**FALL 2009 SEMESTER**
- August 24: First Day of Fall Semester
- August 24-26: Departmental Advising
- August 28: Convocation
- August 31: First Day of Classes
- September 7: Labor Day (campus closed)
- October 12: Columbus Day (campus open)
- November 11: Veteran's Day (campus closed)
- November 25: Fall Break (Campus open; classes not in session)
- November 26 and 27: Thanksgiving Day (campus closed)
- December 11: Last Day of Classes
- December 14-19: Final Examinations
- December 24: Last Day of Fall Semester
- December 25-January 22: Winter Recess

**SPRING 2010 SEMESTER**
- January 22: First day of Spring Semester
- January 22: Departmental Advising
- January 25: First Day of Classes
- February 15: Presidents Day (Campus open)
- March 29 - April 2: Spring Reces (classes not in session)
- March 31: Cesar Chavez Day (campus closed)
- May 14: Last Day of Classes
- May 17-22: Final Examinations
- May 25, 27, 28: Commencements
- May 28: Last Day of Spring Semester
- May 31: Memorial Day (Campus closed)

**WINTER 2010 SESSION**
- January 4: First Day of Classes
- January 18: Martin Luther King, Jr. Holiday (campus closed)
- January 22: Last Day of Classes

**SUMMER 2010 SESSION**
- June 1-July 9: Session I
- June 21-July 31: Session II
- July 5: Independence Day Observed (Campus closed)
- July 12-August 20, Session III

THE CALIFORNIA STATE UNIVERSITY

The individual California State Colleges were brought together as a system by the Donohue Higher Education Act of 1960. In 1972, the system became the California State University and Colleges, and in 1992 the system became the California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1965, the California Maritime Academy, a specialized campus.

The oldest campus—San Jose State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with implementation at the campus level by the Chancellor and the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses are multipurpose institutions that offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All campuses require for graduation a basic program of "General Education Requirements" regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,800 bachelor's and master's degree programs in some 357 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon, and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California. In 2005, the CSU was authorized to independently offer educational doctorate (Ed.D.) programs, and a total of 10 CSU campuses currently have Ed.D. programs.

Enrollments in fall 2003 totaled 450,000 students, who were taught by some 24,000 faculty. The system awards about half of the bachelor's degrees and a third of the master's degrees granted in California. Nearly 2.5 million students have graduated from CSU campuses since 1961.

Office of the Chancellor

Chancellor – CSU System............................Dr. Charles B. Reed
Executive Vice Chancellor and
Chief Academic Officer............................Dr. Gary Reichard
Executive Vice Chancellor and
Chief Financial Officer............................Dr. Benjamin F. Quillian
Vice Chancellor, Human Resources........Ms. Gail Brooks

2009/2010 CSULB Catalog  •  5
Welcome to the Beach

Welcome to California State University, Long Beach. In 2009 we celebrate our 60th anniversary as one of the nation's most vibrant and successful public universities.

CSULB is characterized by exceptional academic programs, dedicated faculty, and outstanding support services. Here you will find an exciting, rigorous learning environment that promotes global engagement and prepares you for the challenges and opportunities of tomorrow. We offer study abroad options in over 30 countries, a variety of community service learning programs, more than 300 student organizations, 30 intramural sports, and 18 NCAA Division 1 athletic teams. I encourage you to take advantage of all that CSULB has to offer.

Take pride in knowing you are attending a university that is nationally recognized as one of the top public comprehensive universities in the United States, one of the top 10 universities for awarding bachelor's degrees to minority students, and one that has fewer than 40 percent of its students graduating in debt.

There has never been a better time to be part of the CSULB community. Welcome and GO BEACH!

F. King Alexander
President
Among the Nation's Best

Los Angeles-Orange County State College opened its doors on September 28, 1948, to an entering group of 169 juniors and seniors. The schedule of classes listed 25 courses taught by 13 faculty members in support of five undergraduate majors. The campus consisted of two converted apartment buildings at 5381 and 5401 Anaheim Road in Long Beach. Within two years the City of Long Beach purchased a permanent site for the fledgling institution and donated it to the state, construction began on the first permanent buildings, and the renamed Long Beach State College moved to its present location. Two decades later the rapidly growing institution had earned designation as a university and became the largest single campus in the California State University system. Today, as CSULB celebrates its 60th anniversary, it is nationally recognized as a leading public comprehensive university.

University Distinctions

▲ One of the top 50 best value public colleges in the nation in 2009 by The Princeton Review.
▲ Seventh in the nation in conferring bachelor’s degrees to students of color and fourth in the nation for awarding mathematics and statistics graduate degrees to minority students, according to a 2008 report in Diverse Issues in Higher Education.
▲ Second in the nation among master’s degree granting institutions in producing Fulbright Awards for U.S. students in 2008-09, according to The Chronicle of Higher Education.
▲ Third in the West and eighth in the nation for having the lowest percentage of students graduating with debt according to U.S. News and World Report.
▲ First in the number of graduates among master’s universities who went on to earn research doctoral degrees in science and engineering between 1997 and 2006, according to a recent federal study.
▲ The Department of Athletics was recognized by the NCAA as one of the 2007-2008 winners in the Overall Excellence in Diversity category and the Bickerstaff Center has been recognized by the National Academic Advising Association for providing exemplary services to student athletes.

Mission
California State University, Long Beach is a diverse, student-centered, globally-engaged public university committed to providing highly-valued undergraduate and graduate educational opportunities through superior teaching, research, creative activity and service for the people of California and the world.

Vision
California State University, Long Beach envisions changing lives by expanding educational opportunities, championing creativity, and preparing leaders for a changing world.

Values
▲ Educational Opportunity
▲ Excellence
▲ Diversity
▲ Integrity
▲ Service

2009/2010 CSULB Catalog • The University • 7
Outstanding Faculty

The faculty of California State University, Long Beach are committed to excellence in both teaching and research. Students have an opportunity for regular contact with their professors as well as involvement in original research and creative activities under faculty supervision. As a result, CSULB serves more than 300 California high school valedictorians and National Merit finalists among its current undergraduate population.

About the Campus

California State University, Long Beach is located three miles from the ocean and stretches across 323 beautifully landscaped acres. CSULB is home to 84 buildings including:

- The state-of-the-art Molecular Life Sciences Center with 43 laboratories, 19 teaching labs, 24 directed-studies labs used by faculty and staff and 42 faculty/student offices.
- The largest, best-equipped instructional dance facility in the nation.
- The University Library, which maintains an extensive collection of information resources for study, research, enrichment, and recreation and houses the Spidell Technology Center, the largest student computing facility on campus.

CSULB’s beauty is marked by 3,200 Helen Borchert flowering peach trees that were donated by the citizens of Long Beach and an extensive sculpture collection, which was created in 1965 when the International Sculpture Symposium contributed nine monumental pieces and designs to the University. In 1972 additional community funds in the form of a trust provided for the completion of the Carlson Memorial Tower, designed by French sculptor Andre Bloc.

The campus sculpture collection has continued to grow, with the addition of works by artists such as Guy Dill, Michael Davis, Robert Irwin, Bryan Hunt, and Woods Davy. These acquisitions were made possible through private donations and grants from the National Endowment for the Arts to the University Art Museum.

With approximately 37,000 students, California State University, Long Beach has the largest single-campus enrollment in the CSU system. About 2,400 faculty and 1,800 professional staff members work at the University, which is organized into eight colleges and 63 academic departments and programs.
Life at the Beach

California State University, Long Beach offers a broad range of programs and activities to help students reach their academic goals and enhance their personal, intellectual and social development. From study abroad opportunities, campus clubs and athletic events to art and cultural performances, there is something for everyone at CSULB.

The Arts – Plays, music, and dance are performed in the University’s seven theater facilities virtually every night of the week. The University Art Museum and the student and faculty galleries in the Art and Design departments afford access to exciting innovations in the visual arts.

Athletics – Eighteen men’s and women’s sports compete in our excellent, competitive NCAA Division I athletic program. The women’s volleyball team has appeared in eight Final Fours in the last 20 years, winning three national championships and finishing second in 2001. The University also includes club or intramural competition in approximately 30 different sports.

Community Service – CSULB offers many opportunities for students to make a difference in the community including volunteer programs and courses that integrate service learning.

Campus Organizations and Greek Life – The Associated Students, Inc. and the Office of Student Life and Development sponsor about 300 campus organizations, including cultural associations and religious, political, and social action clubs. In addition, more than 30 fraternities and sororities provide students with the opportunity to join national and local organizations with founding values based on community service, scholarship, campus involvement, leadership, and friendship.

Honor Societies – CSULB is home to numerous honor societies, including Phi Beta Kappa, the oldest and most prestigious honor society for students of the liberal arts and sciences, Phi Kappa Phi, the largest honor society recognizing superior scholarship in all academic disciplines, and Golden Key International Honour Society.

International Education – CSULB offers many opportunities for global engagement. The University is home to more than 1,200 students from all over the world, allowing for rich international connections on campus. Events like the President’s Forum on International Human Rights offer a global perspective on critical world issues. And CSULB offers students the chance to study in more than 30 countries through short and long-term study abroad programs.

University Student Union – Located in the center of campus, the University Student Union (USU) offers weekly entertainment and numerous recreation activities. A “home away from home,” USU amenities include bowling lanes, billiards, a television lounge, outdoor swimming pool, food court, computer center, and facilities for meetings, conferences, luncheons, and films.

2009/2010 CSULB Catalog • Degrees • 19
ADMISSION TO CSULB

Choosing CSULB

CSULB’s core academic purpose is to graduate students with highly valued degrees. Our faculty and staff are dedicated to fostering student success both in and out of the classroom. We encourage prospective students to find out more about our campus to see if CSULB is the right choice for them.

The Office of University Outreach and School Relations is the primary student recruitment and guest relations office for the university. It disseminates information on the CSU and CSULB Admissions and financial aid policies and procedures; on CSULB’s academic programs; and on student services to prospective students and counselors from high schools and community colleges in the CSULB service area and surrounding communities.

A major focus of University Outreach and School Relations is the implementation of outreach and recruitment programs and services to reach a diverse pool of talented high school and transfer students for whom CSULB is their “University of Choice.” The Office, under the direction of the President, is also responsible for recruitment of President’s Scholars (California valedictorians and National Merit Finalists and Semi-Finalists).

University Outreach and School Relations offers guided campus tours by appointment. Those interested in visiting the campus should call (562) 985-5355. Specialized campus visits for K-12 students, parents, counselors and other interested groups may also be arranged.

In addition, the office administers pre-admissions and application workshops for prospective freshmen and transfer students; the Young Scholars Program for qualified high school students; the Early Assessment Program (EAP); admission services for adult re-entry students; and educational awareness and academic enrichment services for elementary and middle school students.

The Office of University Outreach and School Relations is located in Brotman Hall, Room 209. For more information, visit the UOSR website at www.csulb.edu/outreach.

Admissions Procedures and Policies

Requirements for admission to California State University, Long Beach are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available at www.csumentor.eduplanning.

Electronic versions of the CSU undergraduate and graduate applications are accessible on the World Wide Web at http://www.csumentor.edu. The CSUMentor system allows students to browse through genral information about the CSU’s twenty-three campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid. Information on CSULB requirements and deadlines can be found at www.csulb.edu.

Applying online via www.csumentor.edu is expected unless electronic submission is impossible, when online applications have been submitted. Application in “hard copy” form may be obtained online via www.csumentor.edu as a portable data format (PDF). Paper applications may be mailed to the campus admission office.

Importance of Filing Complete, Accurate, and Authentic Application Documents

CSU, Long Beach advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, of Title 5, California Code of Regulations).

Undergraduate Application Procedures

Prospective students applying for part-time or full-time undergraduate programs of study in day or evening classes must file a complete undergraduate application. The $55 nonrefundable application fee should be in the form of a check or money order payable to “The California State University” or by credit card when submitting the online application, and may not be transferred or used to apply to another term. An alternate major may be indicated on the application. The applications of persons denied admission to an impacted and/or closed campus may be re-routed to another campus at no cost, but only if the applicant is CSU eligible and the campus is still open to applicants.

Readmission

Students who break attendance by not enrolling in classes each semester, and who have not filed for educational leave, must reapply for admission. Transcripts of work completed elsewhere during the absence must also be submitted. Students who left under academic disqualification must submit a “Reinstatement Petition” and an “Application for Reinstatement” with their completed application prior to August 1 for the Fall semester or December 1 for the Spring semester.

Impacted Programs

The CSU designates programs as impacted when more applications from CSU regularly eligible students are received in the initial filing period (October and November for fall terms, August for spring terms) than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted only at some campuses. Candidates for admission must meet supplementary criteria if applying to an impacted program. The CSU will announce during the fall filing period those programs that are impacted and the supplementary criteria that will apply. Detailed information is available at http://www.calstate.edu/impaction/info.shtml and via www.csumentor.edu. That announcement will also be published in official CSU publications distributed to high school and college counselors, and made available online.
at www.calstate.edu. Information about the supplementary criteria is also provided to program applicants.

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one campus should file an application at each campus for which they seek admissions consideration.

**Supplementary Admission Criteria**

Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshmen applicants based on the CSU eligibility index or rank ordering of transfer applicants based on the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT. For fall admission, applicants should take tests as early as possible and no later than December of the preceding year.

The supplementary admission criteria used by the individual campuses to screen applicants are made available by the campuses to applicants who seek admission to an impacted program. Details regarding the supplemental admissions criteria are also provided at http://www.calstate.edu/admissioninfo.shtml.

</tr>
</tbody>
</table>

**Filing Period Duration**

Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. Students applying after the initial filing period should consult the campus admissions office for current information. Similar information is conveniently available at http://www.csunmentor.edu/filing_status/Default.asp.

**Application Acknowledgment**

On-time applicants may expect to receive an acknowledgment from their first-choice campus within two to four weeks after filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants must CSU admission requirements and campus requirements for admission to an impacted program. An offer of admission is not transferable to another term or to another campus.

**Undergraduate Requirement Deadlines**

Prior to matriculation, students must complete, in a timely manner, admission requirements — including subject requirements, unit minimums, grade-point averages, final transcript and testing requirement. Refer to the Enrollment Services web site (www.csulb.edu/enrollment) for current requirements.

**Intrasystem and Intersystem Enrollment Programs**

Upper-division students enrolled at any CSU campus will have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted or admission to the desired program or admission categories are closed. This access is offered without students being required to be admitted formally to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from Office of Enrollment Services.

CSU Concurrent Enrollment – matriculated students in good standing may enroll in a space available at both their home CSU campus and a host CSU campus during the same term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student’s transcript at the home campus.

CSU Visitor Enrollment – matriculated students in good standing enrolled at one CSU campus may enroll on a space available basis at another CSU campus for one term. Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript at the home campus.

Intersystem Cross Enrollment – matriculated CSU, UC, or community college students may enroll on a space available basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

**Concurrent Enrollment Within the CSU**

All CSULB students wishing to enroll concurrently at CSULB and one of the other 23 California State University campuses must request permission to do so from the Office of Enrollment Services. Concurrent enrollment within the California State University system is limited to students who have completed a minimum of 12 units at CSULB, have a minimum 2.0 grade-point average, are in good academic standing and have paid fees at CSULB for 12 units or more regardless of the total number of units earned at both campuses. No additional fees may be collected after the last day to add classes. Concurrent Enrollment is subject to space availability and registration priority policies at the host campus.

No graduate student may register concurrently at this and any other collegiate institution without advance permission. Permission may be given for concurrent enrollment at CSULB and other institutions if recommended by the department graduate advisor and approved by the Dean of the appropriate college. Forms for concurrent enrollment may be obtained from the college office. When such permission is granted, the academic load at CSULB must be reduced accordingly.
Visitor Enrollment Within the CSU

Students enrolled in any CSU campus may apply to transfer temporarily to another CSU campus in Visitor status, if they have (1) completed 12 units at the home campus, (2) have earned at least a 2.0 cumulative GPA at the home campus, (3) are in good academic standing at the home campus, and (4) are eligible to register under continuing status at the home campus. Approval for visitor enrollment is valid for one term only and is subject to the host campus policies including application deadlines, space availability, and registration priority. Details and Visitor Enrollment Applications are available at the Office of Enrollment Services. Students from other CSU campuses seeking visitor status at CSULB must also contact their home registration office for additional information.

Other Applicants

Applicants not admissible at this time under any of the preceding provisions are advised to enroll in another institution such as a community college, to prepare for admissibility at a future date.

Open University (Adjunct Enrollment) — Through Open University, students who are NOT matriculated in the University may take regular University classes for academic credit on a "space available" basis with permission of the department chairperson and the course instructor. Open University enrollment does NOT constitute admission to CSULB. Students may apply up to 24 units of Open University credit in Special Sessions toward a baccalaureate degree. At the option of the appropriate college and department, up to six units may be applied to a graduate degree. This limit may be increased to 9 units in some instances. For specifics, check with the department chair. For more information call University College and Extension Services at (562) 985-5661.

University College and Extension Services — University College and Extension Services (UCES) programs are designed to meet the personal and professional development learning needs of the community. Through its credit and non-credit programs, seminars and special programs, teleconferences, and customized workplace training, UCES brings the resources of CSULB to individuals and groups in formats convenient to their life/work situations, including courses delivered online. Unless they are offered in fulfillment of a degree program, Special Sessions courses do not require admission to CSULB. UCES also administers the Winter Session program, in addition to a variety of credit courses throughout the academic year. For a free catalog of current offerings, call (562) 985-5661 or stop by the UCES office, located at Foundation Education Center (FNO 104), 6300 State University Drive.

Summer Session and Winter Session Students

Summer and Winter Session enrollment is open to all CSULB students, prospective students, students from other colleges and universities, and interested individuals from the community. No application or admissions process is required for Summer and Winter registration.

Registration in Spring as an Open University student does not insure the privilege of enrolling in the Fall or Spring semester. To register for Winter Session courses, students should contact University College and Extension Services at (562) 985-5661.

To register for Summer Sessions, contact the Office of Enrollment Services, see http://www.csulb.edu/summo.

Freshman Applicants

Preparation and Eligibility

California State University, Long Beach continues to be the University of Choice for a talented and diverse group of California's best and brightest students. Beginning with Fall 2002, CSULB has been receiving more first-time freshman applicants than can be accommodated. To maintain the academic quality of CSULB academic programs and services, supplemental admissions criteria, are applied to first-time freshman applicants. First-time freshmen must:

- Apply on time, preferably on-line. Apply between October 1 and November 30.
- Take the SAT or ACT preferably during October but no later than December and request scores be sent to CSULB.
- Complete the CSU required 15 unit course pattern prior to graduation.
- Perform well — earn the best grades possible (including the senior year).
- Pursue a back-up plan should they not be offered admission to CSULB.

Students will qualify for regular admission when the university verifies that they have a CSULB qualifiable minimum eligibility index and will have completed the comprehensive pattern of college preparatory "a-g" subjects. Applicants to an impacted program must also meet supplementary criteria.

Eligibility Index

The eligibility index is the combination of the high school grade-point average and scores on either the ACT or the SAT. Grade-point averages (GPA) are based on grades earned in courses taken during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory "a-g" subject requirements with bonus points for approved honors courses (excluding physical education and military science).

Up to eight semesters of honors courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of "A" in an honors course will receive a total of 3 points; with 4 points for a "B," and 3 points for a "C." A CSU Eligibility Index (EI) can be calculated by multiplying a grade-point average by 800 and adding a total score on the mathematics and critical reading scores of the SAT. Students who took the ACT, multiply the grade-point average by 200 and add ten times the ACT composite score (add 2 points to the ACT score received if taken prior to October, 1989). Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2100 using the SAT 1 or 694 using the ACT to be considered for admission.

22 • Admission • 2009/2010 CSULB Catalog
For admission to terms during the 2009-2010 college year, the university has no plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index.

Persons who neither graduated from a California high school nor are residents of California for tuition purposes, need a minimum index of 3502 (SAT) or 842 ACT; (2 points are added to the ACT score if it was taken prior to October, 1980). Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

An applicant with a grade point average of 3.00 or above (3.61 for nonresidents) is not required to submit test scores. All applicants for admission are urged to take the SAT or ACT and provide the scores of such tests to each CSU to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

California State University, Long Beach requires all applicants for freshman admission to submit test scores from the SAT I or ACT, regardless of their high school grade-point average. No freshman applicants will be admitted who have not submitted the required test scores.

Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.

Subject Requirements

The California State University requires that first-time freshman applicants complete, with grades of "C" or higher, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

Social Science — 2 years to include 1 year of U.S. History and/or Government

English — 4 years

Mathematics — 3 years to include algebra, geometry, and intermediate algebra

Science — 2 years with laboratory to include 1 year of biological science and 1 year physical science

Foreign Language — 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence).

Visual and Performing Arts — 1 year-long course in which the second semester builds on the first from a single VPA area to include art, dance, drama/theater, or music

Electives — 1 year selected from the areas above.

Foreign Language Waiver

The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English equivalent to or higher than that expected of students who complete two years of foreign language study. Students should consult their school counselor or any CSU campus admission or relations with their school office for further information.

Subject Requirement Substitution for Students with Disabilities

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant's academic advisor or guidance counselor in consultation with the director of the CSU disabled student services program. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, please call the Director of Disabled Student Services at (562) 985-5401.

Honors Courses

Grades, in up to eight semester courses designated as honors courses in approved subjects and taken in the last two years of high school, receive additional points in grade-point average calculations. Each unit of A in approved courses will receive a total of 5 points; B, 4 points; C, 3 points; D, 1 point; and none for F grades.

High School Students — Young Scholars Program

Students still enrolled in high school who have preparation equivalent to that required of eligible California high school graduates will be considered for enrollment in certain special programs if recommended by the principal and by the appropriate CSULB department chair. Such admission is only for a given specific program and does not constitute a right to continued enrollment. More information is available from the Office of University Outreach and School Relations.

Provisional Admission

California State University, Long Beach may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the senior year of study to ensure that admitted students complete their senior year of studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all course work has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the university. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts, and cancel any university registration for any student who is found not to be eligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a diploma from high school, have a qualified minimum eligibility index, have completed the comprehensive pattern of college preparatory "a-g" subject and, if applying to an impacted program, have met all supplementary criteria.

2009/2010 CSULB Catalog • Admission • 23
Lower-Division Transfer Applicants

Students who have completed college units after graduation from high school are considered transfer students. Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) by the established deadlines are considered lower-division transfer students. CSULB does not currently accept applicants for most majors at the lower-division level.

Upper-Division Transfer Applicants

Students who have completed 60 or more transferable semester college units by the established deadlines are considered upper-division transfer students. (See Undergraduate Requirement Deadlines above.) Since CSULB continues to be a high-demand campus and expects to receive more applications than can be accommodated, competitive admissions have been implemented for the transfer class in order to maintain the academic quality of campus programs and services. All upper-division transfer applicants must apply to a specific major and meet the following minimum CSU standards by established deadlines:

1. Have completed a minimum of 60 transferable semester units with a GPA of at least 2.0 (C or better) in all transferable units attempted (non-residents must have a 2.4 GPA or better), and
2. Be in good standing at the last college or university attended, and
3. Have completed the General Education requirements in communication in the English language and critical thinking and the requirement in mathematics/quantitative reasoning or the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Applicants to non-impacted majors who meet the minimum criteria as outlined above will be considered in the competitive round. Admission offers will be based on applicants overall transfer grade point average and space availability. Applicants to non-impacted majors who are transferring directly from Long Beach City College and have completed at least 30 units at LBCC are eligible for the Long Beach Promise and will be held only to the minimum CSU criteria listed above.

In addition to the CSU minimum requirements outlined above, students seeking admission to impacted programs must satisfy additional, supplemental criteria. Students applying to impacted majors are encouraged to designate an alternate major in which they are seriously interested and committed to pursuing. If not admitted to an impacted program, students may be considered for admission to the alternate major or offered redirection to another CSU campus that is accepting applications. For more details, please check the campus website at www.csulb.edu/enrollment.

International Student Applicants

The International Admissions component of the Center for International Education assists academically eligible international students to apply for admission to the University, and advises them of CSULB’s financial, immigration and English language requirements.

Throughout the students’ attendance, the International Admissions office is involved in their registration, evaluation of transfer credit, changes of majors, and graduation checks. Students are also counseled regarding their field of study requirements, which vary at both the undergraduate and graduate levels.

International Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, “foreign students” include those who hold U.S. temporary visas as students, as exchange visitors, or as members of other non-immigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on TOEFL Requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file by April 1st for the first term of the fall and, if not in English, must be accompanied by certified English translations.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those majors or programs with limited openings.

CSULB encourages eligible international students to apply for undergraduate and graduate level studies. International students are identified as those who hold non-immigrant (student or exchange) visas. Application requests and questions should be directed to International Admissions (int.admission@csulb.edu), located in the Center for International Education (BH 201).

International students need to complete a different application process than U.S. students. The following documents are required:

1. International application form;
2. $56.00 application processing fee;
3. Affidavit of support from financial sponsor;
4. Bank statement/letter from financial sponsor;
5. Proof of acceptable English proficiency (usually met by the Test of English as a Foreign Language);
6. Official academic documents and certified English translations;
7. ACT or SAT (required for student athletes and graduates of U.S. high schools);
8. GMAT (required for graduate business majors only);
9. Letters of recommendation (graduate level applicants).

Graduate applicants must check with their prospective departments for earlier deadlines. Once all the documents are submitted to the International Admissions Office, eligibility for admission will be determined based on English proficiency and academic history, as well as other considerations. Graduate applications will be forwarded to the graduate departments for review by the graduate coordinators. Once admitted, international students will receive pre-arrival, arrival, and orientation information, and the appropriate immigration forms and instructions on how to legally enter and/or remain in the U.S.
The Department of Homeland Security (DHS) requires that international students be aware of and follow DHS regulations to remain legally in the U.S. for the duration of their academic status. International students on "F" and "J" visas must be enrolled as full-time students. Courses taken through the University College and Extension Services at CSULB or courses taken concurrently at other colleges nearby may only count toward full-time status when approved in advance of course registration by the Center for International Education. Questions about DHS policies may be directed to the Center for International Education.

The Examination in English as a Second Language (EESL) is a placement test required of admitted graduate students for whom English is a second language. Failure to take the EESL test will result in registration hold placed on the student’s record. Students may also be required to enroll in one or more English as a Second Language course(s) based on performance on the test. Please contact International Student Services for more information about EESL requirements and exemptions.

TOEFL Requirement

All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must present a score of a minimum of 500 on the Test of English as a Foreign Language (TOEFL). (Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 173 or above and those taking the Internet-based [IBT] test must score 61), unless the applicant:

1. has proof of at least three years attendance at a secondary level educational institution in a country where English was the principal language of instruction.
2. CSULB interprets "where English was the principal language of instruction" to mean that a school is located in a country where English is the native language (the official language or the language of instruction) and the student receives instruction in all subjects at all levels of education in English, or
3. completed at least 60 transferable units from accredited U.S. community colleges and/or universities and earned a grade of A, B, or C in English 100 or its equivalent, or
4. successfully completed CSULB's American Language Institute's intensive English Language Program.*

Undergraduate applicants who are U.S. Citizens or Permanent Residents of the U.S. and who are subject to the above TOEFL requirement may submit results from the English Language Proficiency Test (ELPT) in lieu of TOEFL. A score of 954 on the ELPT is required of such applicants.

EXCEPTION: Applicants applying for Film and Electronic Arts, which requires a 550 TOEFL score, and Journalism, which requires a 600 TOEFL score, will not be waived from the TOEFL requirement.

For this exemption to remain valid, once having met the exemption, the student must not have left the U.S. for more than two years to reside or study in a country where English is not the predominant language of education and day-to-day societal functions.

Insurance Requirement

Effective August 1, 1995, as a condition of receiving an I-20 or DS-2019 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment in the California State University. Such insurance must be in amounts as specified by the United States Department of State and NAFSA: Association of International Educators. The campus President or designee will determine which insurance policies meet these criteria. Further information may be obtained from the Center for International Education, Breitenbush Hall 201, (562) 985-4106.

Special Consideration

A very limited number of applicants who do not meet regular admission requirements may be considered by the University through an alternate screening process. As part of this review, admission may be offered based on institutional interests, special talents, or special circumstances. The authority to grant special admission is delegated to the Associate Vice President for Enrollment Services based on the recommendations of the appropriate campus committees.

Admission as a Candidate for a Second Baccalaureate Degree

CSULB accepts applicants for a second B.A./B.S. in science, math, engineering, and the Accelerated Nursing/Entry Level MSN program. Candidates for a second baccalaureate degree should apply using the graduate application.

Graduate and Post-Baccalaureate Application Procedures

All graduate and post-baccalaureate applicants (e.g., EdD, joint PhD and EdD applicants, master's degree applicants, those seeking educational credentials, and holders of baccalaureate degrees interested in taking courses for personal or professional growth) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials at www.csun.edu. Applicants seeking a second bachelor's degree should submit the graduate application for admission unless specifically requested to do otherwise. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for post-baccalaureate programs may be limited to the choice of a single campus on each application, re-routing to alternate campuses or later changes of campus choice are not guaranteed. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. Applications submitted by way of www.csun.edu are expected unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available on the World Wide Web at http://www.csun.edu. Application forms may also be obtained from the Graduate Studies Office or the Admissions Office of any California State University campus.

2009/2010 CSULB Catalog • Admission • 25
Graduate and Post-Baccalaureate Admission Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective. Students who meet both the minimum requirements established by the CSU system and the specific professional, preprofessional, academic, and other standards, including qualifying examinations, prescribed by the academic program will be admitted as Classified Post-Baccalaureate or Credential candidates. Applicants may be admitted as Conditionally Classified if, in the opinion of appropriate campus authorities, deficiencies may be remedied by additional preparation. In unusual circumstances, a campus may make exceptions to these criteria.

To meet the minimum requirements for admission to graduate and post-baccalaureate studies at CSULB, a student shall at the time of enrollment: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; and (3) have attained an acceptable grade-point average in any of the following ways: (a) hold an advanced degree; (b) hold a baccalaureate degree with a cumulative GPA of at least 2.5 (A = 4.0); (c) hold a baccalaureate degree with a GPA of at least 2.5 in the last 60 semester (90 quarter) units attempted (excluding lower-division and extension course work taken after the degree).

Students in the process of completing a baccalaureate degree may be admitted on a provisional basis, subject to proof of degree completion by the established deadline, if their cumulative GPA is at least 2.7 or if the GPA in their last 60 semester or 90 quarter units are calculated at 2.5 or higher.

For information on the specific requirements for admission to a given program, see the Catalog section for that program. These other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website www.calstate.edu and the CSU admissions portal www.csumentor.edu are good sources of the most up-to-date information.

Graduate and Post-Baccalaureate TOEFL Requirement

All graduate and post-baccalaureate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. Those students must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL) (applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above), unless the applicant:

1. Submits proof of having obtained a bachelor's degree from an accredited post-secondary institution where English was the principal language of instruction. CSULB interprets "where English is the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and the applicant received academic instruction in all subjects (except foreign language courses) at all levels of education in English, or
2. Notification from CSULB's American Language Institute that the applicant has successfully completed levels 5 and 6 of the American Language Institute Program.

EXCEPTION: Applicants applying for Public Policy and Administration, which requires a 600 TOEFL, will not be waived from the TOEFL requirement. Also, for this exemption to remain valid for other students, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

Application to Credential Programs

Students planning to enroll in credential programs must also file an application for admission to the University. Information on application to credential programs is available from the appropriate department or program coordinator.

Note: Some programs have established application periods each year which are separate from the University application periods and process.

Auditors

Persons who have not been accepted by the University for the semester they wish to attend may request permission to audit courses through University College and Extension Services.

Students who have been accepted by the University may audit courses. See the regulation under "Grades and Administrative Symbols." The deadline to declare an "audit" grade option is the end of the third week of instruction. Follow the instructions in the Schedule of Classes for requesting a course as an "audit" grading option. At the end of the semester the instructor will assign an "audit" grade to the official grade sheet which will be forwarded to the Office of Enrollment Services for recording. Courses taken for audit may be repeated in subsequent terms for credit.

Courses successfully audited are listed on the student's academic record but carry no credit or grade points.

Returning and Transfer Students

Returning students must reapply to the university under the same conditions and deadlines as all other applicants.

Students who have not maintained continuous attendance status shall be subject to the General Education requirements in effect at the time of their reentry to the university, with the following exceptions.

Previous CSULB students who were under earlier General Education requirements and who before breaking continuous attendance needed no more than three additional courses to complete the entire General Education requirement shall be allowed to complete the General Education requirement in effect at the time of the previous attendance. However, all students must complete at least 9 units of upper division General Education courses, of which a minimum of 6 units must beCapstone courses.

Previous CSULB students who were under the earlier General Education requirements and who before breaking continuous attendance completed one or more upper division GE courses shall be required to complete additional
Capstone courses as needed to complete the total of 9 upper-division units. At least two of the courses in the overall program must be Capstone courses.

Transfer students who enter CSULB with full GE certification from a California Community College must complete both the Human Diversity in the U.S. and the Global Issues requirements if these requirements were not met through transfer, but these students need not complete any other GE courses except the Capstone, which can be met through transfer from a community college. Transfer students who enter CSULB without full GE certification from a California Community College must complete the CSULB General Education requirements.

Hardship Petitions

The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the campus Admissions Office regarding specific policies governing hardship admission. (See Admissions Procedures and Policies at the beginning of this Section.)

Adult Students

As an alternative to regular admission criteria, an applicant twenty-five years of age or older may be considered for undergraduate admission as an adult student who meets all the following conditions:
1. Possesses a high school diploma (or has established equivalency through either the General Educational Development or California High School Proficiency Examination).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years.
3. If there has been any college attendance in the last five years, has earned a "C" average or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

Senior Citizen Education Program

The Senior Citizen Education Program enables eligible California residents 60 years of age or older to enroll as regular students at a cost of $3.00 per semester. The program, which was founded at CSULB, has been in operation since 1975. Individuals are attending courses in a variety of subject areas and class levels from freshman through graduate standing. The Registration Office, students will be sent registration information advising them of the procedures for fee payment and the dates that they may register. Courses are available to program participants approximately three weeks before the beginning of each semester on a "space available" basis. Due to high enrollment and expected program space, some courses may not be available for participation by Senior Citizens. Participants in the Senior Citizen Education Program are required to maintain good academic standing and are subject to all university policies, procedures, late fee payments, and deadlines.

Testing Requirements

The office of Testing and Evaluation Services provides information regarding admissions, placement, and certification examinations. The office is located in Brotman Hall B126. For information, phone (562) 985-4007, FAX (562) 985-2415, or visit the Testing Office website at www.csulb.edu/testing.

Test programs currently offered include the SAT and Achievement Tests, ACT, EPT/ELM, WPE, PRAXIS, and the Nelson-Denny Reading Test. Information packs immediately outside the office offer registration bulletins for the above-mentioned exams as well as the MCAT, LSAT, CSET, CBEST, GRE, RICA, and TOEFL exams. The Testing Office also provides services to faculty, staff, and administrators regarding research design, questionnaire construction and data analysis.

Freshman applicants must submit SAT I and/or ACT scores directly to CSULB. Students should take these tests no later than December of the prior year. Registration forms and the dates for the SAT and/or ACT are available from high school or college counselors or from a CSU campus testing office. Students may also write or call:

<table>

Complete information regarding these tests may be found at www.csulb.edu/testing.

Systemwide Placement Test Requirements

The California State University requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they may be a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. In order to matriculate students admitted to CSULB, they are required to take the placement tests by the published deadlines. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms. Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to Testing and Evaluation Services, Brotman Hall (BH) 216 or by calling (562) 985-2007.

2009/2010 CSULB Catalog  Admission  27
English Placement Test (EPT)

The EPT is designed to assess the level of reading and writing skills of entering undergraduate students so that they can be placed in appropriate baccalaureate-level courses. The CSU EPT must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

• A score of "Exempt" on the augmented English CST, i.e., the CSU Early Assessment Program (EAP), taken in grade 11 as part of the California Standards Test.
• A score of 550 or above on the verbal section of the College Board SAT taken April 1995 or later.
• A score of 24 or above on the enhanced ACT English Test taken October 1989 or later.
• A score of 600 or above on the re-centered and adjusted College Board SAT I Writing Test taken May 1998 or later.
• A score of 660 on the writing portion of the SAT Reasoning Test.
• A score of 3, 4, or 5 on either the Language and Composition or the Composition and Literature examination of the College Board Advanced Placement program.
• Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) written communication requirement, provided this course was completed with a grade of "C" or better.

To file for one of the above exemptions, students may obtain an Exemption Form from www.csulb.edu/testing (select EPT from the menu) or call Testing and Evaluation Services (562) 985-4007. Information bulletins and registration materials for the EPT will be mailed to all students subject to the requirement. The materials may be obtained from Testing and Evaluation Services.

Entry-Level Mathematics (ELM) Examination Placement

The ELM examination is designed to assess the skill levels of entering CSU students in the areas of mathematics typically covered in three years of rigorous college preparatory courses in high school (Algebra I, Algebra II, and Geometry). The CSU ELM must be completed by all entering undergraduates, with the exception of those who present proof of one of the following:

• A score of "Exempt" on the augmented mathematics California Standards Test, i.e., the CSU Early Assessment Program (EAP), taken in grade 11.
• A score of "conditionally exempt" on the augmented CST, i.e., the CSU Early Assessment Program (EAP) plus successful completion of a Senior-Year Mathematics Experience (SYMIE).
• A score of 550 or above on the mathematics section of the College Board SAT or on the College Board SAT Subject Tests - Mathematics Tests Level I, IIC (Calculator), II, or IIC (Calculator).
• A score of 23 or above on the ACT Mathematics Test.
• A score of 3 or above on the College Board Advanced Placement Calculus examination (AB or BC) or Statistics examination.
• Completion and transfer of a course that satisfies the General Education-Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement, provided the course was completed with a grade of "C" or better.

To file for one of the above exemptions, students may obtain an Exemption Form from www.csulb.edu/testing (select ELM from the menu) or call Testing and Evaluation Services (562) 985-4007. Information bulletins and registration materials for the ELM will be mailed to all students subject to the requirements. Required exams will be indicated in the Letter of Admission. The materials may also be obtained from Testing and Evaluation Services.

Advanced Placement Credit

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement (AP) Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course. Refer to the Advanced Placement Examination Credit table in the Academic Information section of this Catalog.

More specific information is available from the Office of Enrollment Service at (562) 985-5471 or a student's major department.

International Baccalaureate Credit

Students with scores of 5 or higher in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IBO transcript. Course equivalency for Higher Level examinations completed with a grade of 5 or higher is listed in the International Baccalaureate Examination Credit table in the Academic Information section of this Catalog.

For questions or information, please call the Office of Enrollment Service at (562) 985-5471 or consult this department.

Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PL 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning these requirements is available from Academic Affairs, (562) 985-4128.
Immunization Requirements

Students enrolled in a California school for the seventh grade or higher on or after July 1, 1999 will have satisfied the requirements for Hepatitis B and for Measles/Rubella. Entering CSULB students who have not satisfied these requirements must comply with the following requirements. These are not admission requirements, but students who do not satisfy them will not be permitted to enroll in the California State University. Failure to comply will result in a "hold" on future registration.

- Measles and Rubella Immunization: All new and readmitted students born after January 1, 1985 must provide proof of full immunization against measles and rubella prior to enrollment.
- Hepatitis B Immunization: All first time enrollees 18 years of age or younger at the start of their first term at CSULB must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period.
- Meningococcal Disease Information: Each incoming freshman who will be residing in on-campus housing will be required to return a form to housing indicating that they have received information about meningococcal disease and the availability of the vaccine.

References: CSU Executive Order No. 803 Immunization Requirements / California Assembly Bill 1107.

Measles/Rubella & Hepatitis B clearance is obtained by presenting to Student Health Services 1) a medical immunization record showing dates of shots given, or 2) a record of blood tests showing immunity, or 3) receiving immunization(s), or 4) making a request for medical or personal religious exemption. Students may receive the immunizations from their healthcare provider, HMO, or Public Health Department at low, or no cost. Immunizations may also be obtained at Student Health Services with no charge for Measles and Rubella and at Student Health Services cost for each Hepatitis B injection (series of 3). Acceptable proof may be by records from high school, private health care providers, and local health departments. For more information call (562) 985-4771, or visit the website www.csulb.edu/hs. Other useful vaccine information is available through the United States Centers for Disease Control National Immunization Program www.cdc.gov/nip/publications/ VIS/default.htm.

Student Selection and Denial

The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant's suitability and the best interests of the University.

Estimated Expenses

Students should be prepared to meet expenses for fees within 30 days of registration. Books should be purchased when classes begin. Other expenses are ongoing and must be anticipated monthly and included in the total cost of attendance. Expenses generally go up an average three to four percent per year. Actual costs depend upon where the student lives and if there are dependent children. Financial aid programs are designed to help students meet standard University-related expenses during the academic year. The following budgets will assist students in planning costs for average expenses: (Costs include University fees, books and supplies, room and board, personal miscellaneous and transportation based on 2007-2008 CSULB budgets.)

Student living at home with parents (nine month term).......................... $11,254
Student living in a residence hall (nine month term).......................... $15,118
Single student living off-campus (apartment, house, nine month term, assumes shared housing)...................... $17,170

Housing

University Residence Halls

The campus residence hall complexes consist of 20 halls and accommodate 2512 residents, including an International House complex, which houses 86 students and Residential Learning College located approximately one mile from campus which houses 550 students. All halls are coeducational and the majority of rooms are intended for double occupancy.

Residents may apply to reside in halls utilizing suite designs or more traditional halls which have double rooms on either side of a long corridor. Halls are available with Regular Quiet Hours or Very Quiet Hours and residents may select various meal plans per week. A limited number of single rooms are available.

Applications for the academic year are generally accepted in March. Housing spaces will be assigned in application order. An initial payment must be paid to retain the priority order of which the student's application was submitted. Any licenses received with payment after the stated deadline will be processed on a first-paid, first-served basis. To apply or for more information, please visit www.housing.csulb.edu.

Off-Campus Housing

An off-campus housing website is available to provide the maximum amount of information on vacant rental properties in the surrounding community while minimizing the time required to do a search. The website features comprehensive rental information including photographs, virtual tours and driving instructions. Searching the database may be refined as needed – for example, by neighborhood or by price range – and is free to students, faculty, and staff. Students also may use the site to list vacant rental property or look for a roommate to share accommodations. The website is provided as a service to CSULB by My Ideal Home Network and may be viewed at www.housing.csulb.edu/offcampus.
FEES AND FINANCIAL AID

Fees

Schedule of Fees 2008-2009

Legal residents of California are not charged tuition. The following reflects applicable systemwide fees and nonresident tuition for the semester system in which CSULB operates.

(Fees are subject to change without notice.)

Students who wish to drop units AND to simultaneously or subsequently add the same number of units to accomplish this exchange may do so without financial penalty in State University Fees, provided this exchange in units meets all other signature requirements. This activity may not occur later than 14 days from the first day of instruction.

All Students

Application Fee (nonrefundable), payable by check or money order at time application is made: $55.00. Those fees are subject to change. Check the current Schedule of Classes for fees each semester.

Undergraduate

State University Fee (per semester)

6.1 units or more..............................................................$1524.00
0 units to 6.0 units.........................................................$885.00

Other Mandatory Activity Fees (per semester)

Facilities Fee.................................................................$3.00
Instructionally Related Activities Fee (IRA).........................$25.00
Associated Students Inc. Fee.............................................$44.00
University Student Union Fee..........................................$50.00
Student ID Card.............................................................$5.00
Student Health Services Fee............................................$45.00

Total Resident Fees Per Semester

0.1 to 6.0 units..................................................................$1057.00
Total Resident Fees Per Semester

6.1 or more units ................................................................$1696.00

Credentialed Program Participants

State University Fee (per semester)

6.1 units or more.............................................................$1770.00
0 units to 6.0 units...........................................................$1026.00

Graduate

State University Fee (per semester)

6.1 units or more.............................................................$1878.00
0 units to 6.0 units...........................................................$1089.00

Other Mandatory Activity Fees (per semester)

Facilities Fee.................................................................$3.00
Instructionally Related Activities Fee (IRA).........................$25.00
Associated Students Inc. Fee.............................................$44.00
University Student Union Fee..........................................$50.00
Student ID Card.............................................................$5.00
Student Health Services Fee............................................$45.00

Total Resident Fees Per Semester

0.1 to 6.0 units..................................................................$1261.00
Total Resident Fees Per Semester

6.1 or more units ................................................................$2050.00

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Doctoral Programs

State University Fee (per semester)

All students......................................................................$3963.00

Nonresident Students (U.S. and Foreign) Tuition

Non-Resident Tuition is charged to all U.S. non-California residents and Foreign students. Tuition is $339.00 per unit, in addition to applicable State University and Other Mandatory Fees. (Tuition is subject to change by State Legislative action without notice.)

The total nonresident tuition paid per term will be determined by the number of units taken. The maximum nonresident tuition per academic year (as of 2006-07) is $10,170.00 (Fall and Spring terms). Summer term is not part of the regular academic year.

No fees of any kind will be required or collected from those individuals who qualify for such exemption under the provisions of the Alan Pinkett Scholarship Act, AB540, or other applicable legislation.

Optional Fees (per semester)

The following represents rates for the Fall 2008 and Spring 2009 semesters and are subject to change.

Motorcycle and Moped Parking (per semester)....................$30.00
Automobile Parking (per semester)......................................$123.00
Replacement Parking Permit.............................................$23.00
Full Price

Other Fees and Charges (non-refundable)

Late Registration..............................................................$25.00
Application and Reapplication Fee....................................$55.00
Diploma/Commencement Fee............................................$40.00
Missed Deadline Fee........................................................$10.00
Dishonored Check and Echeck Charge.............................$20.00
(If the Dishonored Check was for payment of registration fees, the Late Registration Fee may also apply)

Disputed Credit Card Charge............................................$10.00

Complete transcript of record..........................................$4.00
Replacement of Student ID Card.......................................$5.00
Late Payment Fee............................................................$10.00

REMINDER: Fees are Subject to Change Without Advance Notice. You are responsible for the immediate payment of any approved fee increase. The CSU Trustees are considering an increase in fees.

Parking Fee

Parking at CSULB is limited. Parking permits are required 24 hours a day, Monday through Friday, and the vehicle code is enforced at all times. Please contact the Parking Office (562) 985-4146 for additional information.

To request a partial or full refund, attach all parking documents, permits stickers, decals and gate cards to the refund application and return the Student Finance Office, Brotman Hall 103. Refer to the Schedule of Classes for refund information. If parking documents are not available or have not been received, students MUST contact the

30 • Fees and Financial Aid • 2009/2010 CSULB Catalog
Parking Administration Office located on Merriam Way adjacent to the parking structure. If any of these parking documents are affixed to the vehicle, their removal by a campus security officer or under the officer’s direction, shall constitute appropriate return. Attach all parking documents, permits stickers, decals and gate cards to the refund application and return to Student Account Services, BH 148. There shall be no refund if such amount is less than $5. There shall be no refund for:
1. Coin operated parking meters.
2. Daily permits for coin operated parking gates.
3. Special events.
4. Fees paid by monthly payroll deductions.

Auditors
Students enrolled as auditors, not for credit, are exempt from payment of the application fee, but must pay fees appropriate to the number of units taken.

Payments
Total fees include the State University Fee, Non-Resident Tuition, other campus mandatory fees as well as course fees. Payment of fees is required 30 calendar days after registration, or approximately 12 days prior to the first day of instruction, whichever is earlier. For payment deadlines, refer to the Schedule of Classes. Payment must be received by the due date or if the student’s registration request may be cancelled; postmarks are not accepted. Students who have not completed their registration before 12 days prior to the first day of instruction, must make payment within 24 hours of their registration.

Students are encouraged to make immediate payment to confirm their enrollment requests as classes fill quickly due to CSULB’s high enrollment. They may also make a payment before registering (i.e. a deposit), if they choose.

Payment can be satisfied by cash, check, Echeck, credit card, Financial Aid deferrals, actual Financial Aid awards, approved payment plans, other approved fee deferments, approved private scholarships, approved tuition waivers, or confirmed third party sponsors. Payments can be made in the following ways:

• Check
  – In person at the Cashiers Windows, Brotman Hall 148
  – Mailed to the Cashiers, Brotman Hall 148, CSULB, 1250 Bellflower Blvd., Long Beach, CA 90840-0103

• Cash
  – In person only at the Cashiers Window, Brotman Hall 148

• ECheck (self service over the web at http://my.csulb.edu)

• Credit Card
  Payment of student fees can be made by credit card
  (Discover, American Express, or MASTERCARD - VISA not accepted - Only at:
  - Self Service/SmartPay – over the web at http://my.csulb.edu (Smart Pay charges a 2.9% convenience fee)
  - Self Service over the web at http://my.csulb.edu
  Payment of fees CANNOT be made if disputed credit card charges exist on your account.

Contact Student Account Services for further information.

Short Term Loans
A limited number of short term loans to assist in paying for registration fees, books, or authorized emergencies are available to qualified students on a first come, first served basis. Information about this program is available at Brotman Hall 148, Cashiers Windows. Recorded information is available by calling (562) 985-4167.

Installment Payment Plan
The Installment Payment Plan is available to all eligible students except financial aid recipients who have sufficient funds to cover the State University Fee. A $33 non-refundable charge is assessed to defer the administrative costs of the program. A 9% service charge is assessed to the deferred balance for non-resident tuition and International Visa students. An Installment Plan Contract must be obtained from Brotman Hall 148, Cashiers Windows before submitting payment.

Refund of Mandatory Fees, Including Nonresidence Tuition
Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide fees and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-supported programs at the California State University (courses offered through extended education) are governed by a separate policy established by the university.

In order to receive a full refund of mandatory fees, including nonresidence tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for cancelling registration and dropping classes is available in the Schedule of Classes.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university’s established procedures will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

For state-supported semesters, quarters, and non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the university’s established procedures and deadlines.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:
• The tuition and mandatory fees were assessed or collected in error;
• The course for which the tuition and mandatory fees were assessed or collected was cancelled by the university;
• The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
• The student was activated for compulsory military service.

2009/2010 CSULB Catalog • Fees and Financial Aid • 31
Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the Student Account Services Office.

Refunds of Registration and Tuition Fees

Details regarding Registration and Tuition Fees Refunds may be found in the Schedule of Classes. As this information may differ from one semester to another, students are advised to refer to the Schedule of Classes for the particular semester. Students must complete the class drop or withdrawal process prior to becoming eligible for a refund. The amount to be refunded is determined by the effective withdrawal or drop date. In addition, any other outstanding financial obligations that the student may have incurred will be deducted from any credits due to the student before a refund is processed. Refund deadlines are reflected in the Schedule of Classes. A $10.00 processing fee will be withheld from the refunds.

Details regarding refunds due to Medical Withdrawals can be found in the Schedule of Classes.

Further details regarding fees that may be refunded and the circumstances under which they may be refunded may be obtained by consulting the California Code of Regulations, Title V, in the following sections:
- Registration and Tuition Fees — Section 41602
- Parking Fees — Section 42201
- Housing Fees — Section 42010
- The following fees are non-refundable: Late Fees, Application Fees, Disputed Credit Card Fees, Dishonored Check Fees, Student I.D. Card Replacement Fees, Late Payment Fees.

Special Circumstances Refunds

There are two levels of financial appeals. They are as follows:
1. Request for Refunds After Published Deadlines:
   - Students who withdraw or drop in units after the deadlines detailed in the Schedule of Classes have passed, may appeal for a Special Circumstances Refund based on the following:
     A. Campus Variation
     B. Compulsory Military Service
     C. Death of Student
     D. Fees Collected in Error
   - Further information regarding Special Circumstances Refunds by calling the Student Account Services Office at (562) 985-4167.
   - If a student wishes to petition the decision made at the first appeal level, a written request must be submitted to the F.A.I.R. Committee (BH 155) for review.

   This Committee has been approved by the President as the final financial appeal level. It consists of representatives from various University Offices. F.A.I.R. will only review appeals for the current academic year.

Determination of Residence for Nonresident Tuition Purposes

University requirements for establishing residency are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residence Requirements. These laws governing residence for tuition purposes at the California State University are California Education Code sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University's website at www.calstate.edu/SC/ resources.shtml. Those regulations were promulgated to determine whether a student is a resident or nonresident of California, but neither to determine whether a student should pay University fees on an in-state or out-of-state basis.

Each campus’s Admissions Office is responsible for determining the residence status of all new and returning students based on the Application for Admission, Residency Questionnaire, Classification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residence for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least one full year prior to the resident determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with the intent to remain in California indefinitely may establish California residence for tuition purposes. A minor normally derives residence from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent mailing address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence on parents who cannot satisfy University requirements for classification as residents for tuition purposes, which will be considered along with physical presence and intent in determining reclassification.

Noncitizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68084 and California Code of Regulations, Title
5. Subchapter 5, Article 4, sections 4900-4906.5, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three years of high school in California and graduated or attained the equivalent. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional support documentation. Because neither campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

The campus Office of Enrollment Services is responsible for determining the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, as necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence for tuition purposes at the California State University is found in California Education Code, sections 68000-68090, 68120-68134, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University’s website at www.csueastern.edu/GC/resources.shtml.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Steps must be taken at least one year prior to the residence determination date to show an intent to make California the permanent home with concurrent relinquishment of the prior legal residence. The steps necessary to show California residence intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy of an apartment on a lease basis, where one’s permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator’s license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in the military service.

The student who is within the state for educational purposes only does not gain the status of resident regardless of the length of the student’s stay in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of an unmarried minor who has a parent living cannot be changed by the minor’s own act, by the appointment of a legal guardian or by the relinquishment of a parent’s right of control.

A married person may establish his or her residence independent of his or her spouse. An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence on parents who cannot satisfy University requirements for classification as residents for tuition purposes, which will be considered along with physical presence and intent in determining reclassification.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "resident student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are: Fall – September 20; Spring – January 25; Summer – June 1.

There are exceptions from nonresident tuition including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues until the student has resided in the state the minimum time necessary to become a resident;

2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident;

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student has resided in the state the minimum time necessary to become a resident;

4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. Graduate students are eligible for this exception for one academic year of continuous enrollment, the length of time necessary to establish California residency. There is no time limitation on this exception unless the military person transfers out of California or retires from military service. If either of these events happen, the student’s eligibility for this exception continues until he or she resides in the state the minimum time necessary to become a resident;

5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. The exception is available to the graduate student military member for more than one academic year of continuous enrollment, the length of time necessary to establish California residency. The undergraduate student military member is eligible for this exception for as long as he or she is stationed in California as an active member of the military;

6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in state the minimum time necessary to become a resident.

2009/2010 CSULB Catalog • Fees and Financial Aid • 33
Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state for the minimum time required to become a resident.

Graduates of any school located in California that is accredited by the United States Bureau of Indian Affairs, including but not limited to, the Sherman Indian High School. The exception continues for as long as continuing attendance is maintained by the student at an institution.

Certain credentialed, full-time employees of California school districts.

Full-time State University employees and their children and spouses; State employees assigned to work outside the State and their children and spouses. This exception continues until the student has resided in the state for the minimum time necessary to become a California resident.

Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the line of duty.

Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state for the minimum time necessary to become a resident.

Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a federal job relocation. This exception continues until the student has resided in the state for the minimum time necessary to become a resident.

State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.

Persons who have attended a California high school for at least three years and have graduated from a California high school or equivalent. (Please Note: Those who hold non-immigrant visas (i.e., F, J, B, H, etc.) are not eligible for this exception. Those seeking this exception must fill out the Student Affidavit for Exemption of Nonresident Tuition form, which is available at www.csulb.edu/enrollment. Once this exception is approved, it is not necessary to reapply each semester. This is the only exception for which this is true.

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the Office of General Counsel, 401 Golden Shore, 4th Floor, Long Beach, California 90802-4210. The Office of General Counsel can either hear the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, or who no longer meet the criteria for an exception, and nonresident students qualifying for exceptions whose basis for qualifying changes, must immediately notify the Admissions Office. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant resident determination date.

Changes in residency for tuition purposes are not automatic. Students wishing to apply for resident reclassification must submit a Residency Reclassification Request Form and supporting documentation. The filing period for a spring term is from October 1 through November 1; the filing period for a fall or summer term is from March 1 through April 1. A late filing fee must accompany requests filed after the last day of the filing period. Under no circumstances will a reclassification request be accepted for a term that has ended.

Exceptions from nonresident tuition are valid for one semester only. Students must reapply for an exemption each semester. Forms are located at the Office of Enrollment Services, BH 101.

Financial Obligations and Holds

University offices, including but not limited to the Library, may request that a student reimburse the University for an item that was not returned, returned late or damaged; or they may impose other charges. The requesting office may ask the Student Account Services Office to post this charge to the student's account. Once posted, it becomes an obligation to the student. Student Account Services will be able to provide general information concerning obligations. The student will be directed to the appropriate department in which to inquire about the obligation. Until all obligations are paid, or a written release from the originating office is received by the Student Account Services Office, a financial hold will be placed on academic records and the student is restricted from receiving University services, including but not limited to registration, grades, and transcripts. If the obligation continues to appear on the University reports, the student's name will be submitted to the Franchise Tax Board. In this case, the student or former student, permanently loses the privilege of submitting checks as payment for fees or services. (Acceptable methods of payment are cash, cashier's check or money order.) The State then has the authority to withhold amounts owed to the University from any tax refund to which the student may be entitled.

For information regarding the amount due – Student Account Services, BH 148 or call Student Account Services at (562) 985-4167.
Dishonored Checks / EChecks

Students paying fees by personal check or eCheck are hereby given notice that if the unpaid check is returned dishonored to the UNIVERSITY FOR ANY REASON, a $20.00 fee is charged to the student's account. The University has no control whether the bank sends checks through a second time for clearing. The check should be honored upon first presentation to the bank.

In compliance with California Code of Regulations, Title V, Section 42381, students with dishonored checks may be disenrolled from classes and may be required to reapply for admission to the University. Also, future services including, but not limited to, transcripts, grades, and future registration may be withheld.

Dishonored checks are monitored in the student's record. Any student with a record of two (2) dishonored checks or EChecks will lose check writing privileges with the University and future payments by personal check will not be accepted.

Disputed Credit Card Charge

Students are strongly encouraged to contact the Student Account Services (BH 148) or call Student Account Services at (662) 985-4167, before disputing a credit card charge through the bank. Upon receipt of a disputed credit card charge, the amount of the credit card charge plus a $10.00 fee becomes the STUDENT'S financial obligation to the University. Payment of Registration fees with a credit card charge which has later been disputed may result in disenrollment and in withholding of future University services including, but not limited to, transcripts, grades, and future registration (California Code of Regulations, Title V, Section 42381). Students who are disenrolled may be required to reapply for admission to the University.

Fees and Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, the institution may withhold permission to register, use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise, or any combination of the above from any person owing a debt until the debt is paid (see Title 5, California Code of Regulations, Sections 42390 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course. Fees are pro-rated based on the date of drop or withdrawal. Refer to the current Schedule of Classes for more information.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the Student Account Services Office. The Student Account Services Office, or another office on campus to which the Student Account Services Office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Financial Assistance Information

There are a variety of financial aid programs to assist students and families with meeting expenses. The following information concerning student financial assistance may be obtained from Financial Aid, BH 101, (662) 985-8403:

1. A description of the federal, state, institutional, and private student financial assistance programs available to students who enroll at CSULB;
2. For each aid program, a description of procedures and forms by which students apply for assistance, eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and the criteria for continued student eligibility under each program;
4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
6. The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
7. The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
8. The responsibility of CSULB for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and
9. The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.

Information concerning the cost of attending California State University, Long Beach is available from the Office of Financial Aid, BH 101, (662) 985-8403, and includes fees and tuition (where applicable), the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of California State University, Long Beach for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Controller, BH 385.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulations is available from the Office of Financial Aid, BH 101, (662) 985-8403.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, Sports Athletics and Recreation, 562-985-8527.

2009/2010 CSULB Catalog • Fees and Financial Aid • 35
Information concerning teacher preparation programs at CSULB, including the pass rate on teacher certification examinations, may be obtained from either Elementary/Special Education Admission Advising, ED 154, (562) 985-9250, Elementary Education: www.csulb.edu/depts/elementary, Special Education: www.csulb.edu/depts/colleges/special-education, or Single Subject Office, ED 1 53, (562) 985-7633, www.csulb.edu/depts/singlesub.

The Office of Financial Aid at CSULB provides both financial and advisory assistance to enable students to pursue a quality education despite increasing costs. It administers funds made available by the federal and state governments, CSU and by private sources that are awarded to students who demonstrate a need to cover educational expenses.

Due to limited funding, deadlines are critical. Students financial aid files must be complete before financial need can be determined. Students must file a Free Application for Federal Student Aid (FAFSA) between January 1 and March 2 for priority status.

Financial Aid Application

To apply for financial aid from CSULB, students must file the Free Application for Federal Student Aid (FAFSA). The FAFSA is a multi-purpose form that is also required to apply for California Grants from the California Student Aid Commission (CSAC) and for Pell Grant funds from the federal government. The FAFSA must be mailed to a nationally designated processor. The FAFSA should be completed online at www.fafsa.ed.gov. Students unable to complete the FAFSA on the Web may call 800-FED-AID and request a paper application or may download a copy at http://fisa.ed.gov/fafsa/fafsa_options.html. To ensure CSULB receives the FAFSA data, list CSULB and the Title IV School Code 001130 on the college release section. New applicants for Cal Grants (including entering freshmen) must submit a GPA Verification Form in addition to the FAFSA by the March 2 deadline. GPA Verification Forms are available from high school counselors or any any California College Financial Aid Office.

Detailed information about CSULB financial aid programs is available in the Office of Financial Aid, BH 101, (562) 985-8403. The submission of various supportive documents may be required. Those may include the following: (1) verification of all taxable and nontaxable income reported on the FAFSA; and (2) other clarifying information requested by the Office of Financial Aid. Upon receipt of all documentation, the applicant’s file is examined to determine eligibility for financial aid. A student is automatically considered for all programs for which he/she qualifies at the University by submitting the FAFSA, and appropriate supporting documents. All loan, grant and work-study programs are available for the academic year.

Students expecting to receive a financial aid refund are required to provide bank account information to CSULB in order to facilitate electronic refunds to students (eRefund).

Financial Aid Eligibility

To determine financial aid eligibility, a standard needs analysis system is used. This system allows the Office of Financial Aid to analyze family financial strength and ability to contribute toward the cost of attending CSULB.

Subtracted from the student’s educational expenses to arrive at financial need are: the parental contribution, the applicant’s (and spouse’s) contribution from employment, savings, a portion of assets and other resources. As long as program funds permit, a “package” consisting of various types of funds (grants, loans, work-study) is awarded to meet full need.

Although enrollment is assumed to be full-time, part-time students are eligible to receive aid if they carry a minimum of six undergraduate units, or 5 graduate level units.

Notification of Awards

Upon determination of eligibility, new students are sent notice of a financial aid offer. Students are also notified if determined to be ineligible.

It is the goal of CSULB to package aid that fully meets the need of all qualified aid applicants. However, in the event that funds are insufficient, priority will be given to students whose financial aid files meet the first priority deadlines and who demonstrate the highest need.

Academic Responsibilities

Aid recipients must:

1. be in good academic standing;
2. make satisfactory academic progress toward a degree by earning credit for units attempted each semester; and
3. remain within the maximum time frame for the degree program in which the student is enrolled.

Aid eligibility is governed by the number of units attempted and successfully completed with a passing grade ("D" or better). Students who do not satisfactorily complete enough of their attempted units may be placed on financial aid probation or disqualified from receiving aid.

Most aid recipients enroll in a full-time program of study carrying 12 undergraduate units or 9 graduate level units (500-level courses or higher) per semester. To be considered an eligible financial aid applicant, students cannot have attempted more academic units than an established unit limit. At CSULB, the established unit limit is 150% of the published length of an academic program measured in units. The unit limit includes all attempted units. This includes units attempted as a recipient of financial aid as well as units attempted while not receiving aid. It also includes transfer units for those students who have attended colleges elsewhere, and any units of remedial coursework.

For complete information on CSULB’s satisfactory progress policy, go to their web site at www.csulb.edu/ depts/enrollment/financial_aid/sap_policy.html.

Financial Responsibilities

If you are determined ineligible for financial aid, you are responsible for the payment of any University obligations you may have, including fees.

Students who are receiving financial aid funds and completely withdraw from all of their classes, may have to repay all or part of the award they received. Students should check with the financial aid office to find out if they will owe a repayment, before withdrawing from all of their classes.
Campus Financial Aid Programs

Federal Perkins Loans
The Federal Perkins Loan is a federal program providing long-term, low interest loans to both graduate and undergraduate students. Repayment of loan principal and interest begins nine months after you cease to be enrolled at half-time.

Federal Supplemental Educational Opportunity Grant (SEOG)
The SEOG is a federally funded grant program for undergraduate students with exceptional financial need.

Federal Work-Study (FWS)
The work-study program is a federally funded employment program to expand part-time job opportunities for students with financial need. Students are placed in jobs according to their skills, career and academic goals and must see the Office of Financial Aid for job referral. Positions are available on campus or with organizations off campus.

Educational Opportunity Program Grants
EOP grants are provided by the State of California for undergraduate students admitted to one of the California State University campuses under the Educational Opportunity Program. Eligibility is determined by the same need criteria as federal financial aid programs. Students also receive special academic counseling and tutorial assistance when needed. Further information may be obtained by contacting the Educational Opportunity Program Office on campus.

State University Grant
The State University Grant is funded by the State of California to assist students whose ability to attend postsecondary institutions is jeopardized by increases in student fees. Students must be residents of California, demonstrate financial need, and be assessed State University Fees to be eligible for this award.

Graduate Research Fellowships
The Graduate Research Fellowship is funded by the California State University to graduate students who have experienced educational or economic disadvantages or hardships. Applicants must be California residents, demonstrate financial need and be accepted into or continuing in a full-time graduate program. Limited awards are made through a competitive process.

University Scholarships
The Office of Financial Aid administers a limited number of small scholarships funded by CSULB. Other scholarships are funded by private donors, businesses, corporations, agencies, religious groups, and fraternal and civic organizations. Most scholarships are not based solely on financial need. They may be awarded on the basis of academic achievement, leadership, merit, motivation, and talent. Some scholarships are administered directly by the academic department for specific academic majors. Students may consult with their academic department or the Office of Financial Aid regarding scholarships available.

President's Scholars Program — Four Years
High school valedictorians may be eligible. Includes registration fees, housing, and book allowance — up to approximately $35,000 for four years.

National Merit Scholarship Finalists and semi-finalists may also be eligible. Includes registration fees, housing, food, and book allowance — up to approximately $43,000 for four years.

Applications are available from your high school counselor. For more information contact Valerie Bourgeois in the CSULB Office of University Outreach and School Relations at (562) 985-6356.

Outside Student Aid Programs
The following programs are administered by other agencies and coordinated by the Office of Financial Aid:

Cal Grant A
Cal Grant A is awarded by the California Student Aid Commission to entering and continuing undergraduate students who are California residents. Cal Grant A awards are based on academic achievement and financial need. Grants are used to offset State University Fees.

Cal Grant B
Cal Grant B is awarded by the California Student Aid Commission to entering undergraduate students who have not completed more than one semester of college. Applicants must be California residents, and must demonstrate substantial financial need. Grants vary depending on educational costs. Fees, in addition to the basic award, are normally provided in the second, third, and fourth years. The grant is renewable for four years.

Federal Pell Grant Program
The Pell Grant Program is a federal aid program designed to provide financial assistance to undergraduate students who demonstrate financial need under the guidelines of the program. Teacher credential students in an eligible program may also qualify. Once a student is determined eligible for the Pell Grant, the amount of the award is based on the cost of education at the school attended and enrollment on a half-time, three-quarter-time, or full-time basis. Eligibility is limited to U.S. citizens and eligible non-citizens.

Federal Stafford Loan
The Stafford Loan Program enables eligible students to obtain loans through banks, credit unions, and other lending institutions outside of the University. During the time the student is enrolled at least half-time, the federal government pays the interest on the cumulative amount borrowed if the loan is based on financial need (subsidized). An unsubsidized Federal Stafford Loan is not based on financial need. Once funds are disbursed, the student is responsible for interest due on the loan while in school. The Parent PLUS Loan is available to parents of dependent undergraduate students. The parent's credit history is a determining factor for participation in this program.

Information, brochures, advising, and application forms are available from BH 101, or phone (562) 985-8403.

Federal regulations allow any student to apply for the Federal Stafford Loan providing the student: 1) is enrolled
and in good standing or has been accepted for enrollment at an eligible school; 2) is enrolled at least as a half-time student; 3) is a citizen of the United States or an eligible non-citizen. Local lender policy is available from the Office of Financial Aid; 4) is registered with Selective Service (if required); 5) is working toward a degree or certificate; 6) is making satisfactory academic progress; and 7) does not owe a refund on a federal grant and is not in default on a federal education loan.

Fee Waivers

The California Education Code includes provisions for the waiver of mandatory statewide fees as follows:

Section 66120 - Children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Allen Pattee Scholarships);

Section 66253.3 - Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war period veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouse/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions; and

Section 66412 - Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 66432.7 for the Cal Grant A Program or other the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Students who may qualify for these benefits should contact the Admissions/Registrar's Office for further information and an eligibility determination.

Bureau of Indian Affairs (BIA) Grants

Students who are at least one-fourth American Indian, Eskimo, or Aleut may apply for a BIA grant. The amount of the grant depends upon financial need and availability of funds. Students must complete an application for financial aid and then contact their tribe or tribal agency for an application.

Federal/State Regulations

The information contained in this publication accurately reflects regulations and policies at the time of printing. Be aware that Federal and State regulations governing financial aid processing and eligibility are subject to change at any time.

Other Types of Financial Assistance

Cooperative Education (Co-Op)

The Cooperative Education Office places students in career or academic related positions with corporations, businesses, agencies and institutions. Students are paid at normal entry-level wages. Minimum periods of employment for full-time Cooperative Education placements are one semester. For part-time placements, a minimum of 20 hours is required. Summer internships are also available. Contact the Experiential Learning Center, BH 250.

Student Part-Time Employment

Listings are available and assistance is offered in the Career Development Center to students interested in part-time employment. On-campus and off-campus positions are available.

Teaching Assistantships and Graduate Assistantships

Many CSULB departments have Teaching Associate (TA) and/or Graduate Assistant (GA) positions available for qualified graduate students. Students should check in department offices or on the campus website for more information.

Center for Scholarship Information

The Center for Scholarship Information, under the Dean of Students Office, is the campus resource for scholarships at CSULB providing students with access to a database of on- and off-campus scholarship opportunities. Scholarships can be an additional financial resource for students and may be awarded to qualified students based upon academic achievement, leadership, financial need or a specific area of study and/or ability. At the Center, students receive guidance on the entire scholarship process including support on applications, personal statements and essays.

For more information contact the Coordinator of University Scholarships at (562) 985-2549.

Orientation and Advising

See the section on Academic Information and Regulations for information on registration procedures. Detailed information on procedures and deadlines is given in the Schedule of Classes.

Undergraduate students new to the University will receive information about Student Orientation, Advising, and Registration (SOAR), described below. Now undergraduate students register for classes at the time they attend SOAR.

Student Orientation, Advising, and Registration (SOAR)

Overview of SOAR

Student Orientation, Advising, and Registration (SOAR) is the University-sponsored new student advising and orientation program that newly-admitted freshman and transfer students are required to attend. SOAR offers them an opportunity to get to know the campus, learn about opportunities to enhance their college experience and successfully navigate through their first semester at CSULB. SOAR offers opportunities to enhance their college experience and successfully navigate through their first semester at CSULB. SOAR offers admitted students the chance to attend workshops that introduces University policies, procedures and requirements.

They also present information on general education and major requirements, and assist SOAR students with the selection of classes and registration process. Registered SOAR students receive a one-day parking permit, lunch, CSULB Student Planner, and CSULB e-mail account, in addition to CSULB publications, announcements and vouchers. SOAR workshops take place in January for spring admits and throughout the summer months for fall admits. Information about SOAR is mailed to newly-admitted students as part of the CSULB Welcome Kit and may also be obtained by visiting the SOAR Web site at www.csulb.edu/saor.

Students may register for SOAR via MyCSULB once they are admitted and have submitted their CSULB Enrollment Deposit. There is a fee associated with this new student orientation program. SOAR, which is housed under Student Transition and Retention Services, is located in Foundation Building, Suite 160. More information, contact SOAR at (562) 985-5515, saor@csulb.edu, or www.csulb.edu/saor.

SOAR Transfer Workshops

Each of the University's seven colleges work collaboratively with SOAR to sponsor college-specific transfer workshops (information about College & Majors can be found on the SOAR Web site). Most transfer students will participate in a college-specific workshop where they will meet with faculty advisors from their declared major department and receive assistance with class selection. During SOAR, transfer students also receive information on department-sponsored support resources, scholarships, internships/field work, and off-campus requirements.

SOAR Freshman Workshops

Freshmen can attend a One-Day Workshop or a Two-Day, Overnight Program. One-Day Workshops jump right into the essential components of SOAR - a campus tour, academic assessment, and assistance with class selection and registration. Two-day, overnight programs, which are offered only during the summer, enable freshmen to experience the residence halls and establish new friendships with other incoming freshmen. During the first day of this workshop, educational and social activities introduce freshmen to college lifetimers and the CSULB campus. The second day is dedicated to academic advising, class selection, and assistance with the registration process.

New CSULB freshmen enroll into classes determined by required entrance exams including the SAT and ACT, in addition to results of the Advanced Placement (AP) and Early Assessment Program (EAP) tests. Unless exempt based on standardized tests (EAP, SAT, ACT, IB and/or AP) or completed college credit, freshmen are REQUIRED to complete the English Placement Test (EPT) and/or Entry-Level Math (ELM) exams prior to attending SOAR. With the assistance of SOAR advisors, freshmen construct a well-balanced schedule that fulfills CSULB requirements such as Foundation, Math and/or English Review (if applicable), major, and elective classes. Advisors also take into account off-campus responsibilities, including employment, co-curricular activities, commuting, and other family obligations. At the end of each freshman workshop, students meet with a professional advisor to review the final schedule and answer any questions about making a successful start at CSULB.

Student Transition and Retention Services (STARS)

A range of programs, services and opportunities are offered to new and continuing students through Student Transition and Retention Services (STARS). STARS oversees Student Orientation, Advising and Registration (SOAR), which is the university-required, new student orientation program. It is also responsible for continuing orientation, retention programming and leadership development opportunities such as Life Guard Stations, Student Services Festival, Majors Fair, and Operation: Return to The Beach.

STARS is located in Foundation Building, Suite 160 and can be contacted at (562) 985-5515, saor@csulb.edu, or www.csulb.edu/saor.

Parent Orientation Program (POP)

The Parent Orientation Program (POP) is designed to inform parents about baccalaureate requirements, the University library, safety, financial aid, housing, and other important University issues so they may better assist their children to be successful at CSULB. Sessions occur in conjunction with SOAR each summer. POP is presented by the Academic Advising Center. For more information, call (562) 985-5458.
Advisement Centers on Campus

CSULB is committed to student success. University undergraduate academic advising services and academic departments are responsible for providing academic direction for new and continuing students. In addition, academic departments provide academic advising for graduate students.

Undergraduate advisors, both in advising service offices and in academic departments, assist students to develop educational plans that are compatible with students' interests, academic preparation, and educational and career goals. While advising offices mainly provide information and advise about general education, academic departments advise students about their major requirements and other important academic issues.

Lists of faculty advisors, their locations and phone numbers appear each semester in the Schedule of Classes. Faculty advisors also provide academic advisement and information about minors, certificates, internships, and masters programs. Students are advised to check with advisors for current and relevant information.

The following listings are of advising services that provide general advising for students. Some are for students in special programs. All are eager to assist students.

University Center for Undergraduate Advising

The University Center for Undergraduate Advising (formerly the Academic Advising Center) is located in the Horn Center, Room 103. For hours and appointments, call (562) 985-4837. Visit www.csulb.edu/uac for information.

The Center provides services to the general University undergraduate student population including both traditional and non-traditional students.

The Center provides one-on-one advisement year round for incoming, continuing and transfer students, workshops for transfer, adult reentry and graduating senior students; academic information for prospective CSULB students; total academic program planning for entering and continuing students; unofficial Degree Audits for continuing students; General Education advising for continuing and returning students; information, advisement and special evaluation services to adult reentry students; mandatory freshman workshops for second- and third-semester class registration; assistance and information with and for the academic appeals process; academic probation/ disqualification intervention services to high-risk students (in the “Strategies for Academic Success” program and in one-on-one sessions); and special advisement services to undeclared and pre-majors.

Learning Alliance

The Learning Alliance is located in LA 202. For information contact the Learning Alliance at (562) 985-7604, visit www.csulb.edu/colleges/cla/alliance, or e-mail Alliance@csulb.edu.

The CSULB Learning Alliance is an academic program for students who seek an active, personalized college experience. It is designed to help first-time freshmen make a positive academic and social transition to CSULB. This academic learning community offers students a chance to take classes together, learn from challenging instructors and establish closer ties to CSULB through campus involvement. Students qualify for the program based upon English test scores (SAT, ACT, AP, and/or EPT) and their desire to become part of a community that enables them to make well-informed choices about majors and career/life goals. Each fall, the Learning Alliance accepts approximately 200 first-time freshmen to the program, which is open to all majors both declared and undeclared. During their first year, students enroll in two connected general education classes in the fall and spring where faculty members work together to integrate course subject matter. During each semester of the sophomore year, students maintain their involvement with the program through Community Involvement as well as an option for a leadership course. As a result of their in-class connections, students have opportunities to make new friends and form study groups.

Alliance juniors and seniors continue their association with the program by accessing resources that prepare them for graduation and life after college.

Specific benefits for Learning Alliance students include personalized academic advisement, guaranteed general education courses, support from professional staff members, courses with student-centered professors, opportunities for campus involvement, and access to the Alliance student lounge and computer lab.

Applications are accepted on a first-come, first-served basis.

Educational Equity Services

Educational Equity Services is located in Liberal Arts (LA) 1-119. The telephone number is (562) 985-5637. Students are seen by appointment. Educational Equity Services has two advising components:

Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) is a state funded program that has developed special services to help students overcome the obstacles that may prevent them from furthering their education and reaching their potential. Students who are interested in being considered for EOP must declare their intentions on the University application at the time they apply to the University. Visit www.csulb.edu/eop for information.

The Student Support Services Program (SSSP)

The Student Support Services Program (SSSP) is a federally funded program designed to assist students in achieving their maximum potential in higher education. Students are referred to SSSP by faculty, staff, and students of CSULB. Interested students apply directly to the program for participation. In addition to an academic need, one of the following must apply for a student to be eligible for SSSP services: low income and first generation college students; physically disabled and/or learning disabled; low income only; first generation only.

Students should check with SSSP regarding their eligibility for program participation.

Services provided to program participants include financial aid assistance; orientation to college—helping students adjust to the college environment; academic advising—guidance with graduation requirements, major and course selection; individual counseling; peer advising; tutorial and supplemental instruction assistance covering a wide range of courses; career counseling; probation intervention; Writing Proficiency Examination workshops; and graduate placement information.

2009/2010 CSULB Catalog • Academic Services, Resources, Campus Life • 43
Global Learning Options for a Broader Education (GLOBE)

The GLOBE Program is located in Brozman Hall, Room 201. Call (562) 985-5585 for information or visit www.csulb.edu/visitorinfo/aac/globe.

The GLOBE Program is an academic program for first-time freshmen who are interested in international issues and who wish to have at least one study abroad experience during their undergraduate career at CSULB. This small learning community enrolls approximately fifty new freshmen students each fall and offers an integrated curriculum of foundation and content area courses focused on global themes. The curriculum includes written communication, oral communication, critical thinking, literature, the arts, and social sciences. Students are recruited at SOAR each summer based on interest. Students receive paired courses for the first year, academic advising throughout their undergraduate career, assistance in selecting a major, and study abroad advising.

College of Health and Human Services Academic Advising and Resource Center (AARC)

Located in the Human Services and Design (H&SD) building, suite 117, the CHHS Academic Advising and Resource Center (AARC) provides comprehensive advising for all CHHS discipline majors. For information and appointments students are encouraged to call 562-985-2651 and/or visit www.csulb.edu/colleges/chihs, or e-mail chhsaarc@csulb.edu. Students who are currently enrolled, returning to the university, or considering enrolling at CSULB are welcome to make individual appointments and/or attend small group workshops. AARC advisors are able to provide the following services: comprehensive academic planning; schedule planning; transfer assistance; degree substitutions and waivers; assistance with academic probation, disqualification, and academic appeals; degree audits; and graduation checks. CHHS disciplines covered at the center include: Athletic Training, Child Development and Family Studies, Communicative Disorders, Consumer Affairs, Exercise Science, Family and Consumer Sciences, Fashion Merchandising and Design, Fitness, Food Science, Health Care Administration, Health Science, Hospitality Foodservice and Hotel Management, Kinesiology, Kinesiotherapy, Nursing, Nutrition and Dietetics, Occupational Studies, Radiation Therapy, Recreation and Leisure Studies, Social Work, Sport Psychology and Coaching.

College of Engineering Recruitment and Retention Center

The College of Engineering Recruitment and Retention Center is located in the Engineering Computer Science (ECS) building, Room 136. An additional office for advising is located in the Vivian Engineering Center (VEC), Room 136. For information, see the Web site: www.csulb.edu/coe/aac or call (562) 985-1800 or e-mail coe-admit@csulb.edu.

Mission Statement

To inform, engage, and encourage students to be self-directed in their educational planning process and overall academic success.

The Center serves as the first point of contact for prospective and/or returning Engineering students by providing academic guidance beginning with the application process to full matriculation. The Center’s primary charge is to assist prospective students of Engineering into CSULB through admissions advising, orientation, and career explorations. Although its major effort is directed toward the engagement of first-time freshman and transfer students, it also offers counseling services to students who are on or approaching academic probation. It continues to be active in the recruitment of students into the College through a collaborative participation with many campus offices and departments, California Community Colleges, and local secondary schools. The Center also handles admission inquiries and pre-screening graduate and post-baccalaureate applications prior to the review phase at the department level.

E-FIRST (Engineering Freshman Intervention and Retention Success through Tracking)

First-year freshmen students are assisted in their transition from high school to the academic rigor of an Engineering degree via the learning community model. Mandatory individualized advising, academic plan and career goal setting, as well as guidance on a number of personal decision making and trouble-shooting issues of immediate concern are provided. Students are required to enroll in a number of Engineering foundation courses designed to promote success during the first year. These include: Engineering specific UNIV 100, ENGR 101, ENGR 102, and a discipline-specific course (selected from: ChE 100, CECEM 101, CEGS 105, EE 200, ET 101, MAE 101A, MAE 101B).

Engineering Early Identification and Monitored Probation Program

A comprehensive multi-component program aimed at identifying and providing early intervention to students who are on or approaching academic probation. In addition to helping students determine causes behind academic failure, intensive and intrusive counseling, combined with general advising, help students reach their academic potential.

Project Women 40

Project Women 40 aims to increase the number of women in Engineering to 40%. Through a variety of approaches, this program extends three major goals: 1) outreach to female students at the K-12 level, 2) recruitment of female students at the community college, and 3) retention of female students currently enrolled in Engineering major programs. Each currently enrolled student will be paired with a female student mentor from the local chapter of SWE (Society of Women Engineers) and introduced to a faculty mentor in their respective discipline.

MESA Engineering Program (MEP)

The MEP office is located in Engineering 2, Room 300. For information, call MEP at (562) 985-8014.

The MESA (Mathematics, Engineering, Science, Achievement) Engineering Program (MEP) provides academic advisement for general education to low-income
and educationally disadvantaged students in all of the engineering disciplines: Aerospace, Chemical, Civil, Computer Engineering and Computer Science, Electrical, Engineering Technology, and Mechanical Engineering. The MEP staff works with engineering department advisors to provide current information on engineering course requirements.

Academic advisement is available in the MEP center by appointment and on a walk-in basis.

**Student Access to Sciences and Mathematics Center (SAS)**

The Jensen SAS Center is located in Faculty Office Building 5, Room 109 (FOS-109). For information check the Web site www.susconut.org or call (562) 985-4682.

The Jensen Student Access to Sciences and Mathematics Center (SAS) encourages and supports undergraduate and graduate students as they prepare for careers in the sciences and/or mathematics. There are many programs that combine to make up SAS. Two programs in particular which relate to academic advising are Science Safari to Success and EONS (Enrollment Orientation to the Natural Sciences and Mathematics). Science Safari and EONS are orientation programs for all incoming freshmen and transfer students. These programs welcome students to the College of Natural Sciences and Mathematics by providing resources, academic advising, an overview of career opportunities and degree programs, research opportunities, peer mentoring, and access to appropriate courses for students majoring in the sciences and/or mathematics.

**Bickerstaff Academic Center for Student-Athlete Services**

Bickerstaff Academic Center is located in the Physical Education Building, PE-1, Room 67. Students may call (562) 985-4777 for more information.

Bickerstaff Academic Center (BAC) provides support services for the NCAA Division 1 student-athletes. The BAC staff provide total advisement on academic program planning to meet CSULB graduation requirements and NCAA eligibility requirements, appropriate course suggestions to meet general education and major requirements, and assistance in the identification and clarification of educational and vocational goals. BAC actively monitors student-athlete academic progress and provides referrals to various campus support services to enhance their academic performance.

BAC coordinates three support programs. The Student-Athlete Success Program (SASP), a new academic support program in BAC, is committed to providing 400 student-athletes with tools and resources needed to succeed in the competitive academic environment. Support services include college readiness assessment, college survival study skills seminars, walk-in individual and group tutorials, supervised study hall, individual learning strategists assistance, support service referrals, and a computer access lab.

HEADS UP! is a program in which student-athlete peer mentors assist first-year student-athletes in adjusting to the demands of both intercollegiate athletics and university academics. It also provides the opportunity for freshmen and new transfer student-athletes to participate in transitional support programs designed to capitalize on the student-athletes’ athletic skills, while learning to transfer those skills to the classroom. HEADS UP! promotes involvement in university life and personal academic and athletic competence. Faculty/Student Athlete Connection Program (FACP) pairs student-athletes with distinguished faculty mentors. These faculty mentors can assist student-athletes in a variety of areas including academic assistance, major advisement, and career networking.

**University Honors Program**

The University Honors Program is located in Library and Academic Technology Services, Room 309. Students should visit www.csulb.edu/uhp for more information or call the Director, Professor Tim Caron, or David Jackson at (562) 985-4706 to request a brochure and an application.

The University Honors Program requires no extra coursework and includes small discussion classes with students who share similar interests and abilities; personalized academic advisement and guidance each semester; opportunities for a distinguished undergraduate record as one of fewer than 400 honors students on campus; professors’ profiles of each student’s individual performance placed in a file for job and graduate school applications; and the opportunity to do an undergraduate thesis project in the area of the student’s major. It is possible to graduate in four years and to be recognized at graduation as having fulfilled all the requirements of the Honors Program.

Students with SAT scores of 1600 or above and a high school GPA of 3.3 or above, or with a college GPA of 3.2 or above who still need 21 units of General Education are eligible. Interested students are urged to apply for an interview with the Director of the program.

**Student Academic Support Services**

CSULB believes that ALL students are capable of achieving academic success and thus provides a broad range of educational and student support services to assist them in their academic endeavors. Faculty and professional staff from all areas of the university work together to assist students in reaching their academic potential. The following programs complement and support classroom instruction.

**Career Development Center**

The Career Development Center is located in Brozman Hall, Room 250. For information, call (562) 985-4151, log onto http://careers.csulb.edu, or stop by the office.

The Career Development Center provides resources and strategies for choosing a college major, developing career plans, finding internships and full-time jobs and making successful career transitions. Career decision-making facilitates a student’s definition of his/her personal career goals and objectives based on an understanding of one’s self and the world of work. The Center provides students with the most current career data and information delivery systems.

**Career Planning, Selecting a Major, and Job Search**

Career counselors assist students in exploring career and academic major options and in developing effective job seeking skills through one-on-one counseling and workshops. Counselors also provide assistance with résumé writing, interviewing techniques, job search techniques and other...
facets of the job search process including such topics as networking, accepting or rejecting a job offer, and negotiating a salary.

Once a student has carefully assessed his/her interests, skills, and values, the next step is to discover what professions might best suit them—that is, what major might lead to their desired career path. Career exploration does not entail making one, untenable decision, but it is instead a process that will open up several possible pathways. The Career Development Center provides individual counseling sessions designed to assist students along every step of the career planning process. Additionally, the Career Resource Library contains information about hundreds of career-related topics including choosing a major, internships, résumé writing, job market trends, international jobs, interviewing, job search, employers, and graduate school.

The Career Development Center receives thousands of job listings each year for positions relating to majors in the Colleges of Business, Education, Engineering, Liberal Arts, Natural Sciences and Mathematics, and the Arts. BeachLINK provides users with the ability to search and apply for full-time and part-time jobs, internships and on-campus interview opportunities 24 hours a day, 7 days a week.

The Center also offers the On-Campus Interview Program for graduating seniors and graduate students. Through the OCI program, employers visit the campus each year to conduct interviews. The employment opportunities in this program are generally in the areas of accounting, banking, computer science, engineering, finance, government, general management training, insurance, retail management, sales, and marketing.

Career fairs provide excellent opportunities for students to meet representatives from the companies in their industries of choice and establish a network of contacts. Career Counselors help students research the employers beforehand and provide tips so they are prepared to engage recruiters effectively.

**Internship Program**

A College degree will give you a foundation of knowledge for tomorrow’s work environment, but how do you successfully apply that knowledge? An Internship not only provides the opportunity for practical application of knowledge, but also allows you to develop self-awareness of your strengths, weaknesses, maturity, professionalism, values and ethics.

Internships provide a bridge between classroom learning and practical, real-world experience. An internship is a period of guided work in an employment field, often related to your major, career interest, or chosen career goals. An internship is a partnership between students, employers, and educators. Internships may take place in varied settings, including large corporations, small businesses, community service agencies, and others.

The Career Development Center serves as a resource for students seeking general internship information and advising and maintains an updated listing of internships that have been approved for academic credit. You may access these listings on BeachLink, CSULB’s on-line job and internship posting board, via the Career Development Center Web site at http://careers.csulb.edu. Internships are available in the local area, across the country, and in various international locales.

The Career Development Center Internship Program requires all participating students to enroll in an internship course for academic credit. These internships courses can be a valuable addition to your academic course work, by combining your internship placement with academic guidance on your experiences guided by experienced faculty. The following internship courses are available to students for elective credit (please be sure to check with your college or department for specific enrollment requirements):

- College of Business Administration: CBA 492
- College of Education: EDP 492 (open to all majors)
- College of Arts: FEA 492

In addition to the Career Development Center Internship Program, many academic departments offer internship courses. Students are encouraged to contact their undergraduate advisor and/or internship advisor from the department for more information.

The Internship Program Office is located in Baranoff Hall 250, Call (562) 985-8463 or e-mail intmca@csulb.edu for further information.

**Careers and Disabilities**

Careers and Disabilities is a Career Development Center program designed to help students with disabilities meet the challenges of career planning and job placement. A student with a visual, hearing or speech impairment, a learning disability or limited mobility can learn strategies in this program that will help build bridges to meaningful employment. For information about Careers and Disabilities, call (562) 985-8468.

**Center for Community Engagement**

The Center for Community Engagement (CCE) is located in the Academic Services Building (East Library). For information call (562) 985-7131, log onto www.csulb.edu/cce or stop by the office.

The CCE plays a critical role in helping CSULB achieve its Mission and Envisioned Future to be an outstanding teaching-intensive, research-driven university that emphasizes student engagement, scholarly and creative achievement, civic participation, and global perspectives. The CCE facilitates connections between the university and the community with community-based internships, service-learning, community-based research, and engagement initiatives to enrich campus-community experiences and strengthen community capacity. The mission of the CCE is to engage the university and community in creating a just and civil society where every member functions as an agent of social change. The CCE achieves this by serving as a facilitative partner and resource for faculty & staff, students, and community members in strengthening community capacity, building social and political capital, enriching the educational experience of students, and facilitating shared community-based research through the coordination of civic engagement, effective service learning, and community collaborations.
The CCE implements its mission through partnerships with three Alliances focusing on education, community, and students. These partnerships revolve around three key areas: Community Services Learning, Community-Based Research, and Engagement Initiatives.

Disadvantaged Student Services

Disadvantaged Student Services (DSS) is located in Brotman Hall 270. Call (562) 985-5401 or visit www.csulb.edu/dss for information.

DSS provides appropriate services and accommodations for students with disabilities, including registration assistance, note-taking, sign-language interpreting, reading, test proctoring, academic advising and scholarship information.

The High Tech Center (HTC) provides computer support services for students with disabilities and maintains a consultant relationship with faculty and staff. The HTC staff can provide one-on-one training and small group demonstration sessions for students, faculty and staff members to develop their knowledge about and skills in the use of adaptive technology and access devices. For students who have a print disability, the HTC staff will assist the student in acquiring accessible instructional materials in a format the student can use — for example, Braille, electronic text, or large print. Students who are required to take compulsory exams such as the writing proficiency exam, ELM/CPT, GRE, MSAT, LSAT, etcetera, and need accommodations for the exam, can arrange their accommodations at the HTC in LA 5-173. The Stephen Benson Learning Disability Program provides support services for students with learning disabilities. Graduate counselors within the program provide disability related support services for the academic and personal needs of students identified with learning disabilities. Staff, trained in the assessment for learning disabilities, are available to provide prospective students testing and evaluation for specific learning disabilities. The WorkAbility IV Program, in conjunction with the Career Development Center, provides career planning, placement and job search assistance. Call (562) 985-8038 for more information.

Clients of the Department of Rehabilitation may call DSS to verify the receipt of authorization for tuition and parking payment at this office. DSS also assists with parking for the disabled.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. Students with disabilities, however, may request to enroll in a unit load commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 8 units for graduates. Such requests must be made to DSS prior to each semester affected. If approved, the student will be entitled to all benefits, services and activities governed by the University accorded to full-time students. Eligibility for benefits, services and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

Educational Equity Services

The Office of Educational Equity Services (EES) assists in the admission and retention of first generation college students and academically and economically disadvantaged students some of whom might not otherwise be enrolled in the University. Programs currently under EES include the College Assistance Migrant Program (CAMP), and the federally sponsored TRIO programs, Educational Opportunity Center, Educational Information Services/Talent Search, Student Support Services Program, McNair Scholars Program and Upward Bound.

College Assistance Migrant Program (CAMP)

The CAMP office is located at Liberal Arts 3 Room 202 and is open from 8:00 a.m. to 6:00 p.m., Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 985-2006 or FAX (562) 985-2003.

The College Assistance Migrant Program (CAMP) is designed to serve students who themselves or whose immediate family are migrant or seasonal farm workers. Work may include production, transportation or packaging of crops, dairy products, poultry, livestock, cultivation or harvesting of trees (nurseries), or fish farming. The goal of CAMP is to provide outreach and recruitment services to eligible students by assisting them in completing their admissions and financial aid applications. Also offered are parent workshops on motivating their children to enroll in and graduate from college.

The ultimate aim of CAMP is to provide migrant students with the necessary support services to help them transition easily during the first year in college. The project provides a student centered array of academic and personal support services geared toward enhancing each student's learning opportunities and quality of life. Also provided are tutoring, academic skill building instruction; peer and faculty/staff mentoring; assistance with registration; a grant if eligible; exposure to cultural events; and academic programs not usually available to migrant youth.

Educational Opportunity Center

The Educational Opportunity Center is located at the Career Transition Center, 3447 Atlantic Avenue 2nd Floor, Long Beach California 90807 (cross streets Atlantic Avenue and East Wardlow Road). Office hours are 8:00 a.m. to 6:00 p.m. Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Friday. The telephone number is (562) 570-3710 and fax (562) 570-3713.

The Educational Opportunity Center (EOC) is a federally funded program designed to identify and assist low income, first-generation adult participants who want to enter, re-enter or continue in a program of postsecondary education. Adults enrolled or interested in enrolling in a high school diploma or GED program are encouraged to seek services.

The mission of the EOC is to assist program participants reach their educational and career goals by providing quality information, advisement and services. EOC provides free services to individuals who meet the program criteria.

Participants are required to be at least 19 years old; a U.S. citizen, national or permanent resident; reside in one of the target communities: Artesia, Compton, Hawaiian Gardens, Long Beach, Lynwood, Norwalk, Paramount, Willowbrook and Wilmington; attend school or receive services from a site in the target area, and have a need for one or more of the program services.
The EOC provides academic advisement, career advisement, financial aid information, postsecondary advisement, assistance in completing college admissions, testing and financial aid applications. The program also conducts college advisement and financial aid workshops.

**Educational Talent Search**

Educational Talent Search is a federally funded program housed at California State University, Long Beach. Its purpose is to identify, select, and assist low-income, first-generation individuals between the ages of 12 to 17 to continue in and graduate from secondary school and enroll in a postsecondary educational program. Services offered include postsecondary admission and application assistance, financial aid information and application assistance, academic advising, career exploration and planning, cultural and college field trips.

**McNAIR Scholars Program**

The McNAIR Scholars Program provides academic support services, research opportunities and involvement in scholarly activities for 25 low-income, first-generation college students to increase their likelihood of enrollment and success in doctoral programs. The program consists of the Summer Research Internship, which concentrates on a research project to be conducted by the McNAIR Scholar with the guidance of his/her faculty mentor, and the Academic Year Scholarly Experience to provide continuation of the summer research project; academic support and assistance in seeking admission to graduate programs; and assistance in obtaining graduate financial aid. The Scholars’ papers are collected in a publication, the CSULB McNAIR Journal.

**Summer Bridge Program**

The Summer Bridge Program provides an intensive six-week residential summer experience for selected first-time freshmen EOP students entering for the fall semester. The program provides English and mathematics instruction, tutoring, orientation to the campus, study skills workshops and enrichment activities to prepare students for the challenges of college. Participants are required to reside in campus housing for the full six weeks and must successfully complete the program to enroll at the university.

**Upward Bound Program**

The Upward Bound Program is a federally funded college preparatory program designed to assist first generation, low-income high school students who have the potential to pursue postsecondary education. The goal is to assist participants in their efforts to complete high school successfully and obtain a college education.

The program provides summer and weekend academic instruction, tutoring, academic, personal and career counseling, cultural activities and college application and admissions assistance.

**Learning Assistance Center**

Located in the Horn Center, Room 104, the Learning Assistance Center is an all-university academic support service that helps students identify and develop effective learning approaches for their courses. The LAC offers the following services:

- The Learning Skills program offers individual appointments and workshops to help students strengthen a range of study skills and learning strategies including Reading Textbooks Critically, Listening and Note-taking Skills, Time Management, Test-Taking Strategies, Memory Techniques, Learning Styles, Preparing Research/Term Papers, and Preparing for Final Exams. Those preparing for such standardized tests as the GMAT, GRE, and LSAT may combine software or other study tools with individual learning strategy sessions. At faculty request, Learning Skill topics can be tailored to individual courses and presented in class. Workshops are also scheduled by student organizations and other groups.

- The Supplemental Instruction (SI) program offers SI groups to support instruction in courses known to be difficult and SI classes in which students enroll simultaneously in a GE course and the SI class. SI classes and groups address both the comprehension and mastery of course content and the development of study skills that students need to be successful. Sessions are led by advanced students who know the discipline well and have demonstrated the associated skills. Active participants typically perform much better (one letter grade higher) in the target course than peers who attempt it independently.

- The Tutorial Services Program supports a wide range of subjects and specific courses through scheduled drop-in, online, and individual appointment tutoring. Each semester’s tutoring schedule is posted online. Students in academic support programs such as EOP, SSSP, and DSS should contact program advisors regarding tutoring resources.

- The ESL Support Services program is designed for students whose primary language is not English. The International Students’ Conversation Lab provides extensive opportunities to develop English fluency, work on academic language or course assignments and to discuss cultural experiences. Students who need to increase their English language skills to fulfill the Graduation Writing Assessment Requirement (GWAR) may obtain weekly ESL Specialist appointments when referred by the GWAR/WPE Advisor. These services are free to all students.

- To schedule appointments, inquire about walk-in hours, or seek additional information contact the LAC at (562) 985-5350 or www.csulb.lac.

**Prebaccalaureate Advising Support Services**

Prebaccalaureate Advising Support Services (PASS) is located in Academic Services, Room 118. The telephone number is (562) 985-7895. Prebaccalaureate Advising Support Services (PASS) provides advising as well as support to students in course placement and in developing the composition and mathematics skills needed to prepare them for the required Freshman-level composition and mathematics courses. PASS does this by providing a combination of services.

Placement: To receive information about placement into appropriate-level courses and to maintain compliance with Executive Order 065, PASS monitors course placement by advising students into the following review/developmental courses: ASAM 1, AFRS 1, CHLS 1, ENGL 1, ALP/ALI 145, ALP/ALI 150, MAPB 1, and/or MAPB 7 or 11. If placed into these courses, students must complete the prebaccalaureate requirement within 2 semesters.
Tracking: PASS monitors students' progress through the sequence of prebaccalaureate writing skills and mathematics courses required for entrance into Freshmen-level composition and/or mathematics courses. The goal is to be sure that students are making progress and completing the prebaccalaureate classes as stated in Executive Order 665.

Intervention: If students have difficulty in any course while enrolled in the review/developmental courses, PASS counselors can help students by recommending referrals as necessary such as tutoring, diagnostic testing, and learning skills strategies.

Partners for Success — Faculty Mentoring Students Program

The Partners for Success Office is located in the University Student Union (USU-294). The telephone number is (562) 985-7652. Interested students may apply at www.csulb.edu/partners.

For a variety of reasons, many first-generation students — students with parents who do not possess a bachelor's degree — find it challenging to complete their college education. In an effort to retain and graduate these students, a program co-sponsored by Academic Affairs and the Division of Student Services is offered to pair students with faculty members who serve in the capacity of mentors. A mentor, in this case, is an experienced professor who acts as a friendly advisor, helping students become comfortable and successful in the university environment.

Student Transition and Retention Services (STARS)

A range of programs, services, and opportunities to assist new and continuing students are offered through Student Transition and Retention Services (STARS). STARS oversees Student Orientation, Advising and Registration (SOAR), which is the university-required, new student orientation workshop. It is also responsible for continuing orientation, retention programming, and leadership development opportunities such as Life Guard Stations, Student Services Festival, Majors Fair, and Operation: Return to the Beach.

STARS is located in Foundation Building, Suite 100 and can be contacted at (562) 985-5515, starr@csulb.edu, or www.csulb.edu/starr.

Study Abroad Programs

The Study Abroad Office is located in the Center for International Education in Brotman Hall, Room 201.

The Study Abroad office assists CSULB students and faculty to select and prepare for an educational experience in another country. The office administers exchange programs throughout the world, coordinates the London semester program, provides advising services, maintains overseas opportunities resource library, and sponsors special programs such as pre-departure workshops, information seminars, and speakers from off-campus.

Study abroad options include short-term programs (summer and winter), semester programs, and year-long programs. International internships, volunteer, and work experiences are also available. Students may be eligible for financial aid, loans, or scholarships to assist them with their study abroad experience.

International Student Services

International Student Services is located in the Center for International Education in Brotman Hall, Room 201.

International Student Services serves some 1,300 non-immigrant students, representing over 90 countries, by assisting them with their academic, personal, and cultural growth and development during their years at CSULB. This is accomplished through professional counseling and advising; assistance with Department of Homeland Security (DHS) regulations, paperwork processing, and documentation; student orientation activities; and assistance with registration. The ISS staff also serves as the University liaison with consulates, embassies, businesses, foundations, and community organizations concerning international students at CSULB.

In addition, the ISS staff works with international students, faculty, and members of the community to encourage and support international programs. International students are encouraged to participate in University and community programs. During the academic year, the ISS staff works with the International Student Association to plan and organize cross-cultural events such as the Annual International Dinner and Culture Show and other major events. These groups add a special dimension to student life on campus by hosting various cultural events and providing leadership training opportunities for their members.

CSU International Programs (IP) System-wide

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 20 countries, International Programs also offers a wide selection of study locales and learning environments.

The affiliated institutions are:

- Australia: Griffith University, Macquarie University, Queensland University of Technology, University of Queensland, University of Western Sydney, Victoria University
- Canada: The universities of Province of Quebec including: Bishop's University, Concordia University, McGill University, Université de Montréal, Université Laval, Université du Québec system
- Chile: Pontificia Universidad Católica de Chile (Santiago), University of Concepción, Peking University (Beijing)
- Denmark: Denmark's International Study Program (international education affiliate of University of Copenhagen)

Information on academic course offerings available at those locations is in the International Programs Catalog which may be obtained from the Study Abroad Office in the Center for International Education (BH 201) or by writing to The California State University International Programs, 401 Golden Shore, Long Beach, CA 90802-4210 (562) 985-4790.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Financial aid, with the exception of Federal Work Study, is available to qualified students.

To qualify for admission to international Programs, students must have upper-division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative GPA of 2.75 or 3.00, depending on the program for which they apply, for all college work completed at the time of application, and have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide selection committee.

Additional information and application materials may be obtained from the CSULB Center for International Education by calling (562) 985-8420 or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us on the World Wide Web at: www.csulb.edu/ouab/ouab1.

Applications for the 2009-2010 academic year overseas must be submitted by February 1, 2009 (May 1 for Australia and New Zealand).

Writer's Resource Lab

The Writer's Resource Lab provides individualized instruction to help CSULB students develop their writing abilities. For specific information or to make a tutoring appointment, please stop by the Writer's Resource Lab in LB 266 or call (562) 985-4392.

At the Writer's Resource Lab, students can consult with friendly, knowledgeable tutors in order to become more confident with the process of writing.

Students do not need to be taking a writing course to use the services; they are available to any currently enrolled CSULB student. Instructional activities include the following:

1. One-on-one tutoring appointments;
2. Personalized consultation for students preparing to take (or retake) CSULB's Writing Proficiency Exam;
3. Intensive language acquisition instruction tailored to the needs of students whose first language is not English.

In addition, students are welcome to drop by and use the library of writing reference materials. Other services provided by the Writer's Resource Lab include group tutorial sessions and workshops on various writing issues.

Campus Services

A wide range of campus services and co-curricular activities aim to ensure that student needs are met as well as to enhance their college experience. Students are encouraged to take advantage of these services.

Counseling and Psychological Services

Counseling and Psychological Services (CAPS) offers an array of services to help students achieve a satisfactory and meaningful academic experience. CAPS is located in Brodman Hall 226. The telephone number is (562) 985-4001. The CAPS web address is: www.csulb.edu/caps.

Staff members of CAPS are trained at the doctoral level in counseling psychology and student development services. Staff members are skilled in assisting students to translate their individual personal development, career development, and previous educational experience into optimal academic achievement and collegiate life experience.

Students are seen at CAPS by an intake counselor. Psychologists are assigned to students based on the type of problem expressed and/or identified in the initial interview. Most individual counseling is short-term and lasts three to five sessions. The staff is also trained to address complex types of career and personal problems that may require more extensive counseling. Crisis intervention services are available on an immediate basis.
An extensive group counseling program exists for specific kinds of counseling issues such as stress management or interpersonal skill development. The mini-workshops acquaint students with various life skills such as assertiveness and time management. CAPS is especially dedicated to working with students from diverse backgrounds.

Isabel Patterson Child Development Center

The Isabel Patterson Child Development Center is located on campus at 5700 Atherton Street. For information call (562) 985-5333 8:00 a.m. - 5:00 p.m.

In January of 1973, the University and the Associated Students opened the Isabel Patterson Child Development Center to provide quality child care services to the University and community. The facility was made possible by the generous donation of Isabel Patterson, a CSULB alumnus.

The child care services provided enable a student parent to attend classes at the University. Following the registration of children of student parents, the children of University staff, faculty, administration, alumni and then community are offered these services as space allows.

Child care services are available for children six months to 2 1/2 years in the Infant/Toddler Program; 2 1/2 to five years in the Pre-school Program; and Kindergarten through second grade in the School-age Program.

The environment of the Center allows children to move freely and choose from a variety of activities that include but are not limited to reading, music, water and sand play, art, science, cognitive games and dramatic play. Some of the program’s goals are to help children be responsible and able to solve their problems, to be inner-directed, to be aware of alternatives and able to make choices, and to be free from gender and other stereotypes. The program includes a family-style breakfast, lunch and afternoon snack.

The Center employs early childhood education care and development professionals. The part-time teaching staff is composed of CSULB students who are required to participate in the Center’s comprehensive training program. The Center is accredited by the National Association for the Education of Young Children.

University Library

The mission of the University Library (www.csulb.edu/lib) is to provide students, faculty, staff, and community members the information resources they need for study, research, enrichment, and recreation. These resources are contained in collections that are both physical and virtual, print and digital. They include books, journals, government documents, maps, images and sound files. The library’s online catalog, COAST (http://coast.csulb.edu), provides easy access and discovery.

The Special Collections Department is home to an outstanding collection of rare, significant, or unusual books and manuscripts, correspondence, art prints, and photography. The library participates in LINK+, a consortium of over 40 academic, public, and corporate libraries in California and Nevada; their combined collections offer over 7 million unique titles to CSULB borrowers. Subscriptions to many thousands of web-based reference sources and full-text journals, along with a rapidly growing collection of electronic books make it possible to deliver a great deal of research information to the scholar’s desktop at any time of the day or night. The Spidel Technology Center, located on the first floor, is the largest and best-utilized student computing facility on campus.

In fulfilling their duties at a wide range of service points within the building, library staff and librarians show a commitment to efficient, helpful service. Library faculty guide students through the process of identifying, retrieving, organizing, evaluating, and synthesizing information, a critical skill in today’s society. For many students the first introduction to library services at CSULB is through the required library component of University 100, designed to give new students exposure to the basic concepts of information literacy. Librarians also provide a variety of workshops, as well as individual in-depth consultation focusing on a specific research topic or project.

The University Library offers adaptive devices to make print and electronic resources accessible to the disabled, and it works closely with Disabled Student Services to insure that equipment, facilities, and collections are responsive to those with special needs.

Student Health Services

Student Health Services (SHS) is the campus health center providing medical services, preventive health and health education programs. A highly trained and experienced staff of physicians, nurses and other health care professionals are dedicated to student health and well being. The SHS is located on State University Drive and Morrill Way, between Brotman Hall and the residence halls. The SHS is accredited by the Association for Ambulatory Health Care, and is a member of the American College Health Association. Web site: www.csulb.edu/ths.

Important phone numbers are: the SHS Switchboard, (562) 985-4771, and Appointment Desk, (562) 985-1638. Medical emergencies arising on campus are directed to University Police 9-1-1.

Eligibility for Services

All regularly enrolled students registered for the current semester are eligible for services by paying the $45 mandatory Health Fee at registration. Continuing students who take two consecutive semesters of educational leave can receive services by paying the Health Fee at Student Health Services, providing they are returning the following semester. Students enrolled in University College and Extension Services (UCES) can receive services for $15.00 per visit while classes are in session.

Clinical Services

Outpatient medical care is provided for acute injury and illness. Long term or overnight care is not provided. Services include Women’s Health, Men’s Health, and some specialties. Provisions are made for outside referrals for care beyond the scope of SHS. X-ray, clinical laboratory, and pharmacy are available. Visits to the SHS, in house laboratory tests, and x-rays are provided without charge. Laboratory tests sent to outside reference labs and pharmacy medications are available at low cost. The SHS is open year round. Hours are 8:00 a.m. to 6:00 p.m. Monday, Tuesday and Thursday; 10:00 a.m. to 7:00 p.m. Wednesday; and 8:00 a.m. to 12:00 noon Friday.
Health Resource Center

The Health Resource Center (HRC) is located in the Student Health Services (SHS) room 250. The HRC provides health education and support to students with a variety of programs and services. Programs include the Alcohol, Tobacco & Drug Abuse Prevention Workshop, the Nutrition Counseling, HIV Testing and Counseling Workshop, and the Sexual Health Awareness Workshop. Services include a computerized health resource service, the Health Beat Newsletter, multi-media health information, and health promotion campus outreach activities. Volunteer and internship opportunities are available. For more information call (562) 985-4609 or visit the Web site at www.csulb.edu/hrc.

Immunization Requirement Clearance

Students enrolled in a California school for the seventh grade or higher on or after July 1, 1990 will have satisfied the requirements for Hepatitis B and Measles/Rubella. Hepatitis B is required of students who are 18 and younger on the first day of class. Measles/Rubella is required of all students born after January 1, 1957. Clearance is obtained at the SHS by showing proof of immunity using medical records or by receiving immunizations (available at the SHS). Medical and religious exemptions are available. For more information see Admission to the University. Immunization Requirements section. Students may also phone the SHS at (562) 985-4771, call the Immunization Hotline at (562) 985-5411, or visit the Web site www.csulb.edu/shs and click on immunization information.

Medical Insurance

Medical insurance is strongly recommended. The Associated Students Inc. sponsors an individual health insurance plan available to all enrolled students. For more information contact Associated Students Business Office, (562) 985-8311, or visit the plan site www.chickenmg.com/schools/csulb/rcsau/ps.

Office of University Ombuds

The Office of University Ombuds is located in the Foundation Building, Suite 140. The telephone number is (562) 985-5603. The office is open for appointments Monday through Friday, 8:30 a.m. to 12:00 noon and 1:00 p.m. to 4:30 p.m. Special arrangements for another meeting time can be made upon request. For more information, e-mail the University Ombuds (ombuds@csulb.edu) or visit the Web site (www.csulb.edu/ombuds).

The Office of University Ombuds is an independent, neutral resource for informal problem-solving on campus. The Office serves all members of the campus community—students, alumni, faculty, staff, administrators, emeriti and retirees. The office answers inquiries about the University, provides a safe place for discussing sensitive issues and identifying options, and facilitates conversations and mediations to resolve conflicts. In addition, the Office offers educational programs and workshops, recommends policy changes to remedy systemic problems, and collaborates with others to improve campus life and strengthen community. The Office of University Ombuds maintains confidentiality in accordance with the Code of Ethics of the International Ombudsman Association, the limits of the law, and our organizational context.

The Ombuds does not participate in formal litigation, formal disciplinary actions, formal complaints, or grievance hearings. The services provided by the Office of University Ombuds do not compromise or replace university policies or procedures nor do they interfere with the right of a person to pursue the various formal options that are available. Discussion with the University Ombuds does not constitute notice to the institution with regard to grievances and formal complaints.

Veterans' Services

The Veterans' Services office coordinates all veterans' financial benefits including initiation of federal and state benefits, maintenance of veterans' status with the Veterans' Administration and continuation of benefits through enrollment certification. The office is supervised by the Career Development Center and is located in Brozman Hall Room 20.

Student Life and Resources

College Organizations

Many academic departments have a student departmental association composed of students in that discipline. In addition, there are other acdemically-related organizations and discipline-based honorary societies. Representatives from each departmental association work together on a college student council for each of the seven colleges. The organizations promote interaction between faculty and students by sponsoring speakers, seminars, social gatherings and other activities related to their disciplines. Students also have the opportunity to provide input regarding their educational experiences to their faculty and departmental chairs, as well as to their deans via the departmental associations and student councils, respectively. SLD staff members play a key role in coordinating major events such as Engineering Day, Health and Human Services Career Month, the Awareness Festival, College of the Arts Week, and the Nobel Laureate Lecture.

Leadership Academy

The Leadership Academy is a series of workshops focused on cultivating leadership excellence. Its purpose is to help students improve their leadership potential and to develop practical application to increase their understanding of leadership skills.

Lois J. Swanson Leadership Resource Center

The Leadership Resource Center is located on the third floor of the University Student Union, Room 314. To contact the LRC, call (562) 985-1936.

The vision of the Lois J. Swanson Leadership Resource Center (LRC) is to cultivate leadership excellence. Its purpose is to prepare CSULB students to be the world's best leaders and maximize leadership potential with a commitment to serve others. The LRC provides a leadership library, resources, and a boardroom. The library holds books, videos, tapes and materials for icebreakers and interactive activities. Resources include a series of seminars to enhance leadership skills, increase self-confidence and develop teamwork. The LRC offers consultations.
for classroom facilitation, conferences and customized workshops. The LRC "Dr. Kathryn E. Goddard Board Room" can be reserved for leadership-related meetings.

Multicultural Center

The Multicultural Center is located in Faculty Office Building 3 (FO3), Room 003 and is open from 9:00-5:00, Monday through Friday. For more information, the Center's Web site is www.csulb.edu/centers/mcc or call (562) 985-8150. The center invites comments, ideas, and input to be sent to mcc@csulb.edu.

The mission of the Multicultural Center is to contribute to the creation of a campus environment which respects and supports cultural, ethnic, and racial diversity. The center is an educational resource center which serves as a vehicle for the expression of the needs and concerns of CSULB's increasing diverse campus community.

The objectives and activities of the center include its signature project S.T.A.R. (Students Talk About Race), which is offered every semester and trains students in cross-cultural communication and commits them to 8 weeks as facilitators at local middle and high school classrooms; diversity workshops, lectures, and forums; an extensive up-to-date library of journals, magazines, books, videos, some DVDs, and audio tapes; archived newspaper articles, an art gallery celebrating the center's theme of cultural diversity by well-known and student artists; and student internship opportunities. The center's resources are available for students, faculty, staff and community members.

Student-Run Resource Centers

There are five student-run resource centers on campus. These venues are for affiliated student organizations to conduct program planning, peer mentoring, officer meetings, and post information regarding scholarships, service, and internship opportunities.

- American Indian Student Study Center, FO4-282, (562) 985-4813
- Asian Pacific Student Resource Center, FO4-277
- Black Student Cultural Center, FO4-274, (562) 985-502
- Raza Resource Center, FO4-263, (562) 985-5223
- Lesbian/Gay/Bisexual/Transgender Resource Center (LGBTRC), FO4-165, (562) 985-4585 (general information), (562) 985-4389 (event line) or e-mail lgbtrc@hotmail.com

University Interfaith Center

The University Interfaith Center (UIC) is located in the University Student Union, room 103. For information on programs and resources call (562) 985-4369.

The UIC is an association of 12 faith traditions serving the educational community of CSULB. Member groups represent individual faiths while respecting the diversity of religious traditions and the pluralistic nature of the university. Membership in the association is extended to faith groups which choose to work cooperatively, respecting the integrity of one another's religious traditions. All of the services of the University Interfaith Center are available to the entire campus community—students, faculty, and staff.

The UIC aims to enhance the educational experience by encouraging students, faculty, and staff in their pursuit of spiritual growth, community building, faith development and personal values. It offers pastoral care/spiritual support, educational programs, student community, worship services, service projects, conferences/retreats and referral information. It also provides a library on topics of religion and a comfortable lounge area where students can meet, share a meal or study.

Women's Resource Center

The Women's Resource Center supports and facilitates the educational, professional and personal success of campus women through educational programs, campus and community resource connections, peer support assistance, and a welcoming lounge.

The WRC offers women's support, affinity and networking groups, and maintains an extensive list of referrals to campus and community services. The WRC also organizes and coordinates a sexual assault prevention education program with information and presentations for classrooms and organizations. Educational events presented throughout the school year are often collaborative projects with other academic and student services programs. The seminars, workshops and/or conferences range from the more current theoretical women's issues to practical concerns of university women.

Finally, the Lounge is a comfortable space where students relax, study, hold meetings, or visit with friends. It includes a small hospitality area where students can drink a cup of coffee or refrigerate their lunch.

The WRC, located in Liberal Arts 3-105, is open 9:00 a.m. to 5:00 p.m. Monday through Friday and two evenings until 8:30 p.m. Its services are free and available to women and men. For further information, call (562) 985-8087/8576.

Student Government

The Associated Students Government Offices are located in suite 311 of the University Student Union. For further information, stop by or call (562) 985-5241.

The quality of student life at CSULB is largely determined by students themselves. The time-honored tradition of student self-governance affords students a remarkable level of autonomy and provides a wealth of opportunities for developing leadership and management skills that can be as valuable as any classroom learning experience. Through self-governance, students learn how to make good decisions, how to motivate others to work toward a common goal, and how to manage budgets and other critical resources.

Student government at The Beach is organized under the Associated Students, a California nonprofit corporation owned and operated by the students of CSULB. Every student becomes a member and "shareholder" of the Associated Students upon registration, and all are encouraged to get involved in Associated Student activities. In addition to student government, the Associated Students also operates and manages the University Student Union, the Isabel Paterson Child Development Center, the ASI Recycling Center, the Siouxsie House, the Beach Pride Center, K-Beach radio, the Long Beach Union newspaper, and the Gold Mine Yearbook, and the Intramural and Sports and Wellness Program.
ACADEMIC INFORMATION AND REGULATIONS

Frequently Asked Questions
Students ask many of the following questions about the processes and rules of CSULB. Successful students know the answers to these frequently asked questions. Please read them carefully. Knowing those answers can help you avoid pitfalls during your first semester on campus. For further information, see this section of the Catalog or contact the Academic Advising Center at (562) 985-4837.

1. **Why is it critical that I check e-mail from CSULB?** It is important to check your e-mail regularly since this is the primary means by which you will receive important information from the university (e.g., deadlines for adding and dropping classes, your registration appointment date).

2. **How do I tell the university about a change in my e-mail address or mailing address?** You can use MyCSULB to change your e-mail address, indicate the e-mail address that you prefer to use, or change your mailing address. Click on "Personal Profile" to view your current information and to make changes.

3. **Why should I check my official class schedule at the beginning of each semester and again after two or three weeks?** It is important to make sure that you are officially enrolled in every class you are attending, and not enrolled in any class you are not attending. Remember that an instructor can give you permission to add a class, but only you can officially enroll yourself in a class (or drop yourself from a class).

4. **Why is it important that I personally drop classes that I have registered for but am no longer attending?** Instructors do not have the responsibility to drop students. Students must drop classes they no longer want or never attended (using MyCSULB) up to and during the first two (2) weeks of the semester.

Beginning the third week, students must use the official withdrawal form to change their schedule. (See the section on Withdrawals for the rules that apply to withdrawal after the third week of classes.) Official withdrawal is indicated on the transcript with the symbol "W." This designation does not affect grade point average (GPA). Students who fail to withdraw officially within the established deadline receive a "WU" symbol (unauthorized withdrawal).

In the calculation of the GPA, a "WU" is counted as an "F" grade.

5. **Can freshmen/sophomore students take upper-division (300-499) classes?** University policy prohibits students with under 30 units from taking upper-division courses without permission of the instructor.

6. **What can I do if I get a "D" or "F" or "WU" in a course?** The University has a policy that allows undergraduates to repeat a course in which they earned a "D," "F," or "WU." If the second grade is a "C" or better, the second grade will be used to calculate your GPA. Both grades remain on the transcript, but the first one is "deleted" from the GPA calculation. This can only be done once per course at CSULB. If you don't earn a "C" or better on the second try, all grades will be counted. For further details, refer to the "Repetition of Courses for Satisfactory Grade" in this section of the Catalog.

Academic Calendar
California State University, Long Beach operates on a semester system, which is supplemented by a state-supported summer term and a fee-supported winter session. Normally, fall semester classes begin in late August or early September. The last day of instruction usually occurs midway in December; this allows for a week of final examinations prior to the winter recess, which begins about December 20. The spring semester usually begins in the last week of January and ends in mid-May, in time for a week of final examinations and the week of commencement exercises just before or after Memorial Day. The summer term, consisting of three overlapping six-week sessions, begins in June and through July and into late August.

Enrolling in Classes
Registration dates and detailed instructions can be found on the Enrollment Services website for each semester. Continuing students and newly admitted graduate students are sent a registration appointment date. Undergraduate students who are new to CSULB register when they attend the Student Orientation, Advising and Registration program (SOAR).

Students may enroll in classes via "MyCSULB" starting on the enrollment appointment day assigned by the University through the first two weeks of the fall and spring semesters. During the third week of the semester written permission on a Late Registration Request form is required from the instructor and a stamp of approval is required from the department. Late registration requests will be considered during the fourth week of instruction with the payment of a missed deadline fee.

Students receiving faculty or department "permission" to add classes via MyCSULB or who have been added to an instructor's wait list or roster must still complete the add procedures by the dates listed each semester. No request to add classes will be considered after the fourth week of the semester unless there is an approved technical error.

Note: Students must complete the procedures for official registration in classes. Instructors, advisors and departments cannot add students into classes.

Students are not permitted to attend any class for which they have not officially registered.

Registration Holds
Students may be prevented from registering because they have not met a university obligation. Students can view their own information (HOLDS) on MyCSULB.

Financial Holds
Students are personally responsible for making sure that registration fees and any other fees or charges are paid on time to CSULB, regardless of who funds the student's education.

54 • Academic Information and Regulations • 2009/2010 CSULB Catalog
These charges can include payment for items damaged, returned late, or returned, and can include course fees for some courses or activities.

Students can review their account balance at MyCSULB or by telephone, (562) 985-2500. Payment can be made at MyCSULB or at the Cashier’s Office, BH 148.

Students who have an unpaid balance will have a financial hold placed on their academic records until the balance is paid or a written release from the originating office is received by the Student Account Services Office. The hold restricts the student from receiving University services, including but not limited to registration, grades, and transcripts.

If the obligation continues to appear on the University reports, the student's name will be submitted to the Franchise Tax Board. In this case, the student or former student, permanently loses the privilege of submitting checks as payment for fees or services. (Acceptable methods of payment are cash, cashiers’ check or money order.) The State then has the authority to withhold amounts owed to the University from any tax refund to which the student may be entitled.

Other Holds

The following types of holds may appear. Students should contact the office listed for information about how to clear the hold.

- Failure to take a required test - Testing and Evaluation Services (562) 985-4006
- Remodelation hold - Pre-baccalaureate Advising and Support Services AS 14, (562) 985-7995
- Perkins Loans - Business Office, BH 155, (562) 985-5348
- Measles – Student Health Services, (562) 985-4771
- VISA hold (Foreign Clearance) – Center for International Education, BH 291, (562) 985-4106

Advising for Freshmen

CSULB is committed to offering our students the best possible first-year experience; therefore, we have established procedures which will ensure that all students receive accurate and timely academic advising. Advising is an opportunity for students to connect with their college or department advisor; faculty and staff to discuss future educational plans. Through this connection, students will be able to discuss future educational goals, review program options, and receive advice on course selection.

This connection is one of the most important steps to your future success at the Beach! We feel so strongly about ensuring you have advising as you prepare for your sophomore year, that we require all freshmen to participate in the program prior to registering.

In addition, CSULB advisors can assist in a variety of different ways by working with students to horizon interests; develop academic and career goals; identify major areas of academic interest; create realistic plans of study; increase decision-making skills; take responsibility for academic direction.

All entering freshmen have "advising holds" placed on their records for their first year and will not be able to change their schedules without consultation with an advisor. Mid-way through the semester, freshmen will receive information about the Mandatory Advising Program, a comprehensive advising session to prepare for the next semester course selections. The advising hold will be removed after the student attends the advising session.

Class Attendance

Students are expected to attend classes regularly. Classroom attendance is often one of the most necessary and important means of learning and in many classes is essential to the educational objectives of the course.

Faculty members must include their guidelines for assigning grades in the syllabus (as required by Policy Statement 04-05, Course Syllabi). The syllabus must make clear whether any portion of the grade is based on attendance and/or participation. It is the students' responsibility to make themselves aware of each faculty member's guidelines by carefully reading the syllabus.

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

Students may have a valid reason to miss a class. When any of the following reasons directly conflict with class meeting times, students are responsible for informing faculty members of the reason for the absence and for arranging to make up missed assignments, tests, quizzes, and class work as soon as this is possible. Excused absences include, but are not limited to:

1. Illness or injury to the student
2. Death, injury, or serious illness of an immediate family member of the student
3. Religious reasons (California Education Code section 48320)
4. Jury or government obligation
5. University sanctioned or approved activities (examples include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)

Faculty members are not obligated to consider other absences as excused. Faculty members may require students to provide documentation for excused absences.

There are numerous classes offered on campus where attendance is crucial since student participation is essential. Absence from these courses may impact the work and participation of other students. Students who anticipate extended or multiple absences during a particular semester should consult with their advisor and the faculty member before enrolling in any class to determine whether it will be possible to complete the requirements for the course. Students who realize after enrollment that they will have extended or multiple absences should consult with the faculty member to see whether it will be possible to complete the course requirements.

The earliest possible notification is preferred. In some circumstances, it may be possible for the student to notify the faculty member of anticipated absences (e.g., for religious reasons or for scheduled athletic events) during the first week of enrollment. Advance notification (minimum one week in advance) is required for the following absences:

1. Jury duty and other government obligation
2. Religious reasons
3. University sanctioned or approved activities
The California Education Code (section 89320) requires "each state university, in administering any test or examination, to permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed. This requirement shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship which could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution."

It is the responsibility of the student to make advance notification, contact the faculty member to make arrangements to make up any academic work that may be missed, submit assignments on time, and to make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.

If a student does not notify the faculty member one week in advance of the date of absences for these reasons (jury duty, governmental service, religious observances, or University sanctioned activities), the instructor is not required to adjust the class schedule or to allow for make up activities, tests, or exams. Students shall not, however, be penalized for excused absences when circumstances make it impossible to provide advance notice (e.g. student is engaged in a University sanctioned event such as a performance, tournament, or playoff which cannot be anticipated)

Students who expect to be absent from the University for any valid reason, and who have found it difficult to inform their instructors, should notify the academic department office. The department office shall notify the student's instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work missed.

In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor's option to assign alternative work. (PS 01-01)

Visitors to Classes

Only students registered for the class either as regular students or as auditors, the instructor, and invited guests of the instructor may attend classes at CSULB. Persons wishing to become guests of the instructor should seek the instructor's permission prior to the scheduled beginning of the class session.

Faculty Office Hours

The purpose of office hours is to provide opportunities for student-faculty interaction outside the classroom. Each instructional faculty member will hold one office hour per week for every class taught, up to a maximum of four hours. Faculty may account for up to one hour of this expectation through alternative forms of access such as availability by appointment or through e-mail. The faculty member's office hours, phone number, and email contact will be posted by the door and announced in the syllabus. (PS 02-10)

Cheating and Plagiarism

It is the policy of the faculty and administration to deal effectively with the student who practices cheating or plagiarism. These acts are fundamentally destructive of the process of education and the constant evaluation of a student's mastery over a subject. A University maintains respect and functions successfully within the larger community when its reputation is built on honesty. By the same token, each student benefits in helping to maintain the integrity of the University. This policy, therefore, provides for a variety of faculty actions including those which may lead to the assignment of a failing grade for a course and for administrative actions which may lead to dismissal from the University. This document is written with the intent to support the traditional values that students are on their honor to perform their academic duties in an ethical manner.

General

The following definitions of cheating and plagiarism shall apply to all work submitted by a student. Any change or refinement in the following definitions or applications of the definitions, necessitated by the nature of the work involved, shall be made by the faculty member or department desiring the change. Any change shall be announced, in writing, in the relevant classes before the work is assigned and a copy of the changes will be filed in the department office and in the Office of Judicial Affairs.

Definition of Plagiarism

Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one's own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived at through independent reasoning or logic or where the thought or idea is common knowledge. Acknowledgment of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, either in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions with rightfully belong to another; in written work, failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof, or close and longwinded paraphrasing of another's writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor. Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source, or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

Definition of Cheating

Cheating is defined as the act of obtaining or attempting to obtain or aiding another to obtain academic credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of cheating during an examination would include, but not be limited to the following: copying, either in part or in whole, from another test or examination; discussion of
answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an exam without the permission of the instructor; using or displaying notes, "cheat sheets," or other information or devices inappropriate to the prescribed test conditions, as when the test of competence includes a test of unassisted recall of information, skill, or procedure; allowing someone other than the officially enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures. It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

Faculty Responsibilities in Allegations of Cheating or Plagiarism

Before a faculty member charges a student with cheating or plagiarism, the faculty member should have reasonable evidence with respect thereto. Reasonable evidence includes documentary or other physical evidence, personal observation, or testimony. Prior cheating or plagiarism is not reasonable evidence. In order to establish facts of the student's knowledge or skill, the faculty member may ask the student to provide such additional demonstration of competency as the faculty member deems necessary to evaluate scholarship and academic performance. The faculty member must advise the student that a decision to provide an opportunity for such an additional demonstration of competency is entirely at the faculty member's option and that the student may comply with the request of the faculty member at the student's option. Neither compliance nor non-compliance shall be considered an admission of cheating or plagiarism.

In cases where a student is suspected of cheating or plagiarism, the faculty member should arrange for an informal office conference with the student as soon as possible. The purpose of the informal conference is to bring the persons involved together to discuss the issues informally and to discuss courses of action. At the conference the student shall be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during or as a part of a final examination consult the section just below.

In cases where there is more than one individual suspected of cheating or plagiarism, the faculty member may decide to call the students to confer jointly as a group, or as individuals, or both. If the faculty member should decide to confer with the students as a group, the students shall have the option to also confer with the instructor separately as individuals.

The faculty member shall inform the student(s) that both students and faculty have the right to submit a request to the Academic Integrity Committee (discussed below) for a written opinion on whether the accusation is supported by the evidence. All notes and discussions between the student and the faculty member are confidential, except as may be relevant to the Academic Integrity Committee or in subsequent campus disciplinary proceedings. Neither the faculty member nor the student should discuss a specific charge of cheating or plagiarism or any violations with reference to individuals in the classroom before other members of the class.

When the student cannot be contacted and therefore the informal conference cannot be held, as is sometimes the case after final examinations, a grade of "I" (Incomplete) may be assigned, but only if the instructor wishes an additional test of competence (see section just above). The instructor shall have the agreement form for assigning an "Incomplete" sent to the last known address of the student. The agreement form shall state the following:

Under the provisions of the C.S.U.L.B. Policy Statement on Cheating and Plagiarism, an additional test of competency related to the syllabus name of suspect demonstration, e.g., Final Examination) is requested. (Explain what additional test of competency.) You may decline to do so. Please contact the instructor, the department office, or the Office of Judicial Affairs for information regarding the University policy on Cheating and Plagiarism. The instructor must indicate on the agreement form the grade with which will be assigned, normally 120 calendar days following mailing of the Incomplete Agreement, if the student does not respond or, responding, the student does not agree to an additional test of competence.

Charges of cheating or plagiarism cannot be brought against a student more than 120 calendar days after discovery that the work in question may have been plagiarized or that cheating may have taken place.

Notes and evidence shall be kept by the department chair or program director for a minimum of five years after the case is settled.

In implementation of the Executive Order from the Chancellor's Office that requires documentation of faculty action regarding cheating and plagiarism, the Academic Senate revised the Cheating and Plagiarism Policy to include the following language: After action has been taken by the faculty member, the faculty member shall complete a form that identifies the student who was found responsible, the general nature of the offense, the action taken, and a recommendation as to whether or not additional action should be considered by the Office of Judicial Affairs. The complete form should be sent by the faculty member to both the provost and the vice president for student affairs whenever cases of academic dishonesty are handled by the faculty member.

Academic Integrity Committee

The Chair of the Academic Senate and the Senior Vice President for Academic Affairs shall jointly appoint an Academic Integrity Committee for the University. This Committee shall consist of one member from the student body, chosen by the Associated Students Government for a one year term of office; three members of the full-time, tenured or tenure-track faculty, each with a term of office of two years, terms of office expiring in alternate years; and one member of the Office of Academic Affairs, who shall be Chair, voting only in case of ties.

The primary charge of the Committee is to receive the requests of students accused of cheating or plagiarism or the requests of faculty accusing specified student(s) of cheating or plagiarism. Following its review of the evidence, the Committee shall report its opinion to the student(s) and to the faculty member involved on whether the accusation is supported by the evidence. This opinion may not be appealed. However, when new evidence appears to so warrant, a faculty member or student may ask, in writing,
the Senior Vice President for Academic Affairs or the Chair of the Academic Senate to request the Committee to reconsider a case. The Academic Integrity Committee shall make readily available the rules and procedures governing its operations.

In all cases, a Report of the Committee is advisory to the student, with whom rests the presumption of innocence, and the faculty member, to whom the decision on the evidence and academic action is reserved.

A faculty member or student who requests a review of the evidence in a case of alleged cheating or plagiarism must make such a request to the Academic Integrity Committee in writing no later than 14 calendar days following the date of first notification of the student by the faculty member of the allegation. Except under extenuating circumstances, the student and faculty member will have no more than 14 additional calendar days to provide evidence to the Committee.

To preserve the rights of privacy, the Committee meetings shall be closed. The Committee may request additional information as may be appropriate to the development of its reports. The Committee is to provide a final report within 21 calendar days of the submission of a request to it. Should additional time be required, the reasons should be communicated to the Vice President for Academic Affairs and the Chair of the Academic Senate as well as the student(s) and faculty members involved.

The Committee is to report on its actions annually to the Vice President for Academic Affairs and the Chair of the Academic Senate.

Academic Action

One or more of the following academic actions are available to the faculty member who finds a student has been cheating or plagiarizing. Those options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student’s lack of scholarship or to reflect on the student’s lack of academic performance in the course. These actions may be taken without a request for or before the receipt of a report from the Academic Integrity Committee.

- Review – no action
- An oral reprimand with emphasis on counseling toward prevention of further occurrences;
- A requirement that the work be repeated;
- Assignment of a score of zero (0) for the specific demonstration of competence, resulting in the proportional reduction of final course grade;
- Assignment of a failing final grade;
- Referral to the Office of Judicial Affairs for possible probation, suspension, or expulsion.

Academic dishonesty cases that occur in the classroom shall be handled by faculty members. After a faculty member takes action, the faculty member shall complete a form that identifies the student who was found responsible, the nature of the offense, the action taken, and a recommendation as to whether or not additional action should be considered by the campus Judicial Affairs Office. The faculty member should send a completed “Student Academic Dishonesty Report” form to the Vice-President for Student Affairs, and shared with the Provost, whenever academic dishonesty cases are handled.

A student may appeal a final course grade the computation of which included an examination or other test of competence in which a score of zero was assigned for cheating or plagiarism, but only on the grounds permitted in the University Grade Appeal Policy Statement. An appeal of the final grade may include as written testimony the Report of the Academic Integrity Committee.

In implementation of the Executive Order from the Chancellor’s Office that requires documentation of faculty action regarding cheating and plagiarism, the Academic Senate revised the Cheating and Plagiarism Policy to include the following language: After action has been taken by the faculty member, the faculty member shall complete a form that identifies the student who was found responsible, the general nature of the offense, the action taken, and a recommendation as to whether or not additional action should be considered by the Office of Judicial Affairs. The complete form should be sent by the faculty member to both the provost and the vice-president for student affairs whenever cases of academic dishonesty are handled by the faculty member.

Disciplinary Sanctions – Administrative Action

Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Administrative Code. Copies of Section 41301 of Title 5 may be found in the University Bulletin and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor’s Executive Order 148, “Student Disciplinary Procedures for the California State University” are also available upon request.

Opportunities for appeal regarding the sanctions applied by Vice President for Student Services are provided for students involved in the proceedings as outlined by Executive Order 148.

A summary of the charges concerning cheating and plagiarism report to the Vice President for Student Services. (PS 08-02)

Student Unit Load

Recommended Student Load

The faculty recognizes that it is frequently necessary for students to hold part-time jobs while attending the University. It advises that students enrolling under these conditions use good judgment in planning their programs. Students whose outside employment could be expected to interfere with the normal unit load should reduce their academic program accordingly.

The official unit limit per semester is 18 units. If it is necessary for students to exceed the 18-unit limit, students must complete an Extra Unit Petition form available on the Enrollment Services website.

Students are expected to spend, on the average, two hours of preparation and study for each hour of class time. Thus, a three-unit lecture or discussion course normally demands a commitment of nine hours per week averaged over the semester, with the class meeting for three hours a week. This may be considered sufficient time to enable a student to do satisfactory work. Students who desire to achieve "A" or "B" grades may wish to spend proportionately more time in their studies.
A student's employment and college time combined should not exceed 60 hours weekly. Students who make no allowances for their employment and outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship.

Minimum Unit Requirements for Students in Special Classifications

Veterans

Veterans should inquire at the Veteran’s Affairs Office (BH 226) about unit load requirements for state and federal benefits.

Graduate Students

For information about graduate student load, see regulations governing Master’s Degrees in this Catalog.

International Students

Undergraduate international students on non-immigrant visas must carry and complete a minimum of 12 units per semester unless a reduced load is authorized by the student’s advisor and the Center for International Education. Reduced unit loads may be granted for substantial academic reasons or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

Students with Disabilities

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. Students with disabilities may request to enroll in a unit load that is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 9 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University’s control will be governed by each external agency based upon actual unit load.

Student Load Regulations

I. Maximum Student Load during the Fall and Spring Semesters.

An undergraduate student carrying 12 or more units during the fall or spring semester is classified as a full-time student. A graduate or post-baccalaureate student carrying 9 or more units during the fall or spring semester is also classified as a full-time student. An undergraduate student carrying fewer than 12 units or a graduate or post-baccalaureate student carrying fewer than 9 units is classified as a part-time student.

These definitions derive from federal financial aid regulations and have no bearing on the definitions used by the State of California to determine a student’s liability for the State University Fee.

The maximum number of units a student may take during the fall or spring semester is normally 16 for undergraduate, graduate, or post-baccalaureate students. Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student’s proposed schedule, and the evidence that it is necessary to enroll for an overload in order to complete the student’s chosen academic program in a timely manner. Permission must be obtained prior to registration from the associate dean of the college of the student’s major department or, if an undeclared major, from the Academic Advising Center.

II. Maximum Student Load during the Summer Term

The maximum number of units a student may take during the summer term is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 7 for one 6-week session, 10 for two overlapping sessions, and 13 for an entire summer.

Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student’s proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediate subsequent term. Permission must be obtained prior to registration from the associate dean of the college of the student’s major department or, if an undeclared major, from the Academic Advising Center.

III. Maximum Student Load during the Winter Session

The maximum number of units a student may take during the winter session is one unit per week, plus one additional unit. Thus, the maximum number of units is normally 4.

Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student’s proposed schedule, and the evidence that the extra units will enable the student to graduate in that or the immediately subsequent term. Permission must be obtained prior to registration from the associate dean of the college of the student’s major department or, if an undeclared major, from the Academic Advising Center.

Course Listings

Courses are listed in this Catalog by department, the departments and programs being arranged alphabetically. Each listing gives the course number, title, semester units in parentheses, semester or session offered, and the course description, which includes prerequisites and other restrictions.

Course Numbers

Courses with a number of less than 100 do not count toward any degree program. For purposes of qualifying for financial aid, however, the unit value assigned to those courses will count for the semester in which those courses were taken. Lower-division courses are numbered from 100 through 299. These courses are designed primarily for freshmen and sophomores. They provide breadth of understanding and the foundation for the more specialized work in upper-division, advanced courses. Approved General Education courses are listed online and are offered at both the lower-division and upper-division levels; no upper-division General Education course may be used in a graduate degree program. Lower-division courses are open to junior, senior, and graduate students; however, lower-division courses may not be applied to any graduate degree program.
Upper-division courses are numbered from 300 through 499. These courses are open to students who have completed the prerequisites to the course, if any, stated in the course description and other departmental regulations given in this Catalog. A "Prerequisite" is a completed course or other measure of academic preparation which provides a foundation for the more advanced course.

Freshmen (fewer than 30 units) are not allowed to enroll in upper division courses without permission of the instructor. Sophomores wishing to enroll in upper division courses which indicate no prerequisites should consult with the course instructor or other knowledgeable advisor prior to enrollment. These courses are presented to meet the expectations of academically advanced students. Freshmen and Sophomores should not attempt courses with numbers proceeded by an asterisk.

Certain 400-level courses are double-numbered with 500-level courses. In these courses the expectations of graduate students, who must enroll in the 500-level course, are greater than the expectations of undergraduates. Grading scales are different for the 500-level course, and additional work is required of graduate students. A student may not earn credit for both the 400- and 500-level versions of a course.

Graduate-level courses are numbered from 500 to 799. Courses numbered 500-599 may be opened to senior students upon favorable petition. Courses numbered from 600 to 799 are open only to graduate students.

Included with some of the course numbers is a supplementary letter, or suffix, such as L for "Laboratory" or A and B for a year-long sequence. "A-B" means that the courses must be taken in alphabetical sequence; "A,B" designates related courses which need not be taken in sequence. The student is given degree credit for each part of the sequence satisfactorily completed, whether or not the remaining part of the sequence is completed. Funding, student demand, and instructor availability may require that a course be offered in a different semester or session or be postponed until a later academic year. F indicates Fall Semester, S indicates Spring Semester, W indicates Winter Session, and SS indicates Summer Session. The online class schedule appropriate to the semester or session in question should be consulted for actual course scheduling information. Some of the courses offered during the fall and spring semesters are also offered during the summer session.

The University reserves the right to make changes in course offerings without notice.

Course Credit Units and Modes of Instruction

Course Credit Units

Each course has a specific credit unit value which is indicated in parentheses following the course titles in this Catalog.

In accordance with national standards, each semester unit corresponds to approximately 45 hours of work per semester, counting both class meeting time and outside preparation and study. For a traditional lecture or discussion course, this means that the class will meet one hour a week for every unit in a fall or spring semester (15 weeks of class meetings). For a laboratory or activity course, the class may meet two or three hours per week for every unit.

The instructional "hour" is fifty minutes long, allowing for transit between classes and rest breaks within multi-hour classes.

Classes scheduled in the six-week summer session, or in a three-week summer or winter session, are scheduled for additional class hours per week so that the total meeting time is the same as in a fall or spring semester. Classes taught by other modes of instruction are expected to require the same time commitment as traditionally-scheduled classes.

Hybrid Classes and Distance Education Classes

Some classes use academic technology to replace part or all of the face-to-face class meetings. In a hybrid class, one-third to two-thirds of the student/faculty and student/student contact time uses academic technology to structure remote activities. The remaining communication is face-to-face, similar to traditional classes. A Local Online Class (LOC) is a course offering in which the majority of the instruction occurs when the student and instructor are not in the same place, but it may require up to two hours of face-to-face meetings per unit on the California State University, Long Beach campus within the given semester. A Distance Education Class is a course offering in which communication between faculty and student occurs primarily via academic technology, but it may also include off-site meetings. The mode of instruction is indicated in the online class schedule for each term. (PS 03-11)

Student Rights Relative to Course Instructional Mode

1. Student access to the faculty shall not be reduced by the instructional mode of a class.
2. The University shall make every effort to inform students of the mode of instruction and technological requirements of a course offering before the student enrolls in the class.
3. Matriculated students enrolled in non-traditional classes shall have access to the on-site academic advising services at California State University, Long Beach.
4. All students have equal access to the University library and other on-line learning resources offered at California State University, Long Beach.
5. Students in non-traditional classes shall have reasonable support services. These include:
   A. Phone-based and online technology help to handle student questions and to refer students to appropriate available services for hybrid and local online or distance education courses;
   B. Online and phone-based access to university administrative services;
   C. Online dissemination of information describing the resources available for obtaining the technical competence needed to succeed in a specific course offering;
   D. Online access to the library research databases and other research-related resources.
6. The University shall provide adequate technical support for academic technology.

Credit for Independent Study Courses

Each student enrolled in a supervised independent study, research, or reading course (excludes thesis courses) must have an agreement on file in the department office where the course is offered. The agreement is to be made between the student and the instructor at the beginning of the course, and must include the following: a description of the work to be accomplished, specific information on the tasks required, the nature of the final report, and the basis for determining the final grade. The agreement must be signed by both the instructor and the student.
If a department wishes to use a written agreement different from the standard university form, it must be approved by the dean of the appropriate college prior to its use.

No independent study credit shall be awarded for classroom instruction, assisting in classroom instruction, or for other instructionally related activities, such as grading.

Credit for Cross-Listed Courses

Certain courses are listed in this Catalog under more than one department. For purposes of awarding credit, all such listings are considered to be the same course, and a student may receive credit for only one of the listings. Normally, students will receive credit for such a cross-listed course in the department under which they register for it.

Transfer Credit

Students who were in good standing at another accredited institution may, within limitations, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements must be determined.

Students are cautioned that the University is under no obligation to accept transferred courses for subject credit in addition to unit credit for admission. Normally, however, there is a probability that courses in the accepted core of a discipline will be exchangeable between universities. Policy regarding transfer of courses from California community colleges differ in some respects.

Transfer of Undergraduate Credit From Accredited Community Colleges

A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:

1. No upper-division credit may be allowed for courses taken in a community college;
2. No more than six semester units in education courses taken in a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program;
3. Individual program regulations may include specific transfer limitations;
4. Students who transfer general education certification are still required to complete at least 9 units of upper-division courses at the campus conferring the degree.
5. Any course taken at community colleges can substitute for general education breadth requirements and lower-division requirements, if the course is approved as equivalent to the appropriate CSULB course. Students with more than 70 transferable units from community colleges will get subject matter credit for all such courses, but no more than 70 units will count toward graduation.
6. All transferable units taken at community colleges will count toward computation of the overall major grade-point average. All transferable units in the major taken at community colleges will count toward computation of the overall major grade-point average.

Extension Credit

A maximum of 24 semester units of Special Sessions course credit, taken as a nonmatriculated student may be accepted toward a baccalaureate degree. Extension credit may not be used to fulfill the minimum 30-unit residence requirement.

Courses offered through UCES conferring Continuing Education Unit credit (CEU) carry no degree credit.

Open University/Special Session

The Open University program allows enrollment in regular university credit courses for those who are not currently admitted to and/or matriculated at CSULB. Enrollment is on a "space available" basis, subject to the approval of the instructor and the department chair concerned.

No more than 24 units of Special Session course credit earned through Open University or UCES Special Sessions course offerings at CSULB in non-matriculated status may count toward any undergraduate degree requirement.

Students are considered in non-matriculated status in terms prior to the term of official admission to the degree granting program and during terms of disqualification from the degree granting program. There is no limit on UCES Special Sessions course credit, including Winter session, applicable to the degree if taken while in matriculated status in the degree program.

At the option of the appropriate college and department, up to six units of Open University Special Sessions credit may be applied to a graduate degree. By petition, this limit may be increased to nine units in some instances.

Baccalaureate Credit Based on Alternative Means of Assessment

The University grants credit toward the baccalaureate degree based on several types of assessment other than formal university courses. Students should consult the Chair or undergraduate advisor of the concerned department about applicability to individual courses or degree requirements.

Advanced Placement Credit

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of Advanced Placement (AP) examinations of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course. Refer to the Advanced Placement Examination Credit table that follows for transfer credit awarded.

For the most up-to-date AP credit information, click the "Admission" icon on the CSULB Enrollment Services Web page, and follow the links under "Freshmen" or "Transfer".

Notes for Advanced placement:

*Credit is awarded for a 3-5 on the AP exam score or the AB subscore on the BC exam.

A maximum of 6 units will be granted for each exam. If the number of units per course equivalency exceeds 6, credit for 6 units will be awarded and the course waived. Credit can only be awarded once per course. Example: if a student takes Calculus AB & BC, only nine units can be awarded.
International Baccalaureate Credit

Students with scores of 5 or higher in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IB transcript. Course equivalency for Higher Level examinations completed with a grade of 5 or higher is listed in the International Baccalaureate Examination Credit table that follows.

For the most up-to-date IB credit information, click the "Admission" icon on the CSULB Enrollment Services Web page, and follow the links under "Freshmen" and "Transfer".

Credit for Other External Examinations

In addition to the Advanced Placement and International Baccalaureate Examinations, California State University, Long Beach grants unit credit to those students who pass the following examinations that have been approved for credit by the CSU system: the College Level Examination Program (CLEP) examinations in College Algebra - Trigonometry, Calculus/Elementary Functions, French, General Chemistry, German, and Spanish; and the American Chemical Society Cooperative Examination. (PS 87-04)

Unit Credit by Examination

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded on the student’s transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.

Students must be enrolled in the University and in the course for which they wish to receive credit by examination. Enrollment is by permission of the department and is only available during the academic semester in which the course is being offered. Students must secure a signed and dated approval form from the department prior to enrolling in the course. Students must provide the instructor with a copy of the signed and dated approval form at the first class meeting. The instructor will ensure that the examination is conducted, scored, and the results reported prior to the end of the third week of classes. Students who pass the examination will receive academic credit for the course work. Students who do not pass the examination have two options:

1. continue in the course as a regular student; or
2. withdraw from the course.

The University sets no maximum on the number of credits a student may receive by examination. Not all courses, however, are available for credit by examination. Information about courses for which credit by examination is permitted is available in the Department Office, in the College Office, and the Office of Enrollment Services. A student may not receive credit by examination:

1. for an activity course;
2. for any course which is a prerequisite to one for which credit has been received, (see department for possibility of course waiver),
3. to remove a grade of "F," "U," "NC;"
4. to satisfy the courses required for a major in a master’s degree.
5. for any course in which the content or methodology is such that an examination does not appropriately measure competence.

Application forms to apply for credit by examination are available in the Office of Enrollment Services. Procedures and criteria for requesting unit credit by examination in a given course are available in the appropriate department office. (PS 87-04)

Substitution of Courses

Students who believe that a course they have taken (or intend to take) may be appropriate to their program and that this course could substitute for a specified course requirement may request that the department submit an official authorization for substitution. Course substitutions are normally limited to cases where the required course cannot be offered or where the student has taken a similar but not identical course elsewhere. (PS 87-04)

Waiver of Course Requirement

In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). The student will be required to justify the request in a way acceptable to the department. A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree. (PS 87-04)

International Program Credit

Course credits earned in universities abroad may be accepted for degree credit at CSULB subject to evaluation by the cognizant department or program upon admission of the student to the University. CSULB students who desire, subsequent to admission, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the Chair of the appropriate department or program.

The Center for International Education administers many international education and exchange programs. Students fully accepted into one of those programs may, in most cases, continue CSULB residency while studying in the approved foreign institution. Some courses taken through those programs do not have to be approved in advance.

Credit for Noncollegiate Instruction

The California State University, Long Beach grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Grades and Grading Procedures

Part One: Definitions

The following definitions apply to final course grades assigned in all undergraduate and graduate courses:

"A" - Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative.

"B" - Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements.

64 • Academic Information and Regulations • 2009/2010 CSULB Catalog
"C" - Performance of the student has been at an adequate level, meeting the basic requirements of the course.

"D" - Performance of the student has been less than adequate, meeting only the minimum course requirements.

"F" - Performance of the student has been such that minimal course requirements have not been met.

"CR/NC" - In some courses, the university permits students to select evaluation on a "Credit" or "No Credit" basis. 

These grades are defined as follows:

"CR" is equivalent to an "A," "B," or "C," and "NC" is equivalent to a "D," "F," or "WU" (defined below). In two circumstances a final course grade of "CR" reflects work at the level of "B" or better, and a final course grade of "NC" reflects work at the level of "C," "D," "F," or "WU." These two circumstances are:

1. In certain professional preparation courses, providing that the students are notified of such a policy both in class materials and in the catalog course description; and
2. For graduate students in all courses at the 300, 400, 500, and 600 levels.

Special regulations and procedures governing the "CR/NC" grading system are described below in Part Two.

The following definitions apply to administrative grading symbols assigned in all undergraduate and graduate courses:

"AU" - "Audit." Enrollment as an auditor is subject to permission of the instructor, provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. It is the responsibility of the student to request from the instructor what is meant by regular class attendance. The symbol "AU" is posted to the student's permanent academic record unless the student fails to attend a sufficient number of class meetings. In these cases, the instructor will request that the student be administratively withdrawn from the course. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the last day to add classes. A student who is enrolled for credit may not change to "Audit" after the last day to add classes.

"I" - "Incomplete." The symbol "I" (Incomplete Authorized) indicates that a portion of required course work (normally not more than one-third) has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the "Incomplete." A final course grade is assigned when that work has been completed and evaluated.

An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an "I" being converted to an "F," except as noted in item 3 below. An extension of time may be granted for contingencies such as military service or documented, serious health or personal problems.

The conditions for removal of the "Incomplete" shall be reduced to writing by the instructor on an "Assignment of Incomplete Grade" form. This form shall include a statement of:

1. all work completed in the course, the grades assigned for that work, and the percentages of the final course grade accounted for by each item;
2. the work not completed and the percentage that each uncompleted assignment will count toward the final course grade; and
3. the final course grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the "I" was assigned, without respect to continuous enrollment of the student during this period.

If clear percentages for assignments cannot be delineated, instructors shall explain any special conditions for determining final course grades for work wholly or partially made up.

A copy of the form is to be given to the student, a copy is to be retained in the department office, and a copy is to be filed with the Office of Enrollment Services at the time final course grades are submitted. Normally, the student should sign the "Assignment of Incomplete Grade" form. If the student is eligible for an "Incomplete," a faculty member may assign an "I" even when the student cannot be present to sign the form. In such a case, the instructor will forward to the student a copy of the form via the department office. When the work agreed upon has been completed and evaluated, a final course grade will be assigned by the instructor. If an "Incomplete" is assigned without an "Assignment of Incomplete Grade" form attached, or with a form that is not filled in acceptably, the symbol of "WU" will be assigned to the student. The "Assignment of Incomplete Grade" form will be considered unacceptable if:

1. more than one-third of the work remains to be completed, and no justification has been provided;
2. the work required to complete the course has not been specified;
3. the faculty member failed to sign the form; or
4. the percentage grades have not been filled in and a justification for their absence has not been supplied.

The appropriate associate dean of the college shall determine whether or not the justification is adequate. Notice of the missing form, or a copy of the unacceptable form will be sent to the department chair with the request that the chair work with the faculty member to provide the information necessary to assign the final course grade of "Incomplete."
The symbol does not imply any academic evaluation. If an instructor fails to report a grade for an individual student, Enrollment Services will assume that an "I" could not be assigned and so will enter a symbol "WU," discussed below.

"RP" - "Report in Progress". The "RP" symbol is used in connection with courses requiring multiple enrollment, i.e., that extend beyond one academic term. It indicates that work is in progress but that assignment of a final course grade must await completion of additional work. Re-enrollment is permitted prior to assignment of a final course grade provided the cumulative units attempted do not exceed the total number applicable to the student's educational objective. Work is to be completed within one (1) calendar year immediately following the end of the term during which it was assigned except for graduate degree theses. If the "RP" symbol is not replaced by a final course grade within the specified time period or prior to the student's declared graduation date, it will be changed to a "W." An "RP" symbol cannot be replaced by an "F" (Incomplete) symbol; an "F" is not a final course grade.

"W" - "Withdrawal". Withdrawal from classes is discussed in more detail in this section of the Catalog. The symbol "W" is used to signify that a student formally withdrew from the course; no reference or implication of passing or failing progress at the time of withdrawal is made or implied. The symbol "W" is not a grade and does not alter a student's grade point average.

"WU" - Unauthorized Withdrawal. The symbol "WU" indicates that an enrolled student did not complete course requirements but did not withdraw from the course. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of the student's academic performance possible (letter grades "A" - "F" or an "Incomplete"). For purposes of grade point average, this symbol is equivalent to an "F." A student who receives a "WU" may not complete additional work and have the "WU" changed to a letter grade. In courses that are graded "Credit/No Credit" or in cases where the student has elected "Credit/No Credit" evaluation, use of the symbol "WU" is inappropriate and "NC" will be used instead. A student who receives the symbol "WU" in the first semester of enrollment at CSULB will have that symbol automatically changed to a "W." In such cases the student will be notified that this policy applies for that first semester at CSULB only.

Part Two: Course Grading Option

The faculty determines in advance which courses may be taken for "A" - "F" grade only, "CR/NC" only, or either. When a course is designated for "CR/NC" grading only or for "A" - "F" grading only, mention of this fact shall be incorporated in the catalog course description. Any undergraduate course may be designated for or closed to the option of "CR/NC" grading whether or not the course is a requirement for an undergraduate degree major, minor, certificate, credential, or concentration.

No course in which a final course grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the final course grade of "CR" may be permitted for master's theses or projects (to a maximum of six (6) units) when the individual department has specifically designated "CR/NC" grading for the thesis/project course in the department, and for fieldwork, practicum, and/or internship courses (also to a maximum of six (6) units). The option of "CR/NC" grading for graduate students in undergraduate courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken by graduate students under this policy. An undergraduate student may elect "CR/NC" grading in no more than a total of 24 units, of which no more than twelve (12) may be upper division units. No more than eight (8) units per semester may be taken for "CR/NC" grades. Exemptions from these limitations are:

1. courses graded "CR/NC" taken at another institution,
2. course credit earned by examination, and
3. courses in which "CR/NC" grading is the only form of grading.

The decision to elect the "CR/NC" grading option for a course must be made by the last day to add classes. To elect "CR/NC" grading, the student must obtain the signature of the student's major advisor and a stamp from the department/program in which the course is offered on the appropriate form. The student must then file the signed form with the Office of Enrollment Services. The decision to register for a course on a "CR/NC" basis remains in effect unless a change is requested prior to or on the last day to add classes.

The only exception to this rule is for students who declare new majors after the last day to add classes. If the newly declared major requires letter grading for the course in question and the student has elected "CR/NC" grading, then the student may request that "A" - "F" grading be used. Such a change must be requested no later than the last day of instruction. The grading option may not be changed after the end of the semester.

Part Three: Final Assessments

1. Every course except Distance Learning Courses shall meet and have an educational experience at the date and time listed in the Final Examination Schedule.
2. Every course shall have a final assessment appropriate to the course that shall cover a significant proportion of the course.
3. All instructors shall administer the final assessment (e.g., an exam or presentation) or have it due (e.g., a paper or project) at a specified time that falls within the date and time listed in the Final Examination Schedule, as part of the course or as an additional educational experience.
4. The college dean must approve any exception to these requirements.

Part Four: Assignment of Final Course Grades

1. The instructor of record in a course section (i.e., the faculty member officially assigned to teach that section) has the exclusive responsibility and authority to assign final course grades to all students in that section, subject only to the following exceptions:
A. should the instructor of record be unable or unwilling to complete this task because of death, disability, separation of employment, or prolonged absence from campus during a regular academic term, the department chair or program director, following notification of the instructor of record where appropriate and with the approval of the college dean, may appoint another instructor with the most appropriate qualifications in the discipline to complete the assignment of final course grades; or
B. in the event of a successful grade appeal (detailed below in Part Five: Change of Final Course Grades).

2. Final course grades shall be based on at least three (3), and preferably four (4) or more, demonstrations of competence by the student. Exceptions require the college dean’s approval.

3. In no case shall the grade on any single demonstration of competence count for more than one-third of the final course grade. Exceptions require the college dean’s approval. This provision does not abridge a faculty member’s right to assign a course grade of “F” for a single act of cheating.

4. At the start of the course and in keeping with PS 04-05 (Course Syllabi), instructors shall provide to their students in writing the grading policies and practices to be employed in the class and the rules that will apply to withdrawals.

5. Instructors shall keep a record of students’ scores on each of the demonstrations of competence on which the final course grade is based.

6. Instructors shall provide students with an opportunity for demonstration of competence, relevant to the determination of their final course grade in the course, as early as is reasonable and no later than the midpoint of the term.

7. Students have a right to be informed promptly of their scores and to review each of their demonstrations of competence with their instructors.

8. If materials submitted for a demonstration of competence are not returned, those materials will be retained for at least two (2) subsequent semesters by the instructor. The materials shall be accessible to the department office. In the absence of the original instructor, an instructor with appropriate qualifications may be appointed by the Chair to review the demonstration of competence with the student.

9. Grades reported to the Office of Enrollment Services are considered to be official and final course grades.

(PS 08-10)

Part Five: Change of Final Course Grades

1. Changes of final course grades or grading symbols can be made only on the basis of an error, a successful grade appeal (detailed in the separate policy statement on Grade Appeals), or resolution of an “Incomplete” (“I”). A final course grade or grading symbol shall not be changed on the basis of additional work submitted, except where an “I” was recorded.

2. Original final course grades are replaced only when the change is due to an error, the grade change is the result of a grade appeal, or Enrollment Services receives a late report of final course grades for which the symbol “RD” was substituted pending receipt. Original final course grades or grading symbols are not replaced when the change of grade is the result of the resolution of an “Incomplete” or the repetition of a course. Final course grades or administrative grading symbols must be recorded for all enrollments beyond the census date.

3. Except for changes of final course grades resulting from grade appeals, all changes of final course grades must be filed within one year from the date of the filing of the first final course grade, without respect to continuous enrollment of the student. Only as the result of a successful grade appeal or the correction of an error will a final course grade be changed after the award of a degree or credential or certificate.

4. All requests for change of a final course grade shall carry the recommendation of the instructor (except as provided for in the Grade Appeals Procedures) and the department chair and the approval of the college dean.

Final Course Grades

Final course grades will be available via “MyCSULB” approximately two to three weeks after the end of each semester or session.

Student Grade Record

A record is kept and grade or administrative symbol notations are indicated for all enrollments beyond the second week of instruction.

Repeating Courses

In most cases a student may not take or receive unit credit for a course for which the student has already received a CR or a grade of C or better. This principle applies whether the course was initially taken at CSULB, at a high school, or at another college or university. The only exceptions to this rule are: (1) when a course has been specifically designated as repeatable for credit up to a specific maximum number of units (there may also be other limitations, such as a requirement that each repetition be with a different instructor and/or on a different topic); (2) activity courses; (3) upper-division courses in an undergraduate student's major completed more than ten years prior to the student’s graduation; and (4) courses on a graduate student’s program of study taken more than seven years prior to graduation. (PS 90-17)

Repetition of Courses for Satisfactory Grade

(Repeat and Delete)

Undergraduate students and postbaccalaureate students who are pursuing a second (or subsequent) baccalaureate degree may repeat, for the purpose of excluding the grade from grade-point determination, an undergraduate course taken at California State University, Long Beach in which a grade of "D", "F", "U", or "WU" was received. Postbaccalaureate students pursuing credential programs, certificate programs, or master’s degrees are not eligible for the Repeat and Delete policy.

Eligible students may repeat a course once for the purpose of deleting a grade, without prior departmental approval, if the course was taken both times at CSULB. If the second attempt of the course is successful (“C” or better), the deletion of the first attempt is automatically calculated at the end of the semester in which the course was repeated. Although the first grade will remain on the permanent record, the grade and grade points of the repeated course on the second attempt will be those used in determining the grade-point average and units earned, provided the second grade was C or better.

2009/2010 CSULB Catalog • Academic Information and Regulations • 67
Students are not prohibited from continuing to repeat a course in which the grade for the second attempt is unsatisfactory ("D", "F", "U", "WU"), but, in that case, grades earned for all attempts will remain in the grade-point determination, and the units earned in the course will be applied to the degree only once. While there is no time limit for repealing a course, the student's permanent record may not be altered after a degree has been granted.

If students wish to exclude from grade-point determination a grade of "D", "F", "U", or "WU" in a course taken at another institution, they may do so by enrolling in an equivalent course at CSULB. A "Notice of Intent to Repeat a Transfer Course" form must be filed with the Office of Enrollment Services. The department in which the course is taught must indicate on the form which particular course may be repeated to delete the previous grade. An official transcript from the institution where the original course was taken must accompany the form. Only one request is allowed for the purpose of deleting a grade, and the repeated grade and grade points will be used in the overall grade-point determination, provided the second grade was C or better.

A grade received in a course taken at another institution may not be used to delete a grade in an equivalent course taken at CSULB.

**Grade Appeals**

Although the University presumes that grades assigned are correct, the University has established a grade appeal procedure to both protect students against academic and administrative evaluations and decisions that are prejudicial, capricious, or arbitrary, and to preserve the authority of instructors to evaluate student work in a non-prejudicial, objective, and consistent way. This procedure is available equally to undergraduate and graduate students. A student wishing to file a grade appeal should consult the policy document (PS 99-16) for detailed information.

Students who believe they have received a final course grade that reflects prejudicial, capricious, or arbitrary grading of their academic performance must make this belief known to the instructor(s), either orally or in writing, before they begin the formal appeal process. If students and instructors are not able to resolve the problem to the satisfaction of both parties, the formal process may then be initiated.

The formal process must begin no later than the end of the fall or spring semester following the term in which the final grade was assigned. It begins with the preparation of a grade appeal file which must include: (1) a written statement addressed to the Department/Program Chair of the discipline in which the course resides describing the reasons for the appeal and the recommendation for a new grade, (2) a Grade Appeal form obtained from the appropriate College office and fully completed, and (3) supporting documents that show evidence of the alleged improper grading. The burden of proof rests upon the student submitting the appeal.

If the student's appeal is compounded (or accompanied) by an allegation of unlawful discrimination as defined by Federal and State laws, the student has the right to access the university's internal Unlawful Discrimination process and the processes available through the U.S. Department of Education Office of Civil Rights and the State of California Fair Employment and Housing Commission. However, grades may be changed only through the grade appeal process.

---

**Scholastic Probation and Disqualification**

**Academic Probation**

Undergraduate students are placed on academic probation if at any time their cumulative grade-point average in all college work attempted or their cumulative GPA at California State University, Long Beach falls below 2.0 (C). Graduate students are placed on academic probation when their cumulative grade-point average or grade-point average on all courses applicable to the degree falls below 3.0. Other post-baccalaureate students are placed on academic probation when their cumulative grade-point average falls below 2.5.

Undergraduate students will be removed from academic probation when their cumulative grade-point average in all college work attempted and their cumulative grade-point average at California State University, Long Beach is 2.0 (C) or higher. Students who remain on academic probation for more than two consecutive semesters are subject to academic disqualification. Students actively participating in an intervention program may request an extension of time to achieve a 2.0 GPA. Such extension will be granted if the student is making progress toward the degree.

Graduate students will be removed from academic probation when their overall grade-point average and grade-point average on all courses applicable to the degree are 3.0 (B) or higher. Other post-baccalaureate students will be removed from academic probation when their overall grade-point average is 2.5 or higher. (PS 02-07)

**Strategies for Academic Success Program (Academic Probation Intervention)**

This is a university-wide program designed for undergraduate students who are on academic probation (either the CSULB or all college cumulative grade-point average is below 2.0). The program includes information about university policies and procedures, the reasons students encounter academic problems, and, lastly, how and where to receive assistance from campus services and offices to be a successful student.

Any undergraduate whose CSULB or overall cumulative grade-point average (GPA) is below 2.0 may participate in the program. Declared graduate students and credential candidates who are on probation should contact their department for information and assistance.

Attendance in this program is not mandatory but it is highly recommended.

If you would like more information or if you would like to sign up for a workshop please call us at (562) 985-7874 or stop by the Academic Advising Center, located in Horn Center, Room 103. Workshops are scheduled at a variety of times during each semester.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn grades of sufficient quality to remove themselves from probationary status. Disqualification will bar such students from any further enrollment at the campus.

**Administrative — Academic Probation**

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials for any of the following reasons:

---

68 • Academic Information and Regulations • 2009/2010 CSULB Catalog
1. Withdrawal from all or a substantial portion of a program of studies in two successive semesters or in any three semesters;
2. Repeated failure to progress toward the stated degree objective or other program objective (when such failure appears to be due to circumstances within the control of the student);
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or for a defined group of students (example: failure to take placement tests, failure to complete a required practicum).

**Academic Disqualification**

Undergraduate students on academic probation are subject to academic disqualification:
1. As freshmen (fewer than 30 semester-hours of college work completed), if their grade-point average falls below 1.5 on all units attempted or on all units attempted at California State University, Long Beach;
2. As sophomores (fewer than 59 semester-hours of college work completed), if their grade-point average falls below 1.7 on all units attempted or on all units attempted at California State University, Long Beach;
3. As juniors (60 to 89 semester-hours of college work completed), if their grade-point average falls below 1.85 on all units attempted or on all units attempted at California State University, Long Beach;
4. As seniors (90 or more semester-hours of college work completed), if their grade-point average falls below 1.95 on all units attempted or on all units attempted at California State University, Long Beach; and
5. At any time, if the student remains on academic probation for more than 2 consecutive semesters (i.e., the cumulative GPA remains below 2.0 at the end of 2 consecutive semesters).

In addition to the above disqualification standards applicable to students on probation, individuals not on probation may be disqualified when the following circumstances exist:
1. At the end of any semester, if the student has a cumulative grade-point average below 1.0; and
2. The cumulative grade-point average is so low that in view of the student's overall educational record it seems unlikely that the deficiency will be removed within a reasonable period.

**Disqualification From Impacted Programs**

Students who fail to maintain an overall GPA of 2.0 will be immediately removed from an impacted major and placed in the undeclared category or in a general category appropriate to the discipline. To be reinstated as majors in the impacted program, they must reapply at the time when change-of-major requests are normally accepted.

**Administrative — Academic Disqualification**

Students who have been placed on administrative-academic probation may be disqualified from further attendance if:
1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The students become subject to academic probation while on administrative-academic probation;
3. The students become subject to administrative-academic probation for the same or a similar reason for which they have been placed on administrative-academic probation previously, although not currently in such status.

For students who subsequently become eligible for Reinstatement (see below), disqualification under the provisions of the preceding paragraphs constitutes a break in "continuous enrollment" within a degree major program; therefore, students disqualified may not elect regulations in effect prior to disqualification.

**Reinstatement**

In order to be considered for reinstatement to the University, a disqualified student must demonstrate progress toward the degree. This demonstration can be achieved by:
1. Completing courses through University College and Extension Services at CSULB; or
2. Completing classes at other regionally accredited academic institutions.

All classes considered for reinstatement in the student's petition must be applicable for degree credit and toward the student's General Education or major requirements.

Progress toward meeting the GPA requirement can be demonstrated by reducing the deficiency in grade-point average by one-half at CSULB or by making equivalent grades in courses taken at other regionally accredited academic institutions. Grades earned at other regionally accredited academic institutions will not reduce the deficiency in the CSULB grade-point deficiency. Grades earned elsewhere are only indicators of academic ability.

After reducing the deficiency in the CSULB grade-point average and/or demonstrating academic ability at other regionally accredited academic institutions, the student may petition the Academic Appeals Committee for reinstatement.

The petition must present evidence that the student is likely to achieve a satisfactory grade-point average and to complete requirements for the degree. The Academic Appeals Committee will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (fall or spring) semester after their dismissal. Disqualification from the University constitutes a break in residency and results in the loss of "catalog rights": reinstatement does not automatically restore those rights under the election of regulations.

Petition forms are available at the Office of Enrollment Services and must be filed by December 1 for the spring semester or August 1 for the fall semester. Petitions received after that date will be returned to the student to be submitted for consideration for a future semester.

**Academic Renewal**

A student may petition to have all grades and units received during one or two semesters of undergraduate work disregarded in the computation of GPA and academic standing. The work so disregarded may have been taken at any collegiate-level institution but no work taken during the disregarded terms, even if satisfactory, may apply toward baccalaureate requirements. All grades and units attempted will remain on record. At least 5 calendar years must have elapsed since the work in question was completed and the student must have subsequently completed 15 semester.
units with a 3.0 GPA (or 30 semester units with a 2.5 or 45 semester units with a 2.0) at this University before filing a request for disregard of the course work.

Petitions for disregard of course work must be submitted to the Office of Enrollment Services. Final determination will be made by the Vice President for Academic Affairs in consultation with the University Academic Appeals Committee. The petitioning student must certify that the work to be disregarded was not reflective of his or her present level of academic performance. This certification must include a statement explaining the extenuating circumstances causing the substandard performance during the term in question. The student must also provide evidence that it would be necessary to complete additional units and enroll for one or more additional semesters in order to qualify for the baccalaureate degree if the request were not approved.

(PS 75-07)

Academic Appeals

Students may petition for exception to academic policy. Typically, exception requests involve issues such as record errors, General Education substitutions or waivers, reinstatement, exceptions to the repeat/discard policy, and academic renewal.

Students can obtain the "Petition for Exception to Academic Policy" forms from the Office of Enrollment Services, Broman Hall Room 101, or the Academic Advising Office, located in Horn Center, Rooms 103. This written appeal will be directed to the Academic Appeals Committee. Petitions must be filed with the Office of Enrollment Services, BH-101.

Withdrawal Policy

Students are held responsible for completion of every course in which they register OR FOR WITHDRAWING DURING THE FIRST TWO WEEKS OF CLASSES FROM COURSES WHICH THEY DO NOT INTEND TO COMPLETE. Application for withdrawal from the University or from a class must be officially filed by the student at the Office of Enrollment Services whether the student has ever attended the class or not; otherwise, the student will receive a grade of "WU" (unauthorized withdrawal) in the course. Application for withdrawal is made at the Office of Enrollment Services.

Prior to withdrawing from classes, you should consider the consequences of this withdrawal action after the second week of the semester. This generally will impact your progress toward degree, possibly impact your future course enrollment (prerequisites) and financial aid eligibility. However, we understand that certain circumstances may necessitate the need for a change in class schedule at this time.

Be aware that after the second week of instruction, class withdrawals are permissible only for serious and compelling reasons. The definition of serious and compelling reasons as applied by faculty and administrators becomes more narrow as the semester progresses. Please be advised that poor academic performance or poor time management is not justification for withdrawing from classes. Although the grade of "W" is assigned during this time, it is not intended to be used as a mechanism to escape being awarded the grade you have earned.

When withdrawal involves a documented, serious medical condition that requires withdrawal from all classes, the student must complete the Medical Withdrawal Process. Your physician must submit a statement confirming your serious illness or injury. Students who have any questions regarding their decision to withdraw from a class should consult with their advisor as soon as possible.

Dropping classes during the first two weeks of instruction:

Students may drop during this period on MyCSULB and the course will not appear on their permanent records.

Withdrawal after the second week of instruction but prior to the final three weeks of instruction for fall/spring:

Withdrawals during this period are permissible only for serious and compelling reasons and require approval from the Instructor and Chairperson of the department of the class. The definition of "serious and compelling reasons" as applied by faculty and administrators will be defined more narrowly as the semester progresses. The grade of "W" is assigned during this time. Students must complete the "Petition to Withdraw from a Class(es)" form and submit to Enrollment Services as soon as possible but no later than the established deadline for that term.

Withdrawal during the final three weeks of instruction:

Withdrawals during the final three weeks of instruction are not permitted except for a very serious and compelling reason, such as accident or serious injury, that is clearly beyond the student's control and the assignment of an Incomplete grade is impractical (see Requirements for Assigning an Incomplete Grade). In almost all cases, withdrawal in the last 3 weeks of classes will involve total withdrawal from all classes due to the serious nature of the circumstances, i.e., a documented, serious medical condition that requires withdrawal from all courses; the documented death of an immediate (not extended) family member; a call from reserve to active military service; etc. Usually, withdrawals in this category will involve total withdrawal from all classes due to the serious nature of the illness or injury and is accomplished by using the Medical Withdrawal Procedure.

If the basis for the request cannot be substantiated by medical documentation or is only a partial withdrawal, the student should complete the "Petition to Withdraw from a Class(es)" including the Addendum. In the addition, the student must provide appropriate documentation to substantiate the request. Due to the unusual nature of these requests, approval for withdrawal from a course in the final 3 weeks not meeting the Medical Withdrawal criteria is required from the instructor, chairperson of the department of the class, the dean of the college in which the class is taught, and the Office of the provost. Instructors, department chairs and deans must consider the request carefully and approve withdrawal only for serious and compelling reasons beyond the student's control. Since petitions are only granted for extenuating circumstances, Enrollment Services will submit this petition to the Office of the Provost for a final decision.
Should the request not be approved, the student must initiate the incomplete process where applicable or complete the class. Students who unofficially withdraw will have a symbol of "WU" placed on their record for each course. The "WU" is treated as an "F" for GPA calculation.

Instructor Withdrawal:

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class. An instructor may also withdraw a student who has enrolled in a course requiring permission of the instructor or completion of prerequisites if the student has not properly secured this permission or satisfactorily completed the prerequisites before enrolling. (PS 02-02)

Medical Withdrawal

Complete Medical Withdrawal

The University may allow a student to withdraw without academic penalty from all classes if the following criteria are met:
A. A completed Medical Withdrawal Form, including any required documentation, is submitted to the Office of Enrollment Services before the end of the semester, and
B. The student presents evidence to demonstrate that a severe medical or debilitating psychological condition prevented the student from attending and/or doing the required work of the courses to the extent that it was impossible to complete the courses.

The Provost (or designee) will review the evidence presented and, in consultation with appropriate medical or psychological professionals as needed, determine whether the request for a medical withdrawal should be granted.

Repeat Complete Medical Withdrawal: If the student has been granted a complete medical withdrawal in the immediately preceding term, then additional medical withdrawal requests must consider the condition of whether or not the student can complete appropriate educational objectives, and must be reviewed on a case-by-case basis. After a repeat medical withdrawal is granted, the student may be required to obtain clearance from an appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

Partial Medical Withdrawal

Students seeking withdrawal from part of their enrollment for any reason, including medical or psychological reasons, are subject to the normal withdrawal policy and process.

Cancellation of Registration or Withdrawal From Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available online at the Enrollment Services website.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Refund of Student Fees

Regulations governing the refund of student fees in the California State University system are prescribed by the CSU Board of Trustees; see California Code of Regulations, Title 5, Education, Section 41602.

Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form should be submitted to the Office of Enrollment Services, Brotman Hall 101.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may submit, in advance, a new educational leave request form for an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved educational leave are not required to submit an application for readmission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must reapply for admission and pay the reapplication fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of credit to the student's program from the department graduate advisor, department chair, and the College Dean or designee.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree and remediation requirements. (See Baccalaureate and Graduate sections of this Catalog).

For the period of an educational leave the student's rights under the "Elective of Regulations" rule are preserved, maintaining the rights of the student to elect regulations as if he or she had maintained continuous attendance.

An educational leave presupposes no expenditure of University resources or faculty and staff time on behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave. (PS 84-06)
Student Success and Graduation

CSULB's core academic purpose is to graduate students with highly valued degrees. Graduation rates for CSULB students have increased dramatically in recent years and the length of time it takes students to complete degrees has decreased. The availability of needed courses and a much better support by academic advisors and learning communities greatly improved graduation rates. These improvements were key to the ranking of CSULB as one of "America's Best Colleges and Universities" by U.S. News and World Report and "No. 3 best value public colleges in the nation" by America's Best Value Colleges.

Frequently Asked Questions

Students ask many of the following questions. Successful students know the answers to these frequently asked questions. Please read them carefully. Knowing those answers can help you avoid pitfalls during your first semesters on campus. For further information, see this section of the Catalog or contact the Academic Advising Center at (562) 985-4857.

1. How can I tell what requirements I still need to meet before I graduate? Use MyCSULB to check your Degree Progress Report. The default report will only list requirements that have not been satisfied. In addition, icons next to each requirement reflect the status of that requirement. You can print a copy of the Degree Progress Report to your major advisor or the Academic Advising Center for assistance.

2. Can my General Education (GE) Courses be used toward the requirement for my major ("double counted")?

A. Under the new 2008 G.E. pattern, up to ten units may double count for the major and G.E. Students under the 1990 G.E. pattern follow the previous double count G.E./major rules. See an advisor in the Academic Advising Center (Room 3, 562-985-4857).

3. How many units will transfer from a California Community College to CSULB? All bachelor's level courses transfer, but only 70 units of transferable course work will apply to your bachelor's degree. Additional transferable course work will receive subject credits only.

4. I transferred from a California Community College. Do I have to take any General Education courses? If you have received General Education certification, you are required to complete an additional nine (9) units of upper-division GE courses. If you have not been certified as having met the transfer pattern, you must meet the CSULB General Education requirements.

5. What does General Education (GE) Certification mean? There are three GE certification processes. Two may be completed at the California Community College (ICCC). They are either (1) the California State University (CSU) Transfer Pattern or (2) the Intersegmental General Education Transfer Curriculum (IGETC). The third certification process may be completed at another CSU. In all cases, GE certification means that you have completed your lower-division GE at a CCC or at another CSU.

6. Does having an A.A. degree from a California Community College mean I am GE Certified? Usually not. The minimum requirements for most A.A. programs do not include the lower-division GE pattern required by CSULB. CSULB also requires an additional nine (9) units of upper-division GE courses.

7. What is partial General Education (GE) Certification? Partial Certification means that transfer students have completed subject and unit requirements in some GE categories, but not others.

Baccalaureate Degrees

CSULB offers 71 baccalaureate majors (see a list of degree programs and admission requirements at the beginning of this Catalog). Baccalaureate degree programs are constructed of three interrelated areas: (1) the breadth component, called the General Education Program, which provides the basis for the baccalaureate degree with courses that offer training in general skills, methodologies, and habits of thought; (2) the depth component, which is designed to provide a major field of study in which there is a meaningful and coherent set of courses that establish an understanding of the broad field of knowledge and competence in the fundamental skills and methodologies of the discipline, and understanding and skill at an appropriate depth in one or more facets of the discipline; and (3) the elective component that provides the possibility for personal exploration, enhancement, and development to complement the rest of the degree program (and might include a minor and/or a certificate program).

Requirements for the Baccalaureate Degree

1. Completion of a minimum of 120 units for the Bachelor of Arts. Completion of the minimum number of units which could range from 120 to 140 required by the major program for the Bachelor of Science, Bachelor of Fine Arts, or Bachelor of Music degrees. See the description of the requirements for each major for the specific number of units required. There are restrictions (below) on how many units in certain categories may be counted toward the minimum unit requirement.

2. Completion of at least 40 upper-division units (courses numbered 300-499). No course taken at any community college may count toward fulfillment of those 40 units.

3. Completion of at least 30 units in residence at CSULB of which at least 24 must be upper-division and at least 12 must be in the major. Units earned in Extended Education cannot be counted toward fulfillment of the residence requirement.

4. Completion of the General Education program, described below, including at least 9 units in upper-division courses completed at CSULB.

5. Completion of the specific course and unit requirements for the academic major, as shown in the alphabetic listing for the major department. If the requirements are changed during students' continuous attendance at CSULB, they have the right to meet either the requirements in effect when they entered the major or the requirements in effect at the time they graduate. All upper-division courses required for a major must be completed within the ten-year period preceding award of the baccalaureate degree. Courses
completed prior to this ten-year period can be revalidated by such demonstrations of competence or knowledge of the subject as may be prescribed by the department offering the course.

The on-line Catalog Table of Contents has a link at the top to “Road Maps” that show a suggested sequence of courses to enable students to complete all degree requirements in a timely fashion. Since individual circumstances can vary, students should consult their major advisors for assistance in planning appropriate programs.

6. Satisfactory fulfillment of the Graduation Writing Assessment Requirement (GWAR) (See a description of the requirement at the end of this section.)

7. Achievement of a minimum 2.0 ("C") grade-point average in each of the following:
   a. The entire college record.
   b. All units attempted at CSULB.
   c. All courses in the major.
   d. All upper-division courses in the major completed at CSULB.

8. Formal approval by the faculty of the university.

Student Levels

Freshman .............................................0.0 to 29.9 units
Sophomore .........................................30.0 to 59.9 units
Junior ...............................................60.0 to 89.9 units
Senior ...............................................90.0 or more units
Postbaccalaureate ................................holding a baccalaureate or equivalent degree

Effective fall 2007, remedial coursework successfully completed at CSULB is included in determining undergraduate class levels.

Restrictions on Units That May Be Counted Toward the Minimum Required for the Baccalaureate

Activity Courses

Activity courses provide practice in such areas as music, dance, physical education and Sports, Athletics, and Recreation. Except as required by a student's major, students may apply to the degree no more than eight units each of activity course credit in music, dance, or physical education and no more than four units of activity course credit in SAR, up to a total of no more than 20 units in all areas.

Transfer Courses

No more than 70 units of courses from a Community College may be counted toward the minimum unit requirement for the baccalaureate. (For more detail, see the section on Transfer Credit in the Academic Information section of this Catalog.)

Extension Credit

A maximum of 24 semester units of Extension Credit may be accepted toward a baccalaureate degree.

Open University

The Open University program allows enrollment in regular university credit courses by those people who are not currently admitted to and/or registered at CSULB. Enrollment is on a "space available" basis, subject to the approval of the instructor and the department chair concerned. No more than 24 units of special session course credit earned through Open University or UCES Special Sessions course offerings at CSULB in non-matriculated status may count toward any undergraduate degree requirement. Students are considered in non-matriculated status in terms prior to the term of official admission to the degree granting program and during terms of disqualification from the degree granting program.

Special Session

There is no limit on UCES Special Sessions course credit, including Winter session, applicable to the degree if taken while in matriculated status in the degree program.

General Education

The Significance of General Education

The components of an undergraduate education include the major, in which the student acquires depth of knowledge, electives that allow a student to explore personal or career-related interests, and General Education (GE). General Education allows students to develop competency in academic skills that are essential to all academic majors. In addition, General Education offers students broad knowledge beyond the focus of the major, as well as exposure to the rich diversity of the human experience.

The General Education program at CSULB sequentially introduces students to the mastery of academic skills along with a pattern of course work that will provide graduates with an understanding of self, the physical world, the development and functioning of human society, and its cultural and artistic endeavors, as well as an understanding of the methodologies, value systems, and thought processes employed in human inquiries. It involves three stages: Foundation, Exploration, and Capstone. Students who begin their college careers at CSULB will complete all three stages, while transfer students who enter the university with a Full General Education Certification will be expected to complete the final (Capstone) stage only.

General Education Breadth requirements are specified pursuant to Title 5, California Code of Regulations, Sections 40402.1, 40403, 40405, 40405.1, 40405.2, 40405.4, and 40508, and Sections 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees of the California State University, and Executive Order 595. CSU General Education Breadth requirements have been designated to complement the major program and electives completed by each baccalaureate candidate to assure that graduates have made noteworthy progress toward becoming truly educated persons. These requirements are designed to provide the knowledge, skills, experiences, and perspectives that will enable CSU students to expand their capacities to take part in a wide range of human interests and activities; to confront personal, moral, and social problems that are an inevitable part of human life; and to cultivate both the requisite skills and enthusiasm for lifelong learning.

The Essential GE Student Learning Outcomes

Upon completion of the GE Breadth requirements, CSU students should show mastery in each of the following:
Knowledge of Human Cultures and the Physical and Natural World
Achieved through study in the Sciences and Mathematics, Social Sciences, Humanities, History, Languages, and the Arts.

Intellectual and Practical Skills, Including
- Written Communication
- Oral Communication
- Critical Thinking
- Quantitative Reasoning
- Information Literacy and Technology Literacy
- Teamwork
- Creativity, Inquiry, and Discovery

Personal and Civic Responsibility, Including
- Global Competencies
- Intercultural Competence (cultural values/traditions-U.S. Ethical Reasoning and Social Responsibility
- Self-Understanding
- Foundation and Skills for Lifelong Learning

Integrative Learning, Including
- Synthesis and Interdisciplinary Methods of Inquiry

Structure of the General Education Curriculum
Each California State University, Long Beach baccalaureate graduate shall have completed a minimum of 48 semester units of GE courses distributed as described below. The GE program includes three (3) units of approved course work in U.S. History and three (3) units of approved course work in U.S. Constitution and American Ideals required by Section 40404 of Title 5 and EO 405.

The General Education curriculum is organized as three sequential phases. First is the Foundation, a group of courses designed to provide fundamental learning skills. The second is Explorations, courses distributed across the curriculum that are intended to provide an opportunity to explore the various ways of acquiring and examining knowledge while continuing to develop learning skills. The third is the Capstone, designed to integrate knowledge and skills developed earlier in the curriculum.

In completing the Foundation, Explorations, and Capstone phases of the General Education program, all students must complete a distribution pattern described below.

Within the Explorations and Capstone courses of the General Education program, all students must take one 3 unit course of instruction that focuses on instructive examples of human diversity in the United States (Human Diversity in the U.S. courses). All students must also take one three (3) unit course of instruction that focuses on global issues or world societies and cultures (Global Issues courses).

At least nine (9) units of the General Education program must be approved upper-division Capstone courses taken after the student achieves upper-division standing (completion of 60 semester units) and must normally be completed at California State University, Long Beach.

Only courses on the General Education Master Course List at the time the student takes the course shall count for General Education.
Because the program is intended to provide breadth, no more than 10 units of General Education courses in the student's major department may be used to satisfy the GE requirements. "Courses in the major department" include all courses housed in the department offering the major, regardless of prefix. There is no limit to the number of units outside the major department that may be used to satisfy both the requirements for the major and the requirements for General Education.

A cross-categorized course may be counted (at the student's option) in any one of the approved categories A-E, but not in more than one.

Where appropriate exams exist, Foundation and Explorations requirements may be met by external examinations, such as Advanced Placement or International Baccalaureate exams.

Foundation
The first-year program at CSULB should pay special attention to the development and improvement of fundamental academic skills that are critical to student success in college. Every CSULB student will be expected to demonstrate mastery of key academic skills early in the course of study at CSULB, ideally within the first year. Among the skills most critical to success are communication in English, both written and oral, mathematical concepts and quantitative reasoning, and analytical and critical thinking. Students also need a solid foundation in skills for learning, including the ability to read for information, information retrieval/literacy skills, and basic technology skills.

All students are assessed at entry into the university for readiness for baccalaureate-level work in English composition and mathematics. The first priority for any student who is not prepared for baccalaureate-level work is to become fully prepared for college. Accordingly, students who have not demonstrated readiness for baccalaureate-level English or mathematics must complete the appropriate pre-baccalaureate courses within the first year after admission to CSULB. A student who is required to take either pre-baccalaureate mathematics or pre-baccalaureate composition may register for other 100-level Foundation or other General Education classes only if those courses do not have pre- or co-requisites in the area of deficit.

The following courses make up the Foundation curriculum:
- one three (3) unit course in Written Communication in English
- one three (3) unit course in Oral Communication in English
- one three (3) unit course in Critical Thinking
- one three (3) unit course in Mathematics
The above courses must all be completed with a grade of at least "C".

The Foundation curriculum must be completed by the time the student has completed 36 units of baccalaureate-level work at CSULB.

Courses in the Foundation curriculum will be numbered from 100 to 199. All other General Education courses must have pre- or co-requisites from the Foundation curriculum, and all General Education courses numbered 300 or higher must have the entire Foundation curriculum as prerequisites. A Foundation course may have a pre- or co-requisite of another Foundation class, if educationally justified.

74 • Baccalaureate Degree Information • 2009/2010 CSULB Catalog
Explorations

After an early focus on fundamental learning and academic skills, students will have an opportunity to explore human knowledge in many disciplines. The Explorations stage encompasses all areas outside the Foundation curriculum, as described under “Distribution.” It excludes the final nine (9) units of General Education, described under “Capstone.”

General Education courses numbered from 100 through 199 may be appropriately taken at the same time as courses in the Foundation curriculum.

Although the primary purpose of Explorations is the development of breadth of knowledge, it is expected that all courses will offer opportunities for continued development of foundational skills. Reading, writing, oral discussion and presentation, problem solving, quantitative reasoning, and critically and analytically based research are central to the learning of content. For this reason, all courses outside the Foundation must have pre- or co-requisites from the Foundation, and all courses numbered 300 or higher must have the entire Foundation curriculum as prerequisites.

In addition, as students progress through their Explorations, they will be expected to develop additional skills and attributes, including ethical reasoning, analytical reading, creativity, respect for difference, awareness of other cultures, questioning of stereotypes, the values of citizenship, negotiating skills, and other attributes of use in a diverse society.

Capstone

The final nine (9) General Education units form the Capstone. All students, including transfer students who have completed a certified lower-division General Education program, must complete nine (9) units of Capstone courses.

The purpose of the Capstone is to bring the strands of the General Education experience into focus, to reinforce knowledge and skills acquired from many areas, and to incorporate depth in the form of more sophisticated tools and analysis. For transfer students, the Capstone may offer an opportunity to connect to the campus in a learning community outside of the major department.

Distribution Requirement

Students must complete a minimum of 48 units of approved General Education courses, distributed as follows:

Category A – Communication in the English Language and Critical Thinking (all included in the Foundation) – At least nine (9) units to include:

- Category A.1. – At least three (3) units chosen from approved courses in Written Communication in English.
- Category A.2. – At least three (3) units chosen from approved courses in Oral Communication in English or a combination of oral and written communication in English.
- Category A.3. – At least three (3) units chosen from approved courses in Critical Thinking.

Category B – Natural Sciences and Mathematics – At least nine (9) units to include:

- Category B.1. – At least six (6) units of Natural Sciences to include:
  - Category B.1.a. – At least three (3) units chosen from approved courses in the Biological Sciences, which must include a laboratory experience.

Category C – the Arts and Humanities – At least nine (9) units to include:

- Category C.1. – At least three (3) units chosen from approved courses in the Arts.
- Category C.2. – At least six (6) units from 2 areas chosen from approved courses in the Humanities chosen from:
  - Category C.2.a. – Literature.
  - Category C.2.b. – Philosophy.
  - Category C.2.c. – Foreign Languages.

Category D – Citizenship and Social and Behavioral Sciences and History – At least 12 units to include:

- Category D.1. – At least six (6) units chosen from approved courses in U.S. Citizenship to include:
  - Category D.1.a. – At least three (3) units chosen from approved courses in U.S. History.
- Category D.1.b. – At least three (3) units chosen from approved courses in the Constitution and American Ideals.
- Category D.2. – At least six (6) units, from two different disciplines, chosen from approved courses in the Social and Behavioral Sciences and History.

Category E – At least three (3) units chosen from approved courses in Self-Integration

GE Electives – At least six (6) units required to meet 48 total units in GE. Additional courses to reach the minimum total of 48 units may be chosen from any courses approved for General Education credit in categories B, C, and D. This includes both courses that fit the specific designations above and other approved courses, designated as B.3 or C.3, that meet the general headings of category B or C but do not fit one of the specific required categories. Excess units from all or any combination of Category B or C or D, may be applied to this section.

Special requirements – All students, including all transfer students, must complete:

- at least 3 units from the above categories devoted to the study of Human Diversity in the United States, and
- at least 3 units from the above categories devoted to the study of Global Issues. [Note: Transfer students who began continuous attendance at a California Community College before Fall 2000 and who had General Education Full Certification upon entrance to CSULB are eligible to follow the requirements of earlier catalogs.]

Capstone Requirements – All students, including all transfer students, must complete at least 9 units of Capstone courses.

Capstone courses may be used to meet the specific category requirements and the Global Issues and Human Diversity in the U.S. requirements, if those have not been met by other courses. Students are expected to complete the Capstone requirement at CSULB. An exception will be made for students who transfer from another CSU campus after completing some of the upper-division GE requirement at that campus. To be accepted toward the Capstone requirement at CSULB, the transfer course must be approved for upper division general education credit at the campus offering the course. Other courses may be used, on an individual basis, to meet the requirement if they are approved for General Education at the
campus offering the course and if the purpose of the course meets the criteria for a CSULB Capstone course.

Students who transfer from baccalaureate institutions other than the CSU after completing upper-division General Education courses may petition to have one or more such courses accepted toward the Capstone requirement. Such petitions will be evaluated on the basis of the criteria above.

GE Requirements for Returning and Transfer Students

Students who have not maintained continuous attendance status shall be subject to the General Education requirements in effect at the time of their return to the university, with the following exceptions.

Previous CSULB students who were under earlier General Education requirements and who before breaking continuous attendance completed no more than three additional courses to complete the entire General Education requirement shall be allowed to complete the General Education requirement in effect at the time of the previous attendance. However, all students must complete at least 9 units of upper division General Education courses, of which a minimum of 6 units must be Capstone courses.

Previous CSULB students who were under the earlier General Education requirements and who before breaking continuous attendance completed one or more upper-division GE courses shall be required to complete additional Capstone courses as needed to complete the total of 9 upper-division units. At least two of the courses in the overall requirement must be Capstone courses.

Transfer students who enter CSULB with full GE certification from a California Community College must complete both the Human Diversity in the U.S. and the Global Issues requirements if these requirements were not met through transfer, but these students need not complete any other GE courses except the Capstone, which cannot be met through transfer from a community college. Transfer students who enter CSULB without full GE certification or subject-area (partial) certification from a California Community College must either complete the CSULB GE requirements, or complete and obtain a GE certification from a California Community College which will be honored as meeting CSULB's lower-division GE requirements.

Majors

Choosing a major is one of the most important, and sometimes most difficult, academic decision students will make during their college careers. There may be many possible choices of major that would provide preparation for a given career. The section on Degrees, Options, Minors, and Certificates earlier in this Catalog shows the many choices available and where to find information on each. Many departments have additional information posted on their web pages, accessible from the university's home page. Students are encouraged to interview faculty in possible majors and to seek the help of student services professionals to assist them in making this important decision.

A choice of major is not a final decision. There is no limit to the number of times a student may change majors.

Declaration of a Major

To help ensure timely completion of graduation requirements, students who have a total of 60 units completed must have declared a major before they may register for the next term. Upper-division transfer students are required to declare their intended major on their application for admission. (PS 06-04)

Change of Major or Other Objective

Undergraduate students declaring a major for the first time or changing from one degree program or degree option program to another must submit an approved Change of Major/Declaration form to the Office of Enrollment Services. Some departments may submit these forms electronically.

Students who are candidates for a certificate or credential program must also file a Request to Graduate. (Please see Graduation section of the Catalog.)

The evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes. Graduation checks needing to be redone may carry a special fee.

Double Major

Students may complete the requirements for two baccalaureate programs concurrently. One diploma will be issued reflecting both majors. A course, or courses, may be used to satisfy the individual requirements of both majors, without limit, as long as the required pattern of course work is completed for each major.

Minors

A minor is a structured selection of courses by which a student can enrich his or her academic preparation through concentrated study of a discipline that is different from, but may be related to, the student's declared major. A minor is a means to augment or complement the major by broadening the student's academic experience or serving as preparation for a specific career. Usually a minor is not required for the baccalaureate; however, students may elect to complete a minor and have that fact noted on their records. Students should consult with an advisor in their major department for recommendations on suitable minor fields of study.

A minor consists of a minimum of 18 units, as specified by the department or program, at least nine of which must be upper-division. The minor may be in a single subject or interdisciplinary. Students may not declare or receive a minor in the same subject as the major, and the major and minor may not have the same title. The description of each minor shall have a statement listing all majors, if any, that may not be combined with that particular minor. The minimum overall GPA in courses toward the minor is 2.0. A minimum of six units of course work toward the minor must be taken at CSULB.

Students should refer to the requirements of the department and college of their major, to see whether a minor is required for that major. Even if a minor is not required, students may elect to complete one or more minors from those available and have that fact noted on their transcripts. Unlike certificates, minors are awarded only as part of a baccalaureate degree. Students may not finish a minor after they have graduated, except in conjunction with a second baccalaureate degree.

Certificate Programs

California State University, Long Beach offers 40 baccalaureate-level programs leading to the award of a Certificate. Certificate programs differ from baccalaureate majors and minors in their emphasis on practical and applied...
uses of knowledge in a specific area of human enterprise. Certificates may be earned concurrently with or following the award of the baccalaureate degree. Certificate programs must require at least 18 units of coursework, of which at least 15 units must be at the upper-division level. Many certificates require 24 to 27 units. Courses taken to fulfill the requirements for the baccalaureate may also be applied to certificate requirements. A maximum of two 500-level courses, taken by eligible students in their senior year, may be applied to a baccalaureate certificate program. Extension and/or transfer credit may comprise no more than one-fourth of the course work used to meet baccalaureate certificate requirements. A grade-point average of at least 2.0 must be maintained in the certificate program's course work.

Students desiring to pursue a baccalaureate certificate program should consult the relevant department as early as possible to receive timely advisement on the program. Students wishing to receive a certificate must so indicate on the Request to Graduate form filed with the Office of Enrollment Services.

Additional Baccalaureate Degrees

A graduated student who wishes to pursue an additional baccalaureate degree and maintain undergraduate status may do so by completing a minimum of 30 units in residence at graduation, of which 24 units must be upper-division courses and 12 units must be in the major. (See the Catalog section on admissions for restrictions on the admission of candidates for a second baccalaureate degree.)

A senior, with advance approval of the Academic Appeals Committee, may earn a maximum of twelve units toward the additional degree while in residence for the first degree. Any courses to be applied to the additional degree must be specified and taken in addition to those needed to satisfy the requirements of the first degree.

Students applying for and accepted to a second baccalaureate degree program who have received their first baccalaureate degree or equivalent from an institution outside of the U.S. will be required to complete any deficiencies in the General Education pattern and will be evaluated for General Education on the same basis as undergraduates.

Enrollment of Seniors in Graduate Courses

Undergraduates may enroll in graduate courses only under the conditions specified below:

Graduate Credit Earned as a Senior

Graduate credit usually may not be earned in advance of the baccalaureate degree. Seniors may, however, be granted approval to earn a maximum of 12 units of course work in the 400 and 500 levels designated as acceptable for graduate credit and taken at this university towards their prospective graduate programs (based upon faculty recommendation, academic performance in general a grade-point average of 3.0 (B) in the major), and promise of academic achievement in post-graduate study). Approval is subject to the following conditions: (a) the course work must be in addition to that required for the undergraduate major; and (b) the undergraduate student must have a "Petition to Earn Graduate Credit in the Senior Year" approved by the departmental graduate advisor and the department chair prior to enrollment. (PS-92-08)

In those areas in which graduate credit is for a credential only, the petition must be submitted to the appropriate department in the College of Education. Petitions submitted after completion of course(s) will not be approved.

Senior Enrollment in Graduate Courses for Undergraduate Credit

Under special conditions, seniors who have a 3.0 grade point average or better in their major and who have adequate undergraduate preparation in the subject may enroll in up to 12 units in the 500-599 series to fulfill the elective requirements of the bachelor's degree. The course work may not be applied to the units of 500-600 level course work required by the department or college for the master's degree. The student must have a "Petition to Earn Credit Toward a Bachelor's Degree for a 500-Level Course Taken in the Senior Year" approved by the instructor and department chair before registration in the class(es) is permitted. (PS 92-09)

Graduation Writing Assessment Requirement (GWAR)

In order to obtain a degree or certificate from CSULB, all students must demonstrate upper-division competence in academic writing in English. For the purposes of fulfilling the Graduation Writing Assessment Requirement (GWAR), students are responsible for developing the skills necessary (which should include analysis and support with one or more of the following: synthesis, critique, inquiry, argument, and exemplification).

Undergraduate students fulfill the GWAR by one of the following:
1. Passing the Writing Proficiency Exam (WPE);
2. Passing another approved CSULB assessment of writing competence;
3. Having already passed an assessment of writing competence GWAR at another CSU campus, prior to transfer to CSULB.
4. Earning a CSULB-approved passing score on the writing portion of an approved standardized graduate admissions test, such as the Graduate Record Examination or the Graduate Management Aptitude Test.

Assessments of writing competence from non-CSU campuses are evaluated by the GWAR Coordinator for their equivalence before they are accepted to fulfill the GWAR.

Students need to fulfill the GWAR at least once. If unsuccessful, they may take it a second time or may attempt to fulfill the GWAR by another approved assessment of writing competence.

All continuing CSULB and transfer students who have not fulfilled the GWAR must register for and take the WPE by the end of the semester in which they earn 65 units. Upper-division transfer students who enter CSULB with 65 or more units must take the WPE within their first semester of residency at CSULB. (PS 04-06)

Students with degrees from non-CSU campuses must either provide proof of meeting the requirement with adequate scores on a CSULB-approved standardized graduate admissions test or attempt to satisfy the GWAR by the end of their first semester of matriculation at CSULB.

Students can register for the WPE at the Office of Testing and Evaluation Services, BH-216 (562) 985-4007, www.csulb.edu/conted/testing. Students must pay a fee each time they take
the test to cover the costs of test administration and scoring. The Testing Office offers three-hour workshops one to two weeks prior to each WPE date indicated in the Schedule of Classes. Information about these workshops, the WPE workbook, and related services can be obtained from the Testing Office.

Students who need assistance to prepare for the WPE should contact WPE faculty advisors in the Learning Assistance Center. Room 104, (562) 985-5300, or a special course like ENGL 301A would be helpful. Students who fail any two approved assessments of writing competence must meet with a GWAR faculty advisor located in the Learning Assistance Center. Room 104, (562) 985-5300. Such students are required to present evidence that they have followed the advisor’s recommendations regarding course work, tutoring, or other services connected to developing the requisite skills before they will be allowed to register for a third attempt.

The GWAR, Registration Holds, and Application to Graduate

If undergraduate students neglect to attempt the WPE by the time they earn 65 units, CSULB will place a hold on their privilege to register for classes. Students must sign up for and take the WPE to release these registration holds.

Students with compelling reasons can request deferrals at the Office of Testing and Evaluation Services. In certain circumstances, students, with help from their faculty or staff advisors, may submit an appeal or contract to release a registration hold temporarily. All students must attempt to fulfill the GWAR before filing a graduation application.

Graduation

Dates and Requests to Graduate

The university awards degrees at the end of each of four terms in a year: January (work completed at the end of Winter session); May or June (end of the Spring semester); August (end of Summer Session); and December (end of the Fall semester).

Seniors and graduate students who expect to receive degrees or Certificates at the end of any semester, winter or summer session must complete the Request to Graduate form and/or Certificate form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 15; and for Fall or Winter candidates, by the preceding March 1, at the Office of Enrollment Services. The names of Candidates who file within these deadlines will appear in the Commencement Program published each Spring. Publication of names in the program does not constitute graduation from the university. Credential students should apply in the Credential Processing Office, located in the Graduate School of Education, or the Office of Enrollment Services by February 1 for December completion and by October 1 for Spring and Summer sessions.

Requests to graduate submitted later than the deadline will be processed after those submitted on time. The degree will be granted once all requirements have been completed, but the student’s name will not be printed in the Commencement Program.

Completion of Records and Requirements

Prior to receiving a degree, students are responsible for the following:

- Insuring that the university has received official transcripts of all work completed at other institutions. If a grade of D or better is required to complete the degree, the credit must be submitted by the announced date, approximately one month after the official graduation date.

- Completing all requirements for the degree, including the minimum number of units. Units will not be counted toward the minimum if they are above the acceptable total in certain categories, as listed in the degree requirements, or if they are a repetition of a course for which credit has already been counted. Any substitutions or waivers of course requirements must be submitted by the advisor.

- Completing all “in progress” and “incomplete” courses that are to be completed. No additional work may be completed after the degree is awarded. No grade can be changed after the degree is awarded except for a change resulting from a grade appeal. Any incomplete remaining on the record as of the graduation date will be counted as if it were an “F,” with units attempted but no grade points earned, unless the instructor has specified on the incomplete form that some other grade be recorded.

Degree Clearing

Final review of records begins three weeks after final exams in the student’s last term, and can take up to three months. If all degree requirements are complete, the degree and any honors are added to the transcript. The transcript is the official verification of the degree.

It is the student’s responsibility to submit records of all changes in the record no later than the last day of the final semester or session. Such materials include transcripts from other institutions and amendments, substitutions, waivers, and grade changes.

Honors for Undergraduate Students

I. Graduation with Honors

A. Latin Honors

The following grade-point average (GPA) criteria are used to identify undergraduate students eligible for the honors specified:

1. equal to or greater than 3.950 graduated summa cum laude;
2. equal to or greater than 3.750 but less than 3.950 graduated magna cum laude; and
3. equal to or greater than 3.500 but less than 3.750 graduated cum laude.

An undergraduate student may be considered eligible for honors at graduation provided that a minimum of 45 units are earned at California State University, Long Beach. For the first baccalaureate degree, the GPA shall be determined from units earned at CSULB plus transferred units. For the second baccalaureate degree, the GPA shall be determined only by courses taken after the first degree was awarded that are also required by the second major.
B. Departmental Honors
With the approval of the dean of the college, departments may elect to award departmental honors to their graduates based on GPA and/or other criteria determined by the department. The number of honors awarded by a department shall be limited to three students or five percent of graduates, whichever is larger.

C. Notification
University honors will be noted on the diploma and transcript. Departmental honors will be noted on the transcript only.

II. Honor Lists
Undergraduate students exhibiting outstanding scholastic achievement are honored by being included on the president’s or dean’s list. A certificate will be issued for each semester in which the student receives this honor.

A. President’s List
Students will be placed on the President’s List to honor them for academic achievement each semester in which they complete 12 or more graded course units with an average GPA equal to or greater than 3.750. Students earning fewer than 12 graded course units per semester will be placed on the President’s List in the spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA equal to or greater than 3.750.

B. Dean’s List
Students will be placed on the dean’s list to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA equal to or greater than 3.500 but less than 3.750. Students earning fewer than 12 graded course units per semester will be placed on the Dean’s List in the spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA equal to or greater than 3.500 but less than 3.750.

Honor Societies
- Phi Beta Kappa – Founded at the College of William and Mary in 1776, it is the oldest and most prestigious honor society for students of the liberal arts and sciences. A chapter was established at California State University, Long Beach in 1977.
- Mortar Board – Founded in 1918 as an honor society focusing on scholarship, leadership, and service. Mortar Board is the first national honor society founded by and for college senior women, and the membership expanded to include men in 1975. The California State University, Long Beach Cap and Gown Chapter was founded in 1972, and grew out of an honor club established here by seven women in 1963. The Cap and Gown Chapter is one of over 200 Mortar Board Chapters, with a total national membership of over 250,000 dedicated, active scholars.

- Phi Kappa Phi is by invitation only and requires nomination and approval by the chapter and national society. Membership for juniors, seniors, and graduate students is based on integrity of character, one year residence in the University, and outstanding scholarship. Inquiries should be directed to the President of the University chapter of Phi Kappa Phi, Dr. C. J. Walter, clo College of Business Administration.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:
- Beta Alpha Psi (Accounting) — National scholastic fraternity to give recognition to excellence in the field of accounting.
- Beta Gamma Sigma (Business Administration) — National honorary business society to recognize superior academic performance.
- Chi Epsilon (Civil Engineering) — National honor society open to Civil Engineering majors with a 2.9 GPA.
- Chi Sigma Iota (Counseling) — International honor society open to graduate students with a GPA of 3.5, scholars, and practitioners in the counseling profession.
- Ela Kappa Nu (Electrical Engineering) — National honor society furthering area interests and promoting scholarship. GPA requirements for seniors 2.8, for juniors 3.0.
- Kappa Delta Pi (National honor society for teachers) — encourages high professional, intellectual, and personal standards. Recognizes outstanding contributions to education.
- Kappa Tau Alpha — National honor society that recognizes academic excellence and promotes scholarship in journalism and mass communication.
- Omicron Nu (Family and Consumer Sciences) — National honor society recognizing superior scholarship and promoting leadership and research in the field of Family and Consumer Sciences.
- Phi Alpha (Social Work) — National honor society to improve the goals of social work on campus. GPA requirement 3.0.

2009/2010 CSULB Catalog • Baccalaureate Degree Information • 79
• Phi Alpha Theta (History) — National honor society in history, founded to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.

• Phi Beta Delta (International Education) — National society, founded at CSULB, recognizes students from all disciplines with high GPAs and extensive involvement in international education or international studies.

• Phi Delta Gamma (Scholarship) — National honor society which fosters academic achievement and professional preparation.

• Phi Kappa (Education) — National organization which promotes service, research, and leadership in education. Members include both students and faculty.

• Phi Epsilon Kappa (Physical Education) — National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.

• Phi Mu Alpha-Sigma (Music) — National organization for students in music. Promotes music in America, especially contemporary American music.

• Phi Alpha Alpha (Public Administration) — National society to encourage scholarship among students of public administration.

• Phi Sigma Tau (Philosophy) — National honor society for students with a strong undergraduate concentration in philosophy.

• Pi Kappa Lambda (Music) — National honor society for scholastic achievement in music.

• Pi Lambda Theta (Education) — National organization for undergraduate and graduate students. Purpose is to maintain high standards of scholarship and preparation for teaching.

• Pi Mu Epsilon (Mathematics) — National honor society recognizing distinction in mathematics.

• Pi Sigma Alpha (Political Science) — National honor society for political scientists. Open by invitation to upper-division and graduate students with a 3.0 GPA.

• Pi Tau Sigma (Mechanical Engineering) — National honorary fraternity encouraging and recognizing outstanding scholastic achievement of students in the field.

• Psi Chi (Psychology) — National honor society recognizing distinction in Psychology. Sponsors research and other participation in psychology.

• Sigma Alpha Iota (Music) — National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.

• Sigma Delta Pi — Capitulio Phi Chi — One of the purposes of this society is to honor those who attain excellence in the study of the Spanish language and in the study of the literatures and cultures of the Hispanic World.

• Sigma Theta Tau (Nursing) — International honor society recognizing superior scholastic achievement, leadership, and community service in nursing.

CSULB Alumni Association

The CSULB Alumni Association is the link between the University and its more than 220,000 graduates to garner their support for The Beach. It sponsors various alumni programs, communication vehicles to inform alumni about their alma mater, and supports the University with departmental grants and student scholarships including the prestigious President’s Scholars Program.

The Association is governed by a volunteer board of directors who serve as alumni ambassadors for the university, promote its mission, and reconnect alumni with the institution. Other volunteers assist with its other programs such as Homecoming, commencement hospitality, and convocation events.

Membership dues for CSULB graduates and credential holders are a one-time $49 fee. For non-graduates, including alumni who took CSULB classes but did not graduate, the fee is $49 for the first year and $25 annually thereafter.

The main benefit of membership is to keep informed about their alma mater through its magazine "Beach Connection" and e-communicates. In addition, members have access at all CSU libraries (check with campus library for alumni restrictions), discounts at the Carpenter Performing Arts Center events and home games, and access to various group insurance policies (medical, home, auto, life, etc.), the CSULB Alumni Association Credit Card through Bank of America, etc. Alumni also can access the CSULB Career Development Center for an annual fee.

For more information about the CSULB Alumni Association, check the website at www.csulb.edu/alumni or call 562-985-5252.

Giving at the Beach

Beach Fund

Though Cal State Long Beach is a publicly supported institution, generous contributions to the Beach Fund are critical to keeping the University thriving. Supporting the Beach Fund allows the President and Deans to address the ongoing, immediate needs of the University. Contributions to all areas enhance state support and student fees to provide all students with access to a quality education. Such areas most impacted by your support are:

• Student Success and Access
• Teaching and Discovery
• Creativity and Innovation
• Science and Technology
• Global and Community Engagement

None of these successes can be accomplished with state funding alone. More than 20,000 alumni, parents, and friends of the university contribute to the Beach Fund each year. Gifts to the Beach Fund make it possible for our gifted students to earn the lifelong benefits of a quality CSULB education and protect the value of degrees already earned. Please feel free to contact the Office of Annual and Special Giving by phone at (562) 985-3294 or via email at annaigiving@csulb.edu.

Senior Gift Campaign

Every graduating senior is contacted near graduation to initiate a pledge in support of the campus. Seniors are asked to donate $125 to purchase a brick to be permanently placed in the Alumni Brick Plaza. Gifts of $125 or less are designated to the Annual Fund to be used for essential campus needs. Seniors have proven to be generous and loyal donors to the University.

Graduate Studies

Graduate study is primarily designed to inspire independence of mind and originality in the quest for knowledge, truth, and useful application. Candidates for a master's degree are required to demonstrate mastery in their chosen field of study either through independent research culminating in an acceptable thesis or project, or through successfully passing a final comprehensive examination.

Graduate curricula are designed to provide each student with advanced study in a discipline. All courses listed in a master's degree program, including those outside the major field, must be graduate or upper-division courses approved by the student's graduate committee and department graduate advisor.

A student who plans to become a candidate for a master's degree must hold a bachelor's degree from an accredited institution or have completed equivalent academic preparation at a foreign university as determined by the appropriate campus authority. The student must have completed undergraduate course work substantially equivalent to that required at California State University, Long Beach in the discipline of intended graduate study, or must be prepared to undertake additional work to make up any deficiency. Most graduate degree programs are based upon preparation in the discipline at the undergraduate level. Undergraduate preparation is considered adequate if a candidate has met the upper-division requirements of this University for a bachelor's degree in the subject matter area of the master's degree program. Refer to specific departments for detailed requirements of each degree program.

The following graduate degrees are offered:

Master of Arts Degree in:
- Anthropology
- Applied Sociology
- Art
- Asian Studies
- Communication Studies
- Communicative Disorders
- Dance
- Economics
- Education
- English
- Family and Consumer Sciences
- French
- Geography
- German
- Global Logistics
- History
- Interdisciplinary Studies
- Kinesiology
- Linguistics
- Music
- Occupational Studies
- Philosophy
- Political Science
- Psychology
- Religious Studies
- Spanish
- Theatre Arts

Master of Business Administration

Master of Business Administration / Master of Fine Arts in Theatre Management

Master of Fine Arts Degree in:
- Art
- Creative Writing
- Dance
- Theatre Arts

Master of Music

Master of Physical Therapy

Master of Public Administration

Master of Public Health

Master of Social Work

Master of Science in Nursing/Master of Public Health

Master of Science Degree in:
- Aerospace Engineering
- Biochemistry
- Biology
- Chemistry
- Civil Engineering
- Computer Science
- Counseling
- Criminal Justice
- Electrical Engineering
- Emergency Services Administration

2009/2010 CSULB Catalog • Graduate Degree Information • 81
Engineering
Geology

Microbiology
Nursing
Nursing/Health Care Administration
Nutritional Science
Physics
Psychology
Recreation Administration
Science Education
Special Education

Civil Engineer Degree

Ed.D. in Educational Leadership
Ph.D. in Engineering and Industrial Applied Mathematics

Certificate Programs and Graduate Study

Students, whether graduates of CSULB or of another accredited institution, may complete the requirements for and be awarded certificates while in graduate standing. Admission requires a bachelor's degree from an accredited institution, at least a 2.5 grade-point average in the most recently completed 60 units of course work, and fulfillment of the Graduation Writing Assessment Requirement (GWAR). Certificate programs are of two types: baccalaureate certificates which may be taken concurrently with or following the award of the baccalaureate degree, and graduate certificates which require post-baccalaureate standing. The graduate certificates are listed below, with the department responsible for each certificate indicated in parentheses.

Graduate certificate programs require at least 18 units of course work, of which at least 12 units must be at the 500 or 600 level. Courses taken to fulfill the requirements for the master's degree may also be applied to certificate requirements, if the certificate program permits, but such overlap may not exceed 15 units. Courses in directed research, directed reading, internship, and independent study may comprise no more than 3 units of a graduate certificate program. Thesis and student teaching may not be used on the program. Extension and/or transfer credit may comprise no more than one-sixth of the course work used to meet graduate certificate requirements. A grade-point average of at least 3.0 must be maintained in the graduate certificate program's course work. All courses used to complete the requirements of a graduate certificate must be completed within a five-year period from the date of the initial course work.

If you wish to pursue a graduate certificate program, you should review the course requirements listed in the department course listings of this catalog. You should notify the relevant department of your intention to pursue a certificate program as early as possible so as to receive early advisement and planning.

Certificates

Career Guidance Specialist (Educational Psychology, Administration, and Counseling)
Community College (Educational Psychology, Administration, and Counseling)
Health Care Administration (Health Care Administration)
Leisure Counseling (Recreation and Leisure Studies)
Museum Studies (Art)
Nurse Practitioner (Nursing)
Public Management Analyst (Public Policy and Administration)
Public Sector Employer-Employee Relations and Personnel Management (Public Policy and Administration)
Public Sector Financial Management (Public Policy and Administration)
Systems Engineering (College of Engineering)
Teaching English as a Second Language (Linguistics)
Transportation Policy and Planning (Public Policy and Administration)
Urban Executive Management (Public Policy and Administration)
Waste Engineering and Management (Civil Engineering)

Post-Baccalaureate Studies

Students with a baccalaureate degree who wish to continue their education for personal enrichment or to meet professional needs may do so at CSULB either as a post-baccalaureate student or as a graduate student. A post-baccalaureate student is one who has not declared a master's degree or a credential as an objective but who is nevertheless attending classes and participating in academic work at the University beyond the baccalaureate degree. Post-baccalaureate students may only enroll through University College and Extension Services. A graduate student is one who has requested and received formal admission to a specific field of study that will lead to a graduate degree in one of the many disciplines available at CSULB.

Candidates for public school service credentials at the University are advised to familiarize themselves with the requirements for these programs. Descriptions of credential programs appear in the Credential Programs section of this Catalog and in the separate departmental sections of this catalog.

Graduate and Post-Baccalaureate Admission Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective. Students who meet both the minimum requirements established by the CSU system and the specific professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the academic program will be admitted as Classified Post-Baccalaureate or Credential candidates. Applicants may be admitted as Conditionally Classified if, in the opinion of appropriate campus authorities, deficiencies may be remedied by additional preparation. In unusual circumstances, a campus may make exceptions to these criteria.
To meet the minimum requirements for admission to graduate and postbaccalaureate studies at CSULB, a student shall at the time of enrollment: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; and (3) have attained an acceptable grade-point average in any of the following ways: (a) hold an advanced degree; (b) hold a baccalaureate degree with a cumulative GPA of at least 2.5 (A = 4.0); (c) hold a baccalaureate degree with a GPA of at least 2.5 in the last 60 semester (90 quarter) units attempted (excluding lower-division and extension course work taken after the degree).

Students in the process of completing a baccalaureate degree may be admitted on a provisional basis, subject to proof of degree completion by the established deadline, if their cumulative GPA is at least 2.7 or their GPA in the last 60 semester or 90 quarter units is calculated at 2.5 or higher.

For information on the specific requirements for admission to a given program, see the Catalog section for that program. These and other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website, www.calstate.edu and the CSU admissions portal www.csumentor.edu are good sources of the most up-to-date information.

Admission to the University

In order to be admitted to CSULB as either a post-baccalaureate classified student or as a graduate student, the applicant must meet the following requirements:
1. Have earned a baccalaureate degree from an accredited university or college;
2. Have been in good standing at the last institution attended;
3. Have at least a 2.5 grade-point average in the last 60 semester (or 90 quarter) units attempted, independent of when the baccalaureate was granted. The entire term in which the 60 semester (or 90 quarter) units began will be used in this calculation. Lower-division courses or courses taken in extension (except in adjacent enrollment at CSULB in the upper-division level), after obtaining the bachelor’s degree, will be excluded from the calculation.

Students wishing to enroll in the University must follow the instructions supplied by the Office of Enrollment Services in the Admissions section of this Catalog.

NOTE: Graduating undergraduate CSULB students do not automatically continue as graduate students. They must apply under the same conditions as non-CSULB students. Once applications are received, they will be evaluated at appropriate offices. To be admitted to the University, a student must also be admitted to a specific program. The University does not admit post-baccalaureate students who do not have a degree, certificate, or credential objective. Provisional admission is granted to applicants anticipating their baccalaureate degree prior to registration but subsequent to filling the application. Proof of the baccalaureate is mandatory (final transcript must be on file) prior to the student’s second semester of attendance. If in not, provisionally admitted students will be prohibited from future enrollment until such proof is on file.

The student must request all institutions of higher learning attended (except for CSULB) to send an official copy of transcripts directly to the Office of Enrollment Services and to the department advisor of graduate studies. Graduates of California State University, Long Beach must follow these same procedures when making application to a graduate degree program.

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who possess a bachelor’s degree from a postsecondary institution where English is not the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL), 213 on the computer-based version of the TOEFL or 80 on the Internet-based (IBT). Some programs may require a higher score.

Admission to a Department as a Graduate Student

In order to pursue a credential or master’s degree, students must be accepted by the department or college offering the degree program. In some instances (see specific department listing) this process may require making a separate application to the department or college. Following review by the department or college will determine whether or not a student meets its requirements for admission to its degree program. Departments or colleges that receive more applications from qualified students than the number of graduate spaces they have available will admit students in priority order based on the strength of candidates’ qualifications.

On the other hand, if space is available, a student who is admissible to the University but does not meet program requirements for admission may nevertheless be accepted as a conditionally classified graduate student by the department or college offering the program, subject to the proviso that all remaining admission requirements of the program must then be fulfilled after enrollment. Only the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee is authorized to grant conditional admission to a student who does not meet University requirements, and such action will be taken only in rare and compelling circumstances.

Special Action

In rare and compelling circumstances, an applicant who does not qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the department/college concerned and in the judgment of the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to his/her educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.

Graduation Writing Assessment Requirement (GWAR)

As a requirement for advancement to candidacy, all graduate students must demonstrate upper-division competency in academic writing in English. Students must either submit evidence of having fulfilled this requirement elsewhere or attempt to fulfill it no later than the end of their
first semester of matriculation at CSULB. All graduate students must fulfill this GWAR by one of the following:
1. Passing the Writing Proficiency Exam (WPE)
2. Passing another approved assessment of writing competence
3. Having fulfilled a GWAR as part of their baccalaureate degree(s) while matriculated at CSULB or at another CSU campus
4. Earning a CSULB-approved passing score on the writing portion of an approved standardized graduate admissions test, such as the Graduate Record Examination or the Graduate Management Aptitude Test

Assessments of writing competence from non-CSU campuses will be evaluated by the GWAR Coordinator as a fulfillment of the GWAR on an articulation basis if possible, or on a case-by-case basis if necessary.

Graduate students must satisfy the GWAR before they will be advanced to candidacy. (Advancement to candidacy requires satisfying the GWAR and satisfactorily completing six or more semester units in residence earning a 3.0 GPA or greater.) Graduate students must also visit their graduate faculty advisors in their first semester to determine if additional departmental or program writing requirements apply to their advancement to candidacy.

It is the students’ responsibility to ensure that any passing scores they have earned on the essay portions of standardized graduate admissions tests are reported to the Office of Enrollment Services. It is also the students’ responsibility to ensure that their specific department or program receives up-to-date GWAR scores and information.

Graduate Research Fellowship

The Graduate Research Fellowship is awarded by CSULB faculty to students who show potential for success in scholarship and creative activity and are interested in advanced study. Interested students should contact the office of their college dean for information on the nomination process.

Second Master’s Degree

A graduate student who is currently enrolled in a master’s program at CSULB must complete that master’s program before enrolling in courses for another degree. A graduate student who already holds a master’s degree from this or any other accredited institution but desires to become a candidate for a second master’s degree in a different field is subject to the following regulations:
1. All admission requirements of the University and college or department must be met (all general regulations listed in the Catalog apply to the second master’s degree);
2. Enrollment and approval of candidacy for the second degree will be granted only after the first degree has been completed and awarded;
3. All requirements for the new degree must be completed;
4. After awarding of the first master’s degree, a minimum of 24 units of graduate residence credit must be earned at this University including the minimum of 500/600-series units mandated by the major department in which the student is earning the second master’s degree;
5. No more than six units earned on the first degree may be applied to a second master’s degree;
6. Prerequisites for an advanced course must be completed prior to enrollment in the advanced course. An instructor may disenroll a student who does not provide evidence of adequate preparation;
7. All prerequisites must be completed prior to application for candidacy;
8. Two master’s degrees cannot be awarded concurrently;
9. The area or discipline in which the second degree is earned shall be designated on the transcript and a second diploma awarded.

Graduate Study in the International Programs

Students planning to participate and receive credit toward a master’s degree in an International Program should consult with the graduate advisor in the department of their major and college dean or director of graduate studies before entering the degree program.

Graduate students who have not been admitted to candidacy for a master’s degree and who participate in the International Programs may, upon their return to California State University, Long Beach, petition to have six units earned as resident credit in the International Programs included on their official student program for the master’s degree. In no case may excess grade points earned in the International Programs be used to bring a grade-point deficiency at California State University, Long Beach to the required 3.0 (B) average.

Students admitted to candidacy for a master’s degree who plan to participate in the International Program of Studies must obtain permission, prior to beginning their study abroad, to have units earned abroad applied toward satisfaction of their degree requirements. A candidate’s petition to apply units earned abroad must be reviewed and recommended by the department offering the degree. The specific courses to be taken on the foreign campus, thesis research which is to be done abroad, or any other requirements such as examinations to be taken upon the student’s return must be listed on the official student program. Usually no more than six units of credit may be transferred to apply toward the minimum 30 units for an advanced degree as a result of participation in the International Program of Studies, but a maximum of 12 units may be allowed by the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee in consultation with the University Graduate Council in a special case.

A copy of the candidate’s graduate student program must be forwarded to the Resident Director for the foreign area, who must certify that any credit earned abroad is appropriate to meet graduate degree requirements.

Pending the faculty’s evaluation of the student’s work, a Report Delays (RD) grade will be assigned in all courses in which work was completed abroad and which are offered to satisfy requirements toward an advanced degree.

Change of Objective

Evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Candidates desiring a change in graduate objective to a discipline different from that indicated on the original application must reapply to the University. Reapplication requires the submission to the Office of Enrollment Services of a newly completed Graduate and
Postbaccalaureate Admission form and payment of the associated fee. The proposed new graduate department or program will review the application and notify Enrollment Services of its decision. Students who are admitted to a new discipline must then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy." Students who are not admitted to a new discipline have the option of continuing to pursue their original objective.

The only exception to the procedures described in the preceding paragraph is for students seeking to change from one degree program to another degree program within the same discipline (for purposes of this regulation, all options offered by the College of Education are considered to be part of a single discipline). In such cases candidates must obtain a Petition to Change Objective from the Office of Enrollment Services, obtain the required department/program signatures, return the completed petition to the Office of Enrollment Services, and then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy."

Withdrawal from the Degree Program

If a student wishes to resume graduate study after withdrawal, the student must reapply to the University and to the graduate program. If admitted, the student must be readvanced to candidacy and the department or college may determine that the student's graduate program should be changed.

University Regulations Governing the Master's Degree

General

The following regulations apply to all graduate degree programs. Specific academic and curricular requirements of individual degree programs are given in the departmental listings of this catalog.

All regulations involving a calculation of grade-point average subsequent to admission to the University as a graduate student shall be based on the following common practices and standards.

"Cumulative Graduate Grade-Point Average" shall be calculated on all upper-division and graduate-level coursework attempted by a student at this University after completion of a baccalaureate degree.

Grade-point average standards calculated on the basis of a smaller range, grouping, or set of upper-division and graduate-level courses, for example, "courses in the major" or "courses taken since admission to the degree program," presuppose that the student has met the minimum standard for any larger range, group, or set, including the Overall Graduate Grade-Point Average.

1. A student pursuing the master's degree must maintain a Cumulative Graduate Grade-Point Average of 3.0 (B).

2. At least a 3.0 (B) average must be maintained in the degree program.

3. No course with a grade lower than "C" may be applied toward the fulfillment of degree requirements.

4. Graduate students cannot repeat and delete courses either for credit or to improve their grade-point average, but may repeat and average courses and grades for courses required for the degree.

5. The individual course of studies (student program) for the master's degree must contain a minimum of 30 units in upper-division and graduate courses.

Some degree programs require additional units. Please consult individual degree program requirements.

A minimum of sixty percent of the units required for the degree shall be in the 500- and 600-level series and these shall be completed at this University, consistent with departmental requirements. Student teaching cannot be included in any master's degree program.

6. A thesis, project, or final comprehensive examination must be completed. A minimum of four and a maximum of six semester units shall be allowed for a thesis or project. Failure of the comprehensive examination or thesis requirement is failure of both options. Thus, a student failing the comprehensive examination may not proceed to the thesis/project option or vice versa. Once a student has completed a semester of enrollment towards fulfillment of either the comprehensive examination or thesis/project option, the student may not change from one option to the other without the approval of the faculty concerned, the department chair, and the appropriate dean or designee.

7. No fewer than 24 semester units shall be completed in residence at the University. The Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee may authorize department/college approved substitution of credit earned by alternate means for a part of the residence requirement. Units, including continuing education or extension units, accepted by transfer for application toward the minimum units required for a master's degree cannot be used to fulfill the minimum unit requirements in the 500/600 series. This 500/600 unit requirement must be completed in the major discipline and in residence at this University.

8. All requirements of the degree program must be completed within seven years of the date the student program was initiated, i.e., the date (semester) when the earliest course appearing on the student program was completed. An extension of time beyond the limit may be granted by the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee if warranted by individual circumstances and if the outdated work is validated by comprehensive examination in the relevant course or subject field work, or such other demonstration of competence as may be prescribed by the department and/or college.

9. A graduate student who expects to receive a degree at the end of any semester or summer session must be enrolled during that semester or session and must complete the Request to Graduate Form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 1; for Fall candidates, by the preceding March 1 at the Office of Enrollment Services. The names of candidates who file within these deadlines will appear in the Commencement Program published each Spring.
Note: Graduate Studies 700 may only be used to fulfill the enrollment requirement if the applicant has completed all degree program courses prior to the semester of graduation. An incomplete grade not otherwise resolved prior to graduation will automatically revert to the letter grade indicated on the "Requirements for Assigning an Incomplete Grade" form. A course with an unresolved grade of RP (Report in Progress) will remain on the transcript but will be removed from the student's program of study. Incomplete grades cannot be resolved after graduation.

10. Proficiency of a student in all parts of a curriculum is determined by the faculty of the University. A favorable vote of the faculty is required for a student to receive the degree.

The Program

A student must consult with the graduate advisor of the department or college to prepare a tentative degree program. After completing prerequisites and other requirements, the student must formulate an official student program and apply for advancement to candidacy.

The department will assign the student a faculty advisor who must be consulted about preparing a degree program. The advisor should have an official evaluation of the student's previous work from the Office of Enrollment Services, although transcripts provided by the student may be used to develop a tentative student program and discuss degree requirements. When the Office of Enrollment Services' evaluation and the results of tests are available, the faculty advisor can assist the student in drawing up the degree program. The student must be approved by the student's faculty advisor, the departmental graduate advisor, and the college dean or director of graduate studies or, for Interdisciplinary Studies, the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee. The student program must list the following:

1. Courses required for removal of undergraduate deficiencies;
2. All courses taken prior to advancement to candidacy which are to apply toward the 30-unit minimum;
3. Rotated courses;
4. Elective courses.

The official student program, when approved, serves as the basis for the Office of Enrollment Services' graduation check which is required before the degree can be granted. Students who have not been advanced to candidacy are subject to all changes as published in the Catalog, Policy Statements, and certifications. Graduate student programs may be revised as the student advances toward the degree. Such revisions must be recommended by the faculty advisor and approved by the departmental graduate advisor and the college dean or director of graduate studies or, for Interdisciplinary Studies, the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee.

Advancement to Candidacy

Advancement to candidacy is the next step after achieving classified status and confers the equivalent of catalog rights on graduate students. Advancement to candidacy also signifies approval of a plan of study by the student's major department and college or, in the case of an Interdisciplinary Studies graduate student, approval by the Director of the Interdisciplinary Studies Program. The prerequisites to advancement to candidacy are:

1. Classified status;
2. Fulfillment of the CSULB Graduation Writing Assessment Requirement (GWAR). Information is available in Testing and Evaluation Services (Brotman Hall 216);
3. A minimum 3.0 overall grade-point average and a 3.0 grade-point average in all units undertaken for the student program (at least 6 units);
4. Enrollment.

All graduate students are required to advance to candidacy when the above prerequisites have been successfully completed. Advancement to candidacy is to occur at least one semester or summer session prior to the semester (session) in which the student expects to graduate. It must occur prior to a student filling the Request to Graduate form with the Office of Enrollment Services. Filing deadlines are the same as for baccalaureate degree candidates. A student must be enrolled in the semester or summer session in which advancement to candidacy takes place. All students must consult with their graduate advisor regarding advancement to candidacy as well as to determine any departmental requirements to graduate from the University.

An approved graduate student program remains in effect as long as a candidate is making satisfactory progress. To insure minimum satisfactory progress toward the degree objective, the student must enroll every fall and spring semester and complete all degree requirements within seven years after completion of the first course on the student program. See also information about Graduate Studies 700 later in this section. The student may not change the graduate major without filing a new application for admission. If admitted to the new discipline, the student must then follow the steps indicated above for obtaining approval of a new student program and advancement to candidacy.

A student entering military service after having been advanced to candidacy will not be considered as having withdrawn from candidacy, provided that the student is honorably discharged, enlisted, or called to active duty during a semester in which enrolled or not more than one semester thereafter, and provided that the student enrolls for work toward a degree within one calendar year of the date of release from service.

Students who have been advanced to candidacy and absent themselves from the University on educational leave will be considered as not having withdrawn from candidacy for an advanced degree, provided the terms of the educational leave are fulfilled. Such students must reapply when returning to the university, but the application fee will be waived.

A department or college recommends a student for advancement to candidacy by forwarding a graduate student program for approval to the college dean or director of graduate studies. After the student's program has been processed and approved, a copy of the completed student program and a letter advancing the student to candidacy will be mailed to the candidate, with copies filed with the department or college and the Office of Enrollment Services.

A student must be enrolled in the semester or summer session in which advancement to candidacy takes place, and this must occur no later than one semester or summer session prior to completion of course requirements. Normally, a student is eligible and should file for advancement to candidacy after completing six units of graduate coursework for the graduate degree program with a 3.0 grade-point average.
Election of Regulations

Graduate students advanced to candidacy will be held responsible for the regulations governing master’s degrees in effect at the time of advancement or at the time the last requirement for the degree is met. A change in master’s degree objective or readmission to a graduate degree program following withdrawal requires that a new student program be filed under the current graduate policies as published in the latest edition of the Catalog.

Teaching Associatehips and Graduate Assistantships

Many CSULB departments have Teaching Associate (TA) and/or Graduate Assistant (GA) positions available for qualified graduate students. Students should check in department offices or on the campus web site for more information.

Comprehensive Examination

Each department or college requiring a final comprehensive examination determines the content of the examination. Such examinations may be written or oral or both. A faculty committee shall represent the department in preparing questions, administering, and reading the examination. Through the comprehensive examination, the faculty provides an opportunity for the master’s degree candidate to demonstrate analytic ability and knowledge of the discipline. Working with the department chair or dean of the college and the appropriate committee, the departmental graduate advisor usually assumes responsibilities for scheduling the examinations and for selecting the other faculty members to participate.

Students may not enroll for courses in preparation for the comprehensive examination or take the comprehensive examination unless they have been advanced to candidacy for the master’s degree or unless advancement to candidacy will occur in the semester in which the enrollment takes place.

During the first semester of residence, the graduate student should ascertain from the faculty advisor what preparation will be expected. Early in the final semester of study for the degree, the candidate should contact the departmental graduate advisor to make arrangements for taking the examination. The department or college will notify the Office of Enrollment Services whether the student has passed or failed the final comprehensive examination. A candidate who has failed will usually be allowed to take the final comprehensive examination a second time, and the departmental graduate advisor should be contacted for specific procedures for the second attempt.

To award a candidate the master’s degree for a particular semester, the results of the comprehensive examination must be reported to the Office of Enrollment Services prior to the end of the semester.

Theses and Projects

A student may enroll for Thesis (course 698 or 699) only when that student has been advanced to candidacy for the degree or when advancement to candidacy will occur in the semester of initial enrollment in Thesis.

Theses and projects submitted in partial fulfillment of the requirements for a graduate degree at this University shall meet the following definitions established by the Trustees of the CSU.

A thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis will be required.

A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project’s significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

Students are responsible for understanding the definition of a graduate thesis as outlined above and must follow the format guidelines prescribed by the University and department in which the thesis is completed.

Thesis Committees

A student’s thesis committee shall consist of at least three members qualified in the areas relating to the thesis. At least two shall be full-time faculty members at CSULB, one of whom must be tenured or tenured-track. The chair of the thesis committee must be a tenured or tenure-track faculty member from a department authorized to offer a graduate degree. The thesis committee must be approved by the appropriate department graduate advisor and the college associate dean or director of graduate studies. Normally the chair of the committee also serves as thesis director, but this is not necessarily so. The thesis director must be a person qualified in the specific area of the thesis, but need not be a tenured or tenure-track faculty member. The committee shall be responsible for the guidance of the student throughout the thesis effort. Any change in the composition of the committee requires justification and must be approved by the appropriate department graduate advisor and college associate dean or director of graduate studies.

Thesis committee members will advise and direct students in their thesis work and ensure that the thesis meets the standards and definition of a thesis specified above.

Thesis committee members will determine the grade to be awarded for completion of the thesis; and by signing the thesis signature page, thesis committee members certify that they have determined that the thesis meets the required standards of scholarship, format, and style of the discipline.

When the thesis committee includes a thesis director who is not the chair of the committee, this person may be identified on the thesis approval page as "Thesis Director.”

Thesis Committee Chairs

Thesis committee chairs will determine that the student has the proper preparation in terms of coursework and research skills to pursue the proposed thesis.

In departments where this function is not carried out by graduate advisors, thesis committee chairs will advise the student in the selection of other members for the thesis committee, ensuring that the other members are appropriate to the proposed thesis effort.

Thesis committee chairs will be the major contact point with the student and will oversee the other committee members’ work with the student.
Thesis committee chairs will assume that the editorial and format standards appropriate to the mechanical preparation of a thesis are followed.
Thesis committee chairs will establish guidelines for the student and timetable to be followed to ensure completion of the thesis in a reasonable time.
Thesis committee chairs will arrange for the oral defense of the thesis when required.
The thesis committee chair is responsible for canvassing the committee and reporting the grade agreed upon by its members. After the completed thesis has been reviewed by the University Thesis and Dissertation Office for conformance with prescribed format criteria and the approval page has been signed by the committee and by the dean or department chair, as appropriate, the final grade will be submitted.

Thesis and Dissertation Office
All theses must be acceptable for deposit in the University Library. The Thesis and Dissertation Office in University Library will verify that each thesis meets the format criteria prescribed by the department or degree program and by the University and that it meets all University procedural requirements for theses. Students should consult the University Thesis and Dissertation Office for information, advice, and assistance on the mechanics of preparing a completed thesis and should purchase a copy of Master’s Theses and Projects: Guide to Style and Format (copies of this guide can also be checked out from the reserve desk in University Library). The Thesis and Dissertation Office also conducts workshops on how to prepare a thesis or dissertation at CSULB.

Academic Probation and Disqualification
Graduate Students

For purposes of determining eligibility to remain at the University, both quality of performance and progress toward the student’s objective will be considered. Eligibility will be determined by use of grade points and grade-point average.

Students who are enrolled in a graduate degree program in a conditionally classified or classified standing will be subject to academic probation if they fail to maintain a cumulative grade-point average of at least 3.0 (as defined earlier under General Regulations Governing the Master’s Degree) in all units attempted subsequent to admission to the degree program. Every graduate student who has been advanced to candidacy must maintain a cumulative grade-point average of 3.0 and a grade-point average of 3.0 in all courses applicable to the degree. Candidacy for an advanced degree may be revoked if a student’s cumulative grade-point average falls below 3.0 at any time. Students who become subject to dismissal from an advanced degree program will be notified of the action taken by the college associate dean for graduate studies or the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee.

Graduate and post-baccalaureate students are subject to disqualification if within two semesters while on probation they fail to earn sufficient grade points to be removed from probationary status. Disqualification will bar a graduate student from registering as a matriculated student at this campus. Furthermore, subsequent removal of GPA deficiencies by enrolling through UCES or at another university does not guarantee readmission to CSULB. A graduate student who has been disqualified must file a new application and be accepted by the department with the approval of the Associate Dean of the College.

Other Post-Baccalaureate Students

A post-baccalaureate classified student who fails to maintain a cumulative grade-point average of 2.5 on all units attempted at the University will be placed on probation.

A student on probation who, prior to the beginning of the next term, fails to attain a cumulative grade-point average of 2.5 on all units attempted at the University will be disqualified.

A student who is disqualified because of scholastic deficiency may petition the appropriate program authority for readmission only after an absence of two semesters or upon successful completion of summer session courses which remove the grade-point deficiency.

Petitions for readmission must indicate the reason for requesting readmission and must include a statement of any academic work successfully completed since disqualification or of any other activity which gives evidence in support of the petitioner’s belief that readmission is warranted. An application for admission and required transcripts, as well as the petition, must be submitted to the Office of Enrollment Services before the dates established by the University for filing applications.

Academic Credit

Credit/No Credit Grading

A graduate student may take courses at the 100/200/300/400 levels under the Credit/No Credit grading policy; however, no course in which a grade of “CR” has been assigned may be used to fulfill the requirements for a master’s degree, except that the grade of “CR” may be permitted for master’s theses or projects to a maximum of six units when the individual department has specifically designated Credit/No Credit grading for the thesis/project course in the department and for field work, practicum, and/or internship courses.

For graduate students, courses at the 300/400/500/600/700 levels require “B” level proficiency to merit award of the “CR” grade; at the 100/200 levels “C” level proficiency or better is required for award of the “CR” grade.

The option of Credit/No Credit grading for graduate students on 100/200/300/400-level courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken under this policy.

Waiver of Course Requirement and Credit by Examination

No waiver of course requirements or credit by examination may be used to satisfy master’s degree requirements.

The following rules govern course waivers or credit by examination in satisfying prerequisites for admission to candidacy in any master’s degree program.

Any candidate for a master’s degree who believes that previous training has provided adequate preparation in a certain area may request a waiver from the department concerned.
A candidate may also apply for course credit by examination, but only for prerequisite courses and not to satisfy any of the requirements for the master's degree. Requests for such examinations must be made to the department concerned and approved by the departmental chair. Credit by examination is restricted to courses published in the current CSULB Catalog. Please see Credit by Examination in the General Regulations section of this catalog.

All course credit by examination will be recorded as CR (Credit) and will not be included in calculation of grade-point averages; such credit may not be used to remove a grade of "D" or "F" in a course already attempted, nor may course credit by examination be granted for any course which is a prerequisite to one for which credit has already been received.

Graduate Transfer Units by Extension

At the option of the college or department offering an advanced degree requiring a total of 30 units, up to 6 units of approved extension/continuing education or transfer credit is acceptable on graduate student programs. At the option of the college or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB. These limits may be increased further for graduate degrees requiring more than 30 units provided that: (1) no graduate degree may be awarded by CSULB unless at least 24 units are taken in residence, and (2) no graduate student program may use either extension/continuing education or transfer credit to satisfy the requirement that at least 60 percent of the total units be taken at the 500 and 600 levels. Extension courses completed at campuses including California State University, Long Beach shall be acceptable within the six-unit transfer limit, provided the work can be properly evaluated and the course is acceptable as graduate work for an equivalent graduate degree on the campus where taught. Extension/continuing education and transfer course material shall be evaluated and approved by CSULB faculty teaching in the topic area in conjunction with the department graduate advisor and college associate dean or director of graduate studies. Final approval/disapproval shall be the responsibility of the Vice Provost for Academic Affairs and Dean of Graduate Studies or his/her designee.

Extension/continuing education credit may not be used to reduce the minimum units required in a discipline for a master's degree, that is, extension credit may be used to complete coursework required outside the discipline. Excess grade points earned in extension classes may not be used to offset a grade-point deficiency in the total graduate record.

Grades earned at another institution may not be used to offset grade-point deficiencies in courses taken at this University. However, grades of "C" earned at another institution in courses transferred to satisfy subject matter requirements for an advanced degree at this institution must be balanced by grades of "A" at this University to meet the required 3.0 ("B") overall average. Credit earned by correspondence or by examination cannot be used to satisfy master's degree requirements.

Graduate Studies 700

Every semester, graduate students must be registered in a course or in GS 700 or must have an approved educational leave. Registration in GS 700 is restricted to graduate students who have completed all course work, have been advanced to candidacy, and have departmental approval. Registration in a course or in GS 700 also is required in winter or summer session if that is when a student plans to graduate. Although no unit credit is added to the student's program or transcript, GS 700 is considered as one unit of concurrent enrollment credit for fee payment purposes, payable at University College and Extension Services (UES) located at 6300 State University Dr., Ste. 104. Application forms are available from UES and must be approved by department graduate advisors. Registration in GS 700 is CR/NC only.

Academic Load

Nine units per semester is a normal academic load for a full-time graduate student engaged in study toward a master's degree. If a candidate wishes to exceed this limit, it should be discussed with the departmental graduate advisor. The maximum load for graduate students working toward a master's degree is 16 units per semester. Students who are employed full-time should not exceed six units per semester.

Graduate students who wish to register for more than one unit of credit per week of attendance during the summer session must secure advance approval from the college associate dean or director of graduate studies. Petition forms and information may be obtained in the college offices.

Honors for Graduate Students

Graduate Dean's List

The Graduate Dean's List provides for university recognition of its most outstanding graduate students. Candidates for this honor will normally have completed all the coursework applicable to their graduate student programs at this university. The annual list is limited to 10 percent of the university's graduate enrollment. Those honored will be named in the Commencement Program and will receive a certificate from the administrator in charge of graduate programs or designee.

Departmental Graduate Student Honors

In recognition of outstanding graduate student achievements, departments may honor graduating master's and doctoral degree candidates by special recognition in the annual commencement ceremonies. The number of honors awarded by a department shall be limited to three students or five percent of graduates, whichever is larger. Departmental honors are noted on the student's transcripts. Departmental honors are usually restricted to students not otherwise recognized by university or college awards. These honors are normally conferred for excellence in and contributions to the discipline, including outstanding seminar papers, artistic exhibitions, special achievements in field work, and in university committees and functions, as well as participation in scholarly and professional organizations resulting from student research.

Undergraduate Programs

Bachelor of Science in Business Administration

Requirements
In order to graduate with an undergraduate business degree from CSULB, a student must complete a minimum of 120 units. A majority of the upper division business courses, including economics and statistics, must be completed at this university. For details, refer to the CBA Policy on Course Transfers/Substitutions.

1. Lower Division: ACCT 201; ECON 100, 101; BLAW 220; MATH 108 or 114, 115.
2. Ethics Course Requirements: PHIL 160, CBA 400J or PHIL 400L.
3. All business and pre-business majors shall demonstrate computer literacy and competency prior to taking junior and senior level courses. Requires one of the following:
   A. Passing score (70%) on the Computer Proficiency Examination (CPE).
   B. Completion of IS 233 with Credit (C) or "C" or better grade in a transfer equivalent course.
4. Upper Division:
   A. CBA 300, ACCT 320; ECON 333; FIN 300; BLAW 320; IS 300, 301, 310; HRM 360; MGMT 300, MKTG 300.
   B. MGMT 425 (Capstone) must be taken at CSULB as a senior and after upper division prerequisite core courses have been completed (ACCT 320, FIN 300, MGMT 300, MKTG 300, IS 301).
   C. Completion of Accountancy Option requirements.

5. Elective courses to total 120 units. Students are encouraged to select electives for expansion of knowledge and intellectual interests as well as for preparation for business employment.

Option in Accountancy
(code ACCTBS01) (120 units)

The Accountancy curriculum is designed to meet the general education goals of those entering the accounting profession. It satisfies the requirements established by the American Institute of Certified Public Accountants and may be used to meet educational requirements for the California CPA Certificate. The accounting program develops an understanding of an organization's management information system on a broad base of general education and business administration courses. The program is carefully planned and rigorous, building the conceptual, analytical, and communication skills necessary to succeed in the accounting profession. It prepares students for careers in all areas of accounting, including the necessary qualifications for professional examinations such as the C.P.A., C.M.A., C.I.A.

Requirements
1. ACCT 300A-B, 351, 400, 470, 480;
2. One course from ANTH, PSY, or SOC.

Courses (ACCT)

LOWER DIVISION

201. Elementary Financial Accounting (3)
Introduction to financial accounting practice.
For business majors. Laboratory and/or class computer applications required.

UPPER DIVISION

300A-B. Intermediate Accounting (4-4)
Prerequisites: 300A, ACCT 201 or equivalent with a grade of "C" or better, 300B: ACCT 300A with a grade of "C" or better.
Accounting theory including recording, valuation, and statement presentation of assets, liabilities, capital, and earnings. Funds statements, financial analysis, compound interest theory, and applications. Laboratory and/or class computer applications required.

310. Cost Accounting for Managers (3)
Prerequisites: ACCT 201 or equivalent.
Use and interpretation of financial statements. Evaluation of accounting information systems. Accounting for and analysis of costs. Managerial use of accounting data for planning and decision making. Not open to accounting majors for course or unit credit. Laboratory and/or class computer applications required.

320. Cost Accounting (4)
Prerequisites: ACCT 201 or equivalent with a grade of "C" or better.
Theory and practice of cost accounting. Managerial use of cost accounting data for planning, controlling, and decision making. Emphasis on cost accumulation and management information systems. Laboratory and/or class computer applications required.

90 • Accountancy • 2009/2010 CSULB Catalog
350. Individual Income Taxation (3)
Prerequisites: any upper division accountancy course with a grade of "C" or better.
Federal income taxation of individuals and property transactions. Coverage of tax research methodology and communication of research results. Laboratory and/or class computer applications required.
Letter grade only (A-F).

351. Federal Tax Law II (4)
Prerequisites: any upper division accountancy course with a grade of "C" or better.
Federal income taxation of partnerships, corporations, and S corporations. Personal and family tax planning and ethics.
Laboratory and/or class computer applications required. Not open for credit to students with credit in ACCT 451.

400. Advanced Accounting (4)
Prerequisites: ACCT 300B with grade of "C" or better, IS 301.
Specialized problems in partnership and corporate accounting, consolidations, foreign currency transactions, and translations. Fund accounting and selected topics.
Laboratory and/or class computer applications required.

465. International Accounting (4)
Prerequisites: Any 300 level accounting course with grade of "C" or better, IS 301.
Laboratory and/or class computer applications required.

470. Auditing (4)
Prerequisites: ACCT 300A, 300B, 320 with grades of "C" or better, IS 301.
Problems of verification, valuation and presentation of financial information in reports covered by opinion of independent public accountant. Major concepts of operational auditing and relationship to independent audit. Public accountant and internal auditor responsibilities. Rules of professional conduct.
Laboratory and/or class computer applications required.

480. Accounting Systems and Data Processing (4)
Prerequisites: IS 300, ACCT 300B and 320 with grades of "C" or better, IS 301.
Familiarization to accounting information systems development process. Analysis, design, development, and implementation of accounting information systems. Automation of accounting information systems studied through use and application of computers.
Laboratory and/or class computer applications required.

493. Accounting Internships (3)
Prerequisite: ACCT 300B, Accounting GPA 3.0, overall GPA 3.0.
Real world accounting experience by working in public accounting or accounting divisions of private industry or governmental agencies. Class seminar analysis and evaluation of academic theory in terms of the real world environment.

495. Selected Topics (1-4)
Prerequisite: Consent of instructor.
Intensive study of current topics in accounting.
May be repeated for a maximum of 8 units. Topics to be announced in the Schedule of Classes.

497. Directed Studies (1-4)
Prerequisites: Consent of instructor and department chair, or Dean’s List. Accounting GPA 3.0.
Advanced individual projects, study, and research in accounting.
ADVANCED STUDIES IN EDUCATION
AND COUNSELING
College of Education

Department Chair: Jennifer Coets
Department Assistant Chairs: Bita Ghafoori, Hiromi Masunaga
Department Coordinator: Susan Goldman
Department Office: Education (ED) 1 Room 10
Telephone: (562) 985-4517

Introduction
The Department of Advanced Studies in Education and Counseling offers graduate level courses in the following program areas: Educational Administration, Educational Psychology, Librarianship, Educational Technology, Social and Cultural Analysis of Education, Marriage and Family Therapy (MFT), School Counseling, School Psychology, Student Development in Higher Education, and Special Education/Education Specialist, as well as undergraduate service courses in life skills and other areas.

Students desiring information should contact the department office for referral to one of the faculty advisors. All CED graduate level courses (500-600) are assumed to be letter grade only (A-F) unless stated otherwise.

Graduate Degrees
Master of Arts degrees in Education with the following options are offered:

- Educational Administration
- Educational Psychology
- Librarianship
- Social and Cultural Analysis of Education
- Educational Technology

Two Master of Science degrees are available:

- Special Education
- Counseling

MS in Counseling offers five options:

- Career Counseling (Temporarily suspended for new admissions)
- Marriage and Family Therapy
- School Counseling
- Student Development in Higher Education

Credentials
The department offers credentials in Administrative Services (Preliminary and Professional), Pupil Personnel Services (School Counseling, School Counseling Internship, School Psychology, School Psychology Internship), Education Specialist/Special Education (Mild/Moderate and Moderate/Severe) and Teacher Librarian Services. In addition, a Graduation Certificate in Career Guidance Specialist and Community College are offered. (Please note: the Graduate Certificate in Career Guidance Specialist is under consideration for discontinuance.)

Required credential courses must be completed with a grade of "C" or better. The minimum grade point average for successful progress in the credential programs of the department is 3.0 on all units to be applied to the credential program. Students falling below 3.0 will be placed on probation. To maintain status in the credential program students must earn sufficient grade points to bring GPA back to 3.0 by the end of the regular semester following the semester in which the GPA fell below 3.0. Refer to this Catalog for policy.

Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code COEDUM01)

The minor comprises courses that integrate studies of culture, language, learning and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student's major may not be used.

1. One course from each of the following areas (12 units):
   - Culture: ANTH 421/LING 425 or EDP 432/EDEL 430
   - Language: EDSG 454 or LING/CD 329
   - School: EDP/LING 485
   - Development: EDP 301, 302, HDEV 307I, or PSY 361

2. Six additional units, selected with an advisor, from the following:
   - Culture: AIS 319, ASAM 319, AFAR 319, CHLS 319, WGS 319, ANTH 329, ANTH 421, ANTH/LING 413, ANTH 419, ANTH 421/LING 425, ANTH/WGS 475, CHLS/ASAM 336I, EDP 432/EDEL 430
   - Language: ANTH 170, CHLS 402, EDSG 454, LING/CD 329, ENGL 327, LING 363I, 435, 472, 486
   - School: ASAM 310, AFAR 420, CHLS 340, EDP 305, EDSG 350
   - Development: EDP 301, 302; HDEV 307I; PSY 361

Master of Arts in Education

Please submit a separate program application as well as a University application for all masters and credential programs. Program application dates may vary (please see individual program).

92 • Advanced Studies in Education and Counseling • 2009/2010 CSULB Catalog
Option in Educational Administration  
(code EDADM A01)

Educational leaders serve in many capacities. No matter what position an individual holds within an educational organization, all efforts should be directed at supporting the equitable academic achievement of all students being served. The courses in the Educational Administration Option are designed to prepare leaders for this important work. Emphasis is placed on 1) examining the role of schooling in a democratic society, 2) multiple and varied aspects of educational leadership, 3) building collaborative, 4) managing and guiding change, and 5) working with diverse populations. The program’s primary mission is to educate candidates who will assume leadership positions in diverse, urban, K-12 schools and districts.

Prerequisites

15 upper-division units in education including EDP 400 or equivalent experience.

University Admission

A “University Application for Graduate Admission” along with one complete set of official transcripts must be filled with the University Office of Admissions. An online University application may be found at www.csumentor.edu.

Conditional Admission to the Program

A separate “Preliminary Administrative Services Masters/ Credential Program Application” must be on file with the College of Education Graduate Office (ED1-7) along with one complete set of official transcripts and forms 1-3 listed below no later than March 1 for fall admission:
1. Transcripts verifying a minimum 2.85 overall GPA in the last 60 semester (or 90 quarter) units of coursework taken;
2. Two non-confidential letters of recommendation (following Letter of Recommendation Guidelines found with program application) from individuals familiar with the candidate’s professional competence and potential as an educational leader. One letter must be from the candidate’s principal or immediate supervisor;
3. A double-spaced typed personal statement (following Personal Statement Guidelines found with program application) describing the candidate’s educational preparation, leadership experiences, and leadership philosophy;
4. Participation in a screening process that includes an oral interview that may require submission of an onsite impromptu writing sample.

Clear Admission to the Program (Advancement to Candidacy)

In addition to 1-4 above, a candidate must:
1. Fulfill the Graduation Writing Assessment Requirement (GWAR);
2. Complete EDP 400;
3. Resolve all incomplete grades;
4. Complete the following core courses: EDADM 541 and one other EDADM course for a total of six (6) units;
5. Maintain a 3.0 grade point-average;
6. Complete an approved Advancement to Candidacy form in consultation with a program advisor.

Requirements

A minimum of 30 units with a 21 unit concentration in Educational Administration is required: 21 units must be at the 500/600 level taken at this university.
1. One of the following (3 units): EDP 575, 576 or 672;
2. One of the following (3 units): EDP 520 or 595;
3. One of the following chosen in consultation with the faculty advisor: EDADM 655 (3 units) or EDADM 656 (6 units);
4. All of the following (21 units): EDADM 541, 544, 647A, 647B, 677A, 677B, 649.

Option in Educational Psychology  
(code ED_PMA02)

The Option in Educational Psychology is a research-oriented program designed for students and educators to develop their understanding of learning and development, testing and assessment, research, and program evaluation in education. This program offers a rigorous curriculum in these areas and requires that the student declare a “foundation” emphasis within the Option. There are two Tracks in this Option: Track 1 (MA, Option in Educational Psychology) and Track 2 (MA, Option in Educational Psychology plus School Psychology Credential Program). Admission to the MA, Option in Educational Psychology does not guarantee acceptance to the highly competitive School Psychology Credential Program.

Admission Requirements

University Admission Application

1. File an Application for Graduate Admission along with one complete set of official transcripts with the University Office of Admissions prior to March 1 for consideration to enter the fall semester. Online application at www.csumentor.edu.

Conditional Admission to the Program

1. Meet University admission requirements.
2. Complete a program application (see application for requirements) and submit it to the Graduate Office in the College of Education (ED1-7) with official transcripts, one from each college attended. Transcript must verify a GPA of 3.00 or higher in the last 60 semester (or 90 quarter) units of college coursework taken. Evidence of completing at least a baccalaureate degree majoring in the behavioral sciences, education, or a related program prior to beginning of the MA, Option in Educational Psychology is required. (Applicants with other majors should seek advisement from the program faculty.) The program application is separate from the University application.
3. Send an official transcript of test scores obtained from the Educational Testing Service (ETS) for the Graduate Record Exam (GRE) General Test to the Graduate Office in the College of Education. For admission consideration, the criterion is a combined Verbal and Quantitative score of 1000.
4. For international students, whose primary language is not English, in addition to GRE scores, send an official transcript of a test score obtained from the Educational Testing Service (ETS) for the Test of English as Foreign
5. Program application deadlines for consideration to enter the Fall semester: March 1 (for Track 1) and February 13 (for Track 2). Check the CSULB Catalog and the program website (http://www.csulb.edu/psych) for further information on the application to Track 1. The Track 2 application is combined with the application to the School Psychology Credential Program. Check the CSULB Catalog and the program website (http://www.csulb.edu/psych) for further information on the application to Track 2 (MA, Option in Educational Psychology plus School Psychology Credential Program) and the School Psychology Program.

6. Official transcript(s), GRE scores, and TOEFL score if applicable, must be on file in the Graduate Office in the College of Education no later than March 1 (for Track 1) and February 13 (for Track 2) for consideration to enter the Fall semester.

7. Note: "Conditional admission" status does not guarantee clear admission to the master's program.

Clear Admission to the Program
(Advancement to Candidacy)

The catalog published in the academic year in which the student is advanced to candidacy governs the course of that student's program. In addition to 1-6 above, a candidate must:

1. Fulfill the Graduate Writing Assessment Requirement (GWAR).

2. Complete the following prerequisites:
   - **Track 1**: EDP 301 or 302; and EDP 305, 419 and EDP 350; or acceptable equivalents
   - **Track 2**: EDP 301 or 302; and EDP 405 and 419, or acceptable equivalents

3. Complete 6 to 9 units of core courses.

4. Maintain a 3.0 grade point average on the prerequisites plus 6 to 9 units of core courses.

5. Resolve all incomplete grades.

6. Complete an approved plan of study in consultation with the program advisor.

Program Requirements

MA Objective (Track 1)

The degree objective requires a total of 33 units (not including prerequisites) made up of a 27-unit core and a 6-unit “foundation” that culminates in either (a) a master’s thesis or (b) a written comprehensive examination.

1. Degree Core:
   - A. EDP 519, 520, 524A, 524B (2 units), 579 (4 units), 604, and 605
   - B. EDP 525A and 525B (2 units)

2. For the “foundation” culminating in a master’s thesis, the student completes all of the above 27 units of core courses plus 6 units of EDP 606. For the “foundation” culminating in a written comprehensive examination, the student completes all of the above 27 units of core courses plus 6 units of 500/600 level electives selected with the approval of the program advisor.

3. For the “foundation” culminating in a master’s thesis, the student is strongly encouraged to complete EDP 606 as a 500/600 level elective.

Option in Educational Technology
(code ED_PMA05)

Serving the mission of enhancing education through the use of technology, educational technology specialists perform many functions in schools, educational institutions, and training agencies. This option prepares leaders in the field who will evaluate, design, and effectively use technology for educational purposes. Combining both theory and practice, this option is designed for individuals seeking career growth in K-12 and university settings and for those planning to doctoral degrees.

Admission to the Program

Submit a Master of Arts in Education, Option In Educational Technology application to the College of Education Graduate Office along with one complete set of transcripts no later than March 1 for fall admission or October 1 for spring admission. Including information to satisfy the requirements below. (Items 1-6 are required, and item 7 is optional.)

1. A bachelor’s degree from an accredited college or university.

2. Upper-division coursework in statistics and research.

3. Upper-division coursework in the use of technology and computer applications (3 units), e.g., ETEC 411, ETEC 444, or equivalent experience (see advisor).

4. A 3.0 GPA (on a 4-point system) in the last 60 units of upper division and/or graduate course work completed at an accredited college or university and a 3.0 GPA in all prerequisite course work.

5. Three (3) letters of recommendation, preferably from teachers, supervisors or colleagues in education or related fields.

6. A word-processed personal statement -- see the program application for the specific questions to address.

7. (Optional). Applicants are encouraged, but not required, to submit an official transcript of scores obtained from the Graduate Record Exam (GRE) General Test, the Graduate Management Admission Test (GMAT), or the Miller Analogies Test (MAT).
University Admission

Meet University admission requirements. Submit an Application for Graduate Admission along with one complete set of official transcripts to the University Office of Admission no later than March 1 for Fall consideration and no later than October 1 for Spring consideration.

Advancement to Candidacy

1. Provide evidence of passing the Graduation Writing Assessment Requirement (GWAR).
2. Maintain a 3.0 GPA in all course work.
3. Resolve any Incomplete grades.
4. Complete all prerequisites and at least six units of the program in residence at the University.

Requirements

Students must submit a minimum of 30 units of upper division and graduate courses, of which at least 21 units must be at the 500-600 level taken at this University. With consent of the program advisor, students may count up to 6 units of previously taken graduate courses toward the degree. However, a student who completes a 6 unit thesis or project may possibly count 9 units of previously taken course toward the degree.

1. Core courses (21 units):
   A. Research Methods: EDP 520 (must also complete course prerequisites: ED P 400, ED P 419, or equivalent.)
   B. Educational Technology: ETEC 510, 523, 525, 530, 551, and 570.
   2. Electives (6 units): In consultation with program advisor, students will select 6 additional units. Options include, but are not limited to, the following:
      A. Educational Technology: ETEC 535, 580;
      B. Educational Psychology: EDP 665, 666;
      C. Librarianship: ELIB 500A, 500B, 540, 550;
      D. Special Education: EDSP 542;
      E. Computer Science: CECS 401E, 410E;
      F. Other courses, including those outside the College of Education, chosen in consultation with program advisor.
3. Exit requirement (3-6 units): a) Electronic portfolio with interview and one of the following chosen in consultation with the program advisor:
   A. Pass a comprehensive examination;
   B. EDP 699 (6 units) Project with written Project Report;
   C. EDP 698 Theses (6 units).

Option in Librarianship (code ED_PMA06)

The Master's degree option in Librarianship provides a rigorous academic foundation for professional leadership in library and information professions. Applicants must complete at least 18 units in the area of specialization, 3 units in a second specialty, and at least 24 units in graduate courses listed in the program. They must also complete a minimum of 6 units in an area of specialization. This option is available to both full-time and part-time students.

Admission to the Program

Prerequisites: completion of a bachelor's degree; a current valid basic teaching credential (elementary, secondary, or special education credential) for the Teacher Librarian (TL) strand only.

Clear Admission

1. Meet University admission requirements.
2. A minimum 3.0 overall GPA in the last 60 semester units of course work (provide official copy of transcripts to the University and photocopy of transcripts to the program).
3. Three letters of recommendation from individuals familiar with your professional competence and potential as a librarian.
4. A written personal statement describing your educational and experiential background, and professional goals.
5. Current resume.
6. Screening interview.

Advancement to Candidacy

1. Fulfill the Graduation Writing Assessment Requirement (GWAR).
2. Maintain a 3.0 GPA from the time of admittance to the program.
3. At least six units completed in the approved program.

Program Requirements

A minimum of 36 units is required, with at least 24 units in the 500-600 level series taken at this University. In consultation with the advisor, a comprehensive examination or thesis track is selected.

Note: This information does not include all of the requirements for the Teacher Librarian Services Credential, which is typically pursued simultaneously with the Master of Arts degree. For additional information, go to www.csulb.edu/lmr.

Core Requirements

1. Core courses (21 units):
   A. Library Media: ELIB 500, 510, 520, 540, 550;
   B. Technology: ETEC 510 or ETEC 523 (or PPA 521 for public services);
   C. Research methods: EDP 520 or 595;
2. Electives (9 units): The balance of the program is completed through advisor-approved electives. Choices include, but are not limited to, the following:
   A. Youth services: ELIB 530A, 530B; EDCL 625;
   B. Higher education services: COUN 531, 548, 552; EDP 490;
   C. Public services: FCS 529; PPA 500, 525, 533, 535;
   D. Advanced technology: ETEC 530, 551, 553, 623.
3. Field experience (3-4 units): ELIB 580 or ETEC 580.
4. One of the following chosen in consultation with the faculty advisor upon advancement to candidacy (3-6 units):
   A. Comprehensive examination and EDP 697 (3 units); or
   B. Thesis and EDP 698 (6 units)

Option in Social and Cultural Analysis of Education (code ED_PMA03)

The Master of Arts Degree in Education, Option in Social and Cultural Analysis of Education (SCA), focuses on the social and cultural analysis of education in urban and international contexts. Emphasizing critical approaches to

2009/2010 CSULB Catalog • Advanced Studies in Education and Counseling • 95
education, including critical theory and critical pedagogy, the degree’s interdisciplinary nature provides the intellectual rigor necessary for analyzing the relationship between education and society and effecting social and educational justice. SCAE courses examine education in its historical, social and political contexts, and may be applied to all levels of education—locally, nationally, and internationally. After completion of the program, graduates have a variety of career choices, not only in the educational realm, but also in the private sector and in non-governmental organizations. The program also serves as an ideal foundation for further academic study at the doctoral level.

Admission Procedures
Prerequisites: All applicants must hold a bachelor’s degree or the equivalent.

Consideration for admission requires submission of a program application and university application simultaneously. Both applications must be received no later than March 1 for fall semester consideration. Failing to supply a complete application by the deadline to either the program or the university may jeopardize acceptance into the program.

Submit the following program application materials in the order listed below to the College of Education Graduate Studies and Research Office in one complete package:
1. A completed program application form.
2. A three page double-spaced typed written personal statement. See the current program application for specific topics to address.
3. Two academic or professional letters of recommendation that evaluate the applicant’s academic abilities and suitability for graduate level study. At least one recommendation should be from a former university instructor, and all letters must be typewritten and on letterhead.
4. One complete set of official transcripts from all educational institutions attended, excluding CSULB. Transcripts must verify a minimum grade point average of 3.0 in the last 60 semester (or 90 quarter) units of course work for the undergraduate degree.
5. One representative sample of the applicant’s academic writing. See the current program application for further details.

An application packet containing more detailed information regarding the application process may be downloaded from the program website. Applications will be considered by an admissions committee, and submitting a complete application does not guarantee admission into the program. A telephone or in-person interview may be required as part of the admissions process.

The simultaneous university admission procedure requires an Application for Graduate Admission and one complete set of official transcripts from all educational institutions attended. Applicants may submit their university applications through CSU Mentor (www.csumentor.edu) or in person with the University Office of Admissions. Both the university and the program application must be received no later than March 1 for fall semester consideration.

Admission is conditional until the applicant achieves Classified Standing.

Classified Standing
Applicants who do not meet all of the requirements for admission or who are not able to submit all of the required application documents may be granted Conditional Classified Standing, based on the recommendation of the Program Admissions Committee. In such cases, applicants will be given a specified period of time after which they must provide evidence of completing all of the requirements set out by the program. Applicants who meet all requirements within the specified time period and continue to demonstrate a satisfactory level of scholastic competence and fitness based on program faculty recommendation achieve Classified Standing.

Advance to Candidacy
Students are expected to advance to candidacy as soon as they are eligible to do so, at which time they receive catalog rights. In order for students to advance to candidacy, they must have:
1. Met with their advisor to plan a course of study.
2. Completed SCAE 550 and SCAE 551.
3. Set their academic, professional and personal goals in consultation with their advisor (facilitated through SCAE 550 and SCAE 551).
4. Completed the Graduation Writing Assessment Requirement (GWAR). See the Catalog for full details.
5. Maintained a 3.0 GPA in all program course work.
6. Resolved all incomplete grades.

Program Requirements
All students must complete thirty-three (33) units of upper division and graduate level courses, of which twenty-one (21) units must be at the 500 or 600 level. Students who complete a master’s thesis or project must enroll in six (6) additional units while completing the culminating experience. For all students, at least twenty-four (24) units must be completed in residency. With consent of the student’s advisor and after following procedures for course equivalencies, students may count up to six (6) units of previously taken graduate courses toward the degree. A student who completes a thesis or project may potentially count up to nine (9) units of previously taken graduate courses toward the degree. The program includes the following requirements:

1. Core courses (2 courses, 6 units): SCAE 550 and SCAE 551.
2. Emphasis Area Courses (3 courses, 9 units) in one emphasis area:
   a. International Contexts: SCAE 566, SCAE 567, SCAE 568, SCAE 564 (choose 3) OR
   b. Urban Contexts: SCAE 560, SCAE 561, SCAE 562, SCAE 564 (choose 3)
3. One Course in Second Emphasis Area (3 units): Choose one course from the SCAE 566-568 series for international contexts or from the SCAE 560-562 series for urban contexts.
4. Electives (2 courses, 6 units): Chosen in consultation with faculty advisor
5. Research Methods Courses (2 courses, 6 units): EDP 400 and choose either EDP 520 or EDP 595.
6. Capstone Course (3 units): SCAE 695.
7. Culminating Experience: In consultation with faculty advisor, choose one: 1) comprehensive examination, 2) six units of EDP 698: Thesis over two semesters, 3) six units of EDP 699: Project over two semesters.

Master of Science in Counseling

Counselors serve valuable functions in fields of education, health and human services, and business. Their domains of practice include public and private educational institutions, medical facilities and allied health agencies, social service agencies and organizations, state and federal human service agencies and programs, correctional facilities, business and industry, and private practice.

The program’s philosophy is to introduce students to a variety of approaches to counseling, and to encourage the development of competencies within those approaches.

The program combines theory and practice utilizing on and off campus course work and field work assignments. Required courses are offered predominantly in the evening, but most field assignments require daytime participation during normal business hours defined by the off-campus sites.

Students coming from diverse experiential backgrounds are trained at the graduate level to be able to perform entry level duties expected by the counseling profession and its specialty areas. Students are prepared to assume future leadership positions in their area(s) of expertise after additional work experiences have been acquired in the field following graduation.

The Master of Science in Counseling Program consists of four options:
1. Career Counseling (Temporarily suspended for new admissions)
2. Marriage and Family Therapy;
3. School Counseling;
4. Student Development in Higher Education;

The total number of courses needed to satisfy requirements for graduation depends upon the option selected by the student.

University Admission

File an Application for Graduate Admission along with one complete set of official transcripts from all educational institutions with the University Office of Admissions by the program application deadline.

Program Admission

To download program applications and verify specific program application deadlines, see the Graduate Studies Office website at www.csd.csulb.edu/graduate.

File a completed Master of Science in Counseling application to only one program option area with the College of Education Graduate Office (EDS1-2) along with one complete set of official transcripts by the application deadline including steps 1-3 listed below:

1. Transcripts must verify a GPA of 2.05 or higher on the last 60 semester (or 90 quarter) units of coursework taken. Evidence of completing at least a baccalaureate degree majoring in the behavioral sciences, education, or related program prior to beginning the Master of Science in Counseling program (those with other majors should seek advisement from the program faculty);

2. Send three (3) letters of recommendation along with the Program Application;

3. Send a type-written personal statement as instructed in the Program Application;

4. Screening interview(s) (upon notification by the option area);

5. Items 1-3 above must be on file in the Graduate Office by the program application deadline.

6. Applicants are not allowed more than 9 semester unit credits applied to curriculum requirements of the option selected prior to admission into the first semester of the program.

Option in Career Counseling (code ED_PMS01)

(Temporarily suspended for new admissions)

Students in this option prepare to provide career counseling and guidance services to adults and adolescents in the community and public agencies, college and university settings, business and industry settings, and private practice. This training prepares individuals for the California Registered Professional Counselor (CRPC) and National Master Career Counselor (MCC) examinations.

Requirements

All of the following: COUN 510, 513, 515, 530, 531, 637, 638, 643C, 644C; and all requirements of ONE of the following tracks (21 units): Thesis Track – EDP 419, 420, 510, 520, 696, 698; OR Comprehensive Examination Track – EDP 400; and six elective courses from COUN 516, 555, 601, EDP 517, 520, 524A, 596; EDSP 564.

Advancement to Candidacy

COUN 515, 530; EDP 400 or 419; fulfill the Graduation Writing Assessment Requirement (GWAR).

Option in Marriage and Family Therapy (code ED_PMS04)

Students in this option will prepare for licensed independent MFT practice to work in private practice, community-agency settings, government-court settings, hospitals, clinics, Employee Assistance Programs, and city-county-state agencies to provide counseling services for adults, children, families and couples.

Prerequisite

EDP 400 or equivalent.

Requirements

All of the following (62 units): COUN 508A, 508B, 510, 511, 512, 513, 514, 515, 522, 543, 555, 556, 557, 601, 608, 609, 638, 643D, 644D; EDP 520 and EDP 698 or comprehensive examination. Students electing the comprehensive examination must complete an additional 6 units of approved electives from coursework in the counseling program.

Advancement to Candidacy

COUN 508A, 510, 513; EDP 400; fulfill the Graduation Writing Assessment (GWAR).
Option in School Counseling (code ED_PMS02)

The Master of Science in Counseling (School Counseling Option) and the Pupil Personnel Services School Counseling Credential Programs are designed to prepare counselors to work in elementary, middle, and high schools. Both programs support a comprehensive, developmental, and collaborative school counseling model. Based upon the American School Counselor Association's National Standards for K-12 School Counseling Programs and their 2003 National Model, our programs further support a balanced, holistic approach that considers the academic, career development, and personal/social needs of K-12 students. Graduates are expected to become proactive leaders who will advocate for their students and themselves, as counseling professionals working toward equity, achievement, and opportunity for all students.

Students entering the Master of Science in Counseling (School Option) program concurrently fulfill requirements for the Pupil Personnel Services School Counseling Credential and must apply to both programs. The Pupil Personnel Services School Counseling Credential (PPS/SC) is required by the California Commission on Teacher Credentialing (CTC) for persons employed by the public schools as school counselors. (See Credential Programs)

Each year the School Counseling Programs Information and Application Packet is revised. Applicants must use the application developed specifically for the year for which they are applying.

Requirements

All of the following (51-57 units): COUN 506, 507 (or EDP 530 or 531 for students who have advanced to candidacy prior to Fall 2005), 510, 513, 515, 555, 606, 607, 638, 643A, 644A, 646C; EDP 400, 520, 536, 596, 604, and 2 semesters of EDP 698 or comprehensive examination.

Advancement to Candidacy: COUN 506, 513, 515; EDP 400, fulfill the Graduation Writing Assessment Requirement (GWAR).

Option in Student Development in Higher Education (SDHE) (code ED_PMS03)

Students completing this option are employed in residence halls, financial aid, student activities, adult re-entry, admissions, career centers, academic advising, disabled student services, counseling centers, orientation, tri and educational opportunity programs, multicultural affairs, and community outreach in two- and four-year institutions.

Requirements

All of the following (51 – 57 units): COUN 510, 513, 515, 516, 538, 547, 548, 549, 555, 593, 638, 643B, 644B, 693; EDP 400, 520, 576, 596; and EDP 698 or comprehensive examination.

Advancement to Candidacy: COUN 513, 515, 538, 593, EDP 400; fulfill the Graduation Writing Assessment Requirement (GWAR).

Master of Science in Special Education (code ED_PMS06)

Students in this master's degree program work toward attaining leadership positions in public and private schools and agencies in the community that provide services for individuals with disabilities. The program is aimed at developing advanced skills and knowledge of current research in special education, and demonstration of the ability to engage in reflective inquiry. The program culminates with a thesis or comprehensive exam. The program does not result in a credential to teach students with disabilities. Students who want to teach individuals with disabilities should refer to the Education Specialist Credential Program section.

Admission

1. Submit a program application with copies of transcripts from all educational institutions verifying a GPA of 2.85 or higher on the last 60 semester units (or 90 quarter units) of course work taken.
2. Verification of a baccalaureate degree from an accredited institution.
3. A typed essay of three to five pages, double-spaced, outlining the candidate's reasons for entering the program, experiences and training related to the program, and anticipated outcomes from completing the program.
4. An interview with program faculty (conducted at a later date).
5. 2 letters of recommendation from persons able to attest to the student’s professionalism and preparedness for advanced academic studies.
6. Attendance at an on-campus program orientation.

Prerequisites

A bachelor's degree with 24 upper division units to include the following 3 areas of study (suggested courses in education noted in parentheses) and a teaching credential in Special Education or equivalent experience:

1. Development: 3 units (EDP 301 or 302);
2. Statistics and measurement: 3 units (EDP 400);
3. Individual differences: 3 units (EDP 350).

Requirements

Students must complete a minimum of 30 units of upper division and graduate courses with a minimum of 21 units at the 500/600 level taken at this university. Degree requirements include the following courses:

1. Foundation Courses: EDP 520; EDP 546C, 550.
2. Required Specialization Courses: EDP 535, 542, 566.
3. One of the following advanced methods courses: EDP 561 or 565.
4. Of the following pathways in consultation with faculty advisor: Comprehensive exam pathway: EDP 695S (3 units) and written comprehensive exam, Thesis pathway: EDP 698 (6 units).
5. 3-6 units of electives selected with the program faculty advisor.

98 • Advanced Studies in Education and Counseling • 2009/2010 CSULB Catalog
Each year the School Counseling Programs Information and Application Packet is revised. Applicants must use the application developed specifically for the year for which they are applying. Students are admitted for Fall only, although admitted students may begin coursework during the preceding summer semester. Program applications must be submitted to the College of Education Graduate Office (EDH-7). Application Deadline for Fall Admission: March 1

CBEST

Admitted students must take the California Basic Educational Skills Test (CBEST) no later than the second available administration date following enrollment in the program.

Requirements

1. Completion of the Master of Science in Counseling (School Counseling Option) or an approved equivalent degree.

2. All of the following (51-57 units): COUN 506, 507 (or EDP 530 or 531 for students who have advanced to candidacy prior to Fall 2005), 510, 513, 515, 555, 586, 607, 638, 643A, 644A, and 695C; EDP 400, 520, 536, 596 and 604.

3. Field Work Prerequisites:
   A. School Counseling Field Work (COUN 643A) (300 hours of approved activities, average of 20 hours per week):
      (1) COUN 607,
      (2) Certificate of Clearance.
   B. Advanced School Counseling Field Work (COUN 644A) (300 hours of approved activities, average of 20 hours per week):
      (1) COUN 507 (or EDP 530 or 531 for students who have advanced to candidacy prior to Fall 2005), 538, 643A; EDP 536 (or concurrent enrollment in 536),
      (2) Pass CBEST.

4. Certification of program completion by the faculty is required. The faculty may require students to complete additional coursework, fieldwork, or demonstrate specific competencies before recommendation to the CTC for the PPS school counseling credential.

School Counseling Internship

For additional information, contact the School Counseling Program Coordinator.

School Psychology Credential

(code 804)

The School Psychology Credential program, accredited by the National Association of School Psychologists (NASP) and the California Commission on Teacher Credentialing (CTC), prepares graduates to consult with teachers, parents, administrators and others regarding the learning and behavior of children in grades PreK-12. School psychologists develop and implement interventions and monitor the progress of students with special needs, assist students in developing productive and successful school careers, and assist teachers in the areas of behavior management and instruction. A teaching credential is not required.
University Admission Application

In addition to filling a program application (see next section), prospective students must file an Application for Graduate Admission along with one complete set of official transcripts with the University Office of Admissions prior to February 13 for fall admission. Online applications are available at www.csun.edu.

Admission

1. Copies of transcripts verifying a GPA of 3.0 or higher in the last 60 semester units (or 90 quarter units) of course work;
2. Possession of a baccalaureate degree from an accredited university;
3. Three letters of reference by persons who have engaged in professional work with the applicant;
4. A written personal statement – the application form includes a list of items to be included;
5. Screened interview – after the admission committee reviews all applications, select applicants will be invited for an interview with program faculty;
6. Possession of a master's degree in a related field or admission into the Master of Arts in Education option in Educational Psychology.

Requirements for the Completion of the School Psychology Credential

1. Students who enter the School Psychology Credential program without an earned master’s degree in one of the behavioral sciences must complete the Master of Arts in Education degree with the Option in Educational Psychology;
2. Completion of the following prerequisites: EDP 405, 301 or 302, and 415; and a minimum of 60 units in graduate coursework or their equivalent (with approval of the School Psychology faculty) in the following areas of study – Educational Psychology: EDP 520, 528, and 605; Counseling: EDP 517 and COUN 601; Assessment and Intervention: EDP 524A, 524B, 525A, 525B, 527, 536, 550, 570; Practicum and fieldwork: EDP 641A, 641B, EDP 642A, and 642B; and 4 advisor-approved elective courses;
3. Students are annually evaluated for specific professional competencies. If students are found insufficient on one or more of the competencies, the student may be required to complete additional course work, practica, fieldwork, and/or other activities before being approved for the PPS intern or full credential;
4. A Certificate of Clearance and successful performance on the CBEST is required prior to enrolling in practica;
5. Fieldwork in School Psychology prerequisites: Master's degree in related field and all program courses except EDP 527, 560, and EDP 642A and 642B;
6. Completion of the National School Psychology Examination (ETS/PRAXIS II #10400) prior to completion of the program.

School Psychology Internship

See Program Coordinator for details.

An internship is field work performed under the supervision and with the permission of the School Psychology faculty and the school district which hires the intern. In order to be recommended to a district as a possible intern, the student must have completed the prerequisites listed above in “1” through “5,” and be approved by the School Psychology credential coordinator.

Special Education Credentials

The Education Specialist Credential Program prepares and certifies special education teaching candidates in the CTC Education Specialist Credential categories of Mild/Moderate and Moderate/Severe. An Intern Option is also available in collaboration with certain school districts. Please consult with the Teacher Preparation Advising Center for further information.

Preliminary Level I – Education Specialist Credential and Intern Option: Mild/Moderate Disabilities (code 468) and Moderate/Severe Disabilities (code 469)

Professional Level II – Education Specialist Credential: Mild/Moderate Disabilities (code 468) and Moderate/Severe Disabilities (code 469)

This Specialist credential program prepares candidates in the areas of Mild/Moderate and Moderate/Severe disabilities in a program approved by the California Commission on Teacher Credentialing. The program is designed so that candidates may be certified in both areas of authorization if they complete two separate field experiences, i.e., one with students with mild and moderate disabilities and one with students with moderate and severe disabilities. Upon admission to the program, candidates must identify an area of authorization and indicate whether their goal is to become certified in one or both areas. The program has two tiers: the Preliminary Level I Education Specialist Credential and the Professional Level II Education Specialist Credential. Following receipt of the Preliminary Level I Credential, candidates need to complete the Professional Level II preparation in special education within five years of the date of issuance of the preliminary credential. An Intern Option is also available in partnership with selected school districts. Please consult the College of Education Teacher Preparation Advising Center for further information. An Education Specialist Credential can also be earned in conjunction with the Integrated Teacher Education Program (ITEP). Please refer to the Liberal Studies Department for information on this.

Preliminary Level I – Education Specialist Credential Program (ESCP): Mild/Moderate and Moderate/Severe

Admission to the Program

Application for admission to the Education Specialist Credential Program (ESCP) should be made the semester before beginning the required Level I courses. Students may apply to the program while taking prerequisite courses, and may be admitted on a conditional basis pending their completion. Applications are available in the Teacher Preparation Advising Center (ED1-67) or online at www.ced.csulb.edu/special-education. Applications should be submitted to the Teacher Preparation Advising Center.
Program Admission Requirements

1. Apply and be admitted to the University as a post baccalaureate (credential) student.
2. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or at grade point average of at least 2.75 in the last 60 semester units or 90 quarter units attempted.
3. Complete and submit the Education Specialist Credential Program application by the posted application deadline. Specify area of authorization (Mild/Moderate, Moderate/Severe, or both).
4. Complete and provide documentation of a field experience of at least 45 hours in a K-12 general education classroom setting.
5. Submit two letters of recommendation from individuals who are well acquainted with your educational training, teaching, and other related experiences.
6. Submit a typed personal essay describing how your interest in special education began, the experiences, training and talents that you bring to the area of special education; your short-term and long-term career goals; and how the program's goals fit your personal goals.
7. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years. TB clearance must be valid through advanced field study (student teaching).
8. Submit one photocopy of all university and/or college transcripts.
9. Submit proof of having taken the California Basic Educational Skills Test (CBEST). You must have attempted all three parts of the CBEST. Passage of the CBEST is required before you begin your advanced field study (student teaching).
10. Complete and pass an oral interview with program faculty.
11. Demonstrate proficiency in reading and writing English by (1) attaining a minimum passing score of 37 on each of the reading and writing portions of the CBEST exam; and/or (2) through demonstration of appropriate writing skills on your personal essay and oral communication skills in the oral interview with program faculty.
12. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching students with special needs in public schools through the application documentation and oral interview with program faculty. Candidates must continue to demonstrate appropriate personality and character traits through completion of the program.
13. Submit an application for a Certificate of Clearance to the California Commission on Teacher Credentialing (CTC), or provide evidence of recent fingerprint clearance. Submit a copy of the Certificate as demonstration of clearance, or a copy of a certified mail receipt as demonstration of submitting an application.
14. Submit proof of having demonstrated subject matter competence by passing all three sub-tests of the California Subject Exam for Teachers: Multiple Subjects (CSET: Multiple Subjects) or the appropriate single subject CSET exam in Math, Science, or Language Arts to meet the highly qualified teacher mandate. See the Level I advisor for more information.

Applicants will be informed in writing of the decision of the program faculty regarding acceptance into the program shortly after the interview. Upon acceptance, the candidate is required to meet with an assigned program faculty for advisement and may begin taking Level I coursework in the advised sequence.

Preliminary Level I - Education Specialist Intern Program (ESIP): Mild/Moderate and Moderate/Severe

Admission to the Program

Interns are teachers of record employed by a local school district who earn their credential concurrent with their classroom teaching responsibilities. Application for admission to the Education Specialist Intern Program (ESIP) should be made the semester before beginning the required Level I courses. Application packets are available on the program website (www.ced.csulb.edu/special-education). Completed ESIP applications should be submitted to the Credential Center. Students may apply to the program while taking prerequisite courses. To be considered for admission to the ESIP, candidates must provide verification of the following:
1. Employment by a collaborating school district in a qualifying special education classroom or setting.
2. Proof of passage of the California Basic Educational Skills Test (CBEST).
3. One copy of official sealed transcripts from all universities/ colleges attended indicating a grade point average of at least 2.67 in all baccalaureate and post-baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units attempted.
4. Meet the U.S. Constitution requirement (through POSC 100 or 391 or equivalent course at another institution or exam).
5. Proof of character clearance (fingerprint background check).

Program Admission Requirements

In addition to the requirements listed above, ESIP candidates will:
1. Apply and be admitted to the University as a post baccalaureate (credential) student.
2. Complete and submit to the Credential Center the Education Specialist Intern Program application by the posted application deadline. Specify area of authorization (Mild/Moderate, Moderate/Severe, or both).
3. Provide documentation of a field experience of at least 45 hours in a K-12 general education classroom setting.
4. Submit a typed personal essay describing how your interest in special education began; the experiences, training and talents that you bring to the area of special education; your short-term and long-term career goals; and how the program's goals fit your personal goals.
5. Complete and submit CTC application 41-4.
6. Submit a money order for $55 payable to the California Commission on Teacher Credentialing.
7. Complete and pass an oral interview with program faculty.
8. Demonstrate proficiency in reading and writing English by (1) attaining a minimum passing score of 37 on each of the reading and writing portions of the CBEST exam; and/or (2) through demonstration of appropriate writing skills on your personal essay and oral communication skills in the oral interview with program faculty.

2009/2010 CSULB Catalog • Advanced Studies in Education and Counseling • 101
9. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching students with special needs in public schools through the application documentation and oral interview with program faculty. Candidates must continue to demonstrate appropriate personality and character traits through completion of the program.

10. Demonstrate proficiency in reading and writing English by (1) attaining a minimum passing score of 37 on each of the reading and writing portions of the CBEST exam and/or (2) through demonstration of appropriate writing skills on your personal essay and oral communication skills in the oral interview with program faculty.

Applicants will be informed in writing of the decision of the program faculty regarding acceptance into the program shortly after the interview. Upon acceptance, the candidate is required to meet with an assigned program faculty for advisement and may begin taking Level I coursework in the advised sequence.

Course Requirements in the ESCP and ESIP Programs

To be considered for full acceptance in the ESCP and ESIP programs, students must have completed all prerequisite courses: EDP 301 (or HDEV 307) or PSY 361 or EDP 302, EDP 350, 454, and ETEC 444.

Fully admitted candidates must complete the core courses: EDP 405, EDP 406, 564, 567, 569, EDEL 452 and 462.

Students in the ESIP program must identify and work closely with a site-based support team, comprised of their site support coach, principal, and other school and district support personnel throughout their Level I credential program.

Advanced Field Study (Student Teaching) Requirements in the ESCP and ESIP Programs

The final phase of the ESCP and ESIP programs is advanced field study (student teaching). Candidates are required to student teach for 5 days a week for the length of the semester(s) that they are enrolled in advanced field study. ESCP candidates student teach as a traditional student teacher with a master teacher. ESIP candidates use their own K-12 MM or MS special education classroom setting in which they are the teacher of record as their student teaching placement.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted by the posted deadlines during the semester prior to which the candidate wishes to student teach. Application packets are distributed at program Field Study Information meetings, which are announced in program courses and posted on the program website. Upon notification of acceptance in student teaching, candidates register for Advanced Field Study: EDP 567 A & B or EDP 588 A & B.

To be eligible for advanced field study (student teaching), candidates must:
1. Pass CBEST.
2. Complete all program prerequisite and core courses. A student must have a 3.0 grade point average, with no grade below "C", in the core courses to advance to student teaching. A grade of "D" or "F" in any of the core courses will result in the student being dropped from the program.

The overall grade point average must continue to meet the program admission standard.

3. Have on file a negative tuberculosis skin test or chest X-ray valid through completion of student teaching.
4. Meet the U.S. Constitution requirement (through POSC 100 or 361 or equivalent course at another institution or exam).
5. Submit proof of character clearance (fingerprint background check).
6. Submit a student teaching application by the appropriate deadline.
7. To be eligible for the Preliminary Level I Education Specialist Credential, candidates must successfully meet all program requirements, including passing student teaching, and pass the Reading Instruction Competency Assessment (RICA). Candidates may take the RICA at any time prior to applying for the credential. RICA information booklets are available in the Teacher Preparation Advising Center (EDT-1-67).

Professional Level II – Education Specialist Credential: Mild/Moderate and Moderate/Severe

Professional Level II Education Specialist Credential preparation is intended to enable new Education Specialist teachers to apply their Level I preparation to the demands of their professional positions while also developing as reflective practitioners in advanced skill areas and knowledge. The Level II program incorporates several courses in the Master of Science in Special Education program and students are encouraged to apply to the M.S. in Special Education program.

Application and Admission

Candidates are encouraged to apply for admission to the Professional Level II Education Specialist Credential program in the semester immediately prior to their anticipated completion of Level I. The CTC requires that candidates complete Level II within five years of the completion of Level I. Candidates must be employed for at least 2 years under a Level I credential to be granted a Level II credential. Upon completion of the Level I credential, candidates have 120 days of employment to select a support provider and develop a Level II Individualized Induction Plan. To be considered for admission, candidates must provide verification of the following:

Prerequisites and Conditions and Requirements

1. Admission to the University.
2. Overall GPA of 2.86 in college and university course work (last 60 units).
3. Completion of Preliminary Level I Credential or Certificate of Eligibility.
4. HSC 411 A or B (Health Science requirement).
5. CPR certification.
6. Two letters of recommendation (from employer and a university faculty member at previous institution).
7. Interview with program faculty.
8. Attendance at an on-campus program orientation.

102 • Advanced Studies in Education and Counseling • 2009/2010 CSULB Catalog
Professional Level II Education Specialist 
Credential Requirements 
1. Complete EDSP 546C Practicum in Special Education and complete an Individualized Induction Plan. Select area of emphasis (mild/moderate or moderate/severe); identify specialization and action research focus; and identify non-university activities if applicable. 
2. Complete the following core courses: EDSP 550 and 535. 
3. Complete one specialization course: EDSP 542 or 566. 
4. Complete one advanced methods course: EDSP 563 or 565. 
5. Participate in an Exit interview with University Faculty Mentor and District Support Provider. 

Administrative Services Credential 
Preliminary (code 501) 
Certification of school administrators is established through a two-tiered credentialing process. Upon completion of all Preliminary Administrative Services Credential Program coursework and requirements (Tier 1), candidates apply to the California Commission for Teacher Credentialing (CTC) for a Preliminary Administrative Services Certificate of Eligibility. The certificate has no expiration date and authorizes the holder to seek an administrative position. The certificate informs the future employing school district/agency of eligibility to serve. Once the candidate accepts employment as an administrator, the candidate applies to the California Commission for Teacher Credentialing for the Preliminary Administrative Services Credential authorizing the candidate to serve as an administrator in the state of California. Once issued, the Preliminary Credential is valid for five (5) years and it is not renewable. The Preliminary Administrative Services Credential (Tier 2) cannot be pursued until the candidate is employed in a position requiring an administrative credential. Once issued, it is valid for five years and is renewable subject to fulfillment of professional development requirements (see complete description of the Professional Administrative Services Credential program below). 

Clear Admissions Requirements 
Preference will be given to individuals with 3 or more years of classroom teaching and/or related educational experiences. 
1. Complete the “Conditional Admission to the Program” requirements (Nos 1-4) for the MA in Education, Option in Educational Administration; 
2. Possess one of the following: a valid teaching, pupil personnel, library/media teacher, health services, vocational education instructor, or clinical rehabilitative services credential. 

Requirements 
Prerequisite: Enrollment in courses is contingent upon acceptance in the Educational Administration program and the University. Candidates who have not been accepted in the program may not enroll in Educational Administration courses. 
1. EDAD 541, 544, 647A, 647B, 649, 677A, 677B; 
2. EDAD 690 (Field Experience); 
3. The CBEST must be passed prior to entrance into EDAD 680. The CBEST must be taken no later than the second available test administration date following enrollment in the program. 

Exit Requirements 
1. Verification of three years of successful experience in a position requiring one of the credentials in Item #2 of the “Clear Admission Requirements” (see above); 
2. Verification of completion of the State requirement of a mainstreaming course or approved equivalent coursework; 
3. Presentation of a professional Exit Portfolio to program faculty with program artifacts of course and field related experiences documenting the candidate’s competence and readiness to serve as a school administrator. 

Professional (code 502) 
The Professional Administrative Services Credential (Tier II) authorizes the candidate to serve in any position requiring the Administrative Services Credential. The Professional Credential cannot be pursued until the candidate is employed in a position requiring an administrative credential. The program requirements must be completed within the five year authorization of the Preliminary Administrative Services Credential. Once issued, the Professional Credential is valid for five years and is renewable subject to fulfillment of professional development requirements. 

Prerequisites 
1. Possession of a valid Preliminary Administrative Services Credential; 
2. Written verification of employment in an administrative position by an educational agency. 

Admission 
1. Program application and evidence that prerequisites have been met; 
2. Current resume; 
3. Personal narrative describing philosophy of leadership and academic and professional goals while in the program; 
4. Copy of valid Preliminary Administrative Services Credential; 
5. Written evidence of mentor’s commitment to work with the candidate for the duration of the program; 
6. Personal contact (phone, email, in person) with program coordinator prior to program application. 

Requirements 
The Professional Administrative Services Credential Program has a unique format intended to meet the needs of the busy, practicing administrator. Candidates complete the program in 10 semester units. The program is designed to provide the candidate with professional support through an introductory two (2) unit course (EDAD 640) in which the Mentoring and Professional Induction Plan is developed. The plan is developed collaboratively among the candidate, the school district mentor, and the University supervisor. The academic core program consists of two courses, EDAD 658 and 659, which must be completed with a grade of “B” or better. The final requirement is a two (2) unit candidate assessment (EDAD 692) in which the candidate participates in a Portfolio Exhibition. 

Outline of Specific Requirements 
1. Development of the candidate’s Professional Induction Plan during EDAD 640; 

2009/2010 CSULB Catalog • Advanced Studies in Education and Counseling • 103
2. Completion of the following courses: EDAD 640, 658, 659, 692;
3. Presentation of Administrative Portfolio during EDAD 692.

Exit Requirements

1. Provide verification of two years of successful full time experience in a position requiring the Administrative Services Credential;
2. Present to program faculty, school district mentor, and a panel of other candidates a professional portfolio containing artifacts that demonstrate competency in each of the six administrative services credential standards and satisfactory progress toward attaining goals identified in the candidate’s Professional Induction Plan developed in EDAD 640.

Teacher Librarian Services Credential (code 700)

The 29-unit program in Library Media prepares students for service as a teacher librarian, grades K-12, in the State of California. For additional information go to www.csulb.edu/ltm.

Admission

1. Submit a University Application, April 15 for Fall or October 1 for Spring (a maximum of six units may be completed through Open University/Extension Services);
2. Completion of a bachelor’s degree;
3. Possession of a valid California teaching credential;
4. Passage of CBEST;
5. Overall 3.0 GPA in the last 60 semester or 90 quarter units of course work or 3.0 GPA in the completion of first 15 units of basic teaching credential course work;
6. Three letters of recommendation;
7. A one-page personal statement and resume;
8. Screening interview.

Submit all materials (2-7) to the College of Education Graduate Office.

Requirements

1. Core Course (3 units): EDCL 625, or equivalent;
2. Specialization Courses (21 units): ELIB 510, 520, 530A, 530B, 540, 550, 570;
3. Field Experience (4 units): ELIB 580.

A working knowledge of word processing, databases, spreadsheets, desktop publishing, presentation software, Internet searching and e-mail usage is expected.

Graduate Certificate Community College (code COEDCT02)

The community college graduate certificate is designed to prepare graduate students to work in community college settings as teaching faculty or counselors. Courses offered in this program provide students with an overview of the community college and its role in the American higher education system. Students will gain insights and experiences in the classroom and in fieldwork that will strengthen their knowledge and skills in working with community college students, faculty, and staff. The certificate program consists of 18 units; 9 units are from the master’s degree program and must be approved by the student’s master’s degree program graduate advisor; and 9 units are specific to the study of college students, the community college, and fieldwork. All students will be required to:

1. Submit a Graduate Certificate in Community College application to the Office of Graduate Studies by April 1 for fall consideration or October 15 for spring consideration
2. Be enrolled in a master’s degree program or have an earned master’s degree in a discipline leading to teaching or counseling in post-secondary education settings.
3. Complete 9 units of coursework in Educational Psychology: Introduction to the Community College (COUN 552), Students in U.S. Higher Education (COUN 548), and a fieldwork class that is counseling or teaching focused (COUN 644B).
4. Complete an additional 9 units approved by their master’s degree program graduate advisor for consideration to fulfill the 18 units required for the certificate. These courses may include pedagogy, learning theory, instructional management, and/or teaching methodology courses in the student’s major area of study, or any other courses in the discipline deemed appropriate by the master’s degree program graduate advisor.

Graduate Certificate for Career Guidance Specialist (code COEDCT01)

This option is under consideration for suspension or discontinuance and selected courses will not be offered in the 2008-09 academic year.

Admission

1. Fill an Application for Graduate Admission, along with two complete sets of official transcripts, with the University Office of Admissions no later than March 1 for fall semester or October 1 for spring semester;
2. Transcripts must verify a GPA of 2.85 or higher on the last 60 semester (or 90 quarter) units of course work taken;
3. Evidence of completing at least a baccalaureate degree prior to beginning the Graduate Certificate program;
4. Two letters of recommendation (send only after notification by the program);
5. A type-written personal statement (send only after notification by the program);
6. Screening interview(s) (upon notification by the program);
7. Items 1-5 above must be on file in the department no later than November 1 for the following spring semester, or April 1 for the following fall semester;
8. Applicants are allowed only two semester units credit applied to curriculum requirements completed prior to admission into the first semester of the program.

Requirements

1. 19 core course units: COUN 530, 531, 637, and 643C;
2. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
3. Approved electives in the Departments of Advanced Studies in Education and Counseling, Human Resources Management; Occupational Studies; Psychology or Sociology as needed to fulfill 19 units upon waiver of any core course units granted upon admission to certificate program.

COUN 191. Career and Personal Explorations (3)
Prerequisite or Corequisite: Any foundation (G.E. Category A1, A2, A3, or B2) class.
Described for but not limited to entering and undecided students. Exploration of issues, tasks related to personal, educational, and career planning. Involves personal characteristics and individual differences, personal values and interests, decision making, goal setting, and job/career search preparation.
Not open for credit to students with credit in EDP 191 or EDP 360/ COUN 360.

COUN 507. Career and Academic Counseling in K-12 Settings (3)
Prerequisite: COUN 506.
Focus on career development theory and practice, the world of work, post-school planning, and academic counseling in K-12 settings. Application of theory through culturally sensitive interventions.
Letter grade only (A–F).

COUN 508A. Family Systems Therapy Applied to Lifespan Development (3)
Family systems assessment and counseling applied to lifespan development theories.
Not open for credit to students with credit in EDP 508A. Letter grade only (A–F).

COUN 508B. Family Systems Methods (3)
Prerequisite: COUN 508A or consent of instructor.
The application and practice of family systems therapeutic methods.
Not open for credit to students with credit in EDP 508B. Letter grade only (A–F).

COUN 510. Law and Ethics for Counselors (3)
An introduction to professional identity as counselors and examination of laws and ethics related to the counseling profession and its specialties (MFT, career/vocational rehabilitation, student development, and school counseling).
Not open for credit to students with credit in EDP 510. Letter grade only (A–F).

COUN 511. Counseling the Alcohol/Chemically Dependent Person (2)
Survey of the theories, etiologies, and focus on treatment approaches for counseling and preventing alcohol and chemical dependency, and the role of family and community resources, referrals, and prevention programs.
Not open for credit to students with credit in EDP 511. Letter grade only (A–F).

COUN 512. Child and Spousal/Partner Abuse (1)
Child and spousal/partner abuse assessment indicators, laws, community resources, mandatory reporting requirements for child abuse and spousal/partner violence, assessment, detection, and interventions for the child, family, spousal/partner, and the perpetrator.
Not open for credit to students with credit in EDP 512. Letter grade only (A–F).

COUN 513. Introduction to Clinical Interviewing (3)
A foundation course that provides training in core interviewing skills including active listening, case exploration, goal setting, conducting a mental status exam, and assessing for self-harm.
Not open for credit to students with credit in EDP 513. Letter grade only (A–F).

COUN 514. Medication and Counseling (2)
Prerequisites: COUN 513 or consent of instructor.
An examination of the categories of psychotropic medications: antidepressants including antipsychotics, anxiolytics, and mood stabilizers. Major side effects of these medications and a brief overview of their medical management are reviewed. Herbal alternatives to pharmacologic agents will be explored. Identification of information resources for counselors and clients.
Not open for credit to students with credit in EDP 514. Letter grade only (A–F).

COUN 515. Counseling Theories (3)
Prerequisite: COUN 513.
Major counseling theories examined and the competencies of each developed for use in helping relationships.
Not open for credit to students with credit in EDP 515. Letter grade only (A–F).
Counseling Courses (COUN)

516. Counseling the Adult (3)
Prerequisite: COUN 515.
Theory and practice of counseling and guidance of the adult.
Not open for credit to students with credit in EDP 516. Letter grade only (A-F).

522. Counseling Methods and Techniques (3)
Prerequisites/Corequisites: COUN 513, 515.
An applied course which provides practice in the methods and techniques of the major theoretical approaches employed in counseling.
Not open for credit to students with credit in EDP 522. Letter grade only (A-F).

530. Career Development and Decision Theory (3)
Emphasis on the planning concepts as related to the world of work, theory of career development and the career decision process.
Not open for credit to students with credit in EDP 530. Letter grade only (A-F).

531. Career Information Resources (3)
Knowledge, use and management of information resources in the career development field.
Not open for credit to students with credit in EDP 531. Letter grade only (A-F).

538. Student Development in Higher Education (3)
Survey of student development in public and private colleges and universities, focusing on historical, philosophical and theoretical foundations; roles and functions; legal, ethical, and organizational issues.
Not open for credit to students with credit in EDP 538. Letter grade only (A-F).

539. Seminar in Student Athlete Development (3)
Prerequisite: Graduate standing. Examination of student athlete administration and advising in higher education: history, principles, techniques, and professional standards for student athlete programs and services. Letter grade only (A-F). Same course as KIN 539. Not open for credit to students with credit in KIN 539.

540. The Fundamentals of Peer Advising and Counseling (3)
Introduction to theories of student development, multiculturalism, and counseling. Basic skill development and knowledge of policies and procedures to provide effective academic peer advising. Includes a twenty-hour service-learning component that places students in advising internships on campus. Letter grade only (A-F).

543. Human Sexuality Counseling (3)
Prerequisite: COUN 515.
Training in human sexuality education, counseling, and therapy. An examination of personal attitudes and values. The study of the physiological, psychological, and sociocultural variables associated with sexual behavior, sexual identity, and sexual disorders. For MFCC certification only. Not open for credit to students with credit in EDP 543. Letter grade only (A-F).

547. Student Development Theory in Higher Education: Theory to Practice (3)
Prerequisite: COUN 538.
Examine student development theory and the application of theory to practice for programs and services in student affairs/ higher education, examining cognitive, psychosocial, and person/ environment theories and their application to traditional and non-traditional student populations.
Not open for credit to students with credit in EDP 547. Letter grade only (A-F).

548. Students in U.S. Higher Education (3)
Prerequisite: COUN 538.
Focus on concepts of community and culture in United States college with an emphasis on understanding the diversity of student population to include age, gender, ethnic culture, sexual orientation, and people with disabilities.
Not open for credit to students with credit in EDP 548. Letter grade only (A-F).

549. Management of Student Development in Higher Education (3)
Analysis of management and organizational theory and practice as it pertains to student development in higher education. Includes study of human and physical resources management.
Not open for credit to students with credit in EDP 549. Letter grade only (A-F).

552. Introduction to the Community College (3)
Prerequisite: Enrollment in M.A., M.S. or Credential Programs.
Introduction, orientation, and survey of California and American community college. Components and modules include teaching and learning, leadership and governance issues, organization and administration, student development, classroom research, institutional resources, and student diversity and equity in the community college.
Not open for credit to students with credit in EDP 552. Letter grade only (A-F).

555. Cross-Cultural Counseling (3)
Prerequisites: COUN 510, 513, 515; COUN 506 for School Counseling Option, COUN 538 for SDHE Option, or their equivalent upon approval of the instructor.
Study of U.S. and international cultural factors, perspectives and personal and societal values that affect the counseling relationship, methods, and outcomes. These factors include historical, geographical, socio-psychological, educational and counseling factors from various cultural groups that students will encounter in their professional settings.
Not open for credit to students with credit in EDP 555. Letter grade only (A-F).

556. Counseling Children and Adolescents (3)
Prerequisites: COUN 515 and 522, or consent of instructor.
Theories and application of the methods and techniques of the major theoretical approaches employed in counseling children and adolescents.
Not open for credit to students with credit in EDP 556.

557. Counseling Couples (3)
Prerequisites: COUN 515.
Couple development theories, issues, and practices pertaining to counseling couples.
Not open for credit to students with credit in EDP 557. Letter grade only (A-F).

559. Play and Art Therapy for Children/Adolescents (3)
Prerequisites: COUN 508A and 556 or consent of instructor.
Experiential survey and the practice of play and art techniques employed in therapy as applied to theoretical orientations and problematic behavior.
Not open for credit to students with credit in EDP 559. Letter grade only (A-F).
593. Seminar in Professional Development in Counseling and Human Services (1)
Prerequisite: COUN 538 and 548 (must have completed or concurrently enrolled)
Experiential orientation to profession of counseling and student development/student affairs in higher education with an emphasis on opportunities to observe interactions between organizational and student cultures, and the functions and role of student affairs professionals in the work environment through fifty-hour practicum.
Not open for credit to students with credit in EDP 593. Letter grade only (A-F).

601. Trauma and Grief Counseling (3)
Prerequisite: COUN 555 or consent of instructor. Required course for students in the Marriage and Family Therapy Program and a recommended course for graduate students in the other Counseling Programs.
Overview of developmentally informed models of trauma response, training in identifying and assessing problematic responses to trauma and loss, and guidelines for working with traumatized children, adolescents and families in various settings. Current treatment approaches for treatment of acute and chronic forms of post-traumatic distress and traumatic bereavement will be covered. Will not cover treatment of childhood sexual or physical abuse.
Not open for credit to students with credit in EDP 501. Letter grade only (A-F).

606. Current Issues in Professional School Counseling (3)
Prerequisite: COUN 506.
A variety of current issues in school counseling presented in learning modules. Topics include assessment, education of students with disabilities, school violence prevention, crisis counseling, comprehensive counseling plans, and classroom management.
Letter grading only (A-F).

607. School Counseling Practicum (3)
Prerequisites: COUN 505, 515.
Practical application of counseling theory to work with children and adolescents. Supervised counseling, consultation, and case management experiences conducted in the educational psychology/counseling clinic and in school settings.
Not open for credit to students with credit in EDP 507. Letter grade only (A-F).

608. Seminar in Marriage and Family Therapy (3)
Theories, research, treatment planning, and therapeutic methods of MFT counseling utilizing major psychotherapeutic approaches regarding assessment, diagnosis, and treatment of various mental health problems.
Not open for credit to students with credit in EDP 608. Letter grade only (A-F).

609. MFT Practicum (3)
Prerequisites: COUN 510, 511, 512, 513, 515, 522, and 608.
Practicum application submitted no later than March 1 for the following fall semester, and October 1 for the spring semester. MFT counseling in the Educational Psychology Clinic and an appropriate non-profit setting with closely supervised experiences prior to MFT fieldwork. Students will be required to assess, diagnose, describe appropriate interventions, and conduct counseling services for individuals and/or families. A total of 150 hours is required.
Not open for credit to students with credit in EDP 609. Credit/No Credit grading only.

637. Career Counseling Practicum (4)
Prerequisites: COUN 510, 515, 530 or 531 and EDP 524A or EDP 564.
Career counseling at the secondary and post secondary levels with closely supervised clinical experiences. Students will be required to assess, diagnose, develop treatment plans, write progress and termination reports, provide appropriate interventions and conduct counseling services for individuals seeking career/vocational guidance.
Not open for credit to students with credit in EDP 637.

638. Group Counseling (3)
Prerequisites: Admission to the MS in Counseling, and/or PPS School Counseling Credential, or School Psychology Program, COUN 516, 513, 516 or equivalent upon approval of instructor.
Review of theories and applications of small group processes in guidance and counseling. Laboratory practice in providing and analyzing the selection of participants, leadership, interaction methods, problem-solving, and evaluation activities are examined. Students will learn how to proficiently facilitate the group process and address multicultural issues in group settings.
Not open for credit to students with credit in EDP 638. Letter grade only (A-F).

639. Seminar in Organization of Pupil Personnel Services (3)
Prerequisite: COUN 430, 506.
Practices in organizing, administrating, supervising, and evaluating pupil personnel services programs at various educational levels.
Lettor grade only (A-F). (Open only to School Counseling Master's Degree students who have advanced to candidacy prior to Fall 2005 and to PPS/SC credential only students admitted to the program prior to and including Fall 2004.)
Not open for credit to students with credit in EDP 639.

643A-D. Counseling Field Work (3)
A. School Counseling (3)
Prerequisites: COUN 607, Certificate of Clearance, EDP 536 (must be taken concurrently with either COUN 643A or 644A).
Practical experiences in counseling and guidance activities under supervision in approved school settings (total of 300 hours). Emphasis on personal and professional development as school counselors.
Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 643A.

B. Student Development in Higher Education (3)
Prerequisites: COUN 516, 538.
Practical experiences of 220 hours in counseling and guidance activities under supervision in approved settings.
Applications for field work must be made no later than March 1 for the following fall semester, and October 1 for the spring semester. Not open for credit to students with credit in EDP 541. Credit/No Credit grading only.

C. Career Counseling
Prerequisites: COUN 637.
Practical experiences in counseling and guidance activities under supervision in approved settings.
Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only.

D. Marriage and Family Therapy
Prerequisites: COUN 608, 609.
Practical required experiences of 150 hours in counseling activities under supervision in approved settings.
Applications for field work must be made no later than March 1 for the following summer or fall semester and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 643D.
Counseling Courses (COUN)

644A-D. Advanced Counseling Field Work (3)

A. Advanced School Counseling

Prerequisites: COUN 507 (or EDP 530 or 521 for students who have advanced to candidacy prior to Fall 2005), 630, 643A; EDP 530 (must be taken concurrently with either COUN 643A or 644A); pass CBEST.

Continued practical experiences in counseling and guidance activities under supervision in approved school settings (total of 300 hours). Emphasis on personal and professional development as school counselors.

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 544A. Credit/No Credit grading only.

B. Student Development in Higher Education (3)

Prerequisites: COUN 516, 538, 643B.

Continued practical experiences of 225 hours in counseling and guidance activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 544A. Credit/No Credit grading only.

C. Career Counseling (3)

Prerequisites: COUN 638, 643C.

Continued field work under licensed/certificated supervisors (if required by specialty area or work setting).

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Not open for credit to students with credit in EDP 545 or EDP 644C. Credit/No Credit grading only.

D. Marriage and Family Therapy (3)

Prerequisites: COUN 638, 643D.

Continued practical required experiences of 150 hours in counseling activities under supervision in approved settings.

Applications for field work must be made no later than March 1 for the following summer or fall semester, and October 1 for the spring semester. Credit/No Credit grading only. Not open for credit to students with credit in EDP 644D.

690. Seminar in School Counseling Supervision: Theory and Practice (3)

Prerequisite: Consent of instructor.

Focuses on models and methods of school counseling supervision. Designed to prepare school counselors to be effective site supervisors for school counseling field work students.

Open to advanced students in the School Counseling Program as well as practicing school counselors. Letter grade only (A-F).

692. Special Topics in Counseling (1-6)

Advanced study of special topics in the field of counseling. Continuing education and non-degree students may enroll for units subject to suitable changes in course content.

Topics regarding continuing education for mental health providers are announced in the UCLA Schedule of Classes or the University Fall, Spring, or Summer semester Schedule of Classes. May be repeated to a maximum of 12 units with different topics, which includes previously earned credit in EDP 692.

A. Introduction to Psychotherapy

B. Advanced Psychotherapy

Prerequisites: COUN 692A or consent of instructor.

693. Advanced Seminar in Professional Development in Counseling and Human Services (1-2)

Prerequisites: COUN 515, 538, 548, 593, and concurrently enrolled in COUN 549.

Explore professional development topics, demonstrate an integration of roles, philosophy and theory for counseling and student development work. Attendance at a local, regional and national professional conference required.

Not open for credit to students with credit in EDP 693. Letter grade only (A-F).

695C. Integrative Seminar in Professional School Counseling (3)

Prerequisites: Admission to candidacy; COUN 597 (or EDP 530 or EDP 531 for students who have advanced to candidacy prior to Fall 2005), 555, 538; EDP 596; and permission from School Counseling Program Coordinator. Prerequisite/Corequisite: COUN 643A.

Designed to support integration and synthesis of knowledge, skills, and attitudes learned and developed during the school counseling program, in order to facilitate the transition from graduate student to counseling professional and lifelong learner.

Not open for credit to students with credit in EDP 695C. Letter grade only (A-F).

Educational Administration Courses (EDAD)

GRADUATE LEVEL

541. Leadership, Organizational Management, and Ethics (3)

Prerequisite: Admission to the Preliminary Administrative Services Credential Program.

Examines the relationship between leadership and organizations; the role of educational leaders; a shared vision to support equitable academic achievement for all students; multiple measures to guide decision making; the relationship among political, social, economic, legal, and cultural factors and schools.

Ten hours field experience required. Letter grade only (A-F).

544. Legal Aspects of Education: Implications and Applications for School Leadership (3)

Prerequisite: EDAD 541.

Implications and applications of school law including accessing technological sources of legal information, conducting basic legal research, demonstrating operational knowledge of school law, creating a conceptual and ethical legal leadership framework, developing legal foundational knowledge.

Ten hours field experience required. Letter grade only (A-F).

580. Introduction to Field Experience in Administration (3)

Prerequisite: Approval by the Program Coordinator, Department of Advanced Studies in Education and Counseling.

First of two on-the-job field experiences. Application of leadership theory to practical settings in quasi administrative roles. Requires 100 hours of on-the-job field participation. Credit/No Credit grading only.

597A. B.C. Directed Study (1,2,3)

Prerequisite: Approval of program coordinator and Graduate Studies Office. Application for enrollment must be made to the Office of Graduate Studies by March 1 for the summer or fall semester or by October 1 for the spring semester.

Individual creative activity; projects, surveys, intensive reading, practical and action research in an area significant to the field of educational administration. Could also involve small group activity focused on an educational problem or issues.

May be repeated to a maximum of 8 units, with no more than 3 units in one semester or for degree purposes. Letter grade only (A-F).

640. Mentoring and Professional Development Planning for the New Administrator (2)

Prerequisite: Admission to EDAD Professional Administrative Services Program.

Development of individualized induction plan based on pre-assessed...
skills and competence; plan includes assessment documents, mentoring component, goal identification based on CTC standards; completion strategies, evidences of indicators of goal attainment and evaluation plan. Credit/No Credit grading only.

647A. Fiscal Resources in Educational Administration (3)
Prerequisites: EDAD 541
Examines foundational concepts and theories of public school finance; social, economic, political, legal and technological dimensions stemming from federal, state, and local influence; identification of revenue sources, budgeting strategies/procedures, equitable distribution mechanisms, fiscal policy implications. Letter grade only (A-F). Includes at least 10 hours of field experience.

647B. Human Resources in Educational Administration (3)
Prerequisites: EDAD 541
Examines fundamental human resource leadership issues; laws, ethics, and procedures governing certified and classified personnel; employment processes, selection, retention and performance appraisal systems, professional development programs; staffing, unions, collective bargaining and contract management, strategic planning, problem solving strategies. Letter grade only (A-F). Includes at least 10 hours of field experience.

648. Schools as Organizations: Development, Management, and Assessment (3)
Prerequisite: EDAD 541
Concepts and skills of managing educational organizations. Decision making, conflict management, motivation, leadership, team building, communication, planning, and organizational change, culture and renewal. Perspectives and analysis of complex organizations and the theoretical and conceptual advances in the field. Letter grade only (A-F).

649. Urban Schools and Communities: Academic, Social, Political, and Cultural Issues (3)
Prerequisite: EDAD 541
Examines dynamics of urban schools and communities with emphasis on academic, social, political and cultural issues. Explores culturally diverse families and communities, forming partnerships and effective communication strategies, conflict resolution strategies. Letter grade only (A-F). Includes at least 10 hours of structured field experiences.

658. Organizational Development, Culture, and Change (3)
Prerequisite: EDAD 540.
Examines elements that influence schools as effective organizations, transformational leadership, organizational development, learning strategies for developing successful school cultures and instructional programs. Study of larger political, social, legal and supervisory contexts of organizations; use of behavior/management sciences. Letter grade only (A-F).

659. Educational Governance, Politics and Policy (3)
Prerequisite: EDAD 540.
Examination of systemic impact of governance systems at federal, state, local levels; implementation and policy development strategies; policies of public education, micro-politics of school sites using theoretical and pragmatic perspectives. Letter grade only (A-F).

677A. Curriculum/Program Development and Evaluation (3)
Prerequisite: EDAD 541, Corequisite: EDAD 677B.
Examines teaching, learning, and achievement for all students; policy impact on curriculum development, implementation, and assessment; distributed instructional leadership and accountability; multiple measures and data-driven assessment for program evaluation; closing the achievement gap; communication and partnership with stakeholders. Not open for credit to students with credit in EDP 677 or EDAD 650. Ten hours field experience required. Letter grade only (A-F).

677B. Instructional Leadership and Assessment (3)
Prerequisite: EDAD 541. Corequisite: EDAD 677A.
Examination of instructional leadership and supervision practices that facilitate and sustain continuous school improvement; assessment policies and practices; distributed leadership and accountability; achievement disparities between/among student subgroups; adult learning theory; technology; teacher evaluation and differentiated professional development; and community partnerships. Includes 10 hours of field experience. Letter grade only (A-F).

680. Field Experience in Educational Administration (3)
Prerequisite: Admission to program, EDAD 541, completion of at least three additional courses in the Preliminary Administrative Services Credential program, consent of instructor. Application/demonstration of standards based competence as quasi administrator. Requires three week, full-time participation at site other than candidate's own. Credit/No Credit grading only.

692. Administrator Portfolio Development and Exhibition (2)
Prerequisite: Completion of the Professional Development Plan, including the core courses, electives and/or professional development activities. Development and presentation of Professional Portfolio reflecting and documenting progress/mastery of goals connected to CTC Administrative Standards. Credit/No Credit grading only.

695. Master's Research Study in Educational Administration (3)
Prerequisites: EDP 529 or 565; advancement to candidacy in Educational Administration Option; approval of graduate advisor and written application to the Graduate Office. Application for enrollment must be made to the Graduate Office by March 1 for the summer or fall semester or by October 1 for the spring semester. Application of action research methods to identify, study, and analyze a school/district based problem. Preparation of culminating research study to include related literature, data collection methods, findings, recommendations and implications. Credit/No Credit grading only. May be repeated to a maximum of 6 units in different semesters. Not open for credit to students pursuing the Thesis option.

697. Directed Research (1-3)
Prerequisites: Consent of instructor, department chair and associate dean. Individual research or intensive study under the guidance of a faculty member. May be repeated to a maximum of 3 units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by March 1 for the fall semester or by October 1 for spring. Letter grade only (A-F).

698. Thesis (3,3)
Prerequisites: Advancement to candidacy, EDP 595 or 695, approval by director, department chair and associate dean. Planning, preparation and completion of a thesis under supervision of a faculty committee. Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester or summer session or October 1 for the spring semester. Letter grade only (A-F).
EDUCATIONAL PSYCHOLOGY COURSES (EDP)

LOWER DIVISION

180. Family, School, Community Partnerships (3)
Introduces current family, school, and community partnership models and approaches that foster two-way partnerships with families and communities of diverse backgrounds. Historical, legal, and political perspectives regarding educational equity for diverse student populations.
Letter grade only (A-F).

UPPER DIVISION

301. Child Development and Learning: A Cross-Cultural Perspective (3)
Explores the physical, cognitive, communicative, and socio-emotional development of the child from the prenatal through adolescent period across diverse cultures with an emphasis on the learning process and developmentally appropriate teaching practices.

302. Early and Late Adolescent Development and Learning: A Cross-Cultural Perspective (3)
Explores social, emotional, cognitive, and physical development in early and late adolescence across cultures with an emphasis on the learning process and developmentally appropriate teaching practices.

305. Educational Psychology (3)
Overview of Educational Psychology. Analysis of theories of learning as they relate to intellectual, social, and personal development of diverse learners. Emphasis on learning, motivation, and development with attention to educational practices that foster critical thinking, problem solving, and performance skills.

373L. Nonverbal Communication: Interaction of Mind and Body (3)
Prerequisites: Completion of GE Foundation requirements, completion of one or more Exploration course(s), and upper division status.
History and theories of the development of mind/body integration. Enhancement of personal and interpersonal relations through lectures, discussion, films, and movement experiences. Analysis and synthesis of the interdependence of the psychological and physical processes in nonverbal communication.
Same course as UANG 373L. Not open for credit to students with credit in UANG 373L.

390. Current Topics in Education (1-3)
Orientation to and exploration of topics relevant to the college student as a learner and decision maker within the changing campus, community, and societal milieu. Lectures, discussion, field study.
May be repeated to a maximum of 6 units with different topics. Topics will be announced in the Schedule of Classes.

400. Introduction to Educational Measurement and Statistics (3)
Introductory course in educational measurement and statistical concepts. Basic concepts of measurement including descriptive statistics, norms, reliability, and validity; correlation and simple regression; derived and transformed scores; development of educational measures; interpretation of test scores. May not be used as a substitute for EDP 419 or 420.

405. Positive Strategies for Classroom Management (3)
Models and strategies of classroom management to promote student prosocial behaviors and academic growth. Includes information regarding developing, implementing, and evaluating behavioral interventions to increase student success in General and Special Education programs.

419. Educational Statistics (3)
Prerequisite: Satisfactory completion of an undergraduate mathematics course suitable for general education math credit and, if required by the major, a lower division statistics course. Introduction to descriptive and inferential statistical methods with application to educational research problems. Emphasis on understanding statistical concepts, computation skills, and the use of computer programs in data analysis.
3lectures 2 hours, laboratory 2 hours.

420. Tests, Measurements and Evaluations (3)
Prerequisite: EDP 419.
Determination, meaning and use of fundamental statistical concepts applied to problems of measurement and evaluation. Construction, interpretation and use of standardized and teacher-made tests.

432. Social and Cultural Diversity in Educational Settings (3)
Examination of personal affinities toward diverse cultures of people. Study of historical and structural factors that either promote or diminish equal human worth and either empower or oppress people based on class, race/ethnicity, gender, sexual orientation, ability, language, or religion.

459. SDAIE: Specially Designed Academic Instruction in English (3)
Theories of second language acquisition and practical applications, including methods of teaching content to English language learners; oral, reading and writing strategies; and curriculum development with application to K-12 teaching.
Letter grade only (A-F).
Same course as EDEL 459 and EDSE 459. Not open for credit to students with credit in EDEL 459 and EDSE 459.

465. Theoretical Foundations of Language Minority Education (3)
Introduction to theoretical foundations of language minority instruction. Background on the historical and political context of the development of educational language policies. Models of bilingual and English language development education.
Letter grade only (A-F). Some course as LING 465. Not open for credit to students with credit in LING 465.

490. Special Topics in Educational Psychology (1-6)
Prerequisite: Consent of instructor.
Topics of current interest in educational psychology selected for intensive study.
May be repeated to a maximum of 6 units with different topics. Topics will be announced in the Schedule of Classes.

492. Internships in the Human Services (3)
Prerequisite: Consent of instructor.
Students are placed in agencies and organizations to engage in volunteer or paid work in human services/mental health. The required fifteen-hour seminar will focus on personal values, interpersonal communication skills, critical thinking, and problem solving. Development of knowledge and skills transferable to future careers will be stressed.
A minimum of 120 hours field experience is required for the semester.

497. Independent Study (1-3)
Prerequisite: Consent of instructor and department chair.
Independent study undertaken under the supervision of a faculty member.
May be repeated to a maximum of 6 units, with no more than 3 units applicable to credential or major requirements.

112 • Advanced Studies in Education and Counseling • 2009/2010 CSULB Catalog
517. Seminar in School Counseling (3)
Prerequisite: CCOUN 515.
Theory, research and techniques of counseling; use and analysis of case studies. Clinical work required.
Not open for credit to students with credit in EDPS 631. Letter grade only (A-F).

519. Quantitative Educational Data Analysis I (3)
Prerequisites: ED P 419 or equivalent. An advanced educational univariate data analysis course. Hypothesis testing using analysis of variance, analysis of covariance, multiple regression, and path analysis.
Letter grade only (A-F).

520. Research Methods in Education (3)
Prerequisites: For majors in Educational Psychology ED P 419 or equivalent. For other majors, with approval of program advisor; ED P 400 or equivalent. Examination and application of educational research methodology including various types of qualitative and quantitative methods, research design, sampling methods, inferential statistics and hypothesis testing, and the structure and content of a research proposal.
Letter grade only (A-F).

524A. Psychoeducational Assessment (3)
Prerequisite/Corequisite: EDSP 528; Corequisites: EDSP 524B and admission to the School Psychology Program.
Theories of cognition and their implications for understanding learning, development, and diagnosis of disability. The history of intelligence testing and psychometric and sociocultural strengths and limitations of cognitive tests.
Not open for credit to students with credit in EDSP 524. Letter grades only (A-F).

524B. Psychoeducational Assessment: Clinical Applications (2)
Prerequisite/Corequisite: EDSP 528; Corequisites: EDSP 524A and admission to the School Psychology Program.
Practice in administration and interpretation of individually administered cognitive tests, and tests of psychological processing and achievement. Students will practice administering tests to adults and children, be observed for proficiency, and learn to apply these results to making instructional placement and eligibility decisions.
Letter grade only (A-F).

525A. Psychoeducational Assessment of Culturally and Linguistically Diverse Students (3)
Prerequisites: EDSP 524A, 524B. Corequisite: EDSP 525B.
Assessment theory and practice of culturally and linguistically diverse (CLD) individuals. Interpreting assessments to make eligibility, instructional and accountability decisions consistent with ethical, legal and measurement standards. Discussion of sociocultural issues and exemplary programs for CLD students.
Not open for credit to students with credit in EDSP 525. Letter grade only (A-F).

525B. Psychoeducational Assessment of Culturally and Linguistically Diverse Students: Clinical Applications (2)
Prerequisites: EDSP 524A and EDSP 524B. Corequisite: EDSP 525A.
Application of psychoeducational assessment practices within a clinical setting for culturally and linguistically diverse (CLD) students. Advanced training in selection, administration and interpretation of individually administered cognitive tests, and tests of psychological processing and achievement for CLD students.
Letter grade only (A-F).

527. Advanced Assessment for Intervention (3)
Prerequisites: EDP 525A, Corequisite: EDP 842A.
Focuses on furthering students’ knowledge and practice in using an ecological, problem-solving approach in schools; making informed decisions regarding the usefulness and appropriateness of assessment tools and interventions with specific populations; and writing problem-solving psychoeducational reports and data-based IEPs.
Letter grade only (A-F).

528. Orientation to Professional School Psychology (3)
Prerequisites: Admission to the School Psychology Program; CCOUN 515.
Introduction to the field of school psychology. History of the field, orientation to public education, roles and functions, laws and ethics, research base, organization and supervision, social and cultural influences, service delivery models, and current literature.
Letter grade only (A-F).

536. Collaborative Consultation in the Schools (3)
Prerequisites/Corequisites: CCOUN 643A, 644A; EDP 642A, 642B, or Field Placement in Special Education.
Theory and practice of collaborative consultation in the schools. Models, roles and skills will be discussed, rehearsed during in-class simulations, and practiced in field settings. Field experience required.
Letter grade only (A-F).

541. Seminar in Educational Measurement and Assessment (3)
Prerequisites: ED P 419, 519, and 520, or equivalent. Advanced studies examining the reliability and validity of test scores, item response theory, and other statistical approaches for the improvement of educational testing. Practical application of administration and interpretation of assessment outcomes.
Letter grade only (A-F).

560. Behavioral Analysis and Positive Behavioral Interventions (3)
Prerequisite: Admission to field work (internship) in school psychology (EDP 642 A or B) or consent of instructor.
Multidimensional and functional assessments of student behavioral problems. Developing data-based positive behavioral interventions for students with severe behavioral difficulties, including students with traumatic brain injury (TBI), Autism, emotional disturbance (ED), etc.
Letter grade only (A-F).

571. Advanced Approaches to Teaching Special Populations in General Education Settings (3)
Prerequisite: Hold Preliminary Multiple or Single Subject Credential, or equivalent, or consent of instructor.
Issues in teaching special populations in elementary and secondary schools, including students who are gifted, at risk, and have disabilities. Emphasis on establishing inclusive climates; federal, state, and local regulations; assessment; instructional strategies and modifications; collaborative school structure and classroom management.
Moots state Professional Clear credential requirement. Letter grade only (A-F).

573. Intercultural Communication in Education (3)
Introduction to the facets, parameters, and techniques of intercultural communication and its relationship to functioning in a multicultural educational environment. Studies intercultural communication within the broader social, cultural and historical context and within the study of culture itself.
Letter grade only (A-F).

574. Sociological Foundations of Education (3)
Not open for credit to students with credit in EDP 400. Letter grade only (A-F).
575. Intellectual Foundations of Educational Reform, 19th Century to Present (3)
Historical survey of the intellectual and ideological foundations of U.S. educational reform movements, with emphasis on the 19th and 20th centuries. Focus on individual educational philosophers and on major curriculum orientations, with consideration of their impact on diverse groups.
Letter grade only (A-F).

576. Education and Diversity: Historical and Contemporary Perspectives (3)
Survey of major conons in U.S. educational history during the 19th and 20th centuries from the perspectives and experiences of various diverse groups. Analysis of the implications for the diverse populations. Educational approaches that better serve educationally diverse students.
Letter grade only (A-F).

579. Curriculum-Based Assessments and Academic Interventions (4)
Prerequisites/Corequisites: Admission to the school psychology credential program and EDP 524A and 524B.
Evidence-based interventions for diverse learners, including students with disabilities, preschool-aged children, and English Language Learners. Theories and application of curriculum-based assessments and data-based intervention development, implementation and evaluation.
(3 hours lecture, 3 hours lab) Not open for credit to students with credit in EDP 579A. Letter grade only (A-F).

582. Comparative International Education (3)
Overview of education in selected countries. Study of institutional organization as well as issues that develop in particular social, economic, and political contexts. Examination of commonly shared educational problems and solutions.
Letter grade only (A-F).

583. Global Education (3)
Background on critical world issues and cultural influences. Methods and resources for application in the classroom. Format includes resource speakers and practitioners, map activities, and cultural simulation exercises.
Letter grade only (A-F).

590. Special Topics in Educational Psychology (1-3)
Prerequisite: Consent of instructor.
Advanced study of special topics in education and counseling. A student may enroll for 1-3 units to a maximum of 6 units for certificate and degree purposes, subject to suitable changes in course content. Non-degree and non-certificate students may enroll for additional units subject to suitable change in course content.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters or different topics in the same semester.

595. Qualitative Research Methods (3)
Pre-requisite: ED P 410 and 520, or equivalent. For other majors: ED P 410 and 520, or equivalent.
Identifying and comparing various approaches to program evaluation in educational settings including needs assessments; selecting evaluation questions and criteria; collecting, analyzing, and interpreting qualitative and quantitative evaluation data; and the mechanics and process of developing an evaluation plan.
Letter grade only (A-F).

594. Seminar in Human Development (3)
Prerequisites: EDP 501 or 502, and EDP 400 or 419.
Theories and issues in developmental psychology, cognitive, linguistic, perceptual, biological, psychomotor, social and emotional development; nurture vs. nature and individual differences.
Letter grade only (A-F).

595. Theories of Learning, Cognition, Motivation, and Social Development (3)
Prerequisites: EDP 501 or 502.
Analysis of current theory and research in the areas of student learning, cognition, motivation, and social development and their application in maximizing learning of all students.
Letter grade only (A-F).

619. Quantitative Educational Data Analysis II (3)
Prerequisite: EDP 519 or equivalent.
Advanced multivariate statistical analysis course: multivariate analysis of variance, discriminant function analysis, canonical correlation, exploratory factor analysis, and structural equation modeling.
Approximately 20 hours of applied work in approved educational settings is required. Letter grade only (A-F).

641A. School Psychology Practicum II (2)
Prerequisites: Admission to school psychology program, EDP 524A, 524B, 525A, 525B, and 528. Prerequisites/Corequisites: EDP 579.
Seminar and completion of 150 contiguous hours of supervised field placement for a minimum of one and maximum of 5 full days per week, with a minimum of 4 weeks and maximum of 1 year at no more than two sites and with two supervisors.
Credit/No Credit grading only.

641B. School Psychology Practicum II (2)
Prerequisites: Admission to the school psychology program, EDP 524A, 524B, 525A, 525B, 528, and 641A.
Seminar and completion of 150 contiguous hours of supervised field placement for a minimum of one and maximum of 5 full days per week, with a minimum of 4 weeks and maximum of 1 year at no more than two sites and with two supervisors.
Credit/No Credit grading only.

642A. Field Work I: School Psychology (3)
Prerequisites: EDP 525A, completion of acceptable masters degree, concurrent enrollment in EDP 527, and approval of program coordinator.
Application for field work should be made by October 1 for the spring semester, or by March 1 for summer (if offered) or fall semester.
Credit/No Credit grading only.

642B. Field Work II: School Psychology (3)
Prerequisites: EDP 527, 642A, and approval of program coordinator.
Continuation of school psychology field work experiences.
Application for field work should be made by October 1 for the spring semester, or by March 1 for summer (if offered) or fall semester.
Credit/No Credit grading only.

672. Language and Educational Policies (3)
Analysis of contemporary and historical language policies, educational language policies, and legal decisions in the United States that provide the context for current educational language practices. Comparison of U.S. experiences with those of other nations. Relationship between language attitudes and educational policy formulation.
Letter grade only (A-F).
695. Thesis Study: Plan Development and Organizing Aspects (3)
Prequisites: EDPS 400 or 419 and EDPS 520 or 525.
Design for students planning to write a thesis. Form a thesis committee by midterm in this course. Accomplish a completed draft of the thesis plan by the end of the term.

697. Directed Research (1-3)
Prequisites: Consent of instructor, department chair, and associate dean.
A student may enroll for 1-3 units to a maximum of 6 units for certificate and degree purposes, subject to suitable change in course content. The student is required to enroll and complete research under the supervision of a faculty committee. Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office and sponsored by the student's department. Letter grade only (A-F). May be repeated for a maximum of 24 units.

698. Thesis (3)
Prequisites: Advances to candidacy by the Graduate Studies Office. Approval by director, department chair, and associate dean. Planning, preparation, and completion of a thesis under the supervision of a faculty committee. Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester or October 1 for the spring semester. Letter grade only (A-F).

699. Project (3)
Prequisites: Advances to candidacy, approval of graduate advisor, and written approval of the College of Education and Graduate Office. Information and discussion related to the development of projects, thesis, and directed research. Letter grade only (A-F). May be repeated for a maximum of 6 units.

JOINT DOCTORAL COURSES

703. Policy Issues in Community Colleges (1-3)
In-depth examination of the community college system: 1) local, state, and federal governance policies; 2) local, state, and national economic policies; 3) social and political influences on policy. Future trends in educational policy. Letter grade only (A-F).

704. Exploration of Campus Cultures: Impact and Influence (1-3)
Examination of faculty, administrative, and student cultures in terms of values, behavioral norms, impacts, and influences. Students will study research methods for campus cultures. Implications for higher education policies and practices. Letter grade only (A-F).

705. Finance in Education (1-3)
Examination of higher education finance and institutional development in the context of a broader, more comprehensive understanding of its impact on education. Letter grade only (A-F).

707. Student Learning and Development Theory in Higher Education (1-3)
Student development and learning theories based on cognitive, psychosocial, typology, and person environment perspectives. Analysis and critique of theoretical tenets relevant to understanding the college experience. Letter grade only (A-F).

708. Leadership in Education (1-3)
Current research and theories in leadership and organizational change. Multicultural leadership theories, planning, change, and effective strategies for becoming a catalyst for change. Case studies of organizational leadership for change. Examines issues, barriers, supports for, and processes and outcomes of change. Letter grade only (A-F).

709. Collaborative Reforms: Designing and Implementing Responsive Curricula (1-3)
The role of faculty and staff in the collaborative development and implementation of responsive curricula. Explore systems for curricular redesign and reform at 2- and 4-year institutions and processes for their implementation. Letter grade only (A-F).

711. Field Research Study in Education I (1-3)
Field in a series of faculty-led field research courses. Individual and small group formats. Students are exposed to and participate in approved research topics or a faculty member's research. Letter grade only (A-F).

790. Special Topics in Higher Education (1-3)
Examination of such issues as the roles and responsibilities, managing change, facilitating focus groups, data-based organizational change, applications of technology, responding to the needs of student populations, working with governing boards, staff development programs, and personnel assessment instruments. Letter grade only (A-F). May be repeated for a maximum of 24 units.

797. Directed Individual Study (1-6)
Prequisites: Consent of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member. Letter grade only (A-F). May be repeated for a maximum of 36 units.

798. Doctoral Dissertation (3)
Prequisites: Approval of instructor/doctoral candidate. Required. May be repeated for a maximum of 24 units.

Education Specialist Courses (EDSP)

303. Preparing to Teach Special Populations in the General Education Classroom (1)
Prequisites: Concurrent enrollment in EDPS 380. Emphasis on roles and responsibilities of the general education teacher in the individualized education program (IEP) process. Relevant state and federal laws pertaining to the education of exceptional populations. Letter grade only (A-F).

350. Education of Exceptional Individuals (3)
Survey of the education of individuals who have communication disabilities, visual disabilities, hearing disabilities, physical disabilities, learning disabilities, severe disabilities, and those labeled as gifted and talented. Field work required.

355. Collaborative Models of Inclusive Education: Partnerships and Strategies for Teaching All Students (3)
Fostering partnerships with families of diverse backgrounds; perspectives regarding access and equity for diverse student populations; laws regarding education of students with special needs. Letter grade only (A-F).
454. Development of Communication Skills in Bilingual Contexts (3)
Prerequisites: Consent of instructor.
Normal and atypical development of language skills in school-aged children from non-English language backgrounds. Focus on skills needed in the classroom, including communicative competence, pragmatics and literacy. Distinction between normal language development and linguistic problems/disabilities.

480. Foundations of Inclusive Education in a Diverse Society, Philosophical and Historical Perspectives and Legal Mandates (3)
Prerequisites: Admission to Education Specialist Credential Program.
Philosophical and historical foundations of language minority and special education in a diverse society. Discussion of educational theories, legal mandates, and models for serving culturally and linguistically diverse students with special needs in inclusive education.
Letter grade only (A-F).

535. Collaborative Partnerships and Effective Communication in School Settings (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Methods for developing collaborative partnerships and effectively communicating with educators, community members, families, and individuals with disabilities.
Letter grade only (A-F).

542. Technology in Special Education (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Overview of Assistive Technology and Augmentative Communication for individuals with exceptional needs. Examination of legislation, devices, and services using assistive technology and augmentative communication. Introduction to assistive technology assessment and advanced development of Computer Assisted Instruction.
Letter grade only (A-F).

546A. B.C.D.E.F. Practicum in Special Education (3,3,3,3,3,3)
Supervised experience with individuals with exceptionalities in schools, clinics, post-secondary education, workplaces, and residential settings.
Application should be made by March 1 for the fall semester and October 1 for the spring semester. Letter grade only (A-F).

550. Emerging Perspectives in Special Education (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Interpretation and application of emerging research in special education. Historical foundations, migration, legislation, policy, and practice in special education, emphasizing the last century. Current and emerging issues in the field. Relationships between research and practice.
Letter grade only (A-F).

558. Curriculum and Instruction for Students with Disabilities (3)
Prerequisites: Full admission to the Level I Education Specialist Credential program or Education Specialist Intern program or completion of the Integrated Teacher Education Program, Education Specialist option and completion of or concurrent enrollment in EDSP 564.
Curricular issues, models, and practices for students with disabilities. Emphasis on core curriculum in public schools and appropriate modifications and delivery of content to students with disabilities. Emphasis on individualized instructional planning procedures, validated instructional strategies, and collaborative teaching.
Letter grade only (A-F).

563. Advanced Methods of Teaching Individuals with Significant Disabilities (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Formal and informal assessment procedures responsive to the cultural, socio-economic and linguistic characteristics of individual students with significant disabilities. Data based decision making, curriculum adaptations and modifications, and instructional strategies. Collaboration with community agencies for successful transition from school to work.
Letter grade only (A-F).

564. Assessment and Evaluation of Students with Disabilities (3)
Prerequisites: Admission to the Education Specialist Credential program, EDSP 405, EDSP 350, 480 or consent of instructor.
Knowledge of appropriate uses of formal, informal and authentic assessment procedures for planning, monitoring and evaluating instructional programs for students with disabilities. Emphasis on issues in assessing and evaluating culturally and linguistically diverse students.
Letter grade only (A-F).

565. Advanced Methods of Teaching Individuals with Mild/Moderate Disabilities (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Advanced assessment, methods, strategies and curriculum adaptations for students with mild/moderate disabilities at all levels. Emphasis on collaboration, diversity, literacy, technology and transition.
Letter grade only (A-F).

566. Transition Into, Through, and Beyond School for Individuals with Disabilities (3)
Prerequisites: Acceptance in Education Specialist Level II program or Master of Science in Special Education program, development of an Individualized Induction Plan, or consent of instructor.
Examination of major issues and approaches to promoting successful transition of youth with disabilities into, through, and beyond school. Emphasis on instructional strategies for teaching adolescent youth with disabilities at the secondary level.
Letter grade only (A-F).

567. Curriculum and Instruction for Students with Disabilities: Literacy, Communication, Social and Physical Education (3)
Prerequisites: Full admission to the Level I Education Specialist Program or Education Specialist ITP and completion or concurrent enrollment in EDSP 564.
Curricular issues, models and practices related to teaching students with disabilities in literacy, communication, physical education, and social behaviors. Emphasis on core curriculum, standards-based instruction, and differentiated instruction. Instructional planning and validated teaching strategies.
Letter grade only (A-F).

569. Curriculum and Instruction for Students with Disabilities: Math, Science, and Life Skills (3)
Prerequisites: Full admission to the Level I Education Specialist Program or Education Specialist ITP and completion or concurrent enrollment in EDSP 564.
Curricular issues, models and practices related to teaching students with disabilities in math, other content areas, and life skills.
Emphasis on core curriculum, standards based instruction, and differentiating instruction. Instructional planning and validated teaching strategies.
Letter grade only (A-F).

587A. Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate Disabilities (6)
Prerequisite: Admission to the Level I Education Specialist Credential in Mild/Moderate Disabilities. Must complete all Level I courses. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.
Advanced field study in a public or private school or community-based site serving individuals with mild/moderate disabilities. Candidates will demonstrate competencies in their own classroom or under the supervision of a university supervisor.
Students may concurrently enroll in EDSP 587B upon advisement by their faculty advisor. Credit/No Credit grading only.

587B. Advanced Field Study and Seminar: Education Specialist Credential in Mild/Moderate Disabilities (6)
Prerequisite: EDSP 587A or concurrent enrollment in EDSP 587A upon advisement by their faculty advisor. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.
Advanced field study in a public or private school or community-based site serving individuals with mild/moderate disabilities. Candidates will demonstrate competencies in their own classroom or under the supervision of a university supervisor.
Credit/No Credit grading only.

588A. Advanced Field Study and Seminar: Education Specialist Credential in Moderate/Severe Disabilities (6)
Prerequisite: Admission to the Level I Education Specialist Credential in Moderate/Severe Disabilities. Must complete all Level I courses. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.
Advanced field study in a public or private school or community-based site serving individuals with moderate/severe disabilities. Candidates will demonstrate competencies in their own classroom or under the supervision of a university supervisor.
Students may concurrently enroll in EDSP 588B upon advisement by their faculty advisor. Credit/No Credit grading only.

588B. Advanced Field Study and Seminar: Education Specialist Credential in Moderate/Severe Disabilities (6)
Prerequisite: EDSP 588A or concurrent enrollment in EDSP 588A upon advisement by their faculty advisor. Application for admission should be made by March 1 for the summer and fall semester and October 1 for the spring semester.
Advanced field study in a public or private school or community-based site serving individuals with moderate/severe disabilities. Candidates will demonstrate competencies in their own classroom or under the supervision of a university supervisor.
Credit/No Credit grading only.

695S. Seminar in Special Education (3)
Prerequisites: Advancement to candidacy, and written application to Graduate Office. Application for enrollment must be made by March 1 for the summer session or fall semester, or by October 1 for the spring semester.
Studies of problems and issues in special education. Relating research to practice in the area of exceptional individuals. For qualified candidates preparing for the comprehensive examination. Not open for credit to students with credit in EDSP 650. Letter grade only (A-F).

Educational Technology Courses (ETEC)

LOWER DIVISION

100. Technology as a Tool for Self-Directed Learning (3)
Introduction: (a) psychological foundations of self-directed learning; (b) technology as a tool to obtain, organize, evaluate, manipulate, and present information; and (c) evaluation of technologies for use in education, including online/hybrid courses and collaborative learning.
(2 hours lecture, 3 hours laboratory) Letter grade only (A-F).

110. Introduction to Computers as Tools (1)
Introduction to operating systems, terminology, and components of computing systems. Introduction to computer applications including word processing, databases, and spreadsheets. Introduction to University e-mail systems and electronic searching.
Letter grade only (A-F).

171. Critical Thinking Using Computer Technology (3)
Prerequisite: Completion of Computer Science 112A. Critical thinking abilities; computer technology. Critical thinking skills in conjunction with the use of computer technology. Introduces basic concepts in computer technology.
Letter grade only (A-F).

411. Assessment of Computer Technology Competency, Level I (1)
Appropriate only for students who are already proficient with the material in ETEC 444. Provides students with an opportunity to meet the California Level I computer technology requirement by a performance assessment. Two class meetings and online activities.
Credit/No Credit grading only.

435/535. Accessible Electronic and Information Technologies (3)
Prerequisite: Either ETEC 110, 411, 444 or consent of instructor.
Critical use, analysis and evaluation of computer applications for accessibility and usability for populations with diverse needs. Terminology, design principles, and applications of accessible technologies. Legal, ethical, and societal issues in developing and adopting accessible electronic and information technologies.
Letter grade only (A-F).

444. Computer Technology in Education, Level I (3)
Prerequisites: Course design assumes familiarity with topics introduced in ETEC 110.
Introduction to educational computer technology: resources and tools for professional use; strategies for integrating computers into teaching; applications to diverse learners; legal, ethical, and societal issues. Meets the Level I teaching credential computer technology standard.
(Seminar 2 hours, Laboratory 2 hours)

449. Technology Applications for Educators (1-3)
Prerequisites: Consent of Instructor.
Contemporary applications of technology for teaching, learning, and the management of instruction. Demonstration and hands-on experience with computer and media applications in educational settings.
Topics are announced in the Schedule of Classes. May be repeated to a maximum of 12 units with different topics.

2009/2010 CSULB Catalog • Advanced Studies in Education and Counseling • 117
Educational Technology Courses (ETEC)

A. Internet Resources for Educators
Introduces the growing number of Internet-based educational resources for educators. Discussion, demonstrations, and hands-on experience in the use of computer communication tools, including e-mail, file transfer protocol (FTP), newsgroups, listservs, and the worldwide web.

B. Evaluation and Selection of Instructional Technology Resources
Introduces a variety of evaluation instruments and techniques for evaluating and selecting instructional technology resources to support the California curriculum frameworks.

GRADUATE LEVEL

510. Foundations of Educational Technology (3)
Prerequisites: Either ETEC 444 or equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.
Introduction to the field of educational technology. Overview of historical approaches, research trends, major developments, and prominent issues in the field. Incorporation of social, historical, psychological, and philosophical perspectives in the study of educational technology.
Letter grade only (A-F). (Seminar 3 hours)

523. Computer Technology in Education, Level II (3)
Prerequisites: Either ETEC 411, 444, or equivalent experience satisfying California Level I computer technology standard.
Principles for integrating computer technology into learning environments to improve planning, designing, and implementing learning experiences; educational communication and collaboration; assessment and evaluation.
Meets California Level II computer technology standard. (Seminar 2 hours, laboratory 2 hours) Letter grade only (A-F).

525. Social and Cultural Implications of Educational Technology (3)
Examination of social and cultural implications of educational technologies, considering issues of cultural bias, equity, and questions of who benefits from particular technologies. Informational applications of computer technologies to promote learning about different cultures.

530. Educational Technology Leadership (3)
Prerequisites: Either ETEC 523, or consent of the instructor.
Examines leadership related to implementation of educational technology in education. Theory, knowledge, and skills necessary to use, evaluate, plan, and implement technologies in education system. Examines ethical issues including access and equity.

535/435. Accessible Electronic and Information Technologies (3)
Prerequisite: Either ETEC 110, 411, 444 or consent of instructor.
Critical use, analysis, and evaluation of computer applications of computer technology for accessibility and usability for individuals with diverse needs. Terminology, design principles, and applications of accessible technologies. Legal and ethical issues in developing or adopting accessible electronic and information technologies.
Letter grade only (A-F).

551. Education and the Internet (3)
Prerequisites: Either ETEC 411, 444, or equivalent experience satisfying the California Level I computer technology standard, or consent of instructor.
Survey of educational applications across the Internet; characteristics of teaching and learning mediated through the Internet; analysis and design of Internet-based learning activities; design and development of online courses; implementation, management, and administration of online learning.
(Seminar 2 hours, laboratory 2 hours)

553. Instructional Design (3)
Prerequisites: ETEC 523 or equivalent experience satisfying the California Level II computer technology standard.
Principles of instructional design emphasis on designing effective teaching strategies with educational technology. Theories and models to plan, create, evaluate, and refine learner-centered educational activities.
Letter grade only (A-F).

570. E-Learning Design and Development (3)
Prerequisite: ETEC 523 or consent of instructor.
Introduction to e-learning design and development, including project management, instructional analyses and strategies, software selection, and evaluation. Interactive multimedia development applications, processes, and principles. Design and production of technology-enhanced instruction.
Letter grade only (A-F). (Seminar 2 hours, laboratory 2 hours)

580. Field Experience in Educational Technology (3)
Prerequisites: ETEC 523 and either ETEC 530, EDP 520 or 565.
Students investigate and experience occupation or environment utilizing a form of educational technology. Under instructor guidance, students perform 90 field experience hours in educational technology environment. Instructor approval required for site selection.
Letter grade only (A-F).

623. Developing Technology - Based Learning (3)
Prerequisites: ETEC 523, 553.
Discussion, demonstration, and hands-on experience toward development of technology-based interactive learning programs. Concepts of technology-based instructional design. Authoring tools for creating simulations, educational games, and interactive assessment tools.
(Seminar 2 hours, laboratory 2 hours)

Educational Library Courses (ELIB)

UPPER DIVISION

497. Independent Study (1-3)
Prerequisites: Consent of instructor and department chair.
Independent study under faculty supervision. May be repeated to a maximum of 6 units, no more than 3 units applicable to credential or major requirement.

GRADUATE LEVEL

500. Foundations of Information (3)
Principles of information and information technology in organizations (particularly in Western education) and society. Topics include social needs and demands, diffusion of knowledge and technology, information seeking and use, information technology and culture.
Letter grade only (A-F).

510. Collection Development (3)
Criteria, tools, procedures, and policies for evaluating, selecting, and maintaining informational resources to use in information organizations.
Letter grade only (A-F).

528. Information Literacy and Reference Services (3)
Letter grade only (A-F).
50. Management of Information Organizations (3)
Philosophy, principles and problems of planning, organizing, supervising and managing a school library media program, technology service, or other information organization.
Not open for credit to students with credit in LI 550. Letter grade only (A-F).

570. Library Media Technologies (3)
Prerequisites: Level I computer technology knowledge and skills. Evaluation, selection, and integration of computer, digital, audiovisual and other technologies for use in schools and other library settings; issues of technology planning, instruction, collaboration, assessment, and digital citizenship.
Letter grade only (A-F).

580. Field Experience in Libraries (4)
Prerequisites: Consent of program coordinator. Students will model effective practices in administering a library program under the supervision of a qualified library professional. Applications for field experiences are due March 1 for the summer or fall semester and October 1 for the spring semester.
Not open for credit to students with credit in LI 580. Letter grade only (A-F).

Social and Cultural Analysis of Education Courses (SCAE)

550. Foundations of Social and Cultural Analysis of Education (3)
Introduction to central theories and concepts and development of core competencies in social and cultural analysis of education; discussion of applications of critical theories and pedagogies in education; examination of the significance of social difference (e.g. race, class, gender, sexuality, language).
Letter grade only (A-F).

551. Critical Pedagogies (3)
In-depth examination of foundations and constructs of critical pedagogy in various educational contexts; applications of critical pedagogies in the United States and around the world; exploration of the relationship between critical pedagogies and social and educational justice.
Letter grade only (A-F).

560. History of Social and Educational (In)Equality (3)
Historical survey of education as an institution; struggles for educational justice from the 19th century to present; analysis of the historical foundation of persistent educational inequalities; emphasis on peoples of color, women, people with disabilities, LGBT individuals, and immigrants.
Letter grade only (A-F). Not open for credit to students with credit in ED P 576.

561. Urban Educational Policy (3)
Critical examination of the historical, cultural and political-economic dimensions of educational policy; impact of educational policy on student learning, experiences and outcomes; issues of difference, identity and justice in educational policy; special attention to urban education policy issues in California.
Letter grade only (A-F). Not open for credit to students with credit in ED P 575.

562. Agency, Resistance and Identity in Education (3)
Sociological and anthropological approaches to understanding youth cultures, academic resistance, identity formation, and how students influence, and are influenced by, educational experiences; youth and community organizing; race, class and gender, sexuality, language, etc. as factors in education.
Letter grade only (A-F). Not open for credit to students with credit in ED P 574.

564. Language and Education Policies (3)
Examination and analysis of historical and contemporary U.S. language policies, educational language policies, and legal decisions as context for current educational language practices; comparison of experiences with other nations; discussion of the relationship between language attitudes and educational policy formation.
Letter grade only (A-F). Not open for credit to students with credit in ED P 672.

566. Themes in Comparative International Education (3)
Examination of the historical and theoretical foundations as well as current debates, tensions and themes in the field of comparative international education; discussion of practical applications to address social and educational inequalities that exist around the world.
Letter grade only (A-F). Not open for credit to students with credit in ED P 582.

567. Educational Issues in Global Perspective (3)
Analysis of topical issues related to education in various international contexts; examination of topical issues across countries. Students have the opportunity to select the issues under investigation in consultation with the instructor.
Letter grade only (A-F). Not open for credit to students with credit in ED P 582.

568. Globalization and Educational Reform (3)
In-depth study of globalization and its impact on education around the world; analysis of policy borrowing and lending processes in the educational arena; rational and local interpretations of global or borrowed educational policies; examination of educational reform processes.
Letter grade only (A-F).

695. Social and Cultural Analysis of Education Capstone
Synthesis of concepts and ideas in the social and cultural analysis of education; implications of social and cultural theories for educational practice in a variety of settings; strategies for effecting social and educational justice.
Letter grade only (A-F).
AEROSPACE STUDIES
College of Health and Human Services

U. S. Air Force Reserve Officers Training Corps (AFROTC)

Introduction

Through arrangements with Loyola Marymount University (LMU) in west Los Angeles, students may participate in the Air Force Reserve Officer Training Corps (AFROTC) program. AFROTC offers a variety of two, three, and four year scholarships, many of which pay the full costs of tuition, books, and fees. Successful completion of as little as four semesters of AFROTC academic classes and leadership laboratories can lead to a commission as a second lieutenant in the United States Air Force.

Classes consist of one hour of academics and two hours of laboratory for freshman and sophomores and three hours of academics and two hours of laboratory for juniors and seniors. The academic hours earned can normally be counted as elective credit toward graduation. All AFROTC classes and laboratories are held on Fridays to better accommodate students commuting from other colleges and universities. Currently, LMU does not charge for the courses and offers cross-town students free parking while attending AFROTC activities. Additionally, AFROTC cadets under scholarship and all juniors and seniors receive a monthly tax-free stipend.

For more information, contact the Loyola Marymount University Department of Aerospace Studies (AFROTC) at (310) 338-2770.

AFRICANA STUDIES
College of Liberal Arts

Department Chair: Aleski Moki
Department Office: Psychology Building (PSY), Room 306
Telephone / FAX: (562) 985-4624 / (562) 985-5060
Faculty: Iratozi Bunwing, LaKeita Hubbard, Maulana Karenga, Aleski Moki, Jim C. Robinson, Jodie M. Sennado, Dwayne Uku-Watson, Aaron Wilson
Undergraduate Advisor: Maulana Karenga
Administrative Support Coordinator: Monique Heacock-Wattos

Students desiring information should contact the department office for referral or the faculty advisor.

Career Possibilities
Social Scientist • Social Worker • Counselor • Teacher
• Archivist • Journalist • Public Relations Consultant
• Community Organizer • Recreation • Law • School Administrator • Linguist • Parole Officer • Probation Officer
• Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The Africana Studies major is designed to provide students with a rich intellectual experience through the critical and systematic study of the life, thought and practice of African peoples, Continental and Diasporan. In their current and historical dimensions. The discipline of Africana Studies focuses on the critical study of African Americans, Continental Africans, Afro-Caribbeans and Afro-Latinos, but also allows for study of African peoples in Asia and Europe. Africana Studies seeks to critically examine and understand the African experience from an Afrocentric or African-centered perspective, i.e., from a position internal to the culture of the people studied, while retaining a respect for and openness to the multicultural character and instructive value of the total human experience. Thus, Africana Studies emphasizes an interdisciplinary and multicultural approach to scholarship, teaching and learning as vital to the discipline and to the general education enterprise. Within this understanding, Africana Studies expects students to develop a critical capacity for comparative analysis, holistic thinking, multicultural and international awareness, and sensitivity to issues of race, ethnicity, class and gender.

Africana Studies understands itself as the central site for the critical, coherent and concentrated study of African peoples in their contemporary and diversity. It therefore offers a wide range of courses for the general academic interest and requirements of the university and the specialized concentration of its majors and minors in various areas of focus. The subdisciplines of the discipline include: Africana theory and philosophy, Africana women's studies, African American historical studies, and Continental African studies.

Africana Studies offers knowledge and training which provide a solid foundation for those interested in: (1) continuing their education in graduate studies in Africana Studies or in such areas as law, education, social and behavioral sciences, business, etc.; (2) seeking to enhance their education and employability by adding a multicultural and diversity aspect to it (teachers, administrators, counselors, business persons, etc.), (3) pursuing various careers, especially those which increasingly require or prefer ethnic and multicultural knowledge and competence. Thus, Africana Studies majors have been successful in a variety of fields, including education, law, politics, urban planning, business, government, journalism, psychology, social work, criminal justice, acting, creative writing, and foreign service.

Given its appreciation for its origins and continuing rootedness in social and academic concerns and initiatives, the Africana Studies Department values and constantly expands its links with the local, national and world African community. It thus encourages students to take advantage of opportunities to do service learning and internships, and study abroad. The Department also encourages and supports faculty/student collaboration in conferences, forums, field trips and joint research and writing projects. The Department of Africana Studies also places great emphasis on enhanced mentoring and advisement in the interest of a pedagogy of cooperative teaching and learning which fosters academic excellence, student success and social responsibility and engagement.

Undergraduate Programs
Bachelor of Arts in Africana Studies
(code B/STBA01) (120 units)

Requirements
A minimum of 39 units is required for the major in Black Studies: 12 lower division and 27 upper division units. The distribution of courses within Africana Studies affords the students the opportunity for in-depth exploration of either African American Studies or Continental African Studies areas or a combination of the two, as well as other Diasporan studies, the e.g., Caribbean basin.

Lower Division (12 units)
Required Core Courses (6 units): AFRS 110, 120 or 121
Elective Courses (6 units): one course from each of the following groups:
Group A (Social Science): AFRS 115, 120, 150, 154, 200, 201, 210
Upper Division (27 units)
Required Core Courses (12 units): AFRS 330, 335, 332 or 364, 496
Elective Courses (15 units): one or more courses selected from each of the following groups:
Group A (Social Sciences): AFRS 304, 310, 319, 325, 331, 332, 337, 345, 404, 410, 430

2009/2010 CSULB Catalog • Africana Studies • 121
Group B (Humanities): AFRS 343A, 343B, 346, 353I, 363, 370, 415
Group C (Theory): AFRS 380, 400I, 454I, 460, 475, 498

Certificate in Africana Studies
(code B/STCT01)

Students majoring in other departments of the University but interested in Africana Studies may at the same time pursue a program leading to a Certificate in Africana Studies. Courses used to meet the certificate requirement may, where applicable, also be used simultaneously to meet General Education requirements or the major or minor requirements of cooperating departments.

Requirements
1. A major in another academic discipline. Certificate can be completed prior to or simultaneously with completion of the B.A. requirement.
2. A minimum of 24 units of which at least 12 must be in upper-division courses, with two or more courses selected from each of the following:
   Group A: AFRS 110, 154, 210, 325, 330, 332, 335, 370, 420
   Group B: AFRS 160, 343A, 346, 363, 450
   Group C: AFRS 120, 121, 200, 201, 304, 330, 337, 354, 400I, 410, 454I

Minor in Africana Studies
(code B/STUM01)

Requirements
The minor in Africana Studies requires a minimum of 24 units of which at least 12 units must be in upper-division courses, with two or more courses selected from each of the following:
   Group A: AFRS 120, 121, 154, 200, 201, 210, 304, 310, 325, 330, 332, 335, 364, 370, 400I, 404, 410, 420, 430
   Group C: AFRS 110 and 495
   The Minor in Black Studies is open to any non-Black Studies majors.

Courses (AFRS)

LOWER DIVISION

1. Writing Skills (3)
   Prerequisite: Students who score 147 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course. Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence, and paragraph. Methods for developing and organizing ideas in coherent essays. Conventional mechanics, spelling, and grammar. Also for baccalaureate and ESL students. Does not count toward graduation, but does count toward course load. Credit/No Credit grading only. Not open for credit to students with credit in B/ST 1 or 170A.

100. Composition (3)
   Prerequisite: A recorded total score of 151 or above on the English Placement test, or credit in B/ST 1 (or its equivalent) or consent of the instructor.

Writing, revising, and editing non-fiction prose, with emphasis on exposition and argument. Critical reading strategies for research. Satisfies the baccalaureate degree requirement for one course in written composition in English. Also for baccalaureate and ESL students.
   Not open for credit to students with credit in ENGL 100W, B/ST 100, ASAM 100, CHLS 104.

110. Introduction to Africana Studies (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   A critical survey of the major themes, issues, concepts, current research, schools of thought, theorists and scholars in the discipline of Africana Studies, as well as its historical evolution and academic rationale.
   Not open for credit to students with credit in B/ST 110.

115. Introduction to African Politics (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   Survey course on African American history with origins in African culture and civilization. Focus on the role, impact and significance of African Americans in the U.S. from the colonial period through the American Revolution, enslavement and the Civil War.

120. African American History to 1865 (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   Survey course on African American history with origins in African culture and civilization. Focus on the role, impact and significance of African Americans in the U.S. from the colonial period through the American Revolution, enslavement and the Civil War.

121. African American History Since 1865-Present (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   Imoport of social, economic and political change on African Americans after the Reconstruction period. Issues of migration, education, cultural development and business enterprises will be examined.

140. Introduction to African American Literature (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   A study of selected or representative literature of the African American writer. Special attention will be given to stylo, content, methodology and thematic approach.

150. Critical Thinking in Africana Studies (3)
   Prerequisite: Completion of or concurrent enrollment in AFRS 100 or equivalent.
   Introduction to the nature and process of critical thinking. Extensive practice in critical reasoning directed toward developing cognitive skills and dispositions central to its application in academic work and in the analysis and advocacy of personal perspectives and social issues.

154. Introduction to Africana Women's Studies (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   Critical introduction to basic concepts, perspectives and methodology in Africana women studies, focusing on historical and contemporary continental and diasporic African women’s experience, initiatives, issues, and intersections of race/class/gender within the context of their oppression, resistance and internal creative capacity.

155. African American Music (3)
   Prerequisite/Co-requisite: One G.E. foundation course.
   Non-technical survey of African American music. Some attention given to the impact of social movements on the musician and the music produced. Gospel, jazz and well-known derivatives will be highlighted.

Not open for credit to students with credit in B/ST 155.
160. Introduction to Africana Arts (3)
Prerequisite/Corequisite: One G.E. foundation course.
A presentation of prevailing themes, methodology, concepts and meaning in African American art. Equal time will be given to early and contemporary art. The work of some Controversial African artists will be introduced as appropriate.
Not open for credit to students with credit in B/St 160.

167. Exploitation of the African American Athlete (3)
Study of the socio-dynamics of amateur, professional and collegiate sports activity in the United States as it relates to the African American community. Case studies of well-known African American athletes will also be presented.
Not open for credit to students with credit in B/St 167.

170A. Elementary Swahili (4)
Prerequisite/Corequisite: Any Foundation Course.
Introduction to grammar, syntax, comprehension, reading, writing and conversation in the language. Attention will be given to cultural content throughout the course.
Letter grade only (A-F). Not open for credit to students with credit in B/St 170A.

170B. Elementary Swahili (4)
Prerequisite: AFRS 170A or equivalent competency.
A continuation of AFRS 170A. Advanced grammar, syntax, comprehension, reading, writing and conversation in the language.
Letter grade only (A-F). Not open for credit to students with credit in B/St 170B.

180. African American Language in America (3)
Historical, phonological, and sociological aspects of the language of African Americans, traces early uses in Africa, linguistic development from lingua franca to pidgin and creole, linguistic symbols, terms, and analysis applied to African American English; difference versus deficit theory.
Not open for credit to students with credit in B/St 180.

200. Ancient African Civilizations (2)
Prerequisite: Completion of GE Foundation requirements.
A study of ancient African empires, kingdoms and states, including discussions of political institutions, social structures, education, cultural values, trade and international relations.
Not open for credit to students with credit in B/St 200.

201. History of Slavery (3)
Prerequisite: Completion of GE Foundation requirements.
Historical examination of trans-Atlantic slave trade and its impact on Africa and the Western Hemisphere. Nature of slavery in Africa, Greece, Italy, the Caribbean, the Middle East, South America, and the United States. Legacy of slavery.
Not open for credit to students with credit in B/St 201.

205. Modern Black South African Literature (3)
Prerequisite: Completion of GE Foundation requirements.
Study of South African literature written in English by Africans since 1900’s to present. “Black” used broadly to include South Africans of mixed race and of the racial laws and policies of the white minority government separated, classifying them as “Colored.”
Letter grade only (A-F). Not open for credit to students with credit in B/St 205.

210. African American Community (3)
Prerequisite: All Foundation Courses.
Examines the social structure and challenges in the community life of African-Americans as compared to other ethnic groups. Explores and analyzes how institutional and stratified patterns, demographic changes, social movements, community organizational programs affect African-Americans. Case studies presented.
Not open for credit to students with credit in B/St 210.

215. U.S. Diversity and the Ethnic Experience (3)
Prerequisites: Open only to Integrated Teacher Education Program students.
Survey of four major ethnic groups (American Indians, African American, Latino American, and Asian American) in American society from the colonial era to the present. Special attention to the formation and transformation of each ethnic group and their individual and collective roles in the development of the United States.
Same course as AJS 215, ASAM 215, CHLS 215. Not open for credit to students with credit in AJS 215, ASAM 215, B/St 215, CHLS 215. Departments take turns offering the course in the Fall semester. Letter grade only (A-F).

240. African and African American Folklore and Culture (3)
An examination and presentation of material on folklore, folk tales, and folk heroes in the African American community. Some attention also given to African mythology.
Not open for credit to students with credit in B/St 240.

255. Introduction to Hip Hop (3)
Prerequisite: Any Foundation Course.
A critical exploration of Hip Hop’s history and culture, which includes analysis of its impact and influence on contemporary aesthetic culture, race relations, gender politics and struggles for social justice.
Not open for credit to students with credit in B/St 255.

UPPER DIVISION

240. African and African American Folklore and Culture (3)
An examination and presentation of material on folklore, folk tales, and folk heroes in the African American community. Some attention also given to African mythology.
Not open for credit to students with credit in B/St 240.

304. The African Colonial Experience (3)
Prerequisite: Completion of GE Foundation requirements.
Critical examination of colonialism as a world phenomenon focusing on colonialism in Africa as the paradigm and point of departure for a specific and comparative understanding.
Not open for credit to students with credit in B/St 304.

310. African American Male and Female Relationships (3)
A comprehensive study of male/female patterns of interaction in the African American Community. Some attention given to institutional impact, role changes and projected images of relationships.
Not open for credit to students with credit in B/St 310.

319. The Ethnic Experience in the U.S. (3)
Prerequisite: Completion of GE Foundation requirements.
Comparative study of race, cultures, and ethnic relations in U.S. society with special focus on experiences of four core groups: Native Americans, African Americans, Asian Americans, and Latino Americans.
Same course as AJS 319, ASAM 319, CHLS 319, WGSS 319. Not open for credit to students with credit in AJS 319, ASAM 319, CHLS 319, WGSS 319. (Lecture/Discussion.)

325. African Psychology (3)
Prerequisite: AFRS 110 or PSY 100
Develops the concept of Africana Psychology. Using comparative techniques, the course introduces students to common consequences in the experience of being a person of African descent, or a person of color.
Not open for credit to students with credit in B/St 325.

330. Politics of the African American Community (3)
Prerequisites: AFRS 110 and 121.
Study of the perspectives, styles, problems and dynamics of political activity in the African American Community.
Not open for credit to students with credit in B/St 330.
331. African American Juvenile (3)
Prerequisite: AFRS 210 or consent of instructor.
Critical approach to the problem of juvenile justice in the African American community.
Not open for credit to students with credit in BIST 331.

332. Civil Rights and the Law (3)
Prerequisite: Completion of GE Foundation requirements
Designed to provide the student with a basic understanding of the interaction between the American legal system and civil rights of African Americans, other minorities, women and the general citizenry.
Not open for credit to students with credit in BIST 332.

335. Economic Development in the African American Community (3)
Prerequisites: AFRS 110 and 121
Development of business and banking institutions in the African American community. Some attention given to the impact of external factors on development.
Latter grade only (A-F). Not open for credit to students with credit in BIST 335.

337. Cultures of African Peoples (3)
Prerequisites: Completion of GE Foundation requirement, AFRS 200 or consent of instructor.
Critical presentation of a cultural map of African people emphasizing geography, migration and cultural similarities.

343A. African Literature (3)
Prerequisites: Completion of GE Foundation requirements and one or more Exploration courses.
A general survey of traditional and contemporary African Literature within the context of the historical, political, social, economic, and cultural movements. Also a comparison of Pan-African literature and Western literature.
Not open for credit to students with credit in BIST 343A.

343B. Caribbean Literature (3)
Prerequisite: Completion of CGL Foundation.
A general survey of traditional and contemporary Caribbean literature within the context of the historical, political, social, economic and cultural movements. Also a comparison of Pan-African literature and Western literature.
Not open for credit to students with credit in BIST 343B.

345. Politics of Black Power (3)
Systematic analysis of the Black Power movement of the 1960's, including contributions and contradictions of major organizations, leaders and ideologies.
Not open for credit to students with credit in BIST 345.

346. Africana Theatre (3)
Prerequisites: All Foundation Courses
Introductory survey course of Africana theatre as a historical medium, profoundly revealing in its humanistic, literary, social and cultural heritage as it relates to Africa, America and the Caribbean. (Lecture 2 hours, activity 2 hours.) Not open for credit to students with credit in BIST 346.

351. Religions of African Peoples (3)
Prerequisites: Completion of the CGL Foundation, one or more exploration courses, and upper division standing.
Critical examination of selected spiritual and ethical traditions of the world African community with emphasis on Islam, Christianity and Islam, their sacred texts and commentaries, major themes, representative figures, and comparative analyses of their continental and diaspora expressions.
Not open for credit to students with credit in BIST 351.

354. African American Women and the Civil Rights Movement (3)
Prerequisite: Completion of the GE Foundation requirements
A critical examination of vital and multiple roles African American women played in the modern civil rights movement. Emphasis on African American women's agency, activism and shared vision, and role as an essential political force in reconceiving and reshaping U.S. history.
Not open for credit to students with credit in BIST 354.

363. History of African Art (3)
Prerequisite: Completion of GE Foundation requirements
Survey of African art from antiquity to the present as an integral part of African culture, including historical, cultural and religious contexts.
Not open for credit to students with credit in BIST 363.

370. African and African American Images in the Mass Media (3)
Prerequisite: AFRS 121
Examination of portrayals of African and African American people in mass media, past and present. Primary emphasis on newspapers, radio, films and television.
Not open for credit to students with credit in BIST 370.

380. African Political Theory (3)
Prerequisite: BIST 115
Examination of theorists and theories which shape African political philosophy. Special attention given to the concepts of Pan-Africanism, African socialism, Negritude and revolution.
Not open for credit to students with credit in BIST 380.

381. African Americans and Parties Politics (3)
Analysis of African American participation in U.S. political party process. Special features include information on African American participation in Republican, Democratic and third party organizations. Material and discussion on independent African American political party efforts included.
Not open for credit to students with credit in BIST 381.

400L. African American Social Thought (3)
Prerequisite: Completion of GE Foundation requirements, one or more Exploration courses, and upper division standing.
Survey of African American intellectual history, with emphasis on social theories and opposing schools of intellectual thought.
Not open for credit to students with credit in BIST 400L.

404. Contemporary Issues of the Africana World (3)
Study of the shifting power and International status of the Africana world. Domestic issues, geo-politics and the diplomatic policies of selected countries will be highlighted.
Not open for credit to students with credit in BIST 404.

410. The African American Family (3)
Prerequisites: Completion of GE Foundation requirements. AFRS 325 or consent of instructor.
Systematic study and social-historical analysis of the structure and function of the African American Family in the United States. Sociological, theoretical and comparative analysis of the models of family units, roles and interpersonal relations in society. Comparison with other family units in America.
Not open for credit to students with credit in BIST 410.

415. International Africana Children’s Literature (3)
A survey of literature for and about African and African American children by authors from Africa, the U.S., the Caribbean and the rest of the Diaspora.
Not open for credit to students with credit in BIST 415.
420. African American Children in Public Schools (3)
Theories, concepts and principles relating to the intellectual growth, development and learning of African American children.
Not open for credit to students with credit in B/ST 423.

423. Issues in Psychological Assessment of African Americans (3)
Prerequisites: candidates must have working knowledge of statistical concepts, upper-division standing in Africana Studies or consent of instructor.
Examination of issues, problems, and practices in the assessment of African American children.
Not open for credit to students with credit in B/ST 423.

430. African Political Leadership in the Twentieth Century (3)
Prerequisite: Completion of Ge: Foundation requirements.
Critical examination of African's search for national liberation and cohesion, collectively built institutions, movements, parties and ideological self-definition. Comparative study of traditional African leadership concepts and modern forms. Focus on selected countries and major African leaders.
Not open for credit to students with credit in B/ST 430.

450. Africana Writers Workshop (3)
Prerequisite: ENGL 100, AFRS 100, or equivalent.
Requires extensive writing in four major areas: poetry, drama, fiction and documentaries. Assumes that technical or grammatical problems of writing have been taken care of and focuses on themes which are African-centric.
Not open for credit to students with credit in B/ST 450.

452. Crime and Justice in the African American Context (3)
Prerequisite: AFRS 210 or 332
Study of the interrelationship between criminal behavior, race, ethnicity, class, social context and the criminal justice system.
Not open for credit to students with credit in B/ST 452.

454. Africana Womanism: An Intellectual History (3)
Prerequisites: Completion of the G.E. foundation requirements, one or more Exploration courses and upper division standing.
Historical and critical study of the major schools of thought in Africana womanism, including continental and diasporic sources, historical evolution, cultural grounding, methodology, discourse on and with feminism, enduring and current issues and its relevance and relation to social change.
Not open for credit to students with credit in B/ST 454.

460. Continental African Thought (3)
Prerequisite: Background knowledge of African history, culture or society highly recommended.
Analysis of philosophical, social and religious systems of thought of Africa from antiquity to the present.
Not open for credit to students with credit in B/ST 460.

475. Racism and Sexism: An Analytical Approach (3)
Prerequisite: AFRS 332
An examination of institutions and a study of legislation which has been written and implemented in consequence of racism and sexism in American society. Social theories used to support and reject concepts of racism and sexism will also be presented.
Not open for credit to students with credit in B/ST 475.

490. Special Topics in Africana Studies (3)
Prerequisite: Consent of instructor.
Topics of current interest in Africana Studies selected for intensive development.
May be repeated to a maximum of 6 units with different topics in the same semester. Topics will be announced in the Schedule of Classes. Not open for credit to students with credit in B/ST 490.

495. Research Methods in Africana Studies (3)
Prerequisites: AFRS 110 and 6 units upper division work in Africana Studies. For Department majors.
Prepares students for use of scientific methods in Africana Studies, research theory, research design, sampling, measurement and science techniques. Focuses on instrument construction as well as test reliability and validity.
Letter grade only (A-F). Not open for credit to students with credit in B/ST 495.

498. Ancient Egyptian Ethical Thought (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper division standing.
Critical study of ethical thought of ancient Egypt with due attention to theological, literary and socio-historical context in which it was developed and evolved, including examination of its major ethical texts and comparative analysis with surrounding traditions.
Not open for credit to students with credit in B/ST 498.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Permits individual students to pursue topics of special research interest.
May be repeated to a maximum of 6 units. Not open for credit to students with credit in B/ST 499.

Career Possibilities
American Indian Affairs • Social Scientist • Archivist, Social Worker • Journalist • Counselor • Teacher • Public Relations Consultant • Community Organizer • School Administrator • Linguist • Law Paralegal Officer • Probation Officer • Editor • Writer • Urban/Regional Planner • Public Policy Administrator • Foreign Policy Officer • Researcher (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
American Indian Studies is an interdisciplinary study of the American Indian. The American Indian Studies program options are designed to provide students with the various fields of knowledge of American Indian Studies with opportunities for emphasis on particular topical, cultural and geographical interests. It offers a broad liberal education focusing on American Indian culture, traditions, and social issues.

The courses in the program offer two distinct directions: (1) classes that contain course content solely directed toward American Indian culture in the North Western Hemisphere; and (2) courses that contain sections or units on American Indians that have content relevant to understanding the American Indian experience.

American Indian Studies is governed by a committee of faculty representing a variety of schools and departments throughout the University.

Students may pursue a program in American Indian Studies through a minor, a certificate, a concentration in American Indian Studies within the Liberal Studies Degree Program, or an individually-designed undergraduate special major program under the Interdisciplinary Studies Office.

Undergraduate Programs

Interdisciplinary Studies for American Indian Studies

Bachelor of Arts (code IDSCBA01)

Master of Arts (code IDSCMA01)

The Interdisciplinary Studies Program at CSULB allows students to design unique courses of study leading to a Bachelor's or Master's degree. Students wishing to pursue a self-designed Bachelor of Arts degree with a focus on American Indian Studies should call 562-985-2426 for advisement. Students interested in a Master of Arts degree should call 562-985-4128 to contact an advisor.

Applications for the Interdisciplinary Studies Major are reviewed by the Director of the Interdisciplinary Studies Program and approvals are granted on a case-by-case basis.

For assistance, contact the American Indian Studies Interdisciplinary Degree Advisor, Dr. Troy Johnson in FO3-329. For an appointment, call 562-985-8703.

Certificate in American Indian Studies (code AIS_CT01)

Students pursuing any approved degree or credential program of the University may at the same time earn a Certificate in American Indian Studies. Courses taken to meet the requirements may also simultaneously be used, where applicable, to meet General Education requirements or the degree or credential requirements of cooperating departments. Certification of successful completion of requirements will be issued upon the recommendation of the American Indian Studies Program Director.

Requirements
1. A Bachelor's degree with a major in a traditional discipline. (Certificate requirements may be completed prior to the completion of B.A. requirement).
2. Submission of all college/university transcripts to the academic advising coordinator, who will work with the student to develop a well-integrated program of studies. Interested students are strongly encouraged to meet with the academic advising coordinator after having completed the lower division core courses.
3. A minimum of 24 units, distributed as follows:

Required Core Courses

Lower Division Core Courses (9 units) from: AIS 101, 105, 106, 200, 205, 215.
Upper Division Core Courses (15 units) from: AIS 300, 315, 320, 335, 340, 400, 420, 485, 490, 497, 499.

126 • American Indian Studies • 2009/2010 CSULB Catalog
Minor in American Indian Studies (code AIS_UM01)

Requirements: A minimum of 21 units.

Required Core Courses

Lower Division (9 units) from: AIS 101, 105, 106, 200, 208, 215.
Upper Division (12 units) from: AIS 300, 319, 320, 335, 340, 400, 420, 485, 490, 497, 499.

Courses (AIS)

LOWER DIVISION

101. Introduction to the Study of Native American People (3)
Corequisite/Prerequisite: Any GE Foundation course.
Examine history, culture, religion, art and societies of American Indian. Introduction to historical aspects of Native American experience and discuss these aspects of Native life as applied to contemporary American Indian issues.
Letter grade only (A-F).

102. Aztec Language and Culture (3)
Aztec Language and Culture
Beginning the study of Nahua (Aztec). Practice in song, grammar, reading, performance, pronunciation, writing. Comparison of Classic Aztec and Modern Nahua texts and arts. Cultural focus on history and social culture.

105. American Indian History - Pre 1871 (3)
Corequisite/Prerequisite: One course from GE category A1.
Survey of histories and culture of American Indian peoples in North America from precontact to 1871 and analysis of political, cultural, legal, and military relationships that developed between American Indians and foreign nations.
Not open for credit to students with credit in AIS 100.

106. American Indian History - Post 1871 (3)
Corequisite/Prerequisite: One course from GE category A1.
Survey of histories and cultures of American Indian peoples in North America from 1871 to present.
Not open for credit to students with credit in AIS 101.

200. Contemporary Issues in American Indian Studies (3)
Analysis of major issues in contemporary American Indian affairs, politics, art, philosophy, education, reservations life, economics, government relations, Indian organizations, Indian-white relations, legal issues, land rights, media issues, Indian activist movements, and community concerns.

208. California Indian History (3)
Study of relationship between Indian people and various European powers that influenced the settlement of the State of California. Areas to be explored include: Indigenous people of California, Spanish invasion of 1769, Mexican secularization in 1834, and subjugation by U.S. in 1846.
Letter grade only (A-F).

215. U.S. Diversity and the Ethnic Experience (3)
Prerequisites: Open only to Integrated Teacher Education Program students.
Survey of American Indian, African American, Latino American, and Asian American; in American society from the colonial era to present. Special attention to the formation and transformation of each ethnic group and their roles in the development of the United States.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students must meet formal prerequisites and/or competency equivalent for advanced study.

300. American Indians in Cinema (3)
Examines the creation of stereotypical and positive images of Americans in cinema utilizing silent cinema through contemporary eras. Discusses contemporary images created from American Indian perspective that offer different images of American Indians in society.
Class content will vary dependent on films available for instruction.
Letter grade only (A-F).

315. Contemporary Indigenous Peoples of Aztlán and Latin America (3)
Same class as CHLS 315.

319. The Ethnographic Experience in the U.S. (3)
Prerequisite: Completion of GE Foundation requirements.
Examination of dynamics of development of our multicultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in maintenance of cultural diversity in the United States.
Same course as ASAM 319, AFRS 319, CHLS 319, WSSS 319. Not open for credit to students with credit in AFRS 319, ASAM 319, CHLS 319, WST 319, WSSS 319. (Lecture/Discussion)

320. American Indian Art and Material Culture (3)
Survey of North American Indian art; emphasis on art forms of the U.S., Alaska, and Canada. Traditional and contemporary art and artists will be explored, focusing on aesthetic, theoretical, historical, religious, and philosophic aspects as they relate to American Indian culture.

335. American Indian Philosophies (3)
Detailed examination of American Indian tribal cultures and worldviews. Comparison of tribal philosophy and beliefs with that of western society. Special emphasis placed on traditional philosophical traditions as practiced in the cultural regions of North America and the sub-Arctic.
Letter grade only (A-F).

340. American Indian Literature (3)
Prerequisites: Completion of GE Foundation requirements.
Analysis of the written and oral literature traditions developed by American Indians. Range of works studied: oral history, tales, myths, song, prayer, poetry, short story, and novel.
Same course as ENGL 340. Not open for credit to students with credit in ENGL 340.

400. Advanced Historiography of American Indian People (3)
Introduction to historical writings relating to American Indians. Analyze the attitudes, assumptions, and evidence that have been used to portray American Indian people and the settling of America. Provides a foundation for understanding of how history has been shaped and will advance research skills.
Letter grade only (A-F).
420. American Indian Traditional Material Culture, Arts and Crafts (3)
Prerequisites: ANS 320, or consent of instructor.
Techniques, materials, concepts and processes in the creation of American Indian traditional arts and crafts. Selected artistic projects in the creation of tribal arts.
(Lecture-activity 6 hours.)

485. Federal Indian Law (3)
Designed to provide an in-depth study of legal relationship between the United States, Indian people, and Indian Nations. Legal development will begin with first contact between Indian people and English colonists and continue to the present time.
Letter grade only (A-F).

490. Special Topics in American Indian Studios (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in American Indian studies selected for intensive development.
May be repeated to a maximum of 6 units. Topics will be announced in the Schedule of Classes.

497. Fieldwork in American Indian Studies (1-3)
Prerequisites: Upper division standing, consent of Instructor.
Supervised experience relevant to specific aspects of American Indian community in off-campus setting. Project must be related to student's major or certificate program. Regular meeting with faculty supervisor and written reports required.
May be repeated to a maximum of 6 units.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed Studies to permit individual students to pursue topics of special interest.
May be repeated to a maximum of 6 units.

Director: Britt Mizelle
Department Office: Faculty Offices 2 (FO2), Room 109
Telephone/FAX: (562) 985-4424 / (562) 985-5431
Website: http://www.csulb.edu/campus/departments/americans/courses/americanstudies

Affiliated Faculty: Elyse M. Blankley (English/Women's, Gender, and Sexuality Studies), Angela Bowen (Women's, Gender, and Sexuality Studies), Timothy Caron (English), Patricia A. Cleary (History), Shelby D. Downey (Communication Studies), Linda N. Espana-Miram (Asian and Asian American Studies), J. Williams Gibson (Sociology), Paul Gilmore (English), George Hart (English), Ann Johnson (Communication Studies), Troy Johnson (American Indian Studies), Masatani Karonga (Black Studies), Karen Kleinfield (Art), Lileem Luhr (History), Britt Mizelle (History), Charles Nobbs (Political Science), Daniel J. O'Connor (Liberal Studies), Carlos R. Pizar (Religious Studies), Karen Raasumser (Communication Studies), Maythee Rojas (Women's, Gender, and Sexuality Studies), Max Rosenvinge (Philosophy), Anna Sandiko (Chicano and Latino Studies), Sarah Schrank (History), Nancy Sheehan (English/Liberal Studies), Craig R. Smith (Communication Studies), Jon R. Stone (Religious Studies), Dean S. Tolle (Asian and American Studies), John N. Tsujioka (Asian American Studies), Julie Van Camp (Philosophy), Frederick Wegener (English), Hugh Willard (History), Alison Wynne (Kinesiology and Physical Education)

Career Possibilities
Advertising • Entertainment • Journalism • Management • Marketing • Mass Media (film, radio, television) • Politics • Professional Writing and Editing (creative or technical) • Public Relations • Publishing • Historian • Administrator in Historic and Cultural Preservation • Teacher • Museum Curator • Multimedia Specialist • Preservationist • Environmental Law • College Instructor • Environmental Public History Review Specialist • Human Resources Manager • Systems Analyst • Insurance Broker (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Bachelor of Arts in American Studies (code AMSTBA01) (120 units)
American Studies is an interdisciplinary study of American culture. The American Studies Program offers a major leading to the bachelor's degree and a minor. The program also offers a variety of general education and interdisciplinary courses. Most students majoring or minoring in American Studies are interested in both (1) studying American culture as a whole from several disciplinary perspectives and (2) studying in depth a problem or theme according to individual choice. Reflecting these two interests, the major consists of a 5-course core sequence and a 7-course elective pattern that centers on one thematic problem.

The American Studies Program is governed by a committee of faculty from various departments and schools who also serve as advisors. Students majoring in American Studies confer with the program director to plan their programs, which are recorded on official advising forms.

In addition to providing a broad liberal education focusing on American culture, traditions and institutions, the major in American Studies offers a useful background for careers in law, journalism, public service, government, business and teaching. The program also provides the foundation for graduate work in American Studies and related fields.

In preparation for the upper division major in American Studies, students are expected to have completed lower division courses appropriate as background to the study of American culture. Students planning to major in American Studies should consult the program director early in their academic careers for general education and preparatory course recommendations and for teaching credential information.

Requirements
A minimum of 36 units distributed as follows:
Core courses (21 units): AMST 300, 301, 496 plus 6 additional units in AMST-designated courses. Students also need to take 3 units in American Cultural History (chosen from HIST 477A and 477B) and 3 units in American Literature (chosen from ENGL 375 and 372).
Elective pattern (15 units): Students choose a five-course elective pattern in consultation with the program advisor in one of the following areas of concentration: (A) American Institutions, Ideas, and Experiences, (B) Diversity and Difference, (C) American Culture, Media, and Consumerism, (D) Public Culture and Civic Engagement, (E) Designated Area of Concentration. No more than two courses in this elective pattern can come from any one academic department.

Minor in American Studies (code AMSTUM01)
Minimum of 18 units consisting of AMST 300, AMST350, HIST477A or HIST477B, and 9 more units chosen in consultation with the faculty advisor.

Courses (AMST)

Foundation Courses must be completed prior to taking any upper division course except language courses where students must meet formal prerequisites and/or competency equivalent for advanced study.

LOWER DIVISION

200. Explorations in American Popular Culture (3)
Prerequisites: Completion of GE Foundation requirements. Examines broad terrain of American popular culture from multiple disciplinary perspectives, interrogating both the form and content of cultural production and reception in the past and present. May be repeated to a maximum of 6 units with different topics in different semesters.
UPPER DIVISION

360. Introduction to American Studies (3)
Interdisciplinary approaches to study of American civilization from colonial period through twentieth century. Significant issues and problems in American life examined from perspectives of several disciplines.

350. California Culture (3)
Prerequisites: GE Foundation; upper division status.
Interdisciplinary examination of the culture of California. Emphasis on how California's history, politics, environment, social movements, art, and literature produce a contested and always changing culture.

351. Celebrity in American Culture (3)
Prerequisites: GE Foundation; Upper-division status.
Interdisciplinary examination of the changing meanings of fame in American society, addressing the production, consumption, and cultural work of celebrity.

360. Explorations in American Popular Culture (3)
Prerequisites: GE Foundation; Upper-division status.
Examines broad terrain of American popular culture from multiple disciplinary perspectives, interrogating both the form and content of cultural production and reception in the past and present. Not open for credit to students with credit in AMST 200.

421. Animals in American Culture (3)
Prerequisites: GE Foundation; Upper-division status.
Interdisciplinary examination of the role of non-human animals in making cultural meaning. Traces the many ways in which animals, not just humans, have shaped American history and culture.

498. Senior Seminar in American Studies
Prerequisites: Completion of AMST 200 and 18 units of upper-division work in American Studies or affiliated fields.
Capstone research course for American Studies majors.
Lottor grade only (A-F).

Career Possibilities
Archaeologist • Anthropologist • Art Historian • Curator • Curator • Designer • Ethnographer • Ethnologist • Foreign Service Officer • Geographic Information System (GIS) Analyst • History of Art • History of Science • Human Resource Manager • Immigration Inspector • Librarian • Linguist • Museum Administrator • Museum Curator • Museum Education Coordinator • Museum Registrar • Professional Guide • Professional Tour Guide • Professor • Researcher • Social Science Researcher • Teacher • Travel Agent • Urban Planner • Urban Planner • Veterinary Scientist • Wildlife Management

Introduction
Anthropology is the systematic study of our own species in our biological, social, and cultural aspects. Anthropologists study the full range of human experience in both the past and present. The breadth of anthropological studies gives students a unique perspective to understand other societies and their own. The programs offered by the Department of Anthropology are designed to enrich the personal and professional lives of our students.

The undergraduate major in Anthropology is designed to provide students with knowledge of the various fields of Anthropology and with opportunities for emphasis in particular topics and geographical interests. Students will find that Anthropology provides a useful perspective that has many applications in daily social interaction. The Anthropology minor provides a strong liberal arts background that can contribute to success in many fields, such as teaching, public service, or business. Anthropology majors intending to pursue careers in those fields are urged to consider minorin in fields which provide appropriate entry-level skills, such as the Minor in Business Economics or in Public Policy. The major also prepares students for advanced studies in Anthropology. The undergraduate minor in Anthropology is recommended for students preparing for careers which will require practical knowledge of different cultural backgrounds. These include teaching, international business and engineering, foreign service, and public and social services within our own multicultural society.

The Department of Anthropology also offers a graduate program leading to the Master of Arts degree. The graduate program is designed to meet the needs of students who are: 1) seeking to expand their knowledge and increase their competence in Anthropology; 2) preparing for further advanced degrees; and 3) preparing for a career in Applied anthropology. Graduate students are responsible for obeying the general requirements for the M.A. degree as stated in this Catalog. It is also recommended that prospective students consult with the Graduate Advisor at their earliest opportunity.

Undergraduate Programs

Bachelor of Arts (code ANTHBA01) (120 units)

Lower Division: ANTH 110, 120, 140, 170 and 202.
Upper Division: A total of 33 units. Required Core Courses (15 units): ANTH 313, 314, 491, 435, 431 or 475.
In consultation with the Undergraduate Advisor, an additional 18 units will be selected from the courses listed below. The major allows students to be generalists picking upper division electives from differing subfields, or to specialize in one subfield. Courses are grouped by topic/subfield as a guide for students.

Biological Anthropology: ANTH 315, 316, 319, 393, 402, 434, 436, 437, 439A, 439B

Linguistic Anthropology: ANTH 412J, 413, 421, 475

Students may apply a maximum of 2 Anthropology Capstone courses to the major. Students may apply Anthropology Human Diversity classes to the major.

Students may take a total of 6 units of ANTH 490 and, with approval of the undergraduate advisor and sponsoring faculty members, up to 6 units of ANTH 496, 498, or 499.

Minor in Anthropology (code ANTHUM01)

A minimum of 21 units in a program approved by the major advisor, as follows:

Lower Division Required: ANTH 120, 140, 170 and 110.
Upper Division Electives: 9 units of anthropology courses selected in consultation with the major advisor to meet the specific needs of the student.

Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code COEDUM01)

The minor comprises courses that integrate studies of culture, language, learning, and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student’s major may not be used.

1. One course from each of the following areas (12 units):
   Culture: ANTH 421J, LING 425 or EDP 432/EDEL 430
   Language: EDS 454 or LING/CD 329

2009/2010 CSULB Catalog • Anthropology • 131
Option in Applied Anthropology (code ANTHMA02)

The Department of Anthropology offers graduate work in applied anthropology leading to a Master of Arts degree in Anthropology. The program produces practitioners who use anthropological knowledge and methods to design, conduct, and evaluate research and action programs. Students with a B.A. in Anthropology, as well as those who can apply their previous training and experience to the practice of anthropology, are welcome to apply. In order to meet the growing demand in California and elsewhere for professionals capable of addressing the complex, global problems of multicultural urban and regional environments, the Applied Anthropology Program emphasizes knowledge of anthropological theory and specialized training for its application across a wide range of global contexts. All graduate students participate in research projects and internships. Within the global context of urban and regional cultural change, the program offers three concentrations: multicultural education, medical/health care, and community organizations. Regional emphasis begins with the languages, cultures, and organizations of southern California and the Southwest and extends globally.

Prerequisites
1. A bachelor's degree in anthropology; or
2. A bachelor's degree with 24 units of upper division courses in anthropology, comparable to those required of anthropology majors at this University; or
3. A B.A. degree in any field and other background appropriate to graduate study in anthropology. Students whose background in anthropology seems inadequate may be required to fulfill specific undergraduate deficiencies before admission to candidacy. Deficiencies will be determined by the departmental graduate advisor after consultation with the student and a review of the student's transcript records.

Advancement to Candidacy
1. Acceptance into the M.A. program by the department;
2. Satisfaction of the general University requirements for advancement to candidacy (including fulfilling the GWAR);
3. Approval of the candidate's graduate program by the departmental graduate advisor;
4. The candidate must have taken ANTH 501, 510, and either 560 or 561 for a total of 9 core units.

Requirements
1. A minimum of 33 units of 400-level upper division and graduate courses, of which 21 units must be at the 500-600 level in a program approved by the Graduate Advisor. These 33 units must include the following courses: ANTH 501, 510 and 560 or 561; or
2. Up to 6 units of course work outside the Department of Anthropology may be included in the 33 unit total;
3. Competence in appropriate research skills. These may include: familiarity with computer languages and use of computers, or statistical training and facility, or a reading knowledge of a foreign language;
4. Either A) a Comprehensive Examination, or B) a M.A. Thesis.
202. Quantitative Methods in Anthropology (4)

Designed to strengthen quantitative skills; emphasis placed on analysis of large datasets, computer graphics, research design, and application of several statistical methods and software programs; Databases used in this class have a multicultural base.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

301. Principles of Archaeology (4)

Prerequisite: ANTH 140 and completion of GE Foundation requirements.

Explanation of the techniques, methods, and goals of archaeological research. Study of ceramics, lithics and other parts of the archaeological record. Examination of issues in sampling, survey, excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena.

305. Radical Social Analysis (3)

Prerequisite: Completion of GE Foundation requirements, one or more Explorations courses and upper division standing.

Radical examination of society and culture, focusing on classic Marxist texts as well as current critical theory and analysis. Special emphasis on critiques of capitalism and the effects of global inequality on humanity.

307. Modernization in Global Perspective (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.

Exploration of psychological and material problems in modern society (both western and Third World) due to accelerating change beginning with advance of technology, rise of capitalism, abandonment of "old values," increasing complexity of bureaucracy, and lowering of social barriers.

311. Human Adventure (3)

Prerequisite: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.

An exploration of the evolution of key features of humanity from our origins through the present and into the future.

313. World Prehistory (3)

Prerequisite: Completion of GE Foundation requirements.

The origin of human beings and their cultures; the development of agriculture, the growth of city life, and the rise of civilization; a survey of world-wide prehistory from the Old Stone Age to the Iron Age.

314. Global Ethnography (3)

Prerequisites: Completion of GE Foundation requirements.

Recent and contemporary cultures around the world; a comparative survey of their ecological adaptations, social institutions, technology, subsistence strategies, degrees of complexity, and patterns of change.

315. Human Variation (3)

Prerequisite: Completion of GE Foundation requirement.

Biological variation and differences in modern humans; Biological concepts of race and subspecies. Biological adaptations. Racism and genocide. Race as a race concept and the social meaning of this concept. Biology of several American ethnic groups.

318. Human Genetics (3)

Prerequisites: ANTH 110 or equivalent BIOL course, a quantitative course.

Genetic background for normal and abnormal development; population differences; human reproduction, pregnancy, prenatal diagnosis and birth defects; introduction to population and evolutionary genetics; application to social, moral, legal and ethical problems and to genetic counseling.

2009/2010 CSULB Catalog • Anthropology • 133
319. Human Growth and Development (3)
Prerequisites: DIOL 205 or 207.
Analysis of the sequence of events in the development of people from conception to death; organ development; rapid and retarded growth patterns; the processes of aging and death from a broad ethnic and ecological perspective.

321. North American Indians (3)
Comparative study of traditional Native American societies, social organization, belief systems and religions, crafts and adaptation to varied environments; cultural changes in response to European contacts.

322. California Indians (3)
Survey of native Californian groups; discussion of the diversity of aboriginal culture prior to western contact as background for analysis of the impact of Europeans; problems of intercultural relations; and the current status of native Californians.

323. Peoples of Mexico and Central America (3)
Survey of present-day peoples of Mexico and Central America; indigenous and mestizo cultures and their heritage; examination of recent change.

324. Peoples of South America (3)
Survey of the present day peoples of South America; tribal Indians, peasant communities, village life, the emerging middle class, and other social groups; examination of the Indian, European, and African heritage and present day cultural and social changes.

329. Cultural Diversity in California (3)
Prerequisites: Completion of GE Foundation requirements. Examination of current cultural diversity in California, including ethnicity, nationality, class, gender, religion, and region; and the impact of this diversity on public institutions will be covered. Letter grade only (A-F).

332. Chinese Culture and Society (3)
Anthropological perspectives on evolution, socialism, and institutional change in China, ethnic diversity, family and kinship patterns, politics, economy, international relations, and religion in premodern and modern times.

333. Cultures and Societies of Southeast Asia (3)
Comparison of ecological, social, and symbolic systems of mainland and island Southeast Asia. Emphasis of traditional cultures of agricultural and small-scale societies. Effects of colonialism and modernization are also covered.

335. Japanese Culture and Society (3)
Cultural and social institutions; kinship, family structure, religion, law, politics and economy from traditional to modern times.

345. Ancient Civilizations of Mexico and Central America (3)
Origins and growth of the Aztec, Maya and other civilizations of Mexico and Central America.

347. Prehistoric Cultures of North America (3)
Archaeological evidence of origin and growth of the native American cultures north of Mexico; regional cultures and broad continental patterns of development.

349. The Prehistory of California and the Southwestern United States (3)
Development of the native cultures of California and American Southwest from the earliest human occupation to the historic period.

351. Sex Roles and Culture (3)
Interaction of biological, cultural and historical factors on male female roles and status in traditional and contemporary cultures and societies.

355. Health and Healing (3)
Prerequisites: Completion of GE Foundation requirements. Cultural perspective of health and health care delivery; coverage of diverse cultures in the United States and abroad; emphasis on increasing personal awareness through exposure to diverse perceptions of illness and treatment.

363. Natural History of Primates (3)
Prerequisites: ANTH 110.
Relationship of primates to other mammals; adaptation of cerebral mammalian, functional and evolutionary aspects of primate anatomy and physiology; effects of size, primate ecology, survey of the Order Primates: Prosimii, Tarsoids, New World and Old World Monkeys, Hominoids.

401. Foundations of Anthropology (3) F
Prerequisites: ANTH 313 and ANTH 334 with grade of "C" or better, or consent of instructor.
Introduction to history of anthropological theory from inception to current approaches; frames theories in the social context in which they emerged.
Letter grade only (A-F).

402. Evolutionary Theory (3)
Prerequisites: Upper division standing and completion of ANTH 110 with a grade of "C" or better.
Development of evolutionary thought and its impact on Anthropology; origins of physical anthropology; Mendelian genetics, transmissionism, population genetics, Hardy-Weinberg equilibrium, non-Darwinian evolution, and modern synthesis; scientific method, the application of evolutionary theory to human origins, primate biology, behavioral biology. Current theoretical perspectives.
Letter grade only (A-F).

403. Evolutionary Anthropology (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and completion of any lower division course in Anthropology with a grade of "C" or better.
Overview of the application of evolutionary theory to human behavior and culture. Fundamentals of Darwinian evolution, cultural transmission, behavioral ecology, and complex social systems. Applications in ethnology, archeology, biological anthropology and historical linguistics with relevance to issues facing modern societies.
May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

4121. Culture and Communication (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper division standing.
Culture and its influence on the communication process; practical application to intercultural and multicultural situations: cultural patterns in America and abroad and their effect on verbal and nonverbal communicative behavior; cultural dimensions of ethnocentrism, stereotypes, and prejudices and their effect on communication; multicultural approaches to human interaction.

413. Language and Culture (3)
Relation of language to social and cultural practices and processes; issues of meaning, identity and power within and across cultures. Same course asLING 413.

414. Anthropology of Religion (3)
Prerequisites: ANTH 120 and upper-division graduate standing or consent of instructor.
An anthropological examination of religious behavior and beliefs, which will focus on these phenomena in their sociocultural and adaptive contexts. Using the cross-cultural and cultural evolutionary approach, hunter-gatherer religions through civilized ones will be covered.
Letter grade only (A-F).

134 • Anthropology • 2009/2010 CSULB Catalog
415/515. Economic Anthropology (3)
Comparative analysis of capitalism and industrialization; relation of work and leisure; urbanization; economic development; comparative economic systems; implications for a multi-national world.

416/516. Urban Anthropology (3)
Comparative analysis of development and role of urban centers in ancient and modern cultures; interrelationships of urban and rural populations; patterns of similarity and difference in urbanism of contrasting cultures; implications for a multi-national world.

417/517. Applied Anthropology (3)
Prerequisites: ANTH 120 and upper division standing or graduate standing or consent of instructor.
Brief orientation to applied anthropology, its history and ethics; policy and applied anthropology domains (needs assessment, program evaluation, social impact assessment: environment, advocacy); applied research methods; student proposals for internship research.

419/519. Encounters and Identities (3)
Prerequisite: Graduate and advanced undergraduate students only.
Examination of how cultures interact with the concept of identity; concentrates on theories and practices of identity and the practice of politics from an anthropological perspective.

421. Education Across Cultures (3)
Same course as LING 425.

422/522. The Anthropology of Gender (3)
Prerequisites: Upper division standing and ANTH 351 or consent of instructor.
Examines anthropological perspectives on gender and how these perspectives have challenged and transformed anthropology and feminism; class will locate gender relations in the production of anthropological knowledge, in colonial and postcolonial social fields, and in the movement of global capitalism.
Letter grade only (A-F).

427/527. Global East Asia (3)
Prerequisites: Graduate and advanced undergraduate students.
Students will examine how socio-cultural formations in an East Asian context articulate with global flows of capital, people, and ideas.
Letter grade only (A-F).

428/528. Historical Ethnography (3)
Prerequisite: Consent of instructor.
Developing and employing a specialization of historical ethnography in anthropology, combining archival and historical approaches to methodological and theoretical issues in historical ethnography.
Letter grade only (A-F).

434. Primate Evolution (3)
Prerequisite: ANTH 110. Recommended: ANTH 363, upper division physical anthropology, biology, or anatomy/physiology course.
Primate evolutionary biology, minus the sub-family hominidae; fossil record and analysis of fossils (through the use of fossil casts); detailed cranial anatomy (particularly teeth) will be examined in the laboratory section; literature on primate evolution will be surveyed.
(Lecture 2 hours, Lab 3 hours)

435. Human Evolution (3)
Prerequisites: ANTH 110
Fossil and molecular evidence for human evolution as a consideration of the importance of cultural factors.
Not open for credit to students with credit in ANTH 430.

436. Medical Anthropology (3)
Prerequisites: ANTH 353 recommended.
Interaction of cultural, biological and environmental elements in human response to disease; emphasis on an ecosystem approach with evolutionary and comparative perspectives.

437. Primate Ecology (3)
Prerequisite: ANTH 110 or a comparable biology course with a grade of "C" or better, ANTH 202 and ANTH 363 recommended.
Survey of interaction of primates with their environment. Focus on physiological ecology, nutritional ecology, chemical ecology, population ecology and behavioral ecology of primate species.
Letter grade only (A-F). (Lecture 3 hours)

440. Ethnographic Field School (3-6)
Prerequisite: Consent of Instructor.
Experiential course gives opportunity to apply standard ethnographic methods to study, observe, and learn about a non-U.S. culture. Analysis of methodology and data collection will occur throughout the course. Location, topics and activities will vary.
Letter grade only (A-F).

444/544. Transnational Migrants (3)
Prerequisites: ANTH 120 and upper division graduate standing or consent of the instructor.
Anthropological examination of the lives of immigrants and refugees. Explores the way studies of migration challenge our understanding of the local context of globalization and mass migration. Focus on theories of culture, ethnicity, and identity as well as theories of incorporation, adaptation and nativism and the relevance of applied anthropology through research and advocacy.
Letter grade only (A-F).

445/545. Human Environment Interaction In Prehistory and History (3)
Prerequisites: ANTH 140 and ANTH 313 or consent of instructor.
Explores archaeological and paleoenvironmental evidence of how the natural environment has affected human biological and cultural evolution and how human activities have affected the environment.

450. Archaeological Field Research (1-10)
Prerequisite: Consent of Instructor.
Introduction to field acquisition of archaeological data through remote sensing, geophysics, survey, and excavation; instructional emphasis is on recovery, recording techniques, and the management of field projects; locations will vary and may be offered on Saturdays.
May be repeated to a maximum of 10 units in different semesters.

451/551. Archaeological Artifacts Analysis (4)
Prerequisite: ANTH 140 or equivalent.
Study of the products of human activity; nature of measurement and observation within the archaeological record; Explanations of artifact variability; study of lithics, ceramics, and other types of archaeological materials. Practical experience in the study of artifacts, sampling, errors.
Letter grade only (A-F). (Loc 3 hrs, Lab 2 hrs)

2009/2010 CSULB Catalog • Anthropology • 135
453. Archaeological Field Research Design (4)  
Prerequisites: Consent of instructor and ANTH 301 or equivalent.  
The nature of the archaeological record, research design,  
techniques of archaeological data collection and field research  
employing data sources and modern techniques. Practical  
experience in the use of mapping instruments, map interpretation,  
geophysics, surface survey, sampling designs, remote sensing  
photography.  
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)  

454. Culture and Aging (3)  
Cultural perspectives on aging and the aged in America and  
everywhere. Attention to insider views from specific societies and to  
comparisons of aging concerns in diverse settings.  

455,555. Archaeological Method and Theory I (4)  
Prerequisites: Consent of instructor and ANTH 301.  
Examination of theoretical construct in the analysis of  
archaeological data. Development and construction of a  
technique to explain the data and to discuss various historical  
phenomena. Key debates in archaeological literature about the  
nature of theory, knowledge, theory and units.  
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)  

456,556. Archaeological Method and Theory II (4)  
Prerequisites: Consent of instructor and ANTH 301.  
Analysis of conceptual frameworks employed by archaeologists in  
obtaining explanation in the three major areas of culture history,  
cultural reconstruction, and expository paleohistory. Introduction  
to evolutionary theory as used in archaeology. Debates about the  
nature of evolutionary explanations.  
Letter grade only (A-F).  

458. Ethnographic Methods (4)  
Prerequisites: ANTH 110, 120, 140, and 170 or consent of instructor.  
Introduction to purposes of cultural anthropology fieldwork,  
methodology used to collect ethnographic data, and ways of  
analyzing and reporting data collected; focus on identifying and  
defining research problems and populations, and ethical issues that  
arise when conducting research.  

464/564. Quantitative Methods in Anthropological Research (4)  
Prerequisites: ANTH 202 and consent of instructor:  
Advanced statistical and analytical methods involved in  
anthropological research. Advanced statistical principles and  
techniques include principal components, PCA, MANOVA, MCA,  
factor analysis, bootstrapping, and sampling designs in the  
anthropological research.  
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)  

471,571. Prehistory of Eastern North America (3)  
Prerequisites: ANTH 140 or equivalent.  
Ecological and evolutionary account of prehistoric cultural  
developments in Eastern North America from the Paleoindian  
period to the collapse of the Algonquian cultural systems.  
Letter grade only (A-F).  

472/572. Archaeology of the Desert West (3)  
Prerequisites: ANTH 140 or 301 or 313.  
Overview of the archaeology of the Desert West.  
Letter grade only (A-F).  

473/573. Archaeology of California (3)  
Prerequisites: ANTH 140 or 301 or 313.  
Overview of the archaeology of California, from initial human  
colonization through European contact. Emphasis on environmental  
change, human-environment interactions, the development of social  
complexity, and the consequences of American colonization.  
Letter grade only (A-F).  

475. Language and Gender in Cross-Cultural Perspective (3)  
Analysis of men's and women's communication in their social and  
cultural context; role of gender in interpreting conventional  
interactions in the U.S. and elsewhere; acquisition of gender  
differences; cultural dimensions of perceptions and stereotypes and  
their effect on communication.  
Note: same course as LING 475, WGS 476.  

478. Anthropology and Film (3)  
Prerequisite: One lower division anthropology course or consent of  
instructor.  
This seminar critically analyzes movies that portray anthropological  
aurors, as presented in ethnographic and commercial films. Representations  
of anthropologists, anthropological theories and methods, and  
populations and concerns of anthropological interest are contrasted with  
early works of scholarship published on the same issues.  
Letter grade only (A-F) for Majors/Minors.  

480A. Osteology I (3)  
Introduction to skeletal anatomy, measurement and analysis of  
osteological collections, applied anthropometrics and morphometrics.  
(Lecture 2 hours, Lab 5 hours)  

480B. Osteology II (3)  
Prerequisites: ANTH 480A or consent of instructor  
Osteological analysis of skeletal remains; detection of pathological  
conditions on archaeological populations; methods of dietary analysis;  
skeletal analysis from archaeological sites.  
(Lecture 2 hours, Lab 3 hours)  

481,551. Faunal Analysis (4)  
Prerequisites: ANTH 140 or equivalent, consent of instructor.  
An introduction to the analysis of animal bones from archaeological  
sites; exploration of the theoretical and methodological issues  
that are fundamental to the study of faunal remains and modern  
zooarchaeology.  
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)  

485. Physical Science Techniques in Archaeology (4)  
Prerequisites: ANTH 140 and one other archaeology course or  
consent of instructor.  
Techniques of physics and chemistry in archaeology; use of  
laboratory equipment, including analytical balances, drying ovens,  
furnaces, and other sample preparation techniques; use of chemical  
characterization techniques, including scanning electron microscopy  
and inductively-coupled mass spectrometry.  
Letter grade only (A-F).  

486,586. Geoaanthropology (3)  
Prerequisites: ANTH 301 or consent of instructor.  
Identification, analysis, and interpretation of sediments and soils  
associated with archaeological remains. Laboratory work with  
sediment description and chemical analysis; field trips and student  
projects focus on archaeological applications of these subjects.  
(3 hours seminar; 3 hours activity) Letter grade only (A-F)  

487,587. Cultural Resource Management (3)  
Prerequisite: ANTH 301  
Introduction to the practices of public archaeology in the United  
States; historical and legal background; federal, state, and local  
programs; archaeology and Native Americans; contract archaeology;  
survey, evaluation, and mitigation projects; professional employment  
in U.S. cultural resource management.  
Letter grade only (A-F).
488. Advanced Methods in Near Surface Remote Sensing (4)
Prerequisites: ANTH 453 and consent of instructor.
Advanced exploration of the use of near surface geophysical techniques in the study of archaeological deposits; theory and methodology in the use of remote sensing in archaeology; development of research designs; practical considerations when using geophysical equipment in archaeological research.
Letter grade only (A-F).

489. Advanced Archaeological Analyses: Research Practicum (3)
Prerequisites: One of the following: ANTH 450, 451, 453, 484, 481, 485, 458, or 483.
Advanced study of the archaeological record using multiple laboratory and field research techniques. Research leading to group and individual projects. Collaborative and hands-on application of analytic and quantitative analyses. Preparation of results for publication and presentations.
Letter grade only (A-F). (5 hour activity)

490. Special Topics in Anthropology (3)
Topics of current interest in anthropology selected for intensive development.
May be repeated to a maximum of 6 units. Topics will be announced in the Schedule of Classes.

490. Internship (3)
Prerequisites: Upper division standing, approval of faculty mentor.
Supervised internship in an area of anthropology within or outside the University; field experience of 90 hours in which the student gains practical experience in an area of anthropology.
Letter grade only (A-F).

490. Senior Thesis (1-6)
Prerequisites: Open only to Anthropology major, senior standing, and have approval of a faculty mentor.
Research for and writing of a senior thesis under the direction and guidance of an Anthropology Department faculty mentor.
Letter grade only (A-F).

490. Guided Studies in Anthropology (1-3)
Prerequisites: Consent of department.
Selected topics in anthropology and preparation of a research report.
May be repeated to a maximum of 6 units.

GRADUATE LEVEL

501. Current Trends in Anthropological Theory (3)
Prerequisites: ANTH 401 or its equivalent, and graduate standing.
Examination of current theories used by leading anthropologists in the areas of our graduate program, i.e.: Applied Anthropology, Linguistic Anthropology, and Archaeology. Investigation of how theories shape problems and analytic techniques, and what makes theory "cutting edge."
Letter grade only (A-F).

503. The Anthropological Perspective (3)
Prerequisite: Graduate standing or consent of instructor.
Through reading and discussion of ethnographies and reports of applied anthropological work, this course reviews the scientific understanding of the process of inquiry and action in the human sciences, leading to the identification of a common core perspective within anthropology.
Letter grade only (A-F).

505. Practicing Anthropology (3)
Prerequisite: Graduate standing or consent of instructor.
Review of practical contributions by anthropologists in non-academic settings; attention to specific skills used by practicing anthropologists, business writing including resumes, contracts, oral presentations using audiovisual aids; internal and external contracting; time management, project management, working across disciplines; ethics.
Letter grade only (A-F).

510. Proseminar (3) F
Prerequisites: Six units of upper division anthropology courses or consent of instructor.
Development of proposal planning, budgeting, and writing skills, particularly in applied anthropology, linguistics, and archaeology; both academic and contract/consulting types of proposals will be covered.
Letter grade only (A-F).

514/414. Anthropology of Religion (3)
Prerequisite: ANTH 120 and upper division/graduate standing or consent of instructor.
Anthropological examination of religious behavior and beliefs, which will focus on these phenomena in their socio-cultural and adaptive contexts using cross-cultural and cultural evolutionary approach, hunter-gatherer religions through civilized ones.
Letter grade only (A-F).

515/415. Economic Anthropology (3)
Compares and contrasts the economies characteristic of hunter-gatherers, horticulturalists, and peasants; investigates the changing relations of tribal and peasant peoples to the developing global economy; and leads at production and marketing strategies within local, regional, and urban settings.
Letter grade only (A-F).

516/416. Urban Anthropology (3)
Comparative analysis of development and role of urban centers in ancient and modern cultures; interrelationships of urban and rural populations; patterns of similarity and difference in urbanism of contrasting cultures; implications for a multi-national world.
Letter grade only (A-F).

517/417. Applied Anthropology (3)
Prerequisites: ANTH 120 and upper division standing or graduate standing or consent of instructor.
Brief orientation to applied anthropology; its history and ethics; policy and applied anthropology domains (needs assessment, program evaluation, social impact assessment, environmental, advocacy); applied research methods; student proposals for internship research.
Letter grade only (A-F).

519/419. Encounters and Identities (3)
Prerequisite: Graduate and advanced undergraduate students only.
Examination of how cultural anthropologists have dealt, theoretically, with the concept of identity; concentrates more on issues than geographic regions, emphasis on recent theoretical developments such as post-modern and post-colonial approaches to the study of contemporary subjectivities.
Letter grade only (A-F).

520/420. Culture, Power and Politics (3)
Prerequisite: ANTH 120 and upper division/graduate standing or consent of the instructor.
Examines from an anthropological perspective how culture shapes the social construction of power and the practice of politics from an anthropological perspective.

522/422. The Anthropology of Gender (3)
Prerequisite: Graduate standing or consent of instructor (ANTH 351 recommended).
Examines anthropological perspectives on gender and how these perspectives have challenged and transformed anthropology and feminism; class will locate gender relations in the production of anthropological knowledge, in colonial and postcolonial social fluids, and in the movement of global capitalism.
Letter grade only (A-F).

2009/2010 CSULB Catalog • Anthropology • 137
527/427. Global East Asia (3)
Prerequisites: Graduate and advanced undergraduate students.
Students will examine how socio-cultural formations in an East Asian context articulate with global flows of capital, people, and ideas.
Letter grade only (A-F).

528/428. Historical Ethnography (3)
Prerequisite: Graduate status or consent of instructor.
Development of the specialization of historical ethnography in anthropology, combined ethnographic and historical approaches to ethnographic questions, methodological and theoretical issues in historical ethnography.
Letter grade only (A-F).

530. Ethnography of Communication (3)
Prerequisite: Graduate standing.
Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Among the major topics presented from this perspective are language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy.
Letter grade only (A-F). Same course as LING 333. Not open for credit to students with credit in LING 333.

540. Ethnographic Field School (3-6)
Prerequisite: Consent of Instructor.
This experiential course gives students an opportunity to apply standard ethnographic methods to study, observe, and learn about a non-U.S. culture. Analysis of methodology and data collection will occur throughout the course. Location, topics and activities will vary.
Letter grade only (A-F).

544/444. Transnational Migrants (3)
Prerequisites: Graduate standing or consent of the instructor.
Anthropological examination of the lives of immigrants and refugees. Explores the way studies of migration challenge our understanding of the local context of globalisation and transnationalism. Focus on theories of culture, ethnicity, and identity as well as theories of incorporation, adaptation and nativism and the relevance of applied anthropology through research and advocacy.
Letter grade only (A-F).

545/445. Human Environment Interaction in Prehistory and History (3)
Prerequisite: Graduate standing or consent of instructor.
Explores archaeological and paleoenvironmental evidence of how the natural environment has affected human biological and cultural evolution and how human activities have affected the environment.
Letter grade only (A-F).

551/451. Archaeological Artifacts Analyses (4)
Prerequisites: Graduate standing and consent of instructor.
Study of the products of human activity; nature of measurement and observation within the archaeological record. Explanations of artifact variability, study of lithics, ceramics, and other types of archaeological materials. Practical experience in the study of materials, sampling, errors.
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)

553/453. Archaeological Field Research Design (4)
Prerequisites: Graduate standing and consent of instructor.
The nature of the archaeological record, research design, techniques of archaeological data collection and field research employing data sources and modern techniques. Practical experience in the use of mapping instruments, map interpretation, geophysics, surface survey, sampling designs, remote sensing photogrammetry.
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)

555/455. Archaeological Method and Theory I (4)
Prerequisite: Graduate standing and consent of instructor.
Examination of theoretical constructs in the analysis of archaeological data. Development and construction of a metalanguage for the discussion and analysis of historical phenomenon. Key debates in archaeological literature about the nature of theory, knowledge, theory and units.
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)

556/456. Archaeological Method and Theory II (4)
Prerequisite: Graduate standing and consent of instructor.
Analysis of conceptual frameworks employed by archaeologists in obtaining explanation in the three major areas of culture history, cultural reconstruction, and explanatory prehistory. Introduction to evolutionary theory as used in archaeology. Debates about the nature of evolutionary explanations.
Letter grade only (A-F).

560. Ethnographic Research Methods (3)
Prerequisite: Graduate standing or consent of instructor.
A practice-oriented seminar in ethnographic research methodology, emphasizing techniques, methods, and concepts of ethnographic research. The course examines several qualitative, in-depth methods used by anthropologists as well as research design and research ethics.

561. Basic Computer Research Applications in Anthropology (5)
Prerequisite: ANTH 560 or consent of instructor.
Basics of both qualitative and quantitative computer methods, employing currently appropriate software and statistical techniques. Methods covered will be specifically related to research in archaeology and applied anthropology, and the presentation of results, as well as various research problems, will be addressed.
Letter grade only (A-F).

564/464. Quantitative Methods in Anthropological Research (4)
Prerequisites: ANTH 560, graduate standing, and consent of instructor.
A consideration of advanced statistical and analytical methods involved in anthropological research. Advanced statistical principles and techniques include principal components, ANOVA, MANOVA, factor analysis, bootstrapping, and sampling designs in the anthropological research.
Letter grade only (A-F). (Lec 3 hrs, Lab 2 hrs)

570. Linguistic Field Methods (4)
Introduces the student to the practical study of unfamiliar languages; through the help of a native speaker of a non-European language, the student will learn how to write down the sounds of the language and how to determine the structure of the language.
Letter grade only (A-F). Same course as LING 580. Not open for credit to students with credit in LING 580. (Lecture activity 5 hours)

571/471. Prehistory of Eastern North America (3)
Prerequisites: Graduate standing and consent of instructor.
Ecological and evolutionary account of prehistoric cultural developments in North America east of the Rocky Mountains. Cultural and environmental change from appearance of people in New World to collapse of indigenous cultural systems.
Letter grade only (A-F).

572/472. Archaeology of the Desert West (3)
Prerequisite: Graduate standing or consent of instructor.
Overview of archaeology of Great Basin, southwestern U.S., and northwestern Mexico. Major developments from the initial human colonization of North America through European contact, with emphasis on human ecology in and environments.
Letter grade only (A-F).
573/473. Archaeology of California (3)
Prerequisite: Graduate standing or consent of instructor.
Overview of archaeology of California, from initial human colonization through European contact. Emphasis on environmental change, human-environment interactions, the development of social complexity, and the consequences of European colonization.
Lettor grade only (A-F).

581/481. Faunal Analysis (4)
Prerequisites: Graduate standing and consent of instructor.
Introduction to the analysis of animal bones from archaeological sites; exploration of the theoretical and methodological issues that are fundamental to the study of faunal remains and modern zooarchaeology.
Lettor grade only (A-F). (Lec: 3 hrs, Lab 2 hrs)

585. Physical Science Techniques in Archaeology (4)
Prerequisites: Graduate standing and consent of instructor.
Focuses on the application of physical sciences such as physics, chemistry, and geology to archaeological research. Topics may include: dating techniques, paleobotany, paleoecology, and paleoenvironmental reconstruction.
Lettor grade only (A-F).

586/486. Geoarchaeology (3)
Prerequisite: Graduate standing or consent of Instructor.
Identification, analysis, and interpretation of sediments and soils associated with archaeological remains. Laboratories deal with sediment description and chemical analysis; field trips and student projects focus on archaeological applications of these subjects.
(3 hours seminar; 3 hours activity). Letter grade only (A-F).

587/487. Cultural Resource Management (3)
Prerequisite: Graduate standing or consent of instructor.
Introduction to the practice of public archaeology in the United States: historical and legal background; federal, state, and local programs; archaeology and Native Americans; contract archaeology; survey, evaluation, and mitigation projects; professional employment in U.S. cultural resource management.
Lettor grade only (A-F).

588. Advanced Methods in Near Surface Remote Sensing (4)
Prerequisites: Graduate Standing, ANTH 583, and consent of Instructor.
Advanced exploration of the use of near surface geophysical techniques in the study of archaeological deposits: theory and methodology in the use of remote equipment in archeology research; critical evaluation of applications and technological developments.
Lettor grade only (A-F).

591. Preceptorial Reading in Archaeological Science (3)
Prerequisite: Graduate standing.
Training in the problems, principles, and methods involved in the explanation of prehistory within a scientific framework. Meeting times to be arranged.
May be repeated to a maximum of 6 units in different semesters. Lettor grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

592. Research Preparation in Archaeological Science (3)
Prerequisite: Graduate standing.
Training in steps required for conducted research in archaeological science. Consists of development of research questions, research design and proposal.
May be repeated to a maximum of 6 units in different semesters. Credit/No Credit only.

597. Directed Readings in Anthropology (1-3)
Prerequisites: Senior or graduate standing and consent of instructor.
Selected topics in anthropology will be studied in depth. A written report will be prepared.
Lettor grade only (A-F).

600. Seminar in Ethnology and Social Anthropology (3)
Topics of substantive and theoretical importance and their application to research problems. May be repeated to a maximum of 6 units. Lettor grade only (A-F).

620. Seminar in Archaeology (3)
Prerequisites: 6th semester units in archaeological courses or consent of instructor.
Important recent discoveries; contemporary ideas, trends and problems.
May be repeated to a maximum of 6 units. Lettor grade only (A-F).

630. Seminar in Anthropological Linguistics (3)
Prerequisite: Consent of Instructor.
Areas and methods of linguistic study and research; evaluation and intensive scrutiny.
May be repeated to a maximum of 6 units. Lettor grade only (A-F).

675. Applied Anthropology Internship Analysis (3-6)
Prerequisites: ANTH 510, 517, 590.
Guided review and discussion of internship in applied anthropology; hands-on introduction to team analysis and other analytic methods drawn on research conducted during the internship.
Credit/No Credit grading only.

697. Directed Research (1-3)
Prerequisite: Consent of department.
Research in anthropology on an individual basis.
Lettor grade only (A-F).

698. Thesis or Applied Project (1-6)
Prerequisite: Consent of department.
Planning, preparation and completion of a thesis (6 units) or an applied project (3 units) in anthropology.
May be repeated to a maximum of 6 units in the same semester. Lettor grade only (A-F).
The Department of Fine Arts has curricular programs leading to the following undergraduate degrees: (1) Bachelor of Arts (B.A.); (2) Bachelor of Arts (Art History); (3) Bachelor of Arts (Art Education); (4) Bachelor of Fine Arts in eight specializations (Photography, Ceramics, Drawing/Painting, Illustration/Animation, 3-D Media, Fiber/Metal/Wood, Printmaking, Sculpture, Graphic Design).

At the graduate level, the Department of Art regularly admits students into graduate degree programs with concentrations as follows:

1. Master of Arts degree in Art (code ART_MA01) with Concentration in Art Education (32 units)
2. Master of Arts degree in Art (code ART_MA01) with Concentration in Art History (39 units)
3. Master of Fine Arts degree in Art (code ART_MF01) with Concentration in Studio Art (50 units).

Additionally, the Department of Art occasionally accepts students into a program of study leading to the Master of Arts degree in Art (code ART_MA01) with Concentration in Studio Art (33 units).

In all Department of Art graduate degree programs, the student develops a personalized program of study within established curricular parameters, and with the consultation and approval of the student’s Thesis or Project committee. In the MFA, the student develops a personalized program of study within one of thirteen discipline-specific curricular tracks including Ceramics, drawing and Painting tracks, Metals, Illustration/Animation, fibers, Photography, three Printmaking tracks, Sculpture/4D, Visual Communication Design, and Wood.

Graduate degree program duration is contingent upon the number of units completed per semester, and time taken to complete Thesis or Project. The MFA degree structure is designed based upon a 6-semester (3-year) model, though it can be completed in fewer or more semesters. The MA degrees usually are completed in 4 to 8 semesters.

The department also offers a graduate-level Certificate Program in Museum and Curatorial Studies (code ART_CT02) and an interdisciplinary program leading to a Certificate in Biomedical Art (code ART_CT01). Either of these Certificates may be pursued independently, or in combination with a program of study directed toward the achievement of one of the department’s degrees.

The Department of Art may request projects completed by students for class credit to be retained by the department for a short specified period for purposes of promotion and exhibition.

Admission Under Impaction to the Bachelor of Arts in Studio Art

To be eligible for admission to the Option in Studio Art under the Bachelor of Arts (B.A.), applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met all combine to provide an exceptional opportunity and challenge to students seeking meaningful educational experiences and careers in the visual arts.
requirements for admission to the university as a freshman or transfer student. Applicants must have completed at least 60 semester units of baccalaureate-level work applicable toward a CSULB degree prior to the term for which the application is submitted. Eligible applicants will be selected for admission on a space-available basis based on cumulative grade point average.

Admission Under Impaction to the Bachelor of Fine Arts Degree

To be eligible for admission to a Bachelor of the Fine Arts (B.F.A.) program, applicants must demonstrate the following prior to the semester for which the application is submitted. Applicants must have met requirements for admission to the university as a freshman or transfer student. Applicants must have completed at least 60 semester units of baccalaureate-level work applicable toward a degree at CSULB. Students not meeting the minimum GPA requirement may petition for special consideration. Applicants must provide a portfolio of their creative work to the CSULB Department of Art. Your portfolio can be submitted before you enter the Department, but it is highly suggested that students interested in the B.F.A. programs enter the university as a Studio Art major, take between 6 to nine upper division units in the area of specialization, and then submit a portfolio. By doing so you will become acquainted with the Department and the specific requirements for our portfolio review. You only have two chances to apply for a B.F.A. program. By applying early you may use one of your chances before you are ready.

Admission to Baccalaureate Degree Options in Studio Art

The number of applicants to programs in Art usually exceeds the number that can be accommodated. For this reason, the department has been authorized by the California State University to apply supplemental admission criteria. Admission is on a competitive basis, and continuing CSULB students and transfer applicants will be considered equally.

Freshmen applying to the university as Art Education or Art History majors will be admitted to the major if they meet all requirements for admission to the university. Students applying to the B.A. in the Option in Studio Art or to one of the B.F.A. degree options will be admitted as pre-Studio Art majors. Admission as a pre-Studio Art major does not guarantee admission to the major.

Continuing students must apply for admission to the option during the month of November for the following fall or during the month of August for admission for the following spring. Applications must be submitted at such a date so that students can be admitted to an option by the time they reach 60 units.

Transfer applicants must apply during the initial filing period and must designate the major on the application. Students who are not admitted to the major will be admitted to an alternate major if they have listed one on the application. If no alternate major is listed, the student will not be admitted to the university.

Transfer students who qualify for admission to the university will be admitted to the Art Education or Art History major. Students applying for the B.A. in the Option in Studio Art, must meet the criteria for admission to the major. Students applying to a B.F.A. option must supply a portfolio of their creative work to the Department of Art.

Students who are not admitted to the designated major will be admitted to an alternate major if they have listed one on the application. If no alternate major is listed, the student will not be admitted to the university.

Admission Procedures for Change of Major

Currently enrolled students who are undecided or majors in other departments and who wish to apply for admission to degree option programs in art must:
1. Submit a Change of Degree Objective form to the Department of Art Student Services Office during the months of November or August;
2. Students applying for the B.F.A. degree programs in Art must also supply transcripts of college-level academic work attempted, and a portfolio of their creative work.

Undergraduate Programs

Bachelor of Arts in Art

Option in Studio Art (code ART_BA01) (120 units)

Requirements
Lower Division
1. AH 111A, 111B: 3 units 100-level AH
2. 6 units ART 101
3. ART 130, 131, 181, 184, 221
4. ART 132 or 287
5. One course from ART 132, 149, 241, 270, 271, 287
6. One course from ART 251A, 251B, 261, 263, 265

Upper Division
1. 9 units of Art History
2. One course from two of the following programs to total 6 units: Drawing and Painting, Printmaking, Illustration, Photography, Graphic Design;
3. One course from two of the following programs to total 6 units: Ceramics, Fiber, Metal, Sculpture, or Wood;
4. Plus an additional 12 units upper division from one of the following programs: Art History, Art Education, Ceramics, Drawing and Painting, Fiber, Graphic Design, Illustration, Metal, Photography, Printmaking, Sculpture, Wood.

Option in Art History (code ART_BA02) (120 units)

This program is for students who wish to specialize in the study of the history of art.

Requirements
Lower Division: AH 111A, 111B; 3 courses selected from AH 111C, 112, 113A, 113B, 114, 116; ART 130, 151; one course selected from ART 131, 154, 263, or 287; HIST 131, 132.

Upper Division Art History: AH 444, 446, 497; one course selected from: AH 311, 448, 449, 450.
Select three courses from one of the following 6 groups, plus one course from each of the remaining five groups:
IV: AH 411, 430, 436, 439, 441.
V: AH 460, 467, 468, 469, 471A, 470B, 471A, 471B, 471C.
Other: Complete two years of French or German (or other pre-approved foreign language) with an average grade of "B" or better.

Option in Art Education
(code ART_BA03) (120 units)

The Option in Art Education is a four-year degree program for students who wish to become art teachers at the middle and secondary school levels (or art specialists at the elementary level). Completion of this major meets the subject matter competence requirement for the Preliminary Single Subject Credential.

Requirements

Lower Division: AH 111A, 111B; 3 units of 100-level (Non-West) AH; ART 130, 131, 149, 181, 214, 251A, 251B, 287.

Single Subject Art Education Credential
(code 110)

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in Art, prospective art teachers are also required to complete 45 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.ced.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department's Art Education Advisor early to plan their program. Before student teaching in art, students must pass a portfolio review. A passing score on the CBEST is also required. For information concerning requirements for the B.A. program, teacher preparation, as well as the fifth year for the credential, consult the art education advisor.

The Option in Art Education Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Bachelor of Fine Arts Degree

The Bachelor of Fine Arts degree is offered for the student eventually seeking a Master of Fine Arts degree, the position of a professional artist or designer, and for the student seeking a career of teaching studio art within a selected specialization. The B.F.A. degree program is demanding, requiring high quality performance in order to develop the professional competence of talented students toward successful entrance into the professional art field. There are seven professionally-oriented specialized programs leading to the B.F.A. degree.

Option in Art Photography
(code ART_BF01) (132 units)

Requirements

Lower Division: AH 111A, 111B; 3 units 100-level AH; ART 101; ART 130, 131, 149, 181, 214; ART 184 or 261.
Upper Division: AH 400; 3 units from AH 438, 439, 441; 3 units upper-division AH; ART 340, 342A, 405A, 447, 491C, 492V; 6 units ART 478; 5 units ART outside specialization
Track A: ART 444; 6 units from ART 406B, 414, 449; 3 units from ART 349, 436A, 475
Track B: ART 406B, 436A; ART 349 or 436B; 3 units from ART 414, 444, 449

Option in Ceramics
(code ART_BF02) (132 units)

Requirements

Lower Division: AH 111A, 111B; 3 units 100-level AH; ART 130, 131, 181, 251A, 251B, 287, 184 or 261.
Upper Division: ART 341A, 341B, 345A, 345B, 352A, 352B, 451A, 451B, 491A; AH 364 and 9 additional units of Art History only 3 of which may be AH 438, 439 or 441; and 9 units ART outside the specialization.

Option in Drawing and Painting
(code ART_BF03) (132 units)

Requirements

Lower Division: AH 111A, 111B; 3 units 100-level AH; ART 130, 131, 181, 287, 251B, 287, plus one course selected from: ART 251A, 251B, 287, 283.
Upper Division: ART 361, 383, 384, 387, 388
Contemporary Practices Track: ART 438 or 484, 492C, 481, 487; AH 9 units and 9 units ART outside the specialization.
Figurative Track: ART 483, 484, 492F, 492Z; ART 481 or 487;
AH 9 units, 6 units ART outside the specialization.
Capstone: ART 496A, 496B, 491G.

Option in Illustration
(code ART_BF04) (132 units)

Requirements

Lower Division: AH 111A, 111B; 3 units 100-level AH; ART 130, 131, 181, 184, 223, 271, 287.
Upper Division: ART 371A, 372, 383, 482; AH 6 units; 9 units ART outside the specialization.
Animation Track: ART 390, 391, 392, 393, 472, 499F; 6 units from ART 371B, 373, 385, 483.
Illustration Track: ART 321, 371B, 382, 471A; ART 374A or 499F; 6 units from ART 373, 385, 391, 483.

142 • Art • 2009/2010 CSULB Catalog
Option in 3-D Media (Fiber, Metal or Wood) (code ART_BF05) (132 units)
Lower Division: AH 111A, 111B; 3 units 100 level AH; ART 130, 131, 251A or 251B, 261 or 184, 181, 287, 263.
Upper Division: ART 381, 491B; plus one of the following specializations:
Fiber: ART 310, 317, 328A, 429A, 432, 499N; select 3 units from ART 328B, 429B or 430; 6 units AH; ART 333 or 3 additional units AH; and 9 units ART outside the specialization.
Metal: ART 357A, 357B, 358A, 358B, 458A, 458B; select 3 units from ART 355, 356A, 356B, 395B, or 499H; 6 units AH; ART 353 or 3 additional units AH; and 9 units ART outside the specialization.
Wood: ART 354A, 354B, 454A, 454B, 499B for 9 units; 6 units AH; ART 333 or 3 additional units AH; and 9 units ART outside the specialization.

Option in Printmaking (code ART_BF06) (132 units)
Requirements
Lower Division: AH 111A, 111B; 3 units 100 level AH; ART 130, 131, 181, 184, 287, 149 or 241.
Upper Division: ART 370, 376, 377, 378, 379, 381, 475, 480, 491P, 499R; AH 365, 430, and 6 units elective from upper division Art History (AH) plus 12 units ART outside the specialization.

Option in Sculpture (code ART_BF07) (132 units)
Requirements
Lower Division: AH 111A, 111B, 3 units 100-level AH; 6 units ART 101; ART 130, 131, 221, 261, 263; ART 149 or 241; ART 181 or 184; 6 units from ART 132, 149, 181, 184, 223, 241, 251A, 251B, 265, 270, 271, 267.

Option in Graphic Design (code ART_BF08) (132 units)
Requirements
Lower Division: AH 111A, 111B, 3 units 100 level AH; ART 130, 131, 181, 184, 223; ART 132 or 267.
Upper Division: ART 318, 321, 327, 331, 334, 335, 336, 337, 423, 424; Select 6 units from the following: ART 420, 421, 422, 486, 499S; AH 444, and 3 units of Art History (AH); 6 units ART outside the specialization.

Certificate Program in Biomedical Art (code ART_CT01)
The Certificate Program in Biomedical Art is an interdisciplinary program sponsored by the Art and Biological Sciences Departments.
Biomedical art is commissioned principally by (1) hospitals or individual researchers for publication; (2) by publishers and film and television producers serving the biomedical professions; (3) by producers of educational aids for biomedicine. Therefore, proficiency in commercial art and printing procedures including photography and typography is required.
Special permission is not required for a student to pursue the Certificate in Biomedical Art. The student may apply for certification upon completion of the following CSULB course work and conditions:
Requirements
1. A major in art or biology:
2. A 2.75 overall GPA and 3.25 in the major:
3. 34 units as listed: ART 241 (3), 149 (3), 181 (3), 184 (3), 271 (3), 372 (2), 374A (3), 374B (3), 499F (3); and BIOL 200 (4), 208 (4); the BIOL 200 is waived for Biology majors.
Questions may be addressed to: Robin Richardson, Department of Art; richro@csulb.edu (562) 985-4858 or Kelly Young, Department of Biological Sciences; kyoung@csulb.edu (562) 985-6859.

Graduate Programs
Master of Arts in Art (code ART_MA01)
Master of Fine Arts in Art (code ART_MF01)
At the graduate level, the Department of Art offers, and regularly admits students into graduate degree programs with concentrations as follows:
1. Master of Arts degree in Art (code ART_MA01) with Concentration in Art Education (32 units)
2. Master of Arts degree in Art (code ART_MA01) with Concentration in Art History (39 units)
3. Master of Fine Arts degree in Art (code ART_MF01) with Concentration in Studio Art (60 units).
Additionally, the Department of Art offers, and occasionally accepts students into a program of study leading to the Master of Arts degree in Art (code ART_MA01) with Concentration in Studio Art (33 units).
In all Department of Art graduate degrees, the student develops a personalized program of study within established curricular parameters, and with the consultation and approval of the student’s Thesis or Project committee. In the MFA, The student develops a personalized program of study within one of thirteen discipline-specific curricular tracks including Ceramics, Drawing and Painting tracks, Fibers, Illustration/Animation, Mixed Media, Photography, Printmaking tracks, Sculpture, Visual Communication Design, and Wood.

Departmental Review Process
Admission to a degree program at CSULB is a two-part process that requires application to and acceptance by both the University and the Department of Art into a specific degree.

2009/2010 CSULB Catalog • Art • 143
Prerequisites for the Degree Concentrations

NOTE: Courses taken as prerequisites for a graduate degree may not be counted toward the graduate degree program of study.

An applicant who has deficiencies in prerequisites for a concentration, but who in the judgment of the Department of Art can meet those prerequisites with additional preparation specified at time of admission, may be admitted with conditionally classified graduate standing. Students who have deficiencies in prerequisites for a concentration, but who are willing to engage in additional preparation to meet prerequisites, are encouraged to apply.

Art Education Prerequisites

Applicants must complete 36 units of coursework approved by the Art Education faculty, and to include:
- 15 units upper-division units approved by the Art Education faculty
- 9 upper-division units of Art or Education electives
- 12 units Art History (6 must be upper-division)

Applicant must have a minimum 3.0 GPA in prerequisite courses.

Art History Prerequisites

Applicants must complete 36 units of coursework approved by the Art History faculty, and to include:
- 3 units from AH 447 or 547: Historiography of Art History
- 3 units from AH 448, 449, 450, 548, 549, or 550 (theory/criticism courses)
- 9 units additional upper-division Art History
- 9 units upper-division Art or Art History electives
- 12 units (or the equivalent) of foreign language

Applicant must have a minimum 3.0 GPA in prerequisite courses.

NOTE: Art History applicants should have completed at least two years (or a minimum of 12 units) of college-level French or German with an average grade of "B" or better. Students without this preparation are advised that all students accepted for the Art History MA must pass the In-house Foreign Language Exam within the first three semesters of study. (With approval from the Art History faculty, another language may be substituted.)

Studio Art Prerequisites

The Department of Art prefers, but does not require, that Studio Art applicants have undergraduate degrees in art. Application to our graduate programs is competitive and most applicants to the studio programs will have an undergraduate degree in art, many with a BFA in their chosen media. For Studio Art admissions, the part of the application that is given the most weight is the portfolio of work. The Department of Art invites all applicants who feel they have strong portfolios to apply. If faculty feel the application is strong, but the applicant needs additional preparatory work, the Department of Art may admit the applicant with conditionally classified graduate standing, with specific prerequisites stated on a case-by-case basis at the time of admission.

Departmental Application Requirements

January 1 through 31 prior to the fall term for which the applicant seeks admission, applicant must submit departmental application materials as follows:

MA and MFA Prerequisites

An applicant may be accepted if, in addition to having satisfied specific prerequisites set by the Department of Art for each degree concentration, the applicant has satisfied the minimum university standards found in the Admission section of this catalog.

Special Action: In rare and compelling circumstances, an applicant who doesn’t qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the department/college concerned and in the judgment of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to her/his educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.
Art Education: Department of Art, application, statement of purpose, writing sample, portfolio of studio work, transcripts, and two letters of recommendation
Art History: Department of Art, application, statement of purpose, writing sample, transcripts, and two letters of recommendation
Studio Art: Department of Art, application, statement of purpose, portfolio of studio work, transcripts, and two letters of recommendation

A faculty list is available on the website; contact the appropriate professor if you need particular information on a specific program.

Transcripts

When you formally apply to the University, two official (sealed) sets are required; send one to Enrollment Services and one to the Department of Art.

Transfer Units

Transfer units are allowed on a case-by-case basis. With faculty approval, up to 12 post-baccalaureate units from another university may be accepted into the MA degree program and up to 24 units (for example, from a previous MA degree) into the MFA degree program. In the case of an existing MA degree from CSULB with a concentration in Studio Art, up to 30 units may be accepted into the MFA degree.

MA and MFA Degree Requirements

1. A minimum overall GPA of 3.0, with no grade below a "C".
2. Successful fulfillment of the Graduation Writing Assessment Requirement (GWAR) by passing the Writing Proficiency Examination (WPE), usually completed in the first semester in residence at CSULB and required to be fulfilled prior to Advancement to Candidacy. Students unable to pass the WPE may be able to fulfill the requirement by completing a special GWAR course.
3. Successful completion of an Advancement to Candidacy review. Reviews generally occur when a student has completed between one third and one half of the units required for the degree, and require the submission of a comprehensive list of coursework for the degree. Additional advancement requirements:

   • Art Education majors satisfy assigned written topics and prepare an oral defense of their research.
   • Art History majors present a qualifying paper and satisfy the language requirement in either French or German (or an approved substitution).
   • Studio Art majors participate in a group exhibition in the Art Department galleries and present an oral defense of their work.

If all scheduled units for the MA or MFA degree have been completed but the final written component has not been approved and submitted, registration in GS-700 (1 unit, no credit) through University Extension is required in order to maintain enrollment until the semester of graduation. Care should be taken not to exceed the University limit of seven years for all masters' degrees.

Additional information may be found in the "Department of Art Graduate Guidelines," given to each student accepted into a master's program.

Art Education Concentration for the MA

32 units of approved graduate and upper-division units to include:
2 units ART 505A or 505B Research in Art Education
6 units ART 601A and 601B Seminar in Art Education
6 units ART 695 (field problems) or 697 (directed study)
6 units of graduate level Art History beyond the 12 units taken as prerequisites, to complete a cumulative total of 18 units
6 units elective Art, Art Education, or Art History
6 units ART 698A Thesis or Project, with student completing a Thesis, or combination of Project, Project Report and Comprehensive Exam, as culminating experience within degree program.
At least 20 of the 32 units must be 500/600 level courses taken at CSULB.

Art History Concentration for the MA

39 units of approved graduate upper-division units to include:
3 units 546 Art History Methodologies and Writing
9 units AH 597 Seminar in Art History
15 units approved graduate-level or upper-division Art History
6 units approved graduate-level or upper-division Art or Art History
6 units AH 698 Thesis as culminating experience within degree program.
At least 24 of the 30 required units must be 500/600 level courses taken at CSULB.
Graduate-level or upper-division courses in other CSULB departments may be approved as course substitutions with approval of student's Thesis Committee.
Advancement to candidacy is contingent upon satisfactory completion of an approved qualifying paper, and satisfying foreign language proficiency requirements.

Museum and Curatorial Studies Emphasis for the Art History MA

39 units of approved graduate-level or upper-division units to include:
3 units AH 546 Art History Methodologies and Writing
3 units AH 530 Introduction to Curatorial Practicum
3 units AH 531 History of Museums and Exhibitions
3 units AH 539 Art of Mid to Late Twentieth Century
3 units AH 645A Exhibition Practicum
3 units AH 645B Exhibition Practicum
3 units AH 645C Exhibition Practicum
3 units AH 645D Exhibition Practicum
6 units AH 597 Seminar in Art History
3 units AH 597 Seminar in Art History or AH 542 Internship in Museum Studies
6 units AH 698 Thesis as culminating experience within degree program.

Studio Art Concentration for the MA

33 units of approved graduate and upper division units to include:
21 units Art
6 units graduate level Art History
6 units ART 608B Studio Project as culminating experience within degree program.

2009/2010 CSULB Catalog • Art • 145
Studio Art Concentration for the MFA

60 units of approved graduate and upper-division units. At least 36 units must be in 500/600 levels taken at CSULB. Transferred units are allowed on a case-by-case basis. At least 39 units must be in studio courses. No more than 3 units of ART 693 (teaching internship) may be applied to degree.

Students are admitted into discipline-specific tracks. All students take a core of 21 units. Each student takes an additional 39 units of approved coursework according to the track into which the student was admitted. Additional information, expectations, recommendations and guidelines for each track are included in the "Department of Art Graduate Guidelines" given to each student accepted into the MFA Concentration, and available upon request to applicants.

MFA Core Requirements

6 units of graduate-level Art History.
9 units of ART 664 (Graduate Studies: Directed Studio) taken with members of student's Project Committee beginning the first semester to completion of degree, or semester prior to advancement, which ever comes sooner. (Student must continue to enroll in 3 units of ART664 per semester for all semesters between advancement and semester of MFA project.)
6 units of ART 699 (Graduate Studies: MFA Project) taken in the final semester with members of student's Project Committee.

MFA Tracks

In addition to the MFA Core requirements, each MFA student takes 39 additional approved units according to the following discipline-based tracks into which students are admitted. NOTE: All 597, 598 and 599-numbered courses are studio-oriented variable-topic graduate courses, each with a discipline-specific focus, but with specific topic and structure varying from term to term.

Ceramics Track:
12 units from any ART 597K, 598K, 599K (Ceramics): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); 15 units approved graduate-level or upper-division coursework.

Drawing and Painting Track:
12 units from any ART 597K, 598K, 599K (Painting): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); 682 (seminar in professional practice); 15 units approved graduate-level or upper-division coursework.

Fiber Track:
12 units from ART 597N, 598N, 599N (Fiber): 6 units from any ART 597, 598 or 599 course; ART 681 (seminar in theory/ criticism), 682 (seminar in professional practice); 15 units approved graduate-level or upper-division coursework.

Illustration/Animation Track:
12 units from ART 597F, 598F, 599F (Illustration/Animation): 6 units from any ART 597, 598 or 599 course; ART 681 (seminar in theory/criticism), 682 (seminar in professional practice); 15 units approved graduate-level or upper-division coursework.

Metal Track:
12 units from ART 597J, 598J, 599J (Metal): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); 15 units approved graduate-level or upper-division coursework.

Photography Track:
12 units from ART 597V, 598V, 599V (Photography): 6 units from any ART 597, 598 or 599 course; 6 units ART 680 (interdisciplinary critique); ART 681 (seminar in theory/criticism); 682 (seminar in professional practice); 3 units from ART 536A (video), 550 (intermediad/installation), or 680 (interdisciplinary critique); 6 units approved graduate or upper-division coursework.

Printmaking Track A:
12 units from ART 597R, 598R, 599R (Printmaking): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); 15 units approved graduate-level or upper-division coursework.

Printmaking Track B:
12 units from ART 597R, 598R, 599R (Printmaking): 6 units from any ART 597, 598 or 599 course; 3 units from ART 597D (Drawing), 597L (Life Drawing and Painting) or 597F (Illustration/Animation); ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); 3 units from ART 373, 384 or 481 (drawing courses); ART 481 or 494 (drawing courses); 3 units from ART 492F (life drawing), 499F (Illustration) or 693 (teaching internship); 3 units approved graduate-level or upper-division coursework.

Printmaking Track C:
12 units from ART 597R, 598R, 599R (Printmaking): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); ART 579 (Printmaking; Photo and Digital Processes), ART 540 or 549 (photography or computer art); 3 units from ART 449 (experimental photography), 506A (digital imagery); 693 (teaching internship); 3 units from ART 508B (digital imagery), 573 (Seminar in Photo-based Art); 3 units from ART 499 (special studies), 514 (documentary photography) or 680 (interdisciplinary critique).

Sculpture/4D Track:
12 units from ART 597O, 598O, 599O (Sculpture/4D): 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism), 682 (seminar in professional practice); 3 units from ART 536A (video), 550 (intermediad/installation), or 680 (interdisciplinary critique); 9 units approved graduate or upper-division coursework.
Visual Communication Design Track:
12 units from ART 597S, 598S, 599S (Visual Communication Design); 6 units from any ART 597, 598 or 599 course; ART 683 (seminar in theory/ criticism), 684 (seminar in professional practice); 15 units approved graduate-level or upper-division coursework.

Wood Track:
12 units from ART 597B, 598B, 599B (Wood); 6 units from any ART 597, 598 or 599 course; ART 681 or 683 (seminars in theory/criticism); ART 682 or 684 (seminars in professional practice); 15 units approved graduate-level or upper-division coursework.

Graduate Certificate in Museum Studies (code ART_CT02)
The Certificate Program in Museum Studies is primarily directed toward graduate students in Art History and the visual arts, but does not exclude students in other fields. The specifically tracked course of study has an emphasis placed primarily on contemporary art.

A student may pursue the Certificate Program in Museum Studies as a program of study in itself, or in combination with a program of study directed toward the achievement of one of the department's degrees. A student may, with approval of both the Museum Studies Program and the student's Project or Thesis Committee, count up to 15 units of coursework toward both the degree and the certificate.

Admission to the program is by permission of the Program faculty and the head of the Art History Program. Applicants wishing to pursue the Certificate Program in Museum Studies should apply for the desired degree program during the regular Department of Art graduate application window of January 1 through 31, and should indicate interest in pursuing the Certificate Program in Museum Studies concurrently.

Applicants wishing to pursue the Certificate Program in Museum Studies separate from a degree program should contact the Department of Art Graduate Advisor.

Requirements
A total of 30 units to include:
3 units AH 530 Introduction to Curatorial Practices
3 units AH 531 History of Museums and Exhibitions
3 units AH 542 Internship in Museum Studies
3 units AH 539 Art of Mid to Late Twentieth Century
3 units AH 545A Exhibition Practicum
3 units AH 545B Exhibition Practicum
3 units AH 545C Exhibition Practicum
3 units AH 545D Exhibition Practicum
3 units AH 597 Seminar in Art History
3 units from AH 547 or 550 (historiography or theory/ criticism mid-twentieth century to present), or approved substitution.

Foundation Art
The classes listed below are the foundation art classes that are required of most studio art majors. When foundation classes are chosen, be aware of the prerequisites; do not take the classes out of order.
AH 111A,B,C Foundation Art History I, II, III
ART 130 Foundation Two-Dimensional
131 Foundation Three-Dimensional
132 Foundation Color Theory
149 Foundation Computer Art
181 Foundation Drawing
184 Foundation Life Drawing

Art Courses (ART)

LOWER DIVISION
10. Art Matrix (1)
Participation in art and design exhibitions, openings, lectures and special events.
Required of art majors. Must be repeated to a maximum of 5 units in different semesters. Those units do not count toward graduation. Credit/no credit grading.

101. Artists in Their Own Words (3)
Forum for students to hear first hand from artists and arts scholars discussing and contextualizing their work within their contemporary field. Includes multiple lectures by visitors and additional class lectures providing further context. Credit/no credit grading only. May be repeated up to 12 units in different semesters.

110. Introduction to the Visual Arts (3)
Prerequisite or corequisite: A General Education Foundation class. Exploration of meanings, purposes, styles, materials and forms of art and architecture. Multicultural perspective. Development of awareness through examination and comparison of art and artifacts, past and present.

130. Foundation Two-Dimensional (3)
Foundation course required to be taken by all majors within the Department of Art prior to 200 level or above art courses. Exploration and application of principles, components and terminology of two-dimensional design via relational, problemsolving and visual vocabulary exercises. Letter grade only (A-F). (6 hours lab)

131. Foundation Three Dimensional (3)
Foundation course required to be taken by all studio and art education majors within the Department of Art prior to 200 level or above art courses. Focus on structural, material, and compositional concerns involved in dealing with three-dimensional form. Letter grade only (A-F). (8 hours lab)

132. Foundation Color Theory (3)
Prerequisite: OR corequisite: ART 130
Foundation course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Focus on visual and aesthetic interactions of color. (Not open to students with credit for ART 182.) Letter grade only (A-F). (8 hours lab)
149. Foundation Computer Art (3)
Prerequisites: ART 130.
Foundation course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Project-based exploration of art related digital imaging, layout, and vector software, and introduction to interactive and web-based media. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.) Not open for credit to students with credit in ART 395A.

181. Foundation Drawing (3)
Foundation course intended to be taken by all majors within the Department of Art prior to 200-level or above art courses. Introduction to drawing with emphasis on perspective, light, shadow, and volume in composition using a variety of media. Letter grade only (A-F). (6 hrs. lab.)

184. Foundation Life Drawing (3)
Prerequisites: ART 181.
Foundation course required in the BA Studio Art. Also satisfies requirements or choices in all other undergraduate degrees in the Department of Art. Introduction to drawing from the human figure. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

221. Shop Orientation (1)
Familiarization with student workshop facilities, specific instruction on safety procedures and methods in use of tools and equipment. Safety lectures and technical demonstrations followed by hands-on experience. Projects familiarize students with machinery and facilitate the acquisition of basic woodworking skills. Credit/No Credit grading only. (2 hours activity)

223. Introduction to Typography (3)
Prerequisite: For Art majors: ART 130, 181. For Design majors: DESN 120A and 132A.
Introductory course in the fundamentals of typographic form. Close examination of the architecture of letterforms and alphabet construction. Letter grade only (A-F). (6 hours lab) Course fee may be required.

241. Introduction to Photography (3)
Prerequisites: ART 130, 181.
Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in some BFA degrees. Fundamentals of black-and-white photography: camera, darkroom techniques, photographic vision, critical issues. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

251A. Introduction to Ceramics: Handbuilding (3)
Prerequisites/Corequisites: ART 131.
Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art Education and some BFA degrees. Includes slab, coil, and molding techniques: glazing, firing. Letter grade only (A-F). (6 hrs. lab.)

251B. Introduction to Ceramics: Wheel Throwing (3)
Prerequisites/Corequisites: ART 131.
Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art Education and some BFA degrees. Development of forms with potters wheel, glazing, and firing. Letter grade only (A-F). (6 hrs. lab.)

261. Introduction to Life Sculpture (3)
Prerequisites/Corequisites: ART 131, 181, or consent of instructor. Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in most BFA degrees. Modeling from the human figure with emphasis on composition. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

263. Introduction to Sculpture (3)
Prerequisites: ART 131 or consent of instructor. Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art History and most BFA degrees. Exploration of art in three and four dimensions. Letter grade only (A-F). (6 hrs lab)

265. Introduction to Fiber (3)
Prerequisites: ART 130, 131
Introductory course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees. Introduction to mixed media and fiber/textile materials, processes and approaches including surface design, papermaking, weaving, hand-construction. Letter grade only (A-F). (6 hours lab)

270. Introduction to Printmaking (3)
Prerequisite: ART 181
Introductory course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees. Exploration of multiple printmaking processes and possibilities for producing art in multiples, variations, and unique works. Focus on non- toxic approaches. Letter grade only (A-F). (6 hours lab.)

271. Introduction to Rendering (3)
Prerequisite: ART 181, 130.
Introductory course satisfying a choice between requirements in the BA Studio Art. Satisfies requirements or choices in some BFA degrees. Graphic visualization for convincing representation. Letter grade only (A-F). (6 hrs. lab.)

287. Introduction to Painting (3)
Prerequisites: ART 130, 181
Introductory course satisfying a choice between requirements in the BA Studio Art (Students choose from a group of courses). Also satisfies requirements or choices in BA Art Education, BA Art History, and most BFA degrees. Introduction to painting problems using opaque media. Letter grade only (A-F). (6 hrs. lab.)

Art Education
(ART 407 and 499P acceptable for M.A., Art Education Specialization)
300. Art, Adolescents, and the Child
301. Cross-Cultural Perspectives in Art Education
305. Art Disciplines and New Technology
407. Art Practicum
412/512. Aesthetic Theories and Art Education
408/508. Historical Perspectives in Contemporary Art Education
415. On-Site Studies in Art Education
499P. Special Studies in Art Education

### Museum Studies

- AH 431/431. History of Museums and Exhibitions
- 432/332. Museum Practices
- 499Q. Special Studies in Museum Studies

### Photography

- ART 340. Intermediate Photography
- 342A. Color Photography
- 409A. Digital Imaging for the Arts
- 409B. Advanced Digital Imaging for the Arts
- 414/514. Documentary Photography
- 444. Advanced Black and White Photography
- 447. Photography Studio Specialties
- 449. Experimental Practices in Photography
- 473/573. Seminar in Photo-Based Art
- 491C. Photography – Senior Project
- 499V. Special Studies in Art Photography

### Printmaking

- ART 370. Printmaking
- 376. Printmaking: Relief Printing
- 377. Printmaking: Silkscreen
- 378. Printmaking: Etching
- 379. Printmaking: Lithography
- 475/575. Printmaking: Photo and Digital Processes
- 480/580. Printmaking: Monotype/Multiple Print
- 491P. Printmaking: Senior Project
- 499V. Special Studies in Printmaking

### Sculpture

- ART 360A. Sculpture: Intermediate
- 360B. Sculpture: Intermediate
- 361. Sculpture from Observation
- 362A. Sculpture: Mold Making and Casting for Foundry
- 362B. Sculpture: Mold Making and Casting with Reusable Molds
- 363. Sculpture: Carving and Fabrication
- 364. Sculpture 4D: Electronics, Mechanics, Kinetics
- 435A/535. Sculpture 4D: Video Art
- 435B/535. Sculpture 4D: Video Art
- 450A. Sculpture 4D: Intermedia/New Genres
- 450B. Sculpture 4D: Intermedia/New Media
- 460A/B. Sculpture: Advanced
- 461. Sculpture from Observation: Advanced
- 491F. Sculpture Senior Project
- 499M. Special Studies in Life Sculpture
- 499O. Special Studies in Studio Sculpture

### Illustration / Animation

- ART 371A. Illustration
- ART 371B. Illustration
- ART 372. Anatomy for Artists
- ART 373. Costume Figure Drawing
- ART 374A. Biomedical Illustration
- ART 374B. Biomedical Rendering
- ART 352. Production Fine Art
- ART 390. Drawing Figures in Context
- ART 391. Animation 1
- ART 392. Animation 2
- ART 393. Character Design
- ART 416/516. Animation 3
- ART 417/517. Animation 4
- ART 426/526. Computer Animation 1
- ART 427/527. Computer Animation 2
- ART 471A. Advanced Illustration
- ART 471D. Advanced Illustration
- ART 472/572. Storyboarding for Film and Television
- ART 476/576. Experimental Animation 1
- ART 478/578. Experimental Animation 2
- ART 492/592. Sequential Imaging
- ART 499F. Special Studies in Illustration

### Metal

- ART 355. Enameling
- 356. Jewelry Casting
- 357A-B. Beginning Metals and Jewelry
- 358A-B. Metalsmithing
- 359A. Architectural Metalwork and Blacksmithing
- 359B. Sculptural Metalwork
- 458A-B. Advanced Metalsmithing/Jewelry and Enameling
- 491B. Senior Project
- 499I. Special Studies in Metalsmithing and Jewelry
300. Art, Adolescence, and the Child (3)
Experiences in self-expression from the California Visual and Performing Arts Framework while addressing children’s artistic and aesthetic development. Following state content standards, students develop aesthetic perception, learn skills for talking about art, and gain understanding in historical and cultural contexts.
Letter grade only (A–F). Course fee may be required. (6 hrs. lab.)

301. Cross Cultural Perspectives in Art Education (3)
Prerequisites: Completion of 12 units of Art Foundation.
Application of the state content standards as written in the California Visual and Performing Arts Framework and reflecting racial, ethnic, linguistic, gender, sexual, cultural and cross-cultural perspectives.
Letter grade only (A–F). A minimum of 16 hours of community service learning required. (6 hrs. lab.)

305. Art Disciplines and New Technology (3)
Prerequisites: Completion of 12 units of Art Foundation.
Develops skills in making and talking about art through interrelating art production with art criticism, cultural-historical connections, and philosophical aesthetics. Emphasizes newer art forms and technology, including video and computer, providing additional approaches for the artist and art educator.
Letter grade only (A–F). Course fee may be required. (6 hrs. lab.)

316. Fiber: Pattern Design and Printing (3)
Prerequisites: ART 130, 131, 181, 238; 6 units from AH 111A, 111B.
Variety of design concepts for both hand and commercial application of pattern to textiles and other surfaces. To include pattern system design, stamping, and silkscreen printing.
Letter grade only (A–F). (6 hrs. lab)

317. Fiber: Textile Dyeing (3)
Prerequisites: ART 130, 131; AH 111A, 111B.
Exploration of a variety of design concepts and dye processes to include natural and chemical (acid and fiber reactive) dye technology using discharge, shibori resist, batik, and direct painting techniques.
Letter grade only (A–F). Not open for credit to students with credit in ART 327F. (6 hrs. lab.)

318. TYPE II: Intermediate Typography (3)
Prerequisites: For Art majors: ART 150, 151, 181, 184, 223, 152 or 257, AH 111A, 111B or consent of instructor. For Design majors: DESN 120A and 120B.
Focus on the compositional use of type and its relationship to issues of visual hierarchy, readability and page structure. Students will continue their exploration of typography as an expressive visual form.
Letter grade only (A–F). Course fee may be required. (6 hrs. lab.)

320. Practical and Theoretical Issues in the Visual Arts (3)
Focus on developments in art of 60s through present. Consideration of factors that shape the face of contemporary art. Includes lectures, slide presentations, screenings and guest lectures from artists.
Letter grade only (A–F). Not open for credit to students with credit in ART 320A. (6 hrs. lab.)

321. Graphic Design I: Introduction to Graphic Design (3)
Prerequisites: ART 130, 131, 181, 184, 223; 132 or 257; AH 111A, 111B
Introductory course, exploring formal constructs of combining type and image and of image creation. Enhance understanding of problem definition and concept development. Explore the relationships of form to content.
Not open for credit to students with credit in ART 322A. Letter grade only (A–F). (6 hrs lab) Course fee may be required.

327. Graphic Design II: Intermediate Graphic Design (3)
Prerequisites: ART 223, 318, 321
Intermediate course, developing formal and conceptual skills using type and image, learning fundamentals of prepressing art for print. Course requires student-owned laptop computer. See Department of Art website for current laptop hardware and software specifications.
Letter grade only (A–F). (6 hrs lab)

328A. Fiber and Mixed Media: Sculptural Forms (3)
Prerequisites: ART 150, 151, AH 111A, 111B.
Exploration of concepts and materials using non-loom textile techniques. Development from 2-D relief surfaces to full 3-D forms. May include basic fiber structures of stitching, wrapping, felting, papermaking, twining, knotting, crochet, and coiling.
Letter grade only (A–F). (6 hrs. lab.)

328B. Fiber and Mixed Media: Sculptural Forms (3)
Prerequisites: ART 328A.
Designed to strengthen a working understanding on non-loom fiber structures. Emphasis on development of personal expression within media.
Letter grade only (A–F). (6 hrs. lab.)

331. Advertising I: Introduction to Concept Development (3)
Prerequisites: ART 130, 131, 181, 184, 223, 318, 321, 132 or 257; AH 111A, 111B.
Introduction to learning how to think more conceptually through creating print ads primarily by understanding the foundations of setting an objective, planning a creative strategy, identifying a target; and by learning various ways to think creatively.
Letter grade only (A–F). (6 hrs. lab.)

332. Graphic Design: Professional Preparation (3)
Prerequisites: ART 318, 321, 327, 331
Engages students into the profession of Graphic Design, including portfolio and resume development, presentations, interview skills, pricing and negotiating, ethical guidelines, and project organizational skills.
Not open for credit to students with credit in ART 324. Letter grade only (A–F). (6 hrs. lab.)

333. Behind the Art Scene (3)
Prerequisites: AH 111A, 111B, 3 units 100 level AH
Examination of factors influencing the development and understanding of contemporary art focusing on examples in art from the mid-twentieth century to the present.
Letter grade only (A–F)

334. Graphic Design III: Exploration and Experimentation (3)
Prerequisite: BFA Graphic Design major or consent of instructor.
Advanced design course, examining and creating traditional, alternative and experimental solutions across a variety of media. Course requires student-owned laptop computer. See Department of Art website for current laptop hardware and software specifications.
Not open for credit to students with credit in ART 323. Letter grade only (A–F). (6 hrs. lab.)

2009/2010 CSULB Catalog • Art • 151
335. Advertising II: Intermediate Concept Development and Art Direction (3)
Prerequisites: AFA Graphic Design major or consent of instructor. Development of concept and design advertising projects that are strategically sound, creatively unexpected, innovative and of portfolio quality. Course requires student-owned laptop computer. See Department of Art website for current laptop hardware and software specifications.
Not open to credit to students with credit in ART 329. Letter grade only (A-F). (6 hrs. lab.)

336. Graphic Design IV: Development and Analysis (3)
Prerequisites: ART 321, 334, 335 or consent of instructor. Learn and practice in-depth research and analytical procedures that establish visual conception development and create systematic applications design. Course requires student-owned laptop computer. See Department of Art website for current laptop hardware and software specifications.
Not open to credit to students with credit in ART 322B. Letter grade only (A-F). (6 hrs. lab)

337. Graphic Design V: Packaging Design (3)
Prerequisites: ART 321, 334, 335 or consent of instructor. Materials, processes and the design of packaging. Course requires student-owned laptop computer. See Department of Art website for current laptop hardware and software specifications.
Not open to credit to students with credit in ART 325. Letter grade only (A-F). (6 hrs. lab)

340. Intermediate Photography (3)
Prerequisites: ART 130, 241, 181, 184, 287; 6 units from AH 111A, 111B.
More advanced black and white darkroom and camera work. An introduction to the view camera as well as the development of a body of work.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

341A. Intermediate Ceramics: Handbuilding (3)
Prerequisites: ART 130, 131, 251A, 181; 6 units from AH 111A, 111B.
Design problems with handbuilt ceramic forms with emphasis on surface.
Letter grade only (A-F). (6 hrs. lab.)

341B. Intermediate Ceramics: Wheel Throwing (3)
Prerequisites: ART 130, 131, 251B, 181; 6 units from AH 111A, 111B.
Design problems with wheel-thrown ceramic forms with emphasis on surface.
Letter grade only (A-F). (6 hrs. lab.)

342A. Color Photography (3)
Prerequisites: ART 340.
Survey of current color materials and processes with emphasis on exposure, developing and printing. Contemporary approach to color photography will be stressed.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

343A. Ceramics Sculpture (3)
Prerequisites: ART 341A.
Advanced studies in ceramic sculpture.
Letter grade only (A-F). (6 hrs. lab.)

343B. Advanced Wheel Throwing (3)
Prerequisites: ART 341B.
Advanced studies in ceramic form employing the potter's wheel.
Letter grade only (A-F). (6 hrs. lab.)

349. Computer Art (3)
Prerequisites: ART 149; 6 units from AH 113A, 113B, 111A, 111B.
Basic theory and hands on use of microcomputers employing graphics in "Paint Programs" with color handcopy output and animation production on video tape. Emphasis on computer graphic applications in students' individual studio art disciplines.
Letter grade only (A-F). Course fee may be required. Not open for credit to students with credit in ART 349B. (6 hrs. lab.)

352A. Ceramics: Glaze Technology (3)
Prerequisites: ART 130, 131, 251A or 251B, 181; 6 units from AH 111A, 111B.
Nature of raw materials as they relate to the development of clay bodies and ceramic glazes.
Letter grade only (A-F). (6 hrs. lab.)

352B. Ceramics Plaster Shop (3)
Prerequisites: ART 130, 251A or 251B, 181; 6 units from AH 111A, 111B.
Use of plaster molds for making ceramic art including press molds, slip casting, and jiggering.
Letter grade only (A-F). (6 hrs. lab.)

354A. Introduction to Wood (3)
Prerequisites: ART 130, 131, 181, 221; 6 units from AH 111A, 111B.
Introduction to tools, techniques, and concepts used in making of handcrafted wood objects. Basic shaping techniques of carving, joinery, and construction with intent of understanding character and language of wood.
Letter grade only (A-F). (6 hrs. lab)

354B. Intermediate Wood (3)
Prerequisites: ART 130, 151, 181, 221; 6 units from AH 111A, 111B.
Intermediate study of tools and processes of making complex wooden structures. Layout techniques, joinery methods, and non-rectilinear form are explored in greater detail.
Letter grade only (A-F). (6 hrs. lab)

355. Enameling (3)
Techniques, materials, and concepts of enameling on metal. Introduction to tools and enameling techniques associated with making enameled metal objects. Emphasis on exploration of characteristics of enameled metal objects, stressing individual advancement of interest and expression.
Letter grade only (A-F). Course fee may be required. May be repeated once for credit. (6 hrs. lab.) Not open for credit to students with credit in ART 355A.

356. Jewelry Casting (3)
Prerequisite: ART 130, 131, 181; 6 units from AH 111A, 111B; or consent of instructor. Design and creation of jewelry through lost-wax casting techniques and processes.
Course fee may be required. May be repeated to a maximum of 6 units. (6 hrs. lab.)

357A-B. Beginning Metals and Jewelry (3-3)
Prerequisites: For ART 357A: ART 130, 131, 181, 287; 6 units from AH 111A, 111B.
For ART 357B: ART 357A.
Design and creation of jewelry.
Letter grade only (A-F). Course fee may be required. (0 hrs. lab.)

358A. Metalsmithing (3)
Prerequisite: ART 357A.
Design and creation of flatware and hollowware.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)
358B. Metalsmithing (3)
Prerequisites: ART 357A.
Design and creation of flatware and hollowware.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

359A. Architectural Metalwork and Blacksmithing (3)
Prerequisite: ART 130, 131, 181; 6 units from AH 111A, 111B, 111C.
Techniques, materials, and concepts of metal craft for developing
art forms in larger scale and in architectural context. Hot forging
and fabricating with ferrous metals. Basic techniques of cutting,
forming, joining, welding, and surface design of metals. Making of
tools. May be repeated to a maximum of 6 units. Course fee may be
required. (6 hrs. lab.) Letter grade only (A-F).

359B. Sculptural Metalwork (3)
Prerequisite: ART 130, 131, 181; 6 units from AH 111A, 111B, 111C.
Introduction to metalworking and construction techniques in
the design and creation of sculptural form and composition in metal on
an architectural scale. May be repeated to a maximum of 6 units. Course fee may be
required. (6 hrs. lab.) Letter grade only (A-F).

360A. Sculpture: Intermediate (3)
Prerequisites: ART 130, 131, 181, 183; 6 units from AH 111A, 111B, 111C
or consent of instructor.
Exploration and refinement in wide range of sculptural techniques
and strategies. Introduction to installations and public work.
Some work will be with time based kinetic art. Course will include
introduction to 3-D art theory.
(6 hrs. lab.) Letter grade only (A-F).

360B. Sculpture: Intermediate (3)
Prerequisites: ART 130 or consent of instructor.
Exploration and refinement in a wide range of sculptural
techniques and strategies. Introduction to installations and public work.
Some work will be with time based kinetic art. Will include
introduction to 3-D art theory.
(6 hrs. lab.) Letter grade only (A-F).

361. Sculpture from Observation (3)
Prerequisites: ART 130, 131, 181, 183; 6 units from AH 111A, 111B, 111C
Intensive study in observation-based figurative/representational
sculpture. Emphasis on hand forming. Introduction of mold and
casting techniques and direct plating process.
Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

362A. Sculpture: Mold Making and Casting for Foundry (3)
Prerequisites: ART 130, 131, 181, 183; 6 units from AH 111A, 111B, 111C
Exploration of modeling positive forms, creating ceramic-shell
molds and sand molds, and casting, finishing and patinating works in
metal.
(6 hrs. lab) Letter grade only (A-F). Course fee may be required.

362B. Sculpture: Mold Making and Casting with Reusable Molds (3)
Prerequisites: ART 130, 131, 181, 183; 6 units from AH 111A, 111B, 111C
Exploration of the use of plaster and flexible molds for reproduction
of forms in multiple.
(6 hrs. lab) Letter grade only (A-F).

363. Sculpture: Fabrication and Carving (3)
Prerequisites: ART 130, 131, 181, 183; 6 units from AH 111A, 111B, 111C, or consent of instructor.
Exploration of fabrication using a number of materials, such as
metal, wood, fabric, and objects, along with carving techniques in
both traditional and non-traditional materials. Emphasis will be on
techniques, personal content, and form.
(6 hrs. lab.) Letter grade only (A-F).

364. Sculpture: Electronics, Mechanics, Kinetics (3)
Prerequisites: AH 111A, 111B; ART 130, 131; ART 261 or 263; or
consent of instructor.
Exploration of basic electronics, mechanics, microcontroller
interface, and simple software coding for the creation of works of
art. Consideration of form, movement, light, sound, behavior, and
interactivity.
(6 hrs. lab.) Letter grade only (A-F).

365. Media Design: Motion Graphics (3)
Prerequisites: ART 327 or consent of instructor.
Learning the essentials of theory, practice, visual and verbal
vocabulary of moving forms. Time, space, image and audio will be
emphasized within the context of concept development and design
aesthetics.
Not open for credit to students with credit in ART 385A. Letter grade
only (A-F). (6 hrs. lab.) Course fee may be required.

366. Media Design: Web and Interactive Design (3)
Prerequisites: ART 327 or consent of instructor.
Develop skills and principles for design for non-linear environments.
Students learn to conceptually, theoretically, and aesthetically,
develop web standards, information progress, usability, and
accessibility.
Not open for credit to students with credit in ART 360B. Letter grade
only (A-F). (6 hrs. lab.) Course fee may be required.

370. Printmaking (3)
Prerequisites: ART 130, 131, 181, 287; 6 units from AH 111A, 111B, 111C
Studio course exploring a range of printmaking techniques and
imagery, selected from the areas of etching, lithography, silkscreen,
relief and monoprinting.
(6 hrs. lab.) Letter grade only (A-F).

371A/B. Illustration (3,3)
Prerequisites/Corequisites: For ART 371A: ART 130, 131, 181, 184,
287; 6 units from AH 111A, 111B, 111C. For ART 371B: ART 223 and
271 as prerequisite or corequisites; 371A.
Editorial and advertising drawing, professional media, skills and
techniques survey.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

372. Anatomy for Artists (3)
Prerequisites: ART 130, 131, 181, 184; 6 units from AH 111A, 111B, 111C
Skeletal and muscle structure emphasizing the development of skill in
depicting the human figure.
Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

373. Costumed Figure Drawing (3)
Prerequisites: ART 371A, 372; 6 units from AH 111A, 111B, 111C
Drawing from costumed models with props and controlled lighting.
Emphasis on development of “staging.” Manipulation of composition,
light, shadow, value, color, proportion, and scale are explored to
achieve mood, gesture, drama, and attitudes related to human
reactions, situations and characters.
(6 hrs. lab.) Course fee may be required. Letter grade only (A-F).

374A/B. Biomedical Rendering (3,3)
Prerequisites: ART 130, 184, 287; 6 units from AH 111A, 111B, 111C;
or consent of instructor.
Introduction to and practice in techniques of descriptive drawing and
photorealistic reproduction of drawing. Emphasis on skill.
(6 hrs. lab.) Letter grade only (A-F).
Art Courses (ART)

375. Art and Social Action: A Global Perspective (3)
Prerequisite: Upper division status.
Combines art and sociology to examine the interconnections among global processes and critical global social problems. Includes the theoretical frameworks to underpin the gender, racial, and ethnic components of these problems, and art and human agency in advancing social change.

376. Printmaking: Relief Printing (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Instruction in relief printing techniques and image development, including woodcut, wood engraving, linocut, collagraphs and alternative print surfaces. In black and white and color.
(6 hrs. lab.) Letter grade only (A-F).

377. Printmaking: Silkscreen (3)
Prerequisites: ART 130, 181, 184; 6 units from AH 111A, 111B.
Instruction in silkscreen printing techniques and image development, including resist, paper, film, emulsion and alternative stencil methods.
(6 hrs. lab.) Letter grade only (A-F).

378. Printmaking: Etching (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Instruction in intaglio printing techniques and image development, including etching, engraving, dry-point, aquatint and alternative photomaking methods. In black and white and color.
(6 hrs. lab.) Letter grade only (A-F).

379. Printmaking: Lithography (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Instruction in stone lithography techniques and image development, including crayon drawing, flats, washes, transfers and alternative drawing methods. In black and white and color.
(6 hrs. lab.) Letter grade only (A-F).

381. Intermediate Drawing (3)
Prerequisites: ART 130, 181, 184; 6 units from AH 111A, 111B.
Problem and concept in drawing using a variety of media.
(6 hrs. lab.) Letter grade only (A-F).

382. Production for Fine Arts (3)
Prerequisites: ART 223 or consent of instructor.
Exploration of printing and reproduction processes related to needs of artist, illustrator, and museum professional. Introduction to skills and vocabulary necessary for preparation of art for print and electronic media. Emphasis on interaction with various commercial production professionals.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

383. Life Painting (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Painting from the human figure with emphasis on representing form in space, structure, color, value, and composition.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

384. Intermediate Life Drawing (3)
Prerequisites: ART 130, 181, 184; 6 units from AH 111A, 111B.
Continued study in drawing from the human figure from direct observation.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

385. Watercolor Painting (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Nature and use of the watercolor media.
(6 hrs. lab.) Letter grade only (A-F).

387. Painting (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Problems and concepts in space, form, structure, color and content in studio painting.
(6 hrs. lab.) Letter grade only (A-F).

388. Color Theory and Composition (3)
Prerequisites: ART 130 and 6 units selected from AH 111A, 111B.
Focuses on visual and aesthetic interactions of color as portrayed to painting. Utilizes theories of colorists such as Itten, Alberts, Hofmann to study distinct color properties and functions. Combines lecture, demonstration, and critique with hands-on exploration, problem solving.
Not open for credit to students with credit in ART 182. Letter grade only (A-F). (6 hours lab)

389. Materials and Techniques of Drawing and Painting (3)
Prerequisites: ART 130, 181, 184, 287; 6 units from AH 111A, 111B.
Theory and practice in the craft of drawing and painting.
Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters. (6 hrs. lab)

390. Drawing: Figures in Context (3)
Prerequisites: ART 371A or permission of instructor.
Drawing from life based on the nude and draped human form and animal forms. Focus on short pose gestural drawing, emphasizing dramatic exaggeration of form and shape, movement, body language and character.
(6 hours lab) Course fee may be required. Letter grade only (A-F).

391. Animation 1 (3)
Prerequisite: ART 371A or consent of instructor.
Introduction to basic principles of traditional hand-drawn animation and creation of basic movement cycles using specific coordinating computer software. Focus on elements of weight, movement, timing and exaggeration. Provides an overview of alternative approaches to animation.
Not open to students with credit in ART 391A. Letter grade only (A-F). (6 hours lab) Course fee may be required.

392. Animation 2 (3)
Prerequisite: ART 391
Continued study of basic principles of traditional hand drawn animation and alternative approaches learned in ART 391. Focus on weight, movement, timing, exaggeration, dramatic staging, and narrative structure. Provides further development of animating skills. Specific coordinating computer software is used.
Not open for credit to students with credit in ART 391B. Letter grade only (A-F). (6 hours lab) Course fee may be required.

393. Character Design (3)
Prerequisites: ART 371A or Permission of Instructor
Introduction to basic principles of character design. Overview of stylistic approaches for commercial and alternative applications. Focus on creating original and believable characters with drawing and use of relevant computer software.
(6 hours lab) Course fee may be required. Letter grade only (A-F).

406A/506A. Digital Imagery for the Arts (3)
Prerequisites: ART 149, 340, or consent of instructor.
Examination of digital imaging through Adobe Photoshop software. Emphasis on relationship of digital imaging to photography. Exercises to develop skills, strategies and fluency for working in digital media. Concentration on theory of media and representation as well as individual projects.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.
406B/.506B. Advanced Digital Imagery for the Arts (3)
Prerequisites: ART 406A or 506A, 444.
Exploration of theory and practice of digital imaging and advanced
techniques. Emphasis on multimedia and individual projects.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.
407. Art Practicum (3)
Prerequisite: Completion of 12 units of Art Foundation.
Enrollment in any major; attitude and skill development for production, evaluation, and
appreciation of visual arts. Consideration for art processes and products in an
ethically diverse society. Inquiry methods of artists, critics, historians, and aestheticians examined for active learning.
Art Education B.A., Portfolio address.
Course fee may be required. (8 hrs. lab) Letter grade only (A-F).
408/.508. Historical Perspectives in Contemporary Art
Prerequisites: Completion of 12 units of Art Foundation.
Examinations of historical and philosophical foundations of art education
globally from antiquity to the present, emphasizing developments in
American, social, political, and economic factors. Theoretical
developments; notable theorists are explored in relation to
current art educational practice.
Letter grade only (A-F).
412/.512. Aesthetic Theories and Art Education (3)
Prerequisites: Completion of 12 units of Art Foundation.
Past and current philosophical writings of aestheticicians, critics,
artists, and art educators will be investigated with theoretical,
practical, and cross-cultural implications for the arts educator.
Letter grade only (A-F).
414/.514. Documentary Photography (3)
Prerequisites: ART 340, 444, or consent of instructor.
History, theory, practice, and production of still documentary
photographic works with emphasis on the photograph as an
instrument for social influence and change.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)
415. On-Site Studies in Art Education (3)
Prerequisites: Completion of 12 units of Art Foundation.
Theory generated and practiced during study and participation at
approved sites, including The Art Workshop for Youth and Art to
Schools Program. Consideration of state and national standards
involving multicultural, cross-cultural, and interdisciplinary
experiences with art.
(6 hrs. lab) Letter grade only (A-F).
416/.516. Animation 3 (3)
Prerequisites: For 416: ART 392. For 516: ART 392 or consent of
instructor.
Further development in traditional hand-drawn 2D animation
principles and techniques that allow students to develop
towards professional standards. Emphasis will be on character
performance and acting, directing and film making, and creating a
professional reel.
Letter grade only (A-F). (6 hrs. lab.)
417/.517. Animation 4 (3)
Prerequisites: For 417: ART 416. For 517: ART 516 or permission
of instructor.
Further development in advanced traditional hand-drawn
2D animation principles and techniques that allow students to
continue towards professional standards. Focus will be on
completion of short animated projects for inclusion on a
professional animation reel.
Letter grade only (A-F). (6 hrs. lab.)
420. Visual Communication Design Workshop (3)
Prerequisite: Consent of instructor and portfolio review; majors only.
On-campus design studio experience oriented toward
development of printed portfolio-quality design work. Professional
designer/director environment with involvement in actual projects
with clients, budgets, and deadlines. Students responsible for all
project phases from design to production, print supervision, and
completion.
May be repeated to a maximum of 9 units. (8 hrs. lab.) Letter grade
only (A-F). Course fee may be required.
421. Advanced Typography (3)
Prerequisites: Consent of instructor. Freshmen are prohibited from
enrolling in upper division courses.
Emphasis on advanced/highly detailed information layout,
traditional and experimental typeface design and exploration of
historical and contemporary typographic forms.
Letter grade only (A-F). (6 hours activity)
423. Graphic Design VI: Advanced Topics (3)
Prerequisites: ART 334, 335, 336, 337
Advanced projects in areas such as branding, design systems
development and cross-media work. Course requires student-owned
laptop computer. See Department of Art website for current
laptop hardware and software specifications.
Not open for credit to students with credit in ART 422A. Letter grade
only (A-F). (6 hrs. lab.)
424. Advertising III: Advanced Topics (3)
Prerequisites: ART 335, 423
Advanced advertising course allowing students to produce work
based on their area of interest. It is public service oriented. Course
requires student-owned laptop computer. See Department of Art
website for current laptop hardware and software specifications.
Not open for credit to students with credit in ART 422A. Letter grade
only (A-F). (6 hrs. lab.)
426/.526. Computer Animation 1 (3)
Prerequisite: ART 392 or consent of instructor.
Introduction to animating with 3D computer animation software.
Students will explore basic 3D computer generated animation, including modeling, rigging, lighting, texturing and
camera set-up with emphasis on character animation. Integration of
elements within the animation process will be investigated.
Letter grade only (A-F). (6 hrs. lab.)
427/.527. Computer Animation 2 (3)
Prerequisite: For 427: ART 426. For 527: ART 526
Continued investigation of 3D computer generated animation using
industry standard computer software. Focus will be on advanced
counter animation with an emphasis on character performance
and advanced computer animation techniques.
Letter grade only (A-F). (6 hrs lab.)
428A. Fiber: Weaving, Dyeing, Woven Structures (3)
Prerequisites: ART 130, 131; AH 111A, 111B.
Exploration of weaving and dyeing methods using a wide variety of
techniques and materials. Emphasis on personal expression within
the contemporary fiber art.
Letter grade only (A-F). (6 hrs. lab.)
428B. Fiber: Weaving, Dyeing, Woven Structures (3)
Prerequisites: ART 429A.
Focus on woven structural textiles of greater complexity. Includes
dyed and woven fabric, multi-layered construction, and use of the
Computer loom
Letter grade only (A-F). (6 hrs. lab.)
430. Fiber: Artist Books and Papermaking (3)
Prerequisites: ART 130, 131, 181; ART 132 or 287; AH 111A, 111B.
Basic materials and techniques of papermaking and handmade
artist books with an emphasis on concept and form development.
May be repeated to a maximum of 6 units in different semesters.
Letter grade only (A-F). (6 hrs. lab.)
452. Fiber and Mixed Media: Advanced (3)
Prerequisites: ART 130, 131, 181; ART 132 or 287; ART 317 or 328A; ART 428A or 430.
Designated for the advanced Fiber students. Students will work on conceptual assignments using materials and media from a wide range of fiber processes of their choice. There will be some reading and group discussion assignments as well. May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F). (3 hrs. lab.)

453A/453B. Sculpture 4D: Video Art (3)
Prerequisites: ART 436A.
Historical/theoretical and practical/technical introduction to digital video and other art practices involving digital media. Letter grade only (A-F). (5 hrs. lab.) Course fee may be required.

453B/453D. Sculpture 4D: Video Art (3)
Prerequisites: ART 436A.
Continuation of ART 436A with more advanced projects, introduction of more specialized software and equipment, and alternative modes of display.
Letter grade only (A-F). (5 hrs. lab.) Course fee may be required.

454/4540. Art in Public Places: Theory and Practice (3)
Prerequisites: ART 130, 131, and 6 units of Art History selected from AH 111A, 111B, or by consent of instructor.
Exploration of theory and practice of developing, proposing, and producing artist-initiated and commissioned temporary and permanent works for the public sphere. Historical overview of the field of public art. Consideration of viewpoints influencing evaluation, production, selection, and commissioning of works. (6 hrs. lab.) Letter grade only (A-F).

455. Internship in Visual Communications (3)
Prerequisites: Visual Communications major or consent of instructor.
Student Internship experience in selected studios, advertising agencies and in-house creative departments. Opportunity to work under supervision of professionals in the field for 6 hrs. per week. May be repeated to a maximum of 6 units in different semesters. (6 hrs. lab.)

454/544. Advanced Black and White Photography (3)
Prerequisites: ART 340.
Presentation of advanced printing techniques and darkroom skills. Includes printing chemistry, photographic papers and refined negative making as well as further exploration of the view camera.
Letter grade only (A-F). Course fee may be required. (5 hrs. lab.)

456. Photography Studio Specialties (3)
Prerequisites: ART 340, 444.
Designed to explore camera, laboratory techniques and professional practices as applied to studio work in photography. Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

457. Experimental Practices in Photography (3)
Prerequisites: ART 340.
Course work to generate experimental solutions to conceptual problems. Emphasis placed on contemporary approaches to the photograph and the exploration of new ideas for the development of photographic art.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.)

450A. Sculpture 4D: Intermedia/New Genres (3)
Prerequisites/Co-requisites: ART 360A or consent of instructor.
Exploration of media and strategies including performance, installation, video, electronic and other time-based practice with emphasis on participatory, relational, installation and performational concerns. Letter grade only (A-F). (6 hrs. lab.)

450B. Sculpture 4D: Intermedia/New Media (3)
Prerequisites/Co-requisites: ART 360A, 450A or consent of instructor.
Continuation of ART 450A. Exploration of media and strategies including performance, installation, video, electronic and other time-based practice with emphasis on newly developed and emergent media.
Letter grade only (A-F). (6 hrs. lab.)

451A-B. Advanced Ceramics (3-3)
Prerequisites: A: ART 343A or 343B. B: ART 451A.
Individual problems in ceramics.
Letter grade only (A-F).

453. Seminar in Ceramic Arts (3)
Prerequisite: Senior Ceramics major or consent of instructor.
Critical analysis of work of historical and contemporary ceramic artists; the changing role of ceramic art as it becomes part of the contemporary art mainstream.
Letter grade only (A-F).

454A-B. Advanced Wood (3-3)
Prerequisites: ART 354A and 354B.
Development of individual problems and expression in creation of wooden art/artist structures. Emphasis on exploring personal expression through focused study of chosen techniques and discussion of related wood issues and aesthetics.
Letter grade only (A-F).

458A-B. Advanced Metalsmithing/ Jewelry and Enameling (3-3)
Prerequisites: ART 357B, 358B or consent of instructor.
Individual problems in metalsmithing, jewelry, enameling and architectural metalwork and blacksmithing.
Letter grade only (A-F).

460A. Sculpture: Advanced (3)
Prerequisites: ART 130, 131, 145 or 349, 251; 6 units from AH 111A, 111B, or consent of instructor.
Within problem-solving assignments, students work with media and content of choice, exploring new materials and techniques. Utilizes strategies such as installations, site work, time-based art, and includes some theory and discussions on art-related issues.
Letter grade only (A-F).

460B. Sculpture: Advanced (3)
Prerequisites: ART 460A or consent of instructor.
Within problem-solving assignments, students work with media and content of choice, exploring new materials. Utilizes strategies such as installations, site work, time-based art, and includes some theory and discussions on art-related issues.
Letter grade only (A-F).

461. Sculpture from Observation: Advanced (3)
Prerequisites: ART 361, 362A and 362B.
Advanced study in large-scale observation-based figurative/representational sculpture. Emphasis on expressive content. Work in clay and plaster, armature and armature construction, oil and water-based techniques.
Letter grade only (A-F).

471A-B. Advanced Illustration (3-3)
Prerequisites: For ART 471A: ART 371B. For ART 471B: ART 471A.
Illustration in part from live models.
Letter grade only (A-F).
472./572. Storyboarding for Film and Television (3)
Prerequisites: ART 130, 181, 184, 271 or consent of instructor.
Storyboarding for television and feature film application. Focus on sequential structure of film including pacing and continuity related to storytelling. Discussion of camera movement, uses of storyboards. Emphasis on drawing skills needed to visually communicate ideas for entertainment industry.
(6 hrs. lab.) Letter grade only (A-F). Course fee may be required.

473./573. Seminar in Photo-Based Art (3)
Prerequisite: Advanced standing in Photography or consent of instructor.
Critical analysis of work by contemporary photo-based artists and investigation of relevant theoretical issues.
May be repeated to a maximum of 6 units with rotating topics in different semesters. Letter grade only (A-F).

475./575. Printmaking: Photo and Digital Processes (3)
Prerequisites: ART 120, 241, or 149, 181; 6 units from AH 111A, 111B. Instruction in the photo printmaking processes for lithography, etching, and silkscreen using digital and analog techniques to explore photographic and non-photographic imagery.
(6 hrs. lab.) Letter grade only (A-F).

476./576. Experimental Animation 1 (3)
Prerequisites: For 476: ART 130, 131, 181, 184. For 576: graduate student in Art or permission of instructor.
Investigation of a variety of basic animation techniques as alternatives to traditional hand-drawn character animation with emphasis on understanding movement, weight, timing, and sequential aesthetics.
Letter grade only (A-F). (6 hrs. lab)

478./578. Experimental Animation 2 (3)
Prerequisite: For ART 479: ART 470. For ART 578: ART 576.
Further investigation of principles and techniques of alternative approaches to traditional hand-drawn character animation learned in Art 478. Focus on weight, movement, timing, and time-based aesthetic strategies. Provides continued development of animating skills. Specific coordinating computer software is used.
Letter grade only (A-F). (6 hrs. lab)

480./580. Printmaking: Monotype/Monoprint (3)
Prerequisites: ART 130, 181, 184, 287; 5 units from AH 111A, 111B. Instruction in all aspects of monotype and monoprint form of printmaking as an expensive medium capable of diverse applications and linkages with other procedures and disciplines. Emphasis on extension and refinement of individual expression. Black and white and color.
(6 hrs. lab.) Letter grade only (A-F).

481. Advanced Drawing (3)
Prerequisite: ART 381.
Advanced problems and concepts in drawing designed to explore modes of representation and issues pertaining to contemporary drawing.
(6 hrs. lab.) Letter grade only (A-F).

482./582. Sequential Imagery (3)
Prerequisites: ART 223 or consent of instructor
Focuses on the book or magazine (electronic or print) as an art form and the image/word relationship within the context of sequential aesthetics. Addresses the editorial and visual issues of pacing, continuity, and closure.
Letter grade only (A-F). Course fee may be required. (6 hrs lab.)

483. Advanced Life Painting (3)
Prerequisite: ART 383.
Continued study in painting from the human figure with emphasis on pictorial structure, color and individual expression.
Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

484. Advanced Life Drawing (3)
Prerequisite: ART 384.
Continued study in drawing the human figure from observation with emphasis on structure, form, and composition, as well as individual expression.
Course fee may be required. (6 hrs. lab.) Letter grade only (A-F).

486. Media Design: Advanced Topics (3)
Prerequisites: ART 365 or 366 or equivalent and consent of instructor.
Advanced course developing student's ability to create interactive experiences. Students start building smart interactions within nonlinear environments and/or narrative structures.
Letter grade only (A-F). (5 hrs. lab)

487. Advanced Painting (3)
Prerequisite: ART 387.
Continued study in studio painting, exploring advanced modes of pictorial structure with emphasis on individual expression.
(6 hrs. lab.) Letter grade only (A-F).

489. Special Topics in Visual Art (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in the visual arts will be selected for intensive study.
May be repeated to a maximum of 12 units with different topics. Topics will be announced in the Schedule of Classes.

490. Special Problems in Studio Art (1-3)
Prerequisites: Consent of instructor.
Topics of current interest in the visual arts selected for intensive study. Topics announced in the Schedule of Classes.
Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics. (6 hrs. Lab)

491A. Ceramics: Senior Project (1)
Prerequisite: ART 451A or 451B or consent of instructor.
Planning, preparation, completion, and photographic slide documentation of a creative exhibition and written thesis as approved by faculty.
Should be taken in last semester before graduation. Required of all BFA ceramics majors. Letter grade only (A-F). May be repeated to a maximum of 2 units.

491B. 3-D Media-Senior Project (1)
Prerequisite: 3-D Media major or consent of instructor.
Organizing, compiling, and photographing (35mm slides) a creative exhibition of their work. Exhibition culminates with written thesis with faculty approval.
Should be taken in the last semester before graduation. Required of all 3-D Fiber, Wood, Metal and Integrated Media majors. Credit/ No Credit grading only. May be repeated to a maximum of 2 units in the same semester.

491C. Photography – Senior Project (1) F,S
Planning, preparation, completion, and photographic slide documentation of a creative exhibition and written thesis as approved by faculty.
Should be taken in the last semester before graduation. Required of all Photography majors. Credit/No Credit grading only. May be repeated to a maximum of 2 units.

491F. Sculpture Senior Project (1)
Prerequisites: Senior Sculpture major; consent of instructor.
Students will complete their work, organize an exhibition and write an Artist's Statement.
Required by all Sculpture majors. Should be taken in the final semester of a student's BFA program. Credit/No Credit grading only.
491G. Drawing and Painting: Senior Project (1)
Prerequisite: ART 496A. Corequisite: ART 496B.
Planning and installation of a public exhibition of creative work completed in ART 456 A-B.
Credit/No credit grading only. (2 hrs. lab.)

491P. Printmaking: Senior Project (1)
Planning, preparation, completion, and photographic slide documentation of a creative exhibition and a written expanded artist’s statement as approved by faculty. Should be taken in the last semester before graduation. Required of all Printmaking majors. Credit/No Credit grading only. May be repeated to a maximum of 2 units.

492F. Concentrated Studies in Life Drawing (3)
Prerequisites/Corequisites: ART 354 or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in life drawing.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. Course fee may be required. (5 hrs. lab.)

492G. Concentrated Studies in Abstract Painting (3)
Prerequisites/Corequisites: ART 317 or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in abstract and nonobjective painting and drawing.
May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Letter grade only (A-F).

492J/592Z. Concentrated Studies in Life Painting (3)
Prerequisites/Corequisites: ART 338 or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in painting the human figure. A more open relationship in attitudes and processes of working from the figure in class and total self-direction on work done outside the class.
Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. Course fee may be required. (5 hrs. lab.)

495. Field Studies in Art (1-6)
Independent work with an instructor of student’s choice, usually outside area of specialization.
Department Chair or Undergraduate Advisor/Graduate Advisor approval, restricted to undergraduate and graduate art majors. (2-12 hrs. lab.) Letter grade only (A-F).

496A. BFA Capstone: Drawing and Painting (3)
Prerequisites: Drawing and Painting major. Completion of 6 to 12 units of required 400 level classes in Drawing and Painting. Extensive work with faculty supervision on individual problems in drawing and/or painting. First of two sequential semesters, limited to three units each semester, totaling 6 units as the culmination of a student’s BFA degree program in Drawing and Painting. Letter grade only (A-F). (6 hours lab.)

496B. BFA Capstone: Drawing and Painting (3)
Prerequisite: ART 496A. Extensive work with faculty supervision on individual problems in drawing and/or painting. Second of two sequential semesters, limited to three units each semester, totaling 6 units as the culmination of a student’s BFA degree program in Drawing and Painting.
Letter grade only. (6 hours lab.)

499A. Special Studies in Ceramics (3)
Prerequisite: Ceramics major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in ceramics.
May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (5 hrs. lab.) Letter grade only (A-F).

499B. Special Studies in Wood (3)
Prerequisite: ART 354B or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems using wood as the media.
May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (5 hrs. lab.)

499D. Special Studies in Drawing (3)
Prerequisite: ART 351; Drawing and Painting Major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in drawing.
May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (5 hrs. lab.)

499F. Special Studies in Illustration (3)
Prerequisite: Illustration major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in illustration or biomedical art.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499J. Special Studies in Metalsmithing and Jewelry (3)
Prerequisite: ART 458A or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in metalsmithing and jewelry.
Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499K. Special Studies in Painting (3)
Prerequisites: Drawing and Painting Major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in drawing and/or painting.
Letter grade only (A-F). May be taken for a maximum of 3 units in the same semester and a maximum of 9 units in different semesters. (5 hrs. lab.)

499M. Special Studies in Life Sculpture (3)
Prerequisite: Sculpture major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in sculpture.
Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Course fee may be required.

499N. Special Studies in Fiber and Mixed Media (3)
Prerequisite: 3-2 Media major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in textile design.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. (6 hrs. lab.)

499O. Special Studies in Studio Sculpture (3)
Prerequisites: Sculpture major or consent of instructor. Opportunity for extensive work with faculty supervision on individual problems in sculpture.
May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Letter grade only (A-F). (8 hours lab.)
499P. Special Studies in Art Education (3)
Prerequisite: Art Education major or consent of instructor.
Opportunity for extensive work with faculty supervision on individual problems in art education.
May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Letter grade only (A-F). (6 hrs. lab.)

499R. Special Studies in Printmaking (3)
Prerequisite: Printmaking major or consent of instructor.
Opportunity for extensive work with faculty supervision on individual problems in printmaking.
May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Letter grade only (A-F). (6 hrs. lab.)

499S. Special Studies in Visual Communications Design (3)
Prerequisite: Visual Communications major or consent of instructor.
Opportunity for extensive contract work with faculty supervision on problems in visual communications design.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. (6 hrs. lab.)

499V. Special Studies in Art Photography (3)
Prerequisites: ART 444 and Photography Major, or consent of instructor.
Opportunity for extensive work, with faculty supervision, on individual problems in photography as an art form.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

GRADUATE LEVEL

506A/406A. Digital Imagination for the Arts (3)
Prerequisites: ART 145, 340, or consent of instructor.
Examination of digital imaging through Adobe Photoshop software. Emphasis on relationship of digital imaging to photography. Exercises to develop skills, strategies, and fluency for working in digital media. Concentration on theory of media and representation as well as individual projects.
Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 6 units in different semesters.

506B/406B. Advanced Digital Imagination for the Arts (3)
Prerequisites: ART 406A, 444, or consent of instructor.
Exploration of theory and practice of digital imaging and advanced techniques. Emphasis on multimedia and individual projects.
Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

508/408. Historical Perspectives in Contemporary Art Education (3)
Examines historical and philosophical foundations of art education globally from antiquity to the present, emphasizing developments in America, social, political, and economic factors; theoretical developments; notable theoreticians are explored in relation to contemporary art educational practice.
Letter grade only (A-F).

509A-B. Research in Art Education (2-2)
Prerequisite: Art Education major or consent of instructor.
Advanced individual graduate problems in art education with projects related to specific learning situations.
Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters.

512/412. Aesthetic Theories and Art Education (3)
Past and current philosophical writings of aestheticians, critics, artists, and art educators will be investigated with theoretical, practical, and cross-cultural implications for the arts educator.
Letter grade only (A-F).

514/414. Documentary Photography (3)
Prerequisites: ART 440, 444, or consent of instructor.
History, theory, practice, and production of still documentary photographic works with emphasis on the photograph as an instrument for social influence and change.
Letter grade only (A-F). Course fee may be required. (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

516/416. Animation 3 (3)
Prerequisites: For 416: ART 302. For 516: ART 392 or consent of instructor.
Pursuit of advanced skills in traditional hand-drawn 2D animation principles and techniques that allow students to continue towards professional standards. Emphasis will be on character performance and acting, directing and film making, and creating a professional reel.
Letter grade only (A-F). (6 hrs. lab.)

517/417. Animation 4 (3)
Prerequisites: For 417: ART 416. For 517: ART 516 or permission of instructor.
Further development in advanced traditional hand-drawn 2D animation principles and techniques that allow students to continue towards professional standards. Focus will be on completion of short animated projects for inclusion on a professional animation reel.
Letter grade only (A-F).

526/426. Computer Animation 1 (3)
Prerequisite: ART 392 or consent of instructor.
Introduction to animating with 3D computer animation software. Students will explore basic three-dimensional computer generated animation, including modeling, rigging, lighting, texturing and camera set-up with emphasis on character animation, integration of elements within the animation process will be investigated.
Letter grade only (A-F). (6 hours lab)

527/427. Computer Animation 2 (3)
Prerequisite: For 427: ART 426. For 527: ART 526
Continued investigation of 3D computer generated animation using industry standard computer software. Focus will be on advanced character animation with an emphasis on character performance and advanced computer animation techniques.
Letter grade only (A-F). (6 hours lab)

536A/436A. Sculpture/4D: Video Art (3)
Historical/theoretical and practical/technical introduction to digital video and other art practices involving digital media.
Letter grade only (A-F). (6 hrs. lab.) Course fee may be required.

536B/436B. Sculpture/4D: Video Art (3)
Prerequisite: ART 436A or 536A.
Continuation of ART 536A with more advanced projects, introduction of more advanced software and equipment, and alternative modes of display.
Letter grade only (A-F). (6 hrs. lab.) Course fee may be required. May be repeated to a maximum of 9 units in different semesters.

540/440. Art in Public Places: Theory and Practice (3)
Prerequisites: ART 130, 131, and 6 units of Art History selected from AH 111A, 111B, or consent of instructor.
Exploration of theory and practice of developing, proposing and producing art installations and commissions; temporary and permanent works for the public sphere. Historical overview of the field of public art.
Consideration of viewpoints influencing evaluation, production, selection, and commissioning of works.
Letter grade only (A-F). (6 hrs. Lab.) May be repeated to a maximum of 9 units in different semesters.

2009/2010 CSULB Catalog • Art • 159
554A. Advanced Ceramics – Graduate (3)
Prerequisite: ART 551B.
Opportunity for beginning graduate students to do research employing various ceramics materials, processes and visual solutions in preparation for a more narrow and concentrated study.
Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

554B. Wood – Graduate (3,3)
Prerequisites: ART 454B or consent of instructor.
Development of individual problems and expression in the creation of wooden artwork structures. Emphasis on the exploration of personal expression through the creation of unique pieces and the discussion of related wood issues and aesthetics.
Letter grade only (A-F). (5 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

556A. Metalsmithing, Jewelry and Enameling (3)
Prerequisite: 3-D Media major or consent of instructor.
Individual graduate level studio projects involving investigation of metallics, processes and visual solutions in preparation for more concentrated study in metalsmithing, jewelry, enameling, or architectural metalwork and blacksmithing.
Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

556B. Metalsmithing, Jewelry and Enameling (3)
Prerequisite: 3-D Media major or consent of instructor.
Selection of a specific area of concentration in metalsmithing and jewelry, enameling, or architectural metalwork and blacksmithing; focus on creative objectives based on a projectd theme.
Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

564A. Advanced Wood Studio – Graduate (3,3)
Prerequisites: ART 554B or consent of instructor.
Development of individual skill, technique, and concepts through the exploration of unique and personal language in wood. Creation of body of work supported by research projects on related work and concepts in the field.
Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

572/472. Storyboarding for Film and Television (3)
Prerequisites: ART 130, 181, 184, 271 or consent of instructor.
Storyboarding for television and feature film applications. Focus on sequential structure of film including pacing and continuity related to storytelling. Discussion of camera movement, use of storyboards. Emphasis on drawing skills needed to visually communicate ideas for entertainment industry.
Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

573/473. Seminar in Photo-Based Art (3)
Prerequisite: Advanced standing in Photography or consent of instructor.
Critical analysis of work by contemporary photo-based artists and investigation of relevant theoretical issues.
Letter grade only (A-F). May be repeated to a maximum of 9 units with different artists in different semesters.

575/475. Printmaking: Photo and Digital Processes (3)
Prerequisites: ART 130, 241, or 149, 181; 6 units from AH 111A, 111B.
Instruction in the photo printmaking processes for lithography, etching, and silkscreen using digital and analog techniques to explore photographic and non-photographic imagery.
Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.

576/476. Experimental Animation 1 (3)
Prerequisites: For 476: ART 130, 131, 181, 184. For 576: graduate student in Art or permission of instructor.
Investigation of a variety of basic animation techniques as alternatives to traditional hand-drawn character animation with emphasis on understanding movement, weight, timing, and sequential aesthetics.
Letter grade only (A-F). (6 hours lab)

578/478. Experimental Animation 2 (3)
Prerequisite: For ART 478, ART 476. For ART 578: ART 576.
Further investigation of principles and techniques of alternative approaches to traditional hand-drawn character animation learned in ART 576. Focus on weight, movement, timing, and time-based aesthetic strategies. Provides continued development of animating skills. Specific coordinating computer software is used.
Letter grade only (A-F). (6 hours lab)

580/480. Printmaking: Monotype/Monoprint (3)
Prerequisites: ART 130, 181, 184, 287; 5 units from AH 111A, 111B.
Instruction in the aspects of the monotype and monoprint form of printmaking as an expressive medium capable of diverse applications and linkages with other processes and disciplines. Emphasis will be on the extension and refinement of personal expression. In black and white and color.
Letter grade only (A-F). (6 hrs. lab.) May be repeated to a maximum of 9 units in different semesters.
582/482. Sequential Imagery (3)
Prerequisites: ART 223 or consent of instructor.
Focuses on the book or magazine (electronic or print) as an art form and the image/word relationship within the context of sequential aesthetics. Addresses the editorial and visual issues of pacing, continuity, and closure.
Letter grade only (A-F). May be repeated to a maximum of 9 units in different semesters. Course fee may be required.

583. Advanced Life Graduate Painting (3)
An intensive studio course in painting from the model for graduate students.
Letter grade only (A-F). Course fee may be required. May be repeated to a maximum of 9 units in different semesters. (6 hrs. lab.)

589. Graduate Studies: Special Topics in Visual Art (1-3)
Prerequisites: Consent of instructor.
Topics of current interest in the visual arts selected for intensive study.
Topics announced in the Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics.

590. Graduate Studies: Special Problems in Studio Art (1-3)
Prerequisites: Consent of instructor.
Special topics of current interest in studio art will be selected for intensive study.
Letter grade only (A-F). May be repeated to a maximum of 12 units with different topics. Topics will be announced in the Schedule of Classes. (2-6 hrs. lab.)

A. Visiting Artists

5922. Graduate Concentrated Studies in Life Painting (3)
Opportunity for extensive work with faculty supervision on individual problems in painting the human figure. A more open relationship in attitudes and processes of working from the figure in class and total self-direction on work done outside class.
Letter grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. Course fee may be required. (6 hrs. lab.)

597A. Graduate Studies: Ceramics (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Ceramics. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597B. Graduate Studies: Wood (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Wood. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597D. Graduate Studies: Drawing (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Drawing. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597F. Graduate Studies: Illustration/Animation (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Illustration/Animation. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597J. Graduate Studies: Metal (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Metal. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. Course fee may be required. (6 hrs. lab.)

597K. Graduate Studies: Painting (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597L. Graduate Studies: Life Drawing and Painting (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Life Drawing and Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. Course fee may be required. (6 hrs. lab.)

597M. Graduate Studies: Life Sculpture (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Life Sculpture. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. Course fee may be required. (6 hrs. lab.)

597N. Graduate Studies: Fiber (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Fiber. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597O. Graduate Studies: Sculpture/4D (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Sculpture/4D. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)

597R. Graduate Studies: Printmaking (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Printmaking. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab.)
Art Courses (ART)

597S. Graduate Studies: Visual Communication Design (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Visual Communication Design. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

597V. Graduate Studies: Photography (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Variable topics course within discipline of Photography. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598A. Graduate Studies: Advanced Ceramics (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597A.
Variable topics course for advanced graduate study within discipline of Ceramics. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598B. Graduate Studies: Advanced Wood (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597B.
Variable topics course for advanced graduate study within discipline of Wood. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598D. Graduate Studies: Advanced Drawing (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597D.
Variable topics course for advanced graduate study within discipline of Drawing. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598F. Graduate Studies: Advanced Illustration/Animation (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597F.
Variable topics course for advanced graduate study within discipline of Illustration/Animation. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598J. Graduate Studies: Advanced Metal (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597J.
Variable topics course for advanced graduate study within discipline of Metal. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598K. Graduate Studies: Advanced Painting (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597K.
Variable topics course for advanced graduate study within discipline of Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598L. Graduate Studies: Advanced Life Drawing and Painting (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597L.
Variable topics course for advanced graduate study within discipline of Life Drawing and Painting. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598M. Graduate Studies: Advanced Life Sculpture (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597M.
Variable topics course for advanced graduate study within discipline of Life Sculpture. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598N. Graduate Studies: Advanced Fiber (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597N.
Variable topics course for advanced graduate study within discipline of Fiber. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598O. Graduate Studies: Advanced Sculpture4D (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597O.
Variable topics course for advanced graduate study within discipline of Sculpture4D. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598R. Graduate Studies: Advanced Printmaking (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597R.
Variable topics course for advanced graduate study within discipline of Printmaking. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598S. Graduate Studies: Advanced Visual Communication Design (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597S.
Variable topics course for advanced graduate study within discipline of Visual Communication Design. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)

598V. Graduate Studies: Advanced Photography (3)
Prerequisites: Graduate M.F.A. student and 12 units ART 597V.
Variable topics course for advanced graduate study within discipline of Photography. Studio, activity, critique, and discussion course with focus and assignments changing each semester.
Letter grade only (A-F). May be repeated to a maximum of 12 units; 9 units in the same semester with different instructors. (6 hrs. lab)
599. Graduate Studies: Special Studio (3)
Prerequisites: Graduate MFA Student and consent of Instructor and
counselor of Department of Art Graduate Advisor
Specialized graduate studio projects, with faculty supervision, in a
specific discipline.
Letter grade only (A-F). May be repeated to a maximum of 9 units
with same topic in the same semester. Area will be designated by
letter at time of registration. (6 hrs lab)
A. Ceramics
B. Wood
D. Drawing
F. Illustration/Animation
J. Metal (course fee may be required)
K. Painting
L. Life Drawing and Painting (course fee may be required)
M. Life Sculpture (course fee may be required)
N. Fiber
O. Sculpture/ED
R. Printmaking
S. Visual Communication Design
V. Photography (course fee may be required)

601A-B. Seminar in Art Education (3-3)
Prerequisite: Graduate student in Art Education or consent of
instructor.
Special studies, research and evaluation of the role of the art
teacher.
ART 601A is required for the M.A. in Art Education; ART 601B may
be required by the student's M.A. committee. Letter grade only (A-F).

649. Seminar in Drawing and Painting (3)
Advanced critical study related to contemporary drawing and
painting with faculty peers and visiting artists. Additional activities
include research, preparation and presentations pertaining to
contemporary professional practice within the changing art world.
Limit to 3 units in one semester. May be repeated to a maximum of
12 units in different semesters. Letter grade only (A-F).

651. Seminar in Ceramic Art (3)
Prerequisite: Graduate student in Ceramics or consent of instructor.
Critical analysis of work of historical and contemporary ceramic
artists, the changing role of ceramic art as it becomes part of the
contemporary art mainstream.
May be repeated to a maximum of 12 units with different artists in
different semesters. Letter grade only (A-F).

680. Graduate Interdisciplinary Critique (3)
Culottes and discussion forum for graduate students in all areas of
studio practice, and from all Department of Art programs. Emphasis
on development of critical discussion and writing skills. Group
meetings and individual meetings with instructor.
Letter grade only (A-F). May be repeated to a maximum of 9 units in
different semesters. Not open for credit to students with credit in ART
591.

681. Graduate Studies: Art Theory/Criticism (3)
Prerequisite: Graduate M.F.A. student or consent of instructor
Seminar involving selected reading and writing concerning topics
relevant to student's specific discipline on the visual arts with an
opportunity for interdisciplinary discussion.
Letter grade only (A-F). Not open for credit to students with credit in
ART 591A.

682. Graduate Studies: Professional Practices for Studio Art (3)
Prerequisite: Graduate M.F.A. student or consent of instructor.
Seminar involving professional preparation for studio artists stressing
practical concerns as well as current trends in art practices, theory
and criticism.
Letter grade only (A-F). Not open for credit to students with credit in
ART 590B.

683. Graduate Studies: Image as Text (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Seminar focusing on issues of readability, signification meaning and
ramifications of the construction and organization of visual imagery
with emphasis on visual communications applications.
Letter grade only (A-F).

Communication (3)
Prerequisites: Graduate M.F.A. student or consent of instructor.
Seminar involving professional preparation for illustrators,
graphic designers, and individuals interested in entering visual
communications fields.
Letter grade only (A-F).

690M. 3-D Graduate Seminar (3)
Graduate seminar for 3D students. Examination of media, concerns, strategies relevant to the spectrum of contemporary
three-dimensional art production. Includes critique of student work,
readings, discussion and written assignments.
May be repeated to a maximum of 3 units in one semester and 9
units in different semesters. Letter grade only (A-F).

692. Project Exhibition (3)
Prerequisite: Advancement to Candidacy and a registration in ART
698 or 699. Open only to M.A. and M.F.A. candidates with Project
Statement approval, consent of their graduate committee and an
assigned exhibition date.
Planning, preparation, and installation of a public exhibition of
creative work done for ART 698 or 699.
Letter grade only (A-F). May be repeated to a maximum of 6 units in
different semesters.

693. Teaching Internship (3)
Opportunity to work with full-time Art faculty mentor on course
preparation and instruction. Required for eligibility for Graduate
Teaching Associate positions.
Restricted to graduate art majors. Letter grade only (A-F). May be
repeated to a maximum 6 units. (6 hrs. lab.)

694. Graduate Studies: Directed Studio (1)
Independent studies in creative studio. Department Chair or
Graduate Advisor approval. Restricted to graduate art majors. Student
must enroll in three sections concurrently. Nine units required for
M.F.A. degree. No more than 5 units may be applied to M.A. degree.
Letter grade only (A-F). May be repeated to a maximum of 12 units in
the same semester.

695. Graduate Studies: Field Problems (1-6)
Opportunity to study artistic monuments, objects, theories,
techniques or literature of appropriate off-campus locations.
Department Chair or Graduate Advisor approval, restricted to
graduate art majors.
Letter grade only (A-F). May be repeated to a maximum of 12 units in
different semesters. (2-12 hrs. lab.)

697. Graduate Studies: Directed (1-3)
Independent studies in technical and/or historical aspects of art.
Department Chair or Graduate Advisor approval, restricted to
graduate art majors.
Letter grade only (A-F). May be repeated to a maximum of 12 units in
the same semester. (2-6 hrs. lab.)

699A. Art Education Thesis or Project (1-6)
Prerequisite: Advancement to Candidacy and an approved Thesis or
Project Statement.
Examination and completion of an approved thesis, or project, project
report, documentation, oral and comprehensive exams. Open only to
Art Education students. Required of all candidates for the M.A. in
Art, specialization in Art Education.
Letter grade only (A-F). May be repeated to a maximum of 6 units in
the same semester.

2009/2010 CSULB Catalog • Art • 163
Art Courses (ART)

688B. Studio Project (1-6)
Prerequisites: Advancement to Candidacy and an approved project statement. Execution and completion of an approved Studio Project and Project Report for the MA degree. Open only to Studio Art students. Required of all candidates for the MA in Art. Specialization in Studio Art. Letter grade only (A-F).
May be repeated to a maximum of 6 units in the same semester.

699. Graduate Studios: MFA Project (2)
Prerequisites: MFA Art Student, Advancement to Candidacy and an approved Project Statement.
Execution and completion of a Studio Project and Project Report for the M.F.A. degree. The student must enroll in three sections concurrently. To be taken with at least three M.F.A. committee members for a total of 6 units in the final semester of study. No more than 6 credits may be applied to the M.F.A. degree.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

Art History Courses (AH)

LOWER DIVISION

111A. Foundation Art History I (3)
Prerequisites: A General Education Foundation class.
Chronological survey of art as an integral part of Western Culture from pre-History through the Middle Ages.
Not open for credit to students with credit in AH 115B.

111B. Foundation Art History II (3)
Prerequisites: A General Education Foundation class.
Chronological survey of art as an integral part of Western Culture from the Middle Ages to the 19th century.
Not open for credit to students with credit in AH 115C.

111C. Foundation Art History III (3)
Prerequisites: AH 111A or AH 111B and a General Education Foundation class.
Basic theoretical considerations about art and its relationship to society in both Western and non-Western cultures.
Not open for credit to students with credit in AH 115A.

Art History Courses (AH)

116. Foundation Art History: Arts of Islamic Regions (3)
Survey of architecture and visual culture in Islamic cultures from the 7th century to the present in North Africa, Spain, Southeast Asia, and the Islamic diaspora.
Letter grade only (A-F).

UPPER DIVISION

311. Issues in Art History: Theory and Practice (3)
Prerequisites: AH 111A or 111B, or consent of instructor.
Theoretical and practical considerations in the discipline of art history, specifically issues relating to art interpretation, classification, valuation, and circulation.
Letter grade only (A-F).

364. History of Ceramics 1900 to Present (3)
Survey of ceramic art in the United States from 1900 to the present. Consideration of American ceramic art within the context of contemporary art history; and of significant ceramic works in relation to modern and postmodern movements in art.
Letter grade only (A-F).

365. History of Prints and Drawings (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Historical survey of prints and drawings, with emphasis on technical and stylistic developments and on the role played by these media in relation to other arts through the 20th century.
Not open for credit to students with credit in ART 365. Letter grade only (A-F).

400/500. 19th Century Photography (3)
Prerequisites: AH 111B or consent of the instructor.
Examination of 19th century photography.
Letter grade only (A-F).

401/501. American Art to 1900 (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Survey of American art from the time of European settlement to roughly 1900 with special focus on cultural, political, and historical contexts. Combines studio and lecture with discussion of primary and secondary readings.
Letter grade only (A-F).

402. The Rise of Landscape Painting (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Examination of emergence and transformation of landscape painting in Europe and America between 1750 and 1850 with special focus on cultural, political, and historical contexts. Combines studio and lecture with discussion of primary and secondary readings.
Letter grade only (A-F).

408/508. Early Christian and Byzantine Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Architecture, mosaics, and sculpture of Rome, Ravenna and Constantinople from the decline of the Roman Empire to the end of the Byzantine era.
Not open for credit to students with credit in ART 408 or 598B. Letter grade only (A-F).

409/509. Romanesque Art (3)
Prerequisites: AH 111A, or consent of instructor.
Arts of Northern Europe from Merovingian through the Romanesque period.
Not open for credit to students with credit in ART 409 or 509C. Letter grade only (A-F).

410/510. Gothic Art (3)
Architecture, sculpture, and painting in Western Europe from the 12th through the 14th centuries, with special attention to the construction and decoration of the great cathedrals, and to the development of
new approaches to style and content in the figural art of the 14th-century Italy.
Not open for credit to students with credit in ART 410 or 598D. Letter grade only (A-F).

411/511. History and Criticism of Photography (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
History of photography from its origins to contemporary developments in the twentieth century. Critical and philosophical approaches to the photographic medium.
Not open for credit to students with credit in ART 411 or 511. Letter grade only (A-F).

416/516. Greek Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Survey of Greek Art from beginnings in Aegean period through late Hellenistic period. Key monuments of architecture, sculpture, painting, vase painting, and so-called minor arts discussed relative to contemporary theories, criticism, and history. Focus on techniques and materials of various arts.
Not open for credit to students with credit in ART 416 or 598E. Letter grade only (A-F).

417/517. Roman Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Survey of Italian arts before the Romans, including indigenous art of the Italic peoples and the Etruscans, and Roman Art from early Republic to Age of Constantine. Discussion of major art forms of architecture, painting, sculpture and so-called minor arts.
Not open for credit to students with credit in ART 417 or 598L. Letter grade only (A-F).

423/523. Early Renaissance Art in Italy (3)
Examination of stylistic and technical developments of fifteenth-century Italian painting, sculpture, and architecture, as well as the interaction of natural, social, and religious developments with visual arts. Special attention to the revival of classicism, and influence of private patrons.
Not open for credit to students with credit in ART 423 or 598F. Letter grade only (A-F).

424/524. High Renaissance Art in Italy (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of sixteenth-century Italian painting, sculpture, and architecture, emphasizing that of Florence, Venice, and Rome. Historical, cultural, religious, and theoretical framework. Special attention to works by a handful of major artists (Leonardo da Vinci, Michelangelo, Raphael, Titian, and the Manierists).
Not open for credit to students with credit in ART 424 or 598G. Letter grade only (A-F).

425/525. Northern Renaissance Painting (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of artistic developments in Northern Europe, particularly Flanders, France, and Germany, from the 14th century through 16th-century. Historical, cultural, religious and theoretical framework. Special attention to iconography, and the changing role of the artist in society.
Not open for credit to students with credit in ART 425 or 598H. Letter grade only (A-F).

426/526. Baroque Art in Spain, the Netherlands, and England (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of intertwined political and artistic situations in Netherlands (Flanders and Holland), England, Spain during seventeenth and eighteenth centuries. Emphasis on relationship between Rubens and Velasquez, contrast between Rubens and Rembrandt, and Flemish influence in England.
Not open for credit to students with credit in ART 426 or 598I. Letter grade only (A-F).

427/527. Baroque Art in Italy, France, and Germany (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Explores Birth of Baroque in Rome, and role of Counter-Reformation in shaping artistic genres in Italy and France in early 17th century. Covers influence of Vernacular court of “Sun King,” Louis XIV, in late 17th and early 18th centuries, especially in independent Neoclassical states.
Not open for credit to students with credit in ART 427 or 598K. Letter grade only (A-F).

430/530. Introduction to Curatorial Practices (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Study of contemporary art display theory/practice including exhibition typologies, curatorial models, and recent transformations in museums, galleries and the art market. Designed for Museum and Curatorial Studies Certificate students and others interested in studying museum practices within a broader context. Not open for credit to students with credit in AH 435B/535B. Letter grade only (A-F).

431/531. History of Museums and Exhibitions (3)
Prerequisites: AH 111A, 111B or by consent of student advisor and instructor. Study of history and how displays reflect social and cultural conditions and political ideologies. Attention to contemporary exhibitions, and recent transformations in the field. Class is required of students seeking Museum Studies Certificate and those pursuing MA with emphasis in Museum Studies. Not open for credit to students with credit in ART 435; AH 435, 435A, or 535A. Letter grade only (A-F).

436/536. Neo-Classicism to Romanticism, 1789-1850 (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of Neo-Classicism, Realism, Romanticism, photography, and the academic tradition in art and culture of Europe from 1789-1850. Not open for credit to students with credit in ART 436 or 598M. Letter grade only (A-F).

437/537. Impressionism to Post-Impressionism, 1850-1900 (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Analysis of the development of Impressionism and Post-Impressionism in France from 1850 to 1900. Not open for credit to students with credit in ART 437 or 598N. Letter grade only (A-F).

438/538. Art of Early to Mid Twentieth Century (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of key developments, trends, movements of the period including Abstract, Non-Objective art, Expressionism, Dada, and Surrealism. Letter grade only (A-F). Not open for credit to students with credit in ART 438 or 598P.

439/539. Art of Mid to Late Twentieth Century (3)
Prerequisites: AH 111A, 111B, or consent of instructor. Examination of key developments, trends, movements of the period including Pop Art, Happenings, Minimal Art, Art and Technology, Environmental Concept, Performance and Video Art. Letter grade only (A-F). Not open for credit to students with credit in ART 439 or 598Q.

441/541. Contemporary Art in Context (3)
Prerequisites: AH 111A, 111B, or consent of instructor. International survey focusing on developments in art from late twentieth century to present. Examination of precedents, traditions, legacies behind current art. Consideration of critical/theoretical issues and factors influencing production and reception of current art. Letter grade only (A-F).

2009/2010 CSULB Catalog • Art • 165
444/544. History of Graphic Design (3)
Prerequisites: For AH 444: AH 111A and 111B, or consent of instructor. For AH 544: Graduate student in Department of Art, or consent of instructor.

Theoretical approach to Graphic Design history, with consideration of pioneering designers, movements, and cultural, social, political and technological influences in the evolution of graphic design.
Not open for credit to students with credit in AH 366. Letter grade only (A-F).

448/548. Western Art Theory and Criticism to the Mid-Nineteenth Century (3)
Prerequisites: For 448: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 548: graduate student in Art History or consent of instructor.

A text-based examination of western art theory and criticism up to the mid-nineteenth century.
Letter grade only (A-F). Not open for credit to students with credit in AH 326.

449/549. Western Art Theory and Criticism Mid-Nineteenth to Mid-Twentieth Century (3)
Prerequisites: For 449: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 549: graduate student in Art History or consent of instructor.

A text-based examination of western art theory and criticism from the mid-nineteenth to mid-twentieth centuries. Not open for credit to students with credit in AH 309.
Letter grade only (A-F).

450/550. Western Art Theory and Criticism Mid-Twentieth Century to Present (3)
Prerequisites: For 450: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 550: graduate student in Art History or consent of instructor.

A text-based examination of western art theory and criticism from the mid-twentieth century to the present.
Letter grade only (A-F). Not open for credit to students with credit in AH 310.

455/555. Traditional Art of Africa: A Thematic Approach (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Exploration from a Western perspective of the conceptual, expressive, and aesthetic aspects of traditional African art as related to its cultural context and to Western concepts of art. Focus on West Africa.
Not open for credit to students with credit in ART 455 or 598R. Letter grade only (A-F).

456/556. American Indian Art: Western Perspectives (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Exploration from a Western perspective of the historically various and changing frames of reference surrounding perception, interpretation, and consideration of Native American art through focus on selected traditions.
Not open for credit to students with credit in ART 456 or 598S. Letter grade only (A-F).

457/557. Pre-Columbian Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

A survey of art and architecture in Mesoamerica and the Andean region of South America from about 1000 BC to the Spanish conquest. Special attention will be focused on the social, political and economic contexts of objects and architecture from this period, as well as on the research methods and theoretical assumptions of scholars investigating this field.
Letter grade only (A-F).

458/558. Modern Latin American Art (3)
Prerequisites: AH 111B or consent of instructor.

Investigation of developments in visual culture in Latin America from the late-18th century to the mid-20th century, with special emphasis on artists in Argentina, Brazil, Colombia, Mexico, Uruguay, and Venezuela.
Letter grade only (A-F).

459/559. Contemporary Latin American Art (3)
Prerequisites: AH 111B or consent of instructor.

Investigation of developments in visual culture in Latin America from the mid-20th century to the present, with special emphasis on artists in Argentina, Brazil, Chile, Colombia, Cuba, Mexico, and Venezuela, as well as Latin/Latino artists.
Letter grade only (A-F).

465/565. Ancient Art of the Near East (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Near Eastern, Egyptian, and Aegean art.
Not open for credit to students with credit in ART 465 or 598U. Letter grade only (A-F).

466/566. Buddhist Art of India and S.E. Asia (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Formation and development of Buddhist art in India and subsequent rearticulations in Cambodia, Thailand, and Indonesia examined.
Not open for credit to students with credit in ART 466 or 598V. Letter grade only (A-F).

467/567. Hindu and Islamic Art of India (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Formation and development of Buddhist art in India and the genesis, as well as transformation, of Islamic art of India compared to pan-Islamic characteristics will be examined.
Not open for credit to students with credit in ART 467 or 598W. Letter grade only (A-F).

468/568. Early Chinese Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Formation and development of Chinese art from third millennium to 10th century A.D.
Not open for credit to students with credit in ART 468 or 598X. Letter grade only (A-F).

469/569. Later Chinese Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.

Development of Chinese art from the 11th century A.D. through the culmination of the tradition and its transformation in the 20th century will be explored.
Not open for credit to students with credit in ART 469 or 598Y. Letter grade only (A-F).
470A/570A. Japanese Buddhist Art to 1500 (3)
Prerequisite: One of the following: AH 113A, 113B, 111A, 111B, ART 393, 451, consent of instructor.
Survey of sacred architecture, sculpture, painting, gardens and decorative art from prehistoric culture through Zen Buddhism, reading images in regard to religious, political and social values.
Not open for credit to students with credit in ART 470. Letter grade only (A-F).

470B/570B. Japanese Art 1500-1868 (3)
Prerequisite: AH 113A, 113B, 111A, 111B, ART 393, 451, or consent of the instructor.
Analysis of secular painting, architecture, ceramics and garden design in the Momoyama and Edo periods, linking the wide variety of subjects and styles to the complex values of samurai, priest, aristocrat or merchant class patrons.
Not open for credit to students with credit in AH 470. Letter grade only (A-F).

471A/571A. Modern Japanese Graphic Art (3)
Prerequisite: One of the following: AH 113A, 113B, 111A, 111B, ART 393, 451, or consent of the instructor.
Examination of painting, prints, photography and graphic design in regard to an era when being modern was often linked to being Western. We also consider manga in regard to earlier modern adaptations of traditional design.
Not open for credit to students with credit in AH 471. Letter grade only (A-F).

471B/571B. Modern Japanese Plastic Art (3)
Prerequisite: One of the following: AH 113A, 113B, 111A, 111B, ART 393, 451, or consent of the instructor.
Investigation of architecture, gardens, sculpture and ceramics in light of debates over Internationalism or nationalism, modernity or tradition. The political and economic implications of design choices will be highlighted.
Not open for credit to students with credit in AH 471. Letter grade only (A-F).

471C/571C. Modern Japanese Architecture (3)
Prerequisites: AH 113A or AH 113B or AH 111A. AH 111B or AH 111C
Analysis of "Japaneseness" and "foreign-ness" in Japan between 1868 and 1970. Examination of Japanese conceptions of and reactions to "modernity" in regard to national identity as expressed in architecture and gardens. Related consideration of urbanism and nationalism.
Letter grade only (A-F).

495. Independent Study in Art History (1-6)
Independent research conducted under supervision of faculty member. Student and instructor must have on file in Department of Art an approved written agreement, established at beginning of course, outlining description of work, specific tasks required, nature of final report, and basis for determining final grade.
Letter grade only (A-F).

498. Special Topics in Art History (3)
Prerequisite: AH 447 or consent of instructor.
Opportunity for extensive work with faculty supervision on individual problems in art history.
May be repeated to a maximum of 9 units. Not open for credit to students with credit in ART 498. Letter grade only (A-F).

497/597. Seminar in Art History (3)
Prerequisite: Consent of instructor.
Directed individual research and group discussion concerning a topic in art history.
May be repeated to a maximum of 6 units in the same semester and 9 units in different semesters. Not open for credit to students with credit in ART 497 or 611 beyond combined maximum units. Letter grade only (A-F).

499. Special Topics in Art History (3)
Prerequisite: Consent of instructor.
Topics from selected areas of Art History. Content may vary each semester.
Topics will be announced in the Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester and a total of 12 units in different semesters.

499Q. Special Studies in Museum Studies (3)
Prerequisites: AH 431 or consent of instructor.
Opportunity for extensive individual work with faculty supervision on problems in museum studies, including utilizing the resources of The Center for Southern California Studies in the Visual Arts.
May be repeated to a maximum of 3 units in the same semester and 9 units in different semesters. (6 hrs. lab.) Not open for credit to students with credit in ART 499Q. Letter grade only (A-F).

500.400. 19th Century Photography (3)
Prerequisites: AH or ART graduate student, or consent of the instructor.
Examination of 19th century photography.
Latter grade only (A-F).

501.401. American Art to 1900 (3)
Prerequisites: AH 111A, 111B or consent of instructor.
Survey of American art from the time of European settlement to roughly 1900 with special focus on cultural, political, and historical contexts. Combines slide lecture with discussion of primary and secondary readings.
Letter grade only (A-F).

502. The Rise of Landscape Painting (3)
Prerequisite(s): AH 111A, 111B or consent of instructor.
Examination of emergence and transformation of landscape painting in Europe and America between 1750 and 1850 with special focus on cultural, political, and historical contexts. Combines slide lecture with discussion of primary and secondary readings.
Letter grade only (A-F).

508.408. Early Christian and Byzantine Art (3)
Prerequisites: AH 111A, 111B or consent of instructor.
Architecture, mosaics and sculpture of Rome, Ravenna and Constantinople from the decline of the Roman Empire to the end of the Byzantine era.
Not open for credit to students with credit in ART 408 or 508B. Letter grade only (A-F).

509.409. Romanesque Art (3)
Prerequisites: AH 111A, or consent of instructor.
Arts of Northern Europe from Merovingian through the Romanesque periods.
Not open for credit to students with credit in ART 409 or 598C. Letter grade only (A-F).

510.410. Gothic Art (3)
Architecture, sculpture, and painting in western Europe from the 12th through the 14th centuries, with special attention to the construction and decoration of the great cathedrals, and to the development of new approaches to style and content in the figurative art of the 14th-century Italy.
Not open for credit to students with credit in ART 410 or 598D. Letter grade only (A-F).

511.411. History and Criticism of Photography (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
History of photography from its origins to contemporary developments in the twentieth century. Critical and philosophical approaches to the photographic medium.
Not open for credit to students with credit in ART 411 or 511. Letter grade only (A-F).

2009/2010 CSULB Catalog • Art • 167
516.416. Greek Art (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Survey of Greek art from beginning in Aegean period through late Hellenistic period, concentrating on major categories of architecture, sculpture, painting, vase painting, and so-called minor arts discussed relative to contemporary theories, art史, and history. Focus on techniques and materials of various arts.
Not open for credit to students with credit in ART 416 or 508E. Lottor grade only (A-F).

517.417. Roman Art (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Survey of art of the Romans, including indigenous art of the Italic peoples and the Etruscans, and Roman art from early Republic to Age of Constantine. Discussion of major art forms of architecture, sculpture, painting, and so-called minor arts.
Not open for credit to students with credit in ART 417 or 508L. Lottor grade only (A-F).

523.423. Early Renaissance Art in Italy (3)
Examination of stylistic and technical developments of fifteenth-century Italian painting, sculpture, and architecture, as well as interaction of cultural, social, and religious developments with visual arts. Special attention to the revival of classicism, influence of private patrons.
Not open for credit to students with credit in ART 423 or 508F. Lottor grade only (A-F).

524.424. High Renaissance Art in Italy (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examination of sixteenth-century Italian painting, sculpture, and architecture, emphasizing works of Raphael, Michelangelo, Titian, and the Mantuan School. Historical, cultural, religious, and theoretical framework. Special attention to works by a handful of major artists (Leonardo da Vinci, Michelangelo, Raphael, Titian, and the Mantuan School).
Not open for credit to students with credit in ART 424 or 508G. Lottor grade only (A-F).

525.425. Northern Renaissance Painting (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examination of artistic developments in Northern Europe, particularly in Flanders, France, and Germany, from the 14th century through the 16th century. Historical, cultural, religious, and theoretical framework. Special attention to iconography, and the changing role of the artist in society.
Not open for credit to students with credit in ART 425 or 508H. Lottor grade only (A-F).

526.426. Baroque Art in Spain, the Netherlands, and England (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examines the closely intertwined political and artistic situations in the Netherlands (Flanders and Holland), England and Spain during the 17th and early 18th centuries. Emphasis on the relationships between Rubens and Velasquez, and the contrast between Rubens and Rembrandt; also Flemish influence in England, due especially to Anthony van Dyck.
Not open for credit to students with credit in ART 426 or 508J. Lottor grade only (A-F).

527.427. Baroque Art in Italy, France, and Germany (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examines the birth of the Baroque in Rome, and the role of the Counter-Reformation in shaping artistic center in Italy and France in the early 17th century. Also covers the influence of the Versailles court of the "Sun King," Louis XIV, in the late 17th and early 18th centuries, especially in the independent Neoclassical style.
Not open for credit to students with credit in ART 427 or 508K. Lottor grade only (A-F).

530.430. Introduction to Curatorial Practices (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Study of contemporary art display theory/practice including exhibition typologies, curatorial modes, and recent transformations in museums, galleries and the art market. Designed for Museum and Curatorial Studies Certificate students and others interested in studying museum practices within a broader context.
Lottor grade only (A-F). Not open for credit to students with credit in AH 435B, 535B.

531.431. History of Museums and Exhibitions (3)
Prequisites: AH 111A, 111B or by consent of student advisor.
Study of history of art museums and how displays reflect social and cultural conditions and political ideologies. Attention to controversial exhibitions, and recent transformations in the field.
Lottor grade only (A-F). Not open for credit to students with credit in ART 435, 435A, or 535A.

536.436. Neo-Classicism to Romanticism, 1780-1850 (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examination of Neo-Classicism, Realism, Romanticism, photography and the academic tradition in art and culture of Europe from 1789-1850.
Not open for credit to students with credit in ART 436 or 508M. Lottor grade only (A-F).

537.437. Impressionism to Post-Impressionism, 1850-1900 (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Analysis of the development of Impressionism and Post-Impressionism in France from 1850 to 1900.
Not open for credit to students with credit in ART 437 or 508N. Lottor grade only (A-F).

538.438. Art of Early to Mid Twentieth Century (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examination of key developments, trends, movements of the period including Abstraction, Non-Objective art, Expressionism, Dada, and Surrealism.
Lottor grade only (A-F). Not open for credit to students with credit in ART 438 or 508P.

539.439. Art of Mid to Late Twentieth Century (3)
Prequisites: AH 111A, 111B, or consent of instructor.
Examination of key developments, trends, movements of the period including Pop-Art, Happenings, Minimal Art, Art and Technology, Environmental Concept, Performance and Video Art.
Lottor grade only (A-F). Not open for credit to students with credit in ART 439 or 508Q.

541.441. Contemporary Art in Context (3)
Prequisites: Graduate Student in Art History or consent of instructor.
International survey focusing on developments in art from late twentieth century to present. Examination of precedents, traditions, legacies behind current art. Consideration of critical/theoretical issues and factors influencing production and reception of current art.
Lottor grade only (A-F).

542. Internship in Museum Studies (3)
Prequisites: AH 430/530 or consent of instructor.
Supervised internship in selected museums, college and community art centers appropriate to student's particular academic interest. Opportunity to work with museum professionals in the field to expand student understanding of the complexities, disciplines and challenges in the profession.
Lottor grade only (A-F). May be repeated to a maximum of 3 units in the same semester and 5 units in different semesters. (F, hrs. lab.) Not open for credit to students with credit in ART 542.
544. History of Graphic Design (3)
Prerequisites: For 444: AH 111A and 111B, or consent of instructor. For AH 544: Graduate Student in Department of Art, or consent of instructor.
Thematic approach to Graphic Design history, with consideration of pioneering designers, movements, and cultural, social, political and technological influences in the evolution of graphic design.
Not open for credit to students with credit in Art 306. Letter grade only (A-F).

545A. Museum-Gallery Practices (3)
Prerequisites: AH 431 or AH 531 or consent of instructor. First in a four-course sequence.
Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.
Letter grade only (A-F).

545B. Museum-Gallery Practices (3)
Prerequisites: AH 545A or consent of instructor.
Second in a four-course sequence. Pro-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.
Letter grade only (A-F).

545C. Museum-Gallery Practices (3)
Prerequisites: AH 545B or consent of instructor. Third in a four-course sequence.
Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.
Letter grade only (A-F).

545D. Museum-Gallery Practices (3)
Prerequisites: AH 545C or consent of instructor. Fourth in a four-course sequence.
Pre-professional training in museum-gallery practices: administration, curating, exhibition planning and design, budgeting, public relations, project completion, documentation, publication. University Art Museum and other venues serve as labs for practical experience in developing and realizing exhibitions.
Letter grade only (A-F).

546. Art History Methodologies and Writing (3)
Prerequisites: AH 111A and 111B.
Practices in writing and conducting research in art history, and introduction to various methodologies and debates within the discipline, including biography, formalism, semiotics, gender studies, psychoanalysis, Marxism, post-colonialism, and visual culture studies.
Letter grade only (A-F).

547. Historiography of Art History (3)
Prerequisites: For 447: undergraduate Art History major with senior status or consent of instructor. For 547: graduate student in AH History or consent of instructor.
Study of the history of art history as intellectual discipline. Reading and writing intensive seminar designed specifically for undergraduate art history majors in final year of study and for graduate students in M.A. in Art History program.
Letter grade only (A-F). Not open for credit to students with credit in ART 307 or AH 307.

548. Western Art Theory and Criticism to the Mid-Nineteenth Century (3)
Prerequisites: For 448: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 548: graduate student in Art History or consent of instructor.
A text-based examination of western art theory and criticism up to the mid-nineteenth century.
Letter grade only (A-F). Not open for credit to students with credit in AH 308.

549. Western Art Theory and Criticism Mid-Nineteenth to Mid-Twentieth Century (3)
Prerequisites: For 449: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 549: graduate student in Art History or consent of instructor.
A text-based examination of western art theory and criticism from the mid-nineteenth to mid-twentieth centuries. Not open for credit to students with credit in AH 309.
Letter grade only (A-F).

550. Western Art Theory and Criticism Mid-Twentieth Century to Present (3)
Prerequisites: For 450: undergraduate Department of Art major and 111A and 111B, or consent of instructor. For 550: graduate student in Art History or consent of instructor.
A text-based examination of western art theory and criticism from the mid-twentieth century to the present.
Letter grade only (A-F). Not open for credit to students with credit in AH 310.

555. Traditional Art of Africa: A Thematic Approach (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Exploration from a Western perspective of the conceptual, expressive, and aesthetic aspects of traditional African art as related to its cultural context and to Western concepts of art. Focus on West Africa.
Not open for credit to students with credit in ART 455 or 598R. Letter grade only (A-F).

556. American Indian Art: Western Perspectives (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Explorations from a Western perspective of the historically various and changing frames of reference surrounding perception, interpretation, and consideration of Native American art through focus on selected traditions.
Not open for credit to students with credit in ART 455 or 598S. Letter grade only (A-F).

557. Pre-Columbian Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Survey of art and architecture in Mesopotamia and Andean region of South America from 10000BC to Spanish conquest. Special attention to social, political and economic contexts, as well as research methods and theoretical assumptions of scholars investigating this field.
Letter grade only (A-F).

558. Modern Latin American Art (3)
Prerequisites: AH 111B or consent of instructor.
An investigation of developments in visual culture in Latin America from the late-19th century to the mid-20th century, with special emphasis on artists in Argentina, Brazil, Colombia, Mexico, Uruguay, and Venezuela.
Letter grade only (A-F).

559. Contemporary Latin American Art (3)
Prerequisites: AH 111B or consent of instructor.
An investigation of developments in visual culture in Latin America from the mid-20th century to the present, with special emphasis on artists in Argentina, Brazil, Chile, Colombia, Cuba, Mexico, and Venezuela, as well as Latino/a artists.
Letter grade only (A-F).
565/465. Ancient Art of the Near East (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Not open for credit to students with credit in ART 465 or 598U.
Letter grade only (A-F).

566/466. Buddhist Art of India and S.E. Asia (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
The development and development of Buddhist art in India and its
subsequent metamorphoses in Cambodia, Thailand and Indonesia
will be examined.
Not open for credit to students with credit in ART 466 or 598V.
Letter grade only (A-F).

567/467. Hindu and Islamic Art of India (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
The formation and development of Hindu art in India and
the genesis, as well as transformation, of Islamic art in India
comparing to pan-Islamic characteristics will be examined.
Not open for credit to students with credit in ART 467 or 598W.
Letter grade only (A-F).

568/468. Early Chinese Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
The formation and development of Chinese art from the third
millennium to the 10th century A.D.
Not open for credit to students with credit in ART 468 or 598X.
Letter grade only (A-F).

569/469. Later Chinese Art (3)
Prerequisites: AH 111A, 111B, or consent of instructor.
Development of Chinese art from the 11th century A.D. through
the domination of the industry and its transformation in the 20th
century will be explored.
Not open for credit to students with credit in ART 469 or 598Y.
Letter grade only (A-F).

570A/470A. Japanese Buddhist Art to 1500 (3)
Prerequisite: One of the following: AH 113A, 113B, 111A, 111B, A/ 
ST 393, 451, or consent of instructor.
Survey of sacred architecture, sculpture, painting, gardens
and decorative art from Neolithic culture through Zen Buddhism,
including the spiritual, political, and social values.
Not open for credit to students in AH 470. Letter grade only (A-F).

570B/470B. Japanese Art 1500-1868 (3)
Prerequisites: AH 113A, 113B, 111A, 111B, A/ST 393, 451, or
consent of instructor.
Analysis of secular painting, architecture, ceramics and garden
design in the Momoyama and Edo periods, linking the wide variety
of styles and styles to the competing values of samurai, priest,
artist, and merchant class patrons.
Not open for credit to students in AH 470. Letter grade only (A-F).

571A/471A. Modern Japanese Graphic Art (3)
Prerequisites: One of the following: AH 113A, 113B, 111A, 111B, A/
ST 393, 451, or consent of instructor.
Examination of painting, prints, photography and graphic design
in Japan in the context of the issues of modernity and nationalism in an
era when being modern was often linked to being Western. We
also consider manga in regard to earlier modern adaptations of
traditional design.
Not open for credit to students with credit in AH 471. Letter grade only (A-F).

571B/471B. Modern Japanese Plastic Art (3)
Prerequisites: One of the following: AH 113A, 113B, 111A, 111B, A/ST
393, 451, or consent of instructor.
Investigation of architecture, gardens, sculpture and ceramics in light of
debates over internationalism or nationalism, modernity or tradition.
The political and economic implications of design choices will be
highlighted.
Not open for credit to students with credit in AH 471. Letter grade only (A-F).

571C/471C. Modern Japanese Architecture (3)
Prerequisites: Art History Graduate Student
Analysis of "Japaneseness" and "foreign-ness" in Japan between 1908
and 1970. Examination of Japanese creations of and reactions to
"modernity" in regard to national identity as expressed in architecture
and gardens. Related consideration of urbanism and nationalism.
Letter grade only (A-F).

595. Independent Study in Art History (1-6)
Independent, in-depth research projects to be conducted by students
under the supervision of a faculty member.
As per university policy on independent studies courses, each student
enrolled in this course must have an agreement, or contract, on
file in the department office. The agreement is to be made between
the student and the instructor at the beginning of the course, and
must include: a description of the work to be accomplished; specific
information on the tasks required; the nature of the final report; and the
basis for determining the final grade. The agreement must be signed
by both the instructor and the student.
Letter grade only (A-F). May be repeated to a maximum of 12 units in the
same semester.

596. Special Studies in Art History (3)
Graduate level variable directed study projects providing a way for
students to independently pursue special research topics in art history
under instructor supervision.
Letter grade only (A-F). May be repeated to a maximum of 12 units in
the same semester.

597/497. Seminar in Art History (3)
Prerequisite: Consent of instructor.
Directed individual research and group discussion concerning a topic
in art history.
May be repeated to a maximum of 6 units in the same semester and 9
units in different semesters. Not open for credit to students with credit in
ART 497 or 511 beyond combined maximum units.
Letter grade only (A-F).

598. Special Topics in Art History (3)
Prerequisite: Consent of instructor.
Topics from selected areas of Art History. Content may vary each
semester.
Topics will be announced in the Schedule of Classes. Letter grade only
(A-F). May be repeated to a maximum of 6 units in the same semester
and a total of 12 units in different semesters.

599Q. Special Studies in Museum Studies (3)
Prerequisites: Consent of instructor.
Advanced individual graduate projects, with faculty supervision, in
museum studies.
May be repeated to a maximum of 6 units in the same semester and a total
of 12 units in different semesters. (6 hrs. lab.) Letter grade only (A-F).

698. Thesis (1)
Prerequisites: Art History MA student, advancement to Candidacy and an
approved Thesis Statement.
Execution and completion of an approved thesis. Student must enroll
in three sections concurrently. To be taken with each of student's three
MA Thesis Committee members over two semesters for a total of 6
units.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the
same semester.

Introduction

The College of the Arts at California State University, Long Beach is one of the largest and most respected state supported arts colleges in the country. With more than 4,500 students studying in six departments, the College of the Arts (COTA) offers nationally recognized, fully accredited degree programs in Art, Dance, Design, Film and Electronic Arts, Music, and Theatre Arts. The College of the Arts is located in close proximity to the Los Angeles/Hollywood area and has many ties to the arts and entertainment industries. The curriculum focuses on professional development in the applied or performance fields of study. The goal of most students is professional employment as artists, designers, or performers in their chosen disciplines.

The learning opportunities within the College of the Arts reflect its commitment to the arts in all forms. For performers, artists, and scholars, the College of the Arts provides an environment designed for individual achievement. It offers programs to meet the needs of students who wish to:
- Pursue professional careers in art, dance, design, music, electronic media, film, or theatre arts
- Teach one or more of the arts
- Explore the creative uses of technology in the arts
- Follow a degree program that provides a broad education with a focus in the arts
- Learn about the history and nature of the arts in Western and non-Western cultures
- Develop appreciation of art forms and their lasting value to the quality of life

At the undergraduate level, the College of the Arts offers a comprehensive variety of professional degree programs meeting the highest standards of excellence, including the:
- Bachelor of Fine Arts Degree in Art
- Bachelor of Fine Arts Degree in Design
- Bachelor of Fine Arts Degree in Dance
- Bachelor of Science Degree in Industrial Design
- Bachelor of Music Degree

For students seeking a liberal education with the arts as a focus, the departments of Art, Dance, Design, Music, Film and Electronic Arts, and Theatre Arts offer Bachelor of Arts degrees.

The Art Department also offers a comprehensive Bachelor of Arts degree in Art History.

Students wishing to earn a degree in arts education may choose from the Bachelor of Arts Degree in Art Education or the Bachelor of Music Degree in Instrumental or Choral/ Vocal Music Education. Students may also earn a California Single Subject Credential in Art or Music, offered jointly between the College of the Arts and the College of Education.

At the graduate level, the College of the Arts offers outstanding professional degree programs, including the:
- Master of Fine Arts Degree in Art
- Master of Fine Arts Degree in Dance
- Master of Fine Arts Degree in Theatre Arts
- Master of Fine Arts Degree in Dramatic Writing
  (offered by the Department of Theatre Arts with primary support from the Department of Film and Electronic Arts)
- Master of Business Administration/Master of Fine Arts in Theatre Management (offered jointly by the Departments of Theatre Arts and the College of Business Administration)
- Master of Music Degree

The College also offers the Master of Arts Degree in the Departments of Art and Music. For students seeking a graduate degree in arts education, the College offers the Masters of Arts Degree in Art Education, Dance Education, and Music Education.

The Art Department also offers a comprehensive Master of Arts Degree in Art History.

Other special programs in the College of the Arts include an Undergraduate Certificate in Biomedical Illustration and a Graduate certificate in Museum Studies, both in the Department of Art.

Departments in the College are accredited by the major accrediting agency for their discipline: The National Association of Schools of Art and Design, The National Association of Schools of Dance, The National Association of Schools of Music, and the National Association of Schools of Theatre. The faculty of the College of the Arts is an accomplished group of artists and scholars who bring significant expertise and professional experience to their teaching assignments.

The College of the Arts is also home to the University Art Museum, a nationally accredited art museum which presents exhibitions of professional stature focusing primarily on contemporary artists as well as the California Reportory Company and the California Institute for the Preservation of Jazz. California Reportory Company, the Theatre Arts Department's graduate and professional theatre program, is the only company of its kind in the CSU system.

Major performance and exhibition facilities include the University Art Museum, the five Art Department Galleries, the University Theatre, the Studio Theatre, the Edison Theatre, the Donald R. Daniel Recital Hall, the Martha Knobler Dance Theater, and the Richard and Karin Carpenter Performing Arts Center.

2009/2010 CSULB Catalog • Arts, College of the • 171
Arts Center. The extensive performance calendar generated by the wide-ranging curricula includes over 300 student and faculty concerts including music performances, film showcases, theatre productions, dance performances, art exhibitions, and design presentations. The College of the Arts is a highly visible part of the campus community, as well as an important cultural and economic resource in the Long Beach/Los Angeles and Orange County areas.

**Bob Cole Conservatory of Music**

In March 2008, the CSULB Department of Music was officially designated the Bob Cole Conservatory of Music, in recognition of a significant gift devoted to student scholarships. The Cole Conservatory of Music is one of the largest, most comprehensive music programs in the Western United States, with graduate and undergraduate degrees offered in performance, composition, history and literature, music education and jazz studies. Student and faculty recitals, combined with concerts by more than 20 performance ensembles, produce a calendar of more than 150 public performances each year, on campus and off.

**University Art Museum**

The University Art Museum, which recently celebrated its 25th anniversary, is ranked among the top 10% of the nation’s 7,000-plus museums. The only accredited museum in the CSULB system, it has achieved worldwide acclaim for its exhibitions, publications, and collections of contemporary artworks. In 1999, the museum was the recipient of the Hampton Collection, a $3.2 million gift featuring 85 stunning mid-century abstractions by 42 artists.

**The Richard and Karen Carpenter Performing Arts Center**

The Carpenter Performing Arts Center opened in 1994. Designed by local architect Donald Gibb, the elegant performance hall has enriched the surrounding community with hundreds of music, dance, film, and theatre events. The Carpenter Center, which seats 1,065 patrons, can accommodate large or small performing ensembles, film screenings, concerts, conferences, and other special events.

**The California Institute for the Preservation of Jazz**

The Jazz Institute is a state agency housed in the College of the Arts. The Institute's mission is to provide jazz education, outreach, performance, and preservation services for the western region of the United States. The Jazz Institute has acquired more than 50,000 records, 7,500 compact discs, 5,000 tapes, and thousands of books, periodicals, photos, and memorabilia, as well as a collection of broadcast transcriptions and hundreds of hours of filmed and videotaped performances.

Bachelor of Arts in Asian Studies
(code A/STBA01) (120 units)

Students choosing an Asian Studies major are advised to select one of two tracks for the degree. The student may choose an area of studies track, concentrating on one or more specific Asian societies, such as China, Japan, India, or Southeast Asia. Or, the student may choose to focus on an Asian American Studies track and combine the study of Asian Americans as ethnic minorities with supporting investigation of the countries of their historical origin.

Requirements
1. ASAM 120 or 200;
2. A/ST 301, 301a and 402;
3. Three semester (or the equivalent) of a single Asian language, chosen from courses in Chinese, Japanese, or an Asian language approved by the undergraduate advisor.

Upper Division: A minimum of 21 units; students should select one of the following two tracks:

1. Area Studies Track

21 units of upper division work, including A/ST 492 (Proseminar in Asian Studies), and additional courses selected from the list of approved electives with the following provisions: (1) no more than 9 units shall be
counted in a single discipline such as art or history, (2) no more than 9 units shall be credited that concentrate upon any one area of Asia, chosen from among the following: China, India, Japan, or Southeast Asia. No more than 6 units of courses on the Americas can be applied toward this requirement. In the case of seminar, thematic, or variable topic courses, the assignment of a disciplinary and/or geographic category will be made by the undergraduate advisor in consultation with the appropriate faculty member).

II. Asian American Studies Track

21 units of upper division work, selected from the list of approved electives with the following provisions: (1) A/ST 492 (Proseminar in Asian Studies [3 units]); (2) 12 units of upper division Asian American Studies including ASAM 310 and 345; (3) the remaining upper division units focusing on one geographical area of Asia, chosen from among the following: China, India, Japan, or Southeast Asia.

Certificate in Asian Studies
(code A/STC701)

A student may earn a Certificate in Asian Studies with a concentration on China, Japan, India, or Southeast Asia. Where applicable, courses used to meet the certificate requirements also may be used to satisfy the General Education requirement and the major and teaching minor requirements of the cooperating departments.

Requirements
1. A bachelor's degree, with a major in a discipline other than Asian Studies. May be completed concurrently;
2. A minimum of two semesters or its equivalent of an approved Asian language which is to be selected in accordance with the area of concentration;
3. A total of 30 units, 30 of which are upper division work divided among two or more disciplines. Those are to be selected in accordance with the area of concentration and in consultation with the student's advisor. No more than 6 units in any one discipline shall apply towards the Certificate.

Bachelor of Arts in Asian American Studies
(code A/STBA04) (120 units)

The Bachelor of Arts degree in Asian American Studies provides an interdisciplinary approach to explore the diverse histories, cultures, communities, and contemporary realities in Asian America. It is designed to offer students an opportunity to develop a greater understanding of the complexities of Asian American experiences and to prepare them to function in a multicultural and intercultural world. The communication and critical skills which are stressed in the program will be instrumental to students pursuing postbaccalaureate degrees in "traditional" disciplines, including History, Geography, Sociology, Psychology, and Literature; in interdisciplinary programs like Ethnic Studies and Women's Studies; and in professional fields such as Law, Business Administration, and Social Work. The program's curriculum and broad liberal arts perspectives likewise will prepare students for employment in several professions, including education, public policy, community development, media, social services, and human resources. Admission to the program requires completion of the G.E. Foundation courses.

Requirements
A major in Asian American Studies requires a minimum of 34 units, with at least 18 units earned in residence at CSULB. The 34 required units are to consist of:
A. 6 units of lower-division core courses
B. 16 units of upper-division core courses
C. 12 units of upper-division electives in the following areas:
  1. Specific Ethnic Group Focus
  2. Gender Studies
  3. Asian Americans in Comparative Perspectives
  4. Explorations in Asian America

Lower-Division Core Courses (6 units): ASAM 120, 221.
Upper-Division Core Courses (16 units): A/ST 300L, 301L, or 310; ASAM 305, 345, 346, 495
Upper-Division Electives (12 units): selected from at least two of the following groups:
  Group 2. Gender Studies: ASAM 340, 370, 381
  Group 3. Asian Americans in Comparative Perspectives: ASAM 319, 321, 335L, 341, 342
  Group 4. Explorations in Asian America: ASAM 310, 347, 360, 380, 410, 490, 499

Minor in Asian American Studies
(code A/STUM01)

Requirements
The Minor in Asian American Studies is available to all majors. A minimum of 22 units which must include:
A. ASAM 120, 200 or 319, 221, 305, and 345;
B. six units selected from among the following: ASAM 250, 310, 321, 330, 331, 332, 333, 334, 336, 340, 341, 342, 346, 347, 352, 353, 360, 370, 381, 410, 490, and 495.

Certificate in Asian American Studies
(code A/STC702)

Students pursuing any approved degree or credential degree or credential program of the University may at the same time earn a Certificate in Asian American Studies. Courses taken to meet the requirements may simultaneously be used, where applicable, to meet General Education requirements or the degree or credential requirements of cooperating departments. Certification of successful completion of requirements will be issued upon the recommendation of the Department Chair.

Requirements
1. A bachelor's degree with a major other than Asian American Studies. May be completed concurrently;
2. A minimum of 30 units distributed as follows:
   A. (required): ASAM 120, 200 or 319, 221, 305, 345, 360, 495 plus

Interested students should apply to the Department Chair.
Graduate Programs

Master of Arts in Asian Studies (code A/STM01)

The Master of Arts degree in Asian Studies is an interdisciplinary degree offered by the Asian Studies faculty of its cooperating departments. It is especially aimed at those intending to pursue careers in teaching, foreign service, or foreign trade. Students applying for the M.A. Program in Asian Studies must apply for admission to the University and simultaneously provide official transcripts, two letters of recommendation, and a statement of purpose to the graduate advisor of the department.

Prerequisites
1. A Bachelor's degree with a major in Asian Studies; or
2. A Certificate in Asian Studies, awarded at CSULB, or its equivalent as evaluated by the Graduate Advisor of the Department of Asian and Asian American Studies. Equivalency will, normally, be granted for work in Asia-related studies at CSULB and/or at other academic institutions, including a minimum of 18 units in no more than four disciplines with a minimum of six units in each of two disciplines of concentration plus two semesters of an approved Asian language. Only courses with a substantive Asia-related content are acceptable; or
3. A bachelor's degree in one of the fields in social science, humanities, or fine arts with 24 units of upper division Asia-related courses. These courses must be comparable to those required of a major in Asian Studies at this University. Deficiencies will be determined by the graduate advisor after consultation with the student and after evaluation of transcript records. Students whose undergraduate prerequisites are inadequate will be required to fulfill these deficiencies before advancement to candidacy and will receive unclassified graduate status until all deficiencies are removed.

Advancement to Candidacy
1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of 6 or more of the required units (not including language) with a minimum 3.0 overall GPA;
3. Approval of proposed program of study;
4. Satisfactory fulfillment of the Graduate Writing Assessment Requirement (GWAR).

Requirements
1. A minimum of 30 units of approved upper division and graduate courses including A/ST 502 and A/ST 610. At least 18 units must be in the 500-600 series composed of units earned at this University in graduate courses, graduate seminars, Directed Studies/Research or Thesis. All seminars and independent study courses may be repeated to a total of six (6) units, provided the topic is different. Directed Studies, Readings and Research, in any combination, may not exceed a total of six (6) units: A/ST 693 (thesis) must be taken for a minimum of four and a maximum of six units will be given for A/ST 698 for those taking the thesis option.

2. A minimum of three upper division units in each of two disciplines of concentration must be taken preparatory to seminar work. Students should take at least six units of 500/600 level work in each of the two disciplines or concentrations;
(N.B. Determination of the disciplinary status of any Asian Studies or any other courses taken at CSULB or other academic institutions shall be at the discretion of the Graduate Advisor in consultation with faculty, review of syllabi and reading lists, assessment of transcripts, etc.)

3. Comprehensive written examination in each of the two disciplines of concentration or a thesis. Students must have received permission of the Graduate Advisor, faculty advisor, and prospective committee members before being allowed to file for the thesis option. Once selected, a student may not change his/her option.

4. Six units (beyond the B.A. level) in Chinese or Japanese or an Asian language approved by the Graduate Advisor. Waiver of this requirement, either by transfer of credits from another institution or by assessment of proficiency by resident faculty, is at the discretion of the Graduate Advisor of the Department of Asian and Asian American Studies.

Upper Division Courses Acceptable:
A/ST 320, 406AB, 490, 492, 499; ANTH 332, 333, 335, 416, 417, 419, 427, 430; AH 468, 467, 469, 469, 470S, 471AB, 492, 498; CWL 493; 448; CHIN 380, 390, 410, 430ABC, 451, 490, 492, 499; GEOG 326, 494, 497; HIST 384, 386, 405, 406A, 406B, 408, 495, 496, 498; JAPN 380, 451, 471, 490, 497; PHIL 399; POSC 362, 364, 456, 469; 498, 499, 499; R/ST 490, 499; WGS 492, 493, 499; 499
* course must be an approved Asia-related topic.

Asian Studies (A/ST)

LOWER DIVISION

190. The Tao Primer of Basic Reasoning (3)
Prerequisites/Corequisites: ENGL 100 or its equivalent. Natural language of Tao aphorisms used for informal and formal types of reasoning, learning Yin and Yang basic analytic steps; applying Tao principles and processes of reasoning to contemporary, common-place, and intercultural issues and problems logically and practically.

290. Special Topics in Asian Studies (3)
Prerequisite: Consent of instructor. Topics of special interest in Asian Studies selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

299. Directed Studies (1-3)
Prerequisite: Consent of instructor. Directed studies to permit individual students to pursue topics of special research interest. May be repeated to a maximum of 6 units. Letter grade only (A-F).
Asian Studies (A/S/T)

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students must also complete prerequisites and/or competency equivalent for advanced study.

301L. Traditional Asia (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses, and upper-division standing.

Interdisciplinary examination of traditional civilizations of Asia. This team-taught course focuses on two major civilizations, normally China and India, and may periodically focus on Japan. Course examines topics related to Asian cultures to illustrate the richness and diversity of Asia.

301L. Modern Asia (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Emphasis on development of Asia since the 19th century and its role in the modern world; some attention to the experience of Asians in the U.S. Continuity and change, reform and revolution in culture, politics and the economy will be included.

310. United States and Asia (3)
Prerequisite: Completion of GE Foundation requirements.

Focusing on the post-1945 period, this course will examine four major areas: (1) key religious, political and political currents in Asia; (2) cross-cultural currents of Asia and America; (3) Asian U.S. global economic relations; and (4) Asian-U.S. strategic and political relationships.

320. Asia in Fiction and Film (3)
Focus on Asian-Western interactions and particularly on Asian-Western perceptions of these interactions as manifested in the fiction of Asian cinema. Focus on China, Japan, and India, with particular attention given to Asian experience in America.

334. Introduction to East Asian Literatures and Cultures (3)
Prerequisite: Completion of GE Foundation requirements.

Comprehensive introduction to the comparative study of East Asian literatures through the reading of representative selections from the literatures of China, Korea, and Japan in historical context. Focus is on the modern period.

Same course as CWL 334. Not open for credit to student with credit in CWL 334.

336. Introduction to Southeast Asian Literatures and Cultures (3)
Prerequisite: Completion of GE Foundation requirements.

Survey of the traditional and modern literatures and cultures of Southeast Asia with a focus on the modern period. Not open for credit to student with credit in CWL 336.

393. Japan's Heritage (3)
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing.

Cultural heritage of Japanese civilization emphasizing history, philosophy, religion, literature and fine arts from prehistory to the present. Letter grade only (A-F).

406A. Asian Women: East and Northeast Asia (3)
Prerequisite: Upper division status.

Exploration of the histories of women in China, Japan and Korea from prehistory to the present. Major themes include women's contributions to social, cultural and political change, and the complex relationship between feminism and nationalism in the modern period.

Same course as HIST 406A and WGS 406A. Not open for credit to student with credit in HIST 406A, WIST 406A or WGS 406A.

406B. Asian Women: South and Southeast Asia (3)
Emphasis on modern period; exploration of complexities of women's roles in multicultural, multilingual societies in South and Southeast Asia, including gender as continuing site of contention in nationalist discourse.

Same courses as HIST 406B and WGS 406B. Not open for credit to student with credit in HIST 406B, WIST 406B or WGS 406B. Letter grade only (A-F).

490. Special Topics in Asian Studies (3)
The topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

B. China in Transition

D. Filipino Language, Literature and Culture

492/592. Proseminar in Asian Studies (3)
Prerequisites: Consent of instructor.

Introduction to research methods. Intensive study of selected conceptual and theoretical issues in Asian Studies or Asian American Studies. Area and discipline of emphasis will vary from year to year. May be repeated to a maximum of 6 units.

495L. China Heritage (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses; upper-division standing.

Cultural heritage explored through history, philosophy, religion and science; side by side with the fine arts; study of the totality of a people's humanistic experience. (Lecture, discussion, and film.) (Lecture, discussion, film.)

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.

Directed studies to permit individual students to pursue topics of special research interest. May be repeated to a maximum of 6 units. Letter grade only (A-F).

GRADUATE LEVEL

Graduate course descriptions are found in the departmental listings in which they are offered. Graduate courses applicable for the degree (only when the focus is on Asia) are: AH 506, 507, 508, 509, 510, 511, *516, *597; AJS/ST 544, 551, 552, 560, 565, 567, 568, ANTH 516, 517, 519, 597, 697, ART 511, ASAM 555, CHIN 530A, B.C., 551, 550, 592; CWL 503, 522, 549, 560, ECON 590; GEOG 650, 697; HIST 505, 506, 510G, 562, 565, 697; JAPN 551, 552, 551, 520, 565, 697; PHIL 597, POLSCI 590, 599, 600, 610, 697, 697; PSY 646, *690, *697.

544. Religions of Japan (3)
The transmission of continental civilization to Japan: Shinto, Buddhism and Tokugawa Neo-Confucianism; Gendai culture; and the New Religions. Emphasis on original texts in translation. Not open for credit to students with credit in RST 344. Letter grade only (A-F).

176 • Asian and Asian American Studies • 2009/2010 CSULB Catalog
551. Hinduism (3)
Survey of ancient, classical and medieval Hinduism. Emphasis on analysis of Upanishads, Bhagavad Gita and the various paths of Yoga. Not open for credit to students with credit in RST 351. Letter grade only (A-F).

592/J492. Proseminar in Asian Studies (3)
Prerequisites: Consent of the instructor.
Introduction to research methods. Intensive study of selected conceptual and theoretical issues in Asian Studies or Asian American Studies. Area and discipline of emphasis will vary from year to year. May be repeated to a maximum of 6 units. Letter grade only (A-F).

610. Seminar in Asian Studies (3)
Selected topics in Asian Studies. Area and discipline of emphasis will vary from year to year. Open to graduate students of Asian Studies. Graduate students in other disciplines may enroll with consent of instructor.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

695. Directed Readings (1-3)
Prerequisites: Consent of graduate advisor.
Readings in Asian Studies on an individual basis.
Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisites: Consent of graduate advisor.
Research in Asian Studies on an individual basis.
Letter grade only (A-F).

698. Thesis (2-6)
Prerequisite: Consent of the graduate advisor.
Planning, preparation, and completion of a thesis in Asian Studies.

Asian American Studies (ASAM)

LOWER DIVISION

1. Writing Skills (3)
Prerequisite: Students who score 147 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course. Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence, and paragraph. Methods for developing and organizing ideas in coherent essays. Conventional mechanics, spelling, and grammar. Also for bicultural and ESL students.
Does not count toward graduation, but does count toward course load. Credit/No Credit grading only.

100. Composition (3)
Prerequisites: A recorded total score of 151 or above on the English Placement Test, or credit in ASAM 1 (or its equivalent) or consent of the instructor.
Writing, revising, and editing non-fiction prose, with emphasis on exposition and argument. Critical reading strategies for research. Satisfies the baccalaureate degree requirement for one course in written composition in English. Also for bicultural and ESL students.
Not open for credit to students with credit in ENGL 100W, ENGL 101, AFRS 100, BIST 100, CHLS 104.

120. Asian American History (3)
Prerequisite/Corequisite: One G.E. Foundation course.
Overview of experiences of people of Asian ancestry in the United States. Major themes include: immigration (labor migration and refugee resettlement); racism and economic conflict; resistance to discrimination, and community building.
Not open for credit to students with credit in ASAM 220.

200. Asian American Inter-Ethnic Relations (3)
Prerequisites: Completion of GE Foundation requirements.
Introduction to a comparative survey of racial/ethnic experiences in the U.S., with a focus on Asian Americans.
Not open for credit to students with credit in AFRS 315, AIS 315, ASAM 315, BIST 319, CHLS 319, CLA 315, WGS 315, WGST 319. Letter grade only (A-F).

215. U.S. Diversity and the Ethnic Experience (3)
Prerequisites: Open only to Integrated Teacher Education Program students.
Survey of four major ethnic groups (American Indian, African American, Latino American, and Asian American) in American society from the colonial era to the present. Special attention to the formation and transformation of each ethnic group and their individual and collective roles in the development of the United States.
Letter grade only (A-F). Some course as AIS 215, AFRS 215, CHLS 215. Not open for credit to students with credit in AFRS 215, AIS 215, BIST 215, CHLS 215. Departments take turns offering the course in the fall semester.

221. Contemporary Issues in Asian America (3)
Prerequisites: Completion of the GE Foundation requirements.
Examination of contemporary issues, including immigration, labor, family, public policy, popular culture, the media, and political activism in Asian America. Focuses on the U.S. in the context of the global economy and Asian diasporas.
Letter grade only (A-F).

260. Introduction to Asian American Literature (3)
Prerequisites: Completion of GE Foundation requirements.
Introduction to representative works by Asian Pacific American authors. Emphasizes interpretation of historical and contemporary Asian American experiences in various literary genres.
Letter grade only (A-F).

290. Special Topics in Asian American Studies (3)
Prerequisite: Consent of instructor.
Topics of current interest in Asian American Studies selected for intensive development.
Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

299. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special research interest.
May be repeated to a maximum of 6 units. Letter grade only (A-F).
Asian American Studies (ASAM)

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

305. Theories and Methods in Asian Studies and Asian American Studies (3)
Prerequisites: Upper-division standing or consent of instructor, completion of the GE Foundation requirements, ASAM 120 or 200. Explores the theories and interdisciplinary methodologies employed in Asian Studies and Asian American Studies. Students will have opportunities to conduct research on topics of their interest. Letter grade only (A-F).

310. Asian Americans and Education (3)
Examines issues and potential of a multi-ethnic classroom for the understanding of, and relating to students of diverse cultural backgrounds, with an emphasis on Asian Americans.

319. The Ethnic Experience in the U.S. (3)
Prerequisite: Completion of GE Foundation requirements. Examines the dynamics of our multicultural society, emphasizing ways in which Asian American, Black American, Mexican American, and American Indian experiences have shaped cultural diversity in the U.S. Same course as ABS 319, AFH 319, CHLS 319, WGS 319. Not open for credit to students with credit in ABS 319, ABS 319, BST 319, CHLS 319, WST 319, WGS 319. (Lecture/Discussion.)

321. Asian and Pacific American Film (3)
Prerequisites: Completion of the Foundation requirements, and upper division status. Employs films as cultural "texts" in exploring issues including race, gender, sexuality, migration, and the politics of representation in Asian and Pacific American communities.

330. Japanese American Experience (3)
A study of the culture, history, and literature of Japanese in America, emphasizing immigrant experience, agricultural contributions, World War II, and generational issues, women in transition and family.

331. Chinese American Experience (3)
A study of the culture, history, and literature of Chinese in America, emphasizing immigrant experience, generational issues, women in transition and family.

332. Korean American Experience (3)
Examines major historical, social, political, and cultural themes that have shaped Korean American experiences, with attention to intersections of race, ethnicity, gender, and class in the U.S. Emphasizes contemporary issues in local communities and transnational connections in the Korean diaspora.

333. Vietnamese American Experience (3)
A study of the culture, history, and literature of Vietnamese in America, emphasizing immigrant experience, generational issues, women in transition and family.

334. Cambodian American Experience (3)
A study of the culture, history, and literature of Cambodians in America, emphasizing refugee and immigrant experiences, generational issues, women in transition and family.

335L. Asian and Latino Immigration Since World War II (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examines the causes of massive Asian and Latino immigration as well as major contemporary issues in the Asian and Latino communities. Same course as CHLS 335. Not open for credit to students with credit in CHLS 335L. (Lecture and discussion, 3 hours)

340. Asian American Family (3)
Prerequisites: Completion of Foundation courses and upper-division standing. Provides perspectives on the varieties of Asian American families by examining the social, economic, political, and cultural factors that have influenced the development of conventional as well as alternative family forms.

341. Asian American/Chicano and Latino Cinema (3)
Prerequisites: Completion of the Foundation courses. A team-taught course that explores connections between Asian American and Chicano/Latino cinema, with emphasis given to groundings in filmic histories within historical, literary, and cultural studies frameworks. Same course as CHLS 341. Not open for credit to students with credit in ASAM 400.

342. Chicanos, Filipinos, and Popular Cultures (3)
Prerequisites: Completion of the Foundation courses and upper-division status. This course is a team-taught seminar that explores the historical roots of politics of expressive and cultural practices among Chicanos and Filipinos. Special attention will be paid to themes of resistance, gender, migration, imperialism, hybridity, and post-colonial identities and transformations. Same course as CHLS 342. Not open for credit to students with credit in CHLS 342.

345. Asian American Community Analysis (4)
Examines socioeconomic, political, and cultural profile of Asian American communities, as well as role and function of community organizations. Training in community surveys and services. (Lecture, activity)

346. Asian Americans and the Law (3)
Examines the historical and legal status of Asian Americans in the United States, focusing on issues of discrimination and civil rights.

347. Asian Americans and Public Policy Issues (3)
Examines public policy issues, including racial and ethnic discrimination, civil rights violations, disparities in employment opportunities, and cultural and media representation, affecting Asian Americans and other minorities as well as members of the dominant society. (Lecture 3 hours)

352. Filipino/a American Experiences (3)
Examines major historical, social, political, and cultural dimensions of Filipino/a experiences in the United States, focusing on issues of discrimination, civil rights violations, disparities in employment opportunities, and cultural and media representation, affecting Filipino/a Americans and other minorities as well as members of the dominant society. (Lecture 3 hours)

178 • Asian and Asian American Studies • 2009/2010 CSULB Catalog
353. Contemporary Issues in Filipino/American Experiences (3)
Prerequisite: Upper-division standing. Recommended: ASAM 352
Interdisciplinary approach used to examine the social, economic, political, and cultural dimensions of Filipino/American experiences in the United States from 1965 to the contemporary period. Emphasizes specific issues of post-colonial identities, the Philippine Diaspora, patterns of labor, strategies of resistance, and cultural practices.

354. Transnational Filipino Communities (3)
Prerequisite: Upper Division Standing. Recommended: ASAM 352.
Examines the social, economic, political, and cultural realities in the Philippines and their relationship with the formation of transnational Filipino communities.

360. Studies in Asian American Literature (3)
Provides theoretical foundation for the analysis of Asian Pacific American literature. Addresses various issues in contemporary Asian Pacific American literary criticism including transnationalism, historical memory, gender relations, sexuality, and the development of Asian Pacific American literary "aesthetics."

370. Gender and Sexuality in Asian America (3)
Prerequisites: Completion of Foundation courses and upper-division standing.
Explores the diverse historical and contemporary experiences of Asian Americans with respect to gender roles and relationships, family, expressions of desire, as well as the relationships among gender, sexuality, and racial/ethnic identity.

380. Asian Philosophies and Religions in America (3)
Prerequisite: Completion of GE Foundation requirements.
Influence of and changes in Asian philosophies and religions in the American environment. Emphasis on Confucianism, Taoism, Hinduism, Buddhism and Shintoism in relation to individual and social values in America.

381. Asian American Women (3)
Reconstructs and examines Asian American women's history and contemporary experiences. Examines the complexities of intersecting social categories of oppression and Asian American women's active pursuit of equality and dignity.
Same course as WGS 381. Not open for credit to student with credit in HIST 381, WGS 381 or WIST 381. (Lecture)

407. Asians in Latin America (3)
Prerequisites: Upper-division standing or consent of instructor.
Recommended: HIST 161
Examines the diverse histories and experiences of Asians in Latin America. Emphasizes placed on patterns of labor and settlement, socio-economic development of local and transnational communities, formation of ethnic identities, and expressive cultures.
Letter grade only (A-F).

410. Poverty in Asian America (3)
Prerequisites: Completion of Foundation courses, at least one Explorations course, and upper division status.
Examines poverty among Asian Pacific Americans in the context of poverty in the U.S. theories about poverty's causes, anti-poverty policies, and poverty-fighting activities (nonprofit community-based social services, labor organizing, community organizing and advocacy).

490. Special Topics in Asian American Studies (3)
Prerequisite: Consent of instructor.
Topics of current interest in Asian American Studies selected for intensive development. Topics will be announced in the Schedule of Classes.
May be repeated to a maximum of 6 units. Topics will be announced in the Schedule of Classes.

495/495. Seminar in Asian American Studies (3)
Selected topics in Asian American Studies. Area and topics of emphasis will vary from year to year.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special research interest.
May be repeated to a maximum of 6 units.

GRADUATE LEVEL

595/495. Seminar in Asian American Studies (3)
Selected topics in Asian American Studies. Area and topics of emphasis will vary from year to year.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

599. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special research interest.
May be repeated to a maximum of 6 units in different semesters.
Letter grade only (A-F).
American experience in the United States; Chinese Studies provides students with cultural, literary, and linguistic preparatiion; and the Japanese program provides linguistic and cultural training in Japanese language and language related areas. Asian language courses are also appropriate electives to support several of the majors offered by the University.

Students in all programs are encouraged to integrate the study of Asian cultures and societies across the Pacific with that of Asian American communities in the United States and to support the study of culture and society with appropriate language training.

The department curriculum provides students with knowledge and training necessary for (1) various occupations and careers, (2) professional work in the Asian American community, (3) exploring an educational dimension by emphasizing and focusing on ethnic minorities.

Through courses of its own and those of cooperating departments, the Department of Asian and Asian American Studies offers B.A. in Asian American Studies, B.A. and M.A. in Asian Studies, B.A. in Chinese Studies, Single Subject Teaching Credential in Japanese, B.A. in Japanese, Minor in Asian American Studies, Certificate in Asian Studies, Certificate in Asian American Studies, and Certificate in Japanese. The department also offers a Concentration in Japanese and a Concentration in Asian American Studies under Track II of the Bachelor of Arts in Liberal Studies. (See University Programs in this catalog. Additional information and adviso information for the program are available through the department office, F03-340.)

Cambodian (KHMR)

LOWER DIVISION

111. Accelerated Study of Khmer for Heritage Speakers I (4)
Prerequisites: Linguistic competency equivalent of a beginning Khmer speaker; one GE Foundation course that may be taken concurrently.

Linguistic and cultural aspects of Khmer language for heritage speakers. Oral and written communication skills in Khmer. Intensive study of literary, historical, social, and aesthetic traditions of Cambodia as seen through Khmer language and literary texts. Letter grade only (A-F).

211. Accelerated Study of Khmer for Heritage Speakers II (4)
Prerequisites: KHMR 111 linguistic competency equivalent.

Intermediate level linguistic study and cultural aspects of Khmer for heritage speakers. Oral and written communication skills and intensive study of literary, historical, social, and aesthetic traditions of Cambodia through the Khmer language and literary texts. Letter grade only (A-F).

180 • Asian Languages • 2009/2010 CSULB Catalog
Korean (KOR)

101. Fundamentals of Korean (4)
Prerequisite/Corequisite: One GE Foundation course.
Introduction to the writing system, pronunciation, vocabulary, and grammar of the Korean language and Korean culture.
Students with previous training or native speakers of Korean may not enroll.

102. Fundamentals of Korean (4)
Prerequisite/Corequisites: One GE Foundation course.
Completion of KOR 101 or competency equivalent to KOR 101.
Introduction to the Korean grammar, reading, writing, and conversation and Korean culture.
Students with previous training or native speakers of Korean may not enroll.

Tagalog (Filipino Language) (TGLG)

LOWER DIVISION

101. Fundamentals of Tagalog (4)
Prerequisite: One GE Foundation course which may be taken concurrently.
Introduction to the pronunciation, grammar, essential vocabulary, reading, and conversation of modern standard Tagalog (Filipino).

102. Fundamentals of Tagalog (4)
Prerequisite: One GE Foundation course which may be taken concurrently. and competency equivalent for TGLG 101.
Introduction to the pronunciation, grammar, essential vocabulary, reading, and conversation of modern standard Tagalog (Filipino).

Vietnamese (VIET)

LOWER DIVISION

111. Accelerated Vietnamese for Heritage Students I (4)
Prerequisite: One GE Foundation course that may be taken concurrently. Conversational ability of Vietnamese.
Designed for students who have listening and speaking ability of Vietnamese. Focuses on Vietnamese literacy and culture, including developing reading and writing skills in context.
Letter grade only (A-F).

211. Accelerated Vietnamese for Heritage Students II (4)
Prerequisite: VIET 111. Ability to speak and comprehend Vietnamese oral and written language at the interpersonal communicative level.
Designed for students who have intermediate listening and speaking ability of Vietnamese and the ability to comprehend simple written Vietnamese texts. Focuses on Vietnamese literacy and culture, including developing reading and writing skills in context.
Letter grade only (A-F).
Introduction

The University sponsors a diverse program of 18 intercollegiate athletic teams and is supervised by the Department of Athletics.

The teams compete under the rules of the National Collegiate Athletic Association, the Big West Conference, and the Mountain Pacific Sports Federation, maintaining membership in each organization. Women's varsity sports are basketball, golf, cross-country, soccer, tennis, indoor/outdoor track and field, volleyball, water polo and softball. Men's varsity sports are basketball, baseball, indoor/outdoor track and field, cross-country, water polo, volleyball, and golf. Students enrolling in intercollegiate athletic programs must meet all NCAA eligibility requirements. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, Department of Athletics, (562) 985-7751.

Students may apply no more than four (4) semester units of lower-division ATHL courses toward the baccalaureate degree within the 20-unit maximum on activity units generally, except that the combined total of lower-division ATHL activity units must not exceed four (4) units and the total of lower-division KIN activity units must not exceed eight (8) units. Upper-division ATHL courses, with the exception of ATHL 325, may be taken one time only and not in conjunction with the lower-division ATHL courses. ATHL 325 may be repeated to a maximum of four (4) semester units and may be taken in conjunction with any other ATHL course.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

Courses (ATHL)

LOWER DIVISION

Intercollegiate Sports (1)
Enrollment subject to approval of the coach of the sport.
Competition in NCAA-regulated sports. Athletes enrolled who fail to qualify for squad must withdraw from course.
May be repeated to a maximum of 4 units, including previously earned credits from SAR 1. Credit/No Credit grading only.

261. Women's Softball
262. Men's Baseball
263. Women's Basketball
264. Men's Basketball
265. Women's Track and Field
266. Men's Track and Field
269. Women's Volleyball
270. Women's Water Polo
271. Men's Water Polo
272. Men's Volleyball
275. Women's Golf
276. Men's Golf
277. Women's Tennis
281. Women's Cross-Country
282. Men's Cross-Country
284. Women's Soccer

UPPER DIVISION

319. Theory and Practice of Minor Intercollegiate Sports (2)
Repeatable credits include previous credits from SAR 319.

320. Theory and Practice of Major Intercollegiate Sports (2)
Repeatable credits include previous credits from SAR 320. Credit/No Credit grading only.

325. Student-Athlete Leadership Development and University Service (1)
Prerequisites: Upper division standing, consent of instructor. Must be an official member of an NCAA Intercollegiate team at CSULB. Junior/seniors honor communication and facilitation abilities to better function within groups, community and careers. Emphasis on experiential learning component with people dynamic and group process skills, academic and athletic information, and how a peer mentor can positively impact that development.
May be repeated to a maximum of 4 units, including previously earned credits from SAR 325. May be taken in conjunction with any other ATHL course. Credit/No Credit grading only.
The biological sciences include all of the areas of scientific endeavor centered around the general question of the nature of life. Such diverse areas as biochemistry, ecology, paleontology, and animal behavior are all part of the biological sciences. The discipline of biochemistry is located in the department of Chemistry and Biochemistry and the discipline of paleontology is located in the department of Geological Sciences. For information about the programs in these disciplines, consult the appropriate section of this Catalog. The remaining disciplines of the biological sciences represented in the College of Natural Sciences and Mathematics are located in the Department of Biological Sciences, which offers five degrees: a Bachelor of Science in Biology, a Bachelor of Science in Marine Biology, a Bachelor of Science in Microbiology, a Master of Science in Biology, and a Master of Science in Microbiology. The B.S. in Biology has, in addition to a general option, six specialized options in Biology Education, Botany, Cell and Molecular Biology, Ecology, Physiology, and Zoology. See below for the specific requirements for each of these degrees and options.

The department occupies facilities in four science buildings. Courses and student research in organismal biology and ecology are enhanced by a marine biology laboratory with an extensive seawater system, greenhouses, and research and teaching collections of algae, vascular plants, invertebrates (including insects), and vertebrates. Because the campus is near the ocean, mountains, and deserts, the department is able to offer a number of field and laboratory courses in botany, ecology, entomology, marine biology, and vertebrate zoology. Courses and student research opportunities are available in biotechnology, experimental biology, and clinical laboratory science (medical technology). State-of-the-art facilities are available for graduate and undergraduate research in the W. M. Keck Cellular and Molecular Biology Laboratory and electron microscopy facility.

The Department of Biological Sciences also participates in the Desert Studies Consortium and the Ocean Studies Institute. Information on the latter program is listed in this Catalog under Ocean Studies Institute.

The Richard B. Loomis Research Award

This annual departmental award provides supply and travel support for thesis research projects. Graduand students submit research proposals to the department's Graduate Studies Committee, which grants funding to the most meritorious proposals.

Handloser Graduate Student Tuition Grant

The Handloser Graduate Student Tuition Grant is offered to an outstanding M.S. Biology applicant interested in pursuing master's thesis research in the area of marine biology.

Frank Schatzlein Scholarship Award

The Frank Schatzlein Scholarship Award is available to an outstanding undergraduate student in biological sciences, with upper division standing, studying in the area of cellular physiology. Applications can be obtained from the Biological Sciences Department Office during the month of March.

Linda Warren Graham Medical Technology Scholarship

This Linda Warren Graham Medical Technology Scholarship is available to senior microbiology majors who have been accepted into a Clinical Laboratory Scientist (or a Medical Technology) internship program. Scholarship applications can be obtained from the Biological Sciences Department Office during the month of March prior to graduation.
Target Specialty Products Scholarship

The Target Specialty Products Scholarship is designed to reward a hardworking, well-rounded undergraduate majoring in natural sciences or mathematics, with sophomore, junior or senior class standing. Students applying for this scholarship should be involved in school and community activities, working either full or part-time, and must be interested in exploring future careers that combine science and business. Application forms and information are available in the Department of Biological Sciences office beginning the month of February.

Financial Support, Assistantships

The Department of Biological Sciences offers to graduate students a limited number of teaching assistant and graduate assistant appointments. Forms requesting consideration for these appointments are available in the department’s Graduate Office. Duties consist of approximately 20 hours per week devoted to preparation and/or instruction in general undergraduate laboratory classes. These appointments are limited to a maximum of six semesters per individual.

The department also has a limited number of technical assistant positions as well as some hourly employment. Several members of the faculty have grants that provide for research assistantships. A number of scholarships are available throughout the university.

Graduate and Health Professional Preparation

In addition to preparing students for careers in teaching, industry, and government, the undergraduate programs in this department provide preparation for advanced study at the graduate level and for entry into various health professional schools. Students should consider the degree requirements listed in the Catalog as minimal; some graduate schools, professional schools, or careers may require additional coursework in mathematics, physics, chemistry, or biological sciences.

Students desiring entrance into a graduate school to obtain a master’s or doctoral degree in some area of the biological sciences should determine the entrance requirements for the school(s) of interest early in their undergraduate years. Specifically, students contemplating graduate work in mathematically oriented areas of the biological sciences should consider taking more calculus (MATH 122, 123, 224, and 364A or 370A will substitute for MATH 119A and 119B) and those contemplating graduate work in chemically oriented areas should consider taking additional chemistry (CHEM 251; 320A,B; 377B; 414A,B).

Students desiring entrance into one of the various health-related professional schools including chiropractic, dentistry, medicine, optometry, osteopathy, pharmacy, podiatry, and veterinary, or to a graduate program in physical therapy, should consult with the Health Professions Advising Office in the College of Natural Sciences and Mathematics Jensen Student Access to Science and Mathematics (BAS) Center (F05-109) for more information. Most of these schools do not require students to major in any particular discipline and many do not even require a bachelor’s degree; rather, they want students who have done well in their major and who also took the prerequisite courses required by that particular school.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this department must participate in the College of Natural Sciences and Mathematics’ Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students’ chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jensen Student Access to Sciences and Mathematics Center (F05-109) or department office for additional information.

Undergraduate Programs

Bachelor of Science in Biology

This degree includes a general option in biology and six additional options for those desiring a more specialized program.

Biology (code BIOLBS01) (120 units)

This degree major is designed for students pursuing careers that involve the study of life. It is especially appropriate for those contemplating graduate work in the biological sciences. This option gives the student a broad background involving coursework in most of the major areas of biology, without requiring specialization in any one particular field. Students in this option have more elective courses in their major than in the other, more specialized options, which enables them to partially concentrate their studies in a particular area if they so choose. Because of this, students may not combine this option with any other in the B.S. in Biology nor with the B.S. in Marine Biology or Microbiology as part of a dual major. This option requires approximately 82-84 units in the major, of which 39-41 are in lower division and 43 are in upper division. All students must achieve at least a 2.0 grade-point average in each of the following: 1, the entire college record; 2, all units attempted at CSULB; 3, all courses in the major, and 4, all upper division courses in the major completed at CSULB.

Lower Division: BIOL 111, 111L, 212, 212L, 213, 213L, 260; CHEM 111A,B; MATH 119A or 122; 119B or 123; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MIGR 101 and 200.

Upper Division: CHEM 322A,B and 329A,B; at least 34 units in biological science including BIOL 312, 340, 345, 345L, 350, 370, 450; one of BIOL 313, 316, 324; one of BIOL 427, 439; and 9 additional units selected from upper division courses in the Department of Biological Sciences. At least two of the courses selected to fulfill these additional units must have numbers between 410-499. Either CHEM 441A,B or 448 will count toward these additional 9 units. Up to 6 of these additional units may be substituted from courses in other departments in the College of Natural Sciences and
Mathematics upon approval by the undergraduate advisor. Students may use from 1-3 units of BIOL or MIRC 496 towards the 9 additional units of upper division course work but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308, MIRC 300I, and NSCI 492.

Option in Biology Education (code BIOBLS092) (120 units)

This option is designed solely for students who wish to become secondary school Biology teachers. This option requires 82-92 units in the major, of which 50-52 are lower division and 32-40 are upper division. Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

Completion of the Biological Sciences Concentration meets the subject matter competence requirement for the Preliminary Credential, prospective Biology teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses as an undergraduate. Courses may also be counted as post-baccalaureate courses. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.cod.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

The Biological Sciences Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: ASTR 100; BIOL 151, 111, 111L, 212, 212L, 213L, 213L; CHEM 111A,B; both GEOL 102 and 104 or 106; MATH 119A or 122, M/C 200 or 211; and PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 200, 200L, 205, 205L, 207, 208, 305, and MIRC 101.

Upper Division: CHEM 327 or all four of CHEM 322A,B and 323A,B; SCED 404; and nine additional courses totaling 26-29 units in the biological sciences including BIOL 312, 340, 345 or 447, 350, 370, 480; one of these two plant biology courses: BIOL 427, 439; and one of these three animal biology courses: BIOL 304, 316, 320. The remaining biological science courses should be chosen in consultation with an advisor. BIOL 495/MIRC 496 is highly recommended. Either CHEM 441A, B or 448 will count toward this additional required course. Students may use BIOL or MIRC 496 as one of the nine required upper division courses but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308; MIRC 300I; and NSCI 492.

Although SCED 403 and EDSS 300C are not required in the major, the credential does require these courses. Students may want to take some of them prior to graduation.

Option in Botany (code BIOBLS03) (120 units)

This option is designed primarily for those interested in careers involving the biology of plants and is particularly appropriate for those contemplating graduate work in this field. This option requires approximately 80-82 units in the major, of which 39-41 are in lower division and 41 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOL 111, 111L, 212, 212L, 213, 213L, 216; CHEM 111A,B, MATH 119A or 122, 119B or 123, PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305, MIRC 101 and 200.

Upper Division: 41 units including CHEM 322A,B and 323A,B; BIOL 340, 350, 370, 427, 439, 447, 450, 480. Remaining 8 units selected in consultation with appropriate faculty advisor. CHEM 441A or 448 will count toward these eight units. Students may use 1-3 units of BIOL 496 towards the remaining eight units but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308; MIRC 300I; and NSCI 492.

Option in Cell and Molecular Biology (code BIOBLS04) (120 units)

This option is designed primarily for those interested in careers that involve biology at the cell and molecular levels and is particularly appropriate for those contemplating graduate work in these fields. This option requires 84-87 units in the major, of which 44-46 are in lower division and 40-41 are in upper division. Students in this option might also want to pursue the Certificate in Biotechnology described elsewhere in this catalog.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOL 111, 111L, 212, 212L, 213, 213L, 250; CHEM 111A,B, MATH 119A or 122, 119B or 123; MIRC 211; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305, MIRC 101 and 200.

Upper Division: CHEM 322A,B and 323A,B; CHEM 441A,B; BIOL 340, 350, 370, 427, 439, 440, 480; nine additional courses selected from BIOL 431, 443, 445, 447, 464, 465 or 467, 473, 477; CHEM 547; MIRC 430, 416. Students may use 3 units of BIOL 496 towards the three courses but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308; MIRC 300I; and NSCI 492.
Option in Ecology (code BIOBLS05) (120 units)

This option is designed for students interested in careers involving the study of organisms in relation to their environment, either in private industry or government service, as well as those students contemplating graduate work in this field. This option requires approximately 86-95 units in the major, of which 43-45 are in lower division and 43-50 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOI 111, 111L, 212, 212L, 213, 213L, 260; CHEM 11A,B; GEOL 102, 104 or 105, MATH 110A or 112, 119B or 123; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOI 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MIRC 101 and 200.

Upper Division: CHEM 322A,B and 323A,B; BIOI 312, 340, 345, 345L, 350, 370, 427, 498; one of BIOI 313, 316 or 324; four additional courses including one of these 10 in organismal diversity: BIOI 313, 316, 324, 411, 419, 421, 424, 425, 439; one of these 10 in ecology and environmental science: BIOI 420, 450, 451, 452, 453, 454A, 454B, 455, 457; one of these in quantitative biology: BIOI 412, 456, 463, 465, 467; and another course from any of the preceding three lists or BIOI 353, 355, 355L, 444, 445, 450, 464; GEOG 440, 473, 481; GEOL 339. Students may use 3 units of BIO 496 as this fourth additional course but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOI 301, 304, 308; MIRC 300; and NSCI 492.

Few, if any, health-related professional schools (e.g., veterinary medicine) will accept CHEM 327. Students interested in these programs might consider taking CHEM 322A,B and 323A,B. CHEM 327 is not acceptable as a prerequisite for CHEM 441A,B. CHEM 327 is acceptable toward the Minor in Chemistry.

Option in Zoology (code BIOBLS07) (120 units)

This option is designed primarily for those interested in careers that involve the biology of animals and is particularly appropriate for those contemplating graduate work in this field. This option requires approximately 86-88 units in the major, of which 43-46 are in lower division and 43 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOI 111, 111L, 212, 212L, 213, 213L, 260; CHEM 11A,B; MATH 110A or 122, 119B or 123; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOI 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MIRC 101 and 200.

Upper Division: CHEM 322A,B and 323A,B; CHEM 441A,B; BIOI 340, 350, 370, 480. Two tracks exist for remaining upper division courses.

Pre-physical Therapy Track: BIOI 341, 441, and either BIOI 434 or HHS 401, plus six additional units selected from BIOI 345, 433, 443, 444, 445, 447, 448, 449, 464; HHS 471; MIRC 430.

General Physiology Track: BIOI 342, 342L or 345, 345L, and either BIOI 433, plus nine additional units selected from BIOI 342, 345, 343, 443, 444, 445, 446, 447, 448, 449, 460; MIRC 423, 430. Students may use 1-3 units of BIO 496 towards the additional units but only with prior permission of the advisor for this option.

The following courses do not meet any specific or elective requirements for this major: BIOI 301, 304, 308, MIRC 300; and NSCI 492.

Option in Physiology (code BIOBLS06) (120 units)

This option is designed primarily for those interested in careers involving the study of function in animals, especially humans, and is particularly appropriate for those contemplating graduate work in this field or entering one of the health professions, such as medicine and physical therapy. This option requires 79-83 units in the major, of which 39-41 are in lower division and 41-43 are in upper division.

All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record, 2. all units attempted at CSULB, 3. all courses in the major, and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOI 111, 111L, 212, 212L, 213, 213L, 260; CHEM 11A,B; MATH 110A or 122, 119B or 123; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOI 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MIRC 101 and 200.

Upper Division: CHEM 322A,B and 323A,B; BIOI 312, 340, 345, 345L, 350, 370, 411, 419, 421, 424; and at least two additional courses in biological sciences totaling at least six units chosen in consultation with a faculty advisor. Either CHEM 441A,B or 448 will count toward those six units. Students may use 1-3 units of BIO 496 towards the remaining nine units but only with prior permission of the advisor for this option. The following courses do not meet any specific or elective requirements for this major: BIOI 301, 304, 308; MIRC 300; and NSCI 492.

Bachelor of Science in Marine Biology (code BIOBLS08) (120 units)

This degree program requires approximately 86-93 units in the major, of which 42-44 are in lower division and 44-49 are in upper division. The number of units and particular blend of science and mathematics makes this a very challenging learning experience. However, the depth and strength of this degree provides a strong and
flexible base to pursue a variety of careers. Obtaining a minor in another discipline, such as chemistry, microbiology, engineering, business, or computer science, may enhance one's marketability. All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record; 2. all units attempted at CSULB; 3. all courses in the major; and 4. all upper division courses in the major completed at CSULB.

Lower Division: BIOL 153, 111L, 212, 212L, 213, 213L, 260; CHEM 111A,B; MATH 119A or 122, 119B or 123, PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 200, 200L, 205, 205L, 207, 208, 305; MIRC 101 and 200.

Upper Division: CHEM 327 or all four of CHEM 322A,B and 323A,B; BIOL 313, 340, 345, 345L, 350, 355, 370, 419, 425, 480; GEOL 465 and 466; a minimum of three courses from the following ten courses in marine sciences: BIOL 411, 420, 449, 451, 454A, 455, 457, 464; BIOL/MICR 415; and, with prior permission of the marine biology advisor for both BIOL 490, and 3 units of BIOL 496. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308; MIRC 300; and NSCI 492.

Few, if any, health-related professional schools (e.g., veterinary medicine) will accept CHEM 327. Students interested in these programs might consider taking CHEM 322A,B and 323A,B. CHEM 327 is not acceptable as a prerequisite for CHEM 441A. CHEM 327 is acceptable toward the Minor in Chemistry.

Bachelor of Science in Microbiology (code BIOLBS09) (120 units)

Microbiology is the study of microorganisms and their interactions with humans, other organisms, and the environment. This degree, with the inclusion of appropriate classes, may be utilized by pre-professional students who are preparing for medical, dental, pharmacy, and veterinary school. A major in microbiology prepares students for a wide range of employment opportunities in clinical and public health fields, biotechnology, environmentally related fields, and industries concerning food, water quality, pharmaceuticals, and medical equipment and supplies. There is a core of courses for each of these varied educational and employment opportunities and specific programs can be arranged by counseling with microbiology advisors in the department. This undergraduate major is recognized by the American Society for Microbiology as meeting their core curriculum for the baccalaureate degree program in microbiology. This major requires 83-84 units, of which 37-38 are in the lower division and 46 are in upper division. All students must achieve at least a 2.0 grade-point average in each of the following: 1. the entire college record; 2. all units attempted at CSULB; 3. all courses in the major; and 4. all upper division courses in the major completed at CSULB.

Lower Division Requirements: BIOL 111, 111L, 212, 212L, 260; CHEM 111A,B; MATH 119A or 122; MIRC 211; PHYS 100A or 151, 100B or 152. The following courses do not meet any specific or elective requirements for this major: BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MIRC 101 and 200.

Upper Division Requirements: CHEM 322A,B and 323A,B; CHEM 441A,B; BIOL 340, 480; MIRC 320, 355, 371, 372, 430, 471; and a minimum of 11 additional elective units chosen from: BIOL 473, 477, MIRC 320L, 322, 325, 355L, 423, 429, 430L, 441, 473, 490, and 495. Students may use MIRC 496 towards the additional units but only with prior permission of the advisor for this degree. Those students seeking a career as a Clinical Laboratory Scientist/Medical Technologist are encouraged to take MIRC 320L, 416, 423 and 430L. The following courses do not meet any specific or elective requirements for this major: BIOL 301, 304, 308; MIRC 300; and NSCI 492.

Bachelor of Science Degree with Honors in Biology, Marine Biology, or Microbiology

Students majoring in the B. S. in Biology (all options), B. S. in Marine Biology, or B. S. in Microbiology who would like an enriched academic program, including an intensive research experience, may be eligible to graduate with Honors in the Major through the University Honors Program. Students may also complete General Honors through the University Honors Program, in which case the General Honors thesis requirement is met through Honors in the Major (see University Honors in this Catalog).

Students interested in graduating with Honors in the Major should participate in a series of courses designed to introduce central concepts in biology (BIOL 110H), develop critical thinking and communication skills (special section of UHP 100), and introduce the rapidly emerging field of bioinformatics. In addition, they may join a learning community of students with similar interests and benefit from mentoring by faculty members.

This Honors in the Major program was created with the support of a grant from the Howard Hughes Medical Institute. Students interested in Honors in the Major may be eligible to receive monetary support from a variety of sources for completion of their honors research and thesis.

Students who have successfully completed the lower division Honors in the Major curriculum will receive priority for research fellowship support to the extent that it is available.

Additional details about this program, including availability of fellowship support, are available from the Honors in the Major Program Advisor.

Requirements for Admission

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B. S. in Biology (any option), B. S. in Marine Biology, or B. S. in Microbiology.
3. Completion of BIOL 111, 111L and 212, 212L, and 213, 213L, (or BIOL 211A,B), 260; CHEM 322A,B and 323A,B (or CHEM 320:L) at time of entry with grades of at least a "C" in each course.
4. Students may apply during the semester in which they expect to complete those courses.
5. Submission of an application describing the student's academic background, reasons for applying (including a description of any previous research experience), and willingness to commit to a year-long research experience.

2009/2010 CSULB Catalog • Biological Sciences • 187
6. Letter of recommendation from a CSULB faculty member familiar with the student's work and abilities.

Requirements for Graduation
1. GPA of at least 3.300 in all upper division courses in the major and in Honors courses.
2. Completion of all requirements for the chosen degree in the Biological Sciences.
3. Completion of BIOL 466H, Research Design and Methods - Honors (3 units).
4. Completion of 3 units of BIOL 496, Undergraduate Directed Research.
6. Presentation of research results in a public forum. This requirement may be met by presentation at a scientific conference or at a local venue; consult the Program Director for additional information.
Substitutions to this program must be approved by the Honors in the Major Program Advisor.

Minor in Biology (code BIOLU01)
This minor may be combined with any major at CSULB except the B.S. in Biology (all options), B.S. in Microbiology, and B.S. in Marine Biology.
A minimum of 21 units is required for the minor.
Lower Division: BIOL 111L, 111L, 212, 212L, 213, 213L (111, 212 requires CHEM 111A; 213 requires CHEM 111B.)
The following courses do not meet any specific or elective requirements for this minor; BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305, MICR 101 and 200.
Upper Division: A minimum of nine units selected from upper division biology courses with at least one course selected from the 400 series. The following courses do not meet any specific or elective requirements for this minor: BIOL 301, 304, 308, MICR 300L, 426, and NSCI 492.

Minor in Physiology (code BIOLU03)
This minor may be combined with any major at CSULB except the B.S. in Biology, Option in Physiology. The following courses do not meet any specific or elective requirements for this minor; BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MICR 101 and 200.
A minimum of 18 upper division units. Twelve of these 18 units must be selected from the following courses: BIOL 341, 342, 342L, 345, 345L, 443, 445, 446, 460. The other six of these eighteen units must be selected from other courses in the above list or from BIOL 473; CHEM 441A, B, 443, or 446. At least one of the upper division courses taken for this minor must be a laboratory. Most of these upper division courses require CHEM 111A, B and BIOL 111L, 212, 212L, 213, 213L as prerequisites; some have other prerequisites in addition. The following courses do not meet any specific or elective requirements for this minor: BIOL 301, 304, 308; MICR 300L; and NSCI 492.

Minor in Microbiology (code BIOLU04)
This minor may be combined with any major at CSULB except the B.S. in Microbiology. A minimum of 21 units which must include:
Lower Division: MICR 211. The following courses do not meet any specific or elective requirements for this minor:
Upper Division: MICR 320, 430, and 416; plus a minimum of five units from the following: MICR 322, 371, 471, and 473.
The following courses do not meet any specific or elective requirements for this minor: BIOL 301, 304, 308, MICR 300L, and NSCI 492.

Certificate Program in Biomedical Art (code ART_CT01)
The Certificate Program in Biomedical Art is an interdisciplinary program sponsored by the Art and Biological Sciences Departments. Requirements for the certificate are listed in the Art section of this Catalog. The Director of the CSULB biomedical art program is Robin Richerson, Department of Art.

Certificate in Biotechnology (code BIOLOCT01)
Biotechnology is a rapidly growing field which encompasses many domains of science. Specifically, biotechnology refers to a process which ultimately yields a product. The products can be loosely subdivided into five categories: biological organisms with novel traits, DNA's, RNAs, proteins, and compounds. The Undergraduate Certificate in Biotechnology is the integrated use of specific offerings of the College of Natural Sciences and Mathematics, including the departments of Biological Sciences and Chemistry and Biochemistry. Laboratory facilities and selected courses will serve to provide a fundamental background in the theory and techniques of biotechnology. The certificate may be earned in conjunction with or subsequent to a baccalaureate degree. Courses offered for the certificate may be used to satisfy, as appropriate, major or minor requirements.

Prerequisites for Admission
1. Completion of the following courses with a grade of "C" or better (or consent of the biotechnology certicate program director): CHEM 111A, 111B, CHEM 111A, B or CHEM 222A, 222B and 222B; CHEM 441A, B; BIOL 440; BIOL 470; MICR 211. The following courses do not meet any specific or elective requirements for this certificate: BIOL 153, 153L, 200, 200L, 205, 205L, 207, 208, 305; MICR 101, and 200.

Requirements
1. A baccalaureate degree (can be concurrent);
2. Completion of the program's prerequisite course requirements;
3. Approval by the program director;
4. Completion of the Core Curriculum: BIOL 477/577 (4); NSCI 492 (3); BIOL 473/573 (3); BIOL 490/590 (1); additional 3 units to be selected in consultation with the program director;
5. Completion of 3 units consisting of an approved research project in biotechnology to be taken from one or more of the following: BIOL 456; CHEM 456; or MICR 456 (undergraduate students); BIOL 697; CHEM 697; or MICR 697 (graduate students);
6. BIOL 301, 304, 308 and MICR 300L do not meet any specific or elective requirements for this certificate.
7. Total Units Required for Certificate: 16 units.
Concurrent and/or Summer Enrollment in Another College

Students who wish to take coursework in a community college or another college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to enroll in specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be met. See 'Concurrent Enrollment' and 'Transfer of Undergraduate Credit' in this catalog. Courses not receiving prior approval will not be accepted for credit by the department.

GRADUATE PROGRAMS

Master of Science in Biology (code BIOLMS01)

The available programs in this degree cover a wide spectrum of biology and include both laboratory and field study. This degree requires a thesis based on original scientific research; a list of research areas with the names of faculty specializing in these areas can be obtained from the department's graduate office.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student, stated previously in this catalog under Graduate Degrees and Post Baccalaureate Studies, the Department of Biological Sciences requires:

1. A bachelor's degree in the biological or related sciences from an accredited institution. In some cases, deficiency classes may be assigned by the Thesis Advisor in consultation with the Graduate Advisor prior to the student’s first semester. Students with alternative undergraduate degrees will be considered, but they will likely be assigned deficiency courses by the Thesis Advisor in consultation with the Graduate Advisor.

2. An undergraduate GPA in all completed science and mathematics courses of at least 2.70, or a GPA of at least 3.00 in the last 40 semester (60 quarter) units of science and mathematics courses completed.

3. The Graduate Record Examination General Test, which must have been taken prior to applying to the Department. Scores are utilized as indicators for potential success in the M.S. program in Biology. Students who do not have a degree in Biology (or a related field approved by the Department) must also take the Subject Test in Biology or in Biochemistry, Cell, and Molecular Biology. The GRE Test(s) must have been taken within five years prior to the intended admission date.

After admission into the M.S. program in Biology, a student is required to find a faculty Thesis Advisor prior to his or her first semester.

Application

Prospective graduate students in the M.S. in Biology program, including CSULB graduates, must formally apply for admission to the university as described previously in this catalog and must also apply directly to the Department of Biological Sciences. All applicants must submit the following documents directly to the department no later than 15 March for the fall semester in order to receive consideration for admission:

1. Departmental Application Form (pdf), also available from the Department's Graduate Office;
2. A one-page essay describing why the applicant wishes to obtain an M.S. degree in Biology at CSULB and how this relates to her/his career objectives;
3. Official transcripts of all college level academic work, including those completed at CSULB (these are in addition to those transcripts required for general graduate admission to CSULB);
4. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential (if also applying for a Teaching Associate position, the letters must refer to the applicant's potential to teach laboratory sections in the biological sciences); and
5. Official report of scores on the Graduate Record Examination General Test. The applicant should have taken this examination prior to applying to the department, such that the official scores will reach the department by the deadline above. Applications with pending GRE scores will be considered for admission into the M.S. Program in Biology after the official GRE scores become available.

These materials must be submitted to the Graduate Office, Department of Biological Sciences, California State University, Long Beach, 1250 Bellflower Blvd, Long Beach, CA 90840-3702.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all applications completed by the deadlines. Admission into the M.S. Program in Biology is competitive, with an applicant's college GPA, GRE Test scores, one-page essay, and letters of recommendation weighed in the decision to accept or decline. Applicants who are admitted into the program will enter as either a Classified or Conditionally Classified Graduate Student, as described below. All admitted students must contact the Graduate Advisor prior to their first semester for counseling and orientation.

Admission to the Department of Biological Sciences as a Classified Graduate Student

The Department of Biological Sciences may admit as a Classified Graduate Student any applicant who:

1. has met all prerequisites,
2. has a complete application folder, and
3. has obtained acceptance by a faculty member to serve as her/his Thesis Advisor.

Admission to the Department of Biological Sciences as a Conditionally Classified Graduate Student

An applicant who fails to meet the above criteria for Classified Graduate Student and who falls into one of the following two categories may be considered by the Graduate Studies Committee for admission as Conditionally Classified Graduate Student:

1. An applicant with GPA deficiencies: An undergraduate GPA in science and math courses between 2.50 and 2.75 and a GPA in the last 40 semester (60 quarter) units of science and math courses between 2.75 and 3.00 may be allowable for admission as a Conditionally Classified graduate.
student, if an applicant has first obtained a Thesis Advisor. The Thesis Advisor must indicate in writing to the Graduate Studies Committee her/his willingness to serve as the Thesis Advisor and the reasons why the Graduate Studies Committee should admit the applicant. Conditionally Classified students must then complete, with a grade of "A" or "B", three courses (totaling at least nine units) approved by the Graduate Studies Committee and Thesis Advisor, prior to attaining Classified status. These approved courses must be taken during the first year of the program, and may appear on the student's Graduate Program of Study. If the student receives less than a "B" in any of the three courses, he/she will be dropped from the M.S. in Biology program.

2. An applicant with course deficiencies: The Graduate Advisor and student's Thesis Advisor will determine whether academic deficiencies exist for the particular field of study to be undertaken. Which course(s) must be taken to make up those deficiencies will be indicated on the back of the departmental application form. Such courses must be taken in addition to the minimum 30 units on the student's Program of Study (see below). The applicant must make up all deficiencies before attaining Classified status.

The Thesis Proposal and Program of Study

After admission to the Department under Classified or Conditionally Classified status, the student, in consultation with the Thesis Advisor, must prepare the Thesis Proposal and complete the Program of Study, that is, all coursework to be taken. The Thesis Proposal must include a thorough review of relevant primary literature that demonstrates the context of the proposed research, it must clearly define the experiments proposed for the research in question, and should include preliminary data, if available. The student and his/hers Thesis Advisor will select at least two additional members to serve on the Thesis Committee. In most cases, the Thesis Advisor will serve as Chair of the Thesis Committee. However, if the Thesis Advisor is not eligible, another member of the Thesis Committee will need to serve as Chair of the Thesis Committee. The student will then have a formal meeting with the Thesis Committee, at which the student’s Thesis Proposal and Program of Study will be evaluated. At this meeting, the student is expected to present the Thesis Proposal to the committee, and the committee will question the student. At the completion of this meeting, the Thesis Committee will make a brief decision without the student present, to approve the Thesis Proposal. Approval is based on whether the student has demonstrated a solid understanding of his/her thesis project.

The Program of Study must include six units of Thesis (BIOL 698), one to three units of Directed Research (BIOL 697), two units of Experimental Design (BIOL 696A), two units of Scientific Communication (BIOL 696B), one unit of Seminar BIOL 590, and four units from: BIOL 661, 663, 664, 665, 666, MICR 661, or CHEM 650A; BIOL 661-666 and MICR 661 topics must be different. Of the minimum 30 units, no more than six may come from BIOL 661-666, and no more than two units of CHEM 650A; no more than six may be from transfer credit, and no more than one 300-level course may be included. Any 300-level course on a graduate program of study must be approved by the Thesis Advisor and the Graduate Advisor. BIOL 696A will be taken during the student's initial fall semester; the course will cover experimental design, statistics, and literature research, and it will help students in preparing their Thesis Proposal. BIOL 696B will be taken during the first spring semester in the program, and will cover both oral and written scientific presentation. BIOL 696B is intended to facilitate manuscript and thesis writing and to help students learn to articulate their findings for their thesis defense.

The Program of Study and Thesis Proposal must be established, presented and approved by the Thesis Committee before the end of the second semester after admission to the Department. Failure to meet these requirements will result in dismissal from the Department's M.S. in Biology program.

Advancement to Candidacy

In addition to the general University requirements stated previously under Post-Baccalaureate and Graduate Degrees in this Catalog, the student must complete the following steps before receiving Master's Candidate status in the Department of Biological Sciences:

1. Admission to the Master's Degree program in Biology as a Classified graduate student (see above).
3. Satisfactory academic progress;
4. Satisfactory fulfillment of the Graduation Writing Assessment Requirement (GWAR).

The Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the Department Graduate Advisor. This should occur at least one year before graduation. Upon approval by the College's Associate Dean, the student will attain Master's Candidate status.

Requirements for the Master of Science in Biology

The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to the general University requirements stated previously in this Catalog, the student must meet the following requirements before receiving the degree of Master of Science in Biology.

The requirements are:

1. Advancement to Master's Candidate status (see above);
2. Maintenance of a 3.00 ("B" average), or better overall GPA (includes all upper-division and graduate level courses taken since admission to this University and after completion of the baccalaureate degree) and graduate program GPA. If either GPA falls below 3.00, it must be elevated to a 3.00 at the end of the following semester or the student will be dismissed from the M.S. program in Biology;
3. Successful completion of the following: written thesis and public defense followed by a private defense with the Thesis Committee; and
4. Service as a Teaching Associate or Graduate Assistant.

Requests to graduate must be received by Enrollment Services approximately 6 months in advance of the expected graduation date (Check the Schedule of Classes for the date). These degree requirements must be completed within 6 years from when the first course on the Program of Study was completed, including academic leaves, or the student's degree program will be terminated.
Master of Science in Microbiology
(code BIOLMS02)

This degree is available to qualified students preparing for professional careers in industry and government and for further studies at the doctoral level. In addition, a master's degree in microbiology, combined with appropriate courses in education, can be utilized for a community college teaching credential.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student, stated previously in this Catalog under Graduate Degrees and Post Baccalaureate Studies, the Department of Biological Sciences requires:

1. A bachelor's degree or its equivalent with course work in microbiology, cell biology, and biochemistry appropriate for a science major and obtained from an accredited institution;

2. An undergraduate grade point average in all completed science and mathematics courses of at least 2.70, or a grade point average of at least 3.00 in the last 40 semester (60 quarter) units of science and mathematics courses completed; and

3. The Graduate Record Examination (GRE) General Test, which must have been taken prior to applying to the department. Scores are utilized as indicators for potential success in the M.S. program in Microbiology. Students who do not have a degree in microbiology or biology (or a related field approved by the department) must also take the Subject Test in Biology or in Biochemistry, Cell, and Molecular Biology. The GRE Test(s) must have been taken within five years prior to the intended admission date.

After admission into the master of science program in microbiology, a student is required to find a faculty Thesis Advisor prior to his/her first semester.

Application

Prospective graduate students in M.S. in Microbiology, including CSULB graduates, must formally apply for admission to CSULB as described previously in this catalog and must also apply directly to the Department of Biological Sciences. All applicants must submit the following documents directly to the department no later than 15 March for the fall semester to receive consideration for admission:

1. Departmental Application Form (pdf), also available from the Department's Graduate Office;

2. A one page essay describing why the applicant wishes to obtain an M.S. degree in Microbiology at CSULB and how this relates to her/his career objectives;

3. Official transcripts of all college level academic work, including that done at CSULB (these are in addition to those transcripts required for general graduate admission to CSULB);

4. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential (if applying for a Teaching Associate position, the letters must refer to the applicant's potential to teach laboratory sections in the biological sciences); and

5. Official report of scores on the Graduate Record Examination General Test. The applicant should have taken this examination prior to applying to the department, because the official scores must reach the department by the deadline above. Applications with pending GRE scores will be considered for admission into the M.S. Program in Microbiology after the official GRE scores become available. These materials must be submitted to the Graduate Office, Department of Biological Sciences, California State University, Long Beach, 1260 Bellflower Blvd., Long Beach, CA 90840-3702.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all folders completed by the deadlines and either accept the applicant as a Classified or Conditionally Classified graduate student or deny admission. Acceptance is competitive and the GPA, the GRE Test scores, one-page essay, and the letters of recommendation will be weighed in the decision to accept or reject an applicant. All accepted students must contact the Graduate Advisor prior to their initial semester for counselor and orientation.

Admission to the Department of Biological Sciences as a Conditionally Classified Graduate Student

An applicant who fails to meet the criteria above for Classified admission to the department and who falls into one of the following two categories may be considered by the Graduate Studies Committee for admission as Conditionally Classified graduate student:

1. An applicant with GPA deficiencies: An undergraduate GPA in science and math courses between 2.50 and 2.75 and a GPA in the last 40 semester (60 quarter) units of science and math courses between 2.75 and 3.00 may be allowable for admission as a Conditionally Classified graduate student, if an applicant has first obtained a Thesis Advisor. The Thesis Advisor must indicate in writing to the Graduate Studies Committee her/his willingness to serve as the Thesis Advisor and the reasons why the Graduate Studies Committee should admit the applicant. Conditionally Classified students must then complete, with a grade of "A" or "B", three courses (totaling at least nine units) approved by the Graduate Studies Committee and Thesis Advisor, prior to attaining Classified status. These approved courses must be taken during the first year of the program, and may appear on the student's Graduate Program of Study. If the student receives less than a "B" in any of the three courses, he will be dropped from the M.S. in Microbiology program;

2. An applicant with course deficiencies: The Graduate Advisor and student's Thesis Advisor will determine whether academic deficiencies exist for the particular field of study to be undertaken. Which course(s) must be taken to make up these deficiencies will be indicated on the back of the department application form. Such course(s) must be taken in addition to the minimum 30 units on the student's Program of Study (see below). The applicant must make up all deficiencies before attaining Classified status.

3. An applicant who meets all prerequisites but who does not yet have a chair for the thesis committee. It is the responsibility of the student to obtain a chair and set up a proposed graduate program by the end of the second semester in residence following admission to the Master of science program or they will be dropped from the program.
Admission to the Department of Biological Sciences as a Conditionally Classified Graduate Student

An applicant who fails to meet the criteria above for Classified admission to the department and who fails into one of the following two categories may be considered by the Graduate Studies Committee for admission as Conditionally Classified graduate student:

1. An applicant with GPA deficiencies: An undergraduate GPA in science and math courses between 2.50 and 2.75 and a GPA in the last 40 semester (60 quarter) units of science and math courses between 2.75 and 3.00 may be allowable for admission as a Conditionally Classified graduate student, if an applicant has first obtained a Thesis Advisor. The Thesis Advisor must indicate in writing to the Graduate Studies Committee his/her willingness to serve as the Thesis Advisor and the reasons why the Graduate Studies Committee should admit the applicant. Conditionally Classified students must then complete, with a grade of "A" or "B", three courses (totaling at least nine units) approved by the Graduate Studies Committee and Thesis Advisor, prior to attaining Classified status. These approved courses must be taken during the first year of the program, and may appear on the student's Graduate Program of Study. If the student receives less than a "B" in any of the three courses, s/her will be dropped from the M.S. in Microbiology program.

2. An applicant with course deficiencies: The Graduate Advisor and student's Thesis Advisor will determine whether academic deficiencies exist for the particular field of study to be undertaken. Which course(s) must be taken to make up those deficiencies will be indicated on the back of the departmental application form. Such courses must be taken in addition to the minimum 30 units on the student's Program of Study (see below). The applicant must make up all deficiencies before attaining Classified status.

3. An applicant who meets all prerequisites but who does not yet have a chair for the thesis committee. It is the responsibility of the student to obtain a chair and set up a proposed graduate program by the end of the second semester in residence following admission to the master of science program or they will be dropped from the program.

The Thesis Proposal and Program of Study

After admission to the department as a Classified or Conditionally Classified graduate student, the student, in consultation with the Thesis Chair, must establish a Program of Study that includes the program of classes and a Thesis Proposal. The student and Thesis Chair will select at least two additional members to serve on the student's Thesis Committee. Each student must prepare a written Thesis Proposal for approval by the student's Thesis Committee. The Thesis Committee will meet with the student to determine what courses the student must take and indicate them on the M.S. in Microbiology Graduate Program Form.

The Program of Study will include the completion of a minimum of 30 semester units. At least 20 of these units must be in the 500-600 level courses of which a minimum of 16 units must be in the Microbiology 500-600 series. Required courses, if not taken previously, include: Micro 371 or an upper division/graduate course in genetics; Micro 471 or an upper division/graduate course in cell physiology; Micro 661 (two enrollments with different topics for a total of 4 units is required); Botany 696A (2 units), Botany 696B (2 units), Micro 697 (maximum of 3 units); and Micro 696 (6 units). Other elective units included in the graduate program must be 500-600 level courses acceptable to the University and microbiology degree program. Up to 5 units of 300-level courses may be included with an approval from the Thesis Chair and Graduate Advisor. Micro 696A will be taken during the student's initial fall semester, the course will cover experimental design, statistics, and literature research, and it will help students in preparing their Thesis Proposal. Micro 696B will be taken during the first spring semester in the program, and will cover both oral and written scientific presentation.

Advancement to Candidacy

The regulations governing the master's degree are those in effect at the time of advancement to candidacy. In addition to the general university requirements stated previously under Post-Baccalaureate and Graduate Degrees in this Catalog, the student must complete the following steps before receiving Candidate status in the Department of Biological Sciences:

1. Admission to the Department of Biological Sciences' Master's Degree program as a Classified graduate student (see above);
2. Acceptance of the Thesis Proposal and Program of Study by the Thesis Committee;
3. Satisfactory academic progress;
4. Satisfactory fulfillment of the Graduate Writing Assessment Requirement (GWAR).

The Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the department Graduate Advisor. This should occur at least one year before graduation. Upon approval by the College's Associate Dean, the student will attain Master's Candidate status.

Requirements for the Master of Science in Microbiology

In addition to the general University requirements stated previously in this Catalog, the student must meet the following requirements before receiving the degree of Master of Science in Microbiology:

1. Advancement to candidacy (see above);
2. Maintenance of a 3.00 ("B" average) or better, overall graduate grade point average (includes all upper-division and graduate level courses taken since admission to the University and after completion of the baccalaureate degree) and graduate program GPA. If either GPA falls below 3.00, it must be elevated to a 3.00 at the end of the following semester or the student will be dropped from the M.S. in Microbiology program.
3. Successful completion of the following: written thesis and public defense followed by a private defense with the Thesis Committee; and
4. Serve as a teaching associate or graduate assistant. Under some circumstances, this requirement may be waived.

Requests to graduate must be received by Enrollment Services approximately 6 months in advance of the expected graduation date (check the Schedule of Classes for the date).

These requirements must be completed within 6 years from when the first course on the Program of Study was completed, including academic leaves, or this student's degree program will be terminated.

Biology Courses (BIOL)

Students pursuing a major or minor in this department may receive unit credit for courses marked with the symbol "W" as a general elective but may not apply the units toward the specific or elective requirements for any degree or option in this department. Majors in this department may, however, take, for general education purposes, interdisciplinary courses offered by this department. All other courses in this department are open to majors and minors but by letter grade only (A-F).

LOWER DIVISION

100.## Biology of the Human Environment (3) F,S
Prerequisites/Corequisites: A course that fulfills one of the Foundation requirements in GE.
Biological perspective on the interaction between humans and their environment. Specifically designed for non-science majors. (Lecture 3 hrs.)

110H. Ideas in the Biological Sciences - Honors (1)
Prerequisite: Consent of instructor.
Examination of the biological and biochemical sciences. Readings and discussions will familiarize participants with advances in biological sciences. Historical context, importance, and scientific and social consequences of these discoveries will be examined. Research faculty in Biological Sciences and Chemistry/Biochemistry introduced. Letter grade only (A-F). (Discussion 1 hr.)

111. Introduction to Evolution and Diversity (3) F,S
Prerequisites/Corequisites: BIOL 111L; CHEM 111A. Intended for majors in the natural sciences.
The first of a three semester introductory sequence. Evolution as a process responsible for biological diversity at all levels: molecular, cellular, organismal, populational, and community. Phylogenetic and taxonomic survey of life. Science as method of inquiry. Letter grade only (A-F). Not open to students with credit in BIOL 211B. (Lecture 3 hrs.)

111L. Introduction to Evolution and Diversity Laboratory (1) F,S
Prerequisites/Corequisites: BIOL 111. Intended for majors in the natural sciences.
Phylogenetic and taxonomic survey of life emphasizing the principles of evolution and science as a method of inquiry. Letter grade only (A-F). Course fee may be required. Not open to students with credit in BIOL 211B or 211DL. (Laboratory 3 hrs.)

153. Introduction to Marine Biology (3) F,S
Prerequisites/Corequisites: Courses that fulfill the A.1 and B.2 GE requirements.
Scientific approach to the study of marine organisms and their relationships to the environment. Emphasis on human interaction with marine ecosystems. (Lecture 2 hrs., laboratory and field 3 hrs.) Field trips may be required outside of scheduled class time. Not open for credit to students with credit in BIOL 201.

153L. Introduction to Marine Biology Laboratory (1) F,S
Prerequisite: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 153 at another accredited institution and have consent of the Department of Biological Sciences. Identical to the laboratory portion of BIOL 153. Students enrolled in BIOL 153L will take it in the same room and at the same time as students enrolled in BIOL 153. Not open for credit to students with credit in BIOL 153L. (Laboratory 3 hrs.)

200.## General Biology (4) F,S
Prerequisites: Completion of GE Foundation requirements.
Brief survey of major areas of biology including cell biology, genetics, evolution, phylogeny, plant and animal anatomy and physiology, ecology, and behavior. Specially designed for non-science majors. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

200L.## General Biology Laboratory (1) F,S
Prerequisite: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 200 at another accredited institution and have consent of the Department of Biological Sciences. BIOL 200L is identical to the laboratory component of BIOL 200. Students enrolled in BIOL 200L will take it in the same room and at the same time as students enrolled in BIOL 200. Not open for credit to students with credit in BIOL 200L. Course fee may be required. (Laboratory 3 hrs.)

205.## Human Biology (4) F,S
Prerequisites: Completion of GE Foundation requirements.
Brief survey of human biology focusing on anatomy, physiology, and development of cells, tissues, organs, and organ systems including molecular biology, genetics, ecology, evolution, and diversity. Specially designed for non-science majors. Not open for credit to students with credit in A/P 107 or 205. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

205L.## Human Biology Laboratory (1) F,S
Prerequisite: Open only to students who have successfully completed the equivalent of the lecture portion of BIOL 205 at another accredited institution and have consent of the Department of Biological Sciences. Identical to the laboratory portion of BIOL 205. Students enrolled in BIOL 205L will take it in the same room and at the same time as students enrolled in BIOL 205. Not open for credit to students with credit in BIOL 205L. Course fee may be required. (Laboratory 3 hrs.)

207.## Human Physiology (4) F,S
Prerequisites: Completion of GE Foundation requirements.
General introduction to the functional integration of human body systems. Designed for majors in biomedical engineering, physical education, and the allied health fields. Not open for credit to students with credit in A/P 207 or 209. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

208.## Human Anatomy (4) F,S
Prerequisites: Completion of GE Foundation requirements.
Gross anatomy of humans from the cellular to the systemic levels. Intensive laboratory experience including the use of human cadavers. Designed for majors in kinesiology and the allied health fields. Not open for credit to students with credit in A/P 202 or 208. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

212. Introduction to Cell and Molecular Biology (3) F,S
Prerequisites: Completion of BIOL 111, 111L, and CHEM 111A with grades of "C" or better. Corequisites: BIOL 212L.
The second of a three semester introductory sequence. Introduction to macromolecular and cellular structure and function and to fundamental genetic principles. Not open to students with credit in BIOL 211A. Letter grade only (A-F). (Lecture 3 hrs.)
305.## Pharmacology (2) F,S
Prerequisite/Corequisite: BIOL 304, with a grade of "C" or better.
Systematic study of drugs, their classification, methods and routes of administration, therapeutic and toxic effects with emphasis on nursing implications.
Not designed for majors in the College of Natural Sciences and Mathematics. (Lecture 2 hrs.)

308.## Issues in Women's Health (3)
Prerequisites: Upper division standing; ENGL 100, and WGS 101, BIOL 205, BIOL 207, or BIOL 213.
Fundamentals of anatomy and physiology relevant to the causes prevention/treatment of various health issues, including reproductive organ dysfunction, sexually transmitted disease, infertility, contraception, pregnancy, osteoporosis, cancer, and cardiovascular disease. Lifestyle habits (diet, exercise, stress, etc.) will be emphasized throughout. (Lecture 3 hrs.)

312. Evolutionary Biology (3) F,S
Prerequisites: BIOL 111, 111L, 211, 212L, 212L, 213, 213L, 260 all with a grade of "C" or better.
Survey of evolutionary biology including population genetics, speciation, origin of life, and phylogenetic analysis. Main emphasis is evolutionary mechanism and methods of analysis on specific of the evolutionary history of life. (Lecture 3 hrs.)

313. Invertebrate Zoology (4) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L all with a grade of "C" or better.
Systematics, morphology, and natural history of invertebrate animals with emphasis on local marine forms. (Laboratory 2 hrs., laboratory and field 6 hrs.; weekend field trips may be required.) Course fee may be required.

316. General Entomology (4) F,S
Prerequisites: BIOL 111, 111L, 211, 212L, 213, 213L all with grade of "C" or better.
Characteristics, structure, habits, and life cycles of insects and importance of insects to humans and other organisms. (Laboratory 2 hrs., laboratory 6 hrs.) Course fee may be required.

324. Vertebrate Zoology (4) F,S
Prerequisites: BIOL 111, 111L, 211, 212L, 213, 213L all with grade of "C" or better.
Phylogenetic survey of vertebrates (chordates). Lecture concentrates on origin and radiation of vertebrates and their functional morphology. Laboratory concentrates on skeletal and informal anatomy of the ornithological and mammalian levels of living vertebrates. (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

340. Molecular Cell Biology (3) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, CHEM 320A or 322A or 327 all with a grade of "C" or better.
Detailed study of the organization and functioning of cells and cellular organelles at the molecular level; emphasis on experimental approaches and structural/functional relationships. (Lecture 3 hrs.)

341. Physiology for Therapists I (4) F,S
Prerequisites: BIOL 111, 111L, 211, 212, 213L, CHEM 111B, PHYS 108A,B all with grade of "C" or better; 160 hours of documented exposure to the practice of physical therapy in a variety of settings; consent of instructor. (Lecture 3 hrs.)
smooth muscle. Pathological and clinical considerations presented. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

342. Mammalian Physiology (3) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L. All with grade of "C" or better. Recommended: PHY 101A/B.
Function of various mammalian body systems, primarily of humans. Emphasis on integration of homeostatic mechanisms of nervous, muscular, endocrine, cardiovascular, respiratory, renal, digestive, and reproductive systems.
Letter grade only (A-F). (Lecture 3 hrs.,)

342L. Laboratory in Physiology (1) F,S
Prerequisites: BIOL 342 with a grade of "C" or better. Experiments and exercises designed to provide experience in, and illustration of, physiological principles and mechanisms of interaction among various body systems.
Letter grade only (A-F). Course fee may be required. (Laboratory 3 hrs.)

345. Comparative Animal Physiology (3) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L. All with grade of "C" or better.
Comparison of fundamental physiological processes of major animal phyla.
Not open for credit to students with credit in AP 345. Letter grade only (A-F). (Lecture 3 hrs.,)

345L. Laboratory in Comparative Animal Physiology (1)
Prerequisites: BIOL 345 with a grade of "C" or better.
Laboratory course acquaints students with direct observation and measurement of physiological processes in various animal groups, both invertebrate and vertebrate.
Letter grade only (A-F). Course fee may be required. (Laboratory 3 hrs.)

350. General Ecology (3) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 260; MATH 115A or 122 all with a grade of "C" or better. Chemistry and physics recommended.
Relationships of plants and animals to their physical and biological environment; structure and function of populations, communities and ecosystems.
Letter grade only (A-F). (Lecture 3 hrs., and two required Saturday field trips.)

355. Marine Biology (3) S
Prerequisites: BIOL 111, 111L, 153, 212, 212L, 213, 213L, 260 all with grade of "C" or better.
Study of pelagic and benthic marine ecosystems, including food resources, man-induced pollutants, and processing. Weekend field trips may be required.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.) Course fee may be required.

355L. Microbial Ecology Laboratory (1) S
Prerequisites: MICR 211 or BIOL 111L, 111L, 212, 212L, 213, 213L, all with a grade of "C" or better.
Explores relationships of microorganisms to their environment. Emphasis placed on ecological basis for diversity of prokaryotic forms, metabolic functions and community interactions.
Not open for credit to students with credit in MICR 355. Letter grade only (A-F). (Same course as MICR 255.) (Lecture 3 hrs.)

355L. Microbial Ecology Laboratory (1) S
Prerequisites: BIOL 355 or MICR 355 with a grade of "C" or better.
Provides an understanding of microbes in the environment. Sample and analyze microbes from field trips to different habitats. Analytical techniques learned include enrichment culture methods and modern molecular biology methods to study the diversity and community dynamics of microbes.
Not open for credit to student with credit in MICR 355L. Letter grade only (A-F). Course fee may be required. Same course as MICR 355L. (Laboratory 3 hrs.)

370. General Genetics (4) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, and either BIOL 260 or CHEM 251 all with a grade of "C" or better.
Detailed study of classical transmission genetics and introduction to modern molecular genetics. Includes current observations and concepts of nature, organization, function, and regulation of genetic expression.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

411.511. Marine Mammalogy (3) S, odd years
Prerequisites: BIOL 153 or 353, BIOL 345, 350, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 411; graduates enroll in BIOL 511.)
Fundamental biological, ecological, and physiological concepts of marine mammals, including cetaceans, pinnipeds, whales, sirenians, and polar bears. Information concerning taxonomy, distribution, morphology, physiology, reproduction, and feeding through readings and scientific literature.
Field trips may include weekends and spring recess. Letter grade only (A-F). (Lecture 2 hrs., laboratory and field trips 3 hrs.)

412.512. Advanced Evolutionary Biology (3)
Prerequisite: BIOL 512 with a grade of "C" or better.
(Undergraduates enroll in BIOL 412; graduates enroll in BIOL 512.)
An advanced survey of topics in evolutionary biology including but not limited to population and quantitative genetics, allozyme game theory, evolutionary psychology, and evolutionary-developmental biology. Main emphasis on the development of conceptual and mathematical models of evolutionary processes.
Letter grade only (A-F). (Lecture 3 hrs.)

415.515. Marine Microbiology (3) F, odd years
Prerequisites: BIOL 353 or MICR 355 or BIOL 355 with a grade of "C" or better. (Undergraduates enroll in BIOL 415; graduates enroll in BIOL 515.)
Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biochemistry and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.
Not open for credit to students with credit in MICR 415. Letter grade only (A-F). Some course as MICR 415. Course fee may be required. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trips may be required.)

416.516. Virology (3) F,S
Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better.
(Undergraduates enroll in BIOL 416; graduates enroll in BIOL 516.)
Letter grade only (A-F). Same course as MICR 416. (Lecture 3 hrs.)

419. Ichthyology (3) F
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 260 and at least six additional units of upper division biological science, all with a grade of "C" or better. Recommended: BIOL 350, 355, and 370.
Systematics, morphology, genetics, and ecology of fishes. Emphasis on local marine forms.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., weekend field trips may be required.) Course fee may be required.
420. Fisheries Ecology and Conservation (3) F
Prerequisites: BIOL 130, 120, and 419 all with a grade of "C" or better. (Undergraduates enroll in BIOL 420; graduates enroll in BIOL 530.)
Advanced aspects of fish and invertebrate biology and behavior; fisheries ecology and conservation; emphasis on state of art field laboratory techniques and contemporary concepts and their application in fishery management.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

421. Herpetology (3) S, odd years
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 200 and eight units of upper division biology, all with a grade of "C" or better.
Taxonomy, natural history, ecology and distribution of amphibians and reptiles, emphasis on local forms. Weekend field trip required.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

424. Ornithology (3) S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 200 and three units of upper division BIOL, all with a grade of "C" or better.
Recommended: BIOL 550. (Undergraduates enroll in BIOL 424; graduates enroll in BIOL 524.)
Ecology, morphology, physiology, behavior, and taxonomy of birds from an evolutionary perspective; also factors influencing recent increase in their extinction risk. Species identification techniques (emphasis on the local avifauna) and methods of surveying avian populations.
Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)
Course fee may be required.

425. Phycology (3) F,S
Prerequisite: One of the following BIOL 313, 350, 353 with a grade of "C" or better.
Taxonomy, phylogeny, and physiology of algae, including the physiological ecology of marine macroalgae; emphasis on local marine forms.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)
Course fee may be required.

427. Vascular Plant Systematics (4) S
Prerequisite: BIOL 312 or 370 with a grade of "C" or better.
Principles and methods of plant systematics, including phylogenetics, different aspects of systematic data, evolutionary history and diversification of vascular plants. Laboratory emphasizes retrieving and analyzing systematic data, using phylogenetic methods, and identifying vascular plants of Southern California.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 6 hrs.)

430. Immunology (3) F,S
Prerequisite: BIOL 540 with a grade of "C" or better.
Study of cellular and molecular components of immune system, including how immune system recognizes pathogens, how it functions in various types of immune responses, mechanisms of vaccines, immunodeficiencies, transplantation, allergy, and autoimmunity.
Not open for credit to students with credit in MICR 430. Letter grade only (A-F). Same course as MICR 430. (Lecture 3 hrs.)

431. Biology of Cancer (3) F,S
Prerequisites: BIOL 349, 370 with a grade of "C" or better. (Undergraduates enroll in BIOL 431; graduates enroll in BIOL 531.)
An examination of cancer: tumor progression, and treatment of the cellular, molecular, and genetic levels.
Letter grade only (A-F). (Lecture 3 hrs.)

433. Developmental Biology (3) F,S
Prerequisites: BIOL 340, 370, both with a grade of "C" or better. (Undergraduates enroll in BIOL 433; graduates enroll in BIOL 533.)
Experimental approaches to development in model organisms, mostly animal, at the molecular, genetic, cellular, and tissue levels. Topics include gastrulation, fertilization, early cleavage, gastrulation, pattern formation, and organogenesis.
Letter grade only (A-F). (Lecture/discussion 3 hrs.)

439. Plant Morphology (4) F
Prerequisite: BIOL 312 or 370 with a grade of "C" or better.
A phylogenetic survey of plant morphology, morphological diversity and analysis of the developmental and genetic mechanisms affecting this diversity. Emphasis in the laboratory is on documenting green plant morphological evolution, biometrical, and studying the developmental mechanisms driving morphological diversification.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)
Course fee may be required.

440L Molecular Cell Biology Laboratory (3) F
Prerequisites: BIOL 340, 370, both with a grade of "C" or better, and consent of instructor.
(Preference given to students in the Bachelor of Science in Biology, Option in Cell and Molecular Biology.) Intensive course of modern laboratory techniques used in both cell and molecular biology. Topics include genomics, subcellular structures, and transport and purification and functional characterization of recombinant proteins. Provides extensive laboratory experience for students.
Not open for credit to students with credit in BIOL 340L.
Letter grade only (A-F). (Laboratory 6 hrs.) Course fee may be required.

441. Physiology for Therapists II (3) F,S
Prerequisite: BIOL 341 with a grade of "C" or better.
Mechanisms of action and interaction of physiological body systems, with emphasis on cardiovascular, renal, and respiratory systems. Pathological and clinical considerations will be presented.
Letter grade only (A-F). (Lecture 3 hrs.)

443. Endocrinology (3) F,S
Prerequisites: BIOL 340 or CHEM 441B; CHEM 320A or 322A or 327, and one of BIOL 341, 343, 445, 445, 444, CHEM 441A or 444, all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)
Role of hormones in vertebrate and invertebrate adjustment to changes in internal and external environment.
Letter grade only (A-F). (Lecture 3 hrs.)

444. Reproductive Biology (3) S
Prerequisite: BIOL 342 or 345 with a grade of "C" or better. (Undergraduates enroll in BIOL 444; graduates enroll in BIOL 544.)
Topics in comparative reproductive biology from molecular, cellular, organismal, and population levels. Hormones and reproduction, gametogenesis biology, reproductive lifespan, mating systems' strategies, environmental influence on reproductive capabilities, contraception and in vitro fertilization. Scientific communication discussed including scientific articles and scientific writing.
Letter grade only (A-F). (Lecture 3 hrs.)

445. Metabolic Regulation (3) F
Prerequisite: CHEM 441B or BIOL 443 or 543 with a grade of "C" or better. (Undergraduates enroll in BIOL 445; graduates enroll in BIOL 545.)
Study of molecular mechanisms by which intermediary metabolism is regulated in various mammalian tissues with emphasis on mechanisms of hormone action and regulation of some key enzymes of carbohydrate, fat, and protein metabolism.
Letter grade only (A-F). (Lecture 3 hrs.)
447/454. Molecular Plant Physiology (3) S
Prerequisites: BIOL 340, 370, both with grade of "C" or better.
(undergraduates enroll in BIOL 447; graduates enroll in BIOL 547.)
Molecular approaches to classical topics including plant hormones,
photosynthesis, resistance to plant pathogens, adaptation of plants
to environmental stress, and development of plants.
Lecture, grade only (A-F). (Lecture 3 hrs.)

448/548. Principles of Neurobiology (3) F, S
Prerequisites: BIOL 340 or CHEM 441B and one of BIOL 341, 342,
or 345, all with grade of "C" or better.
(undergraduates enroll in BIOL 448; graduates enroll in BIOL 548.)
Study of the principles of anatomy, physiology, and function of the
nervous system. Topics covered include neuroanatomy, physiology
of nervous signaling (excitable membranes and action potentials),
synaptic transmission, neurotransmitters, and their receptors, pain
processing, special senses, reflexes, and neural circuits.
Lecture grade only (A-F). (Lecture 3 hrs.)

449/549. Fish Physiology and Endocrinology (3) S
Prerequisite: BIOL 346 with grade of "C" or better.
(undergraduates enroll in BIOL 449; graduates enroll in BIOL 549.)
Fundamentals of physiological systems and strategies in fishes,
with emphasis on osmoregulatory mechanisms. Adaptations in
endocrine physiology of fishes considered from evolutionary and
ecological perspectives. Impacts of human activities, particularly in
context of Southern California's marine environment addressed.
Lecture grade only (A-F). (Lecture 3 hrs.)

450/550. Plant Ecology (3), even years
Prerequisites: BIOL 280, 350 with a grade of "C" or better.
Recommended: BIOL 427, 447.
(undergraduates enroll in BIOL 450; graduates enroll in BIOL 550.)
Relationship of plants to their environment and principles of plant
distribution.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)
Course fee may be required.

451/551. Wetlands and Mangrove Ecology (3), odd years
Prerequisites: BIOL 290, 350 both with a grade of "C" or better.
(undergraduates enroll in BIOL 451; graduates enroll in BIOL 551.)
Wetlands and mangrove ecology in shifting wetland ecosystem
types. Physical and biogeochemical conditions, biological
characteristics, specific species, and their interactions. Specific
coastal and inland wetland ecosystems described. Wetland
management goals and concepts and approaches and practices in
U.S. and world. Two lectures will extend beyond standard lecture
time.
Lecture grade only (A-F). (Lecture 3 hrs.)

452/552. Behavioral Ecology (3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 260 all with
a grade of "C" or better. Pr- or corequisite: BIOL 312 or 350.
(undergraduates enroll in BIOL 452; graduates enroll in BIOL 552.)
Primary objectives are to understand how animal behavior affects
survival and reproduction and introduce students to current
methodologies to study behavior of animals in lab and field
conditions. Emphasizes ecological and evolutionary consequences
of behavior across taxa.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)

453/553. Insect Ecology (3), F, even years
Prerequisite: BIOL 350 with a grade of "C" or better.
(undergraduates enroll in BIOL 453; graduates enroll in BIOL 553.)
Field and experimental studies of abundance, dispersal,
distribution, and behavior of insects.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

454A/554A. Research in Tropical Marine Ecology (3), even years
Prerequisites: BIOL 250, either BIOL 50 or 353, and BIOL 313 or
419 or 425 all with a grade of "C" or better, and consent of
instructor. (undergraduates register in BIOL 454A; graduates
register in BIOL 554A.)
Field and laboratory studies, lectures, and individual research on
tropical marine biological problems. Designed to engage students
in experimental research, including recognizing a problem,
designing and carrying out a project, statistical data analysis, and
oral and written report presentations.
Eight-day field trip to Hawaii required during spring recess at
student expense. Enrollment is limited. Lecture grade only (A-F).
(Lecture 2 hrs., 8 day field trip.)

454B/554B. Research in Tropical Terrestrial Ecology (3)
S, odd years
Prerequisites: BIOL 350, one of BIOL 316, 324, 421, 424, 427,
or 459 all with a grade of "C" or better, and consent of instructor.
(undergraduates enroll in BIOL 454B; graduates enroll in BIOL 554B.)
Field-based comparison of tropical lowland deciduous forest and
tropical rainforest incorporating basic ecology methodology.
Forest structure and diversity of animals emphasized. Students maintain
field notebook, submit final paper, and give oral presentation.
Nine-day field trip to Costa Rica required during spring recess at
student expense. Enrollment is limited. Lecture grade only (A-F).
Course fee may be required. (Lecture 2 hrs., 9 day field trip.)

455/555. Ecology of Marine Communities (3), F, even years
Prerequisites: BIOL 289, 350, 353 all with a grade of "C" or better.
(undergraduates enroll in BIOL 455; graduates enroll in BIOL 555.)
Field studies on ecological principles related to marine
communities discussed. Includes individual field research project
and two data projects.
Lecture grade only (A-F). (Lecture 2 hrs., field 3 hrs.)

456/556. Population Ecology (3), even years
Prerequisites: BIOL 350, MATH 116 or 123 all with a grade of "C"
or better. (undergraduates enroll in BIOL 456; graduates in BIOL 556.)
Analysis of animal and plant populations characteristics: population
growth and regulation, fluctuation and regulation, competition,
predation, parasitism, and other intraspecific and interspecific
interactions, spatial patterns.
Lecture grade only (A-F). (Lecture 3 hrs.)

457/557. Field Methods in Ecology (3)
Prerequisites: BIOL 250, 350 both all with a grade of "C" or better.
(undergraduates enroll in BIOL 457; graduates in BIOL 557.)
Design of field research projects, collection, and data analysis,
report writings and presentations. Field sampling techniques
emphasized. Five weekend fieldtrips required.
Lecture grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

459/559. Conservation Biology (2) F
Prerequisites: BIOL 350, 359 both all with a grade of "C" or better.
Recommended: BIOL 370. (undergraduates enroll in BIOL 459;
graduates enroll in BIOL 559.)
Conservation biology concepts including population
ecology, extinction processes, population viability analysis,
metapopulations, community-level interactions, island
biogeography, biological diversity patterns, habitat fragmentation,
reserve design, and landscape-level conservation. Lectures
include group discussions of relevant primary literature.
Lecture grade only (A-F). (Lecture 3 hrs., two weekend field trips
may be required.)
463/563. Computer Modeling in Biology (4)
Prerequisites: BIOL 260, 350 both with a grade of "C" or better.
(undergraduate/graduate enrollment in BIOL 563.)
History, modeling theory, different modeling approaches, algorithmic, empirical and quantitative modeling. Laboratory uses modeling software and focuses on model construction and quantitative simulation. Applicable to ecology, microbiology, physiology, environmental sciences, etc.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

464/564. Aquatic Toxicology (3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 340, CHEM 320A or 322A or 327, all with a grade of "C" or better. Recommended: BIOL 353 and CHEM 418 or 414A, B (undergraduate enrollment in BIOL 464; graduate enrollment in BIOL 564.)
In-depth study of interactions between anthropogenic chemicals and aquatic ecosystems, including origin, fate, chemical and biological processes, levels and patterns of pollutants and impact at molecular, biochemical, cellular, physiological, organismal, and community levels of organization. Individual research project required.
Letter grade only (A-F). (Lecture 3 hrs.)

465/565. Experimental Design and Regression Analysis (4) F, even years
Prerequisites: BIOL 260, MATH 118B or 123; six units of upper division biological science all with a grade of "C" or better.
(undergraduate/graduate enrollment in BIOL 465; graduate enrollment in BIOL 565.)
Experimental design and data analysis techniques applied to problems in biology including analysis of variance and covariance, linear and non-linear regression, experimental design, bootstrapping and randomization tests, analysis of covariance, and nonparametric statistics. Experience in analyzing biological data using computerized statistical packages.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

466H. Research Design and Methods -- Honors (3) S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, either BIOL 260 or CHEM 254, CHEM 320A, B or CHEM 322A, B and 323A, B, all with a grade of "C" or better, completion of the GE Foundation, and consent of instructor.
Introduction to hypothesis testing, experimental design, and regression modeling of biological data; methodological and technical procedures for experiments for written and oral presentation of research results. Research paper and oral presentation required.
Not open for credit to students with credit in CHEM 466H. Letter grade only (A-F). Same course as CHEM 466H. (Lecture 3 hours.)

467/567. Multivariate Data Analysis (4) F, odd years
Prerequisites: BIOL 260, MATH 118B or 123; six units of upper division biological science all with a grade of "C" or better.
(undergraduate/graduate enrollment in BIOL 467; graduate enrollment in BIOL 567.)
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

472/572. Molecular Evolution (3)
Prerequisite: BIOL 370 with a grade of "C" or better. Recommended: BIOL 312. (undergraduate enrollment in BIOL 472; graduate enrollment in BIOL 572.)
Survey of molecular evolution including but not limited to the history of the field, protein and DNA evolution, neutral and nearly-neutral theory, molecular phylogenetics, molecular population genetics and DNA fingerprinting, genomics, and proteomics. Applicable to ecological, evolutionary, medical, forensic sciences.
Letter grade only (A-F). (Lecture 3 hrs.)

473/573. Molecular Genetics (3) S
Prerequisites: BIOL 370 or MICR 317; CHEM 320A, B or 322A, B and 323A, B or 327, all with a grade of "C" or better. (undergraduate enrollment in BIOL 473; graduate enrollment in BIOL 573.)
Contemporary molecular genetic analysis of model organisms (mouse, worm, flies, yeasts) used in study of human disease, basic biological processes, gene regulation, and global analysis of genomes and proteomes.
Letter grade only (A-F). (Lecture 3 hrs.)

477/577. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F
Prerequisite: BIOL 340 or 370 or CHEM 411A, B; all with a grade of "C" or better. (undergraduate enrollment in BIOL 477; graduate enrollment in BIOL 577.)
Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data mining, the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.
Letter grade only (A-F). Same course as MICR 477/577. Not open for credit to students with credit in MICR 477/577. (Lecture 3 hrs., activity 2 hrs.)

480/580. Seminars (1) F, S
Prerequisites: Consent of department. Undergraduates must have filed for graduation and be in their senior or penultimate semester.
Graduates must have been admitted to the department as a graduate student. (undergraduate enrollment in BIOL 480; graduate enrollment in BIOL 580.)
Weekly meetings with professional biologists presenting results of their research. Requires participation in critical evaluation of these presentations.
May not be repeated for credit towards any single degree. Letter grade only (A-F). (Seminar 1 hr.)

490/590. Special Topics in Biology (1-3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, all with a grade of "C" or better, and consent of instructor. (undergraduate enrollment in BIOL 490; graduate enrollment in BIOL 590.)
Topics from selected areas of biology. Course content varies from section to section.
May be repeated to a maximum of 6 units with different topics. Topics announced in the Schedule of Classes. Letter grade only (A-F). (Lecture 1-3 hrs.)

490L/590L. Special Topics Laboratory in Biology (1-2)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, all with a grade of "C" or better, and consent of instructor. (undergraduate enrollment in BIOL 490L; graduate enrollment in BIOL 590L.)
Topics from selected areas of biology. Course content varies from section to section.
May be repeated to a maximum of 4 units with different topics. Topics announced in the Schedule of Classes. Letter grade only (A-F). (Lecture 1-3 hrs.)

495. Instruction in Laboratory Teaching (1-2) F, S
Prerequisites: Consent of lecture instructor, a "B" or better in the course in which the student elects to do BIOL 495 (another course or project may be substituted with consent of instructor), and an overall GPA of at least 2.75.
Individual instruction in organization and techniques of teaching a biology laboratory.
Not open for credit to students with credit in MICR 495. May be repeated for a letter grade and degree credit to a maximum of 2 units for any single degree or option. Units beyond the two taken for a letter grade in BIOL 495 or MICR 495 or any combination of the two will be taken credit/no credit. Same course as MICR 495. (Conference 1 hr., laboratory 3 hrs. per unit.)
496. Undergraduate Directed Research (1-3) F,S
Prerequisites: Consent of instructor and consent of appropriate undergraduate advisor.
Research in a specific topic in biological sciences approved and directed by a faculty member in the Department of Biological Sciences.
Not open to students with credit in MCR 496. May be repeated for a letter grade and degree credit to a maximum of three units for any single degree or option. Units beyond the three taken for a letter grade in BIOL 496 or MCR 496, or any combination of the two, will be taken credit/no credit. Same course as MCR 496. Not available to graduate students. (Conference 1 hr., laboratory 3 hrs. per unit.)

498H. Senior Thesis – Honors (3) F,S
Prerequisites: At least one unit of BIOL 496 with a grade of "C" or better and consent of instructor.
Planning, preparation, completion, and oral presentation of a written thesis based on a research project in biological sciences begun in BIOL/MCR 496. Not available to graduate students.
Letter grade only (A-F).

GRADUATE LEVEL

511.411. Marine Mammalogy (3) S, odd years
Prerequisites: BIOL 153 or 353, BIOL 345, 550, all with grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 411; graduates enroll in BIOL 511.)
Fundamental biological, ecological, and physiological concepts of marine mammals, including cetaceans, pinnipeds, walruses, sea lions, and polar bears. Information concerning taxonomy, distribution, morphology, physiology, reproduction, and feeding through readings and scientific literature. Fieldtrips may include weekends and spring break.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and fieldtrips 3 hrs.)

512.412. Advanced Evolutionary Biology (3) F
Prerequisite: BIOL 312 with a grade of "C" or better. (Undergraduates enroll in BIOL 412; graduates enroll in BIOL 512.)
An advanced survey of topics in evolutionary biology including but not limited to population and quantitative genetics, allelotyping, game theory, evolutionary psychology, and evolutionary developmental biology. Main emphasis on the development of conceptual and mathematical models of evolutionary processes.
Letter grade only (A-F). (Lectures 3 hrs.)

515.415. Marine Microbiology (3) F, odd years
Prerequisite: BIOL 353 or MCR 355 or BIOL 355 with a grade of "C" or better. (Undergraduates enroll in BIOL 415; graduates enroll in BIOL 515.)
Designed to familiarize marine biology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biochemistry and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.
Not open to students with credit in MCR 515. Letter grade only (A-F). Course fee may be required. Same course as MCR 515. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

516.416. Virology (3) F,S
Prerequisite: MCR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in BIOL 416; graduates enroll in BIOL 516.)
Letter grade only (A-F). (Lecture 3 hrs.)

520./420. Fisheries Ecology and Conservation (3) F
Prerequisites: BIOL 250, 350, and 419 all with a grade of "C" or better. (Undergraduates enroll in BIOL 420; graduates enroll in BIOL 520.)
Advanced aspects of fish and invertebrate biology and behavior; fisheries economics and conservation; emphasis on state-of-art field/laboratory techniques and contemporary concepts and their application in fishery management.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

524.424. Ornithology (3) S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 260 and three units of upper division BIOL, all with a grade of "C" or better. Recommended: BIOL 252. (Undergraduates enroll in BIOL 424; graduates enroll in BIOL 524.)
Ecology, morphology, physiology, behavior, and taxonomy of birds from an evolutionary perspective, also factors influencing recent increase in their extinction risk. Species identification techniques (emphasis on the local avifauna) and methods of surveying avian populations.
Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.) Course fee may be required.

531./431. Biology of Cancer (3) S,F
Prerequisites: BIOL 340, 370 with a grade of "C" or better. (Undergraduates enroll in BIOL 431; graduates enroll in BIOL 531.)
An examination of cancer: tumor progression, and treatment of the cellular, molecular, and genetic levels.
Letter grade only (A-F). (Lecture 3 hrs.)

533.433. Developmental Biology (3) S
Prerequisites: BIOL 340, 370, both with a grade of "C" or better. (Undergraduates enroll in BIOL 433; graduates enroll in BIOL 533.)
Experimental approaches to development in model organisms, mostly animal, at the molecular, genetic, cellular, and tissue levels. Topics include gametogenesis, fertilization, early cleavage, gastrulation, pattern formation, and organogenesis.
Letter grade only (A-F). (Lecture/discussion 3 hrs.)

540. Advanced Molecular Cell Biology and Physiology (3) F
Prerequisites: Graduate standing and consent of instructor.
In depth discussion of cellular processes and their regulation and how they relate to organismal physiology. Includes critical reading and discussion of primary journal articles on pertinent topics.
Letter grade only (A-F). (Lecture 3 hrs.)

543.443. Endocrinology (3) S,F
Prerequisites: BIOL 340 or CHEM 4418; CHEM 322A or 322A or 327; and one of BIOL 341, 342, 343, 445, 446; CHEM 441A or 44B. all with a grade of "C" or better. (Undergraduates enroll in BIOL 443; graduates enroll in BIOL 543.)
Role of hormones in vertebrate and invertebrate adjustment to changes in internal and external environment.
Letter grade only (A-F). (Lecture 3 hrs.)

544.444. Reproductive Biology (3) S
Prerequisite: BIOL 342 or 345 with a grade of "C" or better.
Topics in comparative reproductive biology from molecular, cellular, organismal, and population levels. Hormones and reproduction, gametogenesis biology, reproductive lifespan, mating system strategies, environmental influence on reproductive capabilities, contraception/in vitro fertilization. Scientific communication discussed including scientific articles and scientific writing.
Letter grade only (A-F). (Lecture 3 hrs.)
Biology Courses (BIOL)

545.445. Metabolic Regulation
Prerequisite: CHEM 441B or BIOL 443 or 543 with a grade of “C” or better. (Undergraduates enroll in BIOL 445; graduates enroll in BIOL 545.)
Study of molecular mechanisms by which intermediary metabolism is regulated in various mammalian tissues with emphasis on mechanisms of hormone action and regulation of some key enzymes of carbohydrate, fat, and protein metabolism.
Letter grade only (A-F). (Lecture 3 hrs.)

547.447. Molecular Plant Physiology (3) S
Prerequisites: BIOL 340, 370, both with grade of “C” or better. (Undergraduates enroll in BIOL 447; graduates enroll in BIOL 547.)
Molecular approaches to classical topics including plant hormones, photosynthesis, resistance to plant pathogens, adaptation of plants to environmental stresses, and development of plants.
Letter grade only (A-F). (Lecture 3 hrs.)

548.448. Principles of Neurobiology (3) F-S
Prerequisites: BIOL 340 or CHEM 441B; and one of BIOL 341, 342, or 343 all with a grade of “C” or better. (Undergraduates enroll in BIOL 448; graduates enroll in BIOL 548.)
Study of the principles of anatomy, physiology, and function of the nervous system. Topics covered include neuroanatomy, physiology of neuronal signaling (excitable membranes and action potentials), synaptic transmission, neurotransmitters and their receptors, pain processing, spinal sensory, reflexes, and neural circuits.
Letter grade only (A-F). (Lecture 3 hrs.)

549.449. Fish Physiology and Endocrinology (3)
Prerequisite: BIOL 345 with grade of “C” or better. (Undergraduates enroll in BIOL 449; graduates enroll in BIOL 549.)
Fundamentals of physiological systems and strategies in fishes, with emphasis on endocrine regulatory mechanisms. Adaptations in endocrine physiology of fishes considered from evolutionary and ecological perspectives. Impacts of human activities, particularly in context of Southern California’s marine environment addressed.
Letter grade only (A-F). (Lecture 3 hrs.)

550.450. Plant Ecology (3) S, even years
Prerequisites: BIOL 260, 290 both with a grade of “C” or better. (Undergraduates enroll in BIOL 450; graduates enroll in BIOL 550.)
Relationship of plants to their environment and principles of plant distribution.
Letter grade only (A-F) (Lecture 2 hrs., laboratory and field 3 hrs.)
Course fee may be required.

551.451. Wetlands and Mangrove Ecology (3) S, odd years
Prerequisites: BIOL 260, 290 both with a grade of “C” or better. (Undergraduates enroll in BIOL 451; graduates enroll in BIOL 551.)
Wetlands and mangrove ecology in shaping wetland ecosystem types. Physical and biogeochemical conditions, biological characteristics, specific players, and their interactions. Specific coastal and inland wetland ecosystems described. Wetland management goals and concepts and approaches and practices in U.S. and world. Two fieldtrips will extend beyond standard lecture time.
Letter grade only (A-F). (Lecture 3 hrs.)

552.452. Behavioral Ecology (3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 260 all with a grade of “C” or better. (Undergraduates enroll in BIOL 452; graduates enroll in BIOL 552.)
Primary objectives are to understand how animal behavior affects survival and reproduction and introduce students to current methodologies to study behavior of animals in lab and field conditions. Emphasizes ecological and evolutionary consequences of behavior across taxa.
Letter grade only (A-F). (Lecture 2 hrs., laboratory/field 3 hrs.)

553.453. Insect Ecology (3) F, even years
Prerequisites: BIOL 350 with a grade of “C” or better. (Undergraduates enroll in BIOL 453; graduates enroll in BIOL 553.)
Field and experimental studies of abundance, dispersal, distribution, and behavior of insects.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

554A.454A. Research in Tropical Marine Ecology (3) S, even years
Prerequisites: BIOL 260, either BIOL 350 or 353, and BIOL 313 or 419 or 425, all with a grade of “C” or better, and consent of instructor. (Undergraduates as registrar in BIOL 454A; graduates register in BIOL 554A.)
Field and laboratory studies, lectures, and individual research on tropical marine biological problems. Designed to engage students in experimental research, including recognizing a problem, designing and carrying out a project, statistical data analysis, and oral and written report presentation.
Eight-day field trip to Hawaii required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). (Lecture 2 hrs., 8 day field trip.)

554B.454B. Research in Tropical Terrestrial Ecology (3) S, odd years
Prerequisites: BIOL 350; one of BIOL 316, 324, 421, 424, 427, or 439, all with a grade of “C” or better, and consent of instructor. (Undergraduates enroll in BIOL 454B; graduates enroll in BIOL 554B.)
Field based comparison of tropical lowland deciduous forest and lowland rainforests incorporating basic ecology methodology. Forest structure and diversity of animals emphasized. Students maintain field notebook, submit final paper, and give oral presentation.
Nine-day fieldtrip to Costa Rica required during spring recess at student expense. Enrollment is limited. Letter grade only (A-F). Course fee may be required. (Lecture 2 hr., 9 day field trip.)

555.455. Ecology of Marine Communities (3) F, even years
Prerequisites: BIOL 350, 355 all with a grade of “C” or better. (Undergraduates enroll in BIOL 455; graduates enroll in BIOL 555.)
Field studies on ecological principles related to marine communities discussed. Includes individual field research project and two class projects.
Letter grade only (A-F). (Lecture 2 hrs., field 3 hrs.)

556.456. Population Ecology (3)
Prerequisites: BIOL 350; MATH 119B or 122; all with a grade of “C” or better. (Undergraduates enroll in BIOL 456; graduates in BIOL 556.)
Analysis of animal and plant populations characteristics: population growth and regulation, fluctuation and regulation, competition, predation, parasitism, and other interspecific and intraspecific interactions; spatial patterns.
Letter grade only (A-F). (Lecture 3 hrs.)

557.457. Field Methods in Ecology (3)
Prerequisites: BIOL 260, 350 both with a grade of “C” or better. (Undergraduates enroll in BIOL 457; graduates in BIOL 557.)
Design of field research projects, collection, and data analysis, report writing and presentations. Field sampling techniques emphasized. Five weekends fieldtrips required.
Letter grade only (A-F). (Lecture 2 hrs., laboratory and field 3 hrs.)

559.459. Conservation Biology (3) F
Prerequisites: BIOL 250, 350 both with a grade of “C” or better. Recommended: BIOL 370. (Undergraduates enroll in BIOL 459; graduates enroll in BIOL 559.)
Conservation biology concepts including population dynamics, extinction processes, population viability analyses, metapopulations, community-level interactions, island biogeography, biological diversity patterns, habitat fragmentation, reserve design, and landscape-level conservation. Lecture includes group discussions of relevant primary literature.
Letter grade only (A-F). (Lecture 3 hrs., two weekend field trips may be required.)

563/463. Computer Modelling in Biology (4)
Prerequisites: BIOL 280, 350 both with a grade of "C" or better.
(Undergraduates enroll in BIOL 463; graduates enroll in BIOL 563.)
Historical modeling theory, current research advances, theoretical, empirical and quantitative modeling. Laboratory uses modeling software and focuses on model construction and quantitative simulation. Applicable to ecology, microbiology, physiology, environmental sciences, etc.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

564/464. Aquatic Toxicology (3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, 340; CHEM 320.A or 327, all with a grade of "C" or better. Recommended: BIOL 353 and CHEM 448 or 441.A.
(Undergraduates enroll in BIOL 464; graduates enroll in BIOL 564.)
In depth study of interactions between anthropogenic chemicals and aquatic ecosystems, including origin, fate, chemical and biological detection, and quantification of pollutants and impact at molecular, biochemical, cellular, physiological, organismal, and community levels of organization. Individual research project required.
Letter grade only (A-F). (Lecture 3 hrs.)

565/465. Experimental Design and Regression Analysis (4) F, even years
Prerequisites: BIOL 250, MATH 1180 or 123; six units of upper division biological science all with a grade of "C" or better.
(Undergraduates enroll in BIOL 465; graduates enroll in BIOL 565.)
Experimental design and data analysis techniques applied to problems in biology including analysis of variance and covariance, bi-variate and multiple regression, experimental design, bootstrapping and randomization tests, and nonparametric statistics. Experience in analyzing biological data using computerized statistical packages.
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

567/467. Multivariate Data Analysis (4) F, odd years
Prerequisites: BIOL 250, MATH 1180 or 123; six units of upper division biological science all with a grade of "C" or better.
(Undergraduates enroll in BIOL 467; graduates enroll in BIOL 567.)
Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

570. Advanced Genetics (3) S
Prerequisites: Graduate standing and consent of instructor.
In depth discussion of various advanced topics in genetics, which may include population genetics, molecular physiology, and microbiological genetics. Includes critical reading and discussion of primary journal articles on pertinent topics.
Letter grade only (A-F). (Lecture 3 hrs.)

572/472. Molecular Evolution (3)
Prerequisite: BIOL 570 with a grade of "C" or better. Recommended: BIOL 512. (Undergraduates enroll in BIOL 472; graduates enroll in BIOL 572.)
Survey of molecular evolution including but not limited to the history of the field, protein and DNA evolution, neutral and nearly-neutral theory, molecular phylogenetics, molecular population genetics and DNA fingerprinting, genomics, and proteomics. Applicable to ecological, evolutionary, medical, forensic sciences.
Letter grade only (A-F). (Lecture 3 hrs.)

573/473. Molecular Genetics (3) S
Prerequisites: BIOL 370 or MIRC 371; BIOL 320.A, 320.B or 327, all with a grade of "C" or better.
(Undergraduates enroll in BIOL 473; graduates enroll in BIOL 573.)
Contemporary molecular genetic analysis of model organisms (mouse, worm, flies, yeasts) used in study of human disease, basic biological processes, gene regulation, and global analysis of genomes and proteomes.
Letter grade only (A-F). (Lecture 3 hrs.)

577/477. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F
Prerequisite: BIOL 340 or 370 or CHEM 441.A,B; all with a grade of "C" or better.
(Undergraduates enroll in BIOL 477; graduates enroll in BIOL 577.)
Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data mining, the use of computers in experimental design and functional analysis, use of microarrays, and future of nanotechnology.
Letter grade only (A-F). Same course as MIRC 577/477. Not open for credit to students with credit in MIRC 577/477. (Lecture 3 hrs., activity 2 hrs.)

580/480. Seminars (1) F,S
Prerequisites: Consent of department. Undergraduates must have filed for graduation and be in ultimate semester. Graduates must have been admitted to the department as a graduate student. (Undergraduates enroll in BIOL 480; graduates enroll in BIOL 580.)
Weekly meetings with professional biologists presenting results of their research. Requires participation in organization and critical evaluation of these presentations.
May not be repeated for credit towards any single degree. Letter grade only (A-F) (Seminars 1 hr.)

590/490. Special Topics in Biology (1-3)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490; graduates enroll in BIOL 590.)
Topics from selected areas of biology. Course content varies from section to section. Topics announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F). (Lecture 1-3 hrs.)

590L/490L. Special Topics Laboratory in Biology (1-2)
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, all with a grade of "C" or better, and consent of instructor. (Undergraduates enroll in BIOL 490L; graduates enroll in BIOL 590L.)
Topics from selected areas of biology. Course content varies from section to section. May be repeated to a maximum of 4 units with different topics. Topics announced in the Schedule of Classes. Letter grade only (A-F). (Laboratory 3 or 6 hrs.)

661. Seminar in Biology (2)
Critical evaluation of field’s primary literature, including oral and/or written presentation of critiques.
May be repeated to a maximum of 4 units with different topics.
Letter grade only (A-F). (Seminar 2 hrs.)

663. Seminar in Cell and Molecular Biology (2)
Critical evaluation of field’s primary literature, including oral and/or written presentation of critiques.
May be repeated to a maximum of 4 units with different topics.
Letter grade only (A-F) (Seminar 2 hrs.)
LOWER DIVISION

101. Introduction to Human Disease (3) F,S
Prerequisite: Corequisite. Course that fulfills the A.1 GE requirement. Introduction to the study of human disease including morbid etiologic and economic issues. (Lecture 3 hrs.)

200. General Microbiology for Health Professionals (4) F,S
Prerequisites: CHEM 111A or 140 with a grade of "C" or better and completion of GE Foundation requirements. Microbiology for those planning careers in nursing, health care and education, and foods and nutrition. Introduction to microorganisms, including structure, function, metabolism, growth, genetics, diversity, and applied aspects. Special emphasis on human health. Not open for credit to majors in the biological sciences. (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

211. General Microbiology (5) F,S
Prerequisites: BIOL 111, 111L, 212, 212L; CHEM 111B, all with a grade of "C" or better. Introduction to biology of microorganisms, including structure, function, metabolism, growth, genetics, diversity, host-parasite relationships, and applied aspects. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

UPPER DIVISION

300L. Human Immunology: In Self-Defense (3) F
Prerequisites: Completion of GE Foundation requirements, one or more Exploration courses, and upper-division standing; one laboratory course in a life science. Introductory psychology and laboratory course in a physical science recommended. Mechanisms and cells responsible for protecting human body from disease. Normal functions of immune system, diseases involving immune system, and psychological, endocrine and age factors affecting immune system included. Impact of immunology or organ transplantation, immunotherapy, and biotechnology discussed. Not applicable for credit toward the major in Microbiology. (Lecture 3 hrs.)

320. Bacterial Pathogenesis (3) F,S
Prerequisite: MICRO 211 with a grade of "C" or better. Nature of host-pathogen interactions in health and disease. Emphasis upon pathogenic bacteria of humans and animals; topics include bacterial ultrastructure, epidemiology, and mechanisms of pathogenesis, host defense mechanisms, and antibacterial therapy. Letter grade only (A-F). (Lecture 3 hrs.) Course fee may be required.

320L. Bacterial Pathogenesis Laboratory (2) F,S
Prerequisites or corequisites: MICRO 320 with a grade of "C" or better. Experiments using modern and classical techniques for the isolation, identification, and characterization of pathogenic bacteria. Molecular mechanisms of bacterial virulence are emphasized. Techniques used include PCR, SDS-PAGE, serotyping, and immunofluorescence microscopy. Letter grade only (A-F). (Laboratory 6 hrs.)

322. Mycology/Parasitology (5) F,S
Prerequisites: BIOL 111, 111L, 212, 212L, MICRO 320, all with a grade of "C" or better. Second of a two-semester sequence (MICRO 320/322) in medical microbiology for majors. Survey of protozoa, helminthes, and fungi of humans; emphasis on identification of fresh and preserved specimens, pathogenesis, host-parasite interactions, epidemiology, prevention, and control. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

Microbiology Courses (MICR)

Students pursuing a major and/or a minor in this department may receive unit credit for courses marked with the symbol “**” as a general elective but may not apply the units toward the specific or elective requirements for any degree or option in this department. Majors in this Department may, however, take, for general education purposes, interdisciplinary courses offered by this department. All other courses in this department are open to majors and minors but by letter grade only.
325. Emerging Infectious Diseases (3)
Prerequisites: MICR 211 with a grade of "C" or better and consent of instructor.
Explores changes in technology, infectious disease organisms and other factors contributing to emerging and re-emerging infectious diseases, including immunodeficiency, antibiotic and insecticide abuses, climate change, travel and commerce, human demographic and behavioral changes, land use, and breakdown of public health.
Letter grade only (A-F). (Lecture 3 hrs.)

355. Microbial Ecology (3) S
Prerequisites: MICR 211 or BIOL 111L, 211L, 212L, 214L, 215L, 216L, all with a grade of "C" or better.
Explores relationships of microorganisms to their environment. Emphasis placed on ecological basis for diversity of prokaryotic forms, metabolic functions and community interactions.
Not open for credit to students with credit in BIOL 355. Letter grade only (A-F). Same course as BIOL 355. (Lecture 3 hrs.)

355L. Microbial Ecology Laboratory (1) S
Prerequisite: MICR 355 or BIOL 355 with a grade of "C" or better.
Provides an understanding of microbes in the environment. Sample and analyze microbes from field trips to different habitats. Analytical techniques learned include enrichment culture methods and modern molecular biology methods to study the diversity and community dynamics of microbes.
Not open for credit to students with credit in BIOL 355L. Letter grade only (A-F). Some course as BIOL 355L. (Laboratory 3 hrs.)

371. Microbiol Genetics (3) F
Prerequisite: MICR 211 with a grade of "C" or better.
Genetic analysis of biological processes in microbes. Includes gene structure, regulation, and function; isolation/analysis of mutations in haploid/diploid organisms; gene function from mutants; genetic exchange; regulation of host-pathogen interactions; bacteriophages; cloned genes; and genomics.
Letter grade only (A-F). (Lecture 3 hrs.)

372. Methods in Microbial Genetics (2) F
Prerequisite: MICR 211 with a grade of "C" or better.
Recommended: MICR 371.
Laboratory study of microbial genetics, using classical (non-molecular) and contemporary (molecular) approaches. Includes genetic engineering techniques; microbial genomics.
Not open for credit to students with credit in MICR 451. Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

415. Marine Microbiology (3) F, odd years
Prerequisite: MICR 355 or BIOL 355 or BIOL 353 with a grade of "C" or better. (Undergraduates enroll in MICR 415; graduates enroll in MICR 515B.)
Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biogeochemistry, and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.
Not open for credit to students with credit in BIOL 415. Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required. (Lecture 2 hrs., laboratory and field 3 hrs.) Weekend field trip may be required.

416. Virology (3) F,S
Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 416; graduates enroll in MICR 516.)
Virology at molecular level including viral replication and molecular basis for viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.
Letter grade only (A-F). Same course as BIOL 516. Not open for credit to students with credit in BIOL 516. (Lecture 3 hrs.)

423/.523. Hematology (4) F
Prerequisite: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 423; graduates enroll in MICR 523.)
Study of blood and coagulation system. Normal cell structure and function and physiological and morphological changes in inflammation, leukemias, and anemias discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case-studies included.
Useful for student interested in medical professions. Required for clinical laboratory science (medical technology) internship. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

429/.529. Epidemiology of Infectious Diseases (3)
Prerequisites: BIOL 250, MICR 320, 322, all with a grade of "C" or better. (Undergraduates enroll in MICR 429; graduates enroll in MICR 529.)
Principles of epidemiology and application to health: fundamentals of biostatistical calculations; basic factors in classic epidemiological studies and prevention and control of infectious diseases.
Letter grade only (A-F). (Lecture 3 hrs.)

430. Immunology (3) F,S
Prerequisite: BIOL 340 with a grade of "C" or better.
Study of cellular and molecular components of immune system, including how immune system recognizes pathogens, how it functions in various types of immune responses, mechanisms of vaccines, immunodeficiencies, transplantation, allergy, and autoimmunity.
Not open for credit to students with credit in BIOL 430. Letter grade only (A-F). Same course as BIOL 430. (Lecture 3 hrs.)

430L. Immunology Laboratory (2)
Prerequisite: BIOL 340 with a grade of "C" or better. Prerequisite: Corequisite: MICR 430.
Modern and classical techniques in cellular and molecular immunology. Experimental techniques have broader applications to other fields and include mammalian cell culture, antibody purification, SDS-PAGE, western blots, and assays of apoptosis, cell proliferation, cellular activation, and antibody-antigen interactions.
Letter grade only (A-F). (Laboratory 3 hrs.) Course fee may be required.

471/.571. Bacterial Physiology (3) S
Prerequisites: MICR 320, CHEM 441A; both with a grade of "C" or better. (Undergraduates enroll in MICR 471; graduates enroll in MICR 571.)
Cellular physiology at molecular level as related to bacterial growth, reproduction, nutrition, metabolism, and ecology.
Letter grade only (A-F). (Lecture 3 hrs.)

473. Food and Industrial Microbiology (3) F
Prerequisites: MICR 200 or 211; CHEM 441A or 448; both with a grade of "C" or better.
Role of microorganisms in food and other industrial processes; emphasis on bacteria, yeasts and molds.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

477/.577. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F
Prerequisite: BIOL 340 or 370 or CHEM 441A, B; all with a grade of "C" or better. (Undergraduates enroll in MICR 477; graduates enroll in MICR 577.)
Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data mining; the use of computers in experimental design and/or functional analysis, use of microarrays, and future of nanotechnology.
Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

2009/2010 CSULB Catalog • Biological Sciences • 203
Microbiology Courses (MICR)

490/590. Special Topics in Microbiology (1-3)
Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates enroll in MICR 490; graduates enroll in MICR 590.)
Topics from selected areas of microbiology. Course content will vary from section to section. Topics announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F). (Lecture 1-3 hrs.)

495. Instr. in Laboratory Teaching (1-2) F,S
Prerequisites: Consent of lecture instructor, a "B" or better in the course in which the student elects to do MICR 495 (another course with laboratory may be substituted with consent of instructor), and an overall GPA of at least 2.75.
Individual instruction in organization and techniques of teaching a microbiology laboratory.
Not open for credit to students with credit in BIOL 495. May be repeated for letter grade and degree credit to a maximum of two units for any single degree or option. Any units beyond the three taken for a letter grade in BIOL 495 or MICR 495 or any combination of the two will be taken credit/no credit. Same course as BIOL 495. (Conference 1 hr., laboratory 3 hrs. per unit.)

496. Undergraduate Directed Research (1-3) F,S
Prerequisites: Consent of instructor and consent of appropriate undergraduate advisor.
Research in a specific topic in biological sciences approved and directed by a faculty member in the Department of Biological Sciences.
Not open for credit to student with credit in BIOL 495. May be repeated for a letter grade and degree credit to a maximum of three units for any single degree or option. Any units beyond the three taken for a letter grade in BIOL 495 or MICR 495, or any combination of the two, will be taken credit/no credit. Same course as BIOL 495. Not available to graduate students. (Conference 1 hr., laboratory 3 hrs. per unit.)

GRADUATE LEVEL

515/415. Marine Microbiology (3) F, odd years
Prerequisite: MICR 355 or BIOL 355 or BIOL 353 with a grade of "C" or better. (Undergraduates enroll in MICR 415; graduates enroll in MICR 515.)
Designed to familiarize microbiology and marine biology students with the role of microorganisms in the marine environment. Topics will include ecology, physiology, biochemistry, and diversity of marine microbes. Laboratory/field component will emphasize examination and cultivation of local marine microbes.
Not open for credit to student with credit in BIOL 415. Letter grade only (A-F). Course fee may be required. Same course as BIOL 515. (Lecture 2 hrs., laboratory and field 3 hrs., weekend field trip may be required.)

516/416. Virology (3) F,S
Prerequisite: MICR 320 or BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 416; graduates enroll in MICR 516.)
Virology at molecular level including viral replication and molecular basis of viral pathogenesis; survey of human, animal, and plant viral diseases. Current trends for prevention and treatment of viral diseases.
Letter grade only (A-F). (Lecture 3 hrs.)

523/423. Hematology (4) F
Prerequisite: BIOL 340 with a grade of "C" or better. (Undergraduates enroll in MICR 423; graduates enroll in MICR 523.)
Study of blood and coagulation system. Normal cell structure and function and physiological and morphological changes in inflammation, leukemias, and anemias discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case studies included.
Useful for student interested in medical professions. Required for clinical laboratory science (medical technology) internship. Letter grade only (A-F). (Lecture 5 hrs., laboratory 5 hrs.)

529/429. Epidemiology of Infectious Diseases (3)
Prerequisites: BIOL 209; MICR 320, 322; all of a grade of "C" or better. (Undergraduates enroll in MICR 429; graduates enroll in MICR 529.)
Principles of epidemiology and application to health; fundamentals of biostatistics; basic factors in classic epidemiological studies and prevention and control of infectious diseases.
Letter grade only (A-F). (Lecture 3 hrs.)

571/471. Bacterial Physiology (3)
Prerequisites: MICR 320, CHEM 441A; both with a grade of "C" or better. (Undergraduates enroll in MICR 471; graduates enroll in MICR 571.)
Cellular physiology at molecular level as related to bacterial growth, reproduction, nutrition, metabolism, and ecology.
Letter grade only (A-F). (Lecture 3 hrs.)

577/477. Biotechnology: Applications of Molecular Techniques and Bioinformatics (4) F
Prerequisite: BIOL 340 or 370 or CHEM 441A,B; all with a grade of "C" or better. (Undergraduates enroll in MICR 477; graduates enroll in MICR 577.)
Theory and techniques for isolating, amplifying, and analyzing genes, genomes, transcripts, and proteins. Data mining, the use of computers in experimental design and functional analysis, use of microarrays, and future of nanotechnology.
Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

590/490. Special Topics in Microbiology (1-3)
Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates enroll in MICR 490; graduates enroll in MICR 590.)
Topics from selected areas of microbiology. Course content will vary from section to section. Topics announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F). (Lecture 1-3 hrs.)

661. Seminar in Microbiology (2)
Prerequisite: Consent of instructor.
Critical evaluation of literature in this field, including oral and/or written presentation of critiques.
May be repeated to a maximum of 4 units with different topics. Letter grade only (A-F) (Seminar 2 hours)

697. Directed Research (1-3) F,S
Prerequisite: Consent of instructor.
Research on specific topic approved and directed by faculty members in the biological sciences. Written report required.
May be repeated for a letter grade and degree credit to a maximum of three units. Any units beyond the three taken for a letter grade in BIOL 697 or MICR 697 or any combination of the two must be taken credit/no credit.

698. Thesis (1-6) F,S
Prerequisites: Advancement to Candidacy for the Master of Science in Microbiology, consent of the chair of the thesis committee and the departmental graduate advisor.
Planning, preparation, writing, defense, oral presentation, and completion of a research thesis in the biological sciences.
Letter grade only (A-F).
Introduction
The College of Business Administration seeks to prepare its students for entry into successful careers in business. As each graduate pursues a successful career, it is anticipated that personal responsibility will be accepted for maintaining and enhancing the quality of the society in which business and the individual operate.

The College
The College of Business Administration has five departments and one other academic program: Accountancy; Finance; Human Resource Management and Management; Information Systems; Marketing; International Business. The five departments and International Business are responsible for administering one or more of the degree options.

Academic Advising
The College of Business Administration maintains an advising and admissions office in CBA Room 105 for undergraduate students. There is an office for graduate students in CBA 303. Advisors are available in these offices throughout the semester to assist students with admission, registration, and degree requirement information. An undergraduate handbook is available in the campus copy center.

Student Center for Professional Development (SCPD)
The Student Center for Professional Development (SCPD) fosters personal, professional, and leadership development and knowledge acquisition of CSULB College of Business Administration undergraduate students. SCPD provides resources and opportunities that support business students from college entry to graduation. SCPD coordinate multiple programs, events, workshops, and community service activities to support student learning. The Center offers up to six programs yearly contingent upon needs and resources.

The Business Excellence Certificate (BEC) Program is a curriculum-based professional development certificate program. The program aims to increase professional competencies and personal effectiveness of CBA students.

The City Leadership Program is a curriculum-based program that highlights and explores the economic, political, community, and governmental resources and organizations within the City of Long Beach.

The Community College Mentoring Program (CCMP), CSULB business students help motivate and guide a group of first-yearセントロ College students to succeed at the community college level and to transfer into a four-year university.

The Corporate Mentoring Program is a year-long structured mentoring program that pairs junior and senior business students with corporate professionals.

Programs at a Glance
Bachelor of Science in Business Administration
Options in: Accountancy; Finance; Human Resources Management; International Business; Management; Management Information Systems; Marketing;

Operations Management
Note: Students who complete and formally declare two options may be regarded as having completed a double major, and appropriate notation can be made on the transcript.

Minors in Business Administration
Management Information Systems, Human Resources Management, Entrepreneurship.

Master of Business Administration
Specialization in the following areas: Accountancy, Finance, Health Care Management, Human Resources Management, Information Systems, Management, Marketing. (Refer to following pages for information.)

Accreditation
Undergraduate and graduate programs are nationally accredited by the Association to Advance Collegiate Schools of Business - International (AACSB). 777 South Harbour Island Blvd., Suite 750, Tampa, FL 33602-5730, phone: (813) 769-6500.
The Community Scholars Program, CSULB business students help motivate and guide a group of Jordan High School seniors to succeed in high school and pursue higher education.

The Emerging Leaders Program is a fall semester program for new CSULB first-year students and transfers who introduce these students to SCPD programs and to campus resources and services.

SCPD also encourages students to become involved in community service. The Emerging Leaders Program is a fall semester program for new CSULB first-year students and transfers who introduce these students to SCPD programs and to campus resources and services.

For more information on SCPD programs, services and resources, please contact SCPD at (562) 985-2265 or scpd@csulb.edu

Financial Assistance

Financial assistance is provided to business students through the University Financial Aid Office. That office administers funds made available through the federal and state governments and through certain private sources. Awards are made to students who demonstrate a need for assistance with educational expenses.

Achievement Awards

Beta Gamma Sigma Outstanding Students in Business applications are usually due April 1. The award is present in early May at the annual Beta Gamma Sigma Installation and Banquet. Further information can be obtained from the Beta Gamma Sigma faculty advisor, Professor Jasmine Yur-Austin.

Applications for Outstanding Undergraduate are usually due in early to mid-January. Each department may select up to three Outstanding Graduates. From among the chosen Outstanding Undergraduates, the Dean of the College selects the Dean’s Medalist. These awards are reserved for graduating seniors and require a minimum GPA along with other considerations for applicants.

The Wall Street Journal award is based upon the highest GPA of a graduating senior. The Gary B. Klein Scholarship award is reserved for Marketing majors and is selected from among graduating seniors. The Delta Sigma Pi Scholarship Key winner is selected from among those graduating seniors with the highest GPA.

All those award recipients together with CBA Honors Program students are recognized in print in the annual Commencement Program. They are, along with scholarship recipients, also recognized at a special awards luncheon in May where plaques, certificates, and other tokens of achievement are presented.

Additional information about these distinctions and their requirements can be obtained from Nelson T. Horn, Executive Assistant to the Dean at (562) 985-5307.

Student Organizations

Numerous organizations are available for business students. They include: American Marketing Association, Beta Alpha Psi/Accounting Society, Black Business Students Association, Delta Sigma Pi, Financial Management Association, Hispanic Students Business Association, Human Resources Management Association, Information Systems Students Association, International Business Association, MBA Association, Society for the Advancement of Management, and Law Society. Student organizations typically host professional representatives and industry at weekly meetings and also sponsor a variety of social, recreational and community service events.

The Associated Business Students Organization Council (ABSOC) is the coordinating council for all business student organizations. ABSOC and the Associated Students co-sponsor the annual “Meet the Industries Expo.” This annual spring event includes morning professional panels and an afternoon career expo which draws over 40 companies and several hundred students. Other programs each semester include a business student organizations’ fair, an evening recruitment program, the student-faculty staff mixer, and ABSOC Challenge (recreational competition).

Beta Gamma Sigma, founded at the University of Wisconsin in 1907 as a business honor society, is the only national honor society recognized by the AACSB – International. Membership is available to business students at California State University, Long Beach only because the College of Business Administration is accredited by AACSB.

Elect to membership in Beta Gamma Sigma is the highest scholastic honor that a student in business administration can attain. To be eligible for membership at CSULB students must rank in the upper three percent of their junior class or the upper seven percent of their senior class, or rank in the upper ten percent of their receiving masters degree in business administration.

Computer and Information Technology

Students in the degree program develop basic understandings and competencies relating to information processing, the application of computers in business and government, management information systems concepts, and computer programming. A computer laboratory facility is maintained within the College to provide computer access for business students.

General Policies and Regulations

Specific University and College requirements are detailed in various sections of this Catalog. Every student must develop complete familiarity and understanding of the regulations and requirements by which successful completion of a program will be determined. (Also see pertinent section regarding University General Regulations and Procedures).

Admission Under Impaction

Fall and Spring freshman applicants to the Bachelor of Science in Business Administration will be placed in the pre-major code for Business Administration. Transfer applicants must apply to the University during the initial filing period of October and November for the following fall semester or August for the following spring semester. They must indicate their choice of major on the application.

Continuing students seeking admission to the upper-division major in Business Administration must submit a supplemental application to the College of Business Administration Advising Center (CBA, Room 105). Whereas there is no specific deadline for filing, it usually takes a minimum of two weeks to complete the application process. Therefore, students should file their applications no later than two weeks before their next Early Registration access date.

Applicants must be able to demonstrate that they will meet the following requirements for admission prior to the
semesters for which the application is submitted.

To be eligible for admission to the majors in Business Administration, applicants must meet requirements for admission to the university as a freshman or transfer student. Applicants must have completed 60 units applicable toward a CSULB degree prior to the term for which the application is submitted. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average.

Special Enrollment Status

Enrollment through Open University (University College and Extension Services) is allowed only on a space-available basis. Space availability is not based on the number of unoccupied chairs in a classroom. Instead, it is determined by the type of course and teaching method. The student must otherwise be qualified.

CBA Policy on Course Transfers/Substitutions

The College of Business Administration has a strict policy on course transfers/substitutions. This is necessary to preserve the academic integrity of programs and to meet accreditation standards. The transfer/substitution policy has two separate components: prior to matriculation at CSULB and post-matriculation at CSULB.

Prior to Matriculation at CSULB

Students may petition for credit courses completed at another recognized institution prior to matriculation at CSULB subject to the following guidelines:

1. Lower division courses (with a grade of "C" or better) are transferred with the approval of the appropriate Department Chair.
2. Upper division courses (with a grade of "C" or better) from AACSB-accredited business schools are transferred with the approval of the appropriate department chair.
3. Upper division courses (with a grade of "C" or better) from non-accredited business schools may be transferred subject to the approval of the appropriate department chair and the associate dean.

Post Matriculation at CSULB

Students may not transfer for credit any upper division major core courses taken at another school concurrently with or subsequent to their matriculation at CSULB. Exceptions are approved with verifiable proof and genuine needs according to the following requirements: (1) approvals must be secured prior to enrolling in courses in another institution; (2) no more than two courses may be transferred or substituted; and (3) a grade of "B" or better is necessary for course transfers/substitutions. Departments have the discretion to be more stringent with regard to these requirements. Exchange students and students participating in Study Abroad Programs are exempt from these rules.

Grading Policy

Business majors and minors may not exercise a Credit/No-Credit grading option for courses required by the College of Business Administration in their program. No course taken for Credit/No-Credit grading will be accepted to fulfill a Business requirement. Enrollment in a business course as an auditor is not permitted.

Undergraduate Programs

Honors in Business

The College of Business Administration (CBA) at California State University, Long Beach, offers the opportunity for a selected group of outstanding students to participate in the CBA Honors Program. This enriched, more demanding program gives students an opportunity to enroll in special "Honors Seminars") composed of a small number of the CBA's most outstanding students that are taught by a select group of the College's faculty. In addition, students complete a senior project (much like an honors thesis), the topic of which is based on the individual student's interests and skills. Thus, the Honors Program offered by the CBA (CBAHP) is intended to be intellectually rewarding, and to provide a valuable experience that enhances students' future careers. Special focus is on those students who wish to pursue an advanced degree and career in academia.

The program is designed as a 3-semester program, usually beginning in the Summer semester before the senior year. The program is also open to motivated juniors. Typically, CBAHP students take a preliminary honors seminar the first semester, and progress to advanced honors seminars and their senior project the following academic year.

Admission

Admission is limited to approximately 20 students per year, but may increase depending on demand and college resources. Applicants are selected for their promise as interesting and creative individuals, not simply on the basis of grades or test scores.

Admission Requirements

Each applicant must meet the following basic requirements:

1. A minimum 3.5 cumulative GPA in all college and university courses, and a minimum of 3.5 GPA in the major. Students with a 3.2 – 3.49 may be admitted if they are nominated by two tenured faculty members of the CBA. A maximum of 10% of the students in the program will be admitted by nomination.
2. A minimum score of 14 on the Writing Proficiency Exam (WPE).
3. A completed application form. A personal interview may be requested at the discretion of the Program Director or Advisory Board.
4. At least one letter of reference from a CSULB tenured (or tenure-track) faculty member (CBA faculty are preferred). Additional outside character references (maximum of 2) are admissible as supplemental support for admission.

Applications should be addressed to the:
Director of the CBA Honors Program
College of Business Administration
1250 Bellflower Blvd.
Long Beach, CA 90840

Program Requirements

Award of the Honors in Business requires:

1. Completion of the requirements of the major, with a minimum overall GPA of 3.5 and a minimum GPA in the major of 3.5.
2. A minimum GPA of 3.5 for all CBA Honors Program seminars.
3. Completion of the 3 Honors Seminars. The seminars bring together scholars and noted business leaders from a broad range of disciplines/industries, and may involve multiple CBA faculty over the course of the program. Course projects are designed to fit with the nature of the issues addressed, the expertise of the various distinguished guest speakers, and interests of the individual student.
4. Successful completion of the required Honors Thesis.
5. Students who fail to meet the above requirements or those who fail to enroll in CBA Honors Program courses will be withdrawn from the program. Others may also be withdrawn at the discretion of the Program Director for such reasons as unethical behavior or misconduct.

Certificate in Transportation (code CBA_CT01)

Requirements
1. A bachelor of science degree in Business Administration which may be completed concurrently with the certificate requirements;
2. A minimum of 15 units of transportation and transportation-related course work at California State University, Long Beach to be selected with the approval of the Program Director.
3. A grade of "C" or higher will be required for every course;
4. The certificate program does not permit the use of the Credit/No Credit option.

Graduate Programs

The College of Business Administration offers graduate study leading to the Master of Business Administration (MBA). The degree offered by the College of Business Administration is accredited by AACSB - International. The MBA is designed to serve the community by providing graduate business education to persons who show promise of leadership and success in business or related fields. For this reason, the faculty of the College of Business Administration has established rigorous standards of admission and completion for the program.

Admission to Graduate Study

In addition to admission by the University Office of Admissions and Records, an applicant for graduate study in Business Administration must apply to and be admitted by the College of Business Administration. It is the responsibility of the student to purchase a current CSULB Catalog which sets forth the policies of the University and the College of Business Administration graduate program.

Admission Procedures
1. Students interested in applying to the MBA program at CSULB should file a University application online at www.csumentor.edu and an MBA Application Packet from the Graduate Program Office at College of Business Administration. Students must complete and submit both applications in order to be considered for admission into the graduate program in business. Students applying for the MBA should mark "other masters" as the degree objective, and 05011 as the major code. Students should submit the MBA application with two letters of recommendation, current resume, and statement of purpose directly to the MBA office.
2. Two complete sets of official transcripts of all college work attempted are required. One set must be sent to California State University, Long Beach, Office of Admissions and Records, 1250 Bellflower Blvd., Long Beach, CA 90840. The other set of official transcripts must be sent directly to the Graduate Programs Office at the following address: California State University, Long Beach, College of Business Administration, Graduate Programs and Executive Education Office, 1250 Bellflower Blvd., Long Beach, CA 90840.
3. Graduate Management Admission Test (GMAT) scores must be forwarded directly from the GMAC to the College of Business Administration Graduate Programs Office. Test scores over 5 years old will not be considered.
4. Foreign students should first contact the Center for International Education on campus for special deadlines. Foreign students are required to take the TOEFL test and achieve a score of 550, in addition to the steps above required of all applicants to the MBA program. Deadlines for international applications are:
   - April 1 for Fall Semester
   - October 30 for Spring Semester
   - March 30 for Fall Semester
   - October 30 for Spring Semester
   One official copy of all transcripts, the MBA Application Packet, GMAT score and TOEFL score (if applicable), must be filed in the Graduate Programs Office by:
   - October 30 for Spring Semester
   - March 30 for Fall Semester
   Because of high demand for admission to the MBA program, it is advisable that students make their application to the program early. No action can be taken on applications until all required documents are received. Application materials submitted after these dates will not be considered.

Criteria

Admission will be granted to students showing high promise of success in post-baccalaureate business study. Each applicant's potential for graduate management education is evaluated on the basis of six major criteria:
1. Past Academic Record, as reflected in undergraduate GPA or other Graduate programs.
2. Graduate Management Admission Test (GMAT)
3. Managerial Experience: demonstration of increasing levels of responsibility.
4. Communication: ability to clearly identify the applicant's leadership potential, educational goals and academic strengths.
5. Two Letters of Recommendation
6. Statement of Purpose

Upon completion of evaluation by the College of Business Administration Graduate Programs office, the
student is notified by mail of acceptance or rejection. If accepted, the letter includes an evaluation listing prerequisites met by the student in previous course work and those still required for completion. Course work over ten years old at the time of acceptance will not be considered for satisfaction of the First Year Core.

Enrollment

In order to be admitted into the University as an MBA student you must meet all of the MBA Admissions criteria.

Admission to Graduate Courses

Only students who have been admitted to the MBA program may take graduate courses in Business Administration. The only exception is that students who have been admitted to other Master’s programs at CSULB may take select graduate courses in Business Administration to meet the requirements for their programs, with the permission of their major advisor and the Graduate Programs office.

Enrollment in graduate courses through the Open University will normally be permitted only for students in an AACS1B accredited graduate program elsewhere with a letter of permission from the Associate Dean of the student’s home university.

Continuous Enrollment

Once a student is accepted and enrolled in the MBA Program, he/she is expected to attend classes both semesters of the academic year. (Fall and Spring semesters are considered the regular semesters of the academic year; Summer attendance is optional.) Registration and completion of at least one course each semester satisfies the Continuous Enrollment requirement.

If a student is unable to satisfy the Continuous Enrollment requirement, he/she must complete the Educational Leave of Absence procedures detailed below. Continuous Enrollment status will only be preserved if the student’s absence from a regular semester has been processed and approved through the Educational Leave of Absence procedures.

Students failing to maintain Continuous Enrollment status will be administratively removed from the MBA Program. Registration privileges will be revoked. Students planning to continue in the MBA Program who have been administratively removed due to the violation of the Continuous Enrollment condition will be required to reapply to the MBA Program and to the University.

Leave of Absence

Any MBA student in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the Graduate Programs Office and the University Admission and Records Office in accordance with University Policy. The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may request, in writing, in advance, an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved one semester educational leave are not required to submit an application form. Students on leave longer than one semester must apply for re-admission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must complete the entire MBA admission process.

An Educational Leave of Absence, if properly requested and processed, allows a student to satisfy the Continuous Enrollment requirement and therefore does not affect their good standing status. Students on an approved educational leave of absence will continue to receive registration information.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student’s program for the department chair in question and the Graduate Programs Director.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the seven year maximum period for completion of the MBA degree requirements.

For the period of an educational leave the student’s rights under the “Election of Regulation” rule are preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance. See the CSULB Catalog, General Rules and Procedures section, for a complete explanation of the Election of Regulation - “Catalog Rights”.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

Transfer Credit

Assuming the Continuous Enrollment requirement has been satisfied, a maximum of six credits that closely complement the student’s degree objectives may be applied toward the requirements for the MBA degree beyond the First Year Core under the following conditions:
1. the credits under consideration must be graduate credits
2. the course work must be taken at an AACS1B accredited graduate program
3. prior approval must be obtained from the Graduate Programs Director
4. prior approval must be obtained from the department chair of the course work being transferred

The remaining units must be completed in courses at CSULB reserved exclusively for graduate students.

Scholastic Standards/Probation/Disqualification

A student who fails to maintain a cumulative GPA of 3.0 or higher in all work completed as a graduate student at this University or in all transferred work applied to the program will be placed on academic probation. The somotor in which the student’s GPA falls below 3.0 is the First Probational Semester.
A student on probation, who at the end of the Third Probationary Semester (or summer, if classes are taken) fails to obtain a cumulative GPA of 3.0 or higher on all units attempted in post-baccalaureate work at CSULB, will be required to complete a full year of the graduate program. The student should note that the cumulative GPA is calculated by the University Admissions and Records Office and includes all upper division and graduate courses taken while enrolled in the graduate program.

A grade of "C" or better is required in any course taken to satisfy first or second year Core requirements. A grade of "B" or better is required in GBA 699. If either of these requirements is not met, a student must take the course a second time or withdraw from the program. A second failure to achieve the requirement grade will result in involuntary separation from the program. This requirement operates independently of the requirement for a cumulative GPA of 3.0 or better.

Master of Business Administration (code CBA_MB01)

The Master of Business Administration program develops comprehensive skills in information processing in a complex and competitive business environment. The program prepares students for responsible administrative positions and provides the background essential for advancement in professional management careers. The Master of Business Administration degree encompasses a program of breadth which builds a wide range of competencies required for effective management while permitting students to specialize in a functional area.

The Master of Business Administration is normally a 48-unit program for the graduate without an undergraduate degree in Business.

General MBA

Requirements

The Master of Business Administration program requires completion of a minimum of 36 units of graduate course work as established and approved by the College of Business Administration. The MBA program must include:

I. First Year Core
   I. First Year Core 0-12
   II. Second Year Core 21
   III. Advanced Study 12
   IV. Capstone Course 3
   Total units: 36-48

Students who have not had an economics course prior to entering the MBA program must complete an economics course as a condition to obtaining an MBA degree.

MBA students should be guided by the following sequence of events as they progress through their graduate study in the College of Business Administration.

I. First Year Core: Common Body of Knowledge

The masters degree presupposes mastery of a common body of knowledge. Students with a bachelor's degree in business from this University or from other AACSB accredited business schools within the last 10 years will have met much of the First Year Core requirements. Individual Business Administration courses taken as an undergraduate student at another AACSB institution may also meet specific First Year Core requirements. Upon acceptance to the program, student's transcripts are reviewed for completion of the necessary coursework for mastery of the common body of knowledge. A grade of "C" or better is required to meet the criteria.

Waivers of First Year Core are based upon previous educational background at either a graduate or undergraduate level. Information on waivers may be obtained from the College of Business Administration, Graduate Programs Office. Students who have not met the entire common body of knowledge requirements prior to admission to the MBA Program will be required to enroll in the appropriate First Year Core Courses. This core consists of four courses (12 units): ACCT 500, FIN 501, MGMT 500, MKTG 500. If an MBA student does not have an undergraduate degree in business or does not have exposure to business law and ethics, he/she would be required to acquire that knowledge by taking BLAW 520 or an equivalent course prior to graduation.

II. Advancement to Candidacy

Students admitted with all First Year Core requirements completed must file an application for Advancement to Candidacy for the degree after completion of their first six units. Other students must file the application during the semester in which the First Year Core requirements are to be completed. Prior to advancement to candidacy, a student must:

1. Be accepted into the MBA Program.
2. Complete an overall minimum 3.0 cumulative GPA, including work transferred from other institutions, and a minimum 3.0 GPA in all work completed at this University.
3. Complete all First Year Core Requirements, with no grade lower than "C".
4. Fulfill the Graduation Writing Assessment Requirement (GWAR) or must have received a 4.0 or better on the writing portion of the GMAT.
5. Prepare an official student program in consultation with the MBA Office. This program must include the Second-Year Core in effect at the time of Advancement to Candidacy, the 12 unit program for the area of Advanced Study and the Capstone Course, GBA 699, for a total of 36 units.
6. File the application for Advancement to Candidacy with the Graduate Program office for approval by the Graduate Program Director.

III. Second Year Core

Upon completion of the First Year Core, either by waiver or graduate course work, students move directly into the Second Year Core. (See section on Advancement to Candidacy). This core consists of seven courses (21 units) which provide the breadth requirements for the MBA degree at the advanced level: ACCT 610, FIN 600, HRM 522, IS 691, IS 692, MGMT 647, MKTG 681.

IV. Advanced Study

The General MBA is designed for students with an undergraduate business degree or any other student desiring a more broad-based MBA curriculum. The General MBA requires 12 units of graduate course work in three different areas within the College of Business Administration subject to approval by the Graduate Programs Office.
MBA Specializations
Specializations require 12 units with at least nine units of graduate course work in one area.

Accountancy
Requirements: nine elective units selected from ACCT 640, 680, 695, 697.

Engineering Systems
Allows students with a strong engineering background to specialize within the MBA program in an area that may more closely match their career objectives. This specialization consists of graduate courses within the College of Engineering, subject to approval by the Graduate Programs Director.

Finance
Requirements: nine elective units selected from BLAW 524, FIN 620, 630, 650, 690.

Health Care Management
Requirements: HCA 502 and any two of the following: HCA 536, 537, 538, 550, 552.

Human Resources Management
Requirements: nine elective units selected from HRM 654, 655, 657.

Information Systems
Requirements: nine elective units selected from IS 545, 550, 564, 580, 584.

Management
Requirements: nine elective units selected from MGMT 542, 543.

Marketing
Requirements: nine elective units selected from MKTG 610, 653, 666, 668, 669, 685.

May count three units of Directed Studies (697) toward Advanced Study requirements. Elective courses designed to fulfill specialization requirements must be approved by the Graduate Programs Office through the completion and acceptance of student’s Advancement to Candidacy form.

V. Capstone Course: GBA 699
Integrated Analysis, GBA 699, is taken as the last or capstone course in the program. Students must complete the Second Year Core and Advance to Candidacy before enrolling in GBA 699. This critical course is given during the Fall and Spring semesters. In this comprehensive analysis, the student will integrate the knowledge obtained in the functional areas. This capstone course serves in place of either comprehensive examination or thesis as the required evaluation of candidate competency.

Students must obtain a grade of “B” or better in GBA 699 in order to receive an MBA degree. Application for acceptance into GBA 699 must be filed within the MBA Office before the end of the fourth week of instruction in the semester preceding enrollment in the course. Application forms and advisement relating to this important requirement are available in the Graduate Programs Office.

VI. Time Limitation
All courses on the official student program (Advancement to Candidacy) must be completed within seven years of commencement of the first class toward fulfillment of the Second Year Core requirement.

VII. Graduation Writing Assessment Requirement (GWAR)
As a requirement for advancement to candidacy, all graduate students must demonstrate writing competency by:

1. Passing an approved CSULB assessment of writing competence (GWAR).
2. Having already passed an assessment of writing competence (GWAR) while matriculated at another CSU campus, or
3. Earning a CSULB-approved passing score on the writing portion of an approved standardized graduate admissions test, such as the Graduate Record Examination (GRE) or the Graduate Management Admission Test (GMAT).

Assessments of writing competence from non-CSU campuses will be evaluated by the GWAR Coordinator as a fulfillment of the GWAR, on an articulation basis if possible or on a case-by-case basis if necessary.

Students with degrees from non-CSU campuses must either provide evidence of meeting the requirement with adequate scores on a CSULB-approved standardized test or attempt to satisfy the GWAR by the end of their first semester of matriculation at CSULB.

Master of Business Administration
Master of Fine Arts in Theatre Management (code THEAMZ201)
The MBA/MFA degree will prepare arts professionals in all areas of both arts administration and business for professional careers in arts management—in performing and exhibiting arts organizations, in arts service organizations, in government, funding agencies and arts councils. The program prepares students for high level administrative positions and provides the background essential for advancement in professional management careers.

Admission Criteria for MBA/MFA
Candidates for this program must hold the equivalent of an undergraduate degree from an accredited institution of higher learning with a minimum of 24 units of upper division work in Theatre Arts. They should have achieved an undergraduate grade point average (GPA) of at least 2.75 (B-) and 3.0 GPA in upper division theatre courses.

All candidates for admission are required to complete the Graduate Management Admission Test (GMAT) and achieve a score of at least 475. The GMAT measures general verbal, mathematical, and analytical writing skills that are developed over a long period of time and are associated with success in the first year of study at graduate schools of management. For each applicant, there is a departmental evaluation, based upon diagnostic examination and an analysis of official undergraduate transcripts to determine deficiencies and all areas which must be strengthened by the graduate program.
Requirements

Business Core 1 (12 units)
ACCT 500, FIN 501, MGMT 500, MKTG 500

Business Core 2 (21 units)
ACCT 610, FIN 600, HRM 652, IS 601, IS 602, MGMT 647, MKTG 661

Business Elective (3 units)
Theatre Core (9 units)
THEA 623, 524, 696

Theatre Management (24 units)
THEA 502, 503, 504, 507, 550, 602 (6 units), 603

Theatre Practicum (12 units)
THEA 517 (4 units), 518 (4 units), 519 (4 units)

Culminating Thesis/Project (3 units)
THEA 690

Theatre Electives (6 units)
Electives from the University at large through advisement

Courses (CBA)

UPPER DIVISION

300. International Business (3)
Introduction to nature, dimensions, and environment of international business. Emphasis on business functions, practices, and decisions as influenced by cultural, political, economic, social, and institutional factors in various parts of world. Diffusion of information technology.
Letter grade only (A-F).

397. Junior Honors Seminar
Prerequisite: Acceptance into the CBA Honors Program. Empirical, theoretical, and practical research methodology: fundamentals and advanced topics. Visits by faculty and business professionals focus on current issues and methods for solving business problems. Literature review and written proposal required for Honors Thesis. Letter grade only (A-F).

400L. Business Ethics (3)
Prerequisites: Completion of the Foundation, at least one Exploration course. Various types of ethical dilemmas that take place in business organizations and acquire concepts and tools needed to manage these complex value conflicts for the well being of individuals, organizations, and society.
Same course as PHIL 400L. Not open for credit to students with credit in PHIL 400L. Letter grade only (A-F).

401A. Ethical Leadership (2)
Prerequisite: Edna Devit Honors California Student Leadership Institute application and consent of instructor. Explores ethical leadership challenges related to business, technology, values, relationships, and healthcare. Team-building, role-playing, and networking with guest speakers are integral to the class. Students are required to complete both CBA 401A and CBA 401B within the same academic year. Letter grade only (A-F).

401B. Ethical Leadership (2)
Prerequisite: CBA 401A with a grade of “C” or better in the immediately preceding fall semester and consent of instructor. Continuation of CBA 401A. Explores ethical leadership challenges in media, education, government, and management. Community service and networking with guest speakers are integral to the class.

Students required to complete CBA 401A and CBA 401B within the same academic year.
Letter grade only (A-F).

493. Business Internship (1-3)
Prerequisites: Classified business major and Instructor consent. IS 301.
Qualifying students placed in career-related paid assignments in private or public agencies or businesses. Organized plan utilizing series of seminars and learning agreements required with selected reading and writing assignments. A minimum of 120 hours paid experience per semester is required. May be repeated to a maximum of 6 units.

494. Short-Term Study Abroad (3)
Prerequisite: Consent of Instructor. Topics of current interest in business administration selected for intensive study, linked to a group study abroad experience in a country such as China, France, Germany, Thailand, and Vietnam. Topics and study sites will be announced in the Schedule of Classes. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics in different semesters.

495. Selected Topics (3)
Prerequisite: Consent of instructor, IS 301.
Topics of current interest in business administration selected for intensive study. May be repeated to a maximum of 6 units with different topics in different semesters. Topics will be announced in the Schedule of Classes. Letter grade only (A-F).

497. Senior Honors Seminar I
Prerequisites: CBA 397, IS 301.
Continuation of CBA 397, special emphasis on sampling, instrumentation, and data analysis. Topics covered may vary from year to year. Perform majority of data collection and preliminary data analysis for honors thesis. Letter grade only (A-F).

499. Senior Honors Seminar II (3)
Prerequisites: CBA 497, IS 301.
Completion of Honors Thesis. Data analysis completed, findings interpreted relative to research hypotheses; final report is submitted. Attention to preparing manuscripts for publication, academic review process, and making professional presentations. Learning by illustration and application. Visits by faculty and business leaders. Letter grade only (A-F).

Courses (GBA)

GRADUATE LEVEL

695. Selected Topics (1-3)
Prerequisite: MBA standing.
Topics change each offering and in the absence of significant duplication. May be repeated to a maximum of 6 units with different topics in the same semester. Topics to be announced in the Schedule of Classes. Letter grade only (A-F).

698. Thesis (2-4)
Prerequisite: CBA 601. Planning, preparation, and completion of a thesis in business administration.

699. Integrated Analysis (3)
Prerequisites: Student shall have completed all 2nd year core classes. Classified MBA status in the last semester or within six units of completion of the 33-unit minimum graduate program and advanced to candidacy.
Study of wide range of business problems and formulation of solutions. Integration of knowledge from all functional areas of business and its application to complex business problems arising out of changing technology, competitive market conditions, social changes and governmental actions. A grade of "B" or better is required for successful completion. Serves as required terminal examination for College of Business Administration graduate candidates. Project is required. Students must file application for entry into GBA 699 no later than the fourth week of instruction in the semester preceding the one in which GBA 699 will be taken. Application forms are available in the Graduate Programs Office. Letter grade only (A-F).

Courses (BLAW)

LOWER DIVISION

220. Introduction to Law and Business Transactions (3)
Law and the American legal system in today's business world. Contacts, sales, and commercial paper. Examination of the role and function of the judiciary, elements of civil and criminal law. Letter grade only (A-F).

UPPER DIVISION

320. Legal and Regulatory Environment of Business (3)
Prerequisite: BLAW 220.
Forms of business organizations, employment law, securities law, environmental law, anti-trust issues, and international transactions. Social, cultural, and economic influences on domestic and multinational corporations. Exploration of relationship of government to business. Introduction to business ethics. Not open for credit to students with credit in FIN 320. Letter grade only (A-F).

424. International Legal Environment of Business (3)
Prerequisite: BLAW 320, IS 561.
Subsidiaries, joint ventures and other forms of international business operations. Effects of treaties, laws and policies of governments on business operations. Resolution of business and investment disputes, protection of property rights, the financing and taxing of international operations, and ethical issues. Not open for credit to students with credit in ACCT 424. Letter grade only (A-F).

425. Legal Aspects of Real Estate (3)
Prerequisite: FIN 340, IS 501.
Basic principles of real estate law as related to conveyances, titles, private and public restrictions on the use of land, escrows, community property and financial transactions. Not open for credit to students with credit in FIN 425. Letter grade only (A-F).

GRADUATE LEVEL

520. Legal, Regulatory, and Ethical Environment of Business (3)
Prerequisite: MBA standing required.
Legal and regulatory environment in which managers must operate. Constitutional and judicial structures for resolving disputes, effect of governmental and political policies, and liability encountered by business in various defined areas of substantive law. Ethical issues faced by business. Not open for credit to students with credit in FIN 520. Letter grade only (A-F).

524. International Legal Environment of Business (3)
Prerequisite: BLAW 520.
A study of the international legal environment in which multinational firms operate. Topics include treaties and laws, government policies, resolution of legal disputes, regulation of competition, enforcement of property rights and issues involving ethical responsibilities. Not open for credit to students with credit in FIN 524. Letter grade only (A-F).

624. Cyberlaw (3)
E-commerce and public policy issues. Law and the globalized e-commerce environment. Legal, ethical, international and political aspects of technology as it relates to business. Jurisdiction, intellectual property, electronic payment systems and contracting, online securities offerings, telecommunications mergers and acquisitions, security. Not open for credit to students with credit in FIN 624. Letter grade only (A-F).

Department Graduate-Level Courses

Courses (ACCT)

560. Managerial and Financial Accounting (3)
Prerequisite: MBA standing required.
Analysis of accounting systems, preparation of financial statements, and computer information processes. Analysis and interpretation of accounting information as an aid to business decisions. Laboratory and/or class computer applications required. Letter grade only (A-F).

610. Advanced Cost Accounting, Budgeting and Control (3)
Prerequisite: ACCT 560 or equivalent with a grade of "C" or better.
Problems in planning, budgeting and cost control of decision making using a quantitative analysis approach. Emphasis on evaluation of the accounting information system. Laboratory and/or class computer applications required. Not open for credit to students with credit in ACCT 510. Letter grade only (A-F).

640. Tax Research and Planning (3)
Study of income tax law, uses in researching business problems arising under federal tax laws. Application of research techniques to compliance and tax planning problems. Analysis IRS procedures related to audits, tax collections, criminal prosecutions and federal tax litigation. Letter grade only (A-F).

680. Financial Statement Analysis (3)
Understanding and using financial reporting to make investment and lending decisions. Letter grade only (A-F).

695. Special Topics (1-3)
Prerequisites: Consent of instructor.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: MBA standing; consent of instructor. Individual study under faculty direction. Letter grade only (A-F).
Courses (FIN)

501. Financial Management Concepts (3)
Prerequisite: MBA standing required.
Integration of computer, management information systems and concepts to: (1) time value of money, risk, valuation, cost of capital, capital structure; (2) capital budgeting; (3) long-term financing decisions; (4) working capital policy and management; (5) financial analysis and planning.
Letter grade only (A-F).

600. Seminar in Business Finance (3)
Prerequisite: MBA standing required.
Financial theory and management: (1) time value of money, risk, valuation, cost of capital, capital structure; (2) capital budgeting; (3) long-term financing decisions; (4) working capital policy and management; (5) financial analysis and planning; (6) special topics.
May be repeated to a maximum of 3 units. Letter grade only (A-F).

620. Capital Budgeting (3)
Prerequisite: FIN 600.
The theory of capital budgeting within the framework of the firm. Cost of capital determination and logic of expansion vs. growth, and equity financing vs. debt financing. Computer applications required.
Letter grade only (A-F).

630. Seminar in Financial Forecasting (3)
Prerequisite: FIN 600.
Research projects in industry, individual company, product and commodity areas. Computer applications required.
Letter grade only (A-F).

650. Seminar in Investments (3)
Prerequisite: FIN 600.
Security analysis, portfolio planning, balance and adjustment as related to (1) individual circumstances of the investor, (2) specific market conditions, and (3) broader financial aspects of the economy. Presentation and interpretation of student reports on selected topics. Computer applications required.
Letter grade only (A-F). Course fee may be required.

690. Seminar in International Finance (3)
Prerequisite: FIN 600.
Background in economics, accounting and finance, graduate standing in business administration. Real and monetary factors in the finance of international business, international capital markets, movement of funds and special problem areas.
Letter grade only (A-F).

695. Selected Topics (3)
Prerequisite: Consent of instructor.
Topics to be announced in Schedule of Classes. Different topics each semester.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Individual study under direction of faculty.
Letter grade only (A-F).

699A-G. Applied Portfolio Management (3-3)
Prerequisites: FIN 699A: FIN 520, 690, 650; consent of instructor and Department Chair; FIN 699B: FIN 699A; consent of instructor and Department Chair.
FIN 699A offered in Fall and accepted students must enroll in FIN 699B in Spring.

Participation in management of actual investment portfolio. Research, monitor, and analyze securities and make, buy and sell recommendations for a student-managed investment fund. Contribute to publication of semi-annual fund report. Market, sector, and firm analysis with presentations and outside research.
Letter grade only (A-F).

Human Resources Management Courses (HRM)

510. Behavioral Science for Engineers (3)
Prerequisites: MBA standing.
Individual, group and organizational structure designs. Interpersonal relationships that are peculiar to managing and directing professionals. Managerial applications of behavior science concepts and research findings.
Not open for credit to MBA students.

652. Seminar in Human Resources Management (3)
Decisions and actions that impact management. Problems of productivity, employee commitment, employee development, employment law, and compensation. Staffing, training and development, performance appraisal, counseling, leadership and motivation, reward systems, participation and delegation, and disciplines. Discussion, cases, simulations, and presentations.
Letter grade only (A-F).

654. Seminar in Negotiation and Conflict Management (3)
Various forms of opposition interactions within organizations. Interpersonal, intragroup, and intergroup conflict. Distinguishing between functional and dysfunctional conflict, identifying sources and causes of conflict, and examining alternative styles and methods of conflict management. Discussion, cases, simulations, and presentations.
Letter grade only (A-F).

655. Seminar in Motivation and Organization Change (3)
Human motivation and organizational change. Traditional and modern theories of work motivation and change. Psychology and management of motivation, organizational change and development. Management skills, policies, and organizational characteristics that facilitate the creation of motivating, flexible organizations.
Letter grade only (A-F).

657. Seminar in Leadership Skills (3)
Development of leadership abilities. Effectiveness of numerous approaches to leadership from both managerial and psychological viewpoints. Understanding leadership styles and abilities of self and others through assessment. Personality, situational factors, group processes, followership, and implications for leadership training.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: MBA standing, consent of instructor.
Individual study under the direction of the faculty.
Letter grade only (A-F).

Courses (IS)

545/J445. Internet Applications Development (3)
Prerequisites: IS 6002 or equivalent and consent of instructor.
Theory and applications of the Internet. Applications development using tools such as HTML and FrontPage. Use and development of Internet applications in the Client/Server environment. Issues such as Internet business opportunities, network security, home page maintenance, Internet database interface and cooperative computing.
Letter grade only (A-F).

214 • Business Administration, College of • 2009/2010 CSULB Catalog
550. Business Telecommunications Management (3)
Prerequisite: IS 602 or equivalent.
Introduction to the technologies and applications of telecommunications and networking, infrastructure planning and operation of organizational telecommunication networks. Management and control of Internet servers and mobile systems.
Telecommunication regulation and standards.
Letter grade only (A-F).

564/464, Network Modeling and Simulation (3)
Prerequisites: IS 601 and 550.
Fundamentals of simulation methodology for performance and feasibility study of business models. Basic probability distributions, random number generation, model formulation, evaluation results, validation, waiting-line simulation, and computer network performance measurement via simulation and use of computer software simulation packages.
Letter grade only (A-F).

580. Management Support Systems and Database Management Systems (3)
Prerequisite: IS 602 or equivalent.
Use of information and database techniques to support management decision making. Decision support systems, groupware, expert systems, executive information systems, database management systems (DBMS), database analysis and design, database manipulation languages (SQL and QBE), and data warehousing.
Letter grade only (A-F).

584/484, Electronic Commerce (3)
Prerequisite: IS 602 or equivalent.
Letter grade only (A-F).

601. Quantitative Methods for Managerial Decision Making (3)
Prerequisite: MBA standing required.
Statistical analysis includes probability, estimation, hypothesis testing, forecasting and decision process. Management sciences include quantitative modeling, math programming, decision support systems, and simulation applicable to various business functions. Use of computer software packages as analytical tools.
May be repeated to a maximum of 3 units. Letter grade only (A-F).

602. Management of Information Systems (3)
Prerequisite: MBA standing required.
Foundation and infrastructure of information technology applied to strengthen competitiveness. Effective utilization of strategic information systems, telecommunications, system development process, database concepts, and electronic commerce to enhance organizations' operations.
Letter grade only (A-F).

695. Selected Topics (3)
Prerequisites: Graduate standing and consent of instructor.
Topics to be announced in the Schedule of Classes.
Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisites: Graduate standing and consent of instructor.
Individual study under the direction of the faculty.
Letter grade only (A-F).

500. Business Policies, Operations and Organizations (3)
Prerequisite: MBA standing. Recommended preparation: IS 310 or 410.
Theory and philosophies of administrative organizations systems, Information systems, management functions, decision making, strategy and policy formulation, operations planning, and control systems.
Letter grade only (A-F).

541. Industrial Logistics (3)
Prerequisites: MBA standing, plus MGMT 500 or equivalent.
Systems analysis and synthesis of the general logistics system containing the marketing, production, and transportation activities. Definition of system components, outputs, activities and inputs. Specification and quantification of the major functional relationships interfacing these components.
Letter grade only (A-F).

542. Enterprise Structure and Operation (3)
Prerequisites: MBA standing and MGMT 500 or equivalent.
General enterprise system composed of the logistics, money, information, talent and decision sub-systems. Components of each of the sub-systems and their interactions in the operation of the total enterprise. Analysis via systems approach of defining outputs, activities and inputs.
Letter grade only (A-F).

543. International Business Policy (3)
Prerequisites: MBA standing, plus MGMT 500 or equivalent, 9 hours recommended of 500/600 level courses in the area of International business.
Current theory and principles of international business management pertaining to problems of formulating policy and developing strategies and tactics in the multinational corporation. Case studies, readings, logistic analysis and research report.
Letter grade only (A-F).

647. Seminar in Management Planning and Control Systems (3)
Prerequisites: MBA standing, plus MGMT 500 or equivalent.
Analysis of planning and control systems in management. Use of case studies and problems.
Letter grade only (A-F).

695. Selected Topics (3)
Prerequisites: MBA standing.
Topics to be announced in the Schedule of Classes.
May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisites: MBA standing, consent of instructor.
Individual study under the direction of the faculty.
Letter grade only (A-F).

Courses (MKTG)

500. Marketing Concepts (3)
Prerequisite: MBA standing required. Overview of the decision process in marketing.
Overview of decision process in marketing. Consideration of functional areas and interaction with total operations of the firm.
Application of information technology to development of marketing strategy and planning.
Letter grade only (A-F).

2009/2010 CSULB Catalog • Business Administration, College of • 215
COURSES (MKTG)

610. Seminar in Services Marketing (3)
Prerequisite: MKTG 500.
Problems and strategies for service businesses. Problems including inability to inventory, difficulty in synchronizing demand and supply, and difficulty in controlling quality. Cases and exercises in banking, health care, retailing, financial planning, consulting, professional services, and communication.
Letter grade only (A-F).

661. Seminar in Marketing Policies (3)
Prerequisite: MKTG 500.
Solving practical, profit-oriented problems in marketing. Sophisticated case analysis and discussion. Application of marketing principles and technologies, including information systems, databases, behavioral theories, and management techniques.
Letter grade only (A-F).

663. Seminar in Advertising Policies (3)
Prerequisite: MKTG 500.
Discussion and analysis of advertising situations, objective setting, creative strategies, media strategies and models, and evaluation. Applications of mass communication theories and marketing databases.
Letter grade only (A-F).

665. Seminar in Marketing Research (3)
Prerequisites: MKTG 500 and IS 501.
The role of research in the solution of marketing problems. Research methods in collecting, analyzing, and interpreting information for business use. Survey and experimental approaches included. Case studies and/or class projects required.
Letter grade only (A-F).

666. Seminar in International Marketing (3)
Prerequisite: MKTG 500.
Analysis of problems and opportunities in international marketing operations. Consideration of entry strategies, competitive strategies, domestication, and nationalization problems. Use of marketing information systems to evaluate opportunities and threats in foreign markets.
Letter grade only (A-F).

668. Seminar in Consumer Behavior (3)
Prerequisite: MKTG 500.
Topics in the behavioral sciences as they apply to marketing. Application of psychological, sociological, anthropological, and economic theories and models to the understanding of buyer behavior and the development of marketing strategy.
Letter grade only (A-F).

669. Seminar in Strategic Planning (3)
Prerequisite: MKTG 661.
The role and use of marketing research and information systems as the basis for development and implementation of marketing strategy. Case studies and/or class projects required.
Letter grade only (A-F).

695. Selected Topics (3)
Prerequisites: MBA standing, consent of instructor.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

CHEMICAL ENGINEERING
College of Engineering

Department Chair: Larry K. Jiang
Department Office: EN2 101
Telephone: (562) 985-4906
Website: http://www.csulb.edu/coe/che
Faculty: Larry K. Jiang, Hamid Kovationi
Undergraduate Advisor: Larry K. Jiang
Graduate Advisor: Larry K. Jiang
Environmental Technology Advisor: Larry K. Jiang
General Education Advising: Academic Advising - Hom Center

Career Possibilities
Chemical Engineer • Automatic Control Engineer • Chemical Process/Design Engineer • Chemical Research Engineer • Chemical Test Engineer • Biochemical Engineer • Chemical Equipment Sales Engineer • Chemical Plant Manager • Technical Writer • Quality Control Specialist • Process Engineer • Consultant • Purchasing Agent • Safety Engineer • Environmental Engineer • Consultant (Some of these, and other careers, require additional education or experience.
For more information, see www.careers.csulb.edu.)

Introduction
Chemical engineers apply their knowledge of chemistry and engineering to make useful products that improve the quality of our lives. Industries employing our graduates include fuels, chemicals, polymers, microelectronics, biotechnology, environmental, aerospace, food, consumer products, design and construction. The chemical engineering curriculum provides a thorough background in chemical and physical science, mathematics, and engineering for application to the solution of technical problems encountered in the development, operation, design, and support of a diverse variety of industries.

Educational Mission and Objectives
The Chemical Engineering Department at California State University, Long Beach is a practice-oriented program that aims to develop well-trained professionals who will be successful in their careers and prepared for further advanced studies.

In order to achieve this, the program strives to:
• Provide students the technical foundations to become competent, practicing chemical engineers. Students learn to apply their knowledge of scientific principles to problem identification and solution, to conduct and analyze experimental work, and to design processes and systems to meet specified objectives using modern tools and technologies.
• Prepare students to be successful in their future workplace relationships. Students develop effective communication skills, gain abilities to function productively in teams, and obtain the foundation to support lifelong learning to promote personal and professional growth.
• Instill in students an understanding of their professional and ethical responsibilities and create awareness of the societal impact that their professional activities may have.
• Continuously improve the academic program in partnership with industry, alumni, and government.

Chemical Engineering Advisory and Development Council
The Department of Chemical Engineering Advisory and Development Council, consisting of outstanding engineers and executives from industry and government in Southern California, provides guidance to our program. Its mission is to advise and assist in developing the Department and to support its efforts to serve students, the community, and industry. This liaison between the University and industry ensures that industry concerns are addressed in our curricula and provides career guidance for our graduates.

ABET Accreditation
The Bachelor of Science in Chemical Engineering is accredited by the EAC (Engineering Accreditation Commission) of ABET (Accreditation Board for Engineering and Technology, 111 Market Place, Suite 1050, Baltimore, MD 21202, website: www.abet.org). Students enrolling in our program must see an undergraduate advisor as early as possible to ensure conformity with ABET requirements.

Other Related Programs
Students interested in obtaining a Minor in Environmental Engineering should refer to the College of Engineering section of this Catalog. Students who take required Chemistry courses are most likely eligible for Minor in Chemistry degree. See the College of Natural Science and Mathematics section of this Catalog.

Students wishing to pursue advanced study may be interested in the College of Engineering’s Master of Science in Engineering (MSE) degree. Graduate study leading to the MSE can be tailored to the goals of a student with a background in chemical engineering by taking advanced course work in the interfacing areas of chemistry, civil engineering (environmental area), electrical engineering (control area), computer engineering (microelectronic device area), mechanical engineering (thermal, fluids, and materials areas) and mathematics in addition to chemical engineering. Thesis work may be supervised by chemical engineering faculty. Detailed requirements for the MSE are specified in the College of Engineering section of this Catalog.

Grade Requirements
In addition to other University requirements, all students must obtain a grade of "C" or better in each prerequisite for any chemical engineering course. Also, required Written English (GE A1), Speech (GE A2), and Interdisciplinary (IC) courses must be taken for a letter grade, not Credit/No Credit.

2009/2010 CSULB Catalog • Chemical Engineering • 217
Undergraduate Programs

Bachelor of Science in Chemical Engineering (code CHE_BS01) (131 units)

Requirements

Minimum of 131 units required.

Lower Division: CH E 200, 210, 220; CHEM 111A, 111B; one course from CHEM 251, M ICR 200, C E 205; E E 211; ENGR 101,102 and CH E 100; MATH 122, 123, 224; PHYS 151; PHYS 152 (or EE 210 and 210L)

Upper Division: CH E 320, 330, 410, 420, 430, 440, 450, 460, 470; CHEM 320A, B or CHEM approved laboratory science (4 units minimum); CHEM 377B; MATH 370A; six units from CH E 300, 415, 437, 445, 455, 465, 475, 480, 485, 490; an ECON course or C E 406; three units of approved engineering elective. All students must show evidence of having attempted FE exam prior to graduation. Those who pass the FE exam can waive 3 units of engineering elective.

Bachelor of Science in Engineering Technology, Option in Environmental Technology (code ET_BS06)

For requirements, see the description in the Engineering Technology Programs section of this Catalog.

Minor in Environmental Engineering (code COE_U M01)

For requirements, see the description in the College of Engineering section of this Catalog.

Safety Operations Certificate (code ET_CT02)

Advisor - Hamid Kaviani (Chemical Engineering)
Department Office - EN 2 101
Telephone - (562) 985-2269

This certificate is designed to prepare students for safety positions that require a strong background in the technology of safe industrial environments. Examples of this kind of position are manufacturer’s safety representative, manufacturing facilities safety analyst, traffic safety analyst, and representative of California or Federal agencies involving public safety. This interdisciplinary program provides the student with a depth of technical training in safety, and related technical courses, including the expertise in human resources management necessary to effectively supervise safety programs.

Requirements

1. May be earned concurrently with or subsequent to the baccalaureate degree.
2. Open to all majors who have fulfilled the required prerequisites as stated below.
3. Requires a total of 24 units as specified below:
   A. Completion of supporting technical courses chosen in consultation with an advisor.
   B. 24 units are required from the following courses: ET 307, 309, 311, 319, 329, 329L, 400, 400L, 404, 410, 420, 449, 449L
4. Any deviation from this program requires the written permission of the program advisor.

LOWER DIVISION

100. Introduction to Chemical Engineering (1)
Chemical engineering as a profession. Nature of profession and career opportunities. Emerging frontiers of chemical engineering. (Lecture 1 hour) Letter grade only (A-F).

200. Chemical Engineering Fundamentals (3) F
Prerequisites: CHEM 111A, MATH 123, PHYS 151.
Dimensional analysis of units, steady and transient balances of mass, momentum and energy, the mathematical solution of chemical engineering problems. (Lecture-problems 3 hrs) Letter grade only (A-F).

210. Computer Methods in Chemical Engineering (3) F
Prerequisites: CHEM 111A, MATH 122, PHYS 151.
Beginning programming and techniques of numerical analysis applied to typical problems in chemical engineering. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

220. Chemical Engineering Thermodynamics I (3) S
Prerequisite: CH E 200.
Applications of the first and second laws of thermodynamics to chemical processes. Concepts of heat, work, and energy. Energy balances in both and flow processes, with and without chemical reaction. Gas behavior, phase change, vapor pressure, humidity. (Lecture problems 3 hours) Letter grade only (A-F).

UPPER DIVISION

350. The Chemical Industry (3)
Prerequisite: CH E 200.
Survey of industrial chemical processing techniques and the activities of engineers in this area, illustrated by field trips, speakers, professional society meetings, films, readings, etc. (Lecture 3 hours) Letter grade only (A-F).

320. Fluids (3) S
Prerequisites: CH E 200, C E 205.
Study of the deformation and flow of fluids, both liquids and gases, with applications to chemical engineering. (Lecture-problems 3 hours) Letter grade only (A-F).

330. Separation Processes (4) F
Prerequisites: CH E 210, 220.
Computation methods for predicting the separation of materials by distillation, absorption, extraction and other methods. (Lecture-problems 3 hours, lab 3 hrs) Letter grade only (A-F).

400/500. Chemical Processes (3)
Prerequisite: CH E 200 or 300, or consent of instructor.
In depth study of chemical and chemical manufacturing processes and related environmental problems and energy conservation issues. Graduate students have additional assignments. (Lecture-problem 3 hours) Letter grade only (A-F).

410. Chemical Engineering Thermodynamics II (3) F
Prerequisites: CH E 210, 220.
Analysis and design of process equipment and systems using thermodynamics. Turbines, compressors, power plants, refrigeration cycles. Phase equilibria and nonideal solution behavior. Chemical reaction equilibria and heat effects. (Lecture-problems 3 hours) Letter grade only (A-F).
415/515. Occupational and Environmental Safety Engineering and Management (3)
Prerequisite: CHEM 327 or consent of instructor.
Safety analysis and management, legislation, regulations and standards; toxicology and personal protective equipment; fire hazards; noise control, electrical safety; container and spill management; statistical analysis. Extra requirements for graduate students.
(Lecture-problems 3 hours) Letter grade only (A-F).

420. Heat and Mass Transport (3) F
Prerequisite: CHE 210, 329, CHEM 377B.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

430. Chemical Reactor Kinetics (3) F
Prerequisite: CHEM 378.
Homogeneous and heterogeneous reactions and application to reactor design, catalysis.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

437/537. Materials Purification Processes (3)
Prerequisite: CHE 330, 420, or consent of instructor.
Rate-controlled separation processes such as membrane separations, pressure swing adsorption, molecular sieve separation, supercritical fluid extraction, reverse osmosis, and spray drying.
Additional projects required for CHE 537. (Lecture-problems 3 hours) Letter grade only (A-F).

440. Chemical Engineering Laboratory I (2) F
Prerequisites: CHE 220, 320, 330.
Laboratory study of fluid mechanics, separation processes and thermodynamics. Experimental design and analysis and preparation of engineering reports.
(Laboratory 6 hours) Letter grade only (A-F).

445/545. Pollution Prevention (3)
Prerequisite: CHE 330.
(Lecture-problems 3 hours) Letter grade only (A-F).

450. Chemical Engineering Laboratory II (2) S
Prerequisites: CHE 410, 420, 430, 440; Prerequisite or Corequisite: CHE 460.
Laboratory study of heat and mass transport, chemical kinetics and control theory. Experimental design and analysis and preparation of engineering reports.
(Laboratory 6 hours) Letter grade only (A-F).

455/555. Environmental Compliance (3)
Prerequisite: CHEM 327 or consent of instructor.
Physical and chemical properties of hazardous materials and wastes. Environmental hazards. An examination of environmental laws, regulations and standards dealing with storage, transportation, treatment and disposal of hazardous wastes. Emergency planning and preparedness. Extra requirement for graduate students: term papers or projects.
(Lecture-problems 3 hours) Letter grade only (A-F).

460. Chemical Process Control (3) S
Prerequisites: CHE 420; MATH 370 A.
Control theory and practice, instrumentation, system responses, transfer functions, feed back control, and stability as applied to chemical engineering processes.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

465/565. Biochemical Engineering (3)
Prerequisite: CHE 200, 330, 430, and life science course(s) with instructor’s approval.
Extra requirements for graduate students. (Lecture-problems 3 hrs.) Letter grade only (A-F).

470. Chemical Engineering Design (4) S
Prerequisites: CHE 220, 330, 420, 430; CHEM 320A.
Design based upon economics and chemical engineering design and analysis.
(Lecture-problems 3 hours, problem design session 3 hrs.) Letter grade only (A-F).

475/575. Environmental Pollution (3)
Prerequisites: CHEM 320A or 327, or consent of instructor.
Application of chemistry to the problems of pollution. Graduate students have additional assignments.
(Lecture-problems 3 hours) Letter grade only (A-F).

480/580. Theoretical Methods in Chemical Engineering (3)
Prerequisites: CHE 420, 430.
Simulation and optimization of chemical engineering processes by mathematical formulation and computer modeling.
Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).

481/581. Advanced Theoretical Methods in Chemical Engineering (3)
Prerequisites: MATH 370 A, CHE 480, or 580, or consent of instructor.
Solutions of problems encountered in models of chemical processes: boundary value ordinary differential equations and partial differential equations.
Graduate students have additional assignments. (Lecture problem 3 hours) Letter grade only (A-F).

485/585. Air Pollution (3)
Prerequisite: CHE 475 or CE 304 or consent of instructor.
Air pollution chemistry; control strategies; origin of pollutants; meteorology; vapor dispersion models; control principles for particulates, sulfur dioxide, and nitrogen oxides.
Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hrs) Letter grade only (A-F).

490. Special Problems (1-3)
Prerequisite: Consent of instructor.
Assigned topics in technical literature or laboratory projects and reports on same.
Letter grade only (A-F).

GRADUATE LEVEL

560/660. Chemical Processes (3)
Prerequisite: CHE 200 or 300, or consent of instructor.
In depth study of chemicals and chemical manufacturing processes and related environmental problems and energy conservation issues.
Graduate students have additional assignments. (Lecture problem 3 hours), Letter grade only (A-F).
515.415. Occupational and Environmental Safety Engineering and Management (3)
Prerequisite: CHEM 327 or consent of instructor.
Safety engineering and management, legislation, regulations and standards, toxicology and personal protective equipment, fire hazards; noise control; electrical safety; system safety analysis; container and spill management; use of computer systems and statistical methods.
Extra requirements for graduate students: term papers or projects. (Lecture-problems 3 hours) Letter grade only (A-F).
520. Advanced Transport Phenomena (3)
Prerequisites: CH E 520, 420, 430.
Application of differential and integral mass, momentum and energy balances to chemical engineering processes. Analysis of fluid flow, heat transfer, diffusion and chemical reaction in various unit operations. (Lecture- Problems 3 hours) Letter grade only (A-F).
521. Advanced Mass Transfer Operations of Chemical Engineering (3)
Prerequisite: CH E 520 or consent of instructor.
Fundamental laws of diffusion and diffusion with chemical reaction in traditional and unconventional mass transfer operations. (Lecture-problem 3 hours). Letter grade only (A-F).
530. Advanced Reactor Kinetics (3)
Prerequisite: CH E 430.
Modeling of chemical reactors; effects of multiple phases, mixing, adsorption, diffusion and catalysts on reactor performance. (Lecture- Problems 3 hrs) Letter grade only (A-F).
537.437. Materials Purification Processes (3)
Prerequisites: CH E 530, 420, or consent of instructor.
Rate-controlled separation processes such as membrane separations, pressure swing adsorption, molecular sieve separation, supercritical fluid extraction, reverse osmosis, and spray drying. (Lecture-problems 3 hours) Letter grade only (A-F).
545.445. Pollution Prevention (3)
Prerequisite: CH E 520.
555.455. Environmental Compliance (3)
Prerequisite: CHEM 327 or consent of instructor.
560. Advanced Chemical Process Control (3)
Prerequisite: one of the following: CH E 410, E E 3700, 411, 470, 471, 511, MAE 375, E T 492, or consent of instructor.
Principles and practices of controller selection and tuning, advanced control loops, model predictive control, decoupling, hands-on experience of control loop design and implementation using Labview. (Lecture- Problems 3 hours) Letter grade only (A-F).
565.465. Biochemical Engineering (3)
Prerequisites: CH E 200, 330, 430, and life science course(s) with instructor’s approval.
575.475. Environmental Pollution (3)
Prerequisite: CHEM 320 or 327, or consent of instructor.
Application of chemistry to the problems of pollution. Graduate students have additional assignments. (Lecture-problems 3 hours). Letter grade only (A-F).
580.480. Theoretical Methods in Chemical Engineering (3)
Prerequisites: CH E 420, 430.
Simulation and optimization of chemical engineering processes by mathematical formulation and computer modeling. (Lecture-problems 3 hours) Letter grade only (A-F).
581.481. Advanced Theoretical Methods in Chemical Engineering (3)
Prerequisites: Math 370A, CH E 450, or 560, or consent of instructor.
Solutions of problems encountered in models of chemical processes: boundary value ordinary differential equations and partial differential equations. Graduate students have additional assignments. (Lecture-problem 3 hours). Letter grade only (A-F).
585.485. Air Pollution (3)
Prerequisite: CH E 475 or CE 364 or consent of instructor.
Air pollution chemistry: control strategies; origin of pollutants; meteorology; vapor dispersion models; control principles for particulates, sulfur dioxide, and nitrogen oxides. (Lecture-problems 3 hours) Letter grade only (A-F).
697. Directed Research (1-3)
Prerequisite: Graduate standing.
Individual research or intensive study under the guidance of a faculty member on theoretical or experimental problems in chemical engineering. (Independent Study) Letter grade only (A-F).
698. Thesis or Industrial Project (2-6)
Prerequisite: Advancement to Candidacy.
Preparation and completion of a thesis or Industrial project in chemical engineering. May be repeated to a maximum of 6 units.
CHEMISTRY AND BIOCHEMISTRY
College of Natural Sciences and Mathematics

Department Chair: Jeffrey A. Cohlbarg
Department Office: Molecular and Life Sciences (MLSC) 304
Telephone/FAX: (562) 882-4594/M(562) 882-8567
Website: http://chemistry.csulb.edu

Faculty

Administrative Support Coordinator: George Sexton

Advisors:
Undergraduate: Roger A. Acey
Counselor: Laura Henriques, James Kiesel
Graduate: Biochemistry: Douglas D. McAbee, Chemistry: Lijuan Li
Graduate Studies Committee: Dennis M. Anjo, Jeffrey A. Cohlbarg, Lijuan Li, Douglas D. McAbee, Brian L. McClain, Young Shon

Honors in the Major: Roger A. Acey

Students desiring information should contact the department office for referral to one of the faculty advisors.

Career Possibilities
Chemist, Assayer • Water Purification Chemist • Chemical Lab Technician • Biochemist • Quality Control Coordinator • Pharmaceutical or Technical Sales Representative • Public Health Educator • Industrial Hygienist • Health Administrator • Teacher • Food/Drug Inspector • Materials Scientist • Medical Librarian • Environmental Scientist • Criminologist • Pharmacologist • Dentist • Physician • Geochemist • Chemical Oceanographer (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The Department of Chemistry and Biochemistry offers three bachelor's degrees, the B.S. in Chemistry, the B.S. in Biochemistry, and the B.A. in Chemistry, and two master's degrees, the M.S. in Chemistry and the M.S. in Biochemistry. These programs combined serve over 600 majors. In addition, the Department offers a Minor in Chemistry. The Chemistry and Biochemistry Department Advisory Council, including persons prominent in the community, fosters communication between academic and industrial chemistry. It advises the Department concerning the instructional program and informs the Department of opportunities for interaction with the community.

Degree Programs
The program in chemistry at the bachelor's degree level is planned to develop background in a specific science, to serve as preparation for graduate work in chemistry or biochemistry, and to provide a foundation for those students seeking careers in the physical sciences, teaching, law, medicine, dentistry, pharmacy and other health-related professions, and in industrial and governmental scientific occupations. The B.S. degree in Chemistry is certified by the American Chemical Society (American Chemical Society, Committee on Professional Training, 1156 Sixteenth St., NW, Washington, DC 20036, phone: 202-872-4589).

Transfer Students: A student who transfers to the University must take at least 16 units of upper division chemistry courses here. To receive credit towards the major for courses taken elsewhere in place of CHEM 320A,B and/or 371A,B and/or 377A,B, consent of the Department Chair is required. Satisfactory performance on appropriate proficiency examinations may also be required.

The Department of Chemistry and Biochemistry offers graduate study leading to research-based master of science degrees in chemistry and biochemistry. The candidate is urged to observe the general requirements slated in this Catalog as well as specific departmental requirements stated here and, more fully, in the Graduate Studies Brochure of the Department which is available upon request.

Applicants for the master of science degree programs should apply online both to the university and to the Department. Links to the online application forms can be found on the department's web site (http://chemistry.csulb.edu – click on "Graduate Programs").

A limited number of teaching associate and graduate and research assistantships are available. Usually, these involve half-time work in the instructional program at the freshman and sophomore level or work in the laboratory. An applicant may apply for a teaching associate or graduate assistant position in the course of completing the online departmental application.

Students Desiring Entrance into a Health Professions Program
Students desiring entrance into one of the various health-related professional schools including chiropractic, dentistry, medicine, optometry, osteopathy, pharmacy, podiatry, and veterinary, or to a graduate program in physical therapy, should consult with the Health Professions Advising Office in the College of Natural Sciences and Mathematics, Jensen Student Access to Sciences and Mathematics Center (F051-100) for more information. Most of these schools do not require students to major in any particular discipline and many do not even require a bachelor's degree; rather, they want students who have done well in their major and who also took the prerequisite courses required by that particular school.

Facilitated Enrollment Into Classes
All entering students who declare a major in a degree program offered by this Department must participate in the College of Natural Sciences and Mathmatics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. This program is held in June-July for those entering in the fall semester and in January for those entering in the spring semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist
with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Jonson Student Access to Sciences and Mathematics Center (Faculty Office 5-109) or Department Office for additional information.

**Undergraduate Programs**

**Bachelor of Science in Chemistry**  
*(code CHEMB01) (123 units)*

The bachelor of science degree program is intended to provide a thorough background in chemistry for those planning to pursue careers as professional chemists or to do graduate study in chemistry or biochemistry. This program, when supplemented with study in other appropriate areas, can serve as preparation for admission to the health professional schools (medicine, dentistry, pharmacy, etc.). Each student should consult with a faculty advisor to plan his or her individual program. Students may also wish to contact the Health Professions Advising Office in the Jensen Student Access to Sciences and Mathematics Center (F05-109) for additional information and services.

Chemistry majors must achieve a grade of "C" or better in each course required for the major.

**Requirements**

Lower Division:  
- CHEM 111A, B, 251; PHYS 151, 152, 254, 255; MATH 122, 123, 224; BIOL 111, 111L, 212, 212L or 200 or 205 or 207.
- Upper Division:  
  - CHEM 320A, B, 331, 332, 371A, B, 373, 420, 431, 441A, 451; one course chosen from among CHEM 361, 456H or ENGL 317; and an additional 3 units of upper division chemistry electives including at least one unit of CHEM 496. CHE 330, 425, 430, or 475 may be used as chemistry electives.
  - Students are also advised to take one or more additional courses in mathematics, such as MATH 247, 364A, 370A, 380.

**Bachelor of Arts in Chemistry**  
*(code CHEMBA01) (120 units)*

The Bachelor of Arts degree program in chemistry is intended to provide a background in chemistry, but not in the depth required for a bachelor of science degree. This program, when supplemented with study in other areas, will serve as preparation for a career in chemical and related industries or secondary science education. The bachelor of arts program is also an appropriate preparation for medical, dental, law, and pharmacy schools. Students may also wish to contact the Health Professions Advising Office in the Jensen Student Access to Sciences and Mathematics Center (F05-109) for additional information and services. In order to take full advantage of the bachelor of arts program for various career objectives, adequate counseling by chemistry advisors is indispensable. Each student must confer with an advisor to set up his/her individually tailored program in chemistry and one or more complementary areas prior to beginning the course of study.

Chemistry majors must achieve a grade of "C" or better in each course required for the major.

**Requirements**

Lower Division:  
- CHEM 111A, B, 251; PHYS 100A, B or 151, 152; and MATH 122, 123.
- Upper Division:  
  - CHEM 320A, B, 331, 371A, B or 377A, B, 420, 451; one course chosen from among CHEM 361, 456H or ENGL 317; and a minimum of 3 additional units chosen in consultation with an advisor selected from CHEM 332, 373, 421, 431, 441A, B, 496. Students must consult an advisor to select additional courses to meet the student's individual goals and interests.

**Bachelor of Science in Biochemistry**  
*(code CHEMS02) (121 units)*

The Bachelor of Science degree in biochemistry is intended to provide a rigorous background in chemistry and biochemistry for those planning for graduate study in biochemistry or other life sciences, or for careers in biochemical and related industries. This program is also an appropriate preparation for medicine, dentistry, pharmacy, and clinical chemistry at the graduate level. Students must confer with an advisor to set up an appropriate program for their goals.

Biochemistry majors must achieve a grade of "C" or better in each course required for the major.

**Requirements**

Lower Division:  
- CHEM 111A, B, 251; BIOL 111, 111L, 212, 212L; MATH 122, 123; and PHYS 100A, B or 151, 152.
- Upper Division:  
  - CHEM 320A, B, 371A or 377A, 371B or 377B (371A, B is recommended as preparation for graduate studies in biochemistry) 420 or 451, 441A, B, 443, BIOL 340, BIOL 370 or MCHR 371 and 372; Three (3) additional units of elective chosen from: CHEM 331, 373, 420, 421, 431, 451; BIOL 342 and 342L, 445, 448, 470; MCHR 452, 473; and one course chosen from CHEM 361, 456H or ENGL 317.

**Teaching Credential**

Requirements Related to a Chemistry Concentration

The Chemistry Concentration meets the subject matter competence requirement for the Single Subject Preliminary Credential in Chemistry (code 181). Prospective students should consult the Single Subject Science Education Advisor in the Department of Science Education early to plan their program.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective Chemistry teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete many of the credential program courses, except for student teaching, as an undergraduate. Courses may also be started as post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.csud.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.
The Chemistry Subject Matter Program is being revised to meet new state standards. When the revised program has been approved by the Commission on Teacher Credentialing, the new course requirements will be in effect and supersede current requirements.

Requirements

Lower Division: ASTR 100; BIOL 111, 111L, 212, 212L, 213, and 213L; CHEM 11A,B, 251; GEOL 102, 104, 150; PHYS 100A.B or 151,152; MATH 119A.B or 122, 123.

Upper Division: CHEM 320A,B, 441A, 451, 456, either 431 or 441B; SCED 403.

Honors in Biochemistry or Chemistry

Students majoring in the B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry who would like an enriched academic program including an intensive research experience may be eligible to graduate with Honors in the Major through the University Honors Program. Students may complete General Honors through the University Honors Program as well; in such cases the General Honors thesis requirement is met through Honors in the Major (see University Honors in this Catalog).

Chemistry majors should be aware that this program is designed for students with career goals in life science areas, and, as such, chemistry majors who wish to participate must take additional coursework in biology beyond the minimum required for a chemistry degree.

The requirements for Honors in the Major will also satisfy the requirements of a college-wide program, Honors in Biological Sciences, created with the support of a grant from the Howard Hughes Medical Institute. While Honors in the Major require junior or senior standing, the college-wide program offers an enriched curriculum beginning in the freshman year, including a freshman seminar (BIOL 110H), a critical thinking course designed for science majors, and an introduction to bioinformatics (BIOL 220H). Interested students should contact the Honors in Biological Sciences program director or the Jensen Student Access to Sciences and Mathematics Center.

Requirements for Admission to Honors in the Major

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry.
3. Submission of an application detailing interest in the program and willingness to commit to a year-long research experience.
4. Letter of recommendation from a CSULB faculty member familiar with the student's work.
5. Completion of BIOL 111, 111L, 212, 212L, 213, and 213L (or BIOL 211A,B); CHEM 251, 320A,B at time of entry with grades of at least "C" in each course. Students may apply during the semester in which they expect to complete these courses.
6. GPA of at least 3.00 in all upper division courses in the major.

Requirements for Graduation with Honors in the Major

1. GPA of at least 3.00 in all upper division courses in the major and in Honors courses.
2. Completion of all requirements for the B.S. in Biochemistry, B.S. in Chemistry, or B.A. in Chemistry.
3. Completion of BIOL/CHM 466H, Research Design and Methods - Honors (3 units).
4. Completion of 3 units CHEM 498, Undergraduate Directed Research.
6. Presentation of research results in a public forum. This requirement may be met by presentation at a scientific conference or at a local venue; consult the Honors in the Major advisor for additional information.

Substitutions to this program must be approved by the Honors in the Major Advisor.

Minor in Chemistry (code CHEMUM01)

Requirements

The Minor in Chemistry is available to any non-Chemistry or non-Biochemistry major.

A minimum of 20 units of chemistry which must include CHEM 111A,B. A minimum of nine units must be taken from upper division chemistry courses. There are three Organic Chemistry paths, CHEM 327; or CHEM 320A,B; or CHEM 322A,B and CHEM 323A,B. Students may use courses from only one of the paths to meet the requirements of the minor.

The following courses are not acceptable towards the minor: CHEM 100, 101, 102, 140, 202.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take course work in a community or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for approval prior to enroll in specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this Catalog. Courses not receiving prior approval will not be accepted for credit by the Department.

Graduate Credit Earned as an Undergraduate Chemistry or Biochemistry Major

Graduate credit usually may not be earned in advance of the baccalaureate degree. However, based upon the recommendation of the Department Chairperson and the Chairman of the Departmental Graduate Studies Committee, academic performance (a grade point average of 3.00 overall and 3.00 in the major), and promise of academic achievement in postgraduate study, a student in his/her senior year may be granted approval to earn a maximum of 12 units of course work in the 400 and 500 level taken at this University toward his/her prospective graduate program, subject to the following conditions:

1. The course work must be in addition to that required by the Department for the B.A. or B.S. degree in Chemistry or the B.S. degree in Biochemistry.
2. The undergraduate student must have a "Petition to Earn Credit in the Senior Year" approved by the appropriate Department Graduate Advisor, the Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics, and the Dean of Graduate Studies.

Graduate Programs

Master of Science in Chemistry
(code CHEMMS01)

Prerequisites
1. Acceptance as a graduate student by the Department of Chemistry and Biochemistry;
2. A bachelor's degree with a major in chemistry, or a bachelor's degree with undergraduate preparation in chemistry, physics, and mathematics equivalent to that required for the bachelor's degree in chemistry at this University. A student deficient in any of these courses must complete the course(s) as a graduate student. The courses that must be taken to make up these deficiencies will be determined by the Graduate Adviser in consultation with the Graduate Studies Committee. Students with majors in other areas may be considered for admission at the discretion of the Graduate Adviser.
3. Entering graduate students are required to take placement examinations as follows:
   - at the beginning of the first semester of the M.S. program; one placement examination chosen by the student in analytical, inorganic, organic, physical or biochemistry;
   - at the beginning of the second semester of the M.S. program; one placement examination recommended by the Thesis Committee.
Under some circumstances students may take both placement examinations at the beginning of the first semester, with the approval of the Graduate Adviser. Any student failing to take and pass a placement examination is required to pass, with a minimum grade of B, an appropriate course as recommended by the Graduate Studies Committee. Usually the recommended courses are:
- CHEM 251 and/or 451 if the subject is analytical chemistry;
- CHEM 431 if the subject is inorganic chemistry;
- CHEM 321A and/or CHEM 321B if the subject is organic chemistry;
- CHEM 371A and/or 371B if the subject is physical chemistry;
- CHEM 441A and/or 441B if the subject is biochemistry.
4. The placement examinations are usually given on the Monday and Tuesday of the week preceding the first day of instruction. The Graduate Studies Committee evaluates the examinations and recommends appropriate courses to correct any deficiencies in chemistry. The Chemistry Graduate Adviser will meet with the student at this time to prepare a tentative degree program.
5. Entering students are required to select a research advisor within eight weeks following the first day of instruction. At this time the student and the advisor will select two additional faculty members to serve on the Thesis Committee. The Thesis Committee will meet before the end of the eleventh week of the semester and will plan a course of study for the student consistent with the area of thesis research, in consultation with the Graduate Adviser. The research advisor and/or the Thesis Committee will determine which additional placement examination the student will take at the beginning of the second semester.
6. Each student shall prepare a thesis proposal in collaboration with the research advisor, stating the specific topic of the research and its significance, the specific objectives of the research, and the methods to be used.

Advancement to Candidacy

The regulations governing each student's master's degree are those in effect at the time of the student's advancement to candidacy. The Department recommends advancement to candidacy after the graduate student has:
1. Either passed all the required placement examinations including those recommended by the Thesis Committee or achieved a grade of B or better in each course recommended by the Graduate Studies Committee for correcting the deficiencies;
2. Completed at least 6 units of courses on the proposed Graduate Program;
3. While in residence as a graduate student at this University, earned at least a 3.0 ("B") average in all upper division and graduate work, a 3.0 average in all CHEM courses, and a 3.0 average in all courses on the graduate program.
4. Fulfilled the Graduation Writing Assessment Requirement (GWAR);
5. Obtained approval of a graduate degree program by the Thesis Committee, the Graduate Adviser, the Department Chair (in consultation with the Graduate Studies Committee), and the Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics.

The criteria above should be met by the beginning of the third semester of graduate study. Deficient students may continue at the discretion of the Department Graduate Studies Committee.

Requirements

1. Advancement to candidacy;
2. The completion of a minimum of 30 units including:
   A. A minimum of nine units in chemistry lecture courses in the 500 series (excluding CHEM 595);
   B. Three units of CHEM 595;
   C. Two units of CHEM 660, a maximum of one unit of CHEM 695, 4 to 6 units of CHEM 697, and 4 to 6 units of CHEM 698;
   D. Additional 400 and 500 level courses (excluding CHEM 505 and courses taken to remove deficiencies) as recommended by the Thesis Committee and approved by the Graduate Advisor.

Changes in the above pattern of course requirements may be made only at the discretion of the Graduate Studies Committee and the Graduate Adviser subject to approval.
by the Associate Dean for Graduate Accountability.

3. Completion of a written thesis, of publication quality, acceptable to the members of the thesis committee and a public presentation of the thesis research. The public presentation must be completed before the thesis is signed by the committee members.

5. While not a requirement for the degree, students in the MS program normally gain experience teaching laboratory sections of Chemistry courses, as preparation for professionally related teaching activities in their future careers.

Master of Science in Biochemistry
(code CHEMMS02)

Prerequisites

1. Acceptance as a graduate student by the Department of Chemistry and Biochemistry;

2. A bachelor's degree with a major in chemistry or biochemistry or one of the biological sciences. Students with majors in other areas may be considered for admission at the discretion of the Graduate Adviser. Prerequisite courses include CHEM 251, 320A, B or 322A, B, 377A, B, 441A, B, 443; MATH 122, 123, PHYS 100A, B or their equivalents and courses in general biology and molecular biology. A student deficient in any of these courses must complete the course(s) as a graduate student.

3. Entering graduate students are required to take a placement examination in biochemistry at the beginning of the first semester of the MS program. A second placement examination in either organic chemistry or physical chemistry must be taken by the beginning of the second semester. Any student failing to take and pass a placement examination, is required to pass, with a minimum grade of "B", an appropriate course as recommended by the Graduate Studies Committee. Usually the recommended courses are:

CHEM 320A and/or CHEM 320B if the subject is organic chemistry;
CHEM 371A or 377A and/or 371B or 377B if the subject is in physical chemistry;
CHEM 441A and/or 441B if the subject is biochemistry.

Under some circumstances students may take both placement examinations at the beginning of the first semester, with the approval of the Graduate Adviser.

4. The placement examinations are usually given on the Monday and Tuesday of the week preceding the first day of instruction. The Graduate Studies Committee evaluates the examinations and recommends appropriate courses to correct any deficiencies in chemistry. The Biochemistry Graduate Adviser will meet with the student at this time to prepare a tentative degree program.

5. Entering students are required to select a research advisor within eight weeks following the first day of instruction. At this time the student and the advisor will select two additional faculty members to serve on the Thesis Committee. The Thesis Committee will meet before the end of the eleventh week of the semester and will plan a course of study for the student consistent with the area of thesis research, in consultation with the Graduate Adviser. The research advisor and/or the Thesis Committee will require the student to take the second placement examinations (in organic or physical chemistry) in addition to the examination already taken. A student who fails this examination is required to enroll in an appropriate course as recommended by the Graduate Studies Committee, usually the recommended course listed in paragraph 3.

6. Each student shall prepare a thesis proposal in collaboration with the research advisor, stating the specific topic of the research and its significance, the specific objectives of the research, and the methods to be used. The student must obtain approval of the thesis proposal and must make a public presentation of the proposal by the end of the second semester in the MS program. Any major change in direction during the course of the research shall be subject to the approval of the Thesis Committee.

Advancement to Candidacy

The regulations governing each student's master's degree are those in effect at the time of the student's advancement to candidacy. The Department recommends advancement to candidacy after the graduate student has:

1. Either passed all the required placement examinations including those recommended by the Thesis Committee or achieved a grade of B or better in courses recommended by the Graduate Studies Committee for correcting the deficiencies;

2. Completed at least 6 units of courses on the proposed Graduate Program;

3. While in residence as a graduate student at this University, earned at least a 3.0 ("B") average in all upper division and graduate work, a 3.0 average in all CHEM courses, and a 3.0 average in all courses on the graduate program.

4. Submitted the Graduation Writing Assessment Requirement (GWAR);

5. Obtained approval of a graduate degree program by the Thesis Committee, the Graduate Adviser, the Department Chair (in consultation with the Graduate Studies Committee), and the Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics.

The criteria above should be met by the beginning of the third semester of graduate study. Deficient students may continue at the discretion of the Department Graduate Studies Committee.

Requirements

1. Advancement to candidacy;

2. The completion of a minimum of 30 units including:
   A. A minimum of nine units in chemistry lecture courses in the 500 series (excluding CHEM 595);
   B. Three units of CHEM 595;
   C. Two units of CHEM 660: a maximum of one unit of CHEM 660, 4 to 6 units of CHEM 697 and 4 to 6 units of CHEM 698.

2009/2010 CSULB Catalog • Chemistry and Biochemistry • 225
D. The following courses taken either prior to or during the course of this program: (1) CHEM 451 (or the equivalent); (2) at least one senior or graduate level course in cell/molecular biology or a related area. Credit earned in these courses may be included in the student's official program at the discretion of the Graduate Advisor.

E. Additional 400 and 500 level science courses (excluding CHEM 595 and courses used to remove deficiencies) as recommended by the Thesis Committee and approved by the Graduate Advisor.

Changes in the above pattern of course requirements may be made only at the discretion of the Graduate Studies Committee and the Graduate Advisor subject to approval by the Associate Dean for Graduate Accountability.

3. Completion of a written thesis, of publication quality, acceptable to the members of the Thesis Committee and a public presentation of the thesis research. The public presentation must be completed before the thesis is signed by the committee members.

5. While not a requirement for the degree, students in the MS program normally gain experience teaching laboratory sections of Chemistry courses, as preparation for professionally related teaching activities in their future careers.

---

Courses (CHEM)

LOWER DIVISION

100. Chemistry and Today's World (4)
Prerequisites: One course from the Foundation (GE categories A1, A2, A3, and B2).
Introduction to basic principles of chemistry and a consideration of the benefits and problems arising from applications of chemistry. Discussions of foods and food additives, drugs, plastics, and other materials of everyday life, fuel sources, the atmosphere, and fresh water. Suitable for general education credit. Not open for credit to chemistry or biochemistry majors or students with credit in CHEM 111A or CHEM 140. (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

101. Introduction to General Chemistry (4) F/S
Prerequisites: MATH 112 or 113 or 117 or 119A or 122.
This course is a prerequisite to CHEM 111A for students who have not achieved a satisfactory score on the Chemistry Placement Examination. Basic principles and concepts including atomic structure, nomenclature and chemical calculations with emphasis on problem solving. Does not count for General Education: Letter grade only (A-F). (Lecture 3 hrs., lab-problem session 3 hrs.) Course fee may be required.

105. Chemistry Explorations (1)
Prerequisites: A general education math class, which may be taken concurrently.
Central concepts of chemistry, including states of matter, atomic structure, periodic properties, chemical compounds and reaction energy, and equilibrium, illustrated with a set of experiments. Intended for students in the Integrated Teacher Education Program (ITEP). (Laboratory 3 hours). Course fee may be required.

111A. General Chemistry (5)
Prerequisites: A passing score on the Chemistry Placement Examination within the preceding year or a grade of "C" or better in CHEM 101, MATH 112 or 113 or 117 or 119A or 122. One year of high school chemistry is strongly recommended. (Recommended for students who intend to pursue careers in science or engineering.)
First semester of a two-semester sequence (CHEM 111A and 111B). Introduction to principles of chemistry including chemical reactions, stoichiometry, thermochromy. electronic structure, bonding, and properties of solids, liquids, gases, and solutions. (Lecture 3 hrs., laboratory and problem session 6 hrs.) Course fee may be required.

111B. General Chemistry (5)
Prerequisite: CHEM 111A with a grade of "C" or better.
Second semester of a two-semester sequence (CHEM 111A and 111B). Continuation of chemical principles, applications of bonding theories of inorganic molecules, trends and reactivities of elements and their compounds, chemical equilibrium, kinetics and qualitative inorganic analysis. Solving aqueous equilibrium problems are emphasized. (Lecture 3 hrs., lab and problem solving sessions 6 hrs.) Course fee may be required.

140. General, Organic, and Biochemistry (5)
Prerequisites: A GE math course (may be taken concurrently); high school chemistry or equivalent.
This one-semester course encompasses general chemistry, organic chemistry, and biochemistry. Meets chemistry requirement for pre-nursing curriculum. (Lecture 3 hrs., problem solving session 1 hr., and laboratory 3 hrs.) Course fee may be required.

251. Quantitative Analysis (4)
Prerequisite: CHEM 111B with a grade of "C" or better. It is strongly recommended that CHEM 251 be taken within one calendar year of CHEM 111B.
Introduction to techniques and theory of gravimetric and volumetric analysis, spectrophotometry, potentiometry, and chromatography. (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required.

UPPER DIVISION

302. Survey of Biochemistry (3) F/S
Prerequisites: A minimum of 3 units of university level general and organic chemistry with grade of "C" or better.
Study of the chemistry, structures, metabolic reactions and functions of the major classes of biochemical compounds. Does not meet the requirements of medical or dental schools. Does not count for General Education credit. (Lecture 2 hrs., discussion 1 hr.)

320A. Organic Chemistry (3)
Prerequisite: CHEM 111B with a grade of "C" or better. CHEM 251 is recommended.
First semester of two-semester sequence (CHEM 320A and 320B). Sequence meets requirements for medical and dental schools. Emphasis is upon application of modern principles of structure, reactivity, methods of synthesis, physical properties and spectroscopy. (Lecture 3 hrs., discussion 1 hr.)

320B. Organic Chemistry (3)
Prerequisite: CHEM 320A with a grade of "C" or better.
Second semester of two-semester sequence (CHEM 320A and 320B). Continuation of study of organic chemistry including chemistry of compounds containing more than one functional group, bioorganic molecules, and special topics. (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.
320L. Organic Chemistry Laboratory (2) F,S
Prerequisites: Completion at an accredited institution of coursework equivalent to CHEM 320B, and consent of the Department. CHEM 320L is identical to the laboratory component of CHEM 320B. Not open to students with credit in CHEM 320B. Letter grade only (A-F). (Laboratory 6 hrs.) Course fee may be required.

322A. Organic Chemistry (3) F,S
Prerequisite: CHEM 111B with a grade of "C" or better. Concurrent enrollment in CHEM 322A required except for students who have previously earned a "C" or better in CHEM 322A.
First of a two-semester sequence (CHEM 322A,B) for biological sciences majors. Sequence meets requirements for medical and dental schools. Emphasizes concepts of organic chemistry necessary to understand structures and transformations of biomolecules. Not applicable to a degree in chemistry.
Letter grade only (A-F). (Lecture 3 hrs.)

322B. Organic Chemistry Laboratory (3) F,S
Prerequisite: CHEM 322A and CHEM 322A, both with a grade of "C" or better. Concurrent enrollment in CHEM 322B is required except for students who have previously earned a "C" or better in CHEM 322B.
Second semester of two-semester sequence (CHEM 322A and 322B) for biological sciences majors. Continuation of the study of organic reactions with emphasis on the chemistry of metabolism. Not applicable to a degree in chemistry.
Letter grade only (A-F). (Laboratory 3 hrs.)

323A. Organic Chemistry Laboratory (1) F,S
Prerequisite: CHEM 111B with a grade of "C" or better. Concurrent enrollment in CHEM 323A required except for students who have previously earned a "C" or better in CHEM 323A.
Introduction to organic laboratory techniques. Not applicable to a degree in chemistry.
Letter grade only (A-F). (Laboratory 3 hrs.)

323B. Organic Chemistry Laboratory (1) F,S
Prerequisite: CHEM 323A and CHEM 323A, both with a grade of "C" or better. Concurrent enrollment in CHEM 323B is required except for students who have previously earned a "C" or better in CHEM 323B.
Synthesis and characterization of organic and bioorganic compounds. Not applicable to a degree in chemistry.
Letter grade only (A-F). (Laboratory 3 hrs.)

327. Fundamentals of Organic Chemistry (3) F,S
Prerequisite: CHEM 111A with a grade of "C" or better; CHEM 111B is recommended.
Lecture courses in chemistry of the carbon compounds. Not applicable to a degree in chemistry. (Lecture 3 hrs.)

331. Inorganic Chemistry (3)
Prerequisites: CHEM 111B, 251.
Introduction to coordination chemistry, solid-state chemistry, and reactions of transition metals.
Letter grade only (A-F). (Lecture 3 hrs.)

332. Inorganic Chemistry Laboratory (2)
Prerequisite: CHEM 331 (may be taken concurrently).
Synthesis, characterization, and manipulation of inorganic compounds and materials.
Letter grade only (A-F). (Laboratory 3 hrs.)

361. Chemical Communications (3)
Prerequisites: Completion of General Education Foundation, concurrent or previous enrollment in CHEM 320A.
Using the chemical literature. Writing technical reports for various purposes. Oral presentation of chemical information. Course includes extensive writing.
Letter grade only (A-F). (Seminar 3 hrs.)

371A. Physical Chemistry: Thermodynamics and Kinetics (3) F
Prerequisites: CHEM 251, MATH 123, PHYS 152 (all with a grade of "C" or better), MATH 224 (may be taken concurrently).
Half of the two semester physical chemistry package. The two courses, CHEM 371A,B, may be taken in either order. Principles and applications of classical thermodynamics; introduction to chemical kinetics.
Letter grade only (A-F). (Lecture 3 hrs.)

371B. Physical Chemistry: Quantum Mechanics and Spectroscopy (3) S
Prerequisites: CHEM 251, MATH 123, PHYS 152 (all with a grade of "C" or better), and MATH 224 (may be taken concurrently).
Half of the two semester physical chemistry package. The two courses CHEM 371A,B may be taken in either order. Principles and applications of quantum chemistry, spectroscopy, and statistical thermodynamics.
Letter grade only (A-F). (Lecture 3 hrs.)

373. Physical Chemistry Laboratory (3) S
Prerequisites: CHEM 251, CHEM 371A,B or CHEM 377A,B all with a grade of "C" or better.
Introduction to basic physical-chemical experimental techniques with applications to principles discussed in CHEM 371A,B and CHEM 377A,B.
(Lecture 1 hr., laboratory 6 hrs.)

377A. Fundamentals of Physical Chemistry (3) F,S
Prerequisites: CHEM 251, MATH 122, PHYS 100B or 152 (all with a grade of "C" or better), and MATH 123 (may be taken concurrently).
Half of the two semester physical chemistry package with a biochemical emphasis. The two courses CHEM 377A,B may be taken in either order. Principles of physical chemistry emphasizing thermodynamics and chemical kinetics. Biological and environmental science examples used to illustrate principles.
Letter grade only (A-F). (Lecture 3 hrs.)

377B. Fundamentals of Physical Chemistry (3) F,S
Prerequisites: CHEM 251, MATH 122, PHYS 100B or 152 (all with a grade of "C" or better, MATH 123 (may be taken concurrently).
Half of the two semester physical chemistry package with a biochemical emphasis. The two courses CHEM 377A,B may be taken in either order. Principles of physical chemistry with emphasis on molecular structure and spectroscopy.
Letter grade only (A-F). (Lecture 3 hrs.)

420. Advanced Organic Chemistry Laboratory (3)
Prerequisites: CHEM 251 and CHEM 320B both with a grade of "C" or better.
Synthesis and characterization of organic compounds. Organic structures analyzed through interpretation of spectral data. Emphasis on use of high field NMR, mass spectrometry, IR, and UV. Applications of modern separation techniques.
In addition to regularly scheduled lectures, students are expected to attend three hours of lecture on use of chemical literature. Letter grade only (A-F). (Lecture 1 hr., laboratory 6 hrs.) Course fee may be required.

421/521. Physical Organic Chemistry (3) F
Prerequisites: CHEM 320B with a grade of "C" or better; CHEM 371B or 377B (may be taken concurrently). (Undergraduates enroll in CHEM 421; graduates enroll in CHEM 521.)
Theoretical interpretation of chemical and physical properties of organic compounds: mathematical derivations of rate equations from experimental results, quantitative comparison of organic compounds reactivity, mathematical correlations of structure and properties. Solving problems relating to reaction mechanisms to described factors.
(Lecture 3 hrs.)
431. Advanced Inorganic Chemistry (3) F
Prerequisites: CHEM 331, 371B, both with a grade of “C” or better.
Quantitative study of chemical bonding in inorganic molecules
emphasizing on molecular orbital theory. Transition metal chemistry
including coordination chemistry, ligand field theory, spectroscopy
applications to structural analysis of inorganic molecules, and review
of properties and reactivities of elements and their compounds.
Letter grade only (A-F). (Lecture 3 hrs.)

441A. Biological Chemistry (3)
Prerequisite. Either CHEM 320A or both CHEM 322A and 322B
with a grade of “C” or better; a biology or microbiology course is
recommended.
Find semester of a two-semester sequence (CHEM 441A and 441B)
in biochemistry. Chemical and mathematical treatment of energetics
and kinetics of reactions in living systems, including chemistry and
metabolism of carbohydrates and chemistry of proteins.
Letter grade only (A-F). (Lecture 3 hrs.)

441B. Biological Chemistry (3)
Prerequisite: CHEM 441A with a grade of “C” or better.
Second semester of two-semester sequence (CHEM 441A and 441B)
in biochemistry. Metabolism of lipids, proteins, and nucleic acids, and
other advanced topics in metabolism.
Letter grade only (A-F). (Lecture 3 hrs.)

443. Biological Chemistry Laboratory (4)
Prerequisites: CHEM 251 and 441B, both with a grade of “C” or better.
Theory and practice of laboratory techniques used in biochemical
research. (Lecture 1 hr., laboratory 9 hrs.) Course fee may be required.

448. Fundamentals of Biological Chemistry (3)
Prerequisites: CHEM 111A and 327, both with a grade of “C” or better.
Major principles of biochemistry including metabolic processes,
biochemical control and regulatory processes, nutrition and chemical
energetics and kinetics of reactions involving enzyme catalysis.
Emphasis on major concepts and problem solving.
Not open to chemistry majors. Not open for credit to students with
credit in CHEM 441A,B.
Letter grade only (A-F). (Lecture 3 hrs.)

449. Nutritional Biochemistry Laboratory (3)
Prerequisite: CHEM 448 with a grade of “C” or better.
Analytical and biochemical analysis of foods and other
compounds of biochemical interest.
(Lecture 1 hr., laboratory 6 hrs.) Course fee may be required.

451. Instrumental Methods of Analysis (4)
Prerequisites: CHEM 251, CHEM 371B or 377B, all with a grade of
“C” or better, or consent of instructor.
Theory and application of instrumental methods to chemical problems.
Includes measurement basics, atomic and molecular spectroscopy,
electroanalytical chemistry, separation methods, surface analysis, and
statistical evaluation of analytical data.
Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs.) Course fee
may be required.

466H. Research Design and Methods – Honors (3) S
Prerequisites: BIOL 111, 111L, 212, 212L, 213, 213L, either BIOL 260
or CHEM 251, CHEM 320A,B. or CHEM 322A,B and 322A,B, all
with a grade of “C” or better, completion of the GE Foundation,
and consent of instructor.
Introduction to hypothesis testing, experimental design, and
regression modeling of biochemical data. Methodological and technical
procedures for experimentation, and techniques for written and
oral presentation of research results. Research paper and oral
presentation required.
Same course as BIOL 466H. Not open for credit to students with
credit in BIOL 466H. Letter grade only (A-F). (Lecture 3 hrs.)

480/580. Biomolecular Modelling and Simulation (3)
Prerequisites: CHEM 320A or CHEM 322A, MATH 123 (may be
taken concurrently), and PHYS 100B or 152, all with a grade of “C”
or better.
The study of biomolecular phenomena using computer-based
modeling and simulation techniques with varying degrees of
resolution, including development and validity of molecular models.
Latter grade only (A-F). (Lecture 3 hrs.)

495. Colloquium in Chemistry (1)
Prerequisite: One semester of organic chemistry.
Presentation of reports by students on original research or current
literature. May be repeated to a maximum of 3 units; only one unit may be
counted toward the major requirement for the chemistry degree. An
oral report is required.

496. Special Problems in Chemistry (1-3)
Prerequisite: Consent of instructor.
Problems selected for considered and mature analysis. A written
report required.
May be repeated to a maximum of 6 units (Independent Study).
Letter grade only (A-F).

498H. Senior Thesis – Honors (1-3)
Prerequisites: One unit of CHEM 496 and consent of instructor.
Planning, preparation, and completion of thesis based on a
research project in chemistry. Letter grade only (A-F). Not available to graduate students.

499. Directed Reading (1)
Survey of chemical literature on some topic of current interest
under supervision of a faculty member. Preparation of a written
report based on readings.
Not open for credit to graduate students.

GRADUATE LEVEL

521/421. Physical Organic Chemistry (3) F
Prerequisite: CHEM 320B with a grade of “C” or better; CHEM
371B or 377B (may be taken concurrently). Undergraduate enrollment
in CHEM 421; graduate enrollment in CHEM 521.
Theoretical interpretation of chemical and physical properties of
organic compounds. Mathematical derivations of rate equations
from experimental results. Quantitative comparison of organic
compounds reactivities and structural correlations. Solving problems regarding
to reaction mechanisms to described factors.
(Lecture 3 hrs.)

522. Special Topics in Organic Chemistry (3)
Prerequisite: CHEM 421 or 521 or consent of instructor.
Areas of current interest in organic chemistry.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F). (Lecture 3 hrs.)

531. Advances in Inorganic Chemistry (3)
Prerequisite: CHEM 431 or consent of instructor.
Current topics and advances in inorganic chemistry.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F). (Lecture 3 hrs.)

542. Special Topics in Biochemistry (3)
Prerequisite: CHEM 441B or consent of instructor.
Intensive discussion of a limited aspect of biochemistry with
reference to current literature. Course content will vary from year
to year.
May be repeated to a maximum of 6 units with consent of
Graduate Advisor. Letter grade only (A-F). (Lecture 3 hrs.)
544. Physical Biochemistry (3)
Prerequisites: Either CHEM 371B or 377B, or consent of instructor and CHEM 441B.
Physical chemical aspects of protein and nucleic acid chemistry and related analytical methods.
Lecture only (A-F). (Lecture 3 hrs.)

547. Biochemistry of Nucleic Acids (3)
Prerequisites: CHEM 441A, B or consent of instructor.
Gene expression with emphasis on regulatory mechanisms. Analytical techniques for isolation, purification, and characterization of nucleic acids.
Lecture only (A-F). (Lecture 3 hrs.)

548. Cell Membranes (3)
Prerequisites: CHEM 441A, BIOL 370, and BIOL 340.
Examination of modern membrane biochemistry. May include membrane structure and transport, phospholipid sorting, vesicular transport, membrane coat protein structure and function, and membrane-dopant signal transduction.
Lecture only (A-F). (Lecture 3 hrs.)

552. Special Topics in Analytical Chemistry (3)
Prerequisite: CHEM 451 or consent of instructor.
Including electrochemical measurements, chromatographic techniques, spectroscopic techniques, radiochemical analysis and basic electronic components of instrumentation. Emphasizing the chemical principles involved, utility and limitations of each method. Includes trace analysis of water and air.
May be repeated to a maximum of 6 units with different topics.
Lecture only (A-F). (Lecture 3 hrs.)

572. Advanced Physical Chemistry (3)
Prerequisite: CHEM 371B or consent of instructor.
Special topics in physical chemistry.
May be repeated to a maximum of 6 units with different topics.
Lecture only (A-F). (Lecture 3 hrs.)

580/480. Biomolecular Modeling and Simulation (3)
Prerequisites: CHEM 326A or CHEM 322A, MATH 123 (may be taken concurrently), and PHYS 106G or 106A, all with a grade of C or better.
The study of biomolecular phenomena using computer-based modeling and simulation techniques with varying degrees of resolution, including development and validation of molecular models.
Lecture only (A-F). (Lecture 3 hrs.)

595A. Colloquium in Biochemistry (1)
595B. Colloquium in Organic Chemistry (1)
595C. Colloquium in Analytical, Physical and Inorganic Chemistry (1)
Prerequisite: Graduate standing or consent of instructor.
Discussion of advances as reported in recent literature. Provides experience in library use, organization, presentation, and critical evaluation of the chemical literature.
May be repeated to a maximum of 3 units (not more than a total of 3 units may be earned in any combination of CHEM 595 courses).
Lecture only (A-F). (Seminar 1 hr.)

660. Seminar in Chemistry (1)
Weekly meetings for presentation and discussion of advanced work in special fields including original research by faculty and graduate students.
Credit/No Credit grading only. (Seminar 1 hr.) May be repeated to a maximum of 2 units.

Introduction
Chicano and Latino Studies courses are designed to train students to work effectively in multicultural settings, to enhance their analytical and technological skills, and to provide them a profound understanding of the Chicano and Latino experiences in the United States. The department offers programs to serve the interests and goals of (1) those entering a variety of occupations; (2) teachers, counselors, administrators; (3) majors in other fields such as history, sociology, psychology, economics, literature, anthropology, who wish to include additional scope to their field of study.

Undergraduate Programs

Bachelor of Arts in Chicano and Latino Studies (code CHLSBA01) (120 units)
Requirements
Lower Division (6 units): Core Courses CHLS 100 or 101; and CHLS 105.
Upper Division (33 units) Core Courses (12 units required): CHLS 300, 310, 350, and 498.
Departmental Requirement: The language requirement may be met by one of the following options: 1) Two years of college Spanish; 2) Successful completion of SPAN 250 (Spanish for Bilinguals); 3) A score of 4 or above on the high school advanced placement exam in Spanish language or literature; 4) Successful completion of a proficiency exam.

Special Track
In addition to the general major in Chicano and Latino Studies, the department also offers a program for students who wish to complete a Special Track major in Chicano and Latino Studies. Within the Special Track, students may receive up to a maximum of 18 units of credit for upper division Chicano and Latino Studies related course work taken from other disciplines. Students wishing to pursue the Special Track major must develop an approved program of study in consultation with the Chicano and Latino Studies Department academic advisor.

The Special Track consists of 39 units total, 30 of which must be upper division, including the following:
Lower Division (9 units): CHLS 100, 101 and 105.
Upper Division (12 units): CHLS 300, 310, 350, 498.
Special Track: A maximum of 18 units of upper division course work from related fields, selected with the approval of the Chicano and Latino Studies Department advisor.

Language Requirement: The language requirement may be met by one of the following options: 1) Two years of college Spanish; 2) Successful completion of SPAN 250 (Spanish for Bilinguals); 3) A score of 4 or above on the high school advanced placement exam in Spanish language or literature; 4) Successful completion of a proficiency exam.

Minor in Chicano and Latino Studies (code CHLSUM01)
A prerequisite to receive this minor is proficiency in Spanish. This language proficiency requirement may be met by one of the following options: 1) Two years of college Spanish; 2) Successful completion of Spanish 250 (Spanish for Bilinguals); 3) A score of 4 or above on the high school advanced placement exam in Spanish language or literature; 4) Successful completion of a proficiency exam.

Requirements
Upper Division: a minimum of 24 units distributed as follows: 12 units of core requirements: CHLS 300, 310, 350, 496; 12 units selected from Cultural Studies courses: CHLS 315, 330, 390, 395, 341, 342, 380, 381, 420, 450, 490, 499; and Social Inquiry courses: CHLS 319, 320, 335I, 340, 352, 362, 400, 415, 421, 470I, 490, 499.

Certificate in Chicano and Latino Studies (code CHLSC01)
The Chicano and Latino Studies Department has established a program which offers students interested in this field the opportunity to pursue courses leading to a certificate in Chicano and Latino Studies. Courses used to meet this certificate requirement may be counted also, where applicable, toward the General Education requirements and the degree or credential requirements of the cooperating departments.

Requirements
1. A bachelor’s degree with a major in another discipline;
2. A minimum of 24 units distributed as follows: 12 units of core requirements: CHLS 300, 310, 315, 350, 408; 12

230 • Chicano and Latino Studies • 2009/2010 CSULB Catalog
Courses (CHLS)

**LOWER DIVISION**

1. **Writing Skills (3)**
   - Prerequisite: Students who score 147 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course.
   - Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence, and paragraph. Methods for developing and organizing ideas in coherent essays. Conventional mechanics, spelling, and grammar. Also for biculturals and ESL students.
   - Does not count toward graduation, but does count toward course load. Credit/No Credit grading only.

100. **Introduction to Chicano and Latino Studies (3)**
   - Prerequisite: or Corequisite: One course from GE category A2.
   - An introductory-level course which acquaints students with the social, political, economic, and historic aspects of the Latino experience and examines how they are reflected through various and diverse forms of cultural expression in the United States. Letter grade only (A-F).

101. **Introduction to Chicano/a and Latina/o Life (3)**
   - Examination of four themes: 1) the cultural formation and transformation of Chicano/Latina/o communities; 2) the role of women in shaping Chicano/Latina/o culture; 3) Chicano/Latina/o music and visual art; 4) Mexican and Latin American immigrants in American culture.

104. **Composition (3)**
   - Prerequisites: A recorded total score of 151 or above on the English Placement test, or credit in CHLS 1 (or its equivalent) or consent of the instructor.
   - Writing, revising, and editing non-fiction prose, with emphasis on exposition and argument. Critical reading strategies for research. Satisfies the baccalaureate degree requirement for one course in written composition in English. Also for biculturals and ESL students.
   - Not open for credit to students with credit in ENGL 100W, ENGL 100, ASAM 100, B/ST 100. Letter grade only (A-F).

105. **Identity and Assimilation in Chicano and Latina/o Life (3)**
   - Prerequisite or Corequisite: One course from GE category A2.
   - Explores, comparatively, the development of Chicano/Latino identities through a survey of social scientific, historical and literary sources from Mexican American and Latina/o regional cultures, tracing the development of societal divisions based on gender, race, ethnicity and class categories.

150. **Introduction to Chicano Literary Studies (3)**
   - Prerequisite or Corequisite: One course from GE category A1.
   - Introductory survey course in Chicano and Latino literature covering traditional and contemporary literary styles and forms from selected translated Chicano and Latino readings.
   - Letter grade only (A-F). Not open for credit to students with credit in CHLS 205.

215. **U.S. Diversity and the Ethnic Experience (3)**
   - Prerequisites: Open only to Integrated Teacher Education Program students.
   - Survey of four major ethnic groups (American Indians, African American, Latin American, and Asian-American) in American society from the colonial era to the present. Special attention to the formation and transformation of each ethnic group and their individual and collective roles in the development of the United States. Same course as AIS 319, ASAM 319, AFRS 319, and ASAM 215. Not open for credit to students with credit in AFRS 219, AIS 215, ASAM 215, B/ST 215. Departments take turns offering the course in the Fall semester. Letter grade only (A-F).

224. **Introduction to Mexican Culture through its Music (3)**
   - Prerequisite: The completion of GE Foundation requirements.
   - Covers the development of Mexican culture through its music from pre-Hispanic time to the present. The scope of the class includes the development of the relationship between Mexico’s political history, and its music.
   - Letter grade only (A-F).

230. **Chicano Community Organization (3)**
   - Analysis of Chicano community groups; emphasis on development of community organizational techniques.

250. **Introduction to Cultures of Latin America and the Caribbean through Music (3)**
   - Prerequisite: Completion of GE Foundations requirements.
   - Introduction to Latin American and Caribbean cultures through music from the pre-Hispanic era to the present. The course will focus on the historical, geographical, and political contexts of various Latin American and Caribbean musical genres.
   - Letter grade only (A-F).

**UPPER DIVISION**

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. **Chicano History (3)**
   - Prerequisite: Completion of GE Foundation requirements.
   - Focus on the development of Chicano in the Southwest and in contemporary U.S. society. Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza.
   - Letter grade only (A-F). Same course as HIST 370. Not open for credit to students with credit in HIST 370.

310. **Chicano Thought (3)**
   - Study of the ideas, philosophies and events affecting Chicano life; identification and examination of the Chicano world view, of a Chicano reality.

315. **Contemporary Indigenous Peoples of Aztec and Latin America (3)**
   - Same course as AIS 315. 319. The Ethnic Experience in the U.S. (3)
   - Prerequisite: Completion of GE Foundation requirements.
   - Examination of the dynamics of the development of our multicultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in the maintenance of cultural diversity in the United States.
   - Some course as AIS 319, ASAM 319, AFRS 319, WGST 319. Not open for credit to students with credit in AFRS 219, AIS 219, ASAM 219, WGST 219, WGST 319. (Lecture/Discussion.)

320. **Wealth and Poverty in Latino Communities (3)**
   - Introduction to the interlocking processes of creating wealth and producing poverty in the context of Latino communities in the United States. The focus will be comparative and will critically examine theories used to explain poverty and wealth.
   - Letter grade only (A-F).

2009/2010 CSULB Catalog • Chicano and Latino Studies • 231
330. Critical Issues In Chicana and Latina Studies (3)
Prerequisite: Upper division standing or consent of instructor.
Introduces students to four critical themes in contemporary Chicana and Latina feminist scholarship: (1) power and resistance; (2) the construction of work, family, and culture; (3) cultural representations/presentations; and (4) social and biological reproduction.

335L. Asian and Latino Immigration Since World War II (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examines the causes of massive Asian and Latino immigration as well as major contemporary issues in the Asian and Latino communities.
Same course as ASAM 335L. Not open for credit to students with credit in ASAM 329L. (Lecture and discussion 3 hours)

340. Latino Education in the U.S. (3)
Survey of Latinos in the U.S., including topics such as immigration, settlement patterns, employment, family, language and culture. Emphasis is on racism and the interactions of class and gender and the heterogeneity of the Latino population.
Letter grade only (A-F).

341. Asian American and Chicano/Latino Cinema (3)
Prerequisites: Completion of the Foundation courses. A team-taught course that explores connections between Asian American and Chicano/Latino cinema, with emphasis given to recurring issues presented in films within historical, literary, and cultural studies frameworks.
Same course as ASAM 341. Not open for credit to students with credit in CHLS 403 or ASAM 341.

342. Chicano, Filipinos, and Popular Cultures (3)
Prerequisites: Completion of the Foundation courses and upper-division status.
This course is a team-taught seminar that explores the historical roots of politics of expressive and cultural practices among Chicanos and Filipinos. Special attention will be paid to themes of resistance, gender, migration, imperialism, hybridity, and post-colonial identities and transformations.
Same course as ASAM 342. Not open for credit to students with credit in ASAM 342.

350. The Latino Population in the United States (3)
Prerequisite: Completion of GE Foundation requirements.
Survey of the comparative historical, transnational, cultural and socio-economic experience (including class, gender, immigration and settlement patterns) of the various Latino sub-groups in the United States.
Letter grade only (A-F). Same course as SOC 340.

352. Central American and Caribbean Peoples in California (3)
Survey of the socioeconomic conditions and cultural life of the Central American and Caribbean communities in California, such as Salvadoran, Guatemalan, Puerto Rican, and Cuban communities. Similarities and differences with the Mexican American community will be examined.
Same course as SOA 341. Not open for credit to student with credit in SOA 341.

362. Chicanas and the Law (3)
Analysis of the relationship of the Chicano to the U.S. legal and political system. Topics include traditional sociological and criminological theories of Chicano criminality, the Pachuco image, and Chicano experiences with the police and correctional institutions.
Letter grade only (A-F).

380. Chicano/Latino Theatre (3)
Prerequisite: Upper Division Status
Explores evolution of Chicanoa/Latinoa Theatre within sexual/ethnic/cultural identity context. Comprehensive analysis of theatrical texts and performance arts developed from Pre-Columbian to contemporary Chicanoa/Latinoa playwrights.

381. Chicano/Latino Studio (3)
Praxis of Chicano/Latino narrative, spoken-word and performance art within an interdisciplinary context. Stresses application of performance techniques from Pre-Columbian to contemporary Chicanoa/Latinoa playwrights and performance artists.

390. The “Hispanic” Southwest: Historical and Literary Images (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Critical, interdisciplinary examination of the portraits of Latinos in selected historical and literary texts by Euro-American authors.

395. Latino Cultural Images in Film (3)
Critical, interdisciplinary examination of selected Latino cultural traits and values as these are depicted in motion pictures, documentaries, and other film genres.

400. Chicano/a and Latina/o Politics in the U.S. (3)
Prerequisites: Upper Division Standing and completion of GE Foundation courses.
Interdisciplinary introduction to the history, theories, ideologies, strategies and public policy issues by which Chicanos and Latinos have struggled to achieve power and social mobility in the United States.
Letter grade only (A-F).

415. Latina Women in the United States (3)
Prerequisite: Junior standing or consent of instructor.
Examines cultural, political, economic, and social issues that affect Latinas. Emphasis on cultural stereotypes, class, gender, identity, sexuality, and politics of race.
Same course as WST 320.

420. Chicano Heritage in the Arts of Mexico and the Southwest (3)
Historical and philosophical analysis of Mexican and Chicano plastic arts, music and dances as a way to understand the Chicano heritage.

421. Street Gangs in Comparative Perspective (3)
Analyzes the relationships of the Chicano gangs with African American, the South East Asian, and the White street gangs across the United States. Structural forces such as proletarian socialization, patriarchal traditions, and problems revolving around gender identity are examined.
Letter grade only (A-F).

430. The Latino Transnational Experience in the Caribbean: Empire, Reform and Revolution (3)
Interdisciplinary introduction to political, economic and social processes since the Spanish American War in the Hispanic Caribbean. This course will focus on the relationships of imperialism, migration and diasporic communities in the United States.
Letter grade only (A-F).

450A. Latinas and Revolution: Central America and Late 20th Century Mexico (3)
Prerequisite/Corequisite: ENGL 100 and upper division status or consent of instructor.
Examines how war and struggles for democracy shape the social consciousness and political activism of Latinas. Uses literature, film, history, and political theory to examine the role of violence in

232 • Chicano and Latino Studies • 2009/2010 CSULB Catalog
women's lives, community organizing, and the conceptualization of a pan-Latina feminist movement.

450B. Latinas and Revolution: Caribbean, U.S. and Early 20th Century Mexico (3)
Prerequisite/Corequisite: ENGL 100 and upper division status or consent of instructor.
Examines how war, revolution, and struggles for democracy shape the social consciousness and political participation of Latinas. Uses film, literature, history, and political theory to identify differences in contexts of community struggle and points of intersection within Latina activism.
Letter grade only (A-F). Same course as WIST 445A. Not open for credit to student with credit in WIST 445A.

450L. Consequences of the Encounter: The Americas, Europe, and Africa (3)
Prerequisites: Completion of the GE Foundation requirement, completion of one or more Exploration courses, and upper division status.
Consequences of Columbus's encounter in Africa, Europe, and the Americas (1492-present). Art, Literature, and Social Sciences mesh in order to examine encounter's relation to obliteration, suppression and creation of culture in Old and New Worlds.
Same course as RGR 450L. Not open for credit to student with credit in RGR 450L.

470L. Latinas/Latinos: Health Status and Health Care Access (3)
Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing.
Interdisciplinary exploration of policies, epidemiologic, cultural factors influencing disease within Latino subpopulations, their impact upon efficient, equitable service delivery. (16 words)
Letter grade only (A-F). Same course as HCA 470L. Not open for credit to student with credit in HCA 470L.

490. Special Topics in Chicano and Latino Studies (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in Chicano and Latino Studies selected for intensive development. May be repeated for a maximum of six units in different semesters. Topics will be announced in the Schedule of Classes.

498. Senior Colloquium (3)
Prerequisite: Consent of the instructor.
Analysis of issues and problems in Chicano and Latino studies. Designed as a seminar in research and methodology. The material discussed will center about a general theme selected by the instructor.
Letter grade only (A-F). May be repeated for a maximum of 8 units in different semesters with different topics but no more than three units may be used to satisfy the requirements for the major.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Preparation of research reports on selected topics relating to the Mexican-American.
May be repeated for a maximum of six units. Letter grade only (A-F).

Career Possibilities
Child Care Administrator • Family Life Educator • Child Life Specialist • Teen Pregnancy Counselor • Child Care Educator (Infant and Toddler Care, Preschool Teaching, School-Age Programs) • Child Development Consultant • Community Resource and Referral Professional • Parent Educator • Corporate Human Service Consultant • Working with Military Families • Toy Research and Development Professional. A credential or graduate degree would expand employment opportunities to include: Social Worker • Marriage and Family Counselor • College Instructor • Teacher (For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences
The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in six option areas of study:
• Child Development and Family Studies
• Consumer Affairs
• Family and Consumer Sciences Education
• Family Life Education
• Fashion Merchandising
• Textiles and Clothing

Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is first accepted by the University.
Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this catalog.

Child Development and Family Studies

The field of Child Development and Family Studies (CDFS) strives to improve the lives of children and families. As an integrative and interdisciplinary specialization, CDFS incorporates information from a variety of disciplines to provide a comprehensive academic and professional background for working with children and families. Our primary focus is on utilizing the preventive approach to assist individuals and families with daily living.

Option in Child Development and Family Studies (code FCS_BA01) (120 units)

Biol 205 or 207 or 208; Psy 100; Soc 100 or Anth 120; CDFS 111, 211, 214 and 414 or 215 and 415, 311 or 314, 3129, 411, 413, 490A or FCS 497 or second semester of CDFS 414 or 415; CAFF 321; FGSE 209, 490; NUTR 132; plus 9 units of advisor-approved electives. The student also must select with a Child Development and Family Studies advisor’s approval 15 units from CDFS 310L, 402, 409, 410, 412, 416A, 416B, 417, 418, 419, or CDFS courses not taken above. Each course on the student’s program planner must be completed with a grade of “C” or higher. In addition, a course in which a grade lower than “C” is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a “C” may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator.

Minor in Child Development and Family Studies (code FCS_UMO06)

The Child Development and Family Studies (CDFS) minor offers the opportunity to take a concentration of courses focusing on children and families. By providing students with an aggregate of CDFS courses students will be better prepared careers relating to children and families in an array of settings.

Requirements

Students seeking a minor in CDFS must meet all prerequisite course requirements. In addition, students must maintain a “C” or better in all courses required for the minor. The minor requires 21 total units: nine units of core courses consisting of CDFS 111, 3129, and 319L and 12 units selected from CDFS 211, 214, 215, 311, 314, 409, 410, 411, 412, 413, 414, 415, and 418.

234 • Child Development and Family Studies • 2009/2010 CSULB Catalog
Family Life Education

This option is available in the Department of Family and Consumer Sciences. It was introduced in response to a certification process developed by the National Council on Family Relations (NCFR). NCFR is the leading national organization for professionals concerned with promoting and enhancing the quality of family life. NCFR sponsors the only national program to certify family life educators.

Family life education provides skills and knowledge to enrich individual and family life. Family Life Education preparation is based on the suggested guidelines and content areas outlined by NCFR. According to NCFR, there are ten substance areas that constitute family life education. These include knowledge about how families work; the interrelationship of families and society; human growth and development throughout the life span; the physiological and psychological aspects of human sexuality; the impact of money and time management on daily family life; the importance and value of parent education; the effects of policy and legislation on families; ethical considerations in professional conduct; and a solid understanding and knowledge of how to teach and/or develop curriculum for what are often sensitive and personal issues.

After completing the recommended preparatory course work in this department, it is possible to get two types of certification from NCFR.

Provisional Certification from the National Council on Family Relations (NCFR) is available to students who complete the approved courses that correspond to the ten substance areas from an approved program, but without the minimum two years of work experience.

Full Certification from the NCFR is available to students who graduate from an approved academic program and have completed at least two years of work experience as a family life educator. The work experience of the student has to be submitted, reviewed, and approved by an NCFR review committee.

This certification enables students to be employed in professional positions in family life education such as a parent educator, a family life educator in a private, government, or business setting, a coordinator for public policy issues affecting children and families, a research facilitator for programs focusing on children, adolescents, and families, developing curriculum for areas within Family Life Education, a bereavement counselor for children and families, a teen and adolescent counselor, a consultant to work with military families, a health care consultant, and work in a ministry setting.

According to NCFR, the benefits of certification for the student includes the following:

- Recognition of the high standards and criteria needed to provide quality family life education.
- Validation of the students’ education and work experience.
- Completion of the ten substance areas of family life education.
- Acknowledgment of the preventive focus of family life education.

Interested students should contact the Family Life Education Coordinator, Dr. Nifurra P. Medora, Family and Consumer Sciences (562) 985-4488 or at medora@csulb.edu

Option in Family Life Education (code FCS_BA12) (120 units)

Family Life Education in the Department of Family and Consumer Sciences provides an academic and professional background for work with children, adults, couples, and families. It offers an interdisciplinary foundation in several areas that influence and enhance the quality of life of children, adults, couples, and families based on education, enrichment, and prevention. Fieldwork opportunities where students have direct experiences with individuals and families in the community are provided for qualified students.

Requirements

- ANTH 120 or SOC 100; BIOC 205 or 207; GERN 4001 or HDEV 357; HSC 425; PSY 100; CDFS 111, 312.1, 319, 410, 411, 412, 413, 418, 419, 492B, 311 or 314, 402 or SOC 423; CAFS 321; FCSE 296, 490; NUTR 132, plus 9 units of advisor-approved electives.

Each course on the student’s program planner must be completed with a grade of “C” or higher.

In addition, a course in which a grade lower than a “C” is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a “C” may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator.

Child Development and Family Studies Courses (CDFS)

LOWER DIVISION

111. Preschool Child (3)
Behavior and development in early childhood, with emphasis on the interaction of parents, children and teachers. (Lecture-discussion 3 hours)

211. Guiding Young Children (3)
Prerequisites: PSY 100 or SOC 100 or CDFS 111.
Processes, techniques, models, research, and selected issues in child guidance as applied to 3-5 year-old children in family and community settings. Development of a personal approach to guidance based on current scientific research and theory concerning child development. (Lecture-discussion 3 hours)

214. Environments for Preschool Children (3)
Prerequisites: CDFS 111 or consent of instructor.
Introduction to preschool care-giving practices. Growth and development of preschool children relating to the classroom environment. Application of theories, models, and research to current preschool classroom practices. (Lecture-discussion 3 hours)

215. Environments for Infants and Toddlers (3)
Prerequisites: CDFS 111 or consent of instructor.
Introduction to infant and toddler care-giving practices. Growth and development of children from birth through three years of age relating to the classroom environment. Application of theories, models, and research to current infant and toddler classroom practices. (Lecture-discussion 3 hours)
219. Stress, Coping and Resiliency for the Professional Educator (3)
Prerequisites: ENGL 100.
Identification of stressors which diminish the effectiveness of the learning environment for at risk school children. Use Family Resiliency Model to examine critical family dynamics. Practical stress management for future teachers.
Letter grade only (A-F). (Lecture-Discussion 3 hours)

290. Directed Studies (1-3)
Independent study under the direction of a faculty member. Exploration and experience in areas which are not a part of any regular course.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics. (Seminar)

UPPER DIVISION

311. Prenatal Development and Infancy (3)
Prerequisites: CDFS 111 and upper division standing.
Human development from conception through prenatal development, childbirth, the neonatal period, infancy and toddlerhood with emphasis on the various aspects of development and the environmental/social factors essential for human growth.
(Lecture-discussion 3 hours)

312L. Family and Personal Development (3)
Prerequisites: Completion of G.E. foundation courses; PSY 100 or SOC 100 or ANTH 120; upper division standing; or consent of instructor.
Interdisciplinary introduction to the concepts underlying contemporary family life and the influence of social and cultural conditions on human development.
(Lecture-discussion 3 hours)

314. The Older Child (3)
Prerequisites: CDFS 111, and upper division standing or consent of instructor.
Behavior and development in middle and late childhood and adolescence, with emphasis on individual and cultural differences.
(Lecture-discussion 3 hours)

319L. Family Stress and Coping (3)
Prerequisites: Completion of G.E. Foundation courses; ANTH 120 or PSY 100 or SOC 100 or consent of instructor.
Examination of theories and research associated with stressors affecting family functioning throughout the life cycle. Consideration given to both normative transitions and non-normative stressors. Emphasis on strategies to assist families to deal productively with stress and change.
(Lecture-discussion 3 hours)

356L. Fathers and Fathering (3)
Prerequisites: PSY 100; SOC 100 or CDFS 111.
An overview of the psychological literature on parenting with an emphasis on fathers/fatherhood in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes. (This course is for both men and women.)
Same course as PSY 366. Not open for credit to students with credit in PSY 366.

402. Child and Family Law (3)
Prerequisites: CDFS 312L and upper division standing.
Establishment, conduct, and termination of marital and non-marital family relationships, including the rights and duties of the parties involved. Topics include marital dissolution, child custody issues, property rights, domestic violence, adoption, support, genetic testing, and new trends in family law.
Letter grade only (A-F). (Lecture-discussion 3 hours)

409. Language, Learning and the Developing Child: A Cross-Cultural Perspective (3)
Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process.
Letter grade only (A-F). Not open for credit to students currently enrolled in the Liberal Studies program. Same course as EDEL 429. Not open for credit to students with credit in LING 429, EDEL 429, and EDP 428.

410. International Families: Families in Cross-Cultural Perspectives (3)
Prerequisites: CDWS 312L or consent of instructor.
Basic concepts and definitions relating cross-cultural studies will be discussed. Important family life cycle changes will be explained for major ethnic groups within the United States. Family life in selected international families will also be examined.
(Lecture-discussion 3 hours)

411. Individual Child Study and Guidance (3)
Prerequisites: Upper division standing; CDWS 311 or 314 or HDEV 307 or PSY 364; or consent of instructor.
Analysis and interpretation of theory, research, trends and techniques for the study and guidance of the individual child in family and community settings.
(Lecture-discussion 3 hours)

412. Family Interaction (3)
Prerequisites: Upper division standing, CDWS 312L, or consent of instructor.
Dynamics of interaction and communication in interpersonal relationships throughout the family life cycle. Experience with a variety of communication skills in small group settings.
(Lecture-discussion 3 hours)

413. Child and Family in the Community (3)
Prerequisites: Upper-division standing, CDWS 312L, or consent of instructor.
Study of cultural variables and the needs of the contemporary American family in an urban community. Analysis of current issues and problems; identification of and experience with community resources and agencies.
(Lecture-discussion 3 hours)

414. Fieldwork with Preschool Children (3)
Prerequisites: CDWS 111, 211, 214, or consent of instructor.
Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation.
May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours)

415. Fieldwork with Infants/Toddlers (3)
Prerequisites: CDWS 111, 211, 215, or consent of instructor.
Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation.
May be repeated to a maximum of 6 units in different semesters with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours) Letter grade only (A-F)

416A. Introduction to Administration and Supervision of Child Development Programs (3)
Prerequisites: CDWS 414 or 415 or consent of instructor.
Minimum and recommended standards and laws pertaining to licensing, equipment, play space, child/child ratio, health supervision and meal service for children's programs. Selection and supervision of personnel, program planning and directing.
(Lecture-discussion 3 hours)

236 • Child Development and Family Studies • 2009/2010 CSULB Catalog
416B. Applications of Administration and Supervision of Child Development Programs (3)
Prerequisites: CDFS 416A or consent of instructor.
Decision theory and its application, communication strategies, planning, operating and evaluating programs for young children. (Lecture-discussion 3 hours)

417. Premarital Intervention (3)
Prerequisites: CDFS 312B or consent of instructor.
Review of research on dating relationships and intervention programs designed for individuals or couples prior to marriage. Emphasis on applying research to the development of programs to assist premarital individuals enrich their relationships. (Lecture-discussion 3 hours)

418. Parent Education (3)
Prerequisites: Upper-division standing and at least 6 units of upper-division child development and family studies or equivalent course, or consent of instructor.
Principles and techniques for working with parents in community and school programs. Assessment of needs and development of programs for adults in a variety of social and cultural settings. (Lecture-discussion 3 hours)

419. Family Life Education (3)
Prerequisites: Upper-division standing, CDFS 413, or consent of instructor.
History, purpose, principles, ethics, ten substance areas, and paradigms of family life education will be explored. Planning, implementing, and evaluating family life education programs will be discussed. Gender, ethnicity, and diversity issues related to family life education will be stressed. Letter grade only (A-F). (Lecture-discussion 3 hours)

492A. Internship in Child Development and Family Studies (3)
Prerequisites: Student must be a Family and Consumer Sciences: Child Development and Family Studies major, have senior standing, have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and CDFS 411, 413, and 414 or 415. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation. May be repeated for 6 units maximum. (Seminar 3 hours)

492B. Internship in Family Life Education (3)
Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Child Development and Family Studies; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and CDFS 412, 413, and 419.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation. May be repeated for 6 units maximum. (Seminar 3 hours)
CHINESE STUDIES
College of Liberal Arts
Department of Asian and Asian American Studies

Department Chair: John N. Tsuichida
Vice Chair: Hsin-sheng C. Kao
Department Office: Faculty Offices FC3-340
Telephone: (562) 985-4645
Fax: (562) 985-1525
Center: Center for Asian Pacific American Studies
Website: http://www.csulb.edu/dept/as

Faculty: Masako O. Douglas, Linda N. España-Maram, San-pao (Emeritus) Feng Ying Ming, Hiroko Katozaka, Hsin-sheng C. Kao, Barbara W. Kim, Dean S. Toi, John N. Tsuichida, Tianwei Xie, Tori Yamada

Advisors: Graduates: Linda N. España-Maram
Undergraduate: Dean S. Toi (Asian American Studies), Hsin-sheng C. Kao (Asian Studies and Chinese Studies), Hiroko Katozaka (Japanese)

Associate Faculty: Christine Bhat (Educational Psychology, Administration and Counseling), Jeffrey Broughton (Religious Studies), Kendall Brown (Art History), Chi-Ah Chun (Psychology), Vincent Del Casino (Geography), Frank Giosetti (Geography), Liss Grober (Economics), Sarah Gunatilleke (Health Science), Jack W. Hsu (Economics), M. Kuo (History), Xiaoning Liang (Linguistics), William Mulligan (Journalism), Kim Oanh Nguyen-Lam (CLMER), Jyotna Pathnik (Teacher Education), Karen Quintilliani (Anthropology), George Scott (Anthropology), Oliver Wong (Sociology), R. Scott Wilson (Anthropology), Teresa Wright (Politics)

Administrative Support Coordinator: Chad Tsurutaki

Students desiring information should contact department office for referral to one of the faculty advisors.

Career Possibilities

Customs Inspector • Immigration Officer • Importer/Exporter • Foreign Service Officer • International Marketing Representative • Travel Guide • Social Worker • Linguist • Foreign Correspondent • Community Organization Worker • Lawyer • Librarian • International Student Advisor • Educator • Peace Corps Worker • Interpreter • Translator • CIA/ FBI Agent (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Arts in Chinese Studies (code A/VSTA02) (120 units)

The Bachelor of Arts program in Chinese Studies at CSULB is designed to provide students with linguistic and cultural preparation, supported by international perspectives and understanding of humanities for personal, socio-political, and literary-intellectual development, as well as for economic self-sufficiency in the ever-interwoven world of a global economy. The degree program is a major intended to educate and produce graduates who will have communicative proficiency, critical thinking skills, socio-cultural understanding, and literary sensibility for intercultural communication. The degree program will also provide students with an opportunity and preparation to pursue a career involving the Pacific Rim nations, and to go on to graduate and professional programs in fields such as Art, International Affairs, Business Administration, History, Literature, Law, Journalism, Public Administration, or Education.

Residence Requirement for the Majors

At least four upper division courses required for the major must be completed successfully at CSULB. Students are encouraged, however, to complete up to 2 years of their language study in approved programs of study abroad.

Requirements

A minimum of 38 units is required, including at least 15 units earned in residence at CSULB. CHIN 101 and 102 are prerequisite to the major and may be satisfied by appropriate high school preparation or by examination.

Required courses include a 3-unit lower division course, 20 units of core courses, and 15 units of electives from the following two groups: 1. Chinese and Chinese language-, literature-, or culture-related courses (9 units); and 2. China-related courses (9 units).

Lower Division Required Courses (11 units): 1. 3 units required course: CHIN 250 or 260 2. 8 units core courses: CHIN 201, 202

Chinese Studies (CHIN)

LOWER DIVISION

101. Fundamentals of Chinese (4)

Prerequisites: One GE Foundation course which may be taken concurrently, or formal prerequisites and/or competency equivalent for CHIN 101.

Introduction to pronunciation, reading, writing, conversation, and grammar.

Students with previous training or native speakers of Chinese may not enroll.
102. Fundamentals of Chinese (4)
Prerequisites: One GE Foundation course which may be taken concurrently, or formal prerequisites and/or competency equivalent for advanced study in Chinese.
Introduction to pronunciation, reading, writing, conversation, and grammar.
Students with previous training or native speakers of Chinese may not enroll.

111. Accelerated Chinese for Heritage Students I (4)
Prerequisites: One GE Foundation course (may be taken concurrently), and speaking ability of Mandarin Chinese or any of the Chinese dialects. Students who had formal studies of Chinese in China or other Chinese speaking areas may not enroll.
Focus on Chinese literacy and culture and developing reading and writing skills in context for heritage students.
Equivalent to combination of CHIN 101 and 102. Letter grade only (A-F).

201. Intermediate Chinese (4)
Prerequisites: Completion of GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Chinese.
Continuation of first-year Chinese. Further development of syntax, grammar and sentence patterns, reading, writing and conversation.
Students with previous training or native speakers of Chinese may not enroll.

202. Intermediate Chinese (4)
Prerequisites: Completion of GE Foundation requirements, or formal prerequisites and/or competency equivalent for advanced study in Chinese.
Continuation of first-year Chinese. Further development of syntax, grammar and sentence patterns, reading, writing and conversation.
Students with previous training or native speakers of Chinese may not enroll.

211. Accelerated Chinese for Heritage Students II (4)
Prerequisites: CHIN 111 or speaking ability of Mandarin Chinese (or at least one of the Chinese dialects) and the ability to recognize approximately 500 Chinese characters. Students who had formal studies of Chinese in China or other Chinese speaking areas may not enroll.
The focus of the course is on Chinese literacy and culture, and further development of reading and writing skills in context for heritage students.
Equivalent to the combination of CHIN 201 and 202. Students completing this course may take the third year Chinese courses. Letter grade only (A-F).

250. Introduction to the I-Ching (3)
Prerequisites: Completion of GE Foundation requirements.
Focus on central position of the I-ching in Chinese philosophical and spiritual life, and provide a system of knowledge to analyze and reason the pattern of changes governed by the immutable Law of Change.
Lectures in English, no knowledge of Chinese required. Letter grade only (A-F).

260. Introduction to Chinese Civilization (3)
Thematic survey of various aspects of Chinese civilization from its beginning to the present. Emphasizes not only the understanding of China's history but also the cultural elements that make China a great and distinctive country.

UPPER DIVISION
General Education Category A must be completed prior to taking any upper division course except upper division language courses where students need formal prerequisites and/or competency equivalent for advanced study.

301. Advanced Chinese (3)
Prerequisites: CHIN 202 or its equivalent, or consent of the instructor.
Study of modern spoken and written Chinese involving advanced expressions. Emphasis on reading, comprehension, vocabulary building and idiomatic usage.

302. Advanced Chinese (3)
Prerequisites: CHIN 301 or its equivalent, or consent of the instructor.
Study of modern spoken and written Chinese involving advanced expressions. Emphasis on reading, comprehension, vocabulary building and idiomatic usage.

311. Advanced Spoken Chinese (3)
Prerequisite: CHIN 202 or its equivalent as determined by the instructor.
Advanced study in modern spoken Chinese and Chinese conversation. Designed to enhance advanced speaking ability in Mandarin on a range of topics.
Letter grade only (A-F).

321. Chinese Calligraphy (3)
Prerequisites: Consent of instructor. Completion of first-year Chinese or Japanese language or equivalent preferred.
Focuses on the history, development, artistry, and appreciation of Chinese calligraphy. Equal emphasis placed on hands-on practice in and outside of the classroom.

350. Business Chinese for Bilinguals (3)
Prerequisites: Native proficiency in the Chinese language or consent of instructor.
Introduction of written business forms and exploration of business culture, practice, and etiquette. Students must have reading and writing ability in Chinese for general purposes.

360. Classical Chinese (3)
Prerequisites: CHIN 202 or equivalent Chinese reading proficiency or bilingual students.
Study of the basic vocabulary, grammatical structure, and style of classical Chinese. Introduction to various genres of classical literature: prose, poetry and other literary forms.

370. Chinese Literature in English Translation (3)
Prerequisite: Completion of GE Foundation requirements.
Readings in translation of representative works of the major literary genres in China covering both the classical and the modern periods. Previous knowledge of the language is highly desirable, but not necessary.

375. The Supernatural and Fantastic in Chinese Literature (3)
Prerequisite: Upper Division standing or consent of instructor.
Study of the supernatural and fantastic elements that commonly comprise a variety of Chinese shizhu genres from the Six Dynasties (317-581) to the present. Samples of representative works will be examined in depth from the textual and intertextual perspectives.

380. Topics in Chinese Linguistics (3)
Prerequisites: CHIN 102 or equivalent.
Chinese language viewed in its linguistic context, synchronically and diachronically. Introduction to descriptive grammar of modern standard Chinese, classical Chinese, the rise of written vernacular, dialect variations and sociolinguistic issues. Lecture/discussion.
Lectures/discussion.

382B. Modern China (3)
Prerequisite: Completion of the GE Foundation. Chinese society from the 17th century to 1949.
Not open for credit to students with credit in HIST 482B.

2009/2010 CSULB Catalog • Chinese Studies • 239
390. Topics in Chinese Cultural Studies (3)
Prerequisite: Upper-division standing or consent of instructor. Interdisciplinary study of representative features of contemporary Chinese culture and society.
May be repeated to a maximum of 6 units with different topics.

410/510. Chinese Information Processing (3)
Prerequisite: CHIN 202 or equivalent. May be waived with instructor’s consent.
Introduction to the fundamentals of Chinese web design, including word-processing, HTML, layout, and user interaction.
May be repeated to a maximum of 8 units with different topics.
Undergraduates register in CHIN 410; Graduates register in CHIN 510.

421. News paper and Web Reading (3)
Prerequisite: CHIN 302 or equivalent, or consent of instructor.
The course enhances students’ proficiency in Chinese through reading newspapers. Students will familiarize themselves with all aspects of Chinese culture and contemporary society, as well as the language use. A hybrid course. Letter grade only (A-F).

430A/530A. Classical Chinese Fiction (3)
Prerequisite: Upper-division standing or consent of instructor.
Study and examination of traditional Chinese fiction, ranging from major works of fiction from the Six Dynasties (317-588) through the Qing Dynasty (1644-1911).
Undergraduates register in CHIN 430A; graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

430B/530B. Classical Chinese Drama (3)
Prerequisite: Upper-division standing or consent of instructor.
Study and examination of Yuan (1279-1358) and Ming (1368-1644) drama, ranging from major works of Northern Drama (Zaju) and Southern Drama (Nanju) to Peking Opera (Jingju).
Undergraduates register in CHIN 430B; graduates register in CHIN 530B. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

430C/530C. Classical Chinese Poetry (3)
Prerequisite: Upper-division standing or consent of instructor.
Study and examination of traditional Chinese poetry, ranging from major poetic works from antiquity to Qing Dynasty (1644-1911). Textual analysis and literary interpretation are emphasized.
Undergraduates register in CHIN 430A; graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

451/551. Chinese Culture and Tradition (3)
Prerequisite: One China-related course in Asian Studies or History and CHIN 302 (Advanced Chinese) or equivalent proficiency.
Designed as a capstone language class. Instruction of this class is in Mandarin.
Undergraduates register in CHIN 451; graduates register in CHIN 551.

461/561. The Structure of Modern Chinese Language (3)
Prerequisite: CHIN 301 or equivalent or by consent of instructor.
The Chinese language viewed in its linguistic context, synchronically and diachronically. Introduction to descriptive grammar of modern standard Chinese, the rise of written vernacular, dialect variations and sociolinguistic issues.
Letter grade only (A-F).

462/562. Contrastive Analysis of Chinese and English (3)
Prerequisite: CHIN 302 or equivalent. Designed for students who plan to teach the Chinese language or do research in Chinese linguistics. Comparison of phonological, morphological, syntactic and discourse aspects of English and Chinese. Analysis of common errors in learning Chinese. Letter grade only (A-F).

471/571. Chinese Literature and Culture (3)
Prerequisite: CHIN 451, or minimum of 3 years of Chinese study, or consent of instructor.
This course will enhance students’ proficiency in Chinese through reading Chinese literature and culture-related topics with in-depth examination of representative works from linguisitc, literary, textual, and intertextual perspectives.
Letter grade only (A-F).

475/575. Reading of Chinese Communist Documents (3)
Prerequisites: CHIN 451 or consent of instructor.
Advanced Chinese language course designed to develop students’ ability to understand and analyze the newspaper editorials, documents of the Chinese Communist Party and government and works of its leaders in original Chinese text.

481/581. Principios and Practice of Teaching Chinese (3)
Prerequisite: CHIN 461/561 or consent of instructor.
Designed for students planning to become Chinese language teachers. Single Subject Credential program students or graduate students in Asian Studies or Linguistics. Preparatory text to be a Chinese teacher at all levels. Lectures, discussions, class observation and teaching preparation.
Letter grade only (A-F).

485/585. Masterpieces from China (3)
Prerequisites: Instructor’s consent.
Reading of major works from China in Chinese. Selected writings represents different periods of Chinese history, thoughts, and literary traditions. Course conducted in Chinese. May be repeated to a maximum of 6 units. Undergraduates register in CHIN 485; Graduate register in CHIN 585.

490/590. Special Topics in Chinese (3)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 6 units with different topics.
Undergraduates register in CHIN 490; Graduate register in CHIN 590.

492/592. Senior Seminar (3)
Prerequisite: One China-related course in Asian Studies or History and CHIN 302 (Advanced Chinese) or equivalent proficiency.
Introduction to research methods and study of conceptual and theoretical Chinese issues.
May be repeated to a maximum of 6 units with different topics.
Undergraduates register in CHIN 492; Graduate register in CHIN 592.

499/599. Directed Studies in Chinese (1-3)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 6 units with different topics in different semesters.

GRADUATE LEVEL

510/410. Chinese Information Processing (3)
Prerequisite: CHIN 202 or equivalent. May be waived with instructor’s consent.
Introduction to the fundamentals of Chinese web design, including word-processing, HTML, layout, and user interaction.
May be repeated to a maximum of 5 units with different topics.
Undergraduates register in CHIN 410; Graduates register in CHIN 510.

530A/430A. Classical Chinese Fiction (3)
Prerequisite: Upper-division standing or consent of instructor.
Study and examination of traditional Chinese fiction, ranging from major works of fiction from the Six Dynasties (317-588) through the Qing Dynasty (1644-1911).
Undergraduates register in CHIN 430A; graduates register in CHIN 530A. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

330B/430B. Classical Chinese Drama (3)
Prerequisite: Upper division standing or consent of instructor.
Study and examination of Yuan (1279-1368) and Ming (1368-1644) drama, ranging from major works of Northern Drama (Beijing) and Southern Drama (Nanjing) to Peking Opera (Lingxi).
Undergraduates register in CHIN 430B; graduates register in CHIN 530B. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

530C/430C. Classical Chinese Poetry (3)
Prerequisite: Upper division standing or consent of instructor.
Study and examination of traditional Chinese poetry, ranging from major poetic works from antiquity to Qin Dynasty (1644-1911). Textual analysis and literary introspection are emphasized.
Undergraduates register in CHIN 430C; graduates register in CHIN 530C. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

551/451. Chinese Culture and Tradition (3)
Prerequisite: One China-related course in Asian Studies or History and CHIN 302 (Advanced Chinese) or equivalent proficiency.
Designed as a capstone language class. Class instruction is conducted in Mandarin. Undergraduates register in CHIN 451; graduates register in CHIN 551.
Undergraduates register in CHIN 451; graduates register in CHIN 551.

561/461. The Structure of Modern Chinese Language (3)
Prerequisite: CHIN 301 or equivalent or by consent of instructor.
The Chinese language viewed in its linguistic context, synchronically and diachronically. Introduction to descriptive grammar of modern standard Chinese, the role of written vernacular dialect variations and sociolinguistic issues.
Letter grade only (A-F).

562/482. Contrastive Analysis of Chinese and English (3)
Prerequisite: CHIN 302 or equivalent. Designed for students who plan to teach the Chinese language or do research in Chinese linguistics. Comparison of phonological, morphological, syntactic and discourse aspects of English and Chinese. Analysis of common errors in learning Chinese. Letter grade only (A-F).

571/471. Chinese Literature and Culture (3)
Prerequisite: CHIN 451, or minimum of 3 years of Chinese study, or consent of instructor.
This course will enhance students' proficiency in Chinese through reading Chinese literature and culture-related topics with in-depth examination of representative works from Chinese, literary, textual, and intertextual perspectives.
Letter grade only (A-F).

575/475. Reading of Chinese Communist Documents (3)
Prerequisites: CHIN 451 or consent of instructor.
Advanced Chinese language course designed to develop students' ability to understand and analyze the newspaper editorials, documents of the Chinese Communist Party and government and works of its leaders in original Chinese text.

581/481. Principles and Practice of Teaching Chinese (3)
Prerequisite: CHIN 461/461 or consent of instructor.
Designed for students planning to become Chinese language teachers. Single Subject Credential program students or graduate students in Asian Studies or Linguistics. Prepares the student to be a Chinese teacher at all levels. Lectures, discussions, class observation and teaching preparation.
Letter grade only (A-F).

585/485. Masterpieces from China (3)
Prerequisites: Instructor's consent.
Reading of major works from China in Chinese. Selected writings represent different periods of Chinese history, thought, and literary tradition. Course conducted in Chinese.
May be repeated to a maximum of 6 units. Undergraduates register in CHIN 485; Graduate register in CHIN 585.

590/490. Special Topics in Chinese (3)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 6 units with different topics. Undergraduates register in CHIN 490; Graduate register in CHIN 590.

592/492. Senior Seminar (3)
Prerequisite: One China-related course in Asian Studies or History and CHIN 302 (Advanced Chinese) or equivalent proficiency.
Introduction to research methods and study of conceptual and theoretical Chinese issues.
May be repeated to a maximum of 6 units. Undergraduates register in CHIN 492; Graduate register in CHIN 592.

599/499. Directed Studies in Chinese (1-3 units)
Prerequisites: Consent of Instructor.
Independent study under supervision of a faculty member.
May be repeated to a maximum of 6 units with different topics in different semesters.
CIVIL ENGINEERING AND CONSTRUCTION ENGINEERING MANAGEMENT
College of Engineering

Department Chair: Emilinda M. Parentela
Department Office: Vivian Engineering Center (VEC) - 104
Telephone: (562) 985-9118
Website: www.csulb.edu/colleges/coel/com/
Undergraduate Advisers: Antonella Boicattino (CE), Teddi Golton (CEM), Tang-Hung Nguyen (CEM), Tang Shohab-Edison (CE/CEM)
Graduate Advisor: Jeremy Redman
General Education Advising: Academic Advising: Horn Center
Administrative Support Coordinator: Amanda Peron

Students desiring detailed information about Civil Engineering or Construction Engineering Management programs should contact the department office for referral to one of the faculty advisors.

Career Possibilities
Civil Engineer • Traffic Engineer • Sanitary Engineer • Structural Engineer • Hydraulic Engineer • Highway Administration Engineer • Harbor Engineer • Airport Engineer • Environmental Engineer • Transportation Engineer • Drainage Design Coordinator • Technical Sales and Consulting • Field Engineer • Facilities Engineer • Plant Engineer • Project Engineer • Safety Engineer • Sales Representative • Estimator • Construction Coordinator • Procurement Construction Coordinator • Construction Inspector • Cost Analysis Coordinator • Contract Coordinator • Consultant (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Undergraduate Programs

Bachelor of Science in Civil Engineering
The Civil Engineering Program provides students with a broad educational background essential to modern civil engineering practice and research. The program is built around a basic core of mathematics, natural and engineering sciences common to accredited professional engineering programs. It is planned to give a selection of basic engineering-science and design education to enable the graduate to begin a career in any of the various fields of practice in civil engineering or to prepare for graduate study in related engineering majors. It makes possible a systematic and integrated foundation in the principles of structural analysis and design, transportation systems, environmental systems, geotechnical engineering, water resources engineering, materials, construction engineering management, and information technology. Opportunity to explore a particular area of interest is offered in the wide selection of civil engineering design electives to permit students a sequence of courses related to the area of their choice.

Bachelor of Science in Construction Engineering Management
The Bachelor of Science in Construction Engineering Management (CEM) program provides students with essential technical, managerial, and communication skills required for various CEM positions in the construction industry. It provides a learning environment that incorporates the industry needs while preparing students to successfully perform different CEM responsibilities in construction. The CEM program stresses three major emphases: Design-Build, Facility Management, and Heavy Construction; from which students have the option to select one for their specialty interest. The program is designed to accommodate both freshmen and transfered students, who previously earned credits from other colleges. Graduates of the CEM program usually find various, but not limited to, employment such as project engineer, project managers, project schedulers, cost estimators, facility managers, quality inspectors, or managing their own construction firms.

Advisory and Development Council
The Department of Civil Engineering and Construction Engineering Management is supported by two Advisory and Development Councils:

The Civil Engineering Advisory and Development Council
The Advisory Council consists of outstanding engineers and executives from industry and government in Southern California. Its function is to form a liaison between the University and Industry and to keep the administration and faculty informed of modern engineering practices. This ensures that the curricula are kept up-to-date. It also advises on placement opportunities before and after graduation.

Construction Engineering Management Advisory and Development Council
The advisory council, composed of leaders actively engaged in areas of construction with which the programs are concerned, continually provides information and guidance about industrial developments in methods, materials and techniques so that the programs reflect the best of current practices. The members examine various aspects of the programs and make recommendations in course content, methods and/or facilities. Present membership in the council is made up of representatives from the different sectors of the construction industry.

242 • Civil Engineering • 2009/2010 CSULB Catalog
ABET Accreditation

The Bachelor of Science in Civil Engineering is accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET) (Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website: http://www.abet.org). Students enrolling in this program are strongly advised to meet with their undergraduate advisor as early as possible to become familiar with the details of the ABET requirements in math/sciences, humanities and social sciences areas, engineering sciences, and design.

Bachelor of Science in Civil Engineering (code CE__BS01) (131 units)

Mission

To educate and prepare students to succeed in the civil engineering profession by providing them with essential technical tools and skills which will enable them to perform current and future civil engineering tasks and to promote the need for lifelong learning.

Educational Objectives

The Civil Engineering Program Educational Objectives are to produce graduates, who after entering the civil engineering practice with a knowledge of fundamental civil engineering principles, current technologies and tools, communication skills and practical design experience, will:

1. Pursue lifelong learning through continuing education and advanced degrees in civil engineering or other related fields.
2. Progress to professional registration.
3. Continue to develop professionally through participation in professional organizations and/or participation in professional development activities in the industry.
4. Progress to management and/or other leadership positions in their fields.

Requirements

Minimum of 131 units required.

Lower Division: CE 101; ENGR 101 and 102; BIOL 200 or MIRC 200; CHEM 111A; CE 130, 130L, 200, 205, 206, 207; MATH 122, 123, 224; MAE 172; PHYS 151, PHYS 152 (or EE 210 and 210L).

Upper Division: GEOL 370; CE 335, 345, 346, 359, 364, 406, 407, 426, 437, 459, 481, 490; ECON 300; MATH 370A; MAE 330, 371, 373

Six units of technical design electives from: CE 427, 438, 445, 456, 457, 466, 469; two laboratories from: CE 336, 369, 430, 491, MAE 374; three units of technical electives from CE 429, 429, 435, 446, 458.

A grade of "C" or better must be achieved in all required courses listed below.

CHEM 111A, MATH 122, MATH 123, MATH 224, MATH 370A, BIOL 200, PHYS 151, ECON 300, MAE 172, MAE 373, CE 130, 200, 205, 206, 335, 345, 359, 406, 459 and 490.

Bachelor of Science in Construction Engineering Management (code ET__BS01) (130 units)

Mission

The Mission of the Construction Engineering Management program is to educate and prepare students to succeed in the construction engineering management profession by providing them with essential technical, managerial and communication skills and tools which will enable them to perform current and future construction engineering management tasks and to promote the need for lifelong learning.

Educational Objectives

The Construction Engineering Management program educational objectives are to produce graduates, who after entering the construction engineering management practice with a knowledge of fundamental construction engineering management principles and current technologies, communication skills and practical construction experience, will:

1. Provide substantial contributions to the construction industry.
2. Pursue lifelong learning through advanced education and/or advanced degrees in construction engineering management or other related fields.
3. Continue to develop professionally through participation in professional organizations and/or participation in professional development activities in the industry.
4. Progress towards professional certifications.

Requirements

Lower Division: CE 101, 130, 130L, ENGR 101, 102; MATH 122, PHYS 100A and B, CEM 121, 125; CEM 201 or ACCT 201; CEM 202, 204, 205, 225, 200, 200L.

Upper Division: CEM 300L, 304, 310, 315, 320, 324, 335, 335L, 345, 365, 375, 404, 421, 425, 426, 427, 429, 431, 438, 485, 490, CE 406; ECON 300; MGMT 300.

A grade of "C" or better must be achieved in all required courses listed below.

Phys 100A and B, MATH 122, CEM 121, 125, 200, 201, 202, 204, 205, 225, 300L, 304, 315, 310, 324, 335, 335L, 365, 373, 374, 421, 425, 426, 427, 429, 431, 432, 433, 476, 495, CE 406, MGMT 300.

Upper Division Elective Courses: Plus six units of approved electives selected in consultation with an advisor from:

1. Design-build Emphasis: CEM 373, 374, 409, 423, 443
2. Facility Management Emphasis: CEM 409, 432, 433, 434, 436
3. Heavy Construction Emphasis: CEM 409, 423, 476, 486

Fieldwork Requirements

Fieldwork experience is required for the BS in Construction Engineering Management, consisting of no less than three months full-time (or equivalent part-time) of employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed two years of college. The fieldwork must be completed prior to graduation, be certified and approved by the faculty of the Department.
Waste Engineering and Management Certificate (code CE_CT01)
The 24-unit Certificate Program in Waste Management is designed to provide the interested student or qualified practitioner with the very latest in education and training in the field of management of waste as well as related resource and energy recovery. The program is conducted in cooperation with local engineering consulting firms and government agencies and could accommodate an internship of three units through directed study (CE 697).

The 24-unit certificate program may be taken (1) by a graduate as a matriculated student, (2) admitted to a CSULB graduate degree program, or admitted as an unclassified graduate student.

Regardless of how the program is taken, a grade of “C” or better must be obtained in all courses applied to the certificate, with an overall G.P.A. of 3.0. Courses taken on Credit/No Credit or Audit basis will not apply to the certificate. Graduate students taking courses in this program are reminded that grades received will be included in calculations of the M.S. requirement.

Requirements
1. Completion of an accredited baccalaureate degree in engineering or a related scientific discipline, with appropriate prerequisites to be met.
2. Satisfactory completion of 24 units which must include 15 units selected from C E 543, Public Policy and Administration 580 (Waste Management and Policy Regulation), a minimum of nine units (electives) selected from the following: C E 504, 562, 563, 564, 566, 567; CH E 555, and 585. At least one course should normally be from non-Civil Engineering offerings.
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).
4. Filing of a program application card with Admissions and Records, and filing for the Certificate at least one semester prior to completion.

Facilities Operations Certificate (code ET_CT01)
Advisor - Testa Gottom (Civil Engineering)
Department Office - VEC 301
Telephone - (562) 985-8030

The Certificate Program in Facilities Operations is designed to qualify the graduate to serve in plant engineering, industrial construction coordination, facilities development and design, plant layout, and facilities project management. Examples of the myriad positions available to the graduate of this program include facilities planner, construction supervisor, facilities or plant supervisor, facilities project analyst, and facilities designer analyst.

This program provides the Facilities Operations graduate with a depth of technical knowledge in facilities operations-oriented technical courses, as well as the knowledge of behavioral sciences essential for managing technical functions.

Requirement
1. The Certificate in Facilities Operations may be earned concurrently with or subsequent to the baccalaureate degree.
2. This program is open to all majors who have fulfilled the prerequisites as stated below.
3. The program requires a total of 25 units as specified below.
   A. The completion of supporting technical courses chosen in consultation with an advisor.
   B. 25 units are required from the following courses: C E 410 or ET 410, C E M 121, 320, 374, 409, 431, 432, 433, 434, 435.
4. Any deviation from this program requires the written permission of the program advisor.

GRADUATE PROGRAMS

Master of Science in Civil Engineering (code CE_MS01)
Prerequisites
1. A bachelor’s degree in an accredited curriculum in civil engineering; or
2. A bachelor’s degree in engineering, a natural science or other appropriate discipline with the requirement that essential undergraduate prerequisites in civil engineering be satisfied with a minimum GPA of 2.7 in the last 60 semester units attempted;
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.

Advancement to Candidacy
1. Removal of all undergraduate deficiencies as determined by the Department Graduate Studies Committee;
2. Completion of at least 12 graduate units at CSULB; minimum GPA of 3.0; currently enrolled;
3. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

Requirements
Completion of a minimum of 30 units beyond the bachelor’s degree and graduate coursework as follows:
1. A minimum of 24 units in engineering, probability and statistics and mathematics courses with 18 units of 500-600-level courses in Civil Engineering. Within these 18 units a student may include six units of CE 698 or three units of CE 697; Students are required to complete successfully either CE 697 or CE 698;
2. Six units of electives selected from approved upper-division or graduate courses in appropriate subjects;
3. Fulfill one of the following alternatives:
   I - Write and present orally a thesis to be approved by the thesis committee;
   II - Pass a written comprehensive examination on coursework in the student’s program.
Civil Engineer Degree (code CE_CE01)

The program leading to the Civil Engineer degree offers the qualified student professionally oriented courses with greater concentration in civil engineering than is required by the master of science in civil engineering. This program encourages appropriate advanced studies in other disciplines of the university.

Prerequisites
1. A master of science degree in civil engineering from an accredited institution with a minimum GPA of 3.5, or
2. A bachelor of science degree in civil engineering from an accredited institution with a minimum GPA of 3.0, or
3. A bachelor of science degree in engineering, mathematics, physical sciences or other appropriate disciplines from an accredited institution with a minimum GPA of 3.0 with the requirement that essential undergraduate prerequisites in civil engineering will be satisfied prior to commencing the student's civil engineering degree program;
4. The graduate student must consult with the graduate advisor and Civil Engineering graduate brochure for information concerning departmental procedures and requirements and for appropriate approvals of the course of study prior to enrolling in courses in the student's graduate program.

Exceptional cases not meeting the above minimum GPA may be considered by the Department Graduate Studies Committee.

Advancement to Candidacy
1. A Department Graduate Studies Committee, consisting of the graduate student's advisor and at least two other faculty members, will be responsible for the formulation and supervision of each individual graduate student's program;
2. The committee shall determine candidacy admission, and requirements as to removal of undergraduates and/or graduate prerequisite deficiencies;
3. Prior to determining advancement requirements the committee may, at its discretion, require the student to take an examination in the chosen area.

Requirements
1. Completion of a minimum of 60 units beyond the bachelor's degree and graduate courses, approved by the student's Department Graduate Studies Committee including:
   A. A minimum of 36 units of 500- and 600-level civil engineering courses including a thesis of nine units to be written and presented orally;
   B. Twenty-four units of 400-, 500- and 600-level approved electives.
2. No more than 30 units completed before advancement to candidacy may be used in completing the requirements for the CE degree.

Courses (C E)

LOWER DIVISION

101. Introduction to Civil Engineering and Construction Engineering Management (1)
Civil engineering and construction engineering management as a profession. Current trends and challenges, ethical, social, and environmental issues in professional practice. Professional organizations and licensure. Communication and lifelong learning skills for professional practice.
Letter grade only (A-F). (Lecture-problems 1 hour)

130. Surveying and Mapping (1)
Corequisites: CE 130L and MAE 172 or CEM 121.
Letter grade only (A-F). (Lecture-Problems 1 hour)

130L. Surveying and Mapping Laboratory (1)
Corequisite: CE 130.
Fundamentals of surveying methods as applied to construction layout. Use of level and total station for location and control of structures, vertical and horizontal control, and area determination.
Letter grade only (A-F). Not open for credit to students with credit in CE 131. (Laboratory 3 hours)

200. Materials for Civil Engineering (2)
Prerequisites: CHEM 111A and PHYS 151 and consent of department undergraduate advisors.
Basic properties of materials in civil engineering, including concrete, masonry, steel, wood, asphalt and composites.
Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours)

205. Analytical Mechanics I (Statics) (3)
Prerequisite: PHYS 152. Prerequisite/Corequisite: MATH 123.
Application of the mechanics of equilibriums to force systems using analytical and graphical solutions of problems involving structures and machines.
Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

206. Computer Programming and Civil Engineering Applications I (2)
Prerequisites: MATH 122, PHYS 151.
Introduction to programming and application of computer to elementary civil engineering problems.
Letter grade only (A-F). (Lecture-Problems 1 hour, Laboratory 3 hours)

UPPER DIVISION

335. Fluid Mechanics (3)
Prerequisites: MATH 224 and C E 205.
Properties of fluids, fluid statics, fluid dynamics, dynamic similitude, flow of compressible and incompressible fluids in closed conduits, uniform flow in prismatic open channels.
Letter grade only (A-F). (Lecture-Problems 3 hours)

336. Fluid Mechanics Laboratory (1)
Prerequisite: ENGL 100 or equivalent. Prerequisite or corequisite: C E 335.
Experiments in and study of the phenomena of fluid flow.
Letter grade only (A-F). (Laboratory 3 hours)
407. Probability and Statistics in Civil Engineering (2)
Prerequisites: CE 206 and MATH 224. Analysis of uncertainties and applications of the basic theories of probability and statistics in civil engineering areas of geotechnical, environmental, water resources, structural and transportation engineering. Letter grade only (A-F). (Lecture-Problems 3 hours)

408. Special Problems (1-3)
Prerequisite: Senior standing in civil engineering. Assigned topics in technical literature or laboratory projects and report on same. Letter grade only (A-F).

426. Transportation Engineering (3)
Prerequisite: CE 345, Corequisite: CE 406. Operation of various modes of transportation: Characteristics of the driver, pedestrian, vehicle, and the road; fundamental principles of traffic flow; introduction to intersection design and control, planning, and geometric design; transportation issues and safety. Letter grade only (A-F). (Lecture-Problems 3 hours)

427. Highway Design (3)
Prerequisite: CE 345. Geometric design of highways and streets. Route location and earthwork computation. Introduction to roadbed and pavement design. Design problems in highway engineering. Letter grade only (A-F). (Lecture-Problems 3 hours)

428. Highway Engineering Materials (3)
Prerequisites: CE 200 and 345. Design and properties of highway materials, including aggregates, asphalt binder, and mixtures. Hot Mix Asphalt (HMA) aggregate gradation, blending procedure, volumetrics, design, plant operation, and lay down. Superpave binder testing and specifications. (Lecture 2 hours, Laboratory 3 hours) Letter grade only (A-F).

429/529. Traffic Engineering (3)
Prerequisite/Corequisite: CE 425 or Consent of instructor. Capacity and level of service analyses of highway facilities. Intersection signal timing design. Introduction to traffic control devices. Volume, speed and delay studies. Use of traffic data for design, planning and operational levels of analyses. Letter grade only (A-F). Graduate students required to do extra projects. (Lecture-Problems 3 hours)

430. Traffic Engineering Laboratory (1)
Prerequisite/Corequisite: CE 426. Laboratory activities on traffic flow theory, capacity and level of service analyses, signal timing, parking lot design, and travel demand forecasting, traffic volume, speed and delay studies. Use of traffic engineering software. (Laboratory 3 hours) Letter grade only (A-F).

435. Hydrology and Water Resources Engineering (3)
Prerequisite: CE 335. Fundamental surface and ground water hydrology concepts and quantitative methods. Selected topics and procedures of the hydrological cycle. Planning, development, and management of water resource systems. Letter grade only (A-F). (Lecture-Problems 3 hours)

437. Engineering Hydraulics (3)
Prerequisites: CE 335, MATH 370 A. Theory and analysis of steady uniform and non uniform flow in open conduits. Uniform and momentum principles, critical flow computations and applications, design of channels, computations of gradually varied, spatially varied and rapidly varied flows. Letter grade only (A-F). (Lecture-Problems 3 hours)
438. Hydraulic Engineering Design I (3)
Prerequisite/Corequisite: CE 437.
Application of hydraulic principles to the design of dams, water courses, water systems and their related structures and devices.
Letter grade only (A-F). (Lecture-Problems 3 hours)

445. Geotechnical Engineering II (3)
Prerequisites: CE 545, 546.
Methods of design and construction of various geotechnical engineering projects utilizing theory of soil mechanics.
Letter grade only (A-F). (Lecture-Problems 3 hours)

446/542. Geotechnical Projects (3)
Prerequisite: CE 345.
Design and problem solving oriented geotechnical projects utilizing soil mechanics theory and experimental methods according to the state of the art practice.
Letter grade only (A-F). Graduate students required to do additional readings and write a research term paper to deal with current topics in geotechnical engineering. (Lecture-Problems 3 hours)

455. Structural Steel Design (3)
Prerequisite: CE 458.
Detailed design of components with typical codes and specifications.
Letter grade only (A-F). (Lecture-Problems 3 hours)

456. Timber Design (3)
Prerequisite: CE 359.
Design of various structural elements made of wood material subjected to both vertical and lateral loads. Application of current building codes and specifications in timber design.
Letter grade only (A-F). (Lecture-Problems 3 hours)

457/S517. Reinforced Masonry Design (3)
Prerequisite: CE 359.
Letter grade only (A-F). Graduate students required to do a design project and assigned readings from journals and research papers. (Lecture-Problems 3 hours)

458. Structural Analysis II (3)
Prerequisite: CE 356.
Solution of indeterminate truss and frame structures using moment distribution and slope deflection methods. Introduction to matrix methods. Energy theorems and virtual work principles. Use of coded based finite element computer programs in the analysis of indeterminate structural systems.
Letter grade only (A-F). (Lecture-Problems 3 hours)

459. Reinforced Concrete Design I (3)
Prerequisites: CE 250 and 359.
Theory and design of structural elements of reinforced concrete, analysis by working stress and ultimate strength design theories.
Letter grade only (A-F). (Lecture-Problems 3 hours)

464. Environmental Engineering II: Unit Processes (3)
Prerequisites: CE 355 and 364.
Civil engineering applications of the fundamentals of chemical reactions, kinetics of biochemical systems, gas transfer systems, liquid-solid separations, solubility equilibria, adsorption, ion exchange and membrane processes.
(Lecture-Problems 3 hours) Letter grade only (A-F).

466. Environmental Systems Design (3)
Prerequisites: CE 364 or consent of instructor.
Principles of environmental systems design. Design and planning of systems for water distribution, wastewater collection and storm water management.
Letter grade only (A-F). (Lecture-Problems 3 hours)

481. Professional Practice in Civil Engineering (1)
Prerequisite: Senior standing.
Topics related to practice of civil engineering profession. Professional society meetings and readings.
Letter grade only (A-F). (Lecture-Problems 1 hour)

490. Senior Design Project (3)
Prerequisite: CE 461; completion of all 300 level engineering courses for the civil engineering major and consent of department undergraduate advisor. Prerequisite/Corequisite: CE 462, 437. Normally taken in the last year of the undergraduate program. A supervised design group project, incorporating all aspects from concept to completed design and oral presentations. Technical aspects, social, environmental, and economic issues considered. Ethical concepts discussed.
Letter grade only (A-F). (Lecture-Problems 2 hours, Design laboratory 3 hours)

491. Structures Laboratory (1)
Prerequisite: CE 359 and ENGL 100 or equivalent. Prerequisites/ Corequisites: CE 455, 459.
Laboratory examination of structural concepts. Utilize computer simulation modeling techniques in combination with structural tests.
Letter grade only (A-F). (Lecture 3 hours)

495. Seismic Design I (3)
Prerequisites: CE 459.
Elements of lateral-force design in steel, concrete, masonry, and timber structures. Application of current building codes.
Letter grade only (A-F). (Lecture 3 hours)

497. Senior Problem Directed Studies (2)
Prerequisites or corequisites: CE 461, 467. Directed study on assigned topics or labfield studies practicum and report on same.
Letter grade only (A-F).

GRADUATE LEVEL

500. Engineering Analysis I (3)
Prerequisites: MATH 370A.
Letter grade only (A-F). (Lecture-Problems 3 hours)

501. Engineering Analysis II (3)
Prerequisite: MATH 370A.
Analysis of engineering mechanics by matrix theory and complex variables; introduction to numerical techniques.
Letter grade only (A-F). (Lecture-Problems 3 hours)

502. Finite Element Methods II (3)
Prerequisite: Consent of instructor.
Theory of finite element methods. Discretization of continuum, element stiffness matrices and direct stiffness formulation. Application to frames, plate stress and strain, plato and shell problems using SAP.
Letter grade only (A-F). (Lecture-Problems 3 hours)
503. Selected Topics in Civil Engineering (3)
Prerequisite: Graduate standing and consent of instructor. Selected topics, with laboratory work required, from the most recent developments in civil engineering. Course content will vary from year to year and the specific topic will be recorded on the student's transcript. Letter grade only (A-F). May be repeated to a maximum of 6 units. No more than six units of CE 503 or CE 504 may be counted toward the Master's Degree. (Lecture-Problems 2 hours, Laboratory 3 hrs)

504. Advanced Topics in Civil Engineering (3)
Prerequisite: Graduate standing or consent of instructor. Selected topics from recent developments in civil engineering. Course content will vary from year to year. Letter grade only (A-F). May be repeated to a maximum of 8 units. No more than six units of CE 503 or CE 504 may be counted for the master's degree. (Lecture-Problems 3 hrs)

508. Probabilistic and Statistical Methods in Engineering Applications (3)
Prerequisite: Graduate standing or consent of instructor. Civil Engineering applications of nondeterministic models and decision theory. Applications of proven statistical computer programs. Letter grade only (A-F). (Lecture-Problems 3 hours)

515. Timber Design II (3)
Prerequisite: CE 350 and 456 Structural behavior of timber building/wood structures under static load. Analysis/design of non-rectangular buildings, horizontal diaphragms and shear walls. Analysis/design of member under biaxial bending and axial force. Load/resistance factor design (LRFD) for wood construction. Current building codes/specifications in advanced timber design. Letter grade only (A-F). (Lecture-Problems 3 hours)

517.I457. Reinforced Masonry Design (3)
Prerequisite: CE 359. Theory, design and application of reinforced masonry (brick and block) in compliance with latest Building Code. Earthquake provisions. Construction and specifications. Design of high rise buildings, industrial buildings and retaining walls. Letter grade only (A-F). Graduate students required to do a design project and assigned readings from journals and research papers. (Lecture-Problems 3 hours)

520. Seacoast Planning and Design (3)
Prerequisite: CE 426 or consent of instructor. Planning and design of seacoasts and facilities as access systems. Support transportation, use analysis and ocean transport crafts. Site selection and comprehensive planning. Letter grade only (A-F). (Lecture-Problems 3 hours)

522. Transportation Planning (3)
Prerequisite: CE 426 or consent of instructor. Planning of fixed facilities for various modes of transportation in urban areas. Engineering administration and integration of transportation systems. Letter grade only (A-F). (Lecture-Problems 3 hours)

526. Pavement Engineering (3)
Corequisite: CE 427 or consent of Instructor. Aggregate, binder systems. Theory and design of pavement structures. Letter grade only (A-F). (Lecture-Problems 3 hours)

529. Traffic Engineering (3)
Prerequisite/Corequisite: CE 426 or consent of instructor. Capacity and level of service analyses of highway facilities. Intersection signal timing design. Introduction to traffic control devices. Volume, speed and delay studies. Use of traffic data for design, planning and operational levels of analysis. Graduate students required to do extra projects. Letter grade only (A-F). (Lecture-Problems 3 hours)

530. Groundwater Flow: Principles and Modeling (3)

532. Sediment Transportation (3)
Prerequisite: CE 437. Phenomena of sediment transportation related to streams and marine environments. Letter grade only (A-F). (Lecture-Problems 3 hours)

533. Groundwater Contaminant Transport: Principles and Modeling (3)

535. Advanced Hydrology (3)
Prerequisite: Graduate standing or consent of instructor. Theory and application of surface hydrology. Hydrologic statistics, dynamic wave routing, frequency analysis and risk analysis. Simulation of design flows, flood forecasting, flood plain analysis and hydrologic design. Mathematical models, numerical methods in analysis and evaluation. Letter grade only (A-F). (Lecture-Problems 3 hours)

536. Urban Surface Water Management (3)
Prerequisite: CE 437 or consent of instructor. Planning and design of facilities to control flooding, erosion, sedimentation, and non point source pollution for urban storm water runoff management. Presentation of analysis and design methodologies, structural and non-structural measures for management, and master planning principles. Letter grade only (A-F). (Lecture-Problems 3 hours)

538. Hydraulic Engineering Design II (3)
Prerequisites: C E 437, 438 or consent of instructor. Design of water supply networks, hydraulic transitions, controls and structures. Hydraulic power conversion. River engineering. Water resources systems. Letter grade only (A-F). (Lecture-Problems 3 hours)

542. Geotechnical Projects (3)
Prerequisite: CE 345. Design and problem solving oriented geotechnical projects utilizing soil mechanics theory and experimental methods according to the state-of-the-art practice. Letter grade only (A-F). Graduate students required to do additional readings and write a research report to deal with current topics in geotechnical engineering. (Lecture-Problems 3 hours)

543. Waste Management and Landfill Engineering (3)
Prerequisite: Graduate standing or consent of instructor. Advanced principles and practices of landfill engineering for waste management and subsurface flow problems. Presentation
of research and case studies in geotechnical aspects of waste management and landfill engineering.
Letter grade only (A-F). (Lecture-Problems 3 hours)

546. Theory and Design of Foundation Structures (3)
Prerequisite: CE 345 or consent of instructor.
Foundation excavations, stress and deformation relationships and design of various footings, piles, piers and caissons. Analysis of lateral loads and design of retaining structures, machinery foundations and foundation drainage systems.
Letter grade only (A-F). (Lecture-Problems 3 hours)

547. Soil Dynamics (3)
Prerequisite: CE 345 or consent of instructor.
Theories and field behaviors of dynamically loaded foundation systems and soil responses with emphasis on engineering applications.
Letter grade only (A-F). (Lecture-Problems 3 hours)

548. Geotechnical Engineering III (3)
Prerequisite: CE 345 or consent of instructor.
Stress-strain time relationship of soils. Theory and methods of analysis with special emphasis on the applications and limitations in soil engineering.
Letter grade only (A-F). (Lecture-Problems 3 hours)

551. Prestressed Concrete (3)
Prerequisite: CE 459.
Principles of prestressed concrete; materials used, applications to structural design, review of existing specifications.
Letter grade only (A-F). (Lecture-Problems 3 hours)

552. Theory of Plates and Shells (3)
Prerequisite: Completion of CE 459 Graduate MATH Requirement.
Review of theory of elasticity; formulation of general equation of bending of thin elastic plates; methods of obtaining exact and approximate solutions; membrane and bending theories of shells with emphasis on cylindrical shells and shells of revolution.
Letter grade only (A-F). (Lecture-Problems 3 hours)

553. Behavior and Design of Steel Structures (3)
Prerequisite: CE 459.
Study of tension, unsymmetrical bending, stability. Plastic design, codes provisions and commentary. Design of complete structural systems in steel.
Letter grade only (A-F). (Lecture-Problems 3 hours)

555. Seismic Design II (3)
Prerequisite: CE 495 or consent of instructor.
Characteristics of earthquakes and seismic response spectra, modal methods of analysis, practical examples of elastic and inelastic response of structures to earthquake motions. New development in codes, computer applications.
Letter grade only (A-F). (Lecture-Problems 3 hrs)

557. Advanced Structural Analysis (3)
Prerequisite: CE 458 or consent of instructor.
Virtual forces and displacements, strain energy and complementary energy. Force and displacement matrix methods. Computer applications to planar and space frames, trusses, floor beams and shear wall systems.
(Lecture-Problems 3 hours) Letter grade only (A-F).

562. Water and Wastewater Treatment Design I (3)
Prerequisite: CE 384 or consent of instructor.
Design of physical and chemical processes for water and wastewater treatment, with emphasis on water treatment plants.
(Lecture-Problems 3 hours) Letter grade only (A-F).

563. Water and Wastewater Treatment Design II (3)
Prerequisite: CE 562 or consent of instructor.
Design of chemical and biological processes for water and wastewater treatment with emphasis on wastewater treatment.
(Lecture-Problems 3 hours) Letter grade only (A-F).

564. Environmental Health Engineering (3)
Prerequisite: CE 354 or consent of instructor.
(Lecture-Problems 3 hours) Letter grade only (A-F).

566. Unit Operations in Environmental Engineering (3)
Prerequisite: CE 354 or consent of instructor.
Civil engineering applications of the fundamentals of chemical reactions, kinetics of biochemical systems, gas transfer operations, liquid/solid separations, solubility equilibria, adsorption, ion exchange and membrane processes.
(Lecture-Problems 3 hours) Letter grade only (A-F).

567. Liquid and Solid Waste Project Planning and Management (3)
Prerequisite: CE 354 or consent of instructor.
The presentation of research and case studies of liquid and solid waste project planning and management.
Letter grade only (A-F). (Lecture 3 hours)

570. Engineering Management Principles and Practices (3)
Prerequisites: CE 406, graduate standing or consent of instructor.
Transition of engineers into management. Analysis of technical manager's functions at lower and middle levels as support to corporate management. Principles of engineering management and applications to private and public sector organizations. Case studies of practices in different technical organizations.
Letter grade only (A-F). (Lecture 3 hours)

571. Construction Planning and Cost Control (3)
Prerequisite: Graduate standing or consent of instructor.
Planning, scheduling and resource allocation for a complex construction project. Topics include traditional critical path method, advanced computer software systems and optimization techniques for construction planning and cost control.
Letter grade only (A-F). (Lecture-Problems 3 hours)

573. Engineering Specifications, Law and Contracts (3)
Prerequisite: Graduate standing or consent of instructor.
Application of law of contracts to construction contracts. Legal matters of concern to engineers.
(Lecture-Problems 3 hours) Letter grade only (A-F).

574. Methods, Analysis and Design of Construction Operations (3)
Prerequisite: CE 571 or consent of instructor.
Equipment, methods, analysis and design of a construction operation, from site work improvement and data acquisition to modelling and design. Particular attention will be paid to interfacing between design and construction activities and work method development, productivity and safety.
(Lecture-Problems 3 hours) Letter grade only (A-F).

576. Construction Organization and Management (3)
Prerequisite: Graduate standing or consent of instructor.
An introduction to construction organization, control concepts and labor, emphasizing the business aspects of construction engineering management. Topics include legal framework, finance in construction management, labor, accounting and other decision making in the construction business.
(Lecture-Problems 3 hours) Letter grade only (A-F).
Courses (C E)

577. Business Aspects and Finance of Construction Projects (3)
Prerequisite: CE 406 or consent of instructor.
Economics and business aspects in construction, financing structure, methodology, and project financial evaluation. Emphasis is on financial aspects in property acquisition, development, construction, and project management.
(Lecture-Problems 3 hours) Letter grade only (A-F).

578. Management of Advanced Technologies in Construction (3)
Prerequisite: Consent of instructor.
New development of advanced technology as applied to construction industry. Productivity and competitiveness in construction on the basis of new technology. Comparison of construction innovation in the U.S., Japan, and other countries.
(Lecture-Problems 3 hours) Letter grade only (A-F).

582. Management of Productivity and Quality (3)
Prerequisite: CE 570 or consent of instructor.
System approaches to quality and productivity in construction. Total Quality Management (TQM) in construction engineering and management. Investigation of methods and strategies for improving competitiveness at the company level. Domestic and international competitiveness in the construction business.
(Lecture-Problems 3 hours) Letter grade only (A-F).

585. Utility Rehabilitation and Construction (3)
State of infrastructure systems with a focus on underground facilities, diagnosis and evaluation techniques of underground utility pipes, planning, equipment, materials and methods for rehabilitation and construction of sewers and water mains using Trenchless (i.e. NO-DIG) Technology.
(Lecture-Problems 3 hours). Letter grade only (A-F).

602. Seminar in Civil Engineering (3)
Prerequisite: Graduate Standing or consent of instructor.
Presentation of research in special fields of structures, transportation, environmental, urban, geotechnical, water resources, or construction engineering management. May be repeated once for credit. No more than six units of CE 602.
(Lecture-Problems 3 hours) Letter grade only (A-F).

629. Traffic Operations (3)
Prerequisite: CE 429 or 529, or consent of instructor.
Principles of traffic flow, signal timing optimization, signal coordination, and traffic.
(Lecture-Problems 3 hours) Letter grade only (A-F).

630. Mathematical Modeling in Hydraulic Engineering (3)
Prerequisite: CE 457 or consent of instructor.
Numerical techniques for solving hydraulic problems in water supply, waste water disposal and storm drainage systems. Prediction of important parameters by mathematical modeling on problems encountered in artificial channels, rivers, estuaries and marine environments.
(Lecture-Problems 3 hours) Letter grade only (A-F).

640/740. Mathematical Modeling in Geotechnical Engineering (3)
Prerequisite: Graduate standing or consent of instructor.
Mathematical modeling techniques used in geotechnical engineering. Application of proven computer programs.
M.S. students register in CE 640. Ph.D. students register in CE 740. Ph.D. students will be required to complete a more rigorous computer project.
(Lecture-Problems 3 hours) Letter grade only (A-F).

696. Research Methods (1)
Prerequisite: Candidacy or consent of instructor.
Bibliographical and library techniques and resources. Preparation and presentation of theses and directed studies technical papers. Letter grade only (A-F).

697. Directed Studies (1-3)
Prerequisite: Graduate standing. Corequisite: CE 696 or written consent of directed studies advisor.
MSCE and MSE degree candidates in Civil Engineering and Interdisciplinary Areas need to have either CE 597 or CE 698 as their program requirement. Theoretical and experimental problems in civil engineering requiring intensive analysis.
Letter grade only (A-F).

698. Thesis (2-6)
Prerequisite: Admission to candidacy for degree of master of science in civil engineering. Corequisite: CE 696 or written consent of faculty advisor.
Planning, preparation and completion of a thesis and/or project in the field of civil engineering.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

699. Thesis (3-9)
Prerequisite: Admission to candidacy for degree of Civil Engineer.
Corequisite: CE 696 or written consent of faculty advisor.
Planning, preparation and completion of a thesis in the field of civil engineering practice.
Letter grade only (A-F). May be repeated to a maximum of 9 units.

740/640. Mathematical Modeling in Geotechnical Engineering (3)
Prerequisite: Graduate standing or consent of instructor.
Mathematical modeling techniques used in geotechnical engineering. Application of proven computer programs.
M.S. students register in CE 640. Ph.D. students register in CE 740. Ph.D. students will be required to complete a more rigorous computer project.
(Lecture-Problems 3 hours) Letter grade only (A-F).

Construction Engineering Management Courses (CEM)

LOWER DIVISION

121. Construction Drawing (1) F
An introduction to conventional and computer-aided drafting techniques in the rotation of drawings for construction. Interpretation of details in construction drawings/blueprints and reference materials. Laboratory: Drafting plans for a residential building using the techniques introduced in the course.
(Lecture 1 hr, laboratory 3 hrs) Letter grade only (A-F).

125. Fundamentals of Construction (2)
Survey of the professional activities and environments of Construction Education. Overview of residential, commercial, institutional, industrial, and heavy civil construction and associated codes, standards, and ethical boundaries. Areas of focus to include type of foundations, materials, contract documents, working drawings and vocabulary.
(Lecture 1 hour and Activity 2 hours) Letter grade only (A-F).

260. Concrete Construction (1)
Prerequisite: CEM 125, Corequisite: CEM 200L
Concrete composition, Concrete mix design technology, physical properties of concrete, use of admixtures, concrete batching, curing, testing. Includes physical testing of designed mixes. Modern concepts as fundamental solution to concrete construction challenges. New developments in concrete chemistry and strength theory.
Letter grade only (A-F). Not open for credit to students with credit in CEM 235. (Lecture-Discussion 1 hour)
200L. Concrete Construction Laboratory (1)
Prerequisite: CEM 200.
Laboratory exercises in support of CEM 200, Concrete Construction. Develop concrete mix designs and prepare concrete samples for testing, such as compressive strength, slump and air entrainment, and aggregate testing.
(Laboratory 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CEM 200.

201. Cost Accounting for Construction Engineering (3)
Theoretical and practical concepts of cost accounting. Variable and fixed costs, break-even point, interrelationships of cost, volume and profit; job-order accounting; general and flexible budgeting; standard costs; product costing methods; cost allocation; inventory planning; control and valuation; joint product.
(Lecture-Problem 3 hours) Letter grade only (A-F).

202. Probability and Statistics for Construction Engineering Management (3)
Prerequisite: High School Algebra.
Statistics and probability theories, sampling, correlation, regression, and applied to Construction Engineering Management. Laboratory. (Simulation using statistical packages)
(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).

204. Applied Mechanics—Statics (3)
Prerequisites: MATH 122 and PHYS 100A.
(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).

205. Computer Systems and Programming (2)
Overview of computer systems, Hardware topics include: updated coverage of the central processing unit and memory, input/output devices, and storage mechanisms. Software topics include: operating systems, and systems analysis. For laboratory exercises object-oriented programming is used to solve problems.
(Lecture - Discussion 1 hour and Laboratory 3 hrs) Letter grade only (A-F).

225. Residential and Light Commercial Construction Practices (3)
Prerequisites: CEM 121, 125.
An introductory course in planning, design, and construction of residential and light commercial buildings including materials, equipment, construction/assembly methods, quantities take-off, and building codes/standards. Field trips or visual presentation is required.
(Seminar 2 hours and Activity 2 hours) Letter grade only (A-F).

UPPER DIVISION
300L. Computer Applications for Construction Engineering Management Laboratory (1)
Prerequisite: CEM 205.
Overview and laboratory exercises of computer applications in construction engineering management including: estimating, scheduling, cost control, document control and collaborative project management in the construction industry.
(Laboratory 3 hours) Letter grade only (A-F).

304. Applied Mechanics Strength of Materials (3)
Prerequisite: CEM 204.
Strength of structural materials and applications in building structures and machines. Mechanical properties of materials, structural behaviors of load resisting components associated with construction processes.
(Lecture-Problems 3 hours) Letter grade only (A-F).

310. Communication in Engineering Profession (3)
Prerequisites: ENGL 100, COMM 110 and Senior standing.
Basic concepts for understanding practice of communication in world of business for managers and professionals. Language/communications in business and role in coordinating actions, resolving breakdowns in work and customer satisfaction, Business writing formats, formal report, business presentation. International, technical, and linguistic developments in business communication.
(Lecture - Discussion 3 hours) Letter grade only (A-F).

315. Construction Safety (2)
Prerequisite: CEM 225, Corequisite: CEM 310.
Terminology, safe functions, accident costs, workmen’s compensation and liability laws, O.S.H.A., governmental and non-governmental codes, regulations and safety methods pertinent to the construction industry. Field trips.
Not open for credit to students with credit in CEM 329. (Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

320. Operations Management in Contemporary Organizations (3)
Prerequisites: MGMT 300, ENGR 310.
Overview of Managerial and organizational theories and practices - introduction to concepts, methods to analyze and improve operations performance in construction and in service organizations. Decision-making and problem-solving processes for organizations. Management effectiveness and efficiency at the organizational, process level, and performance level. (Lecture-Discussion 3 hours) Letter grade only (A-F).

324. Commercial, Institutional and Industrial Construction Practices (3)
Prerequisites: CEM 200, 225; Corequisite: CEM 315
Fundamental of commercial construction, including building layout, shallow and deep foundations, introduction to formwork systems, high strength, heavy and light weigh concrete, framing, flooring and roofing systems, construction and expansion joints, masonry and steel construction. Quantity takeoff.
(Lecture-Discussion 2 hours, Activity 2 hours). Letter grade only (A-F).

335. Soil Mechanics Technology (2)
Prerequisite: CEM 304. Corequisite: CEM 335L.
Soil Composition, description, and classification; soil compaction; determination of physical properties of soils.
(Lecture-Problems 2 hours) Letter grade only (A-F).

335L. Soil Mechanics Technology Laboratory (1)
Prerequisite: CEM 304. Corequisite: CEM 335.
Laboratory investigations and experiments in the phenomena of soil mechanics. Field trips.
(Laboratory 3 hours) Letter grade only (A-F).

345. Concrete Formwork and Temporary Structures (2)
Prerequisites: CEM 335, 335L.
Methods and techniques used in the design and construction of concrete formwork, temporary earth retaining systems, and other temporary construction structures.
(Lecture 1 hour and Activity 2 hours) Letter grade only (A-F).

365. Mechanical Equipment for Buildings (2)
Prerequisite: PHYS 106B, Corequisite: CEM 324.
Principles and current practices in water supply, waste disposal, heating, ventilating, air conditioning and fire protection.
(Lecture 1 hour and Activity 2 hours) Letter grade only (A-F).

373. Design Presentation Methods (2)
Prerequisite: Junior standing.
This course provides a general overview of the fundamentals of project delivery; attributes of all the major project delivery systems, procurement methodologies, and contracting approaches.
(Lecture 1 hour and Activity 2 hours). Letter grade only (A-F).
Construction Engineering Management Courses (CEM)

374. Plant Planning and Layout (2)
Prerequisites: CEM 520 or consent of instructor.
Planning practices, procedures and requirements for laying out industrial facilities.
(Lecture - Discussion 2 hours) Letter grade only (A-F).

375. Electrical Equipment for Buildings (2)
Prerequisites: CEM 324, PHYS 1008.
Principles and current practices in the application of electrical equipment and material utilization, sound and signal systems.
(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

404. Structural Design I (2)
Prerequisite: CEM 304.
Fundamentals of design for structural concrete and masonry buildings in compliance with current building codes.
(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

409. Directed Studies in Construction Engineering Management (1-3)
Prerequisites: Senior standing in CEM or consent of instructor.
Advanced work on a technical nature within area of specialization on an experimental or research basis.
Letter grade only (A-F).

421. Construction Planning and Scheduling (3)
Prerequisite: CEM 300L, CEM 324.
Planning and scheduling of construction projects by graphic charts and Critical Path Method (CPM) networks utilizing manual and computer methods.
Field trips. (Lecture-Discussion 3 hours) Letter grade only (A-F).

423. Site Analysis (2)
Prerequisite: CEM 373, CE 406.
Detailed analysis and investigation of construction sites. Economics and feasibility of land development.
Field trips (Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

425. Earthwork and Civil Works Construction Practices (2)
Prerequisite: CEM 324, CE 406.
Fundamentals of earthmoving operations, including volume calculation and mass diagrams, soil protection and dewatering systems, volume change characteristics and fundamentals of moving earth, equipment selection, management and economics.
(Seminar 1 hour and Activity 2 hours) Letter grade only (A-F).

426. Business and Construction Law (3)
Prerequisite: CEM 315.
Contractor license laws, mechanics lien laws, real estate and subdivision laws, public works projects, bid and bid requirements. O.S.H.A., litigation and legal trends in affirmative action and minority subcontractor quotes, design professional's liability.
Letter grade only (A-F).

427. Contract Administration (2)
Prerequisite CEM 426. Corequisite: CEM 426.
Survey administrative procedures of general and subcontractors. Study documentation, claims, liens, waivers, arbitration, litigation, bonding, insurance, and indemnification. Discuss ethical practices.
Field trips. (Lecture-Discussion 2 hours) Letter grade only (A-F).

429. Advanced Estimating and Bidding (3)
Prerequisites: CE 406, CEM 421, 425.
A study of the concept and practices involved in the total estimate bidding process in construction, from initial project selection for submission of final bids. A complete project estimate and bid is prepared by each study.
(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).

431. Construction Cost Control (2)
Prerequisites: CE 406 and CEM 421.
Establishing and controlling construction projects cost through utilization of procedures, techniques and systems commonly used to control resources allocated and to be expended on construction projects.
(1 hour lecture and 2 hours activity) Letter grade only (A-F).

432. Facility Administration (3)
Prerequisite: CEM 374.
Management skills for facility management. Emphasis is placed on the management functions of planning, organizing, directing and controlling. Topics include: negotiation; communication; performance measurement; job enrichment; motivation; contracting services and interpersonal relationships.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

433. Facility Finance Management (3)
Prerequisite: CEM 432.
Analysis of financial management strategies associated with facility management. Topics include: buy-rent considerations; building efficiency; leasing considerations; cost control and record keeping; facility capitalization; facility budgeting; cost/benefit analysis and financial reports.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

434. Facility and Property Management (3)
Prerequisite: CEM 433.
Principles of facility and property management. Topics include: property development, cost-benefit analysis, site selection, architectural design, layout plans, building engineering, specifications, bidding and bidding plans, aesthetic standards, renovation and contracting standards.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

436. Facility Operations Management (3)
Prerequisite: CEM 374.
Analysis of the functions of facility operations management. Topics include: building systems, mechanical systems, energy management, electrical systems, trades operations, grounds maintenance, custodial, furniture and equipment, waste removal, contracting services, furniture standards, security systems and planned maintenance.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

438. Structural Design II (2)
Prerequisite: CEM 304.
Simplified designs for steel and wood structures in accordance with current building codes. Selection of structural steel and wood systems with structural characteristics of members and connections.
(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

443. Project Development and Design (2)
Prerequisite: CEM 373.
Course addresses the principles of design-build project delivery; use of design-build as a project delivery method; focusing on essential concepts and characteristics, as well as critical elements of the RFO/RFP process and overall project management.
(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).
476. Construction and Maintenance of Infrastructure Facilities (2)
Prerequisites: CEM 425
Comprehensive coverage of the construction principles and technologies employed by the heavy civil industry. The course covers the construction methods and maintenance practices of heavy civil projects, with emphasis on utility pipes, bridges and roads.
(Lecture 1 hour · Activity 2 hours) Letter grade only (A-F).

485. CEM Senior Seminar (2)
Prerequisites: CEM 429 and 431 or consent of the instructor.
Advanced work of a technical nature within the construction industry. All students will be required to participate into the Bid Propositions.
(Lecture 1 hour, Activity 2 hours). Letter grade only (A-F).

486. Infrastructure Management (2)
Prerequisites: CEM 427, 476 and CL 406.
Integrated approach to infrastructure management theories and practices including tools, models and applied systems. The course presents the principles required to manage, preserve and improve the performance of infrastructure systems, with emphasis on utility pipes, bridges and roads.
(Lecture 1 hour, Activity 2 hours) Letter grade only (A-F).

490. Construction Project Management (3)
Prerequisites: CEM 365, 375, 427, 429 and 431.
This course is a capstone course where integrated project management principles are applied to a case study of an actual construction project. Topics include plans and specifications, site logistics, estimating, planning, scheduling, cost control, and contract administration. Additionally, relationships with owners, designers and other officials are analyzed.
(Lecture/Discussion 3 hours) Letter grade only (A-F).
Undergraduate Programs

Bachelor of Arts in Classics (120 units)

Option in Roman Civilization (code CLSCBA01)

Requirements
41-43 units with a minimum of 21 upper division units
(excluding LAT 302)

1. Elementary Latin – 6-8 units selected from the following:
   LAT 101A and 101B (6) or LAT 300 (6).

   The requirements in this category may be met by high
   school equivalents, but total units must still equal 41.

2. Upper Division Latin – 12 units selected from the
   following: LAT 301, 401, 402, 403, 404, 405, 406, 407,
   408, 409, 410A, 410B, 410C, 490.

4. Additional Courses in Classics – 12 units selected from
   the following: CLSC 100, 101, 110, 130, 300, 312*, 340,
   410, 420, 440, 490.

   * The Department strongly recommends that this course be
   taken in Italy in the Winter Session.

5. Courses in Antiquity – A minimum of 8 units selected from
   the following: GK 101A, 101B; AH 408, 417; CLSC 330I;
   COMM 300; CVL 452**; HIST 131, 314, 318; PHIL 490**;
   POSC 301; RIST 471I.

   ** With topic appropriate to ancient Rome and approval of
   advisor.

Option in Greek Civilization (code CLSCBA02)

Requirements
43 total units with a minimum of 21 upper division units:

1. Elementary Greek - 5-8 units: GK 101A, 101B.

2. Upper Division Greek – 12 units selected from the
   following: GK 301A, 301B, 401, 402, 403, 404, 405, 490.

3. CLSC 201.

4. Additional Classics Courses – 12 units selected from the
   following: CLSC 100, 101, 110, 300, 311*, 340,
   410, 420, 430, 490.

   *The Department strongly recommends that this course be
   taken in Greece during the winter session.

5. Courses in Antiquity – A minimum of 8 units selected from
   the following: LAT 101A, 101B, 300; AH 408, 416; CLSC
   330I; COMM 300; CVL 452**; HIST 131, 314, 318; PHIL
   421, 422, 490**; POSC 301; RIST 471I.

   **With topic appropriate to ancient Greece and approval of
   advisor.
Minor in Classical Studies
(code CLSCUM01)

The Minor offers students majoring in any subject an opportunity to supplement their education with background in the oldest European tradition.

The Minor consists of a minimum of 20 units that must include a minimum of 9 units of upper division coursework selected from the following:

1. Two courses in Latin or Greek, both in the same language.
2. A minimum of two courses from: CLSC 100, 101, 110, 130, 201, 202, 301, 340, 410, 420, 430, 440, 490; CWL 452 (with an appropriate topic); or additional courses in Latin or Greek, not necessarily in the same language as selected in (1).
3. A minimum of two courses from the following: CLSC 311I or HIST 310; CLSC 312I, or HIST 312; CLSC 330; HIST 313, 314; PHIL 421, 422; AH 408, 416, 417; ANTH 140, 450; POSC 301; RIST 471I.

Interested students should contact the Classics Advisor prior to or during the first semester of taking courses toward the Minor.

Minor in Greek (code CLSCUM02)

A minimum of 20 units in Greek which must include four upper division courses. Prospective teachers are strongly urged to take, in addition, HIST 313, CLSC 101, 300I, and other courses touching on the ancient world.

The Minor in Greek is available to any non-Classics major.

Minor in Latin (code CLSCUM02)

A minimum of 20 units in Latin which must include four upper division courses. Prospective teachers are strongly urged to take, in addition, HIST 314, CLSC 101, and 300I, and other courses touching on the ancient world.

The Minor in Latin is available to any non-Classics major.

Single Subject Teaching Credential in Latin (code 156)

The subject matter program in Latin consists of 37 units in Latin and related areas. Completion of these courses meets the subject matter competence requirement for the Single Subject Preliminary Credential in Latin (code 156). Courses taken for subject matter competence for the teaching credential also count toward units needed for the Classics B.A., Option in Roman Civilization. Prospective students should consult the Latin Education Advisor and the Languages Other Than English (LOTE) Program Advisor early to plan their programs.

In addition to meeting the subject matter competence requirement for the Preliminary Credential, prospective teachers of Latin are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.cod.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures.

Requirements

1. Required courses: LAT 301, 401, 402, 410A, B, C.
2. Seven courses from the following: LAT 403, 404, 405, 406, 407, 408, 409, 490, 499.
3. One of the following: HIST 312I, 314; CLSC 420I, 440; AH 417.

Students are required to keep a portfolio of written work produced in the above classes with instructor comments. Members of the Latin faculty evaluate the portfolio according to established criteria. The credential candidate also takes an exit examination administered by the Latin faculty which will assess pronunciation, speech and conversation, listening and writing, and reading. Credential students also produce a Latin play.

Classics Courses (CLSC)

LOWER DIVISION

100. The Classical World of Greece and Rome (3)
Prerequisite/Corequisite: One GE Foundation course.
Introduction to the literature, language and culture of the ancient Greek and Roman worlds. Use of primary sources, such as drama, epic, inscriptions, and the visual arts to explore issues of gender, mythology, theater, combat and sports, slavery and family.

101. Greek Mythology (3)
Prerequisite/Corequisite: One GE Foundation course.
A survey of the major Greek myths, sagas and tales of gods and heroes, and their influence on later literature, particularly ancient Rome.
Not open for credit to students with credit in CLSC 191.

110. Classical Archaeology (3)
Prerequisite/Corequisite: One GE Foundation course.
Introduction to the study of the material culture of Greece, Etruria and Rome from the Minoans to Constantinople. Covers history of archaeology, chronology and dating systems and analytical methods of material culture including urban planning, construction techniques, and architecture.

130. Women in the Classical World (3)
Prerequisite/Corequisite: One GE Foundation course.
A survey of the roles and status of women in ancient Greece, Rome and Etruria through literature by and about women and other ancient sources. Not open for credit to students with credit in CLSC 135.

201. Ancient Greek Literature (3)
Prerequisite: Completion of GE Foundation requirements.
A survey of the literature of ancient Greece in translation from Homer and Hesiod to Lucian and the novelists (c. 700 BC to AD 400).

202. Latin Literature (3)
Prerequisite: Completion of GE foundation requirements.
A survey of the literature of the ancient Romans in translation, focusing on major authors from Plautus to Augustine (200 BC to AD 650).

280. At Home in the Ancient World (3)
Prerequisite: Open only to Liberal Studies majors in the Integrated Teacher Education Program (ITEP) and to those enrolled in track 1 of the Liberal Studies major.
Interdisciplinary introduction to the concept of 'home' in ancient world, focusing on diversity yet unity of this concept in global context.

2009/2010 CSULB Catalog • Classics • 255
UPPER DIVISION

300L. Pagan Culture (3)
Prerequisites: Completion of Foundation requirement, completion of one or more Explorations courses, and upper-division standing. Examines the mass cultures of the Greek and Roman periods, their worldview, and its philosophic and religious underpinnings through literary, artistic, and archaeological documentary sources. Not open for credit to students with credit in CLSC 310L.

311L. Greek World (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Interdisciplinary examination of the society and culture of ancient Greece emphasizing literature, the arts, and history. Topics include Homer, mythology and religion, lyric poetry, the Persian and Iliac epic poems, the Attic Golden Age, and Greek contributions to the modern world. Same course as HIST 310L. Not open for credit to students with credit in CWL 312L or HIST 310L.

312L. Roman World (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Interdisciplinary examination of the society and culture of ancient Rome emphasizing literature, the arts, and history. Topics include the early Empire, imperial maturity, and Roman contributions to the modern world. Same course as HIST 312L. Not open for credit to students with credit in CWL 312L or HIST 312L.

340. The Underworld (3)
Prerequisite: One course in Classics or consent of instructor.
In-depth investigation of the realm of the dead as given in ancient Greek and Roman myth. Topics include its topography and population, journeys to and interpretations of it. Comparative analysis of ancient myths of the underworld from other cultures.

350. Hollywood Does Rome (3)
Prerequisites: CLSC 100 or 101 or 202 or consent of instructor. An investigation of the filmmaker’s mindset and the methods they have used to portray the ancient Romans from the beginnings of cinema to the present. Topics include the influence of the image, community and society, cultural imperialism, film theory, the ‘language’ of myth, and reception theory. Same course as FIA 350. Not open for credit to students with credit in FIA 350.

380. Ancient Easts (3)
Prerequisite: Completion of GE Foundation or consent of instructor. Survey of food in the Roman Empire and elsewhere in the ancient Mediterranean world. Topics include farming, sustainability, trade, purchasing, processing, production, ingredients, recipes, tools, the place and function of feasts, and food in myth, culture, and philosophy.

410. Law and Literature in the Classical World (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Introduction to the study of philosophy and interpretation of law through classical literature that encompasses fundamental legal questions and ancient legal sources and materials and the application of modern theories of literary criticism to ancient and modern law.

420L. Classical Drama (3)
Prerequisites: Completion of the GE Foundation, one or more Exploration courses, and upper-division standing.
Examination of the plays of Aeschylus, Sophocles, Euripides, and Aristophanes both as literature and as theater. Includes origins of tragedy and comedy, later Greek and Roman drama, and debt of modern drama to the theater of the Greeks. Not open for credit to students with credit in CLSC 421.

430. Archaeology of Ancient Greece (3)
Prerequisite: one of the following courses: CLSC 110, 330L, ANTH 140, HIST 131, or AH 416/516, or consent of instructor.
The material culture of ancient Greece, from Minoans to Constantine including urban planning, architecture, sculpture, painting, ceramics, burial customs, religious and secular artifacts, epigraphy and numismatics. Examines chronology and dating systems, analytical methods and history of classical archaeology in Greece.

440. Archaeology of the Roman World (3)
Prerequisite: Completion of one of the following: CLSC 110, CLSC 330L, ANTH 131, or HIST 131, or AH 417/517, or consent of instructor.
The material culture of Roman empire, from Villanovans to Constantine including urban planning, architecture, sculpture, painting, ceramics, burial customs, religious and secular artifacts, epigraphy and numismatics. Examines chronology and dating systems, analytical methods and history of archaeology of Roman empire.

490. Special Topics in Classics (1-4)
Prerequisite: Consent of instructor.
Topics of special interest in Classics selected for intensive study. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special interest. May be repeated to maximum of 6 units.

GRADUATE LEVEL

598. Directed Readings in Classics (1-4)
Prerequisites: Graduate standing and consent of instructor. Selected topics in Classics or Classical Archaeology will be studied in depth.
A term paper is required. Letter grade only (A-F).

Greek Courses (GK)

LOWER DIVISION

101A. Elementary Greek (4)
Prerequisites/Corequisites: Any Foundation course.
Introduction to ancient Greek, the language of Sophocles, Plato, Aristophanes, Homer and Demosthenes. Forms, syntax and basic vocabulary leading also to a reading knowledge of New Testament Greek. Designed for those beginning a study of ancient Greek.

101B. Elementary Greek (4)
Prerequisite/Corequisite: Any Foundation course. Prerequisite: GK 101A or equivalent.
Continuation of GK 101A.

102. New Testament and Early Christian Greek (1)
Corequisite: GK 101B.
Supplemental graded readings and writing exercises in New Testament Koine Greek and other very early Christian literature such as the Didache and the Epistle of Clement.
Greek Courses (GK)

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

301A-B. Intermediate Greek (3-3)
301A. Prerequisite: GK 101B or equivalent.
301B. Prerequisite: GK 301A or equivalent.
Continued study of the language and culture. Reading and translating selections of classical writers.

401. Homer (3)
Prerequisite: GK 301U or equivalent.
Translation and literary study of selected books of the Iliad or Odyssey.

402. Plato (3)
Prerequisite: GK 301B or equivalent.
Translation and literary study of one or more dialogues of Plato.

403. Tragic Poets (3)
Prerequisite: GK 301B or equivalent.
Reading of a play of Aeschylus, Sophocles or Euripides.
May be repeated to a maximum of 9 units with different topics in different semesters.

404. Historians (3)
Prerequisite: GK 301U or equivalent.
Reading from selections from Herodotus, Thucydides and/or Xenophon.
May be repeated to a maximum of 9 units with different topics in different semesters.

405. Attic Orators (3)
Prerequisite: GK 301B or equivalent.
Reading of a speech of Demosthenes, Antiphon, Andocides, Lysias, Isocrates, Aeschines, Hyperides, Isaeus, Lycurgus, Dinarchus or selections from various orators.
May be repeated to a maximum of 9 units with different topics in different semesters.

490. Special Topics (1-3)
Prerequisites: 12 units of upper-division Greek courses or consent of instructor.
Translation and literary study of the selected works of an author, genre (e.g., oratory) or period (e.g., Hellenistic Greek).
May be repeated to a maximum of 12 units.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special interest.
May be repeated to a maximum of 6 units.

Latin Courses (LAT)

LOWER DIVISION

101A. Elementary Latin (4)
Prerequisite/Concurrent: Any Foundation course.
Introduction to the Latin language as used by Vergil, Cicero, Livy, Catullus, Tacitus, and Juvenal as well as late Latin and medieval writers. Basic forms, syntax, and basic vocabulary leading to a reading knowledge.

101B. Elementary Latin (4)
Prerequisite/Concurrent: Any Foundation course. Prerequisite: LAT 101A or equivalent.
Continuation of LAT 101A.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Intensive Latin (6)
Equivalent to two semesters of Elementary Latin. Designed for undergraduate and graduate students with little or no knowledge of Latin, whose degree programs require or recommend a reading knowledge of the language.
Not open for credit to students with credit in LAT 101B or LAT 321.

301. Intermediate Latin (4)
Prerequisite: LAT 101B or 300 or equivalent.
Continued study of the language and culture of the ancient Romans. Reading and translating selections of classical writers.

401. Vergil (3)
Prerequisite: LAT 301 or equivalent.
Reading of selections from Vergil's Aeneid, and/or selections from the Georgics and Eclogues.
May be repeated to a maximum of 6 units with different topics in different semesters, which includes previously earned credit in GK 362.

402. Cicero (3)
Prerequisite: LAT 301 or equivalent.
Reading of one or more works of Cicero.
May be repeated to a maximum of 6 units with different topics in different semesters, which includes previously earned credit in GK 351.

403. Latin Lyric and Elegy (3)
Prerequisite: LAT 301 or equivalent.
Reading of selected poems of one or more of the lyric and elegiac poets: Catullus, Horace (Odes, Epodes, Carmen Saeculare), Propertius, Tibullus, and Ovid (Amores).
May be repeated to a maximum of 6 units with different topics in different semesters.

404. Latin Epic (3)
Prerequisite: LAT 301 or equivalent.
Reading of selections from Lucretius' De Rerum Natura and/or Ovid's Metamorphoses.
May be repeated to a maximum of 6 units with different topics in different semesters.

405. Historiography of the Republic (3)
Prerequisite: LAT 301 or equivalent.
Reading of selections from Sallust and/or Julius Caesar.
May be repeated to a maximum of 6 units with different topics in different semesters.

2009/2010 CSULB Catalog • Classics • 257
406. Historiography of the Empire (3)
Prerequisite: LAT 301 or equivalent.
Reading of selections from Livy and/or Tacitus.
May be repeated to a maximum of 6 units with different topics in different semesters.

407. Latin of the Early Principate (3)
Prerequisite: LAT 301 or equivalent
Reading of selections from the following authors and works: Pliny the Younger, Martial, Seneca's letters, Suetonius.
May be repeated to a maximum of 6 units with different topics in different semesters.

408. Roman Comedy (3)
Prerequisite: LAT 301 or equivalent.
Reading of one or more plays of Plautus and Terence.
May be repeated to a maximum of 6 units with different topics in different semesters.

409. Roman Satire (3)
Prerequisite: LAT 301 or equivalent.
Reading of selected satires of Horace, Juvenal, or Persius; the Satyricon of Petronius or the Apocolocyntosis of Seneca the Younger.
May be repeated to a maximum of 6 units with different topics in different semesters.

410A-B-C. Latin Prose Composition (1-1-1)
Thorough instruction in writing Latin prose at the advanced level.
Extensive coverage of syntax and morphology of Latin.
A. Prerequisite: LAT 301 or equivalent. Beginning Latin prose composition.
B. Prerequisite: LAT 410A. Continuation of prose composition.
C. Prerequisite: LAT 410B. Continuation of prose composition.

490. Special Topics (1-3)
Prerequisites: LAT 301 or equivalent.
Translation and study of authors of a particular period (e.g., Medieval Latin) or of a methodological specialty (e.g., Latin epigraphy).
May be repeated to a maximum of 9 units with different topics in different semesters.
A. Medieval Latin

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Directed studies to permit individual students to pursue topics of special interest.
May be repeated to a maximum of 6 units.
COMMUNICATION STUDIES
College of Liberal Arts

Chair: Sharon D. Downey
Department Office: Academic Services (AS), Room 309
Telephone: (562) 985-4301 or 985-4302

Department Secretary: Wendy Lucas
Haush Center for Communication Skills
Administrative Director: Tim Pfotz
Technical Director: Scott Allon

Undergraduate Programs

Bachelor of Arts in Communication Studies (code COMMA01) (120 units)

The Bachelor of Arts in Communication Studies is designed for students who wish to gain a broad overview of the field of communication studies. Students choosing this program may select coursework from any of the dimensions found in communication, and are exposed to the theory and skills that define the scope and breadth of the discipline.

Requirements

1. Lower Division Requirements: 12 lower division units consisting of COMM 110, COMM 130 or 171, and COMM 131/131W and 200.

3. Elective Courses: An additional 18 units of coursework (of which at least 9 units must be in 400-level courses) are required for the major.

Students must take COMM 200 in their first year of declaring the major.

4. Only courses in which a "C" or better have been earned may be applied to satisfy upper division requirements in the major. Classes taken in which less than adequate grades are received must be repeated until an adequate grade is achieved. Majors will not be permitted to take any upper division courses in the major on a credit/non-credit basis.

2009/2010 CSULB Catalog • Communication Studies • 259
Option in Communication, Culture, and Public Affairs (code COMMBAO02) (120 units)

The Communication, Culture, and Public Affairs Option is designed for students who wish to study the cultural, mass-mediated, and political dimensions of public communication. In this option, students are exposed to course work in multi-cultural communication, performance studies, persuasion, and popular, political and media rhetoric.

Requirements

This option requires 48 units of which 36 are upper division.

All Communication Studies majors, regardless of option chosen, are required to complete the following lower division and upper division core classes.

1. Lower Division Requirements: 12 lower division units consisting of COMM 110, COMM 130 or COMM 171, COMM 131/131W, and COMM 200

*Students must take COMM 200 in their first year of declaring the major

2. Upper Division Core Requirements: 18 upper division core courses consisting of COMM 300, 301, 306, 307, 309, and 330

3. Elective Courses: An additional 18 units of course work (of which at least 9 units must be in 400-level courses) are required for the major.

18 units drawn from: COMM 334, 335, 337, 344, 355, 400, 410, 411, 412, 414, 420, 421, 432, 444, 449, 450, 452, 490 (consult with a communication studies advisor for which 490 course are appropriate for this degree option)

Taking COMM 236 as an elective will count toward graduation, but will not reduce the upper division requirement for the major.

Only courses in which a "C" or better have been earned may be applied to satisfy upper division requirements in the major. Gpa's taken in which less than adequate grades are received must be repeated until an adequate grade is achieved. Majors will not be permitted to take any upper division class in the major on a credit/non-credit basis.

Option in Interpersonal and Organizational Communication (code COMMBAO03) (120 units)

The Interpersonal and Organizational Communication Option is designed for students who wish to prepare themselves for careers in public and private industries requiring well-developed communication skills and a knowledge of interpersonal and organizational behavior. Students choosing this option will study the theoretical and applied aspects of interpersonal and organizational communication as they function in personal and/or professional relationships.

Requirements

This option requires 48 units of which 36 are upper division.

All Communication Studies majors, regardless of option chosen, are required to complete the following lower division and upper division core classes.

1. Lower Division Requirements: 12 lower division units consisting of COMM 110, COMM 130 or COMM 171, COMM 131/131W, and COMM 200

*Students must take COMM 200 in their first year of declaring the major

2. Upper Division Core Requirements: 18 upper division core courses consisting of COMM 300, 301, 306, 307, 309, and 330

3. Elective Courses: An additional 18 units of course work (of which at least 9 units must be in 400-level courses) are required for the major.
of the Graduate Committee is final. Students who are not accepted into the program may not enroll in graduate courses in the Department of Communication Studies. Graduate courses taken through Open University will not apply to the student’s degree program in the Department of Communication Studies.

4. Teaching Assistantships and Graduate Assistantships. Employment as a Teaching Associate or Graduate Assistant falls under the jurisdiction of the Personnel Committee of the Department. The positions pay approximately $350.00 per month. Tuition is not waived. Interested students should send letters of application, transcripts, GRE scores, and three letters of recommendation to: Chair, Department of Communication Studies, California State University, Long Beach, 1250 Bellflower Blvd., MH6-717, Long Beach, CA 90840-2407.

5. Advising. Consult the Graduate Advisor to plan a program of study and to receive information regarding Department procedures prior to enrollment. The Graduate Advisor and/or a faculty mentor will guide students through their program.

General Considerations

1. Requirements

   A. All requirements date from the time at which a student receives approval for Advancement to Candidacy, not from when a student begins graduate study.

   B. The Department requires a minimum of thirty semester hours (including four thesis credits in the Thesis Option) for the Master’s Degree. The University requires a minimum of twenty-four graduate credits to be completed in residence.

   C. Students must either pass the Department’s comprehensive examination or write an acceptable thesis.

   D. The Department expects its graduate students to possess the writing skills necessary for advanced study. Fulfills the Graduation Writing Assessment Requirement (GWAR). Students should fulfill the GWAR no later than the end of the first semester of graduate study. If you believe you have taken an examination equivalent to fulfillment of the GWAR, consult the Graduate Advisor.

2. Prerequisites

   A. Units obtained fulfilling prerequisites or deficiencies do not count toward the minimum of thirty semester hours needed to complete the Master’s degree.

   B. Students must meet all prerequisites before enrolling in graduate courses, except for COMM 541 or 546. Individuals may petition for waiver of this rule prior to registering for courses if compelling reasons warrant such a waiver.

   C. Students must comply with all University regulations outlined in the CSULB Catalog.

Prerequisites

   Individuals with a Bachelor’s degree in Communication Studies (or its equivalent) from a fully-accredited college or university must have approved coursework in:

1. Communication Rhetorical Theory (COMM 300)
2. Communication Criticism (COMM 301)
3. Communication Theory (COMM 306)
4. Measurement in Communication Research (COMM 307)
5. Language and Behavior (COMM 309)

Requirements

1. A minimum of thirty hours of graduate work in Communication Studies distributed as follows:

   These requirements are those listed in the 1996-97 University Catalog and thus are relevant to students advancing to candidacy during or after Fall 1995. For requirements applicable to students advancing to candidacy prior to Fall 1995, consult appropriate University Catalog.

   A. COMM 541 and 546 to be completed prior to advancement to candidacy and preferably within the first semester of graduate work (6 units);

   B. Twelve units consisting of:

      1. COMM 640 and 646 (6 units),
      2. one course selected from COMM 633, 635, 636, 637, 638 or 639 (3 units), and
      3. one course selected from COMM 630, 610, 611, 614, 620, 630, 632, 648, 649, or 650.

   C. Twelve elective units of 500 or 600 level coursework approved by the student’s advisor and the Graduate Committee, including three thesis units (COMM 697) if the student elects the thesis option.

2. A minimum of six graduate units taken from one or any combination of the following areas:

   A. graduate courses from within the Department of Communication Studies;

   B. graduate courses from outside the Department of Communication Studies (maximum of 3 units).

   1. classes taken outside the discipline in a department at California State University, Long Beach require prior approval by the Graduate Committee;

   2. classes taken outside the discipline in a department at another university require approval by the Graduate Committee;

   3. classes taken within the discipline in a department at another university.

3. Completion of the Department’s Comprehensive Examination or of an acceptable thesis.

4. Please note that Internships and student teaching cannot be included in the required thirty units.

Enrollment in Communication Studies 697

COMM 697 (Directed Research) should enable students to study topics and methods not normally available through regular coursework. Persons who choose the Thesis Option MAY NOT use COMM 697 to complete any part of the thesis project; however, COMM 697 may function to develop research proficiencies relevant to the thesis. The policy regarding COMM 697 is:

1. The Graduate Committee will approve the inclusion of COMM 697 in a graduate program only if:

   a. the research topic is not available through regular coursework during the student’s tenure in graduate study;

   b. the student has completed 6 units from the graduate core courses;

   c. the student has been advanced to candidacy or has submitted his or her Graduate Program to the Graduate Advisor.

2. Students may take a maximum of three units of COMM 697.
3. Candidates must secure approval for COMM 697 before taking the course. Prior to the semester of enrollment, students must submit two forms to the Graduate Committee:
   a. "Petition for Directed Research."
   b. an "Agreement for Independent Study Course" signed by the graduate faculty member directing the independent research (obtain this form from the Department office)
4. The Graduate Committee will determine whether the proposed study conforms to the purposes of COMM 697. The faculty member directing the research has the responsibility of judging the student's ability to complete the research and also assigning the grade for the project.
5. Only members of the Department graduate faculty may direct COMM 697.

Advancement to Candidacy

Advancement to Candidacy defines a candidate's program of study and establishes her or him as an official graduate student in the University. Programs must meet the requirements in effect at the time of advancement. Candidates must submit the form for advancement required by the College of Liberal Arts (forms available in the Department office) to the Graduate Committee. Individuals are eligible for Advancement to Candidacy after completing COMM 541 and 546. Students should have an average of "B" or better to be advanced to candidacy. Candidates considering the thesis option should submit a list of ten or more courses, starting (*) the class or classes to be omitted if the thesis option is selected.

1. To qualify for advancement, a person must:
   A. be enrolled in the University during the semester or session he or she requests advancement,
   B. have removed all deficiencies,
   C. have earned a minimum cumulative grade point average of 3.0 (B) for work taken—i.e., graduate courses and undergraduate prerequisites,
   D. have completed six units of graduate core courses with an average of "B" or better,
   E. have fulfilled the Graduation Writing Assessment Requirement.
2. If the student fails to petition for Advancement to Candidacy at the recommended time, he or she must do so at least one semester prior to the semester in which he or she intends to graduate. The deadline each semester is exactly four weeks before the last day of instruction. Do not wait for the deadline! The Graduate Committee may require the student to resubmit a program. Students cannot take the Master's Comprehensive Examination nor enroll in COMM 698 until a program is approved.
3. All submitted programs should indicate the semester in which courses were or will be taken and should report ALL grades in courses completed. No grades of Incomplete (I) or Satisfactory Progress (SP) can appear on the program.
4. If a program contains courses taken outside the Department, a student must obtain approval from the Graduate Advisor and the Graduate Committee before including such courses in her or his course of study. This restriction applies to courses taken at CSULB and to ones transferred from other colleges or universities. Failure to obtain Graduate Committee approval for including such courses prior to enrollment may result in students' taking classes which cannot be included in their programs of study. Candidates must submit the appropriate petition to the Graduate Committee to obtain the necessary approval.

5. After receiving the appropriate form, "Petition for Advancement to Candidacy," the Graduate Advisor will seek approval of the Graduate Committee and the Graduate Dean of the College of Liberal Arts.

Change in Graduate Program

If a student desires to amend her or his program of study after its approval, he or she must submit the College of Liberal Arts "Change of Program" form (available in the Department office) to the Graduate Committee for approval. Approval must be given prior to enrollment in any courses involved in the change; otherwise, the course will not be considered part of the minimum thirty units needed to complete the degree.

Comprehensive Examination Option

1. Comprehensive Examinations are given during the third weeks of November and April for the Fall and Spring semesters, respectively. Students may not take their Comprehensive Examinations during either the Winter or Summer sessions.

2. The following provisions govern the election of the Comprehensive Examination Option:

A. If a student elects the Comprehensive Examination option at the time of approval of her or his Graduate Program, the student may not change to the thesis option except with a special permission from the Graduate Committee.

B. Eligibility: Candidates may take the Comprehensive Examination if they have:
   1) been advanced to candidacy, and
   2) maintained a grade point average of at least 3.0 (B) in courses in the Master's degree program (i.e., graduate classes and prerequisites).

3. Description and Preparation

A. Description. The Examination consists of two sections:
   1) a written section spanning three, three-hour sessions during a single week,
   2) an oral defense, generally held within two weeks of writing the examination. The oral defense permits the student to elaborate on written answers and to answer questions that may develop out of those answers. Other discussions may arise from issues that occur to the examining committee during the oral segment of the Comprehensive Examination.

B. Preparation. Students should prepare for the Examination by beginning their study well before the actual assignment of an examining committee.

Once the Graduate Committee appoints the group, a candidate should meet with his or her Committee Chair to discuss procedures relevant to the Examination. Individuals are responsible for the subject matter of their courses regardless of whom the instructor is. The persons on their committees may or may not be those who have taught the actual seminars taken by the candidates. Professors writing questions are under NO obligation to discuss them with the students. The professors may, however, choose to provide...
candidates with general guidelines to aid in preparation for the Examination. Students should be familiar with all relevant literature integral to a particular area. Because the Examination is "closed book," no notes may be taken into the examination room. Students may obtain bibliographies from individual instructors or from the Graduate Advisor.

4. Student Petitions, Committee Formation, Guidance, and Facilities/Supervision

A. Petitioning. Students must petition to take the Comprehensive Examination no later than the end of the semester prior to the term in which they will write the Examination. Students may not petition to take the Comprehensive Examination until all grades of Incomplete (I) and/or Satisfactory Progress (SP) have been removed.

B. Committee Assignment. The Graduate Committee will consider petitions and assign committees during the last week of the first month of each semester. The examining committee consists of three examiners with one member serving as chair. Each member will compose questions for one of the three sessions of the examination.

C. Guidance. Graduate students taking the Comprehensive Examination should understand that faculty are free to develop questions from the subject areas in which students take courses, including the undergraduate core. Candidates are responsible for the subject matter in those areas whether or not such material is addressed in a particular class. Faculty may, but are not required to, provide guidance about the content for which the student is responsible. Faculty may, but are not required to, provide sample questions, reading lists, and/or assign open-ended questions for study. Furthermore, graduate students should understand that questions normally require integration of material in original ways.

D. Facilities/Supervision

1) The Department will provide rooms in which candidates may write the examination.

2) Students wishing to use computers may bring their own computers, or make arrangements with a specific faculty member to use that person's computer.

3) The Graduate Advisor or his/her designee will be available on each day of the Examination to answer questions and cope with difficulties.

5. Defense, Decision, and Appeal Procedure

A. Each Comprehensive Examination Oral Defense will begin by giving candidates the opportunity to explain any revisions they feel will strengthen their written responses.

B. Decisions of the Comprehensive Examination Committees. Individual members of the Comprehensive Exam Committee have three voting options: Pass, Fail, or Rewrite.

1) Comprehensive Examination Committees may render one of the following decisions:

   - Pass — three votes to pass.
   - Fail — three votes to fail.
   - Rewrite — any other possible combination of votes.

2) If students are required to REWRITE all or part of the Comprehensive Examination, they will be given the opportunity to rewrite only once in the area(s) of deficiency. Students must receive question(s) for revision within three working days of the Oral Defense. The student must respond in writing to the committee member(s) by the final day of instruction of the semester as specified by the University calendar. The committee may require a second meeting during the final examination week to review the student's rewrite and decide whether the student passes or fails the Comprehensive Examination.

3) If the Committee's decision is that the candidate failed the Examination, members shall make themselves available to the candidate to explain their decisions and to facilitate his or her preparation to retake the Examination. A student may petition to retake the Examination no earlier than the semester following that in which she or he has first taken the test. The Examination may be retaken only once.

C. The Department will use the following procedure if a student appeals the decision of a Comprehensive Examination Committee:

1) The Graduate Committee of the Department will serve as the review board to determine whether the appeal has merit on procedural grounds.

2) Members of the Graduate Committee will be ineligible to serve on the review board if they are part of the original examining committee.

3) If such eligibility reduces the membership of the Graduate Committee to fewer than three persons, a replacement will be selected by lottery from among remaining eligible members of the Department faculty.

**Thesis Option**

1. Elected the Thesis Option

A. This option requires a candidate to include three units of COMM 698 (Thesis) in her or his program of study. Students may not enroll in COMM 698 until after Advancement to Candidacy or, in rare cases, when advancement occurs in the same semester as the initial enrollment. Note that the Department facilitates timely Advancement to Candidacy of persons writing a thesis by allowing them to submit an advancement form listing ten courses (30 units) or more and starting (*) the course or courses to be omitted if the thesis option is selected.

B. The "Petition for Permission to Elect the Thesis Option"

1) The candidate must submit the petition to the Graduate Committee through the Graduate Advisor. The form provides space for the signatures of the proposed committee members certifying their willingness to serve on the committee and their approval of the candidate's prospectus. Acceptance of the prospectus by the Thesis Committee certifies both the acceptability of the thesis topic and the willingness of the Committee to direct the student's thesis.

2) The Graduate Committee will not approve the petition until the student completes all requirements in COMM 541 and 546.
C. The Thesis Committee
1) The student is responsible for securing faculty to serve on her or his Thesis Committee. At least two members of a three-person committee or three members of a five-person committee must be tenured-track or tenured faculty from the Department of Communication Studies. Faculty holding parallel status in other departments at CSULB or in other Communication Studies departments in the CSU system may fill the other slots on the committee.
2) The Committee Chair must be a member of the Department’s graduate faculty.

D. The candidate shall prepare a prospectus in consultation with the Thesis Committee Chair and other committee members. The project should be more than a minor extension of a seminar project. It should constitute an original contribution to literature in communication studies and should develop a student’s research abilities. Candidates must submit a completed, approved prospectus to the Graduate Committee no later than the semester prior to that in which the thesis is to be completed.

2. Completing the thesis
A. COMM 688
1) If the “Petition for Permission to Elect the Thesis Option” is approved by the Graduate Committee, a student may not change to the Comprehensive Examination Option except by special permission of the Graduate Committee. If a student has been enrolled for a semester or more in COMM 688, he or she cannot change options under any condition.
2) If a candidate does not demonstrate satisfactory and continuous progress on the thesis after enrolling in COMM 688, the Graduate Committee, on the recommendation of the Thesis Committee and/or the Graduate Advisor, may terminate the student’s graduate program and, if the student is enrolled in COMM 688, at the time, will assign an “F” for the semester.
3) The Department may endorse a petition for one semester of concurrent enrollment in COMM 688 and in another graduate or professional school only if the candidate’s Thesis Committee presents evidence that a draft of the thesis requiring only mechanical revision has been submitted.

B. Neither the Thesis Committee nor the Department is responsible for advising or supervising thesis candidates when they are not enrolled in the graduate program.

C. For thesis specifications and deadlines consult:
1) The University Thesis Reviewer whose office is in the Library;
2) the official thesis document, Master’s Thesis and Projects: Guide to Style and Format;
3) the Thesis Committee;
4) thesis guidelines available in the following manuals:
   a) Style sheets for technical requirements:
      i) Publication Manual of the American Psychological Association, latest edition, or
   b) MLA Handbook for Writers of Research Papers, latest edition

D. Approval of the completed thesis
1) Upon completion of an acceptable thesis, the student will defend the thesis before the Thesis Committee. Other departmental faculty and students may choose to attend. The Chair of the Thesis Committee will make all necessary arrangements for the oral defense and announce its time and place to the Department. The decision of the examining committee is by secret ballot and requires a majority vote. The Committee will notify candidates of their decision immediately after the oral defense. A candidate whose thesis and/or defense does not receive approval may revise and resubmit the thesis and/or defend it no sooner than the following semester. Resubmission or redefense, however, may take place only once.
2) The completed draft of the thesis must meet the approval of the University Thesis Reviewer.
3) Candidates must deposit the thesis in the University Library. Copies are given to the Department Library and to the Chair of the Thesis Committee if requested.

To Graduate
The CSULB Catalog states: “All requirements of the degree program must be completed within seven years of the date . . . . when the first course appearing on the student program was completed. . . . A graduate student who expects to receive a degree at the end of any semester or summer session must be enrolled during that . . . . term and must complete the Request to Graduate Form within the first three weeks of classes of the prior semester. Students completing their degrees in May or in the following summer session should file the application by the preceding October 1. Students completing their degrees January should file by the preceding February 15 at the Admissions and Records Office. . . . Graduate Studies 700 may be used to fulfill the enrollment requirement if the applicant has completed all degree program coursework prior to the semester of graduation.”

Graduate Student Honors
Several honors for graduate students are awarded each year at commencement. In accordance with the Department policy, such honors shall be awarded to deserving students using criteria such as the following:
1. Grade point average
2. Papers published or presented at professional conferences
3. Conventions attended
4. Professional community service not a part of a student’s employment
5. Graduate Communication Association involvement
6. Student Communication Association involvement
7. Departmental service — e.g., volunteer forensics assistant, class lecturer, committee membership
Financial Assistance

Refer to the University Catalog for information regarding financial assistance, which is available on a University-wide basis.

Forms and Petitions

Sample forms and petitions relevant to enrolled graduate students appear in the Appendix of the Graduate Handbook available only to students registered in the Graduate Programs.

Questions

Any questions not answered in these pages should be directed to the Department Graduate Advisor.

Graduate Courses in Communication Studies

Students may apply the following graduate courses in Communication Studies toward the Master's Degree: COMM 531, 541, 546, 590, 600, 610, 611, 614, 620, 630, 632, 633, 635, 636, 637, 638, 639, 640 (540), 646 (690), 648, 649, 650, 651, 657, 659, 668

Undergraduate Core Courses

COMM 300 (440), 301 (439), 306 (446), 307 (230), 309 (446) and 330. Course numbers in parentheses are old course numbers.

Courses (COMM)

LOWER DIVISION

110. Interpersonal Communication (3)
Corquisite: Concurrent enrollment in COMM 110 Workshop.
Lecture: Basic characteristics of processes underlying the formation, maintenance and termination of interpersonal relationships; theoretical and practical implications of those characteristics in various forms of interpersonal communication. Workshop: Planned exercises and activities to develop interpersonal communications skills.
(Lectures 2 hours, Workshop 2 hours). Not open for credit to students with credit in COMM 210.

130. Essentials of Public Speaking (3)
Composition and delivery of speeches to inform and persuade. Logical organization is stressed.

131. Essentials of Argumentation (3)
Corquisite: Concurrent enrollment in COMM 131 Workshop.
Lecture: Theory of argumentation; examination of forms and sources of evidence, inductive and deductive arguments, construction of case briefs, and refutation.
Workshop: Development of thinking abilities with planned exercises and speeches including construction and presentation of arguments, cases, and refutation.

132. Small Group Discussion (3)
Basic principles and techniques of discussion. Relationship of discussion to democratic processes and contemporary society including a study and practice of critical thinking and problem-solving techniques in various group discussion settings.

171. Voice and Applied Speaking (3)
Application of speaking clarity and proficiency, voice quality and pacing, and related communication modification objectives. Speaking process is applied to realize personal, social, and professional verbal communication skills.
Not open for credit to students with credit in COMM 271.

200. Gateway to Communication Studies (3)
Introduction to the academic discipline of communication studies with emphasis on multiple epistemological, theoretical, and methodological issues relevant to the systematic inquiry and pursuit of knowledge about human communication. Letter grade only (A-F).

220. Elements of Organizational Communication (3)
Role of communication in achieving organizational goals; theory and practice of communication in private and public organizations; techniques to enhance understanding in organizations.

236. Forensic Activity (1-3)
Participation in intercollegiate forensic activities. Any student who expects to participate in such activities during the semester should enroll. Specific assignments will be determined in consultation with the staff.
May be repeated to a maximum of 4 units.

UPPER DIVISION

300. Survey of Rhetorical Theory (3)
Prerequisite: Completion of GE Foundation requirements.
A history of major rhetorical theories from the ancient Greeks to the Twentieth century. Theorists include Gorgias, Plato, Aristotle, Cicero, Quintillian, Augustine, Machiavelli, Locke, Marx, Freud, the existentialists, and others.

301. Communication Criticism (3)
Prerequisite: COMM 300.
The analysis and criticism of public communication events including speeches, editorials, advertisements, and mass media from a variety of rhetorical perspectives.

306. Communication Theory (3)
Conceptual perspectives and studies of coding, meaning, thinking, information, and persuasion within interpersonal, group and organizational contexts; theoretical contributions from other disciplines.

307. Measurement in Communication Research (3)
Prerequisites: COMM 306 and completion of University GE requirement in mathematics.
Application of the scientific method to the study of speech communication; examination of the role empirical methodologies play in communication research; fundamental statistical processes. Letter grade only (A-F). (Not open for credit to students with credit in COMM 305).

309. Language and Behavior (3)
Symbolic bases of human communicative behavior; relationship between language and behavior; investigation and analysis of discourse and behavioral effects.

330. Intercultural Communication (3)
Study of the relationship between culture and communication with emphasis given to social, psychological, linguistic and nonverbal variables; problems in the practice of intercultural communication.

331. Argumentation and Debate (3)
Prerequisite: Completion of GE Foundation requirements.
Techniques of argumentation and their application to debate; logic, reasoning and fallacies of reasoning; experience in various forms of formal argument and debate; techniques of debate program administration.

333. Interpretive Communication of Literature (3)
Derivation of meaning in various literary forms and its communicative interpretation to specific audiences.
334. Business and Professional Communication (3)
Prerequisite: COMM 130 or consent of instructor.
Skills and technologies related to the assessment, strategic planning, development, implementation, and evaluation of effective communication in the business and professional setting.

335. Persuasive Speaking (3)
Prerequisites: Completion of GE Foundation requirements.
Skills necessary for advanced public speaking in various venues including legislative, legal, and ceremonial public address; explores various theories of persuasion including speaker credibility, emotional appeals, of evidence and argument, style in language, delivery and audience analysis skills.

336. Forensic Activity (1-3)
Participation in intercollegiate forensic activities. Any student who expects to participate in such activities during the semester should enroll. Student's specific assignments will be determined in consultation with the staff.
May be repeated to a maximum of 4 units.

337. Conference Management (3)
Organization and direction of professional, business and political conferences or conventions; program simulation; leadership and participation in decision making and parliamentary sessions.
May be repeated to a maximum of 6 units.

338. Ensemble Interpretive Reading (3)
Programming and presentation of prose, poetry and drama by an ensemble of readers. Emphasis is placed on experimental presentations and on the development of analytical insight into literary forms.

344. Theory and Techniques of Interviewing (3)
Theory and techniques of oral communication in the process of interviewing. Practical application in employment, information gathering, and persuasive interviewing.

352. Story Telling (3)
Cultural heritage in story telling: analysis of story types for oral presentation, techniques of preparation, presentation, and listening.

355. Communication in the Classroom (3)
Designed for prospective teachers, communication theories, and skills applicable to the teaching of speech communication; focus on communication strategies that contribute to greater student learning; develop an instructional package for teaching speech communication.

358. Speech Arts for Children (3)
Use of creative dramatics, improvisations, puppetry, choral speech, radio, television and group discussion for the purpose of developing fluency, responsiveness and imagination in children. Integration of speech arts activities with curricular subjects will be stressed. Opportunity to apply the theories in actual situations.

400. Nonverbal Communication (3)
Prerequisites: COMM 110 Lecture.
Basic characteristics of the nonverbal elements of human communication in the oral communication setting.

410. Advanced Concepts in Interpersonal Communication (3)
Prerequisites: COMM 110 and 307.
Systematic and symbolic interaction approaches to interpersonal communication; consideration of interpersonal needs, self-disclosure, understanding, interpersonal perception, interpersonal attraction, and social conflict; role and performance-centered theories of interpersonal communication.

411. Communication in Conflict Resolution (3)
Prerequisites: Completion of GE Foundation requirements, completion of one or more Explorations courses, and upper division standing.
Analytical investigation of the nature and dynamics of interpersonal conflict; approaches to the study and understanding of conflict management as examined from intrapersonal, interpersonal, intragroup, organizational, and international perspectives.

412. Gender and Communication (3)
Prerequisites: Completion of GE Foundation requirements, completion of one or more Explorations courses and upper division status.
Survey of theories and research literature to increase students understanding of and familiarity with major issues regarding communication between men and women in various contexts.

414. Communication in Families (3)
Prerequisites: COMM 307.
Role of communication in families: theoretical perspective of family interaction, current family issues, intercultural aspects of family interaction, effects of changing career family roles, and intergenerational interaction.
Letter grade only (A-F).

415. The Rhetoric of Dissent (3)
Examines goals, strategies, and effects of groups that form to advocate social, political, and/or moral change. Focuses on how (opposition) groups communicate messages, and how institutions of power (establishment) respond in order to control or resist change.

420. Advanced Concepts in Organizational Communication (3)
Prerequisites: COMM 220 and 307.
Philosophy, methods and designs for studying the communication systems of complex organizations; organizational communication needs assessment, methods for developing and improving communication in organizations are examined.

421. Communication in Bargaining and Negotiation (3)
Prerequisites: COMM 307.
Role of communication in the decision-making process of negotiation and bargaining; emphasis on the functions of communication in resolving disputes through bargaining.

422. Media Effects (3)
Prerequisites: Upper division standing and completion of Foundation Level GE courses.
Introduces students to the study of the effects of mass communication by examining some of the classic studies in the field of communication as well as exploring contemporary cultural, social, political and psychological effects of the mass media.

430. Advanced Concepts in Intercultural Communication (3)
Prerequisites: COMM 350 or consent of instructor.
Continued study of communication processes involved in interaction between people from different cultural groups; exploration of culturally variable means of thinking and behaving, and study of social psychological processes affecting all forms of intergroup interaction.
Letter grade only (A-F).

432. Communication Leadership (3)
Development of leadership skills in problem-solving communication environments; leadership theories, strategic and techniques of problem-solving and decision making.

433. Trends in Interpretive Communication (3)
Trends and issues in the theoretical and historical development of oral interpretation as applied to current times.

434. Advanced Oral Presentation Skills (3)
Prerequisite: Completion of General Education foundation courses; one or more General Education Exploration courses; and upper-division standing.
Development of advanced skills in oral presentations, including audience analysis, presentation technologies, and multimedia applications. Special consideration paid to research and critical analysis of written and oral presentation content and delivery.
Letter grade only (A-F).
436. Communication Strategies of American Speakers (3)
Prerequisites: COMM 300 and 301.
Comparison and contrast of famous American speakers and their techniques, effects, and environments from the colonial period to present.

437. Communication Strategies of International Speakers (3)
Prerequisites: COMM 300 and 301.
Comparison and contrast of famous international speakers and their techniques, effects, and environments from Demosthenes and Churchill to Hitler and Ghaddafi.
Letter grade only (A-F).

439. Communication and Popular Culture (3)
Examines the relationship between communication and popular culture in the public sphere. The course aims at improving students' abilities to respond critically to everyday mass social messages.
Letter grade only (A-F).

441. Issues in Freedom of Communication (3)
Prerequisites: Upper division standing and completion of Foundation Level GE Courses, and at least two Exploration Courses. Recommended COMM 331 or COMM 335.
The evolution and impact of First Amendment rights on American society and its political system. Emphasis on the evolution of the First Amendment and electronic media, and the application of case laws that deal with religion, speech, press, and assembly. Recommended for pre-law students.

442. Campaign Persuasion (3)
Prerequisites: Completion of GE Foundation requirements, upper division standing, and at least two Exploration Level Courses. It is recommended that one be COMM 331 or COMM 335.
Examination of persuasive communicative strategies in political campaigns, including campaign speeches, commercials, media, media coverage, image-building, audience analysis through polling, and fund raising.

444. Communicating Civility (3)
Prerequisites: Upper division standing and completion of Foundation Level GE courses.
Examines codes of "civilized" communication behavior historically and analytically. Identifies what it means to be an ethical and responsible communicator in today's society, and appreciates professional and personal protocols for everyday use.
Letter grade only (A-F).

449. Studies in Oral Persuasion and Attitude Change (3)
Attitude formation and change through oral communication; factors in persuasion; problems determining the effects of persuasive messages; source credibility, message variables, and personality factors in the process of persuasion.

450. Communication Training in Organizations (3)
Nature and role of communication training in a variety of social, educational, and business organizations; the goals, structure, and impact of communication effectiveness programs are examined; audiovisual aids and communication training techniques emphasized.

452. Communication in the Multinational Organization (3)
Communication patterns in multinational and multicultural organizational settings: the nature and impact of different organizational structures, value systems, and cultural norms in relation to productivity, employee and organizational obligations and expectations.

490. Special Topics in Speech Communication (3)
Topics of current interest selected for intensive study in communication. May be repeated to a maximum of 6 units with different topics. Topics announced in the Schedule of Classes.
A. Hip Hop Criticism

492A-B. Internship (3-3)
Prerequisite: "Permit" required to enroll with consent of instructor; open only to senior majors. At least 120 hours with cooperating organizations on- or off-campus. Work directed and evaluated by instructor in consultation with supervisor of the participating organizations. Assignments will be varied.
Credit/No Credit grading only. COMM 492A is for unpaid Internship. COMM 492B is for paid Internship.

495. Service Learning Internship (3)
Prerequisites: Communication Studies Major with Senior Standing; minimum 3.0 GPA for all college coursework taken; COMM 130 or 335 or their equivalents, COMM 352 or 355 or 356, or the consent of instructor.
Application of academic knowledge of communication skills in the community, public speaking, listening, interpersonal communication, group communication, multicultural communication, and interviewing skills training (1) to students in K-12 schools or (2) to persons in the public sector.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

499. Special Studies (1-6)
Prerequisites: "Permit" required to enroll. Open to upper division students or graduate standing and consent of instructor. Approved "Agreement for Independent Study" must be on file with the Department prior to enrolling in this course.
Individualized laboratory or library research selected in consultation with instructor. Written report of the research is required. Not acceptable for graduate credit toward the master’s degree.

GRADUATE LEVEL

531. Administering the Forensic Program (3)
Prerequisite: "Permit" required to enroll with consent of instructor. Principles of constructing and administering a forensic program, including recruiting, squad direction, budgeting, tournament policies, and current literature on forensics direction.
Letter grade only (A-F).

541. Rhetorical Theory and Criticism I (3)
Introduction to research in rhetorical studies. Examination of major figures and schools of thought on rhetorical theory and criticism from the Pre-Socratics through the contemporary modern British era.

546. Communication Theory and Research I
Examination of theories and research in social cognition, interpersonal, small group, organizational, intercultural, mass, instructional, language and behavior, and nonverbal communication. Critical analysis of empirically-based articles in the field. Social scientific research proposal required.
Letter grade only (A-F).

590. Special Topics in Speech Communication (3)
Prerequisite: Consent of instructor. Investigation of topics of current interest and concern to students in communication and allied areas.
Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics, but no more than 3 units may count toward the master's degree in speech communication.

600. Seminar in Nonverbal Communication (3)
Prerequisite: COMM 546 or consent of instructor.
Review and analysis of theoretical writings and critical studies in nonverbal communication; the relationship of nonverbal behavior to oral communication.
Letter grade only (A-F).

610. Seminar in Interpersonal Communication (3)
Prerequisite: COMM 546 or consent of instructor.
Current theories and research in interpersonal communication.
Letter grade only (A-F).
611. Seminar in Negotiation and Conflict Resolution (3)
Prerequisites: COMM 411 or 421 and 546 or consent of instructor.
Investigation, analysis, and criticism of the nature, development, and
dynamics of conflict and the role of negotiation in interpersonal,
group, organizational, and international and intercultural
communication; study and understanding of conflict management.
Letter grade only (A-F).

614. Gender and Family Research (3)
Major theoretical perspectives on the role of communication in family
and gender issues; epidemiological, conceptual, and methodological
issues in researching family and gender communication.
Letter grade only (A-F).

620. Seminar in Organizational Communication (3)
Prerequisite: COMM 546 or consent of instructor.
Theories and models of communication in large organizations;
design and management of organizational communication systems.
Letter grade only (A-F).

625. The Dark Side of Communication (3)
Prerequisite: COMM 546 or consent of instructor.
Examines communication interactions that are difficult, distressing,
and disruptive in personal and/or professional relationships in order
to gain insight into better ways of managing these interactions and to
examine the theoretical bases of what is viewed as “normal” forms of
relating.
Letter grade only (A-F).

630. Seminar in Intercultural Communication (3)
Prerequisites: COMM 541 and 546 or consent of instructor.
Analysis of cultural influences on interpersonal communication;
emphasis given to cultural values, perception, social organization,
to language and nonverbal codes; development of strategies of
effective intercultural communication in international and domestic
settings.
Letter grade only (A-F).

632. Seminar in Small Group Communication (3)
Prerequisite: COMM 546 or consent of instructor.
Research in small group discussions.
Letter grade only (A-F).

633. Seminar in Interpretive Communication (3)
Prerequisite: COMM 541 or consent of instructor.
Theories of communicative interpretation of literature, with emphasis
on the theory and evaluation of oral presentation of literature as art
form and pedagogical instrument.
Letter grade only (A-F).

634. Performance and Ethnography (3)
Students use ethnographic methods to explore the relationship
between culture and performance. Students choose a community,
conduct fieldwork and collect/collect/film stories in order to better
understand a particular population.
Letter grade only (A-F).

635. Seminar in Communication Criticism (3)
Prerequisite: COMM 541 or consent of instructor.
Critical theories of rhetoric and major systems of communication
criticism; development of criteria and approaches for the evaluation
of select communication acts and contexts.
Letter grade only (A-F).

636. Seminar in American Public Communication (3)
Prerequisite: COMM 541 or consent of instructor.
Studies of American rhetorical events and their social, political and
intellectual settings; application of rhetorical theory in the analysis of
these events.
Letter grade only (A-F).

637. Seminar in International Public Communication (3)
Prerequisite: COMM 541 or consent of instructor.
Studies of international rhetorical events and their social, political, and
intellectual settings; application of rhetorical theory in the analysis of
these public communication events.
Letter grade only (A-F).

638. Seminar in Greek and Roman Public Communication (3)
Prerequisite: COMM 541 or consent of instructor.
Studies of Greek and Roman rhetorical events and their social,
political and intellectual settings; application of rhetorical theory in the
analysis of these events.
Letter grade only (A-F).

639. Seminar in Communication and Popular Culture (3)
Prerequisite: COMM 541 or consent of instructor.
Survey of literature on rhetoric, critical studies, and popular culture to
provide a basis for investigating communication in popular culture.
Letter grade only (A-F).

640. Rhetorical Theory and Criticism II (3)
Prerequisite: COMM 541.
Examination of major figures and themes in rhetorical theory and
criticism in the contemporary era.

646. Communication Theory and Research II (3)
Prerequisites: COMM 501 (or equivalent) and 546.
Empirical research methodologies applied to communication
research; theory and design of scientific research; analysis of
findings, computer applications; research report required.

649. Seminar in Language and Behavior (3)
Prerequisite: COMM 546 or consent of instructor.
Contemporary theorems and models in linguistic, psycholinguistic and
sociolinguistic research; communication discourse and speech acts
analysis.
Letter grade only (A-F).

649. Seminar in Persuasion and Attitude Change (3)
Prerequisite: COMM 546 or consent of instructor.
Contemporary theories and models of persuasion; structure and
relationships of beliefs, values and attitudes; methods of assessing
persuasive effects; analysis of research literature.
Letter grade only (A-F).

650. Seminar in Instructional Communication (3)
Prerequisites: COMM 541 and 546 or consent of instructor.
Designed for teachers/trainers, the course will identify communication
variables and strategies which contribute to greater student/client
learning as well as greater satisfaction with the learning process.
Students will develop an instructional/training package.
Letter grade only (A-F).

697. Directed Research (1-6)
Prerequisites: COMM 541 and 546; authorization of the department
Graduate Advisor, Agreement for Independent Study Course form,
consent of instructor.
Directed research leading to the definition and discussion of a
selected problem or issue in communication and the presentation of
research results in a formal paper submitted to the department.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

698. Thesis (2-4)
Prerequisites: COMM 541, 546, 640 and 646; authorization of the
department Graduate Advisor, Agreement for Independent Study
Course form, consent of instructor.
Preparation, completion and submission of an acceptable thesis in
partial fulfillment of the requirements for the Master's degree.
Credit/No Credit grading only.

268 • Communication Studies • 2009/2010 CSULB Catalog
COMMUNICATIVE DISORDERS
College of Health and Human Services

Undergraduate Programs

Bachelor of Arts in Communicative Disorders (code CD_BA01) (120 units)

Students desiring a Bachelor of Arts degree in Communicative Disorders must complete the following required courses:

Lower Division: C D 261, 271; PSY 210 or equivalent.

Credential for Service in Public Education – Clinical-Rehabilitative Services, Speech-Language Pathology Credential (code 912)

Candidates must:
1. Complete the master’s degree in speech-language pathology.
2. Complete EDSP 350 and 564; C D 483, 489, 666A (Field Experience(s) in order to complete 100 contact hours as a Language, Speech and Hearing Specialist trainee in the school setting).

Graduate Programs

Master of Arts in Communicative Disorders (code CD_MA01)

Admission to the Graduate Program

Enrollment in 500/600 level courses in communicative disorders is restricted to students who have been accepted to the graduate program of the department as unconditionally classified students. Students wishing to be admitted must complete the following procedures:
1. Students must meet the criteria for acceptance by the University as a graduate student.
2. Every student (new or continuing) must apply to the Office of Admissions and Records to obtain admission to the University with graduate standing.
3. Every student then must apply to the Department of Communicative Disorders for admission to the graduate program using the department application form. This form must be filed with the graduate advisor by March 1 for admission in the subsequent fall semester. The following supportive materials must be filed with the department admission application:
   A. Change of objective form available at department office (continuing CSULB students only);
   B. Official transcripts of all undergraduate and graduate work. (These transcripts are in addition to those required by the Office of Admissions and Records.)

2009/2010 CSULB Catalog • Communicative Disorders • 269
These transcripts should reflect the following minimum criteria:
(1) a GPA of 3.0 or better in the last 60 units of coursework; and
(2) confirmation of acceptable GPA obtained during the final semester.
C. One-page summary of relevant work, volunteer or research experience, with name and contact information for corroborating professional.
D. Submission of GRE scores
NOTES: Course deficiencies will be determined by the department graduate committee after consultation with the student and the student's faculty advisor. Students applying to the graduate program in Communicative Disorders will have completed one of the two prerequisites listed in the respective section prior to enrollment in graduate classes.

Prerequisites
1. A bachelor's degree from an accredited institution with a major in communicative disorders (speech and hearing science, etc.); or
2. A bachelor's degree from an accredited institution in a discipline other than Communicative Disorders. The applicant must have at least 35 units of course work in CD before applying for admission to the graduate program. If the student has not completed sufficient units or courses to meet this requirement, he/she may enroll in the University as a conditionally classified graduate student to complete the required undergraduate courses prior to applying to the Graduate Program in Communicative Disorders.

Although the student may apply to the Graduate Program with a minimum of 33 units in Speech-Language-Hearing, all courses required for the B.A. in Communicative Disorders at CSULB (with the exception of C D 431 and 432), or equivalent courses, must be completed before the M.A. in Communicative Disorders will be awarded.

Advancement to Candidacy
In order to be advanced to candidacy for a Master's degree, a student must meet the following criteria:
1. enrollment in the semester or summer session in which advancement takes place;
2. satisfactory completion of C D 696 and three additional units;
3. satisfactory fulfillment of the CSULB Graduation Writing Assessment Requirement (GWAR). The GWAR must be fulfilled before the student is advanced to candidacy;
4. maintenance of a GPA of at least 3.0 in (a) all graduate work completed in Communicative Disorders, (b) all graduate work completed at CSULB, and (c) all graduate work transferred to meet graduation requirements with no grade below "C";
5. filing of the student Program for the Master of Arts Degree in Communicative Disorders after completion of items 2-5;
6. the department's standard written program of graduate courses approved by the student's department advisor, the department graduate advisor, the department chairperson, and the College of Health and Human Services Associate Dean. (This form is known as the Advancement to Candidacy form.)

Requirements
Forty-one (41) units of course work are required: C D 696, 662, 663, 665, 666, 667, 669A, 699B, 699C, 699F, 699G, 699K, 699L, C D 670 or C D 665A, and C D 698 or 698 (Comprehensive Examinations) plus a three-unit elective. Within the context of the C D 669L clinical course, the student will complete a minimum of 25 hours of clinical experience under appropriate supervision with a client determined to be of a language or dialect different from that of the student clinician. C D 485 and 489 and/or C D 463, or equivalent content, are prerequisite to C D 669L. Students who are bilingual and biliterate in English and another language may be eligible for clinical practice during their clinical language, within the CD 669L practicum.

Regulations governing the preparation and eligibility for the administration of comprehensive examination options are available in the Department Office. Departmental regulations concerning preparation of theses are also available in the office.

Courses (C D)

LOWER DIVISION
60. Special Topics (1)
Prerequisite: Consent of instructor.
Speech, language and hearing therapy to students enrolled in the University.
May be repeated to a maximum of 2 units.

260. Introduction to Communicative Disorders (3)

261. Anatomy and Physiology of the Speech and Hearing Mechanism (3)
Anatomical, physiological, and neurological components of the speech and hearing mechanism. Designed for students planning to enter the clinical program in communicative disorders.
Letter grade only (A-F).

271. Phonetics (3)
Phonetic basis of speech sounds and the various factors which influence pronunciation. Consideration is given to linguistic variations, regional dialects and standards.
Letter grade only (A-F). (Discussion 2 hours, laboratory 3 hours.)

UPPER DIVISION
329. Introduction to Language Acquisition (3)
Prerequisite: A grade of "B" or better in C D 271 for majors only.
Introduction to the study of the acquisition of first and second languages. Linguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The influence of developmental stages and social and cultural factors on the individual.
Letter grade only (A-F). (Same course as LING 329. Not open for credit to students with credit in LING 329.)
330. Speech and Hearing Science (3)
Prerequisite: A grade of "B" or better in C D 261 and 271.
Examination of the anatomical, physiological, psychological, and acoustic aspects of speech. Through readings, discussions, videos, and interactive software the student is expected to become more aware and analytical of the instrumentation and scientific basis of production and perception of speech.
Letter grade only (A-F). (Lecture/discussion)

373. Audiology I (3)
Prerequisite: A grade of "B" or better in C D 261.
Introduction to audiology; acoustics, anatomy and physiology of the ear, pure-tone audiometry/masking, speech audiometry/masking, principles of taking a case history, and report writing.
Letter grade only (A-F), (Lecture)

431. Pediatric Audiology (3)
Prerequisite: A grade of "B" or better in C D 261 and 373.
Sources of hearing impairment (HI) in children birth through school age. Nature of HI in children and effects on communicative function. Procedures for identification (screening), assessment, and intervention (including parent counseling) for HI children.
Letter grade only (A-F). (Discussion 2 hours, laboratory 3 hours)

432. Audiology II (3)
Prerequisite: A grade of "B" or better in C D 373.
Anatomy/pathology/evaluation of the (1) outer and middle ears, (2) inner ear, (3) central auditory system, and (4) functional hearing loss, taking case history and report writing.
Letter grade only (A-F), (Lecture)

440. Aural Rehabilitation for the Hearing Impaired (3)
Prerequisite: A grade of "B" or better in CD 373 and 431 or 432.
Nature of hearing impairment and impact on communicative function. Procedures for assessment and management of hearing loss, including amplification, counseling, and self-report scales. Focus is primarily adult clients but will include some information regarding children.
Letter grade only (A-F).

456. Speech Pathology I: Disorders of Phonology (3)
Prerequisite: A grade of "B" or better in C D 261, 271.
Etiology, assessment and treatment of disorders of phonology.
Letter grade only (A-F), (Lecture)

460. Speech and Language Assessment of Linguistically and Culturally Diverse Clients (3)
Prerequisite: A grade of "B" or better in C D 271.
Provides understanding of non-discriminatory assessment process for linguistically and culturally diverse clients referred for speech-language assessment. Includes information relative to cultural differences, use of interpreters/translators, biases of assessment, and differential diagnoses, such as language disorder versus language difference.
Letter grade only (A-F).

462. Speech-Language Pathology Assistant (SLPA) Practicum (3)
Prerequisite: At least 33 units in communicative disorders completed with a grade of "B" or better.
For students interested in receiving a license to work as a SLPA.
Weekly lectures covering the laws, practices and ethics governing SLPAs and 70 hours of supervised undergraduate clinical practicum.
Letter grade only (A-F).

466. Speech Pathology II: Speech Motor Disorders (3)
Prerequisite: A grade of "B" or better in C D 261, 271, and 330.
Etiology, assessment, and therapy for disturbances of the speech motor system with emphasis on the neuroanatomical, neurophysiological, psychological, and linguistic variables correlated to aberrant behaviors.
Letter grade only (A-F).

472. Alternative and Augmentative Communication (3)
Prerequisite: A grade of "B" or better in C D 261 and 329.
An understanding of relevant topics in alternative and augmentative communication (AAC); assistive technology (AT); assessment and management of patients with severe communication impairments. Topics will include a variety of disabilities in both pediatric and adult patients, across varying communication environments.
Letter grade only (A-F).

476. Speech Pathology III: Disorders of Voice/Oro-facial Mechanism (3)
Prerequisite: A grade of "B" or better in C D 261 and 329.
Processes of phonation and resonance and their application to etiology, diagnosis and therapy of functional and organic voice disorders, such as those arising from laryngeal pathology, vocal abuse, neurological impairment, auditory impairment and oro-facial abnormalities.
Letter grade only (A-F).

477. Disorders of Swallowing (3)
Prerequisite: A grade of "B" or better in C D 261.
Anatomy, physiology, and neuroanatomy of normal swallowing. Neurological and oncologic disorders which affect the swallow process. Evaluation of the patient with dysphagia will include clinical and instrumental analysis. Treatment plans based on history and evaluative results will be designed and examined.
Letter grade only (A-F).

481A. Speech Pathology IV: Disorders of Language (3)
Prerequisite: A grade of "B" or better in C D 271 and 329.
An analysis of the components of language and how each is involved with language disorders in children. Provide for the understanding and recognition of variables for the assessment and clinical management of such children.
Letter grade only (A-F).

481B. Speech Pathology IV: Disorders of Language Neuropsychopathologies (3)
Prerequisite: A grade of "B" or better in C D 261 and 329.
Neurophysiological and neurolinguistic basis for language and speech disorders associated with central nervous system pathologies. Provides for the recognition and understanding of variables for the assessment and clinical management of such disorders.
Letter grade only (A-F).

483. Assessment of Monolingual and Bilingual Clients (3)
Prerequisite: A grade of "B" or better in C D 261, 271, 329, and 330.
Principles underlying assessment procedures in speech language disorders for both monolingual and bilingual clients. Focus is on the cultural and linguistic variables affecting standardized and non-standardized assessment procedures.
Letter grade only (A-F). (Discussion 2 hours, laboratory 3 hours)

489. Management of Monolingual and Bilingual Clients (3)(4) (3)
Prerequisite: A grade of "B" or better in C D 456, 466, 476, 481A, 481B, and 483. C D 456, 466, 481A, and 481B may be taken concurrently.
Management of speech and language disorders for monolingual, bilingual, and/or bicultural clients. Relationship of assessment to management, formulation of goals, objectives, task analyses and maintenance. 20 hours observation in schools, campus clinic, and hospital/rehabilitation settings.
Letter grade only (A-F). (Discussion 2 hours, laboratory 3 hours)
491. Proctoring in Communicative Disorders (2-3)
Students shall engage in peer teaching and examination scoring in undergraduate courses under the specific direction of the course instructor.
Open only to students who have achieved the grade of "A" in the courses in which they are serving as proctor. May be repeated to a maximum of 6 units.

493. Directed Studies in Communicative Disorders (1-3)
Prerequisite: Consent of instructor.
Independent study under supervision of a faculty member. May be repeated to a maximum of 6 units. Not acceptable for graduate credit toward the master's degree.

GRADUATE LEVEL

530. Audiological Instrumentation (3)
Prerequisite: Consent of instructor.
Acoustical devices, psychoacoustics, calibration of pure tones and speech audiometers, sound field calibration, industrial audiology, and noise measurement. (Lecture 1 hour, laboratory 3 hrs.) Lottt grade only (A-F).

574. Hearing Aids (3)
Prerequisite: Consent of instructor.
Electro-acoustic characteristics, hearing aid evaluation in children and adults, probe tube measurements, earmolds, binaural hearing aids, CROS and its modifications, batteries, assistive listening devices, hearing aid orientation and counseling, cochlear implants, classroom amplification and acoustics, hearing aid dispensing.

590. Advanced Topics and Current Issues in Communicative Disorders (1-3)
Selected topics from the most recent developments and issues in speech-language pathology and audiology. Course content will vary with each offering. May be repeated to maximum of 3 units with different topics. Topics will be announced in the Schedule of Classes.

662. Seminar in Language Disorders in Children (3)
Prerequisite: C D 461A, 466.
Components of language, cognitive and perceptual abilities and communication are examined in children with normal and impaired language development. Major approaches to language intervention are discussed. Lottt grade only (A-F).

663. Seminar in Disorders of Phonology (3)
Prerequisite or corequisite: C D 496.

664. Seminar in Disorders of Voice and the Oro-facial Mechanism (3)
Prerequisites: C D 470, 496.
Selected problems in voice disorders through an investigation of the literature and clinical research. Lottt grade only (A-F).

665. Seminar in Language Disorders in Adults (3)
Prerequisite: C D 4810, 496.
Provides an understanding of neuropsychological substrates of language disorders in adults resulting from brain damage. Provides for the recognition and assessment of the syndromology and clinical aspects of adult language disorders relative to current research. Lottt grade only (A-F).

666. Seminar in Speech Motor and Swallowing Disorders (3)
Prerequisites: C D 466, 496.
Historical and current research and its effect upon the assessment and management of speech motor and swallowing disorders. Letter grade only (A-F).

667. Seminar in Autism Spectrum Disorders (3)
Prerequisites: C D 496; prerequisite or corequisite: C D 463 and consent of instructor.
Professor conducts assessment of aphasia, assessment and management of therapy, under supervision, with clients in the university speech and hearing clinic. Students handle all aspects of clinical program including initial interviews, parent counseling, and testing. Letter grade only (A-F).

668. Clinical Practice – Autism Spectrum Disorders (2)
Prerequisite: C D 467.
Provides students with the opportunity to gain hands-on experience in assessing and managing clients diagnosed with Autism Spectrum Disorders. Letter grade only (A-F). (2 hrs lecture, 2 hrs clinic)

669. Clinical Practice with Language Delayed/Disordered Children (2)
Prerequisites: C D 463, 496; prerequisite or corequisite: C D 466 and consent of instructor.
Students provide assessment and management of preschool and school-age children with identified delays/disorders. Under supervision, the practicum includes standardized and non-standardized assessment, parent interviews and conferences, development and implementation of a management program and report writing. Letter grade only (A-F).

670. Clinical Practice with Voice and Oro-facial Mechanism Disorders (2)
Prerequisites: C D 463, prerequisite or corequisite: C D 464 and consent of instructor.
Student conducts therapy sessions under supervision for persons with functional and/or organic voice disorders. Practicum includes initial interviews, diagnostics, therapy program planning, counseling and report writing. Letter grade only (A-F).

671. Clinical Practice with Speech Motor Disorders (2)
Prerequisites: C D 496, prerequisite or corequisite: C D 466 and consent of instructor.
Assessment planning and management in a supervised clinical experience with persons who have speech motor disorders. Letter grade only (A-F). (2 hrs lecture, 2 hrs clinic)

672. Clinical Practice in Audiology (2)
Prerequisites: C D 431, 432, 440, and consent of the instructor.
Student will conduct individual and group therapy with hearing impaired clients, as well as audiological evaluation of hearing impaired persons. Letter grade only (A-F).

673. Clinical Practice-Special Programs (2)
Prerequisites: At least one of the C D 669A through 669G courses. Specialized practicum to obtain experience with speech, language, and hearing disorders. May be repeated to a maximum of 4 units. Letter grade only (A-F).
669J. Clinical Practice with Language Disordered Adults (2)
Prerequisites: C D 489; prerequisite or corequisite: C D 665 and consent of instructor.
Student conducts clinical management sessions, under supervision, for adults with neurological language disorders.
Practicum includes initial interviews, assessment, management program planning, counseling and report writing, and application of research findings to the clinical process.
Letter grade only (A-F).

669L. Clinical Practice with Linguistically Different Clients (2) F, S
Prerequisites: 1) Completion of all disorder-specific graduate seminars; 2) completion of a minimum of 3 core clinics (CD 609 A-J; 3) CD 483 and 489, or equivalent as approved by the instructor) and consent of instructor.
Assessment/management of speech-language disorders in clients whose native language is different than that of the clinician.
Training of bilingual interpreters.
Minimum 25 clock hours required. Letter grade only (A-F).

670. Internship in Speech and Language Pathology (5)
Prerequisites: C D 665A or C D 665F, G, and J with a GPA of 3.0.
Advanced clinical supervised practice with speech and language disordered persons in either a hospital, rehabilitation agency or speech and language center.
Letter grade only (A-F).

673. Assessment of Outer, Middle, and Inner Ears (3)
Prerequisite: Consent of instructor.
Advanced masking concepts, anatomy/physiology/pathology of the outer-middle-inner ears, immittance testing, calibration of immittance meters, functional hearing loss.
Letter grade only (A-F).

674. Seminar in Audiology: Current Topics in Hearing and Hearing Aid Evaluation (3)
Prerequisite: Consent of Instructor
Review of literature regarding contemporary topics. Focus on amplification (e.g., hearing aids), assessment and management of hearing loss in adults and children. Emphasis on student participation and collaboration. Literature review and presentation required.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

675. Assessment of Central Auditory Nervous and Vestibular Systems (3)
Prerequisite: Consent of instructor.
Anatomy/physiology/pathology of the 8th cranial nerve, vestibular system, brainstem, and central auditory system; auditory evoked potentials, calibration of auditory evoked systems, tone decay; BERA, ABR, electroneystagmography, functional hearing loss.
Letter grade only (A-F).

679. Practicum in Audiology (2-10)
Prerequisites: CD 431, 432, 440 or consent of instructor.
Student conducts evaluation and rehabilitation of persons with hearing disorders.
May be repeated to a maximum of 10 units. Letter grade only (A-F).

680. Internship in Audiology (5)
Prerequisites: CD 695A or B or C, 679 and 689G, or consent of the instructor.
Advanced clinical practice in audiology with hearing impaired persons in a community facility.
Letter grade only (A-F).

686A. Advanced Field Studies with Communication Handicapped (5)
Prerequisites: Passing of CBEST, completion of CD 662, 664, 665, 666 and all but one of the following: 669A, 669C, 669G, 669F, 669G, 669U.
Clinical Rehabilitation Services, Language Speech and Hearing Specialist candidates participate in supervised clinical practicum in an off-campus site, ten hour speech and language setting(s) for the equivalent of one semester earning 5 units of field study.
Enrollment by application to the Communicative Disorders Department only.
Credit/No Credit grading only. (Fieldwork)

695. Directed Readings (1-3)
Prerequisite: Consent of instructor.
Readings in communication sciences/disorders. Required of all candidates for the master's degree not electing the thesis option.
Under special circumstances, may be repeated to a maximum of 6 units. Letter grade only (A-F).

696. Research Methods: Applied and Basic (3)
Prerequisite: PSY 210 or equivalent or consent of instructor.
Professional issues related to research and clinical settings. Application of scientific method, experimental design (group and single subject) and related statistical methods (parametric and non-parametric). Evaluation literature in the field.
(Lecture 3 hours.) Letter grade only (A-F).

697. Directed Research (1-5)
Prerequisite or corequisite: C D 665 and consent of instructor.
Independent research under supervision of a faculty member.
Letter grade only (A-F).

698. Thesis (1-4)
Prerequisite: Advancement to candidacy for master's degree.
Preparation, completion and submission of an acceptable thesis in partial fulfillment of the requirements for the master's degree.

COMPARATIVE WORLD LITERATURE
College of Liberal Arts

Department Chair: Carl Fisher
Department Office: McIntosh Humanities Building (MHB), Room 516
Telephone / Fax: (562) 985-4239 / (562) 985-4863
Website: www.csulb.edu/ctl/comp_lit

Professors: Alwin Basem, Roland E. Bush, Elizabeth Dashah, Carl Fisher, Cheryl Goldstein, Febura Serrano, Vlatka Velic
Administrative Support Coordinator: Gretchen Dinger

Students desiring information should contact the department office for an appointment with the advisor.

Career Possibilities
Creative/Mode Writer • Editor • Technical Writer • Librarian • Copyright Writer • Literary Agent • Literary Critic • Foreign Service Officer • Public Relations Worker • Market Researcher • Educator • Lawyer • Government Affairs Officer • Management Trainee • Underwriter • Claims Adjustor (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
Comparative World Literature is the study of foreign literatures in translation and the relationships among those literatures and between literature and other fields such as art, music, history, philosophy, and theatre. At CSULB, Comparative World Literature also offers a strong focus in cultural studies and mythology as bases for understanding literature and for the ways we see ourselves in a multicultural and global environment. Suggested preparation: course work in world literature, history, English composition, and foreign language.

Bachelor of Arts in Comparative World Literature (code CLTBA01) (120 units)
The Bachelor of Arts in Comparative World Literature has three emphasis options: Language and Literature, World Literature, and Cultural Studies.

Emphasis I: Language and Literature
The traditional undergraduate major in Comparative Literature, designed to prepare the student for graduate study in Comparative Literature or related fields, with a 24 unit core and two 12 unit concentrations.

Requirements
1. Core Courses (24 units distributed as follows):
   A. CWL 330A and 330B.
   B. Course. At least one of the following: CWL 346, 420, 422B*, 440, 451B*, 453, CLSC 420A*.
   C. Author. At least one of the following: CWL 430, 449.
   D. Non-Western or Mythology. At least one of the following: CWL 334, 342*, 350, 402, 403, 440, 445, 452.
   E. Theory. At least one of the following: CWL 361, 365, 401.
   F. Literary Movement or Comparative Study. At least one of the following: CWL 344, 349, 404, 406, 410, 448, CLSC 311*, 311B*.
   G. European Period. At least one of the following: CWL 431, 432, 435, 437, 438.
   Note: CWL 440 may be used in both groups B and D with appropriate different topics.

2. The First Concentration. 12 upper-division units in one foreign language, six of which must be in literature classes. If a language is chosen which offers a limited number of courses, some lower-division units will suffice, but they must be, at a minimum, the equivalent of four semesters of college study.

3. The Second Concentration. 12 upper-division units in any one of the following areas: American Indian Studies, Art History, Asian Studies, Asian American Studies, Black Studies, Chicano and Latino Studies, Classics, English Literature, English Option in Creative Writing, film studies, History, music history, Philosophy, Religious Studies, Theatre Arts, Women's Studies, or a second foreign language.

If the concentration is in American Indian Studies, Asian Studies, Asian American Studies, Black Studies, Chicano and Latino Studies, English Option in Creative Writing, Theatre Arts, Women's Studies, or a second foreign language area, 6 of the units must be in literature courses. If the concentration is in Theatre Arts, Women's Studies or film studies, appropriate courses may be chosen from any department offering such courses, including Comparative World Literature and Classics.

Emphasis II: World Literature
This emphasis offers a broad background in world literature in translation. It is appropriate for the student interested in focusing on global literature and culture as well as the student who elects the comparative world literature teaching option of the English Single Subject Credential program.

Requirements
A minimum of 36 units is required, at least 24 upper-division units, distributed in the following way, with no more than two lower-division courses in any category (12 units total):

1. Required Courses (9 units): CWL 330A and CWL 330B; CWL 361 or 365.

2. Area Courses (27 units): Three courses (9 units) from each of the following areas:

274 • Comparative World Literature • 2009/2010 CSULB Catalog
Minor in Comparative World Literature (code CLTU/M01)

In addition to the bachelor of arts degree, the Department offers a minor in comparative world literature. The minor provides a flexible program for the student who is majoring in another discipline, but who is interested in comparative world literature either for professional advantages or for intellectual enrichment.

Requirements
A minimum of 18 units in comparative world literature, of which at least 12 are upper division excluding CWL 499.

The Center for Medieval and Renaissance Studies
The Center for Medieval and Renaissance Studies offers two programs to students who want to study medieval and Renaissance political and social history, art, literature, philosophy, religion, music, and drama. Undergraduate students can pursue a Certificate or a minor in Medieval and Renaissance Studies. Graduate students can pursue a Certificate in Medieval and Renaissance Studies. Interested students should turn to the catalog section entitled “Medieval and Renaissance Studies” and contact the program directors in MHB 512.

Comparative World Literature Courses (CWL)

LOWER DIVISION

100. Introduction to World Literature (3)
Prerequisite/Corequisite: Any GL Foundation course.
Readings in translation from world literature. Emphasis on how literature engages unique cultural elements around the world as well as cross-cultural comparisons.

101. Introduction to Comparative World Literature (3)
Prerequisite/Corequisite: Any GE Foundation course.
An introduction to the basics of literary interpretation and comparative literature. Strongly recommended for majors in Comparative World Literature.

103. Introduction to Comparative Asian Literature and Culture (3)
Prerequisite/Corequisite: Any GE Foundation course.
Introduction to two major Asian cultures—India and China—through an exploration of their literatures, cultures, and diasporas. Focus will be on the modern period.

104. Literature and Culture of the Middle East (3)
Prerequisite/Corequisite: Any GE Foundation course.
Introduction to Middle Eastern and North African culture through an exploration of their literatures, with a focus on some of the major figures of the twentieth- and twenty-first centuries, such as Naguib Mahfouz, Ghassan Kanafani, Edward Said, and others. Lottor grade only (A-F).

124. Introduction to World Theatre and Drama (3)
Prerequisite/Corequisite: Any GE Foundation course.
Introduction to all aspects of theatre including criticism, dramatic literature, movements, themes, historical background and theatrical production from different parts of the world.
132. Folklore and Mythology (3)
Prerequisite/Corequisite: Any GE Foundation course. Introduction to the study of mythology and folklore in a global context, with an emphasis on their application in literature. Not open for credit to students with credit in CWL 232.

341. Reading the World (3)
Prerequisite/Corequisite: Completion of GE Foundation requirements. Introduction to contemporary theories of reading and interpretation. Examination of diverse forms of human expression and critical understanding from around the world and across the disciplines designed to develop and refine a broad repertoire of reading tools and practices.

220. Literature and Play (3)
Prerequisites: Completion of the GE Foundation courses. Explores the interrelation of human physiological, social, and psychological states as represented in literature and historically diverse works of literature concentrated upon the nature of human play and the purpose of human games.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

315L. Literature and Medicine (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Interdisciplinary examination of the complex relationship between medicine and human experience, integrating materials from the humanities and social sciences to explore diverse experiences across cultures, and among genders, and in various economic and social contexts. Letter grade only (A-F).

320L. Comic Spirit (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of comedy as a literary genre and the manifestation of the comic spirit in related art forms such as music, art, and film, focusing on the history and philosophy of comedy as well as theories of laughter.

324L. Theatre Today (3)
Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. Examines current trends, achievements, and problems in contemporary western theatre and dramatic literature. Particular attention will be paid to multicultural expression in the theatre.

Same course as THHEA 324L. Not open for credit to students with credit in THHEA 324L.

330A.B. Masterpieces of European Literature (3, 3)
Prerequisite: One course in literature or consent of instructor. Representative selections, in translation, of European texts to and since the Renaissance and their relation to the development of Western civilization.

334. Introduction to East Asian Literatures and Cultures (3)
Prerequisite: Completion of GE Foundation requirements. A comprehensive introduction to the comparative study of East Asian cultures through the reading of representative selections from the literatures of China, Korea, and Japan in historical context. Focus is on the modern period.

Same course as ASIT 334. Not open for credit to students with credit in ASIT 334.

342. The Bible as Literature (3)
Prerequisites: Completion of GE Foundation requirements. Reading of representative Biblical selections interpreted from a literary standpoint.

344. Literature of the Holocaust (3)
Prerequisites: One course in literature or consent of instructor. Intensive study of literary works of different genres and cultural backgrounds, from 1945 to the present, to analyze the strategies writers use to present the historical events and the cultural reverberations of the Holocaust.

346. Readings in World Poetry (3)
Prerequisite: One course in literature or consent of instructor. Representative selections of the poetry of the world from the earliest examples to the present. Facing-page translations will be included.

349. Literary Movements (3)
Prerequisite: One course in literature or consent of instructor. Intensive study of a movement or theme in world literature. Specific movement or theme will be announced in the Schedule of Classes.

May be repeated to a maximum of 9 units with different topics.

350. Global Literature in American Culture (3)
Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. Comparative and thematic study of transnational literary culture, as represented in at least three distinct American ethnic groups. Readings examined in relation to contemporary global themes and in relation to the original national literatures.

361. Masterpieces of Literary Criticism (3)
Study of literary criticism from Plato to the present, focusing on history of literary and cultural theory as well as methods of critical analysis applied to literary texts and other forms of cultural expression.

365. Cultural Studies: Histories, Theories, and Issues (3)
Prerequisite: One course in literature or consent of instructor. Cultural studies in a global, comparative context, including theories of discursive practices and identity politics; examined through theoretical discourses about literature and the arts and also as an interpretive technique for cultural institutions, practices, and products.

402/502. Studies in Middle Eastern Literature and Culture (3)
Prerequisite: One course in literature or consent of instructor. Study of specific authors, themes, genres, movements, or aspects of literature and culture in the Middle East or between the Middle East and the West.

Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

403/503. Studies in Asian Literature (3)
Prerequisite: One course in literature or consent of instructor. Interrelationships of two or more authors, themes, genres, movements or aspects of literature and culture in Asia or between Asia and the West.

Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

404/504. Women in World Literature (3)
Prerequisite: One course in literature or consent of instructor. Study of the role of women in world literature.

Specific movement, area, or theme will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.
406/506. Studies in East European Literature and Culture (3)
Prerequisite: One course in literature or consent of instructor. Major movements, authors, and themes in Eastern European literature and culture (Slavic and non-Slavic) and/or the relationship of East European literature and culture and Western Europe and North America. Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

410. Literature and Music (3)
Prerequisite: One course in literature or consent of instructor. Examination of relationship between music and literature in 19th and 20th centuries with emphasis placed on representative literary works and musical compositions that show mutual influence and common features and structures.

421L Art and Literature (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Interdisciplinary study of 19th and 20th Century art and literature, emphasizing comparative analysis of styles, methods, principles, and movements across genres as well as major artists, writers and theorists in their social and historical contexts.

441L Medieval World (3)
Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. Interdisciplinary examination of major themes in medieval society and culture, with an emphasis on literature, the arts, and the historical forces that combined to produce medieval culture as a whole.

451L Film and Novel in Society (3)
Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. Comparative, interdisciplinary study of multicultural literature in historical and sociopolitical context. Ethnic groups include Native American, African American, Latinx/Latinos, Asian American, and Middle Eastern American.

420. Studies in the Comic Spirit (3)
Prerequisite: CMW 320L or consent of instructor. Study of specific themes, theories, genres, and/or interdisciplinary relationships in comedy. Topics to be announced in the Schedule of Classes. May be repeated for a maximum of 6 units with different topics.

422L Renaissance Theatre and Drama (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Interdisciplinary study of the achievements, problems, themes, and trends of Renaissance drama in Italy, Spain, France, and England between 1550 and 1650. Major plays of the period are read in translation, with attention to literary and theatrical elements.

430/530. Dante (3)
Prerequisite: One course in literature or consent of instructor. A reading, in translation, of the major works of Dante, including The Divine Comedy. Examination is given to the comparative nature of Dante’s work, his sources and his influence on later writers, artists, and composers.

431L/531L Medieval Literature (3)
Prerequisite: One course in literature or consent of instructor. Representative selections, in translation, from writings of the medieval period, reflecting dominant ideas of the time.

432/532. Continental Renaissance Literature (3)
Prerequisite: One course in literature or consent of instructor. Comparative study of the major non-dramatic works of Renaissance Europe, including authors such as Petrarch, Boccaccio, Lorenzo de’ Medici, Machiavelli, Ariosto, Tasso, Ronsard, Rabelais, Erasmus, and Cervantes. Emphasis is also given to influences, trends, and contributions to the modern world.

435/535. Literature of the Enlightenment (3)
Prerequisite: One course in literature or consent of instructor. A comparative study of European literature, from approximately 1650 to 1800, with an emphasis on reading literary works within historical context and considering the imaginative and intellectual achievements and legacies of the Enlightenment.

437/537. Romantic Literature (3)
Prerequisite: One course in literature or consent of instructor. Representative selections, in translation, from European writers of the Romantic period with an emphasis on a comparative study of works from Germany and France from about 1770 to 1850.

438/538. 20th Century European Literature (3)
Prerequisite: One course in literature or consent of instructor. Comparative study of continental European literature from 1800 to present. Focus on novels and drama. Topics include realism, naturalism, psychological novel, theater of the absurd, existentialism, modernism, postmodernism, and postcolonialism.

440/540. Latin American Literary Studies (3)
Prerequisite: One course in literature or consent of instructor. Comparative study of major literary genres in Latin American literature in relation to principal periods and movements of Western literary tradition. Genres for the semester will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

445/545. American Folklore Studies (3)
Prerequisite: One course in literature or consent of instructor. Special topics in American folklore. Topics are chosen to provide a bridge between literary, aesthetic, and specialized folkloric studies of American culture. Special attention will be paid to European and Third World contributions to American folklore.

448/548. Comparative Studies (3)
Prerequisite: One course in literature or consent of instructor. Interrelationship of two or more disciplines, with emphasis on reciprocal influences and borrowing of materials during various literary periods. The class will feature a different interdisciplinary study each semester.

449/549. Critical Studies in Major Continental Writers (3)
Prerequisite: One course in literature or consent of instructor. Intensive and comparative study of one to three major continental authors. Authors to be studied will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

451L. The Novel and the Motion Picture in Contemporary Society (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Interdisciplinary study of two genres, with particular focus on novels made into films and on aesthetic distinction of both forms as major genres in 20th and 21st centuries.
452/552. Studies in Mythology (3)
Prerequisites: One course in literature or consent of instructor.
Interrelation of two or more mythologies, mythological themes or theories of mythology. Different areas of study of mythology each semester.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

453/553. Fairy Tales (3)
Prerequisites: One course in literature or consent of instructor.
Study of fairy tales as a unique literary genre and art form. Class will apply contemporary theory to tales and identify psychological, religious, cultural, and alchemical patterns and symbols that manifest the realization of identity and illustrate creative processes.

461/561. Topics in Contemporary Literary Criticism (3)
Prerequisites: Two upper-division literature courses or consent of instructor.
In-depth study of a particular critic or movement in contemporary literary theory.
May be repeated to a maximum of 9 units with different topics.

482. Internship Program (1-3)
Prerequisites: Consent of instructor and department chair.
Field work in literature-related industries, internships and other assignments directed by a supervising faculty member.
May be repeated to a maximum of 6 units.
Credit/No Credit grading only.

485. Genres (1-3)
Prerequisites: Consent of instructor.
Production of student journal. Genre, including editing, design, soliciting contributors, working with printer, desktop publishing, and financial management. Organizational meeting previous fall semester. Contact department office for information.
May be repeated to a maximum of 9 units.
Credit/No Credit grading only.

490. Directed Studies (1-4)
Prerequisite: Consent of instructor.
Independent study of special topics under supervision of a faculty member.
May be repeated to a maximum of 6 units with consent of department.

GRADUATE LEVEL

501. Advanced Interdisciplinary Study (3)
Intensive study of the theories and methods of comparing and interrelating literature with other disciplines such as various areas among the fine arts, the social sciences and the sciences. Course will involve independent research.
Letter grade only (A-F).

502/402. Studies in Middle Eastern Literature and Culture (3)
Prerequisites: One course in literature or consent of instructor.
Study of specific authors, themes, genres, movements, or aspects of literature and culture in the Middle East or between the Middle East and the West.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

503/403. Studies in Asian Literature (3)
Prerequisites: One course in literature or consent of instructor.
Interrelationships of two or more authors, themes, genres, movements or aspects of literature and culture in Asia or between Asia and the West.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

504/404. Women in World Literature (3)
Prerequisites: One course in literature or consent of instructor.
Study of the role of women in world literature.
Specific movement, area, or theme will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

506/406. Studies in East European Literature and Culture (3)
Prerequisites: One course in literature or consent of instructor.
Major movements, authors, and themes in Eastern European literature and culture (Slavic and non-Slavic) and/or the relationship of East European literature and culture and Western Europe and North America.
Letter grade only (A-F). Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics.

530/430. Dante (3)
Prerequisites: One course in literature or consent of instructor.
A reading, in translation, of the major works of Dante, including the Vita Nuova and the Divine Comedy. Examination is also given to the comparative nature of Dante's work: his sources and his influence on later writers, artists, and composers.
Letter grade only (A-F).

531/431. Medieval Literature (3)
Prerequisites: One course in literature or consent of instructor.
Representative selections, in translation, from writings of the medieval period, reflecting dominant ideas of the time.
Letter grade only (A-F).

532/432. Continental Renaissance Literature (3)
Prerequisites: One course in literature or consent of instructor.
Comparative study of the major non-dramatic works of Renaissance Europe, including authors such as Petrarch, Boccaccio, Lorenzo de Medicis, Machiavelli, Ariosto, Tasso, Ronsard, Rabelais, Erasmus, and Cervantes. Emphasis is also given to influences, trends, and contributions to the modern world.
Letter grade only (A-F).

535/435. Literature of the Enlightenment (3)
Prerequisites: One course in literature or consent of instructor.
Comparative study of European literature, from approximately 1550 to 1800, with an emphasis on reading literary works within historical context and considering the imaginative and intellectual achievements and logics of the Enlightenment.
Letter grade only (A-F).

537/437. Romantic Literature (3)
Prerequisites: One course in literature or consent of instructor.
Representative selections in translation from European writers of the Romantic period with an emphasis on a comparative study of works from Germany and France from about 1770-1850.
Letter grade only (A-F).

538/438. 20th Century European Literature (3)
Prerequisites: One course in literature or consent of instructor.
Comparative study of continental European literature from 1900 to present. Focus on novels and drama. Topics include realism, naturalism, psychological novel, theatre of the absurd, existentialism, modernism, postmodernism, and postcolonialism.
Letter grade only (A-F).

540/440. Latin American Literary Studies (3)
Prerequisites: One course in literature or consent of instructor.
Comparative study of major literary genres in Latin American literature in relation to the principal periods and movements of the Western literary tradition.
Genres for the semester will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).
545/445. American Folklore Studies (3)
Prerequisite: One course in literature or consent of instructor.
Special topics in American folklore. Topics are chosen to provide a bridge between literary, aesthetic and specialized folkloristic studies of American culture. Special attention will be paid to European and Third World contributions to American folklore.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics.

548/448. Comparative Studies (3)
Prerequisite: One course in literature or consent of instructor.
Interrelationship of two or more disciplines, with emphasis on reciprocal influences and borrowing of materials during various literary periods. The class will feature a different interdisciplinary study each semester.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

549/449. Critical Studies in Major Continental Writers (3)
Prerequisite: One course in literature or consent of instructor.
Intensive and comparative study of one to three major continental authors.
Authors to be studied will be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

550. Topics in Comparative World Literature (3)
Prerequisite: CWL 501 or consent of instructor.
Special studies of movements, figures, and relationships in world literature, or between world literature and other disciplines.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

552/452. Studies in Mythology (3)
Prerequisites: One course in literature or consent of instructor.
Interrelation of two or more mythologies, mythological themes or theories of mythology. This class will feature a different area of an interdisciplinary or comparative nature in the study of mythology each semester.
Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

553/453. Fairy Tales (3)
Prerequisite: One course in literature or consent of instructor.
Study of fairy tale as a unique literary genre and art form. Class will apply contemporary theory to tales and identify psychological, religious, cultural, and alchemical patterns and symbols that manifest the realization of identity and illustrate creative processes.
Letter grade only (A-F).

561/461. Topics in Contemporary Literary Criticism (3)
Prerequisite: Two upper division literature courses or consent of instructor.
In depth study of a particular critic or movement in contemporary literary theory.
May be repeated to a maximum of 9 units with different topics.
COMPUTER ENGINEERING AND
COMPUTER SCIENCE
College of Engineering

Department Chair: Kenneth James
Department Office: Engineering & Computer Sciences (ECS) - 552
Telephone: (562) 985-4285
Website: http://www.cecs.csulb.edu/

Faculty: Anastasios Chaozisakos, Michael Christensen, Sandra
Cymer (Emeritus), Wayne Dick, Todd Ebert, Burkhard Engler, Arthur
Gillies, Darin Goldstein, Miki He, Michael Hoffman, Tom
Johnson, Shu Lam, Dar-Blou Liu, Troy Bradley Maples, Alvaro
Monge, Frank Munjala, Tinh Nguyen, Galloen Van Lent, Dennis
Volper, Xiangdong Wu
Undergraduate Advisors: Michael Chelius, Alvaro Monge
Graduate Advisor: Burkhard Engler

General Education Advising: Academic Advising - Horn Center
Minor and Certificate Advisor: Barbara Mack
Administrative Support Coordinator: Robin Iwami
Administrative Support Assistant: Kasey Arthuere

Students desiring detailed information should contact the
department for referral to one of the faculty advisors.

Career Possibilities
Computer Engineer • Software Engineer • Systems Analyst
• Microcomputer Programmer • Web Application Developer
• Mainframe Programmer • Applications Programmer • LAN/
WAN Administrator • Systems Administrator • Computer
Services Representative • Database Administrator • Technical
Services Manager • Telecommunications Analyst (Some of
these, and other careers, require additional education or
experience. For more information, see www.careers.csulb.
.edu.)

Accreditation
The Bachelor of Science in Computer Engineering is
accredited by the Engineering Accreditation Commission
(EAC) and the Bachelor of Science in Computer Science
by the Computing Accreditation Commission (CAC) of
the Accreditation Board for Engineering and Technology
(ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202

Advisory Board
The Department of Computer Engineering and Computer
Science is supported by an Advisory Board composed of
engineers, computer scientists, and business executives
in the Southern California area. This liaison helps the
department keep its curricula responsive to the needs of the
community.

Undergraduate Educational Objectives
All courses and programs in the Department of Computer
Engineering and Computer Science are designed to
meet the following objectives: Students will receive a
comprehensive education in Computer Engineering and/or
Computer Science, as well as the sciences and humanities,
that will serve them in both their professional and personal

Bachelor of Science in Computer
Engineering (code CECSB502) (128 units)
The Bachelor of Science in Computer Engineering
degree program has a two-part objective. The first is to
provide students with a strong background in mathematics,
physics, and engineering science. The curriculum includes
courses in digital systems, embedded systems, integrated
circuits design, including operating systems and software
engineering. The second objective is to provide students
with the skills necessary to be effective contributors in a
quality-oriented, customer-focused environment. Courses
throughout the program, especially those in the junior
and senior years, emphasize an open-ended, design-oriented
approach to solving engineering problems. Teamwork,
communication skills, and an interdisciplinary approach to
problem solving are integrated into the senior computer
engineering design courses.

Requirements
Lower Division: CECS 105, 174, 201, 211, 228, 262, 271,
274, 282; ENGR 101, 102; MATH 122, 222; PHYS 151, 152
(or EE 210 and 210L).
Upper Division: CECS 301, 311, 343, 346, 347, 360, 362,
440, 447, 460, 463, 490A, 490B, EE 380 (or MATH 380);
plus nine units of approved electives to be selected from
CECS 406, 451, 461, 474, 475, 497; EE 386, 486; CE 406;

280 • Computer Engineering and Computer Science • 2009/2010 CSULB Catalog
ECON 300, CEM 310 (or ENGL 317), ENGR 350, MATH 370A.

A grade of "C" or better must be achieved in all required and elective courses. CE 606, CEM 310, CECS 104, 105, 174, 201, 211, 228, 262, 271, 274, 282, 301, 311, 343, 346, 347, 360, 362, 406, 440, 447, 451, 460, 463, 474, 475, 490A, 490B, 497, ECON 300; EE 210 and 210L, 380, 386, 486; ENGL 317; ENGR 101, 102, 350; MATH 122, 222, 370A, 380, PHYS 151, 152.

Bachelor of Science in Computer Science (code CECSBS01) (126 units)

The Bachelor of Science in Computer Science degree is designed to prepare graduates for a variety of professional careers in the computer field. The curriculum is designed to provide students with both breadth and depth in computer science. Breadth is achieved through a series of core courses that stress a balance between the theoretical and practical aspects of computer science. The topics covered in these courses include the following: the basics of programming languages, software design and analysis, data structures, algorithms, digital systems, computer organization, computer architecture, and operating systems. Extensive laboratory time is required for these courses, and design and analysis experiences are emphasized. Depth is achieved through courses (both required and elective) on advanced computer science topics. These courses provide students with in-depth knowledge of the material covered in the breadth portion of the curriculum.

Requirements

Lower Division: CECS 105, 174, 201, 228, 274, 277, 282, 289; ENGR 101, 102; MATH 122, 222, 247; Minimum of 12 units of approved science electives to include at least one computer science course.

Upper Division: CECS 323, 326, 327, 328, 441, 442; ENGR 350; MATH 350 (or EE 350); CEM 310 or ENGL 317; plus three (3) units of study in formal languages and computability to be chosen from CECS 419, 424, 444; plus 15 units of approved electives to be selected as follows: six (6) units of core electives chosen from CECS 419, 424, 428, 429, 444, 445, 448, 450, 451, 474, 475, MATH 323; three (3) units of applied electives to be chosen from CECS 455, 470, 472, 475, 476; three (3) units from a capstone course to be chosen from CECS 423, 491, 492; an additional three (3) units to be chosen from either the core, applied, or senior capstone course list, or from CECS 401, 405, 406, 409, 409.

A grade of "C" or better is required in the following courses: CEM 310; CHEM 111A, 111B, 111C; CECS 105, 174, 201, 228, 274, 277, 282, 285, 323, 326, 327, 328, 341, 343, 423, 490A, 491, 492; EE 210 and 210L, 380; ENGL 317; ENGR 101, 102, 350; MATH 122, 222, 247, 380; PHYS 151, 152.

Bachelor of Science in Engineering Technology

Technology and Engineering Education Option (code ET__BS15)

For requirements, see the description in the Engineering Technology Programs section of this Catalog.

Minor in Computer Science (code CECSUM01)

The minor in Computer Science is designed to prepare students in other majors for careers in a wide variety of fields which require computer science expertise.

Requirements

A minimum of 24 units. CECS 174, 201, 228, 274, 277, 323, and two courses to be selected from CECS 326, 328, 343, 423, 449, 470, 474, 475, ENGR 350.

Minor in Web and Technology Literacy (code CECSUM03)

Open to all majors except those seeking a B.S. Engineering Technology option in Technology and Engineering Education.

The minor in Web and Technology Literacy is designed to provide students from many majors some valuable internet and web authoring skills and a broad understanding of technology. Digital devices and computers are ubiquitous in our lives, yet most people do not know how they were designed, how they work and how to use them. All CSULB baccalaureate degrees prepare students for the reading, writing, mathematical operations, speaking and critical thinking. This minor will provide the technical skills not included in non-technical degrees, but required for success in a highly technical world.

This minor will prepare students to work with a variety of technologies including computers and related technologies and the proper setup and operation of equipment along with valuable troubleshooting skills required of today's work force. Students will gain an understanding of the system design process and how our digital world works. Students will learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues encountered when using the internet. In addition, students will learn to create a robust, usable, and accessible Web site. This minor will provide valuable technical skills for a variety of fields including graphic arts, teaching, journalism, law, business and public administration, social work and many others. The minor is conferred concurrently with the B.S. degree.

Requirements

A minimum of 18 units as specified below:
2. Completion of 3 units from the following list of electives:
   CECS 310, 401, 412; ENGR 350; ART 366; ETEC 435.

Minor in Computer Science Applications (code CECSUM02)

The minor in Computer Science Applications is designed to prepare students to be able to write small programs and to maintain and upgrade PC software and hardware as well as understand how to set up a local area network. In addition it prepares students to be able to design and implement web applications using modern and readily available authoring tools. This minor will provide valuable skills for a variety of fields including teaching, law, business and public administration, engineering and many others. The Minor in Computer Science Applications is not open to students majoring in Computer Science or Computer Engineering.
Requirements
Completion of 18 units as specified below:
1. Completion of 12 core units: CECS 110, 174, 200, 410
2. Completion of 6 units from the following list of electives:
   CECS 300, 310, 412; IS 300, 340, 343; ETEC 435.

Certificate in Web and Technology Literacy
(code CECSCT01)
Open to all majors except those with or seeking a B.S. Engineering Technology option in Technology and Engineering Education.

The certificate in Web and Technology Literacy is designed to give students from many majors some valuable internet and web authoring skills and a broad understanding of technology. Digital devices and computers are ubiquitous in our lives, yet most people do not know how they were designed, how they work and how to use them.

This certificate will prepare students to work with a variety of technologies including computers and related technologies and the proper setup and operation of equipment along with valuable troubleshooting skills required of today's labor force.

Students will gain an understanding of the system design process and how our digital world works. Students will learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues encountered when using the internet. In addition, students will learn to create a robust, useable, and accessible Web site. This certificate will provide valuable technical skills for a variety of fields including graphic arts, teaching, journalism, law, business and public administration, social work and many others. The certificate is conferred as a post-baccalaureate certificate or concurrently with the B.S./B.A. degree.

Requirements
A minimum of 24 units as specified below:
1. Completion of 18 core units: CECS 110, 202, 200, 300, 410, 412
2. Completion of 6 units from the following list of electives:
   CECS 310, 401; ENGR 350; ART 366; ETEC 435.

Graduate Programs

Master of Science in Computer Science
The Master of Science in Computer Science is offered by the Department of Computer Engineering and Computer Science, College of Engineering. Two options are offered:
1. Option in Computer Engineering
2. Option in Computer Science

The Option in Computer Engineering offers advanced study in the theory, analysis, design, and applications of both computer hardware and software. The Option in Computer Science offers advanced study in software development and engineering, networking, operating systems, distributed computing, artificial intelligence, security, and analysis of algorithms.

Admission Procedures
To be considered for admission the graduate applicant must have earned a bachelor's degree from an accredited institution, be in good standing at the last institution attended, and have a grade point average (GPA) of at least 2.7 for the last 60 semester units (90 quarter units) attempted. The general Graduate Record Examination (GRE) is not required, but highly recommended for international students and those students with a GPA below 3.0.

There is no separate department application, but applicants should submit a second set of transcripts to the department.

Option in Computer Engineering
(code CECSMS02)
Prerequisites
1. A bachelor's degree in computer science, engineering, or other appropriate discipline from an accredited college or university, with a minimum grade point average (GPA) of 2.7 in the last 60 semester units attempted.
2. One year of instruction in an object-oriented programming language, CECS 301, 326, 343, 346, 347, 360, 440, and MATH 370A.
3. Students must consult with the program graduate advisor prior to enrolling in any course for the program.

Requirements
Students must complete a minimum of 30 graduate and approved upper-division course units including the following:
1. At least 21 units at the graduate level of instruction;
2. CECS 450, 463, 530, and either 531 or 540;
3. One course from the Computer Engineering Fundamental Areas, namely CECS 526 or 528;
4. One additional course from the MSCS Application Courses;
5. All students must complete either:
   A. a comprehensive examination, or
   B. a thesis with oral defense which requires a total of 6 units of CECS 697 or 698, of which at least 4 units must be CECS 698.

Option in Computer Science
(code CECSMS01)
Prerequisites
1. A bachelor's degree in computer science, engineering, or other appropriate discipline from an accredited college or university, with a minimum grade point average (GPA) of 2.7 in the last 60 semester units attempted.
2. One year of instruction in an object-oriented programming language, CECS 228, 285, 323, 326, 328, 341, 343, MATH 380, and either 419, 424, or 444.
3. Students must consult with the program graduate advisor prior to enrolling in any course for the program.

Requirements
Students must complete a minimum of 30 graduate and approved upper-division course units including the following:
1. At least 21 units at the graduate level of instruction;
2. CECS 526;
3. One course from the Computer Science Fundamental Areas, either CECS 526 or 530;
4. Two courses from the MSCS Application courses;
5. All students must complete either:
   A. a comprehensive examination, or
   B. a thesis with oral defense which requires a total of 6 units of CECS 697 or 698, of which at least 4 units must be CECS 698.

**Advancement to Candidacy**

Students applying for advancement to candidacy must:
1. have completed all undergraduate deficiencies with grades of "C" or better;
2. have attained an overall grade point average (GPA) of 3.0;
3. have completed at least 12 units applicable to the degree with a GPA of at least 3.0;
4. have fulfilled the Graduation Writing Assessment Requirement (GWAR);
5. and have their program of studies approved by the CECS department graduate advisor.

---

**Courses (CECS)**

**LOWER DIVISION**

100. Critical Thinking in the Digital Information Age (3)
Prerequisite/Corequisite: ENGL 100 or its equivalent.
Develop critical thinking skills with technical tools. Main topics include: identifying topics for investigation, developing planning strategies (locating pertinent information), critically analyzing sources of information, testing hypotheses, synthesizing and organizing results for effective communication.
Letter grade only (A-F). (Lecture 3 hours)

105. Introduction to Computer Engineering and Computer Science (1)

Introduction to the fields of computer engineering and computer science. Current and future trends and challenges in various fields of computing. Social, ethical, and economical issues related to computing technology. Exploration of career and professional development opportunities.
(Lecture 3 hour) Letter grade only (A-F).

110. Web Design I (3)
Overview of computer systems, networking, Internet, HTML, JavaScript, social implications of technology including privacy and security issues. Introduce computer applications and multimedia software such as video editing, creating graphics using interactivity and animation, and Web searching. Develop problem solving skills.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

174. Introduction to Programming and Problem Solving (3)
Prerequisite: MATH 113 (or equivalent).
Introduction to basic concepts of computer science and fundamental techniques for solving problems using the Java programming language. Structured problem solving, object-oriented programming, programming style. Applications to numerical and non-numerical problems.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

200. Web Design II (3)
Prerequisite: CECS 110.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

201. Computer Logic Design I (3)
Prerequisite: MATH 113 (or equivalent).
Basic topics in combinational and sequential switching circuits with applications to the design of digital devices. Laboratory projects with Small Scale Integration (SSI) implementations using Computer Aided Design (CAD).
(Lecture 2 hours, lab 3 hours) Letter grade only (A-F).

202. The Digital Information Age (3)
Prerequisite: Completion of GE foundation requirements.
The design and use of common-place digital information systems. Introduction to how information is digitized, secured, compressed and transmitted. Students learn how digital age impacts them and the world they live in.
(Lecture 5 hours) Letter grade only (A-F).

211. Principles of Computer Engineering I (3)
Prerequisite: MATH 122
Basic principles of analysis and design of computer based circuits. Application of transistors, logic families, digital, devices in computer and embedded processor interfacing, importance of microprocessors and the complex plane. Basic DC/AC circuit fundamentals. Laboratory safety.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

228. Discrete Structures with Computing Applications (3)
Prerequisites: CECS 174 and one of the following: MATH 115, 119A, 122, PSY 310.
An introduction to discrete mathematics with applications towards computing. Topics include sets, functions, logic, relations, graphs, trees, recursion, combinatorics, and mathematical reasoning.
Letter grade only (A-F). (Lecture 2 hours, laboratory 2 hours) Letter grade only (A-F).

262. C for Embedded Programming (3)
Prerequisites: CECS 174 and 201
Intro to embedded system programming using C. Basic microprocessor architecture, memory organization and special function registers that are unique to embedded systems. Learn development tools and embedded C instructions that are used in embedded system programming and design. Course will be taught using an 8-bit microprocessor development board.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

271. Introduction to Numerical Methods (3)
Prerequisites: CECS 174 and MATH 222.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

274. Object Oriented Programming and Data Structures (3)
Prerequisite: CECS 174; Prerequisite/Corequisite: CECS 201.
Disciplined methods of design, coding and testing using the Java programming language. Data abstraction, object-oriented design. Introduction to data structures (linked lists, stacks, queues and trees.) Recursion. Sorting and searching.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

277. Object Oriented Application Development (3)
Prerequisite: CECS 274.
Advanced introduction to the fundamentals of computer science and software engineering methodology. Advanced programming techniques and design methodology typically used in large programming projects using the Java programming language.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)
282. C++ for Java Programmers (3)
Prerequisite: CECS 274.
Structured and Object Oriented Programming in C++. Common features and differences between Java and C++. Pointers, references, and memory management; streams and I/O, classes, operator overloading, exception handling, STL.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

285. Computer Organization and Assembly Language Programming (3)
Prerequisite: CECS 201, 274.
Study of computer organization and assembly language programming using embedded processor-based systems to solve practical problems. Laboratory projects using embedded system software development and hardware simulation tools. Hands-on projects using hardware prototyping boards.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

UPPER DIVISION

360. Web Design III (3)
Prerequisite: CECS 200.
Web page design using modern tools. Design and development of web pages from layout to posting on the Internet. Website usability, accessibility, security, and ethics.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

301. Computer Logic Design II (3)
Prerequisites: CECS 174, 201.
Sequential logic, programmable logic design, basic Arithmetic Logic Unit (ALU) design and memory devices. Laboratory projects with (Medium Scale to Very Large Scale Integration (MSI to VLSI) implementations and Computer Aided Design (CAD).
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

310. Computer-Based Learning Resources (3)
Prerequisite: CECS 200.
Explore and learn to use the many existing web-based education tools that focus on teaching technology. Evaluation of resources for age appropriateness and gender preferences. Students will develop a web-based tool to teach a technical subject of their choice. Field work required.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

311. Principles of Computer Engineering II (3)
Prerequisites: CECS 210 and CECS 211.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

312. Introduction to Distributed Operating Systems (3)
Prerequisite: CECS 174.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

323. Database Fundamentals (3)
Prerequisites: CECS 226, 277.
Fundamental topics on database management. Topics include entity-relationship models, database design, data definition language, the relational model, data manipulation language, database application programming and normalization.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

326. Operating Systems (3)
Prerequisites: CECS 282 and 285.
The structure and functions of operating systems. Interrupt handling, processes and interprocess communication, memory management, resource scheduling, information sharing and protection. Project implementation in C/C++.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

327. Net-centric Computing (3)
Prerequisite: CECS 326.
Introduction to Distributed Computing and Interprocess Communication: Client Server Paradigm, Sockets and the Socket API, Unicasting and Multicasting, Distributed Objects. CORBA, Internet Applications.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

328. Data Structures and Algorithms (3)
Prerequisites: CLCS 228; Corequisite: CLCS 277.
A broad view of data structures and the structure preserving operations on them. Abstract data types, algorithms, complexity. Programming projects to exemplify these concepts.

341. Computer Architecture and Organization (3)
Prerequisites: CECS 201 or 285.
(Lecture 2 hours, laboratory, 3 hours) Letter grade only (A-F).

343. Introduction to Software Engineering (3)
Prerequisites: CECS 277 or 212.
Principles of software engineering. UML, modeling large software systems, requirements elicitation, object-oriented analysis and design using UML, introduction to design patterns, implementation of large systems, software testing, project management, the software lifecycle. Semester-long programming project.
Letter grade only (A-F). (Lecture 2 hours, lab 3 hours)

345. Fundamentals of Embedded Systems (3)
Prerequisite: CECS 202.
Beginning course in embedded system design and technology. Examines embedded systems market, their fundamental basis, key hardware and software technology drivers, critical applications and component segments. Provides up-to-date analysis of recent developments and current trends in the market space.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

346. Microprocessors and Controllers I (3)
Prerequisites: CECS 274 and 211; Corequisite CECS 311.
Intro microprocessor/controller, embedded programming and design. Basic computer organization, representation of information and instruction, addressing techniques, input/output, assembly language programming. Introduction to assemblers, linkages editors and loaders. Study of the 6805. Design of microprocessor-based systems.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

347. Microprocessors and Controllers II (3)
Prerequisites: CECS 301, 343 and 346.
Study of microprocessor applications with interfacing. Embedded systems design, control of external devices, embedded programming in C and assembly, A/D and D/A converters, digital signal processing, motor and LCD controllers. Laboratory implementation of embedded designs and hardware-assisted debugging.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).
360. Integrated Circuit Design Software (3)
Prerequisites: CECS 301, 346, MATH 123 or 222.
Introduction to Computer Aided Design tools used in the
design and fabication of integrated circuits. Discussion of the
IC fabrication process, the layout and routing of basic gates,
transistor level design of gates, synthesis and RTL level design,
floor planning, and IC development costs.
(Lecture 2 hours, lab 3 hours) Letter grade only (A-F).

362. Real-Time Operating Systems (3)
Prerequisites: CECS 285 or 346, and 260.
Introduction to embedded Real-Time Operating Systems (RTOS)
and device drivers. Work with open-source RTOS on an 8-bit
hardware platform to understand and write kernels, executives and
timers along with preemptive multi-tasking systems. Students
will study and write device drivers that will be implemented in
RTOS. Programming will be done in C and assembly language.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

401. Programming Robots – For Educators (3)
Prerequisite: Some programming experience.
Learn how to inspire interest in engineering and computer science
among children ages 9 through 15. Using robotic kits, gain hands-
on experience in problem solving and computer programming
while constructing and programming unique robot inventions.
May not be used to satisfy any M.S.C.S. requirements. (Lecture 2
hours, laboratory 3 hours.) Letter grade only (A-F).

405. Special Topics in Computer Science (3)
Prerequisite: Senior standing in computer science major.
Selected topics from recent advances in computer science and
technology. Course content will vary from year to year.
(Lecture 2 hours, problems 3 hours.) Letter grade only (A-F).

406. Special Topics in Computer Science (3)
Prerequisite: Senior standing in the computer science major.
Each offering is based upon an area of computer science and
technology in which recent advances have been made.
Repeatability: 3 (4 hours) Letter grade only (A-F).

410. Computers and Networks (3)
Prerequisite: Course designed for professionals in computer
and networking. Gain practical hands-on experience in installing
hardware and software on a PC. Learn what a computer network is and how it
is related to the telecommunication network. Learn the parts that make up a
computer and a network.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

412. Introduction to Computer Network Architectures (3)
Prerequisite: CECS 410.
Beginning course in computer networking designed to provide a
brief overview of network architectures through lectures and hands-on laboratory
assignments. Overview of networking concepts and design
administration. Networking problems.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

414. Introduction to Network and System Security Issues (3)
Prerequisites: CECS 174.
Understanding the risk of computer security. Security threats and
vulnerabilities in the development and use of computer systems.
Tools and controls that can reduce or block these threats. Topics in
Network Security.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

419. Theory of Computation (3)
Prerequisite: CECS 328.
Finite Automata and regular expressions. Pushdown automata
and context-free languages. Turing machines and computability.
Computational complexity.
Letter grade only (A-F). Additional projects required for CECS 519.
(Lecture-problems 3 hours)

423. Database Web Applications in JEE (3)
Prerequisites: CECS 323 and 343.
Design and development of data-intensive web applications in
Java EE. Database topics include transaction management, stored
procedures, triggers, and security. Web application design and
development using core JEE patterns like Front Controller, MVC,
and DAO. Application of software engineering to complete a group
project.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

424. Organization of Programming Languages (3)
Prerequisites: CECS 265 and 328.
Understanding the variety of programming languages and
the trade-offs between current programming language paradigms.
Comparison of programming languages in their design,
implementation, and run-time support. Includes programming
projects.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

428. Analysis of Algorithms (3)
Prerequisite: CECS 328.
Applications of standard combinatorial techniques to applied
programming problems. Rigorous analysis of correctness/
complexity of algorithms. Advanced graph algorithms are
emphasized. Topics include shortest paths on graphs, sorting,
split matching, union find problem, divide and conquer technique,
and weighted edge problem.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

429. Information Retrieval (3)
Prerequisites: CECS 323 and 328, MATH 360 or EE 580.
Models, algorithms, and evaluation of the retrieval of information from
a collection of documents. Document preprocessing and
searching. Retrieval evaluation. Search engines.
Additional projects required for CECS 529. (Lecture 2 hours,
laboratory 3 hours) Letter grade only (A-F).

440. Computer Architecture (3)
Prerequisites: CECS 346.
Review of logic design. Register transfer and micro-operations.
Basic computer organization. Control processor organization.
Microprogram control organization. Arithmetic processor design.
Arithmetic algorithms. Input-output organization. Memory
organization.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

443. Software Engineering (3)
Prerequisite: CECS 326.
Software life cycle. Functional decomposition. Data flow and
object-oriented development. Reusability and portability.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

444. Compiler Construction (3)
Prerequisites: CECS 285 and 328.
Syntax directed compiler study. Organization of a compiler and
overall design: parsing, semantic analysis, optimization and code
generation.
(Lecture 5 hours, laboratory 3 hours) Letter grade only (A-F).
445. Software Design and Architecture (3)
Prerequisite: CECS 343 and Senior status.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

447. Microprocessors and Controllers III (3)
Prerequisite: CECS 347.
Embedded system applications and techniques. Real-time multitasking systems, schedulers, kernels, and operating systems for embedded processors. Advanced I/O technologies - CAN, 12C, Ethernet. Embedded Internet applications. Polling vs. interrupt handling. Lab implementation of embedded designs and hardware-assisted debugging.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

448. User Interface Design (3)
Prerequisite: CECS 323, 475.
Evaluation, design and programming of user interface systems. Fundamentals of human-computer interaction, system characteristics, and the interaction between humans and systems. Usability methods and user-task-centered design. Tools for designing and building user interfaces, with emphasis on rapid applications development.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

449. Computer Graphics (3)
Prerequisites: MATH 247, CECS 282 and 328.
Basic software and hardware of 2-D computer graphics. Applications.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

451. Artificial Intelligence (3)
Prerequisites: CECS 277 and 328.
Introduction to the history and implementation of artificial intelligence agents. Topics include search, constraint satisfaction, game-playing, logical agents, belief networks, optimal sequential decision systems. Project implementation.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

455. Introduction to Game Programming (3)
Prerequisite: CECS 328 or consent of instructor.
Introduction to game programming and graphics. "Slate" games. Real-time games with no adversary. Adversarial real-time games in 2-D.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

460. Systems On Chip Design (3)
Prerequisite: CECS 360.
Complete System on Chip (SOC) design flow from design specification to working SOC. Creation of RTL level modules designed for reuse. Integration of Intellectual Property (IP) for RTL and physical level IP, IC verification, creation of self-checking test benches for designs.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

461/561. Hardware/Software Co-design (3)
Prerequisite: CECS 341 or 440.
Introduction to top-down methods for hardware/software system-on-chip co-design. Design flow - system specification, software implementation, hardware synthesis, system design, and verification. Process optimization with various design decisions emphasized. Project/case studies using system-level design methods and tools.
Additional projects required for CECS 561. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

463. System on Chip (SOC) Applications (3)
Prerequisite: CECS 360.
System on Chip (SOC) design applications. Study of a variety of signal processing SOC designs and ASIC algorithms. Class projects emphasizing hardware/software integration with use of FPGA/CPLD devices. Design reviews, specification, team design implementation with project planning and tracking for system level design applications.
Letter grade only (A-F). (Lecture 2 hours, laboratory 3 hours)

470. Web Programming and Accessibility (3)
Prerequisite: CECS 343.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

472. Computer Network Programming (3)
Prerequisites: CECS 326 or 362 and 328.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

474. Computer Network Interoperability (3)
Prerequisite: CECS 326 or 362.
Overview of computer network theory and practice from a systems perspective. Topics include network infrastructure, local area network (LAN) protocols, wide area network (WAN) protocols, switching technologies, Internet Protocol (IP), Transmission Control Protocol (TCP), network security, and network configuration, design, and performance.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

475. Application Programming Using .NET (3)
Prerequisite: CECS 343.
A rigorous introduction to enterprise application development utilizing the .NET environment. Topics include GUI interface concepts, multithreading, collections and web forms as well as application interfaces to database, web services and networks. The course will have intensive individual projects as well as a team project.
Letter grade only (A-F). (Lecture 2 hours, laboratory 1 hours)

476. System and Network Administration (3)
Prerequisites: CECS 326 or 362.
Introduction to the management and administration of Unix systems and TCP/IP networks. Managing users, local and network file systems, electronic mail, print queues, establishing and managing a network.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

478/578. Introduction to Computer Security (3)
Prerequisite: CECS 323, 328, and one course selected from 472, 474, 476.
Controlling the risk of computer security. Security threats and vulnerabilities in the development and use of computer systems. Tools and controls that can reduce or block these threats. Law, privacy and ethics. Additional projects required for CECS 578. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

490A. Senior Project (3)
Prerequisites: CECS 457, Senior Standing.
A design course where the student will define a problem and provide a report containing a complete design solution.
(Seminar 3 hours) Letter grade only (A-F).
490B. Senior Project II (3)
Prerequisites: CECS 490A or 491 and consent of instructor.
Implementation of previously completed design project from CECS 490A or CECS 491. A formal demonstration with an oral and written presentation is required.
(Seminar 3 hours) Letter grade only (A-F).

491. Software Development Project (3)
Prerequisites: CECS 454 and Senior status.
Selected topics from recent advances in applied computing. Application of selected topics to the design and implementation of a software system within a team setting. Techniques for project management, documentation, and technical presentations. Software design, implementation, and evaluation strategies.
(Seminar 3 hours) Letter grade only (A-F).

492. Computer Networking Project Course (3)
Prerequisite: CECS 474 or consent of instructor.
Selected topics from recent advances in computer networking. Design, implementation, and performance analysis of enterprise networks. Network modeling and simulation. Application of selected topics to a semester long team project focusing on the design and implementation of a large-scale network system.
(Seminar 3 hours) Letter grade only (A-F).

496. Computer Science Problem Solving (1)
Prerequisites: CECS 274 and consent of instructor.
Problem solving in Computer Science. Theory necessary to solve computer science problems and the solutions to the problems. Problems studied will involve applications of graph theory, data structures, recursion, and algorithms.
(Lecture 1 hour) May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

497. Directed Studies (1–3)
Prerequisite: Consent of instructor.
Assign a study in topics in current computer literature or computer-related projects with a final report.
May be repeated to a maximum of 6 units with written consent of the Department Chair.

GRADUATE LEVEL

519/419. Theory of Computation (3)
Prerequisite: CECS 328.
Finite Automata and regular expressions. Pushdown automata and context-free languages. Turing machines and computability. Computational complexity.
Additional projects required for CECS 519. (Lecture-problems 3 hours) Letter grade only (A-F).

521/621. Database Architecture (3)
Prerequisites: CECS 328 and 323 or 421.
Relational database design theory and rigorous approach. Security, recovery, transaction management, distributed databases and query optimization.
Master’s students register in CECS 521 or 621; Ph.D. students register in CECS 621. Additional projects required for CECS 621.
(Lecture-problems 3 hours) Letter grade only (A-F).

524/624. Advanced Topics in Programming Languages (3)
Prerequisite: CECS 424.
Intensive study of languages of current interest which support object-oriented, client-server, and multimedia applications (e.g. JAVA).
Master’s students register in CECS 524 or 624; Ph.D. students register in CECS 624. Additional projects required for CECS 624.
(Lecture-problems 3 hours) Letter grade only (A-F).

525/626. Advanced Operating Systems (3)
Prerequisites: CECS 228 and 326.
Theoretical foundations of concepts applied in the design of operating systems. Control of concurrent processes, deadlocks, mutual exclusion, virtual memory, resource management and scheduling.
Master’s students register in CECS 526 or 626; Ph.D. students register in CECS 626. Additional projects required for CECS 626. (Lecture—problems 3 hours) Letter grade only (A-F).

528/628. Advanced Analysis of Algorithms (3)
Prerequisites: CECS 328, MATH 380 or EE 380.
Theoretical analysis of algorithms. Divide and conquer, dynamic programming and greedy algorithms; basic search and traversal techniques including search trees; sorting; matrix manipulations; NP-completeness.
Master’s students register in CECS 528 or 628; Ph.D. students register in CECS 628. Additional projects required for CECS 628.
(Lecture—problems 3 hours) Letter grade only (A-F).

529/629. Information Retrieval (3)
Prerequisites: CECS 323 and 328, MATH 380 or EE 380.

530/630. Advanced Computer Architecture I (3)
Prerequisite: CECS 341 or 440.
Master’s students register in CECS 530 or 630; Ph.D. students register in CECS 630. Additional projects required for CECS 630. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

531/631. Advanced Computer Architecture II (3)
Prerequisite: CECS 530.
Advanced computer architecture with emphasis on parallel processing. Vector processors and multiprocessor systems. Dataflow computation: RISC/DISC, Hypercube, Parallel software. Applications in artificial intelligence, signal/image processing, neural network and optical computing.
Master’s students register in CECS 531 or 631; Ph.D. students register in CECS 631. Additional projects required for CECS 631.
(Lecture-problems 3 hours) Letter grade only (A-F).

543/643. Advanced Software Engineering (3)
Prerequisites: CECS 343 or 443.
Study of software engineering as a broad, problem-solving discipline. Includes structured programming and software project management.
Master’s students register in CECS 543 or 643; Ph.D. students register in CECS 643. Additional projects required for CECS 643.
(Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

544/644. Software Testing and Verification (3)
Prerequisite: CECS 543.
Testing/verification techniques for software development including black box, white box, incremental, top-down and bottom up, static and dynamic verification, performance, regression, thread, and stress testing. Object-oriented software testing with a hierarchical approach. Metrics for test and verification will be introduced.
Master’s students register in CECS 544 or 644; Ph.D. students register in CECS 644. Additional projects required for CECS 644. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).
545.645. Software Architecture (3)
Prerequisite: CECS 543.
Includes architectural styles, pipes and filters, data abstraction and object-oriented organization, event-based, implicit invocation, layered systems, nsp object, interpreters, process control, distributed processes, domain-specific software & heterogeneous architectures. Component-based design patterns & case studies.
Master's students register in CECS 545 or 645, Ph.D. students register in CECS 645. Additional projects required for CECS 645. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

546.646. Fault Tolerant Computing Systems (3)
Prerequisite: CECS 540.
Fault tolerant techniques are studied as tools to assure the reliability and continuous availability of computing systems. Case studies of modern fault tolerant systems reviewed. Software fault tolerant systems studied as alternatives to verification and validation approaches to software reliability.
Master's students register in CECS 546 or 646; Ph.D. students register in CECS 646. Additional projects required for CECS 646. (Lecture-problems 3 hours) Letter grade only (A-F).

547.647. Software Maintenance, Reengineering and Reuse (3)
Prerequisite: CECS 343 or equivalent.
Introduction to software maintenance, defect management, corrective, adaptive and perfective maintenance. Evolution of legacy software systems. Program comprehension techniques, reverse engineering, restructuring, refactoring of software systems. Software re-engineering, data reverse engineering. Software reuse. Impact analysis, regression testing.
Master's students register in CECS 547 or 647; Ph.D. students register in CECS 647. Additional projects required for CECS 647. (Lecture-problems 3 hours) Letter grade only (A-F).

549.649. Advanced Computer Graphics (3)
Prerequisite: CECS 449.
Master's students register in CECS 549 or 649; Ph.D. students register in CECS 649. Additional projects required for CECS 649. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

550.650. Pattern Recognition Using Artificial Intelligence (3)
Prerequisite: CECS 451 or consent of instructor.
General concepts of pattern recognition and trainable classifiers, decision theory, supervised learning, non-parametric techniques, rule-based systems and neural networks.
Master's students register in CECS 550; Ph.D. students register in CECS 650. Additional projects required for CECS 650. (Lecture-problems 2 hours, laboratory 3 hours) Not open for credit to students with credit in CECS 750. Letter grade only (A-F).

551.651. Advanced Artificial Intelligence (3)
Prerequisite: CECS 451.
Advanced concepts in artificial intelligence. Topics include knowledge acquisition and representation, fuzzy logic, logical reasoning, multi sensor integration, Dempster-Shafer theory, evidential reasoning, real-time expert systems and neural networks.
Master's students register in CECS 651 or 651; Ph.D. students register in CECS 651. Additional projects required for CECS 651. (Lecture-problems 3 hours) Letter grade only (A-F).

552.652. Computer Simulation and Modeling (3)
Prerequisites: EE 380 (or MATH 380) and CECS 326. Studies of general purpose and special simulation software. Model verification including graphical models Applications in various areas.
Master's students register in CECS 552 or 652; Ph.D. students register in CECS 652. Additional projects required for CECS 652. (Lecture-problems 3 hours) Letter grade only (A-F).

553.653. Machine Vision (3)
Prerequisite: Graduate standing in engineering or computer science. Discussion and laboratory implementation of current research in vision and image understanding. Topics include image formation, color processing, segmentation, relational structures in 2 D and 3 D, motion, stereo, 3 D reconstruction, morphological methods and computer architecture for machine vision.
Master's students register in CECS 553 or 653; Ph.D. students register in CECS 653. Additional projects required for CECS 653. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

561.661. Hardware/Software Co-design (3)
Prerequisite: CECS 341 or 440.
Introduction to top down methods for hardware/software system-on-chip co-design. Design flow - system specification, software implementation, hardware synthesis, system design, and verification. Process optimization with various design decisions emphasized. Project/case studies using system-level design methods and tools.
Additional projects required for CECS 561. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

570.670. Concurrent Parallel Programming (3)
Prerequisite: CECS 328, or 341, or 440.
Introduction to concurrent and parallel programming for multiprocessor and distributed systems. Computational models and paradigms. Parallel programming languages and programming tools. Portable parallel programming and mapping techniques. Heterogeneous concurrent programming. Concurrent programming on local networks on workstations and personal computers.
Master's students register in CECS 570 or 670; Ph.D. students register in CECS 670. Additional projects required for CECS 670. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

572.672. Advanced Computer Networking (3)
Prerequisite: CECS 337 or 474.
Master's students register in CECS 572 or 672; Ph.D. students register in CECS 672. Additional projects required for CECS 672. (Lecture-problems 3 hours) Letter grade only (A-F).

574.674. Topics in Distributed Computer Systems (3)
Prerequisite: CECS 526 or 527 or 626 or 672.
Network operating systems vs distributed operating systems, research and design issues of distributed operating systems, resources and resource management in distributed systems, communication security and user authentication.
Master's students register in CECS 574; Ph.D. students register in CECS 674. Additional projects required for CECS 674. (Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CECS 673 or 773.

575.675. Object-Oriented Analysis and Design (3)
Prerequisite: CECS 475 and CECS 343 or 443 or 543.
An object-oriented approach to software development based on modeling objects from the real world. Object-oriented methodology from problem statement through analysis, system design, and object design. Implementation of object-oriented designs in various target environments. Case studies.
Master's students register in CECS 575 or 675; Ph.D. students register in CECS 675. Additional projects required for CECS 675. (Lecture-problems 3 hours) Letter grade only (A-F).
578/478. Introduction to Computer Security (3)
Prerequisite: CECS 323, 328, and one course selected from 472, 474, 476.
Controlling the risk of computer security. Security threats and vulnerabilities in the development and use of computer systems. Tools and controls that can reduce or block these threats. Law, privacy and ethics.
Additional projects required for CECS 578. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

590/690. Special Topics in Computer Science (3)
Prerequisites: Graduate standing and consent of instructor.
Each offering is based on an area in computer science and technology in which recent advances have been made.
Master’s students register in CECS 590 or 690. Ph.D. students register in CECS 690. Additional projects required for CECS 590. (Lecture—problems 3 hours) May be repeated to a maximum of 6 units with consent of department. Letter grade only (A-F).

621/621. Database Architecture (3)
Prerequisite: CECS 326 and 323 (or 421).
Relational database design theory a rigorous approach. Security, recovery, transaction management, distributed databases and query optimization.
Master’s students register in CECS 521 or 621; Ph.D. students register in CECS 621. Additional projects required for CECS 621. (Lecture—problems 3 hours) Letter grade only (A-F).

624/524. Advanced Topics in Programming Languages (3)
Prerequisite: CECS 424.
Intensive study of languages of current interest which support object-oriented, client-server, and multimedia applications (e.g., JAVA).
Master’s students register in CECS 524 or 624; Ph.D. students register in CECS 624. Additional projects required for CECS 624. (Lecture—problems 3 hours) Letter grade only (A-F).

625/525. Advanced Operating Systems (3)
Prerequisite: CECS 329 and 326.
Theoretical foundations of concepts applied in the design of operating systems. Control of concurrent processes, deadlocks, mutual exclusion, virtual memory, resource management and scheduling.
Master’s students register in CECS 525 or 625; Ph.D. students register in CECS 625. Additional projects required for CECS 625. (Lecture—problems 3 hours) Letter grade only (A-F).

628/528. Advanced Analysis of Algorithms (3)
Prerequisite: CECS 328, MATH 380 or EE 380.
Theoretical analysis of algorithms. Divide and conquer, dynamic programming and greedy algorithms; basic search and traversal techniques including search trees; sorting; matrix manipulations; NP-completeness.
Master’s students register in CECS 528 or 628; Ph.D. students register in CECS 628. Additional projects required for CECS 628. (Lecture—problems 3 hours) Letter grade only (A-F).

630/530. Advanced Computer Architecture I (3)
Prerequisite: CECS 341 or 440.
Master’s students register in CECS 530 or 630; Ph.D. students register in CECS 630. Additional projects required for CECS 630. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

631/531. Advanced Computer Architecture II (3)
Prerequisite: CECS 530.
Advanced computer architecture with emphasis on parallel processing, vector processors and multiprocessor systems. Dataflow computation, RISC/CISC. Hypercube Parallel software. Applications in artificial intelligence, signal/image processing, neural network and optical computing.
Master’s students register in CECS 531 or 631; Ph.D. students register in CECS 631. Additional projects required for CECS 631. (Lecture—problems 3 hours) Letter grade only (A-F).

643/543. Advanced Software Engineering (3)
Prerequisite: CECS 343 or 443.
Study of software engineering as a broad, problem-solving discipline. Includes structured programming and software project management.
Master’s students register in CECS 543 or 643; Ph.D. students register in CECS 643. Additional projects required for CECS 643. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

644/544. Software Testing and Verification (3)
Prerequisite: CECS 543.
Various types of software testing and verification techniques for software development including black box, white box, experimental, top-down and bottom-up, static and dynamic, performance, regression, thread, and stress testing. Discussion of object-oriented software testing with a hierarchical approach. Motions in complexity for testing, test, and verification plan will be introduced. Automatic software testing and some case studies.
Master’s students register in CECS 544 or 644; Ph.D. students register in CECS 644. Additional projects required for CECS 644. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

645/545. Software Architecture (3)
Prerequisite: CECS 543.
Includes architectural styles, pipes and filters, data abstraction and object-oriented organization, event-based, implicit invocation, layered systems, repositories, interpreters, process control, distributed processes, domain-specific software & heterogeneous architectures. Component-based design patterns & case studies.
Master’s students register in CECS 545 or 645; Ph.D. students register in CECS 645. Additional projects required for CECS 645. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

646/546. Fault Tolerant Computing Systems (3)
Prerequisite: CECS 530.
Fault tolerant techniques are studied as tools to assure the reliability and continuous availability of computing systems. Case studies of modern fault tolerant systems reviewed. Software fault tolerant systems studied as alternatives to verification and validation approaches to software reliability.
Master’s students register in CECS 546 or 646; Ph.D. students register in CECS 646. Additional projects required for CECS 646. (Lecture—problems 3 hours) Letter grade only (A-F).

647/547. Software Maintenance, Reengineering and Reuse (3)
Prerequisites: CECS 343 or equivalent.
Master’s students register in CECS 547 or 647; Ph.D. students register in CECS 647. Additional projects required for CECS 647. (Lecture—problems 3 hours) Letter grade only (A-F).
649./549. Advanced Computer Graphics (3)
Prerequisite: CECS 449.
Master's students register in CECS 549 or 649. Ph.D. students register in CECS 649. Additional projects required for CECS 649. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

650./550. Pattern Recognition Using Artificial Intelligence (3)
Prerequisite: CECS 451 or consent of instructor.
General concepts of pattern recognition and trainable classifiers, decision theory, supervised learning, non-parametric techniques, rule-based systems and neural networks.
Master's students register in CECS 550. Ph.D. students register in CECS 650. Additional projects required for Ph.D. students. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

651./551. Advanced Artificial Intelligence (3)
Prerequisite: CECS 461.
Advanced concepts in artificial intelligence. Topics include knowledge acquisition and representation, fuzzy logic, logical reasoning, multi-sensor integration, Dempster-Shafer's theory of evidential reasoning, real-time expert systems and neural networks.
Master's students register in CECS 551 or 651. Ph.D. students register in CECS 651. Additional projects required for CECS 651. (Lecture-problems 3 hours) Letter grade only (A-F).

652./552. Computer Simulation and Modeling (3)
Prerequisites: EE 380 or MATH 380 and CECS 326.
Studies of general purpose and special simulation software. Model verification including graphical models. Applications in various areas.
Master's students register in CECS 552 or 652. Ph.D. students register in CECS 652. Additional projects required for CECS 652. (Lecture-problems 3 hours) Letter grade only (A-F).

653./553. Machine Vision (3)
Prerequisite: Graduate standing in engineering or computer science.
Discussion and laboratory implementation of current research in vision and image understanding. Topics include image formation, easy processing, segmentation, relational structures in 2-D and 3-D motion, stereo, 3-D reconstruction, morphological methods and computer architecture for machine vision.
Master's students register in CECS 553 or 653. Ph.D. students register in CECS 653. Additional projects required for CECS 653. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

670./570. Concurrent Parallel Programming (3)
Prerequisite: CECS 328, or 341, or 440.
Introduction to concurrent and parallel programming for multiprocessing and distributed systems. Computational models and paradigms. Parallel programming languages and programming tools. Portable parallel programming and mapping techniques. Heterogeneous concurrent programming. Concurrent programming on local networks on workstations and personal computers.
Master's students register in CECS 570 or 670. Ph.D. students register in CECS 670. Additional projects required for CECS 670. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

672./572. Advanced Computer Networking (3)
Prerequisite: CECS 327 or 474.
Master's students register in CECS 572 or 672. Ph.D. students register in CECS 672. Additional projects required for CECS 672. (Lecture-problems 3 hours) Letter grade only (A-F).

674./574. Topics in Distributed Computer Systems (3)
Prerequisite: CECS 526 or 572 or 626 or 672.
Network operating systems vs distributed operating systems, research and design issues of distributed operating systems, resources and resource management in distributed systems, communication security and user authentication.
Master's students register in CECS 574. Ph.D. students register in CECS 674. Additional projects required for CECS 674. (Lecture-problems 3 hours) Letter grade only (A-F). Not open for credit to students with credit in CECS 773.

675./575. Object-Oriented Analysis and Design (3)
Prerequisites: CECS 475 and CECS 343 or 443 or 543.
An object-oriented approach to software development based on modeling objects from the real world. Object-oriented methodology from problem statement through analysis, system design, and object design. Implementation of object-oriented design in various target environments. Case studies.
Master's students register in CECS 575 or 675. Ph.D. students register in CECS 675. Additional projects required for CECS 675. (Lecture-problems 3 hours) Letter grade only (A-F).

690./590. Special Topics in Computer Science (3)
Prerequisites: Graduate standing and consent of instructor.
Each offering is based on an area in computer science and technology in which recent advances have been made.
Master's students register in CECS 590 or 690. Ph.D. students register in CECS 690. Additional projects required for CECS 690. (Lecture-problems 3 hours) May be repeated to a maximum of 6 units with consent of department. Letter grade only (A-F).

694. Seminar in Computer Science (3)
Prerequisite: 6 units of 500 or 600 level CECS courses.
Intensive study of a broad selection of conceptual and theoretical problems in computer science. A written student research project and an oral presentation are required. Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Classified Graduate standing.
Theoretical and experimental problems in computer science and engineering requiring intensive analysis.
Independent Study. Letter grade only (A-F).

698. Thesis or Industrial Project (2-6)
Prerequisite: Advancement to Candidacy.
Planning, preparation, completion of thesis or equivalent industrial project report on a suitable topic in computer engineering and computer science following the library's prescribed format. Requires consultation with Graduate Advisor and submission of Agreement for Independent Study form each semester. May be repeated to a total of 6 units.

290 • Computer Engineering and Computer Science • 2009/2010 CSULB Catalog
Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Consumer Affairs

Consumer Affairs provides students with a foundation in Consumer Advocacy, Personal Financial Management, and Housing Services. The program focuses on how businesses, government agencies, and community organizations interact with families and consumers.

Option in Consumer Affairs (code FCS_BA03) (120 units)

ACCT 201; ECON 100 and 101 or 300; ENGL 101, 317, 417, 418, or 419; CAFF 223, 226, 321, 322, 420, 422, 425, 426, 429, 492C or three units of FCSE 497; CDFS 312; FCSE 290, 387, 496, 499; MKTG 300, 400; PSY 100; SOC 100; CILA 250 or SOC 250; plus 9 units of advisor approved electives. Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Consumer Affairs Area Coordinator.

Minor in Consumer Affairs (code FCS_U001)

Eighteen units as approved by a Consumer Affairs faculty advisor. Nine units of required courses include: CAFF 420, 422, 425, 426, and 420 are required to complete the minor.

The Minor in Consumer Affairs is available to any non-Consumer Affairs major.

Consumer Affairs Courses (CAFF)

LOWER DIVISION

223. Personal and Family Financial Management (3)
Prerequisite: Completion of G.E. Foundation courses. A functional approach to personal finance including budget systems, consumer credit, insurance, debt collection systems, status obligation, accumulating reserves. Applicable for personal and professional use.
(Lecture-discussion 3 hours.)

226. Consumer Life Skills (3)
Prerequisite: Completion of the G.E. Foundation courses. Consumer life skills with an emphasis on practical applications in the marketplace. Includes the history of the consumer movement, consumer rights and responsibilities, financial wellness, consumer debt, consumer behavior, fraud, and consumer redress.
(Lecture-discussion 3 hours.)
228. Housing In Global Perspective (3)
Prerequisites: Completion of G.E. Foundation courses.
Family housing options and choices in urban and rural areas throughout the world viewed within the context of history, politics, culture, art, environment, geography, technology and economics. (Lecture-discussion, 3 hours.)

UPPER DIVISION

309L. The Consumer in the Legal and Economic Environment (3)
Prerequisites: Completion of G.E. Foundation courses; completion of one or more Exploration courses; upper division standing. Incorporates an integrated coverage of the economic, legal, ethical and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught. (Lecture-discussion 3 hours.) Same course as FIN 309L. Not open for credit to students with credit in FIN 309L.

321L. Family and Consumer Resource Management (3)
Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper division standing.
Basic management principles applied to personal and family settings. Examines role of values, goal formation, decision making, planning, implementing, and evaluation of managerial behavior in diverse family and cultural settings.
Latter grade only (A-F). (Lecture discussion 3 hours.)

322. Family Housing and the Urban Community (3)
Prerequisites: Upper division standing.
Critical analysis of family housing in urban community including aspects of shelter, city and service providers. Sociological, psychological, legislative, economic and technical factors investigated. Special attention given to families of various structures and socioeconomic background.
(Discussion 3 hours.)

420. Personal Finance for the Aging (3)
Prerequisites: 400-level course in Consumer Affairs or consent of instructor.
Personal finance as applied to the aging population.
Same course as GERM 420. Not open for credit to students with credit in GERM 420. (Lecture-discussion 3 hrs.)

422. Housing Policies: Public and Private (3)
Prerequisites: CAFF 322; upper division standing or consent of instructor.
Federal, state and local policies, programs and legislation concerning housing and urban development. Analysis of the housing industry and its influence on the consumer market.
Latter grade only (A-F). (Discussion 3 hours.)

424. Independent Living for Disabled and Elderly Persons (3)
Prerequisites: CAFF 321L or 322 or GERM 400L or consent of instructor.
Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging.
Latter grade only (A-F). Same course as GERM 424. Not open for credit to students with credit in GERM 424. (Lecture-Activity 3 hours.)

425. Personal Financial Planning Analysis (3)
Prerequisite: CAFF 223 or consent of instructor.
Analysis and protection of personal and family resources; planning and forecasting goals; development of financial strategies utilizing insurance, investment, tax management, pensions, wills and trusts. (Lecture discussion 3 hours.)

426. Family Financial Problems (3)
Prerequisite: CAFF 223 or consent of instructor.
Theory and practice in the diagnosis of family financial crises; selecting alternative solutions; constructing practical methods for the prevention of family financial problems. (Discussion 2 hours, laboratory 3 hours.)

429. Consumer Protection (3)
Prerequisite: Upper Division course in consumer affairs or consent of instructor.
Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems.
(Seminar 3 hours.)

492C. Internship in Consumer Affairs (3)
Prerequisites: Student must be a Family and Consumer Sciences: Consumer Affairs major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Consumer Affairs; and CAFF 226, 321L, 422, 425, 426, or consent of instructor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.
Field experience in which student assumes a preprofessional role in a professional setting. Objectives developed by student with supervisor must be approved by major advisor and form the basis for evaluation.
May be repeated for 6 units maximum. (Seminar 3 hours.)
CRIMINAL JUSTICE
College of Health and Human Services

Department Chair: Henry F. Fradella
Department Office: Social Science Public Affairs Bldg. (SS/PA), Room 238
Telephone: (562) 903-6343
Faculty: Lisa A. Borbeza, Henry F. Fradella, Judy Halls, Connie Ireland, Ali Malem, Harvey N. Morley, Lisa Murphy, Tracy Tolbert, Sam Torres, Brenda Vogel, John Wang
Undergraduate Advisor: Sam Torres
Graduate Advisor: Connie Ireland
Internship Coordinator: Harvey N. Morley
Office Manager: Darrell Dow

CAREER OPTIONS

- Police Officer
- Probation Officer
- Claims Representative
- Private Investigator
- Customs Agent
- Special Agent
- FBI
- Health & Safety Inspector
- Criminologist
- Game Warden
- Park Ranger
- Alcohol-Tobacco-Firearms Agent
- Correctional Officer
- Paralegal
- Immigration Inspector
- Intelligence Analysis-CIA
- Family Officer
- Teacher
- Prison Administrator
- Lawyer
- Credit Investigator
- Border Patrol Agent

Some of these careers require additional education or experience. Various entry-level trainee positions in business and industry are available for graduates regardless of academic discipline.

Introduction

The Department of Criminal Justice works collaboratively to investigate, understand, and solve social problems related to crime through the interdisciplinary and comparative study of crime and criminal behavior, as well as the policies and systems designed to control criminality. We offer both the baccalaureate and master's degrees in criminal justice, as well as an undergraduate minor in criminal justice. All of these programs are interdisciplinary in nature. Through a social scientific lens, our challenging curricula are designed to sharpen students' reasoning, ethical decision making, problem solving, and communication abilities. Graduates of our degree programs are well-prepared to become agents of positive change in the justice system through evaluation, research, ethical practice, and dedicated service. Graduates are also well-prepared to pursue advanced degrees in criminology/criminal justice, law, public affairs, and related graduate fields.

UNDERGRADUATE PROGRAMS

Bachelor of Science in Criminal Justice (code CRIMBS01) (120 units)

The program in criminal justice offers the bachelor of science degree to individuals interested in seeking a comprehensive education leading to a professional career in criminal justice. The program is designed to accommodate the needs of new college students, the continuing student, the transfer student, and the experienced criminal justice practitioner. We now offer sufficient courses in the evenings for students to graduate with a degree in criminal justice without taking daytime classes.

Students intending to transfer from community colleges to this University for a bachelor of science degree in criminal justice are advised to complete general education requirements while attending the community college. Courses equivalent to CRJU 101, The Criminal Justice System in Society, and lower division cognate courses (SOC 100, PSY 100, POSC 100 and PHIL 170), should be taken while attending community college. Other criminal justice courses taken at community colleges will be accepted as lower division electives provided the college where they were taken designated them as transferrable to CSU. These courses can not be substituted for upper division criminal justice courses.

Admission Under Impaction to the Bachelor of Science in Criminal Justice

To be eligible for admission to the major in Criminal Justice, applicants must have met requirements for admission to the university as a freshman or transfer student. The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission for admission based on cumulative GPA of 2.4. At least 30 units applicable to a CSULB degree must have been completed prior to the term for which an application for admission is submitted, and must include SOC 100, PSY 100, POSC 100 and PHIL 170. Applicants are also encouraged to complete CRJU 101 and CRJU 110.

Admission to the Major

To be eligible for admission to the major in criminal justice, applicants must have met requirements for admission to the university as a freshman or transfer student. Additionally, applicants to the major must have completed 30 units applicable toward a CSULB degree prior to the term for which the application to be a criminal justice major is submitted. It is highly recommended that our lower division cognate courses be completed as part of these 30 units (SOC 100, PSY 100, POSC 100, and PHIL 170). The number of applicants who can be admitted is limited by space availability. Eligible applicants will be selected for admission based on cumulative grade point average with a minimum of 2.4.

Students intending to transfer from community colleges to this University for a bachelor of science degree in criminal justice are advised to complete general education requirements while attending the community college. Transfer students are also encouraged to complete our lower-division cognate courses (SOC 100, PSY 100, POSC 100, and PHIL 170) prior to matriculating as a Criminal Justice major. Courses equivalent to CRJU 101, Criminal Justice in Society, and CRJU 110, Introduction to Justice Research, Writing, and Reasoning, should also be taken while attending community college. Other criminal justice courses taken at community college...
colleges will be accepted as lower division electives provided
the college where they were taken designated them as
transferable to CSU. These courses cannot be substituted for
upper division criminal justice courses.

Requirements
1. Major Course Requirements: Completion of forty-six (46)
units of criminal justice as follows:
   A. Completion of thirty-four (34) units of the following
      required core classes: CRJU 101, 110, 301, 302, 303,
      304, 320, 325, 330, 340, and 350.
   B. Completion of three (3) units by taking one of the
      following restricted options courses: CRJU 401, 402,
      403, 404, 405, or an approved 490 special topics course.
   C. Completion of three (3) units by taking any upper-
      division elective criminal justice course (i.e., a course not
      in the required core or restricted options), or EMER 405.
   D. Completion of six (6) units of an upper division
      integrative experience in one of the following three
      ways (note that options 2 and 3 require permission of a
      sponsoring faculty member):
         1. CRJU 492: Internship (6 units); or
         2. CRJU 497: Independent Study/Directed Research (3
            units) and any 400-level CRJU elective; or
         3. CRJU 497: Independent Study/Directed Research (3
            units) and CRJU 498: Thesis (3 units).

Each core or restricted option courses on the student's
program planner must be completed with a grade of "C" or
better. In addition, a course which a grade lower than "C"
is received must be retaken and successfully completed
prior to enrolling in a course for which it is a prerequisite. A
student receiving a grade lower than a "C" may proceed with
other courses with approval of the undergraduate advisor or
department chair.

2. Cognate Course Requirements: In addition to the 46
units of criminal justice coursework specified above, all
students are required to take six cognate courses (18
units) in related disciplines: SOC 100, PSY 100, PSY 370I,
POS 100, PHI 170, and either PHI 262I or PHI 451I.
All six of these cognate courses satisfy CSULB General
Education requirements. Thus, Criminal Justice students
have a pathway towards meeting their General Education
requirements in a thematic manner that is relevant to the
study of Criminal Justice.

Minor in Criminal Justice (code CRIMUM01)

Requirements
The minor in criminal justice requires completion of a
minimum of twenty-one (21) units as follows:
1. Completion of eighteen (18) units of the following
   required core classes: CRJU 101, 110, 301, 302, 303,
   and 304.
2. Completion of three (3) units by taking either CRJU 340
   or 350.
All courses in the criminal justice minor must be taken for
a letter grade only (A-F) and must be successfully completed
with a grade of "C" or higher. CRJU 101 and CRJU 110
are prerequisites for all core courses at the 300-level. All
300-level courses must be taken in residence at CSULB and,
therefore, may not be transferred in from other colleges or
universities.

Admission to the Minor
The minor in criminal justice is available to any non-
criminal justice major. Students who would like to declare
or change to criminal justice as their minor must have
an overall G.P.A. of 2.0 and be enrolled in or have completed
CRJU 101 or an equivalent course at another college or
university. Alternative admission requirements may apply
during times when the department is impacted.

GRADUATE PROGRAMS

Master of Science in Criminal Justice
(code CRIMMS01)

Graduate study in criminal justice provides the
required knowledge and opportunity for individuals to
(1) be competitive for administrative positions in the courts,
corrections, law enforcement, security, probation and
parole, (2) fill research positions in criminal justice agencies,
(3) pursue advanced degrees (J.D. or Ph.D.); and (4) fill
community college teaching positions in criminal justice.
The Master of Science degree in criminal justice will
expand and increase individual competency, develop and
mature thought processes, aid in gaining insights into
professional leadership and knowledge, permit an exchange
between students and faculty, and further the spirit of
research and scholarship to enhance professional and
personal development.

Admission
Students seeking admission to the Department of Criminal
Justice Graduate Program should have an undergraduate
degree and a desire for graduate study. Applicants must
apply for admission to the Criminal Justice Department in
addition to being admitted by Enrollment Services. Students
must be accepted for admission by the Department before
their program for a master's degree can be formulated.
Students are not allowed to take graduate course work in
criminal justice before being accepted to the program.
The following items must be submitted:
1. Two copies of the CSULB graduate application. The
   original must be sent to Enrollment Services and a copy
   must be sent to the Department of Criminal Justice.
2. Official test scores on the Graduate Record Exam (GRE)
   General Test. While no specific cut-off scores are
   required on either the verbal or the quantitative sections, applicants
   must score a "4" or higher on the analytic writing section of
   the GRE.
3. Official transcripts of all undergraduate course work,
   including work done at all community colleges attended.
   Each applicant must request that official transcripts be
   sent to both the Graduate Advisor in the Criminal Justice
   Department and Enrollment Services.
4. A resume and a letter of intent that includes a summary
   of the applicant's reasons for seeking a master's degree
   in criminal justice. Both documents must be sent to the
   Department's Graduate Advisor.
5. Three letters of recommendation from persons able to
   testify to the student's academic ability, preferably from
   former professors. These letters must be sent to the
   Department of Criminal Justice Graduate Advisor.
Prerequisites

1. A bachelor’s degree with a major or minor in criminal justice or a related discipline. The acceptability of other undergraduate preparation shall be determined by the Department Graduate Committee.

2. A student must have an overall undergraduate average (GPA) and average in their major of 3.0 or better. A student whose overall grade point average is less than 3.0, but who presents acceptable evidence of professional potential either through recent academic performance and/or experiential background, may be admitted by special action of the Department’s Graduate Committee.

Adancement to Candidacy

1. Students must satisfy the general University requirements for advancement to candidacy, as specified in this catalogue.

2. Before advancing to candidacy, students must successfully complete fifteen (15) graduate units within the core (CRJU 504, 520, 525, 530, and PPA 500) with a minimum grade of “B” in each of the courses.

3. Before advancing to candidacy, students must have fulfilled the Graduation Writing Assessment Requirement (GWAR) and have successfully passed the departmental qualifying examination.

4. Each student’s graduate program must be approved by the Department Graduate Advisor, the Department Chair, and the Associate Dean of the College of Health and Human Services.

Requirements

1. Completion of eighteen (18) units of required core classes: CRJU 504, 520, 525, 530, 551, and PPA 500.

2. Successful passage of the departmental qualifying examination testing graduate-level competency in statistics, research methods, and criminological theory.

3. Completion of eighteen (18) additional graduate units in one of two ways:
   A. Thesis Option: Twelve (12) units of advisor-approved electives and CRJU 694 and 698.
   B. Comprehensive Examination Option: Eighteen (18) units of advisor-approved electives and successful completion of the comprehensive master’s essay examination in either policing, corrections, law and social control, or other authorized subject area.

Note: Masters students who were admitted under a prior catalog year need to complete the course requirements specified in the catalog in effect at the time they advance to candidacy. All graduate students have the option of taking comprehensive examinations even if such exams were not listed as an option in the catalog at the time the student matriculated.

In addition to the core classes, students are required to complete 12 units of electives. These courses are to be selected after consultation with the graduate advisor.

A maximum of 6 units may be taken from 300 or 400-level courses in Criminal Justice. Up to six units of graduate work may be transferred from another accredited university or another department in CSULB. Transfer credit must be a “B” or better. All students must earn a grade of “A” or “B” for each required course. Students may not have more than 6 units of “C” grades apply toward the master’s degree. Advancement to candidacy is necessary before Thesis I, Thesis II, or comprehensive exams can be taken.

Thesis

The thesis is a supervised experience in the application of theory and analytical tools to issues in criminology or criminal justice. The thesis should prepare students for further graduate work or research in the field. The project should provide an experience that is directly applicable to an occupation in the criminal justice field.

The thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendations. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The coursework is supervised by a committee of three, including the Thesis Chair, who must be a full-time tenured-track or tenured faculty member in the Criminal Justice Department and two other faculty members.

Courses (CRJU)

LOWER DIVISION

101. The Criminal Justice System in Society (3)
Prerequisites/Corequisites: One GE Foundation Course (may be taken concurrently).
Introduction to study of criminal justice in American society. Focuses on the history, philosophy, functions, roles, policies, practices, and ethics of the institutions of social control within the criminal justice system, especially police, courts, and correctional personnel.
Letter grade only (A-F). Not open for credit to students with credit in CRIM 101.

110. Introduction to Justice Research, Writing, and Reasoning (3)
Prerequisites/Corequisites: ENGL 100.
Develops the skills needed to conduct and properly cite library and electronic research for social sciences and legal sources, and use them to make persuasive oral presentations and write papers, case briefs, and reports commonly used in the justice professions.
Letter grade only (A-F).

210. Gangs: Structure, Activities, and Responses (3)
An interdisciplinary examination of the factors that contribute to gang formation and membership; the structure and function of gangs; gang activities (including crime); and the various policy and programmatic responses to gangs.
Letter grade only (A-F).

220. Terrorism and the Criminal Justice System (3)
A video and text-based exploration of the origins and reasons for terrorist activity and their effect on select criminal justice agencies in the U.S. and around the world.
Letter grade only (A-F).

230. Survey of the Forensic Sciences (3)
The application of scientific principles to criminal investigations and trials, focusing on crime scene analysis and recording; analytical methods of criminalistics; significance of results; and the specialized roles of criminalists and forensic biologists, chemists, ballistics, medicine, dentistry, entomology, and psychology.

2009/2010 CSULB Catalog • Criminal Justice • 295
290. Special Topics in the Criminal Justice System (3)
Introduction courses of current interest in the field of criminal justice selected for intensive development. Topics are announced in the Schedule of Classes. May be repeated for a maximum of 9 units with different topics in different semesters.

Upper Division

301. Criminal Courts and Judicial Processes (3)
Prerequisites/Corerequisites: CRJU 101 and 110 (may be taken concurrently).
Examines the structure and operation of the criminal court systems of the U.S. at the local, state, and federal levels, including their respective jurisdictions. Emphasizes pretrial and adjudication processes and the organizational roles and behaviors within the court system.
Not open for credit to students with credit in CRIM 351. Letter grade only (A-F).

302. Policing (3)
Prerequisites: CRJU 101 and 110 (may be taken concurrently).
The historical evolution of policing as an institution of social control with emphasis placed on the contemporary roles of police officers, including patrol strategies, training procedures, ethical standards, and discretion. Consideration underrepresented groups in policing and corruption in police agencies.
Not open for credit to students with credit in CRIM 483. Letter grade only (A-F).

303. Corrections: Theory, Policy and Practice
Corrections (3)
Prerequisites: CRJU 101 and 110 (may be taken concurrently).
Overview of institutional and community corrections. Examination of differing penal institutions. Evaluation of rehabilitation as crime control strategy. Alternatives to incarceration will be explored as criminal sanctions.
Not open for credit to students with credit in CRIM 468. Letter grade only (A-F). Field trips may be required.

304. Criminological Theory (3)
Prerequisites: CRJU 101 and 102.
Examination of theories of crime and crime control policies. Political, social, and economic contexts are used to explore the ecology of criminal behavior. Criminological theories are traced through history by focusing on connections to biology, psychology, and sociology.
Not open for credit to students with credit in CRIM 404. Letter grade only (A-F).

320. Criminal Justice Research Methods (3)
Prerequisites: CRJU 101, 110, and 304 (may be taken concurrently).
Introduction to basic techniques in criminal justice research, including sampling, data collection, construction, evaluation techniques, and participant observation. Focus on bridging the gaps between theory, research, and policy.
Not open for credit to students with credit in CRIM 480. Letter grade only (A-F).

325. Statistics for Criminal Justice (4)
Prerequisites: CRJU 101, 110, and 320.
Descriptive and inferential statistics covering univariate, bivariate, and multivariate statistical techniques. Focus on probability theory, significance testing, inferential statistics used for quantitative data analysis by criminal justice researchers and administrators. Includes laboratory using statistical software packages.
Letter grade only (A-F). (Lecture 3 hours, laboratory workshop 1 hour.)

330. Criminal Justice Ethics, Values, and Diversity (3)
Prerequisites: CRJU 302 and 303.
Identifies and explores ethics and values in the criminal justice system, paying special attention to issues of social inequality. Discusses remedial strategies and behavior relating to unethical behavior from an individual and group perspective.
Not open for credit to students with credit in CRIM 305. Letter grade only (A-F).

340. Substantive Criminal Law (3)
Prerequisites: CRJU 101, 110, and 301.
Analysis of the historical development of criminal law and the underlying principles used to interpret it. Focuses on statutory construction and case law construction of the elements and defenses to major crimes, and the public policy implications of these interpretations.
Letter grade only (A-F).

350. Constitutional Criminal Procedure (3)
Prerequisites: CRJU 101, 110, and 301.
A study of criminal procedures mandated by the U.S. Constitution, emphasizing searches and seizures under the Fourth Amendment, the right to counsel under the Sixth Amendment, and due process under the Fourteenth Amendment.
Not open for credit to students with credit in CRIM 451. Letter grade only (A-F).

401. Victimology (3)
Prerequisites: CRJU 101, 110, and 304.
Explores victimology in the perpetration, apprehension, prosecution, and punishment of crime, as well as criminal victimization by race, class, gender, ethnicity, and sexual orientation. Focuses on patterns of over-representation and critically evaluates the major explanations for this phenomenon.

402. Crime and Inequality (3)
Prerequisites: CRJU 301 and 304.
Examines racial, social, and economic factors in crime. Explores the role of crime and punishment of crime as well as crime victimization by race, class, gender, ethnicity, and sexual orientation. Focuses on patterns of over-representation and critically evaluates the major explanations for this phenomenon.

403. Comparative Criminal Justice and Transnational Crimes (3)
Prerequisites: CRJU 101, 110, and 304.
An examination of criminal justice systems around the world and the relationship between crime and power. Political, social, and economic environments are studied in relation to varying criminological practices. Includes the role of international law, international criminal courts, the UN, and Interpol.
Not open for credit to students with credit in CRIM 484.

404. Terrorism, Homeland Security, and Criminal Justice (3)
Prerequisites: CRJU 101, 110, and 304.
Explores the dynamics of terrorism, terrorism, and the role of law enforcement in combating terrorism. Focuses on the role of law enforcement in combating terrorism.

406. Delinquency and the Juvenile Justice System (3)
Prerequisites: CRJU 101, 110, and 304.
Theoretical foundations of delinquency causation. Historical tracing of the American juvenile justice system including the juvenile court and its jurisdiction. Police interaction with juveniles, treatment
410. Police Administration (3)  
**Prerequisites:** CRJ 302 and 330.  
An organizational management and systems approach to the study of police administration. Emphasizes the administration of various police functions, organizational structures, resources management, operational techniques, professional ethics, and leadership principles and their implications for generalized and specialized units.  
Not open for credit to students with credit in CRIM 325.  

412. Criminal Investigation (3)  
**Prerequisites:** CRJU 101, 110, and 302.  
Study of basic principles of criminal investigation, analysis of investigative techniques, pattern and modus operandi, interviewing and interrogation strategies, collection and management of evidence, surveillance, and crime scene investigation. Theories, philosophies, and concepts related to suppression of crime are covered.  
Not open for credit to students with credit in CRIM 361. Letter grade only (A-F).  

420. Legal Aspects of Corrections (3)  
**Prerequisites:** CRJ 101, 110, and 303.  
An overview of court decisions related to corrections. Study of current legal issues and their impact on correctional policies and procedures.  
Not open for credit to students with credit in CRIM 358.  

421. Probation, Parole and Community Corrections (3)  
**Prerequisites:** CRJU 101, 110 and 303.  
Focus is on probation, parole and other intermediate sanctions and community treatment options. Each is examined from both punishment and treatment model perspectives. The pre-sentence investigation (PSI) will be analyzed. Supervision of offender in community and revocation will be discussed.  
Not open for credit to students with credit in CRIM 470. Field trips may be required.  

422. Correctional Counseling  
**Prerequisites:** CRJU 101, 110, and 303  
Techniques of counseling strategies utilized by correctional workers, including reality therapy, behavior modification, group counseling, and 12 step programs. Evaluation of the effectiveness of correctional treatment with emphasis on treatment of substance abuse, mental illness, sex offenders, and female offenders.  

423. Correctional Environments (3)  
**Prerequisites:** CRJU 101, 110, and 303.  
An introduction to American penology through six all-day field trips to city, county, state, and federal correctional facilities. Includes observations of juvenile court proceedings and visits to county juvenile halls, a juvenile treatment facility, and a state youthful offender institution.  
Not open for credit to students with credit in CRIM 369. Letter grade only (A-F). Special start dates and end dates apply; full-day field trips are required. Course fee may be required.  

430. Criminal Evidence and Trials (3)  
**Prerequisites:** CRJU 301, 340, 350; and consent of instructor.  
Using a mock trial approach, an in depth study of procedural, evidentiary, tactical, and ethical problems experienced by lawyers, witnesses, and defendants. Emphasis on the rules of evidence and expert testimony as it relates to policing and the forensic sciences.  

440. Criminalistics: Forensic Science in the Crime Laboratory (3)  
**Prerequisite:** CRJU 230 or consent of the instructor.  
Overview of general principles of forensic science, techniques, equipment, and methodologies as used in crime laboratories. Focus on fingerprint and firearm identification, trace evidence (hair, fiber, paint, glass), blood, DNA evidence, forensic document examination, crime scene kits, and forensic microscopy.  
Not open for credit to students with credit in CRIM 462. Letter grade only (A-F).  

441. Investigating High-Tech Crimes (3)  
**Prerequisite:** CRJU 230 or consent of the instructor.  
Overview of general classification, devices, microscopy, and methodologies in investigating high-tech crimes. Focuses on counterfeiting and fraud related to U.S. currency, credit card, checks, drive’s license, social security cards, DVD/CD, cable TV box/satellite TV cards, and computer-based “cybercrimes.”  
Not open for credit to students with credit in CRIM 463. Letter grade only (A-F).  

442. Forensic Psychology and the Criminal Justice System (3)  
**Prerequisites:** CRJU 301.  
An interdisciplinary examination of the relationship between psychiatry, clinical psychology, and the criminal justice system with regard to mentally ill criminal offenders. Focus is on the legal standards for determining various criminal competencies, insanity, diminished capacity, and related defenses of excuse.  

443. Forensic Pathology and the Medical-Legal Investigation of Death (3)  
**Prerequisite:** CRJU 230 or consent of the instructor.  
A multimedia examination of the medicolegal investigation of death. Focuses on autopsies and the anatomic pathologic evidence of natural and unnatural deaths, accidental deaths, suicides, and homicides. Special attention is paid to deaths by gunshot wound, sharp force injury, blunt force trauma, asphyxiation, and electrocution.  
Letter grade only (A-F). Field trips may be required.  

450. Domestic Violence and the Criminal Justice System (3)  
**Prerequisites:** CRJU 101, 110, 301, 302, and 304.  
Domestic violence is studied as a phenomenon that impacts the criminal justice system. Spousal/intimate partner abuse, child abuse, and elder abuse are studied from a multidisciplinary perspective. Strategies for criminal justice personnel handling these cases are stressed.  
Not open for credit to students with credit in CRIM 492.  

460. Substance Abuse and the Criminal Justice System (3)  
**Prerequisites:** CRJU 101, 110, and 304.  
Biological, psychological, and social factors in alcohol and drug use, abuse and addiction. Legal and social elements of substance abuse and their relationship to criminal justice system. Characteristics of controlled substances; categories of drug offenses; and investigation of drug cases.  
Not open for credit to students with credit in CRIM 459.  

490. Advanced, Specialized Topics in Criminology and Criminal Justice (3)  
**Prerequisites:** Completion of 300-level core courses or consent of instructor.  
Advanced and specialized topics of current interest in the field of criminal justice selected for intensive development. Topics are announced in the Schedule of Classes.  
May be repeated to a maximum of 9 units with different topics in the same semester.
492. Internship (6)  
Prerequisites: (1) Departmental Consent; and (2) Completion of 300-level Core (CRJU 301, 302, 303, 304, 320, 325, 330, 340, and 350) or consent of instructor.  
Supervised work experience in a criminal justice agency.  
Letter grade only (A-F). Not open for credit to students employed in criminal justice agencies.

493. Professional Development for Criminal Justicians  
Prerequisites/Corequisites: Consent of the instructor.  
A structured work class to facilitate career development in the justice professions, including those in academia. Includes practical instruction on job application strategies (i.e., job searching, writing cover and inquiry letters, resume preparation) and successful interviewing techniques.  
Credit/No Credit grading only.

497. Directed Research or Independent Study (1-4)  
Prerequisites: Consent of instructor.  
For students who wish to learn about a topic related to criminology, criminal justice, or forensics in greater detail through independent reading and writing assigned by a faculty member.  
May be repeated to a maximum of 9 units.

498. Senior Thesis (3)  
Prerequisites/Corequisites: Completion of 300-level core courses, a minimum 3.0 grade point average and consent of instructor.  
For students who wish to engage in intensive guided research and write a thesis under the direction of a panel of three faculty members. Highly recommended for students who plan to pursue graduate or law school.  
May be repeated for a maximum of 6 units with the same topic.

GRADUATE LEVEL

504. Criminological Theory (3)  
Prerequisite: Restricted to criminal justice masters students; all other students must have consent from the Graduate Advisor.  
Exploration of theories and policy implications of crime. Political, social, and economic contexts will be used to explore the ecology of criminal behavior. Underpinnings of criminological theory are traced through history by focusing on connections to biology, psychology, and sociology.

Not open for credit to students with credit in CRIM 504. Letter grade only (A-F).

520. Advanced Criminal Justice Research Methods (3)  
Prerequisites: CRJU 300 and 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

An in-depth exploration of the scientific methods used in criminology and criminal justice research, including research design and both quantitative and qualitative research methodologies. Special attention is paid to the ethics of human subjects research.

Not open for credit to students with credit in CRIM 583. Letter grade only (A-F).

525. Advanced Statistics for Criminal Justice (3)  
Prerequisites: CRJU 320 and 325 or comparable undergraduate research methods and statistics courses approved by the Graduate Advisor. Restricted to Criminal Justice masters students; all other students must have consent from Graduate Advisor.

Nonparametric, bivariate, and multivariate inferential statistics that are used for quantitative data analysis by criminal justice researchers and practitioners.

Not open for credit to students with credit in CRIM 582. Letter grade only (A-F).

530. Criminal Justice Ethics, Values, and Diversity (3)  
Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.  
Identifies and explores ethics and values in the criminal justice system, paying special attention to issues of social inequality. Discusses remedial strategies and behavior relating to unethical behavior from an individual and group perspective.

Not open for credit to students with credit in CRIM 512. Letter grade only (A-F).

551. Proseminar in Criminology and Criminal Justice (3)  
Prerequisite: CRJU 504. Restricted to Criminal Justice master's students; all other students must have consent from Graduate Advisor.

Critical analysis and comparative review of a wide array of professional literature in criminology and criminal justice. Focuses on both classic and contemporary literature related to the philosophical, social, political, and legal issues affecting the American criminal justice system.

Not open for credit to students with credit in CRIM 581. Letter grade only (A-F).

604. Terrorism, Homeland Security, and Criminal Justice (3)  
Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.  
Set against the background of our global community, an examination of the relationship between the historical and contemporary motivations and goals of terrorism, United States Homeland Security and select aspects of the United States criminal justice systems.

Letter grade only (A-F).

621. Administration and Management of Criminal Justice Organizations (3)  
Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.  
Introduction to the management of criminal justice agencies in the U.S. Examines the purposes, goals, and functions of administrative principles from a multidisciplinary systems perspective to develop both a theoretical and practical understanding of criminal justice leadership and management.

Not open for credit to students with credit in CRIM 621. Letter grade only (A-F).

631. Legal Issues in Criminal Justice (3)  
Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.  
Analysis of current and controversial legal issues in the criminal justice system focusing on controversial decisions of the U.S. Supreme Court.

Not open for credit to students with credit in CRIM 551. Letter grade only (A-F).

640. Criminalistics: Forensic Science in the Crime Laboratory (3)  
Prerequisite: Restricted to criminal justice masters students only; all others require consent of the Graduate Advisor.  
Overview of general principles of forensic science, techniques, equipment, and methodologies as used in crime laboratories.  
Focus on fingerprint and firearm identification, trace evidence (hair, fiber, paint, glass), blood, DNA evidence, forensic document examination, crime scene kits, and forensic microscopy.

Not open for credit to students with credit in CRIM 562. Letter grade only (A-F). Undergraduate students register for CRJU 440; graduate students for CRJU 640.)
641. Investigating High-Tech Crimes (3)
Prerequisite: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.
Overview of general classification, devices, microscopy, and methodologies in investigating high-tech crimes. Focuses on counterfeiting and fraud related to U.S. currency, credit card, checks, driver's license, social security cards, DVDs/CDs, cable TV boxes/terminals TV cards, and computer-based "cybercrimes."
Not open for credit to students with credit in CRIM 563. Letter grade only (A-F).

642. Forensic Psychology and the Criminal Justice System (3)
Prerequisites: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.
An interdisciplinary examination of the relationship between psychiatry, clinical psychology, and the criminal justice system with regard to mentally ill criminal offenders. Focus is on the legal standards for determining various criminal competencies, insanity, diminished capacity, and related defenses of excuse.
Letter grade only (A-F).

643. Forensic Pathology and the Medical-Legal Investigation of Death (3)
Prerequisite: Open to Criminal Justice master's students only. All others require consent of the Criminal Justice Graduate Advisor.
A multimedia examination of the medico-legal investigation of death. Focus is on thanatology and thanatopsiology of unexpected natural deaths, accidental deaths, suicides, and homicides. Special attention to deaths by gunshot wound, sharp force injuries, blunt force trauma, asphyxiation, and electrocution.
Letter grade only (A-F). Field trips may be required.

690. Advanced, Specialized Topics in Criminology and Criminal Justice (3)
Advanced and specialized topics of current interest in the field of criminal justice selected for intensive development. Topics are announced in the Schedule of Classes.
May be repeated to a maximum of 9 units with different topics in the same semester.

691. Instructional Strategies for Criminal Justice Professionals (3)
Prerequisites/Corequisites: Consent of instructor.
A structured program to teach graduate students how to create and deliver college-level instruction in criminal justice. Includes design of assignments within a measurable assessment framework, development of teaching strategies, and appropriate use of media and other pedagogical devices. May require time outside of semester format.
Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

694. Thesis I (3)
Prerequisite: Advancement to candidacy as a criminal justice master's student.
Student works under direct faculty supervision to complete a proposal for the thesis research study. Review of the literature on a topic and development of appropriate methodology.
Not open for credit to students with credit in CRIM 565. Letter grade only (A-F).

695. Directed Readings/Independent Study (1-4)
Prerequisites: Consent of Instructor.
For students who wish to learn about a topic related to criminology, criminal justice, or forensics in great detail through independent reading and writing assigned by a faculty member.
May be repeated to a maximum of 6 units.

DANCE
College of the Arts

Department Chair: Cynus Parker-Jeanette
Department Office: Dance Center
Telephone / FAX: (952) 985-4747 / (952) 985-7890
Faculty: Karen Clippinger, Colleen Danegag, Keith Johnson, Lorin Johnson, Liz Le, Steven McAllan, Sophie Monet, Cynus Parker-Jeanette, Andrew Vaca
Administrative Coordinator: Jennifer Ruther
Administrative Assistant: Sylvia Rodriguez-Schott

Career Possibilities
Dancer • Choreographer • Teacher • Dance Company Director • Dance Therapist • Booking Agent • Critic • Performing Arts Administrator • Dance Kinesiologist • Pilates Instructor • Dance/Aerobic Instructor (Some of these, and others, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The CSULB Department of Dance is committed to artistic and academic excellence that promotes the value of dance for the individual and society. The curriculum is designed to create a well-rounded dancer with a strong base in modern dance performance and composition. Additional coursework includes ballet, jazz, tap, world dance, dance history and theory and emphasizes creative, historical, and scientific perspectives of dance. The Department is also committed to providing opportunities for the general university student through both studio and theoretical dance courses and for the non-major. Performances, master classes and residencies also contribute to the artistic enhancement of the campus and community. In addition, the Department avails itself to the promotion through creative activity and scholarly research, leadership in professional organizations, and participation in dance festival/conferences at the regional and national levels.

The Department offers two undergraduate degree programs: the Bachelor of Fine Arts and the Bachelor of Arts in Dance. Both degrees provide breadth and depth of experience in the creative, physical, and academic aspects of the art of dance. The BA provides students with a balanced course of study that helps prepare them for several career options and allows them flexibility for a double major. Within the BA is also a Dance Science option that offers study in tandem with the Kinesiology Department and helps prepare students for future study and careers in training, fitness, Pilates and physical therapy. The BFA, a professional degree in Dance, offers students more concentrated study in the areas of technique, performance, and choreography aimed at preparing the student for a professional career.

The Department also offers two graduate degree programs: the Master of Fine Arts and the Master of Arts in Dance. The MFA is a demanding program designed to challenge professionally experienced students to develop their artistic and analytical work through numerous performances and choreographic opportunities. This terminal degree prepares candidates for careers in higher education, performance, and choreography. The MA in Dance is a concentrated program for dancers currently working in high schools and community colleges. This advanced degree enhances teaching and choreographic skills, while broadening aesthetic, historical, and scientific understanding of dance.

Entrance to the major or minor in dance is by audition only. Auditions are held four times per year. Applicants may download audition information from the web or may contact the Department of Dance to obtain audition dates and an audition application form. Students desiring more information may contact the Department office for referral to one of the faculty advisors in Dance. All new students enter the major under the BA degree. A separate audition for entrance into the BFA degree plan is required once students have completed specific coursework and achieved required levels of competency.

Non-major studio classes in ballet, modern, jazz, world dance forms, and tap are open to all students and do not require any audition. Several courses are offered that meet the General Education Exploration and Capstone requirements in categories C, D, E, and IC.

The faculty in the Department of Dance consists of active professionals who are highly committed to teaching and mentoring dance students. A large number of part-time faculty members supplement the expertise of the full-time faculty.

Dance concerts with faculty, students, and visiting choreographers are held in the Martha B. Knoebel Dance Theater. Dance majors and minors are encouraged to participate in activities of the Dance student organization "Off 7th Dancing."

The Department is an accredited institutional member of the National Association of Schools of Dance (NASAD, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

Undergraduate Programs

Bachelor of Arts in Dance (code DANCBA01) (120 units)

The Bachelor of Arts in Dance provides students with a broad scope of courses that helps prepare them for several career options and also allows for the pursuit of a double major.

Requirements
Composition (9 units): DANC 120, 220, 320.
Theory (21 units): DANC 100, 131, 260, 373I, 435L, 442B; 470 or 475; three units from 488, 491A, or 491B.
Performance/Crew (4 units): Two units from 181A, 181B, 381A, 381B, 481A or 481B; two units from 180A, 190B, 290, 321, 380A, 380B, 480A, 480B or 495.

300 • Dance • 2009/2010 CSULB Catalog
General Education Elective (3 units): Three units from AH 111A, 333B, CWL 124, 132, 161, 324, 412; DANC 435; PHIL 361; MUS 180, 190, 200, 363I, 364I, 490; THEA 113, 524.

Minor in Dance (code DANCUM01)

Students wishing to minor in dance must audition for placement prior to starting the program. The Minor in Dance is available to any non-dance major.

Requirements

24 units of which 9 must be upper division. Technique (9 units): 6 units from DANC 152, 252, 312, or 412 (3 of which must be from DANC 252); Three units from DANC 154, 254, 314, or 414. Theory/Production/Performance (12 units): DANC 120, 131, 220, 442B; 1 unit from DANC 380A, 380B, 480A, 480B, or 495; and one unit from DANC 381A, 381B, 481A, 481B. Electives (3 units): DANC 161, 320, 350, 360, 362, 373I, 442A, 435I, 445, 475.

Graduate Programs

Master of Arts in Dance

General Option (code DANCMA01)

The Master of Arts in Dance is a practice-oriented degree created to serve experienced dance educators, primarily in secondary and community college venues. Its curriculum is designed to broaden and deepen dance knowledge and skills for teaching dance classes and producing dance concerts. This degree elevates an undergraduate teaching credential to graduate status.

Because M.A. candidates are teaching during the academic year, coursework is completed in three intensive, 6-week consecutive summer sessions in which 9-12 units are earned each summer. No other institution of higher education in the State of California offers such an emphasis at the M.A. level.

Criteria for Admission into the Program

Candidates must meet the following criteria for entrance into the M.A. in Dance:

1. Prerequisite Courses:
   1.2 course in dance composition;
   1.2 course in dance history;
   1.2 course in anatomy/kinesiology (must be taken in the past five years);
2. bachelor's degree from an accredited institution with a degree in dance or a related field;
3. minimum of 3 years experience teaching dance in a high school with a secondary teaching credential, minimum of 3 years part-time or full-time experience teaching dance in a community college (exceptions will be considered for extensive part-time employment teaching dance in a high school, or for an exemplary employment history of teaching dance in other venues);
4. three letters of recommendation, of which one must be from a supervisor or colleague;
5. movement audition and personal interview;
6. completion of all application materials.
Criteria for Admission into the Program

Candidates admitted into this program will be selected on the following criteria:
1. Meet University admissions requirements;
2. B.A., B.F.A., or M.A. degree in dance or equivalent with a 3.0 GPA in upper division dance courses;
3. Professional goals consistent with the plan of study;
4. life experiences in the field;
5. audition in performance and choreography.

All MFA candidates are admitted on a conditional status. Removal of the conditional admit will occur after the following:
1. Fulfillment of the Graduation Writing Assessment Requirement (GWAR);
2. completion of all prerequisites;
3. completion of 20 graduate dance units with a GPA of 3.0;
4. approval of Graduate Advisor.

Prerequisites

Advanced technique, Dance Composition (3 courses), Dance History (2 courses), Music for Dance, Anatomy/Kinesiology, Dance Notation or Laban Movement Analysis, Dance Production (2 courses). Candidates may take prerequisite courses along with graduate courses.

When an undergraduate degree is completed in a program which has different requirements than those of the CSULB dance major, additional preparation may be required before the student can be considered for classified status. Up to 24 units from an M.A. degree program may be acceptable, with approval of the graduate advisor.

Application Requirements

1. A CSULB post-baccalaureate application.
2. The following returned to the CSULB Dance Department:
   A. Letter of application;
   B. resume;
   C. 3 letters of reference;
   D. VHS video or DVD of a recent group choreographic work;
   E. 2-page (typed, double spaced) personal statement addressing how graduate work will fulfill intended professional goals.
3. Admission on the CSULB campus to include a technique class and presentation of a 3-5 minute solo composition.

Advancement to Candidacy

Advancement to candidacy will occur based on the following:
1. unconditional admission status;
2. completion of 30 graduate dance units with a GPA of 3.0;
3. successful choreography produced in a graduate concert;
4. evaluation by graduate faculty of the candidate's satisfactory progress toward the degree;
5. removal of any incomplete grades.

Performance/Choreography Concentration

60 units total: 18 units in Technique from DANC 510A, 510B, 512, 514, with a minimum of 12 units from DANC 512 or 510A, and a minimum of 6 units from DANC 514 or 510B; 14-16 units in Theory from DANC 505, 565, 588, 597, 605, 693; 12 units in Choreography from DANC 520 A,B,C,D; 5 units in Performance/Production from DANC 580 A,B, 585 A,B, 592, 595; 6 units from DANC 699; 3-6 units electives.
Courses (DANC)

Dance Technique
Note: Dance majors must take technique courses and composition in sequence and screen for level placement in all technique classes. Screening will take place the previous semester and the first day of class. Beginning non-major technique classes are not screened; they are open to all students. Intermediate/Advanced Jazz has a screening process.

LOWER DIVISION

100. Orientation to Dance (1)
Corequisite: DANC 152 or 154.
Introductory information, degree requirements, career opportunities, current problems and issues in the field.
Letter grade only (A-F).

101. Introduction to Modern Dance (3)
Prerequisite: Completion of General Education Foundation courses.
Exploration of modern dance concert dance art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in modern dance technique.
Not open for credit to dance majors.

102. Introduction to Ballet (3)
Prerequisite: Completion of General Education Foundation courses.
Exploration of ballet as concert dance art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in ballet technique.
Not open for credit to dance majors.

103. Introduction to Jazz (3)
Prerequisite: A General Education Foundation course.
Introduction to jazz dance as concert and entertainment art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in jazz technique.
Open only to non-dance majors.

104. Introduction to Tap (3)
Prerequisite: A General Education Foundation course.
Introduction to tap as concert and entertainment art form through the study of its aesthetic principles and characteristics. Lectures and video viewing identify major choreographers, performers, choreographic works, and historical development; movement sessions explore elementary exercises in tap technique.
Open only to non-dance majors.

105. Latin Jazz (2)
Basic skills and techniques in Latin Jazz.
Not open for credit to dance majors.
May be repeated to a maximum of 4 units. (1 hour discussion, 2 hours studio)

106. African Dance (2)
Basic skills and technique in African dance designed to incorporate its role in African culture.
May be repeated to a maximum of 4 units. (1 hour discussion, 2 studio hours)

108. Beginning Flamenco (2)
Basic skills and technique in the style of Flamenco dance designed to incorporate its role in Spanish culture.
May be repeated to a maximum of 4 units. (1 hour discussion, 2 studio hours)

109. Beginning Hip-Hop (2)
Basic skills and technique in the style of Hip-Hop dance.
May be repeated to a maximum of 4 units. (4 studio hours)

110. Viewing Dance (3)
Prerequisite/Corequisite: A General Education Foundation course.
Introduction to contemporary dance theater through viewing dance films (modern dance, ballet and ethnic dance, performance, and lecture/performances on dance).

111A. Beginning Modern Dance (2)
Basic skills and techniques in modern dance. Not open to dance majors. May be repeated for a maximum of 4 units in different semesters. (4 studio hours)

111B. Beginning Modern Dance (2)
Prerequisite: DANC 111A or consent of instructor. Continuing beginning skills and techniques in modern dance. Not open to dance majors. May be repeated for a maximum of 4 units in different semesters. (4 studio hours)

112A. Intermediate Modern Dance (2)
Prerequisite: DANC 111A or consent of instructor. Open to non-majors. Low intermediate skill and techniques in modern dance. May be repeated for a maximum of 8 units in different semesters. (4 studio hours)

112B. Intermediate Modern Dance (2)
Prerequisite: DANC 112A or consent of instructor. Open to non-majors. High intermediate skill and techniques in modern dance. May be repeated for a maximum of 8 units in different semesters. (4 studio hours)

113A. Beginning Ballet (2)
Basic skills and techniques in ballet. Not open to dance majors. May be repeated for a maximum of 4 units in different semesters. (4 studio hours)

113B. Beginning Ballet (2)
Prerequisite: DANC 113A or consent of instructor. Continuing beginning skills and techniques in ballet. Not open to dance majors. May be repeated for a maximum of 4 units in different semesters. (4 studio hours)

114A. Intermediate Ballet (3)
Prerequisite: DANC 113B or consent of instructor. Open to non-majors. Low intermediate skill and techniques in ballet. May be repeated for a maximum of 12 units in different semesters. (6 studio hours)

114B. Intermediate Ballet (3)
Prerequisite: DANC 114A or consent of instructor. Open to non-majors. High intermediate skill and techniques in ballet. May be repeated for a maximum of 12 units in different semesters. (6 studio hours)

115. Beginning Jazz (2)
Basic skills and techniques of jazz.
Not open for credit to dance majors. May be repeated to a maximum of 4 units in different semesters. (4 studio hours)

116. Intermediate Jazz (2)
Prerequisite: DANC 115 of consent of instructor. Basic theory and practice of modern jazz dance. May be repeated to a maximum of 8 units in different semesters. (4 studio hours)
117. Beginning Tap Technique (2)  
Basic technique in the tap dance idiom, time steps, stylistic patterns, rhythmic patterns and tap combinations.  May be repeated to a maximum of 4 units. (4 studio hours)

120. Improvisation I (2)  
Use of improvisation as an introduction to structural form; individual and group problems.  Letter grade only (A-F). (4 studio hours)

131. Introduction to Music for Dance (2)  
Basic music notation, simple and complex rhythmic patterns, poly rhythm, skill in the use of percussion instruments and a brief survey of the historical periods of music for dance.  Letter grade only (A-F). (4 studio hours)

152. Modern Technique I (3)  
Prerequisites: Dance Major or Minor, and placement screening. Intermediate skill in modern technique.  Letter grade only (A-F). Repeatable to a maximum of 12 units in different semesters. (6 studio hours)

154. Ballet Technique I (3)  
Prerequisites: Dance Major or Minor, and placement screening. Intermediate skill in ballet technique.  Letter grade only (A-F). Repeatable to a maximum of 12 units in different semesters. (6 studio hours)

161. Placement for the Dancer (2)  
Prerequisites: Open to Dance Majors and Minors.  Application of movement principles and exercises from various sources including anatomy, biomechanics and rehabilitation to improve body alignment, core stabilization, and other aspects of technique in key dance movement patterns.  Letter grade only (A-F). (4 studio hours)

179. Exploring Dance: The Language of Movement (3)  
Prerequisites: Open to all Liberal Studies Majors, open to others with consent of instructor based on availability.  Exploration of movement language of dance relating to producing dance; to historical and cultural aspects of dance; and to activities geared to developmental aspects of children, 5-12 years, as outlined in California State Framework for Visual and Performing Arts, K-8.  Dance component.  Letter grade only (A-F). (1 hour lecture, 4 hours lab)

180A. Dance Performance (1)  
Prerequisites: Audition; dance major or minor. Participation in dance productions.  Letter grade only (A-F). May be repeated to a maximum of 4 units. (3 or more studio hours)

180B. Dance Performance (1)  
Prerequisites: Audition; dance major or minor. Participation in dance productions.  Letter grade only (A-F). May be repeated to a maximum of 4 units. (3 or more studio hours)

181A. Dance Production Technical I (1)  
Technical participation in Dance Department-sponsored productions.  Letter grade only (A-F). Repeatable to a maximum of 4 units in different semesters. (2 studio hours)

181B. Dance Production Technical I (1)  
Technical participation in Dance Department-sponsored productions.  Letter grade only (A-F). Repeatable to a maximum of 4 units in different semesters. (2 studio hours)

214. Ballet Pointe (1)  
Prerequisite: Consent of instructor.  Development of the technique of dancing in pointe shoes. May be repeated for a maximum of 4 units in different semesters. (2 studio hours)

216. Intermediate/Advanced Jazz (2)  
Prerequisites: DANC 116 or consent of instructor.  Basic theory and practice of modern jazz dance.  May be repeated to a maximum of 8 units in different semesters. (4 studio hours)

217. Intermediate Tap Technique (2)  
Prerequisites: DANC 117 or placement screening.  Intermediate skills in tap technique concentrating on rhythmic complexity, heightened tempos, and contemporary tap styles.  May be repeated to a maximum of 4 units. (4 studio hours)

220. Dance Composition I (3)  
Prerequisite: DANC 131.  Theory and practice in the basic elements of dance composition.  Letter grade only (A-F). (Lecture 1 hour, 4 studio hours)

252. Modern Technique II (3)  
Prerequisites: Dance Major or Minor, and placement screening.  Intermediate skill in modern technique.  Letter grade only (A-F). May be repeated to a maximum of 12 units. (6 studio hours)

254. Ballet Technique II (3)  
Prerequisites: Dance Major or Minor, and placement screening.  Intermediate skill in ballet technique.  Letter grade only (A-F). May be repeated to a maximum of 12 units. (6 studio hours)

260. Functional Anatomy for the Dancer (3)  
Prerequisites: DANC 161 or consent of the instructor.  A thorough examination of major muscles, bones and joints as they relate to human movement.  Performance of anatomical analyses of common conditioning exercises and key dance movements.  Letter grade only (A-F). (2 hours lecture, 2 hours studio)

262. Pilates I (3)  
Prerequisites: DANC 260 or BIOL 206.  Beginning intermediate level Pilates-based program, emphasizing the use of the Pilates apparatus, designed to enhance dance performance, movement coordination and physical conditioning.  Letter grade only (A-F). (1 hour seminar, 4 studio hours)

295. Repertory (1-3)  
Prerequisites: Audition, dance major.  Experience in rehearsal and performance practice in an intensive format.  Letter grade only (A-F). May be repeated to a maximum of 6 units. (2-6 studio hours)

**UPPER DIVISION**

312. Modern Technique III (3)  
Prerequisites: Dance major or minor or placement screening.  For undergraduate dance majors in the intermediate/advanced skill of modern dance techniques.  Letter grade only (A-F). May be repeated to a maximum of 12 units in different semesters. (6 studio hours)

313. Modern Dance Workshop (1-3)  
Prerequisites: Dance major or minor or consent of instructor.  Exploration of the techniques of modern dance.  May be repeated for a maximum of 8 units in different semesters. (2-6 studio hours)

314. Ballet Technique III (3)  
Prerequisites: Dance Major or Minor, and placement screening.  Advanced-intermediate skill in ballet technique.  Letter grade only (A-F). May be repeated for a maximum of 12 units in different semesters. (6 studio hours)
315. Ballet Workshop (1-3)
Prerequisites: Danza major and minor or consent of instructor.
Exploration of the techniques of ballet.
May be repeated for a maximum of 6 units in different semesters.
(2-6 studio hours)

316. Advanced Jazz (2)
Prerequisites: DANC 216 or consent of instructor.
Advanced theory and practice of jazz technique.
May be repeated to a maximum of 8 units. (4 studio hours)

317. Advanced Tap Technique (2)
Prerequisites: DANC 217 and 217 or consent of instructor.
Advanced skills in tap technique concentrating on rhythmic complexity, heightened tempos, improvisational work, and contemporary tap styles.
May be repeated to a maximum of 8 units in different semesters. (4 studio hours)

318. World Dance (1-3)
Theory and technique of various world forms.
(2 studio hours per unit)

319. Dance Laboratory (1-3)
Participation in dance technique projects. Consent of instructor.
Letter grade only (A-F). May be repeated to a maximum of 8 units.
(2 studio hours per unit)

320. Dance Composition II (3)
Prerequisite: DANC 220.
Development of theme and style in small group studies.
Letter grade only (A-F). (Lecture 1 hour, 4 studio hours)

321. Directed Choreography (1-3)
Prerequisites: Consent of instructor.
Independent choreographic projects finalized in a performance venue under supervision of a faculty member.
Letter grade only (A-F). May be repeated to a maximum of 8 units in different semesters. (2-6 studio hours)

350. Dance Notation I (3)
Prerequisite: DANC 151.
Theory and practice of notating movement through Labanotation.
Letter grade only (A-F).

360/560. Prevention and Care of Dance Injuries (3)
Prerequisite: DANC 260 or consent of instructor.
Study principles to help dancers understand, prevent and recover from common dance injuries. Assessment and development of muscular strength/endurance, flexibility, cardiovascular endurance, body composition/nutrition and proprioception as they relate to common injuries and improved dance performance.
Letter grade only (A-F). (2 hours lec., 2 hours lab)

362. Pilates II (2)
Prerequisites: DANC 262 or consent of instructor.
Intermediate-advanced level. Pilates-based conditioning program which employs a series of exercises designed to enhance dance performance and prevent injury, utilizing apparatus based on designs of Joseph Pilates, exercise balls, free weights and body for resistance.
Letter grade only (A-F). (4 studio hours)

370/570. Video for Dance (2)
Skills and techniques in analyzing, documenting, and editing dance performances and rehearsals, use and interface of the digital camera. Examines the field of dance documentation and the editing and creative concepts most associated with dance for the camera.
Letter grade only (A-F). (Lecture 1 hour, 2 studio hours)

373L. Nonverbal Communication: Interaction of Mind and Body (3)
Prerequisites: Completion of GE Foundation requirements, completion of one or more Exploration course(s), and upper division status.
History and theories of the development of mind/body integration. Enhancement of personal and interpersonal relations through lectures, discussion, films and movement experiences. Analysis and synthesis of the interdependence of the psychological and physical processes in nonverbal communication.
Same course as ED P 373L. Not open for credit to students with credit in ED P 373L.

380A, B. Dance Performance (1, 1)
Prerequisite: Open to Dance Majors and Minors only.
Participation as a performer and/or choreographer in Dance Department productions. Concert participation is by audition only. A combination of 380A, B and 480A, B may be repeated to a maximum of 8 units. (5 or more studio hours)

381A. Dance Production Technical (1)
Prerequisites: Open to dance majors and minors.
Technical production participation in Dance Department sponsored productions.
A combination of 381A, B and 481A, B. Letter grade only (A-F). May be repeated for a total of 8 units in different semesters. (3 studio hours per unit)

381B. Dance Production Technical (1)
Prerequisites: Open to dance majors and minors.
Technical production participation in Dance Department sponsored productions.
A combination of 381A, B and 481A, B. Letter grade only (A-F). May be repeated for a total of 8 units in different semesters (3 studio hours per unit)

412. Modern Technique IV (3)
Prerequisites: Dance Major or Minor, and placement screening. Advanced skill in modern dance technique.
Letter grade only (A-F). May be repeated to a maximum of 12 units. (5 studio hours)

414. Ballet Technique IV (3)
Prerequisites: Dance Major or Minor, and placement screening. Advanced skills in the techniques of ballet.
Letter grade only (A-F). May be repeated to a maximum of 12 units in different semesters. (6 studio hours)

416. Ballet Variations (2)
Prerequisites: DANC 254 or consent of instructor.
The interpretation and analysis of style, technique, musicality, content, and phrasing in classical and modern ballet variations.
May be repeated to a maximum of 6 units in different semesters (1 hour discussion, 2 studio hours)

420. Advanced Composition (3)
Prerequisite: DANC 320 or consent of instructor.
Approaches to the development of choreographic materials of extended structure and content.
Letter grade only (A-F). (Lecture 1 hour, 4 studio hours)

422. Improvisation II (1-3)
Prerequisites: DANC 220 or consent of instructor.
Development of the individual performer's improvisational skills, exploration of a wide range of subject matter and style. Study of techniques of structuring improvisations.
Letter grade only (A-F). May be repeated for a maximum of 6 units in different semesters. (2-6 studio hours)

2009/2010 CSULB Catalog • Dance • 305
426. Intermediate/Advanced Ballet Pointe (1)
Prerequisites: DANC 214 of consent of instructor.
Intermediate skill development in ballet pointe technique.
May be repeated for a maximum of 4 units in different semesters. (2 studio hours)

435I. Dance in Film (3)
Prerequisites: Completion of GE Foundation requirements and one or more Exploration course(s), and upper division status.
Examination of the relationship between dance and film; study of historical and theoretical connections placed in both aesthetic and cultural contexts.

442A. History of Dance to 1900 (3)
Development of dance from Aboriginal to 20th Century.
Letter grade only (A-F). (2 hours lecture, 2 hours studio)

442B. Twentieth Century Dance History (3)
Development of Ballet and Modern dance in the 20th Century.
Letter grade only (A-F). (2 hours lecture, 2 hours studio)

445. Movement Analysis (3)
Prerequisites: Open to Dance Majors and Minors only.
Study of the principles underlying movement and their application to all areas of movement study.
Letter grade only (A-F). (2 lecture hours, 2 studio hours)

470. Principles of Teaching Dance Technique (3)
Prerequisites: DANC 312, or consent of instructor.
Methods of teaching dance technique for studios, recreation departments, companies, secondary schools, colleges, and universities. Emphasis on teaching teenagers and adult beginners.
Letter grade only (A-F). (1 lecture hour, 4 studio hours)

475. Dance for Children (3)
Prerequisites: DANC 120, 312, or consent of instructor.
Practical experience in teaching creative dance to children.
Includes improvisational approaches to teaching elements of dance, exploration and practical implementation of teaching and learning theories, and incorporation of the California Visual and Arts dance standards into elementary school curriculum.
Letter grade only (A-F). (2 hours lecture, 2 hours studio)

480A,B. Dance Performance (1,1)
Prerequisite: Open to Dance Majors and Minors only
Participation as a performer and/or choreographer in Dance Department-approved University-sponsored productions. Most concert participation is by audition only.
A combination of 380A,B and 480A,B may be repeated for a total of 8 units. (3 or more studio hours)

481A. Dance Production-Technical (1)
Prerequisites: Open to dance majors or minors.
Technical participation in Dance Department-sponsored productions.
Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated for a total of 8 units in different semesters. (3 studio hours per unit)

481B. Dance Production-Technical (1)
Prerequisites: Open to dance majors or minors.
Technical participation in Dance Department-sponsored productions.
Letter grade only (A-F). A combination of 381A,B and 481A,B may be repeated for a total of 8 units in different semesters. (3 studio hours per unit)

488. Organization of Dance Production (3)
Prerequisite or Corequisite: DANC 312
Analysis and practice in the production elements of dance concerts.
Course is coordinated with a department concert.
Letter grade only (A-F).

490. Special Topics in Dance (1-3)
Prerequisite: Consent of instructor.
Topics of current interest in the field of dance selected for special presentation and development.
Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 12 units with different topics, or consent of department chair.

491A. Design for Dance Lighting (3)
Prerequisites: Upper division status or consent of instructor.
Techniques of designing lighting for dance. Practical applications include designing and executing lighting for dance for concerts in various settings.
Letter grade only (A-F). (0 studio hours)

491B. Design for Dance Costuming (3)
Prerequisites: Upper division status or consent of instructor.
Designing and constructing costumes for dance.
Letter grade only (A-F). (6 studio hours)

493. Computers for Dance (3)
Prerequisites: Dance major or minor.
Theory and practice in the basic techniques of computer usage in the art form of dance.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

495. Repertory (1-3)
Prerequisite: Audition.
Students learn and perform works of distinguished choreographers. Leads to concert performance.
May be repeated to a maximum of 18 units provided it is with a different instructor each time. (2-6 studio hours)

499. Directed Studies in Dance (1-3)
Prerequisite: Consent of instructor.
Independent projects and research of advanced nature in any area of dance.
Letter grade only (A-F). Course may be repeated for a maximum of 12 units in different semesters. (2-6 studio hours)

GRADUATE LEVEL

505. Seminar in Dance Methodology (3)
Prerequisites: Acceptance into the MA or MFA program or consent of advisor.
Discussion specific to the teaching of dance in preparation for teaching in secondary and post-secondary education.
Letter grade only (A-F). (4 hours studio, 1 hour lecture)

510A,B,C,D. Technique Laboratory (1-3, 1-3, 1-3, 1-3)
MFA Choreography option students are required to take a technique class each semester. By registering for DANC 510, each will be assigned to an appropriate level technique class. Additional work will be required as appropriate to a graduate level course.
May be repeated to a maximum of 6 units. (2-6 studio hours)

512. Advanced Modern Technique (3)
Prerequisites: Placement screening.
For graduate dance majors in the advanced skill of modern dance techniques.
Letter grade only (A-F). May be repeated to a maximum of 18 units. (6 studio hours)

514. Advanced Ballet Technique (3)
Graduate level skills in ballet technique.
Letter grade only (A-F). May be repeated to a maximum of 12 units. (4 studio hours)
520A. Choreography A (3)
Prerequisite: Admission into the MFA degree program.
Will center on development of advanced approach to choreographic materials and techniques. It will emphasize outlining of artistic ideas in written form before physical realization, and will emphasize composing and shaping choreography based on clearly stated concepts.
Letter grade only (A-F). (4 hours activity; 1 hour discussion)

520B. Choreography B (3)
Prerequisite: Admission into the MFA program for dance.
Methods and practice of developing choreography utilizing music/composers as the basis for compositional exploration.
Letter grade only (A-F). (4 hours activity; 1 hour discussion)

520C. Choreography C (3)
Prerequisite: Admission into the MFA program.
Advanced study of choreographic methods concentrating on development of choreography inspired by and relating to other art forms. Compositional studies geared to traditional theatrical values and alternate formats will be explored.
Letter grade only (A-F). (4 hours activity; 1 hour discussion)

520D. Choreography D (3)
Prerequisite: Admission into the MFA program.
Concentrates on development of dance choreography designed for presentation through video, and video used as an integrated/supporting form in live performance. Emphasizes skills and techniques in the exploration of dance documentation and the shooting and editing of digital video.
Letter grade only (A-F). (4 hours activity; 1 hour discussion).

520E. Choreography E (2)
Prerequisites: DANC 520D or consent of instructor.
Methods and practice of developing choreography utilizing an integration of related art forms as basis for compositional exploration.
Letter grade only (A-F). (4 studio hours)

521. Dance Composition III (3)
Prerequisite: Admission to the MA degree program in Dance.
Methods and practice of developing choreography as related to the high school and community college setting.
Letter grade only (A-F). (1 hour lab; 4 hours lab)

522. Composition IV (3)
Prerequisite: Admission into the MA degree program.
Methods and practice in developing choreographic studies related to a high school or community college setting.
Letter grade only (A-F). (4 studio hours; 1 lecture hour)

531. Music for Dance II (1-3)
Provides dance students an opportunity for advanced, in-depth study of musical form and style as it applies to dance.
Letter grade only (A-F)

560. Prevention and Care of Dance Injuries (3)
Prerequisite: DANC 260 or consent of instructor.
Study of key principles to help dancer better understand, prevent and recover from common dance injuries. Assessment and development of muscular strength/endurance, flexibility, cardiovascular endurance, body composition/nutrition and proprioception as they relate to common injuries and improved dance performance.
Letter grade only (A-F). (2 hours lab; 2 hours lab)

565. Dance Science as Related to Teaching Technique (3)
Prerequisite: DANC 260 and 550, or consent of instructor.
Application of anatomical principles, scientific principles of training, and biomechanical principles to more effectively design and teach dance technique classes.
Letter grade only (A-F). (1 hour lab; 4 hours lab)

570. Video for Dance (2)
Prerequisite: Admission into the MFA program for dance. Methods and practice of developing choreography utilizing music/composers as the basis for compositional exploration.
Letter grade only (A-F). (4 hours activity; 1 hour discussion)

580A/B. Dance Performance (1)
Prerequisite: Audition.
Participation as a performer and/or choreographer in Dance Department approved University-sponsored production.
Letter grade only (A-F). May be repeated to a maximum of 2 units.
(3 or more studio hours)

585A/B. Dance Performance (1)
Prerequisite: Audition.
Participation as a performer and/or choreographer in Dance Department approved University-sponsored production.
Letter grade only (A-F). May be repeated to a maximum of 2 units.
(3 or more studio hours)

588. Seminar in Dance Management (2)
Techniques and practices in producing and promoting dance performances in fixed sites and in touring venues relevant to the production of MFA thesis concerts and to venues outside the University. For graduate students with prior experience in the field.
Letter grade only (A-F).

590. Special Topics (1-3)
Prerequisite: Acceptance into MFA program in dance.
Topics of current interest to graduate students in dance will be explored for intensive study.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

591A. Advanced Design for Dance Lighting (3)
Provides students with advanced work in design lighting for dance, and offers the in-depth technical knowledge and practical experience necessary to the execution of complete lighting plots.
Letter grade only (A-F). (6 studio hours)

591B. Advanced Design for Dance Costuming (3)
Provides graduate students with advanced coursework in designing costumes for dance, and with skills necessary to execute the designs.
Letter grade only (A-F). (6 studio hours)

592. Special Topics (1-3)
Prerequisite: Acceptance into MFA program in dance.
Topics of current interest to graduate students in dance will be explored for intensive study.
Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.
(2-6 studio hours)

595. Repertory (1-3)
Prerequisite: Audition.
For graduate dance majors to learn more advanced works from the repertory of noted choreographers or to have new works created on the students by distinguished choreographers.
Letter grade only (A-F). May be repeated to a maximum of 6 units.
(2-6 studio hours)
597. Criticism and Analysis of Dance (3)
Prerequisite: Acceptance into the graduate degree program in dance.
Seminar introducing students to aesthetic and critical discourses within dance studies. Readings in dance criticism, aesthetics, and theory will be discussed in relationship to contemporary and historical dance works. Requires extensive viewing of and writing about choreographic works.
Letter grade only (A-F).

599. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Individual research or project under the guidance of a faculty member.
May be repeated to a maximum of 12 units in different semesters.
(2-6 studio hours) Letter grade only (A-F).

605. Seminar in Dance (1-3)
Prerequisites: Acceptance into the MA or MFA in Dance.
Will be conducted as a seminar. Literature, including research appropriate to the particular topic of the course, will be examined and discussed.
Letter grade only (A-F).

642. Seminar in Dance History (3)
Intensive study of selected topics in the History of Dance.
Letter grade only (A-F). May be repeated to a maximum of 9 units with different topics.

693. Teaching Internship (1-3)
Prerequisite: Acceptance into the M.F.A. program in Dance.
Opportunity to work with full-time Dance faculty member in course preparation and instruction in one area of dance theory.
Letter grade only (A-F).

698. Thesis/Project (1-6)
Prerequisite: Advancement to candidacy.
Planning, preparation, and completion of a thesis/project in dance for the M.A. degree.
Letter grade only (A-F). May be repeated to a maximum of 6 units.

699. Thesis/Project (1-6)
Prerequisite: Advancement to Candidacy.
Planning, preparation, and completion of thesis/project in dance for the M.F.A. degree.
Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

Career Possibilities
Industrial Designer • Interior Designer • Display/Exhibit Designer • Furniture Designer • Car Designer • Model Maker • Package Designer • Technical Illustrator • Teacher • Consultant • Commercial Artist • Architectural Illustrator • Product Designer • 3-D Graphic Illustrator (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction
The Department of Design offers three degree programs: Bachelor of Science in Industrial Design, Bachelor of Fine Arts in Interior Design, Bachelor of Arts in Design. The faculty believe that an appropriate education for the professional designer must include a comprehensive body of technical knowledge involving historical sources, tools, techniques, and materials. In addition, a methodology for encouraging the creative problem solving process; and the attainment of the requisite level of skill to express visual ideas with clarity must be obtained. While being fully equipped to meet the objectives of the global marketplace, today's designer must also achieve sufficient educational breadth to adapt successfully to the varying demands imposed on their work by economic, social and psychological factors. A competitive portfolio review is held each year to identify students whose work has reached a level of competence necessary to advance to junior- and senior-level courses in Industrial Design and Interior Design. After passing portfolio requirements, selected students are officially admitted to the BS and BFA programs. The BA program is open to all students.

The academic programs of the Department of Design have been accredited by the National Association of Schools of Art and Design (National Association of Schools of Art and Design, 11250 Roger Bacon Drivo, Suite 21, Reston, VA 20190; phone: 703-137-0700). Student demand for these programs is high. Requirements for admission and degree requirements are given below.

Undergraduate Programs

Bachelor of Arts in Design  
(code DESNBA01) (120 Units)

The Bachelor of Arts in Design provides the opportunity for the student to gain a broad exposure to the discipline. The curriculum requires study in design theory, art and design history, visual communication, industrial and interior design. In addition to receiving a foundation through the core courses, the curriculum will also enable students to pursue an area of concentration.

Total Design and Art units required: 38 lower division, 34 upper division.

Requirements
Upper Division: ART 321; DESN 344A, 351A or 432, 360, 435A, 450, 460 and 6 units of Design History from the following: DESN 367, 368, 369, 370.
Electives: Select a minimum of 9 units from the following: DESN 142, 154, 156, 241, 242, 244, 254, 256, 280. Select a minimum of 7 units from the following: ART 318; DESN 344B, 346, 351B, 432, 435B, 490.

Bachelor of Fine Arts in Art

The Bachelor of Fine Arts in Art degree is offered as preparation for the student who will eventually seek the Master's degree or a position as a professional designer. The BFA program is a rigorous and competitive one. One hundred and thirty-two semester units are required for the degree, including 84 units for the major. Portfolio review is required for admission to the professional BFA program. Portfolios are reviewed in the spring semester for fall admission to junior standing and the upper division program.

Option in Interior Design  
(code ART_BF09) (132 units)

Requirements
Upper Division: DESN 341 A, 341 B, 342, 343, 346, 367, 369, 440, 441 A, 441 B; eight units of design electives, outside of Interior Design approved by the major advisor. Approved lower and upper division electives to total 132 units.

Students must achieve "C" or better in each required design course to progress in the sequence of study.

Bachelor of Science in Industrial Design  
(code DESNBS01) (132 units)

This degree program is concerned with the relationship between technology and the visual arts. It includes background courses in engineering and sciences. Students must achieve "C" or better in each required design course to progress in the sequence of study. Portfolio review is required for admission to the professional BS program. Portfolios are reviewed in the spring semester for fall admission to junior standing and the upper division program.

Prerequisites
Lower Division: PHYS 100A/B.
Requirements
Upper Division: DESN 331A, 331B, 333A, 333B, 368, 431A, 431B; 12 units of Design/Art electives, 9 units of which must be outside of Industrial Design approved by the major advisor. Approved lower and upper division electives to total 132 units.
Students must achieve "C" or better in each required design course to progress in the sequence of study.

Courses (DESN)

LOWER DIVISION

120A-B. Fundamentals of Design (3-3)
Prerequisites: for 120A: none; for 120B: 120A.
Systematic approach to process of designing two, three-dimensional objects including color theory, surface, volume investigation.
Letter grade only (A-F). (6 hours laboratory)

123A-B. Perspective and Rendering Systems (3-3)
Prerequisites: for 123A: none; for 123B: 123A.
Fundamentals of drawing, perspective, rendering techniques used in the design disciplines for accurate dramatic presentations.
Letter grade only (A-F). (6 hours laboratory)

141. Interior/Architectural Drafting (3)
Architectural drafting graphic techniques used in light framing, commercial construction with emphasis on interiors.
(6 hours laboratory)

142. Beginning Space Planning (3)
Prerequisites: DESN 141.
Functional, human, aesthetic factors of space planning for interiors.
Letter grade only (A-F). (6 hours laboratory)

150. Design Drafting (3)
Introduction to manual, computer aided drafting. Includes descriptive geometry, mechanisms, drafting, orthographic, isometric drafting, blueprint reading, printing, plotting.
Letter grade only (A-F). (6 hours laboratory)

151. Industrial Design Materials and Tools (2)
Hands-on experience with wood, metal, plastic materials, the technical tools for creating forms. Includes appropriate safety instruction for use of power equipment.
Letter grade only (A-F). (4 hours laboratory)

154. Modeling and Prototyping Techniques (2)
Prerequisites: DESN 150, 151.
Materials, processes, techniques for creating mock-ups, models, prototypes used by industrial designers.
Letter grade only (A-F). (4 hours laboratory)

156. 3D Computer-Aided Design (3)
Prerequisites: DESN 150.
Computer aided modeling strategy techniques for depicting three-dimensional surfaces, solids.
Letter grade only (A-F). (6 hours laboratory)

232. Visualization Techniques (3)
Prerequisites: DESN 120B, 132B, consent of instructor.
Introduction to technical drawing, visual presentation of concepts using communication techniques employed by professional design studios.
Letter grade only (A-F). May be repeated to a maximum of 9 units. (6 hours laboratory)

241. Design Drawing and Processes (3)
Prerequisites: DESN 120B, 132B, 142, or consent of instructor.
Introduction to Design drawing, design processes, sketching, solving architectural problems.
Letter grade only (A-F). (6 hours laboratory)

242. Interior/Architectural Model Building (3)
Prerequisites: DESN 120B, 132B, 142.
Building of interior/architectural models for construction, design analysis, presentation.
Letter grade only (A-F). (6 hours laboratory)

243. Materials of Interiors (3)
Prerequisites: DESN 120B, 132B, or consent of instructor.
Materials, processes, resources as they relate to interior architecture. Examination of technology, application through lecture, demonstration, field trips.
Letter grade only (A-F). (6 hours laboratory)

244. Lighting Design for Interior Architecture (3)
Prerequisites: DESN 120B, 132B, 142.
Use of conceptual practical design problems. Nature, properties of light, color are studied.
Letter grade only (A-F). (6 hours laboratory)

245. Building Systems for Interior Architecture (3)
Prerequisites: DESN 142.
Survey of design implications of typical building systems (structural, mechanical, plumbing, electrical, acoustical, energy conservation) as influences on interior architectural design.
Letter grade only (A-F). (3 hours lecture)

246. Computer-aided Drafting (3)
Prerequisite: DESN 141.
Principles, methods of computer graphic applications utilizing AutoCad. Computer drafting of commercial, residential projects.
May be repeated to a maximum of 6 units.

254. Production Materials and Technical Processes (3)
Prerequisites: DESN 150, 151, 154, 156.
Letter grade only (A-F). (6 hours laboratory)

256. 2D Computer-Aided Graphics (3)
Prerequisites: DESN 150 or 141 or consent of instructor.
Introduction to computer-aided graphics and image manipulation. Composition with typography and image for presentation authoring. Technology and terminology for digital media processes.
Letter grade only (A-F). (6 hours laboratory)

280. Industrial Design Processes (3)
Prerequisites: DESN 120B, 132B, 158, 232, 254, 258.
Introductory course in the design processes utilized by industrial designers for product development.
Letter grade only (A-F). (6 hours laboratory)

UPPER DIVISION

320. Advanced Form Study (3)
Prerequisites: DESN 120B, DESN 132B and DESN 232; and consent of instructor.
Development of 3D models as it relates to Industrial Design. Form generation with emphasis on structure, proportion, surface, texture, detail and flow.
Letter grade only (A-F). (6 hours laboratory)
331A-B. Industrial Design (3-3)
Prerequisites: for DESN 331A: Completion of DESN 280 with a "B" or better and consent of instructor; for DESN 331B: DESN 331A.
Planning design of useful products for industrial production.
(6 hours laboratory)

333A-B. Industrial Design Methodology (3-3)
Prerequisites: for 333A: Consent of instructor; for 333B: DESN 333A or consent of instructor.
Examination of methods, techniques in design problem solving.
(6 hours laboratory)

341A-B. Interior Design (3-3)
Prerequisites: for 341A: DESN 232, 243; AH 111A, 111B; for 341B: DESN 341A.
Design of interior environments emphasizing interrelationships between interior space, architectural form, human factors in design.
(6 hours laboratory)

342. Interior/Architectural Presentations (3)
Prerequisites: DESN 232, 241, and Junior standing in the professional program.
Exploring, using various techniques, methods of visually, verbally presenting design concepts, ideas, finished projects.
Letter grade only (A-F). (6 hours laboratory)

343. Advanced Drafting and Detailing (3)
Prerequisites: DESN 242, 245, and Junior standing in the professional program.
Advanced drafting, detailing skills of architectural interior design related to light frame, other construction processes.
Letter grade only (A-F). (6 hours laboratory)

344A-B. Display and Exhibition Design (3-3)
Prerequisites: AH 111A, 111B; DESN 120B, 232 or consent of instructor.
Use of materials, processes, design concepts in planning preparation of displays, exhibits.
(6 hours laboratory)

346. Computer-Aided Design – 3D Modeling (3)
Prerequisites: DESN 132B, 242, 246.
Computer-aided drawing, rendering, 3D drawing, solid modeling. Includes lighting, animation techniques for spatial/architectural modeling, design.
May be repeated to a maximum of 6 units. (6 hours laboratory)

351A. Process of Architectural/Interior Lighting Design (3)
Prerequisites: DESN 232, 142, 244 or 254; or consent of instructor.
Exploration of processes used to conceptualize, present, develop architectural lighting designs.
Letter grade only (A-F). (6 hours laboratory)

351B. Applications of Architectural/Interior Lighting Design (3)
Prerequisites: DESN 241, 351A, or 245.
Exploration of major categories of applications (e.g., residential, office, etc.) specific principles, conventions, codes that apply to them as well as the basic use of lighting equipment common to these applications.
Letter grade only (A-F). (6 hours laboratory)

360. Environmental Communication (3)
Prerequisites: ART 222A, DESN 344A and 351A or consent of instructor.
With new tools and methodology, design and present identification and directional information. Create systems for navigation within virtual and physical environments.
Letter grade only (A-F). (6 hours laboratory)

366. Advanced 3D Digital Modeling (2)
Prerequisites: DESN 346
Advanced texturing, and rendering techniques in 3D digital modeling for interior design.
Letter grade only (A-F). (4 hours laboratory)

367. History and Theory of Architecture (3)
Prerequisite: Completion of GE Foundation requirements.
Evolution of architecture relative to human need to shape environment in accordance with governing concerns of specific periods in history.
Not open for credit to students with credit in ART 417. (3 hours lecture)

368. History and Theory of Design (3)
Prerequisite: Completion of GE Foundation requirements.
Development of design as an independent creative activity including a consideration of both pre-technological and technological culture.
Not open for credit to students with credit in ART 418. (3 hours lecture)

369. History of Furniture and Decorative Arts (3)
Study of the history of furniture, finish materials, accessories.
Letter grade only (A-F). (3 hours lecture)

370. Design in Contemporary Society (3)
Prerequisite: Completion of GE Foundation requirements.
Discover principles of design by examining human relationship to built environment through a sequence of scales: from organization of cities, to public architecture, housing, design of furniture, products. Emphasis will be on experiencing design through lecture, lab, field observations, projects.
Letter grade only (A-F). (3 hours lecture)

431A-B. Advanced Industrial Design (4-4)
Prerequisites: DESN 331B, PHYS 100AB or consent of instructor.
Advanced planning, design of projects in area of mass produced objects, packaging, traffic, transportation, mechanical design, shelter.
(8 hours laboratory)

432. Advanced Rapid Visualization (3)
Prerequisites: DESN 232 or consent of instructor.
Advanced idea generation, visualization for designers.
(6 hours laboratory)

435A. Furniture Design (3)
Prerequisites: DESN 232, 331A, 341A, or consent of instructor.
Design of public, private interior furnishings with in-depth study of potentials of contemporary production methods, materials.
(6 hours laboratory)

435B. Advanced Furniture Design (3)
Prerequisites: DESN 435A, or consent of instructor.
Continuation of DESN 435A. Projects focus upon research, impact of human factors on design of furniture.
Letter grade only (A-F). (6 hours laboratory)

440. Professional Practices for Interior Architecture (3)
Prerequisites: Consent of Instructor.
Examination of professional practices for commercial (corporate) institutional/public interior architectural design.
Letter grade only (A-F). (6 hours laboratory)

441A-B. Advanced Interior Design (4-4)
Prerequisites: DESN 341B, 343 or consent of instructor.
Advanced interior design, space planning problems emphasizing relationships between built environment, human factors in design.
Letter grade only (A-F). (8 hours laboratory)
442G. Internship in Industrial Design (3)
Prerequisite: Consent of instructor.
Student internship experience in selected industrial design offices.
Opportunity to work under supervision of industrial designers in
discipline, challenges in practice of industrial design.
May be repeated to a maximum of 6 units. (6 hours laboratory)

442H. Internship in Interior Design (3)
Prerequisite: Consent of instructor.
Student internship experience in selected interior design offices.
An opportunity to work under supervision of interior designers,
architects in field to expand student understanding of complexities,
discipline, challenges in practice of interior design.
Limited to 6 units in one semester and a total of 9 units. (6 hours laboratory)

450. Public Exhibition (3)
Prerequisite: DESN 360 and two of the following: DESN 367, 368, 369 or 370 or consent of instructor.
To identify and refine an area of interest through the development of
a senior project and comprehensive exhibition.
Letter grade only (A-F). (6 hours laboratory)

460. Professional Practice in Design (3)
Prerequisite: DESN 360.
Standards of practice including marketing, contracts, portfolio
presentation and other aspects of the trade for design professionals.
Letter grade only (A-F). (6 hours laboratory)

490. Special Topics in Design (1-3)
Prerequisite: Consent of instructor.
Special topics of current interest in design will be selected for
intensive study.
Topics will be announced in the Schedule of Classes. May be
repeated to a maximum of 12 units with different topics. (2-6 hours laboratory)

495. Field Studies in Design (1-6)
An opportunity to study design movements, objects, theories,
techniques at appropriate off-campus locations.
Up to 6 units of cumulative credit may be earned in DESN 495.

499C. Special Studies in Display and Exhibition Design (3)
Prerequisite: Consent of instructor.
Opportunity for extensive work with faculty supervision on
individual problems in display, exhibition design.
Limited to 6 units in one semester and a total of 9 units. (6 hours laboratory)

499G. Special Studies in Industrial Design (3)
Prerequisite: Consent of instructor.
Opportunity for extensive work with faculty supervision on
individual problems in industrial design.
Limited to 6 units in one semester and a total of 9 units. (6 hours laboratory)

499H. Special Studies in Interior Design (3)
Prerequisite: Consent of instructor.
Opportunity for extensive work with faculty supervision on
individual problems in interior design.
Limited to 6 units in one semester and a total of 9 units. (6 hours laboratory)

GRADUATE LEVEL

590. Special Problems in Design (1-3)
Prerequisite: Consent of instructor.
Special problems of current interest in design will be selected for
intensive study.
Topics will be announced in the Schedule of Classes. Letter
grade only (A-F). May be repeated to a maximum of 12 units with
different topics. (2-6 hours laboratory)

599. Studio Problems in Design (3)
Prerequisite: Consent of instructor.
Advanced individual graduate projects, with faculty supervision, in
an area of design specialization.
Areas will be designated by letter at the time of registration. Letter
grade only (A-F). Limited to six units in one semester and a total of
12 units in any one area. (6 hours laboratory)

690A. Seminar in Design (3)
Prerequisite: Consent of instructor.
Selected reading and writing concerning topics relevant to
student's specific disciplines in design with opportunity for interdisciplinary discussion.
Letter grade only (A-F).

690B. Seminar in Design (3)
Prerequisite: Consent of instructor.
Professional preparation for designers stressing practical concerns
as well as current trends in design practices, theory and criticism.
Letter grade only (A-F).

692. Public Exhibition (2-3)
Prerequisite: Consent of instructor.
Planning, preparation, administration of a public exhibition of
creative work related to the design field.
Two units only for all M.A. candidates. Three units only for all
M.F.A. candidates. Course will result in a public exhibition by each
M.A. and M.F.A. candidate. Letter grade only (A-F). (6 hours or
more laboratory)

694. Directed Studies Studio (1-3)
Prerequisite: Consent of instructor.
Independent study in creative studio.
Letter grade only (A-F).

695. Field Problems in Design (1-6)
An opportunity to study design movements, objects, theories,
techniques or literature at appropriate off-campus locations.
Up to 6 units of cumulative credit may be earned in DESN 695.

697. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study in technical, historical aspects of design.
Letter grade only (A-F).

698. Thesis or Project (1-6)
Prerequisite: Advancement to candidacy.
Planning, preparation, completion of a thesis or project.
Required of all M.A. candidates. Letter grade only (A-F)

699. Thesis or Project (1-6)
Prerequisite: Advancement to candidacy.
Planning, preparation, completion of thesis or project.
Letter grade only (A-F). Required of all M.F.A. candidates and all
candidates seeking a second M.A.

Introduction
When resources are scarce, difficult choices must be
made on how resources are to be divided among competing
uses. Economics is a social science that addresses the
allocation of scarce resources. When applied to individuals,
economics attempts to understand the behavior of
individuals as consumers, managers and government
officials. When applied to society as a whole, economics
attempts to explain and predict the economy's total output,
level of employment and price level.

Undergraduate Programs

Bachelor of Arts in Economics (code ECONBA01) (120 units)

The bachelor of arts degree with a major in economics
prepares students for a variety of careers in business and
government. The degree also provides the foundation for
attending in elementary and secondary schools and for more
advanced study in economics, business, law, and other
related fields.

Requirements
Lower Division: ECON 100, 101, ACCT 201, and either
MATH 115 or 122. Students with upper division status
decimating Economics as a major may substitute ECON 300
for ECON 100 and 101.
Upper Division: ECON 310, 311, and 380, and six
additional upper division courses in Economics of which at
least two must be at the 400 level. ECON 310, 311, and 380
must be completed with a grade of "C" or better. The following
courses may not be used to satisfy the elective requirement in

Option in Mathematical Economics and
Economic Theory (code ECONBA02) (120 units)

The Bachelor of Arts in Economics with an option in
Mathematical Economics and Economic Theory provides
students with the tools of economic analysis with an emphasis
on economic theory, economic optimization and statistics.
This option is recommended for students interested in
graduate study in economics.

Requirements
Lower Division: ECON 100, 101, MATH 122, 123, 224 and
247. Students with upper division status declaring the
option may substitute ECON 300 for ECON 100 and 101.
Upper Division:
Economic Theory: ECON 310, 311. ECON 310 and 311 must
be completed with a grade of "C" or better.
Statistics: MATH/STAT 380 and STAT 381.
Advanced Theory and Quantitative Methods: At least one of
the following courses: ECON 403, 410H, 411H, 420, 485 or
486.
Elective Courses: At least four additional upper division
courses in economics of which at least one economics
course must be taken at the 400 level. Students may
take one course from the following in meeting the elective
requirement: MATH 364A, 485; STAT 410 or 450; these
will not substitute for the 400-level economics requirement.
ECON 300, 306, 366, 380, 406 and 495 may not be taken
to meet the elective requirement.

Bachelor of Arts in Business Economics (code ECONBA03) (120 units)

The bachelor of arts degree with a major in business
economics provides students with the tools of economic
analysis and their application in a business environment.

The business economics major prepares students for
careers in the private or public sector. Students completing
this major will have a solid foundation in microeconomic
theory, macroeconomic theory, and quantitative methods.
They will have also completed courses in international
economics and business administration. The bachelor's
degree in business economics is excellent preparation for
graduate study in economics, business administration, public
administration, and law.

Requirements
Lower Division Requirements: ECON 100, 101, ACCT
201, and either MATH 115 or MATH 122. Students with upper
division status declaring economics as a major may substitute
ECON 300 for ECON 100 and 101.
Upper Division Requirements: ECON 310, 311, and 380,
and six additional upper division courses of which at least
two must be at the 400 level. ECON 310, 311, and 386 must be completed with a grade of "C" or better. At least two courses must be selected from Group A; at least two courses must be selected from Group B; and, at least one course from Group C. The remaining elective may be any class offered by the economics department, except ECON 300, 3061, 366, 406, or 499.

Group A: Analytical Economics (select at least two courses): ECON 355, 430, 432, 434, 450, 462, 470.
Group C: Business and Economics (select one course): ECON 320, 333, ACCT 310, FIN 300.

Minor in Economics (code ECONUM01)

The Minor in Economics is available to any non-Economics or non-Business Economics major.

The economics minor is designed to provide students with a broad-based introduction to the methods of economic analysis. It is suitable for students planning careers in many fields including primary and secondary education, journalism, law, or government. A minimum of 24 units is required, which must include:

- Lower Division: ECON 100 and 101, and either MATH 115 or 122. Students with upper division status declaring the minor may substitute ECON 300 for ECON 100 and 101 with departmental consent.
- Upper Division: ECON 310 and either ECON 311 or 320, and at least three additional upper division economics courses, of which at least one must be at the 400 level. The following courses may not be taken as upper division electives in economics: ECON 300, 495, and 499

Minor in Business Economics (code ECONUM02)

The Minor in Business Economics is available to any non-Economics or non-Business Economics major.

The minor in business economics is equally suitable for students pursuing baccalaureate degrees in non-business and business fields. The minor provides students with a strong concentration in the techniques of economic analysis most closely related to business decision-making. A minimum of 24 units is required, which must include:

- Lower Division: ECON 100 and 101, and either MATH 115 or 122. Students with upper division status declaring the minor may substitute ECON 300 for ECON 100 and 101.
- Upper Division: ECON 310 or 333, 311 or 320. The remaining 9 units (3 courses) may be selected from the upper division courses listed immediately above or any of the following courses: ECON 355, IS 310 or ECON 380, 372, 403, 420, 430, 432, 441, 450, 455, 465, 485, 486.

Minor in International Economics (code ECONUM03)

The Minor in International Economics is available to any non-Economics or non-Business Economics major.

The minor in international economics provides students with an introduction to the techniques of economic analysis and the application of those techniques to issues in the world economy. Students will learn about the economic history and institutions of other countries, issues associated with the economic growth of less developed countries, and international trade and finance.

The minor is suitable for students from all majors planning careers in a wide variety of fields including business, government, journalism and education. A minimum of 24 units is required and must include:

- Lower Division: ECON 100 and 101, and either MATH 115 or 122. Students with upper division status declaring the minor may substitute ECON 300 for ECON 100 and 101.
- Upper Division: ECON 310 or 333 and ECON 311 or 320, and any three of the following courses: ECON 366, 372, 465, 470, 471.

Master of Arts in Economics (code ECONMA01)

The Master of Arts degree in economics is designed to provide academic preparation for positions in industry, government, consulting agencies and teaching. The emphasis is on the immediate application of more advanced principles of analysis to business, management and government. Candidates are responsible for observing the general requirements stated in the Catalog as well as requirements specified by the Economics Department. Detailed information on requirements may be obtained from the department graduate advisor.

A limited number of graduate assistantships are available to qualified students.

Prerequisites

1. A bachelor's degree with a major in economics; or
2. A bachelor's degree with 24 units of upper division courses comparable to those required of a major in economics at this University (Deficiencies will be determined by the Economics Department);
3. A minimum undergraduate GPA of 3.0 ("B") in upper division economics courses.
4. Graduate students must consult with the graduate advisor for information concerning department procedures and for approval of their course of study before entering the master of arts program in economics.

Advancement to Candidacy

Satisfy the general requirements of the University for advancement to candidacy.

Requirements

1. Thirty-two units of upper-division and graduate courses (500- and 600-level courses, of which 26 units must be in economics with a minimum of 18 units in the 500 and 600 series. All students must develop two fields of concentration in economics, including economic theory (microeconomics and macroeconomics).
2. Satisfactory completion of ECON 503, 510, 511, 555 and 586.
3. Students must pass two comprehensive examinations, one in microeconomics and one in macroeconomics. Students must also successfully complete coursework in two elective fields of concentration with grades of "B" or better in the appropriate 600-level courses. A field of concentration includes a 600-level course and at least one upper-division or 500-level prerequisite course.
Courses (ECON)

LOWER DIVISION

100. Principles of Macroeconomics (3)
Prerequisites: MATH 103 or higher and one course from the Foundation Curriculum.
Money and banking, price changes, national income analysis, business cycles, economic growth, fiscal and monetary policy, international trade.
Not open for credit to students with credit in ECON 202.

101. Principles of Microeconomics (3)
Prerequisite or corequisite: MATH 103 or higher.
Business organization, price theory, allocation of resources, distribution of income, public economy.
Not open for credit to students with credit in ECON 201.

UPPER DIVISION

General Education Category A must be completed prior to taking any upper division course except upper division language courses, where students must first complete prerequisites and/or competency equivalent for advanced study.

300. Fundamentals of Economics (3)
Prerequisites: Completion of GE Foundation requirements.
Designed for non-majors. Presents basic training in economics for social studies teachers or citizens who wish to exercise a reasoned judgment about economic issues in public affairs. Content generally same as ECON 100, 101, in condensed form.
Not open for credit to students with credit in ECON 100 or 101 except by consent of the Economics Department.

306L. Environmental Issues of the World Economy (3)
Prerequisites: Completion of the G.E. Foundation and the Category B requirement, and ECON 101.
Interdisciplinary analysis of human impact on the atmosphere and biological diversity; consideration of policies to foster sustainable development with emphasis on the economic perspective.
Open only to nonmajors.

310. Microeconomic Theory (3)
Prerequisites: ECON 100, 101 and MATH 115 or 122.
Analysis of economic concepts and their applications to business situations. Emphasis on supply and demand analysis, costs of production, variations of competition and monopoly, revenues, prices, profits and losses, and other aspects of the operations of the business enterprises.
Any prerequisite course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in ECON 310.

311. Macroeconomic Theory (3)
Prerequisites: ECON 100, 101 and either MATH 115 or 122.
Determinants of levels of income, employment, and prices; secular and cyclical changes in economic activity; and of the effects of public policies upon aggregate economic experience.
Any prerequisite course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in ECON 311.

313. History of Economic Thought (3)
Prerequisites: ECON 100 and 101, or 300.
Evolution of economics as a science. Doctrines of the different schools of economic thought. Study of the contributions of outstanding economists.

320. Money and Banking (3)
Prerequisites: ECON 100, 101 and either MATH 115 or 122.
Nature and functions of money and its relation to prices; the monetary system of the United States; the functions of banks, bank credit, foreign exchange and monetary control.

333. Managerial Economics (3)
Prerequisites: ECON 100, 101 and either MATH 115 or 122.
The tools of marginal analysis and their application to managerial decisions and planning. Emphasis upon calculating solutions to operational problems. Topics include demand analysis, production and cost, pricing, and output decisions. Product and factor markets will be analyzed.

355. Law and Economics (3)
Prerequisites: ECON 100 and 101, or 300.
Analysis of economic concepts and their application to law and legal institutions. Emphasis on property law, contract law, accident law, crime control and judicial administration.

365. Introduction to Development Economics (3)
Prerequisites: ECON 100 and ECON 101 OR ECON 300.
Economic and social aspects of economic development. General analysis of all aspects of economies in developing countries.
Application of concepts to current situation in developing countries from different parts of the world.
Open only to nonmajors.

372. International Economics (3)
Prerequisites: ECON 100 and 101, or 300.
International trade and exchange rate theory. Types of trade control: tariffs, quotas, exchange manipulation; monopolies. Basic U.S. and European commercial policies since 1500.
Not open for credit to students with credit in ECON 471.

380. Economic Statistics (4)
Prerequisites: ECON 100, 101 and either MATH 115 or 122.
Use of descriptive and inferential statistical concepts for the analysis of economic data. Topics include measures of central tendency and dispersion, probability theory, discrete and continuous probability distributions, hypothesis testing, regression and correlation analysis.
Any prerequisite course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in ECON 380.
(3 lecture, 3 hours, activity, 2 hours)

403J/503. Mathematical Economics (3)
Prerequisites: ECON 310, 311, and consent of instructor.
Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems. Designed for exceptional undergraduate students who intend to pursue a graduate degree in economics. Letter grade only (A-F).

410H/510H. Advanced Microeconomics (3)
Prerequisites: ECON 310 and 311.
Applications of microeconomic theory. Examination and analysis of particular markets and current issues. Specific emphasis on policy analysis for government and business decisions. This course is designed for exceptional undergraduate students who intend to pursue a graduate degree in economics. Letter grade only (A-F).

411H/511H. Advanced Macroeconomics (3)
Prerequisites: ECON 310 and 311.
Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. This course is designed for exceptional undergraduate students who intend to pursue a graduate degree in economics. Letter grade only (A-F).

2009/2010 CSULB Catalog • Economics • 315
420. Forecasting (4)
Prerequisites: ECON 380 and either ECON 311 or 320.
Principles and methods of forecasting. Evaluation of the reliability of existing forecasting techniques. Also covers use of the macroeconomic model as a basis for forecasting and the role of forecasts in the formulation of national economic policy.
(Lecture 3 hours, activity 2 hours.)

430. Industrial Organization (3)
Prerequisites: ECON 310 or 333.
The structure, behavior, and performance of firms and industries. Implications of separation of ownership and control, corporate social responsibility and the profit motive. The dilemma of size versus competition.

432. Economics of Antitrust (3)
Prerequisites: LCON 330 or 333.
An economic analysis of the leading judicial decisions comprising the modern law of antitrust. The future of antitrust including a discussion of proposals for legislative overhaul, including repeal of existing antitrust law.

434. Economics of Regulation (3)
Prerequisites: ECON 310 or 333.
A comprehensive survey of the past, present and future of the political regulation of economic and business activity. Consideration of the rationale for regulation and deregulation and the creation, design and removal of regulatory practices.

437 /537. Urban Economics (3)
Prerequisite: ECON 310.
Economic analyses of city formation and size, business and residential location decisions, land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods.

438 /538. Regional Economics (3)
Prerequisites: LCON 330 and LCON 311.
Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations.

441. Labor Economics (3)
Prerequisites: ECON 310 and ECON 380.
Manpower resources and their utilization, with particular reference to labor unions, collective bargaining and related public policies. Effects of these institutions on production, employment, wages and patterns of income distribution.

450. Public Sector Economics (3)
Prerequisites: ECON 310 and 311.
Analysis of the theory of public goods. Criteria for efficient allocation of resources between private and public sectors. Possible responses of government expenditures, such as environmental pollution. Emphasis on the allocation and distribution effects of government expenditures and taxation.

455 /555. Transportation Economics (3)
Prerequisites: LCON 310 and LCON 380.
Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways. Letter grade only (A-F).

462 /562. Environmental Economics (3)
Prerequisite: ECON 310.
Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined.

463 /563. Energy Economics (3)
Prerequisite: ECON 310.
Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility, OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investor and publicly owned utilities, domestic and international policies.

464 /564. Natural Resource Economics (3)
Prerequisite: ECON 310.
Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include: forestry, fisheries, energy, water, and mineral economics.

465 /565. Economic Development (3)
Prerequisite: ECON 310 and 311.
Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies.

470 /570. International Trade (3)
Prerequisites: ECON 310.
Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements.

471 /571. International Finance (3)
Prerequisites: LCON 311 and LCON 380.
Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes.

485 /585. Econometrics I (4)
Prerequisites: ECON 310, 311, and 380.
First course in a two-semester sequence introducing students to basic techniques in econometrics. Basic statistics and the classical linear regression model are covered. Emphasis is given to computing estimators using simulated and actual data sets.
(Lecture 3 hours, activity 2 hours)

486 /586. Econometrics II (4)
Prerequisites: ECON 485.
The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics.
(Lecture 3 hours, activity 2 hours)

490. Special Topics in Economics (3)
Prerequisite: Consent of instructor.
Topics of current interest in economics selected for intensive development.
May be repeated to a maximum of 6 units. Topic will be announced in the Schedule of Classes.

491H. Senior Honors Seminar in Economics (3)
Prerequisites: Senior status, ECON 485 or 486, and consent of instructor.
Provides opportunity for students to integrate their knowledge of economics, statistics-econometrics and computer studies. Designed
as a seminar in research where students will be expected to write a paper and present their research orally. Research topics must be approved by instructor.

459. Field Studies Practicum (3)
Prerequisites: ECON 310 or 330 and consent of instructor. Observation and practical experience, at a managerial level, in an appropriate business or government enterprise. Applications for permission to enroll must be filed with the Economics Department at least six weeks prior to beginning of the semester involved. May be repeated to a maximum of 6 units.

499. Directed Study (1-3)
Prerequisite: Consent of instructor. Independent study under the supervision of a faculty member. May be repeated to a maximum of 6 units.

GRADUATE LEVEL

500. Business Economics (3)
Workings of the price system in resource allocation with special emphasis on the role of business in the economy. Analysis of the economic implications of various forms of industrial organization and the application of public policy to business activity. Not open to students majoring in economics or pursuing an M.A. in economics. Letter grade only (A-F).

503/403. Mathematical Economics (3)
Applications of calculus, linear algebra and other mathematical tools in formulating and solving economic problems. Letter grade only (A-F).

510H/410H. Advanced Microeconomics (3)
Prerequisites: ECON 403 or 503. Applications of microeconomic theory. Detailed examination and analysis of particular markets and contemporary issues in light of economic theory. Specific emphasis on policy analysis for government and business decisions. Letter grade only (A-F).

511H/411H. Advanced Macroeconomics (3)
Prerequisites: ECON 403 or 503. Applications of macroeconomics, monetary and forecasting theory to operational management and planning decisions of government and business. This course is designed for exceptional undergraduate students who intend to pursue a graduate degree in economics. Letter grade only (A-F).

537/437. Urban Economics (3)
Economic analyses of city formation and size, business and residential location decisions, and land use. Application of microeconomic theory to urban transportation issues, residential segregation, urban poverty and crime, and housing markets. Introduction to local public finance and provision of local public goods. Letter grade only (A-F).

538/438. Regional Economics (3)
Economic evolution and growth of cities, states and countries. Roles of geography, demography, location of industries, and factors determining regional growth and development will be considered. Special attention will be paid to the economic integration of U.S. states and European nations. Letter grade only (A-F).

555/455. Transportation Economics (3)
Economic analysis of intercity transportation, cost measurement, applications of pricing principles, project evaluation, and economic regulation. Policies towards railroads, air transportation, and intercity highways. Letter grade only (A-F).

562/462. Environmental Economics (3)
Economic analysis of environmental problems and policy. Market failures due to externalities, public goods, and common property resources will be examined. Private (market) and public (governmental) solutions to environmental problems are examined. Letter grade only (A-F). Same course as ECON 462. Not open for credit to students with credit in ECON 462.

563/463. Energy Economics (3)
Application of economic analysis to energy problems and policies. Representative topics include macroeconomic effects of energy price shocks, international financial fragility, OPEC pricing strategies, determinants of demand and supply, industrial organization and finance, investment and publicly owned utilities, domestic and international policies. Letter grade only (A-F). Same course as ECON 463. Not open for credit to students with credit in ECON 463.

564/464. Natural Resource Economics (3)
Microeconomic and capital theory applied to problems of conserving and managing natural resources. Analysis of public policies affecting renewable and nonrenewable resources including price controls, taxation and leasing. Representative topics include forestry, fisheries, energy, water, and mineral economics. Letter grade only (A-F). Same course as ECON 464. Not open for credit to students with credit in ECON 464.

565/465. Economic Development (3)
Economic and social factors underlying economic development. Analysis of problems associated with economic growth of less developed countries. Evaluation of development policies. Letter grade only (A-F).

570/470. International Trade (3)
Prerequisites: ECON 310. Examines theories of trade, welfare implications of different trade policies, the political economy of trade policies, and global trading arrangements. Letter grade only (A-F).

571/471. International Finance (3)
Covers topics in international finance in both an applied and theoretical framework, such as the balance of payments, the foreign exchange market, income, trade, capital flows, asset market adjustment mechanisms, and exchange rate regimes. Letter grade only (A-F).

585/485. Econometrics I (4)
First course in a two-semester sequence introducing students to basic techniques in econometrics. Basic statistics and the classical linear regression model are covered. Emphasis is given to computing estimators using simulated and actual data sets. Letter grade only (A-F). (Lecture 3 hours, activity 2 hours)

586/486. Econometrics II (4)
Prerequisites: ECON 585. The second in a two-semester sequence introducing students to basic techniques in econometrics: advanced regression, including time-series and panel data analysis. Critical evaluation of selected examples of empirical economic research, and exercises in applied econometrics. Letter grade only (A-F). (Lecture 3 hours, activity 2 hours)

597. Directed Studies (1-3)
Prerequisite: Consent of instructor. Intensive reading and/or practical research in economics. Letter grade only (A-F).

2009/2010 CSULB Catalog • Economics • 317
660. Seminar in Natural Resources and the Environment (3)
Prerequisites: ECON 510H, 511H, 585, and one of the following: ECON 462, 463 or 464.
Research methods applied to selected topics from energy, natural resources, and the environment.
Letter grade only (A-F). (Seminar, 3 hours.)

666. Seminar in Transportation Economics (3)
Prerequisites: ECON 510H, 511H, 555 and 555.
Advanced topics in transportation economics including passenger and freight transportation issues, congestion pricing, toll roads, mass transit systems, maritime economics, transportation regulation, firm performance, as well as welfare effects of transportation policy.
Letter grade only (A-F).

670. Seminar in International Trade and Development (3)
Prerequisites: ECON 510H, 511H, 585 and either ECON 565, 570, or 571.
Selected topics dealing with current problems and solutions in international trade, finance, and development.
Letter grade only (A-F).

690. Seminar in Economics (3)
Prerequisites: ECON 510H, 511H, and 585.
Seminar on topics of current interest in economics.
May be repeated to a maximum of 6 units with different topics.
Letter grade only (A-F).

697. Directed Research (1-3)
Prerequisite: Consent of instructor.
Independent research under the guidance of a faculty member.
Letter grade only (A-F).

Introduction

The College of Education (CED) prepares students for professional careers in the field of public and private education through baccalaureate, certificate, credential and Master's programs offered in three departments: Liberal Studies, Teacher Education, and Advanced Studies in Education and Counseling.

The College of Education's primary purpose is to create and nurture a learning and teaching community committed to excellence in education. We fulfill our purpose by preparing professionals to be socially responsible leaders, engaging in research and scholarly activity which informs and improves practice, valuing diversity as we work to achieve common goals, serving and collaborating with schools, agencies, the community and each other, and engaging in an inclusive process for planning, communicating, working, and assessing progress toward our goals.

The College provides undergraduate and graduate studies in education. It offers specific curricula focusing on the preparation of personnel for teaching and educational service in the pre-school, elementary, middle and high schools, community colleges, adult programs, and other educational agencies. In addition to two certificate programs and a variety of teaching and service credentials, the College offers a Bachelor of Arts degree in Liberal Studies, a Master of Arts in Education degree with various options, Master of Science degrees in special education and counseling and an Education Doctorate in Educational Leadership. Descriptions that include prerequisites and requirements for each credential, certificate, and degree program are listed in this catalog in the department that houses the particular program. Doctoral program information is included at the end of this section.

College programs are accredited by the National Council for Accreditation of Teacher Education (NCATE) and the California Commission on Teacher Credentialing (CTC).

Please visit the college website at www.csulb.edu for detailed information on departments, programs, centers, and offices.

Credential Programs

Public school teaching and service credentials in California are regulated by the state legislature and administered by the California Commission on Teacher Credentialing (CTC). Credential programs offered at CSULB have been developed to meet current requirements, which are complex and continually reviewed and changed by legislative action. Candidates for all credentials must meet local requirements in effect when completing credential programs. It is the responsibility of the student to be familiar with the program requirements contained in this catalog and to obtain current information from departments offering individual programs. For information regarding academic requirements, fieldwork, contact the specific credential program coordinator. For information on state credential laws and regulations, pending changes, and new legislation, contact the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Basic Teaching Credentials

There are three types of basic teaching credentials:

- Multiple Subject
- Single Subject
- Education Specialist

The Preliminary Multiple Subject Credential authorizes the holder to teach all subjects in a self-contained classroom, generally in an elementary school. A teacher authorized for multiple subject instruction may be assigned to teach in any self-contained classroom — pre-school, kindergarten, grades 1 through 12, or in classes for adults. In addition to a sequence of professional preparation courses and student teaching, candidates for the Multiple Subject Credential must demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects) as a condition of entry to the program. With additional course work, students in the Preliminary Multiple Subject Credential Program may earn a Bilingual Cross Cultural and Academic Development (BCLAD) authorization in Spanish, Cambodian (Khmer), Chinoso (Mandarin or Cantonese), Korean,
or Vietnamese. For detailed information on the Multiple Subject Credential Program, refer to the Teacher Education Department section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-9259).

One of the pathways to a Multiple Subject credential is the Integrated Teacher Education Program (ITEP). ITEP combines undergraduate study of academic subjects aligned with the California standards for the K-8 curriculum with professional preparation courses, field experiences, and student teaching. ITEP students may also complete the requirements for the Education Specialist Credential or Bilingual Cross Cultural and Academic Development (BCLAD) Credential along with those for the Multiple Subject Credential and receive dual authorization. ITEP students are required to demonstrate subject matter competence by passing the CSET. Multiple Subjects exam as a condition of advancement to student teaching. For detailed information on the ITEP program, refer to the Liberal Studies section of this catalog or contact the Liberal Studies Department (AS 133; 562/985-4020).

The Single Subject Credential authorizes the holder to teach a specified subject. A teacher authorized for single subject instruction may be assigned to teach this subject at any grade level — pre-school, kindergarten, grades 1 through 12, or in classes for adults. In practice, most teachers with a single subject authorization teach departmentalized classes in middle, junior high or senior high schools. CSULB offers Commission on Teacher Credentialing-approved Subject Matter Programs in Art, Biological Sciences, Chemistry, English, Foreign Language (French, German, Italian, Japanese, Latin, Spanish), Geosciences, Health Science, Home Economics, Mathematics, Music, Physical Education, Physics, and Social Science. For detailed information on the Single Subject Credential Program, refer to the Single Subject Teacher Education section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-5325).

The Education Specialist Credential authorizes a candidate to teach in a special education assignment with students with special needs. This K-12 credential certifies individuals to work as a special day class teacher, inclusion support teacher, or as a resource specialist. In addition to a sequence of professional preparation courses and student teaching, candidates must demonstrate subject matter competence by passing all three sub-tests of the California Subject Examinations for Teachers: Multiple Subjects, or the appropriate CSET exam in Math, Science, or Language Arts as a condition of entry to the program. Another pathway to the Education Specialist Credential is the Integrated Teacher Education Program (ITEP), through which students can earn dual authorization to teach Multiple Subjects and Special Education. For detailed information on the Education Specialist Credential Program, refer to the Advanced Studies in Education and Counseling section in this catalog or visit the Teacher Preparation Advising Center (ED1-67; 562/985-9259).

Elementary and secondary teachers who wish to diversify their teaching authorizations may do so by fulfilling specific requirements. Further information is available in the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Obtaining the Preliminary Credential
Requirements for the Preliminary and Professional Clear credentials are set by the Commission on Teacher Credentialing in accordance with state law. Requirements for the Preliminary credential include:
1. a bachelor’s degree from an accredited institution,
2. an approved professional preparation program, including the teaching of reading and student teaching,
3. verification of subject matter competence (coursework or examination),
4. passage of CBEST (California Basic Educational Skills Test),
5. completion of an approved course or examination in the U.S. Constitution,
6. demonstration of Level I computer technology proficiency (course or exam), and
7. for Multiple Subject and Education Specialist candidates, passage of the Reading Instruction Competence Assessment (RICA).

Graduates of CSULB credential programs must Commission and program requirements and are recommended for the Preliminary credential by the College.

Obtaining the Professional Clear Credential
The Preliminary Credential is valid for five years from the date of issuance and is not renewable. During the first five years of teaching, teachers are expected to earn the Professional Clear Credential through a Commission-approved Professional Teacher Induction Program sponsored by a school district, county office of education, college or university, consortium, or private school. The induction program includes the advanced study of health education, special populations, computer technology, and teaching English learners.

For information on the Professional Clear credential, contact the Credential Center (ED1-42; 562/985-4109; credentials@csulb.edu).

Entry Levels for Basic Credential Programs
Students may begin credential programs at five different levels:
1. Qualified candidates who wish to earn the Multiple Subject Credential may begin the Integrated Teacher Education Program (ITEP) in the Liberal Studies Department as first-term freshmen. This program leads to the Multiple Subject Credential in four and a half years of full-time, accelerated study.
2. Qualified transfer students from community colleges who wish to earn the Multiple Subject Credential and who have started the Integrated Teacher Education Program (ITEP) at their community college may continue the program as transfer students. This program leads to the Multiple Subject Credential in four and a half years of full time, accelerated study.
3. Junior level — With a carefully planned program, credential program courses may be taken as electives as early as the first semester of the junior year with completion of the program coming as early as the first semester after graduation.
4. Senior level — Credential program courses may be taken during the senior year as electives. The remaining
Degree Programs

Bachelor’s Degree Programs

The college offers a bachelor's degree in Liberal Studies through the Liberal Studies Department. The Liberal Studies Track I major is a cross-disciplinary liberal arts program of study that meets both the General Education and major requirements of the university. This major prepares students in the broad content necessary for successful elementary school teaching. Track I students often begin taking credential program courses in the junior or senior year, and complete the credential program in the first year after graduating. The Integrated Teacher Preparation Program (ITPP) is a Liberal Studies major that combines a broad liberal arts course of study with teacher preparation courses. ITPP students graduate with both a BA degree and a Preliminary Multiple Subject Teaching Credential. For more information, refer to the Liberal Studies Department section of this catalog.

Master’s Degree Programs

Master’s degree programs are offered in two departments within the College. General procedures, policies, requirements, and applications for the master’s degrees are available from the Graduate Studies and Research Office, ED1-7 (www.csulb.edu/graduate), and are listed following each option and specialization in the appropriate section of the catalog. In order to pursue a master’s degree, students must submit applications to both the University and the program.

The Advanced Studies in Education and Counseling Department offers a Master of Science degree in Counseling, with Options in Marriage and Family Therapy, School Counseling, Student Development in Higher Education, and Career Counseling; and a Master of Science degree in Special Education. The Master of Arts in Education degree is offered with Options in Educational Administration, Educational Psychology, Educational Technology, Librarianship, and Social and Cultural Analysis of Education.

The Teacher Education Department offers six options in the Master of Arts in Education: Curriculum and Instruction (Elementary Education), Curriculum and Instruction (Secondary Education), Dual Language Development, Early Childhood Education, Mathematics Education, and Reading/Language Arts.

To be considered for admission to a master's degree program, students must submit a program application, official transcripts, test scores (if applicable), and any additional program requirements to the Office of Graduate Studies and Research in the College of Education. Program applications vary; please check the individual program for additional requirements. Program applications may be obtained from the Office of Graduate Studies and Research (ED1-7; 562/985-8476; www.ced.csulb.edu/graduate). Please note: Not all programs admit students for the spring semester. For additional program information and contact numbers for advisors, visit the College of Education website at www.ced.csulb.edu and navigate to the appropriate program.
All master’s degree candidates in education are required either to complete a thesis or project or take a comprehensive examination according to the requirements of the degree or degree option. Application for enrollment for thesis, project, or comprehensive examination must be made by October 1 for the spring semester or by March 1 for the fall semester.

University Requirements for Admission to Master’s Programs

To be eligible for conditional admission to the respective College of Education master’s degree programs, applicants must meet the following grade point average (GPA) requirements:

Clear Conditional Admission — Applicants must have a GPA of 3.00 or higher in the last 60 semester or 90 quarter units of course work taken. Lower division and/or extension courses taken after obtaining the bachelor’s degree are excluded from this calculation.

Conditional Admission — Applicants who meet all requirements for clear conditional admission except one program requirement may nevertheless qualify for clear conditional admission by earning a minimum GPA of 3.00 on 12 units of approved course work planned by the student and advisor. Applicants who fail to meet more than one program admission requirement must be recommended by faculty as a promising candidate in order to be conditionally admitted.

NOTE: Individual programs retain the right to determine who is admitted to the program. Meeting the University requirements for clear conditional or conditional admission does not guarantee acceptance to the program.

Clear conditional admission to the CED is required for enrollment in 500 and 600 level courses.

Advancement to Candidacy

To be advanced to candidacy for a graduate degree, a candidate must:
1. Fulfill the Graduation Writing Assessment Requirement (GWAR);
2. Satisfy all general University requirements for advancement to candidacy, as well as the specific requirements for the degree option;
3. Complete all prerequisites and testing. File for an approved program of studies with the College of Education Office of Graduate Studies and Research, and be currently enrolled;
4. Be in the second semester of enrollment as a Master’s student;
5. Resolve all incomplete grades (to either “complete” or “default” grade).

Note: The Graduate Record Examination (GRE) is required for the MA in Education, Option in Educational Psychology.

Degree and Credential Programs at a Glance

Bachelor of Arts in Liberal Studies
Master of Arts in Education with Options in:
- Educational Administration
- Educational Psychology
- Educational Technology
- Curriculum and Instruction (Elementary Education)
- Curriculum and Instruction (Secondary Education)
- Dual Language Development
- Early Childhood Education
- Reading and Language Arts
- Mathematics Education
- Librarianship
- Social and Cultural Analysis of Education

Master of Science in Special Education
Master of Science in Counseling with Options in:
- Career Counseling (Temporarily suspended for new admissions)
- Marriage and Family Therapy (MFT)
- School Counseling
- Student Development in Higher Education

Ed.D. in Educational Administration and Leadership (Joint) (Suspended, no new students admitted)
Ed.D. in Educational Leadership

Teaching Credentials

Elementary:
- Preliminary Multiple Subject Credential Program
- Preliminary Multiple Subject Internship Program
- Preliminary Multiple Subject Credential Program with Bilingual Cross-cultural Language and Academic Development (BCLAD) Emphasis
- Integrated Teacher Education Program (ITEP)

Secondary:
- Single Subject Credential Program
  - Art, English (Emphasis in Black Studies, Comparative Literature, Creative Writing, Journalism, Language and Linguistics, Lorantry and Composition, Literature, Speech, Theatre Arts), Languages Other than English (French, German, Italian, Japanese, Latin, Spanish), Health Science, Home Economics, Life Science, Mathematics, Music, Physical Education (Adapted P.E., Elementary School, Secondary School), Physical Science (Chemistry, Earth Science, Physics), Social Science (covering Anthropology, Economics, Geography, History, Political Science, Psychology, Sociology)
- Single Subject Intern Credential Program

Specialist Teaching Credentials

- Reading and Language Arts
- Education Specialist Credential Program, Level I: Mild/Moderate Disabilities
- Education Specialist Internship Program, Level I: Mild/Moderate Disabilities
- Education Specialist Credential Program, Level I: Moderate/Severe Disabilities
- Education Specialist Internship Program, Level I: Moderate/Severe Disabilities
- Education Specialist Credential Program, Level II: Mild/Moderate Disabilities
- Education Specialist Internship Program, Level II: Mild/Moderate Disabilities
- Education Specialist Credential Program, Level II: Moderate/Severe Disabilities
- Education Specialist Internship Program, Level II: Moderate/Severe Disabilities

322 • Education, College of • 2009/2010 CSULB Catalog
Services Credentials
- Preliminary Administrative Services
- Professional Administrative Services
- Teacher Librarian Services
- School Counseling
- School Counseling Internship
- School Psychology
- School Psychology Internship

Graduate Certificates
- Career Guidance Specialist (discontinuance under consideration, admission suspended)
- Community College

Other Credentials and Authorizations
Please refer to the College of Health and Human Services section of this catalog for credential programs in:
- Adapted Physical Education
- Designated Subjects
- Health Services (School Nurse)
- Clinical Rehabilitative Services – Language, Speech, and Hearing
- Clinical Rehabilitative Services – Audiology
- School Social Work, Child Welfare, and Attendance

College Offices and Services
Scholarships
Scholarships are available for undergraduate teacher track, credential, master’s, and doctoral students in the College of Education. Scholarship applications are available the first week in November in the Office of the Dean, ED1-6, and online at www.coe.csulb.edu, and should be completed and submitted by the second Friday in February. Scholarship recipients are identified by the fourth week of April and the scholarship funds are awarded for the beginning of the next academic year.

Educational Career Services (ECS)
Educational Career Services assists students and alumni in their search for professional positions in the field of education. ECS serves teacher candidates and also provides services to students and alumni seeking positions as school administrators, school counselors, school psychologists, college instructors, librarians, and other positions in education. Services offered by ECS include: maintaining links to web-based job banks, posting job vacancy notices, sponsoring job fairs, conducting job search seminars, providing individual advisement, and providing information about professional educational opportunities. Appointments may be scheduled with an Educational Career counselor to obtain information about the current job market in education or to receive assistance with resume writing or job interview skills. ECS is located in ED1-33, telephone (562) 985-5722.

Credential Center (CG)
The Credential Center assists students in pursuit of their credential and educational goals. Center staff serve as a campus liaison to the State of California Commission on Teacher Credentialing (CTC), and coordinate the dissemination of credential information to University staff, faculty, students and the general public. The Credential Center is responsible for the evaluation, verification, and recommendation of all initial elementary teaching, secondary teaching, specialist, and service credentials. The Center serves as a University resource for credential requirements and regulations, which includes advisement for out-of-state and out-of-country credential applicants and assistance to credentialled teachers seeking renewal information. The Center is located in ED1-42, telephone (562) 985-4109, email credentials@csulb.edu.

Service Experiences for ReVitalizing Education (SERVE)
The SERVE Program creates an opportunity for students at the undergraduate level, in particular those who are considering careers in K-12 education, to learn about the realities of urban classrooms and the needs of the diverse K-12 student population. SERVE interns work with students individually and in small groups to provide academic support and encourage personal growth. Through this involvement CSULB students assess their career goals and provide direct service to students and teachers in grades K-12 and to their communities. SERVE is located in ED1-17, telephone (562) 985-5499.

Educational Psychology Clinic
The Educational Psychology Clinic serves as a primary training site for the School Psychology, School Counseling, Marriage, Family Therapy, and Reading/Language Arts Specialist Credential Programs, while providing comprehensive educational and psychological services to children at a moderate cost. Services at the Clinic are provided by graduate students under the supervision of faculty in the College of Education. Specific services provided at the clinic include psychoeducational assessments, counseling and tutoring. Administrative fees for clinical services are reduced for CSULB students and those with financial need. The Educational Psychology Clinic is located in ED2-155, telephone (562) 985-4991, website www.coe.csulb.edu/odpsoclinic.

Center for Language Minority Education and Research (CLMER)
The Center for Language Minority Education and Research (CLMER) engages in a wide range of services, projects and research initiatives to promote equity, excellence and justice in schools and society, with a focus on traditionally underserved and underrepresented children, families and communities. Services, projects and research initiatives align with a vision for an inclusive, democratic society and promote evidence-based approaches to relevant human, organizational and educational change. CLMER is located in ED1-18, telephone (562) 985-5006.

Center for Collaboration in Education (CCE)
The Center for Collaboration in Education coordinates information on the various university/community partnerships. These partnerships are focused on the renewal of the education profession and the pursuit of a high quality seamless public education/higher education pathway.
Educational Leadership Doctorate

P-12 Specialization (code EDADPH02)
Community College/Higher Education Specialization (code EDADPH03)

The Education Leadership doctoral program is designed to prepare current and future P-12 educational leaders to develop and nurture organizations that are designed to serve the diverse populations of southern California. Graduates of this program will be prepared to serve as leaders in urban education with expertise to function in a global technological society. The program produces reflective practitioners aware of the complex challenges of curriculum, finance, organizational dynamics, and collaboration with local, state, and national stakeholders.

Students will become more effective leaders by (a) solving problems from multiple perspectives; (b) using multicultural competence to interact with personnel, students, and community members; (c) challenging assumptions to improve educational systems; and (d) learning to lead organizations toward respect of divergent viewpoints, learning styles, and ranges of ability.

Emphasis is placed on the expanding and changing role of education for social change to meet the needs of society. Graduate students in a learning cohort community will experience an interdisciplinary approach to the study of educational leadership, teaching and learning, organizational development, management and research.

Graduates of the program will be qualified for a variety of teaching and leadership positions in education and education-related settings, such as superintendent, central school office administrator, school principal in P-12, or chancellor, president or administrator in community colleges or 4-year universities.

Degree Designation

The degree is designated as the Educational Leadership Doctorate (Ed.D) and is granted at California State University, Long Beach.

University Admission

Applications are reviewed annually and students accepted to the program begin study in the summer of each year. Students must file an application for Graduate Admission along with one complete set of official transcripts from all educational institutions with the University Office of Admissions.

Program Admission Requirements

In addition to the university application, prospective students must also submit a program application. Admission is granted on a competitive basis; meeting the minimum requirements qualifies an individual for consideration but does not guarantee admission to the program. Requirements for admission will apply to all Ed.D. applicants and include:

1. Evidence of completing an acceptable baccalaureate degree earned at a regionally accredited institution.
2. Evidence of completing a master's degree earned at a regionally accredited institution, or the applicant has completed equivalent academic preparation.
3. A cumulative grade point average of at least 3.0 in upper-division and graduate study combined.
4. Good standing at the last institution of higher education attended.
5. Demonstration of sufficient preparation for, experience in, and potential for educational leadership, including: successful experience in leadership in school, postsecondary, or community contexts, and/or policy leadership; academic excellence; problem-solving ability; technological proficiency; interest in critically assessing current educational policies and practices; and interest in improving current educational policies and practices.
6. Graduate Record Examination (GRE) scores from the three sections of the General Test, taken within five years of applying to the Ed.D. program.
7. Three letters of recommendation attesting to leadership and scholarship potential.
8. A written statement of purpose reflecting an understanding of the challenges facing the public schools or community colleges in California.
9. A written statement from the applicant describing the applicant's plan for meeting professional responsibilities and the demands of the program.
10. A written statement from the applicant's employer indicating support for the applicant's doctoral studies, if applicable.
11. A personal interview.

Program Requirements

The program requires a minimum of 60 units of which 12 are dissertation units. At least 42 units must be completed in residence at the campus.

All courses must be completed:
1. Core courses (23 units): EDLD 720, 721A-E, 722, 723, 724, 725, 726
2. Research courses (13 units): 730, 731, 732, 733, 734, 735
3. Specialization courses (12 units; choose one specialization): A. Community College/Higher Education Specialization: EDLD 740, 741, 742, 743 B. P-12 Specialization: 750, 751, 752, 753
4. Dissertation (12 units): EDLD 798

Doctoral students must maintain a 3.0 GPA to be in good standing. Students who have a grade point average below 3.0 in two successive terms will be disqualified from the program.

The Ed.D. program is designed to allow students to complete all program requirements within three calendar years, including three required summer sessions. Students are expected to complete program requirements within five years after full admission to the program. Extensions of up to two years may be granted if the student is in good standing, there are compelling individual circumstances, and the student demonstrates current knowledge of research and practice in educational leadership. After completion of all course work and successful completion of the qualifying examination, the student will advance to candidacy and undertake the dissertation.

Continuous enrollment is a requirement of the program. If extenuating circumstances require that the student leave the program for a period of time, the faculty will consider an adjusted schedule and an individualized plan.

324 • Education, College of • 2009/2010 CSULB Catalog
Qualifying Examination Paper

The qualifying examination paper shall include a rigorous written demonstration of student knowledge; the examination must be passed prior to the student's advancement to candidacy. The examination will be due by the end of the fourth term in the program. The student will demonstrate knowledge from coursework taken to date: (1) Leadership core courses, (2) Research Methods courses, and (3) Specialization courses completed up to that time. The structure of the qualifying examination paper will be a definition of the problem under study and a review of the literature that could serve as a preparatory chapter of the dissertation.

Dissertation Proposal Examination

The dissertation proposal examination and oral defense will evaluate the student's readiness to proceed with the dissertation research. The dissertation proposal examination will consist of the first three chapters of the dissertation. It will typically focus on an examination of (a) an educational issue, (b) a practice or program, (c) an educational policy or reform or improvement, or (d) implementation studies within an educational organization or community setting.

The dissertation committee will evaluate the proposal. A determination of passing must be made by consensus of the committee. Passing this examination shall constitute formal approval for the candidate to proceed with the proposed dissertation research, subject to Institutional Review Board approval.

Advancement to Candidacy

After being admitted to the program, passing the qualifying examination, completing coursework, and successfully defending the dissertation proposal, the student will advance to candidacy. The total time from admission until candidacy shall not exceed three years unless there are mitigating circumstances and the program faculty have approved the extension. An extension for advancement to candidacy shall not exceed one year.

Dissertation

The dissertation shall be the written product of systematic, rigorous research on a significant educational issue. The dissertation is expected to contribute to an improvement in public P-12 or community college professional practices or policy, generally or in the context of a particular educational institution.

The dissertation shall identify the field-based research problem and question(s), state the major theoretical perspectives, explain the applied significance of the undertaking, relate it to the relevant scholarly and professional literature, set forth the appropriate sources for and methods of gathering and analyzing the data, and offer a conclusion or recommendation. It shall include a written abstract that summarizes the significance of the work, objectives, methodology, and a conclusion or recommendation.

The Dissertation Committee will minimally consist of a chair and two members. The chair will be selected by the procedure followed by the College of Education. The chair and student will then select two other members: one will be from the CED faculty and the other will be either a university faculty member outside of the CED, a P-16 practitioner who holds a doctorate, or a community member associated with the program who holds a doctorate.

The dissertation committee chair shall provide primary supervision for the dissertation. The chair shall be a tenured or tenure-track faculty member in the College of Education. The Ed.D. program director may allow the replacement of a committee member, based on the evaluation of a rationale provided by the student or committee member making the request.

Final Examination Oral Defense of the Dissertation

The Dissertation Committee will conduct a final oral examination during which the doctoral student defends the dissertation. By unanimous vote the Committee may approve the dissertation and recommend the conferral of the degree or may request minor and/or substantive changes. In the event that the Dissertation Committee requires substantive changes, the final vote of the Committee will be postponed until the changes are completed. The Committee may also vote to reject the dissertation, thereby ending the student's participation in the degree program.

Courses (EDLD)

720. Proseminar in Educational Leadership (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
An introduction to the field of educational leadership, an orientation to doctoral education, skill development for successful completion of the doctorate, and peer and professional mentoring groups to support students throughout the program. This is the first semester of a six semester sequence.
Letter grade only (A-F)

721A. Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720 or consent of program director.
Focus on integrating theory and research into practice. This is the second semester of a six semester sequence.
Credit/No Credit grading only.

721B. Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, 721A or consent of program director.
Focus will be on exploring career options in educational leadership. This is the third semester of a six semester sequence.
Credit/No Credit grading only.

721C. Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, 721A, 721B or consent of program director.
Focus on preparing for the qualifying examination. This is the fourth semester in a six semester sequence.
Credit/No Credit grading only.

721D. Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, 721A, 721B, 721C or consent of program director.
Focus on the role of inquiry in practice. This is the fifth semester of a six semester sequence.
Credit/No Credit grading only.
721E. Advanced Proseminar in Educational Leadership (1)
Prerequisite: Admission to the Educational Leadership Doctorate program and EDLD 720, 721A, 721B, 721C, 721D or consent of program director.
Focus on current issues and trends in leadership. This is the sixth semester of a six-semester sequence.
Credit/no credit grading only.

722. History and Systems of U.S. Education (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Critical analysis of major schools of U.S. historical thought and their connection to social developments and examination of history as an interpretative, subjective process in which historians engage in dialogue with larger intellectual communities.
Letter grade only (A-F).

723. Legal and Ethical Leadership: Implications for Policy and Practice in P-16 Educational Settings (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of legal and ethical issues, implications, and applications. Exploration of leadership in complex educational environments, multiple perspectives applying legal and ethical principles and policies. Technological legal research. Examination of broad national and state theoretical and practical contexts using an ethical, legal leadership framework.
Letter grade only (A-F).

724. Critical Perspectives of U.S. Education and Diversity (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of identity in relation to disenfranchisement in educational institutions, multiple forms of cultural hegemony, policy and practices that foster inequality in schooling as well as issues related to students with disabilities and second language learners.
Letter grade only (A-F).

725. Organizational Leadership in Educational Settings (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of leadership from a leader’s perspective. Analysis of organizational theory, structure, culture, and interrelationships from multiple perspectives as well as the leader’s role in managing critical factors that can undermine a high performance organization.
Letter grade only (A-F).

726. Policy, Politics, Power in Educational Settings (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
In-depth analysis of topics relevant to politics and power in educational policy and reform. Exploration of issues related to governance, structure, programs, leadership, strategic planning and assessment.
Letter grade only (A-F).

730. Educational Research Epistemologies and Methodologies (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
In-depth exploration of epistemological underpinnings of educational research, qualitative and quantitative studies, and emergent research and methodologies pertinent to educational practice and policy.
Letter grade only (A-F).

731. Qualitative Research Methods for Educational Leadership (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Advanced study of qualitative research traditions and methods for both understanding and application. Methods and research design elements include ethnographic and focus group interviews, participant and naturalistic observation, case study and document analysis.
Letter grade only (A-F).

732A. Inferential Data Analysis in Education A (3)
Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of program director.
Hypothesis testing using analysis of variance, factorial analysis of variance, analysis of covariance, multiple regression, and path analysis. A focus on data analyses to address research questions, interpretation of the results, and preparation of a written report of the findings.
Letter grade only (A-F).

732B. Inferential Data Analysis in Education B (3)
Prerequisites: Admission to the Educational Leadership Doctorate program and EDLD 730 or consent of program director, ED P 419 or equivalent, and EDLD 730.
Hypothesis testing using analysis of variance, factorial analysis of variance, analysis of covariance, multiple regression, and path analysis. Overview of Structural Equation Modeling. A focus on data analyses to address research questions, interpretation of the results, and preparation of a written report of the findings.
Letter grade only (A-F).

733. Program and Student Assessment (1)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Assessment of student learning and development and program assessment. Focus on design of a holistic program evaluation incorporating assessment and measurement of student outcomes.
Letter grade only (A-F).

734. Survey Methods in Educational Research (1)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Focus on application and practical methodological tools in designing survey research in educational settings.
Letter grade only (A-F).

735. Applied Field Research (2)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Field experience and research. Student participation in work related to an approved topic or to a faculty member’s research and scholarship.
Letter grade only (A-F).

740. Policy and Finance Issues in Community Colleges (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
In-depth analysis of the community college system, function and purpose. Exploration of issues related to governance, structure, programs, leadership, and strategic planning and assessment.
Letter grade only (A-F).

741. Teaching and Learning in Post Secondary Settings (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Focus on student development and learning theories based on cognitive, psychosocial, typology, and person-environment perspectives. Exploration of the role of faculty and others in the collaborative development and implementation of responsive curricula at 2- and 4-year institutions.
Letter grade only (A-F).
742. Exploration of Campus Cultures: Impact and Influence (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of faculty, administrative, and student cultures in terms of values, behavioral norms, impact and influences. Application of research methods to the study of campus cultures. Dialogue concerning the implications of these findings for higher education policies and practices.
Letter grade only (A-F).

743. Leadership in Higher Education (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Analysis of current research and theories on leadership and organizational change in higher education: multicultural organizational development theories, planning, change, and the effective strategies for change. Exploration of case studies of organizational leadership.
Letter grade only (A-F).

750. Instructional Improvement and Accountability (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of the role of educational leaders in engaging stakeholders in data collection, analysis, and application to practice, the development of a culture of inquiry, and the distribution of leadership for continuous instructional improvement and accountability systems design.
Letter grade only (A-F).

751. Organizational Culture and Community Engagement in Education (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of school organizational culture, leadership and the local community in a global context: organizational strategies and development of teams to promote systemic change, cultural transformation, and social justice.
Letter grade only (A-F).

752. Financial and Human Resource Development (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of the acquisition, distribution, cultivation and management of human, fiscal, and time resources in public education. Identification and application of skills necessary for housing human and financial resources that further the goals of a school and district.
Letter grade only (A-F).

753. Supervision of Curriculum, Teaching, Learning and Assessment (3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Advanced theoretical analysis of curriculum, teaching, learning, and assessment of student achievement in diverse settings: impact of electronic information technology on student knowledge acquisition; principles of professional development; macro and micro political and policy influences; leadership implications.
Letter grade only (A-F).

790. Special Topics in Educational Leadership (1-3)
Prerequisite: Admission to the Educational Leadership Doctorate program or consent of program director.
Examination of various issues in educational leadership. Topics will be announced in the Schedule of Classes.
Letter grade only (A-F). May be repeated with different topics in the same semester up to a maximum of 24 units.
A. Issues of Leadership Roles and Responsibilities
B. Change Management
C. Focus Group Facilitation
D. Data-based Organizational Change
E. Applications of Technology
F. The Needs of Student Populations
G. Governing Boards
H. Staff Development Programs
I. Personnel Assessment Instruments

797. Directed Individual Study (1-3)
Prerequisites: Consent of instructor, department chair and associate dean.
Individual research or intensive study under the guidance of a faculty member.
Letter grade only (A-F). May be repeated to a maximum of 24 units in different semesters. Special Begin Date: Summer 2007

798. Doctoral Dissertation (3)
Prerequisites: Consent of instructor/dissertation adviser required. Student research and writing of the Ed.D. dissertation. Credit/no credit grading only. May be repeated to a maximum of 24 units in different semesters.
Electrical Engineering
College of Engineering

Department Chair: Bahram Shahian
Department Office: Engineering and Computer Science (ECS) 512
Telephone: (562) 985-9102/3103
Website: http://www.csulb.edu/colleges/coe/ee

Faculty: Maryland Mouzaker, James Ary, Chin Cheng, Anastasios G. Chantzikos, Christopher Drezdzinski, Fusio Hamano, Kenneth James, I-Hung Khoo, Rajendra Kumar, Slawomir Lobodinski, Yulin E. Mong, Hassan Mohimood-Nour, Hannah Reddy (Emeritus),
Alfonso Ruada, Bahram Shahian, Robert Tong, Chi-Sang Tsang, Mahmoud Wagdy, Fei Wang, Nai Wang, Henry Yeh

Undergraduate Advisers
Electrical Engineering: James Ary
Electronics and Computer Engineering Technology: I-Hung Khoo
Electronics Engineering Technology: I-Hung Khoo
Graduate Advisor: Fusio Hamano

General Education Advising: Academic Advising - Horn Center
Biomedical Engineering Advising: Christopher Drezdzinski
Administrative Coordinator: Barbara V. L. Marshall

Students desiring detailed information should contact the department office for referral to one of the faculty advisors.

Career Possibilities
Electrical Engineer • Systems Engineer • Electronics Engineer • Communications Engineer • Electrical Design Engineer • Sales Engineer • Electronics Test Engineer • Research Engineer • Consultant • Manufacturer's Representative • Safety Engineer • Quality Control Specialist • Production Manager (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Advisory and Development Council
The Department of Electrical Engineering is supported by an Advisory and Development Council consisting of outstanding engineers and executives from industry and government in southern California. Its function is to form a liaison between the University and industry and to keep the administration and faculty informed of modern engineering practices. This ensures that the curriculum is kept up-to-date. It also advises on placement opportunities before and after graduation.

ABET Accreditation
The Bachelor of Science in Electrical Engineering Program and the Bachelor of Science in Electronics Engineering Technology and Computer Engineering Technology Programs are respectively accredited by the Engineering Accreditation Commission (EAC) and the Technology Accreditation Commission (TAC) of ABET, Inc., 111 North Wacker Drive, Suite #1050, Baltimore, MD 21202, phone: 410-347-7700, website: http://www.abet.org.

Undergraduate Programs

Bachelor of Science in Electrical Engineering (code EE_BSO1) (133 units)
The objectives of the Bachelor of Science in Electrical Engineering Program are to prepare students to be successful and advance in their chosen careers in industry, academia, and public institutions, making significant contributions to the field of electrical engineering.
The above objectives are achieved by providing students:
1. a solid foundation in basic science, mathematics, and EE principles and major design skills to maintain high employability, adaptability, and an ability to develop and apply new technology;
2. effective communication skills to be able to progress in their careers;
3. an awareness of ethical and societal responsibilities;
4. an ability to work effectively in a team environment.
The bachelor's degree in electrical engineering is designed to prepare graduates for responsible engineering positions in design, development, research, applications, and operation in the fields of communications, control systems, digital signal processing systems, electromagnetics, digital and analog electronic circuits, physical electronics, computer-aided design and power systems. The curriculum is built around a strong basic core of mathematics, physics and engineering science. This is followed by intermediate courses in electrical engineering topics and finally a senior elective sequence including a senior design seminar and terminating in a capstone design course.
By choice of senior elective sequence comprehensive coverage is provided in any one of the above fields.
Laboratory facilities are available in the engineering buildings allowing for basic as well as more advanced laboratory instruction in electronics, digital signal processing, control systems, microelectronics, communications, power, and digital systems.

Requirements
Core: CEECS 174, EE 200, 201, 202, either EE 210 and 210L or PHYS 152, PHYS 211, 211L or ENGR 101, 102; MATH 122, 123, 224; MATH 370A or equivalent; PHYS 151, 254, EE 310, 330. Each of the foregoing courses must be completed with a grade of "C" or better as well as all courses that are prerequisite or corequisite to courses required for the major including ENGRI 100 or equivalent. Other required courses are EE 346, 347, 350, 370L, 370L, 380, 382, 386, 400D, 430, 430L, EE 460 or 462 or 464, CE 370 or MAE 330.

Each BSEE student must propose course work consisting of a capstone design course supported by at least two related courses, which form an area of in-depth study as approved by the EE Undergraduate Advisor. Possible areas of study include but are not limited to power, digital signal processing, control, communications and electronics. A list showing the required supporting courses and capstone design course for
each area of study is available from the EE Undergraduate Advisor. Combinations of the above areas of study or another area of study may be proposed to the EE Undergraduate Advisor. Additional elective courses must be chosen from EE 400 level courses to total at least 15 units. The entire program must total at least 133 units.

A grade of "C" or better is required for the capstone senior design course in the area of specialization.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take coursework in a community college or another college to meet curricular requirements while enrolled as an undergraduate in the Department of Electrical Engineering must petition the EE Undergraduate Advisor for prior approval to enroll in specific courses. This policy is for either concurrent enrollment or summer enrollment. Prior approval for transfer credit for upper division major courses may generally be approved for no more than six semester units, subject to approval by the EE Undergraduate Advisor and the EE Department Chair who may require sufficient information to determine if each requested course is deemed equivalent to an EE course at CSULB. Exceptions require approval by vote of the Undergraduate Curriculum Committee.

Bachelor of Science in Engineering Option in Biomedical and Clinical Engineering (code EE__BS02) (135 units)

The Department of Electrical Engineering administers an option in Biomedical and Clinical Engineering that allows the student to acquire substantive competence in biomedical engineering and biology. This program builds upon a strong base of biology, mathematics, physics, chemistry, and engineering science to develop a clinically oriented biomedical engineer to serve medical and industrial needs. It includes a core of standard electrical engineering courses as well as courses in biomedical engineering, anatomy, physiology and biology. Elective units are available in the senior year to explore individual areas of interest.

Students planning to attend medical, dental or other health professional or graduate schools in Biomedical Engineering may select courses in Chemistry and/or Biology with the approval of the Biomedical Engineering advisor.

Laboratory facilities in the field of biomedical engineering are available in the engineering buildings; and laboratory facilities for anatomy and physiology are available on campus. Computer systems are available to simulate biological systems and to collect, process and display physiological data.

Requirements

CECS 174; CHEM 111A; EE 200, 201, 202, 211, 211L, 310, 330; MATH 370A; MATH 122, 123, 224; PHYS 151, 152, 254. Each of the foregoing courses must be completed with a grade of "C" or better as well as all courses that are prerequisite or corequisite to courses required for the major including ENGL 100 or equivalent. The interdisciplinary courses as well as Communications Studies (COMM) courses required for General Education must be taken for a letter grade. BIOL 207 (GE category B1a); EE 346, 347, 350, 370, 370L, 382, 406, 406L, 407, 430, 460; MAE 330 or CE 370; plus additional approved biomedical electives, including an approved senior design course to at least 135 units. A grade of "C" or better is also required for EE 406, 406L, and 407.

Bachelor of Science in Electronics Engineering Technology

For requirements and courses, see description in the Engineering Technology Programs section of this catalog.

Bachelor of Science in Computer Engineering Technology

For requirements and courses, see description in the Engineering Technology Programs section of this catalog.

Certificate in Energy Conversion and Power Systems Engineering (code MAE_CT04)

The 27-unit Certificate Program in Energy Conversion and Power Systems Engineering is an undergraduate program designed to prepare electrical and mechanical engineering students to become proficient in the analysis and design of power generating systems such as direct conversion, coal burning, hydraulic, nuclear, solar, wind and various other types of power plants and systems, and industrial electric power systems design.

For certificate requirements see the Mechanical and Aerospace Engineering Department section of this catalog.

Graduate Programs

Master of Science in Electrical Engineering (code EE__MS01)

This program affords an opportunity for engineers and others to advance their competency in analysis and design to better meet the high technology needs of local industry. Each student selects two core courses and three graduate courses in one area of emphasis, and the remaining courses must augment and support the area of emphasis. Some current examples of areas of emphasis are biomedical, communications, computer/communication networks and security, control systems and robotics, digital signal processing, digital and computer systems, electromagnetics and optics, electronics, engineering mathematics, networks and filters, power, and wireless communications. Students may create other areas of emphasis with the approval of the graduate advisor. Students will choose one of the three alternatives: thesis, project, and course-only. Successful completion of a thesis provides a culminating experience to the program, and an enhanced resume for future industrial or academic endeavor. A limited number of laboratory and teaching assistantships are available to qualified graduate students.

Prerequisites

1. A bachelor's degree from an accredited program in electrical engineering or a bachelor's degree from an accredited engineering, natural science or other appropriate program with the requirement that essential undergraduate deficiencies in electrical engineering are removed prior to Advancement to Candidacy.
2. The prospective graduate student must have attained a GPA of at least 2.7 for the last 60 semester units (90 quarter units) attempted prior to entry in the MSEE program.

The student should apply online at CSU Mentor or send a paper-based application directly to the University Admissions Office. Do not send an application to the Department. International students should apply online at CSU Mentor or through the Center for International Education.

Requirements

EE core courses consist of the following: EE 503, 505, 508, 509, and 511. Students must select at least 2 out of the above 5 courses appropriate to their area of emphasis and subject to the approval of the Graduate Advisor. Completion of a minimum of 30 units in 400-, 500-, or 600-level courses as approved in advance by the graduate advisor. Students must choose one of the following three alternatives: thesis, project, and course-only.

1. Thesis Alternative: 500/600-level courses in EE including the above core requirement (15 units); EE 697 (3 units); EE 698 (6 units); 400/500/600-level courses in EE (6 units); Comprehensive Oral Exam on Thesis.

2. Project Alternative: 500/600-level courses in EE including the above core requirement (21 units); EE 697 (3 units) on a capstone project; 400/500/600-level courses in EE (6 units); Comprehensive Oral Exam on the capstone project.

3. Course-Only Alternative: 500/600-level courses in EE including the above core requirement and at least three courses forming an area of emphasis (24 units); 400/500/600-courses in EE (6 units); Comprehensive Oral Exam on an area emphasis.

Tentative Program

Upon matriculation, graduate students must consult with the graduate advisor and a tentative program must be approved by the advisor by a few weeks into the first semester. The program must contain two core courses and exhibit an area of emphasis comprised of at least three related graduate courses (500 or 600 level). Students should obtain the MSEE Handbook, which covers the procedures and requirements, from the advisor or Electrical Engineering Department office.

Advancement to Candidacy

At least one semester before the graduating semester, students must advance to the candidacy. To apply for advancement to candidacy, students must satisfy the following requirements:

1. All deficiencies must have been completed with a GPA of at least 3.0.

2. Currently enrolled in a regular session.

3. Demonstration of competence in technical writing by passing an appropriate writing course such as ENGL 317, 417, 418, and 419, with a grade of "C" or better or by providing acceptable proof of technical writing ability to the graduate advisor. This requirement can be waived for thesis or project students upon recommendation of the graduate advisor.

4. Fulfillment of the Graduation Writing Assessment Requirement (GWAR).

5. Completion of at least 9 units as a graduate student in residence while maintaining both an overall GPA and a major GPA of at least 3.0. Students are advised strongly to seek advancement before completing 15 units of the program.

Courses (EE)

LOWER DIVISION

200. Trends in Electrical Engineering (1)
(Lecture 1 hour) Letter grade only (A-F).

201. Digital Logic Design (4)
Prerequisite: MATH 117 (or equivalent).
Practical design of digital circuits. Basic topics in combinational and sequential switching circuits with applications to the design of digital devices.
(Lecture: Problems 4 hours)

202. Computer Methods in Engineering (3)
Prerequisites: CECS 174 and MATH 224.
Introduction to MATLAB and numerical methods with applications to electrical engineering. Programming in MATLAB. Introduction to SIMULINK and other MATLAB toolboxes.
(Lecture: 2 hours, laboratory 3 hours) Letter grade only (A-F). Not open for credit to students with credit in ENGR 202.

210. Electromagnetic Foundations in Electrical Engineering (3)
Prerequisites: MATH 123, PHYS 151, Corequisite: EE 210L.
(Lecture: Problems 3 hours) Letter grade only (A-F).

210L. Electromagnetic Foundations in Electrical Engineering Laboratory (1)
Laboratory experiments demonstrating behavior of resistive circuits, capacitors and inductors, transient RL and RC circuits, sinusoidal (phasor) RL, RC and RLC circuits, motor, generators, and transformers.
Letter grade only (A-F).

211. Electric and Electronic Circuits I (3)
Prerequisites: EE 210 or PHYS 152, MATH 224.
(Lecture: Problems 3 hours) Letter grade only (A-F).

211L. Electric Circuits Laboratory (1)
Corequisite: EE 210 or EE 211.
(Laboratory: 3 hours) Letter grade only (A-F).

235. Introduction to Nanotechnology: A Tour in NanoLand (3)
Prerequisite: Sophomore standing.
Overview of the fundamentals of nanoscience and nanotechnology, a wide range of applications, and issues that affect widespread use of these technologies based on ongoing research and discourse.

330 • Electrical Engineering • 2009/2010 CSULB Catalog
An interdisciplinary course, taught by an interdisciplinary team of instructors. Students will observe nature and matter in submicron and nanometer scale.

Lecture-problems 3 hours) Letter grade only (A-F).

248. Security, Information Assurance, and Computers (3)
Computer security and information assurance as crucial challenges, consequences for individuals, economy, and society as a whole. Security threats and vulnerabilities in the use of computer systems. Tools and controls to reduce or block these threats. Law, privacy, and ethics.
(Lecture-problems 3 hours) Letter grade only (A-F).

UPPER DIVISION

301. Sequential Circuit Design (3)
Prerequisite: EE 201.
Synthesis of sequential circuits. Asynchronous sequential circuits, synchronous state machines, finite state machine design, sequential circuit design using programmable logic devices.
(Lecture-problems 3 hours) Letter grade only (A-F).

301L. Sequential Circuit Design Laboratory (1)
Prerequisite or Corequisite: EE 301.
Design, implementation, and verification of digital systems using medium scale integrated and large scale integrated circuits.
(Laboratory 3 hours) Letter grade only (A-F).

310. Signals and Systems (3)
Prerequisites: EE 202: EE 210 or 211; and MATH 308A or equivalent.
(Lecture-problems 3 hours) Letter grade only (A-F).

330. Analog Electronic Circuits (4)
Prerequisite: EE 211.
Analog and linear circuits, bipolar transistor, field effect transistor (MOSFET and JFET), and CMOS circuits. Operational amplifier circuits, applications. Digital electronic circuits. Laboratory includes transistor and operational amplifier circuit design and CAD tools.
(Lecture-problems 3 hours, laboratory 3 hours) Letter grade only (A-F).

330L. Analog Electronics Laboratory I (1)
Prerequisite or Corequisite: EE 330.
Transistor and operational amplifier circuit design laboratory.
(Lab 3 hrs) Letter grade only (A-F).

332. Digital Electronic Circuits (3)
Prerequisites: EE 201, 211.
(Lecture-problems 3 hrs) Letter grade only (A-F).

346. Microprocessor Principles and Applications (3)
Prerequisites: CECS 174, EE 201.
Study of microprocessor and microcomputer elements for applications of these devices to practical problems. Assembly language programming. Design of microprocessor based systems using 80X86 architecture.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

347. Microprocessor Based System Design (3)
Prerequisite: EE 346.
Design and construction of a microprocessor based system. Interfacing and control of external devices.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

350. Energy Conversion Principles (3)
Prerequisites: EE 211 and 211L, or consent of instructor.
Electrical/mechanical energy conversion. Power transformers, DC, synchronous, and induction machines. Laboratory experiments on power electronics and rotating machinery.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

370. Control Systems (3)
Prerequisite: EE 310.
Control systems analysis; block diagrams, signal flow graphs, stability criteria, root locus, frequency domain analysis. Examples of classical control system design.
(Lecture-problems 3 hours) Letter grade only (A-F).

370L. Control Systems Laboratory (1)
Prerequisite: EE 370.
Experiments which reinforce concepts learned in EE 370. Digital simulation modeling, analysis, and design. Real-time applications.
(Laboratory 3 hours) Letter grade only (A-F).

380. Probability, Statistics, and Stochastic Modeling (3)
Prerequisites: MATH 122, CECS 174.
Probability with an emphasis on computer modeling of probabilistic systems. Topics include discrete and continuous random variables, moments, correlation, covariance, Markov processes and Markov chains, numerical solutions of differential equations with MC simulations.
(Lecture 2 hrs – laboratory 3 hrs) Letter grade only (A-F).

382. Communication Systems I (3)
Prerequisite: EE 310.
Review of Fourier series and transforms. Introduction to waveforms, active, and digital filters. Basic elements of probability theory. Statistics, concept of white noise, AM, DSB, SSB and vestigial modulation, narrowband and wideband F.M.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

386. Digital Signal Processing (3)
Prerequisites: EE 310 or CECS 285 and EE 202 or CECS 311 and EE 202.
Introduction to discrete-time signals and systems. z-transform, digital filters, system design, and comparison to the analog counterparts. Multimodal laboratory experiments for discrete-time signals and systems in time and frequency domain, and analysis of digital sound/music with MATLAB.
Not open to credit with EE 485. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

400D. Electrical Engineering Design Seminar and Project (2)
Prerequisites: EE 547, 570, and 382; or consent of instructor.
Design/development. Process and issues. Simple design examples. Constraints imposed by factors such as performance, economics, reliability, safety, aesthetics, packaging, codes, standards and practices. Ethics and social and environmental impact. Case studies, individual and group projects. Oral presentation required.
(Lecture-problems 1 hour, laboratory 3 hours) Letter grade only (A-F).
402. Engineering Modeling and Simulation (3)
Prerequisite: EE 380.

403. Systems Engineering (3)
Prerequisites: ENGR 205 or MATH 122 and EE 202, or graduate standing.
Modeling and analysis, and design of deterministic and stochastic systems. The building blocks of Systems Engineering models ranging from network models with special structures, to unstructured linear and nonlinear optimization. Letter grade only (A-F) (Lecture-problems 3 hours)

405. Special Topics in Electrical Engineering (3)
Prerequisite: Senior standing in electrical engineering or consent of instructor. Selected topics from recent advances in electrical engineering. Course content will vary from year to year and may be repeated once for credit with consent of department undergraduate advisor. (Lecture problems 3 hours) Letter grade only (A-F).

406. Medical Instrumentation and Measurements (3)
Prerequisite: EE 330 or consent of instructor or graduate standing. Design and analysis of medical instruments, electronic amplifiers for measurement of physiological signals. Letter grade only (A-F). (Lecture-problems 3 hours)

406L. Biomedical Engineering Laboratory (1)
Prerequisite or corequisite: EE 406L. Laboratory study of medical instrumentation, transducers and computer data processing. (Laboratory 3 hours) Letter grade only (A-F).

407. Applications of Computers in Medicine (3)
Prerequisite: EE 346 or consent of instructor or graduate standing. Principles of analysis and design of computers and data collection equipment for real-time on-line medical systems. (Lecture problems 3 hours) Letter grade only (A-F).

410. Analog Filter Design (3)
Prerequisite: EE 310 or graduate standing. Theory and design of active filters using operational amplifiers. Emphasis is placed on low-pass filters. (Lecture problems 3 hours) Letter grade only (A-F).

411. Continuous- and Discrete-Time Linear Systems (3)

412. Fractals in Engineering (3)
Prerequisite: EE 310 or graduate standing. Application of fractal geometry to system theory. Study of system dynamics leading to complex behaviors and chaos. Scaling laws, sensitivity to initial conditions, strange attractors, and If noise will also be discussed. (Lecture problems 3 hours) Letter grade only (A-F).

420. Solid State Electronic Devices (3)
Prerequisite: PHYS 254 or graduate standing. Semiconductor crystal structure and growth, Carrier modeling, drift and diffusion currents, P-N junctions, diodes, solar cells and light-emitting diodes (LED), Bipolar junction transistor (BJT) biasing, linear and switched operation. Metal oxide semiconductor field effect transistor (MOSFET) operation. Solar cells, photovoltaics, and lasers. Not open for credit to students with credit in EE 320. (Lecture-problems 3 hours) Letter grade only (A-F).

428. Speech Signal Processing (3)
Prerequisite or Corequisite: EE 486 or consent of instructor. Principles and engineering applications of speech signal processing, Speech synthesis, recognition, encoding, and compression. Applications of neural networks. Additional projects required for EE 528. (Lecture-problems 3 hours) Letter grade only (A-F).

430. Analog Electronic Circuits II (3)

430L. Analog Electronics Laboratory II (1)
Corequisite: EE 430. Advanced transistor, operational amplifier, and linear integrated circuits and systems design laboratory. Not open for credit to students with credit in EE 433L. (Laboratory 3 hours) Letter grade only (A-F).

434. Mixed-Signal IC Design (3)
Prerequisites: EE 201 and EE 330 or consent of instructor. CMOS fabrication. Component layout. MOSFET modeling. Mixed-signal devices such as D/A and A/D converters and phase-locked loops. Substrate Noise coupling. System-on-chip considerations. Design using CAD tools. Additional projects required for EE 534. (Lecture-problems 2 hours, Laboratory 3 hours) Letter grade only (A-F).

435/450. Microelectronics (3)
Prerequisites: EE 201, 330. Theory of microelectronics integrated circuit design, IC fabrication technology, device characterization, modeling, digital and analog simulation tools, physical layout tools, digital standard cell library design, IC digital system design, I/O pad design, full chip simulation and physical designs. Additional projects required for EE 550A. (Lecture problems 3 hours) Letter grade only (A-F).

435L. Microelectronics Laboratory (1)
Corequisite: EE 435. Laboratory evaluation of IC process steps. Wafer probe, packaging, and final test. Empirical device model formulation from test data. Not open for credit to students with credit in EE 420L. (Laboratory 3 hours) Letter grade only (A-F).

435/450. Microfabrication and Nanotechnology (3)
Prerequisites: EE 330 and PHYS 254, or MAE 300. Techniques and the technology of miniaturization of electrical, mechanical, optical, and opto-electronic devices in sizes from millimeters to nanometers. Design examples and sensors, microprocessors, cantilevers, and microsensors, process fabrication. Additional projects required for EE 530. (Lecture-problems 3 hours) Letter grade only (A-F).

332 • Electrical Engineering • 2009/2010 CSULB Catalog
437. Multidisciplinary Nano-Science and Engineering (3)
Prerequisite: Consent of instructor or graduate standing.
Introduces four key areas: nanoscience properties of materials; nanotechnology in biology and nature; observation, measurement, analysis; applications. Importance of understanding and engineering nanoscale structures, materials, and processes for the 21st Century. Use of scanning electron microscope and atomic force microscope.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

446. Advanced Microprocessors and Embedded Controllers I (3)
Prerequisite: EE 347 or consent of the instructor or graduate standing.
Advanced microprocessors such as Pentium series, RISC, and CISC. Hardware features and new instructions. Support for virtual memory, paging, privilege levels, multitasking and internal cache. Floating point coprocessors. Embedded controllers, on-chip resources and applications.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

447. Design of Electronic Systems (3)
Prerequisites: EE 301 or 435 and EE 346 and EE 400D and EE 430, or graduate standing.
Extensive laboratory projects. Design of analog and digital systems. Computer aided design including, for example, hardware description language (HDL) and SPICE.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

448./548. Wireless and Mobile Networks and Security in Wireless Networks (3)
Prerequisites: EE 482 or equivalent.
Wireless and Mobile Ad-hoc Networks and Security. Ad hoc and geographic routing, resource discovery, MAC, IP mobility, mobility modeling, wired wireless networks, security aspects. Lab Projects will include use of tools such as OPNET, Ethernet, Sniffer, Scanner, IDS, etc.
Advanced project required for EE 548. (Lecture-problems 3 hours) Letter grade only (A-F).

449./549. Topics in Multimedia and Hypermedia (3)
Prerequisite: EE 410 or equivalent.
Theoretical and practical issues in designing multimedia systems, design and implementation of interactive multimedia and hypermedia applications including interactive television (e.g., video-on-demand, e-learning), hypermedia systems (e.g., the World Wide Web), and video conferencing and groupware. Emphasis placed on current design issues and research topics.
Extra project for graduate students. (Lecture-problems 3 hours) Letter grade only (A-F).

450. Electronic Control of Motors (3)
Prerequisites: EE 301 and EE 370, or graduate standing.
Characteristics of semiconductor power switches. Modeling and application of control theory to various types of motors. Bidirectional and four quadrant converter topologies for motor control. Selection of drives to control AC and DC motors. Uninterruptable power supplies and adjustable speed drives.
(Lecture-problems 3 hours) Letter grade only (A-F).

452. Computer Applications in Power Systems (3)
Prerequisite: EE 390 or consent of instructor or graduate standing.
Modeling of power generation, transmission, and distribution systems, load flow analyses, short-circuit studies, voltage drop and power loss calculations, transient stability and optimal power flow analyses. Application of specialized computer software for power system design and analyses.
(Lecture-problems 3 hours) Letter grade only (A-F).

453./553. Protection of Power Systems (3)
Prerequisites: EE 310, 350.
Protective relays, instrument transformers, low-voltage and high-voltage circuit breakers, protection of generators and motors, transformer protection and transmission line protection. Relay coordination and commercial power systems. Application of computer programs for protective device coordination. Additional projects required for EE 553.
(Lecture-problems 3 hours) Letter grade only (A-F).

455./555. Space Electric Power Systems (3)
Prerequisites: EE 330, 350.
A comprehensive treatment of characteristics and requirements from spacecraft power systems, power sources, power conversion and control. Energy storage, electrical equipment, power converters and loads, power management. Future space missions and technological needs. Additional projects required for EE 555.
(Lecture-problems 3 hours) Letter grade only (A-F).

458. Design of Power System Components (3)
Prerequisites: EE 330 and EE 400D (or either EE 450 or EE 452 or EE 453), or graduate standing.
Design of electrical, electronic and electromechanical components required for power conversion, control, transmission, distribution, protection and measurements in terrestrial and space electric power systems.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

460. Electromagnetic Fields (3)
Prerequisite: EE 310 or graduate standing.
Electric and magnetic field theory including propagation of plane waves in lossless and dissipative media. Maxwell's equations. Transmission lines.
(Lecture-problems 3 hours) Letter grade only (A-F).

462. Electromagnetics and Applications to Wireless Systems (3)
Prerequisite: EE 310 or graduate standing.
Electromagnetic field theory including transmission lines, vector fields, electromagnetics and magnetostatics. Maxwell's equations and plane wave propagation. Waveguides and microstrip-RF circuit principles and devices. Radiation and antenna design. Wireless communication systems including satellite and cell-phone technologies.
Letter grade only (A-F). Not open for credit to students with credit in EE 460 or 464. (Lecture-problems 2 hours, laboratory 3 hours)

464. Electromagnetics and Applications to Electro-Optics (3)
Prerequisite: EE 310 or graduate standing.
Electromagnetic field theory including transmission lines, vector fields, electromagnetics and magnetostatics. Maxwell's equations and plane wave propagation. Electromagnetic formulation of geometric and Fourier optics. Semiconductor and gas laser applications to fiber-optic communication systems and electro-optic devices.
Not open for credit to students who have credit in EE 460 or 462. (Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

470. Digital Control (3)
Prerequisites: EE 370L and EE 386, or graduate standing.
Analysis and synthesis of digital control systems. General application of both the Z-transform and the state-space approach for discrete system design.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).
471. Design of Control Systems (3)
Prerequisite: EE 400D or graduate standing. Corequisite: EE 470.
Design of compensators using root-locus and Bode-plot methods.
Design of state-space control systems and observers. Computer-aided design.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

474/574. Robot Dynamics and Control (3)
Prerequisite: EE 370.
Basic methodology for analysis and design of robotic manipulators.
Classification of robots, homogeneous transformations, kinematics, dynamics, trajectory planning and control of robots. Application of robots in flexible manufacturing.
Additional projects required for EE 574. (Lecture-problems 3 hours)
Letter grade only (A-F).

476/576. Neural Networks and Fuzzy Logic (3)
Prerequisite or Corequisite: EE 486 or consent of instructor.
Principles and application of artificial neural networks and fuzzy logic.
Mechanisms of supervised and unsupervised neural networks. Fuzzy control systems. Applications in signal processing, communications, control, and other areas.
Additional projects required for EE 576. Not open for credit to students with credit in EE 589/689. (Lecture-problems 3 hours) Letter grade only (A-F).

481/581. Satellite Communication Systems (3)
Prerequisite: EE 482.
Basic orbital mechanics, link analysis, multiple access architectures and protocols, TDMA, TDMA, and CDMA systems. Synchronization techniques, modulation and coding techniques. Security and spread spectrum requirements. System design.
Additional projects required for EE 581. (Lecture-problems 3 hours)
Letter grade only (A-F).

482. Communication Systems II (3)
Prerequisite: EE 382 or graduate standing.
Information sources and communication systems. Orthogonal series representation of signals, pulse and digital modulation techniques, band-pass digital communication systems, special topics in communications.
(Lecture-problems 3 hours) Letter grade only (A-F).

483. Digital Image Processing (3)
Prerequisite: MATH 370A or graduate standing.
(Lecture-problems 3 hours) Letter grade only (A-F).

486. Digital Signal Processing for Multimedia Communications (3)
Prerequisite: EE 386 or graduate standing.
Discrete-time signals and systems, discrete Fourier transform, fast Fourier transform, spectral estimation, interpolation and decimation, filter design and structures and applications to multimedia communications. Laboratory projects for image processing, FFT receiver, signal detection, digital phase-locked loop.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

488. Communication System Design (3)
Prerequisite/Corequisite: EE 400D, EE 430, EE 430L, and EE 492, or graduate standing.
Design of Communication systems/subsystems and their implementation in software and hardware. Design of Copeland Senior Project in the area of Communication systems.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

489. Digital Signal Processing Design (3) S
Prerequisite: EE 400D or graduate standing. Prerequisites/ Corequisite: EE 486 or consent of instructor.
Design, implementation, and real-time testing of projects such as FIR filters, IIR filters, tone generator, 32-bit addition and multiplication, FFT spectrum analyzer. All projects are simulated in fixed-point arithmetic with MATLAB and C and TMS320C54 assembly code in bit-exact.
(Lecture-problems 2 hours, laboratory 3 hours) Letter grade only (A-F).

490. Special Problems (1-3)
Prerequisites: Minimum G.P.A. of 2.5 and consent of instructor.
Assigned topics in technical literature or laboratory projects and reports.
May be repeated to a maximum of 6 units. Letter grade only (A-F).

492. Instrumentation and Data Acquisition for Engineering Applications (3)
Prerequisite: EE 210 and 210L, or 211 and 211L, (CECS 174 or ECE 210), and EE 370 or ECE 370, or consent of instructor or graduate standing.
Concepts of instrumentation, data acquisition and computer-based control of industrial systems. Topics include signal conditioning, software and hardware for data acquisition and computer-based control, graphical programming and virtual instrumentation.
(Lecture-problems 2, laboratory 3 hours) Letter grade only (A-F).

GRADUATE LEVEL

502/402. Engineering Modeling and Simulation (3)
Prerequisite: EE 360.
Additional projects required for EE 502. (Lecture-problems 3 hours)
Letter grade only (A-F).

503. Advanced Systems Engineering (3)
Prerequisite: EE 411 or equivalent mathematical maturity.
Modeling and analysis, and design of deterministic and stochastic systems. The building blocks of engineering optimization models ranging from network models with special structure, to unstructured linear and nonlinear optimization.
Letter grade only (A-F). (Lecture-problems 3 hours)

504. Introduction to Entrepreneurship for Engineers (3)
Prerequisite: Graduate standing in engineering or computer science.
Core business concepts and issues, essence of leadership, understanding of finance, marketing, sales, and management issues from practical entrepreneurial perspective through classroom discussion, guest speakers, seminars, case study, and creation of business plan based on students specific area of interest.
(Lecture-problems 2 hours) Letter grade only (A-F).

505. Advanced Engineering Mathematics for Electrical Engineers (3)
Prerequisites: Consent of instructor.
Boundary-value problems and generalized Fourier (or eigenfunction) expansions. Review of Fourier series, Fourier transforms (FT, FFT and STFT), wavelet transform and its computer implementation, Z-transform, Hilbert transform. Solutions of partial differential equations using methods of separation of variables, etc.
(Lecture-problems 3 hours) Letter grade only (A-F).
506/606, Theory and Practice of Biomedical Instrumentation (3)
Prerequisites: Graduate standing in engineering or natural sciences and either EE 406 or consent of instructor.
Advanced design concepts and practical utilization of biomedical instrumentation. Transduction of physiological parameters.
Theory and practice.
Master's students register in EE 506. Ph.D. students register in EE 606. Additional projects required for EE 606. (Lecture-problems 3 hours) Letter grade only (A-F).

507/607. Advanced Biomedical Systems (3)
Prerequisites: Graduate standing in engineering or natural sciences and either EE 406 or consent of instructor.
Novel trends in biotechnology, design and organization of modern hospital systems, and utilization of advanced technologies. Modeling and simulation of physiological and medical systems.
Master's students register in EE 507. Ph.D. students register in EE 606. Additional projects required for EE 607. (Lecture-problems 3 hours) Letter grade only (A-F).

508. Probability Theory and Random Processes (3)
Prerequisite: EE 380.
Probability spaces, random vectors and processes, convergence concepts, stationarity and ergodic properties, second order moments and linear systems, correlation and spectral representations. Some applications of random processes.
(Lecture-problems 3 hours) Letter grade only (A-F).

509. Network Theory (3)
Prerequisites: EE 386, 410 or 430.
(Lecture-problems 3 hours) Letter grade only (A-F).

510. Circuit Synthesis (3)
Corequisite: EE 509.
Synthesis of passive lumped networks, cascade synthesis (with filter synthesis), realization of commensurate distributed networks, discrete passive networks.
(Lecture-problems 3 hours) Letter grade only (A-F).

511. Linear Systems Analysis (3)
Prerequisite: EE 411 or 470 or equivalent mathematical maturity.
(Lecture-problems 3 hours) Letter grade only (A-F).

514. Advanced Circuit Synthesis and Design (3)
Prerequisite: EE 510.
Scattering synthesis in (s-z) domains, wave digital filters. Lossless bounded real two-pole and orthogonal digital filters with an emphasis on structures suitable for VLSI implementation.
(Lecture-problems 3 hours) Letter grade only (A-F).

527. Digital Filter Design and Audio Processing (3)
Prerequisite: EE 406 or consent of instructor.
Frequency and time domain analysis using FFT, FIR, and IIR filter design and implementation techniques. Principles of digital audio processing, compression/decompression. Applications of audio coding standards, such as MPEG audio and G.729.
Not open for credit to students with credit in EE 513. (Lecture-problems 3 hours) Letter grade only (A-F).

528/428. Speech Signal Processing (3)
Prerequisite or Coerequisite: EE 486 or consent of instructor.

531. CMOS Electronics (3)
Prerequisite: EE 430.
Electronic design automation CAD tools, silicon compilers, CMOS design, BICMOS design (technologies, modeling, device characterization and simulation), CMOS and BICMOS subcircuits, amplifiers, op-amps and systems.
(Lecture-problems 3 hours) Letter grade only (A-F).

533/633. Quantum and Optical Electronics (3)
Prerequisites: EE 460 or 462 or 464 or consent of instructor.
Modern quantum and optical concepts of relevance to lasers, fiber optics, optical technology and semiconductor solid state electronics. Basic theory and applications to state-of-the-art electronics engineering.
Master's students register in EE 533; Ph.D. students register in EE 633. Additional projects required for Ph.D. students. (Lecture-problems 3 hours) Letter grade only (A-F).

534/434. Mixed-Signal IC Design (3)
Prerequisites: EE 261 and EE 330 or consent of instructor.
Additional projects required for EE 534. (Lecture-problems 2 hours, Laboratory 3 hours) Letter grade only (A-F).

535. VLSI Design (3)
Prerequisite: EE 430.
Techniques for designing Very Large Scale Integrated (VLSI) circuits using n-channel metal oxide semiconductors (n-MOS).
Not open for credit to students with credit in EE 520. (Lecture-problems 3 hours) Letter grade only (A-F).

535A/435. Microelectronics (3)
Prerequisites: EE 261 and 330 or consent of instructor.
Theory of microelectronics integrated circuit design. IC fabrication technology, device characterization, modeling, digital and analog simulation tools, physical layout tools, digital standard cell library design, IC design system design, I/O pad design, full chip simulation and physical designs.
Additional projects required for EE535A.
Letter grade only (A-F). (Lecture-problems 3 hours).

536/436. Microfabrication and Nanotechnology (3)
Prerequisites: EE 330, EE 320 or PHYS 254, or MAE 300.
Techniques and technology of miniaturization of electrical, mechanical, optical, and optical-electronic devices in sizes from millimeters to nanometers are presented. Design examples of sensors, microtense, cantilevers, and micromotors are covered and process fabrication using latest technology demonstrated.
Additional projects required for EE 536. (Lecture-problems 3 hours) Letter grade only (A-F).

540. Advanced Digital System and Computer Architecture (3)
Prerequisite: EE 446 or equivalent. Strongly recommended: EE 546.
High level computer architectures including studies of network processors, security processing, embedded computer systems, design and implementation approaches including ASICs, FPGAs, and networks on chip concepts. Simulation and design tools. Project required.
(Lecture-problems 3 hours) Letter grade only (A-F).
545. Computer Communication Networks (3)
Prerequisite: Consent of Instructor.
Design and analysis of computer communications networks including their topologies, architectures, protocols, and standards. LAN, WAN, wireless, and mobile networks. Access methods, Ethernet, ATM, bridges, routers, gateways, and intelligent hubs. TCP/IP and other networking protocols. Load balancing, traffic monitoring, use of simulation tools.
(Lecture-problems-computer projects 3 hours) Letter grade only (A-F).

546. Advanced Microprocessors and Embedded Controllers II (3)
Prerequisite: EE 440 or consent of the instructor.
Advanced concepts for embedded controllers, mobile processors, network processors, embedded Internet, and embedded Internet devices. Parallelism, multithreading, pipelining, coherence protocols, interconnection networks, clustering. Simulation and analysis tools. Project required.
(Lecture-problems 3 hours) Letter grade only (A-F).

548.445. Wireless and Mobile Networks and Security in Wireless Networks (3)
Prerequisite: EE 452 or equivalent.
Wireless and Mobile Ad-hoc Networks and Security. Ad-hoc and geographic routing, resource discovery, MAC, IP mobility, mobility modeling, wired- wireless networks, security aspects. Large projects will include use of tools such as OPNET, Ethereal, Sniffer, Snorter, IDS, etc.
Advanced project required for EE 548. (Lecture-problems 3 hours) Letter grade only (A-F).

549.449. Topics in Multimedia and Hypermedia (3)
Prerequisite: EE 440 or equivalent.
Theoretical and practical issues in designing multimedia systems, design and implementation of interactive multimedia and hypermedia applications including interactive television (e.g., video-on-demand, on-line learning), hypermedia systems (e.g., the World Wide Web), and video conferencing and groupware. Emphasis placed on current design issues and research topics.
Extra project for graduate students. (Lecture-problems 3 hours) Letter grade only (A-F).

550. Power Electronics and Applications (3)
Prerequisites: EE 359 and 430.
Power converters: rectifiers, inverters, choppers and cycloconverters. PWM and PFM techniques. Harmonics and filters. Magnetics. Applications in motor controls in industrial systems, energy conversion, HVDC transmission, aircraft and spacecraft power systems.
(Lecture-problems 3 hours) Letter grade only (A-F).

551. Theory and Applications of DC/DC Converters (3)
Prerequisite: EE 550 or consent of instructor.
Modelling, analysis, design and application of DC/DC switch mode converters.
(Lec-troblems 3 hrs) Letter grade only (A-F).

552. Electric Drives and Applications (3)
Prerequisites: EE 376, 452 or consent of instructor.
Characteristics and applications of small electric machines including stepper motors, brushless DC motors, permanent magnet synchronous motors and switched reluctance motors. Motor performance, control and drive circuit configurations.
(Lecture-problems 3 hours) Letter grade only (A-F).

553.453. Protection of Power Systems (3)
Prerequisites: EE 310, 300.
Protective relays, instrument transformers, low-voltage and high-voltage circuit breakers, protection of generators and motors, transformer protection and transmission line protection. Relay coordination and commercial power systems. Application of computer programs for protective device coordination. Additional projects required for EE 553.
(Lecture-problems 3 hours) Letter grade only (A-F).

555.455. Space Electric Power Systems (3)
Prerequisites: EE 330, 350.
A comprehensive treatment of characteristics of and requirements from spacecraft power systems. Power sources, power conversion and control. Energy storage, electrical equipment, power converters and loads, power management. Future space missions and technological needs.
Additional projects required for EE 555. (Lecture-problems 3 hours) Letter grade only (A-F).

574.474. Robot Dynamics and Control (3)
Prerequisite: EE 370.
Additional projects required for EE 574. (Lecture-problems 3 hours) Letter grade only (A-F).

575.675. Non-Linear Control Systems (3)
Prerequisite: EE 511 or consent of instructor.
Methodologies and results dealing with stability and robust stabilization of non-linear systems applied to robotics, aerospace, artificial neural networks, etc. Phase plane analysis, limit cycles, Lyapunov stability theory and its extension. Positive real transfer matrix and passivity, feedback linearization and stabilization, tracking, robust control.
Ph.D. students register in EE 675. Additional projects for EE 675 students. (Lecture-problems 3 hours) Not open for credit to students with credit in EE 775. Letter grade only (A-F).

576.476. Neural Networks and Fuzzy Logic (3)
Prerequisite or Corequisite: EE 496 or consent of instructor.
Additional projects required for EE 576. Not open for credit to students with credit in EE 680/689. (Lecture-problems 3 hours) Letter grade only (A-F).

580. Statistical Communication Theory (3)
Prerequisites: EE 482, 505 and 508 or consent of instructor.
(Lecture-problems 3 hours) Letter grade only (A-F).

581.481. Satellite Communication Systems (3)
Prerequisite: EE 482.
Basic orbital mechanics, line analysis, multiple access architectures and protocols, FDMA, TDMA, and CDMA systems. Synchronization techniques, modulation and coding techniques. Security and spread spectrum requirements. System design.
Additional projects required for EE 581. (Lecture-problems 3 hours) Letter grade only (A-F).

582. Spread Spectrum Communication Systems (3)
Prerequisite: EE 580 or consent of instructor.
Spread spectrum (SS) techniques. Direct sequence systems, frequency hopping systems. Generation and properties of pseudo random sequences. Electronic jamming and interference. Processing gain, carrier synchronization, code acquisition and tracking, information modulation and coding. Applications include ranging, CDMA, etc.
(Lecture-problems 3 hours) Letter grade only (A-F).
583/585. Digital Image Processing (3)
Prerequisites: EE 505 or consent of instructor.
Acquiring images, Correcting imaging defects, Image enhancement, Segmentation and thresholding, Processing binary images, Tomography, Three-dimensional imaging, Some image data compression techniques.
Master’s students register in EE 583; Ph.D. students register in EE 683. Additional projects required for EE 683. (Lecture-problems 3 hours) Letter grade only (A-F).

584. Information Theory and Coding (3)
Prerequisites: EE 482 and 508.
Information measures, source coding, Shannon’s first theorem, Mutual information and channel capacity, Shannon’s second theorem, Coding techniques for reliable information transmission over noisy channels.
(Lecture-problems 3 hours) Letter grade only (A-F).

585/585. Advanced Digital Signal Processing (3)
Prerequisite: EE 486 or consent of the instructor.
Advanced topics in digital signal processing and applications including adaptive filters, spectral estimation and multimedia standards: JPEG, MPEG. State space description of linear discrete time systems.
Master’s students register in EE 585; Ph.D. students register in EE 685. Additional projects for EE 685. (Lecture-problems 3 hours) Letter grade only (A-F).

586. Real-Time Digital Signal Processing (3)
Prerequisite: EE 486, EE or CECS 449, or consent of instructor.
Digital signal processors architecture and language, Real-time DSP considerations and limitations, Digital filter and signal processing system implementations.
(Lecture-problems 3 hours) Letter grade only (A-F).

590. Special Topics in Electrical Engineering (3)
Prerequisites: Graduate standing in electrical engineering and consent of instructor.
Selected topics from recent advances in electrical engineering. Course content will vary from year to year. Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units. (Lecture-problems 3 hours) Letter grade only (A-F).

591. Adaptive Systems (3)
Prerequisite: EE 508.
Adaptive systems and their applications to communication, control, and signal processing systems.
(Lecture – problems 3 hours) Letter grade only (A-F).

600. Graduate Seminar and Presentation (1)
Prerequisites: Graduate standing and advancement to candidacy. Lectures by faculty and guests on advanced topics. A report and presentation are required. (Seminar 1 hour) Letter grade only (A-F).

606/506. Theory and Practice of Biomedical Instrumentation (3)
Prerequisites: Graduate standing in engineering or natural sciences and either EE 400 or consent of instructor. Advanced design concepts and practical utilization of biomedical instrumentation. Transduction of physiological parameters. Theory and practice.
Master’s students register in EE 506; Ph.D. students register in EE 606. Additional projects required for EE 606. (Lecture-problems 3 hours) Letter grade only (A-F).

607/507. Advanced Biomedical Systems (3)
Prerequisites: Graduate standing in engineering or natural sciences and either EE 400 or consent of instructor. Novel trends in biotechnology, design and organization of modern hospital systems and utilization of advanced technologies. Modeling an simulation of physiological and medical systems.
Master’s students register in EE 507; Ph.D. students register in EE 607. Additional projects required for EE 607. (Lecture-problems 3 hours) Letter grade only (A-F).

633/533. Quantum and Optical Electronics (3)
Prerequisites: EE 460 or 462 or 464 or consent of instructor.
Modern quantum and optical concepts of relevance to lasers, fiber optics, optical technology and semiconductors. Solid state electronics: Basic theory and applications to state-of-the-art electronics engineering.
Master’s students register in EE 533; Ph.D. students register in EE 633. Additional projects required for Ph.D. students. (Lecture-problems 3 hours) Letter grade only (A-F).

675/575. Non-Linear Control Systems (3)
Prerequisite: EE 511 or consent of instructor.
Mathematical models and results dealing with stability and robust stabilization of non-linear systems applied to robotics, aerospace, biological neural networks, etc. Phase plane analysis, limit cycles, Lyapunov stability theory and extension. Positive real transfer matrix and passivity, feedback linearization and stabilization, tracking, robust control.
(Ph.D. students register in EE 675) Additional projects for EE 675 students. (Lecture-problems 3 hours) Letter grade only (A-F).

683/583. Digital Image Processing (3)
Prerequisite: EE 505 or consent of instructor.
Acquiring images, Correcting imaging defects, Image enhancement, Segmentation and thresholding, Processing binary images, Tomography, Three-dimensional imaging, Some image data compression techniques.
Master’s students register in EE 583; Ph.D. students register in EE 683. Additional projects required for EE 683. (Lecture-problems 3 hours) Letter grade only (A-F).

685/585. Advanced Digital Signal Processing (3)
Prerequisite: EE 486 or consent of the instructor.
Advanced topics in digital signal processing and applications including adaptive filters, spectral estimation and multimedia standards: JPEG, MPEG. State space description of linear discrete time systems.
Master’s students register in EE 585; Ph.D. students register in EE 685. Additional projects for EE 685. (Lecture-problems 3 hours) Letter grade only (A-F).

697. Directed Research (3)
Prerequisite: Graduate Standing. Advancement to Candidacy is strongly recommended.
Theoretical and experimental problems in electrical engineering requiring intensive analysis culminating in a substantial report. Letter grade only (A-F).

698. Thesis or Industrial Project (3-6)
Prerequisite: Advancement to Candidacy. Planning, preparation and completion of a thesis (total 6 units), or Industrial project (3 units), in electrical engineering. Letter grade only (A-F).
EMERGENCY MANAGEMENT
College of Health and Human Services
Department of Professional Studies

Acting Chair: James E. Koval
Department Office: Engineering Technology (ET) Room 236
Telephone / FAX: (562) 985-8815 / (562) 985-8815
Website: http://www.csulb.edu/prof
Email: profdept@csulb.edu

Faculty:
Veronica Acosta-Deprez (Health Science), Robert Filis (Health Science), Sotiria Gouta-Biale (Health Science), Peter Keyser (Professional Studies), James Koval (Family and Consumer Sciences), Ali Almin (Criminal Justice), Harvey Morley (Criminal Justice), Henry O’Lawrence (Professional Studies), Emerilda Paniagua (Civil Engineering), Dave Powell (Public Policy and Administration), Joanne M. Tortori-Luna (Educational Psychology, Administration, and Counseling)

Advisor: Peter G. Keyser
Distance Learning Administrator: James Koval
Administrative Assistant: Kathy Allan

Career Possibilities
Public Safety Administration • Emergency Management • Emergency Operation Specialist • Homeland Security Administrator • Local Preparedness Coordinator • Training/Citizen Corp Specialist • Emergency Planners • Area School Safety Coordinator • Outreach Specialist • Public Health Emergency Response Manager • Emergency Management Analyst • Emergency Logistics Manager • Environmental Emergency Officer • Community Disaster Recovery Manager • Emergency Services Specialist • Risk Specialist • Public Assistance Officer • Disaster Operations Coordinator • Recovery and Mitigation Specialist • Municipal Readiness Coordinator • Safety Coordinator • Emergency Program Manager. (Some of these, and other careers, require additional education or experience. For more information, visit www.careers.csulb.edu.)

Master of Science in Emergency Services Administration (code OCSTM501)

The Master of Science in Emergency Services Administration (EMER) is an interdisciplinary degree program developed by faculty experts from departments across campus. Faculty from on-campus departments such as Criminal Justice, Health Sciences, Public Policy and Administration, Civil Engineering, Family Studies, Professional Studies, Communication Studies, Educational Psychology, Geography, and Library Sciences, as well as nationally recognized expert practitioners in emergency services collaborate to deliver research and competency-based curriculum grounded in practice.

The EMER curriculum and all advising and student research presentations are designed exclusively for online delivery utilizing the most up-to-date instructional technologies available. The program is designed to provide students with the conceptual foundation, communication, managerial, and analytical skills required for designing, testing, and implementing an effective response to workplace and community emergencies. Such emergencies may involve the potential loss of human life and property due to fire, explosion, the release of hazardous chemicals, structural failures, natural calamities, and terrorist acts. The program has two major purposes: 1) to provide an understanding of the administration and management of emergency services with an emphasis on the roles and job expectations of public safety professionals and emergency managers, and 2) to prepare students for leadership roles in emergency and disaster administration by stressing independent research, communication, and writing skills, exposure to experts, and practical experiences of respected emergency services and disaster organizations.

Admission Criteria
1. Obtain admission to the graduate program by completing and forwarding the official CSULB graduate admissions forms and fees to the University and the Graduate Advisor, Professional Studies Department, CSULB. Each applicant for graduate standing shall have completed an appropriate baccalaureate degree from an accredited university.
2. Request that official transcripts from all colleges and universities attended be forwarded to the graduate advisor, Professional Studies Department, CSULB.
3. Have at least a 2.50 grade-point average in the last 60 semester units attempted.
4. Be accepted by the department and graduate advisor for admission to the program.

Advancement to Candidacy
1. Satisfaction of the general University requirements for advancement to candidacy, including successful completion of the Graduation Writing Assessment Requirement (GWAR).
2. Completion of all core courses;
3. Maintenance of a "B" average (3.0 GPA) in all work completed in graduate program;
4. Approval of Professional Studies Graduado Faculty and Director of Graduate Studies and Research, College of Health and Human Services.

Requirements
1. EMER 500, 502, 542, 545, 548, 631, 661, 671; GEDG 558; CRJU 520, 525
2. Completion of 42 units of approved graduate courses and a written comprehensive examination (EMER 697), or 43 units of approved graduate courses and a thesis (EMER 698) approved by the Department Graduate Committee. The Emergency Services Administration program consists of three parts. The first part is a 30-unit set of required core course work as indicated in (1) above. The second part is the elective area of specialization. Electives are selected in consultation with a faculty advisor. The third part is to complete the comprehensive exam or a thesis.

338 • Emergency Management • 2009/2010 CSULB Catalog
454. Disaster Mental Health Issues in Emergency Management (3)
Theories and practical applications of emergency mental health and self-care for those responding to, or managing response to, widespread natural and human-induced disasters. Letter grade only (A-F).

548. Risk, Crisis, and Inter-Agency Communications (3)
Theory and practical applications of emergency communications for those responding to or managing response to widespread natural and human-induced disasters. Letter grade only (A-F).

631. International Emergency Administration Systems: Comparative Analysis (3)
Prerequisite: GECG 558
Comparative analysis of international emergency management systems and structures, implications of emerging threats and disasters in an increasingly interdependent world. Letter grade only (A-F).

650. Graduate Seminar (3)
Students will undertake literature reviews and/or research to explore emerging issues, trends and research in the field of emergency services administration. Letter grade only (A-F).

661. Emergency Management Leadership Across the Megacommunity (3)
Competencies of professional emergency management defined through the megacommunity. Models of strategic leadership in all phases of disaster management, with emphasis on preparing professional and community organizations and networks, across culturally and economically diverse constituencies, and for natural or human-made disasters. Letter grade only (A-F).

671. Strategic Planning and Integrative Practices in Emergency Services Administration (3)
Prerequisite: EMER 661
Capstone course focusing on all phases of disaster management of selected disaster case studies, a natural disaster and a human-made event, using existing research literature, Internet-based simulation software, and post incident evaluation techniques. Letter grade only (A-F).

690. Special Topics
Group investigation of selected topics. Topics will be announced in the Schedule of Classes. May be repeatable to a maximum of 6 units with different topics in the same semester. Letter grade only (A-F).

695. Independent Study (1-6)
For students who wish to focus their studies on a specific area of emergency services administration which coincides with a faculty member’s research or practical expertise. Letter grade only (A-F).

697. Directed Studies (3)
Prerequisites: Advancement to Candidacy
Research in an area of specialization under the direction of a faculty member. Letter grade only (A-F).

698. Thesis (4)
Prerequisites: Advancement to Candidacy
Planning, preparation, and completion of a thesis. Letter grade only (A-F).
DEAN: Forouzan Golshani
Assistant to the Dean: Vickie Mesina (562) 985-5123

Civil Engineering and Construction Engineering Management:
Emelinda Parenteau, Acting Chair (562) 985-5118
Computer Engineering and Computer Science:
Kenneth James, Chair (562) 985-4205
Electrical Engineering:
Bahram Shahian, Chair (562) 985-5102
Mechanical and Aerospace Engineering:
Hamed Hoftiz, Chair (562) 985-1502

Introduction
The mission of the College of Engineering is to serve the State of California, the nation, and society at large, by graduating well-prepared professionals, who are provided with excellent education and training in the fundamentals of their discipline through a combination of theory and laboratory practice, and who are provided with the ability and skills to expand knowledge and transform complex ideas into working systems.

The College of Engineering offers four-year curricula leading to Bachelor of Science degrees in the disciplines of Engineering, Computer Science, and Engineering Technology, as well as, Master of Science degrees and PhD. The B.S. programs provide broad education and training for entry to the professions and for continuing academic work toward advanced degrees. Master of Science degrees are offered in Aerospace, Civil, Computer, Electrical and Mechanical Engineering, and in Computer Science. The Master of Science in Engineering is also offered in interdisciplinary areas. The Ph.D. in Engineering and Industrial Applied Mathematics is offered jointly with the Claremont Graduate University. Undergraduate programs provide opportunities to specialize in the areas of Aerospace, Biomedical, Chemical, Civil, Computer, Electrical, Industrial Management, Manufacturing, Materials and Mechanical. The Bachelor's programs in Engineering, Computer Science and Engineering Technology are accredited by the appropriate accreditation commission of the Accreditation Board for Engineering and Technology (ABET), 111 Market Place, Suite 1050, Baltimore, MD 21202 - telephone: (410) 347-7700; website: www.abet.org.

The Aerospace, Chemical, Civil, Computer, Electrical and Mechanical Engineering programs are accredited by the Engineering Accreditation Commission (EAC) of ABET. The Computer Science program is accredited by the Computing Accreditation Commission (CAC) of ABET. The Computer, Electronics and Manufacturing Technology programs are accredited by the Technology Accreditation Commission (TAC) of ABET. (See detailed listing of the accredited programs on the next page.) Several certificate programs are also offered. Evening sections of most of the regular courses are offered to help the working students.

Engineering Facilities
The College of Engineering is housed in a complex of several adjacent buildings, including a modern six-story Engineering and Computer Science (ECS) building, providing state of the art, laboratories and offices for faculty. The building features advanced and comprehensive engineering, computer science, and technology facilities, totaling over 130,000 square feet of laboratory space.

Engineering Advisory and Development Councils
The College of Engineering has several Advisory and Development Councils (ADCs) serving the college, each of the departments, and the research and educational centers. These councils consist of outstanding engineers and executives from industry and government in Southern California. Their function is to form a liaison between the university and industry and to keep the administration and faculty informed of modern engineering developments, tools and practices. This close relationship helps to ensure that the curriculum is kept up-to-date. Furthermore, the ADCs advise on job placement opportunities before and after graduation.

Programs at a Glance
ABET Accreditation
The Bachelor of Science degrees followed by an asterisk (*) are accredited by EAC, CSAC or TAC of the Accreditation Board for Engineering and Technology (ABET) as appropriate.

Baccalaureate Degrees
B.S. in Aerospace Engineering*
B.S. in Chemical Engineering*
B.S. in Civil Engineering*
B.S. in Computer Engineering*
B.S. in Computer Engineering Technology*
B.S. in Computer Science*
B.S. in Construction Engineering Management
B.S. in Electrical Engineering*
B.S. in Electronics Engineering Technology*
B.S. in Engineering
  Option in Audio Engineering
  Option in Biomedical and Clinical Engineering
  Option in Industrial-Management Engineering
  Option in Materials Engineering
B.S. in Engineering Technology
Option in Environmental Technology
Option in Technology and Engineering Education
B.S. in Manufacturing Engineering Technology *
B.S. in Mechanical Engineering *

Minors
Minor in Computer Science
Minor in Computer Science Applications
Minor in Environmental Engineering
Minor in Web and Technology Literacy

Graduate Degrees
M.S. in Aerospace Engineering
M.S. in Civil Engineering
M.S. in Computer Science
  Option in Computer Engineering
  Option in Computer Science
M.S. in Electrical Engineering
M.S. in Engineering (Interdisciplinary)
M.S. in Mechanical Engineering
Ph.D. in Engineering and Industrial Applied Mathematics
  (jointly with The Claremont Graduate University)
  For detailed descriptions, see listings for Chemical Engineering, Civil Engineering, Computer Engineering and Computer Science, Electrical Engineering, Engineering Technology Programs, and Mechanical and Aerospace Engineering.
Students should submit applications early in August for the following Spring Semester and November for the following Fall semester.

Certificate Programs
Certificate in Heating, Ventilating and Air-Conditioning Engineering (MAE)
Certificate in Waste Engineering and Management (CECEM)
Certificate in Energy Conversion and Power Systems Engineering (MAE and EE)
Certificate for Industrial Plastics Processing and Design (MAE and CHE)
Certificate in Facilities Operations (CECEM)
Certificate in Safety Operations (CHES)
Certificate in Aerospace Manufacturing (MAE)
Certificate in Systems Engineering (COE)
Certificate in Web and Technology Literacy (CECS)

Mathematics, Engineering, Science and Achievement (MESA) Center
The MESA Center is a program that serves low income and educationally disadvantaged students at the pre-college and college levels. The program is funded by the State of California and also receives program donations from private industry. The MESA Center is comprised of two distinct programs with operations based in the College of Engineering, the MESA Schools Program (MSP) and the MESA Engineering Program (MEP). The MESA Schools Program (MSP) partners with middle and high schools in the Los Angeles basin area to prepare students to attend college. MSP provides academic support services to over eighteen hundred pre-colleges students with the primary objective of increasing future enrollment at the university level in the disciplines of mathematics, engineering and sciences. The MESA Engineering Program (MEP) provides non-remedial academic support services to matriculated college students. The major objectives of MEP are to support the recruitment, retention and graduation of a select campus student population. The MESA Engineering Advisory and Development Council (Meadic) includes a membership of industry representatives from local area businesses with an interest in promoting the educational experience of low income and underrepresented students.

Academic Standards
Preparation for Admission to the College of Engineering
The high school student planning to enter engineering, engineering technology, or computer science is advised to pursue a program with courses in biology, physics, chemistry, advanced algebra, and trigonometry. In addition, the general requirements for admission to the University must be satisfied. Deficiencies in one or more of the above areas may result in an extension of the time required to complete the program. Full-time students can complete any baccalaureate degree in engineering, engineering technology, or computer science in four years. The curricula are also designed to accommodate students transferring from other colleges or universities such as the community colleges. Full-time students who complete two years at a community college can complete the B.S. degree in two additional years. Transfer students should note and follow, where possible, the appropriate curriculum as outlined in later sections. None of the COE programs are impacted, thus only general admission requirements of the University apply and must be met.

General Academic Requirements
In addition to technical knowledge, skills and training, the College of Engineering values good communication skills. These skills are achieved through the General Education (GE) courses and are measured by the Graduation Writing Assessment Requirement (GWAR). Students are advised that while specific course requirements vary depending on the nature of the subject, most College of Engineering courses require not only detailed analysis, and competent design, but also clear and concise written and oral reports and presentations. In many classes these requirements constitute a portion of the student's grade.

ENGL 100 or equivalent is a prerequisite to upper division laboratory courses.

Admission to any one of the graduate degree programs in the College of Engineering normally requires a minimum GPA of 2.5 in the last 60 units taken.

A student must fulfill the Graduation Writing Assessment Requirement (GWAR) before qualifying for any degree.
Letter Grade Policy

A grade of "C" or better must be achieved in prerequisites for courses required of Engineering, Computer Science, and Engineering Technology majors. Required Foundation courses must be taken for a Letter Grade, not Credit/No Credit.

Concurrent and/or Summer Enrollment in Another College

Students who wish to take coursework in a community college or another college or university to meet curricular requirements while enrolled as an undergraduate in the College of Engineering must petition the appropriate department for prior approval to enroll in specific courses. This policy is for either concurrent enrollment or summer enrollment. University policy must also be complied with. (See "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this catalog.) Courses not receiving prior approval may not be accepted for credit by the department.

Dual Degree Program

Students wishing to combine an engineering degree with one in business, education, fine arts, humanities or the sciences may enter the Dual Degree Program. The College of Engineering at CSULB has agreements with other Colleges within the University and with other institutions which allow students to do this. After three years at the first institution, students transfer to CSULB as juniors to complete the two final years of engineering study. At the end of the first year at CSULB, students who have completed all of the requirements for their first degree are awarded those degrees by the appropriate College or institution. At the end of their fifth year, students who have completed all engineering requirements receive their engineering degrees. As an option, students may choose to complete both degrees simultaneously.

Course Availability

Full-time students without deficiencies in the College of Engineering programs can comfortably complete their degree requirements in four years, or in two years after completing two years at a community college. Most of the required courses are offered in multiple sections every semester. In addition, many required courses are also offered during Summer Sessions.

Requirements for the ABET Accredited Degree Programs

Students working for an ABET accredited degree will meet with an academic advisor in their department as early as possible to make themselves fully aware of the ABET requirements, which not only includes the General Education, as outlined above, but also in other areas, such as mathematics and science requirements. These requirements are subject to change, but current requirements for all programs are posted at www.abet.org.

Undergraduate Programs

Bachelor of Science in Engineering

Option in Audio Engineering
(code COE_BS02) (127 units)

This option is designed to train students for work in the audio engineering industry. The curriculum in the College of the Arts will show students in the program how the arts and entertainment industry uses modern technology in the recording, processing and creation of sound. The curriculum in the College of Engineering will teach students how to analyze and design the electronic and computer components used in the arts and entertainment industry.

As this option is not ABET accredited, students are urged to either take a second major in Computer Engineering (follow the Computer Engineering Track) or Electrical Engineering (follow the Electrical Engineering Track).

Requirements

Computer Engineering Track

Lower Division: BIOL 207, PHYS 151, MATH 122, 222, MUS 190, EE 210, 210L, CECS 174, 201, 228, 274.

Electrical Engineering Track

Lower Division: BIOL 207, PHYS 151, MATH 122, 123, 224, MUS 190, CECS 174, EE 201, 202, 210, 210L, 211, 211L.

Minor in Environmental Engineering
(code COE_UM01)

This interdisciplinary Minor in Environmental Engineering is designed for undergraduates from various engineering and science backgrounds who are interested in applying engineering approaches to environmental issues. Coursework in the minor focuses on engineering solutions to problems in preserving the quality of air, water, and soil by developing procedures and designing processes, consistent with current government regulation, to improve the environment and prevent pollution.

Requirements

A minimum of 6 units selected from the following core:

CHE 475 or C E 364; CHE 455. Additional courses to complete the 18-unit minor may be selected from: CHE 415, 445, 465, 485; C E 466; E T 409F, 476, 486.

Most of the courses in the minor require some background in engineering and/or chemistry. Upper division students majoring in Biology, Chemistry, Chemical Engineering, Civil Engineering, or Mechanical Engineering...
may have sufficient background to select from the above choices without needing additional prerequisites. Those majoring in other branches of science and engineering may need several additional courses in engineering and/or chemistry to meet prerequisite requirements of courses in this minor. All prerequisites to the courses in the minor must be completed with a grade of "C" or better.

Graduate Programs

Graduate Program Director: Mahyar Amouzegar

Master of Science in Engineering (code COE_MS01)

The College of Engineering offers graduate study programs for the Master of Science in Engineering degree. Typical tasks and responsibilities undertaken by students in the curriculum would not fall within one of the traditional specialties in engineering, e.g., aerospace, chemical, civil, electrical and mechanical engineering, or computer science and engineering. The student may pursue an interdisciplinary program, approved by the Graduate Advisor, by selecting courses from the various departments of engineering. Additional information concerning the programs, special facilities, laboratories and research possibilities may be obtained from the College of Engineering.

Prerequisites

1. A bachelor's degree in an ABET accredited curriculum in engineering with a minimum GPA of 2.7; or
2. A bachelor's degree with a minimum GPA of 2.7 in engineering, mathematics, natural science or other discipline with the requirement that essential undergraduate prerequisites in engineering are satisfied;
3. Graduate students must consult with a graduate advisor, with whom they will be working, for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.
4. The Graduation Writing Assessment Requirement (GWAR) must be met during the first semester in residence. Failure to attempt to fulfill the GWAR during the first semester will prevent registration in engineering courses in subsequent semesters.

Advancement to Candidacy

1. Removal of all undergraduate deficiencies as determined by the Graduate Advisor;
2. Students may, at the discretion of the Graduate Advisor, be required to take examinations in some chosen areas;
3. Fulfillment of the Graduation Writing Assessment (GWAR);

Requirements

1. Completion of a minimum of 30 units beyond the bachelor's degree in upper division and approved graduate courses, including:
   A. A minimum of 18 units of 500 and/or 600 level courses in engineering;
   B. Six units of electives selected from approved upper division (400-level) or graduate courses from appropriate areas;
   C. Completion of an acceptable thesis or project and/or comprehensive examination.

Note: Students are strongly advised to read and be familiar with the campus regulations described under "Graduate Programs" elsewhere in this catalog.

Graduate Certificate in Systems Engineering (code COE_CT01)

Director: Mahyar Amouzegar

The 18-unit Post Baccalaureate Certificate Program in Systems Engineering (SE) is designed to provide interested students or practicing engineers with the very latest in SE capability and the ability to plan and execute complex SE projects. The Certificate Program includes focus toward development and management of complex systems. Each such complex system requires a clear SE Master Plan, a set of SE Methodologies, appropriate tools, a rigorous requirements flow-down technique, and a comprehensive Project Management Plan to enable system design and project management for effective and efficient human interaction.

Requirement

1. Completion of an accredited baccalaureate degree in engineering or equivalent;
2. Satisfactory completion of 18 units listed below;
3. File a program application card with Admissions and Records, and file for the Certificate at least one semester prior to completion;
4. The Certificate may be awarded concurrently or subsequentially to baccalaureate degree.

Required Courses

The Certificate Program requires a minimum of 18 semester units, as indicated below:
1. System Engineering Core Courses, 6 units of the following: MAE 508.
2. Elective Engineering Management Courses, 6 units from the following: CECS 521, MAE 506 and 507
3. Elective Manufacturing Courses, 3 units from the following: ENGR 574, 575 and MEA 574
4. Advanced Engineering Mathematics/Analysis, 3 units from the following: EE 505, 508, MAE 501 and 502

Ph.D. in Engineering and Industrial Applied Mathematics (code COE_PH01)

Program Director: Mahyar Amouzegar

Degree Designation

In accordance with an agreement between CGU and CSULB, the degree is designated the Doctorate of Philosophy in Engineering and Industrial Applied Mathematics and is granted at Claremont Graduate University in the name of the two universities. The diploma indicates the dual nature of the degree and specifies that it is granted only when requirements have been satisfied in both subject areas as specified by the collaborating institutions.

2009/2010 CSULB Catalog • Engineering, College of • 343
Program Supervision

Overall program supervision is the responsibility of the Program Committee, consisting of the directors of the Joint Doctoral Program (JDP) from each institution, the Dean of Mathematics at CGU, and the Dean of Engineering at CSULB.

Admission Requirements

Students must be admitted to both institutions jointly. Admission will be granted to a limited number of qualified students; therefore, application should be made as early as possible. Applications are encouraged from both men and women, particularly from members of minority groups or individuals with disabilities. Completed applications must be received by April 1 for the fall semester or October 1 for the spring semester, although late applications are allowed at the discretion of the Program Committee. The Program Committee is responsible for making admission decisions consistent with campus regulations (see Application Procedure in this booklet).

To be admitted to the Joint Doctoral Program, an applicant must have received a bachelor’s or master’s degree in science, engineering, or mathematics from an accredited institution. Moreover, he or she must have attained scholastic records and present confidential recommendations which indicate that he or she is well qualified to pursue, with distinction, advanced study and research. Be advised that admission may be refused solely on the basis of limited facilities in the option desired.

GRE Requirement

The analytical, verbal, and quantitative portion of the General Record Examination (GRE) is required before admission. GRE subject examinations (mathematics and engineering) are not required. Applicants whose first or native language is not English are required to have a current minimum score of 550 (213 on the new scale) on the Test of English as a Foreign Language (TOEFL); however, this requirement is waived for students with a bachelor’s or master’s degree from an accredited U.S. university.

Registration and Enrollment

It is important that students register and enroll in classes each semester either at CGU or CSULB. Failure to enroll at any given semester will be considered leave without permission (discontinued enrollment) and the student will be dropped from the program.

Program Planning and Supervision

At CSULB, an initial engineering advisor is assigned to the student at the time of admission. At CGU, the student needs to arrange with the program director, within the first semester of study, for a mathematics advisor. The student’s program of study is arranged individually in collaboration with their advisors; the two advisors confer periodically regarding the student’s progress. The Program Committee monitors the student’s overall performance.

Course Work and Examinations

A minimum 72 units of course work, independent study, and research (including transfer credit) must be completed. Transfer credit of up to 24 units of related courses at the master’s level is permissible on approval of the Program Committee; this course work must have been completed with at least a grade of B or above, at an accredited institution, and must be directly related to the joint program and the student’s goals. Of the 72 units, a minimum of 24 units must be completed in the graduate engineering program at CSULB and a minimum of 24 in the graduate mathematics program at CGU. Both sets of 24 units must conform to the area requirements of the relevant institution and must be approved by the Program Committee. All degree requirements must be completed within seven years (or six with the transfer of 24 units according to CGU regulations) from the time a student begins graduate study.

Every doctoral student must maintain a cumulative grade-point average (GPA) of 3.0 and a grade-point average of 3.0 in all courses applicable to the degree. Furthermore, students must earn at least a grade of B or above in any course that is counted towards the course work requirement. Students are put on academic probation if they fail to maintain a cumulative or term GPA of at least 3.0 in all units attempted subsequent to admission to the degree program. Doctoral students are subject to disqualification if, within two semesters, while on probation, they fail to earn sufficient grade-points to remove the probationary status.

CSULB Course Requirement

The only specific CSULB course requirement is four units of Engineering 79C: Doctoral Seminar (2). The remaining 20 units, for students who have received transfer credit, may include courses needed for the Preliminary Examinations (see the Preliminary Examination section of this handbook), Doctoral Dissertation, Advanced Special Topics, and Advanced Directed Studies. Presently, students are permitted to count the following courses in addition to the regular graduate courses, offered by the five engineering departments, towards meeting the CSULB 24-unit course requirement:

- ENGR 79C: Advanced Special Topics in Engineering (8 units allowed)
- ENGR 795 or MAE 795: Advanced Directed Studies (8 units allowed)
- ENGR 796: Doctoral Seminar (4 units required)
- ENGR 798 or MAE 798: Doctoral Dissertation (4 units allowed)

Minimum Student Load Per Semester

It is highly recommended that doctoral students enroll in at least 9.0 units per semester in order to demonstrate progress towards the degree. The CSULB director of the program, in consultation with the doctoral advisor, may require that a student take at least 12.0 units per semester if the student is not showing adequate progress.

These courses may include the following courses:

- ENGR 797A: Preparation for Ph.D. Preliminary Examinations
- ENGR 797B: Preparation for Ph.D. Qualifying Examination

Students may take from 4.0 to 12.0 units of ENGR 797A or ENGR 797B each semester, though these courses may not be used to fulfill the 24-unit course work. Both of these courses are offered on Credit/No Credit bases and are designed to formally recognize the students’ efforts towards the program.
Residency Requirements

Doctoral students must complete their program within a period of seven years (or six with the transfer of 24 units) according to CGU regulations (see below). During this time, a minimum of 72 units of course work, independent study, and research (including transfer credit) must be completed. Normally no more than 16 units per semester may be credited toward the degree. No more than 12 units per summer session may be credited toward the degree. The transfer of credit form is available on the CGU website. The Program Committee will consider petitions for extensions and/or exemptions.

All degree requirements must be completed within seven years from the time a student begins graduate study. Work for which transfer credit is granted will be counted as part of the seven years, e.g., if transfer credit of 24 units (one year) is granted, the time limit will be six years.

The residency requirements for the Ph.D. may be met either by two semesters of full-time study in a 24-month period or by the completion of 48 units of course work within a 48-month period (excluding work in the summer session). Students who receive transfer credit for 12 units or less may meet the residency requirement either by completing two full-time semesters of course work within a 24-month period or by completing 36 units within a 48-month period. Those receiving transfer credit for 13 to 24 units may meet the residency requirement by completing 24 units within a 36-month period. The seven-year maximum time period for the Ph.D. degree is reduced by six months for 12 units or less of transfer credit and by 12 months for 13 to 24 units of transfer credit.

Plan of Study

After consultation with their advisors, students are required, before the end of the first year, to prepare and file with the Program Committee a Plan of Study for completing the course requirements for the degree. The purpose of the Plan of Study is to ensure that the student is aware of the requirements for the degree. The Plan of Study should indicate the areas of study that the student will be taking in preparation for the preliminary examinations. In consultation with the student’s advisor and Program Committee, the Plan of Study may be altered at a subsequent time by petition.

If a student withdraws from the program after completing a substantial portion of the course work, a master’s degree at either or both institutions is still possible by satisfaction of the appropriate requirements. Both CGU and CSULB require 31-36 semester units of course work for master’s degrees.

Preliminary Examinations

The student is required to pass written preliminary examinations. These examinations consist of four examination areas: two in engineering and two in mathematics. These examinations should be taken immediately after completion of the relevant course work at each institution. These examinations are given two or three times a year at the discretion and under the control of the Program Committee. Should a student fail an examination, they may petition the Program Committee for one retake.

Before taking the first preliminary examination, the student is required to complete the Preliminary Examination Permission Form (available at the CSULB website, www.csulb.edu/colleges/coe, or at the CGU site, www.cgu.edu/math). This form requires the student to specify the four areas of the Preliminary Examination; the student’s intended dissertation advisor and the directors of the Joint Doctoral Program must sign it. The purpose of this form is to certify that the student and dissertation advisor are in agreement on the set of examinations. If, in the course of time, this set of examinations and/or the advisor is amended, the form must be resubmitted. The preliminary examinations are considered completed when the four examinations specified on the student’s form have been successfully passed. For a list of courses, please review the student handbook on our website.

Research Tool

Students in the Joint Doctoral Program must demonstrate proficiency in problem-solving ability using computer programs. This demonstration may take different forms depending on the student’s engineering subdiscipline, but must include evidence that the student has used an appropriate computer language and an algorithmic method to solve a problem from an engineering discipline.

Research and Dissertation

Upon completion of at least 48 units of course work (including transfer units), the preliminary examinations, and the research tool requirement, a student embarks on the research phase of the Joint Doctoral Program. In preparation for the research phase, the student is expected to spend at least one semester in advanced graduate courses, seminars, or directed reading courses where exposure to research material is emphasized. From these and other sources, the student gains the ability to understand the motivation for research in engineering and applied mathematics and learns to apply research techniques.

Doctoral Committee

During entry to the program and through the period of the main body of course work at CGU and CSULB, the Program Committee will monitor the student’s progress. Upon successful completion of the preliminary examinations, the student petitions the Program Committee to constitute the Doctoral Committee. The student chooses this committee with advice from the faculty advisor and with approval of the Program Committee. The committee must include at least two faculty members each from CGU and CSULB; it must also provide breadth and depth in mathematics and engineering in the chosen faculty members. The Doctoral Committee supervises the student’s progress through research preparation and dissertation writing; it also administers the qualifying and oral examinations for the degree. The chair of the Doctoral Committee is the dissertation supervisor.

Research Proposal and Qualifying Examination

With these advanced courses as background, and with the guidance of the Doctoral Committee, the student defines an area of proposed research and prepares a written Dissertation Proposal containing an outline of the research to be undertaken and references to relevant source materials. The Dissertation Proposal is presented to the Doctoral Committee at least two weeks prior to the
Qualifying Examination. The appropriate form under “Doctoral Degree Forms” can be obtained from the CGU website www.cgu.edu (under Current Students, Registrar Information). The Qualifying Examination is an oral presentation to the Doctoral Committee describing the planned research. The student is expected to present evidence both as to the mathematical content and to the engineering application of the proposed research, supporting such evidence with references to previous research in both areas. The Doctoral Committee judges the fitness and quality of the Dissertation Proposal from this presentation and from the written proposal. It subsequently communicates its recommendations to the Program Committee. Only upon a positive recommendation may the student embark on a dissertation. In the event of failure, the qualifying examination may be retaken once after petition to the Program Committee.

Advancement to Candidacy

After successful completion of the Qualifying Examination and certification that all other requirements are fulfilled, the student is advanced to candidacy. The appropriate form under “Doctoral Degree Forms” may be obtained from the CGU website. This must occur at least six months before the Final Oral Defense. Dissertation and Final Oral Examination

Upon completion of the research, the student will prepare the dissertation in accordance with CGU regulations. A final draft of the dissertation will be presented to each member of the Doctoral Committee at least three weeks prior to the final oral examination. The appropriate form under “Doctoral Degree Forms,” along with an abstract of the dissertation, must be filed with CGU’s Office of Admission and Records three weeks before the exam. This deadline is very strict and no exceptions will be made. Please see the CGU website under “Academic Calendar” for the final defense scheduling dates. The oral defense will normally be held on the campus of the dissertation supervisor.

Policies and Procedures

1. Throughout their entire program of study, unit-taking students must be registered at either CGU or CSULB. Students, who intend not to take course work at either institution, including those who have finished their required units, must take the necessary steps to maintain continuous enrollment. This is achieved by registering for Math 499 (Doctoral Study) at Claremont Graduate University or by registering for Engineering 798 (Doctoral Dissertation) at California State University, Long Beach. At least two semesters of registration for Math 499 at CGU must be maintained during the last year prior to graduation. In order for the degree to be conferred, a student must meet all regulations as stated in the CGU Bulletin under “Dogma Regulations.”

Requests for leave of absence must be submitted to each registrar’s office and approved by both institutions according to the standards of each; upon approval of leave the student should advise the math office at CGU and the office of the Joint Doctoral Program at CSULB. Students should contact each registrar’s office for leave of absence policies. If the student fails to advise the registrar at CGU of his/her leave granted by CSULB, his/her will be dropped from the program (CGU has no official arrangement for leaves). Upon return, the student will be required to pay CGU a reinstatement fee in addition to regular semester tuition.

2. International students registered for units at CSULB must provide the CGU International Student Advisor, Nusha Shishogor, with proof of registration within two weeks of the beginning of the semester at CGU. Proof of full-time registration (8 units minimum) is required to maintain immigration status. (In the circumstance of completion of units, registration in Doctoral Study, CGU Math 499, is required.)

3. Students should arrange for advisors, one in math at CGU and one in engineering at CSULB, at the earliest opportunity. The program committee will help provide advisors.

4. After consultation with their advisors, students must submit a plan of study, including a petition for transfer of credits, if applicable, during their first year of study. The Plan of Study must be approved and transfer of units recommended to the Registrar by the program committee.

Procedures for Student Admission

1. Students must complete application forms for both CGU and CSULB. The completed application package must include official transcripts, three letters of reference (preferably from the forms supplied in the CGU package), a personal statement and a resume. Current, official GRE scores are required. Scores may not be older than 5 years.

2. The completed application package (including a separate Long Beach fee and application) must be submitted to the CGU Admissions Office, 100 East Tenth Street, Claremont, CA 91711-6163. Do not send application materials to CSULB as this will result in considerable delay. Both application fees are required.

3. Online applications are acceptable for the Joint Program; however, consult the Program Advisors at CGU and CSULB for appropriate procedures.

4. The CGU director of the CSULB/CGU Joint Doctoral Program, Ellis Cumberbatch, reviews completed files. In the event of a negative review, a rejection letter is issued by CGU. In the event of a positive review, the application, along with a copy of the completed file, is forwarded to the CSULB director of the CSULB/CGU Joint Doctoral Program, Dr. Methyeh Amoszegar.

5. Results of the Long Beach review are transmitted back to CGU Math. Upon a positive review by CSULB, the application and fee are sent to the CSULB Admissions Office to be processed. A negative review initiates a rejection letter from CGU.

6. Upon admission to the program, CGU will generate two admission letters; one is mailed to the student and one is sent to CSULB. This letter includes a decision card and specifies a required $200 tuition deposit that should be submitted to CGU if the student chooses to accept the offer of admission.

7. Students admitted to provisional status must provide the materials needed to complete their files before the end of their first semester of enrollment. Official scores for the GRE General Test are required of all students before admission to full graduate standing. The joint faculty program committee will review completed files for change of status.
8. The academic progress of students admitted to conditional status will be reviewed by the program committee prior to a decision about change of status.

Courses (ENGR)

LOWER DIVISION

100. Fundamentals of Engineering Analysis (4)
Prerequisites: Appropriate ELM score, ELM exemption, or MATH 111.
Use of an application-oriented, hands-on approach to math topics in a variety of core engineering courses: analysis of experimental data; applications of MATLAB in solving engineering problems.
Lecture grading only (A-F). (Lecture: 3 hours, Laboratory: 2 hours)

101. Introduction to the Engineering Profession (1)
Freshman orientation seminar on careers in engineering. Speakers from various fields illustrate opportunities and challenges in the engineering profession.
(Lecture-problems: 1 hour) Letter grade only (A-F).

102. Academic Success Skills (1)
Prerequisite: ENGR 101.
Development of skills and identification of strengths and weaknesses for success in a CSE major.
(Lecture: 1 hour) Letter grade only (A-F).

170. Introduction to Solid Modeling and Engineering Graphics (2)
Prerequisite: Knowledge of geometry and intermediate algebra.
An introduction to part modeling, solid models, drafting standards, and assembly modeling using SolidWorks software.
The class is focused on project-based learning, which organizes learning around complete projects.
Lecture only (A-F). (Lecture: 2 hours, Laboratory: 2 hours)

203. Engineering Problems and Analysis (3)
Prerequisites: MATH 122, Concurrent: ENGR 203.
Formulation of engineering problems and methods for their analysis. Application of vectors, matrices, derivatives, and integrals into integration into engineering problems. Computer aid analysis using MATLAB, MathCad, etc.
(Lecture: 2 hours) Letter grade only (A-F).

203L. Engineering Problems and Analysis Laboratory (1)
Prerequisite: MATH 122, Concurrent: ENGR 203.
Computer-based exercises on fundamental concepts such as vectors, matrices, derivatives, integrals. Practical engineering problems are assigned and solved using MATLAB.
(Laboratory: 3 hours) Letter grade only (A-F).

UPPER DIVISION

302L. Energy and Environment: A Global Perspective (3)
Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper division standing.
(Lecture-Problems: 3 hours) Letter grade only (A-F).

310. English Proficiency for Engineers (3)
Prerequisites: ENGL 100, COMM 110.
The course focuses on effective communication across three main areas: oral communication, written communication, and working effectively in group settings. Formal essay structures are expected in all writing assignments and the course requires a formal oral presentation as well as group paper project.
Letter grade only (A-F). (Lecture-Problems: 3 hours) ENGR 310 is certified for the GWAR which means that students who have failed the WPE at least once can take the course and submit a portfolio at the end for GWAR credit. The GWAR credit will be issued if the student passes the portfolio which is reviewed by a committee.

340. Guitar Electronics: Engineering Sound (3)
Prerequisites: Upper division standing, completion of GE Foundation requirements, one course from GE category B1a. Historical review of electro-magnetic principles and their application to the reproduction, modification, and creation of sound. The electric guitar, its amplifiers, and special effects devices (analog and digital) will be used to gain practical experience. Electrical safety, physiology and physics of the ear.
Not open for credit to students with credit in EE 333. (Lecture: 2 hours, Laboratory: 3 hours) Letter grade only (A-F).

348. Introduction to Information Security, Privacy, and Societal Implications (3)
Prerequisites: Junior standing, computer literacy, and familiarity with PCs and Internet.
Provides basic understanding of some general principles of computer and information security, privacy, business/social implications. Discussions, demonstrations, and exercises.
Overview of underlying security methodologies and products, privacy/social implications, and concept of "Trustworthy" computing for security in organizations and personal computer/Internet use.
(Lecture-discussion: 3 hours) Letter grade only (A-F).

350. Computers, Ethics and Society (3)
Prerequisites: Three (3) units from GE Category A 1 (Writing) and 3 units from GE Category D (Social and Behavioral Science).
An examination of the social impact of information technology. Topics include a survey of the technology (software, hardware and key applications), ethical obligations of specialists, the computer in the workplace, shifts of power, privacy, and legal issues related to computing.
(Lecture: 3 hours) Letter grade only (A-F).

370L. Astronautics and Space (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
Combines the disciplines of space engineering with economics, human physiology, satellite meteorology, earth resources and environmental science, astronautics and space exploration. Emphasis on oral and written communications, numeracy and use of computers. Extensive use of computer animation, video graphics and the Internet.
(Lecture-Problems: 3 hours) Letter grade only (A-F).

375. Total Quality and Continuous Improvement (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper division standing.
Total quality approach to achieve Continuous Improvement. Quality gurus and Deming’s philosophy on TQM: Stratopic planning, customer satisfaction, TQM tools, data representation, vendor evaluations, workplace improvement, supply chain management, Statistical tools for controlling quality. ISO 9000: Malcolm Baldrige Award, Deming’s Prizes, practices and cases studies, foam projects.
(Lecture-Problems: 3 hours) Letter grade only (A-F).

2009/2010 CSULB Catalog • Engineering, College of • 347
388. Engineering for Elementary School Teachers (3)
Developing and fabricating teaching aids and integrated hands-on projects for elementary schools. Basic skill in teaching engineering and technology in the elementary grades.
(Lecture 2 hours, Laboratory 3 hours)

391. Engineering and Civilization (3)
Prerequisites: Completion of G.E. Foundation, one or more Exploration course, and upper division standing. Introduction to major problems of society, engineering, science, including impact of engineering and technology on society. Reading various public opinion pieces providing perspective and insight into current problems at interfaces between engineering and other disciplines, especially anthropology, art, sociology, economics, philosophy, psychology, science, social science.
(Lecture-Problems: 3 hours)

492B. Internship in Engineering (3)
Prerequisites: Major in College of Engineering, completion of 9 units of upper division COE coursework, a 2.5 GPA overall or 2.75 GPA in the student's major, and consent of instructor prior to registration. May be repeated to a maximum of 6 units in different semesters. (Activity 6 hours)

498. Engineering Systems Senior Project (3)
Prerequisites: Senior Standing.
Senior Project in Engineering Systems. Design and development of a senior project. Presentation of oral and written report.
Seminar 3 hours) Letter grade only (A-F)

GRADUATE LEVEL

511. Quality Assurance in Manufacturing (3)
Prerequisites: GE 406 or consent of instructor and graduate standing.
In depth studies of planning for quality, productivity and competitive positioning in manufacturing. Understanding the TQM process, inspection and standardization and product reliability strategies. Case study projects.
Letter grade only (A-F). (Lecture 3 hours)

574. Advanced Manufacturing Technology and Processes (3)
Prerequisites: Consent of instructor and graduate standing.
Build from manufacturing process into factory integration, study of advanced manufacturing processes including composites, electronics manufacturing, automated material handling, assembly inspection, warehousing, factory and office of the future. Automation, robotics applications, flexible manufacturing systems, group technology and the economics of the automated systems.
Letter grade only (A-F). (Lecture and Computer Laboratory 3 hours)

790. Advanced Special Topics in Engineering (4)
Prerequisites: MS or equivalent and formally admitted to the Ph.D. program.
Each offering is based on an area of engineering in which recent advances have been made. Specific topics will be recorded on student's transcripts.
Repeatable to a maximum of 8 units with different topics. Course Survey Form must be completed. Letter grade only (A-F).

795. Advanced Directed Studies (4)
Prerequisites: MS or equivalent and formally admitted to the Ph.D. program.
Explorations of theoretical and experimental (if applicable) Engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report and a seminar.
May be repeated to a maximum of 8 units. Course Survey Form must be completed. Letter grade only (A-F).

796. Doctoral Seminar (2)
Prerequisite: Graduate Standing. Research seminar on advanced technical fields.
May be repeated to a maximum of 4 units in different semesters. (Seminar 2 hours). Letter grade only (A-F).

797A. Preparation for Ph.D. Preliminary Examinations (4-12)
Prerequisite: Graduate Standing.
Tutorial limited to doctoral students who are preparing for the preliminary examinations.
May be repeated to a maximum of 12 units in different semesters or until the preliminary examinations requirements are fulfilled. ENGR 797A does not count towards the 48 units of course requirement. Credit/No Credit grading only.

797B. Preparation for Ph.D. Qualifying Examination (4-12)
Prerequisite: Graduate Standing.
Tutorial limited to doctoral students who are preparing for the qualifying examination.
May be repeated to a maximum of 12 units in different semesters or until the student has advanced to candidacy. ENGR 797B does not count towards the 48 units of course requirement. Credit/No Credit grading only.

798. Doctoral Dissertation (4-12)
Prerequisite: Successful completion of the Ph.D. preliminary examinations, research tool test, and at least 48 units of course work. A written dissertation proposal containing an outline of the research to be undertaken and references to relevant source material must be submitted. Only upon a positive recommendation a student may embark on a dissertation.
May be repeated to a maximum of 12 units in different semesters, but only 4 units will count towards the doctoral degree's course requirements. Letter grade only (A-F).

Courses (MSEM)

UPPER DIVISION

406B. Engineering Economy and Administration (3)
Prerequisite or Corequisite: ECON 300 or consent of instructor. Engineering management principles and economic analysis; with time value of money, after-tax analysis for rate of return. Graduate students will be required to do an additional assignment.
Letter grade only (A-F).
GRADUATE LEVEL

506B. Management of Engineering Technology and Innovation (3)
Prerequisite: Graduate engineering standing.
Analysis of the principles and theory of engineering administrative organizations, information systems, management functions, decision making tools, strategies and administrative policy formulations.
Letter grade only (A-F).

507B. Engineering Project Management (3)
Prerequisite: Graduate engineering standing.
Theory and philosophies of project management, principles of internal and industrial organization planning and control systems, motion in time study, industrial statistics, industrial research as aid to decision making.
Letter grade only (A-F).

508B. Systems Engineering and Integration (3)
Prerequisite: Senior standing or consent of instructor.
Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfacing in the context of integrated product teams and the product life cycle.
Letter grade only (A-F).

511B. Advanced Manufacturing Management Systems (3)
Prerequisite: Consent of instructor.
Management systems for Integrated Product Development and Concurrent Engineering. Quality, Productivity and Costs, emphasis on Lean Manufacturing, Just-In-Time Manufacturing, Quality-Based Manufacturing Systems: TQM and ISO 9000; Customer Requirement and Quality Function Deployment; Design Manufacturing and Assembly; Poka-Yoke; Demand-Driven; "Pull" manufacturing; "Lean Enterprise".
Letter grade only (A-F).

570B. Engineering Management Principles and Applications (3)
Prerequisite: Graduate standing, or consent of instructor.
Engineering management principles and applications. Relationships of management functions - modern products or service based companies. Technical organization in global market place. Recognizing, empowering, concurrent engineering and systemic thinking. Evolutionary theories of management. Strategic planning, goal setting, communication, resource distribution, etc. Team projects.
Letter grade only (A-F).

591B. Engineers to Managers – A Transition (3)
Prerequisites: Consent of instructor and graduate standing.
Engineers transitioning to management. Engineering mindset advantages and disadvantages; Successful managers; Corporations - system of people, machines, and facilities; Requirements; inter-acting disciplines; "people skills" in non-coercive supervision. Technical managers; Managing Changes and technology; Team projects.
(Lecture Problems 3 hours) Letter grade only (A-F).

596B. Special Projects in Engineering Management (3)
Prerequisites: Eligible for advancement to candidacy and consent of instructor.
Under faculty supervision students will pursue synthesis work, as a culminating experience, on the topics learned for the interdisciplinary MSEM degree. In consultation with the Program Advisor, an independent study form must be completed. An acceptable project report must be submitted.
May be repeated to a maximum of 6 units. Letter grade only (A-F).
Engineeering Technology Programs

Career Possibilities

Computer Option: Hardware and software Computer Applications Engineers • Test Equipment Engineers • Manufacturing Engineers or Technical Sales Engineers in industry and organizations where a combination of hardware and software background is required

Electronics Option: Electronic Technician • Calibration Engineer • Construction Inspector • Computer Applications Engineer • Time Study Engineer • Facilities Planner • Field Engineer • Manufacturing Engineering • Operations Research Analyst • Sales Representative • Project Engineer • Associate Process Engineer • Product Design Engineer • Process Engineer • Instructor

Environmental Option: Air Quality Engineer • Compliance Officer • Environmental Assessment Consultant • Groundwater and Soil Contamination Specialist • Hazardous Materials Manager • Inoculation Management Specialist • Natural Resources Manager • Onsite Wastewater Disposal Director • Waste Management Environmental Engineer • Hazardous Waste Management Specialist • Technical Writer • Environmental Specialist • Urban-Environmental Studies Planner Director • Waste Management Director

Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.

Introduction

The Engineering Technology (ET) Programs at CSULB serve society by graduating well-prepared professionals, who are provided with an excellent education in the fundamentals of Engineering Technology through a combination of theory and laboratory practice, and who are able to apply their knowledge and transform their ideas into working systems. The goal of these ET programs is achieved through a number of educational objectives by the faculty participating in these programs:

1. Preparing students to commit to lifelong learning, continuing self-development and the ethical practice of Engineering Technology.
2. Providing well-designed curricula, that meet the industry needs.
3. Providing students with a solid foundation on a broad range of engineering technology areas, that are required of a professional technologist entering the workforce.
4. Training students in analysis, applications and hands-on laboratory work.
5. Providing students with opportunities to enhance their communication skills by means of writing reports, oral presentations and teamwork.
6. Providing modern and well-equipped instructional laboratories.

In addition, an Engineering Technology Advisory and Development Council (ETADC), composed of leaders actively engaged in areas of relevant engineering technology continually provides information and guidance about industrial developments in methods, materials and techniques so that the programs reflect the best of current practices. The members examine various aspects of the programs and make recommendations for changes in curriculum content, methods and/or facilities. Present membership in the council is made up of representatives from the different sectors of the American industries or corporations.

The ET programs are administered by the following five departments in the College of Engineering: Chemical Engineering (CHE), Civil Engineering and Construction Engineering Management (CECM), Computer Engineering and Computer Science (CECS), Electrical Engineering (EE), and Mechanical and Aerospace Engineering (MAE).

General Requirements

All students in the BSET, BSEET, or BSCET programs must receive a minimum grade of "C" in each of the prerequisite courses before enrolling in any Engineering Technology course. In addition to any other university requirements regarding grade point averages for graduation, student must achieve a minimum of 2.0 average in all Engineering Technology courses.

Bachelor of Science in Engineering Technology

Option in Technology and Engineering Education (code ET_BS15) (120 units)

Administered by the Computer Engineering and Computer Science Department.

Faculty Advisor: Barbara Mack
CECS Department Office - ECS 540
Faculty Advisor's Office - ECS 524
Faculty Advisor's Telephone: (562) 985-1985

The Technology and Engineering Education Option is for students preparing to teach technology and programming courses at the middle or high school level. This Option has been approved by the Commission on Teacher Credentialing as a subject matter preparation program for students who plan to teach on the Industrial and Technology (ITE) credential.

To earn a teaching credential in Industrial and Technology Education, students must also complete a Single Subject Program sequence of professional preparation courses, including student teaching. CSULB Long Beach does not currently offer a Single Subject Credential Program in Industrial and Technology Education, but post-baccalaureate ITE programs are offered at nearby universities. For information about earning a Single Subject teaching credential, see an advisor in the Teacher Preparation Advising Center (EDT-07) in the College of Education. For information about the Technology and Engineering Option, students should consult the department's Industrial and Technology Education advisor.
Requirements

Lower Division: CECS 100, 110, 174, 200, 202, CEM 121, 125; ENGR 101, 102, ET 101, 170, 250 and 250L (or ET 302 and 302L); DESN 120A; MAE 272; PHYS 100A and 100B.

Upper Division: CE 420; CECS 310; CEM 310, DESN 368; ENGR 302; ET 307.

Concentration 1: CECS 401, 410, 414; ETEC 435.

Concentration 2: CE 406; ET 244, 244L, 264, 264L, 313, 313L, 335.

Option in Environmental Technology (code ET__BS06) (133 units)

Administered by the Chemical Engineering Department.

CHE Department Office - EN2 101

The Environmental Technology Option program is designed to provide career educational opportunities to students whose technological interests and aptitudes are applications-oriented. The program is intended to produce occupational-ready college graduates with practical skills and potential for growth to meet defined technical manpower needs, primarily for California's environmental industry. To achieve these goals, emphasis is placed on meeting students' needs through lecture and laboratory teaching, through the co-op program with local industry, and through other relevant learning experiences.

In addition to acquiring technical knowledge and skills, graduates will be able to communicate well. They will be prepared not only for immediate employment but for continuing development as citizens and responsible human beings as well. This will be accomplished by requiring appropriate courses in technical fields, communications, and in general education courses. Furthermore, the ethical considerations of environmental issues will have a major role throughout the curriculum. Finally, every effort is made to help the students in proper job placement upon graduation. This option is not accredited.

Prerequisite Core

Lower Division: CHEM 111A, MATH 120, ENGR 203, ENGR 203L, PHYS 100AandB, ET 101, 170, 202, 202L, 204, 205, 205L.

Upper Division: ECON 300, ET 301, 301L, 307, 309 (or ENGR 310), 335, 335L, 410.

Requirements

Lower Division: ET 206, 209, 210, 213.

Upper Division: ET 319, 329, 329L, 333, 333L.

Select at least 11 units of approved electives in consultation with an advisor from the following courses: ET 409F, 470, 485, HISC 422.

Fieldwork Requirements

Fieldwork experience is required for the BS in Engineering Technology, Option in Environmental Technology, consisting of no less than three months full-time (40 hours/week) or equivalent part-time) of employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed two years of college. The fieldwork must be completed prior to graduation, be certified and approved by the faculty of the Department.

Bachelor of Science in Computer Engineering Technology (code ET__BS16) (129 units)

Administered by the Electrical Engineering Department.

Faculty Advisor: I-Huang Khoo

LL Department Office - ECS 512

Faculty Advisor's Office - ECS 517

Faculty Advisor's Telephone: (362) 985-1065

The primary objective of the Computer Engineering Technology program, accredited by TAC of ABET (Accreditation Board for Engineering and Technology Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website: http://www.abet.org), is to prepare graduates to pursue careers related to manufacturing, integration, and support of computer systems. Emphasis is placed on specific job skills required of entry level professionals in computer industry, including systems analysis and design, data administration, networking, data communications, data acquisition, oral and written communication, and management principles. The Computer Engineering Technology program is available to students interested in the manufacturing of computers and the applications and operations aspects of computer hardware and software. The program is designed to meet ABET criteria for accredited programs in engineering technology. The graduates of this program should find employment in industry and organizations where a combination of practical hardware and software background is important.

Requirements

Select at least 3 units from the following, in consultation with an advisor: ET 301, 301L, 409E, 491L, 491L.

Fieldwork Requirements

Fieldwork experience is required for the BS in Computer Engineering Technology, consisting of no less than three months full-time (40 hours/week) or equivalent part-time) of employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed two years of college. The fieldwork must be completed prior to graduation, be certified and approved by the faculty of the Department.

Bachelor of Science in Electronics Engineering Technology (code ET__BS02) (129 units)

Administered by the Electrical Engineering Department.

Faculty Advisor: I-Huang Khoo

EE Department Office - ECS 512

Faculty Advisor's Office - ECS 517

Faculty Advisor's Telephone: (362) 985-5082

The Electronics Engineering Technology program, accredited by TAC of ABET (Accreditation Board for Engineering and Technology Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website: http://www.abet.org), prepares the student for a position as a technologist, in such industries as aerospace, computers,
communications, biomedical, chemical, power, etc. Students are offered a wide range of training in topics such as instrumentation, controls, microprocessors, microelectronics, biomedical electronics, communications, motors and generators, robotics, computer applications, programming and interfacing. Moreover, the program emphasizes written and oral communications skills as well as modern methods of industrial administration and supervision. The program is designed to meet ABET criteria for accredited programs in engineering technology.

Requirements

Select at least 3 units from the following, in consultation with an advisor: ET 301, 301L, 4098, 445, 445L.

Fieldwork Requirements

Fieldwork experience is required for the BS in Electronics Engineering Technology, consisting of no less than three months full-time (40 hours/week) or equivalent part-time) of employment in an approved industry or governmental agency. The student must hold a position equivalent to a technician or higher which affords the opportunity to exercise responsibility usually given to those who have completed two years of college.

The fieldwork must be completed prior to graduation, be certified and approved by the faculty of the Department.

Engineering Technology Courses (ET)

LOWER DIVISION

101. Introduction to Engineering Technology (1)
Survey of professional activities and environment of engineering technology. Covers role of technology in American industry, the history of technology and the growth and future of those professionals who hold the Bachelor of Science degree in Engineering Technology.
(Lecture-Discussion 1 hour) Credit/No Credit grading only.

170. Engineering Drafting and Design (3)
Prerequisite: Sophomore standing.
Graphic communication including freehand sketching. Introduction to blueprint reading and computer aided drafting. Emphasis on engineering drafting practices: general standards, tolerances, thread seals, welding joints, surface finishes, fasteners, structural shapes. (Lecture 2 hours, laboratory 3 hours) Letter grade only (A-F).

202. Probability and Statistics for Technology (3)
Prerequisite: High school algebra. Corequisite: ET 202L.
Statistics and probability theory, sampling, correlation, regression as applied to Engineering Technology.
(Lecture-problems 3 hours) Letter grade only (A-F).

202L. Probability and Statistics for Technology Laboratory (1)
Prerequisites: 2 yrs high school algebra, geometry, and intermediate algebra (or MATH 010) or equivalent. Corequisite: ET 202.
Laboratory exercises in statistics and probability theory, sampling, correlation, regression as applied to Engineering Technology. Simulation using statistical packages. (Laboratory 3 hours) Letter grade only (A-F).

204. Applied Mechanics-Statics (3)
Prerequisites: MATH 120, PHYS 100A.
Force systems acting on structures, moments, equilibrium, centroids, trusses, beams, cables, frames, machines, friction, section properties, masses, units of measurements. (Lecture 2 hrs, activity 2 hrs) Letter grade only (A-F).

205. Computer Systems and Programming (1)
Corequisite: ET 205L.
Overview of computer systems, hardware, and software development. Hardware topics include central processing unit and memory, input/output devices, storage mechanism, and communication. Software topics include programming languages, operating systems, and systems analysis and design. (Lecture-discussion, exercise, 1 unit) Letter grade only (A-F). Same as CEM 205.

205L. Computer Systems and Programming Lab (1)
Corequisite: ET 205.
Lab exercises in computer programming to solve problems in business, manufacturing, research and simulation. An object-oriented programming language will be used for these activities. (Laboratory 3 hours) Letter grade only (A-F). Same as CEM 205L.

206. Introduction to Environmental Hazardous Materials and Waste Technology (3)
Prerequisites: CHEM 111A, PHYS 100A.
Overview of environmental effects of industrial pollution and history of environmental legislation. Study of industrial processes and generation of waste streams in selected industries. Introduction to concepts of sustainable development, energy conservation, waste minimization and waste treatment. Letter grade only (A-F). (Lecture-Discussion 3 hours)

208. Hazardous Waste Stream Generation, Reduction, Treatment (3)
Industrial processes and waste streams in industry: electroplating, metal finishing/printed circuit board production, oil refining/chemical production, general manufacturing, printing/photographic reproduction, agriculture/consumer services. Raw materials/chemicals in industry as they move through industrial processes, material balance, inventory, regulations and importance of waste minimization/treatment. Letter grade only (A-F).

209. Environmental Applications of Physical and Organic Chemistry (2)
Prerequisite: CHEM 111A.
Applications of physical and organic chemistry in environmental science and engineered environmental systems. Letter grade only (A-F). (Lecture-Discussion 2 hours)

210. Hazardous Materials and Waste Management (3)
Prerequisites: CHEM 111A, ET 205L.
A study of the requirements of federal, state and local regulations relating to the management of hazardous materials and hazardous wastes. Particular focus on compliance with shipping, storage, labeling, sampling, and inventory and release reporting requirements. Letter grade only (A-F). (Lecture-Discussion 3 hours)

212. Hazardous Materials Management Application (3)
Requirements and applications of federal, state and local laws and regulations relating to hazardous materials. Compliance with Department of Transportation, Occupational Safety and Health Administration, Hazard Communication, Superfund Amendments and Reauthorization Act, Title III community Right to Know etc. Letter grade only (A-F).
213. Environmental Health, Safety and Emergency Response (3)
Prerequisites: CHEM 111A, ET 206.
Hands-on instruction in safety and emergency response to chemical and physical exposures in industrial and field settings. Acute and chronic health effects produced by exposure to chemical agents.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

244. Machine Tools (1)
Corequisite: ET 244L.
Operations and use of the conventional and non-conventional machine tools.
Not open for credit to students with previous machine tools credit.
(Lecture-Discussion 1 hour) Letter grade only (A-F).

244L. Machine Tools Laboratory (1)
Corequisite: ET 244.
Laboratory exercises using conventional and non-conventional machine tools.
Not open for credit to students with previous machine tools experience.
(Laboratory 3 hours) Letter grade only (A-F).

250. Circuit Analysis I (2)
Prerequisite: PHYS 100B. Corequisite: ET 250L.
Fundamentals of DC theory, units of measurement, systems of units. Current, voltage, resistance, Ohm’s law, power, energy. Series and parallel circuits. Methods of analysis and selected topics. Network theorems such as superposition, Thevenin’s, Norton’s and Millman’s theorems.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

250L. Circuit Analysis I Laboratory (1)
Prerequisite: PHYS 100B. Corequisite: ET 250.
Laboratory exercises will be conducted on AC and DC circuits using DMM boards and power supplies, multimeter, function generator, oscilloscopes and frequency counters.
(Laboratory 3 hours) Letter grade only (A-F).

252. Circuit Analysis II (2)
Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252L.
Study of circuit analysis techniques in AC, including network theorems, mesh and nodal analysis, transistors, time domain and phasors, magnetic circuits, sinusoidal and non-sinusoidal waveforms, resonance circuits (series and parallel), filters (low pass, high pass, passband and bandstop).
(Lecture-Discussion 2 hours) Letter grade only (A-F).

252L. Circuit Analysis II Laboratory (1)
Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252.
Laboratory exercises will be conducted on AC circuits using DMM boards and AC power supplies, function generators, oscilloscopes, and frequency counters.
(Laboratory 3 hours) Letter grade only (A-F).

255. Introduction to Digital Electronics (2)
Prerequisites: ET 250, 255L. Corequisite: ET 255L.
Combination logic utilizing Boolean algebra and the binary numbering system. Includes Karnaugh maps, truth tables, coding, switching circuits, converters and logic circuit elements.
(Lecture-problems 2 hours) Letter grade only (A-F).

255L. Introduction to Digital Electronics Laboratory (1)
Prerequisites: ET 250, 255L. Corequisite: ET 255.
Laboratory exercises in basic logic circuits. Topics include basic logic, combinational and combinatorial circuits.
(Laboratory 3 hours) Letter grade only (A-F).

260. Solid-State Electronics I (2)
Prerequisites: ET 252, 252L. Corequisite: ET 260L.
Analysis and design of solid-state electronic circuits using diodes, bipolar, unijunction and field-effect devices.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

260L. Solid State Electronics I Laboratory (1)
Prerequisites: ET 252, 252L. Corequisite: ET 260.
Laboratory exercises in broadbanding and measurements of solid-state circuits utilizing all types of electronic measuring equipment.
(Laboratory 3 hours) Letter grade only (A-F).

264. Industrial Tooling (1)
Prerequisite: ET 170. Corequisite: ET 264L.
Design of tools for production. Typical tooling problems include working drawings and hardware.
(Lecture-Discussion 1 hour) Letter grade only (A-F).

264L. Industrial Tooling Laboratory (1)
Prerequisite: ET 170. Corequisite: ET 264.
Laboratory experiments in tool design in relation to mass production.
(Laboratory 3 hours) Letter grade only (A-F).

286. Introduction to Object-Oriented Programming (2)
Prerequisites: ET 205, 205L. Corequisite: ET 286L.
Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology.
Emphasis on applications to technology
(Lecture-Discussion 2 hours) Letter grade only (A-F).

288L. Introduction to Object-Oriented Programming Laboratory (1)
Prerequisites: ET 205, 205L. Corequisite: ET 288.
Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology.
Emphasis on applications to technology.
Letter grade only (A-F). (Laboratory 3 hours)

UPPER DIVISION

301. Engineering Materials (2)
Prerequisites: CHEM 111A; Corequisite: ET 301L.
Study of physical and mechanical properties and applications of engineering materials.
Letter grade only (A-F). (Lecture-Discussion 2 hours)

301L. Engineering Materials Laboratory (1)
Prerequisites: CHEM 111A; Corequisite: ET 301.
Laboratory investigation and experiments in the application of engineering materials. Field trips.
Letter grade only (A-F). (Lab 3 hrs)

302. Industrial Electricity (2)
Prerequisite: PHYS 100B, corequisite: ET 302L.
Overview of electrical principles and applications in electrical manufacturing industries including instrumentation and power distribution.
Letter grade only (A-F). (Lecture 2 hours) May not be used for credit for the ELCET program.

302L. Industrial Electricity Laboratory (1)
Prerequisite: PHYS 100B, corequisite: ET 302.
Overview of laboratory techniques in electrical engineering technology and applications in the industry.
Letter grade only (A-F). (Laboratory 3 hours) May not be used for credit for the ECET program.
304. Applied Mechanics Strength of Materials (3)
Prerequisite: ET 204.
Analysis of strength and rigidity of structural members in resisting applied forces, stress, strain, shear, moment, deflections, combined stresses, connections, and moment distributions.
Letter grade only (A-F). (Lecture-Discussion 3 hours)

307. Industrial Safety (2)
Prerequisite: Junior Standing.
Survey of industrial safety administration, engineering and management. Emphasis is placed on the role of the first line supervisor in establishing and maintaining a safe, healthful work environment for employees. Introduction to supporting computer resources used in the safety field.
Letter grade only (A-F). (Lecture-Discussion 2 hours)

309. Industrial Communications and Leadership (3)
Prerequisite: LT 101.
English Composition. Principles, theories of industrial communications and management for engineering technology. Management functions of planning, organizing, motivating, loading, controlling and staffing in technical environment. Intro to decision support models: written/oral technical information; communication forms and procedures of industry, with computer applications.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

311. Quality Engineering Technology (3)
Prerequisites: ET 202, 202L,
Junior standing. Quality engineering technology principles and practices in industry, including management concepts, inspection practices, costs of quality and testing.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

312. Statistical Quality Control (3)
Prerequisite: ET 311.
Statistical process control; including use of statistical methods for analysis and improvement of product quality, control charts, linear correlation; sampling procedures, stratification, cause and effect analysis, process capability and introduction to design of experiments.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

313. Quality Assurance, Inspection Measurement and Testing (3)
Prerequisite: ET 311; Corequisite: LT 313L.
Theory and application of inspection procedures, instrument calibration, precision measurements including theory and application of non-destructive testing of materials for quality control.
Letter grade only (A-F).

313L. Quality Assurance, Inspection Measurement and Testing Laboratory (1)
Prerequisite: ET 311; Corequisite: ET 313L.
Laboratory experiments; instrument calibration including standards and precision measurements including the use of non-destructive test equipment for quality control.
(Laboratory 3 hours) Letter grade only (A-F).

319. Environmental Regulations and Compliance (3)
Analysis of federal and local administration of environmental laws, including the National Environmental Policy Act of 1969 and litigation of that act in the courts. Special attention paid to California and comparison of the environmental regulation policies of California.
(Lecture-Discussion 5 hours) Letter grade only (A-F).

329. Environmental Study of Groundwater and Soils (2)
Corequisite: ET 320L.
Detection, analysis and control of groundwater/soil contamination involving the regulatory hierarchy, distribution network and subsurface formations. Basic tools and procedures utilized in compliance operations.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

329L. Environmental Study of Groundwater and Soils Laboratory (1)
Corequisite: ET 329.
Laboratory exercises in the techniques of detection, analysis and control of groundwater/soil contamination. Rules of compliance set by regulatory hierarchy, distribution network and subsurface formations.
(Laboratory 3 hours) Letter grade only (A-F).

333. Solid Waste Technology (2)
Corequisite: ET 333L.
Survey of regulated hazardous and non-hazardous solid waste generated by common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

333L. Solid Waste Technology Laboratory (1)
Corequisite: ET 333L.
Techniques of identification, measurement and assessment of solid waste. Focus on regulated hazardous solid waste from common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact.
(Laboratory 3 hours) Letter grade only (A-F).

335. Engineering Materials and Processes I (3)
Corequisite: ET 335L.
Examination of engineering materials and manufacturing processes including the study of: Phase diagrams; heat treatment; metal casting processes; welding and hardening; corrosion; powder metallurgy; electronic fabrication; tribology; friction, wear, lubrication; surface treatment; coating and cleaning.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

335L. Engineering Materials Processes I Laboratory (1)
Corequisite: ET 335L.
Laboratory exercises in engineering materials and manufacturing processes including the study of: Phase diagrams; heat treatment; casting; metallurgy and electronic manufacturing processes.
(Laboratory 3 hours) Letter grade only (A-F).

341. Solid State Electronics II (2)
Prerequisite: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341L.
Miller's Theorem, integrated circuits, feedback, operational amplifiers, Fourier series, distortion, modulation, phase-locked loops, linear and non-linear circuits, and breadthcasting.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

341L. Solid State Electronics II Laboratory (1)
Prerequisites: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341L.
Laboratory exercises in design and measurement of various circuits using operational amplifiers, comparators, regulators, silicon controlled rectifiers, frequency meters and phase-locked loops.
(Lab 3 hours) Letter grade only (A-F).

350. Motors and Generators (2)
Prerequisites: ET 252, 252L, corequisite: ET 350L.
Study of electric rotating machinery, its theories, principles, design and applications in automation industries.
(Lecture-Problems 1 hour) Letter grade only (A-F).

350L. Motors and Generators Laboratory (1)
Prerequisite: ET 252 252L, corequisite: ET 350L.
Laboratory exercises in application and design of rotating machines. Topics covered are DC machines, synchronous machines, servomotor, stepper motor, and control circuits.
(Laboratory 3 hours) Letter grade only (A-F).

354 • Engineering Technology • 2009/2010 CSULB Catalog
360. Control Instrumentation (2)
Prerequisites: ET 260, 260L; corequisite: ET 360L.
Application and basic design of analog and digital control instrumentation for industrial processes. Physical and electrical properties of thermal, mechanical and optical transducers with associated signal conditioning.
(Lecture-Problems 2 hours) Letter grade only (A-F).

360L. Control Instrumentation Laboratory (1)
Prerequisites: ET 260, 260L; corequisite: ET 360.
Laboratory exercises in developing and measuring various control systems utilizing operational amplifiers, transducers, thermocouples, bridges, and various pressure devices.
(Laboratory 3 hours) Letter grade only (A-F).

363. Kinematics of Mechanisms (3)
Prerequisites: ET 170, ET 204.
Mathematical and graphical approaches to analyse the motion of mechanisms, for further machine development, through studies of displacement, velocity and acceleration of mechanical elements.
(Lecture-Discussion 2 hours, Activity 2 hours) Letter grade only (A-F).

365. Fluid Power and Control (2)
Prerequisite: ET 204; Corequisite: ET 365L.
Fundamentals and application of hydraulic, pneumatic and vacuum power as used in current manufacturing plants.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

365L. Fluid Power and Control Laboratory (1)
Prerequisite: ET 204; Corequisite: ET 365.
Demonstration and operation of fluid power systems. Design and selection of components for specific applications. Computer data acquisition and analysis.
(Laboratory 3 hours) Letter grade only (A-F).

366. Introduction to Microprocessors (2)
Prerequisite: ET 286, 286L; Corequisite: ET 390L.
Theory and concept of programming, hardware configuration, and functional capabilities of microcomputer systems including peripheral devices.
(Lecture-Problems 2 hours) Letter grade only (A-F).

366L. Introduction to Microprocessors Laboratory (1)
Prerequisites: ET 286, 286L; corequisite: ET 386.
Laboratory exercises in programming microcomputers. Topics included are number systems, microcomputer structure, memory, timing, peripheral devices operation, and system operation.
(Laboratory 3 hours) Letter grade only (A-F).

387. Robot Programming and Mechatronics (2)
Prerequisites: ET 205, 205L; corequisite: ET 367L.
Basic concepts of robot manipulations, robot kinematics, robot programming languages. Applications of industrial robots, machine vision systems. Basic concepts of mechatronic systems: combine hardware, software, interface, and system integration to make an intelligent system. Sensors and actuators for robotics and mechatronic systems.
(Lecture-Problems 2 hours) Letter grade only (A-F).

387L. Robot Programming and Mechatronics Laboratory (1)
Prerequisite: ET 205, 205L; corequisite: ET 387.
Laboratory exercises in industrial and educational robot operation and applications. Laboratory exercises on mechatronic systems. Robot systems and their computer language instructions will be used. The experiments include teach pendant programming, high level language programming, workcell applications, continuous path programming.
(Letter grade only (A-F).

388. Technical Applications Using Programming Languages (2)
Prerequisites: ET 286, 286L; corequisite: ET 388L.
Techniques for design and development of industrial programs for computer-aided design, structural analysis, program testing, top-down structured programming concepts and tools, object-oriented programming, and memory management. Concepts are investigated and examined for use in solving complex problems.
(Lecture-Problems 2 hours)

388L. Technical Applications Using Programming Languages Laboratory (1)
Prerequisites: ET 286, 286L; corequisite: ET 386.
Techniques for design and development of industrial programs that includes computer-aided design, module coupling strength, program testing, top-down structured programming concepts and tools, object oriented programming, and memory management. Concepts are investigated and examined for use in solving complex problems.
(Laboratory 3 hours)

390. Applied Computer-Aided Design and Manufacturing (2)
Prerequisites: ET 170, 205, 205L; corequisite: ET 390L.
Role of the computers in the manufacturing process, application of CAD/CAM systems, hardware and software components for automation, part programming for manufacturing, computer controlled manufacturing equipment simulation, programming the factory.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

390L. Applied Computer-Aided Design and Manufacturing Laboratory (1)
Prerequisites: ET 170, 205, 205L; corequisite: ET 390.
Use of microcomputer based hardware and software to solve 2D and 3D modeling problems. Computer automation software packages. Also includes part programming and CAD/CAM data exchange exercises.
(Laboratory 3 hours) Letter grade only (A-F).

409. Senior Problems in ET (1-3)
Prerequisites: Senior standing in ET, consent of instructor.
Advanced work in a technical nature within an area of specialization on an experimental or research basis.
Letter grade only (A-F).

B. Electronics Technology
C. Manufacturing Technology
D. Quality Assurance
E. Computer Technology
F. Environmental Technology

410. Cost Engineering and Analysis (3)
Prerequisites: Economics course, Junior Standing.
Introduction to the concepts of capital and operations budgets, capital acquisitions, economic evaluations of capital alternatives and factors of the time-value of money in industrial operations and construction industries.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

415. Production Methods and Process Improvement (3)
Prerequisite: ET 410.
Simplification and improvement of manufacturing operations through the use of decision analysis tools such as inventory control and scheduling.
419. Design of Experiments (3)
Prerequisite: ET 312.
Advanced statistical analysis applied to quality functions. Comparative and single factor experiments. Factorial designs and multiple regression.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

435. Engineering Materials and Processes II (3)
Prerequisites: ET 335, 335L. Corequisite: ET 435L.
Application of engineering materials and manufacturing processes including rolling, forging, extrusion and drawing, sheet-metal forming, manufacturing of plastics and composites, material removal processes and rapid prototyping.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

435L. Engineering Materials and Processes II Laboratory (1)
Prerequisites: ET 335, 335L; corequisite: ET 435.
Continuation of ET 335L. Laboratory exercises in: welding processes; machining processes; metal forming; manufacturing of composite materials.
(Laboratory 3 hours) Letter grade only (A-F).

441. Theory of Electronic Control (3)
Prerequisites: ET 360, 360L.
Procedures for the design, preparation and evaluation of electronic systems which control manufacturing and production processes, simulation analysis for sensing, programming, and actuating operations.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

442. Computer Circuits (2)
Prerequisites: ET 255, 255L; corequisite ET 442L.
Introduction to digital hardware design. Combinational/sequential logic circuits and systems and application of integrated circuits to logic controls. Programmable logic devices, Field-programmable gate array, Circuit synthesis, and analysis.
(Lecture-Problems 2 hours) Letter grade only (A-F).

442L. Computer Circuits Laboratory (1)
Prerequisites: ET 255L, 255L; corequisite ET 442.
Laboratory study of digital computer circuits design and implementation. Standard designing and troubleshooting procedures will be discussed. Topics covered are adders, subtractor, comparator, register, counter, decoder, arithmetic circuits, and memory.
(Laboratory 3 hours) Letter grade only (A-F).

444. Telecommunications (3)
Prerequisites: ET 360, 360L.
National Communication Network, decibels, transmission units, transmission lines, characteristic impedance, loading systems, lattice networks, PCM, Nyquist Criterion, Bessel functions, coaxial cable, fiber optics, microwave, impedance matching, and Smith chart.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

445. Microelectronics (2)
Prerequisites: ET 350, 350L; corequisite ET 445L.
Design, processing and applications of monolithic and hybrid microcircuits for analog and digital systems.
(Lecture 2 hours) Letter grade only (A-F).

445L. Microelectronics Laboratory (1)
Prerequisites: ET 350, 350L; corequisite ET 445L.
Laboratory exercises in the processing of thick film and thin film materials, ultrasonic and thermodenuding wire bonding and laser resistive trimming. Practical application and equipment utilization is emphasized.
(Laboratory 3 hours) Letter grade only (A-F).

447. Industrial Applications of Electronic Circuits (2)
Prerequisites: ET 341, 341L; corequisite: ET 447L.
An in-depth study of the applications of important electronic circuit concepts in industry: Analysis of circuits and how they work in industrial applications. Techniques for troubleshooting of design circuits. Biomedical electronic circuits which have industrial applications are emphasized.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

447L. Industrial Applications of Electronic Circuits Laboratory (1)
Prerequisites: ET 341, 341L; corequisite: ET 447.
Laboratory exercises include constructing circuits which have important applications in industry: Troubleshooting methodology emphasized throughout. Assignments focus on biomedical electronic circuits which have industrial applications.
(Laboratory 3 hours) Letter grade only (A-F).

460. Electronics Project Design and Development (2)
Prerequisites: ET 341, 341L and senior standing; Co-requisite: ET 460L.
Laboratory exercises in electronics project design and development. Topics include: product planning, implementation planning, proposal and approvals, prototyping, system integration, packaging, overall testing, and reporting. Formal demonstration, oral presentation on a finished product and written report on the final design.
This capstone course is open to Electronics Technology majors only. Letter grade only (A-F). (Lecture-Discussion 2 hours)

460L. Electronics Project Design and Development Laboratory (1)
Prerequisites: ET 341, 341L and senior standing; Co-requisite: ET 460.
Laboratory exercises in electronics project design and development. Topics include: product planning, implementation planning, proposal and approvals, prototyping, system integration, packaging, overall testing, and reporting. Formal demonstration, oral presentation on a finished product and written report on the final design.
Letter grade only (A-F). (Laboratory 3 hours)

461. Management of Manufacturing Operations (3)
Prerequisite: ET 410.
Application of analytical planning and control techniques to the resources of industry including the physical plant, equipment, personnel, inventories and supplies used in the production of products and services.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

476. Environmental Impact (3)
Prerequisite: BIOL 306.
Required components of environmental impact reports and assessments and the processes involved in their preparation. Special emphasis is placed on the biological portions of EIRs and impact on flora and fauna.
(Lecture-Discussion 3 hours) Letter grade only (A-F).

486. Data Structures (2)
Prerequisites: ET 380, 380L; corequisite: ET 486L.
Data structures and applications. Choice and implementation of appropriate data structures for applications. Treatment of arrays, lists, stacks, queues, linked lists, trees, and assorted algorithms. Introduction to search and sorting. File organization techniques.
(Lecture - Problems 2 hours) Letter grade only (A-F).
486L. Data Structures Laboratory (1)
Prerequisites: ET 388, 388L; corequisite: ET 486.
Laboratory exercises in data structures and applications. A recursive
programming language will be used.
(Laboratory 3 hours) Letter grade only (A-F).

487. Introduction to Data Communications and
Networking (2)
Prerequisites: ET 286, 286L, 386, 386L or equivalents; corequisite:
ET 487L.
Introduction to data communications fundamentals, peer-to-
peer and client/server network models. Hardware and software
technology. Protocols, networks, relational database technology,
and security. Example applications, tools and development
environments. Cross-overs, modems, middleware. A design project and class
presentation is required.
(Lecture-discussion 2 hours) Letter grade only (A-F).

487L. Introduction to Data Communications and
Networking Laboratory (1)
Prerequisites: ET 286, 286L, 386, 386L or equivalents: corequisite:
ET 487.
Laboratory and programming exercises introducing the students
to data communications and networking technology. Protocols,
networks, relational database technology, and security. Applications
using software/hardware tools and development environments.
(Laboratory 3 hours) Letter grade only (A-F).

488. Microcomputer Systems (2)
Prerequisites: ET 386, 386L; corequisite: ET 488L.
Study of available microprocessors and microcomputer systems.
Topics cover microcomputer architecture, software structure,
assembly language, central processing unit, input/output,
memory manipulation, and interfacing applications in Engineering
Technology.
(Lecture-problems 2 hours) Letter grade only (A-F).

488L. Microcomputer Systems Laboratory (1)
Prerequisites: ET 386, 386L; corequisite: ET 488.
Laboratory experience in microcomputer architecture, assembly
language programing, and interfacing applications in Engineering
Technology. Topics covered are central processing unit function,
memory organization, and input/output operation. Available
microcomputer systems will be used. Applications in Engineering
Technology.
(Laboratory 3 hours) Letter grade only (A-F).

489. Computer Interfacing (2)
Prerequisites: ET 142, 442L, 488, 488L; corequisite: ET 489L.
Study of theories and techniques that are used in peripheral control
and interfacing. Topics covered are serial interfacing, Parallel
interfacing, timing, handshaking, A/D converters, buffering, and
UARTs.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

489L. Computer Interfacing Laboratory (1)
Prerequisites: ET 442, 442L, 488, 488L; corequisite: ET 489.
Laboratory exercises in computer interfacing applications and
design. Available computer system and its assembly language
instructions will be used.
(Laboratory 3 hours) Letter grade only (A-F).

491. Embedded Processors and Systems (2)
Prerequisites: ET 489, 489L; Corequisite: ET 491L.
Embedded microprocessors, embedded systems, development
concepts, principles, and applications. Hardware/software tradeoffs,
interfacing issues, memory sizing, timing, code and power
optimization issues. Application requirements, platform selection,
RISC vs. CISC issues, co-processors vs. ASICs.
(Lecture-discussion 2 hours) Letter grade only (A-F).

491L. Embedded Processors and Systems Laboratory (1)
Prerequisites: ET 489, 489L; Corequisite: ET 491.
Laboratory exercises on embedded system development.
Emphasis will be on application requirements, platform selection,
interfacing, memory sizing, timing, code and power optimization.
Use of development environments and evaluation boards.
(Laboratory 3 hours) Letter grade only (A-F).

492. Computer Controlled Industrial Systems (2)
Prerequisites: ET 280, 280L; corequisite: ET 492L.
Concepts of computer-based control of industrial systems and data
acquisition. Signals and measurements, noise, resolution, signal
conditioning. Software and hardware for data acquisition and
control.
(Lecture-discussion 2 hours) Letter grade only (A-F).

492L. Computer Controlled Industrial Systems
Laboratory (1)
Prerequisites: ET 286, 286L; corequisite: ET 492.
Laboratory exercises on computer-based control of industrial
systems and data acquisition. Software and hardware for data
acquisition and control. Emphasis placed on object oriented
language and creation of graphical user interfaces for data
acquisition, display and control.
(Laboratory 1 hour) Letter grade only (A-F).

494. Applied Systems Development Project (2)
Prerequisites: ET 386, 386L, 487, 487L; Corequisite: ET 494L.
Systems development concepts, principles, and practices to a
comprehensive systems development project. Hands-on approach
is used to analyze, design and document a realistic system.
Actual use of project management, interviewing, forms analysis,
structured methods, behavioral dynamics, walk-throughs, report
writing, and presentations.
(Lecture-Discussion 2 hours) Letter grade only (A-F).

494L. Applied Systems Development Project Laboratory (1)
Prerequisites: ET 386, 386L, 487, 487L; Corequisite: ET 494.
Laboratory exercises on applied systems development. Emphasis
will be on systems development concepts, principles, and practices
to a comprehensive systems development project.
(Laboratory 3 hours) Letter grade only (A-F).

497. Computer Network Technology (2)
Prerequisites: ET 487, 487L Corequisite: ET 497L.
Hardware and software technology as it relates to computer
networking, LAN, WAN environments and access methods,
Ethernet, ATM, Bridges, routers, gateways, and intelligent hubs.
Networking protocols. Security, Load balancing, and the use of
simulation tools in designing networks.
(Lecture-discussion 2 hours) Letter grade only (A-F).

497L. Computer Network Technology Laboratory (1)
Prerequisites: ET 487, 487L Corequisite: ET 497.
Laboratory exercises using hardware and software technology
related to computer networking. Internetworking laboratory,
Ethernet, ATM, Bridges, routers, gateways, and intelligent hubs.
Security, Load balancing, and the use of simulation tools.
(Laboratory 3 hours) Letter grade only (A-F).

498. Manufacturing Engineering Technology Capstone
Project (3)
Prerequisite: Senior standing.
Group project involving analysis, design, testing and production
processes for product manufacture. Economic, market and
capital requirements, manpower analysis. Written reports and oral
presentations required.
(Lecture 2 hours, Activity 2 hours) Letter grade only (A-F).
Career Possibilities

Advertising • Entertainment • Journalism • Law • Management • Marketing • Mass Media (film, radio, television) • Politics • Professional Writing and Editing (creative or technical) • Public Relations • Teaching • Publishing (Some of these, and other careers, require additional education or experience. For more information, see www.careers.csulb.edu.)

Introduction

In the discipline of English, the department's teaching-learning emphasis is on developing and sustaining each student's own critical reasoning, imagination, and expressive skills. Just as literature broadens and deepens one's experience of life, the study and practice of language and writing sharpen and clarify one's thinking. Learning to see and to seek out expressive possibilities of language is important. But, the mass media also adds dimension and meaning to the experiences of life. The course of study for the undergraduate English major enlarges the literary background of students and prepares them for graduate study or careers in a variety of professions.

Students should establish a file folder in the department when they first appear for major advising. Unofficial transcripts from other institutions are needed to establish continuity, waive requirements, or substitute equivalent courses.

In all options for the major, study of a foreign language is recommended. Ideally, acquaintance with a foreign language should begin before university study, but a student can also gain a great deal by beginning language study at the university level and continuing it through upper-division courses. Because most advanced degrees require knowledge of at least one foreign language, students aiming at such degrees should definitely include language study in their undergraduate programs.

Bachelor of Arts in English

While planning a program of courses for the major in English, a student should consider the opportunities and limitations of the different options detailed below. For each option, the official Program Planners are available in the department office. They require faculty consultation and approval for a graduation audit, but students should consult department faculty for advising when choosing a program in English and regularly after making that choice.

For all options, the major in English consists of at least 41 units. Because ENGL 100 satisfies a University general education requirement, it is not part of any English major. Some options permit or require courses from other departments; if approved by a faculty advisor, options may also include other courses outside English. Because some courses meet requirements in several options, many students can change options with no great loss of credit toward the required total.

In rare instances, a student may accelerate completion of the major in English by taking advantage of the department's credit by examination policy. Certain courses may also be waived or substituted for under certain circumstances. Consult a department advisor for the option concerned.

In addition to the degree requirements for the Bachelor of Arts in English, English majors must meet the following requirements for University graduation:

1. Each lower division course counted towards the English major must be completed with a grade of "C" or better. A course in which a grade lower than a "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite.

2. English 380, required of all English majors, must be completed with a grade of "C" or better. If the grade is lower than "C" received, English 380 must be retaken and successfully completed with a grade of "C" or better prior to enrolling in any course for which it is a prerequisite.
Option in Creative Writing
(code ENGLBA02) (120 units)

The Creative Writing option is designed for students who wish to write, as well as study, fiction, poetry, plays, or media scripts. Exposure to traditional and recent literature is also of significant value for anyone seeking to master the forms and conventions of writing creatively for the literary marketplace. (Students seeking a Secondary Credential should complete the Creative Writing emphasis of the English Education Option.)

This option consists of 45 units, 31 of which must be taken in the upper division, including the following:

Lower Division: ENGL 150; 204 or 205, or 206, 250 A, B.

Upper Division: ENGL 300; nine units in creative writing chosen from ENGL 404, 405, 406, 407, 490; three classes chosen from the following classes in recent literature, literary genres, and literary criticism: ENGL 395, 396, 450, 468, 467AB, 469, 473, 475, 476AB, 477AB, 478, 479; electives to make up a total of 45 units chosen from the classes listed above and/or any upper-division English courses.

Option in English Education
(code ENGLBA06) (120 units)

English Education emphases should not be confused with B.A. options or majors in English or other departments, which have significantly different requirements. The English Education option is designed for prospective secondary English teachers and satisfies the state mandated requirement in subject matter competence for the Single Subject Teaching credential. This 92-unit option combines a 40-unit core with a specified emphasis in one of nine areas. All nine areas of emphasis require an additional 12 units of breadth and perspective beyond the core as indicated below.

Students must complete the following core courses for all emphases: ENGL 310, 320, 363, 375, 390, 410, 459, LING 338; ENGL 250A or 250B; ENGL 270A or 270B; one course from the following in Comparative World Literature: CWL 100, 124, 132, 320U, 346, 404, 452/552 or CLSCL101.

General Education courses that will meet California Commission on Teacher Credentialing Recommendations are: (select three units from) THEA 113, 122, or 3241, and (select three units from) COMM 130 or 335.

In addition to meeting the subject matter competence requirement for the Preliminary Single Subject Credential in English, prospective English teachers are also required to complete 44 units of professional preparation in the Single Subject Credential Program, including student teaching. Students may begin the professional preparation courses as early as the junior year. With careful planning, it is possible to complete all of the credential program courses, except for student teaching, as an undergraduate. Courses may also be completed as a post-baccalaureate student. Refer to the Single Subject Teacher Education section of this Catalog or the Single Subject Credential Program website (www.coe.csulb.edu/single-subject) for a description of the professional preparation requirements, courses, and application procedures. Prospective students should consult the department’s English Education Advisor early to plan their program.

Africana Studies Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): AFRS 140, 415; select three units from AFRS 343A, 343B; select three units from AFRS 180, 206, 240, 346.

Communication Studies Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): COMM 355; select nine units from COMM 309, 331, 335, 352, 355, 411.

Creative Writing Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Journalism Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): JOUR 120, 305, 311; select three units from 430, 431.

Language and Linguistics Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): select three units from LING 420, 421, 433; select three units from LING 485 (also listed as EDF 485), LING 486; select three units from LING 425 (also listed as ANTH 421), LING 472; select three units from ENGL 435, LING 460.

Literacy and Composition Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Literature Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): select three units from ENGL 450 series; select three units from ENGL 470 series; select three units from ENGL 318I, 385, 386, 390; select three units from any course in 440 series; any course in 450 series different from above; any course in 460 series; any course in 470 series different from above; any course in 480 series other than ENGL 482 or 498.

Theatre Arts Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

World Literature Emphasis
Students are required to complete the core of forty (40) units and twelve (12) units to provide breadth and perspective.

Breadth and Perspective (12 units): select three units from CWL 101, 132, 452, CLSCL 101; select three units from CWL
330A, 330B; select three units from CWL 103, 104, 334, 402, 403, 406, 440; select three units from CWL 414I, 422I, 431, 432, 437, 438; CLSC 311, 312I, 420.

**Option in Literature (code ENGLBA01) (120 units)**

The Literature option is designed for students who desire a thorough grounding in English and American literature and is planned for those planning on graduate study in English. (Students seeking a Secondary Credential should complete the Literature emphasis of the English Education option.)

This option consists of 46 units, 27 of which must be taken as the upper division, including the following:

Lower Division: ENGL 180, 250A, 250B, 270A, 270B;

Upper Division: ENGL 380; select two courses from the 450 series or one course from the 450 series and one course from the 460 series (excluding 469)—one of these two courses must be in English literature before 1900; one course from the 470 series (excluding 479); one senior seminar (469, 479, 489); electives to make up a total of 46 units.

**Option in Rhetoric and Composition (code ENGLBA04) (120 units)**

The Rhetoric and Composition option is designed for students who desire to write for multiple readers and to analyze and interpret texts. This option prepares students for teaching on virtually all levels, for graduate study in English, and for professions that require intensive writing and communication skills. (Students seeking a Secondary Credential should complete the Literacy and Composition emphasis of the English Education option.)

This option consists of 45 units, 32 of which must be upper division, including the following:

Lower Division: ENGL 180 or equivalent; select two courses from ENGL 250A, 250B, 270A, and 270B;

Upper Division: ENGL 380; select two courses from ENGL 300, 317, 410, and 435; select seven courses from ENGL 310, 320, 327, 363, 404, 411, 416, 417, 418, 419, 423, 426, 436, 437, 488, and 497; select upper-division English course electives to reach a total of 45 units.

Note: students are strongly encouraged to take ENGL 102 or an English department equivalent at a transfer school for this option.

**Option with Special Emphasis (code ENGLBA05) (120 units)**

Some students wishing to major in English have special interests or career objectives so different from those for which the other options are designed that another pattern of courses would better serve their personal educational needs. For those students, the Special Emphasis option offers an opportunity to pursue individually designed 41-unit programs of study. Student programs may center on technical writing, for example, or other writing goals; they may focus on American or English literature or literature in a particular genre, a particular historical period, or a particular theme.

A Special Emphasis program may include courses outside the Department of English closely related to a student's focus in English studies. At least 21 units must be earned in the Department of English at CSULB and at least 21 units of the program must be upper division. For degrees with more than four courses in any single other department, students should consider a Special Major in the Interdisciplinary Studies Program.

Students wishing to take the Special Emphasis option should prepare a detailed program proposal early in their college careers. Such programs will be recognized only if planned in consultation with a faculty advisor in the Department of English, approved in writing by the advisor, given signed approval by the Department Chair, and carried out under the advisor's continuing supervision. Students must complete at least 15 upper-division units applicable to their Special Emphasis program after it has been officially approved.

The only specific course requirements and limitations are the following: ENGL 180, Composition and Literature (3 units); ENGL 380, Approaches to English Studies (4 units). Electives in English and related fields are needed to make up a total of 41 units. These electives may not include ENGL 100 or 101.

**Minor in English**

**Creative Writing (code ENGLUM01)**

The minor in English (Creative Writing) requires a minimum of 20 units which must include the following: ENGL 180 or equivalent; three units from ENGL 204, 205 or 206; three units from ENGL 404, 405 or 406; three units from ENGL 385 or 386; and eight units of electives from ENGL 359, 404, 405, 406, 407, 432, 459, 466, 467/A81, 474, 475, 476, 477/A/B, 499. (Note: ENGL 404, 405, 406 and 407 may be repeated for credit to a maximum of six units by consent of instructor.)

**Literature (code ENGLUM03)**

The Literature minor in English requires a minimum of 20 units and must include: ENGL 180 or equivalent; eight units from ENGL 250A, 250B, 270A, 270B; and nine elective units from upper-division literature classes in the English department (including at least one class at the 400 level).

**Rhetoric and Composition (code ENGLUM02)**

The Rhetoric and Composition minor in English requires a minimum of 20 units and must include: ENGL 310, 497, LING 420, and 421. Also recommended are three units from ENGL (or LING) 423 or 426.

**Special Emphasis (code ENGLUM04)**

The Special Emphasis minor in English requires a minimum of 21 units in a program developed, approved, and supervised in the same manner as the Special Emphasis Option. ENGL 180 or equivalent is required of all students, with the rest of the program constructed in consultation with a faculty advisor. At least nine upper-division units must be taken after program approval, and at least 11 units must be earned in the Department of English at CSULB.

**Certificate in Teaching English as a Second Language (code ENGLCT02)**

The Certificate Program in Teaching English as a Second Language is conducted by the Linguistics Department faculty. Please refer to the Linguistics sections of this Catalog.
Certificate in Technical and Professional Communication (code ENGLCT01)

The Department of English offers a Certificate in Technical and Professional Communication to students interested in careers in writing and editing. Application forms and advising materials may be obtained from the Department office.

Prerequisites
1. Formal consultation with a faculty advisor in the Technical and Professional Communication (TPC) Certificate program;
2. Submission of an application to enter the program, supported by transcripts;
3. Upper division or post-baccalaureate standing at CSULB with a grade point average of at least 2.75 overall;
4. Admission to a degree program in this university or possession of a degree from an accredited university;
5. Successful completion of ENGL 317, Technical Communication, with a letter grade of "C" or higher.

General Requirements
1. A baccalaureate degree, which may be taken concurrently with the Certificate in Technical and Professional Communication;
2. A minimum of 24 units in courses approved for the Certificate Program at this University, preferably completed within 10 years of the first credit granted toward the Certificate (consult an advisor concerning any transfer or extension credit that may be allowable);
3. A letter grade of "C" or higher in every course in the Certificate program (a grade of "CR" is acceptable in no more than one course);
4. Completion of a program of courses in Areas I through IV, developed in consultation with an advisor in the Technical and Professional Communication Certificate program, and approved by the Program Director and the Dean of the College of Liberal Arts (or the Dean’s designee);
5. Demonstrations (in or outside the program of courses) of competence in the use of computers and graphic media;
6. Development of a portfolio of reports, written and edited by the student during enrollment in the Certificate program, for review and approval by faculty in the Technical and Professional Communication Certificate program (required for a grade in ENGL 492AV, Area IV).

Course Requirements
For each of the following courses, TPC Certificate students have been granted enrollment rights equal to those of students majoring in the Department offering the course. Substitutions are possible, especially in more advanced courses, with approval by the Program Director.
Area I: Technical and Professional Writing (9 units): ENGL 417, 418, and one from the following courses: ART 307; ENGL 419; GEOL 420; IS 301; JOUR 316; 319B.
Area II: Language Studies (4 units): ENGL 416, 320.
Area III: Electives chosen from the following (minimum 8 units):
Analytical Reading: COMM 301; ENGL 380, 423, 488; GEOG 380; HIST 400; NSCI 375; PHIL 381; Business/Professional Skills: ACCT 201; BLAW 220; COMM 334, 335, 344; JOUR 370; MKTG 300, 330.

Computer Applications: CECS 174; JOUR 331; MGMT 426; NSCI 200; IS 300; SOC 260;
Creative Writing: ENGL 404, 405, 406, 407; FEA 304, 404; THEA 380;
Intercultural Communication: ANTH 412, 413; COMM 330; MKTG 480;
Visual Communication: ET 170; GEOG 200; JOUR 305; MAE 172;
Area IV: Practical Writing (3 units): ENGL 491 (1 or more units), 492A or B (2 or more units). No grade in ENGL 491 will be assigned without an approved portfolio, as indicated in Paragraph 6, General Requirements.

Graduate Programs

The Department of English offers two graduate degrees, an M.A. in English and an MFA in Creative Writing. Teaching assistantships are available in both. In addition, the Department’s tutoring program, the Writer’s Resource Lab, employs a number of graduate and undergraduate students each semester. Application information may be obtained from the Department office, (562) 985-4223.

Master of Arts in English (code ENGLMA01)
The Department of English offers graduate study leading to the Master of Arts degree. The candidate must satisfy the general requirements stated in this Catalog as well as the specific departmental requirements stated here and, more fully, in the Master of Arts brochure issued by the department (copies of which are available upon request). Applicants must submit to the University’s Office of Admissions and Records a graduate application (available at that office or on-line). Applicants must also submit two sets of transcripts from all colleges and universities attended. One set must be submitted to the Office of Enrollment Services and another set must be sent directly to the Department of English. The deadline for submitting an application for Fall semester is May 1; the deadline to apply for Spring is October 15.

Prerequisites
An applicant may be admitted to the M.A. program in English only after satisfying University requirements for admission and the following prerequisites to this degree:
1. A Bachelor of Arts degree in English from an accredited institution or a bachelor’s degree from an accredited institution with 24 units of upper-division English courses that offer a broad coverage of English and American literature.
Any deficiencies will be determined by the Department Graduate Advisor in consultation with the Graduate Studies Committee. Courses used to remove course or unit deficiencies may not be included in the M.A. program.
2. A 3.2 GPA in upper-division English courses.
3. All applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must receive a minimum score of 600 on the Test of English as a Foreign Language (TOEFL) (applicants taking the
Computer-Based Test of English as a Foreign Language must present a score of 250 or above; applicants taking the Internet-Based Test of English as a Foreign Language must present a score of 100 or above).

**After Admission to Program**

Students must be formally admitted to the program before they can enroll in ENGL 696, which is corequisite or corequisite to all other 600-level courses.

**Advancement to Candidacy**

1. The student must satisfy the general requirements of the University, including fulfilling the Graduation Writing Assessment Requirement (GWAR).
2. The student’s M.A. program must be approved by a faculty committee, the Department Graduate Advisor, and the Department Chair before submission to the Associate Dean of Liberal Arts.
3. Advancement is possible after completion of six units toward the MA degree. Students must be advanced to candidacy at least one semester before they intend to graduate, before the deadline to file for graduation that semester. If a student is writing a thesis, he or she must be advanced before any thesis units are taken.

**Requirements**

1. A minimum of 30 units of graduate and approved upper-division courses (see MA Handbook and websites for list of approved undergraduate courses) including 24 units in English;
2. A minimum of 20 units in the 600 series in English at this University, including ENGL 696, which is to be completed before or concurrently with other 600-series courses. A graduate student will not be granted credit for 600-series courses unless admitted to the M.A. program;
3. A minimum of one seminar in the 600 series in English literature before 1800;
4. A foreign language requirement, which may be fulfilled in one of the following ways:
   A. completing college course work in a foreign language equivalent to sophomore proficiency (normally 201B at this University) with a “C” or better;
   B. completing college course work in a foreign language equivalent to freshman proficiency (normally 101B at this University) with a “C” or better and completing either ENGL 550 or ENGL 551 with a “B” or better;
   C. passing a special examination or demonstrating native proficiency in any foreign language accepted by the Graduate Studies Committee;
5. Successful completion of a final comprehensive examination in a specified specialty area. (Students who fail the examination may retake it once only.) A thesis may be written in lieu of the examination;
6. Appropriate filing for Graduation Check for Diploma.

**Master of Fine Arts in Creative Writing (code ENGLMF01)**

The Master of Fine Arts degree in Creative Writing is the recognized terminal degree which offers the minimum professional training deemed necessary by the major schools in the United States for university and college teaching and for positions in the publishing industry. It is also the degree most frequently held by professional writers.

The Department of English at California State University, Long Beach is a fully accredited program that meets the standards of the State of California.

**Criteria for Admission to the Program**

1. Students applying for admission to the MFA degree program generally have completed a bachelor’s or master’s degree in English from an accredited institution with a 3.0 GPA in upper-division English courses, most university admission requirements, and submit evidence of creative ability in fiction or poetry (10 pages poetry, 20-30 pages fiction). For each annual cycle, applications are due by February 15, when review will begin.
2. When an undergraduate degree has been completed in a program having different requirements from those of CSULB or in some field other than English, additional preparation may be required before the student can be considered for classified status in the degree program.
3. At the time of the student’s conditional classification into the program, an examining diagnostic committee consisting of at least two instructors in the student’s field of specialization and at least one other faculty member must approve and evaluate the student’s work no later than the end of his/her first full year in residence and judge whether the student should continue in the program.
4. In order to obtain a full classified status, the student must obtain satisfactory evaluation from his/her committee at the end of the first full year in residence. Both the student’s coursework and the student’s portfolio will be evaluated.

The appeals procedure for unfavorable portfolio evaluation is as follows:

If a student feels that his/her work has been unfairly evaluated, that student has recourse any time to discuss the matter informally with the MFA Coordinator in order to resolve the issue. If the issue cannot be resolved on that basis, the following procedure shall be followed:

A. The student shall present a written appeal to the MFA Coordinator.
B. Within ten (10) working days of receipt of a written appeal by a student, the MFA Coordinator shall refer the appeal to an ad hoc committee consisting of three tenured creative writing faculty not involved with the issue.
C. The committee shall meet in formal sessions holding hearings at separate times for the student and for the faculty involved to gather information and evidence relevant to the issue.
D. After deliberation, the committee shall present its findings to the MFA Coordinator within thirty (30) working days from the origination of the committee. (Working days do not include periods of time between semesters.)
E. The MFA Coordinator shall inform the concerned student in writing of the committee’s decision.
5. Advancement to candidacy
   A. Attain fully classified status.
   B. Remove all undergraduate deficiencies as determined by the graduate advisor, the department chair, and the dean of graduate studies.
   C. Fulfill the OWAR.
   D. Submit a program of courses for approval by the student's faculty advisor.

6. Up to 24 units of credit from a Master of Arts program in Creative Writing may be acceptable after review and approval by the faculty evaluation committee.

7. Requirements for the Master of Fine Arts in Creative Writing
   A. The MFA degree is a sixty-unit degree normally requiring full-time residency. Course requirements are arranged according to the following structure:
   - Core Courses: (39 units chosen on the basis of consultation with a faculty advisor, to include): ENGL 505A,B or 506A,B; 509A,B; 604A,B; 500; 550; 560; 690; 698.

B. Both fiction and poetry specializations share a common core of courses which offer study in literary history, theory, and research. The remainder of the course offers students the opportunity to develop additional skills in their particular area of related interest. The program culminates in a major creative project (novel, short story collection, or poetry collection) of publishable quality.

Courses (ENGL)

To encourage clarity and uniformity in the reporting of scholarship, students in all English courses are expected to learn and use standard methods of citation and documentation. For literary and critical study, the standard format is the documentation system prescribed by the Modern Language Association, detailed in the MLA Handbook and simplified in many beginning textbooks in literary study. At the instructor's discretion, other methods may be used in courses in composition, technical communication, literary studies, and other classes required for the English Education option.

LOWER DIVISION

Please check the section on "Application Procedures and Admissions Requirements" of this Catalog for CSULB system-wide writing proficiency requirements.

1. Writing Skills (3)
   Prerequisite: Students who score 147 or below on the English Placement Test and who have not taken equivalent courses in another department are eligible for enrollment in this course.
   Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence, and paragraph. Methods for developing and organizing ideas in coherent essays. Conventional mechanics, spelling, and grammar.

Does not count toward graduation, but does count toward course load.
Credit/No Credit grading only.

1. E. Writing Skills (3)
   Students who score 147 or below on the English Placement Test and who have not taken equivalent courses in another department, are eligible for enrollment in this course.
   Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence and paragraph. Methods for developing and organizing ideas in coherent essays. Conventional mechanics, spelling, and the grammar of standard written English.

Does not count toward graduation, but does count toward course load. Credit/No Credit grading only.

100. Composition (3)
   Prerequisites: A recorded total score of 151 or above on the English Placement Test, or credit in ENGL 1 (or its equivalent) or consent of the instructor.
   Writing, revising, and editing non-fiction prose, with emphasis on exposition and argument. Critical reading strategies for research. Satisfies the baccalaureate degree requirement for one course in written composition in English.
   Not open for credit to students with credit in ENGL 100W, ASAM 100, AFRS 100, CHLS 104.

101. Composition (3)
   Prerequisite: ENGL 100.
   Writing expository prose, with emphasis on research paper.

102. Critical Reading and Writing (3)
   Prerequisite: ENGL 100 with a minimum grade of "C-".
   Analytical reading and persuasive writing with emphasis on logic and argumentation.
   Not open for credit to students with credit in ENGL 200.

180. Appreciation of Literature (3)
   Prerequisite/Co-requisite: One Foundation course.
   Study of works representing the scope and variety of themes and types of imaginative literature. Introduction to the major literary genres and to methods of critical expository writing.
   Not open for credit to students with credit in ENGL 184.

204. Introduction to Creative Writing: Creative Nonfiction (3)
   Prerequisites: ENGL 100; completion of GE Foundation requirements.
   Practice in the basic elements of creative nonfiction, including description, dialog, and framing.

205. Introduction to Creative Writing: Fiction (3)
   Prerequisites: ENGL 100; completion of GE Foundation requirements.
   Practice in the basic elements of fiction writing: character sketch, plot development, description, dialog.

206. Introduction to Creative Writing: Poetry (3)
   Prerequisites: ENGL 100; completion of GE Foundation requirements.
   Theory and techniques of poetry. Practice in creative work, with group discussions and individual conferences.

250A,B. Survey of English Literature (4,4)
   Prerequisites: ENGL 100; completion of GE Foundation requirements.
   Representative selections from English writers to and since the late eighteenth century.

270A,B. Survey of American Literature (4,4)
   Prerequisites: ENGL 100; completion of GE Foundation requirements.
   Representative selections from American writers to and since about 1865.

2009/2010 CSULB Catalog • English • 363
283. Science Fiction (3)
The literature of science fiction, from Frankenstein and H.G. Wells to the present, emphasizing the relevance of science and technology to literary fantasy.

UPPER DIVISION

ENGL 100 or its equivalent is a prerequisite for all upper division courses.

An "F" grade for a course number means the course is acceptable for Interdisciplinary Credit in General Education.

300. Advanced Composition (3)
Prerequisites: Completion of GE Foundation requirements and upper-division standing.
Study and apply rhetorical strategies of invention, arrangement, and style to write expository, analytic, and argumentative prose; examine how evidence is produced and presented in genres from different academic disciplines, from civic and workplace literacy, and from popular media.

301A. English Proficiency (3)
Prerequisites: ENGL 100 or equivalent.
Intermediate course in English usage with emphasis on building proficiency in oral and written language.
Enrollment limited to students needing language development beyond skills acquired in ENGL 100, as assessed by scores on the Writing Proficiency Exam. May be repeated to a maximum of 6 units. Not applicable to credit in any degree program of the Department of English.

301B. English Proficiency (3)
Prerequisites: ENGL 100 or equivalent.
Advanced course in English usage with emphasis on building proficiency in written language.
Enrollment limited to students needing language development beyond skills acquired in ENGL 100, as assessed by scores on the Writing Proficiency Exam. May be repeated to a maximum of 6 units. Not applicable to credit in any degree program of the Department of English.

303. Applied Composition: Explorations in Children's Writing (4) F,S
Advanced composition course incorporating the study of the evolution of written discourse and emergence of rhetorical structures in the writing of preadolescents.
Includes a 40-hour tutorial/research component. Discussion/Laboratory.

310. Applied Composition (4)
Prerequisite: ENGL 101 or 317 or a baccalaureate degree.
Intensive practice in writing, correcting, and evaluating compositions, with specific reference to contemporary classroom situations and problems.
Includes a 30-hour tutorial component in which students work as composition tutors. Required for all English Education majors.

317. Technical Communication (3)
Prerequisites: Completion of GE Foundation requirements, upper-division standing, and a previous composition course, i.e., ENGL 100, 101, 102, 300, or equivalents.
Expository writing on technical subjects dealt with in industry, science, government, and the academy. Introduction to long and short forms including reports, proposals, manuals, and journal articles, emphasizing the analyst's formal paper or technical report.

318I. Theory of Fiction and Film (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Examination of narrative methods and conventions of American and British fiction and film; consideration of relationships between artistic structure of fiction and film; study of theoretical and practical approaches to fiction and film.
Same course as FEA 318I. Not open for credit to students with credit in FEA 318.

320. English Grammar (4)
Advanced study in the principles of English grammar.

327. Essentials of the English Language (3)
Prerequisite: ENGL 100 or its equivalent.
Introduction to the essentials of English language study for credential candidates, including the history of the English language, key models of English grammar, and applied topics ranging from semantics and dialect study to current research in the teaching of English.
Not open for credit to students with credit in LING 327.

337. Technology in the English Classroom (3)
Focuses on issues in the use of computer-based technologies in society, basic components and operations of computer-based technology, computer applications/programs, and video tape/film for teaching problem-solving, critical thinking, writing, and literature.
Meets Title 5 computer-education requirements for the Single Subject, Clear Teaching Credential in English and the Multiple Subject, Clear Teaching Credential with English Concentration.

340. American Indian Literature (3)
Prerequisite: Completion of GE Foundation requirements.
Analysis of the written and oral literary traditions developed by American Indians. Range of works studied: oral history, tales, myths, song, prayer, poetry, short story, and novel.
Same course as AIS 340. Not open for credit to students with credit in AIS 340.

359. Postcolonial Literature (3)
Prerequisite: Upper-division status.
Survey of English language writers from former colonies of Great Britain who have made major contributions in all literary genres.

363. Shakespeare I (4)
Prerequisites: ENGL 100; completion of GE Foundation requirements.
Principal plays of Shakespeare.

372I. Comedy in the United States (3)
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing.
Study of the history of American comedy from its beginnings to the present. Focuses on literature, but also on American traditions of humor on stage, in film, in song, and in signs. Explores theories of comedy.

375. American Ethnic Writers (3)
Prerequisites: ENGL 100; completion of GE Foundation requirements.
Survey of American writers of various non-European ethnic backgrounds who have made major contributions in all literary genres.

385. Approaches to English Studies (4)
Prerequisite: ENGL 100 or equivalent.
Advanced course in English Studies covering research methods: approaches to literary, rhetorical, and pedagogical topics; critical and literary terminology, genre, and advanced skills in writing and analysis.
Note: English majors must consult with their advisors because this course should be taken by the first semester of the junior year.

382. Women and Literature (3)
Prerequisite: Completion of Foundation requirements.
Survey of literature by women authors writing in English, across a range of historical periods; examination of works in various genres.
that present the complexity of women’s lives and the challenges of female authorship; exploration of feminist critical approaches.

Same course as WGSS 382. Not open for credit to students with credit in WST 382 or WGSS 382.

384. Principles of Literary Study (3)
Prerequisite: ENGL 180.
Fundamental issues of literary study such as literary history, literary forms; themes and conventions; major critical approaches. Intensive written practice in literary analysis.

385. The Short Story (3)
Prerequisites: ENGL 100; completion of GE Foundation requirements.
Short story as a literary genre, with emphasis on analysis of individual stories.

386. Poetry (3)
Prerequisites: ENGL 100; completion of GE Foundation requirements.
Poetry as a literary genre, with emphasis on analysis of individual poems.

399. Modern Drama (3)
Continental, English, and American drama from ibsen to the present.

404. Creative Writing: Creative Nonfiction (3)
Prerequisite: ENGL 204 or consent of instructor.
Writing creative nonfiction, with a detailed study of published models and with an emphasis on the creative process. May be repeated to a maximum of 6 units.

405. Creative Writing: Short Story (3)
Prerequisite: ENGL 205 or consent of instructor.
Writing short stories, with a detailed study of published models and with emphasis on the creative process. May be repeated to a maximum of 6 units.

406. Creative Writing: Poetry (3)
Prerequisite: ENGL 206 or consent of instructor.
Writing poetry; with a detailed study of published models with emphasis on the creative process. May be repeated to a maximum of 6 units.

407. Creative Writing: Novel (3)
Prerequisite: Consent of instructor.
Writing fiction, with a detailed study of published models and with emphasis on the creative process. May be repeated to a maximum of 6 units.

410. Theory of Writing and Literacy (3)
Prerequisites: ENGL 309 or 310 or consent of instructor.
Focuses on several cross-disciplinary theories of producing written discourse. Studies how writing is learned, taught, viewed by the public, and used in social and academic interchange.

411. Research Methods in Rhetoric and Composition (4)
Introduction to interdisciplinary research methods in Rhetoric and Composition. Focuses on methods that have been motivating research since 1985, including archival, case study, ethnographic, historiographic, and teacher research. Intensive practice in conducting and writing research for interdisciplinary and/or public audiences.

416. Technical Writing (4)
Prerequisite: Completion of GE Foundation requirements.
Introduction to writing of technical and business communication formats such as manuals, brochures, booklets, and newsletters. Topics include principles of sentence-level clarity and style, factual accuracy, and of document design and production in professional settings.

417. Proposal Writing (3)
Prerequisite: Completion of GE Foundation requirements.
Writing of proposals in their various forms as letters, memos, grant applications.

418. Manual Writing (3)
Prerequisite: Completion of GE Foundation requirements.
Writing of original manuals of various types in technical and professional fields. Company publications will be studied as models.

419. Writing in Science, Social Science, and Technology (3)
Prerequisite: Completion of GE Foundation requirements.
Introductory practice in writing on topics in science and literature. Contemporary examples will be studied as models.

421/521. Semantics (3)
Study of meaning in language.
Same course as LING 421. Not open for credit to students with credit in LING 423.

426/526. History of the English Language (3)
Development of the English language from its beginnings to the present day.
Same course as LING 426. Not open for credit to students with credit in 426.

432. Arthurian Literature: Medieval to Modern (3)
Examination of the genesis, development, and popularity of stories about Sir Lancelot and his knights from the earliest medieval texts to modern treatments of the legend.

435. Teaching Composition (3)
Prerequisite: Consent of instructor.
Intensive examination and study of composition teaching practices, research and evaluation in public schools, including community colleges.

436. Theories and Practices of Reading (3)
Intensive investigation of theories and practices of reading with attention to how experienced and inexperienced readers construct texts.

437. Technology and Teaching Language Arts (3)
Prerequisites: ENGL 100 and 337 or consent of instructor.
Intended for practicing teachers. Methods of integrating computer-based technology in instruction of writing, reading, and literature. Assessment and implementation of technological resources in place at students’ school sites or other settings. Hybrid course with face-to-face and electronic class interaction.

441. Women Writers of the Harlem Renaissance (3)
Prerequisites: ENGL 100 and upper-division status or consent of instructor.
Explores literature and lives of women authors of American Harlem Renaissance Period of 1920s. Examines critical reception, relative obscurity, and current re-discovery of these writers. Utilizes theoretical essays, biographical narratives, historical documents, and media images.
Same course as WGSS 441. Not open for credit to students with credit in WST 441 or WGSS 441.

442. Sexing Chicana Literature (3)
Prerequisites: ENGL 100 and upper-division status or consent of instructor.
Analyzes how Chicana authors explore race, class, and gender. Focuses on use of sexuality, particularly with regard to cultural and literary stereotypes vs. experience and aesthetic practice. Themes will include desire, identity, empowerment through “traditional” roles, and violence and the body.
Same course as WGSS 442. Not open for credit to students with credit in WST 442 or WGSS 442.

2009/2010 CSULB Catalog • English • 365
444. Literature and Environment (3)
Prerequisites: Completion of GE Foundation, one or more Explorations courses, and upper-division status.
Literature that focuses on the relationship between humans and the environment. Emphasis on how environmental themes represent nature, raise awareness of ecological issues, and encourage social change. Service-learning requirement connects environmental literature with activism and community involvement.

451/554. Medieval Literature of the British Isles (3)
Representative selections of Old and Middle English prose and poetry read for the most part in modern English, including Beowulf, the romance, medieval drama, Chaucer, and the ballad.

452/552. Literature of the Renaissance (1500-1603) (3)
Prose and poetry of Marlowe, Sidney, Raleigh, Spenser, and other predecessors and contemporaries of Shakespeare, noting the influence of Humanism and the emergence of literary identity.

453/553. Literature of the Late Renaissance (1603-1660) (3)
Prose and poetry of Marlowe, Jonson, and their contemporaries. 

455/555. English Literature of the Enlightenment (1660-1798) (3)
Prose and poetry of Swift, Dryden, Pope, Johnson, Boswell, and their contemporaries, with emphasis on major satires such as Gulliver’s Travels and The Rape of the Lock.

456/556. English Literature of the Romantic Period (1798-1832) (3)
Prose and poetry of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, their contemporaries, emphasizing the Romantic spirit, theories of literary art, and the concept of the self.

458/558. English Poetry and Prose of the Victorian Age (1832-1900) (3)
Prose and poetry of Tennyson, Browning, Arnold, Carlyle, Mill, and others, emphasizing literary, social, and political issues, and religious controversies.

459/559. English Literature of the Twentieth Century (1900-Present) (3)
Prose and poetry of Shaw, Conrad, Yeats, Lawrence, Joyce, Woolf, and others, emphasizing artistic experimentation and the development of modern value systems.

462/562. Chaucer (3)
Works of Geoffrey Chaucer in Middle English.

463. Shakespeare II (3)
Prerequisite: ENGL 363.
Advanced study of some of the plays of Shakespeare.

465/566. Irish Literature in English (3)
Major Irish authors from the Celtic Revival to the present. The literature will be placed in its historical and political contexts, paying particular attention to the relationship between politics and literature, the status of women, and questions of national identity.

467A/B.567A.B. The English Novel (3.3)
History and development of long prose fiction in the British Isles to and since 1832.

468/568. English Drama (3)
Readings from the history of English drama, excluding Shakespeare, including Marlowe, Jonson, and Restoration comedy.

469. Critical Studies in Major English Writers (4)
Prerequisites: At least junior standing and 12 units of upper-division English (excluding ENGL 360).
Intensive study of one to three major authors.

May be repeated to a maximum of 8 units with different authors, but no more than 4 units may be used to satisfy requirements for English major. Topics to be announced in the Schedule of Classes.

470. American Ethnic Literatures (3)
Prerequisite: ENGL 375 or consent of instructor
Advanced course in the examination of issues in the field of American ethnic writing.

472/572. American Literature: 1820-1865 (3)
Major authors and works, along with newly recovered texts, from the period that is often called the "American Renaissance." 

473/573. American Literature: 1865-1918 (3)
Developments in poetry, the novel, the short story, and non-fiction prose in the United States between the Civil War and World War I.

474/574. Twentieth-Century American Literature (3)
American literature from about 1914 to the present.

475/575. The American Short Story (3)
History and development of the short story and its criticism in the United States.

476A.B.576A.B. American Poetry (3.3)
History and development of poetry and its criticism in the United States to and since 1945.

477A/B.577A.B. The American Novel (3.3)
History and development of the novel and its criticism in the United States to and since the 1950s.

478/578. American Drama (3)
History and development of drama and its criticism in the United States.

479. Critical Studies in Major American Writers (4)
Prerequisites: At least senior standing and 12 units of upper-division English (including ENGL 360).
Intensive study of one to three major American authors.
May be repeated to a maximum of 8 units with different authors, but no more than 4 units may be used to satisfy the requirements for the English major. Topics to be announced in the Schedule of Classes.

481. Children’s Literature (3)
Survey of literature suitable for children.

482. Literature for Adolescents (4)
Prerequisite: One college course in literature.
Survey of literature suitable for adolescents. Includes a 20 hour field experience in which students work with local secondary school students as reading mentors.
Required of all English Education majors.

484/584. Contemporary Literary Theory (3)
Study of the principal theories of literature including structuralism, hermeneutics, theory of genre, and theory of criticism.

488. Topics in Rhetoric and Writing Studies (3)
Prerequisite: ENGL 100
Intensive study of a special topic in the field of rhetoric, composition, and writing studies.
May be repeated to a maximum of 12 units with different topics in the same semester, but no more than 8 units may be applied to the English major. Topics to be announced in the Schedule of Classes.

489. Critical Studies in Major Topics in Literatures Written in English (4)
Intensive study of a major topic in literatures written in English.
May be repeated to a maximum of 8 units with different topics in different semesters, but no more than 4 units may be used to satisfy the requirements for the English major. Topics to be announced in the Schedule of Classes.

366 • English • 2009/2010 CSULB Catalog
491. Applied Technical Writing (1-3)
Prerequisite: Admission to Certificate Program in Technical and Professional Communication.
Writing and editing technical reports and papers. Independent production of a report in a technical or scientific area under faculty supervision.
May be repeated to a maximum of 4 units.

492A-B. Internship Technical - Professional Writing and Editing (1-3)
Prerequisite: Admission to Certificate Program in Technical and Professional Communication.
At least 90 hours writing and editing with cooperating agencies and companies on- and off-campus under direction and with evaluation of faculty in consultation with supervisors of the participating agency or company.
May be repeated to a maximum of 4 units.

496. California Writing Project (1-4)
Specifically designed for teachers, prospective teachers, school administrators and writers. Successful practices in teaching writing; writing and responding to others' writing; theory and research behind successful literacy training.
CSULB-South Basin Writing Project is an affiliate of both the California and National Writing Projects.

497. Directed Studies in Composition (3)
Prerequisite: One upper-division writing course in English or consent of instructor.
Theory and practice of writing and language instruction. Recommended for prospective K-12 and college-level teachers. On-site participation in an educational setting required as a basis for research project.

498. Topics in English (3)
Intensive exploration of topics in language and literature. May be repeated to a maximum of 12 units with different topics in the same semester, but no more than 8 units may be applied to the English major. Topics to be announced in the Schedule of Classes. Course fee may be required.

499. Directed Studies (1-3)
Prerequisite: Consent of instructor.
Independent study under direction of a faculty member. May be repeated to a maximum of 4 units. Not applicable toward the Master of Arts in English.

GRADUATE LEVEL
See Comparative World Literature and Classics Department for other course offerings applicable to the M.A. in English.

505A. Seminar in Fiction Writing (4)
Prerequisite: Admission to the MFA in Creative Writing.
Discussion, criticism, and detailed evaluation of works in progress. Letter grade only (A-F).

505B. Seminar in Fiction Writing (4)
Prerequisite: Admission to the MFA in Creative Writing and ENGL 505A.
Discussion, criticism, and detailed evaluation of works in progress. Letter grade only (A-F).

506A. Seminar in Poetry Writing (4)
Prerequisite: Admission to the MFA in Creative Writing.
Discussion, criticism, and detailed evaluation of works in progress. Letter grade only (A-F).

506B. Seminar in Poetry Writing (4)
Prerequisites: Admission to the MFA in Creative Writing and ENGL 506A.
Discussion, criticism, and detailed evaluation of works in progress. Letter grade only (A-F).

510.410. Theories of Writing and Literacy (3)
Prerequisites: ENGL 309 or 310 or consent of instructor.
Focuses on several cross-disciplinary theories of producing written discourse. Studies how writing is learned, taught, viewed by publics, and used in social and academic interchange. Letter grade only (A-F).

511.411. Research Methods in Rhetoric and Composition (4)
Introduction to (inter)disciplinary research methods in Rhetoric and Composition. Focuses on methods that have been motivating research since 1965, including archival, case study, ethnographic, and teacher research. Intensive practicum in conducting and writing research for (inter)disciplinary and/or public audiences.
Letter grade only (A-F).

523.423. Semantics (3)
Study of meaning in language. Letter grade only (A-F).

526.426. History of the English Language (3)
Development of the English language from its beginnings to present day.
Letter grade only (A-F).

535. Theories and Practicas in Composition (3)
Prerequisite: ENGL 415 or consent of instructor.
Focuses on formation of composition studies in the last half of the 20th century. Studies relationships among theories, practices, and research concerns with the teaching of writing, particularly at the college level.
Letter grade only (A-F).

537. Special Topics (3)
Offered for in-service teachers. Emphasis on teaching and research in special, timely topics related to the teaching of English.
May be repeated to a maximum of 6 units with different topics in the same semester. Topics to be announced in the Schedule of Classes. Letter grade only (A-F).

550. Old English Language and Literature (4)
Prerequisite: Consent of instructor.
Introductory and other representative selections from Anglo-Saxon literature in the original language.
Letter grade only (A-F).

551. Middle English Language and Literature (4)
Prerequisite: Consent of instructor.
Choas and other representative selections from Middle English literature in the original language.
Letter grade only (A-F).

552.452. Literature of the Renaissance (1500-1603) (3)
Prose and poetry of Marlowe, Sidney, Raleigh, Spenser and other predecessors and contemporaries of Shakespeare, noting the influence of Humanism and the emergence of literary identity. Letter grade only (A-F).

553.453. Literature of the Late Renaissance (1603-1660) (3)
Poetry and prose (chiefly non-dramatic) of Milton, Bacon, Jonson, Donne and the "Metafysicals" and their contemporaries. Letter grade only (A-F).

2009/2010 CSULB Catalog • English • 367
554/451. Medieval Literature of the British Isles (3)
Representative selections of Old and Middle English prose and poetry read for the most part in modern English, including Beowulf, the romance, medieval drama, Chaucer, and the ballad.
Letter grade only (A-F).

555/455. English Literature of the Enlightenment (1660-1798) (3)
Prose and poetry (chiefly non-dramatic) of Swift, Dryden, Pope, Johnson, Boswell, and their contemporaries, with emphasis on major satirists such as Gulliver's Travels and The Rape of the Lock.
Letter grade only (A-F).

556/456. English Literature of the Romantic Period (1798-1832) (3)
Poetry and prose (chiefly non-dramatic) of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, and their contemporaries, emphasizing the modern Romantic spirit, theories of literary art, and the concept of the self.
Letter grade only (A-F).

558/458. English Poetry and Prose of the Victorian Age (1832-1900) (3)
Poetry and prose of Tennyson, Browning, Arnold, Carlyle, Mill, and others, emphasizing literary, social and political issues, and religious controversies.
Letter grade only (A-F).

559/459. English Literature of the Twentieth Century (1900-Present) (3)
Prose and poetry of Shaw, Conrad, Yeats, Lawrence, Joyce, Woolf, and others, emphasizing artistic experimentation and the development of modernist systems.
Letter grade only (A-F).

562/462. Chaucer (3)
Works of Geoffrey Chaucer in Middle English.
Letter grade only (A-F).

566/466. Irish Literature in English (3)
Major Irish authors from the Celtic Revival to the present. The literature will be placed in its historical and political contexts, paying particular attention to the relationship between politics and literature, the status of women, and questions of national identity.
Letter grade only (A-F).

567A.B.467A.B. The English Novel (3,3)
History and development of the English novel in the British Isles to and since 1832.
Letter grade only (A-F).

568/468. English Drama (3)
Readings from the history of English drama, excluding Shakespearean works, including Marlowe, Jonson, and Restoration comedy.
Letter grade only (A-F).

572/472. American Literature: 1820-1865 (3)
Major authors and works, along with newly recovered texts, from the period that is often called the "American Renaissance."
Letter grade only (A-F).

573/473. American Literature: 1865-1918 (3)
Developments in poetry, the novel, the short story, and non-fictional prose in the United States between the Civil War and World War I.
Letter grade only (A-F).

574/474. Twentieth-Century American Literature (3)
American literature from about 1914 to the present.
Letter grade only (A-F).

575/475. The American Short Story (3)
History and development of the short story and its criticism in the United States.
Letter grade only (A-F).

576A.B.476A.B. American Poetry (3,3)
History and development of poetry and its criticism in the United States to and since 1945.
Letter grade only (A-F).

577A.B.477A.B. The American Novel (3,3)
History and development of the novel and its criticism in the United States to and since 1920s.
Letter grade only (A-F).

578/478. American Drama (3)
History and development of drama and its criticism in the United States.
Letter grade only (A-F).

584/484. Contemporary Literary Theory (3)
Study of the principal theories of literature including structuralism, deconstruction, theory of genre, and theory of criticism.
Letter grade only (A-F).

590. Directed Reading (3)
Students are assigned a reading list developed with the assistance of faculty. Works are discussed with the instructor during a series of conferences. Comprehend paper due at end of semester.
Letter grade only (A-F).

598. Directed Studies (1-3)
Prerequisites: Baccalaureate degree, consent of instructor. Independent creative writing activity under the supervision of a creative writing faculty member.
Letter grade only (A-F).

605A. Advanced Seminar in Fiction Writing (4)
Prerequisites: Admission to the MFA in Creative Writing, ENGL 505A, and 505B.
Discussion, criticism, and detailed evaluation of works in progress.
Letter grade only (A-F).

605B. Advanced Seminar in Fiction Writing (4)
Prerequisites: Admission to the MFA in Creative Writing, ENGL 505A, 505B, and 605A.
Discussion, criticism, and detailed evaluation of works in progress.
Letter grade only (A-F).

606A. Advanced Seminar in Poetry Writing (4)
Prerequisites: Admission to the MFA in Creative Writing, ENGL 506A, and 506B.
Discussion, criticism, and detailed evaluation of works in progress.
Letter grade only (A-F).

606B. Advanced Seminar in Poetry Writing (4)
Prerequisites: Admission to the MFA in Creative Writing, ENGL 506A, 506B, and 606A.
Discussion, criticism, and detailed evaluation of works in progress.
Letter grade only (A-F).

652. Seminar in the English Renaissance (4)
Prerequisite/Co-requisite: ENGL 665.
Intensive studies in the literature of the period, chiefly Elizabethan.
Letter grade only (A-F).

368 • English • 2009/2010 CSULB Catalog
653. Seminar In the Age of Milton (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in English literature of the Stuart and Commonwealth periods, including Milton.  
Letter grade only (A-F).

655. Seminar in Restoration and Eighteenth-Century Literature (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in English literature of the Restoration and eighteenth century.  
Letter grade only (A-F).

656. Seminar in Romantic Literature (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in English literature of the Romantic period.  
Letter grade only (A-F).

657. Seminar in Victorian Literature (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in English literature of the Victorian period.  
Letter grade only (A-F).

659. Seminar in Twentieth-Century English Literature (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in English literature from about 1900 to the present.  
Letter grade only (A-F).

671. Digital Rhetoric (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies of consumption and production of digital media.  
Analyzes relationships among rhetoric, writing, cultural studies, and technology; examines means of production transforming literate practice in humanities; and engages students in writing with digital media.  
Letter grade only (A-F).

672. Seminar in the Nineteenth-Century American Renaissance (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in American literature from about 1820 to about 1865.  
Letter grade only (A-F).

673. Seminar in American Realism (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies in the development of realism in American literature.  
Letter grade only (A-F).

674. Seminar in Twentieth-Century American Literature (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive studies of twentieth-century American authors.  
Letter grade only (A-F).

681. Seminar in Major Authors (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive study of the works of one to three specific major authors.  
Not open for credit to students with credit in ENGL 496 or 497 covering the same author. May be repeated to a maximum of 12 units with different authors in the same semester. Topics to be announced in the Schedule of Classes. May be repeated to a maximum of 12 units in the same semester. Letter grade only (A-F).

683. Seminar in Special Topics in English Studies (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive explorations of topics in English studies.  
May be repeated to a maximum of 8 units with different topics in the same semester. Topics to be announced in the Schedule of Classes. Letter grade only (A-F).

684. Seminar in Advanced Literary Theory (4)  
Prerequisite: Completion of ENGL 696.  
Intensive study in one or more of the principal theories of literature.  
Letter grade only (A-F).

685. Seminar in Rhetorical History and Theory (4)  
Prerequisite/Corequisite: ENGL 696.  
Intensive study of rhetorical history and theory from ancient to contemporary times.  
Letter grade only (A-F).

696. Seminar in Literary Criticism and Research (4)  
Study of major critical approaches to literature and basic literary research methods. Introduction to the discipline of literary criticism, various critical methodologies, techniques of bibliography and research, and important literary reference works. Writing of critical research papers.  
Students not allowed to take ENGL 696 unless admitted to M.A. program. (English M.A. candidate may not be enrolled in any other 600 course without completion of or concurrent enrollment in ENGL 696.) Letter grade only (A-F).

697. Directed Research (1-3)  
Prerequisites: ENGL 696 and consent of instructor.  
Individual research or intensive study under the guidance of a faculty member.  
Letter grade only (A-F).

698. Thesis (1-6)  
Prerequisites: ENGL 696 and consent of instructor.  
Planning, preparation, and completion of a thesis under supervision of a faculty committee.  
Must be advanced to candidacy. Must be taken for a total of 6 units.

American Language Program  
American Language Program (ALP) courses are for non-native speakers of English. All courses are recommended for international students (students on F-1 visas). ALP courses are recommended for all other non-native speakers of English.

Courses (ALP)

145. American Language Advanced I (3)  
Prerequisite: Non-native speakers who score 137 or below on the English Placement Test, or 500 or below on the Exam in English as a Second Language, and who have not taken equivalent writing courses in another department, are eligible for enrollment.  
Counts toward elective credit for undergraduates. Does not count toward graduation for graduate students, but does count toward course load credit.  
Basic course in writing, offering intensive practice in every stage of the writing process. Writing strategies at the level of word, sentence, and paragraph. Conventional mechanics, spelling, and the grammar of standard edited written English.

2009/2010 CSULB Catalog • English • 369
150. American Language Advanced I (3)
Prerequisite: Non-native speakers who score 135-150 on the English Placement Test, or 501 through 559 on the Exam in English as a Second Language, or successful completion of ALI/ALP 146 with a grade of "C" or better.
Counts toward elective credit for undergraduates. Does not count toward graduation for Graduate students, but does count toward course load credit.
Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

American Language Institute
For students who need English language training prior to enrolling at CSULB, the American Language Institute provides professional instruction in all four language skills: reading, writing, listening and speaking. Conditional admission to CSULB is available for qualified students.
PLEASE NOTE: International students are subject to the same Graduation Writing Assessment Requirement (GWAR) and EPT/ELM requirements as are all CSULB students.
American Language Institute (ALI) courses are for non-native speakers of English. ALI courses are recommended for international students (students on F1 visas). ALP courses are recommended for all other non-native speakers of English.

Courses (ALP)

150. American Language Advanced I (3)
Prerequisite: Non-native speakers who score 135-150 on the English Placement Test, or 501 through 559 on the Exam in English as a Second Language, or successful completion of ALI/ALP 146 with a grade of "C" or better.
Counts toward elective credit for undergraduates. Does not count toward graduation for Graduate students, but does count toward course load credit.
Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

Career Possibilities
Environmental Analyst • Teacher • Ecologist • Geochemist
- Environmental Impact Report Writer • Community
Development Specialist • Urban Planner • Mass
Media (Journalism, Radio, Television) • Environmental
Advocate • Consultant • Public Relations • Public
Policy Administrator • Environmental Law •
Environmental Health • Environmental Economics
- Environmental Toxicology • Eco-friendly Business
(Some of these, and other careers, require additional
education or experience. For more information, see
www.careers.csulb.edu.)

Introduction
The Environmental Science and Policy degree
program is jointly housed in the College of Liberal
Arts and the College of Natural Sciences and Mathematics,
reflecting its inherent interdisciplinary nature.

Today’s environmental problems call for people who
are educated in more than one discipline, highly trained in
technical skills, and aware of the political, economic, and
social dimensions of environmental decisions. The B.A.
and B.S. degrees in Environmental Science and Policy
provide solid training in basic physical, biological, and social
sciences, and also address the human involvement in
environmental issues. This curriculum prepares students for
professional careers in Environmental Science and Policy
and for subsequent graduate study in M.A., M.S., Ph.D.,
and law degree programs.

In the narrowest sense, environmental science is
the study of the impact of human systems on physical
and biological systems, and the dependence on natural
resources by human systems. In a broader sense,
environmental science is the study of the interaction
and co-evolution of human, physical, and biological
systems. Natural science is the study of physical and
biological systems. Social science is the study of human
systems — economic systems, political systems, human
perceptions, and human interactions. Environmental
science requires knowledge of both natural and social
science. Environmental policy is concerned with the most
effective means of intervening to alter the pathways among
which natural and human systems co-evolve. Effective
intervention considers benefits and costs, uncertainties and
risks, limits of knowledge, and presupposes the purposes
of intervention, and the values from which the purposes
are derived. The purpose of environmental science and policy
is to design, evaluate, and implement policies that alter
the impact of human systems on physical and biological
systems, and the pathways by which natural and human
systems co-evolve.

Both Bachelor of Science and Bachelor of Arts
degrees are offered, as well as a minor. Most required courses
are offered in related disciplines in the College of Natural
Sciences and Mathematics and the College of Liberal Arts.
The curriculum fosters cross-disciplinary communication
in the required courses common to both degree programs,
and particularly in the Environmental Science and Policy
courses (ENP 200, 3001, 400).

The mix of required courses includes natural and social
sciences in both degree programs, while emphasizing
natural sciences in the B.S. program and emphasizing
social sciences in the B.A. program. Elective courses in the
B.S. program enhance the students’ knowledge in natural
sciences and computer/quantitative skills in the social
sciences. Elective courses in the B.A. program emphasize
applications of social science to environmental issues and
policy, while permitting students to further develop their
knowledge of natural sciences. The curricula of the two
degrees are designed to encourage and facilitate students
pursuing double majors or minors with departments in
natural or social science.

Career Paths
The Directors together with the Faculty are responsible
for advising majors in the Environmental Science and
Policy program. Majors are assigned to appropriate
advisees during their first semester in the program and are
encouraged to consult with their advisor every semester.
Students will be advised to select elective courses to
develop areas of interest and to further their career
objectives.

B.S. Degree: We advise majors to jointly major or minor
in anthropology, biology, chemistry, earth science, ecology,
economics, geography, geology, microbiology, or political
science. The B.S. degree requires an advanced level of
understanding of environmental systems, living systems, and
the role of chemicals in natural systems. Graduates are
trained for entry positions in industry and government
that require a high degree of specialization in technical
analyses in natural sciences, or quantitative and computer
methods in social sciences. Graduates with the B.S. degree
with a track in natural sciences will be qualified for graduate
programs (M.S. and Ph.D.) in biological sciences, geology
or chemistry, at most universities in the country. Graduates
with the B.S. degree with a social science track are qualified
to apply for the M.S. program in Environmental Health.
Sciences at UCLA, and subsequently the interdepartmental doctoral program in Environmental Science and Engineering degree at UCLA; the Ph.D. program in economics and environmental science at UC Santa Barbara; the Ph.D. program in Social Ecology at UC Irvine; and the M.A. and Ph.D. program in Energy and Resources at UC Berkeley.

B.A. Degree: We advise majors to jointly major or minor in anthropology, economics, geography, or political science, pursue the minor in journalism or the option in public relations in journalism, the minor in public administration in political science, or the major or minor in international studies, depending on the student's career goals and interests. Graduates are especially well prepared for positions in state and local government, private consulting firms, energy companies, news organizations, environmental advocacy groups, consulting firms, and public relations firms. Graduates are prepared to directly enter Ph.D. programs in economics and geography, as well as M.B.A. programs in environmental science and management, M.A. programs in economics or geography, and law school.

Bachelor of Arts in Environmental Science and Policy (code ES_PB01) (120 units)

The B.A. degree program emphasizes the social sciences, with a basic introduction to physical and biological sciences applied to natural systems. Required courses emphasize social sciences and include breadth in natural sciences. Elective courses include social sciences applied to environmental analysis and policy, and permit some additional coursework in natural sciences.

Lower Division: BIOL 200 (or 111 and 111L), 260; 3 units from CHEM 111A or 140 or GEOL 101; ECON 100, 101; ES P 200; GEOL 102, 104, 280; MATH 115 or 119A or 122.

Upper Division: BIOL 350; ECON 310; one course selected from ECON 462, 463, and 464; ES P 300I, 400; GEOG 481 or 485; one course selected from GEOG 442, 455, and 460; GEOL 300; one course selected from PSYC 320, 321, 322, or 323.

Additional 21 units of course work selected from the following approved list of courses, 12 units of which must be Upper Division or approved by the advisor.

Approved Courses: ANTH 140, 301, 491; BIOL 303; COMM 330; ECON 365, 403, 404, 434, 462, 463, 464, 485, 486; ENGR 502; ES P 400, 491, 499; GEOG 555, 560, 440, 442, 444, 445, 452, 455, 456, 458, 460, 473, 474, 475, 482, 486, 487A, 488; GEOL 100, 250, 303, 339, 410; HSC 422; HIST 481, 482; MATH 123, MATH 380 or STAT 380; MIRC 200; PHYS 105A or 151; PSYC 320, 321, 322, 323; SOC 300, 410, STAT 381.

Bachelor of Science in Environmental Science and Policy (code ES_PB01) (120 units)

The B.S. degree program emphasizes the physical and biological sciences, with a basic introduction to social science methods applied to human systems. Required courses emphasize natural sciences and include breadth in social sciences. Elective courses include physical and biological sciences, and technical courses in social sciences.

Lower Division: BIOL 111, 111L, 212, 212L, 213, 213L, 260;

CHEM 111A, 111B; ES P 200; GEOL 102, 104, 280; MATH 119A or 122, MATH 119B or 123.

Upper Division: BIOL 350; CHEM 327 (or 320A or 322A); ECON 300 (or both 100 and 101), 310; one course selected from ECON 462, 463, and 464; ES P 300I, 400; GEOG 481 or 485; GEOL 300I.

Additional 18 units of course work selected from the following approved list of courses, 8 units of which must be Upper Division or approved by the advisor.

Natural Science Track: 12 units must be in Biology, Microbiology, Environmental Science and Policy, Geology, Chemistry, Chemical Engineering, Mathematics and Statistics. PHYS 100A,B (or 151, 152) are required.

Social Science Track: 12 units must be in Anthropology, Economics, Geography, and Mathematics and Statistics.

Minor in Environmental Science and Policy (code ES_PUM01)

This minor may be combined with any major at CSULB except the B.A. and B.S. in Environmental Science and Policy. The minor requires a minimum of 20 units (at least 9 of which must be upper division) of coursework in Anthropology, Biology, Microbiology, Economics, Environmental Science and Policy; Geography, or Geology.

Prerequisites

Students are required to take the following courses:

BIOL 200, ECON 300 (or 100 and 101), and GEO 102 and 104 as prerequisites for the following required courses, but these prerequisites do not count toward the minor.

Requirements

Students must take ES P 200, 300I, and a minimum of 14 additional units from the following: ANTH 140, 301, 481; BIOL 350, 353, 450, 451, 456, 457, 459, 464; MIRC 303; ECON 306, 462, 463, 464; ES P 400; GEOG 440, 442, 443, 444, 455, 450, 480, 487A; and GEO 190, 200, 300I, 303, 465, 466, 477.

Environmental Science and Policy Courses (ES P)

LOWER DIVISION

200. California Environmental Issues (3)

Prerequisites or Corequisites: GEOL 102, 104; BIOL 200, ECON 101 or 300.

Introduction to the history, nature, status, and future of a major environmental issue in California. Biological, physical, and societal aspects will be examined and integrated with the goal of developing a plan to meet the challenges of the 21st Century.

Lettar grade only (A-F). (Lecture 2 hrs., discussion 1 hr., and field trips.)
UPPER DIVISION

300L. Environmental Law and Policy (3)
Prerequisites: Completion GE Foundation Requirements; both ECON 100 and 101, or ECON 300; POSC 100, and upper division standing.
Property rights, federal and state roles in decision-making, rights and limits of both private parties and the broad public interest.
Emphasis on science in decision-making, choices between regulations and incentives, and role of bureaucracy.
Letter grade only (A-F). (2 hrs lecture, 1 hr discussion).

400L. Environmental Science and Policy Capstone Project (3)
Prerequisites: BIOL 369, ECON 462 (or 463 or 464); E S P 200, 300L; GEOG 481 or 485; GEOL 300.
An interdisciplinary evaluation of the physical, biological, social, economic, and legal dimensions of a local environmental issue.
Examples include policies to control surface water run-off, policies for marine protected areas, dredging harbors, and developing, preserving, restoring wetlands and estuaries.
Letter grade only (A-F). (2 hrs lecture, 3 hr laboratory and field work).

490. Special Topics in Environmental Science and Policy (3)
Prerequisite: Consent of instructor.
Topics of current interest in environmental science and policy selected for intensive development.
Topics will be announced in the Schedule of Classes. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

491. Senior Thesis/Project in Environmental Science and Policy (1-6)
Prerequisites: Senior status and consent of instructor.
Final completion of a thesis or research project.
May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

495. Environmental Science and Policy Internship (3)
Prerequisite: Consent of instructor.
Practical experience in an appropriate business, government, or non-profit organization.
May be repeated to a maximum of 6 units in different semesters. Credit/No credit grading only.

499. Environmental Science and Policy Directed Study (1-6)
Prerequisite: Consent of instructor.
Independent study under the supervision of a faculty member.
May be repeated to a maximum of 6 units in different semesters.

Introduction
The faculty of the Department of Family and Consumer Sciences seeks to prepare men and women to enter professions concerned with enhancing the quality of individual and family life in the context of the near environment. The following objectives have been articulated:

To prepare men and women to the highest standards for professions in Family and Consumer Sciences and related fields requiring a baccalaureate or master's degree.

To prepare students for successful careers within the diversity of human relationships while enhancing their own physical, psychological, and emotional development through their lifespan.

To provide continuing education and post-master's study in professional fields of Family and Consumer Sciences.

To provide information to a diverse student population and the community about current services and career opportunities as well as the potential for emerging professional careers in a changing society.

To employ the most effective methodology and useful resources on the university campus and in the surrounding communities. Provide the best quality program within the structure of the CSU system.

To continue creative and scholarly research for the future growth of the profession.

To apply knowledge gained from research and study to serve the needs identified in the university and surrounding community.

Accreditation
The Department of Family and Consumer Sciences is accredited by the American Association of Family and Consumer Sciences (AACFS) (American Association of Family and Consumer Sciences, Council for Accreditation, 1055 King Street, Alexandria, VA 22314, phone: 703-706-4600). The Didactic Program in Dietetics and the Dietetic Internship are accredited by the American Dietetic Association (ADA) (Commission on Accreditation for Dietetics Education, American Dietetic Association, 216 West Jackson Boulevard, Suite 800, Chicago, IL 60606-6906; phone: 312-896-4872). The Preschool and Toddler Study Laboratories are accredited by The National Association for the Education of Young Children. Family Studies Program is approved by the National Council on Family Relations to offer a program leading to Provisional Family Life Education Certification.

The Department of Family and Consumer Sciences offers programs of study leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Science degrees.

Curricula are designed to provide a liberal arts education through study in the social and natural sciences, the humanities and the arts, and to offer specialized instruction based on these disciplines which will lead to professional careers in Family and Consumer Sciences and related fields.

Degrees and certificates available in the Family and Consumer Sciences Department include:

• Bachelor of Arts in Family and Consumer Sciences in the following option areas: Child Development and Family Studies; Consumer Affairs, Family and Consumer Sciences Education, Family Life Education, Fashion Merchandising and Textiles and Clothing

• Bachelor of Science in Dietetics and Food Administration in the following option areas: Nutrition and Dietetics and Food Science

• Bachelor of Science in Hospitality Foodservice and Hotel Management

• Master of Arts in Family and Consumer Sciences

• Master of Science in Nutritional Science

• Master of Science in Gerontology (specific requirements are listed under Gerontology)

• Dietetic Internship

• Foodservice Systems Administration Certificate

• Gerontology Certificate

(Specific requirements are listed under Gerontology)

• Home Economics Single Subject Teaching Credential (a 5th year of study is required)

Information about Family and Consumer Sciences sponsored degrees and certificates are organized by degrees and options.

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences
The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in six option areas of study:
• Child Development and Family Studies
• Consumer Affairs
• Family and Consumer Sciences Education
• Family Life Education
• Fashion Merchandising
• Textiles and Clothing

Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is first accepted by the University.

Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Bachelor of Science in Dietetics and Food Administration

The Department of Family and Consumer Sciences offers a Bachelor of Science degree in Dietetics and Food Administration two option areas of study:
• Nutrition and Dietetics
• Food Science

Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Requirements for the major include a minimum of 131 units for Nutrition and Dietetics. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences is required, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is accepted by the University.

Graduate Programs

Master of Arts in Family and Consumer Sciences (code FCS_MA01)

The Master of Arts degree in Family and Consumer Sciences is designed for students seeking a master’s degree, or professional advancement, or for those wishing to pursue further graduate study. The mission of the program is to educate students to become competent researchers and practitioners who are responsive to the complex and changing needs of diverse families and communities.

The main goal of the graduate program is to provide an opportunity for students to increase competencies and knowledge within their disciplines. In addition, the program gives students opportunities to develop professional leadership and administrative skills. Students are able to work collaboratively with individuals in other disciplines as well as diverse communities to improve the quality of life.

The focus of the curriculum is to promote an understanding of theoretical approaches to the study of the disciplines within the department and the application of theories to enhance the quality of life of individuals, families, and communities. All students will get a strong background in research methods. The advanced candidate selects either a thesis track or directed project track to facilitate a selected career path.

Students can expect to:
• Gain professional knowledge development.
• Develop scholarship and research abilities.
• Enhance professional development.

There are four specializations in the Master of Arts degree in Family and Consumer Sciences:
• Consumer Affairs
• Family and Consumer Sciences Education
• Fashion Merchandising
• Hospitality Foodservice and Hotel Management

Interested students should contact the Department of Family and Consumer Sciences Graduate Coordinator at (562) 985-4494. Online information can be found at http://www.csulb.edu/colleges/cths/departments/fcs/programs/graduate/MADegree.htm.

Admission

Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB Catalog. Students must concurrently submit application to the University Admissions and Records Office and the Department. A cohort of students will be admitted each Fall semester.

Admission Requirements to the Department

Admission to the Master of Arts in Family and Consumer Sciences is dependent upon approval by the Graduate Coordinator. The application requirements for prospective graduate students for the Master of Arts degree are:
1. At least a 2.5 grade point average in the most recently completed 60 units of course work.
2. A copy of the application submitted to the University Office of Admissions and Records.
3. Official transcripts of your baccalaureate degree. (These are in addition to these transcripts required for general admission to California State University, Long Beach).
4. Three letters of recommendation (preferably from previous instructors).
5. Submission of official copy of Graduate Record Examination (GRE). A minimum score of 4 on the Analytical Writing section of the GRE (taken in the last five years) is required and is an acceptable substitution for passing the Writing Proficiency Exam/Graduate Writing Assessment Requirement (WPE/GWAR) for the Consumer Affairs, Family and Consumer Sciences Education, and Fashion Merchandising areas of specialization. A minimum score of 3.5 on the Analytical Writing section of the GRE is required for the Hospitality Foodservice and Hotel Management area of specialization or the WPE/GWAR must be passed within the first year of the program.
6. Additional materials that provide evidence of academic performance may be requested (at a later date) after review of applicant’s file.
7. Approval by the Graduate Coordinator.
8. DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR: MAY 1ST FOR FALL ADMISSIONS.

2009/2010 CSULB Catalog • Family and Consumer Sciences • 375
Prerequisites
1. Students are responsible for meeting all prerequisite requirements prior to enrolling in 500/600 level courses.
   A. The Graduate Coordinator and/or faculty advisor will evaluate transcripts. The student who needs to complete prerequisite deficiencies must do so using a program of study developed with the specialization area faculty advisor and approved by the Graduate Coordinator.
   B. The student who needs to pass the Test of English as a Foreign Language (TOEFL) must do so within one year of admission.
2. Students from other disciplines will be required to complete prerequisite courses before enrolling in 500/600 level courses.
3. Prerequisites for all courses carrying graduate credit must have been completed within five years of taking the required courses. If the prerequisite is outdated, the prerequisite(s) must be repeated or credit obtained by examination.
4. Students deficient in undergraduate preparation must take courses to remove these deficiencies at the discretion of the faculty in the specified subject matter area and the Graduate Coordinator. Courses taken to remove deficiencies may not be included in the graduate program of study.

Retention
1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all graduate work transferred to meet graduate requirements.
2. Maintain satisfactory progress toward the degree objective.

Advancement to Candidacy
1. Satisfactory completion of the Writing Proficiency Examination
2. Minimum of 3.0 overall GPA and a 3.0 average in all units undertaken for the program of study.
3. Completion of ED 519; FCS 561, 563, 605, 655A, and 696.
4. Approval of the Graduate Coordinator, and Associate Dean of the College of Health and Human Services.
5. Enrolled in the semester in which the Advancement to Candidacy takes place.

Requirements for Graduation
1. Completion of a minimum of 34 units of approved upper division and graduate courses with a minimum of 21 units in FCS.
2. Completion of EDP 419 and FCS 561, 563, 605, 655A, 696, 697, 692 or 698 and 9 units of Advisor approved courses in the area of specialization (Consumer Affairs, Family and Consumer Sciences Education, Fashion Merchandising or Hospitality Foodservice and Hotel Management).
3. Completion of an oral presentation of the Thesis or Directed Project report.

Master of Science in Nutritional Science
(code FCS_M501)
The Master of Science Degree in Nutritional Science offers 3 emphases: Clinical/Community Nutrition, Food Science, and Foodservice Systems Management. These provide an opportunity for students to:
1. Specialize in nutrition therapy/community nutrition, food science or hospitality foodservice and hotel management;
2. Complete a master’s degree and the academic requirements to qualify for membership in the American Dietetic Association concurrently and become eligible to apply to the Approved Dietetic Internship;
3. Increase competence in food and nutrition subject matter in preparation for college teaching, research, graduate study beyond the master’s degree and administrative positions in public and private agencies.

Admission Criteria
Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB catalog. Students must concurrently submit applications to the University Admissions and Records Office and the Department of Family and Consumer Sciences.
Admission to the Master of Science in Nutritional Science is dependent upon approval by the Graduate Coordinator. The applicant must submit the following materials to the Graduate Coordinator in the Department of Family and Consumer Sciences.
1. A copy of the completed application submitted to the CSULB Office of Enrollment Services.
2. Official transcripts of all undergraduate course work.
3. Three letters of recommendation with at least two from instructors who have direct knowledge of the applicant’s scholastic ability and professional qualifications.
4. A bachelor’s degree with an undergraduate overall GPA of 3.0 and a GPA of 3.0 on the last 60 undergraduate units attempted.
5. An official copy of the Graduate Record Examination (GRE) taken within the last 5 years. A minimum score of 900 on the Verbal and Quantitative sections and a minimum score of 4 on the Analytical Writing section of the general GRE (taken after October 2002).
6. THE DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR ARE MAY 1ST FOR FALL ADMISSIONS AND NOVEMBER 1ST FOR SPRING ADMISSIONS.

NOTE: Dietetic internship applicants have been assigned specialized deadlines to apply for the MS Nutritional Science degree. Please refer to the information under the American Dietetic Association (ADA) Accredited Dietetic Internship immediately following the M.S. requirements section.

Prerequisites
1. Students may be admitted to the program under conditional status for several reasons. Students are responsible for meeting all conditional requirements to be removed from conditional status prior to enrolling in 500/600 level courses.
   A. Students who need to bring their GPA up to 3.0 must achieve a GPA of 3.0 within one year of admission. The Graduate Coordinator, in consultation with the student and faculty advisor, will identify courses after evaluation of transcripts. Courses taken to raise the GPA may not be included in the graduate program of study.
   B. The student who needs to fulfill the Graduation Writing Assessment Requirement (GWAR) must do so within one year of admission and must attempt to satisfy the GWAR the first semester of enrollment. A minimum of
on the Analytical Writing section of the general GRE fulfills this requirement.

C. The student who needs to pass the Test of English as a Foreign Language (TOEFL) must do so within one year of admission.

D. The student who needs to complete prerequisite deficiencies must do so using a program of study developed with the specialization area faculty advisor and approved by the Graduate Coordinator.

2. Students from other disciplines will be required to complete prerequisite courses before enrolling in 500/600 level courses.

3. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by written examination. Specifically, basic biological science courses and foundation nutrition and food science courses are evaluated for currency. The department administers a proficiency examination covering the content of NUTR 331A and FSCI 332 courses for students in all emphases who have not taken these courses or their equivalents within the past five years. In addition, NUTR 331B course content will be included in the proficiency examination for students in the Nutrition Therapy/Community Nutrition emphasis. Any student failing to pass the proficiency examination with a grade of "B" or better must take the appropriate course for credit.

4. Entering graduate students will meet with the Graduate Coordinator to prepare a tentative degree program. In order to enroll in any graduate course, the student must complete all prerequisites and deficiencies and must obtain approval from the Graduate Coordinator.

Advancement to Candidacy

1. Satisfy the general University requirements for Advancement to Candidacy.

2. Complete 9 units of graduate courses, including FCS 696.

3. Fulfill the Graduation Writing Assessment Requirement (GWAR).

4. Maintain a 3.0 GPA for all course work attempted as a graduate student.

5. Complete a Program of Study in consultation with a faculty advisor.

6. Approval by the Graduate Coordinator of Family and Consumer Sciences and the Associate Dean of the College of Health and Human Services.

Requirements

1. Completion of a minimum of 34-36 units depending on concurrent completion of a dietetic internship;

2. An advanced statistics course: EDP 519 or HSCI 563 or KIN 590 or a course approved by the faculty advisor;

3. At least 15 units of 500/600 level courses in Family and Consumer Sciences:
   - A. Nutritional Science without Dietetic Internship (34 units): FCS 530A, 530B, 531 or 533, 636, 696, 697, 692 or 696, and 9 units of advisor approved area of specialization courses.
   - B. Nutritional Science with Dietetic Internship (36 units): FCS 530A, 530B, 531 or 533, 591A (0 units), 591B (2 units), 636, 696, 697, 692 or 696 and 3 units of advisor approved area of specialization courses.

4. An overall GPA of 3.0 or better;

5. A Written Thesis or a Directed Project; and

6. Oral presentation of the Thesis or Directed Project.

American Dietetic Association (ADA) Accredited Dietetic Internship (DI)

The Department of Family and Consumer Sciences offers a combined Master of Science in Nutritional Science and Dietetic Internship program. This experience fulfills the registration eligibility requirements of the ADA to become a Registered Dietitian. Upon successful completion of the DI, the student will be eligible to write the Registration Examination for Dietitians.

The DI requires 1,093 hours total, with 928 hours of practice divided into four emphases: nutrition therapy, foodservice systems management, community and business/entrepreneurial nutrition. The Seminar in Dietetic Practice constitutes the remaining 165 hours of the DI. The supervised practice is conducted off campus at a variety of excellent facilities. Opportunities exist in acute and long-term health care sites, as well as in teaching, research, community and governmental agencies. Students will receive training in general dietetics with experiences that expose them to various specialty areas.

Admission Requirements

1. Completion of the Didactic Program in Dietetics as stipulated by ADA with an original verification statement from a Didactic Director;

2. Earned baccalaureate degree;

3. GPA 3.0/4.0 scale required on the last 60 units of courses completed;

4. Related volunteer or work experience in the United States;

5. Graduate standing in the CSULB Master of Science, Nutritional Science program;

NOTE: Dietetic Internship applicants must apply on or before February 1st to the MS Nutritional Science degree program to coincide with the Fall admission to the DI program.

6. Application materials to Dietetic Internship Director by February 1st including three letters of recommendation, formal ADA application, a $45 application fee and copies of all college transcripts; and

7. Personal interview with Program Director and review committee.

Program Requirements

Upon satisfactory completion of the Supervised Practice in Dietetics: FCS 591A, the Seminar in Dietetic Practice: FCS 591B, and the completion of two of the four core graduate courses, FCS 530A, 531, 533, 530B or equivalent with a grade of "A" or "B", the student will be eligible to take the Registered Dietitian (R.D.) exam sponsored by the American Dietetic Association.
524. Independent Living for Disabled and Elderly Persons (3)
Prerequisites: CAFF 3211 or 322 or GERN 4001 or consent of instructor.
Independent living concepts related to physically and or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging.
Letter grade only (A-F). Same course as GERN 524. Not open for credit to students with credit in GERN 524.

525. Personal Financial Planning Analyses (3)
Prerequisites: CAFF 223 or consent of instructor.
Analysis and protection of personal and family resources: planning and forecasting goals; development of financial strategies utilizing insurance, investments, tax management, pensions, wills and trusts.
Letter grade only (A-F).

526. Family Financial Problems (3)
Prerequisites: CAFF 223 or consent of instructor.
Theory and practice in the diagnosis of family financial crises; evaluating alternative solutions; constructing practical methods for the prevention of family financial problems.
Letter grade only (A-F). (2 hours discussion, 3 hours laboratory).

529. Consumer Protection (3)
Prerequisites: Upper Division course in consumer affairs or consent of instructor.
Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems.
Letter grade only (A-F). (Seminar 3 hours.)

530A. Carbohydrates, Lipids and Proteins (3)
Prerequisites: NUTR 430, 430L, BIOL 260.
Nutritional, metabolic and clinical aspects of carbohydrates, lipids and proteins. Current knowledge of interactions between macronutrients and assessment of needs.
Letter grade only (A-F). (Seminar 3 hours.)

530B. Vitamins and Minerals (3)
Prerequisites: NUTR 436, 438L, BIOL 260.
Letter grade only (A-F). (Seminar 3 hours.)

531. Advanced Community Nutrition (3)
Prerequisites: NUTR 436 and 438L or FCS 562, NUTR 461.
Program planning and evaluation with emphasis on major nutrition-related public health problems among target populations. Protocol development, collection and analysis of data. Verbal and written communications.
Letter grade only (A-F). (Lecture-discussion 3 hours.)

532. Food Analysis (3)
Prerequisites: CHEM 327, FSCI 332 or equivalent.
Application of scientific methods of food analysis. Consideration of manner in which such variables as ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems.
Letter grade only (A-F). Course fee may be required. (Seminar 2 hours, Laboratory 3 hours.)

533. Recent Advances in Food Science (3)
Prerequisites: FSCI 432 or consent of instructor.
New developments in food processing, techniques of food preservation and, chemical additives, food and water sanitation. Methods of standardization, preservation, and evaluation of quality. Nutrition of nutritive value, flavor, appearance, and safety of foods.
Letter grade only (A-F). (Seminar 3 hours.)
535. Food Processing, Preservation and Packaging (3)
Prerequisites: FSCI 332 or consent of instructor.
Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutrition. Evaluation of chemical additives. Microbiological aspects of food safety.
(Lecture-discussion 2 hours, Laboratory 3 hours.)

536. Advanced Nutrition (3)
Prerequisites: NUTR 331B; CHEM 448, CHEM 449 (may be taken concurrently).
Metabolism of proteins, fats, carbohydrates, minerals and vitamins; interrelationships of nutrients; principles of determining nutritional requirements of individuals.
Letter grade only (A-F).

538. Medical Nutrition Therapy (3)
Prerequisites: NUTR 436; NUTR 438L (may be taken concurrently).
The nutrition care process is applied to specific pathophysiological conditions. The application of this process includes nutrition assessment, nutrition diagnosis, nutrition intervention, and nutrition monitoring and evaluation.
Letter grade only (A-F).

555. Global Perspectives in Fashion Merchandising (3)
Prerequisites: FMO 351 and 355, MKTG 300, and Graduate standing, or consent of instructor.
Application of merchandising concepts for the budgeting, buying, promoting, and selling of fashion apparel and accessories in global retail organizations.
Letter grade only (A-F).

558. Fashion Product Development (3)
Prerequisites: FMO 353, Graduate standing, or consent of the instructor.
The process of designing and engineering fashion products to be serviceable, producible, saleable, and profitable for various consumer market segments.
Letter grade only (A-F).

561. Curriculum Development in Family and Consumer Sciences (3)
Prerequisite: Field experience in Home Economics, Family and Consumer Sciences or a related area.
Current philosophies and basic principles in the analysis and organization of curricular programs and materials.
Letter grade only (A-F). (Seminar 3 hours.)

562. Contemporary Issues in Nutrition (3)
Prerequisite: NUTR 436 or consent of instructor.
Analysis of recent developments and current research in human nutrition. Topics include: nutrition through the life cycle, diet and dental health, athletic performance, human behavior, obesity, cancer; vegetarianism; practical application of scientific knowledge to diet management.
Letter grade only (A-F). (Seminar 3 hours.)

563. Evaluation in Family and Consumer Sciences and Gerontology (3)
Prerequisites: Upper division or graduate course in statistics; FCS 690 (may be taken concurrently) or equivalent.
Principles, design, and methods of program evaluation for use by Family and Consumer Sciences and Gerontology professionals.
Selection and development of instrumentation for data collection and interpretation and methods of reporting.
Letter grade only (A-F). Same course as GERN 563. Not open for credit to students with credit in GERN 563. (Seminar 3 hours.)

574. Cost Control in Hospitality Foodservice and Hotel Management (3)
Prerequisites: HFHM 275 or 276 or consent of Instructor.
Financial management of food, labor, supplies, and other operational costs; procedures for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; inventory and security management; computer applications; and analysis of financial reports in hospitality foodservice and hotel industry.
Letter grade only (A-F). (Lecture/Discussion 3 hours).

577. Foodservice Administration (3)
Prerequisites: HFHM 276 or 375 or consent of instructor.
Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as applied to the foodservice industry. Field trips required.
Letter grade only (A-F). (Discussion 3 units)

591A. Professional Practicum in Dietetics (11)
Prerequisite: Admission to the American Dietetic Association Dietetic Internship.
Supervised practicum of contracted facilities to meet performance standards and qualify for the national registration examination.
Credit/No Credit grading only. 11 units for each of 2 consecutive semesters.

591B. Seminar in Dietetic Practice (1)
Concurrent enrollment in FCS 591A.
Oral and written presentations of annotated bibliographies and a clinical case study, reports of professional meetings, examinations and field trips.
Letter grade only (A-F). 1 unit for each of 2 consecutive semesters. (Seminar 1 hour)

592. Internship in Family and Consumer Sciences/ Gerontology (3)
Prerequisites: Graduate standing and consent of instructor.
Field experience in which student assumes a self-directed, responsible role in an agency, business or other community setting.
Letter grade only (A-F). May be repeated to a maximum of 6 units. (Seminar 3 hours.)

597. Independent Study (1-3)
Prerequisites: A 600 level course in any of the Family and Consumer Sciences disciplines.
Varied learning activities utilized to achieve programs of study not offered in regular course.
Written report required.
(Projects)

605. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)
Prerequisite: Graduate standing.
Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Decision-making, organizational structures and evaluation concepts included.
Letter grade only (A-F). Same course as GERN 600. Not open for credit to students with credit in GERN 600.

636. Nutrition and the Media (3)
Prerequisites: Graduate standing, NUTR 331A or equivalent.
Basic skills for analyzing and communicating reliable nutrition messages for print and visual media; translating evidence-based research into consumer messages.
Letter grade only (A-F). (Lecture-activity 3 hours.)

2009/2010 CSULB Catalog • Family and Consumer Sciences • 379
655A. Literature Review and Research in Family and Consumer Sciences (3)
Prerequisites: ED P 419.
Critical analyses of the current professional literature, theory, practice and research. The research process including conceptualization of the problem, literature search and review. The legal and ethical aspects of research are stressed.
Letter grade only (A-F). (Seminar 3 hours)

692. Directed Project (1-4)
Prerequisites: FCS 597.
Will acquire experiential skills under the guidance of a faculty advisor and supervision by a preceptor at an approved project site. Will identify problems, design and conduct research. Results will be presented in a thesis-style report.
Letter grade only (A-F)

696. Research Methods (3)
Prerequisite: Upper-division course in statistics.
Methodological approaches to contemporary research issues in Family and Consumer Sciences. Focuses on the design, development, and implementation of a formal research-designed project.
Letter grade only (A-F). Same course as GLRN 696. Not open for credit to students with credit in GLRN 696. (Seminar 3 hours)

697. Directed Research (3)
Prerequisite: Advancement to candidacy.
Student works under supervision of the thesis/directed project chair and with other committee members to complete a proposal for the thesis or directed project. Concurrently, student participates in a five-week series of meetings on proposal development at the beginning of the semester. Students present their thesis/directed project proposals to classmates and committee chairs.
Letter grade only (A-F).

698. Thesis (1-4)
Prerequisites: FCS 597.
Planning, preparation and completion of a thesis related to the family and consumer sciences field.
Letter grade only (A-F)
FAMILY AND CONSUMER SCIENCES

Career Possibilities
Home Economics/Family and Consumer Sciences Teachers in Secondary Schools, Educational Program Specialist in Business, Industry, Government, and Cooperative Extension Services. (For more information, see www.careers.csulb.edu.) Positions as instructors in adult education or community colleges provide excellent careers for graduates with a Family and Consumer Sciences Education option who obtain the appropriate credentials and education above the B.A. degree.

Undergraduate Programs

Bachelor of Arts in Family and Consumer Sciences
The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in six option areas of study:
• Child Development and Family Studies
• Consumer Affairs
• Family and Consumer Sciences Education
• Family Life Education
• Fashion Merchandising
• Textiles and Clothing
Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (48 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit for required courses if the course is equivalent to the course at this University and it is first accepted by the University.

Specific degree and certificate information as well as option requirements are listed under each option alphabetically in this Catalog.

Family and Consumer Sciences Education
A Bachelor of Arts degree in Family and Consumer Sciences, Option in Family and Consumer Sciences Education prepares students for careers in teaching youth and adults in various educational settings, as well as positions in business, industry and government. Courses in the program focus on enhancing the quality of life for diverse individuals and families through assignments and activities that promote solutions to problems encountered in daily living. The Option in Family and Consumer Sciences Education meets the subject matter requirement for the Preliminary Single Subject Credential in Home Economics.
