

Pre-Calculus Algebra Lecture Skills

By Amy Mulgrew

How to "Attend" Lecture in a Flipped Classroom

001.

PRINT

Print the corresponding Group Quiz and skim read it.

TIME

Dedicate at least 2 times the length of the videos

Find a quiet place with no interruptions

Do this with a friend from class for a "watching party" 

002.

003.

GET WHAT YOU NEED

- * Computer with YouTube access
- * Table space for your notes
- * Pencil, colored pens, straight edge or ruler
- * Blank notebook paper

PREPARE YOUR NOTES

- * Label the Lecture Set Number
- * Label the Video Name
- * Make a column for questions down the side of your paper

004.

005.

ACTIVE ATTENDANCE

Watch, Listen, Think, Take Notes

WHY?

- * Turn on CC, closed captioning
- * Hover one hand over the space bar or mouse for quick pausing ability 
- * Dr. Chang speaks and writes quickly
- * You may be asked to try a problem on your own before you come back for the answer
- * Need to copy down definitions, examples, procedure steps, and questions you come up with as you watch

START THE QUIZ

Attempt some scratch work on the quiz before class
Write down your questions

006.
