MAJOR-SPECIFIC REQUIREMENTS
www.csulb.edu/depts/enrollment/admissions/transfer-major-criteria/
In order to support the academic success of CSULB students, academic programs have determined the coursework and preparation that best predict completion of the major and timely graduation. These requirements include GE courses, coursework critical for success in the major and minimum GPA criteria. Review the detailed requirements for each major.

Transfer AA/AS degree recipients: This curriculum can be used in place of CSULB course requirements listed, as well as recommended preparation. The cumulative GPA will increase by 0.1 and this “calculated GPA” will be applied to the major specific minimum GPA and to any GPA used to rank applicants. See Transfer AA/AS Degree on the Enrollment Services site for more information.

HOW STUDENTS WILL BE CONSIDERED FOR ADMISSION

- Admit (except for "highly impacted" majors): those considered "local" based on their high school of graduation or their military veteran status, and have met the minimum major cumulative GPA and required lower-division preparation.
- Admit: those on a space-available basis who are not considered "local," but have met the major-specific minimum cumulative GPA and the minimum required lower-division major preparation.
- If space is available, CSU eligible students without the minimum major preparation will be considered. However, the applicant must agree to complete the recommended requirements in their first year at CSULB.
- Highly Impacted Majors: admitted based on completion of all posted additional supplemental criteria and requirements.

Find major-specific criteria for CSULB impacted and "highly impacted" majors at [www.csulb.edu/enrollment/admissions/transfer-major-criteria](http://www.csulb.edu/enrollment/admissions/transfer-major-criteria).
