

POLICY STATEMENT APPROVED

AS (FAC) 70-10

HIRING AND PAYMENT OF STUDENT ASSISTANTS

1. Student assistants are a source of manpower to accomplish college work, and, therefore, should be considered as a supplement to support staff personnel.
2. Student assistant pay rates should not be directly comparable with rates paid staff employees since there is justification for keeping student assistant rates lower because individuals working on a fractional time base cannot assume the full range of responsibilities, and because student assistants do not have mandatory deductions for state retirement system (PERS) and Social Security.

Distributed to the Academic Senate 12/12/69 and 2/13/70.
Deemed approved (as amended) by the Academic Senate 2/13/70.

Approved by the President of the College 3/17/70.
