

Homework 9

Due Monday, October 10 at 11am (in class)

1. On p. 160, EMG describe O'Barr and Atkins' discovery of a connection between features of so-called women's language and powerlessness. Even though there was no correlation in their data, why do you think the connection between these forms might exist?
2. How do Japanese honorifics show "how gender interacts with the production and interpretation of ... positioning resources" (p. 160).
