## Job Objective

Experienced clinical supervisor and lecturer at CSULB seeking a part-time lecturer position to teach and supervise undergraduate and graduate students in a variety of subjects and clinical experiences (i.e., early intervention, accent reduction, motor speech disorders, adult and childhood language disorders, voice disorders).

## Highlights of Qualifications

- Involved in establishing the CSULB Speech-Language Clinic telehealth model: Set up and trained the clinic's Microsoft Teams page for digital storage of administrative documents, ensured compliance with ASHA and CA licensing board's supervision requirements, trained clients, supervisors and staff on the protocols of Zoom Telehealth.
- Worked closely with department chair to establish COVID-19 safety measures for the clinic
- Designed and implemented changes to the administrative function of the CSULB Speech-Language Clinic to improve efficiency, reduce paper waste, and strengthen compliance with HIPAA requirements.
- Worked with students and clients of all different age levels (preschool, elementary school, middle school, high school, college students, and working professionals). Supervised graduate school clinicians in a variety of settings (on-campus clinics, school internships, private practice)
- Utilized a variety of service delivery models (individual, group, and classroom settings) to manage a diverse caseload (RSP, Learning Handicapped, Learning Handicapped-Severe, Severely Handicapped classes) in the school setting.
- Assessed and treated linguistically diverse clients
- Conducted evaluations and therapy for patients with a variety of issues including language disorders, speech disorders (fluency, voice, and articulation), traumatic brain injury, and dysphagia.
