7.1. Beach 2030: President Jane Conoley - TIME CERTAIN 2:05 pm - President Conoley recapped some points from her convocation speech regarding actions to be taken for Beach 2030 and how to prepare students to be successful in the 21st century. EC was asked to use our unique perspective to see the “big picture” along with our respective assignments to think outside the box. Beach 2030 content areas: Institute for the Future will require more training. 60 people have
received on-campus training and 2 trainings are upcoming for campus members. General training for interested parties to be announced soon. Data collected will be owned by the university but processed by the Institute for the Future. What is the dollar amount allocated to this exercise and is it a prudent use of limited university funds? Funds generated for this come from trust funds generated by leasing various campus facilities.

7.2. **Membership on Advisory Council on Enrollment Management (ACEM).** Three openings; two full terms, and completion of a term that was vacated. One additional term for maternity leave. Three people have come forward to fill the vacancies. ACEM membership charge should be changed to include faculty from Math due to first year student issues. The three nominees were accepted by EC. DeWitt to fill maternity slot, Christopher Duerringer for a full 3-year position, Mimi Nakajima to fill the full year vacated opening. *Moved, seconded and passed.* Math faculty will be identified to fill the second 3-year position.
