UNIFORM FILE  
REFERENCE: Credit

SUBJECT: Transferability of credit for cross-listed interdisciplinary courses

Certain interdisciplinary courses are listed in this Bulletin under more than one department. Normally, a student will receive credit for such a cross-listed course in the department under which he registers for it. He may, however, have the Registrar indicate that this course may be credited to a different department which also offers it, provided that he makes this request no later than the end of the semester preceding anticipated graduation.
