency be evaluated as a site for the second year fieldwork only. The agency must be able to meet all criteria established by the Department of Social Work to insure the educational focus of fieldwork and provide a significant different experience. Evaluation of fieldwork sites and approval to utilize an agency of employment as a fieldwork site will be completed by the fieldwork faculty.

The Department of Social Work will reject an applicant or disqualify an enrolled student whose record of academic achievement or performance in field instruction does not meet the minimum standards of the profession.

Geriatric Social Work Education Consortium

The John A. Hartford Foundation awarded a 3 year grant to support the development of geriatric field practicum sites. The grant funded an alliance of all of the social work graduate schools and four geriatric service providers in the greater Los Angeles area. This consortium was created and sponsored by the Partners in Care Foundation with the goal of enhancing the quality of life for the elderly.

The program continues with new funding and stipends are provided to MSW students in the Older Adults and Families concentration. Information regarding this program is presented to students in the field orientation and applications are made available.

Inter-University Consortium

The IUC (Inter-University Consortium) is one of the specialized training programs in public child welfare available in the MSW program. The Inter-University Consortium/Department of Children and Family Services (IUC/DCFS) Training Project is a collaborative endeavor between the Los Angeles County DCFS and the graduate programs of social work at CSULB, UCLA, USC, CSULA, CSUN and CSUDH.

The overall goal of this collaborative project is to increase the professional skills and knowledge of Los Angeles County public child welfare workers.

The IUC project at CSULB is designed to prepare social work student interns in the most innovative and current programs at Lakewood DCFS Office. It is our intention at CSULB, to prepare future leaders in public child welfare. Our approach is founded on the Social Ecology Model, the California Redesign and the objectives of AB106. Students will experience (parallel process with their assigned cases) moving from entry to exit through child welfare services. CSULB's innovative project emphasizes the front end of child welfare services, working effectively with children and families in their communities to achieve safety, well-being and families to last a lifetime. CSULB's IUC/DCFS Project also offers student interns a unique and valuable opportunity to learn and practice the Kinship Caregiver's Model and to co-lead a children's group in a community public school as part of our emphasis in working with children and families in their community.

Title IV-E stipends are available for (1) year for students enrolled in the full-time 2 year or part-time, other than summer block, or advanced standing model of the MSW Program. Students may apply for either the first or second year of field placement.

Students who work at DCFS or are currently (or have been) CalSWEC students are not eligible. Interested candidates must complete an application process.

Students accepted into the program must:
- Bo enrolled in the MSW Program
- Bo enrolled in the Children, Youth and Families concentration
- Sign a contract committing themselves to one year full-time paid employment following graduation with Los Angeles County Department of Children and Family Services.
- Have a valid driver's license, current automobile insurance, and secure the use of a car as required by fieldwork
- Complete pre-screening for county employment including live scan and DCFS physical and psychological examinations
- Complete one year of fieldwork in the IUC/DCFS placement
- Complete the designated specialty child welfare curriculum which includes:
  - SW 643 – Social Work Practice within Child Welfare Services
  - SW 698/698A – MSW Thesis or Project (IUC Students' theses must focus on a child welfare problem or issue)
  - Complete designated specialized training seminars
  - Complete and graduate from the MSW Program at CSULB within the required timelines established for each program model

Students are responsible for payback of the stipend if they are unable to successfully complete any of the requirements of the program.
CalSWEC MSW Program

The California Social Work Education Center (CalSWEC) is a partnership between the schools of social work, public human service agencies, and other related professional organizations that facilitates the integration of education and practice to assure effective, culturally competent services designed to serve the people of California.

CalSWEC Child Welfare

The CalSWEC Child Welfare program is for graduate students who are interested in pursuing a social work career in the child welfare field. This program is only available to students admitted into the Children, Youth and Family Concentration of the MSW program. Interested candidates must complete an application process.

Full-Time CalSWEC Program

The IV-E stipends provide for two (2) years of support for students enrolled in the full-time model of the MSW program. The student signs a contract to secure full-time employment in a public child welfare agency for two (2) years post graduation but is expected to remain in public child welfare employment for longer than this minimum period.

Once accepted into the program students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process.

Part-Time CalSWEC Program

Students eligible to apply for the part-time CalSWEC program must be employees of the State or County Social Services department that provides the child welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial support for admitted students will include: full tuition and fees, book costs and a travel allowance.

Students participating in the program sign a contract to render one year of full-time employment in their home public child welfare agency for each year of IV-E education support.

Requirements

Students participating in the program must meet all of the following criteria:

- Complete and graduate from the MSW program in the Children, Youth and Families Concentration
- Maintain a "B" (3.0) average
- Have a valid driver's license, current automobile insurance, and secure the use of a car as required by fieldwork
- Complete a thesis or project with a focus on Child Welfare population, issue area or service delivery system
- Take all of the required classes, including child welfare field internship placement, child welfare elective and participation in selected workshops or annual seminars on issues related to child welfare
- Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements

CalSWEC Mental Health Program

The CalSWEC Mental Health stipend program is for graduate students who are interested in pursuing a social work career in the mental health field and are willing to make a commitment to work full-time in a California county mental health agency or a county contracted agency after they have received their MSW degree. Interested candidates must complete an application process.

Requirements

Students participating in the program must meet all of the following criteria:

- Sign a contract to work full-time in a California county mental health agency or a county contracted agency for a minimum of one year immediately after graduation
- Complete and graduate from the MSW program at CSULB within the required timelines established for each program model
- Take all of the required classes, including mental health field internship placements, the approved mental health elective, and participation in selected workshops or annual seminars on issues related to mental health and research
- Complete a thesis or project focused on a mental health topic that is concentration specific (either OAF or CYF)
- Maintain a "B" (3.0) average
- Receive a security clearance/level scan to work in a California county mental health agency or a county contracted agency
- Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements

Pupil Personnel Services Credential with Specialization in School Social Work and Child Welfare and Attendance (code 803)

The California Commission on Teacher Credentialing issues the Pupil Personnel Services (PPSC) Credential. The Department of Social Work, College of Health and Human Services, offers the combined School Social Work and Child Welfare and Attendance Specialization of the PPSC Credential within the context of the Master of Social Work (MSW) degree.

The PPSC Credential in School Social Work and Child Welfare and Attendance authorizes the holder to be employed in the State of California as a School Social Worker and/or a Child Welfare and Attendance Specialist. The credential covers pre-kindergarten through 12th grade in public and other schools requiring the credential. Individuals with the credential in School Social Work and Child Welfare and Attendance are pupil advocates and provide prevention and intervention strategies that remove barriers to learning. These professionals, in partnership with other educators, parents and the community, maintain high expectations for all pupils, facilitate pupils reaching their highest potential, foster optimum teaching and learning conditions, and prevent school failure. School Social Work is defined as the application of social work principles and objectives to help fulfill the major purpose of the educational system: to provide a setting for teaching and learning in which all children can prepare themselves for the world they now live in, and the world they will face in the future.

Child Welfare and Attendance Specialists provide assessment and intervention around issues of attendance for pupils.
Requirements

1. Successful completion of all of the requirements for the 60 unit Master of Social Work (MSW) degree within the Children, Youth and Families Concentration. Required coursework will be completed in the following sequence areas: Fieldwork, Human Behavior and the Social Environment, Social Work Policy, Social Work Practice, and Social Work Research;

2. Completion of SW 665, School Social Work as one of the required electives within the 60 unit MSW program, taken either prior to or concurrently with school social work fieldwork placement;

3. Successful completion of required School Social Work PPSSC Seminar series presenting specialized topics;

4. Demonstrated knowledge in the following areas of pupil personnel services, as defined in the Commission on Teacher Credentialing Standards: Knowledge of techniques for facilitating individual growth and development to achieve academic success; Knowledge of the wide variety of socio-cultural influences that affect pupils in a school setting; Knowledge of human assessment; Knowledge of problem prevention and early intervention; Knowledge of consultation services; Knowledge of learning theory and psychological education; Knowledge of coordination and development of services; Knowledge of legal entitlements and constraints; Knowledge of referral and utilization of services; Knowledge of human assessment as direct services to pupils, Knowledge of social interventions; Knowledge of consultation coordination and development of services; Knowledge of referrals, utilization, involvement and use of community resources; Knowledge of social research and services based on research; Knowledge of the code of professional ethics; Knowledge of attendance laws and the rights of minors; Knowledge of skills using attendance laws and assessment skills.

5. Successful completion of 600 clock hours of field practice in the second year of field, demonstrating all of the required skills and knowledge areas, in an approved PPSSC site, under the supervision of an experienced MSW level practitioner who holds a PSWS Credential in school social work. Supervised hours of field practice will include at least 100 hours in each of two settings (elementary, middle and/or high school), and experience in service delivery with populations representing ethnic diversity and will cover both school social work and child welfare and attendance competencies and standards.

6. Completion of required application and forms from California Commission on Teacher Credentialing, including fingerprints, and a Certificate of Clearance;

7. Completion of required health screenings;

8. Successful performance on C-BEST Examination;

9. Certification of program completion and demonstrated competence by the PPSSC Program Coordinator, Department of Social Work.

10. Completion of all required forms and procedures of the Credential Processing Center, CSULB.

Advancement to Candidacy

A conditionally classified or fully classified student must maintain a minimum GPA of 3.0 on all courses taken subsequent to admission. In addition, a GPA of 3.0 must be maintained in all courses required for the degree. A student will be eligible for advancement to candidacy for the degree after successfully completing 6 units of graduate level courses in Social Work.

All students must demonstrate competency in writing skills. Students must attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) in the first semester of residence in the MSW program or score at least a “4” on the GRE Writing Assessment. Either the GWAR or the GRE Writing Assessment must be passed to advance to candidacy.

Course Load

The California State University, Long Beach requirement for full-time status as a graduate student is 9 weighted units. Part-time students pursuing the M.S.W. degree must take at least 4 semesters of at least 3 courses or 9 units. Students who wish to complete the M.S.W. degree in 2 years must take an overload of 6 units for 4 semesters or 15 units a semester.

Requirements

The Master of Social Work program requires the completion of 60 semester units. Fifty-four units of required courses and 6 units of scheduled departmental electives must be taken to complete a concentration. In the CYF concentration, 57 units of required courses and 3 units of scheduled departmental electives must be taken by IUC, Cal SMEC and PPSSC credential students. The program is taken in one of the four following sequences:

Plan A: (two years)

Term 1 – SW 500, 503A, 505, 594A, 596A (Fall)
Term 2 – SW 500 or 601, 592, 594B, 596B, 503B (Spring)
Term 3 – SW 660 or 661, 680A, 693, 698A, 500/600 level elective (Fall)
Term 4 – SW 670, 680B, 681 or 682, 699A, 500/600 level elective; (Spring)

Plan B: Advanced Standing

Summer Bridge Module includes:
Fieldwork – 16 hours per week for 10 weeks plus 2 hours of seminar per week.
Fieldwork Internship – 100 hours total.
Human Behavior – 30 hours
Social Policy – 14 hours
Research – 36 hours
Practice – 52.5 hours
Technology – 14 hours

Second Year Coursework

Fall
SW 660/661 – Practice Individuals/Families
SW 680A – Field Seminar III
SW 693 – Community Projects II
SW 698A – Thesis or Project I
SW 500/600 – Social Work Elective

2009/2010 CSULB Catalog • Social Work • 687
Spring
SW 670 – Administrative Practice
SW 680B – Field Seminar IV
SW 652 – Advanced Policy
SW 699A – Thesis or Project II
SW 500600 – Social Work Elective

Plan C: (three years)
Term 1 – SW 503A, 505; (Fall)
Term 2 – SW 503A, 505, 501/600 level elective; (Spring)
Term 3 – SW 693, 594A, (Summer)
Term 4 – SW 596A, 501; (Fall)
Term 5 – SW 598B, 560 or 561, 594B (Spring)
Term 6 – SW 598A, 500/600 level elective; (Summer)
Term 7 – SW 598A, 560 or 561, 599A; (Fall)
Term 8 – SW 680B, 670, 681 or 682; (Spring)

Courses (S/W)

LOWER DIVISION

220. Introduction to Social Welfare (3)
Prerequisites: Completion of GE foundation requirements.
Offers an understanding of social welfare, and the knowledge, values, and skills essential to social work practice. It examines historical and philosophical perspectives including cultural, economic, political, and social forces.

221. Introduction to Social Welfare Practicum (3)
Prerequisite: Consent of instructor; Corequisite: SW 220.
Lecture classes and visiting and observing approved social service agencies and allied activities.
Open to social work majors only. Credit/No Credit grading only.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students must formal prerequisites and/or competency equivalent for advanced study.

330. Human Behavior and Social Environment: Birth through Adolescence (3)
Prerequisites: Completion of GE Foundation requirements.
Multi-dimensional development from conception through adolescence is explored by examining expectations, resources and barriers presented by mainstream society. Influences of culture, ethnicity, family systems, socioeconomic status, sexism and racism are assessed for their impact on healthy child development.
Letter grade only (A-F).

331. Human Behavior and Social Environment: Young Adulthood through Old Age (3)
Prerequisites: Completion of GE Foundation requirements.
Multi-dimensional development in adulthood is explored by examining expectations, resources and barriers presented by mainstream society. Influences of culture, ethnicity, family systems, socioeconomic status, sexism and racism are assessed for their impact on healthy adult development.
Letter grade only (A-F).

340. Generalist Social Work Practice (3)
Prerequisites: SW 220, 221, 330, 350. Corequisite: SW 341.
Social work practice as a helping process with all time systems. Social work knowledge, ethics, values, principles, professional relationships, interviewing and beginning assessment and intervention phases are examined. The activities of the social worker in resolution of psychosocial problems.
Open to social work majors only. Letter grade only (A-F).

341. Social Work Practicum (3)
Corequisite: SW 331, 340, and 351. Supervised practicum in an applied social service agency or allied setting for a minimum of 90 hours (3 hours per week for 10 weeks).
Social work field practice includes interviewing, assessment, and intervention activities.
Credit/No Credit grading only. Open to social work majors only. Not open for credit to students with credit in SW 340A.

350. Social Policy: Law and Court Decisions (3)
Prerequisites: Completion of GE Foundation requirements.
Social policy as defined in legislation and judicial decisions affecting the rights of individual families, minorities, and the general welfare.
Letter grade only (A-F).

351. Social Policy: Formulation and Analysis (3)
Prerequisites: Completion of GE Foundation requirements.
Policy formulation and analysis related to social welfare institutions and major social welfare policies and programs. Current issues and issues in social welfare policy.
Letter grade only (A-F).

405A. Applications of Social Work with Older Adults (3)
Prerequisite: Consent of instructor and upper division status.
Provides an intergenerational service learning experience. Students learn about the bio-psycho-social dimensions of the aging process and group work. This knowledge is applied by students when they co-facilitate weekly discussion support groups with older adults in independent living communities.
Letter grade only (A-F).

405B. Applications of Social Work with Older Adults (3)
Prerequisite: Consent of instructor and upper division status.
Advanced group work with older adults in independent living communities. Students will co-facilitate weekly discussion support groups applying bio-psycho social theories. Course can be a continuation of SW 405A, or may be taken separately.
Letter grade only (A-F).

440. Generalist Social Work Practice with Groups (3)
Prerequisites: SW 331, 340, 341. Corequisite: SW 495A.
Adaptation of generalist frameworks of social work practice to generalist group approaches. Analysis of dynamics, theories, and principles underlying group practice. Programs, practice techniques, and roles involved with groups.
Open to social work majors only. Letter grade only (A-F).

441. Generalist Social Work Practice with Communities and Institutions (3)
Prerequisites: SW 331, 340, 341, 351. Corequisite: SW 495B.
Adaptation of generalist frameworks of social work practice to generalist approaches to community and institutional applications. Analysis of theories and principles underlying community practice. Adaptation of theories and activities to organizational contexts. Techniques and activities applicable to communities and neighborhoods.
Open to social work majors only. Letter grade only (A-F).

442. Generalist Social Work Practice with Individuals and Families (3)
Prerequisites: SW 331, 340, 341. Corequisite: SW 495A.
Adaptation of generalist frameworks of social work practice to generalist practice with individuals and families. Theories, techniques, activities, and role of social workers; differential approaches to study, assessment, intervention, and helping processes.
Open to social work majors only. Letter grade only (A-F).
Prerequisites: SW 440 and 442 and one course in elementary
statistics. Corequisite: SW 441, 465 and 495B.
Introduction to research methods in social work with an emphasis
on the evaluation of social work interventions and agency
programs.
Open to social work majors only. Letter grade only (A-F).

490. Special Topics in Social Work (1-4)
Topics of special interest in social work for intensive study.
Topics will be announced in the Schedule of Classes. May be
repeated to a maximum of 4 units with different topics. Open to
social work majors only. Letter grade only (A-F).

495A. Field Experience in Social Work (7)
Prerequisites: SW 330, 331, 340, 341, 350, 351. Corequisite: SW
449 and SW 449G.
Open to senior social work majors only. First of two semesters with
supervised practice in social work agency.
Two hours weekly field seminar on campus and 16 hours in
internship. Credit/No Credit grading only.

495B. Field Experience in Social Work (7)
Prerequisites: SW 442 and 495A. Corequisite: Enrollment in two of
the following: SW 440, 441, and 445.
Open to senior social work majors only. Second of two semesters with
supervised practice in social work agency.
Two hours weekly field seminar on campus and 16 hours in
internship. Credit/No Credit grading only.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study of special topics under supervision of a faculty
member.
Open to social work majors only. Letter grade only (A-F).

GRADUATE LEVEL

560. Foundations for Generalist and Multicultural Social
Work Practice (3)
Prerequisites: SW 595A or 595C.
Provides knowledge and skills for generalist, multicultural
practice with all size systems, from ecological perspective.
Implementation of principles, ethics, values, professional
relationships, interviewing/communication skills and tasks of the
initial, assessment and intervention phases, including examining
multicultural differences and adaptations.
Letter grade only (A-F).

503A. Human Behavior and Environment in
Multicultural Perspectives: Focus on Prenatal through
Adolescence (3)
Reviews key theoretical frameworks (including psychodynamic,
bio-psycho-social, cognitive, systems, learning and role theories)
for their clinical application to assessment, diagnosis and treatment
of children and families. Focus is on the impact of poverty and socio-
cultural factors in child development.
Letter grade only (A-F).

503B. Human Behavior and Environment in
Multicultural Perspectives: Focus on Young Adulthood
Through Old Age (3)
Prerequisite: SW 503A.
Reviews key theoretical frameworks (including psychodynamic,
bio-psycho-social, cognitive, systems, learning and role theories)
for clinical application to assessment, diagnosis and treatment of
adults and families. Focus is on the impact of poverty and socio-
cultural factors in adult development.
Letter grade only (A-F).

505. Oppressed Groups: Social Policy Analysis (3)
Analyzes the historical, economic and political factors underlying the
United States social welfare system. The impact of current policies on
oppressed groups will be examined.
Letter grade only (A-F).

560. Direct Intervention with Individuals and Families:
Focus on Children, Youth and Families (3)
Prerequisites: SW 500, and 596A or 596C. Corequisite: SW 598B or
598D.
Focuses on practice related to interpersonal interaction with
children, youth, family and adults. Emphasizes implementation of
psychosocial study, assessment and intervention from multicultural
perspectives. Cognitive-behavioral, family systems, psychosocial and
crisis intervention/brief therapy approaches are examined using an
ecological framework.
Letter grade only (A-F).

561. Direct Intervention with Individuals and Families:
Focus on Older Adults (3)
Prerequisites: SW 500, and 596A. Corequisite: SW 598U
Examination of varied practice strategies in depth. Behaviorist,
cognitive, humanistic, psychosocial and psychodynamic models
viewed in relation to the ecological systems and multicultural
perspectives. Focuses on assessment through termination phases of
the helping process.
Letter grade only (A-F).

569. Disability, Culture and Society: Issues and
Intervention (3)
Prerequisites: Senior or graduate status.
Explores disability as a social construct. Examines policies and
practices to understand the experience of disability. Includes historical
and contemporary perspectives as well as future issues. Emphasis
on social and clinical intervention methods as well as programs and
resources.
Letter grade only (A-F). Same course as GERN 569 and REC 569.
Not open for credit to students with credit in GERN 569 and REC 569.

590. Special Topics (3)
Prerequisite: Consent of instructor.
Content may vary from semester to semester.
Letter grade only (A-F). Topics will be announced in the Schedule of
Classes. May be repeated to a maximum of 6 units for majors and 9
units for non-majors with different topics.

591. Diagnosis and Treatment in Clinical Practice with
Older Adults (3)
Prerequisites: Graduate status.
Introduces the theory and application of clinical interventions with
older adults. Within the eco-systems framework and multicultural
perspective, emphasis is placed on understanding late-life problems
and mental disorders, on developing skills in assessment and
diagnosis, and treatment.
Letter grade only (A-F).

592. Community Projects I (3)
Acquisition and application of macro practice skills to community
problems. Includes history and methods, relationship between
professional values and ethical dimensions of community practice,
socio-political determinants of community problems, macro practice
theory and models. Implications for culturally diverse, impoverished
communities.
Letter grade only (A-F).

594A. Research Methods in Social Work I (3)
An introduction to research methods, including conceptualization
of research problems, designs, sampling, measurement, and data
collection. The emphasis is on building skills for conducting
multiculturally focused research and evaluating findings critically.
Not open for credit to students with credit in SW 594. Letter grade
only (A-F).

2009/2010 CSULB Catalog • Social Work • 689
594B. Research Methods in Social Work II (3)
Prerequisite: SW 594A.
Continuation of research methods, including qualitative and quantitative data analysis, program evaluation, grant writing, and preparation of reports for dissemination. There are continued emphases on the ability to conduct multiculturally focused research and evaluate findings critically.
Not open to credit to students with credit in SW 550. Letter grade only (A-F).

596A. Field Instruction I (3)
Corequisite: SW 500.
First of two semesters with supervised practice in social work agency. Develops basic skills with individuals, families, and communities. Emphasizes multi-cultural practice. Two hours per week field seminar on campus and 16 hours in agency placement.
Credit/No Credit grading only.

596B. Field Instruction II (3)
Prerequisites: SW 500, and 596A or 596C. Corequisite: SW 560 or 561.
Second of two semesters with supervised practice in social work agency. Develops basic skills with individuals, families, and communities. Emphasizes multi-cultural practice. Two hours weekly field seminar on campus and 16 hours in agency placement.
Credit/No Credit grading only.

596C. Field Instruction I (3)
Corequisite: SW 500.
First of two semesters with supervised practice in social work agency. Develops basic skills with individuals, families, groups, and communities. Emphasizes multi-cultural practice. Two hours weekly field seminar on campus and 36 hours in internship.
Credit/No Credit grading only.

596D. Field Instruction II (3)
Prerequisites: SW 500, and 596A or 596C. Corequisite: SW 560 or 561.
Second of two semesters with supervised practice in social work agency. Develops basic skills with individuals, families, groups, and communities. Emphasizes multi-cultural practice. Two hours weekly field seminar on campus and 36 hours in internship.
Credit/No Credit grading only.

599. Independent Study (1-3)
Prerequisites: Consent of Department and instructor.
Independent study of special topics under supervision of a faculty member.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

642. Mental Health and the Older Adult: A Multi-Cultural Perspective (3)
Focuses on a broad-based selection of demographic, psychological, and social issues concerned with the older person and their families. Topics will be described and analyzed from preventive, clinical, and cross-cultural perspectives.
Letter grade only (A-F).

643. Social Work Practice within Child Welfare Services (3)
Prerequisite: SW 503A.
Child protective policies and practices, including adoption, family preservation, family foster care, kinship care, groups/residential care, independent living risk assessment. Accomplishments and controversies in service delivery, integrating multi-cultural practice and federally mandated outcomes related to child safety, well-being and permanency.
Letter grade only (A-F).

660. Direct Intervention with Groups: Focus on Children Youth and Families (3)
Prerequisites: SW 560, Corequisites: SW 680A or 680C.
Teaching of advanced specialized skills needed to work with groups, emphasizing work with children, youth, and families. Focuses on clinical work with groups with special emphasis on eco-systems and multi-cultural perspectives.
Letter grade only (A-F).

661. Direct Intervention with Groups: Focus on Older Adults (3)
Prerequisites: SW 561. Corequisite: SW 680A.
Teaching of advanced specialized skills needed to work with groups, emphasizing work with older adults and families. Focuses on clinical work with groups with special emphasis on eco-systems and multi-cultural perspectives.
Letter grade only (A-F).

662. Legal Issues in Social Work Practice (3)
Legal aspects concerning children, the family, and aged, abortion and illegitimacy issues, rights to treatment, mental health commitment procedures, rights of the elderly, children’s rights, marriage, and divorce are covered. Legal research and resources, legal reasoning, and understanding of court systems.
Letter grade only (A-F).

663. Assessment and Treatment of Alcoholism and Substance Abuse (3)
Awareness of prevalence of alcoholism and drug abuse and significance for clinical social work practice. Dynamics and treatment issues will be explored.
Letter grade only (A-F).

665. School Social Work (3)
Social work practice in school-community-pupil relations. Attention to the school as a social institution. Services in schools as a specialized field of social work practice: models of practice, social work roles, and target groups of children.
Letter grade only (A-F).

670. Social Work Administration (3)
Prerequisites: SW 500, 560 or 561; 596A or C, 596B or D, 650 or 661. Corequisite: 680B or 680D.
Examines foundation for organizational leadership and problem solving, using theories of organizational behavior and management. Frameworks for governance, planning, monitoring, information management, human resources, fiscal responsibility, quality assurance, and community relations. Integration of multi-cultural and gender issues.
Letter grade only (A-F).

674. Clinical Diagnosis and Therapeutic Communication (3)
Reviews the major theoretical approaches to social work treatment to teach specific clinical interventions. Students are trained to skillfully and therapeutically intervene with a variety of diagnostic categories. Outcome research will be reviewed and evaluated.
Letter grade only (A-F).

677. Social Work Practice in Mental Health (3)
Reviews the changing roles of social work in mental health, the influence of new psychosocial theories on the treatment of clients. Focus on social, economic and cultural factors as they affect social work in mental health.
Letter grade only (A-F).

680A. Field Instruction III (3)
Prerequisites: SW 500, 560 or 561, 596A/VC, 596B/VD. Corequisite: SW 660 or 561.
First of two semesters with supervised practice in social work agency. Focus on advanced direct practice skills and
administrative program development with emphasis on multi-cultural practice.

Two hours bi-weekly in field seminar and 16 hours in agency placement. Credit/No Credit grading only.

680B. Field Instruction IV (3)
Prerequisites: SW 500, 560 or 561, 596A/5, 596B/D, 680A/5, 560 or 661. Corequisite: SW 670.
Second of two semesters with supervised practice in social work agency. Focus on advanced direct practice skills and administrative program development emphasizing multi-cultural practice. Two hours bi-weekly field seminar and 16 hours agency placement. Preparation for entering professional employment. Credit/No Credit grading only.

680C. Field Instruction III (3)
Prerequisites: SW 500, 560 or 561, 596A/5, 596B/D. Corequisite: SW 660 or 661.
First of two semesters with supervised practice in social work agency. Focus on advanced direct practice skills and administrative program development with emphasis on multi-cultural practice. Two hours bi-weekly in field seminar and 36 hours in agency placement. Credit/No Credit grading only.

680D. Field Instruction IV (3)
Prerequisites: SW 500, 560 or 561, 596A/5, 596B/D, 680C, 680 or 661.
Second of two semesters with supervised practice in social work agency. Focus on advanced direct practice skills and administrative program development emphasizing multi-cultural practice. Two hours bi-weekly field seminar and 36 hours agency placement. Preparation for entering professional employment. Credit/No Credit grading only.

681. Advanced Policy and Political Action: Children, Youth and Families (3)
Prerequisites: SW 505.
Designed to provide students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of families and children in contemporary American society. Letter grade only (A-F).

682. Advanced Policy Seminar: Older Adults and Families (3)
Prerequisite: SW 505.
Provides students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of older adults and their families in contemporary American society. Letter grade only (A-F).

683. Brief Treatment (3)
Covers the methodologies used in brief and/or time-limited psychotherapy. Reviews the major forms of time-limited clinical treatment. Reviews the scientific and empirical research related to the use of brief treatment and the empirical research on this treatment approach. Letter grade only (A-F).

690. Special Topics in Graduate Social Work (3)
Prerequisites: Consent of Department.
Topics of special interest in social work selected for intensive study. Topics will be announced in the Schedule of Classes each semester. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

691. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients, and Around the Planet (3)
Designed to help the social work student examine conflict and violence, their own and others' responses to conflict situations, on the intrapersonal, interpersonal and community levels, and to learn to deal with conflict in a productive, non-violent manner. Letter grade only (A-F).

693. Community Projects II (3)
Prerequisites: SW 592.
Integrates knowledge of cross-cultural practice, human behavior and research in identifying solutions to social problems. Builds on analysis from Community Projects I. Utilizing planning, program development and program implementation skills/techniques, students develop, implement and evaluate impact of a specific intervention. Letter grade only (A-F).

698A. Thesis or Project I (3)
Prerequisites: SW 594A, 594B. Completion of 30 MSW units with a minimum cumulative GPA of 3.0, and advancement to candidacy. Under the direction of the Thesis/Project Advisor, the student completes a thesis/proposal proposal, instruments and IRB protocol (if applicable), and drafts literature review. Letter grade only (A-F).

698B. Thesis or Project I (3)
Prerequisites: SW 594A, 594B. Completion of 30 MSW units with a minimum cumulative GPA of 3.0, and advancement to candidacy. Under the direction of the Thesis/Project Advisor, the student completes a thesis/proposal proposal, instruments and IRB protocol (if applicable), and drafts literature review. Letter grade only (A-F).

699A. Thesis or Project II (3)
Prerequisites: Completion of SW 698A or 698B.
Finalization of literature review and completion of remaining chapters (typically, introduction, methodology, results, discussion and implications) of thesis/project. Letter grade only (A-F).

699B. Thesis or Project II (3)
Prerequisites: Completion of SW 698B.
Finalization of literature review and completion of remaining chapters (typically, introduction, methodology, results, discussion and implications) of thesis/project. Letter grade only (A-F).

2009/2010 CSULB Catalog • Social Work • 691
Career Possibilities

Sociologist • Social Worker • Health Care Administrator • Community Organizer • School Counselor • Urban Planner • Personnel Manager • Statistician • Public Health Worker • College Student Service Worker • Lawyer • lobbyist • City Planning Aide • Adoption Counselor • Market Researcher • Employment Interviewer • Management Trainee (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

The major in sociology is intended to serve as preparation for careers in teaching, delivery and administration of social and health services, urban and environmental studies, law, government service at local, state and federal levels and related occupations. The major also provides training for advanced graduate work in sociology, social work and other social sciences. Sociology is also recommended as a second major or minor for students of all other social sciences; for business; for the humanities; especially literature and theatre arts; for ethnic and area studies; for journalism and other various applied arts and sciences.

Sociology courses are suitable for fulfilling general education or elective requirements for students of other majors. However, lower division courses selected to fulfill the requirements of the major may not also be used to fulfill the requirements of any General Education category.

Undergraduate Programs

Bachelor of Arts in Sociology (code SOC_BA01) (120 units)

Requirements

Lower Division: Twelve units of lower division are required. Students must have credit for SOC 100, 142, 250, and 260. It is recommended that students take Cultural Anthropology (ANTH 120) as an elective.

Upper Division: All majors are required to have a minimum of 31 upper division units in sociology. This must include (1) at least 16 units in core courses: SOC 335 or 354, 356, 420 or 427, 355, 357; and (2) nine units in one concentration and (3) six units of electives from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed twelve units. Completion of at least 51 semester units of college work is required before students will be accepted into upper division courses.

The department strongly recommends that lower division courses be completed before upper division courses. Taking the courses in sequential order will allow students to gain maximum benefit from the curriculum. Experience has shown that students who take courses out of sequence do not perform as well academically. SOC 260, Introduction to Data Analysis, and SOC 260, Elementary Statistics, should be taken before SOC 355, Methods of Social Research. Required upper division courses also should be taken in sequential order consecutively: SOC 356, Developmental Sociological Theory, should be taken before SOC 357, Modern Sociological Theory.

Concentrations

Deviance and Social Control
SOC 345, 354*, 423, 440, 440, 448, 463, 495

Interaction and Group Relations
SOC 320, 325 (or WOSS 325), 335*, 340 (or CHLS 350), 341, (or CHLS 352), 345, 346, 394*, 423, 426, 464, 492, 495; WOSS 401

Medical Sociology
SOC 350, 354*, 423, 462, 463, 464, 493, 495, 496; HIS 400

Research
Concentration currently not available

Social Change and Global Issues
SOC 346, 350, 354*, 410*, 420*, 427*, 430, 449, 494, 495; ANTH 307; IST 317 or IST 318; WOSS 401

*If not taken as one of the core courses

Honors in Sociology

Students may be admitted to Sociology Department Honors program (an option of the University Honors Program) when they have:

1. A minimum of three semesters remaining before graduation;
2. A minimum cumulative GPA of 3.2 overall and a minimum GPA of 3.5 in Sociology courses;
3. Completed the four lower division sociology courses required for the major (SOC 100, 142, 250, 260) or have junior standing and a minimum of four sociology courses;
4. Submitted an application with one letter of recommendation from a faculty member.

In order to graduate with Honors in Sociology a student must:
1. Complete all regular requirements for the major in Sociology;
2. Complete 3 units of an Honors Special Topics Seminar (SOC 487H) (or a course equivalent approved by the Department Honors advisor) and 6 units related to the Honors Thesis (SOC 488H Honors Research Seminar (3 units) and SOC 488H Honors Thesis (3 units) or an equivalent 6 units accepted by the Department Honors advisor). These 9 units required for Sociology Department Honors may be in addition to the general requirements for the major in sociology or may be counted as part of the concentration or elective units required for the regular Sociology B.A. degree. SOC 488 and SOC 488H are equivalent to UHP 496 and UHP 498;
3. Do one of the following: Present their own original research paper for a student research competition, present such a paper at a professional meeting, or write a research paper that the Department Honors Advisor agrees is of professional quality;
4. Serve as a Student Teaching Fellow (peer facilitator) for at least one undergraduate sociology course OR serve as a research intern under the supervision of a faculty member.

Sociology Department Honors Students are strongly encouraged to:
1. Join Alpha Kappa Delta, the International Sociology Honor Society;
2. Engage in service to the department or the discipline of sociology.

Minor in Sociology (code SOC_UM01)
A minimum of 24 units which must include:
Lower Division: SOC 100, 142
Upper Division: SOC 335 and a minimum of 15 units selected from other upper division courses in sociology.
Total credit for courses numbered 490 through 499 may not exceed 6 units.

Graduate Program

Master of Arts in Applied Sociology (code SOC_MA01)
The Master of Arts degree in Applied Sociology is designed to prepare graduates for careers in a variety of public and private organizations that require intellectual rigor and research-based decision-making and application. Specific expertise will include needs assessment and program evaluation, survey, statistical, secondary and qualitative data analysis applicable in local, national and international settings. The curriculum is designed to provide students with strong theoretical and methodological foundation with specialization in one of the two thematic concentrations: Sociology of Health and Medicine, or Community Development and Social Change. Courses focus on community development, health and illness, and the role of organizational structures and public policy in addressing contemporary social issues. Field work placements provide direct and practical experience with local public and private agencies addressing community health and social justice issues. The program also serves as an ideal foundation for further study for students wishing to pursue doctoral study in sociology or related disciplines.

The graduate coordinator serves as the general advisor for all entering graduate students. Upon admission, students will be assigned to a faculty mentor for advising and monitoring. Students can elect to keep this faculty member or, in consultation with the graduate coordinator, choose another faculty advisor. The faculty advisor is responsible for assisting students in writing a Plan of Study, which outlines how individual students will fulfill the requirements of the program. Faculty advisors will also assist the student in selecting her/his thesis committee (two additional faculty members).

Graduate thesis committees must be formed after completing a minimum of 12 units and before a maximum of 21 units.

Students are urged to become acquainted with the general requirements of the University and the specific requirements of the department listed in this Catalog. Important supplementary information about the steps leading to the master’s degree in sociology is contained in the Handbook for Graduate Students, which is available on the University website at http://www.csulb.edu/divisions/asa/projects/grad/handbook/

Admission Procedures
Consideration for admission requires submission of a program application and university application. Submit all program application materials to the Department of Sociology in one complete package.

Prerequisites
1. A Bachelor’s degree with a major in Sociology, or related degree, and have earned a 3.0 GPA in the last 60 units attempted.
2. Completion of a minimum of one upper-division sociological theory and research methods course equivalent to SOC 356, 357, 355.
3. Students whose undergraduate work is deficient in sociology will be required to complete appropriate prerequisite courses. Course deficiencies will be determined by the Department’s Graduate Committee after taking into account each student’s background and goals. Prerequisite courses will not count toward credit in the M.A.
4. Official scores from the Graduate Record Examination.
5. Official transcripts.
6. Three letters of recommendation, including at least two from individuals well acquainted with the applicant’s academic ability.
7. A 3-4 page personal statement describing the student’s qualifications and reasons for wanting to pursue an Applied Sociology M.A. at CSULB.
8. Experience in community organizations is helpful, but not required.

Program Requirements
All students must complete a minimum of thirty (30) units of upper division and graduate level courses, of which twenty-four (24) must be at the 500/600 graduate level. A student’s program is outlined in the Plan of Study that must be developed in consultation with a sociology faculty advisor within the first 12 units at CSULB.

2009/2010 CSULB Catalog • Sociology • 693
Course Requirements
1. Core Courses (3 courses, 9 units): SOC 696, 656 and 670
2. Concentration Area Courses (3 courses, 9 units) in one concentration area: Sociology of Health and Medicine; Community Development and Social Change. Applicable courses include SOC 540, 558, 562; HSC 528, 628; PPA 610, 660.
3. Applied Skill Cluster (2 courses, 8 units) Applicable courses include ANTH 560, HSC 500, HSC 503, PPA 670.
4. Internship (one course, 3 units): SOC 696.
5. Capstone Course (one course, 3 units): SOC 697 or 698.

Advance to Candidacy
1. Students must satisfy the general requirements of the University for advancement to candidacy.
2. In order to be recommended for advancement to candidacy, students must obtain the written approval of their major’s degree program course work by their committee chair and graduate advisor.
3. Students must file a written statement in the department-approved by the Faculty Advisor, indicating how the student plans to complete all remaining requirements for the degree. The statement will include the members of the thesis committee, and the date for completing the thesis or for taking the comprehensive examination.

Capstone Experience
All graduate students must complete one of the following options:
A. Comprehensive Examination in the areas of theory, applied research methods, and substantive issues in their concentration.
B. Thesis.
Students following the comprehensive examination option will earn 3 units of credit in SOC 697 and those writing a thesis will be granted 3 units of credit in SOC 698.

Courses (SOC)

LOWER DIVISION
100. Principles of Sociology (3)
Prerequisite: Completion of the G.E. Foundation, one Explorations course, and upper division standing.
This is an introductory course in social science with an emphasis on the sociological perspective as a tool for understanding social and cultural institutions, including the inter-personal, inter-group and global dimensions of social life.

142. Social Trends and Problems (3)
Prerequisite: Completion of the G.E. Foundation, one Explorations course, and upper division standing.
This is an introductory course in the study of social trends and problems in American institutions including social inequality, crime, health and illness, education, media, environment, and war and terrorism. Emphasis is on social problems as products of the socio-historical and global context.

UPPER DIVISION
3171. Problems in International Social Conflict (3)
Prerequisites: Completion of the G.E. Foundation, one Explorations course, and upper division standing.
This is an introductory course in social conflict and conflict resolution. This course is for students who are interested in the study of social conflict and resolution. The course is for students who are interested in the study of social conflict and resolution.

3181. Cases in International Social Conflict (3)
Prerequisite: Completion of the G.E. Foundation, one Explorations course, and upper division standing.
This is an introductory course in social conflict and resolution. This course is for students who are interested in the study of social conflict and resolution. The course is for students who are interested in the study of social conflict and resolution.

320. The Family (3)
Prerequisite: SOC 100 or consent of instructor.
Sociological study of the family in various cultures. Key theories and research methods used by sociologists to study family dynamics and change will be reviewed.

325. Sociology of Women (3)
A sociological analysis of the social, political, and economic status of women. Examines the history of women’s roles and status; gender conflicts and social movements; and societal attitudes towards women in society.

694 • Sociology • 2009/2010 CSULB Catalog
335L. Social Psychology (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examines the origins and development of the self through the socialization process. Emphasis is on the social influence of small groups (family, peers, reference groups and subcultures) and societal organization and institutions on identity, role behavior and attitudes.
Not available to students with credit in PSY 351.
340. The Latino Population in the United States (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of the comparative historical, transnational, cultural and socio-economic experiences (including class, gender, immigration and settlement patterns) of the various Latino subgroups in the United States.
Letter grade only (A-F). Same course as CHLS 350.
341. Central American and Caribbean Peoples in California (3)
Survey of the socio-economic conditions and cultural life of the Central American and Spanish-speaking Caribbean communities in California, such as Salvadorian, Guatemalan, Puerto Rican, and Cuban communities. Similarities and differences with the Mexican American community will be examined.
Same course as CHLS 352. Not open for credit to students with credit in CHLS 352.
342L. Criminology (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing.
Study of crime from a sociological perspective and the emerging interdisciplinary approaches to crime. Topics include definitions and measurement of crime, types of crimes and crime statistics, and social control issues involving the criminal justice system and crime prevention.
Not open for credit to students with credit in SOC 441L.
345. Juvenile Delinquency (3)
Study of juvenile delinquency from a sociological perspective. Topics include a historical examination of delinquency, major theories of delinquency, the social context of delinquency, the societal reaction, social policies involving the juvenile justice system and youth related social problems.
346. Race, Gender and Class (3)
Prerequisite: Completion of the G.L. Foundation.
Sociological examination of race/ethnicity, gender and class in the U.S. Examines the effect of ideology, social interactions and social institutions on the creation and maintenance of racial, gender and class inequality.
350. International Population Problems (3)
Prerequisite: Completion of GE Foundation requirements.
Overview of the basic demographic variables (fertility, mortality and migration) and methods (vital statistics and censuses) to the study of international population problems. Examines the historical and current trends and problems in world population composition, growth and movement.
354. Qualitative Methods of Social Research (4)
Prerequisites: SOC 100, 250, and one upper division course in sociology.
Review and critique of principles and essential features of classical and contemporary qualitative studies. Topics include research design, modes of participant observation, sampling and interview techniques, analysis and interpretation of data. Field assignments and individual research projects are required.
(Lecture 5 hours, laboratory 2 hours.)
355. Quantitative Methods of Social Research (4)
Prerequisites: SOC 100, 250, 260 and one upper division course in sociology.
Review of social research methods with emphasis on research design, including operationalization, measurement, scaling, reliability, validity and sampling. Techniques of data collection and analysis. Individual student research projects are required.
(Lecture 3 hours, laboratory 2 hours) Letter grade only (A-F).
356. Development of Sociological Theory (3)
Prerequisites: SOC 100.
Social thought and historical forces leading to the emergence of sociology and an exploration of classical theories into the 1950s including such thinkers as Marx, Durkheim, Weber, Mead and Merton.
357. Modern Sociological Theory (3)
Prerequisites: SOC 100, 356 and one other upper division course in sociology. Recommended: courses in the philosophy of science and research methods.
Critical review of sociological thought from the 1930's to the present. Major schools such as functionalism, interactionism, conflict, exchange, and systems theory will be covered in depth and considered in relation to the nature of theory construction.
Not open for credit to students with credit in SOC 456. Letter grade only (A-F).
358L. The Sociology of Migration and Immigration (3)
Prerequisites: Completion of GE Foundation requirements and upper-division standing.
Focuses on historical and contemporary immigration to the United States. Examines causes and consequences of immigration; forces and events that propel migrants to move; patterns of economic adaptation and political incorporation; role of social institutions in immigrant adaptation, and the process by which immigrants become ethnics.
Letter grade only (A-F).
410L. Environmental Sociology (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing.
Studies society's relationships with nature, including both cultural and structural dimensions. Integrates anthropological studies of pre-modern societies, together with cultural geography's emphasis on the meanings of place and environmental studies' contributions.
Letter grade only (A-F).
426. Social Stratification (3)
Prerequisite: SOC 100.
Examines the sociological approaches and theories of stratification and inequality. Emphasis is on how social class affects opportunity structures, income, social mobility and life chances. Analyzes the causes and consequences of economic, political and social inequality.
423. Child Abuse and Prevention (3)
Examines child abuse as a social problem: its history and causal factors, including social processes and changing family patterns. Emphasis is on social interventions and policy implications, including the role of concerned citizens and child advocates.
Not open for credit to students with credit in SW 423. (Discussion/ Seminar).
426. Sociology Sex Behavior (3)
Analyzes the social context of human sexuality, including the effects of socialization, social class, race/ethnicity, as well as occupation and religion on sexual attitudes and behavior.
427. Social Order and Social Change (3)
Prerequisite: SOC 100 and upper division status.
Sociological analysis of social order and change from a historical and contemporary perspective. Emphasizes is on the interactions between social movements, politics, economics and culture in explaining the differential patterns of change.

2009/2010 CSULB Catalog • Sociology • 695
430. Sociology of Globalization (3)
Prerequisites: SOC 100 and upper division standing.
Sociological examination of globalization. Themes include emergence of the global order, ideology and power, democracy, capital and labor mobility, technology, environment, inequality, culture, and the reactions to globalization.
Course may include a service learning component. Letter grade only (A-F).

440. Sociology of Deviance (3)
Prerequisite: SOC 100.
Study of deviance from a sociological perspective. Focuses on the role of social institutions that define, shape and maintain definitions and perceptions of deviance. Topics include theories of deviance, including micro-level processes that shape behaviors and attitudes.
(Lecture 3 hours.)

445. Impersonality, Violence and Survival: An Analysis Through Film (3)
Exploration through films of the societal conditions that facilitate impersonality, alienation and ultimately violence in modern society. Examines the struggle of the individual to survive, physically and psychologically in modern society and individual attempts to transcend social barriers.
Not open for credit to students with credit in this subject under SOC 490. (Discussion)

449. Political Sociology (3)
Prerequisite: Completion of GE Foundation requirements.
Contributions of sociology to the study of political institutions and political relations, including analysis of political aspects of social systems, social context of action, social bases of power, citizenship rights, and the effects of globalization on political processes.
Letter grade only (A-F).

462. Medical Sociology (3)
Prerequisite: Completion of the GE Foundation.
Epidemiological and sociological approaches to health and illness; patterns of physical and mental disease; patient and physician perspectives; causes of stress and coping; health care delivery and utilization; interactions of physician, nurse, therapist, health administrator, social worker, patient, and family.

463. Mental Illness and Society (3)
Prerequisite: SOC 100.
Epidemiological and sociological approaches to mental health and illness; prevalence and incidence of mental disorder; effects of family history, work experience and life change events; social and legal status of the mental patient; governmental and organizational role in mental illness.

464. Aging and Society (3)
Prerequisites: SOC 100 or 142.
Examines the impact of the aging population upon society and the effects of the social defined experience of aging upon the individual. Analysis of the relationship between age and such variables as gender, race/ethnicity, class, marital and health status.

468. AIDS and Society (3)
Prerequisites: Completion of GE Foundation requirements. Recommended: BIOL 100 or 200 or MIRC 101 or MIRC 300.
Examines behavioral aspects and societal impact of the AIDS epidemic. Covers structural barriers such as poverty, sexism, and racism in HIV/AIDS prevention and treatment. Examines sexual identities, gender, race, culture and class. Emphasizes gender roles and gender power relations.
Letter grade only (A-F).

470. Science and Religion In Biography (3)
Prerequisites: ENGL 100 and consent of instructor.
Comparison of theories, doctrines and methodologies of religions and quasi-religions in contrast to the natural, social and behavioral sciences. Sources of bias in different methods of inquiry (scientific, humanistic and religious) will be examined through classical and contemporary case material.
Letter grade only (A-F).

487H. Honors Special Topics Seminar (3)
Prerequisite: SOC 356 and admission to Sociology Honors Program or consent of the instructor.
Contemporary sociological topic, chosen by instructor. Course covers topic's emergence, growth, relevant studies, debates, conclusions and remaining questions. Students will investigate one idea using recognized sociological research methods, and present their research projects to each other for feedback and critique.
Letter grade only (A-F). May be repeated to a maximum of 12 units, with different topics in different semesters.

488H. Honors Research Seminar (3)
Prerequisites: SOC 333 and admission to the Sociology Honors Program or consent of instructor.
Foundational research processes for the Honors Thesis. Includes literature review, hypothesis formulation and/or guiding ideas, and data collection. Group discussion of readings in social science research strategies, writing techniques, ethics, publication and related issues.
Letter grade only (A-F).

489H. Honors Thesis (3)
Prerequisites: SOC 356, 488H and admission to the Sociology Honors Program or consent of instructor.
Continuation of independent student research project begun in SOC 488H, Honors Research. Students meet periodically with their thesis advisor and with other honors students to discuss their work and will present their completed research in a public forum.
Letter grade only (A-F).

490. Special Topics in Sociology (1-3)
Topics of special interest in sociology selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

492. Special Topics in Interaction and Group Relations (3)
Topics of special interest in Interaction and Group Relations selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. (Discussion) Letter grade only (A-F).

493. Special Topics in Medical Sociology (3)
Topics of special interest in Medical Sociology selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. (Discussion) Letter grade only (A-F).

494. Special Topics in Social Change and Global Issues (3)
Topics of special interest in Social Change and Global Issues selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. (Discussion) Letter grade only (A-F).
495. Internship (1-4)
Prerequisites: SOC 100, 142, 335, junior or senior standing, consent of instructor.
Supervised field experience in public and private agencies allowing students to utilize sociological principles to community situations. Designed to provide career-related work experience in both research and applied fields. 1-4 units depending on field assignment and time required. May be repeated to a maximum of 6 units. (6-10 hours per week field experience.)

496. Field Practicum (1-3)
Prerequisites: SOC 495.
Continuation of SOC 495. Permits students who continue working at a community agency to conduct special projects for that agency. Includes class meetings to discuss student projects, papers, and evaluation activities for the agency. 1-3 units depending on field assignment.
May be repeated to a maximum of 4 units.

497. Peer Facilitation in Sociology (3)
Prerequisites: A grade of at least a "B" earned in at least one upper division course related to the peer facilitation activity and consent of instructor.
Conducting optional discussion sessions, assisting an instructor in class exercises, projects or small group discussions, or tutoring individual students. Peer facilitation activities will be guided by meetings with the supervising faculty member and supplemented by readings and writing assignments.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

499/J999. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study of special topics under the supervision of a faculty member.
May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units with consent of department.

GRADUATE LEVEL

540. Urban Sociology (3)
Prerequisites: SOC 350, 557 or consent of instructor.
The course examines the processes involved in shaping urban policies in large metropolitan areas. It does this by identifying the key urban problems of our day, the dominant political alliances that run most cities, and the means by which residents, community-based organizations, and unions can influence the policy making process.
Letter grade only (A-F).

599/J499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 4 units. In exceptional cases, to a maximum of 6 units with department consent. Undergraduates completing over 3 units of SOC 499 may not earn Letter grade only (A-F).

656. Seminar in Sociological Theory (3)
Prerequisites: SOC 356, 357 or equivalent or consent of instructor.
Seminar focuses on major issues, problems, positions and theorists defining and organizing sociological theory historically and today. Course designed to encourage theoretical application, emphasizing current and relevance and applicability of sociological theory.
Letter grade only (A-F).
Introduction

A major in Spanish is a treasured possession. A second major or a minor in Spanish opens many doors, but no matter what field a student plans to enter, be it health services, business, teaching, government, law, medicine, transportation, translation, engineering, or entertainment, a familiarity with Spanish will be invaluable. Bilingualism is almost an imperative in Southern California as well as in many other parts of our country.

In addition, the program provides preparation for those who plan to pursue doctoral work at other institutions. It also provides a liberal education for those who wish to expand their knowledge of the communication process and of Hispanic literature and cultures. The Spanish Program offers courses in language, linguistics, literature, culture and translation leading to the following degrees and certifications: Bachelor of Arts and Master of Arts degrees in Spanish, Single Subject Teaching Credential in Spanish, Concentration in Spanish for the Bachelor of Arts in Liberal Studies, minor in Spanish, Bilingual Concentration for B.A. in Liberal Studies, B.A. in Special Major and the M.A. in Interdisciplinary Studies.

Undergraduate Programs

Bachelor of Arts in Spanish

The BA in Spanish consists of a basic core (21 upper-division units) and one of two options (18 upper-division units) for a total of 39 upper-division units. Please note that all options will satisfy the single-subject credential requirements. However, the general option is strongly recommended for students interested in the Single Subject Credential Program. Both options require two years of a second foreign language at the college level.

N.B.: No course used to satisfy any requirement for the B.A. in Spanish may be taken on a Credit/No Credit basis.

Prerequisites

One year of intermediate Spanish at the university level, or equivalent. Students who have completed sufficient high school Spanish or equivalent may take upper-division courses as soon as proficiency requirements have been met. Heritage speakers of Spanish who have never formally studied the language are urged to take SPAN 250 (6-unit GE course).

Core

21 units: SPAN 300, 310, 330, 341, 423, and other 430 or 445.

Bachelor of Arts in Spanish (general) (code RGR_BA03) (120 units)

Requirements

1. Core courses.
3. Two years of a second foreign language at the college level.

Option in Translation (code RGR_BA06) (120 units)

Requirements

1. Core courses.
2. 18 upper-division units selected from the following: SPAN 461, 462, 463, 464, 465, 466, 467, RGR 346, 450, 424, 425, 470.
3. Two years of a second foreign language at the college level.
Minor in Spanish (code RGR_UM05)

Requirements

A minimum of 18 units in Spanish, at least 15 of which must be upper division and must include SPAN 300, and demonstration of oral fluency or SPAN 314. Students must file a Declaration of Minor and receive counseling from the undergraduate advisors. The minor in Spanish is available to any non-Spanish major.

N.B.: No course used to satisfy any requirement for the Minor in Spanish may be taken on a Credit/No Credit basis.

Single Subject Teaching Credential, Spanish (code 158)

Completion of the Spanish major meets the subject matter competence requirement for the Single Subject Preliminary Credential in Spanish (code 158). Prospective students should consult the undergraduate Spanish Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of Spanish are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

Requirements

The same as for B.A. in Spanish.

Graduate Programs

Master of Arts in Spanish

(code RGR_MA03)

Prerequisites

1. A Bachelor of Arts degree in Spanish with minimum "B" (3.0) GPA overall; or
2. A Bachelor's degree with a minimum of 18 upper division units in Spanish equivalent to the Basic Core of the B.A. in Spanish at this University. Minimum "B" (3.0) GPA overall. Deficiencies will be determined by the Master's Degree Committee after consultation with the student and study of transcript records.

Advancement to Candidacy

1. Approval of a graduate program by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.
2. Requirements: All deficiencies have been removed; the student has fulfilled the Graduation Writing Assessment Requirement (GWAR); the student has maintained at least a "B" (3.0) GPA in all work in Spanish.

3. The candidate may file for advancement to Candidacy after filing an individualized Course Planner, completing prerequisites, and completing at least 6 units (preferably no more than nine units) on the M.A. program. The candidate must file no later than one semester or summer session prior to completion of course requirements.

Requirements

1. Completion of a minimum of 30 units in Spanish in the 500 and 600 series distributed as follows:
   SPAN 500 (required) + 2 courses in Linguistics + 2 courses in Latin American Literature/Culture + 2 courses in Peninsular Literature/Culture + 3 electives.
2. Two years of one of the following languages: Italian, Portuguese, French, or German, or pass an examination at intermediate level in one of those languages. Major or minor in a second foreign language may be used to fulfill this requirement, upon approval by the Graduate Advisor.
3. Maintain a GPA of at least "B" (3.0) in Spanish exclusive of courses taken in other programs.
4. Pass comprehensive examinations based on Graduate Reading List after course work completed.
5. Maximum of six units of transfer graduate credit are allowed, subject to approval by the Graduate Advisor.

Courses (SPAN)

LOWER DIVISION

101B. Fundamentals of Spanish (4)

Prerequisite or Corequisite: Any Foundation course.

Concentration on oral comprehension and speaking. For those who are beginning the study of Spanish or who have had two years of high school Spanish or equivalent.

For non-native speakers only. Not open to heritage speakers or native speakers of Spanish. Check for the code 158 (for non-native speakers) and 159 (for heritage speakers) in the Schedule of Classes.

201A. Intermediate Spanish (4)

Prerequisites: SPAN 101B and completion of GE Foundation requirements (or entering competency equivalent to SPAN 101B and completion of or concurrent enrollment in at least one Foundation course).

Continued development of audio-lingual skills, reading and writing.

For non-native speakers only. Not open to heritage speakers or native speakers of Spanish. (4 hours activity)

201B. Intermediate Spanish (4)

Prerequisites: SPAN 201A and completion of GE Foundation requirements (or entering competency equivalent to SPAN 201A and completion of or concurrent enrollment in at least one Foundation course).

Continued development of oral skills, reading and writing.

For non-native speakers only. Not open to heritage speakers or native speakers of Spanish. (4 hours activity)

201C. Intermediate Spanish III (4)

Prerequisite: Any Foundation course. SPAN 201B or a minimum of four (4) college-level courses in Spanish or AP Exam (Pass at level 4 or 5).

Advanced Intermediate skills of speaking, comprehension, reading, and writing.

For non-native speakers only.

2009/2010 CSULB Catalog • Spanish • 699
250. Spanish for Bilinguals (6)
Prerequisite: Near native speaker oral skills and completion of GE Foundation requirements (or concurrent enrollment in at least one Foundation course).
Addressed particular needs of bilingual student population. Emphasis on acquisition of solid grammatical base with development of writing and reading skills.
Letter grade only (A-F).

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Advanced Grammar and Composition (6)
Prerequisites: AP exam with a score of 4 or 5 or SPAN 201B or 201C or equivalent for non-native speakers. SPAN 250 or equivalent for heritage speakers.
Review of grammatical principles, general consolidation of the four language skills (reading, speaking, comprehension and writing) with oral and written projects and acquisition of cultural knowledge of the Hispanic world.
Check for the code 131 for non-native speakers and 138 for heritage speakers in the Schedule of Classes. (6 hours of activity)

310. Introduction to Literary Analysis (3)
Prerequisite: One 300-level course in Spanish or consent of instructor.
Discovery of literature as a work of art. Different levels of interpretation: complexity of structure related to content; literary appreciation.
Letter grade only (A-F).

314. Oral Communication (3)
Prerequisite: Upper division standing in Spanish, consent of instructor.
Emphasis will be placed on small-group discussion to improve communication skills in Spanish. Intended for non-native speakers.

322. Bilingual Teacher (3)
Prerequisites: SPAN 300 or consent of instructor.
Development and application of vocabulary for teaching elementary/secondary school subject matter in Spanish; application in actual teaching situations.

330. Literary Masterpieces: Spain (3)
Prerequisites: SPAN 310 or consent of Spanish Program Director; completion of GE Foundation requirements.
Critical analysis of masterworks of Spanish literature. (Lecture 3 hours)

335A. Business Spanish (3)
Prerequisites: SPAN 300 (5 units) or consent of instructor.
Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on commerce, management, banking, real estate, and labor relations.
Letter grade only (A-F).

335B. Business Spanish (3)
Prerequisites: SPAN 300 or consent of instructor.
Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on marketing, finance, import, and export.
Letter grade only (A-F).

341. Literary Masterpieces: Spanish America (3)
Prerequisites: SPAN 310 or consent of Spanish Program Director.
Critical analysis of masterworks of Spanish American literature. (Lecture 3 hours)

350. Hispanic Short Narrative (3)
Prerequisites: SPAN 310
An overview of representative short narrative from the Spanish-speaking world encompassing corresponding historical periods or thematic similarities.
Letter grade only (A-F).

351. Survey of Hispanic Theater (3)
Prerequisites: SPAN 310 and upper division standing
This course explores the development of the genre of theater in the Hispanic World in its social, cultural, historical, and political context either across time periods (medieval to 20th century) or within a certain literary movement (Romanticism, Neocolonialism, etc.).
Letter grade only (A-F)

400/500. Don Quijote and the Critics (3)
Prerequisite: SPAN 310
Directed to guide students through a close reading of Cervantes's Don Quijote, with special emphasis on various theoretical approaches to text. Provides basic introduction to literary criticism.

420/520. History of Spanish Language (3)
Prerequisite: One course in Spanish linguistics or consent of instructor.
Analysis of written and spoken Spanish from its inception through its current use in the Hispanic world.

423/523. Introduction to Spanish Linguistics (3)
Prerequisite: SPAN 300 or consent of instructor.
Overview of Spanish Linguistics. Areas of study: history of Spanish language, grammatical systems (Phonology, Morphology, Syntax), sociolinguistic status of Spanish in the U.S. and the teaching of Spanish as a second language.

426/526. Spanish Morphology and Syntax (3)
Prerequisite: Consent of instructor.
Morphemic and syntactic analysis of Spanish. Introduction to transformational grammar.
(Lecture 3 hours)

427/527. Contrastive Analysis of Spanish and English (3)
Prerequisite: Consent of instructor.
Study of the known points of similarity and differences between the two languages.

428. Spanish Cinema (3)
Prerequisites: Upper division standing.
Focus on socio-political and aesthetic aspects of Spanish Cinema, concentrating on the following periods: Early Francismo, Neo-Realismo, The Barcelona School, the Transition Period, post Franco Years, and new trends in Spanish Cinema.
Taught in English. Letter grade only (A-F). Same course as FEA 362E. Not open for credit to students with credit in FEA 362E.

429/529. Studies in 19th and 20th Century Spanish Poetry (3)
Prerequisite: SPAN 330.
Examinines salient poets from last two centuries, including Rosalía de Castro, Gustavo Adolfo Bécquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico García Lorca, Gloria Fuertes, Jaime Gil de Biedma, and other more contemporary figures.
Undergraduates register in SPAN 429; graduates register in SPAN 529. Letter grade only (A-F). (Seminar 3 hours)
430. Spanish Civilization (3)
Prerequisites: Upper division standing in Spanish or consent of instructor.
Characteristics of Spanish culture with special attention to the various institutions: economic, social, and cultural configurations, and the ways of thinking.

438/538. Studies in Golden Age Literature (3)
Survey of Spanish Golden Age literature. Readings will focus on the literary masterpieces of the Renaissance and Baroque periods by Góngora, Quevedo, Cervantes, San Juan de la Cruz, Garcilaso de la Vega, and Calderón de la Barca.

439/539. Modern Spanish Narrative (3)
Prerequisites: SPAN 330 or consent of instructor.
Representative 19th and 20th century novelists. Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

441/541. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)
Prerequisites: SPAN 341 or consent of instructor.
Critical analysis of 19th and 20th century Spanish American prose fiction.
Undergraduates register in SPAN 441, graduates register in SPAN 541. (Seminar 3 hours)

442/542. Nation Building and Women’s Writing in Nineteenth-Century Spanish America (3)
Prerequisites: SPAN 310 and 341 or consent of instructor.
Explores field of Spanish American women writers during nineteenth century and concept of nation building. Several genres are studied: epistolary, narrative, short-story, travel narrative, essay, autobiography, and the novel.

443/543. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)
Prerequisites: SPAN 341 or consent of instructor.
Study of representative 19th and 20th century Spanish American poets.
Lottor grade only (A-F). Undergraduates register in SPAN 443, graduates register in SPAN 543. (Seminar)

444/544. Nineteenth-Century Spanish America and The National Family Romance (3)
Prerequisites: SPAN 310 and 341 or Instructor’s permission.
Advanced course studies Spanish American canonical writers during the nineteenth century in relation to the concept of “Family Romance.” These fictions constitute the foundational master narratives that were the guiding fictions for the new independent nations.

445. Latin American Civilization (3)
Prerequisites: Upper division standing in Spanish or consent of instructor.
Analysis of main currents in Latin American civilization.

446/546. Studies in Spanish Culture (3)
Prerequisite: SPAN 330.
Deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts.
Undergraduates register in SPAN 446; graduates register in SPAN 546. Lottor grade only (A-F). May be repeated to a maximum of 6 units. (Seminar 3 hours)

447/547. The Invention of Spain: Visions in Conflict (3)
Prerequisites: SPAN 300, 310, 330.
A social, historical, and literary study of Spain from 1808 through the beginning of the Spanish Civil War in 1936. Many groups struggle to impose their vision of Spain as it emerges from the War of Independence in 1808, transitioning from the Antiguo Régimen to modernity.

448. Romanticism and Realism (3)
Prerequisites: SPAN 300, 310 and 330.
A systematic tracing of the development of Spanish Romanticism in narrative forms, in its European and Latin American trajectories and its transformation into realism toward mid-nineteenth century.

449/549. Dictatorship to Democracy: Film and Literature in Spain (1930-today) (3)
Prerequisites: SPAN 310 and SPAN 330 or Instructor’s permission.
Advanced course explores Spanish culture through film and literature of the pre-Civil War period, the Franco period, and the transition to democracy, the advanced democracy of Spain today.

450/550. Studies in Colonial Spanish American Literatures (3)
Prerequisites: SPAN 310 and 341.
Focuses on canonical works from Spanish-American Colonial period (1500-1800). Covers large selection of literary texts of colonial period, including chronicles, relaciones, letters, diaries, poetry, autobiography, and travel literature.

455. Hispanic Cinema of the Americas (3)
Letter grade only (A-F).

460/560. Studies Spanish American Culture (3)
Prerequisite: SPAN 341.
In-depth study of some essays which have dealt with problem of what Spanish American nations are, and what they should be during the republican era. Includes authors from both nineteenth and twentieth centuries.
May be repeated to a maximum of 6 units with different topics in different semesters.

461. Introduction to Translation and Interpretation (3)
Prerequisites: SPAN 300 with a “B” or better or Spanish Program Director’s consent.
Designed to introduce student to basic techniques essential to terminology acquisition, concentration, written and sight translation and consecutive and simultaneous interpretation.

462. Written and Sight Translation I: English/Spanish (3)
Designed to train students in written and oral translation. Designed to train students in the basic techniques that are essential to terminology acquisition. (English into Spanish).
Letter grade only (A-F).

463. Written and Sight Translation II: Spanish/English (3)
Prerequisites: SPAN 461 or consent of Spanish Program Director.
Designed to train students in written and oral translation. Designed to train students in the basic techniques that are essential to terminology acquisition. (Spanish into English).
Letter grade only (A-F).

464. Consecutive Interpretation I (3)
Prerequisites: SPAN 461 or consent of Spanish Program Director.
Designed to train students in consecutive interpretation.
Letter grade only (A-F).

465. Consecutive Interpretation II (3)
Prerequisites: SPAN 461 or consent of Spanish Program Director.
Designed to train students in consecutive interpretation.
Letter grade only (A-F).
466. Simultaneous Interpretation English/Spanish (3)
Prerequisites: SPAN 461 or consent of Spanish Program Director.
Designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation (English into Spanish).
Letter grade only (A-F).

467. Simultaneous Interpretation Spanish/English (3)
Prerequisites: SPAN 461 or consent of Spanish Program Director.
Designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation. Spanish into English.
Letter grade only (A-F).

490. Special Topics (3)
Study of a particular aspect of Spanish literature, language, or culture.
Letter grade only (A-F). Topics will be announced in Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

491/591. Nobel Poets and Others (3)
Prerequisites: SPAN 330, 341, or consent of instructor.
Critical analysis of representative works of Nobel Poets (Aleixandre, Jiménez, Mestral, Neruda and Paz) and other significant poets (Albertik, Bécquer, Darío, García Lorca, García de la Corza, González, Lamas, Velásquez, etc.)
Undergraduates register in SPAN 491; graduates register in SPAN 591. (Seminar 3 hours).

492/592. Studies in Hispanic Theater (3)
Prerequisites: SPAN 330 or 341, or consent of instructor.
Representative Spanish and Spanish American plays.
Undergraduates register in SPAN 492; graduates register in SPAN 592.

493/593. Special Topics (3)
Study of a particular aspect of Spanish literature, language, or culture.
Undergraduates register in 493; graduates register for 593. Letter grade only (A-F). Topics will be announced in Schedule of Classes. May be repeated to a maximum of 9 units with different topics. (Lecture)
A. Women and War: Voices of Resistance

494. Internship in Spanish (1-3)
Prerequisites: Consent of instructor and department chair.
Field work in Spanish, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member.
May be repeated to a maximum of 6 units. No more than 3 units may be applied to the major in Spanish.

499. Independent Study (1-3)
Prerequisites: Consent of instructor and department chair.
Individual projects or directed readings with a professor of the student’s choice.
May be repeated to a maximum of 6 units. (Requires tutorial meetings and demonstrations of progress as defined in a written proposal.)

GRADUATE LEVEL

500/600. Don Quijote and the Critics (3)
Prerequisite: SPAN 310.
Designed to guide students through a close reading of Cervantes’s Don Quijote, with a special emphasis on various theoretical approaches to the text. The class will provide a basic introduction to literary criticism.

520/620. History of Spanish Language (3)
Prerequisite: One course in Spanish linguistics or consent of instructor.
Analysis of written and spoken Spanish from its inception through its current use in the Hispanic world.

523/623. Introduction to Spanish Linguistics (3)
Prerequisites: SPAN 300 or consent of instructor.
Overview of Spanish Linguistics. Areas of study: history of Spanish language, grammatical systems (Phonology, Morphology, Syntax), sociolinguistics status of Spanish in the U.S. and the teaching of Spanish as a second language.

526/626. Spanish Morphology and Syntax (3)
Prerequisite: Consent of instructor.
Morphemic and syntactic analysis of Spanish; introduction to transformational grammar.
Letter grade only (A-F). (Lecture 3 hours)

527/627. Contrastive Analysis of Spanish and English (3)
Prerequisite: Consent of instructor.
Study of known points of similarity and differences between the two languages.
Letter grade only (A-F).

529/629. Studies in 19th and 20th Century Spanish Poetry (3)
Prerequisite: SPAN 330.
Examinines salient poets from last two centuries, including Rosalía de Castro, Gustavo Adolfo Becquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico García Lorca, Olave Fuentes, Jaime Gil de Biedma, and other more contemporary figures.
Undergraduates register in SPAN 429; graduates register in SPAN 529. Letter grade only (A-F). (Seminar 3 hours.)

538/638. Studies in Golden Age Literature (3)
Survey of Spanish Golden Age literature. Readings will focus on the literary masterpieces of the Renaissance and Baroque periods by Gongora, Quevedo, Cervantes, San Juan de la Cruz, Garciíza de la Vega, and Calderon de la Barca.

539/639. Modern Spanish Narrative (3)
Prerequisite: SPAN 330 or consent of instructor.
Representative 19th and 20th century novelists.
Letter grade only (A-F). Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

541/641. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)
Prerequisite: SPAN 341 or consent of instructor.
Critical analysis of 19th and 20th century Spanish American prose fiction.
Undergraduates register in SPAN 441, graduates register in SPAN 541. Letter grade only (A-F). (Seminar 3 hours)

542/642. Nation Building and Women’s Writing in Nineteenth-Century Spanish America (3)
Prerequisites: SPAN 310 and 341 or instructor’s consent.
Explores field of Spanish American women writers during nineteenth century and concept of nation building. Several genres are studied: epistolary narrative, short story, travel narratives, essay, autobiography, and the novel.

543/643. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)
Prerequisite: SPAN 341 or consent of instructor.
Study of representative 19th and 20th century Spanish American poets.
Undergraduates register in SPAN 443, graduates register in SPAN 543. Letter grade only (A-F). (Seminar)
544. Nineteenth-Century Spanish America and The National Family Romance (3)
Prerequisites: SPAN 310 and 341 or instructor’s permission.
Advanced course studies Spanish American canonical writers during the nineteenth century in relation to the concept of “family romance.” These fictions constitute the foundational master narratives that were the guiding fictions for the new independent nations.

546. Studies in Spanish Culture (3)
Prerequisite: SPAN 330.
Deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts.
Undergraduates register in SPAN 446; graduates register in SPAN 546. Letter grade only (A-F). May be repeated to a maximum of 6 units. (3 sem/hrs)

547. The Invention of Spain: Visions in Conflict (3)
Prerequisites: SPAN 310, 310, 330.
Social, historical and literary study of Spain from 1898 through the beginning of the Spanish Civil War in 1936. Many groups struggled to impose their vision of Spain as it emerged from the War of Independence in 1810, transitioning from the Antiguo Régimen to modernity.

548. Romanticism and Realism (3)
Prerequisites: SPAN 300, 310 and 330.
A systematic tracing of the derivation of Spanish Romanticism in narrative form, in its European and Peninsular trajectories and its transformation into realism toward mid-twentieth century.

549. Dictatorship to Democracy: Film and Literature in Spain (1939-Today) (3)
Prerequisites: SPAN 310 and 330 or instructor’s permission.
Advanced course explores Spanish culture through film and literature of the pre-Civil War period, the Franco period, the transition to democracy, and the advanced democracy of Spain today.
Letter grade only (A-F).

550. Studies in Colonial Spanish American Literature (3)
Prerequisite: SPAN 310 and 341.
Focuses on canonical works from Spanish-American Colonial period (1500-1800). Covers a large selection of literary texts of colonial period, including chronicles, relations, letters, diaries, poetry, autobiography, and travel literature.

560. Studies in Spanish American Culture (3)
Prerequisite: SPAN 341.
In-depth study of some of the essays which have dealt with the problem of what the Spanish American nations are, and what they should be during the republican era. Includes authors from both nineteenth and twentieth centuries.

590. Special Topics (3)
Study of a particular aspect of Spanish literature, language or culture.
Letter grade only (A-F). Topics will be announced in Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

591. Nobel Poets and Others (3)
Prerequisite: SPAN 330, 341, or consent of instructor.
Critical analysis of representative works of Nobel Poets (Alejandrino, Jiménez, Mertil, Neruda and Placa) and other significant poets (Albertik, Bilbao, Dario, Garcia Lorca, Gabo, García, Góngora, Guillain, Vallejo, etc.).
Undergraduates register in SPAN 491, graduate register in SPAN 501. (Seminar 3 hrs.)

592. Studies in Hispanic Theater (3)
Prerequisite: SPAN 330 or 341, or consent of instructor.
Representative Spanish and Spanish American plays.
Letter grade only (A-F). Undergraduates register in SPAN 492; graduates register in SPAN 592.

593. Special Topics (3)
Study of a particular aspect of Spanish literature, language or culture.
Topics will be announced in Schedule of Classes. Undergraduates register in 493; graduate register in 593. Letter grade only (A-F). May be repeated to a maximum of 8 units with different topics. (Seminar)

599. Directed Studies (1-3)
Prerequisites: Graduate standing, advanced to candidacy, consent of the instructor and Chair or Graduate Advisor.
Selected topics on Hispanic Studies to be pursued in-depth.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics with consent of Graduate Advisor and Department Chair.

640. Seminar in Spanish American Literature (3)
Prerequisite: SPAN 341 or consent of instructor.
Study of particular period, genre or author.
Topics will be announced in Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters. (Seminar 3 hrs.)

650. Research Methods and Critical Theory. (3)
Prerequisite: SPAN 310.
An introduction to the Master's level research methods, including information technology, library literacy, research paper preparation, conference presentations, and professionalization issues related to M.A. level work. The idiom of critical theory will be introduced in an application-based setting.
Letter grade only (A-F). (Seminar 3 hrs.)

691. Seminar in Spanish Literature-The Spanish Civil War and its Artistic Repercussions (3)
Prerequisite: SPAN 330, 341 or consent of instructor.
Examines fiction dealing with war themes written during and after the Spanish Civil War (1936-39). It includes authors such as Antonio Barcia, Constancia de la Mora, César Valdés, Pablo Neruda, Delores Eibar, Emil de Heningway, Juan Goytisolo, George Orwell, and Ana María Matute.
Letter grade only (A-F). May be repeated to a maximum of 6 units. (Seminar 3 hrs.)

Jeanie Riehlke Caverness, Assistant Dean of Students

Introduction
The Kinesiology Department and the Division of Student Services oversee a broad range of educational and student support services programs to assist students in achieving their academic goals and to enhance their personal, intellectual and social development. The division provides oversight and direction for more than 35 university programs and services areas that support students outside the classroom.

Through cooperation between the Associated Students, Inc. and the Student Services Division, a comprehensive program of intramural competition, club sports, and Sports, Recreation and Leadership courses are offered.

Intramural programs afford students the opportunity to play in 25 different activities. To receive credit for this program, students may enroll in SRL 200. To receive credits for this course, students must play one league activity and assist in supervising a league.

Intramural team activities are scheduled at varied times. League competition is available in 16 of the activities for men, women and co-educational participation. Students enrolled in class must contact the Intramural Office to sign up for their activities. Upon completion of each activity, the student must notify the Intramural and Recreational Sports Office (PE 1, Rm 20A) for their participation. Students may participate in any of the club sports activities which are partially funded by the Associated Students, Inc., and administered through the Club Sports Recreation Office. Sports are: Aikido, alpine ski-snowboard, archery, bowling, crew, ice hockey, rugby, sailing, Shorukan Karate, soccer, surfing, triathlon, volleyball, ultimate Frisbee and water ski/wakeboard, jiu jitsu, Kung Fu, roller hockey, running, capoeira, breakdancing, waterpolo, belly dancing, cricket, lacrosse, paintball, racquetball, saucie, tennis. Students registering for SRL 210 must attend regular practices and competitions, assist the club with fundraisers, attend one workshop sponsored by the Leadership Resource Center and adhere to club rules and regulations.

For information on practice times and meeting locations, contact the individual club coach or president. Visit the Club Sports and Recreation website (www.csulb.edu/recsports) or visit the Intramural and Recreational Sports Office (PE 1, Rm 20A). In addition to participation in club sport activities, students may receive credit for leadership training and service performed with some university-sponsored programs by registering in SRL 210L.

Students may apply no more than four (4) semester units of lower-division SRL courses toward the baccalaureate degree within the 20-unit maximum on activity units.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics. For a listing of Intercollegiate Athletic teams, visit longbeachstate.com.

Courses (SRL)

200. Intramural Activities (1)
Repeatable credits include previous credits from SAR 200.

210 A-W. Sport Clubs/Leadership (1)
Prerequisite: Participation/competition in sport clubs/leadership. Enrollment subject to consent of instructor or Director of Club Sports and Recreation.

Athletes enrolled who fail to qualify for squad must withdraw from course. It is the student's responsibility to contact teams regarding practice times and eligibility requirements.

May be repeated to a maximum of 4 units, including previously earned credits from SAR 210. Credit/No Credit grading only.

A. Archery
B. Crew
D. Ice Hockey
E. Martial Arts
F. Rugby
G. Sailing
H. Ski and Snowboard
I. Soccer
J. Water Ski
K. Surfing
L. Leadership
M. Triathlon
N. Lacrosse
O. Wakeboard and Water ski
P. Paintball
Q. Racquetball
R. Roller Hockey
S. Cultural Dances
T. Ultimate Frisbee
U. Volleyball
V. Running
W. Bowling

Introduction
The Department of Teacher Education offers coursework in credential, certificate, and Master's degree programs that include preliminary and advanced professional preparation. The department houses the Multiple Subject Credential Program, a Reading Certificate program, a Reading and Language Arts Specialist credential program, and Master's degree programs in Early Childhood Education, Reading, Dual Language Development, and Curriculum and Instruction. Courses are offered at a variety of times, with most courses offered in the late afternoon and evening to accommodate working schedules.

Multiple Subject Credential Program (code 200)
A teacher with a Multiple Subject Credential is authorized to teach grades pre-K through 12 in self-contained classrooms. The Multiple Subject Credential Program (MSCP) prepares students to be credentialed in the State of California for elementary and middle school instruction. The program allows for daytime field experiences in elementary classrooms and includes methodology courses and student teaching. The program can be completed in one summer and two semesters or three semesters, depending upon when prerequisites and corequisites are taken, when the student begins the program, and whether a part-time or full-time schedule is followed. Program requirements must be met within five years of the date of admission to the program.

The department has four Preliminary Multiple Subject Credential Program (MSCP) tracks:

• Multiple Subject Credential Program
• Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis (Spanish, Cambodian [Khmer], Chinese [Mandarin and Cantonese], Korean, Vietnamese)
• Multiple Subject Internship Program
• Integrated Teacher Education Program (ITEP)

For program information and advisement, contact the Teacher Preparation Advising Center (ED1-67; 362) 985-9259; or visit the department website.

Preliminary Credential
Successful completion of the Multiple Subject Credential Program leads to the Preliminary Credential, which is valid for five years. Requirements for the Preliminary Credential are:
1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U.S. Constitution requirement (POSC 100 or 301 or exam or equivalent course from another institution).
3. Pass California Basic Educational Skills Test (a test of basic reading, writing and math) or CTC approved alternative exam.
5. Demonstrate Level 1 computer technology competence (embedded in program course work).
6. Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
7. Complete professional preparation courses (in the MSCP) with a grade point average of 3.0 in all subject specific pedagogy (methods) courses with no grade lower than "C."
8. Successfully complete student teaching.
9. Pass the Reading Instruction Competence Assessment (RICA) exam.
10. For Bilingual Cross-Cultural Language and Academic Development (BCLAD) candidates only: Demonstrate competence in BCLAD Domains 4 (specialized pedagogy), 5 (target culture knowledge) and 6 (proficiency in the target language). Requirements may be met through course work or state-approved exams.

Clear Credential
The Preliminary Credential is valid for five years from the date of issuance and is not renewable. During the first five years of teaching, teachers earn the clear credential through their District-Sponsored Induction Program.

Admission to the University and Multiple Subject Credential Program (MSCP)
Admission to the university and the MSCP are two separate processes. Applications to the university are available in Enrollment Services or on-line through CSU Mentor (www.csumentor.edu). Applications to the

2009/2010 CSULB Catalog • Teacher Education • 705
program are distributed at regularly scheduled program information meetings. Meeting dates, times and locations are available on the MSCP website. Matriculated students may be admitted to the program based on their current undergraduate or graduate status. Graduating seniors, transfer students, and returning students should apply for post-baccalaureate admission to the university with the objective of entering the credential program (identify your program objective as Multiple Subject Credential). Admission to the university does not constitute admission to the program.

Multiple Subject Credential Program Structure

The MSCP is a 40 unit program separated into three successive phases. Students must complete each phase before advancing to the next one.

- Phase One - Students complete program prerequisites (and may take any or all corequisites) and submit applications. Subject matter competence must be demonstrated at the time of application to the program by submission of a passing score on all three sections of the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
- Phase Two - Students complete corequisite courses and five subject specific pedagogy courses.
- Phase Three - Students complete student teaching.

Program Admission

All candidates are required to comply with all program policies and procedures detailed in the MSCP Handbook, which is available for purchase at the Campus Copy Center located in the bookstore. Pre-program advisement and brochure materials are available in the Teacher Preparation Advising Center (ED1-67). Prospective candidates should obtain a program application by attending one of the regularly scheduled group advisement meetings. See schedule at www.cod.csulb.edu/mscp

Program Admission Requirements

1. Complete all prerequisite courses in one of the four MSCP tracks, with a minimum grade of "B" in EDEL 360, and no grade lower than a "C" in any other prerequisite or corequisite course.
2. Achieve a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.76 in the last 60 semester or 90 quarter units attempted.
3. Complete and pass an interview with a department faculty advisor.
4. Submit three letters of recommendation.
5. Submit a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher.
6. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years. Tuberculosis clearance must be valid through student teaching.
7. Submit one photocopy of all university and/or college transcripts.
8. Submit proof of having taken the California Basic Educational Skills Test (CBEST). Note: You must take all three parts of the test. (Passage of the exam is required to advance to student teaching.) For alternatives to CBEST contact the Teacher Preparation Advising Center.
9. Submit proof of having demonstrated subject matter competence by passing all three sections of the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
10. Demonstrate proficiency in reading and writing English by (1) attaining the minimum passing score of 37 on the reading portion of the CBEST and by (2) attaining the minimum passing score of 37 on the writing portion of the CBEST exam. (Passage of CBEST is required to advance to student teaching.)
11. Attach a copy of a Certificate of Clearance, or a photocopy of a California emergency/short-term teaching permit.
12. Demonstrate ability to communicate orally in English at the level required of public school teachers by demonstration of English production skills in the course EDEL 380 (EDEL 200 for ITEP candidates) and through an oral interview with department faculty. In the case of candidates for a Bilingual Emphasis Multiple Subject Credential, there is a bilingual interview requirement in English and the target language.
13. Demonstrate character and personality traits that satisfy the standards of the teaching profession and suitable aptitude for teaching in public schools through the application documentation, the personal interview, and performance in the course EDEL 380. Candidates must continue to demonstrate appropriate character and personality traits through completion of the program.
14. Submit the application packet, including documentation, by March 1 to begin pedagogy courses in summer or fall terms, and October 1 to begin pedagogy courses in winter or spring terms. THESE DEADLINES ARE STRICTLY ENFORCED.

Student Teaching

The final phase of the MSCP is student teaching. Student Teaching is a full-time five days per week experience for the length of the university semester. All student teachers have one placement in a K-2 classroom where they gain experience with early literacy instruction utilizing a balanced and comprehensive approach to reading. The other placement is in an intermediate classroom (grades 3-5) or in a middle school classroom (grades 6-8). One student teaching placement must be in a public school. There are several ways to complete student teaching: one regular semester, two semesters, two consecutive summers, one entire summer, or one summer and part of one regular semester. Students should be aware that there is extremely limited availability in the summer and all applicants will not necessarily be accommodated. A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Multiple Subject Student Teaching Office one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings. Dates, times and locations are announced in methods courses. The packets are posted.
throughout the ED-1 and ED-2 buildings, and appear on the website at www.ced.csulb.edu/elpo well in advance of the actual meeting dates. Deadlines for submitting applications to student teaching are:

March 1 — for Summer/Fall Student Teaching
October 1 — for Spring Student Teaching

Students should note that these deadlines are firm. Late applications are not accepted.

**Advancement to Student Teaching Requirements**

Students must meet the following requirements to advance to student teaching:

1. Completion of all program prerequisites, corerequisites and subject specific pedagogy requirements in Phases 1 and 2 of one of the MSCP tracks. Students must complete all five subject specific pedagogy (methods) courses with a 3.0 grade point average and no grade lower than “C.” A grade of “D” or “F” in a program course will result in being dropped from the program. In addition, EDEL 413 and 431 must be completed with no grade lower than “C.” The overall grade point average must continue to meet the program admission standard.

2. Passage of the California Basic Educational Skills Test (CBEST).

3. A negative tuberculosis skin test or chest x-ray valid through completion of student teaching.

5. BCLAD Emphasis students must meet all additional BCLAD program requirements.

6. For students who wish to student teach at the kindergarten level: completion of EDEL 420 with a minimum grade of “C.”

7. Submission of a student teaching application by the appropriate deadline.

**Track One – Preliminary Multiple Subject Credential Program**

The Preliminary credential is the basic Multiple Subject Credential. This track is comprised of foundational and subject specific pedagogy course work followed by the student teaching semester.

**Prerequisites**

- EDEL 380 (3 units), EDSP 303 (1 unit) - must be taken concurrently.

**Corequisites**

- EDEL 413 (2 units), EDEU/EDP/LING 431 (3 units) - may be taken prior to or after admission to the MSCP but must be completed prior to student teaching

**Subject Specific Pedagogy (teaching methods)**

Students must be officially admitted to the MSCP to take these courses. One course must be taken off-campus at an elementary school site during daytime school hours, and at least one must be taken on-campus: EDEL 442, 452, 462, 472, EDEL/SCED 475.

**Student Teaching**

All requirements for advancement to student teaching must be met: EDEL 452 (16 units).

---

**Track Two – Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis in Spanish and Asian Languages**

The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis credential authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. With appropriate substitutions and/or additional course work, the BCLAD Emphasis may be added to the Preliminary credential. All BCLAD Emphasis candidates must demonstrate knowledge of the target culture, specific pedagogical skills, and fluency in speaking, listening, reading and writing in the target language. A BCLAD Certificate can be added to an existing credential by passing the appropriate CLAD and/or BCLAD exams.

The BCLAD Spanish Emphasis is offered on campus or through the BCLAD in Mexico program. The BCLAD in Mexico program leads to a Multiple Subject Preliminary Credential with Spanish BCLAD Emphasis during a year of study in Querétaro, México. CSULB and nine other CSU campuses statewide offer this credential in conjunction with the Office of International Programs. Applications are accepted between January 2 and March 1 only.

To add the international BCLAD Spanish certificate to the Preliminary credential the following courses are required: EDCI 541; SPAN 322, 445. (Note: EDCI 541 and SPAN 322 must be taken in Mexico).

The BCLAD Asian Emphasis is part of a six campus CSU consortium offering BCLAD preparation and certification in Korean, Chinese (Mandarin or Cantonese), and Vietnamese. Asian BCLAD courses are taken at CSULB and other area CSU participating campuses.

**Spanish/English BCLAD Emphasis**

The BCLAD Emphasis in Spanish prepares students for teaching in dual language and English Language Development settings where Spanish is required for instruction, support, and communication with parents and other professional communication. In addition to the Preliminary credential requirements, BCLAD Emphasis in Spanish requires include teaching pedagogy and practicum in a second language, culture of emphasis (by coursework or examination) and fluency in Spanish (by examination). The program requires 43 units of course work plus culture and language of emphasis proficiency through additional course work and/or examination. See the Spanish BCLAD advisor for program information.

**Prerequisites**

Same (4 units) as for Track One in the Preliminary credential.

**Corequisites**

Same (5 units) as for Track One in the Preliminary credential program plus EDP/LING 485 or EDPEDEL 439 (3 units).
Subject Specific Pedagogy
Same (15 units) as for Track One in the Preliminary credential program, with the following differences:
EDEL 442 (Footnote # 53 section recommended) Substitute EDEL 452B for EDEL 452.
Note 1: 150 documented hours as a teacher, assistant or volunteer in a multilingual setting is required in lieu of an off-campus daytime pedagogy course.
Note 2: It is recommended that EDEL 442 and 452B be taken concurrently.

Additional Spanish BCLAD Requirements
Those requirements (0-15 units) may be taken at any time, but must be completed before student teaching:
Culture of Emphasis: For undergraduates, the culture component for the Spanish BCLAD is fulfilled in the Liberal Studies Bilingual concentration. Students completing a non-Liberal Studies bachelor’s degree can meet this requirement by taking CHLS 340 or CHLS 350 or the appropriate CSET LOTE exam.
Language of Emphasis: All Spanish BCLAD candidates must pass the appropriate CSET LOTE exam (speaking, listening, reading and writing) prior to completion of the program. SPAN 300, 312, 313, and 322 are also recommended (12 units). In addition, LING 329 or EDSP 454 are strongly advised for language acquisition background.

Student Teaching
All requirements for advancement to student teaching must be met. EDEL 482B or 482C (16 units)

Asian Languages/English BCLAD Emphasis
The BCLAD Emphasis in Asian Languages prepares students for teaching in dual language and English Language Development settings where Chinese (Mandarin, Cantonese), Khmer, Korean or Vietnamese is required for instruction, support, and communication with parents and other professional communication. In addition to the Preliminary credential requirements, BCLAD Emphasis in Asian Languages requirements include teaching pedagogy and practice in a second language, culture of emphasis (by coursework or examination) and fluency in the target language (by examination). The program requires 46 units of coursework plus culture and proficiency in the target language (appropriate CSET - LOTE exam). See the Asian Languages BCLAD advisor for program information.

Prerequisites
Same (4 units) as for Track One in the Preliminary credential program.

Corequisites
Same (6 units) as for Track One in the Preliminary credential program.

Subject Specific Pedagogy
Same (15 units) as for Track One in the Preliminary credential program.

Additional Asian BCLAD Requirements (0-6 units)
Culture of Emphasis (one for each language program) (3 units):

Chinese (Cantonese & Mandarin) - EWS 301, Cal Poly Pomona
Cambodian - ASAM 334, CSU Long Beach
Korean – AAS 495KA , CSU Northridge or TED 495, CSU Dominguez Hills
Vietnamese - ASAM 333, CSU Long Beach
Bilingual Pedagogy (one for each language program) (3 units):
Chinese (Cantonese/Mandarin) - EDEL 400 (Cantonese/ Mandarin), CSU Los Angeles or EDEL 452C (Cantonese/ Mandarin), CSU Long Beach
Cambodian (Khmer) - EDEL 490 (Cambodian), CSU Long Beach
Korean - EED 520K (Korean), CSU Northridge or TED 515A (Korean), Cal Poly Pomona or TED 490 (Korean) CSU Dominguez Hills
Vietnamese - EDEL 448 (Vietnamese), CSU Fullerton
Note: Bilingual pedagogy and culture of emphasis courses may be taken before admission to the MSCP Program.

Language of Emphasis
May be passed by appropriate CSET LOTE Exam. See program advisor for recommended courses as preparation for the exam.

Student Teaching
All requirements for advancement to student teaching must be met. EDEL 482B or 482C (16 units).

Track Three – Multiple Subject Internship
The intern program is for full-time teachers in districts with which CSULB has a contractual internship. All students in this program must be employed by the district as the full-time teacher of record in a multiple subject classroom and have met all program and internship admission requirements. The program requires 24 units of foundational and subject specific course work followed by 16 units of intern student teaching.

Application Requirements
• Hold a Bachelor’s degree from an accredited institution.
• Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
• Meet the U.S. Constitution requirement (by course work or exam).
• Pass the CBEST (or CTC approved alternative exam).
• Be assigned full-time to a self-contained K-8 multiple subject classroom in a partner school district.
• Meet the program grade point average requirement of 2.67 overall or 2.75 in the last 60 semester or 90 quarter units.
• Complete MSCP prerequisite and corequisite courses.
• Have submitted an application to the MSCP program.
• Become officially admitted to the Multiple Subject Credential Program.
• Complete an interview with the Intern Program Director.

Prerequisites
Same (4 units) as for Track One in the Preliminary credential program.

Corequisites (5 units)
Same (5 units) as for Track One in the Preliminary credential program.
Subject Specific Pedagogy

Same (15 units) as for Track One in the Preliminary credential program.

Student Teaching

All requirements for advancement to student teaching must be met. EDEL 572A and 572B (8 units each).

Note: Interns must attend a Student Teaching Application Meeting and apply to student teach by the October 1 deadline for spring, and March 1 deadline for summer and fall.

Additional Requirements for BCLAD Interns

BCLAD Interns should refer to Track Two, above, for additional BCLAD Emphasis requirements.

Early Completion Intern Option

The Early Completion Intern Option allows qualified candidates to challenge the course work portion of the internship program and demonstrate their pedagogical skills by passage of the California Teaching Performance Assessment while serving as an intern. See an advisor in the Teacher Preparation Advising Center for details.

Track Four – Integrated Teacher Education Program

For the Integrated Teacher Education Program (ITEP) requirements, please refer to the Liberal Studies section of this catalog.

Petition Process

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the Department of Teacher Education Admissions and Standards Committee.

The committee reviews the written petition and supporting documentation and renders a decision. Examples of petitions typically reviewed are: waive a deadline for submission of a test score, waive an application deadline, and readmission to student teaching. Decisions of the committee are final. Students follow university policy to appeal a course final grade.

Reading Certificate (code 415)

This certificate is granted by the California Commission on Teacher Credentialing (CTC).

The Reading Certificate provides classroom teachers with advanced preparation in reading/language arts assessment and instruction, as well as theory and research in teaching reading, grades K-12. Some candidates may wish to complete the 12 unit Reading Certificate program as a terminal objective, while others may wish to complete it as a prerequisite to the Reading/Language Arts Specialist Credential Program.

Before completion of requirements for the Reading Certificate, the candidate must provide verification of three years of full-time teaching experience in any grades preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency credential or permit.

Admission Requirements

1. Bachelor’s degree and Multiple Subject or Single Subject Credential or equivalent; CLAD certification strongly recommended.
2. ENGL 481 or ENGL 482 or EDRG 520, or current equivalent course in children’s or adolescent literature.
3. A minimum grade point average of 3.0 in the last 60 semester units or 90 quarter units of university course work.
4. Two (2) letters of recommendation on letterhead stationary from educators, one of which is from a supervisor.
5. A personal teaching autobiography including what reading means to you, what you have learned about children and reading, and why you wish to enter the graduate reading program (3 pages maximum).
6. Interview with program faculty.
7. For secondary teachers, EDEL 452 or equivalent is strongly recommended.
8. Program application.

Requirements

EDRG 540, 551, 558, 559

Reading and Language Arts Specialist Credential (code 410)

The Reading/Language Arts Specialist Credential prepares teachers to become school and district literacy leaders and supervisors. The reading/language specialist’s role is multifaceted, including diagnostician, teacher of intervention for children or youth with delayed literacy development, collaborator with other school and district specialists, provider of professional development for classroom teachers, and reading program coordinator or facilitator.

Admission Requirements

Successful completion of the Reading Certificate program, or a valid Reading Certificate, or equivalent.

Requirements

EDRG 543, 544, 554, 556, 651

Note: All courses required for the Reading/Language Arts Specialist Credential can be applied to the MA in Elementary or Secondary Education: Specialization in Reading. See Catalog program description and the faculty advisor in the Department of Teacher Education for more information.

Master of Arts in Education

Option in Curriculum and Instruction, Elementary Education (code EDELMA02)

(30-33 units)

The Master of Arts in Education, Option in Curriculum and Instruction, Elementary Education is designed to foster the development of educators who are caring, effective, reflective, and committed to improving their schools. Coursework prepares teachers to apply theoretical insights and research findings to the practical problems they encounter in their work in curriculum and instruction.

Prerequisites

A valid elementary teaching credential or by permission of program coordinator.
Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://www.ced.csulb.edu/teacher-ed/resources/documents/masters.cfm.

Requirements
1. Methods of social science inquiry (6 units): EDP 400 and one of the following: EDP 520 or EDGC 533 for Comprehensive Examination track; EDP 595 or EDP 696 for Thesis track.
2. Core (15 units): EDGI 500, 505, 530, 625, 695 (to be taken in final semester).
3. Concentration (9 units): Candidates select an area of concentration, in consultation with the program advisor, tailored to their professional goals. Candidates are responsible for taking prerequisite courses if required. The concentration may be in one of the following patterns:
   A. Advanced methods (3 units): EDGR 540, EDGI 560, EDGI 570;
   B. Advanced coursework in Educational Technology: 9 units selected from the following: EDSP 542, ETEC 523, 525, 530, 551, 553;
   C. 9 units of advanced coursework in a self-selected concentration chosen in consultation with the program advisor (e.g., Social and Multicultural Foundations).
4. Capstone Experience
   Candidates select one of the following capstone experiences in consultation with the program advisor:
   A. Comprehensive Examination and EDGI 695 (3 units).
   B. Thesis and EDGI 696 (6 units).

Option in Curriculum and Instruction, Secondary Education (code EDELMA03)
(30-33 units)
The Master of Arts in Education, Option in Curriculum and Instruction, Secondary Education is designed to foster the development of educators who are caring, effective, reflective, and committed to improving their schools. Coursework prepares teachers to apply theoretical insights and research findings to the practical problems they encounter in their work in curriculum and instruction.

Prerequisite
A valid secondary teaching credential or by permission of program coordinator.

Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://www.ced.csulb.edu/teacher-ed/resources/documents/masters.cfm.

Requirements
1. Methods of social science inquiry (6 units): EDP 400, EDP 520.
2. Core (15 units): EDGI 500, 505, 530, 625, 695 (to be taken in final semester).
3. Concentration (9 units): Candidates select an area of concentration, in consultation with the program advisor, tailored to their professional goals. A concentration must follow a pattern or theme; a disparate set of unrelated courses is not a concentration. Thesis candidates should shape their concentration around research methodology and content related to their thesis topic. Candidates must submit a written statement containing a coherent rationale for and description of the concentration sequence at the time of advancement to candidacy. Concentrations may follow one of the patterns listed below or may be uniquely devised by the candidate. A concentration must have the approval of the program advisor. Candidates are responsible for taking prerequisite courses if required.
   A. Educational Technology (e.g., ETEC 523, 551, 553, 623);
   B. Educational Foundations (e.g., EDP 573, 574, 575, 576);
   C. Advanced coursework in the candidate's teaching discipline;
   D. Advanced coursework toward a Supplementary Authorization;
   E. Advanced coursework toward the Clear Credential;
   F. Advanced coursework toward GTED certification;
   G. Research methods courses in preparation for the thesis (e.g., EDP 595, 596, 696, EDGI 553).

4. Capstone Experience
   Candidates select one of the following capstone experiences in consultation with the program advisor.
   A. Comprehensive Examination and EDGI 695 (3 units).
   B. Thesis and EDGI 696 (6 units).

Option in Dual Language Development (code EDELMA04)
(30-33 units)
The Master of Arts in Education, Option in Dual Language Development focuses on bilingualism in school and societal contexts. The program, through its action research approach, seeks to develop a cadre of teacher-leaders who systematically and purposefully examine and refine their own pedagogy with respect to the instruction of language minority students.

Prerequisite
A valid teaching credential with BCLAD/CLAD emphasis or certification, or by permission of program coordinator. Demonstration of bilingual proficiency, or six (6) college semester units of a language other than English, or verified equivalent.

Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://www.ced.csulb.edu/teacher-ed/resources/documents/masters.cfm.

710 • Teacher Education • 2009/2010 CSULB Catalog
Requirements
1. Methods of Social Science Inquiry Requirements (6 units): EDP 400 & EDCI 533.
2. Core (15 units): EDCI 541, EDRG 551B, EDCI 532, LING 550, and EDCI 530 or EDP 574 or EDP 672.
3. Concentration (6 units): 6 units of advisor-approved electives.
4. Capstone Requirement (3-6 units): One of the following chosen in consultation with an advisor: EDCI 695 (3 units) and Comprehensive Examination; EDCI 698 (6 units) and Thesis.

Option in Early Childhood Education (code EDELMA05)
(30-33 units)
The Master of Arts in Education, Option in Early Childhood Education is designed to foster the development of educators who are able to apply research-based knowledge in designing developmentally and culturally appropriate curriculum and assessment strategies for children ages birth through 8. Candidates develop parent involvement strategies, reflect on issues facing the field, evaluate the quality of early childhood programs in their local communities, critically evaluate policies that impact young children and their families around the world, and utilize technology to enhance communication and learning.

Prerequisites
1. EDP 501 or HDEV 3071 or PSY 361.
2. EDEL 420
3. EDEL 432 or one year of documented and approved teaching experience.

Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://cgl.csulb.edu/teacher-ed/resources/documents/masters.cfm.

Requirements
1. Research methods (6 units): EDP 400 and one of the following: EDP 520 (for Comprehensive Examination track), or EDP 565 or EDP 696 (for Thesis track).
2. Core courses (21 units): EDEC 520, 521, 522, 523, 526, 621, 622.
3. One of the following chosen in consultation with the program advisor: EDEC 695 (3 units) and Comprehensive Examination; EDEC 698 (6 units) and Thesis.

Option in Reading/Language Arts (code EDELMA06)
(33-36 units)
The Master of Arts in Education, Option in Reading/Language Arts is designed for experienced classroom teachers who want to pursue in-depth study of issues related to reading and language arts education. The program provides educators with the theoretical and professional knowledge necessary to develop innovative, research-based reading and language arts curricula and to install the leadership skills necessary for successful reading program implementation for all students, including English language learners.

Prerequisites
A valid elementary or secondary teaching credential; ENGL 481 or ENGL 482 or EDC 520 or approved equivalent (can be taken concurrently with program requirements). CLAD certification is strongly recommended.

Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://www.ced.csulb.edu/teacher-ed/resources/documents/masters.cfm.

Requirements
1. All of the following (30 units): EDRG 540, 543, 544, 551, 554, 566, 586, 651, and EDP 595/LING 595. (Please contact the program advisor prior to beginning coursework.)
2. One of the following chosen in consultation with the program advisor (3-6 units): EDRG 695 (3 units) and Comprehensive Examination; EDRG 698 (6 units) and Thesis.

Option in Mathematics Education (code EDELMA07)
The Master of Arts in Education, Option in Mathematics Education is designed for teachers seeking to enhance their knowledge and skills in mathematics content and pedagogy. Candidates investigate research-based mathematics teaching and learning with a focus on developing their ability to assess the learning needs of diverse students, support students in achieving mathematics proficiency, integrate technology in mathematics instruction, and develop a balanced mathematics instructional program that focuses on conceptual understanding, procedural fluency, and problem solving.

Prerequisites
A valid teaching credential and six units in teaching mathematics (either or both may be waived by permission of the Program Coordinator).

Admission
In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Program applications are available in the College Graduate Studies Office (ED1-7) and online at http://www.ced.csulb.edu/teacher-ed/resources/documents/masters.cfm.

Requirements (30 – 33 units)
2. Core (9 units): EDM 500 or MTED 511, EDM 505, EDM 555.
3. Concentration (12 units): MTED 500, EDM 503, EDM 504, EDM 520.
4. Capstone Requirement (3-6 units): One of the following chosen in consultation with an advisor: EDM 695 (3 units) and Comprehensive Examination; EDM 698 (6 units) and Thesis.
Clear Conditional Admission: 
All Master's Programs
1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to attempt to fulfill the Graduation Writing Assessment Requirement (GWAR) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.
Please Note: Prior to admission to the master's program, students may take up to, but no more than, 9 units of coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.
In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.
Students must contact the advisor of Curriculum and Instruction Specialization no later than completing 6 units to plan an official program.
Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.
Advancement to Candidacy Requirements: All Master's Programs
1. All University requirements must be met;
2. Transcripts showing passed degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Secondary Master’s Program Option;
4. A minimum 3.0 overall grade point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
6. Personal-Professional Attributes: Applicants are required to submit a typed essay of not less that three pages, double spaced. The essay shall address the following: how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program faculty advisor;
7. An approved plan of study completed with the Curriculum and Instruction or Reading and Language Arts graduate advisor must be on file in the Graduate Office;
8. A student must be enrolled in regular session or the in summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

Elementary Education Courses (EDEL)

LOWER DIVISION
100. Introduction to Teaching and Learning in Diverse Contemporary Classrooms (1)
Prerequisite: Acceptance in the Integrated Teacher Education Program.
Addresses the qualities of an effective teacher, components and purposes of an effective professional portfolio, and critical issues in diverse contemporary classrooms.
Ten hours of field experience. Letter grade only (A-F).

200. Introduction to the Teaching Profession (3)
Introduction to the concepts and issues related to K-8 education in a democratic society.
Minimum 45 hours structured fieldwork in approved elementary, self-contained classroom required. A grade of "D" or better required for admission to the Multiple Subject Credential Program. Letter grade only (A-F).

UPPER DIVISION
300. Equity and Justice in Diverse Schools (3)
Prerequisites: EDEL 100 and 200, or approved articulated course from non-ITEP credentialing pathways, admission to Multiple Subject Credential Program.
Intended for ITPE students only. Addresses equity, social justice, cultural, and religious diversity. Models of English Language Development, including bilingual education, are introduced.
Letter grade only (A-F).

380. Teaching and Learning in a Democratic Society (3)
Corequisite: EDDP 303.
Professional, historical, social, philosophical, legal, and political concepts and issues related to K-8 education in contemporary society. 45 hours structured fieldwork in approved elementary, self-contained classroom required.
Required prerequisite for admission to the Multiple Subject Credential Program. Letter grade only (A-F).

413. Developmentally Appropriate Teaching Practices (2)
Research based theories and principles of development, learning, and motivation; developmentally appropriate teaching practices; subject specific pedagogy in health and physical education.
A minimum of 10 hours fieldwork in K-8 classrooms with a minimum 25% English Learners required. Letter grade only (A-F).

420. Teaching and Learning in the Kindergarten and Primary Grades (3)
Theories, research, policies, and current trends in teaching and learning in the kindergarten and primary grades. Integrates curriculum, pedagogy, and assessment with a special focus on diverse learners in the kindergarten and primary grades.
Ten hours of field work required.

430. Social and Cultural Diversity in US Schools (3)
Examination of personal attitudes towards social groups and diversity issues. Study of historical and structural factors that either empower or oppress people based on language, class, race, ethnicity, gender, sexual orientation, ability, or religion. Study of educational responses to diversity.
Letter grade only (A-F).

712 • Teacher Education • 2009/2010 CSULB Catalog
431. Cultural and Linguistic Diversity in Schools (3)
Multicultural education, including concepts of culture, educational equity, social justice, multiple forms of diversity, and anti-bias/anti-racist curriculum. Understanding the role of language development theory, and instructional accommodations for diverse students.
Ten hours fieldwork required. Letter grade only (A-F). Same course as EDP 431 and LING 431. Not open for credit to students with credit in EDP 431.

439. SDAIE: Specially Designed Academic Instruction in English (3)
Theories of second language acquisition and practical applications, including methods of teaching content to English language learners; oral, reading and writing strategies; and curriculum development with application to K-12 teaching.
Letter grade only (A-F).

442. Teaching and Learning Language Arts, K-8 (RICA) (3)
Prerequisite: Admission to the Multiple Subject Credential Program.
Language arts and visual/performance arts curriculum; developmentally appropriate practice, assessment, and research-based instruction in culturally/historically diverse classrooms; English Language Development; SDAIE; relationships among oral language, writing, spelling, reading, literacy, and technology.
Ten hours fieldwork in K-8 classroom with a minimum 25% English Learners required. Letter grade only (A-F).

452. Teaching and Learning Reading, K-8 (RICA) (3)
Prerequisite: Admission to the Multiple Subject Credential Program or Education Specialist Credential Program.
Content, methods, and assessment for teaching reading to all students in culturally diverse, literacy-based classrooms, including phonemic awareness, phonics, vocabulary development, comprehension, diagnosis, and the use of technology.
Ten hours fieldwork in K-8 classroom with a minimum 25% English learners required. Letter grade only (A-F).

452B. Teaching Reading in Spanish and English, K-8 (BCLAD) (1-3)
Prerequisite: Admission to the Multiple Subject Credential BCLAD (bilingual) Program.
Theory, research, and practice of teaching reading in two languages, including transfer of literacy skills from L1 to L2. Examines teacher beliefs and assumptions about literacy development among language minority students.
Letter grade only (A-F).

452C. Biliteracy: Teaching English and Chinese K-8 (3)
Prerequisite: Admission to the Multiple Subject Credential Program or consent of instructor.
Content, methods, and assessment for teaching literacy in K-8 English and Chinese bilingual settings. Course lecture, activities, and assignments in English and Chinese. Ten hours fieldwork in elementary bilingual and sheltered English/Chinese classrooms required.
Letter grade only (A-F).

458. Newspaper in Education (1-3)
Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem solving. Understanding mass media.
Same course as EDSE 458. Not open for credit to students with credit in EDSE 458.

462. Teaching and Learning Mathematics, K-8 (3)
Prerequisites: Admission to the Multiple Subject Credential Program.
Learning theories, research, and instructional practices for teaching mathematics to all students in culturally and linguistically diverse classrooms.
Ten hours fieldwork in K-8 classroom with minimum 25% English learners required. Letter grade only (A-F).

472. Teaching and Learning History-Social Science, K-8 (3)
Prerequisites: Admission to the Multiple Subjects Credential Program. Theory, research, and content for standards-based history-social science teaching in diverse classrooms.
Ten hours fieldwork in K-8 classroom with a minimum 25% English learners required. Letter grade only (A-F).

475. Teaching and Learning Science, K-8 (3)
Prerequisite: Admission to the Multiple Subject Credential Program.
Methods for teaching elementary school science. Development of sequenced, integrated, inquiry based science lessons addressing the needs of all learners.
Sixty contact hours, however face-to-face contact is less due to an on line distance component (see Schedule of Classes footnote).
Ten hours fieldwork in K-8 classroom with a minimum 25% English learners. Completion of TPA Task 3 is partial fulfillment of this course. Letter grade only (A-F). Course fee may be required. Same course as SCED 475. Not open for credit to students with credit in SCED 475.

482. Student Teaching in Diverse Classrooms (6)
Prerequisites: Admission to 2042 Multiple Subject Credential Student Teaching including successful completion of Teacher Performance Assessment (TPA) Tasks 1 and 2.
Integrated student teaching in K-8 public schools with separate eight week assignments at two of the following levels: K-2, 3-5, or 6-8. Emphasis on teaching in diverse, mainstreamed classrooms. Weekly seminar.
Credit/No Credit grading only with an equivalent grade of "A" or "B" and satisfactory completion of TPA Task 4 required for credit. May be repeated to a maximum of 16 units.

482B. Student Teaching in Bilingual Classrooms (6)
Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching.
Teaching assignment for one semester in a public school in grades K-8 with assignments at primary and intermediate levels, or one semester in a designated bilingual classroom. Emphasis on teaching experiences with children of limited English proficiency and on primary language instruction. Weekly seminar.
Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. May be repeated to a maximum of 16 units in the same semester.

482C. Student Teaching in Bilingual Classrooms (8)
Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching.
Teaching assignment for one semester in a public school in grades K-8 in a designated bilingual classroom under an emergency credential, with assignments at the primary and intermediate levels. Emphasis on teaching experiences with limited English proficient speakers and primary language instruction. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "C" or "D" required for credit. May be repeated to a maximum of 16 units in the same semester.

482D. Student Teaching in Diverse Classrooms (8)
Prerequisite: Admission to 2042 Multiple Subject Credential Student Teaching including successful completion of Teacher Performance Assessment Tasks 1 and 2.
One semester integrated student teaching assignment in a K-8 public school with assignments at two of the following levels: K-2, 3-5, or 6-8. Emphasis on experiences in diverse, mainstreamed classrooms with English Learners. One assignment includes gifted students, students with disabilities, or EL students.
Weekly seminar included. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

2009/2010 CSULB Catalog • Teacher Education • 713
Elementary Education Courses (EDEL)

482E. Student Teaching in Bilingual Classrooms-Asian Languages (6)
Prerequisite: Admission to Multiple Subject Asian BCLAD Credential Program Student Teaching.
Integrated student teaching assignment in a K-6 public school at two of the following: K-2, 3-5, or 6-8 (one must be in an Asian Language/English bilingual setting). Emphasizes experiences in diverse, mainstream classrooms with Spanish bilinguals whose native language is one of the following: Cantonese, Khmer, Korean, Mandarin, or Vietnamese.
Seminar included. Credit/No Credit grading only with an equivalent grade of "B" or better required for credit including passage of TPA Task 4. May be repeated to a maximum of 15 units in the same semester.

482F. Student Teaching in Spanish Dual Language Development Classrooms (6)
Prerequisite: Admission to Multiple Subject Credential Student Teaching.
One semester integrated student teaching in a K-6 public school with assignments at two of the following: K-2, 3-5, or 6-8. Emphasizes experiences in diverse classrooms with English Learners. Practicum in using English for instruction. Spanish primary language management for explanation, clarification, and review.
Seminar included. Credit/No Credit grading only with an equivalent grade of "B" or better required for credit including passage of TPA Task 4. May be repeated to a maximum of 15 units in the same semester.

490. Special Topics in Elementary Education (1-3)
Topics of current interest in elementary education selected for intensive study.
May be repeated to a maximum of 6 units with different topics. Topics will be announced in the Schedule of Classes.

497. Independent Study (1-3)
Prerequisites: Consent of instructor and department chair.
Independent study undertaken under the supervision of a faculty member.
May be repeated to a maximum of 6 units but no more than 3 units applicable to credential or major requirement.

GRADUATE LEVEL

572A. Multiple Subject Internship (8)
Prerequisites: Admission to 2042 Multiple Subject Internship and advancement to Intern Student Teaching.
The Intern is a full-time teacher in a public school district with which CSULB has an intern agreement. Intern Student Teaching is a two-semester or one-semester culminating fieldwork experience. Weekly seminar, Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

572B. Multiple Subject Internship (8)
Prerequisites: Admission to 2042 Multiple Subject Internship and advancement to Intern Student Teaching.
The Intern is a full-time teacher in a public school district with which CSULB has an intern agreement. Intern Student Teaching is a two-semester or one-semester culminating fieldwork experience. Weekly seminar, Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

599. Special Topics in Teacher Education (1-3)
Study of special topic in teacher education. Students must be enrolled in a Masters or Advanced Credential or Specialist Program. Topics will be announced in the Schedule of Classes. Letter grade only. A-F. May be repeated to a maximum of 6 units with different topics.

Education Middle School Courses (EDMS)

GRADUATE LEVEL

692. Developing Teacher Leadership in Middle Level Education (3)
Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or consent of instructor.
Involves administrators and teachers in developing middle level teacher leadership through the lens of teacher empowerment. Theory and practice of collaborative and action research models as tools for school improvement. Letter grade only (A-F). Same course as EDAD 653. Not open for credit to students with credit in EDAD 683 and EDEL 692.

Secondary Education Courses (EDSE)

UPPER DIVISION

445. United States Secondary Schools: Intercultural Education (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program.
Critical reflection on multicultural education in a diverse society. Philosophy, history and sociology of education as fundamental to understanding contemporary secondary schools. Curriculum and student populations in the context of issues and controversies in education. Approved CLAD Certificate course (Domain 3). Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

446. Curriculum, Instruction, Assessment and Classroom Management (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Explores systematic instruction, theories of learning, curriculum development, teaching strategies, assessment and evaluation of student progress, classroom management and discipline, and establishing successful learning environments for all students. Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

459. SDAIE: Specially Designed Academic Instruction in English (3)
Thories of second language acquisition and practical applications, including methods of teaching content to English language learners, oral, reading and writing strategies, and curriculum development with application to K-12 teaching.
Letter grade only (A-F). Same course as EDEL 439 and EDP 439. Not open for credit to students with credit in EDEL 439 and EDP 439.

457. Reading and Writing in the Secondary School (3)
Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission
of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program.
Emphasis on reading and writing assessment and instruction; textbook selection; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; English Language Development; the reading needs of less prepared, English language, and accelerated learners; and issues of diversity and equity.

Minimum fifteen hours of field work required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

458. Newspaper in Education (1-3)
Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem solving. Understanding mass media.
Some course as EDEL 458. Not open for credit to students with credit in EDEL 458.

490. Special Topics in Secondary Education (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in secondary education selected for intensive study. A student may enroll for a maximum of six units for certificate and degree purposes, subject to suitable change in course content. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

497. Independent Study (1-3)
Prerequisite: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 6 units, but no more than 3 units applicable to credential or major requirement.

---

Curriculum and Instruction Courses (EDCI)

GRADUATE LEVEL

500. Studies in Curriculum and Instruction (3)
Prerequisite: Admission to the Curriculum and Instruction Master’s Program or consent of instructor.
Introduction to graduate study. Overview of curriculum and instruction as a field of inquiry. Reading critically and conducting educational research. Using reflective strategies to analyze and improve professional practice. Letter grade only (A-F).

505. History of Education in the United States (3)
Prerequisite: Admission to an approved masters program or consent of the instructor. Must be taken during the first or second semester in the Master’s Program.
Advanced exploration of the major historical and philosophical paradigms of elementary and secondary education in the United States from which contemporary educational reform movements, curricula, and instructional practices have emerged. Letter grading only (A-F).

Prerequisite: Basic teaching credential or consent of instructor.
Advanced study in mathematics methods in K-5 settings by applying state and national mathematics standards and principles to research-based practices. Letter grade only (A-F).

530. Cross-cultural Education: US and Global Perspectives (3)
Prerequisite: Admission to an approved Master’s program or consent of the instructor.
Critical analysis of cultural diversity, educational equity, and global interdependence to enhance cross-cultural competence. Students will investigate research literature, apply research-based knowledge to their educational practice, and infuse cross-cultural concepts, skills, and attitudes into the K-12 curriculum. Letter grade only (A-F).

532. Socialization of Literacy in More Than One Language (3)
Prerequisites: Admission to the Masters of Education program, Option in Elementary Education, Dual Language Specialization, or consent of the instructor.
Examination of the social and cultural relationships between language and text from early utterances to adult literacy processes. Analyses of the contexts and conditions that influence literacy development for first and second language learners.
Ten hours fieldwork required. Letter grade only (A-F).

533. Action Research Methods: Teachers as Inquirers (3)
Prerequisite: Admission to the Curriculum and Instruction Master’s Program or consent of instructor.
Examination of goals and features of action research, with focus on developing skills in data collection and analysis in order to support sustained action research as a teacher/researcher in classroom settings.
Letter grade only (A-F).

540. Assessment in Teaching and Learning Mathematics (3)
Prerequisite: Basic teaching credential or consent of instructor.
Focuses on developing advanced competency in designing assessment methods aligned with the NCTM Assessment Standards and in interpreting and using assessment results for planning and teaching mathematics in linguistically and culturally diverse classrooms.
Letter grade only (A-F).

541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)
Prerequisites: A valid California CLAD teaching credential or equivalent.
Principles of curriculum development, including primary, dual, and second language teaching and learning. Critical literacy: Includes research and program design internationally. (Offered in US or Mexico.)
Ten hours fieldwork required. Letter grade only (A-F).

550. Technology in Teaching and Learning Mathematics (3)
Prerequisite: Basic teaching credential or consent of instructor.
Advanced approaches to integrating contemporary technologies in mathematics planning, teaching, and assessment at the K-8 level. Focus on integrating technology to provide differentiated and individualized learning opportunities to meet the needs of linguistically and culturally diverse students.
Letter grade only (A-F).

560. Advanced Study in Mathematics Education (3)
Prerequisites: EDCI 500 and admission to an approved masters program or consent of the Instructor.
Advanced study and research in elementary school mathematics with an emphasis on content, method, and materials. Students participate in an investigation and appraisal of contemporary mathematical content, effective teaching methods, appropriate materials, assessment, and enrichment of the elementary mathematics program.
Letter grade only (A-F).
Curriculum and Instruction Courses (EDCI)

570. Advanced Studies in Teaching History-Social Science (3)
Prerequisites: EDEL 472; EDP 400; EDP 520 or 596, or equivalent.
Intensive study of selected topics related to teaching and learning
history-social science. Students engage in a systematic inquiry into
their own practice as they conduct a teacher action research project.
Letter grade only (A-F).

580. Algebra: Research-based Pedagogy for K-8 Teachers (3)
Prerequisite: Basic teaching credential or consent of instructor.
Integration of pre-algebra and algebra content and pedagogy in K-8
classrooms. Exploration of recent research trends, national policies,
and standards related to algebra curriculum and teaching.
Letter grade only (A-F).

615. Contemporary Issues in Elementary and Secondary
Education (3)
Prerequisites: EDCI 500 and admission to an approved masters
program or consent of the instructor.
Advanced analysis of current trends and issues in specific areas
of elementary and secondary education. In-depth exploration
of research perspectives and societal factors that influence
the direction of elementary and secondary education in America.
Letter grade only (A-F).

625. Analysis of Curriculum, Instruction, and
Assessment (3)
Prerequisites: EDCI 600, 605, EDP 400; and one of the following
EDP 520, 595, or 698 or EDCI 533; consent of the instructor.
Advanced study of curriculum design, instructional processes, and
student assessment through analysis of theory and research on
meeting and learning. California K-12 Content Standards and the
California Standards for the Teaching Profession are used to align
curriculum, instruction, and assessment.
Letter grade only (A-F).

695. Seminar in Curriculum and Instruction (1-3)
Prerequisites: EDCI 500, 600, 625 and advancement to candidacy,
or by permission of instructor.
Studies in curriculum and instruction. Course content will be
determined by the instructor offering each section.
Offered on an irregular basis; consult the Schedule of Classes.
Letter grade only (A-F).

697. Directed Research in Curriculum and Instruction
(1-3)
Prerequisites: Permission of instructor, department chair, and
associate dean.
Individual research or intensive study under the guidance of a
faculty member.
A student may enroll for one to three units to a maximum of six units
for certificate and degree purposes, subject to a suitable change in
course content. Application for enrollment must be made by October
1 for the spring semester or by March 1 for the fall semester or
summer session. May be repeated to a maximum of 6 units in
different semesters.

698. Thesis Study in Curriculum and Instruction (3)
Prerequisites: Advancement to candidacy; approval of thesis
director, department chair and associate dean.
Planning, preparation, and completion of thesis under supervision of
a thesis committee.
Application for enrollment must be made in the Graduate Studies
Office by October 1 for the spring semester or by March 1 for the fall
semester or summer session. Credit/no credit grading only. May be
taken for a maximum of 6 units in different semesters.

Early Childhood Education Courses (EDEC)

GRADUATE LEVEL

520. Early Childhood Curriculum and Assessment: Critical
Perspectives (3)
Examines the history of competing movements in American early
childhood curriculum thinking, program models, and current debates.
Develops curriculum and assessment measures that integrate anti-
bias, inclusive, and multicultural and global education into a unified
approach.
Ten hours of field work required. Letter grade only (A-F).

521. Historical and Contemporary Perspectives in Early
Childhood (3)
Historical and contemporary perspectives in early childhood education
and their impact on ECE programs, practices, and policies. Role
of national/global organizations in institutionalizing and promoting
various ECE perspectives and images of childhood. Debates over
perspectives.
Ten hours of field work required. Letter grade only (A-F).

522. Parent Education and Involvement in Educational
Environments (3)
Analysis of theories, research, issues, policies, programs, and
practices pertaining to parent involvement in diverse and inclusive
educational settings. Students design and implement home based and
schoolcenter based parent involvement activities.
Ten hours of field work required. Letter grade only (A-F).

523. Leadership, Advocacy and Supervision of Early
Childhood Programs (3)
Discussion of various types of ECE programs, program development
and implementation, different management approaches and leadership
tyles, and advocacy for young children and their families. Analysis of
position statements and state documents pertaining to ECE programs.
Ten hours of field work required. Letter grade only (A-F).

526. Advanced Study of Infant and Toddler Programs (3)
Prerequisites: EDP 301 or consent of instructor.
Analysis of theories, research, and policies on infant and toddler
care and education. Discussion of curriculum, environmental plan,
and assessment for infant and toddlers. Infant/toddler program
assessment.
Ten hours of field work required. Letter grade only (A-F).

621. Research Seminar in Early Childhood Education (3)
Prerequisites: EDP 400 and teaching experience.
Discussion and analysis of research including qualitative research
design and review of literature on topics pertaining to the field of Early
Childhood Education.
Ten hours of field work required. Letter grade only (A-F).

622. Seminar in Early Childhood Care and Education:
International Perspectives (3)
Discussion of ECE programs around the world. Analysis of social,
political, and economic influences on policies related to the care
and education of young children. Examines the role of Inter- national
and national agencies in protecting children's welfare and education.
Letter grade only (A-F).

695. Seminar in Early Childhood Education (3)
Prerequisites: Advancement to candidacy, approval of the Early
Childhood Education program advisor, and written application
submitted to the Graduate Studies Office by March 1 for the fall
semester or by October 1 for the spring semester.
For qualified candidates preparing to take the comprehensive
examination. Consideration of curriculum role of the school and
topics related to the effectiveness and excellence in early childhood
education.
Letter grade only (A-F).
697. Directed Research in Early Childhood Education (1-3)
Prerequisites: Permission of instructor, department chair, and associate dean.
Individual research or intensive study under the guidance of a faculty member.
Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session.
May be repeated to a maximum of 6 units in different semesters for certificate and degree purposes, subject to suitable change in course content.

698. Thesis Study in Early Childhood Education (3)
Prerequisites: Advancement to candidacy; approval of thesis advisor, department chair, and associate dean.
Planning, preparation, and completion of thesis under supervision of a thesis committee.
Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session. Credits in credit only. May be repeated to a maximum of 6 units in different semesters.

Reading Education Courses (EDRG)

GRADUATE LEVEL

520. Resources for Reading Teachers (3)
Prerequisite: Admission to the Reading Certificate Program or consent of instructor.
Exploration of appropriate and theoretically grounded reading resources and strategies that can be used to help all children succeed in reading. Includes survey and analysis of age appropriate multimodal texts for children and adolescents.
Letter grade only (A-F).

540. Advanced Studies in Literacy (3)
Prerequisite: A valid teaching credential or admission to an approved masters, certificate, or advanced credential program, or consent of instructor.
Emphasizes advanced study of literacy research, theory, and practice. Survey of issues of first and second language acquisition/development, and curriculum trends in literacy.
Letter grade only (A-F).

543. Integration of Technology in Reading/Language Arts (3)
Prerequisites: EDP 443 or ETEC 444 or equivalent, or a course approved by CTC, or a course approved by CCCC to meet the Level I technology requirement or approval of the instructor.
Investigation and evaluation of software and media programs for reading/language arts. Current issues in technology, change strategies for staff development, integration of technology in the curriculum.
Letter grade only (A-F).

544. Foundations of Literacy Research (3)
Prerequisite: California Reading Certificate or consent of instructor.
Introduction to critical analysis of literacy research with emphasis on classic and contemporary studies.
Includes experimental designs, descriptive studies, case studies, correlational research, ethnographies, and the teacher as researcher.
Letter grade only (A-F).

551. Assessment and Instruction in Reading and Writing (3)
Prerequisites: Admission to Reading Certificate Program or consent of instructor.
Comprehensive study of literacy assessment and instruction including examination and evaluation of effective literacy procedures, strategies, and materials. Emphasis on detection and correction of reading difficulties.
Fieldwork required. Letter grade only (A-F).

551B. Assessment of Literacy with Bilingual Students (3)
Prerequisites: Speaking and reading competence in Spanish; consent of the instructor.
Evaluation of measures, strategies, and materials used to assess literacy in bilingual students. Special emphasis on issues regarding the interpretation of assessment data, program placement, and instruction of English learners.
Requires diagnostic assessment/intervention plan. Participation by speakers of languages other than Spanish is possible as literacy assessments in diverse languages become available. Letter grade only (A-F).

554. Reading/Language Arts Curriculum: Leadership and Supervision (3)
Prerequisite: California Reading Certificate or consent of instructor.
Examines varied roles and responsibilities of the Reading/Language Arts Specialist including supervision, curriculum development, evaluation, program development, and leadership.
Letter grade only (A-F).

556. Theoretical Models and Processes of Reading (3)
Prerequisite: California Reading Certificate or consent of instructor.
Exploration and analysis of current and historical theoretical models of the reading process. Examination of their influence on curriculum and instructional issues in literacy.
Letter grade only (A-F).

558. Language Study for Reading Teachers (3)
Prerequisites: EDRG 540 and admission to the Reading Certificate program or consent of instructor.
Relationships among phonology, morphology, semantics, syntax, pragmatics, and the teaching of reading. Focus on phonemic awareness, phonics, decoding strategies, vocabulary, spelling, grammar skills, and English language learners.
Letter grade only (A-F).

559. Practicum in Teaching Reading/Language Arts (3)
Prerequisites: EDRG 551 or equivalent, valid California Reading Certificate or consent of instructor.
Includes clinical practicum and seminar on diagnosis and providing appropriate intervention for children with delayed literacy development.
Letter grade only (A-F).

695. Seminar in Reading (3)
Prerequisites: Advancement to candidacy approval of Reading Program advisor, and written application submitted to the Graduate Studies Office by October 1 for the spring semester; successful completion of all required coursework for the Master of Arts in Education, Option in Elementary or Secondary Education, Specialization in Reading.
Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

697. Directed Research in Reading (1-3)
Prerequisites: Permission of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member.
Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session.
May be repeated to a maximum of 6 units in different semesters.

2009/2010 CSULB Catalog • Teacher Education • 717
505. Technology in Teaching and Learning Mathematics (3)  
Prerequisites: Basic teaching credential, EDME 501 and EDME 502 or equivalent, or consent of instructor. 
Advanced approaches to integrating contemporary technologies in teaching and learning mathematics. Focus on integrating technology to provide differentiated and individualized learning opportunities to meet the needs of linguistically and culturally diverse students. 
Letter grade only (A-F).

520. Algebra: Research-Based Pedagogy (3)  
Prerequisite: Basic teaching credential or consent of instructor.  
Integration of pre-algebra and algebra content and pedagogy in mathematics classrooms. Exploration of recent research trends, national policies, and standards related to algebra curriculum and teaching.  
Letter grade only (A-F).

550. Global Perspectives in Mathematics Teaching (3)  
Prerequisite: Basic teaching credential or consent of instructor.  
Developing global perspectives in mathematics teaching through case study and lesson analysis; exploring, analyzing, and applying multifaceted teaching approaches of different cultural and educational systems.  
Letter grade only (A-F).

695. Advanced Studies in Mathematics Education (3)  
Prerequisites: Advancement to candidacy in the Mathematics Education Program; approval of the Program Advisor; written application to take the comprehensive examination to the College of Education Graduate Office by March 1 for the fall semester or by October 1 for the spring semester.  
Studies of problems and issues in the teaching and learning of mathematics. Relating research to teaching practice. For qualified candidates preparing to write the comprehensive examination.  
Letter grade only (A-F).

696. Thesis Study in Mathematics Education (3)  
Prerequisites: Advancement to candidacy in the Mathematics Education Program; approval of thesis advisor, department chair, and associate dean.  
Planning, preparation, and completion of thesis under supervision of a thesis advisor. Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session.  
Credit/No Credit grading only. May be repeated for a maximum of 6 units in different semesters.
Theatre Arts
College of the Arts

Department Chair: Joanne Gordon
Department Office: Theatre Arts (TA), Room 221
Telephone: (657) 951-7691
Faculty: Craig Fleming, Joanne Gordon, Holly Heubinger, W. Jeffrey Hickman, David Jacques, Danita Korogolsky, Barbara Matthews, Patrick McDonough, Kon Novos, Hugh O'Gorman, Orlando Poblo, Nancy Jo Smith, Morris Wara
Undergraduate/Graduate Advisor: Barbara Matthews
Administrative Coordinator: Micky Small

Career Possibilities
Actor • Director • Stage Manager • Lighting Designer • Costume Designer • Set Designer • Technical Director • Teacher • Theatre Administrator • Theatre Manager • Director of Development • Box Office Manager • Managing Director • Artistic Director • Marketing Director • Scenographer • Playwright • Writer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The Department of Theatre Arts offers the Bachelor of Arts degree with opportunities for options in Performance (acting) and Technical Theatre (scenery, lighting, costume). This flexibility of program has been organized to serve student needs in three principal areas: (1) Enrichment of the student's liberal arts background, (2) Development of interests and skills in the theory and practice of Theatre Arts, (3) Preparation for theatre professions in community theatre, professional theatre, educational theatre, and professional theatre. Courses offered cover the full range of world drama from both the viewpoint of theatre and dramatic literature.

The W. David Stevens Memorial Scholarship in acting, named for the first faculty member of the theatre program, is awarded annually to new students who exhibit potential in the field of performance. This award consists of a modest sum and is determined through competitive audition judged by faculty. In addition, the Fine Arts Affiliates of the University and the Dramatic Allied Arts Guild of Long Beach provide monetary awards to qualified students in all areas of theatre. For further information contact the Department of Theatre Arts.

The Department of Theatre Arts offers graduate study leading to the Master of Fine Arts degrees. The candidate is urged to observe the general requirements stated in this Catalog, as well as the specific departmental requirements stated herein and, more fully, in the Department Plan, available upon request from the department.

All majors are required to participate in the departmental production program. Furthermore, majors enrolled in any acting course are expected to audition and participate in departmental productions in that semester. The student is expected to accept any role in which he/she is cast. Majors are also expected to seek approval from their advisor before making any commitment to a theatre program which lies outside of the departmental academic program.

The Theatre Arts Department holds division II membership in the National Association of Schools of Theatre (National Association of Schools of Theatre, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700). The Bachelor of Arts and the Master of Fine Arts degrees are accredited by the association. The department is also a member in good standing with the Theatre Communications Group, the International Theatre Institute of the United States and the United States Institute of Theatre Technology.

Undergraduate Programs

Bachelor of Arts in Theatre Arts
(code THEABA01) (120 units)

The Bachelor of Arts in Theatre Arts provides the opportunity for the student to gain a broad exposure to the discipline. The curriculum requires study in Acting, Technical and Design Crafts, the History, Literature and Criticism of Theatre, and Directing. After completion of the lower division core students may choose to audition/interview for placement in the performance or design options.

Requirements
The Theatre Arts core is required for all majors regardless of option.

Lower Division Core: THEA 101, 111, 114A, 142, 146, 148, 201, 271.
Upper Division Core: THEA 321, 322, 324, 374, 426.

And three (3) units of production from the following: THEA 310A, 310B, 340A, 340B, 410A, 410B, 440A, 440B.

No more than eight units of Theatre Arts activity (cast and/or crew) will apply toward degree requirements.

Crow requirements for all majors: One major running crew assignment in residence for each of the areas of costume, stagecraft and lighting to be satisfactorily completed.

Students with transfer credit in those related courses must fulfill the same running crew requirements within the first three semesters of matriculation in the University.

At the beginning of the semester, all incoming students, including transfer students (including those who have been inactive for a year in our department), are required to audition or interview. Auditions and interviews are conducted by appropriate faculty/staff members. These auditions are required for admittance to certain upper division classes and are therefore used for appropriate placement of students at their level of competency as determined by the faculty.

Option in Performance: Acting
(code THEABA02) (120 units)

Lower Division Core: THEA 101, 111, 114A, 142, 146, 148, 201, 271.

Upper Division Core: THEA 321, 322, 324, 374, 426.

In addition to the core courses take all of the following: THEA 112, 114B, 214, 262. Select nine (9) units from the
following: THEA 144, 216, 290, 312, 316, 318, 375, 413, 414, 415, 462, 476, 490, 498.

All performance majors will also fulfill four performance requirements to graduate. This requirement is met through acting, understudying, directing or assistant directing for a Mainstage or Second Stage production; acting or directing for a Showcase production; or by a special assignment approved by the performance faculty.

**Option in Technical Theatre:**
Scenery/Costume/Lighting Design (code THEABA03) (120 units)

Lower Division Core: THEA 101, 111, 114A, 142, 146, 148, 201, 271.

Upper Division Core: THEA 321, 322, 324; 374, 426.

In addition to the core courses taken, all of the following: THEA 144, 341, 342, 441, 442, 444, 446, 447, 448, 449, 451, 470, 498.

All technical theatre majors will also fulfill four production requirements in order to graduate. This requirement is met through scenic, lighting, sound, costume, or makeup design or assistant design; technical direction or assistant; prop master; master painter; stage management or assistant; cutter or stitcher; or by special assignments as approved by the faculty in the appropriate area.

**Minor in Theatre Arts (code THEAM01)**

This minor may be combined with any major at CSULB except the BA in Theatre Arts. Students are admitted to the minor after having completed a minimum of 30 units of college level coursework including all 12 units of General Education Foundation courses with a cumulative GPA of 3.0 or higher.

**Requirements**
1. Complete 12 units: THEA 101, 111, 114A or 142.
2. Select 9 units from the following (at least 3 must be upper division): THEA 112, 114A, 114B, 142, 146, 148, 214, 262, 316, 374, 433, 426.
3. Recommended GE Capstone (Note: will not be counted as part of the minor): THEA 324.

**Graduate Programs**

**Master of Fine Arts in Theatre Arts**

The Master of Fine Arts Degree in Theatre Arts is the terminal degree offering the professional training deemed necessary by the major Theatre Arts Schools in the United States.

All students admitted to the MFA program are members of California Repertory Company and are subject to the operating procedures of the company. CalRep, the professional arm of the Theatre Arts Department, prepares and performs plays from the canon of international dramatic literature.

MFA Transfer and Residence Policy

Transfer credit allowable toward the MFA may not exceed 20 units. The Graduate Advisor must approve all transferred credit use in the MFA Program.

**Criteria for Admission to the Program**

1. Students applying for the MFA program must have completed a bachelor's or master's degree in Theatre Arts from an accredited institution with a 3.0 GPA in upper-division theatre courses, meet University admission requirements, and submit evidence of creative ability and professional intent in one of the following areas: Acting, Technical Theatre/Design, Theatre Management, Dramatic Writing.

2. When an undergraduate degree has been completed in a program having different requirements than those at CSULB or in some field other than Theatre Arts, additional preparation and time may be required before the student can be considered for classified status in the degree program.

3. Units of credit from coursework in a graduate program may be acceptable after review by the faculty evaluation committee, and approval by the Dean.

4. Admission to the program in Acting requires audition and interview. Admission to the program in Technical Theatre/Design requires interview and/or submission of original work such as manuscripts, designs, renderings, slides, digital images, models, and/or working drawings.

5. All students admitted into the MFA program will be admitted as conditionally classified. In order to obtain fully classified status, a committee from the Theatre Arts faculty must authorize continuation in the program after evaluating academic progress, individual skills development, and review of performance or portfolio at the end of the student's first full year of residence.

**Advancement to Candidacy**

1. Achieve fully classified status;
2. Remove all undergraduate deficiencies determined by the departmental evaluation and the Dean of the College;
3. Submit a program for approval by the department chair, the graduate advisor and the Dean of the College.

**Requirements**

The MFA degree is a 60-unit degree requiring full-time residency. Course requirements are arranged according to the following structure depending on the student's choice of option.

The options share a common core of courses, which offers study in aesthetics, conceptualization, history, theory, literature, and research. The remainder of the courses offers students the opportunity further to develop artistic skills in their particular area of option. The program culminates in a major creative project and written project report.

**Option in Acting (code THEAM01)**

The Acting option requires work in voice, movement, and process each semester. Process classes explore a wide range of acting styles. Ongoing performances in public presentations are required.

Option in Technical Theatre/Design (code THEAMF02)

The Technical Theatre/Design option requires work in a variety of skills development that emphasizes the technological as well as the artistic aspects of design and execution. Continuous advancing assignments in productions for public performances are required.

Requirements

Concentration core classes: THEA 517 (4 units), 518 (4 units), 519 (4 units), 523, 524, 541, 544, 550, 552, 584 (2 units) 696, 699 (2 units).

Costume Concentration: 60 units: THEA 548A/B, 556A/B, 656A/B, 540, 554, 583, and 5 units of electives.

Electives, with advisor's approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

Electives, with advisor's approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

Lighting Concentration: THEA 548A/B, 648A/B, 649A/B, 545, 555, and 7 units of electives.

Electives, with advisor's approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

Option in Theatre Management (code THEAMF03)

The option in Theatre Management requires work in a number of different areas including front of house, box office management, press relations, outreach, development, contracts, and fundraising. Successful completion of different assignments in each area is necessary for advancement in the program.

60 units to include: THEA 502, 503, 504, 507, 517 (4 units), 518 (4 units), 519 (4 units), 523, 524, 550, 602 (6 units), 603, 636, 696 (3 units), MKTG 502, ACC 500, and 6 units of electives. Electives with advisor's approval may be taken from the University at large.

Option in Dramatic Writing (code THEAMF04)

The MFA in Theatre Arts, Option in Dramatic Writing is offered by the Department of Theatre Arts, with primary support from the Department of Film and Electronic Arts, and additional support from the Department of Communication Studies and the Department of Comparative World Literature and Classics. The MFA in Theatre Arts begins with a focus on the professional training so necessary by the major theatre arts schools in the United States. The MFA in Theatre Arts, Option in Dramatic Writing prepares students for university and college teaching and for positions in the entertainment, media, and publishing industries. "Dramatic Writing" is defined as creative (fiction and non-fiction) writing for all forms and genres of collaborative and performance media. The MFA in Theatre Arts, Option in Dramatic Writing culminates in a thesis writing project of publishable/producing quality.

Criteria for Admission to the Program

1. Students applying for admission to the MFA program should have completed a bachelor’s or master’s degree in Theatre Arts from an accredited institution with a minimum 3.0 GPA in upper division theatre courses, meet university admission requirements, and submit evidence of creative ability and professional intent in Dramatic Writing.

2. When an undergraduate degree has been completed in a field other than that named above, additional preparation may be required before the student can be considered for classified status in the degree program. (Although the Graduate Advisor will consider each student's academic background in determining what courses need to be taken, the following are generally required: THEA 321 and THEA 322 Theatre History, Theatre 324 Theatre Today, and THEA 426 Dramatic Theory and Criticism.) Transferable credit allowable toward the MFA may not exceed 20 units. The Graduate Advisor must approve all transferred credit use in the MFA Program.

3. Admission to the program in Dramatic Writing requires interview and submission of portfolio of creative writing.

4. All students admitted into the MFA program will be admitted as conditionally classified. In order to obtain fully classified status, a committee from the Theatre Arts faculty must authorize continuation in the program after evaluating academic progress, individual skills development, and review of portfolio at the end of the student's first full year of residence.

Advancement to Candidacy

1. Attain fully classified status;
2. Remove all undergraduate deficiencies as determined by the departmental evaluation and the Dean of the College;
3. In consultation with the Graduate Advisor, submit a program for approval to the department chair and the Dean of the College.

Requirements for Completion

The MFA in Theatre Arts, Option in Dramatic Writing degree program is 60 units, normally requiring full-time residency. The program culminates in a major thesis writing project of publishable/producing quality. Course requirements are arranged according to the following structure:

Core A - Dramatic Writing (12 units): Take the following:
FEA 604A, 604B, 604C, 604D

Core B - (9 units): History, Theory, Criticism, Production and Writing
Required courses: THEA 523, 524, 696
Core B 1 - (12 units) chosen from: THEA 374*, 375*, 380, 426*, 427*, 507, 550, 590, 604

Core C - Rhetorical Theory, Criticism, and Communication Studies (6 units): Take the following: COMM 633, 640

Core D - Comparative World Literature and Classics (6 units): Two courses chosen from: CWL 502, 503, 504, 537, 538, 540, 545, 549 (topic dependent per advisement), 552, 561

MFA Thesis (6 units): THEA 699
Effective Course (9 units): Effective Courses
Master of Business Administration /
Master of Fine Arts in Theatre Management (code THEAMZ01)

The MBA/MFA degree will prepare arts professionals in all areas of both arts administration and business for professional careers in arts management—in performing and exhibiting arts organizations, in arts service organizations, in government, funding agencies and arts councils. The program prepares students for high level administrative positions and provides the background essential for advancement in professional management careers.

Admission Criteria for MBA/MFA

Candidates for this program must hold the equivalent of an undergraduate degree from an accredited institution of higher learning with a minimum of 24 units of upper division work in Theatre Arts. They should have achieved an undergraduate grade point average (GPA) of at least 2.75 (B-) and 3.0 GPA in upper division theatre courses. All candidates for admission are required to complete the Graduate Management Admission Test (GMAT) and achieve a score of at least 475. The GMAT measures general verbal, mathematical, and analytical writing skills that are developed over a long period of time and are associated with success in the first year of study at graduate schools of management. For each applicant, there is a departmental evaluation, based upon diagnostic examination and an analysis of official undergraduate transcripts to determine deficiencies and all areas which must be strengthened by the graduate program.

Requirements

Business Core 1 (12 units)
ACCT 500, FIN 501, MGMT 500, MKTG 500

Business Core 2 (21 units)
ACCT 610, FIN 601, HRM 6201, IS 601, IS 602, MGMT 647, MKTG 661

Business Elective (3 units)

Theatre Core (9 units)
THEA 523, 524, 525

Theatre Management (24 units)
THEA 502, 503, 504, 507, 550, 602 (5 units), 603

Theatre Practicum (12 units)
THEA 517 (4 units), 518 (4 units), 519 (4 units)

Culminating Thesis/Project (3 units)
THEA 699

Theatre Electives (6 units)
Electives from the University at large through advisement

Courses (THEA)

LOWER DIVISION

101. Fundamentals of Script Analysis (3)
Basic approach to analysis of play script, intended to provide theatre practitioners and generalists with tools necessary to understand literary text of a play, and its application to work in performance, design and critical/historical studies.
Letter grade only (A-F).

110A.B. Theatre Arts Activity—Cast (1,1)
Participation in acting projects; open to students cast in University-sponsored productions.
Letter grade only (A-F). (60 hours minimum participation time or major crew assignment.)

111. Theatre Arts Showcase (1)
Participation in weekly projects dealing with all aspects of Theatre Arts.
Credit/No Credit grading only. May be repeated to maximum of 6 units.

112. Beginning Voice and Speech for the Actor (3)
Theory and practice in developing command of oral techniques for stage including breath support, resonance, free vocal release, and articulation.
Letter grade only (A-F). (2 hours lecture, 2 hours activity)

113. Introduction to Acting (3)
Prerequisite or Corequisite: A General Education Foundation course.
Review of actors and acting, past and present; their work as artists; basic exercises in voice, diction, movement, and personality projection. Open only to non-Theatre Arts majors. Attendance at University sponsored productions required.
Letter grade only (A-F).

114A. Fundamentals of Acting (3)
Development and preparation of the actor's instrument: voice, body, imagination. Exercises in relaxation, sensory work, motivations and relationships. Individual study of textual problems for actors.
Letter grade only (A-F). (2 hours lecture, 2 hours activity)

114B. Fundamentals of Acting (3)
Prerequisite: THEA 114A or equivalent.
Development and preparation of the actor's instrument: voice, body, imagination. Exercises in relaxation, sensory work, motivations and relationships. Individual study of textual problems for actors.
Letter grade only (A-F). (6 hours lab)

122. Theatre for the 21st Century (3)
Prerequisite/Corequisite: A General Education Foundation course.
Exploring live theatre in the context of emerging technologies.
Letter grade only (A-F). Not open for credit to students with credit in THEA 124.

140A.B. Theatre Arts Activity—Crew (1,1)
Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Sound, Tech Production, or Management areas.
Letter grade only (A-F). (60 hours minimum participation time or major crew assignment)

142. Elementary Stagecraft (3)
Basic physical equipment of the theatre, elementary scenic design, construction, rigging, painting and drafting. Practical lab assignments dealing with preparation of scenery and props for University sponsored productions.
Letter grade only (A-F). (6 hours activity)

144. Stage Makeup (3)
May be taken concurrently with THEA 146.
Practical introduction to techniques of theatrical make-up. Students must be clean-shaven due to nature of course. Preparation of make-up material for University sponsored productions.
Letter grade only (A-F). (2 hours lecture, 2 hours lab)
146. Costume Crafts (3)
May be taken concurrently with THEA 144.
Techniques of costume and accessory construction for stage; use of fabrics, materials and equipment. Preparation of costumes and accessories for University sponsored productions.
Letter grade only (A-F). (2 hours lecture, 4 hours lab)

148. Stage Lighting (3)
Theory and practice of modern stage lighting; functions of light; design; layout; properties of various instruments; practical experience in hanging and focusing of equipment for University sponsored productions.
Letter grade only (A-F). (2 hours lecture, 4 hours lab)

201. Writing for the Theatre Arts (3)
Prerequisite: ENGL 100.
The study and application of rhetorical strategies of invention, arrangement, and style to writing expository, narrative, and argumentative prose with special emphasis on particular features of writing in the Theatre Arts.
Letter grade only (A-F). (2 hours lecture, 4 hours lab)

210A.B. Theatre Arts Activity — Cast (1,1)
Participation in acting projects; open to students cast in University sponsored productions.
Letter grade only (A-F). (50 hours minimum participation time or major crew assignment)

214. Intermediate Acting (3)
Prerequisites: THEA 112, 114A and B. Should be taken directly following THEA 114B.
Introduction to scene study. Application of techniques of body, voice and imagination to dramatic texts thereby stimulating an acting process for role development.
Letter grade only (A-F). (5 hours lab)

215. Introduction to Audition Techniques (3)
Prerequisite or Corequisite: THEA 114A.
Introduction to fundamentals of auditioning for theatrical productions. For beginning actors. Focus on preparing and coaching monologues, dramatic sides and callbacks.
Letter grade only (A-F). (6 hours lab)

240A.B. Theatre Arts Activity — Crew (1,1)
Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Sound, Tech Production, or Management areas.
Letter grade only (A-F). (50 hours minimum participation time or major crew assignment)

262. Beginning Movement for the Actor (3)
Beginning movement training for the actor based on physical conditioning and non-verbal communication related to beginning acting process.
Letter grade only (A-F). (6 hours activity)

271. Stage Management (3)
Management skills required for the professional stage manager. Examines responsibilities, and function of stage manager in relation to director, designer, and performer.
Letter grade only (A-F). (2 hours lecture, 2 hours activity)

290. Special Topics in Theatre Arts (3)
Prerequisite: Consent of Instructor.
Topic of current interest in Theatre Arts selected for intensive study. Topics will be announced in Schedule of Classes.
Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics in different semesters. (2 hours lecture, 2 hours activity)

UPPER DIVISION

310A.B. Theatre Arts Activity — Cast (1,1)
Participation in acting projects; open to students cast in University-sponsored productions.
Letter grade only (A-F). (60 hours minimum participation time or major crew assignment)

312. Applied Voice and Speech for the Actor (3)
Prerequisites: THEA 112 or equivalent.
Development of vocal techniques for theatre, including variety of quality, force, tempo and pitch, scansion, and imagery. Application of basics learned in 112 to more complicated dramatic texts.
Letter grade only (A-F). (2 hours lecture, 2 hours activity)

316. Rehearsal and Performance (3)
Prerequisites: THEA 114A and 114B.
Performance based class focusing on the interrelationship of actor and director. Working with director on creative processes, interpreting demands of director and combining these with actor's creative processes.
Letter grade only (A-F). (6 hours lab)

318. Advanced Scene Study (3)
Prerequisites: THEA 214, 316 and consent of instructor.
Intensive scene study in modern dramatic texts. Class is designed to continue and strengthen process of actor role development through scenic exercises.
Letter grade only (A-F). May be repeated to a maximum of 6 units. (6 hours lab)

321. History of Theatre and Drama to 1660 (3)
Prerequisite: THEA 101 or concurrent enrollment or consent of instructor.
Development of Theatre Arts from primitive origins to the 17th Century.
Letter grade only (A-F).

322. History of Theatre and Drama Since 1660 (3)
Prerequisite: THEA 321 or consent of instructor.
Development of Theatre Arts from 17th Century to present.
Letter grade only (A-F)

324. Theatre Today (3)
Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing.
Course examines current trends, achievements and problems in contemporary western theatre and dramatic literature. Particular attention will be paid to multicultural expression in the theatre.
Same course as CWL 324. Not open for credit to students with credit in CWL 324.

340A.B. Theatre Arts Activity — Crew (1,1)
Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Sound, Tech Production, or Management areas.
Letter grade only (A-F). (60 hours minimum participation time or major crew assignment)

341. Presentation Techniques for Theatre (3)
Develop understanding of form, shape, line, and tone through exercises with various media. Explore approach to visualization and presentation techniques for theatre design.
Letter grade only (A-F). (2 hours lecture, 2 hours activity)

342. Advanced Technical Theatre (3)
Prerequisite: THEA 142 or consent of instructor.
Investigation of tools, materials, and procedures used in scenic construction and rigging. Supervised practical application of the techniques through scenic drafting and work on University sponsored productions.
(2 hours lecture, 2 hours activity)
352. Foundations of Visual Expression (3)
Introduction to basics of visual composition stressing a link to Theatre Design. Emphasizes development of visual discipline, creative skills and poetic and artistic nature of theatre design. Letter grade only (A-F) (2 hours lecture, 2 hours activity)

364. Stage Combat (3)
Prerequisite: THEA 202 or consent of instructor.
Practical study of unarmed combat for stage. Covers technique, safety, and application of combat skills for acting process. Letter grade only (A-F) (6 hours activity)

374. Fundamentals of Directing (3)
Prerequisite: THEA 101 and 111A or consent of instructor.
Introduction to script analysis, rehearsal techniques, director’s prompt book and organization of stage space and time. Using contemporary realistic plays to develop actor/director communication skills. Intensive scene work. Letter grade only (A-F) (6 hours lab)

375. Intermediate Directing (3)
Prerequisite: THEA 374 and consent of instructor.
Intensive work using nonrealistic plays to develop director’s concept, advanced script analysis and approach to challenges of style. Introduction to collaboration with set, lighting, costume, sound, and make up designers. Intensive scene work with student actors focusing on rehearsal techniques. Letter grade only (A-F) (6 hours lab)

380. Playwriting (3)
Creative writing for the stage. Study of character, concept, theme, dialogue and structure. Letter grade only (A-F)

410A/B. Theatre Arts Activity — Cast (1,1)
Participation in acting projects; open to students cast in University-sponsored productions. Letter grade only (A-F) (60 hours minimum participation time or major crew assignment)

413. Film/Video Acting (3)
Prerequisite: THEA 318 and consent of Instructor
Acting techniques required for stylistic range and variety of film and television scripts. Video recording and playback of scenes and film acting exercises to adjust acting skills to these media. Letter grade only (A-F) (6 hours activity)

414. Period Scene Study (3)
Prerequisite: THEA 318 and consent of instructor.
Scenes from period plays including Greek, Shakespeare, Comedy of Manners. Analysis of play’s structure in terms of language, background, human behavior. Letter grade only (A-F) (6 hours activity)

415. Preparing for the Profession (3)
Prerequisite: THEA 318 or consent of instructor.
Designed for actor with auditioning skills and practical business information necessary for acting professionally. Topics include: resume, biography, audition, agent, casting, director, unions, contracts, job market and career strategies. Letter grade only (A-F) (6 hours activity)

425L Theatre and Cinema (3)
Prerequisite: Completion of G.E. foundation, one or more Explorations courses, THEA 324L, and upper division standing. Examines relationships between theatre and cinema both historically and conceptual problems of realism, comedy and melodrama. Letter grade only (A-F).

426. Dramatic Theory and Criticism (3)
Prerequisite: THEA 101 or consent of instructor.
Study of the major theories of dramatic literature and performance. Analysis of dramatic works from the standpoint of genre, style and structure. Letter grade only (A-F).

427. Dramatic Construction (3)
Prerequisite: Completion of Foundation; at least one exploration course in Theatre Arts or in literature (an English literature course, a comparative world literature course, a foreign language literature course, or other literature course); and upper division standing.
Examination of dramatic and literary theories that focus on narrative construction as applied to drama, film, storytelling and screenplay. Letter grade only (A-F)

433. Design for Theatre (3)
Prerequisite: THEA 142, 145, 148 or consent of instructor.
Integration of styles and methods of theatre/visual, set, lighting, sound, and lighting design. Letter grade only (A-F)

440A/B. Theatre Arts Activity — Crew (1,1)
Participation in technical play production projects; specific assignment determined through consultation with faculty or staff supervisors of Scenery, Lighting, Costume, Makeup, Sound, Tech Production, or Management areas. Letter grade only (A-F) (60 hours minimum participation time or major crew assignment)

441. Scenographic Techniques (3)
Prerequisite: THEA 142 or consent of instructor.
Study of the techniques of designing, construction, and running of sets and scenery. Includes both traditional and computer aided design and drafting tools. Letter grade only (A-F) (2 hours lecture, 2 hours lab)

442. Scenic Technical Skills (3)
Prerequisite: THEA 142 or consent of instructor.
Use of materials and construction methods in stage properties, set dressing and furniture. Painting techniques for scenery and properties. Supervision in practical application of these materials in University-sponsored productions. Letter grade only (A-F) (2 hours lecture, 2 hours lab)

444. Scenic Design (3)
Prerequisite: THEA 101, 142, 433.
Comprehensive study in the techniques and art of scenic design. Course includes practical hands-on instruction in design conceptual development and two and three dimensional visual expressions of ideas. Letter grade only (A-F) (2 hours lecture, 2 hours lab)

446. Costume Design (3)
Prerequisite: THEA 101, 146 or consent of instructor.
Development of costume design through character and script analysis and understanding of line, space, color, and texture. Planning and presentation of costume rendering. May be repeated for a maximum of 6 units in different semesters. (2 hours lecture, 2 hours lab)

447/547. Costume Technical Skills (3)
Prerequisite: THEA 101, 146, or consent of instructor.
Analysis of structure of costumes and accessories. Advanced practical projects using materials, pattern making and construction methods in costume and accessories. Supervision in practical application of these elements in University-sponsored productions. Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters. (2 hours lecture, 2 hours lab)
448. Lighting Design (3)
Prerequisites: THEA 101, 148 or consent of instructor.
Techniques of designing lighting for various stage forms; creative planning and projection of designs for specific productions.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
(2 hours lecture, 2 hours lab)

449. Sound Design for the Theatre (3)
Introduction to scope, tools, materials and practices of sound in theatre today.
Letter grade only (A-F). (2 hours lecture, 2 hours lab)

451. Computer Applications for the Theatre (3)
Use of computer and general application software as used in theatrical design, management and technical production. Primary areas of focus include spreadsheets, database, presentation graphics and basic web page development.
Letter grade only (A-F).

456. Virtual and Automated Lighting Design (3)
Comprehensive study in techniques of virtual and automated lighting design. Course includes practical hands-on instruction in WYSIWYG virtual lighting software; Emphasis Control software and hardware; Var*Lite, Martin, and High End automated fixtures, and Catalyst Media Server.
Letter grade only (A-F). (2 hours lecture, 2 hours lab)

462. Advanced Movement for the Actor (3)
Prerequisites: THEA 202 or consent of instructor.
Kinesthetic approaches to theatrically utilizing heightened physical language to explore character, relationship and truth.
Letter grade only (A-F). (6 hours lab)

476. Theatre Management (3)
Examination of administration, management and promotion of a producing theatre organization. Practical application required in University-sponsored productions.
Letter grade only (A-F).

490. Special Topics in Theatre Arts (3)
Prerequisites: Consent of instructor.
Topics of current interest in Theatre Arts selected for intensive study.
Letter grade only (A-F). May be taken to a maximum of 9 units (Lecture 2 hours, activity 2 hours). Topics will be announced in the Schedule of Classes.

498. Special Studies in Theatre Arts (3)
Prerequisites: Consent of instructor.
Independent projects and research of advanced nature in areas of Theatre Arts under faculty supervision.
Letter grade only (A-F). Limited to 6 units in any one area. Topics will be announced in the Schedule of Classes.

A. Acting
B. Directing
C. Costume
D. Scenery
E. Properties
F. Playwriting
J. Theatre history
K. Theatre criticism
L. Movement
M. Makeup
N. Lighting
O. Voice
P. Stage management
Q. Theatre management
R. Dance
S. Technical direction.

GRADUATE LEVEL

502. Seminar in Theatre Management I (3)
Prerequisites: Acceptance into the MFA Program.
Study of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. Principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
(2 hours lecture, 2 hours lab)

503. Leadership and the Arts (3)
Prerequisites: Acceptance into the MFA Program or senior status and completion of THEA 476 or consent of instructor.
Study of contemporary principles of leadership and leadership development processes with special concern for application to people working in the arts. Context for leadership in arts organization is assessed and matched against students' personal leadership styles.
Letter grade only (A-F). (2 hours lecture, 2 hours lab)

504. Managing the Not-For-Profit Arts Organization (3)
Prerequisites: Acceptance into the MFA Program or senior status and completion of THEA 476 or consent of instructor.
Study of principles of organizational management as applied to not-for-profit arts organizations. Issues include strategic planning and analysis, organizing, staffing, leading and controlling. Additionally studied are principles and practices of fund raising in not-for-profit environment.
Letter grade only (A-F).

507. Entertainment Law (3)
Prerequisite: Acceptance into the MFA Program.
Overview of legal aspects of entertainment business, especially in performing arts.
Letter grade only (A-F).

517. Repertory Theatre I (2)
Prerequisites: Acceptance into the MFA Program.
Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players.
Letter grade only (A-F). May be repeated to a maximum of 4 units (6 hours lab)

518. Repertory Theatre II (2)
Prerequisites: Acceptance into the MFA Program.
Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players.
Letter grade only (A-F). May be repeated to a maximum of 4 units (6 hours lab)

519. Repertory Theatre III (2)
Prerequisites: Acceptance into the MFA Program.
Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players.
Letter grade only (A-F). May be repeated to a maximum of 4 units (6 hours lab)

520A. Voice I (2)
Prerequisite: Acceptance into the MFA Program.
Groundwork in Voice and Speech techniques for professional actors.
Letter grade only (A-F). (6 hours lab)

520B. Voice I (2)
Prerequisite: Acceptance into MFA Program.
Application of vocal technique to various styles of verse and prose for meaningful vocal expressiveness.
Letter grade only (A-F). (6 hours lab)

2009/2010 CSULB Catalog • Theatre Arts • 725
521A. Voice II (2)
Prerequisites: Acceptance into MFA Program.
Exploration of extensive vocal variety and expressiveness, using four components of voice: quality, force, tempo, pitch. Expanding the boundaries.
Letter grade only (A-F). (6 hours lab)

521B. Voice II (2)
Prerequisites: Acceptance into MFA Program.
Analysis and development of dialects and accents for performance.
Letter grade only (A-F). (6 hours lab)

522A. Voice III (2)
Prerequisite: Acceptance into MFA Program.
Advanced study of dialects. Coursework covers research, analysis, and performance of selected dialects in context of a play.
Letter grade only (A-F). (6 hours lab)

522B. Voice III (2)
Prerequisite: Acceptance into MFA Program.
Exploration of microphone techniques. Coursework covers stand-up, radio drama, dubbing, animation, and practice in development of a demo tape for professional voice-over work.
Letter grade only (A-F). (6 hours lab)

523. Theory and Practice of Contemporary Theatre (3)
Critical exploration of major schools of thought between 1950-present including styles, genres and both national and international trends. Contributions of theatre practitioners and theorists and role of audience in this period.
Letter grade only (A-F).

524. Dramaturgy (3)
Prerequisite: Acceptance into MFA Program.
Dramaturgical approaches to theatrical analysis, dramatic structure and theatrical event.
Letter grade only (A-F).

530A. Acting in Repertory I (2)
Prerequisite: Acceptance into the MFA program.
Foundation and development of individual and ensemble acting techniques necessary for repertory actor and company. Applicable and related to performance schedule.
Letter grade only (A-F). (6 hours lab)

530B. Acting in Repertory I (2)
Prerequisite: Acceptance into the MFA program and THEA 530A.
Variable modules of technique training in ensemble and interaction skills for repertory actor. Dependent upon needs of individual actor, ensemble and/or performance schedule.
Letter grade only (A-F). (6 hours lab)

531A. Acting in Repertory II (2)
Prerequisite: Acceptance into the MFA program.
Development of a variety of acting techniques available to actor for playing situation, character, style and theatricality. Applicable and related to performance schedule.
Letter grade only (A-F). (6 hours lab)

531B. Acting in Repertory II (2)
Prerequisite: Acceptance into the MFA program and THEA 531A.
Variable technique modules in further development of repertory acting skills for playing situation, character, style and theatricality. Dependent upon needs of individual actor, ensemble and/or performance schedule.
Letter grade only (A-F). (6 hours lab)

532A. Acting in Repertory III (2)
Prerequisite: Acceptance into the MFA program.
Advanced and professional technique training of skill variety in the repertory actor. Applicable and related to performance schedule.
Letter grade only (A-F). (6 hours lab)

532B. Acting in Repertory III (2)
Prerequisite: Acceptance into the MFA program and THEA 532A.
Variable advanced technique modules for expansion and enrichment of professional acting skills for the individual and ensemble. Dependent upon needs of individual actor, ensemble and/or performance schedule.
Letter grade only (A-F). (6 hours lab)

540. Non-traditional Material Use in the Theatre (2)
Prerequisite: Consent of instructor.
Creative use of non-traditional materials in the design and fabrication of props, costumes and set dressing. Exploration into decorative techniques and processes in fabrication and finishing.
Letter grade only (A-F). (4 hours lab)

541. Portfolio Development (3)
Study of content and presentation forms of designer's portfolio, resume and cover letter. Acquaints the designer/technician with interview skills and practical business information.
Letter grade only (A-F). (4 hours lab)

543. Character Costume Rendering (2)
Exploration of professional skills necessary for Costume Designers visual communication of fully rendered costumed characters. Exploration includes communication of proportion, movement, personality, fabrication, accessories, details, and adaptation of style or period, as applied through different types of illustration media.
Letter grade only (A-F). (4 hours lab)

544. Visual Concepts in Theatre Design (3)
Foundations in visual conceptualization emphasizing development of visual discipline, creative skills and the poetic nature of theatre design.
Letter grade only (A-F). (4 hours lab)

545. Computer Aided Design for the Theatre (2)
Applications of two/three dimensional computer aided design/ drafting programs to problems in technical theatre and design. Course concentrates on application of 2D-CADD programs as common theatrical drafting problems. Course explores use of 3D-CADD programs as design tools in theatrical spaces.
Letter grade only (A-F). (4 hours lab)

546A. Advanced Costume Design I (2)
Development of costume design through character and script analysis, and understanding of line, space, color and texture.
Letter grade only (A-F). (4 hours lab)

546B. Advanced Costume Design I (2)
Prerequisite: THEA 546A or consent of instructor.
Exploration of elements of design as demanded by a variety of scripts and styles.
Letter grade only (A-F). (4 hours lab)

547. J447. Costume Technical Skills (3)
Prerequisite: THEA 101, 146, or consent of Instructor.
Analysis of structure of costumes and accessories. Advanced technical projects using materials, patterning and construction methods in costume and accessories. Supervision in practical application of these elements in University sponsored productions.
Letter grade only (A-F). May be repeated for a maximum of 8 units in different semesters. (2 hrs. lecture, 2 hrs. lab).

726 • Theatre Arts • 2009/2010 CSULB Catalog
545A. Advanced Lighting Design I (2)
Prerequisite: Consent of instructor.
Techniques of designing lighting for various stage forms.
Letter grade only (A-F). (4 hours lab)

545B. Advanced Lighting Design I (2)
Prerequisite: THEA 545A or consent of instructor.
Creative planning and development of lighting designs for specific productions.
Letter grade only (A-F). (4 hours lab)

550. Computer Graphics for Theatre (3)
Prerequisite: THEA 451 or equivalent.
Course is a comprehensive study of tools and techniques incorporated in Adobe Photoshop and their application to theatre. Techniques in scanning, digital image manipulation and exporting to hard and soft copy are covered.
Letter grade only (A-F). (1 hour lecture, 2 hours lab)

552. Collaborative Studies (3)
Explores aesthetic visions, directorial approaches, dramaturgical practices, and performance styles that characterize contour and magic of Theatre. Use of collaborative study and presentation affords a greater exposure of creativity with the integration of methodologies as seen in Professional arenas.
Letter grade only (A-F). (2 hours lecture, 4 hours lab)

554. Textile Applications in Theatre Design (2)
Exploration and creative application of techniques of manipulating, painting, and dying textiles for theatrical design.
Letter grade only (A-F). (4 hours lab)

555. Virtual and Automated Lighting Design (2)
Comprehensive study in techniques of virtual and automated lighting design. Course includes practical instruction in WYSIWYG virtual lighting software, MindStar software and hardware, VizLab, Martin, and High End automated fixtures, and the Catalyst Media Server.
Letter grade only (A-F). (Activity 4 hours)

555A. Advanced Costume Design II (2)
Development of skills in visual communication and style, including advanced rendering techniques and presentation.
Letter grade only (A-F). (4 hours lab)

555B. Advanced Costume Design II (2)
Prerequisite: THEA 555A or consent of instructor.
Development of skills in research, interpretation, conceptualization and integrating multiple sources in design.
Letter grade only (A-F). (4 hours lab)

564A. Movement I (2)
Prerequisite:Acceptance into the MFA Program.
Practical study in movement fundamentals, body mechanics, and non-verbal communication. Exploration of movement as actor’s tool to aid in acting process.
Letter grade only (A-F). (6 hours lab)

564B. Movement I (2)
Prerequisite:Acceptance into the MFA Program.
Analytical and practical exploration of movement principles of weight, space, time, and energy and their application to acting process.
Letter grade only (A-F). (6 hours lab)

565A. Movement II (2)
Prerequisite:Acceptance into the MFA Program.
Practical study of unlearned combat for stage. Coursework covers technique, safety, choreography, and application to acting process, including performance of scenes that include combat.
Letter grade only (A-F). (6 hours lab)

565B. Movement II (2)
Prerequisite:Acceptance into the MFA Program.
Practical study of armed combat for stage, including quarterstaffs, broadswords, sabres, rapiers and daggers.
Coursework covers technique, safety, choreography, and application to acting process.
Letter grade only (A-F). (6 hours lab)

566A. Movement III (2)
Prerequisite: Acceptance into the MFA Program.
Practical study of armed combat for stage, including quarterstaffs and broadswords.
Coursework covers technique, safety, choreography, and application to acting process.
Letter grade only (A-F). (6 hours lab)

566B. Movement III (2)
Prerequisite: Acceptance into the MFA Program.
Historical study of movement styles from selected theatre periods through eighteenth century. Coursework covers social dancing, movement, manners, and handling of period costumes, props, and accessories.
Letter grade only (A-F). (6 hours lab)

580A. Scene Design I (2)
Development of scene design through script analysis and understanding of space, form, line, color, texture and mood.
Planning and development of scenic rendering and model.
Letter grade only (A-F). (4 hours lab)

580B. Scene Design I (2)
Prerequisite: THEA 580A or consent of instructor.
Exploration of elements of scenic design as demanded by a variety of scripts and styles with specific challenges and complex production format.
Letter grade only (A-F). (4 hours lab)

581. Scenographic Techniques (2)
Study of drafting techniques used to translate designer’s vision to finished set on stage. Includes both traditional and computer aided design and drafting tools.
Letter grade only (A-F). (4 hours lab)

583. Theatrical Patternmaking Methods (2)
Exploration of fitting, advanced pattern making and construction techniques. Projects in fitting problems, flat pattern making, draping, understructures, and tailoring for theatre.
Letter grade only (A-F). (4 hours lab)

584. Rendering and Painting for Theatre (2)
Introduction to rendering basics and painting stresses working on set of theatre design. Developing ability to depict form and space. Emphasizes development of visual discipline, drawing and rendering techniques used in the visual presentation of stage design and scenic painting.
Letter grade only (A-F). (4 hours lab)

585A. Scene Design II (2)
Projects in scene design for the multi-set play. Consideration of stylistic unity, current trends and approaches as well as shifting problems. Development of advanced rendering techniques.
Letter grade only (A-F). (4 hours lab)

585B. Scene Design II (2)
Prerequisite: THEA 585A or consent of instructor.
Further development of skills in scene design for multi-set play. Development of advanced model making techniques.
Letter grade only (A-F). (4 hours lab)
590. Graduation Design (3)
Prerequisite: Consent of Instructor.
Advanced design projects and concepts with faculty supervision.
Topics to be listed in the Schedule of Classes. Letter grade only (A-F).
May be repeated for a maximum of 6 units in different semesters.
C. Costume
D. Scenery
M. Make-up
N. Lighting

602. Seminar in Theatre Management II (3)
Prerequisites: Acceptance into the MFA Program.
Study of application of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. Applications of principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study.
Letter grade only (A-F). May be repeated to a maximum of 9 units.

603. Producing Commercial Theatre (3)
Prerequisite: Acceptance into the MFA Program.
Examination of all facets of professional theatre production including off-Broadway, Broadway, regional and stock operations.
Letter grade only (A-F).

614. Advanced Period Scene Study (3)
Prerequisite: Acceptance by audition into MFA program.
Acting in Shakespeare and advanced scene study from selected theatrical periods and plays. Analysis and exercises include language, background, and human behavior.
Letter grade only (A-F).

548A. Advanced Lighting Design II (2)
Direct application of cueing and structuring of the total lighting design within the time constraints of rehearsal and production.
Letter grade only (A-F). (4 hours lab)

548B. Advanced Lighting Design II (2)
Prerequisites: THEA 648A or consent of instructor.
Development of skills in lighting design process for a variety of scripts and styles with specific challenges and complex production formats.
Letter grade only (A-F). (4 hours lab)

649A. Advanced Lighting Design III (2)
Development of skills in lighting for musical, opera, video, and dance.
Letter grade only (A-F). (4 hours lab)

649B. Advanced Lighting Design III (2)
Prerequisites: THEA 649A or consent of instructor.
Development of skills in lighting for other production venues.
Letter grade only (A-F). (4 hours lab)

656A. Advanced Costume Design III (2)
Development of skills in costume design for musical, opera, and dance.
Letter grade only (A-F). (4 hours lab)

656B. Advanced Costume Design III (2)
Prerequisites: THEA 656A or consent of instructor.
Development of skills in costume design for other production venues.
Letter grade only (A-F). (4 hours lab)

685A. Scene Design II (2)
Development of skills in scene design for musical, opera, and dance.
Letter grade only (A-F). (4 hours lab)

685B. Scene Design III (2)
Prerequisites: THEA 685A or consent of instructor.
Further development of skills in scene design for other production venues.
Letter grade only (A-F). (4 hours lab)

696. Theatrical Tailoring (2)
Investigation of tailored garments and understructures in selected historical periods. Projects in traditional and contemporary hand machine tailoring techniques, and in specialized construction for undergarments. Supervision in practical application of these elements in university sponsored productions.
Letter grade only (A-F). (4 hours lab)

690. Special Topics in Theatre Arts (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in Theatre Arts selected for intensive study.
May be taken for a maximum of nine units. Topics will be announced in the Schedule of Classes.
Letter grade only (A-F). (3 hours lab per unit)

694. Advanced Studies in Theatre Arts (3)
Prerequisite: Consent of instructor.
Advanced individual projects with faculty supervision in an area of Theatre Arts specialization. Limited to three units in any one area per semester and no more than six units in one semester with a total of nine units in any one area. Areas will be designated by letter at time of registration.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

A. Acting
B. Directing
C. Costumes
D. Scenery
E. Properties
F. Playwriting
J. Theatre History
K. Theatre Criticism
L. Movement
M. Makeup
N. Lighting
O. Voice
P. Stage Management
Q. Theatre Management
R. Technical Direction

696. Aesthetic Theory and Conceptualization (3)
Study of theoretical aesthetics as it applies to creative act. Practical application of research and variable aesthetic elements in production style and conceptualization.
Letter grade only (A-F).

699. MFA Thesis/Project (1-6)
Prerequisite: Advancement to candidacy and consent of department chair.
Planning, preparation and completion of thesis related to field of specialization.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
Why UCES Is Different - Access and Opportunity

University College and Extension Services is different from CSULB’s other academic colleges because it is not focused on one specific subject area, such as arts or science. UCES provides a variety of ways to bring people to the university, and to bring the university and its programs to the people, through the innovative delivery of many different types of courses and programs across diverse subject areas.

UCES’ unique position as both an academic college and a community outreach entity means that partnerships and collaboration - with the university, businesses, organizations, and community leadership - are an integral part of its operation. Fostering collaborative academic initiatives, both credit and professional development (non-credit) has always been one of the highest priorities of the UCES administrative leadership.

UCES programs do not receive state funding and are supported entirely by student fees.

The UCES Mission Statement

University College and Extension Services (UCES) programs are major vehicles by which the university fulfills its responsibility to meet the lifelong personal and professional development learning needs of citizens, industries, and institutions within its service area and beyond. Through its certificate programs, credit and non-credit classes, seminars and special programs, distance delivered instruction, and customized on-site training, UCES brings the resources of CSULB to individuals and groups at times, locations, and in formats convenient to their diverse lifestyles.

In all of its programs, UCES strives for an image of being ‘The Best Choice and The Best Value’ - top quality instructors and content, innovative and thoughtfully designed formats, and careful attention to the needs of all participants from corporate executives and entry-level supervisors to aspiring artists, senior citizens, and all others who choose to enrich their lives through continuing education.

Through its work, UCES advances the mission of Extended Education in the CSU outlined by the Commission on the Extended University:

- Meeting California’s economic and workforce development needs
- Increasing access to educational opportunities by serving broader constituencies
- Developing alternative instructional delivery systems
- Creatively developing new programs
- Providing personal and lifelong learning opportunities
- Generating new resources for the CSU system
- Supporting international educational experiences
Programs
UCES maintains a customer-focused market-driven approach to developing and delivering programs. As a result, the programs may change often to adapt to the training and educational needs of the market. UCES offers both professional development (non-credit) and credit programs, in many different subject areas. Whether the program is credit-bearing or not for university credit, UCES strives to provide the following features in every course:
- Quality curriculum
- Innovative and thoughtfully designed formats
- Convenient days/times
- Affordable fees and payment plan options
- Fast, easy registration

In addition, UCES provides companies, organizations, and government agencies with customized professional development programs for employees at their work site or at CSULB.

For a free catalog of the latest comprehensive program listings and descriptions, call the UCES Customer Service Center 800/963-2250 or visit the website http://www.uces.csulb.edu.

Following is just a sampling of the many types of programs offered by UCES.

Professional Development Certificate Programs Offered
- Lean Management
- Human Resources Management
- Professional Meeting and Event Planning
- Basic Applied Forensic Science and Crime Analysis
- Engineering and Architectural AutoCAD
- Geographic Information Systems
- IT Project Management
- Oracle Internet Applications Developer Specialist

Professional Designation Programs and Industry-Specific Exam Prep Programs
- Global Logistics Specialist
- The SHRM Learning System (PHR/SPHR exam prep)

On-line Programs
- Accounting Fundamentals
- Finance
- Project Management Fundamentals
- Managing Technical Professionals
- Fundamentals of Supervision Management
- Business Administration
- Database Management
- Grant Writing and Non-Profit Management
- Career and Personal Enrichment
- Languages

Degrees Offered
Degree programs offered by UCES are in partnership with other CSULB colleges.
- Bachelor of Science in Business Administration, Option: International Business (Singapore)
- Bachelor of Arts in Communication Disorders
- Bachelor of Arts in Global Logistics
- Bachelor of Arts in Kinesiology, Option: Sport Management
- Master of Arts in Kinesiology, Option: Pedagogy
- Master of Business Administration (Fully Employed MBA for Working Adults)
- Master of Business Administration (Accelerated)
- Master of Public Administration
- Master of Science in Criminal Justice
- Master of Science in Health Care Administration (Accelerated)
- Master of Science in Mathematics: Option in Applied Statistics (Accelerated)
- Master of Social Work

Credit Certificates Offered
- Advanced Manufacturing Technology
- Applied Statistics

The American Language Institute
The American Language Institute provides English as a Second Language instruction to international students. ALI offerings include long-term and short-term programs, and credit and non-credit courses. Programs offered through the ALI include the Intensive English Program, a non-credit program offered year-round, 3 sessions per year, in which students are in class up to 25 hours per week.

Open University
Open University provides an opportunity for those people who are not currently admitted to and/or registered at CSULB to enroll in most courses offered by the university. Enrollment is on a space-available basis, and subject to approval of the instructor and department chair. Students receive Open University Special Sessions credit. For more information, call the UCES Customer Service Center at 800/963-2250.

Centers/Consortiums
Center for International Trade and Transportation (CITT)
Southern California Process Improvement Network (SPIN)

College Facilities
- Full service video and multimedia production facility located on campus, including a 2200 square-foot studio, featuring the latest computer animation software
- Computer labs both on and off campus
- Executive conference and training rooms

Continuing Education Units
Continuing Education Units (CEUs) are a permanent record of attendance in professional development (non-credit) programs. They are provided by The American Council on Education (ACE) and administered through UCES. CEUs can enhance one's resume and provide another opportunity to showcase a commitment to professional development. CEUs for specific professions are also available.
ED P 492. Internships in the Human Services (3)
Prerequisite: Consent of instructor.
Students are placed in agencies and organizations to engage in volunteer or paid work in human service/mentals health.
The required fifteen hour seminar will focus on personal values, interpersonal communications skills, critical thinking, and problem solving. Development of knowledge and skills transferable to future careers will be stressed.
A minimum of 120 hours field experience is required for the semester.

FEA 492. Internship (3)
Prerequisites: Senior standing in major or consent of instructor.
Students intern with cooperating media facilities.
Credit/No Credit grading only. May be repeated to a maximum of 6 units. (6 hours lab)

Supplemental Instruction (S/I)

60. Supplemental Instruction (1)
An adjunct support class tied to select general education courses. Students enroll in the target GE course and the S/I class together.

University (UNIV)

100. The University and Your Future (1)
All undergraduate students who enter this university with fewer than 56 transferable semester units shall complete a one-unit (15 hour) course which includes instruction in History and Mission of University.
Introduction to university traditions; current issues in higher education; academic freedom, tenure, and students’ rights and responsibilities; and services available at university throughout student’s academic career. Includes component on use of the University Library and campus information technologies.
Students who do not complete requirement within first two semesters of enrollment on campus may be disenrolled from the university before third regular semester.
Offered both in week before classes begin and during first week of classes. Consult Schedule of Classes for course offerings. Credit/No Credit grading only.

200. U.S. Military Basic Training (3)
Prerequisite: GE Foundation.
For active U.S. military service members and veterans only.
Credit is granted with verification of successful completion of Basic Training for U.S. Army, Navy, Air Force, Marines, or Coast Guard.

400. The University in Your Future Student Leadership (1)
Prerequisite: Selected by University 100 Director.
Students assist UNIV 100 faculty in presentation of course.
May be repeated to a maximum of 3 units. Credit/No Credit grading only.
Writing Proficiency

**WPE 10. Preparation for the WPE (1)**
Non-credit course designed to prepare students for the Writing Proficiency Examination (WPE) for which a passing score is 11. Recommended for students who have not yet attempted the WPE or who have previously failed the test with a score of 8 or below.
Credit/No Credit grading only. May be repeated until the WPE is successfully passed. (Activity)

**WPE 20. Preparation for the WPE (1)**
Non-credit course designed to prepare students for the Writing Proficiency Examination (WPE) for which a passing score is 11. Recommended for students who have previously failed the WPE with a score of 9 or 10.
Credit/No Credit grading only. May be repeated until the WPE is successfully passed. (Activity)

**ENGL 301A. English Proficiency (3)**
Prerequisites: ENGL 100 or equivalent.
Intermediate course in English usage with emphasis on building proficiency in oral and written language.
Enrollment limited to students needing language development beyond skills acquired in ENGL 100, as assessed by scores on the Writing Proficiency Exam. May be repeated to a maximum of 6 units. Not applicable to credit in any degree program of the Department of English. Letter grade only (A-F).

**ENGL 301B. English Proficiency (3)**
Prerequisites: ENGL 100 or equivalent.
Intermediate course in English usage with emphasis on building proficiency in oral and written language.
Enrollment limited to students needing language development beyond skills acquired in ENGL 100, as assessed by scores on the Writing Proficiency Exam. May be repeated to a maximum of 6 units. Not applicable to credit in any degree program of the Department of English.
Admission Requirements

There are three ways a student may enter the University Honors Program:

- Incoming students are invited to apply to General Honors on the basis of high school class standings, ACT composite score, and/or SAT scores. Normally, students should be in the upper ten percent of their high school classes, and have a composite ACT score of at least 24, and/or strong SAT scores, and a GPA of 3.5 or better. However, if not all of these criteria are met, a combination of them may be evaluated in addition to a letter of recommendation and a personal interview with the Honors Program Director.

- Any student who maintains a 3.5 or better overall GPA at California State University, Long Beach in 12 or more units of coursework is eligible to participate in General Honors with a letter of recommendation from an instructor and a personal interview with the Honors Program Director. Students with a GPA of 3.5 or above in 12 or more units at California State University, Long Beach normally will be granted automatic acceptance into the Program upon application.

- CSULB students not meeting the designated criteria may petition for admission to General Honors. Students are required to submit letters of recommendation from two instructors familiar with their work. These exceptional cases will be reviewed by the Director and the University Honors Program Advisory Board. Students are encouraged to petition if they have a good explanation for not meeting the basic requirements and/or a strong motivation to participate in the Program.

Transfer students may enter General Honors provided they have a minimum equivalent of a 3.5 average in all course work at the accredited institution from which they are transferring.

Qualified students may enter General Honors as late as the junior year. Where Honors transfer agreements have been negotiated with a community college (such as with Long Beach City College) up to 12 transfer units will be accepted as meeting the requirements of the CSULB University Honors Program. Otherwise, a waiver of some of the required Honors credits (not more than 6) may be granted by the Director and the University Honors Program Advisory Board.

Academic Requirements

General Honors students must complete all university-wide graduation requirements and the requirements for their major. General Honors is itself not a major. A student must maintain an overall GPA of 3.00 or better in Honors and in all University courses attempted.

General Honors Plan I (minimum of 24 units) is designed for entering freshmen and consists of a minimum of 18 units of lower- and upper-division General Education courses (which include UHP 100 and UHP 150) and a culminating 6-unit senior thesis/project in the student’s major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

2009/2010 CSULB Catalog • University Honors Program • 733
General Honors Plan II (minimum of 15 units) is primarily for upper-division transfers from community colleges and current CSULB students who have achieved a GPA of 3.5. It consists of nine units of upper-division General Education courses and a culminating 6-unit senior thesis/project in the student’s major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

Honors in the Major (available in select majors only)

Many CSULB majors provide students with an option to pursue Honors in the Major. Students in General Honors whose major department offers an Honors in the Major Program may apply to participate in both programs, in which case the General Honors thesis requirement would be satisfied through the Honors in the Major option. Honors in the Major (minimum of 9 units) consists of a minimum of one upper-division Honors-specific course in student’s major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498).

Although Honors in the Major requirements may vary among departments, usually they entail independent study, seminar courses, high levels of performance, and senior projects or those culminating in a broad knowledge of subject matter. Information concerning Honors in the Major is available in the University Honors Program Office and in participating departmental offices.

Admission Requirements

Please contact the department office or the University Honors Program Office for information regarding admission. Normally a student must be a declared major, usually with at least sophomore (30 units) standing.

Academic Requirements

1. Completion of the requirements for the major. (The approval of the department chair and the Departmental Faculty Honors Advisor must be obtained to change any of the general major requirements.)

2. Completion of a minimum of one upper-division Honors-specific course in the student’s major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498).

General Information

Students who have failed to enroll in courses for Honors credit for two consecutive semesters will normally be withdrawn from the program. Students must remain full-time or will be withdrawn from the program.

A University Honors student who withdraws from the University during any semester will also be withdrawn from the program. A student may apply for readmission at the beginning of any semester in which he/she plans to enroll in an honors class.

Courses (UHP)

Special honors sections of regular GE courses in various departments as listed under “University Honors Program” to be found in the current Schedule of Classes.

LOWER DIVISION

100. Angles of Vision — Honors (3)
Analytical and critical approaches leading to original and creative thinking. Development of seminar skills: preparation of analytical essays and oral presentations, examination of models and techniques of reasoning, conceptualization of research problems, writing documented paper.
Required of all UHP students. GE Category A.3.

150. Exploring a Text — Honors (3)
Prerequisites: ENGL 100.
Close reading of a work (or works) of literature — fiction or non-fiction — exploring issues of personal identity, moral choice, freedom and commitment.
May be repeated to a maximum of 6 units with different topics. GE Category E. Letter grade only (A-F).

UPPER DIVISION

300. Junior Colloquium — Honors (3)
Studies of selected interdisciplinary topics, problems or issues with a view toward integration of the areas of study involved in lower-division courses.
May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

490. Special Topics — Honors (3)
Identification and critical analyses of current problems in selected areas. Topics to be announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

496. Research Participation — Honors (3)
Prerequisites: Consent of Program Director and supervising faculty member.
Letter grade only (A-F).

497. Directed Studies — Honors (1-3)
Prerequisites: Consent of Program Director and supervising faculty member.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

498. Senior Thesis/Project — Honors (3)
Prerequisites: Consent of Program Director and supervising faculty member.
Final completion of a thesis, or a project; or an exhibit or a performance.
Letter grade only (A-F).
WOMEN'S, GENDER, AND SEXUALITY STUDIES
College of Liberal Arts

Department Chair: Wendy Griffin
Office: MHS-819
Telephone: (562) 985-4839
FAX: (562) 985-1968

Faculty: Elsie Blankley (Women's, Gender, and Sexuality Studies and English), Angela Bowen (Women's, Gender, and Sexuality Studies), Norma Chinchilla (Women's, Gender, and Sexuality Studies and Sociology), Wendy Gettin (Women's, Gender, and Sexuality Studies), Elizabeth Philippine (Women's, Gender, and Sexuality Studies), Jennifer Reed (Women's, Gender, and Sexuality Studies), Mayhree Rogers (Women's, Gender, and Sexuality Studies), Patricia Rozee (Psychology and Women's, Gender, and Sexuality Studies), Shira Tarrant (Women's, Gender, and Sexuality Studies)

Affiliated Faculty: Hamid Berdahian (History), Mary Coppi (Political Science), Patricia Cleary (History), Jane Dalit (History), Linda Espinza-Maram (Asian and Asian American Studies), Jayne Howell (Anthropology), Susan Lubovac (Library), Claire Martin (Romans), Karen, Karen (Linguistics), Rika Rice (Linguistics), Anne Sandolov (Chicano and Latino Studies), Kristine Zentgraf (Sociology)

Introduction
It is the goal of the Department of Women's, Gender, and Sexuality Studies to provide for students, the University, and the community an intellectual context from which it is possible to study the experience of women. By definition, this enterprise crosses disciplinary and cultural lines; it means that we are in the University not only to fill in gaps and to facilitate the development of coherent bodies of knowledge about women in established disciplines, but that we represent a core of emerging knowledge that has grown into a new discipline.

Women's, Gender, and Sexuality Studies seeks to equip students with the knowledge, skills, and perception necessary to their realization of the fullest range of options available to them as human beings. We want to provide and encourage contexts conducive to academic excellence and sensitive to academic freedom that will assist students in 1) the reexamining of traditional ideas about women and men in cultures characterized by patterns of sex-role stereotyping; 2) acquiring an understanding of the history and contributions of women of varying social, racial, and ethnic backgrounds; 3) developing the analytical tools required to understand and appreciate the implications of the last four decades of feminist theory and research; and 4) preparing for a variety of vocations which increasingly demand knowledge about women's experience.

Women's, Gender, and Sexuality Studies, in its own department and through courses in other departments and disciplines, offers the University the intellectual excitement inherent in the development of a new discipline, and a humanistic perspective from which to view the accumulated knowledge of other disciplines, particularly their assumptions about women, both as actors and subjects. Women's, Gender, and Sexuality Studies encourages the development of research and curriculum related to women in other disciplines and departments throughout the University. We also provide information and advising for students and other members of the University community on the subject of women and women's issues.

The Department of Women's, Gender, and Sexuality Studies offers a major and minor. Students may also graduate with a B.A. in Inter-disciplinary Studies that have Women's Studies as one of its disciplines. CSULB also offers a Special Major at the graduate level through which students may design a major combining Women's Studies with another discipline. Designated Women's, Gender, and Sexuality Studies courses may be used to fulfill the Social Science (Category II) and other General Education requirements, as well as I.C. and H.D. requirements. For additional information and advice relative to these programs, or ways in which to combine Women's Studies with another Major or Concentration, please consult the Department Office or the Undergraduate Advisor.

Bachelor of Arts in Women's Studies (code WSTBA81) (120 units)

Requirements
A total of 45 units will be required for the Women's Studies major. Courses cannot be counted for more than one category within the major. Requirements include 3 lower division units and 42 upper division units distributed among the following categories:

Core Requirements – 30 units
Introduction to Women's, Gender, and Sexuality Studies – total 3 units: WGSS 102
Theory and Methodology – total 15 units.
Nine units to include WGSS 300, 301, and 415;
One of the following for 3 units: WGSS 340 or 392;
One of the following for 3 units: WGSS 360 or 382;
U.S. and Global Ethnic/Gender Diversity – total 6 units: WGSS 311 and 401;
Women's History – total 3 units: WGSS 485A (HIST) or 485B (HIST);
Senior Capstone Seminar – total 3 units: WGSS 495

Electives – 15 units
To include 9 units from one of the following clusters and a total of 6 units from one or both of the other clusters.

Clusters

Feminist Aesthetics and Cultural Studies
This cluster focuses on the study of art and culture both as sites of women's theoretical and political work and as sources of the construction and representation of women's identities. The courses in this cluster examine forms of women's own self-expression (such as literature, philosophy, theory, and cinema) as well as women's place in

2009/2010 CSULB Catalog • Women's, Gender, and Sexuality Studies • 735
culture (such as language, art, popular culture, religion, or urban space) through which societal ideas about women have historically been created and maintained.

WGSS 312 (HIST 319), 314, 316 (FEA 317), 320 (CHLS 415), 355, 381 (ASAM), 382 (ENGL), HIST 338, 402 (POSC 401), WGSS 406A (ASAM, HIST), WGSS 406B (ASAM, HIST), 410, 420, 425, 432, 441 (ENGL), 442 (ENGL), 447, 455 (PHIL), 475 (ANTH, LING 470), WGSS 490 (depending on topic and with prior approval of the Women's, Gender, and Sexuality Studies advisor).

Social Change and Social Policy
The courses in this cluster address the role of women within the legal, economic and political structures of our society. Whether they are social policy makers or the ones affected by the distribution of power, women have always played a central role in all of the institutions and practices that make up our society. This cluster examines women's historical and contemporary place within religion; law; science; labor; economics; environmentalism; health care; cities; families; structures of race, class, and sexuality; and political activism.

WGSS 301, 308, 309 (NURE), 314, 315, 316 (ASAM, AFRS, CHLS), 325 (SOC), 340, 350, 356, 381 (ASAM, HIST), HIST 338, 392, 402 (POSC 401), 406A (ASAM, HIST), 406B (ASAM, HIST), 410, 420, 424, 425, 430, 432, 440, 455A (HIST, 455B (HIST), WGSS 490 (depending on topic and with prior approval of the Women's, Gender, and Sexuality Studies advisor), SOC 346, PSY 354.

U.S. and Global Ethnic/Gender Diversity
This cluster focuses on the experiences of women internationally and among diverse communities and cultures in the United States. Recognizing that women's experiences are defined as much by their positioning within their respective cultures, and societal systems as by their individual racial, ethnic, religious, class, or sexual identity, this cluster offers a comparative look at both the individual and the global aspects of women's lives. The courses in this cluster study the diversity of histories, experiences, and cultures within the United States as well as their historical and political connections to women around the globe.

WGSS 301, 315, 320 (CHLS 415), 356, 381 (ASAM, HIST), HIST 338, 392, 402 (ASAM, HIST), 406A (ASAM, HIST), 406B (CHLS 450A), 447, 449, 490 (depending on topic and with prior approval of the Women's, Gender, and Sexuality Studies advisor), IST 451.

Note: Courses cross listed with any of the above courses are accepted as substitutes. Students must earn a grade of at least "C" in all upper division major courses.

Minor in Women's Studies (code W/STUM01)
Requirements
A minimum of 21 units are required for the Women's Studies minor, to be selected with approval of a Women's, Gender, and Sexuality Studies advisor. Courses cannot be counted for more than one category within the minor and must be selected from among the following categories:

Lower Division - 3 units: WGSS 101 or 102
Upper Division - 18 units:
Take each of the following for three units each: WGSS 300, 318, 401
Take one of the following for three units: WGSS 340 or 392
Take one of the following for three units: WGSS 485A or 485B
Take three additional units from any cluster.

Courses (WGSS)

LOWER DIVISION

101. Women and Their Bodies (3)
Prerequisite or Corequisite: One GE Foundation course.
Introduction to the rapidly expanding body of literature and ideas related to the biology and sexuality of women.
Not open for credit to students with credit in WIST 101.

102. Women in Contemporary Society (3)
Prerequisite or Corequisite: One GE Foundation course.
Introduction to some of the basic questions raised by the contemporary feminist movement relating to the social, political, and economic status of women.
Not open for credit to students with credit in WIST 102.

216. Hollywood and Beyond: Gender, Race, and Sex in the Movies (3)
Prerequisite: Foundation curriculum completed
Explores ideologies of gender, race, sexuality, and class in mainstream and independent films. Focus is on learning to critically evaluate representations of identity and their social and political significance, including hegemonic and alternative representations.
Not open for credit to students with credit in WIST 216.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Principles of Feminism (3)
Prerequisites: ENGL 100 and upper division status or consent of instructor.
Introduction to principles of feminist history, thought, theory, methodology, and current issues that emphasize but is not limited to the United States.
Letter grade only (A-F). Not open for credit to students with credit in WST 300.

301. Feminist Research Methods (3)
Prerequisite: Upper division status.
Examines how feminist scholars frame and conduct research. Students explore feminist adaptations and critiques of traditional academic disciplines and design and conduct a research project using a range of bibliographic and research tools.
Letter grade only (A-F). Not open for credit to students with credit in WST 301.

307. U.S. Women and the Economy: Money, Sex, and Power (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Interdisciplinary examination of the economic roles of women; analysis of the sexual division of labor and domestic work. Special
focus on the origin, migration, settlement, and economic patterns of and problems facing US women from major ethnic and racial
groups.
Not open for credit to students with credit in WIST 307.

308. Women and the Law (3)
History of women's experience under the law; constitutional law; 19th amendment and ERA; equal protection issues; discrimination in employment; marriage and family law.
Not open for credit to students with credit in WIST 308.

309L. Women in Science (3)
Prerequisites: Completion of the G.E. Foundation, upper division standing, six units of General Education science courses and consent of instructor.
Examines women and their roles in science in terms of their socio-historical context, their specific contributions, and the nature of the scientific problems they pursued, including methodology and outcomes. Explores the cultural and institutional obstacles to the success of women in science.
Letter grade only (A-F). Same course as NSCI 309L. Not open for credit to students with credit in NSCI 309L or WIST 309L. (Lec 3 hrs.)

312. Women in the Ancient and Medieval West (3)
Prerequisite: ENGL 100.
Examines roles and experiences of women in Western Europe from prehistory to sixteenth century. Themes may include: construction of gender roles, relation between symbols and reality, interaction of private/public life, access to power/opportunity, possibilities of a "women's culture."
Same course as HIST 319. Not open for credit to students with credit in HIST 319 or WIST 312.

314. Women Narrate Their Lives (3)
Study of lives of a cross-section of Women in U.S. from colonial era to present based on biographical and autobiographical sources.
Not open for credit to students with credit in WIST 314

315. Black Women in America (3)
Prerequisites: ENGL 100 and upper division status or consent of instructor.
Examination of American black women from eighteenth century to present. Taught from interdisciplinary perspective and presented in their own voices.
Letter grade only (A-F). Not open for credit to students with credit in WIST 315

316. Women in the History of U.S. Film (3)
History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective.
Same course as FCA 317. Not open for credit to students with credit in FCA 317 or WIST 316.

318L. U.S. Women of Color (3)
Prerequisites: ENGL 100 and upper division standing or consent of instructor.
Examines condition, position, experiences and accomplishments of U.S. women of color. Covers historical and contemporary issues using theoretical essays, personal narratives, historical documents, literature, and media images.
Not open for credit to students with credit in WIST 318L.

319. The Ethnic Experience in the U.S. (3)
Examination of dynamics of development of our multicultural society, emphasizing study of four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in maintenance of cultural diversity in United States.
Same course as AIS 319, ASAM 319, AFRS 319, CHLS 319. Not open for credit to students with credit in AFRS 319, AIS 319, ASAM 319, BIST 319, CHLS 319 or WIST 319.

320. Latina Women in the United States (3)
Prerequisite: Junior standing or consent of instructor.
Examines cultural, political, economic, and sexual forces that mold Latina women. Focus on cultural stereotypes, class, gender identity, sexuality, and politics of race.
Same course as CHLS 415. Not open for credit to students with credit in CHLS 415 or WIST 320.

325. Sociology of Women (3)
A sociological analysis of social, political, and economic status of women. Examines history of women's roles and status; gender conflicts and social movements; and societal attitudes toward women in society.
Same course as SOC 325. Not open for credit to students with credit in SOC 325 or WIST 320.

340. Community Service Learning in Women's Issues (3)
Prerequisites: Upper division standing and two prior women's studies courses, or consent of instructor.
Allows students opportunity to practice theories and knowledge gained as a result of studying women's issues. Students will work in community with agencies addressing women's issues.
Not open for credit to students with credit in WIST 340.

350. Feminist Issues in Mental Health (3)
Introduces issues related to the mental health of women, from historical, anthropological, sociological and psychological perspectives. Emphasis is on the relationship of power, sexism, sex role socialization and gender stereotypes to mental health.
Not open for credit to students with credit in WIST 350.

356. Lesbian Histories and Culture (3)
Examination of lesbianism from psychological and historical perspectives; includes discussions of lesbianism in literature, representations of lesbianism in various media; the place of lesbianism in the politics of the women's movement and in gay liberation; and the development of "queer theory."
Not open for credit to students with credit in WIST 356.

365L. Images of Women in Popular Culture (3)
Prerequisites: Completion of GE foundation requirements, one or more Explorations courses, and upper division standing.
Analyzes the construction of images of women in popular culture. Discussion of theories of culture, gender and ideology. Analysis of film, advertising, magazines and popular fiction.
Not open for credit to students with credit in WIST 465L.

381. Asian American Women (3)
Reconstructs and examines Asian American women's history and contemporary experiences. Assesses complexities of intersecting social categories of oppression and Asian American women's active pursuit of equality and dignity.
Same course as ASAM 381. Not open for credit to students with credit in ASAM 381, HIST 381, or WIST 381.

382. Women and Literature (3)
Prerequisites: Completion of Foundation requirements.
Survey of literature by women authors writing in English, across a range of historical periods; examination of works in various genres that present complexity of women's lives and challenges of female authority; exploration of feminist critical approaches.
Same course as ENGL 382. Not open for credit to students with credit in ENGL 382 or WIST 382.

392. Feminist Pedagogy; Peer Facilitation (3)
Prerequisite: Previous or concurrent WGS 407 class and consent of instructor.
Peer facilitation of small group discussion, teaching assistance and other assignments directed by a supervising faculty member, supplemented by seminar, reading and journal writing.
May be repeated to a maximum of 6 units. Letter grade only (A-F). Not open for credit to students with credit in WIST 392.
401. Bodies and Borders: Feminism and Globalization (3)
Prerequisites: completion of Foundation courses, one or more Explorations course, and upper division standing.
Courses feminist perspectives on contemporary globalization. Examines how we might imagine a more equitable world and why feminism should be concerned with global perspectives. Topics include colonialism, terrorism, food production, women’s labor, migration, militarism, and social movements.
Not open for credit to students with credit in W/ST 411.

402. Women in Political Theory (3)
Prerequisite: Students must have completed one course in either political science or women’s studies.
Differential treatment of women and men in Western political theories, including femininity, power, rationality and the role of women in family. Classic and contemporary texts.
Same course as POSC 401. Not open for credit to students with credit in POSC 401 or W/ST 402.

406A. Asian Women: East and Northeast Asia (3)
Prerequisite: Upper division status.
Exploration of the histories of women in China, Japan, and Korea from prehistory to the present. Major themes include women’s contributions to social, cultural and political change and the complex relationship between feminism and nationalism in the modern period.
Same courses as AS/ST 406A and HIST 406A. Not open for credit to students with credit in AS/ST 406A and HIST 406A.

406B. Asian Women: South and Southeast Asia (3)
Emphasis on modern period; exploration of complexities of women’s roles in multicultural, multilingual societies in South and Southeast Asia, including gender as a continuing site of contention in nationalistic discourse.
Letter grade only (A-F). Same course as AS/ST 406B and HIST 406B. Not open for credit to students with credit in AS/ST 406B or HIST 406B.

410. Women, Religion, and Spirituality (3)
Prerequisites: ENGL 100 and upper division status, or consent of instructor.
Study of women as spiritual and religious beings responding to and coping with largely patriarchal religious doctrine. Examines socio-religious construction of women and women’s religious experience from prehistory to present day. Focus on feminist transformations of religious traditions.
Not open for credit to students with credit in W/ST 410.

413. Feminist Theory (3)
Prerequisites: WGGSS 300 or consent of instructor.
Examines contemporary feminist theoretical perspectives. Discussion of primary sources from a number of positions, including liberal, socialist, poststructural, “third world”, postmodernist and postcolonial feminists. Issues include gender and sexuality, race, ethnicity, class and nationality. Focus on discussion of current debates which cross disciplinary boundaries. Active student participation required.
Letter grade only (A-F). Not open for credit to students with credit in W/ST 413.

416. Queering Gender (3)
Prerequisite: Upper division status.
This course explores the intellectual debates in the emerging field of queer theory, particularly as it connects to women’s experiences and the politics of gender. It will focus on the intervention of queer theory seeks to make into heteronormative culture on all levels of social life.
Not open for credit to students with credit in W/ST 416.

420. Mothers and Daughters (3)
Prerequisites: completion of Foundation courses, one or more Explorations course, and upper division standing.
Examines how mothering is “reproduced” in daughters, and why/how patriarchal culture regulates the mother/daughter bond. Course materials include novels, film, and interdisciplinary theoretical works. Special emphasis on the mother/daughter relationship in a range of historical, racial, class and sexual contexts.
Not open for credit to students with credit in W/ST 420.

424. Women and Environmental Justice (3)
Prerequisites: Completion of Foundation curriculum and upper division status.
Examines complex relationship between women and nature and their treatment through 1) socio-religious ideologies, 2) international development, 3) environmental pollution, and 4) patterns of consumption and waste in industrialized nations. Third World feminists’ insights largely frame the debate.
Not open for credit to students with credit in W/ST 424.

425. Women and Power (3)
Prerequisites: A previous W/ST class (101, 102, or 300) and upper division status or consent of instructor.
Examination of ways power has been defined, obtained, shaped and maintained, and effect this has historically had on women. Applies theory to contemporary issues affecting women and explores strategies for empowerment.
Not open for credit to students with credit in W/ST 425.

430. Women and Violence (3)
Women as victims and survivors of physical, psychological, and philosophical violence. Problems of rape, woman battering, incest, pornography and sexual harassment, examination of legal, religious and philosophical issues and alternatives for change.
Not open for credit to students with credit in W/ST 430.

432. Women in the City (3)
Examines the way women respond to urban environment, both literally and imaginatively. Special attention paid to sexual division of space, particular needs of immigrant and third world women, and urban cities of sisterhood. Readings feature literary texts, augmented by an interdisciplinary range of theoretical and empirical studies of cities.
Not open for credit to students with credit in W/ST 432.

440. Issues in Women’s Health (3)
Prerequisites: Upper division status: ENGL 100, and WGGSS 101, BRIOL 205, BRIOL 207.
Fundamentals of anatomy and physiology relevant to the cause, prevention, and treatment of various health issues, including reproductive organ dysfunction, sexually transmitted disease, infertility, contraception, pregnancy, osteoporosis, cancer, and cardiovascular disease. Emphasizes lifestyle habits such as diet, exercise, and stress.
Not open for credit to students with credit in W/ST 440.

441. Women Writers of the Harlem Renaissance (3)
Prerequisites: ENGL 100 and upper division status or consent of instructor.
Explores literature and lives of women authors of American Harlem Renaissance Period of 1920s. Examines critical reception, relative obscurity, and current re-discovery of these women. Utilizes theoretical essays, biographical narratives, historical documents, and media images.
Same course as ENGL 441. Not open for credit to students with credit in ENGL 441 or W/ST 441.

442. Sexing Chicana Literature (3)
Prerequisites: ENGL 100 and upper division status or consent of instructor.
Examines how Chicana authors explore race, class, and gender. Focused on use of sexuality, particularly with respect to cultural and
literary stereotypes vs. experience and aesthetic practice. Themes will include desire, identity, empowerment through "traditional" roles, and violence and the body.

445A. Latinas and Revolution: Central America and Late 20th Century Mexico (3)
Prerequisite/Corequisite: ENGL 100 and upper division status or consent of instructor.
Examines war and struggles for democracy, shape the social consciousness and political activism of Latinas. Uses literature, film, history, and political theory to examine the role of violence in women's lives, community organizing, and the conceptualization of pan-Latino feminist movement.
Letter grade only (A-F). Same course as CHLS 450A. Not open for credit to students with credit in CHLS 450A or WIST 445A.

445B. Latinas and Revolution: Caribbean, U.S. and Early 20th Century Mexico (3)
Prerequisite/Corequisite: ENGL 100 and upper division status or consent of instructor.
Examines war and struggles for democracy shape the social consciousness and political activism of Latinas. Uses literature, film, history, and political theory to identify differences in contexts of community struggle and points of intersection within Latina activism.
Letter grade only (A-F). Same course as CHLS 450B. Not open for credit to students with credit in CHLS 450B or WIST 445B.

447. Women, Feminism, and Christian Theology (3)
Prerequisite: Completion of GE Foundation.
Letter grade only (A-F). Not open for credit to students with credit in WIST 447.

449. Feminism and International Human Rights (3)
Prerequisite: Upper division status or consent of instructor.
Reviews feminist debates on racism, colonialism, and international human rights. Will consider current international women's rights issues and critiques of western feminist perspectives on veiling, genital surgeries, gender-based persecution, violence against women in war, child, dowry murders, migration and trafficking.
Not open for credit to students with credit in WIST 449.

455. Philosophical Perspectives on Sex and Love (3)
Prerequisite: 6 units of philosophy or consent of instructor.
Philosophical perspectives on sex and love explore philosophical issues concerning sex, gender, and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined.
Same course as PHIL 455. Not open for credit to students with credit in PHIL 455 or WIST 455.

475. Language and Gender in Cross-Cultural Perspective (3)
Analysis of men’s and women's communication in its social and cultural context: role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences, cultural dimensions of perceptions and stereotypes and their effect on communication.
Same course as ANTH 475, LING 470. Not open for credit to students with credit in WIST 475.

485A. History of Women in the U.S. Early Period (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of roles and activities of American women from colonial period to 1850, with focus on slavery, immigration, family, economy, law, and politics.
Same course as HIST 485A. Not open for credit to students with credit in HIST 485A or 485A.

485B. History of Women in the U.S. Since 1850 (3)
Prerequisite: Completion of GE Foundation requirements.
Challenges and status of women in economic and social change; suffrage movement, women in union movement and WW II; the decade of the sixties and the "second wave" of feminism.
Same course as HIST 485B. Not open for credit to students with credit in HIST 485B or WIST 485B.

490. Special Topics (1-3)
Topics of current interest in women's studies, selected for intensive study.
May be repeated to a maximum of 6 units with different topics. Not open for credit to students with credit in WIST 490.

492. Special Topics (1-3)
Topics of current interest in women's studies, selected for intensive study.
May be repeated to a maximum of 6 units with different topics. Not open for credit to students with credit in WIST 492.

495. Senior Capstone Seminar (3)
Prerequisites: Open to WGS 450, minors, or consent of instructor.
Capstone course intended to integrate the multidisciplinary body of knowledge accumulated in the major or minor.
Not open for credit to students with credit in WIST 495.

498. Field Work (1-3)
Prerequisite: Consent of instructor.
Practical experience in campus or community organizations concerned with women's issues.
May be repeated to a maximum of 6 units. Not open for credit to students with credit in WIST 498.

499/599. Directed Studies (1-3)
Prerequisite: Consent of Instructor.
Independent work in areas of special interest to student and instructor.
May be repeated to a maximum of 6 units. Not open for credit to students with credit in WIST 499.

GRADUATE LEVEL

599/499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent work in areas of special interest to student and instructor.
May be repeated to a maximum of 6 units. Not open for credit to students with credit in WIST 599.
GENERAL POLICIES AND REGULATIONS

Election of Regulations for Degree Requirements (Catalog Rights)

Undergraduate students acquire "catalog rights" with respect to the requirements for a degree program by maintaining "attendance" continuously. This means that, if continuous attendance is maintained and the degree objective is not changed, students may choose to graduate under the requirements for the degree in effect (1) at the time they began the study in a California community college or another campus of The California State University, (2) at the time they entered CSULB, or (3) at the time of graduation from CSULB. Substitutions for discontinued courses may be authorized or required by the Dean of the cognizant College. Students who change their major, including changing from "undecided" status to a defined degree objective or from one option to another option under the same degree, are governed by the degree major requirements in effect at the time of the change or declaration of major. Students who change majors are advised that some courses counted for General Education or double counted for General Education and a major may become unacceptable for General Education in connection with a new major. These students should check with the Academic Advising Center.

The term "attendance" means, literally, attendance in a course for at least one semester (or quarter) unit credit in at least one semester (or two quarters) in a calendar year, culminating in a record of enrollment on the student's official transcript. For the purpose of establishing catalog rights, the course must be at the baccalaureate or graduate level in a California community college, a California State University, or a University of California campus. Enrollment resulting in a withdraw (the grading symbols W or WU) does not count as attendance in a course, and so does not preserve "catalog rights."

Once "catalog rights" are established, absence related to an approved medical, military or academic leave or for attendance at another accredited institution of higher education will not be considered an interruption of attendance, provided that the absence does not exceed two years. Please see Educational Leave later in this section.

For all students, disqualification or a failure to remain in continuous attendance will mean that the student must meet the regulations current at the time of resuming the degree program or those applicable at the time of graduation. In addition, for graduate students, a failure to maintain continuous attendance means the automatic revocation of "candidacy" for the degree (advancement to candidacy) and of "catalog rights."

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this Catalog, students and others who use this Catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or CSULB designee. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, college, or administrative office.

Nothing in this Catalog will be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This Catalog does not constitute a contract or the terms and conditions of a contract between the student and CSULB or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees. Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices, and procedures, or its faculty and staff, may be found in the Student Grievance Procedure policy later in this section.

The Federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to enroll them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at http://www.sss.gov.

Information concerning the academic programs of CSULB may be obtained from the Academic Vice President, BH 303, at (562) 985-4128 and may include:
1. The current degree programs and other educational and training programs;
2. The instructional, laboratory, and other physical plant facilities which relate to the academic program;
3. The faculty and other instructional personnel;
4. Data regarding student retention at CSULB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest; and

740 • Policies and Regulations • 2009/2010 CSULB Catalog
Almost 77% of CSULB transfer students eventually earn baccalaureate degrees and over two-thirds do so within four years of transferring. Those rates have been increasing and students are graduating more quickly than in past years. Students who began as junior transfers graduated in an average of 3.00 years (for the cohort whose degrees were awarded in the college year 2007-2008). Community college students intending to transfer would be well-served to seek early advising. Many arrive at CSULB having taken more units than the transfer minimum and with courses that cannot credit toward degrees, delaying graduation and adding costs.

Completing the degree in a reasonable period of time is an important goal for students and parents. The number of units that must be completed to earn a degree, 120-140 units is typically equivalent to about 40-47 three-unit courses (although courses can equate to one to four or more units). At CSULB, degrees in engineering, sciences and the arts generally require the largest number of courses and units. Earning a 120-unit degree within four years requires full time attendance (15 units per semester). Full time attendance is a "full-time job" and requires about 45 hours per week attending class and studying. Completing a degree with a higher unit requirement in a reasonable time requires attending winter session, summer session and/or attending longer than four years.

More detailed data can be found at the CSULB Institutional Research website.

1. Estimated eventual graduation rates are based on a methodology developed by the California State University system that takes into consideration the number of students still enrolled in good academic standing at the six-year point in time.

Accreditation

The University is accredited by the Western Association of Schools and Colleges (985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001), the agency responsible for granting regional accreditation to colleges and universities in California, Hawaii, and Guam. It is accredited by the California State Board of Education and is on the list of approved institutions of the American Association of University Women. Additional information concerning University accreditation may be obtained from the Office of the Provost. Additional information concerning departmental accreditation may be obtained from the department concerned or the Office of the Provost.

CSULB Principles of Shared Community

CSULB affirms the importance of democratic and transparent decision-making processes as a shared community. The University believes that all members of the University community have not only a right, but also a responsibility, to participate in the governance of this community. Therefore, the University is committed to providing an opportunity for all its members – faculty, students, staff, and administrators – to join in the decision-making process either through direct participation or representative governance.

CSULB is committed to creating a community in which a diverse population of students and employees can learn and work while they share in creating an atmosphere of tolerance, civility, and respect for the rights and sensibilities of each individual. (Policy 07-09)

CSULB Statement on Civility and Acts of Violence

California State University, Long Beach, takes pride in its tradition of maintaining a civil and non-violent learning, working, and social environment. Civility and mutual respect toward all members of the University community are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a safe and productive workplace and overall healthy campus climate.

The University espouses and practices zero tolerance for violence against any member of the University community (i.e., students, faculty, staff, administrators, and visitors).

Violence and threats of violence not only disrupt the campus environment, they also negatively impact the University’s ability to foster open dialogue and a free exchange of ideas among all campus constituents.

To fulfill this policy, the University strives: 1) to prevent violence from occurring; and 2) to enforce local, state, and federal laws, as well as University regulations, regarding such conduct. The University also has established procedures for resolving and/or adjudicating circumstances involving violence, as well as threats of violence. A threat of violence is an expression of intention that implies impending physical injury, abuse, or damage to an individual or his/her belongings. All allegations of such incidents (i.e., acts and threats) will be aggressively investigated. Allegations that are sustained may result in disciplinary action up to and including dismissal from employment, expulsion from the University, and/or civil and criminal prosecution.

Members of the campus community are encouraged to promptly report any acts of violence, threats of violence, or other behavior which by intent, act, or outcome harm themselves or others. (Approved October 1997)
The Principles:
Equal Access and Opportunity, Non-discrimination/Non-harassment

California State University, Long Beach is a comprehensive, urban university. The University has a professional, cultural and ethical commitment to provide a climate that enables each individual to realize his/her potential for excellence and that nurtures academic growth and professional development.

Diversity is both an ideal and an imperative. California State University, Long Beach takes pride in its student body and employees, and affirms that this diversity enriches the work and learning environment of the campus. For this reason, the recognition of diversity in our University community extends beyond the limits established by federal or state laws or regulations.

In addition to fully meeting its obligations of nondiscrimination under federal and state law, CSULB is committed to creating a community in which a diverse population can learn, live, and work in an atmosphere of tolerance, civility, and respect for the rights and sensibilities of each individual, without regard to professional rank, employment status, economic status, ethnic background, political views, or other personal characteristics or beliefs.

CSULB takes seriously its tradition of maintaining civility and mutual respect toward all members of the University community. These qualities are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a productive workplace and an overall positive campus climate. Civility and mutual respect thrive only when equal opportunity and access exist, and when all individuals exercise the rights, privileges and obligations as they choose. (Policy 03-09)

Perrin Reid, Director of Equity and Diversity, is the designated campus coordinator for equal employment opportunity, affirmative action, and civil rights.

Policy Prohibiting Discrimination and Harassment

California State University, Long Beach affirms that students, employees, volunteers, members of the public, and recipients of services, and/or benefits provided by CSULB have the right to a University free from discrimination and harassment, including hostile environment, on the basis of race, color, ancestry, national origin, ethnicity, gender, gender identity, religion, sexual orientation, marital status, disability, age, pregnancy, veteran status (Vietnam-Era, special disability and other protected—http://www.opm.gov/veterans/html/vsguideh.htm). These protected categories are identified in the state statute, the Fair Employment and Housing Act, and, to a large extent, in a number of federal statutes.

Retaliation for exercising one’s right to protection from discrimination and/or harassment or for participating in the investigation of a complaint is prohibited by law, and will not be tolerated.

The policy applies to all CSULB programs and activities, including, but not limited to, educational, cultural, recreational, and social and/or athletics programs and activities provided, sponsored, administered, or assisted by CSULB; CSULB academic programs and/or activities; CSULB-sponsored off-campus programs; housing supplied or regulated by CSULB; the administration of educational policies, admission policies, and employment policies and actions, including but limited to, recruitment, hiring, education, upgrading, promotion, transfer, demotion, layoff, recall, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeships; choice of contractors and suppliers of goods and services; provision of services and benefits to CSULB students, employment, volunteers, or the public; receipt of CSULB services and benefits provided by CSULB contractors or vendors.

Federally-required affirmative action plans are available for inspection in the University Library, Reserve Book Room during normal business hours.

Confidentiality

The University is committed to maintaining a safe environment in which individuals can be unafraid to discuss concerns. Any member of the University community may seek general information and guidance about discrimination, harassment, and retaliation issues in confidence and anonymously.

However, the University’s obligation is to take appropriate action to stop prohibited behavior and to prevent retaliation. This may preempt any request for confidentiality.

Complaint Resolution Procedures

Resolution of discrimination, harassment and retaliation complaints is available to all members of the University community. The procedures vary, but are all intended to resolve complaints in a timely and responsive manner at the earliest possible stage.

For employees represented by a collective bargaining agreement, the collective bargaining agreement outlines procedures, process and timelines. Information is available...
from your campus union representative, or online at
http://www.calstate.edu/labor/rof/Contracts.HTML/
contracts.shtml
For employees not eligible to file a complaint or
grievance under any collective bargaining agreement or
whose collective bargaining agreement incorporates CSU
system-wide complaint procedure, the complaint procedure
is outlined in CSU Executive Order 921. It is available
online at: http://www.calstate.edu/labor/rof/Contracts_ 
HTML/Contracts.shtml
For students or other members of the campus
community, guests, visitors, affiliates and associates, the
Campus Complaint Resolution Procedure will apply. Forms
are available in the Office of Equity & Diversity, USU 301.
Please note: for students, these complaint procedures are
applicable if the alleged offender is an employee, vendor,
contractor, or visitor. Alternatively, if the alleged offender
is a student, complaints should be filed in the Office of Judicial
Affairs.
Campus Complaint Procedure – Informal
This procedure is initiated by speaking with one of the
following persons of your choice: Immediate supervisor,
program/office director, department chairperson/director,
dean/associate dean, designated resource person (list
available from the Office of Equity & Diversity or online at
http://www.csulb.edu/depts/ced/resources/res-3-2.htm),
Director of Equity & Diversity.

The individual(s) alleged to have violated University policy
is expected to: provide information about University policy and procedures, ensure
the safety and security of the complainant in the immediate
environment, ensure the due process of the individual(s)
charged, ensure confidentiality to the extent possible by end
with all parties, report the complaint to the Director of Equity & Diversity
within five (5) working days from receipt of the
complaint, consult with the Director of Equity & Diversity at least once per week until the complaint is resolved, an
outcome is reached, or the complaint is referred to the
Director of Equity & Diversity for review and disposition, maintain
records of the complaint and log of all contacts
made, report monthly to the Director of Equity & Diversity
of the number, nature, and outcome of the complaints.
The outcome of all informal complaints must be reported to the
Director of Equity & Diversity. If the proposed remedy is
unsatisfactory to the complainant, or if the complaint is not
resolved in the informal process, the complaint may proceed
to the formal level.
Campus Complaint Procedure – Formal
An allegation becomes a formal complaint only when it
is filed in writing on an official University discrimination
complaint resolution form and is signed, or when the
Director of Equity & Diversity files the complaint. The form
is available from the Office of Equity & Diversity.

The alleged offender will be notified of the complaint by
the Director of Equity & Diversity. The alleged offender is
required to respond in writing.

If agreement is reached, the Director of Equity & Diversity
shall provide all concerned parties with a written
statement of the resolution.

If agreement is not reached, the Director of Equity & Diversity will proceed to evaluate the applicability of
University policy prohibiting discrimination, harassment, and
retaliation to the alleged behavior.

The Director of Equity & Diversity is authorized to
to interview anyone deemed necessary to the investigation.
The investigation will normally be completed within thirty
(30) working days.

Time limits may be extended or waived by the President
or upon request of the Director of Equity & Diversity.

At the conclusion of the investigation, the Director of
Equity & Diversity will submit a report of the complaint,
investigation and findings and recommendations to all
concerned parties, and the appropriate division executive.
The division executive will notify the Director of Equity &
Diversity of resulting action.

Campus Standards of Conduct
Both productivity at work and the learning process are
significantly impaired by alcohol abuse and the use of illicit
drugs. Substance abuse among college students inhibits
their educational development and is an serious nationwide
concern.

California State University. Long Beach is dedicated to
the elimination of the use of illicit drugs and alcohol
abuse. The University is making every effort to create an
environment that promotes and reinforces good health. This
includes responsible living, respect for community and
campus standards and regulations, individual responsibility
within the community, and the intellectual, social, emotional,
ethical, and physical well-being of all members of the
campus community.

On campus property, the solicitation, sale, use or
knowing possession of dangerous drugs, restricted
dangerous drugs, or narcotics, as those terms are used in
California statutes, are prohibited.

Consumption of alcohol is prohibited in individual offices,
classrooms, laboratories, or generally accessible public or
open areas, such as the quad and athletic fields.

Information regarding campus policies on the
consumption of alcohol may be obtained by calling the
Office of Student Life and Development at 985-8668.

Pursuant to Title 5 of the California Code of Regulations,
vioations by students of the above regulations, when
campus related or not, may, after due process, result in the
student being placed on probation, being suspended, or
being expelled. Additionally, violations of laws committed
on campus property, or at a campus event, will also be
subject to referral and prosecution through off-campus
authorities. Penalties by enforcement agencies for violations
of the law may include imprisonment, fines, or both; these
are in addition to administrative sanctions imposed by the
University.

More detailed descriptions of student regulations
concerning drugs, or alcohol, may be found elsewhere in
the CSULB Catalog, or in the Residence Hall Calendar
and Handbook, or in the Regulations for Campus Activities,
Organizations and the University Community.

Pursuant to Education Code Section 98535, employees
may be disciplined, up to and including termination, for
the following causes:
1. Conviction of criminal offenses involving the illegal use of
drugs.
2. Appearing for work impaired by the use of alcohol and/or controlled substances.
3. Addiction to use of controlled substances.
   More detailed descriptions of employee regulations concerning drugs or alcohol may be found in the Administrative Policies and Procedures Handbook and the Faculty and Staff Handbooks.

Don't Put Your Health at Risk

To become dependent upon chemicals such as illicit drugs or alcohol is to put your health at risk. Chemical dependency is a condition in which the use of mood altering substances such as drugs or alcohol is associated with problems in any area of life on a more or less continuing basis.

One does not, however, have to be addicted or chemically dependent to suffer health risks from the use of illicit drugs or alcohol.

Alcohol and illicit drugs (in all the many forms) may, and often do, impair physical coordination and judgment, diminish control over impulsive behavior, and cause many short- and long-term health consequences.

Alcohol-related illnesses now represent the third leading cause of death in the United States exceeded only by cancer and heart disease, and medical research has established very strong evidence that alcohol abuse contributes significantly to cancer and heart disease. There is clear evidence of serious negative effects on babies due to the use of illicit drugs and alcohol by the mother during pregnancy.

If You Have a Problem, We Want to Help

The California State University, Long Beach Health Center offers substance abuse programs for students, faculty, and staff. These include: a Student Assistance Program for students; and Employee Assistance Program for faculty and staff; and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA testing and eligibility requirements and conference affiliation rules for competition).

An experienced and specially trained therapist under the supervision of the Medical Director serves as the coordinator and counselor for these programs, and medical doctors, other health professionals, and counseling psychologists are available for consultation. All contacts with the Health Center and professional personnel are confidential.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Ralph Davis, Student Health Services, (562) 985-5850.

The California State University, Long Beach Health Center is located at the corner of State University Drive and Merrimac Drive. The telephone number is (562) 985-4771.

Security on Campus

Campus Security Act

California State University, Long Beach University Police, obtains its powers to arrest from the California Penal Code and the California Education Code.

Reporting Emergencies on Campus

The on-campus emergency phone number is 9-1-1. The non-emergency phone number is (562) 985-4101. Any problems concerning behavior of members of the campus community, theft, vandalism, fire, and all related matters should immediately be brought to the attention of the University Police.

Procedures for Reporting Crimes on Campus

Whenever students or employees become victims of a crime while on the campus of CSULB, or whenever they have witnessed a crime or feel that there is a possibility that a crime is about to occur, they should notify University Police as soon as possible. There are numerous emergency phones located throughout the campus and parking lots, which are direct lines to the University Police dispatcher. Contact University Police by simply locating the nearest emergency phone or by using the emergency phone that is located in all elevators. Individuals may also contact the mobile police units that patrol the campus on a 24-hour schedule. Parking enforcement officers also patrol the parking lots and have direct radio contact with the police dispatcher and the mobile police units. The University Police is located at the far east end of campus, between parking lot "11" and parking lot "9" on Palo Verde Avenue. The Department is open 24 hours a day to respond to any call for service or to any emergency.

Opening Classrooms

Custodians are responsible for unlocking all outside doors and classrooms which do not contain equipment (audiovisual, computers, etc.) at 7:00 am. University Police personnel are responsible for opening buildings on weekends and holidays. Persons requesting a door opened must have proper authorization. Questions of interpretation and special access matters should be directed to University Police.

Security of Buildings

Personnel who require regular access to specific buildings and rooms may request keys. Requests must be approved by the appropriate department and, for some facilities, by the appropriate administrator. Individuals granted special access to rooms and buildings must assume personal responsibility for facilities and equipment during the time they are using these facilities and equipment and must ensure that the door is locked at the conclusion of work.

University Police will ensure that all buildings are secured every night. An individual desiring to remain in a building after normal closing hours is required to notify University Police.

A faculty or staff member who does not have a key but who requires access to a particular building or room after normal instructional or working hours must present proper identification to University Police before being given access to the building. Graduate Assistants and other students who require entrance to a building during other than normal hours must have proper identification and prior approval in writing from the appropriate administrator. This authorization must be on file with University Police.
Anyone who has difficulty in gaining authorized access to an area or who needs assistance in securing a building or room should contact University Police.

Policy Concerning Law Enforcement on Campus
California State University Police Officers are sworn Law Enforcement Officers under California Penal Code, Section 853.2, and in compliance with State Statute meet the police officer standards and training requirements mandatory for all California law enforcement officers. In addition, California State University Police Officers undergo training specifically designed to meet the needs and problems of a contemporary university community.

The primary responsibility of the University Police is the preservation of the public peace and the protection of life and property against all unlawful acts. The department will take all possible measures to prevent crime and accidents, investigate thoroughly all suspicious and criminal activity, and apprehend offenders quickly in all cases where crimes are committed.

Type and Frequency of Programs to Inform Campus Personnel About Security Procedures and Practices
University Police actively invites fraternities and sororities, as well as sports groups and clubs on campus, to participate in the "Acquaintance/Dates Rope" lectures. These classes are scheduled flexibly at no charge to meet the group's needs. The University Police also conducts new employee, orientation, and special group orientations. Officers routinely address residence hall students on a variety of topics, such as drug and alcohol abuse, and the prevention of sexual assaults.

Programs Designed to Prevent Crime
University Police offers an evening escort service for all students and employees. They are picked up and escorted to their vehicles or to the residence halls.

University Police provides employees with information about California law and how to avoid being a victim. Advice is also provided about securing valuables and protecting vehicles.

Statistics on Major Crimes
University Police reports statistics on major crimes monthly to the Office of the President, to the Chancellor's Office, and to the Department of Justice.

Information concerning CSULB policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, (562) 985-4101.

Information concerning the CSULB annual crime statistics reports may be obtained online at the University Police website http://sitaf.csulb.edu/offices/dpsm/police or by contacting University Police directly at (562) 985-4101.

Firearms on Campus
Any person who brings or possesses a firearm on the grounds of the University, without the prior written permission of the Chief of University Police, or as otherwise provided by law, is in violation of State law (California Penal Code, Section 626.9), and University Regulations, and is punishable by imprisonment. Any person who brings or possesses a device that expels a metallic projectile, such as a BB or pellet, through the force of air pressure, CO2 pressure, or spring action, or a spot marker gun, on the grounds of the University, without the permission of the University Police, is in violation of University Regulations; such action may result in University or legal sanctions.

Off-Campus Monitoring of Criminal Activity at Campus Events
The University Police Department has a close working relationship with the City of Long Beach Police Department. These meetings are on a monthly basis and discuss areas of possible problems. Reports are exchanged with LBPD, LASD, and other police departments.

Policy for the Use of Alcohol and Drugs on Campus
Alcoholic beverages generally may not be consumed on campus except at sponsored events and with specific approval of the Director of Student Life and Development.

Alcoholic beverages may only be consumed on University premises that have been licensed by the Department of Alcohol Beverage Control or on other University premises at "approved group sponsored events." Sponsors of such events must obtain prior written approval from the Office of Student Life and Development. Approval normally will be limited to events in such areas as the University Student Union, the Soroptimist House, or the Chart Room.

The solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, is prohibited on campus property. Excepted are drugs which are lawfully prescribed or lawfully permitted for the purpose of bona fide research, instruction or analysis.

CSULB is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The CSULB Student Health Services offers substance-abuse consultation programs for students, faculty and staff who may need assistance in overcoming the personal problems associated with alcohol or drug abuse. These programs include a Student Assistance Program for students, an Employee Assistance Program for faculty and staff, and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA requirements). All contacts with the Health Center and its personnel are confidential.

More detailed descriptions of campus regulations concerning alcohol and drugs may be found in the current editions of the CSULB Catalog, the CSULB Schedule of Classes, Regulations for Campus Activities, Organizations, and the University Community, and the Faculty, Staff and Student Handbooks.

Policy on Sexual Assault
Students, faculty, and staff who are victims of sexual assault committed at or upon the grounds of the University, or upon off-campus grounds or facilities maintained by affiliated student organizations, are required by law to be advised of specified information, to include treatment, related campus procedures, referral options, and other assistance which may be available [California Education Code, Section 67258]. This policy is designed to provide the written procedures and information required.
Rape, including acquaintance rape, or any other form of sexual assault, will not be tolerated by California State University, Long Beach. Where there is evidence that campus-related sexual assault has been committed, severe campus disciplinary action will be initiated. Such campus disciplinary action may include, after due process, the possibility of dismissal, suspension or disenrollment. Additionally, where the victim initiates criminal action, the perpetrator is subject to criminal penalties which may include fines and imprisonment.

**Sexual Assault**

The term "sexual assault" includes, but is not limited to, rape, acquaintance rape, sexual battery, forced sodomy, forced oral copulation, rape by a foreign object, or threat of sexual assault [California Education Code, Section 67389(d)].

Rape is a criminal offense. "Rape" is generally defined as an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, under specified circumstances. For example, it may involve the use or threat of force, violence, retaliation, or fear of actual immediate and unlawful bodily injury. Rape also occurs when the victim is incapable of giving legal consent, for example, when: a) the victim has a mental disorder, or is developmentally or physically disabled; or b) the victim is prevented from resisting the assault due to intoxicating substances (e.g. alcohol or drugs); or c) the victim is unconscious of the nature of the act, and such condition was known or reasonably should have been known to the accused (Reference: California Penal Code, Section 261, and the following sections). Spousal rape is also prohibited under the "Spousal Rape" provisions of the California Penal Code, Section 262.

"Acquaintance Rape" is forced sexual intercourse undertaken by someone the victim knows, against the will of the victim or as a result of threats, force or fear.

"Sexual Battery" is defined as the touching of an intimate part of another person, if the person is unlawfully restrained and if the touching is against the will of the person touched, for the purpose of sexual arousal, sexual gratification, or sexual abuse [Reference: California Penal Code, Section 243.4 (n) (1)].

"Assault with intent to commit a sexual battery" is defined as an unlawful attempt, coupled with the present ability, to commit a violent injury (e.g., rape) or sexual battery on the person of another [Reference: California Penal Code, Section 220; 246 (261), and following sections].

"Consent" is defined as positive cooperation in an act or attitude pursuant to an exercise of free will. The person must act freely and voluntarily and have knowledge of the nature of the act or transaction involved. A current or previous dating or marital relationship is not sufficient to constitute consent where, under specified conditions, consent is at issue [Reference: California Penal Code, Section 261.5; 261(c)]

"Unlawful Sexual Intercourse with a minor" is an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, where the person is under the age of 18 years [California Penal Code, Section 261.5].

Any person who willfully and lewdly commits any Lewd or lascivious act upon or with the body of any part of a child under the age of 14 years with the intent of arousing, appealing to, or gratifying the sexual desires or passions of either the child or defendant is guilty of a felony. Any person who commits any act in the previous sentence with a person 14 or 15 years old, and the defendant is at least 10 years older than the child is guilty of a public offense [California Penal Code, Section 288]. Any person who intentionally gives, transports, provides, persuades or makes available to another a child under age 16 for lewd or lascivious acts is guilty of a felony, punishable by fine and imprisonment [California Penal Code, Section 264(a)]. Every person who annoys or molests any child under the age of 18 is punishable by fine and imprisonment, or both fine and imprisonment [California Penal Code, Section 647.6].

**University Jurisdiction**

California State University, Long Beach views seriously its obligation to uphold the laws of the larger community of which it is a part. An association with the University does not exempt a person from local, state, or federal laws, but rather imposes the additional obligation to abide by all of the rules and regulations of the California State University.

A student charged with a sexual abuse or sexual assault or sexual battery violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to student discipline under the Student Conduct Procedures (Reference: Chancellor’s Executive Order 97/0, “Student Conduct Procedures”; and Title V, California Code of Regulations, Section 41301-41302, “Student Discipline”).

Employees charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to discipline under the California Education Code, Sections 89538-89540. Such campus disciplinary action for employees may include demotion, suspension, or dismissal.

**Campus Reporting Procedures**

Persons involved in, or possessing knowledge of, a campus-related abuse violation are strongly encouraged to notify University Police immediately. University Police may be contacted by:

- using any of the blue lighted telephones
- by depressing the red button on all public pay telephones
- simply dialing (562) 985-4101 or 9-1-1
- anonymous tips can be made by calling (562) 986-5131

An officer will be dispatched and will assist the victim to a medical facility for medical care and collection of evidence.

An officer will assist the victim with a police report should the victim desire to make one. An officer will remain available to the victim until a friend or relative can be located.

The University Police Department cannot hold reports of crime in confidence. Confidential reports for purposes of inclusion in the annual disclosure of crime statistics can generally be made to other CSU campus security authorities identified as the following:

1. Associate Vice President for Student Services
   (562) 985-5887, Brotman Hall 377
2. Director, Counseling and Psychological Services
   (562) 985-4001, Brotman Hall 226
3. Director, Student Health Services
   (562) 985-4771, Student Health Center
4. Director, Staff Human Resources
   (562) 985-4031, Brotman Hall 335
5. Director, Equity and Diversity
   (562) 985-2026, University Student Union 301
6. Director, Judicial Affairs
   (562) 985-5270, Brotman Hall 377
7. Director, Women's Resource Center
   (562) 985-8676, Liberal Arts 3, Rm. 105
8. Director, Housing and Residential Life
   (562) 985-4102, Housing Office
9. Director, Athletics
   (562) 985-4665, Pyramid Annex

Alternatively, one may anonymously report a crime to any of the above listed campus authorities. Each respective unit or person contacted will be responsible for reports, as may be required by law, to be filed for their respective unit, e.g., violations under the Child Abuse Reporting Law, Jeanne Clery Act or Moeran’s law.

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act

Access crime statistics for CSULB. These are mandated statistics as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Hard copies of this brochure may be obtained from CSULB Police Department’s main station located on the southern end of parking lot 11, 1200 Bellflower Blvd, or from the police substation located in the University Student Union room, 237. This report is also available on the University Police web site at http://dsf.csulb.edu/offices/ppf/police, and can be downloaded in the PDF format. This report is prepared in cooperation with the Police agencies surrounding our main campus and our alternate sites, Housing and Residential Life, the Judicial Affairs Office, and the Division of Student Services. Each entity provides updated information on their educational efforts and programs to comply with the Act.

The following are among the options available to a victim and more than one option may be exercised:
1. Criminal Prosecution: University Police - (562) 985-4110
   Emergency: 9-1-1
2. Civil Action: Consult an attorney.
3. University Disciplinary Process, where accused is:
   A. Faculty: Academic Employee Relations
      (562) 985-5208; BH-300
   B. Staff, Staff Human Resources
      (562) 985-4126; BH-303
4. Informal Mediation: Office of the University Ombudsman
   (562) 985-5868; FND-140
5. Alternative Campus Housing Assignments: Director, Housing
   (562) 985-4167; Housing Office
6. Academic Assistance:
   A. Counseling and Psychological Services
      (562) 985-4001, BH 226
   B. Women's Resource Center
      (562) 985-5466; LAC-105
   C. Academic Advising Center
      (562) 985-4837; Homer Center, Room 103

In the event there are requests for information from the press, concerned students, parents, and others, prudence will be exercised, and, when required by law, confidentiality will be maintained. When appropriate, only the Department Director (for matters strictly within the Director’s purview), or the University Director of Public Affairs (for inquiries by the media), will respond.

Victims are advised that there could likely be a need to identify both the victim and the assailant in the course of investigation and hearings under University student disciplinary proceedings, as well as under employee disciplinary proceedings, or criminal proceedings. In the case of student disciplinary actions against an assailant, the victim is required to be promptly notified by the Director, Judicial Affairs of the status of the proceedings, and the general terms of the disposition.

Persons are reminded of the importance of preserving such evidence as may be necessary to the proof of criminal (sexual assault). With respect to sexual assault involving student discipline, both the accused and the accuser are entitled to have an advisor present during a campus disciplinary proceeding, and to be informed of the outcome of the campus student disciplinary proceeding. Student victims of sexual assault may request changes in academic and living arrangements precipitated by the offense where such changes are reasonably available.

Support Services

Sexual assault violations often result in physical harm, psychological harm, or both. Even if the victim decides not to report the incident to authorities, it is urged that the victim seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

• The University Counseling and Psychological Services provides crisis counseling as well as ongoing assistance to students who have experienced sexual assault, BH 226, (562) 985-4001, www.csulb.edu/caps.
• The University Student Health Center offers routine medical examinations, including pregnancy tests and tests for sexually transmitted diseases, (562) 985-4771.

• The University Women's Resource Center provides video tapes, books, and brochures for both men and women referrals to community services are also provided, (562) 985-5466.

• S.A.R.T (Sexual Assault Response Team) The University Police is an active participant of the Long Beach S.A.R.T. process. This process offers individuals forensic exams to victims of sexual assault and child molestation. Coordination is with University Police, Long Beach Police Department, District Attorney's office, a forensic nurse and a rape crisis counselor. The police dispatcher activates the S.A.R.T. process after the officers have connected with the victim. The University Police may be reached by calling (562) 985-4101 or 9-1-1. S.A.R.T. is located at Long Beach Community Hospital. A victim may be driven to Long Beach Community Hospital, 1720 Termino Ave., Long Beach, for the S.A.R.T. services. The emergency room staff will contact S.A.R.T. directly.

Additionally, referrals are available through the following non-university agencies:
1. Interval House Hotline, (562) 594-1555
2. The Rape Crisis Hotline – Long Beach Area, (562) 597-2002
3. The Rape Crisis Hotline – South Bay Area, (310) 545-2111
4. The Rape Crisis Hotline – Orange County, (714) 834-9110
5. The Sexual Treatment Center – Santa Monica Hospital, (310) 319-4000
6. The Sexual Assault Crisis Agency, (562) 597-2002 or (562) 889-5900
7. The Sexual Assault Hotline, (714) 957-2737
8. The Victim Witness Assistance Hotline, (714) 957-2737;
9. Safe At Home Confidential Address Program, (877) 322-5227; www.so.ca.gov/safeathome/

Also, the center of Counseling and Psychological Services office maintain lists of referrals within the community which deal with the issues of rape and sexual assault crimes, including legal, medical, and therapeutic support services. The phone number for the University Counseling and Psychological Services office is (562) 985-4001.

**Victims of Violent Crime Statute**

A person who has sustained physical injury as a direct result of a crime of violence, or is legally dependent for support upon a person who has sustained physical injury or death as a direct result of a crime of violence shall have the right to privacy of information concerning such violent crime maintained by the University. This information includes but is not limited to the name and address of the student, the nature and circumstances of the crime, the date and time of the crime, and the identity of the perpetrator. The University shall ensure the confidentiality of such information and shall not disclose it except as required by law or as otherwise permitted by the California Constitution and statutes.

**Student Educational Records and Privacy Rights**

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1292-g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must give students access to most records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statutes and the regulations. Copies of these policies and procedures may be obtained at the Office of Enrollment Services or the Office of Judicial Affairs. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Ave., S.W., Washington, D.C. 20202-5620.

The campus is authorized under the Act to release "directory information" concerning students. CSULB designates the following items authorized by FERPA as directory information: student's name, address (see below for conditions), telephone number (see below for conditions), e-mail address, major field of study, dates of attendance, grade level, enrollment status, and degrees, honors, and awards received. Addresses and telephone numbers for currently enrolled students will be released to CSULB personnel and units solely for the purpose of conducting legitimate University business. They may not be shared with individuals or organizations outside the University except in accordance with the following provisions. Addresses and telephone numbers may be released for non-commercial use by individuals or organizations outside the University provided the requests for such information have been reviewed and approved by the appropriate University personnel. Requests from the academic offices of accredited educational institutions shall be reviewed by the Provost and Senior Vice President for Academic Affairs or designee. All other requests shall be reviewed by the Vice President for Student Services or designee. Otherwise, the University may disclose any of the items designated as "directory information" above without prior written consent, unless the student provides a request that certain information not be released (non-disclosure). Requests for non-disclosure may be made directly by the student utilizing their self-service account in the student system via the Internet. If the student does not have access to the Internet, their request for non-disclosure must be requested on the "Authorization to Withhold Student Information" form, available in the Office of Enrollment Services. Specifying items as directory information allows the University to disclose this information without prior written consent. It does not require that the University
release the information except under court direction. In addition to the above, the Director of Athletics may provide information concerning participation of students in athletic events, including the height and weight of athletes. The University will also respond to requests for information regarding the employment status of students serving as Teaching Associates (TAs), Graduate Assistants (GAs), or Instructional Student Assistants (ISAs) and the departments that employ them.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. Those persons have responsibilities in campus’ academic, administrative, or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; for specified health or safety matters; or to other institutions in which the student has enrolled).

Career Placement Information

The Career Development Center office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided shall be in a form that does not allow to the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Taxpayers who claim Hope Scholarship or Lifetime Learning tax credits will be required to provide the campus with their name, address, and Social Security Number.

Student Grievance Policy

The CSULB grievance policy and procedure are designed to provide the campus community with a protocol to accommodate circumstances for which no other policy or procedure exists. This policy does not cover grade appeals, prohibited discrimination, or any other issues that are covered by existing policies. Students are advised to consult appropriate additional campus resources (e.g., the Undergraduate and Graduate Catalog, the Schedule of Classes, “The Regs”). The Office of the Dean of Students has staff to help students understand the details of the grievance procedure and may be called upon for assistance.

Student Grievance Procedure

The student grievance procedure at CSULB is intended to provide a formal, standardized means for students to seek redress concerning the actions of faculty members, administrators, or staff members of the university-actions that are unauthorized or unjustified and that adversely affect the status, rights, or privileges of the students. Further, the purpose is to establish due process and safeguards that will be followed by the university in the adjudication of grievances.

A grievance filed under this policy must be initiated within one year of the alleged violation. A grievance may not be filed on the basis of a student’s judgment of an instructor’s or administrator’s competence; such judgments are solely the province of the academic department involved or of the administrator’s supervisor.

The grievance procedure is not designed to replace open communication and understanding, which are vital to the academic process. The student may withdraw the grievance at any stage, at which point the process will immediately terminate. During all stages of the grievance, the burden of proof will be on the student.

The person or entity against whom the complaint is made is referred to in this document as the respondent. The initiator of the grievance is referred to as the grievant. For nonacademic matters, the term dean is also construed to refer to the responsible individual of comparable level—typically an associate vice president or vice president.

In the event that the respondent is at the level of dean or higher, the complaint should be directed to the responsible person at the next higher administrative level. If the chair or program director was directly involved in the original decision or denied the student an opportunity for due-process review at the local level, the student should seek informal resolution through the dean of the college (or designee).

If after ten instructional days beyond the initial informal meeting a satisfactory resolution is not reached, the department chair or program director will meet with the student grievant and the respondent. Within fifteen instructional days of that meeting, the chair or program director will complete an investigation of the allegations and will reach conclusion. The chair or program director shall promptly communicate the decision to the student and the respondent. If the grievant is not satisfied with the results of the informal process, he or she may initiate a formal grievance procedure by contacting the appropriate college dean (or designee) or the responsible person at the next nonacademic level within fifteen instructional days of the decision. (P.S. 07-01)
Formal Grievance Procedure

To initiate the formal grievance procedure, the student is required to submit a written "statement of grievance"—a clear, concise, signed, and dated statement of events from the student's perspective. The statement should provide enough information to present a complete understanding of the situation and of the remedy sought by the student.

A student initiates the formal procedures by submitting the statement of grievance to the appropriate department chair or program director. The chair or director will then submit a copy of the statement of grievance to the appropriate college dean or next appropriate higher administrative level and to the respondent. The respondent is required to submit a written response to the chair or program director within ten instructional days. The chair or program director will then provide a copy of the respondent's reply to the grievant and to the college dean or next appropriate higher administrative level.

The dean or appropriate administrator has a period of ten instructional days to review the case, during which he or she may opt to seek additional information from the parties involved or from witnesses. By the end of that ten-day period, the dean or administrator will either (1) render a decision or (2) convene a College Hearing Committee to investigate further. The student shall have the right to request that a College Hearing Committee be convened.

College Hearing Committee

If required, a College Hearing Committee will consist of an administrator representing the dean, two faculty members elected from the Faculty Council of the appropriate college, a student representative elected from the Student Council of the appropriate college, a designee of the vice president for student services, and faculty advisor elected by the Academic Affairs Council appropriate to the grievance. All meetings of the College Hearing Committee will be closed to the public, and no transcripts will be prepared. If the college hearing committee seeks evidence by means of personal testimony, the meeting at which such evidence is presented shall be conducted in the manner of any other academic committee meeting and is not considered a formal hearing. Both the grievant and respondent shall be given opportunities to present their views. There shall be no cross-examination.

The charge of a College Hearing Committee is to investigate and then to recommend to the dean a proposed resolution. The College Hearing Committee will review the grievance and, if necessary, forward supplemental queries to the respondent and to the department chair and program director involved—along with direction to submit written responses within twenty instructional days. Once the College Hearing Committee has received the written responses, it will review all available evidence, conduct deliberations, and then choose one of the three courses of action:
- Remand the grievance to the dean with a recommendation of immediate corrective action in favor of the grievant—based on sufficient evidence of a violation of (1) university regulation or policy or (2) principle of due process or (3) both.
- Defer a decision to allow for further investigation and gathering of evidence. In the case of such a continuation, both the grievant and the respondent will be notified in writing of the additional evidence required and whether that evidence should be provided in writing or in personal testimony.
- Dismiss the grievance based on a (1) lack of sufficient evidence or a violation of the university regulation or policy and (2) confirmation of adherence to principles of due process.

The College Hearing Committee will forward the recommendation to the dean. The dean will then make a decision and forward that decision to the respondent and grievant. If neither the respondent nor the grievant requests further review, then the grievance process ends.

If either party wishes to appeal the decision of the Dean, the appeal, in writing, may be made to the Provost (academic) or appropriate Vice President (non-academic). The appeal must be made within ten instructional days of the dean's decision. The Provost or Vice President will notify both parties of the appeal and convene a University Hearing Committee to investigate further.

University Hearing Committee

If required, a University Hearing Committee will consist of an administrator representing the Provost, three faculty members selected from the Panel on Professional Responsibility according to the procedures of that policy, and a student elected from the Associated Students, Inc. All meetings of the University Hearing Committee will be closed to the public, and no transcripts will be prepared. If the University Hearing Committee seeks evidence by means of personal testimony, the meeting at which such evidence is presented shall be conducted in the manner of any other academic committee meeting and is not considered a formal hearing. Both the grievant and respondent shall be given opportunities to present their views. There shall be no cross-examination.

The charge of a University Hearing Committee is to investigate and then to recommend to the Provost a proposed resolution. The University Hearing Committee will review the grievance and, if necessary, forward supplemental queries to the respondent and to the Provost—along with direction to submit written responses within twenty instructional days. Once the University Hearing Committee has received the written responses, it will review all available evidence, conduct deliberations, and then choose one of the three courses of action:
- Remand the grievance to the Provost with a recommendation of immediate corrective action in favor of the grievant—based on sufficient evidence of a violation of (1) university regulation or policy or (2) principle of due process or (3) both.
- Defer a decision to allow for further investigation and gathering of evidence. In the case of such a continuation, both the grievant and the respondent will be notified in writing of the additional evidence required and whether that evidence should be provided in writing or in personal testimony.
- Dismiss the grievance based on a (1) lack of sufficient evidence or a violation of the university regulation or policy and (2) confirmation of adherence to principles of due process.
The University Hearing Committee will forward the recommendation to the Provost. The Provost will then make a decision and forward that decision to the respondent and grievant. The University Hearing Committee shall function as the final level of this grievance process.

41301. Standards for Student Conduct

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community must choose behaviors that contribute toward this end. Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

(a) Student Responsibilities

Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and to contribute positively to the student and university life.

(b) Unacceptable Student Behavior

The following behavior is subject to disciplinary sanctions:

(1) Dishonesty, including:
   (A) Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   (B) Furnishing false information to a University official, faculty member, or campus office.
   (C) Forgery, alteration, or misuse of a University document, key, or identification instrument.
   (D) Misrepresenting one's self to be an authorized agent of the University or one of its auxiliaries.

(2) Unauthorized entry into, presence in, use of, or misuse of University property.

(3) Willful, material, and substantial disruption or obstruction of a University related activity, or any on-campus activity.

(4) Participating in an activity that substantially and materially disrupts and interfere with the rights of members of the University community.

(5) Willful, material, and substantial obstruction of the free flow of pedestrian or other traffic on or leading to campus property or an off-campus University related activity.

(6) Disorderly, loud, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.

(7) Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.

(8) Hazing, or conspiracy to hazing. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 246.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

(9) Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceuticals.

(10) Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.

(11) Theft of property or services from the University community, or misappropriation of University resources.

(12) Unauthorized destruction, or damage to University property or other property in the University community.

(13) Possession or misuse of firearms or guns, Replica, ammunition, explosives, fireworks, knives, or other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.

(14) Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.

(15) Misuse of computer facilities or resources, including:
   (A) Unauthorized entry into a file, for any purpose.
   (B) Unauthorized transfer of a file.
   (C) Use of another's identification or password.
   (D) Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University community.
   (E) Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   (F) Use of computing facilities and resources to interfere with normal University operations.
   (G) Use of computing facilities and resources in violation of copyright laws.

(16) Violation of any published University policy, rule, regulation or presidential order.

(17) Failure to comply with directions or, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.

(18) Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.

752 • Policies and Regulations • 2009/2010 CSULB Catalog
(19) Violation of the Student Conduct Procedures, including:
   (A) Fabrication, distortion, or misrepresentation of information related to a student discipline matter.
   (B) Disruption or interference with the orderly progress of a student discipline proceeding.
   (C) Initiation of a student discipline proceeding in bad faith.
   (D) Attempting to discourage another from participating in the student discipline matter.
   (E) Attempting to influence the impartiality of any participant in a student discipline matter.
   (F) Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   (G) Failure to comply with the sanction(s) imposed under a student discipline proceeding.
   (20) Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

(c) Procedures for Enforcing This Code
   The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

(d) Application of This Code
   Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

41302. Disposition of Fees; Campus Emergency; Interim Suspension
   The President of the campus may place on probation, suspend or expel students for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such students for the semester, quarter, or summer session in which they are suspended or expelled will be refunded. If the students are readmitted before the close of the quarter, or summer session in which they are suspended, no additional tuition or fees will be required on account of the suspension. During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, or measures deemed necessary or appropriate to meet the emergency, to safeguard persons and property, and to maintain educational activities.
   The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension will be given prompt notice of charges and the opportunity for a hearing within ten days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designee designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension will be grounds for expulsion.

41303. Conduct by Applicants for Admission
   Notwithstanding any provision to the contrary, admission or readmission may be qualified or denied to any persons who, while not enrolled as students, commit acts which, were they enrolled as students, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be disqualified or denied to any persons who, while students, commit acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases will be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for The California State University
   The Chancellor will prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code will provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admissions or denial of admission under Section 41303, the authority of the campus President in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor will report to the Board actions taken under this section.
   The current University regulation on alcoholic beverages is stated in the CSULB Policies, Information and Regulations Handbook published by the Office of Student Affairs.
   Additional detailed information relating to student discipline is available in the Office of Student Affairs, and from the Office of the Vice President for Student Services.

Administrative Action
   Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Code of Regulations. Copies of Section 41301 of Title 5 may be found in the University Catalog and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor's Executive Order 970, "Student Conduct Procedures" are also available upon request.
   The Vice President for Student Services will report annually to the President and the Chair of the Academic Senate a summary of the charges concerning cheating and plagiarism brought before the Office of Judicial Affairs.
Judicial Affairs

The Office of Judicial Affairs (Brotman Hall - 377) provides assistance with the interpretation and enforcement of campus regulations. Complete copies of the CSULB "Campus Regs," including a listing of infractions which may result in student disciplinary action under Title 5, Section 41301, of the California Code of Regulations, "Probation, Suspension and Expulsion of Students," are available in this office; also available are copies of Executive Order 970, "Student Conduct Procedures." General assistance and aid in directing individuals to the proper procedures, departments and personnel may be obtained in this office.

Alleged violations are investigated primarily through informal office conferences with the involved students. The conferences which are held as a result of impending disciplinary action are:
1. To clarify the referral, the charges, or the circumstances involved;
2. To prevent the incidence of, or further occurrences of, violations; and
3. To educate as a preventive experience and to indicate the possible consequences as a result of committing a violation. Discussion is centered on the cause-and-effect relationship of various courses of action and, when possible, alternate paths or solutions are explored.

Fee Establishment and Policies

Average Support Cost per Full-Time Equivalent Student and Sources of Funds

The total support cost per full-time equivalent student includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of full-time equivalent students (FTES). The total CSU 2008/09 final budget amounts were $2,970,706,000 from state General Fund appropriations (not including capital outlay funding), $1,251,321,000 from State University Fee (SURF) revenue, $2,766,090,000 from other fee revenues and reimbursements for a total of $4,498,120,000. The number of projected 2008/09 full-time equivalent students (FTES) is 356,950. The number of full-time equivalent students is determined by dividing the total academic student load by 16 units per term (the figure used here to define a full-time student's academic load).

The 2008/09 average support cost per full-time equivalent student based on General Fund appropriation and State University Fee revenue only is $11,658 and when including all sources as indicated below is $12,633. Of this amount, the average student fee support per FTE is $4,290, which includes all fee revenues in the CSU Operating Fund (e.g., State University Fee, nonresident tuition, application fees, and other miscellaneous fees).

"Student fee support represents campus 2008/09 final budget submitted State University Fee revenue.

"The other income and reimbursements represent campus other fee 2008/09 final budget revenue submitted, as well as reimbursements in the CSU Operating Fund. The average CSU 2008/09 academic year resident, undergraduate student fees required to apply to, enroll in, or attend the university is $3,849. However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or nonresident.

Procedure for the Establishment or Abolishment of a Student Body Fee

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 82300). A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 82304). The student body fee was established at CSULB by student referendum in April 7, 2000. The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code, Section 82300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code, sections 90012, 90027, and 90066. Student body association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committees and a student referendum. The campus President may use alternate consultation mechanisms if he/or determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President.

The President may adjust campus-based mandatory fees, but must request the Chancellor establish a new mandatory fee. The President shall provide to the fee advisory committee a report of all campus-based mandatory fees.
fees. The campus shall report annually to the Chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor's Office at (562) 951-4568.

**Tax Credits for Higher Education**

The Taxpayer Relief Act of 1997 encourages postsecondary and continuing education by providing tax benefits to students and their families. Taxpayers can claim one, or in some cases, two of these new tax credits for expenses they pay for postsecondary education for themselves and their dependent children. These tax credits can directly reduce the amount of federal income tax for returns filed.

The Hope Scholarship Credit is available on a per-student basis for the first two years of postsecondary education. The maximum credit is $1,500 per student. It will be offered to students or parents who pay tuition and related expenses for attendance at least half-time in a degree-granting program.

The Lifetime Learning Credit provides a tax credit to parents and/or students of up to $2,000 of total annual educational expenses, per return. Education expenses that are paid with tax-free grants, scholarships, are not eligible for either tax credit. Education expenses paid with loans are eligible for these tax credits. Interest paid on qualified student loans may also be deductible from taxpayer income. Interest can be taken as a deduction during the first 60 months (5 years) of repayment on student loans.

To assist you in taking advantage of these tax credits, the University will provide you with the following information:

- **Form 1098T (Tuition Payments Statement)** - This form must be submitted along with your federal tax return to claim these credits.
- **Form W-9S (Request for Student's or Borrower's Social Security Number and Certification)** - This form should be completed and returned to the University, if your social security number is incorrect.
- **Telephone inquiries at (562) 985-4169**
- **Online at MyCSULB.edu**
- **In-person inquiries at Brozman Hall 155**
- **IRS Publication 970, Tax Benefits for Education www.irs.gov**

Either your lender or loan servicer will provide interest deduction information to you. Those eligible will be provided with a 1098E form, which must be submitted along with your federal tax return to claim this deduction.

NOTE: The information described above, and the information available via MyCSULB or phone regarding the new tax benefits, is in general terms. Your ability to claim these tax benefits depends on your individual circumstances. We recommend that you consult a tax advisor to determine your personal eligibility.

Allen, Bengt (2007) ........................................ Assistant Professor
Biological Sciences
B.A., Pomona College, M.S., San Diego State University, Ph.D., Stony Brook University.

Allen, Teresita (2009) ........................................ Director
Faculty Center for Professional Development

Allen, Teresita (2009) ........................................ Professor
Communication Studies
B.A., Louisiana Technical University, M.A., Louisiana State University, Baton Rouge.

Amirkhan, James H. (1988) ........................................ Professor
Psychology
B.A., Reed College, M.A., California State University, Northridge, Ph.D., University of California, Los Angeles.

Ammerman, Peter A. (1990) ........................................ Associate Professor
Finance
B.S.A., Pace University, M.B.A., Virginia Polytechnic Institute and State University, Ph.D., Virginia Polytechnic Institute and State University.

Amouzegar, Mehryar A. (2005) ........................................ Associate Dean
College of Engineering

Amouzegar, Mehryar A. (2005) ........................................ Professor
Department of Electrical Engineering
B.S., San Francisco State University, M.S., Ph.D., University of California, Los Angeles.

An, Shuhua (2008) ........................................ Assistant Professor
Teacher Education
B.A., Nanjing Normal University, Nanjing, China, M.A., Texas A&M International University, Ph.D., Texas A&M University.

Andersen, Leslie N. (2002) ........................................ Librarian
University Library
B.M., University of Southern California, M.M., M.I.S., The Florida State University, Tallahassee.

Anderson, John (2006) ........................................ Assistant Professor
Film and Electronic Arts
B.A., M.A., Cornell University

Anglin, David I. (2005) ........................................ Assistant Professor
Music
B.A., San Francisco Conservatory of Music, M.A., University of California, Los Angeles, Ph.D., University of Southern California.

Anglin, Judith C. (2008) ........................................ Assistant Professor
Family and Consumer Sciences
B.S., M.S., Ph.D., Howard University

Anjo, Dennis M. (1994) ........................................ Professor
Chemistry and Biochemistry
B.A., M.S., San Francisco State University, Ph.D., Arizona State University, Tempe.

Anwar, Mohammad Z. (1965) ........................................ Professor
Psychology and Sociology
B.S., M.S., Deakin University, Ph.D., University of British Columbia.

Archie, James W. (1989) ........................................ Professor
Biological Sciences
B.S., M.S., State University of New York, Stony Brook.

Arciniega, Ferdinand A. (2005) ........................................ Staff Psychologist
Counseling and Psychological Services
B.A., California State University, M.A., New York University, Ph.D., University of Southern California.

Armstrong, Greg (1986) ........................................ Librarian
B.A., M.A., California State University, Chico; M.A.L.S., University of Wisconsin.

Armstrong, Keitra L. (2003) ........................................ Professor
Kinesiology
B.S., M.A., Missouri State University, Ph.D., Ohio State University.

Arnold, Joshua A. (1996) ........................................ Professor
Management and Human Resources Management
B.A., Point Loma Nazarene College, M.A., University of Illinois at Urbana-Champaign.

Arora, Tina (2008) ........................................ Assistant Professor
Advanced Studies in Education and Counseling
B.S., M.S., University of Madras, M.Ed., Kent State University, Ph.D., University of California, Los Angeles.

Arroyo, Gavin (2008) ........................................ Head Coach
Men's and Women's Water Polo

Athletics
B.S., University of California, Berkeley.

Arroyo, Luis L. (1995) ........................................ Professor
Chinese and Japanese Studies
B.A., M.A., University of California, Santa Barbara; Ph.D., University of California, Los Angeles.

Arroyo, Sarah J. (2003) ........................................ Professor
English
B.S., New Mexico State University, Las Cruces; M.A., California State University, Long Beach; Ph.D., University of Texas at Arlington.

Ary, James P. (1983) ........................................ Professor
Electrical Engineering
B.S., St. Mary's College, Calumet, Ph.D., Ohio State University.

Ascenas, Jennifer N. (2008) ........................................ Assistant Professor
Communication Studies
B.A., M.A., California State University, Long Beach; Ph.D., University of Texas, Austin.

Ashe, Pamela E. (1994) ........................................ Psychologist
Counseling and Psychological Services
B.A., California State University, Long Beach; M.A., California State University, Dominguez Hills; Ph.D., Iowa State University, Washington, D.C.

Asher, Abraham (2003) ........................................ Assistant Professor
Information Systems
B.A., California State University, Fullerton; M.S., University of Southern California; Ph.D., Claremont Graduate School.

Athey, John J. (1993) ........................................ Professor
Teacher Education
B.A., University of St. Thomas, Houston, M.A., Ph.D., University of Chicago, Chicago, USA.

Babcock, William A. (2001) ........................................ Professor
Environmental Studies
B.A., Principia College; M.A., The American University; Ph.D., Southern Illinois University at Carbondale.

Babe, Walter F. (2001) ........................................ Associate Professor
Public Policy and Administration
B.A., California State University, Long Beach; M.A., Ph.D., University of North Carolina at Chapel Hill.
Brazier, Christopher R. (2001) .......................... Associate Professor  
Chemistry and Biochemistry  
B.S., Ph.D., University of Southampton

Bremer, Carolyn R. (2003) .......................... Professor  
Music  
B.F.A., California Institute of the Arts; M.A., Ph.D., University of California, Santa Barbara.

Brevik, John (2006) .......................... Assistant Professor  
Mathematics and Statistics  
B.S., Michigan State University; M.S., University of Washington; Ph.D., University of California, Berkeley.

Briggs, Nancy E. (1979) .......................... Professor  
Communication Studies  
B.A., Arizona State University; South Dakota, M.A., Ph.D., University of Southern California; Emeritus, 2004.

Briggs, Ray A. (2003) .......................... Associate Professor  
Music  
B.A., University of Memphis; M.A., University of Florida; O.C., Ph.D., University of California, Los Angeles.

Brocato, John (2006) .......................... Assistant Professor  
Social Work  
B.A., M.S.W., Ph.D., Florida International.

Brooks, Catherine F. (2006) .......................... Assistant Professor  
Communication Studies  
B.A., California State University, Long Beach; Ph.D., University of California, Irvine.

Broughton, Jeffrey L. (1976) .......................... Professor  
Religious Studies  
B.A., MA, Ph.D., Columbia University.

Bruno-Brown, Carol (2006) .......................... Senior Assistant Librarian  
University Library  
B.S., M.A., University of Maryland; M.S., University of California, Los Angeles.

Brown, Eric (2007) .......................... Men's Basketball Assistant Coach  
Athletics  
B.A., California State University, Northridge.

Brown, Kendall H. (1999) .......................... Professor  
Art  
B.A., M.A., University of California, Berkeley; Ph.D., Yale University.

Brown, Lori (2007) .......................... Assistant Professor  
Interdepartmental Studies  
B.A., California State University, Long Beach; M.A., Ph.D., Northwestern University; Evanston, Illinois.

Brown, Stephanie V. (2003) .......................... Assistant Professor  
Human Development  
B.A., Pillar College; M.A., Ph.D., University of Texas, Austin.

Brusslan, Judith A. (1994) .......................... Professor  
Biological Sciences  
B.A., Medillotory College, Vermont; Ph.D., University of Chicago.

Bu, Xianhui (2003) .......................... Assistant Professor  
Chemistry and Biochemistry  
B.S., Fudan University, Shanghai; Ph.D., City College, Ph.D., State University of New York at Buffalo.

Bunting, Ianroba (2006) .......................... Associate Professor  
African Studies  
B.S., Loyola Marymount University; Ph.D., University of Wales.

Buonora, Paul T. (2006) .......................... Professor  
Chemistry and Biochemistry  
B.S., M.S., Indiana University of Pennsylvania; Ph.D., University of Virginia.

Burke, Althea D. (1987) .......................... Professor  
History  
B.M., American Conservatory of Music; B.A., M.A., Ph.D., University of Chicago.

Barnett, Ella A. (1997) .......................... Professor  
Teacher Education  
B.S., M.S., Pittsburg State University; Ed.D., University of California, Los Angeles; Emeritus, 2008.

Barnett, Raymond C. (2001) .......................... Associate Professor  
Journalism  
B.A., Ohio Wesleyan University; M.A., Ohio State University; M.A., George Washington University; Ph.D., Colorado State University; Fort Collins.

Bush, Roland E. (1969) .......................... Professor  
Comparative World Literature and Classics  
B.A., California State University, Long Beach; M.A., Ph.D., University of Southern California; Emeritus, 2000.

Byron, Andrew (2006) .......................... Associate Professor  
Art  

Byun, Linda H. (1964) .......................... Professor  
Mathematics and Statistics  
B.S., University of Hawaii; M.A., Ph.D., University of Wisconsin, Madison.

Callahan, Linda (2009) .......................... Professor  
Nursing  
B.S. Biology, California State, M.A., M.S., California State University, Long Beach; Ph.D., Florida State University.

Campbell, Carol A. (1989) .......................... Professor  
Sociology  
B.A., University of Alaska; Ph.D., University of Colorado.

Campbell, Joyce M. (1989) .......................... Professor  
Physical Therapy  
B.S., M.S., Ph.D., University of Southern California; Regulated Physical Therapist.

Canizales, Claudia (2007) .......................... Assistant Professor  
Advanced Studies in Education and Counseling  
B.A., University of California, Berkeley; M.A., Ph.D., University of San Francisco.

Caputi, Mary A. (1995) .......................... Associate Professor  
Political Science  
B.A., Cornell University; M.A., University of Chicago; Ph.D., Cornell University.

Carbuto, Michael N. (2001) .......................... Chief of Medical Staff  
Associate Director of Student Health Services  
Student Health Services  
B.S., New Mexico State University; M.P.H., University of Southern California; M.O., Western University.

Cargile, Aaron C. (1996) .......................... Professor  
Commencement Studies  
B.A., University of California, Santa Barbara; M.A., Purdue University; Ph.D., University of California, Santa Barbara.

Carré, Susan L. (2001) .......................... Associate Professor  
English  
B.A., University of California, Berkeley; M.A., University of San Francisco.

Carmichael, John A. (1996) .......................... Professor  
Music  
B.S., Duquesne University, Pittsburgh; M.A., University of San Francisco.

Carney, Michael R. (1991) .......................... Professor  
Music  
B.M., East Carolina University; M.M., Tarrant School of Music; D.M.A., North Texas State University.

Caron, Timothy P. (1998) .......................... Director  
Interdisciplinary Studies and University Honors Program  
English  
B.A., Louisiana College; M.A., Louisiana State University.

Carro, Christopher (2007) .......................... Associate Professor  
Intensive Systems  
B.S., University of Wisconsin; M.S., Ph.D., University of Minnesota, Twin Cities.

Carreira, Maria M. (1995) .......................... Professor  
Romance, German, Russian languages and Literature  
B.S., Loyola University Chicago; Ph.D., University of Illinois.

Carver, Ashley (2006) .......................... Assistant Professor  
Biology, General  
B.S., University of Wisconsin; M.S., Ph.D., Yale University.

Carver, Charles (1985) .......................... Professor  
Physical Therapy  
B.A., Babson College; M.A., University of Northern Iowa; Ph.D., University of Iowa; Emeritus, 2006.

Cawthorn, Jeanne Rolf (1981) .......................... Assistant Dean of Students  
Division of Student Services  
B.A., Scripps College; M.A. and Ph.D., Claremont Graduate School.

Cegles, Victor P. (2006) .......................... Director  
Athletics  
B.S., Bucknell University, Lewesburg, PA, M.A., Indiana University of Pennsylvania.

---
Cooper, Stephen P. (1987) ................. Professor
English
B.A. University of California, Los Angeles; M.A., University of California, Irvine; Ph.D., University of Southern California.

Coots, Jennifer (1997) ..................... Professor
Advanced Studies in Education and Counseling
B.A., Occidental College; M.A., California State University, Los Angeles; Ph.D., University of California, Los Angeles; and California State University, Los Angeles.

Cormack, Jody G. (2003) .................... Associate Professor
Physical Therapy
B.S., California State University, Long Beach; M.S., Ph.D., University of Southern California.

Costa, D. Margaret (1974) .................. Professor
Kinesiology
B.S., M.Ed., University of Massachusetts, Ph.D., Ohio State University.

Couch, Victor (2007) ....................... Men’s Basketball Assistant Coach
Athletics
B.A., Santa Clara University, California.

Counselman, Samuel G. (1958) ............ Professor
Mathematics and Statistics

Cox, Carol (1958) .......................... Professor
Teacher Education
B.A., University of California, Los Angeles; M.A., Ph.D., University of Minnesota, Minneapolis, Emeritus, 2006.

Crass, Scott W. (2001) ...................... Associate Professor
Mathematics and Statistics
B.A., Evangel College; B.A., California State University, Long Beach; M.A., University of Notre Dame; Ph.D., University of California, San Diego.

Cresta, Domenic (1966) .................... Professor
Art

Crockett, Bryan (2007) ..................... Associate Professor
Art
B.F.A., Cooper Union, New York; M.F.A., Yale University, New Haven.

Croke, Ellen M. (1999) ..................... Assistant Professor
Nursing
B.S.N., Northeastern University; M.S.N., California State University, Long Beach; Ed.D., Pepperdine University.

Crosswayor, Jill A. (1998) ................. Assistant Professor
Kinesiology
B.S., Long Island University; M.S., University of Massachusetts; Ph.D., University of Oregon.

Cummings, Tanya R. (2009) ............... Associate Professor
Art
B.A., California State University, Long Beach; M.A., California State University, Fullerton.

Cummings, Chaillin (2008) ............... Visiting Professor
Management and Human Resource Management
B.A., Southern University U.S.S., M.S., University of Utah.

Curry, Denise (1995) .............. Women’s Basketball Assistant Coach
Athletics
B.A., University of California, Los Angeles; M.A., CSU Dominguez Hills.

Curtis, James R. (1995) ................... Professor
Occupancy
B.A., M.A., San Jose State University; Ph.D., University of California, Los Angeles.

Curtis, Kenneth R. (1990) ............... Assistant Vice President
International Education and Global Engagement

Dahlin, Rebecca D. (1986) ............... Associate Professor
Nursing
B.S.N., Los Angeles County Medical Center; B.S.N., University of Phoenix; M.S.N., California State University, Los Angeles.

Dallman, Suzanne (2007) .................. Assistant Professor
Geography
B.A., San Francisco Art Institute; M.A., California State University, Long Beach; Ph.D., University of California, Los Angeles.

Dansy, Richard (1985) ................... Professor
American Indian Studies
B.A., California State University, Northridge; M.A., California State University, Chico; M.A., University of California, Davis; Emeritus, 2005.

Das, Mihir K. (1981) ....................... Professor
Mechanical and Aeronautical Engineering
B.S., Indian Institute of Technology, India; Ph.D., University of Binghamton, Emeritus, 2005.

Daugherty, Emma L. (1997) ............... Professor
Journalism
B.S., West Virginia University; M.A., Michigan State University.

Davis, James A. (1985) ................... Professor
Kinesiology
B.A., M.A., San Diego State University; Ph.D., University of California, Davis.

Davis, Jeffrey P. (1997) ................... Assistant Professor
Sociology
B.A., M.A., North Carolina Central University, Ph.D., North Carolina State University.

Day, Linda A. (2002) ...................... Associate Professor
Arts

De Albuquerquen, Joon (2004) .......... Assistant Professor
Music
B.M., M.M., Michigan State University.

DeBo, Martha J. (1999) .................. Associate Professor
Graduate Center for Public Policy and Administration
B.S., University of San Francisco, M.A., San Francisco State University, Ph.D., Virginia Polytechnic Institute and State University.

DeGraffenreid, Linda J. (1990) .......... Professor
Mathematics and Statistics
B.A., Grand Canyon College, St. Louis; A.M., Stanford University; M.A., Ph.D., University of Georgia, Athens.

Deitch, Kathryn V. (1997) ............... Associate Professor
Nursing
B.S., University of Maryland; M.S., Texas Woman’s University; M.A., Claremont Graduate School.

Del Campo, Alicia (2000) ............... Associate Professor
Romance, German, Russian Languages and Literatures
M.A., University of Chile, Santiago, Chile; M.A., University of Minnesota, Minneapolis; Ph.D., University of California, Irvine.

Del Casino, Vincent J., Jr. (2008) ...... Associate Professor
Geography
B.A., Bucknell University; M.S., University of Wisconsin, Ph.D., University of Kentucky, Lexington.

Demirdjian, Zohrab (1979) .............. Professor
Marketing
B.S., M.B.A., Arizona State University; Ph.D., Louisiana State University, Emeritus, 2005.

Dennis, Christopher D. (1985) .......... Professor
Political Science
B.A., M.A., California State University, Long Beach; Ph.D., University of Georgia.

Dick, Wayne E. (1981) .................... Professor
Computer Engineering and Computer Science
B.A., M.A., Ph.D., University of California, San Diego.

Dieveney, Patrick (2007) ................ Assistant Professor
Philosophy
B.A., Carnegie College, Northfield, Minnesota; Ph.D., University of Arizona, Tucson.

Dillon, Jesse G. (2004) .................. Assistant Professor
Religious Studies
B.A., Maryland University, Middlebury, CT; Ph.D., University of Oregon, Eugene.

Ding, Yu (2006) .......................... Associate Professor
Mathematics and Statistics
B.A., Fu Jen University, China; M.A., Ph.D., New York University.

Dintillon, Gene L. (1968) ................. Professor
English
B.A., M.A., University of Connecticut.
Finney, Stanley C. (1956) ........................................... Professor
Biological Sciences
B.S., M.S., University of California, Riverside; Ph.D., Ohio State University.

Fiorio, Teresa (2003) ........................................... Associate Professor
Comparative World Literatures and Languages
B.A., University of Trieste, Italy; M.A., California State University, San Diego.

Fisher, Carl H. (2006) ........................................... Professor
Biological Sciences
B.S., Ohio State University, M.Ed., Ph.D., University of California, Los Angeles.

Fisher, Donna G. (2009) ........................................... Director
Center for Behavioral Research and Services

Fleming, Craig (2006) ........................................... Assistant Professor
Theatre Arts
M.F.A., California State University, Long Beach.

Fleming, Jennifer J. (2002) ........................................... Assistant Professor
Athletics
B.A., Simon Fraser University, Canada; M.A., University of Western Ontario.

Flowers, Taria (2007) ........................................... Softball Assistant Coach
Athletics
B.A., University of California, Los Angeles.

Forney, Kristine K. (1978) ........................................... Professor
Music
B.M., Southwestern Illinois College; M.S., University of Kentucky, Lexington.

Forouzesh, Mohammad R. (1987) ........................................... Professor
Health Sciences
B.S., University of Zanjan, Iran; M.P.H., University of California, Irvine; Ph.D., University of Tennessee, Knoxville.

Forrest, Laura U. (1990) ........................................... Associate Professor
Advanced Studies in Education and Counseling
B.A., M.C., Arizona State University.

Fox, Ragan (2006) ........................................... Assistant Professor
Communication Studies
B.S., M.A., University of Iowa, Austin; Ph.D., Arizona State University.

Fradella, Henry (2007) ........................................... Professor
Geological Sciences
B.A., Clark University, Worcester, Massachusetts; M.S., J.D., George Washington University, Ph.D., Arizona State University.

Frank, Gail C. (1969) ........................................... Professor
Family and Consumer Sciences
B.S., Texas Tech University; M.P.H., Tuskegee University.

Fratres, Janice E. (1997) ........................................... Professor
Health Care Administration
B.A., University of California, Los Angeles; M.S.W., University of California, Berkeley; Ph.D., University of Southern California.

Frear, Robert (2006) ........................................... Assistant Professor
Music
B.A., California State University, Long Beach; M.A., University of Southern California.

Freesmam, Keith W. (1979) ........................................... Associate Professor
Kinesiology
B.S., Upper Iowa University; M.A., University of Northern Iowa; Ed.D., University of Southern California.

Freshman, Brenda (2007) ........................................... Assistant Professor
Health Care Administration
B.S., University of California, Los Angeles; M.A., University of Southern California; Ph.D., Alliant International University.

Frey, Elaine F. (2008) ........................................... Assistant Professor
Economics
B.A., Salisbury University, M.A., Georgia Washington University.

Fried, Elliot (1970) ........................................... Professor
English

Frits, Robert H. (1988) ........................................... Professor
Health Sciences
A.B., University of California, Berkeley; A.M., Ph.D., Columbia University.

Fung, Henry C., Jr. (1996) ........................................... Associate Dean
College of Natural Sciences and Mathematics

Furnish, Edward (2003) ........................................... Associate Professor
Biological Sciences
B.S., University of California, Berkeley; M.T., University of California, Medical School at San Francisco; M.A., San Francisco State University; Ph.D., Washington State University.

Galag, Carmen B. (2004) ........................................... Assistant Professor
Nursing
B.S.N., M.S.N., San Diego State University, CA; D.N.Sc., University of San Diego, CA.

Galvan, Christine (2007) ........................................... Assistant Professor
Kinesiology
B.S., M.A., California State University, Los Angeles; Ph.D., University of Northern Colorado.

Gamble, Brandon (2007) ........................................... Assistant Professor
Advanced Studies in Education and Counseling
B.A., Oregon College, M.S., San Diego State University; Ph.D., University of Southern California.

Gao, Tangan (1999) ........................................... Associate Professor
Mathematics and Statistics
B.S., M.S., Hangzhou University, China; Ph.D., Michigan State University.

Garcia-Orozco, Antonia (2007) ........................................... Assistant Professor
Chicana/Latina Studies
B.A., M.A., California State University, Northridge; Ph.D., Claremont Graduate University.

Gardner, Don E. (2008) ........................................... Associate Vice President
Academic Affairs, Academic Technology
B.A., Utah State University, Ed.D., Indiana University.

Garhammer, John J. (1985) ........................................... Director
Movement Sciences Laboratories

Georgie, Larry N. (1989) ........................................... Professor
Arts
B.A., University of California, Irvine; M.A., Ph.D., Idaho State University.

Ghafouri, Bita (2005) ........................................... Associate Professor
Health Care Administration
B.S., University of California, Irvine; M.A., Pepperdine University, M.A., Ph.D., Alliant International University.

Gharakhani, Eshu (1990) ........................................... Professor
Biological Sciences
B.A., George Mason University; Ph.D., University of California, Los Angeles.

Gibson, J. William (1991) ........................................... Professor
Sociology
B.A., University of Texas, Austin; M.A., Ph.D., Yale University.
Gibson, Katie L. (2004) ........................................... Assistant Professor
Communication Studies
B.A., University of New York, Los Angeles, C.A.; M.A., California State University, Fullerton; Ph.D., Pennsylvania State University, University Park.

Gilmore, Paul D. (2002) ........................................... Associate Professor
English
B.A., University of Mississippi, Oxford, M.A., Ph.D., University of Chicago.

Gimmiarlo, Brian S. (1992) ........................................... Women's Volleyball Head Coach
Athletics
B.A., California State University, Long Beach.

Gillam, Arthur P. (1955) ........................................... Professor
Computer Engineering and Computer Science
B.S., M.A., Ph.D., University of California, Los Angeles.

Glatt, Lisa (2006) ........................................... Assistant Professor
English
B.A., California State University, Long Beach; M.A., Sarah Lawrence College.

Godfrey, Michael (1988) ........................................... Professor
Information Systems
B.A., Archivist College, M.A., Ph.D., University of Southern California; Columbia, 2000.

Goebel, Jay (2008) ........................................... Assistant Professor
Nursing
B.S., Kori State University, M.S., University of California, Los Angeles.

Gottum, Tofsal (1983) ........................................... Director
Center for Excellence In Construction

Goldstein, Avery E. (1959) ........................................... Associate Professor
Civil Engineering and Construction Engineering Management
B.S., National University, Illinois; B.S., University of Wisconsin; Seattle, M.S., Ph.D., Michigan State University.

Goldstein, Cheryl (2006) ........................................... Assistant Professor
Comparative World Literature and Classics
B.A., University of California, Los Angeles; M.A., University of the Pacific; Ph.D., Harvard University.

Goldstein, Dorin A. (2002) ........................................... Associate Professor
Political Science
B.A., University of Southern California; Berkeley, M.A., University of California, Berkeley; Ph.D., University of California, Berkeley.

Goldstein, Gers S. (2002) ........................................... Associate Professor
Computer Engineering and Computer Science
B.S., Electrical Engineering and Computer Science; Ph.D., University of California, Berkeley.

Goloz, Filip E. (1997) ........................................... Professor
Computer Engineering and Computer Science
B.S., Electrical Engineering and Computer Science; Ph.D., University of California, Berkeley.

Golzani, Foruzan (2007) ........................................... Dean
College of Engineering

Gole and Assistant to the Provost on Accessible Technology

Gonzalez, Joanne L. (1985) ........................................... Professor
Theatre Arts
B.A., M.A., University of Wisconsin; South Africa; Ph.D., University of California, Los Angeles.

Goos, Franklyn E. (1987) ........................................... Professor
Geography
B.A., University of Oregon; A.A., University of Oregon; Ph.D., University of California, Los Angeles.

Goos, Karen (2007) ........................................... Provost and Senior Vice President
Academic Affairs

Grace, Debra M. (2001) ........................................... Professor
Accounting
M.B.A., Ohio University; Ph.D., Ohio State University.

Grunow, Rosaline B. (1967) ........................................... Professor
Geological Sciences
B.A., University of California; Ph.D., University of California, Riverside.

Gray, Todd (1971) ........................................... Professor
Geological Sciences
B.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles.

Green, Jack (1970) ........................................... Professor
Geological Sciences
B.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles.

Green, Kenneth (1970) ........................................... Professor
Geological Sciences
B.S., California Polytechnic State University; M.S., Ph.D., University of California, Los Angeles.

Greenberg, Suzanne A. (1995) ........................................... Professor
Psychology
B.A., Brown University; M.S., Ph.D., University of Massachusetts.

Greenberg, Doreen (1969) ........................................... Professor
Psychology
B.S., California State University, Long Beach.

Greene, Gary M. (1993) ........................................... Professor
Advanced Studies in Education and Counseling
B.A., University of California, Los Angeles; M.A., University of Southern California; Ph.D., University of California, Riverside.

Green-Vargas, Debbie (1985) ........................................... Women's Volleyball Assistant Athletics

Grenn-Schegner, Margarita (1980) ........................................... Professor
Advanced Studies in Education and Counseling
B.A., University of California, Los Angeles; M.A., University of California, Los Angeles; M.A., California State University, Los Angeles.

Greef, Jennifer M. (1975) ........................................... Professor
Art
B.A., Bowdoin College, M.A., Hofstra School of Painting of the Maryland Institute.

G riffen, Karen (2007) ........................................... Senior Assistant Librarian
University Library
B.A., University of California, San Diego; M.S., California State University, Los Angeles; M.D., Clark University.

G riffen, Wendy (1991) ........................................... Professor
Women's Studies
B.A., M.A., Ph.D., University of California, Irvine.

Grilliot, Dixie A. (1965) ........................................... Interim Dean
College of Health and Human Services

Grimmelt, D. R. (1995) ........................................... Professor
B.S., Brigham Young University, M.A., Washington State University, E.D.D., Brigham Young University.

Griawold, W. Gary (2003) ........................................... Assistant Professor
English
B.A., M.A., California State University, Long Beach; Ph.D., Claremont Graduate University.

Grob, Lisa M. (1988) ........................................... Professor
Economics
B.A., M.A., Ph.D., University of Michigan, Ann Arbor.

Gu, Jie (2004) ........................................... Assistant Professor
Physics and Astronomy
B.S., M.S., Ph.D., Seoul National University, South Korea.

Gustafson, Justin (1989) ........................................... Assistant Professor
B.S., M.S., Ph.D., University of California, Los Angeles.

Gustafson, Sarah (1987) ........................................... Professor
Health Science
B.S., Medicine and Surgery, University of Southern California, Srl Lanka; M.P.H., University of Hawaii, Manoa; O.H.I., University of Hawaii, Manoa.

Guthrie, Sharon R. (1990) ........................................... Professor
Kinesiology
B.A., University of California, Los Angeles; B.A., M.A., California State University, Northridge; M.A., California State University, Long Beach; Ph.D., Ohio State University.

Total: 782 Faculty - 2009/2010 CSULB Catalog
Miyoshi, Klimko (2005) ........................................ Assistant Professor
Art
B.A., California State University, Long Beach; M.F.A., University of New Mexico

Mizelle, D. Brett (2001) ........................................... Associate Professor
History
B.A., Georgetown University; M.A., Ph.D., University of Minnesota

Mohamed, Olfat G. (1998) ........................................... Professor
Biomedical Engineering
B.S., M.S., Cairo University; Ph.D., University of Southern California

Mohamed-Nouri, Hassan I. (1988) .................................... Professor
Electrical Engineering
B.S., M.S., Naval University, Tehran; Ph.D., University of Southern California

Mohr, William (2006) ............................................. Assistant Professor
English
B.A., University of California, Los Angeles; M.A., Ph.D., University of California, San Diego

Momoa, Risto (2007) .............................................. Assistant Professor
Marketing
B.A., Selakanka Polytechnical, Finland; M.S., University of Southern Denmark; Ph.D., University of Minnesota

Molari, Alcius J. M. (1994) .......................................... Professor
Alliance College of Engineering
B.S., University of South Africa; M.S., University of North, Republic of South Africa

Monaco, Kristen (2001) ............................................ Professor
Economics
B.A., Michigan State University, M.A., Ph.D., University of Wisconsin, Milwaukee

Monat, Jonathan S. (1978) ......................................... Professor
Management and Human Resources Management
B.S., University of California, Los Angeles; M.S., San Diego State University; Ph.D., University of Minnesota, Minneapolis, St. Paul

Monge, Alvaro E. (1999) ........................................... Professor
Computer Engineering and Computer Science
B.S., University of California, Riverside; M.S., Ph.D., University of California, San Diego

Monson, Daniel (2007) ............................................ Men's Basketball Head Coach
Athletics
B.S., University of Notre Dame, M.A., University of Montana

Moon, Hojin (2007) ................................................... Associate Professor
Mathematics and Statistics
B.S., M.S., Yonsei University, Korea; Ph.D., Florida Institute of Technology; Ph.D., State University of New York, Stony Brook

Moores, William S. (2000) ........................................ Associate Professor
Graduate Center for Public Policy and Administration

Moreno, Jose F. (2004) .............................................. Associate Professor
Chilacano and Latin Studies
B.A., University of California, Irvine; M.Ed., Ed.D., Harvard University

Counseling and Psychological Services
B.A., Loyola Marymount University; M.A., Ph.D., California School of Professional Psychology

Morin, Kristen L. (2009) ............................................. Associate Professor
Art
B.A., California State University, Hayward; M.A., Ph.D., University of New York, New York

Morley, Harvey N. (1989) ........................................... Professor
Chemical Engineering
B.S., California State University, Northridge; M.S., Austin Peay State University; M.S., California State University, Northridge; Ph.D., University of Rochester

Mosher, Jerry (2006) ................................................... Assistant Professor
Film and Electronic Arts
B.A., M.A., University of California, Los Angeles

Moshaveri, Khosrow (1990) .......................................... Professor
Informatics Systems
B.S., Agra Male Technical University, Iran; M.S., Stanford University; Ph.D., University of California, Los Angeles

Mueller-Stosch, Johannes (2007) ................................. Assistant Professor
Music
B.M., Columbus State University, M.M., University of Cincinnati; DMA, University of Rochester

Mukherjee, Sayantani (2007) ..................................... Assistant Professor
Math
B.S., M.A., University of Calcutta, India; Ph.D., University of California, Irvine

Muller, Markus E. (2001) ......................................... Associate Professor
Romance, German, Russian Languages and Literature
B.A., University of Tübingen; M.A., University of Kansas; Ph.D., University of California, Los Angeles

Mulligan, William A. (1986) ...................................... Professor
Journalism
B.S., Briar Cliff College; M.S., T.S.C.T., Murray State University; Ph.D., University of Missouri, Columbia

Mulline, Ruth G. (1973) ............................................ Professor
Marketing
B.S.N., California State University, Long Beach; M.S.N., California State University, Los Angeles; Ph.D., Columbia Pacific University, Omak, Washington

Murdoch, Callie (2003) ............................................ Assistant Professor
History
B.A., Swarthmore College, PA; M.A., Emory University, Atlanta, GA; Ph.D., Stanford University

Murgolo, Frank D. (2003) ....................................... Professor
Computer Engineering and Computer Science
B.A., California State University, Fullerton; M.S., Ph.D., University of California, Irvine

Murphy, Lisa (2007) .................................................. Assistant Professor
Criminal Justice
B.S., M.A., Ph.D., University of California, Riverside

Murray, John (2007) .................................................. Professor
Advanced Studies in Education and Counseling
B.A., State University of New York, Binghamton; M.A., Arizona State University; Ed.S., Wright State University; Ph.D., Ohio State University

Murray, William L. (2001) ....................................... Associate Professor
Mathematics and Statistics
B.S., Courant Institute, New York University, California, Stanford

Myers, Michael P. (2002) ....................................... Assistant Professor
Chemistry and Biochemistry
B.A., Roberts Wesleyan College, Rochester, NY; M.S., Ph.D., University of Rochester

Nagai, Chihiro (2007) .............................................. Assistant Professor
Social Work
B.A., Seattle Pacific University; M.S.W., University of Washington, Ph.D., Smith College

Nakai, Karen Kawai (1999) Executive Assistant to the President
Office of the President

Nakayama, Katsunori (1987) ...................................... Associate Professor
Chemistry and Biochemistry
B.S., Ph.D., University of California, Los Angeles

Nayar, Ramaswami, Vasanth (2008) ................................ Assistant Professor
Chemistry and Biochemistry
B.S., University of Madras, India; M.S., University of Mysore, India; Ph.D., Indian Institute of Technology

Naas, Ulhami B. (2002) ............................................. Professor
Civil Engineering and Construction Engineering Management
B.S., M.S., California State University, Long Beach; Ph.D., University of Colorado

Nayak-Gueirio, Arminda (2006) .................................... Assistant Professor
Romance, German, Russian Languages and Literature
B.A., University of St. Ambrose, India; M.A., Ph.D., University of Pittsburgh

Neff, Hector (2003) .................................................. Professor
Anthropology
A.B., Stanford University, M.A., Ph.D., University of California, Santa Barbara

Neils, Barbara J. (1974) ............................................ Professor
Nursing
B.S.N., University of Iowa; M.N., Ph.D., University of California, Los Angeles

Newberger, Florence A. (2001) ................................. Associate Professor
Mathematics and Statistics
B.A., B.S., University of California, Santa Cruz, Ph.D., University of Maryland College Park

Ng, Chien Feng (2008) ......................................... Assistant Professor
Economics
A.B., Princeton University, M.A., Ph.D., University of California, Irvine

Paraj, Donald J. (1988) Dean College of the Arts
Perry, Jospeh (1994) Professor Music B.M., M.M., University of Miami; Ph.D., University of Miami.
Pepper, Tony (1994) Associate Professor Music B.A., University of California, Los Angeles.
Peskin, Daniel (2006) Assistant Professor Journalism B.A., Hofstra University; M.A., University of Miami.
Perreira, David E. (1973) Professor College of Business Administration B.A., California State University, Los Angeles; J.D., University of California Berkeley.
Perretz, Kellie M. (1999) Associate Professor Social Work B.A., Pennsylvania State University; M.S.W., Catholic University of America, Washington, D.C.
Patnaik, Jyotsna (2000) Professor Teacher Education M.Ed., Or. Harriett Institute of Advanced Studies in Education, Orissa, India; M.A., India Institute of Management, New Delhi, India; Ph.D., Indian Institute of Technology, New Delhi, India.
Redman, Jeremy (2004) .................................. Assistant Professor
Civil Engineering and Construction Engineering Management
B.S., M.S., Ph.D., University of California, Irvine.

Redmann, Najib (1999) .................................. Associate Professor
Romance, German, Russian Languages and Literatures
B.A., FACJP, Paris, France; M.A., University of Leiden, Quebec, Canada; Ph.D., University of Rennes, France.

Reed, Jennifer (2006) .................................. Assistant Professor
Women's Studies
B.A., Loyola Marymount University, M.A., Ph.D., University of California, Irvine.

Reese, Leslie (2001) .................................. Executive Director
Center for Language Minority Education and Research (CLMER)

Reidy, Finn B. (2004) .................................. Director
Gender and Diversity
B.A., Tel Aviv University, MA, Ph.D., University of Massachusetts, Amherst; JD, Loyola Law School, Los Angeles, CA.

Reis, Raul F. (2006) .................................. Professor
Jesuitism
B.A., University of Federal do Piauí, Brazil; M.S., Kansas State University, Manhattan, Kansas; Ph.D., University of Oregon, Eugene.

Reynolds, Grace (2007) .................................. Assistant Professor
Health Care Administration Program
B.A., Maranacook Community College; M.A., University of Alaska Anchorage; Ph.D., University of Southern California.

Rezaei, Ali (2006) .................................. Associate Professor
Advanced Studies in Education and Counseling
B.S., M.A., Doshisha University, Kyoto, Ph.D., University of Calgary, Canada.

Rhode, Thomas A. (1986) .................................. Professor
Finance
B.A., Hankuk University of Foreign Study, Korea; M.A., Kent State University, M.A., University of Chicago; Ph.D., Wayne State University.

Rhoads, Thomas J. (1976) .................................. Professor
College of Business Administration
B.S., M.B.A., University of Southern California; J.D., Western State University.

Rich, Marc D. (2007) .................................. Associate Professor
Communication Studies
B.A., M.A., California State University, Northridge; Ph.D., Southern Illinois University at Carbondale.

Richards, Catherine R. (2004) .................................. Associate Professor
Advanced Studies in Education and Counseling
B.A., University of California, Riverside; Ph.D., University of California, Santa Barbara.

Richerson, Robin A. (2002) .................................. Associate Professor
Art
B.A., M.F.A., California State University, Long Beach.

Riedel, Kyle (2003) .................................. Associate Professor
Art
B.S., Portland State University, Oregon; M.F.A., University of Texas, Austin.

Rios-Ellis, Brit K. (1994) .................................. Professor
Health Sciences
B.A., M.S., Ph.D., University of Oregon.

Riggs, Jerry (1989) .................................. Dean
College of Liberal Arts

Political Science
B.A., Old Dominion University; Ph.D., University of California, Riverside.

Rivera-Ching, Jose L. (2001) .................................. Associate Professor
Design
B.A., M.A., Catholic University, M.A., Ohio State University.

Roberts, Pamela K. (1983) .................................. Professor
Human Development
B.A., University of California, San Diego; M.A., Western Oregon; Ph.D., University of Wisconsin.

Roberts, Sharon L. (1974) .................................. Professor
Nursing
B.S., M.S., University of California, San Francisco; Ph.D., University of Southern California, Los Angeles.

Roberts-Corb, Carol (2009) .................................. Director
Housing and Residential Life
B.A., University of California, Santa Barbara; M.A., University of Vermont, Burlington.

Robinson, Douglas W. (1989) .................................. Vice President
Student Services
B.S., M.S., Iowa State University, Ames; Ph.D., Claremont Graduate University.

Robinson, Thomas L. (1989) .................................. Professor
Mechanical and Aerospace Engineering
B.S., San Jose State University, M.B.A., Peppared, Ph.D., Nova Southeastern University, Pembroke Pines, FL.

Rodriguez, Christofer M. (1999) .................................. Professor
Occupancy
B.A., M.A., California State University, Northridge; Ph.D., Clark University, Massachusetts.

Rodriguez, Jose L. (1995) .................................. Professor
Communication Studies
B.A., M.A., California State University, Long Beach; Ph.D., Michigan State University.

Rodriguez, Victor M. (2006) .................................. Associate Professor
Chemical and Life Sciences
B.A., University of Puerto Rico, Rio Piedras; Puerto Rico; M.A., Ph.D., University of California, Irvine.

Rojas, Clarissa (2008) .................................. Assistant Professor
Chemical and Life Sciences
B.A., University of California, Santa Cruz; M.A., San Francisco State University; Ph.D., University of California, San Francisco.

Rojas, Mayhew G. (2001) .................................. Associate Professor
Women's Studies
B.A., Pomona College; M.A., Arizona State University.

Rojas, Andy (2007) .................................. Assistant Professor
Baseball Assistant Coach
B.A., Arizona State University; M.A., Arizona State University, Tempe.

Rosenkranz, Max Langen (2003) .................................. Assistant Professor
Philosophy
B.A., Johns Hopkins University; Ph.D., University of Texas, Austin.

Rodriguez, Daniel (2006) .................................. Associate Professor
Management and Human Resource Management
B.A., University of Applied Sciences, Düren-Holzeln, Germany; M.B.A., Southeast Missouri State University; Ph.D., Florida Atlantic University.

Rourke, Bryan C. (2004) .................................. Assistant Professor
Biological Sciences
B.S., College of William and Mary, VA; Ph.D., University of California, Irvine.

Rucco-Schindler, Steven N. (2008) .................................. Assistant Professor
Biology
B.A., University of Maryland, M.A., Ph.D., University of Southern California.

Rzepecki, Patricia D. (1987) .................................. Professor
Psychology/Mammals Studies
B.A., California State University, Long Beach; M.A., Ph.D., University of California, Davis.

Rozek, Ralph (1998) .................................. Professor
Kinesiology
B.S., M.S., University of California, Los Angeles; Ph.D., Auburn University.

Rubio, Olga G. (1997) .................................. Professor
Teacher Education
B.S., Texas A & M University; M.S., University of Texas at San Antonio; Ph.D., University of Pennsylvania.

Rueda, Alfonso (1980) .................................. Professor
Electrical Engineering
B.S., M.S., Massachusetts Institute of Technology; Ph.D., Cornell University.

Runyon, Lowell R. (1968) .................................. Professor
Finance

Russo, Albert C. (1988) .................................. Professor
Physical Therapy
B.S., M.S., Ph.D., Louisiana State University, Baton Rouge.
Ruweidel, Mark A. (2002) .................................................. Associate Professor
Art
B.A., Kutztown University of Pennsylvania; M.F.A., University of Cincinnati

Saedeh, Shahid (2007) .................................................. Assistant Professor
Civil Engineering and Construction Engineering Management
B.S., University of Jordan, Amman, Jordan; M.S., Washington State University; Ph.D., Texas A&M University

Sachdeva, Darshan (1973) .................................................. Professor
Physics
B.A., Harpur College, SUNY, Binghamton; M.S., Ph.D., University of California, Santa Barbara

Safer, Alan M. (2006) .................................................. Associate Professor
Mathematics and Statistics
B.S., Yeshiva University, M.S., Ohio State University, M.S., Southern Illinois University, Ph.D., University of Wisconsin

Saint-Germain, Michelle A. (1998) .................................................. Professor
Public, Policy and Administration
B.A., University of California, Berkeley; M.S., Ph.D., California State University, Hayward, Ph.D., University of Southern California

Saltzman, William R. (2001) .................................................. Professor
Advanced Studies in Education and Counseling
M.A., Ph.D., University of Denver; M.A., University of Memphis College; Park

Sanchez-Hi, Joe (1988) .................................................. Professor
Film and Electronic Arts
B.A., Universidad Autonoma de Guadalajara; Mexico, M.A., Ph.D., University of Michigan

Sandova, Anna M. (1998) .................................................. Associate Professor
Chicanos and Latinos Studies
B.A., University of California, Santa Barbara; M.A., University of California, Santa Cruz

Samilippo, David (1978) .................................................. Director
Disabled Student Services
B.A., San Jose State University

Samvitvaran, Janaki (1999) .................................................. Associate Professor
Social Work
B.S., M.S.W., MSc, Vannan University, Medical; India, Ph.D., Barry University, Miami, Florida

Sauceda, James S. (1988) .................................................. Director
Multicultural Center

Communication Studies
B.A., M.A., California State University, Long Beach; Ph.D., University of Southern California

Scholtz, Harold K. (1986) .................................................. Professor
Romance, German, Russian Languages and Literatures
B.A., University of California, Davis; M.A., Ph.D., Stanford University

Schilling, Anne (2007) .................................................. Assistant Professor
Theatre Arts
B.A., Rhodes College, M.A., Central School of Speech and Drama, London

Schmidt, Ronald J. (1972) .................................................. Professor
Political Science
B.A., M.A., University of California, Berkeley, Ph.D., University of California, Hauser, Emeritus 2009

Schramm, Michael (2007) .................................................. Assistant Professor
Chemistry and Biochemistry
B.S., State University of New York, Geneseo; M.S., Ph.D., University of Chicago

Schramm, Sarah L. (2002) .................................................. Associate Professor
History
Baccalaureus de la Francia, Lycee Maristin Berthell, France, B.A., McGill University, Canada, Ph.D., University of California, San Diego

Schrock, Rebecca (2007) .................................................. Assistant Professor
Art
B.A., University of Nevada-Reno, M.F.A., Massachusetts College of Art

Schroeder, Jon M. (1999) .................................................. Associate Professor
Kinesiology
B.A., Chapman College, Orange, California; M.S., California State University, Fullerton; Ph.D., University of Illinois

Schüller, Norbert.E. (2003) .................................................. Professor
English
B.A., Hochschule der Künste, Berlin, M.A., Free University, Berlin, Ph.D., Duke University

Schwartz, Donald (1987) .................................................. Professor
History
B.A., City College of New York, M.A., Indiana University; Ph.D., New York University, Emeritus 2009

Scirrotto, Antonio (2004) .................................................. Assistant Professor
Civil Engineering and Construction Engineering Management
B.S., Polytechnico di Bari, Italy, M.S., Ph.D., University of California, Los Angeles

Scioleas, Christopher J. (2005) .................................................. Director
University Art Museum
B.F.A., University of Florida; M.F.A., Cranbrook Academy of Art

Scott, George M. (1999) .................................................. Associate Professor
Anthropology
B.A., University of Texas, Austin; M.A., Ph.D., University of California, San Diego

Scotton, Paul (2005) .................................................. Associate Professor
Comparative World Literature and Classics
M.A., University of California Santa Barbara, A.B., University of Illinois, Urbana; Ph.D., University of Pennsylvania

Sedee, Line (2005) .................................................. Assistant Professor
History
B.A., Catholic University of Norte de Janeiro, M.S., Ph.D., Stanford University

Segalla, Angela (2001) .................................................. Professor
Mathematics and Statistics
B.A., Kean College of New Jersey, M.A., University of California, Los Angeles, M.A., University of Hawaii, Ph.D., University of California, Los Angeles

Serrano, Monica (2006) .................................................. Assistant Professor
Comparative World Literature and Classics
B.A., Antwerp College, M.A., New York University; Ph.D., University of Wisconsin-Madison

Sexauer, Roxanne D. (1990) .................................................. Professor
Art
B.F.A., University of Iowa, M.F.A., State University of New York

Seyburn, Patricia (2006) .................................................. Assistant Professor
English
B.S., M.S., Northwestern University, Ph.D., University of Houston

Shafer, David A. (2003) .................................................. Associate Professor
History
B.A., University of California, Los Angeles, J.D., Loyola Law School, Ph.D., University of London, England

Shaham, Bahram (1983) .................................................. Professor
Electrical Engineering
B.S., University of Texas, Austin; M.S., Stanford University, Ph.D., University of California, Los Angeles

Shaked, Nizan (2006) .................................................. Assistant Professor
Arts
P.S.C., Beloit College, Midrasha School of Art, Israel; M.A., University of California, Los Angeles, M.F.A., Otis College of Art and Design

Sharma, Ravi K. (2002) .................................................. Assistant Professor
Philosophy
B.A., Harvard College, M.A., Pennsylvania State University; Ph.D., University of Texas, Austin

Show-Sutton, Carol (1981) .................................................. Professor
Art
B.A., M.A., San Diego State University

Shchob-Elden, Tania (2004) .................................................. Assistant Professor
Civil Engineering and Construction Engineering Management
B.A., M.S., King Fahd University of Petroleum and Minerals, South Arabia; Ph.D., Concordia University, Montreal, Quebec, Canada

Shelley, Nancy S. (2001) .................................................. Associate Professor
English/Literature
B.A., Murray State University, M.A., University of Illinois at Urbana-Champaign; Ph.D., University of Kansas

Shim, Joseph K. (1981) .................................................. Professor
Accounting
B.S., Seoul National University, Korea; M.B.A., Ph.D., University of California, Berkeley

Shin, Fay H. (2001) .................................................. Professor
Teacher Education
B.A., University of California, Los Angeles, M.S., Ph.D., University of Southern California

Shin, Soon-Hi (2007) .................................................. Assistant Professor
Advanced Studies in Education and Counseling
B.A., Hankuk University of Foreign Studies, Korea, M.A., Korea University, Ph.D., University of Western Australia

Shockey, Allan F. (2008) .................................................. Assistant Professor
Music
B.M., University of Georgia, Athens; M.M., Ohio State University, M.F.A., Ph.D., Princeton University

2009/2010 CSULB Catalog • Faculty • 791
Tschida, John N. (1995) ................................................. Director
Center for Asian Pacific American Studies

-------------

Asian and American Studies
B.A., International Christian University, M.A., Ph.D., University of California, Los Angeles; J.D., William Mitchell College of Law.

Turetsky, H. Steve (1995) ................................................. University Coordinator
Single Subject Teacher Certification

-------------

Associate Dean
College of Education
Teachng Education
B.A., Dartmouth College; M.A., California State University, Fullerton; Ed.D., Columbia University.

Tuveson, Richard V. (1963) ................................................. Associate Professor
Family and Consumer Sciences
B.A., St. Cloud State University; M.S., Ph.D., Iowa State University, Ames.

Utku-Worden, Skynne J. (1976) ................................................. Professor
Annexes Studies
B.A., Livepoool College; M.A., Ph.D., Howard University.

Underwood, Dennis L. (1999) ................................................. Associate Professor
Biological Sciences
B.A., California State University, Fresno; M.S., Ph.D., University of California, Davis.

Ulrich, Jr., Guido (2006) ................................................. Assistant Professor
Philosophy
B.S., University of Munich; Ph.D., University of Florida.

Ulity, Ebony (2006) ................................................. Assistant Professor
Communication Studies
B.A., Indiana University; M.A., Ph.D., Northwestern University.

Veach, Andrew B. (2002) ................................................. Associate Professor
Dance
B.A., California State University, Sacramento; M.F.A., University of California, Los Angeles.

Vail, Leland S. (1995) ............................................. Associate Professor
Music
B.M., M.A., California State University; Long Beach; D.M.A., Claremont Graduate School.

Valentini, Robert G. (1982) ................................................. Professor
Mathematics and Statistics
B.A., Carnegie Mellon; M.S., Ph.D., Ohio State University.

Van Camp, Julie (1999) ................................................. Professor
Philology
A.B., Mount Holyoke College; J.D., Georgetown University; Ph.D., Temple University.

van Elk, Maria A. (2000) ................................................. Associate Professor
English
A.M., University of Amsterdam; M.A., Ph.D., New York University.

Van Giffen, Katherine (1967) ................................................. Associate Professor
Human Development/Applied Studies in Education and Counseling
B.A., University of Utah; M.S., Ph.D., University of Denver.

van Lent, Colleen E. (2003) ................................................. Associate Professor
Computing Engineering and Computer Science
B.S., Kent State University Honors College; M.S., Ph.D., University of Pittsburgh.

Velicky, Vlasto (2001) ............................................. Associate Professor
Comparative World Literatures and Languages
B.A., University of Zagreb; M.A., Ph.D., University of California, Los Angeles.

Vettor, Enrico (2007) ................................................. Assistant Professor
Romance, German, Russian Languages and Literature
B.A., University of Padova; M.A., Ph.D., University of Oregon.

Viera, Maria L. (1989) ................................................. Professor
Theatre Arts
B.A., University of Illinois, Chicago; M.A., Creighton State University; Ph.D., University of Southern California.

Viet, Ngo N. P. (1999) ................................................. Professor
Mathematics and Statistics
B.S., University of Minnesota; Ph.D., University of California, Berkeley.

Vipond, Dianne L. (1988) ................................................. Professor
English
B.S., McGill University; M.A., Concordia University; M.A., Ph.D., York University, Toronto.

Vogel, Brenda L. (2001) ................................................. Associate Professor
Criminal Justice
B.S., M.S., University of North Carolina at Charlotte; Ph.D., University of California, Irvine.

Vollendorf, Lisa (2005) ................................................. Professor
Romance, German, Russian Languages and Literature
B.A., Colorado State University; M.A., Ph.D., University of Pennsylvania.

Volper, Dennis J. (1980) ................................................. Professor
Computer Engineering and Computer Science
B.A., University of California, San Diego; M.S., San Diego State University, Ph.D., University of California, San Diego.

von Schwarz, Catherine (2007) ................................. Women's Water Polo

-------------

Affiliated
B.A., University of California, Los Angeles.

Vu, Hung Viet (1968) ................................................. Professor
Mechanical and Aerospace Engineering
B.S., University of Washington, Seattle; M.S., Massachusetts Institute of Technology; Ph.D., University of Michigan.

Vu, Kim-Hoa (2005) ................................................. Associate Professor
Psychology
B.A., California State University, Long Beach; M.S., Ph.D., Purdue University.

Wagdy, Mahmoud F. (1989) ................................................. Professor
Construction Engineering
B.S., M.S., CIVIL, University; Ph.D., Kuwait State University.

Wagman, Diana (2006) ................................................. Assistant Professor
Film and Television Arts
B.A., University of Utah; M.A., American University.

Wakiji, Eileen (1991) ................................................. Librarian
University Library
B.A., University of California, Los Angeles; M.S.I.S., University of Southern California.

Wallisch, Geraldino P. (2006) ............................................. Associate Professor
Communications
B.A., Loyola Marymount University; New York; M.A., New York University; Ph.D., Graduate School and University Center of the City University of New York.

Wallis, Charles (2000) ................................................. Associate Professor
Philosophy
B.A., Metropolitan State College; Denver; Colorado; Ph.D., University of Minnesota.

Wallsten, Kevin (2006) ............................................. Assistant Professor
Political Science
B.A., University of California, Irvine; M.A., Ph.D., University of California, Berkeley.

Waltor, C. J. (1993) ............................................ Professor
Information Systems
B.A., M.S., Ph.D., University of Iowa.

Wang, Chunxiao (2005) ............................................. Assistant Professor
Professional Studies
B.A., Dalhousie University of Foreign Languages; M.S., Peking Sate University; Ed.D., University of Arizona.

Wang, Deiming (1983) ............................................. Professor
Mathematics and Statistics
B.A., National Chung Hsing University, Taichung; M.A., Ph.D., University of Georgia, Athens.

Wang, Felix (2007) ............................................. Assistant Professor
Electrical Engineering
B.S., Peking University; M.S., Ph.D., University of Cincinnati.

Wang, John Z. (1999) ............................................. Professor
Criminal Justice
B.A., University of California, Irvine; M.A., Ph.D., University of California, Berkeley.

Wang, Roi-Tung (1965) ............................................. Professor
Electrical Engineering
B.S., National Taiwan Normal University; M.S., University of Wisconsin-Madison National Taiwan Normal University; Ph.D., University of Tennessee, Knoxville.

Wang, Yu-Ming (1999) ............................................. Professor
Information Systems
B.S., National Taiwan University; M.S., National Cheng Kung University, Taiwan; Ph.D., New York University.

Waren, Christopher (2006) ............................................. Assistant Professor
Psychology
B.A., University of South Florida; M.S., Ph.D., Tulane University.
Washington, Thomas Alex (2008) ........................................... Associate Professor
Social Work
B.A., Friedel-Dream College, M.A., University of Memphis, M.S.S.W., Ph.D., University of Tennessee.

Watson, Saich H. (1986) ..................................................... Professor
Mathematics and Statistics
B.S., Anderson University, M.S., Ph.D., McMaster University, Canada.

Wayman, Arthur K. (1976) .................................................. Professor
Mathematics and Statistics
B.A., California State University, Long Beach, Ph.D., University of California, Los Angeles, Emeritus, 2005.

Weathers, Michael (1992) ................................................... Baseball Head Coach
Admissions
B.A., Chapman College.

Wecb, Charles H. (1987) .................................................... Professor
English
B.A., Rice University, M.A., University of Washington, Seattle, M.A., Ph.D., University of Southern California.

Weber, William A. (1968) ................................................... Professor
History

Wochalski, Suzanne P. (2000) ............................................. Associate Professor
Geography
B.A., Tufts University, M.S., State University of New York at Stony Brook, Ph.D., State University of New York, College of Environmental Science and Forestry.

Weers, Paul M. M. (2003) ................................................... Assistant Professor
Chemistry and Biochemistry
M.S., Ph.D., Utrecht University, The Netherlands.

Wheeler, Frederick (1996) ................................................. Associate Professor
English
B.A., Columbia University, M.A., Harvard University.

Wilt, Julie (2008) ............................................................ Assistant Professor
International Studies Program
B.A., MA., Yale University.

Whitney, Stanley D. (1999) ................................................. Director
Center for the Commercialization of Transportation Technologies
B.S., U.S. Merchant Marine Academy.

Whitcraft, Christine (2007) ................................................. Assistant Professor
Biological Sciences
B.A., M.A., Williams College, Williamstown, Massachusetts; Ph.D., University of California, San Diego.

White, Barbara (1990) ....................................................... Director
Center for Successful Aging
B.S.N., Loyola University, Chicago, M.S., California State University, Long Beach.

Whitehead, Jason (2007) .................................................... Assistant Professor
Ad
B.S., M.S., University of Illinois, Urbana-Champaign.

Whiteley, David J. (1995) .................................................... Professor
Psychology
B.S., Union College, M.A., Ph.D., Michigan State University.

Whitney, Linda (1996) ..................................................... Professor
Teachers Education
B.A., M.A., California State University, Long Beach, Ph.D., Claremont Graduate School.

Widstrom, Amy M. (2006) .................................................. Assistant Professor
Political Science
B.A., Occidental College, M.A., Ph.D., Simonis University.

Wilt, Nellie (2007) .......................................................... Assistant Professor
Philosophy
B.A., California State University, Humboldt, M.A., Ph.D., University of California, San Diego.

Wiley, Juniper (1996) ...................................................... Associate Professor
Sociology
B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, San Diego, Wiley, Mark L. (1994) ...................................................... Associate Dean
College of Liberal Arts
B.S., M.A., California State University, Long Beach, Ph.D., University of Southern California.

Welford, Francis Hugh (2006) ........................................ Associate Professor
History
B.A., Birkbeck, University of London, Ph.D., University of London.

Williams, Emory W. (1996) ............................................. Associate Professor
Kinesiology
B.A., College of the Holy Cross, M.A., University of California, Long Beach, Ph.D., Ohio State University.

Williams, Mark T. (1999) .................................................. Associate Professor
English
B.S., Utah State University, M.A., University of Texas, Ph.D., University of Arizona.

Wilson, Aaron (2006) ....................................................... Assistant Professor
African Studies
B.A., M.A., Rhode Island School of Design, Ph.D., Temple University.

Wilson, Bianca (2006) ....................................................... Assistant Professor
Paradology
B.A., California State University, San Bernardino, M.A., Ph.D., University of Illinois, Chicago.

Wilson, Jane (2008) ........................................................ Assistant Professor
Sociology
B.S., University of California, Berkeley, M.A., Ph.D., University of California, Riverside.

Wilson, Raymond R. (1990) ............................................. Associate Professor
Biological Sciences
B.A., Ph.D., University of California, San Diego.

Wilson, Steve R. (2004) .................................................... Associate Professor
Social Work
B.A., M.S.W., California State University, Long Beach, Ph.D., University of Southern California.

Witkowski, Terrence H. (1982) ........................................... Professor
Marketing
B.A., California State University, B.B.A., M.S., University of California, Los Angeles, Ph.D., University of California, Berkeley.

Wolfinger, Mary F. (1990) .................................................. Professor
Marketing
B.A., A.B., Interim Associate Dean
College of Business Administration
B.S., Vanderbilt University, M.B.A., Ph.D., University of California, Irvine.

Wollmer, Richard D. (1970) .............................................. Professor
Information Systems
B.A., Pennsylvania State College, M.A., University of California, Berkeley.

Wood, Howard E. (1998) .................................................. Executive Director
Educational Equity Services
B.S., M.A., Indiana University of Pennsylvania; J.D., Georgetown University.

Wright, Gary D. (2008) ..................................................... Assistant Professor
Philosophy
B.A., Wabash College, M.A., University of Missouri, Ph.D., University of California, San Diego.

Wright, Teresa A. (1996) .................................................... Professor
Political Science
B.A., Santa Clara University, M.A., Ph.D., University of California, Berkeley.

Wright, Wayne (2005) ..................................................... Associate Professor
Philosophy
B.A., Hofstra University, M.A., University of Texas, Ph.D., Temple University.

Wright, Alison M. (2000) .................................................. Associate Professor
Kinesiology
B.S., Springfield College, Springfield, Massachusetts; M.A., California State University, Long Beach, Ph.D., University of California, Berkeley.

Wu, Tao (2007) ............................................................. Assistant Professor
Marketing
B.S., Tsing Hua University, B.A., Ph.D., University of Utah.

Wu, Xiaojian (2007) ........................................................ Assistant Professor
Computer Engineering and Computer Science
B.S., Nanjing University of Aeronautics and Astronautics, M.S., Ph.D., University of Nevada, Las Vegas.
