This minor will prepare students to work with a variety of technologies including computers and related technologies and the proper setup and operation of equipment along with valuable troubleshooting skills required of today's work force. Students will gain an understanding of the system design process and how our digital world works. Students will learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues encountered when using the internet. In addition, students will learn to create a robust, useable, and accessible Web site. This minor will provide valuable technical skills for a variety of fields including graphic arts, teaching, journalism, law, business and public administration, social work and many others. The minor is conferred concurrently with the BS/BA degree.

Requirements

Completion of 21 units as specified below:

1. Completion of 18 core units: CECS 101, 110, 200, 300, 410E, and ENGR 304.
2. Completion of 3 units from the following list of electives: CECS 401E, ENGR 350, 391 or 400E.

Minor in Computer Science Applications (code ET__UM02) (21 units)

Computer Engineering and Computer Science Department

The minor in Computer Science Applications is designed to prepare students to be able to write small programs in three languages and to maintain and upgrade PC software and hardware as well as understand how to set up a local area network. In addition it prepares students to be able to design and implement web applications using modern and readily available authoring tools. This minor will provide valuable skills for a variety of fields including teaching, law, business and public administration, engineering and many others. The Minor in Computer Science Applications is not open to students majoring in Computer Science or Computer Engineering

Requirements

CECS 110, 174, 200, 261, 300, 381, 410E

Certificate in Web and Technology Literacy (code ET__CT03)

Computer Engineering and Computer Science Department

Open to all majors except those with or seeking a B.S. Engineering Technology option in Technology and Engineering Education.

The certificate in Web and Technology Literacy is designed to give students from many majors some valuable internet and web authoring skills and a broad understanding of technology. Digital devices and computers are ubiquitous in our lives, yet most people do not know how they were designed, how they work and how to use them.

This certificate will prepare students to work with a variety of technologies including computers and related technologies and the proper setup and operation of equipment along with valuable troubleshooting skills required of today's labor force. Students will gain an understanding of the system design process and how our digital world works. Students will learn to acquire and evaluate information from the internet and to communicate information via the internet including ethical issues encountered when using the internet. In addition, students will learn to create a robust, useable, and accessible Web site. This certificate will provide valuable technical skills for a variety of fields including graphic arts, teaching, journalism, law, business and public administration, social work and many others. The certificate is conferred as a post-baccalaureate certificate or concurrently with the BS/BA degree.

Requirements

1. A bachelor's (conferred or expected) degree.
2. Consultation with a program advisor and preparation of a program planner.
3. Completion of 24 units as specified below:
 - A. Completion of 18 core units: CECS 101, 110, 200, 300, 410E, and ENGR 304.
 - B. Completion of 6 units from the following list of electives: CECS 401E, ENGR 350, 391 or 400E.

Engineering Technology Courses (ET)

Lower Division

101. Introduction to Engineering Technology (1)

Survey of the professional activities and environment of the engineering technologist. Course covers the role of the technologist in American industry, the history of technology and the growth and future of those professionals who hold the Bachelor of Science degree in Engineering Technology. (Lecture-Discussion 1 hour) Credit/No Credit grading only.

170. Engineering Drafting and Design (3)

Prerequisite: Sophomore standing. Graphic communication including freehand sketching. Introduction to blueprinting reading and computer aided drafting. Emphasis on engineering drafting practices; general standards, tolerances, thread series, welding joints, surface finishes, fasteners, and structural shapes. (Lecture 1 hour, laboratory 3 hours) Letter grade only (A-F).

202. Probability and Statistics for Technology (3)

Prerequisite: High school algebra. Corequisite: ET 202. Statistics and probability theory, sampling, correlation, regression as applied to Engineering Technology. (Lecture-problems 3 hours.) Letter grade only (A-F).

202L. Probability and Statistics for Technology Laboratory (1)

Prerequisites: Two years high school algebra, geometry, and intermediate algebra (or MATH 010) or the equivalent. Corequisite: ET 202. Laboratory exercises in statistics and probability theory, sampling, correlation, regression as applied to Engineering Technology. Simulation using statistical packages. (Laboratory 3 hours.) Letter grade only (A-F).

204. Applied Mechanics-Statics (3)

Prerequisites: MATH 120, PHYS 100A. Force systems acting on structures, moments, equilibrium, centroids, trusses, beams, cables, frames, machines, friction, section properties, masses, both U.S. and S.I. units of measurements. (Lecture 2 hrs., activity 2 hrs) Letter grade only (A-F).

205. Computer Systems and Programming (1)

Corequisite: ET 205L. An overview of computer systems, computer hardware, and software development. Hardware topics include the central processing unit and memory, input/output devices, storage mechanism, and communication. Software topics include programming languages, operating systems, and systems analysis and design. A programming language will be used for lab activities. (Lecture – discussion, exercise, 1 unit) Letter grade only (A-F). Same as CEM 205

205L. Computer Systems and Programming Lab (1)

Corequisite: ET 205. Laboratory exercises in computer programming to solve problems in business, manufacturing, research and simulation. An object-oriented programming language will be used for these activities. (Laboratory 3 hours.) Letter grade only (A-F). Same as CEM 205L

206. Introduction to Environmental Hazardous Materials and Waste Technology (3)

Prerequisites: CHEM 111A, PHYS 100A. Overview of the environmental effects of industrial pollution and the history of environmental legislation. Study of industrial processes and the generation of waste streams in selected industries. Introduction to the concepts of sustainable development, energy conservation, waste minimization and waste treatment. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

208. Hazardous Waste Stream Generation, Reduction, Treatment (3)

The study of industrial processes and their generation of waste streams in selected industries including: electroplating, metal finishing and printed circuit board production, oil refining and chemical production, general manufacturing, printing and graphic reproduction, agriculture and consumer services. The course will center on various raw materials and chemicals used in industry, examining the changes that occur as they move through the industrial process, as well as understanding the material balance concept of inventory. Discussion of applicable regulations will be included, and the importance of waste minimization/treatment concepts will be stressed. Letter grade only (A-F).

209. Environmental Applications of Physical and Organic Chemistry (2)

Prerequisite: CHEM 111A. Applications of physical and organic chemistry in environmental science and engineered environmental systems. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

210. Hazardous Material and Waste Management (3)

Prerequisites: CHEM 111A, ET 206. A study of the requirements of federal, state and local regulations relating to the management of hazardous materials and hazardous wastes. Particular focus on compliance with shipping, storage, labeling, sampling, and inventory and release reporting requirements. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

212. Hazardous Materials Management Application (3)

The study of the requirements and applications of federal, state and local laws and regulations relating to hazardous materials. Emphasis on compliance with Department of Transportation, Occupation Safety and Health Administration (OSHA) Hazard Communication, Superfund Amendments and Reauthorization Act (SARA) Title III community Right to Know, Underground Tank, Asbestos, Proposition 65, and Air Toxics Regulation. The course will provide the student with an understanding of the legal portion of hazardous materials laws; as well as, applications of these laws. Letter grade only (A-F).

213. Environmental Health, Safety and Emergency Response (3)

Prerequisites: CHEM 111A, BIOL 211A, ET 206. Hands-on instruction in safety and emergency response to chemical and physical exposures in industrial and field settings. Acute and chronic health effects produced by exposure to chemical agents. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

244. Machine Tools (1)

Corequisite: ET 244L. Operations and use of the conventional and non-conventional machine tools. Not open to students with previous machine tools credit. (Lecture-Discussion 1 hour.) Letter grade only (A-F).

244L. Machine Tools Laboratory (1)

Corequisite: ET 244. Laboratory exercises using conventional and non-conventional machine tools. Not open to students with previous machine tools experience. (Laboratory 3 hours.) Letter grade only (A-F).

250. Circuit Analysis I (2)

Prerequisite: PHYS 100B. Corequisite: ET 250L. Fundamentals of DC theory, units of measurements, systems of units. Current, voltage, resistance, Ohm's law, power, energy. Series and parallel circuits. Methods of analysis and selected topics. Network theorems such as superposition, Thevenin's, Norton's and Millman's theorems. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

250L. Circuit Analysis I Laboratory (1)

Prerequisite: PHYS 100B. Corequisite: ET 250. Laboratory exercises will be conducted on AC and DC circuits using proto boards and power supplies, multi-meters, function generators, oscilloscopes and frequency counters. (Laboratory 3 hours.) Letter grade only (A-F).

252. Circuit Analysis II (2)

Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252L. Study of circuit analysis techniques in AC, including network theorems, mesh and nodal analysis, transients, time domain and phasors, magnetic circuits, sinusoidal and non-sinusoidal wave forms, resonance circuits (series and parallel), filters (low-pass, high-pass, passband and bandstop). (Lecture-Discussion 2 hours) Letter grade only (A-F).

252L. Circuit Analysis II Laboratory (1)

Prerequisites: MATH 120, ET 250, 250L. Corequisite: ET 252. Laboratory exercises will be conducted on AC circuits using proto boards and AC power supplies, function generators, oscilloscopes, and frequency counters. (Laboratory 3 hours.) Letter grade only (A-F).

253. General Electricity (2)

Prerequisite: PHYS 100B. Corequisite: ET 253L. An overview of electrical/electronics principles and applications including instrumentation, power distribution, and digital electronics. Not open to ET students in the Electronics Option and the Computer Option. (Lecture - discussion, exercise 2 units.) Letter grade only (A-F).

253L. General Electricity Laboratory (2)

Prerequisite: PHYS 100B. Corequisite: ET 253. Laboratory exercises in basic electrical/electronics circuits and applications. Not open to ET students in the Electronics Option and the Computer Option. (Laboratory 3 hours.) Letter grade only (A-F).

255. Introduction To Digital Electronics (2)

Prerequisites: ET 250, 250L. Corequisite: ET 255L. Combinational logic utilizing Boolean algebra and the binary numbering system. This beginning course includes Karnaugh maps, truth tables, coding, switching circuits, converters and logic circuit elements. (Lecture-problems 2 hours.) Letter grade only (A-F).

255L. Introduction to Digital Electronics Laboratory (1)

Prerequisites: ET 250, 250L. Corequisite: ET 255. Laboratory exercises in basic logic circuits. Topics included are breadboarding, basic gates, and combinational circuits. (Laboratory 3 hours.) Letter grade only (A-F).

260. Solid-State Electronics I (3)

Prerequisites: ET 252, 252L. Corequisite: ET 260L. Analysis and design of solid-state electronic circuits using diodes, bipolar, uni-junction and field-effect devices. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

260L. Solid State Electronics I Laboratory (1)

Prerequisites: ET 252, 252L. Corequisite: ET 260. Laboratory exercises in breadboarding and measurements of solid-state circuits utilizing all types of electronic measuring equipment. (Laboratory 3 hours.) Letter grade only (A-F).

264. Industrial Tooling (1)

Prerequisites: ET 170, 205L; corequisite: ET 264L. Design of tools for production. Typical tooling problems include working drawings and hardware. (Lecture-Discussion 1 hour.) Letter grade only (A-F).

264L. Industrial Tooling Laboratory (1)

Prerequisites: ET 170, 205L; corequisite: ET 264. Laboratory experiments in tool design in relation to mass part production. (Laboratory 3 hours.) Letter grade only (A-F).

286. Introduction to Object-Oriented Programming (2)

Prerequisites: ET 205, 205L; corequisite: ET 286L. Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology. Emphasis on applications to technology (Lec-Discussion 2 hrs) Letter grade only (A-F).

286L. Introduction to Object-Oriented Programming Laboratory (1)

Prerequisites: ET 205, 205L; corequisite: ET 286. Introduction to an object-oriented programming language (C++). Problem analysis and software development methodology. Emphasis on applications to technology. Letter grade only (A-F). (Laboratory 3 hours.)

Upper Division

301. Engineering Materials (2)

Prerequisites: ET 204, CHEM 111A; corequisite: ET 301L. Study of physical and mechanical properties and applications of engineering materials. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

301L. Engineering Materials Laboratory (1)

Prerequisites: ET 204, CHEM 111A; corequisite: ET 301. Laboratory investigation and experiments in the application of engineering materials. Field trips. Letter grade only (A-F). (Lab 3 hrs.)

302. Industrial Electricity (2)

Prerequisite: PHYS 100B; corequisite: ET 302L. An overview of electrical principles and applications in electrical manufacturing industries including instrumentation and power distribution. Letter grade only (A-F). (Lecture 2 hours.) May not be used for credit for the ECET program.

302L. Industrial Electricity Laboratory (1)

Prerequisite: PHYS 100B; corequisite: ET 302. Overview of laboratory techniques in electrical engineering technology and applications in the industry. Letter grade only (A-F). (Laboratory 3 hours.) May not be used for credit for the ECET program.

303. Fundamentals of Environmental Technology (3)

Prerequisites: CHEM 111A, MATH 120, PHYS 100A. Fundamentals of the techniques and unit operations for pollution control of air, land, surface water and groundwater pollution, as well as design of conveyances for water and wastewater, with an emphasis on their application in an industrial setting. Includes fundamentals of hydrology and fluid flow in environmental engineering technology. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

304. Applied Mechanics Strength of Materials (3)

Prerequisite: ET 204. Analysis of strength and rigidity of structural members in resisting applied forces, stress, strain, shear, moment, deflections, combined stresses, connections, and moment distribution. Letter grade only (A-F). (Lecture-Discussion 3 hours.)

307. Industrial Safety (2)

Prerequisites: Junior Standing. Survey of industrial safety administration, engineering and management. Emphasis is placed on the role of the first line supervisor in establishing and maintaining a safe, healthful work environment for employees. Introduction to supporting computer resources used in the safety field. Letter grade only (A-F). (Lecture-Discussion 2 hours)

309. Industrial Communications and Leadership (3)

Prerequisites: ET 205, 205L, English Composition. Principles, theories and concepts of industrial communications and management for engineering technology. Emphasis is placed on the primary management functions of planning, organizing, motivating, leading, controlling and staffing in a technical environment. Introduction to basic decision support models. Students also learn written and oral transmission and interpretation of technical information; communication forms and procedures of industry, with computer applications. (Lecture-Discussion, 3 Hours.) Letter grade only (A-F).

311. Quality Engineering Technology (3)

Prerequisites: ET 202, 202L, Junior standing. Quality engineering technology principles and practices in industry, including management concepts, inspection practices, costs of quality and testing. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

312. Statistical Quality Control (3)

Prerequisite: ET 311. Statistical process control; including use of statistical methods for analysis and improvement of product quality, control charts, linear correlation; sampling procedures, stratification, cause and effect analysis, process capability and introduction to design of experiments. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

313. Quality Assurance, Inspection Measurement and Testing (2)

Corequisite: 313L. Theory and application of inspection procedures, instrument calibration, precision measurements including theory and application of non-destructive testing of materials for quality control. Letter grade only (A-F).

313L. Quality Assurance, Inspection Measurement and Testing Laboratory (1)

Corequisite: ET 313. Laboratory experiments; instrument calibration including standards and precision measurements including the use of non destructive test equipment for quality control. (Laboratory 3 hours.) Letter grade only (A-F)

319. Environmental Regulations and Compliance (3)

Analysis of federal and local administration of environmental laws, including the National Environmental Policy Act of 1969 and litigation of that act in the courts. Special attention paid to California and comparison of the environmental regulation policies of California. Case studies of legislation and political conflict in the environmental issues, and regulatory compliance. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

320. Software Quality Assurance (2)

Prerequisite: ET 205, 205L. Theory and practices of software Quality Assurance. Course emphasizes Government specifications such as DOD-STD-2167 and DOD-STD-2168. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

329. Environmental Study of Groundwater and Soils (2)

Corequisite: ET 329L. Detection, analysis and control of groundwater/soil contamination involving the regulatory hierarchy, distribution network and subsurface formations. Basic tools and procedures utilized in compliance operations. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

329L. Environmental Study of Groundwater and Soils Laboratory (1)

Corequisite: ET 329. Laboratory exercises in the techniques of detection, analysis and control of groundwater/soil contamination. Rules of compliance set by regulatory hierarchy, distribution network and subsurface formations. (Laboratory 3 hours.) Letter grade only (A-F).

331. Environmental Auditing and Reporting (3)

Concepts, methods and techniques of performing environmental operational audits. Duties and responsibilities of a regulatory auditor within the State and Federal hierarchy. State and Federal compliance forms and procedures in industrial manufacturing processes as required by regulatory agencies. Written and oral transmission and interpretation of compliance information and related resource networks. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

333. Solid Waste Technology (2)

Corequisite: ET 333L. Survey of regulated hazardous and non-hazardous solid waste generated by common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

333L. Solid Waste Technology Laboratory (1)

Corequisite: ET 333. Techniques of identification, measurement and assessment of solid waste. Focus on regulated hazardous solid waste from common industrial processes. Topics include waste generation, storage, collection, transfer, transport, processing and recovery. Consideration of system performance, legislation, regulations and environmental impact. (Laboratory 3 hours.) Letter grade only (A-F).

335. Engineering Materials and Processes I (3)

Corequisite: ET 335L. Examination of engineering materials and manufacturing processes including the study of: Phase diagrams; heat treatment; metal casting processes; welding and soldering; corrosion, powder metallurgy, electronic fabrication; tribology, friction, wear, lubrication; surface treatment, coating and cleaning. (Lecture - Discussion 3 hours) Letter grade only (A-F).

335L. Engineering Materials Processes I Laboratory (1)

Corequisite: ET 335. Laboratory exercises in engineering materials and manufacturing processes including the study of: Phase diagram; heat treatment; casting; metallography and electronic manufacturing processes. (Laboratory 3 hours.) Letter grade only (A-F).

341. Solid State Electronics II (3)

Prerequisites: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341L. Miller's Theorem, integrated circuits, feedback, operational amplifiers, Fourier series, distortion, modulation, phase-locked loops, linear and non-linear circuits, and breadboarding. (Lec-Discussion 3 hrs) Letter grade only (A-F).

341L. Solid State Electronics II Laboratory (1)

Prerequisites: ENGR 203, 203L, ET 260, 260L, corequisite: ET 341. Laboratory exercises in design and measurement of various circuits using operational amplifiers, comparators, regulators, silicon controlled rectifiers, frequency mixers and phase-locked loops. (Lab 3 hours.) Letter grade only (A-F).

350. Motors and Generators (2)

Prerequisites: ET 252, 252L; corequisite: ET 350L. Study of electric rotating machinery, its theories, principles, design and applications in automation industries. (Lecture-Problems 1 hour.) Letter grade only (A-F).

350L. Motors and Generators Laboratory (1)

Prerequisite: ET 252 252L; corequisite: ET 350. Laboratory exercises in applications and design of rotating machines. Topics covered are DC machines, synchronous machines, servomotor, step motor, and control circuits. (Laboratory 3 hours.) Letter grade only (A-F).

360. Control Instrumentation (2)

Prerequisites: ET 260, 260L; corequisite: ET 360L. Application and basic design of analog and digital control instrumentation for industrial processes. Physical and electrical properties of thermal, mechanical and optical transducers with associated signal conditioning. (Lecture-Problems 2 hours.) Letter grade only (A-F).

360L. Control Instrumentation Laboratory (1)

Prerequisites: ET 260, 260L; corequisite: ET 360. Laboratory exercises in developing and measuring various control systems utilizing operational amplifiers, transducers, thermocouples, bridges, and various pressure devices. (Laboratory 3 hours.) Letter grade only (A-F).

363. Kinematics of Mechanisms (3)

Prerequisites: ET 170, 304. Mathematical and graphical approaches to analyze the motion of mechanisms, for further machine development, through studies of displacement, velocity and acceleration of mechanical elements. (Lecture-Discussion 2 hours, Activity 2 hours.) Letter grade only (A-F).

365. Fluid Power and Control (2)

Prerequisites: PHYS 100A, ET 302, 302L; corequisite: ET 365L. Fundamentals and application of hydraulic, pneumatic and vacuum power as used in current manufacturing plants. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

365L. Fluid Power and Control Laboratory (1)

Prerequisites: PHYS 100A, ET 302, 302L; corequisite: ET 365. Demonstration and operation of fluid power systems. Design and selection of components for specific applications. Computer data acquisition and analysis. (Laboratory 3 hours.) Letter grade only (A-F).

386. Introduction to Microprocessors (2)

Prerequisite: ET 286, 286L; corequisite: ET 386L. Theory and concepts of programming, hardware configuration, and functional capabilities of microcomputer systems including peripheral devices. (Lecture-Problems 2 hours.) Letter grade only (A-F).

386L. Introduction to Microprocessors Laboratory (1)

Prerequisites: ET 286, ET 286L; corequisite: ET 386. Laboratory exercises in programming microcomputers. Topics included are number systems, microcomputer structure, mnemonic, binary code, peripheral devices operations, stand alone operations, and system operations. (Laboratory 3 hours.) Letter grade only (A-F).

387. Robot Programming and Mechatronics (2)

Prerequisites: ET 205, ET 205L; corequisite: ET 387L. Basic concepts of robot manipulators, robot kinematics, robot programming languages. Applications of industrial robots, machine vision systems. Basic concepts of mechatronic systems: combine hardware, software, interface, and system integration to make an intelligent system. Sensors and actuators for robotics and mechatronic systems. (Lecture-Problems 2 hours.) Letter grade only (A-F).

387L. Robot Programming and Mechatronics Laboratory (1)

Prerequisites: ET 205, ET 205L; corequisite: ET 387. Laboratory exercises in industrial and educational robot operation and applications. Laboratory exercises on mechatronic systems. Robot systems and their computer language instructions will be used. The experiments include teach pendant programming, high level language programming, workcell applications, continuous path programming. Letter grade only (A-F).

388. Technical Applications Using Programming Languages (2)

Prerequisites: ET 286, 286L; corequisite: ET 388L. Techniques for design and development of industrial programs that includes composite program design, module coupling, module strength, program testing, top-down structured programming concepts and tools, object oriented programming, and memory management. These concepts are investigated and examined for use in solving complex problems in engineering technology. (Lecture-problems 2 hours.)

388L. Technical Applications Using Programming Languages Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 388. Laboratory experience in techniques for designing and development of industrial programs such as composite program design, module coupling, module strength, program testing, top-down structured programming concepts and tools, object oriented programming, and memory management. These concepts are investigated and examined for use in solving complex problems in engineering technology. (Lab 3 hours.)

390. Applied Computer-Aided Design and Manufacturing (2)

Prerequisites: ET 170, 205, 205L; corequisite: ET 390L. Roll of the computers in the manufacturing process, application of CAD/CAM systems, hardware and software components for automation, part programming for manufacturing, computer controlled manufacturing equipment, simulation, programming the factory. (Lecture - Discussion 2 hours.) Letter grade only (A-F).

390L. Applied Computer-Aided Design and Manufacturing Laboratory (1)

Prerequisites: ET 170, 205, 205L; corequisite: ET 390. Use of microcomputer based hardware and software to solve 2D and 3D modeling problems. Computer automation software packages. Also includes part programming and CAD/CAM data exchange exercises. (Laboratory 3 hours.) Letter grade only (A-F).

***400. Industrial Wastewater Treatment (2)**

Prerequisites: CHEM 111A, BIOL 211A, ET 303, 319; corequisite: ET 400L. Fundamentals of the characterization, minimization, treatment selection and design of industrial wastewater treatment systems. (Lecture-Discussion 2 hours.)

***400L. Industrial Wastewater Treatment Laboratory (1)**

Prerequisites: CHEM 111A, BIOL 211A, ET 303, 319; corequisite: ET 400. Laboratory exploration of fundamentals of the characterization, selection and operation of industrial wastewater treatment systems. (Laboratory 3 hours.) Letter grade only (A-F).

407. Environmental Systems Safety and Emergency Management (3)

Prerequisites: ET 303, 311, 319. Emergency management and contingency planning in accordance with U.S. environmental regulations and international standards. Emphasis on training, preparedness, response and recovery. Concepts, methods and techniques of performing environmental operational systems audits in accordance with the International Standards Organization (ISO). (Lecture-Discussion 3 hours.) Letter grade only (A-F).

409. Senior Problems in ET (1-3)

Prerequisites: Senior standing in ET, consent of instructor. Advanced work of a technical nature within an area of specialization on an experimental or research basis. Letter grade only (A-F).

B. Electronics Technology

C. Manufacturing Technology

D. Quality Assurance

E. Computer Technology

F. Environmental Technology

410. Cost Engineering and Analysis (3)

Prerequisites: Economics course, Junior Standing. Introduction to the concepts of capital and operations budgets, capital acquisitions, economic evaluations of capital alternatives and factors of the time-value of money in industrial operations and construction industries. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

418. Production Methods and Process Improvement (3)

Prerequisite: ET 410. Simplification and improvement of manufacturing operations through the use of production analysis tools for optimum production economy. Also included is the investigation of production automation applications for improving manufacturing process, quality and productivity. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

419. Design of Experiments (3)

Prerequisite: ET 312. Advanced statistical analysis applied to quality functions. Comparative and single factor experiments. Factorial designs and multiple regression. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

420. Reliability and Maintainability (3)

Prerequisites: ET 419. Principles and Practices of reliability; reliability analysis and design; testing for reliability. Maintainability concepts. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

435. Engineering Materials and Processes II (3)

Prerequisites: ET 335, 335L. Corequisite: ET 435L. Application of engineering materials and manufacturing processes including: rolling; forging; extrusion and drawing; sheet-metal forming; manufacturing of plastics and composites; material removal processes and rapid prototyping. (Lecture - Discussion 3 hours.) Letter grade only (A-F).

435L. Engineering Materials and Processes II Laboratory (1)

Prerequisites: ET 335, ET 335L. Corequisite: ET 435. Continuation of ET 335L. Laboratory exercises in: welding processes; machining processes; metal forming; manufacturing of composite materials. (Laboratory 3 hours.) Letter grade only (A-F).

441. Theory of Electronic Control (3)

Prerequisites: ET 360, 360L. Procedures for the design, preparation, and evaluation of electronic systems that control manufacturing and production processes, simulation analysis for sensing, programming, and actuating operations. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

442. Computer Circuits (2)

Prerequisites: ET 255, ET 255L; corequisite ET 442L. Introduction to digital hardware design. Combinational/sequential logic circuits and systems and application of integrated circuits to logic controls. Programmable logic devices, Field-programmable gate array, Circuit synthesis, and analysis. (Lecture-Problems 2 hours.) Letter grade only (A-F).

442L. Computer Circuits Laboratory (1)

Prerequisites: ET 255, ET 255L; corequisite ET 442. Laboratory study of digital computer circuits design and implementation. Standard designing and trouble-shooting procedures will be discussed. Topics covered are multivibrator, register, counter, decoder, arithmetic circuits, and memory. (Laboratory 3 hours.) Letter grade only (A-F).

444. Telecommunications (3)

Prerequisites: ET 360, 360L. National Communication Network, decibels, transmission units, transmission lines, characteristic impedance, loading systems, lattice networks, PCM, Nyquist Criterion, Bessel functions, coaxial cable, fiber optics, microwave, impedance matching, and Smith chart. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

445. Microelectronics (1)

Prerequisites: ET 350, 350L; corequisite: ET 445L. Design, processing and applications of monolithic and hybrid microcircuits for analog and digital systems. (Lecture 1 hour.) Letter grade only (A-F).

445L. Microelectronics Laboratory (1)

Prerequisites: ET 350, 350L; corequisite: ET 445. Laboratory exercises in the processing of thick-film and thin-film materials, ultrasonic and thermocompression wire bonding and laser resistive trimming. Practical application and equipment utilization is emphasized. (Laboratory 3 hours.) Letter grade only (A-F).

447. Industrial Applications of Electronic Circuits (2)

Prerequisites: ET 341, 341L; corequisite: ET 447L. An in-depth study of the applications of important electronic circuit concepts in industry. Analysis of circuits and how they work in industrial applications. Techniques for troubleshooting of design circuits. Biomedical electronic circuits which have industrial applications are emphasized. (Lec-Discussion 2 hours.) Letter grade only (A-F).

447L. Industrial Applications of Electronic Circuits Laboratory (1)

Prerequisites: ET 341, 341L; corequisite: ET 447. Laboratory exercises include constructing circuits which have important applications in industry. Troubleshooting methodology emphasized throughout. Assignments focus on biomedical electronic circuits which have industrial applications. (Laboratory 3 hours.) Letter grade only (A-F).

***449. Environmental Air Quality (2)**

Corequisite: ET 449L. Planning and evaluation of systems for management of air quality. Consideration of system performance, legislation regulations, environmental impacts and socioeconomic factors. Selected case studies. (Lecture-Discussion 2 hrs.) Letter grade only (A-F).

***449L. Environmental Air Quality Laboratory (1)**

Corequisite: ET 449. Techniques of measurement and assessment of air quality. Focus on measurement of regulated air quality health hazards. (Laboratory 3 hours.) Letter grade only (A-F).

460. Electronics Project Design and Development (2)

Prerequisites: ET 341, 341L and senior standing; Co-requisite: ET 460L. This capstone course is open to Electronics Technology majors only. It involves individual or small group projects in applied electronics, with emphasis on laboratory practice or hardware/software solution to practical problems. This course will emulate the design and development process common to electronic and electrical products. Written reports and oral presentations are required. Letter grade only (A-F). (Lecture-Discussion 2 hours.)

460L. Electronics Project Design and Development Laboratory (1)

Prerequisites: 341, 341L and senior standing; Co-requisite: ET 460. The course involves laboratory exercises in electronics project design and development. Topics covered include: product planning, implementation planning, proposal and approvals, prototyping, system integration, packaging, overall testing, and reporting. The course concludes with a formal demonstration, an oral presentation on the finished product and a written report on the final design. Letter grade only (A-F). (Laboratory 3 hours.)

461. Management of Manufacturing Operations (3)

Prerequisite: ET 418. Application of analytical planning and control techniques to the resources of industry including the physical plant, equipment, personnel, inventories and supplies use in the production of products and services. (Lecture-Discussion 3 hrs.) Letter grade only (A-F).

476. Environmental Impact (3)

Prerequisite: BIOL 306. Required components of environmental impact reports and assessments and the processes involved in their preparation. Special emphasis is placed on the biological portions of EIRs and impact on flora and fauna. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

***485. Environmental Assessment (3)**

Definition and study of problems related to specific issues of environmental impact, mitigating solutions, costs, benefits and consequences. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

486. Data Structures (2)

Prerequisites: ET 388, 388L; corequisite: ET 486L. Data structures and applications. Choice and implementation of appropriate data structures for applications. Treatment of arrays, lists, stacks, queues, lined lists, trees, and assorted algorithms. Introduction to search and sorting. File organization techniques. (Lecture - Problems 2 hours.) Letter grade only (A-F).

486L. Data Structures Laboratory (1)

Prerequisites: ET 388, 388L; corequisite: ET 486. Laboratory exercises in data structures and applications. A recursive programming language will be used. (Laboratory 3 hours.) Letter grade only (A-F).

487. Client/Server Computing Technology (2)

Prerequisites: ET 286, 286L; corequisite: ET 487L. Introduction to client/server computing. Hardware and software technology. Protocols, networks, relational database technology. Example applications using client/server computing. Tools and development environments. Groupware, middleware. A design project and class presentation required. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

487L. Client/Server Computing Technology Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 487. Laboratory and programming exercises developing client/server applications. Hardware and software technology. Protocols, networks, relational database technology. Applications using software/hardware tools and development environment. (Laboratory 3 hours.) Letter grade only (A-F).

488. Microcomputer Systems (2)

Prerequisites: ET 386, 386L; corequisite: ET 488L. Study of available microprocessors and microcomputer systems. Topics cover microcomputer architecture, software structure, assembly language, central processing unit, input/output, memory manipulation, and interfacing applications in Engineering Technology. (Lecture-problems 2 hours.) Letter grade only (A-F).

488L. Microcomputer Systems Laboratory (1)

Prerequisites: ET 386, 386L; corequisite: ET 488. Laboratory experience in microcomputer architecture, assembly language programming, and interfacing applications in Engineering Technology. Topics covered are central processing unit function, memory organization, and input/output operation. Available microcomputer systems will be used. Applications in Engineering Technology. (Laboratory 3 hours.) Letter grade only (A-F).

489. Computer Interfacing (2)

Prerequisites: ET 442, 442L, 488, 488L; corequisite: ET 489L. Study of theories and techniques that are used in peripheral control and interfacing. Topics covered are serial interfacing, Parallel interfacing, timing, handshaking, A/D converters, buffering, and UARTs. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

489L. Computer Interfacing Laboratory (1)

Prerequisites: ET 442, 442L, 488, 488L; corequisite: ET 489. Laboratory exercises in computer interfacing applications and design. Available computer system and its assembly language instructions will be used. (Laboratory 3 hours.) Letter grade only (A-F).

491. Microcomputer Development Systems (2)

Prerequisites: ET 489, 489L; corequisite: ET 491L. Microcomputer development systems and applications. Software and hardware development process, modular program development, complex data structures, linkage with high level language, and in-circuit emulator operation. Introduction to development cycle with in-circuit emulator. (Lec-Problems 2 hrs.) Letter grade only (A-F).

491L. Microcomputer Development Systems Laboratory (1)

Prerequisite: ET 489, 489L; corequisite: ET 491. Laboratory exercises in microcomputer development systems and applications. In-circuit emulator in software and hardware development process. (Laboratory 3 hours.) Letter grade only (A-F).

492. Computer Controlled Industrial Systems (2)

Prerequisites: ET 286, 286L; corequisite: ET 492L. Concepts of computer-based control of industrial systems and data acquisition. Signals and measurements, noise, resolution, signal conditioning. Software and hardware for data acquisition and control. (Lecture - discussion, 2 hours) Letter grade only (A-F).

492L. Computer Controlled Industrial Systems Laboratory (1)

Prerequisites: ET 286, 286L; corequisite: ET 492. Laboratory exercises on computer-based control of industrial systems and data acquisition. Software and hardware for data acquisition and control. Emphasis placed on object-oriented languages and creation of graphical user interfaces for data acquisition, display and control. (Laboratory, 1 hour) Letter grade only (A-F).

494. Applied Systems Development Project (2)

Prerequisites: ET 486, 486L, 491, 491L; corequisite: ET 494L. Systems development concepts, principles, and practices to a comprehensive systems development project. Hands-on approach is used to analyze, design and document a realistic system. Actual use of project management, interviewing, forms analysis, structured methods, behavioral dynamics, walk-throughs, report writing, and presentations. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

494L. Applied Systems Development Project Laboratory (1)

Prerequisites: ET 486, 486L, 491, 491L; corequisite: ET 494. Laboratory exercises on applied system development. Emphasis will be on systems development concepts, principles, and practices to a comprehensive systems development project. (Laboratory 3 hours.) Letter grade only (A-F).

496. Advanced Quality Systems and Analysis (3)

Prerequisites: ET 419, 420. Quality systems analysis and applications. Course includes in-depth case studies in strategic quality planning, organization and management, integrated product design, application of quality diagnostic techniques and advanced statistical problem-solving methods, product reliability and quality assurance. Students perform a comprehensive systems analysis team project covering and industry application using the continuous process improvement (CPI) methodologies. (Lec-problems 3 hours.) Letter grade only (A-F).

497. Computer Network Technology (2)

Prerequisites: ET 487, 487L; corequisite: ET 497L. Hardware and software technology as it relates to computer networking. LAN, WAN environments and access methods. Ethernet, ATM. Bridges, routers, gateways and intelligent hubs. Networking protocols. Load balancing, use of simulation tools in designing networks. (Lecture-Discussion 2 hours.) Letter grade only (A-F).

497L. Computer Network Technology Laboratory (1)

Prerequisites: ET 487, 487L; corequisite: ET 497. Laboratory exercises using hardware and software technology as it relates to computer networking. Internetworking laboratory. Ethernet, ATM. Bridges, routers, gateways and intelligent hubs. Load balancing. Use of simulation tools. (Laboratory 3 hours.) Letter grade only (A-F).

498. Manufacturing Engineering Technology Capstone Project (3)

Group project involving analysis, design, tooling and production processes for product manufacture. Economic, market and capital requirements, manpower analysis. Written reports and oral presentations required. (Lecture 2 hours, Activity 2 hours.) Letter grade only (A-F).

The faculty of the Department of Family and Consumer Sciences seeks to prepare men and women to enter professions concerned with enhancing the quality of individual and family life in the context of the near environment. The following objectives have been articulated:

To prepare men and women to the highest standards for professions in Family and Consumer Sciences and related fields requiring a bachelor's or master's degree.

To prepare students for successful careers within the diversity of human relationships while enhancing their own physical, psychological, and emotional development through their lifespan.

To provide continuing education and post-master's study in professional fields of Family and Consumer Sciences.

To provide information to a diverse student population and the community about current services and career opportunities as well as the potential for emerging professional careers in a changing society.

To employ the most effective methodology and useful resources on the university campus and in the surrounding communities. Provide the best quality program within the structure of the CSU system.

To continue creative and scholarly research for the future growth of the profession.

To apply knowledge gained from research and study to serve the needs identified in the university and surrounding community.

Accreditation

The Department of Family and Consumer Sciences is accredited by the American Association of Family and Consumer Sciences (AAFCS) (American Association of Family and Consumer Sciences, Council for Accreditation, 1555 King Street, Alexandria, VA 22314, phone: 703-706-4600). The Didactic Program in Dietetics and the Dietetic Internship are accredited by the American Dietetic Association (ADA) (Commission on Accreditation for Dietetics Education, American Dietetic Association, 216 West Jackson Boulevard, Suite 800, Chicago, IL 60606-6995, phone: 312-899-4872). The Pre-school and Toddler Study Laboratories are accredited by the National Association for the Education of Young Children. The Child Development and Family Studies Program is approved by the National Council on Family Relations to offer a program leading to Provisional Family Life Education Certification.

The Department of Family and Consumer Sciences offers programs of study leading to the Bachelor of Arts, Bachelor of Science, Master of Arts, and Master of Science degrees.

Curricula are designed to provide a liberal education through study in the social and natural sciences, the humanities and the arts, and to offer specialized instruction based on these disciplines which will lead to professional careers in Family and Consumer Sciences and related fields.

Programs of study cover various aspects of the field: Fashion Merchandising and Design; Child Development and Family Studies; Consumer Affairs; FCS Education; Food Science; Gerontology; Hospitality Foodservice and Hotel Management; Nutrition and Dietetics.

Degrees and certificates available in the Family and Consumer Sciences Department include:

- Bachelor of Arts in Family and Consumer Sciences in the following option areas: Child Development and Family Studies; Communication; Consumer Affairs; Fashion Merchandising; and Textiles and Clothing.

- Bachelor of Science in Dietetics and Food Administration in the following option areas: Nutrition and Dietetics; Food Science; and Hospitality Foodservice and Hotel Management.
- Master of Arts in Family and Consumer Sciences
- Master of Science in Nutritional Science
- Master of Science in Gerontology (specific requirements are listed under Gerontology)
- Dietetic Internship
- Child Development Certificate
- Foodservice Systems Administration Certificate
- Gerontology Certificate (Specific requirements are listed under Gerontology)
- Home Economics Single Subject Teaching Credential (a 5th year of study is required.)

Information about Family and Consumer Sciences sponsored degrees and certificates are organized by degrees and options.

Bachelor of Arts in Family and Consumer Sciences

The Department of Family and Consumer Sciences offers students a Bachelor of Arts degree in five option areas of study:

- Child Development and Family Studies
- Communication
- Consumer Affairs
- Fashion Merchandising
- Textiles and Clothing

Specific degree and certificate information as well as option requirements are as follows:

Requirements for all majors include a minimum of 120 units for the Bachelor of Arts degree. In addition to general education requirements (51 units), a minimum of 40 units in Family and Consumer Sciences must be completed, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is first accepted by the University.

Child Development and Family Studies

The field of Child Development and Family Studies (CDFS) strives to improve the lives of children and families. As an integrative and interdisciplinary specialization, Child Development and Family Studies incorporates information from a variety of disciplines. Our primary focus is on utilizing the preventive approach to assist individuals and families. Career options for professionals in the field of CDFS are wide-ranging. Many of our graduates pursue the following opportunities: family life educator; child life specialist; teen pregnancy counselor; domestic violence counselor; toy research and development professional; child development educator/administrator – infant and toddler care, preschool teaching, and school age programs; child development consultant; community resource and referral professional; parent educator; and corporate human services consultant.

Option in Child Development and Family Studies (code FCS_BA01) (120 units)

BIOL 205 or 309I; PSY 100; SOC 100 or ANTH 120; FCS 111, 132, 211, 214 and 414 or 215 and 415, 299, 311 or 314, 312I, 321, 411, 413, 492A or 492B or 3 units of 497 or second semester of 414 or 415, 499 plus 9 units of advisor approved electives. The student also must select with a Child Development and Family Studies advisor's approval 15 units from FCS 319, 387, 402, 409, 410, 412, 416A, 416B, 417, 418, 419 or FCS courses not taken above. Each course on the student's program planner must be completed with a grade of "C" or higher. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with the approval of the Child Development and Family Studies Area Coordinator.

Minor in Child Development and Family Studies (code FCS_UM06)

The Child Development and Family Studies (CDFS) minor offers the opportunity to take a concentration of courses focusing on children and families. By providing students with an aggregate of CDFS courses students will be better prepared to assume the duties within a variety of careers relating to children and families in an array of settings.

Requirements

Students seeking a minor in CDFS must meet all prerequisite course requirements. In addition, students must maintain a "C" or better in all courses required for the minor. The minor requires 21 total units: nine units of core courses consisting of FCS 111, 312I, and 319I and 12 units selected from FCS 211, 214, 311, 314, 409, 410, 411, 412, 413, 414, 415, and 418. The minor in Child Development and Family Studies will not be available to Child Development and Family Studies majors.

FOUR YEAR PLAN TO COMPLETE THE B.A. IN FAMILY AND CONSUMER SCIENCES - OPTION IN CHILD DEVELOPMENT AND FAMILY STUDIES (FCS_BA01)

120 Units Required Department of Family & Consumer Sciences

Semester 1		Semester 2

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Child Development Certificate (code FCS_CT01)

Child Development and Family Studies in the Family and Consumer Sciences Department provides an academic and professional background for working with children and families. It offers an interdisciplinary foundation in several areas that influence the life and education of children and families. Field-work opportunities where students have direct experiences with children and families in the community are provided.

The Certificate in Child Development must be earned in conjunction with the baccalaureate degree, master's degree or teaching credential in Family and Consumer Sciences or related fields. Courses offered for the certificate may be the same ones used to satisfy, where applicable, major, minor, credential, general education or interdisciplinary requirements.

Requirements

1. Bachelor's Degree in Family and Consumer Sciences or related field;
2. 36 units distributed as follows:
 - Lower division (12 units): FCS 111, 132, 211, 214.
 - Upper Division (24 units): FCS 311 or 314, 312I, 411, 413, 414 or 415, 416A, 418.

Awarding of the Certificate in Child Development will be recommended by the Certificate Program Director upon successful completion of certificate requirements.

Interested students should apply to the Child Development Certificate Program Director, Dr. Richard Tuveson, Family and Consumer Sciences (562) 985-4487 or tuveson@csulb.edu.

Child Development and Family Studies Courses

- 111. The Preschool Child
- 211. Guiding Young Children
- 213. Family, Community, and Young Children
- 214. Environments for Young Children
- 215. Environments for Infants and Toddlers
- 219. Stress Coping and Resiliency for the Professional Educator
- 290. Directed Studies
- 311. Prenatal Development and Infancy
- 312I. Family and Personal Development
- 314. The Older Child
- 319. Family Stress and Coping
- 358. Fathers and Fathering
- 402./502. Child and Family Law
- 409. Language, Learning and the Developing Child: A Cross-Cultural Perspective
- 410. International Families: Families in Cross-Cultural Perspectives
- *411. Individual Child Study and Guidance
- *412. Family Interaction
- *413. Child and Family in the Community
- 414. Fieldwork with Preschool Children
- 415. Fieldwork with Infants/ Toddlers
- 416A. Introduction to Administration and Supervision of Child Development Programs
- 416B. Applications of Administration and Supervision of Child Development Programs
- 417. Premarital Intervention
- *418. Parent Education

*419. Family Life Education

492A. Internship in Child Development and Family Studies

492B. Internship in Certified Family Life Educator

FCS Education

A Bachelor of Arts degree in Family and Consumer Sciences: Communication prepares students for careers in teaching youth and adults in various educational settings, as well as for positions in business, industry and government. Courses in the program focus on enhancing the quality of life for diverse individuals and families through assignments and activities that promote solutions to problems encountered in daily living.

Students who earn a Home Economics Single Subject Credential will be prepared to teach in middle, junior, and senior high schools, and in adult or career and technical education programs and community colleges. Career opportunities also include positions in cooperative extension, government, and community service agencies; and education program specialist positions in business, industry, and government.

Students should consult with the Family and Consumer Sciences Communication Credential Advisor as early as possible in order to design an efficient undergraduate program of study. Students with majors in other FCS option areas who are interested in becoming a secondary teacher should also consult the FCS Single Subject Credential Advisor regarding meeting subject matter competency for the single subject credential. Students may also work on a teaching credential while completing a Master of Arts degree in Family and Consumer Sciences.

Option in Communication (code FCS_BA02) (120 units)

CHEM 100; ECON 100 and 101 or 300; ENGL 100 and 101 or 300 or 317; PSY 100; SOC 100 or ANTH 120; COMM 110; HSC 411B; EDSS 300H; FCS 111, 132, 133, 154, 223, 226, 235, 251, 275, 296, 299, 312I, 314, 321, 322, 353, 387, 488, 492D, 499, plus 12 units of one of the following concentrations: Child Development and Education Occupations FCS 214, 414, 416A, 416B; Fashion Design, Manufacturing and Merchandising FCS 155, 351, 355, 455; Foodservice and Hospitality FCS 270, 375, 474, 477. Candidates for the Home Economics Single Subject Credential must take professional education requirements.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Communication Courses

- 296. Applied Arts in Family and Consumer Sciences
- 299. Themes and Issues in Family and Consumer Sciences
- 387. Consumer Technology
- *486. Teaching-Learning Strategies in Family and Consumer Sciences
- *488. Developing Occupational Programs in Family and Consumer Sciences
- *490. Special Topics
- 492D. Internship In Family and Consumer Sciences Education
- 497. Directed Studies
- 499. Perspectives in Family and Consumer Sciences
- EDSS 300H. Introduction to Teaching Home Economics
- EDSS 450H. Curriculum and Methods in Teaching Home Economics
- EDSS 472A,B,C. Student Teaching
- EDSS 473. Student Teaching, Seminar

Consumer Affairs

Consumer Affairs provides students with a foundation in Consumer Advocacy, Personal Financial Management, and Housing Services. The program focuses on how businesses, government agencies, and community organizations interact with families and consumers. Career opportunities could include: consumer credit counselor, consumer protection agent, consumer educator, financial counselor, marketing consultant, sales representative, customer service representative, paralegal, property manager, housing counselor, homeless coordinator.

Option in Consumer Affairs (code FCS_BA03) (120 units)

ACCT 201; ECON 100 and 101 or 300; ENGL 101, 317, 417, 418, or 419; FCS 223, 226, 228, 299, 312I, 321, 322, 387, 420, 422, 425, 426, 429, 486, 492C or three units of 497, 499; MKTG 300, 490; PSY 100; SOC 100; C/LA 250 or SOC 250, plus 9 units of advisor approved electives. Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Consumer Affairs Area Coordinator.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Consumer Affairs (code FCS_UM01)

Eighteen units as approved by a Consumer Affairs faculty advisor. Nine units of required courses include: FCS 223, 226, 322; and 9 upper division units selected from FCS 420, 422, 425, 426, and 429 are required to complete the minor.

The Minor in Consumer Affairs is available to any non-Consumer Affairs major.

Consumer Affairs Courses

- 223. Personal and Family Financial Management
- 226. Consumer Problems
- 228. Housing in Global Perspective
- 309I. The Consumer in the Legal and Economic Environment
- 321. Family and Consumer Resource Management
- 322. Family Housing and the Urban Community
- 420./520. Personal Finance for the Aging
- *422. Housing Policies: Public and Private
- *424. Independent Living for Disabled and Elderly Persons
- *425. Personal Financial Planning Analysis
- *426. Family Financial Problems
- *428. International Housing
- 429./529. Consumer Protection
- 492C. Internship in Consumer Affairs

Fashion Merchandising and Design

A B.A. in Family and Consumer Sciences: Textiles and Clothing or Fashion Merchandising enables students to pursue careers in the design, production and merchandising of textile and apparel products and to meet individual and family textile and apparel needs. Career opportunities include: buyer-retailing, manufacturer's representative, product designer-pattern maker, store operations manager, stylist-fashion director, textiles (testing and evaluation) specialist.

Course requirements for a B.A. in Family and Consumer Sciences: Textiles and Clothing and Fashion Merchandising are:

Option in Fashion Merchandising (code FCS_BA04) (120 units)

ACCT 201; CHEM 100 or 111A; ECON 100 and 101 or 300; HIST 131 or AH 115B; FCS 387, MKTG 300; PSY 100; SOC 100 or ANTH 120; FCS 154 or 252, 155, 251, 253, 258, 296 or ART 149, 299, 321, 351, 353, 355, 450, 455, 456, 457, 486, 492E or 497, and 499; plus 9 units of advisor approved electives. Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Fashion Merchandising (code FCS_UM02)

Eighteen units including FCS 155, 252, 455, and 457; 6 units selected from FCS 251, 253, 351, 353, 355, 492E as approved by a Fashion Merchandising and Design faculty advisor. It is the student's responsibility to adhere to all prerequisites listed below. It should be noted that several prerequisites fulfill general education requirements.

1. FCS 252 or 154, and 155 are prerequisites for FCS 455.
2. ECON 100 and 101 (fulfills GE Category D2b) or 300 (fulfills GE Category D2b), FCS 353, and senior standing, or consent of instructor are prerequisites for FCS 457.
3. FCS 251 (fulfills GE Category E), 252 or 154, and 155 are prerequisites for FCS 351.
4. ELM passage, FCS 155, ACT 201, and FCS 387, or consent of instructor are prerequisites for FCS 355.
5. FCS 455 and 457 are prerequisites for FCS 492E.

The Minor in Fashion Merchandising is available to any non-Fashion Merchandising major.

Option in Textiles and Clothing (code FCS_BA05) (120 units)

CHEM 100 or 111A; ECON 100 and 101 or 300; HIST 131 or AH 115B; SOC 100 or ANTH 120; FCS 154, 155, 251, 253, 256, 258, 296, 299, 321, 352, 353, 354, 357, 387, 450, 452, 453 or 458, 454, 456, 457, 486, 492M or 497, and 499. Each course on the student's program planner must be completed with a grade of "C" or better. In addition, a course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in a course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator.

Bachelor of Science in Dietetics and Food Administration

The Department of Family and Consumer Sciences offers students a Bachelor of Science degree in three option areas of study:

- Nutrition and Dietetics
- Food Science
- Hospitality Foodservice and Hotel Management

Specific degree and certificate information as well as option requirements are as follows:

Requirements for all majors include a minimum of 129 units to receive the Bachelor of Science degree. The courses which will provide these units are determined by the option the student chooses. In addition to general education requirements (51 units), a minimum of 40 units in Family and Consumer Sciences is required, 24 of which must be upper division. Students transferring from another college or university will receive transfer credit in required courses if the course is equivalent to the course at this University and it is accepted by the University.

Nutrition and Dietetics

Individuals choosing this option will concentrate their studies in the areas of nutritional science, medical nutrition therapy, community nutrition, food production and management of foodservice operations, chemistry, physiology, plus a variety of supporting course work in related disciplines. The Nutrition and Dietetics option with appropriate elective selection fulfills the American Dietetic Association (ADA) academic requirements for eligibility to apply for qualifying experiences required to become a Registered Dietitian. Career opportunities include: community nutrition programs, health clubs, private consulting, health and welfare agencies, program administration, health promotion, government agencies, hospitals and clinics, foodservice operations, public and private schools, research, and business and industry.

Option in Nutrition and Dietetics (code FCS_BS01) (131 units)

ANTH 412I or HCS 422I or GEOG 307I or H SC 420I; BIOL 207 or 342 and 342L; BIOL 260 or ED P 419 or H SC 403 or IS 310; CHEM 111A, 327, 448, 449; COMM 110; ED P 373I; ENGL 100; ENGL 101 or 317; HRM 361 or PSY 381; IS 233 or 300 or FCS 387; MICR 200; PSY 100; SOC 100; FCS 132, 173, 234, 235, 275, 299, 312I, 321, 331A, 331B, 332, 336, 436, 436L, 438, 461, 486, 3 units of 492K or 497, 499. Additionally, a minimum of 6 units of electives is selected in consultation with a Nutrition and Dietetics faculty advisor. Recommended electives include: FCS 375, 433, 439, 477, 492K, 497. If a stronger foundation in Chemistry is desired, CHEM 320A and 320B may be selected instead of CHEM 327. If a stronger foundation in Biochemistry is desired, CHEM 441A and CHEM 441B may be selected instead of CHEM 448.

Students who wish to take the Nutrition and Dietetics Option as a Pre-professional degree (e.g., medical, etc.) should check with the appropriate programs to verify specific requirements.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

		GE Class	3
TOTAL UNITS	10	TOTAL UNITS	13

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

The American Dietetic Association (ADA) Didactic Program in Dietetics

The ADA Didactic (Academic) Program in Dietetics (DPD) is designed to provide students with a foundation of knowledge and skills in dietetics that will enable them to perform successfully in a dietetic internship. The DPD is granted accreditation by the American Dietetic Association Commission on Accreditation for Dietetics Education, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and the United States Department of Education. It is the responsibility of the student to consult with the ADA DPD Director to verify current ADA requirements to become a Registered Dietitian.

Students who choose to meet ADA academic requirements must select FCS 375 and FCS 477 as electives in their major.

Students must receive a grade of "C" or better in the DPD courses to receive verification of completion of the ADA program. Approval of a student's academic program by the CSULB DPD Director requires that the student complete courses FCS 477, 436L and 438 at CSULB.

Food Science

The Food Science curriculum has an interdisciplinary focus which includes food science, food processing, sensory evaluation, nutrition, chemistry, and microbiology, plus a variety of supporting course work in related disciplines. All courses are designed to develop an understanding of the physical and chemical nature of foods and how it relates to the food industry and consumer safety. The food industry careers awaiting graduates offer diverse opportunities as the world supply expands with technological developments. Career options for professionals in the field of food science include: research and product development, food formulation and processing, consumer safety, sensory evaluation, quality assurance, government organization, and food ingredient sales and marketing.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Food Science (code FCS_UM04)

Significant preparation for employment in the Food Science Industry may be developed through completion of this program of study.

Twenty-one units including FCS 235, 332, 338, 432, 435, 464; 3 units selected from FCS 492F or 3 units of FCS 497 as approved by the Food Science faculty advisor. It is the student's responsibility to adhere to all prerequisites listed below. Some of the prerequisites fulfill General Education requirements.

1. CHEM 111A (fulfills GE Category B1b) or 202 (fulfills GE Category B3) is the prerequisite for FCS 235.
2. CHEM 327 and FCS 235 and MICR 200 are prerequisites for FCS 332.
3. FCS 332 is the prerequisite for FCS 338 and 435.
4. CHEM 327 and FCS 332 are prerequisites for FCS 432.
5. FCS 332 and BIOL 260 or equivalent statistics are prerequisites for FCS 464.

The Minor in Food Science is available to any non-Food Science major.

Hospitality Foodservice and Hotel Management

Hospitality Foodservice and Hotel Management furnishes students with the necessary background and expertise to excel as managers and leaders in the restaurant, foodservice, hotel, and lodging industries. The program of study provides a broad-based foundation in both academic and professional courses and includes hands-on practical experience. Career options include: restaurant manager, hotel manager, catering director, foodservice manager in a college, university, in-flight, healthcare, or corporate setting, manager in a motel or bed and breakfast facility, school foodservice director, manager in senior dining programs, stadiums or amusement parks, or as a food purchaser or broker.

Option in Hospitality Foodservice and Hotel Management (code FCS_BS03) (126 units)

ACCT 201; BIOL 205 or 207; CHEM 100 or 111A or 202; COMM 110; ECON 300 or 100 and 101; EDP 419 or IS 310 or MATH 180 or HSC 403 or SOC 250; ENGL 100; HRM 360 or 361 or PSY 381; IS 233 or 300 or FCS 387; MKTG 300; PHIL 160; PSY 100 or SOC 100; PSY 130 or PHIL 170 or ENGL 102; REC 141 or 225; FCS 132, 173, 176, 234, 270, 276, 299, 321, 336, 372, 375, 376, 378, 3 units of 379, 473, 474, 477, 486, 492J and 499. Additionally, a minimum of 7 units of pre-approved electives for professional enhancement is selected in consultation with a faculty advisor. Recommended electives include: ACCT 310; GEOG 352; GERN 400I; IS 301; REC 340I, 427, 462, 468, FCS 223 or 429, 312I or 319, 331A or 433 or 439, 332, 379, 461, 464, 492J, 497; others as approved by advisor.

FCS 492J requires 800 hours of approved work experience as a prerequisite for this option. Field study hours in FCS 379 can be used toward meeting the 800 hours.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Hospitality Foodservice and Hotel Management (code FCS_UM05)

Twenty-two units including FCS 173, 270, three units of 379 or 492J; 15 additional units selected from FCS 176 or 235, 275 or 276, 372, 375, 376, 378, 473, 474, and 477 as approved by a Hospitality Foodservice and Hotel Management faculty advisor.

The Minor in Hospitality Foodservice and Hotel Management is available to any non-Hospitality Foodservice and Hotel Management major.

Foodservice Systems Administration Certificate (code FCS_CT02)

The Certificate program in Foodservice Systems Administration is designed to provide those students pursuing the bachelor's degree in Dietetics and Food Administration, Business Administration, and other related fields with additional background in foodservice management, increasing their expertise at the management entry level. The program is appropriate for a variety of applications, including foodservice in restaurants, catering, hospitals, public schools, industrial foodservice, hotels and motels, airlines, and in governmental regulatory agencies.

The Certificate may be earned in conjunction with the bachelor's degree or awarded subsequent to obtaining the degree at CSULB. Courses taken to meet the requirements of the Certificate may be the same ones used to satisfy major, minor or General Education requirements, or the degree requirements of the participating departments.

Requirements

1. A bachelor's degree in dietetics/food administration, business administration, or other related fields;
2. Satisfactory completion of the following courses:
 - A. Nutrition: FCS 132;
 - B. Food Preparation and Service: FCS 235, 275;
 - C. Foodservice Management: FCS 375, 477, 474, 492J;
 - D. Business Administration: ACCT 201, HRM 361, 362, 440, MGMT 300, MKTG 300;
 - E. Related Fields: CHEM 202 and 302, ECON 300.
3. Maintain a GPA of 2.5 in the courses of the program and overall;
4. Consultation with and certification of successful completion by the Director of the Program in the Department of Family and Consumer Sciences.

Courses taken under the Credit/No Credit grading option may not be applied to this Certificate program.

Courses for Nutrition and Dietetics, Food Science, and Hospitality, Foodservice and Hotel Management Options

- 132. Introductory Nutrition
- 176. Fundamentals of Food Preparation in Hospitality Foodservice and Hotel Management
- 173. Applied Foodservice Sanitation
- 234. Orientation to Dietetics and Food Administration
- 235. Principles of Food Preparation
- 270. Introduction to Hospitality Foodservice and Hotel Management
- 275. Food Production Systems I
- 276. Food Production and Service in Hospitality Foodservice and Hotel Management
- 301. College Dining Services and Bookstore Administration
- 330. Dairy Science
- 331A. Fundamentals of Human Nutrition
- 331B. Fundamentals of Human Nutrition
- 332. Food Science
- 336. Cultural Aspects of Food and Nutrition
- 338. Introduction to Food Processing
- 339. Metabolic Functions of Nutrients.

- 372. Hotel and Lodging Management
- 375. Food Production Systems II
- 376. Customer Service Management in the Hospitality Foodservice and Hotel Industry
- 378. Legal Issues in Hospitality Foodservice and Hotel Management
- 379. Field Studies in Hospitality Foodservice and Hotel Management
- 430. Nutrition and Health
- 432./532. Food Analysis
- 433. Nutrition in the Life Cycle
- 435./535. Food Processing, Preservation and Packaging
- *436. Advanced Nutrition
- *436L. Nutritional Status Assessment Techniques
- *438. Medical Nutrition Therapy
- 439. Nutrition and Aging
- 461. Community Nutrition
- 464./564. Sensory Analysis of Foods
- 466./566. Biochemical and Hormonal Adaptations to Physical Activity
- 469. Food Production Development
- 473. Beverage Management
- *474./574. Cost Control in Hospitality Foodservice and Hotel Management
- 477. Foodservice Administration
- 492F. Internship in Food Science
- 492J. Internship in Hospitality Foodservice and Hotel Management
- 492K. Internship in Nutrition and Dietetics

Gerontology Certificate (code FCS_CT03)

A Certificate in Gerontology (24 units) may be earned in conjunction with the baccalaureate or master's degree. The purpose of this multidisciplinary program is to prepare specialists to work in the field of aging. Specific requirements are listed under Gerontology.

Master of Arts in Family and Consumer Sciences (code FCS_MA01)

The Master of Arts degree in Family and Consumer Sciences is designed for students seeking a master's degree, or professional enhancement, or for those wishing to pursue further graduate study. The mission of the program is to educate students to become competent researchers and practitioners who are responsive to the complex and changing needs of diverse families and communities.

The main goal of the graduate program is to provide an opportunity for students to increase competencies and knowledge within their disciplines. In addition, the program gives students opportunities to develop professional leadership and administrative skills. Students are able to work collaboratively with individuals in other disciplines as well as diverse communities to improve the quality of life.

The focus of the curriculum is to promote an understanding of theoretical approaches to the study of the disciplines within the department and the application of theories to enhance the quality of life of individuals, families, and communities. All students will get a strong background in research methods. The advanced candidate selects either a thesis track or directed project track to facilitate a selected career path. Students can expect to:

- Gain professional leadership and knowledge,
- Develop scholarship and research abilities,
- Enhance professional development.

There are three specializations in the Master of Arts degree in Family and Consumer Sciences.

- Apparel Design and Merchandising
- Consumer Affairs
- Family and Consumer Sciences Education

Interested students should contact Dr. Mary Jacob, Family and Consumer Sciences Graduate Coordinator, at (562) 985 4516 or marjacob@csulb.edu. On-line information can be found at www.csulb.edu/~marjacob.

Admission

Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB Catalog. Students must concurrently submit applications to the University Admissions and Records office and the Department.

Admission Requirements to the Department

Admission to the Master of Arts in Family and Consumer Sciences is dependent upon approval by the Graduate Coordinator. The application requirements for prospective graduate students for the Master of Arts degree are:

1. An undergraduate overall GPA of at least 3.0 and a GPA of at least 3.0 in the last 60 undergraduate semester units.
2. A copy of the application submitted to the University Office of Admissions and Records.
3. Official transcripts of your baccalaureate degree. ([These are in addition to those transcripts required for general graduate admission to California State University, Long Beach](#)).
4. Three letters of recommendation (preferably from previous instructors).
5. Additional materials that provide evidence of academic performance may be requested (at a later date) after review of applicant's file.
6. Approval of the Graduate Coordinator.
7. THE DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR ARE MAY 1ST FOR FALL ADMISSIONS AND NOVEMBER 1ST FOR SPRING ADMISSIONS.

If the appropriate coursework is taken in the correct sequence, the Qualifying Examination is passed with a grade of B and the Thesis or Directed Project requirements are completed in a timely manner, the student may be able to fulfill the requirements for the Master of Arts degree and graduate in two years (six semesters). This also requires the student to take six units every semester including two summer semesters. The Master of Arts degree in Family and Consumer Sciences offers three emphases: Apparel Design and Merchandising, Consumer Affairs, and Family and Consumer Sciences Education.

Prerequisites

1. A bachelor's degree with a major in Family and Consumer Sciences; or a bachelor's degree with a minimum of 24 units of upper division courses in Family and Consumer Sciences unless otherwise stated by the program area.
2. An undergraduate overall GPA of at least 3.0 and a GPA of at least 3.0 in the last 60 undergraduate units attempted. Students with less than a 3.0 GPA on the last 60 undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for admission into the program through the Graduate Coordinator.
3. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If the prerequisite is outdated, the prerequisite(s) must be repeated or credit obtained by examination.
4. Students deficient in undergraduate preparation must take courses to remove these deficiencies at the discretion of faculty in the specified subject matter area and the Graduate Coordinator. Courses taken to remove deficiencies or raise the GPA may not be included in the graduate program of study.

Retention

1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all graduate work transferred to meet graduate requirements.
2. Pass the Qualifying Examination at the end of the first year of coursework with a grade of B. A candidate who has failed will be allowed to take the Qualifying Examination a second time and the department Graduate Coordinator should be contacted for specific procedures for the second attempt.
3. Continued satisfactory progress toward the degree objective.

Advancement to Candidacy

1. Classified status.
2. Satisfactory completion of the Writing Proficiency Examination (WPE).
3. Minimum of 3.0 overall GPA and a 3.0 GPA average in all units undertaken for the approval program of study.
4. Complete EDP 419; FCS 511, 563, 605, 655A, and 696.

5. Pass the Qualifying Examination with a grade of 'B' or better. This examination will test the ability of the graduate student to understand, analyze, integrate and apply information and concepts presented in the following courses: FCS 511, 563, 605, 655A, and 696.

A faculty committee will prepare the questions, administer and grade the Qualifying Examination. Students do not register for a course to take the Qualifying Examination

6. Approval of the Graduate Coordinator, and Associate Dean of the College of Health and Human Services.
7. Enrolled in the semester in which the Advancement to Candidacy takes place.

Requirements

1. Completion of a minimum of 34 units of approved upper division and graduate courses with a minimum of 21 units in FCS.
2. Completion of EDP 419 and FCS 511, 563, 605, 655A, 696, 697, 692 or 698, and 9 units of Advisor approved courses in the area of specializations (Apparel Design and Merchandising or Consumer Affairs or Family and Consumer Sciences Education).
3. Completion of an oral presentation of the Thesis or Directed Project report.

Family and Consumer Sciences Courses

- 511. Family Theories
- 515. Perspectives in Human Development
- 520./420. Personal Finance for the Aging
- 529./429. Consumer Protection
- 550. Cultural Bases of Textiles and Apparel Design
- 559. Dress and Interpersonal Behavior
- 561. Curriculum Development in Family and Consumer Sciences
- 563. Evaluation in Family and Consumer Sciences
- 592. Internship in Family and Consumer Sciences/Gerontology
- 597. Independent Study
- 605. Seminar in Administration of Family and Consumer Sciences/
Gerontology Programs
- 615A. Seminar in Child Development
- 655A. Literature Review and Research in Family and Consumer Sciences
- 655B. Apparel Product Development
- 692. Directed Project
- 696. Research Methods
- 697. Directed Research
- 698. Thesis

Master of Science in Gerontology (code FCS_MS02)

A Master of Science degree in Gerontology may be earned through the Department of Family and Consumer Sciences. This interdisciplinary program consists of 45 members of the Gerontology faculty interest group in 21 departments. Gerontology is the scientific study of the processes and phenomena of aging, including biological, psychological and sociological dimensions. Specific requirements are listed under Gerontology.

Master of Science in Nutritional Science (code FCS_MS01)

The Master of Science Degree in Nutritional Science offers 3 emphases: Clinical/Community Nutrition, Food Science, and Foodservice Systems Management. These provide an opportunity for students to:

1. Specialize in nutrition therapy/community nutrition, food science or hospitality foodservice and hotel management;
2. Complete a master's degree and the academic requirements to qualify for membership in the American Dietetic Association concurrently and become eligible to apply to the Approved Dietetic Internship;
3. Increase competence in food and nutrition subject matter in preparation for college teaching, research, graduate study beyond the master's degree and administrative positions in public and private agencies.

Admission Criteria

Prospective applicants must comply with University requirements for admission to graduate studies as outlined in the CSULB *Catalog*. Students must concurrently submit applications to the University Admissions and Records office and the Department.

Admission to the Master of Science in Nutritional Science is dependent upon approval by the Graduate Coordinator. The applicant must submit the following materials to the Graduate Coordinator in the Department of Family and Consumer Sciences.

1. A copy of the completed application submitted to the CSULB Office of Enrollment Services.
2. Official transcripts of all undergraduate course work.
3. Three letters of recommendation with at least two from instructors who have direct knowledge of the applicant's scholastic ability, and professional qualifications.
4. A bachelor's degree with an undergraduate overall GPA of 3.0 and a GPA of 3.0 on the last 60 undergraduate units attempted.
5. A minimum score of 900 on the Verbal and Quantitative sections and a minimum score of 4.0 on the Analytical Writing section of the general Graduate Record Examination (GRE).
6. THE DEADLINES FOR RECEIPT OF APPLICATIONS TO THE DEPARTMENT GRADUATE COORDINATOR ARE MAY 1ST FOR FALL ADMISSIONS AND NOVEMBER 1ST FOR SPRING ADMISSIONS.

Prerequisites

1. Students may be admitted to the program under conditional status for several reasons. Students are responsible for meeting all conditional requirements to be removed from conditional status prior to enrolling in 500/600 level courses.
 - A. Students who need to bring their GPA up to 3.0 must achieve a GPA of 3.0 within one year of admission. The Graduate Coordinator, in consultation with the student and faculty advisor, will identify courses after evaluation of transcripts. Courses taken to raise the GPA may not be included in the graduate program of study.
 - B. The student who needs to pass the Writing Proficiency Examination (WPE) must do so within one year of admission and must attempt the WPE the first semester of enrollment.
 - C. The student who needs to pass the Test of English as a Foreign Language (TOEFL) must do so within one year of admission.
 - D. The student who needs to complete prerequisite deficiencies must do so using a program of study developed with the specialization area faculty advisor and approved by the Graduate Coordinator.
2. Students from other disciplines will be required to complete prerequisite courses before enrolling in 500/600 level courses.
3. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by written examination. Specifically, basic biological science courses and foundation nutrition and food science courses are evaluated for currency. The department administers a proficiency examination covering the content of FCS 331A and 332 courses for students in all emphases who have not taken these courses or their equivalents within the past five years. In addition, FCS 331B course content will be included in the proficiency examination for students in the Nutrition Therapy/Community Nutrition emphasis. Any student failing to pass the proficiency examination with a grade of "B" or better must take the appropriate course for credit.
4. Entering graduate students will meet with the Graduate Coordinator to prepare a tentative degree program. In order to enroll in any graduate course, the student must complete all prerequisites and deficiencies and must obtain approval from the Graduate Coordinator.

Advancement to Candidacy

1. Satisfy the general University requirements for Advancement to Candidacy.
2. Complete 9 units of graduate courses, including FCS 696.
3. Successfully complete of the Writing Proficiency Examination (WPE).
4. Maintain a 3.0 GPA for all course work attempted as a graduate student.
5. Complete a Program of Study in consultation with a faculty advisor.
6. Approval by the Graduate Coordinator of Family and Consumer Sciences and the Associate Dean of the College of Health and Human Services.

Requirements

1. Completion of a minimum of 34-39 units depending on concurrent completion of a dietetic internship.
2. An advanced statistics course: EDP 519 or H/SC 503 or KPE 590 or BIOL 563 or BIOL 565 or a course approved by the faculty advisor.
3. At least 18 units of 500/600 level courses in Family and Consumer Sciences.
 - A. Nutrition Therapy with Dietetic Internship (39 units): BIOL 342, FCS 530A, 530B, 531, 562, 591A, 591B, 696, 697, 692 or 698, and advisor approved specialization courses.
 - B. Nutrition Therapy without Dietetic Internship (34 units): BIOL 543, FCS 530A, 530B, 562, 655A, 696, 697, 692 or 698, and advisor approved specialization courses.
 - C. Community Nutrition with Dietetic Internship (39 units): HSC 500, FCS 530A, 531, 562, 563, 591A, 591B, 636, 696, 697, 692 or 698, and advisor approved specialization courses.
 - D. Community Nutrition without Dietetic Internship (34 units): HSC 500, FCS 530A, 531, 562, 563, 636, 696, 697, 692 or 698, and advisor approved specialization courses.
 - E. Food Science (34 units): FCS 530A, 532, 533, 535, 564, 592, 597, 696, 697, 698, and advisor approved specialization courses.
 - F. Hospitality Foodservice and Hotel Management (34 units): FCS 573, 574, 597, 655A, 696, 697, 692 or 698, plus 9 units of advisor approved specialization courses.
4. An overall GPA of 3.0 or better.
5. A written thesis or a Directed Project.
6. Oral presentation of the thesis or Directed Project report.

American Dietetic Association (ADA) Accredited Dietetic Internship (DI)

The Department of Family and Consumer Sciences offers a combined Master of Science in Nutritional Science and DI supervised practice. This experience fulfills the registration eligibility requirements of the ADA to become a Registered Dietitian. Upon successful completion of the DI, the student will be eligible to write the Registration Examination for Dietitians.

The DI requires 1,093 hours total, with 928 hours of practice divided into four emphases: nutrition therapy, foodservice systems management, community and business/entrepreneurial nutrition. The Seminar in Dietetic Practice constitutes the remaining 165 hours of the DI. The supervised practice is conducted off campus at a variety of excellent facilities. Opportunities exist in acute and long-term health care sites, as well as in teaching, research, community and governmental agencies. Students will receive training in general dietetics with experiences that expose them to various specialty areas.

Admission Requirements

1. Completion of the Didactic Program in Dietetics as stipulated by ADA with an original verification statement from a Didactic Director;
2. Earned baccalaureate degree;
3. GPA 3.0/4.0 scale required on the last 60 units of courses completed;
4. Related volunteer or work experience in the United States;
5. Graduate standing in the CSULB Master of Science, Nutritional Science program;
6. Application materials to Dietetic Internship Director by February 1st including three letters of recommendation, formal ADA application, a \$45 application fee, and copies of all college transcripts; and
7. Personal interview with Program Director and review committee.

Program Requirements

Upon satisfactory completion of the Supervised Practice in Dietetics: FCS 591A, the Seminar in Dietetic Practice: FCS 591B, and completion of two of the three core graduate courses, FCS 531, 533, 562 or equivalent with a grade of "A" or "B", the student will be eligible to take the Registered Dietitian (R.D.) exam sponsored by the American Dietetic Association.

The 6 units of required graduate courses and a total of 2 units of FCS 591B are applicable toward the M.S. degree in Nutritional Science. Completion of the M.S. degree is not a requirement for completion of the Dietetic Internship. Students should contact the Dietetic Internship Director for complete details on this program at www.csulb.edu/~gcfrank.

Career opportunities include: clinical dietitian; consultant; entrepreneur; community nutritionist; foodservice manager in hospitals, schools, universities, airlines, businesses; manager in restaurant, hotel, or lodging industries; researcher in the medical, food or nutrition industry, and government inspector in the food industry.

Nutritional Science Courses

- 530A. Carbohydrates, Lipids and Proteins
- 530B. Vitamins and Minerals
- 531. Advanced Community Nutrition
- 532./432. Food Analysis
- 533. Recent Advances in Food Science
- 535./435. Food Processing, Preservation and Packaging
- 562. Contemporary Issues in Nutrition
- 564./464. Sensory Analysis of Foods
- 566./466. Biochemical and Hormonal Adaptations to Physical Activity
- 573. Current Topics in Hospitality Foodservice and Hotel Management
- 574./474. Cost Control in Hospitality Foodservice and Hotel Management
- 577. Foodservice Administration
- 591A. Professional Practicum in Dietetics
- 591B. Seminar in Dietetic Practice
- 635. Seminar in Food Science, Nutrition and Foodservice Systems Management
- 636. Nutrition and the Media

Courses (FCS)

Lower Division

111. Preschool Child (3)

Behavior and development in early childhood, with emphasis on the interaction of parents, children and teachers. (Lecture-discussion 3 hours.) (CAN FCS 14)

132. Introductory Nutrition (3)

Prerequisite: One of the Foundation courses (may be taken concurrently). Essential nutrients, their physiological functions and human needs during the life cycle; food sources as applied to selection of an adequate diet; problems encountered providing food to meet nutritional needs; food additives and consumer protection. Not open to students with credit in FCS 232. (Lecture-discussion 3 hours.) (CAN FCS 2.)

154. Fundamentals of Apparel Production (3)

Analysis of the interrelationship of garment design and apparel construction. Application of theories and methods of apparel design to garment construction. Letter grade only (A-F). Not open to students with credit in FCS 254. (Lecture-discussion 2 hours, Laboratory 3 hours.) (CAN FCS 10)

155. Introduction to the Fashion Industry (3)

Organization, structure and interrelationship of industries and services that comprise the business of fashion: terminology, designers, trade organizations and publications. Professional opportunities explored. Letter grade only (A-F). (Lecture-discussion 3 hours.)

173. Applied Foodservice Sanitation (1)

Principles of sanitation and safety as applied to any restaurant or institutional foodservice facility. Includes the cause, control and investigation of food borne illnesses, sanitary practices with purchasing, receiving, storing and preparing food, principles of Hazard Analysis Critical Control Point (HACCP), sanitary maintenance of kitchen, dining room and all equipment, personal hygiene, vector control, and safety of the food handler. Letter grade only (A-F). (Lecture-discussion 1 hour.)

176. Fundamentals of Food Preparation in Hospitality Foodservice and Hotel Management (3)

(Recommended corequisite: CHEM 100, 202, or equivalent). This course covers the basic scientific principles related to various foods and food preparation methods from the perspective of the restaurant and foodservice industry. The fundamental skills and techniques used for handling and preparing foods to maintain quality and safety are covered. (Lecture-discussion 2 hours, laboratory 3 hours.) Letter grade only (A-F). Course fee may be required.

211. Guiding Young Children (3)

Prerequisites: PSY 100 or SOC 100 or FCS 111. Processes, techniques, models, research, and selected issues in child guidance as applied to 3-5 year-old children in family and community settings. Development of a personal approach to guidance based on current scientific research and theory concerning child development. (Lecture-discussion 3 hours.)

213. Family, Community, and Young Children (3)

Introductory study of young children and the influences of family, school and community on their development. Exploration of various cultural and social factors, focusing on the resources necessary to promote healthy growth and development. Students may not substitute this course for FCS 413. (Seminar 3 hours.)

214. Environments for Preschool Children (3)

Prerequisites: FCS 111 or consent of instructor. Introduction to preschool care-giving practices. Growth and development of preschool children relating to the classroom environment. Application of theories, models, and research to current preschool classroom practices. (Lecture-discussion 3 hours.) Letter grade only (A-F).

215. Environments for Infants and Toddlers (3)

Prerequisites: FCS 111 or consent of instructor. Introduction to infant and toddler care-giving practices. Growth and development of children from birth through three years of age relating to the classroom environment. Application of theories, models, and research to current infant and toddler classroom practices. (Lecture-discussion 3 hours.) Letter grade only (A-F).

219. Stress, Coping and Resiliency for the Professional Educator (3)

Prerequisites: ENGL 100. This course identifies stressors which diminish the effectiveness of the learning environment and place children at-risk for school problems. The Family Resiliency Model is utilized to examine critical family dynamics which affect children's emotional and psychological development. Stressors which spill over from the broader community (e.g., community violence, and natural catastrophes), as well as stressors which emerge from within the classroom (e.g., peer conflict, teacher-student conflict, and teacher-burnout are also examined). Practical skills are provided to future teachers to assist them in managing their personal stress, in developing effective communication and conflict management skills, and in creating a safe, competence-producing and cooperative learning environment. (Lecture-Discussion 3 hours.) Letter grade only (A-F).

223. Personal and Family Financial Management (3)

Prerequisites: Completion of the 13 unit G.E. Foundation requirements. A functional approach to personal finance including budget systems, consumer credit, insurance, debt collection system, status obligation, accumulating reserves. Applicable for personal and professional use. (Lecture-discussion 3 hours.)

226. Consumer Life Skills (3)

Prerequisite: Completion of the G.E. foundation. Consumer life skills with an emphasis on practical applications in the marketplace. Includes the history of the consumer movement, consumer rights and responsibilities, financial wellness, consumer debt, consumer behavior, fraud, and consumer redress. (Lecture-discussion 3 hours.)

228. Housing in Global Perspective (3)

Prerequisites: Completion of the 13-unit G.E. Foundation Requirements. Family housing options and choices in urban and rural areas throughout the world viewed within the context of history, politics, culture, art, environment, geography, technology and economics. (Lecture-discussion, 3 hours.)

234. Orientation to Dietetics and Food Administration (2)

Role of the professional in dietetics and food administration; orientation to career opportunities in Food, Nutrition and Foodservice Systems Management; personnel and physical facilities, including equipment in health care and mass feeding programs. (Lecture-discussion 1 hour, activity 2 hours.)

235. Principles of Food Preparation (3)

Prerequisites: CHEM 100 or 111A or 202. Application of scientific principles in the preparation of selected food products with emphasis on the physical and chemical properties of food; methods and techniques of food preparation; factors that contribute to quality of prepared foods. (Lecture-discussion 2 hours, Laboratory 3 hours.) Course fee may be required. (CAN FCS 8)

251. Professional and Personal Apparel Selection (3)

Prerequisites: Completion of the 13-unit G.E. Foundation requirements. Apparel selection for professional and personal needs based on design, culture and fashion. Wardrobe analysis and coordination; consumer clothing guidelines. (Lecture-discussion 3 hours.) (CAN FCS 20)

252. Analysis, Evaluation and Comparison of Ready-to-Wear (3)

Analysis of the quality of materials, design and construction in ready-to-wear garments and accessories; comparison of processes involved in manufacturing, concepts of sizing, principles of fit; aids in buying and selling. (Lecture-discussion 3 hours.)

253. Introductory Textiles (3)

A consumer-oriented approach to textile selection, use, and care. Provides a basis for a logical, consistent rationale in choosing apparel and interior textiles. Explores careers within the international textile industry. (Lecture-discussion 3 hours.) Letter grade only (A-F).

256. Intermediate Apparel Production (3)

Prerequisites: FCS 154, 155 or 251. Continuation of construction techniques used in apparel production with concentration on current fabrics and techniques used in contemporary ready-to-wear. (2 hours discussion, 3 hours laboratory.)

257. Introduction to Apparel Flat Pattern (3)

Prerequisites: FCS 154, 155 or 251. Introduction to the design concept as it applies to flat pattern manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

258. Fashion Merchandising and Design Practicum (3)

Prerequisite: FCS 155 and consent of the instructor. A structured work/learning experience in the retail industry designed to develop competencies required for successful performance in retail management or other fashion related fields. Each student must obtain a fashion retail sales position by the first day of class. (Lecture-activity 3 hours.) Letter grade only (A-F).

270. Introduction to Hospitality Foodservice and Hotel Management (3)

Introduction to the hospitality foodservice and hotel industry and historical overview of the field. Careers in hospitality foodservice and hotel management are defined. Relationship of careers to the community and the foodservice and hotel/lodging industry are explored. Overview of the organization and current forces shaping foodservice and hotel operations. (Lecture-discussion 3 hours.)

275. Food Production Systems I (3)

Prerequisites: FCS 132 and 235. Factors which influence individual, family and quantity foodservice. Menu planning and food selection, preparation and service in relation to management of time, energy and money. Foodservice practices for regular meals and special occasions. (Lecture-discussion 2 hours, laboratory 3 hours.) Course fee may be required.

276. Food Production and Service in Hospitality Foodservice and Hotel Management (3)

Prerequisite: FCS 176. This course covers the fundamentals of planning, organizing, preparing, and serving of meals as applicable to the hospitality foodservice and hotel industry. Operations relative to the provision of quality food and beverage services are included. (Lecture-discussion 2 hours, laboratory 3 hours.) Letter grade only (A-F). Course fee may be required.

290. Directed Studies (1-3)

Independent study under the direction of a faculty member. Exploration and experience in areas which are not a part of any regular course. Letter grade only (A-F). (Seminar) May be repeated to a maximum of 6 units with different topics.

296. Applied Arts in Family and Consumer Sciences (3)

Applied arts in communicating design concepts for Family and Consumer Sciences professions. (Activity 3 hours.)

299. Themes and Issues in Family and Consumer Sciences (1)

Must be taken during first semester as Family and Consumer Sciences or Dietetics and Food Administration major. Study of family and consumer sciences as a discipline of study and a profession in both historic and contemporary perspectives. An integrative, interdisciplinary framework is the basis for examining the relationship of each area of specialization to the mission of family and consumer sciences and to the root disciplines. (Discussion 1 hour.)

Upper Division

301. College Dining Services and Bookstore Administration (3)

Prerequisite: Consent of instructor. Academic and experiential learning in the management of college dining services and bookstore. An internship for student employees of Forty-Niner Shops, Inc.; 150 hours of work experience, 18 hours of classroom instruction.

309I. The Consumer in the Legal and Economic Environment (3)

Prerequisites: Completion of G.E. Foundation courses; completion of one or more Exploration courses; upper division standing. Combines the economic and ethical components of consumer issues with a critical analysis of relevant substantive aspects of consumer law. Incorporates an integrated coverage of the economic, legal, and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught. Same course as ECON 309I and FIN 309I. (Lecture-discussion 3 hours.)

311. Prenatal Development and Infancy (3)

Prerequisites: FCS 111 and upper division standing. Human development from conception through prenatal development, childbirth, the neonatal period, infancy and toddlerhood with emphasis on the various aspects of development and the environmental/social factors essential for human growth. (Lecture-discussion 3 hours.)

312I. Family and Personal Development (3)

Prerequisites: completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing; PSY 100, SOC 100 or ANTH 120. Interdisciplinary introduction to the concepts underlying contemporary American family life and the influence of social and cultural conditions on human development. (Lecture-discussion 3 hours.)

314. The Older Child (3)

Prerequisites: FCS 111, and upper division standing or consent of instructor. Behavior and development in middle and late childhood and adolescence, with emphasis on individual and cultural differences. (Lecture-discussion 3 hours)

319. Family Stress and Coping (3)

Prerequisites: Completion of the 13-unit G.E. Foundation requirements; ANTH 120 or PSY 100 or SOC 100 or consent of instructor. Examination of theories and research associated with stressors affecting family functioning throughout the lifecycle. Consideration given to both normative transitions and non-normative stressors. Emphasis on strategies to assist families to deal productively with stress and change. (Lecture-discussion 3 hours.)

321. Family and Consumer Resource Management (3)

Prerequisites: Completion of the 13-units G.E. Foundation requirements; upper division standing. Basic management principles applied to personal and family settings. The role of values, goal formation, decision-making, planning, implementing, and evaluation of managerial behavior in diverse family and cultural settings are examined. (Lecture-discussion 3 hours.)

322. Family Housing and the Urban Community (3)

Prerequisites: Upper-division standing. Critical analysis of family housing in the urban community including aspects of shelter, city and service providers. Sociological, psychological, legislative, economic and technical factors are investigated. Special attention is given to families of various structures and socioeconomic background (Discussion 3 hours.)

330. Dairy Science (2)

Prerequisites: FCS 132, 235. Study of dairy science from chemical microbiological quality assurance, processing techniques, nutritional values, and economic standpoints. Integration of recent technology as implemented to feature marketed dairy products both traditional and contemporary. (Lecture-discussion 2 hours.)

331A. Fundamentals of Human Nutrition (3)

Prerequisites: FCS 132, BIOL 207, CHEM 302 or 327 or equivalent. Nutritional needs with emphasis on the physiological and chemical foundation for these needs; factors influencing nutrient needs. (Lecture-Discussion 3 hours.)

331B. Fundamentals of Human Nutrition (3)

Prerequisites: FCS 331A. Nutritional needs with emphasis on changes through the life cycle. Introduction to dietary modifications in various pathological conditions. Introduction to nutrition assessment and nutrition education techniques. (Lecture-discussion 3 hours.)

332. Food Science (3)

Prerequisites: CHEM 327; FCS 235; MICR 200 or equivalent. Composition and structure of foods: chemical changes in foods that affect their color, flavor, texture, aroma, and nutritive quality during processing and preparation; techniques for food preservation. (Lecture-discussion 2 hours, laboratory 3 hours.) Course fee may be required.

336. Cultural Aspects of Food and Nutrition (3)

Prerequisites: PSY 100 or SOC 100 or ANTH 120 or equivalent; FCS 132. Cross-cultural study of food and nutrition. Factors such as religion, food supply and socioeconomic status are considered as they influence nutritional status and food intake in various populations throughout the world. (Lecture 3 hours.)

338. Introduction to Food Processing (3)

Prerequisites: FCS 332. Study of industrial concepts of food processing and technology. Discussion of processing raw agricultural commodities through the production phases to a final product acceptable to consumers. (The course may include limited visitations to food preparation sites.) (Lecture-discussion 3 hours.)

339. Metabolic Functions of Nutrients (1)

Prerequisites: CHEM 302, BIOL 207, and consent of instructor. Metabolic role of nutrients in the human body; practical application of nutrition to patient care. Open to Nursing Majors only. (Activity 2 hours.)

351. Fashion Promotion and Sales (3)

Prerequisites: FCS 155, 251, 252 or 154. Concepts, practices and procedures related to fashion promotion. Includes planning, directing and evaluating promotion activities such as visual merchandising, special events, publicity, and personal and non-personal selling. (Discussion 3 hours.)

352. Computerized Apparel Flat Pattern (3)

Prerequisites: FCS 256, 257 and 387. Use of computer aided design software for apparel pattern development. (Laboratory 6 hours.) Letter grade only (A-F).

353. Intermediate Textiles (3)

Prerequisites: CHEM 100 or 111A; FCS 155 and 253. Interrelationship of fiber, yarn, structure, fabric geometry and finishing treatments to the textile's appearance, comfort, durability and maintenance. (Lecture-discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

354. Analysis of Apparel Design and Tailoring (3)

Prerequisites: FCS 155, 251, 256 and 257. Analysis of traditional and contemporary processes in the design and production of tailored apparel. Application of apparel design and production process for couture, ready-to-wear, and individually produced garments. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

355. Fashion Merchandising Planning and Control (3)

Prerequisites: ELM Passage, ACCT 201, FCS 155, FCS 387, or consent of instructor. Concepts, practices and procedures as well as calculations and computer applications as they relate to apparel retail profit. Includes inventory methods, operating statements and purchase planning procedures. (Discussion 3 hours.)

357. Advanced Apparel Flat Pattern (3)

Prerequisites: ELM passage, FCS 155, 251, 253, 256 and 257. Exploration of the total design concept as it applies to pattern manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

358. Fathers and Fathering (3)

Prerequisites: PSY 100 and SOC 100 or FCS 111. An overview of the sociological and psychological literature on parenting with emphasis on fathers and fathering in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers. Discussion of fathers from various ethnic groups in an effort to diminish stereotypes. Same course as PSY 366. (Lecture-discussion 3 hours.)

372. Hotel and Lodging Management (3)

Prerequisite: FCS 270. Students will become acquainted with the organization and management of hotel and lodging facilities. The course covers the functions of various operational departments and how they interrelate. The importance of assuring quality guest service will be emphasized. Field trips may be required. (Lecture - discussion 3 hours.)

375. Food Production Systems II (3) F,S

Prerequisites: FCS 173 and 275. Facilities at various types of quantity food operations are utilized to provide students with production and operational experiences -- menu planning, costing, standardizing recipes, serving, merchandising, sanitation and safety. Field experiences include commercial and non-commercial settings, such as, hospitals, restaurants, hotels, school districts, universities, airlines, and senior foodservice systems. (Lecture - discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

376. Customer Service Management in the Hospitality Foodservice and Hotel Industry (3)

Prerequisites: FCS 270. Components of customer service management and guest relations in the foodservice and lodging industries are examined. Importance of quality customer service and its relationship to the success of operations in the industry will be covered. Field trips and off-campus activities required. (Lecture-activity 3 hours.) Letter grade only (A-F).

378. Legal Issues in Hospitality Foodservice and Hotel Management (3)

Prerequisite: Upper division standing or consent of instructor. The laws of foodservice and lodging are examined as they have evolved historically and as they exist today. Legal components of foodservice and lodging management will be covered. (Lecture discussion 3 hours.)

379. Field Studies in Hospitality Foodservice and Hotel Management (1-3)

Prerequisites: Upper division standing or consent of instructor. A structured experiential learning course designed to expand professional experiences and to enhance the development of competencies required for successful performance in hospitality foodservice and hotel management. May be repeated to a maximum of 6 units.

387. Consumer Technology (3)

Prerequisites: FCS 299 and upper division standing. The impact of consumer technology on the quality of life of individuals and families at home, in home-based work environments, and in professional environments. Computer application for consumers in family resource and household management, including problem solving and decision-making. Professional applications. Analysis of social, psychological, and economic impacts. Discussion 2 hours, Laboratory 3 hours.)

402./502. Child and Family Law (3)

Prerequisites: FCS 312I and upper division standing. Establishment, conduct, and termination of family relationships as well as the rights and duties of parties to non-marital family relationships will be examined. Topics include, the "Best Interest of the Child Rule," artificial insemination, property rights, adoption, child custody, domestic violence, support of children, spousal support, genetic testing, new trends in family law, and paternity. Letter grade only (A-F). (Lecture-discussion 3 hours.)

409. Language, Learning and the Developing Child: A Cross-Cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Letter grade only (A-F). Not open to students currently enrolled in the Liberal Studies program. Same course as LING 429, EDEL 429, and EDP 428.

410. International Families: Families in Cross-Cultural Perspectives (3)

Prerequisites: FCS 312I or consent of instructor. Designed to provide students with an in-depth understanding of cross-cultural diversities in families from varied nationalities. Information concerning similarities and differences which exists in such areas as dating and marriage customs, family structure and family forms from selected cross-cultural families will be considered. (Lecture-discussion 3 hours.)

***411. Individual Child Study and Guidance (3)**

Prerequisites: Upper division standing; FCS 311 or FCS 314 or HDEV 307I or PSY 361; or consent of instructor. Analysis and interpretation of theory, research, trends and techniques for the study and guidance of the individual child in family and community settings. (Lecture-activity 3 hours.)

***412. Family Interaction (3)**

Prerequisites: Upper-division standing, FCS 312I, or consent of instructor. Dynamics of interaction and communication in interpersonal relationships throughout the family life cycle. Experience with a variety of communication skills in small group settings. (Lecture-discussion 3 hours.)

***413. Child and Family in the Community (3)**

Prerequisites: Upper-division standing, FCS 312I, or consent of instructor. Study of cultural varieties and the needs of the contemporary American family in an urban community; analysis of current issues and problems; identification of and experience with community resources and agencies. (Lecture-discussion 3 hours.)

414. Fieldwork with Preschool Children (3)

Prerequisites: FCS 111, 211, 214, or consent of instructor. Supervised teaching/learning experience with preschool children including development of skills for observation and assessment as well as curriculum planning, implementation and evaluation. May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours.)

415. Fieldwork with Infants/Toddlers (3)

Prerequisites: FCS 111, 211, 214, or consent of instructor. Supervised teaching/learning experience with infants/toddlers, including development of skills for observation and assessment as well as curriculum planning, implementation, and evaluation. May be repeated to a maximum of 6 units with assignments reflecting increasing levels of difficulty. (Lecture 1 hour, laboratory 6 hours.)

416A. Introduction to Administration and Supervision of Child Development Programs (3)

Prerequisites: FCS 414 or FCS 415 or consent of instructor. Minimum and recommended standards and laws pertaining to housing, equipment, play space, adult/child ratio, health supervision and meal service for children's programs. Selection and supervision of personnel, program planning and directing. (Lecture-discussion 3 hours.)

416B. Applications of Administration and Supervision of Child Development Programs (3)

Prerequisites: FCS 416A or consent of instructor. Decision theory and its application, communication strategies, planning, operating and evaluating programs for young children. (Lecture-discussion 3 hours.)

417. Premarital Intervention (3)

Prerequisites: FCS 312) or consent of instructor. Review of research on dating relationships and intervention programs designed for individuals or couples prior to marriage. Consideration of shyness, dating anxiety, intimacy, sexual decision-making, values clarification, self-disclosure, and conflict resolution. Emphasis on applying research to the development of programs to assist premarital individuals enrich their relationships. (Lecture-discussion 3 hours.)

***418. Parent Education (3)**

Prerequisites: Upper-division standing and at least 6 units of upper division child development and family studies or equivalent courses, or consent of instructor. Principles and techniques for working with parents in community and school programs. Assessment of needs and development of programs for adults in a variety of social and cultural settings. (Lecture-activity 3 hours.)

***419. Family Life Education (3)**

Prerequisites: Upper-division standing, FCS 413, or consent of instructor. Concepts, principles and paradigms on family life education will be explored. Contemporary issues confronting individuals and families will be addressed. The focus of the course is on planning, implementing, and evaluating family life education programs. Gender, ethnicity, and diversity issues as they relate to family life education will be stressed. Letter grade only (A-F). (Lecture-discussion 3 hours)

420./520. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expense, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as GERN 420/520. (Lecture-discussion 3 hrs)

***422. Housing Policies: Public and Private (3)**

Prerequisites: FCS 322, upper division standing or consent of instructor. Federal, state, and local policies, programs and legislation concerning housing and urban development. Analysis of the housing industry and its influence on the consumer market. Letter grade only (A-F). (Discussion 3 hours.)

***424. Independent Living for Disabled and Elderly Persons (3)**

Prerequisite: FCS 321 or 322 or GERN 400) or consent of instructor. Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging. Activities include individual and group projects and site visits to such locations as an adapted private home, an Independent Living Center, a "special clothing" manufacturer, and a multipurpose rehabilitation center. Letter grade only (A-F). Same course as GERN *424. (Lecture-Activity 3 hours.)

***425. Personal Financial Planning Analysis (3)**

Prerequisite: FCS 223 or consent of instructor. Analysis and protection of personal and family resources; planning and forecasting goals; development of financial strategies utilizing insurance, investment, tax management, pensions, wills and trusts. (Lecture-discussion 3 hours.)

***426. Family Financial Problems (3)**

Prerequisite: FCS 223 or consent of instructor. Theory and practice in the diagnosis of family financial crises; selecting alternative solutions; constructing practical methods for the prevention of family financial problems. (Discussion 2 hours, laboratory 3 hours.)

***428. International Housing (3)**

Prerequisite: FCS 322 and upper division standing. Theories and solutions of family housing in urban and rural communities throughout the world. Letter grade only (A-F) (Discussion 3 hours.)

429./529. Consumer Protection (3)

Prerequisites: Upper Division course in consumer affairs or consent of instructor. Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems. (Seminar 3 hours.)

430. Nutrition and Health (3)

Prerequisite: Upper-division standing. Intensive study of nutrition including evaluation of current trends in food and nutrition. Designed for students in health education, elementary and secondary education, social service and other elective students. Not open to family and consumer sciences majors. (Lecture-discussion 3 hours.)

432./532. Food Analysis (3)

Prerequisites: CHEM 327, FCS 332 or equivalent. Application of scientific methods of food analysis. Consideration of the manner in which such variables as ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems. (Seminar 2 hours, Laboratory 3 hours.) Course fee may be required. Letter grade only (A-F).

433. Nutrition in the Life Cycle (3)

Prerequisite: FCS 132 or 331A or equivalent. Nutrition throughout the life cycle. Interaction of physical, biological, cultural and psychological factors involved in assessing and maintaining optimal nutritional health. Community nutrition programs introduced. (Lecture-discussion 3 hours.)

435./535. Food Processing, Preservation and Packaging (3)

Prerequisites: FCS 332 or consent of instructor. Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutritional and physical qualities. Evaluation of chemical additives in food products. Microbiological aspects of food safety and food plant sanitation. (Lecture - discussion 2 hours, laboratory 3 hours.)

***436. Advanced Nutrition (3)**

Prerequisites: FCS 331B, CHEM 448, 449 (may be taken concurrently). Metabolism of proteins, fats, carbohydrates, minerals and vitamins; interrelationship of nutrients; principles of determining nutritional requirements of individuals. (Lecture-discussion 3 hours.)

436L. Nutritional Status Assessment Techniques (3)

Prerequisites/Corequisites: FCS 436 and CHEM 449. Designed to provide training in nutrition assessment and nutrition counseling. Use of procedures for interviewing, counseling, and instructing patients/clients in various settings comparable to those encountered in dietetic practice. Includes laboratory methods for collection and interpretation of demographic, dietary anthropometrics, biochemical, and clinical data. Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours, Clinical Practice 3 hours).

***438. Medical Nutrition Therapy (3)**

Prerequisites: FCS 436, 436L (may be taken concurrently). Therapeutic nutrition. Metabolic changes in specific pathological conditions; dietary modifications used for treatment. (Lecture-discussion 3 hours.)

***439. Nutrition and Aging (3)**

Prerequisites: FCS 132 or BIOL 207 or consent of instructor. Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people. Same course as GERN *439. (Lecture-discussion 3 hours.)

450. Cultural Perspectives of Dress (3)

Prerequisites: Completion of the 13-unit G.E. Foundation requirements; ANTH 120 OR SOC 100 OR 142 and upper division standing or consent of instructor. Factors influencing design of textiles and apparel, techniques of textile and apparel production, and human behavior in the selection of dress in societies and cultural groups are studied. Emphasis on symbolism of textiles and clothing designs as a communicative device for expressing social and cultural values. Impact of other cultures on western dress and impact of western dress on other apparel systems is included. (Seminar 3 hours.)

***452. Apparel Draping (3)**

Prerequisites: FCS 353, 354 and 357, or consent of instructor. Exploration of the total design concept as it applies to fabric manipulation. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

***453. Quality Control in Fashion Merchandising and Design (3)**

Prerequisites: FCS 353. The use of target market characteristics, textile testing and product development to assure quality in products. (Discussion 1 hour, Activity 4 hours.) Letter grade only (A-F).

***454. Experimental Apparel Design (3)**

Prerequisites: FCS 352, 452 and 453. Exploration of clothing design and production through the experimental process. Individual investigation of the creative design process; evaluation of equipment; experiences with a variety of fabrics and techniques. (Discussion 2 hours, Laboratory 3 hours.) Letter grade only (A-F).

***455. Global Perspectives in Fashion Merchandising (3)**

Prerequisites: FCS 351, 355, and MKTG 300, senior standing or consent of instructor. Application of merchandising concepts for the budgeting, buying, promoting, and selling of fashion goods and apparel in global retail organizations. Letter grade only (A-F). (Discussion 3 hours.)

456. Historic Perspectives of Fashion (3)

Prerequisites: FCS 251, 253, HIST 131 or AH 115B. Social, political, economic, geographic and religious forces that affect styles of fashion from antiquity to the present day. Emphasis is on the relationship of historic styles to current fashion. Primary focus is on the fashion influences of the western world. (Seminar 3 hours.) Letter grade only (A-F).

457. International Textiles and Apparel (3)

Prerequisites: ECON 100 and 101 or 300, FCS 353, senior standing, or consent of instructor. International, political and economic issues relevant to the textile and apparel industries. Emphasis on understanding international aspects of the textile and apparel industries in the United States. (Seminar 3 hours.)

***458. Fashion Product Development (3)**

Prerequisites: Six upper-division units in apparel design and merchandising or consent of instructor. The process of designing and engineering fashion products to be serviceable, producible, salable and profitable for various consumer market segments. (Discussion 3 hours.)

461. Community Nutrition (3)

Prerequisites: Upper-division standing, FCS 331B. Survey of nutrition programs in the community. Techniques of program planning, implementation, management and evaluation (Lecture-activity 3 hours.) Letter grade only (A-F).

464./564. Sensory Analysis of Foods (3)

Prerequisites: FCS 332, BIOL 260 or equivalent statistics; consent of instructor. Principles and methods of analysis of sensory attributes. Applications, advantages and limitations of sensory methods using trained judges and consumer panels. Computer use of statistical data analysis and plotting. Statistical analysis, data interpretation and comparison with previous literature. (Discussion 2 hours, Laboratory 3 hours.) Course fee may be required.

466./566. Biochemical and Hormonal Adaptations to Physical Activity (3)

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in FCS 466; graduate students register in FCS 566. Letter grade only (A-F). Same course as KPE 466./566. (Seminar 3 hours.)

469. Food Production Development (1)

Prerequisites: FCS 332, 338, 432 and 435 or consent of instructor. Industrial concepts of food product development, formulation and technology. The course will focus on the principles of new product development, identification of ingredient replacements and improvements. Development of a prototype, ingredient interaction, and the functions of different applications of newly created product in consideration of cost analysis. Letter grade only (A-F).

473. Beverage Management (3)

Prerequisites: FCS 275 or 276 or consent of instructor, senior standing. Overview of the beverage industry. Identification, use, and service of wines and other alcoholic and non-alcoholic beverages, with an in-depth analysis of the various elements of beverage operations including purchasing, control, merchandising, and bar management. Field trips required. (Discussion 3 hours.)

474./574. Cost Control in Hospitality Foodservice and Hotel Management (3)

Prerequisites: FCS 375 or consent of instructor. Financial management, including control of food, labor, supplies, equipment and other operational costs; principles and procedures used for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; factors affecting quality and customer satisfaction; inventory and security management; utilization of computers in cost control; and analysis of financial reports in the hospitality foodservice and hotel industry. (Lecture - discussion 3 hours.) Course fee may be required.

477./577. Foodservice Administration (3)

Prerequisites: FCS 375 or consent of instructor, senior standing. Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as they are applied to the foodservice industry. Field trips required. (Discussion 3 hours.)

486. Instructional Strategies for Family and Consumer Sciences Professionals (3)

Prerequisite: Senior Standing. Must be taken in one of the last two semesters prior to graduation. Utilize the principles and concepts of each area of Family and Consumer Sciences in developing and implementing a variety of learning experiences appropriate for providing instruction to individuals or groups in informal education, business, government agencies, or other community settings. Letter grade only (A-F). (Lecture-Discussion 2 hours, Laboratory 3 hours.)

*488. Developing Occupational Programs in Family and Consumer Sciences (3)

Prerequisite: EDSS 300H or teaching experience or consent of instructor. Utilizing knowledge and skills derived from the field of family and consumer sciences as a basis for offering occupational opportunities for youth and adults through planning programs in school and community. (Lecture-discussion 3 hours)

*490. Special Topics (1-3)

Group investigation of selected topics. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units. (Seminar 1-3 hours.)

- A. European Fashion Study Tour
- B. New York Fashion Study Tour
- C. Los Angeles Fashion Study Tour

492A. Internship in Child Development and Family Studies (3)

Prerequisites: Student must be a Family and Consumer Sciences: Child Development and Family Studies major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and FCS 411, 413, and 414 or 415. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492B. Internship in Family Life Education (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Child Development and Family Studies; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Child Development and Family Studies; and FCS 319, 412, and 413. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492C. Internship in Consumer Affairs (3)

Prerequisites: Student must be a Family and Consumer Sciences: Consumer Affairs major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Consumer Affairs; and FCS 321, 226, 422, 425, 429, or consent of instructor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492D. Internship in Family and Consumer Sciences Education (3)

Prerequisites: Student must be a Family and Consumer Sciences Education major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a Family and Consumer Sciences Education faculty advisor. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492E. Internship in Fashion Merchandising (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Fashion Merchandising; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design; consent of the instructor; and FCS 455 or 457. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492F. Internship in Food Science (3)

Prerequisites: Student must be a Family and Consumer Sciences: Food Science major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Food Science; and FCS 331A and 332; FCS 432 is recommended. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492G. Internship in Gerontology (3)

Prerequisites: Student must be a Gerontology Certificate candidate; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of the Gerontology program director; and GERN 400I, ANTH 454, PSY 365 or HDEV 357I. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. Same as GERN 492G. (Seminar 3 hours.)

492J. Internship in Hospitality Foodservice and Hotel Management (3)

Prerequisites: Student must be a major or minor in Hospitality Foodservice and Hotel Management; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Hospitality Foodservice and Hotel Management; and FCS 275 or 276 or 372, and 800 hours of approved work experience. Each prerequisite course must be completed with a grade of "C" or better. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492K. Internship in Nutrition and Dietetics (3)

Prerequisites: Student must be a Family and Consumer Sciences: Nutrition and Dietetics major; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of a faculty advisor in Nutrition and Dietetics; and FCS 275, 331B and 332. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consists of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.)

492M. Internship in Apparel Design (3)

Prerequisites: Student must be a major in Family and Consumer Sciences in the option of Textiles and Clothing; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; have approval of a faculty advisor in Fashion Merchandising and Design; have consent of the instructor; and FCS 452 or 454. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a preprofessional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. (Seminar 3 hours.) Letter grade only (A-F).

497. Directed Studies (1-3)

Prerequisites: Upper class standing, consent of instructor. Independent study under the supervision of a faculty member. Exploration and experience in areas which are not a part of any regular course. May be repeated to a maximum of 6 units.

499. Perspectives in Family and Consumer Sciences (2)

Prerequisites: FCS 299, 321, 12 units of upper division coursework in Family and Consumer Sciences completed prior to enrollment. Must be taken in one of the last two semesters prior to graduation. Analysis of contemporary issues, public policies and future directions of family and consumer sciences as a discipline of study and as a profession with integrated specializations will be undertaken. A culminating outreach project is developed to emphasize the contribution of each specialization to the quality of life for individuals and families in an urban setting. (Lecture-discussion 2 hours.)

Graduate Level

502./402. Child and Family Law (3)

Prerequisites: FCS 312I and upper division standing. Establishment, conduct, and termination of family relationships as well as the rights and duties of parties to non-marital family relationships will be examined. Topics include, the "Best Interest of the Child Rule," artificial insemination, property rights, adoption, child custody, domestic violence, support of children, spousal support, genetic testing, new trends in family law, and paternity. Letter grade only (A-F). (Lecture-discussion 3 hours.)

511. Family Theories (3)

Prerequisite: FCS 412 or 413 or consent of instructor. Theoretical approaches to the study of the family; analysis of the process of interaction between the individual, the family and society with emphasis on current issues. (Seminar 3 hours.)

515. Perspectives in Human Development (3)

Prerequisite: FCS 411 or consent of instructor. Theory, trends and research toward maximum development of human potential as it applies to children in the family and community. (Seminar 3 hours.) Letter grade only (A-F).

520./420. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expense, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Letter grade only (A-F). Same course as GERN 520/420. (Lecture-discussion 3 hours.)

529./429. Consumer Protection (3)

Prerequisites: Upper Division course in consumer affairs or consent of instructor. Concepts of consumer protection with analysis of a myriad of resources available for individuals and families with consumer problems. Letter grade only (A-F). (Seminar 3 hours.)

530A. Carbohydrates, Lipids and Proteins (3)

Prerequisites: FCS 436, 436L, BIOL 260. Nutritional, metabolic and clinical aspects of carbohydrates, lipids and proteins. Current knowledge of interactions between macronutrients and assessment of needs. Letter grade only (A-F). (Seminar 3 hours.)

530B. Vitamins and Minerals (3)

Prerequisites: FCS 436, 436L, BIOL 260. Nutritional, metabolic and clinical aspects of vitamins and minerals. Current knowledge of interactions between micro- and macro-nutrients. Principles of nutritional status assessment and determination of needs. Letter grade only (A-F). (Seminar 3 hours.)

531. Advanced Community Nutrition (3)

Prerequisites: FCS 436 and 436L or 562; 461. Program planning and evaluation with emphasis on major nutrition-related public health problems. Students develop protocols for nutrition questionnaires, define a study sample and collect data. Skill development involves data analyses on computerized statistical packages, verbal and written communications. (Lecture-discussion 3 hours.) Letter grade only (A-F).

532./432. Food Analysis (3)

Prerequisites: CHEM. 327, FCS 332 or equivalent. Application of scientific methods of food analysis. Consideration of the manner in which such variables as ingredients, proportions, and techniques in food preparation affect the quality of products. Experimental laboratory problems. (Seminar 2 hours, Laboratory 3 hours.) Course fee may be required. Letter grade only (A-F).

533. Recent Advances in Food Science (3)

Prerequisites: FCS 432 or consent of instructor. New developments in food processing, techniques of food preservation and, chemical additives. Food and water sanitation. Methods of standardization, preservation, and evaluation of quality. Retention of nutritive value, flavor, appearance, and safety of foods. (Seminar 3 hours.) Letter grade only (A-F).

535./435. Food Processing, Preservation and Packaging (3)

Prerequisites: FCS 332 or consent of instructor. Methods and technological aspects in food processing, preservation and packaging. Application of principles and assessment of nutritional and physical qualities. Evaluation of chemical additives in food products. Microbiological aspects of food safety and food plant sanitation. (Lecture-discussion 2 hours, Laboratory 3 hours.)

550. Cultural Bases of Textile and Apparel Design (3)

Prerequisites: FCS 353, 450, 456, 457 or equivalents or consent of instructor. Factors influencing design and techniques of textile and apparel production in societies that create and use them. Symbolism of indigenous and adapted textile and clothing designs as a communicative device for expressing social and cultural values. May be repeated to a maximum of 6 units with assignments of increasing levels of difficulty. (Seminar 3 hours.) Letter grade only (A-F).

559. Dress and Interpersonal Behavior (3)

Prerequisites: Admission to the Fashion Merchandising and Design emphasis in the Family and Consumer Sciences graduate program or consent of instructor. Theories and methods of studying dress and interpersonal behavior. Theories and their relativity to dress include: social cognition, personal perception, self perception, attitudes and attitude changes, prejudice, interpersonal attraction, helping and hurting others, and social construction of gender. (Seminar 3 hours.) Letter grade only (A-F).

561. Curriculum Development in Family and Consumer Sciences (3)

Prerequisite: Field experience in Home Economics, Family and Consumer Sciences or a related area. Current philosophies and principles basic in the analysis and organization of curricular programs and materials. (Seminar 3 hours.) Letter grade only (A-F).

562. Contemporary Issues in Nutrition (3)

Prerequisite: FCS 436 or consent of instructor. Analysis of recent developments and current research in human nutrition. Topics include: nutrition through the life cycle; diet and dental health, athletic performance, human behavior, obesity, cancer; vegetarianism; practical application of scientific knowledge to diet management. (Seminar 3 hours.) Letter grade only (A-F).

563. Evaluation in Family and Consumer Sciences and Gerontology (3)

Prerequisites: Upper division or graduate course in statistics; FCS 696 (may be taken concurrently) or equivalent. Principles, design, and methods of program evaluation for use by Family and Consumer Sciences and Gerontology professionals. Selection and development of instrumentation for data collection and interpretation and methods of reporting. Letter grade only (A-F). (Seminar 3 hours). Same course as GERN 563.

564./464. Sensory Analysis of Foods (3)

Prerequisites: FCS 332, BIOL 260 or equivalent statistics; consent of instructor. Principles and methods of analysis of sensory attributes. Applications, advantages and limitations of sensory methods using trained judges and consumer panels. Computer use of statistical data analysis and plotting. Statistical analysis, data interpretation and comparison with previous literature. (Discussion 2 hours, Laboratory 3 hours.) Course fee may be required.

566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in FCS 466; graduate students register in FCS 566. Letter grade only (A-F). Same course as KPE 566./466. (Seminar 3 hours.)

573. Current Topics in Hospitality Foodservice and Hotel Management (3)

Prerequisite: Graduate standing. A review and evaluation of recent developments and current issues in hospitality foodservice and hotel management. Topics related to operations management, customer service, human resource management, and strategic planning in the foodservice and lodging industries are examined. (Seminar, 3 hours.) Letter grade only (A-F).

574./474. Cost Control in Hospitality Food Service and Hotel Management (3)

Prerequisites: FCS 375 or consent of instructor. Financial management, including control of food, labor, supplies, equipment and other operational costs; principles and procedures used for controlling purchasing, receiving, storing, and issuing of food, beverage, and supplies; factors affecting quality and customer satisfaction; inventory and security management; utilization of computers in cost control; and analysis of financial reports in the hospitality food service and hotel industry. (Lecture - discussion 3 hours.) Course fee may be required.

577./477. Foodservice Administration (3)

Prerequisites: FCS 375 or consent of instructor, senior standing. Principles of organization and administration in commercial and non-commercial foodservice operations are explored. Includes food purchasing, receiving, storage, inventory control, marketing, organizational management, human resource management, productivity, financial management, and quality management as they are applied to the foodservice industry. Field trips required. Letter grade only (A-F). (Discussion 3 hours.)

591A. Professional Practicum in Dietetics (11)

Prerequisite: Admission to the American Dietetic Association (ADA) Dietetic Internship (DI) and consent of instructor. Supervised on-site practicum in selected field settings preparing the student to meet performance requirements to qualify for the dietetic registration examination. A total of 22 units of FCS 591A are required to complete the DI, with the maximum of 11 units per semester. Partial application toward the MS degree in Nutritional Science. May be repeated to a maximum of 22 units. Credit/No Credit grading only.

591B. Seminar in Dietetic Practice (1)

Concurrent enrollment in FCS 591A. Oral and written presentations, critical review of case studies and practices in the American Dietetic Association (ADA) Dietetic Internship (DI) field experience, FCS 591A Professional Practicum in Dietetics. A maximum of 2 units applicable to the M.S. degree in Nutritional Science. Letter grade only (A-F). May be repeated to a maximum of 2 units. (Seminar 1 hour.)

592. Internship in Family and Consumer Sciences/ Gerontology (3)

Prerequisites: Graduate standing and consent of instructor. Field experience in which student assumes a self directed responsible role in an agency, business or other community setting. May be repeated to a maximum of 6 units. Same course as GERN 592. (Seminar 3 hours.)

597. Independent Study (1-3)

Prerequisites: FCS 400 level course in area of study. Varied learning activities utilized to achieve competency related to family and consumer sciences not offered in regular course. Written report required. (Projects.)

605. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)

Prerequisites: FCS 696 or GERN 696 or consent of instructor. Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Concepts include structure of organizations, leadership styles, management techniques, methods of analyzing and evaluating business systems, management philosophies and performance evaluation procedures. Activities and assignments focus on organization theory, planning, decision making and control techniques, in relation to leadership and management skills needed for success as a family and consumer sciences/gerontology administrator. Same course as GERN 600. (Seminar 3 hours.)

615A. Seminar in Child Development (3)

Prerequisites: FCS 511 or 515, 696 or consent of instructor. Area of study will be announced in the *Schedule of Classes*. (Seminar 3 hours.) Letter grade only (A-F).

635. Seminar in Food Science, Nutrition and Foodservice Systems Management (2)

Prerequisite: Graduate standing. Presentation and description of advanced work in special fields of food science, nutrition therapy, foodservice systems management. Letter grade only (A-F). (Seminar 2 hours.)

636. Nutrition and the Media (3)

Prerequisites: Graduate standing, FCS 331A or equivalent. Students learn the basic skills for analyzing and communicating sound nutrition messages. Projects involve program planning to address major nutrition-related public health problems with community-based nutrition interventions using the media. Students translate nutrition research into messages to educate the public. (Lecture-activity 3 hours.) Letter grade only (A-F).

655A. Literature Review and Research in Family and Consumer Sciences (3)

Prerequisites: ED P 419. Critical analyses of the current professional literature, theory, practice and research. The research process including conceptualization of the problem, literature search and review. The legal and ethical aspects of research are stressed. (Seminar 3 hours) Letter grade only (A-F).

655B. Apparel Product Development (3)

Prerequisites: ED P 419, FCS 655A and 696. An introduction to the research and strategies needed to develop apparel products and services for culturally diverse consumer markets. (Seminar 3 hours.)

692. Directed Project (1-4)

Prerequisite: FCS 697. Students will acquire experiential skills at a potential employment setting such as a government agency, clinical/research institution or an industry site. The student will work directly under the guidance of an approved supervisor/preceptor at the site in conjunction with a faculty advisor. The student's practical experience will be directed toward identifying and solving problems or conducting research or designing, implementing, and assessing programs or recommending potential courses of action. Letter grade only (A-F).

696. Research Methods (3)

Prerequisite: Upper-division course in statistics. Methodological approaches to contemporary research issues in Family and Consumer Sciences. This course focuses on the design, development, and implementation of research projects. The course encompasses the tools and techniques of research and their application in the development of a formal research design. Topics covered include the scientific method, design and testing, qualitative and quantitative methods, survey research, data collection and analysis, research reporting and presentation. Required of all master's degree candidates in Family and Consumer Sciences and Gerontology. Letter grade only (A-F). (Seminar 3 hours). Same course as GERN 696.

697. Directed Research (3)

Prerequisites: Advancement to candidacy. Student works under direct faculty supervision to complete a proposal for the thesis or directed project (thesis). Letter grade only (A-F).

698. Thesis (1-4)

Prerequisites: Advancement to candidacy, approval of department graduate committee. Planning, preparation and completion of a thesis related to the family and consumer sciences field. (Thesis.)

FEES

Average Annual Cost of Education and Sources of Funds Per Full-Time Equivalent Student

The 23 campuses and the Chancellor's Office of the California State University are financed by funding provided by the taxpayers of California and student fee revenue. The systemwide cost of education is defined as total support expenditures (State University Fee revenue and General Fund support appropriations) divided by the number of full-time equivalent students. The total 2003/04 state General Fund appropriation to the CSU (not including capital outlay funding in the amount of \$199,495,000) is \$2,492,021,000 and campus budgeted State University Fee Revenue is \$802,787,000 for a total of \$3,294,808,000. The total cost of education for the CSU must provide support for a projected 334,914 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student's academic load).

The 2003/04 systemwide cost of education per full-time equivalent student is \$9,838. Of this amount, the average student fee support per FTE is \$2,572. (The State University Fee, and campus fees that must be paid to apply to, enroll in, or attend the university are included in the average costs paid by the students. Individual students may pay less or more than \$2,572, depending on the campus and whether the student is attending part-time/full-time, or is a resident/nonresident student. Also, other campus fees may be charged that are not required of all enrolled students, which include user and penalty/deposit fee types.)

2003/04	Amount	Avg Cost per FTE Student	%
Total Cost of Education	\$3,294,808,000	\$9,838	100
• State Appropriation	2,492,021,000	7,441	76
• Student Fee Support	802,787,000	2,397	24

Schedule of Fees 2003-2004

Legal residents of California are not charged tuition. The following reflects applicable systemwide fees and nonresident tuition for the semester system in which CSULB operates. The following fees represent Fall 2003 and Spring 2004 semesters. (Fees are subject to change without notice.)

Students who wish to drop units AND to simultaneously or subsequently add the same number of units to accomplish this exchange may do so without financial penalty in State University Fees, provided this exchange in units meets all other signature requirements. This activity may not occur later than 14 days from the first day of instruction.

Procedure for the Establishment or Abolishment of a Student Body Fee

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote to two-thirds of the students voting in an election held for this purpose (Education Code Section 89300). A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code Section 89304). The student body fee was established at CSULB by student referendum on April 7, 2000. The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (Education Code Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10 percent of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to Education Code Sections 90012, 90027, and 90068. Student body association fees support a variety of cultural and recreational programs child care centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and sometimes a student referendum. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may also request the Chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus fee advisory committee and the completion of a student referendum is delegated to the President.

All Students

Application Fee (nonrefundable), payable by check or money order at time application is made: \$55.00

Undergraduates

State University Fee (per semester)

0.0 units to 6.0 units \$594.00
6.1 units or more \$1023.00

Other Mandatory Activity Fees (per semester)

Facilities Fee \$3.00
Instructionally Related Activities Fee (IRA) \$25.00
Associated Students Inc. Fee \$44.00
University Student Union Fee \$50.00
Student ID Card \$1.00
Student Health Services Fee \$35.00
Total Resident Fees Per Semester
0.1 to 6.0 units \$752.00
Total Resident Fees Per Semester
6.1 or more units \$1181.00

Graduates

State University Fee (per semester)

0.1 units to 6.0 units	\$654.00
6.1 units or more	\$1128.00

Other Mandatory Activity Fees (per semester)

Facilities Fee	\$3.00
Instructionally Related Activities Fee (IRA)	\$25.00
Associated Students Inc. Fee	\$44.00
University Student Union Fee	\$50.00
Student ID Card	\$1.00*
Student Health Services Fee	\$35.00
Total Resident Fees Per Semester	
0.1 to 6.0 units	\$812.00
Total Resident Fees Per Semester	
6.1 or more units	\$1286.00

Mandatory systemwide fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

*An increase in Student ID Card is currently being evaluated. If approved, this fee will increase to \$5.00.

Nonresident Students (U.S. and Foreign) Tuition

Non-Resident Tuition is charged to all U.S. non-California residents and Foreign students. Tuition is \$282.00 per unit, in addition to applicable State University and Other Mandatory Fees. (Tuition is subject to change by State Legislative action without notice.)

The total nonresident tuition paid per term will be determined by the number of units taken. The maximum nonresident tuition per academic year (as of 2003-04) is \$8,460.00 (Fall and Spring terms). Summer term is not part of the regular academic year.

No fees of any kind will be required of or collected from those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act, AB540, or other applicable legislation.

Optional Fees (per semester)

The following represents rates for the Fall 2003 and Spring 2004 semesters and are subject to change.

Motorcycle and Moped Parking (per semester)	\$15.75
Automobile Parking (per semester)	\$63.00*
Replacement Parking Permit	Full Price

*The automobile parking fee will increase to \$98.00 per semester in the Spring 2005 semester. An increase in Motorcycle and Moped Parking is currently under consideration.

Other Fees and Charges (non-refundable)

Late Registration	\$25.00
Application and Reapplication Fee	\$55.00
Diploma/Commencement Fee	\$30.00
Missed Deadline Fee	\$10.00
Dishonored Check Charge	\$20.00
(If the Dishonored Check was for payment of registration fees, the Late Registration Fee may also apply)	
Disputed Credit Card Charge	\$10.00
Complete transcript of record	\$4.00
Replacement of Student ID Card	\$5.00
Late Payment Fee	\$10.00

REMINDER: Fees are Subject to Change Without Advance Notice. You are responsible for the immediate payment of any approved fee increase. The CSU Trustees are considering an increase in fees.

Payments

CSULB has instituted a new payment policy starting April 2003 for the Fall 2003 semester. Payment of registration and tuition fees is no longer required prior to registration of classes. Total fees include the State University Fee, Non-Resident Tuition, other campus mandatory fees, as well as course fees. Payment of fees is required 30 calendar days after registration, or 12 to 14 days prior to the first day of instruction, whichever is earlier. Payment must be received by the due date or the student's registration request may be cancelled; postmarks are not accepted. Students who have not completed their registration before 12 to 14 days prior to the first day of instruction, must make payment within 24 hours of their registration.

Students are encouraged to make immediate payment to confirm their enrollment requests as classes fill quickly due to CSULB's high enrollment. They may also make a payment before registering (i.e. a deposit), if they choose.

Payment can be satisfied by cash, check, credit card, Financial Aid deferments, actual Financial Aid awards, approved payment plans, other approved fee deferments, approved private scholarships, approved tuition waivers, or confirmed third party sponsors. Payments can be made in the following ways:

- Check
 - In person at the Cashiers Window, Brotman Hall 148
 - Mailed to the Cashiers, Brotman Hall 148, CSULB, 1250 Bellflower Blvd., Long Beach, CA 90840
- Cash
 - In person only at the Cashiers Window, Brotman Hall 148
- Credit Card
 - Self-Service over the web at <http://my.csulb.edu>
 - In person at the Cashiers Window, Brotman Hall 148
 - Mailed to the Cashiers, Brotman Hall 148, CSULB, 1250 Bellflower Blvd., Long Beach, CA 90840-0103

Note: Telephone credit card payments are not accepted by the Cashiers. The CCAPS and U-ASK Kiosk systems no longer accept payments as they have been discontinued.

Payment of fees CANNOT be made if disputed credit card charges exist on your account.

Contact Student Account Services, Brotman Hall 155 for further information.

Credit Cards

Payment of student fees can be made by credit card (VISA or MASTERCARD only) at:

1. Self-Service – over the web at <http://my.csulb.edu>
2. Cashiers Window, Brotman Hall 148.
 - Hours are Monday – Thursday, 9:00AM to 7:00PM and Friday, 9:00AM to 5:00PM.
 - Note: Cashiers Window closes at 5:00PM during Spring Recess, Winter Recess and Summer Break.
3. Mail remittances to the Cashiers, Brotman Hall 148, CSULB, 1250 Bellflower Blvd., Long Beach, CA 90840-0103

Short Term Loans

A limited number of short term loans to assist in paying for registration fees, books, or authorized emergencies are available to qualified students on a first come, first served basis. Information about this program is available at Brotman Hall

155, Student Account Services, or Brotman Hall 148, Cashiering Windows #8-10. Recorded Information is available by calling (562) 985-8258.

Installment Payment Plan

The Installment Payment Plan is available to all eligible students except financial aid recipients who have sufficient funds to cover the State University Fee. A \$33 non-refundable charge is assessed to defer the administrative costs of the program. A 9% service charge is assessed to the deferred balance for non-resident tuition and international Visa students. An Installment Plan Contract must be obtained from Student Account Services, Brotman Hall 155, or Brotman Hall 148, Cashiering Windows #8-10 before submitting payment.

Auditors

Students enrolled as auditors, not for credit, are exempt from payment of the application fee, but must pay fees appropriate to the number of units taken.

Refund of Fees Including Nonresident Tuition

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, *California Code of Regulations*. For purposes of the refund policy, mandatory fees are defined as those systemwide fees and campus fees that are required to be paid in order to enroll in state-support academic programs at the California State University. Refunds of fees and tuition charges for self-supported programs at the California State University (courses offered through extended education) are governed by a separate policy established by the university.

In order to receive a full refund of mandatory fees, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available in the *Schedule of Classes*.

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the university's established procedures will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

For state-supported semesters, quarters, and non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the university's established procedures and deadlines.

Students will also receive a refund of mandatory fees, including nonresident tuition under the following circumstances:

- The tuition and mandatory fees were assessed or collected in error;
- The course for which the tuition and mandatory fees were assessed or collected was cancelled by the university;
- The university makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or

- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the university for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the university.

Information concerning any aspect of the refund of fees may be obtained from the Student Account Services Office.

Refunds of Registration and Tuition Fees

Details regarding Registration and Tuition Fee Refunds may be found in the *Schedule of Classes*. As this information may differ from one semester to another, students are advised to refer to the *Schedule of Classes* for that particular semester. Students must complete the class drop or withdrawal process prior to becoming eligible for any credit of fees. The amount to be refunded is determined by the effective withdrawal or drop date. In addition, any other outstanding financial obligations that the student may have incurred will be deducted from any credits due to the student before a refund is processed. Refund deadlines are reflected in the *Schedule of Classes*. A \$10.00 processing fee will be withheld from the refunds.

Details regarding refunds due to Medical Withdrawals can be found in the *Schedule of Classes*.

Further details regarding fees that may be refunded and the circumstances under which they may be refunded may be obtained by consulting the *California Code of Regulations*, Title V, in the following sections:

Registration and Tuition Fees – Section 41802

Parking Fees – Section 42201

Housing Fees – Section 42019

The following fees are non-refundable: Late Fees, Application Fees, Disputed Credit Card Fees, Dishonored Check Fees, Student I.D. Card Replacement Fees, Late Payment Fees.

Special Circumstances Refunds

There are two levels of financial appeals. They are as follows:

I. Request for Refunds After Published Deadlines:

Students who withdraw or drop in units after the deadlines detailed in the *Schedule of Classes* have passed, may appeal for a Special Circumstances Refund based on the following:

1. Campus Variation
2. Compulsory Military Service
3. Death of Student
4. Fees Collected in Error

Further information regarding Special Circumstances Refunds may be obtained from the current semester's *Schedule of Classes* or by calling the Student Account Services Office at (562) 985-8280.

II. Financial Appeals Independent Review Committee (F.A.I.R.)

If a student wishes to petition the decision made at the first appeal level, a written request must be submitted to the F.A.I.R. Committee (BH 155) for review.

This Committee has been approved by the President as the final financial appeal level. It consists of representatives from various University Offices. F.A.I.R. will only review appeals for the current academic year.

Tax Credits for Higher Education

The Taxpayer Relief Act of 1997 encourages postsecondary and continuing education by providing tax benefits to students and their families. Taxpayers can claim one, or in some cases, two of these new tax credits for expenses they pay for postsecondary education for themselves and their dependent children. These tax credits can directly reduce the amount of federal income tax for returns filed.

The Hope Scholarship Credit is available on a per-student basis for the first two years of postsecondary education. The maximum credit is \$1,500 and will increase for inflation after 2001. It will be offered to students or parents who pay tuition and related expenses for attendance at least half-time in a degree-granting program.

The Lifetime Learning Credit provides a tax credit to parents and/or students of up to 20% of the first \$5,000 of total annual educational expenses. This maximum will increase for inflation starting in 2003.

Education expenses that are paid with tax-free grants, scholarships, and employer-education assistance are not eligible for either tax credit. Education expenses paid with loans are eligible for these tax credits. Interest paid on qualified student loans may also be deductible from taxpayer income. Interest can be taken as a deduction during the first 60 months (5 years) of repayment on student loan.

To assist you in taking advantage of these tax credits, the University will provide you with the following information:

- Form 1098T (Tuition Payments Statement) - This form must be submitted along with your federal tax return to claim these credits.
- Form W-9S (Request for Student's or Borrower's Social Security Number and Certification). This form should be completed and returned to the University, if your social security number is incorrect.
- An 800 phone Hot Line to assist you with your inquiries.
- The website is <http://www.tra97.com>

Either your lender or loan servicer will provide interest deduction information to you. Those eligible will be provided with a 1098E form, which must be submitted along with your federal tax return to claim this deduction.

NOTE: The information described above, and the information available via the Hot Line regarding the new tax benefits, is in general terms. Your ability to claim these tax benefits depends on your individual circumstances. We recommend that you consult a tax advisor to determine your personal eligibility.

Parking Fee

Parking at CSULB is limited. Parking permits are required 24 hours a day, Monday through Friday, and the vehicle code is enforced at all times. Please contact the Parking Office (562) 985-4146 for additional information.

To request a partial or full refund, attach all parking documents, permits stickers, decals and gate cards to the refund application and return to Student Financial Services, Window #10, Brotman Hall 148. Refer to the *Schedule of Classes* for deadline information. If parking documents are not available or have not been received, students MUST contact the Parking Administration Office located on Merriam Way adjacent to

the parking structure. If any of these parking documents are affixed to the vehicle, their removal by a campus security officer or under the officer's direction, shall constitute appropriate return. Attach all parking documents, permits stickers, decals and gate cards to the refund application and return to Student Financial Services, BH 148 Window #10. There shall be no refund if such amount is less than \$5.

There shall be no refund for:

1. Coin operated parking meters.
2. Daily permits for coin operated parking gates.
3. Special events.
4. Fees paid by monthly payroll deductions.

Determination of Residence for Nonresident Tuition Purposes

The campus Office of Enrollment Services is responsible for determining the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, as necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence for tuition purposes at the California State University is found in *California Education Code*, sections 68000-68090, 68120-68134, and 89705-89707.5, and *California Code of Regulations*, Title 5, Sections 41900-41916. This material can be viewed on the Internet by accessing the California State University's website at www.calstate.edu/GC/resources.shtml.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Steps must be taken at least one year prior to the residence determination date to show an intent to make California the permanent home with concurrent relinquishment of the prior legal residence. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one's permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator's license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in the military service.

The student who is within the state for educational purposes only does not gain the status of resident regardless of the length of the student's stay in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of

abode. The residence of an unmarried minor who has a parent living cannot be changed by the minor's own act, by the appointment of a legal guardian or by the relinquishment of a parent's right of control.

A married person may establish his or her residence independent of his or her spouse.

An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence, which will be considered along with physical presence and intent in determining reclassification.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "resident student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are: Fall – September 20; Spring – January 25; Summer – June 1.

There are exceptions from nonresident tuition including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues until the student has resided in the state the minimum time necessary to become a resident;
2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident;
3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student has resided in the state the minimum time necessary to become a resident.;
4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. There is no time limitation on this exception unless the military person transfers out of California or retires from military service. If either of those events happen, the student's eligibility for this exception continues until he or she resides in the state the minimum time necessary to become a resident;
5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. Effective January 1, 1994, this exception continues until the military personnel has resided in the state the minimum time necessary to become a resident.
6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in state the minimum time necessary to become a resident.
7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous residence is maintained at an institution.
8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.
9. Certain credentialed, full-time employees of California school districts;
10. Full-time State University employees and their children and spouses; State employees assigned to work outside the State and their children and spouses. This exception continues until the student has resided in the state the minimum time necessary to become a California resident;
11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties;
12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident;
13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident;
14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.
15. Persons who have attended a California high school for at least three years and have graduated from a California high school or equivalent. Please Note: Those who hold non-immigrant visas (i.e. F, J, B, H, etc...) are not eligible for this exception. Those seeking this exception must fill out the Student Affidavit for Exemption of Nonresident Tuition form, which is available at www.csulb.edu/enrollment.

Students classified as non-residents may appeal a final campus decision within 120 days of notification by the campus. A campus residence classification appeal must be in writing and submitted to The California State University, Office of General Counsel, 401 Golden Shore, 4th Floor, Long Beach, California 90802-4210. The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or

concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the *California Code of Regulations*. Resident students who become nonresidents, or who no longer meet the criteria for an exception, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Admissions Office. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.

Changes in residency for tuition purposes are not automatic. Students wishing to apply for residence reclassification may submit a form and supporting documents from October 1 to November 1 for Spring semester, and from March 1 to April 1 for the Fall and Summer semesters.

Exceptions from nonresident tuition are valid for one semester only. Students must reapply for an exemption each semester. Forms are located at the Office of Enrollment Services, BH 101.

Fees and Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, the institution may withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise, or any combination of the above from any person owing a debt until the debt is paid (see Title 5, *California Code of Regulations*, Sections 42380 and 42381).

Prospective students who register for courses offered by the university are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the Student Account Services Office. The Student Account Services Office, or another office on campus to which the Student Account Services Office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Financial Obligations and Holds

Other University offices, including but not limited to the Library, may request that a student reimburse the University for an item that was not returned, returned late or damaged; or they may impose other charges. The requesting office may ask the Student Account Services Office to post this charge to the student's account. Once posted it becomes an obligation to the student. Student Account Services will be able to provide general information concerning obligations. The student

will be directed to the appropriate department in which to inquire about the obligation. Until all obligations are paid, or a written release from the originating office is received by the Student Account Services Office, a financial hold will be placed on academic records and the student is restricted from receiving University services, including but not limited to registration, grades, and transcripts. If the obligation continues to appear on the University reports, the student's name will be submitted to the Franchise Tax Board. In this case, the student or former student, permanently loses the privilege of submitting checks as payment for fees or services. (Acceptable methods of payment are cash, cashiers' check or money order). The State then has the authority to withhold amounts owed to the University from any tax refund to which the student may be entitled.

To pay your balance due – Cashier's Office, BH 148.

For information regarding the amount due – Student Financial Services, BH 148, Window #10, or call Student Account Services at (562) 985-8280.

- EPT, ELM and WPE – For information, refer to your *Schedule of Classes*. For further information, contact the Testing and Evaluation Services (562) 985-4006
- Perkins Loans – Business Office, BH 155, (562) 985-5348
- Measles – Student Health Services, (562) 985-4771
- VISA hold (Foreign Clearance) – Center for International Education, BH 201, (562) 985-4106

Dishonored Checks

Students paying fees by personal check are hereby given notice that if the unpaid check is returned dishonored to the University FOR ANY REASON, a \$20.00 fee is charged to the student's account. The University has no control whether the bank sends checks through a second time for clearing. The check should be honored upon first presentation to the bank.

In compliance with *California Code of Regulations*, Title V, Section 42381, students with dishonored checks may be disenrolled from classes and may be required to reapply for admission to the University. Also, future services including, but not limited to, transcripts, grades, and future registration may be withheld.

Dishonored checks are monitored in the student's record. Any student with a record of two (2) dishonored checks will lose check writing privileges with the University and future payments by personal check will not be accepted.

Disputed Credit Card Charge

Students are strongly encouraged to contact the Student Financial Services Window #10 (BH 148), or call Student Account Services at (562) 985-8280, before disputing a credit card charge through the bank. Upon receipt of a disputed credit card charge, the amount of the credit card charge plus a \$10.00 fee becomes the STUDENT'S financial obligation to the University. Payment of Registration fees with a credit card charge which has later been disputed may result in disenrollment and in withholding of future University services including, but not limited to, transcripts, grades, and future registration (*California Code of Regulations*, Title V, Section 42381). Students who are disenrolled may be required to reapply for admission to the University.

FINANCIAL ASSISTANCE

Estimated Expenses

Students should be prepared to meet expenses for fees within 30 days of registration. Books should be purchased when classes begin. Other expenses are ongoing and must be anticipated monthly and included in the total cost of attendance. Expenses generally go up an average three to four percent per year. Actual costs depend upon where the student lives and if there are dependent children. Financial aid programs are designed to help students meet standard University-related expenses during the academic year. The following budgets will assist students in planning costs for average expenses: (Costs include University fees, books and supplies, room and board, personal miscellaneous and transportation based on 2003-2004 CSULB budgets.)

Student living at home with parents (nine month term)	\$9,598
Student living in a residence hall (nine month term)	\$11,716
Single student living off-campus (apartment, house nine month term, assumes shared housing)	\$14,824

Availability of Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from Financial Aid, BH 101, (562) 985-2500:

1. A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at [name of institution];
2. For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
3. A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and the criteria for continued student eligibility under each program;
4. The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which the student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
5. The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
6. The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
7. The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
8. The responsibility of [name of institution] for providing and collecting exit counseling information for all student borrowers under the federal student loan programs; and
9. The terms and conditions for deferral of loan payments for qualifying service under the Peace Corps Act, the Domestic Volunteer Service Act of 1973, or comparable volunteer community service.

Information concerning the cost of attending California State University, Long Beach is available from the Office of Financial Aid, BH 101, (562) 985-2500, and includes fees and tuition (where applicable); the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of California State University, Long Beach for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the Controller, BH 365.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulations is available from the Office of Financial Aid, BH 101, (562) 985-8403.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, Sports Athletics and Recreation, 562-985-8527.

Information concerning teacher preparation programs at CSULB, including the pass rate on teacher certification examinations, may be obtained from either Elementary/Special Education Admission Advising, ED1 67, (562) 985-9259, Elementary Education: www.csulb.edu/cedinfo, Special Education: www.csulb.edu/colleges/colled/special-education, or Single Subject Office, ED 1 53, (562) 985-4325, www.csulb.edu/depts/singlesubj.

The Office of Financial Aid at CSULB provides both financial and advisory assistance to enable students to pursue a quality education despite increasing costs. It administers funds made available by the federal and state governments, CSU and by private sources that are awarded to students who demonstrate a need to cover educational expenses.

Due to limited funding, deadlines are critical. Students financial aid files must be complete before financial need can be determined. To receive maximum funding, students must file a Free Application for Federal Student Aid (FAFSA) by March 2.

Application

To apply for financial aid from CSULB, students must file the Free Application for Federal Student Aid (FAFSA). The FAFSA is a multi-purpose form that also is used to apply for California Grants from the California Student Aid Commission and for Pell Grant funds from the federal government. The FAFSA must be mailed to a nationally designated processor. New students may obtain the FAFSA from high school counselors or local college financial aid offices. Students currently enrolled at CSULB may pick up the FAFSA from the Office of Financial Aid. Detailed information about CSULB financial aid programs is available in the Office of Financial Aid, BH 101, (562) 985-2500. The submission of various supportive documents may be required. These may include the following: (1) verification of all taxable and nontaxable income reported on the FAFSA; and (2) other clarifying information requested by the Office of Financial Aid. Upon receipt of all documentation, the applicant's file is evaluated to determine eligibility for financial aid. A student is automatically considered for all programs for which he/she qualifies at the University by submitting the FAFSA, and appropriate supporting documents. All loan, grant and work programs are available for the academic year.

Financial Aid Eligibility

To determine financial aid eligibility, a standard needs analysis system is used. This system allows the Office of Financial Aid to analyze family financial strength and ability to contribute toward the cost of attending CSULB. Subtracted from the student's educational expenses to arrive at financial need are: the parental contribution, the applicant's (and spouse's) contribution from employment, savings, a portion of assets and other resources. As long as program funds permit, a "package" consisting of various types of funds (grants, loans, work-study) is awarded to meet full need.

Although enrollment is assumed to be full-time, part-time students are eligible to receive aid if they carry a minimum of six undergraduate units, or four graduate level units.

Notification of Awards

Upon determination of eligibility, students are sent notice of a financial aid offer. Students are also notified if determined to be ineligible.

It is the goal of CSULB to package aid that fully meets the need of all qualified aid applicants. However, in the event that funds are insufficient, priority will be given to students whose financial aid files meet the first priority deadlines and who demonstrate the highest need.

Academic Responsibilities

Aid recipients must:

1. be in good academic standing;
2. make satisfactory academic progress toward a degree by earning credit for units attempted each semester; and
3. remain within the maximum time frame for the degree program in which the student is enrolled.

Aid eligibility is governed by the number of units attempted and successfully completed with a passing grade ("D" or better). Most aid recipients enroll in a full-time program of study carrying 12 undergraduate units or 9 graduate level units (500-level courses or higher) per semester. To be considered an eligible financial aid applicant, students cannot have attempted more academic units than an established "unit limit." At CSULB, the established unit limit is 150% of the published length of an academic program measured in units. The unit limit includes all attempted units. This includes units attempted as a recipient of financial aid as well as units attempted while not receiving aid. It also includes transfer units for those students who have attended colleges elsewhere, and any units of remedial coursework.

Financial Responsibilities

If you are determined ineligible for financial aid, you are responsible for the payment of any University obligations you may have, including fees.

Students who are receiving financial aid funds and completely withdraw from all of their classes, may have to repay all or part of the award they received. Students should check with the financial aid office to find out if they will owe a repayment, before withdrawing from all of their classes.

Campus Financial Aid Programs

Federal Perkins Loans

The Federal Perkins Loan is a federal program providing long-term, low interest loans to both graduate and undergraduate students. Repayment of loan principal and interest begins nine months after you cease to be enrolled at last half-time.

Federal Supplemental Educational Opportunity Grant (SEOG)

The SEOG is a federally funded grant program for undergraduate students with exceptional financial need.

Federal Work-Study (FWS)

The work-study program is a federally funded employment program to expand part-time job opportunities for students with financial need. Students are placed in jobs according to their skills, career and academic goals and must see the Office of Financial Aid for job referral. Positions are available on campus or with organizations off campus.

Educational Opportunity Program Grants

EOP grants are provided by the State of California for undergraduate students admitted to one of The California State University campuses under the Educational Opportunity Program. Eligibility is determined by the same need criteria as federal financial aid programs. Students also receive special academic counseling and tutorial assistance when needed. Further information may be obtained by contacting the Educational Opportunity Program Office on campus.

State University Grant

The State University Grant is funded by the State of California to assist students whose ability to attend postsecondary institutions is jeopardized by increases in student fees. Students must be residents of California and must demonstrate financial need.

Graduate Equity Fellowship

The Graduate Equity Fellowship is funded by the California State University to graduate students who have experienced educational or economic disadvantages or hardships. Applicants must be California residents, demonstrate financial need of at least \$1000, and be accepted into or continuing in a full-time graduate program with at least a 3.0 grade-point average. Approximately 40 recipients are selected annually depending upon fund availability.

University Scholarships

The Office of Financial Aid administers a limited number of small scholarships funded by CSULB. Other scholarships are funded by private donors, businesses, corporations, agencies, religious groups, and fraternal and civic organizations. Most scholarships are not based solely on financial need. They may be awarded on the basis of academic achievement, leadership, merit, motivations, and talent. Some scholarships are administered directly by the academic department for specific academic majors. Students may consult with their academic department or the Office of Financial Aid regarding scholarships available.

President's Scholars Program — Four Years

High school valedictorians may be eligible. Includes registration fees, housing, and book allowance – up to \$24,000 for four years.

National Merit Scholarship finalists may also be eligible. Includes registration fees, housing, food, and book allowance – up to \$34,000 for four years.

Applications are available from your high school counselor. For more information contact Valerie Bordeaux in the CSULB Office of University Outreach and School Relations at (562) 985-5358.

Outside Student Aid Programs

The following programs are administered by other agencies and coordinated by the Office of Financial Aid:

Cal Grant A

Cal Grant A is awarded by the California Student Aid Commission to entering and continuing undergraduate students who are California residents. Cal Grant A awards are based on academic achievement and financial need. Grants are for fees only.

Cal Grant B

Cal Grant B is awarded by the California Student Aid Commission to entering undergraduate students who have not completed more than one semester of college. Applicants must be California residents, and must demonstrate substantial financial need. Grants vary depending on educational costs. Fees, in addition to the basic award, are normally provided in the second, third, and fourth years. The grant is renewable for four years.

Cal Grant T

(Subject to State Funding) Cal Grant T is awarded by the California Student Aid Commission to students who have graduated from college, are California residents and are enrolled in a professional teacher preparation program. Cal Grant T awards are based on academic achievement and financial need. Grants are for one year of fees only.

Prior to receiving the funds, students must sign a Teaching Service Agreement to teach for a minimum of one year in a California public elementary or secondary school.

Federal Pell Grant Program

The Pell Grant Program is a federal aid program designed to provide financial assistance to undergraduate students who demonstrate financial need under the guidelines of the program. Teacher credential students in an eligible program may also qualify. Once a student is determined eligible for the Pell Grant, the amount of the award is based on the cost of education at the school attended and enrollment on a half-time, three-quarter-time, or full-time basis. Eligibility is limited to U.S. citizens and eligible non-citizens.

Federal Stafford Loan (GSL)

The Stafford Loan Program enables eligible students to obtain loans through banks, credit unions, and other lending institutions outside of the University. During the time the student is enrolled at least half-time, the federal government pays the interest on the cumulative amount borrowed if the loan is based on financial need. An unsubsidized Federal Stafford Loan is not based on financial need. Once funds are disbursed, the student is responsible for interest due on the loan while in school. The Parent Loan is available to parents of dependent undergraduate students. The parent's credit history is a determinant for participation in this program.

Information, brochures, advising, and application forms are available from BH 101, or phone (562) 985-2500.

Federal regulations allow any student to apply for the Federal Stafford Loan providing the student: 1) is enrolled and in good standing or has been accepted for enrollment at an eligible school; 2) is enrolled as at least a half-time student; and 3) is a citizen of the United States or an eligible non-citizen. Local lender policy is available from the Office of Financial Aid.

Fee Waivers

The California Education Code includes provisions for the waiver of mandatory systemwide fees as follows: Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships);

Section 66025.3 – Qualifying children, spouses, or unmarried surviving spouses of a war period veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; qualifying dependents of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of or the child of a recipient of a Congressional Medal of Honor and meet age and income restrictions; and

Section 68121 – Student enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks must have been a resident of California on September 11, 2001.

Students who may qualify for these benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination.

Bureau of Indian Affairs (BIA) Grants

Students who are at least one-fourth American Indian, Eskimo, or Aleut may apply for a BIA grant. The amount of the grant depends upon financial need and availability of funds. Students must complete an application for financial aid and then contact their tribe or tribal agency for an application.

Other Types of Financial Assistance

Cooperative Education (Co-Op)

The Cooperative Education Office places students in career or academic related positions with corporations, businesses, agencies and institutions. Students are paid at normal entry-level wages. Minimum periods of employment for full-time Cooperative Education placements are one semester. For part-time placements, a minimum of 20 hours is required. Summer internships are also available. Contact the Experiential Learning Center, BH 250.

Student Part-Time Employment

Listings are available and assistance is offered in the Career Development Center to students interested in part-time employment.

Federal/State Regulations

The information contained in this publication accurately reflects regulations and policies at the time of printing. Be aware that Federal and State regulations governing financial aid processing and eligibility are subject to change at any time.

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

Film and Electronic Arts is an innovative academic program which emphasizes both professional education and liberal arts, both theory and practice. Focusing upon the integration of media and the arts in our information society, as well as upon the impact of technology on our culture and the media themselves, the curriculum is designed to assist the student major in becoming more future-oriented while developing a sound foundation in the arts and the humanities.

The faculty includes a diversity of expertise and interests which cross traditional media lines, resulting in ongoing discussion and experimentation while integrating the traditional audio, film, and video production modes. Theory and aesthetics are taught as an integral part of the development of communication and production skills. Part-time lecturers include a variety of highly-qualified Los Angeles area media professionals.

Admission Under Impaction

Applications to the major in Film and Electronic Arts exceed the number that can be accommodated by the Department's facilities and resources; therefore, this program has been designated Impacted by the California State University.

Admission Requirements

1. Completion of a minimum of 56 semester units of college-level course work including all 12 units of General Education Foundation and at least an additional 18 units of General Education courses with a cumulative GPA of 3.0 or higher; and
2. Completion of ART 110 (Introduction to the Visual Arts) or AH 115C (Foundation Art History III) (or equivalent).
3. International student applicants must complete the Test of English as a Foreign Language with a score of 550 or higher. Priority admission will be given to legal residents of the State of California.

Transfer students must apply to the University during the initial filing periods for fall or spring semesters.

Currently enrolled students who meet the requirements listed above must submit an Admission to the Upper-Division Major form to the Film and Electronic Arts Department by February 1 for the fall semester or October 1 for the spring semester.

Supplemental Screening Criteria

1. During the first semester as a declared major, students must complete FEA 399 with a grade of "B" or higher. Students receiving a "C" in FEA 399 are allowed to retake the course once for purposes only of admission into the major. The "C" grade will remain in effect and no credit will be gained by taking the course twice. It will allow the student, however, to have a second chance for admission into the major if he/she is able to obtain a "B" or higher on the second try. A student receiving a "D," "F," "WU," or "U" in FEA 399 the first time will no longer be eligible for admission to the major, but will be allowed to repeat/delete that grade per university policy.
2. Students must also successfully complete the CSULB Writing Proficiency Examination (WPE) requirement by the end of the semester in which FEA 399 is completed.

Students who fail to meet either of the supplemental screening criteria may not continue in the major and may re-apply only once in accordance with University policy regarding impacted majors.

Bachelor of Arts Film and Electronic Arts

Two B.A. degree options are offered by the department: one in Film and Electronic Media (code FEA_BA01) and one in Film and Video Production (code FEA_BA02). Students in both options must complete all requirements, pre-requisites, and electives in residence at the upper division level.

Option in Film and Electronic Media (code FEA_BA01) (120 units)

Total units required for the B.A.: 51 units

Students are admitted to this option by virtue of meeting the Admission Requirements and Supplemental Screening Criteria listed above.

Requirements

1. Major screening course: FEA 399 with a "B" or better
2. Media Studies Core: FEA 300, 302, and 314
3. Media Practice Core (choose 2 courses from one of the following tracks for a total of 6 units)
 - A. *Management*: FEA 327, 373, 376, 420
 - B. *Writing*: FEA 303, 304, 404, 408
4. Culture, Media, and Politics (choose 3): FEA 310, 317, 318I, 380, 394, 412, 486I
5. International Media (choose 3): FEA 363, 364, 392A, 392B, 392C, 392D; only one of the following may be used to meet this requirement: FEA 454/ITAL 454, FEA 456/FREN 456, RUSS 428, SPAN 428
6. Electives: This requirement can be met with a sequence of elective courses in FEA. With prior advisor approval, certain non-FEA courses may be counted toward this requirement.
7. Senior Theory Course (choose 1): FEA 401, 402 or 430

A "B" or better is required in FEA 399

**Option in Film and Video Production
(code FEA_BA02) (120 units)**

Total units required for the B.A.: 54 units

Students meeting the requirements for admission to the major (completion of 56 units, including undergraduate GE requirements with a 3.0 average) may apply for admission into the production option by presenting a portfolio to the department during the second semester of their sophomore year or after.

Admission to the option will be in Fall Semester only. Portfolios will be comprised of 1) a statement of purpose, 2) a critical analysis of a film or television show, 3) a sample of creative work (either writing, visual art or a short film or video) and 4) two letters of recommendation. After a favorable evaluation of the portfolio, prospective students are interviewed by FEA faculty to determine whether or not they will be admitted. Students admitted to this option are required to maintain a minimum 3.0 GPA average in all major course work in order to retain their place in the option; moreover, they are required to abide by the rules and regulations as specified in the FEA Department's *Policies and Procedures* handbook, which is available for purchase at the University Bookstore.

Requirements

Take the following courses in the following sequence:

1. Fall Semester of Junior Year: FEA 399, 303, 309, 344, 415
2. Spring Semester of Junior Year: FEA 300 (may be taken prior to admission to the major), 302, 304, 307, 336

At the end of the junior year, all students must declare one or two tracks of specialization for their senior year. This is done in consultation with faculty advisors who must approve each student's choice or choices of specialization.

3. Senior Year students select a track of specialization from the following five available Tracks:

A. Narrative Film Production: FEA 340, 342. Admission to this track is subject to a competitive admissions process based on a script submitted by the student seeking admission in the Spring Semester of the junior year.

B. Documentary Film Production: FEA 380, 382

C. Cinematography: FEA 341, 343

D. Screenwriting: FEA 404, 408

E. Sound: FEA 320, 325

(Students work collaboratively across tracks and with students in the Film and Electronic Media Option to produce films for end of the year showcases.)

Media Studies Electives. Students in their senior year choose four electives from the following two areas:

4. Culture, Media, and Politics all students choose 2 from the following: FEA 310, 317, 318I, 380, 394, 412, 486I

5. International Media - all students choose 2 from the following: FEA 363, 364, 392A, 392B, 392C, 392D; Only one of the following may be used to meet this requirement: FEA 454/ITAL 454 (Italian Cinema), FEA 456/FREN 456 (French Cinema), RUSS 428 (Russian Cinema), or SPAN 428 (Spanish Cinema).

Production Electives: Students in their senior year take two production electives or they enroll in a second track of specialization from the five listed above in Section 3.

6. Production Electives - single track majors choose 2 from the following: FEA 314, 327, 328, 337, 403, 405, 492.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Courses (FEA)

Upper Division

300. History of Media (3)

Prerequisites: Completion of 13-unit General Education Foundation requirements. The development of film and electronic media in the United States. Letter grade only (A-F).

302. Critical Study of Film (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Introduction to classical and critical theories of film analysis including Realism, Formalism, Classical Hollywood Cinema, Auteur Theory, the Art Film, and Structuralism. Letter grade only (A-F).

303. Film and Electronic Media Writing (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Study of scripting and other writing skills unique to audio, video, and film. (Lecture-Discussion 3 hours) Letter grade only (A-F).

304. Writing the Short Script (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. For students in the Option in Film and Video Production must be taken concurrently with FEA 336. Scriptwriting with emphasis on adaptation and dramatic fiction. Letter grade only (A-F).

305. Film History (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Historical development of the motion picture. Letter grade only (A-F).

307. Audio Production (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Basic principles and techniques of audio production. (Act 4 hrs to be arranged.) Letter grade only (A-F). 309. Cinematography (3)

Prerequisite: Admission to Option in Film/Video Production. Basic principles of cinematography and lighting. (9 Hours laboratory.) Letter grade only (A-F).

310. Media and Culture (3)

Prerequisite: Completion of 13-unit General Education Foundation requirement. An exploration of the ways films create, pattern, shape, reinforce, and/or change culture. A variety of viewpoints, derived from contemporary critical and cultural studies, highlight the relationship between a culture and its images.

312. Television Programming Symposium (3)

Discussion and analysis of creative problems in the television industry. Current local and network programs. Interviews with visiting executives, producers, directors, writers, performers and technicians. May be repeated to a maximum of 6 units, only 3 units may be used as credit toward major.

313. New Technologies in Film and Electronic Media (3)

Prerequisites: FEA 300. Study of developing technologies in film and electronic media production, distribution, and exhibition. Focus on economic, social, and policy issues raised by technological innovation and the impact of new technology on the industry. Letter grade only (A-F).

314. Theatrical Film Symposium (3)

Lectures and discussions of creative problems in the motion picture industry; current films; interviews with visiting producers, directors, writers, performers and technicians. May be repeated to a maximum of 6 units, only 3 units may be used toward the major.

316. Mass Media and Society (3)

Prerequisite: Completion of 13-unit General Education Foundation requirement. Theory and functions of the mass media in America. Enduring issues and unresolved problems of the media. Impact of mass culture on a mass-mediated society. G. E. credit only. Does not count toward units in the major.

317. Women in the History of U.S. Film (3)

History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective. Same course as W/ST 316.

318I. Theory of Fiction and Film (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Examination of the narrative methods and conventions of American and British fiction and the methods and conventions of film; consideration of the relationships between the artistic structure of fiction and film; study of theoretical and practical approaches to fiction and film. Same course as ENGL 318I.

320. Sound Design (3)

Prerequisites: Major status. Examination of the basic aesthetic and technical principles of sound design for film and video production. Letter grade only (A-F).

325. Audio Activity (2)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Group and individual experience in audio production. Specific assignments determined in consultation with instructor. (80 Activity hours to be arranged.) May be repeated to a maximum of 4 units in different semesters. Credit/No Credit grading only.

327. Production Management (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Examination of the step-by-step process of budgeting and scheduling feature length motion pictures. Students will learn methods and procedures of breaking down a script, analyzing production elements, preparing a production board, scheduling principal photography, and preparing a comprehensive budget. (Lecture 3 hours; activity hours to be arranged.) Letter grade only (A-F).

328. Film and Video Lighting (3)

Prerequisites: FEA 309. Priority enrollment given to students in Film/Video Production Option. Examination of the basic aesthetic and technical principles of film and video lighting. Students will explore various creative lighting styles and techniques through lectures and practical exercises. Letter grade only (A-F).

335. University Television Activity (2)

Prerequisites: Consent of instructor. Experience in administration and production of video projects at the University Television facility. (Activity hours to be arranged.) May be repeated to a maximum of 4 units. Credit/No Credit grading only.

336. Beginning Film/Video Production (3)

Prerequisite: Admission to Option in Film/Video Production. Preparation for the advanced level of film and video production through research and exercises designed to develop essential filmmaking and videographic skills. (Production laboratory 9 hours.) Letter grade only (A-F). Course fee may be required.

337. Digital Arts Production (3)

Prerequisite: Major status or consent of instructor. This course is designed to further students' understanding of the techniques and concepts involved in the production of visual effects, computer animation, and interactive media. Through screenings, fieldtrips and hands-on production, students will explore the art and science of digital graphics, 2D compositing, and 3D animation. This exploration will culminate in the development of digital elements for a student production. May be repeated to a maximum of 6 units in different semesters. Letter grade only (A-F).

340. Advanced Film/Video Production (3)

Prerequisite: FEA 336. Experience in the group production of original films and videos. Emphasis is on narrative short films and videos resulting in public performance. (Production laboratory 9 hours.) Letter grade only (A-F). Course fee may be required.

341. Advanced Cinematography I (3)

Prerequisites: FEA 309 and 336. Designed to further the student's understanding of the art and craft of cinematography and to enhance the effectiveness of visual storytelling in their advanced film and video projects. Emphasis is on production cinematography, lighting, composition, lenses, film stocks, filters, telecine and lab procedures. Letter grade only (A-F).

342. Advanced Film/Video Production II (3)

Prerequisite: FEA 340. Experience in the group production of original films and videos. Emphasis is on narrative short films and videos resulting in public performance. (Production laboratory 9 hours.) Letter grade only (A-F). Course fee may be required.

343. Advanced Cinematography II (3)

Prerequisite: FEA 341. Designed to further the students' understanding of the art and craft of cinematography and to enhance the effectiveness of visual storytelling in their advanced film and video projects. Emphasis is on post-production cinematography including printing, opticals, video mastering, and video-to-film transfers. Letter grade only (A-F).

344. Directing (3)

Prerequisite: Admission to the Option in Film/Video Production. Theory and practical experience in the directing of narrative film. Emphasis on directing actors in fictional work. (Activity hours to be arranged.) Letter grade only (A-F).

355. Audio-Video-Film Activity (1)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Group and individual experience in areas of audio-video-film production, and broadcast education. Specific assignments determined in consultation with instructor. (Activity hours to be arranged.) May be repeated to a maximum of 2 units. Credit/No Credit grading only.

363. International Electronic Media Systems (3)

Prerequisites: FEA 300 or consent of instructor. Comparative analysis of internal and external electronic media systems with emphasis on their motives, origins, technologies, and programming. Consideration of political, economic, regulatory constraints, and the potential impact of new technologies. Letter grade only (A-F).

364. Global Electronic Media Communication (3)

Prerequisites: FEA 300 or consent of instructor. Study of international electronic media systems targeted toward other nations with emphasis on their cultural, economic, and political influences. Focus on the impact of new technologies on such cross border communication in the future. Letter grade only (A-F).

373. Electronic Media Programming (3)

Prerequisites: FEA 300 or consent of instructor. Principles and practices of programming for electronic media networks, television and radio stations, and local cable systems. Analysis of the relationship between programming, promotion, and profit. Letter grade only (A-F).

376. Film and Electronic Media Sales and Promotion (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of WPE, or consent of instructor. Study of marketing, promotion, and sales among film distributors, production companies, program suppliers, broadcast networks, cable systems, local radio, television, and cable operators. Theory and application of media research principles, promotion strategies. Development of selling skills. Letter grade only (A-F).

380. Documentary History and Theory (3)

Prerequisites: FEA 300 and 302 or consent of instructor. A critical study of the history, methods, and aesthetics of documentary media production. A specific focus on problems of representation, objectivity, and personal style in both theory and practice. Course fee may be required. Letter grade only (A-F).

382. Documentary Digital Video Production (3)

Prerequisites: FEA 309 with a grade of "B" or better and FEA 380 (may be taken concurrently). Theory and practice of directing, shooting, and editing video documentaries and experimental video using digital video and post-production technology. Letter grade only (A-F).

392. International Cinema (3)

Prerequisites: FEA 300 and 302, or consent of instructor. Variable topics course which explores the domain of international cinema. May be repeated to a maximum of 6 units with different topics. Topics will be announced in the *Schedule of Classes*. Course fee may be required.

A. European Cinema 1930-1960

B. European Cinema 1960-1990

C. Latin American Cinema

D. Japanese Cinema

394. American Film Genres (3)

Prerequisites: FEA 300 and 302 or consent of instructor. Historical and critical examination of Hollywood film genres. Places genre analysis and theory within a sociocultural perspective including issues of gender and ethnicity. Genres to be covered include the Western, film noir, science fiction/horror, detective/gangster, the musical, war films, screwball comedy, and family melodrama. May be repeated to a maximum of 6 units with different topics in different semesters. Letter grade only (A-F).

399. Media Aesthetics (3)

Prerequisite: Major status. Study of aesthetic principles governing media productions. Emphasis on relationships between various art forms and development of critical vocabulary. Students must achieve a grade of "B" or better in order to maintain status as a major. Students receiving a "C" in FEA 399 may retake the course once for purposes only of admission into the major. The "C" grade will remain in effect and no credit will be gained by taking the course twice. It will allow the student, however, to have a second chance for admission into the major if he/she is able to obtain a "B" or higher on the second try. This policy applies retroactively to Fall 2000 to students who have taken the course once and received a "C". A student receiving a "D", "F", or "U" in FEA 399 the first time is not eligible for admission to the major, but will be allowed to repeat/delete that grade per university policy. Letter grade only (A-F).

401./501. Film Critical Theory (3)

Prerequisites: FEA 300 and 302 or consent of instructor. Study of contemporary theoretical models of film analysis and evaluation. Topics include: Structuralism, Feminism, Psychoanalytic Theory, Narratology, Cultural Studies, Postcolonialism, Queer Theory, and Post-modernism. Course fee may be required. Letter grade only (A-F).

402. TV Critical Theory (3)

Prerequisites: FEA 300 and 310 or consent of instructor. Examines television from an aesthetic and textual perspective. Specific interests include the distinctive ways that television produces its meanings, as well as the ways that critical analysis differs from quantitative mass communications approaches. Topics to be covered include semiotics, postmodernism, and feminism, as well as narrative, ideological, and psychoanalytic theories of criticism. Letter grade only (A-F).

403. Diverse Media: Writing and Production (3)

Prerequisites: Major status or consent of instructor. Advanced seminar and workshop in professional writing and production of projects in film, television, theatre, and diverse media. Working as a group, students will develop, write, produce, and exhibit creative works for both university and entertainment industry venues. This course provides a professional production experience covering various genres and formats, with projects varying from semester to semester. Students will learn professional writing and production, but will emphasize the roles of greatest personal interest. Letter grade only (A-F). May be repeated to a maximum of 6 units in different semesters.

404. Advanced Scriptwriting for Film and Electronic Media (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Writing dramatic and comedic screenplays and teleplays. Includes study of produced models with emphasis on the creative process. May be repeated to a maximum of 6 units. Letter grade only (A-F).

405./505. Comedy Writing (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Study of a variety of historical and contemporary models. Practice in the creation of print pieces; stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism. Letter grade only (A-F).

408/508. Writing the Screen Adaptation (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, approval of the MFA (Screenwriting) Coordinators and Full Classified Status in the MFA (Screenwriting) Degree Program or Conditional of Classified Status or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Writing script adaptations, with a study of adaptation theory and successful adaptational models. Letter grade only (A-F). May be repeated to a maximum of 6 units. Same course as ENGL 408.

412./512. American Television and African Americans (3)

Prerequisites: FEA 300 and 310 or consent of instructor. Comparative examination of the depiction of African Americans in American network and syndicated television in a variety of types of programs. Letter grade only (A-F).

415. Electronic Editing (3)

Prerequisites: Admission to the Option in Film/Video Production or consent of instructor. Principles of non-linear editing in post-production. Letter grade only (A-F).

420. Electronic Media: Labor and Management (3)

Prerequisites: Major status, FEA 399 with "B" or better and successful completion of the WPE, and at least 12 units completed in the major, or consent of instructor. Study of management and labor in the changing field of telecommunications, with emphasis upon the manager's roles and functions in the labor intensive cable, film, radio, television and related industries. Letter grade only (A-F).

430. Government Media Policy and Politics (3)

Prerequisites: FEA 300 and 310 and additional 6 units in the major. Current issues, policies, and regulations affecting the cable, film, radio, television industries, including the impact of new technologies. Letter grade only (A-F).

454. Italian Cinema (3)

Historical and critical examination of Italian cinema. Letter grade only (A-F). Same course as ITAL 454.

456. French Cinema (3)

Historical and critical examination of French cinema. Letter grade only (A-F). Same course as FREN 456.

486I. Alternative Media (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Critical study of censorship and suppression of information in mainstream media by governmental and corporate entities. Focus on the importance of freedom of information and access to diverse viewpoints. Students select and research environmental, multicultural, peace, and other issues utilizing alternative media.

490./590. Special Topics in Film and Electronic Arts (3)

Major status or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Topics of current interest in radio-television-film selected for intensive development. May be repeated to a maximum of 9 units with different topics; only 6 units may be applied toward the B.A. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

492. Internship (3)

Prerequisites: Senior standing in major or consent of instructor. Students intern with cooperating media facilities. May be repeated to a maximum of 6 units. Credit/No Credit grading only.

498./598. Advanced Seminar (3)

Prerequisites: FEA 399 with a "B" or better and successful completion of the WPE, and senior standing in the FEA major, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Intensive study of significant issues in film and electronic media. Letter grade only (A-F).

499./599. Special Projects in Film and Electronic Arts (1-3)

Prerequisites: Major status, FEA 399 with a "B" or better and successful completion of the WPE, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

Graduate Level

501./401. Film Critical Theory (3)

Prerequisites: FEA 302 and 406/506 completed and an additional six units in film studies or consent of instructor. Study of contemporary theoretical models of film analysis and evaluation. Topics include: Structuralism, Feminism, Psychoanalytic Theory, Narratology, Cultural Studies, Postcolonialism, Queer Theory, and Postmodernism. Letter grade only (A-F).

505./405. Comedy Writing (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, or consent of instructor. Study of a variety of historical and contemporary models. Practice in the creation of print pieces; stand-up routines; scripts for television, film, and other media. Heavy focus on comedy as social, political, and technological criticism. Letter grade only (A-F).

508./408. Writing the Screen Adaptation (3)

Prerequisites: FEA 303 or 304 with a "B" or better, or ENGL 405 or 407 with a "B" or better, approval of the MFA (Screenwriting) Coordinators and Full Classified Status in the MFA (Screenwriting) Degree Program or Conditional of Classified Status or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Writing script adaptations, with a study of adaptation theory and successful adaptational models. Letter grade only (A-F). May be repeated to a maximum of 6 units.

512./412. American Television and African Americans (3)

Prerequisites: Major status, FEA 399 with a "B" or better and successful completion of the WPE, or consent of instructor. Comparative examination of the depiction of African Americans in American network and syndicated television in a variety of types of programs. Letter grade only (A-F).

590./490 Special Topics in Film and Electronic Arts (3)

Prerequisites: Major status or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Topics of current interest in film and electronic arts selected for intensive development. May be repeated for a maximum of 9 units with different topics. Only 6 units may be applied toward the B.A. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

598./498 Advanced Seminar (3)

Prerequisites: FEA 399 with a "B" or better and successful completion of the WPE, and senior standing in the FEA major, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Intensive study of significant issues in film and electronic arts. Letter grade only (A-F).

599./499. Special Projects in Film and Electronic Arts (3)

Prerequisites: Major status, FEA 399 with a "B" or better and successful completion of the WPE, or Conditional Classified Status in the MFA (Screenwriting) Degree Program or Conditional Classified or Full Status in the MFA (Creative Writing) Degree Program, or consent of instructor. Research into an area of special interest to the student, culminating in a research paper or production. Productions will be limited by equipment and facilities available during any term.

604A. Advanced Seminar in Screenwriting (3)

Open to students in MFA in Creative Writing and consent of instructor. Advanced seminar and intensive workshop in creative writing, reading, criticism, media history, and aesthetics. From a thematic basis, the course covers prose, poetry, and all formats and genres of omnimedia, leading students from text-for-print creativity to text-for-performance and screen/film/video art. Letter grade only (A-F).

604B. Advanced Seminar in Screenwriting (3)

Prerequisites: FEA 604A and consent of instructor. Advanced workshop in intensive thematic and creative consciousness, writing, criticism, media history, aesthetics, and instructional paradigms, as students write, workshop, revise, and complete a long-form screenplay. Letter grade only (A-F).

604C. Advanced Seminar in Screenwriting (3)

Prerequisites: FEA 604A and 604B, or consent of instructor. Advanced workshop in intensive and practical creative writing for collaborative media. A long-form screenplay is developed and drafted to completion by the class as a group, then submitted to industry professionals, and finally revised pursuant to creative commentary and business necessity. Letter grade only (A-F).

604D. Advanced Seminar in Screenwriting (3)

Prerequisites: FEA 604A, 604B, and 604C, and consent of instructor. Advanced seminar and intensive workshop in creative writing, reading, criticism, media history, aesthetics, and the teaching of a creative writing curriculum. The course leads students to completion of their Thesis Project Proposals. Letter grade only (A-F).

Courses (FIN)

Lower Division

220. Introduction to Law and Business Transactions (3)

Introduction to law and the American legal system in today's business world. Special emphasis is given to contracts, sales, and commercial paper. An examination of the role and function of the judiciary, elements of civil and criminal lawsuits, and other emerging areas of the law, including alternative dispute resolution. Letter grade only (A-F).

Upper Division

300. Business Finance (3)

Prerequisite: IS 310 can be taken concurrently. An introductory course for all business majors, integrating computer applications and management information systems in the following areas of finance: (1) Time Value of Money, Risk, Valuation, Cost of Capital, Capital Structure; (2) Capital Budgeting; (3) Long-Term Financing Decisions; (4) Working Capital Policy and Management; (5) Financial Analysis and Planning; (6) Special topics including; Mergers, Bankruptcy, and International Finance. Letter grade only (A-F).

309I. The Consumer in the Legal and Economic Environment (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses; upper-division standing. Combines the

economic and ethical components of consumer issues with a critical analysis of relevant substantive aspects of consumer law. Incorporates an integrated coverage of the economic, legal and regulatory environment of consumers in avoiding and resolving disputes regarding fraudulent transactions, financial matters, personal and real property contracts, torts, credit and investment issues, and family relationships. Team taught. Same as FCS 309I and ECON 309I. (Lecture-Discussion 3 hours.)

310. Personal Finance (3)

Financial analysis planning and management for the individual. Topics include owning and financing a home, minimizing taxes, investing – goals and strategies, budgeting to match income and expenses, developing a savings plan, controlling expenses and credit usage, determining life, health, home and auto insurance needs, planning retirement. Letter grade only (A-F).

320. Legal and Regulatory Environment of Business (3)

Prerequisite: FIN 220. An examination of the forms of business organizations, employment law, securities law, environmental law, anti-trust issues, and international transactions. A consideration of the social, cultural and economic influences on domestic and multinational corporations. Exploration of the relationship of government to business. Introduction to business ethics. Letter grade only (A-F).

330. Insurance Principles (3)

Principles of risk-bearing and insurance; life and property-liability insurance needs of the individual. Types of carriers and insurance markets; organization and functions of carriers; industry regulation. Letter grade only (A-F).

340. Real Estate Principles (3)

Overview of real estate markets, institutions and activities from the perspective of the decision makers involved in real estate development, financing and equity investment. The fundamental physical, legal, regulatory, economic, mathematical and taxation considerations influencing real estate decision and values are investigated. The real estate decision support areas of brokerage, property management, appraisal and counseling are examined. Letter grade only (A-F).

350. Investment Principles (3)

Prerequisite: FIN 300. Investment markets and transactions; sources of investment information and advice; return vs. risk; margin trading and short selling; investment planning; investing in equities and fixed income securities; speculative tax-sheltered investments; gold and other tangibles; portfolio management. Demonstrations and use of microcomputer technology in the above areas, including accessing various databases available to the investor. Letter grade only (A-F).

360. Capital Markets (3)

Prerequisite: FIN 300. Capital formation, rates, markets and institutions. Flow of fund analysis, intermediation, interest rate structures, risks and liquidity. Management of financial institutions.

400. Financial Management (3)

Prerequisites: FIN 300 and ACCT 310 or 320. An intermediate level course in financial management integrating computer applications and management information systems into the area of financial functions and decisions. The course is primarily a case study and requires use of the computer and appropriate software. The main areas of concentration are: cash budgeting, capital budgeting, business combinations and mergers, cost of capital, and international finance. Letter grade only (A-F).

424. International Legal Environment of Business (3)

Prerequisite: FIN 320. Study of the global environment in which international managers and investors function. Topics will include the form in which international businesses operate, such as subsidiaries and joint ventures, along with a discussion of how business operations are affected by treaties, and by the laws and policies of the several governments involved. Also, included are resolution of business and investment disputes, protection of prop-

erty rights, the financing and taxing of international operations, and ethical responsibility issues. Letter grade only (A-F).

425. Legal Aspects of Real Estate (3)

Prerequisite: FIN 340. Basic principles of law of real estate as related to conveyances, titles, private and public restrictions on the use of land, escrows, community property and financial transactions. Letter grade only (A-F).

450. Security Analysis (3)

Prerequisite: FIN 350. Use of microcomputer technology to perform security analysis including bonds and the bond market, stocks and the stock market, security valuation, fundamental and technical analysis, portfolio management and risk-reward relationships. A review of the various microcomputer software programs available to perform all aspects of security analysis and portfolio management, including accessing and utilization of the numerous databases available to the investment analyst. Letter grade only (A-F).

480. Derivatives and Futures Markets (3)

Prerequisites: FIN 300 and 350. The study of futures markets includes an analysis of the exchanges, the operation of member firms, the mechanics of trading, the construction of a personal-risk profile analysis and the discussion of traditional decision variables, including the construction of a 2-asset portfolio. Included is a solid theoretical examination of the question of bias in futures prices, the theory of the price of storage, ledger and speculator behavior, and the stochastic nature of the futures prices. Letter grade only (A-F).

490. International Finance (3)

Prerequisite: FIN 300; suggested, CBA 300. International trade theories, international payments; currency value fluctuations and exchange rates; international capital markets; roles of developing countries; international institutions and multi-national enterprises. Individual research required.

495. Selected Topics (1-3)

Prerequisite: Consent of instructor. Topics of current interest in finance selected for intensive study. May be repeated to a maximum of 6 units. Topics will be announced in the *Schedule of Classes*.

497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, on Dean's List and 3.0 GPA or higher in finance. Individual projects, study and research of advanced nature in finance.

499A-B. Applied Portfolio Management (3-3)

Prerequisites: FIN 499A: FIN 350, 400, 450 (either or both FIN 400 and 450 may be taken concurrently), and consent of instructor and Department Chair; FIN 499B: FIN 499A and consent of instructor and Department Chair. FIN 499A to be offered in Fall and accepted students must enroll in FIN 499B in Spring. Participation in the management of an actual investment portfolio. Research, monitor, and analyze securities and make buy and sell recommendations for a student-managed investment fund utilizing state-of-the-art computer software and on-line information data retrieval services. Contribute to the publication of a semi-annual report of the activities of the fund. Market, sector and firm analysis with individual and group presentations and outside research required. Letter grade only (A-F).

Graduate Prerequisite Course

520. Legal, Regulatory, and Ethical Environment of Business (3)

Prerequisite: MBA standing required. Analysis of the legal and regulatory environment in which managers must operate. Review of the constitutional and judicial structures for resolving disputes, the effect of governmental and political policies, and the liability encountered by business in various defined areas of substantive law. Special attention is given to ethical issues faced by business in the domestic and global marketplace. Letter grade only (A-F).

Graduate Level

501. Financial Management Concepts (3)

Prerequisite: MBA standing required. Financial theory, management and environment of the firm integrating computer applications, management information systems and cases to the following areas of finance: (1) Time value of money, risk, valuation, cost of capital, capital structure; (2) Capital budgeting; (3) Long-term fi-

ancing decisions; (4) Working capital policy and management; (5) Financial analysis and planning; and (6) specials topics including mergers, bankruptcy, and international finance. Letter grade only (A-F).

524. International Legal Environment of Business (3)

Prerequisite: FIN 520. A study of the international legal environment in which multinational firms operate. Selected topics include treaties and laws, government policies, resolution of legal disputes, regulation of competition, enforcement of property rights and issues involving ethical responsibilities. Letter grade only (A-F).

525. Estate Planning (3)

Prerequisite: FIN 520. Planning and administration of the disposition of property by wills, estates and trusts including use of life insurance, impact of federal and state taxes and special trust provisions and devices. Letter grade only (A-F).

600. Seminar in Business Finance (3)

Prerequisite: MBA standing required. Financial theory and management: (1) Time value of money, risk, valuation, cost of capital, capital structure; (2) Capital budgeting; (3) Long-term financing decisions; (4) working capital policy and management; (5) Financial analysis and planning; (6) Special topics including mergers, bankruptcy, international finance. May be repeated to a maximum of 3 units. Letter grade only (A-F).

620. Capital Budgeting (3)

Prerequisite: FIN 600. Theory of capital budgeting within the framework of the firm. Cost of capital determination and logic of expansion vs. growth, and equity financing vs. debt financing. Computer applications are required for this course. Letter grade only (A-F).

624. Cyberlaw (3)

Coverage of foundation of e-commerce and public policy issues; study of the interaction of law with the globalized e-commerce environment; critical analysis of the legal, ethical, international and political aspects of technology as it relates to business; examination of issues of jurisdiction, intellectual property, electronic payment systems and contracting, online securities offerings, telecommunications mergers and acquisitions, privacy, security, and cybercrime. Letter grade only (A-F).

630. Seminar in Financial Forecasting (3)

Prerequisite: FIN 600. Research projects in industry, individual company, product and commodity areas. Computer applications are required in this course. Letter grade only (A-F).

650. Seminar in Investments (3)

Prerequisite: FIN 600. Selected problems in security analysis, portfolio planning, balance and adjustment as related to (1) individual circumstances of the investor, (2) specific market conditions, and (3) broader financial aspects of the economy. Presentation and interpretation of student reports on selected topics. Computer applications are required for this course. Letter grade only (A-F).

690. Seminar in International Finance (3)

Prerequisite: FIN 600. Background in economics, accounting and finance, graduate standing in business administration. Covers real and monetary factors in the finance of international business, international capital markets, movement of funds and special problem areas. Letter grade only (A-F).

695. Selected Topics (3)

Prerequisite: Consent of instructor. Topics to be announced in the *Schedule of Classes*. Topics change each offering. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisite: Consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

699A-B. Applied Portfolio Management (3-3)

Prerequisites: FIN 699A: FIN 520, 600, 650; consent of instructor and Department Chair; FIN 699B: FIN 699A; consent of instructor and Department Chair. FIN 699A will be offered in Fall and accepted students must enroll in FIN 699B in Spring. Participation in the management of an actual investment portfolio. Research, monitor, and analyze securities and make buy and sell recommendations for a student-managed investment fund utilizing state-of-the-art computer software and on-line information data retrieval services. Contribute to the publication of a semi-annual report of the activities of the fund. Market, sector and firm analysis with individual and group presentations and outside research required. Letter grade only (A-F).

GENERAL EDUCATION

General Education is an important aspect of the baccalaureate degree and of your personal development. It is the part of your university program which encourages you to develop or improve such basic life skills as self-motivation, independence, creativity, critical thinking, an understanding of values, and a general philosophy by which to make decisions throughout life. Possession of these skills makes possible continued personal growth and the further development of your creative and adaptive capabilities. It is the basis for lifelong learning, and it can increase your ability to be self-directing.

At California State University, Long Beach, courses approved for General Education credit provide:

- Information: the raw material for thinking, analysis, reflection, and discourse;
- Basic Skills: the ability to analyze ideas and data, to relate these to other materials, to develop arguments both logical and cogent, to reach conclusions, and to present the results of these processes with clarity and style;
- Methods of inquiry: direction and practice in methodologies of the several disciplines;
- Qualities of Mind: a respect for data and unpleasant facts; tolerance, commitment, a taste for learning; an appreciation of the arts; creativity, perpetual curiosity, and a sensitivity to ethical considerations.

The present policy of the Board of Trustees of The California State University is that students graduating from a CSU campus must fulfill a prescribed set of breadth requirements (Section 40405, Title 5, California Code of Regulations). Of these, a minimum of 9 semester units must be upper-division general education courses taken at the campus conferring the degree. Partial credit may be transferred from another institution; a participating, regionally-accredited institution may certify completion of 39 lower-division semester units.

Each campus in the CSU system may define which of its courses satisfy its General Education requirements and determine which courses are transferable from other institutions (except where a maximum of 39 units are certified). The campus may add requirements and enact other regulations.

Beginning in the 1996-97 academic year, CSULB inaugurated a series of Odyssey theme years. Each involves the campus in a year-long series of major speakers, video conferences, performances, films, events, field trips, and classes (across campus and in the community) focused on a single intellectual issue of importance to our time. Please see the end of this section for a listing of courses with theme-year content.

General Education Requirements

Each California State University, Long Beach, baccalaureate graduate must complete at least 51 semester units of General Education courses. Only courses specifically approved for General Education and so listed in the *Schedule of Classes* may be used to fulfill General Education require-

ments. At least three units of the 51 General Education units must be instruction which focuses on global issues or world societies and cultures (Global Issues Courses). At least three units of the 51 General Education units must be instruction which focuses on instructive examples of human diversity (Human Diversity Courses). At least nine of the 51 General Education units must be upper-division units taken at CSULB and after you achieve upper-division standing (completion of 60 semester units). The 51 units of General Education course work include three units of work in U.S. History and three units in U.S. Constitution and American Ideals, required by Section 40404, Title 5, California Code of Regulations. (See Category D. below). Title 5 provides that each student shall demonstrate competence by completing a course in these fields or by passing a comprehensive examination in them. These examinations are provided by the Departments of History and Political Science, respectively.

No course in your major department may be used to satisfy G.E. requirements with these exceptions: all courses in Category A, Category B.1.a for life science majors, Category B.2 for mathematics majors, Category C.1 and C.3 for art and music majors, Category D.1.a for history majors, Category D.1.b for political science majors, all interdisciplinary courses (I), and human diversity courses (HD, identified with " " in the *Schedule of Classes*) for all majors. A cross-categorized Interdisciplinary Course may be counted (at the student's option) in any one of the approved categories, but not in more than one.

Engineering and Technology students have special GE requirements. They have to satisfy a theme by taking two upper-division I courses within that theme. For details, see the College of Engineering section of this catalog.

GE Requirements for Freshmen Enrolling at CSULB in 1999-2000 or Later or Transferring to CSULB Under These Catalogs

First Year: Foundation

The first year at CSULB is designed to devote special attention to the development and improvement of fundamental academic skills that are critical to student success in college. Every CSULB student will be expected to demonstrate mastery of key academic skills early in their course of study, ideally within the first year. Among the skills most central to success are communication in English, both written and oral, mathematical concepts and quantitative reasoning, and analytical and critical thinking. Students also need a solid foundation in skills for learning, including the ability to read for information, information retrieval skills, the use of the library, and basic computer skills. In addition, all first-year students will receive an introduction to the University. Finally, the University is committed to fostering the development of communities of learners, and it will provide to all incoming students opportunities for the formation of learning communities.

The Foundation curriculum consists of twelve units of general education courses that meet the distribution requirements in Categories A and B2, and one unit of University 100. The following courses make up the Foundation:

- University 100 (1 unit), "The University." This course is a graduation requirement for students entering as lower-division students. It is coordinated pedagogically with the skills and content of the first-year curriculum. It introduces students to the history of universities (including the history, mission, and character of CSULB) and current issues in higher education. It introduces students to the use of our academic research library and also introduces them to the skills essential for success in an academic environment.
- One 3-unit course in written composition in English.
- One 3-unit course in oral communications.
- One 3-unit course in mathematical concepts and quantitative reasoning.
- One 3-unit course in critical thinking.

The courses listed above must all be completed with a grade of at least "C". Where appropriate exams exist, Foundation requirements may be met by advanced placement.

The 13-unit Foundation curriculum must be completed by the time a student has completed 36 units, except that lower-division transfer students have at least one semester in residence to complete the requirements.

Courses in the Foundation curriculum are numbered from 100 to 199. All other General Education courses have pre- or co-requisites from the Foundation curriculum, and all General Education courses numbered 200 or higher have the entire Foundation curriculum as prerequisites. General Education courses numbered between 100 and 199 may appropriately be taken at the same time as courses in the Foundation curriculum.

Explorations

After an early focus on fundamental learning and academic skills, students will have an opportunity to explore human knowledge in many disciplines. The Explorations stage encompasses all areas outside the Foundation curriculum, except the final nine units of General Education, described under "Capstone."

Although the primary purpose of Explorations is the development of breadth of knowledge, all courses offer opportunities for continued development of foundational skills. Reading, writing, oral discussion and presentation, problem solving and/or quantitative reasoning, and critically- and analytically-based research are central to the learning of content.

In addition, as students progress through their Explorations, they are expected to develop additional skills and attributes, including ethical reasoning, analytical reading, creativity, respect for difference, awareness of other cultures, questioning of stereotypes, the values of citizenship, negotiating skills, and other attributes of use in a diverse society.

Global Issues

Students are required to complete at least three units of coursework from any category devoted to the study of global issues or world societies and cultures (identified with a "G" in the *Schedule of Classes*).

Capstone

The final nine General Education units form the Capstone. The purpose of the Capstone is to bring the strands of the General Education experience into focus, to reinforce knowledge and skills acquired from many areas, and to incorporate depth in the form of more sophisticated tools and analysis, if not necessarily in terms of content knowledge. For transfer students, the Capstone may offer an opportunity to connect to the campus in a learning community outside of the major department.

Capstone General Education courses are at the upper-division level. These courses have the entire Foundation curriculum as a prerequisite, along with one or more prerequisites from the Explorations stage. Upper-division standing is also required. All Capstone courses are designed to develop advanced college skills, including synthesis and application of knowledge, analysis, critique, and research.

All students, including transfer students who have completed a certified lower-division General Education program, must complete 9 units of Capstone classes and must do so at CSULB.

Capstone classes are classified as Interdisciplinary (identified with the letter "I" in the *Schedule of Classes*), Advanced Skills (identified with the letter "A" in the *Schedule of Classes*), Service Learning (identified with the letter "S" in the *Schedule of Classes*), or Linked (identified with the letter "L" in the *Schedule of Classes*). Students are permitted to count no more than one Advanced Skills class and one Service Learning class toward the 9-unit Capstone requirement.

Distribution Requirement

General Education units must be distributed as follows:

Category A

Communication in the English Language and Critical Thinking — 9 units to include:

1. One approved course in written English;
2. One approved course in oral communication or a combination of oral and written communication, to include an understanding of the process of communication and experience in communication;
3. One approved course in critical thinking, designed to develop the ability to reason clearly and logically and to analyze the thinking of others.

Category B

Physical Universe — 12 units to include:

1. At least six units of inquiry into the physical universe and its life forms to include one approved course in the life sciences and one approved course in the physical sciences; both must involve laboratory experience;
2. At least three units of study in mathematical concepts and quantitative reasoning; approved courses foster an understanding of mathematical concepts rather than merely providing instruction in basic computational skills;
3. Another three units as necessary, selected from approved courses, to achieve a minimum of 12 units.

Category C

Humanities and the Arts — 12 units to include:

1. At least three units from approved fine arts courses;
2. At least six units from approved courses to include courses in at least two of the following areas:
 - a. literature
 - b. philosophy, and
 - c. foreign languages.
3. Another three units as necessary, selected from approved courses to achieve a minimum of 12 units.

Category D

Social and Behavioral Sciences and Their Historical Backgrounds — 15 units to include:

1. Citizenship:
 - a. Three units selected from courses in U.S. History;
 - b. Three units selected from courses in U.S. Constitution and Ideals, including state and local government (formerly Category F).
2. Additional Social and Behavioral Sciences
At least 9 units from approved courses in at least two disciplines.

Category E

Self-Integration — 3 units:

At least three units selected from approved courses which facilitate understanding of the human being as an integrated physiological, psychological, and social organism.

Cross categorized courses may count in only one category, not both.

The following General Education courses are approved for the fall semester only. There may be some changes in the spring semester. Please consult the Spring *Schedule of Classes* for the updated list.

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

View the Geography Department website at: <http://www.csulb.edu/geography>

Geography focuses on the spatial organization of human and physical landscapes, the interactions between human society and the physical environment, as well as on the meanings that people bring to their place in the world. Geography sits at the nexus of the social and physical sciences, drawing from a range of theoretical and methodological approaches for understanding the world around us. We organize the major into three distinct areas of concentration – Human Geography, Environmental/Physical Geography, and Geospatial Techniques – as a way to structure the diverse approaches that geographers use in thinking about spatial relationships in geographic context. Students are required to focus within one of these concentrations at the undergraduate level.

Because of the diversity of the subject matter that it considers, geography offers a broad, liberal education, which is applicable to many careers. These include elementary, secondary, and college teaching; cartography; geographic information systems (GIS); computer mapping; regional, urban and environmental planning; natural resources management; business; government; travel and tourism, and the foreign service. The Geography Department offers the Bachelor of Arts and Master of Arts degrees, Geography Minor, and two certificate programs: Urban Studies and Geographic Information Science. Certain Geography courses are applicable to teaching credential programs; to the degree in Liberal Studies; and to certificate programs in Environmental, Urban, Asian, Latin American, and Russian and East European studies, and GIS. Students may obtain materials from the department describing the geography programs and courses recommended for career preparation or visit its home page at <http://www.csulb.edu/geography/>.

The Master of Arts degree in geography is designed for those wishing to expand their geographic competence beyond that expected of the bachelor's degree. The Master of Arts degree is becoming a common requirement for employment advancement and it provides the preparation necessary for success in geography Ph.D. programs at other universities. Candidates are responsible for observing the general requirements stated in this Catalog as well as the specific departmental requirements contained in the Geography Master of Arts Handbook.

Bachelor of Arts in Geography (code GEOGBA01) (120 units)

Requirements

The Geography major requires at least 45 units. These units are broken down into two broad categories:

Lower Division: 15 units required (GEOG 100 or 120, 140, 160, 200 and 280).

Upper Division: 30 units required, which must include at a minimum: GEOG 380, one Regional course, one course from each of the three following Concentrations – Human Geography, Environmental/Physical Geography or Geospatial Techniques – and an additional 12 units within one Concentration.

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in GEOGRAPHY (GEOGBA01)

120 units required		Department of Geography	
Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE	3

Elective class	3	Elective class	3
Elective class	3	Elective class	3
TOTAL UNITS	15	TOTAL UNITS	15

* GE Interdisciplinary Capstones may count in GE and major - see advisor

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Geography (code GEOGUM01)

The Minor in Geography is available to any non-Geography major. The minor requires a minimum of 21 units consisting of GEOG 140, 160, and 280, and at least 9 units of upper division courses with at least one course selected from the 400 series.

Human Geography: GEOG 3011, 307, 319I, 352, 381, 446, 452, 460, 465, 466, 467, 470.

Environmental/Physical Geography: GEOG 355I, 440, 442, 443, 444, 445, 455; GEOG 458 or, with approval, GEOL 339.

Geospatial Techniques: GEOG 400, 402, 473, 474, 475, 481[†], 482, 484, 485, 486, 487A, 487B, 488.

[†] Only eligible to students concentrating outside Geospatial Techniques

Regional Courses: GEOG 304, 306, 308I, 309I, 313I, 314I, 315I, 316, 318, 320I, 326I.

Additional Courses

The following courses may be included in the above concentrations with approval of the Undergraduate Advisor: GEOG 492, 494, 497.

Certificate in Geographic Information Science (code GEOGCT01)

Director

Franklin Gossette

Associate Directors

Judith Tyner

Christopher Lee

Suzanne Wechsler

Requirements

This program offers specialized training in a variety of theoretical and applied geospatial techniques. The program is designed to provide experience in quantitative spatial analysis through GIS, working with remotely sensed imagery and field-derived data, and effective communication through maps. The certificate serves as a supplement to standard degree programs. It provides essential training for those seeking careers in the geospatial technologies in both the public and private sector.

A brochure describing the GIScience Certificate Program in greater detail is available in the Geography Department Office, LA 4-106, or on-line at www.csulb.edu/geography.

Certificate Requirements

1. A bachelor's degree, which may be earned concurrently.
2. Consultation with the certificate advisor in the Geography Department.
3. Thirty (30) units distributed as follows:
 - A. Core requirements (15 units): GEOG 380, 482, 473, 485/585
 - B. Specialization (12 units, selected from the following with the approval of Certificate Advisor): GEOG 400, 474, 475/575, 484/584, 487A/587A, 487B/587B, 488/588, 680, 494, 497, 697
 - C. Elective (3-4 units): Any course chosen from the Specialization courses listed above or the following: GEOG 381, 481, 492 (chosen with the approval of the Certificate Advisor); a course in databases, chosen with the approval of the Certificate Advisor; a course in graphic design, chosen with the approval of the Certificate Advisor; a course in surveying and mapping, chosen with the approval of the Certificate Advisor.

Certificate in Urban Studies (code GEOGCT02)

The Urban Studies Program, housed in the Department of Geography, offers an education in the analysis of urban patterns, processes, and issues, and serves as an excellent supplement to standard degree programs. It offers essential training for those seeking both private sector and public sector careers or graduate study in fields concerned with the urban region, its development, characteristics, problems, and special communities.

Because urban issues cut across a variety of disciplines, the program takes an interdisciplinary approach. Each student participates in a small core of courses in Geography and Political Science but also assembles a distinctive mix of related courses from a variety of departments. The result is a customized program that provides essential information about the dynamics, form, and characteristics of urban regions while allowing a student to design an individualized program of study.

A brochure describing the Urban Studies Certificate Program in greater detail is available in the Geography Department Office, LA 4-106, or on-line at www.csulb.edu/geography.

Certificate Requirements

1. A bachelor's degree, which may be earned concurrently.
2. Consultation with the undergraduate advisor in the Geography Department.
3. 24 units distributed as follows:

Core requirements, 9 units: U/ST 3011 (same as GEOG 3011), GEOG 466 and 467 or POSC 327

Elective Courses, 15 units, to be selected from the following: AIS 319 (same as ASAM 319, B/ST 319, CHLS 319, W/ST 319); ANTH 416; ASAM 345; BIOL 303 (same as GEOL 303); B/ST 335, 452; DESN 367; FCS 322, 422, 428; GEOG 446 (same as U/ST 446); HIST 468, 469, 474I; POSC 327, 442; W/ST 432.

Master of Arts in Geography (code GEOGMA01)

Prerequisites

1. A bachelor's degree in geography; or,
2. A bachelor's degree with 24 units of upper division courses substantially equivalent to those required for a geography major at this University; or,
3. A bachelor's degree in a related discipline with 24 units of upper division courses in a combination of geography and approved courses in related disciplines,
4. Completion of introductory methods course,
5. An undergraduate GPA of 3.0 ("B") or better in geography, or alternative evidence of ability to do graduate work,
6. File with the department a declaration of intent to seek the master's degree in geography

Advancement to Candidacy

1. See the Geography Graduate Student Handbook;
2. See the general University requirements.

Requirements

1. Completion of courses required to remove foundational and prerequisite deficiencies (see prerequisites above),
2. Passage of the Writing Proficiency Examination,
3. Completion of 30 units of approved upper division graduate courses. A minimum of 24 units of Geography courses. A minimum of 18 units of 500- and 600-level courses, which must include GEOG 586, 596, 696, 1 additional seminar, and 6 units of thesis (GEOG 698).

Grouping of Geography Courses

The CSULB Geography Department encourages geography students to acquire a knowledge of the breadth of the discipline, to develop an understanding of the regional and systematic approaches to studying and applying the discipline, and to become proficient in the application of the methods of inquiry and analysis that are employed in the discipline. To facilitate the development of a prepared and well rounded geographer, Geography courses are grouped into three affinity clusters: Regional Geography, Systematic Geography (Human or Environmental); and Methods and Techniques Geography. Students are urged to complete courses in each cluster and to seek the advice of the undergraduate advisor and other faculty to identify courses that are best suited to meet their educational and career objectives.

Regional

These courses examine the relationships among peoples, cultures, and their landscapes in specific areas of the world. There are no pre-requisites for these courses; their broad scope provides the student with a better understanding and appreciation of the world in which we live. Thus, they are ideally suited for general education and liberal studies.

- 100. World Regional Geography
- 304. California
- 306. United States and Canada
- 307I. Modernization in Global Perspective
- 308I. Africa South of the Sahara
- 309I. The Middle East and North Africa
- 313I. Southeast Asia
- 314I. South Asia
- 315I. East Asia
- 316. Europe
- 318. Russia and Its Neighbors
- 320I. Latin America
- 326. Pacific Island Area

Systematic Geography

These courses address with diverse subjects and are organized to provide the basic framework for the physical and cultural sub-fields of the discipline.

H = Human Geography

E = Environmental Geography

- 120. Geography of Human Diversity in the United States (H)
- 140. Introduction to Physical Geography (E)
- 160. Introduction to Human Geography (H)
- 301I. Urban Life and Problems (H)
- 319I. International Development (H)
- 352. Geography of Travel and Tourism (H)
- 355I. International Environmental Issues (E)
- *381. Maps and Civilization (H)
- 440./540. Land and Water Environments (E)
- *442. Biogeography (E)
- *444. Climatology (E)
- *446 Land Use Planning (H)
- *452. Economic Geography (H)
- *455. People As Agents of Environmental Change (E)
- 458. Hazards and Risk Management (E)
- *460. Population Geography (H)
- 465. Social Geography (H)
- *466. Urban Geography: Principles (H)
- 467./567. Urban Geography: Metropolitan Problems (H)
- *470. Political Geography (H)

Methods and Techniques

These courses develop skills in graphic and statistical communication and field analysis which are used within the various sub-fields of the discipline.

- 200. Introduction to Research Methods for Geographers
- 280. Introduction to Geospatial Techniques
- 380. Map Interpretation and Analysis
- *400. Geographical Analysis
- 402./502. Qualitative Geographic Analysis
- *482. Thematic Map Design for Presentation and GIS
- *473. Remote Sensing
- 474. Introduction to Digital Image Processing
- 484./584. Advanced Concepts in Presentation Cartography
- 485./585. Introduction to Geographic Information Systems
- *486. Field Methods in Landscape Analysis
- 488./588. Geographic Information Systems

General

- *492. Internship in Applied Geography
- *494. Special Topics
- *497. Directed Studies

Geography Courses (GEOG)

Lower Division

100. World Regional Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Through a spatial approach, World Regional Geography introduces students to the world's geographic realms and examines their cultural, population and political dynamics, resources and economic development, patterns of settlement and environmental elements. Same course as GEOG 100W. Not open to students with credit in GEOG 100W.

100W. World Regional Geography (3)

Through a spatial approach, World Regional Geography introduces students to the world's geographic realms and examines their cultural, population, and political dynamics, resources and economic development, patterns of settlement and environmental elements. Same course as GEOG 100. Not open to students with credit in GEOG 100.

120. Geography of Human Diversity in the United States (3)

Prerequisite/Corequisite: One G.E. Foundation course. This course examines America's Human Diversity from a geographic perspective. Four broad themes are considered: (1) the ways in which the social categories of race/ethnicity and gender/sexuality impact the spatial distributions of different people across the country; (2) the distinctive expressions of human diversity on/in the cultural landscapes of rural and urban United States; (3) the day-to-day spatial politics (i.e., social-spatial processes) that exclude/include different groups in different places; and (4) the patterns that emerge in a particular spatial context, southern California.

140. Introduction to Physical Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Systematic study of the physical environment with an emphasis on human-environmental interaction and perceptions of environmental hazards and resources. Not open to students who have completed GEOG 150. (CAN GEOG 2)

150. Planet Earth: An Introduction (3)

Prerequisite/Corequisite: One G.E. Foundation course. Introduction to the earth as a whole, its many regions, and the structures and processes that determine the environment we live in. Explorations of weather and climate: landforms, earthquakes, volcanoes; coastal and water resources; ecosystem patterns; and human-environmental interactions. Focus on the dynamic environment of southern California. Small group activity sections involve field experiences, computer based activities and lab projects. Not open to students who have completed GEOG 140.

160. Introduction to Human Geography (3)

Prerequisite/Corequisite: One G.E. Foundation course. Geographic aspects of culture, including the past and present social, political and economic factors that are related to man's perception, organization and use of his environment. (CAN GEOG 4)

200. Introduction to Research Methods for Geographers (3)

Prerequisite: Not open for credit to those who already have completed a first course in statistics. An introduction to the scientific method in geography, with an emphasis on basic quantitative and qualitative techniques and their applications. (2 hours lecture, 2 hours laboratory).

250. Early World Historical Geography (4)

Prerequisites: Open only to Integrated Teacher Education Program (ITEP) students. This course uses the perspectives of history and geography to introduce students to the civilizations of Eurasia, Africa, and the Americas as they developed prior to European contact. To understand their origins and subsequent growth and development, special attention will be given to geographic and historical factors such as location and place, human/environment interactions, migrations, cultural and technological diffusion as well as the intensity of cross-cultural contact and exchange between cultures and civilizations over time. Same as HIST 250.

280. Introduction to Geospatial Techniques (3)

This course provides an introduction to geospatial techniques, which include geographic information science (GIS), cartography, global positioning systems (GPS), and remote sensing. Students will be introduced to the geographic concepts required for spatial analysis. (3 hours lecture.)

Upper Division

General Education Category A must be completed prior to taking any upper division course.

3011. The Urban Scene (3)

Prerequisites: ENGL 100 and upper division status. Not open to students with credit in SOC 419. Review and analysis of the changing urban scene: urban life-styles; community patterns of land use and design; population trends; conflicts in the increasingly multicultural setting of the central city; housing and community development; suburban-central city relationships; human utilization of urban life spaces; examination of the views of landmark urbanists; and future trends. Same course as U/ST 3011.

304. California (3)

California's diverse natural and cultural environment with emphasis upon social and economic problems and the human response to environmental hazards.

306. United States and Canada (3)

Common social, economic and political interests of the major human use regions of the United States and Canada. Describes and interprets the culture patterns of each region in relation to the natural settings in which they have developed.

3071. Modernization in Global Perspective (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. An exploration of the ways in which current psychological and material problems in modern society (both western and Third World) can be traced to a process of accelerating change which began with the advance of technology, the rise of capitalism, the abandonment of "old values," the increasing complexity of bureaucracy and a lowering of social barriers. Exploration of all facets of modernization utilizing films, discussions and readings (fiction and nonfiction). Same course as ANTH 3071.

3081. Africa South of the Sahara (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and environmental settings of Africa South of Sahara and the ecological, cultural, demographic, economic settlement and political relationships that characterize them.

3091. The Middle East and North Africa (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and physical settings of the Middle East and North Africa and the cultural, economic, settlement, and political relationships that characterize them stressing those factors which underlie the region's instability and global importance.

3131. Southeast Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: Southeast Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. Letter grade only (A-F).

3141. South Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: South Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. This course will satisfy an interdisciplinary capstone requirement. Letter grade only (A-F).

3151. East Asia (3)

Prerequisites: Completion of the GE Foundation, one or more Exploration courses and upper division status. This course is a cross-cultural examination of the various characteristics and problems found across the region of: East Asia. The specific foci will be: environmental and cultural patterns, the historical development of the spatial organization of society, demographic and other dynamics of social change related to issues of socio-economic and political development. Letter grade only (A-F).

316. Europe (3)

The human and physical patterns of Europe. Current cultural conditions and environmental problems.

318. Russia and Its Neighbors (3)

Systematic and regional study of the physical, economic and cultural geography of the Soviet Union.

3191. International Development (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper-division standing. Explores the nature of social, political, and economic development, as well as alternative developmental models. Assesses theories of development, including modernization, diffusion, dependency, and world systems. Compares and contrasts the historical and contemporary experiences of Europe, the U.S., and other "developed" areas of the world with the economic, social, and political challenges facing the governments and peoples of Asia, Africa, Latin America, and other "developing" regions. Same course as I/ST 3191.

3201. Latin America (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Human and environmental characteristics of Middle and South America with a focus on the historical-cultural factors which shaped their present-day societies and the problems of population growth, resource utilization and economic development.

326. Pacific Island Area (3)

Regional synthesis of the physical and cultural geography of Australia, New Zealand and the island groups of Oceania.

352. Geography of Travel and Tourism (3)

Historical and contemporary spatial characteristics and dimensions of tourism activity. Tourism, destinations, travel patterns, environmental and economic impacts, and analysis of regional tourism patterns.

3551. International Environmental Issues (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve them. Same course as I/ST3551.

380. Map Interpretation and Analysis (3)

Interpretation and understanding of maps as graphic communication with particular emphasis on critical analysis, symbolization, scale, and projection. (Lecture, problems 3 hours)

*381. Maps and Civilization (3)

Maps and Civilization is an interdisciplinary and cross-cultural examination of the role maps play in different cultures. It draws upon the disciplines of cartography, geography, history, art, and science. It looks at maps in both Western and non-Western cultures; both conventional and alternative cartographies; and mapping activities of both men and women. Letter grade only (A-F).

***400. Geographical Analysis (4)**

Prerequisite: GEOG 200 or any introductory statistics course or consent of instructor. Examination of advanced quantitative techniques commonly employed by geographers in analysis of spatial phenomena. Topics to be covered include multivariate statistical methods as models for geographical analysis. Emphasis on the application of these techniques in geographical research, including the use of computers (3 hours seminar and 2 hours laboratory).

402. Qualitative Geographic Analysis (4)

Prerequisite: GEOG 200, or consent of instructor. This course examines qualitative geographic methodologies and methods from a perspective of the various theoretical frameworks that geographers employ in their research. Students will be introduced to survey techniques, interview techniques, focus group techniques, textual analysis, participant observation, and ethnography. The course will include a hands-on research experience as well as a section on qualitative data analysis (four hours of discussion). Letter grade only (A-F).

440./540. Land and Water Environments (3)

Prerequisites: GEOG 140 and 380 or consent of instructor. (Undergraduates register in GEOG 440; graduates register in GEOG 540.) Landforms and related soil and water resources as physical components of the human environment. (Lecture-problems and field experience.)

***442. Biogeography (3)**

Prerequisite: GEOG 140. A course in biology is strongly recommended. Methods of mapping plant and animal distributions, spatial interaction with environmental limiting factors and man's role in temporal and spatial variation of ecosystems. (Lec-problems; field experience.)

443. Watersheds: Processes and Management (4)

Prerequisites: GEOG 140 or 150 or consent of instructor. This course will introduce basic principles of watershed hydrology, including hydrological processes, runoff behavior, and precipitation patterns, providing the context for evaluation of water quality such as nonpoint source pollution, water quantity such as flood and drought and water legislation. Laboratory and field exercises will include hydrologic data collection, processing and evaluation. (3 hours Lecture, 2 hours Laboratory.)

***444. Climatology (3)**

Prerequisites: GEOG 140 or GEOG 150 or GEOL. 163. Descriptive and explanatory analysis of the elements and controls of climate. Climates of the world with emphasis on California and North America. (Lecture, problems 3 hours)

445 Paleoclimatology (4)

Prerequisites: GEOG 444 or consent of instructor. A survey of the methods and techniques used to describe past climates and climate change and describe their impact on the natural environment with an emphasis on the last 2 million years. This course will examine the use of proxy records, such as marine and lacustrine sediment sequences, ice cores, tree rings, corals and documentary data, to reconstruct past climate. Means of dating past climatic events will also be reviewed. The possible causes of these events will be evaluated in relation to Earth's changing orbital parameters and to internal forcing mechanisms. (Lecture 3 hours, lab activities 2 hours.)

***446. Land Use Planning (3)**

Not open to students with credit in U/ST 446 Land Use Planning. This course provides an examination of urban land use planning from the perspective of professional urban planners. The course will focus on planning issues and responses in some of the following major areas: land use; coastal zone planning; resource planning; urban growth, speculation, and economics; design and aesthetic issues; planning parameters for residences, shopping centers; and industrial parks; revitalization of built-up core areas and transportation. Same course as U/ST 446.

***452. Economic Geography (3)**

Prerequisite: Consent of instructor. Location theory and its application to the study of the distribution of various economic activities, international and interregional changes in the spatial structure of economic activities and the role of these changes in international and regional development. (Lecture, problems.)

***455. People As Agents of Environmental Change (3)**

Spatial variations in environmental change as effected by humans. A systematic and regional analysis at both macro and micro levels. (Lecture 3 hours.)

458./558. Hazards and Risk Management (3)

Prerequisites: One earth science course (GEOG 140 or 150 or GEOL 102 or 163 or 190 or consent of instructor) and one social science course (e.g., GEOG 100 or 160 or consent of instructor). Provides a broad overview of hazards and disasters, whether natural or partly technological. This course emphasizes understanding of the physical and social dynamics that must interact to produce hazard, the spatial and temporal distributions of various hazards, and policy options for disaster preparation and loss reduction.

***460. Population Geography (3)**

Introduction to the geographic study of population. Includes growth and distribution of world population; results of changing births, deaths, and migration; variations in population composition; related problems such as food supplies and environmental deterioration.

465./565. Social Geography (3)

Prerequisite: GEOG 160 or consent of instructor. This course examines the geographies of society. Students are educated in the traditions of social geography from a historical perspective. Students investigate the various methodological and theoretical approaches that make up social geography. Topics can include a mix of the following: socio-spatial inequality, crime, housing, religious systems, medical and health geography, feminist geography, the geography of sexuality, the geography of race, and/or postculturalist geography.

***466. Urban Geography: Principles (3)**

Examination of cities; their location, shape, structure and function. Selected world population clusters, theoretical and practical application of urban planning and the evolution of cities are studied. (Lecture-problems.)

467./567. Urban Geography: Metropolitan Problems (3)

Prerequisite: GEOG 466 or consent of instructor. (Undergraduates register in GEOG 467; graduates register in GEOG 567.) Geographic components of metropolitan problems and their solutions. Problems related to transportation systems, housing, evolution of ghettos, urban perception and behavioral patterns will be discussed in terms of theoretical and practically applied urban planning solutions. (Lec, problems 3 hrs.)

***470. Political Geography (3)**

Prerequisite: GEOG 100 or consent of instructor. Comparative study of the earth's politically organized regions and related systems. Varied approaches are explored, such as power analysis, genetic analysis and functional analysis of political units. Stress is upon political geographic concepts used in analyzing the viability of states and nations. (Lecture, problems.)

***473. Remote Sensing (4)**

Prerequisites: GEOG 200 or equivalent and GEOG 380 or consent of instructor. Interpretation and processing of remotely sensed imagery including acquisition or imagery, the electromagnetic spectrum, kinds of imagery, and digital method. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

***474. Introduction to Digital Image Processing (4)**

Prerequisites: GEOG 140 and 473 or consent of the instructor. Provides a background to the principles and concepts of digital image processing and the extraction of information from digital satellite data with focus various enhancement and extraction techniques, specifically, within the visible and near-infrared portions of the electromagnetic spectrum. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

475. Geographical Applications in Remote Sensing (4)
Prerequisites: GEOG 140, 160, 473, and 474. Focuses on remote sensing applications. Students will be introduced to sophisticated imagery and analysis techniques, as applied to weather and fire modeling, arid lands environmental problems, or the urban environment. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

***481. Geographic Information Science for Natural Sciences (4)**

Prerequisites: Junior/Senior/Graduate standing; GEOG 140 or 150 or BIOL 153 or 211B or GEOL 102. This course introduces the fundamentals of geographic information science and systems (GIS) to non-geography students. The course introduces the concepts of and develops skills in spatial reasoning and spatial thinking. Students explore the use of GIS for spatial query, problem analysis and decision support using examples tailored to biologic, geologic and ecologic applications. Previous course work or experience in GIS would be helpful but is not required. (2 hours of seminar, 2 hours of computer laboratory.)

***482. Map Design for Presentation and GIS (4)**

Prerequisites: GEOG 200 or equivalent and 380 or consent of instructor. Theory and techniques in the creation of thematic maps including design, generalization, and symbolization, with an emphasis on computer presentation methods. (Seminar 3 hours, laboratory 2 hours).

484./584. Advanced Concepts in Presentation Cartography (4)

Prerequisites: GEOG 140, 160, 473, AND 474. Prerequisites: GEOG 200 or equivalent; GEOG 380; and GEOG 482. Advanced theory and techniques for presentation cartography including communication, visualization, terrain representation, animation, and color. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

485./585. Principles of Geographic Information Science (4)

Prerequisites: GEOG 200 or equivalent; GEOG 380 and GEOG 482. Fundamental concepts in and techniques of geographic information systems are introduced, including problems of acquiring and processing machine-readable map data. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

***486. Field Methods in Landscape Analysis (4)**

Prerequisite: GEOG 380 or consent of instructor. Introduction to field techniques, including formulation of field plans, recording direct observation, field mapping, sampling techniques, interviewing, and organizing and evaluating data for presentation. (Lecture-discussion 1 hour, supervised field work 6 hours)

487A. Applications of Geographic Information Science (GIS): Environment and Natural Resources (4)

Prerequisites: GEOG 140 or 150; 485 or 585, 488 or 588 or consent of instructor. This course explores the use of Geographic Information Systems for spatial query, problem analysis, spatial modeling and decision support in natural resource analysis such as assessment of landslide hazard, fire hazard or site suitability assessment, natural resources management. This course is designed to introduce students who already possess a background in GIS to applications specific to resource assessment and management. The use of raster GIS is emphasized. (3 hours Lecture, 2 hours Laboratory.)

487B. Applications of Geographic Information Science (GIS): Urban and Economic (4)

Prerequisites: GEOG 485 or 585, 488 or 588 or consent of instructor. This course builds on introductory knowledge of Geographic Information Systems, spatial analysis and spatial data and focuses on urban and economic applications and analyses. (3 hours Lecture, 2 hours Laboratory.)

488./588. Advanced Topics in Geographic Information Science (4)

Prerequisites: GEOG 200 or equivalent; 380, 482, 485 or 585 or consent of instructor. Advanced concepts in geographic information systems and techniques are introduced and their applications in geography and related discipline explored (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

***492. Internship in Applied Geography (3)**

Prerequisites: Geography major with upper division or graduate standing, prior geography coursework or equivalent recommended, and consent of instructor. Community-based placement to enhance professional preparation in applied geography. May be repeated to a maximum of 6 units; a second semester experience shall differ substantially from first semester experience. Undergraduates may elect Credit/No Credit or letter grading; letter grading only is required for graduate students. Student will work under faculty supervision.

***494. Special Topics (1-3)**

Prerequisite: Consent of instructor. Application of geographical concepts and methodology to selected contemporary problems. Themes will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with consent of department chairperson. May not be credited toward the major in geography without written department consent in advance of enrollment.

***497. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Individually directed studies of special problems in geography. May be repeated to a maximum of 6 units with consent of department chairperson. May not be credited toward the major in geography without written department consent in advance of enrollment.

Graduate Level

502. Qualitative Geographic Analysis (4)

Prerequisites: GEOG 200, or consent of instructor. This course examines qualitative geographic methodologies and methods from a perspective of the various theoretical frameworks that geographers employ in their research. Students will be introduced to survey techniques, interview techniques, focus group techniques, textual analysis, participant observation, and ethnography. The course will include a hands-on research experience as well as a section on qualitative data analysis (four hours of discussion). Letter grade only (A-F).

540./440. Land and Water Environments (3)

Prerequisites: GEOG 140 and 380 or consent of instructor. (Undergraduates register in GEOG 440; graduates register in GEOG 540.) Landforms and related soil and water resources as physical components of the human environment. (Lecture-problems and field experience.) Letter grade only (A-F).

543. Watersheds: Processes and Management (4)

Prerequisites: GEOG 140 or 150 or consent of instructor. This course will introduce basic principles of watershed hydrology, including hydrological processes, runoff behavior, and precipitation patterns, providing the context for evaluation of water quality such as nonpoint source pollution, water quantity such as flood and drought and water legislation. Laboratory and field exercises will include hydrologic data collection, processing and evaluation. (3 hours Lecture, 2 hours Laboratory.)

545. Paleoclimatology (4)

Prerequisites: GEOG 444 or consent of instructor. A survey of the methods and techniques used to describe past climates and climate change and describe their impact on the natural environment with an emphasis on the last 2 million years. This course will examine the use of proxy records, such as marine and lacustrine sediment sequences, ice cores, tree rings, corals and documentary data, to reconstruct past climate. Means of dating past climatic events will also be reviewed. The possible causes of these events will be evaluated in relation to Earth's changing orbital parameters and to internal forcing mechanisms. (Lecture 3 hours, lab activities 2 hours.)

558./458. Hazards and Risk Management

Prerequisites: One earth science course (GEOG 140 or 150 or GEOL 102 or 163 or 190 or consent of instructor) and one social science course (e.g., GEOG 100 or 160 or consent of instructor). Provides a broad overview of hazards and disasters, whether natural or partly technological. This course emphasizes understanding of the physical and social dynamics that must interact to produce hazard, the spatial and temporal distributions of various hazards, and policy options for disaster preparation and loss reduction.

565./465. Social Geography

Prerequisites: GEOG 160 or consent of instructor. This course examines the geographies of society. Students are educated in the traditions of social geography from a historical perspective. Students investigate the various methodological and theoretical approaches that make up social geography. Topics can include a mix of the following: socio-spatial inequality, crime, housing, religious systems, medical and health geography, feminist geography, the geography of sexuality, the geography of race, and/or postculturalist geography.

567./467. Urban Geography: Metropolitan Problems (3)

Prerequisite: GEOG 466 or consent of instructor. (Undergraduates register in GEOG 467; graduates register in GEOG 567.) Geographic components of metropolitan problems and their solutions. Problems related to transportation systems, housing, evolution of ghettos, urban perception and behavioral patterns will be discussed in terms of theoretical and practically applied urban planning solutions. (Lec, problems 3 hrs) Letter grade only (A-F).

575 Geographical Applications in Remote Sensing (4)

Prerequisites: GEOG 140, 160, 473, and 474. Focuses on remote sensing applications. Students will be introduced to sophisticated imagery and analysis techniques, as applied to weather and fire modeling, arid lands environmental problems, or the urban environment. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

584./484. Advanced Concepts in Presentation Cartography (4)

Prerequisites: GEOG 200 or equivalent; 380 and 482. Advanced theory and techniques for presentation cartography including communication, visualization, terrain representation, animation, and color. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

585./485. Principles of Geographic Information Science (4)

Prerequisites: GEOG 200 or equivalent; 380 and 482. Fundamental concepts in and techniques of geographic information systems are introduced, including problems of acquiring and processing machine-readable map data. (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

586 Field Methods in Landscape Analysis (4)

Prerequisite: GEOG 380 or consent of the instructor. Introduction to field techniques, including formulation of field plans, recording direct observation, field mapping, sampling techniques, interviewing, and organizing and evaluating data for presentation (Seminar 1 hour; Field Work 6 hours). Letter grade only (A-F).

587A. Applications of Geographic Information Science (GIS): Environment and Natural Resources(4)

Prerequisites: GEOG 140 or 150; 485 or 585, 488 or 588 or consent of instructor. This course explores the use of Geographic Information Systems for spatial query, problem analysis, spatial modeling and decision support in natural resource analysis such as assessment of landslide hazard, fire hazard or site suitability assessment, natural resources management. This course is designed to introduce students who already possess a background in GIS to applications specific to resource assessment and management. The use of raster GIS is emphasized. (3 hours Lecture, 2 hours of Laboratory.)

587B. Applications of Geographic Information Science (GIS): Urban and Economic (4)

Prerequisites: GEOG 485 or 585, 488 or 588 or consent of instructor. This course builds on introductory knowledge of Geographic Information Systems, spatial analysis and spatial data and focuses on urban and economic applications and analyses. (3 hours Lecture, 2 hours Computer Laboratory.)

588./488. Advanced Topics in Geographic Information Science (4)

Prerequisites: GEOG 200 or equivalent; 380, 482, 485 or 585 or consent of the instructor. Advanced concepts in geographic information systems and techniques are introduced and their applications in geography and related discipline explored (Seminar 3 hours; Laboratory 2 hours). Letter grade only (A-F).

596. Literature and Methods in Geography (3)

Prerequisite: Consent of instructor. Proseminar in the methods, theory and techniques of geographic investigation with emphasis upon classical and contemporary literature. Letter grade only (A-F).

600. Seminar in Regional Geography (3)

Prerequisite: Consent of instructor. Regional methods of study common to geographic research, and their utilization in developing regional concepts. Letter grade only (A-F).

640. Seminar in Physical Geography (3)

Prerequisite: Consent of instructor. Physical/environmental issues and problems. May be repeated to a maximum of 6 units with consent of departmental advisor. Letter grade only (A-F).

650. Seminar in Cultural Geography (3)

Prerequisite: Consent of instructor. Systematic investigation of human occupancy in its varied environmental and regional settings. May be repeated to a maximum of 6 units with consent of department advisor. Letter grade only (A-F).

666. Seminar in Urban Geography (3)

Prerequisite: Consent of instructor. Geographic concepts and techniques of research applied to specific urban areas. May be repeated to a maximum of 6 units with consent of department advisor. Letter grade only (A-F).

680. Seminar in Geospatial Science (3)

Prerequisite: Consent of instructor. Application of geographic concepts and methodology to selected cartographic, GIS, remote sensing, and spatial analytic problems. May be repeated to a maximum of 6 units with consent of departmental advisor. Letter grade only (A-F).

696. Seminar in Geographical Research Methods (3)

Prerequisites: GEOG 596, graduate status in geography, and consent instructor. Critical survey of contemporary methodologies available for framing research in geography, emphasizing the connection between research models, research questions, and the selection and limitations of particular methods, techniques, and data. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of instructor. Research in geography supervised on an individual basis. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisite: Consent of instructor. Planning, preparation and completion of thesis for the master's degree.

Urban and Regional Studies Courses (U/ST)

Upper Division

General Education Category A must be completed prior to taking any upper division course.

3011. The Urban Scene (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Not open to students with credit in SOC 419. Review and analysis of the changing urban scene: urban life-styles; community patterns of land use and design; population trends; conflicts in the increasingly multicultural setting of the central city; housing and community development; suburban-central city relationships; human utilization of urban life spaces; examination of the views of landmark urbanists; and future trends. Same course as GEOG 3011.

*446. Land Use Planning (3)

Not open to students with credit in U/ST 490 Land Use Planning. This course provides an examination of urban land use planning from the perspective of professional urban planners. This course will focus on planning issues and responses in some of the following major areas: land use, coastal zone planning; resource planning; urban growth, speculation, and economics; design and aesthetic issues; planning parameters for residences; shopping centers, and industrial parks; revitalization of built-up core areas and transportation. Same course as GEOG 446.

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The Geological Sciences includes the study of the solid earth, the hydrosphere, and the atmosphere. Within the broad field of Geological Science students may elect to take course work leading to professional careers in such areas as geohydrology, environmental geology, urban geology, engineering geology, petroleum geology, mineral exploration, and government service. The degree programs also prepare students for academic careers in schools or universities, although additional work is usually required for such careers. All Earth Science and Geology majors must contact the Department Office to obtain a Departmental Advisor prior to the first semester in residence.

The Geological Sciences Department participates in the Southern California Marine Institute. See the Ocean Studies Institute section of this *Catalog* for additional information.

Concurrent and/or Summer Enrollment at Another College

Students who wish to take course work at a community or another college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See 'Concurrent Enrollment' and 'Transfer of Undergraduate Credit' in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics; for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

Bachelor of Science in Geology (code GEOLBS01) (126-133 units)

The bachelor of science degree program is intended to provide a thorough background in the geological sciences for those planning to pursue careers in industry or to do graduate study. The program is designed with the conviction that, in an ever-changing and technologically-oriented industry and research environment, a student must have a strong geological background. As such, he/she needs a program that explores the fundamental geological processes, cultivates skills in integrative three-dimensional geological thinking, provides laboratory and field experience, and stimulates interest in the many subdisciplines of the geological sciences.

Within the broad field of geology, students may elect to follow any one of five emphases: General Geology, Petroleum Geology, Stratigraphy/Sedimentology, Geochemistry/Mineralogy-Petrology, and Structural Geology. Each student should contact the undergraduate advisor for assistance in planning the degree program.

Geology majors must receive a grade of "C" or better in all courses required for the major. A grade of "C" or better is required in the laboratory portion of each geology course in order to pass that course. Also, before any geology course can be taken, all geology prerequisites for that course must be completed with a grade of "C" or better.

A minimum of 126-133 units is required for the bachelor of science degree in the various emphases in geology. Emphases other than General Geology are based on the General Geology emphasis, but have structured electives and other variations from that plan. An additional course chosen with the consent of the undergraduate advisor may be recommended for individual emphases, transfer students should fulfill, prior to transferring, the appropriate lower division curricular requirements as outlined in later sections. Particular attention should be paid to fulfilling the lower division math, chemistry, physics, and biology requirements.

Lower Division: GEOL 102, 104, 240, 273; MATH 122, 123, CHEM 111A-B; PHYS 151, 152; BIOL 200. Additional required courses for the various emphases are listed below.

Upper Division: GEOL 321, 324, 341, 343, 428, 429, 433, 450, 451. Additional required courses for the various emphases are listed below.

1. General Geology (126 units): Twelve units of elective courses (normally at upper division) approved in advance by the undergraduate advisor. At least one of the courses taken toward these 12 units must be chosen from among the following: GEOL 460, 461, or 462.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

- 1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.
- 2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.
- 3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).
- 4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Geology (code GEOLUM01)

The Minor in Geology is available to any non-Geology major.

Twenty units in geology courses that must include:

Lower Division: GEOL 102, 104, 240.

Upper Division: At least 9 additional units of geology approved in advance by the appropriate undergraduate Departmental Advisor.

Bachelor of Science in Earth Science (code GEOLBS02) (128-131 units)

The Earth Science program prepares students to understand the natural environment, earth resources, land and ocean use, pollution, geology of the sea floor, and other areas of critical importance to present and future world problems. Career-oriented interdisciplinary emphases are offered in Geohydrology/Environmental Geology, Engineering Geology, Exploration Geophysics, and Marine Geology/Oceanography.

Earth Science majors must receive a grade of "C" or better in all courses required for the major. A grade of "C" or better is required in the laboratory portion of each geology course in order to pass that course. Also, before any geology course can be taken, all geology prerequisites for that course must be completed with a grade of "C" or better.

As outlined below a minimum of 130 units is required for the various emphases in Earth Science.

Lower Division: GEOL 102, 104, 240, 273; MATH 122, 123, 224; CHEM 111A; PHYS 151, 152.

Upper Division: GEOL 324, 343, 428, 433, 460.

1. Geohydrology/Environmental Geology (131 units): MICR 200; CHEM 111B; CE 205, 335, 336; GEOL 450, 451, 461, 477, 496 (1 unit devoted to hand specimen petrology which MUST be taken the same semester as GEOL 428); and a minimum of 3 units selected in consultation with the undergraduate advisor.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

4. Marine Geology/Oceanography (130 units): BIOL 200; CHEM 111B; GEOL 321, 341, 364, 364L, 429, 452, 461, 465, 466, and a minimum of 3 units selected in consultation with the undergraduate advisor.

FOUR YEAR PLAN TO COMPLETE THE BS IN EARTH SCIENCE (GEOLBS02) - Marine Geology/Oceanography

128 units required

Semester 12

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Teaching Credential

Requirements Related to a Geoscience Specialization

The Science Teaching Credential with a Specialization in Geoscience is formally administered by the Department of Science Education and the Single Subject Teacher Education Program in the College of Education. Students must also take professional education courses to earn a credential. The student is strongly encouraged to consult with an advisor in the Department of Geological Sciences, the Department of Science Education, or the Single Subject Credential Program for more information about additional requirements for the credential.

Lower Division: ASTR 100; BIOL 211A-B; CHEM 111A-B; GEOL 102, 104, 160, 273; PHYS 151-152, MATH 122, 123.

Upper Division: GEOL 324, 341, 343, 428, 433, 450; SCED 403.

Master of Science in Geology (code GEOLMS01)

The Department of Geological Sciences offers a comprehensive program of courses coupled with appropriate thesis projects leading to the Master of Science in Geology. Within geology, students specialize in any of a number of sub-disciplines including engineering geology, environmental geochemistry, geology, hydrogeology, marine geology, mineralogy and petrology, paleontology, petroleum geology, sedimentology, stratigraphy, structural and field geology, and volcanology. In addition, a formal emphasis in geophysics is available. Students may include in their studies courses offered by other departments at CSULB, or courses at California State University Northridge and California State University Los Angeles; CSULB participates with both universities in a joint Master's program.

The objectives of the Master of Science in Geology are (1) to train individuals with the competence required by the geological profession for employment in industry and government agencies, (2) to enable promising students to attain a level of knowledge and research ability required for admission to Ph.D. programs at other universities, and (3) to provide course work and research experience necessary for students planning to teach geology at the community college level.

Emphasis in Geophysics

The emphasis in geophysics is available for students wishing to specialize in the application of geophysical principles to the solution of problems in engineering geology, geohydrology, structural geology, tectonics, petroleum geology, and mineral exploration. Students following this Emphasis are expected to have completed the equivalent of course work required for the B.S. in Earth Science, Geophysics emphasis, and additionally to complete M.S. requirements with a program of geophysical course work approved in advance by both the graduate advisor and a geophysics advisor. Appropriate B.S. programs which provide training suitable for completion of the M.S. in Geology, Geophysics Emphasis, include Civil and Electrical Engineering, Physics, Mathematics, and Geology in addition to Geophysics, although some deficiencies will exist in these alternate programs. Students should confer with the graduate advisor about this program.

Departmental Resources

Resources available for thesis research include carbon-sulfur analyzer, scanning electron microscope, transmission electron microscope, Geometrics Strataview land seismic unit with falling weight energy source, ArcView and Map Info, Wild theodolite and electronic distance measurement unit, Trimble Pro-XR G.P.S., LaCoste and Romberg gravity meters (D meter with electrostatic feedback device and G-level), surface resistivity/self potential apparatus, system 10 color-enhanced ground penetrating radar, Telluric current recording meter, total field magnetometer with gradiometer, X-ray diffraction and fluorescence units, hydrous pyrolysis pressure vessel, gas chromatographs, stable isotope vacuum lines, stable isotope mass spectrometer, departmental computer network with several printers and campus mainframe computer, Total Station laser survey instruments, ICP MS (inductively coupled plasma mass spectrometer), Kingdom Suite seismic computerized 3D visualization system, access to oceanographic research ships R/V Yellowfin and R/V Seawatch with associated oceanographic equipment including a proton precession magnetometer and a high resolution seismic reflection system (16 channel marine seismic digital hydrophone streamer and sparker).

Admission to the Program

The basic requirement for admission to the graduate program is possession of a bachelor's degree or equivalent in geology or earth sciences comparable to degrees offered at CSULB. The student normally will be expected to have completed as an undergraduate acceptable work in certain basic lower division and upper division subjects. Lower division subjects include calculus, calculus-based physics, chemistry, biology, computer programming and statistics. Upper division subjects depend on the degree emphasis and sub-discipline to be followed by the student, and generally include (but may not be limited to) courses required by the corresponding undergraduate emphases. Students who are missing some of this course work may be admitted to the program but will be expected to remove deficiencies or present acceptable alternatives.

In addition to the above course work requirements, students are required to take the General test of the Graduate Record Examination and to submit three letters of recommendation prior to entry.

Prospective graduate students in the geological sciences, including CSULB graduates, must formally apply for admission to CSULB as described previously in this *Catalog* and must also apply directly to the Department of Geological Sciences. All applicants must submit the following documents directly to the Department no later than July 1 for the fall semester or December 1 for the spring semester to receive consideration for admission:

1. Department Application Form, available from the Department Office;
2. Official transcripts of all college level academic work including that done at CSULB, in addition to those transcripts required for general graduate admission to CSULB;

3. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential;
4. Official reports of scores on the General test of the Graduate Record Examination.

A limited number of assistant/associateships are available to fund graduate studies in the Department of Geological Sciences. Applicants wishing to be considered for one of these positions must submit all application materials to the Department Office no later than July 1 for the Fall semester or December 1 for the Spring semester.

Students not meeting the Department's admissions standards or application requirements may be admitted on probationary status on a case-by-case basis. Those students will be expected to maintain the same high academic standards as fully admitted students. After two semesters, students admitted on probationary status will be re-evaluated for full admission to the Department.

Initiation of Graduate Study

Students are responsible for all University and Department regulations governing master's degrees as outlined in this *Catalog*. The regulations governing the degree are those in effect at the time of advancement to candidacy. Until that time, students are governed by the most current *Catalog*. The advising of incoming graduate students is carried out by the graduate advisor, who explains the requirements of the program and carries out initial academic advising. It is required that the student arrange for this initial advising before or during his/her first semester.

All entering students must take GEOL 500 (Introductory Graduate Seminar) during their first Fall semester. This course consists of faculty-given seminars that introduce new students to the Department and to the faculty and their research. One purpose of this is to encourage the student to find a thesis topic and thesis advisor by the end of the second semester. This is done with the help of the graduate advisor once the student has chosen a sub-discipline or option in which to specialize.

Students are required to maintain a GPA of 3.0 or higher at all times. If at any time a student's GPA drops below 3.0, that student will immediately be placed on probation for a maximum of two semesters. If the student does not bring the GPA back up to 3.0 during the probationary period, he/she will not be allowed to continue as a graduate student in this Department. In order for a student to regain status in the Department after failing to maintain this academic standard, he/she must formally reapply for Department admission.

Advancement to Candidacy

A student must have been advanced to candidacy before initiating formal thesis research necessary to complete the M.S. degree. Students are expected to be advanced by the end of their fourth semester. Students may petition the Department for an extension of the four semester time limit on a semester by semester basis. Students should be aware, however, that they are at risk of not receiving credit toward their graduate programs for research started or courses taken prior to advancement. Students must have completed the WPE and have advanced to candidacy before they apply for

graduation. Requests to graduate must be received during the preceding May for Spring/Summer graduation or preceding December for Fall graduation. Filings after the deadlines are not accepted.

Before advancement can proceed, a thesis topic, committee, and graduate program consisting of at least 30 units (see below) must be established by the student and the prospective thesis committee chair. In addition the following requirements must be met:

1. Prior completion of all deficiencies or incompletes. This includes courses required in the undergraduate major for the emphasis in which the student is pursuing graduate research, as well as additional courses specified by the thesis advisor.
2. Completion of six units of graduate level courses with a 3.0 or higher grade point average and attainment of a 3.0 or higher grade point average in all upper division and graduate work attempted, as well as in courses to be listed in the student's graduate academic program (see below).
3. A passing grade in GEOL 500.
4. Completion of the Writing Proficiency Examination with a passing score.
5. Successful completion of an oral qualifying examination given by the student's thesis committee, and acceptance of a written proposal for the thesis research. The student's thesis topic will be the subject of the examination.

Once the above requirements are met, advancement to candidacy proceeds with approval of the committee, graduate advisor, Department Chair and Associate Dean for Graduate Accountability. After the student has been advanced, no course work in addition to that specified in the graduate program may be required of the student. In order for a student to change thesis director, topic, committee members, or courses in the graduate program, approval must be obtained. Under some circumstances this may mean that additional courses are required.

Requirements of Graduate Academic Program

The graduate academic program consists of at least 30 units of courses and is finalized when the student advances to candidacy. Although courses that will eventually become part of the student's academic program may be taken before advancement, it is strongly recommended that students make up any undergraduate deficiencies first, and then advance as early as possible. The program proposed by the thesis committee chair and the student must be approved by the thesis committee, Graduate Advisor, Department Chair, Associate Dean for Graduate Accountability and Dean of Graduate Studies. Six units of GEOL 698 (Thesis) must be taken as part of the program. Directed Research, GEOL 697, may account for up to three units, but normally cannot be taken before the student completes 12 units of the graduate program with a grade point average of 3.0 or higher.

A minimum of 18 units of 500 or 600 level courses, including Thesis, must be completed; the remaining units (12 or less) may be 300, 400, 500, or 600 level courses, although courses at 300 level in the Department may not be used in the program. Units may be taken at other universities if suit-

able courses are not offered at CSULB. Appropriate courses from related areas in science, mathematics, or engineering may be substituted within limits with consent of the Department.

Thesis Defense

All M.S. students are required to submit a thesis that conforms to the University and Department guidelines. The thesis should document the systematic study of a significant geological problem; evidence originality and critical, independent thinking; and conform to appropriate and accepted organization, format, and writing style. Each student should discuss thesis format with his/her thesis committee chair.

All M.S. students are also required to present the results of their research orally. With prior approval, this presentation can take one of many possible formats, including a departmental seminar, a presentation at a regional or national meeting, or a formal thesis defense. The student must schedule his/her presentation at least two weeks in advance, and with the approval of the thesis committee chair (and thesis director). The date of the presentation must precede the filing deadline for the semester in which the student plans to graduate.

Courses (GEOL)

Lower Division

102. General Geology (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Broad based introductory study of geology. Includes the structure, composition, distribution, and modification of earth materials and also the elementary geologic history of the Earth. Not open to students with credit in GEOL 103 or 107. Concurrent enrollment in GEOL 104 or 105 recommended. (Lecture, demonstration 3 hrs.) (GEOL 102+104, CAN GEOL 2)

104. Geology Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent, and concurrent or prior enrollment in GEOL 102. Laboratory study of earth materials. (Laboratory 3 hrs.) Course fee may be required. (GEOL 104+102, CAN GEOL 2)

105. Geology Field Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent, and concurrent or prior enrollment in GEOL 102. Field trips to areas of geologic significance and field study of earth materials. May be repeated to a maximum of 3 units with consent of instructor. (Field trips, 6 days per unit.) Course fee may be required for bus trips.

106. Earth Science for Teachers (4)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics, including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Broad based introductory study of earth science, including geology, oceanography, meteorology, and solar system astronomy. Includes study of earth materials, elementary geologic history, ocean basins and coastlines, weather and climate, pollution and earth resources, geology of the planets, laboratory study of rocks and minerals maps, and simple scientific instruments. Discussion of the scientific method. Introduction to methods of teaching science to K-8 pupils. Letter grade only (A-F). (Lecture, demonstration 3 hours., laboratory 3 hrs., field trips.)

160. Introduction to Oceanography (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Origin and extent of the oceans; nature of the ocean floor, cause and effect of currents, tides and waves; and life in the sea. (Lecture, discussion 3 hrs.)

160L. Introduction to Oceanography Laboratory (1)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent; and previous credit or concurrent registration in GEOL 160. Field and laboratory study of the marine environment. Sea trips for experience in the use of oceanographic instruments. Analysis and interpretation of results. (Laboratory-field 3 hrs.) Course fee may be required.

163. Science of the Atmosphere and Weather (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Introduction to physical and chemical processes of the atmosphere, science of weather and weather disturbances. Emphasis on understanding the atmospheric environment rather than technical calculations. (Lecture 3 hrs.)

190. Environmental Geology (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Interrelationships between humans and hazards: landslides, floods, erosion, subsidence, volcanism, earthquakes, and seismic sea waves. Origin of resources and impacts of resource development: water, soils, and energy. Waste and waste disposal. (Lecture 3 hrs.)

191. Air and Water Pollution (3)

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement and three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) or the equivalent. Survey course dealing with the causes and nature of pollution of the air, groundwater, fresh water lakes and streams, and the ocean. Effects of air and water pollution on the environment. (Lecture 3 hrs.)

240. Historical Geology (4)

Prerequisites: GEOL 106 or both GEOL 102 and 104. History of the earth and evolution of animals and plants. (Lecture 3 hrs., laboratory 3 hrs., field trips.) Course fee may be required. (CAN GEOL 4)

273. Computer and Statistical Methods in Geology (4)

Prerequisites: GEOL 240, PHYS 151, MATH 123. An elementary background in computers is recommended. Introduction to statistical theory, computer programming, and the use of computer-based statistical and graphical packages as applied to problem-solving in the geological sciences. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.) Course fee may be required.

280. Water Resources and Society (3)

Prerequisites: GEOL 102, 104. A grade of "C" or better in MATH 117, or four years of high school mathematics. Hydrologic, geologic, and other factors controlling groundwater and surface water occurrence, movement, quality, and contamination. Environmental effects of groundwater and surface water contamination. (Lecture 3 hours; field trips)

Upper Division

300I. Earth Systems and Global Change (3)

Prerequisites: Completion of the G.E. Foundation, upper division status, and CHEM 100 or CHEM 111A or GEOL 102 or GEOL 106 with a grade of "C" or better. Introduction to the interaction of the Earth's systems (biosphere, lithosphere, hydrosphere, cryosphere, and atmosphere). Exploration of the systematic links between life, oceans, climate, and the solid earth, and how these connections control climate change in the past, present, and future. The Earth Systems approach is used to understand important current issues confronting society regarding local and global climatic and environmental change. Letter grade only (A-F). (Lecture 3 hrs.)

303. Coastal Systems and Human Impacts (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing; BIOL 200; GEOL 102 or 160. Defines and describes natural processes impacting human activities in the coastal zone and how human practices influence natural processes. Topics include global warming, sea level rise, El Niño, port development, ocean outfalls and water quality, fisheries, and coastal erosion. May not apply units towards elective requirements of Geology and Earth Science majors. Same course as BIOL 303. Letter grade only (A-F). (Lecture 3 hrs.)

321. Optical Mineralogy (3)

Prerequisites: GEOL 324, MATH 123, PHYS 151. Optical properties of crystals and minerals. Laboratory study of minerals in immersion liquids and thin sections with polarizing microscope. (Lecture 1 hr., laboratory 6 hrs.)

324. Mineralogy and Crystallography (4)

Prerequisites: GEOL 102 and 104, CHEM 111A. Corequisite or prerequisite: PHYS 151. Morphological and structural crystallography; crystal chemistry; crystal structure; chemistry, classification, origin, occurrence and association of minerals. Megascopic, qualitative chemical, and instrumental analysis and identification of minerals in the laboratory. (Lecture 2 hrs., laboratory 6 hrs., field trips.) Course fee may be required.

339. Introduction to Geomorphology (3)

Prerequisites: GEOL 102 with 104 or 105; or GEOL 106; or GEOG 140 or 150. An introduction to the study of landforms and the processes that produce and modify them. Emphasis is placed on the mechanics of geomorphic processes and on the relationships between properties of earth materials and the forces applied to them by gravity, wind, ice, water, waves, and humans. Lectures address the conceptual basis of geomorphology; assignments are practical and empirical. Course is designed for majors in Geology, Geography, Biology, Environmental Sciences, Anthropology, and Civil Engineering. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips)

341. Paleontology and Biostratigraphy (4)

Prerequisites: GEOL 240 and BIOL 200. Morphologic, systematic, and ecologic aspects of invertebrate fossils; methods and techniques in the collection, preparation, illustration, and description of fossils; uses of fossils in stratigraphic work; principles of biostratigraphy. (Lecture 3 hrs., laboratory 3 hrs., field trips.)

343. Stratigraphy/Sedimentology (4)

Prerequisites: GEOL 240, 324, 428, and 429. Introduction to sedimentology and stratigraphy, flow mechanics and sedimentary structures, depositional systems, seismic stratigraphy and sea level changes, sedimentation and tectonics, methods of description and classification of sedimentary rocks, and preparation of sedimentologic field reports. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs., field trips)

364. Introduction to Geological Oceanography (2)

Prerequisites: GEOL 102 or 160; and CHEM 111A or MATH 122, or consent of instructor. Topography and structure of the ocean floor. Waves, currents, and tides as agents of sedimentation. Effect of geological processes on the sea floor environment. Tectonic and sedimentary history of ocean basins and continental margins. Shipboard techniques in marine geology. (Lecture 2 hrs.; sea trips.)

364L. Laboratory in Geological Oceanography (1)

Prerequisite or corequisite: GEOL 364. Analytical and data collecting techniques in marine geology. Chart reading and navigation. Bottom and subbottom profiling. Sample collecting methods and their applicability. Laboratory analysis of bottom samples. Interpretation of data from geologically significant localities visited by research ship. (Laboratory 3 hrs.; sea trips.)

370. Engineering Geology (2)

Prerequisites: MAE 172, CE 130. Earth processes and materials which influence the design, construction and operation of engineering works, construction materials. Not open for credit to geology majors. (Lecture 2 hrs., field trips.)

*420. Geowriting (3)

Prerequisites: Upper division or graduate standing in the College of Natural Sciences and Mathematics, ENGL 100 or equivalent, passing score on WPE and a course in geology, and consent of instructor. Covers major types of scientific writing aimed at a scientific audience with emphasis on writing scientific content at an advanced level. Journal articles and abstracts will be covered in detail. Topics include handling descriptive scientific data, the distinction between data and interpretation, logic and argument, clarity of style, and writing for specific audiences. Requires extensive independent writing. Enrollment limited. Letter grade only (A-F). (Lecture 3 hrs.)

424./524. Sedimentary Petrology (4)

Prerequisites: GEOL 321, 324, and 343. (Undergraduates register in GEOL 424; graduates register in GEOL 524.) Microscopic and macroscopic study of sedimentary rocks. Identification of grain types, textures, structures, and cements with emphasis on provenance, paleotectonics, paleoenvironmental reconstructions, and diagenesis. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

428. Igneous and Metamorphic Petrology and Petrogenesis (2)

Prerequisites: GEOL 102, 104, and 324, CHEM 111A and 111B, PHYS 151 and 152, MATH 122 and 123. Corequisite: GEOL 429 (Geology majors) or 1 unit GEOL 496 (hand specimen petrography lab, Earth Science majors). Characteristics of magmatic and metamorphic rock bodies and systems, including mineralogical and chemical aspects. Origin of fabrics; evolution of igneous and metamorphic rocks based on petrologic, isotopic, and geochemical evidence; selected research topics in other aspects of petrology. Letter grade only (A-F). (Lecture 2 hrs., field trips.)

*429. Igneous and Metamorphic Petrography Laboratory (2)

Prerequisites: GEOL 273 and 321. Corequisite: GEOL 428. Microscopic and ancillary hand specimen analysis of igneous and metamorphic rocks, including fabric analysis and mineral identification and analysis. X-ray analysis of rocks, computer modeling of magma genesis. Topics will be closely tied to concurrent material in GEOL 428. Letter grade only (A-F). (Laboratory 6 hrs.)

430./530. Seminar in Structural Geology and Tectonics (3)

Prerequisite: GEOL 433. (Undergraduates register in GEOL 430; graduates register in GEOL 530.) Critical review of selected topics concerning the analysis, interpretation and origin of geologic structures, the mechanics of rock deformation and of large scale crustal deformation. (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

431./531. Tectonic Geomorphology (4)

Prerequisite: GEOL 433. (Undergraduates register in GEOL 431; graduate students register in GEOL 531.) Observation and analysis of Earth surface processes and the development of landforms and landscape. Study of the interaction between surficial processes and tectonic, biologic, hydrologic, climatic, and atmospheric processes. Emphasis on the study of tectonic generated landforms, evaluation of earthquake hazards, and geomorphic assessment. Methods and techniques to assess real problems in the study of landforms and applications to environmental hazards. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.)

433. Structural Geology (4)

Prerequisites: GEOL 240, 273, 324, PHYS 152. Introduction to structural geology, description of rock structures, graphical solutions to structural problems, computer manipulation of structural data, strain analysis, rock fabric analysis, field analysis of tectonic structures, analysis of structures from maps and cross sections, and structural geology and tectonics. (Lecture 3 hrs., laboratory 3 hrs., field trips.)

450. Summer Field Geology (6)

Prerequisites: GEOL 343, 428, 429 or 496 (1 unit devoted to hand specimen petrology which MUST be taken concurrently with GEOL 428) and 433. Six weeks of geological field mapping at a selected area. Preparation of geological reports of the field problems. (Lecture as needed, daily field work.)

*451. Senior Field Study (3)

Prerequisites: GEOL 450. Advanced field studies in geology. Students pursue a field-oriented project of interest in a geographical area(s) and subject(s) agreed upon by instructor. Primary responsibility for design and implementation of project belongs to the student. Project will also involve laboratory work and writing of reports. Letter grade only (A-F). (Lecture 1 hr., field trips.)

452. Advanced Topics in Marine Geology (3)

Prerequisites: GEOL 364 and 364L. Corequisite or prerequisite: GEOL 460. Advanced course stressing field collection of data and samples, analysis of data in laboratory, and completion of report. Individual topics will be selected. Lectures on advanced topics in marine geology: structure and composition of oceanic lithosphere, continental margin structure and evolution, seismic stratigraphy, paleoceanography, critical events in world ocean history, and advanced sampling and geophysical techniques. Letter grade only (A-F). (Lecture 1 hr., laboratory 3 hrs., 5 days of sea trips.)

*460. Introduction to Geophysics (4)

Prerequisites: PHYS 152, MATH 123, and GEOL 273. Introduction to geophysics; principles and processes; methods of investigation. (Lecture 2 or 3 hrs., laboratory 3 or 6 hrs., field trips.)

*461. Introduction to Geochemistry (4)

Prerequisites: CHEM 111B, MATH 123. Abundance and migration of elements in the earth; chemical processes in the evolution of the earth and its crust including geochemistry of organic compounds. (Lecture 3 hrs., laboratory 3 hrs.)

*462. Physics and Chemistry of the Earth's Interior (3)

Prerequisites: GEOL 240, 428; PHYS 152. Structure and composition of the Earth's interior. Origin and evolution of the Earth. Review of geophysical data, petrologic analyses, and other types of evidence for Earth structure and compositional models. Letter grade only (A-F). (Lecture 3 hrs.)

465./565. Physical and Chemical Oceanography (3)

Prerequisites: CHEM 111B, PHYS 100B, and upper division standing in the College of Natural Sciences and Mathematics or Engineering. (Undergraduates register in GEOL 465; graduates register in GEOL 565.) Physical and chemical oceanography; the carbonate cycle; minor elements and micronutrient elements in sea water; water masses of the oceans; the physical concepts and interpretative theories related to ocean circulation. (Lecture 3 hrs.)

***466. Oceanography Laboratory and Ocean Studies (1)**

Prerequisite: Concurrent or prior enrollment in GEOL 465. Instruments and techniques in physical and chemical oceanography; sea trips to areas of oceanographic significance, water quality analysis and interpretation of oceanographic data. Not open to students with credit in GEOL 462. (Laboratory 3 hrs., sea trips.)

***471. Petroleum Geology and Well Log Analysis (4)**

Prerequisites: GEOL 240, 343, and 433. Application of geology to the exploration and production of petroleum, including the uses of both surface and subsurface techniques. Basic well logging techniques as employed in the petroleum (and other) industries, including data collection, reduction, interpretation, and integration among various logging methods as well as with surface geology and geophysical data. (Lecture 2 hrs., laboratory 6 hrs., field trips.)

477./577. Hydrogeology (3)

Prerequisites: GEOL 102, 104; CHEM 111B; PHYS 152; MATH 123. (Undergraduates register in GEOL 477; graduates register in GEOL 577.) Hydrologic, geologic, and other factors controlling groundwater flow, occurrence, development, chemistry, and contamination. Elementary groundwater flow theory. Well hydraulics. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

486./586. Engineering Geophysics (3)

Prerequisite: GEOL 460 (may be taken concurrently). (Undergraduates register in GEOL 486; graduates register in GEOL 586.) Applications of geophysical techniques to the solution of engineering geology and hydrogeology problems. Review of basic geophysical techniques, and identification and utilization of specialized techniques suitable for the solution of specific problems. Applications and case histories in hazardous waste site evaluations, actively subsiding areas, mapping of basement topography, sea water intrusion problems, mapping of the water table, groundwater contamination, and detection of subsurface cavities. Reading and discussion of research articles; preparation of geophysical feasibility studies in selected engineering environments. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.) Course fee may be required.

***489. Current Topics in Geological Sciences (3)**

Prerequisite: Consent of instructor. Topics of current interest in the geological sciences selected for intensive development. Topics to be selected from such areas as (a) Volcanology, (b) Urban geology. May be repeated to a maximum of 6 units. Field trips may be required. (Lecture 2 hrs., laboratory 3 hrs.)

***490. Current Topics in Geological Sciences (1-3)**

Prerequisite: Consent of instructor. Topics of current interest in the geological sciences selected for intensive development. Topics to be selected from such areas as (K) Economic Mineral Deposits. May be repeated to a maximum of 6 units. Field trips may be required.

496. Investigations in Geology and Other Earth Sciences (1-4)

Prerequisites: Senior standing in geology, earth science or related fields, completion of an upper division course in geology or earth science in the area of the topics chosen and approval of the topic chosen by the Geological Sciences faculty. Supervised research in geology or the other earth sciences. Field trips may be required.

Graduate Level

500. Introductory Graduate Seminar (1)

Prerequisite: Graduate standing. An introduction to graduate policies and faculty research in Geological Sciences. Abstracts on faculty presentations will be required of all students. Course cannot be counted for program requirements for the M.S. degree in Geology. Credit/No Credit grading only. May be repeated to a maximum of 3 units. (Seminar 1 hr.)

524./424. Sedimentary Petrology (4)

Prerequisites: GEOL 321, 324, and 343. (Undergraduates register in GEOL 424; graduates register in GEOL 524.) Microscopic and macroscopic study of sedimentary rocks. Identification of grain types, textures, structures, and cements with emphasis on provenance, paleotectonics, paleo-environmental reconstructions, and diagenesis. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

530./430. Seminar in Structural Geology and Tectonics (3)

Prerequisite: GEOL 433. (Undergraduates register in GEOL 430; graduates register in GEOL 530.) Critical review of selected topics concerning the analysis, interpretation and origin of geologic structures, the mechanics of rock deformation and of large scale crustal deformation. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.)

531./431. Tectonic Geomorphology (4)

Prerequisite: GEOL 433. (Undergraduates register in GEOL 431; graduate students register in GEOL 531.) Observation and analysis of Earth surface processes and the development of landforms and landscape. Study of the interaction between surficial processes and tectonic, biologic, hydrologic, climatic, and atmospheric processes. Emphasis on the study of tectonic generated landforms, evaluation of earthquake hazards, and geomorphic assessment. Methods and techniques to assess real problems in the study of landforms and applications to environmental hazards. Letter grade only (A-F). (Lecture 2 hrs., laboratory 6 hrs., field trips.)

537. California Geology (3)

Prerequisites: GEOL 433, GEOL 450. Examination of recent theories concerning the evolution of California's geological provinces; geological, geochemical, and geophysical evidence for these theories. Letter grade only (A-F). (Lecture 3 hrs., field trips.)

554. Environmental Geochemistry (3)

Prerequisites: Graduate standing in geology, a course in instrumental analytical methods, and consent of instructor. Geochemical cycles. Human interference with cycles. Trace elements, health and agriculture. Clay mineral reactions. Groundwater chemistry. Reading and discussion of research articles; projects in environmental geochemistry. Letter grade only (A-F). (Lecture 3 hrs., field trips.)

556. Organic Geochemistry (3)

Prerequisites: CHEM 111B, GEOL 240. Exchange of organic matter among sediments, hydrosphere, and biosphere. Diagenesis and catagenesis and their effects on different types of organic matter. Origin of coal and crude oil. Thermal maturity of sedimentary rocks. Letter grade only (A-F). (Lecture 3 hrs.)

565./465. Physical and Chemical Oceanography (3)

Prerequisites: CHEM 111B, PHYS 152 or 100B, and upper division standing in the College of Natural Sciences and Mathematics or Engineering. (Undergraduates register in GEOL 465; graduates register in GEOL 565.) Physical and chemical oceanography; the carbonate cycle; minor elements and micronutrient elements in sea water; water masses of the oceans; the physical concepts and interpretative theories related to ocean circulation. Letter grade only (A-F). (Lecture 3 hrs.)

570. Special Topics in Geology (1-3)

Prerequisite: Consent of instructor. Investigation of selected topics in geology. May be repeated to a maximum of 6 units toward any single degree with different topics. Seminars with laboratories as appropriate. Letter grade only (A-F).

575. Advanced Topics in Sedimentology (1-4)

Prerequisites: Consent of instructor. Investigation of selected topics in sedimentology such as depositional facies analysis, basin evolution, coastal processes, fluvial processes, advanced stratigraphic analysis, and tectonics and sedimentation. Course content varies from year to year. May be repeated to a maximum of 4 units toward any single degree with different topics. Seminars with labs and/or field work as appropriate. Letter grade only (A-F).

576. Practicum in Geohydrology (3)

Prerequisite: Consent of the instructor; the student should have a fundamental understanding of aquifer mechanics, organic chemistry, stratigraphy, and geohydrology. Solution of actual problems in the areas of water supply and resource contamination. A combination of field techniques, problem approaches, and quantitative analysis will be used to solve comprehensive problems in a fixed period of time to simulate industry conditions. Letter grade only (A-F). (Seminar and field trips, 3 hrs.)

577./477. Hydrogeology (3)

Prerequisites: GEOL 102, 104; CHEM 111B; PHYS 152; MATH 123. (Undergraduates register in GEOL 477; graduates register in GEOL 577.) Hydrologic, geologic, and other factors controlling groundwater flow, occurrence, development, chemistry, and contamination. Elementary groundwater flow theory. Well hydraulics. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

578. Groundwater Hydraulics (3)

Prerequisites: GEOL 477/577, MATH 364A. Advanced treatment of groundwater flow through granular porous and fractured media; analytical solutions to groundwater flow problems; hydraulics of wells and aquifer parameter estimation. Letter grade only (A-F). (Lecture 3 hrs.)

585. Advanced Gravity and Magnetism (3)

Prerequisites: MATH 224, PHYS 152, GEOL 460. Advanced topics in the gravity and magnetic methods of geophysical prospecting. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs., field trips.)

586./486. Engineering Geophysics (3)

Prerequisite: GEOL 460 (may be taken concurrently). (Undergraduates enroll in GEOL 486; graduates enroll in GEOL 586.) Applications of geophysical techniques to the solution of engineering geology and hydrogeology problems. Review of basic geophysical techniques, and identification and utilization of specialized techniques suitable for the solution of specific problems. Applications and case histories in hazardous waste site evaluations, actively subsiding areas, mapping of basement topography, sea water intrusion problems, mapping of the water table, groundwater contamination, and detection of subsurface cavities. Reading and discussion of research articles; preparation of geophysical feasibility studies in selected engineering environments. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.; field trips.) Course fee may be required.

697. Directed Research (1-3)

Prerequisite: Consent of instructor. Research on a specific subject in geology. Topic for study to be approved and directed by a faculty member in geological sciences. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisite: Consent of Graduate Committee and graduate advisor. Either laboratory or field investigations, or both, for a total of six semester units to culminate in an approved thesis. Letter grade only (A-F).

Gerontology is the scientific study of the processes and phenomena of aging, including biological, psychological and sociological dimensions. CSULB's Gerontology Program seeks to prepare people of all ages for personal and family aging and for work with older persons and with those individuals, agencies, organizations, and businesses that work with middle aged and older persons. The Gerontology Program's objectives are:

- To provide a flexible interdisciplinary curriculum that provides new and seasoned professionals with the competencies necessary for success in the field of aging.
- To provide experiential as well as didactic graduate education and professional training in gerontology for individuals planning to become professionals in public and private agencies.
- To provide professional field experiences in gerontology in order to enhance understanding of concepts, themes, and skills related to aging at various life stages, within different gender and racial/ethnic groups and among people with various abilities.
- To provide knowledge and skills necessary to plan, develop, and implement innovative programs to meet the needs of the State's vast and growing aging population.
- To explore aging-related professional values and ethics.

The Gerontology Faculty Interest Group is comprised of about 60 CSULB faculty members representing more than 20 disciplines. Members teach courses essential to the Gerontology Program, conduct gerontological research, and provide training and service. Lecturers and emeritus faculty members also are active in the Gerontology Program. Full time Interest Group members are listed.

CSULB is one of only a few California campuses to offer graduate programs to meet the State's need for educated, experienced and diverse professional gerontologists. To accomplish this goal, two programs of study are offered: A Master of Science in Gerontology and a Gerontology Certificate.

Master of Science in Gerontology (code FCS_MS02)

Interested students should contact Dr. Barbara White at 562-985-1582 or bwhite@csulb.edu

The Master of Science Degree in Gerontology is designed to prepare students with a thorough background in existing theory and research in gerontology, advanced principles of program management, and an enhancement to their baccalaureate preparation for their professional discipline. Students who complete the M.S. in Gerontology will accomplish the following objectives:

1. Acquire advanced education and professional training in gerontology in order to become administrators of state and federal programs, services such as senior centers and retirement homes, businesses, and intergenerational programs.
2. Enhance cultural competence regarding age, cohort, gender, race and ethnicity, and/or diverse abilities.

3. Acquire expertise in planning, developing, implementing, and evaluating innovative programs to meet the needs of older persons.
4. Demonstrate the ability to conduct appropriate research.
5. Exercise sound professional judgment based on high ethical standards and expectations.

Admission Requirements

1. Complete the application form to be admitted to the university with graduate standing;
2. Send the following materials to the Gerontology Program, in addition to those sent to the Office of Enrollment Services:
 - a. Transcripts of all undergraduate and graduate work,
 - b. Three letters of recommendation reflecting academic potential, personal qualifications, sensitivity, motivation, and evidence of ability and motivation to work with older adults and professionals in the field of aging, and
 - c. A current resume,
 - d. A personal statement of interest in aging and career goals in the field.

Admission to the program is contingent on approval by the Gerontology Program Director.

Prerequisites

1. A bachelor's degree from an accredited institution.
2. Evidence of a 3.0 or better grade point average in all undergraduate work. Students with less than a 3.0 grade point average in the last 60 undergraduate semester or 90 quarter units attempted but with evidence of professional promise and experiential background may be admitted conditionally by action of the Program Director.
3. Successful completion of the following courses or their approved substitutes: a. GERN 400I; b. BIOL 401; c. PSY 365 or HDEV 357I; d. ANTH 454; e. An approved upper division statistics course.

Retention

1. Maintain a 3.0 or better grade point average in all graduate work completed at CSULB and all graduate work transferred to meet graduate requirements.
2. Continued satisfactory progress toward the degree objective.

Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy.
2. Pass the Writing Proficiency Examination (to be taken during the first term).
3. Complete a minimum of six units of graduate coursework.
4. Enroll during the semester or summer session in which advancement to candidacy takes place.
5. Obtain approval for one's individual program plan from the Gerontology Program Director and then from the Associate Dean of the College of Health and Human Services.

Requirements

Thesis Option: Completion of a minimum of 37 units, with at least 28 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 696, 697, and 698. A maximum of six units may be taken outside of the major.

Comprehensive Examination Option: Completion of a minimum of 37 units with at least 24 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 696, 697, and a written comprehensive examination. A maximum of ten units may be taken outside of the major.

Directed Project Option: Completion of a minimum of 37 units with at least 28 units of 500 and/or 600 series courses in Gerontology, including GERN 563, 592, 600, 610, 696, 697 and 692. A maximum of six units may be taken outside the major.

Certificate in Gerontology (code FCS_CT03)

Interested students should contact Dr. Barbara White at 562-985-1582 or bwhite@csulb.edu

The Certificate program is designed to train individuals as gerontology specialists within a major area of study. Alumni work in community programs, health services organizations, government agencies, and the private sector.

The Certificate in Gerontology may be earned in conjunction with a baccalaureate degree or awarded subsequent to earning a bachelor's degree. Up to six units of courses taken in the student's major department may be approved to satisfy credential requirements as may general education and elective courses also used to complete the bachelor's degree.

Requirements

1. A bachelor's degree (may be taken concurrently).
2. 24 units distributed as follows: GERN 400I, ANTH 454, BIOL 401, PSY 365 or HDEV 357I.
3. A minimum of six units chosen in consultation with the Gerontology Program Director from a list of supporting courses.
4. Three units of independent study (GERN 497) on a topic related to gerontology.
5. Three units of approved field experience (GERN 492) in a gerontology setting.
6. Early consultation with, and approval by the Gerontology Director for, the individual program of study.
7. Apply for issuance of the earned Certificate at Enrollment Services the term before completion of the baccalaureate and/or Certificate.

Successful completion of the program will result in the Program Director's recommendation for issuance of the Certificate in Gerontology.

Courses (GERN)

400I. Perspectives on Gerontology (3)

Prerequisites: Completion of the General Education Foundation, one or more Explorations courses, and upper-division standing. Multidisciplinary approach to the study of middle age and aging including physiological, psychological, and sociological aspects. Exploration of the effects of culture and of environment on the aging of individuals and groups. Examples of topics include history; demographics; normal and disease-based sensory, cognitive, and health changes; housing and long-term care issues; work, retirement, and income; frauds and scams targeting older adults; and public policy issues. (Lecturer-discussion, 3 hours.)

420./520. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expenses, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as FCS 420./520. (Lecture-discussion 3 hrs)

*424. Independent Living for Disabled and Elderly Persons (3)

Prerequisite: FCS 321 or 322 or GERN 400I or consent of instructor. Independent living concepts related to physically and/or functionally disabled adults. Personal, environmental and programmatic responses to disability and aging. Activities include individual and group projects and site visits to such locations as an adapted private home, an Independent Living Center, a "special clothing" manufacturer, and a multipurpose rehabilitation center. Same course as FCS *424. Letter grade only (A-F). (Lecture/Activity, 3 hours.)

*439. Nutrition and Aging (3)

Prerequisites: FCS 232 or BIOL 207 or consent of instructor. Nutritional needs as related to physiological changes that occur during aging. Factors that influence food intake and nutritional status of the elderly. Diet adaptation for chronic diseases commonly found in older people. Same course as FCS *439. (Lecture-discussion, 3 hours.)

469./569. Disability, Culture and Society: Issues and Social Intervention (3)

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as REC 469/569 and S W 469/569. Letter grade only (A-F).

*474. Aging and Diversity in California (3)

Prerequisites: GERN 400I, or consent of instructor. This is an experiential course in which students undertake projects that are meaningful to diverse California elders, that build long-term skills, and that are timely. Professionals in the field of aging discuss their career paths, their local aging networks, and how the diverse physical, social, economic, cultural and political climates of the State and region shape current aging-related events, trends, issues and programs. At least two off-campus field trips are required. (Lecture-activity 3 units.)

*482. Health Assessment of the Aging Client (3)

Prerequisites: GERN 400I or equivalent and upper division standing or consent of instructor. Assessment of the physical, psychological and social status of the aging client as these factors affect health and well being. Course is designed to assist those working with the aging client in a variety of setting to identify actual or potential health related problems using a variety of tools and techniques. Same course as NRS*482. (Lecture-discussion, 3 hours.)

*485. Mental Health and Aging (3)

Prerequisites: GERN 400I, HDEV 357I or PSY 365, ANTH 454, and BIOL 401, or consent of instructor. Variations in the mental health status of older adults over time and within subgroups. Discussion of changing societal responses (e.g., how and why diagnoses and assessments of competence shift over time). Exploration of the most frequent mental health issues of older adults. Comparison of medical and non-medical therapeutic approaches to older adults' mental health issues. Two off-campus site visits required. (Seminar 3 hours.)

492G. Internship in Gerontology (3)

Prerequisites: Student must be a Gerontology Certificate candidate; have senior standing; have a 2.5 overall GPA or a 3.0 major GPA; approval of the Gerontology program director; and GERN 400I, ANTH 454, PSY 365 or HDEV 357I. Each prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed

with other courses with approval of the Area Coordinator. Field experience of 120 hours in which the student assumes a pre-professional role in an agency, business or other community setting. Internship supervisors monitor and evaluate student work based on preestablished criteria stated in the internship contract. The preestablished criteria in the contract consist of objectives developed by the student in consultation with the supervisor. The objectives and the placement site must be approved by the student's faculty advisor and the internship coordinator. Students evaluate the internship at the end of the experience. May be repeated to a maximum of 6 units. Same as FCS 492G. (Seminar 3 hours.)

497. Directed Studies (1-3)

Prerequisites: GERN 400I, ANTH 454, PSY 365, or HDEV 357I, upper-division standing and consent of program director. Independent study under the supervision of a faculty member. Exploration and experience supplementing and/or complementing regular courses. May be repeated to a maximum of 6 units.

*499. Special Studies (1-3)

Group investigation of topics of current interest in gerontology. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

Graduate Level

520./420. Personal Finance for the Aging (3)

Prerequisites: 400-level course in Consumer Affairs or consent of instructor. Provides an understanding of the operations of personal finance as applied to the aging population. Topics include public and private sources of income, living expenses, public and private sources of assistance, personal budget systems, financial planning, legal rights of the aged affecting their personal finances, and financial counseling for the aging. Same course as FCS 520./420. Letter grade only (A-F). (Lecture-discussion 3 hours.)

550. Social Policy and Aging (3)

Prerequisite: GERN 400I, HDEV 357I or PSY 365, and ANTH 454 or consent of instructor. Major legislation and policies affecting older Americans. Analyses of policy information and change, kinds of data, and social forces that affect development and implementation of aging-related policies and legislation.

563. Evaluation in Family and Consumer Sciences and Gerontology (3)

Prerequisites: Upper division or graduate course in statistics; GERN 696 (may be taken concurrently) or equivalent. Principles, design, and methods of program evaluation for use by Family & Consumer Sciences and Gerontology professionals. Selection and development of instrumentation for data collection and interpretation and methods of reporting. Letter grade only (A-F). (Seminar 3 hours.) Same course as FCS 563.

569./469. Disability, Culture and Society: Issues and Social Intervention (3)

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as REC 569/469 and S W 569/469. Letter grade only (A-F).

592. Internship in Family and Consumer Sciences/ Gerontology (3)

Prerequisite: Graduate standing and consent of instructor. Field experience in which student assumes a self directed responsible role in an agency, business or other community setting. May be repeated to a maximum of 6 units. Same course as FCS 592. (Seminar 3 hours) Letter grade only (A-F).

597. Independent Study (1-3)

Prerequisites: Graduate standing and consent of instructor. Independent study under the supervision of a faculty member. Exploration or experience supplementing and/or complementing regular courses to meet student learning goals. Letter grade only (A-F).

600. Seminar in Administration of Family and Consumer Sciences/Gerontology Programs (3)

Prerequisite: FCS 696 or GERN 696 or consent of instructor. Application of administration, management and leadership theories to family and consumer sciences/gerontology programs. Concepts include structure of organizations, leadership styles, management techniques, methods of analyzing and evaluating business systems, management philosophies and performance evaluation procedures. Activities and assignments focus on organization theory, planning, decision making and control techniques, in relation to leadership and management skills needed for success as a family and consumer sciences/gerontology administrator. Same course as FCS 605. (Seminar 3 hours.) Letter grade only (A-F).

610. Seminar in Current Issues, Trends and Research in Gerontology (3)

Prerequisite: Completion of all core courses except GERN 696, 697 or 698 any of which may be taken concurrently. Students will undertake literature reviews and/or research to explore emerging issues, trends and research in the field of aging studies and/or update their information on the most current gerontological topics. (Seminar 3 hours.)

692. Gerontology Directed Project (1-4)

Prerequisite: GERN 697. The student will work directly under the guidance of faculty advisors and, where appropriate an approved supervisor/preceptor at a selected site, to complete a project of relevance to the field of gerontology. The experience will be directed towards identifying and solving a specific problem, designing/conducting research, developing/evaluating a program, or recommending potential courses of action for a program. Written report required. Letter grade only (A-F).

696. Research Methods (3)

Prerequisite: Upper-division course in statistics. Methodological approaches to contemporary research issues in Gerontology. This course focuses on the design, development, and implementation of research projects. The course encompasses the tools and techniques of research and their application in the development of a formal research design. Topics covered include the scientific method, design and testing, qualitative and quantitative methods, survey research, data collection and analysis, research reporting and presentation. Required of all master's degree candidates in Family and Consumer Sciences and Gerontology. Letter grade only (A-F). (Seminar 3 hours). Same course as FCS 696.

697. Directed Research (1-3)

Prerequisite: Advancement to candidacy, GERN 500 level courses in area of study, and GERN 696. Independent investigation of research problems under the direction of a faculty member. Letter grade only (A-F).

698. Thesis (1-4)

Prerequisite: GERN 697, advancement to candidacy. Planning, preparation and completion of a thesis under supervision of a faculty member. Approval of thesis committee. Letter grade only (A-F).

GRADUATE DEGREES AND OTHER POST BACCALAUREATE STUDIES

Associate Vice President for Graduate and Undergraduate Programs
Keith Ian Polakoff

Associate Deans for Graduate Studies

Holly Harbinger (Arts)

Simon Kim (Education)

Mihir Das (Engineering)

Dixie Grimmer (Health and Human Services)

Frank Fata (Liberal Arts)

Henry Fung (Natural Sciences and Mathematics)

Director of MBA Program

H. Michael Chung

Graduate Studies

Graduate study is primarily designed to inspire independence of mind and originality in the quest for knowledge, truth, and useful application. Candidates for a master's degree are required to demonstrate mastery in their chosen field of study either through independent research culminating in an acceptable thesis and/or through successfully passing a final comprehensive examination.

Graduate curricula are designed to provide each student with advanced study in a discipline. All courses listed in a master's degree program, including those outside the major field, must be graduate or upper-division courses approved by the student's graduate committee and department graduate advisor.

Proficiency of a student in any and all parts of a curriculum is ascertained by the faculty of the University. A favorable vote of the faculty is required for a student to receive a master's degree.

A student who plans to become a candidate for a master's degree must hold a bachelor's degree from an accredited institution or have completed equivalent academic preparation at a foreign university as determined by the appropriate campus authority. The student must have completed undergraduate course work substantially equivalent to that required at California State University, Long Beach in the discipline of intended graduate study, or must be prepared to undertake additional work to make up any deficiency. Most graduate degree programs are based upon preparation in the discipline at the undergraduate level. Undergraduate preparation is considered adequate if a candidate has met the upper-division requirements of this University for a bachelor's degree in the subject matter area of the master's degree program. Refer to specific departments for detailed requirements of each degree program.

The following graduate degrees are offered:

Civil Engineer Degree

Master of Arts Degree in:

Anthropology

Art

Asian Studies

Communicative Disorders

Dance

Economics

Education

English

Family and Consumer Sciences

French

Geography

German

Global Logistics

History

Interdisciplinary Studies

Kinesiology

Linguistics

Music

Occupational Studies

Philosophy

Political Science

Psychology

Religious Studies

Spanish

Speech Communication

Theatre Arts

Master of Business Administration

Master of Fine Arts Degree in:

Art

Creative Writing

Dance

Theatre Arts

Master of Music

Master of Physical Therapy

Master of Public Administration

Master of Public Health

Master of Social Work

Master of Science in Nursing/Master of Public Health

Master of Science Degree in:

Aerospace Engineering

Biochemistry

Biology

Chemistry
 Civil Engineering
 Computer Science
 Counseling
 Criminal Justice
 Electrical Engineering
 Emergency Services Administration
 Engineering
 Engineering Management
 Geology
 Gerontology
 Health Science
 Health Care Administration
 Interdisciplinary Studies
 Kinesiology
 Mathematics
 Mechanical Engineering
 Microbiology
 Nursing
 Nursing/Health Care Administration
 Nutritional Science
 Physics
 Psychology
 Recreation Administration
 Science Education
 Special Education

Ed.D. in Educational Administration and Leadership

(awarded jointly with University of California, Irvine)

Ph.D. in Engineering and Industrial Applied Mathematics

(awarded jointly with Claremont Graduate School)

Certificate Programs and Graduate Study

Students, whether graduates of CSULB or of another accredited institution, may complete the requirements for and be awarded certificates while in graduate standing. Admission requires a bachelor's degree from an accredited institution, at least a 2.5 grade-point average in the most recently completed 60 units of course work, and a passing score on the University's Writing Proficiency Examination. Certificate programs are of two types: baccalaureate certificates which may be taken concurrently with or following the award of the baccalaureate degree, and graduate certificates which require post-baccalaureate standing. The baccalaureate certificates are listed in the "Undergraduate Programs" section of this catalog. The graduate certificates are listed below, with the department responsible for each certificate indicated in parentheses.

Graduate certificate programs require at least 18 units of course work, of which at least 12 units must be at the 500 or 600 level. Courses taken to fulfill the requirements for the master's degree may also be applied to certificate requirements, if the certificate program permits, but such overlap may not exceed 15 units. Courses in directed research, directed reading, internship, and independent study may comprise no more than 3 units of a graduate certificate program. Thesis and student teaching may not be used on the program. Extension

and/or transfer credit may comprise no more than one-sixth of the course work used to meet graduate certificate requirements. A grade-point average of at least 3.0 must be maintained in the graduate certificate program's course work. All courses used to complete the requirements of a graduate certificate must be completed within a five-year period from the date of the initial course work.

If you wish to pursue a graduate certificate program, you should review the course requirements given in the department course listings of this catalog. You should notify the relevant department of your intention to pursue a certificate program as early as possible so as to receive early advisement on the program.

Certificates

- Career Guidance Specialist (Educational Psychology, Administration, and Counseling)
- Community College (Educational Psychology, Administration, and Counseling)
- Chicano and Latino Studies (Chicano and Latino Studies)
- Health Care Administration (Health Care Administration)
- Leisure Counseling (Recreation and Leisure Studies)
- Museum Studies (Art)
- Nurse Practitioner (Nursing)
- Physical Therapy Intern (Physical Therapy)
- Public Management Analyst (Public Policy and Administration)
- Public Sector Employer-Employee Relations and Personnel Management (Public Policy and Administration)
- Public Sector Financial Management (Public Policy and Administration)
- Systems Engineering (College of Engineering)
- Teaching English as a Second Language (Linguistics)
- Russian and East European Studies (Russian Program)
- Transportation Policy and Planning (Public Policy and Administration)
- Urban Executive Management (Public Policy and Administration)

Post-Baccalaureate Studies

Students with a baccalaureate degree who wish to continue their education for personal enrichment or to meet professional needs may do so at CSULB either as a post-baccalaureate student or as a graduate student. A post-baccalaureate student is one who has not declared a master's degree or a credential as an objective but who is nevertheless attending class and participating in academic work at the University beyond the baccalaureate degree. Post-baccalaureate students may only enroll through University College and Extension Services. A graduate student is one who has requested and received formal admission to a specific field of study that will lead to a graduate degree in one of the many disciplines available at CSULB.

Candidates for public school service credentials at the University are advised to familiarize themselves with the requirements for these programs. Descriptions of credential programs appear in the Credential Programs section of this *Catalog* and in the separate departmental sections of this catalog.

Graduate and Post-Baccalaureate Admission Requirements

Graduate and credential applicants may apply with the objective of completing a degree, a credential, or a certificate program. Depending on the stated objective, CSULB will consider an application for admission in one of the three categories:

Graduate Standing — Conditionally Classified

To qualify for admission in conditionally classified graduate standing, a student must:

1. Hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation in a foreign university as determined by an appropriate campus authority;
2. Have attained a grade-point average of at least 2.5 (A = 4.0) in the last 60 semester (90 quarter) units attempted;
3. Have been in good standing at the last college attended; and
4. Be accepted into a graduate degree curriculum on a conditional basis, subject to the requirement that any deficiencies must be remedied by additional preparation.

Graduate Standing — Classified

A student who meets the minimum requirements for admission as a graduate student, as specified in the preceding paragraph, may be admitted as a fully classified graduate student pursuing an authorized degree curriculum if the appropriate program authorities determine that he or she satisfactorily meets the professional, personal, scholastic, or other standards for admission to the graduate degree curriculum, including qualifying examinations that the appropriate program authorities may prescribe. Only those applicants who show promise of success and fitness will be admitted to graduate degree curricula, and only those who continue to demonstrate a satisfactory level of scholastic competence and fitness shall be eligible to proceed in such curricula.

Post-Baccalaureate Standing — Classified

In this status a student is eligible to enroll in a credential or certificate program, provided that such additional professional, personal, scholastic, and other standards, including qualifying examinations, as may be prescribed for the particular credential or certificate program by the appropriate campus authority, are satisfied.

Admission to the University

In order to be admitted to CSULB as either a post-baccalaureate classified student or as a graduate student, the applicant must meet the following requirements:

1. Have earned a baccalaureate degree from an accredited university or college;
2. Have been in good standing at the last institution attended;
3. Have at least a 2.5 grade-point average in the last 60 semester (or 90 quarter) units attempted, independent of when the baccalaureate was granted. The entire term in which the 60 semester (or 90 quarter) units began will be used in this calculation. Lower-division courses or courses taken in extension (except in adjunct enrollment at CSULB in the upper-division level), after obtaining the bachelor's degree, will be excluded from the calculation.

Students wishing to enroll in the University must follow the instructions supplied by the Office of Enrollment Services in the Admissions section of this *Catalog*.

NOTE: Graduating undergraduate CSULB students do not automatically continue as graduate students. They must apply under the same conditions as non-CSULB students. Once applications are received, they will be evaluated at appropriate offices. To be admitted to the University, a student must also be admitted to a specific program. The University does not admit post-baccalaureate students who do not have a degree, certificate, or credential objective. Provisional admission is granted to applicants anticipating their baccalaureate degree prior to registration but subsequent to filing the application. Proof of the baccalaureate is mandatory (final transcript must be on file) prior to the student's second semester of attendance. If it is not, provisionally admitted students will be prohibited from future enrollment until such proof is on file.

The student must request all institutions of higher learning attended (except for CSULB) to send an official copy of transcripts directly to the Office of Enrollment Services and to the department advisor of graduate studies. Transcripts presented to the Office of Enrollment Services by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to a graduate degree program.

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who possess a bachelor's degree from a postsecondary institution where English is not the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL) or 213 on the computer-based version of the TOEFL. Some programs may require a higher score.

Admission to a Department as a Graduate Student

In order to pursue a credential or master's degree, students must be accepted by the department or college offering the degree program. In some instances (see specific department listing) this process may require making a separate application to the department or college. Following review the department or college will determine whether or not a student meets its requirements for admission to its degree program. Departments or colleges that receive more applications from qualified students than the number of graduate spaces they have available will admit students in priority order based on the strength of candidates' qualifications.

On the other hand, if space is available, a student who is admissible to the University but who does not meet program requirements for admission may nevertheless be accepted as a conditionally classified graduate student by the department or college offering the program, subject to the proviso that all remaining admission requirements of the program must then be fulfilled after enrollment. Only the Associate Vice President for Graduate and Undergraduate Programs or his/her designee is authorized to grant conditional admission to a student who does not meet University requirements, and such action will be taken only in rare and compelling circumstances.

Special Action

In rare and compelling circumstances, an applicant who doesn't qualify for admission under the previous provisions may be admitted by special action if on recommendation of the appropriate faculty of the department/college concerned and in the judgment of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee there exists acceptable evidence that the applicant possesses sufficient academic, professional, and other potential pertinent to her/his educational objectives to merit such action, as shown through aptitude scores, recent academic performance, and experiential background.

Writing Proficiency Examination

All candidates for degrees and certificates must demonstrate competency in writing skills as a requirement for graduation. Every student under the 1977-78 or subsequent catalog must pass the Writing Proficiency Examination (WPE) to be certified proficient in written composition in English. Students under catalog regulations earlier than 1977-78 are exempt from this requirement if they have maintained continuous attendance.

The Writing Proficiency Examination is a junior-year requirement. The test must be taken by the end of the semester in which an undergraduate student earns 65 or more units. Transfer students with 65 or more units must take the WPE within the first semester of residency at CSULB.

Undergraduate students who do not attempt the test by the time they attain 65 units will have a hold placed on their Interactive Voice Response. Registration for the test does not by itself release this hold. The IVR hold will not be released until two weeks after the test date. A request for deferment, for compelling reasons, can be filed at the Office of Testing and Evaluation Services, Brotman Hall (BH) - 216, (562) 985-4007. In certain circumstances, a contract can be submitted to release a IVR hold temporarily. Students must attempt the WPE prior to filing a Request to Graduate.

The responsibility for acquiring the skills necessary to pass the examination is the student's. Regular courses to improve writing skills are available in the University or through University College and Extension Services. Please see WPE Preparation and Review, in the section of the catalog called "Undergraduate Programs." Counseling and other assistance are available through the WPE Advising Center, located in the Learning Assistance Center, Academic Services, room 12.

The examination may be retaken as many times as necessary. However, students who have failed the WPE twice must meet with a WPE Advisor, in the Learning Assistance Center, and show evidence that they have followed advisor recommendations regarding coursework, tutoring, or other assistance in developing the requisite skills before they will be allowed to register for a third attempt. Two 3-hour workshops are offered just prior to each test administration. Information regarding the administration of this examination may be obtained from the Office of Testing and Evaluation Services, BH-216, (562) 985-4007. To cover the costs of administration and scoring, a fee will be charged each time the examination is taken.

Second Master's Degree

A graduate student who is currently enrolled in a master's program at CSULB must complete that master's program before enrolling in courses for another degree. A graduate student who already holds a master's degree from this or any other accredited institution but desires to become a candidate for a second master's degree in a different field is subject to the following regulations:

1. All admission requirements of the University and college or department must be met (all general regulations listed in the *Catalog* apply to the second master's degree);
2. Enrollment and approval of candidacy for the second degree will be granted only after the first degree has been completed and awarded;
3. All requirements for the new degree must be completed;
4. After awarding of the first master's degree, a minimum of 24 units of graduate residence credit must be earned at this University including the minimum of 500/600-series units mandated by the major department in which the student is earning the second master's degree;
5. No more than six units earned on the first degree may be applied to a second master's degree;
6. Prerequisites for an advanced course must be completed prior to enrollment in the advanced course. An instructor may disenroll a student who does not provide evidence of adequate preparation;
7. All prerequisites must be completed prior to application for candidacy;
8. Two master's degrees cannot be awarded concurrently;
9. The area or discipline in which the second degree is earned shall be designated on the transcript and a second diploma awarded.

Graduate Study in the International Programs

Students planning to participate and receive unit credit toward a master's degree in an International Program should consult with the graduate advisor in the department of their major and college dean or director of graduate studies before entering the degree program.

Graduate students who have not been admitted to candidacy for a master's degree and who participate in the International Programs may, upon their return to California State University, Long Beach, petition to have six units earned as resident credit in the International Programs included on their official student program for the master's degree. In no case may excess grade points earned in the International Programs be used to bring a grade-point deficiency at California State University, Long Beach to the required 3.0 (B) average.

Students admitted to candidacy for a master's degree who plan to participate in the International Program of Studies must obtain permission, prior to beginning their study abroad, to have units earned abroad applied toward satisfaction of their degree requirements. A candidate's petition to apply units earned abroad must be reviewed and recommended by the department offering the degree. The specific courses to be taken on the foreign campus, thesis research which is to be done abroad, or any other requirements such as examinations to be taken upon the student's return must be listed on the official student program. Usually no more than six units of credit may be transferred to apply toward the minimum 30

units for an advanced degree as a result of participation in the International Program of Studies, but a maximum of 12 units may be allowed by the Associate Vice President for Graduate and Undergraduate Programs or his/her designee in consultation with the University Graduate Council in a special case.

A copy of the candidate's graduate student program must be forwarded to the Resident Director for the foreign area, who must certify that any credit earned abroad is appropriate to meet graduate degree requirements.

Pending the faculty's evaluation of the student's work, a Report Delayed (RD) grade will be assigned in all courses in which work was completed abroad and which are offered to satisfy requirements toward an advanced degree.

Change of Objective

Evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Candidates desiring a change in graduate objective to a discipline different from that indicated on the original application must reapply to the University. Reapplication requires the submission to the Office of Enrollment Services of a newly completed Graduate and Postbaccalaureate Admission form and payment of the associated fee. The proposed new graduate department or program will review the application and notify Enrollment Services of its decision. Students who are admitted to a new discipline must then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy." Students who are not admitted to a new discipline have the option of continuing to pursue their original objective.

The only exception to the procedures described in the preceding paragraph is for students seeking to change from one degree program to another degree program within the same discipline (for purposes of this regulation, all options offered by the College of Education are considered to be part of a single discipline). In such cases candidates must obtain a Petition to Change Objective from the Office of Enrollment Services, obtain the required department/program signatures, return the completed petition form to Enrollment Services, and then seek approval of their official student program and advancement to candidacy, using the procedures indicated below under "The Program" and "Advancement to Candidacy."

Withdrawal from the Degree Program

Students who have been admitted to candidacy for an advanced degree and who complete no courses at this University within a calendar year without filing an approved request for educational leave will be withdrawn from the graduate degree program.

If a student wishes to resume graduate study after withdrawal, the student must reapply to the University and request that the department or college initiate a petition to the Associate Vice President for Graduate and Undergraduate Programs or his/her designee to reinstate the student in his or her former graduate program. In the absence of an approved petition for reinstatement, the student must be readvanced to candidacy and the department or college may determine that the student's graduate program should be changed.

University Regulations Governing the Master's Degree

General

The following regulations apply to all graduate degree programs. Specific academic and curricular requirements of individual degree programs are given in the departmental listings of this catalog.

All regulations involving a calculation of grade-point average subsequent to admission to the University as a graduate student shall be based on the following common practices and standards.

"Overall Graduate Grade-Point Average" shall be calculated on all upper-division and graduate-level coursework attempted by a student at this University after completion of a baccalaureate degree.

Grade-point average standards calculated on the basis of a smaller range, grouping, or set of upper-division and graduate-level courses, for example, "courses in the major" or "courses taken since admission to the degree program," presuppose that the student has met the minimum standard for any larger range, group, or set, including the Overall Graduate Grade-Point Average.

1. A student pursuing the master's degree must maintain an Overall Graduate Grade-Point Average of 3.0 (B). Exceptions to the 3.0 (B) Overall Graduate Grade-Point Average may be made only on the recommendation of the departmental faculty offering the degree, the college dean or designee, and approval by the University Graduate Council.
2. At least a 3.0 (B) average must be maintained in the major.
3. No course with a grade lower than "C" may be applied toward the fulfillment of degree requirements.
4. Graduate students cannot repeat courses either for credit or to improve their grade-point average.
5. The individual course of studies (student program) for the master's degree must contain a minimum of 30 units in upper-division and graduate courses.
Some degree programs require additional units. Please consult individual degree program requirements.
A minimum of sixty percent of the units required for the degree shall be in the 500- and 600-level series and these shall be completed at this University, consistent with departmental requirements. Student teaching cannot be included in any master's degree program. All upper-division courses marked with an asterisk may be included in the master's degree programs of the department listing the course. With permission of the student's department graduate advisor, asterisk-marked courses may also be used on other graduate degree programs, when appropriate. Normally, other non-marked courses are not used.
6. A thesis and/or final comprehensive examination must be completed. A minimum of four and a maximum of six semester units shall be allowed for a thesis. Failure of the comprehensive examination or thesis requirement is failure of both options. Thus, a student failing the comprehensive examination may not proceed to the thesis option or vice versa. Once a student has completed a semester of enrollment towards fulfillment of either the comprehensive

examination or thesis option, the student may not change from one option to the other without the approval of the faculty concerned, the department chair, and the appropriate dean or designee.

7. No fewer than 24 semester units shall be completed in residence at the University. The Associate Vice President for Graduate and Undergraduate Programs or his/her designee Studies may authorize department/college approved substitution of credit earned by alternate means for a part of the residence requirement. Units, including continuing education or extension units, accepted by transfer for application toward the minimum units required for a master's degree cannot be used to fulfill the minimum unit requirements in the 500/600 series. This 500/600 unit requirement must be completed in the major discipline and in residence at this University.
8. All requirements of the degree program must be completed within seven years of the date the student program was initiated, i.e., the date (semester) when the earliest course appearing on the student program was completed. An extension of time beyond the limit may be granted by the Associate Vice President for Graduate and Undergraduate Programs or his/her designee if warranted by individual circumstances and if the outdated work is validated by comprehensive examination in the relevant course or subject field work, or such other demonstration of competence as may be prescribed by the department and/or college.
9. A graduate student who expects to receive a degree at the end of any semester or summer session must be enrolled during that semester or session and must complete the Request to Graduate Form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding October 1; for Fall candidates, by the preceding March 1 at the Office of Enrollment Services. The names of candidates who file within these deadlines will appear in the Commencement Program published each Spring.
Note: Graduate Studies 700 may only be used to fulfill the enrollment requirement if the applicant has completed all degree program courses prior to the semester of graduation. An incomplete grade not otherwise resolved prior to graduation will automatically revert to the letter grade indicated on the "Requirements for Assigning an Incomplete Grade" form. A course with an unresolved grade of SP (Satisfactory Progress) will remain on the transcript but will be removed from the student's program of study. Incomplete grades may not be resolved following graduation.
10. Proficiency of a student in all parts of a curriculum is determined by the faculty of the University. A favorable vote of the faculty is required for a student to receive the degree.

The Program

A student must consult with the graduate advisor of the department or college to prepare a tentative degree program. After completing prerequisites and other requirements, the student must formulate an official student program and apply for advancement to candidacy.

The department will assign the student a faculty advisor who must be consulted about preparing a degree program. The advisor should have an official evaluation of the student's

previous work from the Office of Enrollment Services, although transcripts provided by the student may be used to develop a tentative student program and discuss degree requirements. When the Office of Enrollment Services' evaluation and the results of tests are available, the faculty advisor can assist the student in drawing up a student program. This student program must be approved by the student's faculty advisor, the departmental graduate advisor, and college dean or director of graduate studies or, for Interdisciplinary Studies, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. The student program must list the following:

1. Courses required for removal of undergraduate deficiencies;
2. All courses taken prior to advancement to candidacy which are to apply toward the 30-unit minimum;
3. Required courses;
4. Elective courses.

The official student program, when approved, serves as the basis for the Office of Enrollment Services' graduation check which is required before the degree can be granted. Students who have not been advanced to candidacy are subject to all changes as published in the *Catalog*, Policy Statements, and certifications.

Graduate student programs may be revised as the student advances toward the degree. Such revisions must be recommended by the faculty advisor and approved by the departmental graduate advisor and the college dean or director of graduate studies or, for Interdisciplinary Studies, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Advancement to Candidacy

Advancement to candidacy is the next step after achieving classified status and confers the equivalent of catalog rights on graduate students. Advancement to candidacy also signifies approval of a plan of study by the student's major department and college or, in the case of an Interdisciplinary Studies graduate student, approval by the Director of the Interdisciplinary Studies Program and Associate Vice President for Graduate and Undergraduate Studies or designee. The prerequisites to advancement to candidacy are:

1. Classified status;
2. Satisfactory completion of the CSULB Writing Proficiency Examination requirement. Information is available in Testing and Evaluation Services (Brotman Hall 216);
3. A minimum 3.0 overall grade-point average and a 3.0 grade-point average in all units undertaken for the student program (at least 6 units);
4. Enrollment in regular session.

All graduate students are required to advance to candidacy when the above prerequisites have been successfully completed. Advancement to candidacy is to occur at least one semester or summer session prior to the semester (session) in which the student expects to graduate. It must occur prior to a student filing the Request to Graduate form with the Office of Enrollment Services. Filing deadlines are the same as for baccalaureate degree candidates. A student must be enrolled in the semester or summer session in which advancement to candidacy takes place. All students must con-

sult with their graduate advisor regarding advancement to candidacy as well as to determine any departmental requirements to graduate from the University.

An approved graduate student program remains in effect as long as a candidate is making satisfactory progress. To insure minimum satisfactory progress toward the degree objective, the student must enroll in at least one session during any 12-month period and complete all degree requirements within seven years after completion of the first course on the student program. See also information about Graduate Studies 700 later in this section. The student may not change the graduate major without filing a new application for admission. If admitted to the new discipline, the student must then follow the steps indicated above for obtaining approval of a new student program and advancement to candidacy.

A student entering military service after having been advanced to candidacy will not be considered as having withdrawn from candidacy, provided that the student is inducted, enlisted, or called to active duty during a semester in which enrolled or not more than one semester thereafter, and provided that the student enrolls for work toward a degree within one calendar year of the date of release from service.

Students who have been advanced to candidacy and absent themselves from the University on educational leave will be considered as not having withdrawn from candidacy for an advanced degree, provided the terms of the educational leave are fulfilled. Such students must reapply when returning to the university, but the application fee will be waived.

A department or college recommends a student for advancement to candidacy by forwarding a graduate student program for approval to the college dean or director of graduate studies or the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. After the student's program has been processed and approved, a copy of the completed student program and a letter advancing the student to candidacy will be mailed to the candidate, with copies filed with the department or college and the Office of Enrollment Services.

A student must be enrolled in the semester or summer session in which advancement to candidacy takes place, and this must occur no later than one semester or summer session prior to completion of course requirements. Normally, a student is eligible and should file for advancement to candidacy after completing six units of graduate coursework for the graduate degree program with a 3.0 grade-point average.

Election of Regulations

Graduate students advanced to candidacy will be held responsible for the regulations governing master's degrees in effect at the time of advancement or at the time the last requirement for the degree is met, whichever is more conducive to the student's course of study. A change in master's degree objective or readmission to a graduate degree program following withdrawal requires that a new student program be filed under the current graduate policies as published in the latest edition of the *Catalog*.

Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave shall complete an

Educational Leave Form in the semester before the leave is effective, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the student's department chair (undergraduate) or graduate advisor.

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may request, in writing, in advance, an extension of the leave. Under no circumstances shall the total number of approved educational leaves exceed two, nor shall the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved educational leave are required to submit an application form but will not be required to pay another application fee. Students returning from an absence for which an educational leave was appropriate but not approved, in advance, must pay another fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval from the department graduate advisor, department chair, and the college dean or designee for the transfer of course credit to the student's program.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree requirements (seven years for graduate students).

For the period of an educational leave the student's rights under the Election of Regulations rule are preserved, maintaining the right of students to elect regulations as if they had maintained continuous attendance.

Students who fail to enroll in two or more consecutive semesters place themselves in jeopardy under the continuous enrollment provisions of the election of regulations rules. This includes the automatic loss of "advanced to candidacy (candidate)" status. Moreover, students who break residency and lose candidate status do not have a presumptive right to reinstatement of their candidacy. These students will be required to go through the process of readvancement.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no computer facilities, no library privileges, and no student services are available to a student on educational leave.

Comprehensive Examination

Each department or college requiring a final comprehensive examination determines the content of the examination. Such examinations may be written or oral or both. A faculty committee shall represent the department in preparing questions, administering, and reading the examination. Through the comprehensive examination, the faculty provides an opportunity for the master's degree candidate to demonstrate analytic ability and knowledge of the discipline. Working with the department chair or dean of the college and the appropriate committee, the departmental graduate advisor usually assumes responsibility for scheduling the examinations and for selecting the other faculty members to participate.

Students may not enroll for courses in preparation for the comprehensive examination or take the comprehensive examination unless they have been advanced to candidacy for the master's degree or unless advancement to candidacy will occur in the semester in which the enrollment takes place.

During the first semester of residence, the graduate student should ascertain from the faculty advisor what preparation will be expected. Early in the final semester of study for the degree, the candidate should contact the departmental graduate advisor to make arrangements for taking the examination. The department or college will notify the Office of Enrollment Services whether the student has passed or failed the final comprehensive examination. A candidate who has failed will usually be allowed to take the final comprehensive examination a second time, and the departmental graduate advisor should be contacted for specific procedures for the second attempt. To award a candidate the master's degree for a particular semester, the results of the comprehensive examination must be reported to the Office of Enrollment Services prior to the end of the semester.

Theses and Projects

A student may enroll for Thesis (course 698 or 699) only when that student has been advanced to candidacy for the degree or when advancement to candidacy will occur in the semester of initial enrollment in Thesis.

Theses and projects submitted in partial fulfillment of the requirements for a graduate degree at this University shall meet the following definitions established by the Trustees of the CSU.

A thesis is a written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, and thorough documentation. Normally, an oral defense of the thesis will be required.

A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

Students are responsible for understanding the definition of a graduate thesis as outlined above and must follow the format guidelines prescribed by the University and department in which the thesis is completed.

Thesis Committees

A student's thesis committee shall consist of at least three members qualified in the areas relating to the thesis. At least two shall be full-time faculty members at CSULB, one of whom must be tenured or tenure-track. The chair of the thesis committee, including the chair of a committee for an interdisciplinary studies degree, must be a tenured or tenure-track faculty member from a department authorized to offer a graduate degree. The thesis committee must be approved by the appropriate department graduate advisor and the college associate dean or director of graduate studies. Normally the chair of the committee also serves as thesis director, but this is not necessarily so. The thesis director must be a person qualified in the specific area of the thesis, but need not be a tenured or tenure-track faculty member. The committee shall be responsible for the guidance of the student throughout the thesis effort. Any

change in the composition of the committee requires justification and must be approved by the appropriate department graduate advisor and college associate dean or director of graduate studies.

Before agreeing to serve on a thesis committee, the prospective members will review the thesis topic and determine that they possess the requisite expertise to serve on such a committee, and that sufficient resources and materials exist and are reasonably available to the student to support such a study.

Thesis committee members will review the research competence of the thesis student before approving a thesis proposal.

Thesis committee members will advise and direct students in their thesis work and ensure that the thesis meets the standards and definition of a thesis specified above.

Thesis committee members will determine the grade to be awarded for completion of the thesis; and by signing the thesis signature page, thesis committee members certify that they have determined that the thesis meets the required standards of scholarship, format, and style of the discipline.

When the thesis committee includes a thesis director who is not the chair of the committee, this person may be identified on the thesis approval page as "Thesis Director."

Thesis Committee Chairs

Thesis committee chairs will determine that the student has the proper preparation in terms of course work and research skills to pursue the proposed thesis.

In departments where this function is not carried out by graduate advisors, thesis committee chairs will advise the student in the selection of other members for the thesis committee, ensuring that the other members are appropriate to the proposed thesis effort.

Thesis committee chairs will be the major contact point with the student and will oversee the other committee members' work with the student.

Thesis committee chairs will assure that the editorial and format standards appropriate to the mechanical preparation of a thesis are followed.

Thesis committee chairs will establish guidelines for the student and timetables to be followed to ensure completion of the thesis in a reasonable time.

Thesis committee chairs will arrange for the oral defense of the thesis when required.

The thesis committee chair is responsible for canvassing the committee and reporting the grade agreed upon by its members. After the completed thesis has been reviewed by the University Thesis Office for conformance with prescribed format criteria and the approval page has been signed by the committee and by the dean or department chair, as appropriate, the final grade will be submitted.

Thesis Office

All theses must be acceptable for deposit in the University Library. The Thesis Office in the University Library will verify that each thesis meets the format criteria prescribed by the department or degree program and by the University and that it meets all University procedural requirements for theses. Students should consult the University Thesis Office for information, advice, and assistance on the mechanics of preparing

a completed thesis and should purchase a copy of *Master's Theses and Projects: Guide to Style and Format* (copies of this guide can also be checked out from the reserve desk in the University Library). The Thesis Office also conducts periodic workshops on how to prepare a thesis at CSULB.

Academic Probation and Disqualification

Graduate Students

For purposes of determining eligibility to remain at the University, both quality of performance and progress toward the student's objective will be considered. Eligibility will be determined by use of grade points and grade-point average.

Students who are enrolled in a graduate degree program in conditionally classified or classified standing will be subject to academic probation if they fail to maintain an overall grade-point average of at least 3.0 (as defined earlier under General Regulations Governing the Master's Degree) in all units attempted subsequent to admission to the degree program.

Every graduate student who has been advanced to candidacy must maintain an overall grade-point average of 3.0 and a grade-point average of 3.0 in all courses applicable to the degree. Candidacy for an advanced degree may be revoked if a student's overall grade-point average falls below 3.0 at any time. Students who become subject to dismissal from an advanced degree program will be notified of the action taken by the college associate dean for graduate studies or the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn sufficient grade-points to be removed from probationary status. Disqualification will bar a graduate student from registering as a matriculated student at this campus. Furthermore, subsequent removal of GPA deficiencies by enrolling through UCES or at another university does not guarantee readmission to CSULB. A graduate student who has been disqualified must file a new application and be accepted by the department or college offering the desired degree program.

Other Post-Baccalaureate Students

A post-baccalaureate classified student who fails to maintain a cumulative grade-point average of 2.5 on all units attempted at the University will be placed on probation.

A student on probation who, prior to the beginning of the next term, fails to attain a cumulative grade-point average of 2.5 on all units attempted at the University will be disqualified.

A student who is disqualified because of scholastic deficiency may petition the appropriate program authority for readmission only after an absence of two semesters or upon successful completion of summer session courses which remove the grade-point deficiency.

Petitions for readmission must indicate the reason for requesting readmission and must include a statement of any academic work successfully completed since disqualification or of any other activity which gives evidence in support of the petitioner's belief that readmittance is warranted. An application for admission and required transcripts, as well as the petition, must be submitted to the Office of Enrollment Services before the dates established by the University for filing applications.

Grievance Procedures

I. Statement of Governing Principles

A. A graduate student may only file a grievance based on an alleged violation of specific University regulations or policies or accepted principles of due process and only if another specified remedy (such as the University Grade Appeal Policy in the case of all course grades) does not exist.

B. A grievance may not be filed on the basis of a graduate student's judgment of an instructor's or administrator's competence; such judgments are solely the province of the academic department involved or of the administrator's supervisor.

C. A grievance must be initiated within one calendar year of the alleged violation.

D. Graduate programs should make every effort to obviate the possible causes of a grievance in advance by developing clearly written statements of procedures and standards governing decisions that affect graduate students, such as admission into a program, dismissal from a program, administration of comprehensive examinations, selection for field experience, et cetera. Graduate programs should also have in place a mechanism, such as an appeals committee, to provide due process review at the local level when a graduate student so requests. Due process review is an evaluation of the procedures and standards followed in arriving at a decision; it should be conducted by qualified members of the faculty who were not involved in making the original decision. The purpose is not to second-guess the original decision, but rather to make certain that the appropriate procedures and standards were applied in a manner free of arbitrary, prejudicial, or capricious behavior.

E. Final decisions affecting graduate students should be made only on substantive grounds by the personnel who are most qualified professionally, namely the faculty offering a particular graduate program. When subsequent review shows that appropriate procedures or standards have not been followed in arriving at a decision affecting a graduate student, the preferred remedy is to remand the case back to the faculty of the graduate program for their reconsideration. An error in procedure should not become grounds for reversing a substantive decision. In the event that the faculty of a graduate program persist in a failure to follow appropriate procedures or standards, the Graduate Council will consider that situation as an indication that the program should be reviewed for suspension or discontinuance.

II. Informal Resolution

A formal grievance may be filed by a graduate student only after the student has first sought to resolve the grievance by informal means. The graduate student should begin by contacting the chair or director of the program offering the degree, explaining the nature of the perceived problem, and requesting reconsideration of the decision. If the chair or director was directly involved in the original decision or denies the student an opportunity for due process review at the local level, then the student should seek informal resolution through the college's Associate Dean for Graduate Studies.

III. Formal Resolution

A. If an attempt at informal resolution is unsuccessful, a graduate student may file a formal grievance with the Associate Vice President for Graduate and Undergraduate Programs or his/her designee. The grievance must be filed in writing within 30 calendar days of the time when informal resolution was unsuccessful. The grievance must include a full statement of the graduate student's evidence that a University regulation or policy or an accepted principle of due process was violated, as well as an explanation of the efforts made to seek informal resolution. The Associate Vice President for Graduate and Undergraduate Programs or his/her designee will verify that a good-faith effort at informal resolution was attempted by the graduate student and that no more than one year has elapsed since the alleged violation occurred.

B. If these conditions have been satisfied, the Associate Vice President for Graduate and Undergraduate Programs or his/her designee will forward the grievance to the Steering Committee of the Graduate Council.

1. If a member of the Steering Committee is a faculty member of the graduate program involved in the grievance, that member of the Steering Committee shall be replaced by another member of the Graduate Council, elected for that purpose, whenever the committee considers any matter related to the grievance.

2. The Steering Committee will forward a copy of the grievance to the chair or director of the graduate program, requesting that a written response be submitted to the committee within 20 working days of receipt of the grievance.

C. When the Steering Committee receives the written response to the grievance, it will determine whether there is sufficient evidence to render a summary judgment or whether the grievance merits further review. The Steering Committee may decide:

1. That there is not sufficient evidence of a violation of a University regulation or policy or an accepted principle of due process and dismiss the grievance; such a decision shall be final, unless further review is granted by the President.

2. That there is sufficient evidence of a violation of a University regulation or policy or an accepted principle of due process to warrant immediate remanding of the grievance to the graduate program, with explicit instructions concerning the violation that must be corrected during the graduate program's reconsideration of the case.

3. That the evidence in the case is such that further review is required; in such an instance the Steering Committee shall notify both the grievant and the graduate program in writing of the additional evidence the committee wishes to see and whether that evidence should be provided in writing or in personal testimony before the committee.

D. If the Steering Committee seeks evidence by means of personal testimony, the meeting at which such testimony is presented shall be conducted in the manner of any other academic committee meeting and not as a formal hearing; both the grievant and the graduate program shall be given

appropriate opportunities to present their views, but the meeting shall be conducted as an inquiry by the committee members, and not as an adversarial proceeding; there shall be no cross-examination.

E. All meetings at which the Steering Committee considers a grievance shall be closed to the public; the committee shall keep minutes of the meeting, but it need not tape-record its proceedings, nor shall a transcript be prepared.

F. When the Steering Committee is satisfied that it has obtained sufficient evidence to make a determination in the case, it shall make its decision in accordance with the provisions of Paragraph III.C.1 or III.C.2 above.

G. The Steering Committee shall report to the Graduate Council on the issues involved in the grievance and on its determination of the case, without identifying the graduate student who filed the grievance.

Academic Credit

Credit/No Credit Grading

A graduate student may take courses at the 100/200/300/400 levels under the Credit/No Credit grading policy; however, no course in which a grade of "CR" has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of "CR" may be permitted for master's theses or projects to a maximum of six units when the individual department has specifically designated Credit/No Credit grading for the thesis/project course in the department and for field work, practicum, and/or internship courses.

For graduate students, courses at the 300/400/500/600/700 levels require "B" level proficiency to merit award of the "CR" grade; at the 100/200 levels "C" level proficiency or better is required for award of the "CR" grade.

The option of Credit/No Credit grading for graduate students on 100/200/300/400-level courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken under this policy.

Waiver of Course Requirement and Credit by Examination

No waiver of course requirements or credit by examination may be used to satisfy master's degree requirements. However, the following rules govern course waivers or credit by examination in satisfying prerequisites for admission to candidacy in any master's degree program.

Any candidate for a master's degree who believes that previous training has provided adequate preparation in a certain area may request a waiver from the department concerned.

A candidate may also apply for course credit by examination, but only for prerequisite courses and not to satisfy any of the requirements for the master's degree. Requests for such examinations must be made to the department concerned and approved by the department chair. Credit by examination is restricted to courses published in the current *CSULB Catalog*. Please see Credit by Examination in the General Regulations section of this *Catalog*.

All course credit by examination will be recorded as CR (Credit) and will not be included in calculation of grade-point averages; such credit may not be used to remove a grade of "D" or "F" in a course already attempted, nor may course credit by examination be granted for any course which is a prerequisite to one for which credit has already been received.

Graduate Transfer Units by Extension

At the option of the college or department offering an advanced degree requiring a total of thirty units, up to six units of approved extension/continuing education or transfer credit is acceptable on graduate student programs. At the option of the college or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB. These limits may be increased further for graduate degrees requiring more than 30 units provided that (1) no graduate degree may be awarded by CSULB unless at least 24 units are taken in residence, and (2) no graduate student program may use either extension/continuing education or transfer credit to satisfy the requirement that at least 60 percent of the total units be taken at the 500 and 600 levels. Extension courses completed at campuses including California State University, Long Beach shall be acceptable within the six-unit transfer limit, provided the work can be properly evaluated and the course is acceptable as graduate work for an equivalent graduate degree on the campus where taught. Extension/continuing education and transfer course material shall be evaluated and approved by CSULB faculty teaching in the topic area in conjunction with the department graduate advisor and college associate dean or director of graduate studies. Final approval/disapproval shall be the responsibility of the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Extension/continuing education credit may not be used to reduce the minimum units required in a discipline for a master's degree, that is, extension credit may be used to complete coursework required outside the discipline. Excess grade points earned in extension classes may not be used to offset a grade-point deficiency in the total graduate record.

Grades earned at another institution may not be used to offset grade-point deficiencies in courses taken at this University. However, grades of "C" earned at another institution in courses transferred to satisfy subject matter requirements for an advanced degree at this institution must be balanced by grades of "A" at this University to meet the required 3.0 ("B") overall average.

Credit earned by correspondence or by examination cannot be used to satisfy master's degree requirements.

Graduate Studies 700

Registration in Graduate Studies 700 (GS 700) is restricted to graduate students who have completed all other course work and who have been advanced to candidacy, have departmental and college approval, and require additional utilization of University facilities to complete their thesis or comprehensive examination. Although no unit credit is added to the student's program or transcript, the course is considered as one unit of concurrent enrollment credit for fee payment purposes. Students must be registered either in a

course or in GS 700 for every semester in which they plan to use University facilities or consult members of the faculty. Registration is also required in winter or summer session if that is when a student plans to graduate. Application forms are available from and must be signed by department graduate advisors. Students must be familiar with the rules governing residency (see previous section on Advancement to Candidacy). Letter grade only (A-F).

Academic Load

Nine units per semester is a normal academic load for a full-time graduate student engaged in study toward a master's degree. If a candidate wishes to exceed this limit, it should be discussed with the departmental graduate advisor. The maximum load for graduate students working toward a master's degree is 16 units per semester. Students who are employed full-time should not exceed six units per semester.

Graduate students who wish to register for more than one unit of credit per week of attendance during the summer session must secure advance approval from the college associate dean or director of graduate studies. Petition forms and information may be obtained in the college offices.

Honors

The Graduate Dean's List of University Scholars and Artists

The Graduate Dean's List provides for University recognition of its most outstanding graduate students. Candidates for this honor will normally have completed the coursework applicable to their graduate student programs at the University. The annual list is limited to one percent of the University's graduate enrollment. Those honored will be named in the Commencement Program and will receive a certificate from the Associate Vice President for Graduate and Undergraduate Programs or his/her designee.

Departmental Graduate Student Honors

In recognition of outstanding graduate student achievements, departments may honor graduating master's degree candidates by special recognition in the annual commencement ceremonies. Departmental graduate student honors are reserved throughout the University to two students (or a maximum of ten percent) from a department. Departmental graduate student honors are usually restricted to students not otherwise recognized by University or college awards. These honors are normally conferred for excellence in and contributions to the discipline, including outstanding seminar papers, artistic exhibitions, special achievements in field work and in University committees and functions, as well as participation in scholarly and professional organizations resulting from student research.

The Health Care Administration program has four major objectives: (1) to provide course work and related experience in order to prepare administrators, skilled in the application of organizational and managerial techniques, for the health care system; (2) to provide continuing education for health administrators in practice as well as others in administrative and leadership positions in the management and the delivery of health services; (3) to consult and to participate in community service activities which complement the instructional and research functions of the faculty and provide appropriate learning experiences for students; and (4) to conduct studies in the administration and operation of the health care delivery system which will contribute to development of faculty teaching abilities and overall professional growth.

The program is designed for the professional administrator or those who wish to become administrators within health care. Three programs are offered:

1. Master of Science in Health Care Administration,
2. Certificate in Health Care Administration,
3. Bachelor of Science in Health Care Administration.

The schedule of graduate and undergraduate course offerings is in the regular *Schedule of Classes*.

Bachelor of Science in Health Care Administration (code HCA_BS01) (120 units)

Requirements for Admission

Prerequisites

1. Undergraduate students are required to pass the Writing Proficiency Exam (WPE) prior to declaring Health Care Administration as their major.
2. All students must complete a minimum of 15 semester units or the equivalent in prerequisite preparatory courses for the major: ACCT 201, ECON 101 or 300, I S 240, SOC 250 (or equivalent) and BIOL 200 (or equivalent). Computer proficiency in word processing, spreadsheet, database and presentation software is expected. Business calculus (MATH 115) is recommended.
3. An overall grade point average of 2.0 or higher is required for entrance into the program. A minimum grade of "C" is required for each prerequisite course.

Requirements

1. Complete the requirements for General Education;
2. Complete the prerequisite courses;
3. Complete the major core course requirements: HCA 341, 353, 402, 410, 416, 465, 480 and HSC 150;
4. Upper Division (required courses): A minimum of 15 additional units from the following: HCA 312, 320, 340, 422I, 450, *451, 452, 470I;
5. Complete the electives as needed, to total 124 semester units, a minimum of 40 units in the upper division;
6. Successfully complete the University Writing Proficiency Examination;

7. Each major course must be completed with a grade of "C" or better. A course in which a grade lower than "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite. A student receiving a grade lower than a "C" may proceed with other courses for which it is not a prerequisite with approval of the Undergraduate Advisor.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Master of Science in Health Care Administration (code HCA_MS01)

The goal of the M.S. in Health Care Administration program is to prepare individuals to enter administrative positions in hospitals and ambulatory care centers, managed care, long-term care, and mental health settings as well as in multi-institutional system central offices, governmental health agencies, and other health related organizations. Students completing the M.S. in Health Care Administration will achieve the following objectives: (1) Demonstrate knowledge of the U.S. health care system and fundamental issues affecting the administration of health care services, (2) Demonstrate organizational and managerial knowledge and skills essential to administrative positions in health care services, (3) Demonstrate specialized knowledge and skills in a variety of functional areas in health care administration, including financial management, marketing, job analysis, compensation management, or public policy analysis, (4) Use ethical principles within administrative positions of responsibility in health care services, and (5) Demonstrate the ability to conduct studies in the organization, financing, administration, and operation of health care delivery systems. The program is designed for persons with a variety of undergraduate

experiences who give evidence of interest and potential success in health care management and/or research.

Admission Requirements

Each applicant should request that a copy of all college course work and GMAT scores be sent to the graduate adviser, Health Care Administration Program, in addition to the copies required by the Office of Admissions and Records. In addition, a current resume should be sent to the Program along with three letters of recommendation.

Admission Criteria

1. Baccalaureate degree from an accredited institution;
2. Baccalaureate degree with a minimum of 12 units of course work to include: accounting and financial management, economics, information systems, and statistics;
3. An applicant must have an overall undergraduate grade point average of 3.0 or better. Those applicants with less than 3.0, but with acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Program Graduate Committee;
4. Interview with member of faculty or preceptor may be required;
5. A current and complete resume including references;
6. Submission of scores on recent Graduate Management Admission Test (GMAT).

Prerequisites

The following courses or their equivalent:

1. ACCT 201
2. ECON 101 or 300
3. Statistics
4. I/S 233 (or equivalent)

Students should contact the Program director for a determination of deficiencies and required remediation.

Requirements

1. Completion of graduate level course work in Health Care Administration: HCA 451, 502, 505, 510, 515, 524, 530, 535, 550, 695, and HSC 500.
2. Completion of any one of the courses in site specialization: 536, 537, 538, or 552.
3. Completion of an approved elective course.
4. Completion of a minimum of 45 units including Project and Internship HCA 685 and HCA 698.

Advancement to Candidacy

Students will be instructed to apply for advancement to candidacy after:

1. Completion of 6 units of core course work that applies to the degree with an average grade of "B" or better,
2. Passing the Writing Proficiency Examination and submit evidence of same to Department Office, and
3. Approval of Program Director.

Distance Learning

The Master in Health Care Administration Distance Learning Program (MSHCA DL) is designed to prepare working professionals for administrative positions in health care orga-

nizations which requires minimum three years of work experience and combines online and in-class instruction. The MSHCA DL program requires 45 credit hours consisting of 14 core courses and an internship experience of 3-credits, which may be substituted for HCA 599 Special Topics. The program offers foundation courses early and more advanced healthcare administration specific courses later in the Program.

Distance Education Model

YEAR I

First Quarter - Fall

- Orientation No Credit
1. HCA 451
 2. HCA 505

Second Quarter-Winter

3. HCA 502
4. HSC 500

Third Quarter-Spring

5. HCA 524
6. HCA 515

Fourth Quarter-Summer

7. HCA 535
8. HCA 510

YEAR II

First Quarter-Fall

9. HCA 530
10. HCA 517
11. HCA 698 Project-Part I (1 unit)

Second Quarter-Winter

12. HCA 537
13. HCA 550

Third Quarter-Spring

14. HCA 698 Project-Part II (2 units)
15. HCA 695

Fourth Quarter-Summer

16. HCA 685
17. GS 700 [if students don't complete HCA 698 in time]

Postbaccalaureate Certificate in Health Care Administration (code HCA_CT01)

The Certificate Program in Health Care Administration is comparable to a minor of 18 semester units and, with prerequisite course work, may require up to 24 semester units for completion. Components of the program include the forms of organization and operation of health care systems, human resources management, leadership and development, financial management, and marketing. The Certificate may be combined with major programs from a variety of fields including, but not limited to, behavioral and natural sciences, humanities, health professions, business and public administration, and social work and is conferred as a post-

baccalaureate certificate (or concurrently with the BS/BA). The courses included in the MS curriculum (with a grade of "B" or better) may apply toward the MS program at the discretion of the Program Director.

Health care administrators are usually prepared at the masters' degree level for job entry into upper management. There is, however, increased emphasis to prepare health care professionals to function as managers at other levels as well. Increasingly, physicians are also seeking preparation in the elements of management. These diverse groups use management skills in the health services and related fields. These include hospitals, nursing homes, health departments, health maintenance organizations, health planning and regulatory agencies, health management and review companies, group medical practices, health insurance firms, pharmaceutical and medical supply companies.

Requirements

1. Admission to the University;
2. A bachelor's or advanced degree with transcripts (conferred or expected);
3. Consultation with the Program Director;
4. A minimum of 18 units is required and may include: HCA 312, 341*, 353+, 402, 410 or the equivalent. At the graduate level HCA 502, 505, 510, 515, 530 or equivalent courses are considered for the Certificate Program.

* Prerequisite: ACCT 201

+ Prerequisite: ECON 101

Course substitutions may be made at the consent of the Program Director.

Master of Science in Nursing/Master of Science in Health Care Administration (code NRS GMC01)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health organizations. An important career path for advanced practice nurses is as nurse executive in the variegated segments of the health care industry including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

Admission Requirements

1. Bachelors degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (H/SC 403 or ED P 419).
5. Public Health Nurse Certificate, or eligibility for certificate in California.
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications.
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status. Student criteria for advancement are as follows:

1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Care Administration;
 - A. pass the Writing Proficiency Examination, and
 - B. have at least a 3.0 grade point average for all course work attempted as a graduate student.
2. Joint approval by the Department of Nursing and Health Care Administration and the Associate Dean in the College of Health and Human Services.

Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:
The Program of Study: NRS G 559, 560, 596, 680A, 680B, 680C, 680AL, 680BL, 680CL, 698, HCA 502, 505, 510, 515, 524, 530, 535, 550, 698.
2. An overall GPA of 3.0 or better in all courses.
3. Directed project or a thesis.
4. *Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.

5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.

* 60% of units must be earned in residence.

Courses (HCA)

Lower Division

202. Introduction to Health Care in America (3)

Prerequisites: Completion of GE Foundation requirements. This course examines the structure of the current health care system including the services, financing, political, and social forces that influence its organization. Contemporary health issues such as cost, quality, and access are introduced and discussed within the context of current health care organizations. Access and diagnostic/treatment differences of ethnic minorities including African American, Asian, Latino, Native American and other groups, as well as gender disparities including sexual orientation will be discussed. Letter grade only (A-F).

Upper Division

312. Health Personnel Management (3) S

The management of human resources in health care settings. Content includes principles and methods of personnel work such as employee recruitment, selection, retention, training, evaluation, wage and salary administration, and labor-management relations. (Lecture)

320. Operations Management in Health Administration (3) S

Prerequisite: IS 310 or PSY 110 or SOC 250 or HSC 403 or consent of instructor. The application of the concepts and methods of operations management to the health care organizational setting. Emphasis on planning and control in the management process. Letter grade only (A-F).

340. Legal Aspects of Health Administration (3) S

Focus on the nature, perspective and objects of the legal and legislative process. Provides skill in understanding legal terminology, legal reasoning and the tools of the law, with practical application of these principles and concepts to health care management and health policy decisions.

341. Financial Management of Health Care Institutions (3) F,S,SS

Prerequisite: ACCT 201. Application of the concepts of financial management within health care organizations, to include financial planning principles, reimbursement procedures, governmental regulation, and legal restraints. (Lecture)

353. Marketing for Health Services Organizations (3) F,S

Prerequisite: ECON 101 or 300. Development of marketing strategies and analyses in a health care setting. Design of services to include pricing, communication, distribution channels, and client motivation and services. Letter grade only (A-F).

402. The Health Care System (3) F,S,SS

The course focuses on the contemporary health care system to include its historical beginnings and the underlying social and biological forces which influence its organizational forms, financing and manpower requirements; issues and concerns molding its future such as the assurance of the quality of patient care and the regulation and control of the system. (Lecture)

*410. Health Management and Organization (3) F,S

Concepts of organizing activities to achieve the goals of health care institutions. Effects of environment, technology, and human behavior on organizational design. Managerial processes including planning, decision-making, influencing, and controlling required to operate and change health care organizations. (Lecture)

416. Management and Information Systems (3) F,S

Prerequisite: Demonstrated Computer Literacy. Evaluation of concepts, analysis and design of management information systems; management decision models, strategies for implementing system changes.

422I. Global Issues in Health Services (3) F,SS

Prerequisites: Completion of the G.E. Foundation, one or more Exploration courses, and upper-division standing. Contemporary problems in health services developed as an interrelated system. Rural health problems, issues of the elderly, rising costs and new technology presented with reference to industrialized and non-industrialized countries (e.g., Europe, Asia and North America, Africa and Latin America). Geographic, political, economic, historical and anthropological aspects of health administration problems and issues will be analyzed. Letter grade only (A-F).

450./550. Quality Assurance of Health Care (3) S,SS

Prerequisite: HCA 402 or HCA 502, HCA 465 or consent of instructor. Designed for the health care professional or administrator who is involved in or concerned about assurance of quality in health care. Course includes historical beginnings, state-of-the-art, voluntary and governmental effort and proposed means to quality assurance. Letter grade only (A-F).

*451. Economics of Health (3) S

Prerequisites: ECON 101 or 300. Analysis of health as an economic good. Health services as scarce resources. Use of tools of economic theory in study of special problems of health resources, markets, manpower shortages, non-profit enterprises, insurance programs and Medicare. Procedures stress individual studies and reports. Not open to students with credit in ECON 345 or ECON 445. Same course as ECON 445.

452./552. Medical Group Practice Management (3) F

Prerequisites: HCA 341 or 515, and 450 or 550 completed or concurrent enrollment. Course Description: Overview of medical group management incorporating the basic functions of health care administration and applying them to the medical group practice setting with an emphasis on managed care delivery systems. Fundamental operational responsibilities of medical group administration today. Letter grade only (A-F).

465. Analysis and Evaluation of Health Care Services (3) F,S,SS

Prerequisite: Introductory course in statistics or demonstrated competency. Techniques of analysis and evaluation applied to health services with respect to organizing, staffing, financing and utilization. Emphasis on the analytic process, program evaluation, and report of findings.

470I. Latinas/Latinos: Health Status and Health Care Access (3)

Prerequisites: Completion of the G.E. Foundation, one or more Exploration Courses, and upper division standing. This course is a critical interdisciplinary examination of the health status and health care access of Latinos in the United States. The primary objective of the course is to provide an overview of the policies, epidemiologic, and cultural factors that influence the etiologies of diseases within Latino subpopulations. This cross disciplinary approach will also be used to analyze the health care problems faced by Latino subpopulations that constrain efficient management of services and equitable delivery of health care. Letter grade only (A-F). Same course as CHLS 470I.

480. Internship in Health Care Administration (3) F,S,SS

Prerequisites: Health Care Administration majors are required to complete all HCA core courses prior to enrolling in HCA 480. These include HCA 341, 353, 402, 410, 416, 465 and HSC 150.

490. Special Topics in Health Care Administration (1-3) F,S

Topics of special interest in health care administration selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

499. Directed Studies (1-3) F,S

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of 6 units when approved by the Director of the Health Care Administration Program. Letter grade only (A-F).

Graduate Level

502. The Health Care System (3) F,S,SS

The course focuses on the contemporary health care system to include its historical beginnings and the underlying social and biological forces which influence its organizational forms, financing and manpower requirements; issues and concerns molding its future such as the assurance of the quality of patient care and the regulation and control of the system. Letter grade only (A-F). (Lecture)

505. Organization and Systems of Health Care (3) F

The analysis of operational activities and managerial functions essential to the health care delivery system will be examined and discussed. Special emphasis will be placed on the manager's role in developing and maintaining an effective system for providing health care services. The organizational aspects and managerial approaches of delivering health care services within various institutional arrangements will be discussed. Letter grade only (A-F).

506. Epidemiology for Managers (1) W

Analysis of patterns of health and disease and how these impact on health delivery in the U.S. and abroad. Planning health services based on distribution of acute and chronic disease in populations. (Seminar)

510. Human Resources Management in Health Care (3) S

Management of human resources in the health care system including human resource planning and staffing, training and development, performance appraisal, job design and analysis, and compensation. Letter grade only (A-F).

515. Advanced Financial Management in Health Care (3) F

Prerequisites: ACCT 201 or 500. Examination of the principles and practices of managing financial resources in health institutions. Evaluation of trends in the financing of health care and the influence of third-party payers on the financial decisions of health care administrators. Letter grade only (A-F).

517. Advanced Healthcare Information Systems Management (3)

Prerequisite: HCA 416, 502, 530 or consent of instructor. This course provides healthcare professionals with a broad overview of healthcare information systems and a close examination of the strategic and tactical business needs for the information technology (IT) required to deliver cost-effective, quality healthcare. Letter grade only (A-F). (Lecture/discussion)

524. Advanced Legal and Ethical Aspects of Health Administration (3)

Examination of the federal and state regulations of health care facilities, employees, patients and programs, emphasizing legal rights, privileges and duties of health care facility to patients and employees and other providers. Topics include malpractice and other liability rules, contracts, informed consent, end of life decisions, reproductive health issues, medical records, confidentiality and required disclosures will be studied from ethical and legal perspectives. Letter grade only (A-F).

530. Strategic Planning and Marketing in Health Care (3) S, SS

Prerequisite or corequisite: HCA 502. This course provides an understanding of strategic management and marketing enabling the student to lead the process of strategic planning in a health care organization. By conducting a strategic planning process, health care organizations are better able to cope with dramatic changes in technological, social, political, regulatory and competitive aspects of the health care market. Strategic management enables organizations to identify issues unique to them which hinder or promote organizational success. Through course reading, analyses of secondary quantitative and qualitative data, and presentation of case studies, students gain a thorough understanding of the process of strategic management. Letter grade only (A-F)

535. Quantitative Methods for Health Administration (3) F

Prerequisites: Statistics. Identify and apply appropriate quantitative and operations research techniques to problems in health care settings. Students will receive intensive exposure to decision theory and control systems, and have practical experience solving problems in resource allocation, procedural decisions, scheduling, forecasting, measurement, and cybernetic control. Letter grade only (A-F).

536. Hospital Management (3) F

Prerequisites: HCA 505. The goal of this course is to develop familiarity with the internal operations of acute care hospitals and skills in solutions of hospital operational problems. Hospitals will be analyzed by broad function and by specific departments. Cases, simulations and visits may be used. (Seminar 3 hours.)

537. Managed Care (3)

Prerequisites: HCA 402 or 502. The purpose of this course is to prepare people to enter the managed care field and to orient managers to the organization and administration of Health Maintenance Organizations, Preferred Provider Organizations and related enterprises. Both relationships to the health care marketplace and operational aspects of managed health systems will be covered. Guest lecturers from managed care organizations will participate in the course and students will be expected to develop an operational plan based on a real world situation. (Seminar 3 hours.)

538. Long Term Care Management (3) SS

Prerequisites: HCA 402 or 502. Long term care facilities, offering services to the aged and disabled, pose unique problems for managers within this industry. With the "graying" of America, emergence of debilitating illnesses such as AIDS, and focus on cost containment as a major health policy issue, managers in this sector of health must assume leadership roles in planning and adapting to this dynamic and expanding environment. This survey course will analyze the forces influencing the development of long term care in the U.S. and address specific organizational aspects that affect outcomes of services provided in long term care settings. Letter grade only (A-F).

539. Management Challenges in Long Term Care (3)

Prerequisites: Undergraduate degree, HCA 502, HCA 538 or consent of instructor. Managerial functions and skills essential to managing a wide array of long-term care (LTC) services will be examined and discussed. Special emphasis will be placed on the difficulties faced by administrators and managers in developing and maintaining effective systems for providing efficient LTC services. The organizational aspects of managing a workforce, patient and family relations, marketing and reimbursement along with current managerial challenges will be discussed. Delivering LTC within various institutional arrangements will be also be examined. Letter grade only (A-F).

540. Long Term Care in Action (3)

Prerequisite: Undergraduate degree or consent of instructor. Southern California has many exciting programs that serve people of all ages with long-term health care needs. The purpose of this course is to give students and professionals opportunities to see a variety of settings that provide long-term care. During the semester, faculty and students will visit ten organizations that provide long-term care services in the greater Long Beach area. Students will be assigned readings pertinent to each field site and complete a profile for each type of service. Letter grade only (A-F). (Lecture activity).

550./450. Quality Assurance of Health Care (3)

Prerequisite: HCA 402 or HCA 502 or consent of instructor. Designed for the health care professional or administrator who is involved in or concerned about assurance of quality in health care. Course includes historical beginnings, state-of-the-art, voluntary and governmental effort and proposed means to quality assurance. Letter grade only (A-F).

552./452. Medical Group Practice Management (3) F

Prerequisites: HCA 341 or 515, and 450 or 550 completed or concurrent enrollment. Course Description: Overview of medical group management incorporating the basic functions of health care administration and applying them to the medical group practice setting with an emphasis on managed care delivery systems. Fundamental operational responsibilities of medical group administration today. Letter grade only (A-F).

599. Special Topics by Directed Study (1-3) F,S

Directed study of a special topic to be taken under supervised independent study. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

685. Internship (3) F,S

Prerequisites: All 500-level courses and consent of instructor. The purpose of the course is to provide candidates for the master's degree an opportunity to observe and participate in the operations of a health care institution. The student will also study in-depth the organizational structure, philosophy, problems, and personnel relationships of the institution, under the guidance of an approved on-site preceptor and a faculty advisor. Credit/No Credit grading only.

695. Integrative Seminar: Critical Analysis of the Health Care System (3) S

Prerequisites/Corequisites: HCA 685, 698. The health care system will be critically analyzed within its organizational, financial, and personnel components to include the socioeconomic and political forces which bind the system. A systematic, ecological approach will be employed with emphasis on an advanced and critical analysis of the U.S. system. Special consideration will be given to the public policy determinations which have influenced the development of the system and relevant problems and issues. Letter grade only (A-F).

698. Project (3) F,S

Prerequisites: All 500-level courses, and consent of instructor. The student will investigate what is considered a major problem to the health care institution identified in the student's residency, research it in accordance with an accepted methodology, consider the characteristics of the organization, and recommend potential courses of action for the organization to take. May be repeated to a maximum of 6 units. Letter grade only (A-F).

The field of Human Development studies lifespan development within societal and cultural contexts. Accordingly, Human Development is interdisciplinary, examining development primarily from the perspectives of its component disciplines: Anthropology, Biology, Psychology and Sociology.

The Human Development Program offers a B.A. in Human Development and supervises the Human/Child Development concentrations in the Liberal Studies Program. The B.A. program is structured to provide students with: a broad knowledge of lifespan human development, specific expertise in processes and contexts that affect development, methods to evaluate research and theory within human development, and practice in the real-world application of knowledge gained in the program. Within these guidelines, the B.A. is flexible—students can choose courses that best fit their needs and goals.

Students choose from a wide variety of courses for their Foundation Area requirements. Foundation Area courses cover the components of Human Development—the biological, the psychological and the sociocultural. Students interested in gerontology, for example, may choose to take courses like the Biology of Aging, Introduction to Gerontology and Culture and Aging as their Foundation Area courses, while students interested in child development generally choose different courses for those requirements. Careful selection of Foundation courses can allow students to complete certificate programs (for example, the Gerontology or Child Development Certificates), while completing their major.

In addition to their academic training, Human Development students are taught to apply their knowledge through a course in Interpersonal Skills and a semester Practicum. For the Practicum, students typically volunteer in settings pertaining to their career goals. Because the career goals of our students vary, individual students usually are in different practicum sites, including: elementary schools, human resource management offices, senior centers, physical therapy units and various social service agencies.

The faculty of Human Development are active researchers, who regularly include interested students in their research programs. Students who are considering graduate school have the opportunity to work as research assistants on a variety of projects and can help present the findings of those projects at professional conferences. Research experience of this type enhances the likelihood that students will be accepted into the graduate program of their choice.

Human Development graduates pursue a variety of careers. At the B.A. level, many take positions in the social services and business. A substantial number of students enroll in Teaching Credential Programs, while others have gone to graduate school in: Applied Anthropology, Counseling, Criminal Justice, Developmental Psychology, Gerontology, Occupational Therapy, Physical Therapy, School Psychology, Social Work and other fields.

Human Development has an active student club, the Human Development Student Association (HDSA). The HDSA is open to all students enrolled in Human Development courses and has regularly scheduled meetings. Activities sponsored by the HDSA are diverse and include community service projects, sponsoring speakers and films and hosting student-faculty parties. HDSA activities are posted outside the Program Office.

More information on the Human Development Program can be obtained at the Program Office (PSY 205) and the program website. Students who wish to major in Human Development should seek early advising from the Undergraduate Advisor.

Bachelor of Arts in Human Development (code HDEVBA01) (120 units)

Requirements

Lower Division: ANTH 120, PSY 100, SOC 100.

Core Courses (27 units):

1. HDEV 250, 307I, 320, 357I, 360, 364, 402 or 403, 470;
2. Twelve units from the following list, including at least one course from each foundation area.

Biological: ANTH 318, 319, BIOL 309I, 401, H SC 420I, 421, 425I, 427;

Psychological: ED P 302, 305, FCS 311, 314, 411, GERN 400I, 485, HDEV 3001, 340, PSY 331, 332, 333, 336, 341, 351, 356, 370, 438, 463;

Sociocultural: ANTH 351, 413, 419, 421, 454, 475, A/ST 340, 381, B/ST 410, CHLS 340, 350, 415, FCS 311, GERN 400I, HDEV 300I, 340, LING 329, 379, SOC 320, 325, 335, 345, 346, 423, 464, W/ST 401I, 420.

Students must earn a grade of at least "C" in all upper division major courses.

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in HUMAN DEVELOPMENT (HDEVBA01)

120 units required

Department of Human Development

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE class	3-4
GE Math or other GE class	3-4	ANTH 120 (GE D2)	3
PSY 100 (GE D2)	3	GE Class	3
GE Class	3	Critical Thinking or other GE class	3
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15 -16
Semester 3		Semester 4	
Critical Thinking or other GE class	3	HDEV 250	4

Elective Class	3

TOTAL UNITS

16

*Two of the three required GE Interdisciplinary Capstone Classes are major requirements and can count in GE.

Third GE Capstone requirement can be taken as one of the upper division major elective courses if desired.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Human Development (code HDEVUM01)

The minor in Human Development may be combined with any major at CSULB except Human Development and Liberal Studies, Track II-Human Development Concentration. The minor in Human Development offers students an opportunity to supplement their education with an interdisciplinary study of lifespan development within societal and cultural contexts.

Requirements

A minimum of 7 courses, chosen in consultation with the Human Development Program Advisor, which must include:

1. ANTH 120 or PSY 100 or SOC 100
2. HDEV 250, 3071, 320, 3571, 360
3. One additional Human Development course chosen from HDEV 300I, 340, 364, 402, 403, 470.

All students in this minor must take at least 6 courses in Human Development. All students who complete another course as part of their major that is equivalent to a Human Development course (such as a statistics course equivalent to HDEV 250) must substitute another HDEV course for that one.

Courses (HDEV)

Lower Division

180. Lifespan Human Development (3)

Prerequisite/Corequisite: ENGL 100 or equivalent. Introduction to the cognitive, social emotional and physical development of humans within their ecological niches. Differing worldviews (anthropology, sociology, psychology, and biology) will be used to compare and contrast developmental milestones and issues from conception to death.

250. Elementary Statistics in Social and Behavioral Sciences (4)

Prerequisites: Knowledge of mathematical procedure usually covered in elementary high school algebra, eligibility for GE math. Not open to students with credit in ANTH 202, MATH 180, PSY 110, SOC 250 or C/LA 250. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. (Lec 3 hrs, lab 2 hrs.) Same course as C/LA 250.

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300I. Death and Dying (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. This course will explore the social, cultural and individual aspects of the death experience. Death will be examined from historical, biological, legal, religious and ethnical perspectives. In addition, death work, aspects and meaning of the dying experience, survivorship, ritual and grief will be studied. All topics will be examined in light of life-span, cultural and gender diversity. Not open to students with credit in HDEV 400I.

307I. Human Development: Childhood Through Adolescence (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. Biological, psychological, and sociocultural aspects in the growth of the individual from conception through early adolescence will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner. Not open to students with credit in NRS 307.

320. Research Methods in Human Development (4)

Prerequisites: ANTH 120, or PSY 100 or SOC 100, HDEV 250, completion of GE life science requirement. Research methods in human development. Includes methods and models from anthropology, biology, psychology and sociology as applied to research. (Lec 3 hrs, lab 2 hrs.) Letter grade only (A-F).

340. Families and Work: Life Course Processes (3)

Prerequisites: Completion of G.E. Foundation, upper division status, PSY 100 or ANTH 100 or SOC 100. This course provides a framework for understanding families, work, and their changing relationship. It examines the historical transformations over time in Western societies, but especially in the U.S., in the nature of work and how these changes have helped to reshape family forms, relationships and processes.

357I. Human Development: Adulthood Through Aging (3)

Prerequisites: Completion of G.E. Foundation, upper-division standing, ANTH 120 or HDEV 180 or PSY 100 or SOC 100. Biological, psychological and sociocultural aspects in the development of the individual from late adolescence or youth until death will be considered. Relevant topics and theoretical issues will be treated in an interdisciplinary manner. Not open to students with credit in NRS 357 and PSY 365.

360. Cultural Foundations for Human Development (3)

Prerequisites: HDEV 250, 3071, 3571. Prerequisite or Corequisite: HDEV 320. This course examines the human life cycle from a global and cross-cultural comparative perspective. The course materials, primarily ethnographic and anthropological in nature, are concerned with how the phases of human development (and the transitions between them) are conceptualized and dealt with in a variety of sociocultural settings worldwide. Primary goals are to develop skills in discerning and accounting for both the differences and the similarities in how the world's peoples experience and interpret the human life cycle, and to achieve an understanding of how culture shapes those experiences and interpretations at both individual and group levels. Not open to students with credit in HDEV 401.

364. Interpersonal Skills in Human Development (3)

Prerequisites: HDEV 307I and 357I. Designed to develop interpersonal skills identified as necessary to have effective human relations. It includes a presentation of theory and research applicable to processes in interpersonal functioning and human relations. Didactic and experiential learning approaches. Not open to students with credit in HDEV 434B or ED P 434B.

402. Development of Thought: Structure, Process and Cultural Influences Across the Life Span (3)

Prerequisites: HDEV 320 plus 360 as prerequisite or corequisite. Readings and discussion focus on the examination of theories and current research on the development of thought focusing on biological underpinnings, psychological process and sociocultural constraints. Specific topics include memory, intelligence, cognition, problem solving, language and thought, literacy and educational implications. All issues will be examined from an interdisciplinary perspective across the life span.

403. The Acquisition of Culture: Socialization in Cross-cultural Perspective (3)

Prerequisites: HDEV 360, or an equivalent upper-level cultural anthropology course (e.g. ANTH 414, 415, 419, 420, 421) and consent of instructor. This course examines socialization as both a universal and culturally specific phenomenon. Topics explored include cross-cultural variations in ways of teaching and learning; socialization of children and of adult novices; socialization as a key aspect of social and cultural reproduction; and socialization as a source of innovation and change.

470. Seminar/Practicum (4)

Prerequisites: HDEV 250, 307I, 320, 357I, 364; and consent of instructor. The course provides for a sequence of observations and supervised participation with individuals in a variety of community agencies and/or educational settings. Practicum is supplemented by topical seminar discussions for two hours each week. (Seminar 2 hrs, practicum 6 hrs.)

490. Special Topics in Human Development (3)

Prerequisites: HDEV 307I, consent of instructor. Topics of current interest in human development selected for intensive study. May be repeated to a maximum of 6 units with different topics. Topics for a given semester will be announced in the *Schedule of Classes*.

499. Independent Study (1-3)

Prerequisite: Consent of instructor and Program Director. Student will conduct independent laboratory, field, or library research and write a report of the research. May be repeated to a maximum of 6 units.

The College of Health and Human Services offers a wide range of programs at the undergraduate and graduate levels. Included within the College are eleven diverse departments, four programs, and twelve centers:

Departments

Communicative Disorders
Criminal Justice
Family and Consumer Sciences
Health Science
Kinesiology and Physical Education
Nursing
Occupational Studies
Physical Therapy
Graduate Center for Public Policy and Administration
Recreation and Leisure Studies
Social Work

Programs

Gerontology
Health Care Administration
Military Science (Army ROTC)
Radiation Therapy

Centers

Bureau of Governmental Research and Services
Center for Career Studies
Center for Criminal Justice Research and Training
Center for Disability Studies Scholarship
Center for Health Care Innovation
Center for Innovative Foodservices Technology
Center for Successful Aging
Child Welfare Training Center
Institute for CSULB/VIA Joint Studies
Movement Science Laboratories
Physical Therapy Assessment Center
Senior University

Goals

The College of Health and Human Services, as a professional College, is united by the following purposes:

- The academic and professional preparation of students for careers in their chosen field of specialization;
 - The development and maintenance of high standards of academic achievement for students;
 - The encouragement of critical thinking through rigorous academic and professional preparation; and
 - The conduct of ongoing research, training, and community involvement by faculty and students.
- To achieve these goals, the College seeks to create an environment at both the undergraduate and graduate levels that encourages student growth by providing:
- A broad educational experience in the liberal arts;
 - Specialized instruction leading to professional development and competence; and
 - Integration of academic and professional course work to develop the whole person.

Degrees Offered

Bachelor of Arts:

Communicative Disorders
Family and Consumer Sciences
Kinesiology
Recreation
Social Work

Bachelor of Science:

Audiology
Criminal Justice
Dietetics and Food Administration
Health Care Administration
Health Science
Kinesiology
Nursing
Occupational Studies

Master of Arts:

Communicative Disorders
Family and Consumer Sciences
Kinesiology
Occupational Studies

Master of Science:

- Criminal Justice
- Emergency Services Administration
- Gerontology
- Health Care Administration
- Health Science
- Kinesiology
- Nursing
- Nursing / Public Health (concurrent degree)
- Nursing / Health Care Administration (concurrent degree)
- Nutritional Science
- Recreation Administration

Master of Physical Therapy

Master of Public Administration

Master of Public Health: Community Health Education

Master of Social Work

Certificates Offered

- Administration of Campus Recreation and Student Service Programs
- Administration of Outdoor Recreation Resources
- Administration of Travel and Tourism
- Administration of Volunteer Services
- Child Development
- Community Physical Fitness
- Food-Service Systems Administration
- Gerontology
- Health Care Administration
- Kinesiotherapy
- Leisure Counseling (Graduate Certificate)
- Nurse Practitioner
- Pre-Athletic Training
- Public Management Analyst (Graduate Certificate)
- Public Sector Employer-Employee Relations and Personnel Management (Graduate Certificate)
- Public Sector Financial Management (Graduate Certificate)
- School Nursing Credential
- Therapeutic Recreation
- Transportation Policy and Planning (Graduate Certificate)
- Urban Executive Management (Graduate Certificate)
- Wilderness Studies

Credential Programs

Single subject credential programs are offered in Family and Consumer Sciences, Health Science, and Kinesiology and Physical Education. Students who plan to teach these subjects in the secondary schools are strongly advised to consult the Single Subject Advisor as early as possible in their studies, so that they fulfill subject matter preparation requirements while completing an undergraduate major.

Designated subject credential programs in Adult and Vocational Education are offered in Occupational Studies.

Services credentials are offered in Communicative Disorders (Clinical Rehabilitative), Nursing (Health Service/School Health), and Social Work (Pupil Personnel – Child Welfare and Attendance).

College Facilities

The College of Health and Human Services is characterized by perhaps the greatest diversity of programs in the University. The eleven departments, four programs, and twelve research

centers are housed within twelve buildings on campus. During the period 1992-94, the primary facilities received \$21,000,000 worth of renovation, including the addition of new equipment in laboratories. As a result, students now have access to state-of-the-art classrooms, laboratories, and clinics with equipment matching that of business/industry. As a student, for example, you could visit our Communicative Disorders Speech and Hearing Clinic, Nursing Simulation Lab, or Physical Therapy Labs and Clinic. You could participate in a discussion on the importance of recreation in your life and the lives of others in a Recreation and Leisure Studies course; or a discussion of diet and nutritional needs in Family and Consumer Sciences; or a seminar on AIDS awareness in the Health Science Department; or a seminar on improvement of the quality of life for all people in the Social Work Department. You may choose to swim in our Olympic size pool or be tested in the underwater weight tank, while enrolled in a Physical Education class. The Department of Criminal Justice may walk you through the forensic investigation of a crime. Public Policy and Administration courses will offer you the opportunity to apply new knowledge, skills, and leadership techniques to the solution of public problems; while Occupational Studies could provide you with the competencies requisite for successful employment in secondary schools, community colleges, and adult programs.

As the second largest of the University's seven colleges, Health and Human Services is comprised of over two-thirds laboratory facilities which accommodate its many lab-intensive programs. These programs combine theory with exciting practical application in the campus laboratories, as well as many off-campus facilities through field work and internships.

Professional Accreditation

Programs in the College have been accredited by the following state and national accrediting agencies:

- American Association of Colleges of Nursing, American Association of Family and Consumer Sciences, American Dietetic Association, American Physical Therapy Association, American Public Works Association (APWA), American Speech Language and Hearing Association, Association of University Programs in Health Administration, California Council on Parks and Recreation, California State Board of Registered Nursing, California Teaching Commission, Commission on Accreditation of Allied Health Education Programs, Council on Education for Public Health, Council on Social Work Education, National Association for the Education of Young Children, National Association of Schools of Public Affairs and Administration (NASPAA), National Commission on Accreditation for Teacher Education, National Commission on Accrediting Teachers Education and California Teaching Commission, National Recreation and Park Association Council on Accreditation, Western Institute of Nursing.

The College maintains an active involvement in the following organizations:

Special Interest Clubs

- Archers, Army ROTC Association, Army ROTC Rangers (AROTC), California Nursing Student Association, Child and Family Associated Students (CAFAS, *Family and Consumer Sciences*), Criminal Justice Student Association, Foodservice and Hotel Management Association (*Family and Consumer Sciences*), Health Care Administration Forum, Health Science Graduate Student Association, Kinesiology and Physical Education Majors Club, National Student Speech-Language-Hear-

ing Association (*Communicative Disorders*), Peer Health Educators, Pershing Rifles (*AROTC*), Physical Therapy Student Association, Public Administration Student Association (*PASA, Public Policy and Administration*), Recreation and Leisure Studies Alumni Association (*RALSAA*), Recreation Society (*Recreation and Leisure Studies*), Social Dance Club, Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Sports Medicine Club (*Kinesiology and Physical Education*), Student Affiliates of the American Kinesiotherapy Association (*Kinesiology and Physical Education*), Student Association for Family and Consumer Sciences, Student Chapter of American Association of Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*), Student Food Science Society (*Family and Consumer Sciences*), Students Active in Community Health (*Family and Consumer Sciences*), Students in Fashion (*Family and Consumer Sciences*).

Professional and Honors Organizations

Alpha Phi Sigma (*Criminal Justice*), American College of Healthcare Executives, California Association for Health, Epsilon Pi Tau (*Occupational Studies*), Eta Sigma Delta (Hospitality Foodservice and Hotel Management, *Family and Consumer Sciences*), Eta Sigma Gamma (*Health Science*), Kappa Omicron Nu (*Family and Consumer Sciences*), Omicron Tau Theta (*Occupational Studies*), Phi Epsilon Kappa (*Kinesiology and Physical Education*), Pi Alpha Alpha (*Public Policy and Administration*), Recreation and Dance (CAH-PERD), Sigma Phi Omega (National Academic and Professional Society in Gerontology), Sigma Theta Tau (Iota Eta Chapter, *Nursing*), Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Student Chapter of the American Association of Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*).

College and Departmental Organizations

African American/Black Committee (*Social Work*), Army ROTC Association, Asian Pacific Islanders Committee (*Social Work*), Associated Students of Social Work, California Nursing Student Association, Child and Family Associated Students (CAFAS, *Family and Consumer Sciences*), College of Health and Human Services Student Council, Criminal Justice Student Association, Food Science Society (*Family and Consumer Sciences*), Gay, Lesbian, Transsexual, Transgender Committee (*Social Work*), Health Care Administration Forum, Health Science Graduate Student Association, Health Science Student Association, Kappa Omicron Nu (*Family and Consumer Sciences*), Kinesiology and Physical Education Majors Club, Latino Student Network Committee (*Social Work*), National Association of Social Work Unit, National Student Speech-Language-Hearing Association (*Communicative Disorders*), Physical Therapy Student Association, Public Administration Student Association (*PASA, Public Policy and Administration*), Recreation and Leisure Studies Alumni Association (*RALSAA*), Recreation Society (*Recreation and Leisure Studies*), Social Work Alumni Association, Society of Consumer Affairs Professionals (*Family and Consumer Sciences*), Sports Medicine Club (*Kinesiology and Physical Education*), Student Association for Family and Consumer Sciences, Student Dietetic Association (*Family and Consumer Sciences*), Students Active in Community Nutrition (*Family and Consumer Sciences*), Students in Fashion (*Family and Consumer Sciences*).

Courses (HHS)

Lower Division

100. Skills for Living (3)

This course is designed to provide students with the skills necessary to survive as new members of CSULB communities as well as enhancing quality of life. Specific topics include, but are not limited to, personal security, the criminal and civil justice systems, aging, consumer affairs, financial management, personal and family relations, nutrition, health maintenance and care, disease prevention, fitness, and the roles of work and leisure in one's life. (Lecture-discussion, 3 hours.) Team taught by College of Health and Human Services Faculty.

Upper Division

*374. Psychosocial Aspects of Disability (3)

Prerequisites: PSY 100 and consent of instructor. Survey of the psychosocial, emotional, and cultural reactions to disease and disability. Letter grade only (A-F). (Lecture/discussion 3 hours.)

*401. Applied Anatomy I (3)

Prerequisites: BIOL 208, or equivalent, and consent of instructor. Advanced study of the structure and function of the neuromusculoskeletal systems with emphasis on the surface contour, myology and joint structure, and neurovascular supply. Includes dissection laboratory and provided materials. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

*402. Applied Anatomy II (3)

Prerequisites: BIOL 208, or equivalent, HHS 401, consent of instructor. A continuation of HHS 401, with an emphasis on the normal anatomy of the lower extremities, pelvis, and abdominal region. Letter grade only (A-F). (Lecture/discussion 2 hour, laboratory 3 hours.)

*403. Tissue Mechanics and Aging (3)

Prerequisites: BIOL 208, or equivalent, and consent of instructor. Advanced study of tissue (bone, muscle, dense fibrous connective tissue, cartilage) mechanics and pathomechanics including use, disuse and aging with application to therapeutic procedures. (Lecture/discussion 3 hours.) Letter grade only (A-F).

*460. Neuroanatomy (4)

Prerequisites: HHS 401, BIOL 341, 441 (concurrent) and consent of instructor. Investigation of human neuroanatomy with emphasis on the structure and function of the central nervous system (CNS), cranial nerves, and their connecting neural pathways relative to human function and movement. Neuroanatomical and vascular lesions will be discussed and correlated to common clinical conditions. Laboratory experiences will integrate brain and spinal cord specimens and models, and imaging techniques to lecture material. Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)

*471. Pathology (3)

Prerequisites: BIOL 208 and consent of instructor. Advanced study of abnormal function as a result of disease. Including general pathology and selected pathologies encompassing cardiovascular, pulmonary, musculoskeletal, peripheral and central nervous system, and integumentary. (Lecture/discussion 3 hours.)

492. Field Studies and Career Exploration (1-3)

Prerequisites: Consent of the instructor and a minimum GPA of 2.0. This course provides students with career-related experience by allowing them to participate in fieldwork assignments relating to their majors and intended professions. Students who qualify will participate in volunteer or paid assignments in private industries, non-profit organizations, or public agencies. In addition to this practical experience, students will attend a series of seminars designed to complement their field assignments by focusing on issues common to the work setting.

*497. Independent Studies (1-3)

Prerequisites: Consent of instructor, and for human dissection, one general introductory anatomy course, HHS 401, and HHS 402. Independent projects in any area of physical therapy. Human dissection is available as a special study. May be repeated to a maximum of 6 units. Letter grade only (A-F).

Advising in the Department of History is available to all students interested in a major, minor, a teaching credential, or a special major combining History with another discipline. Students are strongly encouraged to see History Department advisors at an early stage in the development of their programs. Undergraduate majors should see the Department Secretary to fill out a work sheet before meeting with the Undergraduate Advisor. Students interested in the M.A. program should contact the Department Secretary for application information. Graduate students should see the Graduate Advisor (Nancy Quam-Wickham). Applicants for the Social Science Credential Single Subject Program must see Credential Advisors (Jane Dabel or Patsy Lambert). All advisors maintain extended hours during the semester and are available at other times by appointment. The Department of History also hosts open advising days in the week prior to each new semester; call the Department for information.

History

History is a discipline at the core of the liberal arts tradition. It seeks to preserve, extend, and reevaluate our study of the past and to connect it with the present. Students who specialize in History are typically those who plan to teach, practice law, or enter government service; however, History students also go into business, librarianship, foundation work, management of local history projects, and fundraising. Some history alumni have become successful writers.

Students contemplating graduate work in History on this campus or elsewhere should get advice early in their undergraduate careers from faculty in their fields of interest and should also give serious consideration to developing proficiency in a foreign language during their undergraduate tenure.

The History Department awards scholarships and prizes to outstanding undergraduate and graduate students, among which are:

- The Douglas McNeally Award
- The Stuart Bernath Award
- The Ebell-Heimberger Scholarship
- The Jack Chinski Award
- The Elizabeth Neilsen Award
- The Hardeman Graduate Student Award

For further information about these awards, given annually, students should inquire at the Department office no later than the beginning of the spring semester. Undergraduate and graduate students are eligible for the Department's facilitator program for which they may earn units in the major; see Department staff for applications. Graduate assistantships and readerships are also frequently available to qualified graduate and undergraduate students. The Department also recruits outstanding students for Phi Alpha Theta, the national honor society for History students.

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The Department of History offers graduate study leading to the Master of Arts degree. The candidate is responsible for observation of the general requirements stated in this catalog as well as specific departmental requirements listed in the M.A. brochure, available on request from the Department office.

General Education Requirement in United States History

To fulfill State of California requirements, students must take three (3) units of U.S. history. This requirement can be met by HIST 172 or 173. Students who have taken U.S. history at another institution should check with the History Department before enrolling.

Bachelor of Arts in History (code HISTBA01) (120 units)

Requirements

Majors must take 47 units of history: 9 lower-division and 38 upper-division.

1. Core: 14 units. All majors must take HIST 301, 302, 499, and one history course that fulfills the gender, race, and ethnicity requirement (from a list of approved courses available from the Undergraduate Advisor). HIST 301 MUST be taken in the first semester of course work in the major. 301 is a prerequisite for 302, and both courses are prerequisites for 499.
2. Fields of emphasis: 18 units. All majors have the option of specializing in two or three fields. Option one: two fields of nine units each. Option two: three fields of six units each. The fields are:
 - A. Africa and the Middle East
 - B. Ancient and Medieval Europe
 - C. Asia
 - D. Latin America
 - E. Modern Europe (Including Britain)
 - F. United States
3. Breadth: 6 units. Majors must take six units in a field (or fields) of history outside of their fields of emphasis.
4. All majors must develop a portfolio (beginning with HIST 301) reflecting their work in the History major. The portfolio will be evaluated as one of the requirements in the senior seminar, HIST 499. Prerequisites for HIST 499 are completion of HIST 301, 302, and 18 units of upper-division work in the major.

NOTE: History majors are strongly encouraged to include the study of foreign language and literature in their programs. Students working for a single-subject credential in secondary education must consult with the College's secondary education advisor as to the applicable credential major requirements.

Honors in History

Students with a major in history may be admitted to the History Department honors program (option of the University Honors Program) provided they have:

1. Completed at least 30 semester units of college- or university-level courses, including at least two history courses;
2. A minimum cumulative GPA of 3.3, and a 3.5 in history courses;
3. Submitted to the department honors committee chairperson two letters of recommendation from faculty members;

4. Received admission approval from the departmental honors committee.

Students who have the minimum GPA requirements established by the University Honors Program (3.0 overall and 3.3 in the major, but who do not meet History departmental GPA requirements above may petition the department honors committee for conditional admission to the Department Honors Program).

In order to graduate with Honors in history a student must:

1. Complete all regular requirements for the history major;
2. Complete 3 units in HIST 501;
3. Complete 3 units in HIST 498H: Honors Research;
4. Complete 3 units of HIST 499H: Honors Thesis;
5. Complete 6 units of additional course work chosen in consultation with the Department Honors Advisor; such courses normally will require two analytical papers or a research paper on a honors level of performance;
6. Complete UHP 499 Synthesis, as partial fulfillment of the University's requirement of 6 upper-division units;
7. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in history.

Students admitted to the program must maintain a file in the University Honors Program which will include copies of proposals for 498H and 499H.

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in HISTORY (HISTBA01)

120 units required		Department of History	
Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	HIST 172 or 173 (GE D1a)	3
GE Class	3	GE Class	3
GE Class	3	GE Class	3
Elective Class	1-3		
TOTAL UNITS	14-16	TOTAL UNITS	15-16
Semester 3		Semester 4	
HIST 101 (GE A3)	3	HIST 131,132, 141, 161, 211, or 212	3
GE Class	3	GE Class	3-4
GE Class	3-4	GE Class	3
GE Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-16
Semester 5		Semester 6	
HIST 301	4	HIST 302	3
Major Core-Gender/Race/Ethnicity	3	Major Emphasis Class	3
Major Emphasis Class	3	Major Emphasis Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	16	TOTAL UNITS	15

Semester 7		Semester 8	
Major Emphasis Class	3	HIST 499	4
Major Emphasis Class	3	Major Emphasis Class	3
Major Breadth Class	3	Major Breadth Class	3
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	16

*GE Interdisciplinary Capstone Classes may be able to count in GE and major. See catalog or major advisor.

**Students may use HIST 172 or 173 to meet both the GE requirement (D1a) and a requirement for the major.

NOTE: History majors are strongly encouraged to include the study of foreign language and literature in their programs.

Students may complete the Specialization requirement by taking either three courses in each of two fields, or two courses in each of three fields.

Students wishing to pursue the Social Science credential in addition to the major must see a Social Science Credential advisor as many classes can count in the major, for GE and for the credential.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Oral History Program

This Program, housed in the Department of History, is designed to teach and train history students in the use of materials that focus on largely unwritten sources. History majors, and social science credential students with a history concentration, are urged to take the one-unit workshop. Students in these workshops learn how to design an oral history project, and to conduct interviews. Workshops are especially helpful for students interested in local history, the history of the family, and communities whose written records have not been included in traditional historical materials.

Minor in History (code HISTUM01)

A minimum of 21 units which must include:

Lower Division: A minimum of six units, which must include a six-unit sequence from the following: HIST 211 and 212, 131 and 132.

Upper Division: A minimum of 12 units, which must include at least six units in each of two areas as defined for the major.

Minor in Jewish Studies (code HISTUM02)

The Minor in Jewish Studies consists of a minimum of 19 units. Jewish Studies encourages undergraduate students to acquire the academic breadth and depth to comprehend the major issues, themes, and concepts of a culture and heritage that has had a distinct impact on world civilization. The interdisciplinary minor consists of courses in a variety of disciplines, including literature, history, religion, geography, Hebrew language, and politics. Students will expand their understanding of the broader dynamics of the Jewish experience through different eras and geographic settings, both in Israel and the Diaspora.

Requirements

1. Required core courses: HEBW 101A, HIST 369, R/ST 314;
2. Three units from the following elective courses: C/LT 342, HIST 431, R/ST 311;
3. Six units from the following elective courses: GEOG 309I; HIST 304, 432, 389; POSC 367; R/ST 315.

Minor in Latin American Studies (code HISTUM03)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

Requirements

1. The following are the requirements for the Latin American Studies minor:
 - A. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor.
 - B. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
 2. Completion of 21 units distributed as follows:
 - A. Core (Required of all students) 6 units. Choose from two disciplines: ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359; SPAN 445.
 - B. Electives: 15 additional units from the following disciplines. Students cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490*, 495*, CHLS 352, 380, 395, 400, 420, 490*, 499*; C/LT 440, 499*, ECON 490*, 499*; FEA 392C; GEOG 320I; HIST 362, 364, 366, 461, 462, 463, 466A, 466B, 466C, 490*, 495*, 498*; POSC 358, 359, 497*, 499*; SOC 341, 490*, 499*; SPAN 341, 441, 445, 490* 492, 495* 550
- * The Latin American Studies advisor must approve Special Topics and Directed Studies courses in the area of Latin American Studies.

Minor in Middle Eastern Studies (code HISTUM05)

The Middle Eastern Studies minor encourages undergraduate students to acquire a broad and interconnected understanding of the dynamics of Middle Eastern societies, cultures, and histories by taking courses in a variety of disciplines including History, Arabic language, Political Science, Geography, Art History, International Business, and Religious Studies. Students will expand their understanding of the major issues, themes, and concepts associated with a complex and diverse region as the Middle East.

Requirements

A minimum of 18 units.

Core Required Courses

Minimum twelve (12) units: At least three (3) units must be in History and four (4) units must be in Arabic.

HIST 431/531, 432/532; R/ST 331I; POSC 367; ARAB 101A, 101B.

Elective Requirements

Students must take a minimum of six (6) additional units, selected with an advisor, from the following disciplines without repeating courses from the core. ARAB 101A, ARAB 101B, ART465/565, C/LT 104, and C/LT402/502, GEOG309I, HIST394, HIST431/531, HIST432/532, HIST490, POSC367, R/ST331I.

Three (3) of these units may be taken from the following courses, which have a global and comparative perspective without repeating courses from core:

CBA 300; W/ST 401I; FCS 410; R/ST 102; HIST 495.

Master of Arts in History (code HISTMA01)

Prerequisites

1. A bachelor's degree with an overall 3.0 GPA in history, or with an overall 3.0 GPA, or
2. A bachelor's degree with 24 units of upper-division courses in history. These courses must be comparable to those required of a major in history at this University. Deficiencies will be determined by the graduate advisor after consultation with the student and after study of transcript records.

Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including setting a date and a committee for the thesis or comprehensive examination. It is best done as early as possible and it must take place before the end of the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time that they begin their thesis work.

Requirements

1. A minimum of 30 units of upper division and graduate courses including at least 18 units from 500 and 600-level courses. Six units may come from other departments if they suit the student's program and are approved by the graduate advisor. All students must take HIST 501 and HIST 590. Twelve of the remaining units must come from among the following area offerings: 510A, 510B, 510C, 510D, 510E, 611, 631, 673, 682.

2. The student may select one or two fields of specialization distributed as follows:
- Alternative I. Single-field option. Fifteen units, including at least one class in the 510 series, in one of the following fields: Africa and the Middle East, Ancient/Medieval Europe; Asia; Britain; Latin America; Modern Europe (including Russia); United States. Those who take the single-field option must also take at least one 500-level course in a second field.
- Alternative II. Two-Field Option. A minimum of 9 units in each of two of the above geographical areas, including at least three units of 510 in each.
- The courses for Directed Study (695), Directed Research (697), and Thesis (698) may be applied to the 18 unit total only with the permission of the graduate advisor. A student may propose a field other than those cited above with the consent of the Graduate advisor and her/his graduate committee.
3. A reading knowledge of German, French, or other foreign language may be required, depending upon the candidate's program of study as recommended by her/his graduate committee.
4. A comprehensive written examination on one field, two periods or a comprehensive written examination on two fields or a thesis.

Courses (HIST)

Lower Division

101. Facts, Evidence and Explanation (3)

Corequisite: ENGL 100. The course will address the following issues within historical or global contexts: distinguishing fact from judgement; understanding argument and inductive and deductive reasoning skills; investigating the relationship of language to logic and the problem of selecting evidence, including understanding points of view, bias and theoretical perspective; and differentiating belief from knowledge, by asking the question, "How do we know what we know?" We will investigate facts, evidence, and explanation by analyzing the content, dissemination, and absorption of information from a variety of printed and visual sources. (Not open to students with credit in HIST 201.)

131. Early Western Civilization (3)

Corequisite: ENGL 100. The history of western civilization from its origins through the 16th century. Stresses society, culture, and political institutions of ancient Near East, classical world, the medieval West, and renaissance and reformation Europe. (CAN HIST 2)

132. Modern Western Civilization (3)

Corequisite: ENGL 100. European society from the 16th century to the present. Stresses events and phenomena which reshaped the political, economic and social structures of the West and their impact throughout the world. Emphasis on the intellectual, social and psychological transformation of modern life. (CAN HIST 4)

161. Introduction to Latin American Studies (3)

Prerequisite: Completion or concurrent enrollment in ENGL 100. This course offers an interdisciplinary overview of history, society, and culture in Latin America – Mexico, Central American, the Caribbean, and South America. It will examine the political, economic, social, and cultural conditions that have produced conflict, change, and continuity in Latin America over the last five hundred years. Letter grade only (A-F). Same course as SOC 161.

172. Early United States History (3)

Prerequisite/Corequisite: Completion of one G.E. Foundation course and ENGL 100 or equivalent. Survey of the political, social, economic, and cultural development of the United States from discovery through reconstruction. Attention to the colonial era, establishment of the new nation, sectional problems, national growth, disunion, and reconstruction. Material may be covered chronologically or topically. Fulfills the general education requirement for U.S. history. Not open to students with credit in HIST 162A. (CAN HIST 8)

173. Recent United States History (3)

Prerequisite/Corequisite: Completion of one G.E. Foundation course and English 100 or equivalent. Survey of the political social, economic, intellectual, and cultural development of the United States from reconstruction to the present. Focuses on different social groups and examines the experiences of both the powerful and those who want power in American society. The course may be chronological or topical, and covers such themes as immigration and movements of people; work and the economy; the emergence of women's and minority issues; politics, protest, and war; society and culture. (CAN HIST 10)

211. World History: Origins to 1500 (3)

Prerequisite: Completion of GE Foundation requirements. A survey of the development of world civilization and major cultures from the Neolithic Revolution until the eve of the European conquest of the Americas. The civilizations of the Ancient, Classical, and Postclassical periods will be studied, emphasizing interaction between civilizations and major cultures. Topics will include the origins and role of universal religions; the examination of political, social, and gender structures in relation to economic and demographic development; and, the diffusion of culture and technology via migration, commerce, and the expanse of empire. (Not open to students with credit in HIST 111.)

212. World Since 1500 (3)

Prerequisite: Completion of GE Foundation requirements. A survey of the origin and development of the modern world, tracing both regional histories and global interactions. Major themes include economic aspects of globalization; intellectual and cultural adjustments to modernity; modern imperialism, resistance to empire, and the birth of nations; and, the historical origins of the contemporary world. (Not open to students with credit in HIST 112.) (CAN 16)

250. Early World Historical Geography (4)

Prerequisites: Open only to Integrated Teacher Education Program (ITEP) students. This course uses the perspectives of history and geography to introduce students to the civilizations of Eurasia, Africa, and the Americas as they developed prior to European contact. To understand their origins and subsequent growth and development, special attention will be given to geographic and historical factors such as location and place, human/environment interactions, migrations, cultural and technological diffusion as well as the intensity of cross-cultural contact and exchange between cultures and civilizations over time. Same as GEOG 250.

290. Special Topics in History (1-3)

Prerequisites: Completion of GE Foundation requirements. Topics of current interest in history. May be repeated to a maximum of 6 units with different topics. Applicability to major requirements will be specified in description of individual topics, as announced in the *Schedule of Classes*.

A. World War II

Upper Division Areas

NOTE: General Education Category A must be completed prior to taking any upper-division course except upper-division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

Course titles listed with an asterisk (*) are available for graduate as well as undergraduate credit.

GENERAL

*301. Methodology of History (4)

Prerequisites: Required of all History majors in their first semester of work in the major. Introduction to historiography and methodological issues, skills and competencies exercises, research methods, research presentations, and peer review. Creation of student portfolio that will be used in remaining upper-division courses in the major and will be assessed in HIST 499 (Senior Seminar). Letter grade only (A-F). May be repeated to a maximum of 8 units.

*302. Theory and History (3)

Prerequisite: HIST 301. Examination of the ways in which theory shapes historical writing and research. Will focus upon case studies, significant historical works, major schools of historical interpretation, and recent scholarly trends. Letter grade only (A-F).

309I. Men and Masculinity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of male roles from an interdisciplinary perspective focusing on men as workers, friends, lovers, and fathers. Consideration of the choices available to men under the impact of tradition, feminism, and a changing job market. Gender-oriented social and political movements. Letter grade only (A-F).

490. Special Topics in History (1-3)

Prerequisite: Consent of instructor. Topics of current interest in history selected for intensive development. May be repeated to a maximum of 6 units with different topics, but no more than 3 units may be used to satisfy the requirements for the major. Topics will be announced in the *Schedule of Classes*.

F. Women and War

Same topic as SPAN 493A and W/ST 490K.

*494. Practicum in History (1-3)

Prerequisites: Consent of instructor and department chair. Field work in History, supplemented by reading and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. May be repeated to a maximum of 6 units, but no more than 3 units may be applied to the major in History.

*495. Colloquium (3)

Prerequisites: HIST 301 and nine additional units of upper division History. Seminar level course exploring a specific historical field or issue chosen by the instructor; students will be expected to analyze and interpret primary and secondary sources in a paper that will be presented to the class. Part of core requirements for students declaring a major before summer 2001; students declaring a major after spring 2001 will be required to take History 499 as a core requirement, not 495.

A. Colloquium

O. U.S. in Vietnam

*498. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study under the supervision of a faculty member. May be repeated to a maximum 6 units.

498H. Honors Research (3)

Research for and writing of a senior thesis under the direction of a departmental advisor.

499. Senior Seminar (4)

Prerequisites: Completion of HIST 301, HIST 302, and 18 units of upper-division course work in History; at least two courses (six units) of which must be in the 499 seminar's area of concentration. Designed for graduating seniors, this course requires that students demonstrate baccalaureate-level mastery of historical processes and historical literature through: 1) submission of a portfolio representing continuing work in the major; 2) research and writing of a major paper, and 3) oral presentations. Not open to students who have not met the prerequisites listed above. Topic areas include: Africa and the Middle East, Ancient and Medieval Europe, Asia, Latin America, Modern Europe (including British), and United States. Letter grade only (A-F).

499H. Honors Thesis (3)

Prerequisite: HIST 498H. Research, writing, and presentation of a senior honors thesis under the direction of departmental faculty advisor.

INTERDISCIPLINARY COURSES

303I. Rebels and Renegades (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The 1930s and 1960s were decades noted for their political, social, and cultural creativity and turmoil. This course investigates youth involvement in social change and focuses on the following topics in US history: labor activity, civil rights, student action, issues of war and peace, the evolution of the women's movement, and the emergence of minority voices. The course looks at culture (particularly music, literature, and movies) in defining and reflecting these issues and addresses the question of why some decades are filled with social protest while other periods appear to be more politically passive. The class addresses the importance of these questions for the 1990s. Not available for credit in the minor.

308I. Law and Civilization (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of law as an intellectual effort to define, direct, and administer human experience. Examination of theories of knowledge, language, meaning, mental processes, social organization, personal responsibility and freedom underlying legal analysis and decision-making in courts as well as in administrative/bureaucratic settings. Not available for credit in the minor.

309I. Men and Masculinity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of male roles from an interdisciplinary perspective focusing on men as workers, friends, lovers, and fathers. Consideration of the choices available to men under the impact of tradition, feminism, and a changing job market. Gender-oriented social and political movements. Letter grade only (A-F).

310I. The Greek World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture, and contributions of the Greeks to the modern world. Same course as C/LT 310I.

312I. Roman World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as C/LT 312I.

400I. History of Western Scientific Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures.

404I. Social History of Musical Life (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Social history of musical life, music publics, institutions, professions, and taste in Europe and the U.S. Not available for credit in the major.

4071. Japan and the United States in the 20th Century (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic, and political conflict and cooperation.

4141. Medieval World (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the Middle Ages, pre/non-Christian culture, the so-called "dark ages," Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Same course as C/LT 4141.

4741. The Urbanization of Modern America (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems, and politics.

AFRICA AND THE MIDDLE EAST

*391. The Making of Modern Africa, 1800-1939 (3)

This course surveys the history of sub-Saharan Africa from the early 19th through the mid-20th centuries. We will study the rapid changes which destabilized many 19th century societies, the European conquest which followed, and the entrenchment of a colonial situation which robbed generations of Africans of their ability to control their own political and economic destinies. Our emphasis will be on how Africans themselves perceived these processes, how they adjusted to them, and the continuing relevance of these experiences today.

*392. Contemporary Africa, 1940-Present (3)

The challenges facing Africa today can seem bewildering in their variety and complexity. In this course, we will examine the political, economic, social, and ecological conditions of the African continent by studying their historical genesis in the second half of the twentieth century. The main focus will be the difficulties that have been encountered in overcoming the legacies of colonialism in Africa.

*394. Middle Eastern Women (3)

Prerequisites: Upper division status. In this course, we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, traveler accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as W/ST 394.

431./531. The Middle East (Southwest Asia), 600-1700 (3)

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam; the creation and development of the Islamic Empire; the rise of dynastic successor states and "gunpowder" empires; European encroachment; and, integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

432./532. The Middle East (Southwest Asia), 1700-Present (3)

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform; problems and impact of modernity and imperialism in social, political, and economic spheres; state building; nationalism; and, Islamic revivalism and will situate the history of the region within its global context.

*491. Modern and Contemporary Africa (3)

Conquest of Africa by European states, contrasting colonial systems as they evolved, anti-colonial movements and progress towards self-government or independence, problems of economic and political development, and race tensions in areas of white settlement.

ANCIENT AND MEDIEVAL

3101. The Greek World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture and contributions of the Greeks to the modern world. Same course as C/LT 3101.

3121. Roman World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as C/LT 3121.

*313. Ancient Greece (3)

Prerequisite: Completion of GE Foundation requirements. History of the Greeks and the Greek world from the earliest times to the Roman conquest.

*314. Roman History (3)

Prerequisite: Completion of GE Foundation requirements. History of Rome and the Roman world from the Eighth Century B.C. to the Fifth Century A.D.

*316. Early Middle Ages (3)

History of Western Civilization from the fall of the Roman Empire in the West to the Crusades. Germanization of the West, evolution of Christian institutions, Slavic expansion, Byzantinization of the Eastern Empire, Islamic civilization, Carolingian age, feudal and manorial institutions.

*317. High Middle Ages (3)

History of Western Civilization from the Crusades to the end of the Middle Ages. Revival of trade, growth of towns and of capitalism, origins of modern political institutions, and medieval learning and art.

*318. Byzantine Empire (3)

Political and social development of the Byzantine Empire from the 4th century A.D. to the fall of Constantinople in 1453; the cultural heritage of the Roman Empire in the eastern Mediterranean; religious controversies and the development of eastern Christianity; relations with Islam and medieval Europe.

319. Women in the Ancient and Medieval West (3)

Prerequisite: ENGL 100 or consent of instructor. An examination of the roles and experiences of women in Western Europe from pre-history to the sixteenth century. Students will be introduced to some of the basic problems and methodologies of women's history, and will be encouraged to question the interaction of "women's history" with "mainstream history." Themes to be covered include (but are not limited to): historical construction of gender roles, the relation of symbols of women with women's reality, the interaction of private and public life, women's access to power/opportunity, and the possibility of a "women's culture" during various historical periods.

341A. Foundations of Russia (3)

Evolution of the state structure, diverse cultural patterns, and social structures associated with ancient Kiev Russia: rise of Moscow, origins of autocracy and serfdom; westernization and modernization as problems during the imperial period to 1801. Particular emphasis on social history.

*351. Medieval England (3)

Analysis of English political institutions, society, religion and economy in the Anglo-Saxon, Norman, Plantagenet, and late medieval eras.

414I. Medieval World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the middle ages, barbarian culture, Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Not available for credit in the major. Same course as C/LT 414I.

ASIAN

382A. Imperial China (3)

Prerequisite: Completion of the GE foundation. Introduction to the classical civilization stressing the evolution of imperial institutions, the Chinese world order, and China's traditional cultural heritage. Same course as CHIN 382A.

382B. Modern China (3)

Prerequisite: Completion of the GE foundation. Chinese society from the 17th century to 1949. Impact of imperialism, reform and revolutionary movements, the background of Chinese communism. Not open to students with credit in HIST 482B. Same Course as CHIN 382B.

383A. Japan to 1850 (3)

Prerequisite: Completion of GE Foundation requirements. Japan from prehistory to the nineteenth century; emphasis on social and cultural developments, the evolution of political institutions, and the development of early modern society.

383B. Modern Japan (3)

Prerequisite: Completion of GE Foundation requirements. Japan from 1850 to 1945: collapse of the Tokugawa bakufu and rise of the Meiji state; industrialization, social change, and protest; "Taisho democracy" and the Pacific War.

*384. Contemporary Japan (3)

Japan since 1945; impact of Hiroshima and Nagasaki; American occupation of Japan; Japan's "economic miracle," social change and social criticism in literature and film; Japan's role in the contemporary world; conflict with the U.S.

*385. History of India (3)

This is a survey of the history of the South Asian subcontinent from its historic roots, through the founding and consolidation of the great Mughal Empire, to the beginnings of Western imperialism and the establishment of the British Raj, ending with nationalism and the course of events in post-independence India, Pakistan and Bangladesh.

*386. History of Modern Southeast Asia: Colonial Era to the Vietnam War (3)

This is a survey course in the political and cultural history of the peoples of modern Southeast Asia. After an overview of traditional civilizations, the history of modern Southeast Asia (from roughly 1815) will emphasize expansion of European influence in the political and economic spheres, the growth of nationalism and the process of decolonization in Southeast Asia, and the post-WWII configuration of the area. Both mainland Southeast Asia (Vietnam, Cambodia/ Kampuchea, Laos, Burma, Malaysia) and insular Southeast Asia (Indonesia, Philippines) will be surveyed.

388. Contemporary China (3)

China from 1949 to the present. The political, economic and cultural factors that shaped its continuity and change and the impact of its transformation on Greater China, including Hong Kong and Taiwan.

405./505. Classical Japan (3)

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

*406A. Asian Women: East and Northeast Asia (3)

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and W/ST 406A.

*406B. Asian Women: South and Southeast Asia (3)

This is an introductory course on the experiences of women in South and Southeast Asia. By studying kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about South and Southeast Asian women, we will examine how gender was historically constructed and how women's resistance took various forms in these areas. This course will proceed both chronologically and thematically. Major issues to be addressed include women's agency in social change, gender as a contentious site of nationalist discourse, the impact of colonization on women, and women's various forms of resistance. Same course as A/ST 406B and W/ST 406B. Letter grade only (A-F).

407I. Japan and the United States in the 20th Century (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic, and political conflict and cooperation.

409./509. Early Modern Japan (3)

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

*410. Chinese Emigration/Migration in Modern Period (3)

The history of Chinese emigration/migration in the world with an emphasis on Chinese experiences in Southeast Asia, the Americas, and Western Europe. Examines major factors that have shaped Chinese emigration/migration in the modern period, as well as its impact on world history. By studying the interactions of people and social networks that operate within and across the boundaries of nations, it explores the implications of human migration for the development of the world, the fluidity and contested nature of "nation-states," "national identities," and "nationalism," as well as the political and economic interests invested in these concepts by their subscribers, who have either participated in migration or endeavored to curb it. Will proceed both chronologically and thematically.

***487. Film and Chinese History (3)**

Examines the complex relations between history and film. The questions to be asked include: How have films made in China been informed by changes in the country? In what ways can film constitute history and contribute to historical debates? What are the advantages and disadvantages of film in representing history? What are the complex issues related to the historical representation in a transnational film? It discusses both feature and documentary films, as well as films made in Hong Kong and Taiwan. Upon successful completion of this course, students will enhance their ability to read film texts critically and will appreciate the importance of studying history in this visually oriented era.

***488. The Chinese Revolution (3)**

Prerequisite: HIST 382B or consent of instructor. Theory and practice of revolutionary socialism in the People's Republic of China, historical and ideological background of the Chinese revolution, Mao and Maoism, politics, culture and society in China. Same course as CHIN 488.

LATIN AMERICAN

362. Colonial Latin America (3)

Prerequisite: Completion of GE Foundation requirements. Iberian preparation for overseas expansion, discovery and conquest in America, evolution of colonial institutions, dynamic 18th century developments, wars of independence.

364. The Latin American Nations (3)

Prerequisite: Completion of GE Foundation requirements. Political, economic, social and intellectual evolution of Latin America in the 19th and 20th Centuries.

***366. Latin American History and Literature (3)**

Latin American history through the novel and film; will integrate literature and the cinema with traditional historical materials in order to provide the student with a deeper understanding of the development of Hispanic America.

***461. History of Precolonial Mexico (3)**

History of Meso-America from prehistoric times to the Spanish conquest, emphasizing the study of the societies and the religious and intellectual life of people of ancient middle America.

***462. Mexico (3)**

Spanish conquest of Indian Mexico; settlement and exploration; colonial life and institutions; the achievement of independence from Spain; reform, foreign intervention, dictatorship in the 19th century; the Revolution of 1910 and after; contemporary Mexico.

***463. The Caribbean and Central America (3)**

History of the Caribbean Islands and Central America from European colonization to the present, with emphasis on Cuba and Central America. Economic, political and cultural development and relations with the United States.

***466. Topics in Latin American History (3)**

Selected topics in Latin American History, including: (a) Revolutionary Latin America analyzing various 20th-century revolutionary movements, their social, political and cultural causes, and their international impact; (b) Slavery, Peasantry and Aristocracy analyzing examples of black slavery, peasant societies, and elites from the 16th century to the present; (c) Comparative History: Argentina and Brazil, or other pairs of states; colonial beginnings, with emphasis on geographical, economic, social, ethnic, and vital institutional elements. May be repeated to a maximum of 9 units with different topics.

MODERN EUROPEAN

***304. The Holocaust (3)**

This course examines the attempted destruction of European Jews by Nazi Germany during the Second World War. Students will trace the roots of anti-Semitism in European history, the origins of Hitler's anti-Jewish assault, and the process from ghettorization to extermination. Other topics include the Jewish resistance inside Europe, the Western response during the war, and the world reaction fifty years after the Holocaust. Students will also explore how the Jewish tragedy is related to other crimes against humanity, including the massacre of Armenians, mass killing in Cambodia and Indonesia, and the issue of ethnic cleansing in Bosnia.

332. The Age of the Renaissance (3)

Analysis of the intellectual, cultural, political, religious, and social developments that took place during the period commonly known as the Renaissance (roughly 1350-1550), as well as an examination of the idea of "Renaissance" itself. Themes to be examined include: humanism and the world of arts and letters, civic humanism and politics, religion in the "Age of Reason," and the individual in society. Examination and analysis of intellectual, cultural, political and economic features of 14th, 15th, and 16th-century Italian civilization. Particular emphasis on interplay between new configurations and notions of power and their unique Italian cultural manifestations.

***333. Reformation Europe (3)**

Examination and analysis of the "long 16th century," from the beginning of the Italian Wars (1494) to the Peace of Westphalia (1648). Emphasis on economic, institutional, intellectual and religious crises, and on their resolutions in the post-Reformation period.

***334. Early Modern France, 1589-1789 (3)**

Spanning French history from the reign of Henri IV through the commencement of the French Revolution, this course will explore the following themes: the expansion of royal authority and the challenges it faced during the 18th century; the functioning of the French economy and its growth through increased production, trade and colonization; geographic expansion; the impact of religion; development in the literary and visual arts as well as popular culture; the increasing social, political, cultural, and intellectual importance of Paris; the French Enlightenment; demographic changes, social class dynamics, and the rhythms of daily life; gender constructs and patriarchy; marriage, family life, birth, and childhood.

***335. The Shaping of Modern Europe (3)**

European political, social, economic and intellectual life from the Treaty of Westphalia (1648) to the French Revolution (1789). Emphasis on the rise of statism, the triumph of science and mechanistic philosophy, absolutist monarchs (e.g., Louis XIV), enlightened despots (e.g., Frederick the Great), and philosophers (e.g., Voltaire), and the crisis of traditional society.

***336. The French Revolution and Napoleon (3)**

End of the Old Regime and the French Revolution. Decline of the feudal monarchy, failure of enlightened despotism, the rise of revolutionary thought, French Revolution, and Napoleonic imperialism.

337. Europe in the Nineteenth Century (3)

This course focuses on a tumultuous century of revolution and reaction from the French Revolution to the outbreak of World War I. Topics included are industrialization and its repercussions; popular protest and mid-century revolutions; the rise of the bourgeois and liberal world and the political and social opposition to it; nationalism, including the unification of Germany and Italy; feminism, imperialism, and daily life.

338. Modern European Women's History (3)

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include the nature, methodology, and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as W/ST 384.

339. Europe, 1890-1945 (3)

This course will explore the period in European history between the late nineteenth century (fin de siècle) and 1945 (the end of the Second World War). Amongst the themes that will be covered are political, social, economic, international, and cultural crises prior to 1914; the development of modern artistic trends; the First World War and its impact; challenges to democracy; economic collapse; the rise of the Fascists in Italy and Nazis in Germany; the Spanish Civil War; the Second World War, and the Holocaust.

*340. Europe Since 1945 (3)

This course examines the political, social, economic, and cultural development of Europe since the end of World War II. Themes will include the development of the Cold War, economic recovery, the rise of the welfare state, Eurocommunism, Gaullism, student unrest, national security and arms control, terrorism, the fall of communism and the transformation of East and Central Europe.

341B. Modern Russia (3)

Interaction with the West from 1801; era of great reforms and revolutionary movements; downfall of imperial Russia; establishment of the Soviet regime; chief political, social, economic and cultural developments in the Soviet era; role of the Soviet Union in world affairs.

343. Modern Eastern Europe (3)

Prerequisite: GE Foundation or consent of instructor. This course examines the events and forces that have shaped modern Eastern Europe from the emergence of nation states, to nationalism, world wars, fascism, Communism, conformity, dissent, and revolution. At the same time we will explore how and why the idea of Eastern Europe has changed over time, and the role of Eastern Europe both as a place and as an idea in the history of modern Europe.

346I. The European Cinema of Communism, Fascism, and Resistance (3)

Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper division standing. This course will focus on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in-between, and following the two world wars. The ensuing and ongoing resistance movements will also be examined. Same course as RGR 346I.

*353. Tudor and Stuart England (3)

Social, cultural, religious, political, and dynastic history of England from 1485 to 1714. Renaissance and Reformation; Crown and Parliament; civil war and revolution; the pre-industrial economy; relations with Scotland, Ireland, Europe, and America.

*356. Georgian and Victorian Britain (3)

Social, cultural, religious, political, and constitutional history of Britain from 1714 to 1901. Changes in agriculture, commerce, industry, and population; Parliamentary democracy; Irish problems; relations with America, India, Europe, and the world.

*357. Recent Britain (3)

Social, cultural, economic, and political history of 20th century Britain. Governments and people; labor, party politics, and the welfare state; two world wars; problems with Ireland and Europe; the end of Empire; race relations; mass media and popular culture; contemporary developments.

400I. History of Western Scientific Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures.

*437. History of Germany 1871 to Present (3)

History of Germany from unification: the First World War, the Weimar Republic, the National Socialist Reich, and the post-war recovery.

*483. Women in Eighteenth-Century England and America (3)

Prerequisites: ENGL 100 and upper division status. Study of representations and realities of women's lives, 1688-1800, from an international and interdisciplinary perspective. Critical methodology of history and literature; analysis of literary and historical texts to explore women's experiences of law and economics; religion; education and culture; marriage, sex, and health; politics and revolution.

ORAL HISTORY PROGRAM

402. Oral History Methods (1)

Through a series of workshops and through field experience, skills in oral history will be developed which will enable students to use oral history either for their own personal use in family history or for class projects. Credit/No Credit grading only. Same course as C/LA 485.

4980. Directed Studies in Oral History (1-6)

Prerequisite: Consent of instructor. Directed study on a research topic using the methodology of oral history. May be repeated to a maximum of 6 units. Same course as C/LA 498.

UNITED STATES

300. The United States Past and Present (3)

Concentrating on the rise of the U.S. to its present position as a world power, this course will explore the contributions of various racial and ethnic groups and of both men and women to that process, as well as the effects of developing political, economic, and social institutions and values upon that process. (This course is an upper-division survey and may not be taken for credit in the United States field. It is for upper-division transfer students in lieu of HIST 172 and 173.)

*369. American Jewish History (3)

Both a chronological and a thematic approach to American Jewish History. Chronologically, covers the first Sephardic settlers, German Jews, Eastern European Jews, and recent migrants. Emphasis placed on the experiences these immigrants brought with them. Examples of major themes examined critically: assimilation, the transformation of traditions, American anti-Semitism, the branches of Judaism, mobility, Jewish women, American Jewish leadership of the Jewish Diaspora, Jewish/Christian relations, and the relationship of Jews with other minority groups. Letter grade only (A-F).

370. Chicano History (3)

Chicanos in the settlement and development of the Southwest and in contemporary U.S. society; Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza. Letter grade only (A-F). Same course as CHLS 300.

371. Religion in American History (3)

A survey of the main currents of religion in the development of American civilization from the beginning of the colonial period to the present. Themes of Judeo-Christian heritage, proliferation of denominations, and new religions in an open environment. Awakenings and revivals, sectarian, communal, ecumenical, and social action movements are among the topics explored.

*372. United States: Colonial Period (3)

Discovery and settlement of the new world; European institutions in a new environment; development of colonial government, economy and social institutions; European dynastic rivalry and colonial America.

***373. United States: Age of Revolution (3)**

Clash between British attempts to control and tax the colonies and colonial distaste for both; growth of an independent spirit; the American Revolution; problems of the new nation; the constitution.

***375. The United States Emerges as a Nation (3)**

An analysis of the political, economic, social, and intellectual forces from the adoption of the constitution through the 1840s.

***376. United States: Civil War and Reconstruction (3)**

Sectional rivalry, manifest destiny, mid-century divisive forces, Civil War and reconstruction.

377. The United States at War (3)

Since the discovery of "the new world," until the present time the United States has been engaged in a sequence of conflicts, wars, and military police actions. This course is designed to address and answer a variety of questions regarding how and why the United States goes to war. Topics for exploration include: Who were the Presidents going into and during each war? What were their political parties? What was the economic impact or impetus? What part did manifest destiny, the Monroe doctrine, and the cold war (the domino theory) of communism play? What about the issue of American nationalism? Do we go to war to protect ourselves, our image as a world power, as the result of an insult to our "national image," or for economic reasons? Is it the responsibility of the U.S. to be the watchdog for the world?

***378. United States History: 1877-1920 (3)**

The development of the U.S. as an urban, industrial, multicultural society; progressive reform movements at the city, state, and national level; rise of U.S. as a world power; WWI.

***379. United States: Twenties, Depression, and World War II (3)**

The conflict-ridden 1920s; the Depression years, and the beginnings of welfare democracy; the United States in World War II.

***380. United States Since 1945 (3)**

The United States in the nuclear age: the development of the Cold War and its domestic ramifications, the "post-industrial" economy, the civil rights revolution, the rise of political dissent, the Watergate affair, the Reagan revolution, and after.

381. Asian American Women (3)

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings; oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and W/ST 381.

***467. Long Beach History (3)**

Survey of the history of Long Beach, California, 1890 to the present. Emphasis on local and regional politics, economic development, international trade, and the complicated roles of ethnic and racial diversity in a city with both an urban, and suburban, history.

***469. Ethnic Groups in Urban America: An Historical Examination (3)**

An examination of the origin, migration, settlement and the assimilation problems of the various ethnic groups in major American cities since the late 19th century. Emphasis will be upon the economic, social, political, and educational problems encountered by different groups attempting to adjust to urban life.

***471. History of the Westward Movement (3)**

Examination of the impact of American expansion on the West: Euro-American exploration and migration, ethnic conflict and conquest, gender and family roles on the frontier, environmental changes in the West, development of economic institutions, and urbanization of the region.

***472. History of the South (3)**

The first half of the course offers a general examination of the Antebellum culture, traditions, and societal crisis. The second half offers an analysis of the modern South (post World War II) from the standpoint of political, economic and social change. Definite emphasis on roles and interactions of racial minority groups and women; insights into solidarity and conflict, and possible resolution of conflict.

***473. California History (3)**

Survey of California from the 1500s to the present. Emphasis on migration, cultural diversity, and significant social, political, and economic developments.

474I. The Urbanization of Modern America (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems and politics.

477A./577A. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform.

477B./577B. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.

***478. Foreign Relations of the U.S. (3)**

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups in the making of foreign policy. Same course as I/ST 478.

***479. U.S. Constitution: Origins and Early Development (3)**

European sources of constitutional thought, colonial background, impact of the American Revolution, the framing period and the rise of a judicial approach to constitutional interpretation under the Marshall and Taney Courts. Emphasis throughout is on the evolution of constitutionalism as a working ideal in American thought and institutions.

***480. Law and Fundamental Rights in American History (3)**

Selected variable topics on civil liberties issues addressing the historical development of constitutional guarantees in the areas of freedom of expression, privacy, church and state, due process, and equal protection.

***481. The Environmental History of Early America: 1500-1860 (3)**

Prerequisites: ENGL 100 and upper division status. This course will explore the economic, social, and cultural developments of early America, from the eve of colonial settlement through 1860, from the perspective of environmental history. It will examine how different groups of people occupying the North American continent - Native Americans, Europeans, Africans (and the descendants of these groups) - defined their relationship with the natural world and how they attempted to manipulate it according to their economic needs and cultural values.

***482. Recent American Environmental History (3)**

This course examines the interaction between humans and the natural world in the United States from the late nineteenth century to the present. It considers such diverse topics as the impact of industrialization and urban growth on the American environment, the emergence of ecological consciousness and green politics, and the creation of the idea of Nature in American culture.

485A. History of Women in the U.S. Early Period (3)

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485A.

485B. History of Women in the U.S. Since 1850 (3)

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485B.

***486. History of Afro-Americans in the United States (3)**

Course offers the students a historical examination of the roots and culture of Afro-Americans from the Colonial era to the present. This upper division course is designed to study the transformation from slavery to freedom; segregation and racial conflict; emigration patterns, societal interactions, and participation of other ethnic groups and women.

***489. Topics in Legal History of the United States (3)**

Case studies in American law from colonial times to the present: English common law heritage, puritan and frontier influences, the legal profession, judicial traditions, formative stages in criminal law, torts and contracts, and modern trends in legal thought. May be repeated to a maximum of 6 units with different topics.

WORLD HISTORY**349. The History of Food (3)**

From the domestication of plants and animals in the Neolithic Revolution to the world-wide cultivation of new crops after 1500, securing reliable sources of sustenance has been central to political, economic, and military agendas. The meanings of food - its multiple roles in both religious rituals and secular festivals, its connection to issues of identity, its contested nature - all serve to underline the usefulness of studying food and human beings' complicated relationships with it throughout history.

***396. Contemporary World History (3)**

A global approach to the study of the twentieth century, with an emphasis on the historical origins of the contemporary world. Key themes include the changing nature of the global economy; the advance and retreat of empires; contending ideologies: liberalism, fascism, communism and nationalism; the role of the United States in world history; colonialism and post-colonialism; and the legacies bequeathed to a new millennium.

435. History of the Francophone World (3)

Commencing with a study of the origins and evolution of the French language, this course explores the methods by which France expanded its global presence and disseminated its culture in constructing the Francophone world. The themes to be covered include the process of French colonial expansion, the relationship between French colonialism and circumstances and events in France, justifications for and resistance to French overseas expansion, the impact of the colonial world on French culture, gender and colonialism, and French conceptions of race and identity.

492./592. Proseminar in World History (3)

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of 6 units.

Graduate Level**501. Theories and Methodologies of History (3)**

The development of history as a discipline, major schools of historical interpretation, and recent developments in analysis and theory. Emphasis will be placed on the interrelationships of history with other disciplines in the social sciences and humanities. Required of all graduate students. Letter grade only (A-F).

505./405. Classical Japan (3)

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

509./409. Early Modern Japan (3)

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

510. The Literature of History (3)

Reading and discussion of major works and intensive study of bibliography and bibliographical aids. Includes a comparative history component. Letter grade only (A-F). May be repeated to a maximum of 6 units in the same semester.

A. Ancient and Medieval**B. Modern European****C. Literature of the Modern Middle East (Southwest Asia)****D. Latin America****F. United States****G. Asia****531./431. The Middle East (Southwest Asia), 600-1700 (3)**

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam, the creation and development of the Islamic Empire, the rise of dynastic successor states and "gunpowder" empires, European encroachment, and integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

532./432. The Middle East (Southwest Asia), 1700-Present (3)

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform, problems and impact of modernity and imperialism in social, political, and economic spheres, state building, nationalism, and Islamic revivalism and will situate the history of the region within its global context.

577A./477A. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform. Letter grade only (A-F).

577B./477B. American Cultural History (3)

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform. Letter grade only (A-F).

590. Topics in Comparative History (3)

Prerequisite: Consent of instructor. Selected themes in history involving cross-cultural and comparative approaches. May be repeated to a maximum of 6 units. Letter grade only (A-F).

592./492. Proseminar in World History (3)

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of 6 units. Letter grade only (A-F).

595. Special Preparation (3)

Prerequisite: Graduate standing; consent of Graduate Advisor. Special preparation for the M.A. examinations under faculty direction. May be repeated to a maximum of 6 units. Letter grade only (A-F).

611. Seminars in Ancient and Medieval History (3)

Prerequisites: Six units of upper division ancient or medieval history or consent of instructor. Selected topics in ancient or medieval history. May be repeated to a maximum of 6 units. Letter grade only (A-F).

631. Seminars in European History (including Britain and Russia) (3)

Prerequisite: Consent of instructor. Directed reading and research in the political, economic, social and cultural history of Europe. May be repeated to a maximum of 6 units. Letter grade only (A-F).

673. Seminars in United States History (3)

Prerequisite: Six units of upper division United States history. Selected topics in domestic or international affairs from colonial times to the present. May be repeated to a maximum of 6 units. Letter grade only (A-F).

682. Seminars in East Asian History (3)

Prerequisites: Six units of upper division Asian history or consent of instructor. Selected topics in East Asian history. May be repeated to a maximum of 6 units. Letter grade only (A-F).

695. Directed Readings (1-3)

Prerequisites: Consent of instructor. Readings on an individual basis. May be repeated to a maximum of 6 units. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of instructor. Research on an individual basis. Letter grade only (A-F).

698. Thesis (1-4)

Planning, preparation and completion of non-curricular work in history for the master's degree.

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The Department offers undergraduate and graduate study in Health Education, and an undergraduate option in Radiation Therapy. For program information, students should contact the department office for referral to one of the faculty advisors: Director of Undergraduate Studies, Director of Radiation Therapy, Director of Graduate Studies or Single Subject Credential Advisor.

All Health Science majors and minors are responsible for requirements specified in the *University Catalog*. Students should meet periodically with either the Director of Undergraduate Studies, the Director of Radiation Therapy, or the Director of Graduate Studies. Faculty advisors will discuss and review the student's academic program, program requirements and monitor academic progress. Students also have responsibility for keeping track of unit totals required for graduation and insuring that these requirements are met.

Program in Health Education

Health education programs help participants enhance health, prevent disease and disability, as well as help improve the well-being of people in organizations, schools, businesses, and communities. The program focuses on environmental influences, which include the cultural and societal context in which health behavior occurs; it also emphasizes processes for developing and changing individual attitudes and behaviors toward health.

The focus of health education is on planned change. Individuals are encouraged to take responsibility for their own health and to assume responsibility for the health of their families and communities.

As our society continues to change, health problems are redefined. Future health advances will not only come from new technology, but also as the result of community, group, and individual actions. These factors will impact education, lifestyle, environment, and the organization and delivery of health services.

Brochures that describe each of the programs are available at the Health Science Department office.

Courses are designed to satisfy Health Science requirements for:

1. general education,
2. the baccalaureate degree major,
3. Single Subject Teaching Credential in Health Science,
4. Master of Science Degree with a Major in Health Science,
5. Master of Public Health Degree in Community Health Education.
6. Master of Science in Nursing/Master in Public Health

Bachelor of Science in Health Science

The basic University requirements for graduation with a B.S. Degree in Health Science consist of:

1. completion of general education requirements,
2. completion of all courses identified on the Program Planner for the Option selected, with no grade lower than a "C" for each listed course or approved substitute,
3. completion of a minimum of 124 units, at least 40 units of which must be upper division. Upper division courses are numbered 300 to 499.

Major Core Requirements

All Health Science majors must complete the required core. The core of the Health Science program contains five areas of competence: Statistics, Program Development, Professionalism, Health Services Organization and Health Promotion. All majors must complete at least one course from each competency area. Courses must be selected in consultation with an advisor.

Option in Radiation Therapy (code HSC_BS01) (135 units)

Admission Under Impaction

The number of applicants to the Radiation Therapy Option exceeds the number that can be accepted. For this reason, the Radiation Therapy Option has been designated as impacted by the California State University. Applicants are subject to supplemental criteria in addition to the requirements for admission to the University. Admission is on a competitive basis and is determined on the basis of meeting all of the following supplemental criteria.

1. Completion of a minimum of 56 semester units of college-level coursework, including all 12 units in the General Education foundation and at least 18 additional units of General Education courses.
2. Complete the following prerequisite courses with a grade of "C" or better: BIOL 200, 207, 208; ENGL 102; MATH 119A; MICR 101; PHYS 100A, 100B.
3. Complete a minimum 40 hour observation in a Radiation Therapy Department and completion of the observation packet.
4. Submit an Option Application to include:
 - A. Three letters of recommendation (at least one from the radiation therapists at the observation site, the other two from employers and/or instructors)
 - B. Written personal statement
 - C. Academic and work history
5. Complete an interview with the Radiation Therapy Career Advisement Committee
6. Document transportation availability for travel to clinical sites for internship.

To apply to the Radiation Therapy Option, students must meet all of the requirements listed above.

Admission Under Impaction for Continuing Students

Students who indicate a Radiation Therapy Option major when they enter as freshmen will be assigned a pre-Radiation Therapy major code. Acceptance into the pre-major by the university does not imply or assure subsequent acceptance into the Option by the Department. Students who are not accepted into the Option cannot continue as pre-Radiation Therapy majors.

Prior to admission to the Radiation Therapy Option, continuing students must

1. Complete all of the basic criteria listed above
2. Complete HSC 200 Orientation to Radiation Therapy with a grade of "C" or better.
3. Submit Option Application by February 1.

Admission Under Impaction for Transfer Students

Students must be eligible for admission to the university as transfer students and must apply for admission to the university no later than November 30 for admission the following fall. Students who are not admitted to the Option will not be admitted to the university unless they have listed a second choice of major on the application form.

Prior to admission to the Radiation Therapy Option, transfer students must:

1. Complete all of the basic criteria listed above
2. Schedule an appointment with the Radiation Therapy Program Director or Clinical Coordinator
3. Attend a group Radiation Therapy Orientation session
4. Submit by February 1 the Option application

The Radiation Therapy Option is designed for individuals who wish to pursue a professional preparation program leading to membership in the health care team using ionizing radiation in the treatment of malignant and some benign diseases. The Option is competency-based and integrates didactic courses and clinical experience to prepare entry level radiation therapists to become integral partners in the health care team and contributing members of the profession. On a daily basis, the registered radiation therapist is involved in:

1. Operation of sophisticated radiotherapeutic equipment to deliver prescribed doses of ionizing radiation for the treatment of malignant and some benign diseases.
2. Providing psychological and emotional support to patients who are dealing with the stress of their illness.
3. Providing education to the patient and their family about their disease and all aspects of treatment.
4. Observing patient progress and recognizing medical problems that require a physician's attention.
5. Constructing devices to aid in treatment positioning, beam modification, and treatment planning.
6. Calculation of doses and use of treatment planning computers to determine dose distributions.

Successful completion of the Option requirements allows the student eligibility to apply for licensure examinations at the state and national levels to practice as a registered radiation therapist.

This program is accredited by the Joint Review Committee on Education in Radiologic Technology (JRCERT, 20 N. Wacker Drive, Suite 900, Chicago, IL 60606-2901, phone 312-704-5300) and the State of California, Department of Health Services, Radiologic Health Branch.

Required Radiation Therapy Option Courses

Students will take the following courses in sequence: HSC 150, 320, 310, 340, 341, 315, 492A (5 units), 492A summer (2 units), 470A, 445A, 330, 311, 403, 470B, 445B, 342, 415, 435, 492B summer (2 units), 492B (5 units), 316, 451, 455, 475, 475L, 480 and 465.

All Radiation Therapy courses must be completed with a grade of "C" or better. If a student earns a lower grade, the student must repeat the course and earn an acceptable grade before advancing to the next level of courses.

FOUR YEAR PLAN TO COMPLETE THE BS IN HEALTH SCIENCE, OPTION IN RADIATION THERAPY (HSC_BS01)

133 Units Required Department of Health Science

*Students are admitted to the major in fall semester only, and then must attend full time.

**To complete the program in four years, students must take courses in the summers before the first and second year.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Option in Community Health Education (code HSC_BS02) (120 units)

The Community Health Education option is designed for persons whose occupational objective is to serve as a community health educator with an official, voluntary, or corporate health agency.

Lower Division: BIOL 200, 205, and either CHEM 100 or 111A; MICR 101; an additional anatomy and physiology, BIOL or MICR course approved by department advisor; Spanish (3 units) or language approved by Department Advisor.

Upper Division: H SC 301, 400, 401, 402, 403, 405, 421, 430, 435, 440, 485; Three courses selected from the following: H SC 420I, 422, 423, 425I, 427, 429, 490, 499; one course selected from the following: FCS 132 or 430; one course selected from the following: PSY 351 or SOC 335I; one course selected from the following: SOC 320, 336, 462, 464; and one course selected from the following: COMM 334, 335.

Option in School Health Education (code HSC_BS03) (120 units)

The School Health Option is designed for persons who desire to pursue a professional preparation program leading to a teaching credential as a health science teacher in California middle/high schools. The Program is approved by the California Commission on Teacher Credentialing.

A teaching credential requires completion of the School Health Option or a passing score on the SSAT, a BS/BA degree, GPA of 2.75 on the last 60 semester units and additional courses in the College of Education and Single Subject Teacher Education Program. After a student has completed 80% of the required lower division, upper division and subject matter courses, enroll in EDSS 300D: Introduction to Teaching Health Science, the prerequisite to begin the Single Subject Credential sequence.

Lower Division: BIOL 200, 205; MICR 101; CHEM 100 or 111A, approved anatomy and physiology, BIOL or MICR course. PSY 100, Spanish (3 unit minimum) or language equivalent approved by HSC department advisor.

Upper Division: COMM 335 or approved upper division COMM course, EDP 302 or HDEV 307 or PSY 361, ETEC 444, FCS 132 or 430. Select one course from: ANTH 329, FCS 319, HSC 420I, PSY 378, SOC 320, 423.

Subject Matter Courses: HSC 210, 301, 401, 403, 421, 422, 423, 425I, 427, 430, 435, 440

**Option in Health Care (code HSC_BS04)
(120 units)**

The Option in Health Care is designed for those individuals who have received certification and/or license from an approved allied health/health care program and desire a Bachelor of Science degree. The focus of this option is the development of professional skills for people whose goal is: (a) providing service, or (b) instructing in the health care setting.

Admission Requirements

Once admitted to the University, students are required to complete the following prior to acceptance into the Health Care Option.

1. Obtain certification and/or license from an allied health/health care program from an institution that has been accredited by either a Committee on Post-secondary Accreditation (COPA) approved accreditation agency or the Committee on Allied health Education and Accreditation (CAHEA). Those individuals who do not have appropriate certification will be counseled by the Department of Health Science regarding where to obtain an appropriate accredited program, and, when possible, concurrent enrollment may be utilized;
2. Earn a minimum GPA of 2.0.

Lower Division: Completion of general education requirements to include: ENGL 100; one of the following: ANTH 120, SOC 100 or PSY 100; and minimum of 12 units in Natural Sciences, approved by department advisor equivalent to: BIOL 200, 205, MICR 101 and an additional anatomy and physiology, BIOL or MICR course approved by faculty advisor; either CHEM 100 or 111A, .

Upper Division: (39 units): Required Core: 15 units (three units from each area); courses must be selected in consultation with an option advisor:

- A. Statistics: H SC 403 or ED P 419;
- B. Program Development: H SC 430 and H CA 320, or H SC 455 and 316;
- C. Professionalism: H SC 451 or HCA 340;
- D. Health Organization: H SC 401 or 420I;
- E. Health Promotion: H SC 435 or HCA 402;

Additional Coursework

H SC 400 and one of the following: HDEV 320 or H SC 405; one of the following: ANTH 353, FCS 430, H SC 424, or SOC 462; one of the following: POSC 329, or ECON 300;

An emphasis in either:

- A. *Providing Services* (12 units): HCA 410, 465; one of the following: ED P 434B, H SC 421 or 492A/B and one of the following: ANTH 319, GERN 400I, 482, or NRSRG 482; or
- B. *Instructing in the Health Care Setting* (12 units): HCA 410, 465 and one of the following: H SC 492A/B (3 units), or ED P 432; and one of the following ED P 305, 434B or HSC 421.

Twenty-four units as follows: H SC 301, 401, 430, 435, 440, and three courses from: H SC 400, 420I, 421, 422, 423, 425I, 427.

**Single Subject Credential in Health Science
Education (code 130)**

The Single Subject Teaching Credential in Health Science prepares one to teach health science in California middle/high schools. Requirements include: a) Bachelor of Science Degree in Health Science with a completion of the school health option from a program approved by the California Commission on Teacher Credentialing or BS/BA and a passing score on the SSAT in Health Science b) GPA of 2.75 on the last 60 semester units c) Professional education courses beyond the B.S. which begin with EDSS 300D: Introduction to Teaching Health Science d) student teaching in health science. See the Health Science Single Subject Advisor.

For additional information about teaching in California middle/high schools, see the Single Subject Teacher Education Program.

Graduate Program in Health Education

Accredited by the Council on Education for Public Health (Council on Education for Public Health, 1015 Fifteenth Street, NW, Washington, DC 20005, phone: 202-789-1050).

In order to be admitted to the graduate program for study toward a degree, a prospective candidate must apply both to this department and the University. Contact the Director of Graduate Studies for current requirements.

**Master of Science in Health Science
(code HSC_MS01)**

The Master of Science program is designed to provide students with:

1. intensive study of health education concepts, theories, and processes;
2. introduction to public health concepts and issues;
3. research methodology appropriate to the in-depth examination a health topic.

The graduate student is also prepared for a leadership role in a school or community setting and for admission to doctoral programs at other colleges and universities. Admitted graduate students must contact the Director of Graduate Studies for advisement early in their first semester of enrollment in order to develop an approved program of study.

Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request a copy of official transcript(s) of all work be sent to the Graduate Director in the Health Science Department in addition to the transcripts required by the Office of Enrollment Services.
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to that required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.
3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of approved graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of the analytic, quantitative and verbal scores from the Graduate Record Examination (GRE) and a copy of the CSU graduate application to the Department.
7. Three letters of recommendation from persons with whom the candidate has worked and who have direct knowledge of the applicant's qualifications and potential as a community health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant work experience.

Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy:
 - A. pass the Writing Proficiency Exam;
 - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
 - C. complete H SC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and the Associate Dean of Academic Programs of the College of Health and Human Services.

Requirements for Completion of the Master of Science

1. A minimum of 43 units of approved upper division and graduate courses including:
 - A. 21 units of Health Science courses, which include HCA 502, H SC 500, 503, 570, 581, 696;
 - B. 18 units of electives in a specialty field;
 - C. 4 units of H SC 698;
2. A thesis with an oral exam.

Master of Public Health

Option in Community Health Education (code HSC_MH01)

The Master of Public Health in Community Health provides an opportunity for students to specialize in community health education and health promotion within the general context of Public Health, to increase competence in designing, implementing, and evaluating social behavior changes in program planning in preparation for serving in various health agencies, prepare for teaching at college and university levels and for administrative positions in public and private health agencies.

Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request that a copy of official transcript(s) of all work be sent to the Director of Graduate Studies (in addition to the copies required by the Office of Enrollment Services).
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to those required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.
3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.

6. Submission of a copy of the CSU graduate application and quantitative and verbal scores from the Graduate Record Examination (GRE) to the Department.
7. Three letters of recommendation from persons with whom the applicant has worked who have direct knowledge of the applicant's professional and academic potential as a health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant experience.
9. At least one year's full-time (or equivalent) paid or volunteer experience in Health Education or a closely related health field. Preference will be given to those with greater experience and ability.

Advancement to Candidacy

1. Satisfy the general university requirements for advancement to candidacy:
 - A. pass the Writing Proficiency Examination;
 - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
 - C. complete H SC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and Associate Dean for Academic Programs of the College of Health and Human Services.

Requirements

1. A minimum of 42 units of approved upper division and graduate-level courses including:
 - A. core: HCA 502, H SC 500 -or- MICR 429, H SC 503 -or- BIOL 565 (4), 508, 528, 570, 581, 624, 625, 626, 696;
 - B. Electives at the 500/600 level;
 - C. H SC 585, a supervised internship experience (6 units)
2. A comprehensive written examination (see Department for guidelines).

Master of Science in Nursing/Master of Public Health (code NRSGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus on primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to specialize in advanced practice public health nursing within the general context of the Masters of Public Health, to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies. The focal point in this curriculum is the Nursing Process, Epidemiological Process Model, and Population Based Theory complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of advanced practice public health nursing.

Each applicant should request a copy of official transcript of all college course work be sent to the Department Graduate Advisor of Nursing in addition to the copies required by the Office of Admissions and Records.

Admission Requirements

1. Bachelors degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (HSC 403 or Ed. Stat 419) and an ethics course (HSC 451).
5. Public Health Nurse Certificate, or eligibility for certificate in California.
6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications.
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences, which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

Advancement to Candidacy

A joint committee, consisting of Nursing and Health Science faculty involved in the program, will review files and make determination to advance a candidate to graduate status.

Student Criteria for Advancement

1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Science.
 - A. pass Writing Proficiency Examination
 - B. have at least a 3.0 grade point average for all course work attempted as a graduate student
2. Joint approval by the Department of Nursing and Health Science, and the Associate Dean for Academic Programs of the College of Health and Human Services.

Requirements

1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRSRG 660B, 680A, 680B, 680C; NRSRG 680AL, 680BL, 680CL or HSC 626 (in lieu of one 3 unit 680L); NURS 696 or HSC 696; NRSRG 695 or HSC 697 or NURS 698
2. An overall GPA of 3.0 or better in all courses
3. Comprehensive written examination or directed project or a thesis
4. Graduate degrees obtained previously will be accepted toward meeting the unit requirements of the concurrent MSN/MPH degree program
5. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met
6. Transfer units will not be accepted toward the concurrent MSN/MPH program.

Courses (H SC)

Lower Division

150. Medical Terminology (1)

Development of a medical vocabulary emphasizing the building of terms utilizing prefixes, combining forms and suffixes. Includes symptomatic, therapeutic, diagnostic and operative terms for application in the interpretation of medical records as needed in Radiation Therapy. (Lecture-discussion 1 hour.) Letter grade only (A-F).

200. Orientation to Radiation Therapy (3)

Orientation to the Option in Radiation Therapy, professional organizations, career opportunities, department structure, patient management, record keeping, and professional ethics. An overview of the role of radiation therapy in the treatment of cancer and the Radiation Therapist in the field of Radiology. 40 hours of clinical fieldwork required. Letter grade only (A-F).

210. Contemporary Health Problems (3)

Prerequisite: Completion of the 13 unit GE foundation requirements. Development of modern health knowledge, attitudes and behavior: includes family life-sex education, drug use and abuse, mental health, medical quackery and health frauds, common diseases such as sexually transmitted diseases, heart disease and cancer.

Upper Division

301. Orientation to Health Science (3)

Overview of the philosophy of the Health Science Dept. Orientation to the degree requirements, career opportunities, and the theoretical and practical issues of health education as a profession. Must be taken prior to H SC 401 and 430.

310. Radiation Therapy Patient Care I (2)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. This course focuses on the role of the radiation therapist, communication, self care, basic patient care, patient assessments and examinations. Emphasis is on infection control, medical emergencies, care of patients with tubes, basic pharmacology and medication administration. Letter grade only (A-F).

311. Radiation Therapy Patient Care II (2)

Prerequisites: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor, HSC 310. Continuing study of patient care in radiation therapy. This course focuses on the psychosocial aspects of cancer diagnosis, death and dying, patient education and intervention for treatment related sequelae. Includes an examination of local, state and national cancer resources. Letter grade only (A-F).

315. Seminar in Radiation Therapy I (2)

Prerequisites: Concurrent enrollment in HSC 492A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to the clinical radiation therapy arena which includes: patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available. Letter grade only (A-F). (Lecture discussion, 2 hrs)

316. Seminar in Radiation Therapy II (2)

Prerequisites: Concurrent enrollment in HSC 492B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Comprehensive analysis of case studies in the clinical setting. This will include a thorough review of a patient's history and treatment rationale. Letter grade only (A-F). (Lecture discussion, 2 hours)

320. Radiologic Techniques and Imaging Modalities (3)

Prerequisites: Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to radiographic procedures, equipment, technique development, equipment maintenance as well as darkroom equipment, operation and film processing. An examination of the various modalities of radiologic diagnostic imaging. (Lecture-discussion 2 hrs, Lab 1 hr.) Letter grade only (A-F).

330. Topographic Anatomy (2)

Prerequisites: BIOL 207, 208, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examination of external anatomic landmarks in relation to internal anatomy with emphasis on the effects of positioning on external landmarks, internal anatomic critical structures, and methods of avoiding or lowering radiation dose to these structures. Interpretation of port films and other diagnostic films is included. (Lecture-discussion 2 hr). Letter grade only (A-F).

340. Clinical Radiation Therapy (3)

Prerequisites: H SC 200, 320, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Rationale of radiation therapy treatments; construction of immobilization devices, contours, bolus, and positioning aids. Examination of simulation procedures, contrast media, film, treatment positioning, beam modifiers, patient monitoring, and radiotherapeutic machine operation. (Lec-discussion 2 hrs, Lab 2 hrs.) Letter grade only (A-F).

341. Clinical Radiation Therapy II (1)

Prerequisites: HSC 340, concurrent enrollment in HSC 445A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the skin, head and neck, lung, esophagus, breast, gastrointestinal, kidney and bladder. Letter grade only (A-F). (Lecture discussion, 1 hour)

342. Clinical Radiation Therapy III (1)

Prerequisites: Concurrent enrollment in HSC 445B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the reproductive system, central nervous system, eye, endocrine and major digestive glands, bone, soft tissues, blood, lymphatics and pediatric solid tumors. Letter grade only (A-F). (Lecture discussion, 1 hour)

400./500. Principles of Epidemiology (3)

Prerequisites: H SC 301 and 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. (Lecture 3 hours)

*401. Community Health Education (3)

Prerequisite: H SC 301 and H SC 430. Concepts of community health education with emphasis on community organization; application of these concepts to health education activities of official, voluntary and professional health agencies.

*402. Applied Concepts of Community Health Education (3)

Prerequisites: H SC 301, 430, 435. Identification and application of concepts unique to community health education; includes examination of theoretical foundations, marketing and promotion techniques, and application of health education strategies.

*403. Community Health Statistics (3)

Prerequisites: G.E. math and SOC 250 or PSY 110 or equivalent. Representative topics are descriptive statistics, sample designs, central tendency, and variability. Statistical tools for inferential analyses include hypothesis testing, statistical power, and parameter estimation. An introduction to bivariate analyses is provided. (Lecture 2 hours, Laboratory 2 hours)

405. Health Education Program Evaluation and Measurement (3)

Prerequisite: H SC 403 or equivalent. Design, use of standardized measurements, data collection, analysis, and reporting are used to develop evaluation skills to facilitate program management. Impact of activities aimed at producing behavior change in communities, organizations, groups and individuals will be examined. (Discussion 3 hrs)

411A. Health Science for Elementary Teachers (3)

Prerequisite: Upper-division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in elementary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

411B. Health Science for Secondary Teachers (3)

Prerequisite: Upper division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in secondary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

415. Radiation Biology (2)

Prerequisites: BIOL 207, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. An examination of: the effects of radiation at the cellular, tissue and organ levels; the cell survival curve, Linear Energy Transfer, (LET), Radiobiological Effectiveness, (RBE), radiation sensitizers and protectors; the effects of whole body acute radiation as well as the developing embryo; the radiobiological basis for radiation therapy treatments and fractionation. (Lecture-discussion 2 hours) Letter grade only (A-F).

420I. International Health (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Analysis of current health problems in the world; examination of contributing social, psychological, physical, legal and cultural factors; international programs for the improvement of world health; structure and functions of world health agencies and organizations.

421. Health Behavior (3)

A survey of contemporary research on the health effects of human behavior. Special emphasis is given to current issues of health behavior, decision-making in contemporary society, values clarification and contemporary theories of behavior change (e.g., health belief model).

422. Environmental Health (3)

An examination of the reciprocal relationship existing between man and his environment, with the emphasis directed toward the health related consequences of man's actions in the environment.

423. Consumer Health (3)

Effective selection of health information, products and services; medical quackery and fraudulent health practices; laws and agencies protecting the consumer; health care delivery systems; and influences of corporate control on the consumer movement in contemporary society.

424./524. Alternate/Complementary Health (3)

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. (Lecture/demonstration/discussion 3 hours).

425I. Human Sexuality and Sex Education (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Recommended: PSY 100. Biomedical, sociological, and psychological aspects of human sexuality, the communication of sexual information, the implementation, content and evaluation of family life and sex education in the schools.

427. Drugs and Health (3)

Prerequisite: Upper division standing. Study of psychoactive drugs with primary attention to alcohol, nicotine, caffeine, cannabis, hallucinogens, narcotics and other drugs; examination of trends, philosophical issues and behavioral practices associated with drug use and dependence. Includes physiological psychosocial, legal, historical, philosophical and political aspects; treatment-rehabilitation activities and programs; and drug abuse prevention education. Not open to students with credit in H SC 327.

429. Stress Reduction (3)

Recognition of stress and its causes. Physical and mental symptoms of stress. Influences which reduce or create stress; methods of coping.

*430. School Health Program (3)

Prerequisite: H SC 301. Intensive analysis of the philosophy, organization and legal aspects of the school health program. Includes school and community coordination for a team approach to health education for the school age individual.

435./535. Health Promotion and Risk Reduction (3)

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. (Discussion 3 hours)

*440. Applied Concepts of Health Science (4)

Prerequisite: H SC 430. Identification and application of the concepts and modes of inquiry unique to the discipline of health science; development of appropriate curriculum based upon an analysis of individual, school and community needs and interests. (Lecture 3 hours; laboratory 3 hours)

445A. Oncologic Pathology I (3)

Prerequisites: BIOL 207, 208, H SC 150, Admission to Radiation Therapy Professional Preparation or consent of instructor. Examination of oncologic pathology with emphasis on malignant neoplasia; specific attention is given to epidemiology, etiology, detection, diagnosis, staging, histopathology, metastatic pattern, treatment options and principles of radiation therapy treatments. Examines cancers of the head and neck, lung, breast, gastrointestinal tract, kidney, and bladder. (Lecture-discussion 3 hours) Letter grade only (A-F).

445B. Oncologic Pathology II (3)

Prerequisites: H SC 445A, Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Continuation of 445A with specific attention given to cancers of the reproductive system, central nervous system, eye, skin, endocrine and major digestive glands, bone, soft tissue, blood, lymphatic system and pediatric solid tumors. (Lecture-discussion 3 hours) Letter grade only (A-F).

*450. The Health Care Professional in the United States (3)

Identification of the role and function of the health care professional; legal aspects of health care delivery; factors influencing the quality of health care, problems from consumers' viewpoints; cultural influences; governmental involvement and current issues in health care; examination of health care in the United States.

*451. Ethics Professionalism in Health Care (3)

Examination of professionalism and bioethics, and the process of making moral decisions; ethical issues; professional oaths and codes of ethics; health care ethics and the law.

455. Quality Management in Radiation Therapy (1)

Prerequisites: HSC 470B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. A review of the principles of quality management with an emphasis on specific quality assurance tests in radiation therapy. Students will be given the opportunity to either perform or observe a demonstration of each quality assurance test. Letter grade only (A-F).

*460. Health Care Program Development (3)

Examination of the process of health care, program development, identification of contemporary health care philosophy, needs, legal aspects, objectives and community involvement as related to program development; process of conducting a needs assessment; factors affecting development; regionalization; grantsmanship.

465. Radiation Therapy in the Health Care Industry (3)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of the health care market with emphasis on current radiation therapy trends in the health care environment. This class will focus on various radiation therapy operational and budgetary issues, hospital and governmental accreditation, types of insurance and reimbursements. Letter grade only (A-F). (Lecture discussion, 3 hours)

470A. Clinical Radiation Physics I (3)

Prerequisites: PHYS 100A,B; admission to Radiation Therapy Option Professional Preparation or consent of instructor. Nature and description of the structure of matter and energy; interactions of photons and gamma radiation; instrumentation and measurement of ionizing radiation, beam quality, and dose; percentage depth dose, tissue air ratios, treatment dose calculations. (Lecture-discussion 2 hours, Laboratory 2 hours) Letter grade only (A-F).

470B. Clinical Radiation Physics II (3)

Prerequisites: H SC 470A, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. A continuation of H SC 470A with emphasis on electron beam characteristics and use in radiation therapy, brachytherapy, radioactive sources, implantation methods and dosimetry. An overview of hyperthermia, particle radiation and radiation protection. (Lecture-discussion 2 hours, Laboratory 2 hours) Letter grade only (A-F).

475. Treatment Planning – Dosimetry (2)

Prerequisites: H SC 470A,B, Concurrent enrollment in H SC 475L, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examines the effects of treatment distance, field weighting, beam modifiers, irregular fields, tissue inhomogeneities and tissue compensation on dose. Dose calculations for external photon and electron beams. (Lecture-discussion 2 hours) Letter grade only (A-F).

475L. Treatment Planning – Dosimetry Laboratory (1)

Prerequisites: Concurrent enrollment in H SC 475, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Practical experience with clinical situations in regards to calculation of treatment time/monitor units, gapping, irregular fields, rotational and arc treatments. Use of isodose curves for hand dose summations and treatment planning computer for complex field arrangements. (Laboratory 3 hours) Letter grade only (A-F).

480. Advanced Radiation Therapy (2)

Prerequisites: Must be in final semester of Radiation Therapy Option Professional Preparation. Synthesis of previous didactic and clinical information; an in depth examination of current and future professional issues, technological advances and ethics; a look at professional preparation, organizations and continuing education. (Lecture-discussion 2 hours) Letter grade only (A-F).

*485. Internship in Health Education (3)

Prerequisites: H SC 401 and consent of instructor. Supervised observation and field experience in community health education as conducted by official, voluntary and professional health organizations.

490. Independent Studies in Health Science (1-3)

Prerequisite: Consent of instructor. Students will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units.

492A. Internship in Health Care (1-7)

Prerequisite: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Letter grade only (A-F).

492B. Internship in Health Care (1-9)

Prerequisites: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Letter grade only (A-F).

*499. Special Studies (1-3)

Group investigation of selected topics. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

Graduate Level

500./400. Principles of Epidemiology (3)

Prerequisites: H SC 301 and H SC 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. Letter grade only (A-F). (Lecture 3 hours.)

503. Advanced Community Health Statistics (3)

Prerequisite H SC 403 or equivalent. Analysis and interpretation of quantitative health education/public health data. Topics include expanded discussion of parametric techniques (e.g., hypothesis testing, confidence interval estimation, power functions, small sample sizes). Other topics include multivariate analyses, non-parametric tests, regression analysis. Use of computers required. Letter grade only (A-F). (Discussion, 3 hours)

508. Administrative Relationships in Health Education Programs (3)

Prerequisite: Undergraduate major in Health Science or related field. Introduction to administrative theory; investigation of administrative responsibilities and functions implicit in school health or other health education programs. Letter grade only (A-F).

516. Health Promotion in Organizational Settings (3)

Prerequisite: H SC 570. Exploration of health promotion programs in worksite settings, health services, business and industry. Assessment of the organizational climate for health promotion and principles for maintaining program viability and vitality. Strategies for developing and conducting health promotion programs in these settings. Letter grade only (A-F). (Discussion, 3 hours)

524./424. Alternate/Complementary Health (3)

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. Letter grade only (A-F). (Lecture/demonstration/discussion 3 hours).

528. Advanced Environmental Health (3)

Prerequisite: H SC 422 or consent of instructor. Organization and methods for promoting human health by controlling environmental factors. Letter grade only (A-F).

535./435. Health Promotion and Risk Reduction (3)

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. Letter grade only (A-F). (Discussion 3 hours)

570. Theoretical Concepts and Issues in Health Science (3)

Identification and analysis of current trends, philosophies and issues in health science. Letter grade only (A-F).

581. Curriculum Development in Health Education (3)

Prerequisites: H SC 430, 440. Principles of curriculum development; selection and evaluation of resource materials; theory and practice in measurement in health education. Letter grade only (A-F).

585. Health Education Internship (1-6)

Prerequisite: Consent of the instructor. Extended applied experience under guidance of faculty and preceptors in an approved health education practice setting. Letter grade only (A-F). (480 hours of field placement or the equivalent experience.)

590. Independent Study (1-3)

Independent research conducted under the supervision of a full-time faculty member resulting in a written report of the investigation. Letter grade only (A-F). May be repeated to a maximum of 6 units with different topics.

624. Seminar in Community Analysis and Program Planning (3)

Prerequisites: H SC 625 or consent of instructor. Process and techniques of community analysis and program planning. Letter grade only (A-F).

625. Advanced Community Health Education (3)

Prerequisites: H SC 401 and 485; or consent of instructor. Advanced study of educational and related theory applicable to the conduct of health education programs in community and other settings. Methods of promoting change; role as program and staff director and evaluation techniques. Letter grade only (A-F).

626. Integrative Seminar in Public Health (3)

Prerequisites: H SC 570, advancement to candidacy. Summative critical analysis of current methodologies, research, and practices in public health and health education in particular. Synthesis of coursework, internship, and other relevant experiences in the graduate program. Letter grade only (A-F).

696. Research Methods (3)

Prerequisites: Undergraduate major in Health Science or related field; undergraduate course in statistics. Introduction to research methodology in the area of Health Science. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisite: Advancement to candidacy. Independent investigation of research problems in health education. Letter grade only (A-F).

698. Thesis (1-3)

Prerequisites: H SC 696, advancement to candidacy. Planning, preparation and completion of an approved thesis.

INTERDISCIPLINARY STUDIES

University Academic Programs

View the CSULB *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

University Academic Programs is the administrative designation for a group of University-wide academic programs that are interdisciplinary in nature. The Interdisciplinary Studies program offers students the opportunity to develop individualized cross-disciplinary majors utilizing courses from appropriate departments at California State University, Long Beach. Each student, with the help of department faculty advisors, must select courses and focus his/her major on the basis of a unifying issue, theme or topic called an area of concentration. The area of concentration must meet three criteria to be acceptable:

- First, the area of concentration must be interdisciplinary. This means the area of concentration must integrate and focus approaches and knowledge from at least two fields or disciplines. The principle of integration can be historical, regional, thematic or problem-focused.
- Second, the area of concentration must not replicate any existing major. The purpose of the Interdisciplinary Studies major is to create an individualized curriculum where no structure or formal program exists.
- Third, the area of concentration must be feasible. Each student's proposed program must be discussed with faculty advisors to ensure that the range and number of courses required will be available.

The student's role in the selection of the area of concentration is active not passive. The student must actively plan his/her program and cultivate relationships with assigned or chosen faculty. Furthermore, the student has the initial responsibility in shaping his/her program, with the guidance of the department advisors.

Bachelor of Arts in Interdisciplinary Studies (code IDSCBA01) (120 units)

The Interdisciplinary Studies major for the Bachelor of Arts degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). Acceptance into the ISP program is a privilege and not a right of CSULB students. Interdisciplinary Studies consist of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs nor to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an interdisciplinary Studies Program when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements;
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval; and
3. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.
4. An Interdisciplinary Studies program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, the potential application of the resulting degree, and the ability of the University to support the proposed program. It is the student's responsibility to provide a clear written statement of the goals for his or her program of study, and the reasons these goals cannot be accomplished using an existing major, or combination of major and other available programs, and or concentrations of course work.

Procedures

1. To prepare for the initial interview:
 - A. Review the CSULB Catalog Interdisciplinary Studies Program requirements.

- B. Meet with the ISP Director and consider your reasons for deciding on an Interdisciplinary Studies Program major; including why a traditional major, double major, major and a minor, or other conventional educational pathway will not suffice. Discuss with the ISP Director what Disciplines/Departments you are interested in combining, and explain how this combination will:
- 1) Enhance your goals and objectives during your college education;
 - 2) Impact your career goals and objectives;
 - 3) Provide you with an opportunity to obtain skills and knowledge not otherwise available at CSULB through conventional programs and degree options.
2. Meet with the Department's Undergraduate Advisor, or in the absence of a Department Undergraduate advisor meet with the department chair from each prospective department to be included in the ISP special major. With the guidance of these individuals, create a tentative program of study, subject to the Director of ISP's approval.
 3. Draft a program of study with the assistance of the undergraduate advisors and/or chairs of the various departments you wish to combine. Arrange a meeting with the Department Undergraduate Advisor and the Department Chair of each of the departments you will be including in your program of study. With their guidance develop a list of courses (a program of study) that will constitute your special studies degree program. Once approved and signed by both the Department Undergraduate Advisors and Department Chairpersons, any subsequent change in this program of study will require the approval of the Department Undergraduate Advisors and the Director of ISP. Changes must be made using the official Program Addendum forms.
 4. Draft a three-to-four page proposal essay outlining the program of study you have created. State what you foresee will be the length of time you will need to complete your degree. Explain why no existing degree will assist you in terms of achieving your intended goals or propelling your future career.
 5. Return your program of study with all signatures to the Interdisciplinary Studies Director, along with your typed interdisciplinary studies proposal. Completed programs must be approved by the Interdisciplinary Studies Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major. Thus, in the event you are not accepted into the Interdisciplinary Studies program, you will not have impeded your academic progress.

Requirements

1. An interdisciplinary studies major consists of a maximum of four lower-division courses (100-200) and a minimum of 28 units of upper-division courses (300-400) totaling a minimum of 40 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A proposal must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (1) taken to satisfy General Education requirements may be double-counted to meet Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students may need more than four lower-division courses to prepare for the upper-division courses in their major. However, no more than four of these lower-division courses will be counted in the official program.
6. Students must maintain a 2.0 or better GPA in their program course work in order to remain in the major.
7. Each Program course and prerequisite course must be completed with a grade of 'C' or better.

Bachelor of Science in Interdisciplinary Studies (code IDSCBS01) (124 units)

The Interdisciplinary Studies major for the bachelor of science degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). Acceptance into the ISP program is a privilege and not a right of CSULB students. Interdisciplinary Studies consists of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program major is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs or to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an Interdisciplinary Studies Program major when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements.
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval.
3. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.
4. The GPA in the current major is 2.0 or better. A higher grade-point average may be required if the major department in the Interdisciplinary Studies program of study is impacted or requires a higher GPA for transfer students.

5. An Interdisciplinary Studies program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, the potential application of the resulting degree, and the ability of the University to support the proposed program. It is the student's responsibility to provide a clear written statement of the goals for his or her program of study, and the reasons these goals cannot be accomplished using an existing major, or combination of major and other available programs, and or concentrations of course work.

Procedures

1. To prepare for the initial interview:
 - A. Review the CSULB *Catalog* Interdisciplinary Studies Program requirements.
 - B. Meet with the ISP Director and discuss your reasons for deciding on an Interdisciplinary Studies Program major; including why a traditional major double major, major and a minor, or other conventional educational pathway will not suffice. Discuss with the ISP Director what Disciplines/Departments you are interested in combining, and explain how his combination will:
 - 1) Enhance goals and objectives during your college education;
 - 2) Impact your career goals and objectives;
 - 3) Provide you with an opportunity to obtain skills and knowledge not otherwise available at CSULB through conventional programs and degree options.
2. Meet with the Department's Undergraduate Advisor, or in the absence of a Department Undergraduate Advisor meet with the department chair from each prospective department to be included in the ISP special major. With the guidance of these individuals, create a tentative program of study, subject to the Director of ISP's approval.
3. Draft a program of study with the assistance of the department Undergraduate Advisors and/or chairs of the various departments you wish to combine. Arrange a meeting with the Department Undergraduate Advisor and the Department Chair of each of the departments you will be including in your program of study. With their guidance develop a list of courses (a program of study) that will constitute your special studies degree program. Once approved and signed by both the Department Undergraduate Advisors and Department Chairpersons, any subsequent change in this program of study will require the approval of the Department Undergraduate Advisors and the Director of ISP. Changes must be made using the official Program Addendum forms.
4. Draft a three-to-four page proposal essay outlining the program of study you have created. State what you foresee will be the length of time you will need to complete your degree. Explain why no existing degree will assist you in terms of achieving your intended goals or propelling your future career.

5. Return your program of study with all signatures to the Interdisciplinary Studies Director, along with your typed interdisciplinary studies proposal. Completed programs must be approved by the Interdisciplinary Studies Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major. Thus, in the event you are not accepted into the Interdisciplinary Studies program, you will not have impeded your academic progress.

Requirements

1. An Interdisciplinary Studies Program consists of a maximum of four lower-division courses (100-200) and a minimum of 36 units of upper-division courses (300-400) totaling a minimum of 48 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A rationale must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (1) taken to satisfy General Education requirements may be double-counted to meet Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students may need more than four lower division courses to prepare for the upper division courses in their major. However, no more than four of these lower division courses will be counted in the official program.
6. Students must maintain a 2.0 or better GPA in their program course work in order to remain in the major.
7. Each Program course and prerequisite course must be completed with a grade of 'C' or better.

Master of Arts (code IDSCMA01) and Master of Science (code IDSCMS01) in Interdisciplinary Studies

The Master of Arts or Master of Science degree in Interdisciplinary Studies permits students to earn an interdisciplinary master's degree when their special needs or interests cannot be met by any existing CSULB graduate degree program. The Interdisciplinary Studies master's degree is not a degree divided between or among disciplines, but is a cohesive program of study, which integrates the methodologies, perspectives, and content of two or more disciplines. A master's degree in Interdisciplinary Studies must be justified by legitimate academic goals.

Acceptance of an applicant to an Interdisciplinary Studies master's program is based on such considerations as the academic merit and rationale of the proposed course of study, the applicant's potential for successful completion of a mas-

ter's program, the potential application of the degree towards the applicant's career and educational goals, and the ability of the University to support the proposed study with faculty, curricula, and facilities. Candidates should carefully assess goals before proceeding with this degree. The degree program is administered by the Dean of Graduate Studies through the office of the Interdisciplinary Studies Director, Academic Services, room 125.

Prerequisites

1. A bachelor's degree from an accredited college or university
2. Submission of any standardized test scores (e.g., GRE, GMAT, etc.) or screening activities required by the identified major discipline, or primary department (Usually the department issuing the Master's).
3. An interdisciplinary master's program requires demonstration of potential for success in each of the disciplines relevant to the proposed degree work. The relevant Department Graduate Advisors, in consultation with the student will determine the appropriate prerequisite courses for each program; these are listed on the Prerequisite Sheet that accompanies the Application for a Master's Degree in Interdisciplinary Studies.
4. Students must meet the required GPA of their identified major discipline in the last 60 units of work completed at an accredited college or university and a 3.0 GPA in all prerequisite course work listed on the Prerequisite Sheet.
5. No more than 9 units of previously completed course work can be included in the program.
6. Students must maintain a 3.0 or better GPA in their program course work in order to remain in the major.

Acceptance to the Program

Those students who meet all program and University prerequisites for graduate study and whose Interdisciplinary Studies master's programs have been approved by the Interdisciplinary Studies Director will be admitted as Classified graduate students in the Interdisciplinary Studies program. Students who have not met all program and University prerequisites but who demonstrate potential for their successful completion will be encouraged to complete their materials and resubmit during the immediately following full semester.

Procedures

1. Check our Website: www.csulb.edu/programs/iisp to see if you might qualify for an Interdisciplinary Studies Program of study.
2. Make a formal application to the university for admission, and a separate application to the ISP Director.
3. Make an appointment for a preliminary interview with the Director of ISP in room 125 East Library. For this interview, prepare a written proposal three to four pages in length:
 - A. Identifying by title the interdisciplinary program of study in which you wish to engage (i.e., Interdisciplinary Studies Master's Degree in (30-space limit) and description;
 - B. Explaining why this course of study cannot be pursued within one department with electives from other departments;

C. Explaining how this program relates to your educational and career goals;

D. Indicating your background, both academic and experiential, for undertaking this study; and

E. After meeting with the Department Graduate Advisor from each of the relevant departments, develop a program of study of CSULB courses appropriate to your goals.

4. Make a second appointment to meet with the Interdisciplinary Studies Director. Bring your proposal for review and approval. If the proposal is found promising and University facilities can support the proposed program of study, the Interdisciplinary Studies Director will provide you with the forms and guidelines necessary to proceed with application to the program as outlined in item 5 below.
5. Complete the Student Program form for the Masters' Degree in Interdisciplinary Studies provided by the ISP Director, or downloaded from the website. Have each of the Department Graduate Advisors from the relevant departments sign this form indicating their approval of your program of study. Submit the proposal, the Prerequisite Check Sheet for the Master's Degree in Interdisciplinary Studies, the Student Program for the Master's Degree in Interdisciplinary Studies, to the Interdisciplinary Studies Director. These materials constitute the Application for a Master's Degree in Interdisciplinary Studies. These materials are reviewed by the Interdisciplinary Studies Director whose signature on the Student Program for the Master's Degree in Interdisciplinary Studies signals acceptance of an applicant to the program. Subsequent modification of an approved Student Program requires approval of the relevant department graduate advisors, and the Interdisciplinary Studies Director, on an official Change of Program form to be obtained from the Interdisciplinary Studies Director.

Advancement to Candidacy

Advancement to candidacy is formally approved by the Assistant Vice President for Academic Affairs-Curriculum and Advising, of the Student Program for the Master's Degree in Interdisciplinary Studies. Graduate students are apprised of their advancement or failure to be advanced by the Dean of Graduate Studies. Any modifications to the Student Program after advancement to candidacy require the approval of the Interdisciplinary Studies Graduate Committee, the Interdisciplinary Studies Director, and the Dean of Graduate Studies on an official Addendum to Program form to be obtained from the Interdisciplinary Studies Director. Students must have advanced to candidacy at least one full semester prior to graduation, but should do so sooner.

In addition to university requirements, the student must have completed all program courses with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should make an appointment with the Interdisciplinary Studies Director for Advancement upon completion of at least six units of 500 or 600 level courses.

The Interdisciplinary Studies Director will submit an Interdisciplinary Studies graduate student's program for advancement to candidacy when the following conditions apply:

1. Satisfactory completion of all prerequisite course work with a minimum 3.0 GPA (see item 3 in Prerequisites above) as well as any additional prerequisites (i.e., departmental qualifying exams);
2. Completion of a minimum of six units of graduate-level (500-600) program work with a 3.0 GPA;
3. Successful completion of the University Writing Proficiency Exam (WPE);
4. Approval by the Interdisciplinary Studies Director of the completed Application for Thesis and Committee Form for thesis option programs;
5. Resolution of all incomplete grades (I) on the record;
6. A cumulative 3.0 GPA in all completed program work;
7. Current enrollment in University course work.

Requirements for the Master of Arts Degree

1. A minimum of 60% of the units required for the degree shall be in the 500 and 600 level series. The number of units required for the degree shall be the number of units approved on the individual student's program (minimum 30 units).

- A. No fewer than 18 units shall be at the 500-600 level. These must be completed in residence at CSULB. Extension 500-600 level courses are not acceptable on the Interdisciplinary Studies graduate program towards residency;
- B. No more than 60% of total course work may be taken in any one department;
- C. Where appropriate, a research methodology course taken in the area of focus must be included in the graduate Student Program;

D. No less than 15 units shall be completed within a primary department (The primary department is normally the degree-issuing department);

E. Up to six units of approved extension or transfer units may be used in fulfillment of the student's program of study. Nine units of extension credit may be used if all nine have been taken at CSULB. These limits may be increased further for degrees requiring more than 30 units that:

- 1) at least 24 units have been taken in residence at CSULB; and
- 2) no graduate student program may use extension or transfer credit to satisfy the requirement that at least 60% of the total units be taken at the 500 and 600 levels.

F. No more than three units of independent study in addition to Thesis on a minimum 30-unit program.

- 1) Exceptions to this regulation are as follows:
 - a) Up to six units of independent study in addition to Thesis may be permitted in a minimum 30-unit program when the projected studies are not to be taken in the same department and when the focus of each projected independent study is clearly distinct from the other (as evidenced on the Independent Study Agreement); forms should be submitted with all other materials constituting the Application for a Master's Degree in Interdisciplinary Studies (see item 3, under Acceptance Procedures above), and when each independent study is justified by the student's graduate committee as programmatically essential;

b) In excess of six units of independent study in addition to Thesis may be permitted only in cases when an Interdisciplinary Studies graduate program exceeds the minimum 30 units; when the focus of each projected study is clearly distinct from any others; and when each study is justified by the student's graduate advisors as programmatically essential. Programs with more than six units of independent study will be referred to the Interdisciplinary Studies Advisory Board for final approval.

2. Successful completion of a Thesis or Comprehensive Exam. The selection of the Thesis or Comprehensive examination option will be made by the student, if such an option is available in the primary department identified in the Graduate Student Program of study. If no option is available, the student will comply with the culminating requirements of the major department.
3. Students electing to write a thesis must enroll for thesis credit in their major department (the primary department identified in their Graduate Student program of study);
4. Students opting to write a thesis must identify a thesis committee by the beginning of their second full semester of graduate study, complete a thesis proposal form, and submit it to the ISP director. The Thesis Committee must include a chair (from the primary department) and at least one representative faculty member from each of the disciplines included in the student's Graduate Program of Study. A thesis committee shall contain no fewer than three members, at least two of which must be tenure-track CSULB faculty. The chair of the committee must be a tenured, or tenure-track faculty member.
5. All requirements of the degree program must be completed within seven years of the date when the program was initiated (i.e., no course on the program at the time of graduation may be more than seven years old).

Requirements for the Master of Science Degree

The basic requirements and application procedures for the Master of Science in Interdisciplinary Studies shall be the same as the Master of Arts degree in Interdisciplinary Studies, however, it is frequently a requirement in programs that issue a Masters of Science degree to require a thesis. Students will follow the exit requirements of their major department (their primary department).

INTERNATIONAL BUSINESS

College of Business Administration

Director

Paul L. Frantz

Phone

(562) 985-5072

For core requirements please see the College of Business Administration section in this catalog.

Bachelor of Science in Business Administration

Option in International Business (code FIN_BS02) (120 units)

The objective of the international business option is to prepare students for the increasingly competitive and interdependent international business world with which they must cope. There is great and growing need for American business school graduates to be better informed about how to compete and do business outside the U. S. as well as in the U. S. market where much of their competition is from foreign firms. Students need to understand how international business practices and customs differ from those in the U. S. They need some familiarity with a language other than English as well as knowledge of culture and world geography.

Requirements

1. ACCT 465
2. FIN 490
3. MGMT 405 or 406
4. MKTG 480
5. Any one of the following courses: FIN 424, HRM 458, MGMT 405, or 406 (whichever was not taken in satisfaction of requirement 3), MKTG 481, or any Short-term Study Abroad courses approved by the International Business Program Director.
6. Two years (4 semesters or 6 quarters) at the baccalaureate level of one of the following languages: Chinese, French, German, Italian, Japanese, Russian, or Spanish. Under individual, special circumstances, the Director of the International Business Option may approve a language other than those listed above to satisfy the language requirement for a degree in the option.
7. Choice of the language will determine the country or geographic area of the world about which the student must study a minimum of 2 courses (6 units).

These will be in lieu of 6 other elective units, and can be double counted as part of the student's general education requirement, if approved to meet GE requirements.

G.E. or Elective Courses

Select two courses (6 units), appropriate for your choice of language:

All Languages: ANTH 412I, ECON 368, POSC 371, 485, I/ST 317I, 318I, 319I, 355, LING 413, 425, 470, COMM 330, 452, W/ST 401I.

Chinese: ANTH 332, A/ST 301I, 310, 495I, CHIN 370, 301, ECON 365, 370, HIST 382B, 406B, 488, POSC 362, R/ST 101B, 331I, 341I, 343, C/LT 403.

French: C/LT 330A,B, ECON 361I, GEOG 316, HIST 335, 339, POSC 353, FREN 335, 336 or courses taken at a specified French university with which CSULB has an exchange agreement and taught by instructors from CSULB may be approved by the Director of the International Business Program in partial or full satisfaction of this requirement.

German: C/LT 330A,B, ECON 361I, GEOG 316, HIST 335, 339, 437, POSC 353, GERM 309, 415, 416, 380I.

Italian: C/LT 330A,B, ECON 361I, GEOG 316, HIST 332, 335, 339, POSC 353.

Japanese: ANTH 335, A/ST 301I, 310, ECON 370, HIST 383B, 384, 406B, 407I, JAPN 350, 451, 471, R/ST 103, 341I, 344, C/LT 403.

Russian: ECON 361I, GEOG 318, GERM 410, HIST 341B, 441, POSC 356, RUSS 310, 410I.

Spanish: ANTH 323, 324, ECON 361I, 363, GEOG 320I, HIST 364, 433, 462, 463, POSC 358, 359, 459, SPAN 330, 341, 430, 445, C/LT 440.

FOUR YEAR PLAN TO COMPLETE THE BS IN BUSINESS ADMINISTRATION, OPTION IN INTERNATIONAL BUSINESS (FIN_BS02)

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Undergraduate Certificate in International Business (code FIN_CT01)

Phenomenal growth of multi-national companies has been apparent in recent years, with increasing internationalization of the business world. Multi-national firms, governmental agencies, and varied international organizations express heightened demand for management personnel with a broad, global perspective. The Certificate in International Business, Undergraduate Program, combines an undergraduate degree in business with additional training in the area of international business beyond that normally included in a traditional business program. The objective of the program is to enhance the scope and perception of the business student to include the international business environment. Courses used to meet requirements for the Certificate in International Business may also apply toward College of Business Administration degree requirements.

Requirements

1. A bachelor of Science degree in Business Administration. This requirement may be completed concurrently with certificate requirements;
2. Six of the following nine courses: CBA 300; ACCT 465; FIN 424, 490; HRM 458; MGMT 405, 406; MKTG 480 or 481.
3. A grade of "C" or higher will be required in each course completed;
4. The Certificate Program does not permit use of the Credit/No Credit option. Students with specific geographic areas of interest should consider development of language competence and cultural understanding relative to their area of interest concurrent with their Certificate Program. For additional information or for application to the program, interested persons may contact the Director of International Business Program.

The Center for International Education is under the division of Academic Affairs. Its mission is to stimulate, develop and administer programs and services in the international area.

The program priorities of the Center for International Education are as follows:

to strengthen the internationalization of the curriculum, involving the participation of all the University's colleges. Interdisciplinary courses have been developed to further this goal. The infusion of existing courses with comparative approaches and non-western materials is being encouraged as well as the introduction of a number of issue-oriented international courses and several international studies emphases;

to render all services relating to the admission, counseling, academic life and success of international students attending CSULB;

to develop selective international educational linkages with institutions in other countries;

to assist CSULB students and faculty in participating in overseas opportunities;

International Admissions

The International Admissions component of the Center for International Education assists academically eligible international students to apply for admission to the University, and advises them of CSULB's financial, immigration and English language requirements. Throughout the students' attendance, the International Admissions staff is involved in their registration, evaluation of transfer credit, changes of majors, and graduation checks. Students are also counseled regarding their field of study requirements, which vary at both the undergraduate and graduate levels. The International Admissions staff coordinates closely with the American Language Institute, International Student Services, Study Abroad Office, administrators, and faculty to support students in pursuing their educational objectives.

International Student Services

Some 1,400 non-immigrant students, representing almost 90 countries, attend CSULB. The primary mission of International Student Services, a component of the Center for International Education, is to assist these students with their academic, personal, and cultural growth and development during their years at CSULB. This mission is accomplished through professional counseling and advising; assistance with Department of Homeland Security (DHS) regulations, paperwork processing, and documentation; student orientation activities; and assistance with registration. The ISS staff also serves as the University liaison with consulates, embassies, businesses, foundations, and community organizations concerning international students at CSULB.

In addition, the ISS staff works with international students, faculty, and members of the community to encourage and support international programs. International students are encouraged to participate in University and community programs. During the academic year, ISS staff works with the International Student Association, the International Peer Advisors, and the International Community Council of Long Beach to plan and organize cross-cultural events such as the Annual International Dinner and Culture Show, International Faire, and other major events. These groups add a special dimension to student life on campus by hosting various cultural events and providing leadership training opportunities for their members.

English Proficiency Requirements for Admission

Undergraduate Applicants

Each undergraduate applicant, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 173 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. has proof of at least three years attendance at a secondary level educational institution in a country where English was the principal language of instruction.* CSULB interprets "where English was the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English*, or
2. completed at least 60 transferable units from accredited U.S. community colleges and/or universities and a grade of "A", "B", or "C" in ENGL 100 or its equivalent*, or
3. successfully completed CSULB's American Language Institute's Intensive English Program.

EXCEPTION: Applicants applying for Film and Electronic Arts, which requires a 550 TOEFL score, and Journalism, which requires a 600 TOEFL score, will not be waived from the TOEFL requirement.

* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

Graduate Applicants

Each applicant for graduate or post-baccalaureate studies, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 213 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. Submits proof of having obtained a bachelor's degree from an accredited post-secondary institution where English was the principal language of instruction.* CSULB interprets "where English is the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and the applicant received academic instruction in all subjects (except foreign language courses) at all levels of education in English*, or
2. Notification from CSULB's American Language Institute that the applicant has successfully completed the American Language Institute's Bridge to the University Program.

EXCEPTION: Applicants applying for Public Policy and Administration, which requires a 600 TOEFL, will not be waived from the TOEFL requirement.

* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

International Student Admission Requirements

The CSU must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see the section on TOEFL Requirement for undergraduate applicants), financial resources, and academic performance are all important considerations for admission.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those majors or programs with limited openings.

CSULB encourages eligible international students to apply for undergraduate and graduate level studies. International students are defined as those who hold non-immigrant (student or exchange) visas. Application requests and questions should be directed to International Admissions, which is located in the Center for International Education (BH 201).

International students need to complete a different application process than U.S. students, and there are different application deadlines. The following documents are required:

1. International application form;
2. \$55.00 application processing fee;
3. Affidavit of support from financial sponsor;
4. Bank statement/letter from financial sponsor;
5. Proof of acceptable English proficiency (usually met by the Test of English as a Foreign Language);
6. Official academic documents and certified English translations;
7. ACT or SAT (required for student athletes and graduates of U.S. high schools);
8. GMAT (required for graduate business majors only);
9. Letters of recommendation (graduate level applicants).

Application deadlines vary. Applicants should check with the International Admissions office for deadline dates. Graduate applicants must check with their department for earlier deadlines.

Once all the documents are submitted to the International Admissions Office, eligibility for admission will be determined based on English proficiency and academic history, as well as other considerations. Graduate applications will be forwarded to the graduate departments for review by the graduate coordinators. Once admitted, international students will receive pre-arrival, arrival, and orientation information, and the appropriate immigration form and instructions on how to legally enter and/or remain in the U.S.

The Department of Homeland Security (DHS) requires that international students be aware of and follow DHS regulations to remain legally in the U.S. for the duration of their academic status. International students on "F" and "J" visas must be enrolled as full time students. Courses taken through the University College and Extension Services at CSULB or courses taken concurrently at other colleges nearby may only count toward full time status when approved in advance of course registration by the Center for International Education. Ques-

tions about DHS policies may be directed to the Center for International Education.

The Examination in English as a Second Language (EESL) is a placement test required of admitted graduate students for whom English is a second language. Failure to take the EESL test will result in a registration hold placed on the student's record. Students may also be required to enroll in English as a second language course(s) based on performance on the test. Please contact International Admissions for more information about EESL requirements and exemptions.

Study Abroad Office

The Study Abroad Office is located in the Center for International Education. Its mission is to assist CSULB students and faculty select and prepare for an educational experience in another country. This office administers exchange programs throughout the world, coordinates the London semester and Florence summer programs, provides advising services, maintains an overseas opportunities resource library, and sponsors special programs such as pre-departure workshops, information seminars, and speakers from off-campus.

CSU International Programs (IP) System-wide

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 15,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 18 countries, the International Programs also offers a wide selection of study locales and learning environments.

The affiliated institutions are:

Australia	Griffith University
.....	University of Western Sydney
.....	Macquarie University
.....	Queensland University of Technology
.....	University of Queensland
.....	Victoria University of Technology
Canada	The universities of the Province of Quebec including:
.....	Université de Montréal
.....	Concordia University
.....	Université Laval
.....	McGill University
.....	Université du Québec system
.....	Bishop's University
Chile	Pontificia Universidad Católica de Chile (Santiago)
China	Peking University (Beijing, Shanghai)
.....	Jiao Tong University, Shanghai)
Denmark	Denmark's International Study Program
.....	(the international education affiliate of the University of Copenhagen)

Information on academic course offerings available at these locations is in the International Programs Catalog which may be obtained from the Study Abroad Office in the Center for International Education (BH 201) or by writing to The California State University International Programs, 401 Golden Shore, Long Beach, CA 90802-4210 (562) 951-4790.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative GPA of 2.75 or 3.00, depending on the program for which they apply, for all college level work completed at the time of application, and have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide selection committee.

Additional information and application materials may be obtained from the CSULB Center for International Education by calling (562) 985-4106 or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us on the World Wide Web at: www.gateway.calstate.edu/csuienet/.

Applications for the 2005-2006 academic year overseas must be submitted by February 1, 2005 (May 1 for Australia and New Zealand).

CSULB Exchange Programs

In addition to the CSU International Programs, CSULB has developed exchange programs with outstanding universities in many parts of the world through cooperative linkage agreements. These agreements allow CSULB students to study for a semester or an academic year in a foreign institution while remaining enrolled at CSULB. A wide range of major fields of study may be accommodated in this program. So far, agreements have been signed with institutions in the following countries:

Argentina	University of Belgrano
Australia	University of Wollongong
.....	Deakin University
Austria	University of Salzburg
Cambodia	University of Phnom Penh
Chile	Universidad del Desarrollo
China	Beijing Language and Culture University
.....	Beijing Normal University, Qingdao University
.....	China Criminal Police College
.....	Dalian Institute of International Business
.....	Liaoning University
.....	Nanjing Normal University
Finland	Abo Akademi University
France	MICEFA (Consortium of Universities in Paris)
.....	Montpellier University
Germany	Fachhochschule Wiesbaden
.....	Fachhochschule Hamburg
.....	Fachhochschule Wiesbaden
.....	Europa Fachhochschule Fresenius
.....	Otto-von-Guericke University, Magdeburg
.....	University of Bielefeld
.....	University of Oldenburg
.....	University of Essen
Japan	Osaka Gakuin
.....	Goto College of Medical Arts
.....	Waseda College of Medical Arts and Sciences
.....	Yokkaichi University
Korea	Kyung Pook National University
.....	Honam University
.....	Hong Ik University
.....	Yonsei University
Mexico	Universidad Autonoma de Guadalajara
Netherlands	HES Amsterdam School of Business
.....	Hogeschool Haarlem Business School
Philippines	University of Santo Tomas

Singapore	Singapore Management University
Switzerland	University of Fribourg
.....	University of Lausanne
.....	University of Neuchatel
Taiwan	Tamkang University
.....	Tunghai University
Turkey	Marmara University
U.K./England	The Nottingham-Trent University
U.K./Wales	Cardiff Institute of Higher Education
West Bank	Birzeit University

For more information and eligibility qualifications, please see the staff in the Study Abroad Office or call them in the Center for International Education at (562) 985-8429.

Courses (INTL)

400. Upper Division Coursework Taken at a Foreign University (1-4)

Advanced college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty.

500. Graduate Level Coursework Taken at a Foreign University (1-4)

Graduate college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty. Letter grade only (A-F).

English Proficiency Requirements

For students who need English language training prior to enrolling at CSULB, the American Language Institute provides professional instruction in all four language skills: reading, writing, listening and speaking. Conditional admission to CSULB is available for qualified students. PLEASE NOTE: International students are subject to the same EPT/ELM and WPE requirements as are all CSULB students.

Courses (ALI)

American Language Institute (ALI) courses are for non-native speakers of English. ALI courses are recommended for international students (students on F1 visas). ALP courses are recommended for all other non-native speakers of English.

145. American Language Advanced I (3)

Prerequisite: Non-native speakers who score 137 or below on the English Placement Test, or 500 or below on the Exam in English as a Second Language, and who have not taken equivalent writing courses in another department, are eligible for enrollment in this course. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. A basic course in writing, offering intensive practice in every stage of the writing process from generating ideas to final proofreading. Reviews and teaches organizational strategies and includes strategies for paragraph and sentence development and for making appropriate word choices. Teaches conventional mechanics, spelling and the grammar of standard edited written English.

150. American Language Advanced II (3)

Prerequisite: Non-native speakers who score between 138 through 150 on the English Placement Test, between 501 through 550 on the Exam in English as a Second Language, or successful completion of ALI/ALP 145 with a grade of "C" or better. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

Bachelor of Arts in International Studies (code I/STBA01) (120 units)

The Bachelor of Arts in International Studies is an interdisciplinary degree program designed to provide a rigorous introduction to the complex interrelationships that exist among societies in the modern world. It combines the study of international relations, global and development issues and contemporary belief systems with a concentration on a major world area. In addition, the degree aims to equip students with the skills in language, analytical thinking, research, and economic literacy that are necessary for graduate study and careers in international fields. Further, students in the International Studies program receive direct exposure to an international environment by participating in a foreign study program or an internationally related internship in this country. Because it is interdisciplinary, this program emphasizes the ways in which the expertise and methodologies of various disciplines contribute to the understanding and resolution of international issues.

The program provides a broad understanding of international issues and world cultures through exposure to the various methodologies of the social sciences and liberal arts. It offers pre-professional study for careers in government, communications, business, law, journalism, and international non-profit organizations. Students are encouraged to combine a major in International Studies with a second major or minor in a field appropriate to their career plans.

All International Studies majors are required to develop a program of study in consultation with the program advisor. This program should be balanced among the participating disciplines in order to help the student develop a coherent emphasis in a world region and/or a topical area. Majors should choose their foreign language, foreign study or internship experience, and senior seminar research project to reflect this emphasis. The program director also advises about post-graduate study.

Requirements

A minimum of 45 units in a program approved by the International Studies advisor.

Requirements not included in major

Economic Literacy: (Units not included in total for major; may be fulfilled as part of General Education): ECON 100, 101; or, with prior permission of the International Studies Advisor, ECON 300.

Foreign Language: Three years of college level study or equivalent proficiency in a language appropriate to the program of study and geographic area concentration selected.

Major Requirements

Lower Division: (12 units): ANTH 120; HIST 212; GEOG 100 or 160; POSC 215 or 220.

Upper Division: A minimum of 33 units including:

Cross-Cultural Communication: 3 units, chosen from: ANTH 412I, 413; COMM 330.

Basics of International Relations: Select 6 units from the following: ECON 370, 372; GEOG 470; HIST/I/ST 478; POSC 371, 378, 485.

Development Studies: 6 units, selected from: ANTH/GEOG 307I; ECON 465; GEOG 460; H/SC 420I; JOUR 312I; POSC 461I; I/ST 317I, 318I, 319I, 355I; SOC 350; W/ST 401I.

Contemporary Belief Systems: 3 units selected from: ANTH 305I; ECON 313; POSC 306; R/ST 383I; SOC 356.

Area Concentration

Choose 9 units from one of the following six areas:

Asia: A/ST 300I, 301I, 310, 495I; ANTH 332, 333, 335; GEOG 314I; HIST 382B, 383B, 384, 385, 386, 407I, 488; POSC 362, 363, 366.

Latin America: ANTH 323, 324; GEOG 320I; HIST 364, 462, 463, 466; CHLS 310; POSC 358, 359, 481.

Africa: B/ST 337, 380, 430, 460; GEOG 308I; HIST 391, 392.

North Africa and the Middle East: GEOG 309I; HIST 431; POSC 367; R/ST 331I, 315I.

Eastern Europe/Former Soviet Union: GEOG 318; HIST 341B; POSC 356, 357.

Western Europe: ECON 361I; FREN 440; GEOG 316; GERM 416, 380I, 410; HIST 337, 339, 357, 437; POSC 353; SPAN 430.

Internship or Foreign Study: (I/ST 492, 3 units) An internship or foreign study program related to the course of study selected, as approved by major advisor.

Senior Research Seminar: (I/ST 490, 3 units) As approved by the director of the International Studies program.

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in INTERNATIONAL STUDIES (I/STBA01)

120 units required Department of International Studies

Major Elective-Contemp Belief	3	Elective Class	3
I/ST 492	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 8

*Some courses used to meet GE/Interdisciplinary Capstone requirements may also be used to meet major requirements

**This plan assumes that the I/ST major will study abroad in the first semester of the senior year.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in International Studies (code I/STUM01)

The Minor in International Studies consists of a minimum of 21 units at least 15 of which must be upper division courses, together with at least two years of college level of study (or equivalent proficiency) in a language (other than English) relevant to the student's program of study in International Studies. No course in the department of a student's major may be used in satisfaction of the unit requirements for this minor except for ECON 100, 101, 300.

Requirements

Economic Literacy: Three units selected from ECON 100, 101 or, with the consent of the International Studies advisor, upper division students may take ECON 300. (Units earned in satisfaction of this requirement may not be counted as part of the unit requirement in the minor.)

Lower Division: Six units selected from ANTH 120, HIST 212, GEOG 100 or 160, POSC 215 or 220.

Upper Division: Three units selected from the courses grouped under Cross Cultural Communication or from the courses grouped under Contemporary Belief Systems as those groups are defined for the Bachelor of Arts degree in International Studies.

Either six units selected from the courses grouped under Development Studies or six units selected from the courses grouped under Basics of International Relations as those groups are defined for the Bachelor of Arts degree in International Studies.

Six units selected from one of the geographic Area Concentrations defined for the Bachelor of Arts degree in International Studies.

Courses (I/ST)

General Education Foundation must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

317I. Problems in International Social Conflict (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Topics may include ethnocentrism, nationalism, globalization, trade and aid, economic development, poverty and inequality, the environment, war and civil unrest, and ideological, ethnic, gender, and religious conflict. Special attention to the spread of democracy, the emergence of global social movements, and new forms of civil society and social solidarity. Letter grade only (A-F). Same course as SOC 317.

318I. Cases in International Social Conflict (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, and upper division standing. An interdisciplinary, social-scientific analysis of the causes, human costs, and possible remedies of social conflict in the world today. Case studies will consider factors such as globalization; technology; economic development; trade and aid; population growth; immigration; ideological, religious, ethnic and gender conflicts; war and civil unrest. Special attention to human rights, democratization, global citizenship, and environmental sustainability. Letter grade only (A-F). Same course as SOC 318.

319I. International Development (3)

Prerequisites: Completion of the G.E. Foundation, one Explorations course, upper-division standing. Explores the nature of social, political, and economic development, as well as alternative developmental models. Assesses theories of development, including modernization, diffusion, dependency, and world systems. Compares and contrasts the historical and contemporary experiences of Europe, the U.S., and other "developed" areas of the world with the economic, social, and political challenges facing the governments and peoples of Asia, Africa, Latin America, and other "developing" regions. Same course as GEOG 319I.

355I. International Environmental Issues (3)

Prerequisites: Completion of the GE Foundation, one Explorations course, and upper division standing. Examines the deterioration, destruction, maintenance and restoration of environmental systems and resources. Identifies and analyzes major environmental problems that have international dimensions. Investigates ongoing and potential efforts to resolve them. Same course as GEOG 355I.

451. International Women's Movements (3)

Prerequisite: Consent of instructor. This course provides discussion of global women's movements and the issues they address. Issues include women and violence, war and militarism, economic and political inequalities, environment and development, labor issues, international tourism, global sex work and trafficking of women (Thailand). Case studies include Gabriela (Philippines) and Global Alliance Against Trafficking of Women (Thailand). The seminar format course will examine movements and issues through the reading of recent literature, and the writing of short essays based on readings. Requirements include in-class preparations, a course portfolio of short essays, and a term paper. Letter grade only (A-F).

478. Foreign Relations of the U.S. (3)

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups on the making of foreign policy. Same course as HIST 478.

490. Senior Research Seminar in International Studies (3)

Prerequisites: Senior status; consent of the International Studies advisor and instructor. Capstone research seminar primarily for senior-year International Studies majors. Classroom preparation for directed research by students on a topic of their choice integrating international economics, international politics, cross-cultural communication, development studies, contemporary belief systems, language skills, and a geographic area. Letter grade only (A-F).

492. International Studies Internship/Foreign Study (3)

Prerequisites: Consent of I/ST advisor; completion of a minimum of 15 upper division units required for the major in International Studies. Internship with private organizations and governmental agencies with an international focus, international companies located in the US or abroad. A Study Abroad program with CSULB or other reputable university also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB International Studies faculty. A final report is required. Credit grading only.

493. Special Topics (1-6)

Prerequisite: Consent of instructor. Analysis of contemporary issues and problems in International Studies. Topics to be announced in the *Schedule of Classes*. Both grading options.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Individually directed studies of special problems in International Studies. May be repeated to a maximum of 6 units with consent of program director. May not be credited toward the major in International Studies without written department consent in advance of enrollment. Supervised course. Letter grade only (A-F).

For all degree requirements see Business Administration.

Courses (I S)

Lower Division

233. Introduction to Computer Systems and Applications (3)

An introduction to the use of the Internet and e-mail, Windows, word processing, spreadsheet, and database applications; basic computer literacy. Credit/No Credit grading only.

Upper Division

300. Management Information Systems (3)

Prerequisites: Computer Proficiency Examination or I S 233 or equivalent. Information systems concepts and components, contemporary organizational applications, development and management of information systems, and future trends in information systems and technologies. Computer-based team projects requiring the integration and application of conceptual and skills-oriented information systems knowledge in a business environment. Letter grade only (A-F).

301. Business Communications (3)

Analysis of the principles of collecting, organizing, analyzing, and presenting business information. Written and oral communications involving problem solving in the business management process. Letter grade only (A-F).

308. Knowledge Management (3)

Prerequisites: Completion of GE Foundation requirements. A broad introduction to the concepts, methods and practices of knowledge management. Information systems and management concepts are used to create workplace environments that encourage learning, innovation and positive change. Hands-on project requiring teamwork and community service. Letter grade only (A-F).

310. Business Statistics (3)

Prerequisites: MATH 114 and 115. Application of statistics to business problems. Topics include data collection and organization, probability theory, measures of central tendency and dispersion, hypothesis testing and estimation, simple regression, and correlation. Use of statistical software. Letter grade only (A-F).

320. Quantitative Analysis for Business Decisions (3)

Prerequisite: IS 310. Application of quantitative analysis and computer software for solving business problems. Topics include linear programming, integer programming, PERT and CPM, inventory control, queuing models, quality control, number basis, transportation and assignment models, and simulation. Use of computer software. Letter grade only (A-F).

340. Business Application Programming (3)

Prerequisites: I S 300. Visual programming systems. Object-oriented programming (OOP). Simple concepts to advanced topics, including labels, buttons and text boxes, menus, dialog boxes and multiple forms, arrays, and drag-and-drop functions. Letter grade only (A-F).

343. Business Programming (3)

Prerequisites: I S 300. This course introduces students to business computer programming. The C++ programming language will be used to familiarize the student with proper programming style and practice. Letter grade only (A-F).

355. Introduction to Business Telecommunications (3)

Prerequisites: I S 300. Introduction to concepts and technology of telecommunications and networking in business and organizations. Basics of voice, data, image, and video transmission; fundamental of networking; use of Internet technology; telecommunication regulation and standards. Letter grade only (A-F).

380. Database I (3)

Prerequisites: I S 300. Introduction to database requirements analysis and specification. SQL query formulation. Database implementation using relational database management system software, such as Oracle. Design of computerized business forms and reports. Letter grade only (A-F).

385. Systems Analysis and Design (3)

Prerequisites: I S 300. Broad introduction to the concepts, methods, current and emerging practices of systems analysis and design. Topics include development process models, requirements analysis and system modeling, conceptual and physical design, systems implementation and maintenance, project management and teamwork, and the roles and responsibilities of systems analysts. Letter grade only (A-F).

445. Internet Applications in Business (3)

Prerequisites: IS 343. Design, management, and applications of Internet-based electronic business transaction systems. Special emphasis on Web home page design. Internet applications in functional areas including accounting, finance, marketing, and management. Intranet and groupware. Lecture, hands-on, software project, and case studies. Letter grade only (A-F).

446. Web Development and User Interface Design (3)

Prerequisites: I S 343. Theory and applications of Web page and user interface design using development tools such as Adobe Photoshop/Illustrator and FRONT PAGE HTML editor. Other issues such as Internet business opportunities, network security, home page maintenance, and cooperative computing will also be covered. Letter grade only (A-F).

455. Local Area Networks (3)

Prerequisites: IS 355. Technology and system development of local area networks. Network requirement analysis, design, implementation, and operation from user and network administrator perspectives. Network server management, wide area network and Internet connectivity, and network security and control. Letter grade only (A-F).

456. Internetworking and Systems Integration (3)

Prerequisites: IS 355. Technology, application, operating system, infrastructure, and systems integration in internetworking and enterprise networking. Topics include interoperability, mobile system, multimedia, distributed and collaborative system, network management, fault tolerance, security and middleware, etc. Case studies and hands-on are employed. Letter grade only (A-F).

464./564. Network Modeling and Simulation (3)

Prerequisites: IS 310 and 355. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include; basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Letter grade only (A-F).

470. Decision Support Systems (3)

Prerequisites: IS 310, 380. Use of information systems technologies to support decision making by managers. Emphasis is given to individual and group decision support systems, expert systems, and executive information systems.

480. Advanced Database Concepts (3)

Prerequisite: IS 380. Advanced approaches such as object oriented, data warehousing, and client/server methods to database applications and development. Use of entity-relationship analysis to identify objects. Development of relational database systems for a business. Application software development project using cutting-edge database technology. Letter grade only (A-F).

483. Business Applications Using Java (3)

Prerequisites: I S 300. This course is designed to deal with opportunities and challenges in developing the information superhighway. The features, tools and languages of the Web will be learned and its services assessed. The course will discuss how an organization develops new functions, new ways of reaching customers, and their impacts to the society. The focus will include: 1) getting students familiar with the tools and technologies underpinning networking; and 2) identifying and evaluating opportunities emerging in electronic business. Letter grade only (A-F).

484. Electronic Commerce (3)

Prerequisites: I S 300. Although in its early infancy, Electronic Commerce is widely expected to bring comprehensive changes to life style and business transactions in the forthcoming decade with continuing technological breakthroughs. This course is to introduce some emerging concepts and practices in the field of on-line commerce via the Internet, which are shaping both consumer behaviors and business systems. Letter grade only (A-F).

485. Information Systems Project (3)

Prerequisite: IS 380. A comprehensive systems project of moderate complexity for a client-server environment using a team approach for requirements analysis, system design, and prototype creation. Project planning and management techniques. Letter grade only (A-F).

495. Selected Topics (1-3)

Prerequisites: Consent of instructor and GPA of 3.0 or higher in major. Topics of current interest in the field as announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

*497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair; student must be on Dean's List and have a GPA of 3.0 or higher in Management Information Systems. Individual projects, research, or study in the option.

Graduate Level

550. Business Telecommunications Management (3)

Prerequisite: IS 602 or equivalent. Introduction to the technologies and applications of telecommunications and networking. Infrastructure planning and operation of organizational telecommunication networks. Management and control of Internet servers and mobile systems. Telecommunication regulation and standards. Letter grade only (A-F).

564./464. Network Modeling and Simulation (3)

Prerequisites: IS 601 and 550. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Letter grade only (A-F).

580. Management Support Systems and Database Management Systems (3)

Prerequisite: IS 602 or equivalent. Management Support Systems (MSS) with special emphasis on database management techniques. Use of information and database techniques to support management decision making. Topics include individual and group decision support systems, groupware, expert systems, executive information systems, database management systems (DBMS), database analysis and design, database manipulation languages (SQL and QBE), and data warehousing. Hands-on projects on both MSS and DBMS. Letter grade only (A-F).

584. Electronic Commerce (3)

Prerequisite: IS 602 or equivalent. A comprehensive managerial-oriented examination of the development of various electronic commerce applications on the internet. Major applications include advertisement and marketing, customer service, stocks and commodities, trading, market and product research and standard business-to-business transactions. EDI implementation issues such as security and payment methods. Letter grade only (A-F).

601. Quantitative Methods for Managerial Decision Making (3)

Prerequisite: MBA standing required. Statistical analysis includes probability, estimation, hypothesis testing, forecasting and decision process. Management sciences include quantitative modeling, math programming, decision support systems and simulation applicable to various business functions. Computer software packages will be used as analytical tools. May be repeated to a maximum of 3 units. Letter grade only (A-F). Not open to students with credit in I S 501.

602. Management of Information Systems (3)

Prerequisite: MBA standing required. This course covers topics of management information systems including: foundation and infrastructure of information technology applied to strengthen competitiveness; effective utilization of strategic information systems, telecommunications, system development process, database concepts, electronic commerce, etc. to enhance organizations' operations. Letter grade only (A-F). Not open to students with credit in IS 502.

685. Internet/Intranet Application Development (3)

Prerequisites: IS 602 or equivalent and consent of instructor. Theory and applications of the Internet. Applications development using tools such as HTML and FrontPage. Use and development of Intranet applications in the Client/Server environment. Issues such as Internet business opportunities, network security, home page maintenance, Internet database interface and cooperative computing. Letter grade only (A-F).

695. Selected Topics (3)

Prerequisites: Graduate standing and consent of instructor. Topics to be announced in the *Schedule of Classes*. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisites: Graduate standing and consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

The Department of Journalism offers undergraduate curricula in journalism and public relations. Journalism courses include study in broadcast, photo and print journalism areas. Public relations courses include study in ethics, writing, communication techniques and theory, issues management, and strategic planning. These programs are intended to educate for beginning competency and continued individual professional growth and achievement.

Each program in the department is offered in a context of a broad liberal education that emphasizes liberal arts and sciences. These traditional areas remain the solid basis of professional education in journalism and mass communication here and elsewhere.

The Department of Journalism is an institutional member of the Association of Schools of Journalism and Mass Communication.

Courses in the department prepare students to be newspaper or magazine writers, reporters and editors; internet, radio or television reporters and editors; and public relations practitioners in corporate, agency and public sectors of the economy.

In cooperation with the Department of English, the department offers course work leading to the single-subject teaching credential in English-journalism for prospective high school teachers.

Students should contact the Department of Journalism office for referral to an appropriate faculty adviser for development of a study plan.

Of the 120 semester hours required for graduation, students are expected to take a minimum of 80 semester hours outside the major area of journalism and mass communications and, of these, at least 65 semester hours in the traditional liberal arts and sciences. Students should limit their journalism and mass communication course work to a maximum of 40 semester hours to comply with university requirements and national standards for journalism and mass communication education.

The Department of Journalism houses the student newspaper, the *Daily Forty-Niner*, which serves a campus community of more than 30,000 students and the university faculty and staff. Journalism students also help write, edit and produce the full-color *University Magazine*, the *On-Line Forty-Niner*, a daily electronic newspaper, *University Magazine Online* and the *Summer Forty-Niner*, a weekly newspaper.

Broadcast journalism students work at KLON-FM 88, which produces daily news heard throughout southern Los Angeles County and northern Orange County. Students also work with Advanced Media Productions to produce a weekly cable television program.

Advanced students are strongly encouraged to participate in the Department of Journalism internship program. Within the limits of its resources, the department helps graduating seniors and alumni find professional positions.

Requirements for the Bachelor of Arts in Journalism

Students may obtain a bachelor's degree emphasizing journalism or public relations.

Prerequisites to Entering Journalism Classes

Computer skills: All students entering journalism production classes must know be familiar with at least one established word-processing program, and be able to word-process at a rate of at least 40 words a minute.

Writing Skills

JOUR 120 is the basic writing and reporting course for journalism, and is a prerequisite to most courses in the department. Students must pass English 100 with at least a "C" before entering JOUR 120. Students who took an ENGL 100-equivalent course at another campus must pass the university's English Placement Test (EPT) to enter JOUR 120 or courses for which it is a prerequisite.

Course Prerequisites

Journalism majors must have passed both the WPE and passed JOUR 120 with at least a "C" to enter any course for which JOUR 120 is listed as a prerequisite. Students emphasizing broadcast journalism, print journalism and public relations must take ENGL 320, English Grammar.

Grade Requirements

Journalism majors must have a "C" average in the major. Journalism students must achieve a grade of "C" or better in each required course for the major.

Residency Requirements

Transfer students must complete at least 50 percent of their upper-division journalism units at CSULB. Journalism (Communication) courses transferable from other campuses are limited. No more than 12 (usually nine or fewer) units of community college communication units may be transferred to CSULB as journalism courses. (Included in the 12 units will be any professional communication courses, whether listed as journalism or under any other category.) Journalism courses taken on another campus may not be substituted for a CSULB journalism course without the approval of the CSULB Department of Journalism.

Transfer students should bring complete transcripts of all units taken at other colleges or universities to their first meeting with a Department of Journalism adviser. Students must provide the department with a separate copy because transcripts that have been sent to the university admissions offices are not available to the department.

Distribution of Units

Journalism majors must take a minimum of 80 semester hours in courses that are not professional journalism, technical communication or communication career or skills courses. Besides all journalism courses, this exclusion extends to all Film and Electronic Arts (FEA) courses as well as, for example, courses in graphic design or photography offered by the Department of Art.

The requirement that 65 of these 80 units must be in areas of traditional liberal arts and sciences should not be confused with the university's general education requirement. While many general education courses are acceptable for the 65-unit departmental requirement, not all general education units can be accepted for it by the Department of Journalism.

Courses that may be counted in the 65 units include all courses offered through the College of Liberal Arts except for technical writing courses. All courses offered by the College of Natural Science and Mathematics also may be counted. While performance courses such as drawing or painting must be excluded, courses involving art history or art appreciation may be included. To avoid the potential loss of units, students are advised to consult a journalism adviser before entering the department and before enrolling each subsequent semester.

After 65 units in liberal arts and sciences, and 40 units in journalism, 15 units remain to complete the 120 units required for graduation. Although it generally is recommended that these units be devoted to more liberal arts and science study, up to all 15 of these units may be taken in areas such as business, engineering, industrial arts, physical education, and recreation.

Journalism majors may not include more than 40 journalism/communication courses in the 120 units required for graduation, and most of these 40 units are required in the respective options of student emphasis. To avoid disappointment, majors are strongly advised to consult a journalism faculty adviser in order to plan and maintain a course of study.

Mandatory Advising

All students must meet with a journalism adviser before declaring the major, and entering students should make arrangements for advising before the start of their first CSULB semester. Students must minor in or have an area of concentration of at least 15 units study outside of journalism or mass communication.

Bachelor of Arts in Journalism

Requirements

Please note requirements differ for each option.

Option in Broadcast Journalism (code JOURBA01) (120 units)

A minimum of 33 units and a maximum of 40 Journalism units including those specified below. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication.

All option majors must take ENGL 320 preferably before taking upper division journalism. A foreign language also is recommended.

Students must have a minimum of 80 non-communication units with at least 65 of the 80 in the traditional liberal arts and sciences areas. No more than 15 units can be in areas outside the liberal arts and sciences and communication categories.

Lower Division: JOUR 110, 120, COMM 171.

Upper Division: ENGL 320, JOUR 316 or 319A, 321, 325, 382, 482, and 430, and one of the following: JOUR 312I, 315, 412, 420, 431, 490, 494, 498, 499.

**Option in Journalism Education
(code JOURBA04) (120 units)**

A minimum of 24 journalism units of which 15 must be upper division, selected in consultation with an advisor.

Lower Division: JOUR 110 and 120

Upper Division: JOUR 319A, 319B, 320, 331 and 430.

Recommended additional courses: JOUR 300, 312I, 370, 422, 431, 490, and 499.

To qualify for a credential that will authorize the teaching of journalism in California Public schools, a student must complete the journalism requirements specified above and core English courses.

**Option in Print Journalism (code JOURBA02)
(120 units)**

A minimum of 30 journalism and a maximum of 40 communication units of which at least 24 must be upper division. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication. The department requires Print Option majors take ENGL 320, English Grammar, prior to taking JOUR 331, Publication Editing and Makeup. A foreign language is also recommended for majors in the option. Students must have a minimum of 80 non-communication units with at least 65 of the 80 units in the traditional Liberal Arts and Science areas. No more than 15 units can be in areas that do not fall into the Liberal Arts and Science or Communication categories.

Lower Division: JOUR 110, 120.

Upper Division: ENGL 320, JOUR 316, 319A, 319B, 320, 331, 420, 430, and JOUR 305 or 480, and at least one of the following JOUR 312I, 315, 412, 422, 431, 490, 498, or 499.

Recommended additional courses are: JOUR 380, 494.

**Option in Public Relations (code JOURBA03)
(120 units)**

A minimum of 30 journalism and a maximum of 40 journalism/communication units of which at least 24 must be upper division units. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication. Students must take one research methods class before they graduate. A research course other than JOUR 494 requires the consent of the option advisor. It is strongly recommended that students in this option take as many English writing courses as possible; and transfer in or take at least a year of foreign language; and take advantage of the ethnicity classes offered at CSULB. Students must have a minimum of 80 non-communication units with at least 65 of the 80 units in the traditional Liberal Arts and Science areas. No more than 15 units can be in areas that do not fall into the Liberal Arts and Science or Journalism/Communication categories. The Public Relations option requires JOUR 498, Internship.

Lower Division: JOUR 110, 120.

Upper Division: ENGL 320, JOUR 370, 374, 375, 376, 430, 471, 478, 494 or a department approved research methods course, and 498.

**Bachelor of Arts in Journalism (code JOURBA08)
(120 units)**

FOUR YEAR PLAN TO COMPLETE THE B.A. in JOURNALISM (JOURBA08)

120 units required Department of Journalism

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3 (or 4)
GE Math or other GE Class	3 (or 4)	Critical Thinking or other GE	3
GE Class	3	JOUR 110	3
GE Class	3	GE Class	3
Elective Class	1-3		
TOTAL UNITS	14-16	TOTAL UNITS	15-16

Semester 3		Semester 4	
Critical Thinking or other GE	3	Minor/Minor Concentration Class	3 (or 4)
JOUR 120	3	GE Class	3 (or 4)
GE Class	3 (or 4)	GE Class	3
GE Class	3	GE Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-17

Semester 5		Semester 6	
JOUR 311	3	JOUR 430	3
Major Elective	3	Major Elective	3
Minor/Minor Concentration Class	3	Minor/Minor Concentration Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
JOUR 431	3	JOUR 495	3
Major Elective	3	Major Elective	3
Minor/Minor Concentration Class	3	Major Elective	3
GE Capstone Class*	3	Minor/Minor Concentration Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

* GE Interdisciplinary Capstone may count in GE and major if selected

Some courses used to meet minor/minor concentration classes may also be used to meet GE requirements.

Journalism majors may apply no more than 40 units of journalism courses toward the 120 units required for the degree.

A minimum of 65 units must be in the traditional liberal arts and sciences. Majors are required to have a minor or minor concentration of at least 15 units. (2 lower division and 3 upper division classes).

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Journalism (code JOURUM01)

A minimum of 21 units, including JOUR 110, JOUR 120 and JOUR 311.

Choose one area of concentration:

Broadcast: JOUR 110, 120, 319A, 321, 325, 430, and 431.

Print: JOUR 110, 120, 316, 319A, 331, and six units from JOUR 305, 312I, 320, 319B, 412, 422, 430, or 431.

Public Relations: JOUR 110, 120, 370, 374, 375, 376, and 471 or 478.

Courses (JOUR)

Lower Division

110. Introduction to Mass Communications (3)

Prerequisites/Corequisites: One GE Foundation Course. Origins, development and contemporary role of newspapers, magazines, radio, television, books, and films, and such related fields as advertising and public relations. (Lec, discussion 3 hrs.) (CAN JOUR 4)

120. News Writing (3)

Prerequisites: Ability to word process 40 wpm. A "C" or better in ENGL 100. Course focuses on news writing, newspaper style, writing leads, developing the story, and importance of deadlines. It includes study of news sources, reporting and interviewing methods, law, ethics and responsibilities of the reporter. Practical exercises in reporting and writing news and features for publication (CAN JOUR2)

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300. Intermediate Photojournalism (3)

Prerequisites: JOUR 120 with a grade of "C" or better, ART 141 or consent of instructor. Techniques of photojournalism for newspapers, magazines, corporate communications and Public Relations. Student work is regularly critiqued and published in departmental publications. Course covers types of photos needed for all aspects of editorial photography, including lighting, use of filters, working with subjects, and the photo picture page. Hands on projects give students an opportunity to develop skills. Course fee may be required. (Lectures, demonstrations and practical assignments) Letter grade only (A-F).

305. Editorial Graphics (3)

Designed to give students experience in the design of printed materials. Examines theories, principles, and techniques of contemporary page design, especially of newspapers and Sunday magazines. Covers the historical roots of publication design and acquaints students with the use of photographs, illustrations, graphs, type and color in visual communication. Students gain hands-on experience with Macintosh computers and produce prototype-newspaper and magazine pages. Letter grade only (A-F).

311. Information Gathering and Reporting (3)

Prerequisite: "C" or better in JOUR 120: Teaches students how to gather, process, and transform information into meaningful messages. Students learn to how to search for answers, critically analyze results, interpret what they find, and communicate their conclusions to an audience in a meaningful form. They are introduced to the analytical process of organizing a search strategy and the hands-on search itself, which involves seeking sources in libraries, public records, books, magazines, journals, corporate reports, computer databases, and personal interviews. The course includes instruction on media writing and editing skills. Letter grade only (A-F). 2 hours lecture and 2 hours laboratory.

312I. Global News Media (3)

Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. An analysis of the world's news media with an emphasis on their structure, ownership, social and political roles, and the degree of government pressure and control. Particular attention is paid to economic, political and mass media globalization, and its effects on developing countries.

315. Journalism as Literature (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Set criteria for defining journalism and literature. Examines great journalistic work of the last 2,000 years, from Plato and Julius Caesar to Addison, Steele and Swift, through Twain, Stephen Crane, Mencken and Camus, to E. B. White, Updike, Didion and Tom Wolfe which have earned a place in literature.

316. Feature Writing (3)

Prerequisite: JOUR 120 with a grade of "C" or better or consent of instructor. Feature Writing covers the feature article for both newspapers and magazines. Discusses style, organization, human interest, use of quotes, leads and article ideas. Emphasis is on clear readable prose. Publishable articles are submitted to the Daily Forty-Niner or University Magazine. Letter grade only (A-F).

319A. News Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on Daily Forty-Niner or University Magazine. Course may not be taken concurrently with JOUR 319B or JOUR 422. Letter grade only (A-F).

319B. Advanced Publication Writing and Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on Daily Forty-Niner or University Magazine. Course may not be taken concurrently with JOUR 319A or JOUR 422. (Activity/Laboratory 9 hours) Letter grade only (A-F).

320. Reporting Public Affairs (3)

Prerequisite: JOUR 120 or consent of instructor. News coverage of police, courts and city, county, state and Federal government. Study and practice in methods of investigative reporting. (Reporting and writing practice 3 hours)

321. Introduction to Broadcast Writing, Reporting and Producing (3)

Prerequisite: "C" or better in JOUR 120. Teaches students broadcast news writing, reporting and production techniques. Students identify the differences between feature, hard news and profile stories. Students learn how to write a variety of balanced broadcast news story forms including on-cameras, voice-overs, voice-overs/sound-on-tape and package reports in detailed script format. Students learn how to select compelling visuals and sound bytes. They are also introduced to broadcast news values and selection criteria as well as resources available for education and assistance on the techniques and concepts they learned. Ethical, diversity and professional standards exercises are incorporated into the class. (2 hours lecture and 2 hours laboratory.)

324A,B. Photography for Publication (3,3)

Prerequisites: JOUR 120 and 300 (with a grade of "B" or better), or consent of instructor. Students with qualifying photo skills will comprise staff of the *Daily Forty-Niner* newspaper and *University Magazine*. Staffers will be responsible for photographic coverage of campus news and feature events for daily and special edition use. Photographers will practice techniques of newspaper photography through assigned stories as well as personally developed enterprise stories. Individual approach and skills are assessed daily, with staff efforts analyzed at weekly photo conference. Students must provide own camera. Course fee may be required. (Laboratory 6 hours)

325. Radio News Writing and Reporting (3)

Prerequisites: JOUR120 with a grade of "C" or better or consent of instructor. Techniques for information gathering, scripting, and selecting actualities for news and feature stories. Emphasis is on radio news writing.

331. Publication Editing and Makeup (3)

Prerequisites: ENGL 320 and JOUR 319A with a grade of "C" or better or consent of instructor. JOUR 319B and 331 cannot be taken concurrently except by consent of instructor. Study of methods in newspaper and magazine production and practice in preparing copy for periodical publication, including editing, proofreading, headline writing, using photographs and other display materials, handling news service copy, legal problems, and page design. (Lecture, 2 hrs, activity with the Daily Forty-Niner or University Magazine, 3 hrs.)

340. Introduction to Online Journalism (3)

Corequisites: JOUR 120 or consent of instructor. An introduction to the Internet and the World Wide Web from the perspective of online journalism. Course will provide an introduction to the basics of online publishing and writing, and students will work with the tools and technologies available to create their own websites and will begin to write content for the online environment. Individual and group projects will include all stages in developing information websites.

370. Principles of Public Relations (3)

Prerequisite: ENGL 100 with a grade of "C" or better. Public relations fundamentals: research, planning, communication, and evaluation. Study of targeting special publics, the use of public relations tools, developing public relations programs, and the importance of social responsibility.

374. Internal Communication for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students learn to write a wide variety of internal public relations materials, including back-grounders, position papers, proposals, letters, memos, speeches, and crisis communication plans. Students develop a crisis communication plan for a nonprofit organization as a service-learning project.

375. External Communication for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students are exposed to the various techniques used in media relations and learn to write news releases, feature stories, media alerts, pitch letters, biographies, op-ed pieces, captions, and public service announcements. Students develop a comprehensive press kit for a nonprofit organization as a service-learning project.

376. Publications for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students learn the theories and principles of layout and design and the most effective writing techniques for an array of publications. Students develop newsletters, brochures, corporate identification systems, advertisements, fliers, and online materials. All publications are created electronically, using various desktop-publishing programs. Students develop a brochure and newsletter for a nonprofit organization as service-learning projects. Letter grade only (A-F).

380. Advanced Photojournalism (3)

Prerequisite: JOUR 300 or consent of instructor. Photographic reporting with a camera. In-depth study of photojournalism with emphasis on creation of photo story ideas, photo essays and feature photos; photo editing and layout as applied to newspapers and magazines. Course fee may be required.

382. Radio News Production (3)

Prerequisites: JOUR 325 with a grade of "C" or better or consent of instructor. Reporting, writing and editing news and feature stories for radio news program. Special emphasis is on radio production techniques. Letter grade only (A-F). (Lab 6 hrs.)

412. Theories of Mass Communication (3)

Prerequisites: JOUR 110 or consent of instructor. Contemporary theories of mass communication. An overview of the development of communication theory as it relates to the mass media. Evaluation of theories of the communication process through analysis of the original research upon which the theories were founded. Source, message and audience effects of the communication process.

415. Minorities and the Media

An analysis of the issues that pertain to minorities (ethnic, racial, national origin, gender, sexuality, physical and mental ability) and how they intersect with the mass media. Course covers the social, political and cultural implications of the representation of minorities by the mass media. It also discusses multiculturalism, and minority and diversity representation in newsrooms and other mass media companies.

418. Media History (3)

This course is intended to give students an overview of the development of the mass media. The course will build on chronological developments and show how events that occurred in the past influence later events. At the same time, the course will show how history develops along many dimensions, with individuals and groups sharing some experiences but many times coming up with very different interpretations of events based on their different pasts and worldviews. We will see how individuals' interpretation of past historical events has an effect on their sense of the present and what should occur in the future.

420. Investigative Reporting (3)

Prerequisite: JOUR 120 and 320 or consent of instructor. Advanced course in investigative and interpretive reporting. Students will work in an editor-reporter relationship with instructor in researching and writing in-depth pieces on such complex issues as mass transit, air pollution, city government, poverty, crime, housing and drug abuse. Computer-assisted research and investigative and interviewing techniques will be stressed. Letter grade only (A-F).

422. Senior Media Production (1-3)

Prerequisite: Consent of instructor. Advanced work on Journalism Department publications as editors, writers, photographers, designers, or news broadcasters. Required course for *Daily Forty-Niner* and *University Magazine* editors. A student may not take course concurrently with JOUR 319A or JOUR319B. Letter grade only (A-F). May be repeated to a maximum of 9 units with consent of instructor.

430. Law of Mass Communications (3)

Principles and case studies of the law of the press, radio and television with emphasis on constitutional guarantees, prior restraints, libel, contempt, privacy, taxation, licensing, shield laws, free press vs. fair trial, and other laws affecting the news media.

431. Ethical Problems of the News Media (3)

Prerequisites: JOUR 120 with a grade of "C" or better or consent of instructor. The study of ethical codes and value systems used in writing, producing and presenting news in the United States. Philosophical foundations of moral theory and various approaches to ethical decision making for journalists and other media practitioners.

440. Writing for the Web (4)

Prerequisites: Consent of instructor. Focused on writing content for the Web, this course will help students sharpen their understanding of online journalism and the tools and technologies necessary for online publication. Students will learn and develop skills in computer-assisted reporting methods to conduct online journalistic research. Emphasis will be on generating content for online news, information and entertainment sources. Students will be encouraged to publish their work both on a class website and in other professional venues.

471. Agency Public Relations (3)

Prerequisites: JOUR 120, 370, and two of the following: JOUR 374, 375, and 376. This course is designed to acquaint students with the operation of a public relations agency. Students will work with others in an agency situation to develop a business proposal for an actual client involving a formal written plan and oral presentation. Students also serve as a public relations consultant and develop a public relations program for a nonprofit organization as a service-learning project. All assignments are designed to expand the student's skills in public relations problem-solving and critical thinking.

478. Public Relations Case Studies (3)

Prerequisites: JOUR 120, 370, and two of the following: JOUR 374, 375, and 376. Case studies are used to acquaint students with the types of problems they will encounter when working in the profit and nonprofit sectors. Strong emphasis is placed on analytic planning, critical thinking, and programmatic skills. Students will develop a research study examining a public relations issue in-depth.

480. Picture Editing (3)

Prerequisites: JOUR 120 and 331. Principles of picture selection for newspaper and magazine publication. Emphasis on preparing material — written and visual — for use as single picture or layout presentation. Course fee may be required.

482. Television News Production (3)

Prerequisites: JOUR 321 or consent of instructor. Scripting, voicing, shooting and editing news and feature stories for cablecast student program. Special emphasis on videography and editing. Letter grade only (A-F). (Lab 6 hrs.)

490. Special Topics in Mass Communications (1-3)

Topics of special interest in mass communications selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

494. Research Methods in Mass Communications (3)

Prerequisite: Consent of instructor. Basic techniques of research in mass communication and mass media. Overview of theory building and hypothesis testing procedures as applicable to current problems in the mass communication field. Scientific methods, survey and experimental design, field studies, analysis of data.

498. Internship (3)

Prerequisites: For seniors only, by faculty recommendation, with consent of department chair. Work of an editorial or writing nature at least one full day a week with cooperating organization in the Los Angeles-Orange County area. Work at a TV, radio, or production facility. Work edited and evaluated by supervisors of the participating public relations and media firms. Regular reports to faculty supervisor and regular scheduled meetings with supervisor on-campus to discuss progress and problems. Students should submit internship package, available from Department Office, then gain approvals above. Credit/No Credit grading only.

499. Special Projects (1-3)

Prerequisite: Open to journalism major only. Advance approval of instructor; (permit required to enroll). Research in the field of journalism in broadcast, newspaper, magazine, public relations, advertising or other related fields. Students must meet once a week with instructor. May be repeated to a maximum of 6 units with different topics.

Students may contact the Department Office for information and referral to the appropriate Faculty Advisor, Undergraduate Coordinator, Graduate Coordinator, or Credential Coordinator.

The Department of Kinesiology and Physical Education's mission is accomplished by providing excellence in instruction, scholarship and service through a multidisciplinary approach that will foster the development and maintenance of behavior that is essential for a healthy lifestyle in ever changing demographics. The Department's programs offer a course of study for students wishing to prepare for professional careers or related disciplines in physical education teaching (Adapted, Elementary, and Secondary), athletic training, fitness-wellness, exercise science, kinesiotherapy, sport psychology and coaching. The programs have been developed from physiological, psychological, biomechanical, and sociological principles. The Department also serves the needs of students completing majors in other fields who find that certain aspects of Kinesiology and Physical Education are important to their professional objectives and personal interests. In meeting the educational needs of these students, the Degrees, Certificates, and Minor available in the Department of Kinesiology and Physical Education include:

- Bachelor of Arts in Kinesiology in four options.
- Bachelor of Science in Kinesiology in four options.
- Master of Arts in Kinesiology in seven options.
- Master of Science in Kinesiology in three options.
- California Single Subject Clear Credential Programs in Physical Education (K-12)
- Adapted Physical Education Specialist Credential (K-12)
- Minor in Physical Education: Single Subject Credential Add-on
- Community Physical Fitness Certificate
- Wilderness Studies Certificate
- Kinesiotherapy Certificate

The Department of Kinesiology and Physical Education, in addition to its Degrees, Certificates, and Minor, assumes the responsibility for the psychological, physiological, and sociological needs and interest of the college student through general education, interdisciplinary, and physical activity course offerings. Students enrolling in physical education activity courses assume responsibility for satisfactory health status appropriate to the class activity.

In addition to the degree requirements for the Bachelor of Arts in Kinesiology and the Bachelor of Science in Kinesiology, the Major must meet the following Department policies and requirements for University graduation:

1. Each major course and prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than a "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite;
2. Upper division courses may not be waived by substitution or examination without Department petition and approval;

3. Current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent);
4. Department approval.
5. Bachelor degree Majors must also have Department clearance of lower division courses/activities and skill proficiencies.

Bachelor of Arts in Kinesiology

Students pursuing a Bachelor of Arts degree in Kinesiology must complete lower division and upper division core courses and skill proficiency requirements plus courses in a specific area (Option). Students may select their area of specialization from one of the four Options described below. In meeting the requirements of this degree, the Department offers four specialized Options for study which permit students to develop a conceptual understanding related to human movement and to focus on preparation for one or more specific occupations. The student must demonstrate 1) physical skill proficiency, 2) knowledge of physical fitness, and 3) knowledge in the personal performance activity courses completed according to the lower division core requirements for specific Options prior to graduation. A minimum of 120 units are required for graduation.

Physical Skill Proficiency

Each Bachelor of Arts Major is required to demonstrate physical skill proficiency at a 3.5 (1-5 scale) overall average level in fitness (KPE 263 or 343) and the personal performance activity courses required in each Option prior to graduation. Physical skill proficiency examinations are administered in the appropriate personal performance activity courses. Only physical skill proficiency scores in the range of a 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

Option in Athletic Training (code KPE_BA01) (120 units)

This Option is designed for students interested in careers in the prevention/care of athletic injuries and the administration of athletic training programs in public and private schools, colleges, universities, and with professional teams. Students interested in pursuing certification by the National Athletic Trainers Association Board of Certification (NATABOC), should consult the Department Program Director for Athletic Training Education.

The Athletic Training Educational Program (ATEP) is currently in JRC-AT candidacy for CAANEP Accreditation. Please be aware that candidacy does not guarantee the ATEP accreditation.

Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Athletic Training is an impacted program and has the following supplementary admission criteria:

- Freshman applicants to the Bachelor of Arts in Kinesiology Option in Athletic Training will be placed in the pre-major code.
- Transfer applicants must apply to the University during the initial filing period of October and November for the following Fall semester. They must indicate their choice of major on the application.
- Continuing students and transfer applicants seeking admission to the upper-division major in Athletic Training must submit a supplemental application to the department by February 1 for the Fall semester or by October 1 for the Spring semester. The supplemental application must be accompanied by 3 letters of recommendation, one of which must be from the athletic training observation or participation site noted below.
- Applicants to the upper division major must be able to demonstrate that they will meet the following requirements for admission prior to the semester for which the application is submitted:
 1. Completion of a minimum of 56 semester units of degree credit, including all lower division General Education requirements, with a minimum cumulative GPA of 2.75.
 2. Completion of the following prerequisite courses with a grade of "C" or better: BIOL 207 and 208; and PSY 100.
 3. Completion of the following prerequisite course with a minimum grade of "B": KPE 207 (Prevention and Care of Athletic Injuries).
 4. Completion of a minimum of 150 hours of observation or student athletic trainer participation in a traditional athletic training setting (interscholastic or intercollegiate) under the supervision of a NATABOC certified athletic trainer.

Requirements

Lower Division: BIOL 207, 208; PSY 100; KPE 207, 215, 263, and eight physical activity units distributed over a minimum of four activity categories:

Aquatics: KPE 125A, 125B, 237, 238;

Combative: KPE 106A, 149A;

Dance: KPE 185, 260;

Individual/Dual Sports: KPE 100A, 112A, 112B, 264, 265, 266, 267, 268;

Wilderness Studies: KPE 242, 244, 246A;

Team Sports: KPE 250, 253, 255, 257.

Upper Division: KPE 300, 301, 308A, 309, 310, 312, 315, 332I, 335, 363, 407; H SC 427; EDP 434B; Select one course from FCS 430 or H SC 210.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Option in Adapted Physical Education (code KPE_BA02) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Clear Credential in Physical Education (K-12) with a specialist credential in adapted physical education. The emphasis is placed upon teaching public school physical education to students with disabilities in preschool through grade 12. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching adapted physical education.

Lower Division: BIOL 207, 208; PSY 100; KPE 149A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 270; Select one course from 237, 238.

Upper Division: KPE 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 387, 388, 427, 460.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

Option in Elementary School Physical Education (code KPE_BA03) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Clear Credential in Physical Education (K-12). The emphasis is placed upon teaching public school physical education to students in grades K through 6. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching elementary school physical education.

Lower Division: BIOL 207, 208; PSY 100; KPE 149A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 270; Select one course from 237, 238.

Upper Division: KPE 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 460, 477, 483, FCS 430.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Bachelor of Science in Kinesiology

Students pursuing the Bachelor of Science degree in Kinesiology must complete the course requirements and the physical fitness proficiency of each Option. Students may select their area of specialization from the Options described below. These Options develop a student who has an integrated conceptual understanding of the discipline and its relationship to human movement. Each Option focuses on foundation preparation for a specific occupation or graduate work. A minimum of 132 units is required for graduation.

Physical Fitness Proficiency

Each Bachelor of Science Major is required to demonstrate a physical fitness proficiency at the minimum level of a 3.0 before graduation. The physical fitness proficiency examination is administered in KPE 263 Techniques of Fitness.

Option in Exercise Science (code KPE_BS01) (120 units)

This Option is designed primarily for those students interested in careers in exercise physiology, biomechanics, or motor control/learning as well as those students contemplating graduate work in these areas or one of the health professions, e.g., physical therapy.

Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Exercise Science is an impacted program and has the following supplementary admission criteria:

- Freshman applicants to the Bachelor of Science in Kinesiology Option in Exercise Science will be placed in the pre-major code.
- Transfer applicants must apply to the University during the initial filing period of October and November for the following fall semester. They must indicate their choice of major on the application.
- Continuing students and transfer applicants seeking admission to the upper-division major in Exercise Science must submit a supplemental application to the department by February 1 for the fall semester or by October 1 for the spring semester.
- Applicants to the upper-division major must be able to demonstrate that they will meet the following requirements for admission prior to the semester for which the application is submitted:
 1. Completion of a minimum of 56 semester units of degree credit, including all lower-division General Education requirements, with a minimum cumulative GPA of 2.75.
 2. Completion of the following prerequisite courses, each with a grade of "C" or better: BIOL 207 and 208; CHEM 111A; ENGL 100; MATH 112; PHYS 100A; and PSY 100.
 3. Show proof of current First Aid (Community) certification or CPR (Community) certification.
 4. Submit two letters of recommendation. A minimum of one letter must be from a natural sciences faculty member who can comment on your academic capabilities in the sciences.

Requirements

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: CHEM 111A, 111B; KPE 263; PHYS 100A, 100B, PSY 100.

Upper Division: KPE 405, 441, KPE 430 or 431; KPE 483 or BIOL 260; Select three courses from KPE 339I, 462, 465, 466.

Elective Courses: select 18 units (minimum 6 units from KPE) from the following courses: BIOL 200, 211A, 211B, 340, 341, 342 and 342L, 345, 401, 441, 442, 443, 445, 446; CHEM 327, 448; FCS 132, 331A, 331B; HHS 374, 401, 460, 471; H SC 150; KPE 315, 320, 339I*, 363, 430*, 431*, 462*, 465*, 466*, 471, 494, 495, 497.

* If not taken as one of the major required upper division courses.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

Option in Kinesiotherapy (code KPE_BS03) (120 units)

This Option is designed primarily for those students interested in careers which provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions. Students interested in certification by the American Kinesiotherapy Association (AKTA) must complete additional requirements. Please consult the Department Coordinator and the Kinesiotherapy Certificate Program for additional information.

Supplementary Criteria for Admission

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Kinesiotherapy is an impacted program and has the following supplementary admission criteria:

- Freshman applicants to the Bachelor of Science in Kinesiology, Option in Kinesiotherapy will be placed in the pre-major code.
- Transfer applicants must apply to the University during the initial filing period of October and November for the following Fall semester. They must indicate their choice of major on the application.
- Continuing students and transfer applicants seeking admission to the upper-division major in Kinesiotherapy must submit a supplemental application to the department by February 1 for the fall semester or by October 1 for the spring semester. The supplemental application must be accompanied by 3 letters of recommendation, one of which must be from the therapeutic or rehabilitation setting noted below.
- Applicants to the upper division major must be able to demonstrate that they will meet the following requirements for admission prior to the semester for which the application is submitted:
 1. Completion of a minimum of 56 semester units of degree credit, including all lower division General Education requirements, with a minimum cumulative GPA of 3.0.
 2. Completion of the following prerequisite courses with a grade of "C" or better: BIOL 207 and 208; and PSY 100.
 3. Completion of PSY 200 with a grade of "B" or better.
 4. Completion of a minimum of 100 hours of observation or active participation in a therapeutic or rehabilitation setting.

Requirements

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: PSY 100, 200; KPE 210, 263, and eight physical activity units distributed over a minimum of four activity categories:

Aquatics: KPE 125A, 125B, 237, 238;

Combative: KPE 106A, 149A;

Dance: KPE 185, 260;

Individual/Dual Sports: KPE 100A, 112A, 112B, 264, 265, 266, 267, 268;

Wilderness Studies: KPE 242, 244, 246A;

Team Sports: KPE 250, 253, 255, 257.

Upper Division: GERN 400I or BIOL 401; HHS 374; KPE 309, 315, 320, 332I or 335, 427, 489F; PSY 341, 370.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Option in Sport Psychology and Coaching (code KPE_BS04) (120 units)

The Option in Sport Psychology and Coaching has two Concentrations - one in Sport Psychology and one in Coaching. The course work for both concentrations is the same except for the elective courses. The Option is designed for students interested in careers in: 1) sport psychology; and 2) coaching outside the public school system (K-12), e.g., coaching professional athletes, coaching college athletes, coaching youth-sport athletes, and coaching in sport academies. A minimum of 132 units are required for graduation.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: FCS 132; KPE 263; PSY 100, 110, 200; and eight physical activity units to be distributed over a minimum of two activity categories:

Aquatics: KPE 125A, 125B, 237, 238;

Combatives: KPE 148A;

Individual/Dual Sports: KPE 264, 265, 266, 267, 268;

Team Sports: KPE 250, 253, 255, 257.

Upper Division: KPE 315, 332I, 335, 339I, 472, 475; PSY 333, 356.

Elective Courses for the Concentration in Sport Psychology: Select 15 units (minimum 6 units from KPE) from the following courses: HHS 374; H SC 427; KPE 471, 489B, 495, 497; PSY 141, 332, 370, 373, 475.

Elective Courses for the Concentration in Coaching: Select 15 units (minimum 6 units from KPE) from the following courses: ACCT 310; COMM 411; HRM 360; H SC 427; I S 240; KPE 489B, 497, 499; MKTG 300, 330; REC 321, 322, 324, 427.

A fieldwork, field experience, or internship requires current certification First Aid (ARC Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC Community, Professional Rescuer, AHA Level B, Level C or equivalent) prior to enrollment.

				BIOL 207 (GE B.1.a)	4	KPE 215	2
TOTAL UNITS	9	TOTAL UNITS	9	Approved KPE activity classes	2	BIOL 208	4

Sport Psychology & Coaching majors are required to enroll in 15 units of electives from the approved list. A minimum of 6 of these 15 units must have a KPE prefix.

Students should enroll in a 4-unit GE Physical Science with lab at some point during the first four semesters.

Option in Fitness (code KPE_BS02) (120 units)

This Option is designed for students interested in careers in the fitness industry, e.g. fitness director, manager, program specialist, coordinators, personal trainer, or group instructors in corporate, commercial, YMCA, or other public/private facility.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: FCS 132; PSY 100; KPE 215, 263, and eight physical activity units distributed over a minimum of two activity categories:

Aquatics: KPE 125A, 125B, 237, 238;

Combatives: KPE106A, 148A, 149A;

Dance: KPE 185, 260;

Fitness: KPE 142, 151A, 152A, 198A;

Individual/Dual Sports: KPE 100A, 100B, 112A, 112B, 264, 265, 266, 267, 268;

Wilderness Studies: KPE 242, 244, 246A, 247A;

Team Sports: KPE 250, 253, 255, 257.

Upper Division: HSC 435; KPE 332I or 335, 339I, 363, 364, 367, 368, 405, 467, 469, 483, 489D.

Elective Courses: Select twelve units from the following courses: FCS 433, 439; HSC 421, 423, 429; KPE 207, 309, 315, 332I*, 335*, 462, 465, 495, REC 421, 423, 425, 427.

* If not taken as one of the major required upper division courses.

A fieldwork, field experience, or internship requires current certification First Aid (ARC Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC Community, Professional Rescuer, AHA Level B, Level C or equivalent) prior to enrollment.

FOUR YEAR PLAN TO COMPLETE THE B.S. IN KINESIOLOGY AND PHYSICAL EDUCATION - OPTION IN FITNESS (KPE_BS02)

120 Units Required

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Adapted Physical Education Specialist Credential (code 490)

This program is designed for students interested in the administration and implementation of physical activity programs for persons with disabilities. Completion of this credential authorizes the California Adapted Physical Education Specialist Teaching Credential.

Requirements

1. Bachelor's degree with a teaching major in Kinesiology;
2. Must be obtained concurrently or after completion of the Single Subject Physical Education Teaching Credential, K-12;
3. KPE 320, 387, 388, 427, 526, 546; ED P 350; Select two courses from CD 280; ED P 405, 526, 546, 564, 579B.

Minor in Physical Education Teaching (code KPE_UM01)

The minor in Physical Education Teaching is available to any non-Kinesiology major. This minor is designed for those students who are striving for an additional credential. With completion of this minor, the University will recommend the additional credential in Physical Education.

Requirements

A minimum of 34 units as follows: BIOL 207 and KPE 301 or BIOL 208 and KPE 300; KPE 315, 343, 370, 380, 460, 483; EDSS 300P; Eight physical activity units including: KPE 237 or 238; 265; 250 or 257; 253 or 255; 264 or 268; 266 or 267; 270.

In addition to the above, each student is required to demonstrate skill proficiency at an average 3.5 level on a 5 point scale in KPE 343 and the 8 physical activity units completed to satisfy requirements for this minor. Only physical skill proficiency scores in the range of 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

Concentration in Physical Education Elementary Teaching

Requirements

A minimum of 21 units as follows: KPE 301, 312, 315, 370, 427, 476, 477.

Concentration in Physical Education Coaching

Requirements

A minimum of 20 units as follows: KPE 301, 207, 332I; a minimum of 11 units selected in consultation with appropriate KPE Advisor from the following: KPE 312, 363, 475, 489B.

Certificate Programs

The Department of Kinesiology and Physical Education offers four different certificate programs each of which is related to a special emphasis provided in the curriculum. All certificate programs are open to students enrolled in the University who meet general admission requirements as follows:

1. Completion of 30 hours of course work;
2. A minimum 2.75 GPA in all completed course work;
3. Admission application and approval by a faculty committee in the certificate program selected.

Wilderness Studies Certificate (code KPE_CT02)

This program is designed to develop leaders who can provide safe and challenging situations for individuals seeking self-fulfilling experiences in wilderness environments. The program of study will enable the student to acquire appropriate knowledge and skills, and to develop a personal philosophy reflecting understanding and concern for the protection of the environment and safety of participants in wilderness activities.

Requirements

1. Certification in First Aid and Cardiopulmonary Resuscitation;
2. Completion of Log of Outdoor Experiences;
3. Course work (31-33 units as follows): BIOL 100, KPE 346, 448, REC 490 with advisement. The following coursework must be taken in consultation with the advising coordinator: select four courses from KPE 131, 153, 242, 244, 247A; select two courses from KPE 243A, 243C, 245, REC 430; select one course from KPE 141, 446, 497, 499; select one course from FCS 132, REC 407, 431, 433.

Kinesiotherapy Certificate (code KPE_CT04)

This program is designed to prepare the student to pass the American Kinesiotherapy Association (AKTA) Certification Test. AKTA certification will qualify the therapist to provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions or in private practice. The student will complete the Kinesiotherapy Option in the undergraduate curriculum plus 27 additional units. Information concerning the certificate can be obtained from the Director of the Kinesiotherapy Program in the Department of Kinesiology and Physical Education.

Students seeking National Kinesiotherapy Certification need to complete the Undergraduate Option in Kinesiotherapy, the Undergraduate Kinesiotherapy Certificate, plus 12 post-baccalaureate Internship units with consensus of the Kinesiotherapy Advisor.

Requirements

1. Admission application and approval by Director;
2. Completion of the degree requirements of the Bachelor of Science: Option Kinesiotherapy;
3. Specialization course work requires a "B" or better grade for AKTA Certification;
4. Course work: BIOL 401 or GERN 400I; H SC 210 or 411A or 411B or 427; KPE 210, 309, 320, 405 or 499, 427, 438/538, 488/588, 485, 489F; PSY 341.

Graduate Program

Two degree programs are available to the student: Master of Arts degree in Kinesiology with seven Options and Master of Science degree in Kinesiology with three Options. The student may select the thesis/project track or the comprehensive examination track. The student who chooses the thesis/project track is required to complete a thesis or a project. The student who chooses the comprehensive examination track is required to take KPE 695. The minimum unit requirement for the MA degree major program is 30 units for thesis/project students and 36 units for comprehensive examination students. The minimum unit requirement for the MS degree major program is 33 units for thesis/project students and 39 units for comprehensive examination students.

Admission Criteria

1. A bachelor's degree from an accredited institution with a major in Kinesiology/Physical Education; or
2. A bachelor's degree in another field with a minimum of 15 units of upper division courses in Kinesiology comprised of foundational courses needed for the tentative degree plan to be determined by the student's major advisor and approved by the Department Graduate Coordinator. All foundational coursework must be completed prior to Advancement to Candidacy.
3. An overall undergraduate GPA of 2.50 or better and an upper division Kinesiology/ Physical Education major GPA of 2.75 or better;
4. A minimum cumulative score of 450 on the verbal, 450 on the quantitative and 3.5 on the analytical writing sections of the Graduate Record Examination.

Advancement to Candidacy

1. Completion of the general University requirements for advancement to candidacy;
2. Successful completion of the CSULB Writing Proficiency Examination. Information about the exam is available in the Testing Office (BH-216);
3. A graduate program must have approval of the student's advisor, Department Graduate Coordinator, and Associate Dean of Graduate Students, Research, and Faculty Affairs for the College of Health and Human Services.

Master of Arts in Kinesiology

Seven Options are under the Master of Arts degree in Kinesiology and are described below. The core courses for thesis students are KPE 590, 696, and 698. The core courses for comprehensive examination students are KPE 590, 695, and 696.

Option in Adapted Physical Education (code KPE_MA04)

This Option is designed to provide advanced preparation in adapted physical activity and the study of individuals with disabilities across the lifespan (preschool to adult).

Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 537, 538, 546, 638, and 697;
3. KPE 698 (4 units) for thesis/project students plus a minimum of 8 elective units;
4. KPE 695 for comprehensive exam students plus a minimum of 15 elective units.

Option in Coaching (code KPE_MA07)

This Option provides an in-depth study in the scientific, mechanical, emotional, and methodological realms of coaching.

Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 524, 540, 551, 560, 562, 575, 630, and 633;
3. KPE 593 (3-6 units) required after advancement to candidacy;
4. KPE 698 (4 units) for thesis/project students, plus a minimum of 2-5 elective units;
5. KPE 695 for comprehensive examination students, plus a minimum of 12-15 elective units.

Option in Motor Behavior (code KPE_MA06)

This Option is designed to provide advanced preparation in human movement from a behavioral perspective; this includes the examination of motor learning, control and development across the lifespan.

Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 540, 546, 630, 633, and 697 (3 units);
3. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

Option in Pedagogical Studies (code KPE_MA02)

This Option provides preparation in student design, instructional development, and evaluation to improve the supervision of skills and develop expertise in behavioral research methods.

Requirements

1. KPE 524, 525, 526, 590, 696, and 697;
2. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
3. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

Option in Sport Studies (code KPE_MA05)

This Option examines sport from the perspective of sociology, anthropology, history, psychology, and philosophy.

Requirements

1. KPE 590 and 696;
2. Minimum of 12 units from the following: KPE 573, 574, 577, 633, and 697 (3 units);
3. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

Option in Sport Management (code KPE_MA03)

This Option prepares individuals for careers in athletic administration and sports management. Upon completion of this program (36 units), individuals will be prepared to work in the sports industry in a variety of settings, including professional, intercollegiate, and interscholastic sports and sport-related businesses.

The program of study for this Option is currently offered only through University and College Extension Services. Instruction in this Option is presented in an accelerated cohort program format over 18 months.

Requirements

1. KPE 511, 512, 513, 514, 521, 577, 590, 591, 592A (6 units) and 696.
2. KPE 698 (4 units) for thesis/project students (Not available to students in the cohort format).
3. KPE 695 for comprehensive exam students.

Option in Individualized, Program, and Generalized Areas (code KPE_MA08)

These Options are designed to provide the student with curriculum activities that combine one or more option areas into a program of study. These Options are developed by the student with the advisement of a graduate faculty member and/or the Graduate Advisor. A statement of rationale for the proposal must accompany the program of study.

Requirements

1. KPE 590 and 696;
2. Minimum of 15 units from 500 and/or 600 level coursework in KPE;
3. KPE 698 (4 units) for thesis project students, plus a minimum of 5 elective units (individualized);
4. KPE 695 for comprehensive examination students, plus a minimum of 12 elective units (generalized and program areas only).

Master of Science in Kinesiology

Three Options are under the Master of Science degree in Kinesiology and are described below. The core courses for thesis/project students are KPE 580, 590, 696, and 698. The core courses for comprehensive examination students are KPE 580, 590, 695, and 696.

Option in Exercise Science (code KPE_MS01)

This Option is designed to provide up-to-date theoretical principles and practical experiences in exercise physiology and biomechanics.

Requirements

1. KPE 540, 550, 551, 552, 580, 590, 696, and either 594 or 697;
2. Select two of the following four courses or select 6 other units with advisor's approval: KPE 541, 562, 565, and 566;
3. KPE 698 (4 units) for thesis project students;
4. KPE 695 for comprehensive examination students, plus a minimum of 6 elective units.

Option in Sport and Exercise Psychology (code KPE_MS02)

This Option is designed to prepare students for careers in sport and exercise psychology, in particular as athletic performance enhancements specialists and/or as researchers and teachers in academic settings.

Requirements

1. KPE 572, 575, 580, 590, 633, 696 (18 units);
2. Two of the following courses: KPE 571, 573 or 574, 577, 630, 697 (6 units);
3. KPE 698 (4 units) for thesis students, plus a minimum of 5 units from PSY/E DP and/or additional KPE electives with advisor approval;
4. KPE 695 (3 units) for comprehensive examination students, plus 12 units from PSY/ED P courses and/or additional electives in KPE with advisor approval.

Option in Sports Medicine and Injury Studies (code KPE_MS03)

This Option is designed to provide the student with an in-depth study in the many health-related problems related to individuals who are physically active.

Requirements

1. KPE 540, 551, 560, 561, 562, 580, 590, 633, 696, and 697;
2. KPE 698 (4 units) for thesis/project students;
3. KPE 695 for comprehensive examination students, plus a minimum of 6 elective units.

Kinesiology and Physical Education Courses (KPE)

Activity Courses

100-198. Physical Education Activity (1)

A broad range of physical education activities is offered. These are designed to provide an opportunity for students to meet their health, physical and recreational needs and interests. Maximum of 8 units may be applied toward the University graduation requirement. Students enrolling in physical education courses assume the responsibility for satisfactory health status appropriate for class activity. KPE activity courses may be offered at the beginning (I), intermediate (II), and advanced (III) levels. All classes are co-educational, any student may enroll in the activity courses offered by the Department of Kinesiology and Physical Education. Classes offered within areas are as follows:

Individual/Dual Activities (1)

- 100A. Archery. Course fee may be required.
- 102A. Badminton
- 104A. Bowling. Course fee may be required.
- 108A. Golf
- 112A,B. Racketball
- 114A,B,C. Tennis
- 145A. Gymnastics
- 152A. Yoga

Combative Activities (1)

- 106A. Fencing-Foil
- 107A. Fencing-Sabre
- 148A. Karate
- 149A. Self Defense

Aquatics (1)

- 121A. Sailing. Course fee may be required.
- 124A. Surfing
- 125A,B. Swimming
- 126A. Swimming Conditioning
- 133A. Windsurfing. Course fee may be required.

Fitness Activities (1)

- 142. Low Impact Aerobics
- 146A. Jogging
- 151A. Weight Training and Conditioning

Team Activities (1)

- 161A. Basketball
- 162A. Beach Volleyball
- 165A. Flag Football
- 166. Rugby
- 167A. Soccer
- 169A. Softball
- 172A,B,C. Volleyball

Recreational Dance

- 183A. Recreational Dance Workshop
- 185. Social Dance

Special Studies (1-3)

- 198. Special Activities
 - A. Aqua Aerobics
 - B. Triathlon Fitness
 - E. Individual Adapted Activities

* See Physical Education professional courses for additional activities open to non-majors.

Kinesiology and Physical Education Courses (KPE)

Professional Courses

Kinesiology majors and minors will be given priority enrollment in classes required for the major. Selected courses are available to the general student body to receive credit toward general education requirements.

Lower Division

143. Individual Conditioning (1)

A course designed to introduce the student to the activities, equipment, and techniques used in the development of conditioning programs tailored to one's individual needs. May be repeated to a maximum of 8 units.

156. Sports Appreciation (3)

Prerequisite: One of the GE Foundation courses (may be taken concurrently). Introduction to the study of sport as a social institution in American society. Letter grade only (A-F) for Kinesiology majors/minors.

157. Fitness for Living (3)

Prerequisite: One of the GE Foundation courses (may be taken concurrently). Analysis and implementation of the concepts related to exercise for health and fitness. Letter grade only (A-F) for Kinesiology majors/minors. (Lecture 2 hours, Activity 2 hours.)

159. Aerobic Teacher Training (2)

Prerequisite: KPE 142 or equivalent. Instruction in organizing and teaching methodology of aerobic fitness concepts including movement principles, and exposure to a variety of activities applicable to aerobic teacher training. (Lecture 1 hour, Activity 2 hours.)

189. Country Dancing (1)

Instruction and practice in various country dance forms including line dancing, two-step, waltz, contra dancing, round dancing, and mixers. This course is useful for lifelong fitness, socialization, and recreation. May be repeated to a maximum of 8 units.

200. Psychological Skills for Peak Performance in Sport (3)

Introduction of psychological strategies and skills designed to help individuals overcome the barriers to optimal performance. Skills such as imagery, goal setting, cognitive restructuring, attentional focusing, arousal regulation, and coping presented. (Lecture, 3 hours)

207. Prevention and Care of Athletic Injuries (3)

Prerequisites: KPE 210 or equivalent. Principles and techniques of the prevention and care of common athletic injuries. (Lecture 2 hours, Activity 2 hours.)

210. Advanced Emergency Care (3)

Theory and practice of first aid for the injured. Successful completion of course requirements leads to the American National Red Cross advanced first aid and personal safety and community CPR certificate. Course fee may be required.

215. Career Perspectives in Human Movement (1)

An overview of human movement including professional preparation and employment opportunities. Orientation to current programs and proficiency requirements. Students entering the Kinesiology major are required to enroll in this course their first semester of study.

217. Introduction to Kinesiotherapy (2)

An introduction to the profession of Kinesiotherapy intended to provide the student with information regarding the history of the profession, its educational expectations, standards and scope of practice and a survey of the basic skills needed to enter this field of study. Letter grade only (A-F).

237. Techniques and Analysis of Aquatic Skills (2)

Prerequisites: KPE 125A or 125B or consent of instructor of instructor, American Red Cross Community First Aid and CPR certifications or equivalent. Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. To maintain enrollment, students must pass the swimming proficiency examination that will be administered the first week of instruction. Instruction and techniques in individual aquatic skills, hydrodynamic and movement principles, and an exposure to a variety of learning procedures applicable to the development of aquatic skills. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

238. Water Safety Instructor (2)

Prerequisites: KPE 125A or 125B or consent of instructor, American Red Cross Community First Aid and Safety and Cardiopulmonary Resuscitation certifications or equivalent. To maintain enrollment, students must pass the swimming proficiency examination that will be administered the first week of instruction. Comprehensive analysis of principles of movement, organizational strategies utilized in presenting aquatic activities and advanced swimming skills in physical education classes. Includes an opportunity to qualify for the American Red Cross Water Safety Instructor certification. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

239. Lifeguard Training (2)

Prerequisites: American Red Cross Community First Aid and Safety or equivalent. Provide lifeguard candidates with the skills and knowledge necessary to keep the patrons of aquatic facilities safe in and around the water. (Lecture 1 hour, Laboratory 3 hours.)

242. Backpacking (2)

An experiential examination and analysis in the judgment, knowledge, equipment and skills necessary to safe wilderness travel and living. (2-3 day field experience required.) Course fee may be required.

243A. Winter Mountain Expedition (3)

Introduction to winter mountaineering skills; study of the mountain environment. (Activity 6 hours) (2-3 day field experience required) Course fee may be required.

243B. Summer Mountain Expedition (3)

Instruction and extended experience developing the attitudes, judgment, knowledge and skills for safe mountain travel and living. Trip planning, logistics, navigation, mountain medicine, mountaineering techniques, safe and ecological camping will be learned and practiced while on a ten-day expedition. Throughout the wilderness expedition group process, leadership, problem solving and judgment all provide growth and experiential education opportunities that develop the successful wilderness traveler. Letter grade only (A-F). (Activity 6 hours) Course fee may be required.

243C. Desert Expedition (3)

Introduction to the skills, attitudes and knowledge required for safe use and enjoyment of desert areas. An interdisciplinary introduction to the meaning and significance of the desert. Trip planning, map use, methods of safe travel. Course includes field trip. Course fee may be required. (Activity 6 hours.)

244. Kayaking (2)

An experiential examination and analysis of the judgment, knowledge, equipment and skill development necessary to safe flat and whitewater kayaking. (2-3 day field experience required.) Course fee may be required. (Activity 4 hours.)

245. Wilderness Water Expedition (3)

Introduction to the skills, attitudes and knowledge required for safe use of varied types of wilderness waters. The skills and techniques of boat handling and trip planning. An interdisciplinary introduction to the study of waterways. (Activity 6 hours.) (2-3 day field experience required.) Course fee may be required.

246A. Mountaineering (2)

An experiential examination and analysis in the judgement, knowledge, equipment and skills necessary to safe mountaineering. Course includes field trip. Letter grade only (A-F). (Activity 4 hours.) Course fee may be required.

247A. Techniques of Rockclimbing (2)

Introduction to the basic skills, judgment and safety for technical rockclimbing. The skills and techniques of top roping, belaying rappels and self rescue. Course includes a field trip. Course fee may be required. (Activity 4 hours.)

250. Techniques of Basketball (1)

Open to Kinesiology majors and minors only. Instruction in individual and team skills and techniques utilized in the sport of basketball for successful performance. (Activity 2 hours.)

253. Techniques of Soccer (1)

Open to Kinesiology majors and minors only. Instruction in individual and team skills and techniques utilized in the sport of soccer for successful performance. (Activity 2 hours.)

255. Techniques of Softball (1)

Open to Kinesiology majors and minors only. Instruction and practice in catching, throwing, hitting, sliding, base running, and bunting. Comprehensive teaching of skills and techniques in softball. (Activity 2 hours.)

257. Techniques of Volleyball (1)

Open to Kinesiology majors and minors only. Instruction in individual and team techniques utilized in the sport of volleyball. (Activity 2 hours.)

260. Fundamental Rhythms (2)

Instruction and practice in fundamental rhythms involving folk and social dance forms. Designed for Kinesiology majors and minors, but open to all students. (Activity 4 hours.)

261. Techniques and Analysis of Fundamental Rhythms (2)

Open to Kinesiology Pedagogy Majors only. Instruction, practice and analysis of social and folk dances necessary for successful teaching of basic social and folk dances in the public schools. Includes instruction in the fundamental rhythms that are sequenced to make up the basic rhythm patterns of nearly all social and folk dances. Various floor pattern and rhythm variations are taught and analyzed in terms of their appropriateness for various age groups and skill levels. Letter grade only (A-F). (Activity 4 hours.)

263. Techniques of Physical Fitness (2)

Open to Kinesiology majors only or consent of instructor. Not open to Kinesiology majors in the pedagogy options. This course consists of instruction, practice, and evaluation in physical fitness. Cardiorespiratory, muscular strength and endurance, and flexibility activities will be emphasized within the course. Letter grade only (A-F). (Discussion 1 hour, Laboratory 3 hours.)

264. Techniques of Golf (1)

Open to Kinesiology majors and minors only. Instruction and techniques in individual skills and strategies for successful performance in golf. (Activity 2 hours.)

265. Techniques and Analysis of Gymnastics (2)

Open to Kinesiology majors and minors only. Techniques, instruction and comprehensive analysis of the principles of movement in gymnastics. Organizational strategies utilized in presenting gymnastics in Physical Education classes. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours)

266. Techniques of Badminton (1)

Open to Kinesiology majors and minors only. Instruction and techniques in the skills and strategies for successful performance in badminton. (Activity 2 hours.)

267. Techniques of Tennis (1)

Open to Kinesiology majors and minors only. Instruction, techniques and analysis in the concepts of teaching, coaching, and playing tennis. (Activity 2 hours.)

268. Techniques of Track and Field (1)

Open to Kinesiology majors and minors only. Instruction, techniques and analysis in the concepts of teaching, coaching, and performance in track and field. Letter grade only (A-F) (Activity 2 hours.)

270. Professional Practices in Public School Physical Education (3)

Prerequisite: Students must meet the University GE writing course requirement. Corequisite: Community CPR/First Aid/Safety or current certification. Open to Adapted, Elementary, and Secondary Option students in Kinesiology and Physical Education only. An introductory course designed to provide an overview of current professional practices in public school physical education. This course is the first course in a series of five sequential courses that Pedagogy Option majors take toward a Single Subject Physical Education credential. In this course, students begin the first phase of their Physical Education Student Assessment Portfolio (PESAP), which is used to assess the learning and progress in teaching throughout their coursework in the five sequential courses. Pedagogy Option students (Adapted, Elementary, Secondary) are required to take this course their first semester of their junior year or after completing 30 units of college course work. Letter grade only (A-F). (Lecture 2 hours, Laboratory 2 hours.)

Upper Division**300. Biomechanics of Human Movement (3)**

Prerequisites: BIOL 208 or equivalent. Anatomical structure and function, and mechanical principles relating to human motion, including analytical application. (Lecture 2 hours, laboratory 3 hours.)

301. Exercise Physiology (3)

Prerequisites: BIOL 207 or equivalent 4-unit Human Physiology course with 3-hour lecture and 3-hour laboratory with grade of "C" or better or consent of instructor. Basic concepts of the physiology of muscular exercise with emphasis on the responses and adaptations of the circulatory system, the respiratory system, and skeletal muscles to the physical stress of acute and chronic exercise. (Lecture 2 hours, Laboratory 3 hours). Course fee may be required.

304. Clinical Aspects of Athletic Training (3)

Prerequisites: BIOL 207, 208; KPE 207. Open to Kinesiology majors in athletic training or consent of instructor. Principles and techniques of related clinical concepts applicable to the athletic training setting. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours).

306. Medical Aspects of Athletic Training (3)

Prerequisites: BIOL 207, 208; KPE 207. Open to Kinesiology majors in athletic training or consent of instructor. Principles and techniques of related medical concepts applicable to the athletic training setting. Letter grade only (A-F).

308A. Athletic Training Evaluation I (2)

Prerequisites: BIOL 207; KPE 207, 300. Open to Kinesiology majors in Athletic Training or consent of instructor. Theoretical concepts and clinical skills related the assessment of athletic injury and illness. The first semester of a two-semester sequence (KPE 308A and 308B). Emphasis is on the injury evaluation process, injury nomenclature, lower extremity, thoracic and lumbar spine, and cervical spine. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

308B. Athletic Training Evaluation II (2)

Prerequisites: BIOL 207; KPE 207, 300, 308A. Open to Kinesiology majors in Athletic Training or consent of instructor. Theoretical concepts and clinical skills related the assessment of athletic injury and illness. The second semester of a two-semester sequence (KPE 308A and 308B). Emphasis is on the thorax and abdomen, upper extremity, eye, face, head and neck, environmental, selected cardiopulmonary conditions, and selected general medical conditions. Letter grade only (A-F). (Lecture 1 hour, Activity 2 hours)

309. Developmental and Therapeutic Exercise (3)

Prerequisites: KPE 300, 301 or consent of instructor, Principles, techniques, and prescription of exercises for development or rehabilitation of the body. (Lecture 2 hours, Activity 2 hours.)

310. Therapeutic Approaches in Athletic Training (3)

Prerequisites: KPE 308A or 309 or consent of instructor. Open to Kinesiology majors in the athletic training option only. Theory and application therapeutic modalities and exercise rehabilitation commonly used in athletic training programs. (Lecture 2 hours, Activity 2 hours).

312. Motor Control and Learning (3)

Prerequisites: BIOL 207, 208; PSY 100. Basic concepts of the neuro-motor and psychological contributions in the control and acquisition of skilled performance. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

315. Motor Development (3)

Prerequisites: BIOL 207, 208; PSY 100 or equivalent. Developmental perspective of the factors which contribute to the acquisition of motor control from the period of infancy through adolescence. (Lecture 2 hours, Activity 2 hours)

320. Adapted Physical Education (3)

Prerequisites: BIOL 208. This course is designed to prepare Kinesiology majors to meet the physical activity program needs of persons with disabilities. Designed primarily to understand the etiology and characteristics of persons with mental, physical, emotional, sensory, health, learning and/or multiple impairments. When appropriate, be able to successfully integrate the disabled individual into the physical education mainstream. (Lecture 2 hours, Activity 2 hours).

332I. Sociocultural Dimensions of Sport and Human Movement (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Socio-cultural and psychological correlations to human movement.

335. Historical and Cultural Foundations of Sport and Kinesiology in America (3)

Prerequisites: Upper division standing. Open to Kinesiology Majors only. Survey of the history of sport and kinesiology. Historical identification of the cultural trends and functions of sport and kinesiology in America.

338I. Women in Sport (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as W/ST 338I.

339I. Psychology of Sport Behavior and Athletic Performance (3)

Prerequisites: Completion of GE Foundation, PSY 100, and upper-division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as PSY 339I.

343. Techniques and Analysis of Physical Fitness and Activity (2)

Prerequisite: KPE 270. Open to Kinesiology/Physical Education Pedagogy Majors and Minors only. Knowledge and understanding needed to plan and implement physical fitness and physical activity programs in the public school setting. Analysis of the development, maintenance, implementation, and self-assessment of physical fitness and physical activity. The activity component of the course includes fitness development that is designed to prepare the student for *FITNESSGRAM* assessments and the Department's Physical Fitness Proficiency Examination. Letter grade only (A-F). (Lecture 1 hour, Activity 3 hours).

346. Wilderness Emergency Care (2)

Prerequisites: One wilderness skill course or equivalent; KPE 210 or current certification in first aid and cardiopulmonary resuscitation. Techniques concerned with wilderness emergencies, including advanced first aid, cardiopulmonary resuscitation, search and rescue and emergency evacuation methods. (Lecture 1 hour, Activity 2 hours.) Course fee may be required.

354. Technology in Physical Education (3)

This course is designed to provide an overview of the use of technology applications in education, focusing on the application of technology in physical education. Specifically the development of word processing, spreadsheet, and presentation, documents, the use of video technology (analog and digital), development of web-based information, the use of internet related software and technologies, the creation of pdf documents, the use of personal digital assistants (PDAs) and the use of commercially produced education software. This course meets the computer technology requirement for the California Single Subject Preliminary Credential. Letter grade only (A-F). (Lecture 2 hours, laboratory 2 hours).

363. Theory and Analysis of Group Fitness Instruction (2)

Prerequisite: KPE 263. Open to Fitness Option students in Kinesiology and Physical Education only, or consent of instructor. Students in this course will learn to become effective group exercise leaders by understanding responsibilities of fitness leaders, principles of fitness, and leadership skill. Techniques for various group exercise activities will be taught. Letter grade only (A-F). (Discussion 1 hour, Activity 2 hours.)

364. Fitness for Adult Populations with Unique Health Considerations (3)

Prerequisites: KPE 301. Open to Fitness Option students in Kinesiology and Physical Education only, or consent of instructor. This course is designed to provide the students with scientific information regarding exercise testing and exercise prescription for adult special populations. Topics include pregnancy, diabetes, arthritis, stroke, respiratory disorder, coronary artery disease, hypertension, and obesity. Letter grade only (A-F).

367. Fitness and the Aging Process (3)

Prerequisites: KPE 301. Open to Fitness Option students in Kinesiology and Physical Education only, or consent of instructor. This course will provide knowledge in the area of fitness and the older adult. Topics will include scientific theories of aging, age-related changes that affect physical capacity, physical activity and its impact on the aging process, and physical activity programming for the older adult. Letter grade only (A-F). (Discussion 2 hours, Laboratory 2 hours.)

368. Resistance Training for Fitness (3)

Prerequisites: KPE 300, 301. Open to Fitness and Athletic Training Option students in Kinesiology and Physical Education only, or consent of instructor. Students in this course will learn the details of utilizing resistance training for fitness. The focus of the course will be on the proper execution of resistance exercises typically performed in the health club setting. In addition, students will learn to design resistance-training programs based on scientific principles for individuals interested in developing muscular strength and endurance for general health and fitness. Letter grade only (A-F). (Discussion 2 hours, Activity 2 hours.)

370. Movement Theory and Practice of Elementary Physical Education (3)

Prerequisite: KPE 270. A creative and movement oriented analysis of the components of basic movement with application to games, gymnastics, dance, aquatics, and developmental skills commonly experienced and/or taught in elementary school physical education programs. Principles, aims, and objectives of elementary physical education. Observation and practice in the teaching techniques used in elementary physical education. Designed for Kinesiology majors. (Lecture 2 hours, Activity 2 hours)

380. Principles, Organization and Management of Secondary School Physical Education (3)

Prerequisites: KPE 149, 237 or 238, 250, 253, 255, 257, 261, 264, 265, 266, 267, 268, 343, 370 or consent of instructor. Corequisite: EDSS 300P. Principles, organization and management of activities taught in secondary schools, includes basic organization and management strategies and fieldwork experience in public secondary school physical education. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours.)

387. Physical Activities for the Disabled (3)

Prerequisites: KPE 320, 427. Corequisite: KPE 489A. Adaptation of physical activities, equipment, and facilities for individuals with permanent disabilities affecting motor performance. (Lecture 2 hours, Activity 2 hours)

388. Program Planning and Instruction in Adapted Physical Education (3)

Prerequisite: KPE 387. Corequisite: KPE 489A. Emphasis on program planning and the development of teaching skills in Adapted Physical Education. (Lecture 2 hours, Activity 2 hours)

405. Cardiopulmonary Aspects of Health-Related Exercise Programs (4)

Prerequisites: KPE 210 or current First Aid and CPR certificates, KPE 301. Application of advanced exercise science concepts in the design and execution of cardiopulmonary exercise training programs for apparently healthy adults. Letter grade only (A-F). (Lecture 3 hours, Laboratory 3 hours)

407. Management Strategies in Athletic Training (3)

Prerequisites: Senior standing or consent of instructor. Open to Kinesiology majors in the athletic training option only. Professional issues, administration, and management strategies of athletic training programs.

427./527. Physical and Motor Assessment (3)

Prerequisites: KPE 315 or equivalent and KPE 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KPE 427; Graduate students register in KPE 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

430. Motor Control Principles and Theory (3)

Prerequisite: KPE 312 or equivalent. Study of the principles, models, and theories of human movement control with an emphasis on application to sport, physical education, human factors, and human performance. Instruction is directed toward understanding the research methods used to evaluate motor control, fundamental principles of motor control, theoretical propositions of human movement control, and applications to relevant movement-intensive settings. Letter grade only (A-F).

431. Scientific Foundations of Locomotion (3)

Prerequisites: KPE 300, 312. Instruction is directed towards understanding the influence of motor control theories, biomechanical principles, and constraints to human movement on locomotion. Letter grade only (A-F).

438./538. Motor Dysfunction and the Exceptional Person (3)
Prerequisites: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

441./541. Applied Biomechanics: Lifting and Work Capacity (3)

Prerequisite: KPE 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to test and evaluate strength. Letter grade only (A-F).

448. Wilderness Studies: Leadership Practicum (3)

Prerequisites or corequisites: KPE 346. Analysis and practice of the leadership and teaching techniques appropriate to the conduct of wilderness adventure programs. Course fee may be required.

457. Applied Theory of Teaching Team Sports (3)

Prerequisites: KPE 250, 253, 255, 257 or consent of instructor. Comprehensive analysis of the principles of movement, corrections of performance, and organizational strategies utilized in presenting team sports: basketball, flag football, soccer, softball, volleyball, floor hockey, speedball, and team handball. Letter grade only (A-F). (Lecture 2 hours, activity 2 hours.)

460. Applied Theory and Analysis of Non-Traditional Physical Education Games and Activities (2)

Prerequisites: KPE 370, senior standing, pen to Kinesiology majors and minors only. Organization and management to effectively plan and implement a variety of non-traditional physical education games and activities such as cooperative games, problem solving activities, collaborative learning groups, and outdoor educational experiences. Letter grade only (A-F). (Lecture 1 hour, Laboratory 3 hours.)

461. Applied Theory of Teaching Individual and Dual Sports (3)

Prerequisites: KPE 237 or 238, 264, 265, 266, 267, 268, or consent of instructor; senior standing. Open to Kinesiology majors in the Adapted, Elementary, and Secondary Physical Education options. Comprehensive analysis of the principles of movement and organizational strategies utilized in archery, badminton, golf, paddle tennis, pickleball, racquetball, tennis, swimming, orienteering, and track and field. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours.)

462./562. Advanced Strength and Conditioning (3)

Prerequisites: KPE 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized. Letter grade only (A-F).

465./565. Clinical Exercise Electrocardiography (3)

Prerequisites: BIOL 207, KPE 301, and/or consent of instructor. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

466./566. Biochemical and Hormonal Adaptations to Physical Activity (3)

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KPE 466; graduate students register in KPE 566. Letter grade only (A-F). Same course as FCS 466./566.

467. Fundamentals of Personal Training (3)

Prerequisites: KPE 368. Open to Fitness Option students in Kinesiology and Physical only, or consent of instructor. This course is designed to provide the student with the theoretical knowledge and practical skill needed to become a personal trainer. The course covers such topics as the business of personal training, client-trainer relationships, fitness and health assessments and exercise prescription. Letter grade only (A-F). (Discussion 2 hours, Laboratory 3 hours.)

469. Fitness Management (3)

Prerequisite: KPE 467. Open to Kinesiology Fitness Majors only or consent of instructor. This course will provide knowledge in the area of management of fitness programs. Topics will include program development, personnel issues, financial and legal considerations, equipment purchasing, and marketing strategies for fitness programs. Letter grade only (A-F).

471./571. Biofeedback Applications in Sport and Exercise Science (3)

Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KPE 471; graduates register in KPE 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KPE 571 students. Letter grade only (A-F).

472./572. Applied Sport and Exercise Psychology (3)

Prerequisites: Upper division status and consent of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

475./575. Psychology of Coaching (3)

Current topics of psychological concern and application as related to athletic performance.

476. Physical Education for the Elementary School Teacher (3)

Prerequisites: Senior Standing. This course provides Multiple Subject Credential candidates with the knowledge and experiences necessary to implement a quality physical education program based upon the California State Physical Education Framework. Course content is designed to meet each subdomain of the CCTC physical education content specifications. Laboratories provide experiences in a variety of skills including hula hoops, jump bands, flying discs, long and short jump ropes, health related physical fitness, active games, individual and team sports, lead-up games, stunts and tumbling and international games and dances. Implementation of the FITNESSGRAM Education and Assessment Program (the state mandated fitness test battery) and subject integration activities are included. (Lecture 2 hours, Activity 2 hours)

477. Innovative Curriculum in Elementary School Physical Education (3)

Prerequisites: KPE 370 or 476 or consent of instructor. Theory and application of elementary school physical education curriculum. Designed for students specializing in elementary school physical education programs. (Lecture 2 hours, Activity 2 hours)

483. Measurement and Evaluation in Physical Education (3)

Prerequisites: Senior Standing. Principles and techniques of construction, organization, administration, interpretation and evaluation of measuring devices used in Kinesiology. (Lecture 2 hours, Activity 2 hours)

485. Neurological and Pathological Foundations for Kinesiotherapy (3)

Prerequisites: BIOL 207, 208; KPE 300, 301, 320, 489F, or consent of instructor. Survey of neurological control of normal movement and the implications of various medical pathologies for rehabilitation. Emphasis on inflammatory processes, metabolic and vascular disturbances, traumatic injuries, nutritional deficiencies, neoplasms, degenerative conditions and congenital disorders as related to the practice of Kinesiotherapy. Letter grade only (A-F).

487./587. Supervised Activity Instruction Experience (1-3)
Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 487; graduates register in KPE 587). Experience in the organization of and methods for the activity component of a course in kinesiology and physical education. A written report is required for KPE 587 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to major students only. Not open to graduate students who have previously earned KPE 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

488./588. Clinical Basis of Kinesiotherapy (3)
Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Letter grade only (A-F).

489. Field Work in Physical Activity Settings (1-3)
Prerequisite: Completion of Kinesiology course requirements for the major Option in which field work is taken. Supervised practice in working with individuals or small to large groups in public or private agencies and schools. Credit/No Credit grading only. May be repeated to a maximum of 9 units.

- A. Fieldwork in Adapted Physical Education
- B. Fieldwork in Athletic Coaching
- C. Fieldwork in Athletic Training
- D. Fieldwork in Fitness

Additional Prerequisites: KPE 467, completion of 200 hours in a corporate fitness setting, 200 hours in a traditional fitness setting, and 100 hours of approved fitness experience. Open to Fitness Option students in Kinesiology and Physical Education only. Supervised fitness experience in working with individuals or small to large groups in public or private agencies.

- F. Fieldwork in Kinesiotherapy
- G. Fieldwork in Motor Development
- K. Fieldwork in Wilderness Studies

Prerequisites: KPE 242, 244, 246 or 247, 243B or 243C or 245. Completion or corequisite of KPE 448, certification in CPR and First Aid, and consent of instructor. Supervised experience and practice in working with individuals and groups in public/private agencies and schools involved in wilderness activities. Students may enroll in 1-3 units of fieldwork. Each unit is equivalent to 40 hours of fieldwork assignment. A minimum of 120 hours are required for 3 units, of which at least 40 hours will be with the CSULB Wilderness Studies Program. The balance of the hours will be with public/private agencies.

490A. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and Grade of "B" or better in KPE 207; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form. Supervised clinical experiences in athletic training. Course is designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 150 hours of clinical experience performed under the supervision of an NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

490B. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KPE 490A; satisfactory completion of CSULB ATEP Physical Exam Form and satisfactory completion of CSULB ATEP Technical Standards Form. Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

490C. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KPE 490B. Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of a NATABOC Approved Clinical Instructor (Credit/No Credit grading only).

490D. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KPE 490C; Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (Credit/No Credit grading only).

490E. Clinical Practicum in Athletic Training (2)
Prerequisites: Consent of instructor and successful completion of KPE 490D; Continuation of laboratory and clinical experiences designed to provide students with formal instruction and evaluation in the Entry Level Athletic Training Clinical Proficiencies. This course requires the completion of a minimum of 300 hours of clinical experience performed under the supervision of an Approved Clinical Instructor (Credit/No Credit grading only).

494./594. Exercise Science Internship (3)
Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KPE 300 for a biomechanics internship or KPE 301 for an exercise physiology internship or KPE 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KPE 494; Graduate students register in KPE 594. Letter grade only (A-F). May be repeated to a maximum of 6 units.

495./595. Supervised Laboratory Methods (1-3)
Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 495; graduates register in KPE 595.) Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. A written report is required for KPE 595 students. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KPE 495 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.) May be repeated to a maximum of 4 units.

***497. Independent Study (1-3)**
Prerequisites: Major or minor in physical education, senior status and consent of KPE Department. Student will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated to a maximum of 6 units. Letter grade only (A-F).

***499. Special Studies (1-3)**
Group investigation of topics of current interest in kinesiology or athletics. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

Graduate Level

511. Sports Marketing, Development, and Fund Raising (3)

Prerequisites: Graduate standing and a Baccalaureate Degree in Kinesiology/Physical Education or related field and admission to the KPE Graduate Sports Management Program This course will provide students with an overview of sport marketing and basic marketing terminology, as well as concepts of sports marketing and the application of these concepts. Topics for discussion include sport sponsorship, sport licensing, employee relations, community relations, media relations, customer relations, image enhancement, and the used of the Internet in sports marketing. Letter grade only (A-F).

512. Legal and Ethical Issues in Sport (3)

Prerequisites: Graduate standing; admission into the KPE Graduate Sport Management Program. An examination of legal and ethical issues associated with problem-solving and decision-making in sport management. Letter grade only (A-F).

513. Personnel and Facility Management in Athletics (3)

Prerequisites: Graduate standing admission into the KPE Graduate Sport Management Program. An examination of the principles and practices associated with managing personnel and facilities in interscholastic, intercollegiate, amateur, and professional athletics. Letter grade only (A-F).

514. Sport Finance

Prerequisites: Graduate standing; admission into the KPE Graduate Sport Management Program. Financial management principles for use in interscholastic, intercollegiate, amateur, and professional sports. Special emphasis will be placed on understanding various means for controlling costs and increasing revenue in athletic organizations. Letter grade only (A-F).

521. Foundations of Sport Management (3)

Prerequisite: EDSS 450P or equivalent, or teaching experience (including student teaching). A course in the management and supervisory philosophies; principles and practices of administering and supervising physical education and athletic programs in the public school system, including scheduling, budgeting, public relations, facility planning, liability, supervision of personnel, curriculum and evaluation; techniques of management and supervision as they apply to athletics and physical education at the secondary and college levels.

524. Analysis of Teaching in Physical Education (3)

Analysis of teachers and teaching in physical activity environment: focus on developing observational competencies, analysis of research completed and future research designs.

525. Instructional Design in Physical Education (3)

Prerequisites: Undergraduate major in physical education, EDST 300. A systems approach to designing instruction for the physical education program.

526. Applied Behavior Analysis in Physical Education (3)

Application of applied behavior analysis principles to physical education (sport) with particular emphasis on single subject research designs and behavior analysis in the physical education setting.

527./427. Physical and Motor Assessment (3)

Prerequisites: KPE 315 or equivalent and KPE 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KPE 427; Graduate students register in KPE 527. Letter grade only (A-F). (Lecture 2 hours, Activity 2 hours)

530. Neuromotor Control (3)

Prerequisites: Graduate standing, KPE 312 or equivalent. Study of the neurological and muscular contributions to the control of human movement with emphasis on application of concepts to sports, physical activity, and human factors. Instruction is directed toward understanding the fundamental principles of motor control. Letter grade only (A-F).

537. Physical Education for Special Populations (3)

Foundations in the organization and conduct of Adapted Physical Education.

538./438. Motor Dysfunction and the Exceptional Person (3)

Prerequisite: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

540. Biomechanical Factors in Human Movement (3)

Prerequisite: KPE 300 or equivalent. Study of film, video and force plate data collection for human movement evaluation, including data smoothing techniques. Quantitative kinematic and kinetic analysis examples including gait, jumping and lifting activities. Comparison of 2D versus 3D analyses of movement activities. Letter grade only (A-F).

541./441. Applied Biomechanics: Lifting and Work Capacity (3)

Prerequisite: KPE 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon, and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to develop and test strength. Letter grade only (A-F).

546. Developmental Aspects of Motor Behavior (3)

Prerequisite: KPE 315 or equivalent. The study of major factors which contribute to the development of motor skillfulness from birth to maturity. Letter grade only (A-F).

550. Instrumentation in the Exercise Sciences (3)

Prerequisites: Graduate standing and KPE 301 or equivalent. Theoretical and practical analysis of instrumentation used in the exercise science laboratory. Concepts to be developed include basic fundamentals of scientific instrumentation, equipment validity and reliability. Instruments to be studied include those used in the assessment of cardiopulmonary functional capacity, body composition, muscular strength, and power. Use of personal computers in the laboratory will be emphasized. Letter grade only (A-F).

551. Advanced Exercise Physiology (3)

Prerequisites: KPE 301 or equivalent and BIOL 207 or equivalent. Advanced concepts in exercise physiology. Letter grade only (A-F).

552. Physiology of Exercise Testing and Training (3)

Prerequisites: KPE 301 or equivalent and BIOL 207 or equivalent. Study of the various aspects of health enhancement exercise programs (e.g., physiological assessment, physical training, weight control, and risk factor modification) for healthy individuals and patients with systemic diseases such as hypertension, coronary artery disease, and chronic airways obstruction. Letter grade only (A-F).

553. Environmental Aspects of Human Performance (3)

Prerequisites: Graduate standing; KPE 301 or equivalent with a grade of "C" or better or consent from the instructor. A study of the physiological responses and adaptations of humans to the environment during physical activity. Topics to be covered include: physical activity in the heat and cold, work in hypo- and hyperbaric environments, microgravity, and acute and chronic exposure to air pollutants. Emphasis will be placed on human physical performance and its limitations under various environmental conditions. Letter grade only (A-F).

560. Health Related Problems in Sport (3)

Prerequisites: KPE 207 and 301 or their equivalents and BIOL 207 and 208 or their equivalents. Examination of health problems related to engaging in vigorous physical activity. Letter grade only (A-F).

561. Musculoskeletal Injuries in Sport (3)

Prerequisites: KPE 207 and 300 or their equivalents and BIOL 208 or its equivalent. An in-depth study of the most prevalent musculoskeletal injuries occurring in sports activities, including mechanisms, tissue responses, and management procedures. Letter grade only (A-F).

562./462. Advanced Strength and Conditioning (3)

Prerequisites: KPE 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized. Letter grade only (A-F).

565./465. Clinical Exercise Electrocardiography (3)

Prerequisites: BIOL 207, KPE 301, and/or consent of instructor. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KPE 466; graduate students register in KPE 566. Letter grade only (A-F). Same course as FCS 566./466.

571./471. Biofeedback Applications in Sport and Exercise Science (3)

Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KPE 471; graduates register in KPE 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KPE 571 students. Letter grade only (A-F).

572./472. Applied Sport and Exercise Psychology (3)

Prerequisites: Upper division status and consent of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

573. History of Sport in the U.S.A. (3)

Prerequisite: KPE 335 or equivalent. An analysis of the history of American sport as it reflects the dominant themes in American society.

574. Contemporary International Sport (3)

Investigation of contemporary international sport in various world cultures.

575./475. Psychology of Coaching (3)

Current topics of psychological concern and application as related to athletic performance.

577. Sport in U.S. Culture (3)

Prerequisite: KPE 332I or equivalent. Analysis of physical activities in U.S. culture. Consideration of the relationships between sports and games and the factors of status, values, environment and cultural change.

580. Computer Applications in Physical Education (3)

Prerequisites: Graduate standing, consent from instructor. Introduction to computer hardware and software used in Kinesiology and Physical Education including DOS/Windows and Apple Macintosh operating systems. Topics include: hardware, operating systems, word-processing, spreadsheets, data exchange, presentation graphics/authoring tools, and video capture. Emphasis will be placed on integrating the use of hardware and software into a variety of Physical Education environments.

587./487. Supervised Activity Instruction Experience (1-3)

Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 487; graduates register in KPE 587). Experience in the organization of and methods for the activity component of a course in kinesiology and physical education. A written report is required for KPE 587 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to major students only. Not open to graduate students who have previously earned KPE 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

588./488. Clinical Basis of Kinesiotherapy (3)

Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Letter grade only (A-F).

588L. Kinesiotherapy Clinical Training I Laboratory (6)

Corequisite: KPE 588. Instruction and observation at the Long Beach Veterans Administration Medical Center.

589. Kinesiotherapy Clinical Training II (3)

Prerequisite: Satisfactory completion of KPE 588. The theory and practice of kinesiotherapy techniques in a medical center setting. 500 hours of instruction and observation at the Long Beach Veterans Administration Medical Center.

589L. Kinesiotherapy Clinical Training II (3)

Corequisite: KPE 589. Laboratory instruction and observation at the Long Beach Veterans Administration Medical Center.

590. Statistical Analysis and Measurement in Kinesiology and Physical Education (3)

Prerequisites: EDSE 421, EDSS 450P or 450W, KPE 483 or equivalent. Consideration of the logic and application of statistical inference, sampling theory, correlation, analysis of variance and design of statistical studies. Critical analysis of selected research publications. Required of all master's degree candidates. To be completed within first 12 units of 500-600 series courses.

591. Field Studies in Sport Event Management (3)

Prerequisites: Graduate standing; admission to the KPE Graduate Sports Management Program. Focus on planning and development of interscholastic, intercollegiate, amateur, and professional sport-related events. Complete 15 hours of seminar and 120 hours of supervised practical experience in a sporting event setting. Letter grade only (A-F).

592A. Sports Management Internship (3)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KPE 521 or 685; approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 6 units. Letter grade only (A-F).

592B. Sports Management Internship (6)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KPE 521 or 685; approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Letter grade only (A-F).

593A. Coaching Internship (3)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated to a maximum of 6 units. Letter grade only (A-F).

593B. Coaching Internship (6)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Letter grade only (A-F).

594./494. Exercise Science Internship (3)

Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KPE 300 for a biomechanics internship or KPE 301 for an exercise physiology internship or KPE 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KPE 494; Graduate students register in KPE 594. Letter grade only (A-F). May be repeated to a maximum of 6 units.

595./495. Supervised Laboratory Methods (1-3)

Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 495; graduates register in KPE 595.) Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. A written report is required for KPE 595 students. May be repeated to a maximum of 4 units. Letter grade only (A-F). Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KPE 495 credit in this course. (Conference 1 hour, laboratory 2 hours per unit) May be repeated to a maximum of 4 units.

597. Independent Research (1-3)

Prerequisites: Consent of KPE faculty member and graduate advisor. Independent research under the guidance of a faculty member. Varied learning activities utilized to achieve competency related to Physical Education not offered in regular classes. Written report required. Letter grade only (A-F). (Independent Study)

630. Seminar in Motor Learning (3)

Prerequisites: KPE 312, 590 and 696 (may be taken concurrently). Identification and analysis of principles and concepts applicable to motor learning in physical education.

633. Seminar in Sport Psychology (3)

Prerequisites: KPE 332I or equivalent and PSY 100; teaching or coaching experience (including student teaching). Study of psychological theories and concepts and their relationship to human behavior in sport. Sport viewed in the context of the participant, the teacher/coach, the spectator and the entrepreneur.

638. Seminar in Trends in Adapted Physical Education (3)

Prerequisite: KPE 537 or 538, or equivalent. An examination and analysis of the current trends in Adapted Physical Education.

685. Seminar in Athletics (3)

Experience in the field. Special problems related to the administration of an athletic program including current issues and practices and supervised research in selected areas.

695. Seminar In Professional Literature (3)

Prerequisites: KPE 590, 696. Critical analysis and synthesis by comparative review of professional literature in kinesiology and physical education. Required of all candidates not electing thesis option.

696. Research Methods (3)

Prerequisite: Undergraduate major in Kinesiology, Physical Education, or related field. Methodological approaches to contemporary problems in Kinesiology; research design; and reporting. Required of all Master's degree candidates. To be completed within the first 12 units of 500-600 series courses.

697. Directed Studies (1-3)

Prerequisites: KPE 590, 696, advancement to candidacy. Research in an area of specialization under the direction of a faculty member.

698. Thesis/Project (1-4)

Prerequisites: KPE 590, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis/project.

699. Seminar in Selected Topics (3)

Intensive study of salient problems of current professional importance to experienced physical educators. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the *Schedule of Classes*.

Certificate in Latin American Studies (code COLACT01)

Latin American Studies administers an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Latin American Studies. Courses used to meet this certificate requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

Requirements

1. The following are the requirements for the Latin American Certificate Program:
 - A. A Bachelor's Degree with a major in a traditional discipline; may be completed concurrently with the certificate.
 - B. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration.
 - C. Students must consult with and receive approval from the program advisor.
2. The instruction Program is comprised of 24 units which may be completed concurrently, distributed as follows:
 - A. CORE (Required of all students 6 units. Choose from two disciplines) ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359, SPAN 445
 - B. ELECTIVES: 18 units from the following disciplines. Cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490*, 499*; CHLS 352, 380, 400, 420, 499*; C/LT 440, 499*; ECON 363, 490*, 499*; HIST 362, 364, 366, 461, 462, 463, 466, 490*, 495, 498*; FEA 392C; POSC 358, 359, 497*, 499*; SOC 341, 490*, 499*; SPAN (RGR) 341, 441, 445, 492, 550, 490*, 499*

*Special Topics and Directed Studies courses in the area of Latin American Studies have to be approved by the advisor.

Minor in Latin American Studies (code HISTUM03)

The requirements for a recently established interdisciplinary Minor in Latin American Studies can be found in this catalog in the sections describing the Departments of History and Romance, German, Russian languages and Literatures.

LEGAL STUDIES

College of Liberal Arts

Director

Albie Burke (History)

Telephone

(562) 985-4458

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

Certificate in Legal Studies (code COLACT03)

The Certificate Program in Legal Studies is designed for students who are interested in the study of law as a cultural product and as a field of critical inquiry. It is not a professional program in para-legal education. The certificate may be earned in conjunction with any baccalaureate degree and should be especially useful to those preparing for careers in government service, business, journalism and education. Courses taken in the program may be used to satisfy major, minor, other credential or general education requirements. No more than 12 units, however, may be in the candidate's major.

The Legal Studies Certificate may be earned concurrently with or following the award of the baccalaureate degree from CSULB or another accredited institution. See pp. 102 and 114.

Requirements

Twenty-four total units distributed as follows:

1. Twenty-one units which must include HIST 308I and an additional 18 units from the courses listed below. The courses taken in the program must be from a minimum of three departments. The selection of courses is made by the student in consultation with an adviser in the program;
2. Project paper (3 units). To be written during the senior year under the supervision of a faculty member participating in the Certificate Program. The paper can be either an exploratory project (in which a subject is researched in a detailed and original manner) or an analytic effort (where fewer sources are used but the discussion of the material is developed more fully).

Legal Studies Courses

ASAM 346; B/ST 332; CRIM 301, 351; ECON 355; FIN 220, 320; HIST 306I, 308I, 479, 480, 489; PHIL 352, 451I, 452I; POSC 311, 312, 318, 376, 412, 414, 419; SW 350; COMM 441I; WST 308.

Persons interested in the Program for Legal Studies should contact Dr. Albie Burke, Director, Department of History.

Linguistics is the science of language. Linguistics majors study the nature of language, the similarities and differences among languages, the physical mechanisms of human languages (both spoken and signed), acquisition of languages, and socialization through languages. Areas include anthropological linguistics, psychological linguistics, sociolinguistics, and applied linguistics.

Students desiring general information should contact the department office. Advisors are available for individual appointments during the Fall and Spring semesters to assist students with information about degree requirements and about graduate study.

Minor in Linguistics (code LINGUM01)

A minor in Linguistics consists of a minimum of 21 units, with at least one course selected from each of five subject area categories. Although not required for the minor, foreign language courses are recommended. In selecting courses, students should be aware that some courses have prerequisites, including language proficiency.

Courses which are counted for a major may not also be counted for a minor, but students who have taken a course from any category as a part of their major may substitute an elective with approval of the Department Chair.

Requirements

Select one course from each category:

Category I Introduction: ANTH 170, LING 363I;

Category II Phonology: C D 330, LING 420, FREN 414, GERM 303;

Category III Syntax: LING 421, FREN 411, GERM 401, SPAN 426;

Category IV Psycholinguistics and Neurolinguistics: ED P 454, LING 329, PSY 438;

Category V Language, Culture, and Society: ANTH 412I, 413;

Electives to a program total of 21 units selected from: any course listed above, CHLS 403; LING 423, 426; PHIL 484; SPAN 427, and variable/special topics courses on linguistics subjects offered through the participating departments. These topic courses are shown on an approved list available in the participating departments.

Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code COEDUM01)

The minor comprises courses that integrate studies of culture, language, learning and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student's major may not be used.

1. One course from each of the following areas (12 units):

Culture: ANTH 421/LING 425 or EDP 432/EDEL 430

Language: EDP 454 or LING/CD 329

Schooling: EDP/LING 485

Development: EDP 301, EDP 302, HDEV 307I, or PSY 361

2. Six additional units, selected with an advisor, from the following:

Culture: AIS 319, ASAM 319, B/ST 319, CHLS 319, W/ST 319, ANTH 329, ANTH 412I, ANTH/LING 413, ANTH 419, ANTH 421/LING 425, ANTH/WST 475, CHLS/ASAM 335I, EDP 432/EDEL 430

Language: ANTH 170, CHLS 402, EDP 454, LING/CD 329, LING/ENGL 327, LING 363I, LING 472, LING 486.

Schooling: AIS 361, ASAM 310, B/ST 420, CHLS 340, EDP 305, EDP 350, EDP 476.

Development: EDP 301, EDP 302, HDEV 307I, PSY 361.

Master of Arts in Linguistics

The program for the M.A. degree in linguistics is designed both for students who wish to pursue further graduate study and those seeking a terminal degree. The program seeks to blend theoretical and applied aspects of linguistics and draws from a variety of disciplines.

The M.A. degree in Linguistics offers three options and one concentration:

1. General Linguistics Option
2. Language and Culture Option
3. Teaching English as a Second Language Option
4. Special Concentration

Graduate assistantships and teaching assistantships may be available to qualified students.

Prerequisites

1. A bachelor's degree with a 2.75 GPA for the most recent 60 units;
2. 18 units of undergraduate coursework as follows (can be taken at CSULB):
 - A. Twelve (12) units in linguistics including syntax, phonology, language acquisition, language variation.
 - B. Six (6) units either in linguistics or in a related field (such as TESL, cross-cultural communication, cognition, artificial intelligence, or literature in another language).

Advancement to Candidacy

1. Satisfaction of the general university requirements for advancement to candidacy, including prerequisites, the Writing Proficiency Examination, and GPA.
2. Completion of the foreign language requirement, either:
 - A. Two courses of a foreign language at the upper division level, or the equivalent, or
 - B. Two courses of an Indo-European language and two courses of a non-Indo European language, or equivalent.
3. Completion of six units of course work within the program, exclusive of any classes used to meet prerequisites.
4. Approval of the candidate's graduate program by the Chair, the Associate Dean for Instructional Programs of the College of Liberal Arts, and any other individuals identified by relevant university policy.
5. Advancement must take place no later than the semester before the student graduates.

Requirements

1. A minimum of 30 units of approved upper division and graduate courses for the thesis option or a minimum of 33 units of approved upper division and graduate courses of the comprehensive examination option, including
2. A minimum of 21 units at the 500 or 600 level;
3. The completion of the five course core requirement for the degree;
4. The completion of requirements of one of the options designated in the program;
5. Completion of one of two culminating experiences:
 - A. A thesis and its accompanying oral defense and oral examination.
 - B. The comprehensive examination and its accompanying graduate paper (LING 697)

6. A GPA of 3.00 on all courses included in the program.

Core

1. Two courses from the following three: LING 620, 625, 633.
2. One course from the following: LING 540, 610, 650.
3. One course from the following: LING/PSY 539.
4. One course from the following: LING 580/ANTH 570, LING 596.

General Linguistics Option (code LINGMA02)

This option is 15 units including all courses in the core categories 1 and 2 (LING 620, 625, 633, 540, 610, 650) and only one course each from Categories 3 and 4; and approved selections from ANTH 597; CD 665; ED P 573, 672; LING *470/ANTH *475, LING*423/ENGL 423/523, LING *426/ENGL 426/526, LING 533/ANTH 530, LING 575/ED P 578, 697, 698; PHIL 595; PSY 538; SPAN 527.

Language and Culture Option (code LINGMA03)

This option is 15 units. Students in this option are advised to take LING 540 as a part of their core: LING 533/ANTH 530, and either LING *413/ANTH 413 or LING *470/ANTH 475; and approved selections from ANTH 597, 630; ED P 573; LING *423/ENGL 423/523, LING 575/ED P 578, LING 580/ANTH 570, LING 597/LING 697, LING 698.

Teaching English as a Second Language Option (code LINGMA04)

Comprehensive Exam Option (18 units): required: LING 486, 500, 561, 562, 593. Elective (3 units): choose from LING 460, 575, or other approved courses.

Thesis Option (18 units): required: LING 486, 593, 698 (Thesis—6 units); choose two from the following: LING 500, 561, 562.

Special Concentration (code LINGMA01)

This concentration is 12-15 units. Students electing this concentration must [1] consult with the Program Director or Graduate Coordinator about their proposal; [2] submit a written justification for the course of study they wish to take, including [3] a list of the classes which are proposed to meet the objectives of this special program. Both the written justification and the course list are subject to approval. Other requirements of the program (e.g. a five course core, GPA, culminating experiences, etc.) cannot be waived or altered by use of the special concentration.

Students wanting graduate credit for certain 400-level courses must consult with the Graduate Advisor before enrolling.

Courses with an I suffix are not available for graduate credit. Note: Graduate students are required to register for the higher (500-level) course whenever a course has a double number. Students may not repeat courses by taking them under different prefix designations, numbers or titles unless the course description specifically permits.

Certificate in Teaching English as a Second Language (code ENGLCT02)

The Certificate in Teaching English as a Second Language (TESL) is open to students from any field who desire training for teaching English to speakers of other languages. While the program may be begun as an undergraduate, at least 18 units must be completed as a post-baccalaureate student.

Recommendations

Students are strongly urged to include foreign language study as a part of their undergraduate curriculum, particularly those wishing the Language Development Specialist Certificate in addition to the TESL Certificate. Students planning to teach in California schools (K-12) must also include appropriate credential requirements in their total program.

Prerequisites

1. A baccalaureate degree with a GPA of 2.50 on the last 60 units.
2. One course in basic English linguistics.

Requirements

1. Twenty-four units, including:
 - A. 20 taken in residence;
 - B. 18 taken as a graduate student;
 - C. 12 taken at a 500-600 level.NOTE: Categories (a-c) combined need only equal 24 units.
2. A GPA of 3.0 on all work included in the program.
3. Passing of the CSULB Writing Proficiency Examination.
4. Eight courses, one each in eight different categories:
 - A. One course in basic ESL Methodology, LING 486;
 - B. One course in cross-cultural communication, selected from LING *425 (ANTH *421) or ED P 573;
 - C. One course in Language Acquisition, selected from CD 329, LING 329 or ED P 454;
 - D. One course in intermediate English linguistics, selected from LING 420 or 421;
 - E. One course in testing and assessment, selected from CD 460 or LING 562;
 - F. One course in curriculum, selected from LING 500 or LING 561;
 - G. One course in specialized methodology, selected from CD 560, LING *460, LING 575/ED P 578, ED P 576, LING 589/ED P 589);
 - H. Three units of a practicum (LING 593).

Students who have taken equivalent courses in the above categories but need units to complete certificate requirements may elect to take courses from the following: ANTH 412I, *413; CD 330, 363; EDEL 430; ED P 454; EDSE 401, 402, 435, 436; LING 423, 650; PSY 438/538; COMM 309; SPAN 427/527.

Students wanting graduate credit for 400-level courses which have not been approved for graduate credit by the home department must consult with the Program Director or Graduate Advisor before enrolling. Courses with an "I" suffix are not available for graduate credit, but may be used for the Certificate if they were taken while the student was an undergraduate.

Courses (LING)

Lower Division

101. Introduction to the World's Languages (3)

Prerequisite: ENGL 100. A general introduction to the important roles that the world's languages have played historically, socially, culturally and politically, especially involving contact between languages. The course considers the nature of language, how languages operate, how they may differ from each other, how they change over time, and how they are related to each other. The history of both the spoken and the written forms of language are considered.

170. Introduction to Linguistics (3)

Prerequisite/corequisite: Any G.E. Foundations course. Nature of language; its relation to culture; language structure and processes of change; language universals, contrasts and relationships. Same course as ANTH 170.

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

325. Modern English Grammar (3)

Introduction to current descriptions of English grammar, with reference to structural and transformational models of American English as well as to traditional ones. Not open to students with credit in ENGL 325. Letter grade only (A-F).

327. Essentials of the English Language (3)

Prerequisites: ENGL 100 or its equivalent. Introduction to the essentials of English language study for credential candidates, including the history of the English language, key models of English grammar, and a variety of applied topics ranging from semantics and dialect study to current research in the teaching of English. Same course as ENGL 327.

329. Introduction to Language Acquisition (3)

Introduction to the study of the acquisition of first and second languages. Linguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The influence of developmental stages, and social and cultural factors on the individual. Same course as C D 329. Letter grade only (A-F).

339. Linguistics for Crosscultural Academic Development [in Secondary School Settings] (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Social and psychological influences on linguistic behavior in middle and high schools. Cultural and political issues affecting language attitudes, maintenance and shift. Letter grade only (A-F). Same course as EDSE 339.

363I. Implications of Human Language (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines human language from the perspectives of linguistics, psychology, and communicative disorders. Topics include relationships between languages of the world, language acquisition, and the social meaning of language and dialect differences. The implications of language for the individual and her/his social experience are examined through the methodologies of these disciplines.

379. Sociolinguistics and Schooling (3)

Prerequisite: LING 329 or equivalent. Study of language variation as it connects to standard language development in society and individuals. Analysis of key sociolinguistic concepts, such as: dialect, speech event, linguistic repertoire, language community, prescriptive and descriptive grammar. Analysis of verbal and written classroom language. Connection between variation and development in speaking, reading and writing. (Letter grade only (A-F).) Same course as EDEL 379.

***413. Language and Culture (3)**

Relation of language patterns to social life; problems of meaning in cross-cultural communication and language translation; practical application to business, government and religious contacts. Not open to students with credit in ANTH 440. Letter grade only (A-F). Same course as ANTH 413.

420. English Phonology (3)

Prerequisites: Consent of instructor. Study of the phonology of American English, using articulatory phonetic, phonemic, and distinctive feature analyses. Not open to students with credit in ENGL 420 or 520. Letter grade only (A-F). Lecture-problems.

421. English Syntax (3)

Prerequisites: ENGL 325 or consent of instructor. Study of the morphology and syntax of American English, using structural, transformational, and recent models. Not open to students with credit in ENGL 421. Seminar. Letter grade only (A-F).

***423. Semantics (3)**

Study of meaning in language. Same course as ENGL 423.

***425. Education Across Cultures (3)**

Cross cultural perspectives on education in modern society; problems in education of non-western peoples by those from western cultural backgrounds. Letter grade only (A-F). Same course as ANTH 421.

***426. History of the English Language (3)**

Development of the English language from its beginnings to the present day. Same course as ENGL 426.

428. Applied Linguistics (3)

Linguistic research applied to the study and teaching of the English language. Not open to students with credit in ENGL 428/524. Letter grade only (A-F).

429. Language, Learning and the Developing Child: A Cross-cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Letter grade only (A-F). Not open to students currently enrolled in the Liberal Studies program. Same course as EDP 428, FCS 409, and EDEL 429.

431. Cultural and Linguistic Diversity in Schools (3)

This course surveys the multiple forms of diversity present in schools, including issues surrounding culture ethnicity, race, linguistics, faith, special needs, gender, sexual orientation, and socioeconomic status. Emphasis is on multicultural education, language minority education, and the promotion of learning for all students. The course treats concepts of culture, educational equity, social justice, anti-bias and anti-racist curriculum, stereotyping, and cultural and linguistic contact. An overview is provided of the history, policy and practices regarding cultural and linguistic minorities in the United States and the impact on education. Special focus is placed on educational initiatives to address the rich ethnic diversity of California schools. Models of English language development and bilingual education are examined. Letter grade only (A-F).. Same course as EDEL 431 and EDP 431.

433. Survey of Discourse Analysis (3)

An introduction to discourse analysis, the study of language structure from the viewpoint of its context of production. The place of discourse analysis in theoretical and applied linguistics. The structure of genres: conversation, narrative, exposition, and others; language in special settings; pragmatics and discourse; developmental issues. (Discussion) (Not open to students with credit in LING 530.) Letter grade only (A-F).

441. Khmer Literacy for Khmer Speakers: Introduction (3)

Prerequisite: Fluent oral skills in Khmer. First of a 4-course sequence. Introduction to Khmer writing system. Practice in reading, decipherment, vowels, consonants and syllable combinations. Oral practice, honorifics, culturally appropriate interaction. Letter grade only (A-F). Same course as A/ST 441.

442. Khmer Literacy for Khmer Speakers: Intermediate A (3)

Prerequisite: LING 441 or consent of instructor. Second of a 4-course sequence. Continued practice in Khmer writing system.

Vocabulary development, reading and writing long sentences and simple text. Appropriate social and educational discourse. Letter grade only (A-F). Same course as A/ST 442.

443. Khmer Literacy for Khmer Speakers: Intermediate B (3)

Prerequisite: LING 442 or consent of instructor. Third of a 4-course sequence. Contextual reading for comprehension, culture and grammatical knowledge. Development of oral skills, through discussion of content, role play and verbal critique. Letter grade only (A-F). Same course as A/ST 443.

444. Khmer Literacy for Khmer Speakers: Advanced (3)

Prerequisites: LING 443 or consent of instructor. Fourth of a 4-course sequence. Composition and written translation. Preparation for BCLAD tests 5 & 6: Culture and Language of Emphasis. Reading authentic texts. Letter grade only (A-F). Same course as A/ST 444.

***460. TESL Composition (3)**

Prerequisites: Passing of the Writing Proficiency Examination. Introduction to the rhetoric and composition of students with limited English proficiency. Attention to both the general principles of composition, and the specific issues that face students and teachers in an ESL context. Letter grade only (A-F).

***470. Language and Gender in Cross-Cultural Perspective (3)**

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions of perceptions and stereotypes and their effect on communication. Letter grade only (A-F). Same course as ANTH 475, W/ST 475.

472. Language and Discrimination (3)

Survey and analysis of discrimination on the basis of language as component of racial, ethnic, gender, and class discrimination; focus on historical and contemporary examples; related analysis of bias toward so-called non-standard varieties of language; analysis of the language of racism and sexism. Letter grade only (A-F).

***485. Theoretical Foundations of Language Minority Education (3)**

Introduction to theoretical foundations of language minority instruction. Background on the historical and political context of the development of educational language policies. Same course as EDP 485. Letter grade only (A-F).

***486. Foundations of Language Minority Instruction: Practice (3)**

Provides a general introduction to practical foundations of language minority instruction and provides background on historical development and use of current methods and techniques for language learning strategies. Classroom observations in off-campus or on-campus bilingual and English-as-a-second-language classrooms. Letter grade only (A-F).

490. Special Topics in Linguistics (1-3)

Prerequisite: Consent of instructor. Investigation of topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics.

Graduate Level

500. Educational Linguistics (3)

Prerequisites: Nine units of linguistics or consent of instructor. Graduate introduction to role of language and linguistics in contemporary education; analysis of context of language acquisition; attitudes toward multilingualism; language policies which set guidelines and expectations for instruction; cultural factors which influence language acquisition. (Discussion.) Letter grade only (A-F). Same course as ED P 577.

533. Ethnography of Communication (3)

Prerequisite: Graduate standing. Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Among the major topics presented from this perspective are language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy. Letter grade only (A-F). Same course as ANTH 530.

539. Language Acquisition (3)

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual differences, social influences and the cultural context will be stressed. Same course as PSY 539. Letter grade only (A-F).

540. Sociolinguistics (3)

Prerequisite: Nine units of linguistics or consent of instructor. Study of the linguistic and social antecedents, correlates, and consequences of language variation in the individual and society. Integration of theoretical models and practical fieldwork. (2 hrs seminar, 3 hrs lab.)

561. Second Language Curriculum Development (3)

Prerequisite: LING 421 or consent of the instructor. Study of the content of second language instruction, from nongrammatical, communicative approaches to content-based instruction. The course will look at both K-12 and adult language instruction.

562. Second Language Testing and Assessment (3)

Prerequisite: LING 421. Testing and assessment of second language learners, including both standardized tests and teacher-developed modes of assessment. Letter grade only (A-F).

575. Literacy and Linguistics (3)

Prerequisite: Six units in linguistics or consent of instructor. This course provides a general introduction to the field of literacy studies from a linguistic and sociocultural perspective. Among the major topics presented are the relationship between oral and written language; the acquisition of literacy; biliteracy; the relationship between literacy and socioeconomic/sociocultural factors; and the impact of societal expectations regarding literacy. Pedagogical implications of these issues are explored. Letter grade only (A-F). Same course as ED P 578.

580. Linguistic Field Methods (3)

Prerequisite: An introductory linguistics course. This course introduces the student to the practical study of unfamiliar languages. Through the help of a native speaker of a non-European language, the student will learn how to write down the sounds of the language and how to determine the structure of the language. Letter grade only (A-F). Same course as ANTH 570.

589. Adult Literacy and Language Diversity

Prerequisites: 3 units from ED P 578/LIN 575; ENGL 510; ENGL 535; or from an instructor approved course in literacy studies or adult second language acquisition. A general survey of issues in adult and family literacy/biliteracy and native language literacy with special focus of the educational needs of language minority adults and their families; consideration of the relationship between theory, policy and practice with attention to the social economic and cultural characteristics of populations in need of literacy services. Letter grade only (A-F).

590. Advanced Special Topics in Linguistics (1-3)

Prerequisite: Consent of instructor. Advanced study of special topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

593. Practicum in TESL (3)

Prerequisite: LING 486. Experience in teaching English as a second language supplemented by reading, research and advising. Students must be available to be assigned to regularly scheduled courses in TESL five hours per week, as well as meetings with the instructor. Letter grade only (A-F).

595. Qualitative Research Methods (3)

This course provides an introduction to the theory and application of ethnographic and qualitative methods in educational settings with special emphasis on applications for educational linguistics, educational anthropology, and research related to language arts instruction. It surveys the basic rationale for qualitative/ ethnographic inquiry as well as basic concepts and methods for applications in teacher-as-researcher approaches and for action research. Letter grade only (A-F). Same course as ED P 595.

596. Research in Linguistics (3)

Prerequisite: Advancement to candidacy for the M.A. in Linguistics. Principles and practice of quantitative and qualitative research design, analysis and reporting. Access to sources, evaluation of published research, application of tools. Letter grade only (A-F). (Seminar, 2 hours; Laboratory, 3 hours.)

597. Directed Study in Linguistics (1-3)

Prerequisite: Consent of instructor and advisor. Directed study on issues and topics in Linguistics. Not intended to replace available courses.

610. Historical Linguistics (3)

Prerequisites: LING 420 and 421 or equivalent. Advanced study of language change, language families, and language relationships using the methods of comparative linguistics. Two hours seminar, two hours laboratory. Letter grade only (A-F).

620. Seminar in Syntactic Theory and Analysis (3)

Prerequisite: LING 421. Theories and practices of selected views of syntax in contemporary linguistics. Topic may vary from semester to semester. (Seminar, 2 hours; Laboratory, 3 hours.) Letter grade only (A-F).

625. Seminar in Phonetics and Phonology (3)

Prerequisite: LING 420. Theory and practice of selected views of phonetics and phonology in contemporary linguistics. (Seminar, 2 hours; Laboratory, 2 hours) Letter grade only (A-F).

633. Discourse and Grammar (3)

Prerequisite: LING 421 or consent of instructor. This graduate course situates discourse analysis in linguistic theory and method, and focuses on the relationship of discourse and grammar. Examined are (1) the relationship of morphosyntactic devices and discourse context; (2) information flow and its relations to grammar; (3) the pragmatic motivation for grammatical systems; and (4) the relationship of grammar and genre. (Discussion) Letter grade only (A-F).

650. Seminar in Bilingualism (3)

Prerequisites: LING 420, 421 or consent of instructor. Advanced study of the degrees and kinds of bilingualism and bilingual situations which exist. Implications of such distinctions for linguistics and education will be covered. Letter grade only (A-F).

697. Directed Research (1)

Prerequisite: Advancement to candidacy for the M. A. in Linguistics. Research in linguistics on a topic connected with the Comprehensive Examination for the degree. Letter grade only (A-F). May be repeated to a maximum of 3 units.

698. Thesis (1-6)

Prerequisite: Consent of graduate committee. Planning, preparation and completion of a thesis in linguistics.

Bachelor of Arts in Liberal Studies (120 units)

The Liberal Studies major provides a rich, rigorous cross-disciplinary liberal arts program of study. There are three programs in the major: 1) The Integrated Teacher Education Program (ITEP) is for students intending to become teachers who wish to combine subject matter preparation for elementary teaching with coursework leading to a Multiple Subject teacher credential; 2) Track I is for students who seek subject matter preparation for elementary teaching as preparation for a post-baccalaureate credential program; 3) Track II is for students with more varied professional or career goals who prefer a sound generalist program to one requiring early specialization.

General Education and the Liberal Studies Major

The General Education requirements for students majoring in Liberal Studies are unique. The Liberal Studies program is not only an approved major, but also an approved alternate general education program. In completing the Liberal Studies major, students concurrently satisfy their general education requirements. Students changing to another major from Liberal Studies, however, will be subject to the standard university General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

The Liberal Studies Program

The program of study for the Liberal Studies major is composed of two parts: a Core and a Concentration. There are three program tracks in Liberal Studies, each with its own Core and related Concentrations.

The Integrated Teacher Education Program (ITEP) combines the study of academic subject matter for elementary school teaching with professional preparation and student teaching. Successful completion of ITEP includes both a Bachelor of Arts degree and a Multiple Subject teaching credential.

Track I of the Liberal Studies program is designed for those students who wish to pursue a Bachelor of Arts degree to prepare them in the academic subject areas relevant to elementary and special education teaching. Track I is an approved pre-professional program of subject matter preparation consistent with the standards established by the California Commission on Teacher Credentialing.

Track II of the Liberal Studies program is designed for those students who seek a rich, non-specialized, multi-dimensional and cross-disciplinary course of study as a foundation for life-long learning, enlightened citizenship, and a wide range of academic and career opportunities.

INTEGRATED TEACHER EDUCATION PROGRAM

Bachelor of Arts in Liberal Studies (code L/STBA03)

Multiple Subject Credential - Cross Cultural and Academic Development Emphasis (code 200)

The Integrated Teacher Education Program (ITEP) combines the study of academic subjects aligned to California standards for the K-8 curriculum with professional preparation courses and field experiences leading to a Multiple Subject Credential.

Upon successful completion of the program, passage of the CSET (Multiple Subjects) Exam, and passage of the Reading Instruction Competence Assessment (RICA) students will receive both a Bachelor of Arts in Liberal Studies and a preliminary Multiple Subject Credential.

Within the Integrated Teacher Education Program there are 118 units of required baccalaureate-level coursework and 31 units of credential-specific coursework.

Students who complete the Core and Concentration courses, who have completed at least 160 hours of approved Service Learning, and who meet all other University requirements, but who do not advance to the Credential portion of the program, will be eligible to receive a B.A. in Liberal Studies and may apply for admission to the post-baccalaureate Multiple Subject Credential Program.

There are multiple pathways to the teaching profession. ITEP is designed for students who begin their undergraduate education at CSULB or who transfer into the University in pursuit of both a baccalaureate degree as well as a Multiple Subject teaching credential. Prospective credential candidates who already hold a bachelor's degree, or who need information about other pathways and options in teacher credentialing, should refer to the sections of this catalog which describe programs in Teacher Education, Single Subject Teacher Education, and Educational Psychology, Administration and Counseling. Further information about teacher preparation programs can also be obtained from the College of Education at (562) 985-9259 or by e-mail: cedinfo@csulb.edu

General Education and the Integrated Teacher Education Program

As with other Liberal Studies majors, students in the Integrated Teacher Education Program have unique General Education requirements. ITEP is not only an approved major, but an approved alternate general education program. ITEP students receive their General Education advisement within the Liberal Studies office. In completing ITEP, students concurrently satisfy their general education requirements. Students changing their major from ITEP to a major other than Liberal Studies, however, will be subject to the standard University General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

The ITEP Curriculum

The ITEP curriculum has several components. Students complete required coursework in the ITEP Core, they choose and complete courses in an ITEP Concentration, and they complete coursework in the methodology of teaching, including student teaching. Admission to this final, Credential portion of the program requires that students apply and be

accepted into the Multiple Subject Credential Program at CSULB. In addition, a minimum of 160 hours of service learning, coordinated by the SERVE Program in the College of Education, must be completed prior to graduation.

Admission to the Multiple Subject Credential Program

Prior to enrollment in EDEL 300, ITEP students must be formally admitted into the Multiple Subject Credential Program (MSCP) at CSULB. Students should apply to the MSCP during the semester prior to enrolling in EDEL 300. Admission to the MSCP requires that the candidate:

1. purchase the MSCP for ITEP Handbook;
2. complete EDEL 200 with a grade of "B" or higher;
3. attempt the California Basic Educational Skills (CBEST) examination;
4. attain a cumulative grade point average of at least 2.75;
5. submit a portfolio which includes a SERVE evaluation as well as a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher;
6. attend an interview panel;
7. submit a negative tuberculosis skin test or chest X-ray taken within the last three years.

Note: The California Subject Examination for Teachers: Multiple Subjects (CSET: Multiple Subjects) must be passed to advance to student teaching.

The ITEP Core

A minimum of 106 units distributed in Areas I, II, III, IV, V, VI and VII. No Core classes may be taken credit-no credit. No Core classes may be used to fulfill Concentration requirements. All courses in the core must be completed with a grade of "C" or better.

Area I: Language Studies

(Minimum 19 units)

Group 1. Composition in English:

Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100

Group 2. Applied Composition: ENGL 309

Group 3. Oral Communication in English:

Choose one course from COMM 130, 335

Group 4. Children's Literature: ENGL 481

Group 5. Language Acquisition:

Choose one course from C D 329, ED P 454, LING 329

Group 6. Integration and Assessment: L/ST 400

Area II: Mathematics

(Minimum 12 units)

Group 1. Probability and Activities-Based Statistics: MTED 105

Group 2. Real Numbers: MTED 110

Group 3. Higher Math: MTED 211*

(*Students who choose a Math Concentration must take MTED 312 instead of MTED 211)

Group 4. Integration and Assessment: MTED 402

Area III: Natural Science

(Minimum 15 units)

- Group 1. Physical Science: CHEM 105, PHSC 112
Group 2. Earth Science: Choose from: GEOL 102+104, 106*
(*GEOL 106 is the preferred course)
Group 3. Life Science: BIOL 200
Group 4. Integration and Assessment: SCED 401

Area IV: History/Social Science

(Minimum 18 units)

- Group 1. American History:
Choose one course from HIST 172, 300
Group 2. California History: HIST 473
Group 3. American Institutions:
Choose one course from POSC 100, 326*, 391
(*POSC 326 is limited to and only required of students who have met the U.S. Constitution requirement in a state other than California or through Advanced Placement credit and who must meet the Title V California State and Local Government requirement.)
Group 4. Multicultural Dimensions:
Choose one course from AIS/ASAM/BST/CHLS/ 215, AIS/ASAM/BST/CHLS/WST 319, ANTH 421/LING 425
Group 5. World History/Geography:
Take either *HIST/GEOG 250, or HIST 211+ GEOG 100
(*HIST/GEOG 250 is the preferred course)
Group 6. Integration and Assessment: C/LA 471

Area V: Arts and Humanities

(Minimum 15 units)

- Group 1. Music: MUS 180
Group 2. Visual Art: ART 300
Group 3. Dance or Theater:
Choose one course from: C/LT 124, 324I, DANC 110, 179, THEA 113, 122, 124, 324I
Group 4. Ethics, Values and Beliefs:
Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485
Group 5. Integration and Assessment: L/ST 404

Area VI: Critical Issues in Teaching and Learning

(Minimum 19 units)

- Group 1. Library, Research Skills, and Technology:
Choose one course from *ETEC 110, 444
(*ETEC 110 is the preferred course)
Group 2. Critical Thinking:
Choose one course from: A/ST 190, COMM 131+131W, ENGL 102, HIST 101, PHIL 170, POSC 105, PSY 130
Group 3. Family and School Partnerships: EDP 180
Group 4. Risk, Coping and Resilience:
Choose one course from: FCS 219, 319
Group 5. Child Development and Learning:
Choose one course from: EDP 301, HDEV 307I
Group 6. Physical Education: KPE 476
Group 7. Health Science: H SC 411A

Area VII: Introduction to Elementary Education

(Minimum 8 units)

- Group 1. Teaching and Learning: EDEL 100, 200, 300, ED P 303

The ITEP Concentrations

ITEP students must complete a 12 unit Concentration in one of the following fields: Language and Literacy, Mathematics, Natural Science, or History/Social Science. Advisor approval must be received both for the choice of Concentration and for the specific course work, as well as for any subsequent changes in the plan of study. No course in the Concentration may be taken credit-no credit. No course used in the Core may be used in the Concentration.

Language and Literacy Concentration

- Group 1. Foundations of Literature: ENGL 180
Group 2. Exploring Literature:
Choose one course from AIS 340, ASAM 260, 360, B/ST 340, 343, 346, CHIN 370, CHLS 150, C/LT 415I, ENGL 250A, 250B, 270A, 270B, 363, 375, 385, 386, 482, JAPN 370, W/ST 382
Group 3. Sociolinguistics and Schooling: LING/EDEL 379
Group 4. Language, Literacy and Culture:
Choose one course from: ANTH 413, 475, COMM 309, 330, 355, EDP 432, 439, 485, ENGL 300, 327, 410, 435, 436, LING 327, 413, 470, 485, 486, W/ST 475

Mathematics Concentration

- Group 1. Technology: MTED 301
Group 2. History of Mathematics: MTED 315
Group 3. Number Theory and Algebraic Structures: MTED 320
Group 4. Functions, Models and Concepts of Calculus: MTED 325

Natural Science Concentration

Each student pursuing a Natural Science Concentration will choose one of two pathways. Pathway A is a "breadth" pathway which is particularly appropriate for future K-5 teachers. In Pathway A students choose at least one course from three different areas. Pathway B is a "depth" pathway which is particularly appropriate for future 6-8 grade teachers as well as for students who prefer a stronger emphasis on investigation and experimentation. In Pathway B students choose at least three courses from a single area.

Pathway A: Breadth

- Choose coursework from EACH of the following groups:
Group 1. Earth Science:
Choose one course from: GEOL 160, 190, 240, 300I
Group 2. Life Science:
Choose one course from: BIOL 100, 153, MICR 101, 300I
Group 3. Physical Science:
Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A
Group 4. Additional Coursework:
If necessary to reach 12 units in the Concentration, choose from GEOL 105, ASTR 100L, NSCI 309I, NSCI 375I or any additional class from those listed above

Pathway B: Depth

Choose an option and take three courses in that option:

Earth Science Option:

Choose three courses from: GEOL 160, 163, 190, 240, 300I, 341, GEOL/BIOL 303

Life Science Option:

Choose three courses from: BIOL 100, 153, GEOL/BIOL 303, MICR 101, 300I

Physical Science Option:

Choose three courses from: ASTR 100, CHEM 100, 111A, 111B, 202, 302, PHYS 100A, 100B

Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from ASTR 100L, NSCI 309I, NSCI375I, or any additional class from any other of the options listed above

History/Social Science Concentration

Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives, 2) Social and Cultural Perspectives, 3) Geographic Perspectives. No more than one lower-division class may be taken in the History/Social Science Concentration.

California Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from: AIS 490, ANTH 349, ASAM 200, 220, 335I, CHLS 300, HIST 370, 402, 462, 471, 482

Group 3: Social and Cultural Perspectives:

Choose one course from: AIS 335, ANTH 322, ASAM 330, 331, 332, 333, 334, CHLS 352/SOC 341, POSC 323, POSC 326

Group 4: Geographic Perspectives:

Choose one course from: GEOG 120, 304

United States Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from AIS 105, ANTH 347, ASAM 200, 220, 335I, B/ST 120, 190, 381, CHLS 300, 335I, 390I, ECON 360I, HIST 370, 372, 373, 376, 481, 485A

Group 3: Social and Cultural Perspectives:

Choose one course from AIS 335, ANTH 321, ANTH/W/ST 475, ASAM 330, 331, 332, 333, 334, 340, 345, 346, 347, 352, 370, 380, 381, B/ST 353, 400, 410, 420, 423, 424, CHLS 310, 340, 350, 415, ECON 300, HIST 381, 469, 471, 474I, 477A/B, 485B, 486, LING 470, POSC 323, 395I, 420, 423, 424, SOC 320, 325, 340, 345, 346, 423, 466, SW 423, W/ST 102, 308, 315, 318I, 325, 381, 420, 430, 485B.

Group 4: Geographic Perspectives:

Choose one course from GEOG 120, 306, 401, 466

Global Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from: ANTH 307I, ANTH 345, A/ST 300I, A/ST 301I, B/ST 200, 304, 430, 498, ECON 361I, 368, GEOG 307I, HIST 211, 304, 362, 364, 382A, 382B, 383A, 383B, 385, 386, 391, 392, 396, 431, 432, 492, POSC 401, W/ST 402

Group 3: Social and Cultural Perspectives:

Choose one course from: ANTH 314, 323, 332, 335, 351, A/ST 320, 393I, 495I, B/ST 337, 404, 460, CHIN 250, ECON 306I, HIST 406B, 466C, POSC 220, 371, 388I, 395I, SOC 350, 466, 494, W/ST 401I, 406, 410, 432

Group 4: Geographic Perspectives:

Choose one course from: GEOG 150, 160, 308I, 309I, 314I, 316, 320I, 455, 460, I/ST 319I, 355, POSC 358, 359, 362, 363, 366, 367

Credential Coursework in ITEP

(Minimum 31 units)

1. Teaching Reading and Language Arts: EDEL 452 (3) and EDEL 442 (3)
2. Teaching Mathematics in Diverse Classrooms: EDEL 462 (3)
3. Teaching Social Studies in Diverse Classrooms: EDEL 472 (3)
4. Teaching Science in Diverse Classrooms: EDEL 475 (3)
5. Student Teaching in Diverse Classrooms: EDEL 482D (8,8)

Student Teaching in ITEP

As the final phase of the credential program, student teaching is a half-day for four days and a full day for one day per week for two semesters. All student teachers have one placement in a K-2 classroom and one in a 3-6 classroom.

A separate application is required to advance to student teaching. Applications for student teaching must be submitted in person to the Field Programs Office one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings, which are held during the first two weeks of each semester. Dates, times and locations are announced in methods courses, are posted throughout the ED1 and ED2 buildings, and appear on the Department of Teacher Education website well in advance of the actual meeting dates. Deadlines for submitting applications to student teach are:

March 1 – to begin Student Teaching iFall semester

October 1 – to begin Student Teaching Spring semester

Students should note that these deadlines are firm. Late applications are not accepted.

Students must meet the following requirements to advance to student teaching:

1. Demonstration of subject matter competence by passage of all three parts of the California Subject Examinations for Teachers: Multiple Subjects (CSET: Multiple Subjects).
2. Passage of the California Basic Educational Skills Test (CBEST).
3. A negative tuberculosis skin test or chest x-ray valid through the completion of student teaching.
4. Proof of character clearance (fingerprint background check).
5. BCLAD Emphasis students must meet all additional BCLAD program requirements.

- For students who wish to student teach at the kindergarten level, completion of EDEL 420 with a minimum grade of "C."
- Submission of a Student Teaching Application by the appropriate deadline.

Asian Language BCLAD

Requirements

Credential coursework in Asian BCLAD (6 units and exam in language of emphasis).

Students seeking dual language certification in Asian Languages must complete the Language Studies Core, should complete the Language and Literacy or History/Social Science (Global Studies area) Concentration, and must complete all 5 components in "Credential Coursework in ITEP."

The following additional requirements must be fulfilled in one of the Asian language emphases (Mandarin or Cantonese, Khmer, Korean, Vietnamese):

- Culture of Emphasis (one of the following, 3 units):

This requirement can be used for the ITEP language and literacy concentration.

Chinese: EWS 301 Ethnic Identity: Chinese Americans (Cal Poly Pomona)

Cambodian: ASAM 334 Cambodian American Experience (CSU Long Beach)

Korean: AAS 450 The Asian American Child and the Schools (CSU Northridge)

OR TED 495 Introduction to Korean Culture & Korean American Communities (CSU Dominguez Hills)

Vietnamese: ASAM 333 Vietnamese American Experience (CSU Long Beach)

- Bilingual Pedagogy in the Language of Emphasis (one of the following, 3 units):

Chinese: EDEL 400 Proseminar: Curriculum and Teaching of Reading (CSU Los Angeles)

OR EDEL 452C Bilingual Pedagogy: Teaching English and Chinese, K-8 (CSU Long Beach)

Cambodian: EDEL 452K Bilingual Pedagogy: Teaching English and Khmer, K-8 (CSU Long Beach)

Korean: EED 520K Teaching Reading in the Elementary School (CSU Northridge)

OR TED 515A Bilingual Education: Reading, Language Arts and Content in the Primary Language (Korean) (Cal Poly Pomona)

OR TED 494S Teaching for Bilingual Development in Culturally and Linguistically Diverse Settings: Korean Bilingual Instruction (CSU Dominguez Hills)

Vietnamese: EDEL 452V Bilingual Pedagogy: Teaching English and Vietnamese, K-8 (CSU Long Beach)

OR EDEL 448 Methods & Inquiry for Vietnamese BCLAD Candidates (CSU Fullerton)

Note: Culture of Emphasis and bilingual pedagogy courses may be taken before admission to the MSCP Program. See the Coordinator of the Asian BCLAD Consortium for information.

- Passage of BCLAD subtest #6 in Cantonese, Khmer, Korean, Mandarin or Vietnamese language (listening, speaking, reading and writing)

- Student Teaching in Bilingual Classrooms: EDEL 482E (8 units) This requirement may be used as a substitute for one semester of EDEL 482D.

Spanish Language BCLAD

Requirements

Credential Coursework in Spanish BCLAD (6 units and exam in Spanish).

Students seeking dual language certification in Spanish must complete the Language Studies Core, should complete the Language and Literacy Concentration, and must complete all 5 components in "Credential Coursework in ITEP."

Additional requirements for Spanish/English BCLAD:

- Culture of Emphasis (one of the following, 3 units): CHLS 340 Latinos and Education, or CHLS 350 Latino Population in the US. This requirement may be used for the ITEP language and literacy concentration.
- Bilingual Pedagogy of Emphasis (3 units): EDEL 452B Teaching Reading in Spanish & English, K-8 (BCLAD).
- Passage of BCLAD subtest #6 Spanish (4 parts: listening, speaking, reading and writing).
- Student Teaching in Bilingual Classrooms: EDEL 482F (8 units). This requirement may be used as a substitute for one semester of EDEL 482D.

TRACK I (code L/STBA01)

The minimum unit requirement for the Liberal Studies major, Track I, is 114 units which includes both Core and Concentration. The Track I program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track I program.

The Track I Core consists of a minimum of 102 units distributed across six areas: I. Language Studies (minimum 22 units); II. Mathematics (minimum 9 units); III. Natural Sciences (minimum 14 units); IV. History and Social Sciences (minimum 24 units); V. Arts and Humanities (minimum 15 units) and VI. Learning and Well-Being (minimum 18 units). No course in the Track I core may be taken credit-no credit.

The Track I Concentration consists of 12-16 units of integrated course work with advisor approval. No course in the Track I concentration may be taken credit-no credit, and no course used to meet Core requirements may be counted toward the concentration.

In addition 120 hours of approved service-learning in an elementary or middle school must be completed prior to graduation as a means to learning about cultural diversity in the community, about current problems besetting students in the public schools, about successful intervention strategies for students needing special attention, and promotion of individual civic responsibility.

Requirements

Service Learning

The way to earn the required 120 hours of Service Learning is participation in the SERVE (Service Experience for Revitalizing Education) program, which provides orientation and training in addition to school placements. To participate in SERVE, students must have a 2.0 grade-point average, cur-

rent TB clearance, and be available for either 2 two-hour time blocks or 1 four-hour time block during public school hours over a 10 week period during the semester. For further information and the schedule for orientation and training sessions, contact the Liberal Studies office or SERVE office (ED1).

Track I Core

A minimum of 102 units distributed as specified in Areas I, II, III, IV, V and VI. No core classes may be taken credit-no-credit

Area I: Language Studies (minimum 22 units)

Group 1. Composition in English:

- a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100;
- b) ENGL 309

Group 2. Oral Communication in English:

Choose one course from COMM 130, 335

Group 3. Literature in English:

- a) Choose one course from C/LT 100, ENGL 180, 250A, 250B, 270A, 270B;
- b) Choose one course from ENGL 481, COMM 352

Group 4. Language Acquisition: Choose one from either a) or b):

- a) C/D 329, EDP 454, LING 329;
- b) CHIN 201, 202, FREN 201A, 201B, GERM 201A, 201B, ITAL 201A, 201B, JAPN 201, 202, RUSS 201A, 201B, SPAN 201A, 201B (Students with more advanced language competencies substitute appropriate higher level language courses for those listed here.)

Group 5. Integration and Assessment: L/ST 400

Area II: Mathematics (minimum 9 units)

Group 1. Real Numbers: MTED 110

Group 2. Higher Math:

Choose one course from MTED 211*
(*Students who choose a Math Concentration must take MTED 312 instead of MTED 211.)

Group 3. Integration and Assessment. MTED 402

Area III: Natural Sciences (minimum 14 units)

Group 1. Life Science: BIOL 200

Group 2. Physical Science: PHSC 112

Group 3. Earth Science: GEOL 102 + 104

Group 4. Integration and Assessment: SCED 401

Area IV: History and Social Sciences (minimum 24 units)

A. American History, Culture, Society

Group 1. U.S. History:

- a) Choose one course from HIST 172, 300;
- b) HIST 473

Group 2. American Institutions:

Choose one course from POSC 100, 391, *326
(*POSC 326 is limited to and only required of students who have met the U.S. Constitution/Government requirement in a state other than California or through Advanced Placement Credit and who must meet the Title V California State and Local Government requirement.)

Group 3. Multicultural Dimensions:

Choose one course from AIS 319, ANTH 421/LING 425, ASAM 319, B/ST 319, CHLS 319, W/ST 319

B. World History, Culture, Society

Group 1. Geography:

Choose one course from GEOG 100, 100W

Group 2. World History:

Choose one course from HIST 211, 212

Group 3. Cultural Anthropology:

Choose one course from ANTH 120, 314, 412I

Group 4. Integration and Assessment: L/ST 403

Area V: Arts and Humanities (minimum 15 units)

A. Visual and Performing Arts

Group 1. Visual Art and Music:

- a) ART 300;
- b) MUS 180

Group 2. Dance or Theatre:

Choose one course from C/LT 124, 324I, DANC 110, THEA 113, 122, 124, 324I

B. Humanities

Group 1. Ethics, Values and Beliefs:

Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485

Group 2. Integration and Assessment: L/ST 404

Area VI: Learning and Well-Being (minimum 18 units)

Group 1. Growth and Development:

- a) PSY 100;
- b) Choose one course from EDP 301, HDEV 307I, PSY 361

Group 2. Health and Well-Being:

- a) HSC 411A;
- b) KPE 476

Group 3. Access to Learning:

- a) Choose one course from: A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, *UHP 100
(*UHP 100 is limited to students in the University Honors Program);
- b) Choose one course from ENGL 337, ETEC 444, MTED 301

Track I Concentration

A minimum of 12 units with advisor approval, at least 9 of which must be at the upper-division (300-400) level (with the exception of the Natural Science concentration) in one of the thematic programs of study identified below. No concentration course may be taken credit-no credit. No course used to fulfill a core requirement may be used to fulfill a concentration requirement.

Students must gain approval for a concentration and curricular plan. Normally the proposal is submitted before the student begins to take courses in the concentration. The proposal may be made in writing, or may be brought directly to a faculty advisor for approval. Subsequent modifications of the concentration curriculum must also be approved.

Bilingual Spanish-English

Subject preparation for a Multiple Subject Credential with a bilingual, cross-cultural, language and academic development (BCLAD) emphasis requires students to demonstrate proficiency in a targeted language and understanding of the culture of a targeted group. This concentration focuses on the Spanish language and Latino culture to be consistent with the requirements of the BCLAD emphasis in the CSULB credential program. The primary focus of the concentration is development of language skills. Students with demonstrated language proficiencies in reading, writing and speaking at an advanced level may seek to substitute additional culture studies for required language classes. Prior to proposing this concentration or completing any course work toward it, students should meet with the Spanish undergraduate advisor who will be able to determine language proficiencies. (The following Core classes are highly recommended for students proposing this concentration: CHLS 319 in Area IV, A, Group 3; ANTH 412I in Area IV, B, Group 3; EDP 301 in Area IV, Group 1b.)

Complete 15 units from:

- Area 1. Language Foundations (9 units): SPAN 300, 322
- Area 2. Literary Analysis (3 units): SPAN 310
- Area 3. Culture Study (3 units) from: CHLS 340, CHLS 350/ SOC 340

Cultures, Values and Beliefs

Focus is on humanistic study of cultural traditions, both Western and non-Western, and the values and beliefs that have shaped them. Insight will be gained into motivating and orienting ideas that have given meaning to individual lives and structured human relationships. Special attention is given to religious, philosophical and ethical perspectives. (No course used to meet requirements of the core may be used to meet the requirements of the concentration; no more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

- Area 1. Western Culture (3 units):
Choose from CLSC 310I, C/LT 310I, 414I, HIST 310I, 323I, 335, 337, 339, 400I, 414I, 477A, 477B
- Area 2. Non-Western Cultures (3 units):
Choose from ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 382A, 382B, 383A, 383B, 385, 431, 441, 461, RUSS 410I
- Area 3. Values and Beliefs/Western (3 units):
Choose from HIST 371, PHIL 100, 203, 204, 330, 342, 352, 361, R/ST 102, 383I, 391I, 425I, 482I, 485
- Area 4. Values and Beliefs/Non-Western (3 units):
Choose from AIS 335, ASAM 380, B/ST 353, PHIL 306, 307, R/ST 103, 331I, 341I, 343, 344, 351
- Area 5. Ethical Values (3 units):
Choose from MICR 302I, PHIL 160, 160W, 363, R/ST 302I

Health, Physical Education and Life Management

Provides students with a breadth and depth of knowledge, attitudes and behaviors that prepares them in the areas of health, physical education and fitness, mental health, family life and nutrition. The areas of emphasis include substance use and

abuse, family life/health and sexuality education, nutrition, violence prevention (including child abuse and suicide prevention), physical activity and fitness, motor skills and stress management. (Credit in the concentration will be granted for either HSC 425I or FCS 419, but not both.)

Complete 15 units from:

- Area 1. Health (3 units):
Choose from HSC 421, 423, 425I, 427
- Area 2. Physical Education (3 units): KPE 477
- Area 3. Life Management (3 units):
Choose from FCS 132, 319, 419, REC 371
- Area 4. Additional Selected Study (6 units):
Choose from those listed in Areas 1 and 3 not completed.

Historical Perspectives

Prepares students in the subjects identified in the History-Social Science Framework for California Public Schools which provides the rationale and coherence for this course work. Emphasis is upon historical perspective not only in terms of Western/American tradition, but also in terms of other world societies and peoples. (The following core courses are recommended for students choosing this concentration: HIST 111 in Area IV, B, Group 2; ANTH 314 in Area IV, B, Group 3 and AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3.)

Complete 15 units from:

- Area 1. Peoples of the World (3 units):
Choose from ANTH 321, 323, 324, 332, 333, 335, GEOG 309I, 316, 318, 320I, 326
- Area 2. Ancient World Civilizations (3 units):
Choose from ANTH 313, 345, 347, A/ST 300I, HIST 313, 314, 316, 382A, POSC 301
- Area 3. U.S. Emerges as a Nation (3 units):
Choose from HIST 372, 375, 477A, 485A, W/ST 485A
- Area 4. California (3 units):
Choose from ANTH 322, 349, CHLS 300, GEOG 304, HIST 370, POSC 326
- Area 5. American Society Today (3 units):
GEOG 306, 466, HIST 380, 474I, W/ST 307I

History/Social Science

In addition to deepening their knowledge of specific subjects in this area of study, students with a concentration in History/Social Science will be exposed to the specific modes of inquiry characteristic of such disciplines as history, anthropology and geography. Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. California Studies is most appropriate for 4th grade teaching, United States Studies for 5th or 8th grade teaching, and Global Studies for 6th grade teaching. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives, 3) Social and Cultural Perspectives, 4) Geographic Perspectives.

Complete 12 units from:

California Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/
LING 425

Group 2: Historical Perspectives:

Choose one course from AIS 490, ANTH 349, ASAM
200, 220, 335I, C/LA 485, CHLS 300, 335I, HIST
370, 402, 462, 471, 482

Group 3: Social and Cultural Perspectives:

AIS 335, ANTH 322, ASAM 330, 331, 332, 333, 334,
CHLS 352/SOC 341, POSC 323, POSC 326

Group 4: Geographic Perspectives: GEOG 120, 304

United States Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/
LING 425

Group 2: Historical Perspectives:

Choose one course from AIS 105, ANTH 347, ASAM
200, 220, 335I, B/ST 120, 190, 381, CHLS 300, 335I,
390I, ECON 360I, HIST 370, 372, 373, 376, 481,
485A, W/ST 485A

Group 3: Social and Cultural Perspectives:

Choose one course from AIS 335, ANTH 321,
ANTH/W/ST 475, ASAM 330, 331, 332, 333, 334,
340, 345, 346, 347, 352, 370, 380, 381, B/ST 353,
400, 410, 420, 423, 424, CHLS 310, 340, 350, 415,
ECON 300, HIST 381, 469, 471, 474I, 485B, 486,
LING 470 POSC 323, 395I, 420, 423, 424, SOC 320,
325, 340, 345, 346, 423, 466, SW 423, W/ST 102,
308, 315, 318I, 320, 325, 381, 485B, 420, 430

Group 4: Geographic Perspectives:

Choose one course from GEOG 120, 306, 401, 466,
U/ST 301I

Global Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING
425

Group 2: Historical Perspectives:

Choose one course from ANTH 307I, ANTH 345, A/
ST 300I, A/ST 301I, B/ST 200, 304, 430, 498, ECON
361I, 368, GEOG 307I, HIST 211, 304, 362, 364,
382A, 382B, 383A, 383B, 385, 386, 391, 392, 396,
431, 432, 492, POSC 401, W/ST 402

Group 3: Social and Cultural Perspectives:

ANTH 314, 323, 332, 335, 351, A/ST 320, 393I, 495I,
B/ST 337, 404, 460, CHIN 250, ECON 306I, HIST
406B, 466C, POSC 220, 371, 388I, 395I, SOC 350,
466, 494, W/ST 401I, 406, 410, 432

Group 4:

GEOG 150, 160, 308I, 309I, 314I, 316, 319, 320I,
355, 455, 460, I/ST 319I, 355, POSC 358, 359, 362,
363, 366, 367

Human Behavior

Provides an understanding of basic principles underlying human behavior. Why do people interpret, believe, feel, think and act as they do? Basic issues include: How people process information and how they organize what they learn into knowledge structures; processes in social learning; how people influence other people and individual differences in ability and personality that affect behavior. These principles will be applied to specific issues in courses selected from a broad range of disciplines. (Credit in the concentration will be granted for either PSY 351 or SOC 335I, but not for both.)

Complete 15 units from:

Area 1. Basic Principles (6 units):

Choose from ANTH 311I, PSY 351, 356, 370, SOC 100, 335I

Area 2. Application/Race and Ethnicity (3 units):

Choose from ANTH 419, ASAM 340, B/ST 310, 325, 410

Area 3. Application/Gender Roles (3 units):

Choose from ANTH 351, FCS 358, HIST 309I, PSY 352, 354,
366, SOC 325, W/ST 314, 325, 420

Area 4. Application/Social Environments (3 units):

Choose from ANTH 436, ECON 309I, FCS 309I, 410, FIN 309I,
HSC 421, POSC 428, PSY 381, SOC 320, 336

Human/Child Development

Provides students with a background in the developmental issues of children, adolescents and adults within a family and social context. Specific areas focus on the intellectual and socio-emotional development of individuals from birth through aging and the effects of the near environment on their development. Factors which effect individual variability in growth and development such as gender, family, racial, ethnic and cultural differences will be explored. (The following core courses are REQUIRED for students selecting this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3 and ANTH 120 in Area IV, B, Group 3.)

Complete 15 units from:

Area 1. Intellectual and Social Development (3 units):

Choose from EDP 305, FCS 314, PSY 463

Area 2. Adult Development (3 units):

Choose from GERN 400I, HDEV 357I, PSY 365, SOC 464

Area 3. The Child in the Family (3 units):

Choose from ASAM 340, B/ST 410, FCS 319, 412, 413

Area 4. Social Ecology of Child Development (6 units):

Choose from B/ST 420, CHLS 350/SOC 340, EDP 302, 350,
485/LING 485, FCS 411, 430, HDEV 360, NRSO 481I, SOC 345,
SOC/SW 423

Language Arts

Provides students with special appreciation for languages, literatures, and their relation to culture through study in three areas: Language perspectives, which involves the study of languages (and/or language) and their relationships to literary and cultural patterns; theory and/or criticism which provides the theoretical tools for the analysis and explanation of those relationships and language process which involves additional practice in the creative and technical aspects of producing linguistic products. (The following core classes are highly recommended for students selecting this concentration: COMM 335 in Area I, Group 2; ANTH 412I in Area IV, B, Group 3; PHIL 100, 160, 203, 204 or 305 in Area V, B, Group 1 and ENGL 200 in Area VI, Group 3a. No more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

Area 1. Language and Culture (3 units):

Choose from ANTH 413, 475, B/ST 180, ENGL 423, 426, LING 413, 423, 426, 363I, 470, COMM 309, 330, W/ST 475

Area 2. Language and Literature (3 units):

Choose from AIS 340, A/ST 320, B/ST 140, 343, CHIN 370, CLSC 191, C/LT 403, 404, 410, 440, 453, ENGL 382, 431, FREN 335, 336, GERM 415, 416, JAPN 370, RUSS 310, SPAN 330, 341, W/ST 382

Area 3. Language/Theory and Criticism (3 units):

Choose from C/LT 361, ENGL 318I, 384, 410, 484, PHIL 361, 484, R/ST 301, FEA 318I, COMM 300, 301, 306, 333, THEA 426

Area 4. Language and Process (3 units):

Choose from B/ST 450, ENGL 205, 206, 317, 405, 406, 417, COMM 331, 358, THEA 380

Area 5. Additional Selected Study (3 units):

Choose from ENGL 375, LING 472, COMM 355

Language and Literacy

Students in the Language and Literacy concentration develop their knowledge of and appreciation for Literature while also engaging enhancing their ability to deal with literacy education through additional study of linguistics and culture.

Complete 12 units from:

Group 1. Exploring Literature:

Choose two courses from AIS 340, ASAM 260, 360, B/ST 340, 343, 346, CHIN 370, CHLS 205, C/LT 100, 415I, ENGL 180, 250A, 250B, 270A, 270B, 363, 375, 382, 385, 386, 482, JAPN 370, W/ST 382

Group 2. Sociolinguistics and Schooling: LING/EDEL 379

Group 3. Language, Literacy and Culture:

Choose one course from: ANTH 413, 475, COMM 309, 330, 355, EDEL 430, 439, EDP 432, 439, 485, EDSE 439, ENGL 300, 327, 410, 435, 436, LING 327, 413, 470, 485, 486, W/ST 475.

Language Other Than English

Provides opportunity for students to gain access to advanced preparation in reading, writing and speaking a selected language other than English. Provides insights into second language acquisition and the intimate relationships linking language, cognition and culture. Students select one language in which to complete the following requirements:

Complete 15 units from:

Area 1. Advanced Language Study (6 units):

Choose from CHIN 301, 302, FREN 312A, 312B, GERM 301, 302, ITAL 312A, 312B, JAPN 301, 302, RUSS 312, 399

Area 2. Conversation (3 units):

Choose from CHIN 490, FREN 214, GERM 305, ITAL 214, JAPN 311, RUSS 314, SPAN 314

Area 3. Literature (3 units):

Choose from CHIN 370, FREN 335, 336, GERM 415, 416, ITAL 490, JAPN 471, RUSS 310, SPAN 330, 341

Area 4. Additional Study (3 units):

Choose from CHIN 490, FREN 314, 411, 414, GERM 303, 401, ITAL 314, 490, JAPN 312, 350, 461, RUSS 499, SPAN 322

Mathematics

Provides advanced study of mathematics consistent with the philosophy of the California Framework in Mathematics and Standards of the National Council of Teachers of Mathematics for the mathematics content taught through the middle grades. (The following core courses are REQUIRED for students choosing this concentration: MTED 312 in Area II, Group 2; MTED 301 in Area VI, Group 3b.) Students choosing the Mathematics Concentration must complete MTED 312 with a "C" or better grade prior to registering for MTED 402.

Complete 12 units from:

Group 1. Probability and Activities-Based Statistics:

MTED 105 (must be completed prior to enrollment in MTED 402)

Group 2. History of Mathematics: MTED 315

Group 3. Number Theory and Algebraic Structures: MTED 320

Group 4. Functions, Models and Concepts of Calculus: MTED 325

Natural Science

The two pathways in the Natural Science concentration provide students with fundamental skills and abilities to deal confidently with a wide variety of scientific viewpoints applied to various important issues, as well as concrete and significant examples of scientific thinking. Pathway A is a "breadth" pathway which is particularly appropriate for future K-5 teachers. In Pathway A students choose at least one course from three different groups. Pathway B is a "depth" pathway which is particularly appropriate for future teachers of grade 6-8 as well as for students who prefer a stronger emphasis on investigation and experimentation. In Pathway B students choose at least three courses from a single group.

Complete 12 units from:

Pathway A – Breadth – Choose coursework from EACH of the following groups:

Group 1. Earth Science:

Choose one course from: GEOL 160, 190, 240, 300I

Group 2. Life Science:

Choose one course from: BIOL 100, 153, MICR 101, 300I

Group 3. Physical Science:

Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A

Group 4. Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from GEOL 105, ASTR 100L, NSCI 309I, NSCI 375I or any additional class from those listed above.

Pathway B: Depth – Choose an option and take three courses in that option:

Earth Science Option:

Choose three courses from: GEOL 160, 163, 190, 240, 300I, 341, GEOL/BIOL 303

Life Science Option:

Choose three courses from: BIOL 100, 153, GEOL/BIOL 303, MICR 101, 300I

Physical Science Option:

Choose three courses from: ASTR 100, CHEM 100, 111A, 111B, 202, 302, PHYS 100A, 100B

Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from ASTR 100L; NSCI 309I, 375I, or any additional class from any other of the options listed above.

U.S. Multicultural Studies

Students should learn from their earliest school years that our nation is composed of people whose backgrounds are rooted in cultures from around the world, and they should develop respect for the dignity of all people and ways of life. This concentration will help potential teachers to recognize that the history of community, state, region and nation must reflect the experience of men and women of different racial, religious and ethnic groups in our pluralistic society. (The following core course is REQUIRED for students choosing this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3. Courses selected should include all four major U.S. ethnic groups. No more than 3 units of lower division (100-200) course work may apply toward the concentration and no course used to satisfy a core requirement may be used to satisfy a concentration requirement.)

Complete 15 units from:

Area 1. Education in an Ethnic Perspective (3 units):

Choose from AIS 361, ASAM 310, B/ST 420, CHLS 340

Area 2. Multicultural Perspectives (3 units):

Choose from ANTH 412I, 421/LING 425, EDP 432/ EDEL 430, FCS 336, HDEV 360, COMM 330, W/ST 401I

Area 3. Ethnic Studies (9 units):

No more than one course may be selected from 100-200 level courses and from any one department (courses cross-listed with CHLS will be considered CHLS department courses in this context). Choose from AIS 105, 106, 200, 320, 340, 420, ASAM 220, 340, 345, 370, 380, B/ST 110, 180, 370, 400, 410, CHLS 300/ HIST 370, CHLS 310, CHLS 350/SOC 340, CHLS 352/ SOC 341, CHLS 390I

Visual and Performing Arts

Allows students to develop skills in responding to the arts as well as in creating and performing. Courses will examine the history of traditional Western fine arts as well as the role the arts play in another cultural tradition. All four components of the California Framework for the Visual and Performing Arts are addressed: Aesthetic perception, creative expression, arts heritage and aesthetic valuing.

Complete 15 units from:

Area 1. Perception, Expression, Heritage, Valuing (6 units):

ART 302 (Course no longer offered. See Liberal Studies director for substitution.), MUS 385

Area 2. Fine Arts History (6 units):

If a Theatre course was taken in the Core, include at least one Dance course here. Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, C/LT 422I, DANC 110, 435I, MUS 363I, 364I, 393

Area 3. Multicultural and Ethnic Arts (3 units):

Choose from AIS 320, 420, AH 455, 456, 457, 466, 467, 468, 469, 470A/B, B/ST 346, 363, MUS 490

TRACK II (code L/STBA02)

Students in this track complete a Core program (87 units minimum) and a Concentration (24-32 units). The Track II program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track II program. A minimum of six units of interdisciplinary course work (courses with an I suffix) must be completed in the major—in either the core, the concentration or a combination of both. Course work used to meet the specific requirements of the core may also be used to meet the specific requirements of a concentration to a maximum of 12 units of such “double counting” or “overlapping.” (Although one course may satisfy two requirements at the same time, the units earned apply to the total units required for the degree only once.) Minimum units for the Liberal Studies major, Track II, could vary from 99-119 units depending on choice of concentration and potential for overlapping core and concentration requirements.

The Track II Core consists of a minimum of 87 units distributed across seven areas: I. Language and Communication Studies (minimum 18 units); II. Natural Science and Mathematics (minimum 18 units); III. National and World Citizenship (minimum 18 units); IV. Social and Behavioral Science Foundations (minimum 9 units); V. Literary, Visual and Performing Arts (minimum 12 units); VI. Cultures, Values and Beliefs (minimum 9 units) and VII. Health Well-Being, Life-Management: (minimum 3 units). Only one course per core area may be taken credit-no credit within university maxima of 24 units overall and 12 at the upper division (300-400) level.

The Track II Concentration consists of 24-32 units of course work in a selected discipline. A minimum of 15 of the concentration units will be in upper division (300-400) course work with the exception of the Biology and Mathematics concentrations where only 12 upper division units are required. Only one concentration course may be taken credit-no credit.

Requirements

Track II Core

A minimum of 87 units as specified in Areas I, II, III, IV, V, VI and VII. Only one course per core Area may be taken credit-no credit within university limitations of 24 overall, 12 at the upper division (300-400) level.

Area I: Language and Communication Studies (minimum 18 units)

Group 1. Composition in English:

a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100;

b) Choose one course from B/ST 450, ENGL 101, 205, 206, 300, 317, 407, 417, 418, THEA 380

Group 2. Oral Communication in English:

Choose one course from COMM 110, 130, 132, 331, 334, 335

Group 3. Language and Critical Thought:

Choose one course from A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, *UHP 100 (*UHP 100 is limited to students in the University Honors Program)

Group 4. Language Study Other than English:

Complete a two semester sequence in one language from CHIN 101, 102, 201, 202, FREN 101A, B, 201A, B, GERM 101A, B, 201A, B, GK 101A, B, 301A, B, ITAL 101A, B, 201A, B, JAPN 101, 102, 201, 202, LAT 101A, B, 301, RUSS 101A, B, 201A, B, SPAN 101A, B, 201A, B (This is not a proficiency requirement, but a requirement for one sequential year of language study beyond current level of mastery. Choose the language and level appropriate to prior preparation. If prepared for more advanced 300 level of study or higher, substitutions of higher level language courses for those above can be made.)

Area II: Natural Science and Mathematics (minimum of 18 units):

Group 1. Mathematics:

Choose two courses from MATH *103, 112, 114, 115, 117, 119A, 119B, 122, 123
(*MATH 103 is not open to students who have completed a higher math course or its equivalent.)

Group 2. Natural Sciences:

a) Choose one course from BIOL 200, 205, 207, 211A;
b) Choose one from ASTR 100+100L, CHEM 100, 111A, GEOL 102+104 or 105, PHYS 100A, 151, PHSC 112

Group 3. Additional Study in Science or Math:

Choose two courses, at least one of which is at the upper division (300-400) level, from any of the courses listed in Area II, Groups 1 and 2 not completed, or from ASTR 370I, BIOL 153, 211B, 303, 309I, 401, CHEM 111B, C/LA /HDEV 250, ET 202, GEOG 140, GEOL 160,160+160L, 163, 190, 191, 240, 303, MATH 180, 224, 233, 247, 310, 330, 340, 341, 355, 370A, 380, MICR 101, 300I, 302I, 303, NSCI 375I, PHSC 331, PHYS 100B, 152, HIST 400I, PSY 110, 346I, SOC 255 (For upper division work special attention is directed to the range of Interdisciplinary (I) courses offered in the College of Natural Sciences and Mathematics; these are highly recommended.)

Area III: National and World Citizenship (minimum 18 units):

Group 1. Basic Studies:

a) Choose one course from HIST 172, 173, 300;
b) Choose one course from POSC 100, 391, *326 (POSC 326 is limited to students who have completed a U.S. Government course in a state other than California or have Advanced Placement Credit in U.S. Government and must meet Title V state and local government requirements);
c) Choose one course from ECON 300, 368

Group 2. U.S. Diversity:

Choose one course from: AIS 319, ANTH 329, 419, ASAM 200, 319, B/ST 210, 319, 325, CHLS 319, 350, 352, POSC 323, SOC 340, 341, 346, W/ST 319

Group 3: National Citizenship:

Choose one course from B/ST 381, C/LA 492A, EDP 492, GEOG 301I, HIST 474I, 480, LING 472, POSC 210, 308, 327, 328, 420, 423, 424, 482, 486, PSY 375I, SOC 449I, COMM 441I, 442I, U/ST 301I

Group 4. World Citizenship:

Choose one course from ANTH 307I, 314, ECON 306I, GEOG 307I, 470, 478, I/ST 478, PHIL 351, POSC 215, 220, 306, 353, 371, 485, SOC 350

Area IV: Social and Behavioral Science Foundations (minimum 9 units)

Group 1. Psychology/Sociology:

Choose one course from PSY 100, SOC 100, 142

Group 2. Geography/Cultural Anthropology:

Choose one course from ANTH 120, GEOG 100, 100W, 160

Group 3. History:

Choose one course from HIST 211, 212, 131, 132

Area V: Literary, Visual and Performing Arts (minimum 12 units)

Group 1. Visual and Performing Arts:

Choose two courses from two different arts from AIS 320, ART 110, AH 113A, 113B, 115B, 115C, B/ST 155, 160, 363, CLSC 421I, DANC 110, 435I, MUS 190, 290, 363I, 364I, 490, THEA 113, 122, THEA/CLT 124, 324I

Group 2. Literature:

a) Choose one course from B/ST 140, CHLS 150, C/LT 100, 334, 336, ENGL 180, 184, 250A, 250B:
b) Choose one course from AIS 340, B/ST 343, 346, CHIN 370, C/LT 330A, 330B, 342, 346, 403, 404, 415I, 430, 440, ENGL 270A, 270B, 363, 375, 382, 385, 386, FREN 335, 336, GERM 415, 416, JAPN 370, JOUR 315, R/ST 425I, SPAN 330, 341, W/ST 382

Area VI: Cultures, Values and Beliefs (minimum 9 units)

Group 1. Western Tradition:

Choose one course from either (a) or (b):
a) CLSC 310I, C/LT/HIST 310I, 312I, 414I, HIST 335, 477A, 477B;
b) HIST 371, PHIL 100, 160, 160W, 203, 204, 330, 352, 361, 363, R/ST 102, 383I, 482I

Group 2. Non-Western Traditions:

Choose one course from either (a) or (b):
a) ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 341A, 341B, 382A, 382B, 383A, 383B, 385, 386, 431;
b) AIS 335, ASAM 380, B/ST 353, PHIL 306, 307, R/ST 103, 331I, 341I, 343, 344, 351

Group 3: Additional Study (3 units):

Choose another course from those listed in Group 1a, 1b, 2a, and 2b not completed.

Area VII: Health, Well-Being and Life Management (minimum 3 units)

Choose one course from ANTH 150, ECON 309I, EDP 191, 357, FCS 132, 309I, 312I, FIN 309I, HSC 210, 420I, 421, 422, 423, 425I, 427, 429, HDEV 307I, 357I, KPE 157, NRSG 481I, REC 220, 340I, SW 330, 331, SOC 461I, 462, 463, W/ST 101, 440

Track II Concentration

A minimum of 24 units of which 15 must be at the upper division (300-400) level (with the exception of Biology and Mathematics where only 12 units at the upper division are required) from one of the disciplinary programs below. A maximum of 12 units of course work used to meet requirements of the core may be used to satisfy the requirements of the concentration. In such "double-counting," one course may satisfy

two requirements but the units apply to total degree requirements only once. Unit requirements in some concentrations exceed the 24 unit minimum; no concentration requires more than 32 units. Only one course in a concentration may be taken credit-no credit.

American Indian Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from AIS 105, 106, 200

Area 2. Selected Area Study (12 units):

Choose from AIS 320, 335, 340, 361, 420, 490, 497, 499

Area 3. Additional Support and Area Study (6 units):

Choose from courses in Areas 1 and 2 not completed or from: ANTH 321, 322, 347, 349, AH 456, 457, CHLS 420, HIST 372

American Studies

Inactive, no new students admitted.

Anthropology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units) :

ANTH 110, 120

Area 2. Additional Lower Division Study (3 units):

Choose from ANTH 140, 170

Area 3. Upper Division Foundation Study (6 units):

ANTH 313, 314

Area 4. Biological Anthropology (3 units):

Choose from ANTH 318, 363, 435

Area 5. Sociocultural Anthropology (3 units):

Choose from ANTH 351, 413, 416, 421, 436

Area 6. Comparative Cultures (3 units):

Choose from ANTH 321, 322, 323, 324, 332, 333, 335, 345, 347, 349

Art/Art History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units):

Choose three courses from AH 113A, 113B, 115B, 115C

Area 2. Principles and Practices (3 units):

Choose from AH 307, 308, 309, 435

Area 3. Western Art (3 units):

Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, 438, 439

Area 4. Non-Western Art (3 units):

Choose from AH 455, 456, 457, 465, 466, 467, 468, 469, 470A/B

Area 5. Additional Upper Division Study (6 units):

Choose from courses listed in Areas 3 and 4 not completed.

Art/Studio

Special admissions deadlines apply.

Complete a minimum of 27 units with 12 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

ART 131, 181, 182, 187

Area 2. Art History (3 units):

Choose from AH 437, 438, 439

Area 3. Selected Upper Division Study (12 units):

Choose from ART 316, 317, 328A, 328B, 354A, 354B, 355A, 357A, 357B, 370, 376, 378, 379, 381, 385, 387, 428A

Asian American Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units):

ASAM 200, 220

Area 2. Upper Division Foundation Study (7 units):

ASAM 345, 380

Area 3. Additional Selected Study (11 unit minimum):

Choose from ASAM 310, 330, 340, 370 490, 499

Biology

Complete a minimum of 32 units with 12 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (20 units):

BIOL 211A, 211B, CHEM 111A, 111B

Area 2. Selected Upper Division Study (12 units minimum):

Choose from BIOL 313, 316, 324, 328, 332, 351, 413, 421, 423, 424, 425, 427, 439, 453, 490, 490L, 496

Black Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Introduction (3 units): B/ST 110

Area 2. History (3 units): Choose from B/ST 120, 121

Area 3. Selected Lower Division Study (3 units):

Choose from B/ST 155, 160, 200, 210

Area 4. Humanities (6 units):

Choose from B/ST 340, 343, 346, 450

Area 5. Social Studies (9 units):

Choose from B/ST 304, 325, 330, 332, 335, 337, 400, 410

Chicano-Latino Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

Choose from CHLS 100, 101, 150, 230

Area 2. Upper Division Foundation Study (9 units):

CHLS 300/HIST 470, 310, 350/SOC 340

Area 3. Culture Study (3 units):

Choose from CHLS 390I, 395, 420

Area 4. Social Inquiry (3 units):

Choose from CHLS 340, 352, 415, 421

Comparative Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study, Breadth (6 units):

Choose from C/LT 330A, 330B, 334

Area 2. Foundation Study, Depth (3 units):

Choose from C/LT 430, 449

Area 3. Genre Study (6 units):

Choose from , CLSC 421I, C/LT/THEA 124, C/LT 232, 320I, C/LT/THEA 324I, C/LT 346, 405, 453

Area 4. Comparative Literary Study (3 units):

Choose from C/LT 336, 403, 404, 440, 448, 452

Area 5. Literary Movements or Periods (3 units):

Choose from C/LT 349, 431, 432, 437, 438

Area 6. Literature and the Other Arts (3 units):

C/LT 250, C/LT/HIST 310I, C/LT 410, 412I, 451I

Economics

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units): ECON 100, 101

Area 2. Upper Division Foundation Study (6 units): ECON 313, 360I

Area 3. Additional Selected Study (12 units): Choose an additional upper division upper division Economics classes exclusive of ECON 309 which may not be taken for concentration credit. (With Economics Debarment approval, ECON 300 and an upper division Economics course may be substituted for ECON 100 and 101).

English/Creative Writing

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (8 units): ENGL 184, 270B

Area 2. Introductory Study (3 units): Choose from ENGL 205, 206

Area 3. Advanced Study (6 units): Choose from ENGL 405, 406, 407

Area 4. Additional Selected Study (9 units minimum): Choose from ENGL 375, 384, 385, 386, 459, 467A, 467B, 469, 474, 475, 476, 477A, 477B, 479, THEA 380

English/Language and Composition

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundational Study (14 units): ENGL 184, LING 325, 420, 421

Area 2. Literature (4 units): Choose from ENGL 250A, 250B, 270A, 270B

Area 3. Additional Selected Study (6 units): Choose from the ENGL 300, 317, ENGL/LING 423, 426

English Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) levels from:

Area 1. Foundation Study (8 units): ENGL 184, 363,

Area 2. American Literature Survey (4 units): Choose from 270A, 270B

Area 3. British Literature (3 units): Choose from ENGL 451, 452, 453, 455, 456, 458, 459, 462, 463, 467A, 477A, 478

Area 4. American Literature (3 units): Choose from ENGL 474, 475, 476, 477A, 477B, 478

Area 5. Additional Selected Study (minimum of 6 units): Choose additional courses from those listed in areas 2, 3 and 4 above or from C/LT 330A, 330B, ENGL 375, 384, 469, 479, 481, 482

English/Technical Writing

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): ENGL 184, 317,

Area 2 Report Forms (6 units): Choose from ENGL 417, 418, 419

Area 3 Language Study (3 units): ENGL 320, LING 325

Area 4. Additional Selected Study (8 units): Choose from AH 307, 309, ET 300, ENGL 384, 405, 406, 407, ENGL/LING 423, ENGL 491, FEA 303, 380, 404, HIST 400I, IS 301

French

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units): FREN 312A, 312B, 314, 411

Area 2. Additional Selected Study (12 units): Choose additional courses in French. Lower division (100-200) courses are only appropriate if taken prior to FREN 312A or its equivalent.

Geography

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation (9 units): Choose from GEOG 100, 140, 160

Area 2. Methods and Techniques (3 units): GEOG 380

Area 3. Systematic Geography [6 units: 3 from a) and 3 from b):

a) Choose from GEOG 460, 466, 470;

b) Choose from GEOG 440, 442, 444, 452, 455, 460, 466, 470 [No course used to satisfy a) may be used to satisfy b).]

Area 4. Regional Geography [6 units: 3 from a) and 3 from b):

a) Choose from GEOG 304, 306;

b) Choose from GEOG 304, 306, 309I, 316, 318, 320I, 326 [No course used to satisfy a) may be used to satisfy b).]

German

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (15 units): GERM 301, 302, 401, 415, 416

Area 2. Additional Selected Study (minimum 9 units):

Choose additional courses in German. Lower division (100-200) courses are only appropriate if taken prior to GERM 301 or its equivalent.

History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (3 units): HIST 301

Area 2. Area Study (18 units):

Choose 6 units each from three different areas:

World Area: Choose from HIST 211, 212, 492;

European Area: Choose from HIST 131, 132, 313, 314, 316, 317, 318, 332, 333, 335, 336, 337, 339, 341A, 341B, 433, 437;

British Area: Choose from HIST 351, 353, 356, 357;

Latin American Area: Choose from HIST 362, 364, 462, 463;

United States Area: Choose from HIST 172, 173, 300, 3711, 372, 375, 376, 378, 379, 380, 469, 471, 472, 473, 4741, 477A, 477B, 478, 479, 480, 485A, 485B, 486, 489;

Asian Area: Choose from HIST 382A, 382B, 383A, 383B, 384, 385, 386, 406B, 4071, 488

Area 3. Additional Selected Study (3 units):

Choose an additional course from History Department offerings or from Area 2 courses not completed.

Human Development

Students choosing this concentration must complete the following courses in the core program: ANTH 120, BIOL 205 or 207, PSY 100, or complete them as prerequisite units to the concentration and elective units toward the degree.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

HDEV 3071, 3571, 360, 402

Area 2. Foundation Methodologies (8 units):

HDEV/C/LA 250, HDEV 320

Area 3. Area Study (6 units):

Choose 6 units from one area:

Biological Foundations Area: Choose from ANTH 318, 319, BIOL 401, PSY 141;

Psychological Foundations Area: Choose from EDP 305, PSY 331, 332, 333, 336, 341, 351, 356, 370, 438, 463;

Sociocultural Foundations Area: Choose from ANTH 454, ASAM 340, B/ST 410, CHLS 350/SOC 340, FCS 3121, 412, 413, SOC 100, 320, 345, 464;

Child Development Area: Choose from FCS 311, 3121, 314, 411, 412, 413, 433;

Gerontology Area: Choose from BIOL 401, GERN 4001, SOC 464

Italian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): ITAL 312A, 312B, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Italian. Lower division (100-200) courses are only appropriate if completed prior to ITAL 312A or its equivalent.

Japanese

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

JAPN 301, 302, 311, 312

Area 2. Additional Selected Study (12 units):

Choose additional courses in Japanese. Lower division (100-200) courses are only appropriate if completed prior to JAPN 301 or its equivalent.

Latin American Studies

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Language Study (8 units): SPAN 201A, 201B

Area 2. Discipline Emphasis (6 units):

Choose 6 units from one department, a minimum of 3 units to be at the upper division (300-400) level, from: ANTH 323, 324, 345, HIST 362, 364, POSC 358, 359, 4611*

(*Only those semesters when content emphasizes Latin American development.)

Area 3. Breadth Study (6 units):

Choose 3 units each from two additional departments and courses listed in Area 2 or from GEOG 320I

Area 4. Additional Selected Study (6 units):

Choose six additional units from courses listed in Area 2 and 3 or from: HIST 462, 463, SPAN 314, 341, 430, 441, 445, 491, 492

Mathematics

Complete a minimum of 27 units with 12 units at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (15 units):

MATH 122, 123, 224, 233

Area 2. Upper Division Foundation Study (6 units):

MATH 364A, 380

Area 3. Additional Selected Study (6 units):

Choose from MATH 310, 340, 341, 355, 361A, 381

Music

Students choosing this concentration must demonstrate piano proficiency equivalent to MUS 120B, voice proficiency equivalent to MUS 122A, instrument proficiency equivalent to MUS 125 or complete the equivalency courses as corequisite units to the concentration and elective units toward the degree.

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): MUS 300, 490

Area 2. Selected Historical Study (3 units):

Choose from MUS 363I, 364I, 393

Area 3. Additional Selected Study (minimum 14 units):

Choose from courses listed in Area 2 not completed or from MUS 300, MUS 460, 469, 492, 493, 495

Philosophy

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from PHIL 342, 363, 382

Area 2. Historical Focus (3 units):

Choose from PHIL 413, 414, 421, 422, 423, 424

Area 3. Movements and Perspectives (3 units):

Choose from PHIL 416, 417, 418, 419

Area 4. Additional Selected Study (12 units):

Choose additional courses from Areas 1, 2 and 3 not completed or from other departmental offerings.

Psychology

Impacted Program. Special Admissions criteria apply.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (11 units):

PSY 100, 200, 110

Area 2. Basic Processes (3 units):

Choose from PSY 331, 332, 333, 336, 341, 342

Area 3. Personal and Social Processes (3 units):

Choose from PSY 351, 356, 361, 365

Area 4. Additional Selected Process Study (3 units):

Choose from Area 2 and 3 classes not completed.

Area 5. Applications (3 units):

Choose from PSY 310, 314, 346I, 352, 354, 359, 366, 370, 375I, 378, 381

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) course from Areas 2, 3, and 5 not completed or from other departmental offerings.

Religious Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from R/ST 100, 103, 202

Area 2. Western Religious Traditions (3 units):

Choose from R/ST 311, 312I, 314, 315I, 322, 331I, 471I, 472I, 485, 490

Area 3. Eastern Religious Traditions (3 units): Choose from R/ST 341I, 343, 344, 351

Area 4. Selected Upper Division Study (6 units):

Choose from Areas 2 and 3 not completed or from R/ST 301, 302I, 375, 376I, 383I, 425I

Area 5. Additional Selected Study (6 units):

Choose from courses in Areas 1, 2, 3 and 4 not completed or from ASAM 380, C/LT 342, HIST 333, PHIL 330, R/ST 499

Russian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): RUSS 310, 312, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Russian. Lower division courses are only appropriate if taken prior to RUSS 312 or its equivalent.

Sociology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): SOC 100, 142, 335I

Area 2. Statistics (3-4 units): SOC 255

Area 3. Ethnic and Gender Issues (3 units):

Choose from SOC 325/W/ST 325, SOC 340/CHLS 350, SOC 346, 426

Area 4. Deviance and Social Control (3 units):

Choose from SOC 345, SOC/SW 423, SOC 440, 441I, 448

Area 5. Social Change and Global Issues (3 units):

Choose from SOC 350, 420, 427

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) from Areas 3, 4, and 5 not completed or from other departmental offerings.

Spanish/Spanish American Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units): SPAN 341, 445

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 441, 491

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

Spanish/Spanish Linguistics and Culture

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units):

SPAN 425 (course no longer offered. See Concentration Advisor for substitution), 426

Area 3. Linguistics and Culture Selected Study (6 units):

Choose from SPAN 427, 430, 445

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

Spanish/Spanish Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 300

Area 2. Foundation Study (6 units): SPAN 330, 430

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 439, 491, 492

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish.

Speech Communication

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

COMM 130, 131 + 131W, 110

Area 2. Upper Division Foundation Study (9 units):

COMM 300, 301, 309

Area 3. Selected Upper Division Study (3 units):

Choose from COMM 331, 335

Area 4. Communication Contexts and Strategies (3 units):

Choose from COMM 330, 412, 432, 436, 437.

Courses (L/ST)

Upper Division

400. Evaluating Literacy (3)

Prerequisites: Limited to students in the Liberal Studies major, Track I, who have completed all AREA I Core requirements with a "C" or better grade and passed the WPE, or consent of Program Director. Study of contemporary literacy theory and practice with focus on language, culture, literature, and development of literacy. Students will gain greater, more precise understanding of literacy assessment and its implications, determinations and effects as they are themselves assessed for language competencies. Letter grade only (A-F).

403. Civic Issues and Values (3)

Prerequisites: Limited to students in the Liberal Studies major, Track I, who have completed all Area IV Core requirements with a "C" or better grade. Provides subject opportunities and experiential activities for students to learn to confront controversial issues, solve problems cooperatively, examine issues from multiple and dialogical points of view, and practice listening with understanding and empathy. Student literacy in the social sciences and ability to recognize and deal with the dynamics of a multicultural, multiethnic community will be assessed.

404. Arts and Values (3)

Prerequisite: Limited to students in the Liberal Studies Major, Track 1, who have completed all Area V Core requirements with a "C" or better grade, or consent of Program Director. In a question-based format requiring integration of previous experience in the arts and humanities, students will explore the relationship between arts criticism and various broader values (historical, social, aesthetic, ethical). Typical questions to be addressed are: What establishes the parameters of arts criticism? How does a critic distinguish art from non-art, good art from bad? Who should criticize? What is the relationship between criticism and censorship? What shapes people's values in the arts? Competency in the arts will be assessed as the impact of religion, Enlightenment philosophy, modernism and multiculturalism on the arts and values and their relation to arts education are explored. Letter grade only (A-F).

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The Mechanical and Aerospace Engineering Department at California State University, Long Beach, offers a variety of programs to meet societal needs. At the undergraduate level the following programs are offered: Bachelor of Science in Aerospace Engineering (BSAE); Bachelor of Science in Mechanical Engineering (BSME); Bachelor of Science in Engineering (BSE) with options in Materials Engineering or Industrial-Management Engineering.

At the graduate level the following degree programs are offered: Master of Science in Aerospace Engineering (MSAE); Master of Science in Mechanical Engineering (MSME); Master of Science in Engineering (MSE) with an emphasis on Management Engineering, Systems Engineering, or a specialized interdisciplinary area meeting students' needs; and the Ph.D. in Engineering and Industrial Applied Mathematics (offered jointly with Claremont Graduate University). Additionally, the following post-baccalaureate certificate programs are offered: Certificate in Aerospace Manufacturing; Certificate in Heating, Ventilating, and Air-Conditioning (HVAC); Certificate in Industrial Plastics Processing and Design; and Certificate in Energy Conversion and Power Systems Engineering.

Students have the benefit of joining the student chapters of professional societies such as: the American Society of Mechanical Engineers (ASME); American Society of Heating, Refrigeration and Air Conditioning Engineers (ASHRAE); American Institute for Aeronautics and Astronautics (AIAA); Society of Automotive Engineers (SAE); Society of Petroleum Engineers (SPE); Society of Manufacturing Engineers (SME); as well as honor societies such as Pi Tau Sigma, which is housed in the MAE Department. As student members of these professional societies, students can attend local, regional, national and international meetings and conferences, participate in student paper contests, become eligible for society sponsored scholarships, interact with professionals from industry, and many other benefits.

MECHANICAL ENGINEERING PROGRAM

Undergraduate Program Goal and Educational Objectives

The goal of the Mechanical Engineering program at the undergraduate level is to graduate well-prepared entry-level professionals with an excellent education in the fundamentals of engineering sciences and design, and to provide them with the ability to apply their knowledge to translate ideas and plans into working engineering systems. This goal is achieved through the following educational objectives:

- Providing students to enter the profession of Mechanical Engineering, to pursue graduate studies, to commit to lifelong learning, and to continuing self-development.
- Providing students with a solid foundation in the areas of mathematics, basic sciences, computational skills, and a broad range of engineering sciences that are required for a contemporary mechanical engineer entering the profession.
- Training students thoroughly in methods of analysis, including the use of appropriate computer application software and other tools essential to develop engineering problem solving skills.

- Providing students with hands-on experience in planning, conducting, and analyzing results; and submitting formal reports on their experimental investigations.
- Providing opportunities for students to enhance their communication skills by means of formal writing, oral presentations, and world-class electronic media technology.
- Developing students' skills in the design process, including the ability to formulate problems, think logically and clearly, communicate effectively, synthesize information creatively, and function efficiently in a collaborative, teamwork environment.
- Providing the scope for co-curricular and extra-curricular activities which permit learning about the profession through professional societies, guest lectures, field trips, industrial employment, internships, active participation in national and international design competitions, and similar experiences.
- Installing in students an understanding of the importance of their professional, ethical, environmental, and social responsibilities, and their role in the contemporary issues of our society.

AEROSPACE ENGINEERING PROGRAM

Aerospace Engineering Program Mission Statement

The mission of the Aerospace Engineering (AE) program is to fulfill the needs of students, of industry and government, and of the local, national, and global community in the area of aerospace systems engineering education and research.

The mission is implemented through the following objectives:

1. Provide undergraduate students with a comprehensive education for successful careers in aerospace engineering.
2. Provide graduate students with an education for the advancement of their careers and access to doctoral studies.
3. Provide an environment for students and faculty to engage in creative thinking and research in the areas of computational fluid dynamics, aero- and hydrodynamics, design and optimization, composite materials, manufacturing, and structural analysis and design.
4. Promote aerospace sciences and engineering at the University and the broader community.
5. Establish ties with national and international educational and research institutions in order to promote worldwide exchanges.

Aerospace Engineering Undergraduate Program Educational Objectives

The goal of the undergraduate program is to produce well-rounded engineers who possess the skills required for a successful career in aerospace engineering. This goal is reached by:

1. Providing students with a comprehensive education in
 - 1.1 General Education, particularly communication in the English language and critical thinking, the physical universe, humanities and arts, social and behavioral sciences and history, and self-integration.

- 1.2 Mathematics and basic sciences,
- 1.3 General engineering topics and computer and software fundamentals, and
- 1.4 Aerospace engineering topics (aerodynamics, aerospace materials and structures, propulsion, space environment and space systems, communications and avionics systems, orbital and flight mechanics, and stability and control).
2. Preparing students for careers in aerospace engineering by emphasizing
 - 2.1 Analysis and problem solving,
 - 2.2 Preliminary design, design for manufacturing and systems engineering,
 - 2.3 Teamwork, professionalism, economic fundamentals, commercial viability of projects and business cases, and communication skills.
3. Providing student projects, internship and research opportunities to expose students to the professional environment, to stimulate their creativity, and to foster lifelong learning.

The Culture of Continuous Improvement

The Department of Mechanical and Aerospace Engineering continuously seeks input from its students, alumni, employers, community and industry leaders in order to improve its programs and ensure that students receive the best possible education and training. It is supported by a professional Advisory and Development Council (ADC). The council consists of outstanding engineers and executives from industry and government in Southern California. The role of the ADC is to form a liaison between the University and industry and to help the administration and faculty remain informed of modern engineering practices.

ABET Accreditation

The Bachelor of Science in Mechanical Engineering and the Bachelor of Science in Aerospace Engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET) (Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website <http://www.abet.org>).

UNDERGRADUATE PROGRAMS IN MECHANICAL AND AEROSPACE ENGINEERING

Bachelor of Science in Mechanical Engineering (code MAE_BS01) (135 units)

The realm of mechanical engineering is so extensive that training must be broad and basic, providing grounding in fundamentals which an engineer requires in order to gain competence in any specialized field. In view of this, mechanical engineering curriculum includes ample foundation courses in mathematics, physics, chemistry, and design graphics. These are followed by courses in energy conversion, thermodynamics, fluid mechanics, mechanics and strength of materials, metallurgy, design, computer-aided design/computer-aided manufacturing (CAD/CAM). Opportunity to explore further a particular area of interest is provided by additional elective courses in the senior year.

The laboratories of the department are provided with modern equipment for undergraduate instruction in the following areas: instrumentation and measurements, fuels and lubricants, materials and metallurgy, thermodynamics and heat power, vibration, design, and acoustics, strength of materials, design, CAD/CAM, control systems and manufacturing.

Several industry and professional society sponsored scholarships and internships are available to upper division mechanical engineering students. Further information is available in the department office.

Requirements

Lower Division: CHEM 111A; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; MAE 172, 205, 272; PHYS 151, 152.

Upper Division: CE 335, 336, 406; ECON 300; MATH 370A; MAE 300, 305, 322, 330, 336, 337, 361, 371, 373, 375, 376, 409, 431, 459, 471, 472, 476, 490, to total at least 135 units.

Bachelor of Science in Aerospace Engineering (code MAE_BS02) (132 units)

The curriculum is designed to supplement mathematics, science and basic engineering courses in order to give students the specialization needed in different areas of aerospace engineering. In addition to acquiring technical knowledge, graduates will have completed appropriate courses in communications and in humanistic social studies. The Mechanical and Aerospace Engineering Department is well equipped with state-of-the-art laboratories and computer facilities for undergraduate and graduate instruction.

Requirements

A grade of "C" or better must be achieved in all prerequisites for aerospace engineering courses.

Lower Division: CHEM 111A; MATH 122, 123, 224; PHYS 151, 152; CE 205; EE 211, 211L; MAE 101A, 172, 205.

Upper Division: ECON 300; MATH 370A; MAE 330, 333, 334, 350, 365, 371, 373, 374, 381, 390, 408, 434, 440, 452, 453, 465, 478, 479, 481, 483, and approved electives to total at least 132 units.

Bachelor of Science in Engineering

Option in Materials Engineering (code MAE_BS03) (135 units)

Modern engineering applications in all fields require new materials with properties well beyond those obtainable with the alloys available several years ago. New materials such as composites, ceramics, polymers, semiconductors and their manufacturing processes are needed for such diverse applications as the air transports, undersea deep submergence vessels, magnetic and semiconducting devices. Scientific knowledge in this area has expanded recently at a rate comparable to that experienced by the field of electronics. The materials option is offered to meet the demand for materials oriented engineers.

Course work is directed toward understanding of the properties of materials in terms of their atomic structure, and emphasis is placed on the behavior of materials in engineering applications. The laboratories have excellent equipment for studies in this field and include facilities for the determination of crystal structure, microscopic and X-ray diffraction, and

Scanning Electron Microscope examination of solids, thermal and mechanical treatment and the determination of properties at low and high temperatures.

Requirements

Lower Division: CHE 200; CHEM 111A, 111B; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; MAE 172, 205, 272; PHYS 151, 152.

Upper Division: CHE 415; CE 306; ECON 300; EE 320; MATH 370A; MAE 322, 330, 361, 371, 373, 374, 375, 409, 459, 490, plus approved engineering elective courses to total a minimum of 135 units.

For more information on admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Mechanical Engineering Program.

Option in Industrial-Management Engineering (code MAE_BS04) (135 units)

This is an interdisciplinary degree in which both the College of Business Administration and the College of Engineering provide courses which will enable the student to have a technical engineering background plus a good foundation in business and management practices. The option consists of the core engineering courses through the junior year with an addition of business courses in accounting, business law, management, inventory practices and operations research. The elective structure within this option is such that the student may specialize in either engineering, or a combination of both engineering and business.

Requirements

Lower Division: ACCT 201; CHEM 111A; CE 205; EE 211, 211L; FIN 200; MATH 122, 123, 224; ENGR 101; MAE 172, 205; PHYS 151, 152.

Upper Division: CE 306; ECON 300; FIN 320; IS 310; MATH 370A; MGMT 300; MGMT 411 or 412 or 413; MAE 305, 310, 322, 330, 371, 373, 376, 410, 459, 476, and approved electives to total at least 135 units.

For more information on admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Mechanical Engineering Program.

Bachelor of Science in Engineering Technology

Manufacturing Technology Option (code ET_BS04)

For requirements, see the description in the Engineering Technology Programs section of this catalog.

Quality Assurance Option (code ET_BS05)

For requirements, see the description in the Engineering Technology Programs section of this catalog.

Certificate in Aerospace Manufacturing (code MAE_CT01)

Director: Hamid Hefazi

This Certificate Program is designed to give students and working aerospace engineers an educational opportunity to focus on the complex and dynamic issues related to aerospace manufacturing.

Requirements

1. Required prerequisite courses or consent of the Program Director
2. Consultation with program director and preparation of a Program Planner.
3. Satisfactory completion of the required courses as listed below.
4. Fulfillment of the Writing Proficiency Exam requirements
5. Completion of Bachelor of Science degree in an approved major. The certificate may be awarded concurrently with or subsequent to baccalaureate degree.

Required Courses

The Certificate Program requires a minimum of 19 semester units: MAE 455, 456; ENGR 511, 574 and 3 units of approved graduate or 400-level engineering classes. Students should consult with the program director to assess any needed prerequisites.

Certificate in Heating, Ventilating, and Air-Conditioning Engineering (code MAE_CT03)

Director

Hamid Rahai

Faculty

Hamid Rahai, Reza Toossi and Jalal Torabzadeh

The 20-unit HVAC Certificate Program is designed to prepare engineering and science students for designing various HVAC systems and to familiarize them with HVAC equipment and their selection process.

With a proper choice of classes, you may also earn this Certificate in conjunction with your bachelor's degree. Contact the Department of Mechanical and Aerospace Engineering for more information.

Requirements

1. Consultation with the Program Director and preparation of a Program Planner;
2. Satisfactory completion of the required courses, as listed below;
3. Approval of the special project and its satisfactory completion (MAE 491);
4. Completion of a Bachelor of Science degree in an approved major. The Certificate may be awarded concurrently with or subsequent to the baccalaureate degree.

Required Courses

The HVAC Certificate Program requires a minimum of 20 semester units, as indicated below: MAE 330, 431, 438/538, 490E, 491, MAE 333 or CE 335; MAE 440 or CE 336

Certificate in Industrial Plastics Processing and Design (code MAE_CT02)

Director

Min-Ten Jahn

Professors

Mihir K. Das, Lloyd Hile, Min-Ten Jahn, and Hsien-Yang Yeh

The certificate program in Industrial Plastics Processing and Design is an interdisciplinary program sponsored by the Mechanical Engineering and Chemical Engineering Depart-

ments. Polymeric materials rank as second in tonnage use currently of all materials, and indications are that in the near future they may surpass metals in total usage. There is a definite need for personnel familiar with the processing and special design considerations necessary to properly make use of the special properties of this broad class of materials. The program permits a student to study in detail the industrial production processes, material testing procedures, economics of the polymeric industry and degradation of polymeric. All students in the program complete an individual project, consisting of the design of an item, choice of proper polymeric material for the particular application, choice of the processing operation and construction of the necessary molding tools and testing of the completed device. Contact the Department of Mechanical and Aerospace Engineering.

Requirements

1. A bachelor's degree in engineering. The certificate may be awarded concurrently with the degree.
2. Satisfactory completion of 22 units minimum from the courses listed below: Polymeric Processing: CHE 200, 425; MAE 471 and either 472 or 476; and a minimum of 3 units in either CHE 490 or MAE 491. Properties of Polymers: MAE 373, 374, and 424/524.
3. Approval of the certificate committee for admission to the certificate program. An advisor will be appointed to you at that time.
4. The advisor's approval of your completion of the special project.

Certificate in Energy Conversion and Power Systems Engineering (code MAE_CT04)

Director

Jalal Torabzadeh

Faculty

R. Das, S. deSoto, H. Nour, E. Mijares, H. Rahai, R. Toossi, and J. Torabzadeh

The 27-unit certificate program in "Energy Conversion and Power Systems Engineering" is an undergraduate program designed to prepare Electrical and Mechanical Engineering students to become proficient in the analysis and design of power generating systems, such as direct conversion, coal burning, hydraulic, nuclear, solar, wind, and various other types of power plants.

Requirements

1. Consultation with program advisors in Electrical or Mechanical and Aerospace Engineering Departments and preparation of a program planner;
2. Completion of the following core courses: CE 335, EE 350, EE 452, MAE 330, 336, 431;
3. Completion of 9 units from the following list of elective courses: EE 453, 455, 458, 460, 550, 551, 552, 553; MAE 490, 538;
4. Completion of a Bachelor of Science degree in an approved major. This certificate may be awarded concurrently with or subsequently to baccalaureate degree.

GRADUATE PROGRAMS

Admission to any of the graduate programs requires a minimum GPA of 2.5 in the last 60 units attempted.

Master of Science in Mechanical Engineering (code MAE_MS02)

The Master of Science in Mechanical Engineering is offered by the Department of Mechanical and Aerospace Engineering, College of Engineering.

Built on a broad and basic undergraduate instruction, the graduate level courses and the graduate degree, Master of Science in Mechanical Engineering, develop competence in the fields of design and manufacturing, dynamics and controls, materials and composites, mechanics and Finite Element Methods, and thermal systems. Modern laboratories in CAD, fluid power and mechanics, heat power, control systems, manufacturing, plastics, design, thermodynamics, heat flow, metallurgy, and mechanical properties of materials are maintained for undergraduate and graduate instruction, and graduate research. Design rooms, excellent laboratories within the other engineering departments, computer facilities, and good machine shops supplement the mechanical engineering facilities.

Additional details may be found in the *Schedule of Classes*. For further information and complete degree requirements contact the Chair, Mechanical and Aerospace Engineering Department.

Admission Procedures

To be considered for admission, the graduate applicant must have earned a bachelor's degree from an accredited institution, have been in good standing at the last institution attended, and have a grade point average (GPA) of at least 2.7 for the last 60 semester units (90 quarter units) attempted. There is no separate department application, but applicants must submit a second set of transcripts to the department.

Prerequisites

1. A bachelor's degree in mechanical engineering, engineering, or other appropriate discipline from an accredited college or university, with a minimum grade point average (GPA) of 2.7 in the last 60 semester units attempted.
2. Students must consult with the program graduate advisor prior to enrolling in any course for their program.
3. The Writing Proficiency Examination (WPE) must be attempted during the first semester in residence. Failure to attempt the WPE during the first semester will prevent registration in engineering courses in subsequent semesters.

Note: Before being admitted, a qualified student without a mechanical engineering degree must provide a written statement to the MSME graduate advisor that he/she understands that all deficiencies must be removed before attempting graduate-level courses.

Requirements

PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Studies Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.
3. Completion of six units of MAE 698-Thesis, and submission of a written thesis.

PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Studies Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering.
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas.
3. Completion of six units of MAE 697-Directed Research.

Advancement to Candidacy

Students applying for advancement to candidacy must:

1. have completed all undergraduate deficiencies with grades of "C" or better;
2. have attained an overall grade point average (GPA) of 3.0;
3. have completed at least 12 units applicable to the degree with a GPA of at least 3.0;
4. have passed the Writing Proficiency Examination (WPE) or its equivalent, as determined by the University's WPE Policy;
5. and have their program of studies approved by the ME program's graduate advisor.

Master of Science in Aerospace Engineering (code MAE_MS01)

The Master of Science in Aerospace Engineering program has been created to educate graduate students in subjects relevant to the requirements of industry and in deductive reasoning which will benefit them and the community. This program is unique in its emphasis on practical applications and intimate interaction with the aerospace industry. It involves the most modern computational and experimental methods and provides the essential information permitting the students to acquire knowledge and skills of immediate practical importance. This knowledge is communicated in the courses listed below and used in the conduct of a thesis project to be carried out with participation from industry. Area Specializations include: spacecraft or aircraft systems engineering, computational fluid dynamics, and aerospace structures.

Both graduate and undergraduate programs benefit from the advice of an advisory committee made up of senior staff of aerospace companies, government agencies and universities.

Further information and applications may be obtained from the Department of Mechanical and Aerospace Engineering, California State University, Long Beach, CA 90840.

Prerequisites

1. A bachelor's degree in an accredited curriculum in Aerospace or Mechanical engineering with a minimum grade point average of 2.70 in the last 60 (semester) units attempted. Applicants with lower GPA may be admitted subject to successful completion of appropriate deficiencies.

2. A bachelor's degree in engineering, mathematics, science or other appropriate discipline with the requirement that essential undergraduate prerequisites in engineering be satisfied.
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.

Advancement to Candidacy

Prerequisites for advancement to candidacy are:

1. Classified status.
2. An approved program of studies for the Master of Science in Aerospace Engineering.
3. Satisfactory completion of the CSULB Writing Proficiency Examination (WPE). Information is available in the Testing Office (BH-216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
4. Be enrolled in regular session.
5. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in MAE 698, Thesis.

Requirements

PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 698, and submission of a written thesis.

PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 697.

Master of Science in Engineering (code COE_MS01)

Admission to any of the graduate programs requires a minimum GPA of 2.5 in the last 60 units attempted.

For requirements, see the description in the College of Engineering part of this catalog.

The Mechanical and Aerospace Engineering Department administers two emphases under the Master of Science in Engineering. The other prerequisites and requirements are the same as for the MSAE and MSME programs.

Management Engineering Emphasis

A special management perspective is required for the successful generation of technical products and services, and thus the Master of Science in Engineering: Program in Management

Engineering is offered by the College of Engineering at California State University, Long Beach.

In order to plan, design, direct and control technical projects, technical managers must be capable of inspiring and developing professional personnel. They must be able to integrate planning, manufacturing and budgetary concerns of the project and be able to easily communicate with general management.

The Emphasis in Management Engineering primarily admits students with a traditional engineering background. It emphasizes the management of engineering-based endeavors and does not require undergraduate business courses as prerequisites for graduate work.

Well-suited for working students, graduate courses in management engineering are offered in the late afternoon and evening. An individualized program is developed according to each student's undergraduate degree, area of interest, or some well-defined industrial application; interdisciplinary approaches are encouraged.

The graduate program supports innovative thesis topics that enable the degree candidate to be knowledgeable about new applications and/or areas in management engineering.

The graduate Emphasis in Management Engineering at California State University, Long Beach seeks to:

- Provide industry and government with engineers who have essential management knowledge and skills.
- Provide engineers with career advancement opportunities in project management and the management of research, manufacturing and other technical enterprises.
- Educate engineers as managers who can effectively plan and implement technological projects.

Systems Engineering Emphasis

Systems engineering is the discipline by which definition, planning and design of complex systems is conducted. Significant need exists in industry to increase Systems Engineering understanding, expertise and related tool set knowledge. Customers, including the Department of Defense, are focusing more closely on Systems Engineering capability and the ability to plan and execute complex programs.

Ph.D. in Engineering and Industrial Applied Mathematics (code COE_PH01)

For requirements, see the description in the College of Engineering section of this catalog.

Courses (MAE)

Lower Division

101A. Introduction to Aerospace Engineering (1)

Role of various types of engineering specialties in the development of an actual aerospace vehicle product. Current social, ethical and environmental issues in Aerospace Engineering solutions. Life-long learning skills using resources from professional societies and Internet are also emphasized. (Lecture-problem 1 hour) Letter grade only (A-F).

172. Engineering Design Graphics (3)

Graphics concepts and visualization. Graphic expressions using CAD software, emphasis on industrial practice involving part and assembly drawings for actual products, standards, tolerances, surface finishes, and other attributes on drawings, production draw-

ings, projects involving complete design of systems and sub-systems. (Lecture-problems 2 hrs., design laboratory 3 hrs.) (CAN ENGR 2) Letter grade only (A-F).

205. Computer Methods in Mechanical Engineering (2)

Prerequisites: MATH 122; PHYS 151. Application of computer programming to engineering problem solving; structured approach to problems; input-output concepts for both numerical and graphical results. (Lecture-problems 1 hour, laboratory 3 hours) Letter grade only (A-F).

272. Introduction to Manufacturing Processes (2)

Prerequisite: MAE 172. Comprehensive survey of modern techniques in manufacturing processes. Basic manufacturing processes, nature and properties of materials; production of metals; foundry, casting and heat treatment; welding, powder metallurgy (sintering), plastics, metrology; working of metals, press work; machine tool elements, numerical control; metal cutting and turning; drilling, boring, milling; shaping planning, sawing broaching; grinding, sanding; gears and gear-cutting, threads and thread-cutting. (Lecture-problems 1 hour, laboratory 3 hours.) Letter grade only (A-F).

Upper Division

300. Engineering Instrumentation and Measurement (2)

Prerequisites: MATH 224, PHYS 151, 152. Statistical analysis of experimental data, uncertainty analysis, various statistical distributions and test of goodness of fit, correlation coefficient and multi-variable regression. Engineering instrumentation including different types of passive and active transducers, electronics for instrumentation, computer-based data acquisition systems, and experiments on pressure, temperature, and force measurements. (Lecture-problems 1 hour, Laboratory 3 hours). Letter grade only (A-F).

305. Numerical Methods in Mechanical Engineering (3)

Prerequisite: MAE 205; MATH 370A. Advanced numerical methods applied to the solution of mechanical engineering problems. Roots of algebraic and transcendental equations. Solution of simultaneous linear algebraic equations. Parametric notation of analytical curves, surfaces, and splines. Numerical integration and differentiation. Numerical integration of ordinary differential equations; initial-value problems, boundary-value problems. Partial differential equations. Individual and/or group projects. (Lecture-problems 3 hours.) Letter grade only (A-F).

310. Safety and Reliability in Systems Design I (3)

Prerequisites: MAE 205; MATH 370A, or consent of instructor. Introduction to probabilistic design analysis; safety and reliability analyses and tools to assess the adequacy of the designs; identification of critical elements of the design and practical design guidance; compliance with the requirements. Coherent use of reliability concepts, tools, and reliability programs to produce reliable and safe system designs. Group projects involving the design of a reliable and safe "real-life" system. (Lecture-problems 3 hours.) Not open to students with credit in ME 390. Letter grade only (A-F).

322. Engineering Materials and Materials Processes (3)

Prerequisites: CHEM 111A, MATH 123, MAE 172. Structure and properties of engineering materials. Phase and transformation diagrams. Heat treatments and mechanical processing. Manufacturing methods of metals, alloys, polymers, composites, ceramics, and semiconductors. (Lecture-problems 3 hours.) Letter grade only (A-F).

330. Engineering Thermodynamics I (3)

Prerequisites: MATH 224, PHYS 151 or equivalent, and CHEM 111A or consent of instructor. Laws of thermodynamics. Properties of liquids, gases and vapors. Sources of energy and conversion to work. Introduction to heat transfer and psychrometry. (Lecture-problems 3 hours) Letter grade only (A-F).

333. Engineering Fluid Dynamics (3)

Prerequisites: PHYS 151, MATH 370A. Fundamentals of fluid mechanics, formulation of the conservation of mass, momentum and energy for one-dimensional, finite and differential control volumes. Non-dimensional parameters. Pipe flow. External flow. (Lecture-problems 3 hours). Letter grade only (A-F).

334. Aerodynamics I (3)

Prerequisite: MAE 333. Bernoulli's equation, incompressible, inviscid flow around circular cylinder, two-dimensional, incompressible boundary layers, incompressible flow around thin airfoils. Panel methods. (Lecture-problems 3 hours). Letter grade only (A-F).

336. Power Plant Design (3)

Prerequisite: MAE 330. Design of power production systems, including steam power plants, gas turbines and auxiliary power units. Survey of alternate power sources including wind, solar, geothermal, ocean thermal and biomass. Group and/or individual design projects. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

337. Thermal Engineering Laboratory (2)

Prerequisite: MAE 336. Thermodynamics, heat transfer and fluid flow property measurements, measurement of heating value of fuels, energy and performance analysis of thermal systems, including internal combustion engines, power and heat generating systems, refrigeration and air-conditioning systems, and heat exchangers. (Lecture-problems 1 hour, Laboratory 3 hours). Letter grade only (A-F).

350. Flight Mechanics (3)

Prerequisite: MAE 371. Aircraft forces. Turbojets: level and other flights in the vertical plane, turning flight in the horizontal plane. Piston props: level and other flights in the vertical plane, turning flight in the horizontal plane. Performance analysis and comparisons of various aircraft. (Lecture-problems 3 hours.) Letter grade only (A-F).

361. Materials and Properties Laboratory (1)

Prerequisites: ENGL 100 or equivalent, MAE 300, 322, 373. Study of the effects of thermal processing and mechanical processing on the properties and microstructures of metals, alloys, and other materials. Determination of material properties using tensile test, torsion test, and beam test. Study of the statistical nature and reliability of test results. (Laboratory 3 hours) Letter grade only (A-F).

365. Aerospace Structures I (3)

Prerequisite: MAE 373. Mechanical behavior of aerospace materials. Torsion of thin walled section beams. Bending and torsion of advanced beams. Analysis of stiffened box beams. Load transfer in stiffened panel structures. Failure criteria of aerospace materials. (Lecture-problems 3 hours). Letter grade only (A-F).

*371. Analytical Mechanics II (Dynamics) (3)

Prerequisites: CE 205, MAE 205 or CE 206. Newton's Laws and the principles of work and energy and impulse and momentum applied to the study of particle and rigid body motion. Engineering application with emphasis on plane motion problems. Individual and/or group projects involving in-depth numerical analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

373. Mechanics of Deformable Bodies (3)

Prerequisite: CE 205. Application of the principles of mechanics to the design of structural and machine members and connections; stress analysis of beams and columns. Properties and strength of engineering materials. Design projects. (Lecture-problems 3 hours.) Letter grade only (A-F).

374. Mechanical Properties of Materials Laboratory (1)

Prerequisites: MAE 373, ENGL 100 or equivalent. Physical and mechanical properties of engineering materials and their relationship to structural elements; accuracy of measurements; statistical analysis of experimental data; professional laboratory reports. (Laboratory 3 hours.) Letter grade only (A-F).

375. Kinematics and Dynamics of Mechanisms (3)

Prerequisites: MAE 272, 322, 371. Fundamentals of linkages, cams, gears and gear trains. Velocity and acceleration analysis of machines leading to dynamic loading of machine parts; dynamic analysis and balancing of rotating machines; internal combustion engine balancing. Individual design projects. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

376. Modeling and Analysis of Dynamic Systems (3)

Prerequisite: MAE 371; MATH 370A. Modeling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, and hydraulic systems. Use of complex algebra and Laplace transforms. Mathematical modeling of dynamic systems in state-space. Linear systems analysis in time and frequency domains. Introduction to feedback control systems. (Lecture-problems 3 hours.) Letter grade only (A-F).

381. Fundamentals of Spacecraft Dynamics (3)

Prerequisites: PHYS 152 and MAE 371. Space environments and their impact on spacecraft design. Space mission engineering. Spacecraft propulsion. Attitude dynamics and kinematics. Controls. Spacecraft attitude determination and control. (Lecture-Problems 3 hours). Letter grade only (A-F).

390. Aerospace Engineering Seminar (1)

Prerequisite: Upper division standing. Through exercises and projects, the students develop improved communications skills, both written and oral. The students are introduced to effective communication techniques and make oral presentations. Guest speakers from industry cover topics such as professional practice of engineering, social responsibilities of engineers, examples of ethical and legal issues, as well as the latest developments in Aerospace Engineering. Students write reports regarding these presentations, both from technical and communication point of views. (Seminar 1 hour). Letter grade only (A-F).

408./508. Systems Engineering and Integration (3)

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. (Lecture-Problems 3 hours). Letter grade only (A-F).

*409. Modern Computational Aspects in Mechanical Engineering (3)

Prerequisites: Senior standing in engineering and consent of instructor. Computational aspects of various branches of Mechanical Engineering. Typical subjects covered are finite element analysis of structures, fluids, or heat transfer; boundary element analysis. May be repeated to a maximum of 6 units with consent of department. (Lecture-problems 3 hours.) Letter grade only (A-F).

A. Finite Element Methods I

Finite element methods for beam and truss elements. Systems of ordinary differential equations and their solution in a finite element formulation. Variational formulation of the finite element method. Static and dynamic analysis of complex structures idealized by truss-beam and plane stress elements. Rigid elements in an elastic environment. Automatic mesh generation for 1D, 2D, 3D structures via solid modeling using IDEAS. (Lecture-problems 3 hours.) Letter grade only (A-F).

B. Introduction to Computational Fluid Dynamics and Heat Transfer

Classification of partial differential equations and boundary conditions, finite difference and finite volume formulations, grid generation, stability analysis, numerical methods for inviscid flows, viscous laminar flows, compressible flows, conduction and convection heat transfer. (Lecture-problems 3 hours.) Letter grade only (A-F).

410. Safety and Reliability in Systems Design II (3)

Prerequisite: MAE 310 or consent of instructor. Application of the probabilistic design analysis and theory to real case studies of system design using safety and reliability tools and analysis to set design criteria, assess system design, determine failure modes and critical elements, provide practical design experience and demonstrate compliance with the requirements. Group and/or individual projects involving complete design of reliable and safe systems. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

422./522. Composite Materials (3)

Prerequisite: MAE 373. Stress-strain relations for anisotropic materials. Classical lamination theory. Strength and failure theories for laminates and laminates. Micromechanics. Applications of composite structures. Additional projects will be required for MAE 522. (Lecture-problems 3 hours) Letter grade only (A-F).

424./524. Engineering Principles and Properties of Plastics (3)

Prerequisites: MAE 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions. Visco-elastic properties of polymeric. (Lecture-problems 3 hours.) Letter grade only (A-F).

*425. Chemical and Electrochemical Manufacturing Processes (3)

Prerequisites: MAE 322, 330; or CHEM 371A or consent of instructor. Theory of electrochemical processing. Electroplating and electroless plating solutions, processes and equipment. Anodizing and other surface treatments. Carburizing, nitriding atmospheres and equipment. Diffusion in solids. The effect of surface treatments on mechanical properties. Same course as CHE 435. (Lecture-problems 3 hours.) Letter grade only (A-F).

430./530. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)

Prerequisites: MAE 330, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. (Lecture-problems 3 hours.) Letter grade only (A-F).

*431. Heat Transfer Systems Design (3)

Prerequisites: MAE 305, 330; CE 335. Analysis of heat transfer by conduction, convection and radiation. Investigation of steady state and transient heat transfer systems. Computer methods. Individual or group design projects involving real-life problems in heat transfer such as electronic packaging, heat exchangers, heat engines, refrigerators, and thermal systems analysis. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

*434. Aerodynamics II (3)

Prerequisite: MAE 334. Incompressible flow about wings of finite span. Vortex lattice method. Compressible flows, Subsonic and supersonic flows around airfoils and wings. Introduction to computational fluid dynamics (CFD). Aerodynamic design considerations. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

435./535. Computational Fluid Dynamics I (3)

Prerequisites: MATH 370A, MAE 333. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. (Lecture-Problems 3 hours) Letter grade only (A-F).

438./538. Heating, Ventilating, Air Conditioning, and Refrigeration (3)

Prerequisites: MAE 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. (Lecture-Problems 3 hours) Letter grade only (A-F).

440. Aerodynamics Laboratory (1)

Prerequisite: MAE 334 or consent of instructor. Experimental techniques in aerodynamics, wind tunnel measurements, use of Pitot tube, hot wire and Laser Doppler Velocimetry systems, flow visualization techniques, calibration of transducers. Computer controlled data acquisition and analysis. Projects are assigned and written reports and oral presentations are required. (Laboratory 3 hours). Letter grade only (A-F).

451./551. Aircraft Preliminary Design and Performance (3)

Prerequisite: Consent of instructor. Complete aircraft preliminary design, including mission definition, applicable specifications, and regulations. Preliminary takeoff weight and weight empty for a specific mission. Aircraft geometric characteristics, including engine size, are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. The design project is conducted in teams for MAE 451 and individually for MAE 551. (Lecture-Design Project 3 hours) Letter grade only (A-F).

*452. Propulsion (3)

Prerequisites: MAE 330, 434. The simple gas turbine cycle. Heat exchange and reheat gas turbine cycles. Gas turbine components. Ideal and actual thrust development in gas turbines. Princi-

ples of rocket engines. Solid, liquid and hybrid fuel rockets. Thrust and control in rockets. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

453./553. Stability and Control of Aerospace Vehicles (3)

Prerequisite: MAE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional Projects required for MAE 553. (Lecture-problems 3 hours). Letter grade only (A-F).

454/554. Avionics Systems (3)

Prerequisite: MAE 453. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. (Lecture-Problems 3 hours). Letter grade only (A-F).

455. Aerospace Manufacturing Laboratory (1)

Prerequisite: Senior standing. A design project is given and students are required to complete the design taking into account the manufacturing equipment, control and systems available. (Laboratory 3 hours). Letter grade only (A-F).

456. Production Methods for Aerospace Manufacturing (3)

Prerequisite: Consent of instructor. Survey of production processes, sequence of operations, equipment and facilities, methods, tools, plans and requirement of various aerospace products. Observation of an actual aerospace manufacturing activity. (Lecture-problems 3 hours). Letter grade only (A-F).

457. Lean Manufacturing (3)

Prerequisite: Senior standing. Fundamental makeup of a Lean Enterprise. Study of necessary ties to the customer and relationships both internal and external to the company as well as the leadership, which forms the foundation of a Lean Enterprise. Study of the mechanism of continuous process improvement, which is essential to sustained "Lean" operations. Case studies to accomplish value stream analysis and develop a Lean Enterprise improvement plan for student's own respective operations. (Lecture-problems 3 hours). Letter grade only (A-F).

***459. Professional Practice Seminar (1)**

Prerequisite: Senior standing or consent of instructor. The course covers professional practice of engineering, and social and moral responsibilities of engineers, including codes of conduct. Trends and outlook of national and local industries are examined in the context of future employment. Examination of ethical and legal issues, including intellectual property rights and regulatory codes and practices. Students are encouraged to participate in the activities of professional societies such as ASME, and attend professional seminars organized by them in order to instill the habit of life-long learning. The role of graduate studies in engineering and related fields are discussed in the context of professional development. The Industrial practices of teamwork and professionalism, including licensure, are emphasized. Students are strongly encouraged to take the FE (Fundamentals of Engineering, formerly EIT) Examination. Written reports and oral technical presentations are required. (Lecture-Problems 1 hour). Letter grade only (A-F).

***465. Aerospace Structures II (3)**

Prerequisite: MAE 365. Work-energy principles. Force method to trusses, beams, frames, and shear panels. Force method to thin-walled stiffened structures. Structural stability. Elementary aeroelasticity. Matrix methods of aerospace structural analysis. Application of finite element computer programs. Team projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

***471. Analysis and Design of Machine Components (3)**

Prerequisites: MAE 374, 375. Application of the principles of mechanics and physical properties of materials to the proportioning of machine elements, including consideration of function, safety, production and economic factors. Group and/or individual design projects of mechanical systems and/or subsystems. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

***472. Design of Mechanical Engineering Systems (3)**

Prerequisites: MAE 330, 373, 375; CE 335. Corequisite: CE 406. This is a capstone course giving a meaningful experience in the design of Mechanical Engineering Systems, integrating accumulated knowledge and skills of mechanical engineering and engineering standards. The design experience starts with the conceptual design, followed by literature review and analysis. It culminates in a final design that includes: drawings, manufacturing and assembly of the final product or a prototype. Emphasis is placed on identifying realistic constraints simulating practical, industrial situations with factors such as economics, environment, sustainability, manufacturability, life cycle, ethics, health and safety, social and political consequences, which affect design choices. Project results are presented in a final, formal report followed by an oral technical presentation to a peer group. Whenever possible, teamwork and interaction with practicing engineers is encouraged. (Lecture-Problems 2 hours, Design Laboratory 3 hours). Letter grade only (A-F).

474./574. Computer-Aided Manufacturing (3)

Prerequisites: MAE 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. (Lecture-problems 3 hours.) Letter grade only (A-F).

***476. Mechanical Control Systems I (3)**

Prerequisite: MAE 376. Feedback control systems in mechanical engineering. Modeling, analysis, and design. System performance and design criteria: stability, transient response, frequency response and compensation, root locus. Introduction to nonlinear control systems, state space analysis and design. (Lecture-problems 2 hours, laboratory 3 hours.) Letter grade only (A-F).

478. Aerospace System Design I (3)

Prerequisites or corequisites: MAE 434, 465, or consent of instructor; fulfillment of the Writing Proficiency Examination (WPE). This two semester capstone design experience integrates the essential aspects of aerospace systems design. Each team of students is assigned a design project, to be completed in the two-semester course sequence. In this first semester course, from general specifications, the teams define the requirements and work through the complete design by the end of the second semester course (MAE 479). Design for manufacturing is emphasized. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture-Design Project 2 hours, Laboratory 3 hours) Letter grade only (A-F).

479. Aerospace System Design II (3)

Prerequisite: MAE 478. This course is the continuation of Aerospace Systems Design I (MAE 478). The projects assigned in teams in MAE 478 are completed. Manufacturing is included when appropriate. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture-Design Project 2 hours, Laboratory 3 hours) Letter grade only (A-F).

***481. Space Systems Engineering (3)**

Prerequisite: MAE 381. A systems engineering approach to spacecraft design is presented. A look at the space industry. Spacecraft systems engineering and spacecraft subsystems. Power subsystem. Radiative and conductive heat transfer. Thermal control subsystem. Telecommunications. Command and data handling. Team projects including spacecraft subsystem design are assigned. Written reports and oral presentations are required. (Lecture-Problems 3 hours). Letter grade only (A-F).

***483. Space Flight and Orbital Mechanics (3)**

Prerequisites: MAE 381. Particle dynamics. Circular orbits: stability, Lagrange points, tidal forces, gravitational resonance. Celestial mechanics. Bound and unbound orbits. Predicting orbital positions. Orbital transfers and the orbital rendezvous problem. Principles of rocketry. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours). Letter grade only (A-F).

*490. Special Topics (3)

Prerequisites: Senior standing in engineering and consent of instructor. Selected topics from recent advances in mechanical and aerospace engineering. Course content may vary from semester to semester. May be repeated to a maximum of 6 units with different topics. (Lecture-problems 3 hours) Letter grade only (A-F).

A. CAD/CAM

Fundamentals of computer-aided design/computer-aided manufacturing (CAD/CAM). Creating, reading, and understanding databases for solid models. Assemblies and sub-assemblies. Design and analysis of mechanisms with linkages, gears, springs, dampers. Finite Element Modeling of parts, assemblies, and mechanisms. CAM, 3-axis milling, APT. Design optimization. Not open to students with credit in ME 405A. Letter grade only (A-F).

B. Robotics Principles

Major components of a robot and robotic applications. Translational, rotational motion and motion conversions. Modeling of mechanical systems and kinematic chains. Physical control elements, forces encountered, and sensors. Software and hardware considerations, including robot programming. Robot design examples. Not open to students with credit in ME 405B. Letter grade only (A-F).

C. Environmental Engineering and Atmospheric Science

The history, technology, control programs, and current regulatory developments relating to combustion generated air pollution. Topics include: thermodynamics and kinetics of combustion, flame structures, pollutant formations, emissions from automobiles and power plants, furnaces and incinerators, particulate, unburned hydrocarbons, oxides of nitrogen and carbon, control technologies, meteorological considerations, atmospheric processes, ozone layers, and air pollutant dispersion models. Not open to students with credit in ME 405C. Letter grade only (A-F).

D. Hybrid Electrical Vehicles System Design

The history, technology, and future of hybrid vehicles and the role they will play in the future. Students will be exposed to a wide range of topics related to advanced transportation and electric/hybrid vehicles. Students will also be involved in group projects which may involve testing, manufacturing, and modeling of various components for hybrid vehicles. Effects of aerodynamic forces, manufacturing considerations, energy management, ergonomics and economics on overall design of the vehicles are investigated. Not open to students with credit in ME 405D. Letter grade only (A-F).

E. HVAC Systems Design and Equipment

Prerequisites: MAE 330, CE 335. Design of air conditioning systems, the design process, occupant comfort, load calculations, components and control, all air systems, air and water systems, and all water systems. Not open to students with credit in ME 405E. Letter grade only (A-F).

F. Petroleum Engineering

Prerequisites: Senior standing in engineering or science. Overview of petroleum engineering operations, properties of petroleum reservoir rocks, single-phase and multiphase fluid-flow through porous media. Properties of reservoir fluids. Field trips. (Lecture-problems 3 hours) Letter grade only (A-F).

491. Special Problems (1-3)

Prerequisite: Senior standing. Assigned topics in technical literature or laboratory projects and reports on same. Letter grade only (A-F).

495./595. Rapid Product Development (3)

Prerequisites: MAE 490A, 409A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. (Lecture-problems 3 hours.) Letter grade only (A-F).

499./599. Mechanical and Aerospace Engineering Seminar (1)

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied toward degree requirements. (Seminar 1 hour) Letter grade only (A-F).

Graduate Level

501. Engineering Analysis I (3)

Prerequisite: MATH 370A. Differential equations, series solutions of differential equations (special functions), boundary value problems and characteristics function representation, Laplace transforms, Four analysis, partial differential equations, methods of formulating and solving problems in engineering for systems of differential equations and partial differential equations. (Lecture-problems 3 hours.) Letter grade only (A-F).

502. Engineering Analysis II (3)

Prerequisite: MATH 370A. Analysis of mechanical engineering problems by matrix theory and complex variables; numerical techniques. (Lecture-problems 3 hours.) Letter grade only (A-F).

505. Quantitative Methods for Engineering Managers (3)

Prerequisites: MAE 501 or 502 or equivalents. Concepts and methods for using quantitative approaches in engineering management decision-making. Various computer-based tools that can be used in management decision-making to provide the basis for the decision or to help validate decisions made using subjective approaches. Probabilistic methods, forecasting, various forms of the linear program model, network analysis, dynamic programming, Monte Carlo simulation and queuing models. The course is application oriented with sufficient theoretical background provided to effectively use the computer-based tools and properly interpret their results. Methodologies for formulating the problem are emphasized, so that the applicable quantitative techniques can be implemented. (Lecture-problems 3 hours) Letter grade only (A-F).

506. Management of Engineering Technology and Innovation (3)

Prerequisite: Graduate engineering standing. Analysis of the principles and theory of engineering administrative organizations, information systems, management functions, decision making tools, strategies and administrative policy formulations. (Lecture-problems 3 hours.) Letter grade only (A-F).

507. Engineering Project Management (3)

Prerequisite: Graduate engineering standing. Theory and philosophies of project management, principles of internal and industrial organization planning and control systems, motion in time study, industrial statistics, industrial research as aid to decision making. (Lecture-problems 3 hours.) Letter grade only (A-F).

508./408. Systems Engineering and Integration (3)

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. Additional projects required for MAE 508. (Lecture-Problems 3 hours). Letter grade only (A-F).

511. Advanced Manufacturing Management Systems (3)

Prerequisite: Consent of Instructor. Advanced management systems for Integrated Product Development (IPD) and Concurrent Engineering (CE); Quality, Productivity and Costs, with emphasis on Just-in-Time Manufacturing (JIT); Quality-Based Manufacturing Systems: TQM and ISO 9000; Customer Requirement and Quality Function Deployment (QFD); Design for Manufacturing and Assembly (DFMA) and other defect prevention systems, such as Poka-Yoke; Demand-Driven, "Pull" type manufacturing systems. "Lean Enterprise" concepts. (Lecture-Problems 3 hours.) Letter grade only (A-F).

512./612. Computer Aided Design in Mechanical Engineering (3)

Prerequisites: MAE 490A, 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer. (Lecture-problems 3 hours.) Letter grade only (A-F).

521. Engineering Metallurgy II (3)

Prerequisite: MAE 322. Properties and uses of structural steels: heat treatable steels; titanium alloys; nickel and cobalt base alloys; refractory metals; ultra high-strength steels; stainless steels; and metal matrix composite materials. Designing for fracture resistance. (Lecture-Problems 3 hours.) Letter grade only (A-F).

522./422. Composite Materials (3)

Prerequisite: MAE 373. Stress-strain relations for anisotropic materials. Classical lamination theory. Strength and failure theories for laminae and laminates. Micromechanics. Applications of composite structures. Additional projects will be required for MAE 522. (Lecture-problems 3 hours.) Letter grade only (A-F).

524./424. Engineering Principles and Properties of Plastics (3)

Prerequisites: MAE 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions, visco-elastic properties of polymeric. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.) Letter grade only (A-F).

527. Metals and Plastics Manufacturing Processes (3)

Prerequisite: MAE 322. Theory of metal forming and plastics processing. Includes metal forging and rolling, metal and plastics extrusion, plastics injection molding, casting. Discussion of appropriate manufacturing methods. (Lecture-problems 3 hours.) Letter grade only (A-F).

529. Structural Analysis of Composite Laminates (3)

Prerequisite: MAE 522 or consent of instructor. Beams, columns and rods of composite materials. Bending, vibration and buckling analysis of composite laminates. Shells of composite materials. Joining of composite material structures. (Lecture-Problems 3 hours) Letter grade only (A-F).

530./430. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)

Prerequisites: MAE 330, 431, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. Additional projects are required for MAE 530. (Lecture-problems 3 hours.) Letter grade only (A-F).

531. Advanced Heat Transfer (3)

Prerequisites: MAE 431, 501. Advanced topics in conduction and convection heat transfer, analytical and numerical solutions to multidimensional heat conduction equations in various geometries. Solutions to laminar and turbulent convective heat transfer problems. External and internal flows, free and forced convection, and mass transfer from external surfaces. Applications in thermal systems design. (Lecture-problems 3 hours.) Letter grade only (A-F).

532. Combustion I (3)

Prerequisites: MAE 336, 431. Fundamentals of combustion engineering: fuels; chemical thermodynamics and chemical kinetics; premixed and diffusion flames; ignition and extinction; Hugoniot curves; flammability and explosion limits; pollutant formation and control; applications in spark-, and charged-ignition internal combustion engines; gas-fired and oil-fired furnaces. (Lecture-Problems 3 hours.) Letter grade only (A-F).

533. Gas Dynamics (3)

Prerequisite: MAE 333 or equivalent. Isentropic flow, normal and oblique shocks, Prandtl-Meyer flow, shock expansion theory, method of characteristics, nozzle flow, flow in ducts with friction and heat transfer, solutions for the linearized potential equation with applications to wings and bodies, slender body theory, similarity rules, transonic flow, shock wave/boundary layer interactions. (Lecture-Problems 3 hours) Letter grade only (A-F).

534. Transport Processes in Porous Media (3)

Prerequisite: Graduate Standing in engineering. Fundamentals of mass, momentum and heat transfer through porous media; flow characteristics of porous structures; principles of single-phase and multi-phase flow in porous media; flow of immiscible and miscible fluids, hydrodynamic dispersion in porous structures, deterministic and stochastic modeling of flow in porous media. (Lecture-problems 3 hours.) Letter grade only (A-F).

535./435. Computational Fluid Dynamics I (3)

Prerequisites: MATH 370A, MAE 333. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. Additional projects will be required for MAE 535. (Lecture-Problems 3 hours) Letter grade only (A-F).

536. Statistical Thermodynamics (3)

Prerequisites: MAE 330, 501 or equivalent. Fundamentals of statistical mechanics; quantum mechanics and statistics as applied to thermodynamics; behavior of gases and solids; chemical equilibrium. (Lecture-problems 3 hours.) Letter grade only (A-F).

537. Advanced Fluid Dynamics I (3)

Prerequisites: CE 335, MAE 431. Dynamics of ideal, real and compressible flows, potential flow, vortex flow, the Navier Stokes equations, integral and differential equations for laminar flow, exact solutions for laminar flow, steady and unsteady compressible flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

538./438. Heating, Ventilating, Air Conditioning, and Refrigeration (3)

Prerequisites: MAE 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. Additional projects required for MAE 538. (Lecture-Problems 3 hours) Letter grade only (A-F).

551./451. Aircraft Preliminary Design and Performance (3)

Prerequisite: Consent of instructor. Complete aircraft preliminary design, including mission definition, applicable specifications and regulations. Preliminary takeoff weight and weight empty for a specific mission. Aircraft geometric characteristics, including engine size, are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. The design project is conducted in teams for MAE 451 and individually for MAE 551. (Lecture-Design Project 3 hours) Letter grade only (A-F).

553./453. Stability and Control of Aerospace Vehicles (3)

Prerequisite: MAE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional Projects required for MAE 553. (Lecture-problems 3 hours) Letter grade only (A-F).

554/454. Avionics Systems (3)

Prerequisite: MAE 553. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. (Lecture-Problems 3 hours) Letter grade only (A-F).

563. Linear Finite Element Analysis (3)

Prerequisite: MAE 409A. Finite element (FE) forms of differential equations. Boundary value problems, energy theorems, matrix displacement method, and finite difference method. Generation of FE stiffness, mass, and damping matrices. Isoparametric concepts. Dynamic response of damped elastic structures, modal and direct integration analysis. Automatic mesh generation via solid modeling using IDEAS, automatic adaptation to popular software such as: STRUDL, NASTRAN, ANSYS, and ABAQUS. FE fluid flow and heat transfer analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

565. Advanced Aerospace Structures (3)

Prerequisite: MAE 465 or consent of instructor. Application of energy principles and finite element method to aerospace structural components, plates and shells without stiffeners, structural dynamics, material and geometric nonlinear problems. FEA for composite structures, application to simple wings, finite element modeling techniques, application of finite element computer programs. (Lecture-problems 3 hours.) Letter grade only (A-F).

567. Advanced Mechanics of Deformable Bodies (3)

Prerequisites: MAE 373, 374, 471 or consent of instructor. Analysis of stress and deflection in unsymmetrical bending, shear center for beams, curved beams. Stress concentration, deformation beyond the elastic limit. Energy method; Castigliano's Theorem; Rayleigh-Ritz technique. (Lecture-problems 3 hours.) Letter grade only (A-F).

568. Creep and Fatigue (3)

Prerequisites: MAE 322, 373, or consent of instructor. Phenomena of creep and fatigue; effect on stress distribution in structural elements; buckling caused by creep; effects of space environment on fatigue; cumulative fatigue damage at normal and elevated temperatures. (Lecture-problems 3 hours.) Letter grade only (A-F).

572. Structural Design Optimization (3)

Prerequisite: MAE 373 or consent of instructor. Structural optimization using calculus of variations. Method of Lagrange multipliers, unconstrained and constrained optimization, fast reanalysis techniques, sequential approximate optimization, sensitivity calculations of structural response, variational sensitivity analysis, approximation techniques, optimal design of laminated composite materials, stacking sequence optimization of composite laminates using genetic algorithm. (Lecture-Problems 3 hours) Letter grade only (A-F).

573. Advanced Control of Mechanical Systems (3)

Prerequisite: MAE 476. Advanced topics in analysis and design of modern control systems in mechanical engineering. Topics include state space, Riccati equation, Liapunov equation, Linear Quadratic Regulator (LQR), Kalman filter. Introduction to multi-variable feedback systems, Linear Quadratic Gaussian (LQG), Loop Transfer Recovery (LTR), optimal control, robust control, H infinity control theory. Optimization via calculus of variations, Pontryagin's minimum principle. Control of distributed-parameter systems with applications to structural dynamics. (Lecture-problems 3 hours.) Letter grade only (A-F).

574./474. Computer-Aided Manufacturing (3)

Prerequisites: MAE 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. Additional projects will be required from M.S. students in a wide-range of Engineering applications. (Lecture-problems 3 hours.) Letter grade only (A-F).

575. Advanced Dynamics with Robot Applications (3)

Prerequisites: MAE 371, MATH 370A. Detailed study of rigid body dynamics with emphasis on robot arm analysis. Three-dimensional kinematic analysis. Rotational and homogeneous transformations. Eulerian angles. Denavit Hartenberg representation. Kinematic chains. Recursive formulas. Euler's moment equations and gyrokinematics. Multi-body analysis. Lagrange's equations. Special topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

576. Engineering Vibrations I (3)

Prerequisites: MAE 376. Fundamentals of mechanical vibrations, types of oscillatory motions. Single-Degree-of-Freedom (SDOF) and Multiple-Degree-of-Freedom (MDOF) systems. Free and forced vibrations, damping, vibration isolation, vibration measuring instruments, Modal analysis. Lagrange's equations. Introduction to Finite Element Method and modal testing. (Lecture-problems 3 hours.) Letter grade only (A-F).

579. Engineering Acoustics (3)

Prerequisites: MAE 376, 502. Theory and application of acoustical principles to generation, transmission, measurement and control of sound. (Lecture-Problems 3 hours.) Letter grade only (A-F).

581. Space Vehicle Design (3)

Prerequisite: Graduate engineering standing or consent of instructor. Space environments and their impact on spacecraft design. Space mission design. Payloads and communications. Integration of attitude determination and control, thermal, propulsion, configuration, telemetry, power, structures, and data handling subsystems. (Lecture-Problems 3 hours). Letter grade only (A-F).

582. Rocket and Spacecraft Propulsion (3)

Prerequisite: Graduate engineering standing or consent of instructor. Thrust and specific impulse. Compressible flows. Detailed analysis of liquid, solid and hybrid propulsion systems. Includes propellants, injection systems, combustion and chemical equilibrium, thrust chambers, nozzles and plumes. Electro-thermal thrusters. Plasmas and electromagnetic thrusters. (Lecture-Problems 3 hours). Letter grade only (A-F).

583. Astrodynamics (3)

Prerequisite: Graduate engineering standing or consent of instructor. Physical principles. Two-body and central force motion. Coordinate and time systems. Trajectory correction maneuvers. Position and velocity in conic orbits. Lambert's Problem. Celestial mechanics. Orbital perturbations. Numerical methods in orbital mechanics and mission analysis. (Lecture-problems 3 hours). Letter grade only (A-F).

585. Spacecraft Attitude Determination and Control (3)

Prerequisite: MAE 501 or equivalent. Rigid-body dynamics. Control systems. Spacecraft attitude dynamics and control. Stabilization methods and maneuvers. Impact of flexible structures. (Lecture-Problems 3 hours). Letter grading only (A-F).

590./690. Advanced Topics in Mechanical and Aerospace Engineering (3)

Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

595./495. Rapid Product Development (3)

Prerequisites: MAE 490A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.) Letter grade only (A-F).

599./499. Mechanical and Aerospace Engineering Seminar (1)

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. Additional assignments will be required from graduate students. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied toward degree requirements. (Seminar 1 hour) Letter grade only (A-F).

612./512. Computer Aided Design in Mechanical Engineering (3)

Prerequisites: MAE 490A, 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer. Additional projects required for MAE 612. (Lecture-problems 3 hours.) Letter grade only (A-F).

631. Thermal Radiation (3)

Prerequisite: Consent of instructor. Fundamentals of thermal radiation, properties of matter, radiative exchange in enclosures, equation of transfer for radiative transfer in absorbing, emitting,

scattering media, gas radiation, and solutions for gas flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

632. Combustion II (3)

Prerequisites: MAE 501, 532. Advanced topics in combustion: conservation equations for multi-component reacting systems; detonations and deflagrations; laminar and turbulent flames; flammability limits; ignition and extinction, combustion and radiation and their interactions. (Lecture-problems 3 hours.) Letter grade only (A-F).

633. Hypersonic Flow (3)

Prerequisite: MAE 533. Hypersonic shock and expansion-wave relations, similarity concepts, Newtonian theory and modified Newtonian theory, nonlinear small-disturbance theory, blunt body flows, hypersonic viscous/inviscid interactions, aerodynamic heating, real gas effects, waveriders, atmospheric reentry. (Lecture-Problems 3 hours.) Letter grade only (A-F).

635./735. Computational Fluid Dynamics II (3)

Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, upwind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. (Lecture-Problems 3 hours.) Letter grade only (A-F).

637. Advanced Fluid Dynamics II (3)

Prerequisites: MAE 431, 501, 537. Transition to turbulent flow, wall bounded and free turbulent shear flows, numerical methods for turbulent flow, turbulence modeling. (Lecture-problems 3 hours.) Letter grade only (A-F).

638. Engineering Calculation Methods for Turbulent Flow (3)

Prerequisites: MAE 537 or consent of instructor. Introduction to numerical methods for the solution of boundary-layer equations. Solution of two-dimensional internal and external turbulent boundary-layer problems. Unsteady flows, calculation of stability and transition. (Lecture-problems 3 hours.) Letter grade only (A-F).

639. Turbulence (3)

Prerequisites: MAE 532, 537. Nature of turbulent flows, dynamics of turbulence, statistical description, homogeneous turbulence and spectral dynamics characteristics of turbulent shear flows. (Lecture-problems 3 hours.) Letter grade only (A-F).

642. Aeroelasticity (3)

Prerequisites: MAE 533, 576, or consent of instructor. Deformations of airplane structures under static and dynamic loads. Natural modes and frequencies of complex airplane structures. Analysis of static aeroelastic phenomena. Fundamental concepts of unsteady aerodynamics. Flutter of swept wings. Dynamic response phenomena. Computational aeroelasticity techniques. (Lecture-Problems 3 hours.) Letter grade only (A-F).

663./763. Nonlinear Complex Structures and Mechanisms (3)

Prerequisite: MAE 563, or consent of instructor. (Master's students register in MAE 663, Ph.D. students register in MAE 763.) Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling, using I-DEAS, with automatic adaptation to popular software such as: STRUDEL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

669. Design of Composite Structures (3)

Prerequisite: MAE 522 or consent of instructor. Design concepts and guidelines of composite structures. Strength and stiffness design of composite laminates. Optimum design. Fatigue and creep of composite structures. Design of bolted and bonded joints. (Lecture-Problems 3 hours.) Letter grade only (A-F).

671. Random and Nonlinear Vibrations (3)

Prerequisites: MAE 576. Characterization and transmission of random vibration; failure due to random vibration. Classification of nonlinear problems; exact, graphical and approximate solutions, singular points, stability. (Lecture-problems 3 hours.) Letter grade only (A-F).

672. Stress Analysis in Design (3)

Prerequisite: MAE 567 or consent of instructor. Modes of failure and failure criteria. Stability of mechanical models, elastic bars and frames by kinetic and energy approaches; design of columns, beam columns and framed columns. Plastic collapse and limit analysis. Experimental methods of stress analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

673. Theory of Elasticity and Plasticity (3)

Prerequisite: MAE 567. Equations of the mechanics of elastic bodies. Plane problem. Bending, torsion, and extension of Prismatic Bodies. Three-dimensional problem. Propagation of waves in elastic media. Approximate methods. Theory of plasticity. (Lecture-problems 3 hours.) Letter grade only (A-F).

675. Modal Analysis (3)

Prerequisites: MAE 576. A thorough coverage of modal analysis techniques. Digital signal processing, including Fast Fourier Transform, Hilbert Transform, Structural dynamics theory, complex modes, state space, damping, nonsymmetries, modal parameter estimation techniques, and application of modal measurement methods suitable for practical vibration analysis problems. (Lecture-problems, 3 hours.) Letter grade only (A-F).

676. Engineering Vibrations II (3)

Prerequisites: MAE 576. Free, forced, and self-excited vibrations. Modal analysis of continuous systems, including exact and approximate solutions. Rayleigh's quotient, Rayleigh-Ritz, Galerkin, collocations, Finite Element Methods. Vibrations in rotating and reciprocating machines. Response of structures to random and shock loads. Transfer function and frequency response methods. Vibration control of discrete systems and flexible structures, including large space structures. (Lecture-problems, 3 hours.) Letter grade only (A-F).

677./777. Digital Simulation in Engineering (3)

Prerequisites: MAE 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. (Lecture-problems 3 hours.) Letter grade only (A-F).

690./590. Advanced Topics in Mechanical and Aerospace Engineering (3)

Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. Additional projects required for MAE 690. May be repeated for a maximum of 6 units with different topics. (Lecture-problems 3 hours.) Letter grade only (A-F).

691. Directed Studies (1-3)

Study of information in engineering and scientific literature on a current topic under the direction of a faculty member. Preparation of a written report based on this reading. Letter grade only (A-F).

697. Directed Research (1-6)

Prerequisite: Graduate standing in Mechanical and Aerospace Engineering. Theoretical and experimental problems in mechanical and aerospace engineering requiring extensive research and analysis. Submission of a final report and its approval by an evaluating committee are required. May be repeated to a maximum of 6 units. Not open to students who are enrolled in MAE 698. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisite: Enrollment is limited to students advanced to candidacy or eligible for it. Department Graduate Advisor must be consulted and a Thesis Permission form submitted for each semester of enrollment. Planning, preparation, and completion of a thesis in mechanical and aerospace engineering. May be repeated to a maximum of 6 units. Not open to students who are enrolled in MAE 697. Letter grade only (A-F).

735./635. Computational Fluid Dynamics II (3)

Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, up-wind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. Additional projects required for MAE 735. (Lecture-Problems 3 hours). Letter grade only (A-F).

763./663. Nonlinear Complex Structures and Mechanisms (3)

Prerequisite: MAE 563, or consent of instructor. (Master's students register in MAE 663, Ph.D. students register in MAE 763.) Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling, using I-DEAS, with automatic adaptation to popular software such as: STRUDL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Additional projects required for MAE 763. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.) Letter grade only (A-F).

777./677. Digital Simulation in Engineering (3)

Prerequisites: MAE 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. Additional projects required for MAE 777. (Lecture-problems 3 hours.) Letter grade only (A-F).

795. Advanced Directed Studies (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report. May be repeated to a maximum of 8 units. Letter grade only (A-F).

797. Advanced Directed Research (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report and a seminar. May be repeated to a maximum of 8 units. Letter grade only (A-F).

798. Doctoral Dissertation (4-12)

Prerequisite: Enrollment is limited to students formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics who have passed the preliminary examinations and research tool tests on completion of at least 48 units of course work. A written dissertation proposal containing an outline of the research to be undertaken and references to relevant source material must be submitted. Only upon a positive recommendation may a student embark on a dissertation. Minimum of 4 units per semester. Letter grade only (A-F).

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog." For general information about the Mathematics and Statistics Department, visit our website www.csulb.edu/depts/math.

Mathematics is fundamental to all scientific knowledge, including not only the traditional natural sciences but increasingly the social and economic sciences. The increasing applicability of mathematical methods has been enhanced and accelerated by the development of the computer. Mathematics is also a vital aid to critical and philosophical thinking and, at least to some, a thing of beauty in itself.

The Department of Mathematics and Statistics offers instruction for students at all levels beyond high school mathematics. Its courses provide the computational and analytic skills needed for a variety of majors, as well as the advanced theoretical topics for specialists in mathematics. Its various degree options are intended to provide the student with the knowledge and techniques needed for scientific, management and statistical applications, and also the theoretical understanding needed for teaching, graduate study and lifelong professional growth. Beyond these, it hopes to instill a spirit of curiosity and healthy skepticism towards mathematical statements and results – a willingness to ask “is this true?” and “why?”, and to try to find the answers.

Students desiring information should contact the Department Office for referral to the appropriate faculty advisor: Undergraduate Advisor, Graduate Advisor, and/or Credential Advisor.

Concurrent and/or Summer Enrollment at Another College

Students who wish to take coursework at a community college or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See ‘Concurrent Enrollment’ and ‘Transfer of Undergraduate Credit’ in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

Undergraduate Degree Programs

The Mathematics and Statistics Department offers four undergraduate degree programs in mathematical sciences:

Bachelor of Science in Mathematics (code MATHBS01) (120 units)

The student in this program is required to take a selection of fundamental courses in algebra, statistics, and analysis. It is the most flexible program, in which the greatest number of electives may be chosen by the student. Elective upper division mathematics courses are available which meet the needs of students preparing for a variety of goals, including careers in industry and government, secondary teaching, and graduate study. Students who do not wish to complete the requirements for a declared option in applied mathematics or statistics may wish to elect courses in one or both of these areas as part of this degree program.

Requirements

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 233, 247; CECS 174; PHYS 151.

Upper Division: A minimum of 30 units of approved upper-division mathematics courses selected in consultation with a major advisor, to include MATH 341 or 347, 361A, 361B, 364A, 380 and 444 but not 370A or 370B. To allow flexibility, only 18 of the required 30 units are specified. Students should choose the remaining 12 units after discussing career goals and interests with an advisor. For additional information and to obtain an advisor, contact the Department Office.

FOUR YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS (MATHBS01)

120 units required Department of Mathematics and Statistics

Semester 1		Semester 2

Option in Applied Mathematics (code MATHBS02) (120 units)

The student who is most interested in the applications of mathematics has a choice of two suboptions: the first concentrates on the applications in science and engineering while the second concentrates on the applications to economics and management. In both suboptions, courses are specified in the major areas of applied mathematics and in the field of application. This option prepares students for careers in business, industry or government or for graduate study.

Requirements

Suboption I: Area of application in Science and Engineering

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; PHYS 151 and 152; PHYS 254 or EE 211 or CE 205.

Upper Division: MATH 323, 361A, 361B, 364A, 364B, 380, 470. A minimum of 9 units from the following: MATH 381, 382, 423, 461, 463, 472, 479, 485. A minimum of 9 units from one of the following three groups:

- A. PHYS 310, 340A, 340B, 350, 410, 422, 450;
- B. EE 310, 370, 382, 460, 482;
- C. CE 335, 359, 437, 438, 458; MAE 371, 373.

FOUR YEAR PLAN TO COMPLETE THE B.S. in MATHEMATICS, OPTION IN APPLIED MATH (MATHBS02)

Suboption I: area of concentration in science and engineering

120 units required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	MATH 123 (GE B.2)	4
MATH 122 (GE B.2)	4	PHYS 151 (GE B.1.b)	4

GE class	3		
TOTAL UNITS	14	TOTAL UNITS	14

Semester 3		Semester 4	
Critical Thinking or other GE class	3	MATH 247	3
MATH 224	4	MATH 364A	3
PHYS 152	4	PHYS 254 or C E 205 or E E 211	3
CECS 174	3	GE class	3
GE class	3	GE class	3
TOTAL UNITS	17	TOTAL UNITS	15

Semester 5		Semester 6	
MATH 361A	3	MATH 361B	3
MATH 380	3	MATH 364B	3
MATH 323	4	Application elective	3
GE class	3	ENGL 317	3
GE class	3	GE Capstone class	3
TOTAL UNITS	16	TOTAL UNITS	15

Semester 7		Semester 8	
MATH 470	3	MATH elective	3
MATH elective	3	MATH elective	3
Application elective	3	Application elective	3
GE Capstone class	3	GE Capstone class	3
Elective	3	Elective	2
TOTAL UNITS	15	TOTAL UNITS	14

NOTE: "MATH elective" is a course chosen from a particular list:
MATH 381, 382, 423, 461, 463, 472, 479, 485

"Application elective" is chosen from a group of upper division courses in PHYS or E E or C E and MAE - See catalog for list of approved courses.

FIVE YEAR PLAN TO COMPLETE THE B.S. in MATH, OPTION IN APPLIED MATH (MATHBS02)
Suboption I: area of concentration in science and engineering

120 units required Department of Mathematics and Statistics

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Option in Statistics (code MATHBS04) (120 units)

This option provides students with a foundation in statistical methods. The courses required ensure that the student understands both how the techniques are mathematically derived and how they are applied. Statistical analysis is an essential part of any scientific investigation. It is a vital tool in monitoring the quality of products and services and in forecasting. This option prepares students for interesting and rewarding careers in industry, government, and for graduate study in statistics and other quantitative fields.

Requirements

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174 and one of the following sequences:

- A. ECON 100 and ECON 101, (or ECON 300) or;
- B. BIOL 200 and BIOL 205 or;

C. Six units in a field other than ECON or BIOL in which approved upper division statistics courses are also taken.

Upper Division: A minimum of 31 units of upper division mathematics courses to include MATH 323, 361A, 380, 381, 382, 480 and 483 but not MATH 370A or 370B. Six additional units must be taken in fields outside mathematics; these must be approved by a statistics advisor. The following courses are approved statistics option electives: BIOL 456, 465, 467; ECON 411H, 420, 485, 486; GEOG 400; MKTG 470; PSY 315, 411; SOC 455

MATH elective is any upper division MATH course other than 370A.

Option in Mathematics Education (code MATHBS03) (120 units)

This option is for students preparing to teach mathematics at the secondary school level. Completion of this Option will meet all course requirements for the Single Subject Credential Major Program in Mathematics. Thirty units of post-baccalaureate coursework are also required for the Clear Single Subject Teaching Credential in Mathematics (see Single Subject Teacher Education Program in the College of Education for more specific information about courses and other requirements).

Requirements

Lower Division: MATH 122, 123, 224, 233, 247; one of the following: ENGL 101 or 300 or 317; and one of the following sequences: PHYS 151 and 152; or PHIL 170 and 270; or eight units of a foreign language.

Upper Division: MATH 310, 341, 355, 361A* or 364A, 380, 381, 410, 444; MTED 301, 411; EDSS 300M; and 3 additional upper division Mathematics units excluding MATH 370A, 370B.

(* denotes preferred course)

TOTAL UNITS	9	TOTAL UNITS	9 or 10

Semester 12

NOTE: The MATH elective may be any 300 or 400-level MATH class not otherwise specified, except that MATH 370A may not be used toward the major.

If student takes both MATH 361A and 364A, then one of those satisfies elective requirement.

**FAQ Concerning Road Maps for Completion
of Undergraduate Degrees**

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Honors in Mathematics

Students majoring in the B.S. in Mathematics (all options) who would like an enriched academic program that includes a thesis may complete the Honors in the Major program described here. A student may also complete General Honors through the University Honors Program, in which case the thesis requirement may be met through the Honors in the Major.

Admission Requirements

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B.S. in Mathematics or any of its options.
3. Completion of MATH 122, 123, 224, 247, and at least two upper division MATH courses at the time of entry with grades of at least "C" in each course. Students may apply during the semester in which they expect to complete these courses.
4. GPAs of at least 3.500 in all courses in the major and in all upper division courses in the major at the time of application.
5. Submission of an application describing the student's academic background, reasons for applying, and willingness to commit to completion of the requirements, including a thesis.
6. Letter of recommendation from a CSULB faculty member familiar with the student's work and abilities.

Admission to the Honors in the Major program will be determined by the Honors in the Major Advisor.

Graduation Requirements

1. GPA of at least 3.500 in all upper division courses in the major and in all courses in items 3, 4, and 5, below.
 2. Completion of all requirements for the chosen option of the B.S. in Mathematics.
 3. Completion of at least one of the following courses: MATH 347, 423, 451, 461, 463, 472, 479. These courses may be included among the upper division units for the major, in item 2, if allowed in the student's major.
 4. Completion of at least three units of any combination of MATH 491 and/or MATH 496.
 5. Completion of 3 units of MATH 498H, Senior Thesis-Honors.
 6. It is a requirement for this Honors in the Major program that the 6 units of MATH 491, 496, and 498H be in addition to the Mathematics Department course requirements for the B.S.
 7. Presentation of thesis results in a public forum. This forum could be at a meeting of a scientific or professional organization or a campus or departmental forum, subject to the approval of the Honors in the Major Advisor.
- Substitutions to this program must be approved by the Honors in the Major Advisor.

Minor in Mathematics (code MATHUM01)

Requirements

The Minor in Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 23 or more semester units as follows:

MATH 122, 123, 224, 247, and 9 units of upper-division mathematics courses to include MATH 361A but not 370A. The student may replace MATH 123 and 224 by MATH 222 and one more 3 unit upper-division mathematics course (excluding MATH 370A) not used to meet the above upper-division requirements.

Minor in Applied Mathematics (code MATHUM02)

Requirements

The Minor in Applied Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 27 or more semester units as follows:

Lower Division: MATH 122, 123, 224, 247

Upper Division: MATH 323, 364A or 370A, 380 and one course selected from MATH 364B, 381, 382, 423, or 470.

The student may replace MATH 123 and 224 by MATH 222 and one more course from MATH 364B, 381, 382, 423, 470 not used to meet the above upper division requirements.

Minor in Statistics (code MATHUM03)

Requirements

The Minor in Statistics is available to any non-Mathematics major. The student must complete 26 or more semester units by following one of two sequences:

Sequence One: MATH 122, 222, 247, 380, 381, and any three of the following: MATH 323, 382, 480, and/or 483.

Sequence Two: MATH 122, 123, 224, 247, 380, 381, and any two of the following: MATH 323, 382, 480, and/or 483.

Master of Science in Mathematics (code MATHMS01)

Prerequisites

1. A bachelor's degree in mathematics from an accredited college or university; or
2. A bachelor's degree with a minimum of 24 upper division units in mathematics;
3. Courses must include MATH 247, 361A-B, 364A and 444, or their equivalents. Deficiencies will be determined by the Graduate Advisor after consultation with the student and study of transcript records.

Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

Requirements

1. A minimum of 30 graduate and approved (*) upper division units in mathematics including:
 - A. Three of the following courses MATH 540A, 550A, 561A, or 562A.
 - B. Two additional courses selected from MATH 540B, 550B, 561B, or 562B.
 - C. An additional 3 units of 500 level mathematics courses.
2. Complete one of the following:
 - A. Pass a comprehensive written examination in two areas of Pure Mathematics
 - B. Subject to the approval of the Graduate Committee of the Department of Mathematics, write a thesis in Mathematics and defend it orally.Specific requirements for passing of the comprehensive examinations can be found on the Mathematics and Statistics Department website at www.sculb.edu/depts/math.

Option in Applied Mathematics (code MATHMS02)

Prerequisites

1. A bachelor's degree in mathematics, physics, or engineering, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A-B, 364A, and 380, or their equivalents. Deficiencies will be determined by the Graduate Advisor.

Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 grade point average.

Requirements

1. A minimum of 30 graduate and upper division units approved by the graduate advisor, and including:
 - A. MATH 463, 479, 563, 570 and 576;
 - B. At least 6 units of applied mathematics courses selected from MATH 423, 470, 485, 564, 574, 575, and 577
 - C. At least three units selected from the courses in above section 1.B. not used to satisfy that requirement, or from MATH 364B, 381, 382, 461, 472, 480, 562A, 580, 581, 584 and 586.
 - D. At least 18 units of graduate mathematics courses (numbered 500 or above) including any such courses used to meet requirements (A), (B), and (C) above and including at least 15 units other than MATH 697 or 698.

2. Complete one of the following:

- A. Pass a comprehensive written examination in two subjects of Applied Mathematics.
- B. Subject to the approval of the proposal by both the Applied Mathematics Committee and the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in applied mathematics and defend it orally. Specific requirements for passing of the comprehensive examinations can be found on the Mathematics and Statistics Department website at www.sculb.edu/depts/math.

Option in Applied Statistics (code MATHMS03)

Prerequisites

1. A bachelor's degree in mathematics, physics, engineering, or computer science, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A, 380, 381 or their equivalents.

Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C." Student must have passed the Writing Proficiency Examination (WPE) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

Requirements

1. A minimum of 30 graduate and approved (*) upper division units in mathematics including:
 - A. MATH *480, 580, 581.
 - B. Four additional courses selected from MATH *382, *483, 583, 584, 585, 586.
 - C. A minimum of 18 units at the 500/600 level, including at least 15 units of graduate courses in mathematics other than MATH 697 or 698.
2. Complete one of the following:
 - A. Pass a comprehensive written examination in two areas of statistics.
 - B. Subject to the approval of the Graduate Committee of the Department of Mathematics and Statistics, write a thesis in statistics and defend it orally. Specific requirements for passing the comprehensive examinations can be found on the Mathematics and Statistics Department website at www.csulb.edu/depts/math.

Mathematics Courses (MATH)

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics courses and mathematics education courses except MATH 1 and 10. Please contact the ELM coordinator in the Department of Mathematics and Statistics for details regarding the ELM test score.

Lower Division

1. Elementary Algebra and Geometry (3)

Prerequisite: Appropriate ELM score. Topics include arithmetic review, elementary algebra, and some basic geometry concepts. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. (Lecture 3 hrs.) Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so.

10. Intermediate Algebra (3)

Prerequisite: Appropriate ELM score. Topics include polynomial, rational, and radical expressions and equations; rational exponents; solutions and graphs of linear, quadratic, and rational inequalities; systems of linear equations; operations, inverses, and graphs of functions; logarithmic and exponential functions and their applications. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. (Lecture 3 hrs.) Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so.

Mathematics Courses (MATH)

101. Trigonometry (3)

Prerequisites: MATH 10 or equivalent. Trigonometric functions and applications. Complex numbers. (Lecture 3 hrs.) Not open to students with credit in MATH 117 or 122. (CAN MATH 8)

103. Mathematical Ideas (3)

Prerequisites: 3 years of high school mathematics, or the equivalent. Non-technical course surveying a variety of concepts in undergraduate mathematics. Topics will include elementary logic, algebra of sets, numeration systems, rational and real numbers, modular number systems, elementary combinatorics, probability and statistics. (Lecture 3 hrs.) Not open to students with credit in any MATH course numbered greater than 103, or the equivalent. (CAN MATH 2)

112. College Algebra (3)

Prerequisites: Three years of high school mathematics or equivalent. Study of algebra including linear and quadratic equations and systems; matrices and determinants; theory of equations; polynomial, exponential and logarithmic functions and their graphs; permutations and probability. Designed for students majoring in a life or social science. (Lecture 3 hrs.) Not open to students with credit in MATH 117 or 122.

114. Finite Mathematics (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Combinatorial techniques and introduction to probability. Equations of lines and systems of linear equations, matrices, introduction to linear programming. (Lecture 3 hrs.) Not open to students with credit in MATH 233 or 380. (CAN MATH 12)

115. Calculus for Business (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Functions, derivatives, optimization problems, graphs, partial derivatives. Lagrange multipliers, integration of functions of one variable. Applications to business and economics. Emphasis on problem-solving techniques. (Lecture 3 hrs.) Not open to students with credit in MATH 119A, 120 or 122. (CAN MATH 34)

117. Precalculus Mathematics (4)

Prerequisites: Three and one half years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10) and one half year of trigonometry (or MATH 101), or the equivalent. Polynomial, rational, exponential, logarithmic, and trigonometric functions. Complex numbers, conic sections, graphing techniques. (Lecture 3 hrs., Problem Session 2 hrs.) Not open to students with credit in MATH 122. (CAN MATH 16)

119A. Survey of Calculus I (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Functions, limits and continuity, differentiation and integration of functions of one variable including exponential, logarithmic, and trigonometric functions. Graphing, optimization, parametric equations, integration by substitution and by parts, numerical integration. Applications to the life sciences. Emphasis on problem solving rather than theory. (Lecture 3 hrs.) Not open to students with credit in MATH 115, 120 or 122. (CAN MATH 30)

119B. Survey of Calculus II (3)

Prerequisites: MATH 119A or 122. Functions of several variables, partial derivatives, optimization. First order differential equations, second order linear homogeneous differential equations, systems of differential equations. Probability, random variables, difference equations. Introduction to vectors, matrices, Gaussian elimination, determinants. Applications to the life sciences. Emphasis on problem solving rather than theory. (Lecture 3 hrs.) Not open to students with credit in MATH 123 or 224. (CAN MATH 32)

120. Calculus for Technology (4)

Prerequisites: Three and one-half years of high school mathematics including one year of geometry, two years of algebra, and one semester of trigonometry, or the equivalent. Real and complex numbers and functions; limits and continuity; differentiation and integration of functions of one variable. Introduction to calculus of several variables. Applications to science and technology. (Lecture 3 hrs., problem session 2 hrs.) Not open to students with credit in MATH 122.

122. Calculus I (4)

Prerequisite: A grade of "C" or better in MATH 117 or four years of high school mathematics including two years of algebra, one year of geometry, one half year of trigonometry, and one additional senior-level course. Limits. Continuous functions. Derivatives and applications including graphing, related rates, and optimization. Transcendental functions. L'Hospital's Rule. Antiderivatives. Definite integrals. Area under a curve. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 18)

123. Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122. Applications of the integral. Techniques of integration. Infinite series including convergence tests and Taylor series. Parametric equations. Polar coordinates. Introduction to differential equations. (Lecture 3 hrs., problem session 2 hrs.) Not open to students with credit in MATH 222. (CAN MATH 20)

180. Elementary Statistics (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Nature of statistics and probability theory, description of sampled data. Random sampling, normal distribution assumption and its consequences; tests of hypotheses and estimation; correlation, regression, analysis of variance. Non-parametric methods. (Lecture 3 hrs.) (CAN STAT 2)

222. Intermediate Calculus (4)

Prerequisite: A grade of "C" or better in MATH 122. Integration by parts and by partial fractions. Numerical integration. Improper integrals. Infinite series including series convergence tests and Taylor series. Vectors. Partial derivatives and directional derivatives. Double integrals. Introduction to differential equations. Enrollment restricted to CECS majors. Not open to students with credit in MATH 123. Letter grade only (A-F). (Lecture 3 hrs., activity 2 hrs.)

224. Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Vectors and three-dimensional analytic geometry. Partial derivatives and Lagrange multipliers. Multiple integrals. Vector calculus, line and surface integrals. Green's Theorem, Stokes' Theorem and the Divergence Theorem. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 22)

233. Fundamental Concepts for Advanced Mathematics (3)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Fundamentals of logic and set theory, counting principles, functions and relations, induction and recursion, introduction to probability, elementary number theory, congruences. (Lecture 3 hrs.)

247. Introduction to Linear Algebra (3)

Prerequisite: MATH 222 or prerequisite or corequisite: MATH 224. Matrix algebra, solution of systems of equations, determinants, vector spaces including function spaces, inner product spaces, linear transformations, eigenvalues, eigenvectors, quadratic forms, and applications. Emphasis on computational methods. (Lecture 3 hrs.) (CAN MATH 26)

297. Directed Study (1-3)

Prerequisite: Consent of instructor. Designed for students who wish to undertake special study, at the lower division level, which is not a part of any regular course, under the direction of a faculty member. Individual investigation, studies or surveys of selected problems.

Upper Division

310. History of Early Mathematics (3)

Prerequisite/Corequisite: completion of, or concurrent enrollment in a 200-level mathematics course. History of mathematics through the seventeenth century, including arithmetic, geometry, algebra, and the beginnings of calculus. Interconnections with other branches of mathematics. This course has a writing component; it is strongly recommended that students enrolling in the course have completed the G.E. A1 requirement (Lecture 3 hrs.)

323. Introduction to Numerical Analysis (4)

Prerequisites: MATH 222 or 224, and a course in computer programming. Numerical solution of nonlinear equations, systems of linear equations, and ordinary differential equations. Interpolating polynomials, numerical differentiation, and numerical integration. Computer implementation of these methods. (Lecture-discussion 3 hrs., problem session 2 hrs.)

330. Introduction to Mathematical Logic (3)

Prerequisite: MATH 123 or 222. Symbolic methods of propositional calculus, general theory of inference, transition from formal to informal proofs, theory of definition, elementary set theory and axiomatic methods. (Lecture 3 hrs.)

340. Theory of Algebraic Equations (3)

Prerequisite: MATH 123 or 222. Complex numbers, general theorems on algebraic equations, the discriminant, location and approximation of roots of equations, solution of the cubic and quartic equations; determinants and their application to simultaneous linear equations, symmetric functions. (Lecture 3 hrs.)

341. Number Theory (3)

Prerequisites: MATH 123 or 222, and at least one of MATH 233, 247, 310; recommended, 233 or 247. Divisibility, congruences, number theoretic functions, Diophantine Equations, primitive roots, continued fractions. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

347. Linear Algebra (3)

Prerequisites: MATH 233 and 247. An in-depth study of linear transformations, vector spaces, inner product spaces, quadratic forms, similarity and the rational and Jordan canonical forms. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

355. College Geometry (3)

Prerequisite: MATH 247. Transformations, motions, similarities, geometric objects, congruent figures, the axioms of geometry, and additional topics in Euclidean and non-Euclidean geometry. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

361A. Introduction to Mathematical Analysis I (3)

Prerequisites: MATH 222 or 224, and MATH 233 or 247. Rigorous study of calculus and its foundations. Structure of the real number system. Sequences and series of numbers. Limits, continuity and differentiability of functions of one real variable. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

361B. Introduction to Mathematical Analysis II (3)

Prerequisite: MATH 361A. Riemann integration. Topological properties of the real number line. Sequences of functions. Metric spaces. Introduction to the calculus of several variables. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

364A. Ordinary Differential Equations I (3)

Prerequisites: MATH 222 or 224, and prerequisite or corequisite MATH 247. First order differential equations; undetermined coefficients and variation of parameters for second and higher order differential equations, series solution of second order linear differential equations; systems of linear differential equations; applications to science and engineering. (Lecture 3 hrs.)

*364B. Ordinary Differential Equations II (3)

Prerequisite: MATH 364A or 370A. Existence-uniqueness theorems; Laplace transforms; difference equations; nonlinear differential equations; stability, Sturm-Liouville theory; applications to science and engineering. (Lecture 3 hrs.)

370A. Applied Mathematics I (3)

Prerequisite: MATH 222 or 224. First order ordinary differential equations, linear second order ordinary differential equations, numerical solution of initial value problems, Laplace transforms, matrix algebra, eigenvalues, eigenvectors, applications. (Lecture 3 hrs.) Not open for credit to mathematics majors.

370B. Applied Mathematics II (3)

Prerequisite: MATH 370A. Arithmetic of complex numbers, functions of a complex variable, contour integration, residues, conformal mapping; Fourier series, Fourier transforms; separation of variables for partial differential equations. Applications. (Lecture 3 hrs.) Not open for credit to mathematics majors.

380. Probability and Statistics (3)

Prerequisite: MATH 222 or 224. Frequency interpretation of probability. Axioms of probability theory. Discrete probability and combinatorics. Random variables. Distribution and density functions. Moment generating functions and moments. Sampling theory and limit theorems. (Lecture 3 hrs.)

*381. Mathematical Statistics (3)

Prerequisites: MATH 247 and 380. Estimation and hypothesis testing. Maximum likelihood and method of moments estimation. Efficiency, unbiasedness, and asymptotic distribution of estimators. Neyman-Pearson Lemma. Goodness-of-fit tests. Correlation and regression. Experimental design and analysis of variance. Nonparametric methods. (Lecture 3 hrs.)

*382. Random Processes (3)

Prerequisites: MATH 247 and 380. Further topics in probability. Markov processes. Renewal theory. Random walks. Queueing theory. Poisson processes. Brownian motion. (Lecture 3 hrs.)

410. History of Modern Mathematics (3)

Prerequisites: MATH 247, 310 and at least three out of MATH 233, 341, 355, 361A, 380. The history of mathematics from the seventeenth century through the first half of the twentieth century. Development of calculus, analysis, and geometry during the time period. Other topics discussed may include the history of probability and statistics, algebra and number theory, logic and foundations. (Lecture 3 hrs.)

*423. Intermediate Numerical Analysis (3)

Prerequisites: MATH 247 and 323. Numerical solutions of systems of equations, calculation of eigenvalues and eigenvectors, approximation of functions, solution of partial differential equations. Computer implementation of these methods. (Lecture 3 hrs.)

444. Introduction to Abstract Algebra (3)

Prerequisites: MATH 233 and 247 and at least one of MATH 341 or 347. Groups, subgroups, cyclic groups, symmetric groups, Lagrange's theorem, quotient groups. Homomorphisms and isomorphisms of groups. Rings, integral domains, ideals, quotient rings, homomorphisms of rings. Further topics in groups, rings and fields as time permits. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.) Not open to students with credit in MATH 444A.

*451. Differential Geometry (3)

Prerequisite: MATH 364A or 370A. Structure of curves and surfaces in space, including Frenet formulas of space curves; frame fields and connection forms; geometry of surfaces in Euclidean three space; Geodesics and connections with general theory of relativity. (Lecture 3 hrs.)

*461. Introduction to Complex Analysis (3)

Prerequisite: MATH 361A. Theory and applications of complex variables. Analytic functions, integrals, power series and applications. (Lecture 3 hrs.) Not open to students with credit in MATH 562A.

*463. Multivariable Calculus (3)

Prerequisites: MATH 224, 247, and 361B. Topology of Euclidean spaces. Partial derivatives. Derivatives as linear transformations. Inverse and implicit function theorems. Jacobians, vector calculus, Green's and Stokes' theorems. Variational problems. (Lecture 3 hrs.)

*470. Introduction to Partial Differential Equations (3)

Prerequisite: MATH 370A or 364A. First and second order equations, characteristics, Cauchy problems, elliptic, hyperbolic, and parabolic equations. Introduction to boundary and initial value problems and their applications. (Lecture 3 hrs.)

*472. Fourier Analysis (3)

Prerequisite: MATH 364A or 370A. Theory of Fourier series and Fourier transforms with applications to Physics and Engineering. Square integrable functions and Parseval's and Plancherel's identities. Convolution. The Fourier transform in one and several dimensions, with applications to partial differential equations. Introduction to distribution theory, the discrete Fourier transform and fast Fourier transforms. (Lecture 3 hrs.)

Mathematics Courses (MATH)

*479. Mathematical Modeling (3)

Prerequisite: MATH 247; 364A or 370A; 323; and one additional upper-division mathematics course or consent of instructor. Application of mathematics to develop models of phenomena in science, engineering, business and other disciplines. Evaluation of the benefits and limitations of mathematical modeling. (Lecture 3 hrs.)

*480. Regression Analysis (3)

Prerequisites: MATH 247 and 380, prerequisite or corequisite MATH 381. Simple linear regression: estimation and inference, prediction, analysis of residuals, detection of outliers, use of transformations. Multiple linear regression: influence diagnostics, multi-collinearity, selection of variables, simultaneous estimation and inference, validation techniques. Use of statistical software for data analysis. (Lecture 3 hrs.)

*483. Multivariate Statistical Analysis (3)

Prerequisites: MATH 381, prerequisite or corequisite MATH 480. Potential topics include: discriminate analysis, principal components, factor analysis, cluster analysis, logistic regression, canonical correlation, multidimensional scaling, and some nonlinear techniques. Statistical software will be used. (Lecture 3 hrs.) Letter grade only (A-F).

***485. Mathematical Optimization (3)**

Prerequisites: MATH 247 and at least one of MATH 323, 347 or 380. Linear and nonlinear programming: simplex methods, duality theory, theory of graphs, Kuhn-Tucker theory, gradient methods and dynamic programming. (Lecture 3 hrs.)

491. Honors Seminar in Problem Solving (1)

Prerequisites: Consent of instructor. Challenging problems from many fields of mathematics, taken largely from national and worldwide collegiate and secondary school competitions. Students will be required to participate in at least one national competition. May be repeated to a maximum of 3 units. (Lecture—discussion 1 hr.)

***495. Topics in Modern Mathematics (3)**

Prerequisite: Consent of instructor. Topics of current interest from mathematics literature.

496. Special Problems (1-3)

Prerequisites: Consent of instructor. Student investigations in mathematics, applied mathematics, mathematics education, or statistics. May include reports and reviews from the current literature, as well as original investigations. May be repeated to a maximum of 3 units. Letter grade only (A-F).

497. Directed Studies (1-3)

Prerequisites: Junior or senior standing and consent of instructor. Readings in areas of mutual interest to student and instructor which are not a part of any regular course. A written report or project may be required. May be repeated to a maximum of 3 units.

498H. Senior Thesis - Honors (3)

Prerequisites: Admission to Honors in the Major in Mathematics or to the University Honors Program, and consent of instructor. Planning, preparation, completion, and oral presentation of a written thesis in mathematics, applied mathematics, mathematics education, or statistics. Not available to graduate students. Letter grade only (A-F).

Graduate Level**540A. Abstract Algebra I (3) F**

Prerequisite: MATH 444. Group theory including symmetric groups; group actions on sets; Sylow theorems and finitely generated abelian groups; ring theory including polynomial rings, division rings, Euclidean domains, principal ideal domains and unique factorization domains. Letter grade only (A-F). (Lecture 3 hrs.)

540B. Abstract Algebra II (3) S

Prerequisite: MATH 540A. Modules; Field extensions; Finite fields; Splitting fields, Galois theory. Commutative ring theory including chain conditions and primary ideals. Topics of current interest. Letter grade only (A-F). (Lecture 3 hrs.)

550A. Topology I (3) S

Prerequisite: MATH 361B. Fundamentals of point-set topology: metric spaces and topological spaces; bases and neighborhoods; continuous functions; subspaces, product spaces and quotient spaces; separation properties, countability properties, compactness, connectedness; convergence of sequences, nets and filters. Letter grade only (A-F). (Lecture 3 hrs.)

550B. Topology II (3) F

Prerequisite: MATH 550A. Further topics in point-set topology: local compactness, paracompactness, compactifications; metrization; Baire category theorem; homotopy and the fundamental group. Topics may also include uniform spaces, function spaces, topological groups or topics from algebraic topology. Letter grade only (A-F). (Lecture 3 hrs.)

560A. Functional Analysis I (3) F

Prerequisites: MATH 361B and 247. Linear spaces, metric and topological spaces, normed linear spaces; four principles of functional analysis: Hahn-Banach, Open Mapping, Uniform Boundedness, and Closed Graph theorems; adjoint spaces; convergence in normed spaces, conjugate spaces, and spaces of operators; Banach Fixed Point theorem; Hilbert spaces; selected applications. Letter grade only (A-F). (Lecture 3 hrs.)

560B. Functional Analysis II (3) S

Prerequisite: MATH 560A or consent of instructor. Spectral theory of operators on normed spaces; special operators; elementary theory of Banach algebras; selected topics from applied functional analysis. (Lecture 3 hrs.)

561A. Real Analysis I (3) S

Prerequisite: MATH 361B. The theory of measure and integration, focusing on the Lebesgue integral on Euclidean space, particularly the real line. Modes of convergence. Fatou's Lemma, the monotone convergence theorem and the dominated convergence theorem. Fubini's theorem. Letter grade only (A-F). (Lecture 3 hrs.)

561B. Real Analysis II (3) F

Prerequisite: MATH 561A or consent of instructor. L^p spaces of functions. Holder's inequality. Minkowski's inequality. Norm convergence, weak convergence and duality in L^p . Further topics from convergence of Fourier series, measure-theoretic probability, the Radon-Nikodym theorem; other topics depending on time and interest. Letter grade only (A-F). (Lecture 3 hrs.)

562A. Complex Analysis I (3) F

Prerequisite: MATH 361B. (MATH 461 is recommended.) Axiomatic development of real and complex numbers; elements of point set theory; differentiation and analytic functions, classical integral theorems; Taylor's series, singularities, Laurent series, calculus of residues. Letter grade only (A-F). (Lecture 3 hrs.)

562B. Complex Analysis II (3) S

Prerequisite: MATH 562A. Multiple-valued functions, Riemann surfaces; analytic continuation; maximum modulus theorem; conformal mapping with applications, integral functions; gamma function, zeta function, special functions. Letter grade only (A-F). (Lecture 3 hrs.)

563 Applied Analysis (3) F

Prerequisites: MATH 361B. Hilbert Spaces, L_p spaces, Distributions, Fourier Transforms, and applications to differential and integral equations from physics and engineering. (Lecture 3 hrs.)

564 Applied Nonlinear Ordinary Differential Equations (3) F

Prerequisites: MATH 361B, and 364A or 370A. Stability and asymptotic analysis, Perturbation methods, Phase plane analysis, Bifurcation, Chaos, Applications to science and engineering. (Lecture 3 hrs.)

570. Partial Differential Equations (3) S

Prerequisites: MATH 364A, 463 and 563. Cauchy's problem; classification of second order equations; methods of solution of hyperbolic, parabolic, and elliptic equations. Letter grade only (A-F). (Lecture 3 hrs.)

574. Stochastic Calculus and Applications (3) S

Prerequisites: MATH 361B, 364A or 370A, 380. Review of probability theory. Markov processes. Wiener processes. Stochastic integrals. Stochastic differential equations. Applications to Finance and Engineering. (Lecture 3 hrs.)

575. Calculus of Variations (3) S

Prerequisites: MATH 563 and one of MATH 364A, 370A. Classical theory. Necessary and sufficient conditions for extrema of multiple integrals. Hamilton-Jacobi theory. Applications to eigenvalue problems. Direct methods. Pontryagin maximum principle. Principle of optimality. Letter grade only (A-F). (Lecture 3 hrs.)

576. Numerical Analysis (3) F

Prerequisites: MATH 323, 361B and 364A. Advanced numerical methods. Introduction to error analysis, convergence, and stability of numerical algorithms. Topics may include solution of ordinary differential equations, partial differential equations, systems of linear and nonlinear equations, and optimization theory. Letter grade only (A-F). (Lecture 3 hrs.)

577. Numerical Solution of Partial Differential Equations (3) S

Prerequisite: MATH 423 or MATH 576 or consent of instructor. A survey of finite difference methods for solving hyperbolic, parabolic, and elliptic PDE'S, with analysis of their accuracy, convergence, and stability properties. Topics include selected initial-value and boundary-value problems, characteristics, domain of dependence, von Neumann's method of stability analysis, the matrix method of stability analysis, and solution of large scale sparse linear systems by direct and iterative methods. Introduction to the finite element method. (Lecture 3 hrs.)

580. Statistical Inference (3) F

Prerequisites: MATH 381 or consent of instructor. Properties of a random sample, convergence in probability, the law of large numbers, sampling from the normal distribution, the central limit theorem, principles of data reduction, the likelihood principle, point estimation, Bayesian estimation, methods of evaluating estimators, hypothesis testing, decision theory, confidence intervals. Letter grade only (A-F). (Lecture 3 hrs.)

581. Experimental Design and Analysis (3) F

Prerequisite: MATH 381 or consent of instructor. The design of experiments to permit efficient analysis of sources of variation with application to quality assurance. Factorial and fractional factorial designs; block designs; confounding. Fixed and random effect models. Effects of departure from assumptions; transformations. Response surface techniques. Taguchi methods. (Lecture 3 hrs.)

583. Survey Sampling (3)

Prerequisites: MATH 381 or consent of instructor. Theory and practice of sampling from finite populations. Simple random sampling, stratified random sampling, systematic sampling, cluster sampling. Properties of various estimators including ratio, regression, and difference estimators. Error estimation for complex samples. Letter grade only (A-F). (Lecture 3 hrs.)

584. Statistical Quality Control (3) F

Prerequisite: MATH 381 or consent of instructor. An introduction to the methods of statistical quality control. Topics covered include control charts, acceptance sampling, process capability analysis, and some aspects of experimental design. (Lecture 3 hrs.)

585. Nonparametric Statistics (3)

Prerequisites: MATH 480 or consent of instructor. Alternatives to normal-theory statistical methods, analysis of categorical and ordinal data, methods based on ranks, measures of association, goodness of fit tests, order statistics. Letter grade only (A-F). (Lecture 3 hrs.)

586. Data Mining (3) S

Prerequisites: MATH 480 or consent of instructor. Basics of data mining algorithms with an emphasis on applications to industry. Prediction and classification techniques such as Multivariate Adaptive Regression Splines (MARS), Classification and Regression Trees (CART), neural networks, and other methods. Several software packages will be utilized. Letter grade only (A-F). (Lecture 3 hrs.)

695. Seminar in Mathematics (3) F,S

Prerequisite: Consent of instructor. Presentation and discussion of advanced work, including original research by faculty and students. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units. Letter grade only (A-F).

697. Directed Studies (1-3) F,S

Prerequisite: Consent of instructor. Research on a specific area in mathematics. Topic for study to be approved and directed by advisor in the Mathematics and Statistics Department. Letter grade only (A-F).

698. Thesis (2-4) F,S

Prerequisite: Advancement to candidacy for M.S. in Mathematics and completion of at least one 500 and/or 600 level mathematics course. Formal report of research or project in mathematics.

Mathematics Education Courses (MTED)

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics education courses.

Lower Division**105. Activity-Based Probability and Statistics for Elementary and Middle School Teachers (3)**

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Activity-based exploration of randomization, data representation, measures of central tendency and dispersion. Analysis of experiments requiring hypothesizing, experimental design and data gathering. Basic laws of probability and set theory, combinations, permutations, and simulations. Algebraic thinking will be used throughout the course. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Supplementary Authorization in Introductory Mathematics. Not open for credit to Mathematics majors. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.)

110. The Real Number System for Elementary and Middle School Teachers (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 10), or the equivalent. Introduction to problem solving processes and strategies. Development and analysis of the structure and operations of the real number system. Concept and process development using appropriate models, manipulatives, and activities. Not open to students with "C" or better in MATH 110. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Supplementary Authorization in Introductory Mathematics. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

211. Geometry and Measurement for Elementary Teachers (3)

Prerequisites: "C" or better in MTED 110 and one year of high school geometry. Problem solving with particular focus on making tables and patterning, informal geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Computer language, such as Logo and/or geometry drawing utility, such as Geometer's Sketchpad, will be integrated into the course. Emphasis will be on hands-on modeling of real-world geometric situations. Not open to students with "C" or better in MATH/MTED 111. Enrollment limited to students seeking a Multiple Subject teaching credential and/or Supplementary Authorization in Introductory Mathematics. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

Upper Division

301. Computer Applications in Mathematics for Teachers (3)

Prerequisites: One year of high school geometry and one of MTED 110 or MATH 122. Formerly MTED 278. Course designed for pre-service or in-service teachers. Introduction to computer technology and its applications to mathematics classrooms; software evaluation; survey of teacher tools such as spreadsheets, databases, and the internet; e-mail, computer-based collaborative tools and applications using the Internet; mathematics using technology; introduction to programming; issues about computer and other technology use in the schools; integration of computer technology into the mathematics classroom. This course satisfies the California Level I teaching credential computer technology standard. Open for credit to Single Subject mathematics and Multiple Subject credential students only. (Lecture 2 hrs., activity 2 hrs.) Not open for students with credit in MATH/MTED 278.

Mathematics Education Courses (MTED)

311. Topics of Enrichment in Mathematics for the Elementary Teacher (3)

Prerequisites: MTED 110 and either MTED 211 (formerly MTED 111) or MATH 122 or consent of instructor. Formerly MATH 311. Enrichment topics in mathematics for the elementary teacher, such as theory of arithmetic, numeration systems, elementary logic, mensuration, metric system, topological equivalence, probability and statistics and network theory. Not open to students with credit in MATH 311. (Lecture 3 hrs.) Not open for credit to mathematics majors.

312. Geometry and Measurement for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and one year of high school geometry. Focus on exploration, conjecture and justification of geometric relationships and applications that are relevant to teaching geometry through the middle grades. Topics include: problem solving, informal geometry, the nature of proof, introduction to non-Euclidean geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Technology involving a geometry drawing utility, such as Geometer's Sketchpad, will be used extensively in the course. Letter grade only (A-F). (Lecture 2 hrs., activity 2 hrs.) Not open for credit to Mathematics majors.

315. History of Mathematics for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and MTED 312. This course develops mathematics ideas throughout history with an orientation toward the various civilizations and cultures that contributed those ideas. The course covers the history of most areas of mathematics relevant to the K-9 curriculum, especially arithmetic, algebra, geometry, and their interrelationships. The cross-cultural view of mathematics will be emphasized. Also included are historical origins of more modern subjects such as statistics and probability, cryptography, and other applied mathematics. Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to Mathematics majors.

320. Number Theory and Algebraic Structures for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisite: MTED 110. Topics include divisibility, primes and composites, prime factorizations; proofs and problem-solving with these topics; groups, rings, and fields, especially congruence modulo n and p and other examples; and other topics with in number theory and modern algebra that are relevant to the mathematics curriculum in elementary and middle schools. Letter grade only (A-F). (Lecture 3 hrs.) Not open for credit to Mathematics majors.

325. Functions, Models and Concepts of Calculus for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and MTED 312. Functions, families of functions and ways to represent them, such as numeric, symbolic, graphical, verbal; sequences and sums. Intuitive development of the concepts of limit, continuity, derivative, integral and applications, including differential equations. Algebraic methods will be emphasized in the context of learning calculus. Technology will be used throughout the course, particularly graphing calculators. Not open for credit to Mathematics majors. Letter grade only (A-F). (Lecture 3 hrs.)

402. Problem Solving Applications in Mathematics for Elementary and Middle School Teachers (3)

Prerequisites: "C" or better in both MTED 110, either MTED 211 (formerly MTED 111) or MTED 312 or the equivalent and a course in Critical Thinking. Focusing on problem solving processes and strategies, this course will bring together and apply content from many areas of mathematics and make use of computer technology and/or graphing calculators. The course will illustrate problem solving as a framework for developing questioning strategies that foster understanding of algebra and geometry. Topics include real-world applications involving the real number system, algebra, number theory, geometry, measurement, probability and statistics. Enrollment limited to students seeking a Multiple Subject teaching credential. Not open for credit to Mathematics majors. (Lecture 2 hrs., activity 2 hrs.)

411. Topics and Issues in Secondary School Mathematics (3)

Prerequisites: MATH 310, 341, 355, 380, 410, and 444, and EDSS 300M (MATH 410 and EDSS 300M may be taken concurrently), or consent of the instructor. Examination and analysis of topics and issues in the secondary school mathematics curriculum from an advanced standpoint. Topics will include problem solving, mathematical connections, mathematical structures, mathematical conjecture and proof, mathematical communication at various levels, use of manipulatives and technology, assessment alternatives. Instructional experiences involving mathematics required in college-age settings. Observation/interview experience involving mathematics required in non-educational settings. Portfolio assemblage required. Intended for students preparing to enter the Single Subject Credential Program. Not open to students with credit in MATH 411. (Lecture 2 hrs., activity 3 hrs.)

495. Special Topics in Mathematics Education (1-3)

Prerequisite: Consent of instructor. Topics of interest in Mathematics Education. May be repeated to a maximum of 9 units with different topics in different semesters. Letter grade only (A-F).

The Center for Medieval and Renaissance Studies sponsors activities that explore the complex culture of the Middle Ages and the Renaissance. It sponsors a regular lecture series featuring speakers from on and off campus. Occasionally special seminars are held to commemorate a person, place, or event of significance from these periods; recent topics have included Richard III, Florence and Rome 1200-1600, The Sensual Culture of Venice,

1066 And After That, and La Felicissima Armada. The Center also offers courses on a wide range of medieval and Renaissance issues, supports faculty research both here and abroad, and is associated with most of the local and national societies relevant to research in these fields.

In addition, the Center has established an interdisciplinary program which offers students interested in these periods the opportunity to pursue a course of study leading to a Certificate in Medieval and Renaissance Studies. Courses which are used to meet the certificate requirements may be counted, where applicable, toward the General Education requirements, the major, and minor requirements.

Interested students should apply to Directors, MHB 512, or to members of the supporting faculty for further information.

Minor in Medieval and Renaissance Studies (code HISTUM04)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of the Middle Ages and the Renaissance. The Minor's flexible program of study is ideal for students interested in intellectual enrichment and professional development in their major. Students should contact the program director prior to or during the first semester of taking classes towards the Minor.

The Minor consists of a minimum of 21 units selected in consultation with the program director in addition to demonstrated competence in a foreign language appropriate to the area of concentration. The 21 required units include 12 units of core classes in History, Literature, and Art History, along with 9 electives chosen from the courses in these disciplines as well as from Music, Political Science, Philosophy, Religious Studies, RGLL, and Theatre.

Core Requirements

1. Six units of one of the following combinations: HIST 316 and 317; or HIST 317 and 332; or HIST 332 and 333.
2. Three units of an upper-division course in Literature: C/ LT 349*, 414I, 422I, 430, 431, 432, 449*; ENGL 363, 432, 451, 452, 453, 461, 462, 463, 468, 469*, 483, 498*; FREN 470, 471, 472, 490*; GERM 415, 498*; GK 490*; ITAL 335, 437, 490*; LAT 490*; SPAN 330*, 446*, 490*, 493.
3. Three units of an upper-division course in Art History: AH 408, 409, 410, 423, 424, 425, 497*, 498*.
4. Nine additional units chosen from the courses listed above (without repeating the required core) and the following: HIST 318, 334, 351, 353, 400I, 409, 414I, 431, 495*, 499*; MUS 360, 400R, 400S; PHIL 413, 490*; POSC 493*, 497*; RGR 450I; R/ST 314, 331I, 459, 471I, 472I, 490*; THEA 321, 490*.

* courses that can only count towards the minor if the topic is relevant to medieval and Renaissance studies.

Certificate in Medieval and Renaissance Studies (code CLSCCT01)

Requirements

1. A bachelor's degree with an approved major. (Certificate may be completed prior to the completion of the B.A. requirement or while in the process of working toward an advanced degree).
2. Consultation with and approval of the program by a faculty advisor.
3. Intermediate level language proficiency on the college level, including a course in medieval or Renaissance literature of the language. It is expected that the language selected will be Latin, but with the consent of the advisor, Anglo-Saxon, French, German, Italian, Spanish, or Greek may be substituted.

4. Twenty-four units selected from the following courses. Students should elect to concentrate in either the medieval or Renaissance period.

A. Required courses (12 units): one of the following sequences for six units: HIST 316 and 317, 317 and 332, or 332 and 333. One of the following literature courses for three units: C/LT 431, 432, 531, 532; ENGL 451, 452, 453, 552, 553, 554. One of the following Art History courses for three units: AH 408, 409, 410, 423, 424, 425, 508, 509, 510, 523, 524, 525.

B. Nine units selected from the following courses (without repeating the required core): AH 408, 409, 410, 423, 424, 425, 497*, 498*; C/LT 349*, 414I, 422I, 430, 431, 432, 449*; ENGL 363, 432, 451, 452, 453, 462, 463, 468, 469*, 483, 498*; FREN 470, 471, 472, 490*; GERM 415, 498*; GK 490*; HIST 316, 317, 318, 332, 333, 334, 351, 353, 400I, 409, 414I, 431, 495*, 499*; ITAL 335, 437, 490*; LAT 490*; MUS 360, 400R, 400S; PHIL 413, 490*; POSC 493*, 497*; RGR 450I; R/ST 314; 331I, 459, 471I, 472I, 490*; SPAN 330, 446*, 490*, 493*; THEA 321, 490*. Graduate courses: AH 508, 509, 510, 523, 524, 525, 597*, 598*; C/LT 530, 531, 532, 549*, 550*; ENGL 550, 551, 552, 553, 554, 562, 568, 583*, 652, 653, 681*, 683*; FREN 570, 571, 572, 590*, 604*, 688*; GERM 511*; HIST 509, 510*, 531, 611*, 631*; MUS 561; PHIL 513, 590*, 630*, 690*; R/ST 559, 590*; SPAN 538, 546*, 550, 590*, 593*; THEA 690*.

C. Three units of directed research on a medieval or Renaissance topic in any of the following courses: AH 495, 496, C/LT 499, ENGL 499, FREN 499, GERM 499, GK 499, HIST 498, ITAL 499, LAT 499, MUS 499, PHIL 499, POSC 499, R/ST 499, SPAN 499, THEA 498. Graduate courses: AH 595, 596, ENGL 598, 697, FREN 697, GERM 599, 697, HIST 695, 697, PHIL 697, POSC 599, 697, R/ST 697; SPAN 599, THEA 694.

*With an approved Medieval or Renaissance topic; certain special studies topics may be repeated for credit with approval.

The Biological Sciences include all of the areas of scientific endeavor centered around the general question of the nature of life. Such diverse areas as biochemistry, ecology, paleontology, and animal behavior are all part of the biological sciences. On this campus the biological sciences are distributed among three separate Departments in the College of Natural Sciences and Mathematics. The discipline of biochemistry is located in Chemistry and Biochemistry and the disciplines of invertebrate and plant paleontology are located in Geological Sciences. For information about the programs in these disciplines, consult the appropriate section of this *Catalog*. The remaining disciplines of the biological sciences represented in the College of Natural Sciences and Mathematics are located in the Department of Biological Sciences, which offers five degrees: a Bachelor of Science in Biology, a Bachelor of Science in Marine Biology, a Bachelor of Science in Microbiology, a Master of Science in Biology, and a Master of Science in Microbiology. The B.S. in Biology has, in addition to a general option, six specialized options in Biology Education, Botany, Cell and Molecular Biology, Ecology, Physiology, and Zoology. See below for the specific requirements for each of these degrees and options.

The Department occupies facilities in five science buildings. Courses and student research in organismal biology and ecology are enhanced by a marine biology laboratory with an extensive seawater system, greenhouses, and research and teaching collections of algae, vascular plants, invertebrates (including insects), and vertebrates. Because the campus is near the ocean, mountains, and deserts, the Department is able to offer a number of field and laboratory courses in botany, ecology, entomology, marine biology, and vertebrate zoology. Courses and student research opportunities are available in biotechnology, experimental biology, and clinical laboratory science (medical technology). State-of-the-art facilities are available for graduate and undergraduate research in the W. M. Keck Cellular and Molecular Biology Laboratory and electron microscope facility.

The Department of Biological Sciences also participates in the Desert Studies Consortium and the Ocean Studies Institute. Information on the latter program is listed in this *Catalog* under Ocean Studies Institute.

The Richard B. Loomis Research Award

This annual departmental award provides supply and travel support for thesis research projects. Graduate students submit research proposals to the Department's Graduate Studies Committee, which grants funding to the more meritorious proposals.

Linda Warren Graham Medical Technology Scholarship

The Linda Warren Graham Medical Technology Scholarship is available to senior microbiology majors who have been accepted into a Clinical Laboratory Scientist (or a Medical Technology) Internship program. Scholarship applications can be obtained from the Biological Sciences Department Office during the month of March prior to graduation.

Financial Support, Assistantships

The Department of Biological Sciences offers to graduate students a limited number of teaching associate and graduate assistant appointments. Forms requesting consideration for these appointments are available in the Department Graduate Office. Duties consist of approximately 20 hours per week devoted to preparation and/or instruction in general undergraduate laboratory classes. These appointments are limited to a maximum of six semesters per individual.

The Department also has a limited number of technical assistant positions as well as some hourly employment. Several members of the faculty have grants that provide for research assistantships. A number of scholarships are available through the University.

Graduate and Health Professional Preparation

In addition to preparing students for careers in teaching, industry, and government, the undergraduate programs in this Department provide preparation for advanced study at the graduate level and for entry into various health professional schools. Students should consider the degree requirements listed in the *Catalog* as minimal; some graduate schools, professional schools, or careers may require additional coursework in mathematics, physics, chemistry, or biological sciences.

Students desiring entrance into a graduate school to obtain a master's or doctoral degree in some area of the biological sciences should determine the entrance requirements for the school(s) of interest early in their undergraduate years. Specifically, students contemplating graduate work in mathematically oriented areas of the biological sciences should consider taking more calculus (MATH 122, 123, 224, and 364A or 370A will substitute for MATH 119A and 119B) and those contemplating graduate work in chemically oriented areas should consider taking additional chemistry (CHEM 251; 320A,B; 377A,B; 441A,B).

Students desiring entrance into one of the various health-related professional schools including chiropractic, dentistry, medicine, optometry, osteopathy, pharmacy, podiatry, and veterinary, or to a graduate program in physical therapy, should consult with the Health Professions Advising

Office in the College of Natural Sciences and Mathematics (FO5-109) for more information. Most of these schools do not require students to major in any particular discipline and many do not even require a bachelor's degree; rather, they want students who have done well in their major and who also took the prerequisite courses required by that particular school.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

Bachelor of Science in Microbiology (code BIOLBS09) (131 units)

Microbiology is the study of microorganisms and their interactions with people and the environment. This degree, with the inclusion of appropriate classes, may be utilized by pre-professional students who are preparing for medical, dental, pharmacy, and veterinary school. A major in microbiology prepares students for a wide range of employment opportunities in clinical and public health fields, genetic engineering, environmentally related fields, and industries concerning food, pharmaceuticals, and medical equipment and supplies. There is a core of courses for each of these varied educational and employment opportunities and specific programs can be arranged by counseling with microbiology advisors in the Department. This undergraduate major is recognized by the American Society for Microbiology as meeting their core curriculum for the baccalaureate degree program in microbiology, if students use MICR 471 as an elective. This major requires 91-92 units, of which 43-44 are in the lower division and 48 are in upper division.

Lower Division: BIOL 211A, B, 260; CHEM 111A, B, 251; MATH 119A or 122; MICR 211; PHYS 100A,B.

Upper Division: CHEM 320A, B, 441A, B; BIOL 340; MICR 320, 322, 430, 430L, 452, either both 450 and 451 or BIOL 370, and 9 additional elective units chosen from: BIOL 473, 477; MICR 423, 429, 432, 471, 473, 480, 490, 495, 496. MICR 423, 429 and 432 are particularly useful for Clinical Laboratory Science (Medical Technology) and other health related careers. The following courses are not acceptable toward the 9 units: MICR 300I, 303.

CSULB requires a "C" average in all upper division courses in the major taken at CSULB. For students who do not meet this requirement, the Department of Biological Sciences will allow graduation if they earn at least a "C" the last time they complete each upper division course in their major at CSULB.

Bachelor of Science Degree with Honors in Microbiology

Students majoring in the B. S. in Biology (all options), B. S. in Marine Biology, or B. S. in Microbiology who would like an enriched academic program, including an intensive research experience, may be eligible to graduate with Honors in the Major through the University Honors Program. Students may also complete General Honors through the University Honors Program, in which case the General Honors thesis requirement is met through Honors in the Major (see University Honors in this *Catalog*).

Students interested in graduating with Honors in the Major should participate in a series of courses designed to introduce central concepts in biology (BIOL 110H), develop critical thinking and communication skills (special section of UHP 100), and introduce the newly emerging field of bioinformatics (BIOL 220H). In addition, they may join a learning community of students with similar interests and benefit from mentoring by faculty members.

This Honors in the Major program was created with the support of a grant from the Howard Hughes Medical Institute. Students admitted to Honors in the Major may be eligible to receive monetary support from a variety of sources for completion of their honors research and thesis.

Students who have successfully completed the lower division Honors in the Major curriculum will receive priority for research fellowship support to the extent that it is available.

Additional details about this program, including availability of fellowship support, are available from the Honors in the Major Program Advisor.

Requirements for Admission

1. Junior or senior standing with at least one year remaining before graduation.
2. Declared major of B. S. in Biology (any option), B. S. in Marine Biology, or B. S. in Microbiology.
3. Completion of BIOL 211A,B, 260; CHEM 320A,B at time of entry with grades of at least "C" in each course. Students may apply during the semester in which they expect to complete these courses.
4. GPAs of at least 3.000 in all courses in the major and in all upper division courses in the major at the time of application.
5. Submission of an application describing the student's academic background, reasons for applying (including a description of any previous research experience), and willingness to commit to a year-long research experience.
6. Letter of recommendation from a CSULB faculty member familiar with the student's work and abilities.

Requirements for Graduation

1. GPA of at least 3.300 in all upper division courses in the major and in Honors courses.
2. Completion of all requirements for the chosen degree in the Biological Sciences.
3. Completion of either BIOL 220H or 477.
4. Completion of BIOL 466H, Research Design and Methods - Honors (3 units).

5. Completion of 3 units of BIOL 496, Undergraduate Directed Research.
6. Completion of 3 units of BIOL 498H, Thesis - Honors.
7. Presentation of research results in a public forum. This requirement may be met by presentation at a scientific conference or at a local venue; consult the Program Director for additional information

Substitutions to this program must be approved by the Honors in the Major Program Advisor.

Minor in Microbiology (code BIOLUM04)

This minor may be combined with any major at CSULB except the B.S. in Microbiology.

A minimum of 21 units which must include:

Lower Division: MICR 211.

Upper Division: MICR 320, 430, and 452; plus a minimum of five units from the following: MICR 322, 450, 471, and 473.

Master of Science in Microbiology (code BIOLMS02)

This degree is available to qualified students preparing for professional careers in industry and government and for further studies at the doctoral level. In addition, a Master's degree in Microbiology, combined with appropriate courses in education, can be utilized for a community college teaching credential.

Admission to the Department

Prerequisites

In addition to the prerequisites for entrance into CSULB as a graduate student stated previously in this Catalog under Graduate Degrees and Post Baccalaureate Studies, the Department of Biological Sciences requires:

1. A bachelor's degree or its equivalent with course work in microbiology, cell biology, and biochemistry appropriate for a science major and obtained from an accredited institution;
2. An undergraduate grade point average in all completed science and mathematics courses of at least 2.70, or a grade point average of at least 3.00 in the last 40 semester (60 quarter) units of science and mathematics courses completed; and
3. A score at or above the 50th percentile on the Graduate Record Examination (GRE) Subject test (in either Biology or in Biochemistry, Cell and Molecular Biology) taken within 5 years prior to the intended admission date.

An applicant who does not meet the above requirements may be admitted as a conditionally classified graduate student as explained below.

Application

Prospective graduate students in M.S. in Microbiology, including CSULB graduates, must formally apply for admission to CSULB as described previously in this Catalog and must also apply directly to the Department of Biological Sciences. All applicants must submit the following documents directly to the Department no later than 15 March for the fall semester or 15 October for the spring semester to receive consideration for admission:

1. Departmental Application Form, available from the Department's Graduate Office;
2. Official transcripts of all college level academic work including that done at CSULB; these are in addition to those transcripts required for general graduate admission to CSULB;
3. Three letters of recommendation from persons familiar with the applicant's academic performance and research potential (if applying for a teaching associate position, the letters must refer to the applicant's potential to teach laboratory sections in the biological sciences); and
4. Official report of scores on the Graduate Record Examination Subject Test in Biology or the Subject Test in Biochemistry, Cell, and Molecular Biology. The applicant should have taken this examination well prior to applying to the Department, because the official score must reach the Department by the deadlines above.

These materials must be submitted to the Department's Graduate Office.

Review by the Graduate Studies Committee

The Graduate Studies Committee will review all folders completed by the deadlines and either accept the applicant as a Classified or Conditionally Classified graduate student or deny admission. Acceptance is competitive and the GPA, the GRE Subject Test score, and the letters of recommendation will be weighed in the decision to accept or reject an applicant. All accepted students must contact the Graduate Advisor prior to their initial semester for counsel and orientation.

Admission to the Department of Biological Sciences as a Classified Graduate Student

The Department of Biological Sciences will admit as a Classified graduate student any applicant who:

1. has met all prerequisites;
2. has a complete folder of all required documents; and
3. has obtained acceptance by a faculty member as the Chair of the student's Thesis Committee. The student should then set up a program (see "The Program of Study," below).

Admission to the Department of Biological Sciences as a Conditionally Classified Graduate Student

An applicant who fails to meet the criteria above for Classified admission to the Department and who falls into one of the following three categories may be considered by the Graduate Studies Committee for admission as Conditionally Classified graduate student:

1. An applicant with course and/or unit deficiencies. The Graduate Studies Committee will determine what deficiencies each applicant has and indicate on the back of the Department Application Form which course(s) the applicant must take to make up those deficiencies. These courses are in addition to the minimum 30 units on the student's Program of Study (see below). The applicant must make up all such deficiencies before attaining Classified status;
2. An applicant with GPA deficiencies. An applicant with an undergraduate GPA in science and mathematics courses between 2.50 and 2.75 and a GPA in the last 40 semester

(60 quarter) units of science and mathematics courses between 2.75 and 3.00 may secure admission as a Conditionally Classified graduate student. The applicant must first obtain sponsorship from a Department of Biological Sciences faculty member; this faculty member must indicate in writing to the Graduate Studies Committee willingness to serve as the Chair of the applicant's thesis committee and the reasons why the Graduate Studies Committee should admit the applicant. Thus, applicants with a low GPA must contact potential thesis advisors before the Graduate Studies Committee can consider the application. In addition, an applicant receiving the Conditionally Classified status must complete, with a grade of "A" or "B," three approved courses totaling at least nine units acceptable to the Graduate Studies Committee and the Department Chair before attaining Classified status. These approved courses may appear on the student's Graduate Program of Study. If the applicant receives less than a "B" in any of the three courses, the applicant will be dropped from the M.S. in Microbiology program. An applicant who fails to meet the GPA criteria for normal, Classified admission and has either an undergraduate GPA in science and mathematics courses of less than 2.50 or a GPA in the last 40 semester (60 quarter) units of science and mathematics courses of less than 2.75 is not eligible for admission to the M.S. in Microbiology degree program.

3. An applicant who has scored below the 50th percentile on the GRE Subject Test; and
4. An applicant who meets all prerequisites but who does not yet have a Chair for the Thesis Committee. It is the responsibility of the student to obtain a Chair and set up a graduate program by the end of the second semester in residence following admission to the Master of Science program or they will be dropped from the program.

The Program of Study

After admission to the Department as a Classified or Conditionally Classified graduate student, the student, in consultation with the Thesis Chair, must establish a Program of Study that includes the program of classes and a thesis proposal. The student and Thesis Committee Chair will select at least two additional members to serve on the student's Thesis Committee. The Departmental Graduate Advisor serves as an ex-officio member of all thesis committees. Each student must prepare a written thesis proposal for approval by the student's Thesis Committee. The Thesis Committee will meet with the student to determine what courses the student must take and indicate them on the M.S. in Microbiology Graduate Program Form.

The Program of Study will include the completion of a minimum of 30 semester units. At least 20 of these units must be in the 500-600 level courses of which a minimum of 16 units must be in the Microbiology 500-600 series. Required courses, if not taken previously, include: MICR 450 or an upper division/graduate course in genetics; MICR 471 or an upper division/graduate course in cell physiology; MICR 661 (two enrollments with different topics for a total of 4 units is required); BIOL 696, MICR 697 (maximum of 3 units); and MICR 698 (6 units). Other elective units included in the graduate program must be 400-600 level courses acceptable to the University and microbiology degree program. No 300-level courses may be included.

The Program of Study must be established before the end of the second semester after admission to the Department; in addition, the University Writing Proficiency Examination must be passed and a score at, or above, the 50th percentile on the Graduate Record Examination Subject Test in Biology or in Biochemistry, Cell, and Molecular Biology must be achieved by this time. Failure to meet these requirements will result in dismissal from the Department's M.S. in Microbiology program.

Advancement to Candidacy

In addition to the general University requirements stated previously under Post-Baccalaureate and Graduate Degrees in this Catalog, the student must complete the following steps before receiving Candidate status in the Department of Biological Sciences:

1. Admission to the Department of Biological Sciences Master's Degree program as a Classified graduate student (see above);
2. Achievement of a score at, or above, the 50th percentile on the Graduate Record Examination Subject Test in Biology or the Subject Test in Biochemistry, Cell, and Molecular Biology. This requirement must be met by the end of the second semester in residence. Normally, students not meeting this requirement will be dropped from the program. Only in cases where English is not the student's native language or if a disability impedes the student's performance may an alternative be petitioned. In these cases, the Chair of her/his Thesis Committee must petition, in writing, the Graduate Studies Committee to provide an alternate method for meeting this requirement. This petition must provide full documentation of the student's progress to date, professional promise, and a schedule for meeting all degree requirements. If granted, the alternate method will consist of an exam, oral and/or written, in which the student must demonstrate extensive knowledge of the subject areas covered in the appropriate GRE Subject Test. The exam committee will consist of the Department Graduate Advisor and three faculty members selected by the Graduate Studies Committee. No member of the student's Thesis Committee may serve on this committee; and
3. Establishment of a Thesis Committee and Program of Study (see above). Upon evidence of satisfactory progress and passing of the University Writing Proficiency Examination, the Thesis Committee may recommend the student for advancement to candidacy by forwarding its recommendation to the Department Graduate Advisor, Department Chair, and Associate Dean for Graduate Accountability in the College of Natural Sciences and Mathematics. This should occur at least one year before graduation. Upon approval by the Associate Dean, the student will attain the status of Classified graduate standing.

Requirements for the Master of Science in Microbiology

In addition to the general University requirements stated previously in this catalog, the student must meet the following requirements before receiving the degree of Master of Science in Microbiology.

1. Advancement to candidacy (see above);

2. Maintenance of a 3.00 ("B" average), or better, overall graduate grade point average (includes all upper-division and graduate level courses taken since admission to this University and after completion of the baccalaureate degree) and graduate program GPA. If either GPA falls below 3.00, it must be elevated to a 3.00 at the end of the following semester or the student will be dropped from the M.S. in Microbiology program;
3. Completion of a written thesis and an oral defense of this thesis, followed by a public presentation of the thesis research. The members of the candidate's Thesis Committee must have approved the thesis and the defense before a student may schedule the public presentation. The student may not defend the thesis or give a public presentation during the summer session; and
4. Serve as a teaching associate or graduate assistant. Under some circumstances, this requirement may be waived.

Requests to graduate must be received by Enrollment Services approximately 6 months in advance of the expected graduation date (Check the Schedule of Classes for the date).

These requirements must be completed within 6 years from when the first course on the Program of Study was completed, including academic leaves, or the student's degree program will be terminated.

Microbiology Courses (MICR)

Students pursuing a major and/or a minor in this Department may receive unit credit for courses marked with the symbol '##' as a general elective but may not apply the units toward the specific or elective requirements for any degree or option in this Department. Majors in this Department may, however, take, for general education purposes, interdisciplinary courses offered by this department. All other courses in this Department are open to majors and minors but by Letter grade only. Courses with an asterisk may be used in graduate programs.

Lower Division

101. ## Introduction to Human Disease (3) F,S

Prerequisites: Completion of or concurrent enrollment in a course that fulfills the A.1 GE requirement. Introduction to the study of human disease including moral/ethical and economic issues. (Lecture 3 hrs.)

200. General Microbiology for Health Professionals (4) F,S

Prerequisites: CHEM 100 or 111A or 202 and completion of GE Foundation requirements. General microbiology for those planning careers in nursing, health care and education, and foods and nutrition. Introduction to the microorganisms, including structure, function, metabolism, growth, genetics, diversity and applied aspects, with special emphasis on their roles in human health. Not open for majors in the biological sciences. (Lecture 2 hrs., laboratory 6 hrs.) Course fee may be required. (CAN BIOL 14)

211. General Microbiology (5) F,S

Prerequisites: BIOL 211A with a grade of "C" or better, CHEM 111B. Introduction to the biology of the microorganisms, including structure, function, metabolism, growth, genetics, diversity, host-parasite relationships and applied aspects. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required. (CAN BIOL 14)

Upper Division

300I. ## Human Immunology: In Self-Defense (3) F

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; one laboratory course in a life science. Introductory psychology and a laboratory course in a physical science recommended. Introduction to the mechanisms and cells responsible for protecting the human body from disease. Normal functions of the immune system, diseases involving the immune system, and psychological, endocrine and age factors affecting the immune system will be included. Impact of immunology on organ transplantation, immunotherapy and biotechnology will be discussed. Not applicable for credit towards the major in Microbiology. (Lecture 3 hrs.)

303.## Public Health and Pollution (3)

Survey of public health and ecological problems in the community, control of communicable diseases; air, water and soil contamination. Recommended for non-majors interested in ecology and pollution control. Letter grade only (A-F). (Lecture 3 hrs.)

320. Bacterial Pathogenesis (5) F,S

Prerequisites: MICR 211; CHEM 327 or 320A (may be taken concurrently). The first of a two-semester sequence (MICR 320/322) in medical microbiology designed for microbiology majors. Pathogenic bacteria of humans and animals; emphasis on bacterial ultrastructure, epidemiology, mechanisms of pathogenesis, host defense mechanisms, and antibiotic therapy; isolation and identification of microorganisms by morphological and cultural characteristics. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

322. Mycology/Parasitology (5) F,S

Prerequisites: BIOL 211B; MICR 320. The second of a two-semester sequence (MICR 320/322) in medical microbiology designed for microbiology majors. Survey of parasitic protozoa, helminths, and fungi of humans; emphasis on identification of fresh and preserved specimens, pathogenesis, host-parasite interactions, epidemiology, prevention, and control. Letter grade only (A-F). (Lecture 3 hrs., laboratory 6 hrs.) Course fee may be required.

423./523. Hematology (4) F

Prerequisites: BIOL 340. (Undergraduates register in 423; graduates register in 523.) Study of blood and the coagulation system. Normal cell structure and function and the physiological and morphological changes associated with inflammation, leukemias, and anemias are discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case-studies will be included. Useful for students interested in medical professions. Required for internship in clinical laboratory science (medical technology). Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

*429 Epidemiology of Infectious Diseases (3)

Prerequisites: BIOL 260; MICR 320, 322. Principles of epidemiology and their application to health; fundamentals of biomedical statistics; basic factors in classic epidemiological studies and the prevention and control of infectious diseases. Letter grade only (A-F). (Lecture 3 hrs.)

*430. Immunology (3)

Prerequisites: BIOL 340. Study of the cellular and molecular components of the immune system, including how the immune system recognizes a vast number of pathogens and how it functions in various types of immune responses. Topics also include the mechanisms of vaccines, immunodeficiencies, transplantation, tolerance, allergy, and autoimmunity. Letter grade only (A-F). (Lecture 3 hrs.)

*430L. Immunology Laboratory (2)

Prerequisites: BIOL 340. Pre- or co-requisite: MICR 430. Experiments using modern and classical techniques in cellular and molecular immunology. Experimental techniques covered in this course have broader application to other fields in cell and molecular biology. Laboratory techniques include mammalian cell culture, antibody purification, SDS-PAGE, western blots, apoptosis assay, cell proliferation assays, cellular activation assay, and various antibody-antigen interaction assays. Letter grade only (A-F). (Laboratory 6 hrs.) Course fee may be required.

432./532. Immunohematology (2)

Prerequisites: A final grade of "B" or better in MICR 423 and 430 or consent of instructor required. (Undergraduates register in MICR 432; graduate students register in MICR 532.) Physical and biochemical characteristics of human erythrocytes. Detailed study of isoantigens and isoantibodies associated with human red blood cells; their detection, mechanisms of cellular destruction and relationship to hematopoietic disease. (Lecture 2 hrs.) MICR 432 will be accepted toward fulfillment of the 6 units of upper division microbiology electives. Letter grade only (A-F).

*450. Microbial Genetics (2) F

Prerequisites: MICR 211; CHEM 441B. Biochemical and cytological bases of microbial genetics; nature, replication, modification and transfer of genetic material. Letter grade only (A-F). (Lecture 2 hrs.)

*451. Microbial Genetics Laboratory (2) F

Prerequisites: MICR 450 (may be taken concurrently), consent of instructor. Laboratory study of microbial genetics. Genetic engineering techniques. Letter grade only (A-F). (Laboratory 6 hrs.) Course fee may be required.

*452. Virology (3) S

Prerequisites: CHEM 441A, B and either MICR 320 or BIOL 340. Virology at a molecular level including virus replication and the molecular basis for viral pathogenesis; a survey of human and animal viral diseases. Current trends for prevention and treatment of viral diseases. Letter grade only (A-F). (Lecture 3 hrs.)

*471. Bacterial Physiology (3) S

Prerequisites: MICR 320, CHEM 441A. Cellular physiology at the molecular level as related to bacterial growth, reproduction, nutrition, metabolism and ecology. Letter grade only (A-F). (Lecture 3 hrs.)

*473. Food and Industrial Microbiology (3) F

Prerequisites: MICR 200 OR 211; CHEM 441A OR 448. Role of microorganisms in food and other industrial processes; emphasis on bacteria, yeasts and molds. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

480./580. Seminars in Molecular and Cellular Biology and Microbiology (1)

Prerequisites: BIOL 211A, B, with a grade of "C" or better. (Undergraduates register in MICR 480; graduates register in MICR 580.) Weekly meetings at which professional biologists present the results of their research. Requires participation in the organization and critical evaluation of these presentations. May not be repeated for credit towards any single degree. Letter grade only (A-F). (Seminar 1 hr.)

490./590. Special Topics in Microbiology (1-3)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates register in MICR 490; graduates register in MICR 590.) Topics from selected areas of microbiology. Course content will vary from section to section. May be repeated to a maximum of 6 units with different topics. Topics may be announced in the *Schedule of Classes*. Letter grade only (A-F). (Lecture 1-3 hrs.)

490L./590L. Special Topics Laboratory in Microbiology (1-2)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates register in MICR 490L; graduates register in MICR 590L.) Topics from selected areas of microbiology. Course content will vary from section to section. May be repeated to a maximum of 4 units with different topics. Topics may be announced in the *Schedule of Classes*. Letter grade only (A-F). (Laboratory 3 or 6 hrs.) Course fee may be required.

495. Instruction in Laboratory Teaching (1-2) F,S

Prerequisites: Consent of lecture instructor, a "B" or better in the course in which the student elects to do MICR 495 (another course with laboratory may be substituted with consent of instructor), and an overall GPA of at least 2.75. Individual instruction in the organization and techniques of teaching a microbiology laboratory. May be repeated for a letter grade and degree credit to a maximum of two units for any single degree or option. Any units beyond the two taken for a letter grade in BIOL 495 or MICR 495 or any combination of the two will be taken credit/no credit. (Conference 1 hr., laboratory 3 hrs. per unit.) Same course as BIOL 495. May be repeated to a maximum of 2 units.

496. Undergraduate Directed Research (1-3) F,S

Prerequisites: BIOL 211A, B, MICR 211, all with grade of "C" or better, and consent of instructor. Research in a specific topic in the biological sciences to be approved and directed by a faculty member in the Department of Biological Sciences. May be repeated for a letter grade and degree credit to a maximum of three units for any single degree or option. Any units beyond the three taken for a letter grade in BIOL 496 or MICR 496, or any combination of the two, will be taken credit/no credit. Not available to graduate students. (Conference 1 hr., laboratory 3 hrs. per unit.) Same course as BIOL 496.

698. Thesis (1-6) F,S

Prerequisites: Advancement to Candidacy for the Master of Science in Microbiology, consent of the chair of the thesis committee and the departmental graduate advisor. Planning, preparation, writing, defense, oral presentation, and completion of a research thesis in the biological sciences. Letter grade only (A-F).

Graduate Level**523./423. Hematology (4) F**

Prerequisites: BIOL 340. (Undergraduates register in 423; graduates register in 523.) Study of blood and the coagulation system. Normal cell structure and function and the physiological and morphological changes associated with inflammation, leukemias, and anemias are discussed. Clinical, diagnostic, and research techniques for observing blood and pathologic case-studies will be included. Useful for students interested in medical professions. Required for internship in clinical laboratory science (medical technology). Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.) Course fee may be required.

532./432. Immunohematology (2)

Prerequisites: A final grade of "B" or better in MICR 423 and 430 or consent of instructor required. (Undergraduates register in MICR 432; graduate students register in MICR 532.) Physical and biochemical characteristics of human erythrocytes. Detailed study of isoantigens and isoantibodies associated with human red blood cells; their detection, mechanisms of cellular destruction and relationship to hematopoietic disease. Letter grade only (A-F). (Lecture 2 hrs.) MICR 432 will be accepted toward fulfillment of the 6 units of upper division microbiology electives.

580./480. Seminars in Molecular and Cellular Biology and Microbiology (1)

Prerequisites: BIOL 211A,B, with a grade of "C" or better. (Undergraduates register in MICR 480; graduates register in MICR 580.) Weekly meetings at which professional biologists present the results of their research. Requires participation in the organization and critical evaluation of these presentations. May not be repeated for credit towards any single degree. Letter grade only (A-F). (Seminar 1 hr.)

590./490. Special Topics in Microbiology (1-3)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates register in MICR 490; graduates register in MICR 590.) Topics from selected areas of microbiology. Course content will vary from section to section. May be repeated to a maximum of 6 units with different topics. Topics may be announced in the *Schedule of Classes*. Letter grade only (A-F). (Lecture 1-3 hrs.)

590L./490L. Special Topics Laboratory in Microbiology (1-2)

Prerequisites: MICR 211 with grade of "C" or better, and consent of instructor. (Undergraduates register in MICR 490L; graduates register in MICR 590L.) Topics from selected areas of microbiology. Course content will vary from section to section. May be repeated to a maximum of 4 units with different topics. Topics may be announced in the *Schedule of Classes*. Letter grade only (A-F). (Laboratory 3 or 6 hrs.) Course fee may be required.

661. Seminar in Microbiology (2)

Prerequisites: Consent of instructor. Critical evaluation of the literature of this field, including oral and/or written presentation of critiques. May be repeated to a maximum of 4 units with different topics. Letter grade only (A-F) (Seminar 2 hours)

697. Directed Research (1-3) F,S

Prerequisite: Consent of instructor. Research on a specific topic to be approved and directed by a faculty member in the biological sciences. A written report will be required. May be repeated for a letter grade and degree credit to a maximum of three units. Any units beyond the three taken for a letter grade in BIOL 697 or MICR 697 or any combination of the two must be taken credit/no credit.

Courses (MKTG)

Upper Division

300. Marketing (3)

Recommended preparation: ECON 200 or 201 or 300. Interdependence of elements in the firm's marketing system. Relation of marketing system to other activities in the firm. Firm's role in domestic and world marketing environments. Economic and social effects on marketing. Human behavior as it affects marketing, marketing communications, marketing information systems, marketing management problems and their solutions.

310. Retail Concepts and Policies (3)

An overview of the retail system. Retail decision making emphasized in relation to the following areas: store operation and management; merchandise assortment and pricing; store location and layout; advertising and sales communication; consumer analysis; retail information systems; retail accounting and control.

330. Mass Marketing Communications: Advertising (3)

Principles and practices of advertising. Social and economic importance of advertising and its relation to modern business organization; importance of an advertising plan; preparation of advertisements, copy and layout, media planning and application of information technology.

410. Services Marketing (3)

Prerequisite: MKTG 300. Applies marketing management techniques, marketing strategies, and processes for service evaluation and service quality improvement to the marketing of services in both profit and nonprofit organizations. Topics include the unique characteristics of services marketing, the management of services, the evaluation of service quality, techniques for service improvement, services marketing in global environments, and the use of marketing techniques to achieve service breakthroughs. Entrepreneurial and career opportunities in not-for-profit and profit oriented service organizations will also be explored. Letter grade only (A-F).

420. Sales Management (3)

Prerequisite: MKTG 300. Managing the sales force; sales analysis; forecasting techniques; account and territory management; negotiations; integrating the personal computer into the sales function; computer simulation of the decision process in sales management.

430. Promotion Strategies (3)

Prerequisite: MKTG 300. Management of the promotional mix. Behavioral and data-based foundations for promotional strategies; budgeting; allocation of promotional resources; media models; integration of promotional strategies into the marketing mix; applications of information-based technologies and tools for analysis.

437. Internet Marketing (3)

Prerequisites: MKTG 300 suggested. The course covers Internet history; Internet technology and appliances; consumer behavior (domestic and International) on the Internet; business models; advertising and promotions; website design; pricing; and marketing research using the Internet. Quality and service are emphasized. News and recent developments in e-commerce are a focus of the class. Letter grade only (A-F).

465. Business To Business Marketing (3)

Prerequisite: MKTG 300. Analysis of industrial products, markets, institutions, and strategy. Comparison with consumer marketing. Emphasis on business-to-business negotiations and promotions. Integration and application of information technologies.

470. Marketing Research (3)

Prerequisites: MKTG 300, IS 310. Fundamentals of marketing and industrial research as an aid to problem-solving in business. Familiarization with current industry research efforts. Data collection, interviewing, and report-generation software. Analysis of data. Project, instrument and sampling designs.

480. International Marketing (3)

Prerequisite: MKTG 300. The study of marketing systems and marketing operations in various countries and multinational market groups. Impact of foreign environments and information technologies. In-depth international marketing studies and formulation of appropriate strategies.

481. International Marketing Management (3)

Prerequisites: MKTG 300 and MKTG 480. MKTG 481 provides students with a problem solving approach to assessing and exploiting global marketing opportunities. The course focuses on developing a strategic marketing plan for entering/maintaining foreign markets. The course will be taught as a special topics seminar. Letter grade only (A-F).

490. Consumer Behavior (3)

Prerequisite: MKTG 300. Application of psychological, sociological, anthropological, and economic theories to the understanding of consumer behavior. Consideration of personality, attitudinal, group, social class, subcultural, and demographic factors. Review of comprehensive models.

492. New Products/New Services (3)

Prerequisite: MKTG 300 or consent of instructor. Entrepreneurship; innovation management; the process and strategy of new product or services marketing; developing a business plan for a product or service introduction.

494. Marketing Management (3)

Prerequisites: MKTG 300; senior marketing majors or consent of instructor. Strategies and techniques in marketing management. Application of prior material from marketing curriculum to problems and cases. Emphasis on problem identification and solution. Letter grade only (A-F).

495. Selected Topics (1-3)

Prerequisites: Consent of instructor and a GPA of 3.0 in marketing. Topics of current interest in marketing selected for intensive study. May be repeated to a maximum of 6 units. Topics will be announced in the *Schedule of Classes*.

497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, on Dean's List and a 3.0 GPA or higher in marketing. Individual projects, study and research of advanced nature in marketing.

663. Seminar in Advertising Policies (3)

Prerequisite: MKTG 500. Discussion and analysis of advertising situations, objective setting, creative strategies, media strategies and models, and evaluation. Applications of mass communication theories and marketing databases. Letter grade only (A-F).

665. Seminar in Marketing Research (3)

Prerequisites: MKTG 500 and IS 601. The role of research in the solution of marketing problems. Research methods in collecting, analyzing, and interpreting information for business use. Survey and experimental approaches included. Case studies and/or class projects required. Letter grade only (A-F).

666. Seminar in International Marketing (3)

Prerequisite: MKTG 500. Analysis of problems and opportunities in international marketing operations. Consideration of entry strategies, competitive strategies, domestication, and nationalization problems. Use of marketing information systems to evaluate opportunities and threats in foreign markets. Letter grade only (A-F).

668. Seminar in Consumer Behavior (3)

Prerequisite: MKTG 500. Topics in the behavioral sciences as they apply to marketing. Application of psychological, sociological, anthropological, and economic theories and models to the understanding of buyer behavior and the development of marketing strategy. Letter grade only (A-F).

669. Seminar In Strategic Planning (3)

Prerequisite: MKTG 661. The role and use of marketing research and information systems as the basis for development and implementation of marketing strategy. Case studies and/or class projects required. Letter grade only (A-F).

695. Selected Topics (3)

Prerequisites: MBA standing, consent of instructor. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisites: MBA standing, consent of instructor and Department Chair. Individual study under the direction of the faculty. Letter grade only (A-F).

Graduate Prerequisite Course**500. Marketing Concepts (3)**

Prerequisite: MBA standing required. Overview of the decision process in marketing. Consideration of functional areas and their interaction with the total operations of the firm. Application of information technology to the development of marketing strategy and planning. Letter grade only (A-F).

Graduate Level**610. Seminar in Services Marketing (3)**

Prerequisite: MKTG 500. Supplements Marketing 500 by focusing on problems and strategies specific to service businesses. Problems commonly encountered in service businesses (such as inability to inventory, difficulty in synchronizing demand and supply, difficulty in controlling quality) are addressed. Strategies used by successful services marketers to overcome these difficulties will be discussed. The emphasis is on services in general rather than on any particular industry. However, concepts are illustrated using cases, examples, and exercises in diverse service industries such as banking, health care, retailing, financial planning, consulting, professional services, and communication. Letter grade only (A-F).

661. Seminar in Marketing Policies (3)

Prerequisite: MKTG 500. The solving of practical, profit-oriented problems in marketing. Sophisticated case analysis and discussion. Application of marketing principles and technologies, including information systems, databases, behavioral theories, and management techniques. Letter grade only (A-F).

Management Courses (MGMT)

300. Principles of Management (3)

Prerequisite: Recommended: IS 310. Analysis of principles and theories of management, organization theory, planning and control techniques. Consideration will be given to management of the overall organization and the production/operations systems of organizations. Letter grade only (A-F).

326. Management and Society (3)

Issues of concern to business managers in dealing with the social environment. Analysis of business responsibility to stockholders, employees, customers, the government, and society. Issues include: profits, consumerism, product safety, pollution, government regulation, and social accountability. Letter grade only (A-F).

*405. International and Comparative Management (3)

Prerequisites: MGMT 300. Analysis of the functions of management in international business; comparative management studies, and the impact of the environment on management performance. Letter grade only (A-F).

406. International Business Policy (3)

Prerequisite: MGMT 300. An integrative course designed to provide insight into the scope, complexity, and problems of formulating and implementing multinational strategies and policies. Will

integrate such areas of study as international economics, economic development, international marketing, international finance, and multinational planning, organization, and control. Will also cover such topics as framework of international transactions, economic and political integration, the competitiveness of countries, relations with host societies, and country studies. Cases and research projects will be used extensively. Letter grade only (A-F).

*410. Materials Management (3)

Prerequisites: MGMT 300. Analysis of basic frameworks for managing material flows into, within, and out of organizations. Study of inventory models for independent demand items, material requirement planning, and distribution systems. Heavy emphasis on learning supported by MRP II tools and other computer resources. Letter grade only (A-F).

411. Production Planning (3)

Prerequisites: MGMT 300. Analysis of demand management and production planning problems. Study of forecasting tools and techniques using available computer resources. Concepts of aggregate planning, master scheduling, and capacity planning will be examined using the framework of an MRP II system. Letter grade only (A-F).

412. Production Control (3)

Prerequisites: MGMT 300. Analysis of tools and techniques for scheduling, controlling, and evaluating manufacturing activities at the shop-floor level. Shop order release, dispatching, priority control, queue management, and input/output monitoring will be simulated using MRP II software. Job sequencing and scheduling techniques will be examined and available software and simulations employed. Just-in-time production, Kanban control, and optimized-production-technology (OPT) will be presented. Letter grade only (A-F).

413. Managing Quality for Productivity (3)

Prerequisites: MGMT 300 and recommended IS 310. Analysis of the relationship between productivity and quality. Examination of the quality-assurance function, statistical quality control, and lot inspection. Study of the relationship between productivity improvement, product quality, and manufacturing strategy. Letter grade only (A-F).

414. Purchasing Management (3)

Prerequisites: MGMT 300. Analysis of functions, principles, and tools of purchasing management. Study of the relationships of purchasing to other management functions. Use of MRP II systems to simulate purchasing decisions, monitor performance, and track costs. Letter grade only (A-F).

421. Entrepreneurship and New Venture Creation (3)

Prerequisites: MGMT 300. Learn how to start a new business. Be an entrepreneur in a free enterprise environment, or an entrepreneur in an existing organization. You will use state-of-the-art theory to plan and evaluate business startups. You will test your ideas with successful entrepreneurs and will learn how to do your own business plan. Letter grade only (A-F).

425. Business Strategy and Policy (3)

Prerequisites: ACCT 310 or 320, MGMT 300, MKTG 300, FIN 300. This course is designed to integrate and apply knowledge, theories and techniques derived from the study of business disciplines. The case method and business simulations are used to formulate business strategies and plans. Written reports are required. Letter grade only (A-F).

426. Management and Information Systems (3)

Prerequisites: IS 300. Evaluations of concepts for evaluation and design of decision support systems, management decision models, socio-technical strategies for implementing information system changes. Letter grade only (A-F).

***430. Project Management (3)**

Prerequisite: MGMT 300. This course describes how ideas are selected for projects and how the projects are implemented. It explores the role of the project team member, the project manager, and the various ways projects can be organized and planned. The project implementation tasks of budgeting, scheduling, monitoring and controlling are explored including computerized network models and project management software packages. Final project analysis and termination are addressed. Letter grade only (A-F).

***454. Organization Theory (3)**

Prerequisite: MGMT 300. Examination of the design and adaptation of organizations. Tools for analysis and design are developed from the general principles and theory of organization and the forces from inside and outside the organizations that help to shape it. The structure of organization is explored from many perspectives and functions. The organization is viewed as a goal implementation device, a system of authority, a political system, and an information and coordination device. Cases and computer simulations of real business and non-profit organizations may be used as appropriate. Letter grade only (A-F).

455. Managerial Decision Making Processes (3)

Prerequisites: MGMT 300 and either HRM 360 or 361. Managerial decision making is presented as a complex process that involves setting objectives, identifying and evaluating alternative courses of action, choosing and implementing the decision, and controlling results. Recent research is used to explain the influence of task, people, organization, and environment on the decision process. This course will help students become better decision makers by improving their understanding of decision making processes. Letter grade only (A-F).

495. Selected Topics (1-3)

Prerequisites: GPA of 3.0 in HRM courses, consent of instructor. Topics and issues of critical importance to human resource management. Topics for each semester are announced in *Schedule of Classes*. Focus on the development of critical thinking, writing, and speaking skills. May be repeated to a maximum of 6 units. Letter grade only (A-F).

497. Directed Studies (1-3)

Prerequisites: Consent of Instructor, Department Chair, and 3.0 GPA or higher. Individual projects, research, and study of advanced nature in management. Letter grade only (A-F).

Graduate Prerequisite Course**500. Business Policies, Operations and Organizations (3)**

Prerequisite: MBA standing. Recommended preparation: IS 310 or 410. Theory and philosophies of administrative organizations systems, information systems, management functions, decision making, strategy and policy formulation, operations planning, and control systems. Letter grade only (A-F).

Graduate Division**510. Management for Engineers (3)**

The transition of the engineer to manager; planning and organizing technical activities; selecting and managing projects, selecting and managing teams, techniques of control and communication. Not open to MBA students. Letter grade only (A-F).

511. Project Management (3)

Theory and philosophies of project management. The problems of assembling an effective team and the control issues, techniques, and tools appropriate for the preproject proposal stage to program conclusion are examined. Not open to MBA students. Letter grade only (A-F).

512. Engineering Management Information Systems (3)

Study of the development and management information systems used by middle and higher management of technological and scientific organizations in the control of many facets of their function. Not open to MBA students. Letter grade only (A-F).

513. Cases in Engineering Management (3)

A course that permits application of newly acquired technical skills. It involves cases from engineering, technical or scientific programs of industrial firms or government agencies. The cases may be from new ventures as well as mature firms in both product and process development. Not open to MBA students. Letter grade only (A-F).

541. Industrial Logistics (3)

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Systems analysis and synthesis of the general logistics system containing the marketing, production, and transportation activities. Emphasis placed on definition of system components of outputs, activities and inputs and the specification and quantification of the major functional relationships interrelating these components. Letter grade only (A-F).

542. Enterprise Structure and Operation (3)

Prerequisites: MBA standing and MGMT 500 or equivalent. Systems analysis and synthesis of the general enterprise system composed of the logistics, money, information, talent and decision sub-systems. Emphasis on the examination of the components of each of the sub-systems and how they interrelate in the operation of the total enterprise. Systems approach of defining outputs, activities and inputs is used as the vehicle for analysis. Letter grade only (A-F).

543. International Business Policy (3)

Prerequisites: MBA standing, plus MGMT 500 or equivalent, 9 hours recommended of 500/600 level courses in the area of international business. Analysis of current theory and principles of international business management pertaining to problems of formulating policy and developing strategies and tactics in the multinational corporation; case studies, readings, logistic analysis and research report. Letter grade only (A-F).

645. Seminar in Management Policy and Problems (3)

Prerequisites: MBA standing plus MGMT 500 or equivalent. History of management thought, business organizations, strategies and policies, executive control; managerial problems. Letter grade only (A-F).

646. Seminar in Managing Mergers and Acquisitions (3)

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Examination of the reasons for continuing trend of mergers and acquisitions, examination of the m and a process (formulate, locate, investigate, negotiate, and integrate). Other topics include coordination and integrations across business boundaries, exploiting synergies, strategic vs. operating focus, hierarchical structure of combined companies, learning transfer, and the rationalization of shared activities. Letter grade only (A-F).

647. Seminar in Management Planning and Control Systems (3)

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Analysis of planning and control systems in management. Cases and problems will be examined. Letter grade only (A-F).

695. Selected Topics (3)

Prerequisites: MBA standing. Topics to be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisites: MBA standing, consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

Human Resources Management Courses (HRM)

360. Organizational Behavior (3)

An overview of the dynamics of human behavior in organizations and implications for managing people at work. Topics include motivation, personality and attitudes, human perception, groups and teams, norms, power and politics, conflict, learning, communication, job design, organizational culture, organizational change, leadership and cross-cultural issues. Letter grade only (A-F).

361. The Human Resource Function (3)

An overview of human resource functions that are designed to attract, motivate, develop and retain employees. Topics include human resource planning, job analysis, recruitment, selection, placement, appraisal, compensation and benefit administration, training and development, communications, labor management relations and the international environment. Discussion, case studies and student presentations are used to develop critical thinking and problem-solving skills. Letter grade only (A-F).

*440. Collective Bargaining (3)

Prerequisite: HRM 361. Examination of the roles of management, labor and government in structuring work environments. Nature of the process of negotiation and conflict resolution in organizations. Letter grade only (A-F).

*445. Compensation Administration (3)

Prerequisite: HRM 361. Compensation and benefits management is viewed as an integrating human resource management process. Emphasis is on the development and administration of equitable compensation and benefit programs which will retain a productive workforce. Examined are job analysis and evaluation, pay structures, salary surveys, individual compensation, incentive, systems and benefits administration. Discussion, case studies, simulations. Letter grade only (A-F).

446. Leadership and Motivation in Organizations (3)

Prerequisite: HRM 360. Critical examination of the determinants of effective leadership and successful methods of motivating employees to achieve organizational goals. Special attention given to identifying appropriate styles of leadership and methods for developing and applying leadership skills. An interactive class using case studies, research, and simulation exercises. Letter grade only (A-F).

*458. Managing Organizational Culture and Cultural Diversity (3)

Prerequisites: HRM 360 or HRM 361. This course examines the impact of diversity, culture, and ethnic origin on the work experience, and is designed to better prepare individuals to meet the challenge of cultural diversity in organizations. Attention is given to how language, gender, race, tradition, education, economic structure, and organizational philosophy interact to create a set of rules for acceptable behaviors in complex organizations. Open dialogue, debate, outside research, and group presentations. Letter grade only (A-F).

460. Current Issues in Human Resource Management (3)

Prerequisite: Either HRM 360 or HRM 361. Critical examination of current and emerging issues concerning the management and development of people and organizations. Interactive course involving discussion, projects, and outside research. Topics include motivation, leadership, job performance, hiring, compensation, planning, selection, staffing, training, performance appraisal, careers, and quality of work life. Letter grade only (A-F).

*462. Labor-Management Relations (3)

Overview of the principles and practices influencing labor-management relationships. Development, aims, structure, and functions of labor and employer organizations; the collective bargaining process; labor law and governmental intervention; impasse resolution; unions and minorities; employee organizations in government and professional sectors; comparative international systems. Letter grade only (A-F).

*463. Organizational Training and Development (3)

Prerequisite: HRM 360 or HRM 361. Review of the field of training and development including learning theory, training needs assessment, design and delivery of training and development programs, evaluation, and program management. Includes career development and organizational development. Case studies, research, simulation exercises, and student presentations. Letter grade only (A-F).

*465. Personnel Selection and Appraisal (3)

Prerequisite: HRM 361. Critical examination of theories and techniques guiding personnel selection and appraisal processes. Students develop expertise in determining staffing needs, conducting job analyses, writing job descriptions, developing recruitment strategies, affirmative action plans, and designing resumes. Attention is given to designing effective appraisal systems and conducting productive performance appraisals. Cases and simulations. Letter grade only (A-F).

497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, and 3.0 GPA or higher in human resources management courses. Individual projects, study and research of advanced nature in human resources management. Letter grade only (A-F).

Graduate Level

510. Behavioral Science for Engineers (3)

Prerequisites: MBA standing. Examination of the individual, groups and organizational structure designs, and interpersonal relationships that are peculiar to managing and directing professionals. Emphasis on managerial applications of Behavior Science concepts and research findings. Not open to MBA students.

652. Seminar in Human Resources Management (3)

From a general manager's perspective, an examination of those decisions and actions that impact upon managing people. Problems of productivity, employee commitment, employee development, employment law, and compensation are considered. Processes emphasized include staffing, training, and development, performance appraisal, counseling, leadership and motivation, reward systems, participation and delegation, and discipline. Discussion, cases, simulations, and presentations. Letter grade only (A-F).

654. Seminar in Negotiation and Conflict Management (3)

An examination of various forms of opposition interactions within organizations. Focuses upon interpersonal, intragroup, and intergroup conflict by distinguishing between functional and dysfunctional conflict, identifying sources and causes of conflict, and examining alternative styles and methods of conflict management. Discussion, cases, simulations, and presentations. Letter grade only (A-F).

655. Seminar in Motivation and Organization Change (3)

This course develops students' understanding and skills in two central parts of organizational life: human motivation and organizational change. Both traditional and modern theories of work motivation and change are reviewed, analyzed, and applied. Primary issues include: 1) the psychology and management of motivation, 2) the psychology and management of organizational change and development, and 3) management skills, policies, and organizational characteristics that facilitate the creation of genuinely motivating and flexible organizations. Letter grade only (A-F).

657. Seminar in Leadership Skills (3)

This course is intended to: 1) develop the student's leadership abilities and 2) examine the effectiveness of numerous approaches to leadership, including both traditional and modern approaches, from both managerial and psychological viewpoints. Leadership assessment and self assessment are included to aid diagnosis and understanding of one's own and others' leadership styles and abilities. Personality, situational factors, group processes, followership, and implications for leadership training are discussed. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisites: MBA standing, consent of instructor. Individual study under the direction of the faculty. Letter grade only (A-F).

View the CSU Army ROTC on-line at www.csulb.edu/org/armyrotc.

The Army Reserve Officers Training Corps (Army ROTC) program offers leadership and management training to CSULB students which consists of courses taught by Army personnel. This dynamic four-year program of instruction develops the mental and physical abilities of students in preparation for positions of leadership with the military and civilian communities. Students may enroll for academic elective credit without incurring any military service obligation. The curriculum includes military leadership and management courses; courses which provide an awareness of the heritage of the U.S. Military; the Armed Forces' role in national defense strategy; professional military subjects; and military ethics. The program is oriented towards preparing the student for a military career. Students desiring to attain a highly sought-after commission as a Second Lieutenant in the U.S. Army must meet eligibility requirements and complete the Military Science/Army ROTC (Reserve Officer Training Corps) Advanced Course. To be eligible for the Commissioning Program, a student must be enrolled full time (12 units) at CSULB, have at least two years remaining as a university student, be physically qualified, complete the advanced course and graduate prior to reaching their 30th birthday.

Financial Assistance

Many opportunities for financial assistance are available to students. Three areas of opportunities are: ROTC cadets who sign a contract for Advanced Phase, students who earn an ROTC scholarship, and cadets who train with Reserve or National Guard units. ROTC cadets who sign a contract to participate in the Advanced Course of ROTC receive a \$350 - \$400 a month allowance. Highly competitive two-, three-, and four-year ROTC scholarships are available. The scholarship provides payment of full tuition, books, supplies, and the \$250 - \$400 a month allowance for the duration of the scholarship. Students interested in scholarship competition should contact

the Military Science Program at the time of application to the university. Reserve or National Guard training provides two additional sources of financial assistance: approximately \$150 a month for one weekend drill and approximately \$145 a month tuition assistance from the Army Reserve or National Guard "New GI Bill" benefits.

Equipment and Uniforms

All necessary equipment, uniforms and textbooks for participation in the Military Science/ROTC program are furnished to the student by the United States Government free of charge. Title to this property, other than expendable items, remains with the government. Students entering into active commissioned service after graduation are granted a special \$200 uniform allowance.

Four-Year Program

The four-year program curriculum is divided into two parts. The Basic Course is primarily for freshmen and sophomores, and the Advanced Course is for junior and senior level students. In special cases, the Advanced Course is available to students working towards graduate degrees.

Basic Course

The Basic Course is a one to two-year period where students may, without obligation, investigate the ROTC Program and the military as a full- or part-time career. Students may enter and leave during any semester. The curriculum for the Basic Course consists of the lower division courses listed below. To become an ROTC cadet during the Basic Course requires the student be registered for a Military Science class, completion of an ROTC enrollment form (obtained at the Military Science Department, Technology Education, Room 108), and an interview with the ROTC Enrollment Officer. Because this course is for students to examine the ROTC Program without obligation, participation in ROTC activities is encouraged but not mandatory. Advancement into the Advanced Course is accomplished either by successfully completing the Basic Course classes, completing ROTC Summer Basic Camp or completing any military basic training program.

ROTC Summer Basic Camp

One method to qualify for the Advanced Course is to successfully complete the challenging six-week ROTC Summer Basic Camp. Students normally attend Basic Camp between their second and third academic years. It is important that potential transfer students who plan to participate in the two-year ROTC program make their intentions known directly to the Military Science Program no later than January of the year they plan to register at the university even though this date may precede the date of their final acceptance by the university.

The government will provide a transportation allowance to and from Basic Camp and will also receive approximately \$600 during the six weeks. All equipment, uniforms, room and medical care are furnished free while at camp. No military obligation is incurred as a result of attendance. It is recommended though that the student be committed to pursuing a career in the military either in an active or reserve capacity.

Basic Training

Outstanding students who have successfully served on active duty, regardless of the branch of service, are qualified to enter the Advanced Course. Also, students who have been, or are members of Reserve or National Guard units and have completed basic training are qualified for the Advanced Course. Students may be required to take certain lower division classes even after enrollment in the Advanced Course.

Advanced Course

The Advanced Course is a two-year period where ROTC cadets receive advanced leadership and management training. The cadets receive many hours of hands-on, practical leadership experiences to prepare them for a military career or a management position in the civilian sector. To become a cadet in the Advanced Course a student must complete the Basic Course or ROTC Summer Basic Camp or Basic Training. The cadet must also make a commitment to attend all required training activities and sign a contract to accept a commission in the United States Army. In return for the student's commitment, the Military Science Department will provide \$350 - \$400 a month, classroom instruction, real leadership opportunities, and continuous feedback on each cadet's leadership progress. A six-week summer training camp, between the two years of the Advanced Course, will be provided for testing and developing each cadet's leadership abilities. All equipment, uniforms, room, board, and medical care are furnished free while at this camp. The cadets will also receive pay at the rate of one-half of Second Lieutenant's basic pay. Upon successful completion of the Advanced Course and graduation from the university, the cadet will be eligible to be commissioned as a Second Lieutenant in the United States Army.

Required Related General Education Subjects

1. Written Communications
(Category A) ENGL 100
2. Human Behavior
(Category D) POSC 100
3. Computer Literacy
4. Mathematical Reasoning
(Category B) MATH 103 or 110

Courses (M S)

Lower Division

101. Foundations of Officership (1)

The purpose of this course is to introduce cadets to issues and competencies that are central to a commissioned officer's responsibilities. These initial lessons establish a framework for understanding values, leadership, and officership. Additionally, the semester addresses "life skills" including fitness and time management. The M S 101 course is designed to give students accurate insight into the Army Profession and the officer's role within the Army. Subject topics include: The Army Profession, Personal Development, Physical Well-being, Leadership, Values and Ethics; setting the stage for M S 102 – Basic Leadership. ROTC cadets who sign up for this course must also register for M S 101L. Letter grade only (A-F).

101L. Leadership Laboratory (1)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 101. This course is designed to assist students, with no prior military background, in their transition from a civilian

into a cadet. Provides the individual with the skills necessary for them to become an integral member of an Army team. The student will be a member of a squad and receive instruction on small unit tactics. The cadet will be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

102. Basic Leadership (1)

Prerequisite/Corequisite: M S 101 or consent of instructor. This course expands upon the fundamentals introduced in the previous course by focusing on communications, leadership and problem solving. "Life skills" lessons in this semester include: problems solving, goal setting, interpersonal communication skills, and assertiveness skills. Provides students with interesting lessons yielding immediately useful skills. The course also gives accurate information about life in the Army, including the organization of the Army, employment benefits, and work experiences of junior officers. Subject topics include: Communications, Reasoning, Personal Development, and The Army Profession. ROTC cadets who register for this course must also register for M S 102L. Letter grade only (A-F).

102L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 102 concurrently and accepted as a cadet in the Army ROTC Program. Credit/No Credit grading only. (Activity 2 hours.)

201. Individual Leadership Studies (2)

Prerequisites: M S 101, 102 or concurrent enrollment in M S 102. This course employs the principles of action, experiential, and discovery learning. Students, with one or two dedicated instructors, face challenging physical and mental tasks. Students pick their own leaders, ensuring that all get to serve as leaders, and decide how to solve each problem and accomplish each task. Upon completion, the instructor serves a facilitator for the students' own analysis of the event. The instructor influences the student's analysis as little as possible, but may ask questions that steer the students' toward certain topics. Topics of concern include, but are not limited to: personal development, goal setting, communication, problem solving, decision making, leadership, teamwork, group process (roles, interpersonal dynamics, etc.), stress management, physical fitness, and application or relation of lessons to officership and officer duties. ROTC cadets who register for this course must also register for M S 201L. Letter grade only (A-F).

201L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 201. Credit/No Credit grading only. (Activity 4 hours.)

202. Leadership and Teamwork (2)

Prerequisite: M S 201 or consent of instructor. This course continues to employ the principles of action, experiential, and discovery learning. Students, with one or two dedicated instructors, face challenging physical and mental tasks. Students must apply the leadership doctrine learned in M S 201 during challenging situational exercises. As in M S 201, upon completion of the task, the instructor serves as a facilitator for the students' own analysis of the event. The instructor influences the student's analysis as little as possible, but may ask questions that steer the students' toward certain topics. Topics of concern include, but are not limited to: personal development, goal setting, communication, problem solving, decision making, leadership, teamwork, group process (roles, interpersonal dynamics, etc.), stress management, physical fitness, and application or relation of lessons to officership and officer duties. ROTC cadets who register for this course must also register for M S 202L. Letter grade only (A-F).

202L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 202. Credit/No Credit grading only. (Activity 4 hours.)

Upper Division

301. Leadership and Problem Solving (3)

Prerequisites: M S 202 and consent of instructor. This course is designed to enable a student with no prior military or cadet experience to quickly learn essential cadet knowledge and skills necessary for the integration into the cadet battalion and successful performance of key cadet tasks. Students are introduced to the Leader Development Program that will be used to evaluate their leadership performance and provide them developmental feedback for the rest of their cadet years. To prepare them for their responsibilities in teaching and participating in Military Science and Leadership labs, students are next taught how to plan and conduct individual and small unit training, as well as basic tactical principles. Following these important introductory modules, the course turns to a four-week study of reasoning skills and the military-specific application of these skills in the form of the Army's troop leading procedure. The term concludes with a detailed examination of officership, which culminates in an officership case study designed to enable the cadet to examine the Officer Corps and the Evolution of the United States Army from Vietnam into the Twenty-First Century. ROTC cadets who register for this course must also register for laboratory in M S 301L. Letter grade only (A-F).

301L. Leadership Laboratory (1)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 301. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

302. Leadership and Ethics (3)

Prerequisites: M S 301 and consent of instructor. This course is designed to continue the development of students as leaders by presenting instruction in the three foundational areas of leadership, interpersonal communication, and values and ethics. The leadership module contains an examination of Army leadership doctrine followed by lessons that expand on key leadership concepts and provide feedback for cadet leadership self-development efforts. Next, students turn their attention to the topic of interpersonal communication in a variable-length module. These lessons address general communication theory as well as written and spoken communication skills. The highlight of the communication module is the opportunity for students to present an information briefing and lessons that focus on values, ethics, ethical decision-making, consideration of others, and spiritual needs. ROTC cadets who register for this course must also register for laboratory in M S 302L. Letter grade only (A-F).

302L. Leadership Laboratory (1)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 302. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

401. Leadership and Management (3)

Prerequisites: M S 302 and consent of instructor. This course concentrates on training, management, leadership, and ethics and begins the final transition from cadet to lieutenant. The course focuses students, early in the year, on attaining knowledge and proficiency in several critical areas they will need to operate effectively as Army officers. These areas include: The Army's training management system, coordinating activities with staffs, and counseling skills. The introduction of these subjects early in the senior year has the added benefit of preparing students to lead the cadet battalion throughout the remainder of the year. While the proficiency attained in each of these will initially be at the apprentice level, students will continue to sharpen these skills as they perform their roles as cadet officers in the ROTC battalion and as new lieutenants after commissioning. At the end of this semester should possess the fundamental skills, attributes, and abilities to operate as competent leaders in the cadet battalion and confidently shoulder the responsibilities entrusted to them. ROTC cadets who register for this course must also register for M S 401L. Letter grade only (A-F).

401L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 402. Credit/No Credit grading only. May be repeated to a maximum of 4 units. (Activity 4 hours.)

402. Officership (3)

Prerequisites: M S 302 and consent of instructor. This course focuses on completing the transition from cadet to lieutenant. The course starts with an examination of unit ethical climate and the commander's role as the moral anchor of the unit. Following this is a module on military law and leadership. The next module reinforces previous instruction on the organization of the Army and introduces how we organize for operations from the tactical to strategic level. This is followed by instruction on administrative and logistical management that focuses on the fundamentals of soldier and unit level support. At the core of this semester is the Advanced Course's Capstone Exercise. This multi-lesson exercise directly reinforces all modules from this term, and also incorporates and reinforces many learning objectives from modules throughout the entire curriculum. The Capstone Exercise requires cadets, both individually and collectively, to apply their knowledge to solve problems and confront situations commonly faced by junior officers. Upon completion of this course the cadets will be prepared to shoulder the responsibility of being a commissioned officer in the United States Army. ROTC cadets who register for this course must also register for M S 402L. Letter grade only (A-F).

402L. Leadership Laboratory (2)

Prerequisite: Accepted as a cadet in the Army ROTC Program; Corequisite: M S 402. Credit/No Credit grading only. May be repeated to a maximum of 4 units. (Activity 4 hours.)

411. U.S. Military History (3)

Prerequisites: ROTC cadets who register for this course must also register for M S 401L or 402L. The evolution of the art of war from The Hundred Years War through the Napoleonic era to the American Civil War and the wars of the twentieth century. Emphasis is placed on the changing nature of warfare as nations adjust to social, political, economic and technological developments. Analysis focuses on causation, the interrelationship of events as warfare evolved over the ages, operational and logistical aspects of military history, and the role of society in warfare. Letter grade only (A-F).

497. Independent Studies (1-3)

Prerequisites: Consent of Program Director and prior approval of topic. Individual studies with faculty supervision in an area of Military Science specialization. Limited to a maximum of 3 units per semester. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Discussion-Laboratory.)

Students desiring information should contact the department office for referral to one of the faculty advisors: Undergraduate advisor, Music Education (credential) or Graduate Advisor.

The undergraduate music curriculum provides programs for the student: who wishes to become a professional musician; who wishes to enter the teaching profession; for whom music is part of a general education; or, who is intending to pursue an advanced degree in music.

All entering freshmen and transfer students are required to take a theory placement test and performance audition which are regularly administered in Spring and late Fall and are also available at the beginning of registration week each semester. Each entering student should inquire at the Music Office for dates and details. In addition, new students are required to meet with the advisor prior to registration.

Each music major must declare a specialization in some performance area (voice, piano, or other orchestral instrument), develop ability in this area, appear in student recitals, and demonstrate progress to the satisfaction of the faculty. NOTE: Due to admissions limitations, the department is no longer providing instruction in acoustic guitar. A limited number of jazz/commercial guitar students will be admitted each year.

All undergraduate music majors are required to pass a screening examination in applied music on their primary instrument or voice before advancement to upper division applied study. This upper division screening exam (UDSE) will cover repertoire that is determined by each applied area. Specific information regarding the test may be obtained in the music office or from the advisor. The exam will be administered at a regular jury after four (4) semesters of applied study, however transfer students may elect to take it earlier. Failure to pass the exam will result in automatic suspension of all music departmental scholarship aid and continued applied study at the lower division level through university extension (a fee is required). The exam may be repeated.

Each student must pass a piano proficiency examination regardless of the performance area (piano majors excepted). Detailed information may be obtained in the Music Office.

Participation in a major performance organization (MUS 100/300) is required of each music major each semester. The performance ensemble must be approved by the department. Undergraduates are also required to register for Music Forum (MUS 110) every semester in residence to a total of 7 units.

The Department of Music offers graduate study leading to the Master of Arts or Master of Music degrees. The candidate should arrange for counseling with the graduate advisor through the department office. Special placement examinations or auditions are required to validate qualifications for graduate work in music.

All general requirements of the University must be met in addition to departmental requirements listed below. California State University, Long Beach is an accredited institutional member of the National Association of Schools of Music (NASM) (National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

Bachelor of Arts in Music (code MUS_BA01) (120 units)

Requirements

The BA requires 120 units, 24 upper division in the major. Music history and literature (MUS 190* [section by advisement], 160, 360, 374, 490* - *counts towards GE); music theory (MUS 141A-B; 142A-B; 240, 241, 341, 342); Major Performance Organization (MUS 100 [lower division] or 300 [upper division]) one unit each semester in residence – the performance ensemble must be approved by the department; keyboard proficiency [completion of the piano proficiency examination (equivalent to MUS 220B)]; Music Forum (MUS 110) each semester in residence to a total of 7 units; Applied Music: 129/329 or X129/X329 for 8 units; Senior Recital (MUS 423A) or (MUS 428).

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Bachelor of Music

The B.M. requires a minimum of 72 music units including the core and one area of specialization called an option. Options include Music History and Literature, Composition, Instrumental Music (Music Education), Choral-Vocal Music (Music Education) and Performance. Admission to the option is determined by audition and approval of the chair of the department. Application for admission to the option should be submitted no later than the beginning of the junior year, and significant progress must be demonstrated during the remaining two years. A Bachelor of Music degree requires a minimum of 132 units.

Core Requirements – Music Education: Instrumental Music and Choral-Vocal Music Options

Music History and Literature: MUS 190* (section by advisement), 160, 360, 374, 490*, (* counts toward GE).

Music Theory: MUS 141A-B, 142A-B, 340A-B.

Major Performance Organization: MUS 100/300, one unit each semester in residence (keyboard majors only take maximum 4 semesters).

Keyboard Proficiency: successful completion of departmental piano proficiency examination (equivalent to MUS 220B); MUS 110 (taken each semester in residency to a total of seven units); senior recital (MUS 423A).

Option in Instrumental Music (code MUS_BM04) (132 units)

This option is intended for single subject teaching credential candidates. As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency. Proficiency in Music Education can be demonstrated by successful completion of MUS 286 or ETEC 444 or by passing a California Commission on Teaching Credential-approved examination. This requirement must be met prior to advancement to student teaching.

Requirements

Core: MUS 129/329 or X129/X329 (must be taken for 8 units), 286, 326, 125T, 419, 484, and 485. Option: MUS 125V; elect 5 additional courses from MUS 125A, B, C, D, E, and/or F; 382A, 382B, 425, 480, and 482.

Option in Choral-Vocal Music (code MUS_BM01) (132 units)

This option is intended for single subject teaching credential candidates. As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency. Proficiency in Music Education can be demonstrated by successful completion of MUS 286 or ETEC 444 or by passing a California Commission on Teaching Credential-approved examination. This requirement must be met prior to advancement to student teaching.

Requirements

MUS 129/329 or X129/X329 (must be taken for 8 units); 286, 326, 125T, 419, 484, 485, 125F; elect 3 additional courses from MUS 125A, B, C, D, and/or E; 273A, 273B, 273C, 422, 426, 483A, and 483B.

Core Requirements – Performance, Composition and History and Literature Options

Music History and Literature: MUS 190* (section by advisement), 160, 360, 374, 490*, (* counts toward GE).

Music Theory: MUS 141A-B, 142A-B, 240, 241, 341, 342.

Major Performance Organization: MUS 100/300, one unit each semester in residence (keyboard majors only take maximum 4 semesters).

Keyboard Proficiency: successful completion of departmental piano proficiency examination (equivalent to MUS 220B); MUS 110 (taken each semester in residency to a total of 7 units); senior recital (MUS 423A) or senior composition recital (423B) or senior thesis (423C) or senior project (423D), by advisement.

Option in Performance (code MUS_BM05) (132 units)

Requirements

Individual instruction (MUS 129, 229/429, or X129, X229/ X429) required each semester in residence with an achievement of senior level on major performance medium. A Junior Recital (MUS 323) is required of all students.

Piano: MUS 200 or 201/400 or 401 (4 units); 277A-B, 427, 477A-B, 492. Electives: four units chosen from the following courses: 273A, 273B, 273C, 326, 428, 434 A-B, 436, and 460.

String Instruments: MUS 200 or 201/400 or 401 (4 units); MUS 326, 425; choose six units from: 428, 460, and 493.

Wind Instruments: MUS 200 or 201/400 or 401 (4 units, 2 of which must be either Woodwind or Brass Chamber Music); MUS 326, 425; choose six units from 428, 460, and 493.

Percussion: MUS 200 or 201/400 or 401 (4 units, 2 of which must be Percussion Ensemble); MUS 326, 425; choose 6 units from 428, 460, and 493.

Voice: MUS 273A, 273B, 273C, 326, 426, 434A or 434B, 460; choose an additional two units from: 436, 434A or 434B. Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

Opera: MUS 273A, 273B, 273C, 326, 436, 473, and THEA 262; two units of MUS 330 or 331 required as part of eight-unit activity requirement; choose two courses from the following: MUS 469, 3-unit theatre elective, 2-unit dance elective (DANC 111A or 113A). Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

Jazz Studies: At least 4 units of Jazz Ensemble 201/401; MUS 271, 370, 371, 372, 393, 474. Students in jazz studies whose primary performance medium is woodwinds will be required to take a minimum of 6 units in saxophone, 2 units in clarinet, 2 units in flute, and 4 units consisting of further study in saxophone, clarinet or flute for a total of 14 units in applied music. Prior to the senior project, each student must pass the UDSE on saxophone, clarinet and flute.

Option in Composition (code MUS_BM02) (132 units)

Requirements

MUS 129 or X129 to be taken each semester in residence until successful completion of the departmental upper division screening examination in applied music (a minimum of 4 units is required), MUS 344A (to be taken concurrently with 329X), 344B (to be taken concurrently with 329X), 423B and 24 units to be chosen under departmental advising from the following courses: 200B, 271, 326, 343, 370, 371, 372, 375, 393, 400B, 411, 415, 422, 425, 441, 442, 443, 445 (for a total of 4 units, to be taken concurrently with 329X), 447, 455, 456, 457, 460, 474, 497, and THEA 449.

Option in History and Literature (code MUS_BM03) (132 units)

Requirements

MUS 129 or X129 to be taken each semester in residence until successful completion of the departmental upper division screening examination in applied music (a minimum of four units is required); MUS 496 (Research Methods); 460; 423C; elect 14 units chosen from: MUS 363I, 364I, 375, 393, 428, 467, 468I, 469, 471, 478, 492, 493, 400R, 400S (Collegium may be repeated). Completion of Department of Music Foreign Language Examination in French, German, or Italian (may be waived by completion of 101B level course in French, German, or Italian).

Minor in Music (code MUS_UM01)

Requirements

A minimum of 18 units, 9 of which must be upper division (300- and 400-level courses). Specific courses are required. A degree plan must be prepared in conference with the department advisor prior to beginning this program.

Master of Arts in Music (code MUS_MA01)

The Master of Arts degree in Music provides academic concentrations in Musicology, Music Theory, and Music Education.

Prerequisites

1. A Bachelor of Arts degree with a major in music, a Bachelor of Music degree, or a bachelor's degree with a minimum of 24 units of upper division courses in music comparable to those required of a major in music at this University;

2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Arts in music program;
3. All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Arts degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree.) Applicants for all options of the M.A. degree must present samples of their scholarly writings in music for review by the Graduate faculty. Applicants for the musicology concentration must show evidence of reading and translation ability in one foreign language (French or German);
4. A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Arts program may petition for a special review from the Department Graduate Committee.

Advancement to Candidacy

The prerequisites for advancement to candidacy are the same as those for the Master of Music.

Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
2. Core Courses required by all Master of Arts students. 13-15 units; MUS 696 (should be taken the first time it is offered during the student's residency); MUS 541; one course from MUS 561, 562, 563, 564, 565; MUS 698 (for 4-6 units, dependent upon concentration).
3. Additional courses for Musicology concentration: 3 units from MUS 561, 562, 563, 564, 565 (other than one taken in core); 6 units elected from MUS 547, 561, 562, 563, 564, 565, 566, 569, 571, 576, 578, 592, 593 (not taken in core); 6 units of music electives (students in this concentration are strongly encouraged to elect theory as well as performance classes, especially Collegium Musicum and New Music Ensemble). Thesis is taken for 6 units in this concentration.
4. Additional courses for Music Theory concentration: MUS 542; 6 units from MUS 541 (may be repeated), 547, 640 (may be repeated); 6 units of electives (students in this concentration are strongly encouraged to elect additional history, composition and performance classes, especially New Music Ensemble and Collegium Musicum). Thesis is taken for 6 units in this concentration.

5. Additional courses for Music Education Concentration: MUS 581, 588; 4 units chosen from MUS 526, 554, 575, 580, 582, 585, 587, 594, 595, 680; 5-7 units of electives (students in this concentration are encouraged to elect performance and conducting classes). Thesis is taken for 4-6 units in this concentration, dependent upon project.
6. An oral defense of the thesis, recital, or project (MUS 698).

Master of Music Degree (code MUS_MM01)

The Master of Music degree program provides professional concentrations in Composition, Conducting-Instrumental, Conducting-Choral, Jazz Studies, Opera Performance and Instrumental/Vocal Performance.

Prerequisites

1. A Bachelor of Music degree, or a Bachelor of Arts degree with a major in Music or a bachelor's degree, from an accredited institution, with a minimum of 24 upper division units of music comparable to those required at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Music in music program;
3. All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Music degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree);
4. Criteria according to concentration:
 - A. *Composition*: submission and approval of a portfolio of representative original scores and evidence of baccalaureate-level competency as required in the Bachelor of Music Composition Option;
 - B. *Conducting*: successful completion of a conducting examination and approval by the conducting faculty;
 - C. *Performance/Jazz Studies*: Performance-Opera; Jazz Studies; and Instrumental/Vocal: an audition both at a performance level and with a repertory on an instrument or in voice acceptable to the faculty of the specific performance medium.
5. A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Music program may petition for a special review from the Department Graduate Advisory Council.

Advancement to Candidacy

1. Satisfy all the general University requirements, including passing the CSULB Writing Proficiency Examination;
2. Remove all undergraduate deficiencies, which were determined by the departmental Graduate Placement Examination and/or the Dean of the College of the Arts;
3. Pass the Department of Music Qualifying Examinations;
4. Submit an approved project or thesis proposal, and a graduate degree program approved by the student's Thesis Committee, the Graduate Advisor, Department Chair, and the Dean of the College of the Arts;
5. GPA of 3.0 or higher.

Requirements

1. General requirements for all majors: Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
2. Core curriculum (13 units) MUS 541, one course from MUS 561, 562, 563, 564, 565, 566 (Jazz Studies concentration only; MUS 513); MUS 696 (should be taken the first time it is offered during student's residency); MUS 698.
3. An oral defense of the thesis, recital, or project (MUS 698).

Master of Music Concentrations

Composition: 2 units of MUS 529X or 629X, taken concurrently with MUS 544 and MUS 545; 9 units to be chosen under departmental advisement from the following courses: 510, 511, 512, 513, 515, 516, 517, 520, 522, 525, 542, 543, 545, 547, 555, 556, 557, 574, 597, 640; 2 units of electives selected by advisement.

Conducting – Instrumental: 2 units of MUS 500, 600, or 601; 4 units of 529W or 629W; select by advisement two courses from MUS 520, 525, 680; 5 – 6 units of electives selected by advisement.

Conducting – Choral: 2 units of MUS 500, 600 or 601; 4 units of 529W or 629W; 519 (must be taken twice); 573, 575; 4 units of music electives by advisement.

Jazz Studies: 3 units selected from MUS 515, 574; 9 units selected from MUS 510, 511, 512, 516, 517, 525, 529 or 629 (section by advisement), 601A, 601B, 601C, 601D, or 601E; 2 units of electives.

Opera Performance: 4 units for MUS 529Q or 629Q; 2 units of MUS 530; 526, 536, 573; 5 units of electives chosen by advisement. Students in this concentration are strongly encouraged to take MUS 569.

Instrumental Performance: 4 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement). Keyboard specialization: 3 units of MUS 592; 6 units of electives selected by advisement (MUS 577A-B strongly encouraged). Other instrumental specializations: 9 units of electives chosen by advisement.

Vocal Performance: 2 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement); MUS 573; choose 4 units from MUS 526, 534A, 534B under advisement; 5 units of electives chosen by advisement.

Teaching Credentials

Students seeking a degree in Music Education refer to the Instrumental Music and Choral-Vocal Music options under B.M. degree. All students entering the credential program after August 31, 2003 will be following the SB2042 credential program and should consult the Single Subject Credential Program requirements in this catalog. For further information consult with the Department of Music credential advisor.

Music Performance

Opportunities to participate in various instrumental and vocal ensembles are available to all students regardless of major. Before enrolling in a performing group, students should apply to the director of the organization in which they wish to participate. Music performance courses may be repeated; up to 8 units of credit in MUS 100 or 300 may be counted toward a bachelor's degree. Simultaneous enrollment in more than one organization is permitted.

Courses (MUS)

Lower Division

100. Major Performance Organization (1)

Prerequisite: Consent of instructor.

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra

May be repeated to a maximum of 8 units.

110. Music Forum (1)

Recital attendance and performance on principal instrument or voice. Required of undergraduate music majors each semester, except for semester enrolled in MUS 423A, for a maximum of 7 units. Credit/No Credit grading only.

119. Group Piano for the Non-Major (1)

A group piano setting designed for the student interested in learning to play the piano for enjoyment. Repertoire and technical exercises for dexterity will be emphasized. Simple chord progressions and improvisational skills will also be taught. Knowledge of reading music preferred but not required. May be repeated to a maximum of 2 units.

120A-B. Class Piano (1,1)

Technique, tone production, rhythm, sight-reading, interpretation and keyboard facility. (2 hours laboratory.)

122A-B. Class Voice (1-1)

Fundamental techniques of singing, tone production, voice placement, breathing, diction, repertoire, and song interpretation. (2 hours lab.)

125. Instrumental Methods (1)

Class instruction in applied music. Class instruction in applied music and technology. Limited to music majors and minors. Letter grade only (A-F).

- A. Single Reeds/Flute
- B. Double Reeds
- C. Brass
- D. Percussion
- E. Strings
- F. Guitar
- T. Music Technology
- V. Voice Class for Instrumentalists

129. Individual Instruction for Music Majors (1)

Open to music majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated to a maximum of 4 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

130. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hours or more laboratory.)

131. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction.

140. Basic Music Theory (2)

Notation and reading of music. Written, aural and performance experience with scales, intervals, chords, and melodies. Provides essential background for more advanced courses in music theory. Course fee required.

141A. Musicianship I (2)

Corequisite: MUS 142A. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

141B. Musicianship II (2)

Prerequisite: MUS 141A or satisfactory score on theory placement test. Corequisite: MUS 142B. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

142A. Harmony I (3)

Corequisite: MUS 141A. Beginning principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

142B. Harmony II (3)

Prerequisites: MUS 141A & 142A or satisfactory score in theory placement test. Corequisite: MUS 141B. Principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

160. History of Music: Baroque/Classic (3)

Prerequisite: MUS 190. Chronological survey of music and musical styles from 1600 to 1750 with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who can read music. Letter grade only (A-F).

180. Exploring Music (3)

Prerequisite or Corequisite: A General Education Foundation course. Fundamentals of music and essentials of music listening. Basic performance skills in singing and playing music. Not open to music majors. Letter grade only (A-F).

190. Listener's Approach to Music (3)

Prerequisites or corequisites: ENGL 100 or another General Education Foundation course. Non-technical course open to all students. Materials, forms and styles of music with extensive listening.

200. Chamber Music (1)

Prerequisite: Consent of instructor.

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

May be repeated to a maximum of 8 units.

201. Jazz Ensemble (1)

Prerequisites: Consent of instructor. May be repeated to a maximum of 8 units.

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

220A-B. Class Piano (1-1)

Continuation of 120A-B. (2 hours laboratory.)

229. Individual Instruction for Music Major (2)

Open to performance majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 8 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

240. Advanced Musicianship (2)

Prerequisites: MUS 141B and 142B or satisfactory score on theory placement test. Study of advanced skills in ear training and sight singing. Letter grade only (A-F). Course fee \$15.00.

241. Tonal Counterpoint (3)

Prerequisites: MUS 141B and 142B. Analysis and writing of canons, two-part inventions, and fugues.

271. Improvisation Techniques I (2)

Basic techniques in improvisation, beginning with simple question and answer phrases and progressing to extended solos. Detailed and applied knowledge of chord progressions.

273A. Diction for Singers (2)

Prerequisite: Consent of Instructor. This course will focus primarily on mastering the IPA, International Phonetic Alphabet, and its application in the following two languages: English and Italian. In terms of repertoire, its content will focus on the correct pronunciation of art song, choral repertoire, and opera arias. Letter grade only (A-F).

273B. French Diction for Singers (1)

Prerequisite: MUS 273A. This course will focus primarily on mastering the application of the International Phonetic Alphabet with its phonetic transliteration skills to the French language. The content will focus on the correct pronunciation of art songs, choral repertoire, and opera arias. Letter grade only (A-F).

273C. German Diction for Singers (1)

Prerequisites: MUS 273A. This course will focus primarily on mastering the application of the International Phonetic Alphabet with its phonetic transliteration skills to the German language. Its content will focus on the correct pronunciation of art song, choral repertoire, and opera aria. Letter grade only (A-F).

277A. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

277B. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

286. Introduction to Music Education (3)

This course provides the philosophical and pedagogical theory required for the design and execution of appropriate music instructional programs at the general classroom, middle school, and secondary levels. The content includes discussion of rationales for music education, the current status of music education, general learning principles, music learning theories, classroom management, and research and resource materials in music education. A one-unit lab explores the use of MIDI, sequencing, and tutorial/managerial software in the music classroom/rehearsal setting. Letter grade only (A-F).

290. Popular Music in America (3)

Prerequisite: Completion of GE Foundation requirements. Artistic and socio-economic influences on popular music in America from 1840 to the present. Special consideration of the impact on "pop" music of various cultures and ethnic groups within the U.S. will be explored. Not open to Music majors.

Upper Division

300. Major Performance Organization (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units.

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra
- K. Performance

323. Junior Recital (1)

Prerequisite: MUS 241. Recital of the standard literature for solo instrument or voice in the performance option in the Bachelor of Music degree. Enrollment restricted to music majors passing the Qualifying Examination.

326. Conducting (2)

Prerequisites: Consent of instructor. Introduction to the principles and techniques of conducting and organization. Study and interpretation of instrumental and choral repertoire using the class as a laboratory ensemble. (1 hour lecture, 2 hours lab). Letter grade only (A-F).

327. Choral Organization and Rehearsal Techniques (2)

A course for the choral musician with emphasis upon the rehearsal and rehearsal techniques. Aspects of auditioning voices, choral tone, diction, and score preparation will be stressed. Methods of organization and management of the overall choral program will also be addressed.

329. Individual Instruction for Music Majors (1)

Prerequisite: Successful completion of the departmental upper division screening exam on the applied instrument or voice. Open to music majors only. Private lessons in the major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

330. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre: solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. May be repeated to a maximum of 4 units, only 2 of which may count toward the degree. (3 hours or more laboratory.)

331. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction. May be repeated to a maximum of 4 units.

340A. Musical Analysis in Comparative Cultures (3)

Prerequisites: MUS 141B, 142B. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Letter grade only (A-F).

340B. Musical Analysis in Comparative Cultures (3)

Prerequisites: MUS 340A. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Letter grade only (A-F).

341. Musical Form and Analysis (3)

Prerequisites: MUS 241. Intensive analysis of the historical development of form in tonal music from the early Baroque through the early 20th century.

342. Materials of Modern Music (3)

Prerequisite: MUS 341. Continuation of intensive analysis of representative compositions of the 20th Century with emphasis on writing in selected 20th Century styles.

343. Introduction to Computing and MIDI (3)

Basic techniques of sequencing, beginning music notation, sampling, SMPTE, and elements of studio design in a MIDI based computer music studio. Students will work at individual workstations in a networked computer music lab, gaining experience with practical application on studio equipment. Letter grade only (A-F).

344A-B. Composers' Workshop I-II (2-2)

Prerequisite: MUS 241 or consent of instructor. Corequisite: MUS 329X (1 unit). Directed studies in composition and analysis. Composition in selected styles and forms from various historical periods with readings of student works by resident ensembles.

360. History of Music: Medieval/Renaissance (3)

Prerequisite: MUS 190. Chronological survey of music and musical readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Letter grade only (A-F).

363I. Music and the Visual Arts (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190 or ART 110. This course explores the interrelationships between the visual arts and music in Western culture by comparing the artistic methodologies employed by important visual artists, including painters, sculptors, architects, to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18th through 20th Centuries and the works of visual artists that paralleled their development.

364I. Music and the Temporal Arts (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190, DANC 110, THEA 122, or ENGL 180. This course is a study of the interrelationships of the temporal arts (dance, theatre, literature and music) in Western culture by comparing the artistic methodologies employed by important artists, including poets, writers, choreographers, and playwrights to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18th through 20th Centuries and the works of temporal artists that paralleled their development.

370. Recording and Electronic Techniques (3)

Technique of the preparation and recording of music and the study of electronic recording and musical equipment.

371. Improvisation Techniques II (2)

Continuation of MUS 271.

372. Jazz Harmony and Analysis (3)

Prerequisite: MUS 142B. Basic techniques of writing and analyzing jazz harmony.

374. History of Music: Nineteenth/Twentieth Centuries (3)

Prerequisite: MUS 190. Chronological survey of music and musical styles from 1800 to the present, with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Letter grade only (A-F).

375. The Avant-Garde: Radical Change in Art and Music in the 20th Century (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An examination of some of the major "modern" or avant-garde styles and movements in art and music in Europe and America from about 1900 to the present. The course aims not only to characterize these styles and their practitioners but to relate them to major changes to modern society.

382A. Instrumental Ensemble Lab (3)

Prerequisite: Three instrumental methods courses from MUS 125 series. Examination of organizational procedures for beginning/intermediate band and instructional techniques relating to Grade I-II music literature, investigation of contemporary music methodologies, and experience conducting ensemble class sessions. Performance on secondary instruments is required.

382B. Beginning Jazz Ensemble Lab (1)

Examination of organizational and instructional techniques relating to beginning jazz ensemble performance, as well as performance on secondary instruments and conducting ensemble class sessions.

385. Children's Music (3)

Prerequisite: MUS 180. An introduction to general, vocal, and instrumental musical experiences appropriate for children in grades K-6. Includes participation in singing and listening activities and experience in the use of simple melodic, rhythmic, and harmonic instruments appropriate to the age and development of the child. This course is intended for liberal studies majors and others by consent of instructor.

393. Jazz, An American Music (3)

Prerequisite: Completion of 13 unit General Education Foundation requirement and upper division standing. This course of study presents the development of various musical styles, forms, improvisations, significant musical concepts and major figures in the past, present and future of jazz, an American music.

400. Chamber Music (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units.

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- G. Studio Ensemble IV
- J. Studio Ensemble V
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

401. Jazz Ensemble (1)

Prerequisites: Consent of instructor. May be repeated to a maximum of 8 units.

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

411./511. Film Scoring (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Letter grade only (A-F). May be repeated to a maximum of 6 units.

415./515. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Farrell, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Letter grade only (A-F).

416./516. Pedagogy of Improvisation (3)

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Letter grade only (A-F).

417./517. Business of Music (3)

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Letter grade only (A-F).

419./519. Choral Master Class (1)

Prerequisites: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. Letter grade only (A-F). May be repeated to a maximum of 4 units.

422./522. Advanced Choral Conducting and Literature (2)

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group.

423A. Senior Recital (1)

Prerequisites: MUS 340A,B, 341, 342. Corequisites: Concurrent enrollment in MUS 329 or 429. An individual recital of the standard literature for solo instrument or voice. Enrollment restricted to Music majors passing the Qualifying Examination. Letter grade only (A-F).

423B. Senior Composition Recital (1)

Prerequisites: Senior standing and consent of instructor. An individual recital of original music written during composition studies while in the program. Enrollment restricted to Bachelor of Music composition majors passing the Qualifying Examination. Letter grade only (A-F).

423C. Senior Thesis (1)

Prerequisites: MUS 360, 374 and 496. An in-depth research paper representing a systematic study of a significant problem, style, or repertory. The finished product must show thorough command of the relevant literature, critical thinking and writing, and an original approach. A proposal (outline, abstract, and bibliography) must be submitted for topic approval. Letter grade only (A-F).

423D. Senior Project (1)

Prerequisites: Senior standing and consent of instructor. A final project or internship with a music or arts organization subject to approval of the supervising faculty member. Letter grade only (A-F).

425./525. Advanced Instrumental Conducting (2)

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently.

426./526. Vocal Development (2)

Prerequisite: Consent of instructor. Theory and techniques of teaching voice.

***427. Piano Pedagogy (3)**

Study of the philosophies, psychology, and piano teaching methods for children, as well as intermediate and advanced level students. Letter grade only (A-F). May be repeated to a maximum of 6 units.

***428. Seminar in Musical Styles (3)**

Prerequisites: MUS 160, 340A,B, 341, 360, 374. A study seminar designed to review the development of musical styles, forms, genres, and significant musical concepts and problems. For Music majors only.

429. Individual Instruction for Music Majors (2)

Prerequisite: Successful Completion of the Departmental Upper Division Screening Exam on the Applied Instrument or Voice. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition

434A./534A. German Song Repertoire (2)

Prerequisites: MUS 273A, C. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

434B./534B. French Song Repertoire (2)

Prerequisites: MUS 273A, B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

436./536. Opera Repertoire (2)

Prerequisites: MUS 273B,C or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Letter grade only (A-F). (4 hours laboratory.)

***441. Studies in Musical Analysis (3)**

Prerequisites: MUS 341, 342. Intensive individual and class analysis of representative compositions of various periods and styles.

442. Orchestration (3)

Prerequisite: MUS 241. Range, characteristics, and transpositions of all standard orchestral instruments by writing and/or transcribing music for them. Preparation and proofreading of scores and parts. Readings of student assignments will be included whenever possible.

443./543. Advanced Orchestration (3)

Prerequisite: MUS 442. Techniques of arranging, transcribing, and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

445. Composition (2)

Prerequisite: MUS 344A-B or consent of instructor. Corequisite: MUS 329X. Composition with emphasis on the development of an individual style. Course includes study of representative major compositions of the 20th Century. Letter grade only (A-F). May be repeated to a maximum of 4 units.

447./547. Musical Systems of the World (3)

Prerequisites: MUS 340A, B, 342 or consent of instructor. Open to music majors and minors. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Letter grade only (A-F).

454./554. School, Society, and Music Education (3)

Beginning with the singing school movement and the Jeffersonian era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society. Letter grade only (A-F).

455./555. Sound Synthesis (3)

An intensive course in aspects of sound synthesis in a computer music studio. Students will get hands-on experience designing and editing sounds using computer music software such as cmix, csound, galaxy plus editors. Areas covered include additive, FM, wave (vector) synthesis and resonance modeling. The course will culminate in a creative composition or research project. Letter grade only (A-F).

456./556. Sampling and Sound Design (3)

An intensive course concentrating on aspects of digital audio, sample editing and sound design using computers, samplers, and hard disk editors/recorders. This course will culminate in a creative project in which collaboration is encouraged (film, theater, media presentations, etc.) Letter grade only (A-F).

457./557. Multimedia Authoring (3)

Students will learn the tools which will enable them to author multi-media presentations and CD ROMs using current hardware and software tools. The course will culminate in a creative project in which students combine computer graphics/animation, text, MIDI, and digital audio. Letter grade only (A-F).

460./566. Studies in Performance Practices (3)

Prerequisites: MUS 160, 360 or consent of instructor. Surveys issues of historical performance in vocal and instrumental music, focusing on primary sources. Spans various genres and eras.

467./576. Studies in Gender and Music (3)

Prerequisite: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Letter grade only (A-F).

468I. Music and Film (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses—MUS 190, FEA 310, THEA 122, ENGL 180, or ART 110. Study of the interrelationships of dramatic, visual, and musical arts in film, with a special emphasis on the role of music.

469./569. Music of the Theater (3)

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks.

471./571. Studies in Ethnomusicology (3)

Prerequisites: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Letter grade only (A-F). May be repeated to a maximum of 6 units.

473./573. Advanced Diction for Singers (2)

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Letter grade only (A-F).

474./574. Commercial Arranging (3)

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring of the various types of commercial ensembles in the styles demanded by contemporary performance practices.

477A-B./577A-B. Piano Accompanying (2-2)

Prerequisite: MUS 277B or consent of instructor. Instruction and training in the art and the techniques of accompanying singers, instrumentalists, and ensembles. (Lecture 1 hr, activity 3 hrs)

478./578. Musical Instruments of the World (3)

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Letter grade only (A-F).

480./580. Marching Band Techniques (2)

Marching fundamentals, charting formations, precision drills, parade techniques and half-time pageantry.

482./582. Instrumental Rehearsal Techniques and Literature (3)

Procedures for organization and development of instrumental programs and literature for performing groups.

483A./583A. Choral Repertoire I (2)

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Letter grade only (A-F).

483B./583B. Choral Repertoire II (2)

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Letter grade only (A-F).

484. Choral Arranging (2)

Prerequisites: MUS 142B, 241, 340A, B. Instruction in arranging music for ensemble of all sizes both vocal and instrumental. Primarily intended for music education majors. Letter grade only (A-F).

485./585. Music for the Elementary Child (3)

Prerequisites: MUS 340A, B, 341. A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for music education and music therapy majors, and others by consent of instructor.

487./587. Microcomputers and Music Learning (3)

Prerequisites: MUS 125T or consent of instructor. Music education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends.

490. Introduction to Music Cultures (3)

Prerequisite: Completion of GE Foundation requirements. Introduction to the Music of a variety of cultures and ethnic groups representative of the diversity of the United States and of Native cultures found throughout the world. Attention will be focused on the functions that music serves, the social organization of music including age and gender roles, the distinctive characteristics of the music, the types of instruments used, and cultural performance standards.

492./592. Studies in Keyboard Music (3)

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from the 13th century to the present.

493./593. Studies in Instrumental Music (3)

Prerequisite: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto. May be repeated to a maximum of 6 units. Letter grade only (A-F).

494./594. Music Learning Theory (3)

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory Curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning. Letter grade only (A-F).

*495. Special Topics in Music (3)

Prerequisite: Consent of instructor. Topics of current interest in the various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

A. Kodaly Concept I: Methodology, Solfege and Conducting

Corequisite: Consent of Instructor, MUS 495B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

B. Kodaly Concept I: Methodology, Solfege and Conducting

Corequisite: 495A. A detailed examination of the Kodaly Approach to music education with particular emphasis on its relevance, adaptability and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated in this course.

F. Music and Dance Collaboration (3)

Corequisite: Consent of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

496./696. Research Methods (3)

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music.

497. Special Topics in Music Composition (3)

Prerequisite: Consent of instructor. Topics of current interest in the field of music composition selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

A. Songwriting and Analysis

B. Musical Theater Project

C. Advanced Film Scoring Project

D. Contemporary and Computer Music Notation

E. Internet Connectivity and Publishing

F. Musical Interactivity

*499. Special Studies (1-3)

Prerequisite: Consent of instructor. Individual research or group investigation of selected topics. May be repeated to a maximum of 6 units.

Graduate Level

500. Major Performance Organization (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. Letter grade only (A-F).

B. Symphonic Band

C. Wind Symphony

D. Women's Chorus

E. Forty-Niner Chorus

F. University Choir

G. Chamber Singers

J. Symphony Orchestra

K. Performance

510. Improvisation Styles and Literature (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts in Jazz Improvisation. Theoretical work emphasizes detailed study of harmonic and linear forms, digital patterns and scales, combination of idioms, patterns, use of experimental material, transcriptions and historic implications. Letter grade only (A-F).

511./411. Film Scoring (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Letter grade only (A-F). May be repeated to a maximum of 6 units.

512. Advanced Techniques in Jazz Composition (3)

Prerequisites: MUS 372, 474, or consent of instructor. A course of study designed to review various composers, musical styles, forms, genres, and significant musical techniques and developments in contemporary jazz composition. Will include the study of major contemporary jazz works with writing assignments based on those styles. Composers who may be studied will include: Duke Ellington, George Russell, Gil Evans, John Lewis, Gunther Schuller, Oliver Nelson, Lalo Schiffrin, Gerald Wilson, Thad Jones, Bob Brookmeyer, Bob Mintzer, Herbie Hancock, and Chick Corea. May be repeated to a maximum of 6 units. Letter grade only (A-F).

513. History and Analysis of Jazz Styles (3)

Prerequisites: MUS 372, 393, or consent of instructor. A study seminar designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in Jazz History. Letter grade only (A-F).

515./415. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Farrell, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Letter grade only (A-F).

516./416. Pedagogy of Improvisation (3)

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles, and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Letter grade only (A-F).

517./417. Business of Music (3)

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Letter grade only (A-F).

519./419. Choral Master Class (1)

Prerequisite: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. May be repeated to a maximum of 4 units. Letter grade only (A-F).

520. Graduate Conducting Seminar (3)

Prerequisite: Consent of instructor. Advanced baton technique, interpretation, securing proper sound, organizing routine, and program making. Letter grade only (A-F).

522./422. Advanced Choral Conducting and Literature (2)

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group. Letter grade only (A-F).

525./425. Advanced Instrumental Conducting (2)

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently.

526./426. Vocal Development (2)

Prerequisite: Consent of instructor. Theory and techniques of teaching voice. Letter grade only (A-F).

529. Individual Instruction for Music Majors (1)

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

530. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hours or more laboratory.) May be repeated to a maximum of 4 units. Letter grade only (A-F).

531. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction.

534A./434A. German Song Repertoire (2)

Prerequisites: MUS 273A, C. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

534B./434B. French Song Repertoire (2)

Prerequisites: MUS 273A, B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Letter grade only (A-F).

536./436. Opera Repertoire (2)

Prerequisites: MUS 273B,C or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Letter grade only (A-F).

541. Seminar in Musical Analysis (3)

Analysis of the forms and techniques of musical compositions in various genres and styles. May be repeated to a maximum of 6 units.

542. Seminar in Advanced Musical Analysis (3)

Advanced analysis in variable topics of the forms and techniques of musical compositions. May be repeated to maximum of 6 units. Letter grade only (A-F).

543./443. Advanced Orchestration (3)

Prerequisite: MUS 442. Graduate level study in the techniques of arranging, transcribing and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

544. Composition in Selected Forms (2)

Corequisite: MUS 529X. Graduate level composition in various forms and genres with readings of student works where possible. Letter grade only (A-F).

545. Composition (2)

Prerequisite: MUS 544. Corequisite: MUS 529X. Graduate level composition with emphasis on the development of an individual style. Letter grade only (A-F). May be repeated to a maximum of 4 units.

547./447. Musical Systems of the World (3)

Prerequisites: MUS 340A, B, 342 or consent of instructor. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Letter grade only (A-F).

554./454. School, Society, and Music Education (3)

Beginning with the singing school movement and progressing to the present era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society. Letter grade only (A-F).

555./455. Sound Synthesis (3)

An intensive course in aspects of sound synthesis in a computer music studio. Students will get hands-on experience designing and editing sounds using computer music software such as cmix, csound, galaxy plus editors. Areas covered include additive, FM, wave (vector) synthesis and resonance modeling. The course will culminate in a creative composition or research project. Letter grade only (A-F).

556./456. Sampling and Sound Design (3)

An intensive course concentrating on aspects of digital audio, sample editing and sound design using computers, samplers, and hard disk editors/recorders. This course will culminate in a creative project in which collaboration is encouraged (film, theater, media presentations, etc.) Letter grade only (A-F).

557./457. Multimedia Authoring (3)

Students will learn the tools which will enable them to author multi-media presentations and CD ROMs using current hardware and software tools. The course will culminate in a creative project in which students combine computer graphics/animation, text, MIDI, and digital audio. Letter grade only (A-F).

561. Seminar in Medieval and Renaissance Music (3)

Prerequisite: MUS 360, or consent of instructor. Topics in the development of musical styles and genres from Gregorian Chant through late sixteenth-century sacred and secular polyphony. May be repeated to a maximum of 6 units. Letter grade only (A-F).

562. Seminar In Baroque Music (3)

Prerequisites: MUS 341, 360, or consent of instructor. Stylistic analysis and inquiry into cultural background of composers and genres. May be repeated to a maximum of 6 units. Letter grade only (A-F).

563. Seminar In Classical Music (3)

Prerequisites: MUS 341, 360, or consent of instructor. Music from the Rococo to the end of the eighteenth century. Philosophical attitudes in relation to the musical styles. May be repeated to a maximum of 6 units. Letter grade only (A-F).

564. Seminar in Romantic Music (3)

Prerequisites: MUS 342, 374 or consent of instructor. Music from Beethoven to the end of the nineteenth century. May be repeated to a maximum of 6 units. Letter grade only (A-F).

565. Seminar In 20th-Century Music (3)

Prerequisites: MUS 342, 374, or consent of instructor. Stylistic analysis and music; aesthetic and socioeconomic problems of contemporary music; survey of new music. May be repeated to a maximum of 6 units. Letter grade only (A-F).

566./460. Studies in Performance Practices (3)

Prerequisites: MUS 160, 360 or consent of instructor. Surveys issues of historical performance in vocal and instrumental music, focusing on primary sources. Spans various genres and eras. Letter grade only (A-F).

569./469. Music of the Theater (3)

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks. Letter grade only (A-F).

571./471. Studies in Ethnomusicology (3)

Prerequisite: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Letter grade only (A-F). May be repeated to a maximum of 6 units.

573./473. Advanced Diction for Singers (2)

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Letter grade only (A-F).

574./474. Commercial Arranging (3)

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring for the various types of commercial ensembles in the styles demanded by contemporary performance practices. Letter grade only (A-F).

575. Studies in Choral Music (3)

Prerequisite: Consent of instructor. Studies in research techniques for the Choral Musician and exploration of Choral masterworks including score preparation, performance practice considerations, and historical investigation. Rehearsal techniques, principles and procedures necessary to effective choral teaching will also be examined. May be repeated to a maximum of 6 units. Letter grade only (A-F).

576./467. Studies in Gender and Music (3)

Prerequisites: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Letter grade only (A-F).

577A,B./477A,B. Piano Accompanying (2,2)

Prerequisite: MUS 477B or consent of instructor. Piano major or consent of instructor. Instruction and training in the art and the techniques of accompanying for singers, instrumentalists, and ensembles. Letter grade only (A-F).

578./478. Musical Instruments of the World (3)

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Letter grade only (A-F).

580./480. Marching Band Techniques (2)

Marching fundamentals, charting, formations, precision drills, parade techniques and half-time pageantry. Letter grade only (A-F).

581. Foundations of Music Education (3)

Open to graduate music majors only. A survey of contemporary aesthetic, philosophical, psychological and sociological trends in music education. Letter grade only (A-F).

582./482. Instrumental Rehearsal Techniques and Literature (3)

Procedures for organization and development of instrumental programs and literature for performing groups. Letter grade only (A-F).

583A./483A. Choral Repertoire I (2)

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Letter grade only (A-F).

583B./483B. Choral Repertoire II (2)

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Letter grade only (A-F).

585./485. Music for the Elementary Child (3)

Prerequisites: MUS 340A, B. A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for Music Education and Music Therapy majors, and others by consent of instructor. Letter grade only (A-F).

587./487. Microcomputers in Music Learning (3)

Prerequisites: MUS 125T or consent of instructor. Music Education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends. Letter grade only (A-F).

588. Quantitative Issues and Research in Music Education (3)

Prerequisites: MUS 581. Assessment and curriculum development; appropriate techniques and existing tools for the measurement and evaluation of musical behavior; survey and critical analysis of research, especially quantitative, in areas relevant to music education. Design research project appropriate to field. Letter grade only (A-F).

592./492. Studies in Keyboard Music (3)

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano and organ from the 13th century to the present. Letter grade only (A-F).

593./493. Studies in Instrumental Music (3)

Prerequisites: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto. Letter grade only (A-F).

594./494. Music Learning Theory (3)

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning. Letter grade only (A-F).

595. Special Topics in Music (1-3)

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

A. Kodaly Concept I: Methodology, Solfege and Conducting

Corequisite: Consent of Instructor, MUS 595B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

B. Kodaly Concept II: Methodology, Solfege and Conducting

Corequisite: Consent of Instructor, MUS 595A must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

F. Music and Dance Collaboration

Corequisite: Consent of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

597./497. Special Topics in Music Composition (3)

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

A. Songwriting and Analysis

B. Musical Theater Project

C. Advanced Film Scoring Project

D. Contemporary and Computer Music Notation

E. Internet Connectivity and Publishing

F. Musical Interactivity

598. Teaching Music in the University (1)

Prerequisite: position as TA or GA in Department of Music or consent of instructor. A seminar on teaching methods, goals, and objectives; covers regulations and responsibilities; preparation of course materials; assessment and evaluation tools; technology in the classroom. Required of first-term TAs and GAs with teaching responsibilities. Letter grade only (A-F). May be repeated to a maximum of 3 units.

599. Special Studies (1-3)

Prerequisite: Consent of Graduate Advisor and instructor. Individual research or group investigation of selected topics. May be repeated to a maximum of 6 units of credit. Letter grade only (A-F).

600. Chamber Music (1)

Prerequisite: Consent of instructor. May be repeated to a maximum of 8 units. Letter grade only (A-F).

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- R. Collegium-Vocal
- S. Collegium-Instrumental
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

601. Jazz Ensemble (1)

Prerequisites: Consent of Instructor. May be repeated to a maximum of 8 units.

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

629. Individual Instruction for Music Majors (2)

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated to a maximum of 12 units credit. Letter grade only (A-F).

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition

640. Seminar in Music Theory (3)

Prerequisites: MUS 541 or 542 and consent of instructor. Intensive seminar focusing on analytical and theoretical issues in music. May center on an individual composer, a theoretical technique, or history of theory. May be repeated to a maximum of 6 units of degree credit. Letter grade only (A-F).

645. Seminar in Advanced Composition (3)

Prerequisites: MUS 344A-B, 443, 445, or equivalent. Free composition in the more extended forms for various combinations of instruments including full orchestra and band. Letter grade only (A-F).

680. Seminar in Instrumental Music Teaching (3)

Prerequisite: Consent of instructor. Principles, procedures, and materials used in teaching instrumental music in the public schools. Special attention given to methods and materials used in instrument classes. Letter grade only (A-F).

696./496. Research Methods (3)

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music. Letter grade only (A-F).

698. Thesis or Project (2-6)

Planning, preparation, research, and completion of recital/project report or thesis. Enrollment limited to graduate candidates who have passed the qualifying examination for their program and who have an approved project/thesis proposal. Letter grade only (A-F).

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

In a world where science plays an increasingly important role and where an understanding of the sciences is essential for a participating and informed citizenry, the College of Natural Sciences and Mathematics provides quality educational opportunities in the life, physical sciences, and mathematics. Students are provided a broad-based, fundamental education in the natural sciences and mathematics, and are challenged to think critically, analytically, and creatively. Alumni of the College demonstrate that science and mathematics graduates are well-prepared to enter graduate and professional schools or to assume responsible positions in industry or government. Employment opportunities for students with backgrounds in science and mathematics are traditionally excellent.

The College is dedicated to the concept that a university has a special responsibility toward academic excellence and the advancement of knowledge. The faculty and staff of the Departments of Biological Sciences (including the former departments of Anatomy and Physiology, Biology, and Microbiology), Chemistry/Biochemistry, Geological Sciences, Mathematics and Statistics, Physics/Astronomy, and Science Education are committed to providing an outstanding educational experience for all students.

The College takes its responsibilities in teacher preparation in the sciences and mathematics very seriously. It has recently embarked on several new projects that will provide a stronger, more rigorous, and more engaging set of teacher preparation programs at CSULB. With funding from the National Science Foundation, NASA, and the Knight Foundation, and in collaboration with Colleges of Education and Liberal Arts, Long Beach Unified School District, and Long Beach City College, science and mathematics faculty are working to enrich and align teacher preparation coursework and internship opportunities.

Degrees Offered

Five departments within the College of Natural Sciences and Mathematics offer both the Bachelor of Science and Master of Science degrees. The Department of Science Education offers the Master of Science degree. The Departments of Chemistry/Biochemistry, and Physics/Astronomy also offer the Bachelor of Arts degree. Each degree has unique requirements and students should refer to the particular department's section of this *Catalog* to determine specific requirements. Ideally, all students participate in the Science Safari to Success (for first time freshmen) or EONS (Enrollment and Orientation in Natural Sciences and Mathematics for transfer students) Programs offered each June-July (for those entering in August) and January (for those entering in January). A department advisor will be available to assist in developing an appropriate academic plan consistent with career goals. During the semester, students may obtain academic advising by contacting the appropriate adviser(s) in the department offering the chosen degree program.

Student Research Opportunities

Faculty in the College involve more than 200 students annually, both undergraduate and graduate, in a wide variety of research activities. Many of these students are supported by research grants, especially during the summer months. Each year many of these students present the results of their research at scientific conferences. It is not unusual for a student to co-author an article appearing in a major scientific journal.

The faculty's commitment to these students is based on the knowledge that involvement in scientific research makes the study of science more real and provides strong motivation for the student to pursue a career in science. Since the anticipated need for scientists far exceeds the enrollment of science majors, we are committed to meeting the short-fall by making the study of science at CSULB as "real world" as possible.

Student Access to Science and Mathematics (SAS) Center and Programs Offered

A student center (FO5-109) adjacent to the Dean's office is dedicated to promoting success for students who pursue majors in the College and those who take courses in its departments. The Center also facilitates several externally funded programs including The National Institutes of Health (MARC, MSD, and Bridges to the Baccalaureate), and National Science Foundation (CRUI, AMP, LBESTEP). The Center provides space for studying, tutoring, mentoring, computer access, and meeting sites for student-centered activities. The Center also serves as the resource center for health profession advising, graduate school opportunities, summer research opportunities and fellowships.

SAS coordinates and assures effective integration of all of our mentoring, enrichment, and outreach programs — including those based on undergraduate research. SAS is dependent on external funding for its success.

There are a host of activities and programs that strive to involve students and promote their success in science and mathematics. Several federally funded programs focus on underrepresented students and address the diversity of our campus. In addition to fostering involvement of students in science and mathematics, they feature an ethnic identity that provides a unique encouragement for 250 of our science majors.

MARC/MSD Programs. The College hosts both programs funded by The National Institutes of General Medical Sciences: Minority Access to Research Careers (MARC) and Minority Student Development (MSD). Both programs have the goal of increasing the number and quality of students from historically underrepresented ethnic groups who pursue careers in scientific research. The 30 students supported by these programs carry out state-of-the-art biomedical research projects in conjunction with a member of the faculty. Virtually all of these students continue study toward advanced degrees in science. The MARC program is an honors program (GPA 3.0) for upper division students, while the MSD program can support students as early as the freshman year and can also support graduate students. As a result of their research activities, most students present papers at scientific conferences and often co-author publications appearing in leading scientific journals. In addition to their research involvement, MARC/

MSD students are active in various outreach and mentoring activities.

Beckman Scholars Program. In 2003, CSULB was selected as one of 13 institutions nationwide to be the recipient of these prestigious Beckman Scholars Awards. The goal of the Beckman Scholars Program at CSULB is to advance the education, research training, and personal development of students who have the potential to achieve distinction in their academic field, as well as become outstanding leaders in their careers and professions. Support is provided for four students working toward bachelor's degrees in chemistry, biology, or physics in the form of student stipends, laboratory supplies and funds for travel to appropriate scientific meetings. Depending on the laboratory chosen for the research experience, students will receive rigorous training by faculty members in the use and applications of a variety of different techniques involved in nucleic acid research, protein biochemistry, biophysics, etc. The program will also provide counseling and career opportunities for entrance into higher degree programs in the sciences.

Bridges to the Baccalaureate Program. This program is funded by the National Institutes of General Medical Sciences and its goal is to provide historically underrepresented community college students with research opportunities in the biomedical sciences and to facilitate their seamless transition into baccalaureate granting institutions.

G-DEP Program. The Geoscience Diversity Enhancement Program (G-DEP) is an innovative, collaborative partnership between CSULB Departments of Geological Sciences, Geography, and Anthropology, and several community colleges and local high schools to improve the research and educational experiences of underrepresented students in geoscience (geologic, physical geographic, archaeologic and environmental sciences disciplines). The goals of G-DEP are to (1) increase the number of underrepresented students who have a broad educational and research experience in the geosciences; (2) enhance the quantity and quality of Geoscience research and teaching by faculty members from the University, community colleges and high schools; (3) increase the awareness by community college and high school students of the field of geoscience, and related research careers and educational requirements; (4) create a seamless transition of underrepresented students from community colleges to study geosciences at the undergraduate level; and (5) increase the number of geoscience majors who are retained in their disciplines.

AMP Program. The College hosts the National Science Foundation's Alliance for Minority Participation (AMP) program. Its goal is to improve the mathematics and science preparation for historically underrepresented students majoring in the sciences, mathematics, and engineering.

UPP. The University Preparatory Program (UPP) provides an enriched curriculum in mathematics and sciences for underrepresented high school students and introduces, presents, and facilitates their entrance into the university.

Science Enrichment and Peer Mentor Programs. Peer mentoring provides our college students opportunities for tutoring to strengthen their academic and communication skills. This program is designed to provide first time freshmen in the College of Natural Sciences and Mathematics with the

guidance and personal support that are vitally important to their success at CSULB. This program allows students to enroll in classes appropriate for their major and background, provides them with enriched learning experiences, and peer role models during their first academic year. The Science Enrichment Program begins the week prior to the start of the fall semester. In order to be part of the program, students must be declared science or math majors and be enrolled in the presemester University 100H course.

HHMI. The Honors in Biological Sciences program is sponsored by a grant from the Howard Hughes Medical Institute. Open to students with majors or career goals in the life sciences or related fields, it features an honors curriculum including courses in bioinformatics and research design as well as undergraduate research leading to a senior honors thesis. Participating students will be eligible for financial support for their research experience as well as for travel to scientific conferences.

Health Professions Advising Office (HPAO). The Health Professions Advising Office (HPAO) provides a wide range of advising and support services designed to meet the needs of CSULB students as they navigate through the often-complex process of preparation and application to professional school. The HPAO offers individual counseling, academic planning, application assistance, and many other resources designed specialty for students interested in medicine, dentistry, veterinary, pharmacy, optometry, podiatry, chiropractic, physician assistant, physical therapy, and graduate nursing.

The Electron Microscopy Facility

The study of the natural sciences requires observation of the macroscopic, microscopic, and sub-microscopic character of our universe. With this in mind, the College has established a modern Electron Microscope (EM) Facility which is used by several undergraduate courses in addition to undergraduate and graduate research projects. The pride of the EM Facility is the Joel-1200EXII transmission electron microscope (TEM), obtained through a National Science Foundation instrumentation grant. The Joel-1200EXII has a resolution of 0.14 nm and a magnification range of from 50 to 1,000,000 times. The EM Facility also houses additional TEMs and an AMR 1000 scanning electron microscope. The latter will be upgraded to include analytical capabilities.

Student Organizations

The College of Natural Sciences and Mathematics Student Council sponsors annual events including: a fall open house and spring picnic, Science Career Days, and the Nobel Laureate Speaker series. Six departmental associations plan various social and academic-related programs that offer peer support, as well as opportunities for students and faculty to interact outside of the classroom.

Four other student-led groups offer activities for students who are planning careers in one of the health professions (medicine, dentistry, etc.). The Organization of PreProfessional Students (T.O.P.P.S.) and Association of Pre-Dental Students (A.P.D.S.) have speaker series with representatives from professional schools; the group also holds social functions and provides a peer advising network. Chicanos/Latinos for Community Medicine (CCM) sponsors community outreach activities, an annual workshop on interviewing techniques, and an annual conference on applying to medical/professional schools.

Health Professions Advising Office

Please see Health Professions Advising Office under *Student Access to Science and Mathematics (SAS) and Programs Offered* for assistance and services available for preparation and application to health profession schools.

Southern California Marine Institute (SCMI)

The Institute operates a number of research vessels, and provides the mechanism whereby students from CSU Ocean Studies Consortium campuses at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, San Diego, and San Marcos, as well as Occidental College and the University of Southern California can share courses and degree programs. In addition, Institute staff conduct research and facilitate the research of CSU faculty. The major focus is on harbors and coastal areas, with emphasis on environmental issues.

California Desert Studies Consortium

CSULB participates in the California Desert Studies Consortium, which has a Desert Studies Center in the heart of the Mojave Desert at Soda Springs near the town of Baker. The surrounding area consists of typical Mojave Desert with dry lakes, sand dunes, and mountain ranges; it is the gateway to Death Valley and the Kelso Dunes. The Center has excellent facilities for teaching field classes and for research. California State Universities at Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Bernardino are the Consortia members.

Courses (NSCI)

Lower Division

200. Introduction to Computer Methods in Science (2)

Prerequisites: Major in the College of Natural Sciences and Mathematics; and MATH 119A or MATH 122 or consent of instructor. Introduction to computer methods used in collecting, analyzing, and presenting scientific data. Introduces word processing, spreadsheet analysis, and elementary programming. Credit/No Credit grading only. Course fee may be required. (Lecture 1 hr., discussion 1 hr.)

Upper Division

308. Community and Careers in the Health Professions (3) S

Prerequisites: Completion of Foundation Courses, one or more Explorations Courses, upper division status, and 3 units of Natural Sciences coursework. This course is an upper division, service-learning, capstone course designed to develop students' abilities to critically think and analyze issues concerning health care in communities and the roles of professionals involved in the delivery of that care. Topics concerning biomedical ethics are also included. Students will be required to provide service in a community agency providing health care. In class, students will hear guest speakers, participate in discussions, analyze and reflect upon their volunteer experiences and how these experiences relate to in-class topics. This course will enhance oral and written communication skills, better define career goals, provide understanding of community needs and foster greater civic responsibility. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

309I. Women in Science (3) F, S

Prerequisites: Completion of the G.E. Foundation, six-units of general education science courses, and upper-division standing, and permission of instructor. The purpose of this course is to increase awareness of the accomplishments of women in natural science, engineering, and mathematics in their socio-historical context; and the obstacles that have precluded easy access to careers for wom-

en in these areas. Specific topics include historical roles of women in science, contributions of celebrated women scientists, and women scientists who made significant contributions but were ignored or devalued by their scientific peers. Other key issues include stereotypes and images of women in science: cultural, societal, and institutional obstacles to the entry and success of women in science; and ways of overcoming these obstacles. Disciplines included in this course are science, history, and sociology. Letter grade only (A-F). Same course as W/ST 3091. (Lecture 3 hrs.)

333. Natural Science Field Studies (2)

Prerequisites: All with a grade of "C" or better: GEOL 106 or 102 and either 104 or 105; CHEM 100 or 105 or 111A; PHSC 112; BIOL 200; and upper-division standing. The purpose of this course is to provide students with field experience in observation, interpretation and recognition of natural processes and features in the varied natural environments of southern California. The course will be team-taught by a geologist and a biologist. In-class lectures and discussions will provide students with pertinent theoretical and practical knowledge prior to each field trip. Topics of discussion and study will focus on the geological and biological aspects of selected field sites, and on the underlying physical and chemical relationships involved at each site. Specific topics include the following: origin and recognition of faults; earthquake generation and hazards; geologic history of California; effect of mountain-building on climate, nearshore ocean processes, biology of nearshore, marine, estuarine and wetlands habitats; coastal, desert and mountain ecosystems; influence of rock/sediment on plant growth and diversity; geology and biology of lakes; and ground water and surface water flow, storage and contamination. Letter grade only (A-F). (Lecture 1 hr., laboratory and required field trips, 3 hrs.)

375I. Science and Society (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; 3 units of general education natural science courses. The purpose of this course is to learn about the nature of science by studying major discoveries in the life and physical sciences that currently have an impact on our lives. In addition to the basic science that contributed to these technological advances, the historical, political, philosophical, and economic contexts of these events will be examined. Included will be discussions of what is science, how is it done, and is it beneficial or destructive? Traditional views of science will be challenged and the social/cultural aspects will be explored. Recent discoveries and the underlying basic science also will be critically evaluated. A special focus will be the demands placed on society by rapidly advancing technology. Letter grade only (A-F). (Lecture 3 hrs)

490. Special Topics in the Natural Sciences (1-3)

Prerequisites: At least upper division standing in the College of Natural Sciences and Mathematics and consent of instructor. Faculty and student discussions and analysis of a current topic in the natural sciences. Letter grade only (A-F). (Lecture 1-3 hrs.) May be repeated to a maximum of 6 units with different topics.

491. Special Topics Laboratory in Natural Science (1-2)

Prerequisites: Senior standing in the College of Natural Sciences and Mathematics and consent of instructor. Topics from selected areas of the natural sciences. Course content will vary from section to section. May be repeated to a maximum of 2 units toward any single degree. Letter grade only (A-F). (Laboratory 3-6 hrs.)

492. Internships In Natural Science (3)

Prerequisites: Major in the College of Natural Sciences and Mathematics, completion of 9 units of upper division science coursework, a 2.5 GPA overall or 2.75 GPA in the student's major, and consent of the instructor prior to registration. Students who qualify will be placed in a major or career-related assignment in private industry or at a public agency. Students may be placed in either a volunteer or paid work assignment. Teacher aide positions may be used for students interested in pursuing a career in science education in K-12 schools. Learning assignments will be arranged through the Career Development Center and the instructor. A final written report is required. Class attendance and internships to be arranged by the instructor. A minimum of 120 hours of field experience is required. Credit/No credit grading only.

496. Investigations in Natural Sciences and Mathematics (1-3)

Prerequisites: Consent of instructor. Supervised study of current topics in the natural sciences or mathematics by a faculty member in the College of Natural Sciences and Mathematics. Letter grade only (A-F).

Bachelor of Science in Nursing

The baccalaureate program offers courses that prepare the student to become a professional nurse. Two distinct categories of students are eligible for admission: The "basic student" who enters the University without having completed a first level nursing program and the "registered nurse student" who, having completed a course of study at the first level, desires further study to expand her or his nursing capabilities to the BSN professional level. Though each category of student enters at different levels, the terminal objectives of the nursing program are the same for both groups. The "basic student" upon completion of specific courses is eligible to take the examination for licensure to practice as a registered

nurse. All graduates are recommended for certification as a public health nurse in the State of California. The program is accredited by the California State Board of Registered Nursing, and the Commission on Collegiate Nursing Education (Commission on Collegiate Nursing Education, 1 Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, phone: 202-887-6791).

The purpose of the bachelor of science program in nursing is to prepare graduates to function as professional nurses in a variety of settings. Graduates are expected to have acquired foundations for continuing professional development.

The curriculum is formulated to help the student develop understanding of self and others, stimulate intellectual curiosity and to develop an ability to work with colleagues to identify and resolve the health problems of individuals and families in a changing society. The professional nurse, while able to assess and intervene where health deviations exist, is committed to the role of maintaining health and preventing illness in self and others.

Bachelor of Science in Nursing – Basic (code NRSGBS01) (136 units)

Admission Under Impaction

Students must apply for admission to the University as an undeclared or pre-nursing major. The number of applicants to nursing exceeds the number that can be accepted. For this reason nursing applicants are subject to criteria in addition to those required for admission to the University. The "basic student" may apply as a new or transfer student. After the student is accepted in NRSGBS 200 the department submits a change of major to nursing for the student.

To be considered as a nursing major, basic students are required to do the following:

1. Completion of a minimum of 56 semester units of degree credit, including all lower-division General Education requirements, with a cumulative GPA of at least 2.50;
2. Earn a "C" grade or better in all prerequisite courses;
3. Complete a test that assesses ability for logical thinking and problem solving prior to filing an application with the department;
4. Have a personal scheduled interview with a designated nursing faculty member;
5. Submit transcripts of any previous college work to the Nursing Department as well as to the Admissions Office;
6. Students who fulfill the prerequisite requirements will be admitted on a space-available basis, in priority order according to the faculty's judgement of their ability to succeed in the program. California residents are given priority over all other applicants.

Further information regarding admission to program courses is available at group counseling sessions held in the department.

NOTE: A one-time lab fee is charged for student supplies used throughout the pre-licensure courses (sophomore-junior years).

Requirements

Prerequisite Courses: CHEM 202, 302, BIOL 207, 208, MICR 200, or equivalent.

Support Courses: BIOL 204, 304, FCS 339, PSY 100, SOC 100.

Nursing Courses: NRSNG 200, 200L, 202, 250, 250L, 260, 260L, 301, 308, 312, 312L, 331, 331L, 341, 341L, 353, 358, 361, 361L, 371, 371L, 400, 402, 402L, 450, 450L, 452A or B or D, or 453L, or 454L or 456L.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Bachelor of Science in Nursing - Registered Nurse (code NRSGBS02) (131 units)

Admission Requirements

Registered Nurse Applicants are required to apply for admission to the University and do the following:

1. Hold a current license or be eligible for license to practice in California;
2. Graduation from an Accredited Associate Degree program or evaluation of diploma program for equivalency by an Accredited Associate Degree program;
3. Have 56 transferable units;
4. Obtain malpractice insurance once in the clinical courses;
5. Attend a group counseling session for RN students and complete the RN application form;
6. Submit official transcripts of any previous college work to the Nursing Department;
7. A passing score on the Writing Proficiency Examination must be earned either prior to or within the first year in the program.

Graduates of diploma schools of nursing are urged to seek information/admission to a community college that offers the opportunity to earn academic credit for a diploma nursing program.

Requirements

Required Support Courses: CHEM 302 and BIOL 304. One three unit course out of the following science courses: MICR 303, BIOL 309I, and 401; one three unit out of the following counseling courses: SOC 336, PSY 351 or FCS 312I; one three unit course out of the following communication courses: COMM 330, 410, 411, 432 or ANTH 412I; one three unit course out of the following critical thinking or logic courses: COMM 331, PHIL 363, 381 or 382.

Required Nursing Courses: NRSRG 312, 312L, 400, 402, 402L, 450, 450L, and one of the following: 452A, and 453L; 452B and 454L; 452D and 456L.

Course of Study

A specific combination of general education, prerequisites, nursing and elective courses totaling 132 units for the basic program and 131 units for the R.N. program are required for

graduation. All nursing courses in the nursing program must be taken in sequence. In general, the number assigned to each nursing course indicates where it occurs in the sequence. Admission to the first course is by application which will be accepted upon successful attainment of the criteria listed above. The last date to file applications for each semester will be available in the Nursing Department. Progress in the nursing major requires that students maintain a cumulative 2.0 GPA on all units attempted and attain a minimum of a "C" grade in each of the nursing courses as well as all required support courses. The student who earns less than a grade of "C" must repeat that course prior to being admitted to the next course in the nursing course sequence. A nursing course may be repeated one time. The nursing sequence of courses requires a minimum of six semesters for the "basic student". A break in the sequence of nursing courses necessitates readmission on a space-available basis.

THREE YEAR PLAN TO COMPLETE THE BS DEGREE IN NURSING (REGISTERED NURSE) (NRSGBS02))

131 UNITS REQUIRED DEPARTMENT OF NURSING:

Semester 1		Semester 2

This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Master of Science in Nursing

The master of science degree is available to qualified students who desire advanced preparation in a variety of clinical specialty areas. The program is approved by the Board of Registered Nursing, and accredited by the Commission on Collegiate Nursing Education (1 Dupont Circle, NW, Suite 530, Washington, DC, 20036-1120, phone: 202-887-6791).

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health.

The focal point in this curriculum is the nursing process with strong components of clinical medical knowledge complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of student's choice.

The graduate will have the knowledge and skill to function as an advanced practice nurse in one of several specialty areas. Nursing research skills and the application of nursing theory to practice are major emphases of the curriculum. Each applicant should request a copy of the official transcript of all college course work be sent to the department graduate program of nursing in addition to the copies required by the Office of Admissions and Records.

Prerequisites

1. A bachelor's degree in nursing preferred: A bachelor's degree in a related field will be considered;
2. Current license to practice as a registered nurse in California; PHN Certificate needed for concurrent MSN/MPH program;
3. Admission to graduate standing in nursing at the University;
4. An upper division or graduate course in statistics;
5. A physical assessment course which includes clinical practice (all specialty areas except concurrent MSN/MPH);
6. An upper division of graduate level course in pathophysiology (all specialty areas except concurrent MSN/MPH);
7. An upper division public health nursing course;
8. An overall GPA of 2.75 or better in the last 60 units of the undergraduate BSN Program.

Additional Prerequisites for Concurrent MSN/MPH Program

9. An ethics course
10. A cultural diversity course
11. Graduate Record Examination (GRE) - verbal and quantitative scores.
12. Current professional resume describing applicant's relevant experience.

Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy;
2. Completion of all undergraduate deficiencies;
3. Successful completion of the CSULB Writing Proficiency Examination;
4. Approval of the department graduate advisor and Director of Graduate Studies and Research, College of Health and Human Services.

The M.S. in Nursing requires completion of the required courses in one of the following specialty areas: Adult/Geriatric, Family, Pediatric, Psychiatric/Mental Health. A Nurse Practitioner Certificate is awarded to students who complete the required courses in one of the following Nurse Practitioner specialty areas:

Nurse Practitioner Certificate (code NRSCT01)

Family Nurse Practitioner

Requirements

Completion of NRS 510, 520, 530, 540, 550, 560, 682, 682 A&B, 683, 683 A&B.

Pediatric Nurse Practitioner

Requirements

Completion of NRS 510, 520, 530, 540, 550, 560, 684, 684 A&B, 685, 685 A&B.

Adult-Geriatric Nurse Practitioner

Requirements

Completion of NRS 510, 520, 530, 540, 550, 560, 686, 686 A&B, 687, 687 A&B.

Psychiatric-Mental Health Nurse Practitioner

Requirements

Completion of NRS 510, 520, 530, 540, 550, 560, 688, 688 A&B, 689, 689 A&B.

Health Services (School Nurse) Credential Program (code 600)

The Health Services (School Nurse) credential is required of registered nurses working in the California school system.

Admission

1. Copies of transcripts of Baccalaureate in Nursing and Masters in Nursing (with a Pediatric Nurse practitioner speciality) degrees;
2. Copy of State of California RN licensure and entitlement as a Nurse Practitioner;
3. Three letters/checklists of reference;
4. Completion of the Department of Nursing Graduate Program Application.

Requirements

Completion of the following course work with a grade of "B" or better;

1. NRS 680C and 680L;
2. H SC 430;
3. CD 373.

Master of Science in Nursing (code NRSMS01)

Requirements

1. Completion of a minimum of 37 units in approved upper division and graduate courses;
2. For Family Nurse Practitioner, Pediatric Nurse Practitioner, Adult-Geriatric Nurse Practitioner and Psychiatric-Mental Nurse Practitioner Programs completion of NRS 510 (2 units), 520 (2 units), 530 (2 units), 540 (2 units), 560 (2 units), 596 (3 units) and 695 (3 units) or 698 (4 units). For Women's Health Care, completion of NRS 560 (2 units), 596 (3 units), 660B (3 units), 680A, B, C (at least six units), 680L series (at least 9 units) or 698 (4 units);
3. An overall GPA of 3.0 or better;
4. Completion of an approved thesis or comprehensive examination.

Master of Science in Nursing/Master of Public Health (code NRSGMN01)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus of primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies.

Health Education Option

Requirements

1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRSRG 560, 565, 670, 671, 680C, 670L, 671L, 680CL; NRSRG 596 or HSC 696; NRSRG 698 or HSC 697.
2. An overall GPA of 3.0 or better in all courses
3. A thesis or a directed project (Department of Health Science only)
4. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met.

Master of Science in Nursing/Master of Science in Health Care Administration (code NRS GMC01)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with emphasis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health agencies. An important career path for advanced practice nurses is as nurse executive in the variegated segments of the health care industry including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

Admission Requirements

In addition to the MSN prerequisites

1. Public Health Nurse Certificate, or eligibility for certificate in California.
2. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
3. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
4. Current professional resume describing the applicant's relevant experience.

Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status.

Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:
The Program of Study: NRSRG 559, 560, 596, 680A, 680B, 680C, 680AL, 680BL, 680CL, 698, HCA 502, 505, 510, 515, 524, 530, 535, 550, 698
2. An overall GPA of 3.0 or better in all courses.
3. Directed project or a thesis.
4. *Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.
5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.
* 60% of units must be earned in residence

Courses (NRSRG)

Lower Division

200. Introduction to Nursing Health Care (3)

Prerequisites: Admission to nursing program; Corequisites: NRSRG 200L, 202, BIOL 204, FCS 339 or consent of instructor. Development of concepts of high level wellness and self care. Introduction to physical and social science principles which provide the basis for beginning level nursing theory and practice. Introduction to the nursing process and the framework for nursing practice. Letter grade only (A-F). (Lecture-Discussion, 3 hours)

200L. Introduction to Nursing Health Care Clinical (3)

Prerequisites: Admission to nursing program; Corequisites: NRSRG 200, 202, BIOL 204, FCS 339 or consent of instructor. This course is designed to provide guided utilization of beginning level theory and skill in a simulation laboratory. Opportunity is provided for the student to experience clinical practice based on the concepts of the nursing process and the framework for nursing practice. Course fee required for materials to be used throughout the pre-licensure program; non-refundable fee. May be repeated to a maximum of 6 units. Credit/No credit grading only. (Laboratory 9 hours)

202. Health Care Communication (2)

Prerequisites: Admission to the nursing program, or consent of instructor. Corequisites: NRS 200, 200L, FCS 339, BIOL 204, or consent of instructor. Primary focus is on communication theory, helping modes and communication with diverse people. Introduction to understanding the psycho-social and cultural factors which influence the responses to and on the health professional-client interaction. Clinically oriented simulated projects and activities provide opportunities for application of theory. Letter grade only (A-F). (Lecture-discussion, 2 hours)

250. Intermediate Nursing Health Care (3)

Prerequisites: NRS 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: NRS 250L, 312, 312L, 260, 260L, BIOL 304; or consent of instructor. Exploration of the illness experiences and health deviations related to various medical and surgical etiologies and pathological states. The focus is on the independent and collaborative nursing practice utilizing the nursing process. Emphasis is on illness care and health restoration, illness prevention, and health promotion. Multicultural influences on health care are considered. Letter grade only (A-F). (Lecture-discussion 3 hours)

250L. Intermediate Nursing Health Care Clinical Studies (3)

Prerequisites: NRS 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: NRS 250, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. This course is a clinical practicum focusing on the application of the nursing process and collaborative care to patients experiencing illness and health deviations due to various medical surgical etiologies and pathological states. Letter grade only (A-F). (Laboratory 9 hrs)

260. Older Adult Health Care (2)

Prerequisites: NRS 200, 200L, 202, FCS 339, BIOL 204 or consent of instructor. Corequisites: NRS 260L, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. This course is a study of the delivery of optimum health care to the aging client within the framework of the nursing process. Emphasis is on understanding the unique needs of the aging population, encouraging health promotion and self-care, identifying variable responses of elderly clients to pathological conditions, and maintaining a level of function that promotes quality of life. Letter grade only (A-F). (Lecture-Discussion)

260L. Older Adult Health Care Clinical Studies (2)

Prerequisites: NRS 200, 200L, 202, FCS 339, BIOL 204, or consent of instructor. Corequisites: NRS 260, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. This clinical course provides the student the experience of applying the nursing process to care of the aging client in a variety of settings. Letter grade only (A-F). (Laboratory 6 hours)

301. Psychological Aspects of Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 331, 331L, 341, 341L, 358, or consent of instructor. This course presents an exploration of psychosocial concepts, cultural and environmental factors relative to wellness/illness of individuals and family groups with special attention to physically ill individuals. Group interaction is directed toward development of self-awareness as well as development of the professional role. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 300.

308. Human Life Cycle 1 (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 353, 361, 361L, 371, 371L, or consent of instructor. Study of the physiological, social, intellectual and emotional development of persons as individuals and as family members from conception through adolescence including nursing implications for fostering optimal development. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 307.

309. Dimensions of Professional Nursing (2)

Prerequisite: Admission to the ADN to BSN program. An introduction to professional role transition as it relates to being a university student in a baccalaureate nursing program. The focus of this course is on analysis of roles as the learner moves from a technical to professional role in nursing. The dimensions of professional nursing and the responsibilities of the nursing profession as a social force will be explored. The course also will include skills training in a professional literature search, application of research in a written format, and an oral presentation. All RN to BSN students entering the program will be required to complete this course in the first semester. Letter grade only (A-F). (Lecture/Discussion).

312. Health Assessment (2)

Prerequisites: NRS 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: NRS 250, 250L, 260, 260L, 312L, BIOL 304, or consent of instructor. This course covers the techniques of history taking and physical examination of healthy individuals. These techniques are used by the nurse in identification of patient problems. Letter grade only (A-F). (Lecture/Discussion).

312L. Physical Assessment for Nurses Lab (1)

Prerequisites: NRS 200, 200L, 202, BIOL 204, FCS 339, or consent of instructor. Corequisites: NRS 250, 250L, 260, 260L, 312, BIOL 304, or consent of instructor. This course provides the opportunity for the student to apply techniques of history taking and physical examination which are used by the nurse in identification of patient problems. Included demonstration and practice of physical assessment methodology. Letter grade only (A-F). (Technical activities and laboratory 2 hours)

331. Critical Care Nursing (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRS 301, 331L, 341, 341L, 358, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 360.

331L. Critical Care Nursing Clinical Studies (3)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRS 301, 331, 341, 341L, 358, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRS 360L.

341. Psychiatric/Mental Health Nursing (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341L, 358, or consent of instructor. This course presents the theory base for psychiatric/mental health delivery system. Cultural, ethical, economic and legal influences on mental health will be considered. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 370.

341L. Psychiatric/Mental Health Nursing Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341, 358, or consent of instructor. This course provides the clinical experiences for students to apply the theories learned in NRS 341. The student will utilize the nursing process to apply theories and implement care for clients with psychiatric and mental health issues. (Lecture-Discussion). Not open to students with credit in NRS 370L.

353. Legal Aspects of Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 361, 361L, 371, 371L, or consent of instructor. This course presents the legal duties and responsibilities of nurses in the delivery of health care services. Professional licensure regulations, scope of nursing practice, and ethical issues related to nursing practice are emphasized. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 351.

358. Human Life Cycle II (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341, 341L, or consent of instructor. Study and application to nursing of the physiological, social, intellectual, and emotional development as persons as individuals and as family members from young adulthood through old age. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 357.

361. Child Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 361L, 371, 371L, or consent of instructor. Theoretical base for pediatric nursing practice, including the care of the well and ill child from birth through adolescence. Pathophysiology of specific body systems and appropriate nursing interventions are described. Cultural and growth and development variations, psychological development, and family roles and structures are also considered. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 340.

361L. Child Health Care Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 361, 371, 371L, or consent of instructor. Opportunities for the student to apply theoretical concepts from NRS 361 in various clinical settings and to a variety of pediatric clients and their families. The student will assess the physical, psychological, and cultural status of the ill child. The student will plan, implement, and evaluate age appropriate nursing care for clients with common pediatric disorders. Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRS 340L.

371. Women's Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, or consent of instructor. Corequisites: NRS 308, 353, 361, 361L, 371L, or consent of instructor. Focus on the family during the childbearing period and common health problems of women. Includes assessment, intervention and evaluation of normal clients and those at risk of complications during pregnancy and/or childbirth and common gynecological problems of women, the childbearing period, gain (adding of family member) and family roles are addressed. Letter grade only (A-F). (Lecture-Discussion). Not open to students with credit in NRS 330.

371L. Women's Health Care Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 361L, 371, or consent of instructor. This course provides the opportunity to apply theoretical concepts from NRS 371 in a supervised clinical setting. Supervised care is provided to the childbearing family at all stages in the cycle-antepartum, intrapartum and postpartum-including the normal newborn and newborn requiring intensive care. Assessment of potential complications and variations from normal, and implementation and evaluation of care are the basis for application knowledge. Letter grade only (A-F). (Laboratory 9 Hours). Not open to students with credit in NRS 330L.

400. Health Care Delivery Systems (3)

Prerequisites: consent of instructor; for RNs: BIOL 304; or consent of instructor. Corequisites: NRS 402, 402L, or consent of instructor. Study of the health care delivery systems with emphasis on the role of nursing within these systems. Emphasis is upon less well defined problems and their causes, original and creative nursing interventions and in-depth study of the impact of political, economic and social issues of the health care delivery system. Letter grade only (A-F). (Lecture-Discussion)

402. Community Health Nursing (3)

Prerequisites: consent of instructor. Corequisites: NRS 402L, 400; or consent of instructor. This course focuses on diversified and/or permanent interruptions in the health-illness continuum and associated nursing care for aggregates in non-acute institutions and community facilities. Content emphasizes the variety of life styles and diversified ethnic groups. Letter grade only (A-F). (Lecture-Discussion)

402L. Community Health Nursing Clinical Studies (4)

Prerequisites: consent of instructor; for RNs: BIOL 304, or consent of instructor. Corequisites: NRS 402, 400; or consent of instructor. This course focuses on developing the expertise to work with diversified and/or permanent interruptions in the health-illness continuum and provides appropriate nursing interventions for aggregates in non-acute facilities. Experiences emphasize providing health care to groups with a variety of life styles and diversified ethnic groups. Letter grade only (A-F). (Laboratory 12 hours)

405./505. Holistic Nursing Interventions Across the Lifespan (3)

Prerequisites: Senior standing or graduate status. This course will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Letter grade only (A-F).

420. Prepared Childbirth Teachers (7)

Prerequisites: Must be RN, MD, RPT, or other health professional with a bachelor's degree. This program is designed to prepare persons to educate expectant parents in the psychoprophylactic method of childbearing most commonly referred to as the "Lamaze" method of childbirth. Over a 6 month period, this intensive program will cover: childbirth preparation including pregnancy, labor and delivery as well as pain management and teaching strategies. In addition to the 72 classroom hrs (4 units), there are 135 lab hours which include a minimum of 10 labor and delivery observations and 2-3 hours per week observing classes and a student teaching experience. Successful completion of the course makes the participant eligible for certification from the American Society for Psycho-prophylaxis in Obstetrics.

450. Nursing Research and Administration (3)

Prerequisites: NRS 400, 402, 402L, BIOL 304, NRS 400, or consent of instructor. Corequisites: NRS 452, 452L, 450L; or consent of instructor. The application of the nursing process using research methodology, teaching and learning theory in selected clinical settings. The latter part of the course will focus on leadership and management theories and skills as they relate to clinical practice. Letter grade only (A-F). (Lecture-Discussion 3 hours)

450L. Nursing Research Seminar (1)

Prerequisites: NRS 400, 402, 402L, BIOL 304, NRS 400, or consent of instructor. Corequisites: NRS 452, 452L, 450; or consent of instructor. The application of the nursing process using research theory in selected clinical settings. Letter grade only (A-F). (Lecture 1 hour)

452A. Advanced Nursing in Critical Care (2)

Prerequisites: NRS 400, 402L, 402 or consent of instructor. Corequisites: NRS 452L-A, 450, 450L; or consent of instructor. A study of critical care/emergency department health care delivery systems and theories of management and leadership with their application to selected settings. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Letter grade only (A-F). (Clinical process)

452B. Advanced Maternal Child Health in Nursing (2)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-B, 450, 450L; or consent of instructor. This course is a study of advanced concepts in maternal-child nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of maternal-child nursing care in in-patient and out-patient health care delivery settings and on nursing management models that incorporate unique client problems in selected patient populations. The integration of advanced maternal-child nursing concepts in clinical settings with management knowledge is investigated in selected settings. Letter grade only (A-F). (Clinical process)

452D. Advanced Nursing in Community Mental Health (2)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-D, 450, 450L or consent of instructor. This course is a study of advanced concepts in the area of clinical specialization in community mental health nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health care clinical and management knowledge essential to role fulfillment in selected settings is investigated. (Clinical process) Letter grade only (A-F).

453L. Advanced Nursing in Critical Care Clinical Studies (4)

Prerequisites: NRS 402, 402L, or consent of instructor. Corequisites: NRS 452A, 450, 450L or consent of instructor. This course is designed to provide clinical experiences in the critical care/emergency departments of health care delivery systems and application of theories of management and leadership. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Letter grade only (A-F). (Laboratory 12 hours)

454L. Advanced Nursing in Maternal-Child Clinical Studies (4)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452B, 450, 450L; or consent of instructor. This course is designed to provide clinical experiences in the application of advanced concepts in maternal-child nursing and the application of theories of management, leadership, and administration as they are applied to selected settings. An unique client problems in selected patient populations encountered in maternal-child nursing. Opportunity to integrate clinical and management knowledge in maternal-child clinical settings is provided. Letter grade only (A-F). (Laboratory 12 hours)

456L. Advanced Nursing in Community Mental Health Clinical (4)

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452D, 450, 450L or consent of instructor. This course is designed to provide clinical application of advanced concepts in Community Mental Health and application of theories of management, leadership, and administration in selected settings. An emphasis is place on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health clinical and management knowledge essential to role fulfillment in selected settings is investigated. Letter grade only (A-F). (Laboratory 12 hours)

481I. Parenting (3)

Prerequisites: ENGL 100 and upper division status. Effective parenting with emphasis on common parenting concerns and the developmental tasks of parents and children.

***482. Health Assessment of the Aging Client (3)**

Prerequisites: GERN 400I or equivalent and upper division standing or consent of instructor. Assessment of the physical, psychological and social status of the aging client as these factors affect health and well being. Course is designed to assist those working with the aging client in a variety of settings to identify actual or potential health related problems using a variety of tools and techniques. Same course as GERN *482. (Lecture-discussion, 3 hours)

490. Independent Study (1-3)

Prerequisite: Consent of any nursing faculty. Students who have made prior arrangements with a faculty advisor for appropriate learning objectives may enroll. May be repeated to a maximum of 6 units.

499./599. Special Topics in Nursing (1-3)

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. May be repeated to a maximum of 3 units with different topics.

Graduate Level**502. Genetics in Nursing Practice (3)**

Prerequisites: Senior standing or graduate status or consent of instructor. This course will provide an overview of the genetics implications for nurses as they provide health services to clients of all ages, diverse ethnic, cultural, life-style and geographic areas. This course will explore the basic mechanisms of genetic inheritance and the impact that genetics has on health promotion and disease prevention. Students will examine the social, ethical, legal, cultural, policy, and professional implications of the integration of genetics into their health practice. Letter grade only (A-F).

505./405. Holistic Nursing Interventions Across the Lifespan (3)

Prerequisites: Senior standing or graduate status. This course will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Letter grade only (A-F).

510. Advanced Pathophysiology for Advanced Practice Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course presents the principles of human functional and homeostatic mechanisms, as well as underlying mechanisms operant during disturbance of human functional and homeostatic mechanisms. The course materials build upon the framework of understanding developed in the undergraduate upper-division pathophysiology course. Understanding of concepts of integration and communication between organs systems will be explored and will be applied to gain greater knowledge of disturbances at the cellular level which result in aberrant organ and system function. This course is prerequisite to the nursing 680 series courses. Letter grade only (A-F). (Lecture-Activity)

520. Advanced Pharmacology for the Advanced Practice Nurse (3)

Prerequisites: Admission to the graduate nursing program, must be taken concurrent with NRSG 510 or consent of the instructor. This course is designed to meet the needs of students in the nurse practitioner program and practicing nurse practitioners for advanced knowledge about pharmacological agents useful in the management of a variety of common clinical situations. The course is also designed to meet the BRN pharmacology course requirement for the nurse practitioner to furnish drugs or devices pursuant to the Business and Professions Code, Section 2836.1. A theoretical framework establishing the importance of advanced pharmacological knowledge to the full implementation of the nurse practitioner role will be presented. Following a review of the basic science concepts essential to an understanding of drug pharmacokinetics, pharmacodynamics, and interactions, a physiological systems approach will be applied. This approach allows a greater understanding of the effect of common drugs utilized in primary care/family planning settings in the provision of perinatal care, family planning services and/or routine health care in essentially healthy persons. Ethical/legal issues, as well as a review of the California furnishing bill and standardized procedures will be covered. This course is not designed to supersede or replace dosage and treatment protocols established within the nurse practitioner's setting for clinical practice. The course is prerequisite to the nursing 680 series courses. Letter grade only (A-F).

530. Advanced Physical Assessment for Advanced Practice Nurses (2)

Prerequisites: Admission to the graduate nursing program or consent of the instructor. This core course is designed to provide through classroom instruction and experiences, advanced knowledge and diagnostic skill development in physical assessment of client often encountered by the advanced practice nurse. The assessment role of the nurse is further expanded to include client education and the cooperative synthesis of wellness strategies to optimize health. This course is prerequisite to the NRSG 680 series courses. Letter grade only (A-F). (Technical activity and laboratory 4 hours)

540. Health Care Economics, Policy, and Management for Advanced Practiced Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course examines the advanced practice nurse's relationship to policy formation, health care economics, and health care organizations. Analysis of the health care delivery system will include the increasing levels of public, governmental, and third party participation in policy formation. Emphasis of this course will be analysis of health policy and its effect on the practice environment. The course explores the issues of health care organization, health care financing, and delivery within integrated care systems to include community and the organization of community based systems of care. Students are prepared to provide quality cost effective care, participate in the design and implementation of care in a variety of health systems, utilize computerized data bases, and assume a leadership role in managing human, fiscal, and physical health care resources. Included is the definition of primary health care by the World Health Organization which addresses the issues of poverty and public health, and the relationship of these issues to improving health care delivery and client outcomes. This course is prerequisite to the NRSG 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

550. Human Diversity and Psychosocial Issues in Health Care for Advanced Practice Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course focuses on the cultural sensitive nursing principles of advanced practice nursing, selected strategies, and negotiations with patients. An emphasis is placed on complex psychosocial assessment, interdisciplinary approaches and special populations. This course is prerequisite to the NRSG 680 series course. Letter grade only (A-F). (Lecture-Discussion)

556A. Conditions of Learning and Instruction in Nursing (3)

A systematic study of theories of learning and instruction as they apply to patient and/or student teaching-learning situations. Content covered includes conditions of learning, models of instruction, transfer of learning, behavior modification techniques, variables influencing learning and instruction, and evaluation of instruction. Letter grade only (A-F).

556B. Curriculum Development in Nursing (3)

A critical appraisal of patterns of nursing education as considered from the standpoint of the changing order. A systematic study of principles of curriculum development as they apply to different types of nursing programs. Focuses on the relationship between philosophy, objectives, the selection and organization of learning experiences and the evaluative process. Letter grade only (A-F).

556L. Theoretical Concepts Laboratory of Nursing Education (1-4)

Instructional skills and the application of theories of learning and instruction to the practice and teaching of nursing within a supervised practice-teaching situation. Reference to ways teaching skills relate to broader educational issues such as teaching/learning theory. May be repeated to a maximum of 4 units. Letter grade only (A-F).

559. Nursing Administration (3)

Theories, issues and application of techniques pertaining to management applicable to nurses in the clinical setting. Letter grade only (A-F).

560. Professional Foundations of Theoretical and Professional Roles in Advanced Nursing Practice (2)

Prerequisites: Admission to graduate nursing program or consent of instructor. The study of theoretical framework and professional roles influencing advanced practice nursing. Specifically, content will address the dynamic nature of the profession and its roles. Student will review and analyze the major theoretical frameworks for advanced practice from nursing and related fields. They will be introduced to the changing nature of role ambiguity, role boundaries in addition to the need to work in a collaborative relationship with other health professionals. This course is prerequisite to the NRSG 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

565. Theories of Community/Public Health Nursing (3)

Prerequisites: NRSG 560 or consent of instructor. Analysis, synthesis, and application of conceptual frameworks from nursing science, public health science, leadership, and other related disciplines to community/public health nursing practice to include population-focused theory and the epidemiological process model. Focus on the provision of health promotion and prevention services to underserved populations and communities. (Seminar, 3 hours) Letter grade only (A-F).

590. Independent Study (1-3)

Prerequisite: Consent of a nursing faculty member. Independent research under the supervision of a nursing faculty member. Letter grade only (A-F).

596. Research Methods in Nursing (3)

Prerequisites: Admission to graduate program in nursing, upper division statistic course. The focus of this course is on the research process in nursing, including the use and testing of nursing theories, development of research proposals that includes conceptualization of the problem, literature search, study design, data collection, analysis and interpretation of findings. The legal and ethical aspects of research are stressed. This course is prerequisite to the nursing 680 series courses. Letter grade only (A-F). (Lecture-Discussion)

599./499. Special Topics in Nursing (1-3)

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. Credit may be earned for course each time a new topic is offered. Letter grade only (A-F).

660B. Theoretical Base for Advanced Nursing Practice (3,3)
Prerequisites: Pathophysiology, Physical Assessment or consent of instructor. Study of the relationship of psycho-social theory to health care with an emphasis on the application of theory to clinical practice. Various sections will focus on different areas of clinical interest. Letter grade only (A-F).

670. Community Health Theories for Advanced Practice Nursing I (3)

Prerequisites: NRS 565 or consent of instructor. Corequisite: NRS 670L. This course examines the C/PHN leadership roles in health program and policy planning for aggregates, populations, and communities. Theories of community assessment, health program planning and health policy planning will be explored. The focus of the course will be the integration of nursing and public health theories in the assessment and development of health programs for underserved and ethnically diverse populations. (Seminar, 3 hours) Letter grade only (A-F).

670L. Advanced Community/Public Health Nursing Clinical I (3)

Prerequisites: NRS 565 or consent of instructor. Corequisite: NRS 670. A clinical course offering experience in applying concepts, issues, and principles of program and policy planning in selected settings to prepare the student for advanced nursing practice. Focuses on expanding skills of community assessment, program planning and policy development to meet the health care needs of culturally diverse and underserved populations. The clinical experience involves preceptored C/PHN community focused placement and completion of a health project for identified populations and/or communities. (Clinical, 9 hours) Letter grade only (A-F).

671. Community Health Theories for Advanced Practice Nursing II (3)

Prerequisites: NRS 670, 670L or consent of instructor. Corequisite: NRS 671L. This course will examine the Community/Public Health Nursing (C/PHN) roles in health program and policy implementation for aggregates, populations, and communities. Theories of community health program and health policy implementation will be explored. The focus of the course will be the integration of nursing and public health theories in the utilization of intervention strategies in implementing health programs for underserved and ethnically diverse populations. (Seminar, 3 hours) Letter grade only (A-F).

671L. Advanced Community/Public Health Nursing Clinical II (3)

Prerequisites: NRS 670, 670L, or consent of instructor. Corequisite: NRS 671. A clinical course offering experience in applying concepts, issues, and principles of program and policy implementation in selected settings to prepare the student for advanced nursing practice. Focuses on expanding skills of community, program and policy implementation to meet the health care needs of culturally diverse and underserved populations. The clinical experience involves preceptored C/PHN community focused placement and completion of a health project for identified populations and/or communities. (Clinical, 9 hours) Letter grade only (A-F).

680A,B,C. Theories for Extended Nursing Practice (3,3,3)

Prerequisites: A physical assessment course (including 60 hours laboratory practice), BIOL 304 or consent of instructor. Normal and pathological conditions and the management theory base applicable for the advanced practice nurse in clinical areas of concentration. May be repeated to a maximum of 6 units in each suffix. Letter grade only (A-F).

680L. Clinical Studies in Nursing (3)

A laboratory course offering clinical experience in selected settings to prepare the student for advanced nursing practice. May be repeated to a maximum of 9 units with different topics.

682. Family Theories for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 550, 560, 596 or consent of instructor. The primary focus of this course is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and family theory base applicable for the role of the family nurse practitioner is presented. Letter grade only (A-F).

682A. Family Clinical Studies for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; clinical pretest; corequisite, NRS 682. This is the first of two courses designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit grading only. (Laboratory 9 hours)

682B. Family Clinical Studies for Advance Practice Nursing II (3) F

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 682. This is the second of two course designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit only. (Laboratory 9 hours)

683. Family Theories for Advance Practice Nursing II (3) S

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor. The primary focus of this course is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and family theory base applicable for the role of the family nurse practitioner is presented. Letter grade only (A-F).

683A. Family Clinical Studies for Advance Practice Nursing III (3) S

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, clinical pretest; corequisite: NRS 683. This is first of two courses designed to allow the student additional opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on further socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Letter grade only (A-F). (Laboratory 9 hours)

683B. Family Clinical Studies for Advance Practice Nursing IV (3) S

Prerequisites: Admission to graduate nursing program, NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 683. This is second of two courses designed to allow the student additional opportunity to apply theoretical concepts and expand clinical knowledge. Letter grade only (A-F). (Laboratory 9 hours)

684. Pediatric Theories for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor. This course presents the theory base for well child care applicable to the role of the pediatric nurse practitioner. Content focuses on preventive health care and well child management of children from infancy through adolescence. The specific topics covered are well child, anticipatory guidance, family theory, child and family response to stress, childhood maltreatment, violence and substance abuse, professional issues and related research. Letter grade only (A-F).

684A. Pediatric Clinical Studies for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 684. This course is the first of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)

684B. Pediatric Clinical Studies for Advance Practice Nursing II (3) F

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 684. This course is the second of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child, and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours)

685. Pediatric Theories for Advance Practice Nursing II (3) S
Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor. The primary focus of this course, at the advanced level, is diagnosis, treatment and management of common pediatric condition/disorders by the pediatric nurse practitioner. The specific topics covered are the management of common pediatric dermatological, ENT, ophthalmic conditions, allergy, respiratory, gastrointestinal, genitourinary, cardiovascular, neurological/learning disorders, infectious diseases, hematological, congenital anomalies/genetic disorders, endocrine, orthopedic and sport injuries. Letter grade only (A-F).

685A. Pediatric Clinical Studies for Advance Practice Nursing III (3) S

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 685. This is the first of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

685B. Pediatric Clinical Studies for Advance Practice Nursing IV (3) S

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 685. This is the second of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

686. Adult/Geriatric Theories for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor, clinical pretest. This course presents the epidemiology, etiology, differential diagnosis, management and prevention of selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of healthcare. Letter grade only (A-F).

686A. Adult/Geriatric Clinical Studies in Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRS 686. This course is the first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)

686B. Adult/Geriatric Clinical Studies in Advance Practice Nursing II (3) F

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; a clinical pretest; corequisite NRS 686. This course is the second of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours)

687. Adult/Geriatric Theories for Advance Practice Nursing II (3) S

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor, a clinical pretest. This course presents continued epidemiology, etiology, differential diagnosis and management and prevention of additional selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and a further delineation of the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and the management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of health care. Letter grade only (A-F).

687A. Adult/Geriatric Clinical Studies in Advance Practice Nursing III (3) S

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRS 687. This clinical course is the first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)

687B. Adult/Geriatric Clinical Studies in Advance Practice Nursing IV (3) S

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor, a clinical pretest; corequisite: NRS 687. This clinical course is the second of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Letter grade only (A-F). (Laboratory 9 hours)

688. Psychiatric/Mental Health Theories for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596 or consent of instructor. Study of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of clients of psychiatric facilities and community mental health agencies. Letter grade only (A-F).

688A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing I (3) F

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRS 688. This course is the first of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit only. (Laboratory 9 hours)

688B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing II (3) F

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560 or consent of instructor; corequisite: NRSG 688. This course is the second of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit grading only. (Laboratory 9 hours)

689. Psychiatric – Mental Health Theories for Advance Practice Nursing II (3) S

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor. This course is the continued study at an advanced level of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of client of psychiatric facilities and community mental health agencies. Letter grade only (A-F).

689A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing III (3) S

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 689. This course is the first of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

689B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing IV (3) S

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596 or consent of instructor; corequisite: NRSG 689. This course is the second of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Letter grade only (A-F). (Laboratory 9 hours)

695. Professional Literature (3)

Prerequisites: NRSG 596, consent of graduate and program advisors, advancement to candidacy. Critical analysis and synthesis by comparative review of professional literature in nursing practice, theory, and research. Not open to students taking NRSG 698. Letter grade only (A-F).

698. Thesis (1-4)

Prerequisites: Admission to Graduate Nursing Program, advancement to candidacy, NRSG 596, consent of department graduate advisor. Planning, preparation and completion of a thesis in clinical nursing. Letter grade only (A-F).

OCEAN STUDIES INSTITUTE

College of Natural Sciences and Mathematics

Director

Richard Pieper

Location

Fish Harbor

820 S. Seaside Ave.

Terminal Island, CA 90731

Telephone

(310) 519-3172

FAX

(310) 519-1054

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The Ocean Studies Institute was created in 1972 to coordinate teaching, research and community service in ocean studies on member campuses. Members include Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Marcos. The Institute does not offer degrees, but it serves as an administrative liaison to facilitate degree programs offered on member campuses.

The Institute operates a 76-foot research vessel for teaching and research purposes, obtains research grants and contracts, performs research, and is responsible for curriculum planning and facilities acquisition. Presently the Institute serves over 35 departments across eight campuses.

The courses and research in which the Institute is active reflect the broad applied approach of interdisciplinary, mission-oriented projects in harbors and the coastal zone.

Courses (OSI)

Upper Division

313. Marine Invertebrate Zoology (4)

Prerequisite: BIOL 211A, B. Basic taxonomy, morphology, ecology, and distribution of invertebrates, excluding insects; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

345. Physiology of Marine Animals (4)

Prerequisite: BIOL 211A, B. Comparison of the fundamental physiological processes of the major marine phyla, both invertebrate and vertebrate. Laboratory and field investigations will be directed toward marine animals living in the local waters. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

353. Marine Biological Processes (4)

Prerequisite: BIOL 211A, B. Study of pelagic and benthic marine ecosystems, including human influences. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

417./517. Marine Benthic Invertebrates of Santa Catalina Island (4)

Prerequisite: OSI 313 or 353. (Undergraduates register in OSI 417; graduates register in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

419./519. Marine Ichthyology (4)

Prerequisite: OSI 353. (Undergraduates register in OSI 419; graduates register in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

420./520. Ecology of Marine Fishes (4)

Prerequisite: OSI 419/519. (Undergraduates register in OSI 420; graduates register in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

425./525. Marine Phycology (4)

Prerequisite: BIOL 211A, B. (Undergraduates register in OSI 425; graduates register in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

455./555. Marine Ecological Processes (4)

Prerequisite: OSI 353 or BIOL 350; statistics recommended. (Undergraduates register in OSI 455; graduates register in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. (Lecture 2 hrs., field 6 hrs.) Course fee may be required. Letter grade only (A-F).

458./558. Ecology of Southern California Marine Plankton (4)

Prerequisite: OSI 353. (Undergraduates register in OSI 458; graduates in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

460./560. Oceanographic Techniques (4)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 460; graduates register in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students become familiar with oceanographic equipment and methodologies that emphasize on-the-job training aboard ship and in the laboratory. (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

490./590. Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490; graduates register in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. (Lecture 1-3 hrs.) Course fee may be required. Letter grade only (A-F).

490L./590L. Laboratory in Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490L; graduates register in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. (Laboratory 3-9 hrs.) Course fee may be required. Letter grade only (A-F).

496. Undergraduate Directed Research (1-3)

Prerequisite: Consent of instructor. Not available to graduate students. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report. Letter grade only (A-F).

Graduate Level**517./417. Marine Benthic Invertebrates of Santa Catalina Island (4)**

Prerequisite: OSI 313 or 353. (Undergraduates register in OSI 417; graduates register in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. (Lecture 2 hrs, laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

519./419. Marine Ichthyology (4)

Prerequisite: OSI 353. (Undergraduates register in OSI 419; graduates register in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

520./420. Ecology of Marine Fishes (4)

Prerequisite: OSI 519/419. (Undergraduates register in OSI 420; graduates register in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

525./425. Marine Phycology (4)

Prerequisite: BIOL 211A, B. (Undergraduates register in OSI 425; graduates register in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

555./455. Marine Ecological Processes (4)

Prerequisite: OSI 353 or BIOL 350; statistics recommended. (Undergraduates register in OSI 455; graduates register in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

558./458. Ecology of Southern California Marine Plankton (4)

Prerequisite: OSI 353. (Undergraduates register in OSI 458; graduates register in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

560./460. Oceanographic Techniques (4)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 460; graduates register in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students become familiar with oceanographic equipment and methodologies that emphasize on-the-job training aboard ship and in the laboratory. (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required. Letter grade only (A-F).

590./490. Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490; graduates register in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. (Lecture 1-3 hrs.) Course fee may be required. Letter grade only (A-F).

590L./490L. Laboratory in Special Topics in Ocean Studies (1-3)

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490L; graduates register in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated to a maximum of 6 units with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to 6 units. Topics to be announced in the *Schedule of Classes*. (Laboratory 3-9 hrs.) Course fee may be required. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of instructor and graduate standing. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report. Letter grade only (A-F).

Students desiring information should contact the department office for referral to one of the faculty advisors, Credential Analyst, Graduate Advisor, Undergraduate Advisor, Designated Subjects Credential Coordinator, or Distance Learning Administrator.

Occupational Studies is designed to enable persons to gain the competencies requisite for successful employment in secondary schools, community colleges and adult programs as teachers, coordinators and supervisors of vocational, occupational, career preparation, and related human resource development programs.

Instructional programs are offered on- and off-campus throughout California and out-of-state. Most off-campus instruction is offered via distance learning modes of video, Internet, integrated live instruction, and combinations of these three.

Designated Subjects Credential (code 300)

This program of instruction identifies and develops on an individualized basis the teaching competencies requisite for successful employment in designated subjects programs, as required by the California Commission on Teacher Credentialing.

Bachelor of Science in Occupational Studies

California State University, Long Beach (CSULB) offers a Bachelor of Science Degree in Occupational Studies. This degree is targeted primarily towards employed persons serving in business, industry, labor, government and occupational education teachers and counselors serving in the public, private and non-profit sectors. The BS program will help these people grow in level of professional participation in their various occupational subject areas, knowledge of the respective training and development methods, and problems of work-life education in an information and technological society. The primary goal of the program is to improve the competencies of human resource development personnel to instruct in technical subjects, to design curriculum, to advise learners, and to evaluate curriculum and learner performance.

The Bachelor of Science degree requires 124 units of college work. The major consists of 73 units comprised of (a) a unit core of 27 units, (b) foundation and occupational competency coursework (12 to 25 units depending on student's option), and (c) options of 25 to 34 units. The foundation and occupational competency courses, generally lower division, are elected from (a) the social and behavioral sciences, (b) occupationally based technical courses, or (c) a combination of both. Nine units of occupational competence may be granted for prior learning in the Bilingual, Corporate Training, Research and Evaluation, and Transitional Services options.

Option in Bilingual Occupational Instruction (code OCSTBS01) (124 units)

The bilingual occupational instruction option prepares students for human resource development positions as curriculum development and instruction specialists in the bilingual vocational training (BVT) method developed in research sponsored by the Office of Bilingual Education and Minority Language Affairs, United States Department of Education. Graduates of this option are employed as teachers, curriculum development specialists, and job developers in private occupational education institutions, community based organizations, and private industry. It is highly recommended that those selecting this option possess or develop an elementary speaking and reading proficiency in a second language. The required courses for this option are: OCST 300, 330, 410, 411, 412, 413, 418, 420, 422, 456, 461, 480, 485; EDSE 435; EDP 454, 485; and LING 329, 486. This option requires 15 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

Option in Corporate Training and Development (code OCSTBS02) (124 units)

The option in corporate training and development prepares students for human resource development positions as training specialists, training materials developers, and training systems analysts. These specialists serve as support personnel assisting in the analysis and interpretation of job analysis data and translating these data into training and development programs. They assist technical content experts in the design and delivery of instruction. The required courses for this option are: OCST 300, 330, 388I, 410, 411, 412, 417I, 418, 420, 435, 456, 470, 480, 485; OCST 421 or approved alternative ET 202; OCST 461; OCST 490 or an approved alternative from one of the following: ET 307, 309. This option requires 21 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

Option in Research and Evaluation (code OCSTBS03) (124 units)

The option in research and evaluation prepares students for careers as labor market analysts, training evaluation specialists, and evaluation research specialists in public postsecondary education, government employment development agencies, and private industry. These specialists develop evaluation guidelines, evaluate training and development programs including maintaining task lists and training program descriptions, determine the effectiveness and currency of instructional content and methods, and assess trainee performance in training and on-the-job. The required courses for this option are: OCST 300, 330, 410, 411, 412, 418, 420, 421, 422, 456, 480, 483, 485, 490; EDP 400, 419. This option requires 25 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

Option in Transition Services (code OCSTBS04) (124 units)

The option in transition services prepares students for professional positions in secondary and postsecondary occupational special education, rehabilitative services, and related adult services. Graduates develop competencies as educational and human resource development specialists in transition services for individuals with disabilities. The curriculum for this option was developed under research sponsored by the Office of Special Education and Rehabilitation Services, United States Department of Education. The required courses for this option are: OCST 300, 330, 360, 410, 411, 412, 418, 420, 422, 456, 460, 463, 480, 485, 497, 499; OCST 461; EDP 350, 405; REC 416 or an approved alternative from one of the following: FCS 413, 418; EDP 430, SW 350 or SW 351. This option requires 12 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

Option in Vocational Arts (code OCSBS05) (124 units)

This option is designed for teachers in employment-related educational programs that meet the requirements of the State Education Code, Sections 89220, 89221, 89222 and 89223. Specifically, candidates for this option must:

1. Teach or have taught at least 1,620 student contact hours in a full-time position or 1,000 student contact hours in a part-time position in an approved occupational education curriculum.
2. Hold a teaching credential authorizing service as a vocational teacher (community college instructors affected by AB 1725 are exempt from this requirement; however, they must demonstrate instructional competencies by completing prescribed teacher certification courses); and
3. Have worked at least seven years full-time or the equivalent in the field(s) named on the credential. Candidates, upon completion of these requirements and in consultation with their adviser, submit an application with documentation verifying occupational, managerial, teaching, and professional development experience. Upon approval of the application, the California State Board of Examiners for Vocational Teachers recommends advancement to degree candidacy. Advancement to candidacy includes the preparation of an individualized program emphasizing three areas of occupational studies: 1) the relation of education and work, 2) teaching learners with special needs, and 3) research and evaluation. The required courses for this option are: OCST 300, 330, 410, 411, 412, 413; OCST 420, 421 or 422; OCST 456, 460, 461; OCST 418 or 485. This option requires foundation and occupational competency coursework as determined by the State Board of Examiners for Vocational Teachers and in consultation with an Occupational Studies department academic advisor.

Master of Arts in Occupational Studies (code OCSTMA01)

The Master of Arts degree in Occupational Studies is available to qualified students preparing for professional careers in the fields of career, occupational, and vocational education. A major thrust is the development of qualified leadership personnel to serve occupational education programs in public and private education as well as related human resource development programs in California and the nation.

The graduate program in occupational studies consists of three parts. The first part is a 15 unit set of required or core coursework in the following areas:

- History and foundations of occupational education (OCST 501)
- Leadership development (OCST 502)
- Management skills (OCST 503)
- Research and evaluation (OCST 505 and 696)

The second part is an area of specialization which is selected by the student in consultation with an advisor. Examples of program specialization areas follow:

- Administrative studies – for persons interested in administration of occupational education in public or private sectors.
- Special populations – for persons planning to work with learners who are culturally different, handicapped, and/or limited English proficient in occupational education settings.
- Corporate training and development – for persons interested in development, implementation, and evaluation of training programs in a variety of business or industrial settings.
- Career guidance – for persons interested in counseling and guidance services in education and employment settings.

Research and evaluation – for persons planning to work in research and evaluation units in public and private agencies or to pursue advanced graduate studies.

Curriculum and instruction – for persons interested in developing occupational education courses and programs in public and proprietary institutions.

The third program part is the decision to conduct a major research study (the thesis option) or to complete a comprehensive examination near the end of the Master's program.

Each applicant must submit a copy of transcripts for all college work to the program office, in addition to the official copies required by the Office of Admissions and Records.

Prerequisites

1. A bachelor's degree in occupational studies, with a minimum of 24 upper division units in vocational education comparable to courses offered at this University; or
2. A bachelor's degree with a minimum of 24 upper division units comparable to courses offered at this University in the discipline in which the degree was awarded.
3. Successful completion of Departmental Writing Examination.

Advancement to Candidacy

1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of all core courses;
3. Maintenance of B average (3.0 GPA) in all work completed in graduate program;
4. Approval of Occupational Studies Graduate faculty and Director of Graduate Studies and Research, College of Health and Human Services.

Requirements

1. Completion of OCST 501, 502, 503, 505, 696;
2. Completion of 30 units of approved upper division and graduate courses and a thesis (OCST 698) and an oral presentation of the thesis approved by Department Graduate Committee; or 36 units of approved upper division and graduate courses and a written comprehensive examination.

Master of Science in Emergency Services Administration (code OCSTMS01)

The Master of Science (MS) in Emergency Services Administration is designed to provide students with the conceptual foundation and managerial communication and analytical skills required for designing, testing and implementing an effective response to workplace and community emergencies. Such emergencies may involve the potential loss of human life and property due to fire, explosion, the release of hazardous chemicals, structural failures, natural calamities, and terrorist acts. The program has two major purposes: 1) to provide an understanding of the administration and management of emergency services with an emphasis on the roles and job expectations of emergency managers, and 2) to prepare students for leadership roles in emergency and disaster administration by stressing independent research, communication and writing skills, exposure to experts, and practical experiences of respected emergency services and disaster organizations. The intended audiences are practitioners from the public and private sectors who are engaged in the delivery or coordination of emergency

services. The program is offered in the traditional classroom setting, and is enhanced with a careful blend of technology-assisted instruction.

Admission Criteria

1. Obtain admission to graduate standing by completing and forwarding the official CSULB graduate admission forms and fees to the University and the Graduate Advisor, Occupational Studies Department, CSULB. Each applicant for graduate standing shall have completed an appropriate baccalaureate degree from an accredited university.
2. Request that official transcripts from all colleges and universities attended be forwarded to the graduate advisor, Occupational Studies Department, CSULB.
3. Have at least a 2.50 grade-point average in the last 60 semester units attempted.

Be accepted by the Occupational Studies program and the graduate advisor for admission to the graduate program.

Program Description

The Master of Science Degree in Emergency Services Administration is designed for individuals who work or wish to work as administrators in one of the areas of emergency administration. These areas include police and fire administration, public utilities, dispatch, and emergency (disaster) operations. The degree will equip students with a broad knowledge of the activities and the relationships of the emergency services to each other, to the community, and to other public and private entities that are affected by emergency services. Students may specialize in program development and evaluation, training, personnel, budgeting, or inter-agency relations.

Requirements

1. OCST 502, 505, 650, 696; PPA 555, 542 or 577.
2. Completion of 30 units of approved upper division and graduate courses and a thesis (OCST 698) and an oral presentation of the thesis approved by the Department Graduate Committee; or 36 units of approved upper division and graduate courses and a written comprehensive examination.

The graduate program consists of three parts. The first part is an 18-unit set of required core course work as indicated in (1) above. The second part is the elective component or area of specialization consisting of 18 units if the Comprehensive Examination option is chosen or 8 units for the Thesis option. Electives from the 400, 500, or 600 series are selected in consultation with a faculty advisor. The third part is to complete a thesis (OCST 698) or take a comprehensive examination.

Courses (OCST)

Upper Division

300. Orientation to Occupational Studies (3)

Prerequisite: Qualified for admission to the baccalaureate degree program under California Education Code, Sections 89220, 89221, 89222, and 89223. Orientation to baccalaureate education and the five options of the Occupational Studies Bachelor of Science degree. Career opportunities, historical overview, and department structure of each option. Philosophy and develop-

ment of comprehensive employment-related education in California, its present place and functions in the total system of education. Preparation of the "Swan Bill" application and individualized program of studies. Letter grade only (A-F).

301. Community and Occupational Experiential Learning (1-9)

Prerequisite: OCST 300, upper division standing. Open only to majors in options 3-1051, 3-1052, 3-1053, or 3-1054 of the Bachelor of Science in Occupational Studies degree. Credit for supervised and documented field experience and professional development in an occupation. Students are responsible for completion and submittal to the department the work experience and professional development portions of the State Board of Examiners for Vocational Teachers application for credit. Credit/No credit grading only.

330. Literacy for the Workplace (3)

Prerequisite: ENGL 100 or equivalent. Development of an understanding of what is needed/meant by workplace literacy and what can be done to improve basic skills and literacy for work of employees and students in occupational programs. Course content includes principles of effective writing and oral communication for education and the workplace, extensive practice in various forms of writing for education and the workplace, and case studies of education and workplace reports, negotiations, and oral presentations. Letter grade only (A-F).

360. Foundation of Transition Services (3)

Prerequisites: Consent of instructor. An overview of the models, personnel roles, practices, and delivery systems of services for youth and adults with special needs in their transition from school to work and independent living. Letter grade only (A-F).

388I. Technological Literacy (3)

Prerequisites: Completion of GE Foundation requirements, upper division standing, English 100. Exploring technological concepts as they impact on humans, society and cultures. Emphasis will be placed on technology as a human adaptive system and its relationship to sociological and ideological systems. Letter grade only (A-F).

***410. Curriculum Development for Designated Subjects (3)**

Prerequisites: Enrollment in Designated Subjects Credential Program, BS or MA degree programs. Techniques of curriculum planning and development in occupational and adult education. Components include needs assessment strategies, course content, performance objectives, development of specific units of instruction, learner characteristics, and learning theories applicable to curriculum development. Letter grade only (A-F).

***411. Instruction and Evaluation for Designated Subjects Teachers (3)**

Prerequisites: OCST 410 or consent of instructor. Enrollment in Designated Subjects Credential Program, BS or MA degree. Techniques and evaluation of instruction in occupational and adult education. Components include motivation, presentation, application, and evaluation techniques necessary to teach all students in occupational and adult education. Letter grade only (A-F).

***412. Advanced Program Development and Instruction (3)**

Prerequisites-Enrollment in BS, MA or Designated Subjects Credential Program. Advanced techniques of teaching designated subjects. Components include curriculum, instruction, communication, program evaluation, classroom management, technology in the classroom, and the latest knowledge and practices for teaching all students in occupational and adult education and for effecting their transition from school to work. Letter grade only (A-F).

***413. Foundations of Designated Subjects Credential Programs (3)**

Prerequisites-Enrollment in BS, MA or Designated Subjects Credential Program. An examination of the foundations and principles of occupational education with a specific focus on programs subsumed under designated subjects credentials. Letter grade only (A-F).

417I. Technology, Ethics, and Society (3)

This course is designed to provide students with a framework for understanding the ways in which human societies transform themselves through technological innovation. New technologies en-

large society's options, thereby requiring consideration of ethical questions concerning the social effects of technological change.

***418. The Marketplace for Occupational Education (3)**

Studies of public and private agencies that serve persons who have the need to identify, prepare for and use occupational education; where such persons are placed, what they do, their successes and failures, and future trends and needs.

***420. Program Evaluation (3)**

Analysis of evaluation approaches for programs and systems. The major phases and steps involved in organizing, conducting, and reporting an evaluation will be examined. Students will be exposed to a variety of program evaluation systems currently in operation and will design a functional evaluation plan for a program in their respective professional fields. Letter grade only (A-F).

***421. Research Design (3)**

Study of research designs applicable in a variety of professional fields. Calculation of basic statistics, development of research proposals, use of minicomputers in occupational research. Letter grade only (A-F).

***422. Grants and Contract Writing (3)**

Study of process of contract and grant proposal writing for public- and private-funding agencies, including budget preparation. Letter grade only (A-F).

***435. Principles of Adult Education (3)**

Instruction on the scope and function of adult education including the local, state, and federal levels. Principles and practices of adult education, philosophical perspectives, and professional issues are discussed. Letter grade only (A-F).

***456. Attitude Awareness in Education and the Workplace (3)**

Introduction to and application of the principles of communication, human relations, understanding other people, attitude recognition and development, and mental steps to motivation. Contributions of the behavioral sciences to more effective teaching will be examined and plans for their implementation will be prepared. Letter grade only (A-F).

457I. Working Around the World (3)

Prerequisites: Completion of GE Foundation requirements, one or more exploration courses, upper division standing. A study of the effects that religion, language and culture, political structure, economics, and physical environment have on the development of work and people's perceptions of work and occupations in the United States and other countries around the world. Letter grade only (A-F).

***460. Instructional Methods for Learners with Special Needs (3)**

Identification, assessment and instructional development strategies for students or employees with diverse needs. Letter grade only (A-F).

***461. Instructional Methods for Teachers of Diverse Students (3)**

Techniques of teaching sociologically, economically, and culturally diverse learners in occupational education. Emphasis on methods, motivation, counseling, and instructional organization. Letter grade only (A-F).

463. Job Development (3)

Prerequisites: Consent of instructor. An overview of techniques and strategies needed to successfully develop employment opportunities for people with special needs. Letter grade only (A-F).

***470. Seminar (3)**

Study of the major problems and issues confronting the educator and practitioner. Letter grade only (A-F).

***480. Internship (1-4)**

Internship in community, business, or school employment and training development programs which involve instruction, administration and research. Letter grade only (A-F).

483. Senior Thesis or Project (1-3)

Identification of, planning, preparation and completion of a project to solve or research problems particular to a business, educational or industrial setting. Written report required.

***485. Identifying Management Competencies (3)**

A lecture and discussion course focusing on the identification of competencies requisite for effective program management. These competencies are categorized in three domains, including, but not limited to: the interrelationships of concepts, things, and people. Letter grade only (A-F).

***490. Independent Study (1-3)**

Individual research and study under the direction of a faculty member in areas not an integral part of any regular course. Written report is required. May be repeated to a maximum of 3 units. Letter grade only (A-F).

492./592. Training the Trainer: A Practicum Class (4)

Equips non-traditional working students with entry-level knowledge and skill to successfully pursue other designated professional training core courses focusing on needs assessment, instructional design, facilitation, evaluation, Organization Development (OD), succession planning and international and cross-cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Letter grade only (A-F).

494./594. Organization Development (3)

Familiarizes students with concepts, models, theories, and techniques for planning, facilitating, and evaluating Organization Development Interventions. Students will develop skills and competencies necessary to carry out a variety of industrial trainer support roles and strategies for internally and externally implementing Organization Development (OD) activities. Not open to graduate students who have previously earned 494 credit in this course. Letter grade only (A-F).

495./595. Succession Planning for Organizations (2)

A training program to ensure the continued, effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Preparation, grooming, and proficiency of replacements are considered. Identification of replacement needs for critical positions, clarification of present and future work activities, comparing and contrasting of individuals, and establishment of development criteria to develop high performing workers. Learning objectives can be specific to a given industry or general. Students will design an organizational chart of their respective fields. Not open to graduate students who have previously earned OCST 495 credit in this course. Letter grade only (A-F).

***497. Practicum (1-6)**

Action-oriented organized learning directed toward identifying the major problems and issues confronting education work and suggesting practical solutions for the practitioner.

***499. Special Topics (1-3)**

Topics of current interest will be selected for intensive group study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units.

Graduate Level

501. Foundations of Occupational Education (3)

Examination of history and development of occupational education in the United States. Particular attention is devoted to the multiple purposes and principles of occupational education, key federal legislation and contemporary issues and developments affecting occupational education. Letter grade only (A-F).

502. Administrative Leadership (3)

Concepts and techniques of personal and professional administrative leadership. Same course as PPA 502. Letter grade only (A-F).

503. Program Management (3)

Advanced principles and procedures of management emphasizing operations, and evaluation of employment and training related programs. Letter grade only (A-F).

504. The Environments of Occupational Education (3)

Interrelationships among occupational education, business, industry, government and society. Letter grade only (A-F).

505. Critical Analysis of Issues and Problems in Education and the Workplace (3)

In-depth analysis of major research problems and review of historical and contemporary issues and problems. Particular attention will be given to the various research methodologies used to examine issues and problems in the field. Same course as PPA 505. Letter grade only (A-F).

508. Transition Services for Youth and Adults With Disabilities (3)

Examination of various models for and approaches to providing education and employment-related services to disabled persons in transition from school to adult life. Letter grade only (A-F).

510. Workforce Development Policy: Trends, Issues, and Analyses (3)

Prerequisite: Graduate standing. This course prepares individuals to function in leadership roles in workforce development; to analyze policy issues, theory, and political implications; to engage in research and policy development; and to understand the role of organizational theory, economics, school law and labor negotiations, and educational administration and finance in postsecondary technical and community colleges. The course emphasizes techniques for evaluating policy and for understanding the administrator's central role as a connector between public schools and universities and between business, industry, and local communities, as well as the nature and context of postsecondary institution ideas and processes. Letter grade only (A-F).

514. Municipal Law for Administrators (3)

Examination of major laws and legal issues affecting local government today. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain will be studied. Will develop problem solving abilities through legal analysis, and will explore new parameters and changing standards in litigious society looking for "deeper pockets," slower growth, and greater citizen involvement in local government. Selected areas of study will include the impact of recent U.S. Supreme Court cases on land use regulation; California Redevelopment Agency law; municipal tort liability and civil rights matters; public-private financial ventures and bond financing; city council meeting and hearing procedures; the "Brown Act", and public records; public works contracts and building code enforcement; and public labor law trends and developments. Same course as PPA 514. Letter grade only (A-F).

535. Intergovernmental Relations (3)

This course will present fundamental concepts and issues of intergovernmental relations in the United States. Topics covered include history of the field, intergovernmental revenues and expenditures, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues. Same course as PPA 535. Letter grade only (A-F).

542. Emergency Planning and Management (3)

Students will study the planning and management processes and the issues involved in large-scale emergencies. The nature of natural and technological risk and emergency will be explored via case studies. The public sector roles in contingency planning and response will be assessed. Same course as PPA 542. Letter grade only (A-F).

543. Legal, Economic, and Human Issues in Emergency Administration (3)

This course provides an overview of the legal, strategic, political, economic, ethical, and human issues encountered in the management of disasters or major traumatic public events. This knowledge gives the emergency administrator a realistic view of the issues to expect in a disaster, how to plan accordingly, and how to manage resources and people more effectively in emergency situations. Letter grade only (A-F). (Discussion 3 hours.)

555. Government Budgeting and Finance (3)

This course focuses on the formulation phase in the budget cycle. The course presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and structures, fundamental processes of public finance, economic growth and fiscal impacts, basic principles

of government accounting, budget formats, performance measurement, fiscal condition and stress, revenue sources and structures, estimation and forecasting, capital budgeting and evaluating public projects, and fiscal federalism. Same course as PPA 555. Letter grade only (A-F).

560. Planned Giving: History, Philosophy, Standards, and Financial Investment Considerations (2)

Prepares individuals for a career in planned giving by providing History, Philosophy, and Standards for Planned Giving, Financial and Investment Planning information and strategies for the knowledge and skills required to implement and maintain a successful gift planning program. Letter grade only (A-F).

561. Planned Giving for the Elderly and Tax Planning Related to the Transfer of Wealth (2)

Prepares individuals for a career in planned giving by providing information and strategies for the knowledge and skills required to implement and maintain a successful gift planning program for the elderly and an understanding of tax policy related to transfer of wealth. Letter grade only (A-F).

562. Planned Giving and Charitable Gifting: Assets, Entities, and Deferred Gifting Techniques (2)

Prepares individuals for a career in planned giving by providing information, knowledge and skills required to implement and maintain a successful gift planning program. Focus on private, public, supporting, and community foundations, general tax rules, design issues, valuation concerns, administration and operation; and calculating tax deduction including benefits of both outright and deferred methods. Letter grade only (A-F).

563. Marketing Planned Giving, and Planned Giving and Charitable Gifting Methods: Charitable Remainder Trusts (2)

Prepares individuals for a career in planned giving by providing information, knowledge and skills required to implement and maintain a successful gift planning program. Two major topics are included. One: Marketing Planned Giving, including developing the marketing plan, attracting the attention of donor prospects, and techniques for cultivation and solicitation are covered. Two: Charitable Remainder Trusts as a method of charitable gifting. Letter grade only (A-F).

564. Planned Giving: Estate Planning (2)

Prepares individuals for a career in planned giving by providing information and developing knowledge related to Estate Planning Tools and Strategies; Business Succession Planning; and Charitable Planned Goals, Application and Strategies. Letter grade only (A-F).

565. Planned Giving: International Gift Planning and Administration of Planned Giving Programs (2)

Prepares individuals for a career in planned giving by providing information and skills in the areas of: International Gift Planning related to gift and tax benefits for U.S. citizens to non-U.S. public charities, and Administration of Planning Giving Programs focusing on policy issues; developing written guidelines; determining cost-effectiveness; responsibilities and roles of administration; procedures and program administration. Letter grade only (A-F).

577. Public Sector Human Resources Management (3)

The historical development of the civil service/merit system and how this impacts public personnel systems; laws which affect the operation of a personnel system; analysis of the various components of a personnel system; impact of labor negotiations on personnel systems; importance of written policies and procedures; and role of the personnel system as a change agent. Same course as PPA 577. Letter grade only (A-F).

591. Corporate Training Development (3)

The selection and organization of corporate training curricula and development of courses of study to be used in public and private Occupational Education programs. Letter grade only (A-F).

592./492. Training the Trainer: A Practicum Class (4)

Equips non-traditional working students with entry-level knowledge and skill to successfully pursue other designated professional training core courses focusing on needs assessment, instructional design, facilitation, evaluation, Organization Development (OD), succession planning and international and cross-

cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Letter grade only (A-F)

593. Corporate Training Methods (3)

Teaching techniques, philosophy, organization and planning in corporate training programs, public and private education. Letter grade only (A-F).

594./494. Organization Development (3)

Familiarizes students with concepts, models, theories, and techniques for planning, facilitating, and evaluating Organization Development Interventions. Students will develop skills and competencies necessary to carry out a variety of industrial trainer support roles and strategies for internally and externally implementing Organization Development (OD) activities. Not open to graduate students who have previously earned 494 credit in this course. Letter grade only (A-F).

595./495. Succession Planning for Organizations (2)

A training program to ensure the continued, effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Preparation, grooming. And proficiency of replacements are considered. Identification of replacement needs for critical positions, clarification of present and future work activities, comparing and contrasting of individuals, and establishment of development criteria to develop high performing workers. Learning objectives can be specific to a given industry or general. Students will design an organizational chart of their respective fields. Not open to graduate students who have previously earned OCST 495 credit in this course. Letter grade only (A-F).

650. Graduate Seminar (3)

Study of selected topics in occupational education, including important legislation, industrial innovations, technical change, and contemporary problems. Topics will be announced in Schedule of Classes. May be repeated to a maximum of 6 units. Same course as PPA 651. Letter grade only (A-F).

696. Research Methods (3)

Prerequisites: OCST 421 or equivalent and OCST 505. Selecting, defining and presenting methods of research demonstration of research theory to problem solution. Letter grade only (A-F).

697. Directed Studies (1-3)

Prerequisite: Advancement to candidacy. Research in an area of specialization under the direction of a faculty member. Letter grade only (A-F).

698. Thesis (1-4)

Prerequisite: Advancement to candidacy. Planning preparation and completion of a thesis. Letter grade only (A-F).

ODYSSEY THEME YEAR PROJECT

Odyssey 2004-2005 – The Process: Creativity Reviled and Revealed

Odyssey Theme Year Project

During the 1996-97 academic year, CSULB inaugurated the first in a series of theme years. Each theme year involves the campus and the community in a year-long series of major speakers, conferences, performances, films, events, field trips, and classes (across campus and in the community) focused on a single intellectual issue of importance to our time.

The name "Odyssey" was chosen as the title for the theme year project because of its identification with Homer's epic tale of Odysseus. This mythical Greek hero's years of wandering have come to symbolize a voyage of discovery and adventure. Each year CSULB students have the unique opportunity to engage in their own "intellectual" voyage of discovery and adventure by taking courses which integrate in- and out-of-classroom experiences. Some students might choose to apply their courses to an interdisciplinary certificate program.

Odyssey 1996-97: The City was the first thematic year and was devoted to exploration of The City in Southern California, America and the globe at the turn of the millennium. *Odyssey 1997-98* focused on *The Earth: Origins, Evolution, and The Search for Meaning*. *Odyssey 1998-99* explored *The Self and Its Sources: Individuals and Community*. During 1999-2000, *The Community: Spatial, Cultural and Virtual* was examined. For 2000-2001, *The Future: Values and Technology in a Global Community* was studied and for 2001-2002, *The Citizen: Right, Roles, Responsibilities* was featured. The themes for the academic years 2002-2003 and 2003-2004 were *The World We Are Making* and *The Voyage of Discovery*.

During the first year, guest speakers included author Walter Mosley (and a screening of *Devil in a Blue Dress*), Kevin Starr (California State Librarian), and the monumental artists Christo and Jeanne Claude as well as speakers from South Africa, Australia, Mexico, and Japan. In addition, there was a film series, a student initiated and implemented art and creative writing exhibition, three major conferences, and numerous field trips. During the second year, there were guest speakers on topics as diverse as the physics of Star Trek, plate tectonics, fossils, human mating, primate diets, visual intelligence, and the future of the universe. For 1998-99, there were fifty-three separate Odyssey guest speakers and events including Edward James Olmos, The Festival of the 5 Senses, photo and art exhibits, films, performances, and panel discussions. During 1999, with the theme of Community, we hosted guest speakers like Dr. Hunter "Patch" Adams, science fiction writer Octavia Butler, photographer Antony Gleaton, Father Greg Boyle, and Jean Houston. For 2000-2001, a look at "The Future" brought Ralph Nader, Erin Brockovich, and Julia "Butterfly" Hill to campus, in addition to stand-up comic Marga Gomez, radio personality Dr. Demento, computer artist/architect April Greiman, and scientists

from Cal Tech and JPL. The Odyssey continued in 2001-2002 with *The Citizen*. Guest speakers included Mike Farrell (of *M*A*S*H* and *Providence* fame), environmentalist Jan Lundberg, TV critic Howard Rosenberg, education reformers Erin Gruwell and John and Stephen Goodlad, journalist Naomi Klein, and LA Supervisor Don Knabe as well as performances by Sweet Honey in the Rock and the Children of Uganda. For 2002-2003 the College of Liberal Arts hosted *The World We Are Making* with guest speakers like former U.S. Senator George Mitchell, authors Alicia Partnoy and Gioconda Belli, a Cambodian film series, a seminar series on "Evil in The World We Are Making," a graffiti artist, and representatives from UNICEF and Doctors Without Borders. In 2003-2004, *The Voyage of Discovery* hosted, Dr. Hunter "Patch" Adams, Lynn Margulis (Gaia Hypothesis), Elliott Sober (Philosophy of Evolutionary Biology), and Deborah Gordon (Ant at Work) as well as performances (Beakman Live and Diavolo Dance Theater: Dream Catcher) and two conferences (Indus Valley Archeology and Orangutan Conservation).

For 2004-2005, the theme will be *The Process: Creativity Reviled and Revealed*. The project's thematic focus on the creative process as it relates to social issues (sponsored by the College of the Arts) will seek to find connections from numerous viewpoints and disciplinary perspectives both within and outside the arts (e.g., the media, public policy, economics, sociology, and philosophy). During the year, we will examine such issues as the first amendment and artist expression, art and spirituality, risk and failure, societal perception of artists, art as a political process, and the art of experience.

These topics will be explored through: two team-taught interdisciplinary General Education courses on the theme (University 300I and 301I) featuring guest experts; invited guest speakers and performers; innovative multidisciplinary experiences; community projects and field trips; theatre/dance performances; exhibits; and collaborative programs with our local K-12 partners.

The steering committee is currently planning a contemporary music series which may include performances, panels, and guest musicians/lectures on the evolution and implications of the following music genres: Ska, Reggae, Blues, Rap, Hip Hop, and Spanish Rock. The Committee has similar plans for other areas of the arts like studio art, dance, theatre, and film. Suggestions for guest artists include Snoop Dogg, Steve Martin, Dick Hebdedge (Cal Arts), Frank Gehry (architect), and Linda Woolverton (screenwriter for Disney).

Students in each of the Odyssey courses will be encouraged/required to attend at least two theme-related activities each semester. In addition, faculty are creating new special topics courses and restructuring existing courses to provide opportunities for students to receive course credit for "creating" part of the Odyssey experience through cooperative learning activities.

Fall 2004 and Spring 2005—The Process (Theme Course)

University 300I and University 301I

Possible topics:

- What is creativity?
- What does it mean to be creative?
- Is art generational/gendered?
- Modernism (looking backward and forward)
- Art vs. Commercial activity
- The 1st Amendment and the Arts
- Law and the arts (copyright laws/intellectual property)
- Emerging art forms
- Social responsibility and the arts
- Public art

Other Courses for Fall 2004 and Spring 2005 with Theme-Year Content

ART 110	Introduction to the Visual Arts	ENGL 363	Shakespeare I
AH 115A	Foundation of Art History I	ENGL 372I	Comedy in the United States
AH 115B	Foundation of Art History II	FCS 450	Cultural Perspectives of Dress
AH 115C	Foundation of Art History III	FEA 310	Film and Culture
AH 438	Twentieth Century Art to 1945	FEA 314	Theatrical Film Symposium
ASAM 403	Asian American Chicano Latin Cinema	FEA 316	Mass Media and Society
B/ST 155	Afro-American Music	JOUR 110	Introduction to Mass Communication
B/ST 160	Introduction to Black Arts	JOUR 312I	Global News Media
B/ST 240	African and Afro-American Folklore	JOUR 431	Ethical Problems of the News Media
B/ST 346	Black Theatre	MUS 190	Listener Approach to Music
B/ST 363	History of African Art	MUS 290	Popular Music in America
B/ST 370	Black Images in the Mass Media	MUS 363I	Music and the Visual Arts
CHLS 403	Asian American Chicano Latin Cinema	MUS 393	Jazz-An American Music
CHLS 420	Chicano Heritage Arts-Mexico and SW	MUS 468I	Music and Film
CLSC 110	Classical Archaeology	MUS 490	Introduction to Music Cultures
C/LT 124	Introduction to World Theatre and Drama	PHIL 361	Philosophy of Art and Beauty
C/LT 324I	Theatre Today	SPAN 492	Studies in Spanish Theatre
C/LT 412I	Art and Literature	THEA 113	Introduction to Acting
C/LT 451I	Film and Novel	THEA 122	Appreciation of Theatre Arts
DANC 110	Viewing Dance	THEA 324I	Theatre Today
ENGL 205/405	Creative Writing Fiction	THEA 425I	Theatre and Cinema
ENGL 206/406	Creative Writing Poetry	THEA 427	Dramatic Construction
ENGL 318I	Theory of Fiction and Film	W/ST 365I	Women and Popular Culture

Certificate Program in Peace Studies (code COLACT02)

The Certificate Program in Peace Studies is designed for students who are concerned about issues of peace, conflict, and justice in contemporary society; and who wish to develop skills to promote peace and constructive conflict management within their individual lives, families, communities, and social systems. Students will have the opportunity to explore past and present conflicts that inhibit the achievement of peace, and will have the opportunity to enlarge their understanding of global and human diversity problems and their solutions. Student also will be challenged to discover the processes that create peace among people, and to recognize that while the expression of conflict is natural and normal for

humans, it need not lead to destruction, violence, or war. Effective conflict management can generate productive, peaceful ends. Students will be empowered to believe they can make a difference. Overall, students will enhance their understanding of human beings, the causes of their conflicts with each other in a host of contexts, and past, present, and future methods of managing those conflicts.

This certificate can be earned in conjunction with any baccalaureate or graduate degree, can be earned through the General Education Pathway in Conflict & Peace Studies while simultaneously meeting all general education requirements, and should be especially useful for students preparing for careers in humanities, education, business, government, law, and social service.

Requirements

Twenty-four (24) units in a program approved by the Director of Peace Studies, to include the following:

1. Core Theory Course (3 units): Take one of the following:
I/ST 317I, POSC 371
2. Core Skills Course (3 units): Take one of the following:
COMM 411, SW 491
3. Elective Courses (15 units): Take at least one course from each of the following groups, and then one additional course from any of the groups.
Group A: Perspectives on Peace, Conflict, Violence, and War (3 units minimum):
ANTH 305I; BIOL 351; COMM 490; CRIM 101; HIST 304, 377, 495; I/ST 318, 355; POSC 220, 371, 455; PHIL 351; PSY 350I
Group B: Laws, Rights, Responsibilities in Peace and Conflict (3 units minimum)
COMM 441I; PHIL 352, 376; POSC 412
Group C: Culture, Race, Gender Influences on Peace and Conflict (3 units minimum)
ANTH 315, 311I; B/ST 325; COMM 330, 412; HIST 309I; LING 470; SOC 346; SPAN 493 or SPAN 593 or HIST 490F; W/ST 401, 430
Group D: Empowerment and Peace-Building (3 units minimum)
COMM 410, 421; ECON 309I or FCS 309I or FIN 309I; EDP 434B; FEA 486I; HDEV 364; H SC 429; NRS 481I; PSY 336; SOC 427; SW 423
4. Peace Project (3 units, optional): Students in the Certificate program only should complete three units of an independent study project during their senior year with any Peace Studies faculty. Students who are simultaneously completing the General Education pathway in Conflict & Peace Studies need to take an additional 300- or 400-level GE course from groups A, B, C, or D above to complete the 24 required units in this Certificate. Exceptions or substitutions may be made only with the approval of the Director of the Peace Studies Program.

Bachelor of Arts in Philosophy (code PHILBA01) (120 units)

The undergraduate Philosophy program challenges students to think rigorously about some of the most profound questions people consider: "What is most important in a human life?"; "What can I know?"; "Does God exist?"; "Do human beings have free will?"; "What are the guidelines for morality?"; "What is 'the soul?', or 'the mind'?" These and other questions are raised in courses in special areas of philosophical concern such as logic, theory of knowledge, ethics, metaphysics, philosophy of religion, philosophy of science, and aesthetics. They are also raised in their historical context in courses which focus on great philosophers such as Plato, Aristotle, Kant, the great "Rationalists" and the great "Empiricists." In addition, the Philosophy curriculum encourages students to examine our contemporary situation (with such courses as Existentialism, Phenomenology, Philosophy of Language, and Political Philosophy), and to extend their thinking with the philosophies of other cultures (such as those of China, Japan, and India).

In addition, the philosophy curriculum examines our contemporary situation and extends our thinking with the philosophies of other cultures.

The Philosophy Pre-law Program provides undergraduates with a course of study which emphasizes the development of skills in reasoning and argumentation, in linguistic and ethical analysis, and in clear and precise communication. The Department's Center for Applied Ethics brings guest speakers to the campus and sponsors conferences, research, and new courses in medical ethics and business ethics. The Department's Center for the Advancement of Philosophy in Schools (CAPS) places advanced philosophy students into area schools to promote philosophy for children. The Department is developing courses and other programs in cognitive science, bringing together the insights of epistemology, logic, psychology, and computer science. The MA program prepares students for teaching in the community colleges and for doctoral programs in philosophy.

Requirements

A minimum of 36 units in philosophy divided as follows:

Lower Division: PHIL 203, 204, and either 270 or 296.

Up to 12 lower-division units may be counted toward the major, including either PHIL 100/100W or 160/160W.

Upper Division: A minimum of 24 units in philosophy, including at least two courses (6 units) from each of the following groups:

History of Philosophy: PHIL 306, 307, 413, 414, 416, 417, 418, 419, 421, 422, 423, 424, 425, 490, 491, 492

Logic, Metaphysics, Epistemology: PHIL 303, 342, 381, 382, 470, 482I, 483, 484, 493

Values and Evaluation: PHIL 302I, 351, 352, 354, 360, 361, 362I, 363, 401, 403I, 405I (formerly 305), 451I, 452I, 455, 461I, 489, 496

The required 6 upper-division units remaining are to be selected from philosophy courses with the advice and consent of the student's departmental advisor, and may include PHIL 497H and 498H.

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in PHILOSOPHY (PHILBA01)

120 units required

Department of Philosophy

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE Class	3
PHIL 100 or 160	3	Phil 203 or 204	3
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15-16
Semester 3		Semester 4	
Critical Thinking or other GE Class	3	Phil 270	3
Phil 204 or 203	3	GE Class	3-4

Elective Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

*Two of the three required GE Interdisciplinary Capstone Classes may count for GE and the major.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Pre-Law Emphasis

The pre-law emphasis requires the same minimum 36 units required for the major. Prelaw students should include at least four of the following in their course of study: PHIL 351, 352, 363, 451I, 452I, 489.

Honors in Philosophy

The Honors in Philosophy program provides qualified undergraduate philosophy majors with an opportunity to do independent research with a faculty member on a topic of interest to the student and to present the results of that study to other students in a seminar format. The Program has two curricular components:

1. a year-long, two-semester directed studies course (PHIL 498H: Undergraduate Honors Thesis) in which the student learns about advanced research techniques and writes an undergraduate thesis under the close supervision of a faculty member, and
2. a seminar (PHIL 497H: Undergraduate Honors Seminar) in which honors students meet weekly to discuss work in progress and present a final thesis. The Seminar is designed each year with readings, discussions, and critiques of student work around the themes of the honors student theses projects that year.

To be eligible for the program, students must:

1. have a 3.3 GPA in the philosophy major and a 3.0 GPA overall;
2. successfully complete all lower-division courses for the major (PHIL 203, 204, and 270 or 296);
3. successfully complete at least nine (9) units of upper-division philosophy courses (at least six [6] units at CSULB).
4. obtain written agreement from a philosophy faculty member to serve as the Honors Thesis Advisor

Students enroll in PHIL 498H (Undergraduate Honors Thesis) in Fall and Spring (3 units each semester), and in PHIL 497H (Undergraduate Honors Seminar) in Spring (3 units), for a total of 9 units in the program. Students who have been admitted to the honors program and have successfully completed these requirements, along with the regular requirements for the Major in Philosophy, will graduate with Honors in Philosophy.

Minor in Philosophy (code PHILUM01)

The minor in philosophy provides a structured yet flexible program for the student majoring in a different discipline, but who is interested in philosophy either as an adjunct to the degree major or as a foundation for the student's future intellectual life.

The Minor in Philosophy is available to any non-Philosophy major.

Requirements

A minimum of 18 units in philosophy, divided as follows:

Lower Division: PHIL 203, 204, and either 270 or 296.

Upper Division: A minimum of 9 units in philosophy, including at least one course (3 units) from each of the following groups:

History of Philosophy: PHIL 306, 307, 413, 414, 416, 417, 418, 419, 421, 422, 423, 424, 425, 490, 491, 492

Logic, Metaphysics, Epistemology: PHIL 303, 342, 381, 382, 470, 482I, 483, 484, 493

Values and Evaluation: PHIL 302I, 305, 351, 352, 354, 360, 361, 362I, 363, 401, 403I, 405I, 451I, 452I, 455, 461I, 489, 496

Master of Arts in Philosophy (code PHILMA01)

Entrance Requirements

1. A bachelor's degree with a major in philosophy; or
2. A bachelor's degree with a minimum of 24 units of upper division philosophy courses. These courses must be comparable to those required for the B.A. in philosophy at this University. (Deficiencies will be determined by the Graduate Advisor after consultation with the student and after study of transcript records.) Students who do not meet these conditions may enter as provisional graduate students. Prospective students must see the Graduate Advisor for assessment and to plan a program. Departmental reader positions are sometimes available for qualified persons, as are Graduate Assistantships. A reader works closely with a member of the faculty, but is not responsible for instruction. Application for these positions can be made to the Chair of the Philosophy Department.

Advancement to Candidacy

1. The graduate student will be expected to demonstrate proficiency in the areas of epistemology, metaphysics, ethics and symbolic logic. (A grade of "B" in a semester course in each of these areas is a standard way of demonstrating proficiency.)
2. The graduate student who expects to become a candidate for the Master of Arts degree in Philosophy will be required to pass a Basic Qualifying Examination (BQE). Normally, the student must complete this examination early in graduate study.
3. Students should attempt to be Advanced upon completion of 6 units (preferably no more than 9 units) in the Program. The Writing Proficiency Exam (WPE) is required for Advancement.
4. Although there is no formal language requirement, the Philosophy Department may require the student to demonstrate a foreign language proficiency whenever at the department's discretion a language proficiency is appropriate to the area of study.
5. The student's graduate program must be approved by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.

Requirements

1. The student's graduate program must consist of not less than 30 units of acceptable upper division and graduate courses, of which at least 24 units must be in philosophy. The remaining 6 units must be chosen in conference with the student's faculty advisor, and may be taken either in philosophy or in another field of study closely related to the candidate's educational objectives. The program must include a minimum of 18 units of graduate courses, with a minimum of 6 units from the 600 series. PHIL 697 and 698 may not count toward fulfillment of the 600 series minimum requirement.
2. A thesis and oral defense thereof or a set of three comprehensive examinations.

Courses (PHIL)

Lower Division

100. Introduction to Philosophy (3)

Prerequisites/Corequisites, any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy. Same course as PHIL 100W. (CAN PHIL 2)

100W. Introduction to Philosophy (4)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy (Lecture 3 hours). Required Workshop (one hour): Planned exercises, activities, and discussion designed to develop oral and written critical thinking and analytic skills to complement lectures. Same course as PHIL 100. Not open to students with credit in PHIL 100. (CAN PHIL 2)

160. Introductory Ethics (3)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life. Not open to students with credit in PHIL 160W. (CAN PHIL 4)

160W. Introduction to Ethics (4)

Prerequisite: Any course from GE Foundation Category A.1 (Written English), Category A.2 (Oral Communication), or Category A.3 (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life (Lecture 3 Hours). Planned exercises, activities, and discussion to develop oral and written critical thinking and analytical skills to complement lectures (Workshop 1 hour). (CAN PHIL 4)

170. Critical Reasoning (3)

Prerequisite: Completion of GE Foundation requirements Category A.1 (Written English), which may be taken concurrently. Elements of clear, straight, orderly and valid thought, including deductive and inductive reasoning and the accurate use of language. This course explores practical applications of logic. (CAN PHIL 6)

203. History of Early Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. From Thales to the Renaissance including the systems of Socrates, Plato and Aristotle, and their influence on European philosophy through the medieval period.

204. History of Modern Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Western philosophy from Descartes to Kant, including the development of modern scientific processes, and the philosophical systems of empiricism, rationalism, transcendental idealism, etc.

270. Symbolic Logic I (3)

Introduction to the formal techniques of evaluating arguments.

296. Methods of Philosophical Study (3)

Prerequisite: Three units in Philosophy. This course prepares the student for philosophical study through education in its research methods and technical vocabulary, by instructing students how to write a successful philosophical essay, and explaining the scope and nature of some of the central issues of philosophy.

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

The philosophy upper division courses fall into several curricular sub-groups, as follows:

Early Philosophy

306. Philosophies of China and Japan
307. Philosophies of India
421./521. Plato
422./522. Aristotle
490./590. Special Topics – Early Philosophy

Modern Tradition

413./513. Continental Rationalism
414./514. British Empiricism
423./523. Kant
424./524. Hegel
425./525. Wittgenstein
491./591. Special Topics – The Modern Tradition

Twentieth Century Philosophy

416./516. Pragmatism
417./517. Phenomenology
418./518. Existentialism
419./519. Analytic Philosophy
492./592. Special Topics – Twentieth Century Philosophy

Metaphysical Studies

330. Philosophy of Religion
342. Metaphysics
483./583. Philosophical Psychology
493./593. Special Topics: Metaphysical Studies

Epistemological Studies

381. Philosophy of Science
382. Theory of Knowledge
482I. Introduction to Cognitive Science

Studies in Logic and Semantics

470. Symbolic Logic II
484. Philosophy of Language

Studies in Value and Evaluation

351. Political Philosophy
352. Philosophy of Law
361. Philosophy of Art and Beauty
362I. Ethics and Computer Technology
363. Ethical Theory
401. Philosophy in Education
403I. Medical Ethics
405I. Philosophy in Literature
451I. Liberty and Justice: Race, Ethnicity, and Gender in American Law
452I. Law, Philosophy, and the Humanities
455. Philosophical Perspectives on Sex and Love
461I. Diversity in Criticism and Analysis of the Arts
489. Philosophy Internship/Pre-Law
496./596. Special Topics – Value and Evaluation

Upper Division

306. Philosophies of China and Japan (3)

Prerequisite: Completion of GE Foundation requirements. Historical and critical study of the philosophical thought of China and Japan.

307. Philosophies of India (3)

Prerequisite: Completion of GE Foundation requirements. Historical and critical survey with emphasis on basic ideas and traditions.

330. Philosophy of Religion (3)

Prerequisite: Completion of GE Foundation requirements. Nature and function of religion and of fundamental religious concepts and ideals.

342. Metaphysics (3)

Prerequisite: 3 units of philosophy or consent of instructor. Problems of ontology and cosmology including such concepts as matter and energy, time and space, evolution and causality.

351. Political Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Analysis of fundamental political concepts such as the legitimacy of government, the relation of justice to coercive power, the morality of war, political obligation, and sovereignty; and/or a study of political ideologies such as socialism, classical liberalism, and conservatism.

352. Philosophy of Law (3)

Prerequisite: Completion of GE Foundation requirements. Study of the historical development of the philosophy of law and examination of the problems in the field ranging from general theories to analysis of fundamental legal concepts and normative issues.

361. Philosophy of Art and Beauty (3)

Prerequisite: Completion of GE Foundation requirements. Discussion of central problems in aesthetics, such as the possibility of objectivity in criticism, modern and traditional definitions of a work of art, truth and meaning in the fine arts, natural beauty and its relationship to excellence in music, architecture, etc.

362I. Ethics and Computer Technology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Speculative and critical examination of moral dilemmas, legal issues, and social values pertaining to new developments in computer technology, with particular emphasis on how computer technology informs, and is informed by, human relationships and human needs.

363. Ethical Theory (3)

Prerequisite: 3 units of philosophy. In-depth discussion of such issues as obligation, responsibility, social justice, and personal ideals.

381. Philosophy of Science (3)

Prerequisite: Completion of GE Foundation requirements. Problems, methods and fundamental concepts of the sciences, including the relationships of the sciences to each other, to mathematics and to philosophy.

382. Theory of Knowledge (3)

Prerequisite: Three units of philosophy. Investigation of such concepts as knowledge, belief, certainty. Critical study of theories concerning such issues as our knowledge of the external world, the past, other minds.

401. Philosophy in Education (3)

Prerequisites: Completion of the GE Foundation; at least six units of philosophy. Exploration of the intersection between philosophy and education. Students read and discuss selections from classical philosophical works on education, analyze historical and contemporary reasons for common exclusion of philosophy from K-12 curriculum, explore ways of integrating philosophy into curriculum for young students. Each student will be placed in a local school district classroom to lead weekly philosophy sessions with a teaching partner. Service-learning.

403I. Medical Ethics (3)

Prerequisites: Completion of the 13-unit Foundation; at least one Explorations course. Covers several of main areas of bioethics: reproductive rights and liberties, definitions of health, disease, and disability, end of life care, fair distribution of health care, goals of health care. Philosophical texts, journal articles from medical humanities, ethics, medicine, and case studies used to raise and examine issues.

405I. Philosophy in Literature (3)

Prerequisites: Completion of the 13-unit Foundation; at least one Exploration course in philosophy, literature, theater arts; upper-division standing required. Intensive exploration of philosophical ideas in selected literature with special attention to both philosophical and literary ways of reading and appreciating a text. Not open to students with credit in PHIL 305.

413./513. Continental Rationalism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz.

414./514. British Empiricism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume.

416./516. Pragmatism (3)

Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead.

417./517. Phenomenology (3)

Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur.

418./518. Existentialism (3)

Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus.

419./519. Analytic Philosophy (3)

Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine.

421./521. Plato (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works.

422./522. Aristotle (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works.

423./523. Kant (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*.

424./524. Hegel (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Study of Hegel's Philosophy of Mind and Logic, and selected writings by Hegel and other topics.

425./525. Wittgenstein (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on *Philosophical Investigations*.

451I. Liberty and Justice: Race, Ethnicity, and Gender in American Law (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; and 6 units of philosophy, or consent of instructor. Junior standing required; Senior standing recommended. Philosophical and legal analysis of how liberty and justice for different races, ethnic groups and genders have been treated in American law.

452I. Law, Philosophy, and the Humanities (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended), six units of philosophy or consent of instructor. A comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

455./555. Philosophical Perspectives on Sex and Love (3)

Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as W/ST 455.

461I. Diversity in Criticism and Analysis of the Arts (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended). Philosophical and critical consideration of the arts by different races, ethnic groups, and genders in the United States.

470./570. Symbolic Logic II (3)

Prerequisites: PHIL 270, or MATH 330, or consent of instructor. A philosophical consideration of deductive systems.

482I. Introduction to Cognitive Science (3)

Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from Computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PSY 382I.

483./583. Philosophical Psychology (3)

Prerequisites: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose.

484./584. Philosophy of Language (3)

Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning.

489. Philosophy Internship/Pre-Law (3-6)

Prerequisites: Consent of Philosophy Department Chair; completion of a minimum of 15 upper-division units required for the Philosophy major. Internship with private organizations and governmental agencies with law-related focus. A CSU Summer Internship in Washington, D.C. also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB Philosophy Pre-Law Advisor. A mid-term and final report and internship conferences are required.

490./590. Special Topics: Early Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated to a maximum of 9 units with different topics.

491./591. Special Topics: Modern Tradition (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated to a maximum of 9 units with different topics.

492./592. Special Topics: Twentieth Century Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated to a maximum of 9 units with different topics.

493./593. Special Topics: Metaphysical Studies (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected metaphysical topic. Sample topics: Time, Personal Identity, Philosophical Theology, Philosophy of Action, Process Philosophy. Specific title will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

496./596. Special Topics: Value and Evaluation (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics.

497H. Undergraduate Honors Seminar (3)

Prerequisites: 1) Admission to the undergraduate Honors Program in Philosophy. 2) Undergraduate Honors Thesis (PHIL 498) or (with consent of instructor) taken concurrently. A capstone seminar designed to prepare exceptional undergraduate majors for graduate studies in philosophy and other disciplines. Complements Undergraduate Honors Thesis (PHIL 498). Letter grade only (A-F).

498H. Undergraduate Honors Thesis (3)

Prerequisites: Admission to the undergraduate Honors Program in Philosophy. A Directed Studies course on a topic chosen by the student in consultation with instructor. Complements, and usually taken before, PHIL 497, undergraduate Honors Seminar. May be repeated to a maximum of 6 units.

499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 6 units.

Graduate Level

513./413. Continental Rationalism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz. Letter grade only (A-F).

514./414. British Empiricism (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume. Letter grade only (A-F).

516./416. Pragmatism (3)

Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead. Letter grade only (A-F).

517./417. Phenomenology (3)

Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur. Letter grade only (A-F).

518./418. Existentialism (3)

Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus. Letter grade only (A-F).

519./419. Analytic Philosophy (3)

Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine. Letter grade only (A-F).

521./421. Plato (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works. Letter grade only (A-F).

522./422. Aristotle (3)

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works. Letter grade only (A-F).

523./423. Kant (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*. Letter grade only (A-F).

524./424. Hegel (3)

Prerequisites: Six units of philosophy to include 204, or consent of instructor. Study of Hegel's *Philosophy of Mind and Logic*, and selected writings by Hegel and other topics. Letter grade only (A-F).

525./425. Wittgenstein (3)

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on Philosophical Investigations.

552. Advanced Studies in Law, Philosophy, and the Humanities (3)

Prerequisites: Graduate standing. Comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

555./455. Philosophical Perspectives on Sex and Love (3)

Prerequisites: Six units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined.

570./470. Symbolic Logic II (3)

Prerequisites: PHIL 270, or MATH 330, or consent of instructor. A philosophical consideration of deductive systems.

583./483. Philosophical Psychology (3)

Prerequisite: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose. Letter grade only (A-F).

584./484. Philosophy of Language (3)

Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning. Letter grade only (A-F).

590./490. Special Topics Early Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

591./491. Special Topics Modern Tradition (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher, or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

592./492. Special Topics: Twentieth Century Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

593./493. Special Topics: Metaphysical Studies (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected metaphysical topic. Sample topics: Time, Personal Identity, Philosophical Theology, Philosophy of Action, Process Philosophy. Specific title will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

596./496. Special Topics: Value and Evaluation (3)

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

597. Teaching Philosophy (3)

Prerequisites: Six units of philosophy or consent of instructor. A practical and theoretical introduction to the aims, methods, responsibilities, and ethics of teaching in the college classroom, with an emphasis on the specific issues involved in teaching philosophy. Letter grade only (A-F).

599. Graduate Tutorial (1-3)

Prerequisite: Consent of the instructor. Supervised independent study. Seniors with a GPA of 3.0 or better may enroll with consent of Department. May be repeated to a maximum of 6 units. Letter grade only (A-F).

620. Seminar in History of Philosophy (3)

Prerequisite: Consent of instructor. Close study of selected subjects in the history of philosophy. The original language may be required. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

630. Seminar in Philosophy of Religion (3)

Prerequisite: PHIL 330 or consent of instructor. Critical examination of selected issues, figures and movements. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

663. Seminar in Ethics (3)

Prerequisite: PHIL 363 or consent of the instructor. Systematic examination of topics (such as human rights, pleasure) and theories (such as utilitarianism, contract theory) which are central to moral reasoning. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

680. Seminar in Epistemology (3)

Prerequisite: PHIL 382 or consent of instructor. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

681. Seminar in the Philosophy of Science (3)

Current issues in the philosophy of science. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

690. Seminar in Selected Topics of Current Interest (3)

Presentation, discussion and critical evaluation of advanced work (which may include original research of faculty and graduate students) in selected topics of current interest to professional philosophers. If demand for more than one subject exists, multiple sections may be given in any one semester. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisite: Consent of the student's advisor. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisite: Consent of graduate advisor. Preparation and completion of a thesis in philosophy and oral defense thereof.

PHYSICS AND ASTRONOMY

College of Natural Sciences and Mathematics

Department Chair

The Department of Physics and Astronomy offers two bachelor's degrees and a master's degree; descriptions of these programs and the requirements for their completion are given below.

Degree Programs

Each bachelor's degree offered by the Department is based on a strong, basic program. The Bachelor of Science (B.S.) degree is designed for students interested in immediate employment in industry as well as those who wish to continue on to a Master's or Ph.D. degree in physics or a related field. The Bachelor of Arts (B.A.) degree is appropriate for those preparing for teaching careers in the physical sciences at the secondary level as well as those whose goal is a liberal education with an emphasis on physics. The curriculum for these baccalaureate degrees provides a broadly-based exposure to theoretical and experimental physics. It also permits students to discuss fundamental concepts and their applications to grasp the discoveries at science's expanding frontiers, and to develop an appreciation for the amazing beauty of the physical universe.

The Department also offers graduate study leading to the Master of Science (M.S.) degree. The M.S. degree is available in both a general option and an option in applied physics. A student may choose the general option either with a thesis (Plan I) or, if the department graduate committee gives permission, with a comprehensive examination (Plan II); the option in applied physics requires a thesis. Active areas of research are: observational astronomy, applied optics, laser spectroscopy, materials research, particle physics, atomic physics, quantum gravity, muon catalyzed fusion, intermediate energy physics, acoustics, and condensed matter physics. Teaching associateships and graduate assistantships are available to students working on the master's degree. Application should be made to the graduate advisor of the Department of Physics and Astronomy.

Concurrent and/or Summer Enrollment at Another College

Students who wish to take course work at a community college or another college or university to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate Department for prior approval to earn credit for specific courses. This policy applies to concurrent enrollment or summer enrollment. Please see "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the Department.

Facilitated Enrollment into Classes

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be avail-

able to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Sciences and Mathematics Center (FO5-109) or Department Office for additional information.

Bachelor of Science in Physics (code PHYSBS01) (121 units)

Requirements

Lower Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper Division: ENGL 317; MATH 370A or 364A, MATH 370B or 461; 34 units of upper division physics including PHYS 310, 320, 340A, 340B, 350, 360, 380, 450, and one laboratory course chosen from PHYS 330, 403, 445, 476 and 480. The remaining (6 to 8) units are to be chosen from any upper division physics courses.

Grade Requirements

Physics majors must have a "C" average in the major. Physics students must achieve a grade of "C" or better in each required course in the major. The following schedule is typical for an upper division major who is a full-time student.

Junior Year:

Fall: PHYS 310, 320, 360; MATH 370A or 364A (or MATH 370B or 461; it is recommended that MATH 370A or 364A be taken before PHYS 310 if possible).

Spring: PHYS 340A, 350, 380; MATH 370B or 461 (if not taken previously).

Senior Year:

Fall: PHYS 340B, 450.

Spring: Three upper division physics electives.

FOUR YEAR PLAN TO COMPLETE THE B.S. IN PHYSICS (PHYSBS01)

120 units required.

Department of Physics and Astronomy

Semester 1		Semester 2	
University 100	1	Oral Communication or Comp	3
Comp or Oral Communication	3	MATH 123	4

Physics Lab course can be PHYS 330, 403, 445, 476, 480, or, with the approval of the advisor 496
The Physics Elective requirement can be met by a minimum of 6 units of upper division Physics courses.

Bachelor of Arts in Physics (code PHYSBA01) (120 units)

This degree is designed for the student who expects to teach at the secondary level, or who seeks a high quality liberal education focusing on science. A minimum of 120 units is required for this degree.

Requirements

Lower-Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper-Division: A minimum of 24 units of courses selected in consultation with the Physics Department Undergraduate Advisor, at least 18 units of which must be in physics; ENGL 317 or other suitable upper-division writing course from the Department of English, to be determined in consultation with the Physics Department Undergraduate Advisor (may be waived for students who achieved a standard score of 24 on the ACT English sub-test or who received an "A" or "B" grade in ENGL 100).

Requirements Related to a Teaching Credential with a Physics Specialization

The *Science Teaching Credential with a Specialization in Physics* is formally administered by the Department of Science Education and the Single Subject Teacher Education Program in the College of Education. The Science Teaching Credential with any specialization has a set of requirements that include courses in MATH, BIOL, CHEM, GEOL, and SCED, as well as professional education courses. The courses listed below are those required for *the Physics Specialization*; note that meeting these credential requirements also meets the requirements for the Bachelor of Arts in Physics. A more elaborated list of these requirements can be obtained from the Department of Physics and Astronomy, the Department of Science Education, or the Single Subject Program; *the student is strongly encouraged to consult with an advisor in one of these areas for more information about additional requirements for the credential.*

Lower-Division: PHYS 151, 152, 254, 255; MATH 122, 123, 224; ASTR 100; BIOL 211A,B; CHEM 111A,B; GEOL 102, 104, 160.

Upper-Division: MATH 364A or 370A; PHYS 310, 340A, either 320 or 422, either 330 or both 475 and 476, either 380 or 3 units of 496; SCED 403, 404; EDSS 300C, 450C; EDSE 435, 436, 457.

FOUR-YEAR PLAN TO COMPLETE THE B.A. IN PHYSICS (PHYSBA01)

120 Units required Department of Physics and Astronomy

Semester 1		Semester 2

Note: For a single-subject teaching (preliminary) credential with a Physics concentration, see the Physics Undergraduate Advisor or Department of Science Education for information about additional courses needed..

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Physics (code PHYSUM01)

Requirements

The Minor in Physics is available to any non-Physics major. A minimum of 20 units which must include the following.

Lower Division: PHYS 151, 152, 254, 255.

Upper Division: A minimum of nine units in physics (PHYS 360 will not count toward these nine units).

Master of Science in Physics (code PHYSMS01)

Prerequisites

1. A bachelor's degree with a major in physics; or
2. A bachelor's degree with at least 24 units of upper division physics. (Students deficient in undergraduate preparation must take courses to remove these deficiencies with or without credit toward the degree at the discretion of the Department Graduate Advisor.)

Requirements

1. Advancement to Candidacy
 - a. Students must fulfill the University requirements for advancement to candidacy.
 - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serves at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the graduate advisor.

Additional Requirements

Plan I

1. A minimum of 30 units of upper division and graduate courses including PHYS 540A,B, 550A,B, 560A, and 695;
2. Completion of a written thesis, 6 units of PHYS 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.

Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student should choose a thesis advisor who will help in selecting the student's thesis committee consisting of at least three members (including the thesis advisor and at least one other member of the Department).

Plan II

1. Permission of the Department Graduate Committee;
2. A minimum of 30 units of upper division and graduate courses including PHYS 510, 540A,B, 550A,B, 560A, and 695;
3. Passing a comprehensive examination.

The remaining required units, not more than 6 of which may be in related fields, are to be from courses selected in consultation with the graduate advisor.

Option in Applied Physics (code PHYSMS02)

The Option in Applied Physics provides a master's degree program that emphasizes concepts and techniques particularly appropriate for applied physics. It is intended for students having a background in physics, engineering, or a related field.

Prerequisites

1. A bachelor's degree with a major in physics, or
2. A bachelor's degree with a major in engineering with upper division physics substantially equivalent to PHYS 310, 340AB, and 450, as determined by the Department Graduate Advisor, or
3. A bachelor's degree with upper division physics and mathematics courses essentially equivalent to PHYS 310, 340B, 450, and MATH 370A and 370B, as determined by the Department Graduate Advisor.

Students deficient in undergraduate preparation must take courses to remove these deficiencies as determined by the Department Graduate Advisor.

Requirements

1. Advancement to Candidacy
 - a. Students must fulfill the University requirements for advancement to candidacy.
 - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serve at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the graduate advisor.

Additional Requirements

Thirty units of upper division and graduate courses as described below.

1. PHYS 540A, 550A, 560A, 569, and 695.
2. Two of the following courses or combinations of courses: PHYS 502/503, 545, 575/576, and 580.
3. Completion of a written thesis, 6 units of PHYS 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.

Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate student should choose a thesis advisor who will help in selecting the student's thesis committee consisting of at least three members (including the thesis advisor and at least one other member of the Department).

4. Courses selected in consultation with the Department Graduate Advisor and/or thesis advisor to complete the remaining 2 to 3 units.

Physics Courses (PHYS)

Lower Division

100A,B. General Physics (4,4) F,S

Prerequisites: MATH 112 or 117 or 119A or 120 or 122. PHYS 100A is a prerequisite for PHYS 100B. Year course in introductory physics. The first semester considers properties of matter, mechanics, wave motion and heat. The second semester considers electricity, light, and atomic and nuclear physics. Letter grade only (A-F). (Lecture 3 hrs, laboratory 3 hrs.) (100A: CAN PHYS 2; 100B: CAN PHYS 4)

102. Introduction to Physics (3) F,S

Prerequisite: MATH 117 (which may be taken concurrently) or three-and-one-half years of high school mathematics including two years of algebra, one year of geometry and one-half year of trigonometry. This course is designed to assist students who need additional preparation before enrolling in PHYS 100A or 151. Basic problems and concepts in physics, particularly in mechanics. Credit/No Credit grading only. (Lectures, problem sessions 4 hrs.) Course begins in the fourth week of the semester.

151. Mechanics and Heat (4) F,S

Prerequisite: MATH 122. Kinematics, Newton's Laws, rotational motion, fluid statics, laws of thermodynamics. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

152. Electricity and Magnetism (4) F,S

Prerequisites: PHYS 151, MATH 123. Mechanical waves, Coulomb's law, electrostatics, electric circuits, introductory electronics, magnetic fields, induction and Maxwell's equations. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

254. Applied Modern Physics (3) F,S

Prerequisites: PHYS 152 or EE 210, MATH 224. Geometrical and physical optics, models of atomic and condensed matter systems. Not open to students with a "C" or better in PHYS 153 or PHYS 154. Letter grade only (A-F). (Lecture 3 hrs.)

255. Laboratory on Modern Physics (1)

Prerequisites: PHYS 254, which may be taken concurrently. Experimental work in optics and modern physics. Not open to students with a "C" or better in PHYS 153 or PHYS 155. PHYS 255 is equivalent to PHYS 155. Letter grade only (A-F). (Laboratory 3 hrs.)

Upper Division

310. Mechanics I (3) F

Prerequisites: PHYS 151. Prerequisite or Corequisite: MATH 370A or 364A. Kinematics and dynamics of mass points and systems of particles. Conservation laws. Harmonic motion. Central force problem. Noninertial frames of reference. Lagrangian and Hamiltonian formulation of the laws of mechanics. Letter grade only (A-F). (Lecture 3 hrs.)

320. Classical and Statistical Thermodynamics (3) F

Prerequisite: PHYS 152. Prerequisite or co-requisite, PHYS 254. Laws of thermodynamics, thermodynamic potentials, kinetic theory methods, phase transitions, equilibrium ensembles and related formalism with applications to classical and quantum systems. (Lecture 3 hrs.)

330. Experimental Optics and Spectroscopy (3) F

Prerequisites: PHYS 254, 255. Interference, diffraction, polarization and elementary spectroscopy. (Lecture 2 hrs., laboratory 3 hrs.)

340A. Electricity and Magnetism I (3) S

Prerequisites: PHYS 152, PHYS 310. Prerequisite or Corequisite: MATH 370A or 364A. Vector calculus, electrostatics, and magnetostatics. Formulation of Maxwell's equations in vector analytic form. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

340B. Electricity and Magnetism II (3) F

Prerequisite: PHYS 340A. Special relativity. Applications of Maxwell's equations: Plane electromagnetic waves, guided waves, radiation, interaction of electromagnetic waves and matter. (Lecture-discussion 3 hrs.)

350. Modern Physics (3) S

Prerequisites: PHYS 310, MATH 370A or 364A. Physical phenomena and models leading to the development of quantum mechanics. Schroedinger equation, one-dimensional quantum mechanical problems, uncertainty principle, one-electron atoms, elementary applications of quantum mechanics. (Lecture-discussion 3 hrs.)

360. Computers in Physics (3) F

Prerequisite: PHYS 152. Prerequisite or Corequisite: MATH 370A or 364A. Introduction to the use of the personal computer in physics calculations and analysis. Introduction to the Mathematica software. Introduction to interpolation and fitting of experimental data. Examples of symbolic (analytic) calculations, numerical solutions, and graphical display of results for a variety of physics problems. Introduction to programming in Mathematica. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

*380. Electronics (4) S

Prerequisite: PHYS 152. Network analysis and complex impedance, transistor circuits, operational amplifiers, active filters and oscillators, digital electronics, analog-digital interfacing, microprocessors. Letter grade only (A-F). (Lecture 3 hrs., laboratory 3 hrs.)

402./502. Fourier Methods in Physics (3) F, odd years

Prerequisites: PHYS 310, MATH 370B or 461. (Undergraduates register in PHYS 402; graduates register in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. Letter grade only (A-F). (Lec 3 hrs)

403./503. Fourier Physics Laboratory (1) F, odd years

Prerequisite: PHYS 402 which may be taken concurrently. (Undergraduates register in PHYS 403; graduates register in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. (Laboratory 3 hrs.)

410./515. Relativity (3) F, odd years

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or 364A. (Undergraduates register in PHYS 410; graduates register in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

422./522. Thermal Physics (3) F, even years

Prerequisites: PHYS 310, 320, 350. (Undergraduates register in PHYS 422; graduates register in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. Letter grade only (A-F). (Lec-discussion 3 hrs)

434./534. Astrophysics (3) F, even years

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates register in PHYS 434; graduates register in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. Letter grade only (A-F). (Lecture 3 hrs)

444./544. Plasma Physics (3) S, odd years

Prerequisites: PHYS 340A. (Undergraduates register in PHYS 444; graduates register in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydromagnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. (Lecture 3 hrs.)

445./545. Fundamentals and Techniques of Materials Physics (3) S, odd years

Prerequisites: PHYS 254; PHYS 450 or consent of instructor. (Undergraduates register in PHYS 445; graduates register in PHYS 545.) Fundamentals of materials physics and physical properties of matter, principles and operation of the scanning tunneling and scanning force microscopes, resistance and temperature measurements. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

450. Quantum Physics I (3) F

Prerequisites: PHYS 310, 340A, 350. Schroedinger equation, atomic physics, harmonic oscillator, scattering, perturbation theory, Heisenberg and Dirac representations, spin, symmetries (angular momentum, time reversal, and parity), applications. (Lec-discussion 3 hrs.)

*451. Quantum Physics II (3) S, even years

Prerequisite: PHYS 450. Measurement processes, atomic physics, identical particles, quantum statistics, numerical methods, many-body systems, density matrix, applications. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

470./569. Introduction to Solid State Physics (3) S, odd years

Prerequisite: PHYS 450. (Undergraduates register in PHYS 470; graduates register in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. Letter grade only (A-F). (Lecture 3 hrs.)

475./575. Modern Optics (3) F, even years

Prerequisite: PHYS 340A. (Undergraduates register in PHYS 475; graduates register in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected application. Letter grade only (A-F). (Lecture 3 hrs.)

476./576. Modern Optics Laboratory (1) F, even years
Prerequisites: PHYS 475/575 which may be taken concurrently. (Undergraduates register in PHYS 476; graduates register in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Letter grade only (A-F). (Laboratory 3 hrs.)

480./580. Computer Interfacing in Experimental Physics (3) S, even years

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates register in PHYS 480; graduates register in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programable instruments. The use of the computer as a tool in the execution and interpretation of physics experiments is emphasized. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

490./590. Special Topics in Physics (3)

Prerequisite: Consent of instructor. (Undergraduates register in PHYS 490; graduates register in PHYS 590.) Topics of interest in physics selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, low temperature physics, acoustics and theoretical physics. May be repeated to a maximum of 6 units. (Lecture 3 hrs.)

496. Special Problems in Physics (1-3)

Prerequisites: Consent of instructor and senior standing. Problems in physics. Problems selected by instructor for considered and mature analysis. A written and 10-minute oral report are required. May be repeated to a maximum of 4 units.

Graduate Level

500. Research Methods (1)

Prerequisite: Consent of instructor. Directed study of the literature about research methods in physics. May be repeated to a maximum of 2 units; only 1 unit may be applied to the Master of Science in Physics. Letter grade only (A-F).

502./402. Fourier Methods in Physics (3) F, odd years

Prerequisites: PHYS 310, MATH 370B or 461. (Undergraduates register in PHYS 402; graduates register in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. Letter grade only (A-F). (Lecture 3 hrs.)

503./403. Fourier Physics Laboratory (1) F, odd years

Prerequisite: PHYS 502 which may be taken concurrently. (Undergraduates register in PHYS 403; graduates register in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. Letter grade only (A-F). (Laboratory 3 hrs.)

510. Graduate Mechanics (4) F

Prerequisite: PHYS 310. Variational principles, Lagrange's equations, Hamilton's equations, canonical transformations, Hamilton-Jacobi theory, relativistic mechanics and small oscillation theory. Letter grade only (A-F). (Lecture 4 hrs.)

515./410. Relativity (3) F, odd years

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or MATH 364A. (Undergraduates register in PHYS 410; graduates register in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

522./422. Thermal Physics (3) F, even years

Prerequisites: PHYS 310, 320, 350. (Undergraduates register in PHYS 422; graduates register in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. Letter grade only (A-F). (Lecture-discussion 3 hrs.)

534./434. Astrophysics (3) F, even years

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates register in PHYS 434; graduates register in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. Letter grade only (A-F). (Lecture 3 hrs.)

540A. Graduate Electricity and Magnetism and Electrodynamics I (3) S

Prerequisite: PHYS 340B. Boundary-value problems, applications of special functions to electro/magnetostatics, Green's function techniques, multipole expansion of the electrostatic field, dielectric media, Maxwell's equations, electromagnetic waves. Letter grade only (A-F). (Lecture 3 hrs.)

540B. Graduate Electricity and Magnetism and Electrodynamics II (3) F

Prerequisites: PHYS 540A. Covariant formalism, simple radiating systems, radiation by moving charges, and selected topics in electrodynamics chosen from the following: wave guides, magnetohydrodynamics, thermodynamics and electrodynamics of continuous media, and radiation reaction. Letter grade only (A-F). (Lecture 3 hrs.)

544./444. Plasma Physics (3) S, odd years

Prerequisites: PHYS 340A. (Undergraduates register in PHYS 444; graduates register in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydromagnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. Letter grade only (A-F). (Lecture 3 hrs.)

545./445. Fundamentals and Techniques of Materials Physics (3) S, odd years

Prerequisites: PHYS 254; PHYS 450 or consent of instructor. (Undergraduates register in PHYS 445; graduates register in PHYS 545.) Fundamentals of materials physics and physical properties of matter, principles and operation of the scanning tunneling and scanning force microscopes, resistance and temperature measurements. Graduate students are required to perform additional assignments and/or examinations. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

550A. Quantum Mechanics I (3) F

Prerequisite: PHYS 450. Mathematical and postulational basis of quantum mechanics, one-dimensional problems, two-level systems, angular momentum, central potentials, time independent and time dependent perturbation theory. Letter grade only (A-F). (Lecture 3 hrs.)

550B. Quantum Mechanics II (3) S

Prerequisite: PHYS 550A. Scattering, rotation group and irreducible tensor operations, identical particles, semi-classical radiation theory, atoms, path integral formalism, and other selected topics. Letter grade only (A-F). (Lecture 3 hrs.)

554. Nuclear Physics (3)

Prerequisite: PHYS 550A. Deuteron problem, nucleon-nucleon potential, shell model, nuclear models, nuclear reactions, elementary particles, weak interactions, strong interactions. Letter grade only (A-F). (Lecture 3 hrs.)

555. Elementary Particle Physics (3) S, even years

Prerequisites: PHYS 310, 340B, 450. Feynman diagram language of scattering and decay, space-time symmetries, relativistic kinematics, hadron quantum numbers and quark models, QED, QCD

and gluons, weak interactions. Letter grade only (A-F). (Lecture 3 hrs.)

560A,B. Methods of Mathematical Physics (4,3)

Prerequisites: MATH 370A,B or equivalent. Linear vector spaces, eigen-value problem, functions of a complex variable, special functions, properties and methods of solving partial differential equations of physics, integral equations, tensor analysis and group theory. Letter grade only (A-F). (Lecture 4,3 hrs.)

569./470. Introduction to Solid State Physics (3) S, odd years

Prerequisite: PHYS 450. (Undergraduates register in PHYS 470; graduates register in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. Letter grade only (A-F). (Lecture 3 hrs.)

570. Solid State Physics (3) F

Prerequisite: PHYS 450. The modern theory of solids from the standpoint of quantum mechanics. Binding in solids, energy bands, electrical thermal and magnetic properties, imperfections, and semiconductors. Letter grade only (A-F). (Lecture 3 hrs.)

575./475. Modern Optics (3) F, even years

Prerequisite: PHYS 340A. (Undergraduates register in PHYS 475; graduates register in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected applications. Letter grade only (A-F). (Lecture 3 hrs.)

576./476. Modern Optics Laboratory (1) F, even years

Prerequisite: PHYS 475/575 which may be taken concurrently. (Undergraduates register in PHYS 476; graduates register in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Letter grade only (A-F). (Laboratory 3 hrs.)

580./480. Computer Interfacing in Experimental Physics (3) S, even years

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. The use of the computer as a tool in aiding the execution and interpretation of physics experiments is emphasized. Letter grade only (A-F). (Lecture 2 hrs., laboratory 3 hrs.)

590./490. Special Topics in Physics (3)

Prerequisite: Consent of instructor. (Undergraduates register in PHYS 490; graduates register in PHYS 590.) Topics of interest in physics selected for intensive development. Topics to be selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, applied optics and laser spectroscopy, low temperature physics, acoustics and theoretical physics. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Lecture 3 hrs.)

599. Quantum Field Theory (3)

Prerequisites: PHYS 550B or consent of instructor. Selected topics to be chosen from: Many-particle systems and field theory; interactions, bound states, and the S-matrix; gauge theories and Q.E.D.; path-integral picture. Selected applications from condensed matter physics, electro-weak interactions, Q.C.D., lattice gauge theory, conformal field theory, string theory. (Lecture 3 hrs.)

691. Directed Study (1)

Intensive study of advanced topics in physics. May be repeated to a maximum of 2 units. Letter grade only (A-F).

694. Seminar in Special Topics (1)

Prerequisite: Graduate standing. Study of research papers and research methods in selected topics. If demand for more than one subject exists, multiple sections may be given in any one

semester. May be repeated to a maximum of 2 units; only 1 unit may be applied to the master's degree. Letter grade only (A-F). (Seminar 1 hr.)

695. Colloquium (1)

Prerequisites: Graduate standing. Weekly meetings for presentation and discussion of current research in physics even though only 1 unit is for the MS degree. All graduate students are expected to attend each semester they are enrolled in the University. Credit/No Credit grading only. (Seminar 1 hr.)

697. Directed Research (1-3)

Theoretical and experimental problems in physics requiring intensive analysis. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisite: Advancement to candidacy for the M.S. in Physics. Planning, preparation, and completion of an acceptable thesis in partial fulfillment of the requirements for the master's degree. A half-hour seminar presenting and defending the results of the thesis is required. Credit to be obtained only upon formal acceptance of thesis.

Astronomy Courses (ASTR)

Lower Division

100. Astronomy (3) F,S

Prerequisite/Corequisite: One course from category B.2 of the GE requirements. Introductory course in astronomy. The earth moon system and the planets, the stars and their constitution. Survey of the methods of astronomical observation. (Lecture 3 hrs.)

100L. Introductory Astronomy Laboratory (1) F,S

Prerequisites/Corequisites: One course from category B.2 of the GE requirements; ASTR 100. Astronomical coordinates, star maps, magnitude, spectral classification, ages of stars, distance to star clusters. Not open to students with credit in ASTR 101. (Laboratory 3 hrs.)

Upper Division

370I. Planetary Environments (3) F, S

Prerequisites: Completion of the G.E. Foundation and the G.E. B.1.b category; upper-division standing. Analysis of planets in our own solar system with particular emphasis on plate tectonics and the locally relevant subject of seismology. Also considered are the origin and evolution of terrestrial life, including the role of extinction events, and the probability of life elsewhere in the universe. May not be used by physics majors toward meeting GE requirements. (Lecture 3 hrs.)

Physical Science Courses (PHSC)

Lower Division

112. Introduction to the Physical Sciences (3) F,S

Prerequisite/Corequisite: One course from category B.2 of the GE Foundation. Selected processes which illustrate some of the basic principles used by scientists to interpret modern ideas of matter and energy in the physical universe. Students with a full year course in high school physics or chemistry should elect some other lower division course in chemistry, geology or physics. Not open for credit to majors in any of the physical sciences. (Lecture 2 hrs., laboratory 3 hrs.)

Upper Division

331. Light, Lasers and the Visual Image (3)

Nonmathematical course that describes light, its behavior and applications. Emphasis on image formation, optical instruments, science of color, lasers, holography and analysis of light for elements, planets and stars. Colorful demonstrations using lasers and holograms including kinetic art. Recommended for art and other non-science majors. (Lecture-demonstration 3 hrs.)

View the CSU, Long Beach *Catalog* on-line at www.csulb.edu by clicking on "Academics" and then "CSULB Catalog."

The political science major is designed to provide the student with a systematic knowledge of the nature and scope of political science. A student may elect to major in political science as a preparation for such fields as: (1) college or university teaching, (2) law, (3) government career service, (4) foreign career service, and (5) politics. In addition, a political science major is preparation for general education, good citizenship and participation in political life. Students interested in the fields mentioned above should consult with an advisor to secure aid in planning their programs.

Pre-Law Program and Preparation

Political Science continues to be one of the more popular and successful roads to law school and careers in the legal field. Combining a broad exposure to liberal arts with an in-depth immersion in government studies and public law, plus opportunities to intern in legal settings, Political Science provides a rich preparation for those interested in pursuing careers in law. Students interested in our program should consult with the Pre-law advisor in Political Science both to plan a carefully thought out undergraduate course of study and to successfully prepare for admission to law schools.

General Education Requirements in Government

The Education Code requires each college graduate to meet (1) a federal government requirement and (2) a California state and local government requirement. Both of these requirements can be met by POSC 100 (for lower division students) or POSC 391 (for upper division students). If the student has completed the federal government requirement, but not the California state and local government requirement, the student should take POSC 326. Students who have taken American federal, state or local government at another institution should check with the political science advisor before enrolling.

Bachelor of Arts in Political Science (code POSCBA01) (120 units)

Requirements

Required Courses: (6 units) POSC 100, 300

Breadth Requirement: (24 units)

Three upper division units from five of the following six areas:

International Relations, Comparative Politics, Political Theory, Public Law, American Government, Politics, Public Policy and Administration

Nine units of electives in Political Science courses, six of which may be in the lower division. Any upper division political science course may be used to fulfill this requirement. A maximum of 6 units of internship may be used to fulfill degree requirements.

Concentration Requirement: (9 units) Nine units from a sixth area, three units of which must be the senior seminar in that area (e.g., POSC 409, 419, 429, 449, 469, or 489)

Total Units: 39

FOUR YEAR PLAN TO COMPLETE THE B.A. DEGREE in POLITICAL SCIENCE (POSCBA01)

120 units required

Department of Political Science

Semester 1		Semester 2	
University 100	1	Oral Comm or Composition	3
Composition or Oral Comm	3	GE Math or other GE Class	3-4
GE Math or other GE Class	3-4	Critical Thinking or other GE course	3
GE Class	3	POSC 100 (GE D1b)	3
GE Class	3	GE Class	3
Elective Class	1		
TOTAL UNITS	14-15	TOTAL UNITS	15-16

Semester 3		Semester 4	
Critical Thinking or other GE course	3	GE Class	3
GE Class	3	GE Class	3-4
GE Class	3-4	Elective Class	3
Elective Class	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15-16	TOTAL UNITS	15-16

Semester 5		Semester 6	
POSC 300	3	Major Breadth Class	3
Major Breadth Class	3	Major Breadth Class	3
Major Breadth Class	3	Major Concentration Class	3
GE Capstone Class*	3	GE Capstone Class*	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

Semester 7		Semester 8	
Major Breadth Class	3	Major Concentration Class	3
Major Breadth Class	3	Major Breadth Class	3
Major Concentration Class/		Major Breadth Class	3
Senior Seminar	3		
GE Capstone Class*	3	Elective Class	3
Elective Class	3	Elective Class	3
TOTAL UNITS	15	TOTAL UNITS	15

*GE Interdisciplinary Capstone classes may be able to count in GE and the major - see advisor

Students can satisfy both upper division GE capstone requirements and POSC breadth and/or elective requirements by taking POSC 388I, POSC 395I, POSC 461I, and/or POSC 494I.

Students who do not take 200-level major electives in the second year may take these or upper division electives in their third or fourth years.

Students who need to meet the GE Human Diversity requirement may use POSC 323 to satisfy that requirement while using it as a POSC major elective or to meet the POSC breadth requirement, or concentration requirement (but not Senior Seminar).

Senior Seminar is offered only once a year. Students should take it the first semester in which it appears during their senior year.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Honors in Political Science

Students with a major in Political Science may be admitted to the Political Science Department's honors program (option of the University Honor's Program) provided they have:

1. Junior standing, completed POSC 300 or 300A and at least two additional upper-division courses in Political Science;
2. A minimum of three semesters remaining before graduation;
3. A minimum cumulative GPA of 3.3, and 3.5 in Political Science courses;
4. Submitted to the Department Honors Committee two letters of recommendation from faculty members and an example of a research or analytical paper written for a previously taken course in Political Science;
5. Received admission approval from the Department Honors Committee.

In order to graduate with Honors in Political Science a student must:

1. Complete all regular requirements for the major in Political Science;
2. Complete 3 units of POSC 490H: Honors Seminar;
3. Complete 3 units of POSC 491H: Honors Research;
4. Complete 3 units of POSC 492H: Honors Thesis;
5. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in Political Science courses.

Minor in Political Science (code POSCUM01)

The Minor in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include:

Required: POSC 100 or 391, 300

Upper Division: Five upper division courses (300/400 level) which may include one approved political science internship from 418, 447, 448, 496, or 498.

Minor in Public Administration in Political Science (code POSCUM02)

The Minor in Public Administration in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include: (a) POSC 430; (b) 9 units selected from POSC 431, 432, 433, 436, 438, 442, 449; (c) 6 units selected from POSC 300B, 322, 323, 326, 327, 328, 329, 420, 447, 448; (d) Three elective units from any area in political science chosen in consultation with an advisor.

Master of Arts in Political Science (code POSCMA01)

The Department of Political Science offers graduate study leading to the master of arts degree. The student is urged to become acquainted with the general requirements of the University and the specific requirements of the department as stated in this *Catalog*. Important supplementary information about the steps leading to the master's degree in political science is contained in the Handbook for Graduate Students, which is available from the department upon request.

Before or soon after entering the program, the graduate student will normally consult with the department graduate advisor.

After beginning graduate study, the student is responsible for obtaining the consent of fulltime members of the department's graduate faculty to serve on her/his graduate committee: one of these committee members, the chair, will be drawn from the student's major field of concentration and will serve as the student's academic advisor. The student should seek to have established her/his committee prior to the completion of the first year or the first 18 units of work as a graduate student in political science unless an exception is granted by the Department Graduate Committee.

Prerequisites

1. A bachelor's degree with a major in political science or a bachelor's degree with 24 upper division units in political science comparable to those required for a major in political science at this university.
2. Completion of a minimum of one upper-division political theory course equivalent to POSC 301 or POSC 303 at CSULB, with a grade of "B" or better.
3. Students whose undergraduate work is deficient in political science will be required to make up certain courses. Deficiencies will be determined by the Department's Graduate Committee after taking into account each student's background and goals. These courses will not count toward credit in the M.A.
4. A 3.0 ("B") GPA in political science courses taken as an undergraduate. (A student whose GPA is less than 3.0 may appeal to the Department's Graduate Committee for a possible waiver of this requirement.)
5. Three letters of recommendation (preferably from academic sources).

Advancement to Candidacy

1. Satisfy the general requirements of the University for advancement to candidacy;
2. In order to be recommended for advancement to candidacy, students must obtain the written approval of their master's degree program of course work by their committee chair and graduate advisor.

Requirements

1. A student's program is formulated in consultation with an advisor selected from the department's faculty. A minimum of 30 units of acceptable upper division and graduate courses is required. All students are required to take both POSC 500 and POSC 550. 21 units must be concentrated in three of the fields into which the department's curriculum is divided.
2. The graduate student must complete one of the following requirements: (a) A comprehensive examination in each of two fields of Political Science (b) A thesis;
Students following the comprehensive examination option will earn 3 units of credit in POSC 697 and those writing a thesis will be granted three units of credit in POSC 698.

Interdisciplinary Minor in Public Policy (code POSCUM03)

The purpose of this program is to enable persons majoring in fields related to public policy to gain a broader understanding of the substance of public policies, the underlying social, economic and political factors related to policy alternatives, the dynamics of the public policy decision-making process, the values implicit in these decisions, and methods by which these aspects of public policy may be analyzed.

The minor consists of 21 units including a core curriculum of 12 units and 9 units of electives. A maximum of 6 units may be taken in the student's major department, but no units may be counted in both the major and the minor.

Requirements

1. Core Curriculum: (12 units required): Twelve units chosen from among the following courses: ECON 450, GEOG 466, POSC 328, PSY 375I, U/ST 301I.

Note: It is strongly recommended that students take the core curriculum courses in sequence, the first two courses during the Junior year; the second two during the Senior year.

2. Electives: (9 units required): At least 6 units of the 9 elective units must be taken in one of the policy area concentrations outlined below. The remaining 3 units may be taken from among any of the elective courses approved for the minor. See program director or a member of the Faculty Advisory Committee for a student handbook that lists all courses approved as electives.

Policy Area Concentrations: Community Relations and Social Services, Health Care, Housing and Recreation, Education, Economic Regulation, Justice and Law, Land Use and Ecology, Computational Skills for Public Policy, Foreign Policy and International Relations, Values and Public Policy, Government Processes and Policy.

Courses (POSC)

Lower Division

100. Introduction to American Government (3)

Prerequisite/Corequisite: Any GE Foundation course. Introductory survey of American Political Institutions, politics, and policy, including government and politics in California. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. (CAN GOVT 2)

105. Introduction to Critical Thinking (3)

Prerequisites/Corequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. Introduces students to the discipline of critical thinking by studying examples of philosophical writing, political rhetoric, and political propaganda. Emphasis on developing an analytic distance on ideological issues by surveying texts in political theory that distinguish a fact from a value, inductive from deductive reasoning, and an emotional response from reasoned judgment. Explores the relationship between language and logic, the role of inference in the formulation of opinions and arguments, and the value of intellectual honesty.

201. Introduction to Political Science (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Introduction to the principles of political science. Major terms, concepts, functions, and institutions relating to the processes of politics.

210. Issues of American Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with the concepts of democracy, limited government, federalism, separation of powers, judicial review, and preservation of individual rights.

215. Issues of Comparative Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with selected foreign governments, modernization, revolution, political change and world ideological conflict.

220. Issues in Global Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Divergences between nations as they affect political differences between states. The political significance of the encounter of individuals with those of different nationalities.

225. Issues in Political Theory (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Study and discussion of issues including revolution, power, justice, alienation, the nature of democracy, and other important political concepts. Views of theorists such as Plato, Hobbes, Rousseau, Mill, and Marx will be examined.

230. Issues in Political Economy (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. The relationship between politics and economics in contemporary societies; theories of political economy; the development of economic and regulatory policies in advanced capitalist democracies.

The Political Science Department upper division courses fall into several curricular sub-groups, as follows:

Political Theory

- 301. Classical Political Theory
- *303. Modern Political Theory
- *304. Recent Political Theory
- *306. Contemporary Political Ideologies
- *308. American Political Theory
- *401. Women in Political Theory
- *409. Senior Seminar in Political Theory

Public Law

- *311. Constitutional Law: Power
- *312. Constitutional Law: Rights
- *316. Administrative Justice and Law Making
- *318. Modern Legal Systems
- 412. Law and Social Change
- *414. Jurisprudence
- 417. Legal Practices: Moot Court
- 418. Legal/Judicial Apprenticeship
- *419. Senior Seminar in Public Law

American Government and Politics

- 321. The Media and American Politics
- 322. Political Parties
- 323. Racial and Ethnic Politics - U.S.
- 326. California Government in Comparative Perspective
- *327. Urban Politics
- *420. Voting, Campaigns and Elections
- *422. Public Opinion
- *423. The American Presidency
- *424. The Legislative Process
- *428. Political Behavior
- *429. Senior Seminar in American Government and Politics

Public Policy and Administration

- 328. Introduction to Public Policy
- *329. The Policy Making Process
- 430. Fundamentals of Public Administration
- *431. Public Policy Analysis
- *432. Public Values and Public Policy
- *433. Public Organization and Management
- *436. Public Personnel Administration
- *438. Comparative Public Administration
- *442. Planning Cities and Urban Regions
- 447. Public Administration Internship I
- 448. Public Administration Internship II
- *449. Senior Seminar in Public Policy and Administration

Comparative Politics

- 353. Government and Politics of Western Europe
- *356. Politics of the Soviet Union and its Successors
- 357. Politics of East-Central Europe
- *358. Contemporary Latin American Politics
- *359. Latin American Comparative Political Systems
- *362. Society and National Politics of China
- *363. Society and National Politics of Japan
- *366. Governments and Politics of Southeast Asia
- *367. Governments and Politics of the Middle East
- 450. Comparative Political Movements
- *455. Comparative Revolutionary Change
- 461I. The Politics of Development
- *469. Senior Seminar in Comparative Politics
- *481. U.S. - Latin American Relations

International Relations

- 371. Introduction to International Politics
- *376. International Law
- *378. International Organization and Administration
- 482. American Foreign Policy
- *485. International Political Economy
- *486. National Security Policies
- *489. Senior Seminar in International Politics

General

- 300. Scope/Methods Political Science
- 300A. Political Inquiry
- 300B. Quantitative Methods in Political Science
- 388I. Cyberspace Citizenship
- 391. American Government
- 395I. Politics Through Culture
- 490H. Honors Seminar
- 491H. Honors Research
- 492H. Honors Thesis
- *493. Special Topics
- 494I. Politics of the Future
- 496. Washington Center Internship
- *497. Special Topics
- *498. Practicum in Politics
- *499. Readings and Conference in Political Science

Upper Division

General Education Category A must be completed prior to taking any upper division course.

300. Scope and Methods of Political Science (3)

Prerequisite: POSC 100. An examination of what political scientists do. Students learn about various techniques, both quantitative and qualitative, that political scientists employ to understand political phenomena. Examples will draw on all subfields from political science: American politics, comparative politics, international relations, political theory, public law and public policy. Letter grade only (A-F).

300A. Political Inquiry (3)

An examination of the key debates over what constitutes the proper methodological approach to the study of political and social phenomena. Topics include the philosophy of science and theoretical problems in Liberal, Marxist, and Post-Structuralist thought. (Lec 3 hrs)

300B. Quantitative Methods in Political Science (3)

Problems of data collection and analysis. Impact of research methods on findings. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course. (Lecture 3 hours)

301. Classical Political Theory (3)

Prerequisites: Completion of the GE Foundation; POSC 100. The roots of political inquiry in the works of ancient Greek and Roman political theorists such as Socrates and the Sophists, Plato, Aristotle, Cicero, Polybius, and the Stoics. Major themes will be the relationship between the individual citizen and the Polis, justice and equality, democracy and dictatorship, and the political culture of Mediterranean world.

*303. Modern Political Theory (3)

The emergence of modern political thought from the 17th through the 19th century in Western Europe in reaction to the English Civil War and Industrial and French Revolutions. Views of state and society expressed in the differing perspectives of John Locke, Thomas Hobbes, Jean Jacques Rousseau, John Stuart Mill, Edmund Burke, George Hegel, and Karl Marx.

*304. Recent Political Theory (3)

A critical study of major themes in political thought in industrial and post-industrial society, from the late 19th century until today. Recent thinkers who have made significant contributions to the understanding of the relationships among the individual, society, and politics will be examined.

*306. Contemporary Political Ideologies (3)

A critical examination of the nature and role of ideologies in contemporary politics. Among the major political belief systems studied will be important examples of conservatism, liberalism, socialism, communism and fascism in theory and practice.

*308. American Political Theory (3)

Critical examination of theorists, concepts and forces which have shaped American political consciousness from Puritans to present.

*311. Constitutional Law: Power (3)

Prerequisite: POSC 100 or 391 or equivalent. Judicial interpretation of the U.S. Constitution regarding judicial review; the power of the Presidency and the Congress; state governmental authority; nature of the American Federal System. Not open to students with credit in POSC 315.

*312. Constitutional Law: Rights (3)

Prerequisite: POSC 100 or 391 or equivalent. Analysis of the rights and guarantees contained in the Bill of Rights and other constitutional and statutory provisions with leading cases. Not open to students with credit in POSC 314.

*316. Administrative Justice and Law Making (3)

Process by which administrative agencies decide quasi-judicial cases involving private rights, and make rules and regulations of a quasi-legislative nature affecting private rights with reference to leading judicial decisions.

***318. Modern Legal Systems (3)**

Nature of law, public and private. Emphasis on cases and materials illustrating development of Anglo-American legal institutions and processes. Background for the professional study of law.

321. The Media and American Politics (3)

Prerequisites: Completion of GE Foundation requirements; POSC 100 or consent of instructor. Explore the role of print and electronic media in American politics and their relationship to politicians and the public. Assesses the media's impact on government, policy making, election campaigning, and the prospects for democratic deliberation. Special attention paid to the portrayal of political issues and political themes in popular culture, including film, televisions, and music.

322. Political Parties (3)

Prerequisites: Completion of GE Foundation requirements. Organization, functions and practices of political parties in the United States with special emphasis on California parties. Analysis of the part the political parties play in government and the importance of the two-party system in American government. Party responsibility in the United States in comparison with parties in other countries.

323. Racial and Ethnic Politics - U.S. (3)

Prerequisites: Completion of the GE Foundation; POSC 100. Examination of the political activities of racial and ethnic minority groups in the United States, including American Indians, African Americans, Latino Americans and Asian/Pacific Americans. Close attention to political debates over competing approaches, strategies and public policies promoting equality in the U.S.

326. California Government in Comparative Perspective (3)

Prerequisites: Completion of GE Foundation requirements. The government and politics of American States including intergovernmental relations. Special focus on political institutions, current issues, and public policies in California. May not be taken to fulfill G.E. credit except under category D.1.b.

***327. Urban Politics (3)**

The institutions and processes by which social conflicts in American urban areas are generated, articulated, and managed. Urban political culture, power structures, group development and activity, and governance and policy-making are emphasized. Special attention directed toward the evaluation of urban political problems and solutions.

328. Introduction to Public Policy (3)

Prerequisites: Completion of the GE Foundation; POSC 100. Analysis of major contemporary United States domestic policies including agriculture, income maintenance, economic regulations, worker training, conservation, crime control and revenue-sharing.

***329. The Policy Making Process (3)**

Prerequisites: Completion of GE Foundation, POSC 100, and POSC 328. Advanced examination of the policy process and the social, economic, and political forces and contexts that influence and are in turn conditioned by it. In depth study of substantive policy area currently on the national and/or state public agenda.

353. Government and Politics of Western Europe (3)

Prerequisites: Completion of the GE Foundation and POSC 100. Governments of representative European democracies, with emphasis on governmental structure, functions and political processes and their relationship to current problems.

***356. Politics of the Soviet Union and its Successors (3)**

Examination and analysis of the evolution and fall of the Soviet system, with particular emphasis on the crisis of one-party rule and the rise of new political institutions and forces.

***357. Politics of East-Central Europe (3)**

Comparative examination and analysis of the political evolution of the countries of East-Central Europe. Particular emphasis on the post-World War II period, the rise and fall of one-party systems, and the impact of Soviet domination.

***358. Contemporary Latin American Politics (3)**

Study of government and politics with emphasis on similarities and differences of the Latin American states. Major focus on principal groups and major issues in the political process. Conflicting explanations of the obstacles to development and other current problems will be examined.

***359. Latin American Comparative Political Systems (3)**

Comparative study of the political process and public policies of selected Latin American states. Includes an examination of major political, social, and economic issues and problems associated with modernization.

***362. Society and National Politics of China (3)**

Study of the People's Republic of China, including its origin, ideology, and organization. Contemporary social, economic, and political developments.

***363. Society and National Politics of Japan (3)**

Examination of Japan's political development since 1868 with special emphasis on the social and cultural bases of Japan's political system, party politics, governmental process, political economy, and foreign relations.

***366. Governments and Politics of Southeast Asia (3)**

Emergence and development of the contemporary political systems of Southeast Asia.

***367. Governments and Politics of the Middle East (3)**

Emergence and development of the contemporary political systems of the Middle East; the Arab-Israeli dispute; the role and importance of the region in international politics.

371. Introduction to International Politics (3)

Prerequisites: Completion of the GE Foundation; POSC 100. This course examines relations among nation-states, and explores why countries sometimes cooperate and sometimes go to war. Examines the roles of intergovernmental organizations like the UN, the WTO, and NATO, and non-governmental actors like Amnesty International and Al-Qaeda. Topics include war and peace, terrorism, international trade and finance, and diplomacy.

***376. International Law (3)**

Nature and historical development of international law. Determination of rules of international law. International community under law. Recognition of states and governments. Jurisdiction. Settlement of international disputes. War aggression and neutrality.

***378. International Organization and Administration (3)**

Examination of historical development, of international organization from the Concert of Europe to the United Nations. Analysis of contemporary international organization, its functions, problems and prospects in the context of the world situation. May be repeated to a maximum of 6 units, but may only count once toward IR major concentration field requirement.

388I. Cyberspace Citizenship (3)

Prerequisites: Completion of GE Foundation requirements, one Explorations course, and upper-division standing. Study how people and institutions are migrating political, social, and economic functions to the Internet. Examine how the Internet is merging mass media, computer, and telecommunications into a new realm for human civilization: Cyberspace. Survey of cyberspace landscapes being settled by "virtual" communities, online commerce centers, Web free speech fora, and evolving governmental institutions for managing property rights, Internet expansion and resolving cyberspace conflicts. Explore the multiple dimensions of participatory citizenship in cyberspace.

391. American Government (3)

Prerequisites: Completion of GE Foundation requirements. Survey of American government and politics, including attention to California government. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. Not open to students with credit in POSC 100.

395I. Politics Through Culture (3)

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. This is a course that examines the interplay of politics and cultural studies. Students will employ a variety of theoretical perspectives in analyzing contemporary cultural artifacts such as art, film, music, and the media.

***401. Women in Political Theory (3)**

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as W/ST 402.

***409. Senior Seminar in Political Theory (3)**

Prerequisites: Six units in political theory courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in political theory. Letter grade only (A-F).

412. Law and Social Change (3)

Prerequisites: Completion of the GE Foundation; POSC 100. Examines the legal strategies pursued by social movements seeking to remedy discrimination in the U.S. as well as legislative, administrative, and judicial responses. Topics may include gender equity, sexual harassment, voting rights, racial discrimination in employment and education, fair housing, labor standards, sexual orientation, environmental justice, and American Indian rights.

***414. Jurisprudence (3)**

Fundamental legal philosophies, sources and classifications of law. Relationship of law to other disciplines and societal institutions.

417. Legal Practices: Moot Court (3)

Prerequisites: Completion of either: POSC 311 or 312, AND one of: POSC 318, 412, or 414; and upper division standing. Study and acquisition of the skills of lawyering, including legal research, reasoning, writing, and trial advocacy. Substantive study of civil liberties.

418. Legal/Judicial Apprenticeship (3)

Prerequisite: Consent of instructor. Courtroom, law office, public legal agency, and/or non-profit legal agency experience in conjunction with reading and research directed by a faculty member. May be repeated for a maximum of six units. No more than three units of this internship course may apply toward the major in political science. A maximum of six units may be earned in 418, 447, 448, and 498 combined. Credit/No credit grading only.

***419. Senior Seminar in Public Law (3)**

Prerequisites: Six units in public law courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in public law. Letter grade only (A-F).

***420. Voting, Campaigns and Elections (3)**

Analysis of factors influencing citizen's voting choices; methods used by candidates seeking electoral support; changes and trends in American elections.

***422. Public Opinion (3)**

Formation and development of public opinion; methods of measuring public opinion in the political system.

***423. The American Presidency (3)**

The roles and powers of the American presidency with emphasis on major public policies of recent presidents.

***424. The Legislative Process (3)**

Analysis of the origin, development, and behavior of U.S. legislative bodies. Leadership, organization and procedures, problems and principles of law-making. Legislative relations with the executive and other governmental agencies.

***428. Political Behavior (3)**

Introduction to the socio-psychological basis of individual political behavior. Emphasis upon political socialization, political culture and personality as explanations of political participation, the development of political values and political action.

***429. Senior Seminar in American Government and Politics (3)**

Prerequisites: Six units in American government and politics courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in American government and politics. Letter grade only (A-F).

430. Fundamentals of Public Administration (3)

Principles and practices of federal, state and local administration. Not open to students with credit in POSC 331.

***431. Public Policy Analysis (3)**

Examination of the meaning and use of concepts and methods employed in public policy decision analysis, including an overview of the decision process, sources and methods of handling policy-relevant data, and methods and techniques of program evaluation and policy analysis.

***432. Public Values and Public Policy (3)**

Critical examination of selected value choices involving how and by whom public policy is to be made, and choices involving what should be the content and goals of public policy.

***433. Public Organization and Management (3)**

Theories of organization and management with emphasis on their relation to administrative problems in civilian and military spheres of American government. Not open to students with credit in POSC 334.

***436. Public Personnel Administration (3)**

Survey of public personnel administration, including the growth and development of the civil service, the personnel agency, recruitment procedures, position classifications, training programs, employee organization and retirement systems. Not open to students with credit in POSC 336.

***438. Comparative Public Administration (3)**

Theories, models, structure and function of public administration in selected countries. Not open to students with credit in POSC 348.

***442. Planning Cities and Urban Regions (3)**

Policymaking and the role of the planner in cities and urban regions. Activities of federal, state and local governments. Social and environmental consequences of land use, zoning, transportation and design. Historic preservation. New communities.

447. Public Service Internship I (3)

Prerequisites: Completion of the GE Foundation; POSC 100; consent of instructor. Internships in various public service sites to include all levels of government and non-profit organizations. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

448. Public Service Internship II (3)

Prerequisites: Completion of the GE Foundation; POSC 100; consent of instructor. Internships in various public service sites to include all levels of government and non-profit organizations. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

***449. Senior Seminar in Public Policy and Administration (3)**

Prerequisites: Six units in public policy and administration courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in public policy and administration. Letter grade only (A-F).

450. Comparative Political Movements (3)

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. Comparative study of the causes, progression, and consequences of political movements.

***455. Comparative Revolutionary Change (3)**

Roots of revolution. Emphasis on the historical setting, ideology, socio-economic factors, political leadership, organization and nationalism. Analysis of revolutionary conditions, courses and tactics past and present.

4611. The Politics of Development (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Problems of political development in the emergent nations of Asia, Africa and Latin America.

*469. Senior Seminar in Comparative Politics (3)

Prerequisites: Six units in comparative politics courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in comparative politics. Letter grade only (A-F).

*481. U.S. - Latin American Relations (3)

Prerequisites: Completion of the GE Foundation, completion of one Explorations course, and upper division standing. Focuses on US policies toward Latin America and the Caribbean. Considers recent debates about these policies as well as their historical and global contexts. Surveys a variety of major issues, including US-Cuba policy, transnational crime/drug-trafficking, international finance, trade integration, and migration.

482. American Foreign Policy (3)

Prerequisites: Completion of GE Foundation; POSC 100. Concepts, strategies, and the shaping of American relations with other states, with special emphasis on the post-World War II period. National security, economic, and political-diplomatic concerns as they present new challenges to the United States.

*485. International Political Economy (3)

Politics of global economic relations, including monetary and trade regimes, markets and multinational corporations. Emphasis on issues of confrontation and collaboration between countries regarding development strategies, services trade and technology transfer. Prospective students are strongly recommended to take POSC 371, 230, ECON 300 or the equivalent.

*486. National Security Policies (3)

Analysis of strategic posture with emphasis on military, political and economic inter-relationships as they influence national security and international politics.

*489. Senior Seminar in International Relations (3)

Prerequisites: Six units in international relations courses or consent of instructor. Intensive study of selected conceptual and theoretical problems in international relations. Letter grade only (A-F).

490H. Honors Seminar (3)

Prerequisites: Admission to the Honors Program in Political Science. The nature and development of political science and its relationship to other disciplines in the Social Sciences. Recent developments in conceptual analysis and theory are emphasized. (Seminar.) Course meets with POSC 500.

491H. Honors Research (3)

Prerequisite: Admission to the Honors Program in Political Science. Research for writing an Honors thesis under the direction of a faculty member. (Independent Study.)

492H. Honors Thesis (3)

Prerequisites: POSC 491H. Research and writing of an Honors thesis under the direction of a department faculty advisor. (Independent Study.)

*493. Special Topics (3)

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. Topics to be announced in the *Schedule of Classes*.

494I. Politics of the Future (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of present-day global problems: overpopulation, depletion of resources, environmental decay and their future political implications. Examination of alternative policies, future politics and institutional change. The technological revolutions and the totalitarian temptation.

496. Washington Center Internship (3)

Prerequisites: Upper division standing and consent of instructor. Students who are accepted by the Washington Center will be assisted in locating a 30-35 hr. per week career related internship in a federal, corporate or independent sector agency located in Washington D.C. All participants utilize a learning contract. A final written report is required. Students must enroll concurrently in an independent studies course to earn credit for participation in the Washington Center's seminar. Credit/No Credit grading only. May be repeated to a maximum of 9 units.

*497. Special Topics (3)

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. May be repeated to a maximum of 6 units with different topics. Topics to be announced in the *Schedule of Classes*.

*498. Practicum in Politics (1-3)

Prerequisite: Consent of instructor and department chair. Political or governmental experience supplemented by reading and research under the direction of a faculty member. May be repeated to a maximum of 6 units. No more than three units may apply toward the major in political science. A maximum of 6 units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

*499. Readings and Conference in Political Science (1-3)

Prerequisite: Consent of instructor. Directed reading to permit independent pursuit by advanced students on topics of special interest. Hours to be arranged. Graduate students who have had this course as an undergraduate may repeat it.

Graduate Level

500. Foundations and Scope of Political Science (3)

Prerequisite: Graduate status or consent of instructor. Approaches applied to the conceptual analysis of political phenomena. Substantive models of social and political order and change as well as methodological arguments about the nature of explanation in political science. Letter grade only (A-F).

550. Research Methods in Political Science (3)

Prerequisite: POSC 500. Methods of empirical research in political science including the formulation of hypotheses, problems and standards of measurement and observation, methods of data collection, research design and logic of data analysis. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course. Letter grade only (A-F).

590. Advanced Study (3)

Prerequisite: Consent of Graduate Coordinator and Instructor. Study under the supervision of a faculty member. Student must fulfill requirements of a selected upper division course plus additional work appropriate to graduate study as determined by the Instructor of the course. May be repeated to a maximum of 6 units with different topics.

599. Graduate Studies (3)

Prerequisites: Consent of Graduate Coordinator and instructor. Individual graduate level study and research of special topics under the supervision of a faculty member. Letter grade only (A-F). May be repeated to a maximum of 6 units.

600. Seminar in International Politics (3)

Prerequisite: POSC 371 or equivalent. Seminar is designed to examine in depth various aspects of International Politics, such as the role of power, multiple dimensions of national interest, collective security, world peace, nationalism, and imperialism. Different themes selected for a given seminar become the subject of discussion and exchange of ideas in every session. May be repeated to a maximum of 6 units. Letter grade only (A-F).

610. Seminar in Comparative Government (3)

Prerequisite: Three upper division units in comparative government. Comparative study of government and politics in selected foreign countries. Intensive study of the political institutions and policies of selected foreign governments. Emphasis on political parties and contemporary governmental policy. May be repeated to a maximum of 6 units. Letter grade only (A-F).

620. Seminar in Political Theory (3)

Prerequisite: POSC 301 or 303 or equivalent. Analytical and critical examination of the major concepts of political theory. May be repeated to a maximum of 6 units. Letter grade only (A-F).

640. Seminar in American Government and Public Law (3)

Prerequisite: Three upper division units in American Politics or Public Law. Intensive study of topics and problems in American government including issues in constitutional law and the judicial process. May be repeated to a maximum of 6 units. Letter grade only (A-F).

645. Seminar in Public Policy (3)

Prerequisites: Graduate standing or consent of instructor. Analysis of the policy making process and the political environment that shapes its activities, content, implementation, and impacts. Domestic and international policies will be integrated in the course to illustrate the structures, forces, and dynamics influencing the process. Letter grade only (A-F).

670. Seminar on Special Topics in Political Science (3)

Prerequisites: Graduate standing and consent of instructor. Research, discussion, and critical evaluation of selected topics and problems of current interest in political science. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

695. College Teaching Practicum (3)

Prerequisite: Consent of Graduate Director. Internship provides teaching experience in community college. No more than three units of this practicum may be applied to the Masters requirements in Political Science. Credit/No Credit grading only.

697. Directed Research (1-6)

Prerequisite: Consent of Department Chair. Individual research or intensive study under the guidance of a faculty member. Three units required of non-thesis students who have been advanced to candidacy for the master's degree in political science. A maximum of 3 units may be earned by students with credit in POSC 698. May be repeated to a maximum of 6 units. Letter grade only (A-F).

698. Thesis (1-4)

Planning, preparation and completion of thesis for the master's degree.

The Psychology Department maintains an advising and admission office in PSY-206, (562) 985-5680, website <http://www.csulb.edu/~psyugadv/>, for undergraduate students. Advisors are available during the Fall and Spring semesters to assist students with admission, registration, and degree requirements, as well as information about graduate study. An undergraduate handbook is available for purchase or on-line at the department's website.

Students desiring graduate information should contact the department office for referral to the Graduate Coordinator.

Bachelor of Arts in Psychology

The number of applicants to the major in psychology exceeds the number that can be accommodated by the department's resources. For this reason the undergraduate psychology major has been designated as impacted by California State University.

Requirements for Admission to the Major for All Students

All applicants to the major must be able to demonstrate that they will meet the following requirements for admission:

1. Completion of a minimum of 56 semester units of degree credit, including all lower-division General Education requirements, with a cumulative GPA of at least 2.25; or 36 semester units of degree credit, including the entire General Education Foundation, with a cumulative GPA of 3.00.
2. Completion of the following prerequisite courses, each with a minimum grade of "C": PSY 100, 110, and 200.

Procedure for Admission to the Major

Freshmen students:

Freshman applicants to the Bachelor of Arts in Psychology will be placed in the pre-major code for psychology. Acceptance into the pre-major category does not imply or assure subsequent acceptance into the major.

Continuing students:

Continuing students (including transfer applicants who were not admitted to the university as psychology majors) seeking admission to the major in psychology must submit a supplemental application to the department by February 18 for the fall semester or by September 24 for the spring semester. Students with less than 60 units may be designated as pre-majors.

Transfer students:

Transfer applicants must apply to the University during the initial filing period of October and November for the following fall semester. They must indicate their choice of major on the application. Admission will be conditional based upon submission of evidence that the requirements noted above will be satisfied by the start of the first semester on campus.

Conditions for Remaining in the Major

Students provisionally admitted to the major on the basis of the requirements noted above must complete PSY 301 with a passing grade no later than the end of the first semester in the major. Failure to do so will result in the student being dropped from the major. Continuing students are encouraged to take PSY 301 at the earliest opportunity. It is preferable not to wait until after admission to the major.

Note: Students may apply for admission to the psychology major no more than twice.

Bachelor of Arts in Psychology (code PSY_BA01) (120 units)

Students who graduate with a major in psychology should have current knowledge of:

1. the major theories in psychology and their influences across subfields and time.
2. the major methodologies of psychological research and fundamental statistical concepts.
3. the biological processes underlying behavior.
4. sensation, perception, information processing and retention.
5. how behaviors develop and change throughout the life span.
6. how internal, environmental, and social factors influence behavior.
7. individual differences in behavior, including those related to gender, ethnicity, and culture.
8. different perspectives on the origin and treatment of abnormal behavior.
9. ethical issues in teaching, research, and the practice of professional psychology.

In the course of learning the above, students are expected to graduate with the ability to:

1. design and implement research, analyze data appropriately and judge the significance of findings.
2. critically evaluate psychological research as well as popular notions of human nature.
3. use the primary literature of the field and prepare a clear, organized summary of a topic.
4. use computers for the preparation of manuscripts, the analysis of data, and communication.
5. understand and work effectively with a diversity of individuals and groups.
6. apply theory and research to contemporary problems.
7. maintain currency in the field and utilize that knowledge in their lives.

The psychology curriculum is designed to provide undergraduate students with a broad background in the principles of Psychology.

Requirements

Lower Division: (14 units) PSY 100, 110, 141, 200.

Upper Division:

1. 3 units – PSY 301;
2. 6 units – two courses from PSY 331, 332, 333, 336, 340 or 341 or 342;
3. 6 units – two courses from PSY 351, 356, 361 or 365;

4. 6 units – two courses (not from the same group):

- A. PSY 352, 354, 366, 370;
- B. PSY 310, 314, 315, 359;
- C. PSY 339I, 346I, 373, 375I, 378, 381;

5. 6 units – 400-level PSY courses. No more than 3 units from 405, 406A, or 406B may be counted in this category. PSY 499 cannot be counted to satisfy this requirement;

6. 6 units – any upper division psychology courses not used to satisfy the requirement of sections 2 through 5;

7. 6 units – upper division units in American Indian Studies, American Studies, Asian and Asian American Studies, Anthropology, Black Studies, Chicano and Latino Studies, Economics, Educational Psychology, Geography, History, Human Development, Political Science, Social Work, Sociology, Women's Studies. At least 3 of the units must have an emphasis in contemporary U.S. ethnic studies. A list of acceptable ethnic studies courses may be obtained from the Psychology Advising Office in PSY 206.

Students are advised to consult with the Psychology Advising Office for course choices most relevant to their individual goals.

Honors in Psychology

Admission Requirements

1. Admitted to the major.
2. A 3.5 GPA in all Psychology courses.
3. At least a 3.25 overall GPA.
4. Letter of support from a psychology faculty member agreeing to serve as Honors Thesis Chair.
5. Submit honors application to the Psychology Honors Advisory Committee.

Requirements

1. Complete all regular requirements for the psychology major.
2. Complete the following: PSY 310 (4 units), 490H (3 units), 496H (3 units), 498H (3 units).
3. Complete 3 units in any other 400-level psychology course exclusive of PSY 405, 406, or 499.

TOTAL UNITS	15	TOTAL UNITS	15

* GE Interdisciplinary Capstones and Major Electives in Group 7 may count for GE and major

Group 2 - 6 units selected from: PSY 331, 332, 333, or 336; and 340 or 341 or 342

Group 3 - 6 units selected from: PSY 351, 356; 361 or 365

Group 4 - 6 units (2 courses not from the same group):

a. PSY 352, 354, 366, 368, 370

b. PSY 310, 314, 315, 359

c. PSY 339I, 346I, 373, 375I, 378, 381

Group 5 - 6 units 400 level PSY courses. No more than 3 units from PSY 405, 406A or 406B PSY 499 cannot be counted to satisfy this requirement

Group 6 - 6 units any upper-division psychology courses not used to satisfy Groups 2-5

Group 7 - 6 units selected from approved list provided by the dept.

FAQ Concerning Road Maps for Completion of Undergraduate Degrees

For each undergraduate major, the on-line Catalog shows plans for scheduling all required courses to complete the degree in four, five, or six years.

While CSULB will make every effort to schedule classes at the times shown in the plans, we cannot guarantee that courses will be available in specific semesters. It is possible that shortage or budget or of personnel will make it impossible to offer as many classes as we would wish.

The plans are not substitutes for working with an advisor. You are strongly encouraged to see an advisor when planning your program each term.

I am a freshman. Do I have to choose now whether to follow the four, five, or six-year plan?

No. Most freshmen take 12-15 units. You need at least 12 units to receive full financial aid. With experience, you will be able to judge how heavy a load you find comfortable. This will depend on your outside obligations, such as a job, and on your personal circumstances. In theory, each unit requires three hours a week, including preparing for class, attending class, and completing assignments. Use these guidelines to budget your time and plan an appropriate schedule.

Must I take the courses in the semesters shown on the plan?

The plan shows one possible way of completing all requirements for the degree. Consult your advisor about whether it is essential to take a given course in the semester shown. There are some rules to keep in mind:

1) You can take the General Education Foundation courses (Composition, Oral Communication, Critical Thinking, Mathematics) in any semester in the first 36 units of baccalaureate-level course work completed at CSULB.

2) You cannot take upper division courses until you have completed at least 30 units. (Exceptions can be made for students who already have completed advanced study in the subject.) You cannot take General Education Capstone courses until you have completed at least 60 units.

3) For some majors it is essential to complete courses in the correct sequence. You cannot take a more advanced course until you have completed the prerequisite course(s).

4) You must complete all requirements for admission to impacted majors within the first 60 units.

I have been told that I must take one or more pre-baccalaureate courses. How can I plan my program?

Your advisor at SOAR can help you identify which courses must be postponed. You must still complete the minimum number of baccalaureate units required for the degree.

You may be able to catch up by taking additional courses in later semesters or by taking classes in summer or winter session, or you may choose to spend an additional semester completing the program. You cannot begin the sequence of required courses for some majors until you are ready for baccalaureate-level Mathematics. See your major advisor to develop a plan for scheduling the required courses.

I didn't complete the exact list of courses shown. Can I still graduate on time?

The answer depends on your major and on what courses you have completed. The plans are not rigid requirements; they are only intended to provide guidance in planning a program. There are many reasons for students to follow a different pattern, such as changing the major, choosing to take fewer classes in a given semester, choosing to complete a minor or a second major. See your advisor for help in planning a program that will work for you.

If I follow the plan, will I have all requirements for graduation completed?

The plans include the specific courses required for the major. For some majors, there are restrictions on the choice of major electives. It is important that you select General Education courses to meet the required distribution pattern. You may need to take an additional General Education course to complete the minimum number of units required for each category. This is likely to happen if you took three-unit courses in Category B, Physical Universe.

Minor in Psychology (code PSY_UM01)

The Minor in Psychology is available to any non-Psychology or non-Liberal Studies major.

A minimum of 23 units which must include: PSY 100, 110, 141, and 200, nine upper division psychology units including at least one course from PSY 331, 332, 333, 336, 341, or 342; and at least one course from PSY 351, 356, 361, or 365; and one elective.

Graduate Programs

Students desiring graduate information should contact the department office for referral to the Graduate Coordinator, or view information on the department website at <http://www.csulb.edu/~psych>.

The department of Psychology offers graduate study leading to the Master of Science in Psychology (community clinical) and the Master of Arts degree with options in (1) Research or (2) Industrial and Organizational psychology. In each program a basic core, including a thesis, is required. There is opportunity for additional work in areas of special interest. The Master of Arts Research option program prepares students for doctoral study and provides a general background in psychology. Clinical electives are available in the Master of Arts Research option program. A Human Factors concentration prepares students for careers in applied experimental psychology. The Master of Arts Industrial and Organizational option prepares students for primarily professional work; although some graduates have continued graduate study in doctoral programs. Admission to both programs is limited.

The Department has wide and varied course offerings and is housed in specially-designed facilities, including computer labs and laboratories in physiological, social-personality, human factors and other areas of psychology.

Admission to Graduate Programs

An application for admission may be obtained on the Psychology department website (www.csulb.edu/~psych) or by writing directly to the Psychology Graduate Office. Acceptance by the department is contingent on (a) GPA based on last 60 semester units available at time of application; (b) Graduate Record Examination (GRE) scores on the verbal and quantitative sections; and (c) three letters of recommendation. For entry in the fall semester, all application materials, including complete transcripts, GRE scores and letters of recommendation, must be received by the department Graduate Coordinator by March 1 for both the Master of Arts Research option and Master of Arts Industrial and Organizational option.

Financial Support

Students accepted into the graduate programs may apply for graduate assistantships (which provide monthly stipends) in Psychology or related departments on campus. Federal Work Study assignments are available in the Department, but must be applied for through the University Financial Aid Office one or two semesters prior to obtaining the assignment; other aid available includes the Graduate Equity Fellowship (GEF). One student from each Master of Arts program's entering class will be awarded a J. Robert Newman Scholarship.

Master of Arts in Psychology

Option in General Research (code PSY_MA01)

This 30-unit degree program provides graduate psychology training for further study leading toward a doctorate and careers requiring masters level training. Core courses include quantitative and research methods and courses in the basic content areas of Psychology. Students from our program who later enter doctoral programs consistently inform us that they find themselves very well prepared for doctoral study as compared to other students.

Prerequisites

1. A bachelor's degree with a major in psychology that includes:
 - A. two courses from the following (not from the same group):
 - a. PSY 331, 332, 333
 - b. PSY 336
 - c. PSY 340, 341, 342
 - B. one of the following: PSY 351; 356; 361; 365
 - C. PSY 310 or
2. A bachelor's degree with a major other than psychology and 24 units of upper division psychology substantially equivalent to those required for the baccalaureate degree at this university, including:
 - A. two courses from the following (not from the same group):
 - a. PSY 331, 332, 333
 - b. PSY 336
 - c. PSY 340, 341, 342
 - B. one of the following: PSY 351; 356; 361; 365
 - C. PSY 310
3. Six units of college level work in chemistry, physics, biology or mathematics as approved by the graduate coordinator. No more than three of the six units may be in approved mathematics courses.

Advancement to Candidacy

Advancement to Candidacy is the next step after achieving classified status and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student's major, department, and college. The prerequisites to advancement are:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 698 (Thesis).
2. Classified status.
3. An approved program of studies for the Master of Arts, Research option degree.
4. Satisfactory completion of the CSULB Writing Proficiency Examination (WPE). Information is available in the Testing Office (BH-216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
6. Be enrolled in regular session.

Requirements

1. The student must complete, as a graduate student, 30 units of graduate coursework (501-698), 24 of which must be in Psychology (not including PSY 697) including:
 - a. either PSY 511 or 512 if 411 or 412 or equivalent not taken as an undergraduate;
 - b. one course chosen from PSY 518, 527, 533, 541, 551, 556, or 582, if corresponding 400-level course or equivalent not taken as an undergraduate;
 - c. PSY 696 (comprehensive exam required);
 - d. three courses chosen from PSY 631, 632, 633, 634, 637, 651, 656 or 661 (with comprehensive exams in two of the three courses); PSY 698 (6 units).
2. With the graduate coordinator's approval a maximum of six units from related areas may be used for six of the 30 units.
3. Attendance at six Department Colloquia, four of which must be completed prior to preliminary oral examination, all six must be completed prior to final oral examination.
4. Completion of all requirements as established by the M.A. Research Committee.
5. Comprehensive examinations taken in three of the four required graduate seminars, as outlined in 1c and 1d above.
6. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

Option in Industrial and Organizational Psychology (code PSY_MAO2)

Students admitted to this 30-unit program prepare for business and industrial positions including personnel selection and organizational development, employee training, applicant and employee testing, etc. Graduates usually go directly into business and industry, through some enter Ph.D. programs.

Prerequisites

1. A bachelor's degree with a major in psychology or 24 upper division units of psychology.
2. PSY 200, 310, 314 or 315, 332 or 333 and 351 or 453/553. Students may be admitted to the MAIO program if they lack only one required course. The missing course must be completed within the first year of graduate study. However, PSY 314 or 315 AND 351 or 453/553 must be completed prior to MAIO program entry, as they are prerequisites for the first semester MAIO program coursework. Students missing more than one prerequisite course at the time of application may be offered provisional admission if they submit an approved plan to take the missing courses prior to admission to the program.

Advancement to Candidacy

Advancement to Candidacy is the next step after achieving classified status and confers catalog rights to graduate students. Advancement to Candidacy also signifies approval of a plan of study by the graduate student's major, department, and college. The prerequisites to advancement are:

1. Application for Advancement to Candidacy must be completed prior to or concurrent with enrollment in PSY 698 (Thesis).
2. Classified status.
3. An approved program of studies for the Master of Arts, Industrial and Organizational option degree.
4. Satisfactory completion of the CSULB Writing Proficiency Examination (WPE). Information is available in the Testing Office (BH-216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
5. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
6. Be enrolled in regular session.

Requirements

1. The student must complete a minimum of 30 units of graduate course work. The following courses are required: PSY 581, 585, either 511 or 512, one course chosen from 515 or 582 or 696, 590 (topic subject to Graduate Coordinator approval), 681, 683, 686, 688 and 698.
2. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.
3. Students with credit in 411 or 412 as undergraduates may petition the MAIO Program Committee to substitute a maximum of 3 units from related areas towards the 30 unit program.

Master of Science in Psychology (code PSY_MS01)

The MS in Psychology, Option in Community-Clinical Psychology, is being reviewed for discontinuance. Students are no longer being admitted to this program. Students seeking MFT licensure should contact the Department of Educational Psychology, Administration, and Counseling.

The Master of Science in Psychology degree program covers a broad spectrum of theory and skills in the areas of community and clinical psychology and is specifically designed to meet California State requirements for Marriage, Family and Child Counseling licensure. The program provides training in a wide range of professional skills, including prevention of mental health problems, promotion of social competence, empowerment of disadvantaged groups, and development of counseling and psychotherapy skills.

Prerequisites

1. A bachelor's degree with a major in psychology or a major in a related field and 25 units of upper division psychology.
2. PSY 310; 314 or 315; 332 or 333 (or course in Behavioral Modification); 354; 319 or any upperdivision survey course; 370; a developmental psychology course; and 373.

- Written application which is designed to screen applicants for skill and interest match with the overall program including a statement of goals and past experience in the field.
- A personal interview conducted by a selection committee.

Advancement to Candidacy

Prerequisites

- Classified status.
- An approved program of studies for the Master of Science in Psychology degree.
- Satisfactory completion of the CSULB Writing Proficiency Examination. Information is available in the Testing Office (BH 216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
- A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 units).
- Be enrolled in regular session.
- Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in PSY 698, Thesis.

Requirements

- The program is a 55-unit Master's degree. The following courses are required: PSY 661, 575, 698.
- A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

Courses (PSY)

Lower Division

100. General Psychology (3)

Prerequisites: Completion/concurrent enrollment in ENGL 100 or equivalent. Introduction to the scientific study of human behavior. Designed to provide the student with a basic background for further study and for practical application in everyday life. (CAN PSY 2)

110. Introductory Statistics (4)

Prerequisites: PSY 100, ENGL 100, and eligible to take a General Education Mathematics course. Calculation and meaning of statistical measures. Descriptive and inferential statistics. Not open to students with credit in PSY 210. (Lecture 3 hours, laboratory 2 hours.)

130. Critical Thinking (3)

Prerequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. The nature of critical thinking; models and strategies; common fallacies of reasoning; self-regulation in the thinking process; application of critical thinking to specific areas. Not Open to students with credit in PSY 230.

141. Psychobiology (3)

Prerequisites: PSY 100 and ENGL 100 or equivalent. Introduction to the study of behavior from a biological point of view. Biological systems and processes underlying behavior, with emphasis on brain mechanisms, presented in the context of fundamental concepts and issues in psychology. Not Open to students with credit in PSY 241.

150. Personality and Social Behavior (3)

Prerequisite: One of the Foundation courses (may be taken concurrently). Psychological principles pertinent to the understanding of personality and interpersonal dynamics. Discussion of research and theories of social motivation, conflict and anxiety, adjustment mechanisms and personality change.

200. Research Methods (4)

Prerequisites: PSY 100, PSY 110 or equivalent and ENGL 100 or equivalent. Introduction to basic research methods in Psychology. Principles of experimentation, naturalistic observation, correlational studies. (Lecture 3 hours, laboratory and field 3 hours.)

Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

300I. Mind Control or Freedom (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. How people control others using informational, manipulative and coercive approaches. Consideration of basic processes of persuasion, coercive persuasion and coercive control; sources of power in society; and the psychological and ethical implications of freedom and responsibility in coping with control attempts by friends, government, advertisers, cults, etc.

301. Introduction to Psychology as a Discipline and Profession (3)

Prerequisite: PSY 100. The course will cover the value of psychology as a field of study including its application for the BA student as well as those seeking advanced degrees. Careers and preparation for graduate work will be stressed. In addition, key ethical considerations will be discussed, as well as contemporary controversies within the field.

310. Intermediate Statistics (4)

Prerequisite: PSY 110 or introductory statistics course. Basic theoretical concepts of statistics and the use of these concepts in the selection and development of model testing, hypothesis testing and parameter estimation procedures. Both single measure (univariate) and correlation (bivariate) concepts are included. (Lecture 3 hours, laboratory 2 hours.)

314. Psychological Assessment (3)

Prerequisites: PSY 110 and 200. Principles of assessment applied to the measurement of individual behavior and to programs intended to affect behavior. Includes interviews, tests and other methods.

315. Principles of Psychological Testing (3)

Prerequisites: PSY 110 or one statistics course. Principles and practices of group and individual testing in the fields of intelligence, aptitude, achievement, personality and interest. Emphasis on the evaluation of tests as measuring devices, their applicability and limitations.

331. Sensation and Perception (3)

Prerequisites: PSY 141 and 200. Basic phenomena of the senses, their physiological correlates and integration in complex perceptual judgments.

332. Cognition (3)

Prerequisites: PSY 141 and 200. Study of higher-order processes basic to the acquisition of knowledge. Includes thinking, problem solving, creativity, information processing, decision making, judgment, concepts and imagination.

333. Psychology of Learning (3)

Prerequisites: PSY 141 and 200. Human and animal learning with special emphasis on experimental evidence and techniques.

336. Psychology of Emotion (3)

Prerequisites: PSY 141 and 200. Discussion of research, theories and coping mechanisms of human emotions.

339I. Psychology of Sport Behavior and Athletic Performance (3)

Prerequisites: Completion of the GE Foundation, PSY 100 and upper division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as KPE 339I.

340. Physiology of Behavior (3)

Prerequisite: PSY 141 and 200. An in-depth examination of central nervous system (CNS) components that underlie the major elements of our behavioral capabilities. Topics include the major structural and functional features of the neuron and of selected systems that are representative of the sensory, integrative, and motor capabilities of the CNS.

341. Neuropsychology (3)

Prerequisite: PSY 141 and 200. Neurological correlates of behavior with special emphasis upon central nervous system structure and function. Experimental evidence on which neuropsychological theories of behavior are based.

342. Psychopharmacology (3)

Prerequisites: PSY 141 and 200. This course offers a broad introduction to the effects of various medications on the central nervous system and behavior. This includes neurotransmitter functions, physiological and biochemical mechanisms of drug action with emphasis on the effect of psychiatric medications, common "street drugs" and those sold over the counter; their potential for abuse is also considered.

346I. Human Sociobiology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human social behavior as seen in context of evolutionary biology. Topics include the importance of kinship in human societies, altruism and reciprocity, human sexuality, parent-offspring relations, ethical and legal systems and religion.

350I. Psychology and Contemporary Social Issues (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Application of social psychological principles toward understanding major contemporary social issues.

351. Social Psychology (3)

Prerequisites: Completion of the GE Foundation and PSY 100. Study of individuals and groups as they are affected by social interactions. Includes such topics as social cognition and learning, attitudes and persuasion, social influence (conformity, obedience), interpersonal perception and attraction (liking and loving), anti- and pro- social behavior (aggression, violence, altruism), cooperation and competition, leadership, group dynamics, sexual behavior. Not open to students in SOC 335I.

352. Psychology of Male Roles (3)

Prerequisite: PSY 100. Exploration of male roles as they affect interactions between men and men, men and women, and men and children, as well as interactions related to work and play. Course is designed to enhance personal understanding through an examination of theory, research and experience.

354. Psychology of Women (3)

Prerequisite: PSY 100. Psychology of sexism; the biological and social determinants of the psychology of women. Open to all qualified men and women students.

356. Personality (3)

Prerequisites: Completion of the GE Foundation and PSY 100. Discussion of theories, research and assessment in personality.

359. Self-Observation and Self-Development (3)

Prerequisite: PSY 100. Examination of personal traits and behavior patterns as reflected by objective measures, group interactional procedures and video feedback. Development of self through systematic self-observation.

361. Psychology of Child and Adolescent Development (3)

Prerequisites: Completion of the GE Foundation and PSY 100. Theoretical and methodological approaches in the study of developmental change processes from prenatal development through adolescence. Emphasis on ethnic, gender, and social class differences in development combined with emphasis on the universal features of human development. Topical coverage includes physical-motor, social, physiological, and cognitive aspects of development.

365. Psychology of Adult Development and Aging (3)

Prerequisite: PSY 100. Methodological and theoretical problems and issues in the study of developmental change processes from young adulthood through old age. Topical coverage includes physical-motoric, social, physiological and intellectual aspects of behavioral functioning.

366. Fathers and Fathering: A Psychosocial View (3)

(This course is for both women and men.) Prerequisites: PSY 100, SOC 100 or FCS 111. An overview of the psychological literature on parenting with emphasis on fathers/fathering in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes. Same course as FCS 358.

368. Asian American Personality and Mental Health (3)

Prerequisites: Completion of PSY 100 and upper division standing. A survey of psychological issues facing Asian Americans, including the historical, sociopolitical, and cultural influences that shape personality and mental health of individuals in the diverse population group.

370. Abnormal Psychology (3)

Prerequisites: Completion of the GE Foundation and PSY 100. An overview of abnormal behavior as a portion of the continuum of human behavior. The course will cover the field's historical approaches, the range of psychological disorders, as well as the biological, psychological, social consequences, and treatment.

373. Introduction to Clinical Psychology (3)

Prerequisite: PSY 370. Survey of the field of clinical psychology including an introduction to its history, diagnostic procedures, therapeutic process, clinical training, research approaches, and ethical issues.

375I. Community Psychology (3)

Prerequisites: Completion of the GE Foundation, PSY 100, and upper division standing. Basic concepts and skills of community psychology, including community assessment, community intervention, program evaluation, and social policy analysis, relationships between social systems and individual behavior. Emphasis on economically disadvantaged, minorities, women, youth, and the aged.

378. Health Psychology (3)

Prerequisite: PSY 100. Research and theory regarding attitudes, beliefs, and behaviors related to health and illness. Individual difference variables will be examined. Analysis of applications of psychology to prevention, counseling, and treatment of major health problems.

381. The Psychology of Work Behavior (3)

Prerequisite: PSY 100. Problems and procedures in industrial psychology. Consideration of job analysis, personnel selection and appraisal, organizational and social context of human work, physical environment and consumer behavior.

382I. Introduction to Cognitive Science (3)

Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PHIL 482I.

390. Special Topics in Psychology (3)

Prerequisite: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated to a maximum of 9 units with different topics; no more than 6 units may be used for the major.

NOTE: 400-level courses open to Psychology majors and minors who have successfully completed PSY 301.

401./501. History of Psychology (3)

Prerequisite: Six upper division units in psychology. The historical background and development of psychology as a science. Contributions of major individuals and systems.

405. Field Work in Psychology (3)

Prerequisites: Psychology major, junior or senior standing (3.0 GPA), PSY 200, 110, 12 upper division units in psychology, letters of recommendation, consent of instructor. Student works under the supervision of, or in association with, a professional having an advanced degree in a psychological discipline and who is engaged in the practice of some aspect of psychology in the surrounding community. Placements include schools, hospitals, clinics, and community mental health agencies. Nine hours of field work per week for a minimum of 13 weeks. May be repeated to a maximum of 6 units. Credit/No Credit grading only.

406A,B. Applications of Psychology (3)

Prerequisite: Consent of instructor. Students are expected to take both 406A and 406B. Students apply for 406A-B during the semester before the courses are taken. Theoretical and laboratory training in the topic areas are followed by applied work with clients, schools, businesses, etc., as appropriate. Students are supervised by the course instructor.

407./507. Introduction to Family Therapy (3)

Prerequisites: PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice.

411./511. Statistical Design and Analysis of Experiments (3)

Prerequisite: PSY 310 or 412 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction.

412./512. Multivariate Statistical Analysis (3)

Prerequisite: PSY 310 or 411 or consent of instructor. Accuracy and cost of inference from multiple variables. Theoretical implications of inferred structures. Applications.

418./518. Computer Applications in Psychology (3)

Prerequisites: PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hours, laboratory 2 hours.)

427./527. Human Factors (3)

Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologists. These skills will include systems and analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours) Letter grade only (A-F).

433./533. Research in Cognition and Learning (3)

Prerequisites: PSY 200, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hours, laboratory 3 hours.)

436./536. Psychology of Mood (3)

Prerequisites: PSY 100, 200, 310, or consent of instructor. Analyses of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.

438./538. Psycholinguistics (3)

Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to the study of language. Theory and research in the production and understanding of language, language acquisition, memory for language, and use of language in its social context.

439./539. Language Acquisition (3)

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and Research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. (Seminar.) Letter grade only (A-F)

441./541. Research in Physiological Psychology (3)

Prerequisites: PSY 200, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, and pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.)

444./544. Cognitive Neuroscience (3)

Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.

451./551. Research in Social Psychology (3)

Prerequisites: PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, lab 3 hrs)

453./553. Principles of Group Dynamics (3)

Prerequisite: PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation.

456./556. Research in Personality (3)

Prerequisites: PSY 200, 310, 356, or consent or instructor. Research methods and problems in personality. (Lecture 2 hrs, laboratory 3 hrs.)

457. Psychology of Sexuality (3)

Prerequisites: PSY 351 or 356 or 370, and Psychology Major with senior class standing. Survey of topics in human sexuality with emphasis on developmental psychology of sexuality, attitudes and feelings related to sexuality, sexual variations and deviations, and sexual dysfunction and sex therapy.

458. Current Issues in Personality (3)

Prerequisites: PSY 200 and 356. Current theoretical, philosophical and methodological issues in personality. Coverage may include the person-situation interaction, the role of genetics, aggression, altruism, stress/coping, and gender differences.

463. Social and Personality Development (3)

Prerequisites: PSY 361. The development of social behavior and personality in children and adults. Coverage will include theoretical approaches and processes as well as content areas, such as the development of aggression, morality, prosocial behavior, peer relations, and sex differences.

475./575. Clinical Interviewing (3)

Prerequisites: Consent of instructor, PSY 314. Study and development of the clinical techniques of observation and the interview.

477. Psychology of Addiction (3)

Prerequisites: PSY 110, 200, and 6 upper division units. An investigation of theory and research on psychological causes and effects of addiction, including analyses of individual differences on major demographic variables of gender, age, and ethnicity. Considerations of major approaches and methods to recovery from addictive behavior. Letter grade only (A-F).

490. Advanced Topics in Psychology (3)

Prerequisite: One 300-level course in the subject matter of the course. Advanced study of selected topics in one basic area of psychology, e.g., cognition and learning, emotion and motivation, physiological, social, personality or developmental. May be repeated to a maximum of 9 units with different topics. Topics will be announced in the *Schedule of Classes*.

A. Applied Social Psychology**490H. Special Topics – Honors (3)**

Prerequisite: Consent of the Psychology Honors Program Advisory Committee. Advanced study of selected topics in psychology. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of 6 units with different topics. Letter grade only (A-F).

495. Ethical and Legal Issues in Psychology (3)

Prerequisites: PSY 200, PSY 370, and 6 upper division psychology units. Ethical principles in human and animal research and in applied areas of psychology. Emerging legal issues in the fields of forensic psychology, behavior modification, criminal justice, and clinical practice will be discussed.

496H. Research Preparation – Honors (3)

Prerequisite: Consent of the Psychology Honors Program Advisory Committee. Development of a senior honors thesis proposal. Letter grade only (A-F).

498H. Senior Thesis – Honors (3)

Prerequisites: PSY 310, 490H, 496H, and consent of the supervising faculty member. Final completion of an original research project with the product being both an oral and written presentation of the research. Letter grade only (A-F).

499. Independent Study (1-3)

Prerequisite: Consent of department. Student will conduct independent laboratory or library research and write a report of the research. May be repeated to a maximum of 6 units.

Graduate Level**501./401. History of Psychology (3)**

Prerequisite: Six upper division units in psychology. The historical background and development of psychology as a science. Contributions of major individuals and systems. Letter grade only (A-F).

507./407. Introduction to Family Therapy (3)

Prerequisites: PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in family structure, historical development of family therapy theory and practice. (Lecture/ Discussion.) Letter grade only (A-F).

511./411. Statistical Design and Analysis of Experiments (3)

Prerequisite: PSY 310 or 412/512 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction. (Lec 3 hours.) Letter grade only (A-F).

512./412. Multivariate Statistical Analysis (3)

Prerequisite: PSY 310 or 411/511 or consent of instructor. Accuracy and cost of inference from multiple predictors. Discovering structural relationships among multiple variables. Theoretical implications of inferred structures. Applications. (Lecture 3 hours.) Letter grade only (A-F).

515. Test Construction Theory and Practice (3)

Prerequisites: PSY 314 or 315. Consideration of problems in the construction of tests for personnel selection, educational screening, personality assessment, aptitude estimating, and measurement of academic achievement. Practice in the development of tests. (Lecture 2 hrs, laboratory 2 hrs.) Letter grade only (A-F).

518./418. Computer Applications in Psychology (3)

Prerequisites: C/ST 200 or equivalent; PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hrs, laboratory 2 hrs.) Letter grade only (A-F).

527./427. Human Factors (3)

Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologist. These skills will include systems analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours.) Letter grade only (A-F).

533./433. Research in Cognition and Learning (3)

Prerequisites: PSY 200, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hrs, lab 3 hrs.) Letter grade only (A-F).

536./436. Psychology of Mood (3)

Prerequisites: PSY 100, 200, 310, or consent of instructor. Analysis of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.

538./438. Psycholinguistics (3)

Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to study of language. Comparison of human language with communication in lower animals. Language development, disorders, symbolism and universals. (Lecture 3 hours.) Letter grade only (A-F).

539./439. Language Acquisition (3)

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and Research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. Same course as LING 539. (Seminar.) Letter grade only (A-F)

541./441. Research in Physiological Psychology (3)

Prerequisites: PSY 200, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

544./444. Cognitive Neuroscience (3)

Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources. Letter grade only (A-F).

551./451. Research in Social Psychology (3)

Prerequisites: PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, laboratory 3 hrs.) Letter grade only (A-F).

553./453. Principles of Group Dynamics (3)

Prerequisites: PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation. (Lecture/Discussion.) Letter grade only (A-F).

556./456. Research in Personality (3)

Prerequisites: PSY 200, 310, 356, or consent of instructor. Research methods and problems in personality. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

575./475. Clinical Interviewing (3)

Prerequisites: PSY 314 or 315. Consent of Instructor. Study and development of the clinical techniques of observation and the interview. Letter grade only (A-F).

581. Organizational Psychology (3)

Prerequisites: PSY 351 or 453/553. Analysis of organizational behavior and practices from a systems point of view. Consideration of employee motivation, power, leadership, communication, decision-making, and organizational change. Research methods for studying organizations. Letter grade only (A-F).

582. Research in Industrial and Organizational Psychology (3)

Prerequisites: PSY 200 and 310. Research methods and problems in industrial psychology. Includes direct observational, psychophysical, regression, survey, experimental, and quasi-experimental methods. (Lecture 2 hours, laboratory 3 hours.) Letter grade only (A-F).

585. Proseminar in Personnel Psychology (3)

Prerequisites: PSY 314 or 315. Advanced consideration of problems and procedures in personnel psychology. Includes both differentiation and synthesis of major areas within this field. Not open to students with credit in PSY 586. Letter grade only (A-F).

590. Advanced Topics in Psychology (1-3)

Prerequisites: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated to a maximum of six units with different topics. Topics will be announced in the *Schedule of Classes*. Letter grade only (A-F).

A. Large Group Intervention

B. SPSS-Data Analysis

C. Levels of Analysis

D. Introduction to Time Series Analyses

E. SAS (Statistical Analysis System)

F. Designing Effective Teams

G. Issues in Compensation

599. Independent Study (1-3)

Prerequisite: Consent of department. Unclassified graduate student will conduct independent laboratory or library research and write a report of the research. May be repeated for a maximum of 6 units. Letter grade only (A-F).

631. Seminar in Perception and Physiological Psychology (3)

Prerequisite: PSY 331 or 340 or 341 or 342 or consent of instructor, consent of graduate coordinator. Critical examination of selected topics in perception, information processing and neurophysiological correlates of behavior. Student emphasis on either perception or physiological psychology. Letter grade only (A-F).

632. Seminar in Learning (3)

Prerequisites: PSY 333 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in learning. Letter grade only (A-F).

633. Seminar in Perception and Attention (3)

Prerequisites: PSY 331 or 332 or consent of instructor. An examination of methods, theories, and experimental evidence in selected topics from the areas of sensation, perception, and attention. Letter grade only (A-F).

634. Seminar in Cognition (3)

Prerequisites: PSY 333 or 332 or consent of instructor, consent of graduate coordinator. An examination of method, theory and experimental evidence in selected topics from the area of cognition. Letter grade only (A-F).

637. Seminar in Emotion and Motivation (3)

Prerequisites: PSY 336 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in animal and human motivation and emotion. Letter grade only (A-F).

651. Seminar in Social Psychology (3)

Prerequisites: PSY 351 or consent of instructor, consent of graduate coordinator. Critical examination of interpersonal relations, social influence, group membership and influence, and intergroup relations. Letter grade only (A-F).

656. Seminar in Personality (3)

Prerequisites: PSY 356 or consent of instructor, consent of graduate coordinator. Theories of personality structure, dynamics, and development. Critical examination of research deriving from different theoretical approaches. Letter grade only (A-F).

661. Seminar in Developmental Psychology (3)

Prerequisites: PSY 361 or consent of instructor, consent of graduate coordinator. Consideration of theoretical and methodological issues in life span developmental psychology. Critical examination of research on selected topics, including development of physiological function, intelligence, language, learning processes, sensory processes, perception, personality and social behavior. Letter grade only (A-F).

681. Seminar in Applications of Psychology to Industry (3)

Prerequisites: At least 12 units of graduate-level work within the MA/IO program including 511 or 512 and 582. Psychological applications to current problems of industry. Development of thesis proposal and pretest of thesis research techniques required. Letter grade only (A-F).

683. Issues of Organizational Development (3)

Prerequisites: PSY 581. An examination of the theory, research, techniques, and practices in the field of organizational development, the professional practice of managing change in organizations. The organizational development steps of diagnosis, contracting, data collection, intervention, and evaluation will be covered. Techniques, such as team building, systems analysis, process consultation, large-group interventions and survey feedback will be examined. Special attention will be paid to challenges of organizational development in diverse and international organizations. Letter grade only (A-F).

686. Issues in Training (3)

Prerequisites: PSY 332 or 333, and 585. This course is designed to provide students enrolled in the MA/IO program with advanced training in the area of training and development programs for organizations. The course will cover issues in the adult learning environment, needs assessment, training design and implementation, evaluation of training, executive and management development, special issues in training, and the learning organization. As the intent of the course is to prepare students to be competent developers and presenters of training programs, a major focus will be placed on providing students with experiential skill practice in the areas of needs assessment, design, and implementation. Letter grade only (A-F).

688. Practicum in Industrial and Organizational Psychology (2)

Prerequisites: At least 12 units of graduate-level coursework within the MA/IO program. Practice of industrial psychology or human factors in various industrial settings. Individual research and consultation with industrial or governmental organizations. Letter grade only (A-F).

696. Research Methods (3)

Prerequisites: PSY 411/511 or 412/512, consent of graduate coordinator. The nature and function of research in the behavioral sciences. Experimental, correlational and case study methods. Research design and analysis using multiple linear regression model, general probability models and Bayesian inference. This course is offered particularly for Master of Arts students and includes the required comprehensive examination for MA Research students. Letter grade only (A-F).

697. Directed Research (1-3)

Prerequisites: Consent of graduate coordinator and department. Theoretical and experimental problems in psychology requiring intensive analysis. Letter grade only (A-F).

698. Thesis (1-6)

Prerequisites: Advancement to candidacy, consent of advisor. MA/IO students: PSY 681 as prerequisite or corequisite. Planning, preparation, and completion of a thesis in psychology. Must be repeated for a total of 6 units of credit. Letter grade only (A-F).

Master of Physical Therapy (code PT__MT01)

The Master of Physical Therapy program is designed to provide entry-level professional preparation in physical therapy consistent with national trends. The proposed curriculum consists of 60 units of didactic course work followed by 12 units of postgraduate clinical internship for licensure to practice physical therapy in the State of California. The professional course work is preceded by appropriate prerequisite courses at the undergraduate level. This program will provide an opportunity for the student with a baccalaureate degree in physical therapy or in a related field of study, or who currently holds a license to practice physical therapy, to pursue a professional masters degree in physical therapy (not an advanced clinical speciality degree). Graduates will be prepared to assume responsible clinical administrative and consultative roles in a broad spectrum of physical therapy practice settings; and be responsive to changing expectations, the expanding body of knowledge, and the physical therapy practice environment.

Requirements

The Master of Physical Therapy program requires completion of all prerequisite and professional course work described in the following:

Program Prerequisites

Natural Sciences: CHEM 111A, 111B, 327, PHYS 100A, 100B

Biological Sciences: BIOL 208, 211A, 211B, 341, 441, HHS 401, 402, 403, 460, 471

Biostatistics: BIOL 260 (or equivalent)

Behavioral Sciences: PSY 100, HHS 374

Note: Computer literacy is expected.

MPT Core Requirements

Core: PT 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 522, 523, 524, 604, 605, 606, 607, 620, 622, 696, 697 OR 698

Electives: PT 610-619

Postgraduate Internship Certification (code PT__CT01)

Requirements

P T 525 (must be completed to be eligible to take the state examination for licensure)

Admission to the Master of Physical Therapy Program

The physical therapy masters program is open to all college graduates with a Bachelor of Science degree in Physical Therapy, or other disciplines, who have met prerequisite requirements and demonstrate academic promise and the ability to perform at a satisfactory level during their graduate studies.

To be considered for acceptance into the graduate program, the applicant must:

1. Complete all prerequisite courses with a minimum of "C" (students admitted to graduate status must maintain a minimum 3.0 overall grade point average in all upper division prerequisite coursework);

2. Hold, or be eligible to hold, an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by an appropriate campus authority;
3. Have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted;
4. Submit results of the General Aptitude Section of the Graduate Record Examination (quantitative, verbal, and analytical), taken within the past 5 years;
5. Provide academic and personal references as required;
6. Provide documentation of personal experience in a variety of physical therapy settings; and
7. Be recommended by the physical therapy faculty.
8. All candidates whose preparatory education was principally in a language other than English must demonstrate competency in English. Refer to the CSULB Bulletin for requirements for completing the Test of English as a Foreign Language (TOEFL).

The master's degree program is a 60-unit, four semester plus one summer session full-time course of study. Graduates who have not met licensure eligibility requirements or who do not hold a valid physical therapy license (have not completed the BS degree in physical therapy) will be required to take a post-graduate internship (12 units). The course of study is most appropriate for graduates with degrees in related fields but does not exclude the person holding a baccalaureate degree in physical therapy. For graduates holding the BS degree in physical therapy, courses may be petitioned for the purpose of waving them providing a similar or like course has been completed which meets licensure standards. The emphases in the curriculum is to prepare graduates who desire to practice in a variety of clinical settings, e.g., private practice, acute care, rehabilitation, home health and extended care.

Advancement to Candidacy Requirements

1. Classified graduate student status.
2. Satisfactory completion of the CSULB Writing Proficiency Examination.
3. A minimum 3.0 overall grade point average in all program graduate work.
4. Be recommended by a faculty sponsor.
5. Enrollment in regular session.
6. Satisfactory completion of at least one semester of the program.

Requirements for Admittance to Clinical Practice

1. Complete all requirements for the master's at the time of application to clinical practice.
2. Successfully complete either (a) a research thesis or project (PT 698) or (b) directed studies (PT 697) under the guidance of a faculty advisor.
3. If choice b (above) is selected (PT 697) the student must also successfully complete a program comprehensive examination.

Courses (P T)

- 501. Musculoskeletal and Biomechanical Principles I (3)**
Prerequisites: HHS 401, admittance to MPT program or consent of instructor. Advanced study of tissue (bone, muscle, dense fibrous connective tissue, cartilage, nerve) and joint mechanics and pathomechanics including use, disuse, aging, with application to therapeutic procedures and posture and movement of the upper limb. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)
- 502. Musculoskeletal and Biomechanical Principles II (3)**
Prerequisites: PT 501 and consent of instructor. Continuation of the investigation and analysis of the biomechanics and the principles of motion analysis. Includes applied mechanics, pathomechanics, investigation of regional pathomechanics of the trunk and lower limb with emphasis on gait and muscle strength testing. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)
- 503. Management of the Musculoskeletal System I (3)**
Prerequisite: PT 501. Corequisites: PT 502 and consent of instructor. The elements of patient/client management of musculoskeletal disorders provided by physical therapists-examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction strategies for specific diagnostic groups, the use of prosected materials and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 2 hours, laboratory 3 hours.) Letter grade only (A-F).
- 504. Evaluation and Management of Musculoskeletal System II (4)**
Prerequisites: PT 501, 502 and 503 (concurrent), and consent of instructor. The investigation of disorders of the musculoskeletal system including exercise prescription, strengthening regimens, exercise testing, effects of disuse, life sequence, wellness and prevention, and the theories of pain and pain management and selected preferred practice patterns provided by physical therapists. Letter grade only (A-F). (Lecture/discussion 3 hours, laboratory 3 hours.)
- 505. Management of Human Growth and Development (2)**
Prerequisites: HHS 401, 460 and consent of instructor. Investigation and analysis of human development from birth to senescence with emphasis on concepts of motor, skeletal and neurological development processes necessary to prepare for evaluation and treatment intervention in musculoskeletal and neurological disabilities. Letter grade only (A-F). (Lecture/discussion 1 hour, lab 3 hours.)
- 506. Exercise Physiology for Physical Therapy (2)**
Prerequisites: BIOL 341, 441; HHS 401, 460, 471 and consent of instructor. Study of control systems challenged by exercise and altered by chronic exercise that will be critical for patient management. Introduction to exercise measurement and clinical exercise related tools including basic metabolism, analysis of systems involved, exercise test design for different patient subjects, and the pharmacology of exercise. Study of pathology will always be preceded by study of the of the healthy individual. Letter grade only (A-F). (Lecture/discussion 1, laboratory 3 hours.)
- 507. Management of Individuals with Neuromuscular Disorders (4)**
Prerequisites: HHS 460, PT 502. The elements of patient/client management of neuromuscular disorders provided by physical therapists-examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, the use of prosected materials and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 3 hours, laboratory 3 hours.) Letter grade only (A-F).

508. Management of the Pediatric Population (2)

Prerequisites: PT 505, 507, admission to the physical therapy program, and consent of instructor: Management of the pediatric physical therapy patient with neuromusculoskeletal disorders. Includes the examination (history, systems review, tests and measures), evaluation, diagnosis, and prognosis to determine the extent of limitations. Also includes the pathophysiology and selection of appropriate intervention approaches and clinical decision making. May include lectures from medical and physical therapy practitioners. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

509. Management of the Cardiopulmonary System (3)

Prerequisites: BIOL 341, 441; PT 505, 506 and consent of instructor. The elements of patient/client management of cardiopulmonary disorders provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, circulatory disorders and selected lectures by medical and physical therapy clinicians. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

510. Patient Management and Functional Training (2)

Prerequisites: HHS 401, 402 and admittance to MPT program. Patient/client management with emphasis on assistive and adaptive devices and physical agents, self care and home management (including activities of daily living and instrumental activities of daily living) and wound management. May include lectures from medical and physical therapy practitioners on selected topics. (Lecture/discussion 1 hour, laboratory 3 hours.) Letter grade only (A-F).

511. Management of the Geriatric Population (3)

Prerequisites: PT 503, 504, 505, 507 and consent of instructor. The elements of patient/client management of the geriatric population provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk reduction strategies for specific diagnostic groups, and selected lectures by medical and physical therapy clinicians. Letter grade only (A-F). (Lecture/discussion 2 hours, laboratory 3 hours.)

512. Clinical Electrophysiology I (3)

Prerequisites: BIOL 341, HHS 460, PT 507 (concurrent) and consent of instructor. The investigation of the physiological and neurological basis for the selection of electromyographic assessment tools and for the selection of electrotherapeutic modalities for the management of neuromusculoskeletal disorders. Also includes specific interventions used in the management of the patient/client with neuromuscular disorders. Letter grade only (A-F). (Discussion 2 hours, laboratory 3 hours.)

513. Clinical Electrophysiology II (2)

Prerequisites: PT 512 and consent of instructor. Physiological considerations in the use of nerve stimulation studies and electromyography with the patient/client with neuromuscular disorders emphasizing the rationale for the selection of electrical stimulation techniques for physical therapy intervention as well as functional use of electrical stimulations systems. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

522. Clinical Practice I (1)

Prerequisites: PT 501, 505 and concurrent enrollment in PT 502, 503 and 506. Initial directed clinical practice in a variety of health care delivery systems emphasizing the management of musculoskeletal conditions. Credit/No credit grading only. (Clinical practice 40 hours.)

523. Clinical Practice II (1)

Prerequisites: Completion of the first year of professional program. Supervised clinical practice in a variety of health care delivery systems emphasizing musculoskeletal and neuromuscular conditions. (Clinical practice 6 weeks) Credit/No Credit grading only.

524. Clinical Practice III (1)

Prerequisites: Completion of PT 523. Supervised clinical practice in a variety of health care delivery systems emphasizing single and multiple systems impairments but including the management of cardiopulmonary, prosthetic, and spinal/extremity mobilization conditions. Credit/No credit grading only. (Clinical practice 40 hours.)

525. Clinical Internship (1-12)

Prerequisites: Completion of all requirements for the MPT degree. Twenty-four weeks of supervised full-time clinical practice in a variety of health care delivery systems. Six weeks of clinical practice will be completed during the summer following the first year of the academic program and the culminating clinical experience will follow the completion of the second year of the academic program. Satisfactory completion of the internship is required for licensure to practice in the state of California. Must be repeated for a total of 12 units. Credit/No credit grading only. (Clinical practice 24 weeks.)

597. Independent Studies (1-3)

Prerequisites: Consent of instructor, and for human dissection, one general introductory anatomy course HHS 401, and HHS 402. Independent studies in any area of physical therapy. Human dissection is available as a special study. May be repeated to a maximum of 6 units. Letter grade only (A-F). (Independent studies.)

604. Seminar in Health Care Issues I (2)

Prerequisites: Admission to the professional program and consent of instructor. Investigation of the health care delivery system including the regulatory, political, ethical, legal and promotional aspects of health care. (Seminar 2 hours.) Letter grade only (A-F).

605. Seminar in Health Care Issues II (2)

Prerequisites: PT 604 and consent of instructor. Investigation and discussion of the process of planned direction, organization, management, and economics of physical therapy and physical therapy delivery. Includes theories of disease prevention and health promotion. Letter grade only (A-F). (Seminar 2 hours.)

606. Seminar in Clinical Decision Making I (2)

Prerequisite: Admittance to the physical therapy program. The critical analysis of professional literature differentiating documented evidence from secondary information, theory and opinion for the selection of effective evaluation and treatment techniques and the objective summarization of professional literature using clear, concise, scientific writing. The course also includes an introduction to the Guide to Physical Therapy Practice. Also includes learning principles and patient/family education. (Seminar 2 hours.) Letter grade only (A-F).

607. Seminar in Clinical Decision Making II (2)

Prerequisites: PT 507, 509. Continuation of the investigation and synthesis of the data base for the management of the patient/client with disorders of the cardiopulmonary and neuromuscular systems. Includes examination of the psychosocial aspects of disability, community resources to meet the needs of the patient and family, social/cultural aspects, patient compliance and advocacy, and learning theories and principles. (Seminar 2 hours.) Letter grade only (A-F).

610. Advanced Study in Biomechanics and Kinesiology (2)

Prerequisites: PT 501, 502 and consent of instructor. Advanced study in the biomechanical evaluation of pathological posture and movement with emphasis on gait. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

611. Advances in Orthopaedic Physical Therapy (2)

Prerequisites: PT 503, 504 and consent of instructor. Exploration of advanced clinical orthopedic management strategies. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

612. Advanced Study in Clinical Electroneuromyography (2)

Prerequisites: PT 512, 513 and consent of instructor. Advanced electroneuromyography assessment and electrical stimulation technology with an emphasis on objective documentation and improvement of neurological status, muscle performance, walking ability and functional capacity. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

613. Advances in the Management of the Geriatric Population (2)

Prerequisites: PT 505, 509, 511 and consent of the instructor. Exploration of the clinical management strategies and intervention in aging. Letter grade only (A-F). (Discussion 1 hour, laboratory 3 hours.)

614. Advances in the Management of the Pediatric Population (2)

Prerequisites: PT 505, concurrent enrollment in PT 507, and consent of instructor. Exploration of advances in the management of the pediatric physical therapy patient with emphasis on various pathologies. Letter grade only (A-F). (Lecture 1 hour, laboratory 3 hours.)

615. Advances in the Management of the Neurological Patient (2)

Prerequisites: PT 506, 507, 508 and consent of instructor. Exploration of special considerations in the patient with neurological impairment. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

616. Advances in the Management of the Cardiopulmonary Patient (2)

Prerequisites: PT 509 and consent of instructor. Exploration in the special considerations in the management of the patient with cardiopulmonary and circulatory disability. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

617. Management and Development of Independent Practice (2)

Prerequisites: Admission to the professional program, PT 604, PT 605, and consent of instructor. Exploration of the management and business strategies in independent practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

618. Advanced Clinical Anatomy (2)

Prerequisites: PT 501, 502, 503, 504 and consent of instructor. Exploration of the advanced application of clinical anatomy. Dissection of specific areas of clinical relevance is an option. Letter grade only (A-F). (Lecture 1 hour, lab 3 hours.)

619. Contemporary Issues in Physical Therapy (2)

Prerequisites: PT 604 and consent of instructor. Exploration of contemporary and emerging trends in physical therapy practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

620. Management of Patients with Orthotic and Prosthetic Needs (2)

Prerequisites: PT 503, 504, 506, 511 and 512. The prescription, application, and, as appropriate, fabrication of devices and equipment (orthotic, prosthetic, and supportive splinting, taping, devices), including wheelchair seating prescription and adjustments. Letter grade only (A-F). (Lecture/discussion 1 hour, laboratory 3 hours.)

622. Clinical Pathophysiology (3) F, S, SS

Prerequisites: PT 504, 505, 507, 509, 510, 513, 606, 696. Corequisites: PT 508, 620. Pathophysiology of connective tissue in musculoskeletal, neuromuscular, cardiopulmonary and integumentary disorders as a basis for physical therapy evaluation, diagnosis, goal setting and conservative as well as pre and post-operative intervention in patients with multiple systemic disorders. (Lecture/discussion 3 hours.) (Letter grade only (A-F).

696. Research Methods (2)

Prerequisites: PT 606 and consent of instructor. Scientific inquiry with emphasis on information searching. Epidemiology, research design (qualitative and quantitative), measurement theory, and applied statistics. Also includes critical inquiry and clinical decision-making guidelines, research ethics, and the development of a proposal on the validation of physical therapy practice. Letter grade only (A-F). (Lecture/discussion 2 hours.)

697. Directed Research Studies (1-4)

Prerequisites: PT 606, P696, advancement to candidacy and consent of instructor. Research in an area of specialization in physical therapy under the direction of a faculty sponsor. Letter grade only (A-F). Must be completed for a total of 4 units.

698. Research Thesis/Project (1-4)

Prerequisites: PT 606, 696, advancement to candidacy and consent of instructor. Planning, preparation, and completion of thesis or project in physical therapy. Letter grade only (A-F). Must be completed for a total of 4 units.

Public administrators today are becoming increasingly aware of the fact that government is, indeed, the people's business. They are challenged to be both effective and efficient. They believe that people tend to support what they help to create. Working with citizens, they have brought the practice of public management to its highest level without giving up the desire to constantly change and improve. The difference is that today's public servants are recognized and rewarded in personal and material ways, making the study of public policy and administration a highly desirable career option.

The Graduate Center for Public Policy and Administration offers the Master of Public Administration degree; Options in the degree program include Public Works Administration and Urban Affairs; and graduate certificate programs exist in Urban Executive Management, the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, and Transportation Policy and Planning. The Center's graduate level programs are designed with a professional emphasis and a recognized need to provide course work that will increase the student's competency in public administrative processes and analysis. The Center's curriculum also is designed to emphasize the student's ability to apply new knowledge, skills, and leadership techniques to the solution of public problems.

Admission applications are encouraged from persons with successful government service who wish to pursue, part-time or full-time, a graduate program designed to prepare them for new opportunities in public service or to expand or extend their capacities in a present position. The Center provides education in public policy and administration to professional persons in such fields as public works, social services, public health, community development, criminal justice, educational administration, recreation administration, finance, personnel, policy analysis, urban and regional planning, systems analysis and urban administration. The Center is accredited by the National Association of Schools of Public Affairs and Administration, Commission on Peer Review and Accreditation (NASPAA, 1120 G Street, NW, Suite 730, Washington, DC 20005, phone: 202-628-8965).

A detailed summary of requirements, current course offerings and procedures for the Master of Public Administration degree program, the Options in Public Works Administration and in Urban Affairs, and the graduate certificate programs, are contained in student handbooks available from the Graduate Center for Public Policy and Administration and their website at <http://www.csulb.edu/~beachmpa>.

Program Standards and Requirements

Admission

Students seeking admission to one of the Center's programs should have an undergraduate degree and a desire for graduate study in public administration. A student must

have an undergraduate grade point average of 3.0 or better. A student whose overall grade point average is less than 3.0, but who presents acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Center.

Students applying for admission to one of the Center's programs are required to submit:

1. A completed Center Application Form for the specific degree or certificate program.
2. Transcripts of all course work completed in undergraduate education.
3. Two letters of recommendation from members of the academic profession under whom the applicant has studied, or from persons in positions of administrative leadership with whom the applicant has worked.
4. A one or two page statement concerning the applicant's reasons and plans for pursuing a career in public administration.

Following admission to the University and acceptance in one of the graduate programs, each student should meet with a faculty advisor. The faculty advisor will provide advice to the student on program course requirements and elective opportunities, and counsel the student in the chosen elective area.

Advancement to Candidacy

The following are requirements for the degree and certificate programs:

1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of all degree or program prerequisites;
3. Approval of the candidate's program by a faculty advisor and the Director of the Graduate Center for Public Policy and Administration;
4. Completion of six units of course work at this University toward the degree or program objective;
5. Earned a minimum GPA of 3.0 in all graduate work completed at this University, or transferred from other sources, to meet degree or program requirements.
6. Have passed the WPE.

Transfer of Credit

Students who have completed a graduate certificate program in the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, or Transportation Policy and Planning, may transfer up to 15 units of credit earned in the certificate program to be applied to the Center's Master of Public Administration degree program. The student must apply to the Center for admission as a degree candidate.

Students who have completed the academic requirements for the Master of Public Administration degree, prior to applying for admission to a graduate certificate program in the Center, may apply up to 6 units of credit earned in the MPA program for the required or elective courses in a certificate program.

Master of Public Administration (code PPA_MP01)

The Center offers an innovative professional graduate program of studies leading to the degree of Master of Public Administration. The 36-unit program is designed with a professional emphasis and a recognized need to provide students with an increased competency and perspective of the analytical and administrative processes of government. The MPA degree is sufficiently flexible that students may select a program of elective courses oriented toward a generalist program of studies, place emphasis on a staff specialization such as personnel, or permit a focus on a specific public program field such as criminal justice administration. In all cases, a common grounding in the core areas of public policy and administration is required; but beyond this, considerable freedom of choice enables students to select subjects which fit their particular backgrounds or career objectives.

Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 21 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 660, 670, and 696;
3. Completion of approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Additional elective course work in elective fields to meet the 36-unit minimum;
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

University Courses Acceptable for the Master of Public Administration

A wide variety of graduate courses in other departments also are acceptable. Graduate course descriptions are found in the department listings in which they are offered. Consult with Center Faculty for more information.

Option in Urban Affairs (code PPA_MP02)

The purpose of the Option in Urban Affairs within the Master of Public Administration degree is to provide students who have particular interests in urban problems and processes with the opportunity to expand their knowledge and awareness in the field. In this broadly based interdisciplinary program, students can develop an understanding of the systemic nature of the urban environment and the interrelatedness of many urban problems. The program is designed to provide urban managers with ideas and techniques for dealing with various urban situations. Emphasis is on state and local government issues and responses.

Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration.

Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 24 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 610, 660, and 670, and 696;
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 12 units of elective course work selected from: PPA 512, 517, 522, 523, 525, 527, 535, 540, 546, 547, 548, 549, 550, 567, 571, 575, 581, 590; CRIM 512, 581, 621, 623, 624, 630, 640, 641, 650; EDAD 541, 544; EDP 520, 536; GEOG 600, 650, 666; HIST 673; POSC 640; REC 521, 571.
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

Option in Public Works Administration (code PPA_MP03)

This Option is designed to provide advanced knowledge to practitioners and pre-career students in the growing field of public works management. Course work prepares students in general public administration and specialized public works management activities, including appropriate technical subjects such as air and water pollution, water supply, waste disposal and management, energy, housing, and transportation.

Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration. For this degree option, the experiential background would be targeted to the public works and infrastructure sector.

Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 27 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 554, 555, 577, 660, 670 and 696;
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 9 units of elective course work selected from: PPA 515, 522, 527, 535, 540, 547, 549, 550, 552, 560, 575, 590; CE 520, 565;
5. Successful completion of PPA 697 or CE 697 Directed Research and an approved Student Learning Portfolio.

Graduate Certificate in Urban Executive Management (code PPA_CT01)

This program is designed to serve the post-graduate executive development needs of men and women in aspiring to top level positions in city and county governments. The goal of this program is to provide urban executives with a comprehensive

knowledge of strategic planning processes; dynamics of human relations; strategies for implementing policies; consensus building techniques; and economic and financial forces impacting on local governments

Prerequisite

In addition to the general admission requirements, applicants for the graduate certificate in Urban Executive Management should have significant upper level management experience in Public Administration, and a minimum of 10 years of progressively responsible management experience in government.

Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 542, 547, and 571;
3. Satisfactory completion of 3 elective courses selected from PPA 512, 525, 535, 550, 555, 560, 575, and 577.

Graduate Certificate in Public Management Analyst (code PPA_CT02)

This program is designed for men and women who work or desire to work in budgeting, policy formulation, financial management, or program evaluation offices of government agencies. The program prepares candidates with such skills as defining a problem; conducting cost benefit analysis; utilizing basic statistical techniques; conducting behavioral/political analysis; preparing and presenting reports; learning the ability to blend qualitative, behavioral, and political skills necessary for success as an analyst in government.

Prerequisite

In addition to the general admission requirements, students should be employed in public service or related activities, or have a goal of public service-related activities.

Requirements

1. A minimum of 18 course units in graduate course work, including 4 required and 2 elective courses.
2. Satisfactory completion of PPA 515, 517, 521, and 555;
3. Satisfactory completion of 2 elective courses selected from PPA 522, 523, 527, 540, and 560.

Graduate Certificate in Public Sector Employer-Employee Relations and Personnel Management (code PPA_CT03)

This program is designed for public sector managers and those aspiring to enter public service who need the knowledge, skills, and abilities required to deal effectively with the critical area of public sector employee relations and personnel management. The primary goal is to provide the necessary training for public managers to effectively utilize human resources to their greatest potential in conjunction with the needs of the public organization.

Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 555, 575, and 577.
3. Satisfactory completion of 3 elective courses selected from PPA 527, 570, 571 and 581.

Graduate Certificate in Public Sector Financial Management (code PPA_CT04)

This Certificate Program is designed for public managers and others interested in obtaining an understanding of governmental financial management concepts, functions, techniques, and issues. The program is designed to familiarize students with financial management problems and the techniques available for solving them. An emphasis is placed on how to recognize, evaluate, and utilize financial information in decision-making.

Those most interested in pursuing the Certificate would likely fall into one of three categories. First, current private sector finance professionals who wish to develop an understanding of the financial management function and practices within the public sector. Second, current public sector financial managers who wish to further develop expertise in public sector financial management. Finally, in-service public sector employees who wish to start a career in government finance and who may use the courses for the Certificate as a guide for their course work towards the Master of Public Administration degree.

Requirements

(18 units required)

PPA 555, 590T, 560, 567; ACCT 610; IS 601.

Note: Appropriate substitutes for the required courses may be allowed subject to permission of the Public Finance Specialization Faculty Advisor. Also, ACCT 610 and IS 601 have substantial prerequisites. Prospective students should refer to the University Catalog for details.

Graduate Certificate in Transportation Policy and Planning (code PPA_CT05)

The purpose of this certificate program is to provide instruction in the skills and knowledge appropriate to professional activity in transportation policy and planning for urban transportation. Key support areas include urban planning, policy analysis, environmental policy, intergovernmental policy, personnel policy, and grants administration.

Requirements

1. A minimum of 18 course units in graduate course work, including 2 required and 4 elective courses.
2. Satisfactory completion of PPA 522, and 550.
3. Satisfactory completion of 4 elective courses selected from PPA 535, 540, 575, 670; CE 520; ECON 690.

Courses (PPA)

500. Foundations of Public Policy and Administration (3)
Concepts of the discipline; fundamentals of public organization theory, policy formulation and analysis, and administrative and management processes; management of the public interest; and ethics in government. Letter grade only (A-F).

502. Administrative Leadership (3)
Prerequisites: OCST 485 or equivalent. Concepts and techniques of personal and professional administrative leadership. Same course as OCST 502. Letter grade only (A-F).

505. Critical Analysis of Issues and Problems in Education and the Workplace (3)
Prerequisite: Must be qualified for admission to the MPA, MS in Emergency Services Administration, or MA in Occupational Studies program. In-depth analysis of major research reports and re-

view of historical and contemporary issues and problems. Particular attention will be given to the various research methodologies used to examine issues and problems in the field. Same course as OCST 505. Letter grade only (A-F).

510. Public Administrative/Management Processes (3)
Analysis of public administrative/management processes from perspective of public executive, public finance and budgeting, public personnel systems, standards of efficiency and effectiveness in conduct of the public's business, and role and use of organizations and administrative processes to achieve public objections. Letter grade only (A-F).

512. Urban Executive Management (3)
Students will be provided an overview of the various types of problems confronting today's urban administrator and the possible means of solving some of these pressing problems. Subjects to be included are public policy in a changing society; new strategies for managing local government; new frontiers in planning and controlling financial resources; the dynamics of personnel and labor relations. Letter grade only (A-F).

514. Municipal Law for Administrators (3)
Examination of major laws and legal issues affecting local government today. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain will be studied. Will develop problem solving abilities through legal analysis, and will explore new parameters and changing standards in litigious society looking for "deeper pockets," slower growth, and greater citizen involvement in local government. Selected areas of study will include the impact of recent U.S. Supreme Court cases on land use regulation; California Redevelopment Agency law; municipal tort liability and civil rights matters; public-private financial ventures and bond financing; city council meeting and hearing procedures; the "Brown Act", and public records; public works contracts and building code enforcement; and public labor law trends and developments. Same course as OCST 514. Letter grade only (A-F).

515. Administrative Report Writing (3)
Preparation of written documents required of public administrators. Letter grade only (A-F).

517. Analytical Skills Development (3)
This course is designed to develop or improve the skills needed to perform analytical work in the public sector. There will be a dual emphasis wherein both quantitative and behavioral/ political aspects of analysis in government are explored. Cost-benefit analysis, and report preparation and presentation will be covered. Letter grade only (A-F).

521. Microcomputer Management for Public Administrators (3)
A seminar for public administrators focusing on the design, development, and management of microcomputer systems and applications in public organizations. There is a dual emphasis in the course: analysis of critical concepts and issues relating to the management of micro-computer systems, and hands-on computer laboratory experience in the design, development and use of microcomputer applications. Letter grade only (A-F).

522. Automating Government Administration (3)
An examination of the use of computers to assist government management, with special emphasis on automation of services such as finance, police and library departments. Will provide an introductory background in computers and their applications to government systems and files for non-computer specialists. Letter grade only (A-F).

523. Urban Information Systems for Public Management (3)
The purpose of this course is to expose MPA students to the most significant information technologies impacting government management as we move to the 21st century: the World-Wide Web (Internet) and G.I.S. (Geographic Information Systems.) This course will introduce students to the tools and techniques used to construct Web pages and their appropriate usage. Students will also be exposed to the design, development and use of GIS in public organizations. This is a hands-on course which makes extensive use of computer technology, including Internet access to the World-Wide and e-mail.

524. GIS Management and Applications for Public Managers (3)

Geographic Information Systems (GIS) are rapidly becoming a keystone of government operations. Public managers are finding it increasingly important to understand not only what GIS can do but also how to use GIS applications to solve problems. This course will introduce students to the management and applications of GIS in the Public Sector. The class will cover the requirements for designing, developing and managing GIS applications for solving public sector problems. This course will also provide students with hands-on use of GIS for applications development in a computer lab environment as well as analysis of real-world GIS case studies. Letter grade only (A-F).

525. Non-Profit Management (3)

Examination of the history, principal characteristics, scope, and unique management challenges confronting the nonprofit sector in the United States. While the sector as a whole, in all its variety, will be addressed, particular attention is given to the traditional and important role of nonprofits in the delivery of health and human services. Letter grade only (A-F).

527. Productivity and Performance Measurement (3)

This course will identify and develop concepts of productivity and performance measurement for the government executive. Recent approaches to management of organizations will be examined to determine their relationship to productivity and performance measurement. Finally, management techniques and methods will be reviewed through case studies, guest speakers, and a workshop format to provide some knowledge of substantive approaches to the measurement of government outcomes. Letter grade only (A-F).

533. Race, Inequality and Public Policy (3)

There has been considerable political debate over the problems of income inequality and poverty in the U.S. and the inability of public policies to remedy this situation. The Los Angeles "riots" renewed this debate. The purpose of this seminar is to critically examine this debate and guide students to an understanding of the multiple sources of inequality in American cities. Particular attention will be paid to ways in which race, ethnicity and gender play a role in structuring the urban environment in which inequality originates and operates. In this way, our discussion of racial inequality and social policy will serve as a springboard for a more elaborate and critical examination of the fundamental philosophical, political and socio-economic problems currently afflicting our post-industrial society. Letter grade only (A-F).

535. Intergovernmental Relations (3)

This course will present fundamental concepts and issues of intergovernmental relations in the United States. Topics covered include history of the field, intergovernmental revenues and expenditures, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues. Same course as OCST 535. Letter grade only (A-F).

540. Grants Administration and Management (3)

Study of the various types of financial and technical assistance to local public and quasi-public agencies; the strategies for locating and obtaining grant programs support; and the development of effective project systems for externally funded projects. Letter grade only (A-F).

542. Emergency Planning and Management (3)

Students will study the planning and management processes and the issues involved in large-scale emergencies. The nature of natural and technological risk and emergency will be explored via case studies. The public sector roles in contingency planning and response will be assessed. Same course as OCST 542. Letter grade only (A-F).

546. The Urban Crisis and the Public Administrator (3)

A survey of the history of urbanization, the literature of urban power relations and decision-making, and the dynamics of race relations in the urban environment. Extensive interface with urban agency representatives will be a major focus of this course. Letter grade only (A-F).

547. Local Government Economic Development Processes (3)

A detailed discussion of the nature, goals and processes of local-level based economic development programs. Definition of governmental incentives designed to maximize private investment. A thorough explanation of property-related revenues from both the public and private perspectives. Letter grade only (A-F).

548. Housing Problems and the Urban Administrator (3)

An overview of housing problems in contemporary urban society. This course will increase the public administrator's awareness of the interrelationships between local government administration and housing problems, and facilitate the public administrator's ability to deal with these problems. Letter grade only (A-F).

549. The Municipal Community Development Process (3)

Overview of the municipal community development process with particular emphasis on the integration of municipal planning, zoning, housing, social service, and redevelopment functions. The course will explore basic concepts of each function, their interrelationships and administrative practices. Emphasis will be given to the impact of federal community development block grants and the local process. Letter grade only (A-F).

550. Urban Transportation Policy and Planning (3)

Examines the status of urban transportation activities and needs today and discusses the near and long-term options for the future. Analyzes local, state, federal policy and inter-governmental system; Los Angeles urban transportation development, transit proposals and new policies and activities. Letter grade only (A-F).

554. Public Works Facilities and Urban Policy (3)

Provides a study of public infrastructure essential to urban communities, and an analysis of urban policies and impacts from the perspective of the urban administrator. Students will examine infrastructure maintenance and expansion needs assessment, and intergovernmental financing with concentration on water and wastewater, transportation, solid waste, and public facilities, including schools. Letter grade only (A-F).

555. Government Budgeting and Finance (3)

This course focuses on the formulation phase in the budget cycle. The course presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and structures, fundamental processes of public finance, economic growth and fiscal impacts, basic principles of government accounting, budget formats, performance measurement, fiscal condition and stress, revenue sources and structures, estimation and forecasting, capital budgeting and evaluating public projects, and fiscal federalism. Same course as OCST 555. Letter grade only (A-F).

560. Public Financial Management (3)

Focuses on the execution phase of the budget cycle, and thus, completes the full budget cycle. The course presents the major concepts and skills associated with budget administration for all levels of government. Topics include cash management and investment administration, debt management, purchasing, risk management, financial and managerial accounting, financial reporting, and auditing. Letter grade only (A-F).

567. Basic Governmental (Fund) Accounting (3)

Provides a basic introduction to the unique characteristics of governmental and commercial accounting. Differences between governmental and commercial accounting are explained. Governmental accounting terminology basics and principles are discussed. Information is provided on the structure and types of funds and methods of classifying and recording accounting information. Types of financial reports and interpretation of financial statements are discussed. Particular emphasis is focused on the relationship between accounting and budgeting, financial reporting, auditing and other financial management activities for governmental and non-profit agencies. Letter grade only (A-F).

570. Negotiating Dynamics: Strategies and Skills (3)

Examination of negotiating strategies and skills based on tested use of power and psychological principles in negotiations. Different strategies and skills examined for negotiating under varying levels of cooperation and conflict. Letter grade only (A-F).

571. Leadership Skills and Strategies in the Public Sector (3)

Increasingly, urban governments are being criticized for a "lack of leadership" and an inability to move their bureaucracies toward solutions to complex problems. This course examines the theories of administrative leadership and the strategic application of leadership skills in an urban government environment. Students also will review current approaches to organizational excellence and its applicability to urban government leadership.

575. Public Sector Employer-Employee Relations (3)

Analysis of prevailing practices and techniques of collective bargaining and its continuing ramification on the economic, political and organization structure in the public sector. Emphasis is placed on a review of the entire employee relations field including the financial implications, costing techniques, impasse resolution including binding arbitration, job action and strike contingency planning, contract administration, worker compensation and public retirement systems. Instruction also provided on negotiation techniques through mock negotiation sessions. Letter grade only (A-F).

577. Public Sector Human Resources Management (3)

The historical development of the civil service/merit system and how this impacts public personnel systems; laws which affect the operations of a personnel system; analysis of the various components of a personnel system; impact of labor negotiations on personnel systems; importance of written policies and procedures; and role of the personnel system as a change agent. Same course as OCST 577. Letter grade only (A-F).

581. Government/Community Relations (3)

An investigation of the inter-relationship between governments and community based organizations and the communities in which they operate and serve. Particular attention is paid to strategies and tactics used in diagnosing problems and opportunities and prescribing courses of action in such diverse areas as public safety, planning and community development, arts and culture and health, education and welfare. Elective for graduate students in Master of Public Policy and Administration. Letter grade only (A-F).

582. Citizen Advocacy and Public Policy Making (3)

An in-depth analysis of citizen involvement and how it impacts upon policy formulation and public administration. The course involves classroom input from community leaders, action groups, legislators, public administrators, with interaction by the student. Letter grade only (A-F).

585. Public Policy and Administration Internship (3-12)

Prerequisite: Consent of the instructor. A learning experience designed to provide an exposure to and understanding of the governmental environment. Students seeking the MPA degree who do not have managerial experience in government are required to participate in the Internship program. May be repeated to a maximum of 12 units. Academic credit earned for the Internship program is beyond the 36 units required for the MPA degree. Letter grade only (A-F).

590. Special Topics in Public Policy and Administration (3)

An investigation of a special problem as defined by the instructor that is of current interest to the field of public policy and administration. May be repeated to a maximum of 9 units with different topics. Letter grade only (A-F).

S. Small-Scale Survey Research for Public Administrators

T. State and Local Public Finance

597. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study in public policy and administration. Letter grade only (A-F).

610. Seminar in Urban Affairs (3)

An interdisciplinary course which will give students an opportunity to develop expanded awareness of the interrelationships between various urban problems in the urban systemic environment. Letter grade only (A-F).

650. Seminar on Issues in Contemporary Public Administration (3)

Survey of various issues and topics critical to effective public administration in the contemporary United States including the social and political context of contemporary public administration (e.g., increasing diversity of public demands of public agencies, increasing complexity of the intergovernmental network, etc.), responsibilities and obligations of public servants in contemporary governments and selected issues of public management. Letter grade only (A-F).

651. Graduate Seminar (3)

Prerequisite: Enrollment in MS or MPA degree program. Study of selected topics in occupational education, including important legislation, industrial innovations, technical change, and contemporary problems. Topics will be announced in Schedule of Classes. May be repeated to a maximum of 6 units. Same course as OCST 650. Letter grade only (A-F).

660. Seminar in Organization Theory and Behavior (3)

Organizational change, effectiveness and allocation processes in public agencies. Theoretical models of open systems, rationalist, conflict, coalition and decision-making theories will be investigated with the aim of presenting a unified set of propositions about organizations. Leadership and small group theory. Letter grade only (A-F).

670. Policy Issue Analysis (3)
