

3
4 **Transferability of Credit for Cross-Listed Interdisciplinary Courses**

5
6 Certain interdisciplinary courses are listed in this Bulletin under more than one
7 department. Normally, a student will receive credit for such a cross-listed course in the
8 department under which he registers for it. He may, however, have the Registrar indicate
9 that this course may be credited to a different department which also offers it, provided
10 that he makes this request no later than the end of the semester preceding anticipated
11 graduation.
