This course introduces theories and approaches to policy analysis and a working knowledge of the skills involved in that practice. The core of the course follows the policy analysis cycle and includes: problem recognition, problem definition, development of alternative solutions, analysis of alternatives, selection of policy options, policy implementation and evaluation. Letter grade only (A-F).

696. Research Methods in Public Administration (3)

Application of relevant research techniques to problems in public sector management and analysis. This course focuses on the design, development, and implementation of public sector research projects. The course is centered around the tools and techniques of research and their application in the development of a formal research design. Topics covered include: theories of research strategy, research design development, hypothesis design and testing, qualitative and quantitative data acquisition methods, survey research, initial data analysis techniques, statistical analysis, research results reporting and presentation, and evaluation research applications. Note: It is suggested that students take PPA 696 early in their MPA program in order to accrue maximum benefit in subsequent courses. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisites: Consent of Center graduate advisor, advancement to candidacy. The definition, presentation and discussion of selected problems in public administration. Letter grade only (A-F).

The experience of leisure is a basic facets of life. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important treatment modality. Leisure and recreation services are also essential for healthy communities in terms of social climate, environmental quality, and economic stability. The provision of recreation services is one of the largest industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining aspects of diverse fields of study and professional practice.

The Department of Recreation and Leisure Studies exists to promote a broader and deeper understanding of the role of leisure and recreation in the lives of all people, and to enhance the quality of experiences available to each person. This purpose is expressed in the four-fold mission of the Department of Recreation and Leisure Studies: (1) to offer a curriculum which leads the student to an increased understanding of the leisure phenomena; (2) to conduct basic research which contributes to the general body of knowledge; (3) to serve the community by conducting applied research and providing consultation and training to practitioners; and (4) to serve society by providing professional prac-

tioners who are skilled, dedicated, and ethical stewards of the profession.

The Department is accredited by the Accreditation Council of the National Recreation and Park Association and American Association for Leisure and Recreation (National Recreation and Park Association, Council on Accreditation, 22377 Belmont Ridge Road, Ashburn, VA 20148, phone: 703-858-0784).

Students desiring information on undergraduate or graduate degrees or certificate programs in Therapeutic Recreation, Administration of Campus Recreation and Student Service Programs, Management of Nonprofit and Volunteer Services, Administration of Outdoor Recreation Resources, and Administration of Travel and Tourism should contact the department office for referral to one of the faculty advisors.

Bachelor of Arts in Recreation (code REC_BA01) (120 units)

Academic Program

The curriculum is designed to prepare men and women for positions of supervision and administration in public recreation and parks, therapeutic recreation, outdoor education, voluntary youth and adult services, camp administration, special event planning and management, travel and tourism, commercial recreation, and armed forces recreation.

The curriculum includes courses selected to provide an understanding of human development, service management, and a variety of specialty areas within the leisure services profession.

Departmental Policies

Each major student must maintain a cumulative 2.0 GPA on all units attempted and achieve a "C" or better in each course of the Recreation major to progress in the sequence of study. Students earning less than a "C" grade in a course required in the major must repeat that course.

Students wishing to substitute courses or deviate in any way from the Department requirements must submit a letter of request to the Department faculty. No more than six units of Recreation-prefix courses may be taken by contract. The Internship is "Letter grade only (A-F)." The Internship is taken the last semester before graduation. No other courses may be taken concurrently with the Internship.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor In Recreation (code REC_UM01)

A minimum of 21 units approved by departmental advisor which must include: REC 141, 225, 321, 340I, 371 and one of the following: REC 322, 324, 337, 351, 428, 430, 431, 433, 462, 473 or 490 with consent of the advisor.

Certificate Programs

The certificate programs offered by the Department of Recreation and Leisure Studies are available to both undergraduate and graduate students, as well as students who already possess a baccalaureate degree and are enrolling through university extension, unless otherwise noted. Students pursuing an approved degree at CSULB may complete the certificate programs concurrently or subsequent to their degree. Courses taken to meet the requirements of a certificate may also be used, where appropriate, to meet the General Education requirements or the degree requirements of cooperating departments. Students wishing to pursue a certificate should contact the department to schedule a meeting with the certificate advisor.

Certificate in Therapeutic Recreation (code REC_CT01)

Therapeutic recreation has been identified as one of the fastest growing fields of employment. Recreational therapists work in clinical and community settings using recreation as a tool to assist post-injury rehabilitation and to improve quality of life for people with disabilities. State and National Certification in therapeutic recreation is often required for employment in this field; the curriculum of this certificate program prepares students for the California Board of Recreation and Park Certification exam and for the National Council for Therapeutic Recreation Certification exam. A baccalaureate degree, which may be awarded concurrently, is required for completion of this certificate program.

Core requirements: REC 325, 351, 341, 451, 452, 454, 458, and 498.

Additional courses: 18 to 19 units, which must be taken with approval from the certificate advisor. This includes an anatomy/physiology course (3 - 4 units); abnormal psychology (3 units); a human growth and development across the lifespan course (3 units); and upper division support courses (9 units) from any of the following areas: sociology, psychology, educational psychology, health science, adapted physical education, anthropology, biology, communication studies, family and consumer sciences, gerontology, human development, kinesiology/physical education, occupational studies, social work, and special education

Certificate in Administration of Campus Recreation and Student Service Programs (code REC_CT05)

Campus Recreation and Student Services is a growing field in elementary, secondary and higher education, as it relates to the co-curricular programs offered in support of the educational program, both in public and private institutions. The Certificate enhances professional development in Student Services such as Student Activities, Student Leadership Development, Residential Life, Student Community Service Volunteer Programs, and Intramurals and Recreational Sports; and Campus Services such as Conferences, Scheduling, Event Planning, and Alumni Relations. For those looking to be Certified Recreation Sports Specialist through NIRSA the courses will prepare them for the certification examination.

Twenty-four (24) units of core requirements including: REC 321, 322, 324, 325, 421, 427, 485; and one (3 unit) evaluation course: REC 341 or equivalent. The remaining six (6) units are electives which must be taken with approval of the advisor of the certificate program. These may include REC, KPE, HDEV, or HRM courses.

Certificate in Management of Nonprofit and Volunteer Services (code REC_CT02)

Nonprofit organizations require trained professionals to meet the demanding need of managing effective organizations and programs. This certificate program prepares students for employment as managers of nonprofit organizations and volunteer services.

Core requirements: REC 325, 421, 425, 427/527, 428/528, 498.

Additional courses: 6 units of elective courses addressing youth development, communication skills, marketing, evaluation, or working with diverse populations which must be taken with approval of the advisor of the certificate program.

Certificate in Administration of Outdoor Recreation Resources (code REC_CT03)

Outdoor recreation includes both the provision of recreation programs in the outdoors and the management of the parks and public lands that serve as the settings for these recreation experiences. Recreation program management and land management are distinct fields that must work cooperatively. This certificate program prepares students for careers in these interrelated fields. The curriculum includes courses selected to provide an understanding of outdoor recreation behavior, outdoor education, resource management policies, and an introductory understanding of natural science.

Core requirements: REC 427, 430, 431; REC 337 or SCED 401; and one of the following: REC 433, 485 or 499.

Additional courses: 9 units of elective courses from biology, geology or geography which must be taken with approval of the advisor of the certificate program.

Certificate in Administration of Travel and Tourism (code REC_CT04)

Travel and tourism is a very large and growing field in which there are usually many opportunities for well-trained individuals. This certificate program provides instruction in the history and theoretical bases of tourism, including its economics, psychology, and sociology as well as the political and legal aspects. The fundamentals of business, food and food service technology, the performing arts, and resource management are themes throughout the program.

Core requirements: REC 462, 468; REC 485 or 498; REC 490 or 499; GEOG 352.

Additional courses: 6 units of upper division courses listed in the University Catalog under the Regional category in the Department of Geography; plus 3 additional upper division units selected in consultation with the advisor of the certificate program.

Graduate Certificate in Leisure Counseling (code REC_CT06)

Leisure and recreation experiences add quality and enjoyment to life. When individuals experience significant changes in their lives, often through retirement or disabling injuries, they may need counseling to identify and develop leisure skills appropriate to their new life situations. This certificate program prepares students to use counseling techniques to enhance quality of life through leisure.

Admission/Prerequisite: Persons holding a bachelor's or master's degree in Recreation or Therapeutic Recreation or a related allied health field (e.g. Occupational Therapy, Music Therapy, Gerontology, Psychology, Adapted Physical Education, Counseling); two years verified experience in counseling approved by the program advisor.

Core requirements: REC 454/554, 503, 590; EDP 532, 533.

Additional courses: 3 units which must be taken with approval of the advisor of the certificate program.

Master of Science in Recreation Administration (code REC_MS01)

The Department of Recreation and Leisure Studies offers a program of graduate studies leading to the Master of Science degree in Recreation Administration. The program helps prepare professional personnel who are competent managers of private and public agencies and programs, who can conduct research and evaluation of recreation services, and who can contribute to the development of a professional philosophy of leisure. Unusually fine opportunities exist in Long Beach and Southern California for interaction with recreation agencies of all kinds.

Admission

Students seeking admission to the Department of Recreation and Leisure Studies Graduate Program should have an undergraduate degree and a desire for graduate study. Applicants must apply for admission to the Recreation and Leisure Studies Department in addition to being admitted by the Office of Admissions and Records.

The following items must be completed for admission:

1. Applicants must meet the criteria for acceptance by the University as a graduate student as outlined in the CSULB Catalog;
2. Every applicant (new or continuing) must apply to the Office of Admissions and Records to obtain admission to the University with graduate standing. Applications are available on line (<http://www.csumentor.edu/>);
3. Every applicant must also apply to the Department of Recreation and Leisure Studies, by sending the following to the Graduate Coordinator in the Department of Recreation and Leisure Studies:
 - A. A copy of the graduate application sent to the Office of Admissions and Record;
 - B. Official transcripts of all undergraduate course work;
 - C. A copy of the applicant's current resume and a statement of professional goals;
 - D. Three letters of recommendation from persons able to testify to the applicant's academic ability.

Admitted graduate students must contact the Department of Recreation and Leisure Studies Graduate Coordinator for advisement early in their first semester of enrollment in order to develop an approved program of study.

Prerequisites

Graduate students must complete the following prerequisites before advancing to candidacy:

1. A bachelor's degree with a major in recreation; or,
2. A bachelor's degree with a minimum of 24 units of upper division courses comparable to those required in the undergraduate recreation major at this University. (Students deficient in undergraduate preparation must take courses approved by the department Graduate Coordinator to remove these deficiencies.)
3. Any deficiencies will be determined by the department graduate coordinator review of the student's transcript records, and consultation with the student's faculty advisor and the student.

Advancement to Candidacy

The following are required for student to advance to candidacy:

1. Enrollment in the semester or summer session in which advancement takes place;
2. Completion of the general University requirements for advancement to candidacy, as specified in this bulletin.
3. Satisfactory completion of the CSULB Writing Proficiency Examination. The Writing Proficiency Examination must be passed before the student is advanced to candidacy. (This examination is administered several times per year. A detailed description of the test is available at the Testing Office);
4. Satisfactory completion of REC 521, 571, 591, 595, 696 with a minimum grade of "B" in each of the courses.
5. After consulting with the student's graduate advisor, determination of whether the student will complete the thesis option or project option.
6. Approval of the student's graduate program by the Department Graduate Advisor and Associate Dean for the College of Health and Human Services.

Requirements

The core requirements for a masters of science in recreation administration are REC 521, 571, 591, 595, and 696. In addition to the core classes, students are required to complete elective units and thesis or project units. The thesis option requires one unit of REC 599 and four units of REC 698, plus 12 units of electives. The project option requires three units of REC 698 plus 20 units of electives. Elective courses are to be selected after consultation with the graduate advisor. A maximum of 6 units may be taken from 300 or 400-level courses in Recreation designated with a * in *CSULB Catalog*. Undergraduate courses that are not designed with a * may not be applied toward the master's degree. Up to six units of graduate work may be transferred from another accredited university or another department in CSULB. Transfer credit must be a "B" or better. All students must earn a grade of "A" or "B" for each required course. Students may not have more than 6 units of "C" grades apply toward the master's degree. Advancement to candidacy is necessary before REC 697 or 698 can be taken.

Thesis or Project

The thesis or project is a supervised experience in the application of theory and analytical tools to an issue in recreation and leisure services.

The thesis should prepare students for further graduate work or research in the field. The project should provide an experience that is directly applicable to an occupation in recreation and leisure services. The thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The thesis is supervised by a committee of three, including the Thesis Chair, who must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

The project is a significant undertaking appropriate to the professional field. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written report that includes the project's significance, a review of the literature, objectives, methodology, and a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. The coursework is supervised by a committee of three, including the Project Chair, who must be a full-time tenure-track or tenured faculty member in the Recreation and Leisure Studies Department, and two other faculty members.

Courses (REC)

Lower Division

100./300. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Letter grade only (A-F). (Discussion, 3 hours) Not open to students with credit in REC 300.

141. Introduction to Leisure Services (3)

Prerequisite: One GE Foundation Course (may be taken concurrently). Survey of public, private and non-profit agencies engaged in leisure services. Examination of populations served. Organizing principles of the recreation and leisure services profession. Not open to students who have completed REC 241. (CAN REC 2)

215. Management of Outdoor Field Trips (1)

Field experiences in unique outdoor recreation programs. Course content will include planning, logistics and leadership techniques involved in field trip organization. (Activity 2 hours.)

220. Universality of Play (3)

Prerequisites: Completion of GE Foundation requirements. Exploration of the ethnic origins of play from an international perspective. Influence of play on creativity, drive and self image of society. Theory and practicum.

225. Programming Recreation Activities (3)

Methods and materials used in planning and leading organized recreation programs in public and private agencies. Analysis of interpersonal and group skills necessary for effective leadership of recreation activities. Special emphasis on supervised programming field experiences. Letter grade only (A-F).

Upper Division

300./100. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Letter grade only (A-F). (Discussion, 3 hours.) Not open to students with credit in REC 100.

321. Leadership in Recreation and Leisure Studies (3)

Theory and application of leadership as it pertains to leisure service agencies. In depth analysis of interaction between leadership styles and group dynamics. Facilitation techniques necessary for effective group leadership.

322. Recreational Sports Supervision (3)

Organization and supervision of recreational sports for community-wide participation. (Lecture 2 hours, Activity 2 hours.)

Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor. Foundations of current methods and practices of evaluation and research about leisure and leisure services. Includes the critical need for evaluation and research in leisure services; research and evaluation concepts, types, and designs; sampling; and information/data collection, analysis, interpretation, and presentation. Letter grade only (A-F).

351. Foundations of Therapeutic Recreation (3)

Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor. Philosophical and historical foundations of therapeutic recreation and principles of planning, implementing and evaluating leisure services for individuals with disabilities. (Lecture/Activity 3 hours.)

371. Human Services Programming in Urban Areas (3)

Prerequisites: Completion of the GE Foundation requirements. Exploration of the community diversity, social issues, and community resources of urban areas in relationship to the concerns of recreation and human service needs. Examination of planning, development, and agency collaborations required to insure recreation service development meets community needs.

*407. Starting a Recreation Business (1)

Examines the basic legal, financial, and practical concerns related to starting a recreation business in California.

410. Designing Effective Workshops and Conferences (1)

Course will enable a student to analyze elements of workshop and conference design, and provide the student with the knowledge and skills necessary to develop effective, participative group meetings.

***421. Supervisory and Administrative Practices (3)**

Prerequisite: REC 100 or 300; 141, 225, or consent of instructor. Concepts and techniques of supervision and administration in recreation agencies; emphasis on recruitment, assignment, evaluation and in-service training of recreation personnel.

***423. Facility Design and Operations (3)**

Prerequisites: REC 325 or consent of instructor. Theories and practical experience in the design, development, operation, maintenance and administration of various recreational facilities. Letter grade only (A-F).

***425. Financing Leisure Services (3)**

THE FRENCH PROGRAM

Program Director - Clorinda Donato

A degree in French places the world of international communication and culture at your fingertips. As one of the foremost languages of global diplomacy, relations, and scholarship, a degree in French makes careers in arts management, art history, international business, international relations, teaching, and travel possible. It is also a preferred language for academic pursuit in the social sciences and critical studies. The Francophone world only begins in France, stretching far beyond the Champs-Élysées into Africa, Quebec, the Caribbean, and Tahiti. Additionally, a double major or a minor in French enhances any other degree program, making the student doubly marketable upon graduation. Graduate study leading to the Master of Arts degree comprises another feature of the program. Students who complete the Master of Arts degree in French perfect their knowledge of the Francophone world. They pursue or continue professions in teaching, business, travel, and diplomacy, to name only a few, or proceed to doctoral programs at Ph.D. granting institutions. Teaching Assistantships are available.

Learning French makes you eligible for study and travel abroad in the International Programs of the California State University System. (We are happy to assist you in including a study abroad experience into your program of language and literary study.) Students are encouraged to participate in work/study abroad options.

Bachelor of Arts in French (code RGR_BA01) (120 units)

The major in French consists of 36 upper-division units in the 300-400 level courses indicated below. The number of lower-division units will depend on the amount of French studied previously in high school or college, since students with prior study of French may enter at advanced standing (usually second or third year). The major program satisfies the requirements for the Single-Subject teaching credential in French, but credential candidates must take FREN 414 (Phonetics). Major students should be mindful of the Department's second language requirement: two college years or equivalent of a second foreign language, not English. The Department also recommends inclusion of specified history courses in the program of study. These courses provide additional enrichment to the cultural component of the student's course of study.

Requirements

Lower Division: FREN 214. Students who have completed sufficient high school French may take upper-division courses as soon as lower-division requirements have been met.

Upper Division: A minimum of 36 units of upper-division courses which must include FREN 312A, 312B, 314, 335, 336, 337, 411, 440, 480 and three of the following courses: 414, 456, 460, 462, 470, 471, 472, 474, 475, 477, 479, 480, 490. Candidates for the teaching credential must take FREN 414.

Department Requirement: Two years of a second foreign language at college level or equivalent is required of all majors.

Departmental Recommendation: Students specializing in French should include the following courses in their program of study: HIST 131, 132, and one or more of the following: HIST 335, 336, 337. A selection from the following courses would also be appropriate: HIST 332, 333.

Bachelor of Arts in French Studies (code RGR_BA08)

Director - Dr. David Shafer, Assistant Professor, History
 Advisor - Dr. Clorinda Donato, Professor of French and Italian
 Program Office F02-218, Telephone (562) 985-4612

The Bachelor of Arts in French Studies provides students with a thorough basis in the study of French Language, History, Literature and Culture within a global context. Students completing the B.A. in French Studies will acquire an interdisciplinary understanding of French history, culture, and society that will prepare them for a broad range of career options both at home and abroad. These include international law and business, teaching, government and foreign service. In addition, the solid background in French and Francophone history and literature provides a strong foundation for further study at the graduate level in a variety of M.A. and Ph.D. programs.

The French Studies Program situates California State University, Long Beach at the vanguard of scholastic innovation in the burgeoning field of cultural studies. The French Studies major provides a unique opportunity for students to address the cultural, economical, social, and political dimensions of Francophonie. This major reinforces California State University, Long Beach's established and recognized record as a leader in offering students a global pedagogical experience that can be transferred to the working world of the present and the future.

To meet new demands for professionals, French Studies combines courses from literature and history. French Studies will enable students to draw from a multifaceted disciplinary basis to interpret cultural phenomena and trends in a variety of global contexts. Students will receive training in historical, linguistic, and literary methods in the complementary areas of French and Francophone history and literature in this major. As the only public institution of higher education in California to approach French Studies at the undergraduate level from both global and cross-disciplinary perspectives, California State University, Long Beach recognizes the cooperative and symbiotic relationship connecting the disciplines of history and literature with respect to a comprehensive understanding of the Francophone World.

French Studies Majors are required to develop a program of study in consultation with the program advisor. In addition to assisting students in the development of the program planner and providing advice on post-graduate options, the program advisor and director maintain close contact with each student in the major. Courses for the program have been selected to foster synergistic growth in French language, literature, culture and history. Students begin the major at the third-year level, after they have completed two years of college French (or have acquired the equivalent competency) and after they have completed course work in world history. At the third year they will take advanced language and composition, survey courses in French literature, historical methods, and 300-level French History courses. During the senior year, students will take French Civilization, specialized courses in the literature and history of France and the Francophone world, and the French Capstone course. Furthermore, students majoring in French Studies will be encouraged to avail themselves of the opportunity to participate in a study abroad or internship program.

Requirements

Upper Division: A minimum of forty-eight (48) units of upper division course work. Fifteen (15) units must come from the following History courses: HIST 334, 336, 337, 339 and 301. FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in French (code RGR_UM01)

A minimum of 20 units which must include: FREN 312A, 312B, 314, 411 and at least one other upper-division course in French to make a minimum total of 15 upper-division units.

The Minor in French is available to any non-French major.

Master of Arts in French (code RGR_MA01)

Prerequisites

1. A bachelor of arts degree in French, or:
2. A bachelor's degree with a minimum of 24 upper-division units in French, comparable to those required of a major in French at this University. Deficiencies will be determined by the advisor after consultation with the student and study of transcript records.

Advancement to Candidacy

1. Approval of the graduate program by the graduate advisor, the faculty advisor and/or departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies.
2. The candidate should file for advancement upon completion of 6 units and preferably no more than 9 units on the program. A 3.0 GPA is required.
3. Successful completion of the University Writing Proficiency Examination.

Requirements

1. Completion of a minimum of 30 units of approved graduate-credit courses with at least 24 units in French distributed as follows:
 - a. 15 units of 600 series courses.
 - b. 9 units of 500 or 600 series courses in French.
 - c. 6 units of other acceptable graduate-credit courses.(NOTE: Courses taken outside the Department as subject to departmental approval.)
2. Two years of college-level study, or equivalent, of another language (e.g., German, Italian, Latin, Russian, or Spanish) with a minimum average grade of "B" or better. This requirement may also be met by passing the Graduate Studies Foreign Language Test (G.S.F.L.T.) in another language with a score of 500 or better. This requirement must be completed before taking the comprehensive examination.
3. A comprehensive examination.
4. Teaching Associates must take FREN 424, Language Acquisition, during the first year of the assistantship.

Single Subject Teaching Credential, French

THE ITALIAN PROGRAM

Program Director

Carlo Chiarenza

The George L. Graziadio Center for Italian Studies

Carlo Chiarenza

The George L. Graziadio Chair of Italian Studies

The Center, established in 2001, promotes the diffusion and the study of the Italian Culture and Civilization. In addition to administering the Italian Program, the Center sponsors lectures, conferences and cultural events. The Center also offers a number of scholarships for study in Italy.

The minor in Italian opens the door to the continuing legacy of culture, taste, and civilization that are the hallmarks of Italy past and present. Italian language and literature furnish the student with a solid liberal arts foundation, ideal for the liberal studies major seeking a humanities-based concentration. The Italian minor can be taken in conjunction with any other major, and is an excellent choice for students majoring in another Romance language, or in Art, Art History, Business, Comparative Literature, Dance, English, History, Music, or the Social Sciences. The Italian program at CSULB is strong and growing, with course offerings ranging from basic and advanced level language courses to literature, civilization, and film.

Learning either Italian makes you eligible for study and travel abroad in the International Programs of the California State University System. (We are happy to assist you in including a year abroad into your program of language and literary study.) Students are highly encouraged to participate in work/study abroad options.

Bachelor of Arts in Italian Studies (code RGR_BA09) (120 units)

The Bachelor of Arts in Italian Studies is an interdisciplinary degree program designed to provide students with a rigorous grounding in comparative aspects of Italian life, language, intellectual and cultural production, past and present. Students majoring in the program *must* have semesterly consultations with the advisor. This will ensure the proper selection of courses to enhance language skills and expand knowledge in research and literacy in the appropriate disciplines. Close advisement will also permit the shaping of a student's program to adhere to career needs and personal interests, or to conform to graduate and professional school profiles.

Requirements

The student must complete a minimum of 49 units as approved by the Italian Studies Advisor.

Lower Division: Competency in the Italian Language - 16 units of lower division Italian. ITAL 101A,B, 201A, B are required. The advisor may make substitutions and exceptions on a case-by-case basis. Some courses may be waived for students who have completed sufficient high school Italian or have proved proficiency at the intermediate level. Native speakers of Italian may not enroll in ITAL 101A,B or 201 A,B.

Upper Division: A minimum of 33 upper division units selected as follows:

A. Competency in Italian Literature and Culture 12 units selected from ITAL 310, 312A,B, 314, , 335, 336, 411, 454, or 490.

B. Disciplinary and Interdisciplinary Competencies

Students will have the option to choose among three concentrations. At least 21 units from the suggested courses must be completed to fulfill the requirements for each concentration:

Concentration I: Italy and Europe

21 units chosen from: ITAL 473, 482, C/LA 314I, 315I, 444I; C/LT 330A,B, 361, 432; FEA 318I, 392, 454; GEOG 316; MUS 364I; POSC 301, 353

Concentration II: Medieval and Renaissance Italy

21 units chosen from: ITAL 414, 473, 482; AH 417, 423, 424; C/LT 330A,B, 410, 422I, 430, 432; HIST 312I, 332; MUS 363I

Concentration III: Modern and Contemporary Italy

21 units chosen from: ITAL 414, 424, 482; C/LA 314I, 444I; C/LT 330A,B, 361, 449; FEA 318I, 392, 401, 454; GEOG 316; JOUR 312I; MUS 364I, 436, 468I, 469; POSC 301, 353

C. Integrative Study Requirements: 3 units of integrative course work to be selected as follows:

1. writing a senior essay (under the direction of two faculty members),
2. completing an internship (ITAL 494), or
3. study in Italy

Electives and Other Courses

Close work with the advisor will enable majors in Italian Studies to design a comprehensive study plan for their entire CSULB experience and for life-long learning. General Education courses and electives should be chosen carefully to coordinate with the major.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Italian (code RGR_UM02)

THE GERMAN PROGRAM

Program Director
Jutta Birmele

The German program develops the student's language skills, and knowledge of current affairs in German-speaking countries, as well as cultural literacy, which are indispensable for foreign study and employment, business, government service, and careers in teaching, among others. In cooperation with the College of Engineering, the German Program promotes a double major of German and Engineering. In addition, the Program offers a BA in German Studies with a concentration/certificate in the Administration of Travel and Tourism. German Studies maintains exchange programs with the University of Bielefeld, Essen, and Oldenburg as well as Freiburg (Switzerland) and Salzburg (Austria). German students are also eligible to participate in the German-American Business Student Workshop with the Polytechnic University Hamburg, Germany.

Bachelor of Arts in German (code RGR_BA02) (120 units)

The German Studies Program promotes competency in the use of language and understanding of contemporary society in German-speaking countries. It is designed to meet the needs of students seeking a liberal-arts education with an emphasis on German language and culture; those intending to teach at the elementary, secondary, or the college level; and of those planning to use German in professional careers or in pursuit of graduate studies. Efforts are made to accommodate the special needs of students who simultaneously pursue a major in Business, Engineering or a certificate in Travel and Tourism.

Requirements

Lower Division: One year of intermediate German or equivalent. Students who have completed sufficient high-school German may take upper-division courses as soon as lower-division requirements have been met. Native speakers of German may not enroll for credit in 101A/B or 201A/B.

Upper Division: A minimum of 30 units of upper-division courses in German, which must include GERM 301, 302, 415, 416, six units of 401, and six units of 400-level literature and culture courses.

Recommendations: Courses should be selected in consultation with the major advisor. The department strongly recommends studies or an internship in a German-speaking country and will assist in such plans.

Major courses should be selected in consultation with advisor. The department strongly recommends studies or an internship in a German-speaking country.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Single Subject Teaching Credential, German

Requirements

The same as for the B.A. plus German 303 and 410:

Minor in German (code RGR_UM03)

A minimum of 20 upper division units, which must include: GERM 301, 302, 415, 416, and 401.

The Minor in German is available to any non-German major.

Master of Arts in German (code RGR_MA02)

Prerequisites

1. A bachelor of arts degree in German or:
2. A bachelor's degree with a minimum of 24 units of upper-division courses in German. These courses must be comparable to those required of a major in German at the University. Deficiencies will be determined by the department.

Advancement to Candidacy

Advancement to Candidacy should take place upon completion of at least six units, preferably no more than nine units applicable to the program, with at least a 3.0 GPA.

The candidate may file for advancement to candidacy only after she/he has filed a transcript of credits or a change-of-objective form, completed the prerequisites, and successfully completed the Writing Proficiency Examination (WPE).

The student graduate program must be approved by the graduate advisor, departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies. For graduate students interested in multimedia teaching technology, the program provides special projects and practical opportunities.

Teaching Assistantships are available.

Requirements

1. Completion of a minimum of 30 units of approved upper-division and graduate courses with 24 units in German;
2. A minimum of 18 units in the 500 and 600 series in German which must include GERM 510.
3. A reading knowledge of French, Italian, Latin, Russian, or Spanish. Another language may be substituted only under special circumstance;

THE SPANISH PROGRAM

Program Director
Claire E. Martin

Students desiring information should contact the department office for referral to one of the faculty advisors: Credential Advisor, Graduate Advisor, Undergraduate Advisor.

A major in Spanish is a treasured possession. A second major or a minor in Spanish opens many doors, but no matter what field a student plans to enter, be it health services, business, teaching, government, law, medicine, transportation, translation, engineering, or entertainment, a familiarity with Spanish will be invaluable. Bilingualism is almost an imperative in Southern California as well as in many other parts of our country.

In addition, the program provides preparation for those who plan to pursue doctoral work at other institutions. It also provides a liberal education for those who wish to expand their knowledge of the communication process and of Hispanic literature and cultures. The Spanish Program offers courses in language, linguistics, literature, culture and translation leading to the following degrees and certificates: Bachelor of Arts and Master of Arts degrees in Spanish, Single Subject Teaching Credential in Spanish. Concentration in Spanish for the Bachelor of Arts in Liberal Studies, minor in Spanish, Bilingual Concentration for B.A. in Liberal Studies, B.A. in Special Major and the M.A. in Interdisciplinary Studies.

Bachelor of Arts in Translation and Interpretation Studies

Option English/Spanish (code RGR_BA07) (120 units)

The pilot status of the degree in Translation and Interpretation Studies ends in 2006, after which the program should acquire regular status. This degree provides students proficient in both English and Spanish with an opportunity to develop and perfect their linguistic skills and cultural knowledge to pursue a career in the field of translation and interpretation. The areas covered by the B.A. in Translation and Interpretation Studies include technical vocabulary acquisition (legal, medical, business, technical, etc.), written translation research methodology (including the identification and use of primary and secondary sources), sight translation, and consecutive and simultaneous interpretation. The training covers memorization and concentration techniques in terminology acquisition and in both consecutive and simultaneous interpretation such as decalage and the incremental sentence. Instruction includes terminology and methodology resources, extensive use of the internet, court and medical transcripts and documents, video tapes, and numerous audio tapes. Students are trained in the classroom and in the simultaneous interpretation laboratory at CSULB. Students work both individually and in groups in written and sight translation, and in the consecutive and simultaneous modes of interpretation, to prepare to work in State, Federal and Immigration courts, in the medical and business sectors, in civil legal litigation, for state agencies such as the Department of Social Services, the Housing Authority and the Agricultural Labor Relations Board, the film industry, and conference interpretation. The purpose of the B.A. is to provide students with in-depth training which is at the

same time extensive and varied enough to make graduates marketable in both the public and private sectors. The B.A. in Translation and Interpretation Studies also provides training for students pursuing degrees in Business, Chicano and Latino Studies, Criminal Justice, Finance, Real Estate and Law, Health Sciences, International Studies, Journalism, and Political Science, among many other fields.

Requirements

Prerequisites: Consent of instructor.

Basic Core (21 units) comprised of seven specialized courses in order to meet the professional needs of students preparing for a career path that requires a solid foundation in translation and interpretation techniques and methodologies.

Translation and interpretation courses: SPAN 461, 462, 463, 464, 465, 466, 467.

Linguistics, Civilization and Literature courses: take 9 units from the following: SPAN 310, 423, 427 and 445.

Bachelor of Arts in Spanish

To prepare for a program of courses for the major in Spanish, the student is advised to keep in mind the upper-division options noted below as well as the Basic Core and Prerequisites for courses. The Spanish Program consists of a Basic Core (21 upper-division units) and an Option (9 upper-division units). Please note that all options will satisfy the single-subject credential requirements. However, the Linguistics/Language Acquisition Option is strongly recommended for students interested in the Single Subject Credential Program. For all options, at least one year of a second foreign language at the University level is required.

Prerequisites

One year of intermediate Spanish at the university level, or equivalent. Students who have completed sufficient high school Spanish or equivalent may take upper division courses as soon as proficiency requirements have been met. Native speakers of Spanish who have never formally studied the language are urged to take SPAN 250 (6-unit GE course).

Requirements

Students are required to take a minimum of 30 units of upper-division Spanish coursework, which must include: the Basic Core of 21 units as follows: SPAN 300, 310, 330, 341, 423, and either 430 or 445. In addition to the Basic Core, the student must complete one of the following options:

Option in General Spanish (code RGR_BA03) (120 units)

The option in General Spanish requires 9 upper division units in addition to the Basic Core. The undergraduate advisor should be consulted to ascertain the appropriate courses for this option.

Option in Linguistics and Language Acquisition (code RGR_BA04) (120 units)

The option in Linguistics and Language Acquisition is especially designed for students who are interested in teaching at the secondary or post-secondary levels or who plan to continue graduate study in Linguistics. Nine upper-division units are required from the following courses: SPAN 322, 426, 427, 424, 490, and 494.

Option in Literature and Cultural Studies (code RGR_BA05) (120 units)

The option in Literature and Cultural Studies is designed for students who desire a thorough grounding in the literature and cultures of Spain and Latin America, particularly those students who are planning on graduate study in Spanish. Nine upper-division units are required from the following courses: SPAN 428, 429, 430, 439, 441, 443, 445, 446, 490, 491, 492, 493, and 494.

Option in Translation (code RGR_BA06) (120 units)

The Translation Option introduces students to the challenges of translation per se and provides a practical grounding in various types of translation which are to be found in any work setting. In addition, it will be of value to students planning graduate work in many fields, including comparative literature and translation itself. Nine units are required, selected from the following courses: SPAN 461, 462, 463, 464, 465, 466, 467.

Additional Requirements: A minimum of one year of a second foreign language at the university level is required of all majors.

N.B.: No course being used to satisfy any requirement for the B.A. or minor in Spanish may be taken on a Credit/No Credit basis.

Minor in Spanish (code RGR_UM05)

Requirements

A minimum of 18 units in Spanish, at least 15 of which must be upper division and must include SPAN 300, and demonstration of oral fluency or 314. Students must file a Declaration of Minor and receive counseling from the undergraduate advisor.

The minor in Spanish is available to any non-Spanish major.

Single-Subject Teaching Credential, Spanish

Requirements

The same as for B.A. in Spanish.

Master of Arts in Spanish (code RGR_MA03)

Prerequisites

1. A Bachelor of Arts degree in Spanish; or
2. A Bachelor's degree with a minimum of 18 upper division units in Spanish equivalent to the Basic Core of the B.A. in Spanish at this University, with at least a "B" (3.0)

average. Deficiencies will be determined by the Master's Degree Committee after consultation with the student and study of transcript records.

Advancement to Candidacy

1. Approval of a graduate program by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.
2. Requirements: All deficiencies have been removed; the student has passed the Writing Proficiency Examination; the student has maintained at least a "B" (3.0) GPA in all work undertaken as a graduate student;
3. The candidate may file for advancement to Candidacy after filing an individualized Course Planner, completing prerequisites, and completing at least 6 units (preferably no more than nine units) on the M.A. program. The candidate must file not later than one semester or summer session prior to completion of course requirements.

Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses, with a minimum of 30 units in Spanish in the 500 and 600 series in Spanish;
2. Specifically required courses include: SPAN 524 and 650;
3. The student must take two years of one of the following languages: Italian, French, or German, or pass an examination at the intermediate level in one of those languages. A major or minor in a second foreign language may be used to fulfill this requirement, upon approval by the Department. Consult the Graduate Advisor;
4. The student must maintain a GPA of at least "B" (3.0);
5. All students must pass three-hour examinations on the Graduate Reading List in each of two areas to be selected by the student from the following: Spanish Literature, Spanish American Literature, Linguistics. (See the Graduate Advisor for the Graduate Reading List and to set up administration of the examinations. Students may take the examinations (both areas) in either April or November.)
6. No more than six units of transfer graduate credit are allowed, subject to approval by the Graduate Advisor. No more than six units of International Programs course work may be credited toward the 24-unit Spanish requirement for the M.A. at this University. International Programs units will be counted at the 400-level.

Minor in Latin American Studies (code HISTUM03)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

Requirements

1. The following are the requirements for the Latin American Studies minor:
 - A. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor.
 - B. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
2. Completion of 21 units distributed as follows:
 - A. Core (Required of all students) 6 units. Choose from two disciplines: ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359; SPAN 445.

Bachelor of Arts in Religious Studies (code R/STBA01) (120 units)

The department of Religious Studies educates students in the scholarly interpretation of religion. Students develop a critical and appreciative understanding of the complexity of religions and their importance in human life; the academic study of religion thus makes an invaluable contribution to historical and cultural literacy. The elements and forms of religion – texts and institutions, stories, moral values, symbols, ritual, doctrine, etc. – are studied in their cultural and historical contexts with sensitivity and intellectual precision. Students are introduced to the major religious traditions and to religion in the modern world. Religious Studies is interdisciplinary, relating world religions and the religious dimension of human life to both the humanities and the social sciences. Students interested in a degree program should apply to the department chair.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Master of Arts in Religious Studies (code R/STMA01)

Admission

The primary criteria for admission are the same as those for University graduate admission. In addition, the applicant must have a Bachelor's degree in Religious Studies, or its equivalent, and have achieved a 3.0 GPA in the last 60 semester units attempted. Two letters of recommendation from instructors in the undergraduate major should be included.

Program Requirements

1. Minimum total units: 30 units of upper division or graduate study, at least 24 of which must be in Religious Studies. The remaining six may be in Religious Studies or another field of study related to Religious Studies and/or the candidate's educational interests. Each student's program must include a minimum of 18 units of graduate courses, at least six of which must be in the 600 series (not including R/ST 697 and 698). All students must satisfactorily complete R/ST 501.
2. A thesis or comprehensive examination.
3. Proficiency in a modern research language (German or French) demonstrated by passing either the ETS examination with a score of 400 or better or two years of course work with an average grade of "B" or better. Proficiency in an appropriate ancient research language (Sanskrit, Biblical Aramaic, Hebrew, Chinese, etc.) replaces this requirement for students concentrating in Ancient Mediterranean and Near Eastern Religions or in Buddhist Studies. Exceptions to this requirement, especially for students not planning to pursue further graduate degrees, can be made at the discretion of the Graduate Studies Committee.
4. Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including establishing a date and a committee for the thesis or comprehensive examination. It is best done as early as possible. Students taking a comprehensive examination must be advanced to candidacy no later than the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time they begin their thesis work.

Graduate Certificate in Russian and East European Studies (code RGR_CT01)

Russian and East European Studies has an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Russian and East European Studies. Courses used to meet this certificate requirement may be counted also, where applicable toward the General Education requirement and the major and teaching minor requirements of the cooperating departments.

Interdisciplinary in concept, it covers the fields of anthropology, economics, geography, history, comparative literature, philosophy, political science and the Russian language.

The expanding opportunities for careers and public service in foreign policy administration, international organization, international business activities, education and information for intercultural understanding, make it useful to organize studies leading to a certificate in this ever important part of the world. This will tend to enhance the student's possibility for a career in business, education or government, and broaden the scope of understanding.

Interested students should apply to the Director, Russian and East European Studies, Dr. Harold Schefski, Department of Romance, German and Russian.

The University sponsors a complete athletic program. The Department of Sports Athletics, and Recreation is the administrative unit responsible for the supervision of intercollegiate athletic programs, the intramural program, the sport clubs, recreation clubs, and recreational fitness for students, faculty and staff.

The department sponsors a diverse program of intercollegiate athletics for men and women. Both programs compete under the rules of the National Collegiate Athletic Association and the Big West Conference, maintaining membership in both organizations. Women's varsity sports are basketball, golf, cross country, soccer, tennis, track and field, volleyball, water polo and softball. Men's varsity sports are basketball, baseball, track and field, cross country, water polo, volleyball, and golf. Students enrolling in intercollegiate athletic programs must meet all NCAA eligibility requirements. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, SAR, (562) 985-1904.

The intramural program offers all students the opportunity to play in a wide range of sports and activities. The program includes 25 different activities. To receive credit for this program students may enroll in SAR 200. Students must participate in a minimum of three (3) different intramural tournaments or leagues per semester. As an alternative to direct participation, students can earn class credit by officiating 15 intramural games per semester. Team activities are scheduled at varied times. League competition is available in 16 of the activities for men, women and co-educational participation. Students enrolled in the class must contact the Recreational Sports office to sign up for their activities. Upon completion of each activity, the student must notify the Recreational Sports office of their participation.

Students may participate in any of the club sports activities which are partially funded by the Associated Students, Inc., and administered through the SAR Department. These

sports are: Aikido, alpine ski-snowboard, archery, bowling, crew, ice hockey, Karate Do, outdoor adventure, rugby, sailing, Shotokan Karate, soccer, surfing, Tae Kwon Do, triathlon, volleyball (men's), ultimate frisbee and water ski. Students registering for SAR 210 must attend regular practices and competitions, assist the club with fund raisers and adhere to the rules and regulations. For information on practice times and meeting locations, contact the individual club coach or president. Visit the Recreational Sports website (recsports@csulb.edu) or visit the office at PE Bldg., room 20. In addition to participation in club sport activities, students may also receive credit for leadership training and service performed with any university sponsored program in which club sports is promoted.

Students may apply no more than four (4) semester units of lower-division SAR courses toward the baccalaureate degree within the 20-unit maximum on activity units generally, except that the combined total of lower-division SAR activity units must not exceed four (4) units and the total of lower-division KPE activity units must not exceed eight (8) units. Upper-division SAR courses, with the exception of SAR 325, may be taken one time only and not in conjunction with the lower division SAR courses. SAR 325 may be repeated to a maximum of 4 semester units and may be taken in conjunction with any other SAR course.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

Courses (SAR)

Lower Division

200. Intramural Activities (1)

210. Sport Clubs/Leadership (1)

Participation or competition in sport clubs as conducted under the respective club/team policy or leadership opportunities as outlined by the Recreation Director. Enrollment subject to approval by the coach of the sport or the Recreation Director. Athletes enrolled who fail to qualify for the squad must withdraw from the course. It is the responsibility of the student to contact the representative of each of these teams regarding practice times and eligibility requirements. These courses may be repeated to a maximum of 4 units. Credit/No Credit grading only.

- A. Archery
- B. Crew
- C. Cycling
- D. Ice Hockey
- E. Martial Arts
- F. Rugby
- G. Sailing
- H. Ski and Snowboard
- I. Soccer
- J. Water Ski
- K. Surfing
- L. Leadership
- M. Triathlon

260-299. Intercollegiate Sports (1)

Competition in NCAA-regulated major and minor sports. Enrollment subject to approval of the coach of the sport. Athletes enrolled who fail to qualify for the squad must withdraw from the course. These courses may be repeated to a maximum of 4 units. Credit/No Credit grading only.

261. Women's Softball (1)

262. Men's Baseball (1)

263. Women's Basketball (1)

264. Men's Basketball (1)

265. Women's Track and Field (1)

266. Men's Track and Field (1)

269. Women's Volleyball (1)

271. Men's Water Polo (1)

272. Men's Volleyball (1)

275. Women's Golf (1)

276. Men's Golf (1)

277. Women's Tennis (1)

281. Women's Cross-Country (1)

282. Men's Cross-Country (1)

284. Women's Soccer (1)

Upper Division

319. Theory and Practice of Minor Intercollegiate Sports (2)

Both grading options.

320. Theory and Practice of Major Intercollegiate Sports (2)

Credit/No Credit grading only.

325. Student-Athlete Leadership Development and University Service (1)

Prerequisites: Upper division standing., consent of instructor.

Must be an official member of an NCAA (National Collegiate Athletic Association) Intercollegiate team at CSULB. This course is designed to help student-athlete juniors and seniors hone their communication and facilitation abilities to better function within groups, the community, and in their prospective careers. In addition to focusing on skills needed in any people dynamic and group process, information on academic, athletic, and social development of student-athletes, and how a peer mentor can positively impact that development will be featured. Heavy emphasis will be placed on the experiential component of learning. May be repeated to a maximum of 4 units and may be taken in conjunction with any other SAR course. Credit/No Credit grading only.

The Department of Science Education is strongly committed to the improvement of teaching and learning in science at all levels, Pre-Kindergarten - University. The activities of the Department are highly diversified, ranging from its roots in teacher preparation through science education projects of national significance. Faculty of the Department of Science Education play an important role in preparing and credentialing elementary and secondary school teachers for science teaching. Significant emphasis is also placed on providing experienced teachers with continuing opportunities to refine and raise the effectiveness of their science teaching. Science Education faculty similarly work with university science department teaching associates. In all its endeavors, the Department maintains close ties with the teachers and schools of the greater Long Beach area. The Department offers a Masters of Science degree for the practicing teacher of science in elementary and middle schools.

The Department also undertakes projects aimed at pre-college students. The "Head Start on Science" project, one of only two such projects supported by the US Department of Health and Human Services, is developing a "sense of wonder" science component for 4-year old "Head Start" youngsters, their teachers and parents. Other recent projects of the Department have included: The Project to Improve Methods Courses in Elementary Science and the Minority Opportunities in Science Teaching Project (Project MOST), Long Beach Science and Math Teacher Education Partnership (LBESTEP), CSU/NASA Education Collaborative and Young Scientists' Camp. To complement their teaching activities, Science Education faculty members maintain an active program of research and are involved in a variety of local, state, and university organizations and projects to improve science and environmental science education.

The Science Education Department houses a suite of instructional classrooms and a small multimedia computer laboratory. The classrooms and lab are Internet-wired offering students interconnectivity and access to many web-based instructional materials. The Science Education Department is committed to meaningful integration of technology into the teaching and learning of science. All Science Education students are required to use multimedia tools and electronic probeware in and outside of class. The Department also maintains an extensive Science and Environmental Education Curriculum and Materials Resources Center that includes science teaching guides, textbooks, professional journals, and computer software. Students and local teachers are welcome to explore these resources during campus and daytime hours. The Department also sponsors a student chapter of the National Science Teachers Association (NSTA) known as the Association of Future Science Educators (AFSE).

Master of Science in Science Education

The M. S. in Science Education is designed primarily for credentialed K-12 teachers interested in deepening their understanding of science, education, and the teaching and learning of science. The program includes a blend of courses from the Department of Science Education, the College of Natural Sciences and Mathematics, and the College of Education. The program introduces candidates to Science Education as a field of study, with its own journals, issues, and research areas.

Option in Elementary Science Education (code SCEDMS01)

The option in Elementary Science Education is designed for teachers who are K-8 generalists. Although aimed at those with a Multiple Subject credential, the program may also be appropriate for Single Subject teachers interested in increasing the breadth of their scientific knowledge.

Students completing this option will be prepared to assume positions of greater science leadership at their schools or districts, or go on to further graduate study in science education.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student stated in this Catalog under Graduate Degrees and Post Baccalaureate Studies, the Science Education department requires:

- California Multiple Subject or science teaching credential (or the equivalent).
- GPA of at least 3.0 for the last 60 units of study completed.

Students are expected to exhibit high standards of writing proficiency. Students missing any admission criteria may only be admitted after receiving the approval of a department graduate faculty committee.

Application

Prospective graduate students in M.S. in Science Education, including CSULB graduates, must formally apply for admission to CSULB as described previously in this Catalog and must also apply directly to the Department of Science Education. All applicants must submit the following documents directly to the Science Education department office:

1. Completion of departmental application form, including personal statement. The application form is available in the Department of Science Education office and on the internet [<http://www.scienceteaching.org>, click on "Masters Info"].
2. Two confidential recommendation letters, sent under separate cover, including one from an administrator or supervisor at a school where the applicant is (or was) employed.
3. Transcripts (in addition to those required by the university; photocopies acceptable).

Prospective graduate students must also receive a positive recommendation following an interview with graduate faculty.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all completed applications and recommend either accepting of the applicant as a Classified or Conditionally Classified graduate student, or denying admission. All accepted students should contact the Departmental Graduate Advisor before their first semester for advisement and orientation.

Classified Graduate Student

The Department of Science Education will recommend for admission as a Classified graduate student any applicant who has met all prerequisites and been accepted by the Graduate Studies Committee as a Conditionally Classified student.

Conditionally Classified Graduate Student

An applicant who fails to meet the criteria for Classified admission to the Department may be considered by the Graduate Studies Committee for admission as a Conditionally Classified graduate student. The Graduate Studies Committee will determine what deficiencies each applicant has and specify what the individual must do to make up those deficiencies. The applicant must make up all such deficiencies before attaining Classified status.

The Program of Study

The Program of Study includes successful completion of:

- 6 units from EDP 400, 500, 519, 595, 419, 420, 520, 523, 553, or 623 (chosen in consultation with advisor)
- Science Education core courses: SCED 550, 551, 552
- Science courses: SCED 500, 501, 502, 697
- Thesis/project: SCED 698

Advancement to Candidacy

In addition to the general University requirements stated under Post-Baccalaureate and Graduate Degrees in this Catalog, the student must have completed satisfactorily the Science Education core courses (SCED 550, 551, and 552) and established a Thesis Committee before receiving Candidate status. Upon evidence of satisfactory academic progress, the Thesis Committee will recommend the student for advancement to candidacy by forwarding its recommendation to the Department Graduate Advisor. Upon approval by the Associate Dean, the student will be advanced to candidacy.

Courses (SCED)

Upper Division

302. Elementary School Science Workshop (3)

Prerequisites: SCED 401. A practicum on the development and use of "hands-on" elementary school science teaching/learning activities, units and learning centers. (Lecture 2 hrs., workshop 2 hrs.) Course fee may be required. Letter grade only (A-F).

401. A Process Approach to Science (3)

Prerequisites: BIOL 200; PHSC 112; GEOL 102 and 104; all with a "C" or better grade. The processes of science as they relate to the life, earth, and physical sciences. Practical approaches to understanding how science works will be modeled and integrated throughout. (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required. Letter grade only (A-F).

403. Seminar in Integrated Science (2)

Prerequisites: Completion of all credential breadth requirements for Single Subject Teaching Credential in Science, three-fourth of the credential specialization courses, and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. Requires presentations, discussions, and critical evaluations by students on selected interdisciplinary topics in the sciences. Occasional field trips may be required. Letter grade only (A-F). (Seminar, 2 hrs.) Letter grade only (A-F).

404. The Nature of Science and Scientific Reasoning for Teachers (3)

Prerequisites: Completion of at least three-fourths of the credential specialization courses for Single Subject Teaching Credential in science and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. SCED 404 has three aims. The first aim is that students better understand the nature of science — its history, philosophy, psychology, and sociology. The second is that students better understand the methods of science and how to critically evaluate reports about scientific investigations. Finally, students learn how to apply these understandings to the 6-12 classroom. (Lecture 3 hrs.) Letter grade only (A-F).

490. Special Topics in Science Education (1-3)

Prerequisites: Consent of instructor. Selected topics in Science Education. Course content will vary from section to section. May be repeated to a maximum of 3 units with different topics in different semesters with consent of instructor. Letter grade only (A-F).

496. Directed Studies in Science Education (1-3)

Prerequisites: Consent of instructor. Supervised study of current topics in science education. May be repeated to a maximum of 3 units with different topics in different semesters. Letter grade only (A-F).

Graduate Level

500. Life Science Applications for K-8 Teachers (3)

Prerequisites: Admission to M.S. in Science Education program and BIOL 200. This course emphasizes major themes and processes in the life sciences, focusing both on deepening understanding of these concepts and on approaches to teaching this material in the K-8 classroom. Practical approaches to developing and teaching inquiry-based/experiential learning units in biology will be modeled and integrated throughout the course. Letter grade only (A-F). (Seminar, 3 hrs.)

501. Earth Sciences Applications for K-8 Teachers (3)

Prerequisite: Admission to the M.S. in Science Education program and GEOL 102+104 or GEOL 106. This course investigates earth science topics with a focus on deepening the connections between earth science concepts and concepts of matter and energy cycling, as well as providing applications of earth science concepts and activities in K-8 classrooms and schools. Letter grade only (A-F). (Seminar, 3 hrs.)

502. Physical Science Applications for K-8 Teachers (3)

Prerequisite: Admission to M.S. in Science Education program and PHSC 112. This course investigates physical science topics with a focus on deepening students' science understanding while showcasing applications of physical science for students' personal lives and their K-8 classrooms and schools. Letter grade only (A-F). (Seminar, 3 hrs.)

550. Current Issues and Research in Science Education (3)

Prerequisite: Admission to M.S. in Science Education program. SCED 550 is a core course in the M. S. in Science Education. This survey course introduces students to the body of research and practical knowledge shared by the science education community. Course work includes studying and discussing articles chosen from the science education literature relevant to key issues in science education. Course requirements include attending local, state, or national science teachers conventions. Letter grade only (A-F). (Seminar, 3 hrs.)

551. Science Teaching, Learning and Curriculum Models (3)

Prerequisite: Admission to M.S. in Science Education program and SCED 550. SCED 551 is a core course in the M. S. in Science Education. The course introduces students to the professional literature about science teaching and learning. The course also traces the historical development of elementary and secondary science curriculum models. Students will look at the role science and education organizations have played in reforming the science curriculum, and analyze curricula from a variety of teaching and learning perspectives. Letter grade only (A-F). (Seminar, 3 hrs.)

552. Nature of Science (3)

Prerequisite: Admission to M.S. in Science Education program and SCED 550. This is a core course in the M.S. in Science Education. This course looks at science from historical, philosophical, psychological, and sociological perspectives. The course examines perceptions of science and scientists, especially views of science in different cultures and times. The course also discusses using these perspectives to teach students about the nature of science. Letter grade only (A-F). (Seminar, 3 hrs.)

697. Directed Research (1-3)

Prerequisite: Consent of instructor and admission to M.S. in Science Education program. Independent investigation of a research problem or directed project, under the direction of a faculty member. Letter grade only (A-F).

698. Thesis (1-3)

Prerequisite: Advancement to Candidacy for the M. S. in Science Education, 18 units of coursework required for M.S. Science Education completed, and consent of the chair of the thesis committee. Planning, preparation, and completion of the thesis project in Science Education. Letter grade only (A-F).

A teacher with a Single Subject Credential is authorized to teach the specific subjects named on the credential in departmentalized schools. This is commonly done in California high schools and in most California junior high and middle schools. However, a teacher authorized for single subject instruction may be assigned to teach any subject in his or her authorized fields at any grade level: pre-school, kindergarten and grades one through twelve; or in classes organized primarily for adults. The Single Subject Credential Program (SSCP) prepares university students to be credentialed in California for single subject instruction. At CSULB the program includes courses in the student's teaching subject area, in Secondary Education (EDSE), and in Single Subject Education (EDSS).

Students are able to receive information brochures by calling the Single Subject Teacher Education Program office at (562) 985-7622.

Single Subject Credential Program (code 100)

The Single Subject Credential Program is a 44 unit program comprised of one prerequisite, four co-requisites, four core courses, and the capstone student teaching experience and student teaching seminar. EDSS 300, the prerequisite course, must be taken prior to other EDSS and EDSE courses. The co-requisites may be taken prior to or concurrent with EDSS 300, or concurrent with the core courses. All course work must be completed prior to student teaching, except for the student teaching seminar which is taken concurrent with student teaching. Student teaching is a full teaching day, Monday through Friday, for approximately 20 weeks under the guidance of one or more cooperating teachers and a university supervisor.

Program Courses

Prerequisite: EDSS 300 (separate sections offered for each subject area)

Corequisites: EDP 301 or 302 or 305; HSC411B; EDP 350; Level I technology course or state-approved exam

Core Courses: EDSE 435, 436, 457; EDSS 450

Capstone: EDSS 472 and 473 or 572 and 573

Candidates in the 10 subject area programs can meet the computer technology requirement through the following courses: Art (ART 305), English (ENGL 337), Home Economics (FCS 387), Health Science (ETEC 444), LOTE (RGR 470), Mathematics (MTED 301), Music (MUS 125T), KPE (KPE 354), Science (EDSS 300C, 450C, 472), Social Science (ETEC 444).

All professional coursework for the credential must be completed within seven years of admission to the program.

In addition to professional preparation, all credential candidates must demonstrate subject matter competence by one of the following: (a) completion of a Commission-approved subject matter program; (b) passing scores on the CSET or PRAXIS and/or SSAT exams; (c) transcript review. Candidates should confer as early as possible with the Credential Advisor in their subject area to develop an efficient program plan.

Admission to the Program

Before beginning the Single Subject Credential Program, students should be admitted to the university. Apply for admission if you are (a) a graduating senior at CSULB, (b) transferring from another institution, or (c) returning to the university after an absence of one or more semesters. Admission to the university does not constitute admission or acceptance in the SSCP. Application to the program is normally made as part of the course requirements for EDSS 300. Students may take the EDSS 300 course as early as the junior year with a minimum of 60 units.

Program Admission Requirements

1. Complete the prerequisite course EDSS 300 in the appropriate subject area.
2. Perform satisfactorily in the 45 hour field work requirement in EDSS 300.
3. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester units or 90 quarter units attempted.
4. Complete a personal interview with program faculty.
5. Submit two letters of recommendation that speak to the candidate's potential for successful public school teaching.
6. Submit a written statement of professional goals and philosophy of education.
7. Submit an application for a Certificate of Clearance to the California Commission on Teacher Credentialing (CCTC), or provide evidence of recent fingerprint clearance.
8. Submit a tuberculosis skin test or chest x-ray taken within the previous three years. Tuberculosis clearance must be valid through student teaching.
9. Take the CBEST exam. You must take all three parts of the exam. (Passage of the exam is required to advance to student teaching.)
10. Demonstrate proficiency in reading and writing English by (1) attaining the minimum passing score of 37 on the reading portion of the CBEST exam or by (2) achieving a "C" grade or better in a course satisfying the General Education requirement in literature or philosophy and by (1) attaining the minimum passing score of 37 on the writing portion of the CBEST or by (2) passing the Writing Proficiency Exam (WPE).
11. Demonstrate ability to communicate orally in English at the level required of public school teachers by demonstration of English production skills in the course EDSS 300 and through an oral interview with subject matter program faculty. In the case of candidates for a credential in teaching Languages Other Than English, there is a bilingual interview requirement in English and the target language.
12. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching in public schools through the application documentation, the personal interview, and performance in the course EDSS 300.
13. Submit a completed program application to the EDSS 300 instructor.
14. Complete all requirements for admission to the program unique to the candidate's subject matter program.

5 Year Preliminary Credential

Successful completion of the Single Subject Credential Program leads to the Preliminary Credential, which is valid for five years.

Requirements

1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U. S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST.
4. Hold a Certificate of Clearance (fingerprint check).
5. Demonstrate subject matter competence.
6. Complete all prerequisite, co-requisite, core and capstone courses with a minimum grade of "C". A minimum grade point average of 3.0 must be attained in the EDSS and EDSE courses. A minimum grade of "B" must be attained in EDSS 450.
7. Demonstrate Level I Computer proficiency.
8. Complete student teaching.

Student Teaching

Student Teaching is a full day, full semester responsibility following the school district calendar. Students teach three classes which represent different aspects or levels of the single subject major. The other two periods are for preparation and observation. The university determines the specific student teaching assignment. There are a wide variety of schools and teaching situations available in the program service area representative of the diversity of the region.

Advancement to Student Teaching is based upon a second thorough assessment of the candidate's qualifications. The process involves an evaluation of the applicant's file and an interview with faculty in the Single Subject Program. The criteria for advancement are as follows:

1. Potential for success in teaching, as indicated by successful leadership, teaching experience, or work experience. Updated information regarding the candidate's most recent experience, including work in EDSS 450, forms the basis of this assessment.
2. Continuing motivation for and enthusiasm toward teaching, together with those personality traits believed essential for successful teaching. Evidence includes a strong recommendation from the instructor of the 450 class and further recommendations from faculty who have worked with or have interviewed the student since the time of admission to the credential program.
3. Academic competence, overall and in the teaching major. The level of academic achievement of candidates is expected to be above average.

Advancement to Student Teaching Requirements

1. Member in good standing of the Single Subject Credential Program.
2. A GPA of 2.75 in the last 60 units, or 2.67 overall.

3. A minimum grade of "C" in each course in the program, including prerequisites, corequisites and core courses, and completion of the EDSS and EDSE courses with a GPA of at least 3.0. Completion of EDSS 450 with a minimum grade of "B."
4. TB clearance (clearance must be valid through completion of student teaching).
5. Pass the California Basic Educational Skills Test (CBEST) prior to the student teaching application deadline.
6. Satisfy the subject matter mastery requirement prior to the student teaching application deadline.
7. Attend a student teaching application meeting and submit a student teaching application by October 1 or March 1 of the semester prior to student teaching.

Student Teaching Application Process

1. Student Teaching applications are distributed at regularly held information meetings. Candidates for advancement to student teaching must attend a meeting. Meeting dates are posted outside the Single Subject Program office and are available on the website.
2. The application for Student Teaching is reviewed by the student's Single Subject major area. The Credential Center evaluates transcripts. The department then makes a recommendation to the University Single Subject Teacher Education Committee which takes final action. When approved by this committee, the student registers for student teaching. A priority system is used if sufficient funding is not available to allow all qualified applicants to enroll in student teaching.
3. A Certificate of Clearance must be on file in the Credential Center prior to the beginning of Student Teaching.

Professional Clear Credential

Beginning teachers have five years to obtain the Professional Clear Credential.

Requirements

1. Hold the Preliminary Credential (see above).
2. Option 1: A Commission-accredited SB 2042 Professional Teacher Induction Program (if available in the district of employment).
3. Option 2: A Beginning Teacher Support and Assessment (BTSA) Program AND the four additional requirements of health education, teaching special populations using technology, and teaching English learners.
4. Option 3: A fifth year of university study AND the four additional requirements of advanced course work in health education, teaching special populations, using technology, and teaching English learners. Advanced courses must be taken after issuance of the Preliminary Credential

Petition Process

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the Single Subject Program Petition Committee. The Petition Committee reviews the written statement and supporting evidence and interviews the candidate, if necessary. After the review, the Committee renders its final decision. Students follow university policy to appeal a course final grade.

Single Subject Credential Program Majors

The subject matter programs listed below have been approved by the California Commission on Teacher Credentialing. Completion of a program as an undergraduate major (or as a returning graduate student) meets the subject matter competence requirement for the teaching credential. With careful planning, it may be possible for undergraduates to complete the professional preparation (education) courses concurrent with the major, with the exception of student teaching (which may be done the first semester after graduation). Subject matter competence may also be demonstrated by passing the appropriate CSET or PRAXIS and/or SSAT exam. Candidates should consult the Credential Advisor in their area of interest to develop an efficient program plan.

Art Education (code 110)

Students are required to complete 30 units of core courses and an additional 36 units to provide breadth and perspective. Refer to the list of courses under the Bachelor of Arts Degree in Art (Art Education) in the Art Department section of the catalog. Consult the Art Education Credential Advisor for program information.

English Education (code 120)

The English subject matter program is currently under revision. The updated program could take effect as early as Fall 2004. Consult the English Education program advisor.

All English Education students must complete the following 35-unit core: ENGL 184*, 310*, 327 (cross-listed with LING 327), 363*, 375, 410, 482, LING 339; one course from the following: ENGL 250A*, 250B*; one course from the following: ENGL 270A*, 270B*. Note that asterisked courses are 4-unit courses.

In addition to the core requirements, English Education students select an area of emphasis from the following choices. Please note that the areas of emphasis vary in the number of units they require.

Black Studies Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): B/ST 140, 343, 415, 499; select three units from B/ST 155, 201, 370; select three units from B/ST 180, 240, 340, 346.

Comparative Literature Emphasis

Students are required to complete the core of thirty-five (35) units and fifteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): select one course from C/LT 101, 161; select three units from C/LT 101, 330A, 330B; select three units from C/LT 250, 251, 410, 412I, 451I; select three units from C/LT 234, 235, 236, 403, 415I, 440; select three units from C/LT 310I, 312I, 414I, 421I, 422I, 431, 432, 438.

Creative Writing Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): select nine units from ENGL 404, 405, 406, 407, 408, 499; select nine units from ENGL 385, 386, 459, 463, 467A, 467B, 474, 475, 476, 477A, 477B, 478.

Journalism Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of twenty-one (21) units to provide breadth and perspective.

Breadth and Perspective (21 units minimum): JOUR 110, 120, 319, 320, 331, 430; select a minimum of three units from JOUR 300, 312, 370, 422, 431, 490, 499.

Language and Linguistics Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): select six units from LING 420, 421, 433; select six units from LING 485 (or ED P 485), 486; select three units from ANTH 421 or LING 472; select three units from ENGL 435, LING 460.

Literacy and Composition Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of fifteen (15) units to provide breadth and perspective.

Breadth and Perspective (15 units minimum): ENGL 435, 436; select a minimum of six units from ENGL 309, 496, 497, LING 435, 460; select three units from ENGL 300, 317, 405, 406, 407, 417, 418.

Literature Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of fifteen (15) units to provide breadth and perspective.

Breadth and Perspective (15 units minimum): ENGL 384; select three units from ENGL 451, 452, 453, 455, 456, 458, 459; select a minimum of three units from ENGL 474, 475, 476, 477A-B, 478, 479; select three units from ENGL 318I (or FEA 318I), 385, 386, 398; select three units from C/LT 100 or any upper division English course.

Speech Communication Emphasis

Students are required to complete the core of thirty-five (35) units and twenty-one (21) units to provide breadth and perspective.

Breadth and Perspective (21 units): select six units from COMM 110, 130, 171; select six units from COMM 331, 333, 335; select 9 units from COMM 306, 309, 355, 410, 411, 451.

Theatre Arts Emphasis

Students are required to complete the core of thirty-five (35) units and twenty-three (23) units to provide breadth and perspective.

Breadth and Perspective (23 units): THEA 101, 114A, 142, 148, 321, 374, 476; select one unit from THEA 310A or 340A.

Languages Other Than English (LOTE)

At CSULB, there are four Commission-approved programs in Languages Other Than English: French, German, Japanese, and Spanish. Successful completion of one of these programs constitutes demonstration of subject matter

competence in the target language. For subject matter requirements in German, French and Spanish, refer to the Department of Romance, German, Russian Languages and Literatures (RGRL). For subject matter requirements in Japanese, refer to the Department of Asian and Asian American Studies. Candidates should see the LOTE Credential Advisor at the earliest possible date to develop a program plan.

Health Science Education (code 130)

Complete the requirements for the B.S. in Health Science with an option in School Health.

Home Economics Education (code 140)

Home Economics Education is also known in the profession as Family and Consumer Sciences Education. Students must complete the requirements for the Bachelor of Arts degree in Family and Consumer Sciences with an Option in Education.

The following general education courses are required: CHEM 100; ECON 100 and 101 or 300; ENGL 100, 101 or 300 or 317; PSY 100; SOC 100 or ANTH 120; and COMM 110.

The required Family and Consumer Sciences courses are: FCS 111, 132, 154, 173, 226, 235, 251, 275, 296, 299, 312I, 314, 321*; 322, 353, 387, 488, 492, 499, plus 12 units of one of the following concentrations: Child Development and Education Occupations (FCS 214, 414, 416A, 416B); Fashion Design, Manufacturing, and Merchandising (FCS 255, 351, 355, 455); or Foodservice and Hospitality (FCS 270, 375, 464, 477).

The professional education courses may be started as early as the junior year. Although it is possible to complete the educational sequence as part of the undergraduate degree, it is more typical to complete those courses (including student teaching) in two or three semesters after graduation. Students should consult with the Family and Consumer Sciences Education Credential Advisor as early as possible in order to design an efficient undergraduate program of study. Students may also work on a teaching credential while completing a Master of Arts degree in Family and Consumer Sciences.

Students who earn a Home Economics single subject credential will be prepared for careers in teaching youth and adults in various educational settings. Career opportunities include teachers in middle schools, junior and senior high schools, adult or career and technical education programs, and community colleges; positions in cooperative extension, government, and community agency services; and education program specialists in business, industry and government.

Mathematics Education (code 165)

The math subject matter program is currently under revision. The updated program could take effect as early as Fall, 2004. Consult the Math Education program advisor.

The requirements listed below reflect current state standards. Advisement sheets are available in the Mathematics Department. Direct questions to the Mathematics Education Credential Advisor.

Students are required to complete the following program of twenty-one (21) lower division units and thirty (30) upper division units.

Prerequisites: Precalculus mathematics (MATH 117) or four years of high school mathematics including two years of algebra, one year of geometry, 1/2 year of trigonometry, and an additional senior-level course.

Lower Division: MATH 122, 123, 224; MATH 233; 247.

Upper Division: MATH 310, 341, 355, 361A* or 364A, 380, 381, 410, 444, MTED 301, 411; Upper division Mathematics elective (3 semester hours).

* Preferred course

Music Education (code 170)

Students are required to complete the Bachelor of Music degree with an option in choral/vocal or instrumental music that includes twenty-seven (27) core units in music education. Consult the Credential Advisor for developing a program plan.

Physical Education (code 175)

Complete the requirements for the Bachelor of Arts in Kinesiology with an Option in Adapted Physical Education, Elementary School Physical Education, or Secondary School Physical Education.

Science Education

The Science subject matter program is currently under revision. The updated program could take effect as early as Fall 2004. Consult the Science Education program advisor.

California Single Subject credentials in science require background in all the sciences, as well as more specialized study in one discipline. For this reason, students are required to complete both Breadth and Specialization courses as outlined below.

Breadth Requirements

Required of all credential specializations: ASTR 100, BIOL 211A-B, CHEM 111A-B, GEOL 102, 104, and 160, SCED 403, and PHYS 400I. In addition, students specializing in Geosciences or Physics are required to complete PHYS 151 and 152 and MATH 122. Those specializing in either Biological Sciences or Chemistry are required to complete *either* PHYS 100A-B *or* PHYS 151 and 152, *and either* MATH 119A *or* MATH 122. It is further recommended that candidates also complete GEOL 240.

Specialization Requirements

In addition to completing the breadth requirements, students also select one of the following four science specializations: Biological Sciences, Chemistry, Geosciences, or Physics. Requirements for each of these are outlined below.

Biological Sciences (code 184)

CHEM 327, BIOL 260, 312, 340, 345, 350, and 370; *and either* BIOL 439, 447, *or* 328; *and either* MICR 300I, 302I, *or* BIOL 303. It is further recommended that candidates also complete *either* BIOL 313, 324, *or* 332.

Chemistry (code 181)

CHEM 251, 320A-B, 441A, 496, 451 *and* MATH 123; *and either* CHEM 431 *or* 441B. It is further recommended that candidates also complete *one* of the following Physical Chemistry sequences: *either* CHEM 377A-B *or* CHEM 371A-B.

Geosciences (code 182)

GEOL 273, 324, 341, 343, 428, 433, 450, *and* MATH 123; It is further recommended that candidates also complete GEOL 429 *and either* GEOL 460, 461, *or* 462.

Physics (code 183)

MATH 123, 224; PHYS 154, 155, 310, *and* 340A; *and either* PHYS 330 *or* 475-476; *and either* PHYS 380 *or* 496; *and either* MATH 370A *or* 364A.

Social Science Education (code 185)

The Social Science subject matter program is currently under revision. The updated program could take effect as early as Fall 2004. Consult the Social Science program advisor.

Candidates must complete 45 units from the menu of core requirements listed below. To add breadth and perspective to the basic core, each student must complete 15 additional units in the breadth area. Consult the Social Science Education Credential Advisor for program information.

Core Requirements (45 units):

Capstone

CLA 495 (should be taken at or near conclusion of the undergraduate major)

History

HIST 211, 212, 172, 173, 396, 473. Choose one of the following courses: HIST 469 *or* 485A/B *or* 486

Geography

GEOG 100, 306

Political Science

POSC 100 *or* 391; POSC 215

Behavioral Science

PSY 100 *or* SOC 100 *or* ANTH 120

Economics

ECON 300

Breadth Requirements (15 units):

Candidates must choose nine units from one field listed below, and six units from a second field listed below:

1. World Perspectives
2. National Perspectives
3. State Perspectives
4. Citizenship Perspectives
5. Ethical Perspectives
6. Diversity and Equity

Breadth courses in each field must be chosen from the following:

1. World Perspectives
HIST 317, 335, 337, 338, 339, 340, 364, 382B, 383B, 385, 386, 391, 392, 394, 406A, 406B, 432, 451, 483, 491; GEOG 308I, 309I, 313, 314I, 316, 318, 320I, 326; ANTH 307I, 323, 324, 332, 333, 335, 336; POSC 353, 354, 356, 357, 358, 359, 362, 364, 366, 367; ECON 361I, 365, 368, 369, 370
2. National Perspectives
HIST 373, 375, 376, 378, 379, 380, 478; POSC 308, 420, 423, 424; ECON 360I
3. State Perspectives
ANTH 321, 322, 329; GEOG 303; 304; POSC 326

4. Citizenship Perspectives
HIST 479, 480; POSC 210, 311, 312, 412, 428
5. Ethical Perspectives
HIST 371; PHIL 160, 203, 204, 306, 307; R/ST 102, 103, 202
6. Diversity and Equity
ASAM 102, 200, 220; B/ST 120, 121, 210; CHLS 100, 101, 300, 352; HIST *469, 485A*, 485B*, 486; POSC 323; SOC 341 (same as CHLS 352); W/ST 102, 315, 320, 370, 485A* (same as HIST 485A), 485B* (same as HIST 485B)

*Cannot be used as part of the breadth requirement if this course is chosen as part of the core requirement.

Single Subject Teacher Internship

In cooperation with approved school districts, the Single Subject Program offers a Single Subject Intern Program. Since the Intern serves as the full-time teacher of record at a cooperating middle or high school, the program is limited to outstanding candidates who have exceptional skills for classroom teaching and who have demonstrated subject matter competence. Interns are generally assigned to teach full-time in a shortage field.

The intern academic program is the same as the regular Single Subject Program. Interns must complete the professional sequence prior to the culminating field experience. The culminating field experience substitutes for traditional student teaching. Interns register for EDSS 572A, B, and C (intern student teaching) and EDSS 573 (seminar) during the final intern semester. The program provides the Intern with university supervision through the EDSS 572 course. The cooperating school district provides site-based support for the Intern.

Admission Criteria

Candidates submit applications for the Intern Program for review and action by the University Single Subject Teacher Education Committee. Upon acceptance into the Intern Program, candidates must submit the state application for an Intern Credential with supporting documents and fees to the CTC through the CSULB Credential Center.

Requirements

1. Hold a baccalaureate degree from an accredited institution.
2. Be a member in good standing in the SSCP.
3. Be enrolled in at least one CSULB course.
4. Demonstrate subject matter competence.
5. Pass the California Basic Educational Skills Test (CBEST).
6. Meet the U. S. Constitution requirement.
7. Meet the program GPA requirement.
8. Have health clearance valid through the period of the internship.
9. Hold a Certificate of Clearance.
10. Have an offer of employment as an Intern from a participating school district.

Single Subject Education Courses (EDSS)

300A-S. Introduction to Teaching (3)

Prerequisite: Advanced sophomore or junior standing. This course introduces students to the profession of teaching in the state of California, with an emphasis on the specific subject area. It covers in an introductory fashion: the structure, organization, and culture of schools; curriculum, instruction, assessment, and classroom management primarily in secondary school settings (but in some cases, elementary settings); the history and current status of the subject area; becoming a reflective professional. Topics are contextualized in the cultural, linguistic, ethnic, and ability diversities represented in California classrooms. Prepares students for more in-depth study in subsequent courses. Submission of application to the Single Subject Credential Program (SSCP) is made during the course. Directed field work in a middle or high school (or in some cases, elementary school) required. Required first course in the professional education sequence of the Single Subject Credential Program. Three hours lecture. Forty-five hour field work requirement. "B" grade or better required for admission to the SSCP. Letter grade only (A-F).

300 A. Art

300 C. Science

300 D. Health Science (F)

300 F. Languages Other Than English: French, German, Japanese, Spanish

300 G. English

300 H. Home Economics (F)

300 M. Mathematics

300 N. Music (S)

300 P. Physical Education

300 S. Social Science

450A. Curriculum and Methods in Teaching Art (3)

Prerequisite: EDSS 300A; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching art to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Course fee may be required. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450C. Curriculum and Methods in Teaching Science (3)

Prerequisite: EDSS 300C; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Lecture 2 hours; laboratory 3 hours. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450D. Curriculum and Methods in Teaching Health Science (3) S

Prerequisite: EDSS 300D; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching health science to diverse student populations. Builds on prior

Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450F. Curriculum and Methods in Teaching Languages Other Than English (3)

Prerequisite: EDSS 300F; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching languages other than English to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450G. Curriculum and Methods in Teaching English (3)

Prerequisite: EDSS 300G; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching language, literature, and composition to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450H. Curriculum and Methods in Teaching Home Economics (3) S

Prerequisite EDSS 300H; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching home economics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450M. Curriculum and Methods in Teaching Mathematics (3)

Prerequisite: EDSS 300M; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching mathematics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450N. Curriculum and Methods in Teaching Music (3) F

Prerequisite: EDSS 300N; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching music to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450P. Curriculum and Methods in Teaching Physical Education (3)

Prerequisite: EDSS 300P; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator; current standard first aid/CPR certification; completion of all skill performance proficiencies with an overall score of 3.5. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching physical education to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

450S. Curriculum and Methods in Teaching Social Science (3)

Prerequisite: EDSS 300S; admission to the Single Subject Credential Program or permission of the Single Subject Credential Program University Coordinator. Objectives, curriculum, materials, and instructional methods and strategies specific to teaching social science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content area instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Letter grade only (A-F). May be repeated to a maximum of 6 units.

472A,B,C. Student Teaching (5,5,5)

Prerequisite: EDSS 450 (A, C, D, F, G, H, M, N, P, or S) and admission to the Single Subject Credential Program, or permission of the University Coordinator; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); passage of CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment in selected programs; approval for advancement to student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Student teaching must be completed in the subject that will be authorized on the candidate's credential. Student teachers are assigned a minimum of five periods daily for the length of the placement school's semester (approximately 20 weeks). They teach three classes representing at least two different aspects or levels of the subject. Two additional periods are for preparation, observation, and consultation with the cooperating teacher and university supervisor. Student teachers must achieve a satisfactory evaluation on the Teaching Performance Assessment in order to be recommended for the credential. Students must enroll concurrently in EDSS 473: Student Teaching Seminar. ("A" or "B" quality work required for credit). Credit/No Credit grading only. May be repeated to a maximum of 10 units.

Single Subject Education Courses (EDSS)

473A-S. Student Teaching Seminar (2)

Prerequisite/Corequisite: Admission to the Single Subject Credential Program, or permission of the Single Subject Credential Program University Coordinator; advanced to student teaching. Concurrent enrollment in EDSS 472 (Student Teaching). Links issues of theory and practice within the context of the California Standards for the Teaching Profession. Covers curriculum, instruction, assessment, classroom management, equity and access for all students. Looks forward to the induction phase of teaching and a career in the profession. Letter grade only (A-F). May be repeated to a maximum of 4 units.

- M. Math
- N. Music
- P. Physical Education
- S. Social Science

*490. Curriculum Topics in Selected Academic Subjects (1-3)

Prerequisite: Consent of instructor. A study of curriculum taught in the secondary schools. Academic subject to be covered will be announced in the *Schedule Of Classes*. May be repeated to a maximum of 6 units with different topics; but only 6 units with a letter grade may be applied toward advanced degrees.

497. Independent Study (1-3)

Prerequisites: Consent of instructor and Single Subject Program Coordinator. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 3 units.

Graduate Level

572A,B,C. Intern Student Teaching (5,5,5)

Prerequisite: Admission to the Single Subject Intern Program; offer of intern teaching position from a cooperating school district; submission of application to student teach by the deadline (October 1 for Spring term; March 1 for Summer and Fall terms); passage of CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; portfolio assessment required in selected programs; approval for advancement to intern student teaching by the Credential Advisor and University Coordinator of the Single Subject Credential Program. Intern student teaching must be done in the subject that is authorized on the intern's credential. Interns contract with cooperating school districts to assume full teacher of record responsibilities. Interns must achieve a satisfactory evaluation on the Teaching Performance Assessment in order to be recommended for the Preliminary Credential. Interns must enroll concurrently in EDSS 573: Intern Student Teaching Seminar. Normally completed in a single semester. ("A" or "B" quality work required for credit). Credit/No Credit grading only. May be repeated to a maximum of 10 units.

573. Internship Student Teaching Seminar

Prerequisite/Corequisite: Admission to the Single Subject Credential Program, or permission of the Single Subject Credential Program University Coordinator; advanced to student teaching. Concurrent enrollment in EDSS 572 (Intern Student Teaching). Links issues of theory and practice within the context of the California Standards for the Teaching Profession. Covers curriculum, instruction, assessment, classroom management, equity and access for all students. Looks forward to the induction phase of teaching and a career in the profession. Secondary Education Courses (EDSE)

435. United States Secondary Schools: Intercultural Education (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Provides students with foundational knowledge of education (historical, philosophical, sociological, political) grounded in contemporary society and schools. Key concepts include: socialization, culture, cultural contact, race, class, ethnicity, exceptionality and other aspects of identity and their impact on schooling. Approved CLAD Certificate course (Domain 3). Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

436. Curriculum, Instruction, Assessment and Classroom Management (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Explores systematic instruction, theories of learning, curriculum development, teaching strategies, assessment and evaluation of student progress, classroom management and discipline, and establishing successful learning environments for all students. Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

457. Reading and Writing in the Secondary School (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal settings; and the special reading needs of less prepared learners, accelerated learners, and English language learners. Addresses issues of diversity and equity within the context of teaching reading and writing in content areas. Includes individual/tutorial instruction of an adolescent. Minimum fifteen hours of field work required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

The major in sociology is intended to serve as preparation for careers in teaching, delivery and administration of social and health services, urban and environmental studies, law, government service at local, state and federal levels and related occupations. The major also provides training for advanced graduate work in sociology, social work and other social sciences. Sociology is also recommended as a second major or minor for students of all other social sciences; for business; for the humanities; especially literature and theatre arts; for ethnic and area studies; for journalism and other various applied arts and sciences.

Students interested in sociology may also wish to consider the liberal studies major with a concentration in sociology. The Liberal Studies program is discussed elsewhere in this

Catalog. Detailed information about the concentration may be obtained from the Sociology Department Office.

Sociology courses are suitable for fulfilling general education or elective requirements for students of other majors. However, lower division courses selected to fulfill the requirements of the major may not also be used to fulfill the requirements of any General Education category.

Bachelor of Arts in Sociology (code SOC_BA01) (120 units)

Requirements

Lower Division: Twelve units of lower division are required. Students must have credit for SOC 100, 142, 200, and 250. It is recommended that students take Cultural Anthropology (ANTH 120) as an elective.

Upper Division: All majors are required to have a minimum of 31 upper division units in sociology. This must include (1) at least 16 units in core courses: SOC 335I or 354, 356, 420 or 427, 355, 456; and (2) nine units in one concentration and (3) six units of electives from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed twelve units. Completion of at least 51 semester units of college work is required before students will be accepted into upper division courses.

The department strongly recommends that lower division courses be completed before upper division courses. Taking the courses in sequential order will allow students to gain maximum benefit from the curriculum. Experience has shown that students who take courses out of sequence do not perform as well academically. SOC 200, Introduction to Data Analysis, and SOC 250, Elementary Statistics, should be taken before SOC 355, Methods of Social Research. Required upper division courses also should be taken in sequential order consecutively. SOC 356, Developmental Sociological Theory, should be taken before SOC 456, Modern Sociological Theory.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Sociology (code SOC_UM01)

A minimum of 24 units which must include:

Lower Division: SOC 100, 142

Upper Division: SOC 335I and a minimum of 15 units selected from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed 6 units.

Courses (SOC)

Lower Division

100. Principles of Sociology (3)

Prerequisite: Completion or concurrent enrollment in a general education foundation course. Introduction to basic concepts of sociology and sociological analysis, emphasis upon group, status, role, personality, socialization, social processes, institutions, social organization and sociocultural change. (CAN SOC 2)

142. Social Trends and Problems (3)

Prerequisite: Completion of or current enrollment in ENGL 100 or PSY 130 or equivalent. Sociological principles applied to contemporary social trends and problems including family problems, health and illness, inequalities of age, gender and race, crime, drug abuse, urbanization and population growth, poverty, economic change, environmental pollution, and war and terrorism. Students are encouraged to view social problems in a larger socio-cultural context which is both historical and global. They are encouraged to think critically about the relevance of these problems to their own lives and the lives of their children. Open to non-majors for General Education credit in Category D.2.B.

161. Introduction to Latin American Studies (3)

Prerequisite: Completion or concurrent enrollment in ENGL 100. This course offers an interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central American, the Caribbean, and South America. It will examine the political, economic, social, and cultural conditions that have produced conflict, change, and continuity in Latin America over the last five hundred years. Same course as HIST 161. Letter grade only (A-F).

200. Introduction to Data Analysis (3)

A beginning course in the use of computers for accessing and analyzing data. Topics covered include principles of scientific research, data coding, entry, editing, and analysis. Students will use the Statistical Package for the Social Sciences to analyze data, and such software programs as WordPerfect to prepare research documents, and Netscape Navigator to explore the resources available on the Internet.

250. Elementary Statistics (4)

Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra as demonstrated on a screening examination, and SOC 200. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. (Discussion, Lab) (Not open to students with credit in HDEV 250, C/LA 250, ANTH 202, SOC 210, MATH 180, or PSY 110.)

255. Elementary Statistics (3)

Not open to students with credit in C/LA 250, HDEV 250, MATH 180, or PSY 210. Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra and SOC 200. Covers the Concepts and techniques of descriptive and inferential statistics and statistical reasoning as applied to social research. Focuses on the understanding of statistical measures and the assumptions underlying them. Includes use of interactive computers. Letter grade only (A-F).

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

317I. Problems in International Social Conflict (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Topics may include ethnocentrism, nationalism, globalization, trade and aid, economic development, poverty and inequality, the environment, war and civil unrest, and ideological, ethnic, gender, and religious conflict. Special attention to the spread of democracy, the emergence of global social movements, and new forms of civil society and social solidarity. Letter grade only (A-F). Same course as I/ST 317I.

318I. Cases in International Social Conflict (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Case studies will consider factors such as globalization; technology; economic development; trade and aid; population growth; immigration; ideological, religious, ethnic and gender conflicts; war and civil unrest. Special attention to human rights, democratization, global citizenship, and environmental sustainability. Letter grade only (A-F). Same course as I/ST 318I.

320. The Family (3)

Prerequisite: SOC 100 or consent of instructor. Family as a social institution in various cultures with stress on the American family systems. Analysis of forces producing change, organization and disorganization of family systems.

325. Sociology of Women (3)

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society. Open to both men and women. Same course as W/ST 325.

335I. Social Psychology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examines social processes in personality development and the socialization process whereby the individual is integrated into social groups. Includes social influence of family, peers, reference groups and subcultures. Examines the impact of primary groups, social organizations and mass media on attitudes and behavior. Not available to students with credit in PSY 351.

336. Sociology of Small Groups (3)

Prerequisite: SOC 100. Designed to give theoretical and practical understanding of sociological concepts and principles found in the dynamics of small groups, research and theory, the individual in a social situation, the group as a system of social interaction, leadership, methodology, and the small group approach to a problem.

340. The Latino Population in the United States (3)

Survey of the most recent socio-economic information on "Hispanics", issues of immigration and settlement patterns, employment and income, family, language and culture will be examined. Particular attention will be paid to the changing points at which racism has intersected with factors of class and gender. This is a comparative course designed to highlight heterogeneity of the larger Latino aggregate population. Same course as CHLS 350.

341. Central American and Caribbean Peoples in California (3)

Survey of the socioeconomic conditions and cultural life of the Central American and Spanish-speaking Caribbean communities of California: Salvadorans, Guatemalans, Puerto Ricans, Cubans, etc. Not all groups will necessarily be dealt with each time the course is offered. Similarities with and differences from the Mexican-American community will be examined. Same course as CHLS 352.

345. Juvenile Delinquency (3)

Juvenile delinquency as a recent social "invention;" extent and distribution; major explanatory theories ranging from classical to radical views; societal reaction; the juvenile justice system with emphasis on the contemporary trend toward diversion programs.

346. Race, Gender and Class (3)

Prerequisite: Completion of the G.E. Foundation. This course examines the experiences of gender, race and class in diverse groups and populations. An assessment is conducted of the institutionalized systems of sexism, racism and classism and of the economic and political structures and social processes which maintain these systems.

350. International Population Problems (3)

Presents the basic demographic variables (fertility, mortality and migration) and methods (vital statistics and census). Historical and current trends and problems in world population composition, growth and movement are examined with particular attention to social processes.

354. Qualitative Methods of Social Research (4)

Prerequisites: SOC 100, 250, and one upper division course in sociology. Review and critique of principles and essential features of classical and contemporary qualitative studies. Examination of the influence of symbolic interactionism and its derivatives. Topics covered: research design, including use of unobtrusive measures; modes of participant observation; interviewing techniques; limitations of "snowball" and other convenience sampling techniques; analysis and interpretation of qualitative data. Field assignments and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours.)

355. Quantitative Methods of Social Research (4)

Prerequisites: SOC 100, 200, 250 and one upper division course in sociology. Topics that will be covered are: research design, including operationalization, measurement, scaling, reliability, validity and sampling; techniques of data collection and analysis; and report writing. Use of the computer and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours) Letter grade only (A-F).

356. Development of Sociological Theory (3)

Prerequisite: SOC 100. Social thought and historical forces leading to the emergence of sociology, and an exploration of classical theories into the 1930s including such thinkers as Marx, Durkheim, Weber, Mead and Merton.

372I. Living in Space (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human physical and social adaptations to living in space habitats in Low-Earth Orbit or at key transfer points (such as L5) elsewhere in the solar system. Analysis of psychological reactions to weightlessness and disruption of normal daily cycles and resulting changes in patterns of activities and communication. Effects of changing reference group identification from a nationality or ethnic group to humanity as a whole. The essentials of life support including the production of consumables and protection from space hazards are delineated. Also discussed are recruitment, management of space missions, and political organization of permanent space facilities. A special focus is given to cultural changes associated with spending all of one's time with the same people, such as more symbiotic and less exploitative patterns of interaction and enhanced gender and age equality.

374I. Solar System Habitation and Development (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Dynamics of settlements on the Moon, on Mars, in the asteroid belt, and on the largest satellites of Jupiter and Saturn. Expanding the resource base for humanity allows economy-of-scale sharing to supersede zero-sum economic competition. Discussion of the implications of the common-heritage-of-mankind principle embodied in space treaties and the declining significance of nation states for space settlers. Analysis of available propulsion systems and mission trajectories to determine probable structure of transportation vessels and limitations this imposes on initial settlements on various new worlds. Special attention to the enhanced feasibility of space missions utilizing lunar resources, the terraforming potential of Mars, and the type of society which may develop in these locations.

376I. Interstellar Migration (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Habitation potential of the nearest Sun-like stars and feasibility of reaching them by means of multigenerational space arks. Analysis of basic evolutionary processes favoring humane characteristics in any species capable of a technological civilization: Mate selection (among those where language has endowed culture with an overriding significance for survival) will reinforce humane traits which make it possible to get along with a spouse during the long childhood that any culture-dependent species must have. Implications of assured survival for humanity and possibility of contacting alien civilizations. Special emphasis on extrapolating the development of human society in the context of our expansion into the Alpha Centauri system and beyond.

410I. Social Ecology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analysis of interdependencies of elements of populations, environment, technology and social organization. Examines socio-ecological relationships currently and in historical perspective, in simple and complex societies. Presentation and analysis of world and U.S. problems in social ecology. A field research project will be required.

420. Social Stratification (3)

Prerequisite: SOC 100. Characteristics and functions of social stratification especially in the United States. Different theoretical perspectives, how social class affects the opportunity structures, for income, upward mobility and various measures of "the good life" in America today.

423. Child Abuse and Prevention (3)

This course will examine child abuse as a social problem; its history and causal factors, including social change and changing family patterns. Intervention practices, including identification and investigation, social services and court intervention will be reviewed, especially the roles of health professionals, criminal justice and corrections personnel, social workers and educators. Finally, policy implications will be examined, including the role of concerned citizens and child advocates. (Discussion/Seminar) Same course as SW 423.

426. Sociology Sex Behavior (3)

The social context of human sexuality effects of socialization, social class, occupation and religion on sexual attitudes and behavior.

427. Social Order and Social Change (3)

Prerequisite: SOC 100 and upper division status. Introduction to classical and recent analysis of social order and social change. Study of institutions and organizational structure of social systems in the past and present and their effects on human life.

440. Sociology of Deviance (3)

Prerequisite: SOC 100. Sociological approaches to the study of deviance; a varied look at behaviors, beliefs, physical appearance, emotion, and medical, legal, media influences in defining deviance; central questions include: How do definitions of deviance change? What processes are involved in a person defining him/herself as a deviant? What role do the central institutions of society play in the perception and definition of deviance? (Lecture 3 hours.)

441I. Criminology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of the major theoretical approaches to crime, e.g., sociological, psychological, psychiatric, biological. Emerging interdisciplinary approaches to crime. Responses to crime and criminals, e.g., prisons, jails, death penalty, self-help, psychotherapy, social reform, media. Types of criminal behavior. Victims of crime. (Lecture/Discussion.)

448. Impersonality, Violence and Survival: An Analysis Through Film (3)

Exploration through film of the societal conditions that facilitate impersonality, and alienation and ultimately violence in modern society. The study of the struggle of the individual to survive, both physically and psychologically, in modern society. Focus on attempts of individuals to transcend social barriers. Course does not include exploitation films but rather films that provide a serious commentary on the nature of modern society. Not open to students with credit in this subject under SOC 490. (Discussion)

449I. Sociology of Political Rights (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of the nexus between the political process and legal institutions with a focus on how the sociology of law provides a different perspective than the legal doctrines set forth in published judicial opinions. Emphasizes the development of analytical abilities which are useful to students anticipating a career in the law or other policy-making fields.

450. Marxist Sociology (3)

Analysis of human behavior, society and social change from a Marxist perspective.

456. Modern Sociological Theory (3)

Prerequisites: SOC 100, 356 and one other upper division course in sociology. Recommended: courses in the philosophy of science and research methods. A critical review of schools of sociological thought from the 1930's to the present. A minimum of three major schools such as functionalism, interactionism (dramaturgy, ethnomethodology, humanistic post-structuralism), conflict, exchange, and system theory will be covered in depth and considered in relation to the nature of theory construction. Intended primarily for majors in this field. Letter grade only (A-F).

461. Alcohol and Society (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Recommended: an elementary statistics course. Epidemiological and sociological approaches to the study of alcohol use and abuse; sociocultural correlates of alcohol use as disclosed by national and regional surveys; effects of alcohol use on physical and mental health; the role of government and other organizations in the prevention and treatment of alcohol abuse.

462. Medical Sociology (3)

Prerequisite: Completion of the G.E. Foundation. Epidemiological and sociological approaches to the study of health and illness; patterns of physical and mental disease; patient and physician perspectives on the development of disease; causes of stress and coping repertoires; types of adaptation of the chronically ill; health care delivery and utilization, particularly in the United States; and interaction of physician, nurse, therapist, health administrator, social worker, patient, and family members.

463. Mental Illness and Society (3)

Prerequisite: SOC 100. Epidemiological and sociological approaches to the study of mental health and illness; prevalence and incidence of mental disorders as disclosed by community and national surveys; effects of family history, work experience and life-change events on various facets of intellectual and affective functioning; the social and legal status of the mental patient; the role of government and other organizations in the prevention and treatment of mental illness.

464. Aging and Society (3)

Prerequisites: SOC 100 or 142. This course examines aging and the life course. It explores how the aging process is influenced and shaped by societal forces. The course emphasizes adult development and life course transitions. The social epidemiology of the aging process is covered through an examination of the relationship between age status and other variables, including gender, race, social class, marital status, and health status. Dimensions of age-based stratification and surrounding social policy issues are explored.

466. AIDS and Society (3)

Prerequisites: SOC 100 or 142 or PSY 100. Recommended: BIOL 100 or 200 or MICR 100 or 101. Places the contemporary disease, acquired immuno-deficiency syndrome (AIDS) in sociological perspective. Covers history, etiology and epidemiology of AIDS. Includes biomedical and sociological research on AIDS. Focuses on behavioral aspects and societal impact of the AIDS epidemic. Letter grade only (A-F).

470. Science and Religion in Biography (3)

Prerequisites: ENGL 100 and consent of instructor. Critical comparison of the theories, doctrines and methodologies of religions and quasi-religions in contrast to all the natural sciences including the social and behavioral sciences. Sources of bias in different methods of inquiry (scientific, humanistic and religious) will be examined through classical and contemporary case material, focusing on biographies, with a view toward illuminating the proximate objectives of each mode as well as its ultimate aims. Effectiveness of these alternative approaches to human understanding will be considered in relation to achieving self integration. Letter grade only (A-F).

490. Special Topics in Sociology (1-3)

Topics of special interest in sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

491. Special Topics in Deviance and Social Control (3)

Topics of special interest in Deviance and Social Control selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics (Discussion.) Letter grade only (A-F).

492. Special Topics in Interaction and Group Relations (3)

Topics of special interest in Interaction and Group Relations selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

493. Special Topics in Medical Sociology (3)

Topics of special interest in Medical Sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

494. Special Topics in Social Change and Global Issues (3)

Topics of special interest in Social Change and Global Issues selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Discussion.) Letter grade only (A-F).

A. Sociology of Migration and Immigration

495. Internship (1-4)

Prerequisites: SOC 100, 142, 335I, junior or senior standing, consent of instructor. Supervised field experience in public and private agencies, relating sociological principles to community situations. Designed to provide career-related work experience in both research and applied fields. Students may enroll for 1-4 units depending on field assignment and time required. May be repeated to a maximum of 6 units. (6-10 hours per week field experience.)

496. Field Practicum (1-3)

Prerequisites: SOC 495. This course is a continuation of the Internship course (SOC 495.) Students who continue working at an agency in the community will conduct one or more special projects for that agency. Students in the practicum will meet as a group to discuss the progress of their projects and will submit papers which summarize their experiences in carrying out these projects. Students may enroll for 1-3 units depending on field assignment and time required. May be repeated to a maximum of 4 units.

497. Peer Facilitation in Sociology (3)

Prerequisites: A grade of at least a "B" earned in at least one upper division course related to the peer facilitation activity and consent of instructor. Conducting an optional discussion section, assisting an instructor in class exercises, projects or small group discussions, or tutoring individual students in special sessions. Peer facilitation activities will be guided by meetings with the supervising faculty members and supplemented by reading and writing assignments. May be repeated to a maximum of 6 units. Letter grade only (A-F).

499./599. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units with consent of department.

Graduate Level

599./499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units with consent of department. Undergraduates who have completed more than 3 units of SOC 499 may not enroll in SOC 599. Letter grade only (A-F).

STUDENT SERVICES AND CAMPUS LIFE

Academic Advising Center

The Academic Advising Center, located in Academic Services, room 124, serves students who seek information and advice concerning General Education requirements, electives, University rules and regulations, graduation requirements, academic probation, and disqualification and academic appeals. The Academic Advising Center is the "home base" for all undeclared students, including signature authority on all university-related documents. The Academic Advising Center also presents the Parent Orientation Program (POP) as well as the Strategies for Academic Success Program and the mandatory Advising Program for Freshmen.

Students are seen on an appointment basis. Some walk-in service is available and is provided by staff and faculty.

The Academic Advising Center is located in Academic Services, room 124. The telephone number is (562) 985-4837. The Center is open for advising Monday - Thursday from 9:00 a.m. - noon and 1:00 p.m. - 5:00 p.m., and Friday from 9:00 a.m. - noon. Call for evening appointment availability. Hours may vary during the holidays and summer. For POP information, call 985-5458.

Career Development Center

The Career Development Center provides services that prepare and assist students and alumni in their transition from the University to professional careers commensurate with their interests, abilities, aspirations and educational attainment.

Career Planning facilitates a student's definition of his/her personal career goals and objectives based on an understanding of one's self and the world of work. The program provides students the most current career data and information delivery systems.

Career Placement

Experienced counselors assist students in developing effective job seeking skills through one-to-one counseling and workshops in the areas of resume writing, interviewing techniques and job search techniques. Counselors also provide assistance with other facets of the job search process including such topics as networking, accepting or rejecting a job offer, and negotiating a salary.

The Career Development Center receives over 15,000 job listings every year for positions in the areas of business, industry, government, health and human services. Current listings are maintained for student use in the Career Resource Center.

The Center also offers an On-Campus Interview Program for graduating seniors and graduate students. Through this program more than 140 employers visit the campus each year to conduct interviews. The employment opportunities in this program are generally in the areas of accounting, banking, computer science, engineering, finance, government, general management training, insurance, retail management, sales and marketing.

Various campus-wide special events take place every year which offer an opportunity for students to meet employers on a face-to-face basis. For specific information on annual events such as Career Day, Accounting Recruiting Day, and Job Fair, go to the Career Development Center Website at www.careers.csulb.edu.

A 24-hour, on-line job listing service provides students with access to all of the part-time and full-time job vacancies received by the Center. Visit the Career Development Center for instructions or go to the Center's website at www.careers.csulb.edu.

The Center is open Monday through Thursday 8:00 a.m. to 8:00 p.m. and Friday 8:00 a.m. to 12:00 p.m. The Center is located in Brotman Hall 250, (562) 985-4151.

Teacher and school administration candidates receive assistance through the Educational Career Services Office in the College of Education. Call (562) 985-5772 for information on the services offered.

Internship Program

The Internship Program offers students paid and volunteer internship experience in business, industry, government and the non-profit sector. This practical and professional work experience is directly related to a student's academic major or career goal. Students may alternate full-time work periods with full-time academic periods or they may work part-time while simultaneously attending the University. Upper-division Internship courses are available for up to 6 units of elective academic credit. Contact the Career Development Center at (562) 985-4151 for more information.

Careers and Disabilities

Careers and Disabilities is a Career Development Center program designed to help students with disabilities meet the challenges of career planning and job placement. A student with a visual, hearing or speech impairment, a learning disability or limited mobility can learn strategies in this program that will help build bridges to meaningful employment. For information about Careers and Disabilities, call (562) 985-8468, log onto www.careers.csulb.edu or stop by Brotman Hall 250.

Counseling and Psychological Services

Counseling and Psychological Services (CAPS) offers a strong array of services in direct support of helping students achieve a satisfactory and meaningful academic experience. Staff members of CAPS are trained in applied psychology and student development services delivery at the doctoral level. Staff members are skilled in assisting students to translate their individual personal development, career development, and previous educational experience into optimal academic achievement and collegiate life experience.

Students are seen at CAPS by an intake counselor. Psychologists are assigned to students based on the type of problem expressed and/or identified in the initial review. Most individual counseling is short-term and lasts three to five sessions. The staff is also trained to address complex types of career and personal problems that may require more extensive counseling. Crisis intervention services are available on an immediate basis.

An extensive group counseling program exists for specific kinds of counseling issues such as shyness or interpersonal skill development. The mini-workshops offered on campus acquaint students with our focus on enhancing various life skills such as assertiveness and time management. The Center is especially dedicated to working with students from highly diverse backgrounds.

CAPS is open from 8:00 a.m. to 5:00 p.m. Monday through Friday and is located in Brotman Hall 226. The telephone number is (562) 985-4001.

Disabled Student Services

Information regarding services available to students with disabilities may be obtained from Disabled Student Services (DSS), Brotman Hall 270, and (562) 985-5401.

DSS provides appropriate services for students with disabilities, including registration assistance, note-taking, sign-language interpreting, reading, test proctoring, academic advising and scholarship information. Other program components include the High Tech Computer Center for the Disabled, Stephen Benson Learning Disability Program and the WorkAbility IV Program. In conjunction with the Career Development Center, DSS/WorkAbility IV provides career planning, placement and job search assistance. Call (562) 985-8038 for more information.

Clients of the Department of Rehabilitation may call to verify the receipt of authorization for fee payment at this office. DSS also assists with disabled parking. Call (562) 985-5401 for more information.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 8 units for graduates. Such requests must be made to DSS prior to each semester affected. If approved, the student will be entitled to all benefits, services and activities governing by the University accorded to full-time students. Eligibility for benefits, services and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

Educational Equity Services

The Office of Educational Equity Services (EES) assists in the admission and retention of first generation college students and academically and economically disadvantaged students some of whom might not otherwise be enrolled in the University. Programs currently under EES include the College Assistance Migrant Program (CAMP), Educational Opportunity Program, Summer Bridge Program, and the federally sponsored TRIO programs, Educational Opportunity Center, Educational Information Services/Talent Search, Student Support Services Program, McNair Scholars Program and Upward Bound.

College Assistance Migrant Program (CAMP)

The College Assistance Migrant Program (CAMP) is designed to serve students who themselves or whose parents are migrant or seasonal farm workers. Work may include production, transportation, packaging or canning of crops, dairy products, poultry, livestock, cultivation or harvesting of trees

(nurseries), or fish farming. The goal of CAMP is to provide outreach and recruitment services to eligible students by assisting them in completing their admissions and financial aid applications. Also offered are parent workshops on motivating their children to enroll in and graduate from college.

The ultimate outcome of CAMP is to provide migrant students with the necessary support services to help them transition easily during the first year in college. The project provides a student-centered array of academic and personal support services geared toward enhancing each student's learning opportunities and quality of life. Also provided is tutoring, academic-skill building instruction, peer and faculty/staff mentoring, assistance with registration, a grant if eligible, exposure to cultural events, and academic programs not usually available to migrant youth. The CAMP office is located at Liberal Arts 3 room 202 and is open from 8:00 a.m. to 6:00 p.m., Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 985-2006 or FAX (562) 985-2003.

Educational Opportunity Center

The Educational Opportunity Center (EOC) is a federally funded program designed to identify and assist low income, first generation adult participants who want to enter, re-enter or continue in a program of postsecondary education. Adults enrolled or interested in enrolling in a high school diploma or GED program are encouraged to seek services.

The mission of the EOC is to assist program participants reach their educational and career goals by providing quality information, advisement and services. EOC provides free services to individuals who meet the program criteria.

Participants are required to be at least 19 years old; U.S. citizen, national or permanent resident; reside in one of the target communities: Artesia, Compton, Hawaiian Gardens, Long Beach, Lynwood, Norwalk, Paramount, Willowbrook and Wilmington; attend school or receive services from a site in the target area and have a need for one or more of the program services.

The EOC provides academic advisement, career advisement, financial aid information, postsecondary advisement, assistance in completing college admissions, testing and financial aid applications. The program also conducts college admission and financial aid workshops.

The EOC is located at the California State University, Long Beach Research Park, 1916 Technology Place, Long Beach, California 90810 (near the intersection of Pacific Coast Highway and Santa Fe Avenue). Office hours are 8:00 a.m. to 6:00 p.m. Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 436-4342 and fax (562) 436-4345.

Educational Information Services/Talent Search

Educational Information Services/Talent Search is a federally funded program housed at California State University, Long Beach. Its purpose is to identify, select, and assist low-income, first generational individuals between the ages of 12 to 27 to continue in and graduate from secondary school and enroll in a postsecondary educational program. Services offered include postsecondary admission and application assistance, financial aid information and application assistance, academic advising, and career exploration and planning.

Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) is committed to increasing access to higher education for California residents who are historically low-income and first generation college students. An EOP student has the potential to perform satisfactorily in the CSU, but has not been able to realize this potential because of the lack of economic and educational resources. The Program's goal is to meet the educational needs of the students by providing admissions and enrollment assistance, financial support and academic and personal support services throughout their career at the university.

Student Support Services Program

Student Support Services Program is a program designed to assist eligible students in achieving their maximum potential in higher education. The eligibility requirements for participation with the CSULB Student Support Services Program are U.S. citizen or permanent resident enrolled at CSULB, low income and/or first generation college students OR physically or learning disabled students and demonstration of an academic need. The Program provides learning skills workshops, academic advising, financial aid application assistance, tutorial services, career exploration, preparatory workshops for the Writing Proficiency Examination and personal and social counseling.

McNAIR Scholars Program

The McNAIR Scholars Program provides academic support services, research opportunities and involvement in scholarly activities for 25 low-income, first-generation college students to increase their likelihood of enrollment and success in doctoral programs. The program consists of the Summer Research Internship, which concentrates on a research project to be conducted by the McNAIR Scholar with the guidance of his/her faculty mentor, and the Academic Year Scholarly Experience to provide continuation of the summer research project, academic support and assistance in seeking admission to graduate programs and assistance in obtaining graduate financial aid. The Scholars' papers are collected in a publication, the CSULB McNAIR Journal.

Summer Bridge Program

The Summer Bridge Program provides an intensive five-week residential summer experience for selected first-time freshmen EOP students entering for the fall semester. The program provides English and mathematics instruction, tutoring, orientation to the campus, study skills workshops and enrichment activities to prepare students for the challenges of college. Participants are required to reside in campus housing for the full five weeks and must successfully complete the program to enroll at the university.

Upward Bound Program

The Upward Bound Program is a federally funded college preparatory program designed to assist first generation, low-income high school students who have the potential to pursue postsecondary education. The goal is to assist participants in their efforts to successfully complete high school and obtain a college education.

The program provides summer and weekend academic instruction, tutoring, academic, personal and career counseling, cultural activities and college application and admissions assistance.

Housing and Residential Life

University Residence Halls

The campus residence hall complex consists of 18 halls and accommodates 1,962 residents, including an International House complex which houses 86 students. All halls are coeducational and the majority of rooms are intended for double occupancy.

Residents may apply to reside in two-story halls utilizing suite designs or more traditional halls which have double rooms on either side of a long corridor. Halls are available with Regular Quiet Hours or Very Quiet Hours and residents may select 12 or 19 meals per week. A limited number of regular single rooms are available. The room and board rate is approximately \$6,400-\$6,800 depending on the accommodations and meal plans selected.

Applications for the academic year are accepted between January 2 and March 15 and applicants are then eligible to participate in a random housing lottery which is held in late March. Notification of lottery results are sent in mid-April. Applications received after March 14 will be accepted, but will not be part of the lottery and will only be accommodated if space is available after all lottery participants are offered space.

Applications are available by calling the Housing and Residential Life Office at 562-985-4187 or by visiting the website at www.housing.csulb.edu.

Off-Campus Housing

An off-campus housing website is available to provide the maximum amount of information on vacant rental properties in the surrounding community while minimizing the time required to do a search. The website features comprehensive rental information including photographs, virtual tours and driving instructions. Searching the database may be refined as needed — for example, by neighborhood or by price range — and is free to students, faculty and staff. Students also may use the site to list vacant rental property or to look for a roommate to share accommodations. The website is provided as a service to CSULB by My Ideal Home Network and may be viewed at: http://www.csulb.edu/divisions/students2/departments/Housing-Residential_Life/offcampus.htm.

Isabel Patterson Child Development Center

In January of 1975, the University and the Associated Students opened the Isabel Patterson Child Development Center to provide quality child care services to the University and community. The facility was made possible by the generous donation of Isabel Patterson, CSULB alumna. The services provided enable a student parent to attend classes at the University. The children of University staff, faculty, administration, alumni and then community are offered these services as space allows, following the registration of children of student parents.

Child Care Services are available for children six months to 2 1/2 years in the Infant/Toddler Program; 2 1/2 to five years in the Pre-school Program; and Kindergarten through second grade in the Schoolage Program.

The environment of the Center allows children to move freely and choose activities that fit their needs. Activities include reading, music, water and sand play, art, science, cognitive games and dramatic play. Some of the program's goals are to help children be responsible and able to solve their problems, to be inner-directed, to be aware of alternatives and able to make choices, and to be free from gender role and other stereotyping.

The program includes a family-style breakfast, lunch and afternoon snack.

The Center employs child care and development professionals. The part-time teaching staff is composed of CSULB students who are required to participate in the Center's comprehensive training program. The Center is located on campus at 5700 Atherton Street. For information call (562) 985-5333 8:00 a.m. - 5:00 p.m.

Learning Assistance Center

Located in Academic Services, room 12, the Learning Assistance Center is an all-university academic support service that helps individuals identify and develop effective and efficient learning strategies. The following services are available:

1. Learning Skills Services
2. Supplemental Instruction
3. Tutorial Services
4. ESL Support Services

Learning Skills Services

Learning Skills Services includes a range of study skills and learning strategies. The Learning Assistance Center offers individual sessions (personal as well as media) and regularly scheduled workshops covering such topics as Reading Textbooks Critically, Listening and Notetaking Skills, Time Management, Test-Taking Strategies, Memory Techniques, Learning Styles, Preparing Research/Term Papers, and Preparing for Final Exams. These topics can be tailored to individual courses and presented in class at faculty request. Workshops are also scheduled by student organizations and other groups. Software is available to students who want to prepare for such standardized tests as the GMAT, GRE, and LSAT.

Additionally, Learning Skills staff maintain a collection of instructional materials in some of the more highly demanded areas. Faculty in the sciences, in business, and in math, for example, recommend that students use course-related materials housed in the LAC.

Supplemental Instruction

Supplemental Instruction (S/I) 60 provides a one-unit non-baccalaureate adjunct to select general education courses found to be high risk (i.e., particularly difficult for students to complete successfully). Participants in S/I typically perform significantly better in the GE course than peers who attempt the course independently. Each section of SI 60 uses the content of the corresponding GE course for students to develop critical thinking and learning skills; the skills emphasized are specifically applicable to this course and transferable to other university courses. Sections are taught by advanced students who know the discipline well and have mastered the associated skills needed for success.

Tutorial Services

Tutorial Services offers scheduled group, drop-in, online, and individual appointment tutoring. Free weekly group sessions are led by a trained tutor for several of the more highly requested general education courses each semester. Individual tutoring is available to all students in nearly all disciplines on an hourly fee-support basis. Extensive drop-in tutoring requires a modest fee for unlimited use of any one

subject. Each semester tutoring schedules are available online or at the Learning Assistance reception desk. Students in academic support programs such as EOP, SSSP, and DSS should contact program advisors regarding tutoring resources.

ESL Support Services

For students whose primary language is not English, the International Students' Conversation Lab provides extensive opportunities to develop English fluency, work on academic language or course assignments and to discuss cultural experiences. Students needing to increase their English language skills to pass the Writing Proficiency Exam may meet weekly with ESL specialist tutors. The service is free to all students.

Getting Started

Students who want to improve their skills may make appointments with the Learning Assistance Center receptionist (985-5350) for a particular service or with a staff professional who can help them determine what would benefit them most. Further information can also be obtained in person on the first floor of Academic Services.

Multicultural Center

The mission of the Multicultural Center is to contribute to the creation of a campus environment which respects and supports cultural, ethnic, and racial diversity. The center is an educational resource center which serves as a vehicle for the expression of the needs and concerns of CSULB's increasing diverse campus community.

The objectives and activities of the center include its signature project S.T.A.R. (Students Talk About Race), which is offered every semester and trains students in cross-cultural communication and commits them to 8 weeks as facilitators at local middle and high school classrooms; diversity workshops, lectures, and forums; an extensive up-to-date library of journals, magazines, books, videos, some DVD's, and audio tapes; archived newspaper articles, an art gallery celebrating the center's theme of cultural diversity by well-known and student artists; and student internships opportunities. The center's resources are available for students, faculty, staff and community members. The center is open from 9:00-5:00, Monday through Friday. For further information, stop by the Multicultural Center in the (F03) Faculty Offices 3 Building, Room 003 or call (562) 985-8150. For more information, the center's website is www.csulb.edu/centers/mcc. The center invites comments, ideas, and input to be sent to mcc@csulb.edu.

Student Health Service

Student Health Services

Student Health Services (SHS) is a health center providing medical services, preventive health and health education programs to registered students. A highly trained and experienced staff of licensed physicians, registered nurses and other health care professionals are dedicated to student health and well being. The SHS is located on State University Drive and Merriam Drive, between Brotman Hall and the residence halls. The SHS is accredited by the Association for

Ambulatory Health Care, and is a member of the American College Health Association.

Eligibility for Student Health Services

All regularly enrolled students registered for the current semester are eligible for services. Taking a semester off: Continuing students (after two semesters) are eligible for services by paying the \$35.00 Health Fee at Student Health Services. Students taking classes through University College and Extension Services (UCES) can receive services for a fee of \$15.00 per visit, while classes are in session.

Clinical Services

Outpatient medical care is provided for acute injury and illness. Long term or overnight care is not provided. Services include Women's Health, Men's Health, and some specialties. Provisions are made for outside referrals for care beyond the scope of the SHS. An in-house laboratory, x-ray, and pharmacy are available. Visits to the SHS, in house laboratory tests, and x-rays are provided without charge. Laboratory tests sent to outside reference labs are available at low cost. The Pharmacy provides a range of prescriptions and over-the-counter items at low cost. The SHS is open year round. Semester hours are 8:00 a.m. to 6:00 p.m. Monday, Tuesday and Thursday; 10:00 a.m. to 7:00 p.m. Wednesday; and 8:00 a.m. to 12:00 noon Friday. Important phone numbers are SHS Switchboard, (562) 985-4771, and Appointment Desk, (562) 985-1638. *Medical Emergencies arising on campus are directed to University Police 9-1-1.*

Health Resource Center

The Health Resource Center (HRC) is located in the Student Health Services (SHS) room 268. The HRC provides health education and support to students with a variety of programs and services. Programs include Alcohol, Tobacco & Drug Abuse Prevention Workshop, Nutrition Counseling, HIV Testing and Counseling and Sexual Health Awareness Workshop. Services include computerized health resource service, Health Beach newsletter, personal assistance, multimedia health information, health education campus outreach activities and volunteer and internship opportunities. For more information call (562) 985-4609 or visit the SHS website at www.csulb.edu/centers/shc (click on Health Resource Center.)

Immunization Requirement Clearance

Immunization clearance is performed at SHS. The SHS provides a range of vaccinations including those required by the California State University system. For new students 18 and younger on the first day of classes, the two required immunizations are Hepatitis B and Measles/Rubella. For new students 19 or older on the first day of classes, Measles/Rubella is required (for those students born after 1957.) Clearance is obtained by showing proof of immunity using medical records or by receiving immunizations (available at the SHS.) Medical and religious exemptions are available. For more information see *Admission to the University, Immunization Requirements* section. You may also phone the SHS at (562) 985-4771, call the Immunization Hotline at (562) 985-5411 or visit the SHS website at www.csulb.edu/centers/shc (click on immunization information.)

Medical Insurance

For chronic, complicated or severe illness or injury, medical insurance is strongly recommended. If a student does not have medical insurance, the Associated Students Inc., sponsors an individual health insurance plan to all enrolled students. This plan may be purchased through the Associated Students Business Office, University Student Union, room 220, or phone (562) 985-8311.

Office of University Ombuds Services

The Office of University Ombuds is an available resource for all students for the purpose of problem-solving, mediation, and expression of concerns related to campus issues. Students who wish to resolve issues informally may access the services of the Office of Ombuds before formally addressing their problems with the University. The Ombuds works independently as an objective advisor, keeps all matters confidential, and acts as a neutral party in order to ensure a process that is fair and equitable.

The Ombuds advocates for a process of resolving issues informally with integrity and dignity. The Ombuds will not address formal litigation issues, formal disciplinary actions, formal complaints, or grievance hearings. The services provided by the Office of University Ombuds do not compromise or replace university policies or procedures. Discussion with the University Ombuds does not constitute notice to the institution with regard to grievances and formal complaints.

The Office of University Ombuds is located in the University Student Union, Suite 301. The telephone number is (562) 985-5983, and the office is open Monday through Friday, 8:00 a.m. to 5:00 p.m. However, special arrangements for another meeting time can be made upon request. Please feel free to email the University Ombuds (ombuds@csulb.edu) or visit our website (www.csulb.edu/ombuds).

Student Life and Development

"If all you do is go to class at CSULB, you are not getting a complete education." – President Robert C. Maxson

The Office of Student Life and Development (SLD) can help students broaden their involvement on campus. Through involvement in campus clubs and organizations and/or participation in activities sponsored by student groups, students are able to explore personal and academic interests, develop leadership skills, and gain information and contacts that will prepare for future careers.

There are approximately 300 student recognized organizations including academic associations, fraternities and sororities, and cultural, religious and special interest student groups. Professional staff in Student Life and Development provide leadership development and officer transition opportunities; advise student officers on program planning, development; assist groups with securing Associated Students government grants; approve campus student programs, and facilitate accessing University resources. SLD also administers student academic travel funds, provides presentations on campus life for University 100 courses and Orientation to Campus Life programs, and coordinates transmission of emergency messages to students in the classroom.

Programs and Activities

College Organizations

Each academic department has a student departmental association composed of students in that discipline. In addition, there are other academically related organizations and discipline-based honorary societies. Representatives from each departmental association and, depending upon constitutional provisions, other academically related organizations work together on a college student council. The organizations promote interaction between faculty and students, sponsoring speakers, seminars, social gatherings and other activities related to their disciplines. Students also have the opportunity to provide input regarding their educational experiences to their faculty and department chairs, as well as to their deans via departmental associations and student councils, respectively. SLD staff play a key role in coordinating major events such as the Design Student Association Carnival, Engineering Day, Health and Human Services Career Month, Awareness Festival, College of Liberal Arts Weeks, Meet the Industries Expo, and the Nobel Laureate Lecture.

Greek Life

Students have the opportunity to join national and local organizations with founding values based on community service, scholarship, campus involvement active social development. There are more than 30 fraternities and sororities which reflect a broad range of interests and historical traditions. There are groups with predominantly African-American, Asian-American and Latino membership, as well as chapters with no ethnocultural affiliation.

In addition to their social and cultural programs, sororities and fraternities sponsor national and/or local philanthropies and engage in community service projects. Examples of such projects are providing tutorial assistance and positive role models for children in local schools, initiating food and clothing drives for those in need, raising money for scholarships, etc.

Most national Greek organization chapters are members of one of these coordinating councils: National Pan-Hellenic Council (historically African-American sororities and fraternities), Inter-fraternity Council (fraternities), Panhellenic Association (sororities), and Cultural Greek council (Fraternities and Sororities).

Lois J. Swanson Leadership Resource Center

The vision of the Lois J. Swanson Leadership Resource Center (LRC) is to cultivate leadership excellence. Its purpose is to prepare CSULB students to be the world's best leaders and maximize leadership potential with a commitment to serve others. The LRC provides a leadership library, resources and a conference room. The library holds books, videos, tapes and materials for icebreakers and interactive activities. Resources include a series of seminars to enhance leadership skills, increase self-confidence and develop teamwork. The LRC offers consultations for classroom facilitation, conferences and customized workshops. The LRC "Board Room" can be reserved for leadership-related meetings.

The LRC is located on the third floor of the University Student Union, room 313. To contact the LRC, call (562) 985-

1936 or e-mail: Leaders@csulb.edu.

American Indian Student Services

American Indian Student Services is devoted to the recruitment, retention and graduation of the indigenous peoples of North America. A coordinator of Student Life and Development provides admissions, academic and personal advising for American Indian students enrolled in the University; serves as the student life and development advisor to the American Indian Student Council; plans and implements outreach activities that assist in the identification and admission of prospective American Indian students; and assists with financial aid and Bureau of Indian Affairs grant applications for eligible Indian students; and serves as a liaison on American Indian concerns with campus offices. For further information, call (562) 985-8528.

Student Transition and Retention Services (STARS/SOAR)

The educational experience presents new students with a myriad of challenges and pressures. The department of Student Transition and Retention Services directs its major efforts toward the orientation, advising and registration of students and the promotion of their persistence in college through graduation. Special efforts are directed toward advisor training, orientation and advising workshops, as well as research with regard to issues affecting student retention.

The Student Orientation, Advising and Registration (SOAR) program provides newly admitted freshmen and transfer students with initial academic advising, assistance with class selection, registration for the first semester and an orientation to student services and campus resources. These workshops take place in early January and throughout the summer months. There is also a two-day overnight SOAR program for students who would like a more extensive orientation program.

The office is located in the Foundation Building (suite 160) and the telephone number is (562) 985-5515. Information also may be obtained on the department's website at www.csulb.edu/soar/.

Testing and Evaluation Services

Information regarding admissions placement and certification examinations may be obtained from the office of Testing and Evaluation Services. Test programs currently offered include the SAT and Achievement Tests, ACT, EPT/ELM, WPE, PRAXIS, and the Nelson-Denny Reading Test. Students are advised to refer to testing requirements described elsewhere in the Catalog, and in particular, the EPT, ELM, and WPE programs. Additional placement or admission examinations may be offered to meet the needs of academic department requirements. Registration bulletins for the above mentioned exams as well as the MCAT, LSAT, CBEST, GRE, RICA, and TOEFL exams are available in the information racks immediately outside of the office.

The Testing Office also provides services to faculty, staff and administrators regarding research design, questionnaire construction and data analysis. The office is located in Brotman Hall 216; phone (562) 985-4007. FAX (562) 985-2415 or visit the Testing Office website at www.csulb.edu/centers/testing.

University Interfaith Center

The University Interfaith Center (UIC) is an association of 12 faith traditions serving the educational community of CSULB. Member groups represent individual faiths while respecting the diversity of religious traditions and the pluralistic nature of the university. Membership in the association is extended to faith groups who choose to work cooperatively, respecting the integrity of one another's religious traditions. All of the services of the University Interfaith Center are available to the entire campus community—students, faculty and staff.

The UIC aims to enhance the educational experience by encouraging students, faculty and staff in their pursuit of spiritual growth, community building, faith development and personal values. It offers pastoral care/spiritual support, educational programs, student community, worship services, service projects, conferences/retreats and referral information. It also provides a library on topics of religion and a comfortable lounge area where students can meet, share a meal or study.

The UIC is located in the University Student Union, room 103. For information on programs and resources call (562) 985-4369.

University Outreach and School Relations

The Office of University Outreach and School Relations (UOSR) is the primary student recruitment and guest relations office for the University. The Office disseminates information on CSU and CSULB admissions and financial aid policies and procedures, on CSULB's academic programs and on student services to prospective students and counselors from high schools and community colleges in the CSULB service area and surrounding communities.

A major focus of UOSR is the implementation of outreach and recruitment programs and services to reach a diverse pool of talented high school and transfer students for whom CSULB is their "University of Choice". The Office, under the direction of the President, also is responsible for recruitment of President's Scholars (California valedictorians and National Merit Finalists and Semifinalists).

In addition, UOSR administers pre-admissions and application workshops for prospective freshmen and transfer students; the Young Scholars Program for qualified high school students; admissions services for adult re-entry students; and educational awareness and academic enrichment services for elementary and middle school students.

UOSR offers guided campus tours by appointment. Those interested in visiting the campus should call (562) 985-5358. Specialized campus visits for K-12 students, parents, counselors and other interested groups may also be arranged.

The Office of University Outreach and School Relations is located in Brotman Hall, room 289. For more information, visit the UOSR website at www.csulb.edu/outreach.

Veterans' Services

The Veterans' Services office coordinates all veterans' financial benefits including initiation of federal and state benefits, maintenance of veterans' status with the Veterans' Administration and continuation of benefits through enrollment certification. In the past, federal grants funded full-time veterans' services at the university. At the present time, minimal federal funding has eliminated specialized veterans' services at many universities; despite the lack of federal funding, a half-time veterans' office is maintained at CSULB. The office is supervised by Counseling and Psychological Services and is located in Brotman Hall 226.

Women's Resource Center

The mission of the Women's Resource Center (WRC) is to facilitate the educational, professional and personal growth of women on campus. The WRC houses a library of material on women's issues, offers women's support groups, and peer counseling. It provides referrals to campus and community services, scholarship information, and is a clearinghouse for current events of interest to women. The WRC also provides a comfortable lounge where students can study, chat with friends, or hold meetings.

In addition, the Women's Resource Center sponsors educational events throughout the school year and networks extensively with other academic and student services programs. The seminars, workshops and/or conferences range from the more current theoretical women's issues to practical concerns of university women. The WRC is open from 9:00 a.m. to 5:00 p.m. Monday through Friday and two evenings until 6:30 p.m. The Women's Resource Center services are free and available to women and men, campus and community. The WRC is located in Liberal Arts 3-105. For further information, call (562) 985-8687/8576.

Writer's Resource Lab

The primary goal of the Writer's Resource Lab is to help CSULB students develop as writers by providing personalized writing tutorial services. Students do not need to be taking a writing course to use the Lab's services; they are available to any currently enrolled CSULB student.

At the Writer's Resource Lab, students may consult with friendly and knowledgeable tutors (all of whom are CSULB undergraduate or graduate students) in order to become more comfortable and confident with any aspect of the process of writing. Students are welcome to drop by and use the Lab's library of writing reference materials. Other services include group tutorial sessions and workshops on various writing issues.

For more information or to make a tutoring appointment, stop by the Lab in Language Arts Building - 212 or call (562) 985-4329.

Student Resource Centers

There are five student-run resource centers on campus where students may go for information and support.

Activities in the centers vary and may include small group meetings, planning for major cultural events, occasional potlucks, study hall, peer mentoring, and dissemination of information on community resources/volunteer opportunities and scholarships. Some centers may also house selected reading material.

Lesbian/Gay/Bisexual/Transgender Resource Center (LGBTRC)

The LGBTRC is a center run by students for students with the mission of offering support, conducting outreach and providing information to the campus community regarding lesbian, gay, bisexual and transgender (L/G/B/T) issues. The Center maintains a library of books and videos on L/G/B/T topics. Speakers Bureau volunteers are available for classroom or residence hall panel discussions. The Center has community posting boards for jobs, scholarships and events on- and off-campus. The LGBTRC also offers several rap/discussion groups and a lounge is available for students to study or hold meetings. Throughout the year, the LGBTRC sponsors various educational seminars and workshops designed to educate and increase visibility for L/G/B/T concerns.

LGBTRC services are open to any student, faculty or staff member interested in the lesbian/gay/bisexual/transgender community. The Center is located in FO4-165. For further information, including Center hours, call (562) 985-4585 (general information), (562) 985-4588 (event line) or e-mail lgbtrc@hotmail.com.

Fraternity and Sorority Housing

Some fraternities and sororities own or lease homes near the campus and provide lodging for their members. Students interested in affiliating with a sorority or fraternity should contact the Panhellenic Association (for sororities), the Interfraternity Council (for fraternities), or National Pan-Hellenic Council or Cultural Greek Council via Office of Student Life and Development, University Student Union.

Student Government

The quality of student life at CSULB is largely determined by students themselves. The time-honored tradition of student self-governance affords students a remarkable level of autonomy and provides a wealth of opportunities for developing leadership and management skills that can be as valuable as any classroom learning experience. Through self-governance, students learn how to make good deci-

sions, how to motivate others to work toward a common goal, and how to manage budgets and other critical resources

Student government at The Beach is organized under the Associated Students, a California nonprofit corporation owned and operated by the students of CSULB. Every student becomes a member and "shareholder" of the Associated Students upon registration, and all are encouraged to get involved in Associated Student activities. In addition to student government, the Associated Students also operates and manages the University Student Union, the Isabel Patterson Child Development Center, the ASI Recycling Center, the Soroptimist House, the Beach Pride Center, K-Beach radio, the Long Beach Union newspaper, and the Gold Mine Yearbook.

Participation in student government, or any other aspect of Associated Students, provides an exceptional opportunity for students to take part in the political advocacy of student interests, the development, and execution of student programs and services, the shared governance of the University, and the self-governance of the student community's affairs.

The governance structure of the Associated Students includes legislative, executive, and judicial branches. Each year the student body elects students to approximately 28 positions in the executive and legislative branches of government. In addition, students are elected to policy-making bodies including the Child Development Center Board of Directors, the University Student Union Board of Directors, the Student Media Board, the Forty-Niner Shops Board of Directors, and the Academic Senate. Participation in these programs and other campus activities has been a significant part of many students' University experience.

The executive branch of student government is comprised of the A.S. President, A.S. Vice President, A.S. Treasurer, and A.S. Administrator. The Associated Students President is also the chief executive officer of the Associated Students, Incorporated and acts as the official representative and host of the Associated Students to the University and the public. The President is responsible for executing Associated Students policies adopted by the A.S. Senate and for making all A.S. executive and judicial appointments. The President is an ex-officio member of all A.S. executive bodies.

The Associated Students Vice President chairs the A.S. Senate and is a voting member of that body. The Vice President is responsible for assembling the agenda for the Senate meetings and serves on several boards and committees. The Vice President assists the President with his or her duties and assumes the President's duties should the A.S. President leave office or become incapacitated.

The Associated Students Treasurer is responsible for the Associated Students' finances and enforcement of A.S. fiscal policy. The Treasurer prepares the Associated Students budget for submission to the Senate and chairs the A.S. Board of Control. The Treasurer approves all expenditures of A.S. monies and assists clubs and organizations with obtaining financial assistance from Associated Students.

The Associated Students Administrator is the senior programming officer of the Associated Students government. Appointed by the A.S. President each year, the Administrator is responsible for overseeing the A.S. Commissions. The Administrator also represents the Associated Students and the President on several campus committees.

The Associated Students Board of Control is a subsidiary board of the Senate and is chaired by the A.S. Treasurer. The Board acts in the areas of finance, personnel, and the administration of business affairs between the Associated Students and other parties. All groups requesting Associated Students funding must go before the Board of Control for approval prior to appearing before the Senate. The Board of Control makes recommendations regarding budget allocations to the Senate, which has final approval in all A.S. Board of Control financial actions.

The A.S. Senate is the legislative branch of student government and serves as the Board of Directors of the Associated Students, Incorporated. The Senate creates and revises the A.S. by-laws, approves the allocation of funds for programs, confirms presidential appointments, fills vacancies in elected offices between elections, and forms committees to study problems and proposals. The Senate also charters on-campus student groups (with the exception of fraternities and sororities), enabling these groups to request Associated Students funding, use Student Union facilities, and enjoy the benefits of the Associated Students' support and recognition. The Senate is comprised of 21 voting members, including the A.S. Vice President who serves as the Chair. There are two senators representing each of the seven colleges at CSULB and six Senators-at-large elected by the general student body.

The Associated Students Judiciary is responsible for interpreting the provisions of the A.S. bylaws and any other A.S. document when a dispute arises. The Associated Students Judiciary may take disciplinary action, including suspension or revocation of charter privileges against recognized student organizations. The Judiciary also renders final decisions in election disputes. The decisions of the A.S. Judiciary constitute the final authority in all Associated Students matters. A chief justice and six associate justices are appointed yearly by the A.S. President and confirmed by the A.S. Senate. The A.S. President also appoints an Attorney General and a Public Defender. This court allows students the opportunity to develop mediation and adjudication skills and to address any injustice or wrongdoing involving student government.

The Associated Students Government Offices are located in suite 311 of the University Student Union. For further information, call (562) 985-5241 or write to Associated Students Inc., 1212 Bellflower Blvd., Long Beach, CA 90815-4199.

The University Student Union

In March 1965, the student body voted to assess a fee each semester to construct, maintain and operate a student union building. The University Student Union (USU) opened its doors in 1972 and has served the campus continuously since then. In March 1995, the student body approved a \$17 million improvement project. Completed in May 1998, the Project added a third floor and west wing to the building, providing space for a conference center, a Leadership Resource Center, student organization office space, a computer center, new meeting rooms, and a covered exterior escalator.

The University Student Union is located in the center of campus, bridging the north and south campuses. It occupies approximately 180,000 square feet. With large interior patios, flexible multipurpose and meeting rooms, comfortable loung-

es and food service facilities, the USU is the community center of campus and for many students, their "home away from home". The USU offers weekly entertainment activities and numerous opportunities for occupying students' recreation and leisure time. It is also home to several campus offices, including the Associated Students, the Beach Pride Center, the Alumni Association, and the Associate Vice President for Student Services/Dean of Students, the Community Service Officers Program, the Interfaith Center, K-Beach Radio, the Leadership Resource Center, the office of Student Life and Development, and the Long Beach Union Newspaper.

The Mall (ground floor) level of the USU caters to recreational and leisure-time activities. The Games Area offers bowling lanes, a video arcade, billiards, table tennis, a television lounge, and an outdoor swimming pool. The first level also houses Round Table Pizza and the Press Room cafe.

The Plaza (second) level features food vendors, student conveniences, and student service providers. The USU Food Court features nationally branded vendors such as Carl's Jr., Subway, Robek's Juice, Coffee Bean and Tea Leaf, and El Pollo Loco. The Photo/Ticket Booth offers photo developing and sells tickets for campus events and area theme parks. The Candy Bar provides a quick place to grab a snack or a soft drink. The office of Student Life and Development provides advising for student organizations as well as mailboxes and organizational file space. The Event Planning Office is the central scheduling service for the entire campus. The ASI Business Office offers health insurance, money orders, notary public services, and banking services for student organizations. The Computer Center provides students with access to PC and Mac computers, while Planet Graph-X provides students with the latest in graphic design services.

The Terrace (third) level houses the A.S. Government offices and offers students the opportunity to participate in campus governance activities. The Leadership Resource Center provides students with valuable resources to enhance their college experience. The Robert C. Maxson Student Organization Center and its annex house 28 student organizations.

Throughout the USU, there are many facilities available to student organizations and other groups for scheduling events. The multipurpose rooms, meeting rooms, Center Courtyard and the Beach Auditorium all provide a variety of amenities for meetings, conferences, speakers, films, concert, luncheons, and banquets.

The Soroptimist House

Presented to the Associated Students in 1956 by the Soroptimist Club of Long Beach, the Soroptimist House provides a facility for parties, receptions, and informal meetings. It has a recently renovated, terraced patio for outdoor events, a carpeted lounge, a kitchen, and a dance floor. It is available for scheduling by campus organizations and departments, as well as individual students, faculty, and staff. The Soroptimist House provides a small, intimate, home-like setting and is commonly used for wedding receptions, graduation parties, and recognition ceremonies. Reservations may be made at the Event Planning Office in the University Student Union.

The mission of the profession of social work is to improve the quality of life for all people and to enhance human potential for full and productive participation in society. As such, social work has universal application to meet human needs arising from personal-societal interactions. Social Work, based on the history and philosophy of the profession, is committed to working with disenfranchised groups in our society to alleviate poverty and oppression and to empower at risk groups.

The social work method is a change-oriented process which helps individuals and social units of all sizes, structures and functions to discover, mobilize, develop and use their own and outside resources to change personal and social conditions which are barriers to meeting their needs. Change is accomplished through direct service, supervision, consultation, education, community organization, program development and evaluation, organizational and administrative advocacy, policy development, and social or political action.

Social workers are employed in varied settings, including the major societal institutions: health and mental health, child welfare, family services, government, education, justice, aging services, recreation, labor and industry, and religion. They work in many job classifications: direct service, community organization, supervision, consultation, management, administration, education and training, policy analysis and research.

The mission of the Department of Social Work is to prepare a diverse student population for Bachelor of Arts in Social Work (BASW) and Master in Social Work (MSW) degrees for professional social work practice. The graduates of these programs are able to:

- demonstrate competent and ethical practice with diverse and multicultural populations from a base that builds on advances in social work knowledge, values and skills;
- enhance the well-being, and address the needs of diverse and multicultural populations across the life span;
- and advocate for social justice and social change and for elimination of oppression and discrimination.

Additionally, the mission is to provide BASW and MSW education which is broadly accessible so that graduates can serve the needs of local, state and international communities in which they practice. In order to accomplish the mission, the Department draws on a diverse faculty who provides quality social work education and contributes to the community, the profession and the advancement of professional knowledge. The Departmental curriculum assists BASW and MSW students to gain professional knowledge and values and develop an understanding of, and skill in social work methods and techniques required to undertake quality practice within the full spectrum of professional tasks. These expectations are accomplished with the student through the integration of the information and theories of the classroom with supervised practical experience in a variety of social agencies.

The BASW and MSW programs are accredited by the Council on Social Work Education (Council on Social Work Education, Commission on Accreditation, 1725 Duke Street, Alexandria, VA 22314, phone number: 703-683-8080.

Departmental, University and Council on Social Work Education regulations do not permit the substitution of life or work experience for curriculum requirements and expectations.

Bachelor of Arts in Social Work (code SW__BA01) (120 units)

The Department of Social Work offers, in conjunction with the general education requirements, a professional program leading to a Bachelor of Arts in Social Work (BASW). The goals of the BASW program are to prepare students for entry level, professional, generalist social work practice and for graduate social work education, including advanced standing. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions).

Social Work majors should consider taking courses as electives or for fulfillment of general education requirements in the ethnic studies, women's studies and gerontology programs in the Colleges of Health and Human Services and Liberal Arts. The department can make recommendations concerning those courses which would be most useful to students interested in acquiring broader information closely allied to professional social work practice.

The field sequence plays an integral role in the BASW curriculum providing an opportunity for the student to apply Social Work knowledge and practice skills in an agency based educationally focused field work placement. Students complete 450 hours of field placement (SW 495A/B) in their senior year for which they earn 14 academic units. Students complete 16 hours per week in an assigned agency placement. A variety of agencies in the surrounding communities are used, and the department's field faculty select the most appropriate field placement site for students.

Students can contact the admissions unit for academic advising concerning the requirements for admission into the BASW program.

Admission Under Impaction

The number of applicants to the Social Work program exceeds the number that can be accepted. For this reason, the Social Work Program has been designated as impacted by the California State University. Admission is on a competitive basis and is determined on the basis of meeting all of the following supplemental criteria. Applicants to the upper-division major must be able to demonstrate that they will meet the following requirements for admission prior to the semester for which the application is submitted:

1. Completion of a minimum of 56 semester units of degree credit, including all lower-division General Education requirements with a cumulative GPA of at least 2.0. The five prerequisite courses listed below or their equivalents are included in the 56 units.
 - A. Cultural Anthropology (ANTH 120)
 - B. Human Biology (BIOL 205) or anatomy/physiology
 - C. Introduction to Psychology (PSY 100)
 - D. Introduction to Sociology (SOC 100)
 - E. Elementary Statistics (HDEV 250; MATH 180; PSY 110; SOC 250);
2. Earn a minimum GPA of 2.5 in the prerequisites *noted in 1 and an overall cumulative college GPA of 2.0;
*Because of the rigorous academic and professional demands of the program, students must demonstrate the ability to perform well academically. Priority will be given to students with GPAs of 2.5 and above who provide appropriate application materials. Students with GPAs of less than 2.5 who submit excellent application materials also will be given consideration.
3. Submit by January 20 a departmental application which includes statements of biographical and educational background, and community and/or social work experience.
4. Submit two letters of reference (one academic and one professional).
5. Submit transcripts of all previous college work at CSULB and elsewhere. In determining eligibility of an applicant for admission to the program, the admission committee will consider:
 - A. All the information in the supplemental application;
 - B. All college/university academic work completed with emphasis on the prerequisite courses;
 - C. Documented exposure to the field of Social Work in a variety of settings such as work or volunteer experience;
 - D. An interview of the applicant (at the discretion of the admission committee)

Admission Under Impaction for Continuing Students

Students who indicate a Social Work major when they enter as freshmen will be assigned a pre-social work major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the major by the department. Students who are not accepted into the major cannot continue as pre-social work majors.

Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the major will not be admitted to the university unless they have listed a second choice of major on the application form.

Additional Requirements

To be allowed to continue in the major, students must complete the following during the first two semesters in the major courses:

- A. Pass Abnormal Psychology
- B. Pass the CSULB Writing Proficiency Examination (WPE)

Sequence of Required Social Work Courses

Students will take the following sequence of courses starting with:

- First Level (fall): SW 220, 221, 330, 350
- Second Level (spring): SW 331, 340, 341, 351
- Third Level (fall): SW 440, 442, 495A
- Fourth Level (spring): SW 441, 465, 495B

All Social Work courses must be completed with a grade no lower than a "C" in classroom courses or a "CR" for practicum or field experience. If a student earns a grade lower than a "C" in a classroom course or a "NC" in a practicum or field experience course, the student must repeat the course and earn an acceptable grade before advancing to the next level of courses.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Master of Social Work (code SW__MW01)

The Department of Social Work offers a professional program culminating in a Master's degree in Social Work. Our goal is to prepare students to enter professional, multicultural social work practice. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions). In addition, students are prepared for advanced, specialized practice in concentrations representing Children, Youth and Families or Older Adults and Families.

The MSW program emphasizes ecological and systems perspectives which focus on the fit and interactions of a person or system in relation to the various environments likely to be encountered. Within these perspectives, knowledge, values, and skills are used in a change-oriented process within a multicultural context to help individuals and social systems achieve improved quality of life and social participation, including advocacy for just institutions and equitable access to opportunities and resources.

In addition to the mission noted above, the MSW program provides an educational experience which does the following:

1. Provides knowledge of and experience with ethnic diversity, teaches skill in ethnic-sensitive practice, and provides motivation and skill to combat oppressive policies and discrimination. As such, the program actively offers opportunity for graduate education to students of various ethnic, racial, and socio-economic backgrounds who have life experience in bridging cultural gaps;
2. Contributes to the quality of social services delivered in the adjacent community (Los Angeles, Ventura, San Bernardino, Riverside, and Orange Counties) by providing an opportunity for advanced education to students who are already employed in the social services. These students may concurrently maintain employment within the social services and participate in the program to develop advanced skills in their area. Quality of services is also enhanced through close collaboration between the Department of Social Work and community service agencies offering fieldwork experiences and through the labor force of MSW's educated in a program with multicultural emphasis and specializations which reflect the needs of our adjacent community as well as the needs of urban communities nationally;
3. Prepares social workers for leadership and specialized practice with a specific population group. The program maintains high standards and prepares social workers for the depth and complexity of generalist Social Work practice while being able to practice in a chosen area of concentration. Foundation knowledge, values, and skills required for intervention in a multicultural context are applied and developed through work within the area of specialization. Specialization consists of emphasis on a stage of the life cycle: either children, youth, and families or older adults and families. Specialized education is offered concurrently with basic foundation knowledge from entry into the program. Students are expected to have experience in the social services upon which to draw after entry into the program;
4. Teaches analytic skill necessary for reflective and autonomous practice and necessary for contribution to the advancement of knowledge. Social workers should be capable of integrating knowledge and practice, should be able to apply grounded, scientific principles to practice, should be capable of conceptualizing practice principles on the basis of their experience, and therefore should be able to contribute to the development of new knowledge;
5. Educates students to the values and ethics of the profession. The social worker is expected to be committed to the value that people should have equal access to resources, services, and opportunities. Social workers should be advocates of humane and responsive service, have regard for the worth and dignity of the individual, and conduct themselves in accordance with the professional code of ethics.

Concentrations

The Master of Social Work degree offers opportunity for study in two areas of concentration: Older Adults and Families or Children, Youth and Families. The concentrations reflect two of the major areas of social concern and programs in our society. Child neglect and abuse, single parents, drugs and

gangs illustrate the tremendous need for service to children and their families. Interestingly, the other end of the age range also reflects neglect and a need for service. The aged, the fastest growing population segment in our society, often lead healthy productive lives; however, many at risk individuals and their families will require services. For example, older adults in the uppermost age brackets are often frail and, therefore, may have a greater need for social services, income maintenance, housing, health and personal care services. The probability that older women will live longer than men and experience differences in social and economic conditions places many older adults at risk.

With both groups, the family is often the mediating source, and the social worker needs to be able to work with the family as well. Both groups are represented by large numbers in Southern California, and programs are developing to serve the need. Professional social workers have a vital part to play in seeing these services are adequate and sound.

The Children, Youth and Families Concentration (CYF)

The Children, Youth and Families (CYF) concentration prepares students for practice in a variety of settings. Students are exposed to the full range of practice skills and have one year of direct practice experience and a second year of more intense direct practice or administrative practice experience.

Field work placements are available in a variety of agencies in the surrounding five-county area, including public, private and non-profit agencies. Typical settings include child welfare/protective services, health care, mental health, public social services, schools, community-based outpatient agencies, corrections/juvenile justice, residential treatment, programs for persons with developmental disabilities, substance abuse treatment and other specialized programs.

Required Courses for CYF Concentration

- SW 560 Direct Intervention with Individuals and Families: Focus on CYF
- SW 660 Direct Intervention with Groups and Families: Focus on CYF
- SW 670 Social Work Administration
- SW 681 Advanced Policy and Political Action: CYF
- SW 596 and SW 680 Field work placement in two different CYF agencies
- SW 698/699 Master's Thesis
- Two electives (any scheduled electives)

Distance Education

The Children, Youth and Families Concentration is also offered at off-campus locations throughout the state. Courses are taught using face-to-face instruction, as well as interactive television and web-based instructional support. The distance education MSW is offered using a 3-year, part-time model. Students attend courses on Saturdays and complete fieldwork requirements during the second and third years of the program.

The Older Adults and Families Concentration (OAF)

The Older Adults and Families (OAF) concentration prepares students for practice in the delivery of social services to older adults and their families, in the planning and evaluation of social services and in administration of services and policy development. Students experience one year of placement in a direct practice setting and may select either a direct practice or administrative practice setting for their second year.

Field work placements are available in a variety of agencies in the surrounding five-county area including public and private nonprofit agencies. Typical settings include health care, adult protective services, mental health, community-based outpatient agencies, rehabilitation, programs for the developmentally disabled, substance abuse treatment, senior programs and other specialty services.

Admission to MSW Program

Students interested in full and part-time study are admitted to the MSW program for the fall or summer semester each year. Prospective students should apply directly to the Department of Social Work as well as to the University. International students must also apply to the Center for International Education (562) 985-5476. The Center begins accepting applications for the following fall term on November 1. Review of applications by the department begins the first week of September. Deadline for application is the second Friday of April by 5:00 p.m.

All students who apply to the Master of Social Work program must complete the following prerequisites prior to admission:

- Human Biology or Human Anatomy or Human Physiology
- Elementary Statistics

Admission Requirements

To be admitted on a full or part-time basis to the Master of Social Work program, applicants must meet the following criteria:

1. Hold a Bachelor's degree from a university or college of recognized standing, that is grounded in liberal arts, and be eligible for admission to graduate standing at CSULB;
2. Demonstrate satisfactory academic achievement as evidenced by a cumulative undergraduate GPA of 2.50 or above on a 4.0 scale for the last 60 units of course work attempted and/or completed toward degree requirements.
3. Completion of the Department's application which requires inclusion of:
 - three reference letters (academic and professional)
 - a summary of volunteer experience, work experience, and educational background
 - a personal statement
 - results of the Graduate Record Examination (GRE) General Test taken within the past five years. This requirement is waived for applicants who have completed a masters degree within a 5 year period prior to the date of admission.
 - an official copy of all college/university transcriptsApplications that do not contain the above materials are considered to be incomplete, and will not be assessed for admissions decisions.
4. Preadmission interviews may be required by the Program faculty.

Field Work

The field work sequence plays an integral role in the MSW curriculum. The experience offers an opportunity for students to integrate and apply theoretical knowledge and Social Work practice and intervention skills in a community agency setting under the supervision of a qualified field instructor. A variety of agencies within the surrounding counties are utilized, reflecting the diverse settings in which social workers are employed. University field faculty select the most appropriate field placement site for students.

Each student has two field work placements and concurrent enrollment in practice courses during the course of study. Each placement involves 500 hours of field work in a community agency setting and attendance and participation in a field

work seminar that meets weekly on campus. The field work sequence encompasses a total of 1000 hours, for which 12 units of academic credit are given. Concurrent and summer block models of field work placement are available. The concurrent model of field work parallels the academic year schedule, with placement beginning in September and continuing through mid May. Students take concurrent coursework and a field seminar while enrolled in field work and are currently in field work two days (16 hours) per week. This must include either two 8-hour week days or one 8-hour weekday and two 4-hour blocks. Some agencies include evening hours. The block model of field work occurs during the late spring and summer months, with students completing 36 hours per week (M-F 8:00 a.m. - 5:00 p.m.) in field work while concurrently taking coursework and a field seminar on the remaining work day.

Students who are employed in social service agencies may request that their agency be evaluated as a site for their field work for the second year of field work. The agency must be able to meet all criteria established by the Department of Social Work to insure the educational focus of field work and provide a significantly different experience. Evaluation of field work sites and approval to utilize an agency of employment as a field work site will be completed by the field work faculty.

The Department of Social Work will reject an applicant or disqualify an enrolled student whose record of academic achievement or performance in field instruction does not meet the minimum standards of the profession.

Geriatric Social Work Education Consortium

The John A. Hartford Foundation awarded a 3 year grant to support the development of geriatric field practicum sites. The grant funded an alliance of all of the social work graduate schools and four geriatric service providers in the greater Los Angeles area. This consortium was created and sponsored by the Partners in Care Foundation with the goal of enhancing the quality of life for seniors in health care and social services.

Now with new funding sources, stipends are provided to MSW students in the Older Adults and Families concentration. Information regarding this program is presented to students in the field orientation and applications are made available.

Inter-University Consortium

The IUC (Inter-University Consortium) is one of the specialized training programs in public child welfare available in the MSW program. It is a collaborative partnership that includes the Los Angeles County Department of Children and Family Services and the Paramount Unified School District. The IUC program has been designed to give students exposure to public child welfare practice through assignment of DCFS cases, as well as experience working with groups of children in the school setting.

Title IV-E stipends are available for one (1) year for students enrolled in the full-time 2 year or part-time, other than summer block, model of the MSW program. Students may apply for either the first or second year of field placement. Students accepted into the program must:

- Be enrolled in the MSW program

- Be enrolled in the Children, Youth and Families concentration
 - Complete one year of fieldwork in the IUC/DCFS placement
- Complete the designated specialty child welfare curriculum which includes:
- SW 643 - Social Work Practice within Child Welfare Services
 - SW 698B/699A - MSW Thesis (IUC students' theses must focus on a child welfare problem or issue)
 - Complete designated specialized training seminars

Students participating in the program must undergo pre-screening for county employment including fingerprinting and DCFS physical and psychological examinations. Students sign a contract committing themselves to one year of full-time paid employment following graduation with Los Angeles County Department of Children and Family Services. Students are responsible for payback of the stipend if they are unable to successfully complete any of the requirements of the program.

CalSWEC

California Social Work Education Center (CalSWEC) is a unique partnership between social work education and the publicly supported child welfare structure. The mission and goals of the Cal SWEC program are to reprofessionalize public child welfare. CalSWEC provides financial support to MSW students in exchange for a commitment to work in a public child welfare agency for a minimum of one year for every year of support received. The intent of the program is to strengthen and enhance the quality of practice by professionally trained and educated public child welfare social workers.

Students must first be admitted into the Children Youth and Family Concentration of the MSW program, after which they submit an application and answer various questions designed to ascertain their interest and level of commitment to a career in public child welfare.

Priority is given to applicants representing diverse population groups currently served by child welfare agencies in California. Fluency in a high demand language is also given priority. Years of service and other child welfare experience also weighs significantly into the selection process. Students in the program must be U.S. citizens or have a permanent visa.

An Awards Committee, made up of representatives of the CSULB Department of Social Work and representatives of public child welfare agencies from counties surrounding the University, will review all applications and finalize selection of candidates to whom the award will be offered. Inter-University consortium students are not eligible for the CalSWEC program.

Full-time CalSWEC Program

The IV-E stipends provide for two (2) years of support for students enrolled in the full-time 2 year model of the MSW program. The student signs a contract to secure full-time employment in a public child welfare agency for two (2) years (one year of employment for each year of support) but is expected to remain in public child welfare employment for longer than this minimum period.

Once accepted into the program students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process.

Part-time CalSWEC Program

Students eligible to apply for the part-time CalSWEC reimbursement program must be employees of the County Social Services department that provides the child welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial supports for admitted students will include: full tuition and fees, book costs and a travel allowance. The student will receive the actual cost of tuition and fees based on the percentage of his/her enrollment up to full-time in the MSW program. Each student will receive the actual cost of required books up to \$500.00 per semester. The travel allowance will be determined based on the two-way commuting distance from the student's home or work to the campus and/or field work site and return to that location.

Students participating in the program sign a contract to render one year of continuous and satisfactory full-time employment in their home public child welfare agency for each year of IV-E education support.

CalSWEC Program Requirement

Students participating in the program must meet all of the following criteria:

- Enroll in and successfully complete the Children, Youth and Families Concentration;
- Maintain a B (3.0) average;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public child welfare agency;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public agency (different from the first year) or a non-profit agency serving IV-E eligible children (in this case IV-E refers to clients who are TANF eligible).
- Have a valid drivers license, current automobile insurance, and secure the use of a car as required by fieldwork.

Complete required specialized Child Welfare Curriculum including but not limited to:

- SW 643 - Social Work Practice within Child Welfare Services;
- SW 698/699 - Masters Thesis with a focus on Child Welfare population, issue area or service delivery systems;
- Attendance at specialized training seminars;
- Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements.

CalSWEC students are not eligible for the PPS credential.

Pupil Personnel Services Credential with Specialization in School Social Work and Child Welfare and Attendance (code 803)

The California Commission on Teacher Credentialing issues the Pupil Personnel Services (PPS) Credential. The Department of Social Work, College of Health and Human Services, offers the combined School Social Work and Child Welfare and Attendance Specializations of the PPS Credential within the context of the Master of Social Work (MSW) degree.

The PPS Credential in School Social Work and Child Welfare and Attendance authorizes the holder to be employed in the State of California as a School Social Worker and/or a Child Welfare and Attendance Specialist. The credential covers pre-kindergarten through 12th grade service in public and other schools requiring the credential. Individuals with the credential in School Social Work and Child Welfare Attendance are pupil

advocates, and provide prevention and intervention strategies that remove barriers to learning. These professionals, in partnership with other educators parents and the community maintain high expectations for all pupils, facilitate pupils reaching their highest potential, foster optimum teaching and learning conditions, and prevent school failure. School Social Work is defined as the application of social work principals and objectives to help fulfill the major purpose of the education system: to provide a setting for teaching and learning in which all children can prepare themselves for the world they now live in, and the world they will face in the future.

Child Welfare and Attendance specialists provide assessment and intervention around issues of attendance for pupils.

Requirements

1. Successful completion of all of the requirements for the 60 unit Master of Social Work (MSW) degree within the Children, Youth and Families Concentration. Required coursework will be completed in the following sequence areas: Field Work, Human Behavior and the Social Environment, Social Work Policy, Social Work Practice, and Social Work Research;
2. Completion of SW 665, School Social Work as one of the required electives within the 60 unit MSW program, taken either prior to or concurrently with school social work field work placement;
3. Successful completion of required School Social Work Seminar series presenting specialized topics;
4. Demonstrated knowledge in the following areas of pupil personnel services, as defined in the Commission on Teacher Credentialing Standards: Knowledge of techniques for facilitating individual growth and development to achieve academic success; Knowledge of the wide variety of socio-cultural influences that affect pupils in a school setting; Knowledge of human assessment; Knowledge of problem prevention and early intervention; Knowledge of consultation services; Knowledge of learning theory and psychological education; Knowledge of coordination and development of services; Knowledge of legal enablements and constraints; Knowledge of referral and utilization of services; Knowledge of human assessment as direct services to pupils, Knowledge of social interventions; Knowledge of consultation coordination and development of services; Knowledge of referral, utilization, involvement and use of community resources; Knowledge of social research and services based on research; Knowledge of the code of professional ethics; Knowledge of attendance laws and the rights of minors; and Knowledge of skills using attendance laws and assessment skills.
5. Successful completion of 600 clock hours of field practice in the second year of field, demonstrating all of the required skills and knowledge areas, in an approved PPS site, under the supervision of an experienced MSW level practitioner and an individual who holds a PPS Credential. Supervised hours of field practice will include at least 100 hours in each of two settings (elementary, middle and/or high school), and experience in service delivery with populations representing ethnic diversity and will cover both school social work and child welfare and attendance competencies and standards.
6. Completion of required Application and forms from California Teachers Credentialing Division, including fingerprints, Certificate of Clearance and Character Reference form;

7. Completion of required health screenings;
8. Successful performance on C-BEST Examination;
9. Certification of program completion and demonstrated competence by the PPS Program Coordinator, Department of Social Work. The student may be required to complete additional course work, field work, or demonstrate specific competencies before approval.
10. Completion of all required forms and procedures of Credential Processing Center, CSULB.

Advancement to Candidacy

A conditionally classified or fully classified student must maintain a minimum GPA of 3.0 on all courses taken subsequent to admission. In addition, a GPA of 3.0 must be maintained in all courses required for the degree. A student will be eligible for advancement to candidacy for the degree after successfully completing 12 units of graduate level courses in Social Work.

All students must demonstrate competency in writing skills. Students must pass the Writing proficiency Examination (WPE) or score at least a "4" on the GRE Writing Assessment. The WPE must be at least attempted during the first semester of residence in the MSW program. Either the WPE or the GRE Writing Assessment must be passed to advance to candidacy.

Course Load

The California State University, Long Beach requirement for full-time status as a graduate student is 8 weighted units. For part-time students pursuing the M.S.W. degree in the Department of Social Work, the residency requirement is one year of full-time work; therefore, part-time students pursuing the M.S.W. degree must take at least 2 semesters of at least 3 courses or 9 units. Students who wish to complete the M.S.W. degree in 2 years must take an overload of 6 units for 4 semesters or 15 units a semester.

Requirements

The Master of Social Work program requires the completion of 60 semester units. Fifty-four units of required courses and 6 units of scheduled departmental electives must be taken to complete a concentration. In the CYF concentration, 57 units of required courses and 3 units of scheduled departmental electives must be taken by IUC, Cal SWEC and PPS credential students.

The program is taken in one of the four following sequences:

Plan A: (two years)

- Term 1 — SW 500, 503A, 505, 550, 596A; (fall)
- Term 2 — SW 560 or 561, 592, 594, 596B, 503B; (spring)

In recent years brief interventions have become even more a part of the repertoire of the therapeutic community, primarily due to two factors: the empirical research which shows that brief treatment is effective in reducing or eliminating client problems in living and, secondly, insurance policies, managed healthcare and mental health programs will only pay for 20 or so sessions of mental health treatment per year. This course covers the major forms time-limited clinical treatment. By course end, students will have a working knowledge of the methods used in the models, the ethnic, gender and other-sensitivity of the forms of treatment, and the empirical research that supports their use. Letter grade only (A-F).

690. Special Topics in Graduate Social Work (3)

Prerequisites: Consent of Department. Topics of special interest in social work selected for intensive study. Topics will be announced in the *Schedule of Classes* each semester. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

691. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients, and Around the Planet (3)

This course is designed to help the social work students examine conflict and violence, their own and others' responses to conflict situations on the intrapersonal, interpersonal and community levels, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Although the basic course material is similar for the undergraduate and graduate level, the readings, assignments, and expectations differ for these distinct student populations. Letter grade only (A-F).

693. Community Projects II (3)

Prerequisite: SW 592. Community Projects II is designed to integrate student's knowledge of cross-cultural practice, human behavior and research in the context of identifying solutions to social problems. This "hands on" course builds on the analysis of the neighborhood, community or organizational problem that the student task groups completed in Community Projects I. Utilizing planning, program development and program implementation skills/techniques; students are required to develop, implement and

evaluate the impact of an intervention which they designed to control, alleviate and/or eradicate the causes or consequences of the problem for the affected population. Letter grade only (A-F).

698A. MSW Thesis I (3)

Prerequisites: 30 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy. This is the first semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Letter grade only (A-F).

698B. MSW Thesis I (3)

Prerequisites: 30 units in the MSW program completed at a minimum GPA of 3.0 and Advancement to Candidacy. This is the first semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Letter grade only (A-F).

699A. MSW Thesis II (3)

Prerequisites: 33 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy, and successful completion of SW 698A or SW 698B. This is the second semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Final comprehensive examination not required. Letter grade only (A-F).

699B. MSW Thesis II (3)

Prerequisites: 33 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy, and successful completion of SW 698A or SW 698B. This is the second semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Final comprehensive examination not required. Letter grade only (A-F).

The Department of Teacher Education offers coursework in credential, certificate, and Masters degree programs that include preliminary and advanced professional preparation. The department houses the Multiple Subject Credential Program, an advanced credential program in Early Childhood Education, a Reading Certificate program, a Reading and Language Arts Specialist credential program, and Masters degree programs in Early Childhood Education, Reading, and Curriculum and Instruction. Courses are offered at a variety of times, with most courses offered in the late afternoon and evening to accommodate working schedules.

Multiple Subject Credential Program (code 200)

A teacher with a Multiple Subject Credential is authorized to teach grades pre-K through 12 in self-contained classrooms. The Multiple Subject Credential Program (MSCP) prepares students to be credentialed in the State of California for elementary and middle school instruction. The program allows for daytime field experiences in elementary classrooms and includes methodology courses and student teaching. The program can be completed in one summer and two semesters or three semesters, depending upon when prerequisites, and corequisites are taken, when the student begins the program, and whether a part-time or full-time schedule is followed. Program requirements must be met within seven years of the date of admission to the program.

The department has four Multiple Subject Credential Program (MSCP) tracks:

- 2042 Preliminary Multiple Subject Credential Program
- Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis (Spanish, Cambodian [Khmer], Chinese [Mandarin and Cantonese], Korean, Vietnamese)
- Multiple Subject Internship Program
- Integrated Teacher Education Program (ITEP)

For program information and advisement, contact the Elementary and Special Education Admissions and Advising Center (ED1-67; 562/985-9259) or visit the department website.

5 Year Preliminary Credential

Successful completion of the Multiple Subject Credential Program leads to the Preliminary Credential, which is valid for five years. Requirements for the Preliminary Credential are

1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U. S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST (a test of basic reading, writing and math).

4. Hold a certificate of clearance (fingerprint background check).
5. Demonstrate Level I computer technology competence (embedded in program course work).
6. Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
7. Complete professional preparation courses (in the MSCP) with a grade point average of 3.0 in all subject specific pedagogy (methods) courses with no grade lower than "C."
8. Complete student teaching.
9. Pass the Reading Instruction Competence Assessment (RICA) exam.
10. For Bilingual Cross-Cultural Language and Academic Development (BCLAD) candidates only: Demonstrate competence in BCLAD Domains 4 (specialized pedagogy), 5 (target culture knowledge) and 6 (proficiency in the target language). Requirements may be met through course work or state-approved exams.

Professional Clear Credential

Preliminary Credential holders must meet state requirements for the Professional Clear Credential within five years in order to continue teaching. There are currently three ways to earn the Professional Clear Credential:

1. *Option 1:* A Commission-accredited SB 2042 Professional Teacher Induction Program (if available in the district of employment).
2. *Option 2:* A Beginning Teacher Support and Assessment (BTSA) Program AND the four additional requirements of advanced study of health education, teaching special populations, using technology, and teaching English learners (if available through the district).
3. If neither an Induction nor a BTSA Program is available, a fifth year of university study (30 post-baccalaureate units), including the four additional requirements of advanced study course work in health education, teaching special populations, using technology, and teaching English learners. Students should be aware that the four advanced study courses must be taken after issuance of the Preliminary teaching credential.

Admission to the University and Multiple Subject Credential Program

Admission to the university and the MSCP are two separate processes. Applications to the university are available in Enrollment Services or on-line through CSU Mentor (www/csumentor.edu). Applications to the program are distributed at regularly scheduled program information meetings. Meeting dates, times and locations are available on the department website. Matriculated students may be admitted to the program based on their current undergraduate or graduate status. Graduating seniors, transfer students, and returning students should apply for post-baccalaureate admission to the university with the objective of entering the credential program (Identify your program objective as Multiple Subject Credential and use code 200 on the application form). Admission to the university does not constitute admission to the program.

Multiple Subject Credential Program Structure

The MSCP is a 40 unit program separated into three successive phases. Students must complete each phase before advancing to the next one.

- Phase One - Students complete program prerequisites (and any or all corequisites) and submit applications. Subject matter competence must be demonstrated at the time of application to the program by submission of passing score on all three sections of the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
- Phase Two - Students complete corequisite courses and four subject specific pedagogy courses and demonstrate subject matter competence.
- Phase Three - Students complete student teaching and the final subject specific pedagogy requirement.

Program Admission

All candidates are required to comply with all program policies and procedures detailed in the MSCP Handbook which is available for purchase at the Campus Copy Center located in the bookstore. Pre-program advisement and brochure materials are available in the Elementary and Special Education Admissions and Advising Center (ED1-67). Prospective candidates should obtain a program application by attending one of the regularly scheduled group advisement meetings. At the time of application submission, you must:

1. Complete all prerequisite courses in one of the four MSCP tracks, with a minimum grade of "B" in EDEL 380.
2. Attain a grade point average of at least 2.67 in all baccalaureate and post baccalaureate course work or a grade point average of at least 2.75 in the last 60 semester or 90 quarter units attempted.
3. Complete a personal interview with a department faculty advisor.
4. Submit three letters of recommendation.
5. Submit a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher.
6. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years.
7. Submit one photocopy of all university and/or college transcripts.
8. Submit proof of having taken the California Basic Educational Skills Test (CBEST). Note: You must take all three parts of the test.
9. Submit the application packet, including documentation, by the following deadlines:

March 1 — to begin pedagogy courses in Summer or Fall.

October 1 — to begin pedagogy courses in Winter or Spring.

THE ABOVE DEADLINES ARE STRICTLY ENFORCED.

Student Teaching

As the final phase of the MSCP, student teaching is a full-day experience five days per week for the length of the university semester. All student teachers have one placement in a K-2 classroom where they gain experience with early literacy instruction utilizing a balanced and comprehensive ap-

proach to reading. The other placement is in an intermediate classroom (grades 3-6) or in a middle school classroom (grades 6-8). One student teaching placement must be in a public school. There are several ways to complete student teaching: one regular semester, two consecutive summers, one entire summer, or one summer and part of one regular semester. Students should be aware that there is limited availability in the summer and all individuals may not necessarily be accommodated.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Field Programs Office one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings, which are held during the first two weeks of each semester. Dates, times and locations are announced in methods courses, are posted throughout the ED-1 and ED-2 buildings, and appear on the department website well in advance of the actual meeting dates. Deadlines for submitting applications to student teaching are:

March 1 — for Summer/Fall Student Teaching

October 1 — for Spring Student Teaching

Students should note that these deadlines are firm. Late applications are not accepted.

Students must meet the following requirements to advance to student teaching:

1. Completion of all program prerequisite, corequisite and subject specific pedagogy requirements in Phases 1 and 2 of one of the MSCP tracks. Students must pass all five subject specific pedagogy (methods) courses with a 3.0 grade point average and no grade lower than "C." The overall grade point average must continue to meet the program admission standard.
2. Passage of the California Basic Educational Skills Test (CBEST).
3. A negative tuberculosis skin test or chest x-ray valid through completion of student teaching.
4. Proof of character clearance.
5. BCLAD Emphasis students must meet all additional BCLAD program requirements.
6. For students who wish to student teach at the kindergarten level: completion of EDEL 420 with a minimum grade of "C."
7. Submission of a student teaching application by the appropriate deadline.

Track One – 2042 Preliminary Multiple Subject Credential Program

The 2042 Preliminary Credential is the basic Multiple Subject Credential. The 2042 track is comprised of foundational and subject specific pedagogy course work followed by the student teaching semester, which includes the Science subject specific pedagogy course.

Prerequisites

Must be taken concurrently.

EDEL 380 (3 units), EDP 303 (1 unit).

Corequisites

May be taken prior to or after admission to the MSCP.

EDEL 413 (2 units). Students can substitute this course with a combination of two courses from the following: one from CD 329, LING 329 or ED P454 and one from EDP 301, HDEV 307I, or PSY 361.

EDEL/EDP/LING 431 (3 units). Students can substitute this course with a combination of two courses from the following: EDP/LING 485 and one from ANTH 421, LING 425, AIS/ASAM/B/ST/CHLS/W/ST 319, EDEL 430 or EDP 432.

Subject Specific Pedagogy

Students must be officially admitted to the MSCP to take these courses. One course must be taken off-campus at an elementary school site during daytime school hours, and at least one must be taken on-campus: EDEL 442, 452 (3 units), 462, 472.

Student Teaching and Subject Specific Pedagogy in Science

All requirements for advancement to student teaching must be met. Courses must be taken concurrently: EDEL 482 (16 units), 475 (3 units).

Track Two – Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis in Spanish and Asian Languages

The Bilingual Cross-Cultural Language and Academic Development (BCLAD) Emphasis credential authorizes teachers to work in dual language classrooms or where a language other than English is required for instruction, support, and communication with parents and other professional communication. With appropriate substitutions and/or additional course work, the BCLAD Emphasis may be added to the basic 2042 credential. All BCLAD Emphasis candidates must demonstrate knowledge of the target culture, specific pedagogical skills, and fluency in speaking, listening, reading and writing in the target language. A BCLAD Certificate can be added to an existing credential by passing the appropriate CLAD and/or BCLAD exams.

The BCLAD Spanish Emphasis is offered on campus or through the BCLAD in Mexico program. The BCLAD in Mexico program leads to a Multiple Subject Preliminary Credential with Spanish BCLAD Emphasis during a year of study in Querétaro, México. CSULB and nine other CSU campuses statewide offer this credential in conjunction with the Office of International Programs.

To add the international BCLAD Spanish certificate to the basic 2042 credential the following courses are required: EDCI 541, 542; SPAN 322, 445.

The BCLAD Asian Languages Emphasis is part of a six campus CSU consortium offering BCLAD preparation and certification in Cambodian (Khmer), Chinese (Mandarin or Cantonese), Korean, or Vietnamese. Courses are taken at CSULB and other area CSU campuses.

Undergraduates who wish to pursue a BCLAD Emphasis credential should complete the Liberal Studies baccalaureate program with an appropriate concentration. Spanish BCLAD Emphasis students should take the Bilingual Spanish-English concentration; Asian BCLAD Emphasis students should take the Languages Other than English or U.S. Multicultural Studies concentration.

Spanish/English BCLAD Emphasis

The BCLAD Emphasis in Spanish prepares students for teaching in dual language and English Language Development settings where Spanish is required for instruction, support, and communication with parents and other professional communication. In addition to the 2042 credential requirements, BCLAD Emphasis in Spanish requirements include teaching pedagogy and practicum in a second language, culture of emphasis (by coursework or examination) and fluency in Spanish (by examination). The program requires 43 units of course work plus culture and language of emphasis proficiency through additional course work and/or examination. See the Spanish BCLAD advisor for program information.

Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

Corequisites

Same (5 units) as for Track One in the 2042 basic credential program plus EDP/LING 485 or EDP/EDEL 439 (3 units).

Subject Specific Pedagogy

Same (12 units) as for Track One in the 2042 basic credential program, with the following differences:

EDEL 442 Footnote # 53 section recommended

Substitute EDEL 452B for EDEL 452

EDEL 462 Footnote #53 section recommended

EDEL 472 Footnote #53 section recommended

Note 1: 150 documented hours as a teacher, assistant or volunteer in a multilingual setting is required in lieu of an off-campus daytime pedagogy course.

Note 2: It is recommended that EDEL 442 and EDEL 452B be taken concurrently.

Additional Spanish BCLAD Requirements

These requirements (0-15 units) may be taken at any time, but must be completed before student teaching:

Culture of Emphasis: For undergraduates, the culture component for the Spanish BCLAD is fulfilled in the Liberal Studies Bilingual concentration. Students completing a non-Liberal Studies bachelor's degree can meet this requirement by taking CHLS 340 or CHLS 350 (3 units) or BCLAD Exam 5.

Language of Emphasis: All Spanish BCLAD candidates must pass BCLAD Examination 6 (speaking, listening, reading and writing) prior to completion of the program. Spanish 312, 313, and 322 are also recommended (9 units). In addition, LING 329 or EDP 454 are strongly advised for language acquisition background (3 units).

Student Teaching and Subject Specific Pedagogy in Science

All requirements for advancement to student teaching must be met. Courses must be taken concurrently.

EDEL 482B or 482C (16 units), EDEL 475 (3 units).

Asian Languages/English BCLAD Emphasis

The BCLAD Emphasis in Asian Languages prepares students for teaching in dual language and English Language Development settings where Chinese, Cambodian, Korean or Vietnamese is required for instruction, support, and communication with parents and other professional communication. In addition to the 2042 credential requirements, BCLAD Emphasis

in Asian Languages requirements include teaching pedagogy and practicum in a second language, culture of emphasis (by coursework or examination) and fluency in the target language (by examination). The program requires 46 units of course work plus culture and proficiency in the target language (BCLAD Exam 6). See the Asian Languages BCLAD advisor for program information.

Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

Corequisites

Same (5 units) as for Track One in the 2042 basic credential program.

Subject Specific Pedagogy

Same (12 units) as for Track One in the 2042 basic credential program.

Additional Asian BCLAD Requirements (0-6 units)

Culture of Emphasis (one for each language program) (3 units):

Chinese (Cantonese & Mandarin) - EWS 301, Cal Poly Pomona

Cambodian - ASAM 334, CSU Long Beach

Korean - AAS 450, CSU Northridge or TED 495, CSU Dominguez Hills

Vietnamese - ASAM 333, CSU Long Beach

Language of Emphasis

Met by passage of appropriate BCLAD Examination 6. See program advisor for recommended courses as preparation for the exam.

Bilingual Pedagogy (one for each language program) (3 units):

Chinese (Cantonese/Mandarin) - EDEL 400 (Cantonese/Mandarin), CSU Los Angeles or EDEL 452C (Cantonese/Mandarin), CSU Long Beach

Cambodian (Khmer) - EDEL 452 (Cambodian), CSU Long Beach

Korean - EED 520K (Korean), CSU Northridge or TED 515A (Korean), Cal Poly Pomona or TED 494S (Korean) CSU Dominguez Hills

Vietnamese - EDEL 452 (Vietnamese), CSU Long Beach or EDEL 448 (Vietnamese), CSU Fullerton

Note: Bilingual Pedagogy courses may be taken before admission to the MSCP Program.

Student Teaching and Subject Specific Pedagogy in Science Education

All requirements for advancement to student teaching must be met. Courses must be taken concurrently.

EDEL 482B or 482C (16 units), EDEL 475 (3 units).

Track Three – Multiple Subject Internship

The intern program is for full-time teachers in districts with which CSULB has a contractual intern agreement. All students in this program must be employed by the district as the full-time teacher of record in a multiple subject classroom and have met all program and intern program admission requirements. The program requires 24 units of foundational and subject specific course work followed by 16 units of intern student teaching.

Pre-Application Requirements

- Hold a Bachelor's degree from an accredited institution.
- Demonstrate subject matter competence by passing the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
- Meet the U.S. Constitution requirement (by course work or exam).
- Pass the CBEST.
- Be assigned full-time to a self-contained K-8 multiple subject classroom in a partner school district.
- Meet the program grade point average requirement of 2.67 overall or 2.75 in the last 60 semester or 90 quarter units.
- Complete MSCP prerequisite courses.
- Have submitted an application to the MSCP program.
- Complete an interview with the Intern Program Director.

Prerequisites

Same (4 units) as for Track One in the 2042 basic credential program.

Corequisites (5 units)

Same (4 units) as for Track One in the 2042 basic credential program.

Subject Specific Pedagogy

Same (12 units) as for Track One in the 2042 basic credential program.

Student Teaching and Subject Specific Pedagogy in Science Education

All requirements for advancement to student teaching must be met. Courses must be taken concurrently.

EDEL 572A and 572B (8 units each), EDEL 475 (3 units).

Note: Interns must attend a Student Teaching Application Meeting and apply to student teach by the October 1 deadline for spring and the March 1 deadline for summer and fall.

Additional Requirements for BCLAD Interns

BCLAD Interns should refer to Track Two, above, for additional BCLAD Emphasis requirements.

Track Four – Integrated Teacher Education Program

For the Integrated Teacher Education Program (ITEP) requirements, please refer to the Liberal Studies section of this catalog.

Early Childhood Specialist Credential (code 430)

Note: discontinuance under consideration

This advanced credential program is integrated with various field experiences. Course requirements for the master's degree Elementary Education Option with a specialization in Early Childhood Education closely coincide with those of this advanced credential program. All courses in this program are applicable toward Child Development Permits.

Admission Requirements

1. Admission to the University.
2. A minimum GPA of 2.85 in the last 60 semester units of course work.
3. Pass the Writing Proficiency Examination (WPE) or CBEST.

4. Possess a valid basic teaching credential or be in the process of completing the Multiple Subject Credential Program.
5. Provide three letters of recommendation.
6. Verification of successful experiences with young children.
7. Submit a personal statement of teaching philosophy;
8. Complete a personal interview with the Director of the Graduate Program in ECE.
9. Complete a self-assessment of competency in Early Childhood Education.
10. File an approved individual program plan developed with an advisor.

Prerequisite

ED P 301

Requirements

1. All of the following courses (37 units): EDEL 420, 452 or 462, EDEL/EDSE 500A or 501, EDEC 421, 422, 522, 523, EDCI 530, EDEC 621, 682, and 526 or EDP 604.
2. Verification of two years of successful teaching experience, including a minimum of 90 hours in each of the following areas, is required of all candidates prior to completing the Specialist Credential program - a. preschool; b. kindergarten or the primary grades (1-3); c. multicultural settings.

Reading Certificate (code 415)

This certificate is granted by the California Commission on Teacher Credentialing (CCTC)

The Reading Certificate provides classroom teachers with advanced preparation in reading/language arts assessment and instruction, as well as theory and research in teaching reading, grades K-12. Some candidates may wish to complete the 12-unit Reading Certificate program as a terminal objective, while others may wish to complete it as a prerequisite to the Reading/Language Arts Specialist Credential Program.

Before completion of requirements for the Reading Certificate, the candidate must provide verification of three years of full-time teaching experience in any grades preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency credential or permit.

Admission Requirements

1. Bachelors degree and Multiple Subject or Single Subject Credential, or equivalent; CLAD certification strongly recommended.
2. ENGL 481 or 482, or current equivalent course in children's or adolescent literature.
3. A minimum grade point average of 3.0 in the last 60 units of university course work.
4. Two letters of recommendation, at least one from a supervisor.
5. An autobiography and statement of intent.
6. Interview with program faculty.
7. For secondary teachers, EDEL 452 or equivalent is strongly recommended.
8. Separate program application is required.

Requirements

EDRG 540, 551, 558, 559.

Reading and Language Arts Specialist Credential (code 410)

The Reading/Language Arts Specialist Credential prepares teachers to become school and district literacy leaders and supervisors. The reading/language specialist's role is multifaceted, including diagnostician, teacher of intervention for children or youth with delayed literacy development, collaborator with other school and district specialists, provider of professional development for classroom teachers, and reading program coordinator or facilitator.

Admission Requirements

Successful completion of the Reading Certificate program, or a valid Reading Certificate, or equivalent.

Requirements

EDRG 543, 544, 554, 556, 651

Note: All courses required for the Reading/Language Arts Specialist Credential can be applied to the MA in Elementary or Secondary Education: Specialization in Reading. See Catalog program description and the faculty advisor in the Department of Teacher Education for more information.

Master of Arts in Education

Option in Elementary Education (code EDELMA01)

Requirements

A minimum of 30 units (33 units for Reading) is required with at least 21 units in the 500/600 level series at this University. Prerequisite

A valid multiple subject teaching credential or by permission.

Requirements

1. Methods of Social Science Inquiry (6 units): EDP 400 (3 units) and one of the following courses (3 units): EDP 520 or EDCI 533 (comprehensive exam track); or EDP 595 or EDP 696 (thesis track)
2. Core (15 units): EDCI 500, 505, 530, 615, and 625.
3. Concentration (9 units): Candidates select an area of concentration in consultation with the program advisor, tailored to their professional goals. Candidates are responsible for taking prerequisite courses if required.
 - A. Advanced Methods (9 units): EDRG 540; EDCI 560, 570; or
 - B. Advanced Coursework in Educational Technology: 9 units selected from the following courses: EDP 542; ETEC 523, 525, 530, 551, 553; or
 - C. 9 units of advanced coursework in a self-selected concentration chosen in consultation with an advisor.

4. Capstone: (Choose A or B option in consultation with advisor).

- A. Comprehensive examination.
- B. Thesis and EDCI 698 (6 units)

Early Childhood Education Specialization (30-36 units)

Prerequisites

EDP 301, or HDEV 307I, or PSY 361 or equivalent, EDEL 420, and EDEL 482 or one year of documented and approved teaching experience.

Core Requirements

1. One of the following (3-6 units): EDP 400; or EDP 419 and EDP 420
2. One of the following (3 units): EDP 500 (comprehensive exam track) or EDP 696 (thesis track)
3. The following (3 units): EDCI 530
4. One of the following chosen in consultation with an advisor (3-6 units): EDEC 695 and Written Comprehensive Examination (3 units) or EDEC 698 Thesis (6 units)

Specialization Requirements

1. All of the following: EDEC 421, 422, 522, 621
2. Two of the following: EDEC 523, 526, 622, or EDP 604

Reading and Language Arts Specialization (33-36 units)

Prerequisites

A valid multiple subject or elementary teaching credential; CLAD certification is strongly recommended. ENGL 481 or ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a separate program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 2 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay, and interview with program faculty

Program Requirements

1. All of the following (27 units): EDRG 540, 544, 551, 554, 556, 558, 559, 651, and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDRG 695 and Written Comprehensive Examination (3 units) or EDRG 698 Thesis (6 units)

Middle Level Education Specialization (30-36 units)

Note: discontinuance or suspension under consideration, selected courses will not be offered in 2004-05.

Admission

Submit a separate program application to the College Of Education. (Applications are available in the College Graduate Studies Office, ED1-7).

3. Capstone (Choose A or B in consultation with advisor.)
 - A. Comprehensive examination
 - B. Project: EDMS 695 (6 units)

Clear Conditional Admission

1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to take the Writing Proficiency Examination (WPE) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

NOTE: Prior to admission to the master's program, students may take up to, but no more than, 9 units of approved coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education Specialization once 6 units of course work has been completed to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Elementary Master's Program Option;

4. A minimum 3.0 overall grade-point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Satisfactory completion of the Writing Proficiency Examination (WPE);
6. Personal-Professional Attributes
Applicants are required to submit a typed essay of not less than three pages, double spaced. The essay shall address the following: how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program advisor;
7. An approved plan of study completed with the Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education graduate advisor be on file in the Graduate Office;
8. A student must be enrolled in regular session or in the summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

Option in Secondary Education (code EDSEMA01)

A minimum of 30 units for Curriculum and Instruction Secondary Specialization and a minimum of 33 units for Reading and Language Arts Specialization is required with at least 21 units in the 500/600 level series at this University. In consultation with the advisor of Curriculum and Instruction or Reading and Language Arts or designated faculty, students will select a comprehensive exam track or thesis track.

Curriculum and Instruction Specialization (30-36 units)

Admission

In addition to applying to the university for graduate standing, candidates must submit a program-specific application. Applications are available in the College of Education Graduate Studies office.

Requirements

1. A valid secondary education or single subject teaching credential, or by permission.
2. Methods of Social Science Inquiry (6 units): EDP 400, 520
3. Core (15 units): EDCI 500, 505, 530, 615, 625
4. Concentration (9 units)

Candidates select an area of concentration, in consultation with the program advisor, tailored to their professional goals. A concentration must follow a pattern or theme; a disparate set of unrelated courses is not a concentration. Thesis candidates should shape their concentration around research methodology and content related to their thesis topic. Candidates must submit a written statement containing a coherent rationale for and description of the concentration sequence at the time of advancement to candidacy. Concentrations may follow one of the patterns listed below or may be uniquely devised by the candidate. A concentration must have the approval of the program advisor. Candidates are responsible for taking prerequisite courses if required.

1. Educational Technology (e.g., ETEC 523, 551, 553, 623).
2. Educational Foundations (e.g., EDP 573, 574, 575, 576).
3. Advanced course work in the candidate's teaching discipline.
4. Advanced course work toward a Supplementary Authorization.
5. Advanced course work toward the Professional Clear Credential.
6. Advanced course work toward CLAD certification.
7. Advanced course work in middle level education.
8. Research methods courses in preparation for the thesis (e.g., EDP 696, 595, 596; EDSE 533, 535).
9. Educational leadership (e.g., EDMS 693, ETEC 530).

Capstone Experience

Candidates select one of the following capstone experiences in consultation with the program advisor. Selection should be made at the time of advancement to candidacy in order to develop a program plan consistent with the selected capstone experience.

1. Comprehensive Examination.
2. Thesis. (Candidates take EDCI 698 for two semesters while writing the thesis, for a total of 6 units; candidates may need to take additional research methodology courses in order to prepare for thesis research and writing).

Reading and Language Arts Specialization (33-36 units)

Prerequisites

A valid secondary education or single subject teaching credential; CLAD certification is strongly recommended. ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a separate program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 2 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay, and interview with program faculty.

Program Requirements

1. All of the following (27 units): EDRG 540, 544, 551, 554, 556, 558, 559, 651 and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDRG 695 and Written Comprehensive Examination (3 units) or EDRG 698 Thesis (6 units)

Clear Conditional Admission

1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to take the Writing Proficiency Examination (WPE) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.

4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

Please Note:

Prior to admission to the master's program, students may take up to, but no more than, 9 units of coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction or Reading and Language Arts Specialization no later than completing 6 units to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;

Multiple Subject Intern Student Teaching is a one-semester culminating fieldwork experience. Weekly seminar. Credit/No Credit grading only with an equivalent grade of "A" or "B" required for credit including passage of TPA Task 4. May be repeated to a maximum of 16 units in different semesters.

572J. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically 3 units in each of two semesters to a maximum of 6 units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

572K. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically 3 units in each of two semesters to a maximum of 6 units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

599. Special Topics in Teacher Education (1-3)

Study of a special topic in Teacher Education. See *Schedule of Classes* for specific topic. Students must be enrolled in a Masters or Advanced Credentials or Specialist Program. Course may be repeated for up to six units as long as topic is different, and, depending on the program requirements. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

693. Developing Teacher Leadership in Middle Level Education (3)

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or consent of instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Letter grade only (A-F). Same course as EDAD 693 and EDMS 693.

Education Middle School Courses (EDMS)

*455. Teaching and Learning in the Culturally and Linguistically Diverse Middle School (3)

Prerequisite: Admission to the MSCP Middle Level Emphasis Program, Middle Level Education master's degree program, or consent of the instructor. Course focuses on teaching in linguistically and culturally diverse middle schools (grades 6-8). Topics include history, philosophy, foundations of middle school education, middle school reform, the young adolescent, middle school curriculum, learning theories in practice, assessment, interdisciplinary teaching, team dynamics, classroom management and organization, the advisor/advisory role of teachers in the middle school, theories and models of second language acquisition including SDAIE, and technology. Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching language arts and history-social science at the middle level including interdisciplinary teaching, reading in the content areas, and strategic reading. Includes an overview of elementary school content curricula in the two content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of field work required. Letter grade only (A-F).

*456B. Teaching Science and Mathematics in the Middle School (3)

Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching mathematics and science at the middle level. Includes an overview of elementary school content curricula in these content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of fieldwork required. Letter grade only (A-F).

483A-B-C. Middle Level Student Teaching in Linguistically and Culturally Diverse Classrooms (4-4-4)

Prerequisites: Admission to MSCP Middle Level/CLAD Emphasis Student Teaching; completion of all requirements for advancement to student teaching. Students teaching represents the culmination of the MSCP Middle Level Emphasis/CLAD Credential Program. Sections A and B consists of ten (10) weeks, full-days, spent in an approved middle school with a limited English proficient student population of at least 26%. Section C consists of an additional five (5) weeks of student teaching to be completed in an elementary school classroom also with a limited English proficient student population of at least 26%. Students must enroll in all sections (A-B-C) simultaneously, equating to 12 units of student teaching. Weekly seminars are required. Credit/No Credit grading only ("A" or "B" level work required for credit.)

Graduate Level

582. Concepts, Structures, and Programs for Middle Level Schools (3)

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Advanced exploration of the philosophical, historical, and societal foundations of middle level education. Study and evaluation of existing middle level programs, materials, curriculum, and future trends. Design of professional development for middle level teachers. Letter grade only (A-F).

584. Issues in Middle Level Education (3)

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Intensive study of middle level education issues emphasizing research perspectives and factors that may influence the future direction of middle level education. Topics examined include: instructional strategies and assessment/evaluation methods and materials, the multiple aspects of human diversity in the middle level classroom, impact of current societal events, parental involvement, threats to students' health and safety, risk behaviors that affect the healthy development of young adolescents, and teacher professional development. Letter grade only (A-F).

693. Developing Teacher Leadership in Middle Level Education (3)

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or consent of instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Letter grade only (A-F). Same course as EDAD 693 and EDEL 693.

695. Project in Middle Level Education (3)

Prerequisites: Advancement to candidacy, ED P/LING 595, approval by the program coordinator, department chair, and associate dean, and written application to the Graduate Office. Application for enrollment must be made by October 1 for the fall semester and summer session, or by October 1 for the spring semester. Study and analysis in the field of middle level education. Development of culminating masters project, which can take any of the following forms: 1) utilize action-based research to examine a classroom- or-school-based issue or problem related to middle level education to explore, analyze, or offer resolution to the problem; OR 2) develop a position paper, issue paper, or policy recommendation. Seminar and individual meetings.

Secondary Education Courses (EDSE)

Lower Division

157. Critical Thinking and Analytical Reading (3)

Prerequisite: ENGL 100 or equivalent (may be taken concurrently). Critical thinking and advanced reading comprehension. Includes laboratory experience and access to resource materials.

Upper Division

339. Linguistics for Crosscultural Language and Academic Development in Secondary School Settings (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Explores systematic instruction, theories of learning, curriculum development, teaching strategies, assessment and evaluation of student progress, classroom management and discipline, and establishing successful learning environments for all students. Fifteen hour fieldwork requirement. Letter grade only (A-F). May be repeated to a maximum of 6 units.

439. SDAIE: Specially Designed Academic Instruction in English (3)

Theories of second language acquisition and practical application: methods of teaching content to English language learners, reading and writing strategies, and curriculum development with application to K-12. Letter grade only (A-F). Same course as EDEL 439 and ED P 439.

457. Reading and Writing in the Secondary School (3)

Prerequisite: EDSS 300 (A, C, D, F, G, H, M, N, P, or S); or admission in the Single Subject Credential Program; or permission of the University Coordinator of the Single Subject Credential Program. Required course in the Single Subject Credential Program. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal settings; and the special reading needs of less prepared learners, accelerated learners, and English language learners. Addresses issues of diversity and equity within the context of teaching reading and writing in content areas. Includes individual/tutorial instruction of an adolescent. Minimum fifteen hours of field work required. Letter grade only (A-F). May be repeated to a maximum of 6 units.

458. Newspaper in Education (1-3)

Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem-solving. Understanding mass media. Same course as EDEL 458.

*490. Special Topics in Secondary Education (1-3)

Prerequisite: Consent of instructor. Topics of current interest in secondary education selected for intensive study. May be repeated to a maximum of 6 units with different topics. Topics will be announced in the *Schedule of Classes*.

*491. Special Topics in Teacher Education (3)

Prerequisite: Consent of instructor. Topics of current interest in teacher education selected for intensive study. A student may enroll for three units to a maximum of six units for certificate and degree purposes, subject to suitable change in course content. Topics will be announced in the *Schedule of Classes*. (Lecture 2 hours, laboratory 2 hours.)

*497. Independent Study (1-3)

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of 6 units, but no more than 3 units applicable to credential or major requirement.

Secondary Education Courses (EDSE)

Graduate Level

500A. Reflective Processes For Beginning Teachers (3)

Prerequisite: Currently teaching and hold credential or consent of instructor. To enhance effectiveness and success in beginning years of teaching (less than four years). Emphasis on acquisition and application of reflective processes. Acquire skills to identify and resolve personal and professional problems; delve into the current literature and research; engage in group processes; create, identify and evaluate alternative solutions and apply these to your own problems and situations. Same course as EDEL 500A. Letter grade only (A-F).

501. Enhancing Teacher Effectiveness: Strategies for Mentoring and Leadership (3)

Prerequisite: A minimum of three years teaching experience. To enable experienced teachers to acquire skills and understandings to improve their own instructional and professional effectiveness, become mentor teachers, and develop strategies for teacher leadership and supervision. Enhance ability to analyze and improve instruction and guide other teachers in using these skills. Conduct applied research on these topics. Same course as EDEL 501. Letter grade only (A-F).

541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Principles of curriculum development, with a focus on primary language and second language teaching, learning and critical literacy. Candidates will analyze a variety of US and Mexican program sites to conduct research and create curricular programs. (Offered in both the US and Mexico. [new course; BCLAD Domain 4]; ten hours fieldwork) Letter grade only (A-F). Same as EDCI 541.

542. Situated Learning in Bilingual Contexts (3)

Prerequisites: A valid California CLAD teaching credential or equivalent. Hands-on experiences in Spanish language and bilingual-bicultural settings in Mexican public, private and indigenous schools. Interaction with Mexican educators, students and families. Critical analysis of a wide variety of educational models with application to Latinos in US schools. (Offered in Mexico; [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience). Letter grade only (A-F). Same course as EDCI 542.

599. Special Topics in Teacher Education (1-3)

Study of a special topic in Teacher Education. See *Schedule of Classes* for specific topic. Students must be enrolled in a Masters or Advanced Credentials or Specialist Program. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics (depending on program requirements).

Curriculum and Instruction Courses (EDCI)

500. Studies in Curriculum and Instruction (3)

Prerequisite: Admission to the Curriculum and Instruction Master's Program or consent of instructor. This course must be taken during the first or second semester in the Master's Program. Provides an introduction to graduate study in curriculum and instruction, including overview of curriculum and instruction as a field of inquiry; critically reading and conducting educational research; using reflective strategies for analysis and improvement of professional practice. Letter grade only (A-F).

505. History of Education in the United States (3)

Prerequisites: Admission to an approved masters program or consent of the instructor. This course must be taken by Curriculum and Instruction students during the first or second semester of the Master's program. Advanced exploration of the major historical and philosophical paradigms of elementary and secondary education in the United States from which contemporary educational reform movements, curricula, and instructional practices have emerged. Letter grading only (A-F).

(Offered in Mexico; [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience). Letter grade only (A-F). Same course as EDSE 542.

560. Advanced Study in Mathematics Education (3)

Prerequisites: EDCI 500 and admission to an approved masters program or consent of the instructor. Advanced study and research in elementary school mathematics with an emphasis on content, methods and materials. Includes individual research. This course is designed to provide an exploration and review of recent literature and research focusing on the challenges of teaching mathematics in the elementary school. Students are expected to

participate in an investigation and appraisal of contemporary mathematical content, effective methods of teaching, appropriate materials, assessment, and enrichment facets of the elementary school mathematics program. Letter grade only (A-F).

570. Advanced Studies in Teaching History-Social Science (3)

Prerequisites: EDEL 472; EDP 400, EDP 520 or 696, or equivalent. Intensive study of selected topics related to teaching and learning with an emphasis on teaching history-social science. The course will engage students in a systematic inquiry into their own practice as they conduct a teacher research project. Letter grade only (A-F).

615. Contemporary Issues in Elementary and Secondary Education (3)

Prerequisite: EDCI 500 and admission to an approved masters program or consent of the instructor. Advanced analysis of current trends and issues in specific areas of elementary and secondary education. In-depth exploration of research perspectives and societal factors that influence the direction of elementary and secondary education in America. Letter grade only (A-F).

625. Analysis of Curriculum, Instruction, and Assessment (3)

Prerequisites: EDCI 500, 505, EDP 400; and one of the following EDP 520, 595, or 696 or EDCI 533; consent of the instructor. Advanced study of curriculum design, instructional processes, and student assessment through analysis of theory and research on teaching and learning. California K-12 Content Standards and the California Standards for the Teaching Profession are used to align curriculum, instruction, and assessment. Technological resources are evaluated for use in instructional planning. Letter grade only (A-F).

695. Seminar in Curriculum and Instruction (3)

Prerequisites: EDCI 500, 505, 515, 625 and advancement to candidacy, or by permission of instructor. Studies in curriculum and instruction. Course content will be determined by the instructor offering each section. Offered on an irregular basis; consult the *Schedule of Classes*. Letter grade only (A-F).

697. Directed Research in Curriculum and Instruction (1-3)

Prerequisites: Permission of instructor, department chair, and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for one to three units to a maximum of six units for certificate and degree purposes, subject to a suitable change in course content. Application for enrollment must be made by October 1 for the spring semester or by March 1 for the fall semester or summer session. May be repeated to a maximum of 6 units in different semesters.

698. Thesis Study in Curriculum and Instruction (3)

Prerequisites: Advancement to candidacy; approval of thesis advisor, department chair and associate dean. Planning, preparation, and completion of thesis under supervision of a thesis committee. Application for enrollment must be made in the Graduate Studies Office by October 1 for the spring semester or by March 1 for the fall semester or summer session. Credit/no credit grading only. May be taken for a maximum of 6 units in different semesters.

Early Childhood Education Courses (EDEC)

***421. History and Philosophy of Early Childhood Education (3)**

The Department of Theatre Arts offers three basic programs leading to the bachelor of arts degree with opportunities for options in Performance (acting), Technical Theatre (scenery/costume/ lighting design), and General Theatre. This flexibility of program planning in Theatre Arts has been organized to serve student needs in three principal areas: (1) Enrichment of the student's liberal arts background through the development of appreciations and insights derived from theatre arts courses taken as general education electives. (2) Development of interests and skills that will offer the student life-long satisfactions as an avocational outlet. (3) Preparation for theatre professions in community theatre, recreational theatre, educational theatre, and professional theatre. These courses cover the full range of world drama from both the viewpoint of theatre and dramatic literature.

The W. David Sievers Memorial Scholarship in acting, named for the first faculty member of the theatre program, is awarded annually to new students who exhibit potential in the field of performance. Award consists of a modest sum and is

determined through competitive audition judged by faculty. In addition, the Fine Arts Affiliates of the University and the Dramatic Allied Arts Guild of Long Beach provide for monetary awards to qualified students in all areas of theatre. For further information contact the Department of Theatre Arts.

The Department of Theatre Arts offers graduate study leading to the Master of Fine Arts degrees. The candidate is urged to observe the general requirements stated in this *Catalog*, as well as the specific departmental requirements stated here and, more fully, in the Department Program Planners, available upon request from the department.

All majors are required to participate in the departmental production program. Furthermore, majors enrolled in any acting course are expected to audition and participate in departmental productions in that semester. The student is expected to accept any role in which he/she is cast. Majors are also expected to seek approval from their advisor before making any commitment to a theatre program which lies outside of the departmental academic atmosphere.

The Theatre Arts Department holds division II membership in the National Association of Schools of Theatre (National Association of Schools of Theatre, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700). The Bachelor of Arts and the Master of Fine Arts degrees are accredited by the association. The department is also a member in good standing with the Theatre Communications Group and the International Theatre Institute of the United States.

Bachelor of Arts in Theatre Arts

The General Option in the Bachelor of Arts in Theatre Arts provides the opportunity for the student to gain a broad exposure to the discipline. The curriculum requires study in Acting, Technical and Design Crafts, the History, Literature and Criticism of Theatre, and in Directing.

Requirements

The Theatre Arts core is required for all majors regardless of option.

THEA 10 is required each semester of enrollment. These units are not included in the 120 for graduation.

Lower Division: THEA 10, 101, 114A, 142, 144, 146, 148

Upper Division: THEA 321, 322, 324I, 425I, 426, 452, 476

All performance majors will also fulfill four performance requirements to graduate. This requirement is met through acting, understudying, directing or assistant directing for a Mainstage or Second Stage production; acting or directing for a Showcase production; or by a special assignment approved by the performance faculty.

No more than eight units of Theatre Arts activity (cast and/ or crew) will apply toward degree requirements. Crew requirements for all majors: One major running crew assignment in residence for each of the areas of costume, make up, stagecraft and lighting to be satisfactorily completed. Students with transfer credit in those related courses must fulfill the same running crew requirements within the first three semesters of matriculation into the University.

At the beginning of the semester, all incoming students, including transfer students (including those who have been inactive for a year in our department), are required to audition (in the case of the performance option) or interview (in the case of all other options). Auditions and interviews are conducted by appropriate faculty/student groups. (These auditions are required for admittance to certain upper division classes and are therefore used for appropriate placement of students at their level of competency as determined by the faculty.)

THEA 271, 352, 433, 451, and select 12 units from the following: THEA 144, 340B, 341, 342, 440A, 440B, 441, 442, 446, 447, 448, 449, 472, 490, 498.

Master of Arts in Theatre Arts (code THEAMA01)

Prerequisites

1. A bachelor's degree with a major in Theatre Arts; or
2. A bachelor's degree with 24 units of upper division work in Theatre Arts, including courses comparable to those required at this University.

Each student applying for admission to a graduate degree program in Theatre Arts must initiate, in the department office, a request to receive a departmental evaluation, based upon diagnostic examination and an analysis of official undergraduate transcripts to determine any deficiencies and all areas which must be strengthened by the graduate program.

Advancement to Candidacy

1. Satisfy the general University requirements;
2. Remove all undergraduate deficiencies as determined by the departmental evaluation and/or the Dean of Graduate Studies;

3. Submit a program for approval by the department chair, the graduate advisor and the Dean of Graduate Studies.

Requirements

A minimum of 36 units in approved upper division and graduate courses, including:

1. 22 units in Theatre Arts, of which at least 18 units must be in the 500 and/or 600 series completed at this University. Required courses: THEA 696, 694, 523, and 426. Determination of the specific courses will be made by the Theatre Arts Graduate Committee and approved by the Theatre Arts Graduate Advisor;
2. 14 approved elective units, of which six may be in approved areas related to Theatre Arts. (No more than 6 units may be in Education. Student teaching and special methods courses will not apply);
3. Each student will select an area of specialization and complete a research thesis. Enroll in XGS 700 until the thesis is complete and approved.

Master of Fine Arts in Theatre Arts

The Master of Fine Arts Degree in Theatre Arts is the terminal degree offering the minimum professional training deemed necessary by the major Theatre Arts Schools in the United States.

All students admitted to the MFA program are members of California Repertory Company and are subject to the operating procedures of the company. CalRep, the professional arm of the Theatre Arts Department, prepares and performs plays from the canon of international dramatic literature.

Criteria for Admission to the Program

1. Students applying for the MFA program must have completed a bachelor's or master's degree in Theatre Arts from an accredited institution with a 3.0 GPA in upper-division theatre courses, meet University admission requirements, and submit evidence of creative ability and professional intent in one of the following areas: Acting, Technical Theatre/Design, Theatre Management;
2. When an undergraduate degree has been completed in a program having different requirements than those at CSULB or in some field other than Theatre Arts, additional preparation and time may be required before the student can be considered for classified status in the degree program. Up to 24 units of credit from an MA degree program may be acceptable after review of the faculty evaluation committee and approval by the Dean;
3. Admission to the program in Acting requires audition and interview. Admission to the program in Technical Theatre/Design requires interview and/or submission of original work such as manuscripts, designs, renderings, slides, models and/or working drawings;
4. All students admitted into the MFA program will be admitted as conditionally classified. In order to obtain fully classified status, a committee from the Theatre Arts faculty must authorize continuation in the program after evaluating academic progress, individual skills development, and review of performance or portfolio at the end of the student's first full year of residence.

Advancement to Candidacy

1. Attain fully classified status;
2. Remove all undergraduate deficiencies determined by the departmental evaluation and the Dean of the College;
3. Submit a program for approval by the department chair, the graduate advisor and the Dean of the College.

Requirements

The MFA degree is a 60-unit degree normally requiring full time residency. Course requirements are arranged according to the following structure depending on the student's choice of option.

The options share a common core of courses, which offer study in aesthetics, conceptualization, history, theory, literature, and research. The remainder of the courses offers students the opportunity to further develop artistic skills in their particular area of option. The program culminates in a major creative project and written project report.

Option in Acting (code THEAMF01)

The Acting option requires work in voice, movement, and process each semester. Process classes explore a wide range of acting styles. Ongoing performances in public presentations are required.

University College and Extension Services (UCES) is one of the eight academic colleges and the self-support community outreach branch of the university. The college provides additional access to CSULB's exceptional academic programs and educational resources by offering over 550 credit and professional development (non-credit) programs every semester. The programs are designed to meet the personal and professional development needs of more than 30,000 individuals each year. UCES identifies and addresses the educational and training needs most relevant to its customers. Its capabilities extend internationally.

Why UCES Is Different - Access and Opportunity

University College and Extension Services is different from CSULB's other academic colleges because it is not focused on one specific subject area, such as arts or sciences. Its purpose, aligned with the CSU Cornerstones Report, is to "provide increased access to graduate education and continuing education in programs central to the mission of the university, to lifelong opportunities for our students, and to the continued health of California's community and economy." (CSU Cornerstone Principle 6a)

This means that UCES provides a variety of ways to bring people to the university, and to bring the university and its programs to the people, through the innovative delivery of many different types of courses and programs across diverse subject areas. UCES' unique position as both an academic college and a community outreach entity means that partnerships and collaboration - with the university, businesses, organizations, and community leadership - are an integral part of its operation. Fostering collaborative academic initiatives, both credit and professional development (noncredit) has always been one of the highest priorities of the UCES administrative leadership.

UCES programs do not receive state funding and are supported entirely by student fees.

The University College Milestone

Many universities across the U.S. have been changing the name of their Extension divisions to a name that better describes campus-approved, high quality credit course offerings taught by resident faculty. At CSULB, University Extension Services became University College and Extension Services in 1994. CSULB is the first in the CSU system to have a University College and an advisory committee to provide for an open line of communication with the faculty, students, and administration. As an academic college, UCES makes it easier for the campus to offer credit courses and degree programs to expanded constituencies in our community.

When students enroll in a credit course through University College, they will know that it is taught by resident faculty with the same course of study and academic expectations associated with state supported courses.

UCES Goal

To provide individuals, institutions, organizations, and the global community with access to cost-effective, quality educational opportunities by offering the best educational choices for the best value.

Programs

UCES maintains a customer-focused market-driven approach to developing and delivering programs. As a result, the programs may change often to adapt to the training and educational needs of the marketplace. UCES offers both professional development (noncredit) and credit programs, in many different subject areas. Whether the program is credit-bearing, or not for university credit, UCES strives to provide the following features in every course:

- Quality curriculum
- Expert instructors
- Convenient days/times
- Affordable fees and payment plan options
- Fast, easy registration

In addition, UCES provides companies, organizations, and government agencies with customized professional development programs for employees at their work site or at CSULB.

The American Language Institute

The American Language Institute provides English as a Second Language instruction to international students. ALI offerings include long-term and short-term programs, and credit and non-credit courses. Programs offered through the ALI include the Intensive English Program, a non-credit program offered year-round, 3 sessions per year, in which students are in class up to 25 hours per week.

Open University

Open University provides an opportunity for those people who are not currently admitted to and/or registered at CSULB to enroll in most courses offered by the university. Enrollment is on a space-available basis, and subject to approval of the instructor and department chair. Students receive Open University Special Sessions credit. For more information, call the UCES Customer Center at 800/963-2250.

Centers/Consortiums

- Center for International Trade and Transportation (CITT)
- Southern California Process Improvement Network (SPIN)

College Facilities

- Full service award-winning video and multimedia production facility located on campus, including a 2200 square-foot studio, featuring the leading computer animation software
- Computer labs both on and off campus, equipped with the latest hardware and software - UNIX, IBM-PC, Macintosh, Silicon Graphics, Windows 2000, GIS
- Executive conference and training rooms

Continuing Education Units

Continuing Education Units (CEUs) are a permanent record of attendance in professional development (non-credit) programs. They are awarded by The American Council on Education (ACE) and administered through UCES. CEUs can enhance ones resume and provide another opportunity to showcase a commitment to your own professional development. CEUs for specific professions are also available.

THE UNIVERSITY

History

Los Angeles-Orange County State College opened its doors on September 28, 1949, to an entering group of 169 juniors and seniors. The *Schedule of Classes* listed 25 courses taught by thirteen faculty members in support of five undergraduate majors. The campus consisted of two converted apartment buildings at 5381 and 5401 Anaheim Road in Long Beach. Within two years the City of Long Beach purchased a permanent site for the fledgling institution and donated it to the state, construction began on the first permanent buildings, and the renamed Long Beach State College moved to its present location. Two decades later the rapidly growing institution had earned designation as a university and was the second largest in the California State University system. Today more than 34,000 undergraduate and graduate students are pursuing degrees and credentials under the direction of 1900 faculty members, supported by 1500 full-time and part-time staff.

The Legislature voted to establish a state college in the Long Beach area because it recognized that rapid suburban development would create a need for more trained teachers and business employees. Instead of limiting itself to those fields, however, California State University, Long Beach has evolved into one of the nation's leading urban comprehensive universities. In addition to Colleges of Education and Business Administration, CSULB developed a nationally renowned College of the Arts, a College of Engineering that attracts millions of dollars in government contracts and corporate donations, and a College of Health and Human Services that prepares a wide range of skilled personnel for the health care industry. The College of Liberal Arts and the College of Natural Science and Mathematics provide a solid foundation in general education for all CSULB undergraduates as well as majors ranging from anthropology to physics and from biochemistry to philosophy.

California State University, Long Beach has much to offer its students. It is located on and around a low hill less than two miles from the beaches of fashionable Belmont Shore. The beautifully landscaped 320-acre campus features many new and remodeled buildings. The faculty has made a commitment to excellence in both teaching and research. Most University classes are taught in small sections, so students have an opportunity for regular contact with their professors. Many undergraduate students become involved in original research under faculty supervision, better preparing them for entry into graduate programs or the career fields of their choice. No wonder CSULB has attracted 350 California high school valedictorians and National Merit Finalists among its current undergraduate population. Whether students choose to live in University residence halls, in apartments off-campus, or at home, CSULB offers a wealth of cultural and recreational opportunities. There are live performances of plays, music, and dance in the University's five theater facilities

virtually every night of the week. The University Art Museum and several departmental galleries afford access to exciting innovations in the visual arts. Eighteen men's and women's sports compete in an NCAA Division I athletic program. The women's volleyball team has appeared in 8 Final Fours in the last 15 years, winning 3 national championships and finishing second in 2001. The athletic program also includes club or intramural competition in approximately 30 different sports. The Associated Students, Inc. and the Office of Student Life and Development sponsor nearly 200 additional campus organizations, ranging from fraternities and sororities to cultural associations, religious clubs, honor societies, political and social action clubs, and special interest clubs. As a result, students at CSULB are assured of a well-rounded collegiate experience if they take advantage of the opportunities that surround them.

Setting

The hilltop portion on the 322-acre campus overlooks the Pacific Ocean. Eighty permanent buildings house the various colleges, 63 academic departments and programs, 24 centers, 4 institutes, and 4 clinics.

A newly enlarged and remodeled University Student Union is located at the crossroads of the campus, providing a focal point for the total campus community. A centralized student services and administration center in Brotman Hall, near the Union, adds needed services. Specialized facilities for Engineering Technology, Dance, Design, Music, and Nursing have been completed, as has the International House student residence hall and meeting complex.

A state-of-the-art building for the College of Business Administration, complete with decision-support laboratories, multi-media capability, and modern lecture halls, opened in 1991. The Department of Dance occupied its new quarters in the largest and best-equipped instructional dance facility in the nation in time for the spring 1994 semester.

A central feature of the landscape design is a planting of 3,200 Helen Borcher flowering peach trees donated by the citizens of Long Beach. Secluded landscape areas and buildings of appropriate scale help maintain a learning environment that encourages small group identification and personal privacy in the midst of 37,000 individuals sharing the same site, on what is essentially a large urban campus.

The campus has assumed a highly individual character. In 1965, the International Sculpture Symposium contributed 9 monumental pieces and designs to the University. These works received credits in 21 national and international publications, and in 1972 additional community funds in the form of a trust provided for the completion of the Carlson Memorial Tower, designed by French sculptor Andre Bloc. The campus sculpture collection has continued to expand, with the addition of works by artists such as Guy Dill, Michael Davis, Robert Irwin, Bryan Hunt, and Woods Davy. These acquisitions were made possible by private donations and grants from the National Endowment for the Arts to the University Art Museum.

Mission

California State University, Long Beach is a large urban comprehensive university in the California State University system. Its mission is high-quality education leading toward a broad range of baccalaureate and graduate degrees spanning the liberal arts and sciences and many applied and professional fields, with emphasis on instruction at the upper-division (junior and senior) and graduate levels, in accordance with the California Master Plan for Higher Education.

CSULB is committed to serving the people of California. To assure access and equity consistent with educational priorities, the University endeavors to serve students who can only attend in the evening as well as those who can attend during traditional daytime hours, those who must attend part time as well as those who attend full time, and those from population groups whose rates of enrollment historically have been lower than average as well as those from groups that have had historically higher rates of education. The University serves students who have graduated in the top third of the State's high school graduating class, students who have completed a community college program, and adults re-entering education.

The University's educational mission is to promote intellectual and personal development and to prepare students for lifelong learning as well as preparing them to succeed in a variety of professional endeavors and to function as informed, contributing members of the community. To these ends, the mission of the undergraduate curriculum is grounded in a strong general education program, emphasizing the acquisition of writing, critical thinking, and analytical skills and knowledge of cultural and artistic traditions, the analysis of human behavior and society in the past and present, and scientific modes of inquiry. The mission of all degree programs is to provide each student with the skills necessary to pursue knowledge and to integrate information from various sources, and also to provide depth in at least one area of specialization. The mission of the graduate programs is to prepare students to enter careers requiring training beyond the baccalaureate, to advance in their jobs, or to pursue advanced study. Doctoral programs are intended to provide both advanced knowledge and the skills needed to pursue independent research. Educational support programs and services for students emphasize the importance of personal, interpersonal, and societal development.

A fundamental goal of all of the University's programs is to prepare students to function effectively in a culturally diverse society, by developing an understanding of our diverse heritage, including the essential contributions of women and ethnic minorities. Instruction emphasizes the ethical and social dimensions of all disciplines, as well as their applications to contemporary world issues. Building upon the culturally diverse region it serves and the international character of its faculty, the University emphasizes international education in its curriculum.

The University seeks to involve students in learning by offering most of the curriculum in small sections taught by fully qualified, professionally active faculty members, and

by providing opportunities for undergraduate as well as graduate students to work with faculty members in independent study and research. CSULB serves the surrounding community through applied research, training and community service programs, and consulting for government agencies, non-profit organizations, and private industry.

Accreditation

The University is accredited by the Western Association of Schools and Colleges (985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001), the agency responsible for granting regional accreditation to colleges and universities in California, Hawaii, and Guam. It is accredited by the California State Board of Education and is on the list of approved institutions of the American Association of University Women. Additional information concerning University accreditation may be obtained from the Office of Academic Affairs. Additional information concerning departmental accreditation may be obtained from the department concerned or the Office of Academic Affairs.

The Faculty

The faculty of California State University, Long Beach is a dedicated group of men and women. Each has been well-prepared for the work of providing instruction to undergraduate and graduate students. The faculty create an intellectual atmosphere that encourages students to develop a spirit of investigation which becomes a life-long approach to issues and problems. It is the faculty's hope that students will gain respect for excellence of performance and take advantage of the wide range of educational opportunities available to them.

Faculty earn academic rank as they develop their course materials, research, academic and community service, and publications. The highest faculty rank is "Professor," sometimes called "full Professor." The intermediate rank is "Associate Professor." Most faculty begin their careers as "Assistant Professors."

The faculty are assigned to departments and programs within colleges of the University. The department chair is the academic leader of the department faculty.

A dean is the chief academic officer of a college. Deans are appointed by the Provost and Senior Vice President for Academic Affairs in consultation with the President and the college faculty. Most colleges have one or more associate deans to assist in the administration of college resources.

Elsewhere in this *Catalog* you will find the explicit policy of the University on grades and grading as well as policies on class attendance, withdrawal from courses, and cheating and plagiarism. These and other policies reflect the concerns of the faculty that students take seriously the opportunities made available to them. Beyond these rules and regulations the faculty expect student participation in education that may be different from or more active than what students have been used to in secondary schools. For every discipline the fund of knowledge to be absorbed, understood, and added to is expanding rapidly.

The role of the university professor is somewhat different from that of the high school teacher. University faculty are involved in the creation of knowledge as well as the dissemination of it. The expectation is that the students will not only use the 150 instructional days per year to the best possible advantage, but also by reflecting on the learning process, by thinking about how the professor came to understand and organize the knowledge presented, will learn how to take full advantage of the University's resources and those elsewhere, thus taking responsibility for the life-long process of personal education.

Academic Organization of the University

During the regular session California State University, Long Beach is as large as a small city. More than 34,000 students, 869 tenured and tenure-track faculty, 1,067 full-time and part-time lecturers, and nearly 1,600 staff members study and work on campus each week. In order to operate, the campus has been organized into eight colleges and many academic departments and programs. The names of the colleges, departments, and programs and their current deans are shown at the beginning of this catalog.

Colleges are usually composed of academic areas with some common characteristics. Because of this, colleges themselves suggest a way to look at the enormous fund of knowledge that is this University. One function of a college is to provide a forum for the faculty and the students to express academic matters before a knowledgeable group of people. At the university level this is a very important aspect of the educational process.

For students who have just begun their life in the University, some of the departments will be unknown territory. Other departments and programs will turn out to be considerably different from first expectations or previous experiences with high school subjects of the same or similar names. For students who have begun to focus their academic interests, exploration of the departments and programs of a college beyond the favorite first contact area will often prove to be a valuable part of the process of choosing an academic major.

This catalog is organized alphabetically by department and program.

Departments, Programs, and Studies

The elemental unit of academic organization at this University is the department. Departments are most often coincident with a discipline and usually share the same name. Faculty are members of departments. Thus the Department of Biological Sciences has many "programs," including degrees in Biology and Microbiology, a minor in Biology, and a certificate in Biomedical Art. You will also find in this catalog academic areas, like Gerontology, which are not part of any one department. Some of these areas are called "Studies," e.g., Women's Studies, Medieval Studies. This means that the field is essentially an interdisciplinary one and is the product of the activities of faculty from many departments.

Academic Senate, Councils, and Committees 2003-2004 Academic Year

The faculty is subdivided into departments and programs. Normally these sub-divisions have committees to discuss curriculum and other matters. Since departments and programs are constituent parts of the colleges, they also send members to college-level committees and councils. These bodies serve to develop, refine, and review curriculum. At the University level faculty members from all of the colleges are elected to several councils and to the Academic Senate. These bodies concern themselves with campus-wide issues. Many of these councils, their subcommittees, and the Academic Senate have also provided for staff, student, and administration membership.

The University Library

The mission of the University Library (www.csulb.edu/library) is to connect students, faculty, staff, and members of the local community with the information resources they need for study, research, and recreation. The library contains substantial collections of books, journals, government documents, videos, maps, and other physical materials, all listed in its online catalog, COAST (www.coast.csulb.edu). But these resources are enhanced, and even eclipsed, by the more than 4 million volumes available through the Link+ consortium (http://www.csulb.edu/library/guide/mutual_use_statement.html), by the library's subscriptions to thousands of web-based reference sources and full-text journals, and by its rapidly growing collection of electronic books. Increasingly, the library is able to deliver needed information to the desktop at any time of the day or night.

The library's staff and faculty are committed to efficient, helpful service, whether it be at the circulation desk, the

reference center, the interlibrary services desk, or any of its other departments. Librarians guide scholars through the process of identifying, retrieving, organizing, and evaluating sources of information appropriate to their educational needs or personal interests. A wide range of library instruction opportunities is available to the campus community, from a credit course designed to introduce new students to basic concepts of information literacy, to librarian workshops geared to the needs of a particular course, to in-depth consultation focusing on a specific research topic. The library provides adaptive devices to make its print and electronic resources accessible to the disabled and works closely with Disabled Student Services to insure that equipment, facilities, and collections are responsive to special needs. The University Library's Special Collections Department contains rare, significant, or unusual books, manuscripts, correspondence, art prints, and photographic prints; details can be found at <http://www.csulb.edu/library/guide/serv/special.html>.

University Computing Resources

The University provides an extensive array of computing resources. Guidelines regarding the use of these resources can be found in the "Policy Governing Access to and Use of CSULB Computing Resources" document. The complete text of the document can be viewed on the CSULB website at <http://www.csulb.edu/~policy>.

Academic Computing Services

562-985-4505, <http://www.csulb.edu/acs>

Academic Computing Services (ACS) manages campus-wide computing resources including BeachBoard, CSULB's e-learning environment, Open Access Computer Labs, computer classrooms, the Development Lab and the Technology Help Desk. Learn more about these ACS resources below or visit the ACS website for more details.

BeachBoard, CSULB's E-learning environment

<http://beachboard.csulb.edu>

BeachBoard, CSULB's e-learning environment, provides students with the opportunity to stay connected with their instructors and classmates. BeachBoard may be a component of some or all of a student's courses as either a supplement to the course, as an element of a hybrid course or as the structure for a completely online course. As a supplement to the course, BeachBoard may provide a method of receiving class material, and checking grades, as well as other features. In a hybrid course, a combination of a traditional face-to-face class and online class, BeachBoard may also provide online quizzes, a virtual chatroom and discussion boards. In a completely online course, BeachBoard will serve as the method for all of the course's faculty-student interactions.

Students, faculty and staff also have the ability to manage their organizations on BeachBoard. These organizations provide the same collaborative features that a course on BeachBoard has and may include email lists, posting of announcements, a virtual chatroom, and discussion boards.

To access BeachBoard, students need a CSULB Internet Account, available at <http://www.csulb.edu/namemaster>. For all questions regarding BeachBoard, please contact the Technology Help Desk at (562) 985-4959, helpdesk@csulb.edu, or visit the THD website at <http://helpdesk.csulb.edu>.

CSULB Internet Account

<http://helpdesk.csulb.edu/email.html>

Students can create their own CSULB Internet accounts at <http://www.csulb.edu/namemaster> or visit the Technology Help Desk Walk-In Service Center in the North Campus Center for personal assistance and service. A CSULB Internet account is required to access services including e-mail, web design, BeachBoard, library searches, software downloads, database specialty centers and remote access. Remote connectivity and Internet access is available from a home computer by dialing (562) 985-3500.

Development Lab

<http://www.csulb.edu/acs/devlab>

The ACS Development Lab, located in the North Campus Center, supports the use of interactive multimedia instructional materials for both classroom presentations and individual student learning. The lab offers training, consulting, and development expertise on a wide variety of media software applications and hardware, including digital audio and video editing. High quality color printing is also available in the Development Lab.

Open Access Computer Labs

<http://www.csulb.edu/acs/labs>

ACS Open Access labs are located in the North Campus Center. Six computer classrooms, including one wireless laptop classroom, are located in LA5. These high-speed Windows and Macintosh labs also provide laptop connections and support for wireless computers. Each of the seven colleges' have computer labs available to support specialized hardware and software programs required for their respective departments. Contact the individual college or department for more details. For more information on ACS lab reservations, current hours of operation, tours, and the use of a wireless cart, visit the ACS Computer Labs website or call (562) 985-2303.

Software

http://www.csulb.edu/aux/bookstore/Computer_Store/index.html

Students can purchase Microsoft products at the Forty-Niner Shops Bookstore under the CSU-Microsoft Enterprise Agreement. The agreement provides licenses for both current and future versions of Microsoft Office Professional, FrontPage, Visual Studio Professional, and Windows operating systems. The Bookstore also provides educational pricing for other software products and hardware.

Technology Help Desk

<http://helpdesk.csulb.edu>

562-985-4959

The Technology Help Desk (THD) Call Center is available to all students, faculty, and staff members with a current CSULB Internet account for all computer or technology related issues. The THD is the single point of contact for the university computing community and has professional support representatives available to assist with CSULB Internet accounts, email, BeachBoard, anti-virus, Internet and Browser configuration, application software, and much more.

The THD Walk-In Service Center in the main lobby of the North Campus Center is available to assist in the creation of CSULB Internet accounts, password resets, BeachBoard information, and more.

For current hours of operation and service information, visit the THD website or contact the THD Call Center.

Fine Arts Public Performances and Exhibitions

The College of the Arts presents more than 350 performing and visual arts events each year; many are works by faculty and students; others are performances by world renowned artists. With the support of the Louise Carlson Cultural Fund and the Lillian Newman Komaroff Memorial for the Performing Arts, the College presents an annual performing arts series featuring outstanding professional artists and touring companies.

Performing arts events are held in a number of specially designed facilities: the University Theatre with a proscenium stage and seating for 400; the flexible Studio Theatre, which seats 230 in several different configurations, including theatre-in-the-round; the Players Theatre, with 86 seats; the Gerald R. Daniel Recital Hall, which seats 280; the Martha B. Knoebel Dance Theater, which seats 250; and the Carpenter Performing Arts Center which can seat up to 1162.

The Department of Art presents a weekly schedule of exhibitions in its newly expanded gallery space. Annual events include a New Faculty Exhibition each October, Winter Art Sale during the first week of December, Student Art Exhibition in the University Art Museum each May, and an Alumni Exhibition each June.

The Department of Dance presents two major performances each year during November and May. The modern dance concerts feature works by CSULB's highly acclaimed dance faculty performed by the faculty and students. Informal concerts featuring choreography by CSULB students are presented each semester.

The Department of Design presents the Senior Design Show, an outstanding exhibition of projects by Interior Design and Industrial Design students each May in the Design Gallery. Design graduate students also present exhibitions throughout the year.

The Department of Music presents more than 100 concerts each year featuring 18 performing groups including the Symphony Orchestra, Wind Symphony, Jazz Ensembles, University Choir, String Quartet, Opera, Forty-Niner Chorus, Men's Chorus, Women's Chorus, Collegium Musicum, and others. During the first week of December, the Choral Studies Program presents the Annual Winter Festival Concert in Long Beach's historic First Congregational Church.

The Department of Theatre Arts produces up to six major productions each year. Acclaimed for powerful acting and innovative sets, the theatre season includes contemporary dramas, classics, and musicals. The California Repertory Company, composed of graduate students pursuing the

MFA degree, department faculty, and area professionals, performs five additional plays annually in the new Edison Theatre on Broadway between Pine Avenue and Long Beach Boulevard in downtown Long Beach.

Tickets for all dance, music, theatre arts, and Carpenter Center performances are sold through the CSULB Arts Ticket Office located in the Carpenter Performing Arts Center at 6200 Atherton Avenue. The Arts Ticket Office is open from 11 a.m. to 6 p.m., Monday through Friday, and 12 noon to 4 p.m., Saturdays. A satellite ticket office, located in the southwest corner of the Theatre Arts Building, is open for the convenience of students from 9 a.m. to 11 a.m., Monday through Friday. Ticket offices near the entrances to each of the University's performing arts venues are also open one hour prior to performances. Special faculty, staff, and student rates are available for most performances. Visa and Mastercard are honored. For information or to charge tickets, call the Fine Arts Ticket Office at (562) 985-7000.

University Art Museum

The University Art Museum, one of the units of the College of the Arts, provides the campus and surrounding communities with quality exhibitions in the visual arts on a year-round basis and presents scholarly publications, guest lectures, and educational outreach programs designed to reach a broad general public. Programs that are an integral part of the museum include the Museum Studies Certificate Program, which trains students for careers in museum work; Art to the Schools, which brings educational projects in the visual arts into the classroom; the Summer Institute for Teachers, which helps teachers utilize the resources of museums as part of their curriculum; and Get the Picture, a workshop to acquaint youth with the history and heritage of the City of Long Beach and surrounding regions.

In 1984, the University Art Museum was accredited by the American Association of Museums (American Association of Museums, Suite 200, 1225 Eye St., NW, Washington, DC 20005, phone: 202-289-1818) and thus ranks among the top ten percent of the nation's 6,000-plus museums. It is one of only two nationally accredited art museums in a public university in Southern California. Its exhibitions and collections, including the Monumental Sculpture Collection spread throughout the 322-acre campus, have brought the University and Long Beach area recognition from both the professional art community and an international public. The Museum has an active community membership program which offers special events, museum tours, and international travel opportunities planned exclusively for museum members. All students are invited to join ArtPartners, the student and young professional group affiliated with the University Art Museum. For information about University Art Museum activities, call (562) 985-5761.

The Earl Burns Miller Japanese Garden

Beauty, simplicity, harmony, and peace are all expressed in a traditional Japanese garden. California State University, Long Beach and the community have been enriched by the Earl Burns Miller Japanese Garden, which provides a setting to experience these important qualities.

Mrs. Loraine Miller Collins' appreciation of Japanese culture is reflected in the planning for the garden. The detailed design was careful work of Long Beach landscape architect Edward R. Lovell, whose visits to Japan and a number of its gardens

enhanced the project. The Japanese stone sculptures were personally selected by Mrs. Collins, as were the bonsai pines and the furnishings for the teahouse.

The natural effects of the garden design are an expression of the Japanese attitude of respect and love for all nature, a valuable heritage which has been continued. Everything in a Japanese garden has significance: the moss-covered rocks, the brilliant colors of the azaleas, the cascading water, the gracefulness of the forms of the trees, the movement of the colorful koi in the lake. Placement of plants and rocks are all based on asymmetry and rhythm. Every element is part of an overall composition which provides for a delightful sense of peace and harmony.

A unique aspect of the garden is that it has been designed to encourage access by the physically disabled.

The Forty-Niner Shops

The Forty-Niner Shops, an auxiliary organization, enhances and supports the educational process of CSULB by providing goods and services at reasonable and competitive prices. Forty-Niner Shops, Inc. operates the University Bookstore, Art Store, Campus Copy Center, the University Dining Plaza, Residential Dining, and a variety of food and refreshment stations across the campus. Forty-Niner Shops, Inc. is a nonprofit corporation which has faculty, student, staff and administrative representation on its Board of Directors.

The University Bookstore stocks textbooks, general and reference books, school and office supplies, clothing gifts, computer hardware, software and small electronics. Services offered include ATM services, bus passes, debit cards, gift certificates, money orders and stamps.

The Campus Copy Center offers copying (including color), duplicating, offset printing, book and report binding, transparencies, faxing and shipping. Self service copiers are available for your copying needs at the Main Library, Horn Center, Bookstore, and Student Union Convenience Stores, College of Business, University Dining Plaza, the Outpost, and the Career Development Center.

The University Dining Services includes the Residence Dining Halls and the University Dining Plaza which includes the A La Mode, Center Court, the Nugget, and the Chartroom featuring a wide variety of foods. Catering services are available for campus functions. The satellite food operations consist of the Hot Dog Carts, vending machines, The Outpost (located near the College of Engineering), and Pyramid Concessions.

President's Scholars Program

Donations are sought to endow the President's Scholars Program. The President's Scholars Program at CSULB affords qualifying valedictorians and National Merit finalists from accredited California high schools an exceptional scholarship package. The elements of this package include full payment of the State University Fee and other student fees, an annual book allowance, paid housing in campus residence halls, priority registration, personalized academic advising, parking, and e-mail and internet access. The scholarship for valedictorians is valued at approximately \$25,000 over four years and for National Merit Scholars approximately \$35,000 over four years. The scholarship is renewable annually based on maintenance of satisfactory academic progress.

University Relations and Development

The Division of University Relations and Development serves as the primary contact with the University's alumni, friends, and community supporters. Its mission is to support the University's position as a flagship institution for excellence in teaching, research, and service by developing private support from individuals, corporations, and foundations. The activities of University Relations and Development include alumni relations, corporate relations, college-based development, estate planning and gifts, KKJZ radio, major gifts, media relations, public affairs, and publications. Each year, millions of dollars are given to support and further the educational mission of the University.

Alumni Association

The CSULB Alumni Association is the link between the University and its more than 165,000 alumni. The Association develops social, educational and recreational programs that bring alumni back to campus.

All former students who attended at least one semester at CSULB are considered alumni and are eligible to join the Alumni Association. Graduates and credential recipients can join by completing an enrollment card and paying a one-time \$25.00 fee; non-graduates, including employees and friends of CSULB, may join as associate members for a yearly fee.

Alumni volunteers assist on Alumni Association committees helping to plan Homecoming festivities, commencement, hospitality center, the summer Concerts in the Grove series, and other events.

Members of the Alumni Association receive a benefit package that includes library privileges at all CSU institutions (there are restrictions on computer usage), on-campus assistance at the Learning Assistance Center at no extra charge, the Career Development Center for a yearly fee, an Association credit card, a hotel/motel discount program, and access to membership in health insurance programs. Also available to members are the semi-annual Alumni Calendar of Special Events; the CSULB Review publication; University Student Union privileges; and discounts on some CSULB theater performances, athletics events and local attractions.

For more information on Alumni Association services call the Alumni Relations Office at (562) 985-5252.

The Annual Fund

Alumni actively and generously support the University through the Annual Fund. Over 55,000 alumni, parents, and friends are contacted annually to support University activities. The majority of donations are undesignated and are used to meet the most critical needs of the University. Some donors prefer to designate their gifts to their departments or colleges.

Parents' Fund

The Parents' Fund was established to give parents the opportunity to support the University. Parents of currently enrolled and graduated students are contacted yearly by the Annual Fund. The willingness of parents to pledge financial support to the University is a confirmation that CSULB provides an excellent educational environment for the students it serves.

Senior Gift Campaign

Every graduating senior is contacted near graduation to initiate a pledge in support of the campus. Seniors are asked to donate \$100 to purchase a brick to be permanently placed in the Alumni Brick Plaza. Gifts of \$99 or less are designated to the Annual Fund to be used for essential campus needs. Seniors have proven to be generous and loyal donors to the University.

Major Gifts and Deferred Giving

The Office of University Relations and Development works with individual and corporate donors in securing current and deferred gifts. Major named gifts on campus include such legacies as the Isabel Patterson Child Development Center, the Earl Burns Miller Japanese Garden, the Carpenter Performing Arts Center, and the Martha B. Knoebel Dance Theater.

Endowed scholarships honoring individuals and families have been established in all areas of the University. Many individuals have included CSULB in their wills by providing for scholarships and faculty development. The University can also accept the transfer of securities, real property, personal libraries, private collections, works of art, and musical instruments as gifts to enhance educational quality.

Major gifts may serve restricted purposes in accordance with the donor's designation, or their use may be left to the discretion of the President of the University.

The Academic Corporate Council

The Academic Corporate Council consists of 25 corporate senior executives who provide counsel to the University in the creation of corporate partnerships and serve as advocates and supporters of the University in the community. Each company donates \$5,000 annually to support the President's Scholars Program.

The President's Associates

The President's Associates is composed of more than 200 alumni, community leaders, parents, and friends whose financial support significantly enhances the quality of education at CSULB.

Each member contributes unrestricted tax deductible gifts of \$1,250 (or more) per year, which are pooled with other charitable donations to fund a wide range of top-priority projects such as the President's Scholars Program.

For additional information about donor opportunities contact the Vice President for University Relations and Development, (562) 985-5197.

KKJZ-FM 88 Public Radio

FM88/KKJZ (88.1 on the FM dial), a noncommercial radio station, is licensed to the California State University, Long Beach Foundation. KKJZ's primary signal coverage is the southern portion of the Los Angeles basin with secondary coverage to most of Los Angeles and Orange Counties. It has a potential audience of 2,000,000.

The station is on the air 24 hours per day with a program format of jazz, information, and public affairs. KKJZ provides professional learning opportunities for CSULB students, including a unique opportunity for students in the Film and Electronic Arts and Journalism departments to gain experience in a full-time, professional radio station with direct super-

vision by faculty members and industry professionals. KKJZ provides additional learning experiences for students in marketing, graphic design, industrial design, and public relations. FM 88 is a listener-supported radio station, funded by a combination of institutional, governmental, corporate, foundation, and private contributions.

The Community Service Learning Center (CSLC)

The Community Service Learning Center was established in January of 1998 to institutionalize service learning at CSULB. Service Learning is a teaching method that allows students to see and experience the relationship between theory and practice; integrates and enhances both community service and academic instruction; engages students in responsible and challenging community service; and emphasizes active learning in different environments. Its mission is to develop awareness, understanding, and commitment to service learning by creating a physical and virtual resource center that facilitates interactions between faculty, graduate and undergraduate students, student services staff, and community partners.

The CSLC works actively to serve educational institutions, government and non-governmental organizations, community agencies, and the CSULB campus community by organizing educational and training tools to aid the development and implementation of service learning activities across disciplines. The center works with faculty to support student learning objectives, as well as developing successful approaches to establish service learning teaching strategies through existing networks, mentors, and resources. The Center is a member of a growing national community that appreciates service learning as an academically effective and socially beneficial pedagogy and therefore supports exploration in service learning through student theses and faculty research. The CSLC actively participates in campus, system, statewide, and national movements to promote service learning as a means for social and intellectual development.

The CSLC's motto of "shared service, shared learning, shared vision, shared mission" reflects its intent of assisting in the development of a socially aware and advanced forum for intellectual growth. CSULB faculty, staff, students, and administration have shown their support for this intent by including service learning in each of the following university documents: the CSULB Strategic Plan, Cornerstones, the CSU Strategic Plan for Service Learning, and the General Education Revitalization Plan.

University Foundation

The California State University, Long Beach Foundation is a non-profit, tax-exempt corporation organized to administer grants and contracts for research and other activities related to the University's programs. On behalf of the University, the Foundation also accepts donations, gifts, and bequests for University-related use, and provides tax-deductible advantage to the donor.

Research and other activities involving the Foundation are related directly to academic programs. They involve substantial interaction between faculty, staff, and students.

Donations, gifts, and bequests provide a significant addition to the accomplishments of the University. Public funds provide support for most of the instructional and instructionally related activities and facilities.

Counseling and consulting services regarding charitable donations are available to potential donors. Information can be secured from the Vice President for University Relations and Development (562) 985-5197, or by addressing a letter to the California State University, Long Beach Foundation, a 501(c)(3), non-profit corporation recognized by the Internal Revenue Service.

Honor Societies

- Phi Beta Kappa – Founded at the College of William and Mary in 1776, it is the oldest and most prestigious honor society for students of the liberal arts and sciences. A chapter was established at California State University, Long Beach in 1977.

Graduating seniors are elected to membership in Phi Beta Kappa on the basis of extraordinary scholarly performance at this University, after study of their records by faculty members who are themselves members of Phi Beta Kappa. No action on the part of the student is necessary to initiate consideration. Inquiries should be directed to the President of the University chapter of Phi Beta Kappa, Dr. Harold Schefski, Department of Romance, German, and Russian Languages and Literatures.

Two additional societies which may elect students from all academic areas are:

- Mortar Board – Founded in 1918 as an honor society focusing on scholarship, leadership, and service. Mortar Board was the first national honor society founded by and for college senior women, and the membership expanded to include men in 1975. The California State University, Long Beach Cap and Gown Chapter was founded in 1972, and grew out of an honor club established here by seven women in 1963. The Cap and Gown Chapter is one of over 200 Mortar Board Chapters, with a total national membership of over 250,000 dedicated, active scholars.

Mortar Board's focus is on collaboration and balancing positive ideology with practical leadership building experiences. Mortar Board holds that both community service and dedication to academic excellence must remain constant in order to provide a full college career.

Membership is extended to service-oriented CSULB seniors who maintain a minimum 3.0 cumulative GPA.

- Phi Kappa Phi – Founded in 1897 at the University of Maine, it is the oldest and largest national honor society which recognizes and encourages superior scholarship in all academic disciplines. Chapter 86 was established at California State University, Long Beach, in 1963. Admission to Phi Kappa Phi is by invitation only and requires nomination and approval by the chapter and national society. Membership for juniors, seniors, and graduate students is based on integrity of character, one year residence in the University, and outstanding scholarship. Inquiries should be directed to the President of the University chapter of Phi Kappa Phi, Dr. C. J. Walter, c/o College of Business Administration.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:

- Beta Alpha Psi (Accounting) — National scholastic fraternity to give recognition to excellence in the field of accounting.
- Beta Gamma Sigma (Business Administration) — National honorary business society to recognize superior academic performance.
- Chi Epsilon (Civil Engineering) — National honor society open to Civil Engineering majors with a 2.9 GPA.
- Chi Sigma Iota (Counseling) — International honor society open to graduate students with a GPA of 3.5, scholars, and practitioners in the counseling profession.
- Eta Kappa Nu (Electrical Engineering) — National honor society furthering area interests and promoting scholarship. GPA requirements for seniors 2.8, for juniors 3.0.
- Kappa Delta Pi (National honor society for teachers) — encourages high professional, intellectual, and personal standards. Recognizes outstanding contributions to education.
- Kappa Tau Alpha — National honor society that recognizes academic excellence and promotes scholarship in journalism and mass communication.
- Omicron Nu (Family and Consumer Sciences) — National honor society recognizing superior scholarship and promoting leadership and research in the field of Family and Consumer Sciences.
- Phi Alpha (Social Work) — National honor society to improve the goals of social work on campus. GPA requirement 3.0.
- Phi Alpha Theta (History) — National honor society in history, founded to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.
- Phi Beta Delta (International Education) — National society, founded at CSULB, recognizes students from all disciplines with high GPAs and extensive involvement in international education or international studies.
- Phi Delta Gamma (Scholarship) — National honor society which fosters academic achievement and professional preparation.
- Phi Delta Kappa (Education) — National organization which promotes service, research, and leadership in education. Members include both students and faculty.
- Phi Epsilon Kappa (Physical Education) — National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.
- Phi Mu Alpha-Sinfonia (Music) — National organization for students in music. Promotes music in America, especially contemporary American music.
- Phi Alpha Alpha (Public Administration) — National society to encourage scholarship among students of public administration.
- Phi Sigma Tau (Philosophy) — National honor society for students with a strong undergraduate concentration in philosophy.
- Pi Kappa Lambda (Music) — National honor society for scholastic achievement in music.

- Pi Lambda Theta (Education) — National organization for undergraduate and graduate students. Purpose is to maintain high standards of scholarship and preparation for teaching.
- Pi Mu Epsilon (Mathematics) — National honor society recognizing distinction in mathematics.
- Pi Sigma Alpha (Political Science) — National honor society for political scientists. Open by invitation to upper-division and graduate students with a 3.0 GPA.
- Pi Tau Sigma (Mechanical Engineering) — National honorary fraternity encouraging and recognizing outstanding scholastic achievement of students in the field.
- Psi Chi (Psychology) — National honor society recognizing distinction in Psychology. Sponsors research and other participation in psychology.
- Sigma Alpha Iota (Music) — National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.
- Sigma Theta Tau (Nursing) — International honor society recognizing superior scholastic achievement, leadership, and community service in nursing.
- Sigma Tau Delta (English) — National honor society conferring distinction for high achievement in the study of English language and literature.
- Sigma Xi (Science) — National honor society.
- Tau Beta Pi (Engineering) — National honor society recognizing engineering students for academic achievement and participation in activities. Members are elected from top 20 percent of the senior and top 12 percent of the junior class.

The University Honors Program exists to provide a selected group of qualified students with a unique educational experience. It unites the committed student and faculty member in a learning relationship in which each has the highest expectations of the other. The Program seeks to accomplish these goals in two ways: first, it broadens students' intellectual horizons by encouraging them to explore areas of thought not closely related to their major fields of study; and second, it allows students to work in their major fields in greater depth than would be possible in a conventional course pattern. The work of the first two years satisfies, in part, the University's General Education Requirements and is directed toward the first objective. The work of the Junior and Senior years, which includes independent study experiences and a senior thesis, is directed toward the second objective.

The University Honors Program is designed so that students will not only master a substantial amount of knowledge, but will also develop the capacity for balanced intellectual judgment and the powers of abstraction and conceptualization. Students will be immersed in the learning process and therefore must have both the ability and willingness to do intense and often self-directed intellectual work as well as a desire to make the most of the opportunities available in the University.

Students who successfully complete the requirements of the University Honors Program will receive a Certificate and an annotation on their transcript which mark the graduate as a person of intellectual accomplishment, one who has demonstrated a disciplined curiosity and dedication to the pursuit of knowledge.

Available within the University Honors Program are three alternatives designed to meet the varying needs of students.

1. General Honors;
2. Honors in the Major;
3. A combination of the above for which both the course work prescribed for General Honors and the departmental requirements for Honors in the Major are successfully satisfied.

General Honors

General Honors is a special approach to the General Education Requirements of the University which enhances and builds on them. It is a program of carefully selected courses and specially designed, multi-disciplinary seminars from which a student chooses a minimum of 30 units (a minimum of 18 units in the case of upper division transfers), most of which are applied toward the 51 units of General Education courses required for graduation of all students. Those courses designated for General Honors credit encourage student participation on an academic level not generally possible in the usual curricular offering.

Objectives

- to provide highly motivated students an exceptional educational opportunity to challenge and expand their intellectual capacities, especially in terms of increased breadth and depth;
- to deepen the students' intellectual experiences by stimulating and guiding their own curiosity;
- to encourage freedom of initiative;
- to provide an academic and cultural environment that inspires creative activity through close working relationships with distinguished faculty;
- to advise students in their academic planning to meet the University's General Education requirements through a cohesive and unified program of study;
- to prepare students to write an Honors Thesis that is a preparation for advanced study, and a demonstration that the student has acquired the intellectual confidence and academic independence that are indicative of the maturely educated person.

Admission Requirements

There are three ways a student may enter the University Honors Program:

- Incoming students are invited to apply to General Honors on the basis of high school class standings, ACT composite score, and/or SAT scores. Normally, students should be in the upper ten percent of their high school classes, and have a composite ACT score of at least 24, and/or a SAT score of at least 1100, and a GPA of 3.3 or better. However, if not all of these criteria are met, a combination of them may be evaluated in addition to a letter of recommendation and a personal interview with the Honors Program Director.

- Any student who maintains a 3.3 or better overall GPA at California State University, Long Beach in 12 or more units of coursework is eligible to participate in General Honors with a letter of recommendation from one of her/his instructors and a personal interview with the Honors Program Director. Students with a GPA of 3.3 or above in 12 or more units at California State University, Long Beach normally will be granted automatic acceptance into the Program upon application.
- Students not meeting the designated criteria may petition for admission to General Honors. Students are required to submit letters of recommendation from two instructors familiar with their work. These exceptional cases will be reviewed by the Director and the University Honors Council. Students are encouraged to petition if they have a good explanation for not meeting the basic requirements and/or a strong motivation to participate in the Program.
- Transfer students may enter General Honors provided they have a minimum equivalent of a 3.3 average in all course work at the accredited institution from which they are transferring. Qualified students may enter General Honors as late as the junior year. Where Honors transfer agreements have been negotiated with a community college (such as with Long Beach City College) up to 12 transfer units will be accepted as meeting the requirements of the CSULB University Honors Program. Otherwise a waiver of some of the required Honors credits (not more than 6) may be granted by the Director and the University Honors Council.

General Information

Students who have failed to enroll in courses for Honors credit for two consecutive semesters will normally be withdrawn from the program;

A University Honors student who withdraws from the University during any semester will also be withdrawn from the program. A student may apply for readmission at the beginning of any semester in which he/she plans to enroll.

General Honors

Requirements

Every student electing General Honors in the University Honors Program must complete all university-wide graduation requirements, and the requirements for a major. General Honors is itself not a major.

A student must maintain an overall GPA of 3.00 or better in Honors and in all University courses attempted.

General Honors Plan I (minimum of 30 units) is designed for entering freshmen and consists of a minimum of 21 units of lower-and upper-division General Education courses (which include UHP 100 and UHP 150), UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

General Honors Plan II (minimum of 18 units) is primarily for upper-division transfers from community colleges and consists of nine units of upper-division General Education courses, UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

Honors in the Major

Honors in the Major (minimum of 9 units) is designed for students who elect not to take General Education courses as a part of the University Honors Program or who decide to enter the Honors Program too late to do so; Honors in the Major consists of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498). Students in General Honors whose major department offers an Honors in the Major Program may apply to participate in both programs, in which case the General Honors thesis requirement would be satisfied through the Honors in the Major option.

In consultation with a Departmental Honors in the major Faculty Advisor, a student can plan an enriched course of study in an academic major. This opportunity for program flexibility makes it possible for a student to elect the most relevant, exciting and enriched experiences offered by the department.

Although Honors in the major requirements may vary among departments; usually they entail independent study, seminar courses, high levels of performance, and senior projects or theses culminating in a broad knowledge of subject matter. Information concerning Honors in the Major is available in the University Honors Program Office and in participating departmental offices.

Admission Requirements

Please contact the department office or the University Honors Program Office for information regarding admission. Normally a student must be a declared major, usually with at least sophomore (30 units) standing.

Requirements

1. Completion of the requirements for the major. (The approval of the department chair and the Departmental Faculty Honors Advisor must be obtained to change any of the general major requirements);
2. Completion of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498).

Courses (UHP)

Lower Division

100. Angles of Vision — Honors (3)

This course emphasizes the kind of analytical and critical approaches that lead to original and creative thinking. The course concentrates on the development of seminar skills: the open exchange of viewpoints in discussion, close reading of major texts, preparation of analytical essays and oral presentations, extensive examination of explicit models and techniques of reasoning, conceptualization of research problems, and writing a documented paper. The course will confer credit in GE Category A.3. Required of all UHP students.

150. Exploring a Text — Honors (3)

Prerequisites: ENGL 100. Close reading of a work (or works) of literature — fiction or non-fiction — exploring issues of personal identity, moral choice, freedom and commitment. May be repeated to a maximum of 6 units with different topics. The course will confer credit in GE Category E. Letter grade only (A-F).

Upper Division

300. Junior Colloquium — Honors (3)

Studies of selected interdisciplinary topics, problems or issues with a view toward integration of the areas of study involved in lower-division courses. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

490. Special Topics — Honors (3)

Identification and critical analysis of current problems in selected areas. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

496. Research Participation — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Letter grade only (A-F).

497. Directed Studies — Honors (1-3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Independent study under the supervision of a faculty member. May be repeated to a maximum of 6 units. Letter grade only (A-F).

498. Senior Thesis/Project — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Final completion of a thesis, or a project; or an exhibit or a performance. Letter grade only (A-F).

It is the goal of the Women's Studies Department to provide for students, the University, and the community an intellectual context from which it is possible to study the experience of women. By definition, this enterprise crosses disciplinary and cultural lines; it means that we are in the University not only to fill in gaps and to facilitate the development of coherent bodies of knowledge about women in established disciplines, but that we represent a core of emerging knowledge that is growing into a new discipline.

Women's Studies seeks to equip students with the knowledge, skills, and perception necessary to their realization of the fullest range of options available to them as human beings. We want to provide and encourage contexts conducive to academic excellence and sensitive to academic freedom

that will assist students in 1) the reexamining of traditional ideas about women and men in cultures characterized by patterns of sex-role stereotyping; 2) acquiring an understanding of the history and contributions of women of varying social, racial, and ethnic backgrounds; 3) developing the analytical tools required to understand and appreciate the implications of the last three decades of feminist theory and research; and 4) preparing for a variety of vocations which increasingly demand knowledge about women's experience.

Women's Studies, in its own department and through courses in other departments and disciplines, offers the University the intellectual excitement inherent in the development of a new discipline, and a humanistic perspective from which to view the accumulated knowledge of other disciplines, particularly their assumptions about women, both as actors and subjects. Women's Studies encourages the development of research and curriculum related to women in other disciplines and departments throughout the University. We also provide information and advising for students and other members of the University community on the subject of women and women's issues.

The Women's Studies Department offers a major and minor. Students may also graduate with a B.A. in Inter-disciplinary Studies that has Women's Studies as one of its disciplines. CSULB also offers a Special Major at the graduate level through which students may design a major combining Women's Studies with another discipline. Designated Women's Studies courses may be used to fulfill the Social Science (Category II) and other General Education requirements, as well as I.C. and H.D. requirements. For additional information and advice relative to these programs, or ways in which to combine Women's Studies with another Major or Concentration, please consult the Department Office or the Undergraduate Advisor.

Bachelor of Arts in Women's Studies (code W/STBA01) (120 units)

Requirements

A total of 45 units will be required for the Women's Studies major. Courses cannot be counted for more than one category within the major. Requirements include 6 lower division units to include W/ST 101 and W/ST 102; 39 upper division units distributed among the following categories:

Core Requirements

Theory and Methodology - total 12 units.

Six units to include: W/ST 300 and 415;

One of the following for three units: W/ST 340 or 392;

One of the following for three units: W/ST 314, 365I or 382.

U.S. and Global Ethnic/Gender Diversity - total 6 units:

W/ST 318I and 401I

Women's History - total 3 units: W/ST 485A (HIST) or 485B (HIST)

Senior Capstone Seminar - total 3 units: W/ST 495

Electives (15 units)

To include 9 units from one of the following clusters and a total of six units from one or both of the other clusters.

Clusters

Feminist Aesthetics and Cultural Studies

This cluster focuses on the study of art and culture both as sites of women's theoretical and political work and as sources of the construction and representation of women's identities. The courses in this cluster examine forms of women's own self-expression, such as literature, philosophy, theory, and cinema, as well as placed in culture - such as language, art, popular culture, religion or urban space - through which societal ideas about women have historically been created and maintained.

W/ST 314, 315, 316 (FEA 317), 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 365I, 381 (ASAM, HIST), 382 (ENGL), 384 (HIST 338), 402 (POSC 401), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 410, 420, 425, 432, 441 (ENGL), 442 (ENGL), 455 (PHIL), 475 (ANTH 475, LING 470), W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor), 494; ENGL 384.

Social Change and Social Policy

The courses in this cluster address the role of women within the legal, economic and political structures of our society. Whether they are social policy makers or the ones affected by the distribution of power, women have always played a central role in all of the institutions and practices that make up our society. This cluster examines women's historical and contemporary place within religion; law; science; labor; economics; environmentalism; health care; cities; families; structures of race, class, and sexuality; and political activism.

W/ST 307I, 308, 309I (NSCI), 314, 315, 319 (AIS, ASAM, B/ST, CHLS), 325 (SOC), 338I, 340, 350, 356, 381 (ASAM, HIST), 384 (HIST 338), 402 (POSC 401), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 410, 420, 424, 425, 430, 432, 440, 485A (HIST), 485B (HIST); W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor), 494; ANTH 351; COMM 412; HDEV 320; PSY 110, 200, 354; SOC 200, 250, 346, 354, 355; SW 491.

U.S. and Global Ethnic/Gender Diversity

This cluster focuses on the experience of women internationally and among diverse communities and cultures in the United States. Recognizing that women's experiences are defined as much by their positioning within global political, social, and economic systems as by their individual racial, ethnic, religious, class, or sexual identity, this cluster offers a comparative look at both the individual and the global aspects of women's lives. The courses in this cluster study the diversity of histories, experiences, and cultures within the United States as well as their historical and political connections to women around the globe.

W/ST 307I, 315, 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 381 (ASAM, HIST), 384 (HIST 338), 394 (HIST), 406 (A/ST, HIST), 406A (A/ST, HIST), 406B (A/ST, HIST), 424, 449, W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor); I/ST 451, SOC 346.

Note: Courses cross listed with any of the above courses are accepted as substitutes.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Women's Studies (code W/STUM01)

Requirements

A minimum of 21 units are required for the Women's Studies minor, to be selected with approval of a Women's Studies advisor. Courses cannot be counted for more than one category within the minor and must be selected from among the following categories:

Lower Division - 3 units: W/ST 101 or 102

Upper Division - 18 units:

Take each of the following for three units each: W/ST 300, 318I, 401I

Take one of the following for three units: W/ST 340 or 392

Take one of the following for three units: W/ST 485A or 485B

Take three additional units from any cluster.

Courses (W/ST)

Lower Division

101. Women and Their Bodies (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to the rapidly expanding body of literature and ideas related to the biology and sexuality of women.

102. Women In Contemporary Society (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to some of the basic questions raised by the contemporary feminist movement relating to the social, political, and economic status of women.

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Principles of Feminism (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. An introduction to principles of feminist history, thought, theory, methodology, and current issues that emphasizes but is not limited to the United States. Letter grade only (A-F).

307I. U.S. Women and the Economy: Money, Sex, and Power (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course is an interdisciplinary examination of assumptions about the economic roles of women; analysis of the sexual division of labor, domestic work, and its ideology; women as wage workers; women and development, U.S. women and the economy. Special focus will be on the origin, migration, settlement, and economic patterns of, problems facing, and attitudes about women from major ethnic and racial groups in the United States.

308. Women and the Law (3)

History of women's experience under the law; constitutional law; 19th amendment and ERA; equal protection issues; discrimination in employment; marriage and family law.

3091. Women in Science (3)

Prerequisites: Completion of the G.E. Foundation, upper division standing, six units of General Education science courses and consent of instructor. The purpose of this course is to increase awareness of the accomplishments of women in natural science, engineering, and mathematics in their socio-historical context and the obstacles that have precluded easy access to careers for women in these areas. Specific topics encompass the historical roles of women in science, contributions of celebrated women scientists, and women scientists who made significant contributions but were ignored or devalued by their scientific peers, and the nature of the research problems they pursued including methodology and outcomes. Other key issues include stereotypes and images of women in science; cultural, societal, and institutional obstacles to the entry and success of women in science; and ways of overcoming these obstacles. Disciplines included in this course are science, history, and sociology. Letter grade only (A-F). Same course as NSCI 3091. (Lec 3 hrs.)

314. Women Narrate Their Lives (3)

Study of the lives of a cross-section of Women in the U.S. from colonial era to the present based on biographical and autobiographical sources.

315. Black Women in America (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. An examination of American black women from the eighteenth century to the present. Taught from an interdisciplinary perspective and presented in their own voices. Letter grade only (A-F).

316. Women in the History of U.S. Film (3)

History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective. Same course as FEA 317.

3181. U.S. Women of Color (3)

Prerequisites: ENGL 100 and upper division standing or consent of instructor. Examines the condition and position, the experiences and accomplishments of women of color in the United States. Explores the social construction of race and gender as they intertwine within the institutional structures of the US, implications of the interactions between and among women of color, both within and across distinct ethnic/cultural groups and the effect of "whiteness" upon communities of color. Covers historical and contemporary issues using theoretical essays, personal narratives, historical documents, literature, and media images.

319. The Ethnic Experience in the U.S. (3)

An examination of the dynamics of the development of our multi-cultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in the maintenance of cultural diversity in the United States. (Lecture/Discussion.) Same course as AIS 319, ASAM 319, B/ST 319, CHLS 319.

320. Latina Women in the United States (3)

Prerequisite: Junior standing or consent of instructor. This course will examine the cultural, political, economic, and sexual forces that mold Latina women. The first section of the course will focus on cultural stereotypes and responses to these stereotypes by Latina women scholars. The second section of the course will focus on Latina class differences and the politics of race. This will provide an overview of the contemporary public policy issues affecting Latinas and the broader Latino community. The contradictions that are identified in this course segment will be juxtaposed against selected African American perspectives to identify areas of symmetry as well as areas of divergence in the domain of political strategizing for political reform and Latina empowerment. The last section of the course will address issues of gender identity and sexuality that challenge, undermine, and strengthen the position of Latina women in the greater society. Same Course as CHLS 415.

325. Sociology of Women (3)

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society, Same course as SOC 325.

3381. Women in Sport (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as KPE 3381.

340. Community Service Learning in Women's Issues (3)

Prerequisites: Upper division standing and two prior women's studies courses, or consent of instructor. This course will allow students the opportunity to practice the theories and knowledge they have gained as a result of studying women's issues. Students will work in the community with agencies addressing women's issues.

350. Feminist Issues in Mental Health (3)

Introduces issues related to the mental health of women, from historical, anthropological, sociological and psychological perspectives. Emphasis is on the relationship of power, sexism, sex role socialization and gender stereotypes to mental health.

356. Women and Sexual Orientation: Lesbianism (3)

Examination of lesbianism from psychological and historical perspectives; includes discussions of lesbianism in literature, representations of lesbianism in various media; the place of lesbianism in the politics of the women's movement and in gay liberation, and the development of "queer theory".

3651. Images of Women in Popular Culture (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analyzes the construction of images of women in popular culture. Discussion of theories of culture, gender and ideology. Analysis of film, advertising, magazines and popular fiction.

381. Asian American Women (3)

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings; oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and HIST 381.

382. Women and Literature (3)

Images of Women in English literature; works in various genres that present the range and complexity of women's lives; feminist critical approaches and bibliographic resources. Specific content will vary. (Lecture-Discussion) Same course as ENGL 382.

384. Modern European Women's History (3)

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include: the nature, methodology and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as HIST 338.

392. Feminist Pedagogy: Peer Facilitation (3)

Prerequisite: Previous or concurrent WST class and consent of instructor. Peer facilitation of small group discussion, teaching assistance and other assignments directed by a supervising faculty member, supplemented by seminar, reading and journal writing. May be repeated to a maximum of 6 units. Letter grade only (A-F).

394. Middle Eastern Women (3)

Prerequisites: Upper division status. In this course we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, traveler accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as HIST 394.

401I. Women in Global Perspective (3)

Prerequisites: completion of Foundation courses, one or more Explorations course, and upper-division standing. Comparison of how different social and cultural systems have affected gender ideologies and gender practices and how women's social, cultural, economic, and political roles have changed over time. The emphasis is on pre-industrial and contemporary Third World societies where the majority of the world's female population lives. Draws on recent anthropological, sociological, historical, political science and women's studies research to understand factors related to gender inequality and women's empowerment.

402. Women in Political Theory (3)

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as POSC 401.

406. Asian Women (3)

Historical experience of women in Asia, with emphasis on Chinese and Japanese societies; links with the experience of Asian-American women.

406A. Asian Women: East and Northeast Asia (3)

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and HIST 406A.

406B Asian Women: South and Southeast Asia (3)

An introductory course on the experiences of women in two of the most ethnically, culturally, and politically diverse regions of the world: South and Southeast Asia. This course explores the diversity of women's experience in these two regions during the colonial and post-colonial periods. Using different kinds of sources, including memoirs, biography, literature, and film, as well as monographs or about South and Southeast Asian women, we will examine how gender is historically constructed in the two regions, and how women have exercised agency throughout history. This course will proceed both chronologically and thematically. Major issues to be discussed include women's agency in social change; gender as a contentious site of political discourse; the impact of colonization on women, and women's various forms of resistance. Letter grade only (A-F). Same course as A/ST 406B and HIST406B.

410. Women, Religion, and Spirituality (3)

Prerequisites: ENGL 100 and upper division status, or consent of instructor. A study of the socio-religious construction of the "nature of woman" from prehistory to present day. Analysis of women in traditional religions and new religious movements, in women's religions around the world, and the rise of fundamentalisms.

415. Feminist Theory (3)

Prerequisites: W/ST 300 or consent of instructor. Examines contemporary feminist theoretical perspectives. Discussion of primary sources from a number of positions, including liberal, socialist, poststructural, "third world", postmodernist and postcolonial feminisms. Issues include gender and sexuality, race, ethnicity, class and nationality. Focus on discussion of current debates which cross disciplinary boundaries. Active student participation required. Letter grade only (A-F).

420. Mothers and Daughters (3)

Analyzes how mothering is "reproduced" in daughters, and why/how patriarchal culture regulates the mother/daughter bond. Readings are primarily literary texts, with theoretical materials drawn from an interdisciplinary framework. Special emphasis is given to the shaping of the mother/daughter relationship in a range of historical, racial, class and sexual contexts.

424. Women and Environmental Justice (3)

Prerequisites: Completion of Foundation curriculum and upper division status. This class examines environmental justice by exploring the complex relationship between women and nature and how both of these have been treated through 1) socio-religious ideologies, 2) the socio-economic underpinnings and environmental impact of international development, 3) the consequences to and reactions of women to environmental pollution around the world, and 4) the practical meaning of environmental consumption and waste in industrialized nations. The global approach highlights leading Third World ecofeminists, who are changing the terms of the discourse on the environment and offer a critique of the gendered division of labor in both the production and reproduction processes that differs dramatically from other perspectives on the environment.

425. Women and Power (3)

Prerequisites: A previous W/ST class (101, 102, or 300) and upper division status or consent of instructor. Examination of the ways power has been defined, obtained, shaped and maintained, and the effect this has historically had on women. Applies theory to contemporary issues affecting women and explores strategies for empowerment.

430. Women and Violence (3)

Women as victims and survivors of physical, psychological, and philosophical violence. Problems of rape, woman battering, incest, pornography and sexual harassment; examination of legal, religious and philosophical issues and alternatives for change.

432. Women in the City (3)

Examines the way women respond to the urban environment, both literally and imaginatively. Special attention paid to the sexual division of space, particular needs of immigrant and third world women, and utopian cities of sisterhood. Readings feature literary texts, augmented by an interdisciplinary range of theoretical and empirical studies of cities.

440. Issues in Women's Health (3)

Prerequisites: Upper division status; ENGL 100; and W/ST 101, BIOL 205, BIOL 207, or BIOL 211B. The purpose of this course is to help women attain and/or maintain an optimum state of health and to become discerning consumers of the health care industry. Fundamentals of normal physiology and natural defense mechanisms will be covered in order to promote understanding of the cause, prevention and treatment of various conditions or disorders, including reproductive organ dysfunction, menstrual disorders, sexually-transmitted disease, infertility, complications of pregnancy, osteoporosis, cancer, and cardiovascular disease. The importance of lifestyle habits (diet, exercise, stress, etc.) will be emphasized throughout. Other topics will include gender differences in health and mortality, the history and current status of research on women's health issues, and the current political climate regarding women's reproductive rights.

441. Women Writers of the Harlem Renaissance (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. Explores the literature and lives of women authors of the American Harlem Renaissance Period of the 1920s. Examines the critical reception, relative obscurity, and current re-discovery of these writers. Utilizes theoretical essays, biographical narratives, historical documents, and media images. Same course as ENGL 441.

442. Sexing Chicana Literature (3)

Prerequisites: ENGL 100 and upper division status or consent of instructor. Studies how Chicana authors explore intersecting issues of race, class, and gender. Focuses on the use of sexuality in Chicana writing, particularly with regard to cultural and literary stereotypes vs. experience and aesthetic practice. Themes will include desire, identity, empowerment through "traditional" roles, violence and the body, and other issues framed by historic and symbolic representations in Chicana literature. Same as ENGL 442.

449. Feminism and International Human Rights (3)

Prerequisite: Upper division status or consent of instructor. Reviews feminist debates on racism and colonialism, with specific reference to contemporary international human rights. Topics to be discussed include: colonialism and knowledge; liberalism and modernity; feminism and international relations; international women's rights movements; discourses of 'traditional practices'; hegemonic feminism and power. We will consider current international women's rights issues and critiques of the ways in which veiling, genital surgeries, gender-based persecution, violence against women in war, sati, dowry murders, migration and trafficking, AIDS and women, and other related topics have been taken up by western feminists.

455. Philosophical Perspectives on Sex and Love (3)

Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as PHIL 455.

475. Language and Gender in Cross-Cultural Perspective (3)

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions or perceptions and stereotypes and their effect on communication. Same course as ANTH 475 and LING 470. Letter grade only (A-F).

485A. History of Women in the U.S. Early Period (3)

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. (Lecture) Same course as HIST 485A.

485B. History of Women in the U.S. Since 1850 (3)

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. (Lecture) Same course as HIST 485B.

490. Special Topics (1-3)

Topics of current interest in women's studies, selected for intensive study. May be repeated to a maximum of 6 units with different topics. Same course as AIS 490.

490K. Women and War: Voices of Resistance

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. Same topic as SPAN 493A, HIST 490F. (Lecture)

491. Special Topics (1-3)

492. Special Topics (1-3)

Topics of current interest in women's studies, selected for intensive study. May be repeated to a maximum of 6 units with different topics.

495. Senior Capstone Seminar (3)

Prerequisites: Open to W/ST majors and minors, or consent of instructor. Capstone course intended to integrate the multidisciplinary body of knowledge accumulated in the major or minor.

498. Field Work (1-3)

Consent of instructor. Practical experience in campus or community organizations concerned with women's issues. May be repeated to a maximum of 6 units.

499./599. Directed Studies (1-3)

Consent of instructor. Independent work in areas of special interest to student and instructor. May be repeated to a maximum of 6 units.

Graduate Level

599./499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent work in areas of special interest to student and instructor. May be repeated to a maximum of 6 units.

GENERAL REGULATIONS AND PROCEDURES

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or CSULB designee. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, college, or administrative office.

Nothing in this catalog will be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and CSULB or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees. Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices, and procedures, or its faculty and staff, may be obtained from Leslie Nix-baker, Director of Employee Relations, Brotman Hall (BH) 303, (562) 985-1742, or from Steve Katz, Director of Judicial Affairs, BH 377, (562) 985-5270.

The Federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at <http://www.sss.gov>.

Information concerning the academic programs of CSULB may be obtained from the Academic Vice President, BH 303, at (562) 985-4128 and may include:

1. the current degree programs and other educational and training programs;
2. the instructional, laboratory, and other physical plant facilities which relate to the academic program;
3. the faculty and other instructional personnel;
4. data regarding student retention at CSULB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest; and
5. the names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

Election of Regulations for Degree Requirements

Undergraduate students acquire "catalog rights" with respect to the requirements for a degree program by maintaining "attendance" continuously. This means that, if continuous attendance is maintained and the degree objective is not changed, students may choose to graduate under the requirements for the degree in effect 1) at the time they began the study in a California community college or another campus of The California State University, 2) at the time they entered CSULB, or 3) at the time of graduation from CSULB. Substitutions for discontinued courses may be authorized or required by the Dean of the cognizant College. Students who change their major, including changing from "undeclared" status to a defined degree objective or from one option to another option under the same degree, are governed by the degree major requirements in effect at the time of the change or declaration of major. Students who change majors are advised that some courses counted for General Education or double counted for General Education and a major may become unacceptable for General Education in connection with a new major. These students should check with the Academic Advising Center.

The term "attendance" means, literally, attendance in a course for at least one semester (or quarter) unit credit in at least one semester (or two quarters) in a calendar year, culminating in a record of enrollment on the student's official transcript. For the purpose of establishing catalog rights, the course must be at the baccalaureate or graduate level in a California community college, a California State University, or a University of California campus. Enrollment resulting in a withdrawal (the grading symbols W or WU) does not count as attendance in a course, and so does not preserve "catalog rights."

Once "catalog rights" are established, absence related to an approved medical, military or academic leave or for attendance at another accredited institution of higher education will not be considered an interruption of attendance, provided that the absence does not exceed two years. Please see Educational Leave later in this section.

For all students, disqualification or a failure to remain in continuous attendance will mean that the student must meet the regulations current at the time of resuming the degree program or those applicable at the time of graduation. In addition, for graduate students, a failure to maintain continuous attendance means the automatic revocation of "candidacy" for the degree (advancement to candidacy) and of "catalog rights."

Academic Calendar

California State University, Long Beach operates on a semester system, which is supplemented by a state-supported summer term and a fee-supported winter session. Normally, fall semester classes begin in late August or early September. The last day of instruction usually comes midway in December; this allows for a week of final examinations prior to the winter recess, which begins about December 20. The spring semester usually begins in the last week of January and ends in mid-May, in time for a week of final examinations and the week of commencement exercises just before or after Memorial Day. The summer term, consisting of three overlapping six-week sessions, runs throughout June and July and into late August.

Special Sessions Programs

There are many Special Sessions programs and courses that are administered by University College and Extension Services. Courses and programs are offered throughout the year in various formats, including Open University and Special Sessions, on- and off-campus, and through distance learning technologies. Some instructional offerings are graduate and undergraduate accelerated degree programs, while numerous individual credit courses are offered for professional development purposes on-campus and at corporate and industry sites. The three-week Winter Session is a concentrated three-week session beginning in early January. It is entirely fee-supported.

Student Load

An undergraduate student carrying 12 or more units during the fall or spring semester is classified as a full-time student. A graduate or post-baccalaureate student carrying 9 or more units during the fall or spring semester is also classified as a full-time student. An undergraduate student carrying fewer than 12 units or a graduate or post-baccalaureate student carrying fewer than 9 units is classified as a part-time student. These definitions derive from federal financial aid regulations and have no bearing on the definitions used by the State of California to determine a student's liability for the State University Fee.

The maximum number of units a student may take during the fall or spring semester is normally 18 for undergraduate, graduate, or post-baccalaureate students. The maximum number of units for the summer term or the Winter Session is one unit per week, plus one additional unit. Exceptions to this limit will be made only on the basis of proven academic ability, the feasibility of a student's proposed schedule, and the evidence that it is necessary to enroll for an overload in order to complete the student's chosen academic program in a timely manner. Permission must be obtained, prior to registration, from the office of the Division of Academic Affairs for the fall or spring semester or for the summer term and from the Associate Dean of the college of the student's major department for the Winter Session.

Student Levels

Freshman	0.1 to 29.9 units
Sophomore	30.0 to 59.9 units
Junior	60.0 to 89.9 units
Senior	90.0 or more units
Postbaccalaureate	holding a baccalaureate or equivalent degree

The faculty recognizes that it is frequently necessary for students to hold part-time positions while attending the University. It advises that good judgment be demonstrated by students enrolling under these conditions. Students whose outside employment could be expected to interfere with the normal unit load should reduce their academic program accordingly. It is suggested that students plan their schedules based on spending three hours time per week for each unit taken. This may be considered sufficient time to enable a student to do satisfactory work. Students who desire to achieve "A" or "B" grades may wish to spend proportionately more time in their studies. A student's employment and college time combined should not exceed 60 hours weekly. Students who make no allowances for their employment and outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship.

Veterans should inquire at the Veteran's Affairs Office (BH 226) about unit load requirements for state and federal benefits.

For more information about graduate student load, see regulations governing Master's Degrees in this *Catalog*.

Undergraduate international students on non-immigrant visas must carry and complete a minimum of 12 units per semester unless a reduced load is authorized by the student's advisor and the Center for International Education. Reduced unit loads may be granted for substantial academic reason or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load which is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 9 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

Class Attendance

Students are expected to attend classes regularly. Classroom participation is often one of the necessary and important means of learning and in many classes is essential to the educational objectives of the course.

Faculty members must include their guidelines for assigning grades in the syllabus (as required by Policy Statement O2-12, Grades and Grading Procedures). The syllabus must make clear whether any portion of the grade is based on attendance and/or participation. It is the students' responsibility to make

themselves aware of each faculty member's guidelines by carefully reading the syllabus.

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

Students may have a valid reason to miss a class. When any of the following reasons directly conflict with class meeting times, students are responsible for informing faculty members of the reason for the absence and for arranging to make up missed assignments, tests, quizzes, and class work insofar as this is possible. Excused absences include, but are not limited to:

1. Illness or injury to the student
2. Death, injury, or serious illness of an immediate family member or the like
3. Religious reasons (California Education Code section 89320)
4. Jury duty or government obligation
5. University sanctioned or approved activities (examples include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)

Faculty members are not obligated to consider other absences as excused. Faculty members may require students to provide documentation for excused absences.

There are numerous classes offered on campus where attendance is crucial since student participation is essential. Absence from these courses may impact upon the work and participation of other students. Students who anticipate extended or multiple absences during a particular semester should consult with their advisor and the faculty member before enrolling in any class to determine whether it will be possible to complete the requirements for the course. Students who realize after enrollment that they will have extended or multiple absences should consult with the faculty member to see whether it will be possible to complete the course requirements.

The earliest possible notification is preferred. In some circumstances, it may be possible for the student to notify the faculty member of anticipated absences (e.g. for religious reasons or for scheduled athletic events) during the first week of enrollment. Advance notification (minimally one week in advance) is required for the following absences:

1. Jury duty and other government obligation
2. Religious reasons
3. University sanctioned or approved activities

The California Education Code (section 89320) requires "each state university, in administering any test or examination, to permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed. This requirement shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship which could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution."

It is the responsibility of the student to make advance notification, contact the faculty member to make arrangements to make up any academic work that may be missed, submit assignments

on time, and to make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.

If a student does not notify the faculty member one week in advance of the date of absences for these reasons (jury duty, governmental service, religious observances, or University sanctioned activities), the instructor is not required to adjust the class schedule or to allow for make up activities, tests, or exams. However, students shall not be penalized for excused absences when circumstances make it impossible to provide advance notice (e.g. student is engaged in a University sanctioned event such as a performance, tournament, or playoff which cannot be anticipated).

Students who expect to be absent from the University for any valid reason, and who have found it difficult to inform their instructors, should notify the academic department office. The department office shall notify the student's instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work missed.

In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor's option to assign alternative work.

Faculty Office Hours

The purpose of office hours is to provide opportunities for student-faculty interaction outside the classroom. Each instructional faculty member will hold one office hour for every class taught, up to a maximum of four hours. Faculty may account for up to one hour of this expectation through alternative forms of access such as availability by appointment or through e-mail. The faculty member's office hours, phone number, and email contact will be posted by the door and announced in the syllabus.

Visitors to Classes

Only students registered for the class either as regular students or as auditors, the instructor, and invited guests of the instructor may attend classes at CSULB. Persons wishing to become guests of the instructor should seek the instructor's permission prior to the scheduled beginning of the class session.

Course Listings

Courses are listed in this catalog by department, the departments and programs being arranged alphabetically. Each listing gives the course number, title, semester units in parentheses, semester or session offered, and the course description, which includes prerequisites and other restrictions.

An asterisk (*) preceding the course number indicates that the course is acceptable as elective credit for the master's degree.

Course Numbers

Any course numbers less than 100 do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken. Lower-division courses are numbered from 100 through 299. These courses are designed primarily for Freshmen and Sophomores. They provide breadth of understanding and the foundation for the more specialized work in upper-division, advanced courses. Approved General Education courses are listed in the *Schedule of Classes* and are offered at both the lower-division and upper-division

levels; no upper-division General Education course may be used in a graduate degree program. Lower-division courses are open to Junior, Senior, and Graduate students; however, lower-division courses may not be applied to any graduate degree program.

Upper-division courses are numbered from 300 through 499. These courses are open to students who have completed the prerequisites to the course, if any, stated in the course description and other departmental regulations given in this catalog. A "Prerequisite" is a completed course or other measure of academic preparation which provides a foundation for the more advanced course.

Freshmen and Sophomores wishing to enroll in upper-division courses which indicate no prerequisites should consult with the course instructor or other knowledgeable advisor prior to enrollment. These courses are presented to meet the expectations of academically advanced students. Freshmen and Sophomores should not attempt courses with numbers preceded by an asterisk.

Certain 400-level courses are double-numbered with 500-level courses. In these courses the expectations of graduate students, who must enroll in the 500-level course, are greater than the expectations of undergraduates. Grading scales are different for the 500-level course and additional work is required of graduate students. A student may not earn credit for both the 400- and 500-level versions of a course.

Graduate-level courses are numbered from 500 to 799. Courses numbered 500-599 may be opened to senior students upon favorable petition. Courses numbered from 600 to 799 are open only to graduate students.

Included with some of the course numbers is a supplementary letter, or suffix, such as L for "laboratory" or A and B for a year-long sequence. "A-B" means that the courses must be taken in alphabetical sequence; "A,B" designates related courses which need not be taken in sequence. The student is given degree credit for each part of the sequence satisfactorily completed, whether or not the remaining part of the sequence is completed. The "semester or session offered" information is presented as a long-range planning guide. Funding, student demand, and instructor availability may require that a course be offered in a different semester or session or be postponed until a later academic year. F indicates Fall Semester, S indicates Spring Semester, W indicates Winter Session, and SS indicates Summer Session. The *Schedule of Classes* appropriate to the semester or session in question should be consulted for actual course scheduling information. Courses offered only in alternate years are so designated. Many of the courses offered during the fall and spring semesters are also offered during the summer session.

The University reserves the right to make changes in course offerings without notice.

Courses offered through Extended Education conferring Continuing Education Unit credit (CEU) carry no degree credit.

Academic Credit

Course Credit Units

Each course has a specific credit unit value which is indicated in parentheses following the course title. In typical lecture and discussion classes, the number of course credit units is equal to the number of class hours per week. Thus, in a typical fifteen-week semester a one-unit class meets for a total of fifteen hours during the fifteen weeks while a three unit class will meet forty-five hours during the same period. A typical lecture class may be scheduled to meet once, twice, or three times a week. Any course numbers beginning with zero do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken.

In other types of instruction, principally laboratories and activities of other kinds, the number of class hours per week is

greater than the number of course credit units, depending on the mode of instruction. Courses with variant or mixed modes of instruction are noted in the course description and the *Schedule of Classes*. Summer Session classes require the same total amount of class time, compressed into a six week session.

The instructional "hour" is fifty minutes long, allowing for transit between classes and rest breaks within multi-hour classes. In most classes the student is expected to allow two hours per week of study time beyond class time for each unit of credit. Thus, a three-unit lecture-discussion course normally demands a commitment of nine hours per week averaged over the semester.

Credit for Activity Courses

Activity courses provide practice in such areas as music, dance, physical education and Sports, Athletics, and Recreation. Except as required by a student's major, students may apply to the degree no more than eight units each of activity course credit in music, dance, or physical education and no more than four units of activity course credit in SAR, up to a total of no more than 20 units in all areas.

Independent Study Courses

Each student enrolled in a supervised independent study, research, or reading course (excluding thesis courses) must have an agreement on file in the department office where the course is offered. The agreement is to be made between the student and the instructor at the beginning of the course and must include the following: a description of the work to be accomplished, specific information on the tasks required, the nature of the final report, and the basis for determining the final grade. The agreement must be signed by both the instructor and the student.

Credit for Cross-Listed Courses

Certain interdisciplinary courses are listed in this catalog under more than one department. Normally, students will receive credit for such a cross-listed course in the department under which they register for it. They may, however, have Enrollment Services indicate that this course may be credited to a different department which also lists it, provided that they make this request no later than the end of the semester preceding anticipated graduation.

Repetition of Courses for Satisfactory Grade (Repeat and Delete)

Undergraduate students and postbaccalaureate students who are pursuing a second (or subsequent) baccalaureate degree may repeat, for the purpose of excluding the grade from grade-point determination, an undergraduate course taken at California State University, Long Beach in which a grade of D, F, U, or WU was received. Postbaccalaureate students pursuing credential programs, certificate programs, or master's degrees are not eligible for the Repeat and Delete policy.

Eligible students may repeat a course once for the purpose of deleting a grade, without prior departmental approval, if the course was taken both times at CSULB. The deletion is automatically calculated at the end of the semester in which the course was repeated. Although the first grade will remain on the permanent record, the grade and grade points of the repeated course on the second attempt will be those used in determining the grade-point average and units earned, provided the second grade was C or better.

Students are not prohibited from continuing to repeat a course in which the grade is unsatisfactory (D, F, U, WU), but all grades earned subsequent to the first repeat will remain in the grade-point determination, and the units earned in the course will be applied to the degree only once. While there is no time limit for repeating a course, the student's permanent record may not be altered after a degree has been granted.

If students wish to exclude from grade-point determination a grade of D, F, U, or WU in a course taken at another institution, they may do so by enrolling in an equivalent course at CSULB. A "Notice of Intent to Repeat a Transfer Course" form must be filed with Enrollment Services. The department in which the course is taught must indicate on the form which particular course may be repeated to delete the previous grade. An official transcript from the institution where the original course was taken must accompany the form. Only one repeat is allowed for the purpose of deleting a grade, and the repeated grade and grade points will be used in the overall grade-point determination, provided the second grade was C or better.

A grade received in a course taken at another institution may not be used to delete a grade in an equivalent course taken at CSULB.

Except as noted in the section immediately below, students may not repeat or receive unit credit for courses in which they have already received a CR or a grade of C or better.

Repeatable Courses

In most cases a student may not take or receive unit credit for a course for which the student has already received a CR or a grade of C or better. This principle applies whether the course was initially taken at CSULB, at a high school, or at another college or university. The only exceptions to this rule are: (1) when a course has been specifically designated as repeatable for credit up to a specific maximum number of units (there may also be other limitations, such as a requirement that each repetition be with a different instructor and/or on a different topic); (2) activity courses; (3) upper-division courses in an undergraduate student's major completed more than two years prior to the student's graduation; and (4) courses on a graduate student's program of study taken more than seven years prior to graduation.

Transfer Credit

Students who were in good standing at another accredited institution may, within maximums, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements must be determined; students are cautioned that the University is under no obligation to accept transferred courses for subject credit in addition to unit credit for admission. Normally, however, there is a probability that courses in the accepted core of a discipline will be exchangeable between universities. Policy regarding transfer of courses from California community colleges differs in some respects.

Transfer of Undergraduate Credit From Accredited Community Colleges

A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:

1. No upper-division credit may be allowed for courses taken in a community college;
2. No more than six semester units in education courses taken in a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program;

3. Individual program regulations for specific transfer limitations should be consulted.
4. Students who transfer general education certification are still required to complete at least 9 units of upper-division courses at the campus conferring the degree.
5. Any course taken at community colleges can substitute for general education breadth requirements and lower-division requirements, if the course is approved as equivalent to the appropriate CSULB course. Students with more than 70 transferrable units from community colleges will get subject matter credit for all such courses, but no more than 70 units will count toward graduation.
6. All transferrable units taken at community colleges will count toward computation of the overall grade-point average. All transferrable units in the major taken at community colleges will count toward computation of the overall major grade-point average.

Extension Credit

A maximum of 24 semester units of Extension Credit may be accepted toward a baccalaureate degree. At the option of the appropriate college and department, up to six units of Extension Credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. Extension credit may not be used to fulfill the minimum 30-unit residence requirement.

Open University/Special Session

The Open University program allows enrollment in regular university credit courses from those people who are not currently admitted to and/or registered at CSULB. Enrollment is on a "space available" basis, subject to the approval of the instructor and the department chair concerned.

No more than 24 units of special session course credit earned through Open University or UCES Special Sessions course offerings at CSULB in non-matriculated status may count toward any undergraduate degree requirement. Students are considered in non-matriculated status in terms prior to the term of official admission in the degree granting program and during terms of disqualification from the degree granting program. There is no limit on UCES Special Sessions course credit, including Winter session, applicable to the degree if taken while you are in matriculated status in the degree program.

At the option of the appropriate college and department, up to six units of Open University Special Sessions credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. All units that are applied to a degree are classified as residence credit.

International Program Credit

Course credits earned in universities abroad may be accepted for degree credit at CSULB subject to evaluation by the cognizant department or program upon admission of the student to the University. CSULB students who desire, subsequently, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the Chair of the appropriate department or program.

The Center for International Education administers many international education and exchange programs. Students fully accepted into one of these programs may, in most cases, continue CSULB residency while studying in the approved foreign institution. Some courses taken through these programs do not have to be approved in advance.

Acceleration of University Studies

The University provides several means by which students may accelerate their studies; these are discussed below. Each of the following options may be subject to restrictions and regulations within individual academic programs. Therefore, students interested in any of these options should consult with the Chair of the concerned department.

Advanced Placement

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course.

Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level examinations must submit an official IB transcript. Course equivalency for Higher Level examinations completed with a grade of 5 or higher is determined by the faculty of the appropriate department subsequent to careful review of course syllabi.

For questions or information, please call Enrollment Services at (562) 985-5471 or consult your department.

International Baccalaureate

Students with scores of 5 or higher in International Baccalaureate Higher Level courses will be awarded baccalaureate credit of 4 to 10 units, depending on course equivalency. Departments will be responsible for determining which, if any, courses within their own programs are equivalent to International Baccalaureate courses, as well as the number of units to be awarded. Departments shall be provided with information about the program and with syllabi for IB courses, to be used in making this determination.

Unit Credit by Examination

California State University, Long Beach grants unit credit to those students who pass examinations that have been approved for credit system-wide. These are: the CSU English Equivalency Examination; the College Level entrance Program (CLEP) examinations in College Algebra - Trigonometry, Calculus/Elementary Functions, French, General Chemistry, German, and Spanish; the College Entrance Examination Board (C.E.E.B.) Advanced Placement examinations; and the American Chemical Society Cooperative Examination.

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded as "CR" (credit) on the student's transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.

Students must be enrolled in the University and in the course for which they wish to receive credit by examination. Enrollment is by permission of the department and is only available during the academic semester in which the course is being offered. Students must secure a signed and dated approval form from the department prior to enrolling in the course. Students must provide the instructor with a copy of the signed and dated approval form at the first class meeting. The instructor will ensure that the examination is conducted,

scored, and the results reported prior to the end of the third week of classes. Students who pass the examination will receive a grade of "CR." Students who do not pass the examination have two options:

1. continue in the course as a regular student; or
2. withdraw from the course.

The University sets no maximum on the number of credits a student may receive by examination. However, not all courses are available for credit by examination. Information about courses for which credit by examination is not permitted is available in the Department Office, in the College Office, and the Office of Enrollment Services. A student may not receive credit by examination:

1. for an activity course;
2. for any course which is a prerequisite to one for which credit has already been received (see department for possibility of course waiver);
3. to remove a grade of "F," "U," "NC," or "WU" ;
4. to satisfy the courses required for a master's degree;
5. for any course in which the content or methodology is such that an examination does not appropriately measure competence.

Application forms to apply for credit by examination are available in the Office of Enrollment Services. Procedures and criteria for requesting unit credit by examination in a given course are available in the appropriate department office.

Substitution of Courses

Students who believe that a course they have taken (or intend to take) may be appropriate to their program and that this course could substitute for a specified course requirement may request that a substitution of courses be indicated on the departmental program planning guide, filed prior to graduation. Course substitutions are normally limited to cases where the required course cannot be offered or where the student has taken a similar but not identical course elsewhere.

Waiver of Course Requirement

In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). The student will be required to justify the request in a way acceptable to the department. A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree.

Graduate Credit Earned as a Senior

Graduate credit usually may not be earned in advance of the baccalaureate degree. However, based upon faculty recommendation, academic performance (in general a grade-point average of 3.0 (B) in the major), and promise of academic achievement in post-graduate study, seniors may be granted approval to earn a maximum of 12 units of course work in the 400 and 500 levels designated as acceptable for graduate credit and taken at this university towards their prospective graduate programs. Approval is subject to the following conditions: (a) the course work must be in addition to that required for the undergraduate major; and (b) the undergraduate student must have a "Petition to Earn Graduate Credit in the Senior Year" approved by the departmental graduate advisor and the department chair prior to enrollment.

In those areas in which graduate credit is for a credential only, the petition must be submitted to the appropriate department in the College of Education. Petitions submitted after completion of course(s) will not be approved.

Senior Enrollment in Graduate Courses for Undergraduate Credit

Under special conditions, seniors who have a 3.0 grade-point average or better in their major and who have adequate undergraduate preparation in the subject may enroll in up to 12 units in the 500-599 series to fulfill the elective requirements of the bachelor's degree. The course work may not be applied to the units of 500-600 level course work required by the department or college for the master's degree. The student must have a "Petition to Earn Credit Toward a Bachelor's Degree for a 500-Level Course Taken in the Senior Year" approved by the instructor and department chair before registration in the class(es) is permitted.

Grades and Grading Procedures

Definitions

The following definitions apply to grades assigned in all undergraduate and graduate courses.

- "A" – Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative.
- "B" – Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements.
- "C" – Performance of the student has been at an adequate level, meeting the basic requirements of the course.
- "D" – Performance of the student has been less than adequate, meeting only the minimum course requirements.
- "F" – Performance of the student has been such that minimal course requirements have not been met.

In addition to the standard grades, the University permits students to select evaluation on a "Credit" or "No Credit" basis. These grades are defined as follows:

"CR/NC" – A "CR" is equivalent to an "A", "B", or "C", and "NC" is equivalent to a "D", "F", or "WU". In two circumstances a grade of "CR" reflects work at the level of "B" or better, and a grade of "NC" reflects work at the level of "C", "D", "F", or "WU". Those two circumstances are 1) in certain professional preparation courses, providing that the students are notified of such a policy both in class materials and in the catalog course description; and 2) for graduate students in all courses at the 300, 400, 500, and 600 levels.

There are special regulations and procedures governing the "CR/NC" grading system described later in this policy statement.

The following definitions apply to administrative grading symbols assigned in all undergraduate and graduate courses.

"AU" – Audit. Enrollment as an auditor is subject to permission of the instructor; provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. It is the responsibility of the student to request from the instructor what is meant by regular class attendance. The symbol "AU" is posted to the student's permanent academic record unless the student fails to attend a sufficient number of class meetings. In these cases, the instructor will request that the student be administratively withdrawn from the course. Once enrolled as an auditor, a student may not change to credit status unless such a change

is requested prior to the last day to add classes. A student who is enrolled for credit may not change to audit after the last day to add classes.

"I" – Incomplete. The symbol "I" indicates that a portion of required course work (normally not more than one third) has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that; there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when that work has been completed and evaluated.

An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an "I" being converted to an "F," except as noted in item 3), below.

An extension of time may be granted for contingencies such as military service or documented, serious health or personal problems.

The conditions for removal of the incomplete shall be reduced to writing by the instructor on a "Requirements for Assigning an Incomplete Grade" form. This form shall include a statement of:

1. all work completed in the course, the grades assigned for that work, and the percentages of the final grade accounted for by each item;
2. the work not completed and the percentage that each uncompleted assignment will count toward the final grade; and
3. the final grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the "I" was assigned, without respect to continuous enrollment of the student during this period.

A copy of the agreement is to be given to the student, a copy is to be retained in the department office, and a copy is to be filed with the Office of Enrollment Services at the time final grades are submitted. Normally, the student should sign the "Incomplete form." If the student is eligible for an Incomplete, a faculty member may assign an "I" even when the student cannot be present to sign the form. In such a case, the instructor will forward to the student a copy of the form via the department office. When the work agreed upon has been completed and evaluated, a final grade will be assigned by an instructor. If an incomplete is assigned without an incomplete contract attached, or with a contract which is not filled in acceptably, the symbol of "RD" will be assigned to the student. The "Requirements for Assigning an Incomplete Grade" form will be considered unacceptable if:

- A. more than one third of the work remains to be completed, and no justification has been provided;
- B. the work required to complete the course has not been specified;
- C. the faculty member failed to sign the form; or
- D. the percentage fields have not been filled in.

Notice of the missing form, or a copy of the unacceptable form will be sent to the department chair with the request that the chair work with the faculty member to provide the information necessary to assign the grade of incomplete.

"RD" – Report Delayed. This symbol is used exclusively by the Registrar to permit processing of all final grades when the grades for an entire class section have not been reported by the instructor. The symbol does not imply any academic evaluation.

If an instructor fails to report a grade for an individual student, the Registrar will assume that an "I" could not be assigned and so will enter a symbol "WU," discussed below.

"RP" – Report in Progress. The "RP" symbol is used in connection with courses requiring multiple enrollment, i.e., that extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Re-enrollment is permitted prior to assignment of a final grade provided the cumulative units attempted do not exceed the total number applicable to the student's educational objective. Work is to be completed within one calendar year immediately following the end of the term during which it was assigned except for graduate degree theses. If the "RP" symbol is not replaced by a terminal grade within the specified time period or prior to the student's declared graduation date, it will be changed to a "W". An "RP" symbol cannot be replaced by an "I" (Incomplete) symbol; an "I" is not a terminal grade.

"W" – The symbol "W" indicates that the student was permitted to drop a course after the second week of instruction with the approval of the instructor and appropriate campus official. It carries no connotation of quality of student performance and is not used in calculating grade point average.

Students are held responsible for completion of every course in which they register OR FOR WITHDRAWING DURING THE FIRST TWO WEEKS OF CLASSES FROM COURSES WHICH THEY DO NOT INTEND TO COMPLETE. Application for withdrawal from the University or from a class must be officially filed by the student at the Office of enrollment Services whether the student has ever attended the class or not; otherwise, the student will receive a grade of "WU" (unauthorized withdrawal) in the course. Application for withdrawal is made at the Office of Enrollment Services.

"WU" – Unauthorized Withdrawal. The symbol "WU" indicates that an enrolled student did not complete course requirements but did not withdraw from the course. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible (letter grades "A"- "F" or an Incomplete). For purposes of grade point average this symbol is equivalent to an "F." A student who receives a "WU" cannot complete additional work and have the "WU" changed to a letter grade. In courses which are graded Credit/No Credit or in cases where the student has elected Credit/No Credit evaluation, use of the symbol "WU" is inappropriate and "NC" will be used instead. Students who receive "WU"s in their first semester of enrollment at CSULB will have those "WU"s automatically changed to "W"s. In such cases the student will be notified that this policy applies for that first semester at CSULB only.

Regulations governing the refund of student fees in the California State University system are prescribed by the CSU Board of Trustees; see *California Code of Regulations*, Title 5, Education, Section 41802.

1. Withdrawal during the first two weeks of instruction:

Students may withdraw during this period and the course will not appear on their permanent records.

2. Withdrawal after the second week of instruction and prior to the final three weeks of instruction:

Withdrawal during this period is permissible only for serious and compelling reasons. Approval signatures of the instructor and department chairperson are required. The request and approvals shall state the reasons for the withdrawal. Students should be aware that the definition of "serious and compelling reasons" as applied by faculty and administrators may become narrower as the semester progresses. Copies of such approvals are kept on file in the Office of Enrollment Services.

3. Withdrawal during the final three weeks of instruction:

Withdrawal during the final three weeks of instruction are not permitted except in cases such as accident or serious illness where the circumstances causing the withdrawal are clearly beyond the student's control and the assignment of an Incomplete is not practical. Ordinarily, withdrawal in this category will involve total withdrawal from the campus except that a Credit/No Credit grade or an Incomplete may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Request for permission to withdraw under these circumstances must be made in writing on forms available in the Office of Enrollment Services. The requests and approvals shall state the reasons for the withdrawal. These requests must be approved by the instructor, department chairperson and dean of the school. Copies of such approvals are kept on file in the Office of Enrollment Services.

4. Medical Withdrawal:

Complete Medical Withdrawal:

The University may allow a student to withdraw without academic penalty from all classes if the following criteria are met:

- A. A completed Medical Withdrawal Form, including any required documentation, is submitted to Enrollment Services before the end of the semester, and
- B. The student presents evidence to demonstrate that a severe medical or debilitating psychological condition prevented the student from attending and/or doing the required work of the courses to the extent that it was impossible to complete the courses.

The Provost (or designee) will review the evidence presented and, in consultation with appropriate medical or psychological professionals as needed, determine whether the request for a medical withdrawal should be granted.

Repeat Complete Medical Withdrawal:

If the student has been granted a complete medical withdrawal in the immediately preceding term, then additional medical withdrawal requests must consider the question of whether or not the student can complete appropriate educational objectives, and must be reviewed on a case-by-case basis. After a repeat medical withdrawal is granted, the student may be required to obtain a clearance from an appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

Partial Medical Withdrawal:

Students seeking withdrawal from part of their enrollment for any reason, including medical or psychological reasons, are subject to the normal withdrawal policy and process.

5. Instructor Withdrawal:

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify with Enrollment Services whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

An instructor may also withdraw a student who has enrolled in a course requiring "permission of the instructor" or completion of prerequisites if the student has not properly secured this permission or satisfactorily completed the prerequisites before enrolling.

Cancellation of Registration or Withdrawal From Institution

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of Enrollment Services, Brotnan Hall 123, 562-985-5471.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

Course Grading Option Policy

The faculty determine in advance which courses may be taken for letter grade only (A-F), "CR/NC" only, or either. When a course is designated for "CR/NC" grading only or for letter grade only, mention of this fact shall be incorporated in the catalog course description. Any undergraduate course may be designated for or closed to the option of "CR/NC" grading whether or not the course be a requirement for an undergraduate degree major, minor, certificate, credential, or concentration.

No course in which a grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of "CR" may be permitted for master's theses or projects (to a maximum of six units) when the individual department has specifically designated "CR/NC" grading for the thesis/project course in the department, and for fieldwork, practicum, and/or internship courses (also to a maximum of six units). The option of "CR/NC" grading for graduate students in undergraduate courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken by graduate students under this policy.

An undergraduate student may elect "CR/NC" grading in no more than a total of 24 units, of which no more than 12 may be upper division units. No more than eight units per semester may be taken for "CR/NC" grades. Exemptions from these limitations are: (1) courses graded "CR/NC" taken at another institution, (2) course credit earned by examination, and (3) courses in which "CR/NC" grading is the only form of grading.

The decision to elect the "CR/NC" grading option for a course must be made by the last day to add classes. To elect "CR/NC" grading, the student must obtain the signature of the student's major advisor and a stamp from the department/program in which the course is offered on the appropriate form. The student must then file the signed form with the Office of Enrollment Services. The decision to register for a course on a "CR/NC" basis remains in effect unless a change is requested prior to or on the last day to add classes.

The only exception to this rule is for students who declare new majors after the final day to add classes. If the newly declared major requires letter grading for the course in question and the student has elected "CR/NC" grading, then the student may request that letter grading be used. Such a change must be requested no later than the last day of instruction. The grading option may not be changed after the end of the semester.

Final Examinations

It is the policy in most courses to have several examinations during the semester and a final examination. Final examinations are required in all courses for all students, except in certain activity courses or when the Dean of the College authorizes an exception. The schedule of final examinations is given in the *Schedule of Classes*. Permission to take a final examination at a time other than that regularly scheduled must be secured from the instructor at least one week in advance of any change. The instructor may not change the scheduled time for the final examination without authorization from the Dean of the College.

Final Grades

Grades will be available via "MyCSULB" approximately three weeks after the end of each semester or session.

Student Grade Record

A record is kept and grade or administrative symbol notations are indicated for all enrollments beyond the second week of instruction. The Registrar will eradicate originally awarded grades from official transcripts but note that there was a grade adjustment made when the following grade changes are made:

1. Grade change due to a clerical error on the part of the instructor of record;
2. Grade change due to a favorable grade appeal;
3. Grade change due to a resolution of RD (report delayed) grade.

The Registrar will not eradicate original grades from student transcripts when the following situations occur:

1. Resolution (make-up) of an incomplete;
2. Repetition of a course.

The Registrar will indicate some grade or administrative symbol for any student enrolled in a course beyond the second week.

Assignment and Change of Grades

General

1. The faculty member of record in a course section (i.e., the faculty member officially assigned to teach that section) has the exclusive responsibility and authority to assign grades to all students in that section, subject only to the following exceptions:
 - A. Should the faculty member of record be unable or unwilling to complete this task because of death, disability, separation of employment, or prolonged absence from campus during a regular academic term, the department chair or program director, following notification of the faculty member of record where appropriate and with the approval of the college dean, may appoint another faculty member with the most appropriate available disciplinary qualifications to complete the assignment of grades; or
 - B. In the event of a successful grade appeal (see section on Change of Grade, below.)
2. University policy requires that final grades shall be based on at least three, and preferably four or more, demonstrations of competence by the student.
3. In no case shall the grade on the final examination count for more than one-third of the course grade.
4. At the start of the course, instructors shall provide to their students in writing the grading policies and practices to be employed in the class and the rules that will apply to withdrawals.
5. Instructors shall keep a record of students' scores on each of the demonstrations of competence on which the final grade is based.
6. Instructors are expected to provide students with an opportunity for demonstration of competence, relevant to the determination of their final grade in the course, as early as is reasonable and no later than the mid-point of the term.
7. Students have a right to be informed promptly of their scores and to review each of their demonstrations of competence with their instructors.
8. If materials submitted for a demonstration of competence are not returned, these materials will be retained for one semester by the instructor. Should the instructor be absent during that term, the materials shall be retained in the department office. In the absence of the original instructor, a qualified instructor may be appointed by the chair to review the demonstration of competence with the student.
9. Grades reported to the Office of Enrollment Services are considered to be official and final grades.

Conditions and Procedures for Change of Grade:

- A. Changes to grades or grading symbols can be made only on the basis of:
 - 1) an error,
 - 2) a successful grade appeal. (See the separate policy statement on Grade Appeals.), or
 - 3) resolution of an Incomplete ("I"). A grade or grading symbol shall not be changed on the basis of additional work submitted, except where an "I" was recorded.
- B. Original grades are replaced only when (1) the change is due to an error, (2) the grade change is the result of a grade appeal, or (3) the Registrar receives a late report of grades

for which the symbol "RD" was substituted pending receipt. Original grades are not replaced when the change of grade is the result of (1) the resolution of an Incomplete or (2) the repetition of a course. Grades or administrative grading symbols must be recorded for all enrollments beyond the census date.

- C. Except for changes of grades resulting from grade appeals, all changes of grades must be filed within one year from the date of the filing of the first grade, without respect to continuous enrollment of the student. Only as the result of a grade appeal will a grade be changed after the award of a degree or credential or certificate.
- D. All requests for change of a final course grade shall carry the recommendation of the instructor (except as provided for in the Grade Appeals Procedures), the department chair, and the approval of the dean of the college.

Grade Appeals

Students have the right to formally appeal the final grade, but only the final grade, in a course. Appeals are limited to situations in which the student believes the grade was "prejudicially," "capriciously," or "arbitrarily" assigned. The appeal must be initiated within the first regular semester after assignment of the grade. It must first be directed to the instructor of the course, orally or in writing. If further action is necessary, the student should appeal in writing to the department chair. If further action is necessary, the department chair will forward the appeal in writing to the Department Grade Appeals Committee. If the issue continues to remain unresolved, the written appeal can be directed to the Grade Appeals Committee of the college in which the course was taken. Information about college grade appeals committees and the University policy (P.S. 99-16) can be obtained from the office of the college dean.

Academic Appeals

Students may petition for exception to academic policy. Typically, exception requests involve issues such as record errors, General Education substitutions or waivers, exceptions to the repeat/delete policy, and academic renewal.

Students can obtain the "Petition for Exception to Academic Policy" forms from the Office of Enrollment Services, Brotman Hall Room 101, or the Academic Advising Center, Academic Services, room 125. This written appeal will be directed to the Academic Appeals Committee. Petitions must be filed with Enrollment Services, BH-101.

Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the student's department chair (undergraduate) or graduate advisor.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may submit, in advance, a new educational leave request form for an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

CALIFORNIA STATE UNIVERSITY, LONG BEACH GRADUATION RATES

For CSULB the following statistics apply:

1995	46.6%	4.0%	50.6%

*Assuming that all students enrolled in Fall 2002 will eventually graduate.

Students returning from an approved educational leave are not required to submit an application for readmission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must reapply for admission and pay the reapplication fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student's program from the department graduate advisor, department chair, and the College Dean or designee.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree and remediation requirements. (See Baccalaureate and Graduate sections of this *Catalog*).

For the period of an educational leave the student's rights under the "Election of Regulations" rule are preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

Change of Major or Other Objective

Undergraduate students declaring a major for the first time or changing from one degree program or degree option pro-

gram to another must complete and submit an approved Change of Major/Declaration form. These are available in most department offices and in the Office of Enrollment Services.

Students who are candidates for a certificate or credential program must also file a Request to Graduate. (Please see Election of Regulations in this section of the *Catalog*.)

The evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes. Graduation checks needing to be redone may carry a special fee.

Graduation Check

All coursework must have a course grade recorded prior to the granting of a degree, credential, or certificate.

Seniors and graduate students who expect to receive degrees at the end of any semester, winter or summer session must complete the Request to Graduate form and/or Certificate form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 1; and for Fall or Winter candidates, by the preceding March 1, at the Office of Enrollment Services. The names of Candidates who file within these deadlines will appear in the Commencement Program published each Spring. Credential students should apply in the Credential Processing Office, located in the Graduate School of Education, or the Office of Enrollment Services by February 1 for December completion and by October 1 for Spring and Summer sessions.

Graduation with Honors

The following grade-point average criteria are used to identify undergraduate students eligible for the honors specified:

1. 3.95 to 4.00 graduated Summa Cum Laude
2. 3.80 through 3.94 graduated Magna Cum Laude
3. 3.50 through 3.79 graduated Cum Laude

An undergraduate student may be considered eligible for honors at graduation provided that a minimum of 45 units are earned at California State University, Long Beach. For the first baccalaureate degree, the GPA will be determined from units earned at CSULB plus transferred units. For the second baccalaureate degree, the GPA will be determined only by courses taken after the first degree was awarded that are also required by the second degree.

With the approval of the Dean of the College, departments may elect to award departmental honors to their graduates based on GPA and/or other criteria determined by the department. The number of honors awarded by a department will be limited to three students or five percent of graduates, whichever is larger.

University honors will be noted on the diploma and transcript. Departmental honors will be noted on the transcript only.

Honor Lists

Undergraduate students exhibiting outstanding scholastic achievement are honored by being included on the President's or Dean's List. A certificate will be issued for each semester in which the student receives this honor.

President's List

Students will be placed on the President's List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.75 - 4.0. Students earning fewer than 12 graded course units per semester will be placed on the President's List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.75 - 4.0.

Deans' List

Students will be placed on the Deans' List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.5 - 3.74. Students earning fewer than 12 graded course units per semester will be placed on the Deans' List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.5 - 3.74.

Graduation Rates

Under the federal Student Right-To-Know law, institutions of higher education are required to disclose information to prospective and current students about institutional graduation rates. The main purpose of the contextual information is to communicate to students more about what we know has guided time and persistence to degree. Information regarding student retention and graduation rates at California State University, Long Beach and, if available, the number and percentage of students completing the program in which the student

is enrolled or has expressed interest may be obtained from Van Novack, Institutional Research, BH 133, 562-985-5462.

Under the state Master Plan for Higher Education, the CSU draws its first-time freshmen from the top one-third of California's high school graduates. Since 1960, the CSU has awarded more than 1.2 million bachelor's degrees in hundreds of program areas.

The number of course credit units required to complete major programs varies. Many programs in the humanities, for example, require the minimum 120 semester, or 180 quarter units for graduation, while it often takes 140 semester, or 210 quarter units to complete engineering programs.

Most undergraduate programs can be completed in four years. But earning a bachelor's degree in four years takes much more than a statement of intent. Because undergraduate degree programs require 120 to 140 semester units, students who wish to finish college in four years must attend school every semester and earn an average of 15 to 17.5 units per term. Rules of thumb translate these unit loads into 45 to 52.5 hours per week in class and study. In addition, four-year students must plan with academic advisers a schedule of courses that will enable them to progress through major sequences, while interweaving appropriate breadth courses in general education. The rewards in making college attendance one's highest priority are at least two-fold: (1) lower total out-of-pocket college costs and (2) earlier entry into career tracks and the postbaccalaureate educational pipeline.

From the early '70s to the early '80s, the portion of CSU students balancing work and education increased substantially. The number of CSU students taking fewer than 15 units per term increased, and over one-fourth of CSU graduates have "stopped out" for at least one-term before they earn their degrees. More than any other senior institution in California, the CSU has maintained access for students who need to juggle academic life with work and family obligations. The CSU furthermore continues to seek improved ways to provide high-quality instructional opportunities that better fit the time-to-degree that CSU's non-traditional students require.

Across the CSU system, the average time-to-degree for first-time freshmen who fulfilled the University's eligibility requirements and enrolled full-time in their term of entry (that is, according to the federal definition, enrolled in at least 12 units) has been on a plateau of about 5.2 years for several years.

For regular, full-time first-time freshmen who eventually will receive a CSU baccalaureate, most will have it conferred within 6 years after matriculating at a CSU campus. For example, by Fall 1990, or six years after entering the CSU, 45.5 percent of the Fall 1984 entering freshman class had earned the bachelor's degree, with all but 3.6 percent receiving the degree at the CSU campus of first attendance. Prior athlete graduation rate information may be obtained by contacting the University Athletic Director's Office.

Two years later in Fall 1992, the CSU graduation rate climbed to 55.8 percent. Just about nine of ten graduates earned their degree at the CSU campus where they began their university career. In Fall 1992, 3.8 percent of the Fall 1984 entering freshman class were still enrolled as undergraduates. Historical trends indicated that most of these non-traditional students eventually will earn bachelor's degrees at CSU campuses. The CSU graduation rate, then, is expected eventually to reach 59.6 percent. A graduation rate of nearly 60 percent is on par with the best of peer state universities and colleges.

The tables above show persistence and graduation rates for first-time freshmen entering CSULB at different times. Table 1 indicates that the one-year continuation rate of full-time, regularly ad-

mitted first-time freshmen who matriculated at CSULB in fall between 2000 and 2002 ranged between 79.5 percent to 86.8 percent, or equal to 81 percent on average.

Table 2 shows that more than two out of five full-time, regularly admitted first-time freshmen (44.2%) who entered CSULB in 1997 obtained their baccalaureate degrees within six years and 56.7 percent of these students are expected eventually to graduate.

Table 3 shows that 46.6 percent of freshmen entering CSULB in 1995 completed their undergraduate studies within eight years and that a small percentage of students (4.0%) were still working toward completion of their degrees in Fall 2003. About 50.6 percent of these students are expected eventually to graduate.

Scholastic Probation and Disqualification

Academic Probation

Undergraduate students are placed on academic probation if at any time their cumulative grade-point average in all college work attempted or their cumulative GPA at California State University, Long Beach falls below 2.0 (C). Graduate students are placed on academic probation when their cumulative grade-point average or grade-point average on all courses applicable to the degree falls below 3.0. Other post-baccalaureate students are placed on academic probation when their cumulative grade-point average falls below 2.5.

Undergraduate students will be removed from academic probation when their cumulative grade-point average in all college work attempted and their cumulative grade-point average at California State University, Long Beach is 2.0 (C) or higher. Students who remain on academic probation for more than two consecutive semesters are subject to academic disqualification. Students actively participating in an intervention program may request an extension of time to achieve a 2.0 GPA. Such extension will be granted if, and only if, the student is making progress toward the degree.

Graduate students will be removed from academic probation when their overall grade-point average and grade-point average on all courses applicable to the degree are 3.0 (B) or higher.

Other post-baccalaureate students will be removed from academic probation when their overall grade-point average is 2.5 or higher.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn grades of sufficient quality to remove themselves from probationary status. Disqualification will bar such students from any further enrollment at the campus.

Administrative — Academic Probation

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive semesters or in any three semesters;
2. Repeated failure to progress toward the stated degree objective or other program objective (when such failure appears to be due to circumstances within the control of the student);
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (example: failure to take placement tests, failure to complete a required practicum).

Academic Disqualification

Undergraduate students on academic probation are subject to academic disqualification:

1. As freshmen (fewer than 30 semester-hours of college work completed), if their grade-point average falls below 1.5 on all units attempted or on all units attempted at California State University, Long Beach;
2. As sophomores (fewer than 59 semester-hours of college work completed), if their grade-point average falls below 1.7 on all units attempted or on all units attempted at California State University, Long Beach;
3. As juniors (60 to 89 semester-hours of college work completed), if their grade-point average falls below 1.85 on all units attempted or on all units attempted at California State University, Long Beach;
4. As seniors (90 or more semester-hours of college work completed), if their grade-point average falls below 1.95 on all units attempted or on all units attempted at California State University, Long Beach; and
5. At any time, if the student remains on academic probation for more than 2 consecutive semesters (i.e., the cumulative GPA remains below 2.0 at the end of 2 consecutive semesters).

In addition to the above disqualification standards applicable to students on probation, individuals not on probation may be disqualified when the following circumstances exist:

1. At the end of any semester, if the student has a cumulative grade-point average below 1.0; and
2. The cumulative grade-point average is so low that in view of the student's overall educational record it seems unlikely that the deficiency will be removed within a reasonable period.

Disqualification From Impacted Programs

Students who fail to maintain an overall GPA of 2.0 will be immediately removed from an impacted major and placed in the undeclared category (Major Code 0000) or in a general category appropriate to the discipline. To be reinstated as majors in the impacted program, they must reapply at the time when change-of-major requests are normally accepted.

Administrative — Academic Disqualification

Students who have been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The students become subject to academic probation while on administrative-academic probation;
3. The students become subject to administrative-academic probation for the same or similar reason for which they have been placed on administrative-academic probation previously, although not currently in such status.

For students who subsequently become eligible for Reinstatement (see below), disqualification under the provisions of the preceding paragraphs constitutes a break in "continuous enrollment" within a degree major program; therefore, students disqualified may not elect regulations in effect prior to disqualification.

Reinstatement

In order to be considered for reinstatement to the University, a disqualified student must demonstrate progress toward the degree. This demonstration can be achieved by:

1. Completing courses through University College and Extension Services at CSULB; or
2. Completing classes at other regionally accredited academic institutions.

All classes considered for reinstatement in the student's petition must be applicable for degree credit and toward the student's General Education or major requirements.

Progress toward meeting the GPA requirement can be demonstrated by reducing the deficiency in grade-point average by one-half at CSULB or by making equivalent grades in courses taken at other regionally accredited academic institutions. Grades earned at other regionally accredited academic institutions will not reduce the deficiency in the CSULB grade-point deficiency. Grades earned elsewhere are only indicators of academic ability.

After reducing the deficiency in the CSULB grade-point average and/or demonstrating academic ability at other regionally accredited academic institutions, the student may petition the Academic Appeals Committee for reinstatement. The petition must present evidence that the student is likely to achieve a satisfactory grade-point average and to complete requirements for the degree. The Academic Appeals Committee will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (fall or spring) semester after their dismissal. Disqualification from the University constitutes a break in residency and results in the loss of "catalog rights"; reinstatement does not automatically restore those rights under the election of regulations.

Petition forms are available at the Office of Enrollment Services and must be filed by December 1 for the spring semester or August 1 for the fall semester. Petitions received after that date will be returned to the student to be submitted for consideration for a future semester.

Academic Renewal

A student may petition to have all grades and units received during one or two semesters of undergraduate work disregarded in the computation of GPA and academic standing. The work so disregarded may have been taken at any collegiate-level institution but no work taken during the disregarded terms, even if satisfactory, may apply toward baccalaureate requirements. All grades and units attempted will remain on record. At least 5 calendar years must have elapsed since the work in question was completed and the student must have subsequently completed 15 semester units with a 3.0 GPA (or 30 semester units with a 2.5 or 45 semester units with a 2.0) at this University before filing a request for disregarding the course work.

Petitions for disregarding course work must be submitted to the Office of Enrollment Services. Final determination will be made by the Vice President for Academic Affairs in consultation with the University Academic Appeals Committee. The petitioning student must certify that the work to be disregarded was not reflective of his or her present level of academic performance. This certification must include a statement explaining the extenuating circumstances causing the substandard performance

during the term in question. The student must also provide evidence that it would be necessary to complete additional units and enroll for one or more additional semesters in order to qualify for the baccalaureate degree if the request were not approved.

Student Grievance

The California State University, Long Beach Student Grievance Procedure is designed to give the campus community a grievance structure in those instances where no other policy or procedure exists. (This policy does not cover grade appeals, prohibited discrimination, etc. where there are existing policies).

The Office of the Vice President for Student Services has staff to help students understand the details of the Grievance Procedure and may be called on for assistance.

What are Student Grievance Procedures?

Student Grievance Procedures at California State University, Long Beach are intended to provide a formal, standardized means for students to seek redress concerning actions of the faculty, administrators, or staff of the University. Further, the purpose is to establish standardized procedures and safeguards which shall be followed by the University in the adjudication of grievances.

What is a Grievance?

A grievance is a formal complaint by a student arising out of an alleged action of the faculty, administrators, or staff of the University. The person or entity against whom the complaint is made is referred to in this document as the "respondent." Such action is alleged by the student to be an unauthorized or unjustified action which adversely affects the status, rights, or privileges of the student.

Students are reminded that the Grievance Procedure is not designed to replace the open communication and understanding that are vital to the academic process. The student may withdraw the grievance at any stage and the process will immediately terminate. During all stages of the grievance, the burden of proof will be on the student.

What is a Statement of Grievance?

The statement of grievance is a clear, simple statement according to the student's understanding of what happened. It should provide enough information to give the committee a complete understanding of the situation and the nature of the remedy sought from the student's perspective. The following steps are designed to assist in the preparation of a Grievance Statement.

How does one Grieve?

Informal Procedure

Step 1:

Informal discussion between the concerned parties is always the place to start. If attempts to resolve the problem at this level fail, or if the person alleged to have aggrieved the student cannot be reached by reasonable effort, or if the nature of the grievance is such that an informal communication with the respondent is not feasible, the student must meet informally with the employee's department Chair, or the program's Director.

Note: In the event that the respondent is at the level of a Dean or higher, the complaint should be directed to the responsible person at the next administrative level. For non-academic matters, throughout these pro-

cedures, the term "Dean" refers to the responsible individual of comparable level, e.g., typically an Associate Vice President, or Vice President.

Step 2:

If after ten instructional days beyond the informal meeting a satisfactory solution is not found, the department Chair or program Director will meet with the student.

Within 15 instructional days of the receipt by the Chair or program Director of the student's complaint, the Chair or program Director will investigate the allegations and reach a conclusion. The Chair or program Director shall promptly communicate the decision to the student and the respondent. If either the student or the respondent disagrees with the chair's or program director's findings, recommendations, or decision, that person may appeal under step three.

Step 3:

If the student or respondent is not satisfied with the results of step two, or if the grievance is against the Chair of a department or Director of a program, the student may consult with the appropriate college Dean (academic) or responsible person at the next administrative level (non-academic).

Formal Procedure

Step 1:

In the event the informal process does not bring satisfactory resolution to the complaining student or the respondent, then either party may initiate the formal procedures by writing a letter of complaint and submitting it to the appropriate department Chair or program Director. The Chair or Director then submits a copy of the letter of complaint to the dean¹ and the responding party. The responding party will reply in writing, normally within 10 instructional days, to the Chair or Director. The Chair or Director submits a copy of the reply to the other party and the Dean.

Step 2:

The Dean may then: (1) Normally within 10 instructional days after reviewing the letter of complaint and the response, the Dean may seek additional information from the parties or witnesses, and (2) review the matter and render a decision or (3) form a hearing committee which will make a recommendation to the Dean as follows:

- A. The hearing committee in academic matters will consist of two faculty members, two student members and one staff member. The two students and the two faculty shall both be within the college, with one student and one faculty within the department and one student and one faculty outside the department of the respondent. The staff member shall be from within the college.
- B. The hearing shall normally be held within 10 instructional days after the hearing committee is formed unless the letter of complaint is withdrawn or there occurs an earlier settlement of the matter. Internal hearing procedures regarding the conduct of the hearing shall be developed by each college and be made available to both parties. Each party may have one representative at the hearing who may be anyone other than legal counsel.
- C. In matters outside an academic department in which no other policy or procedures apply, the responsible person one level above the employee's supervisor shall have the option of establishing an all-University hearing committee consisting of three other employees, two of whom must be from outside the respondent's program, and two students selected in consultation with the A.S.I. President.

- D. The charge of the committee will be to investigate, and recommend a proposed resolution to the Dean. After receiving the recommendation, the Dean shall notify both parties of the decision. In the absence of an appeal, the decision of the Dean is final.

Step 3:

If either party wishes to appeal the decision of the Dean, the appeal, in writing, may be made to the Provost (academic) or appropriate Vice President (non-academic). The appeal must be made within 10 instructional days of the decision (Step 2). The Provost or Vice President will notify both parties of the appeal, review all written documentation and may investigate further or refer back to the Dean for further findings. The Provost or Vice President will then notify both parties of her/his decision.

Cheating and Plagiarism

Definition of Plagiarism

Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one's own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived at through independent reasoning or logic or where the thought or idea is common knowledge.

Acknowledgment of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, either in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions which rightfully belong to another; in written work, failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof; or close and lengthy paraphrasing of another's writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor.

Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source; or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

Definition of Cheating

Cheating is defined as the act of obtaining or attempting to obtain or aiding another to obtain academic credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of cheating during an examination include, but are not limited to the following: copying, either in part or in whole, from another's test or examination; discussion of answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an examination without the permission of the instructor; using or displaying notes, "cheat sheets," or other information or devices inappropriate to the prescribed test conditions, as when the test of competence includes a test of unassisted recall of information, skill, or procedure; or allowing someone other than the officially

enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures.

It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid the use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

Faculty Responsibilities

In cases where a student is suspected of cheating or plagiarism, the faculty member should arrange for an informal office conference with the student as soon as possible. The purpose of the informal conference is to bring the persons involved together to discuss the issues informally and to discuss courses of action. At the conference the student will be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during or as a part of a final examination, see below for administration of an Incomplete grade.

In cases where there is more than one individual suspected of cheating or plagiarism, the faculty member may decide to call the students to confer jointly as a group, or as individuals, or both. If the faculty member should decide to confer with the students as a group, the students will have the option to also confer with the instructor separately as individuals.

The faculty member will inform the student(s) that both students and faculty have the right to submit a request to the Academic Integrity Committee (discussed below) for a written opinion on whether the accusation is supported by the evidence. All notes and discussions between the student and the faculty member are confidential, except as may be relevant to the Academic Integrity Committee or in subsequent campus disciplinary proceedings. Neither the faculty member nor the student should discuss a specific charge of cheating or plagiarism or any violations with reference to individuals in the classroom before other members of the class.

When the student cannot be contacted and therefore the informal conference cannot be held, as is sometimes the case after final examinations, a grade of "I" (Incomplete) may be assigned, but only if the instructor wishes an additional test of competence. The instructor will have the agreement form for assigning an "Incomplete" sent to the last known address of the student. The agreement form will state the following in the format indicated:

"Under the provisions of the CSULB Policy Statement on Cheating and Plagiarism, an additional test of competency related to the [syllabus name of suspect demonstration, e.g., Final Examination] is requested. [Explain what additional test of competency.] You may decline to do so. Please contact the instructor, the department office, or the Office of Judicial Affairs for information regarding the University policy on cheating and plagiarism."

The instructor will indicate on the agreement form the grade which will be assigned, normally 120 calendar days following mailing of the Incomplete Agreement, if the student does not respond or, responding, the student does not agree to an additional test of competence.

Charges of cheating or plagiarism cannot be brought against a student more than 120 calendar days after discovery that the work in question may have been plagiarized or that cheating may have taken place.

Notes and evidence will be kept by the department chair or program director for a minimum of five years after the case is settled.

Academic Integrity Committee

The Chair of the Academic Senate and the Vice President for Academic Affairs jointly appoint an Academic Integrity Committee for the University. This Committee consists of one member from the student body, chosen by the Associated Students Government for a one-year term of office; three members of the full-time, tenured or tenure-track faculty, and one member of the Office of Academic Affairs, who will be Chair, voting only in case of ties.

The primary charge of the Committee is to receive the requests of students accused of cheating or plagiarism or the requests of faculty accusing specified student(s) of cheating or plagiarism. Following its review of the evidence, the Committee will report its opinion to the student(s) and to the faculty member involved on whether the accusation is supported by the evidence. This opinion may not be appealed. However, when new evidence appears to so warrant, a faculty member or student may ask, in writing, the Vice President for Academic Affairs or the Chair of the Academic Senate to request the Committee to reconsider a case.

The Academic Integrity Committee has readily available the rules and procedures governing its operations.

In all cases, a Report of the Committee is advisory to the student, with whom rests the presumption of innocence, and the faculty member, to whom the decision on the evidence and academic action is reserved.

A faculty member or student who requests a review of the evidence in a case of alleged cheating or plagiarism must make such a request to the Academic Integrity Committee in writing no later than 14 calendar days following the date of first notification of the student by the faculty member of the allegation. Except under extenuating circumstances, the student and faculty member will have no more than 14 additional calendar days to provide evidence to the Committee.

To preserve the rights of privacy, the Committee meetings are closed. The Committee may request additional information as may be appropriate to the development of its Report. The Committee is to provide a final Report within 21 calendar days of the submission of a request to it. Should additional time be required, the reasons are communicated to the Vice President for Academic Affairs and the Chair of the Academic Senate as well as the student(s) and faculty members involved.

Academic Actions

One or more of the following academic actions are available to the faculty member who finds a student has been cheating or plagiarizing. These options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. These actions may be taken without a request for, or before the receipt of, a Report from the Academic Integrity Committee.

1. Review but no action;
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences;
3. A requirement that the work be repeated;
4. Assignment of a score of zero (0) for the specific demonstration of competence, resulting in the proportional reduction of final course grade;
5. Assignment of a failing final grade;
6. Referral to the Office of Judicial Affairs for possible probation, suspension, or expulsion.

A student may appeal a final course grade, the computation of which included an examination or other test of competence in which a score of zero was assigned for cheating or plagiarism, but only on the grounds permitted in the University Policy Statement on Grade Appeals.

An appeal of the final grade may include as written testimony the Report of the Academic Integrity Committee.

Policy for a Smoke-Free Campus Environment

California State University, Long Beach has a responsibility to provide employees and students with a safe working and learning environment. Given the fact that smoking is the most significant cause of premature and preventable death in the United States today, California State University, Long Beach is declared to be a "smoke-free" campus in accordance with the Governor's Executive Order D-62-87, Government Code Section 19262.

This "smoke-free" policy will apply to all state-owned and University-operated facilities regardless of location. This policy does not include public performances in which smoking is an integral and necessary part of those performances. Smoking is prohibited in all indoor areas, including but not limited to: administrative offices, private offices, laboratories, classrooms, conference rooms, auditoria, lounges, theatres, lobbies, hallways, stairwells, restrooms, libraries, clinics, waiting rooms, reception areas, university vehicles, machine shops, elevators, and food service areas. Where outdoor seating is provided adjacent to indoor food service facilities, non-smoking sections must be designated and posted.

For those employees and students who wish to stop smoking, California State University, Long Beach supports and assists their efforts by providing referrals to cessation programs. The Employee Assistance Program at the Student Health Center may be contacted for information and assistance. The Employee Assistance Coordinator may be reached by calling (562) 985-4771.

Student Discipline

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

41301. Expulsion, Suspension and Probation of Students

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus-related:

- (a) Cheating or plagiarism in connection with an academic program at a campus;

- (b) Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus;
- (c) Misrepresentation of oneself or of an organization to be an agent of a campus;
- (d) Obstruction or disruption, on or off university property, of the campus educational process, administrative process, or other campus function;
- (e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse;
- (f) Theft of, or non-accidental damage to, campus property; or property in the possession of, or owned by, a member of the campus community;
- (g) Unauthorized entry into, unauthorized use of, or misuse of campus property;
- (h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis;
- (i) Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president;
- (j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function;
- (k) Abusive behavior directed toward, or hazing of, a member of the campus community;
- (l) Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section;
- (m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section;
- (n) Unauthorized recording, dissemination, and publication of academic presentations for commercial purposes. This prohibition applies to a recording made in any medium, including, but not limited to, handwritten or typewritten class notes.
 - (1) The term "academic presentation" means any lecture, speech, performance, exhibition, or other form of academic or aesthetic presentation, made by an instructor of record as part of an authorized course of instruction that is not fixed in a tangible medium of expression.
 - (2) The term "commercial purpose" means any purpose that has financial or economic gain as an objective.
 - (3) The term "Instructor of record" means any teacher or staff member employed to teach courses and authorize credit for the successful completion of courses.
- (o) For purposes of this Article, the following terms are defined:
 - (1) The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students,

and other persons while such other persons are on campus property or at a campus function;

- (2) The term "campus property" includes: (A) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and (B) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.
 - (3) The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, sling shot, billy, sand-club, sandbag, metal knuckles, any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club;
 - (4) The term "behavior" includes conduct and expression;
 - (5) The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
- (p) This Section is not adopted pursuant to Education Code Section 89031;
- (q) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date will be subject to the provisions of this Article as in effect immediately prior to such effective date.

41302. Disposition of Fees; Campus Emergency; Interim Suspension

The President of the campus may place on probation, suspend or expel students for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such students for the semester, quarter, or summer in which they are suspended or expelled will be refunded. If the students are readmitted before the close of the quarter, or summer session in which they are suspended, no additional tuition or fees will be required on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect emergency regulations, procedures, or measures deemed necessary or appropriate to meet the emergency, to safeguard persons and property, and to maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension will be given prompt notice of charges and the opportunity for a hearing within ten days of the imposition of interim suspension. During the period of interim suspension, the student will not, without prior written permission of the President or designated representative, enter any campus of The California State University other than to attend the hearing. Violation of any condition of interim suspension will be grounds for expulsion.

41303. Conduct by Applicants for Admission

Notwithstanding any provision to the contrary, admission or readmission may be qualified or denied to any persons who, while not enrolled as students, commit acts which, were they enrolled as students, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any persons who, while students, commit acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases will be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for The California State University

The Chancellor will prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code will provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admissions or denial of admission under Section 41303; the authority of the campus President in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor will report to the Board actions taken under this section.

The current University regulation on alcoholic beverages is stated in the CSULB Policies, Information and Regulations Handbook published by the Office of Student Affairs.

Additional detailed information relating to student discipline is available in the Office of Student Affairs, and from the Office of the Vice President for Student Services.

Administrative Action

Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Code of Regulations. Copies of Section 41301 of Title 5 may be found in the *University Catalog* and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor's Executive Order 628, "Student Disciplinary Procedures for the California State University" are also available upon request.

The Vice President for Student Services will report annually to the President and the Chair of the Academic Senate a summary of the charges concerning cheating and plagiarism brought before the Office of Judicial Affairs.

Judicial Affairs

The Office of Judicial Affairs (Brotman Hall - 377) provides assistance with the interpretation and enforcement of campus regulations. Complete copies of the CSULB Policies, Information and Regulations Handbook, including a listing of infractions which may result in student disciplinary action under Title 5, Section 41301, of the California Code of Regulations, "Probation, Suspension and Expulsion of Students," are available in this office; also available are copies of Executive Order 628, "Student Disciplinary Procedures for The California State University." General assistance and aid in directing individuals to the proper procedures, departments and personnel may be obtained in this office.

Alleged violations are investigated primarily through informal office conferences with the involved students. The conferences which are held as a result of impending disciplinary action are:

1. to clarify the referral, the charges, or the circumstances involved;
2. to prevent the incidence of, or further occurrences of, violations; and
3. to educate as a preventive experience and to indicate the possible consequences as a result of committing a violation. Discussion is centered on the cause-and-effect relationship of various courses of action and, when possible, alternate paths or solutions are explored.

The Federal Drug-Free Schools and Communities Act

Each student and employee of California State University, Long Beach needs to be aware of the requirements of the Drug-Free Schools and Communities Act Amendments of 1989 (PL 101-226). These requirements include the notification to each student and employee of campus standards of conduct regarding the use of alcohol and illicit drugs, the legal sanctions which apply, possible health risks, and available counseling and assistance programs. This law, like others the federal government has passed in the last two decades, is tied to eligibility for federal financial assistance. Thus, because California State University, Long Beach receives federal funds such as "federally funded or guaranteed student loans," the law applies to the University and we must comply with its provisions. Under PL 101-226 the Secretary of Education can terminate federal funding for failure to comply and the University has the burden of appealing that decision to an administrative law judge. The law became effective October 1, 1990.

Any questions regarding this law should be directed to the Director of Student Administrative Services at (562) 985-5587.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University makes every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well being of all members of the campus community. To facilitate this process, the University provides a Student Assistance Program and an Employee Assistance Program.

California State University, Long Beach complies with the requirements of the Drug Free Schools and Communities Act Amendments of 1989 by implementing the following:

1. The annual distribution in writing to each student, regardless of the length of the student's program of study, and to each employee of:
 - A. standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities;
 - B. a description of the applicable legal sanctions under local, State, or Federal law for the unlawful possession or distribution of illicit drugs and alcohol;
 - C. a description of the health risks associated with the use of illicit drugs and abuse of alcohol; and,
 - D. a clear statement that the institution will impose disciplinary sanctions on students and employees (consistent with local, State and Federal law), and a description of those sanctions, up to and including expulsion or termination of em-

ployment and referral for prosecution, for violations of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.

2. Conducting a biennial review of the campus drug and alcohol abuse prevention program to:
 - A. determine its effectiveness and implement changes to the program if they are needed; and
 - B. ensure that its disciplinary sanctions are consistently enforced.

The review is conducted by a panel consisting of the Provost and Senior Vice President for Academic Affairs or designee, the Vice President for Student Services or designee, the Vice President for Administration and Finance or designee, the Chair of the Academic Senate or designee, the President of the Associated Students or designee, and the Chair of the Academic Senate Student Affairs committee or designee.

The review is conducted during the month of October in each even-numbered year. The report of the review panel is submitted to the President by December 1 following the October review period.

The following are members of the review panel recommended by the Academic Senate Committee on Committees for approval by the Academic Senate: a member from the University Counseling Center, a full-time permanent or probationary staff member, an Associated Students Senator, and a member from the Student Health Center.

Campus Standards of Conduct

Both productivity at work and the learning process are significantly impaired by alcohol abuse and the use of illicit drugs. Substance abuse among college students inhibits their educational development and is of serious nationwide concern.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University is making every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well-being of all members of the campus community.

On campus property, the solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, are prohibited.

Consumption of alcohol is prohibited in individual offices, classrooms, laboratories, or generally accessible public or open areas, such as the quad and athletic fields.

Information regarding campus policies on the consumption of alcohol may be obtained by calling the Office of Student Life and Development at 985-8668.

Pursuant to Title 5 of the California Code of Regulations, violations by students of the above regulations, when campus related, may, after due process, result in the student being placed on probation, being suspended, or being expelled. Additionally, violations of laws committed on campus property, or at a campus event, will also be subject to referral and prosecution through off-campus authorities. Penalties by enforcement agencies for violations of the law may include imprisonment, fines, or both; these are in addition to administrative sanctions imposed by the University.

More detailed descriptions of student regulations concerning drugs, or alcohol, may be found elsewhere in the *CSULB Catalog*, or in the Residence Hall Calendar and Handbook, or the Regulations for Campus Activities, Organizations and the University Community.

Pursuant to Education Code Section 89535, employees may be disciplined, up to and including termination, for the following causes:

1. Conviction of criminal offenses involving the illegal use of drugs.
2. Appearing for work impaired by the use of alcohol and/or controlled substances.
3. Addiction to the use of controlled substances.

More detailed descriptions of employee regulations concerning drugs, or alcohol, may be found in the *Administrative Policies and Procedures Handbook* and the *Faculty and Staff Handbooks*.

Don't Put Your Health at Risk

To become dependent upon chemicals such as illicit drugs and/or alcohol is to put your health at risk. Chemical dependency is a condition in which the use of mood altering substances such as drugs or alcohol is associated with problems in any area of life on a more or less continuing basis.

One does not, however, have to be addicted or chemically dependent to suffer health risks from the use of illicit drugs or alcohol.

Alcohol and illicit drugs (in all the many forms) may, and often do, impair physical coordination and judgement, diminish control over impulsive behavior, and cause many short- and long-term health consequences.

Alcohol-related illnesses now represent the third leading cause of death in the United States exceeded only by cancer and heart disease, and medical research has established very strong evidence that alcohol abuse contributes significantly to cancer and heart disease. There is clear evidence of serious negative effects on babies due to use of illicit drugs and alcohol by the mother during pregnancy.

If You Have a Problem, We Want to Help

The California State University, Long Beach Health Center offers substance abuse programs for students, faculty and staff. These include: a Student Assistance Program for students; and Employee Assistance Program for faculty and staff; and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA testing and eligibility requirements and conference affiliation rules for competition).

An experienced and specially trained therapist under the supervision of the Medical Director serves as the coordinator and counselor for these programs, and medical doctors, other health professionals, and counseling psychologists are available for consultation. All contacts with the Health Center and professional personnel are confidential.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Shifra Teitelbaum, Student Health Center, (562) 985-4609.

The California State University, Long Beach Health Center is located at the corner of State University Drive and Merriam Drive. The telephone number is (562) 985-4771.

CSULB Statement on Civility and Acts of Violence

California State University, Long Beach, takes pride in its tradition of maintaining a civil and non-violent learning, working, and social environment. Civility and mutual respect toward all members of the University community are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a safe and productive workplace and overall healthy campus climate.

The University espouses and practices zero tolerance for violence against any member of the University community (i.e., students, faculty, staff, administrators, and visitors). Violence and threats of violence not only disrupt the campus environment, they also negatively impact the University's ability to foster open dialogue and a free exchange of ideas among all campus constituencies.

To fulfill this policy, the University strives: 1) to prevent violence from occurring; and 2) to enforce local, state, and federal laws, as well as University regulations, regarding such conduct. The University also has established procedures for resolving and/or adjudicating circumstances involving violence, as well as threats of violence. A threat of violence is an expression of intention that implies impending physical injury, abuse, or damage to an individual or his/her belongings. All allegations of such incidents (i.e., acts and threats) will be aggressively investigated. Allegations that are sustained may result in disciplinary action up to and including dismissal from employment, expulsion from the University, and/or civil and criminal prosecution.

Members of the campus community are encouraged to promptly report any acts of violence, threats of violence, or other behavior which by intent, act, or outcome harm themselves or others. (Approved October 1997.)

Equal Access and Opportunity

California State University, Long Beach affirms the equal worth of every individual and of distinctive groups of people, and fosters fair and equal treatment and access for all members of the university community. Therefore, the University is committed to the principles of equal opportunity in education and employment, to policies and practices that ensure equal opportunity and consideration, and to the protection of civil rights.

It is the policy of California State University, Long Beach to provide programs, services, and benefits, including employment, without regard to race, religion, color, ancestry, ethnicity, gender, marital status, pregnancy, national origin, age, mental or physical disability, sexual orientation, special disabled veterans' status, Vietnam-Era or other covered veteran status.

Reasonable accommodation to disability is considered a means of establishing equal opportunity.

Freedom From Discrimination, Harassment and Retaliation

California State University, Long Beach affirms that students, employees, volunteers, members of the public, and recipients of services and/or benefits provided by CSULB have the right to a University free from discrimination and harassment, including hostile environment, on the basis of: Race, color, ancestry national origin, ethnicity, gender, religion, sexual orientation, marital status, disability, age, pregnancy, Veteran status-Vietnam-era/ Special Disabled and Other Covered* (*<http://www.opm.gov/veterans/html/vgmedal2.htm>)

Retaliation for exercising one's right to protection from discrimination and/or harassment or for participating in the investigation of a complaint will not be tolerated.

This policy applies to all California State University, Long Beach programs and activities, including, but not limited to: Educational, cultural, recreational, and social and/or athletics programs and activities provided, sponsored, administered, or assisted, by CSULB; CSULB academic programs and/or activities; CSULB-sponsored off-campus programs; housing supplied or regulated by CSULB; the administration of educational policies, admission policies, and employment policies; employment actions, including but not limited to recruitment, hiring, education, upgrading, promotion, transfer, demotion, layoff, recall, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship; choice of contractors and suppliers of good and services; provision of services and benefits to CSULB students, employees, volunteers, or the public; receipt of CSULB services and benefits provided by CSULB contractors or vendors.

Required federal Affirmative Action Plans are available for inspection in the University Library, Reserve Book Room during normal business hours.

Confidentiality

The University is committed to maintaining a safe environment in which individuals can be unafraid to discuss concerns. Any member of the University community may seek general information and guidance about discrimination, harassment, and retaliation issues in confidence and anonymously.

However, the University's obligation is to take appropriate action to stop prohibited behavior and to prevent retaliation. This may preempt any request for anonymity or confidentiality.

Complaint Resolution Procedures

Resolution of discrimination, harassment, and retaliation complaints is available to all members of the University community. The procedures vary but are all intended to resolve complaints in a timely and responsive manner at the earliest possible stage.

For employees represented by a collective bargaining unit, the collective bargaining agreement outlines procedures, process and timelines. Information is available from your campus union representative, or online at:

http://www.calstate.edu/LaborRel/Contracts_HTML/contracts.shtml

For employees not governed by a collective bargaining agreement, the complaint procedure is outlined in CSU Executive Order 675. It is available online at: <http://www.calstate.edu/hr/EO-675.pdf>

For students or other members of the campus community, guests, visitors, affiliates, and associates, the Campus Complaint Resolution Procedure will apply. Discrimination complaint forms are available in the Office of Equity & Diversity, USU 301 and on-line at: <http://www.csulb.edu/depts/oed>

Campus Complaint Procedure - Informal

The Informal Discrimination Complaint Resolution Procedure is initiated by speaking with one of the following persons of your choice: Immediate Supervisor; Program/Office Director; Department Chairperson/Director; Dean/Associate Dean; Designated Resource Person (list available from the Office of Equity & Diversity); Director of Equity & Diversity.

These individuals are expected to: Provide information about University policy and procedures, ensure the safety and security of the complainant in the immediate environment, ensure the

due process of the individual(s) charged, ensure confidentiality to the extent possible by and with all parties, report the complaint to the Director of Equity & Diversity within five (5) working days from receipt of the complaint, consult with the Director of Equity & Diversity at least once per week until the complaint is resolved, an outcome is reached, or the complaint is referred to the Director of Equity & Diversity for review and consideration, maintain notes of the complaint and log of all contacts made, report monthly to the Director of Equity and Diversity of the number, nature, and outcome of the complaints. The outcome of all Informal complaints must be reported to the Director of Equity & Diversity. If the proposed remedy is unsatisfactory to the complainant, or if the complaint is not resolved in the Informal process, the complaint may proceed to the Formal level.

Campus Complaint Procedure - Formal

An allegation becomes a formal complaint only when it is filed in writing on an official University Discrimination Complaint Resolution form and is signed, or when the Director of Equity & Diversity files the complaint. The form is available from the Office of Equity & Diversity and the office website.

Within 5 working days from receipt or initiation, the alleged offender will be notified of the complaint by the Director of Equity & Diversity.

Within 10 working days from receipt, the alleged offender is required to respond in writing. A copy of the response shall be provided to the complainant.

If agreement is reached, the Director of Equity & Diversity shall provide all concerned parties with a written statement of the resolution.

If agreement is not reached, the Director of Equity & Diversity will proceed to evaluate the applicability of University policy prohibiting discrimination, harassment, and retaliation to the alleged behavior.

The Director of Equity & Diversity is authorized to interview anyone deemed necessary to the investigation. The investigation will normally be completed within thirty (30) working days.

Time limits may be extended or waived by the President upon request of the Director of Equity & Diversity.

Within five (5) working days of the conclusion of the investigation, the Director of Equity & Diversity will: submit a report of the complaint, investigation, and findings to the appropriate division executive and, notify the complainant and party charged of the finding.

Within twenty (20) working days from receipt of the report of the investigation the division executive will notify the Director of Equity & Diversity of resulting action.

Within five (5) working days of receiving notification of the resulting action, the Director of Equity & Diversity will notify the parties to the extent allowed of the action taken or proposed by the division executive.

The Principles

California State University, Long Beach is a comprehensive, urban university. The University has a professional, cultural, and ethical commitment to provide a climate that enables each individual to realize his/her potential for excellence and that nurtures academic growth and professional development.

Diversity is both an ideal and an imperative. California State University, Long Beach takes pride in the diversity of its student body and employees, and affirms that this diversity enriches the work and learning environment of the campus. For this reason the recognition of diversity in our University community extends beyond the limits established by federal or state laws or regulations.

In addition to fully meeting its obligations of nondiscrimination under federal and state law, California State University, Long Beach is committed to creating a community in which a diverse population can learn, live, and work in an atmosphere of tolerance, civility, and respect for the rights and sensibilities of each individual, without regard to professional rank, employment status, economic status, ethnic background, political views, or other personal characteristics or beliefs.

California State University, Long Beach takes seriously its tradition of maintaining civility and mutual respect toward all members of the University community. These qualities are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a productive workplace and an overall positive campus climate. Civility and mutual respect only thrive when equal opportunity and access exist, and when retaliation for exercising rights, privileges and obligations is not feared. [Policy 03-09]

Dr. Elena Macias, Director of Equity and Diversity, is the designated campus coordinator for Equal Employment Opportunity, Affirmative Action, and Civil Rights under Executive Order 11246, the Vietnam-Era Veterans' Readjustment Assistance Act, the Americans with Disabilities Act, the Rehabilitation Act, and Title IX.

Policy on Sexual Assault

Students, faculty, and staff who are victims of sexual assault committed at or upon the grounds of the University, or upon off-campus grounds or facilities maintained by affiliated student organizations, are required by law to be advised of specified information, to include treatment, related campus procedures, referral options, and other assistance which may be available [California Education Code, Section 67385. This policy is designed to provide the written procedures and information required.

Rape, including acquaintance rape, or any other form of sexual assault, will not be tolerated by California State University, Long Beach. Where there is evidence that campus-related sexual assault has been committed, severe campus disciplinary action will be initiated. Such campus disciplinary action may include, after due process, the possibility of dismissal, suspension or disenrollment. Additionally, where the victim initiates criminal action, the perpetrator is subject to criminal penalties which may include fines and imprisonment.

Sexual Assault

The term "sexual assault" includes, but is not limited to, rape, acquaintance rape, sexual battery, forced sodomy, forced oral copulation, rape by a foreign object, or threat of sexual assault [California Education Code, Section 67385(d)].

Rape is a criminal offense. "Rape" is defined as an act sexual intercourse accomplished with a person not the spouse of the perpetrator, under specified circumstances. For example, it may involve the use or threat of force, violence, retaliation, or fear of or actual immediate and unlawful bodily injury. Rape also occurs when the victim is incapable of giving legal con-

sent, for example, when: a) the victim has a mental disorder, or is developmentally or physically disabled; or b) the victim is prevented from resisting the assault due to intoxicating substances (e.g. alcohol or drugs); or c) the victim is unconscious of the nature of the act, and such condition was known or reasonably should have been known to the accused (Reference: California Penal Code, Section 261, and the following sections).

"Acquaintance Rape" is forced sexual intercourse undertaken by someone the victim knows, against the will of the victim or as a result of threats, force or fear.

"Sexual Battery" is defined as the touching of an intimate part of another person, if the person is unlawfully restrained and if the touching is against the will of the person touched, for the purpose of sexual arousal, sexual gratification, or sexual abuse (Reference: California Penal Code, Section 243.4).

"Assault with intent to commit a sexual battery" is defined as an unlawful attempt, coupled with the present ability, to commit a violent injury (e.g., rape) or sexual battery on the person of another. (Reference: California Penal Code, Section 220; 240; 261; and following sections).

"Consent" is defined as positive cooperation in an act or attitude pursuant to an exercise of free will. The person must act freely and voluntarily and have knowledge of the nature of the act or transaction involved [Reference: California Penal Code, Section 261.6; 266(c)].

"Unlawful Sexual Intercourse" is an act of sexual intercourse accomplished with a person not the spouse of the perpetrator, where the person is under the age of 18 years (California Penal Code, Section 261.5).

Any person who willfully and lewdly commits any lewd or lascivious act upon or with the body or any part of a child under the age of 14 years with the intent of arousing, appealing to, or gratifying the sexual desires or passions of either the child or defendant is guilty of a felony. Any person who commits any act in the previous sentence with a person 14 or 15 years old, and the defendant is at least 10 years older than the child is guilty of a public offense (California Penal Code, Section 288). Any person who intentionally gives, transports, provides, persuades or makes available to another a child under age 16 for lewd or lascivious acts is guilty of a felony, punishable by fine and imprisonment [California Penal Code, Section 266(j)]. Every person who annoys or molests any child under the age of 18 is punishable by fine and imprisonment (California Penal Code, Section 647.6).

University Jurisdiction

California State University, Long Beach views seriously its obligation to uphold the laws of the larger community of which it is a part. An association with the University does not exempt a person from local, state, or federal laws, but rather imposes the additional obligation to abide by all of the rules and regulations of the California State University.

A student charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to student discipline under the Student Disciplinary Procedures for the California State University (Reference: Chancellor's Executive Order 148, "Student Disciplinary Procedures for the California State University"; and Title V, California Code of Regulations, Section 41301-41304, "Student Discipline").

Employees charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to discipline under the California Education Code, Sections 89535-89540. Such campus disciplinary action for employees may include demotion, suspension, or dismissal.

Campus Reporting Procedures

Persons involved in, or possessing knowledge of, a campus-related abuse violation are strongly encouraged to notify University Police immediately. University Police may be contacted by:

- using any of the blue lighted telephones
- by depressing the red button on all public pay telephones
- simply dialing 985-4101 or 9-1-1

An officer will be dispatched and will assist the victim to a medical facility for medical care and collection of evidence. An officer will assist the victim with a police report should the victim desire to make one. An officer will remain available to the victim until a friend or relative can be located. When requested, a female investigator trained in sexually related violations will be available.

University Police shall contact one or more of the following by telephone, memorandum or both. Alternatively, the victim may contact any of the following personnel or departments.

1. Associate Vice President for Student Services (562) 985-5587, Brotman Hall 377
2. Director, University Counseling Center (562) 985-4001, Brotman Hall 226
3. Director, Student Health Center (562) 985-4771, Health Center
4. Director, Staff Personnel Services (562) 985-4031, Brotman Hall 335
5. Director, Equity and Diversity (562) 985-8256, Student Union, Rm 301
6. Director, Judicial Affairs (562) 985-5270, Brotman Hall 377
7. Director, Women's Resource Center (562) 985-8575, Liberal Arts 3-105
8. Director, Housing and Residential Life (562) 985-4187, Parkside Commons

The respective units or persons contacted will be responsible for reports, as may be required by law, to be filed for their respective unit, e.g., violations under the Child Abuse Reporting Law, Jeanne Clery Act or Megan's Law.

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act

Access crime statistics for CSULB. These are mandated statistics known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. Hard copies of this brochure may be obtained at either our main police department, our substation, by calling our main telephone line (562) 985-4101 or by downloading it in PDF format. Both are located on this campus; the main station is located at 1331 Palo Verde Ave., the most eastern boundary of CSULB and our substation is located at the Student Union outside courtyard in the center of the CSULB. This report is prepared in cooperation with the Police agencies surrounding our main campus and our alternate sites, Housing and Residential Services, the Judicial Affairs Office and the Division of Student Affairs. Each entity provides

updated information on their educational efforts and programs to comply with the Act.

The following are among the options available to a victim and more than one option may be exercised:

1. Criminal Prosecution: University Police - (562) 985-4101
Emergency: 9-1-1
2. Civil Action: Consult an attorney.
3. University Disciplinary Process, where accused is:
 - A. Faculty or Staff: Employee Relations Administrator (562) 985-4128; BH 300
 - B. Student: Director, Judicial Affairs (562) 985-5270; BH 377
4. Informal Mediation: Office of the University Ombuds (562) 985-5983.
5. Alternative Campus Housing Assignments: Director, Housing (562) 985-4187; Housing Office
6. Academic Assistance:
 - A. University Counseling Center (562) 985-4001; BH 226
 - B. Women's Resource Center (562) 985-5466; LA3-105
 - C. Academic Advising Center (562) 985-4837; Academic Services, room 125

In the event there are requests for information from the press, concerned students, parents, and others, prudence will be exercised, and when required by law, confidentiality will be maintained. When appropriate, only the Department Director (for matters strictly within the Director's purview), or the University Director of Public Affairs (for inquiries by the media), will respond.

Victims are advised that there could likely be a need to identify both the victim and the assailant in the course of investigation and hearings under University student disciplinary proceedings, as well as under employee disciplinary proceedings, or criminal prosecutions. In the case of student disciplinary actions against an assailant, the victim is required to be promptly notified by the Director, Judicial Affairs of the status of the proceedings, and the general terms of the disposition.

Persons are reminded of the importance of preserving such evidence as may be necessary to the proof of criminal sexual assault. With respect to sexual assault involving student discipline, both the accused and the accuser are entitled to have an advisor present during a campus disciplinary proceeding, and to be informed of the outcome of the campus student disciplinary proceeding. Student victims of sexual assault may request changes in academic and living arrangements precipitated by the offense where such changes are reasonably available.

Support Services

Sexual assault violations often result in physical harm, psychological harm, or both. Even if the victim decides not to report the incident to authorities, it is urged that the victim seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

- The University Counseling Center provides crisis counseling as well as ongoing assistance to students who have experienced sexual assault; (562) 985-4001.

- The University Student Health Center offers routine medical examinations, including pregnancy tests and tests for sexually transmitted diseases; (562) 985-4771.
- The University Women's Resource Center provides video tapes, books, and brochures for both men and women, and referrals to community services are also provided; (562) 985-5466.
- S.A.R.T (Sexual Assault Response Team) The University Police is an active participant of the Long Beach S.A.R.T. process. This process offers individual forensic exams to victims of sexual assault and child molestation. Coordination is with University Police, Long Beach Police Department, District Attorney's office, a forensic nurse and a rape crisis counselor. The police dispatcher activates the S.A.R.T process after the officers have connected with the victim. (562) 986-4101 or 9-1-1. S.A.R.T. is located at Long Beach Community Hospital. A victim may be driven to Long Beach Community Hospital, 1720 Termino, Long Beach for the S.A.R.T. services. The emergency room staff will contact S.A.R.T. directly.

Additionally, referrals may be made to the Rape Crisis Hotline - Long Beach area (562) 597-2002 or to the Sexual Assault Crisis Agency, (562) 433-1287 which offers a 24-hour crisis hotline:

- A. The Rape Crisis Hotline - South Bay area, (310) 545-2111;
- B. The Rape Crisis Hotline - Orange County, (714) 831-9110;
- C. Rape Treatment Center - Santa Monica Hospital (310) 319-4000;
- D. The Victim Witness Assistance Hotline, (714) 957-2737;
- E. Safe At Home Confidential Address Program 877-322-5227, www.ss.ca.gov/safeathome/.

Also, the University Counseling Center and the Career Development Center maintain lists of referrals within the community which deal with the issues of rape and sexual assault crisis, including legal, medical, and therapeutic support services. The phone number for the University Counseling Center is (562) 985-4001. The Career Development Center can be reached at (562) 985-4152.

Victims of Violent Crime Statute

A person who has sustained physical injury as a direct result of a crime of violence, or is legally dependent for support upon a person who has sustained physical injury or death as a direct result of a crime of violence (or, in the event of a death caused by a crime of violence, has legally assumed or voluntarily paid the medical or burial expenses incurred as a direct result thereof) may qualify for indemnification by the State of California for the out-of-pocket wages, medical and/or burial expenses incurred as a result of the crime (California Government Code, Section 13959, et seq.). Claims must be filed with the State Board of Control for the State of California. The Statute provides that, absent certain extenuating circumstances, a claimant has one year from the date of the crime to file his or her claim with the State Board of Control. Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232 g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statutes and the regulations. Copies of these policies and procedures may be obtained at the Office of Enrollment Services or the Office of Judicial Affairs. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release "directory information" concerning students. CSULB designates the following items authorized by FERPA as Directory Information: student's name, address (see below for conditions), telephone number (see below for conditions), major field of study, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and e-mail address. Addresses and telephone numbers for currently enrolled students will be released to CSULB personnel and units solely for the purpose of conducting legitimate University business. They may not be shared with individuals or organizations outside the University except in accordance with the following provisions. Addresses and telephone numbers may be released for non-commercial use by individuals or organizations outside the University provided the requests for such information have been reviewed and approved by the appropriate University personnel. Requests from the academic offices of accredited educational institutions shall be reviewed by the Provost and Senior Vice President for Academic Affairs or designee. All other requests shall be reviewed by the Vice President for Student Services or designee. Otherwise, the University may disclose any of the items designated as "directory information" above without prior written consent, unless the student provides a request that certain information not be released (non-disclosure). Requests for non-disclosure may be made directly by the student utilizing their self-service account in the student system via the Internet. If the student does not have access to the Internet, their request for non-disclosure must be requested

on the "Authorization to Withhold Student Information" form, available in the Office of Enrollment Services. Specifying items as directory information allows the University to disclose this information without prior written consent. It does not require that the University release the information except under court direction. In addition to the above, the Director of Athletics may provide information concerning participation of students in athletic events, including the height and weight of athletes.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in campus' academic, administrative, or service functions and have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

Career Placement Information

The Career Development Center office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records for purposes including financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Taxpayers who claim Hope Scholarship or Lifetime Learning tax credit will be required to provide the campus with their name, address, and Taxpayer Identification Number to the campus.

Security on Campus

Campus Security Act

California State University, Long Beach University Police, obtains its powers to arrest from the California Penal Code and the California Education Code.

Reporting Emergencies on Campus

The on-campus emergency phone number is 9-1-1. The non-emergency phone number is (562) 985-4101. Any problems concerning behavior of members of the campus community, thefts, vandalism, fire, and all related matters should immediately be brought to the attention of the University Police.

Procedures for Reporting Crimes on Campus

Whenever students or employees become victims of a crime while on the campus of CSULB, or whenever they have witnessed a crime or feel that there is a possibility that a crime is about to occur, they should notify University Police as soon as possible. There are numerous emergency phones located throughout the campus and parking lots, which are direct lines to the University Police dispatcher. Contact University Police by simply locating the nearest emergency phone or by using the emergency phone that is located in all elevators. Individuals may also contact the mobile police units that patrol the campus on a 24-hour schedule. Parking enforcement officers also patrol the parking lots and have direct radio contact with the police dispatcher and the mobile police units. The University Police is located at the far east end of campus, between parking lot "11" and parking lot "9" on Palo Verde Avenue. The Department is open 24 hours a day to respond to any call for service or to any emergency.

Opening Classrooms

Custodians are responsible for unlocking all outside doors and classrooms which do not contain equipment (audiovisual, computers, etc.) at 7:00 am. University Police personnel are responsible for opening buildings on weekends and holidays. Persons requesting a door opened must have proper authorization. Questions of interpretation and special access matters should be directed to University Police.

Security of Buildings

It is the responsibility of the person assigned to an office to ensure that the door is locked at the conclusion of work. Further, it is the responsibility of the last instructor teaching in a classroom to ensure that the door is secure and the lights are turned off when the class is concluded. In areas where equipment technicians are employed, it will be their responsibility to secure all doors at the end of the working day. University Police will ensure that all buildings are secured every night. An individual desiring to remain in a building after normal closing hours is required to notify University Police.

Personnel who require access to buildings and rooms must request keys with appropriate departmental approval. Individuals granted special access to rooms and buildings must assume personal responsibility for facilities and equipment during the time they are using these facilities and equipment. Should a faculty or staff member require access to a particular building or room after normal instructional or working hours, presentation of identification to University

Police is required. Failure to present proper identification to University Police is grounds to deny the request for access to the building. Graduate Assistants and other students who require entrance to a building during other than normal hours must have proper identification and prior approval in writing from the appropriate administrator. This authorization must be on file with University Police.

Anyone who has difficulty in gaining authorized access to an area or who needs assistance in securing a building or room should contact University Police.

Policy Concerning Law Enforcement on Campus

California State University Police Officers are sworn Law Enforcement Officers under California Penal Code, Section 830.2, and in compliance with State Statute meet the peace officer standards and training requirements mandatory for all California law enforcement officers. In addition, California State University Police Officers undergo training specially designed to meet the needs and problems of a contemporary university community.

The primary responsibility of the University Police is the preservation of the public peace and the protection of life and property against all unlawful acts. The department will take all possible measures to prevent crime and accidents, investigate thoroughly all suspicious and criminal activity, and apprehend offenders quickly in all cases where crimes are committed.

Type and Frequency of Programs to Inform Campus Personnel About Security Procedures and Practices

University Police actively invites fraternities and sororities, as well as sports groups and clubs on campus, to participate in the "Acquaintance/Date Rape" lectures. These classes are scheduled flexibly at no charge to meet the group's needs. The University Police also conducts new employee, new student, and special groups orientations. Officers routinely address residence hall students on a variety of topics, such as drug and alcohol abuse, and the problem of sexual assaults.

Programs Designed to Prevent Crime

University Police offers an evening escort service for all students and employees. They are picked up and escorted to their vehicles or to the residence halls.

University Police provides employees with information about California law and how to avoid being a victim. Advice is also provided about securing valuables and protecting vehicles.

Statistics on Major Crimes

University Police reports statistics on major crimes monthly to the Office of the President, to the Chancellor's Office, and to the Department of Justice.

Information concerning CSULB policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, (562) 985-4101.

Information concerning CSULB annual crime statistics reports may be obtained from University Police, (562) 985-4101.

Firearms on Campus

Any person who brings or possesses a firearm on the grounds of the University, without the prior written permission of the Chief of University Police, or as otherwise provided by law, is in violation of State law (California Penal Code, Section 626.9), and University Regulations, and is punishable by imprisonment. Any person who brings or possesses a device that expels a metallic projectile, such as a B-B or pellet, through the force of air pressure, CO2 pressure, or spring action, or a spot-marker gun, on the grounds of the University, without the permission of the University Police, is in violation of University Regulations; such action may result in University or legal sanctions.

Off-Campus Monitoring of Criminal Activity at Campus Events

The University Police Department has a close working relationship with the City of Long Beach Police Department. The meetings are on a monthly basis and discuss areas of possible problems. Reports are exchanged with LBPD, LASO, and other police departments.

Policy for the Use of Alcohol and Drugs on Campus

Alcoholic beverages generally may not be consumed on campus except at sponsored events and with specific approval of the Director of Student Life and Development.

Alcoholic beverages may only be consumed on University premises that have been licensed by the Department of Alcoholic Beverage Control or on other University premises at "approved group sponsored events." Sponsors of such events must obtain prior written approval from the office of Student Life and Development. Approval normally will be limited to events in such areas as the University Student Union, the Soroptimist House, or the Chart Room.

The solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, is prohibited on campus property. Excepted are drugs which are lawfully prescribed or lawfully permitted for the purpose of bona fide research, instruction or analysis.

CSULB is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The CSULB Student Health Center offers substance-abuse consultation programs for students, faculty and staff who may need assistance in overcoming the personal problems associated with alcohol or drug abuse. These programs include a Student Assistance Program for students, an Employee Assistance Program for faculty and staff, and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA requirements). All contacts with the Health Center and its personnel are confidential.

More detailed descriptions of campus regulations concerning alcohol and drugs may be found in the current editions of the *CSULB Catalog*, the *CSULB Schedule of Classes*, *Regulations for Campus Activities*, *Organizations*, and the *University Community*, and the *Faculty, Staff and Student Handbooks*.
