- 10. Other Relevant Information:**
- I have been a Field Seminar Instructor for the past 26 years and have always been working in the field as well as teaching. My combined specialization in Gerontology and work in Health Care, Palliative Care and End-of-Life care has been an asset in teaching the students in field. It is important to combine what they are learning in the classroom with the community real-world experiences, keeping up with the latest theory, practice, laws, ethics, and values of the profession.**
