Prerequisites: HIST 301 and nine additional units of upper division History. Seminar level course exploring a specific historical field or issue chosen by the instructor; students will be expected to analyze and interpret primary and secondary sources in a paper that will be presented to the class. Part of core requirements for students declaring a major before summer, 2001; students declaring a major after spring 2001, will be required to take History 499 as a core requirement, not 495.

#### A. Colloquium

#### D. The 1960s

#### E. Hitler

#### G. Readings in Ancient History

#### M. Public History

#### N. U.S. Workers and Unions

#### O. U.S. in Vietnam

#### 497H. Honors Colloquium (3)

The development of History as a discipline, major schools of historical interpretation, and recent developments in analysis and theory. Emphasis on the interrelationship of History to other disciplines in the social sciences and humanities.

#### \*498. Directed Studies (1-3)

Prerequisite: consent of instructor. Independent study under the supervision of a faculty member. May be repeated up to six units.

#### 498H. Honors Research (3)

Research for and writing of a senior thesis under the direction of a departmental advisor.

#### 499. Senior Seminar (3)

Prerequisites: HIST 301 and 18 completed units of upper-division course work in History. Designed for graduating seniors, this course requires that students demonstrate baccalaureate-level master of historical processes and historical literature through 1) submission of a portfolio representing continuing work in the major; 2) research and writing of a major paper, and 3) oral presentations. Not open to History majors with fewer than 18 completed units of upper-division work in the major.

#### 499H. Honors Thesis (3)

Prerequisite: HIST 498H. Research, writing, and presentation of a senior honors thesis under the direction of departmental faculty advisor.

---

### INTERDISCIPLINARY COURSES

---

#### 303I. Rebels and Renegades (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The 1930s and 1960s were decades noted for their political, social and cultural creativity and turmoil. This course investigates youth involvement in social change, and focuses on the following topics in US history: labor activity, civil rights, student action, issues of war and peace, the evolution of the women's movement and the emergence of minority voices. The course looks at culture (particularly music, literature, and movies) in defining and reflecting these issues, and addresses the question of why some decades are filled with social protest while other periods appear to be more politically passive. The class addresses the importance of these questions for the 1990s. Not available for credit in the minor.

#### 306I. Legal Responsibility (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of how society does and should hold people responsible for their acts toward society (crimes) and toward other people (torts). Emphasis on how law has evolved, its variety and principles and policies upon which it is or should be based. No previous study of law required.

#### 307I. Modernization in Global Perspective (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of the ways in which current psychological and material problems in modern society (both Western and Third World) can be traced to a process of accelerating change which began with the advance of technology, rise of capitalism, abandonment of "old values," increasing complexity of bureaucracy, and a lowering of social barriers. Exploration of all facets of modernization utilizing films, discussions and readings (fiction and non-fiction). Same course as ANTH 307I and GEOG 307I. Not available for credit in the minor.

#### 308I. Law and Civilization (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of law as an intellectual effort to define, direct, and administer human experience. Examination of theories of knowledge, language, meaning, mental processes, social organization, personal responsibility and freedom underlying legal analysis and decision-making in courts as well as in administrative/bureaucratic settings. Not available for credit in the minor.

### 309I. Men and Masculinity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Exploration of male roles from an interdisciplinary perspective focusing on men as workers, friends, lovers and fathers. Consideration of the choices available to men under the impact of tradition, feminism and a changing job market. Gender-oriented social and political movements. Traditional grading only.

### 310I. The Greek World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture and contributions of the Greeks to the modern world. Same course as C/LT 310I.

### 312I. Roman World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as C/LT 312I.

### 400I. History of Western Scientific Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures. Same course as PHYS 400I.

### 404I. Social History of Musical Life (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Social history of musical life, music publics, institutions, professions, and taste in Europe and the U.S. Not available for credit in the major.

### 407I. Japan and the United States in the 20th Century (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic and political conflict and cooperation.

### 414I. Medieval World (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the Middle Ages, pre/non-Christian culture, the so-called "dark ages," Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Same course as C/LT 414I.

### 474I. The Urbanization of Modern America (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems and politics.

---

## AFRICA AND THE MIDDLE EAST

---

### \*391. The Making of Modern Africa, 1800-1939 (3)

This course surveys the history of sub-Saharan Africa from the early 19th through the mid-20th centuries. We will study the rapid changes which destabilized many 19th century societies, the European conquest which followed, and the entrenchment of a colonial situation which robbed generations of Africans of their

ability to control their own political and economic destinies. Our emphasis will be on how Africans themselves perceived these processes, how they adjusted to them, and the continuing relevance of these experiences today.

### \*392. Contemporary Africa, 1940-Present (3)

The challenges facing Africa today can seem bewildering in their variety and complexity. In this course we will examine the political, economic, social, and ecological conditions of the African continent by studying their historical genesis in the second half of the twentieth century. The main focus will be the difficulties that have been encountered in overcoming the legacies of colonialism in Africa.

### \*394. Middle Eastern Women (3)

Prerequisites: Upper division status. In this course we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, traveler accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as W/ST 394.

### 431./531. The Middle East (Southwest Asia), 600-1700 (3)

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam, the creation and development of the Islamic Empire, the rise of dynastic successor states and "gunpowder" empires, European encroachment, and integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

### 432./532. The Middle East (Southwest Asia), 1700-Present (3)

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform, problems and impact of modernity and imperialism in social, political, and economic spheres, state building, nationalism, and Islamic revivalism and will situate the history of the region within its global context.

### \*491. Modern and Contemporary Africa (3)

Conquest of Africa by European states, contrasting colonial systems as they evolved, anti-colonial movements and progress towards self-government or independence, problems of economic and political development, and race tensions in areas of white settlement.

---

## ANCIENT AND MEDIEVAL

---

### 310I. The Greek World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in society and culture of ancient Greece with an emphasis on literature, the arts, and the historical forces at work. Topics include foundations of Greek culture, Minoan civilization, Homer and the Trojan War, mythology and religion, lyric poetry, the Persian Wars, the "Golden Age" of Athens, the Peloponnesian War, Hellenistic culture and contributions of the Greeks to the modern world. Same course as C/LT 310I.

### 312I. Roman World (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major events and ideas in the society and culture of ancient Rome with an emphasis on literature, the arts, and the historical forces at work. Topics include genesis and growth of the Roman world, transition from Republic to Empire, imperial maturity, decay and decline, and the contributions of the Romans to the modern world. Same course as C/LT 312I.

### \*313. Ancient Greece (3)

Prerequisite: Completion of GE Foundation requirements. History of the Greeks and the Greek world from the earliest times to the Roman conquest.

**\*314. Roman History (3)**

Prerequisite: Completion of GE Foundation requirements. History of Rome and the Roman world from the Eighth Century B.C. to the Fifth Century A.D.

**\*316. Early Middle Ages (3)**

History of Western Civilization from the fall of the Roman Empire in the West to the Crusades. Germanization of the West, evolution of Christian institutions, Slavic expansion, Byzantinization of the Eastern Empire, Islamic civilization, Carolingian age, feudal and manorial institutions.

**\*317. High Middle Ages (3)**

History of Western Civilization from the Crusades to the end of the Middle Ages. Revival of trade, growth of towns and of capitalism; origins of modern political institutions; and medieval learning and art.

**\*318. Byzantine Empire (3)**

Political and social development of the Byzantine Empire from the 4th century A.D. to the fall of Constantinople in 1453; the cultural heritage of the Roman Empire in the eastern Mediterranean; religious controversies and the development of eastern Christianity; relations with Islam and medieval Europe.

**\*351. Medieval England (3)**

Analysis of English political institutions, society, religion and economy in the Anglo-Saxon, Norman, Plantagenet and late medieval eras.

**4141. Medieval World (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary examination of major themes in medieval society and culture with emphasis on literature, the arts, and the historical forces at work. Topics will include the Roman heritage of the middle ages, barbarian culture, Romanesque and Gothic worlds, crusades and pilgrimages, commerce and cathedrals, and late medieval problems. Not available for credit in the major. Same course as C/LT 4141.

---

**ASIAN**

---

**382A. Imperial China (3)**

Prerequisite: Completion of the GE foundation. Introduction to the classical civilization stressing the evolution of imperial institutions, the Chinese world order and China's traditional cultural heritage. Same course as CHIN 382A

**382B. Modern China (3)**

Prerequisite: Completion of the GE foundation. Chinese society from the 17<sup>th</sup> century to 1949. Impact of imperialism, reform and revolutionary movements, the background of Chinese communism. Not open to students with credit in HIST 482B. Same Course as CHIN 382B.

**383A. Japan to 1850 (3)**

Prerequisite: Completion of GE Foundation requirements. Japan from prehistory to the nineteenth century; emphasis on social and cultural developments, the evolution of political institutions, and the development of early modern society.

**383B. Modern Japan (3)**

Prerequisite: Completion of GE Foundation requirements. Japan from 1850 To 1945; collapse of the Tokugawa bakufu and rise of the Meiji state; industrialization, social change, and protest; "Taisho democracy" and the Pacific War.

**\*384. Contemporary Japan (3)**

Japan since 1945; impact of Hiroshima and Nagasaki; American occupation of Japan; Japan's "economic miracle," social change and social criticism in literature and film; Japan's role in the contemporary world; conflict with the U.S.

**\*385. History of India (3)**

This is a survey of the history of the South Asian subcontinent from its historic roots, through the founding and consolidation of the great Mughal Empire, to the beginnings of Western imperialism and the establishment of the British Raj, ending with nationalism and the course of events in post-independence India, Pakistan and Bangladesh.

**\*386. History of Modern Southeast Asia: Colonial Era to the Vietnam War (3)**

This is a survey course in the political and cultural history of the peoples of modern Southeast Asia. After an overview of traditional civilizations, the history of modern Southeast Asia (from roughly 1815) will emphasize expansion of European influence in the political and economic spheres, the growth of nationalism and the process of decolonization in Southeast Asia, and the post-WWII configuration of the area. Both mainland Southeast Asia (Vietnam, Cambodia/ Kampuchea, Laos, Burma, Malaysia) and insular Southeast Asia (Indonesia, Philippines) will be surveyed.

**405./505. Classical Japan (3)**

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

**\*406A. Asian Women: East and Northeast Asia (3)**

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and W/ST 406A.

**\*406B. Asian Women: South and Southeast Asia (3)**

This is an introductory course on the experiences of women in South and Southeast Asia. By studying kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about South and Southeast Asian women, we will examine how gender was historically constructed and how women's resistance took various forms of resistance in these areas. This course will proceed both chronologically and thematically. Major issues to be addressed include women's agency in social change, gender as a contentious site of nationalist discourse, the impact of colonization on women, and women's various forms of resistance. Same course as A/ST 406B and W/ST 406B.

**407I. Japan and the United States in the 20th Century (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of relationships between Japan and the United States, emphasizing cultural, economic and political conflict and cooperation.

**409./509. Early Modern Japan (3)**

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

**\*410. Chinese Emigration/Migration in Modern Period (3)**

The history of Chinese emigration/migration in the world with an emphasis on Chinese experiences in Southeast Asia, the Americas, and Western Europe. Examines major factors that have shaped Chinese emigration/migration in the modern period, as well as its impact on world history. By studying the interactions of people and social networks that operate within and across the boundaries of nations, it explores the implications of human migration for the development of the world, the fluidity and contested nature of "nation-states," "national identities," and "nationalism," as well as the political and economic interests invested in these concepts by their subscribers, who have either participated in migration or endeavored to curb it. Will proceed both chronologically and thematically.

**\*487. Film and Chinese History (3)**

Examines the complex relations between history and film. The questions to be asked include: How have films made in China been informed by changes in the country? In what ways can film constitute history and contribute to historical debates? What are the advantages and disadvantages of film in representing history? What are the complex issues related to the historical representation in a transnational film? It discusses both feature and documentary films, as well as films made in Hong Kong and Taiwan. Upon successful completion of this course, students will enhance their ability to read film texts critically and will appreciate the importance of studying history in this visually oriented era.

**\*488. The Chinese Revolution (3)**

Prerequisite: HIST 382B or consent of instructor. Theory and practice of revolutionary socialism in the People's Republic of China, historical and ideological background of the Chinese revolution, Mao and Maoism, politics, culture and society in China. Same course as CHIN 488.

---

**BRITISH**

---

**\*353. Tudor and Stuart England (3)**

Social, cultural, religious, political, and dynastic history of England from 1485 to 1714. Renaissance and Reformation; Crown and Parliament; civil war and revolution; the pre-industrial economy; relations with Scotland, Ireland, Europe, and America.

**\*356. Georgian and Victorian Britain (3)**

Social, cultural, religious, political, and constitutional history of Britain from 1714 to 1901. Changes in agriculture, commerce, industry, and population; Parliamentary democracy; Irish problems; relations with America, India, Europe, and the world.

**\*357. Recent Britain (3)**

Social, cultural, economic, and political history of 20th century Britain. Governments and people; labor, party politics, and the welfare state; two world wars; problems with Ireland and Europe; the end of Empire; race relations; mass media and popular culture; contemporary developments.

---

**LATIN AMERICAN**

---

**362. Colonial Latin America (3)**

Prerequisite: Completion of GE Foundation requirements. Iberian preparation for overseas expansion; discovery and conquest in America; evolution of colonial institutions; dynamic 18<sup>th</sup> century developments; wars of independence.

**364. The Latin American Nations (3)**

Prerequisite: Completion of GE Foundation requirements. Political, economic, social and intellectual evolution of Latin America in the 19<sup>th</sup> and 20<sup>th</sup> Centuries.

**\*366. Latin American History and Literature (3)**

Latin American history through the novel and film; will integrate literature and the cinema with traditional historical materials in order to provide the student with a deeper understanding of the development of Hispanic America.

**\*461. History of Precolumbian Mexico (3)**

History of Meso-America from prehistoric times to the Spanish conquest, emphasizing the study of the societies and the religious and intellectual life of people of ancient middle America.

**\*462. Mexico (3)**

Spanish conquest of Indian Mexico; settlement and exploration; colonial life and institutions; the achievement of independence from Spain; reform, foreign intervention, dictatorship in the 19th century; the Revolution of 1910 and after; contemporary Mexico.

**\*463. The Caribbean and Central America (3)**

History of the Caribbean Islands and Central America from European colonization to the present, with emphasis on Cuba and Central America. Economic, political and cultural development and relations with the United States.

**\*466. Topics in Latin American History (3)**

Selected topics in Latin American History, including: (a) Revolutionary Latin America analyzing various 20th-century revolutionary movements, their social, political and cultural causes, and their

international impact; (b) Slavery, Peasantry and Aristocracy analyzing examples of black slavery, peasant societies, and elites from the 16th century to the present; (c) Comparative History: Argentina and Brazil, or other pairs of states; colonial beginnings, with emphasis on geographical, economic, social, ethnic, and vital institutional elements. May be repeated, with different topics, for a maximum of nine units.

---

**MODERN EUROPEAN**

---

**\*304. The Holocaust (3)**

This course examines the attempted destruction of European Jews by Nazi Germany during the Second World War. Students will trace the roots of anti-Semitism in European history, the origins of Hitler's anti-Jewish assault, and the process from ghettoization to extermination. Other topics include the Jewish resistance inside Europe, the Western response during the war, and the world reaction fifty years after the Holocaust. Students will also explore how the Jewish tragedy is related to other crimes against humanity, including the massacre of Armenians, mass killing in Cambodia and Indonesia, and the issue of ethnic cleansing in Bosnia.

**\*332. The Italian Renaissance (3)**

Examination and analysis of intellectual, cultural, political and economic features of 14th, 15th, and 16th-century Italian civilization. Particular emphasis on interplay between new configurations and notions of power and their unique Italian cultural manifestations.

**\*333. Reformation Europe (3)**

Examination and analysis of the "long 16th century," from the beginning of the Italian Wars (1494) to the Peace of Westphalia (1648). Emphasis on economic, institutional, intellectual and religious crises, and on their resolutions in the post-Reformation period.

**\*334. Early Modern France, 1589-1789 (3)**

Spanning French history from the reign of Henri IV through the commencement of the French Revolution, this course will explore the following themes: the expansion of royal authority and the challenges it faced during the 18<sup>th</sup> century; the functioning of the French economy and its growth through increased production, trade and colonization; geographic expansion; the impact of religion; development in the literary and visual arts as well as popular culture; the increasing social, political, cultural and intellectual importance of Paris; the French Enlightenment; demographic changes, social class dynamics and the rhythms of daily life; gender constructs and patriarch; marriage, family life, birth and childhood.

**\*335. The Shaping of Modern Europe (3)**

European political, social, economic and intellectual life from the Treaty of Westphalia (1648) to the French Revolution (1789). Emphasis on the rise of statism, the triumph of science and mechanistic philosophy, absolutist monarchs (e.g., Louis XIV), enlightened despots (e.g., Frederick the Great), and philosophers (e.g., Voltaire), and the crisis of traditional society.

**\*336. The French Revolution and Napoleon (3)**

End of the Old Regime and the French Revolution. Decline of the feudal monarchy, failure of enlightened despotism, the rise of revolutionary thought, French Revolution, and Napoleonic imperialism.

**337. Europe in the Nineteenth Century (3)**

This course focuses on a tumultuous century of revolution and reaction from the French Revolution to the outbreak of World War I. Topics included are: industrialization and its repercussions; popular protest and mid-century revolutions; the rise of the bourgeois and liberal world and the political and social opposition to it; nationalism, including the unification of Germany and Italy; feminism, imperialism and daily life.

**338. European Women's History (3)**

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include: the nature, methodology and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as W/ST 384.

### 339. Europe, 1890-1945 (3)

This course will explore the period in European history between the late nineteenth century (fin de siècle) and 1945 (the end of the Second World War). Amongst the themes that will be covered are: political, social, economic, international, and cultural crises prior to 1914; the development of modern artistic trends; the First World War and its impact; challenges to democracy; economic collapse; the rise of the Fascists in Italy and Nazis in Germany; the Spanish Civil War; the Second World War, and the Holocaust.

### \*340. Europe Since 1945 (3)

This course examines the political, social, economic, and cultural development of Europe since the end of World War II. Themes will include the development of the Cold War, economic recovery, the rise of the welfare state, Eurocommunism, Gaullism, student unrest, national security and arms control, terrorism, the fall of communism and the transformation of East and Central Europe.

### 400I. History of Western Scientific Thought (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures. Same course as PHYS 400I.

### \*437. History of Germany 1871 to Present (3)

History of Germany from unification: the First World War, the Weimar Republic, the National Socialist Reich and the post-war recovery.

### \*483. Women in Eighteenth-Century England and America (3)

Prerequisites: ENGL 100 and upper/division status. Study of representations and realities of women's lives, 1688-1800, from an international and interdisciplinary perspective. Critical methodology of history and literature; analysis of literary and historical texts to explore women's experiences of law and economics; religion; education and culture; marriage, sex, and health; politics and revolution.

---

## ORAL HISTORY PROGRAM

---

### 402. Oral History Methods (1)

Through a series of workshops and through field experience, skills in oral history will be developed which will enable students to use oral history either for their own personal use in family history or for class projects. Credit/No Credit grading only. Same course as C/LA 485.

### 4980. Directed Studies in Oral History (1-6)

Permission of faculty required. Directed study on a research topic using the methodology of oral history. May be repeated for a maximum of 6 units. (Same course as C/LA 498.)

---

## RUSSIAN

---

### 341A. Foundations of Russia (3)

Evolution of the state structure, diverse cultural patterns, and social structures associated with ancient Kiev Russia: rise of Moscow, origins of autocracy and serfdom; westernization and modernization as problems during the imperial period to 1801. Particular emphasis on social history.

### 341B. Modern Russia (3)

Interaction with the West from 1801; era of great reforms and revolutionary movements; downfall of imperial Russia; establishment of the Soviet regime; chief political, social, economic and cultural developments in the Soviet era; role of the Soviet Union in world affairs.

---

## UNITED STATES

---

### 300. The United States Past and Present (3)

Concentrating on the rise of the U.S. to its present position as a world power, this course will explore the contributions of various racial and ethnic groups and of both men and women to that pro-

cess, as well as the effects of developing political, economic, and social institutions and values upon that process. (This course is an upper-division survey and may not be taken for credit in the United States field. It is for upper-division transfer students in lieu of HIST 172 and 173.)

### \*369. American Jewish History (3)

Both a chronological and a thematic approach to American Jewish History. Chronologically, covers the first Sephardic settlers, German Jews, Eastern European Jews, and recent migrants. Emphasis placed on the experiences these immigrants brought with them. Examples of major themes examined critically: assimilation, the transformation of traditions, American anti-Semitism, the branches of Judaism, mobility, Jewish women, American Jewish leadership of the Jewish Diaspora, Jewish/Christian relations, and the relationship of Jews with other minority groups. Traditional grading only.

### 370. Chicano History (3)

Chicanos in the settlement and development of the Southwest and in contemporary U.S. society; Chicano experience as a U.S. minority group; emerging civil rights movement of La Raza. Traditional grading only. Same course as CHLS 300.

### 371. Religion in American History (3)

A survey of the main currents of religion in the development of American civilization from the beginning of the colonial period to the present. Themes of Judeo-Christian heritage, proliferation of denominations and new religions in an open environment. Awakenings and revivals, sectarian, communal, ecumenical and social action movements are among the topics explored.

### \*372. United States: Colonial Period (3)

Discovery and settlement of the new world; European institutions in a new environment; development of colonial government, economy and social institutions; European dynastic rivalry and colonial America.

### \*373. United States: Age of Revolution (3)

Clash between British attempts to control and tax the colonies and colonial distaste for both; growth of an independent spirit; the American Revolution; problems of the new nation; the constitution.

### \*375. The United States Emerges as a Nation (3)

An analysis of the political, economic, social, and intellectual forces from the adoption of the constitution through the 1840s.

### \*376. United States: Civil War and Reconstruction (3)

Sectional rivalry, manifest destiny, mid-century divisive forces, Civil War and reconstruction.

### 377. The United States at War (3)

Since the discovery of "the new world," until the present time the United States has been engaged in a sequence of conflicts, wars, and military police actions. This course is designed to address and answer a variety of questions regarding how and why the United States goes to war. Topics for exploration include: Who were the Presidents going into and during each war? What were their political parties? What was the economic impact or impetus? What part did manifest destiny, the Monroe doctrine, and the cold war (the domino theory) of communism play? What about the issue of American nationalism? Do we go to war to protect ourselves, our image as a world power, as the result of an insult to our "national image," or for economic reasons? Is it the responsibility of the U.S. to be the watchdog for the world?

### \*378. United States History: 1877-1920 (3)

The development of the U.S. as an urban, industrial, multicultural society; progressive reform movements at the city, state, and national level; rise of U.S. as a world power; WWI.

### \*379. United States: Twenties, Depression, and World War II (3)

The conflict-ridden 1920s; the Depression years, and the beginnings of welfare democracy; the United States in World War II.

### \*380. United States Since 1945 (3)

The United States in the nuclear age: the development of the Cold War and its domestic ramifications, the "post-industrial" economy, the civil rights revolution, the rise of political dissent, the Watergate affair, the Reagan revolution, and after.

**381. Asian American Women (3)**

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings; oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and W/ST 381.

**\*467. Long Beach History (3)**

Survey of the history of Long Beach, California, 1890 to the present. Emphasis on local and regional politics, economic development, international trade, and the complicated roles of ethnic and racial diversity in a city with both an urban, and suburban, history.

**\*469. Ethnic Groups in Urban America: An Historical Examination (3)**

An examination of the origin, migration, settlement and the assimilation problems of the various ethnic groups in major American cities since the late 19th century. Emphasis will be upon the economic, social, political and educational problems encountered by different groups attempting to adjust to urban life.

**\*471. History of the Westward Movement (3)**

Examination of the impact of American expansion on the West: Euro-American exploration and migration, ethnic conflict and conquest, gender and family roles on the frontier, environmental changes in the West, development of economic institutions, and urbanization of the region.

**\*472. History of the South (3)**

The first half of the course offers a general examination of the Antebellum culture, traditions, and societal crisis. The second half offers an analysis of the modern South (post World War II) from the standpoint of political, economic and social change. Definite emphasis on roles and interactions of racial minority groups and women; insights into solidarity and conflict, and possible resolution of conflict.

**\*473. California History (3)**

Survey of California from the 1500s to the present. Emphasis on migration, cultural diversity, and significant social, political, and economic developments.

**474I. The Urbanization of Modern America (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of urban America from the colonial period to the present. Emphasis on the process of urbanization, urban problems and politics.

**477A./577A. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform.

**477B./577B. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.

**\*478. Foreign Relations of the U.S. (3)**

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups in the making of foreign policy. Same course as I/ST 478.

**\*479. U.S. Constitution: Origins and Early Development (3)**

European sources of constitutional thought, colonial background, impact of the American Revolution, the framing period and the rise of a judicial approach to constitutional interpretation under the Marshall and Taney Courts. Emphasis throughout is on the evolution of constitutionalism as a working ideal in American thought and institutions.

**\*480. Law and Fundamental Rights in American History (3)**

Selected variable topics on civil liberties issues addressing the historical development of constitutional guarantees in the areas of freedom of expression, privacy, church and state, due process, and equal protection.

**\*481. The Environmental History of Early America:1500-1860 (3)**

Prerequisites: ENGL 100 and upper division status. This course will explore the economic, social, and cultural developments of early America, from the eve of colonial settlement through 1860, from the perspective of environmental history. It will examine how different groups of people occupying the North American continent - Native Americans, Europeans, Africans (and the descendants of these groups) - defined their relationship with the natural world and how they attempted to manipulate it according to their economic needs and cultural values.

**\*482. Recent American Environmental History (3)**

This course examines the interaction between humans and the natural world in the United States from the late nineteenth century to the present. It considers such diverse topics as the impact of industrialization and urban growth on the American environment, the emergence of ecological consciousness and green politics, and the creation of the idea of Nature in American culture.

**485A. History of Women in the U.S. Early Period (3)**

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485A.

**485B. History of Women in the U.S. Since 1850 (3)**

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. Only 3 units of 485A,B may be applied to a field of concentration in U.S. history for the major. Same course as W/ST 485B.

**\*486. History of Afro-Americans in the United States (3)**

Course offers the students a historical examination of the roots and culture of Afro-Americans from the Colonial era to the present. This upper division course is designed to study the transformation from slavery to freedom; segregation and racial conflict; emigration patterns, societal interactions, and participation of other ethnic groups and women.

**\*489. Topics in Legal History of the United States (3)**

Case studies in American law from colonial times to the present: English common law heritage, puritan and frontier influences, the legal profession, judicial traditions, formative stages in criminal law, torts and contracts, and modern trends in legal thought. May be repeated with different topics to a maximum of six units.

---

**WORLD HISTORY**

---

**\*396. Contemporary World History (3)**

A global approach to the study of the twentieth century, with an emphasis on the historical origins of the contemporary world. Key themes include the changing nature of the global economy; the advance and retreat of empires; contending ideologies: liberalism, fascism, communism and nationalism; the role of the United States in world history; colonialism and post-colonialism; and the legacies bequeathed to a new millennium.

**492./592. Proseminar in World History (3)**

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of 6 units.

**Graduate Division****501. Theories and Methodologies of History (3)**

The development of history as a discipline, major schools of historical interpretation, and recent developments in analysis and theory. Emphasis will be placed on the interrelationships of history with other disciplines in the social sciences and humanities. Required of all graduate students.

**505./405. Classical Japan (3)**

Japan from prehistory to the fifteenth century. Connections to other Asian cultures, the influence of Buddhism, and development of Japanese esthetics exemplified in literature and art; dynamics of centralized vs. regional power; civil vs. military authority.

**509./409. Early Modern Japan (3)**

Japan from the mid-16th century to the end of the Tokugawa period in 1868; reunification, the growth of urban centers and transportation, economic growth; blossoming of political theory, and of popular culture.

**510. The Literature of History (3)**

Reading and discussion of major works and intensive study of bibliography and bibliographical aids. Includes a comparative history component. Traditional grading only. Course may be repeated to a maximum of 6 units.

- A. Ancient and Medieval
- B. Modern European
- C. Literature of the Modern Middle East (Southwest Asia)
- F. United States
- G. Asia

**531./431. The Middle East (Southwest Asia), 600-1700 (3)**

This course surveys the history of the Middle East (Southwest Asia) from 600-1700: from the rise of Islam to the eighteenth century, with an emphasis on the background and circumstances of the rise of Islam, the creation and development of the Islamic Empire, the rise of dynastic successor states and "gunpowder" empires, European encroachment, and integration of the Middle East into the emerging world system. The course will focus on cultural, intellectual, social, economic, and political development and will situate the history of the region within its global context.

**532./432. The Middle East (Southwest Asia), 1700-Present (3)**

This course surveys the history of the Middle East (Southwest Asia) from 1700 to the present. The course will focus on modernization and reform, problems and impact of modernity and imperialism in social, political, and economic spheres, state building, nationalism, and Islamic revivalism and will situate the history of the region within its global context.

**577A./477A. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institutions, themes of individualism, community, ethnic diversity and social reform.

**577B./477B. American Cultural History (3)**

Development of American way of life treated in terms of values, behavior and institution, themes of individualism, community, ethnic diversity and social reform.

**590. Topics in Comparative History (3)**

Prerequisite: Consent of instructor. Selected themes in history involving cross-cultural and comparative approaches. May be repeated for a maximum of six units.

**592./492. Proseminar in World History (3)**

Prerequisite: Consent of the instructor. Discussion and analysis of recently published historical works and materials from a world history perspective. May be repeated to a maximum of six units.

**595. Special Preparation (3)**

Prerequisite: Graduate standing. Special preparation for the M.A. examinations under faculty direction. May be repeated for a maximum of 6 units. Permission of Graduate Advisor required.

**611. Seminars in Ancient and Medieval History (3)**

Prerequisites: Six units of upper division ancient or medieval history or consent of instructor. Selected topics in ancient or medieval history. May be repeated for a maximum of six units.

**631. Seminars in European History (including Britain and Russia) (3)**

Prerequisite: Consent of instructor. Directed reading and research in the political, economic, social and cultural history of Europe. May be repeated for a maximum of six units.

**673. Seminars in United States History (3)**

Prerequisite: Six units of upper division United States history. Selected topics in domestic or international affairs from colonial times to the present. May be repeated for a maximum of six units.

**682. Seminars in East Asian History (3)**

Prerequisites: Six units of upper division Asian history or consent of instructor. Selected topics in East Asian history. May be repeated for a maximum of six units.

**695. Directed Readings (1-3)**

Prerequisites: Consent of instructor. Readings on an individual basis. May be repeated for a maximum of six units.

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor. Research on an individual basis.

**698. Thesis (1-4)**

Planning, preparation and completion of non-curricular work in history for the master's degree.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Department offers undergraduate and graduate study in Health Education, and an undergraduate option in Radiation Therapy. For program information, students should contact the department office for referral to one of the faculty advisors: Director of Undergraduate Studies, Director of Radiation Therapy, Director of Graduate Studies or Single Subject Credential Advisor.

All Health Science majors and minors are responsible for requirements specified in the *University Catalog*. Students should meet periodically with either the Director of Undergraduate Studies, the Director of Radiation Therapy, or the

Director of Graduate Studies. Faculty advisors will discuss and review the student's academic program, program requirements and monitor academic progress. Students also have responsibility for keeping track of unit totals required for graduation and insuring that these requirements are met.

## *Program in Health Education*

Health education programs help participants enhance health, prevent disease and disability, as well as help improve the well-being of people in organizations, schools, businesses, and communities. The program focuses on environmental influences, which include the cultural and societal context in which health behavior occurs; it also emphasizes processes for developing and changing individual attitudes and behaviors toward health.

The focus of health education is on planned change. Individuals are encouraged to take responsibility for their own health and to assume responsibility for the health of their families and communities.

As our society continues to change, health problems are re-defined. Future health advances will not only come from new technology, but also as the result of community, group, and individual actions. These factors will impact education, lifestyle, environment, and the organization and delivery of health services.

Brochures that describe each of the programs are available at the Health Science Department office.

Courses are designed to satisfy Health Science requirements for:

1. general education,
2. the baccalaureate degree major,
3. Single Subject Credential in Health Science,
4. Master of Science Degree with a Major in Health Science,
5. Master of Public Health Degree in Community Health Education.
6. Master of Science in Nursing/Master in Public Health

## Bachelor of Science in Health Science

The basic University requirements for graduation with a B.S. Degree in Health Science consist of:

1. completion of general education requirements,
2. completion of all courses identified on the Program Planner for the Option selected, with no grade lower than a "C" for each listed course or approved substitute,
3. completion of a minimum of 124 units, at least 40 units of which must be upper division. Upper division courses are numbered 300 to 499.

## Major Core Requirements

All Health Science majors must complete the required core. The core of the Health Science program contains five areas of competence: Statistics, Program Development, Professionalism, Health Services Organization and Health Promotion. All majors must complete at least one course from each competency area. Courses must be selected in consultation with an advisor.

## Requirements

Required Core: 15 units.

1. Statistics: H SC 403 or ED P 419
2. Program Development: H SC 430 or 460
3. Professionalism: H SC 301 or 451
4. Health Services Organization: H SC 401, 420I or 450
5. Health Promotion: H SC 435

## Option in Radiation Therapy

The Radiation Therapy Option is designed for those individuals who wish to pursue a professional preparation program leading to membership in the health care team using ionizing radiation in the treatment of malignant and some benign diseases. The Option is competency-based and integrates didactic courses and clinical experience to prepare entry level radiation therapists to become integral partners in the health care team and contributing members of the profession. On a daily basis, the registered radiation therapist is involved in:

1. Operating sophisticated radiotherapeutic equipment to deliver prescribed doses of ionizing radiation for treatment of malignant and some benign diseases.
2. Providing psychological and emotional support to patients who are dealing with the stress of their illness.
3. Providing patient education about their disease and all aspects of their treatment.
4. Observing patient's progress and recognizing medical problems that require a physician's attention.
5. Constructing devices to aid in treatment positioning, beam modification, and treatment planning.
6. Calculation of doses and use of treatment planning computers to determine dose distributions.

Successful completion of Option requirements allows the student eligibility to apply for licensure examinations at the state and national levels to practice as a registered radiation therapist.

This program is accredited by the Joint Review Committee on Education in Radiologic Technology (Joint Review Committee on Education in Radiologic Technology, 20 N Wacker Drive, Suite 900, Chicago, IL 60606-2901, phone: 312-704-5300) and the State of California, Department of Health Services, Radiologic Health Branch.

## Pre-Radiation Therapy (code 3-1210)

### *Preprofessional*

Because the Radiation Therapy Option is an impacted program, the student completes all of the prerequisite courses: BIOL 200, 207, 208, HSC 200, MATH 119A, PHYS 100A/B, MICR 101, IS 240, ENGL 102. Department core courses HSC 403 and 435 may be taken during the preprofessional component. Several Option prerequisite courses also fulfill GE requirements. In addition to course requirements, the student must complete the following prior to applying to the Option:

1. Complete a minimum 40 hour observation in a radiation therapy department.
2. Successfully complete the Writing Proficiency Exam and
3. Schedule an appointment for consultation with the Radiation Therapy Career Advisement Committee the semester before entry in to the professional preparation program.

## Option in Radiation Therapy (code 3-1212) (124 units)

### *Professional*

The professional component is designed so that students enter in the fall semester each year and in a step-wise manner complete the remaining general education, didactic and clinical courses. In order to complete the professional preparation component of the Option, students must fulfill the following requirements:

1. Obtain personal malpractice insurance if necessary
2. Maintain full-time student status during the professional program
3. Complete required summer session clinical and didactic courses
4. Complete university required general education courses
5. Complete all of the following courses in sequence with a grade of "C" or better: HSC 150, 320, 310, 451, 340, 315, 470A, 445A, 341, 330, 311, 403, 470B, 445B, 342, 415, 435, 316, 455, 465, 475, 475L, 480, 492A, 492B.

## Option in Community Health Education (code 3-1213) (124 units)

The Community Health Education option is designed for persons whose occupational objective is to serve as a community health educator with an official, voluntary, or corporate health agency.

Lower Division: BIOL 200, 205, and either CHEM 100 or 111A; MICR 101; an additional anatomy and physiology, BIOL or MICR course approved by department advisor; Spanish (3 units) or language approved by Department Advisor.

Upper Division: H SC 301, 400, 401, 402, 403, 405, 421, 430, 435, 440, 485; Three courses selected from the following: H SC 420I, 422, 423, 425I, 427, 429, 490, 499; one course selected from the following: FCS 132 or 430; one course selected from the following: PSY 351 or SOC 335I; one course selected from the following: SOC 320, 336, 462, 464; and one course selected from the following: COMM 334, 335.

## Option in School Health Education (code 3-1215) (124 units)

The School Health Option is designed for persons who desire to pursue a professional preparation program leading to qualification as a health education teacher in California middle/secondary schools.

A teaching credential requires the completion of School Health Option or a passing score on the SSAT, BS degree, GPA of 2.75 on the last 60 semester units and additional courses in the College of Education, Single Subject Teacher Education Program. EDSS 300D: Introduction to Teaching Health Science is the prerequisite to begin the Single Subject Credential sequence.

As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency by successful completion of ETEC 444 or by passing a California Commission on Teacher Credentialing-approved examination.

During 2002-2003 the course requirements for the School Health Option will change to reflect the new California Commis-

sion on Teacher Credentialing standards. See Single Subject advisor for an update.

Lower Division: BIOL 200, 205, or 342; CHEM 100 or 111A; BIOL 350 or approved anatomy/physiology, BIOL, or MICR course; MICR 101; PSY 100; Spanish (3 units) or language equivalent approved by department advisor.

Upper Division: H SC 301, 401, 403, 405, 421, 422, 423, 425I, 427, 430, 435, 440; FCS 132 or 430; PSY 351 or SOC 335I; COMM 335 or approved upper division COMM course; SOC 336.

### Option in Health Care (code 3-1216) (124 units)

The Option in Health Care is designed for those individuals who have received certification and/or license from an approved allied health/health care program and desire a Bachelor of Science degree. The focus of this option is the development of professional skills for people whose goal is: (a) providing service, or (b) instructing in the health care setting.

#### Admission Requirements

Once admitted to the University, students are required to complete the following prior to acceptance into the Health Care Option.

1. Obtain certification and/or license from an allied health/health care program from an institution that has been accredited by either a Committee on Post-secondary Accreditation (COPA) approved accreditation agency or the Committee on Allied Health Education and Accreditation (CAHEA). Those individuals who do not have appropriate certification will be counseled by the Department of Health Science regarding where to obtain an appropriate accredited program, and, when possible, concurrent enrollment may be utilized;
2. Earn a minimum GPA of 2.0.

Lower Division: Completion of general education requirements to include: ENGL 100; one of the following: ANTH 120, SOC 100 or PSY 100; and minimum of 12 units in Natural Sciences approved by department advisor equivalent to: BIOL 200, 205, and either CHEM 100 or 111A, MICR 101; an additional anatomy and physiology, BIOL or MICR course approved by faculty advisor.

Upper Division: (39 units): Required Core: 15 units (three units from each area); courses must be selected in consultation with an option advisor:

- A. Statistics: H SC 403 or ED P 419;
- B. Program Development: H SC 430, H CA 320, or H SC 455 and H SC 316;
- C. Professionalism: H SC 451 or HCA 340;
- D. Health Organization: H SC 401 or 420I;
- E. Health Promotion: H SC 435 or HCA 402;

Additional coursework: H SC 400 and one of the following: HDEV 320 or H SC 405; one of the following: ANTH 353, FCS 430, H SC 424, or SOC 462; one of the following: POSC 329, or ECON 300: an emphasis in either (a) Providing Services (12 units): HCA 410, 465; one of the following: ED P 434B, H SC 421 or H SC 492A/B and one of the following: ANTH 319, GERN 400I, GERN 482, or NRSB 482; or (b) Instructing in the Health Care Setting (12 units): HCA 410, HCA 465 and one of the following: H SC 492AB (3 units), ED P 432, or I/ST 491; and one of the following ED P 305, ED P 434B or H SC 421.

### Minor in Health Science (code 0-1211)

Twenty-four units as follows: H SC 301, 401, 430, 435, 440, and three courses from: H SC 400, 420I, 421, 422, 423, 425I, 427.

### Single Subject Credential in Health Science

The Single Subject Credential in School Health prepares one to teach health science in California middle/high schools. Requirements include: a) Bachelor of Science degree in Health Science (School Health Option) or a passing score on the SSAT in Health Science, b) GPA of 2.75 on the last 60 semester units c) Professional education courses beyond the B.S. which begin with EDSS 300D: Introduction to Teaching Health Science. See the Health Science Single Subject Credential Advisor.

As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency. Computer proficiency in the Health Science Credential Program can be demonstrated by successful completion of ETEC 444 or by passing a California Commission on Teacher Credentialing-approved examination. This requirement must be met prior to advancement to student teaching.

### Graduate Program in Health Education

Accredited by the Council on Education for Public Health (Council on Education for Public Health, 1015 Fifteenth Street, NW, Washington, DC 20005, phone: 202-789-1050).

In order to be admitted to the graduate program for study toward a degree, a prospective candidate must apply both to this department and the University. Contact the Director of Graduate Studies for current requirements.

### Master of Science in Health Science (code 6-1211)

The Master of Science program is designed to provide students with:

1. intensive study of health education concepts, theories, and processes;
2. introduction of public health concepts and issues;
3. research methodology appropriate to the in-depth examination a health topic.

The graduate student is also prepared for a leadership role in a school or community setting and for admission to doctoral programs at other colleges and universities. Admitted graduate students must contact the Director of Graduate Studies for advisement early in their first semester of enrollment in order to develop an approved program of study.

#### Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request a copy of official transcript(s) of all work be sent to the Graduate Director in the Health Science Department in addition to the transcripts required by the Office of Enrollment Services.
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to that required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses.

Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.

3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of approved graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of the analytic, quantitative and verbal scores from the Graduate Record Examination (GRE) and a copy of the CSU graduate application to the Department.
7. Three letters of recommendation from persons with whom the candidate has worked and who have direct knowledge of the applicant's qualifications and potential as a community health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant experience.

#### Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy:
  - A. pass the Writing Proficiency Exam;
  - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
  - C. complete H SC 500, 503, and 570;
2. Approval by the Director of Graduate Studies and the Associate Dean of Academic Programs of the College of Health and Human Services.

#### Requirements for Completion of the Master of Science Degree

1. A minimum of 43 units of approved upper division and graduate courses including:
  - A. 21 units of Health Science courses, which include HCA 502, H SC 500, 503, 570, 581, 696;
  - B. 18 units of electives in a specialty field;
  - C. 4 units of H SC 698;
2. A thesis with an oral exam.

#### Master of Public Health

##### Option in Community Health Education (code 7-1213)

The Master of Public Health in Community Health provides an opportunity for students to specialize in community health education and health promotion within the general context of Public Health, to increase competence in designing, imple-

menting, and evaluating behavior change programs in preparation for serving in various health agencies, prepare for teaching at college and university levels and for administrative positions in public and private health agencies.

#### Admission Requirements

Applicants must apply both to the Department and the University. Applications are available from the Department office.

1. Each applicant must request that a copy of official transcript(s) of all work be sent to the Director of Graduate Studies (in addition to the copies required by the Office of Enrollment Services).
2. A bachelor's degree with a major in health education, which articulates with the course requirements for the same degree at California State University, Long Beach; or a bachelor's degree in a related discipline with a minimum of 21 units of upper division course work comparable to those required of the Health Science major at the University; or a bachelor's degree in a related discipline and willingness to make up any deficiencies in prerequisite Health Science courses. Prerequisites for all courses carrying graduate credit must have been completed within seven years of taking the graduate courses. If any prerequisite is outdated, it may be repeated or credit obtained by (1) written examination on the subject matter or (2) providing documented evidence of currency in the subject area.
3. An overall undergraduate GPA of at least 3.0. Students with less than a 3.0 GPA on the last 60 units of undergraduate units attempted, but who show promise in all other aspects, may be given special consideration after petitioning for conditional admission into the program through the Director of Graduate Studies.
4. Acceptance by the University as a student with graduate standing.
5. A maximum of 9 units of graduate work at the post-baccalaureate level may be credited to a student's program requirements upon Departmental acceptance to the graduate program.
6. Submission of a copy of the CSU graduate application and quantitative and verbal scores from the Graduate Record Examination (GRE) to the Department.
7. Three letters of recommendation from persons with whom the applicant has worked who have direct knowledge of the applicant's professional and academic potential as a health educator.
8. A separate personal statement of reasons for pursuing this field of study and comments about interests and experience that are germane to career objectives. Submit a personal resume reflecting the applicant's education and relevant experience.
9. At least one year's full-time (or equivalent) paid or volunteer experience in Health Education or a closely related health role. Preference will be given to those with greater experience and ability.

#### Advancement to Candidacy

1. Satisfy the general university requirements for advancement to candidacy:
  - A. pass the Writing Proficiency Examination;
  - B. maintain at least a 3.0 average for all course work attempted as a graduate student;
  - C. complete H SC 500, 503, and 570;

2. Approval by the Director of Graduate Studies and Associate Dean for Academic Programs of the College of Health and Human Services.

### Requirements

1. A minimum of 42 units of approved upper division and graduate-level courses including:
  - A. core: HCA 502, H SC 500 -or- MICR 429, H SC 503 -or- BIOL 565 (4), 508, 528, 570, 581, 624, 625, 626, 696;
  - B. Electives at the 500/600 level;
  - C. H SC 585, a supervised internship experience (6 units)
2. A comprehensive written examination (see Department for guidelines).

### Master of Science in Nursing/Master of Public Health (code 7-1074)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus on primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to specialize in advanced practice public health nursing within the general context of the Masters of Public Health, to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies. The focal point in this curriculum is the Nursing Process, Epidemiological Process Model, and Population Based Theory complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of advanced practice public health nursing.

Each applicant should request a copy of official transcript of all college course work be sent to the Department Graduate Advisor of Nursing in addition to the copies required by the Office of Admissions and Records.

### Admission Requirements

1. Bachelors degree in nursing or currently enrolled in accelerated RN to Masters program. Those nurses with Baccalaureate degrees in health related fields may be conditionally admitted.
2. Current license to practice as a registered nurse in California.
3. Admission to graduate standing at the University.
4. An upper division or graduate course in biostatistics (HSC 403 or Ed. Stat 419) and an ethics course (HSC 451).
5. Public Health Nurse Certificate, or eligibility for certificate in California.

6. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.

7. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE).
8. Three letters of recommendation from persons with whom the applicant has worked and who has direct knowledge of the applicant's qualifications.
9. A separate personal statement of applicant's reasons for pursuing this field of study and comments about interests and experiences, which are germane to career objectives.
10. Current professional resume describing the applicant's relevant experience.

### Advancement to Candidacy

A joint committee, consisting of Nursing and Health Science faculty involved in the program, will review files and make determination to advance a candidate to graduate status.

### Student Criteria for Advancement

1. Satisfy the general University requirements for advancement to candidacy in Nursing and Health Science.
  - A. pass Writing Proficiency Examination
  - B. have at least a 3.0 grade point average for all course work attempted as a graduate student
2. Joint approval by the Department of Nursing and Health Science, and the Associate Dean for Academic Programs of the College of Health and Human Services.

### Requirements

1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR 429; HSC 503 or BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRSB 660B, 680A, 680B, 680C; NRSB 680AL, 680BL, 680CL or HSC 626 (in lieu of one 3 unit 680L); NURS 696 or HSC 696; NURS 695 or HSC 697 or NURS 698
2. An overall GPA of 3.0 or better in all courses
3. Comprehensive written examination or directed project or a thesis
4. Graduate degrees obtained previously will be accepted toward meeting the unit requirements of the concurrent MSN/MPH degree program
5. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met
6. Transfer units will not be accepted toward the concurrent MSN/MPH program.

### Courses (H SC)

#### Lower Division

#### 150. Medical Terminology (1)

Development of a medical vocabulary emphasizing the building of terms utilizing prefixes, combining forms and suffixes. Includes symptomatic, therapeutic, diagnostic and operative terms for application in the interpretation of medical records as needed in Radiation Therapy. (Lecture-discussion 1 hour.) Traditional grading only.

### 200. Orientation to Radiation Therapy (3)

Orientation to the Option in Radiation Therapy, professional organizations, career opportunities, department structure, patient management, record keeping, and professional ethics. An overview of the role of radiation therapy in the treatment of cancer and the Radiation Therapist in the field of Radiology. 40 hours of clinical field-work required. Traditional grading only.

### 210. Contemporary Health Problems (3)

Prerequisite: Completion of the 13 unit GE foundation requirements. Development of modern health knowledge, attitudes and behavior: includes family life-sex education, drug use and abuse, mental health, medical quackery and health frauds, common diseases such as sexually transmitted diseases, heart disease and cancer.

## Upper Division

### 301. Orientation to Health Science (3)

Overview of the philosophy of the Health Science Dept. Orientation to the degree requirements, career opportunities, and the theoretical and practical issues of health education as a profession. Must be taken prior to H SC 401 and 430.

### 310. Radiation Therapy Patient Care I (2)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. This course focuses on the role of the radiation therapist, communication, self care, basic patient care, patient assessments and examinations. Emphasis is on infection control, medical emergencies, care of patients with tubes, basic pharmacology and medication administration. Traditional grading only.

### 311. Radiation Therapy Patient Care II (2)

Prerequisites: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor, HSC 310. Continuing study of patient care in radiation therapy. This course focuses on the psychosocial aspects of cancer diagnosis, death and dying, patient education and intervention for treatment related sequelae. Includes an examination of local, state and national cancer resources. Traditional grading only.

### 315. Seminar in Radiation Therapy I (2)

Prerequisites: Concurrent enrollment in HSC 492A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to the clinical radiation therapy arena which includes: patient population and statistics, patient flow in the department, various components of a department, interdepartmental interactions and interactions with other departments, and the exploration and discussion of the various treatment modalities available. Traditional grading only. (Lecture discussion, 2 hrs)

### 316. Seminar in Radiation Therapy II (2)

Prerequisites: Concurrent enrollment in HSC 492B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Comprehensive analysis of case studies in the clinical setting. This will include a thorough review of a patient's history and treatment rationale. Traditional grading only. (Lecture discussion, 2 hours)

### 320. Radiologic Techniques and Imaging Modalities (3)

Prerequisites: Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Introduction to radiographic procedures, equipment, technique development, equipment maintenance as well as darkroom equipment, operation and film processing. An examination of the various modalities of radiologic diagnostic imaging. (Lecture-discussion 2 hrs, Lab 1 hr.) Traditional grading only.

### 330. Topographic Anatomy (2)

Prerequisites: BIOL 207, 208, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examination of external anatomic landmarks in relation to internal anatomy with emphasis on the effects of positioning on external landmarks, internal anatomic critical structures, and methods of avoiding or lowering radiation dose to these structures. Interpretation of port films and other diagnostic films is included. (Lecture-discussion 2 hr.) Traditional grading only.

### 340. Clinical Radiation Therapy (3)

Prerequisites: H SC 200, 320, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Rationale of radiation therapy treatments; construction of immobilization devices, contours, bolus, and positioning aids. Examination of simulation procedures, contrast media, film, treatment positioning, beam modifiers, patient monitoring, and radiotherapeutic machine operation. (Lec-discussion 2 hrs, Lab 2 hrs.) Traditional grading only.

### 341. Clinical Radiation Therapy II (1)

Prerequisites: HSC 340, concurrent enrollment in HSC 445A, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the skin, head and neck, lung, esophagus, breast, gastrointestinal, kidney and bladder. Traditional grading only. (Lecture discussion, 1 hour)

### 342. Clinical Radiation Therapy III (1)

Prerequisites: Concurrent enrollment in HSC 445B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of site specific techniques used in radiation therapy. Focus will be on techniques used to treat cancers of the reproductive system, central nervous system, eye, endocrine and major digestive glands, bone, soft tissues, blood, lymphatics and pediatric solid tumors. Traditional grading only. (Lecture discussion, 1 hour)

### 400./500. Principles of Epidemiology (3)

Prerequisites: H SC 301 and 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. (Lecture 3 hours)

### \*401. Community Health Education (3)

Prerequisite: H SC 301 and H SC 430. Concepts of community health education with emphasis on community organization; application of these concepts to health education activities of official, voluntary and professional health agencies.

### \*402. Applied Concepts of Community Health Education (3)

Prerequisites: H SC 301, 430, 435. Identification and application of concepts unique to community health education; includes examination of theoretical foundations, marketing and promotion techniques, and application of health education strategies.

### \*403. Community Health Statistics (3)

Prerequisites: G.E. math and SOC 250 or PSY 110 or equivalent. Representative topics are descriptive statistics, sample designs, central tendency, and variability. Statistical tools for inferential analyses include hypothesis testing, statistical power, and parameter estimation. An introduction to bivariate analyses is provided. (Lecture 2 hours, Laboratory 2 hours)

### 405. Health Education Program Evaluation and Measurement (3)

Prerequisite: H SC 403 or equivalent. Design, use of standardized measurements, data collection, analysis, and reporting are used to develop evaluation skills to facilitate program management. Impact of activities aimed at producing behavior change in communities, organizations, groups and individuals will be examined. (Discussion 3 hrs)

### 411A. Health Science for Elementary Teachers (3)

Prerequisite: Upper-division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in elementary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

### 411B. Health Science for Secondary Teachers (3)

Prerequisite: Upper division standing. Corequisite: Current CPR Certification required. Contemporary teaching of health education in secondary schools; emphasizes drug use and abuse, human sexuality, community and human ecology (meets state credential requirement for health education). Not open to Health Science majors or minors.

#### 415. Radiation Biology (2)

Prerequisites: BIOL 207, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. An examination of: the effects of radiation at the cellular, tissue and organ levels; the cell survival curve, Linear Energy Transfer, (LET), Radiobiological Effectiveness, (RBE), radiation sensitizers and protectors; the effects of whole body acute radiation as well as the developing embryo; the radiobiological basis for radiation therapy treatments and fractionation. (Lecture-discussion 2 hours) Traditional grading only.

#### 420I. International Health (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Analysis of current health problems in the world; examination of contributing social, psychological, physical, legal and cultural factors; international programs for the improvement of world health; structure and functions of world health agencies and organizations.

#### 421. Health Behavior (3)

A survey of contemporary research on the health effects of human behavior. Special emphasis is given to current issues of health behavior, decision-making in contemporary society, values clarification and contemporary theories of behavior change (e.g., health belief model).

#### 422. Environmental Health (3)

An examination of the reciprocal relationship existing between man and his environment, with the emphasis directed toward the health related consequences of man's actions in the environment.

#### 423. Consumer Health (3)

Effective selection of health information, products and services; medical quackery and fraudulent health practices; laws and agencies protecting the consumer; health care delivery systems; and influences of corporate control on the consumer movement in contemporary society.

#### 424./524. Alternate/Complementary Health (3)

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. (Lecture/demonstration/discussion 3 hours).

#### 425I. Human Sexuality and Sex Education (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Recommended: PSY 100. Biomedical, sociological, and psychological aspects of human sexuality, the communication of sexual information, the implementation, content and evaluation of family life and sex education in the schools.

#### 427. Drugs and Health (3)

Prerequisite: Upper division standing. Study of psychoactive drugs with primary attention to alcohol, nicotine, caffeine, cannabis, hallucinogens, narcotics and other drugs; examination of trends, philosophical issues and behavioral practices associated with drug use and dependence. Includes physiological psychosocial, legal, historical, philosophical and political aspects; treatment-rehabilitation activities and programs; and drug abuse prevention education. Not open to students with credit in H SC 327.

#### 429. Stress Reduction (3)

Recognition of stress and its causes. Physical and mental symptoms of stress. Influences which reduce or create stress; methods of coping.

#### \*430. School Health Program (3)

Prerequisite: H SC 301. Intensive analysis of the philosophy, organization and legal aspects of the school health program. Includes school and community coordination for a team approach to health education for the school age individual.

#### 435./535. Health Promotion and Risk Reduction (3)

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. (Discussion 3 hours)

#### \*440. Applied Concepts of Health Science (4)

Prerequisite: H SC 430. Identification and application of the concepts and modes of inquiry unique to the discipline of health science; development of appropriate curriculum based upon an analysis of individual, school and community needs and interests. (Lecture 3 hours; laboratory 3 hours) Traditional grading only.

#### 445A. Oncologic Pathology I (3)

Prerequisites: BIOL 207, 208, H SC 150, Admission to Radiation Therapy Professional Preparation or consent of instructor. Examination of oncologic pathology with emphasis on malignant neoplasia; specific attention is given to epidemiology, etiology, detection, diagnosis, staging, histopathology, metastatic pattern, treatment options and principles of radiation therapy treatments. Examines cancers of the head and neck, lung, breast, gastrointestinal tract, kidney, and bladder. (Lecture-discussion 3 hours) Traditional grading only.

#### 445B. Oncologic Pathology II (3)

Prerequisites: H SC 445A, Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Continuation of 445A with specific attention given to cancers of the reproductive system, central nervous system, eye, skin, endocrine and major digestive glands, bone, soft tissue, blood, lymphatic system and pediatric solid tumors. (Lecture-discussion 3 hours) Traditional grading only.

#### \*450. The Health Care Professional in the United States (3)

Identification of the role and function of the health care professional; legal aspects of health care delivery; factors influencing the quality of health care, problems from consumers' viewpoints; cultural influences; governmental involvement and current issues in health care; examination of health care in the United States.

#### \*451. Ethics Professionalism in Health Care (3)

Examination of professionalism and bioethics, and the process of making moral decisions; ethical issues; professional oaths and codes of ethics; health care ethics and the law.

#### 455. Quality Management in Radiation Therapy (1)

Prerequisites: HSC 470B, admission to the Radiation Therapy Option Professional Preparation or consent of instructor. A review of the principles of quality management with an emphasis on specific quality assurance tests in radiation therapy. Students will be given the opportunity to either perform or observe a demonstration of each quality assurance test. Traditional grading only.

#### \*460. Health Care Program Development (3)

Examination of the process of health care, program development, identification of contemporary health care philosophy, needs, legal aspects, objectives and community involvement as related to program development; process of conducting a needs assessment; factors affecting development; regionalization; grantsmanship.

#### 465. Radiation Therapy in the Health Care Industry (3)

Prerequisite: Admission to the Radiation Therapy Option Professional Preparation or consent of instructor. Examination of the health care market with emphasis on current radiation therapy trends in the health care environment. This class will focus on various radiation therapy operational and budgetary issues, hospital and governmental accreditation, types of insurance and reimbursements. Traditional grading only. (Lecture discussion, 3 hours)

#### 470A. Clinical Radiation Physics I (3)

Prerequisites: PHYS 100A,B; admission to Radiation Therapy Option Professional Preparation or consent of instructor. Nature and description of the structure of matter and energy; interactions of photons and gamma radiation; instrumentation and measurement of ionizing radiation, beam quality, and dose; percentage depth dose, tissue air ratios, treatment dose calculations. (Lecture-discussion 2 hours, Laboratory 2 hours) Traditional grading only.

#### 470B. Clinical Radiation Physics II (3)

Prerequisites: H SC 470A, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. A continuation of H SC 470A with emphasis on electron beam characteristics and use in radiation therapy, brachytherapy, radioactive sources, implantation methods and dosimetry. An overview of hyperthermia, particle radiation and radiation protection. (Lecture-discussion 2 hours, Laboratory 2 hours) Traditional grading only.

**475. Treatment Planning – Dosimetry (2)**

Prerequisites: H SC 470A,B, Concurrent enrollment in H SC 475L, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Examines the effects of treatment distance, field weighting, beam modifiers, irregular fields, tissue inhomogeneities and tissue compensation on dose. Dose calculations for external photon and electron beams. (Lecture-discussion 2 hours) Traditional grading only.

**475L. Treatment Planning – Dosimetry Laboratory (1)**

Prerequisites: Concurrent enrollment in H SC 475, Admission to Radiation Therapy Option Professional Preparation or consent of instructor. Practical experience with clinical situations in regards to calculation of treatment time/monitor units, gapping, irregular fields, rotational and arc treatments. Use of isodose curves for hand dose summations and treatment planning computer for complex field arrangements. (Laboratory 3 hours) Traditional grading only.

**480. Advanced Radiation Therapy (2)**

Prerequisites: Must be in final semester of Radiation Therapy Option Professional Preparation. Synthesis of previous didactic and clinical information; an in depth examination of current and future professional issues, technological advances and ethics; a look at professional preparation, organizations and continuing education. (Lecture-discussion 2 hours) Traditional grading only.

**\*485. Internship in Health Education (3)**

Prerequisites: H SC 401 and consent of instructor. Supervised observation and field experience in community health education as conducted by official, voluntary and professional health organizations.

**490. Independent Studies in Health Science (1-3)**

Prerequisite: Consent of instructor. Students will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated for a maximum of six units.

**492A. Internship in Health Care (1-7)**

Prerequisite: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Traditional grading only. Course may be repeated for a maximum of seven units.

**492B. Internship in Health Care (1-9)**

Prerequisites: Consent of instructor. Supervised observation and field experience in community health and medical facilities. Student responsible for successful completion of clinical objectives applicable to area of observation. Traditional grading only. Course may be repeated for a maximum of nine units.

**\*499. Special Studies (1-3)**

Group investigation of selected topics. Topics to be announced in the *Schedule of Classes*. May be repeated for credit to a maximum of 9 units with change of topic.

**Graduate Division****500./400. Principles of Epidemiology (3)**

Prerequisites: H SC 301 and H SC 403. Application of epidemiologic procedures to the understanding of the occurrence and control of infectious and chronic diseases, mental illness, environmental health hazards, accidents, and geriatric problems. (Lecture 3 hours.)

**503. Advanced Community Health Statistics (3)**

Prerequisite: H SC 403 or equivalent. Analysis and interpretation of quantitative health education/public health data. Topics include expanded discussion of parametric techniques (e.g., hypothesis testing, confidence interval estimation, power functions, small sample sizes). Other topics include multivariate analyses, non-parametric tests, regression analysis. Use of computers required. Traditional grading only. (Discussion, 3 hours)

**508. Administrative Relationships in Health Education Programs (3)**

Prerequisite: Undergraduate major in Health Science or related field. Introduction to administrative theory; investigation of admin-

istrative responsibilities and functions implicit in school health or other health education programs.

**516. Health Promotion in Organizational Settings (3)**

Prerequisite: H SC 570. Exploration of health promotion programs in worksite settings, health services, business and industry. Assessment of the organizational climate for health promotion and principles for maintaining program viability and vitality. Strategies for developing and conducting health promotion programs in these settings. Traditional grading only. (Discussion, 3 hours)

**524./424. Alternate/Complementary Health (3)**

Prerequisites: Upper division standing. This course presents the philosophical, historical, clinical and scholarly aspects of complementary/alternative health (CAH) to promote health, prevent disease and treat illness. Emphasis will be placed on the efficacy of CAH in the U.S. A minimum of twelve modalities will be analyzed. (Lecture/demonstration/discussion 3 hours).

**528. Advanced Environmental Health (3)**

Prerequisite: H SC 422 or consent of instructor. Organization and methods for promoting human health by controlling environmental factors.

**535./435. Health Promotion and Risk Reduction (3)**

Prerequisites: H SC 421 or consent of instructor. Health promotion/risk reduction program content, development and implementation for use in corporate, hospital and public settings. Intended primarily for Health Science majors. (Discussion 3 hours)

**570. Theoretical Concepts and Issues in Health Science (3)**

Identification and analysis of current trends, philosophies and issues in health science.

**581. Curriculum Development in Health Education (3)**

Prerequisites: H SC 430, 440. Principles of curriculum development; selection and evaluation of resource materials; theory and practice in measurement in health education.

**585. Health Education Internship (1-6)**

Prerequisite: Consent of the instructor. Extended applied experience under guidance of faculty and preceptors in an approved health education practice setting. Traditional grading only. (480 hours of field placement or the equivalent experience.)

**590. Independent Study (1-3)**

Independent research conducted under the supervision of a full-time faculty member resulting in a written report of the investigation. Traditional grading only. Repeatable to a maximum of 6 units with different topics.

**624. Seminar in Community Analysis and Program Planning (3)**

Prerequisites: H SC 625 or consent of instructor. Process and techniques of community analysis and program planning.

**625. Advanced Community Health Education (3)**

Prerequisites: H SC 401 and 485; or consent of instructor. Advanced study of educational and related theory applicable to the conduct of health education programs in community and other settings. Methods of promoting change; role as program and staff director and evaluation techniques.

**626. Integrative Seminar in Public Health (3)**

Prerequisites: H SC 570, advancement to candidacy. Summative critical analysis of current methodologies, research, and practices in public health and health education in particular. Synthesis of coursework, internship, and other relevant experiences in the graduate program. Traditional grading only.

**696. Research Methods (3)**

Prerequisites: Undergraduate major in Health Science or related field; undergraduate course in statistics. Introduction to research methodology in the area of Health Science.

**697. Directed Studies (1-3)**

Prerequisite: Advancement to candidacy. Independent investigation of research problems in health education.

**698. Thesis (1-3)**

Prerequisites: H SC 696, advancement to candidacy. Planning, preparation and completion of an approved thesis.

For all degree requirements see Business Administration.

## Courses (I S)

### 233. Introduction to Computer Systems and Applications (3)

An introduction to the use of the Internet and e-mail, Windows, word processing, spreadsheet, and database applications; basic computer literacy. Credit/No Credit grading only.

### 240. Management Information Systems (3)

An introductory course in management information systems (MIS). MIS concepts and overview of computer technology. Development of information systems and its use in organizations. "Hands-on" experience with PC-based operating systems, Word processing, Spreadsheet, and Database management software packages.

### 300. Management Information Systems (3)

Prerequisites: Computer Proficiency Examination or I S 240 or I S 233 or equivalent. Information systems concepts and components, contemporary organizational applications, development and management of information systems, and future trends in information systems and technologies. Computer-based team projects requiring the integration and application of conceptual and skills-oriented information systems knowledge in a business environment. Traditional grading only.

### 301. Business Communications (3)

Analysis of the principles of collecting, organizing, analyzing, and presenting business information. Written and oral communications involving problem solving in the business management process. Traditional grading only.

### 308. Knowledge Management (3)

Prerequisites: Completion of GE Foundation requirements. A broad introduction to the concepts, methods and practices of knowledge management. Information systems and management concepts are used to create workplace environments that encourage learning, innovation and positive change. Hands-on project requiring teamwork and community service. Traditional grading only.

### 310. Business Statistics (3)

Prerequisites: MATH 114, and 115. Application of statistics to business problems. Topics include data collection and organization, probability theory, measures of central tendency and dispersion, hypothesis testing and estimation, simple regression, and correlation. Use of statistical software. Traditional grading only.

### 320. Quantitative Analysis for Business Decisions (3)

Prerequisite: IS 310. Application of quantitative analysis and computer software for solving business problems. Topics include linear programming, integer programming, PERT and CPM, inventory control, queuing models, quality control, number basis, transportation and assignment models, and simulation. Use of computer software. Traditional grading only.

### 340. Business Application Programming (3)

Prerequisites: I S 300 or I S 240. Visual programming systems. Object-oriented programming (OOP). Simple concepts to advanced topics, including labels, buttons and text boxes, menus, dialog boxes and multiple forms, arrays, and drag-and-drop functions. Traditional grading only.

### 343. Business Programming (3)

Prerequisites: I S 300 or I S 240. This course introduces students to business computer programming. The C++ programming language will be used to familiarize the student with proper programming style and practice. Traditional grading only.

**355. Introduction to Business Telecommunications (3)**

Prerequisites: I S 300 or I S 240. Introduction to concepts and technology of telecommunications and networking in business and organizations. Basics of voice, data, image, and video transmission; fundamental of networking; use of Internet technology; telecommunication regulation and standards. Traditional grading only.

**380. Database I (3)**

Prerequisites: I S 300 or I S 240. Introduction to database requirements analysis and specification. SQL query formulation. Database implementation using relational database management system software, such as Oracle. Design of computerized business forms and reports. Traditional grading only.

**385. Systems Analysis and Design (3)**

Prerequisites: I S 300 or I S 240. Broad introduction to the concepts, methods, current and emerging practices of systems analysis and design. Topics include development process models, requirements analysis and system modeling, conceptual and physical design, systems implementation and maintenance, project management and teamwork, and the roles and responsibilities of systems analysts. Traditional grading only.

**445. Internet Applications in Business (3)**

Prerequisites: IS 343. Design, management, and applications of Internet-based electronic business transaction systems. Special emphasis on Web home page design. Internet applications in functional areas including accounting, finance, marketing, and management. Intranet and groupware. Lecture, hands-on, software project, and case studies. Traditional grading only.

**446. Web Development and User Interface Design (3)**

Prerequisites: I S 343. Theory and applications of Web page and user interface design using development tools such as Adobe Photoshop/Illustrator and FRONT PAGE HTML editor. Other issues such as Internet business opportunities, network security, home page maintenance, and cooperative computing will also be covered. Traditional grading only.

**455. Local Area Networks (3)**

Prerequisites: IS 355. Technology and system development of local area networks. Network requirement analysis, design, implementation, and operation from user and network administrator perspectives. Network server management, wide area network and Internet connectivity, and network security and control. Traditional grading only.

**456. Internetworking and Systems Integration (3)**

Prerequisites: IS 355. Technology, application, operating system, infrastructure, and systems integration in internetworking and enterprise networking. Topics include interoperability, mobile system, multimedia, distributed and collaborative system, network management, fault tolerance, security and middleware, etc. Case studies and hands-on are employed. Traditional grading only.

**464./564. Network Modeling and Simulation (3)**

Prerequisites: IS 310 and 355. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include; basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Traditional grading only.

**470. Decision Support Systems (3)**

Prerequisites: IS 310, 380. Use of information systems technologies to support decision making by managers. Emphasis is given to individual and group decision support systems, expert systems, and executive information systems.

**480. Advanced Database Concepts (3)**

Prerequisite: IS 380. Advanced approaches such as object oriented, data warehousing, and client/server methods to database applications and development. Use of entity-relationship analysis to identify objects. Development of relational database systems for a business. Application software development project using cutting-edge database technology. Traditional grading only.

**483. Business Applications Using Java (3)**

Prerequisites: I S 300 or I S 240. This course is designed to deal with opportunities and challenges in developing the information superhighway. The features, tools and languages of the Web will be learned and its services assessed. The course will discuss how an organization develops new functions, new ways of reaching customers, and their impacts to the society. The focus will include: 1) getting students familiar with the tools and technologies underpinning networking; and 2) identifying and evaluating opportunities emerging in electronic business. Traditional grading only.

**484. Electronic Commerce (3)**

Prerequisites: I S 300 or I S 240. Although in its early infancy, Electronic Commerce is widely expected to bring comprehensive changes to life style and business transactions in the forthcoming decade with continuing technological breakthroughs. This course is to introduce some emerging concepts and practices in the field of on-line commerce via the Internet, which are shaping both consumer behaviors and business systems. Traditional grading only.

**485. Information Systems Project (3)**

Prerequisite: IS 380. A comprehensive systems project of moderate complexity for a client-server environment using a team approach for requirements analysis, system design, and prototype creation. Project planning and management techniques. Traditional grading only.

**495. Selected Topics (1-3)**

Prerequisites: Consent of instructor and GPA of 3.0 or higher in major. Topics of current interest in the field as announced in the *Schedule of Classes*. In the absence of significant duplication, may be repeated for a maximum of six units.

**\*497. Directed Studies (1-3)**

Prerequisites: Consent of instructor and Department Chair; student must be on Dean's List and have a GPA of 3.0 or higher in Management Information Systems. Individual projects, research, or study in the option.

**550. Business Telecommunications Management (3)**

Prerequisite: IS 602 or equivalent. Introduction to the technologies and applications of telecommunications and networking. Infrastructure planning and operation of organizational telecommunication networks. Management and control of Internet servers and mobile systems. Telecommunication regulation and standards. Traditional grading only.

**560. Operations Research: Deterministic Models (3)**

Prerequisites: Graduate standing, MATH 114 and 119B or 123, or consent of instructor. Theory and applications of operations research as an aid to management decision making. Emphasis on the application of deterministic models such as network analysis, linear programming, PERT/CPM, duality, sensitivity analysis and parametric programming.

**563. Operations Research: Probabilistic Models (3)**

Prerequisites: Graduate standing, or consent of instructor. Theory and application of operations research as an aid to management decision making. Emphasis is on the application of probabilistic models such as inventory, queuing theory, dynamic programming, Markov chains, and simulation.

**564./464. Network Modeling and Simulation (3)**

Prerequisites: IS 601 and 550. Fundamentals of simulation methodology and its use in performance measurement and feasibility study of business models of real systems. Topics include basic probability distributions, random number generation, model formulation, evaluating results, validations, waiting-line simulation, network fundamental, and computer network performance measurement via simulation, and use of computer software simulation packages. Traditional grading only.

**580. Management Support Systems and Database Management Systems (3)**

Prerequisite: IS 602 or equivalent. Management Support Systems (MSS) with special emphasis on database management techniques. Use of information and database techniques to support management decision making. Topics include individual and

group decision support systems, groupware, expert systems, executive information systems, database management systems (DBMS), database analysis and design, database manipulation languages (SQL and QBE), and data warehousing. Hands-on projects on both MSS and DBMS. Traditional grading only.

**584. Electronic Commerce (3)**

Prerequisite: IS 602 or equivalent. A comprehensive managerial-oriented examination of the development of various electronic commerce applications on the internet. Major applications include advertisement and marketing, customer service, stocks and commodities, trading, market and product research and standard business-to-business transactions. EDI implementation issues such as security and payment methods. Traditional grading only.

**601. Quantitative Methods for Managerial Decision Making (3)**

Prerequisite: MBA standing required. Statistical analysis includes probability, estimation, hypothesis testing, forecasting and decision process. Management sciences include quantitative modeling, math programming, decision support systems and simulation applicable to various business functions. Computer software packages will be used as analytical tools. Course may be repeated to a maximum of 3 units. Traditional grading only. Not open to students with credit in I S 501.

**602. Management Information Systems (3)**

Prerequisite: MBA standing required. This course covers topics of management information systems including: foundation and infrastructure of information technology applied to strengthen competitiveness; effective utilization of strategic information systems, telecommunications, system development process, database concepts, electronic commerce, etc. to enhance organizations' operations. Traditional grading only. Not open to students with credit in IS 502.

**685. Internet/Intranet Application Development (3)**

Prerequisites: IS 602 or equivalent and permission of the instructor. Theory and applications of the Internet. Applications development using tools such as HTML and FrontPage. Use and development of Intranet applications in the Client/Server environment. Issues such as Internet business opportunities, network security, home page maintenance, Internet database interface and cooperative computing. Traditional grading only.

**695. Selected Topics (3)**

Prerequisites: Graduate standing and consent of instructor. Topics to be announced in the *Schedule of Classes*.

**697. Directed Studies (1-3)**

Prerequisites: Graduate standing and consent of instructor. Individual study under the direction of the faculty.

# INTERDISCIPLINARY STUDIES

## *University Academic Programs*

Acting Dean, Undergraduate Studies

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

University Academic Programs is the administrative designation for a group of University-wide academic programs that are interdisciplinary in nature. The Associate Vice Presidents function as Deans for these programs.

The Interdisciplinary Studies Program offers students the opportunity to develop individualized cross disciplinary majors utilizing courses from appropriate departments at California State University Long Beach. Each student, with the help of a faculty advisor, must select courses and focus his/her major on the basis of a unifying issue, theme or topic called an area of concentration. The area of concentration must meet three criteria to be acceptable:

- first, the area of concentration must be interdisciplinary. This means the area of concentration must integrate and focus approaches and knowledge from at least two fields or disciplines. The principle of integration can be historical, regional, thematic or problem-focused.
- second, the area of concentration must not replicate any existing major. The purpose of the Interdisciplinary Studies (undergraduate) or Interdisciplinary Studies major (graduate) is to link students with clusters of courses and faculty where no structure or formal program exists.
- third, the area of concentration must be feasible. Each student's proposed program must be discussed with a faculty advisor to ensure that the range and number of courses required will be available.

The student's role in the selection of the area of concentration is active not passive. The student must actively plan his/her program and cultivate relationships with assigned or chosen faculty. Furthermore, the student has the greater initial responsibility in shaping his/her program.

### **Bachelor of Arts in Interdisciplinary Studies (code 2-0405) (120 units)**

The Interdisciplinary Studies for the Bachelor of Arts degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). Interdisciplinary Studies adhere strictly to the University's mission statement and consist of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs or to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an Interdisciplinary Studies Program when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements;
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval.
3. The GPA in the current major is 3.0 or better. Exceptions to this rule will be made on a case-by-case basis.

An Interdisciplinary Studies Program must be justified by legitimate career, academic, and/or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Studies Program majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, and on the ability of the University to support the proposed program. Goals should be carefully reviewed before proceeding with an Interdisciplinary Studies Program major.

### Procedures

1. To prepare for the initial interview:
  - A. Check our Website: [www.csulb.edu/programs/isp](http://www.csulb.edu/programs/isp) to discern if you might qualify for an Interdisciplinary Studies Program of study.
  - B. Make an appointment with the Interdisciplinary Studies Director to discuss eligibility for the program.
  - C. Prepare a written proposal, eight pages in length, identifying your educational goals and objectives, your career goals and objectives; explaining why these cannot be met through an existing major; and listing the courses at CSULB appropriate to your goals.
2. Present your written statement for initial review to the Interdisciplinary Studies Director from whom guidelines, recommendations, and forms necessary for the following steps may be obtained if the proposal is determined to be promising.
3. Seek out a faculty advisor from each discipline in which substantive course work will be undertaken. These faculty must have the expertise appropriate to the interdisciplinary study you propose, must find merit in your proposal, must agree to meet together with you and all other faculty advisors to develop a program of study, and must agree to continue to act as your program advisors.
4. Arrange a meeting of the faculty advisors for the purpose of developing the list of specific courses that will constitute the special studies degree program. Any modification of this program after it has been officially approved by the Interdisciplinary Studies Director requires the concurrence of all faculty advisors and must be the result of consultation with them, usually at an advisory meeting. Faculty advisors sign the official Interdisciplinary Studies Program form and any subsequent Program Addendum forms.
5. Submit the Interdisciplinary Studies Program, signed by the faculty advisors, to the departmental chairs of every department in which course work is projected. Their signatures on your program form indicate they have reviewed its contents, approved the proposed program, and are granting you the same priority status for enrollment in courses in their departments as that accorded departmental majors.

6. Return your program with all signatures to the Interdisciplinary Studies Director, along with your typed interdisciplinary studies proposal and transcripts from all schools attended, including a current set of transcripts from CSULB. Completed programs must be approved by the Interdisciplinary Studies Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your interdisciplinary studies program, you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major.

### Requirements

1. An interdisciplinary studies major consists of a maximum of four lower-division courses (100-200) and a minimum of 28 units of upper-division courses (300-400) totalling a minimum of 40 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A proposal must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (I) taken to satisfy General Education requirements may be double-counted to meet interdisciplinary studies unit requirements, if the program consists of more than 40 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students must maintain a 3.0 or better GPA in their program course work in order to remain in the major.
6. Each Program course and prerequisite course must be completed with a grade of "C" or better.

### Bachelor of Science in Interdisciplinary Studies (code 3-0405) (124 units)

The Interdisciplinary Studies major for the bachelor of science degree allows selected students to engage in an individualized baccalaureate program when legitimate academic and/or professional goals cannot be accommodated by existing academic programs or combinations of such programs (i.e., majors, minors, certificates). The Interdisciplinary Studies Program major adheres strictly to the University's mission statement and consists of a closely correlated program of study in two or more departments developed in conference with faculty members from the respective departments who have the academic and professional expertise necessary to support the individualized course of study.

The Interdisciplinary Studies Program major is not a means of bypassing normal graduation requirements nor a means by which students may seek to graduate who have failed to gain admission to impacted programs or to complete a degree major in which they are currently enrolled. Consequently, a candidate must apply for approval of an Interdisciplinary Studies Program major when:

1. At least one full year of academic work (30 units) remains to be completed to meet minimum graduation requirements.
2. At least 2/3 of the upper-division (300-400) units in the proposed course of study remain to be completed at the time the application is submitted for approval.
3. The GPA in the current major is 3.0 or better. Exceptions to this rule will be made on a case-by-case basis.

The Interdisciplinary Studies program of study must be justified by legitimate career, academic, and /or professional goals commensurate with the broader mission of the University in baccalaureate education. Interdisciplinary Study majors are considered on a case-by-case basis. Approval is determined on the basis of the academic merit of the proposed course of study, the proposal rationale, the applicant's potential for successful completion of the program, and on the ability of the University to support the proposed program. Goals should be carefully reviewed before proceeding with an Interdisciplinary Studies major.

### Procedures

1. To prepare for the initial interview:
  - A. Check our Website: [www.csulb.edu/programs/isp](http://www.csulb.edu/programs/isp) to discern if you might qualify for an Interdisciplinary Studies Program of study.
  - B. Make an appointment with the Interdisciplinary Studies Director to discuss eligibility for the program.
  - C. Prepare a written proposal, eight pages in length, identifying your educational goals and objectives, your career goals and objectives; explaining why these cannot be met through an existing major; and listing the courses at CSULB appropriate to your goals.
2. Present your written statement for initial review to the Interdisciplinary Studies Director from whom guidelines, recommendations, and forms necessary for the following steps may be obtained if the proposal is determined to be promising.
3. Seek out a faculty advisor from each discipline in which substantive course work will be undertaken. These faculty must have the expertise appropriate to the Interdisciplinary Study you propose, must find merit in your proposal, must agree to meet with you and all other faculty adviser to develop a program of study, and must agree to continue to act as your program advisors.
4. Arrange a meeting of the faculty advisors for the purpose of developing the list of specific courses that will constitute the Interdisciplinary Studies degree program. Any modification of this program after it has been officially approved by the Interdisciplinary Studies Director requires the concurrence of all faculty advisors and must be the result of consultation with them, usually at an advisory meeting. Faculty advisors sign the official Interdisciplinary Studies Major Program form and any subsequent Program Addendum forms.
5. Submit the Interdisciplinary Studies Major Program, signed by the faculty advisors, to the departmental chairs of every department in which course work is projected. Their signatures on your program form indicate they have reviewed its contents, approved the proposed program, and are granting you the same priority status for enrollment in courses in their departments as that accorded departmental majors.
6. Return your program with all signatures to the Interdisciplinary Studies Director along with your typed Interdisciplinary Studies proposal and transcripts from all schools attended, including a current set of transcripts from CSULB. Completed programs must be approved by the Interdisciplinary Studies Program Director and will be filed in the Interdisciplinary Studies Office and the Records Office. Be advised that pending final approval of your Interdisciplinary Studies Program you should proceed with the course work for your previously declared major or with General Education and elective courses. You should delay taking courses that will count only toward the fulfillment of your Interdisciplinary Studies Program until the semester following formal admission into the major.

### Requirements

1. An Interdisciplinary Studies Program consists of a maximum of four lower-division courses (100-200) and a minimum of 36 units of upper-division courses (300-400) totalling a minimum of 48 units in the program.
2. An Interdisciplinary Studies Program is based on a thematically cohesive core of classes involving significant work in two or more disciplines. A rationale must accompany the program and be signed by the faculty advisors when the program is submitted to the Interdisciplinary Studies Program Director for approval.
3. Interdisciplinary courses (I) taken to satisfy General Education requirements may be double-counted to meet Interdisciplinary Studies Program unit requirements, if the program consists of more than 48 units of credit.
4. The maximum amount of course work that may be taken in one department is 60% of the total course work designated for the program.
5. Students must maintain a 3.0 or better GPA in their program course work in order to remain in the major.
6. Each Program course and prerequisite course must be completed with a grade of "C" or better.

### Master of Arts (code 5-0405) and Master of Science (code 6-0405) in Interdisciplinary Studies

The Master of Arts or Master of Science degree in Interdisciplinary Studies permits students to earn an interdisciplinary master's degree when their special needs or interests cannot substantially be met by any existing CSULB graduate degree program. The Interdisciplinary Studies master's degree is not a degree divided between or among disciplines, but is a cohesive program of study which integrates the methodologies, perspectives, and content of two or more disciplines. A master's degree in Interdisciplinary Studies must be justified by legitimate academic goals.

Acceptance of an applicant to an interdisciplinary studies master's program is based on the academic merit and rationale of the proposed course of study, the applicant's potential for successful completion of a master's program, and the ability of the University to support the proposed study with faculty, curricula, and facilities. Candidates should carefully assess goals before proceeding with this degree. The degree program is administered by the Dean of Graduate Studies through the office of the Interdisciplinary Studies Director, Library East 14.

## Prerequisites

1. A bachelor's degree from an accredited college or university.
2. Submission of GRE scores.
3. An interdisciplinary master's program requires demonstration of potential for success in each of the disciplines relevant to the proposed degree work.

An individual's graduate advisory committee determines the appropriate prerequisite courses for each program; these are listed on the Prerequisite Sheet that accompanies the Application for a Master's Degree in Interdisciplinary Studies.

4. A 3.3 GPA (on a 4-point system) in the last 60 units of work completed at an accredited college or university and a 3.0 GPA in all prerequisite course work listed on the Prerequisite Sheet (see item 2 above).
5. No more than 9 units of program course work completed at the time the program and attendant application materials are submitted to the Interdisciplinary Studies Director for approval.
6. Must maintain a 3.3 or better GPA in their program course work in order to remain in the major.

## Acceptance to the Program

Those students who meet all program and University prerequisites for graduate study and whose Interdisciplinary Studies master's programs have been approved by the Interdisciplinary Studies Director will be admitted as Classified graduate students in the Interdisciplinary Studies program. Students who have not met all program and University prerequisites but who demonstrate potential for their immediate and successful completion may be accepted as conditionally classified graduate students in the Interdisciplinary Studies Program. Conditionally classified graduate students will be closely monitored and those making no progress toward completion of prerequisites will be declassified.

## Procedures

1. Check our Website: [www.csulb.edu/programs/isp](http://www.csulb.edu/programs/isp) to discern if you might qualify for an Interdisciplinary Studies Program of study.
2. Make an appointment for a preliminary interview with the Director. For this interview, prepare a written proposal eight pages in length:
  - A. Identifying by title the interdisciplinary program of study in which you wish to engage (i.e., Interdisciplinary Studies Master's Degree in (30-space limit) and description;
  - B. Explaining why this course of study cannot be pursued within one department with electives from other departments;
  - C. Explaining how this program relates to your educational and career goals;
  - D. Indicating your background, both academic and experiential, for undertaking this study; and
  - E. Listing the CSULB courses appropriate to your goals.
3. Make an appointment to meet with the Interdisciplinary Studies Director in LIB-E 141. Bring your proposal for review and approval. If the proposal is found promising and University facilities can support the proposed program of

study, the Interdisciplinary Studies Director will provide you with the forms and guidelines necessary to proceed with application to the program as outlined in item 4 below.

3. To complete your application for acceptance to an Interdisciplinary Studies Master's program:

A. Secure the agreement of faculty in the disciplines related to your proposed special program to serve as members of your Interdisciplinary Studies Graduate Committee. This committee must consist of no less than three tenured/tenure-track, full-time faculty members at CSULB. The chair of the committee must be a member of a department approved to grant a graduate degree;

B. Convene a meeting of your Interdisciplinary Studies Graduate Committee. At this meeting your committee will: review your documents (i.e., transcripts from all institutions attended, your Statement of Purpose, etc.); identify the appropriate preparatory course work, completed or to be completed (see item 2, under Prerequisites above) to list on the Prerequisite Check Sheet for the Master's Degree in Interdisciplinary Studies; apprise you of any unique guidelines or requirements of the degree-issuing department; and develop with you the academically sound program of graduate study related to your Statement of Purpose and to be identified on the Student Program for the Master's Degree in Interdisciplinary Studies;

C. Secure signatures on your Student Program for the Master's Degree in Interdisciplinary Studies from the following: your Interdisciplinary Studies Graduate Committee; the graduate advisors or chairs of the departments of the members of your Committee; the Dean or designee (i.e., the Director of Graduate Studies or the Associate Dean) of the committee chair's College;

D. Submit the proposal, the Prerequisite Check Sheet for the Master's Degree in Interdisciplinary Studies, the Student Program for the Master's Degree in Interdisciplinary Studies, the thesis proposal form, notice of meeting and copies of transcripts from all institutions attended, including a current transcript from CSULB, to the Interdisciplinary Studies Director. These materials constitute the Application for a Master's Degree in Interdisciplinary Studies. These materials are reviewed by the Interdisciplinary Studies Director whose signature on the Student Program for the Master's Degree in Interdisciplinary Studies signals acceptance of an applicant to the program in either a Classified or Conditionally Classified capacity. Subsequent modification of an approved Student Program requires approval of the Interdisciplinary Studies Graduate Committee and the Interdisciplinary Studies Director, on an official Change of Program form to be obtained from the Interdisciplinary Studies Director.

## Advancement to Candidacy

Advancement to candidacy comes with the approval by the Dean of Graduate Studies of the Student Program for the Master's Degree in Interdisciplinary Studies. Graduate students are apprised of their advancement or failure to be advanced by the Dean of Graduate Studies. Any modifications to the Student Program after advancement to candidacy requires the approval of the Interdisciplinary Studies Graduate Committee, the Interdisciplinary Studies Director, and the Dean of Graduate Studies on an official Addendum to Program form to be obtained from the Interdisciplinary Studies Director.

In addition to university requirements, the student must have completed all program courses with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should make an appointment with the Interdisciplinary Studies Director for Advancement upon completion of at least six units of 500 or 600 level courses.

The Interdisciplinary Studies Director will submit an Interdisciplinary Studies graduate student's program for advancement to candidacy when the following conditions apply:

1. Classified status (i.e., prior acceptance to the Interdisciplinary Studies Program);
2. Successful completion of the University Writing Proficiency Exam (WPE);
3. Satisfactory completion of all prerequisite course work with a minimum 3.0 GPA (see item 3 in Prerequisites above) as well as any additional prerequisites (i.e., departmental qualifying exams);
4. Completion of a minimum of six units of graduate-level (500-600) program work with a 3.0 GPA;
5. Approval by the Interdisciplinary Studies Director of the completed Application for Thesis and Committee Form for thesis option programs;
6. Resolution of all incomplete grades (I) on the record;
7. A cumulative 3.0 GPA in all completed program work;
8. Current enrollment in University course work.

#### Requirements for the Master of Arts Degree

1. A minimum of 60% of the units required for the degree shall be in the 500 and 600 level series. The number of units required for the degree shall be the number of units approved on the individual student's program (minimum 30 units).
  - A. No fewer than 18 units shall be at the 500-600 level. These must be done in residence at CSULB. Extension 500-600 level courses are not acceptable on the Interdisciplinary Studies graduate program;
  - B. No more than 60% of total course work may be taken in any one department;
  - C. Where appropriate, a research methodology course taken in the area of focus must be included in the graduate Student Program;
  - D. No less than 15 units shall be completed within a primary department. The primary department is normally the degree-issuing department;
  - E. No more than six units in any one or combination of:
    - (1) Approved CSULB extension (no extension class credit earned at another institution may be used to satisfy degree requirements nor may extension credit be used to offset a grade-point deficiency in the graduate program);
    - (2) Transfer credit (transfer credit units may not be used to fulfill the requirement for 18 units at the 500-600-level);
  - F. No more than three units of independent study in addition to Thesis on a minimum 30-unit program. Exceptions to this regulation are as follows:
    - (1) Up to six units of independent study in addition to Thesis may be permitted in a minimum 30-unit program when the projected studies are not to be taken in the

same department and when the focus of each projected independent study is clearly distinct from the other (as evidenced on the Independent Study Agreement); forms should be submitted with all other materials constituting the Application for a Master's Degree in Interdisciplinary Studies (see item 3, under Acceptance Procedures above), and when each independent study is justified by the student's graduate committee as programmatically essential;

(2) In excess of six units of independent study in addition to Thesis may be permitted only in cases when an Interdisciplinary Studies graduate program exceeds the minimum 30 units; when the focus of each projected study is clearly distinct from any others (as evidenced on the Independent Study Forms as identified in 1.d.1 above); and when each study is justified by the student's graduate committee as programmatically essential. Programs with more than six units of independent study will be referred to the Interdisciplinary Studies Advisory Board for final approval.

2. Successful completion of a Thesis or Comprehensive Exam. The selection of the Thesis or Comprehensive option will be made by the Interdisciplinary Studies Graduate Committee in consultation with the student at the time the program is developed (see item 3 under Acceptance Procedures above). Students electing to write a thesis must enroll for thesis credit in the department of the Graduate Committee Chair;
3. All requirements of the degree program must be completed within seven years of the date when the program was initiated (i.e., no course on the program at the time of graduation may be more than seven years old);
4. A favorable vote of the faculty of the primary department, the Thesis or Comprehensive Chair, and the Graduate Advisors in the departments represented on the student's Interdisciplinary Studies Graduate Committee.

#### Requirements for the Master of Science Degree

The requirements for the Master of Science in Interdisciplinary Studies shall be the same as the Master of Arts degree in Interdisciplinary Studies with the following exception: an in-depth thesis or project in the primary department is required.

# INTERNATIONAL BUSINESS

## College of Business Administration

Director

Paul L. Frantz

Phone

(562) 985-5072

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

For core requirements please see the College of Business Administration section in this catalog.

### Bachelor of Science in Business Administration

#### Option in International Business (code 3-2703) (124 units)

The objective of the international business option is to prepare students for the increasingly competitive and interdependent international business world with which they must cope. There is great and growing need for American business school graduates to be better informed about how to compete and do business outside the U. S. as well as in the U. S. market where much of their competition is from foreign firms. Students need to understand how international business practices and customs differ from those in the U. S. They need some familiarity with a language other than English as well as knowledge of culture and world geography.

#### Requirements

1. ACCT 465
2. FIN 490
3. MGMT 405 or 406
4. MKTG 480
5. Any one of the following four courses: FIN 424, HRM 458, MGMT 405 or 406 (whichever was not taken in satisfaction of requirement 3), or MKTG 481.
6. Two years in high school or one year (2 semesters or 3 quarters) at the baccalaureate level of one of the following languages: Chinese, French, German, Italian, Japanese, Russian, or Spanish. Under individual, special circumstances, the Director of the International Business Option may approve a language other than those listed above to satisfy the language requirement for a degree in the option.
7. Choice of the language will determine the country or geographic area of the world about which the student must study a minimum of 2 courses (6 units).

These will be in lieu of 6 other elective units, and can be double counted as part of the student's general education requirement, if approved to meet GE requirements.

#### G.E. or Elective Courses

Select two courses (6 units), appropriate for your choice of language:

All Languages: ANTH 412I, ECON 368, POSC 371, 485, I/ST 317I, 318I, 319I, 355, LING 413, 425, 470, COMM 330, 452, W/ST 401I.

Chinese: ANTH 332, A/ST 301I, 310, 495I, CHIN 370, 301, ECON 365, 370, HIST 382B, 406B, 488, POSC 362, R/ST 101B, 331I, 341I, 343, C/LT 403.

French: C/LT 330A,B, ECON 361I, GEOG 316, HIST 335, 339, POSC 353, FREN 335, 336 or courses taken at a specified French university with which CSULB has an exchange agreement and taught by instructors from CSULB may be approved by the Director of the International Business Program in partial or full satisfaction of this requirement.

German: C/LT 330A,B, ECON 361I, GEOG 316, HIST 335, 339, 437, POSC 353, GERM 309, 315, 316, 380I.

Italian: C/LT 330A,B, ECON 361I, GEOG 316, HIST 332, 335, 339, POSC 353.

Japanese: ANTH 335, A/ST 301I, 310, ECON 370, GEOG 312I, HIST 383B, 384, 406B, 407I, JAPN 350, 451, 471, R/ST 103, 341I, 344, C/LT 403.

Russian: ECON 361I, GEOG 318, GERM 410, HIST 341B, 441, POSC 356, RUSS 310, 410I.

Spanish: ANTH 323, 324, ECON 361I, 363, GEOG 320I, HIST 364, 433, 462, 463, POSC 358, 359, 459, SPAN 330, 341, 430, 445, C/LT 440.

### Certificate in International Business: Undergraduate Program (code 1-2000)

Phenomenal growth of multi-national companies has been apparent in recent years, with increasing internationalization of the business world. Multi-national firms, governmental agencies, and varied international organizations express heightened demand for management personnel with a broad, global perspective. The Certificate in International Business, Undergraduate Program, combines an undergraduate degree in business with additional training in the area of international business beyond that normally included in a traditional business program. The objective of the program is to enhance the scope and perception of the business student to include the international business environment. Courses used to meet requirements for the Certificate in International Business may also apply toward College of Business Administration degree requirements.

#### Requirements

1. A bachelor of Science degree in Business Administration. This requirement may be completed concurrently with certificate requirements;
2. Six of the following nine courses: CBA 300; ACCT 465; FIN 424, 490; HRM 458; MGMT 405, 406; MKTG 480 or 481.
3. A grade of "C" or higher will be required in each course completed;
4. The Certificate Program does not permit use of the Credit/No Credit option. Students with specific geographic areas of interest should consider development of language competence and cultural understanding relative to their area of interest concurrent with their Certificate Program. For additional information or for application to the program, interested persons may contact the Director of International Business Program.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Center for International Education is under the division of Academic Affairs. Its mission is to stimulate, develop and administer programs and services in the international area.

The program priorities of the Center for International Education are as follows:

to strengthen the internationalization of the curriculum, involving the participation of all the University's colleges. Interdisciplinary courses have been developed to further this goal. The infusion of existing courses with comparative approaches and non-western materials is being encouraged as well as the introduction of a number of issue-oriented international courses and several international studies emphases;

to render all services relating to the admission, counseling, academic life and success of international students attending CSULB;

to develop selective international educational linkages with institutions in other countries;

to assist CSULB students and faculty in participating in overseas opportunities;

### International Admissions

The International Admissions component of the Center for International Education assists academically eligible international students to apply for admission to the University, and advises them of CSULB's financial, immigration and English language requirements. Throughout the students' attendance, the International Admissions staff is involved in their registration, evaluation of transfer credit, changes of majors, and graduation checks. Students are also counseled regarding their field of study requirements, which vary at both the undergraduate and graduate levels. The International Admissions staff coordinates closely with the American Language Institute, International Student Services, Study Abroad Office, administrators, and faculty to support students in pursuing their educational objectives.

### International Student Services

Some 1,600 non-immigrant students, representing almost 90 countries, attend CSULB. The primary mission of International Student Services, a component of the Center for International Education, is to assist these students with their academic, personal, and cultural growth and development during their years at CSULB. This mission is accomplished through professional counseling and advising; assistance with Immigration and Naturalization Service (INS) regulations, paperwork processing, and documentation; student orientation activities; and assistance with registration. The ISS staff also serves as the University liaison with consulates, embassies, businesses, foundations, and community organizations concerning international students at CSULB.

In addition, the ISS staff works with international students, faculty, and members of the community to encourage and support international programs. International students are encouraged to participate in University and community programs. During the academic year, ISS staff works with the

International Student Association, the International Peer Advisors, and the International Community Council of Long Beach to plan and organize cross-cultural events such as the Annual International Dinner and Culture Show, International Faire, and other major events. These groups add a special dimension to student life on campus by hosting various cultural events and providing leadership training opportunities for their members.

## English Proficiency Requirements for Admission

### Undergraduate Applicants

Each undergraduate applicant, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 500 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. has proof of at least three years attendance at a secondary level educational institution in a country where English was the principal language of instruction.\* CSULB interprets "where English was the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and that the students receive academic instruction in all subjects (except foreign language courses) at all levels of education in English\*, or
2. completed at least 56 transferable units from accredited U.S. community colleges and/or universities and a grade of "A", "B", or "C" in ENGL 100 or its equivalent\*, or
3. successfully completed CSULB's American Language Institute's Intensive English Program.

EXCEPTION: Applicants applying for Film and Electronic Arts, which requires a 550 TOEFL score, and Journalism, which requires a 600 TOEFL score, will not be waived from the TOEFL requirement.

\* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

### Graduate Applicants

Each applicant for graduate or post-baccalaureate studies, regardless of citizenship, whose prior education was in a country where English was not the primary language of social, educational, and business interaction, must demonstrate English competency by receiving a minimum score of 550 on the Test of English as a Foreign Language (TOEFL), unless the applicant:

1. Submits proof of having obtained a bachelor's degree from an accredited post-secondary institution where English was the principal language of instruction.\* CSULB interprets "where English is the principal language of instruction" to mean that a school is located in a country where English is the native language (the daily medium of communication of the majority of residents is English), and the applicant received academic instruction in all subjects (except foreign language courses) at all levels of education in English\*, or

2. Notification from CSULB's American Language Institute that the applicant has successfully completed the American Language Institute's Bridge to the University Program.

EXCEPTION: Applicants applying for Public Policy and Administration, which requires a 600 TOEFL, will not be waived from the TOEFL requirement.

\* For this exemption to remain valid, once having met the exemption, the student must not have left the U.S.A. for more than two years to reside or study in a country where English is not the predominant language of business, education and day-to-day societal functions.

## International Student Admission Requirements

CSULB encourages eligible international students to apply for undergraduate and graduate level studies. International students are defined as those who hold non-immigrant (student or exchange) visas. Application requests and questions should be directed to International Admissions, which is located in the Center for International Education (BH 201).

International students need to complete a different application process than U.S. students, and there are different application deadlines. The following documents are required:

1. International application form;
2. \$55.00 application processing fee;
3. Affidavit of support from financial sponsor;
4. Bank statement/letter from financial sponsor;
5. Proof of acceptable English proficiency (usually met by the Test of English as a Foreign Language);
6. Official academic documents and certified English translations;
7. ACT or SAT (required for student athletes and graduates of U.S. high schools);
8. GMAT (required for graduate business majors only);
9. Letters of recommendation (graduate level applicants).

Application deadlines vary. Applicants should check with the International Admissions office for deadline dates. Graduate applicants must check with their department for earlier deadlines.

Once all the documents are submitted to the International Admissions Office, eligibility for admission will be determined based on English proficiency and academic history, as well as other considerations. Graduate applications will be forwarded to the graduate departments for review by the graduate coordinators. Once admitted, international students will receive pre-arrival, arrival, and orientation information, and the appropriate immigration form and instructions on how to legally enter and/or remain in the U.S.

The Immigration and Naturalization Service (INS) requires that international students be aware of and follow INS regulations to remain legally in the U.S. for the duration of their academic status. International students on "F" and "J" visas must be enrolled as full time students. Courses taken through the University College and Extension Services at CSULB or courses taken concurrently at other colleges nearby may only count toward full time status when approved in advance of course registration by the Center for International Education. Questions about INS policies may be directed to the Center for International Education.

Graduate students for whom English is a second language may be required upon arrival to take the Examination in English as a Second Language (EESL) and enroll in any necessary class(es) in English as a second language. Please check with International Admissions for more information on EESL requirements and exemptions. In some cases this may mean that students will be required to take reduced course loads in their major field until English proficiency can be demonstrated. This requirement cannot be postponed.

### Study Abroad Office

The Study Abroad Office is located in the Center for International Education. Its mission is to assist CSULB students and faculty select and prepare for an educational experience in another country. This office administers exchange programs throughout the world, provides advising services, maintains an overseas opportunities resource library, and sponsors special programs such as pre-departure workshops, information seminars, and speakers from off-campus.

### CSU International Programs (IP) System-wide

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. Over 13,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 16 countries, the International Programs also offers a wide selection of study locales and learning environments.

The affiliated institutions are:

Australia .....	The University of Western Sydney
Canada .....	The universities of the Province of Quebec including: ..... Université de Montréal ..... Concordia University ..... Université Laval ..... McGill University ..... Université du Quebec System ..... Bishop's University
Chile .....	Pontificia Universidad Católica de Chile (Santiago)
China .....	Peking University
Denmark .....	Denmark's International Study Program (the international education affiliate of the University of Copenhagen)

Zimbabwe .....	University of Zimbabwe (Harare)

Information on academic course offerings available at these locations is in the International Programs Catalog which may be obtained from the Study Abroad Office in the Center for International Education (BH 201) or by writing to The California State University International Programs, 401 Golden Shore, Long Beach, CA 90802-4210 (562) 951-4790.

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community colleges. Students must also possess a current cumulative GPA of 2.75 or 3.00, depending on the program for which they apply, for all college level work completed at the time of application, and have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide selection committee.

Additional information and application materials may be obtained from the CSULB Center for International Education by calling (562) 985-4106 or by writing to The California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit us on the World Wide Web at: [www.gateway.calstate.edu/csuienet/](http://www.gateway.calstate.edu/csuienet/).

Applications for the 2002-2003 academic year overseas must be submitted by February 1, 2002 (May 1 for Australia and New Zealand).

## CSULB Exchange Programs

In addition to the CSU International Programs, CSULB has developed exchange programs with outstanding universities in many parts of the world through cooperative linkage agreements. These agreements allow CSULB students to study for a semester or an academic year in a foreign institution while remaining enrolled at CSULB. A wide range of major fields of study may be accommodated in this program. So far, agreements have been signed with institutions in the following countries:

Argentina .....	University of Belgrano
Australia .....	University of Wollongong Deakin University
Austria .....	University of Salzburg
Chile .....	Universidad del Desarrollo
Cambodia .....	University of Phnom Penh
China .....	Qingdao University China Criminal Police College Liaonig University
France .....	MICEFA (Consortium of Universities in Paris) Sup de Co de Montpellier
Germany .....	Fachhochschule Wiesbaden Hamburg Fachhochschule Otto-von-Guericke University, Magdeburg University of Bielefeld University of Oldenburg Univeristy of Essen
Japan .....	Osaka Gakuin Goto College of Medical Arts Waseda College of Medical Arts and Sciences Yokkaichi University
Korea .....	Yonsei University

U.K./Wales .....	Cardiff Institute of Higher Education
Vietnam .....	Vietnam National University
West Bank .....	Birzeit University

For more information and eligibility qualifications, please see the staff in the Study Abroad Office or call them in the Center for International Education at (562) 985-8429.

---

## Courses (INTL)

### 400. Upper Division Coursework Taken at a Foreign University (1-4)

Advanced college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty.

### 500. Graduate Level Coursework Taken at a Foreign University (1-4)

Graduate college level coursework completed at a foreign university under the auspices of a CSULB exchange program. Course content is planned in cooperation with CSULB faculty.

## English Proficiency Requirements

For students who need English language training prior to enrolling at CSULB, the American Language Institute provides professional instruction in all four language skills: reading, writing, listening and speaking. Conditional admission to CSULB is available for qualified students. PLEASE NOTE: International students are subject to the same EPT/ELM and WPE requirements as are all CSULB students.

---

## Courses (ALI)

American Language Institute (ALI) courses are for non-native speakers of English. ALI courses are recommended for international students (students on F1 visas). ALP courses are recommended for all other non-native speakers of English.

### 145. American Language Advanced I (3)

Prerequisite: Non-native speakers who score 137 or below on the English Placement Test, or 500 or below on the Exam in English as a Second Language, and who have not taken equivalent writing courses in another department, are eligible for enrollment in this course. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. A basic course in writing, offering intensive practice in every stage of the writing process from generating ideas to final proofreading. Reviews and teaches organizational strategies and includes strategies for paragraph and sentence development and for making appropriate word choices. Teaches conventional mechanics, spelling and the grammar of standard edited written English.

### 150. American Language Advanced II (3)

Prerequisite: Non-native speakers who score between 138 through 150 on the English Placement Test, between 501 through 550 on the Exam in English as a Second Language, or successful completion of ALI/ALP 145 with a grade of "C" or better. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

---

## Courses (ALP)

American Language Program (ALP) courses are for non-native speakers of English. ALI courses are recommended for international students (students on F1 visas). ALP courses are recommended for all other non-native speakers of English.

### 145. American Language Advanced I (3)

Prerequisite: Non-native speakers who score 137 or below on the English Placement Test, or 500 or below on the Exam in English as a Second Language, and who have not taken equivalent writing courses in another department, are eligible for enrollment in this course. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. A basic course in writing, offering intensive practice in every stage of the writing process from generating ideas to final proofreading. Reviews and teaches organizational strategies and includes strategies for paragraph and sentence development and for making appropriate word choices. Teaches conventional mechanics, spelling and the grammar of standard edited written English.

### 150. American Language Advanced II (3)

Prerequisite: Non-native speakers who score between 138 through 150 on the English Placement Test, between 501 through 550 on the Exam in English as a Second Language, or successful completion of ALI/ALP 145 with a grade of "C" or better. Counts toward elective credit for undergraduates. Does not count toward graduation but does count toward course load credit for graduates. Includes critical/analytical reading and expository writing with emphasis on longer essays. Analysis and practice of standard rhetorical modes of essay development.

## Bachelor of Arts in International Studies (code 2-8545) (120 units)

The Bachelor of Arts in International Studies is an interdisciplinary degree program designed to provide a rigorous introduction to the complex interrelationships that exist among societies in the modern world. It combines the study of international relations, global and development issues and contemporary belief systems with a concentration on a major world area. In addition, the degree aims to equip students with the skills in language, analytical thinking, research, and economic literacy that are necessary for graduate study and careers in international fields. Further, students in the International Studies program receive direct exposure to an international environment by participating in a foreign study program or an internationally related internship in this country. Because it is an interdisciplinary program, this program emphasizes the ways in which the expertise and methodologies of various disciplines contribute to the understanding and resolution of international issues.

The degree is a liberal arts program intended to provide a broad understanding of international issues and world cultures through the methodologies of the social science and liberal arts disciplines. It offers pre-professional study for careers in government, communications, business, law, journalism, and international non-profit organizations. Students are encouraged to combine a major in International Studies with a second major or minor in a field appropriate to their career plans.

All International Studies majors are required to develop a program of study in consultation with the program advisor. This program should be balanced among the participating disciplines and should help the student to develop a coherent emphasis in a world region and/or a topical area. The foreign language, foreign study or internship, and research in the senior seminar should reflect this emphasis. The program advisor will also give advice on post-graduate study.

### Requirements

A minimum of 45 units in a program approved by the International Studies advisor. It is expected that each student's program will reflect the interdisciplinary nature of the degree by including a balanced selection of courses from the participating disciplines.

#### Requirements not included in major

*Economic Literacy:* (Units not included in total for major; may be fulfilled as part of General Education): ECON 100, 101; or, with prior permission of the International Studies Advisor, ECON 300. (Note: Prior permission is required because ECON 100 and 101 are preferred to ECON 300 and may be required as prerequisites for some upper division courses in the program).

*Foreign Language:* Three years of college level study or equivalent proficiency in a language appropriate to the program of study and area concentration selected.

## Major Requirements

Lower Division: (12 units): ANTH 120; HIST 212; GEOG 100 or 160; POSC 215 or 220.

Upper Division: A minimum of 33 units including:

*Cross-Cultural Communication*: 3 units, chosen from: ANTH 412I, 413; COMM 350.

*Basics of International Relations*: Select 6 units from the following: ECON 370, 471; GEOG 470; HIST/I/ST 478; POSC 371, 378, 485.

*Development Studies*: 6 units, selected from: ANTH/GEOG/HIST 307I; ECON 465; GEOG 460; H/SC 420I; JOUR 312I; POSC 461I; I/ST 317I, 318I, 319I, 355; SOC 350; W/ST 401I.

*Contemporary Belief Systems*: 3 units selected from: ANTH 305I; ECON 313; HIST 438; POSC 306; R/ST 383I; SOC 356; SW/I/ST 491.

## Area Concentration

Choose 9 units from one of the following six areas:

*Asia*: A/ST 300I, 301I, 310, 495I; ANTH 332, 333, 335; GEOG 314I; HIST 382B, 383B, 384, 385, 386, 407, 488; POSC 362, 366.

*Latin America*: ANTH 323, 324; GEOG 320I; HIST 364, 462, 463, 466; CHLS 310; POSC 358, 359.

*Africa*: B/ST 337, 380, 430, 460; GEOG 308I; HIST 391, 392.

*North Africa and the Middle East*: GEOG 309I; HIST 431; POSC 367; R/ST 331I, 315I.

*Eastern Europe/Former Soviet Union*: GEOG 318; HIST 341B; POSC 356, 357.

*Western Europe*: ECON 361I; FREN 440; GEOG 316; GERM 316, 380I, 410; HIST 337, 339, 357, 437; POSC 353; SPAN 430.

*Internship or Foreign Study*: (I/ST 492, 3 units) An internship or foreign study program related to the course of study selected, as approved by major advisor.

*Senior Research Seminar*: (I/ST 490, 3 units) As approved by the director of the International Studies program.

## Minor in International Studies (code 0-8545)

The Minor in International Studies consists of a minimum of 21 units at least 15 of which must be upper division courses, together with at least two years of college level of study (or equivalent proficiency) in a language other than English which must be a language appropriate to the student's program of study in International Studies. No course in the department of a student's major may be used in satisfaction of the unit requirements for this minor except for ECON 201, 202, 300.

## Requirements

**Economic Literacy**: Three units selected from ECON 201, 202 or, with the consent of the International Studies advisor, upper division students may take ECON 300. (Units earned in satisfaction of this requirement may not be counted as part of the unit requirement in the minor.)

**Lower Division**: Six units selected from ANTH 120, HIST 212, GEOG 100 or 160, POSC 215 or 220.

**Upper Division**: Three units selected from the courses grouped under Cross Cultural Communication or from the courses grouped under Contemporary Belief Systems as those groups are defined for the Bachelor of Arts degree in International Studies.

Either six units selected from the courses grouped under Development Studies or six units selected from the courses grouped under Basics of International Relations as those groups are defined for the Bachelor of Arts degree in International Studies.

Six units selected from one of the geographic Area Concentrations defined for the Bachelor of Arts degree in International Studies.

## Courses (I/ST)

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 317I. Problems in International Social Conflict (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary analysis of the causes, human costs, and possible remedies of social conflict in the world today. Primary emphasis on the social sciences, incorporating in addition the perspectives of humanities and technological disciplines. Problem areas of international conflict will be discussed, such as ethics, nationalism, scarcity, warfare, governmental policies, dependency, and technological innovations. Students may take either I/ST 317I or I/ST 318I, and in any sequence.

#### 318I. Cases in International Social Conflict (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Interdisciplinary analysis of the causes, human costs, and possible remedies of social conflict in the world today. Primary emphasis on the social sciences, incorporating in addition the perspectives of the humanities and technological disciplines. Options in a case study format will be discussed, such as conflict in a multinational state USSR political and economic democracy in Eastern Europe, Asia and the West; impact of modernization in Latin America; nuclear warfare and competing ideologies. Students may take either I/ST 317I or I/ST 318I, and in any sequence.

#### 319I. International Development (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course focuses on the issues and problems of development confronting the countries of the Third World. The causes and theories of underdevelopment will provide a background for identifying the problems of underdevelopment and for exploring regional, national and global strategies for development. Same course as GEOG 319.

#### 355. International Environmental Issues (3)

An examination of the deterioration, destruction, maintenance and restoration of environmental systems and resources forms the core content of this course. Identification of major environmental problems that have international dimensions, an analysis of their causes and ramifications, and an investigation of potential and/or already initiated attempts at their resolution form the structural framework of the course. Same course as GEOG 355.

#### 451. International Women's Movements (3)

Prerequisite: Consent of instructor. This course provides discussion of global women's movements and the issues they address. Issues include women and violence, war and militarism, economic and political inequalities, environment and development, labor issues, international tourism, global sex work and trafficking of women (Thailand). Case studies include Gabriela (Philippines) and Global Alliance Against Trafficking of Women (Thailand). The seminar format course will examine movements and issues through the reading of recent literature, and the writing of short essays based on readings. Requirements include in-class preparations, a course portfolio of short essays, and a term paper.

**478. Foreign Relations of the U.S. (3)**

The course incorporates a global perspective and considers the influence of such issues as domestic politics, bureaucratic rivalry and decision-making, economics, ideology, race, and the role of special interest groups on the making of foreign policy. Same course as HIST 478.

**490. Senior Research Seminar in International Studies (3)**

Prerequisites: Senior status; consent of the International Studies advisor and instructor. Capstone research seminar primarily for senior-year International Studies majors. Classroom preparation for directed research by students on a topic of their choice integrating international economics, international politics, cross-cultural communication, development studies, contemporary belief systems, language skills, and a geographic area. Traditional grading only.

**491. Non-Violent Conflict Resolution: In Your Life and On the Job and Around the Planet (3)**

Designed to help the student examine conflict and violence, their own and others' responses to different situations, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Same course as S W 491.

**492. International Studies Internship/Foreign Study (3)**

Prerequisites: Consent of I/ST advisor; completion of a minimum of 15 upper division units required for the major in International Studies. Internship with private organizations and governmental agencies with an international focus, international companies located in the US or abroad. A Study Abroad program with CSULB or other reputable university also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB International Studies faculty. A final report is required.

**493. Special Topics (1-6)**

Prerequisite: Consent of instructor. Analysis of contemporary issues and problems in International Studies. Topics to be announced in the *Schedule of Classes*. Both grading options.

**499. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Individually directed studies of special problems in International Studies. May be repeated for a maximum of six units with consent of program director. May not be credited toward the major in International Studies without written department consent in advance of enrollment. Supervised course. Traditional grading only.

The Department of Journalism offers undergraduate curricula in journalism and public relations. Journalism courses include study in broadcast, photo and print journalism areas. Public relations courses include study in ethics, writing, communication techniques and theory, issues management, and strategic planning. These programs are intended to educate for beginning competency and continued individual professional growth and achievement.

Each program in the department is offered in a context of a broad liberal education that emphasizes liberal arts and sciences. These traditional areas remain the solid basis of professional education in journalism and mass communication here and elsewhere.

The Department of Journalism is an institutional member of the Association of Schools of Journalism and Mass Communication.

Courses in the department prepare students to be newspaper or magazine writers, reporters and editors; internet, radio or television reporters and editors; and public relations practitioners in corporate, agency and public sectors of the economy.

In cooperation with the Department of English, the department offers course work leading to the single-subject teaching credential in English-journalism for prospective high school teachers.

Students should contact the Department of Journalism office for referral to an appropriate faculty adviser for development of a study plan.

Of the 120 semester hours required for graduation, students are expected to take a minimum of 80 semester hours outside the major area of journalism and mass communications and, of these, at least 65 semester hours in the traditional liberal arts and sciences. Students should limit their journalism and mass communication course work to a maximum of 40 semester hours to comply with university requirements and national standards for journalism and mass communication education.

The Department of Journalism houses the student newspaper, the *Daily Forty-Niner*, which serves a campus community of more than 30,000 students and the university faculty and staff. Journalism students also help write, edit and produce the full-color *University Magazine*, the *On-Line Forty-Niner*, a daily electronic newspaper, *University Magazine Online* and the *Summer Forty-Niner*, a weekly newspaper.

Broadcast journalism students work at KLON-FM 88, which produces daily news heard throughout southern Los Angeles County and northern Orange County. Students also work with Advanced Media Productions to produce a weekly cable television program.

Advanced students are strongly encouraged to participate in the Department of Journalism internship program. Within the limits of its resources, the department helps graduating seniors and alumni find professional positions.

## Requirements for the Bachelor of Arts in Journalism

Students may obtain a bachelor's degree emphasizing journalism or public relations.

### *Prerequisites to Entering Journalism Classes*

Computer skills: All students entering journalism production classes must know be familiar with at least one established word-processing program, and be able to word-process at a rate of at least 40 words a minute.

### *Writing Skills*

JOUR 120 is the basic writing and reporting course for journalism, and is a prerequisite to most courses in the department. Students must pass English 100 with at least a "C" before entering JOUR 120. Students who took an ENGL 100-equivalent course at another campus must pass the university's English Placement Test (EPT) to enter JOUR 120 or courses for which it is a prerequisite.

### *Course Prerequisites*

Journalism majors must have passed both the WPE and passed JOUR 120 with at least a "C" to enter any course for which JOUR 120 is listed as a prerequisite. Students emphasizing broadcast journalism, print journalism and public relations must take ENGL 320, English Grammar.

### *Grade Requirements*

Journalism majors must have a "C" average in the major. Journalism students must achieve a grade of "C" or better in each required course for the major.

### *Residency Requirements*

Transfer students must complete at least 50 percent of their upper-division journalism units at CSULB. Journalism (Communication) courses transferable from other campuses are limited. No more than 12 (usually nine or fewer) units of community college communication units may be transferred to CSULB as journalism courses. (Included in the 12 units will be any professional communication courses, whether listed as journalism or under any other category.) Journalism courses taken on another campus may not be substituted for a CSULB journalism course without the approval of the CSULB Department of Journalism.

Transfer students should bring complete transcripts of all units taken at other colleges or universities to their first meeting with a Department of Journalism adviser. Students must provide the department with a separate copy because transcripts that have been sent to the university admissions offices are not available to the department.

### *Distribution of Units*

Journalism majors must take a minimum of 80 semester hours in courses that are not professional journalism, technical communication or communication career or skills courses. Besides all journalism courses, this exclusion extends to all Film and Electronic Arts (FEA) courses as well as, for example, courses in graphic design or photography offered by the Department of Art.

The requirement that 65 of these 80 units must be in areas of traditional liberal arts and sciences should not be confused with the university's general education requirement. While many general education courses are acceptable for the 65-unit departmental requirement, not all general education units can be accepted for it by the Department of Journalism.

Courses that may be counted in the 65 units include all courses offered through the College of Liberal Arts except for technical writing courses. All courses offered by the College of Natural Science and Mathematics also may be counted. While performance courses such as drawing or painting must be excluded, courses involving art history or art appreciation may be included. To avoid the potential loss of units, students are advised to consult a journalism adviser before entering the department and before enrolling each subsequent semester.

After 65 units in liberal arts and sciences, and 40 units in journalism, 15 units remain to complete the 120 units required for graduation. Although it generally is recommended that these units be devoted to more liberal arts and science study, up to all 15 of these units may be taken in areas such as business, engineering, industrial arts, physical education, and recreation.

Journalism majors may not include more than 40 journalism/communication courses in the 120 units required for graduation, and most of these 40 units are required in the respective options of student emphasis. To avoid disappointment, majors are strongly advised to consult a journalism faculty adviser in order to plan and maintain a course of study.

### *Mandatory Advising*

All students must meet with a journalism adviser before declaring the major, and entering students should make arrangements for advising before the start of their first CSULB semester. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication.

## Bachelor of Arts in Journalism

### Requirements

Please note requirements differ for each option.

### Option in Broadcast Journalism (code 2-6460) (120 units)

A minimum of 33 units and a maximum of 40 Journalism units including those specified below. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication.

All option majors must take ENGL 320 preferably before taking upper division journalism. A foreign language also is recommended.

Students must have a minimum of 80 non-communication units with at least 65 of the 80 in the traditional liberal arts and sciences areas. No more than 15 units can be in areas outside the liberal arts and sciences and communication categories.

Lower Division: JOUR 110, 120, COMM 171.

Upper Division: ENGL 320, JOUR 316 or 319A, 321, 325, 382, 482, and 430, and one of the following: 312I, 315, 412, 420, 431, 490, 494, 498, 499.

### Option in Journalism Education (code 2-6836) (120 units)

A minimum of 24 journalism units of which 15 must be upper division, selected in consultation with an advisor.

Lower Division: JOUR 110 and 120

Upper Division: JOUR 319A, 320, 319B, 331 and 430.

Recommended additional courses: JOUR 280, 312I, 370, 422, 431, 490, and 499.

To qualify for a credential that will authorize the teaching of journalism in California Public schools, a student must complete the journalism requirements specified above and core English courses.

### Option in Print Journalism (code 2-6463) (120 units)

A minimum of 30 journalism and a maximum of 40 communication units of which at least 24 must be upper division. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication. The department requires Print Option majors take ENGL 320, English Grammar, prior to taking JOUR 331, Publication Editing and Makeup. A foreign language is also recommended for majors in the option. Students must have a minimum of 80 non-communication units with at least 65 of the 80 units in the traditional Liberal Arts and Science areas. No more than 15 units can be in areas that do not fall into the Liberal Arts and Science or Communication categories.

Lower Division: JOUR 110, 120.

Upper Division: ENGL 320, JOUR 316, 319A, 320, 319B, 331, 420, 430, and JOUR 305 or 480, and at least one of the following JOUR 312I, 315, 412, 422, 431, 490, 498, or 499.

Recommended additional courses are: JOUR 380, 455, 494.

### Option in Public Relations (code 2-6837) (120 units)

A minimum of 30 journalism and a maximum of 40 journalism/communication units of which at least 24 must be upper division units. Students must minor in or have an area of concentration of at least 15 units of study outside of journalism or communication. Students must take one research methods class before they graduate. A research course other than JOUR 494 requires the consent of the option advisor. It is strongly recommended that students in this option take as many English writing courses as possible; and transfer in, or take at least a year of foreign language; and take advantage of the ethnicity classes offered at CSULB. Students must have a minimum of 80 non-communication units with at least 65 of the 80 units in the traditional Liberal Arts and Science areas. No more than 15 units can be in areas that do not fall into the Liberal Arts and Science or Journalism/Communication categories. The Public Relations option requires JOUR 498, Internship.

Lower Division: JOUR 110, 120.

Upper Division: ENGL 320, JOUR 370, 374, 375, 376, 430, 471, 478, 494 or a department approved research methods course, and 498.

### Minor in Journalism (code 0-6835)

A minimum of 21 units including:

Choose one area of concentration:

*Broadcast:* JOUR 110, 120, 319A, 321, 325, 430, and 431.

*Print:* JOUR 110, 120, 316, 319A, 331, and six units from JOUR 305, 312I, 320, 319B, 412, 422, 430, or 431.

*Public Relations:* JOUR 110, 120, 370, 374, 375, 376, and 471 or 478.

## Courses (JOUR)

### Lower Division

#### 110. Introduction to Mass Communications (3)

Prerequisites/Corequisites: One GE Foundation Course. Origins, development and contemporary role of newspapers, magazines, radio, television, books, and films, and such related fields as advertising and public relations. (Lec, discussion 3 hrs.) (CAN JOUR 4)

#### 120. News Writing (3)

Prerequisites: Ability to word process 40 wpm. A "C" or better in ENGL 100. Course focuses on news writing, newspaper style, writing leads, developing the story, and importance of deadlines. It includes study of news sources, reporting and interviewing methods, law, ethics and responsibilities of the reporter. Practical exercises in reporting and writing news and features for publication (CAN JOUR2)

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 300. Intermediate Photojournalism (3)

Prerequisites: JOUR 120 with a grade of "C" or better, ART 141 or consent of instructor. Techniques of photojournalism for newspapers, magazines, corporate communications and Public Relations. Student work is regularly critiqued and published in departmental publications. Course covers types of photos needed for all aspects of editorial photography, including lighting, use of filters, working with subjects, and the photo picture page. Hands on projects give students an opportunity to develop skills. \$30.00 materials fee for those using university supplies. (Lectures, demonstrations and practical assignments). Traditional grading only for majors/minors.

#### 305. Editorial Graphics (3)

Designed to give students experience in the design of printed materials. Examines theories, principles, and techniques of contemporary page design, especially of newspapers and Sunday magazines. Covers the historical roots of publication design and acquaints students with the use of photographs, illustrations, graphs, type and color in visual communication. Students gain hands-on experience with Macintosh computers and produce prototype-newspaper and magazine pages. Traditional grading only for majors/minors.

#### 312I. Global News Media (3)

Prerequisites: Completion of the GE Foundation, one or more Explorations courses, and upper-division standing. An analysis of the world's news media with an emphasis on their structure, ownership, social and political roles, and the degree of government pressure and control. Particular attention is paid to economic, political and mass media globalization, and its effects on developing countries.

#### 315. Journalism as Literature (3)

Prerequisites: Completion of the G.E. Foundation, one or more Explorations courses, and upper-division standing. Set criteria for defining journalism and literature. Examines great journalistic work of the last 2,000 years, from Plato and Julius Caesar to Addison, Steele and Swift, through Twain, Stephen Crane, Mencken and Camus, to E. B. White, Updike, Didion and Tom Wolfe which have earned a place in literature.

#### 316. Feature Writing (3)

Prerequisite: JOUR 120 with a grade of "C" or better or consent of instructor. Feature Writing covers the feature article for both newspapers and magazines. Discusses style, organization, human interest, use of quotes, leads and article ideas. Emphasis is on clear readable prose. Publishable articles are submitted to the Daily Forty-Niner or University Magazine. Traditional grading only for majors/minors.

### 319A. News Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on Daily Forty-Niner or University Magazine. Course may not be taken concurrently with JOUR 319B or JOUR 422. Traditional grading only.

### 319B. Advanced Publication Writing and Reporting (3)

Course focuses on news reporting and writing, including study of different types of stories. Students work as staff writers on Daily Forty-Niner or University Magazine. Course may not be taken concurrently with JOUR 319A or JOUR 422. (Activity/Laboratory 9 hours.) Traditional grading only.

### 320. Reporting Public Affairs (3)

Prerequisite: JOUR 120 or consent of instructor. News coverage of police, courts and city, county, state and Federal government. Study and practice in methods of investigative reporting. (Reporting and writing practice 3 hours.)

### 321. TV News Writing (3)

Prerequisites: JOUR 120 with a grade of "C" or better or consent of instructor. Techniques for information gathering, scripting, selecting video and choosing sound bites for news and feature stories. Emphasis is on television news writing.

### 324A,B. Photography for Publication (3,3)

Prerequisites: JOUR 120 and 300 (with a grade of "B" or better), or consent of instructor. Students with qualifying photo skills will comprise staff of the *Daily Forty-Niner* newspaper and *University Magazine*. Staffers will be responsible for photographic coverage of campus news and feature events for daily and special edition use. Photographers will practice techniques of newspaper photography through assigned stories as well as personally developed enterprise stories. Individual approach and skills are assessed daily, with staff efforts analyzed at weekly photo conference. Students must provide own camera. Course fee required. (Laboratory 6 hours)

### 325. Radio News Writing and Reporting (3)

Prerequisites: JOUR120 with a grade of "C" or better or consent of instructor. Techniques for information gathering, scripting, and selecting actualities for news and feature stories. Emphasis is on radio news writing.

### 331. Publication Editing and Makeup (3)

Prerequisites: ENGL 320 and JOUR 319A with a grade of "C" or better or with consent of instructor. JOUR 319B and 331 cannot be taken concurrently except by permission of instructor. Study of methods in newspaper and magazine production and practice in preparing copy for periodical publication, including editing, proofreading, headline writing, using photographs and other display materials, handling news service copy, legal problems, and page design. Traditional grading only for majors/minors. (Lecture, 2 hrs, activity with the Daily Forty-Niner or University Magazine, 3 hrs.)

### 355. Feature Article (3)

Techniques of writing non-fiction articles with a view toward potential sales to magazines, newspaper syndicates and Sunday supplements.

### 370. Principles of Public Relations (3)

Prerequisite: ENGL 100 with a grade of "C" or better. Public relations fundamentals: research, planning, communication, and evaluation. Study of targeting special publics, the use of public relations tools, developing public relations programs, and the importance of social responsibility.

### 374. Internal Communication for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students learn to write a wide variety of internal public relations materials, including backgrounders, position papers, proposals, letters, memos, speeches, and crisis communication plans. Students develop a crisis communication plan for a nonprofit organization as a service-learning project.

### 375. External Communication for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students are exposed to the various techniques used in media relations and learn to write news releases, feature stories, media alerts, pitch letters, biographies, op-ed pieces, captions, and public service announcements. Students develop a comprehensive press kit for a nonprofit organization as service-learning projects.

### 376. Publications for Public Relations (3)

Prerequisites: JOUR 120 and 370. Students learn the theories and principles of layout and design and the most effective writing techniques for an array of publications. Students develop newsletters, brochures, corporate identification systems, advertisements, fliers, and online materials. All publications are created electronically, using various desktop-publishing programs. Students develop a brochure and newsletter for a nonprofit organization as service-learning projects. Traditional grading only.

### 380. Advanced Photojournalism (3)

Prerequisite: JOUR 300 or consent of instructor. Photographic reporting with a camera. In-depth study of photojournalism with emphasis on creation of photo story ideas, photo essays and feature photos; photo editing and layout as applied to newspapers and magazines. Course fee required for those using university supplies.

### 382. Radio News Production (3)

Prerequisites: JOUR 325 with a grade of "C" or better or consent of instructor. Reporting, writing and editing news and feature stories for radio news program. Special emphasis is on radio production techniques. (Lab 6 hrs.)

### 412. Theories of Mass Communication (3)

Prerequisites: JOUR 110 or consent of instructor. Contemporary theories of mass communication. An overview of the development of communication theory as it relates to the mass media. Evaluation of theories of the communication process through analysis of the original research upon which the theories were founded. Source, message and audience effects of the communication process.

### 420. Investigative Reporting (3)

Prerequisite: JOUR 120 and 320 or consent of instructor. Advanced course in investigative and interpretive reporting. Students will work in an editor-reporter relationship with instructor in researching and writing in-depth pieces on such complex issues as mass transit, air pollution, city government, poverty, crime, housing and drug abuse. Computer-assisted research and investigative and interviewing techniques will be stressed. Traditional grading only.

### 422. Senior Media Production (3)

Prerequisite: Consent of instructor. Advanced work on Journalism Department publications as editors, writers, photographers, designers, or news broadcasters. . Required course for *Daily Forty-Niner* and *University Magazine* editors. A student may not take course concurrently with JOUR 319A or JOUR319B. Traditional grading only. Course may be repeated for a maximum of 9 units with consent of instructor.

### 430. Law of Mass Communications (3)

Principles and case studies of the law of the press, radio and television with emphasis on constitutional guarantees, prior restraints, libel, contempt, privacy, taxation, licensing, shield laws, free press vs. fair trial, and other laws affecting the news media.

### 431. Ethical Problems of the News Media (3)

Prerequisites: JOUR 120 with a grade of "C" or better or consent of instructor. The study of ethical codes and value systems used in writing, producing and presenting news in the United States. Philosophical foundations of moral theory and various approaches to ethical decision making for journalists and other media practitioners.

### 455. Advanced Magazine Article Writing (3)

Prerequisite: JOUR 355. Writing of fully developed magazine articles. At least two major pieces will be required. Heavy stress will be placed on article ideas, research and sophisticated interviewing techniques. Designed especially for students who plan to earn all or part of their income through free-lance writing of magazine articles and books.

**471. Agency Public Relations (3)**

Prerequisites: JOUR 120, 370, and two of the following: JOUR 374, 375, and 376. This course is designed to acquaint students with the operation of a public relations agency. Students will work with others in an agency situation to develop a business proposal for an actual client involving a formal written plan and oral presentation. Students also serve as a public relations consultant and develop a public relations program for a nonprofit organization as a service-learning project. All assignments are designed to expand the student's skills in public relations problem-solving and critical thinking.

**478. Public Relations Case Studies (3)**

Prerequisites: JOUR 120, 370, and two of the following: JOUR 374, 375, and 376. Case studies are used to acquaint students with the types of problems they will encounter when working in the profit and nonprofit sectors. Strong emphasis is placed on analytic planning, critical thinking, and programmatic skills. Students will develop a research study examining a public relations issue in-depth.

**480. Picture Editing (3)**

Prerequisites: JOUR 120 and 331. Principles of picture selection for newspaper and magazine publication. Emphasis on preparing material — written and visual — for use as single picture or layout presentation. Course fee required.

**482. Television News Production (3)**

Prerequisites: JOUR321 or consent of instructor. Scripting, voicing, shooting and editing news and feature stories for cablecast student program. Special emphasis on videography and editing. (Lab 6 hrs.)

**490. Special Topics in Mass Communications (1-3)**

Topics of special interest in mass communications selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated for a total of six units.

**494. Research Methods in Mass Communications (3)**

Prerequisite: Consent of instructor. Basic techniques of research in mass communication and mass media. Overview of theory building and hypothesis testing procedures as applicable to current problems in the mass communication field. Scientific methods, survey and experimental design, field studies, analysis of data.

**498. Internship (3)**

Prerequisites: For Seniors only, by faculty recommendation, with consent of department chair. Work of an editorial or writing nature at least one full day a week with cooperating organization in the Los Angeles-Orange County area. Work at a TV, radio, or production facility. Work edited and evaluated by supervisors of the participating public relations and media firms. Regular reports to faculty supervisor and regular scheduled meetings with supervisor on-campus to discuss progress and problems. Students should submit internship package, available from Department Office, then gain approvals above. Credit/No Credit grading only.

**499. Special Projects (1-3)**

Prerequisite: Open to journalism major only. Advance approval of instructor; (permit required to enroll). Research in the field of journalism in broadcast, newspaper, magazine, public relations, advertising or other related fields. Students must meet once a week with instructor. Course may be repeated for a maximum of 6 units with different topics.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

Students may contact the Department Office for information and referral to the appropriate Faculty Advisor, Undergraduate Coordinator, Graduate Coordinator, or Credential Coordinator.

The Department of Kinesiology and Physical Education's mission is accomplished by providing excellence in instruction, scholarship and service through a multidisciplinary approach that will foster the development and maintenance of behavior that is essential for a healthy lifestyle in ever changing demographics. The Department's programs offer a course of study for students wishing to prepare for professional careers or related disciplines in physical education teaching (Adapted, Elementary, and Secondary), athletic training, fitness-wellness, exercise science, kinesiotherapy, sport psychology and coaching. The programs have been developed from physiological, psychological, biomechanical, and sociological principles. The Department also serves the needs of students completing majors in other fields who find that certain aspects of Kinesiology and Physical Education are important to their professional objectives and personal interests. In meeting the educational needs of these students, the Degrees, Certificates, and Minor available in the Department of Kinesiology and Physical Education include:

- Bachelor of Arts in Kinesiology in four options.
- Bachelor of Science in Kinesiology in four options.
- Master of Arts in Kinesiology in seven options.
- Master of Science in Kinesiology in three options.
- California Single Subject Clear Credential Programs in Physical Education (K-12)
- Adapted Physical Education Specialist Credential (K-12)
- Minor in Physical Education: Single Subject Credential Add-on
- Community Physical Fitness Certificate
- Wilderness Studies Certificate
- Kinesiotherapy Certificate

The Department of Kinesiology and Physical Education, in addition to its Degrees, Certificates, and Minor, assumes the responsibility for the psychological, physiological, and sociological needs and interest of the college student through general education, interdisciplinary, and physical activity course offerings. Students enrolling in physical education activity courses assume responsibility for satisfactory health status appropriate to the class activity.

In addition to the degree requirements for the Bachelor of Arts in Kinesiology and the Bachelor of Science in Kinesiology, the Major must meet the following Department policies and requirements for University graduation:

1. Each major course and prerequisite course must be completed with a grade of "C" or better. A course in which a grade lower than a "C" is received must be retaken and successfully completed prior to enrolling in any course for which it is a prerequisite;
2. Upper division courses may not be waived by substitution or examination without Department petition and approval;

3. Current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent);
4. Department approval.
5. Bachelor degree Majors must also have Department clearance of lower division courses/activities and skill proficiencies.

## Bachelor of Arts in Kinesiology

Students pursuing a Bachelor of Arts degree in Kinesiology must complete lower division and upper division core courses and skill proficiency requirements plus courses in a specific area (Option). Students may select their area of specialization from one of the four Options described below. In meeting the requirements of this degree, the Department offers four specialized Options for study which permit students to develop a conceptual understanding related to human movement and to focus on preparation for one or more specific occupations. The student must demonstrate 1) physical skill proficiency, 2) knowledge of physical fitness, and 3) knowledge in the personal performance activity courses completed according to the lower division core requirements for specific Options prior to graduation. A minimum of 120 units are required for graduation.

### Physical Skill Proficiency

Each Bachelor of Arts Major is required to demonstrate physical skill proficiency at a 3.5 (1-5 scale) overall average level in fitness (KPE 263 or 343) and the personal performance activity courses required in each Option prior to graduation. Physical skill proficiency examinations are administered in the appropriate personal performance activity courses. Only physical skill proficiency scores in the range of a 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

### Pre-Athletic Training Option (pre-code 2-1290)

#### Preprofessional

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Athletic Training (code 2-1240) is an impacted program and has the following supplementary admission criteria:

1. Applicants must apply as a pre-Kinesiology and Physical Education major, with an Option in Athletic Training. Complete the "Impacted Option Application." The application is obtained from and filed with the Department of Kinesiology and Physical Education. See Department Office for application deadlines.
2. Complete all lower division CSULB general education requirements before entry into the option.
3. Complete passing scores on the CSULB writing proficiency examination before entry into the option.
4. Earn an overall college cumulative GPA of a 2.75.
5. Complete the following prerequisite courses with "C" or better before entry into the option: Human Physiology (BIOL 207 or equivalent), Human Anatomy (BIOL 208 or equivalent),

General Psychology (PSY 100 or equivalent), Community First Aid and CPR (KPE 210 or equivalent), and KPE 263 Techniques of Physical Fitness.

6. Complete the following prerequisite course with "B" or better before entry into the option: Prevention and Care of Athletic Injuries (KPE 307 or equivalent).
7. Complete a minimum of 150 hours of observation or student athletic trainer participation in a traditional athletic training setting (interscholastic or intercollegiate) under the supervision of a NATA certified athletic trainer.
8. Obtain three letters of recommendation, one of which must be from the athletic training setting in which the observation or student athletic trainer participation took place.

### Option in Athletic Training (code 2-1240) (120 units)

This Option is designed for students interested in careers in the prevention/care of athletic injuries and the administration of athletic training programs in public and private schools, colleges, universities, and with professional teams. Students interested in pursuing certification by the National Athletic Trainers Association, Inc. must complete additional requirements which are available from the Department Office.

Lower Division: BIOL 207, 208; PSY 100; KPE 215, 263, and eight physical activity units distributed over a minimum of four activity categories:

*Aquatics:* KPE 125A, 125B, 237, 238;

*Combative:* KPE 106A, 149A;

*Dance:* KPE 185, 260;

*Individual/Dual Sports:* KPE 100A, 112A, 112B, 171A, 264, 265, 266, 267;

*Wilderness Studies:* KPE 242, 244, 246A;

*Team Sports:* KPE 250, 253, 255, 257.

Upper Division: KPE 300, 301, 307, 308, 309, 310, 312, 315, 332I, 335, 363, 407; H SC 427; E DP 434B; Select one course from FCS 430 or H SC 210.

### Option in Adapted Physical Education (code 2-1242) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Clear Credential in Physical Education (K-12) with a specialist credential in adapted physical education. The emphasis is placed upon teaching public school physical education to students with disabilities in preschool through grade 12. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching adapted physical education.

Lower Division: BIOL 207, 208; PSY 100; KPE 149A, 171A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 270; Select one course from 237, 238.

Upper Division: KPE 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 387, 388, 427, 460.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

### Option in Elementary School Physical Education (code 2-1243) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Clear Credential in Physical Education (K-12). The emphasis is placed upon teaching public school physical education to students in grades K through 6. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching elementary school physical education.

Lower Division: BIOL 207, 208; PSY 100; KPE 149A, 171A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 270; Select one course from 237, 238.

Upper Division: KPE 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 460, 477, 483, FCS 430.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

### Option in Secondary School Physical Education (code 2-1244) (120 units)

This Option is designed for the preparation of students seeking a California Single Subject Clear Credential in Physical Education (K-12). The emphasis is placed upon teaching public school physical education to students in grades 6 through 12. The academic and professional course work is designed to provide students with philosophical, theoretical and applied concepts of teaching secondary school physical education.

Lower Division: BIOL 207, 208; PSY 100; KPE 149A, 171A, 250, 253, 255, 257, 261, 264, 265, 266, 267, 270; Select one course from 237, 238.

Upper Division: KPE 300, 301, 312, 315, 320, 332I, 335, 343, 370, 380, 457, 460, 461, 483.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

### Bachelor of Science in Kinesiology

Students pursuing the Bachelor of Science degree in Kinesiology must complete the course requirements and the physical fitness proficiency of each Option. Students may select their area of specialization from the Options described below. These Options develop a student who has an integrated conceptual understanding of the discipline and its relationship to human movement. Each Option focuses on foundation preparation for a specific occupation or graduate work. A minimum of 132 units is required for graduation.

#### Physical Fitness Proficiency

Each Bachelor of Science Major is required to demonstrate a physical fitness proficiency at the minimum level of a 3.0 before graduation. The physical fitness proficiency examination is administered in KPE 263 Techniques of Fitness.

### Pre-Exercise Science Option (pre-code 3-1291)

#### Preprofessional

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Exercise Science (code 3-1230) is an impacted program and has the following supplementary admission criteria:

1. File a supplemental application obtained from the Department of Kinesiology and Physical Education. See Department Office for application deadlines.
2. Complete all lower division CSULB general education requirements before entry into the option.
3. Complete passing scores on the CSULB writing proficiency examination before entry into the option.
4. Earn an overall college cumulative GPA of a 2.75.
5. Complete the following prerequisite courses with "C" or better before entry into the option: Human Physiology (BIOL 207 or equivalent), Human Anatomy (BIOL 208 or equivalent), General Chemistry (CHEM 111A or equivalent), Composition (ENGL 100 or equivalent), College Algebra (MATH 112 or equivalent), General Physics (PHYS 100A or equivalent), and General Psychology (PSY 100 or equivalent).
6. Show proof of current First Aid (Community) certification and CPR (Community) certification.

### Option in Exercise Science (code 3-1230) (132 units)

This option is designed primarily for those students interested in careers in exercise physiology, biomechanics, or motor control/learning as well as those students contemplating graduate work in these areas or one of the health professions, e.g., physical therapy. A minimum of 132 units are required for graduation.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: CHEM 111A, 111B; KPE 263; PHYS 100A, 100B, PSY 100.

Upper Division: KPE 405, 441, KPE 430 or 431; KPE 483 or BIOL 260; Select three courses from KPE 339I, 462, 465, 466.

Elective Courses: select 18 units (minimum 6 units from KPE) from the following courses: BIOL 200, 211A, 211B, 340, 341, 342 and 342L, 345, 401, 441, 442, 443, 445, 446; CHEM 327, 448; FCS 132, 331A, 331B; HHS 374, 401, 460, 471; H SC 150; KPE 315, 320, 363, 339I\*, 430\*, 431\*, 462\*, 465\*, 466\*, 471, 494, 495, 497.

\* If not taken as one of the major required upper division courses.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

## Pre-Kinesiotherapy Option (pre-code 3-1292)

### Preprofessional

In the California State University, an undergraduate major is designated as impacted when the number of applications received the first month of the filing period is greater than the available spaces. Such degree majors are authorized to use a pre-major code and supplementary admission criteria to screen applicants. The Option in Kinesiotherapy (code 3-1245) is an impacted program and has the following supplementary admission criteria:

1. File a supplemental application obtained from the Department of Kinesiology and Physical Education. See Department Office for application deadlines.
2. Complete all lower division CSULB general education requirements before entry into the option.
3. Complete passing scores on the CSULB writing proficiency examination before entry into the option.
4. Earn an overall college cumulative GPA of a 3.00.
5. Complete the following prerequisite courses with "C" or better before entry into the option: Human Physiology (BIOL 207 or equivalent), Human Anatomy (BIOL 208 or equivalent), General Psychology (PSY 100 or equivalent), Community First Aid, CPR (KPE 210 or equivalent) and Techniques of Physical Fitness (KPE 263).
6. Complete the following prerequisite course with "B" or better before entry into the option: Psychology Research Methods (PSY 200).
7. Complete a minimum of 50 hours of observation or active participation in a therapeutic or rehabilitation setting.
8. Obtain two letters of recommendation, one of which must be from the therapeutic or rehabilitation setting in which the observation or active participation took place.

### Option in Kinesiotherapy (code 3-1245) (132 units)

This option is designed primarily for those students interested in careers which provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions. Students interested in certification by the American Kinesiotherapy Association must complete additional requirements. A minimum of 132 units are required for graduation. Please consult the Department Coordinator and the Kinesiotherapy Certificate Program for additional information.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: PSY 100, 200; KPE 210, 263, and eight physical activity units distributed over a minimum of four activity categories:

*Aquatics:* KPE 125A, 125B, 237, 238;

*Combative:* KPE 106A, 149A;

*Dance:* KPE 185, 260;

*Individual/Dual Sports:* KPE 100A, 112A, 112B, 171A, 264, 265, 266, 267;

*Wilderness Studies:* KPE 242, 244, 246A;

*Team Sports:* KPE 250, 253, 255, 257.

Upper Division: GERN 400I or BIOL 401; KPE 309, 315, 320, 332I, 335, 427, 489F; PSY 341, 370.

A fieldwork, field experience or internship course requires current certification in First Aid (ARC-Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC-Community, Professional Rescuer; AHA-Level B, Level C, or equivalent) prior to enrollment.

### Option in Sport Psychology and Coaching (code 3-1246) (132 units)

The Option in Sport Psychology and Coaching has two Concentrations—one in Sport Psychology and one in Coaching. The course work for both concentrations is the same except for the elective courses. The Option is designed for students interested in careers in: 1) sport psychology; and 2) coaching outside the public school system (K-12), e.g., coaching professional athletes, coaching college athletes, coaching youth-sport athletes, and coaching in sport academies. A minimum of 132 units are required for graduation.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: FCS 132; KPE 263; PSY 100, 110, 200; 8 physical activity units to be distributed over a minimum of two activity categories:

*Aquatics:* KPE 125A, 125B, 237, 238;

*Combatives:* KPE 148A;

*Individual/Dual Sports:* KPE 171A, 264, 265, 266, 267;

*Team Sports:* KPE 250, 253, 255, 257.

Upper Division: KPE 315, 332I, 335, 339I, 472, 475; PSY 333, 356.

Elective Courses for the Concentration in Sport Psychology: Select 15 units (minimum 6 units from KPE) from the following courses: HHS 374; H SC 427; KPE 495, 489B, 471, 497; PSY 141, 332, 370, 373, 475.

Elective Courses for the Concentration in Coaching: Select 15 units (minimum 6 units from KPE) from the following courses: ACCT 310; COMM 411; HRM 360; H SC 427; I S 240; KPE 489B, 497, 499; MKTG 300, 330; REC 321, 322, 324, 427.

### Option in Fitness (code 3-1247) (132 units)

This Option is designed for students interested in careers in the fitness industry, e.g. fitness director, manager, program specialist, coordinators, personal trainer, or group instructors in corporate, commercial, YMCA, or other public/private facility.

Core Courses: BIOL 207, 208; KPE 300, 301, 312.

Lower Division: FCS 132; PSY 100; KPE 215, 263, and eight physical activity units distributed over a minimum of two activity categories:

*Aquatics:* KPE 125A, 125B, 237, 238;

*Combatives:* KPE 106A, 148A, 149A;

*Dance:* KPE 181A, 185, 260;

*Fitness:* KPE 142, 151A, 152A, 198A;

*Individual/Dual Sports:* KPE 100A, 100B, 112A, 112B, 171A, 264, 265, 266, 267;

*Wilderness Studies:* KPE 242, 244, 246A, 247A;

*Team Sports:* KPE 250, 253, 255, 257.

In addition to the physical fitness proficiency, each Fitness Major is required to demonstrate physical skill proficiency at a 3.5 (1-5 scale) overall average level in the personal performance activity courses required in the Option prior to graduation. Physical skill proficiency examinations are administered

in the appropriate personal performance activity courses. Only physical skill proficiency scores in the range of a 2.0-5.0 are recorded and computed to determine the student's physical skill proficiency overall average.

Upper Division: HSC 435; KPE 332I or 335, 339I, 363, 364, 367, 405, 467, 469, 483, 489D.

Elective Courses: Select twelve units from the following courses: FCS 433, 439; HSC 421, 423, 429; KPE 307, 309, 315, 332I\*, 335\*, 462, 465, 495, REC 421, 423, 425, 427.

\* If not taken as one of the major required upper division courses.

A fieldwork, field experience, or internship requires current certification First Aid (ARC Standard, Community, EMT or equivalent) and Cardiopulmonary Resuscitation (ARC Community, Professional Rescuer, AHA Level B, Level C or equivalent) prior to enrollment.

### Adapted Physical Education Specialist Credential (code 490)

This program is designed for students interested in the administration and implementation of physical activity programs for persons with disabilities. Completion of this credential authorizes the California Adapted Physical Education Specialist Teaching Credential.

#### Requirements

1. Bachelor's degree with a teaching major in Kinesiology;
2. Must be obtained concurrently or after completion of the Single Subject Physical Education Teaching Credential, K-12;
3. KPE 320, 387, 388, 427, 526, 546; ED P 350; Select two courses from CD 280; ED P 405, 526, 546, 564, 579B.

### Minor in Physical Education Teaching (code 0-1201)

The minor in Physical Education Teaching is available to any non-Kinesiology major. This minor is designed for those students who are striving for an additional credential. With completion of this minor, the University will recommend the additional credential in Physical Education.

#### Requirements

A minimum of 34 units as follows: BIOL 207 and KPE 301 or BIOL 208 and KPE 300; KPE 315, 343, 370, 380, 460, 483; EDSS 300P; Eight physical activity units including: KPE 237 or 238; 265; 250 or 257; 253 or 255; 171A or 264; 266 or 267; 270.

In addition to the above, each student is required to demonstrate skill proficiency at an average 3.5 level on a 5 point scale in KPE 343 and the 8 physical activity units completed to satisfy requirements for this minor. Only physical skill proficiency scores in the range of 2.0-5.0 are recorded and computed to determine a student's physical skill proficiency average.

### Concentration in Physical Education Elementary Teaching

#### Requirements

A minimum of 21 units as follows: KPE 301, 312, 315, 370, 427, 476, 477.

### Concentration in Physical Education Coaching

#### Requirements

A minimum of 20 units as follows: KPE 301, 307, 332I; a minimum of 11 units selected in consultation with appropriate KPE Advisor from the following: KPE 312, 363, 475, 489B.

### Certificate Programs

The Department of Kinesiology and Physical Education offers four different certificate programs each of which is related to a special emphasis provided in the curriculum. All certificate programs are open to students enrolled in the University who meet general admission requirements as follows:

1. Completion of 30 hours of course work;
2. A minimum 2.75 GPA in all completed course work;
3. Admission application and approval by a faculty committee in the certificate program selected.

### Community Physical Fitness Certificate (code 1-1050)

Specific emphasis in this program is directed to the knowledge, understanding and application of principles designed to prepare the student for personal training in physical fitness and management of fitness-wellness facilities. Such facilities include corporate fitness, commercial health clubs, personal training centers, hospitals, senior centers, retirement facilities and with other public/private fitness, sport and wellness programs.

#### Requirements

1. Current certification in cardiopulmonary resuscitation and first aid;
2. Course work (35 units as follows): BIOL 207, 208; KPE 300, 301, 305, 363, 489D or H SC 485.

Select five additional courses from the Area's listed below in consultation with the Certificate Advising Coordinator. Of the five courses selected, a minimum of three courses must be from one Area.

*Area I:* ED P 191, 434B; FCS 132 or 430, 331A, 331B, 336, 433, 436, 436L, 439, 461; H SC 210, 401, 421, 435/535; KPE 309, 339, 405, 441/541, 462/562, 465/565; REC 321, 421, 425, 427.

*Area II:* ACCT 201; C/ST 200, 210; HRM 361, H SC 403; IS 240; MGMT 421; MKTG 300, 330; PSY 381.

*Area III:* BIOL 260, 342, 342L, 441, 443/543, 446/546.

### Wilderness Studies Certificate (code 1-1160)

This program is designed to develop leaders who can provide safe and challenging situations for individuals seeking self-fulfilling experiences in wilderness environments. The program of study will enable the student to acquire appropriate knowledge and skills, and to develop a personal philosophy reflecting understanding and concern for the protection of the environment and safety of participants in wilderness activities.

#### Requirements

1. Certification in First Aid and Cardiopulmonary Resuscitation;
2. Completion of Log of Outdoor Experiences;
3. Course work (31-33 units as follows): BIOL 100, KPE 346, 448, REC 490 with advisement. The following coursework must be taken in consultation with the advising coordinator:

select four courses from KPE 131, 153, 242, 244, 247A;  
select two courses from KPE 243A, 243C, 245, REC 430;  
select one course from KPE 141, 446, 497, 499; select one  
course from FCS 132, REC 407, 431, 433.

### Pre-Athletic Training Certificate (code 1-1130)

This program is designed to assist the student in acquiring a foundation of knowledge and skills necessary for providing prevention and care of athletic injuries, and the administration of athletic training programs in public and private schools, colleges, universities and professional sport teams. Individuals who wish to pursue certification by the National Athletic Trainers' Association must complete additional requirements. Information concerning specific requirements for admission to the NATA program may be obtained from the Department of Kinesiology and Physical Education.

#### Requirements

1. Certification in cardiopulmonary resuscitation and first aid;
2. Course work: (31 units as follows):  
KPE 300, 301, 307, 308, 309, 363, 483, 489C; FCS 430.

### Kinesiotherapy Certificate (code 1-1060)

This program is designed to prepare the student to pass the American Kinesiotherapy Association (AKTA) Certification Test. AKTA certification will qualify the therapist to provide therapeutic physical activities in rehabilitation settings including clinics, hospitals, schools, universities, convalescent homes and other private and public institutions or in private practice. The student will complete the Kinesiotherapy Option in the undergraduate curriculum plus 27 additional units. Information concerning the certificate can be obtained from the Director of the Kinesiotherapy Program in the Department of Kinesiology and Physical Education.

Students seeking National Kinesiotherapy Certification need to complete the Undergraduate Option in Kinesiotherapy, the Undergraduate Kinesiotherapy Certificate, plus 12 post-baccalaureate Internship units with consensus of the Kinesiotherapy Advisor.

#### Requirements

1. Admission application and approval by Director;
2. Completion of the degree requirements of the Bachelor of Science: Option Kinesiotherapy;
3. Specialization course work requires a "B" or better grade for AKTA Certification;
4. Course work: BIOL 401 or GERN 400I; H SC 210 or 411A or 411B or 427; KPE 210, 309, 320, 405 or 499, 427, 438/538, 488/588, 485, 489F; PSY 341.

Students seeking the National Kinesiotherapy Certification need to complete the Undergraduate Option in Kinesiotherapy, the Undergraduate Kinesiotherapy Certificate, plus 12 post-baccalaureate internship units with consensus of the Kinesiotherapy Advisor.

### Bachelor Degree Programs in Kinesiology with Honors (code 1-0003)

In order to graduate with Honors in Kinesiology, a student must:

1. Complete all regular requirements for the Kinesiology degree major program.

2. The Program must include a minimum of 9 units of Honors course work in the major, in consultation with a Department Honors Advisor, including the following:
  - A. At least one of the following courses: KPE 300H, 301H, 312H, 315H, 332H, 333H;
  - B. KPE 337H;
  - C. KPE 497H with Department Honors Advisor, culminating in an Honors Thesis or Project.
3. Graduate with a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in the Kinesiology major.

### Graduate Program

Two degree programs are available to the student: Master of Arts degree in Kinesiology with seven Options and Master of Science degree in Kinesiology with three Options. The student may select the thesis/project track or the comprehensive examination track. The student who chooses the thesis/project track is required to complete a thesis or a project. The student who chooses the comprehensive examination track is required to take KPE 695. The minimum unit requirement for the MA degree major program is 30 units for thesis/project students and 36 units for comprehensive examination students. The minimum unit requirement for the MS degree major program is 33 units for thesis/project students and 39 units for comprehensive examination students.

#### Admission Criteria

1. A bachelor's degree from an accredited institution with a major in Kinesiology/Physical Education; or
2. A bachelor's degree in another field with a minimum of 15 units of upper division courses in Kinesiology composed of prerequisite courses needed for the tentative degree plan to be determined by the student's major advisor and approved by the Department Graduate Coordinator. All deficiencies must be removed prior to Advancement to Candidacy.
3. An overall undergraduate GPA of 2.50 or better and an upper division Kinesiology/ Physical Education major GPA of 2.75 or better;
4. A minimum cumulative score of 1350 on the verbal, quantitative and analytical sections of the Graduate Record Examination.

#### Advancement to Candidacy

1. Completion of the general University requirements for advancement to candidacy;
2. Successful completion of the CSULB Writing Proficiency Examination. Information about the exam is available in the Testing Office (SS/A-216);
3. A graduate program must have approval of the student's advisor, Department Graduate Coordinator, and Associate Dean of Graduate Students, Research, and Faculty Affairs for the College of Health and Human Services.

### Master of Arts in Kinesiology

Seven options are under the Master of Arts degree in Kinesiology and are described below. The core courses for thesis students are KPE 590, 696, and 698. The core courses for comprehensive examination students are KPE 590, 695, and 696.

### Option in Adapted Physical Education (code 5-1235)

This option is designed to provide advanced preparation in adapted physical activity and the study of individuals with disabilities across the lifespan (preschool to adult).

#### Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 537, 538, 546, 638, and 697;
3. KPE 698 (4 units) for thesis/project students plus a minimum of 8 elective units;
4. KPE 695 for comprehensive exam students plus a minimum of 15 elective units.

### Option in Coaching (code 5-1238)

This option provides an in-depth study in the scientific, mechanical, emotional, and methodological realms of coaching.

#### Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 524, 540, 551, 560, 562, 575, 630, and 633;
3. KPE 593 (3-6 units) required after advancement to candidacy;
4. KPE 698 (4 units) for thesis/project students, plus a minimum of 2-5 elective units;
5. KPE 695 for comprehensive examination students, plus a minimum of 12-15 elective units.

### Option in Motor Behavior (code 5-1237)

This option is designed to provide advanced preparation in human movement from a behavioral perspective; this includes the examination of motor learning, control and development across the lifespan.

#### Requirements

1. KPE 590 and 696;
2. Minimum of 12 units selected from the following: KPE 540, 546, 630, 633, and 697 (3 units);
3. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Pedagogical Studies (code 5-1232)

This option provides preparation in student design, instructional development, and evaluation to improve the supervision of skills and develop expertise in behavioral research methods.

#### Requirements

1. KPE 524, 525, 526, 590, 696, and 697;
2. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
3. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Sports Studies (code 5-1236)

This option examines sport from the perspective of sociology, anthropology, history, psychology, and philosophy.

#### Requirements

1. KPE 590 and 696;
2. Minimum of 12 units from the following: KPE 573, 574, 577, 633, 675, and 697 (3 units);
3. KPE 698 (4 units) for thesis/project students, plus a minimum of 8 elective units;
4. KPE 695 for comprehensive examination students, plus a minimum of 15 elective units.

### Option in Sports Management (code 5-1233)

This option provides preparation for management (administrative) career opportunities in physical education, athletics, or commercial settings.

#### Requirements

1. KPE 521, 590, 592A (6 units) or 592B, 685, and 696;
2. Department electives. Thesis/project students select 3 units and comprehensive examination students select 6 units from the following: KPE 573, 574, 577, 633;
3. Nondepartment electives. Thesis students select 9 units with advisor's approval and comprehensive examination students select 12 units with advisor's approval from the following: EDAD 541, 544, and 647; ACCT 500; FIN 500; HRM 500; MKTG 500;
4. KPE 698 (4 units) for thesis/project students;
5. KPE 695 for comprehensive examination students.

### Option in Individualized, Program, and Generalized Areas (code 5-1239)

These options are designed to provide the student with curriculum activities that combine one or more option areas into a program of study. These options are developed by the student with the advisement of a graduate faculty member and/or the Graduate Advisor. A statement of rationale for the proposal must accompany the program of study.

#### Requirements

1. KPE 590 and 696;
2. Minimum of 15 units from 500 and/or 600 level coursework in KPE;
3. KPE 698 (4 units) for thesis project students, plus a minimum of 5 elective units (individualized);
4. KPE 695 for comprehensive examination students, plus a minimum of 12 elective units (generalized and program areas only).

### Master of Science in Kinesiology

Three options are under the Master of Science degree in Kinesiology and are described below. The core courses for thesis/project students are KPE 580, 590, 696, and 698. The core courses for comprehensive examination students are KPE 580, 590, 695, and 696.

### Option in Exercise Science (code 6-1230)

This option is designed to provide up-to-date theoretical principles and practical experiences in exercise physiology and biomechanics.

## Requirements

1. KPE 540, 550, 551, 552, 580, 590, 696, and either 594 or 697;
2. Select two of the following four courses or select 6 other units with advisor's approval: KPE 541, 562, 565, and 566;
3. KPE 698 (4 units) for thesis project students;
4. KPE 695 for comprehensive examination students, plus a minimum of 6 elective units.

### Option in Sport and Exercise Psychology (code 6-1231)

This option is designed to prepare students for careers in sport and exercise psychology, in particular as athletic performance enhancements specialists and/or as researchers and teachers in academic settings.

## Requirements

1. KPE 572, 575, 580, 590, 633, 696 (18 units)
2. Two of the following courses: KPE 571, 573 or 574, 577, 630, 675, 697 (6 units)
3. KPE 698 (4 units) for thesis students, plus a minimum of 5 units from PSY/Ed PSY and/or additional KPE electives with advisor approval.
4. KPE 695 (3 units) for comprehensive examination students, plus 12 units from PSY/Ed PSY courses and/or additional electives in KPE with advisor approval.

### Option in Sports Medicine and Injury Studies (code 6-1234)

This option is designed to provide the student with an in-depth study in the many health-related problems related to individuals who are physically active.

## Requirements

1. KPE 540, 551, 560, 561, 562, 580, 590, 633, 696, and 697;
2. KPE 698 (4 units) for thesis/project students;
3. KPE 695 for comprehensive examination students, plus a minimum of 6 elective units.

## Kinesiology and Physical Education Courses (KPE)

### Activity Courses

#### 100-198. Physical Education Activity (1)

A broad range of physical education activities is offered. These are designed to provide an opportunity for students to meet their health, physical and recreational needs and interests. Maximum of 8 units may be applied toward the University graduation requirement. Students enrolling in physical education courses assume the responsibility for satisfactory health status appropriate for class activity. KPE activity courses may be offered at the beginning (I), intermediate (II), and advanced (III) levels. All classes are co-educational, any student may enroll in the activity courses offered by the Department of Kinesiology and Physical Education. Classes offered within areas are as follows:

#### Individual/Dual Activities (1)

- 100A. Archery. Course fee may be required.
- 102A. Badminton
- 104A. Bowling. Course fee may be required.

- 108A. Golf
- 112A,B. Racketball
- 114A,B,C. Tennis
- 145A. Gymnastics
- 152A. Yoga

#### Combative Activities (1)

- 106A. Fencing-Foil
- 107A. Fencing-Sabre
- 148A. Karate
- 149A. Self Defense

#### Aquatics (1)

- 121A. Sailing. Course fee may be required.
- 124A. Surfing
- 125A,B. Swimming
- 126A. Swimming Conditioning
- 133A. Windsurfing. Course fee may be required.

#### Fitness Activities (1)

- 142. Low Impact Aerobics
- 146A. Jogging
- 151A. Weight Training and Conditioning

#### Team Activities (1)

- 161A. Basketball
- 162A. Beach Volleyball
- 165A. Flag Football
- 166. Rugby
- 167A. Soccer
- 169A. Softball
- 171A. Track and Field
- 172A,B,C. Volleyball

#### Recreational Dance

- 183A. Recreational Dance Workshop
- 185. Social Dance

#### Special Studies (1-3)

- 198. Special Activities
  - A. Aqua Aerobics
  - B. Triathlon Fitness
  - D. Individual Conditioning
  - E. Individual Adapted Activities

\* See Physical Education professional courses for additional activities open to non-majors.

## Kinesiology and Physical Education Professional Courses (KPE)

Kinesiology majors and minors will be given priority enrollment in classes required for the major. Selected courses are available to the general student body to receive credit toward general education requirements.

### Lower Division

#### 143. Individual Conditioning (1)

A course designed to introduce the student to the activities, equipment, and techniques used in the development of conditioning programs tailored to one's individual needs. Both grading options. Course may be repeated to a maximum of 8 units.

#### 156. Sports Appreciation (3)

Prerequisite: One of the foundation courses (may be taken concurrently). Introduction to the study of sport as a social institution in American society. Traditional grading only for majors/minors.

### 157. Fitness for Living (3)

Prerequisite: One of the foundation courses (may be taken concurrently). Analysis and implementation of the concepts related to exercise for health and fitness. Traditional grading only for Kinesiology majors/minors. (Lecture 2 hours, Activity 2 hours.)

### 159. Aerobic Teacher Training (2)

Prerequisite: KPE 142 or equivalent. Instruction in organizing and teaching methodology of aerobic fitness concepts including movement principles, and exposure to a variety of activities applicable to aerobic teacher training. (Lecture 1 hour, Activity 2 hours.)

### 189. Country Dancing (1)

Instruction and practice in various country dance forms including line dancing, two-step, waltz, contra dancing, round dancing, and mixers. This course is useful for lifelong fitness, socialization, and recreation. Course may be repeated to a maximum of 8 units.

### 210. Advanced Emergency Care (3)

Theory and practice of first aid for the injured. Successful completion of course requirements leads to the American National Red Cross advanced first aid and personal safety and community CPR certificate. Course fee may be required.

### 215. Career Perspectives in Human Movement (1)

An overview of human movement including professional preparation and employment opportunities. Orientation to current programs and proficiency requirements. Students entering the Kinesiology major are required to enroll in this course their first semester of study.

### 237. Techniques and Analysis of Aquatic Skills (2)

Prerequisites: Open to Kinesiology majors and minors only, American Red Cross Community First Aid and Safety or equivalent. Instruction and techniques in individual aquatic skills, hydrodynamic and movement principles, and an exposure to a variety of learning procedures applicable to the development of aquatic skills. Traditional grading only. (Lecture 1 hour, Laboratory 3 hours)

### 238. Water Safety Instructor (2)

Prerequisites: Open to Kinesiology majors and minors only, KPE 237 or equivalent or instructor permission, American Red Cross Community First Aid and Safety or equivalent. Comprehensive analysis of principles of movement, organizational strategies utilized in presenting aquatic activities and advanced swimming skills in physical education classes. Includes an opportunity to qualify for the American Red Cross Water Safety Instructor certification. Traditional grading only. (Lecture 1 hour, Laboratory 3 hours.)

### 239. Lifeguard Training (2)

Prerequisites: American Red Cross Community First Aid and Safety or equivalent. Provide lifeguard candidates with the skills and knowledge necessary to keep the patrons of aquatic facilities safe in and around the water. (Lecture 1 hour, Laboratory 3 hours.)

### 242. Backpacking (2)

An experiential examination and analysis in the judgment, knowledge, equipment and skills necessary to safe wilderness travel and living. (2-3 day field experience required.) Course fee may be required.

### 243A. Winter Mountain Expedition (3)

Introduction to winter mountaineering skills; study of the mountain environment. (Activity 6 hours) (2-3 day field experience required) Course fee may be required.

### 243B. Summer Mountain Expedition (3)

Instruction and extended experience developing the attitudes, judgment, knowledge and skills for safe mountain travel and living. Trip planning, logistics, navigation, mountain medicine, mountaineering techniques, safe and ecological camping will be learned and practiced while on a ten-day expedition. Throughout the wilderness expedition group process, leadership, problem solving and judgment all provide growth and experiential education opportunities that develop the successful wilderness traveler. Traditional grading only. (Activity 6 hours) Course fee may be required.

### 243C. Desert Expedition (3)

Introduction to the skills, attitudes and knowledge required for safe use and enjoyment of desert areas. An interdisciplinary introduction to the meaning and significance of the desert. Trip planning,

map use, methods of safe travel. Course includes field trip. Course fee may be required. (Activity 6 hours.)

### 244. Kayaking (2)

An experiential examination and analysis of the judgment, knowledge, equipment and skill development necessary to safe flat and whitewater kayaking. (2-3 day field experience required.) Course fee may be required. (Activity 4 hours.)

### 245. Wilderness Water Expedition (3)

Introduction to the skills, attitudes and knowledge required for safe use of varied types of wilderness waters. The skills and techniques of boat handling and trip planning. An interdisciplinary introduction to the study of waterways. (Activity 6 hours.) (2-3 day field experience required.) Course fee may be required.

### 246A. Mountaineering (2)

An experiential examination and analysis in the judgement, knowledge, equipment and skills necessary to safe mountaineering. Course includes field trip. Traditional grading only. (Activity 4 hours.) Course fee may be required.

### 247A. Techniques of Rockclimbing (2)

Introduction to the basic skills, judgment and safety for technical rockclimbing. The skills and techniques of top roping, belaying rap-pels and self rescue. Course includes a field trip. Course fee may be required. (Activity 4 hours.)

### 250. Techniques of Basketball (1)

(Open to Kinesiology majors and minors only.) Instruction in individual and team skills and techniques utilized in the sport of basketball for successful performance. (Activity 2 hours.)

### 253. Techniques of Soccer (1)

(Open to Kinesiology majors and minors only.) Instruction in individual and team skills and techniques utilized in the sport of soccer for successful performance. (Activity 2 hours.)

### 255. Techniques of Softball (1)

(Open to Kinesiology majors and minors only.) Instruction and practice in catching, throwing, hitting, sliding, base running, and bunting. Comprehensive teaching of skills and techniques in softball. (Activity 2 hours.)

### 257. Techniques of Volleyball (1)

(Open to Kinesiology majors and minors only.) Instruction in individual and team techniques utilized in the sport of volleyball. (Activity 2 hours.)

### 260. Fundamental Rhythms (2)

Instruction and practice in fundamental rhythms involving folk and social dance forms. Designed for Kinesiology majors and minors, but open to all students. (Activity 4 hours.)

### 261. Techniques and Analysis of Fundamental Rhythms (2)

(Open to Kinesiology Pedagogy Majors only. Traditional grading only.) Instruction, practice and analysis of social and folk dances necessary for successful teaching of basic social and folk dances in the public schools. Includes instruction in the fundamental rhythms that are sequenced to make up the basic rhythm patterns of nearly all social and folk dances. Various floor pattern and rhythm variations are taught and analyzed in terms of their appropriateness for various age groups and skill levels. (Activity 4 hours.)

### 263. Techniques of Physical Fitness (2)

Instruction, practice and evaluation in physical fitness. Calisthenics, static and dynamic flexibility exercises, weight training, fitness trail, running, and other aerobic activities, including exercises to music and relaxation training, will be part of the training program. (Activity 4 hours, including off campus long distance runs and other aerobic activities.)

### 264. Techniques of Golf (1)

(Open to Kinesiology majors and minors only.) Instruction and techniques in individual skills and strategies for successful performance in golf. (Activity 2 hours.)

### 265. Techniques and Analysis of Gymnastics (2)

(Open to Kinesiology majors and minors only.) Techniques, instruction and comprehensive analysis of the principles of movement in gymnastics. Organizational strategies utilized in presenting gymnastics in Physical Education classes. Traditional grading only. (Lecture 1 hour, Laboratory 3 hours)

**266. Techniques of Badminton (1)**

(Open to Kinesiology majors and minors only.) Instruction and techniques in the skills and strategies for successful performance in badminton. (Activity 2 hours.)

**267. Techniques of Tennis (1)**

(Open to Kinesiology majors and minors only.) Instruction, techniques and analysis in the concepts of teaching, coaching, and playing tennis. (Activity 2 hours.)

**270. Professional Practices in Public School Physical Education (3)**

Prerequisite: Students must meet the University GE writing course requirement. Co-requisite: Community CPR/First Aid/Safety or current certification. An introductory course designed to provide an overview of current professional practices in public school physical education. This course is the first course in a series of five sequential courses that Pedagogy Option majors take toward a Single Subject Physical Education credential. In this course, students begin the first phase of their Physical Education Student Assessment Portfolio (PESAP), which is used to assess the learning and progress in teaching throughout their coursework in the five sequential courses. Pedagogy Option students (Adapted, Elementary, Secondary) are required to take this course their first semester of their junior year or after completing 30 units of college course work. Open to Adapted, Elementary, and Secondary Option students in Kinesiology and Physical Education only. Traditional grading only. (Lecture 2 hours, Laboratory 2 hours.)

**Upper Division****300. Biomechanics of Human Movement (3)**

Prerequisites: BIOL 208 or equivalent. Anatomical structure and function, and mechanical principles relating to human motion, including analytical application. (Lecture 2 hours, laboratory 3 hours.)

**300H. Honors Biomechanics of Human Movement (3)**

Prerequisites: BIOL 208 or equivalent and admission into KPE Honors Program. Anatomical structure and function, and mechanical principles relating to human motion, including analytical applications (Lecture 2 hours, Laboratory 3 hours). Traditional grading only.

**301. Exercise Physiology (3)**

Prerequisites: BIOL 207 or equivalent 4-unit Human Physiology course with 3-hour lecture and 3-hour laboratory with grade of "C" or better or permission of instructor. Basic concepts of the physiology of muscular exercise with emphasis on the responses and adaptations of the circulatory system, the respiratory system, and skeletal muscles to the physical stress of acute and chronic exercise. (Lecture 2 hours, Laboratory 3 hours). Course fee may be required.

**301H. Honors Exercise Physiology (3)**

Prerequisites: BIOL 207 or equivalent 4-unit Human Physiology course with 3 hours lecture and 3 hours laboratory; admission to KPE Honors Program. Basic concepts of exercise physiology with emphasis on the responses and control of three systems (circulatory, respiratory, and muscle) to acute exercise. Also examined are the adaptations of these three systems to chronic exercise. (Lecture 2 hours, Laboratory 3 hours). Traditional grading only.

**305. Introduction to Community Physical Fitness (2)**

Introduction to community physical fitness, leadership, management and skill proficiency. (Lecture 1 hour, Activity 2 hours.)

**307. Prevention and Care of Athletic Injuries (3)**

Prerequisites: KPE 210 or equivalent. Principles and techniques of the prevention and care of common athletic injuries. (Lecture 2 hours, Activity 2 hours.)

**308. Advanced Athletic Training (2)**

Prerequisites: KPE 300, 307; BIOL 208. Study of advanced training techniques, methods and skills required for the evaluation and therapeutic treatment of athletic injuries. (Lecture 1 hour, Activity 2 hours.)

**309. Developmental and Therapeutic Exercise (3)**

Prerequisites: KPE 300, 301 or consent of instructor, Principles, techniques, and prescription of exercises for development or rehabilitation of the body. (Lecture 2 hours, Activity 2 hours.)

**310. Therapeutic Approaches in Athletic Training (3)**

Prerequisites: KPE 308, 309, and permission of instructor. Theory and application of therapeutic modalities and exercise rehabilitation commonly used in athletic training programs. Designed for Kinesiology majors in the athletic training track. (Lecture 2 hours, Activity, 2 hours)

**312. Motor Control and Learning (3)**

Prerequisites: BIOL 207, 208; PSY 100. Basic concepts of the neuro-motor and psychological contributions in the control and acquisition of skilled performance. Traditional grading only for Majors/Minors. (Lecture 2 hours, Activity 2 hours)

**312H. Honors Motor Control and Learning (3)**

Prerequisites: BIOL 207, 208; PSY 100; upper-division standing; admission into KPE Honors Program. Fundamental concepts of the neuro-motor and psychological contributions in the control and acquisition of skilled performance. (Lecture 2 hours, Activity 2 hours). Traditional grading only.

**315. Motor Development (3)**

Prerequisites: BIOL 207, 208; PSY 100 or equivalent. Developmental perspective of the factors which contribute to the acquisition of motor control from the period of infancy through adolescence. (Lecture 2 hours, Activity 2 hours)

**315H. Honors Motor Development (3)**

Prerequisites: BIOL 207, 208, PSY 100; upper-division standing; admission into KPE Honors Program. Developmental perspective of the factors which contribute to the acquisition of motor control throughout the life span. (Lecture 2 hours, Activity 2 hours.) Traditional grading only.

**320. Adapted Physical Education (3)**

Prerequisites: BIOL 208. This course is designed to prepare Kinesiology majors to meet the physical activity program needs of persons with disabilities. Designed primarily to understand the etiology and characteristics of persons with mental, physical, emotional, sensory, health, learning and/or multiple impairments. When appropriate, be able to successfully integrate the disabled individual into the physical education mainstream. (Lecture 2 hours, Activity 2 hours).

**332H. Honors Sociocultural Dimensions of Sport and Human Movement (3)**

Prerequisites: ENGL 100; upper-division status; admission into KPE Honors Program. Sociological and psychological correlations to human movement. Traditional grading only.

**332I. Sociocultural Dimensions of Sport and Human Movement (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Socio-cultural and psychological correlations to human movement.

**333H. Honors Philosophic Inquiry in Kinesiology and Physical Education (3)**

Prerequisites: Upper-division status and admission into KPE Honors Program. An examination of philosophical issues in kinesiology and physical education. Traditional grading only.

**335. Historical and Cultural Foundations of Sport in America (3)**

Survey of the history of sport. Historical identification of the cultural trends and functions of sport and physical education in America.

**337H. Honors Research in Kinesiology (3)**

Prerequisites: Upper-division status; admission into the KPE Honors Program. Research methods in Kinesiology. Traditional grading only.

**338I. Women in Sport (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as W/ST 338I.

**339I. Psychology of Sport Behavior and Athletic Performance (3)**

Prerequisites: Completion of GE Foundation requirements, PSY 100, and upper-division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as PSY 339I.

**343. Techniques and Analysis of Fitness (2)**

(Open to Kinesiology majors and minors only.) Knowledge and understanding needed to plan and implement fitness programs in the K-12 school setting. Analysis of the development, maintenance, implementation, and self-evaluation of physical fitness. Methods, techniques, instructional strategies, safety factors, motivation, and necessary equipment for teaching physical fitness. The activity component of the course includes fitness development that is designed to prepare the student for the Department's fitness proficiency requirement. Traditional grading only. (Lecture 1 hour, Laboratory 3 hours.)

**346. Wilderness Emergency Care (2)**

Prerequisites: One wilderness skill course or equivalent; KPE 210 or current certification in first aid and cardiopulmonary resuscitation. Techniques concerned with wilderness emergencies, including advanced first aid, cardiopulmonary resuscitation, search and rescue and emergency evacuation methods. (Lecture 1 hour, Activity 2 hours.) Course fee may be required.

**363. Theory and Analysis of Group Fitness Instruction (2)**

Prerequisite: KPE 263. Students in this course will learn to become effective group exercise leaders by understanding responsibilities of fitness leaders, principles of fitness, and leadership skill. Techniques for various group exercise activities will be taught. Open to Fitness Option students in Kinesiology and Physical Education only, or by permission of instructor. Traditional grading only. (Discussion 1 hour, Activity 2 hours.)

**364. Fitness for Adult Populations with Unique Health Considerations (3)**

Prerequisites: KPE 301. This course is designed to provide the students with scientific information regarding exercise testing and exercise prescription for adult special populations. Topics include pregnancy, diabetes, arthritis, stroke, respiratory disorder, coronary artery disease, hypertension, and obesity. Open to Fitness Option students in Kinesiology and Physical Education only, or by permission of instructor. Traditional grading only.

**367. Fitness and the Aging Process (3)**

Prerequisites: KPE 301. This course will provide knowledge in the area of fitness and the older adult. Topics will include scientific theories of aging, age-related changes that affect physical capacity, physical activity and its impact on the aging process, and physical activity programming for the older adult. Open to Fitness Option students in Kinesiology and Physical Education only, or by permission of instructor. Traditional grading only. (Discussion 2 hours, Laboratory 2 hours.)

**368. Resistance Training for Fitness (3)**

Prerequisites: KPE 300, 301. Students in this course will learn the details of utilizing resistance training for fitness. The focus of the course will be on the proper execution of resistance exercises typically performed in the health club setting. In addition, students will learn to design resistance-training programs based on scientific principles for individuals interested in developing muscular strength and endurance for general health and fitness. Open to Fitness and Athletic Training Option students in Kinesiology and Physical Education only, or permission of instructor. Traditional grading only. (Discussion 2 hours, Activity 2 hours.)

**370. Movement Theory and Practice of Elementary Physical Education (3)**

Prerequisite: KPE 270. A creative and movement oriented analysis of the components of basic movement with application to games, gymnastics, dance, aquatics, and developmental skills commonly experienced and/or taught in elementary school physical education programs. Principles, aims, and objectives of elementary physical education. Observation and practice in the teaching techniques used in elementary physical education. Designed for Kinesiology majors. (Lecture 2 hours, Activity 2 hours)

**380. Principles, Organization and Management of Secondary School Physical Education (3)**

Prerequisites: KPE 171, 237 or 238, 250, 253, 255, 257, 265, 266, 267, 343, and 370. Corequisite: EDSS 300P. Principles, organization and management of activities taught in secondary schools, includes basic organization and management strategies and fieldwork experience in public secondary school physical education. Traditional grading only. (Lecture 2 hours, Activity 2 hours)

**387. Physical Activities for the Disabled (3)**

Prerequisites: KPE 320, 427. Corequisite: KPE 489A. Adaptation of physical activities, equipment, and facilities for individuals with permanent disabilities affecting motor performance. (Lecture 2 hours, Activity 2 hours)

**388. Program Planning and Instruction in Adapted Physical Education (3)**

Prerequisite: KPE 387. Corequisite: KPE 489A. Emphasis on program planning and the development of teaching skills in Adapted Physical Education. (Lecture 2 hours, Activity 2 hours)

**405. Cardiopulmonary Aspects of Health-Related Exercise Programs (4)**

Prerequisites: KPE 210 or current First Aid and CPR certificates, KPE 301. Application of advanced exercise science concepts in the design and execution of cardiopulmonary exercise training programs for apparently healthy adults. Traditional grading only. (Lecture 3 hours, Laboratory 3 hours)

**407. Management Theory of Athletic Injuries (3)**

Prerequisites or corequisites: KPE 300, 307, 308; BIOL 208. Theory and management of specific injuries in physical education and athletics, including recognition, treatment and identification of trends in injury management.

**427./527. Physical and Motor Assessment (3)**

Prerequisites: KPE 315 or equivalent and KPE 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KPE 427; Graduate students register in KPE 527. Traditional grading only. (Lecture 2 hours, Activity 2 hours)

**430. Motor Control Principles and Theory (3)**

Prerequisite: KPE 312 or equivalent. Study of the principles, models, and theories of human movement control with an emphasis on application to sport, physical education, human factors, and human performance. Instruction is directed toward understanding the research methods used to evaluate motor control, fundamental principles of motor control, theoretical propositions of human movement control, and applications to relevant movement-intensive settings. Traditional grading only.

**431. Scientific Foundations of Locomotion (3)**

Prerequisites: KPE 300, 312. Instruction is directed towards understanding the influence of motor control theories, biomechanical principles, and constraints to human movement on locomotion. Traditional grading only.

**438./538. Motor Dysfunction and the Exceptional Person (3)**

Prerequisites: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

**441./541. Applied Biomechanics: Lifting and Work Capacity (3)**

Prerequisite: KPE 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to test and evaluate strength. Traditional grading only.

**448. Wilderness Studies: Leadership Practicum (3)**

Prerequisites or corequisites: KPE 346. Analysis and practice of the leadership and teaching techniques appropriate to the conduct of wilderness adventure programs. Course fee may be required.

**457. Applied Theory of Teaching Team Sports (3)**

Prerequisites: KPE 250, 253, 255, 257 or instructor permission; senior standing. Comprehensive analysis of the principles of movement, corrections of performance, and organizational strategies utilized in presenting team sports: basketball, field hockey, flag football, soccer, softball, team handball, and volleyball. Traditional grading only. (Lecture 2 hours, Activity 2 hours.)

**460. Applied Theory and Analysis of Non-Traditional Physical Education Games and Activities (2)**

Prerequisites: Open to Kinesiology majors and minors only, KPE 370, senior standing. Organization and management to effectively plan and implement a variety of non-traditional physical education games and activities such as cooperative games, problem solving activities, collaborative learning groups, and outdoor educational experiences. Traditional grading only. (Lecture 1 hour, Laboratory 3 hours.)

**461. Applied Theory of Teaching Individual and Dual Sports (3)**

Prerequisites: KPE 171A, 264, 266, 267 or instructor permission; senior standing. Comprehensive analysis of the principles of movement and organizational strategies utilized in archery, badminton, golf, paddle tennis, pickleball, racquetball, tennis, and track and field. (Lecture 2 hours, Activity 2 hours.) Traditional grading only.

**462./562. Advanced Strength and Conditioning (3)**

Prerequisites: KPE 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimens are emphasized. Traditional grading only.

**465./565. Clinical Exercise Electrocardiography (3)**

Prerequisites: BIOL 207, KPE 301, and/or instructor consent. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

**466./566. Biochemical and Hormonal Adaptations to Physical Activity (3)**

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KPE 466; graduate students register in KPE 566. Traditional grading only. Same course as FCS 466./566.

**467. Fundamentals of Personal Training (3)**

Prerequisites: KPE 368. This course is designed to provide the student with the theoretical knowledge and practical skill needed to become a personal trainer. The course covers such topics as the business of personal training, client-trainer relationships, fitness and health assessments and exercise prescription. Open to Fitness Option students in Kinesiology and Physical only, or by permission of instructor. Traditional grading only. (Discussion 2 hours, Laboratory 3 hours.)

**469. Fitness Management (3)**

Prerequisite: KPE 467. This course will provide knowledge in the area of management of fitness programs. Topics will include program development, personnel issues, financial and legal considerations, equipment purchasing, and marketing strategies for fitness programs. Open to Kinesiology Fitness Majors Only or by permission of instructor. Traditional grading only.

**471./571. Biofeedback Applications in Sport and Exercise Science (3)**

Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KPE 471; graduates register in KPE 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KPE 571 students. Traditional grading only.

**472./572. Applied Sport and Exercise Psychology (3)**

Prerequisites: Upper division status and permission of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

**475./575. Psychology of Coaching (3)**

Current topics of psychological concern and application as related to athletic performance.

**476. Physical Education for Elementary Teachers (3)**

Instruction and practice in developing physical education programs for children. The purpose of this lecture/laboratory course is to provide classroom teachers, elementary physical education specialists, and administrators with the information necessary to develop a quality physical education program based upon the California State Physical Education Framework. Emphasis is placed on learning progressions and the incorporation of the Physical Best Education and Assessment Program into physical education activities. (Lecture 2 hours, Activity 2 hours)

**477. Innovative Curriculum in Elementary School Physical Education (3)**

Prerequisites: KPE 370 or 476 or consent of instructor. Theory and application of elementary school physical education curriculum. Designed for students specializing in elementary school physical education programs. (Lecture 2 hours, Activity 2 hours)

**483. Measurement and Evaluation in Physical Education (3)**

Prerequisites: Senior Standing. Principles and techniques of construction, organization, administration, interpretation and evaluation of measuring devices used in Kinesiology. (Lecture 2 hours, Activity 2 hours)

**485. Neurological and Pathological Foundations for Kinesiotherapy (3)**

Prerequisites: BIOL 207, 208; KPE 300, 301, 320, 489F, or permission of instructor. Survey of neurological control of normal movement and the implications of various medical pathologies for rehabilitation. Emphasis on inflammatory processes, metabolic and vascular disturbances, traumatic injuries, nutritional deficiencies, neoplasms, degenerative conditions and congenital disorders as related to the practice of Kinesiotherapy. Traditional grading only.

**487./587. Supervised Activity Instruction Experience (1-3)**

Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 487; graduates register in KPE 587). Experience in the organization of and methods for the activity component of a course in kinesiology and physical education. A written report is required for KPE 587 students. May be repeated for a maximum of 4 units. Traditional grading only. Restricted to major students only. Not open to graduate students who have previously earned KPE 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

**488./588. Clinical Basis of Kinesiotherapy (3)**

Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Traditional grading only.

**489. Field Work in Physical Activity Settings (1-3)**

Prerequisite: Completion of Kinesiology course requirements for the major Option in which field work is taken. Supervised practice in working with individuals or small to large groups in public or private agencies and schools. Credit/No Credit grading only. May be repeated to a maximum of 9 units of credit.

**A. Fieldwork in Adapted Physical Education**

**B. Fieldwork in Athletic Coaching**

**C. Fieldwork in Athletic Training**

**D. Fieldwork in Fitness**

Additional Prerequisites: KPE 467, Completion of 200 hours in a corporate fitness setting, 200 hours in a traditional fitness setting, and 100 hours of approved fitness experience. Supervised fitness experience in working with individuals or small to large groups in public or private agencies. Open to Fitness Option students in Kinesiology and Physical Education only.

- F. Fieldwork in Kinesiotherapy
- G. Fieldwork in Motor Development
- K. Fieldwork in Wilderness Studies

Prerequisites: KPE 242, 244, 246 or 247, 243B or 243C or 245. Completion or corequisite of KPE 448, certification in CPR and First Aid, and permission of instructor. Supervised experience and practice in working with individuals and groups in public/private agencies and schools involved in wilderness activities. Students may enroll in 1-3 units of fieldwork. Each unit is equivalent to 40 hours of fieldwork assignment. A minimum of 120 hours are required for 3 units, of which at least 40 hours will be with the CSULB Wilderness Studies Program. The balance of the hours will be with public/private agencies.

#### 494./594. Exercise Science Internship (3)

Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KPE 300 for a biomechanics internship or KPE 301 for an exercise physiology internship or KPE 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KPE 494; Graduate students register in KPE 594. Traditional grading only. Course may be repeated to a maximum of 6 units.

#### 495./595. Supervised Laboratory Methods (1-3)

Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 495; graduates register in KPE 595.) Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. A written report is required for KPE 595 students. May be repeated for a maximum of 4 units. Traditional grading only. Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KPE 495 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.) Course may be repeated to a maximum of 4 units.

#### \*497. Independent Study (1-3)

Prerequisites: Major or minor in physical education, senior status and consent of KPE Department. Student will conduct independent library or laboratory research under the supervision of a faculty member and write a report of the investigation. May be repeated for a maximum of 6 units. Traditional grading only.

#### 497H. Honors Independent Study (3)

Prerequisites: Consent of instructor and admission into KPE Honors Program. Independent quantitative or qualitative research in the form of a thesis or project under the direction of a tenure-track faculty member. Traditional grading only.

#### \*499. Special Studies (1-3)

Group investigation of topics of current interest in kinesiology or athletics. Topics to be announced in the *Schedule of Classes*. May be repeated for a maximum of six units with different topics.

### Graduate Division

#### 511. Sports Marketing, Development, and Fund Raising (3)

Prerequisites: Graduate standing and a Baccalaureate Degree in Kinesiology/Physical Education or related field and admission to the KPE Graduate Sports Management Program This course will provide students with an overview of sport marketing and basic marketing terminology, as well as concepts of sports marketing and the application of these concepts. Topics for discussion include sport sponsorship, sport licensing, employee relations, community relations, media relations, customer relations, image enhancement, and the use of the Internet in sports marketing. Traditional grading only.

#### 521. Foundations of Sport Management (3)

Prerequisite: EDSS 450P or equivalent, or teaching experience (including student teaching). A course in the management and supervisory philosophies; principles and practices of administering and supervising physical education and athletic programs in the public school system, including scheduling, budgeting, public relations, facility planning, liability, supervision of personnel, curriculum and evaluation; techniques of management and supervision as they apply to athletics and physical education at the secondary and college levels.

#### 524. Analysis of Teaching in Physical Education (3)

Analysis of teachers and teaching in physical activity environment: focus on developing observational competencies, analysis of research completed and future research designs.

#### 525. Instructional Design in Physical Education (3)

Prerequisites: Undergraduate major in physical education, EDST 300. A systems approach to designing instruction for the physical education program.

#### 526. Applied Behavior Analysis in Physical Education (3)

Application of applied behavior analysis principles to physical education (sport) with particular emphasis on single subject research designs and behavior analysis in the physical education setting.

#### 527./427. Physical and Motor Assessment (3)

Prerequisites: KPE 315 or equivalent and KPE 320 or equivalent. Upper-division undergraduate or Graduate standing. Consent of instructor required for graduate students prior to registration. The course includes the selection, evaluation, administration and interpretation of various tests used in the physical and motor assessment practices of individuals with disabilities. The course is a requirement toward the Adapted Physical Education Specialist Credential. Upper-division students register in KPE 427; Graduate students register in KPE 527. Traditional grading only. (Lecture 2 hours, Activity 2 hours)

#### 530. Neuromotor Control (3)

Prerequisites: Graduate standing, KPE 312 or equivalent. Study of the neurological and muscular contributions to the control of human movement with emphasis on application of concepts to sports, physical activity, and human factors. Instruction is directed toward understanding the fundamental principles of motor control. Traditional grading only.

#### 537. Physical Education for Special Populations (3)

Foundations in the organization and conduct of Adapted Physical Education.

#### 538./438. Motor Dysfunction and the Exceptional Person (3)

Prerequisite: A basic undergraduate course in Adapted Physical Education or its equivalent. Recognition, analysis, assessment and remediation of movement problems in a child with minor nervous system dysfunctions.

#### 540. Biomechanical Factors in Human Movement (3)

Prerequisite: KPE 300 or equivalent. Study of film, video and force plate data collection for human movement evaluation, including data smoothing techniques. Quantitative kinematic and kinetic analysis examples including gait, jumping and lifting activities. Comparison of 2D versus 3D analyses of movement activities. Traditional grading only.

#### 541./441. Applied Biomechanics: Lifting and Work Capacity (3)

Prerequisite: KPE 300 or equivalent (Trigonometry and PHYS 100A recommended). Study of the mechanical properties of bone, ligament, tendon, and skeletal muscle. Development and description of selected biomechanical models with application to the evaluation of weight-lifting and rehabilitation exercises, as well as occupational lifting tasks. Critical analysis of methods used to develop and test strength. Traditional grading only.

#### 546. Developmental Aspects of Motor Behavior (3)

Prerequisite: KPE 315 or equivalent. The study of major factors which contribute to the development of motor skillfulness from birth to maturity.

**550. Instrumentation in the Exercise Sciences (3)**

Prerequisites: Graduate standing and KPE 301 or equivalent. Theoretical and practical analysis of instrumentation used in the exercise science laboratory. Concepts to be developed include basic fundamentals of scientific instrumentation, equipment validity and reliability. Instruments to be studied include those used in the assessment of cardiopulmonary functional capacity, body composition, muscular strength, and power. Use of personal computers in the laboratory will be emphasized. Traditional grading only.

**551. Advanced Exercise Physiology (3)**

Prerequisites: KPE 301 or equivalent and BIOL 207 or equivalent. Advanced concepts in exercise physiology. Traditional grading only.

**552. Physiology of Exercise Testing and Training (3)**

Prerequisites: KPE 301 or equivalent and BIOL 207 or equivalent. Study of the various aspects of health enhancement exercise programs (e.g., physiological assessment, physical training, weight control, and risk factor modification) for healthy individuals and patients with systemic diseases such as hypertension, coronary artery disease, and chronic airways obstruction. Traditional grading only.

**560. Health Related Problems in Sport (3)**

Prerequisites: KPE 301 and 307 or their equivalents and BIOL 207 and 208 or their equivalents. Examination of health problems related to engaging in vigorous physical activity. Traditional grading only.

**561. Musculoskeletal Injuries in Sport (3)**

Prerequisites: KPE 300 and 307 or their equivalents and BIOL 208 or its equivalent. An in-depth study of the most prevalent musculoskeletal injuries occurring in sports activities, including mechanisms, tissue responses, and management procedures. Traditional grading only.

**562./462. Advanced Strength and Conditioning (3)**

Prerequisites: KPE 300, 301. Study of biomechanical and kinesiological factors which are important in understanding the function and proper techniques for execution of a wide variety of standard and advanced weight training exercises. Physiological bases for strength training and adaptations caused by different training regimes are emphasized. Traditional grading only.

**565./465. Clinical Exercise Electrocardiography (3)**

Prerequisites: BIOL 207, KPE 301, and/or instructor consent. A study of the physiology and patho-physiology of the electrical activity of the heart. Instruction is directed toward pattern recognition of normal and abnormal resting and exercise electrocardiograms.

**566./466. Biochemical and Hormonal Adaptations to Physical Activity (3)**

Prerequisites: Upper-division undergraduate or Graduate standing; KPE 301 or equivalent; CHEM 111A or its equivalent. Consent of instructor required for upper-division undergraduate students prior to registration. Study of the biochemical and hormonal changes that occur as a result of acute and chronic physical activity. Emphasis will be placed on the application of concepts to the development of exercise training programs. Upper-division undergraduate students register in KPE 466; graduate students register in KPE 566. Traditional grading only. Same course as FCS 566./466.

**571./471. Biofeedback Applications in Sport and Exercise Science (3)**

Prerequisites: Upper-division or graduate standing and consent of instructor. (Undergraduates register in KPE 471; graduates register in KPE 571.) Application of biofeedback in: 1) enhancing athletic performance; 2) in developing exercise and bodybuilding skills; and 3) preventing sport and exercise-related injuries. A written report is required for KPE 571 students. Traditional grading only.

**572./472. Applied Sport and Exercise Psychology (3)**

Prerequisites: Upper division status and permission of instructor or graduate standing. Application of psychological skills and interventions to enhance athletic performance and exercise adherence.

**573. History of Sport in the U.S.A. (3)**

Prerequisite: KPE 335 or equivalent. An analysis of the history of American sport as it reflects the dominant themes in American society.

**574. Contemporary International Sport (3)**

Investigation of contemporary international sport in various world cultures.

**575./475. Psychology of Coaching (3)**

Current topics of psychological concern and application as related to athletic performance.

**577. Sport in U.S. Culture (3)**

Prerequisite: KPE 332I or equivalent. Analysis of physical activities in U.S. culture. Consideration of the relationships between sports and games and the factors of status, values, environment and cultural change.

**580. Computer Applications in Physical Education (3)**

Prerequisites: Graduate standing/permission from instructor. Introduction to computer hardware and software used in Kinesiology and Physical Education including DOS/Windows and Apple Macintosh operating systems. Topics include: hardware, operating systems, word-processing, spreadsheets, data exchange, presentation graphics/authoring tools, and video capture. Emphasis will be placed on integrating the use of hardware and software into a variety of Physical Education environments.

**587./487. Supervised Activity Instruction Experience (1-3)**

Prerequisite: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 487; graduates register in KPE 587). Experience in the organization of and methods for the activity component of a course in kinesiology and physical education. A written report is required for KPE 587 students. May be repeated for a maximum of 4 units. Traditional grading only. Restricted to major students only. Not open to graduate students who have previously earned KPE 487 credit in this course. (Conference 1 hour, Laboratory 2 hours per unit.)

**588./488. Clinical Basis of Kinesiotherapy (3)**

Prerequisites: Completion of Bachelor's degree in Kinesiology, Physical Therapy, Exercise Physiology, or Kinesiotherapy and admission into the Kinesiotherapy Certificate Program and successful completion of a course(s) in pathological and neurological foundations of rehabilitation or approval of the Director of the Kinesiotherapy Certificate Program. The theoretical foundations of clinical practice in Kinesiotherapy. Traditional grading only.

**588L. Kinesiotherapy Clinical Training I Laboratory (6)**

Corequisite: KPE 588. Instruction and observation at the Long Beach Veterans Administration Medical Center. Traditional grading only.

**589. Kinesiotherapy Clinical Training II (3)**

Prerequisite: Satisfactory completion of KPE 588. The theory and practice of kinesiotherapy techniques in a medical center setting. 500 hours of instruction and observation at the Long Beach Veterans Administration Medical Center. Traditional grading only.

**589L. Kinesiotherapy Clinical Training II (3)**

Corequisite: KPE 589. Laboratory instruction and observation at the Long Beach Veterans Administration Medical Center.

**590. Statistical Analysis and Measurement in Kinesiology and Physical Education (3)**

Prerequisites: EDSE 421, EDSS 450P or 450W, KPE 483 or equivalent. Consideration of the logic and application of statistical inference, sampling theory, correlation, analysis of variance and design of statistical studies. Critical analysis of selected research publications. Required of all master's degree candidates. To be completed within first 12 units of 500-600 series courses.

**592A. Sports Management Internship (3)**

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KPE 521 or 685; approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated for a maximum of 6 units. Traditional grading only.

### 592B. Sports Management Internship (6)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; KPE 521 or 685; approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved sport management/administrative setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Traditional grading only.

### 593A. Coaching Internship (3)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 20 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: 6 units in one semester may not be taken if student is full-time employed. May be repeated for a maximum of 6 units. Traditional grading only.

### 593B. Coaching Internship (6)

Prerequisites: Bachelor degree with a major or minor in Kinesiology or Physical Education or an approved related major; advancement to candidacy and approval of Intern Coordinator. A minimum of 40 hours per week for 16 weeks of supervised work experience in an approved coaching setting, jointly supervised by a University Faculty member and a supervisor from the assigned organization. May be in a paid or volunteer capacity. Note: May not be taken if student is full-time employed. Traditional grading only.

### 594./494. Exercise Science Internship (3)

Prerequisites: Upper-division or graduate standing with a grade of "B" or better in KPE 300 for a biomechanics internship or KPE 301 for an exercise physiology internship or KPE 312 for a motor control and learning internship. Consent of instructor required prior to registration. Provides a minimum of 120 hours of practical experience in applying exercise science concepts in a fieldwork setting. The internship will provide such experiences as conducting the biomechanical/physiological exercise testing and/or leading the exercise training of selected subject populations such as patients undergoing cardiac rehabilitation, asymptomatic adults, and athletes. Upper-division undergraduate students register in KPE 494; Graduate students register in KPE 594. Traditional grading only. Course may be repeated to a maximum of 6 units.

### 595./495. Supervised Laboratory Methods (1-3)

Prerequisites: Upper division or graduate standing and consent of instructor. (Undergraduates register in KPE 495; graduates register in KPE 595.) Experience in the organization of and methods for a laboratory in kinesiology and physical education. Includes assisting students with their experiments and laboratory reports. A written report is required for KPE 595 students. May be repeated for a maximum of 4 units. Traditional grading only. Restricted to Kinesiology major students only. Not open to graduate students who have previously earned KPE 495 credit in this course. (Conference 1 hour, laboratory 2 hours per unit) Course may be repeated to a maximum of 4 units.

### 597. Independent Research (1-3)

Prerequisites: Consent of KPE faculty member and graduate advisor. Independent research under the guidance of a faculty member. Varied learning activities utilized to achieve competency related to Physical Education not offered in regular classes. Written report required. Traditional grading only. (Independent Study)

### 630. Seminar in Motor Learning (3)

Prerequisites: KPE 312, 590 and 696 (may be taken concurrently). Identification and analysis of principles and concepts applicable to motor learning in physical education.

### 633. Seminar in Sport Psychology (3)

Prerequisites: KPE 332I or equivalent and PSY 100; teaching or coaching experience (including student teaching). Study of psychological theories and concepts and their relationship to human behavior in sport. Sport viewed in the context of the participant, the teacher/coach, the spectator and the entrepreneur.

### 638. Seminar in Trends in Adapted Physical Education (3)

Prerequisite: KPE 537 or 538, or equivalent. An examination and analysis of the current trends in Adapted Physical Education.

### 675. Seminar in Human Movement Theory (3)

Examination of the writings of the major human movement theorists including the aesthetic nature and significance of the human movement experience.

### 685. Seminar in Athletics (3)

Experience in the field. Special problems related to the administration of an athletic program including current issues and practices and supervised research in selected areas.

### 695. Seminar In Professional Literature (3)

Prerequisites: KPE 590, 696. Critical analysis and synthesis by comparative review of professional literature in kinesiology and physical education. Required of all candidates not electing thesis option.

### 696. Research Methods (3)

Prerequisites: KPE 590, undergraduate major in Kinesiology or Physical Education or related field. Methodological approaches to contemporary problems in physical education; research design and reporting; bibliography. Required of all master's degree candidates. To be completed within the first 12 units of 500-600 series courses.

### 697. Directed Studies (1-3)

Prerequisites: KPE 590, 696, advancement to candidacy. Research in an area of specialization under the direction of a faculty member.

### 698. Thesis/Project (1-4)

Prerequisites: KPE 590, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis/project.

### 699. Seminar in Selected Topics (3)

Intensive study of salient problems of current professional importance to experienced physical educators. May be repeated (with selection of a second topic) for a maximum of six units. Topics to be announced in the *Schedule of Classes*.

## Certificate in Latin American Studies (code 1-8090)

Latin American Studies administers an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Latin American Studies. Courses used to meet this certificate requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

### Requirements

1. The following are the requirements for the Latin American Certificate Program:
  - A. A Bachelor's Degree with a major in a traditional discipline; may be completed concurrently with the certificate.
  - B. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration.
  - C. Students must consult with and receive approval from the program advisor.
2. The instruction Program is comprised of 24 units which may be completed concurrently, distributed as follows:
  - A. CORE (Required of all students 6 units. Choose from two disciplines) ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359, SPAN 445
  - B. ELECTIVES: 18 units from the following disciplines. Cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490\*, 499\*; CHLS 352, 380, 400, 420, 499\*; C/LT 440, 499\*; ECON 363, 490\*, 499\*; HIST 162A, 162B, 362, 364, 366, 461, 462, 463, 466, 490\*, 495, 498\*; FEA 392C; POSC 358, 359, 497\*, 499\*; SOC 341, 490\*, 499\*; SPAN (RGRLL) 341, 441, 445, 492, 550, 490\*, 499\*

\*Special Topics and Directed Studies courses in the area of Latin American Studies have to be approved by the advisor.

## Minor in Latin American Studies (code 0-8527)

The requirements for a recently established interdisciplinary Minor in Latin American Studies can be found in this catalog in the sections describing the Departments of History and Romance, German, Russian languages and Literatures.

# LEGAL STUDIES

*College of Liberal Arts*

Director

Albie Burke (History)

Telephone

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

## Certificate Program in Legal Studies (code 1-8100)

The Certificate Program in Legal Studies is designed for students who are interested in the study of law as a cultural product and as a field of critical inquiry. It is not a professional program in para-legal education. The certificate may be earned in conjunction with any baccalaureate degree and should be especially useful to those preparing for careers in government service, business, journalism and education. Courses taken in the program may be used to satisfy major, minor, other credential or general education requirements. No more than 12 units, however, may be in the candidate's major.

The Legal Studies Certificate may be earned concurrently with or following the award of the baccalaureate degree from CSULB or another accredited institution. See pp. 102 and 114.

### Requirements

Twenty-four total units distributed as follows:

1. Twenty-one units which must include HIST 308I and an additional 18 units from the courses listed below. The courses taken in the program must be from a minimum of three departments. The selection of courses is made by the student in consultation with an adviser in the program;
2. Project paper (3 units). To be written during the senior year under the supervision of a faculty member participating in the Certificate Program. The paper can be either an exploratory project (in which a subject is researched in a detailed and original manner) or an analytic effort (where fewer sources are used but the discussion of the material is developed more fully).

### Legal Studies Courses

ASAM 346; B/ST 332; CRIM 301, 351; ECON 355,455; FIN 222, 324; HIST 360I, 308I, 479, 480, 489; PHIL 352, 451I, 452I; POSC 311, 312, 318, 376, 412, 414, 419; SW 350; COMM 441I; W/ST 308.

Persons interested in the Program for Legal Studies should contact Dr. Albie Burke, Director, Department of History.

## Bachelor of Arts in Liberal Studies (code 2-0300) (120 units)

The Liberal Studies major provides a rich, rigorous cross-disciplinary liberal arts program of study. There are three programs in the major: 1) The Integrated Teacher Education Program (ITEP) is for students intending to become teachers who wish to combine subject matter preparation for elementary teaching with coursework leading to a Multiple Subject teacher credential; 2) Track I is for students who seek subject matter preparation for elementary teaching as preparation for a post-baccalaureate credential program; 3) Track II is for students with more varied professional or career goals who prefer a sound generalist program to one requiring early specialization.

### General Education and the Liberal Studies Major

The General Education requirements for students majoring in Liberal Studies are unique. The Liberal Studies program is not only an approved major, but also an approved alternate general education program. In completing the Liberal Studies major, students concurrently satisfy their general education requirements. Students changing to another major from Liberal Studies, however, will be subject to the standard university General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

## The Liberal Studies Program

The program of study for the Liberal Studies major is composed of two parts: a Core and a Concentration. There are three program tracks in Liberal Studies, each with its own Core and related Concentrations.

The Integrated Teacher Education Program (ITEP) combines the study of academic subject matter for elementary school teaching with professional preparation and student teaching. Successful completion of ITEP includes both a Bachelor of Arts degree and a Multiple Subject (CLAD) teaching credential.

Track I of the Liberal Studies program is designed for those students who wish to pursue a Bachelor of Arts degree to prepare them in the academic subject areas relevant to elementary and special education teaching. Track I is an approved pre-professional program of subject matter preparation consistent with the standards established by the California Commission on Teacher Credentialing. Students who complete the Track I program do not have to take the Multiple Subject Assessment for Teachers (MSAT) examination as a requirement for post-baccalaureate credential programs.

Track II of the Liberal Studies program is designed for those students who seek a rich, non-specialized, multi-dimensional and cross-disciplinary course of study as a foundation for life-long learning, enlightened citizenship, and a wide range of academic and career opportunities.

## INTEGRATED TEACHER EDUCATION PROGRAM (ITEP)

### Bachelor of Arts in Liberal Studies (code 2-0333)

### Multiple Subject Credential - Cross Cultural and Academic Development Emphasis (code 200)

The Integrated Teacher Education Program (ITEP) combines the study of academic subjects aligned to California standards for the K-8 curriculum with professional preparation courses and field experiences leading to a Multiple Subject Credential with a Cross-Cultural Language and Academic Development (CLAD) emphasis.

Upon successful completion of the program, students will receive both a Bachelor of Arts in Liberal Studies and a preliminary Multiple Subject Credential (CLAD). The B.A. portion of the program satisfies the subject matter competence requirements of the California Commission on Teacher Credentialing (CCTC) for multiple subject teachers.

Within the Integrated Teacher Education Program there are 117 units of required baccalaureate-level coursework and 26 units of credential-specific coursework.

Students who complete the Core and Concentration courses, who have completed at least 120 hours of approved Service Learning, and who meet all other University requirements, but who do not advance to the Credential portion of the program, will be eligible to receive a B.A. in Liberal Studies and may apply for admission to the post-baccalaureate Multiple Subject Credential Program.

There are multiple pathways to the teaching profession. ITEP is designed for students who begin their undergraduate education at CSULB or who transfer into the University in pursuit of both a baccalaureate degree as well as a Multiple Subject teaching credential. Prospective credential candidates who already hold a bachelor's degree, or who need information about other pathways and options in teacher credentialing, should refer to the sections of this catalog which describe programs in Teacher Education, Single Subject Teacher Education, and Educational Psychology, Administration and Counseling. Further information about teacher preparation programs can also be obtained from the College of Education at (562) 985-9259 or by e-mail: [cedinfo@csulb.edu](mailto:cedinfo@csulb.edu)

### General Education and the Integrated Teacher Education Program

As with other Liberal Studies majors, students in the Integrated Teacher Education Program have unique General Education requirements. ITEP is not only an approved major, but an approved alternate general education program. ITEP students receive their General Education advisement within the Liberal Studies office. In completing ITEP, students concurrently satisfy their general education requirements. Students changing their major from ITEP to a major other than Liberal Studies, however, will be subject to the standard University General Education requirements and will want to consult the Academic Advising Center for G.E. advising.

### Accelerated ITEP – The Four-Year Option

ITEP is designed so that it is possible for students to obtain both their B.A. in Liberal Studies and their preliminary multiple subject teaching credential in four calendar years. It is also possible under specific conditions for students to *guarantee* that they will complete the full ITEP curriculum in four calendar years. To receive this guarantee students must meet specific academic criteria, commit themselves to full-time study, and follow the approved four-year curriculum sequence. Contact the Liberal Studies office for further information.

### The ITEP Curriculum

The ITEP curriculum has several components. Students complete required coursework in the ITEP Core, they choose and complete courses in an ITEP Concentration, and they complete coursework in the methodology of teaching, including student teaching. Admission to this final, Credential portion of the program requires that students apply and be accepted into the Multiple Subject Credential Program at CSULB. In addition, a minimum of 120 hours of service learning, coordinated by the SERVE Program in the College of Education, must be completed prior to graduation.

### Admission to the Multiple Subject Credential Program

Prior to completion of EDEL 300, ITEP students must be formally admitted into the Multiple Subject Credential Program (MSCP) at CSULB. Admission to the MSCP requires that the candidate: 1) purchase the MSCP for ITEP Handbook; 2) complete EDEL 200 with a grade of "B" or higher; 3) attempt the California Basic Educational Skills (CBEST) examination; 4) attain a cumulative grade point average of at least 2.75; 5) submit a portfolio which includes a SERVE evaluation as well as a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher; 6) attend an interview panel; 7) submit a negative tuberculosis skin test or chest X-ray taken within the last three years.

## The ITEP Core

A minimum of 105 units distributed in Areas I, II, III, IV, V, VI and VII. No Core classes may be taken credit-no credit. No Core classes may be used to fulfill Concentration requirements.

### Area I: Language Studies

(Minimum 19 units)

Group 1. Composition in English:

Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100, ENGL 100W

Group 2. Applied Composition: ENGL 309

Group 3. Oral Communication in English:

Choose one course from COMM 130, 335

Group 4. Children's Literature: ENGL 481

Group 5. Language Acquisition:

Choose one course from C D 329, ED P 454, LING 329

Group 6. Integration and Assessment: C/LA 400

### Area II: Mathematics

(Minimum 12 units)

Group 1. Probability and Activities-Based Statistics: MTED 105

Group 2. Real Numbers: MTED 110

Group 3. Higher Math: MTED 211\*

(\*Students who choose a Math Concentration must take MTED 312 instead of MTED 211)

Group 4. Integration and Assessment: MTED 402

### Area III: Natural Science

(Minimum 15 units)

Group 1. Physical Science: CHEM 105, PHSC 112

Group 2. Earth Science: Choose from: GEOL 102+104, 106\* (\*GEOL 106 is the preferred course)

Group 3. Life Science: BIOL 200

Group 4. Integration and Assessment: SCED 401

### Area IV: History/Social Science

(Minimum 18 units)

Group 1. American History:

Choose one course from HIST 172, 300

Group 2. California History: HIST 473

Group 3. American Institutions:

Choose one course from POSC 100, 326\*, 391

(\*POSC 326 is limited to and only required of students who have met the U.S. Constitution requirement in a state other than California or through Advanced Placement credit and who must meet the Title V California State and Local Government requirement.)

Group 4. Multicultural Dimensions:

Choose one course from AIS/ASAM/BST/CHLS/ 215, AIS/ASAM/BST/CHLS/WST 319, ANTH 421/LING 425

Group 5. World History/Geography:

Take either \*HIST/GEOG 250, or HIST 211+ GEOG 100 (\*HIST/GEOG 250 is the preferred course)

Group 6. Integration and Assessment: C/LA 471

## Area V: Arts and Humanities

(Minimum 15 units)

Group 1. Music: MUS 180

Group 2. Visual Art: ART 300

Group 3. Dance or Theater:

Choose one course from: C/LT 124, 324I, DANC 110, 179, THEA 113, 122, 124, 324I

Group 4. Ethics, Values and Beliefs:

Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485

Group 5. Integration and Assessment: L/ST 404

## Area VI: Critical Issues in Teaching and Learning

(Minimum 19 units)

Group 1. Library, Research Skills, and Technology:

Choose one course from \*ETEC 110, 444  
(\*ETEC 110 is the preferred course)

Group 2. Critical Thinking:

Choose one course from: A/ST 190, COMM 131+131W, ENGL 102, HIST 101, PHIL 170, PSY 130

Group 3. Family and School Partnerships: EDP 180

Group 4. Risk, Coping and Resilience:

Choose one course from: FCS 219, 319

Group 5. Child Development and Learning:

Choose one course from: EDP 301, HDEV 307I

Group 6. Physical Education: KPE 476

Group 7. Health Science: H SC 411A

## Area VII: Introduction to Elementary Education

(Minimum 7 units)

Group 1. Teaching and Learning: EDEL 100, 200, 300

## The ITEP Concentrations

ITEP students must complete a 12 unit Concentration in one of the following fields: Language and Literacy, Mathematics, Natural Science, or History/Social Science. Advisor approval must be received both for the choice of Concentration and for the specific course work, as well as for any subsequent changes in the plan of study. No course in the Concentration may be taken credit-no credit. No course used in the Core may be used in the Concentration.

### Language and Literacy Concentration

Group 1. Foundations of Literature: ENGL 180

Group 2. Exploring Literature:

Choose one course from AIS 340, ASAM 260, 360, B/ST 340, 343, 346, CHIN 370, CHLS 150, C/LT 415I, ENGL 250A, 250B, 363, 370A, 370B, 375, 385, 386, 482, JAPN 370, W/ST 382

Group 3. Sociolinguistics and Schooling: LING/EDEL 379

Group 4. Language, Literacy and Culture:

Choose one course from: ANTH 413, 475, COMM 309, 330, 355, EDP 432, 439, 485, ENGL 300, 327, 410, 435, 436, LING 327, 413, 470, 485, 486, W/ST 475

### Mathematics Concentration

Group 1. Technology: MTED 301

Group 2. History of Mathematics: MTED 315

Group 3. Number Theory and Algebraic Structures: MTED 320

Group 4. Functions, Models and Concepts of Calculus: MTED 325

## Natural Science Concentration

Each student pursuing a Natural Science Concentration will choose one of two pathways. Pathway A is a "breadth" pathway which is particularly appropriate for future K-5 teachers. In Pathway A students choose at least one course from three different areas. Pathway B is a "depth" pathway which is particularly appropriate for future 6-8 grade teachers as well as for students who prefer a stronger emphasis on investigation and experimentation. In Pathway B students choose at least three courses from a single area.

### Pathway A: Breadth

Choose coursework from EACH of the following groups:

Group 1. Earth Science:

Choose one course from: GEOL 160, 190, 240, 300I

Group 2. Life Science:

Choose one course from: BIOL 100, 153, MICR 101, 300I

Group 3. Physical Science:

Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A

Group 4. Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from GEOL 105, ASTR 100L, NSCI 309I, NSCI 375I or any additional class from those listed above

### Pathway B: Depth

Choose an option and take three courses in that option:

Earth Science Option:

Choose three courses from: GEOL 160, 163, 190, 240, 300I, 341, GEOL/BIOL 303I

Life Science Option:

Choose three courses from: BIOL 100, 153, GEOL/BIOL 303I, MICR 101, 300I

Physical Science Option:

Choose three courses from: ASTR 100, CHEM 100, 111A, 111B, 202, 302, PHYS 100A, 100B

Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from ASTR 100L, NSCI 309I, NSCI375I, or any additional class from any other of the options listed above

## History/Social Science Concentration

Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives, 3) Social and Cultural Perspectives, 4) Geographic Perspectives. No more than one lower-division class may be taken in the History/Social Science Concentration.

### California Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from: AIS 490, ANTH 349, ASAM 200, 220, 335I, CHLS 300, HIST 370, 402, 462, 471, 482

### Group 3: Social and Cultural Perspectives:

Choose one course from: AIS 335, ANTH 322, ASAM 330, 331, 332, 333, 334, CHLS 352/SOC 341, POSC 323, POSC 326

### Group 4: Geographic Perspectives:

Choose one course from: GEOG 120, 304

### United States Studies

#### Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

#### Group 2: Historical Perspectives:

Choose one course from AIS 105, ANTH 347, ASAM 200, 220, 335I, B/ST 120, 190, 381, CHLS 300, 335I, 390I, ECON 360I, HIST 370, 372, 373, 376, 481, 485A

#### Group 3: Social and Cultural Perspectives:

Choose one course from AIS 335, ANTH 321, ANTH/W/ST 475, ASAM 330, 331, 332, 333, 334, 340, 345, 346, 347, 352, 370, 380, 381, B/ST 353, 400, 410, 420, 423, 424, CHLS 310, 340, 350, 415, ECON 300, HIST 381, 469, 471, 474I, 477A/B, 485B, 486, LING 470, POSC 323, 395I, 420, 423, 424, SOC 320, 325, 340, 345, 346, 423, 466, SW 423, W/ST 102, 308, 315, 318I, 325, 381, 420, 430, 485B.

#### Group 4: Geographic Perspectives:

Choose one course from GEOG 120, 306, 401, 466

### Global Studies

#### Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

#### Group 2: Historical Perspectives:

Choose one course from: ANTH/HIST 307I, ANTH 345, A/ST 300I, A/ST 301I, B/ST 200, 304, 430, 498, ECON 361I, 368, GEOG 307I, HIST 211, 304, 362, 364, 382A, 382B, 383A, 383B, 385, 386, 391, 392, 396, 431, 432, 492, POSC 401, W/ST 402

#### Group 3: Social and Cultural Perspectives:

Choose one course from: ANTH 314, 323, 332, 335, 351, A/ST 320, 393I, 495I, B/ST 337, 404, 460, CHIN 250, ECON 306I, HIST 406B, 466C, POSC 220, 371, 388I, 395I, SOC 350, 466, 494, W/ST 401I, 406, 410, 432

#### Group 4: Geographic Perspectives:

Choose one course from: GEOG 150, 160, 308I, 309I, 314I, 316, 320I, 455, 460, I/ST 319I, 355, POSC 358, 359, 362, 363, 366, 367

## Credential Coursework in ITEP

(Minimum 26 units)

1. Teaching Reading and Language Arts: EDEL 453A, 453B, 453C
2. Teaching Mathematics in Diverse Classrooms: EDEL 462
3. Teaching Social Studies in Diverse Classrooms: EDEL 471, 473A-ITEP
4. Teaching Science in Diverse Classrooms: EDEL 475
5. Student Teaching in Diverse Classrooms: EDEL 482D

## TRACK I (code 2-0100)

The minimum unit requirement for the Liberal Studies major, Track I, is 117 units which includes both Core and Concentration. The Track I program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track I program.

The Track I Core consists of a minimum of 102 units distributed across six areas: I. Language Studies (minimum 22 units); II. Mathematics (minimum 9 units); III. Natural Sciences (minimum 14 units); IV. History and Social Sciences (minimum 24 units); V. Arts and Humanities (minimum 15 units) and VI. Learning and Well-Being (minimum 18 units). No course in the Track I core may be taken credit-no credit.

The Track I Concentration consists of 12-16 units of integrated course work with advisor approval. Only one lower-division course may be used to satisfy concentration requirements, except in the Natural Science concentration. No course in the Track I concentration may be taken credit-no credit, and no course used to meet Core requirements may be counted toward the concentration.

In addition 120 hours of approved service-learning in an elementary or middle school must be completed prior to graduation as a means to learning about cultural diversity in the community, about current problems besetting students in the public schools, about successful intervention strategies for students needing special attention, and promotion of individual civic responsibility.

## Requirements

### Service Learning

The way to earn the required 120 hours of Service Learning is participation in the SERVE (Service Experience for Revitalizing Education) program, which provides orientation and training in addition to school placements. To participate in SERVE, students must have a 2.0 grade-point average, current TB clearance, and be available for either 2 two-hour time blocks or 1 four-hour time block during public school hours over a 10 week period during the semester. For further information and the schedule for orientation and training sessions, contact the Liberal Studies office (LIB E 127) or SERVE office (ED1 168).

### Track I Core

A minimum of 102 units distributed as specified in Areas I, II, III, IV, V and VI. No core classes may be taken credit-no credit

#### Area I: Language Studies (minimum 22 units)

##### Group 1. Composition in English:

- a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100, 100W;
- b) ENGL 309

##### Group 2. Oral Communication in English:

Choose one course from COMM 130, 335

##### Group 3. Literature in English:

- a) Choose one course from C/LT 100, ENGL 180, 250A, 250B, 370A, 370B;
- b) Choose one course from ENGL 481, COMM 352

##### Group 4. Language Acquisition: Choose one from either a) or b):

- a) C/D 329, EDP 454, LING 329;
- b) CHIN 201, 202, FREN 201A, 201B, GERM 201A, 201B, ITAL 201A, 201B, JAPN 201, 202, RUSS 201A, 201B, SPAN 201A, 201B (Students with more advanced language competencies substitute appropriate higher level language courses for those listed here.)

##### Group 5. Integration and Assessment: C/LA 400

Area II: Mathematics (minimum 9 units)

Group 1. Real Numbers: MTED 110

Group 2. Higher Math:

Choose one course from MTED 211\*

(\*Students who choose a Math Concentration must take MTED 312 instead of MTED 211.)

Group 3. Integration and Assessment. MTED 402

Area III: Natural Sciences (minimum 14 units)

Group 1. Life Science: BIOL 200

Group 2. Physical Science: PHSC 112

Group 3. Earth Science: GEOL 102 + 104

Group 4. Integration and Assessment: SCED 401

Area IV: History and Social Sciences (minimum 24 units)

A. American History, Culture, Society

Group 1. U.S. History:

a) Choose one course from HIST 172, 300;

b) HIST 473

Group 2. American Institutions:

Choose one course from POSC 100, 391, \*326

(\*POSC 326 is limited to and only required of students who have met the U.S. Constitution/Government requirement in a state other than California or through Advanced Placement Credit and who must meet the Title V California State and Local Government requirement.)

Group 3. Multicultural Dimensions:

Choose one course from AIS 319, ANTH 421/LING 425, ASAM 319, B/ST 319, CHLS 319, W/ST 319

B. World History, Culture, Society

Group 1. Geography:

Choose one course from GEOG 100, 100W

Group 2. World History:

Choose one course from HIST 211, 212

Group 3. Cultural Anthropology:

Choose one course from ANTH 120, 314, 412I

Group 4. Integration and Assessment: C/LA 403

Area V: Arts and Humanities (minimum 15 units)

A. Visual and Performing Arts

Group 1. Visual Art and Music:

a) ART 300;

b) MUS 180

Group 2. Dance or Theatre:

Choose one course from C/LT 124, 324I, DANC 110, THEA 113, 122, 124, 324I

B. Humanities

Group 1. Ethics, Values and Beliefs:

Choose one course from PHIL 100, 160, 160W, 203, 204, 305, R/ST 100, 202, 485

Group 2. Integration and Assessment: L/ST 404

Area VI: Learning and Well-Being (minimum 18 units)

Group 1. Growth and Development:

a) PSY 100;

b) Choose one course from EDP 301, HDEV 307I, PSY 361

Group 2. Health and Well-Being:

a) HSC 411A;

b) KPE 476

Group 3. Access to Learning:

a) Choose one course from: A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, \*UHP 100 (\*UHP 100 is limited to students in the University Honors Program);

b) Choose one course from ENGL 337, ETEC 444, MTED 301

## Track I Concentration

A minimum of 12 units with advisor approval, at least 9 of which must be at the upper-division (300-400) level (with the exception of the Natural Science concentration) in one of the thematic programs of study identified below. No concentration course may be taken credit-no credit. No course used to fulfill a core requirement may be used to fulfill a concentration requirement.

Students must gain approval for a concentration and curricular plan. Normally the proposal is submitted before the student begins to take courses in the concentration. The proposal may be made in writing, or may be brought directly to a faculty advisor for approval. Subsequent modifications of the concentration curriculum must also be approved.

## Bilingual Spanish-English

Subject preparation for a Multiple Subject Credential with a bilingual, cross-cultural, language and academic development (BCLAD) emphasis requires students to demonstrate proficiency in a targeted language and understanding of the culture of a targeted group. This concentration focuses on the Spanish language and Latino culture to be consistent with the requirements of the BCLAD emphasis in the CSULB credential program. The primary focus of the concentration is development of language skills. Students with demonstrated language proficiencies in reading, writing and speaking at an advanced level may seek to substitute additional culture studies for required language classes. Prior to proposing this concentration or completing any course work toward it, students should meet with the Spanish undergraduate advisor who will be able to determine language proficiencies. (The following Core classes are highly recommended for students proposing this concentration: CHLS 319 in Area IV, A, Group 3; ANTH 412I in Area IV, B, Group 3; EDP 301 in Area IV, Group 1b.)

Complete 15 units from:

Area 1. Language Foundations (9 units):

SPAN 312, 313, 322

Area 2. Literary Analysis (3 units): SPAN 310

Area 3. Culture Study (3 units):

Choose from CHLS 340, CHLS 350/SOC 340

## Cultures, Values and Beliefs

Focus is on humanistic study of cultural traditions, both Western and non-Western, and the values and beliefs that have shaped them. Insight will be gained into motivating and orienting ideas that have given meaning to individual lives and structured human relationships. Special attention is given to religious, philosophical and ethical perspectives. (No course used to meet requirements of the core may be used to meet the requirements of

the concentration; no more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

Area 1. Western Culture (3 units):

Choose from CLSC 310I, C/LT 310I, 414I, HIST 310I, 323I, 335, 337, 339, 400I, 414I, 477A, 477B, PHYS 400I

Area 2. Non-Western Cultures (3 units):

Choose from ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 382A, 382B, 383A, 383B, 385, 431, 441, 461, RUSS 410I

Area 3. Values and Beliefs/Western (3 units):

Choose from HIST 371, PHIL 100, 203, 204, 330, 342, 352, 361, R/ST 102, 383I, 391I, 425I, 482I, 485

Area 4. Values and Beliefs/Non-Western (3 units):

Choose from AIS 335, ASAM 380, B/ST 353, PHIL 306, 307, R/ST 103, 331I, 341I, 343, 344, 351

Area 5. Ethical Values (3 units):

Choose from MICR 302I, PHIL 160, 160W, 363, R/ST 302I

## Health, Physical Education and Life Management

Provides students with a breadth and depth of knowledge, attitudes and behaviors that prepares them in the areas of health, physical education and fitness, mental health, family life and nutrition. The areas of emphasis include substance use and abuse, family life/health and sexuality education, nutrition, violence prevention (including child abuse and suicide prevention), physical activity and fitness, motor skills and stress management. (Credit in the concentration will be granted for either HSC 425I or FCS 419, but not both.)

Complete 15 units from:

Area 1. Health (3 units):

Choose from HSC 421, 423, 425I, 427

Area 2. Physical Education (3 units): KPE 477

Area 3. Life Management Skills (3 units):

Choose from FCS 132, 319, 419, REC 371

Area 4. Additional Selected Study (6 units):

Choose from those listed in Areas 1 and 3 not completed.

## Historical Perspectives

Prepares students in the subjects identified in the History-Social Science Framework for California Public Schools which provides the rationale and coherence for this course work. Emphasis is upon historical perspective not only in terms of Western/American tradition, but also in terms of other world societies and peoples. (The following core courses are recommended for students choosing this concentration: HIST 111 in Area IV, B, Group 2; ANTH 314 in Area IV, B, Group 3 and AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3.)

Complete 15 units from:

Area 1. Peoples of the World (3 units):

Choose from ANTH 321, 323, 324, 32, 333, 335, GEOG 309I, 316, 318, 320I, 326

Area 2. Ancient World Civilizations (3 units):

Choose from ANTH 313, 345, 347, A/ST 300I, HIST 313, 314, 316, 382A, POSC 301

Area 3. U.S. Emerges as a Nation (3 units):

Choose from HIST 372, 375, 477A, 485A, W/ST 485A

Area 4. California (3 units):

Choose from ANTH 322, 349, CHLS 300, GEOG 304, HIST 370, POSC 326

Area 5. American Society Today (3 units):

GEOG 306, 466, HIST 380, 474I, W/ST 307I

## History/Social Science

In addition to deepening their knowledge of specific subjects in this area of study, students with a concentration in History/Social Science will be exposed to the specific modes of inquiry characteristic of such disciplines as history, anthropology and geography. Each student pursuing a History/Social Science Concentration will choose one of the following areas of emphasis: California Studies, United States Studies, or Global Studies. California Studies is most appropriate for 4<sup>th</sup> grade teaching, United States Studies for 5<sup>th</sup> or 8<sup>th</sup> grade teaching, and Global Studies for 6<sup>th</sup> grade teaching. Within each area of emphasis, each student will take one course in each of the following areas: 1) Anthropological Perspectives, 2) Historical Perspectives, 3) Social and Cultural Perspectives, 4) Geographic Perspectives.

Complete 12 units from:

### California Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from AIS 490, ANTH 349, ASAM 200, 220, 335I, C/LA 485, CHLS 300, 335I HIST 370, 402, 462, 471, 482

Group 3: Social and Cultural Perspectives:

AIS 335, ANTH 322, ASAM 330, 331, 332, 333, 334, CHLS 352/SOC 341, POSC 323, POSC 326

Group 4: Geographic Perspectives: GEOG 120, 304

### United States Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from AIS 105, ANTH 347, ASAM 200, 220, 335I, B/ST 120, 190, 381, CHLS 300, 335I, 390I, ECON 360I, HIST 370, 372, 373, 376, 481, 485A, W/ST 485A

Group 3: Social and Cultural Perspectives:

Choose one course from AIS 335, ANTH 321, ANTH/W/ST 475, ASAM 330, 331, 332, 333, 334, 340, 345, 346, 347, 352, 370, 380, 381, B/ST 353, 400, 410, 420, 423, 424, CHLS 310, 340, 350, 415, ECON 300, HIST 381, 469, 471, 474I, 485B, 486, LING 470 POSC 323, 395I, 420, 423, 424, SOC 320, 325, 340, 345, 346, 423, 466, SW 423, W/ST 102, 308, 315, 318I, 320, 325, 381, 485B, 420, 430

Group 4: Geographic Perspectives:

Choose one course from GEOG 120, 306, 401, 466, U/ST 301I

### Global Studies

Group 1: Anthropological Perspectives:

Choose one course from: ANTH 412I, ANTH 421/LING 425

Group 2: Historical Perspectives:

Choose one course from ANTH/HIST 307I, ANTH 345, A/ST 300I, A/ST 301I, B/ST 200, 304, 430, 498, ECON 361I, 368, GEOG 307I, HIST 211, 304, 362, 364, 382A, 382B, 383A,

383B, 385, 386, 391, 392, 396, 431, 432, 492, POSC 401, W/ST 402

Group 3: Social and Cultural Perspectives:

ANTH 314, 323, 332, 335, 351, A/ST 320, 393I, 495I, B/ST 337, 404, 460, CHIN 250, ECON 306I, HIST 406B, 466C, POSC 220, 371, 388I, 395I, SOC 350, 466, 494, W/ST 401I, 406, 410, 432

Group 4:

GEOG 150, 160, 308I, 309I, 314I, 316, 319, 320I, 355, 455, 460, I/ST 319I, 355, POSC 358, 359, 362, 363, 366, 367

## Human Behavior

Provides an understanding of basic principles underlying human behavior. Why do people interpret, believe, feel, think and act as they do? Basic issues include: How people process information and how they organize what they learn into knowledge structures; processes in social learning; how people influence other people and individual differences in ability and personality that affect behavior. These principles will be applied to specific issues in courses selected from a broad range of disciplines. (Credit in the concentration will be granted for either PSY 351 or SOC 335I, but not for both.)

Complete 15 units from:

Area 1. Basic Principles (6 units):

Choose from ANTH 311I, PSY 351, 356, 370, SOC 100, 335I

Area 2. Application/Race and Ethnicity (3 units):

Choose from ANTH 419, ASAM 340, B/ST 310, 325, 410

Area 3. Application/Gender Roles (3 units):

Choose from ANTH 351, FCS 358, HIST 309I, PSY 352, 354, 366, SOC 325, W/ST 314, 325, 420

Area 4. Application/Social Environments (3 units):

Choose from ANTH 436, ECON 309I, FCS 309I, 410, FIN 309I, HSC 421, POSC 428, PSY 381, SOC 320, 336

## Human/Child Development

Provides students with a background in the developmental issues of children, adolescents and adults within a family and social context. Specific areas focus on the intellectual and socio-emotional development of individuals from birth through aging and the effects of the near environment on their development. Factors which effect individual variability in growth and development such as gender, family, racial, ethnic and cultural differences will be explored. (The following core courses are REQUIRED for students selecting this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3 and ANTH 120 in Area IV, B, Group 3.)

Complete 15 units from:

Area 1. Intellectual and Social Development (3 units):

Choose from EDP 305, FCS 314, PSY 463

Area 2. Adult Development (3 units):

Choose from GERN 400I, HDEV 357I, PSY 365, SOC 464

Area 3. The Child in the Family (3 units):

Choose from ASAM 340, B/ST 410, FCS 319, 412, 413

Area 4. Social Ecology of Child Development (6 units):

Choose from B/ST 420, CHLS 350/SOC 340, EDP 302, 350, 485/LING 485, FCS 411, 430, HDEV 360, NRSO 481I, SOC 345, SOC/SW 423

## Language Arts

Provides students with special appreciation for languages, literatures, and their relation to culture through study in three areas: Language perspectives, which involves the study of languages (and/or language) and their relationships to literary and cultural patterns; theory and/or criticism which provides the theoretical tools for the analysis and explanation of those relationships and language process which involves additional practice in the creative and technical aspects of producing linguistic products. (The following core classes are highly recommended for students selecting this concentration: COMM 335 in Area I, Group 2; ANTH 412I in Area IV, B, Group 3; PHIL 100, 160, 203, 204 or 305 in Area V, B, Group 1 and ENGL 200 in Area VI, Group 3a. No more than 3 units of lower division (100-200) course work may apply toward the concentration.)

Complete 15 units from:

Area 1. Language and Culture (3 units):

Choose from ANTH 413, 475, B/ST 180, ENGL 423, 426, LING 413, 423, 426, 363I, 470, SOC 485, COMM 309, 330, W/ST 475

Area 2. Language and Literature (3 units):

Choose from AIS 340, A/ST 320, B/ST 140, 343, CHIN 370, CLSC 191, C/LT 403, 404, 410, 440, 453, ENGL 382, 431, FREN 335, 336, GERM 315, 316, JAPN 370, RUSS 310, SPAN 330, 341, W/ST 382

Area 3. Language/Theory and Criticism (3 units):

Choose from C/LT 361, ENGL 318I, 384, 410, 484, PHIL 361, 484, R/ST 301, FEA 318I, COMM 300, 301, 306, 333, THEA 426

Area 4. Language and Process (3 units):

Choose from B/ST 450, ENGL 205, 206, 317, 405, 406, 417, COMM 331, 358, THEA 380

Area 5. Additional Selected Study (3 units):

Choose from ENGL 375, LING 472, COMM 355

## Language and Literacy

Students in the Language and Literacy concentration develop their knowledge of and appreciation for Literature while also engaging enhancing their ability to deal with literacy education through additional study of linguistics and culture.

Complete 12 units from:

Group 1. Exploring Literature:

Choose two courses from AIS 340, ASAM 260, 360, B/ST 340, 343, 346, CHIN 370, CHLS 205, C/LT 100, 415I, ENGL 180, 250A, 250B, 363, 370A, 370B, 375, 382, 385, 386, 482, JAPN 370, W/ST 382

Group 2. Sociolinguistics and Schooling: LING/EDEL 379

Group 3. Language, Literacy and Culture:

Choose one course from: ANTH 413, 475, COMM 309, 330, 355, EDEL 430, 439, EDP 432, 439, 485, EDSE 439, ENGL 300, 327, 410, 435, 436, LING 327, 413, 470, 485, 486, W/ST 475.

## Language Other Than English

Provides opportunity for students to gain access to advanced preparation in reading, writing and speaking a selected language other than English. Provides insights into second language acquisition and the intimate relationships linking language, cognition and culture. Students select one language in which to complete the following requirements:

Complete 15 units from:

Area 1. Advanced Language Study (6 units):

Choose from CHIN 301, 302, FREN 312A, 312B, GERM 301, 302, ITAL 312A, 312B, JAPN 301, 302, RUSS 312, 399, SPAN 312, 313

Area 2. Conversation (3 units):

Choose from CHIN 490, FREN 214, GERM 305, ITAL 214, JAPN 311, RUSS 314, SPAN 314

Area 3. Literature (3 units):

Choose from CHIN 370, FREN 335, 336, GERM 315, 316, ITAL 490, JAPN 471, RUSS 310, SPAN 330, 341

Area 4. Additional Study (3 units):

Choose from CHIN 490, FREN 314, 411, 414, GERM 303, 401, ITAL 314, 490, JAPN 312, 350, 461, RUSS 499, SPAN 322

## Mathematics

Provides advanced study of mathematics consistent with the philosophy of the California Framework in Mathematics and Standards of the National Council of Teachers of Mathematics for the mathematics content taught through the middle grades. (The following core courses are REQUIRED for students choosing this concentration: MTED 312 in Area II, Group 2; MTED 301 in Area VI, Group 3b.) Students choosing the Mathematics Concentration must complete MTED 312 with a "C" or better grade prior to registering for MTED 402.

Complete 12 units from:

Group 1. Probability and Activities-Based Statistics: MTED 105 (must be completed prior to enrollment in MTED 402)

Group 2. History of Mathematics: MTED 315

Group 3. Number Theory and Algebraic Structures: MTED 320

Group 4. Functions, Models and Concepts of Calculus: MTED 325

## Natural Science

The two pathways in the Natural Science concentration provide students with fundamental skills and abilities to deal confidently with a wide variety of scientific viewpoints applied to various important issues, as well as concrete and significant examples of scientific thinking. Pathway A is a "breadth" pathway which is particularly appropriate for future K-5 teachers. In Pathway A students choose at least one course from three different groups. Pathway B is a "depth" pathway which is particularly appropriate for future teachers of grade 6-8 as well as for students who prefer a stronger emphasis on investigation and experimentation. In Pathway B students choose at least three courses from a single group.

Complete 12 units from:

*Pathway A – Breadth* – Choose coursework from EACH of the following groups:

Group 1. Earth Science:

Choose one course from: GEOL 160, 190, 240, 300I

Group 2. Life Science:

Choose one course from: BIOL 100, 153, MICR 101, 300I

Group 3. Physical Science:

Choose one course from: ASTR 100, CHEM 100, 111A, PHYS 100A

Group 4. Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from GEOL 105, ASTR 100L, NSCI 309I, NSCI 375I or any additional class from those listed above.

*Pathway B: Depth* – Choose an option and take three courses in that option:

Earth Science Option:

Choose three courses from:

GEOL 160, 163, 190, 240, 300I, 341, GEOL/BIOL 303I

Life Science Option:

Choose three courses from:

BIOL 100, 153, GEOL/BIOL 303I, MICR 101, 300I

Physical Science Option:

Choose three courses from: ASTR 100, CHEM 100, 111A, 111B, 202, 302, PHYS 100A, 100B

Additional Coursework:

If necessary to reach 12 units in the Concentration, choose from ASTR 100L; NSCI 309I, 375I, or any additional class from any other of the options listed above.

## U.S. Multicultural Studies

Students should learn from their earliest school years that our nation is composed of people whose backgrounds are rooted in cultures from around the world, and they should develop respect for the dignity of all people and ways of life. This concentration will help potential teachers to recognize that the history of community, state, region and nation must reflect the experience of men and women of different racial, religious and ethnic groups in our pluralistic society. (The following core course is REQUIRED for students choosing this concentration: AIS, ASAM, B/ST, CHLS or W/ST 319 in Area IV, A, Group 3. Courses selected should include all four major U.S. ethnic groups. No more than 3 units of lower division (100-200) course work may apply toward the concentration and no course used to satisfy a core requirement may be used to satisfy a concentration requirement.)

Complete 15 units from:

Area 1. Education in an Ethnic Perspective (3 units):

Choose from AIS 361, ASAM 310, B/ST 420, CHLS 340

Area 2. Multicultural Perspectives (3 units):

Choose from ANTH 412I, 421/LING 425, EDP 432/EDEL 430, FCS 336, HDEV 360, COMM 330, W/ST 401I

Area 3. Ethnic Studies (9 units):

No more than one course may be selected from 100-200 level courses and from any one department (courses cross-listed with CHLS will be considered CHLS department courses in this context). Choose from AIS 105, 106, 200, 320, 340, 420, ASAM 220, 340, 345, 370, 380, B/ST 110, 180, 370, 400, 410, CHLS 300/HIST 370, CHLS 310, CHLS 350/SOC 340, CHLS 352/SOC 341, CHLS 390I

## Visual and Performing Arts

Allows students to develop skills in responding to the arts as well as in creating and performing. Courses will examine the history of traditional Western fine arts as well as the role the arts play in another cultural tradition. All four components of the California Framework for the Visual and Performing Arts are addressed: Aesthetic perception, creative expression, arts heritage and aesthetic valuing.

Complete 15 units from:

Area 1. Perception, Expression, Heritage, Valuing (6 units):

ART 302 (Course no longer offered. See Liberal Studies director for substitution.), MUS 385

Area 2. Fine Arts History (6 units):

If a Theatre course was taken in the Core, include at least one Dance course here. Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, C/LT 422I, DANC 110, 435I, MUS 363I, 364I, 393

Area 3. Multicultural and Ethnic Arts (3 units):

Choose from AIS 320, 420, AH 455, 456, 457, 466, 467, 468, 469, 470, B/ST 346, 363, MUS 490

## TRACK II (code 2-0200)

Students in this track complete a Core program (87 units minimum) and a Concentration (24-32 units). The Track II program is both a major and an approved General Education program. This means that both General Education and major requirements are satisfied by completion of the Track II program. A minimum of six units of interdisciplinary course work (courses with an I suffix) must be completed in the major—in either the core, the concentration or a combination of both. Course work used to meet the specific requirements of the core may also be used to meet the specific requirements of a concentration to a maximum of 12 units of such “double counting” or “overlapping.” (Although one course may satisfy two requirements at the same time, the units earned apply to the total units required for the degree only once.) Minimum units for the Liberal Studies major, Track II, could vary from 99-119 units depending on choice of concentration and potential for overlapping core and concentration requirements.

The Track II Core consists of a minimum of 87 units distributed across seven areas: I. Language and Communication Studies (minimum 18 units); II. Natural Science and Mathematics (minimum 18 units); III. National and World Citizenship (minimum 18 units); IV. Social and Behavioral Science Foundations (minimum 9 units); V. Literary, Visual and Performing Arts (minimum 12 units); VI. Cultures, Values and Beliefs (minimum 9 units) and VII. Health Well-Being, Life-Management: (minimum 3 units). Only one course per core area may be taken credit-no credit within university maxima of 24 units overall and 12 at the upper division (300-400) level.

The Track II Concentration consists of 24-32 units of course work in a selected discipline. A minimum of 15 of the concentration units will be in upper division (300-400) course work with the exception of the Biology and Mathematics concentrations where only 12 upper division units are required. Only one concentration course may be taken credit-no credit.

### Requirements

#### Track II Core

A minimum of 87 units as specified in Areas I, II, III, IV, V, VI and VII. Only one course per core Area may be taken credit-no credit within university limitations of 24 overall, 12 at the upper division (300-400) level.

Area I: Language and Communication Studies (minimum 18 units)

Group 1. Composition in English:

a) Choose one course from ASAM 100, B/ST 100, CHLS 104, ENGL 100, ENGL 100W;

b) Choose one course from B/ST 450, ENGL 101, 205, 206, 300, 317, 407, 417, 418, THEA 380

Group 2. Oral Communication in English:

Choose one course from COMM 110, 130, 132, 331, 334, 335

Group 3. Language and Critical Thought:

Choose one course from A/ST 190, ENGL 102, HIST 101, PHIL 170, PSY 130, COMM 131 + 131W, \*UHP 100 (\*UHP 100 is limited to students in the University Honors Program)

Group 4. Language Study Other than English:

Complete a two semester sequence in one language from CHIN 101, 102, 201, 202, FREN 101A, B, 201A, B, GERM 101A, B, 201A, B, GK 101A, B, 301A, B, ITAL 101A, B, 201A, B, JAPN 101, 102, 201, 202, LAT 101A, B, 301A, B, RUSS 101A, B, 201A, B, SPAN 101A, B, 201A, B (This is not a proficiency requirement, but a requirement for one sequential year of language study beyond current level of mastery. Choose the language and level appropriate to prior preparation. If prepared for more advanced 300 level of study or higher, substitutions of higher level language courses for those above can be made.)

Area II: Natural Science and Mathematics (minimum of 18 units):

Group 1. Mathematics:

Choose two courses from MATH \*103, 112, 114, 115, 117, 119A, 119B, 122, 123

(\*MATH 103 is not open to students who have completed a higher math course or its equivalent.)

Group 2. Natural Sciences:

a) Choose one course from BIOL 200, 205, 207, 211A;

b) Choose one from ASTR 100+100L, CHEM 100, 111A, GEOL 102+104 or 105, PHYS 100A, 151, PHSC 112

Group 3. Additional Study in Science or Math:

Choose two courses, at least one of which is at the upper division (300-400) level, from any of the courses listed in Area II, Groups 1 and 2 not completed, or from ASTR 370I, BIOL 153, 211B, BIOL 303I, 309I, 401, CHEM 111B, C/LA /HDEV 250, ET 202, GEOG 140, GEOL 160,160+160L, 163, 190, 191, 240, 303I MATH 180, 224, 233, 247, 310, 330, 340, 341, 355, 370A, 380, MICR 101, 300I, MICR 302I, MICR 303, NSCI 375I, 377I, PHSC 331, PHYS 100B, 152, PHYS/HIST 400I, PSY 110, 346I, SOC 255 (For upper division work special attention is directed to the range of Interdisciplinary (I) courses offered in the College of Natural Sciences and Mathematics; these are highly recommended.)

Area III: National and World Citizenship (minimum 18 units):

Group 1. Basic Studies:

a) Choose one course from HIST 172, 173, 300;

b) Choose one course from POSC 100, 391, \*326 (POSC 326 is limited to students who have completed a U.S. Government course in a state other than California or have Advanced Placement Credit in U.S. Government and must meet Title V state and local government requirements);

c) Choose one course from ECON 300, 368

Group 2. U.S. Diversity:

Choose one course from: AIS 319, ANTH 329, 419, ASAM 200, 319, B/ST 210, 319, 325, CHLS 319, 350, 352, POSC 323, SOC 340, 341, 346, W/ST 319

Group 3: National Citizenship:

Choose one course from B/ST 381, C/LA 492A, EDP 492, GEOG 301I, HIST 474I, 480, LING 472, POSC 210, 308, 327, 328, 420, 423, 424, 482, 486, PSY 375, SOC 449I, COMM 441I, 442I, U/ST 301I

Group 4. World Citizenship:

Choose one course from ANTH 307I, 314, ECON 306I, GEOG 307I, 470, HIST 307I, 478, I/ST 478, PHIL 351, POSC 215, 220, 306, 353, 371, 485, SOC 350

Area IV: Social and Behavioral Science Foundations (minimum 9 units)

Group 1. Psychology/Sociology:

Choose one course from PSY 100, SOC 100, 142

Group 2. Geography/Cultural Anthropology:

Choose one course from ANTH 120, GEOG 100, 100W, 160

Group 3. History:

Choose one course from HIST 211, 212, 131, 132

Area V: Literary, Visual and Performing Arts (minimum 12 units)

Group 1. Visual and Performing Arts:

Choose two courses from two different arts from AIS 320, ART 110, AH 113A, 113B, 115B, 115C, B/ST 155, 160, 363, CLSC 421I, DANC 110, 435I, MUS 190, 290, 363I, 364I, 490, THEA 113, 122, THEA/CLT 124, 324I

Group 2. Literature:

a) Choose one course from B/ST 140, CHLS 150, C/LT 100, 234, 236, ENGL 180, 184, 250A, 250B:

b) Choose one course from AIS 340, B/ST 343, 346, CHIN 370, C/LT 330A, 330B, 342, 346, 403, 404, 415I, 430, 440, ENGL 363, 370A, 370B, 375, 382, 385, 386, FREN 335, 336, GERM 315, 316, JAPN 370, JOUR 315, R/ST 425I, SPAN 330, 341, W/ST 382

Area VI: Cultures, Values and Beliefs (minimum 9 units)

Group 1. Western Tradition:

Choose one course from either (a) or (b):

a) CLSC 310I, C/LT/HIST 310I, 312I, 414I, HIST 335, 477A, 477B;

b) HIST 371, PHIL 100, 160, 160W, 203, 204, 330, 352, 361, 363, R/ST 102, 383I, 482I

Group 2. Non-Western Traditions:

Choose one course from either (a) or (b):

a) ANTH 321, 323, 324, 332, 333, 335, A/ST 300I, 301I, 393I, 495I, HIST 341A, 341B, 382A, 382B, 383A, 383B, 385, 386, 431;

b) AIS 335, ASAM 380, B/ST 353, PHIL 306, 307, R/ST 103, 331I, 341I, 343, 344, 351

Group 3: Additional Study (3 units):

Choose another course from those listed in Group 1a, 1b, 2a, and 2b not completed.

Area VII: Health, Well-Being and Life Management (minimum 3 units)

Choose one course from ANTH 150, ECON 309I, EDP 191, 357, FCS 132, 309I, 312I, FIN 309I, HSC 210, 420I, 421,

422, 423, 425I, 427, 429, HDEV 307I, 357I, KPE 157, NRSO 481I, REC 220, 340I, SW 330, 331, SOC 461I, 462, 463, W/ST 101, 440

## Track II Concentration

A minimum of 24 units of which 15 must be at the upper division (300-400) level (with the exception of Biology and Mathematics where only 12 units at the upper division are required) from one of the disciplinary programs below. A maximum of 12 units of course work used to meet requirements of the core may be used to satisfy the requirements of the concentration. In such "double-counting," one course may satisfy two requirements but the units apply to total degree requirements only once. Unit requirements in some concentrations exceed the 24 unit minimum; no concentration requires more than 32 units. Only one course in a concentration may be taken credit-no credit.

### American Indian Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from AIS 105, 106, 200

Area 2. Selected Area Study (12 units):

Choose from AIS 320, 335, 340, 361, 420, 490, 497, 499

Area 3. Additional Support and Area Study (6 units):

Choose from courses in Areas 1 and 2 not completed or from: ANTH 321, 322, 347, 349, AH 456, 457, CHLS 420, HIST 372

### American Studies

Inactive, no new students admitted.

### Anthropology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units) :

ANTH 110, 120

Area 2. Additional Lower Division Study (3 units):

Choose from ANTH 140, 170

Area 3. Upper Division Foundation Study (6 units):

ANTH 313, 314

Area 4. Biological Anthropology (3 units):

Choose from ANTH 318, 363, 435

Area 5. Sociocultural Anthropology (3 units):

Choose from ANTH 351, 413, 416, 421, 436

Area 6. Comparative Cultures (3 units):

Choose from ANTH 321, 322, 323, 324, 332, 333, 335, 345, 347, 349

### Art/Art History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units):

Choose three courses from AH 113A, 113B, 115B, 115C

Area 2. Principles and Practices (3 units):

Choose from AH 307, 308, 309; ART 435

Area 3. Western Art (3 units):

Choose from AH 401, 408, 409, 410, 416, 417, 423, 424, 425, 426, 427, 436, 437, 438, 439

Area 4. Non-Western Art (3 units):

Choose from AH 455, 456, 457, 465, 466, 467, 468, 469, 470

Area 5. Additional Upper Division Study (6 units):

Choose from courses listed in Areas 3 and 4 not completed.

## Art/Studio

Special admissions deadlines apply.

Complete a minimum of 27 units with 12 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

ART 131, 181, 182, 187

Area 2. Art History (3 units):

Choose from AH 437, 438, 439

Area 3. Selected Upper Division Study (12 units):

Choose from ART 316, 317, 328A, 328B, 354A, 354B, 355A, 357A, 357B, 370, 376, 378, 379, 381, 385, 387, 428A

## Asian American Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units):

ASAM 200, 220

Area 2. Upper Division Foundation Study (7 units):

ASAM 345, 380

Area 3. Additional Selected Study (11 unit minimum):

Choose from ASAM 310, 330, 340, 370 490, 499

## Biology

Complete a minimum of 32 units with 12 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (20 units):

BIOL 211A, 211B, CHEM 111A, 111B

Area 2. Selected Upper Division Study (12 units minimum):

Choose from BIOL 313, 314, 316, 324, 328, 332, 351, 413, 417, 421, 423, 424, 425, 427, 439, 453, 490, 490L, 496

## Black Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Introduction (3 units): B/ST 110

Area 2. History (3 units): Choose from B/ST 120, 121

Area 3. Selected Lower Division Study (3 units):

Choose from B/ST 155, 160, 200, 210

Area 4. Humanities (6 units):

Choose from B/ST 340, 343, 346, 450

Area 5. Social Studies (9 units):

Choose from B/ST 304, 325, 330, 332, 335, 337, 400, 410

## Chicano-Latino Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

Choose from CHLS 100, 101, 150, 230

Area 2. Upper Division Foundation Study (9 units):

CHLS 300/HIST 470, 310, 350/SOC 340

Area 3. Culture Study (3 units):

Choose from CHLS 390I, 395, 420

Area 4. Social Inquiry (3 units):

Choose from CHLS 340, 352, 415, 421

## Comparative Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study, Breadth (6 units):

Choose from C/LT 234, 330A, 330B

Area 2. Foundation Study, Depth (3 units):

Choose from C/LT 430, 449

Area 3. Genre Study (6 units):

Choose from , CLSC 421I, C/LT/THEA 124, C/LT 232, 320I, C/LT/THEA 324I, C/LT 346, 405, 453

Area 4. Comparative Literary Study (3 units):

Choose from C/LT 236, 403, 404, 440, 448, 452

Area 5. Literary Movements or Periods (3 units):

Choose from C/LT 349, 431, 432, 437, 438

Area 6. Literature and the Other Arts (3 units):

C/LT 250, C/LT/HIST 310I, C/LT 410, 412I, 451I

## Economics

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (6 units):

ECON 100, 101

Area 2. Upper Division Foundation Study (6 units):

ECON 360I

Area 3. Additional Selected Study (12 units):

Choose additional upper division Economics classes exclusive of ECON 309I which may not be taken for concentration credit. (With Economics Department approval, ECON 300 and an additional upper division Economics course may be substituted for ECON 100 and 101.)

## English/Creative Writing

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (8 units): ENGL 184, 370B

Area 2. Introductory Study (3 units):

Choose from ENGL 205, 206

Area 3. Advanced Study (6 units):

Choose from ENGL 405, 406, 407

Area 4. Additional Selected Study (7 units minimum):

Choose from ENGL 370A, 375, 384, 385, 386, 459, 467A, 467B, 469, 474, 475, 476, 477A, 477B, 479, THEA 380

## English/Language and Composition

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (14 units):

ENGL 184, LING 325, 420, 421

Area 2. Literature (4 units):

Choose from ENGL 250A, 250B, 370A, 370B

Area 3. Additional Selected Study (6 units):

Choose from ENGL 300, 317, 410, ENGL/LING 423, 426

## English/Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (8 units): ENGL 184, 363

Area 2. American Literature Survey (4 units):

Choose from ENGL 370A, 370B

Area 3. British Literature (3 units):

Choose from ENGL 451, 452, 453, 455, 456, 458, 459, 462, 463, 467A, 467B, 468

Area 4. American Literature (3 units):

Choose from ENGL 474, 475, 476, 477A, 477B, 478

Area 5. Additional Selected Study (minimum 6 units):

Choose additional courses from those listed in Areas 2, 3 and 4 above or from C/LT 330A, 330B, ENGL 250A, 250B, 375, 384, 469, 479, 481, 482

## English/Technical Writing

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): ENGL 184, 317

Area 2. Report Forms (6 units):

Choose from ENGL 417, 418, 419

Area 3. Language Study (4 units): ENGL 320, LING 325

Area 4. Additional Selected Study (minimum 7 units):

Choose from AH 307, 309, ET 300, ENGL 384, 405, 406, 407, ENGL/LING 423, ENGL 491, FEA 303, 380, 404, HIST/PHYS 400I, IS 301

## French

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

FREN 312A, 312B, 314, 411

Area 2. Additional Selected Study (12 units):

Choose additional courses in French. Lower division (100-200) courses are only appropriate if taken prior to FREN 312A or its equivalent.

## Geography

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation (9 units):

Choose from GEOG 100, 140, 160

Area 2. Methods and Techniques (3 units): GEOG 380

Area 3. Systematic Geography [6 units: 3 from a) and 3 from b):

a) Choose from GEOG 460, 466, 470;

b) Choose from GEOG 440, 442, 444, 452, 455, 460, 466, 470 [No course used to satisfy a) may be used to satisfy b).]

Area 4. Regional Geography [6 units: 3 from a) and 3 from b):

a) Choose from GEOG 304, 306;

b) Choose from GEOG 304, 306, 309I, 316, 318, 320I, 326 [No course used to satisfy a) may be used to satisfy b).]

## German

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (15 units):

GERM 301, 302, 315, 316, 401

Area 2. Additional Selected Study (minimum 9 units):

Choose additional courses in German. Lower division (100-200) courses are only appropriate if taken prior to GERM 301 or its equivalent.

## History

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (3 units): HIST 301

Area 2. Area Study (18 units):

Choose 6 units each from three different areas:

*World Area:* Choose from HIST 211, 212, 492;

*European Area:* Choose from HIST 131, 132, 313, 314, 316, 317, 318, 332, 333, 335, 336, 337, 339, 341A, 341B, 433, 437;

*British Area:* Choose from HIST 151, 152, 351, 353, 356, 357;

*Latin American Area:* Choose from HIST 162A, 162B, 362, 364, 462, 463;

*United States Area:* Choose from HIST 172, 173, 300, 371I, 372, 375, 376, 378, 379, 380, 469, 471, 472, 473, 474I, 477A, 477B, 478, 479, 480, 485A, 485B, 486, 489;

*Asian Area:* Choose from HIST 382A, 382B, 383A, 383B, 384, 385, 386, 406B, 407I, 488

Area 3. Additional Selected Study (3 units):

Choose an additional course from History Department offerings or from Area 2 courses not completed.

## Human Development

Students choosing this concentration must complete the following courses in the core program: ANTH 120, BIOL 205 or 207, PSY 100, or complete them as prerequisite units to the concentration and elective units toward the degree.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

HDEV 307I, 357I, 360, 402

Area 2. Foundation Methodologies (8 units):

HDEV/C/LA 250, HDEV 320

Area 3. Area Study (6 units):

Choose 6 units from one area:

*Biological Foundations Area:* Choose from ANTH 318, 319, BIOL 401, PSY 141;

*Psychological Foundations Area:* Choose from EDP 305, PSY 331, 332, 333, 336, 341, 351, 356, 370, 438, 463;

*Sociocultural Foundations Area:* Choose from ANTH 454, ASAM 340, B/ST 410, CHLS 350/SOC 340, FCS

312I, 412, 413, SOC 100, 320, 345, 464;

*Child Development Area:* Choose from FCS 311, 312I, 314, 411, 412, 413, 433;

*Gerontology Area:* Choose from BIOL 401, GERN 400I, SOC 464

## Italian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): ITAL 312A, 312B, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Italian. Lower division (100-200) courses are only appropriate if completed prior to ITAL 312A or its equivalent.

## Japanese

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (12 units):

JAPN 301, 302, 311, 312

Area 2. Additional Selected Study (12 units):

Choose additional courses in Japanese. Lower division (100-200) courses are only appropriate if completed prior to JAPN 301 or its equivalent.

## Latin American Studies

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Language Study (8 units): SPAN 201A, 201B

Area 2. Discipline Emphasis (6 units):

Choose 6 units from one department, a minimum of 3 units to be at the upper division (300-400) level, from: ANTH 323, 324, 345, HIST 162A, 162B, 362, 364, POSC 358, 359, 461I\*

(\*Only those semesters when content emphasizes Latin American development.)

Area 3. Breadth Study (6 units):

Choose 3 units each from two additional departments and courses listed in Area 2 or from GEOG 320I

Area 4. Additional Selected Study (6 units):

Choose six additional units from courses listed in Area 2 and 3 or from: HIST 462, 463, SPAN 312, 313, 314, 341, 430, 441, 445, 491, 492

## Mathematics

Complete a minimum of 27 units with 12 units at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (15 units):

MATH 122, 123, 224, 233

Area 2. Upper Division Foundation Study (6 units):

MATH 364A, 380

Area 3. Additional Selected Study (6 units):

Choose from MATH 310, 340, 341, 355, 361A, 381

## Music

Students choosing this concentration must demonstrate piano proficiency equivalent to MUS 120B, voice proficiency equivalent to MUS 122A, instrument proficiency equivalent to

MUS 125 or complete the equivalency courses as corequisite units to the concentration and elective units toward the degree.

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (7 units): MUS 300, 490

Area 2. Selected Historical Study (3 units):

Choose from MUS 363I, 364I, 393

Area 3. Additional Selected Study (minimum 14 units):

Choose from courses listed in Area 2 not completed or from MUS 300, MUS 460, 469, 492, 493, 495

## Philosophy

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from PHIL 342, 363, 382

Area 2. Historical Focus (3 units):

Choose from PHIL 413, 414, 421, 422, 423, 424

Area 3. Movements and Perspectives (3 units):

Choose from PHIL 416, 417, 418, 419

Area 4. Additional Selected Study (12 units):

Choose additional courses from Areas 1, 2 and 3 not completed or from other departmental offerings.

## Psychology

Impacted Program. Special Admissions criteria apply.

Complete a minimum of 26 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (11 units):

PSY 100, 200, 110

Area 2. Basic Processes (3 units):

Choose from PSY 331, 332, 333, 336, 341, 342

Area 3. Personal and Social Processes (3 units):

Choose from PSY 351, 356, 361, 365

Area 4. Additional Selected Process Study (3 units):

Choose from Area 2 and 3 classes not completed.

Area 5. Applications (3 units):

Choose from PSY 310, 314, 346I, 352, 354, 359, 366, 370, 375, 378, 381

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) course from Areas 2, 3, and 5 not completed or from other departmental offerings.

## Religious Studies

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (6 units):

Choose from R/ST 100, 103, 202

Area 2. Western Religious Traditions (3 units):

Choose from R/ST 311, 312I, 314, 315I, 322, 331I, 471I, 472I, 485, 490

Area 3. Eastern Religious Traditions (3 units): Choose from R/ST 341I, 343, 344, 351

Area 4. Selected Upper Division Study (6 units):

Choose from Areas 2 and 3 not completed or from R/ST 301, 302I, 375, 376I, 383I, 425I

Area 5. Additional Selected Study (6 units):

Choose from courses in Areas 1, 2, 3 and 4 not completed or from ASAM 380, C/LT 342, HIST 333, PHIL 330, R/ST 499

## Russian

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units):

RUSS 310, 312, 314

Area 2. Additional Selected Study (15 units):

Choose additional courses in Russian. Lower division courses are only appropriate if taken prior to RUSS 312 or its equivalent.

## Sociology

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Foundation Study (9 units): SOC 100, 142, 335I

Area 2. Statistics (3-4 units): SOC 255

Area 3. Ethnic and Gender Issues (3 units):

Choose from SOC 325/W/ST 325, SOC 340/CHLS 350, SOC 346, 426, 485

Area 4. Deviance and Social Control (3 units):

Choose from SOC 345, SOC/SW 423, SOC 440, 441I, 448

Area 5. Social Change and Global Issues (3 units):

Choose from SOC 350, 420, 427

Area 6. Additional Selected Study (3 units):

Choose an upper level (300-400) from Areas 3, 4, and 5 not completed or from other departmental offerings.

## Spanish/Spanish American Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 312, 313

Area 2. Foundation Study (6 units): SPAN 341, 445

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 441, 491

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish. Lower division courses are only appropriate if completed prior to SPAN 312 or its equivalent.

## Spanish/Spanish Linguistics and Culture

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 312, 313

Area 2. Foundation Study (6 units):

SPAN 425 (course no longer offered. See Concentration Advisor for substitution), 426

Area 3. Linguistics and Culture Selected Study (6 units):

Choose from SPAN 427, 430, 445

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish. Lower division courses are only appropriate if completed prior to SPAN 312 or its equivalent.

## Spanish/Spanish Literature

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Basic Language Study (6 units): SPAN 312, 313

Area 2. Foundation Study (6 units): SPAN 330, 430

Area 3. Selected Literary Study (6 units):

Choose from SPAN 310, 439, 491, 492

Area 4. Additional Selected Study (6 units):

Choose additional courses in Spanish. Lower division courses are only appropriate if completed prior to SPAN 312 or its equivalent.

## Speech Communication

Complete a minimum of 24 units with 15 at the upper division (300-400) level from:

Area 1. Lower Division Foundation Study (9 units):

COMM 130, 131 + 131W, 110

Area 2. Upper Division Foundation Study (9 units):

COMM 300, 301, 309

Area 3. Selected Upper Division Study (3 units):

Choose from COMM 331, 335

Area 4. Communication Contexts and Strategies (3 units):

Choose from COMM 330, 412, 432, 436, 437.

## Courses (L/ST)

### Upper Division

#### 404. Arts and Values (3)

Prerequisite: Limited to students in the Liberal Studies Major, Track 1, who have completed all Area V Core requirements with a "C" or better grade, or consent of Program Director. In a question-based format requiring integration of previous experience in the arts and humanities, students will explore the relationship between arts criticism and various broader values (historical, social, aesthetic, ethical). Typical questions to be addressed are: What establishes the parameters of arts criticism? How does a critic distinguish art from non-art, good art from bad? Who should criticize? What is the relationship between criticism and censorship? What shapes people's values in the arts? Competency in the arts will be assessed as the impact of religion, Enlightenment philosophy, modernism and multiculturalism on the arts and values and their relation to arts education are explored. Traditional grading only.

## Baccalaureate Minor in Linguistics (code 0-6833)

A minor in Linguistics consists of a minimum of 21 units, with at least one course selected from each of five subject area categories. Although not required for the minor, foreign language courses are recommended. In selecting courses, students should be aware that some courses have prerequisites, including language proficiency.

Courses which are counted for a major may not also be counted for a minor, but students who have taken a course from any category as a part of their major may substitute an elective with approval of the Department Chair.

### Requirements

Select one course from each category:

Category I Introduction: ANTH 170, LING 363I;

Category II Phonology: C D 330, LING 420, FREN 414, GERM 303, SPAN 425;

Category III Syntax: LING 421, FREN 411, GERM 401, SPAN 426;

Category IV Psycholinguistics and Neurolinguistics: C D 361, EDP 454, LING 329, PSY 438;

Category V Language, Culture, and Society: ANTH 412I, 413, SOC 485I;

Electives to a program total of 21 units selected from: any course listed above, ANTH 470; CHLS 403; LING 423, 426; PHIL 484; SPAN 427, and variable/special topics courses on linguistics subjects offered through the participating departments. These topic courses are shown on an approved list available in the participating departments.

## Interdisciplinary Minor in Crosscultural Language and Academic Development Studies (code 0-9683)

The minor comprises courses that integrate studies of culture, language, learning and the academic environment, and human development. It is an interdisciplinary program designed to support career objectives related to public education in Crosscultural Language and Academic Development. The minor consists of a minimum of 18 units selected with an advisor. Courses in the department of the student's major may not be used.

1. One course from each of the following areas (12 units):

*Culture:* ANTH 421/LING 425 or EDP 432/EDEL 430

*Language:* EDP 454 or LING/CD 329

*Schooling:* EDP/LING 485

*Development:* EDP 301, EDP 302, HDEV 307I, or PSY 361

2. Six additional units, selected with an advisor, from the following:

*Culture:* AIS 319, ASAM 319, B/ST 319, CHLS 319, W/ST 319, ANTH 329, ANTH 412I, ANTH/LING 413, ANTH 419, ANTH 421/LING 425, ANTH/WST 475, CHLS/ASAM 335I, EDP 432/EDEL 430

*Language:* ANTH 170, CHLS 402, EDP 454, LING/CD 329, LING/ENGL 327, LING 363I, LING 472, LING 486.

*Schooling:* AIS 361, ASAM 310, B/ST 420, CHLS 340, EDP 305, EDP 350, EDP 476.

*Development:* EDP 301, EDP 302, HDEV 307I, PSY 361.

## Master of Arts in Linguistics (code 5-6833)

The program for the M.A. degree in linguistics is designed both for students who wish to pursue further graduate study and those seeking a terminal degree. The program seeks to blend theoretical and applied aspects of linguistics and draws from a variety of disciplines.

The M.A. degree in Linguistics offers three options and one concentration:

1. General Linguistics Option
2. Language and Culture Option
3. Teaching English as a Second Language Option
4. Special Concentration

Graduate assistantships and teaching assistantships may be available to qualified students.

### Prerequisites

1. A bachelor's degree with a 2.75 GPA for the most recent 60 units;
2. 18 units of undergraduate coursework as follows (can be taken at CSULB):
  - A. Twelve (12) units in linguistics including syntax, phonology, language acquisition, language variation.
  - B. Six (6) units either in linguistics or in a related field (such as TESL, cross-cultural communication, cognition, artificial intelligence, or literature in another language).

### Advancement to Candidacy

1. Satisfaction of the general university requirements for advancement to candidacy, including prerequisites, the Writing Proficiency Examination, and GPA.
2. Completion of the foreign language requirement, either:
  - A. Two courses of a foreign language at the upper division level, or the equivalent, or
  - B. Two courses of an Indo-European language and two courses of a non-Indo European language, or equivalent.
3. Completion of six units of course work within the program, exclusive of any classes used to meet prerequisites.
4. Approval of the candidate's graduate program by the Chair, the Associate Dean for Instructional Programs of the College of Liberal Arts, and any other individuals identified by relevant university policy.
5. Advancement must take place no later than the semester before the student graduates.

### Requirements

1. A minimum of 30 units of approved upper division and graduate courses for the thesis option or a minimum of 33 units of approved upper division and graduate courses of the comprehensive examination option, including
2. A minimum of 21 units at the 500 or 600 level;
3. The completion of the five course core requirement for the degree;

4. The completion of requirements of one of the options designated in the program;
5. Completion of one of two culminating experiences:
  - A. A thesis and its accompanying oral defense and oral examination.
  - B. The comprehensive examination and its accompanying graduate paper (LING 697)
6. A GPA of 3.00 on all courses included in the program.

### Core

1. Two courses from the following three: LING 620, 625, 633.
2. One course from the following: LING 540, 610, 650.
3. One course from the following: PSY 539, SPAN 524.
4. One course from the following: LING 580/ANTH 570, LING 595/ED P 595, LING 596.

## General Linguistics Option (code 5-6850)

This option is 15 units including all courses in the core categories 1 and 2 (LING 620, 625, 633, 540, 610, 650) and only one course each from Categories 3 and 4; and approved selections from ANTH 597; CD 665; ED P 573, 672; LING \*470/ANTH \*475, LING\*423/ENGL 423/523, LING \*426/ENGL 426/526, LING 533/ANTH 530, LING 575/ED P 578, 697, 698; PHIL 595; PSY 538; SPAN 527.

## Language and Culture Option (code 5-6851)

This option is 15 units. Students in this option are advised to take LING 540 as a part of their core: LING 533/ANTH 530, and either LING \*413/ANTH 413 or LING \*470/ANTH 475; and approved selections from ANTH 597, 630; ED P 573; LING \*423/ENGL 423/523, LING 575/ED P 578, LING 580/ANTH 570, LING 597/LING 697, LING 698.

## Teaching English as a Second Language Option (code 5-6852)

This option is 15 units. LING 500, LING 561, and either LING 575/ED P 578 or ED P 672 and approved selections from CD 560, 590; ED P \*454, 573; LING \*425/ANTH \*421, \*460, LING \*485/ED P 485; LING \*486, 562, LING 589/ED P 589, LING 678, 597, 698; PSY 538; SPAN 524, 527.

## Special Concentration

This concentration is 12-15 units. Students electing this concentration must [1] consult with the Program Director or Graduate Coordinator about their proposal; [2] submit a written justification for the course of study they wish to take, including [3] a list of the classes which are proposed to meet the objectives of this special program. Both the written justification and the course list are subject to approval. Other requirements of the program (e.g. a five course core, GPA, culminating experiences, etc.) cannot be waived or altered by use of the special concentration.

Students wanting graduate credit for certain 400-level courses must consult with the Graduate Advisor before enrolling.

Courses with an I suffix are not available for graduate credit. Note: Graduate students are required to register for the higher (500-level) course whenever a course has a double number. Students may not repeat courses by taking them under different prefix designations, numbers or titles unless the course description specifically permits.

## Certificate in Teaching English as a Second Language (code 1-6050)

The Certificate in Teaching English as a Second Language (TESL) is open to students from any field who desire training for teaching English to speakers of other languages. While the program may be begun as an undergraduate, at least 18 units must be completed as a post-baccalaureate student.

### Recommendations

Students are strongly urged to include foreign language study as a part of their undergraduate curriculum, particularly those wishing the Language Development Specialist Certificate in addition to the TESL Certificate. Students planning to teach in California schools (K-12) must also include appropriate credential requirements in their total program.

### Prerequisites

1. A baccalaureate degree with a GPA of 2.50 on the last 60 units.
2. One course in basic English linguistics.

### Requirements

1. Twenty-four units, including:
  - A. 20 taken in residence;
  - B. 18 taken as a graduate student;
  - C. 12 taken at a 500-600 level.NOTE: Categories (a-c) combined need only equal 24 units.
2. A GPA of 3.0 on all work included in the program.
3. Passing of the CSULB Writing Proficiency Examination.
4. Eight courses, one each in eight different categories:
  - A. One course in basic ESL Methodology, LING 486;
  - B. One course in cross-cultural communication, selected from LING \*425 (ANTH \*421) or ED P 573;
  - C. One course in Language Acquisition, selected from CD 329, LING 329 or ED P 454;
  - D. One course in intermediate English linguistics, selected from LING 420 or 421;
  - E. One course in testing and assessment, selected from CD 460 or LING 562;
  - F. One course in curriculum, selected from LING 500 or LING 561;
  - G. One course in specialized methodology, selected from CD 560, LING \*460, LING 575/ED P 578, ED P 576, LING 589/ED P 589);
  - H. Three units of a practicum (LING 593).

Students who have taken equivalent courses in the above categories but need units to complete certificate requirements may elect to take courses from the following: ANTH 412I, \*413; CD 330, 361, 363; EDEL 430; ED P 454; EDSE 401, 402, 435, 436; LING 423, 650; PSY 438/538; SOC 485I; COMM 309; SPAN 427/527.

Students wanting graduate credit for 400-level courses which have not been approved for graduate credit by the home department must consult with the Program Director or Graduate Advisor before enrolling. Courses with an "I" suffix are not available for graduate credit, but may be used for the Certificate if they were taken while the student was an undergraduate.

## Courses (LING)

### Lower Division

#### 101. Introduction to the World's Languages (3)

Prerequisite: ENGL 100. A general introduction to the important roles that the world's languages have played historically, socially, culturally and politically, especially involving contact between languages. The course considers the nature of language, how languages operate, how they may differ from each other, how they change over time, and how they're related to each other. The history of both the spoken and the written forms of language are considered.

#### 170. Introduction to Linguistics (3)

Prerequisite/corequisite: Any G.E. Foundations course. Nature of language; its relation to culture; language structure and processes of change; language universals, contrasts and relationships. Same course as ANTH 170.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 327. Essentials of the English Language (3)

Prerequisites: ENGL 100 or its equivalent. Introduction to the essentials of English language study for credential candidates, including the history of the English language, key models of English grammar, and a variety of applied topics ranging from semantics and dialect study to current research in the teaching of English. Same course as ENGL 327.

#### 329. Introduction to Language Acquisition (3)

Introduction to the study of the acquisition of first and second languages. Linguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The influence of developmental stages, and social and cultural factors on the individual. Same course as C D 329.

#### 339. Linguistics for Crosscultural Academic Development [in Secondary School Settings] (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Social and psychological influences on linguistic behavior in middle and high schools. Cultural and political issues affecting language attitudes, maintenance and shift. Traditional grading only. Same course as EDSE 339.

#### 363I. Implications of Human Language (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines human language from the perspectives of linguistics, psychology, and communicative disorders. Topics include relationships between languages of the world, language acquisition, and the social meaning of language and dialect differences. The implications of language for the individual and her/his social experience are examined through the methodologies of these disciplines.

#### 379. Sociolinguistics and Schooling (3)

Prerequisite: LING 329 or equivalent. Study of language variation as it connects to standard language development in society and individuals. Analysis of key sociolinguistic concepts, such as: dialect, speech event, linguistic repertoire, language community, prescriptive and descriptive grammar. Analysis of verbal and written classroom language. Connection between variation and development in speaking, reading and writing. (Traditional grading only.) Same course as EDEL 379.

#### \*413. Language and Culture (3)

Relation of language patterns to social life; problems of meaning in cross-cultural communication and language translation; practical application to business, government and religious contacts. Not open to students with credit in ANTH 440. Same course as ANTH 413.

**420. English Phonology (3)**  
Prerequisites: Consent of instructor. Study of the phonology of American English, using articulatory phonetic, phonemic, and distinctive feature analyses. Not open to students with credit in ENGL 420 or 520. Traditional grading only. Lecture-problems.

**421. English Syntax (3)**  
Prerequisites: ENGL 325 or consent of instructor. Study of the morphology and syntax of American English, using structural, transformational, and recent models. Not open to students with credit in ENGL 421. Seminar. Traditional grading only.

**\*423. Semantics (3)**  
Study of meaning in language. Same course as ENGL 423.

**\*425. Education Across Cultures (3)**  
Cross cultural perspectives on education in modern society; problems in education of non-western peoples by those from western cultural backgrounds. Same course as ANTH 421.

**\*426. History of the English Language (3)**  
Development of the English language from its beginnings to the present day. Same course as ENGL 426.

**428. Applied Linguistics (3)**  
Linguistic research applied to the study and teaching of the English language. Not open to students with credit in ENGL 428/524. Traditional grading only.

**429. Language, Learning and the Developing Child: A Cross-cultural Perspective (3)**  
Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Traditional grading only. Not open to students currently enrolled in the Liberal Studies program. (Same course as EDP 428, FCS 409, and EDEL 429).

**431. Cultural and Linguistic Diversity in Schools (3)**  
This course addresses multiple forms of diversity present in schools, including issues surrounding culture, ethnicity, race, language, faith, special needs, gender, sexual orientation, and socio-economic difference. Emphasis is on multicultural education, language minority education, and the promotion of learning for all students. The course treats concepts of culture, education equity, stereotyping, and cultural and linguistic contact. History, policy and practice regarding cultural and linguistic minorities in the United States. Models of English Language Development and bilingual education. Special focus on educational initiatives to address the rich ethnic diversity of California schools. Not open to Liberal Studies majors. Same course as EDEL 431 and ED P 431. Traditional grading only.

**433. Survey of Discourse Analysis (3)**  
An introduction to discourse analysis, the study of language structure from the viewpoint of its context of production. The place of discourse analysis in theoretical and applied linguistics. The structure of genres: conversation, narrative, exposition, and others; language in special settings; pragmatics and discourse: developmental issues. (Discussion) (Not open to students with credit in LING 530.) Traditional grading only.

**441. Khmer Literacy for Khmer Speakers: Introduction (3)**  
Prerequisite: Fluent oral skills in Khmer. First of a 4-course sequence. Introduction to Khmer writing system. Practice in reading, decipherment, vowels, consonants and syllable combinations. Oral practice, honorifics, culturally appropriate interaction. Traditional grading only. Same course as A/ST 441.

**442. Khmer Literacy for Khmer Speakers: Intermediate A (3)**  
Prerequisite: LING 441 or consent of instructor. Second of a 4-course sequence. Continued practice in Khmer writing system. Vocabulary development, reading and writing long sentences and simple text. Appropriate social and educational discourse. Traditional grading only. Same course as A/ST 442.

**443. Khmer Literacy for Khmer Speakers: Intermediate B (3)**  
Prerequisite: LING 442 or consent of instructor. Third of a 4-course sequence. Contextual reading for comprehension, culture and grammatical knowledge. Development of oral skills, through discussion of content, role play and verbal critique. Traditional grading only. Same course as A/ST 443.

**444. Khmer Literacy for Khmer Speakers: Advanced (3)**  
Prerequisites: LING 443 or consent of instructor. Fourth of a 4-course sequence. Composition and written translation. Preparation for BCLAD tests 5 & 6: Culture and Language of Emphasis. Reading authentic texts. Traditional grading only. Same course as A/ST 444.

**\*460. TESL Composition (3)**  
Prerequisites: Passing of the Writing Proficiency Examination. Introduction to the rhetoric and composition of students with limited English proficiency. Attention to both the general principles of composition, and the specific issues that face students and teachers in an ESL context. Traditional grading only.

**\*470. Language and Gender in Cross-Cultural Perspective (3)**  
Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions of perceptions and stereotypes and their effect on communication. Same course as ANTH 475, W/ST 475.

**472. Language and Discrimination (3)**  
Survey and analysis of discrimination on the basis of language as component of racial, ethnic, gender, and class discrimination; focus on historical and contemporary examples; related analysis of bias toward so-called non-standard varieties of language; analysis of the language of racism and sexism.

**\*485. Theoretical Foundations of Language Minority Education (3)**  
Introduction to theoretical foundations of language minority instruction. Background on the historical and political context of the development of educational language policies. Same course as EDP 485.

**\*486. Foundations of Language Minority Instruction: Practice (3)**  
Provides a general introduction to practical foundations of language minority instruction and provides background on historical development and use of current methods and techniques for language learning strategies. Classroom observations in off-campus or on-campus bilingual and English-as-a-second-language classrooms. Traditional grading only.

**490. Special Topics in Linguistics (1-3)**  
Prerequisite: Consent of instructor. Investigation of topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated for credit with different topics, but no more than six units may count toward the minor in linguistics.

## Graduate Division

**500. Educational Linguistics (3)**  
Prerequisites: 9 units of linguistics or permission of instructor. Graduate introduction to role of language and linguistics in contemporary education; analysis of context of language acquisition; attitudes toward multilingualism; language policies which set guidelines and expectations for instruction; cultural factors which influence language acquisition. (Discussion.) Traditional grading only. Same course as ED P 577.

**533. Ethnography of Communication (3)**  
Prerequisite: Graduate standing. Study of talk and other forms of communication from an ethnographic perspective. Emphasizes relevant methods and theories. Among the major topics presented from this perspective are language socialization, genres of speaking, intercultural communication, speech styles, strategic uses of language, and literacy. Traditional grading only. Same course as ANTH 530.

**540. Sociolinguistics (3)**  
Prerequisite: Nine units of linguistics or consent of instructor. Study of the linguistic and social antecedents, correlates, and consequences of language variation in the individual and society. Integration of theoretical models and practical fieldwork. (2 hrs seminar, 3 hrs lab.)

**561. Second Language Curriculum Development (3)**  
Prerequisite: LING 421 or permission of the instructor. Study of the content of second language instruction, from nongrammatical, communicative approaches to content-based instruction. The course will look at both K-12 and adult language instruction.

**562. Second Language Testing and Assessment (3)**

Prerequisite: LING 421. Testing and assessment of second language learners, including both standardized tests and teacher-developed modes of assessment. Traditional grading only.

**575. Literacy and Linguistics (3)**

Prerequisite: Six units in linguistics or permission of instructor. This course provides a general introduction to the field of literacy studies from a linguistic and sociocultural perspective. Among the major topics presented are the relationship between oral and written language; the acquisition of literacy; biliteracy; the relationship between literacy and socioeconomic/sociocultural factors; and the impact of societal expectations regarding literacy. Pedagogical implications of these issues are explored. Traditional grading only for Majors. Same course as ED P 578.

**580. Linguistic Field Methods (3)**

Prerequisite: An introductory linguistics course. This course introduces the student to the practical study of unfamiliar languages. Through the help of a native speaker of a non-European language, the student will learn how to write down the sounds of the language and how to determine the structure of the language. Same course as ANTH 570.

**589. Adult Literacy and Language Diversity**

Prerequisites: 3 units from ED P 578/LIN 575; ENGL 510; ENGL 535; or from an instructor approved course in literacy studies or adult second language acquisition. A general survey of issues in adult and family literacy/biliteracy and native language literacy with special focus of the educational needs of language minority adults and their families; consideration of the relationship between theory, policy and practice with attention to the social economic and cultural characteristics of populations in need of literacy services. Traditional grading only.

**590. Advanced Special Topics in Linguistics (1-3)**

Prerequisite: Consent of instructor. Advanced study of special topics of current interest and concern to students in linguistics and allied areas. Topics will be announced in the *Schedule of Classes*. May be repeated for credit with different topics, but no more than six units may count toward the Master's degree in linguistics.

**593. Practicum in TESL (3)**

Prerequisite: LING 486. Experience in Teaching English as a second language supplemented by reading, research, and advising. Students must be available to be assigned to regularly scheduled courses in TESL five hours per week, as well as meeting with the instructor. Credit/No Credit grading only. Course may be repeated for a maximum of 6 units.

**595. Qualitative Research Methods (3)**

This course provides an introduction to the theory and application of ethnographic and qualitative methods in educational settings with special emphasis on applications for educational linguistics, educational anthropology, and research related to language arts instruction. It surveys the basic rationale for qualitative/ ethnographic inquiry as well as basic concepts and methods for applications in teacher-as-researcher approaches and for action research. Traditional grading only. Same course as ED P 595.

**596. Research in Linguistics (3)**

Prerequisite: Advancement to candidacy for the M.A. in Linguistics. Principles and practice of quantitative and qualitative research design, analysis and reporting. Access to sources, evaluation of published research, application of tools. Traditional grading only. (Seminar, 2 hours; Laboratory, 3 hours.)

**597. Directed Study in Linguistics (1-3)**

Prerequisite: Permission of instructor and advisor. Directed study on issues and topics in Linguistics. Not intended to replace available courses. Course may be repeated for a maximum of 3 units.

**610. Historical Linguistics (3)**

Prerequisites: LING 420 and 421 or equivalent. Advanced study of language change, language families, and language relationships using the methods of comparative linguistics. Two hours seminar, two hours laboratory. Traditional grading only.

**620. Seminar in Syntactic Theory and Analysis (3)**

Prerequisite: LING 421. Theories and practices of selected views of syntax in contemporary linguistics. Topic may vary from semester to semester. (Seminar, 2 hours; Laboratory, 3 hours.) Traditional grading only.

**625. Seminar in Phonetics and Phonology (3)**

Prerequisite: LING 420. Theory and practice of selected views of phonetics and phonology in contemporary linguistics. (Seminar, 2 hours; Laboratory, 2 hours) Traditional grading only.

**633. Discourse and Grammar (3)**

Prerequisite: LING 421 or consent of instructor. This graduate course situates discourse analysis in linguistic theory and method, and focuses on the relationship of discourse and grammar. Examined are (1) the relationship of morphosyntactic devices and discourse context; (2) information flow and its relations to grammar; (3) the pragmatic motivation for grammatical systems; and (4) the relationship of grammar and genre. (Discussion) Traditional grading only.

**650. Seminar in Bilingualism (3)**

Prerequisites: LING 420, 421 or equivalents. Advanced study of the degrees and kinds of bilingualism and bilingual situations which exist. Implications of such distinctions for linguistics and education will be covered. Traditional grading only.

**697. Directed Research (1)**

Prerequisite: Advancement to candidacy for the M. A. in Linguistics. Research in linguistics on a topic connected with the Comprehensive Examination for the degree. Traditional grading only. Course may be repeated for a maximum of 3 units.

**698. Thesis (1-6)**

Prerequisite: Consent of graduate committee. Planning, preparation and completion of a thesis in linguistics.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

**T**he Mechanical and Aerospace Engineering Department at California State University, Long Beach, offers a variety of programs to meet societal needs. At the undergraduate level the following programs are offered: Bachelor of Science in Aerospace Engineering (BSAE); Bachelor of Science in Mechanical Engineering (BSME); Bachelor of Science in Engineering (BSE) with options in Materials Engineering or Industrial-Management Engineering; and Bachelor of Science in Manufacturing Engineering (BSMFGE).

At the graduate level the following degree programs are offered: Master of Science in Aerospace Engineering (MSAE); Master of Science in Mechanical Engineering (MSME); Master of Science in Engineering (MSE) with an emphasis on Management Engineering, Systems Engineering, or a specialized interdisciplinary area meeting students' needs; and the Ph.D. in Engineering and Industrial Applied Mathematics (offered jointly with the Claremont Graduate University). Additionally, the following post-baccalaureate certificate programs are offered: Certificate in Aerospace Manufacturing; Certificate in Heating, Ventilating, and Air-Conditioning; Certificate in Industrial Plastics Processing and Design; and Certificate in Energy Conversion and Power Systems Engineering.

## MECHANICAL ENGINEERING PROGRAM

### Undergraduate Program Goal and Educational Objectives

The goal of the Mechanical Engineering program at the undergraduate level is to graduate well-prepared entry-level professionals with an excellent education in the fundamentals of engineering sciences and design, and to provide them with the ability to apply their knowledge to translate ideas and plans into working engineering systems. This goal is achieved through the following educational objectives:

- To prepare students to enter the profession of Mechanical Engineering, to pursue graduate studies, to commit to lifelong learning, and to continuing self-development.
- To provide students with a solid foundation in the areas of mathematics, basic sciences, computational skills, and a broad range of engineering sciences that are required for a contemporary mechanical engineer entering the profession.
- To train students thoroughly in methods of analysis, including the use of appropriate computer application software and other tools essential to develop engineering problem solving skills.
- To provide students with hands-on experience in planning, conducting, and analyzing results; and submitting formal reports on their experimental investigations.
- To provide opportunities for students to enhance their communication skills by means of formal writing, oral presentations, and world-class electronic media technology.
- To develop students' skills in the design process, including the ability to formulate problems, think logically and clearly, communicate effectively, synthesize information creatively, and function efficiently in a collaborative, teamwork environment.
- To provide the scope for co-curricular activities which permit learning about the profession through professional societies, guest lectures, field trips, industrial employment, internships, active participation in national design competitions, and similar experiences.
- To instill in students an understanding of the importance of their professional, ethical, environmental, and social responsibilities, and their role in the contemporary issues of our society.

## AEROSPACE ENGINEERING PROGRAM

### Aerospace Engineering Program Mission Statement

The mission of the Aerospace Engineering (AE) program is to fulfill the needs of students, of industry and government, and of the local, national, and global community in the area of aerospace systems engineering education and research.

The mission is implemented through the following objectives:

1. Provide undergraduate students with a comprehensive education for successful careers in aerospace engineering.
2. Provide graduate students with an education for the advancement of their careers and access to doctoral studies.
3. Provide an environment for students and faculty to engage in creative thinking and research in the areas of computational fluid dynamics, aero- and hydrodynamics, design and optimization, composite materials, manufacturing, and structural analysis and design.
4. Promote aerospace sciences and engineering at the University and the broader community.
5. Establish ties with national and international educational and research institutions in order to promote worldwide exchanges.

### Aerospace Engineering Undergraduate Program Educational Objectives

The goal of the undergraduate program is to produce well-rounded engineers who possess the skills required for a successful career in aerospace engineering. This goal is reached by:

1. Providing students with a comprehensive education in
  - 1.1 Non-technical areas, particularly communication in the English language and critical thinking, the physical universe, humanities and arts, social and behavioral sciences and history, and self-integration.
  - 1.2 Mathematics and basic sciences,
  - 1.3 General engineering topics and computer and software fundamentals, and
  - 1.4 Aerospace engineering topics (aerodynamics, aerospace materials and structures, propulsion, space environment and space systems, communications and avionics systems, orbital and flight mechanics, and stability and control).
2. Preparing students for careers in aerospace engineering by emphasizing
  - 2.1 Analysis and problem solving,
  - 2.2 Preliminary design, design for manufacturing and systems engineering,
  - 2.3 Teamwork, professionalism, economic fundamentals, commercial viability of projects and business cases, and communication skills.
3. Providing student projects, internship and research opportunities to expose students to the professional environment, to stimulate their creativity, and to foster lifelong learning.

### The Culture of Continuous Improvement

The Department of Mechanical and Aerospace Engineering continuously seeks input from its students, alumni, employers and industry leaders in order to improve its programs and ensure that students receive the best possible education and training. It is supported by a professional Advisory and

Development Council (ADC). The council consists of outstanding engineers and executives from industry and government in Southern California. The role of the ADC is to form a liaison between the University and industry and to help the administration and faculty remain informed of modern engineering practices.

### ABET Accreditation

The Bachelor of Science in Mechanical Engineering and the Bachelor of Science in Aerospace Engineering are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET) (Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite #1050, Baltimore, MD 21202, phone: 410-347-7710, website <http://www.abet.org>). Students enrolling in these programs are strongly advised to contact an undergraduate advisor as early as possible about the details of ABET requirements in math/sciences, humanities, and social science areas. Students desiring detailed information should contact the department for referral to one of the faculty advisors.

### Mechanical and Aerospace Engineering Advisory Council

The Department of Mechanical and Aerospace Engineering benefits from an Advisory and Development Council consisting of outstanding engineers and executives from local industry and government. Its mission is to provide guidance, advise and assist in developing the Department, and to support its efforts to serve students, the community, and industry.

## UNDERGRADUATE PROGRAMS IN MECHANICAL AND AEROSPACE ENGINEERING

### Bachelor of Science in Mechanical Engineering (code 3-4350) (136 units)

The realm of mechanical engineering is so extensive that training must be broad and basic, providing grounding in fundamentals which an engineer requires in order to gain competence in any specialized field. In view of this, mechanical engineering curriculum includes ample foundation courses in mathematics, physics, chemistry, and design graphics. These are followed by courses in energy conversion, thermodynamics, fluid mechanics, mechanics and strength of materials, metallurgy, design, computer-aided design/ computer-aided manufacturing (CAD/CAM). Opportunity to explore further a particular area of interest is provided by additional elective courses in the senior year.

The laboratories of the department are provided with modern equipment for undergraduate instruction in the following areas: instruments and measurements, fuels and lubricants, materials and metallurgy, thermodynamics and heat power, vibration, design, and acoustics, strength of materials, design, CAD/CAM, control systems and manufacturing.

Some industry sponsored scholarships are available to upper division mechanical engineering students. Further information is available in the department office.

### Requirements

Lower Division: CHEM 111A; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; ME 172, 205, 272; PHYS 151, 152.

Upper Division: CE 335, 336, 406; ECON 300; MATH 370A; ME 305, 322, 323, 330, 336, 337, 371, 373, 374, 375, 376, 490, 409, 431, 459, 471, 472, 476, to total at least 136 units.

## Bachelor of Science in Aerospace Engineering (code 3-4310) (132 units)

The curriculum is designed to supplement mathematics, science and basic engineering courses in order to give students the specialization needed in different areas of aerospace engineering. In addition to acquiring technical knowledge, graduates will have completed appropriate courses in communications and in humanistic social studies. The Mechanical and Aerospace Engineering Department is well equipped with state-of-the-art laboratories and computer facilities for undergraduate and graduate instruction.

### Requirements

A grade of "C" or better must be achieved in all prerequisites for aerospace engineering courses.

Lower Division: CHEM 111A, MATH 122, 123, 224, PHYS 151, 152, AE 101, CE 205, CECS 174, EE 211, 211L, ME 172

Upper Division: ECON 300, MATH 370A, MAE 408, 477, 486, ME 330, 371, 373, AE 320, 336, 337, 350, 374, 390, 425, 427L, 437, 440L, 462, 474, 478, 479 and approved electives to total at least 132 units.

## Bachelor of Science in Engineering

### Option in Materials Engineering (code 3-4352) (136 units)

Modern engineering applications in all fields require new materials with properties well beyond those obtainable with the alloys available several years ago. New materials such as composites, ceramics, polymers, semiconductors and their manufacturing processes are needed for such diverse applications as the air transports, undersea deep submergence vessels, magnetic and semiconducting devices. Scientific knowledge in this area has expanded recently at a rate comparable to that experienced by the field of electronics. The materials option is offered to meet the demand for materials oriented engineers.

Course work is directed toward understanding of the properties of materials in terms of their atomic structure, and emphasis is placed on the behavior of materials in engineering applications. The laboratories have excellent equipment for studies in this field and include facilities for the determination of crystal structure, microscopic and X-ray diffraction, and Scanning Electron Microscope examination of solids, thermal and mechanical treatment and the determination of properties at low and high temperatures.

### Requirements

Lower Division: CHE 200; CHEM 111A, 111B; CE 205; EE 211, 211L; MATH 122, 123, 224; ENGR 101; ME 172, 205, 272; PHYS 151, 152, 154.

Upper Division: CHE 415; CE 406; ECON 300; EE 320; MATH 370A; ME 322, 323, 330, 371, 373, 374, 375, 490, 409, 459, plus approved engineering elective courses to total a minimum of 136 units.

For information concerning admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Dept. of Mechanical Engineering.

## Option in Industrial-Management Engineering (code 3-4342) (136 units)

This is an interdisciplinary degree in which both the College of Business Administration and the College of Engineering provide courses which will enable the student to have a technical engineering background plus a good foundation in business and management practices. The option consists of the core engineering courses through the junior year with an addition of business courses in accounting, business law, management, inventory practices and operations research. The elective structure within this option is such that the student may specialize in either engineering, or a combination of both engineering and business.

### Requirements

Lower Division: ACCT 201; CHEM 111A; CE 205; EE 211, 211L; FIN 220, 230; MATH 122, 123, 224; ENGR 101; ME 172, 205; PHYS 151, 152.

Upper Division: CE 406; ECON 300; IS 310; MATH 370A; MGMT 300; MGMT 411 or 412 or 413; ME 305, 322, 330, 371, 373, 376, 351, 459, 476, 451, and approved electives to total at least 136 units.

For information concerning admission to this program, please contact Dr. Jalal Torabzadeh, Undergraduate Advisor, Department of Mechanical Engineering.

## Bachelor of Science in Manufacturing Engineering (code 3-4305)

For requirements, see the description in the College of Engineering section of this *Catalog*.

## Certificate in Aerospace Manufacturing (code 1-4312)

Director: Hamid Hefazi

This Certificate Program is designed to give students and working aerospace engineers an educational opportunity to focus on the complex and dynamic issues related to aerospace manufacturing.

### Requirements

1. Required prerequisite courses or Consent of the program director
2. Consultation with program director and preparation of a Program Planner.
3. Satisfactory Completion of the required courses as listed below.
4. Fulfillment of the Writing Proficiency Exam requirements
5. Completion of Bachelor of Science degree in an approved major. The certificate may be awarded concurrently with or subsequent to baccalaureate degree.

### Required Courses

The Certificate Program requires a minimum of 19 semester units, as indicated below.

AE 415, 427L; ENGR 511, 574 and 3 units of approved graduate or 400-level engineering classes. Students should consult with the program director to assess any needed prerequisites

## Certificate in Heating, Ventilating, and Air-Conditioning Engineering (code 1-4400)

Director  
Hamid Rahai

Faculty  
Hamid Rahai, Reza Toossi, Jalal Torabzadeh, and Hillar Unt

The 20-unit HVAC Certificate Program is designed to prepare engineering and science students for designing various HVAC systems and to familiarize them with HVAC equipment and their selection process.

With a proper choice of classes, you may also earn this Certificate in conjunction with your bachelor's degree. Contact the Department of Mechanical and Aerospace Engineering for more information.

### Requirements

1. Consultation with the Program Director and preparation of a Program Planner;
2. Satisfactory completion of the required courses, as listed below;
3. Approval of the special project and its satisfactory completion (ME 450);
4. Completion of a Bachelor of Science degree in an approved major. The Certificate may be awarded concurrently with or subsequent to the baccalaureate degree.

### Required Courses

The HVAC Certificate Program requires a minimum of 20 semester units, as indicated below:

ME 330, 431, 450, 490E; MAE 438/538; AE 336 or CE 335; CE 336

## Certificate in Industrial Plastics Processing and Design (code 1-1100)

Director  
Min-Ten Jahn

Professors  
Mihir K. Das, C. Barclay Gilpin, Lloyd Hile, Min-Ten Jahn, Hillar Unt, Hsien-Yang Yeh

The certificate program in Industrial Plastics Processing and Design is an interdisciplinary program sponsored by the Mechanical Engineering and Chemical Engineering Departments. Polymeric materials rank as second in tonnage use currently of all materials, and indications are that in the near future they may surpass metals in total usage. There is a definite need for personnel familiar with the processing and special design considerations necessary to properly make use of the special properties of this broad class of materials. The program permits a student to study in detail the industrial production processes, material testing procedures, economics of the polymerics industry and degradation of polymerics. All students in the program complete an individual project, consisting of the design of an item, choice of proper polymeric material for the particular application, choice of the processing operation and construction of the necessary molding tools and testing of the completed device. Contact the Department of Mechanical Engineering.

### Requirements

1. A bachelor's degree in engineering. The certificate may be awarded concurrently with the degree.

2. Satisfactory completion of 22 units minimum of the courses listed below: Polymeric Processing: CHE 200, 425; ME 471 and either 472 or 476; and a minimum of 3 units in either CHE 490 or ME 450. Properties of Polymers: ME 373, 374 and MAE 424/524.
3. Approval of the certificate committee for admission to the certificate program. An advisor will be appointed to you at that time.
4. The advisor's approval of your completion of the special project.

## Certificate in Energy Conversion and Power Systems Engineering (code 1-4000)

Director  
Hamid Rahai

Faculty  
R. Das, S. deSoto, H. Nour, E. Mijares, H. Rahai, R. Toossi, J. Torabzadeh, and H. Unt

The 27-unit certificate program in "Energy Conversion and Power Systems Engineering" is an undergraduate program designed to prepare Electrical and Mechanical Engineering students to become proficient in the analysis and design of power generating systems, such as direct conversion, coal burning, hydraulic, nuclear, solar, wind, and various other types of power plants.

### Requirements

1. Consultation with program advisors in Electrical or Mechanical Engineering Departments and preparation of a program planner;
2. Completion of the following core courses: CE 335, EE 350, EE 452, ME 330, ME 336, ME 431;
3. Completion of 9 units from the following list of elective courses: EE 453, 455, 458, 460, 550, 551, 552, 553, ME 490; MAE 538;
4. Completion of a Bachelor of Science degree in an approved major. This certificate may be awarded concurrently with or subsequently to baccalaureate degree.

Admission to any of the graduate programs requires a minimum GPA of 2.5 in the last 60 units attempted.

## GRADUATE PROGRAMS IN MECHANICAL AND AEROSPACE ENGINEERING

Admission to any of the graduate programs requires a minimum GPA of 2.5 in the last 60 units attempted.

### Master of Science in Mechanical Engineering (code 6-4350)

Built on a broad and basic undergraduate instruction, the graduate level courses and the graduate degree, Master of Science in Mechanical Engineering, develop competence in the fields of design and manufacturing, dynamics and controls, materials and composites, mechanics and Finite Element Methods, and thermal systems. Modern laboratories in CAD, fluid power and mechanics, heat power, control systems, manufacturing, plastics, design, thermodynamics, heat flow, metallurgy, and mechanical properties of materials are maintained for undergraduate and graduate instruction, and graduate research. Design rooms, excellent laboratories within the other engineer-

ing departments, computer facilities, and good machine shops supplement the mechanical engineering facilities.

Additional details may be found in the *Schedule of Classes*. For further information and complete degree requirements contact the Chair, Mechanical and Aerospace Engineering Department.

#### Prerequisites

1. A bachelor's degree in an accredited curriculum in mechanical engineering, with a minimum GPA of 2.5; or
2. A bachelor's degree in engineering with a minimum GPA of 2.5, a natural science or other appropriate discipline with the requirement that essential undergraduate prerequisites in mechanical engineering be satisfied;
3. Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs;
4. The Writing Proficiency Examination (WPE) must be taken and passed during the first semester in residence. Failure to pass WPE will prevent registration in engineering courses in subsequent semesters. Courses taken after the semester without having passed the WPE will not be counted toward any graduate engineering degree.

Note: Before being admitted, a qualified student with a non-engineering degree must provide a written statement to the MSME Graduate Advisor that he/she understands that all deficiencies must be removed before attempting graduate level courses.

#### Advancement to Candidacy

1. Removal of all undergraduate deficiencies as determined by the Department Graduate Advisor;
2. Students may, at the discretion of the Department Graduate Advisor, be required to take examinations in their chosen areas.

#### Requirements

##### PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 698, and submission of a written thesis.

##### PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 697.

Completion of a minimum of 30 units beyond the bachelor's degree in upper division and graduate courses approved by the student's Department Graduate Study Committee including:

1. A minimum of 21 units in engineering or mathematics courses with 18 units of 500- and/or 600-level courses in mechanical engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of an acceptable thesis is required.

#### Master of Science in Aerospace Engineering (code 6-4310)

The Master of Science in Aerospace Engineering program has been created to educate graduate students in subjects relevant to the requirements of industry and in deductive reasoning which will benefit them and the community. This program is unique in its emphasis on practical applications and intimate interaction with the aerospace industry. It involves the most modern computational and experimental methods and provides the essential information permitting the students to acquire knowledge and skills of immediate practical importance. This knowledge is communicated in the courses listed below and used in the conduct of a thesis project to be carried out with participation from industry. Area Specializations include: spacecraft or aircraft systems engineering, computational fluid dynamics, and aerospace structures.

Both graduate and undergraduate programs benefit from the advice of an advisory committee made up of senior staff of aerospace companies, government agencies and universities.

Further information and applications may be obtained from the Department of Mechanical and Aerospace Engineering, California State University, Long Beach, CA 90840.

#### Requirements for Admission

A bachelor's degree in an accredited curriculum in Aerospace or Mechanical engineering with a minimum grade point average of 2.70 in the last 60 (semester) units attempted. Applicants with lower GPA may be admitted subject to successful completion of appropriate deficiencies.

A bachelor's degree in engineering, mathematics, science or other appropriate discipline with the requirement that essential undergraduate prerequisites in engineering be satisfied.

Graduate students must consult with the graduate advisor for information concerning procedures and requirements for appropriate approval of their courses of study prior to enrolling in their graduate programs.

#### Requirements

##### PLAN I

Completion of a minimum of 30 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Eighteen units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 698, and submission of a written thesis.

## PLAN II

Completion of a minimum of 36 units beyond the bachelor's degree in upper-division and graduate courses approved by the student's Department Graduate Study Committee, including:

1. Twenty-four units of 500- and/or 600-level courses in mechanical and aerospace engineering;
2. Six units of electives selected from approved upper-division or graduate courses from appropriate areas;
3. Completion of six units of MAE 697.

## Advancement to Candidacy

Prerequisites for advancement to candidacy are:

1. Classified status.
2. An approved program of studies for the Master of Science in Aerospace Engineering.
3. Satisfactory completion of the CSULB Writing Proficiency Examination (WPE). Information is available in the Testing Office (SS/A-216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
4. Be enrolled in regular session.
5. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in MAE 698, Thesis.

## Master of Science in Engineering (code 6-4301)

Admission to any of the graduate programs requires a minimum GPA of 2.5 in the last 60 units attempted.

For requirements, see the description in the College of Engineering part of this catalog.

The Mechanical and Aerospace Engineering Department administers two emphases under the Master of Science in Engineering. The other prerequisites and requirements are the same as for the MSAE and MSME programs.

### Management Engineering Emphasis

A special management perspective is required for the successful generation of technical products and services, and thus the Master of Science in Engineering: Program in Management Engineering is offered by the College of Engineering at California State University, Long Beach.

In order to plan, design, direct and control technical projects, technical managers must be capable of inspiring and developing professional personnel. They must be able to integrate planning, manufacturing and budgetary concerns of the project and be able to easily communicate with general management.

The Emphasis in Management Engineering primarily admits students with a traditional engineering background. It emphasizes the management of engineering-based endeavors and does not require undergraduate business courses as prerequisites for graduate work.

Well-suited for working students, graduate courses in management engineering are offered in the late afternoon and evening. An individualized program is developed according to each student's undergraduate degree, area of interest, or some well-defined industrial application; interdisciplinary approaches are encouraged.

The graduate program supports innovative thesis topics that enable the degree candidate to be knowledgeable about new applications and/or areas in management engineering.

The graduate Emphasis in Management Engineering at California State University, Long Beach seeks to:

- Provide industry and government with engineers who have essential management knowledge and skills.
- Provide engineers with career advancement opportunities in project management and the management of research, manufacturing and other technical enterprises.
- Educate engineers as managers who can effectively plan and implement technological projects.

### Systems Engineering Emphasis

Systems engineering is the discipline by which definition, planning and design of complex systems is conducted. Significant need exists in industry to increase Systems Engineering understanding, expertise and related tool set knowledge. Customers, including the Department of Defense, are focusing more closely on Systems Engineering capability and the ability to plan and execute complex programs.

## Ph.D. in Engineering and Industrial Applied Mathematics (code 8-4303)

For requirements, see the description in the College of Engineering section of this *Catalog*.

---

## Courses (M E)

---

All courses in this Department are traditional grading only unless otherwise stated.

### Lower Division

#### 172. Engineering Design Graphics (3)

Graphics concepts and visualization. Graphic expressions using CAD software, emphasis on industrial practice involving part and assembly drawings for actual products, standards, tolerances, surface finishes, and other attributes on drawings, production drawings, projects involving complete design of systems and subsystems. (Lecture-problems 2 hrs., design laboratory 3 hrs.) (CAN ENGR 2)

#### 205. Computer Methods in Mechanical Engineering (2)

Prerequisites: MATH 122; PHYS 151. Application of computer programming to engineering problem solving; structured approach to problems; input-output concepts for both numerical and graphical results. (Lecture-problems 1 hour, laboratory 3 hours)

#### 272. Introduction to Manufacturing Processes (2)

Prerequisite: ME 172. Comprehensive survey of modern techniques in manufacturing processes. Basic manufacturing processes, nature and properties of materials; production of metals; foundry, casting and heat treatment; welding, powder metallurgy (sintering), plastics, metrology; working of metals, press work; machine tool elements, numerical control; metal cutting and turning; drilling, boring, milling; shaping planning, sawing broaching; grinding, sanding; gears and gear-cutting, threads and thread-cutting. (Lecture-problems 1 hour, laboratory 3 hours.)

### Upper Division

All upper division Mechanical Engineering courses require proficiency in computer programming. Before attempting any upper division courses, students are expected to have completed satisfactorily all lower division major courses. It is a departmental policy that a grade of "C" or better must be achieved in all prerequisites to all departmental courses.

#### 300. Engineering Instrumentation and Measurement (2)

Prerequisites: MATH 224, PHYS 151, 152. Statistical analysis of experimental data, uncertainty analysis, various statistical distributions and test of goodness of fit, correlation coefficient and multivariable

regression. Engineering instrumentation including different types of passive and active transducers, electronics for instrumentation, computer-based data acquisition systems, and experiments on pressure, temperature, and force measurements. (Lecture-problems 1 hour, Laboratory 3 hours.)

### 305. Numerical Methods in Mechanical Engineering (3)

Prerequisite: ME 205; MATH 370A. Advanced numerical methods applied to the solution of mechanical engineering problems. Roots of algebraic and transcendental equations. Solution of simultaneous linear algebraic equations. Parametric notation of analytical curves, surfaces, and splines. Numerical integration and differentiation. Numerical integration of ordinary differential equations; initial-value problems, boundary-value problems. Partial differential equations. Individual and/or group projects. (Lecture-problems 3 hours.)

### 322. Engineering Materials and Materials Processes (3)

Prerequisites: CHEM 111A, MATH 123, ME 172. Structure and properties of engineering materials. Phase and transformation diagrams. Heat treatments and mechanical processing. Manufacturing methods of metals, alloys, polymers, composites, ceramics, and semiconductors. (Lecture-problems 3 hours.)

### 323. Engineering Metallurgy I Laboratory (1)

Prerequisites: ME 322; ENGL 100 or equivalent. Study of the effects of thermal treatments and mechanical processes on the microstructure and properties of metals and alloys. Computer-aided analysis, statistical nature and reliability of test results. (Laboratory 3 hours.)

### 330. Engineering Thermodynamics I (3)

Prerequisites: MATH 224, PHYS 151 or equivalent, and CHEM 111A or consent of instructor. Laws of thermodynamics. Properties of liquids, gases and vapors. Sources of energy and conversion to work. Introduction to heat transfer and psychrometry. (Lecture-problems 3 hours)

### 336. Power Plant Design (3)

Prerequisite: ME 330. Design of power production systems, including steam power plants, gas turbines and auxiliary power units. Survey of alternate power sources including wind, solar, geothermal, ocean thermal and biomass. Group and/or individual design projects. (Lecture-problems 2 hours, laboratory 3 hours.)

### 337. Thermal Engineering Laboratory (2)

Prerequisite: ME 336. Thermodynamics, heat transfer and fluid flow property measurements, measurement of heating value of fuels, energy and performance analysis of thermal systems, including internal combustion engines, power and heat generating systems, refrigeration and air-conditioning systems, and heat exchangers. (Lecture-problems 1 hour, Laboratory 3 hours.)

### 351. Safety and Reliability in Systems Design I (3)

Prerequisites: ME 205; MATH 370A, or consent of instructor. Introduction to probabilistic design analysis; safety and reliability analyses and tools to assess the adequacy of the designs; identification of critical elements of the design and practical design guidance; compliance with the requirements. Coherent use of reliability concepts, tools, and reliability programs to produce reliable and safe system designs. Group projects involving the design of a reliable and safe "real-life" system. (Lecture-problems 3 hours.) Not open to students with credit in ME 390.

### \*371. Analytical Mechanics II (Dynamics) (3)

Prerequisites: CE 205, ME 205 or CE 206. Newton's Laws and the principles of work and energy and impulse and momentum applied to the study of particle and rigid body motion. Engineering application with emphasis on plane motion problems. Individual and/or group projects involving in-depth numerical analysis. (Lecture-problems 3 hours.)

### 373. Mechanics of Deformable Bodies (3)

Prerequisite: CE 205. Application of the principles of mechanics to the design of structural and machine members and connections; stress analysis of beams and columns. Properties and strength of engineering materials. Design projects. (Lecture-problems 3 hours.)

### 374. Mechanical Properties of Materials Laboratory (1)

Prerequisites: ME 373, ENGL 100 or equivalent. Physical and mechanical properties of engineering materials and their relationship to structural elements; accuracy of measurements; statistical analysis of experimental data; professional laboratory reports. (Laboratory 3 hours.)

### 375. Kinematics and Dynamics of Mechanisms (4)

Prerequisites: ME 272, 322, 371. Fundamentals of linkages, cams, gears and gear trains. Velocity and acceleration analysis of machines leading to dynamic loading of machine parts; dynamic analysis and balancing of rotating machines; internal combustion engine balancing. Individual design projects. (Lecture-problems 3 hours, laboratory 3 hours.)

### 376. Modeling and Analysis of Dynamic Systems (3)

Prerequisite: ME 371; MATH 370A. Modeling and analysis of dynamic systems including mechanical, electrical, electro-mechanical, and hydraulic systems. Use of complex algebra and Laplace transforms. Mathematical modeling of dynamic systems in state-space. Linear systems analysis in time and frequency domains. Introduction to feedback control systems. (Lecture-problems 3 hours.)

### \*409. Modern Computational Aspects in Mechanical Engineering (3)

Prerequisites: Senior standing in engineering and consent of instructor. Computational aspects of various branches of Mechanical Engineering. Typical subjects covered are finite element analysis of structures, fluids, or heat transfer; boundary element analysis. May be repeated once for credit to a maximum of six units with the consent of the department. (Lecture-problems 3 hours.)

#### A. Finite Element Methods I

Finite element methods for beam and truss elements. Systems of ordinary differential equations and their solution in a finite element formulation. Variational formulation of the finite element method. Static and dynamic analysis of complex structures idealized by truss-beam and plane stress elements. Rigid elements in an elastic environment. Automatic mesh generation for 1D, 2D, 3D structures via solid modeling using IDEAS. (Lecture-problems 3 hours.)

#### B. Introduction to Computational Fluid Dynamics and Heat Transfer

Classification of partial differential equations and boundary conditions, finite difference and finite volume formulations, grid generation, stability analysis, numerical methods for inviscid flows, viscous laminar flows, compressible flows, conduction and convection heat transfer. (Lecture-problems 3 hours.)

### \*425. Chemical and Electrochemical Manufacturing Processes (3)

Prerequisites: ME 322, 330; or CHEM 371A or consent of instructor. Theory of electrochemical processing. Electroplating and electroless plating solutions, processes and equipment. Anodizing and other surface treatments. Carburizing, nitriding atmospheres and equipment. Diffusion in solids. The effect of surface treatments on mechanical properties. Same course as CHE 435. (Lecture-problems 3 hours.)

### \*431. Heat Transfer Systems Design (3)

Prerequisites: ME 305, 330; CE 335; completion of Writing Proficiency Exam. Analysis of heat transfer by conduction, convection and radiation. Investigation of steady state and transient heat transfer systems. Computer methods. Individual or group design projects involving real-life problems in heat transfer such as electronic packaging, heat exchangers, heat engines, refrigerators, and thermal systems analysis. (Lecture-problems 2 hours, laboratory 3 hours.)

### \*450. Special Problems (1-3)

Prerequisite: Senior standing. Assigned topics in technical literature or laboratory projects and reports on same.

### \*451. Safety and Reliability in Systems Design II (3)

Prerequisite: ME 351 or consent of instructor. Application of the probabilistic design analysis and theory to real case studies of system design using safety and reliability tools and analysis to set design criteria, assess system design, determine failure modes and critical elements, provide practical design experience and demonstrate compliance with the requirements. Group and/or individual projects involving complete design of reliable and safe systems. (Lecture-problems 2 hours, laboratory 3 hours.)

---

## Courses (M E)

---

### \*459. Professional Practice Seminar (1)

Prerequisite: Senior standing or consent of instructor. The course covers professional practice of engineering, and social and moral responsibilities of engineers, including codes of conduct. Trends and outlook of national and local industries are examined in the context of future employment. Examination of ethical and legal issues, including intellectual property rights and regulatory codes and practices. Students are encouraged to participate in the activities of professional societies such as ASME, and attend professional seminars organized by them in order to instill the habit of life-long learning. The role of graduate studies in engineering and related fields are discussed in the context of professional development. The Industrial practices of teamwork and professionalism, including licensure, are emphasized. Students are strongly encouraged to take the FE (Fundamentals of Engineering, formerly EIT) Examination. Written reports and oral technical presentations are required. (Lecture-Problems 1 hour).

### \*471. Analysis and Design of Machine Components (3)

Prerequisites: ME 374, 375; completion of Writing Proficiency Exam. Application of the principles of mechanics and physical properties of materials to the proportioning of machine elements, including consideration of function, safety, production and economic factors. Group and/or individual design projects of mechanical systems and/or subsystems. (Lecture-problems 2 hours, laboratory 3 hours.)

### \*472. Design of Mechanical Engineering Systems (3)

Prerequisites: WPE, ME 330, 373, 375; CE 335. Corequisite: CE 406. This is a capstone course giving a meaningful experience in the design of Mechanical Engineering Systems, integrating accumulated knowledge and skills of mechanical engineering and engineering standards. The design experience starts with the conceptual design, followed by literature review and analysis. It culminates in a final design that includes: drawings, manufacturing and assembly of the final product or a prototype. Emphasis is placed on identifying realistic constraints simulating practical, industrial situations with factors such as economics, environment, sustainability, manufacturability, life cycle, ethics, health and safety, social and political consequences, which affect design choices. Project results are presented in a final, formal report followed by an oral technical presentation to a peer group. Wherever possible, teamwork and interaction with practicing engineers is encouraged. (Lecture-Problems 2 hours, Design Laboratory 3 hours.)

### \*476. Mechanical Control Systems I (4)

Prerequisite: ME 376. Feedback control systems in mechanical engineering. Modeling, analysis, and design. System performance and design criteria: stability, transient response, frequency response and compensation, root locus. Introduction to nonlinear control systems, state space analysis and design. (Lecture-problems, 3 hours, laboratory 3 hours.)

### \*490. Special Topics in Mechanical Engineering (3)

Prerequisites: Senior standing in engineering and consent of instructor. Selected topics from recent advances in mechanical engineering. Course content may vary from year to year and can be repeated once for credit with the consent of the department. (Lecture-problems 3 hours).

#### A. CAD/CAM

Fundamentals of computer-aided design/computer-aided manufacturing (CAD/CAM). Creating, reading, and understanding databases for solid models. Assemblies and sub-assemblies. Design and analysis of mechanisms with linkages, gears, springs, dampers. Finite Element Modeling of parts, assemblies, and mechanisms. CAM, 3-axis milling, APT. Design optimization. Not open to students with credit in ME 405A.

#### B. Robotics Principles

Major components of a robot and robotic applications. Translational, rotational motion and motion conversions. Modeling of mechanical systems and kinematic chains. Physical control elements, forces encountered, and sensors. Software and hardware considerations, including robot programming. Robot design examples. Not open to students with credit in ME 405B.

#### C. Environmental Engineering and Atmospheric Science

The history, technology, control programs, and current regulatory developments relating to combustion generated air pollution. Topics include: thermodynamics and kinetics of combustion, flame structures, pollutant formations, emissions from automobiles and power plants, furnaces and incinerators, particulate, unburned hydrocarbons, oxides of nitrogen and carbon, control technologies, meteorological considerations, atmospheric processes, ozone layers, and air pollutant dispersion models. Not open to students with credit in ME 405C.

#### D. Hybrid Electrical Vehicles System Design

The history, technology, and future of hybrid vehicles and the role they will play in the future. Students will be exposed to a wide range of topics related to advanced transportation and electric/hybrid vehicles. Students will also be involved in group projects which may involve testing, manufacturing, and modeling of various components for hybrid vehicles. Effects of aerodynamic forces, manufacturing considerations, energy management, ergonomics and economics on overall design of the vehicles are investigated. Not open to students with credit in ME 405D.

#### E. HVAC Systems Design and Equipment

Prerequisites: ME 330, CE 335. Design of air conditioning systems, the design process, occupant comfort, load calculations, components and control, all air systems, air and water systems, and all water systems. Not open to students with credit in ME 405E.

#### F. Petroleum Engineering

Prerequisites: Senior standing in engineering or science. Overview of petroleum engineering operations, properties of petroleum reservoir rocks, single-phase and multiphase fluid-flow through porous media. Properties of reservoir fluids. Field trips. (Lecture-problems 3 hours)

## Graduate Division

### 531. Fundamentals of Convection (3)

Prerequisites: ME 431, MAE 501. Solutions to the laminar and turbulent convective heat transfer problems; external flows, internal flows, free convection and mass transfer from external surfaces. (Lecture-problems 3 hours.)

### 532. Combustion I (3)

Prerequisites: ME 336, 431. Fundamentals of combustion engineering: fuels, chemical thermodynamics, chemical kinetics, and convective heat and mass transfer. Premixed and diffusion flames. Applications in spark-ignition and charged-ignition internal combustion engines, gas-fired and oil-fired furnaces, and rocket propulsions. (Lecture-problems 3 hours.)

### 544. Advanced Control of Mechanical Systems (3)

Prerequisite: ME 476. Advanced topics in analysis and design of modern control systems in mechanical engineering. Topics include state space, Riccati equation, Liapunov equation, Linear Quadratic Regulator (LQR), Kalman filter. Introduction to multivariable feedback systems, Linear Quadratic Gaussian (LQG), Loop Transfer Recovery (LTR), optimal control, robust control, H infinity control theory. Optimization via calculus of variations, Pontryagin's minimum principle. Control of distributed-parameter systems with applications to structural dynamics. (Lecture-problems 3 hours.)

### 577. Advanced Mechanics of Deformable Bodies (3)

Prerequisites: M E 373, 374, 471 or consent of instructor. Analysis of stress and deflection in unsymmetrical bending, shear center for beams, curved beams. Stress concentration, deformation beyond the elastic limit. Energy method; Castigliano's Theorem; Rayleigh-Ritz technique. (Lecture-problems 3 hours.)

### 578. Creep and Fatigue (3)

Prerequisites: M E 322, 373, or consent of instructor. Phenomena of creep and fatigue: effect on stress distribution in structural elements; buckling caused by creep; effects of space environment on fatigue; cumulative fatigue damage at normal and elevated temperatures. (Lecture-problems 3 hours.)

### 629. Design of Composite Structures (3)

Prerequisites: MAE 529. Fatigue and creep of components, design guidelines for composite structures. Bolted and bonded joints. Design of selected configurations. (Lecture-problems 3 hours.)

### 632. Combustion II (3)

Prerequisites: MAE 501, M E 532. Advanced topics in combustion: conservation equations for multi-component reacting systems; detonations and deflagrations; laminar and turbulent flames; flammability limits; ignition and extinction, combustion and radiation and their interactions. (Lecture-problems 3 hours.)

### 638. Engineering Calculation Methods for Turbulent Flow (3)

Prerequisites: MAE 537 or consent of instructor. Introduction to numerical methods for the solution of boundary-layer equations. Solution of two-dimensional internal and external turbulent boundary-layer problems. Unsteady flows, calculation of stability and transition. (Lecture-problems 3 hours.)

### 642. Combustion Processes (3)

Prerequisites: MAE 501, 521, and 536. Fundamentals of combustion, chemical equilibrium, conservation equations, chemical kinetics, diffusion flames, air pollution. (Lecture-problems 3 hours.)

### 643./743. Nonlinear Complex Structures and Mechanisms (3)

Prerequisite: MAE 563. Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling using IDEAS, with automatic adaptation to popular software such as: STRUDL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.)

### 647. Modal Analysis (3)

Prerequisites: MAE 576. A thorough coverage of modal analysis techniques. Digital signal processing, including Fast Fourier Transform, Hilbert Transform, Structural dynamics theory, complex modes, state space, damping, nonsymmetries, modal parameter estimation techniques, and application of modal measurement methods suitable for practical vibration analysis problems. (Lecture-problems, 3 hours.)

### 672. Stress Analysis in Design (3)

Prerequisite: ME 577. Modes of failure and failure criteria. Stability of mechanical models, elastic bars and frames by kinetic and energy approaches; design of columns, beam columns and framed columns. Plastic collapse and limit analysis. Experimental methods of stress analysis. (Lecture-problems 3 hours.)

### 743./643. Nonlinear Complex Structures and Mechanisms (3)

Prerequisite: MAE 563. Analysis and optimization of frame, plate, and shell structures with automatic mesh generation via solid modeling using IDEAS, with automatic adaptation to popular software such as: STRUDL, NASTRAN, ANSYS, and ABAQUS. Sensitivity analysis. Generation and idealization of complex structures and mechanisms. Buckling analysis. Strength of structural elements, theory of yield and ultimate failure, stress concentrations. Non-linear stress analysis, non-linear material, large deflection, plastic deformation, non-linear buckling, composite structures. Thermoelasticity. Non-linear dynamic analysis, flutter analysis, random analysis. Required topics for Ph.D. students: advanced numerical methods for flutter and random analysis. (Lecture-problems 3 hours.)

---

## Courses (AE)

---

All courses in this Department are traditional grading only unless otherwise stated.

### 101. Introduction to Aerospace Engineering (1)

Role of various types of engineering specialties in the development of an actual aerospace vehicle product. Current social, ethical and environmental issues in Aerospace Engineering solutions. Life-long learning skills using resources from professional societies and Internet are also emphasized. (Lecture-problem 1 hour.)

### 320. Spacecraft Systems Engineering (3)

Prerequisites: PHYS 152, ME 330, 371. A systems engineering approach to spacecraft design is presented. Space environments and their impact on spacecraft design, attitude determination and control, and other spacecraft subsystems (thermal, propulsion, configuration, telemetry, power, etc.) are reviewed, including aspects associated with manned space missions. Team projects including spacecraft subsystem design are assigned. Written reports and oral presentations are required. (Lecture-problems, 3 hours.)

### 336. Engineering Fluid Dynamics (3)

Prerequisites: PHYS 151, MATH 370A. Fundamentals of fluid mechanics, formulation of the conservation of mass, momentum and energy for one-dimensional, finite and differential control volumes. Non-dimensional parameters. Pipe flow. External flow. (Lecture-problems 3 hours.)

### 337. Aerodynamics I (3)

Prerequisite: AE 336. Bernoulli's equation. Incompressible, inviscid flow. Flow around circular cylinder. Two dimensional, incompressible boundary layers. Incompressible flow around thin airfoils. Panel methods. (Lecture-problems 3 hours.)

### 350. Flight Mechanics (3)

Prerequisite: ME 371. Aircraft forces. Turbojets: level and other flights in the vertical plane, turning flight in the horizontal plane. Piston props: level and other flights in the vertical plane, turning flight in the horizontal plane. Performance analysis and comparisons of various aircraft. (Lecture-problems 3 hours.)

### 374. Aerospace Structures I (3)

Prerequisite: ME 373. Mechanical behavior of aerospace materials. Torsion of thin walled section beams. Bending and torsion of advanced beams. Analysis of stiffened box beams. Load transfer in stiffened panel structures. Failure criteria of aerospace materials. (Lecture-problems 3 hours.)

### 390. Aerospace Engineering Seminar (1)

Prerequisite: Upper division standing. Through exercises and projects, the students develop improved communications skills, both written and oral. The students are introduced to effective communication techniques and make oral presentations. Guest speakers from industry cover topics such as professional practice of engineering, social responsibilities of engineers, examples of ethical and legal issues, as well as the latest developments in Aerospace Engineering. Students write reports regarding these presentations, both from technical and communication point of views. (Seminar 1 hour.)

### 405. Special Topics in Aerospace (3)

Prerequisite: Consent of instructor. Topics in Aerospace Engineering. Selected according to specialized needs of students as well as current interest. Course can be repeated once with the consent of the department. (Lecture-problems 3 hours.)

### 415. Production Methods for Aerospace Manufacturing (3)

Prerequisite: Consent of instructor. Survey of production processes, sequence of operations, equipment and facilities, methods, tools, plans and requirement of various aerospace products. Observation of an actual aerospace manufacturing activity. (Lecture-problems 3 hours.)

### 417. Lean Manufacturing (3)

Prerequisite: Senior standing. Fundamental makeup of a Lean Enterprise. Study of necessary ties to the customer and relationships both internal and external to the company as well as the leadership, which forms the foundation of a Lean Enterprise. Study of the mechanism of continuous process improvement, which is essential to sustained "Lean" operations. Case studies to accomplish value stream analysis and develop a Lean Enterprise improvement plan for student's own respective operations. (Lecture-problems 3 hours.)

### 425. Space Flight and Orbital Mechanics (3)

Prerequisites: AE 320. Particle dynamics. Circular orbits: stability, Lagrange points, tidal forces, gravitational resonance. Celestial mechanics. Bound and unbound orbits. Predicting orbital positions. Orbital transfers and the orbital rendezvous problem. Principles of rocketry. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours.)

### 427L. Aerospace Manufacturing Laboratory (1)

Prerequisite: Senior standing. A design project is given and students are required to complete the design taking into account the manufacturing equipment, control and systems available. (Laboratory 3 hours.)

---

## Courses (AE)

---

### 437. Aerodynamics II (3)

Prerequisite: AE 337. Incompressible flow about wings of finite span. Vortex lattice method. Compressible flows, Subsonic and supersonic flows around airfoils and wings. Introduction to computational fluid dynamics (CFD). Aerodynamic design considerations. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours).

### 440L. Aerodynamics Laboratory (1)

Prerequisite: AE 337 or consent of instructor. Experimental techniques in aerodynamics, wind tunnel measurements, use of Pitot tube, hot wire and Laser Doppler Velocimetry systems, flow visualization techniques, calibration of transducers. Computer controlled data acquisition and analysis. Projects are assigned and written reports and oral presentations are required. (Laboratory 3 hours).

### 462. Propulsion (3)

Prerequisites: ME 330, AE 337. The simple gas turbine cycle. Heat exchange and reheat gas turbine cycles. Gas turbine components. Ideal and actual thrust development in gas turbines. Principles of rocket engines. Solid, liquid and hybrid fuel rockets. Thrust and control in rockets. Projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours).

### 472. Composite Materials (3)

Prerequisite: Consent of instructor. Stress-strain relations for non-isotropic composites such as fiber-reinforced plastic laminates. Continuum mechanics applied to composites. Manufacturing, strength and life determination. Applications to airplane and spacecraft structures. (Lecture-problems 3 hours.)

### 474. Aerospace Structures II (3)

Prerequisite: AE 374. Work-energy principles. Force method to trusses, beams, frames, and shear panels. Force method to thin-walled stiffened structures. Structural stability. Elementary aeroelasticity. Matrix methods of aerospace structural analysis. Application of finite element computer programs. Team projects are assigned and written reports and oral presentations are required. (Lecture-problems 3 hours).

### 478. Aerospace System Design I (3)

Pre- or Corequisites: AE 437 and 474. Fulfilment of Writing Proficiency Exam. This two semester capstone design experience integrates the essential aspect of aerospace system design. Each team of students is assigned a design project to be completed in the two-semester course sequence. In this first semester course from general specifications, the teams defines the requirements, and works through the complete design by the end of the course (AE 479). Design for manufacturing is emphasized. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture-Design project, 3 hours).

### 479. Aerospace System Design II (3)

Prerequisite: AE 478. This course is the continuation of Aerospace Systems Design I (AE 478). The projects assigned in teams in AE 478 are completed. Manufacturing is included when appropriate. Regular design reviews (oral presentations and written reports) are essential components in grading. (Lecture Design project 2 hours, Laboratory 3 hours)

## Graduate Division

### 551. Aircraft Preliminary Design and Performance (3)

Prerequisites: Consent of instructor. Complete aircraft preliminary design including mission definition, applicable specifications and regulations. Preliminary takeoff weight and weight empty for a specific mission. Aircraft geometric characteristics including engine size are developed. Detailed aerodynamic data are estimated and used to calculate aircraft performance. (Lecture-design project 3 hours.)

---

## Courses (MAE)

---

All courses in the Department are traditional grading only unless otherwise stated.

## Upper Division

### 408./508. Systems Engineering and Integration (3)

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. Additional projects required for MAE 508. (Lecture-Problems 3 hours).

### 424./524. Engineering Principles and Properties of Plastics (3)

Prerequisites: ME 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions. Viscoelastic properties of polymerics. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.)

### 430./530. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)

Prerequisites: ME 330, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. Additional projects are required for MAE 530. (Lecture-problems 3 hours.)

### 435./535. Computational Fluid Dynamics I (3)

Prerequisites: MATH 370A, AE 336. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. Additional projects will be required for MAE 535. (Lecture-Problems 3 hours)

### 438./538. Heating, Ventilating, Air Conditioning, and Refrigeration (3)

Prerequisites: ME 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. Additional projects required for MAE 538. (Lecture-Problems 3 hours)

### 474./574. Computer-Aided Manufacturing (3)

Prerequisites: ME 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. Additional projects will be required from M.S. students in a wide-range of Engineering applications. (Lecture-problems 3 hours.)

### 477./577. Stability and Control of Aerospace Vehicles (3)

Prerequisite: AE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional projects required for MAE 577. (Lecture-Problems 3 hours).

### 486./586. Avionics Systems (3)

Prerequisite: MAE 477 or equivalent. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. Additional projects required for MAE 586. (Lecture-Problems 3 hours).

**495./595. Rapid Product Development (3)**

Prerequisites: ME 490A, 409A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.)

**499./599. Mechanical and Aerospace Engineering Seminar (1)**

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. Additional assignments will be required from graduate students. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied towards degree requirements. (Seminar 1 hour)

**Graduate Division****501. Engineering Analysis I (3)**

Prerequisite: MATH 370A. Differential equations, series solutions of differential equations (special functions), boundary value problems and characteristics function representation, Laplace transforms, Four analysis, partial differential equations, methods of formulating and solving problems in engineering for systems of differential equations and partial differential equations. (Lecture-problems 3 hours.)

**502. Engineering Analysis II (3)**

Prerequisite: MATH 370A. Analysis of mechanical engineering problems by matrix theory and complex variables; numerical techniques. (Lecture-problems 3 hours.)

**505. Quantitative Methods for Engineering Managers (3)**

Prerequisites: MAE 501 or 502 or equivalents. Concepts and methods for using quantitative approaches in engineering management decision-making. Various computer-based tools that can be used in management decision-making to provide the basis for the decision or to help validate decisions made using subjective approaches. Probabilistic methods, forecasting, various forms of the linear program model, network analysis, dynamic programming, Monte Carlo simulation and queuing models. The course is application oriented with sufficient theoretical background provided to effectively use the computer-based tools and properly interpret their results. Methodologies for formulating the problem are emphasized, so that the applicable quantitative techniques can be implemented. (Lecture-problems 3 hours)

**506. Engineering Management and Policy (3)**

Prerequisite: Graduate engineering standing. Analysis of the principles and theory of engineering administrative organizations, information systems, management functions, decision making tools, strategies and administrative policy formulations. (Lecture-problems 3 hours.)

**507. Engineering Project Management (3)**

Prerequisite: Graduate engineering standing. Theory and philosophies of project management, principles of internal and industrial organization planning and control systems, motion in time study, industrial statistics, industrial research as aid to decision making. (Lecture-problems 3 hours.)

**508./408. Systems Engineering and Integration (3)**

Prerequisite: Senior standing or consent of instructor. Introduction to the tools and methods employed by systems engineers in the aerospace industry. Development of system functions, requirements, verification and validation, and interfaces in the context of integrated product teams and the product life cycle. Trade studies and risk management. Projects are assigned and written reports and oral presentations are required. Additional projects required for MAE 508. (Lecture-Problems 3 hours.)

**511. Advanced Manufacturing Management Systems (3)**

Prerequisite: Consent of Instructor. Advanced management systems for Integrated Product Development (IPD) and Concurrent Engineering (CE); Quality, Productivity and Costs, with emphasis on Just-in-Time Manufacturing (JIT); Quality-Based Manufacturing Systems: TQM and ISO 9000; Customer Requirement and Quality Function Deployment (QFD); Design for Manufacturing and Assembly (DFMA) and other defect prevention systems, such as Poka-Yoke; Demand-Driven, "Pull" type manufacturing systems. "Lean Enterprise" concepts. (Lecture-Problems 3 hours.)

**512./612. Computer Aided Design in Mechanical Engineering (3)**

Prerequisites: ME 490A, MAE 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and data transfer. Additional projects required for MAE 612. (Lecture-problems 3 hours.)

**521. Engineering Metallurgy II (3)**

Prerequisite: M E 322. Properties and uses of structural steels, heat treatable steels, titanium alloys, nickel and cobalt base alloys; refractory metals, ultra high strength steels, stainless steels and metal matrix composite materials. Introduction to designing for fracture resistance. (Lecture-problems 2 hours, laboratory 3 hours.)

**524./424. Engineering Principles and Properties of Plastics (3)**

Prerequisites: ME 373. Nature of polymers, physical and mechanical properties of plastics. Polymerization reactions and production. Properties of co-polymers, polymer solutions, visco-elastic properties of polymeric. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.)

**527. Metals and Plastics Manufacturing Processes (3)**

Prerequisite: M E 322. Theory of metal forming and plastics processing. Includes metal forging and rolling, metal and plastics extrusion, plastics injection molding, casting. Discussion of appropriate manufacturing methods. (Lecture-problems 3 hours.)

**529. Structural Analysis of Composite Laminates (3)**

Prerequisites: M E 305, 322, 373, MAE 524. Manufacturing and production of composite materials and structure selection of appropriate materials, stress-strain relationships, stiffness, strength of components. (Lecture-problems 3 hours.)

**530./430. Measurement Techniques in Fluid Mechanics and Heat Transfer (3)**

Prerequisites: ME 330, 431, CE 335. Experimental uncertainty, electrical transducers and pressure measurements, thermocouples and other temperature measurement devices, resistance bridges, amplifiers and filters, optical measurement devices, digital image processing, holography and laser doppler velocimeter. Additional projects are required for MAE 530. (Lecture-problems 3 hours.)

**533. Gas Dynamics (3)**

Prerequisite: AE 336 or equivalent. Isentropic flow, normal and oblique shocks, Prandtl-Meyer flow, shock expansion theory, method of characteristics, nozzle flow, flow in ducts with friction and heat transfer, solutions for the linearized potential equation with applications to wings and bodies, slender body theory, similarity rules, transonic flow, shock wave/boundary layer interactions. (Lecture-Problems 3 hours)

**534. Transport Processes in Porous Media (3)**

Prerequisite: Graduate Standing in engineering. Fundamentals of mass, momentum and heat transfer through porous media; flow characteristics of porous structures; principles of single-phase and multi-phase flow in porous media; flow of immiscible and miscible fluids, hydrodynamic dispersion in porous structures, deterministic and stochastic modeling of flow in porous media. (Lecture-problems 3 hours.)

**535./435. Computational Fluid Dynamics I (3)**

Prerequisites: MATH 370A, AE 336. Numerical methods for elliptic, parabolic, and hyperbolic equations, finite difference and finite volume methods, analysis of consistency, stability, and convergence, panel method, modeling and computation of boundary layer flows, computational methods for solving full potential equation, grid generation techniques, application to inviscid and viscous subsonic, transonic, and supersonic flows. Additional projects will be required for MAE 535. (Lecture-Problems 3 hours.)

---

## Courses (MAE)

---

### 536. Statistical Thermodynamics (3)

Prerequisites: ME 330, MAE 501 or equivalent. Fundamentals of statistical mechanics; quantum mechanics and statistics as applied to thermodynamics; behavior of gases and solids; chemical equilibrium. (Lecture-problems 3 hours.)

### 537. Advanced Fluid Dynamics I (3)

Prerequisites: CE 335, ME 431. Dynamics of ideal, real and compressible flows, potential flow, vortex flow, the Navier Stokes equations, integral and differential equations for laminar flow, exact solutions for laminar flow, steady and unsteady compressible flows. (Lecture-problems 3 hours.)

### 538./438. Heating, Ventilating, Air Conditioning, and Refrigeration (3)

Prerequisites: ME 330, CE 335. Basic HVAC system calculations. Thermodynamics and psychometrics, design conditions and load estimating, residential and non-residential heating and cooling load calculations, energy estimating methods, duct and pipe sizing, and life cycle costs. Additional projects required for MAE 538. (Lecture-Problems 3 hours.)

### 563. Linear Finite Element Analysis (3)

Prerequisite: ME 409A. Finite element (FE) forms of differential equations. Boundary value problems, energy theorems, matrix displacement method, and finite difference method. Generation of FE stiffness, mass, and damping matrices. Isoparametric concepts. Dynamic response of damped elastic structures, modal and direct integration analysis. Automatic mesh generation via solid modeling using IDEAS, automatic adaptation to popular software such as: STRUDEL, NASTRAN, ANSYS, and ABAQUS. FE fluid flow and heat transfer analysis. (Lecture-problems 3 hours.)

### 572. Structural Design Optimization (3)

Prerequisite: ME 373 or consent of instructor. Structural optimization using calculus of variations. Method of Lagrange multipliers, unconstrained and constrained optimization, fast reanalysis techniques, sequential approximate optimization, sensitivity calculations of structural response, variational sensitivity analysis, approximation techniques, optimal design of laminated composite materials, stacking sequence optimization of composite laminates using genetic algorithm. (Lecture-Problems 3 hours.)

### 574./474. Computer-Aided Manufacturing (3)

Prerequisites: ME 322, 490A. Fundamental concepts in automation. High volume discrete parts production systems. Numerical control manufacturing systems. Computer process monitoring. Direct digital control. Group techniques. Flexible manufacturing systems. Additional projects will be required from M.S. students in a wide-range of Engineering applications. (Lecture-problems 3 hours.)

### 575. Advanced Dynamics with Robot Applications (3)

Prerequisites: ME 371, MATH 370A. Detailed study of rigid body dynamics with emphasis on robot arm analysis. Three-dimensional kinematic analysis. Rotational and homogeneous transformations. Eulerian angles. Denavit Hartenberg representation. Kinematic chains. Recursive formulas. Euler's moment equations and gyrodynamic. Multi-body analysis. Lagrange's equations. Special topics. (Lecture-problems 3 hours.)

### 576. Engineering Vibrations I (3)

Prerequisites: ME 376. Fundamentals of mechanical vibrations, types of oscillatory motions. Single-Degree-of-Freedom (SDOF) and Multiple-Degree-of-Freedom (MDOF) systems. Free and forced vibrations, damping, vibration isolation, vibration measuring instruments, Modal analysis. Lagrange's equations. Introduction to Finite Element Method and modal testing. (Lecture-problems 3 hours.)

### 577./477. Stability and Control of Aerospace Vehicles (3)

Prerequisite: AE 350 or equivalent. Physical dependence of airplane stability and control characteristics on airplane configuration and flight condition. Equations for the static longitudinal, lateral and directional stability of airplanes. Neutral points, control effectiveness, trim in maneuvering flight. Configuration determinants. Transient modes. Additional projects required for MAE 577. (Lecture-Problems 3 hours.)

### 579. Engineering Acoustics (3)

Prerequisites: ME 376, MAE 502. Theory and application of acoustical principles to generation, transmission, measurement and control of sound. (Lecture-problems 2 hours, laboratory 3 hours.)

### 581. Space Vehicle Design (3)

Prerequisite: Graduate engineering standing or consent of instructor. Space environments and their impact on spacecraft design. Space mission design. Payloads and communications. Integration of attitude determination and control, thermal, propulsion, configuration, telemetry, power, structures, and data handling subsystems. (Lecture-Problems 3 hours.)

### 582. Rocket and Spacecraft Propulsion (3)

Prerequisite: Graduate engineering standing or consent of instructor. Thrust and specific impulse. Compressible flows. Detailed analysis of liquid, solid and hybrid propulsion systems. Includes propellants, injection systems, combustion and chemical equilibrium, thrust chambers, nozzles and plumes. Electro-thermal thrusters. Plasmas and electromagnetic thrusters. (Lecture-Problems 3 hours.)

### 583. Astrodynamics (3)

Prerequisite: Graduate engineering standing or consent of instructor. Physical principles. Two-body and central force motion. Coordinate and time systems. Trajectory correction maneuvers. Position and velocity in conic orbits. Lambert's Problem. Celestial mechanics. Orbital perturbations. Numerical methods in orbital mechanics and mission analysis. (Lecture-problems 3 hours.)

### 585. Spacecraft Attitude Determination and Control (3)

Prerequisite: Graduate engineering standing or consent of instructor. Rigid-body dynamics. Control systems. Spacecraft attitude dynamics and control. Stabilization methods and maneuvers. Impact of flexible structures. (Lecture-Problems 3 hours.)

### 586./486. Avionics Systems (3)

Prerequisite: MAE 477 or equivalent. Avionics systems requirements definition and design. Systems used for guidance and navigation. Components of avionics systems (software, integrated circuits, devices, etc.). Integration of optics and electronics. Testing and certification. Additional projects required for MAE 586. (Lecture-Problems 3 hours.)

### 590./690. Advanced Topics in Mechanical and Aerospace Engineering (3)

Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. Additional projects required for MAE 690. May be repeated for a maximum of six units with different topics. (Lecture-problems 3 hours.)

### 595./495. Rapid Product Development (3)

Prerequisites: ME 490A, 409A. Rapid product development using solid modeling features. Creating different design proposals for a specified development period. Manufacturing the design models (complex 3-D parts or mechanisms) via rapid prototyping. Simplified finite element analysis and optimization of different design proposals. Selecting a final design model. Quality control process via a 3-D scanner and data acquisition software for checking tolerances and dimensions of complex parts or assembled mechanisms. Product readiness for casting, mold flow analysis or machining via CAM. Additional projects will be required from M.S. students. (Lecture-problems 3 hours.)

### 599./499. Mechanical and Aerospace Engineering Seminar (1)

Prerequisite: Approval of undergraduate or graduate advisor. Seminars on topics of current interest in Mechanical and Aerospace Engineering and presentation of student/faculty research. Additional assignments will be required from graduate students. May be repeated to a maximum of 3 units; only 1 unit of credit may be applied towards degree requirements. (Seminar 1 hour)

### 612./512. Computer Aided Design in Mechanical Engineering (3)

Prerequisites: ME 490A, MAE 501, 502. (Master's students register in MAE 512 or 612; Ph.D. students register in MAE 612). Computer graphics in CAD/CAM. Includes geometrical transformations, viewing in three dimensions, modeling and object hierarchy, representation of 3D shapes, shading models and imaging databases and

data transfer. Additional projects required for MAE 612. (Lecture-problems 3 hours.)

### 631. Thermal Radiation (3)

Prerequisite: Consent of instructor. Fundamentals of thermal radiation, properties of matter, radiative exchange in enclosures, equation of transfer for radiative transfer in absorbing, emitting, scattering media, gas radiation, and solutions for gas flows. (Lecture-problems 3 hours.)

### 633. Hypersonic Flow (3)

Prerequisite: AE 533. Hypersonic shock and expansion-wave relations, similarity concepts, Newtonian theory and modified Newtonian theory, nonlinear small-disturbance theory, blunt body flows, hypersonic viscous/inviscid interactions, aerodynamic heating, real gas effects, waveriders, atmospheric reentry. (Lecture-Problems 3 hours.)

### 635./735. Computational Fluid Dynamics II (3)

Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, upwind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. Additional projects will be required for MAE 735. (Lecture-Problems 3 hours.)

### 637. Advanced Fluid Dynamics II (3)

Prerequisites: ME 431, MAE 501, 537. Transition to turbulent flow, wall bounded and free turbulent shear flows, numerical methods for turbulent flow, turbulence modeling. (Lecture-problems 3 hours.)

### 639. Turbulence (3)

Prerequisites: ME 532, MAE 537. Nature of turbulent flows, dynamics of turbulence, statistical description, homogeneous turbulence and spectral dynamics characteristics of turbulent shear flows. (Lecture-problems 3 hours.)

### 642. Aeroelasticity (3)

Prerequisites: MAE 561, MAE 533, or consent of instructor. Deformations of airplane structures under static and dynamic loads. Natural modes and frequencies of complex airplane structures. Analysis of static aeroelastic phenomena. Fundamental concepts of unsteady aerodynamics. Flutter of swept wings. Dynamic response phenomena. Computational aeroelasticity techniques. (Lecture-Problems 3 hours.)

### 671. Random and Nonlinear Vibrations (3)

Prerequisites: MAE 576. Characterization and transmission of random vibration; failure due to random vibration. Classification of nonlinear problems; exact, graphical and approximate solutions, singular points, stability. (Lecture-problems 3 hours.)

### 673. Theory of Elasticity and Plasticity (3)

Prerequisite: ME 577. Equations of the mechanics of elastic bodies. Plane problem. Bending, torsion, and extension of Prismatic Bodies. Three-dimensional problem. Propagation of waves in elastic media. Approximate methods. Theory of plasticity. (Lecture-problems 3 hours.)

### 676. Engineering Vibrations II (3)

Prerequisites: MAE 576. Free, forced, and self-excited vibrations. Modal analysis of continuous systems, including exact and approximate solutions. Rayleigh's quotient, Rayleigh-Ritz, Galerkin, collocations, Finite Element Methods. Vibrations in rotating and reciprocating machines. Response of structures to random and shock loads. Transfer function and frequency response methods. Vibration control of discrete systems and flexible structures, including large space structures. (Lecture-problems, 3 hours.)

### 677./777. Digital Simulation in Engineering (3)

Prerequisites: ME 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage

control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. Additional projects required for MAE 777. (Lecture-problems 3 hours.)

### 690./590. Advanced Topics in Mechanical and Aerospace Engineering (3)

Prerequisite: Graduate engineering standing or consent of instructor. Selected topics from recent advances in mechanical engineering. Course content will vary from year to year. Topics will be announced in the *Schedule of Classes*. Additional projects required for MAE 690. May be repeated for a maximum of six units with different topics. (Lecture-problems 3 hours.)

### 691. Directed Studies (1-3)

Study of information in engineering and scientific literature on a current topic under the direction of a faculty member. Preparation of a written report based on this reading.

### 697. Directed Research (1-6)

Prerequisite: Graduate standing in Mechanical and Aerospace Engineering. Theoretical and experimental problems in mechanical and aerospace engineering requiring extensive research and analysis. Submission of a final report and its approval by an evaluating committee are required. May be repeated to a total of 6 units. Not open to students who are enrolled in MAE 698.

### 698. Thesis (1-6)

Prerequisite: Enrollment is limited to students advanced to candidacy or eligible for it. Department Graduate Advisor must be consulted and a Thesis Permission form submitted for each semester of enrollment. Planning, preparation, and completion of a thesis in mechanical and aerospace engineering. May be repeated to a total of 6 units. Not open to students who are enrolled in MAE 697.

### 735./635. Computational Fluid Dynamics II (3)

Prerequisite: MAE 535. Computational methods for solving Euler and Navier-Stokes equations, implicit and explicit schemes, upwind differencing and artificial diffusion, multi-grid techniques and convergence acceleration, unstructured grid techniques, turbulence modeling, application to inviscid and viscous subsonic, transonic, and supersonic flows, inverse problems and aerodynamic shape optimization. Additional projects required for MAE 735. (Lecture-Problems 3 hours.)

### 777./677. Digital Simulation in Engineering (3)

Prerequisites: ME 490A, 409. (Master's students register in MAE 677 or 777; Ph.D. students register in MAE 777). Program bank at an engineer's workstation. 3D-modeling and animation of real structures. Multimedia; Rapid Prototyping; Optimization of heat transfer-, fluids-, electrodynamic-, and structural problem solutions. Internal structure of a program bank. Dynamic data structure-, program structure-, and secondary storage control-statements. Status and location information of dynamic arrays, support of graphical interactive dialog. Maintenance and modification of a program bank. Additional projects required for MAE 777. (Lecture-problems 3 hours.)

### 795. Advanced Directed Studies (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report. Course may be repeated to a maximum of 8 units.

### 797. Advanced Directed Research (4)

Prerequisite: MS or equivalent and formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics. Explorations of theoretical and experimental (if applicable) Engineering problems in great depth with emphasis on mathematical modeling and analysis. Students must present the findings in a formal report and a seminar. Course may be repeated to a maximum of 8 units.

### 798. Doctoral Dissertation (4-12)

Prerequisite: Enrollment is limited to students formally admitted to the Ph.D. program in Engineering and Industrial Applied Mathematics who have passed the preliminary examinations and research tool tests on completion of at least 48 units of course work. A written dissertation proposal containing an outline of the research to be undertaken and references to relevant source material must be submitted. Only upon a positive recommendation may a student embark on a dissertation. Minimum of 4 units per semester. May be repeated until the dissertation is completed.

## Courses (MKTG)

### Upper Division

#### 300. Marketing (3)

Recommended preparation: ECON 200 or 201 or 300. Interdependence of elements in the firm's marketing system. Relation of marketing system to other activities in the firm. Firm's role in domestic and world marketing environments. Economic and social effects on marketing. Human behavior as it affects marketing, marketing communications, marketing information systems, marketing management problems and their solutions.

#### 310. Retail Concepts and Policies (3)

An overview of the retail system. Retail decision making emphasized in relation to the following areas: store operation and management; merchandise assortment and pricing; store location and layout; advertising and sales communication; consumer analysis; retail information systems; retail accounting and control.

#### 330. Mass Marketing Communications: Advertising (3)

Principles and practices of advertising. Social and economic importance of advertising and its relation to modern business organization; importance of an advertising plan; preparation of advertisements, copy and layout, media planning and application of information technology.

#### 410. Services Marketing (3)

Prerequisite: MKTG 300. Applies marketing management techniques, marketing strategies, and processes for service evaluation and service quality improvement to the marketing of services in both profit and nonprofit organizations. Topics include the unique characteristics of services marketing, the management of services, the evaluation of service quality, techniques for service improvement, services marketing in global environments, and the use of marketing techniques to achieve service breakthroughs. Entrepreneurial and career opportunities in not-for-profit and profit oriented service organizations will also be explored.

#### 420. Sales Management (3)

Prerequisite: MKTG 300. Managing the sales force; sales analysis; forecasting techniques; account and territory management; negotiations; integrating the personal computer into the sales function; computer simulation of the decision process in sales management.

#### 430. Promotion Strategies (3)

Prerequisite: MKTG 300. Management of the promotional mix. Behavioral and data-based foundations for promotional strategies; budgeting; allocation of promotional resources; media models; integration of promotional strategies into the marketing mix; applications of information-based technologies and tools for analysis.

#### 437. Internet Marketing (3)

Prerequisites: MKTG 300 suggested. The course covers Internet history; Internet technology and appliances; consumer behavior (domestic and International) on the Internet; business models; advertising and promotions; website design; pricing; and marketing research using the Internet. Quality and service are emphasized. News and recent developments in e-commerce are a focus of the class. Traditional grading only.

#### 465. Business To Business Marketing (3)

Prerequisite: MKTG 300. Analysis of industrial products, markets, institutions, and strategy. Comparison with consumer marketing. Emphasis on business-to-business negotiations and promotions. Integration and application of information technologies.

#### 470. Marketing Research (3)

Prerequisites: MKTG 300, IS 310. Fundamentals of marketing and industrial research as an aid to problem-solving in business. Familiarization with current industry research efforts. Data collection, interviewing, and report-generation software. Analysis of data. Project, instrument and sampling designs.

#### 480. International Marketing (3)

Prerequisite: MKTG 300. The study of marketing systems and marketing operations in various countries and multinational market groups. Impact of foreign environments and information technologies. In-depth international marketing studies and formulation of appropriate strategies.

#### 481. International Marketing Management (3)

Prerequisites: MKTG 300 and MKTG 480. MKTG 481 provides students with a problem solving approach to assessing and exploiting global marketing opportunities. The course focuses on developing a strategic marketing plan for entering/maintaining foreign markets. The course will be taught as a special topics seminar. Traditional grading only.

#### 490. Consumer Behavior (3)

Prerequisite: MKTG 300. Application of psychological, sociological, anthropological, and economic theories to the understanding of consumer behavior. Consideration of personality, attitudinal, group, social class, subcultural, and demographic factors. Review of comprehensive models.

#### 492. New Products/New Services (3)

Prerequisite: MKTG 300 or consent of instructor. Entrepreneurship; innovation management; the process and strategy of new product or services marketing; developing a business plan for a product or service introduction.

#### 494. Marketing Management (3)

Prerequisites: MKTG 300; senior marketing majors or consent of instructor. Strategies and techniques in marketing management. Application of prior material from marketing curriculum to problems and cases. Emphasis on problem identification and solution. Traditional grading only.

#### 495. Selected Topics (1-3)

Prerequisites: Consent of instructor and a GPA of 3.0 in marketing. Topics of current interest in marketing selected for intensive study. May be repeated for a maximum of 6 units. Topics will be announced in the Schedule of Classes.

#### 497. Directed Studies (1-3)

Prerequisites: Consent of instructor and Department Chair, on Dean's List and a 3.0 GPA or higher in marketing. Individual projects, study and research of advanced nature in marketing.

### Graduate Prerequisite Course

#### 500. Marketing Concepts (3)

Prerequisite: MBA standing required. Overview of the decision process in marketing. Consideration of functional areas and their interaction with the total operations of the firm. Application of information technology to the development of marketing strategy and planning.

### Graduate Division

#### 610. Seminar in Services Marketing (3)

Prerequisite: MKTG 500. Supplements Marketing 500 by focusing on problems and strategies specific to service businesses. Problems commonly encountered in service businesses (such as inability to inventory, difficulty in synchronizing demand and supply, difficulty in controlling quality) are addressed. Strategies used by successful services marketers to overcome these difficulties will be discussed. The emphasis is on services in general rather than on any particular industry. However, concepts are illustrated using cases, examples, and exercises in diverse service industries such as banking, health care, retailing, financial planning, consulting, professional services, and communication. Traditional grading only.

#### 661. Seminar in Marketing Policies (3)

Prerequisite: MKTG 500. The solving of practical, profit-oriented problems in marketing. Sophisticated case analysis and discussion. Application of marketing principles and technologies, including information systems, databases, behavioral theories, and management techniques.

#### 663. Seminar in Advertising Policies (3)

Prerequisite: MKTG 500. Discussion and analysis of advertising situations, objective setting, creative strategies, media strategies and models, and evaluation. Applications of mass communication theories and marketing databases.

#### 665. Seminar in Marketing Research (3)

Prerequisites: MKTG 500 and IS 601. The role of research in the solution of marketing problems. Research methods in collecting, analyzing, and interpreting information for business use. Survey and experimental approaches included. Case studies and/or class projects required.

#### 666. Seminar in International Marketing (3)

Prerequisite: MKTG 500. Analysis of problems and opportunities in international marketing operations. Consideration of entry strategies, competitive strategies, domestication, and nationalization problems. Use of marketing information systems to evaluate opportunities and threats in foreign markets.

#### 668. Seminar in Consumer Behavior (3)

Prerequisite: MKTG 500. Topics in the behavioral sciences as they apply to marketing. Application of psychological, sociological, anthropological, and economic theories and models to the understanding of buyer behavior and the development of marketing strategy.

#### 669. Seminar In Strategic Planning (3)

Prerequisite: MKTG 661. The role and use of marketing research and information systems as the basis for development and implementation of marketing strategy. Case studies and/or class projects required.

#### 695. Selected Topics (3)

Prerequisites: MBA standing, consent of instructor. Topics to be announced in the Schedule of Classes. Topics change each offering and, in the absence of significant duplication, the course may be repeated once for credit.

#### 697. Directed Studies (1-3)

Prerequisites: MBA standing, consent of instructor and Department Chair. Individual study under the direction of the faculty.

**M**athematics is fundamental to all scientific knowledge, including not only the traditional natural sciences but increasingly the social and economic sciences. The increasing applicability of mathematical methods has been enhanced and accelerated by the development of the computer. Mathematics is also a vital aid to critical and philosophical thinking and, at least to some, a thing of beauty in itself.

The Department of Mathematics offers instruction for students at all levels beyond high school mathematics. Its courses provide the computational and analytic skills needed for a variety of majors, as well as the advanced theoretical topics for specialists in mathematics. Its various degree options are intended to provide the student with the knowledge and techniques needed for scientific, management and statistical applications, and also the theoretical understanding needed for teaching, graduate study and lifelong professional growth. Beyond these, it hopes to instill a spirit of curiosity and healthy skepticism towards mathematical statements and results – a willingness to ask "is this true?" and "why?", and to try to find the answers.

Students desiring information should contact the department office for referral to the appropriate faculty advisor: Undergraduate Advisor, Graduate Advisor, Credential Advisor.

### *Concurrent and/or Summer Enrollment in Another College*

Students who wish to take course work in a community college or other college to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to enroll in specific courses. This policy applies to concurrent enrollment or summer enrollment. University policy must also be complied with. See 'Concurrent Enrollment' and 'Transfer of Undergraduate Credit' in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the department.

### *Facilitated Enrollment into Classes*

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Science Center (FO5-109) or Department Office for additional information.

### *Undergraduate Degree Programs*

The Mathematics Department offers four undergraduate degree programs in mathematical sciences.

## Bachelor of Science in Mathematics (code 3-6666) (120 units)

The student in this program is required to take a selection of fundamental courses in algebra, statistics and analysis. It is the most flexible program, in which the greatest number of electives may be chosen by the student. Elective upper division mathematics courses are available which meet the needs of students preparing for a variety of goals, including careers in industry and government, secondary teaching and graduate study. Students who do not wish to complete the requirements for a declared option in applied mathematics or statistics may wish to elect courses in one or both of these areas as part of this degree program.

### Requirements

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 233, 247; CECS 174; PHYS 151.

Upper Division: A minimum of 30 units of approved upper-division mathematics courses selected in consultation with a major advisor, to include MATH 341 or 347, 361A, 361B, 364A, 380 and 444 but not 370A or 370B. To allow flexibility, only 18 of the required 30 units are specified. Students should choose the remaining 12 units after discussing career goals and interests with an advisor. For additional information and to obtain an advisor, contact the Department Office.

## Option in Applied Mathematics (code 3-6608) (120 units)

The student who is most interested in the applications of mathematics has a choice of two suboptions: the first concentrates on the applications in science and engineering while the second concentrates on the applications to economics and management. In both suboptions, courses are specified in the major areas of applied mathematics and in the field of application. This option prepares students for careers in business, industry or government or for graduate study.

### Requirements

*Suboption I: Area of application in Science and Engineering*

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; PHYS 151 and 152; PHYS 154 or EE 211 or CE 205.

Upper Division: MATH 323, 361A, 361B, 364A, 364B, 380, 470. A minimum of 9 units from the following: MATH 381, 382, 423, 461, 463, 472, 479, 485. A minimum of 9 units from one of the following three groups:

- A. PHYS 310, 340A, 340B, 350, 410, 422, 450;
- B. EE 310, 370, 382, 460, 482;
- C. CE 335, 359, 437, 438, 458, 494; ME 371, 373.

*Suboption II: Area of Application in Economics and Management*

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; ECON 100 and 101, or ECON 300.

Upper Division: MATH 323, 361A, 361B, 364A, 380, 381, 382, 485. A minimum of 6 units from the following courses: MATH 364B, 423, 463, 470, 479, 480. A minimum of 15 units from one of the following two groups:

- A. ECON 310, 311 required; and 9 units selected from ECON 333, 410H, 411H, 420, 422, 433, 486
- B. ECON 333, MGMT 410 required; and 9 units selected from MGMT 411, 412, 413, 414, 426.

## Option in Statistics (code 3-6008) (120 units)

This option provides students with a foundation in statistical methods. The courses required ensure that the student understands both how the techniques are mathematically derived and how they are applied. Statistical analysis is an essential part of any scientific investigation. It is a vital tool in monitoring the quality of products and services and in forecasting. This option prepares students for interesting and rewarding careers and for graduate study in statistics and other quantitative fields.

### Requirements

Lower Division: ENGL 101 or 317; MATH 122, 123, 224, 247; CECS 174; and any one of the following: PHYS 100A-B, or PHYS 151 and 152; or PHIL 170 and 270; or 8 units of a foreign language, or 6 lower-division units in a field in which approved upper-division Statistics courses are also taken.

Upper Division: A minimum of 30 units of upper-division mathematics courses to include MATH 323, 361A, 380, 381, 382 and 480 but not MATH 370A or 370B. MATH 361B is recommended. Six additional units must be taken in fields outside mathematics; these must be approved by a mathematics advisor. The following courses are approved statistics option electives: BIOL 456, 465; ECON 481, 486; GEOG 400; PSY 315, 411, 412; SOC 455. In addition, any student planning to pursue graduate studies in mathematics should take MATH 444.

## Option in Mathematics Education (code 3-6609) (120 units)

This option is for students preparing to teach mathematics at the secondary school level. Completion of this Option will meet all course requirements for the Single Subject Credential Major Program in Mathematics. Thirty units of post-baccalaureate coursework are also required for the Clear Single Subject Teaching Credential in Mathematics (see Single Subject Teacher Education Program in the College of Education for more specific information about courses and other requirements).

### Requirements

Lower Division: MATH 122, 123, 224, 233, 247; one of the following: ENGL 101 or 300 or 317; and one of the following sequences: PHYS 151 and 152; or PHIL 170 and 270; or eight units of a foreign language.

Upper Division: MATH 310, 341, 355, 361A\* or 364A, 380, 381, 410, 444; MTED 301, 411; EDSS 300M; and 3 additional upper division Mathematics units excluding MATH 370A, 370B.

(\* denotes preferred course)

## Minor in Mathematics (code 0-6666)

### Requirements

The Minor in Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 23 or more semester units as follows:

MATH 122, 123, 224, 247, and 9 units of upper-division mathematics courses to include MATH 361A but not 370A. The student may replace MATH 123 and 224 by MATH 222

and one more 3 unit upper-division mathematics course (excluding MATH 370A) not used to meet the above upper-division requirements.

### Minor in Applied Mathematics (code 0-6608)

#### Requirements

The Minor in Applied Mathematics is available to any student not majoring in Mathematics or Applied Mathematics.

The student must complete 27 or more semester units as follows:

Lower Division: MATH 122, 123, 224, 247

Upper Division: MATH 323, 364A or 370A, 380 and one course selected from MATH 364B, 381, 382, 423, or 470.

The student may replace MATH 123 and 224 by MATH 222 and one more course from MATH 364B, 381, 382, 423, 470 not used to meet the above upper division requirements.

### Master of Science in Mathematics (code 6-6666)

#### Prerequisites

1. A bachelor's degree in mathematics from an accredited college or university; or
2. A bachelor's degree with a minimum of 24 upper division units in mathematics;
3. Courses must include MATH 247, 361A-B, 364A and 444, or their equivalents. Deficiencies will be determined by the graduate advisor after consultation with the student and study of transcript records.

#### Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 GPA.

#### Requirements

1. A minimum of 24 graduate and approved (\*) upper division units in mathematics including:
  - A. One of the sequences MATH 540A-B, 550A-B, 560A-B, 561A-B, and 562A-B;
  - B. Two additional courses selected from 540A, 550A, 560A, 561A, 562A;
  - C. A minimum of 18 units at the 500/600 level, including at least 15 units of graduate courses in mathematics exclusive of MATH 697 and/or 698;
2. Six units of approved upper division (as indicated by asterisk) or graduate electives to total 30 units for the degree;
3. Complete one of the following:
  - A. Pass a comprehensive written examination in two areas of mathematics.
  - B. Subject to the approval of the Graduate Committee of the Department of Mathematics, write a thesis in mathematics and defend it orally.Specific requirements for passing of the comprehensive examinations can be found in the *Graduate Study Booklet* which is available from the Mathematics Department.

### Option in Applied Mathematics (code 6-6608)

#### Prerequisites

1. A bachelor's degree in mathematics, physics, or engineering, or a bachelor's degree with at least 24 upper division units in mathematics from an accredited college or university.
2. A grade of "C" or better in MATH 247, 323, 361A-B, 364A, and 380, or their equivalents. Deficiencies will be determined by the graduate advisor.

#### Advancement to Candidacy

In addition to University requirements, the student must have completed all prerequisite courses listed above, with no grade less than "C". Students must have passed the Writing Proficiency Examination (WPE) and should file for Advancement upon completion of at least six units (and no more than nine units) of the Program, with at least a 3.0 grade point average.

#### Requirements for the Master of Science in Applied Mathematics

1. A minimum of 30 graduate and upper division units approved by the graduate advisor and including:
  - A. MATH 479, 570, and 576;
  - B. At least 9 units, of which at least 3 must be numbered above 500, of applied mathematics courses selected from MATH 364B, 381, 382, 423, 470, 480, 485, 575, 577, 581, and 584. (A MATH 495 or 695 course whose content is applied mathematics may also be selected if it is approved by the graduate advisor prior to registration.)
  - C. At least 6 units of analysis courses selected from MATH 463, 472, 560A, 561A, and 562A or 461 but not both;
  - D. At least 18 units of graduate mathematics courses (numbered 500 or above) including any such courses used to meet requirements (A), (B), and (C) above and including at least 15 units other than MATH 697 or 698.
2. Complete one of the following:
  - A. Pass a comprehensive written examination in two subjects of Applied Mathematics;
  - B. Subject to the approval of the proposal by both the Applied Mathematics Committee and the Graduate Committee of the Department of Mathematics, write a thesis in applied mathematics and defend it orally.Specific requirements for passing of the comprehensive examinations can be found in the *Graduate Study Booklet* which is available from the Mathematics Department.

---

#### Mathematics Courses (MATH)

---

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics courses and mathematics education courses except MATH 001 and 010. An ELM test score of 400 or lower is required for MATH 001. An ELM test score between 410 and 540 or proof of successful completion of MATH 001 is required for MATH 010.

#### Lower Division

##### 001. Elementary Algebra and Geometry (3)

Prerequisite: ELM test score of 400 or lower. Topics include arithmetic review, elementary algebra, and some basic geometry concepts. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. (Lecture 3 hrs.) Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so.

---

## Mathematics Courses (MATH)

---

### 010. Intermediate Algebra (3)

Prerequisite: An ELM score between 410 and 540 or proof of successful completion of MATH 001. Topics include polynomial, rational, and radical expressions and equations; rational exponents; solutions and graphs of linear, quadratic, and rational inequalities; systems of linear equations; operations, inverses, and graphs of functions; logarithmic and exponential functions and their applications. Cannot be taken for credit toward a university degree. Credit/No Credit grading only. (Lecture 3 hrs.) Not open to students who are exempt from the ELM or who have not yet taken the ELM but are required to do so.

### 101. Trigonometry (3)

Prerequisites: MATH 010 or two years of high school algebra. Trigonometric functions and applications. Complex numbers. (Lecture 3 hrs.) Not open to students with credit in MATH 117 or 122. (CAN MATH 8)

### 103. Mathematical Ideas (3)

Prerequisites: 3 years of high school mathematics including algebra, geometry and intermediate algebra (or MATH 010), or the equivalent. Non-technical course surveying a variety of concepts in undergraduate mathematics. Topics will include elementary logic, algebra of sets, numeration systems, rational and real numbers, modular number systems, elementary combinatorics, probability and statistics. (Lecture 3 hrs.) Not open to students with credit in any MATH course numbered greater than 103, or the equivalent. (CAN MATH 2)

### 112. College Algebra (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Study of algebra including linear and quadratic equations and systems; matrices and determinants; theory of equations; polynomial, exponential and logarithmic functions and their graphs; permutations and probability. Designed for students majoring in a life or social science. (Lecture 3 hrs.) Not open to students with credit in MATH 117 or 122.

### 114. Finite Mathematics (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Combinatorial techniques and introduction to probability. Equations of lines and systems of linear equations, matrices, introduction to linear programming. (Lecture 3 hrs.) Not open to students with credit in MATH 233 or 380. (CAN MATH 12)

### 115. Calculus for Business (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Functions, derivatives, optimization problems, graphs, partial derivatives. Lagrange multipliers, integration of functions of one variable. Applications to business and economics. Emphasis on problem-solving techniques. (Lecture 3 hrs.) Not open to students with credit in MATH 115B, 115S, 119A, 120 or 122. (CAN MATH 34)

### 117. Precalculus Mathematics (4)

Prerequisites: Three and one half years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010) and one half year of trigonometry (or MATH 101), or the equivalent. Polynomial, rational, exponential, logarithmic, and trigonometric functions. Complex numbers, conic sections, graphing techniques. (Lecture 3 hrs., Problem Session 2 hrs.) Not open to students with credit in MATH 122. (CAN MATH 16)

### 119A. Survey of Calculus I (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Functions, limits and continuity, differentiation and integration of functions of one variable including exponential, logarithmic, and trigonometric functions. Graphing, optimization, parametric equations, integration by substitution and by parts, numerical integration. Applications to the life sciences. Emphasis on problem solving rather than theory. (Lecture 3 hrs.) Not

open to students with credit in MATH 115, 115B, 115S, 120, or 122. (CAN MATH 30).

### 119B. Survey of Calculus II (3)

Prerequisite: MATH 119A or 122. Functions of several variables, partial derivatives, optimization. First order differential equations, second order linear homogeneous differential equations, systems of differential equations. Probability, random variables, difference equations. Introduction to vectors, matrices, Gaussian elimination, determinants. Applications to the life sciences. Emphasis on problem solving rather than theory. (Lecture 3 hrs.) Not open to students with credit in MATH 116, 123, or 224. (CAN MATH 32)

### 120. Calculus for Technology (4)

Prerequisites: Three and one-half years of high school mathematics including one year of geometry, two years of algebra, and one semester of trigonometry, or the equivalent. Real and complex numbers and functions; limits and continuity; differentiation and integration of functions of one variable. Introduction to calculus of several variables. Applications to science and technology. (Lecture 3 hrs., problem session 2 hrs.) Not open to students with credit in MATH 122.

### 122. Calculus I (4)

Prerequisite: A grade of "C" or better in MATH 117 or four years of high school mathematics including two years of algebra, one year of geometry, one half year of trigonometry, and one additional senior-level course. Limits. Continuous functions. Derivatives and applications including graphing, related rates, and optimization. Transcendental functions. L'Hospital's Rule. Antiderivatives. Definite integrals. Area under a curve. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 18)

### 123. Calculus II (4)

Prerequisite: A grade of "C" or better in MATH 122. Applications of the integral. Techniques of integration. Infinite series including convergence tests and Taylor series. Parametric equations. Polar coordinates. Introduction to differential equations. (Lecture 3 hrs., problem session 2 hrs.) Not open to students with credit in MATH 222. (CAN MATH 20)

### 180. Elementary Statistics (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Nature of statistics and probability theory, description of sampled data. Random sampling, normal distribution assumption and its consequences; tests of hypotheses and estimation; correlation, regression, analysis of variance. Non-parametric methods. (Lecture 3 hrs.) (CAN STAT 2)

### 201. Mathematical Software and Technology (3)

Prerequisite: MATH 122. Basic elements of spreadsheets: rearranging and combining worksheets, functions, charts, graphs, macros, basic data analysis and mathematical applications. The logical structure of the graphing calculator and its various menus: customizing and programming it. Introduction to a scientific word processor and typing technical equations. Introduction to mathematical software including elementary programming and its applications. (Lecture 2 hrs., problem session 2 hrs.)

### 222. Intermediate Calculus (4)

Prerequisite: A grade of "C" or better in MATH 122. Integration by parts and by partial fractions. Numerical integration. Improper integrals. Infinite series including series convergence tests and Taylor series. Vectors. Partial derivatives and directional derivatives. Double integrals. Introduction to differential equations. Enrollment restricted to CECS majors. Not open to students with credit in MATH 123. Traditional grading only. (Lecture 3 hrs., Activity 2 hrs.)

### 224. Calculus III (4)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Vectors and three-dimensional analysis geometry. Partial derivatives and Lagrange multipliers. Multiple integrals. Vector calculus, line and surface integrals. Green's Theorem, Stokes' Theorem and the Divergence Theorem. (Lecture 3 hrs., problem session 2 hrs.) (CAN MATH 22)

### 233. Fundamental Concepts for Advanced Mathematics (3)

Prerequisite: A grade of "C" or better in MATH 123 or 222. Fundamentals of logic and set theory, counting principles, functions and

relations, induction and recursion, introduction to probability, elementary number theory, congruences. (Lecture 3 hrs.)

### 247. Introduction to Linear Algebra (3)

Prerequisite: MATH 222 OR prerequisite or corequisite: MATH 224. Matrix algebra, solution of systems of equations, determinants, vector spaces including function spaces, inner product spaces, linear transformations, eigenvalues, eigenvectors, quadratic forms, and applications. Emphasis on computational methods. (Lecture 3 hrs.) (CAN MATH 26)

### 297. Directed Study (1-3)

Prerequisite: Consent of instructor. Designed for students who wish to undertake special study, at the lower division level, which is not a part of any regular course, under the direction of a faculty member. Individual investigation, studies or surveys of selected problems.

## Upper Division

### 310. History of Early Mathematics (3)

Prerequisite: MATH 123 or 222. History of mathematics through the seventeenth century, including arithmetic, geometry, algebra, and the beginnings of calculus. Interconnections with other branches of mathematics. (Lecture 3 hrs.)

### 323. Introduction to Numerical Analysis (4)

Prerequisites: MATH 222 or 224, and a course in computer programming. Numerical solution of nonlinear equations, systems of linear equations, and ordinary differential equations. Interpolating polynomials, numerical differentiation, and numerical integration. Computer implementation of these methods. (Lecture-discussion 3 hrs., problem session 2 hrs.)

### 330. Introduction to Mathematical Logic (3)

Prerequisite: MATH 123 or 222. Symbolic methods of propositional calculus, general theory of inference, transition from formal to informal proofs, theory of definition, elementary set theory and axiomatic methods. (Lecture 3 hrs.)

### 333. Discrete Structures and Combinatorics (3)

Prerequisites: MATH 233 and 247. Advanced counting techniques, generating functions, graph theory, coding theory, additional topics in combinatorics. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 340. Theory of Algebraic Equations (3)

Prerequisite: MATH 123 or 222. Complex numbers, general theorems on algebraic equations, the discriminant, location and approximation of roots of equations, solution of the cubic and quartic equations; determinants and their application to simultaneous linear equations, symmetric functions. (Lecture 3 hrs.)

### 341. Number Theory (3)

Prerequisites: MATH 123 or 222, and at least one of MATH 233, 247, 310; recommended, 233 or 247. Divisibility, congruences, number theoretic functions, Diophantine Equations, primitive roots, continued fractions. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 347. Linear Algebra (3)

Prerequisites: MATH 233 and 247. An in-depth study of linear transformations, vector spaces, inner product spaces, quadratic forms, similarity and the rational and Jordan canonical forms. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 355. College Geometry (3)

Prerequisite: MATH 247. Transformations, motions, similarities, geometric objects, congruent figures, the axioms of geometry, and additional topics in Euclidean and non-Euclidean geometry. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 361A. Introduction to Mathematical Analysis I (3)

Prerequisites: MATH 222 or 224, and MATH 233 or 247. Rigorous study of calculus and its foundations. Structure of the real number system. Sequences and series of numbers. Limits, continu-

ity and differentiability of functions of one real variable. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 361B. Introduction to Mathematical Analysis II (3)

Prerequisite: MATH 361A. Riemann integration. Topological properties of the real number line. Sequences of functions. Metric spaces. Introduction to the calculus of several variables. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.)

### 364A. Ordinary Differential Equations I (3)

Prerequisites: MATH 222 or 224, and prerequisite or corequisite MATH 247. First order differential equations; undetermined coefficients and variation of parameters for second and higher order differential equations, series solution of second order linear differential equations; systems of linear differential equations; applications to science and engineering. (Lecture 3 hrs.)

### \*364B. Ordinary Differential Equations II (3)

Prerequisite: MATH 364A or 370A. Existence-uniqueness theorems; Laplace transforms; difference equations; nonlinear differential equations; stability, Sturm-Liouville theory; applications to science and engineering. (Lecture 3 hrs.)

### 370A. Applied Mathematics I (3)

Prerequisite: MATH 222 or 224. First order ordinary differential equations, linear second order ordinary differential equations, numerical solution of initial value problems, Laplace transforms, matrix algebra, eigenvalues, eigenvectors, applications. (Lecture 3 hrs.) Not open for credit to mathematics majors.

### 370B. Applied Mathematics II (3)

Prerequisite: MATH 370A. Arithmetic of complex numbers, functions of a complex variable, contour integration, residues, conformal mapping; Fourier series, Fourier transforms; separation of variables for partial differential equations. Applications. (Lecture 3 hrs.) Not open for credit to mathematics majors.

### 380. Probability and Statistics (3)

Prerequisite: MATH 222 or 224. Frequency interpretation of probability. Axioms of probability theory. Discrete probability and combinatorics. Random variables. Distribution and density functions. Moment generating functions and moments. Sampling theory and limit theorems. (Lecture 3 hrs.)

### \*381. Mathematical Statistics (3)

Prerequisites: MATH 247 and 380. Estimation and hypothesis testing. Maximum likelihood and method of moments estimation. Efficiency, unbiasedness, and asymptotic distribution of estimators. Neyman-Pearson Lemma. Goodness-of-fit tests. Correlation and regression. Experimental design and analysis of variance. Non-parametric methods. (Lecture 3 hrs.)

### \*382. Random Processes (3)

Prerequisites: MATH 247 and 380. Further topics in probability. Markov processes. Renewal theory. Random walks. Queueing theory. Poisson processes. Brownian motion. (Lecture 3 hrs.)

### 410. History of Modern Mathematics (3)

Prerequisites: MATH 247, 310 and at least three out of MATH 233, 341, 355, 361A, 380. The history of mathematics from the seventeenth century through the first half of the twentieth century. Development of calculus, analysis, and geometry during the time period. Other topics discussed may include the history of probability and statistics, algebra and number theory, logic and foundations. (Lecture 3 hrs.)

### \*423. Intermediate Numerical Analysis (3)

Prerequisites: MATH 247 and 323. Numerical solutions of systems of equations, calculation of eigenvalues and eigenvectors, approximation of functions, solution of partial differential equations. Computer implementation of these methods. (Lecture 3 hrs.)

### 444. Introduction to Abstract Algebra (3)

Prerequisites: MATH 233 and 247 and at least one of MATH 341 or 347. Groups, subgroups, cyclic groups, symmetric groups, Lagrange's theorem, quotient groups. Homomorphisms and isomorphisms of groups. Rings, integral domains, ideals, quotient rings, homomorphisms of rings. Further topics in groups, rings and fields as time permits. Students will be asked to write valid mathematical proofs. (Lecture 3 hrs.) Not open to students with credit in MATH 444A.

---

## Mathematics Courses (MATH)

---

- \*451. Differential Geometry (3)**  
Prerequisite: MATH 364A or 370A. Structure of curves and surfaces in space, including Frenet formulas of space curves; frame fields and connection forms; geometry of surfaces in Euclidean three space; Geodesics and connections with general theory of relativity. (Lecture 3 hrs.)
- \*461. Introduction to Complex Analysis (3)**  
Prerequisite: MATH 361A. Theory and applications of complex variables. Analytic functions, integrals, power series and applications. (Lecture 3 hrs.) Not open to students with credit in MATH 562A.
- \*463. Multivariable Calculus (3)**  
Prerequisites: MATH 224, 247, and 361B. Topology of Euclidean spaces. Partial derivatives. Derivatives as linear transformations. Inverse and implicit function theorems. Jacobians, vector calculus, Green's and Stokes' theorems. Variational problems. (Lecture 3 hrs.)
- \*470. Introduction to Partial Differential Equations (3)**  
Prerequisite: MATH 370A or 364A. First and second order equations, characteristics, Cauchy problems, elliptic, hyperbolic, and parabolic equations. Introduction to boundary and initial value problems and their applications. (Lecture 3 hrs.)
- \*472. Fourier Analysis (3)**  
Prerequisite: MATH 364A or 370A. Theory of Fourier series and Fourier transforms with applications to Physics and Engineering. Square integrable functions and Parseval's and Plancherel's identities. Convolution. The Fourier transform in one and several dimensions, with applications to partial differential equations. Introduction to distribution theory, the discrete Fourier transform and fast Fourier transforms. (Lecture 3 hrs.)
- \*479. Mathematical Modeling (3)**  
Prerequisites: MATH 247; 364A or 370A; and two additional upper-division mathematics courses or consent of instructor. Application of mathematics to develop models of phenomena in science, engineering, business and other disciplines. Evaluation of the benefits and limitations of mathematical modeling. (Lecture 3 hrs.)
- \*480. Regression Analysis (3)**  
Prerequisites: MATH 247 and 380, prerequisite or corequisite MATH 381. Simple linear regression: estimation and inference, prediction, analysis of residuals, detection of outliers, use of transformations. Multiple linear regression: influence diagnostics, multi-collinearity, selection of variables, simultaneous estimation and inference, validation techniques. Use of statistical software for data analysis. (Lecture 3 hrs.)
- \*485. Mathematical Optimization (3)**  
Prerequisites: MATH 247 and at least one of MATH 323, 347 or 380. Linear and nonlinear programming: simplex methods, duality theory, theory of graphs, Kuhn-Tucker theory, gradient methods and dynamic programming. (Lecture 3 hrs.)
- 491. Honors Seminar in Problem Solving (1)**  
Prerequisites: Consent of instructor. Challenging problems from many fields of mathematics, taken largely from national and worldwide collegiate and secondary school competitions. Students will be required to participate in at least one national competition. May be repeated to a maximum of three units of credit. (Lecture—discussion 1 hr.)
- \*495. Topics in Modern Mathematics (3)**  
Prerequisite: Consent of instructor. Topics of current interest from mathematics literature.
- \*497. Directed Studies (1-3)**  
Prerequisites: Junior or senior standing and consent of instructor. Readings in areas of mutual interest to student and instructor which are not a part of any regular course. A written report or project may be required. May be repeated to a maximum of three units of credit.

## Graduate Division

- 540A. Abstract Algebra I (3) F**  
Prerequisite: MATH 444. Group theory including symmetric groups; group actions on sets; Sylow theorems and finitely generated abelian groups; ring theory including polynomial rings, division rings, Euclidean domains, principal ideal domains and unique factorization domains. (Lecture 3 hrs.)
- 540B. Abstract Algebra II (3) S**  
Prerequisite: MATH 540A. Modules; Field extensions; Finite fields; Splitting fields, Galois theory. Commutative ring theory including chain conditions and primary ideals. Topics of current interest. (Lecture 3 hrs.)
- 550A. Topology I (3) S**  
Prerequisite: MATH 361B. Fundamentals of point-set topology: metric spaces and topological spaces; bases and neighborhoods; continuous functions; subspaces, product spaces and quotient spaces; separation properties, countability properties, compactness, connectedness; convergence of sequences, nets and filters. (Lecture 3 hrs.)
- 550B. Topology II (3) F**  
Prerequisite: MATH 550A. Further topics in point-set topology: local compactness, paracompactness, compactifications; metrizable; Baire category theorem; homotopy and the fundamental group. Topics may also include uniform spaces, function spaces, topological groups or topics from algebraic topology. (Lecture 3 hrs.)
- 560A. Functional Analysis I (3) F**  
Prerequisites: MATH 361B and 247. Linear spaces, metric and topological spaces, normed linear spaces; four principles of functional analysis: Hahn-Banach, Open Mapping, Uniform Boundedness, and Closed Graph theorems; adjoint spaces; convergence in normed spaces, conjugate spaces, and spaces of operators; Banach Fixed Point theorem; Hilbert spaces; selected applications. (Lecture 3 hrs.)
- 560B. Functional Analysis II (3) S**  
Prerequisite: MATH 560A or consent of instructor. Spectral theory of operators on normed spaces; special operators; elementary theory of Banach algebras; selected topics from applied functional analysis. (Lecture 3 hrs.)
- 561A. Real Analysis I (3) S**  
Prerequisite: MATH 361B. The theory of measure and integration, focusing on the Lebesgue integral on Euclidean space, particularly the real line. Modes of convergence. Fatou's Lemma, the monotone convergence theorem and the dominated convergence theorem. Fubini's theorem. (Lecture 3 hrs.)
- 561B. Real Analysis II (3) F**  
Prerequisite: MATH 561A or consent of instructor.  $L^p$  spaces of functions. Holder's inequality. Minkowski's inequality. Norm convergence, weak convergence and duality in  $L^p$ . Further topics from convergence of Fourier series, measure-theoretic probability, the Radon-Nikodym theorem; other topics depending on time and interest. (Lecture 3 hrs.)
- 562A. Complex Analysis I (3) F**  
Prerequisite: MATH 361B. (MATH 461 is recommended.) Axiomatic development of real and complex numbers; elements of point set theory; differentiation and analytic functions, classical integral theorems; Taylor's series, singularities, Laurent series, calculus of residues. (Lecture 3 hrs.)
- 562B. Complex Analysis II (3) S**  
Prerequisite: MATH 562A. Multiple-valued functions, Riemann surfaces; analytic continuation; maximum modulus theorem; conformal mapping with applications, integral functions; gamma function, zeta function, special functions. (Lecture 3 hrs.)
- 570. Partial Differential Equations (3) S**  
Prerequisites: MATH 361B, 364A and one of 370B, 470, 472. Cauchy's problem; classification of second order equations; methods of solution of hyperbolic, parabolic, and elliptic equations. Traditional grading only. (Lecture 3 hrs.)

### 575. Calculus of Variations (3) S

Prerequisites: MATH 364A or 370A, and MATH 361B. Classical theory. Necessary and sufficient conditions for extrema of multiple integrals. Hamilton-Jacobi theory. Applications to eigenvalue problems. Direct methods. Pontryagin maximum principle. Principle of optimality. (Lecture 3 hrs.)

### 576. Numerical Analysis (3) F

Prerequisites: MATH 323, 361B and 364A. Advanced numerical methods. Introduction to error analysis, convergence, and stability of numerical algorithms. Topics may include solution of ordinary differential equations, partial differential equations, systems of linear and nonlinear equations, and optimization theory. (Lecture 3 hrs.)

### 577. Numerical Solution of Partial Differential Equations (3) S

Prerequisite: MATH 423 or MATH 576 or consent of instructor. A survey of finite difference methods for solving hyperbolic, parabolic, and elliptic PDE'S, with analysis of their accuracy, convergence, and stability properties. Topics include selected initial-value and boundary-value problems, characteristics, domain of dependence, von Neumann's method of stability analysis, the matrix method of stability analysis, and solution of large scale sparse linear systems by direct and iterative methods. Introduction to the finite element method. (Lecture 3 hrs.)

### 580. Statistical Inference (3)

Prerequisites: MATH 381 or consent of instructor. Properties of a random sample, convergence in probability, the law of large numbers, sampling from the normal distribution, the central limit theorem, principles of data reduction, the likelihood principle, point estimation, Bayesian estimation, methods of evaluating estimators, hypothesis testing, decision theory, confidence intervals. Traditional grading only. (Lecture 3 hrs.)

### 581. Experimental Design and Analysis (3) F

Prerequisite: MATH 381 or consent of instructor. The design of experiments to permit efficient analysis of sources of variation with application to quality assurance. Factorial and fractional factorial designs; block designs; confounding. Fixed and random effect models. Effects of departure from assumptions; transformations. Response surface techniques. Taguchi methods. (Lecture 3 hrs.) Not open to students with credit in MATH 580.

### 584. Statistical Quality Control (3) F

Prerequisite: MATH 381 or consent of instructor. An introduction to the methods of statistical quality control. Topics covered include control charts, acceptance sampling, process capability analysis, and some aspects of experimental design. (Lecture 3 hrs.)

### 586. Data Mining (3)

Prerequisites: MATH 480 or consent of instructor. Basics of data mining algorithms with an emphasis on applications to industry. Prediction and classification techniques such as Multivariate Adaptive Regression Splines (MARS), Classification and Regression Trees (CART), neural networks, and other methods. Several software packages will be utilized. Traditional grading only. (Lecture 3 hrs.)

### 695. Seminar in Mathematics (3) F,S

Prerequisite: Consent of instructor. Presentation and discussion of advanced work, including original research by faculty and students. Topics to be announced in the *Schedule of Classes*. May be repeated to a total of six units.

### 697. Directed Studies (1-3) F,S

Prerequisite: Consent of instructor. Research on a specific area in mathematics. Topic for study to be approved and directed by advisor in the mathematics department.

### 698. Thesis (2-4) F,S

Prerequisite: Completion of at least one 500 and/or 600 level mathematics course. Formal report of research or project in mathematics.

---

## Mathematics Education Courses (MTED)

---

Satisfying the Entry-Level Math (ELM) requirement (see "Undergraduate Programs" section of this *Catalog*) is a prerequisite for all mathematics education courses.

### Lower Division

#### 105. Activity-Based Probability and Statistics for Elementary and Middle School Teachers (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Activity-based exploration of randomization, data representation, measures of central tendency and dispersion. Analysis of experiments requiring hypothesizing, experimental design and data gathering. Basic laws of probability and set theory, combinations, permutations, and simulations. Algebraic thinking will be used throughout the course. Enrollment limited to students seeking a Multiple Subject teaching credential. Not open for credit to Mathematics majors. (Lecture 2 hrs., Activity 2 hrs.) Traditional grading only.

#### 110. The Real Number System for Elementary and Middle School Teachers (3)

Prerequisites: Three years of high school mathematics including algebra, geometry, and intermediate algebra (or MATH 010), or the equivalent. Introduction to problem solving processes and strategies. Development and analysis of the structure and operations of the real number system. Concept and process development using appropriate models, manipulatives, and activities. Not open to students with C or better in MATH 110. Enrollment limited to students seeking a Multiple Subject teaching credential. Not open for credit to Mathematics majors. (Lecture 2 hrs., Activity 2 hrs.)

#### 211. Geometry and Measurement for Elementary Teachers (3)

Prerequisites: "C" or better in MTED 110 and one year of high school geometry. Formerly MTED 111. Problem solving with particular focus on making tables and patterning, informal geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Computer language, such as Logo and/or geometry drawing utility, such as Geometer's Sketchpad, will be integrated into the course. Emphasis will be on hands-on modeling of real-world geometric situations. Not open to students with "C" or better in MATH/MTED 111. Enrollment limited to students seeking a Multiple Subject teaching credential. Not open for credit to Mathematics majors. (Lecture 2 hrs., Activity 2 hrs.)

### Upper Division

#### 301. Computer Applications in Mathematics for Teachers (3)

Prerequisites: One year of high school geometry and one of MTED 110 or MATH 122. Formerly MTED 278. Course designed for pre-service or in-service teachers. Introduction to computer technology and its applications to mathematics classrooms: software evaluation; survey of teacher tools such as spreadsheets and databases; e-mail, computer-based collaborative tools and applications using the Internet; mathematics using technology; introduction to programming; issues about computer and other technology use in the schools; integration of computer technology into the mathematics classroom. This course satisfies the California Level I teaching credential computer technology standard. Open for credit to Single Subject mathematics and Multiple Subject credential students only. (Lecture 2 hrs., Activity 2 hrs.) Not open for students with credit in MATH/MTED 278.

#### 311. Topics of Enrichment in Mathematics for the Elementary Teacher (3)

Prerequisites: MTED 110 and either MTED 211 (formerly MTED 111) or MATH 122 or consent of instructor. Formerly MATH 311. Enrichment topics in mathematics for the elementary teacher, such as theory of arithmetic, numeration systems, elementary logic, mensuration, metric system, topological equivalence, probability and statistics and network theory. Not open to students with credit in MATH 311. (Lecture 3 hrs.) Not open for credit to mathematics majors.

---

## Mathematics Education Courses (MTED)

---

### 312. Geometry and Measurement for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and one year of high school geometry. Prerequisite or co-requisite MTED 301 or the equivalent. Focus on exploration, conjecture and justification of geometric relationships and applications that are relevant to teaching geometry through the middle grades. Topics include: problem solving, informal geometry, the nature of proof, introduction to non-Euclidean geometry, congruence, similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2 and 3 dimensions. Technology involving a geometry drawing utility, such as Geometer's Sketchpad, will be used extensively in the course. (Lecture 2 hrs., Activity 2 hrs.) Traditional grading only. Not open for credit to Mathematics majors.

### 315. History of Mathematics for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and MTED 312. This course develops mathematics ideas throughout history with an orientation toward the various civilizations and cultures that contributed those ideas. The course covers the history of most areas of mathematics relevant to the K-9 curriculum, especially arithmetic, algebra, geometry, and their interrelationships. The cross-cultural view of mathematics will be emphasized. Also included are historical origins of more modern subjects such as statistics and probability, cryptography, and other applied mathematics. (Lecture 3 hrs.) Traditional grading only. Not open for credit to Mathematics majors.

### 320. Number Theory and Algebraic Structures for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisite: MTED 110. Topics include divisibility, primes and composites, prime factorizations; proofs and problem-solving with these topics; groups, rings, and fields, especially congruence modulo  $n$  and  $p$  and other examples; and other topics within number theory and modern algebra that are relevant to the mathematics curriculum in elementary and middle schools. (Lecture 3 hrs.) Traditional grading only. Not open for credit to Mathematics majors.

### 325. Functions, Models and Concepts of Calculus for Mathematics Specialists in Elementary and Middle Schools (3)

Prerequisites: MTED 110 and MTED 312. Functions, families of functions and ways to represent them, such as numeric, symbolic, graphical, verbal; sequences and sums. Intuitive development of the concepts of limit, continuity, derivative, integral and applications, including differential equations. Algebraic methods will be emphasized in the context of learning calculus. Technology will be used throughout the course, particularly graphing calculators. Not open for credit to Mathematics majors. (Lecture 3 hrs.) Traditional grading only.

### 402. Problem Solving Applications in Mathematics for Elementary and Middle School Teachers (3)

Prerequisites: "C" or better in both MTED 110, either MTED 211 (formerly MTED 111) or MTED 312 or the equivalent and a course in Critical Thinking. Focusing on problem solving processes and strategies, this course will bring together and apply content from many areas of mathematics and make use of computer technology and/or graphing calculators. The course will illustrate problem solving as a framework for developing questioning strategies that foster understanding of algebra and geometry. Topics include real-world applications involving the real number system, algebra, number theory, geometry, measurement, probability and statistics. Enrollment limited to students seeking a Multiple Subject teaching credential. Not open for credit to Mathematics majors. (Lecture 2 hrs., Activity 2 hrs.)

### 411. Topics and Issues in Secondary School Mathematics (3)

Prerequisites: MATH 310, 341, 355, 380, 410, and 444, and EDSS 300M (MATH 410 and EDSS 300M may be taken concurrently), or consent of the instructor. Examination and analysis of topics and issues in the secondary school mathematics curriculum from an advanced standpoint. Topics will include problem solving, mathematical connections, mathematical structures, mathematical conjecture and proof, mathematical communication at various levels, use of manipulatives and technology, assessment alternatives. Instructional experiences involving mathematics required in college-age settings. Observation/interview experience involving mathematics required in non-educational settings. Portfolio assemblage required. Intended for students preparing to enter the Single Subject Credential Program. Not open to students with credit in MATH 411. (Lecture 2 hrs., activity 3 hrs.)

The Center for Medieval and Renaissance Studies sponsors activities that explore the complex culture of the Middle Ages and the Renaissance. It sponsors a regular lecture series featuring speakers from on- and off-campus. Occasionally special seminars are held to commemorate a person, place, or event of significance from these periods; recent topics have included Richard III, Florence and Rome 1200-1600, The Sensual Culture of Venice, 1066 And After That, and La Felicissima Armada. The Center also offers courses on a wide range of medieval and Renaissance issues, supports faculty research both here and abroad, and is associated with most of the local and national societies relevant to research in these fields.

In addition, the Center has established an interdisciplinary program which offers students interested in these periods the opportunity to pursue a course of study leading to a Certificate in Medieval and Renaissance Studies. Courses which are used to meet the certificate requirements may be counted, where applicable, toward the General Education requirements, the major, and minor requirements. A Minor in Medieval and Renaissance Studies has been proposed and is anticipated for implementation in academic year 2002-2003.

Interested students should apply to the Director, FO2 116, or to members of the supporting faculty for further information.

## Certificate in Medieval and Renaissance Studies (code 1-6010)

### Requirement

1. A bachelor's degree with an approved major. (Certificate may be completed prior to the completion of the B.A. requirement or while in the process of working toward an advanced degree.)
2. Consultation and approval of the program with a faculty advisor.
3. Intermediate level language proficiency on the college level, including a course in medieval or Renaissance literature of the language. It is expected that the language selected will be Latin, but with the consent of the advisor, Anglo-Saxon, French, German, Italian, Spanish or Greek may be substituted.
4. Twenty-four units selected from the following courses.  
Students should elect to concentrate in either the medieval or Renaissance period.  
A. Required courses (12 units): one of the following sequences for six units: HIST 316, 317, or 317, 332, or 332, 333. One of the following literature courses for three units: C/LT 431, 432; ENGL 451, 452. One of the following Art history courses for three units: ART 409, 410, 423, 424, 425.  
B. Nine units selected from the following courses: ART (history) 408, 409, 410, 423, 424, 425, 497\*; C/LT 349\*, 4141, 422, 430, 431, 432, 450\*; ENGL 363, 426, 431, 451, 452, 462, 463, 468A, 469\*, 483, 498\*; FREN 470, 471; GERM 315; GK 490\*, 499\*; HIST 301, 316, 317, 318, 331, 332, 333, 341A, 351, 353, 411, 431, 432, 490\*, 495\*, 499\*; LAT 490\*, 499\*; MUS 360; PHIL 403; POSC 301, 302; R/ST 314, 3311, 4711, 4721, 490\*, 495\*; SPAN 330; THEA 490\*. Graduate courses: ART 611\*; ENGL 550, 551, 652, 681; FREN 604, 685; GERM 511; HIST 510\*, 611, 631\*; MUS 560, 561; PHIL 630\*, 690\*; SPAN 525, 535, 538; THEA 621\*.  
C. Three units of directed research on a medieval or Renaissance topic in any of the following courses: ART (history) 497, C/LT 499, ENGL 499, FREN 499, GERM 499, GK 499, HIST 498, MUS 499, R/ST 499, PHIL 499, SPAN 499, THEA 498. Graduate courses: ART (history) 697, ENGL 697, FREN 697, GERM 652, 697, HIST 697, PHIL 697, SPAN 697, THEA 694.

\*Within an approved medieval or Renaissance topic only certain special studies topics may be repeated for credit with approval.

---

## Management Courses (MGMT)

---

### 300. Principles of Management (3)

Prerequisite: Recommended: IS 310. Analysis of principles and theories of management, organization theory, planning and control techniques. Consideration will be given to management of the overall organization and the production/operations systems of organizations. Traditional grading only.

### 326. Management and Society (3)

Issues of concern to business managers in dealing with the social environment. Analysis of business responsibility to stockholders, employees, customers, the government, and society. Issues include: profits, consumerism, product safety, pollution, government regulation, and social accountability.

### \*405. International and Comparative Management (3)

Prerequisites: MGMT 300. Analysis of the functions of management in international business; comparative management studies, and the impact of the environment on management performance. Traditional grading only.

### 406. International Business Policy (3)

Prerequisite: MGMT 300. An integrative course designed to provide insight into the scope, complexity, and problems of formulating and implementing multinational strategies and policies. Will integrate such areas of study as international economics, eco-

omic development, international marketing, international finance, and multinational planning, organization, and control. Will also cover such topics as framework of international transactions, economic and political integration, the competitiveness of countries, relations with host societies, and country studies. Cases and research projects will be used extensively. Traditional grading only.

### \*410. Materials Management (3)

Prerequisites: MGMT 300. Analysis of basic frameworks for managing material flows into, within, and out of organizations. Study of inventory models for independent demand items, material requirement planning, and distribution systems. Heavy emphasis on learning supported by MRP II tools and other computer resources.

### 411. Production Planning (3)

Prerequisites: MGMT 300. Analysis of demand management and production planning problems. Study of forecasting tools and techniques using available computer resources. Concepts of aggregate planning, master scheduling, and capacity planning will be examined using the framework of an MRP II system. Traditional grading only.

### 412. Production Control (3)

Prerequisites: MGMT 300. Analysis of tools and techniques for scheduling, controlling, and evaluating manufacturing activities at the shop-floor level. Shop order release, dispatching, priority control, queue management, and input/output monitoring will be simulated using MRP II software. Job sequencing and scheduling techniques will be examined and available software and simulations employed. Just-in-time production, Kanban control, and optimized-production-technology (OPT) will be presented.

### 413. Managing Quality for Productivity (3)

Prerequisites: MGMT 300 and recommended IS 310. Analysis of the relationship between productivity and quality. Examination of the quality-assurance function, statistical quality control, and lot inspection. Study of the relationship between productivity improvement, product quality, and manufacturing strategy. Traditional grading only.

### 414. Purchasing Management (3)

Prerequisites: MGMT 300. Analysis of functions, principles, and tools of purchasing management. Study of the relationships of purchasing to other management functions. Use of MRP II systems to simulate purchasing decisions, monitor performance, and track costs. Traditional grading only.

### 421. Entrepreneurship and New Venture Creation (3)

Prerequisites: MGMT 300. Learn how to start a new business. Be an entrepreneur in a free enterprise environment, or an entrepreneur in an existing organization. You will use state-of-the-art theory to plan and evaluate business startups. You will test your ideas with successful entrepreneurs and will learn how to do your own business plan.

### 425. Business Strategy and Policy (3)

Prerequisites: ACCT 310 or 320, MGMT 300, MKTG 300, FIN 362. This course is designed to integrate and apply knowledge, theories and techniques derived from the study of business disciplines. The case method and business simulations are used to formulate business strategies and plans. Written reports are required.

### 426. Management and Information Systems (3)

Prerequisites: Senior standing. Evaluations of concepts for evaluation and design of decision support systems, management decision models, socio-technical strategies for implementing information system changes.

**\*430. Project Management (3)**

Prerequisite: MGMT 300. This course describes how ideas are selected for projects and how the projects are implemented. It explores the role of the project team member, the project manager, and the various ways projects can be organized and planned. The project implementation tasks of budgeting, scheduling, monitoring and controlling are explored including computerized network models and project management software packages. Final project analysis and termination are addressed. Traditional grading only.

**\*454. Organization Theory (3)**

Prerequisite: MGMT 300. Examination of the design and adaptation of organizations. Tools for analysis and design are developed from the general principles and theory of organization and the forces from inside and outside the organizations that help to shape it. The structure of organization is explored from many perspectives and functions. The organization is viewed as a goal implementation device, a system of authority, a political system, and an information and coordination device. Cases and computer simulations of real business and non-profit organizations may be used as appropriate. Traditional grading only.

**455. Managerial Decision Making Processes (3)**

Prerequisites: MGMT 300 and either HRM 360 or 361. Managerial decision making is presented as a complex process that involves setting objectives, identifying and evaluating alternative courses of action, choosing and implementing the decision, and controlling results. Recent research is used to explain the influence of task, people, organization, and environment on the decision process. This course will help students become better decision makers by improving their understanding of decision making processes.

**495. Selected Topics (1-3)**

Prerequisites: GPA of 3.0 in HRM courses, plus consent of instructor. Topics and issues of critical importance to human resource management. Topics for each semester are announced in Schedule of Classes. Focus on the development of critical thinking, writing, and speaking skills. May be taken up to 6 units.

**497. Directed Studies (1-3)**

Prerequisites: Consent of Instructor, Department Chair, and 3.0 GPA or higher. Individual projects, research, and study of advanced nature in management. Traditional grading only.

**Graduate Prerequisite Course**

**500. Business Policies, Operations and Organizations (3)**

Prerequisite: MBA standing. Recommended preparation: IS 310 or 410. Theory and philosophies of administrative organizations systems, information systems, management functions, decision making, strategy and policy formulation, operations planning, and control systems.

**Graduate Division**

**510. Management for Engineers (3)**

The transition of the engineer to manager; planning and organizing technical activities; selecting and managing projects, selecting and managing teams, techniques of control and communication. Not open to MBA students.

**511. Project Management (3)**

Theory and philosophies of project management. The problems of assembling an effective team and the control issues, techniques, and tools appropriate for the preproject proposal stage to program conclusion are examined. Not open to MBA students.

**512. Engineering Management Information Systems (3)**

Study of the development and management information systems used by middle and higher management of technological and scientific organizations in the control of many facets of their function. Not open to MBA students.

**513. Cases in Engineering Management (3)**

A course that permits application of newly acquired technical skills. It involves cases from engineering, technical or scientific programs of industrial firms or government agencies. The cases may be from new ventures as well as mature firms in both product and process development. Not open to MBA students.

**541. Industrial Logistics (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Systems analysis and synthesis of the general logistics system containing the marketing, production, and transportation activities. Emphasis placed on definition of system components of outputs, activities and inputs and the specification and quantification of the major functional relationships interrelating these components.

**542. Enterprise Structure and Operation (3)**

Prerequisites: MBA standing and MGMT 500 or equivalent. Systems analysis and synthesis of the general enterprise system composed of the logistics, money, information, talent and decision sub-systems. Emphasis on the examination of the components of each of the sub-systems and how they interrelate in the operation of the total enterprise. Systems approach of defining outputs, activities and inputs is used as the vehicle for analysis.

**543. International Business Policy (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent, 9 hours recommended of 500/600 level courses in the area of international business. Analysis of current theory and principles of international business management pertaining to problems of formulating policy and developing strategies and tactics in the multinational corporation; case studies, readings, logistic analysis and research report.

**645. Seminar in Management Policy and Problems (3)**

Prerequisites: MBA standing plus MGMT 500 or equivalent. History of management thought, business organizations, strategies and policies, executive control; managerial problems.

**646. Seminar in Managing Mergers and Acquisitions (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Examination of the reasons for continuing trend of mergers and acquisitions, examination of the m and a process (formulate, locate, investigate, negotiate, and integrate). Other topics include coordination and integrations across business boundaries, exploiting synergies, strategic vs. operating focus, hierarchical structure of combined companies, learning transfer, and the rationalization of shared activities. Traditional grading only.

**647. Seminar in Management Planning and Control Systems (3)**

Prerequisites: MBA standing, plus MGMT 500 or equivalent. Analysis of planning and control systems in management. Cases and problems will be examined.

**695. Selected Topics (3)**

Prerequisites: MBA standing. Topics to be announced in the *Schedule of Classes*. Topics change each offering and in the absence of significant duplication the course may be repeated once for credit.

**697. Directed Studies (1-3)**

Prerequisites: MBA standing, plus consent of instructor. Individual study under the direction of the faculty.

---

**Human Resources Management Courses (HRM)**

---

**360. Organizational Behavior (3)**

An overview of the dynamics of human behavior in organizations and implications for managing people at work. Topics include motivation, personality and attitudes, human perception, groups and teams, norms, power and politics, conflict, learning, communication, job design, organizational culture, organizational change, leadership and cross-cultural issues.

**361. The Human Resource Function (3)**

An overview of human resource functions that are designed to attract, motivate, develop and retain employees. Topics include human resource planning, job analysis, recruitment, selection, placement, appraisal, compensation and benefit administration, training and development, communications, labor management relations and the international environment. Discussion, case studies and student presentations are used to develop critical thinking and problem-solving skills.

**\*440. Collective Bargaining (3)**

Prerequisite: HRM 361. Examination of the roles of management, labor and government in structuring work environments. Nature of the process of negotiation and conflict resolution in organizations.

**\*445. Compensation Administration (3)**

Prerequisite: HRM 361. Compensation and benefits management is viewed as an integrating human resource management process. Emphasis is on the development and administration of equitable compensation and benefit programs which will retain a productive workforce. Examined are job analysis and evaluation, pay structures, salary surveys, individual compensation, incentive, systems and benefits administration. Discussion, case studies, simulations.

**446. Leadership and Motivation in Organizations (3)**

Prerequisite: HRM 360. Critical examination of the determinants of effective leadership and successful methods of motivating employees to achieve organizational goals. Special attention given to identifying appropriate styles of leadership and methods for developing and applying leadership skills. An interactive class using case studies, research, and simulation exercises.

**\*458. Managing Organizational Culture and Cultural Diversity (3)**

Prerequisites: HRM 360 or HRM 361. This course examines the impact of diversity, culture, and ethnic origin on the work experience, and is designed to better prepare individuals to meet the challenge of cultural diversity in organizations. Attention is given to how language, gender, race, tradition, education, economic structure, and organizational philosophy interact to create a set of rules for acceptable behaviors in complex organizations. Open dialogue, debate, outside research, and group presentations.

**460. Current Issues in Human Resource Management (3)**

Prerequisite: Either HRM 360 or HRM 361. Critical examination of current and emerging issues concerning the management and development of people and organizations. Interactive course involving discussion, projects, and outside research. Topics include motivation, leadership, job performance, hiring, compensation, planning, selection, staffing, training, performance appraisal, careers, and quality of work life.

**\*462. Labor-Management Relations (3)**

Overview of the principles and practices influencing labor-management relationships. Development, aims, structure, and functions of labor and employer organizations; the collective bargaining process; labor law and governmental intervention; impasse resolution; unions and minorities; employee organizations in government and professional sectors; comparative international systems.

**\*463. Organizational Training and Development (3)**

Prerequisite: HRM 360 or HRM 361. Review of the field of training and development including learning theory, training needs assessment, design and delivery of training and development programs, evaluation, and program management. Includes career development and organizational development. Case studies, research, simulation exercises, and student presentations.

**\*465. Personnel Selection and Appraisal (3)**

Prerequisite: HRM 361. Critical examination of theories and techniques guiding personnel selection and appraisal processes. Students develop expertise in determining staffing needs, conducting job analyses, writing job descriptions, developing recruitment strategies, affirmative action plans, and designing resumes. Attention is given to designing effective appraisal systems and conducting productive performance appraisals. Cases and simulations.

**497. Directed Studies (1-3)**

Prerequisites: Consent of instructor and Department Chair, and 3.0 GPA or higher in human resources management courses. Individual projects, study and research of advanced nature in human resources management.

**Graduate Division**

**510. Behavioral Science for Engineers (3)**

Prerequisites: MBA standing. Examination of the individual, groups and organizational structure designs, and interpersonal relationships that are peculiar to managing and directing professionals. Emphasis on managerial applications of Behavior Science concepts and research findings. Not open to MBA students.

**650. Seminar in Labor-Management Relations (3)**

Prerequisites: MBA Standing plus HRM 500 or equivalent. An analysis of the development and functions of labor unions and other organizations representing workers, and discussion of the strategic issues related to them. Focus will be on the national labor and human resource policy, and on the mission and strategic focus of labor and employing organizations. Particular topics will include contract negotiation and administration, compensation and benefits patterns, labor and employment law, quality of life issues, and the impact of internalization of the economy. Discussion, cases, presentations, and simulations. Traditional grading only.

**652. Seminar in Human Resources Management (3)**

From a general manager's perspective, an examination of those decisions and actions that impact upon managing people. Problems of productivity, employee commitment, employee development, employment law, and compensation are considered. Processes emphasized include staffing, training, and development, performance appraisal, counseling, leadership and motivation, reward systems, participation and delegation, and discipline. Discussion, cases, simulations, and presentations.

**654. Seminar in Negotiation and Conflict Management (3)**

An examination of various forms of opposition interactions within organizations. Focuses upon interpersonal, intragroup, and intergroup conflict by distinguishing between functional and dysfunctional conflict, identifying sources and causes of conflict, and examining alternative styles and methods of conflict management. Discussion, cases, simulations, and presentations.

**655. Seminar in Motivation and Organization Change (3)**

This course develops students' understanding and skills in two central parts of organizational life: human motivation and organizational change. Both traditional and modern theories of work motivation and change are reviewed, analyzed, and applied. Primary issues include: 1) the psychology and management of motivation, 2) the psychology and management of organizational change and development, and 3) management skills, policies, and organizational characteristics that facilitate the creation of genuinely motivating and flexible organizations.

**657. Seminar in Leadership Skills (3)**

This course is intended to: 1) develop the student's leadership abilities and 2) examine the effectiveness of numerous approaches to leadership, including both traditional and modern approaches, from both managerial and psychological viewpoints. Leadership assessment and self assessment are included to aid diagnosis and understanding of one's own and others' leadership styles and abilities. Personality, situational factors, group processes, followership, and implications for leadership training are discussed.

**697. Directed Studies (1-3)**

Prerequisites: MBA standing, plus consent of instructor. Individual study under the direction of the faculty.

# MILITARY SCIENCE

*College of Health and Human Services*

## Program Director

Lieutenant Colonel Tracy L. Lear

## Program Office

Engineering Technology (ET) 104

## Faculty

### Assistant Professors

Lieutenant Colonel Henry B. Schleuning

Master Sergeant James G. Ytuarte

### Senior Instructor

Sergeant First Class Douglas R. Maddi

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

View the CSU Army ROTC on-line at [www.csulb.edu/org/armyrotc](http://www.csulb.edu/org/armyrotc).

The Army Reserve Officers Training Corps (Army ROTC) program offers leadership and management training to CSULB students which consists of courses taught by active duty Army personnel. This dynamic four-year program of instruction develops the mental and physical abilities of students in preparation for positions of leadership with the military and civilian communities. Students may enroll for academic elective credit without incurring any military service obligation. The curriculum includes military leadership and management courses; courses which provide an awareness of the heritage of the U.S. Military; the Armed Forces' role in national defense strategy; professional military subjects; and military ethics. The program is oriented towards preparing the student for a military career. Students desiring to attain a highly sought-after commission as a Second Lieutenant in the U.S. Army must meet eligibility requirements and complete the Military Science/Army ROTC (Reserve Officer Training Corps) Advanced Course. To be eligible for the Commissioning Program, a student must be enrolled full time (12 units) at CSULB, have at least two years remaining as a university student, be physically qualified, complete the advanced course and graduate prior to reaching their 30th birthday.

### *Financial Assistance*

Many opportunities for financial assistance are available to students. Three areas of opportunities are: ROTC cadets who sign a contract for Advanced Phase, students who earn an ROTC scholarship, and cadets who train with Reserve or National Guard units. ROTC cadets who sign a contract to participate in the Advanced Course of ROTC receive a \$350 - \$400 a month allowance. Highly competitive two-, three-, and four-year ROTC scholarships are available. The scholarship provides payment of full tuition, books, supplies, and the \$250 - \$400 a month allowance for the duration of the scholarship. Students interested in scholarship competition should contact the Military Science Program at the time of application to the university. Reserve or National Guard training provides two additional sources of financial assistance: approximately \$150 a month for one weekend drill and approximately \$145 a month tuition assistance from the Army Reserve or National Guard "New GI Bill" benefits.

### *Equipment and Uniforms*

All necessary equipment, uniforms and textbooks for participation in the Military Science/ROTC program are furnished to the student by the United States Government free of charge. Title to this property, other than expendable items, remains with the government. Students entering into active commissioned service after graduation are granted a special \$200 uniform allowance.

### *Four-Year Program*

The four-year program curriculum is divided into two parts. The Basic Course is primarily for freshmen and sophomores, and the Advanced Course is for junior and senior level students. In special cases, the Advanced Course is available to students working towards graduate degrees.

### **Basic Course**

The Basic Course is a one to two-year period where students may, without obligation, investigate the ROTC Program and the military as a full- or part-time career. Students may enter and leave during any semester. The curriculum for the Basic Course is consists of the lower division courses listed below. To become an ROTC cadet during the Basic Course requires the student be registered for a Military Science class, completion of an ROTC enrollment form (obtained at the Military Science Department, Technology Education, Room 108), and an interview with the ROTC Enrollment Officer. Because this course is for students to examine the ROTC Program without obligation, participation in ROTC activities is encouraged but not mandatory. Advancement into the Advanced Course is accomplished either by successfully completing the Basic Course classes, completing ROTC Summer Basic Camp or completing any military basic training program.

### **ROTC Summer Basic Camp**

One method to qualify for the Advanced Course is to successfully complete the challenging six-week ROTC Summer Basic Camp. Students normally attend Basic Camp between their second and third academic years. It is important that potential transfer students who plan to participate in the two-year ROTC program make their intentions known directly to the Military Science Program no later than January of the year they plan to register at the university even though this date may precede the date of their final acceptance by the university.

The government will provide a transportation allowance to and from Basic Camp and will also receive approximately \$600 during the six weeks. All equipment, uniforms, room and medical care are furnished free while at camp. No military obligation is incurred as a result of attendance. It is recommended though that the student be committed to pursuing a career in the military either in an active or reserve capacity.

### **Basic Training**

Outstanding students who have successfully served on active duty, regardless of the branch of service, are qualified to enter the Advanced Course. Also, students who have been, or are members of Reserve or National Guard units and have completed basic training are qualified for the Advanced Course. Students may be required to take certain lower division classes even after enrollment in the Advanced Course.

### **Advanced Course**

The Advanced Course is a two-year period where ROTC cadets receive advanced leadership and management training. The cadets receive many hours of hands-on, practical leadership experiences to prepare them for a military career or a management position in the civilian sector. To become a cadet in the Advanced Course a student must complete the Basic Course or ROTC Summer Basic Camp or Basic Training. The cadet must also make a commitment to attend all required training activities and sign a contract to accept a commission in the United States Army. In return for the student's commitment, the Military Science Department will provide \$350 - \$400 a month, classroom instruction, real leadership opportunities, and continuous feedback on each cadet's leadership progress. A six-week summer training camp, between the two years of the Advanced Course, will be provided for testing and developing each cadet's leadership

abilities. All equipment, uniforms, room, board, and medical care are furnished free while at this camp. The cadets will also receive pay at the rate of one-half of Second Lieutenant's basic pay. Upon successful completion of the Advanced Course and graduation from the university, the cadet will be eligible to be commissioned as a Second Lieutenant in the United States Army.

### **Required Related General Education Subjects**

1. Written Communications  
(Category A) ENGL 100
2. Human Behavior  
(Category D) HIST 162A or 162B or POSC 100
3. Computer Literacy
4. Mathematical Reasoning  
(Category B) MATH 103 or 110

## **Courses (M S)**

### **Lower Division**

#### **101. United State Defense Establishment (3)**

Prerequisite: One GE Foundation course (may be taken concurrently). This course will examine the military services, government agencies and private defense industries which collectively provide for our national defense. Explores the organization, interaction and influence of the U.S. Defense Establishment as a social, economic and political institution. Traditional grading only. (Laboratory required of all AROTC Cadets only.)

#### **101L. Leadership Laboratory (1)**

Prerequisites: Enrolled in M S 101 concurrently and accepted as a cadet in the Army ROTC Program. This course is designed to assist students, with no prior military background, in their transition from a civilian into a cadet. Provides the individual with the skills necessary for them to become an integral member of an Army team. The student will be a member of a squad and receive instruction on small unit tactics. The cadet will be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

#### **103. Military Map Reading (1)**

A comprehensive study of military map reading skills, using: topographic and standard military map symbols; UTM grid coordinates and military map overlays; map distances; grid and magnetic azimuths; map intersection, map resection, or modified map resection methods; and terrain association, daylight or night conditions, with a lensatic compass, or field expedient means. (1 Hour Lecture-Discussion) (2 Hour Laboratory required of AROTC Cadets only.) Traditional grading only.

#### **103L. Leadership Laboratory (1)**

Prerequisites: Enrolled in M S 103 concurrently and accepted as a cadet in the Army ROTC Program. This course is designed to assist students, with no prior military background, in their transition from a civilian into a cadet. Provides the individual with the skills necessary for them to become an integral member of an Army team. The student will be a member of a squad and receive instruction on small unit tactics. The cadet will be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

#### **211. Introduction to Military Operations and Basic Tactics (1)**

Fundamentals of operations and tactics employed in the U.S. Army: fire and maneuver, operations orders, patrolling; offensive and defensive operations. (Lecture-Discussion.) (Laboratory required of all AROTC Cadets only.)

### 211L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 211 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to transition into becoming a small group leader. Provides the individual with the skills necessary for them to become effective leaders of military fire teams and squads. While serving as a junior cadet NCO and a member of a squad the student will perform the duties of team or squad leader or as an assistant staff NCO; will be given the opportunity to train other cadets in basic skills. The cadet will continue to be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

### 212. Basic Principles of Small Unit Leadership (1)

An overview of basic psychological principles related to military leadership: effective communication, individual motivation and development, human needs, power and influence, and introduction to management skills. (Lecture-Discussion.) (Laboratory required of all AROTC Cadets only.)

### 212L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 212 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to transition into becoming a small group leader. Provides the individual with the skills necessary for them to become effective leaders of military fire teams and squads. While serving as a junior cadet NCO and a member of a squad the student will perform the duties of team or squad leader or as an assistant staff NCO; will be given the opportunity to train other cadets in basic skills. The cadet will continue to be exposed to the Army values and selected critical individual military skills. The cadet will become familiar with the Army leadership techniques and receive basic leadership experiences and assessments. Credit/No Credit grading only.

## Upper Division

### 301. Military Leadership and Management I (3)

Examines current leadership theories and models and their applicability for junior military officers. Emphasize specific interpersonal skills, counseling, oral and written communications, supervision, and preparation and conduct of training. Traditional grading only. (3 Hour Lecture-Discussion) (2 Hour Laboratory required of AROTC Cadets only.)

### 301L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 301 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

### 302. Leadership and Management II (3)

Examines current leadership theories and models and their applicability for junior military officers. Emphasizes specific interpersonal skills: counseling, oral, and written communications. Traditional grading only. (Lecture-Discussion.) (Laboratory required of AROTC students only.)

### 302L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 302 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to serve in various leadership positions in the military chain of command at squad, platoon, and company levels. Cadets will routinely be responsible developing and executing unit plans and orders; training other students in basic skill; building

teamwork among small units of students; executing small unit tactics; and preparing for Advanced Camp training and evaluation (conducted in the summer between junior and senior year). The cadet will be expected to internalize the Army values and master selected critical individual military skills as well as master the Army leadership and instructional techniques. Cadets will be routinely evaluated on their leadership skills. Credit/No Credit grading only.

### 401. Staff Operations (1)

Examines the organizational structure, functions and operating procedures of the military staff. Focus is on the role of the principle staff officers and procedures they use to develop staff estimates, recommendations and development of plans to execute commander's decisions. (1 Hour Lecture-Discussion-Practical Exercise.) Traditional grading only.

### 411. U.S. Military History (3)

Survey course in American military history from the origin of the U.S. Army to present; principles of war and their application in U.S. military history, leadership and the U.S. military heritage. (Lecture-Discussion.) (Laboratory required of AROTC Cadets only.)

### 411L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 411 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to serve as a cadet officer in the Army ROTC program. The cadet will serve in senior leadership positions at the platoon, company, and battalion levels. The cadet may also serve as a battalion level staff officer responsible for the planning, execution and evaluation of ROTC training activities. Cadet will also serve as a mentor for junior cadets in their preparations for the Army ROTC Advance Camp. At the conclusion of the class the cadets must demonstrate that they have mastered the Army values and mastered the execution of selected critical individual military skills. Credit/No Credit grading only.

### 412. Officership and Professionalism (3)

Examines the role of United States Army Officers and their responsibility to society. The course focus is on military ethics, Uniformed Code of Military Justice System, the logistics, supply and intelligence systems, post and installation support, and the transition to the Officers Corps. (3 Hour Lecture-Discussion.) (3 Hour Laboratory required of AROTC Cadets only.) Traditional grading only.

### 412L. Leadership Laboratory (1)

Prerequisites: Enrolled in M S 412 concurrently and accepted as a cadet in the Army ROTC Program. This course will allow the student to serve as a cadet officer in the Army ROTC program. The cadet will serve in senior leadership positions at the platoon, company, and battalion levels. The cadet may also serve as a battalion level staff officer responsible for the planning, execution and evaluation of ROTC training activities. Cadet will also serve as a mentor for junior cadets in their preparations for the Army ROTC Advance Camp. At the conclusion of the class the cadets must demonstrate that they have mastered the Army values and mastered the execution of selected critical individual military skills. Credit/No Credit grading only.

### 497. Independent Studies (1-3)

Prerequisites: Program Director must grant permission and student must obtain prior approval of topic. Individual studies with faculty supervision in an area of Military Science specialization. Limited to a maximum of 3 units per semester. May be repeated for a total of six units. Traditional grading only. (Discussion-Laboratory.)

### Applied Music

Chi Asada, Piano; Jim Atkinson, French Horn; John Barcellona, Flute; Marian Bodnar, Voice; Robin Buck, Voice; Andrea Byers, Violin; Marvlee Cariaga, Voice; Deborah Carnahan, Clarinet; Michael Carney, Percussion; Raynor Carroll, Percussion; Axel Clarke, Percussion; Charles Coker, Bassoon; Cecilia Coleman, Jazz Piano; Charley Davis, Trumpet; Marcia Dickstein, Harp; Randy Drake, Percussion; Brad Dutz, Percussion; Ronald Eschete, Guitar; Dave Evans, Trumpet; Rob Frear, Trumpet; David Garrett, Cello; Junko Garrett, Piano; David Gerhart, Percussion; Helen Goode Castro, Clarinet; Valentina Gottlieb, Piano; John Hayhurst, Viola; Edith Hirshtal, Piano; Carolyn Hove, Oboe; Monica Kaenzig, Clarinet; Joan LaRue, Trumpet; Bruce Lett, Jazz Bass; Phillip Levy, Violin; Jonathan Mack, Voice; Greg Maldonado, Violin; Eric Marienthal, Saxophone; Loren Marsteller, Euphonium and Trombone; Kathleen Martin, Voice; Shigemi Matsumoto, Voice; Marjorie McMillin, Voice; James Miller, Trombone; Timothy Morrison, Trumpet; Richard Naill, Cello; Betty Olsson, Voice; Arpine Pehlivanian, Voice; Elisabeth Pehlivanian, Voice; Tom Peters, String Bass; Leo Potts, Saxophone; Jeff Reynolds, Bass Trombone; Linda Rose, Violin; Cathy Segal-Garcia, Vocal Jazz; Joe Stone, Bassoon; Kimiyo Takeya, Violin; Darrin Thaves, Flute; Mark Uranker, Piano; John Van Houten, Tuba; David Young, Bass.

### Administrative Coordinator

Debi Scroggins

Students desiring information should contact the department office for referral to one of the faculty advisors: Undergraduate advisor, Music Education (credential) or Graduate Advisor.

The undergraduate music curriculum provides programs for the student: who wishes to become a professional musician; who wishes to enter the teaching profession; for whom music is part of a general education; or, who is intending to pursue an advanced degree in music.

All entering freshmen and transfer students are required to take a theory placement test and performance audition which are regularly administered in Spring and late Fall and are also available at the beginning of registration week each semester. Each entering student should inquire at the Music Office for dates and details. In addition, new students are required to meet with the advisor prior to registration.

Each music major must declare a specialization in some performance area (voice, piano or other orchestral instrument), develop ability in this area, appear in student recitals and demonstrate progress to the satisfaction of the faculty. NOTE: Due to admissions limitations, the department is no longer providing instruction in acoustic guitar. A limited number of jazz/commercial guitar students will be admitted each year.

All undergraduate music majors are required to pass a screening examination in applied music on their primary instrument or voice before advancement to upper division applied study. This upper division screening exam (UDSE) will cover repertoire that is determined by each applied area. Specific information regarding the test may be obtained in the music office or from the advisor. The exam will be administered at a regular jury after four (4) semesters of applied study, however transfer students may elect to take it earlier. Failure to pass the exam will result in automatic suspension of all music departmental scholarship aid and continued applied study at the lower division level through university extension (a fee is required). The exam may be repeated.

Each student must pass a piano proficiency examination regardless of the performance area (piano majors excepted). Detailed information may be obtained in the Music Office.

Participation in a major performance organization (MUS 100/300) is required of each music major each semester. The performance ensemble must be approved by the department. Undergraduates are also required to register for Music Forum (MUS 110) every semester in residence to a total of 7 units.

The Department of Music offers graduate study leading to the Master of Arts or Master of Music degrees. The candidate should arrange for counseling with the graduate advisor through the department office. Special placement examinations or auditions are required to validate qualifications for graduate work in music.

All general requirements of the University must be met in addition to departmental requirements listed below. California State University, Long Beach is an accredited institutional member of the National Association of Schools of Music (NASM) (National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700).

## Bachelor of Arts in Music (code 2-5820) (120 units)

### Requirements

The B.A. requires 120 units, 24 upper division in the major. Music history and literature (MUS 190\* [section by advisement], 160, 360, 374, 490\* - \*counts towards GE); music theory (MUS 141A-B; 142A-B; 240, 241, 341, 342); Major Performance Organization (MUS 100 [lower division] or 300 [upper division]) one unit each semester in residence – the performance ensemble must be approved by the department; keyboard proficiency [completion of the piano proficiency examination (equivalent to MUS 220B)]; Music Forum (MUS 110) each semester in residence to a total of 7 units; Applied Music: 129/329 or X129/X329 for 8 units; Senior Recital (MUS 423A) or (MUS 428).

## Bachelor of Music

The B.M. requires a minimum of 72 music units including the core and one area of specialization called an option. Options include Music History and Literature, Composition, Instrumental Music (Music Education), Choral-Vocal Music (Music Education) and Performance. Admission to the option is determined by audition and approval of the chair of the department. Application for admission to the option should be submitted no later than the beginning of the junior year, and significant progress must be demonstrated during the remaining two years. A Bachelor of Music degree requires a minimum of 132 units.

### Requirements

Core: Music history and literature (MUS 190\* [section by advisement], 160, 360, 374, 490\* - \*counts toward GE); music theory (MUS 141A-B, 142A-B, 240, 241, 341, 342); Major Performance Organization (MUS 100 [lower division] or 300 [upper division]) one unit each semester in residence (keyboard majors only take MUS 100/300 for 4 semesters); keyboard proficiency [completion of the piano proficiency examination (equivalent to MUS 220B)]; music forum (MUS 110) each semester in residence to a total of 7 units; senior recital (MUS 423A) or senior composition recital (MUS 423B) or senior thesis (423C) or senior project (423D).

### Option in Instrumental Music (code 4-5826) (133 units)

(This option is intended for single subject teaching credential candidates).

As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency. Proficiency in Music Education can be demonstrated by successful completion of MUS 386 or ETEC 444 or by passing a California Commission on Teaching Credential-approved examination. This requirement must be met prior to advancement to student teaching.

### Requirements

Core: MUS 129/329 or X129/X329 (must be taken for 8 units); 386, 326, 125T, 419, 484, 485, and EDSS 300N

Option: MUS 125V; elect 5 additional courses from MUS 125A, B, C, D, E, F; 382A, 382B, 425, 480, 482.

### Option in Choral-Vocal Music (code 4-5821) (132 units)

(This option is intended for single subject teaching credential candidates.)

As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate Level I computer proficiency. Proficiency in Music Education can be demonstrated by successful completion of MUS 386 or ETEC 444 or by passing a California Commission on Teaching Credential-approved examination. This requirement must be met prior to advancement to student teaching.

### Requirements

Core: MUS 129/329 or X129/X329 (must be taken for 8 units); 386, 326, 125T, 419, 484, 485, and EDSS 300N.

Option: MUS 125F, elect 3 additional courses from MUS 125A, B, C, D, E; 273A, 273B, 273C, 422, 426, 483A, 483B

## Option in Performance (code 4-5828) (132 units)

### Requirements

Individual instruction (MUS 129, 229/429, or X129, X229/X429) required each semester in residence with an achievement of senior level on major performance medium. A Junior Project (MUS 323) is required of all students.

*Piano:* Core: MUS 200 or 201/400 or 401 (4 units); 277A-B, 427, 477A-B, 492. Electives: four units chosen from the following courses: 273A, 326, 428, 434 A-B, 436, and 460.

*String Instruments:* MUS 200 or 201/400 or 401 (4 units); MUS 326, 425; choose six units from: 428, 460, and 493.

*Wind Instruments:* MUS 200 or 201/400 or 401 (4 units, 2 of which must be either Woodwind or Brass Chamber Music); MUS 326, 425; choose six units from 428, 460, and 493.

*Percussion:* MUS 200 or 201/400 or 401 (4 units, 2 of which must be Percussion Ensemble); MUS 326, 425; choose 6 units from 428, 460, and 493.

*Voice:* MUS 273A, 273B, 326, 426, 434A or 434B, 460; choose an additional two units from: 436, and 434A or 434B. Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

*Opera:* MUS 273A, 273B, 326, 436, 473, and THEA 262; two units of MUS 330 or 331 required as part of eight-unit activity requirement; choose two courses from the following: MUS 469, 3-unit theatre elective, 2-unit dance elective (Dance 111A or 113A). Completion of Department of Music Foreign Language Examination in French, German or Italian (may be waived by completion of 101B level course in French, German or Italian).

*Jazz Studies:* MUS 200 or 201/400 or 401 (at least 4 units of Studio Ensemble 201/401); MUS 271, 370, 371, 372, 393, 474. Students in jazz studies, whose primary performance medium is woodwinds, will be required to take a minimum of 6 units in saxophone, 2 units in clarinet, 2 units in flute, and 4 units consisting of further study in saxophone, clarinet or flute for a total of 14 units in applied music. Prior to the senior project, each student must pass the UDSE on saxophone, clarinet and flute.

## Option in Composition (code 4-5822) (132 units)

### Requirements

MUS 129 or X129 to be taken each semester in residence until the successful completion of the departmental upper division screening examination in applied music (a minimum of 4

units is required), MUS 344A (to be taken concurrently with 329X), 344B (to be taken concurrently with 329X), and 26 units to be chosen under departmental advisement from the following courses: 200B, 271, 326, 343, 370, 371, 372, 375, 393, 400B, 411, 415, 422, 425, 441, 442, 443, 445 (for total of 4 units, to be taken concurrently with 329X), 447, 455, 456, 457, 460, 474, 497, THEA 449 and 423B.

### Option in History and Literature (code 4-5824) (132 units)

#### Requirements

MUS 129 or X129 to be taken each semester in residence until successful completion of the departmental upper division screening examination in applied music (a minimum of four units is required); MUS 496 (Research Methods); 460; elect 14 units from MUS 363I, 364I, 375, 393, 428, 447, 467, 469, 471, 478, 492 and 400R or 400S (Collegium Musicum; may be repeated); 423C Completion of Department of Music Foreign Language Examination in French, German, or Italian (may be waived by completion of 101B level course in French, German, or Italian).

### Minor in Music (code 0-5820)

#### Requirements

A minimum of 18 units, 9 of which must be upper division (300- and 400-level courses). Specific courses are required. A degree plan must be prepared in conference with the department advisor prior to beginning this program.

### Master of Arts in Music (code 5-5820)

The Master of Arts degree in Music provides academic concentrations in Musicology, Music Theory and Music Education.

#### Prerequisites

1. A Bachelor of Arts degree with a major in music, a Bachelor of Music degree, or a bachelor's degree with a minimum of 24 units of upper division courses in music comparable to those required of a major in music at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not acceptable. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Arts in music program;
3. All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Arts degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree.) Applicants for all options of the M.A. degree must present samples of their scholarly writings in music for review by the Graduate faculty. Applicants for the musicology concentration must show evidence of reading and translation ability in one foreign language (French or German);

4. A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Arts program may petition for a special review from the Department Graduate Committee.

#### Advancement to Candidacy

The prerequisites for advancement to candidacy are the same as those for the Master of Music.

#### Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
2. Core Courses required by all Master of Arts students. 13-15 units; MUS 696 (should be taken the first time it is offered during the student's residency); MUS 541; one course from MUS 561, 562, 563, 564, 565; MUS 698 (for 4-6 units, dependent upon concentration).
3. Additional course for Musicology concentration: 3 units from MUS 561, 562, 563, 564, 565 (other than one taken in core); 6 units elected from MUS 547, 561, 562, 563, 564, 565, 566, 569, 571, 576, 578, 592, 593 (not taken in core); 6 units of music electives (students in this concentration are strongly encouraged to elect theory as well as performance classes, especially Collegium Musicum and New Music Ensemble). Thesis is taken for 6 units in this concentration.
4. Additional courses for Music Theory concentration: MUS 542; 6 units from MUS 541 (may be repeated), 547, 640 (may be repeated); 6 units of electives (students in this concentration are strongly encouraged to elect additional history, composition and performance classes, especially New Music Ensemble and Collegium Musicum). Thesis is taken for 6 units in this concentration.
5. Additional courses for Music Education Concentration: MUS 581, 588; 4 units chosen from MUS 486, 526, 554, 575, 580, 582, 585, 587, 594, 595, 680; 5-7 units of electives (students in this concentration are encouraged to elect performance and conducting classes). Thesis is taken for 4-6 units in this concentration, dependent upon project.
6. An oral defense of the thesis, recital, or project (MUS 698).

### Master of Music Degree (code 7-5820)

The Master of Music degree program provides professional concentrations in Composition, Conducting-Instrumental, Conducting-Choral, Jazz Studies, Opera Performance and Instrumental/Vocal Performance.

#### Prerequisites

1. A Bachelor of Music degree, or a Bachelor of Arts degree with a major in Music or a bachelor's degree, from an accredited institution, with a minimum of 24 upper division units of music comparable to those required at this University;
2. The student must request all institutions of higher learning attended to send official copies of transcripts directly to the Office of Admissions and Records and another set to the Department of Music Graduate Advisor. Transcripts presented to the Admissions Office by the student are not accept-

able. Graduates of California State University, Long Beach must follow these same procedures when making application to the Master of Music in music program;

- All applicants are required to complete the Department of Music Graduate Placement Examination before they register for courses applicable to the Master of Music degree. (Under special circumstances, a student may take the examination during the first semester in which he or she is registered in courses applicable to the degree);
- Criteria according to concentration:
  - Composition*: submission and approval of a portfolio of representative original scores and evidence of baccalaureate-level competency as required in the Bachelor of Music Composition Option;
  - Performance/Jazz Studies/Conducting*: successful completion of a conducting examination and approval by the conducting faculty; Performance-Opera; Jazz Studies; and Instrumental/Vocal: an audition both at a performance level and with a repertory on an instrument or in voice acceptable to the faculty of the specific performance medium.
- A GPA of 3.00 or better in upper division Music courses. Students who do not meet the 3.00 GPA requirement or specified balance within the required 24 units of upper division music but who possess outstanding or unusual qualifications that promise a significant contribution to the Master of Music program may petition for a special review from the Department Graduate Advisory Council.

#### Advancement to Candidacy

- Satisfy all the general University requirements, including passing the CSULB Writing Proficiency Examination;
- Remove all undergraduate deficiencies, which were determined by the departmental Graduate Placement Examination and/or the Dean of the College of the Arts;
- Pass the Department of Music Qualifying Examinations;
- Submit an approved project or thesis proposal, and a graduate degree program approved by the student's Thesis Committee, the Graduate Advisor, Department Chair, and the Dean of the College of the Arts;
- GPA of 3.0 or higher.

#### Requirements

- General requirements for all majors: Completion of a minimum of 30 units of approved upper division and graduate courses with at least 24 units in the major. (The program may not include more than six units of transfer graduate credit);
- Core curriculum (13 units) MUS 541, one course from MUS 561, 562, 563, 564, 565, 566 (Jazz Studies concentration only; MUS 513); MUS 696 (should be taken the first time it is offered during student's residency); MUS 698.
- An oral defense of the thesis, recital, or project (MUS 698).

#### Master of Music Concentrations

*Composition*: 2 units of MUS 529X or 629X, taken concurrently with MUS 544 and MUS 545; 9 units to be chosen under departmental advisement from the following courses: 510, 511, 512, 513, 515, 516, 517, 520, 522, 525, 542, 543, 545, 547, 555, 556, 557, 574, 597, 640; 2 units of electives selected by advisement.

*Conducting – Instrumental*: 2 units of MUS 500, 600, or 601; 4 units of 529W or 629W; select by advisement two courses from MUS 520, 525, 680; 5 – 6 units of electives selected by advisement.

*Conducting – Choral*: 2 units of MUS 500, 600 or 601; 4 units of 529W or 629W; 519 (must be taken twice); 573, 575; 4 units of music electives by advisement.

*Jazz Studies*: 3 units selected from MUS 515, 574; 9 units selected from MUS 510, 511, 512, 516, 517, 525, 529 or 629 (section by advisement), 601A, 601B, 601C, 601D, or 601E; 2 units of electives.

*Opera Performance*: 4 units for MUS 529Q or 629Q; 2 units of MUS 530; 526, 536, 573; 5 units of electives chosen by advisement. Students in this concentration are strongly encouraged to take MUS 569.

*Instrumental Performance*: 4 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement). Keyboard specialization: 3 units of MUS 592; 6 units of electives selected by advisement (MUS 577A-B strongly encouraged). Other instrumental specialization: 9 units of electives chosen by advisement.

*Vocal Performance*: 2 units of MUS 500, 530, 600, or 601; 4 units of MUS 529 or 629 (section by advisement); MUS 573; choose 4 units from MUS 526, 534A, 534B under advisement; 5 units of electives chosen by advisement.

#### Teaching Credentials

Students seeking a degree in Music Education refer to the Instrumental Music and Choral-Vocal Music options under B.M. degree. For further information consult with the Department of Music credential advisor.

#### Music Performance

Opportunities to participate in various instrumental and vocal ensembles are available to all students regardless of major. Before enrolling in a performing group students should apply to the director of the organization in which they wish to participate. Music performance courses may be repeated; up to 8 units of credit in MUS 100 or 300 may be counted toward a bachelor's degree. Simultaneous enrollment in more than one organization is permitted.

#### Courses (MUS)

##### Lower Division

##### 100. Major Performance Organization (1)

Prerequisite: Consent of instructor.

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus
- F. University Choir
- G. Chamber Singers
- J. Symphony Orchestra

Course may be repeated for a maximum of 8 units.

##### 110. Music Forum (1)

Recital attendance and performance on principal instrument or voice. Required of undergraduate music majors each semester, except for semester enrolled in MUS 423A, for a maximum of 7 units. Credit/No Credit grading only.

### 119. Group Piano for the Non-Major (1)

A group piano setting designed for the student interested in learning to play the piano for enjoyment. Repertoire and technical exercises for dexterity will be emphasized. Simple chord progressions and improvisational skills will also be taught. Knowledge of reading music preferred but not required. Course may be repeated to a maximum of 2 units.

### 120A-B. Class Piano (1,1)

Technique, tone production, rhythm, sight-reading, interpretation and keyboard facility. (2 hours laboratory.)

### 122A-B. Class Voice (1-1)

Fundamental techniques of singing, tone production, voice placement, breathing, diction, repertoire, and song interpretation. (2 hours lab.)

### 125. Instrumental Methods (1)

Prerequisite: Limited to music majors and minors. Class instruction in applied music.

- A. Clarinet
- B. Flute-Saxophone
- C. Guitar
- D. Oboe-Bassoon
- E. Percussion
- F. High Brass
- G. Low Brass
- J. Strings

### 129. Individual Instruction for Music Majors (1)

Open to music majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated for a maximum of 4 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

### 130. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hours or more laboratory.)

### 131. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction.

### 140. Basic Music Theory (2)

Notation and reading of music. Written, aural and performance experience with scales, intervals, chords, and melodies. Provides essential background for more advanced courses in music theory. Course fee required.

### 141A. Musicianship I (2)

Corequisite: MUS 142A. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

### 141B. Musicianship II (2)

Prerequisite: MUS 141A or satisfactory score on theory placement test. Corequisite: MUS 142B. Study of the basic skills of music reading, ear training, and sight-singing including melodic and harmonic dictation through modulation and chromatic harmony. Computer assisted instruction is available. Course fee required.

### 142A. Harmony I (3)

Corequisite: MUS 141A. Beginning principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

### 142B. Harmony II (3)

Prerequisites: MUS 141A & 142A or satisfactory score in theory placement test. Corequisite: MUS 141B. Principles of part-writing, to include modal counterpoint, concepts of chord progression, chord prolongation, and analysis in diatonic and chromatic tonal music.

### 160. History of Music: Baroque/Classic (3)

Prerequisite: MUS 190. Chronological survey of music and musical styles from 1600 to 1750 with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who can read music. Traditional grading only.

### 180. Exploring Music (3)

Prerequisite or Corequisite: A General Education Foundation course. Fundamentals of music and essentials of music listening. Performance skills in singing and playing music.

### 190. Listener's Approach to Music (3)

Prerequisites or corequisites: ENGL 100 or another General Education Foundation course. Non-technical course open to all students. Materials, forms and styles of music with extensive listening.

### 200. Chamber Music (1)

Prerequisite: Consent of instructor.

- A. Brass Ensemble
  - B. New Music Ensemble
  - C. String Ensemble
  - D. University String Quartet
  - E. University Wind Quintet
  - F. University Brass Quintet
  - K. Performance
  - L. Brass Chamber Music
  - M. Percussion Ensemble
  - N. Steel Drum Orchestra
  - O. Woodwind Chamber Music
  - P. String Chamber Music
  - R. Collegium-Voc
  - S. Collegium-Inst
  - T. Saxophone Ensemble
  - U. Directed Accompanying
  - W. Varsity Band
  - X. World Percussion Group
  - Y. World/Traditional Music Performance
  - Z. University Percussion Quartet
- Course may be repeated for a maximum of 8 units.

### 201. Jazz Ensemble (1)

Prerequisites: Consent of instructor. Course may be repeated to a maximum of 8 units.

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

### 220A-B. Class Piano (1-1)

Continuation of 120A-B. (2 hours laboratory.)

### 229. Individual Instruction for Music Major (2)

Open to performance majors only. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated for a maximum of 8 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone

### 240. Advanced Musicianship (2)

Prerequisites: MUS 141B and 142B or satisfactory score on theory placement test. Study of advanced skills in ear training and sight singing. Traditional grading only. Course fee \$15.00.

### 241. Tonal Counterpoint (3)

Prerequisites: MUS 141B and 142B. Analysis and writing of canons, two-part inventions, and fugues.

### 271. Improvisation Techniques I (2)

Basic techniques in improvisation, beginning with simple question and answer phrases and progressing to extended solos. Detailed and applied knowledge of chord progressions.

### 273A. Diction for Singers I (2)

Prerequisite: Consent of Instructor. A thorough study of International Phonetic Alphabet (IPA) with specific application to English and Italian songs as well as principles of Latin.

### 273B. Diction for Singers II (2)

Prerequisite: MUS 273A. Principles of pronunciation of Lyric French and German utilizing the International Phonetic Alphabet. Traditional grading only.

### 277A. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

### 277B. Keyboard Skills (2)

Open to Music majors only. Development of basic technical skills at the piano, including sight-reading, harmonization at the keyboard, chord and scale identification, score analysis, and beginning ensemble playing.

### 290. Popular Music in America (3)

Prerequisite: Completion of GE Foundation requirements. Artistic and socio-economic influences on popular music in America from 1840 to the present. Special consideration of the impact on "pop" music of various cultures and ethnic groups within the U.S. will be explored. Not open to Music majors.

## Upper Division

### 300. Major Performance Organization (1)

Prerequisite: Consent of instructor.

- B. Symphonic Band
- C. Wind Symphony
- D. Women's Chorus
- E. Forty-Niner Chorus

### F. University Choir

- G. Chamber Singers
- J. Symphony Orchestra
- K. Performance

Course may be repeated for a maximum of 8 units.

### 323. Junior Recital (1)

Prerequisite: MUS 241. Recital of the standard literature for solo instrument or voice in the performance option in the Bachelor of Music degree. Enrollment restricted to music majors passing the Qualifying Examination.

### 326. Conducting (2)

Prerequisites: Consent of instructor. Introduction to the principles and techniques of conducting and organization. Study and interpretation of instrumental and choral repertoire using the class as a laboratory ensemble. (1 hour lecture, 2 hours lab). Traditional grading only.

### 327. Choral Organization and Rehearsal Techniques (2)

A course for the choral musician with emphasis upon the rehearsal and rehearsal techniques. Aspects of auditioning voices, choral tone, diction, and score preparation will be stressed. Methods of organization and management of the overall choral program will also be addressed.

### 329. Individual Instruction for Music Majors (1)

Prerequisite: Successful completion of the departmental upper division screening exam on the applied instrument or voice. Open to music majors only. Private lessons in the major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration subject to departmental approval. May be repeated for a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

### 330. Opera (1)

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre: solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. Course may be repeated to a maximum of 4 units, only 2 of which may count toward the degree. (3 hours or more laboratory.)

### 331. Music Theater (1)

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction. Course may be repeated to a maximum of 4 units.

### 340A. Musical Analysis in Comparative Cultures (3)

Prerequisites: MUS 141B, 142B. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Traditional grading only.

**340B. Musical Analysis in Comparative Cultures (3)**

Prerequisites: MUS 340A. An analysis of the musics of western, non-western, and popular cultures from the 14th Century to the present. The course examines the development of counterpoint, the historical development of musical forms, and the materials and techniques of 20th Century music. Students analyze musics from western and non-western cultures as well as popular culture. Traditional grading only.

**341. Musical Form and Analysis (3)**

Prerequisites: MUS 241. Intensive analysis of the historical development of form in tonal music from the early Baroque through the early 20th century.

**342. Materials of Modern Music (3)**

Prerequisite: MUS 341. Continuation of intensive analysis of representative compositions of the 20th Century with emphasis on writing in selected 20th Century styles.

**343. Introduction to Computing and MIDI (3)**

Basic techniques of sequencing, beginning music notation, sampling, SMPTE, and elements of studio design in a MIDI based computer music studio. Students will work at individual workstations in a networked computer music lab, gaining experience with practical application on studio equipment. Traditional grading only for Majors/Minors.

**344A-B. Composers' Workshop I-II (2-2)**

Prerequisite: MUS 190 or consent of instructor. Corequisite: MUS 329X (1 unit). Directed studies in composition and analysis. Composition in selected styles and forms from various historical periods with readings of student works by resident ensembles.

**360. History of Music: Medieval/Renaissance (3)**

Prerequisite: MUS 190. Chronological survey of music and musical readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Traditional grading only.

**363I. Music and the Visual Arts (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190 or ART 110. This course explores the interrelationships between the visual arts and music in Western culture by comparing the artistic methodologies employed by important visual artists, including painters, sculptors, architects, to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18<sup>th</sup> through 20<sup>th</sup> Centuries and the works of visual artists that paralleled their development.

**364I. Music and the Temporal Arts (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses: MUS 190, DANC 110, THEA 122, or ENGL 180. This course is a study of the interrelationships of the temporal arts (dance, theatre, literature and music) in Western culture by comparing the artistic methodologies employed by important artists, including poets, writers, choreographers, and playwrights to those employed by the most important composers. The course will focus primarily on the great works of art music of the 18<sup>th</sup> through 20<sup>th</sup> Centuries and the works of temporal artists that paralleled their development.

**370. Recording and Electronic Techniques (3)**

Technique of the preparation and recording of music and the study of electronic recording and musical equipment.

**371. Improvisation Techniques II (2)**

Continuation of MUS 271.

**372. Jazz Harmony and Analysis (3)**

Prerequisite: MUS 142B. Basic techniques of writing and analyzing jazz harmony.

**374. History of Music: Nineteenth/Twentieth Centuries (3)**

Prerequisite: MUS 190. Chronological survey of music and musical styles from 1800 to the present, with selected readings, recordings, and scores for in-depth study. Primarily for music majors and minors, but open to others who read music. Traditional grading only.

**375. The Avant-Garde: Radical Change in Art and Music in the 20th Century (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An examination of some of the major "modern" or avant-garde styles and movements in art and music in Europe and America from about 1900 to the present. The course aims not only to characterize these styles and their practitioners but to relate them to major changes to modern society.

**382A. Instrumental Ensemble Lab (3)**

Prerequisite: Three instrumental methods courses from MUS 125 series. Examination of organizational procedures for beginning/intermediate band and instructional techniques relating to Grade I-II music literature, investigation of contemporary music methodologies, and experience conducting ensemble class sessions. Performance on secondary instruments is required.

**382B. Beginning Jazz Ensemble Lab (1)**

Examination of organizational and instructional techniques relating to beginning jazz ensemble performance, as well as performance on secondary instruments and conducting ensemble class sessions.

**385. Children's Music (3)**

Prerequisite: MUS 180 or waiver (already in place). An introduction to general, vocal, and instrumental musical experiences appropriate for children in grades K-6. Includes participation in singing and listening activities and experience in the use of simple melodic, rhythmic, and harmonic instruments appropriate to the age and development of the child. This course is intended for liberal studies majors and others by consent of instructor.

**386. Introduction to Music Education (4)**

This course provides the philosophical and pedagogical theory required for the design and execution of appropriate music instructional programs at the general classroom, middle school, and secondary levels. The content includes discussion of rationales for music education, the current status of music education, general learning principles, music learning theories, classroom management, and research and resource materials in music education. A one-unit lab explores the use of MIDI, sequencing, and tutorial/managerial software in the music classroom/rehearsal setting. Traditional grading only.

**393. Jazz, An American Music (3)**

Prerequisite: Completion of 13 unit General Education Foundation requirement and upper division standing. This course of study presents the development of various musical styles, forms, improvisations, significant musical concepts and major figures in the past, present and future of jazz, an American music. Traditional grading only for Majors/Minors.

**400. Chamber Music (1)**

Prerequisite: Consent of instructor. Course may be repeated for a maximum of 8 units.

- A. Brass Ensemble
- B. New Music Ensemble
- C. String Ensemble
- D. University String Quartet
- E. University Wind Quintet
- F. University Brass Quintet
- G. Studio Ensemble IV
- J. Studio Ensemble V
- K. Performance
- L. Brass Chamber Music
- M. Percussion Ensemble
- N. Steel Drum Orchestra
- O. Woodwind Chamber Music
- P. String Chamber Music
- Q. University Jazz Quintet
- R. Collegium-Voc
- S. Collegium-Inst
- T. Saxophone Ensemble
- U. Directed Accompanying
- W. Varsity Band
- X. World Percussion Group
- Y. World/Traditional Music Performance
- Z. University Percussion Quartet

### 401. Jazz Ensemble (1)

Prerequisites: Consent of instructor. Course may be repeated to a maximum of 8 units.

- A. Jazz Ensemble I
- B. Jazz Ensemble II
- C. Jazz Combos
- D. Vocal Jazz Ensemble I
- E. Vocal Jazz Ensemble II

### 411./511. Film Scoring (3)

Prerequisites: MUS 372, 474, or permission of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Traditional grading only. Course may be repeated for a maximum of 6 units.

### 415./515. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Farrell, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Traditional grading only.

### 416./516. Pedagogy of Improvisation (3)

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Traditional grading only.

### 417./517. Business of Music (3)

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Traditional grading only.

### 419./519. Choral Master Class (1)

Prerequisites: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. Traditional grading only. Course may be repeated for a maximum of 4 units.

### 422./522. Advanced Choral Conducting and Literature (2)

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group.

### 423A. Senior Recital (1)

Prerequisites: MUS 341, 342. Corequisite: Concurrent enrollment in MUS 329 or 429. An individual recital of the standard literature for solo instrument or voice. Enrollment restricted to Music majors passing the Qualifying Examination. Traditional grading only.

### 423B. Senior Composition Recital (1)

Prerequisites: Senior standing and consent of instructor. An individual recital of original music written during composition studies while in the program. Enrollment restricted to Bachelor of Music

composition majors passing the Qualifying Examination. Traditional grading only.

### 423C. Senior Thesis (1)

Prerequisites: MUS 360, 374 and 496. An in-depth research paper representing a systematic study of a significant problem, style, or repertory. The finished product must show thorough command of the relevant literature, critical thinking and writing, and an original approach. A proposal (outline, abstract, and bibliography) must be submitted for topic approval. Traditional grading only.

### 423D. Senior Project (1)

Prerequisites: Senior standing and consent of instructor. A final project or internship with a music or arts organization subject to approval of the supervising faculty member. Traditional grading only.

### 425./525. Advanced Instrumental Conducting (2)

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently.

### 426./526. Vocal Development (2)

Prerequisite: Consent of instructor. Theory and techniques of teaching voice.

### \*427. Piano Pedagogy (3)

Study of the philosophies, psychology, and piano teaching methods for children, as well as intermediate and advanced level students. Traditional grading only. Course may be repeated for a maximum of 6 units.

### \*428. Seminar in Musical Styles (3)

Prerequisites: MUS 160, 360, 341, 374. A study seminar designed to review the development of musical styles, forms, genres, and significant musical concepts and problems. For Music majors only. Traditional grading only.

### 429. Individual Instruction for Music Majors (2)

Prerequisite: Successful Completion of the Departmental Upper Division Screening Exam on the Applied Instrument or Voice. Private lessons in their major performance medium. Application must be made to the Chair of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated for a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe
- V. Saxophone
- W. Conducting
- X. Composition

### 434A./534A. German Song Repertoire (2)

Prerequisite: MUS 273B. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Traditional grading only.

### 434B./534B. French Song Repertoire (2)

Prerequisite: MUS 273B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Traditional grading only.

**436./536. Opera Repertoire (2)**

Prerequisites: MUS 273B or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Traditional grading only for Majors/Minors. (4 hours laboratory.)

**\*441. Studies in Musical Analysis (3)**

Prerequisites: MUS 341, 342. Intensive individual and class analysis of representative compositions of various periods and styles.

**442. Orchestration (3)**

Prerequisite: MUS 241. Range, characteristics, and transpositions of all standard orchestral instruments by writing and/or transcribing music for them. Preparation and proofreading of scores and parts. Readings of student assignments will be included whenever possible.

**443./543. Advanced Orchestration (3)**

Prerequisite: MUS 442. Techniques of arranging, transcribing, and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

**445. Composition (2)**

Prerequisite: MUS 344A-B or consent of instructor. Corequisite: MUS 329X. Composition with emphasis on the development of an individual style. Course includes study of representative major compositions of the 20th Century. Traditional grading only. Course may be repeated for a maximum of 4 units.

**447./547. Musical Systems of the World (3)**

Prerequisites: MUS 342 or consent of instructor. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Traditional grading only.

**454./554. School, Society, and Music Education (3)**

Beginning with the singing school movement and the Jeffersonian era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society. Traditional grading only.

**455./555. Sound Synthesis (3)**

An intensive course in aspects of sound synthesis in a computer music studio. Students will get hands-on experience designing and editing sounds using computer music software such as cmix, csound, galaxy plus editors. Areas covered include additive, FM, wave (vector) synthesis and resonance modeling. The course will culminate in a creative composition or research project. Traditional grading only.

**456./556. Sampling and Sound Design (3)**

An intensive course concentrating on aspects of digital audio, sample editing and sound design using computers, samplers, and hard disk editors/recorders. This course will culminate in a creative project in which collaboration is encouraged (film, theater, media presentations, etc.) Traditional grading only.

**457./557. Multimedia Authoring (3)**

Students will learn the tools which will enable them to author multi-media presentations and CD ROMs using current hardware and software tools. The course will culminate in a creative project in which students combine computer graphics/animation, text, MIDI, and digital audio. Traditional grading only.

**460./566. Studies in Performance Practices (3)**

Prerequisite: MUS 360 or consent of instructor. Surveys problems of vocal and instrumental performance in music of the Middle Ages, Renaissance, and Baroque.

**467./576. Studies in Gender and Music (3)**

Prerequisite: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Traditional grading only for Majors/Minors.

**468I. Music and Film (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing, and one of the following courses—MUS 190, FEA 310, THEA 122, ENGL 180, or ART 110. Study of the interrelationships of dramatic, visual, and musical arts in film, with a special emphasis on the role of music.

**469./569. Music of the Theater (3)**

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks.

**471./571. Studies in Ethnomusicology (3)**

Prerequisites: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Traditional grading only. Course may be repeated for a maximum of 6 units.

**473./573. Advanced Diction for Singers (2)**

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Traditional grading only.

**474./574. Commercial Arranging (3)**

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring of the various types of commercial ensembles in the styles demanded by contemporary performance practices.

**477A-B./577A-B. Piano Accompanying (2-2)**

Prerequisite: MUS 277B or consent of instructor. Instruction and training in the art and the techniques of accompanying singers, instrumentalists, and ensembles. Students with credit in MUS 228 or 477 may enroll only in 477B. (Lecture 1 hr, activity 3 hrs)

**478./578. Musical Instruments of the World (3)**

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Traditional grading only.

**480./580. Marching Band Techniques (2)**

Marching fundamentals, charting formations, precision drills, parade techniques and half-time pageantry.

**482./582. Instrumental Rehearsal Techniques and Literature (3)**

Procedures for organization and development of instrumental programs and literature for performing groups.

**483A./583A. Choral Repertoire I (2)**

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Traditional grading only.

**483B./583B. Choral Repertoire II (2)**

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Traditional grading only.

**484. Arranging (2)**

Prerequisites: MUS 142B, MUS 241. Instruction in arranging music for ensemble of all sizes both vocal and instrumental. Primarily intended for music education majors. Traditional grading only.

**485./585. Music for the Elementary School Child (3)**

Prerequisites: MUS 341. A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for music education and music therapy majors, and others by consent of instructor.

**487./587. Microcomputers and Music Learning (3)**

Prerequisites: Music education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends. Traditional grading only.

#### 490. Introduction to Music Cultures (3)

Prerequisite: Completion of GE Foundation requirements. Introduction to the Music of a variety of cultures and ethnic groups representative of the diversity of the United States and of Native cultures found throughout the world. Attention will be focused on the functions that music serves, the social organization of music including age and gender roles, the distinctive characteristics of the music, the types of instruments used, and cultural performance standards.

#### 492./592. Studies in Keyboard Music (3)

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano, and organ from the 13th century to the present.

#### 493./593. Studies in Instrumental Music (3)

Prerequisite: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto. Course may be repeated for a maximum of 6 units.

#### 494./594. Music Learning Theory (3)

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory Curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning. Traditional grading only.

#### \*495. Special Topics in Music (3)

Prerequisite: Consent of instructor. Topics of current interest in the various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Course may be repeated to a maximum of 6 units.

##### A. Kodaly Concept I: Methodology, Solfege and Conducting

Corequisite: Permission of Instructor, MUS 495B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

##### B. Kodaly Concept I: Methodology, Solfege and Conducting

Co-requisite: 495A. A detailed examination of the Kodaly Approach to music education with particular emphasis on its relevance, adaptability and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated in this course.

##### F. Music and Dance Collaboration (3)

Corequisite: Permission of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

#### 496./696. Research Methods (3)

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music.

#### 497. Special Topics in Music Composition (3)

Topics of current interest in the field of music composition selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Traditional grading only.

##### A. Songwriting and Analysis

##### B. Musical Theater Project

##### C. Advanced Film Scoring Project

##### D. Contemporary and Computer Music Notation

##### E. Internet Connectivity and Publishing

##### F. Musical Interactivity

#### \*499. Special Studies (1-3)

Prerequisite: Consent of instructor. Individual research or group investigation of selected topics. May be repeated for a maximum of six units of credit.

### Graduate Division

All graduate music courses are traditional grading only, unless otherwise stated. Credit/No Credit grading is not an option

#### 500. Major Performance Organization (1)

Prerequisite: Consent of instructor. Course may be repeated for a maximum of 8 units.

##### B. Symphonic Band

##### C. Wind Symphony

##### D. Women's Chorus

##### E. Forty-Niner Chorus

##### F. University Choir

##### G. Chamber Singers

##### J. Symphony Orchestra

##### K. Performance

#### 510. Improvisation Styles and Literature (3)

Prerequisites: MUS 372, 393, 474, or permission of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts in Jazz Improvisation. Theoretical work emphasizes detailed study of harmonic and linear forms, digital patterns and scales, combination of idioms, patterns, use of experimental material, transcriptions and historic implications.

#### 511./411. Film Scoring (3)

Prerequisites: MUS 372, 474, or permission of instructor. A course of study designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in creating music for films. Will include the study of film mechanics and the emotional and psychological requirements of music underscoring. Time will be spent creating original music for film cues. Traditional grading only. Course may be repeated for a maximum of 6 units.

#### 512. Advanced Techniques in Jazz Composition (3)

Prerequisites: MUS 372, 474, or permission of instructor. A course of study designed to review various composers, musical styles, forms, genres, and significant musical techniques and developments in contemporary jazz composition. Will include the study of major contemporary jazz works with writing assignments based on those styles. Composers who may be studied will include: Duke Ellington, George Russell, Gil Evans, John Lewis, Gunther Schuller, Oliver Nelson, Lalo Schifrin, Gerald Wilson, Thad Jones, Bob Brookmeyer, Bob Mintzer, Herbie Hancock, and Chick Corea. Course may be repeated for a maximum of 6 units.

#### 513. History and Analysis of Jazz Styles (3)

Prerequisites: MUS 372, 393, or permission of instructor. A study seminar designed to review the development of various musical styles, forms, genres, and significant musical concepts and problems in Jazz History.

#### 515./415. Advanced Concepts in Jazz Theory (3)

Prerequisites: MUS 372, 393, 474, or consent of instructor. A theory course designed to review the development of musical styles, forms, genres, and significant musical concepts and problems in jazz harmony. Theoretical work emphasizes detailed study of harmony, form, idioms, combination of idioms, and use of experimental materials. Study and detailed analysis of major modern jazz artists harmonic technique. Musicians to be studied include: Chick Corea, Keith Jarrett, Herbie Hancock, Joe Farrell, Miles Farrell, Miles Davis, Freddie Hubbard, John Lewis, McCoy Tyner, Clare Fischer, Wayne Shorter, Gil Evans, and Bill Evans. Traditional grading only.

**516./416. Pedagogy of Improvisation (3)**

Prerequisites: MUS 371, 372, 393, 474, or consent of instructor (students must demonstrate substantial skills in jazz improvisation). A course of study designed to survey the developments of literature and teaching methods dealing with individual instruments in Jazz Improvisation. These methods will provide important information regarding musical styles, and significant musical concepts as applied to individual instruments and vocalists. Theoretical work emphasizes detailed study of methods dealing with technique, harmony, forms, digital patterns and scales, combination of idioms, use of experimental material, transcriptions, texts, and videos. Traditional grading only.

**517./417. Business of Music (3)**

An overview of the business and artistic process of the music industry. Topics include popular music, music and media, operation of retail music stores, and film, theatrical, and concert music. Recent changes in digital recording, broadcasting technology, copyright laws, and legal issues are also addressed. Traditional grading only.

**519./419. Choral Master Class (1)**

Prerequisite: Consent of instructor. Designed for the graduate conducting student, and undergraduate/graduate choral/vocal major. The lecture/practicum format allows each conductor the experience of conducting the laboratory choir (consisting of the enrolled singers and conductors) in a master class setting. Emphasis on advanced conducting, vocal, and rehearsal techniques as well as performance practices. Course may be repeated for a maximum of 4 units.

**520. Graduate Conducting Seminar (3)**

Prerequisite: Consent of instructor. Advanced baton technique, interpretation, securing proper sound, organizing routine, and program making.

**522./422. Advanced Choral Conducting and Literature (2)**

Prerequisites: MUS 326 and 327 or consent of instructor. Choral technique, style, and interpretation; choral schools and composers since the 16th century; contemporary secular and sacred choral compositions. Class used as laboratory group.

**525./425. Advanced Instrumental Conducting (2)**

Prerequisite: MUS 326 or consent of instructor. Principles and techniques of instrumental conducting and organization. Study and interpretation of instrumental literature using the class as a laboratory. Students in 425 must take MUS 382A concurrently.

**526./426. Vocal Development (2)**

Prerequisite: Consent of instructor. Theory and techniques of teaching voice.

**529. Individual Instruction for Music Majors (1)**

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated for a maximum of 10 units.

- A. Baritone/Tuba
- B. French Horn
- C. Trombone
- D. Trumpet
- E. Harpsichord
- F. Organ
- G. Piano
- J. Percussion
- K. Double Bass
- L. Cello
- M. Viola
- N. Violin
- O. Guitar
- P. Harp
- Q. Voice
- R. Bassoon
- S. Clarinet
- T. Flute
- U. Oboe

- V. Saxophone
- W. Conducting
- X. Composition
- Y. Jazz Writing/Arranging

**530. Opera (1)**

Prerequisites: Consent of instructor. Performance of excerpts and complete works for the lyric theatre; solo and ensemble coachings; intensive language and diction training; preparation and performance of entire role in original language; additional areas include stage management, scheduling, costuming, set construction. (3 hours or more laboratory.) Course may be repeated to a maximum of 4 units.

**531. Music Theater (1)**

Prerequisite: Consent of Instructor. Performance of musical theater works and operas. Additional areas include stage management, scheduling, costuming, and set construction.

**534A./434A. German Song Repertoire (2)**

Prerequisite: MUS 273B. Preparation of German song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Traditional grading only.

**534B./434B. French Song Repertoire (2)**

Prerequisite: MUS 273B. Preparation of French song literature for performance, with coaching in language, musical styles, as well as vocal and accompanying techniques. Traditional grading only.

**536./436. Opera Repertoire (2)**

Prerequisites: MUS 273B or consent of instructor. Two years of voice study, completion of the Department of Music Foreign Language Proficiency Exam (may be waived upon successful completion of 101B level course in French, German, or Italian). Traditional grading only for Majors/Minors.

**541. Seminar in Musical Analysis (3)**

Analysis of the forms and techniques of musical compositions in various genres and styles. May be repeated for a maximum of 6 units.

**542. Seminar in Advanced Musical Analysis (3)**

Advanced analysis in variable topics of the forms and techniques of musical compositions. May be repeated for maximum of 6 units.

**543./443. Advanced Orchestration (3)**

Prerequisite: MUS 442. Graduate level study in the techniques of arranging, transcribing and composing for standard chamber ensembles, chorus and orchestra. Readings of student orchestrations will be included whenever possible.

**544. Composition in Selected Forms (2)**

Corequisite: MUS 529X. Graduate level composition in various forms and genres with readings of student works where possible. Traditional grading only.

**545. Composition (2)**

Prerequisite: MUS 544. Corequisite: MUS 529X. Graduate level composition with emphasis on the development of an individual style. Traditional grading only. May be repeated for a maximum of 4 units.

**547./447. Musical Systems of the World (3)**

Prerequisites: MUS 342 or consent of instructor. Open to music majors and minors. Study of theoretical systems (pitch, scales, rhythmic treatment, textures, forms) of selected musical cultures of the world. Traditional grading only.

**554./454. School, Society, and Music Education (3)**

Beginning with the singing school movement and progressing to the present era, this course will provide the student with a historical, in-depth examination of the direction and influence of music education within America's general education curriculum as it has reflected and addressed the changing needs of schooling and society.

**555./455. Sound Synthesis (3)**

An intensive course in aspects of sound synthesis in a computer music studio. Students will get hands-on experience designing and editing sounds using computer music software such as cmix, csound, galaxy plus editors. Areas covered include additive, FM, wave (vector) synthesis and resonance modeling. The course will culminate in a creative composition or research project. Traditional grading only.

**556./456. Sampling and Sound Design (3)**

An intensive course concentrating on aspects of digital audio, sample editing and sound design using computers, samplers, and hard disk editors/recorders. This course will culminate in a creative project in which collaboration is encouraged (film, theater, media presentations, etc.) Traditional grading only.

**557./457. Multimedia Authoring (3)**

Students will learn the tools which will enable them to author multi-media presentations and CD ROMs using current hardware and software tools. The course will culminate in a creative project in which students combine computer graphics/animation, text, MIDI, and digital audio. Traditional grading only.

**561. Seminar in Medieval and Renaissance Music (3)**

Prerequisite: MUS 360, or consent of instructor. Topics in the development of musical styles and genres from Gregorian Chant through late sixteenth-century sacred and secular polyphony. Course may be repeated for a maximum of 6 units.

**562. Seminar In Baroque Music (3)**

Prerequisites: MUS 341, 360, or consent of instructor. Stylistic analysis and inquiry into cultural background of composers and genres. Course may be repeated for a maximum of 6 units.

**563. Seminar In Classical Music (3)**

Prerequisites: MUS 341, 360, or consent of instructor. Music from the Rococo to the end of the eighteenth century. Philosophical attitudes in relation to the musical styles. Course may be repeated for a maximum of 6 units.

**564. Seminar in Romantic Music (3)**

Prerequisites: MUS 342, 374 or consent of instructor. Music from Beethoven to the end of the nineteenth century. Course may be repeated for a maximum of 6 units.

**565. Seminar In 20th-Century Music (3)**

Prerequisites: MUS 342, 374, or consent of instructor. Stylistic analysis and music; aesthetic and socioeconomic problems of contemporary music; survey of new music. Course may be repeated for a maximum of 6 units.

**566./460. Studies in Performance Practices (3)**

Prerequisite: MUS 360 or consent of instructor. Surveys problems of vocal and instrumental performance in music of the Middle Ages, Renaissance, and Baroque.

**569./469. Music of the Theater (3)**

Prerequisites: MUS 374. History and development of music for the stage from 1600 to the present, its conventions and styles. Analysis of representative masterworks.

**571./471. Studies in Ethnomusicology (3)**

Prerequisite: MUS 374 or consent of instructor. Emphasis on theory and methodology of ethnomusicological study. Investigation of music of particular non-western or popular cultures. For music majors only. Traditional grading only. Course may be repeated for a maximum of 6 units.

**573./473. Advanced Diction for Singers (2)**

Prerequisites: MUS 273A, 273B, or consent of instructor. Advanced principles of diction and International Phonetic Alphabet (IPA) applied to lyric Italian, French, German, and English repertoire; intended for the Senior and Graduate level vocalist and choral conductor. Special studies possible in other languages. Traditional grading only.

**574./474. Commercial Arranging (3)**

Prerequisite: MUS 372 or consent of instructor. Arranging and scoring for the various types of commercial ensembles in the styles demanded by contemporary performance practices.

**575. Studies in Choral Music (3)**

Prerequisite: Consent of instructor. Studies in research techniques for the Choral Musician and exploration of Choral masterworks including score preparation, performance practice considerations, and historical investigation. Rehearsal techniques, principles and procedures necessary to effective choral teaching will also be examined. Course may be repeated for a maximum of 6 units.

**576./467. Studies in Gender and Music (3)**

Prerequisites: MUS 374 or consent of instructor. Surveys issues surrounding women as musicians (performers and composers), comparative studies of the role men and women have played in music, and feminist criticism of music. Traditional grading only for Majors/Minors.

**577A,B./477A,B. Piano Accompanying (2,2)**

Prerequisite: MUS 477B or consent of instructor. Piano major or consent of instructor. Instruction and training in the art and the techniques of accompanying for singers, instrumentalists, and ensembles.

**578./478. Musical Instruments of the World (3)**

Prerequisites: MUS 360 or consent of instructor. Open to music majors and minors. Study of the origins and history of musical instruments in the western and non-western world, with emphasis on cross-cultural influences, iconographical and organological issues, and scientific classification. Traditional grading only.

**580./480. Marching Band Techniques (2)**

Marching fundamentals, charting, formations, precision drills, parade techniques and half-time pageantry.

**581. Foundations of Music Education (3)**

Open to graduate music majors only. A survey of contemporary aesthetic, philosophical, psychological and sociological trends in music education.

**582./482. Instrumental Rehearsal Techniques and Literature (3)**

Procedures for organization and development of instrumental programs and literature for performing groups.

**583A./483A. Choral Repertoire I (2)**

Examination of five genres of choral repertoire: Mass, motet, cantata, oratorio, and madrigal. Traditional and contemporary choral repertoire for public school teachers and church choir directors. Traditional grading only.

**583B./483B. Choral Repertoire II (2)**

Survey of choral and choral/orchestral works from the Renaissance to the 20th century. Traditional grading only.

**585./485. Music for the Elementary Child (3)**

A detailed examination of specific approaches to developing musical and aesthetic sensitivity in children. Students will be involved in creating vocal, instrumental, and listening experiences appropriate for use with children in grades K-6. This course is intended for Music Education and Music Therapy majors, and others by consent of instructor.

**587./487. Microcomputers in Music Learning (3)**

Music Education applications of microcomputers, including: existing instructional software and hardware, administrative applications, criteria for software and hardware selection, MIDI music composition, and contemporary issues and trends.

**588. Quantitative Issues and Research in Music Education (3)**

Prerequisites: MUS 581. Assessment and curriculum development; appropriate techniques and existing tools for the measurement and evaluation of musical behavior; survey and critical analysis of research, especially quantitative, in areas relevant to music education. Design research project appropriate to field.

**592./492. Studies in Keyboard Music (3)**

Prerequisite: MUS 360 or consent of instructor. Survey of the evolution of keyboard music including the clavichord, harpsichord, piano and organ from the 13th century to the present.

**593./493. Studies in Instrumental Music (3)**

Prerequisites: MUS 374. A studies course in instrumental music spanning at least three epochs of music history and covering a minimum of two of four categories: solo sonata (excluding keyboard), chamber music, orchestral/symphonic, and orchestral/concerto.

**594./494. Music Learning Theory (3)**

This course will investigate the research and resulting methodology developed by Dr. Edwin Gordon as to how children learn music, including the nature of music aptitude, the Music Learning Theory curriculum, incorporating Music Learning Theory in the music classroom and rehearsal settings, and evaluation and assessment of student learning.

### 595. Special Topics in Music (1-3)

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*. Course may be repeated to a maximum of 6 units.

#### A. Kodaly Concept I: Methodology, Solfege and Conducting

Corequisite: Permission of Instructor, MUS 595B must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

#### B. Kodaly Concept II: Methodology, Solfege and Conducting

Corequisite: Permission of Instructor, MUS 595A must be taken concurrently. A detailed examination of the Kodaly Approach to music education with a particular emphasis on its relevance and application to an American music education. Special emphasis is given to the sequence of concepts for levels K-3. Solfege, folk song analysis and collection, conducting, games and movement will be integrated into the course.

#### F. Music and Dance Collaboration

Corequisite: Permission of Instructor. A course that pairs music and dance students for exploration into creating new works for music and dance. Collaborations may take the form of improvisational, semi-improvisational, or through-composed creations developed by two dancers and two musicians working in a group setting.

### 597./497. Special Topics in Music Composition (3)

Prerequisite: Consent of Graduate Advisor and instructor. Topics of current interest in various fields of music selected for special presentation and development. Topics will be announced in the *Schedule of Classes*.

#### A. Songwriting and Analysis

#### B. Musical Theater Project

#### C. Advanced Film Scoring Project

#### D. Contemporary and Computer Music Notation

#### E. Internet Connectivity and Publishing

#### F. Musical Interactivity

### 598. Teaching Music in the University (1)

Prerequisite: position as TA or GA in Department of Music or consent of instructor. A seminar on teaching methods, goals, and objectives; covers regulations and responsibilities; preparation of course materials; assessment and evaluation tools; technology in the classroom. Required of first-term TAs and GAs with teaching responsibilities. Traditional grading only. Course may be repeated for a maximum of 3 units.

### 599. Special Studies (1-3)

Prerequisite: Consent of Graduate Advisor and instructor. Individual research or group investigation of selected topics. May be repeated for a maximum of six units of credit.

### 600. Chamber Music (1)

Prerequisite: Consent of instructor. Course may be repeated for a maximum of 8 units.

#### A. Brass Ensemble

#### B. New Music Ensemble

#### C. String Ensemble

#### D. University String Quartet

#### E. University Wind Quintet

#### F. University Brass Quintet

#### K. Performance

#### L. Brass Chamber Music

#### M. Percussion Ensemble

#### N. Steel Drum Orchestra

#### O. Woodwind Chamber Music

#### P. String Chamber Music

#### R. Collegium-Voc

#### S. Collegium-Inst

#### T. Saxophone Ensemble

#### U. Directed Accompanying

#### W. Varsity Band

#### X. World Percussion Group

#### Y. World/Traditional Music Performance

#### Z. University Percussion Quartet

### 601. Jazz Ensemble (1)

Prerequisites: Consent of Instructor. Course may be repeated to a maximum of 8 units.

#### A. Jazz Ensemble I

#### B. Jazz Ensemble II

#### C. Jazz Combos

#### D. Vocal Jazz Ensemble I

#### E. Vocal Jazz Ensemble II

### 629. Individual Instruction for Music Majors (2)

Open to graduate students in music only. Private lessons in their major performance medium. Application must be made to the Graduate Advisor of the Department of Music during the semester prior to registration. Registration is subject to departmental approval. May be repeated for a maximum of 12 units credit.

#### A. Baritone/Tuba

#### B. French Horn

#### C. Trombone

#### D. Trumpet

#### E. Harpsichord

#### F. Organ

#### G. Piano

#### J. Percussion

#### K. Double Bass

#### L. Cello

#### M. Viola

#### N. Violin

#### O. Guitar

#### P. Harp

#### Q. Voice

#### R. Bassoon

#### S. Clarinet

#### T. Flute

#### U. Oboe

#### V. Saxophone

#### W. Conducting

#### X. Composition

### 640. Seminar in Music Theory (3)

Prerequisites: MUS 541 or 542 and consent of instructor. Intensive seminar focusing on analytical and theoretical issues in music. May center on an individual composer, a theoretical technique, or history of theory. Course may be repeated for a maximum of 6 units of degree credit.

### 645. Seminar in Advanced Composition (3)

Prerequisites: MUS 344A-B, 443, 445, or equivalent. Free composition in the more extended forms for various combinations of instruments including full orchestra and band.

### 680. Seminar in Instrumental Music Teaching (3)

Prerequisite: Consent of instructor. Principles, procedures, and materials used in teaching instrumental music in the public schools. Special attention given to methods and materials used in instrument classes.

### 696./496. Research Methods (3)

Principles of research and writing about music, thesis preparation, and citation/bibliographic format. Serves as an introduction to graduate study in music. Required of all MA and MM candidates in music. Traditional grading only.

### 698. Thesis or Project (2-6)

Planning, research, preparation, and completion of thesis or recital project report. Enrollment limited to graduate students, requires permission of graduate advisor.

## Bachelor of Science in Nursing

The baccalaureate program offers courses that prepare the student to become a professional nurse. Two distinct categories of students are eligible for admission: The "basic student" who enters the University without having completed a first level nursing program and the "registered nurse student" who, having completed a course of study at the first level, desires further study to expand her or his nursing capabilities to the BSN professional level. Though each category of student enters at different levels, the terminal objectives of the nursing program are the same for both

groups. The "basic student" upon completion of specific courses is eligible to take the examination for licensure to practice as a registered nurse. All graduates are recommended for certification as a public health nurse in the State of California. The program is accredited by the California State Board of Registered Nursing, and the Commission on Collegiate Nursing Education (Commission on Collegiate Nursing Education, 1 Dupont Circle, NW, Suite 530, Washington, DC 20036-1120, phone: 202-887-6791).

The purpose of the bachelor of science program in nursing is to prepare graduates to function as professional nurses in a variety of settings. Graduates are expected to have acquired foundations for continuing professional development.

The curriculum is formulated to help the student develop understanding of self and others, stimulate intellectual curiosity and to develop an ability to work with colleagues to identify and resolve the health problems of individuals and families in a changing society. The professional nurse, while able to assess and intervene where health deviations exist, is committed to the role of maintaining health and preventing illness in self and others.

### Admission Requirements for the Basic Student

Students must apply for admission to the University as an undeclared or pre-nursing major. The number of applicants to nursing exceeds the number that can be accepted. For this reason nursing applicants are subject to criteria in addition to those required for admission to the University. The "basic student" may apply as a new or transfer student. After the student is accepted in NRSG 200 the department submits a change of major to nursing for the student.

To be considered as a nursing major, basic students are required to do the following:

1. Earn a "C" grade or better and a GPA of 2.5 or better in all prerequisite courses;
2. Complete a test that assesses ability for logical thinking and problem solving prior to filing an application with the department;
3. Earn a passing score on the Writing Proficiency Examination prior to filing an application with the department;
4. Have a personal scheduled interview with a designated nursing faculty member;
5. Submit transcripts of any previous college work to the Nursing Department as well as to the Admissions Office;
6. NOTE: California residents are given priority over all other applicants;
7. All lower division general education requirements must be completed prior to the semester for which the application is submitted.

Further information regarding admission to program courses is available at group counseling sessions held in the department.

NOTE: A one-time lab fee is charged for student supplies used throughout the pre-licensure courses (sophomore-junior years).

### Requirements for the Bachelor of Science in Nursing: Basic – Track I (code 3-1072) (132 units)

Required Prerequisite Courses: CHEM 202, 302, BIOL 207, 208, MICR 200, PSY 100, SOC 100; or equivalent.

Required Support Courses: BIOL 204, 304; FCS 339.

Required Nursing Courses: NRSNG 200, 200L, 202, 250, 250L, 312, 312L, 260, 260L, 300, 307, 330, 330L, 340, 340L, 351, 357, 360, 360L, 370, 370L, 400, 402, 402L, 450, 450L, 452A, or B or D, 453L, or 454L or 456L.

### Requirements for the Bachelor of Science in Nursing: Basic – Track II (code 3-1072) (132 units)

*The following requirements begin Fall 2003*

Required Prerequisite Courses: CHEM 202, 302, BIOL 207, 208, MICR 200, Psy 100, Soc 100; or equivalent.

Required Support Courses: BIOL 204, 304; FCS 339.

Required Nursing Courses: NRSNG 200, 200L, 202, 250, 250L, 260, 260L, 301, 308, 312, 312L, 331, 331L, 341, 341L, 353, 358, 361, 361L, 371, 371L, 400, 402, 402L, 450, 450L, 452A, or B or D, 453L, or 454L or 456L.

### Admission Requirements for the Registered Nurse Student – Track I

Registered Nurse Applicants are required to apply for admission to the University and do the following:

1. Hold a current license or be eligible for license to practice nursing in California;
2. Have 56 transferable units;
3. Obtain malpractice insurance;
4. Attend a group counseling session for RN students and complete the RN application form;
5. Submit official transcripts of any previous college work to the Nursing Department;
6. Earn a passing score on the Writing Proficiency Examination.

Graduates of diploma schools of nursing are urged to seek information/admission to a community college that offers the opportunity to earn academic credit for a diploma nursing program.

All courses offered by the Nursing Department are letter graded unless otherwise specified.

### Admission Requirements for the Registered Nurse Student – Track II

*The following admission requirements begin Fall 2003:*

Registered Nurse Applicants are required to apply for admission to the University and do the following:

1. Hold a current license or be eligible for license to practice in California;
2. Graduation from an Accredited Associate Degree program or evaluation of diploma program for equivalency by an Accredited Associate Degree program;
3. Have 56 transferable units;
4. Obtain malpractice insurance once in the clinical courses;
5. Attend a group counseling session for RN students and complete the RN application form;
6. Submit official transcripts of any previous college work to the Nursing Department;
7. A passing score on the Writing Proficiency Examination must be earned either prior to or within the first year in the program.

Graduates of diploma schools of nursing are urged to seek information/admission to a community college that offers the opportunity to earn academic credit for a diploma nursing program.

All courses offered by the Nursing Department are letter graded unless otherwise specified.

### Requirements for the Bachelor of Science in Nursing: R.N. – Track I (code 3-1073) (131 units)

Required Prerequisite Courses: Once course in each of the following: Anatomy, Physiology (or a combined Anatomy/Physiology), Microbiology, Chemistry (inorganic/organic), Psychology, Sociology.

Required Support Courses: CHEM 302 and BIOL 304. One three-unit course out of the following science courses: MICR 303, BIOL 309I, and 401; one three-unit out of the following counseling courses: SOC 336, PSY 351 and FCS 312I; one three-unit course out of the following communication courses: COMM 330, 410, 411, 432, and ANTH 412I; one three-unit course out the of the following critical thinking or logic courses: COMM 331, PHIL 363, 381, and 382.

Required Nursing Courses: NRSNG 312, 312L, 400, 402, 402L, 450, 450L, and one of the following: 452A and 453L; 452B and 454L; 452D and 456L.

### Requirements for the Bachelor of Science in Nursing: R.N. – Track II (code 3-1073) (131 units)

*The following requirements begin Fall 2003:*

Required Support Courses: CHEM 302 and BIOL 304. One three unit course out of the following science courses: MICR 303, BIOL 309I, and 401; one three unit out of the following counseling courses: SOC 336, PSY 351 and FCS 312I; one three unit course out of the following communication courses: COMM 330, 410, 411, 432, and ANTH 412I; one three unit course out of the following critical thinking or logic courses: COMM 331, PHIL 363, 381, and 382.

Required Nursing Courses: NRSNG 312, 312L, 400, 402, 402L, 450, 450L, and one of the following: 452A, and 453L; 452B and 454L; 452D and 456L.

### Course of Study

A specific combination of general education, prerequisites, nursing and elective courses totaling 132 units for the basic program and 131 units for the R.N. program are required for graduation. All nursing courses in the nursing program must be taken in sequence. In general, the number assigned to each nursing course indicates where it occurs in the sequence. Admission to the first course is by application which will be accepted upon successful attainment of the criteria listed above. The last date to file applications for each semester will be available in the Nursing Department. Progress in the nursing major requires that students maintain a cumulative 2.0 GPA on all units attempted and attain a minimum of a "C" grade in each of the nursing courses as well as all required support courses. The student who earns less than a grade of "C" must repeat that course prior to being admitted to the next course in the nursing course sequence. A nursing course may be repeated one time. The nursing sequence of courses requires a minimum of six semesters for the "basic student". A break in the sequence of nursing courses necessitates readmission on a space-available basis. All courses offered by the Nursing Department are letter graded unless otherwise specified.

## Master of Science in Nursing

The master of science degree is available to qualified students who desire advanced preparation in a variety of clinical specialty areas. The program is approved by the Board of Registered Nursing, and accredited by the Commission on Collegiate Nursing Education (1 Dupont Circle, NW, Suite 530, Washington, DC, 20036-1120, phone: 202-887-6791).

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines and community services to promote health.

The focal point in this curriculum is the nursing process with strong components of clinical medical knowledge complemented by behavioral science concepts. Courses are interdependent and have been structured to provide clinical depth in the area of student's choice.

The graduate will have the knowledge and skill to function as an advanced practice nurse in one of several specialty areas. Nursing research skills and the application of nursing theory to practice are major emphases of the curriculum. Each applicant should request a copy of the official transcript of all college course work be sent to the department graduate program of nursing in addition to the copies required by the Office of Admissions and Records.

### Prerequisites

1. A bachelor's degree in nursing preferred: A bachelor's degree in a related field will be considered;
2. Current license to practice as a registered nurse in California; PHN Certificate needed for concurrent MSN/MPH program;
3. Admission to graduate standing in nursing at the University;
4. An upper division or graduate course in statistics;
5. A physical assessment course which includes clinical practice (all specialty areas except concurrent MSN/MPH);
6. An upper division of graduate level course in pathophysiology (all specialty areas except concurrent MSN/MPH);
7. An upper division public health nursing course;
8. An overall GPA of 2.75 or better in the last 60 units of the undergraduate BSN Program.

### Additional Prerequisites for Concurrent MSN/MPH Program

9. An ethics course
10. A cultural diversity course
11. Graduate Record Examination (GRE) - verbal and quantitative scores.
12. Current professional resume describing applicant's relevant experience.

### Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy;
2. Completion of all undergraduate deficiencies;
3. Successful completion of the CSULB Writing Proficiency Examination;

4. Approval of the department graduate advisor and Director of Graduate Studies and Research, College of Health and Human Services.

The M.S. in Nursing requires completion of the required courses in one of the following specialty areas: Adult/Geriatric, Family, Pediatric, Psychiatric/Mental Health. A Nurse Practitioner Certificate (code 1-1120) is awarded to students who complete the required courses in one of the following Nurse Practitioner specialty areas:

### Nurse Practitioner Certificate (Code 1-1120)

#### Family Nurse Practitioner

#### Requirements

Completion of NRSB 510, 520, 530, 540, 550, 560, 682, 682 A&B, 683, 683 A&B.

#### Pediatric Nurse Practitioner

#### Requirements

Completion of NRSB 510, 520, 530, 540, 550, 560, 684, 684 A&B, 685, 685 A&B.

#### Adult-Geriatric Nurse Practitioner

#### Requirements

Completion of NRSB 510, 520, 530, 540, 550, 560, 686, 686 A&B, 687, 687 A&B.

#### Psychiatric-Mental Health Nurse Practitioner

#### Requirements

Completion of NRSB 510, 520, 530, 540, 550, 560, 688, 688 A&B, 689, 689 A&B.

### Health Services (School Nurse) Credential Program (code 600)

The Health Services (School Nurse) credential is required of registered nurses working in the California school system.

#### Admission

1. Copies of transcripts of Baccalaureate in Nursing and Masters in Nursing (with a Pediatric Nurse practitioner speciality) degrees;
2. Copy of State of California RN licensure and entitlement as a Nurse Practitioner;
3. Three letters/checklists of reference;
4. Completion of the Department of Nursing Graduate Program Application.

#### Requirements

Completion of the following course work with a grade of "B" or better;

1. NRSB 680C and NRSB 680L;
2. H SC 430;
3. CD 373.

### Requirements for the Master of Science in Nursing (code 6-1072)

1. Completion of a minimum of 36 units in approved upper division and graduate courses;
2. For Family Nurse Practitioner, Pediatric Nurse Practitioner, Adult-Geriatric Nurse Practitioner and Psychiatric-Mental Nurse Practitioner Programs completion of NRSB 510 (2

units), 520 (2 units), 530 (2 units), 540 (2 units), 560 (2 units), 596 (3 units) and 695 (3 units) or 698 (4 units). For Women's Health Care, completion of NRS 560 (2 units), 596 (3 units), 660B (3 units), 680A, B, C (at least six units), 680L series (at least 9 units) or 698 (4 units).

3. An overall GPA of 3.0 or better;
4. Completion of an approved thesis or comprehensive examination.

### Master of Science in Nursing/Master of Public Health (code 7-1074)

The Departments of Nursing and Health Science offer a concurrent Master of Science and Master of Public Health degree available to qualified students who desire advanced preparation in the area of public health nursing with a practice focus of primary prevention, illness prevention, and health promotion. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two Departments in each semester in order to provide an intense learning experience. The Master of Science and Master of Public Health (Health Education Option) provides the opportunity for students to increase competence in designing, implementing, and evaluating behavior change programs in preparation for serving in various health agencies.

#### Health Education Option

##### Requirements

1. A minimum of 57 units of approved Nursing and Health Science upper division and graduate level courses including: HSC 500 or MICR429; HSC 503 OR BIOL 565; HSC 508, 528, 535, 570, 581, 624, 625; NRS 560, 680A, 680B, 680C; 680AL, 680BL, NRS 680CL or HSC 626 (in lieu of one 3 unit NRS 680L); NRS 596 or HSC 696; NRS 695 or HSC 697 or NRS 698
2. An overall GPA of 3.0 or better in all courses
3. A thesis or a directed project (Department of Health Science only)
4. If a student after entering the concurrent MSN/MPH program returns to a single degree program, all requirements for the single degree program must be met.

### Master of Science in Nursing/Master of Science in Health Care Administration (code 6-1075)

The Department of Nursing and Health Care Administration Programs offer a concurrent Master of Science in Nursing and Master of Science in Health Care Administration dual degree available to qualified students who desire advanced preparation in the areas of nursing and health care administration with a practice focus as Advanced Practice Nurses in administration. The concurrent program leading to both degrees represents the core accreditation requirements of each degree. Coursework is integrated between the two degree programs each semester in order to provide an intense learning experience.

The philosophy of graduate nurse education is that the practice of nursing is constantly changing as health needs and health delivery systems are altered. Integral to nursing is an ability to work effectively and cooperatively with other disciplines. The joint Master of Science in Health Care Administration and the Master of Science in Nursing provides the opportunity for students to specialize as advanced practice nurses with empha-

sis in administration and increasing competence in designing, implementing, and evaluating programs in preparation for serving in various health agencies. An important career path for advanced practice nurses is as nurse executive in the variegated segments of the health care industry including entrepreneurial activities. Courses are interdependent and have been structured to provide clinical depth in the areas of nursing and administration.

Each applicant should request that a copy of official transcript of all college course work be sent to the Nursing Department Graduate Advisor and to the Office of Admissions and Records.

#### Admission Requirements

##### In addition to the MSN prerequisites

1. Public Health Nurse Certificate, or eligibility for certificate in California.
2. An overall GPA of 3.0 or better; an upper division nursing GPA of 3.0 or better and a science GPA of 3.0 or better. Students who fall below these averages will be evaluated on an individual basis.
3. Submission of quantitative and verbal scores from the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT).
4. Current professional resume describing the applicant's relevant experience.

#### Advancement to Candidacy

A joint committee, consisting of Nursing and Health Care Administration faculty involved in the program, will review files and make a determination to advance the candidate to graduate status.

#### Requirements for Completion

1. A minimum of 57 units of approved Nursing and Health Care Administration upper division and graduate level courses including:  
The Program of Study: NRS 559, 560, 596, 680A, 680B, 680C, 680AL, 680BL, 680CL, 698, HCA 502, 505, 510, 515, 524, 530, 535, 550, 698
2. An overall GPA of 3.0 or better in all courses.
3. Directed project or a thesis.
4. \*Graduate degrees obtained previously may be accepted toward meeting a portion of the unit requirements of the concurrent MSN/MSHCA degree program.
5. If a student after entering the concurrent MSN/MSHCA program returns to a single degree program, all requirements for the single degree program must be met.  
\* 60% of units must be earned in residence

### Courses (NRS)

#### Lower Division

##### 200. Introduction to Nursing Health Care (3)

Prerequisites: Admission to nursing program; Corequisites: NRS 200L, 202, BIOL 204, FCS 339. Development of concepts of high level wellness and self care. Introduction to physical and social science principles which provide the basis for beginning level nursing theory and practice. Introduction to the nursing process and the framework for nursing practice. Traditional grading only.

**200L. Introduction to Nursing Health Care Clinical (3)**

Prerequisites: Admission to nursing program; Corequisites: NRSNG 200, 202, BIOL 204, FCS 339. This course is designed to provide guided utilization of beginning level theory and skill in a simulation laboratory. Opportunity is provided for the student to experience clinical practice based on the concepts of the nursing process and the framework for nursing practice. Course fee required for materials to be used throughout the pre-licensure program; non-refundable fee. Course may be repeated one time. Credit/No credit grading only. (Laboratory 9 hours)

**202. Health Care Communication (2)**

Prerequisites: Admission to the nursing program, consent of instructor. Corequisites: NRSNG 200, 200L, FCS 339, BIOL 204, or consent of instructor. Primary focus is on communication theory, helping modes and communication with diverse people. Introduction to understanding the psycho-social and cultural factors which influence the responses to and on the health professional-client interaction. Clinically oriented simulated projects and activities provide opportunities for application of theory. Traditional grading only. (Lecture-activity, 2 hours.)

**250. Intermediate Nursing Health Care (3)**

Prerequisites: NRSNG 200, 200L, 202, BIOL 204, FCS 339, consent of instructor. Corequisites: NRSNG 250L, 312, 312L, 260, 260L, BIOL 304; or with consent of instructor. Exploration of the illness experiences and health deviations related to various medical and surgical etiologies and pathological states. The focus is on the independent and collaborative nursing practice utilizing the nursing process. Emphasis is on illness care and health restoration, illness prevention, and health promotion. Multicultural influences on health care are considered. Traditional grading only. (Lecture-discussion 3 hours.)

**250L. Intermediate Nursing Health Care Clinical Studies (3)**

Prerequisites: NRSNG 200, 200L, 202, BIOL 204, FCS 338, consent of instructor. Corequisites: 250, 260, 260L, 312, 312L, BIOL 304, or with consent of instructor. This course is a clinical practicum focusing on the application of the nursing process and collaborative care to patients experiencing illness and health deviations due to various medical surgical etiologies and pathological states. Traditional grading only. (Laboratory 9 hrs.)

**260. Older Adult Health Care (2)**

Prerequisites: NRSNG 200, 200L, 202, FCS 339, BIOL 204 or consent of instructor. Corequisites: NRSNG 260L, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. This course is a study of the delivery of optimum health care to the aging client within the framework of the nursing process. Emphasis is on understanding the unique needs of the aging population, encouraging health promotion and self-care, identifying variable responses of elderly clients to pathological conditions, and maintaining a level of function that promotes quality of life. Traditional grading only. (Lecture-Discussion.)

**260L. Older Adult Health Care Clinical Studies (2)**

Prerequisites: NRSNG 200, 200L, 202, FCS 339, BIOL 204, or consent of instructor. Corequisites: NRSNG 260, 250, 250L, 312, 312L, BIOL 304, or consent of instructor. This clinical course provides the student the experience of applying the nursing process to care of the aging client in a variety of settings. Traditional grading only. (Laboratory 6 hours.)

**300. Psychological Aspects of Health Care (2)**

Prerequisites: NRSNG 330, 330L, 340, 340L, 307, 351 or consent of instructor. Corequisites: NRSNG 360, 360L, 370, 370L, or with consent of instructor. This course presents an exploration of psychosocial concepts, cultural and environmental factors relative to wellness-illness of individuals and family groups with special attention to physically ill individuals. Group interaction is directed toward development of self awareness as well as development of the professional role. Traditional grading only. (Lecture-Discussion.)

**301. Psychological Aspects of Health Care (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRSNG 331, 331L, 341, 341L, 358, or consent of instructor. This course presents an exploration of psychosocial concepts, cultural and environmental fac-

tors relative to wellness/illness of individuals and family groups with special attention to physically ill individuals. Group interaction is directed toward development of self-awareness as well as development of the professional role. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRSNG 300.

**307. Human Life Cycle I (2)**

Prerequisites: NRSNG 250, 250L, 312, 312L, 260, 260L, BIOL 304 or consent of instructor. Corequisites: NRSNG 330, 330L, 340, 340L, 351; or with consent of instructor. Study of the physiological, social, intellectual and emotional development of persons as individuals and as family members from conception through adolescence, including nursing implications for fostering optimal development. Traditional grading only. (Lecture-Discussion.)

**308. Human Life Cycle 1 (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRSNG 353, 361, 361L, 371, 371L, or consent of instructor. Study of the physiological, social, intellectual and emotional development of persons as individuals and as family members from conception through adolescence including nursing implications for fostering optimal development. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRSNG 307.

**312. Health Assessment (2)**

Prerequisites: NRSNG 200, 200L 202, BIOL 204, FCS 339, consent of instructor. Corequisites: NRSNG 250, 250L, 260, 260, 312L, BIOL 304, or consent of instructor. This course covers the techniques of history taking and physical examination of healthy individuals. These techniques are used by the nurse in identification of patient problems. (Lecture discussion)

**312L. Physical Assessment for Nurses Lab (1)**

Prerequisites: NRSNG 200, 200L, 202, BIOL 204, FCS 339, consent of instructor. Corequisites: NRSNG 250, 250L, 260, 260L, 312, BIOL 304, or consent of instructor. This course provides the opportunity for the student to apply techniques of history taking and physical examination which are used by the nurse in identification of patient problems. Includes demonstration and practice of physical assessment methodology. (Technical activities and laboratory 2 hours).

**330. Women's Health Care (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304. Corequisites: NRSNG 330L, 340, 340L, 307, 351 or consent of instructor. Focus on the family during the childbearing period and common health problems of women. Includes assessment, intervention and evaluation of normal clients and those at risk of complications during pregnancy and/or childbirth and common gynecological problems of women, the childbearing period, gain (adding of family member) and family roles are addressed. Traditional grading only. (Lecture-Discussion.)

**330L. Women's Health Care Clinical (3)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304. Corequisites: NRSNG 330, 340, 340L, 307, 351 or consent of instructor. This course provides the opportunity to apply theoretical concepts from NRSNG 330 in a supervised clinical setting. Supervised care is provided to the childbearing family at all stages in the cycle-antepartum, intrapartum and postpartum-including the normal newborn and newborn requiring intensive care. Assessment of potential complications and variations from normal, and implementation and evaluation of care are the basis for application of knowledge. Traditional grading only. (Laboratory 9 hours.)

**331. Critical Care Nursing (2)**

Prerequisites: NRSNG 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRSNG 301, 331L, 341, 341L, 358, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRSNG 360.

### 331L. Critical Care Nursing Clinical Studies (3)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304 or consent of instructor. Corequisites: NRS 301, 331, 341, 341L, 358, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they related to patients in the critical care settings: Traditional grading only. (Laboratory 9 Hours). Not open to students with credit in NRS 360L.

### 340. Child Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304. Corequisites: NRS 330, 330L, 340L, 307, 351 or consent of instructor. Theoretical base for pediatric nursing practice, including the care of the well and ill child from birth through adolescence. Pathophysiology of specific body systems and appropriate nursing interventions are described. Cultural and growth and development variations, psychological development, and family roles and structures are also considered. Traditional grading only. (Lec-Discussion)

### 340L. Child Health Care Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304. Corequisites: NRS 330, 330L, 340, 351, or consent of instructor. Opportunities for the student to apply theoretical concepts from NRS 340 in various clinical settings and to a variety of pediatric clients and their families. The student will assess the physical, psychological, and cultural status of the ill child. The student will plan, implement, and evaluate age appropriate nursing care for clients with common pediatric disorders. Traditional grading only. (Laboratory 9 hours.)

### 341. Psychiatric/Mental Health Nursing (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341L, 358, or consent of instructor. This course presents the theory base for psychiatric/mental health delivery system. Cultural, ethical, economic and legal influences on mental health will be considered. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 370.

### 341L. Psychiatric/Mental Health Nursing Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341, 358, or consent of instructor. This course provides the clinical experiences for students to apply the theories learned in NRS 341. The student will utilize the nursing process to apply theories and implement care for clients with psychiatric and mental health issues. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 370L.

### 351. Legal Aspects of Health Care (2)

Prerequisites: NRS 250, 250L, 312, 312L, 260, 260L, BIOL 304, or consent of instructor. Corequisite: NRS 330, 330L, 340, 340L, 307; or with consent of instructor. This course presents the legal duties and responsibilities of nurses in the delivery of health care services. Professional licensure regulations, scope of nursing practice and ethical issues related to nursing practice are emphasized. Traditional grading only. (Lecture-Discussion.)

### 353. Legal Aspects of Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 361, 361L, 371, 371L, or consent of instructor. This course presents the legal duties and responsibilities of nurses in the delivery of health care services. Professional licensure regulations, scope of nursing practice, and ethical issues related to nursing practice are emphasized. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 351.

### 357. Human Life Cycle II (2)

Prerequisites: NRS 307, 351, 330, 330L, 340, 340L, or consent of instructor. Corequisites: NRS 300, 360L, 370, 370L; or with consent of instructor. Study and application to nursing of the physiological, social, intellectual and emotional development of persons as individuals and as family members from young adulthood through old age. Traditional grading only. (Lecture-Discussion.)

### 358. Human Life Cycle II (2)

Prerequisites: NRS 250, 250L, 260, 260L, 312, 312L, BIOL 304, or consent of instructor. Corequisites: NRS 301, 331, 331L, 341, 341L, or consent of instructor. Study and application to nursing of the physiological, social, intellectual, and emotional development as persons as individuals and as family members from young adulthood through old age. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 357.

### 360. Critical Care Nursing (2)

Prerequisites: NRS 330, 330L, 340, 340L, 307, 351, or consent of instructor. Corequisites: NRS 360L, 370, 370L, 300, 357, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients in technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they relate to patients in the critical care settings. Traditional grading only. (Lecture-Discussion.)

### 360L. Critical Care Nursing Clinical Studies (3)

Prerequisites: NRS 330, 330L, 340, 340L, 307, 351, or consent of instructor. Corequisites: NRS 360, 370, 370L, 300, 357, or consent of instructor. Advanced study of the critically ill or injured patient in various critical care settings. The course focuses on complex knowledge required to provide nursing care of patients technologically sophisticated specialty areas. Additional emphasis and specific content will focus on psychosocial and cultural concepts and issues as they relate to patients in the critical care setting. Traditional grading only. (Laboratory 9 hours)

### 361. Child Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 361L, 371, 371L, or consent of instructor. Theoretical base for pediatric nursing practice, including the care of the well and ill child from birth through adolescence. Pathophysiology of specific body systems and appropriate nursing interventions are described. Cultural and growth and development variations, psychological development, and family roles and structures are also considered. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 340.

### 361L. Child Health Care Clinical (3)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 361, 371, 371L, or consent of instructor. Opportunities for the student to apply theoretical concepts from NRS 361 in various clinical settings and to a variety of pediatric clients and their families. The student will assess the physical, psychological, and cultural status of the ill child. The student will plan, implement, and evaluate age appropriate nursing care for clients with common pediatric disorders. Traditional grading only. (Laboratory 9 Hours). Not open to students with credit in NRS 340L.

### 370. Psychiatric/Mental Health Nursing (2)

Prerequisites: NRS 330, 330L, 340, 340L, 307, 351 or consent of instructor. Corequisites: NRS 360, 360L, 370L, 300, 357, or consent of instructor. This course presents the theory base for psychiatric/mental health delivery system. Cultural, ethical, economic and legal influences on mental health will be considered. Traditional grading only. (Lecture-Discussion.)

### 370L. Psychiatric/Mental Health Nursing Clinical (3)

Prerequisites: NRS 330, 330L, 340, 340L, 307, 351, or consent of instructor. Corequisites: NRS 360, 360L, 370, 300, 357, or consent of instructor. This course provides the clinical experiences for students to apply the theories learned in NRS 370. The student will utilize the nursing process to apply theories and implement care for clients with psychiatric and mental health issues. Traditional grading only. (Lecture-Discussion.)

### 371. Women's Health Care (2)

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, or consent of instructor. Corequisites: NRS 308, 353, 361, 361L, 371L, or consent of instructor. Focus on the family during the childbearing period and common health problems of women. Includes assessment, intervention and evaluation of normal clients and those at risk of complications during pregnancy and/or childbirth and common gynecological problems of women, the child-

bearing period, gain (adding of family member) and family roles are addressed. Traditional grading only. (Lecture-Discussion). Not open to students with credit in NRS 330.

#### **371L. Women's Health Care Clinical (3)**

Prerequisites: NRS 250, 250L, 260, 260L, 301, 312, 312L, 331, 331L, 341, 341L, 358, BIOL 304, or consent of instructor. Corequisites: NRS 308, 353, 360, 361L, 371, or consent of instructor. This course provides the opportunity to apply theoretical concepts from NRS 371 in a supervised clinical setting. Supervised care is provided to the childbearing family at all stages in the cycle-antepartum, intrapartum and postpartum-including the normal newborn and newborn requiring intensive care. Assessment of potential complications and variations from normal, and implementation and evaluation of care are the basis for application knowledge. Traditional grading only. (Laboratory 9 Hours). Not open to students with credit in NRS 330L.

#### **400. Health Care Delivery Systems (3)**

Prerequisites: NRS 360, 360L, 370, 370L, 300, 357, or consent of instructor; for RNs: NRS 307, 357, BIOL 304; or consent of instructor. Corequisites: NRS 402, 402L, or consent of instructor. Study of the health care delivery systems with emphasis on the role of nursing within these systems. Emphasis is upon less well defined problems and their causes, original and creative nursing interventions and in-depth study of the impact of political, economic and social issues of the health care delivery system. Traditional grading only. (Lecture-Discussion.)

#### **402. Community Health Nursing (3)**

Prerequisites: NRS 360, 360L, 370, 370L, 300, 357, or consent of instructor. Corequisites: NRS 402L, 400; or with consent of instructor. This course focuses on diversified and/or permanent interruptions in the health-illness continuum and associated nursing care for aggregates in non-acute institutions and community facilities. Content emphasizes the variety of life styles and diversified ethnic groups. Traditional grading only. (Lecture-Discussion.)

#### **402L. Community Health Nursing Clinical Studies (4)**

Prerequisites: NRS 360, 360L, 370, 370L, 300, 357, or consent of instructor; for RNs: NRS 307, 357, BIOL 304, or consent of instructor. Corequisites: NRS 402, 400; or with consent of instructor. This course focuses on developing the expertise to work with diversified and/or permanent interruptions in the health-illness continuum and provides appropriate nursing interventions for aggregates in non-acute facilities. Experiences emphasize providing health care to groups with a variety of life styles and diversified ethnic groups. Traditional grading only. (Laboratory 12 hours.)

#### **405./505. Holistic Nursing Interventions Across the Lifespan (3)**

Prerequisites: Senior standing or graduate status. This course will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Traditional grading only.

#### **420. Prepared Childbirth Teachers (7)**

Prerequisites: Must be RN, MD, RPT, or other health professional with a bachelor's degree. This program is designed to prepare persons to educate expectant parents in the psychoprophylactic method of childbirth most commonly referred to as the "Lamaze" method of childbirth. Over a 6 month period, this intensive program will cover: childbirth preparation including pregnancy, labor and delivery as well as pain management and teaching strategies. In addition to the 72 classroom hrs (4 units), there are 135 lab hours which include a minimum of 10 labor and delivery observations and 2-3 hours per week observing classes and a student teaching experience. Successful completion of the course makes the participant eligible for certification from the American Society for Psycho-prophylaxis in Obstetrics.

#### **450. Nursing Research and Administration (3)**

Prerequisites: NRS 400, 402, 402L, 357, BIOL 304, NRS 400, or consent of instructor. Corequisites: NRS 452, 452L, 450L; or with consent of instructor. The application of the nursing process using research methodology, teaching and learning theory in selected clinical settings. The latter part of the course will focus on leadership and management theories and skills as they relate to clinical practice. Traditional grading only. (Lecture-Discussion 3 hours.)

#### **450L. Nursing Research Seminar (1)**

Prerequisites: NRS 400, 402, 402L, 357, BIOL 304, NRS 400, or consent of instructor. Corequisites: NRS 452, 452L, 450; or with consent of instructor. The application of the nursing process using research theory in selected clinical settings. Traditional grading only. (Lecture 1 hour.)

#### **452A. Advanced Nursing in Critical Care (2)**

Prerequisites: NRS 400, 402L, 402 or consent of instructor. Corequisites: NRS 452L-A, 450, 450L; or with consent of instructor. A study of critical care/emergency department health care delivery systems and theories of management and leadership with their application to selected settings. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Traditional grading only. (Clinical process.)

#### **452B. Advanced Maternal Child Health in Nursing (2)**

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-B, 450, 450L; or with consent of instructor. This course is a study of advanced concepts in maternal-child nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of maternal-child nursing care in in-patient and out-patient health care delivery settings and on nursing management models that incorporate unique client problems in selected patient populations. The integration of advanced maternal-child nursing concepts in clinical settings with management knowledge is investigated in selected settings. Traditional grading only. (Clinical process.)

#### **452D. Advanced Nursing in Community Mental Health (2)**

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452L-D, 450, 450L. This course is a study of advanced concepts in the area of clinical specialization in community mental health nursing and of theories of management, leadership, and administration as they are applied to selected settings. An emphasis is placed on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health care clinical and management knowledge essential to role fulfillment in selected settings is investigated. (Clinical process) Traditional grading only.

#### **453L. Advanced Nursing in Critical Care Clinical Studies (4)**

Prerequisites: NRS 402, 402L, or consent of instructor. Corequisites: NRS 452A, 450, 450L. This course is designed to provide clinical experiences in the critical care/emergency departments of health care delivery systems and application of theories of management and leadership. An emphasis will be placed on the utilization of critical care/emergency department nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of critical care/emergency clinical and management knowledge as essential to role fulfillment will be investigated in selected settings. Traditional grading only. (Laboratory 12 hours.)

#### **454L. Advanced Nursing in Maternal-Child Clinical Studies (4)**

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452B, 450, 450L; or with consent of instructor. This course is designed to provide clinical experiences in the application of advanced concepts in maternal-child nursing and the application of theories of management, leadership, and administration as they are applied to selected settings. An unique client problems in selected patient populations encountered in maternal-child nursing. Opportunity to integrate clinical and management knowledge in maternal-child clinical settings is provided. Traditional grading only. (Laboratory 12 hours.)

#### **456L. Advanced Nursing in Community Mental Health Clinical (4)**

Prerequisites: NRS 400, 402, 402L, or consent of instructor. Corequisites: NRS 452D, 450, 450L. This course is designed to provide clinical application of advanced concepts in Community Mental Health and application of theories of management, leadership, and administration in selected settings. An emphasis is place on the utilization of community mental health nursing care and nursing management models that incorporate unique client problems in selected patient populations. The integration of community mental health clinical and management knowledge essential to role fulfillment in selected settings in investigated. Traditional grading only. (Laboratory 12 hours.)

### 4811. Parenting (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Effective parenting with emphasis on common parenting concerns and the developmental tasks of parents and children.

### \*482. Health Assessment of the Aging Client (3)

Prerequisites: GERN 4001 or equivalent and upper division standing or consent of instructor. Assessment of the physical, psychological and social status of the aging client as these factors affect health and well being. Course is designed to assist those working with the aging client in a variety of settings to identify actual or potential health related problems using a variety of tools and techniques. Same course as GERN\*482. (Lecture-discussion, 3 hours.)

### 490. Independent Study (1-3)

Prerequisite: Consent of any nursing faculty. Students who have made prior arrangements with a faculty advisor for appropriate learning objectives may enroll. May be repeated to a maximum of six units.

### 499./599. Special Topics in Nursing (1-3)

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. Credit may be earned for course each time a new topic is offered.

## Graduate Division

### 505./405. Holistic Nursing Interventions Across the Lifespan (3)

Prerequisites: Senior standing or graduate status. This course will present therapeutic touch, meditation, and imagery as interventions grounded in a holistic nursing framework. Students will learn the basics of practicing modality which will enable them to begin incorporating the three modalities into their practice. Traditional grading only.

### 510. Advanced Pathophysiology for Advanced Practice Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course presents the principles of human functional and homeostatic mechanisms, as well as underlying mechanisms operant during disturbance of human functional and homeostatic mechanisms. The course materials build upon the framework of understanding developed in the prerequisite undergraduate anatomy and physiology course. Understanding of concepts of integration and communication between organs systems will be explored and will be applied to gain greater knowledge of disturbances at the cellular level which result in aberrant organ and system function. This course is prerequisite to the nursing 680 series courses. Traditional grading only. (Lecture-Activity.)

### 520. Advanced Pharmacology for the Advanced Practice Nurse (2)

Prerequisites: Admission to the graduate nursing program, must be taken concurrent with NRSNG 510 or consent of the instructor. This course is designed to meet the needs of students in the graduate nursing program and advanced practice nurses for advanced knowledge about pharmacological agents use full in the management of a variety of common clinical situations. This course is also designed to meet the BRN pharmacology course requirement for the nurse practitioner to furnish drugs or devices pursuant to the Business and Professions Code, Section 2836.1. A theoretical framework establishing the importance of advanced pharmacological knowledge to the full implementation of the nurse practitioner role will be presented. Following a review of the basic concepts, a physiological systems approach will be applied which will allow a greater understanding of the effect of common drugs utilized in primary care/family planning settings in the provision of perinatal care, family planning services and/or routine health care in essentially healthy persons. Ethical/legal issues, as well as a review of the California furnishing bill and standardized procedures will be covered. This course is not designed to supersede or replace dosage and treatment protocols established within the nurse practitioner's setting for clinical practice. The course is prerequisite to the nursing 680 series courses. Traditional grading only. (Lecture-Discussion.)

### 530. Advanced Physical Assessment for Advanced Practice Nurses (2)

Prerequisites: Admission to the graduate nursing program or permission of the instructor. This core course is designed to provide through classroom instruction and experiences, advanced knowledge and diagnostic skill development in physical assessment of client often encountered by the advanced practice nurse. The assessment role of the nurse is further expanded to include client education and the cooperative synthesis of wellness strategies to optimize health. This course is prerequisite to the NRSNG 680 series courses. Traditional grading only. (Technical activity and laboratory 4 hours.)

### 540. Health Care Economics, Policy, and Management for Advanced Practiced Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course examines the advanced practice nurse's relationship to policy formation, health care economics, and health care organizations. Analysis of the health care delivery system will include the increasing levels of public, governmental, and third party participation in policy formation. Emphasis of this course will be analysis of health policy and its effect on the practice environment. The course explores the issues of health care organization, health care financing, and delivery within integrated care systems to include community and the organization of community based systems of care. Students are prepared to provide quality cost effective care, participate in the design and implementation of care in a variety of health systems, utilize computerized data bases, and assume a leadership role in managing human, fiscal, and physical health care resources. Included is the definition of primary health care by the World Health Organization which addresses the issues of poverty and public health, and the relationship of these issues to improving health care delivery and client outcomes. This course is prerequisite to the NRSNG 680 series courses. Traditional grading only. (Lec-Discussion.)

### 550. Human Diversity and Psychosocial Issues in Health Care for Advanced Practice Nursing (2)

Prerequisites: Admission to the graduate nursing program or consent of instructor. This course focuses on the cultural sensitive nursing principles of advanced practice nursing, selected strategies, and negotiations with patients. An emphasis is placed on complex psychosocial assessment, interdisciplinary approaches and special populations. This course is prerequisite to the NRSNG 680 series course. Traditional grading only. (Lecture-Discussion.)

### 556A. Conditions of Learning and Instruction in Nursing (3)

A systematic study of theories of learning and instruction as they apply to patient and/or student teaching-learning situations. Content covered includes conditions of learning, models of instruction, transfer of learning, behavior modification techniques, variables influencing learning and instruction, and evaluation of instruction.

### 556B. Curriculum Development in Nursing (3)

A critical appraisal of patterns of nursing education as considered from the standpoint of the changing order. A systematic study of principles of curriculum development as they apply to different types of nursing programs. Focuses on the relationship between philosophy, objectives, the selection and organization of learning experiences and the evaluative process.

### 556L. Theoretical Concepts Laboratory of Nursing Education (1-4)

Instructional skills and the application of theories of learning and instruction to the practice and teaching of nursing within a supervised practice-teaching situation. Reference to ways teaching skills relate to broader educational issues such as teaching/learning theory. May be repeated for a maximum of 4 units.

### 559. Nursing Administration (3)

Theories, issues and application of techniques pertaining to management applicable to nurses in the clinical setting.

### 560. Professional Foundations of Theoretical and Professional Roles in Advanced Nursing Practice (2)

Prerequisites: Admission to graduate nursing program or permission of instructor. The study of theoretical framework and professional roles influencing advanced practice nursing. Specifically, content will address the dynamic nature of the profession and its roles. Student will review and analyze the major theoretical frameworks for

advanced practice from nursing and related fields. They will be introduced to the changing nature of role ambiguity, role boundaries in addition to the need to work in a collaborative relationship with other health professionals. This course is prerequisite to the NRSG 680 series courses. Traditional grading only. (Lecture-Discussion.)

#### **590. Independent Study (1-3)**

Prerequisite: Consent of a nursing faculty member. Independent research under the supervision of a nursing faculty member.

#### **596. Research Methods in Nursing (3)**

Prerequisites: Admission to graduate program in nursing or permission of instructor, upper division statistic course. The focus of this course is on the research process in nursing, including the use and testing of nursing theories, development of research proposals that includes conceptualization of the problem, literature search, study design, data collection, analysis and interpretation of findings. The legal and ethical aspects of research are stressed. This course is prerequisite to the nursing 680 series courses. Traditional grading only. (Lecture-Discussion.)

#### **599./499. Special Topics in Nursing (1-3)**

Prerequisite: Consent of instructor. Topics consistent with contemporary nursing or curricular trends will be announced each semester. Credit may be earned for course each time a new topic is offered.

#### **660B. Theoretical Base for Advanced Nursing Practice (3,3)**

Prerequisites: Pathophysiology, Physical Assessment. Study of the relationship of psycho-social theory to health care with an emphasis on the application of theory to clinical practice. Various sections will focus on different areas of clinical interest.

#### **680A,B,C. Theories for Extended Nursing Practice (3,3,3)**

Prerequisites: A physical assessment course (including 60 hours laboratory practice), BIOL 304. Normal and pathological conditions and the management theory base applicable for the advanced practice nurse in clinical areas of concentration. May be repeated for a maximum of 6 units in each suffix. Traditional grading only.

#### **680L. Clinical Studies in Nursing (3)**

A laboratory course offering clinical experience in selected settings to prepare the student for advanced nursing practice. May be repeated for credit with a change of topic. A maximum of nine units for degree credit.

#### **682. Family Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 550, 560, 506. The primary focus of this course is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and family theory base applicable for the role of the family nurse practitioner is presented. Traditional grading only.

#### **682A. Family Clinical Studies for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596; clinical pretest; corequisite, NRSG 682. This is the first of two courses designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit grading only. (Laboratory 9 hours.)

#### **682B. Family Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596; corequisite: NRSG 682. This is the second of two course designed to allow the student the opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Credit/No Credit only. (Laboratory 9 hours.)

#### **683. Family Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596. The primary focus of this course is diagnosis, treatment and management of common and pathological conditions by the family nurse practitioner. A management and

family theory base applicable for the role of the family nurse practitioner is presented. Traditional grading only.

#### **683A. Family Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596, clinical pretest; corequisite: NRSG 683. This is first of two courses designed to allow the student additional opportunity to apply theoretical knowledge in supervised clinical practice in family practice. An emphasis is placed on further socialization into the family nurse practitioner role. Clinical seminars assist the student to apply theoretical concepts and expand clinical knowledge. Traditional grading only. (Laboratory 9 hours.)

#### **683B. Family Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate nursing program, NRSG 510, 520, 530, 540, 550, 560, 596; corequisite: NRSG 683. This is second of two courses designed to allow the student additional opportunity to apply theoretical concepts and expand clinical knowledge. Traditional grading only. (Laboratory 9 hours.)

#### **684. Pediatric Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596. This course presents the theory base for well child care applicable to the role of the pediatric nurse practitioner. Content focuses on preventive health care and well child management of children from infancy through adolescence. The specific topics covered are well child, anticipatory guidance, family theory, child and family response to stress, childhood maltreatment, violence and substance abuse, professional issues and related research. Traditional grading only.

#### **684A. Pediatric Clinical Studies for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596; corequisite: NRSG 684. This course is the first of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours.)

#### **684B. Pediatric Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596; corequisite: NRSG 684. This course is the second of two clinical laboratory components of the pediatric specialty program. The student has the opportunity to demonstrate the application of theory from concurrent course work. Clinical experiences are available which will allow the student to give preventive health care, to manage the well child, and to manage common pediatric problems. Credit/No Credit grading only. (Laboratory 9 hours.)

#### **685. Pediatric Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRSG 510, 520, 540, 550, 560, 596. The primary focus of this course, at the advanced level, is diagnosis, treatment and management of common pediatric condition/disorders by the pediatric nurse practitioner. The specific topics covered are the management of common pediatric dermatological, ENT, ophthalmic conditions, allergy, respiratory, gastrointestinal, genitourinary, cardiovascular, neurological/learning disorders, infectious diseases, hematological, congenital anomalies/genetic disorders, endocrine, orthopedic and sport injuries. Traditional grading only.

#### **685A. Pediatric Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRSG 510, 520, 530, 540, 550, 560, 596; corequisite: NRSG 685. This is the first of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Traditional grading only. (Laboratory 9 hours.)

**685B. Pediatric Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596; corequisite: NRS 685. This is the second of two clinical laboratory courses of the pediatric nurse practitioner program that provides experience for the management of common pediatric health care problems. The student has the opportunity to demonstrate, at an advanced level, the application of theory from previous and concurrent course work that deals with the assessment, diagnosis, treatment, management and prevention of common pediatric health care problems in the clinical setting. Traditional grading only. (Laboratory 9 hours.)

**686. Adult/Geriatric Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596, clinical pretest. This course presents the epidemiology, etiology, differential diagnosis, management and prevention of selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of healthcare. Traditional grading only.

**686A. Adult/Geriatric Clinical Studies in Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596, a clinical pretest; corequisite: NRS 686. This course is the first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours.)

**686B. Adult/Geriatric Clinical Studies in Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596; a clinical pretest; corequisite NRS 686. This course is the second of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on beginning socialization into the nurse practitioner role. Credit/No Credit grading only. (Laboratory 9 hours.)

**687. Adult/Geriatric Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596, a clinical pretest. This course presents continued epidemiology, etiology, differential diagnosis and management and prevention of additional selected health problems of the adult/geriatric patient in primary, secondary, and tertiary settings and a further delineation of the role of the nurse practitioner in these settings. The course provides information regarding normal and pathological conditions and the management theory base applicable for the role of the advanced practice nurse providing care to the adult in a changing environment of health care. Traditional grading only.

**687A. Adult/Geriatric Clinical Studies in Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596, a clinical pretest; corequisite: NRS 687. This clinical course is the first of two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Traditional grading only. (Laboratory 9 hours.)

**687B. Adult/Geriatric Clinical Studies in Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596, a clinical pretest; corequisite: NRS 687. This clinical course is the second to two designed to allow the adult/geriatric nurse practitioner student the opportunity to apply

theoretical knowledge in supervised clinical practice with adult and geriatric patients. An emphasis is placed on continuing to socialize into the nurse practitioner role. Traditional grading only. (Laboratory 9 hours.)

**688. Psychiatric/Mental Health Theories for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 540, 550, 560, 596. Study of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of clients of psychiatric facilities and community mental health agencies. Traditional grading only.

**688A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing I (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596; corequisite: NRS 688. This course is the first of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit only. (Laboratory 9 hours)

**688B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing II (3) F**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560; corequisite: NRS 688. This course is the second of two supervised clinical practicums for nurse practitioner students which is focused on the application of mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Credit/No Credit grading only. (Laboratory 9 hours.)

**689. Psychiatric – Mental Health Theories for Advance Practice Nursing II (3) S**

Prerequisites: Admission to graduate nursing program and NRS 510, 520, 530, 540, 550, 560, 596. This course is the continued study at an advanced level of the pathology, diagnostic methods, indications for referral, and management for nurse practitioner students of the medical, psychological, and social problems of client of psychiatric facilities and community mental health agencies. Traditional grading only.

**689A. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing III (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596; corequisite: NRS 689. This course is the first of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Traditional grading only. (Laboratory 9 hours.)

**689B. Psychiatric – Mental Health Clinical Studies for Advance Practice Nursing IV (3) S**

Prerequisites: Admission to graduate program and NRS 510, 520, 530, 540, 550, 560, 596; corequisite: NRS 689. This course is the second of two supervised clinical practicums for nurse practitioner students focused on the application of complex mental health concepts. Theories from the prerequisite and concurrent nursing theory courses are applied and tested in the clinical setting. Traditional grading only. (Laboratory 9 hours.)

**695. Professional Literature (3)**

Prerequisites: NRS 596, Consent of graduate and program advisors, advancement to candidacy. Critical analysis and synthesis by comparative review of professional literature in nursing practice, theory, and research. Not open to students taking Nursing 698. Traditional grading only.

**696. Research Methods (3)**

Prerequisite: Upper division course in statistics. The research process in using including the use of theory, study design, data collection, data analysis and interpretation of findings.

**698. Thesis (1-4)**

Prerequisites: Admission to Graduate Nursing Program, advancement to candidacy, NRS 596, and consent of department graduate advisor. Planning, preparation and completion of a thesis in clinical nursing.

# OCEAN STUDIES INSTITUTE

*College of Natural Sciences and Mathematics*

## Director

Richard Pieper

## Location

Fish Harbor

820 S. Seaside Ave.

Terminal Island, CA 90731

## Telephone

(310) 519-3172

## FAX

(310) 519-1054

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Ocean Studies Institute was created in 1972 to coordinate teaching, research and community service in ocean studies on member campuses. Members include Dominguez Hills, Fullerton, Long Beach, Los Angeles, Northridge, Pomona, and San Marcos. The Institute does not offer degrees, but it serves as an administrative liaison to facilitate degree programs offered on member campuses.

The Institute operates a 76-foot research vessel for teaching and research purposes, obtains research grants and contracts, performs research, and is responsible for curriculum planning and facilities acquisition. Presently the Institute serves over 35 departments across eight campuses.

The courses and research in which the Institute is active reflect the broad applied approach of interdisciplinary, mission-oriented projects in harbors and the coastal zone.

## Courses (OSI)

### Upper Division

#### 313. Marine Invertebrate Zoology (4)

Prerequisite: BIOL 211A, B. Basic taxonomy, morphology, ecology, and distribution of invertebrates, excluding insects; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 353. Marine Biological Processes (4)

Prerequisite: BIOL 211A, B. Study of pelagic and benthic marine ecosystems, including human influences. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 417./517. Marine Benthic Invertebrates of Santa Catalina Island (4)

Prerequisite: OSI 313 or 353. (Undergraduates register in OSI 417; graduates register in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 419./519. Marine Ichthyology (4)

Prerequisite: OSI 353. (Undergraduates register in OSI 419; graduates register in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 420./520. Ecology of Marine Fishes (4)

Prerequisite: OSI 419/519. (Undergraduates register in OSI 420; graduates register in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 425./525. Marine Phycology (4)

Prerequisite: BIOL 211A, B. (Undergraduates register in OSI 425; graduates register in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

#### 455./555. Marine Ecological Processes (4)

Prerequisite: OSI 353 or BIOL 350: statistics recommended. (Undergraduates register in OSI 455; graduates register in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. (Lecture 2 hrs., field 6 hrs.) Course fee may be required.

**458./558. Ecology of Southern California Marine Plankton (4)**

Prerequisite: OSI 353. (Undergraduates register in OSI 458; graduates in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**345. Physiology of Marine Animals (4)**

Prerequisite: BIOL 211A, B. Comparison of the fundamental physiological processes of the major marine phyla, both invertebrate and vertebrate. Laboratory and field investigations will be directed toward marine animals living in the local waters. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**460./560. Oceanographic Techniques (4)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 460; graduates register in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students will become familiar with oceanographic equipment and methodologies that will emphasize on-the-job training aboard ship and in the laboratory. (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required.

**490./590. Special Topics in Ocean Studies (1-3)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490; graduates register in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated for credit with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to six units. Topics to be announced in the *Schedule of Classes*. (Laboratory 1-3 hrs.) Course fee may be required.

**490L./590L. Laboratory in Special Topics in Ocean Studies (1-3)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490L; graduates register in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated for credit with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to six units. Topics to be announced in the *Schedule of Classes*. (Laboratory 3-9 hrs.) Course fee may be required.

**496. Undergraduate Directed Research (1-3)**

Prerequisite: Consent of instructor. Not available to graduate students. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report.

**Graduate Division**

**517./417. Marine Benthic Invertebrates of Santa Catalina Island (4)**

Prerequisite: OSI 313 or 353. (Undergraduates register in OSI 417; graduates register in OSI 517.) Topics include benthic community structure and function, benthic-pelagic coupling, animal-sediment relationships, animal interactions, and marine pollution ecology. Laboratory emphasis will be on identification of local forms. (Lecture 2 hrs, laboratory and field 6 hrs.) Course fee may be required.

**519./419. Marine Ichthyology (4)**

Prerequisite: OSI 353. (Undergraduates register in OSI 419; graduates register in OSI 519.) Taxonomy, morphology, physiology, and ecology of fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**520./420. Ecology of Marine Fishes (4)**

Prerequisite: OSI 519/419. (Undergraduates register in OSI 420; graduates register in OSI 520.) Fish species assemblages, general ecology, adaptations, and behavioral ecology of marine fishes. Emphasis on local marine fishes. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**525./425. Marine Phycology (4)**

Prerequisite: BIOL 211A, B. (Undergraduates register in OSI 425; graduates register in OSI 525.) Taxonomy, phylogeny, ecology, and physiology of marine algae; emphasis on local marine forms. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**555./455. Marine Ecological Processes (4)**

Prerequisite: OSI 353 or BIOL 350; statistics recommended. (Undergraduates register in OSI 455; graduates register in OSI 555.) Discussion of field studies on ecological principles related to marine communities. Includes an individual field research project and class projects. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**558./458. Ecology of Southern California Marine Plankton (4)**

Prerequisite: OSI 353. (Undergraduates register in OSI 458; graduates register in OSI 558.) Physiological ecology of marine phytoplankton and zooplankton as a basis for study of structure, dynamics, and modeling of plankton communities. (Lecture 2 hrs., laboratory and field 6 hrs.) Course fee may be required.

**560./460. Oceanographic Techniques (4)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 460; graduates register in OSI 560.) An interdisciplinary survey of techniques and procedures used in collection of oceanographic data in the fields of biology, chemistry, geology, and physics. Students will become familiar with oceanographic equipment and methodologies that will emphasize on-the-job training aboard ship and in the laboratory. (Lecture 2 hrs.; laboratory and field 6 hrs.) Course fee may be required.

**590./490. Special Topics in Ocean Studies (1-3)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490; graduates register in OSI 590.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated for credit with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to six units. Topics to be announced in the *Schedule of Classes*. (Lecture 1-3 hrs.) Course fee may be required.

**590L./490L. Laboratory in Special Topics in Ocean Studies (1-3)**

Prerequisite: Consent of instructor. (Undergraduates register in OSI 490L; graduates register in OSI 590L.) Topics from selected areas of Ocean Studies. Course content will vary from section to section. May be repeated for credit with the consent of instructor. Maximum credit for OSI 490/590 and/or 490L/590L limited to six units. Topics to be announced in the *Schedule of Classes*. (Laboratory 3-9 hrs.) Course fee may be required.

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor and graduate standing. Independent research to be conducted under the supervision of a Catalina Semester instructor. Students develop their ideas during the first 12 weeks of the semester, prepare a research proposal, complete their studies, and present their findings in a mini-symposium and a report.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

Students desiring information should contact the department office for referral to one of the faculty advisors, Credential Analyst, Graduate Advisor, Undergraduate Advisor, Designated Subjects Credential Coordinator, or Distance Learning Coordinator.

Occupational Studies is designed to enable persons to gain the competencies requisite for successful employment in secondary schools, community colleges and adult programs as teachers, coordinators and supervisors of vocational, occupational, career preparation, and related human resource development programs.

Instructional programs are offered on- and off-campus throughout California and out-of-state. Most off-campus instruction is offered via distance learning modes of video, Internet, integrated live instruction, and combinations of these three.

## Designated Subjects Credential (code 300)

This program of instruction identifies and develops on an individualized basis the teaching competencies requisite for successful employment in designated subjects programs, as required by the California Commission on Teacher Credentialing.

## Bachelor of Science in Occupational Studies

California State University, Long Beach (CSULB) offers a Bachelor of Science Degree in Occupational Studies. This degree is targeted primarily towards employed persons serving in business, industry, labor, government and occupational education teachers and counselors serving in the public, private and non-profit sectors. The BS program will help these people grow in level of professional participation in their various occupational subject areas, knowledge of the respective training and development methods, and problems of work-life education in an information and technological society. The primary goal of the program is to improve the competencies of human resource development personnel to instruct in technical subjects, to design curriculum, to advise learners, and to evaluate curriculum and learner performance.

The Bachelor of Science degree requires 124 units of college work. The major consists of 73 units comprised of (a) a unit core of 27 units, (b) foundation and occupational competency coursework (12 to 25 units depending on student's option), and (c) options of 25 to 34 units. The foundation and occupational competency courses, generally lower division, are elected from (a) the social and behavioral sciences, (b) occupationally based technical courses, or (c) a combination of both. Nine units of occupational competence may be granted for prior learning in the Bilingual, Corporate Training, Research and Evaluation, and Transitional Services options.

### Option in Bilingual Occupational Instruction (code 3-1051) (124 units)

The bilingual occupational instruction option prepares students for human resource development positions as curriculum development and instruction specialists in the bilingual vocational training (BVT) method developed in research sponsored by the Office of Bilingual Education and Minority Language Affairs, United States Department of Education. Graduates of this option are employed as teachers, curriculum development specialists, and job developers in private occupational education institutions, community based organizations, and private industry. It is highly recommended that those selecting this option possess or develop an elementary speaking and reading proficiency in a second language. The required courses for this option are: OCST 300, 330, 410, 411, 412, 413, 418, 420, 422, 456, 461, 462, 480, 485; EDSE 435; EDP 454, 485; and LING 329, 486. This option requires 15 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Corporate Training and Development (code 3-1052) (124 units)

The option in corporate training and development prepares students for human resource development positions as training specialists, training materials developers, and training systems analysts. These specialists serve as support personnel assisting in the analysis and interpretation of job analysis data and translating these data into training and development programs. They assist technical content experts in the design and delivery of

instruction. The required courses for this option are: OCST 300, 330, 388I, 410, 411, 412, 417I, 418, 420, 435, 456, 470, 480, 485; OCST 421 or approved alternative ET 202; OCST 461 or 462; OCST 490 or approved alternatives ET 307, 309. This option requires 21 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Research and Evaluation (code 3-1053) (124 units)

The option in research and evaluation prepares students for careers as labor market analysts, training evaluation specialists, and evaluation research specialists in public postsecondary education, government employment development agencies, and private industry. These specialists develop evaluation guidelines, evaluate training and development programs including maintaining task lists and training program descriptions, determine the effectiveness and currency of instructional content and methods, and assess trainee performance in training and on-the-job. The required courses for this option are: OCST 300, 330, 410, 411, 412, 418, 420, 421, 422, 456, 480, 483, 485, 490; EDP 400, 419. This option requires 25 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Transition Services (code 3-1054) (124 units)

The option in transition services prepares students for professional positions in secondary and postsecondary occupational special education, rehabilitative services, and related adult services. Graduates develop competencies as educational and human resource development specialists in transition services for individuals with disabilities. The curriculum for this option was developed under research sponsored by the Office of Special Education and Rehabilitation Services, United States Department of Education. The required courses for this option are: OCST 300, 330, 360, 410, 411, 412, 418, 420, 422, 456, 460, 480, 485, 497, 499; OCST X260 or 463; OCST 461 or 462; EDP 350, 405; REC 416 or an approved alternative from one of the following: FCS 413, 418; EDP 430, SW 350 or SW 351. This option requires 12 units of foundation and occupational competency coursework determined in consultation with an Occupational Studies department academic advisor.

### Option in Vocational Arts (code 3-1055) (124 units)

This option is designed for teachers in employment-related educational programs that meet the requirements of the State Education Code, Sections 89220, 89221, 89222 and 89223. Specifically, candidates for this option must:

1. Teach or have taught at least 1,620 student contact hours in a full-time position or 1,000 student contact hours in a part-time position in an approved occupational education curriculum.
2. Hold a teaching credential authorizing service as a vocational teacher (community college instructors affected by AB 1725 are exempt from this requirement; however, they must demonstrate instructional competencies by completing prescribed teacher certification courses); and

3. Have worked at least seven years full-time or the equivalent in the field(s) named on the credential. Candidates, upon completion of these requirements and in consultation with their adviser, submit an application with documentation verifying occupational, managerial, teaching, and professional development experience. Upon approval of the application, the California State Board of Examiners for Vocational Teachers recommends advancement to degree candidacy. Advancement to candidacy includes the preparation of an individualized program emphasizing three areas of occupational studies: 1) the relation of education and work, 2) teaching learners with special needs, and 3) research and evaluation. The required courses for this option are: OCST 300, 330, 410, 411, 412, 413, 418, 420, 421 or 422; OCST 456, 460, 461, or 462; OCST 418 or 485. This option requires foundation and occupational competency coursework as determined by the State Board of Examiners for Vocational Teachers and in consultation with an Occupational Studies department academic advisor.

### Master of Arts in Occupational Studies (code 5-1050)

The Master of Arts degree in Occupational Studies is available to qualified students preparing for professional careers in the fields of career, occupational, and vocational education. A major thrust is the development of qualified leadership personnel to serve occupational education programs in public and private education as well as related human resource development programs in California and the nation.

The graduate program in occupational studies consists of three parts. The first part is a 15 unit set of required or core coursework in the following areas:

- History and foundations of occupational education (OCST 501)
- Leadership development (OCST 502)
- Management skills (OCST 503)
- Research and evaluation (OCST 505 and 696)

The second part is an area of specialization which is selected by the student in consultation with an advisor. Examples of program specialization areas follow:

- Administrative studies – for persons interested in administration of occupational education in public or private sectors.
- Special populations – for persons planning to work with learners who are culturally different, handicapped, and/or limited English proficient in occupational education settings.
- Corporate training and development – for persons interested in development, implementation, and evaluation of training programs in a variety of business or industrial settings.
- Career guidance – for persons interested in counseling and guidance services in education and employment settings.
- Research and evaluation – for persons planning to work in research and evaluation units in public and private agencies or to pursue advanced graduate studies.
- Curriculum and instruction – for persons interested in developing occupational education courses and programs in public and proprietary institutions.

The third program part is the decision to conduct a major research study (the thesis option) or to complete a comprehensive examination near the end of the Master's program.

Each applicant must submit a copy of transcripts for all college work to the program office, in addition to the official copies required by the Office of Admissions and Records.

### Prerequisites

1. A bachelor's degree in occupational studies, with a minimum of 24 upper division units in vocational education comparable to courses offered at this University; or
2. A bachelor's degree with a minimum of 24 upper division units comparable to courses offered at this University in the discipline in which the degree was awarded.
3. Successful completion of Departmental Writing Examination.

### Advancement to Candidacy

1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of all core courses;
3. Maintenance of B average (3.0 GPA) in all work completed in graduate program;
4. Approval of Occupational Studies Graduate faculty and Director of Graduate Studies and Research, College of Health and Human Services.

### Requirements

1. Completion of OCST 501, 502, 503, 505, 696;
2. Completion of 30 units of approved upper division and graduate courses and a thesis (OCST 698) and an oral presentation of the thesis approved by Department Graduate Committee; or 36 units of approved upper division and graduate courses and a written comprehensive examination.

### Courses (OCST)

#### X260. Techniques of Job Coaching (3)

This course is designed to equip students with hands-on techniques and strategies to facilitate the transition of individuals with special needs in employment settings. Traditional grading only. (Lecture/Activity 3 hours.)

#### 300. Orientation to Occupational Studies (3)

Prerequisite: Qualified for admission to the baccalaureate degree program under California Education Code, Sections 89220, 89221, 89222, and 89223. Orientation to baccalaureate education and the five options of the Occupational Studies Bachelor of Science degree. Career opportunities, historical overview, and department structure of each option. Philosophy and development of comprehensive employment-related education in California, its present place and functions in the total system of education. Preparation of the "Swan Bill" application and individualized program of studies. Traditional grading only.

#### 301. Community and Occupational Experiential Learning (1-9)

Prerequisite: OCST 300, upper division standing. Open only to majors in options 3-1051, 3-1052, 3-1053, or 3-1054 of the Bachelor of Science in Occupational Studies degree. Credit for supervised and documented field experience and professional development in an occupation. Students are responsible for completion and submittal to the department the work experience and professional development portions of the State Board of Examiners for Vocational Teachers application for credit. Credit/No credit grading only. Course is repeatable up to 9 units.

#### 330. Literacy for the Workplace (3)

Prerequisite: ENGL 100 or equivalent. Development of an understanding of what is needed/meant by workplace literacy and what can be done to improve basic skills and literacy for work of employees and students in occupational programs. Course content

includes principles of effective writing and oral communication for education and the workplace, extensive practice in various forms of writing for education and the workplace, and case studies of education and workplace reports, negotiations, and oral presentations. Traditional grading only.

#### 360. Foundation of Transition Services (3)

Prerequisites: OCST 260 or instructor consent. An overview of the models, personnel roles, practices, and delivery systems of services for youth and adults with special needs in their transition from school to work and independent living. Traditional grading only.

#### 388I. Technological Literacy (3)

Prerequisites: Completion of GE Foundation requirements, upper division standing, English 100. Exploring technological concepts as they impact on humans, society and cultures. Emphasis will be placed on technology as a human adaptive system and its relationship to sociological and ideological systems. Traditional grading only.

#### \*410. Curriculum Development for Designated Subjects (3)

Prerequisites: Enrollment in Designated Subjects Credential Program, BS or MA degree programs. Techniques of curriculum planning and development in occupational and adult education.

Components include needs assessment strategies, course content, performance objectives, development of specific units of instruction, learner characteristics, and learning theories applicable to curriculum development.

#### \*411. Instruction and Evaluation for Designated Subjects Teachers (3)

Prerequisites: OCST 410 or permission of instructor. Enrollment in Designated Subjects Credential Program, BS or MA degree. Techniques and evaluation of instruction in occupational and adult education. Components include motivation, presentation, application, and evaluation techniques necessary to teach all students in occupational and adult education.

#### \*412. Advanced Program Development and Instruction (3)

Prerequisites-Enrollment in BS, MA or Designated Subjects Credential Program. Advanced techniques of teaching designated subjects. Components include curriculum, instruction, communication, program evaluation, classroom management, technology in the classroom, and the latest knowledge and practices for teaching all students in occupational and adult education and for effecting their transition from school to work. Traditional grading only.

#### \*413. Foundations of Designated Subjects Credential Programs (3)

Prerequisites-Enrollment in BS, MA or Designated Subjects Credential Program. An examination of the foundations and principles of occupational education with a specific focus on programs subsumed under designated subjects credentials. Traditional grading only.

#### 417I. Technology, Ethics, and Society (3)

This course is designed to provide students with a framework for understanding the ways in which human societies transform themselves through technological innovation. New technologies enlarge society's options, thereby requiring consideration of ethical questions concerning the social effects of technological change. Traditional grading only.

#### \*418. The Marketplace for Occupational Education (3)

Studies of public and private agencies that serve persons who have the need to identify, prepare for and use occupational education; where such persons are placed, what they do, their successes and failures, and future trends and needs.

#### \*420. Program Evaluation (3)

Analysis of evaluation approaches for programs and systems. The major phases and steps involved in organizing, conducting, and reporting an evaluation will be examined. Students will be exposed to a variety of program evaluation systems currently in operation and will design a functional evaluation plan for a program in their respective professional fields. Traditional grading only.

#### \*421. Research Design (3)

Study of research designs applicable in a variety of professional fields. Calculation of basic statistics, development of research proposals, use of minicomputers in occupational research. Traditional grading only.

**\*422. Grants and Contract Writing (3)**

Study of process of contract and grant proposal writing for public-and private-funding agencies, including budget preparation. Traditional grading only.

**\*435. Principles of Adult Education (3)**

Instruction on the scope and function of adult education including the local, state, and federal levels. Principles and practices of adult education, philosophical perspectives, and professional issues are discussed. Traditional grading only.

**\*456. Attitude Awareness in Education and the Workplace (3)**

Introduction to and application of the principles of communication, human relations, understanding other people, attitude recognition and development, and mental steps to motivation. Contributions of the behavioral sciences to more effective teaching will be examined and plans for their implementation will be prepared. Traditional grading only.

**457. Working Around the World (3)**

Prerequisites: Completion of GE Foundation requirements, one or more exploration courses, upper division standing. A study of the effects that religion, language and culture, political structure, economics, and physical environment have on the development of work and people's perceptions of work and occupations in the United States and other countries around the world. Traditional grading only.

**\*460. Instructional Methods for Learners with Special Needs (3)**

Identification, assessment and instructional development strategies for students or employees with diverse needs. Traditional grading only.

**\*461. Instructional Methods for Teachers of Economically and Culturally Diverse Students (3)**

Techniques for teaching disadvantaged and culturally diverse learners. Emphasis on methods, motivation, counseling and instructional organization. Traditional grading only.

**\*462. Instructional Methods for Teachers of Linguistically Diverse Students (3)**

A convergence of bilingual and vocational education principles leading to an understanding and application of strategies suitable for teaching occupational skills to linguistically diverse students. Bilingual proficiency is not required. Traditional grading only.

**463. Job Development (3)**

Prerequisites: OCST 260 or consent of instructor. An overview of techniques and strategies needed to successfully develop employment opportunities for people with special needs. Traditional grading only.

**\*470. Seminar (3)**

Study of the major problems and issues confronting the educator and practitioner. Traditional grading only.

**\*480. Internship (1-4)**

Internship in community, business, or school employment and training development programs which involve instruction, administration and research. Traditional grading only.

**483. Senior Thesis or Project (1-3)**

Identification of, planning, preparation and completion of a project to solve or research problems particular to a business, educational or industrial setting. Written report required.

**\*485. Identifying Management Competencies (3)**

A lecture and discussion course focusing on the identification of competencies requisite for effective program management. These competencies are categorized in three domains, including, but not limited to: the interrelationships of concepts, things, and people. Traditional grading only.

**\*490. Independent Study (1-3)**

Individual research and study under the direction of a faculty member in areas not an integral part of any regular course. Written report is required. May be repeated to a maximum of three units. Traditional grading only.

**492./592. Training the Trainer: A Practicum Class (4)**

Equips non-traditional working students with entry-level knowledge and skill to successfully pursue other designated professional training core courses focusing on needs assessment, instructional design, facilitation, evaluation, Organization Development (OD), succession planning and international and cross-cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Traditional grading only.

**494./594. Organization Development (3)**

Familiarizes students with concepts, models, theories, and techniques for planning, facilitating, and evaluating Organization Development Interventions. Students will develop skills and competencies necessary to carry out a variety of industrial trainer support roles and strategies for internally and externally implementing Organization Development (OD) activities. Not open to graduate students who have previously earned 494 credit in this course. Traditional grading only.

**495./595. Succession Planning for Organizations (2)**

A training program to ensure the continued, effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Preparation, grooming, and proficiency of replacements are considered. Identification of replacement needs for critical positions, clarification of present and future work activities, comparing and contrasting of individuals, and establishment of development criteria to develop high performing workers. Learning objectives can be specific to a given industry or general. Students will design an organizational chart of their respective fields. Not open to graduate students who have previously earned OCST 495 credit in this course. Traditional grading only.

**\*497. Practicum (1-6)**

Action-oriented organized learning directed toward identifying the major problems and issues confronting education work and suggesting practical solutions for the practitioner.

**\*499. Special Topics (1-3)**

Topics of current interest will be selected for intensive group study. Topics will be announced in the *Schedule of Classes*. May be repeated to a maximum of six units. Traditional grading only.

## Graduate Division

**501. Foundations of Occupational Education (3)**

Examination of history and development of occupational education in the United States. Particular attention is devoted to the multiple purposes and principles of occupational education, key federal legislation and contemporary issues and developments affecting occupational education.

**502. Administrative Leadership (3)**

Prerequisites: OCST 485 or equivalent. Concepts and techniques of personal and professional administrative leadership. Traditional grading only.

**503. Program Management (3)**

Advanced principles and procedures of management emphasizing operations, and evaluation of employment and training related programs. Traditional grading only.

**504. The Environments of Occupational Education (3)**

Interrelationships among occupational education, business, industry, government and society.

**505. Critical Analysis of Issues and Problems in Education and the Workplace (3)**

In-depth analysis of major research reports and review of historical and contemporary issues and problems. Particular attention will be given to the various research methodologies used to examine issues and problems in the field. Traditional grading only.

**508. Transition Services for Youth and Adults With Disabilities (3)**

Examination of various models for and approaches to providing education and employment-related services to disabled persons in transition from school to adult life. Traditional grading only.

**591. Corporate Training Development (3)**

The selection and organization of corporate training curricula and development of courses of study to be used in public and private Occupational Education programs.

**592./492. Training the Trainer: A Practicum Class (4)**

Equips non-traditional working students with entry-level knowledge and skill to successfully pursue other designated professional training core courses focusing on needs assessment, instructional design, facilitation, evaluation, Organization Development (OD), succession planning and international and cross-cultural training. Not open to graduate students who have previously earned OCST 492 credit in this course. Traditional grading only

**593. Corporate Training Methods (3)**

Teaching techniques, philosophy, organization and planning in corporate training programs, public and private education.

**594./494. Organization Development (3)**

Familiarizes students with concepts, models, theories, and techniques for planning, facilitating, and evaluating Organization Development Interventions. Students will develop skills and competencies necessary to carry out a variety of industrial trainer support roles and strategies for internally and externally implementing Organization Development (OD) activities. Not open to graduate students who have previously earned 494 credit in this course. Traditional grading only.

**595./495. Succession Planning for Organizations (2)**

A training program to ensure the continued, effective performance of an organization by making provision for the development, training, and replacement of key people in work activities over time. Preparation, grooming. And proficiency of replacements are considered. Identification of replacement needs for critical positions, clarification of present and future work activities, comparing and contrasting of individuals, and establishment of development criteria to develop high performing workers. Learning objectives can be specific to a given industry or general. Students will design an organizational chart of their respective fields. Not open to graduate students who have previously earned OCST 495 credit in this course. Traditional grading only.

**650. Graduate Seminar (3)**

Prerequisite: Consent of instructor. Study of selected topics in Occupational Studies, including important legislation, industrial innovations, technical change and contemporary problems. Topics will be announced in *Schedule of Classes*. May be repeated for a maximum of six units. Traditional grading only.

**696. Research Methods (3)**

Prerequisites: OCST 421 or equivalent and OCST 505. Selecting, defining and presenting methods of research demonstration of research theory to problem solution.

**697. Directed Studies (1-3)**

Prerequisite: Advancement to candidacy. Research in an area of specialization under the direction of a faculty member. Traditional grading only.

**698. Thesis (1-4)**

Prerequisite: Advancement to candidacy. Planning preparation and completion of a thesis. Traditional grading only.

# ODYSSEY THEME YEAR PROJECT

## Odyssey 2002-2003

### The World We Are Making

#### Odyssey Theme Year Project

During the 1996-97 academic year, CSULB inaugurated the first in a series of theme years. Each theme year involves the campus and the community in a year-long series of major speakers, conferences, performances, films, events, field trips, and classes (across campus and in the community) focused on a single intellectual issue of importance to our time.

The name "Odyssey" was chosen as the title for the theme year project because of its identification with Homer's epic tale of Odysseus. This mythical Greek hero's years of wandering have come to symbolize a voyage of discovery and adventure. Each year CSULB students have the unique opportunity to engage in their own "intellectual" voyage of discovery and adventure by taking courses which integrate in- and out-of-classroom experiences. Some students might choose to apply their courses to an interdisciplinary certificate program.

*Odyssey 1996-97: The City* was the first thematic year and was devoted to exploration of The City in Southern California, America and the globe at the turn of the millennium. *Odyssey 1997-98* focused on *The Earth: Origins, Evolution, and The Search for Meaning*. *Odyssey 1998-99* explored *The Self and Its Sources: Individuals and Community*. During 1999-2000, *The Community: Spatial, Cultural and Virtual* was examined. For 2000-2001, *The Future: Values and Technology in a Global Community* was studied and for 2001-2002, *The Citizen: Right, Roles, Responsibilities* was featured.

During the first year, guest speakers included author Walter Mosley (and a screening of *Devil in a Blue Dress*), Kevin Starr (California State Librarian), and the monumental artists Christo and Jeanne Claude as well as speakers from South Africa, Australia, Mexico, and Japan. In addition, there was a film series, a student initiated and implemented art and creative writing exhibition, three major conferences, and numerous field trips. During the second year, there were guest speakers on topics as diverse as the physics of Star Trek, plate tectonics, fossils, human mating, primate diets, visual intelligence, and the future of the universe. For 1998-99, there were fifty-three separate Odyssey guest speakers and events including Edward James Olmos, The Festival of the 5 Senses, photo and art exhibits, films, performances, and panel discussions. During 1999, with the theme of Community, we hosted guest speakers like Dr. Hunter "Patch" Adams, science fiction writer Octavia Butler, photographer Antony Gleaton, Father Greg Boyle, and Jean Houston. For 2000-2001, a look at "The Future: Values and Technology in a Global Community" brought Ralph Nader, Erin Brockovich, and Julia "Butterfly" Hill to campus, in addition to stand-up comic Marga Gomez, radio personality Dr. Demento, computer artist/architect April Greiman, and scien-

tists from Cal Tech and JPL. The Odyssey continued in 2001-2002 with *The Citizen: Rights, Roles, Responsibilities*. Guest speakers included Mike Farrell (of *M\*A\*S\*H* and *Providence* fame), environmentalist Jan Lundberg, TV critic Howard Rosenberg, education reformers Erin Gruwell and John and Stephen Goodlad, journalist Naomi Klein, and LA Supervisor Don Knabe as well as performances by Sweet Honey in the Rock and the Children of Uganda.

Hosted by the College of Liberal Arts, the project's thematic focus for 2002-2003 will be *The World We Are Making*. Throughout the year, we will seek to find connections from numerous viewpoints and disciplines (e.g., the arts, literature, the media, public policy, economics, sociology, ethnic studies, and philosophy) and relate them to the meaning of world citizenship at the beginning of the 21st century. During the year, we will examine such issues as the interaction of cultures; identity and politics; the nature of evil; human rights; interconnectedness and interconnections; quality of life; living with uncertainty; sustainability and environmental concerns; and globalization.

These topics will be explored through:

- A team-taught interdisciplinary General Education course (University 300I and 301I) featuring guest experts;
- An integration of the curriculum in other participating university courses (e.g., writing, ethnic studies, design, literature, psychology, sociology, philosophy, art, anthropology, women's studies) on issues relating to the world we are making;
- Invited guest speakers like novelist T.C. Boyle, James Petrik (Department of Philosophy, Ohio University), James Glass (Department of Government & Politics, University of Maryland, College Park), Pier Massimo Forni (The Civility Project, Johns Hopkins University)
- Community projects, field trips, and service learning projects;
- Theatre/dance performance (e.g., Royal Cambodian University—Dance of Othello); and
- Exhibits like the "Self Portrait Map" in the University Art Museum

Students in each of the participating courses will be encouraged/required to attend at least one theme-related activity each semester. In addition, faculty are creating new special topics courses and restructuring existing courses to provide opportunities for students to receive course credit for "creating" part of the Odyssey experience through cooperative learning activities.

Fall 2002 and Spring 2003 — The World We Are Making  
(Theme Course)

University 300I and University 301I

Possible topics:

- Negotiating Global Identity — explorations of creative connections
- Possibilities of globalization to connect people across cultures/places (i.e., world literature, music, film, etc.)
- Global social problems (i.e., environmental issues, human rights abuses, worker exploitation, corporate power, the disruption of local subsistence economies, proper nutrition, health care, growing social inequality both within and between countries)
- Global social movements (i.e., confronting the inevitability of globalization and its challenges/problems, protests against the International Monetary Fund and the World Trade Organization)

Other Courses for Fall 2002 and Spring 2003 with  
Theme-Year Content

AIS 200	Contemporary Issues in American Indian Studies	B/ST 190	Racism in the Military
ANTH 120	Introduction to Cultural Anthropology	B/ST 210	African American Community
ANTH 305I	Radical Social Analysis	B/ST 310	Black Male & Female Relationships
ANTH 314	Peoples of the World: Ethnography	B/ST 319	The Ethnic Experience in the US
ANTH 329	Cultural Diversity in California	B/ST 325	Psychology of Minorities

## Certificate Program in Peace Studies (code 1-6015)

The Certificate Program in Peace Studies is designed for students who are concerned about issues of peace, conflict, and justice in contemporary society; and who wish to develop skills to promote peace and constructive conflict management within their individual lives, families, communities, and social systems. Students will have the opportunity to explore past and present conflicts that inhibit the achievement of peace, and will have the opportunity to enlarge their understanding of global and human diversity problems and their solutions. Student also will be challenged to discover the processes that create peace among people, and to recognize that while the expression of conflict is natural and normal

for humans, it need not lead to destruction, violence, or war. Effective conflict management can generate productive, peaceful ends. Students will be empowered to believe they can make a difference. Overall, students will enhance their understanding of human beings, the causes of their conflicts with each other in a host of contexts, and past, present, and future methods of managing those conflicts.

This certificate can be earned in conjunction with any baccalaureate or graduate degree, can be earned through the General Education Pathway in Conflict & Peace Studies while simultaneously meeting all general education requirements, and should be especially useful for students preparing for careers in humanities, education, business, government, law, and social service.

### Requirements

Twenty-four (24) units in a program approved by the Director of Peace Studies, to include the following:

1. Core Theory Course (3 units): Take one of the following: I/ST 317I, POSC 371
2. Core Skills Course (3 units): Take one of the following: COMM 411, SW 491, I/ST 491
3. Elective Courses (15 units): Take at least one course from each of the following groups, and then one additional course from any of the groups.  
Group A: Perspectives on Peace, Conflict, Violence, and War (3 units minimum):  
ANTH 305I; BIOL 351; COMM 490; CRIM 101; HIST 304, 377, 495; I/ST 318, 355; POSC 220, 371, 455; PHIL 351; PSY 350I  
Group B: Laws, Rights, Responsibilities in Peace and Conflict (3 units minimum)  
COMM 441I; PHIL 352, 376; POSC 412  
Group C: Culture, Race, Gender Influences on Peace and Conflict (3 units minimum)  
ANTH 315, 311I; B/ST 325; COMM 330, 412; HIST 309I; LING 470; SOC 346; SPAN 493 or SPAN 593 or HIST 490F; W/ST 401, 430  
Group D: Empowerment and Peace-Building (3 units minimum)  
COMM 410, 421; ECON 309I or FCS 309I or FIN 309I; EDP 434B; FEA 486I; HDEV 364; H SC 429; NURSG 481I; PSY 336; SOC 427; SW 423
4. Peace Project (3 units, optional): Students in the Certificate program only should complete three units of an independent study project during their senior year with any Peace Studies faculty. Students who are simultaneously completing the General Education pathway in Conflict & Peace Studies need to take an additional 300- or 400-level GE course from groups A, B, C, or D above to complete the 24 required units in this Certificate. Exceptions or substitutions may be made only with the approval of the Director of the Peace Studies Program.

## Bachelor of Arts in Philosophy (code 2-6807) (120 units)

The undergraduate Philosophy program challenges students to think rigorously about some of the most profound questions people consider: "What is most important in a human life?"; "What can I know?"; "Does God exist?"; "Do human beings have free will?"; "What are the guidelines for morality?"; "What is 'the soul', or 'the mind'?" These and other questions are raised in courses in special areas of philosophical concern such as logic, theory of knowledge, ethics, metaphysics, philosophy of religion, philosophy of science, and aesthetics. They are also raised in their historical context in courses which focus on great philosophers such as Plato, Aristotle, Kant, the great "Rationalists" and the great "Empiricists." In addition, the Philosophy curriculum encourages students to examine our contemporary situation (with such courses as Existentialism, Phenomenology, Philosophy of Language, and Political Philosophy), and to extend their thinking with the philosophies of other cultures (such as those of China, Japan, and India).

In addition, the philosophy curriculum examines our contemporary situation and extends our thinking with the philosophies of other cultures.

The Philosophy Pre-law Program provides undergraduates with a course of study which emphasizes the development of skills in reasoning and argumentation, in linguistic and ethical analysis, and in clear and precise communication. The Department's Center for Applied Ethics brings guest speakers to the campus and sponsors conferences, research, and new courses in applied ethics. The Department's new Center for the Advancement of Philosophy in Schools (CAPS) places advanced philosophy students into area schools to promote philosophy for children. The Department is developing courses and other programs in cognitive science, bringing together the insights of epistemology, logic, psychology, and computer science. The MA program prepares students for teaching in the community colleges and for doctoral programs in philosophy.

### Requirements

A minimum of 36 units in philosophy divided as follows:

Lower Division: PHIL 203, 204 and either 270 or 296

Upper Division: A minimum of 24 units in philosophy, including at least two courses from each of the three following groups:

*History of Philosophy:* 306, 307, 413, 414, 416, 417, 418, 419, 421, 422, 423, 425, 490, 491, 492.

*Logic, Metaphysics, Epistemology:* 330, 342, 381, 382, 483, 484, 493.

*Values and Evaluation:* 405, 351, 352, 361, 362i, 363, 451i, 452i, 455, 461i, 489, 496.

The required 6 units remaining are to be selected from philosophy courses with the advice and consent of the student's departmental advisor.

## Pre-Law Emphasis

The pre-law emphasis requires the same minimum 36 units required for the major. Prelaw students should include at least four of the following in their course of study: 351, 352, 363, 4511, 4521, 489.

## Minor in Philosophy (code 0-6807)

The minor in philosophy provides a structured yet flexible program for the student majoring in a different discipline, but who is interested in philosophy either as an adjunct to the degree major or as a foundation for the student's future intellectual life.

The Minor in Philosophy is available to any non-Philosophy major.

### Requirements

A minimum of 18 units in philosophy, divided as follows:

Lower Division: PHIL 203, 204, and either 270 or 296

Upper Division: A minimum of 9 units in philosophy, including at least one course from each of the three following groups:

*History of Philosophy*: 306, 307, 413, 414, 416, 417, 418, 419, 421, 422, 423, 425, 490, 491, 492.

*Logic, Metaphysics, Epistemology*: 330, 342, 381, 382, 483, 484, 493.

*Values and Evaluation*: 405, 351, 352, 361, 362, 363, 4511, 4521, 455, 4611, 489, 496.

## Master of Arts in Philosophy (code 5-6807)

### Entrance Requirements

1. A bachelor's degree with a major in philosophy; or
2. A bachelor's degree with a minimum of 24 units of upper division philosophy courses. These courses must be comparable to those required for the B.A. in philosophy at this University. (Deficiencies will be determined by the Graduate Advisor after consultation with the student and after study of transcript records.) Students who do not meet these conditions may enter as provisional graduate students. Prospective students must see the Graduate Advisor for assessment and to plan a program. Departmental reader positions are sometimes available for qualified persons, as are Graduate Assistantships. A reader works closely with a member of the faculty, but is not responsible for instruction. Application for these positions can be made to the Chair of the Philosophy Department.

### Advancement to Candidacy

1. The graduate student will be expected to demonstrate proficiency in the areas of epistemology, metaphysics, ethics and symbolic logic. (A grade of "B" in a semester course in each of these areas is a standard way of demonstrating proficiency.)
2. The graduate student who expects to become a candidate for the Master of Arts degree in Philosophy will be required to pass a Basic Qualifying Examination (BQE). Normally, the student must complete this examination early in graduate study.

3. Students should attempt to be Advanced upon completion of 6 units (preferably no more than 9 units) in the Program. The Writing Proficiency Exam (WPE) is required for Advancement.
4. Although there is no formal language requirement, the Philosophy Department may require the student to demonstrate a foreign language proficiency whenever at the department's discretion a language proficiency is appropriate to the area of study.
5. The student's graduate program must be approved by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.

### Requirements

1. The student's graduate program must consist of not less than 30 units of acceptable upper division and graduate courses, of which at least 24 units must be in philosophy. The remaining 6 units must be chosen in conference with the student's faculty advisor, and may be taken either in philosophy or in another field of study closely related to the candidate's educational objectives. The program must include a minimum of 18 units of graduate courses, with a minimum of 6 units from the 600 series. PHIL 697 and 698 may not count toward fulfillment of the 600 series minimum requirement.
2. A thesis and oral defense thereof or a set of three comprehensive examinations.

## Courses (PHIL)

### Lower Division

#### 100. Introduction to Philosophy (3)

Prerequisites/Corequisites, any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy. Same course as PHIL 100W. (CAN PHIL 2)

#### 100W. Introduction to Philosophy (4)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Critical analysis of the history, methods, and major problems of philosophy (Lecture 3 hours). Required Workshop (one hour): Planned exercises, activities, and discussion designed to develop oral and written critical thinking and analytic skills to complement lectures. Same course as PHIL 100. Not open to students with credit in PHIL 100. (CAN PHIL 2)

#### 160. Introductory Ethics (3)

Prerequisites/Corequisites: any course from GE Foundation categories A.1 (Written English), category A.2. (Oral Communication) or Category A.3. (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life. Not open to students with credit in PHIL 160W. (CAN PHIL 4)

#### 160W. Introduction to Ethics (4)

Prerequisite: Any course from GE Foundation Category A.1 (Written English), Category A.2 (Oral Communication), or Category A.3 (Critical Thinking), which may be taken concurrently. Concepts of right and wrong, good and bad, and the application of moral principles to problems of everyday life (Lecture 3 Hours). Planned exercises, activities, and discussion to develop oral and written critical thinking and analytical skills to complement lectures (Workshop 1 hour). (CAN PHIL 4)

### 170. Critical Reasoning (3)

Prerequisite: Completion of GE Foundation requirements Category A.1 (Written English), which may be taken concurrently. Elements of clear, straight, orderly and valid thought, including deductive and inductive reasoning and the accurate use of language. This course explores practical applications of logic. (CAN PHIL 6)

### 203. History of Early Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. From Thales to the Renaissance including the systems of Socrates, Plato and Aristotle, and their influence on European philosophy through the medieval period.

### 204. History of Modern Western Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Western philosophy from Descartes to Kant, including the development of modern scientific processes, and the philosophical systems of empiricism, rationalism, transcendental idealism, etc.

### 270. Symbolic Logic I (3)

Introduction to the formal techniques of evaluating arguments.

### 296. Methods of Philosophical Study (3)

Prerequisite: Three units in Philosophy. This course prepares the student for philosophical study through education in its research methods and technical vocabulary, by instructing students how to write a successful philosophical essay, and explaining the scope and nature of some of the central issues of philosophy.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

The philosophy upper division courses fall into several curricular sub-groups, as follows:

---

### Early Philosophy

---

- 306. Philosophies of China and Japan
- 307. Philosophies of India
- 421./521. Plato
- 422./522. Aristotle
- 490./590. Special Topics – Early Philosophy

---

### Modern Tradition

---

- 413./513. Continental Rationalism
- 414./514. British Empiricism
- 423./523. Kant
- 424./524. Hegel
- 425./525. Wittgenstein
- 491./591. Special Topics – The Modern Tradition

---

### Twentieth Century Philosophy

---

- 416./516. Pragmatism
- 417./517. Phenomenology
- 418./518. Existentialism
- 419./519. Analytic Philosophy
- 492./592. Special Topics – Twentieth Century Philosophy

---

### Metaphysical Studies

---

- 330. Philosophy of Religion
- 342. Metaphysics
- 483./583. Philosophical Psychology

---

### Epistemological Studies

---

- 381. Philosophy of Science
- 382. Theory of Knowledge

---

## Studies in Logic and Semantics

---

- 484. Philosophy of Language

---

## Studies in Value and Evaluation

---

- 351. Conflicts in Political Philosophy
- 352. Philosophy of Law
- 361. Philosophy of Art and Beauty
- 362I. Ethics and Computer Technology
- 363. Ethical Theory
- 405. Philosophy in Literature
- 451I. Liberty and Justice: Race, Ethnicity, and Gender in American Law
- 452I. Law, Philosophy, and the Humanities
- 455. Philosophical Perspectives on Sex and Love
- 489. Philosophy Internship/Pre-Law
- 496./596. Special Topics – Value and Evaluation

## Upper Division

### 306. Philosophies of China and Japan (3)

Prerequisite: Completion of GE Foundation requirements. Historical and critical study of the philosophical thought of China and Japan.

### 307. Philosophies of India (3)

Prerequisite: Completion of GE Foundation requirements. Historical and critical survey with emphasis on basic ideas and traditions.

### 330. Philosophy of Religion (3)

Prerequisite: Completion of GE Foundation requirements. Nature and function of religion and of fundamental religious concepts and ideals.

### 342. Metaphysics (3)

Prerequisite: 3 units of philosophy or consent of instructor. Problems of ontology and cosmology including such concepts as matter and energy, time and space, evolution and causality.

### 351. Political Philosophy (3)

Prerequisite: Completion of GE Foundation requirements. Analysis of fundamental political concepts such as the legitimacy of government, the relation of justice to coercive power, the morality of war, political obligation, and sovereignty; and/or a study of political ideologies such as socialism, classical liberalism, and conservatism.

### 352. Philosophy of Law (3)

Prerequisite: Completion of GE Foundation requirements. Study of the historical development of the philosophy of law and examination of the problems in the field ranging from general theories to analysis of fundamental legal concepts and normative issues.

### 361. Philosophy of Art and Beauty (3)

Prerequisite: Completion of GE Foundation requirements. Discussion of central problems in aesthetics, such as the possibility of objectivity in criticism, modern and traditional definitions of a work of art, truth and meaning in the fine arts, natural beauty and its relationship to excellence in music, architecture, etc.

### 362I. Ethics and Computer Technology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Speculative and critical examination of moral dilemmas, legal issues, and social values pertaining to new developments in computer technology, with particular emphasis on how computer technology informs, and is informed by, human relationships and human needs.

### 363. Ethical Theory (3)

Prerequisite: 3 units of philosophy. In-depth discussion of such issues as obligation, responsibility, social justice, and personal ideals.

### 381. Philosophy of Science (3)

Prerequisite: Completion of GE Foundation requirements. Problems, methods and fundamental concepts of the sciences, including the relationships of the sciences to each other, to mathematics and to philosophy.

- 382. Theory of Knowledge (3)**  
Prerequisite: Three units of philosophy. Investigation of such concepts as knowledge, belief, certainty. Critical study of theories concerning such issues as our knowledge of the external world, the past, other minds.
- 401. Philosophy in Education (3)**  
Prerequisites: Completion of the GE Foundation; at least six units of philosophy. Exploration of the intersection between philosophy and education. Students read and discuss selections from classical philosophical works on education, analyze historical and contemporary reasons for common exclusion of philosophy from K-12 curriculum, explore ways of integrating philosophy into curriculum for young students. Each student will be placed in a local school district classroom to lead weekly philosophy sessions with a teaching partner. Service-learning.
- 403. Medical Ethics (3)**  
Prerequisites: Completion of the 13-unit Foundation; at least one Explorations course. Covers several of main areas of bioethics: reproductive rights and liberties, definitions of health, disease, and disability, end of life care, fair distribution of health care, goals of health care. Philosophical texts, journal articles from medical humanities, ethics, medicine, and case studies used to raise and examine issues.
- 405. Philosophy in Literature (3)**  
Prerequisites: Completion of the 13-unit Foundation; at least one Exploration course in philosophy, literature, theater arts; upper-division standing required. Intensive exploration of philosophical ideas in selected literature with special attention to both philosophical and literary ways of reading and appreciating a text. Not open to students with credit in PHIL 305.
- 413./513. Continental Rationalism (3)**  
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz.
- 414./514. British Empiricism (3)**  
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume.
- 416./516. Pragmatism (3)**  
Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead.
- 417./517. Phenomenology (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur.
- 418./518. Existentialism (3)**  
Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic dimensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus.
- 419./519. Analytic Philosophy (3)**  
Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine.
- 421./521. Plato (3)**  
Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works.
- 422./522. Aristotle (3)**  
Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works.
- 423./523. Kant (3)**  
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*.
- 424./524. Hegel (3)**  
Prerequisites: Six units of philosophy to include 204, or consent of instructor. Study of Hegel's Philosophy of Mind and Logic, and selected writings by Hegel and other topics.
- 425./525. Wittgenstein (3)**  
Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on *Philosophical Investigations*.
- 4511. Liberty and Justice: Race, Ethnicity, and Gender in American Law (3)**  
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing; and 6 units of philosophy, or consent of instructor. Junior standing required; Senior standing recommended. Philosophical and legal analysis of how liberty and justice for different races, ethnic groups and genders have been treated in American law.
- 4521. Law, Philosophy, and the Humanities (3)**  
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended), six units of philosophy or consent of instructor. A comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.
- 455./555. Philosophical Perspectives on Sex and Love (3)**  
Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as W/ST 455.
- 4611. Diversity in Criticism and Analysis of the Arts (3)**  
Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing (junior standing required; senior standing recommended). Philosophical and critical consideration of the arts by different races, ethnic groups, and genders in the United States.
- 482. Introduction to Cognitive Science (3)**  
Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from Computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PSY 382.
- 483./583. Philosophical Psychology (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose.
- 484./584. Philosophy of Language (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning.
- 489. Philosophy Internship/Pre-Law (3-6)**  
Prerequisites: Consent of Philosophy Department Chair; completion of a minimum of 15 upper-division units required for the Philosophy major. Internship with private organizations and governmental agencies with law-related focus. A CSU Summer Internship in Washington, D.C. also meets this requirement. Work done under the joint supervision of the program sponsor and CSULB Philosophy Pre-Law Advisor. A mid-term and final report and internship conferences are required.
- 490./590. Special Topics: Early Philosophy (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be

announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated for credit to a maximum of nine units with different topics.

**491./591. Special Topics: Modern Tradition (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated for credit to a maximum of nine units with different topics.

**492./592. Special Topics: Twentieth Century Philosophy (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated for credit to a maximum of nine units with different topics.

**496./596. Special Topics: Value and Evaluation (3)**

Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated for credit to a maximum of nine units with different topics.

**497. Undergraduate Honors Seminar (3)**

Prerequisites: 1) Admission to the undergraduate Honors Program in Philosophy. 2) Undergraduate Honors Thesis (PHIL 498) or (with the instructor's permission) taken concurrently. A capstone seminar designed to prepare exceptional undergraduate majors for graduate studies in philosophy and other disciplines. Complements Undergraduate Honors Thesis (PHIL 498). Traditional grading only.

**498. Undergraduate Honors Thesis (3)**

Prerequisites: Admission to the undergraduate Honors Program in Philosophy. A Directed Studies course on a topic chosen by the student in consultation with instructor. Complements, and usually taken before, PHIL 497, undergraduate Honors Seminar. Repeatable for a maximum of 6 units. Traditional grading only.

**499. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of six units.

## Graduate Division

**513./413. Continental Rationalism (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Descartes, Spinoza and Leibniz. Traditional grading only.

**514./414. British Empiricism (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of such major figures as Locke, Berkeley, and Hume. Traditional grading only.

**516./416. Pragmatism (3)**

Prerequisite: Three units of philosophy or consent of instructor. Development of pragmatism as exemplified in the philosophies of Peirce, James, Dewey and Mead. Traditional grading only.

**517./417. Phenomenology (3)**

Prerequisites: Six units of philosophy or consent of instructor. Study of one of the major movements of contemporary philosophy. Themes treated may include knowledge, meaning, emotionality, embodiment, language, sociality, freedom and religion. Philosophers treated may include Husserl, Scheler, Heidegger, Merleau-Ponty and Ricoeur. Traditional grading only.

**518./418. Existentialism (3)**

Prerequisites: Three units of philosophy or consent of instructor. Intensive study of such issues as self-as-existence, freedom and responsibility in their ethical, religious, political and aesthetic di-

mensions. Philosophers treated may include Kierkegaard, Nietzsche, Marcel, Jaspers, Sartre and Camus. Traditional grading only.

**519./419. Analytic Philosophy (3)**

Prerequisites: Six units of philosophy to include PHIL 270, or consent of instructor. Critical analysis of major movements in the development of Anglo-American philosophy in the twentieth century, such as logical atomism, logical positivism and ordinary language philosophy. Intensive study of the contributions of such philosophers as Moore, Russell, Wittgenstein, Ayer, Ryle, Austin, Strawson, and Quine. Traditional grading only.

**521./421. Plato (3)**

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Plato's thought, based primarily on readings from his works. Traditional grading only.

**522./422. Aristotle (3)**

Prerequisites: Six units of philosophy to include PHIL 203, or consent of instructor. Close study of Aristotle's thought, based primarily on readings from his works. Traditional grading only.

**523./423. Kant (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Intensive study of Kant's *Critique of Pure Reason*. Traditional grading only.

**524./424. Hegel (3)**

Prerequisites: Six units of philosophy to include 204, or consent of instructor. Study of Hegel's *Philosophy of Mind and Logic*, and selected writings by Hegel and other topics. Traditional grading only.

**525./425. Wittgenstein (3)**

Prerequisites: Six units of philosophy to include PHIL 204, or consent of instructor. Close study of the later philosophy of Wittgenstein, centering on Philosophical Investigations.

**552. Advanced Studies in Law, Philosophy, and the Humanities (3)**

Prerequisites: Graduate standing. Comparison of how the law is considered by various disciplines; primary focus is on philosophical methods and legal methods, with some consideration of other humanities disciplines, such as literature.

**555./455. Philosophical Perspectives on Sex and Love (3)**

Prerequisites: Six units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined.

**583./483. Philosophical Psychology (3)**

Prerequisite: Six units of philosophy or consent of instructor. Nature of the mind. Psychological concepts such as intention, consciousness, action, motive, imagination, belief and purpose. Traditional grading only.

**584./484. Philosophy of Language (3)**

Prerequisites: Six units of philosophy or consent of instructor. Philosophical thought about language and meaning. Traditional grading only.

**590./490. Special Topics Early Philosophy (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of figures, periods or issues in ancient or medieval philosophy. Specific issues, period or figures will be announced in the *Schedule of Classes*. Sample titles: Pre-Socratic Philosophy, Post-Aristotelian Philosophy, Medieval Philosophy. May be repeated for credit to a maximum of nine units with different topics. Traditional grading only.

**591./491. Special Topics Modern Tradition (3)**

Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher, or of some issue or theme of the modern (1600-1900) philosophical era. Specific titles will be announced in the *Schedule of Classes*. Sample titles: Hobbes, German Idealism, Nietzsche. May be repeated for credit to a maximum of nine units with different topics. Traditional grading only.

**592./492. Special Topics: Twentieth Century Philosophy (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Detailed and intensive study of a significant philosopher or of a school or movement of the twentieth century. Specific title will be announced in the *Schedule of Classes*. Sample titles: Wittgenstein, Heidegger, Russell, Process Philosophy. May be repeated for credit to a maximum of nine units with different topics. Traditional grading only.

**596./496. Special Topics: Value and Evaluation (3)**  
Prerequisites: Six units of philosophy or consent of instructor. Seminar study of a selected topic in value or evaluation. Sample topics: Theories of Value, Freedom and Determinism. Specific topics will be announced in the *Schedule of Classes*. May be repeated for credit to a maximum of nine units with different topics. Traditional grading only.

**597. Teaching Philosophy (3)**  
Prerequisites: Six units of philosophy or consent of instructor. A practical and theoretical introduction to the aims, methods, responsibilities, and ethics of teaching in the college classroom, with an emphasis on the specific issues involved in teaching philosophy. Traditional grading only.

**599. Graduate Tutorial (1-3)**  
Prerequisite: Consent of the instructor. Supervised independent study. Seniors with a GPA of 3.0 or better may enroll with consent of Department. May be repeated for credit to a maximum of six units. Traditional grading only.

**620. Seminar in History of Philosophy (3)**  
Prerequisite: Consent of instructor. Close study of selected subjects in the history of philosophy. The original language may be required. May be repeated with different subjects for a maximum of 9 units. Traditional grading only.

**630. Seminar in Philosophy of Religion (3)**  
Prerequisite: PHIL 330 or consent of instructor. Critical examination of selected issues, figures and movements. May be repeated for a maximum of six units, subject to suitable variation. Traditional grading only.

**640. Seminar in Metaphysics (3)**  
Prerequisite: PHIL 342 or consent of instructor. Supervised research and discussion on recurrent metaphysical problems and systems on the basis of selected works. Course may be repeated for a maximum of 6 units credit with different topics. Traditional grading only.

**663. Seminar in Ethics (3)**  
Prerequisite: PHIL 363 or consent of the instructor. Systematic examination of topics (such as human rights, pleasure) and theories (such as utilitarianism, contract theory) which are central to moral reasoning. Course may be repeated for a maximum of 6 units with different topics. Traditional grading only.

**680. Seminar in Epistemology (3)**  
Prerequisite: PHIL 382 or consent of instructor. May be repeated for a maximum of six units, subject to suitable variation in course content. Traditional grading only.

**681. Seminar in the Philosophy of Science (3)**  
Current issues in the philosophy of science. May be repeated for a maximum of six units, subject to suitable variation in course content. Traditional grading only.

**690. Seminar in Selected Topics of Current Interest (3)**  
Presentation, discussion and critical evaluation of advanced work (which may include original research of faculty and graduate students) in selected topics of current interest to professional philosophers. If demand for more than one subject exists, multiple sections may be given in any one semester. May be repeated for a maximum of six units, subject to suitable variation of course content. Traditional grading only.

**697. Directed Research (1-3)**  
Prerequisite: Consent of the student's advisor. Traditional grading only.

**698. Thesis (1-6)**  
Prerequisite: Consent of graduate advisor. Preparation and completion of a thesis in philosophy and oral defense thereof.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Department of Physics and Astronomy offers two bachelor's degrees and a master's degree; descriptions of these programs and the requirements for their completion are given below.

## *Degree Programs*

Each bachelor's degree offered by the department is based on a strong, basic program. The Bachelor of Science (B.S.) degree is designed for students interested in immediate employment in industry as well as those who wish to continue on to a Master's or Ph.D. degree in physics or a related field. The Bachelor of Arts (B.A.) degree is appropriate for those preparing for teaching careers in the physical sciences at the secondary level as well as those whose goal is a liberal education with an emphasis on physics. The curriculum for these baccalaureate degrees provides a broadly-based exposure to theoretical and experimental physics. It also permits students to discuss fundamental concepts and their applications to grasp the discoveries at science's expanding frontiers, and to develop an appreciation for the amazing beauty of the physical universe.

The department also offers graduate study leading to the Master of Science (M.S.) degree. The M.S. degree is available in both a general option and an option in applied physics. A student may choose the general option either with a thesis (Plan I) or, if the department graduate committee gives permission, with a comprehensive examination (Plan II); the option in applied physics requires a thesis. Active areas of research are: observational astronomy, applied optics, laser spectroscopy, materials research, particle physics, atomic physics, quantum gravity, muon catalyzed fusion, intermediate energy physics, acoustics, and condensed matter physics. Teaching associateships and graduate assistantships are available to students working on the master's degree. Application should be made to the graduate advisor of the Department of Physics and Astronomy.

## *Concurrent and/or Summer Enrollment in Another College*

Students who wish to take course work at a community college or another college or university to meet curricular requirements while enrolled as undergraduates in the College of Natural Sciences and Mathematics must petition the appropriate department for prior approval to enroll in specific courses. This policy applies to concurrent enrollment or summer enrollment. Please see "Concurrent Enrollment" and "Transfer of Undergraduate Credit" in this *Catalog*. Courses not receiving prior approval will not be accepted for credit by the department.

## *Facilitated Enrollment into Classes*

All entering students who declare a major in a degree program offered by this Department should participate in the College of Natural Sciences and Mathematics' Science Safari to Success (for first-time freshmen) or EONS (Enrollment and Orientation in the Natural Sciences and Mathematics for transfer students) Program. These programs are held in June-July for those starting in the Fall Semester and in January for those

starting in the Spring Semester. Department advisors will be available to provide an overview of the students' chosen baccalaureate degree program, to assist with academic advisement, to provide information on the many career opportunities available, and to aid students in enrolling in classes. Contact the Student Access to Science Center (FO5-109) or Department Office for additional information.

## Bachelor of Science in Physics (code 3-7668) (124 units)

### Requirements

Lower Division: PHYS 151, 152, 154, 155; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper Division: ENGL 317; MATH 370A or 364A, MATH 370B or 461; 34 units of upper division physics including PHYS 310, 320, 340A, 340B, 350, 360, 380, 450, and one laboratory course chosen from PHYS 330, 403, 476 and 480. The remaining (6 to 8) units are to be chosen from any upper division physics courses except PHYS 400I.

### Grade Requirements

Physics majors must have a "C" average in the major. Physics students must achieve a grade of "C" or better in each required course in the major. The following schedule is typical for an upper division major who is a full-time student.

Junior Year:

Fall: PHYS 310, 320, 360; MATH 370A or 364A (or MATH 370B or 461; it is recommended that MATH 370A or 364A be taken before PHYS 310 if possible).

Spring: PHYS 340A, 350, 380; MATH 370B or 461 (if not taken previously).

Senior Year:

Fall: PHYS 340B, 450.

Spring: Three upper division physics electives.

## Bachelor of Arts in Physics (code 2-7667) (120 units)

This degree is designed for the student who expects to teach at the secondary level, or who seeks a high quality liberal education focusing on science. A minimum of 120 units is required for this degree.

### Requirements

Lower-Division: PHYS 151, 152, 154,155; MATH 122, 123, 224; CHEM 111A,B; BIOL 200 or 211A.

Upper-Division: A minimum of 24 units of courses selected in consultation with the Physics Department Undergraduate Advisor, at least 18 units of which must be in physics; ENGL 317 or other suitable upper-division writing course from the Department of English, to be determined in consultation with the Physics Department Undergraduate Advisor (may be waived for students who achieved a standard score of 24 on the ACT English sub-test or who received an "A" or "B" grade in ENGL 100).

### Requirements Related to a Teaching Credential with a Physics Specialization

The *Science Teaching Credential with a Specialization in Physics* is formally administered by the Department of Science Education and the Single Subject Teacher Education Program in the College of Education. The Science Teaching

Credential with any specialization has a set of requirements that include courses in MATH, BIOL, CHEM, GEOL, and SCED, as well as professional education courses. The courses listed below are those required for *the Physics Specialization*; note that meeting these credential requirements also meets the requirements for the Bachelor of Arts in Physics. A more elaborated list of these requirements can be obtained from the Department of Physics and Astronomy, the Department of Science Education, or the Single Subject Program; *the student is strongly encouraged to consult with an advisor in one of these areas for more information about additional requirements for the credential.*

Lower Division: PHYS 151, 152, 154, 155; MATH 122, 123, 224; ASTR 100; BIOL 211A,B; CHEM 111A,B; GEOL 102, 104, 160.

Upper Division: MATH 364A or 370A; PHYS 310, 340A, 400I, 330 or 475-476, 380 or 496; SCED 403; EDSS 300C, 450C; EDSE 435, 436, 457.

## Minor in Physics (code 0-7668)

### Requirements

The Minor in Physics is available to any non-Physics major.

A minimum of 20 units which must include:

Lower Division: PHYS 151, 152, 154, 155

Upper Division: A minimum of nine units in physics (PHYS 360 will not count toward these nine units).

## Master of Science in Physics (code 6-7668)

### Prerequisites

1. A bachelor's degree with a major in physics; or
2. A bachelor's degree with at least 24 units of upper division physics. (Students deficient in undergraduate preparation must take courses to remove these deficiencies with or without credit toward the degree at the discretion of the department graduate advisor.)

### Requirements

1. Advancement to Candidacy
  - a. Students must fulfill the University requirements for advancement to candidacy.
  - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serves at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the graduate advisor.

### Additional Requirements

Plan I

1. A minimum of 30 units of upper division and graduate courses including PHYS 540A,B, 550A,B, 560A, and 695;
  2. Completion of a written thesis, 6 units of Physics 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.
- Note: Students must be advanced to candidacy before enrolling in PHYS 698. As early as possible, a graduate stu-

dent should choose a thesis advisor who will help in selecting the student's thesis committee consisting of at least three members (including the thesis advisor and at least one other member of the department).

#### Plan II

1. Permission of the Department Graduate Committee;
2. A minimum of 30 units of upper division and graduate courses including PHYS 510, 540A,B, 550A,B, 560A, and 695;
3. Passing a comprehensive examination.

The remaining required units, not more than 6 of which may be in related fields, are to be from courses selected in consultation with the graduate advisor.

#### Option in Applied Physics (code 6-7669)

The Option in Applied Physics provides a master's degree program that emphasizes concepts and techniques particularly appropriate for applied physics. It is intended for students having a background in physics, engineering, or a related field.

#### Prerequisites

1. A bachelor's degree with a major in physics, or
2. A bachelor's degree with a major in engineering with upper division physics substantially equivalent to PHYS 310, 340AB, and 450, as determined by the Department Graduate Advisor, or
3. A bachelor's degree with upper division physics and mathematics courses essentially equivalent to PHYS 310, 340B, 450, and MATH 370A and 370B, as determined by the Department Graduate Advisor.

Students deficient in undergraduate preparation must take courses to remove these deficiencies as determined by the Department Graduate Advisor.

#### Requirements

1. Advancement to Candidacy
  - a. Students must fulfill the University requirements for advancement to candidacy.
  - b. A student must have a "B" average or better in six units of physics applicable toward the master's degree, of which at least three units are at the graduate level.
2. Recognizing that effective organization and verbal communication of physics are a necessary part of a successful graduate program, the Department of Physics and Astronomy normally requires that a graduate student serve at least one semester as a teaching associate or a graduate assistant as part of the M.S. program. Exceptions may be granted by the graduate advisor.

#### Additional Requirements

Thirty units of upper division and graduate courses as described below.

1. PHYS 540A, 550A, 560A, 569, and 695.
2. Two of the following courses or combinations of courses: PHYS 502/503, 575/576, and 580.
3. Completion of a written thesis, 6 units of PHYS 698, and an oral presentation of the thesis research. The members of the candidate's thesis committee must approve the thesis before the student may schedule the oral presentation.

Note: Students must be advanced to candidacy before enrolling in Physics 698. As early as possible, a graduate student should choose a thesis advisor who will help in selecting the student's thesis committee consisting of at least three members (including the thesis advisor and at least one other member of the department).

4. Courses selected in consultation with the Department Graduate Advisor and/or thesis advisor to complete the remaining 2 to 3 units.

---

### Physics Courses (PHYS)

---

#### Lower Division

##### 100A,B. General Physics (4,4) F,S

Prerequisites: MATH 112 or 117 or 119A or 120 or 122. PHYS 100A is a prerequisite for PHYS 100B. Year course in introductory physics. The first semester considers properties of matter, mechanics, wave motion and heat. The second semester considers electricity, light, and atomic and nuclear physics. Traditional grading only. (Lecture 3 hrs, laboratory 3 hrs.) (100A: CAN PHYS 2; 100B: CAN PHYS 4)

##### 102. Introduction to Physics (3) F,S

Prerequisite: MATH 117 (which may be taken concurrently) or three-and-one-half years of high school mathematics including two years of algebra, one year of geometry and one-half year of trigonometry. This course is designed to assist students who need additional preparation before enrolling in PHYS 100A or 151. Basic problems and concepts in physics, particularly in mechanics. Credit/No Credit grading only. (Lectures, problem sessions 4 hrs.) Course begins in the fourth week of the semester.

##### 151. Mechanics and Heat (4) F,S

Prerequisite: MATH 122. Kinematics, Newton's Laws, rotational motion, fluid statics, laws of thermodynamics. Traditional grading only. (Lecture 3 hrs., laboratory 3 hrs.)

##### 152. Electricity and Magnetism (4) F,S

Prerequisites: PHYS 151, MATH 123. Mechanical waves, Coulomb's law, electrostatics, electric circuits, introductory electronics, magnetic fields, induction and Maxwell's equations. Traditional grading only. (Lecture 3 hrs., laboratory 3 hrs.)

##### 154. Modern Physics and Light (3) F,S

Prerequisites: PHYS 152, MATH 224. Relativity, photoelectric effect; quantum theory, Bohr model of the atom, wave mechanics, geometrical optics, interference, diffraction and polarization. Not open to students with credit in PHYS 153. Traditional grading only. (Lecture 3 hrs.)

##### 155. Laboratory on Light and Modern Physics (1) F,S

Prerequisite: PHYS 154 which may be taken concurrently. Experimental work in geometrical and physical optics and atomic and nuclear physics. Not open to students with credit in PHYS 153. PHYS 154 and 155 together are equivalent to PHYS 153. (Laboratory 3 hrs.)

##### 254. Applied Modern Physics (3) F,S

Prerequisites: PHYS 152 or EE 210, MATH 224. Geometrical and physical optics, models of atomic and condensed matter systems. Not open to students with credit in PHYS 153 or PHYS 154. Traditional grading only. (Lecture 3 hrs.)

#### Upper Division

##### 310. Mechanics I (3) F

Prerequisites: PHYS 151. Prerequisite or Corequisite: MATH 370A or 364A. Kinematics and dynamics of mass points and systems of particles. Conservation laws. Harmonic motion. Central force problem. Noninertial frames of reference. Lagrangian and Hamiltonian formulation of the laws of mechanics. Traditional grading only. (Lecture 3 hrs.)

**320. Classical and Statistical Thermodynamics (3) F**

Prerequisite: PHYS 152. Prerequisite or Corequisite: PHYS 154. Laws of thermodynamics, thermodynamic potentials, kinetic theory methods, phase transitions, equilibrium ensembles and related formalism with applications to classical and quantum systems. (Lecture 3 hrs.)

**330. Experimental Optics and Spectroscopy (3) F**

Prerequisite: PHYS 154, 155. Interference, diffraction, polarization and elementary spectroscopy. (Lecture 2 hrs, laboratory 3 hrs.)

**340A. Electricity and Magnetism I (3) S**

Prerequisites: PHYS 152, PHYS 310. Prerequisite or Corequisite: MATH 370A or 364A. Vector calculus, electrostatics, and magnetostatics. Formulation of Maxwell's equations in vector analytic form. (Lecture-discussion 3 hrs.)

**340B. Electricity and Magnetism II (3) F**

Prerequisite: PHYS 340A. Special relativity. Applications of Maxwell's equations: Plane electromagnetic waves, guided waves, radiation, interaction of electromagnetic waves and matter. (Lecture-discussion 3 hrs.)

**350. Modern Physics (3) S**

Prerequisites: PHYS 310, MATH 370A or 364A. Physical phenomena and models leading to the development of quantum mechanics. Schrodinger equation, one-dimensional quantum mechanical problems, uncertainty principle, one-electron atoms, elementary applications of quantum mechanics. (Lecture-discussion 3 hrs.)

**360. Computers in Physics (3) F**

Prerequisite: PHYS152. Prerequisite or Corequisite: MATH 370A or 364A. Introduction to the use of the personal computer in physics calculations and analysis. Introduction to the Mathematica software. Introduction to interpolation and fitting of experimental data. Examples of symbolic (analytic) calculations, numerical solutions, and graphical display of results for a variety of physics problems. Introduction to programming in Mathematica. (Lecture-discussion 3 hrs.)

**\*380. Electronics (4) S**

Prerequisite: PHYS 152. Network analysis and complex impedance, transistor circuits, operational amplifiers, active filters and oscillators, digital electronics, analog-digital interfacing, microprocessors. Traditional grading only. (Lecture 3 hrs., laboratory 3 hrs.)

**400I. History of Western Scientific Thought (3) F,S**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An interdisciplinary introduction to the history of science for both scientists and non-scientists. Evolution of the scientists' views of the means and ends of their own activities; the ways in which science is affected by and affects contemporary cultures. Same course as HIST 400I. (Lecture 3 hrs.)

**402./502. Fourier Methods in Physics (3) F, odd years**

Prerequisites: PHYS 310, MATH 370B or 461. (Undergraduates register in PHYS 402; graduates register in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. (Lec 3 hrs)

**403./503. Fourier Physics Laboratory (1) F, odd years**

Prerequisite: PHYS 402 which may be taken concurrently. (Undergraduates register in PHYS 403; graduates register in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. (Laboratory 3 hrs.)

**410./515. Relativity (3) F, odd years**

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or 364A. (Undergraduates register in PHYS 410; graduates register in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. (Lecture-discussion 3 hrs.)

**422./522. Thermal Physics (3) F, even years**

Prerequisites: PHYS 310, 320, 350. (Undergraduates register in PHYS 422; graduates register in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. (Lec-discussion 3 hrs)

**434./534. Astrophysics (3) F, even years**

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates register in PHYS 434; graduates register in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. (Lecture 3 hrs)

**444./544. Plasma Physics (3) S, odd years**

Prerequisites: PHYS 340A. (Undergraduates register in PHYS 444; graduates register in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydromagnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. (Lecture 3 hrs.)

**450. Quantum Physics I (3) F**

Prerequisites: PHYS 310, 340A, 350. Schrodinger equation, atomic physics, harmonic oscillator, scattering, perturbation theory, Heisenberg and Dirac representations, spin, symmetries (angular momentum, time reversal, and parity), applications. (Lec-discussion 3 hrs.)

**\*451. Quantum Physics II (3) S, even years**

Prerequisite: PHYS 450. Measurement processes, atomic physics, identical particles, quantum statistics, numerical methods, many-body systems, density matrix, applications. (Lecture-discussion 3 hrs.)

**\*455. Fundamentals and Techniques of Materials Physics (3) S**

Prerequisites: PHYS 154; PHYS 450 or consent of instructor. Fundamentals of materials physics and physical properties of matter, principles and operation of the scanning tunneling and scanning force microscopes, resistance and temperature measurements. (Lecture 2 hrs., laboratory 3 hrs.) Traditional grading only.

**470./569. Introduction to Solid State Physics (3) S, odd years**

Prerequisite: PHYS 450. (Undergraduates register in PHYS 470; graduates register in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. (Lecture 3 hrs.)

**475./575. Modern Optics (3) F, even years**

Prerequisite: PHYS 340A. (Undergraduates register in PHYS 475; graduates register in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected application. (Lecture 3 hrs.)

**476./576. Modern Optics Laboratory (1) F, even years**

Prerequisites: PHYS 475/575 which may be taken concurrently. (Undergraduates register in PHYS 476; graduates register in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Traditional grading only. (Laboratory 3 hrs.)

**480./580. Computer Interfacing in Experimental Physics (3) S, even years**

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates register in PHYS 480; graduates register in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. The use of the computer as a tool in the execution and interpretation of physics experiments is emphasized. (Lecture 2 hrs., laboratory 3 hrs.)

**490./590. Special Topics in Physics (3)**

Prerequisite: Consent of instructor. (Undergraduates register in PHYS 490; graduates register in PHYS 590.) Topics of interest in physics selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, low temperature physics, acoustics and theoretical physics. Both undergraduate and graduate students may take the course for a maximum of 6 units of credit. (Lecture 3 hrs.)

---

## Physics Courses (PHYS)

---

### 496. Special Problems in Physics (1-3)

Prerequisites: Consent of instructor and senior standing. Problems in physics. Problems selected by instructor for considered and mature analysis. A written and 10-minute oral report are required. May be repeated for credit to a maximum of 4 units.

## Graduate Division

### 500. Research Methods (1)

Prerequisite: Consent of instructor. Directed study of the literature about research methods in physics. May be repeated once but only one unit may be applied to the requirements for the Master of Science in Physics.

### 502./402. Fourier Methods in Physics (3) F, odd years

Prerequisites: PHYS 310, MATH 370B or 461. (Undergraduates register in PHYS 402; graduates register in PHYS 502.) Fourier transforms in time and space, convolution, generalized functions, impulse response and transfer function. Application of Fourier techniques to problems in classical acoustics and optics: oscillators, directional radiators, holography and imaging in general. (Lecture 3 hrs.)

### 503./403. Fourier Physics Laboratory (1) F, odd years

Prerequisite: PHYS 502 which may be taken concurrently. (Undergraduates register in PHYS 403; graduates register in PHYS 503.) Selected experiments in acoustics and optics illustrating Fourier techniques in wave physics. Detailed study of the discrete Fourier transform and its application to experimental measurements and calculations. (Laboratory 3 hrs.)

### 510. Graduate Mechanics (4) F

Prerequisite: PHYS 310. Variational principles, Lagrange's equations, Hamilton's equations, canonical transformations, Hamilton-Jacobi theory, relativistic mechanics and small oscillation theory. (Lecture 4 hrs.)

### 515./410. Relativity (3) F, odd years

Prerequisite: PHYS 340A. Prerequisite or Corequisite: MATH 370A or MATH 364A. (Undergraduates register in PHYS 410; graduates register in PHYS 515.) The Lorentz transformation, relativistic kinematics and dynamics, 4-vectors and tensors, transformation of electric and magnetic fields, covariant form of Maxwell's equations, introduction to general relativity. (Lecture-discussion 3 hrs.)

### 522./422. Thermal Physics (3) F, even years

Prerequisites: PHYS 310, 320, 350. (Undergraduates register in PHYS 422; graduates register in PHYS 522.) Entropy and temperature, Boltzmann distribution and Helmholtz free energy, thermal radiation, chemical potential, Gibbs distribution, ideal gas, Fermi and Bose gases, heat and work, Gibbs free energy and chemical reactions, phase transformations and kinetic theory. (Lecture-discussion 3 hrs.)

### 534./434. Astrophysics (3) F, even years

Prerequisites: PHYS 310, 320, and 340A or consent of the instructor. (Undergraduates register in PHYS 434; graduates register in PHYS 534.) Selected topics in astrophysics. A particular semester schedule might include one or two topics from: stellar interiors and evolution, radiative transfer and stellar atmospheres, relativistic cosmology, galaxy formation, accretion disk physics and quasars. (Lecture 3 hrs.)

### 540A. Graduate Electricity and Magnetism and Electrodynamics I (3) S

Prerequisite: PHYS 340B. Boundary-value problems, applications of special functions to electro/magnetostatics, Green's function techniques, multipole expansion of the electrostatic field, dielectric media, Maxwell's equations, electromagnetic waves. (Lecture 3 hrs.)

### 540B. Graduate Electricity and Magnetism and Electrodynamics II (3) F

Prerequisites: PHYS 540A. Covariant formalism, simple radiating systems, radiation by moving charges, and selected topics in electrodynamics chosen from the following: wave guides, magne-

tohydrodynamics, thermodynamics and electrodynamics of continuous media, and radiation reaction. (Lecture 3 hrs.)

### 544./444. Plasma Physics (3) S, odd years

Prerequisites: PHYS 340A. (Undergraduates register in PHYS 444; graduates register in PHYS 544.) Characteristic behavior of high temperature plasma. Particle trajectories, two-fluid and hydromagnetic models, waves, instabilities and transport processes. Applications to astrophysical, geophysical and laboratory plasmas. (Lecture 3 hrs.)

### 550A. Quantum Mechanics I (3) F

Prerequisite: PHYS 450. Mathematical and postulational basis of quantum mechanics, one-dimensional problems, two-level systems, angular momentum, central potentials, time independent and time dependent perturbation theory. (Lecture 3 hrs.)

### 550B. Quantum Mechanics II (3) S

Prerequisite: PHYS 550A. Scattering, rotation group and irreducible tensor operations, identical particles, semi-classical radiation theory, atoms, path integral formalism, and other selected topics. (Lecture 3 hrs.)

### 554. Nuclear Physics (3)

Prerequisite: PHYS 550A. Deuteron problem, nucleon-nucleon potential, shell model, nuclear models, nuclear reactions, elementary particles, weak interactions, strong interactions. (Lecture 3 hrs.)

### 555. Elementary Particle Physics (3) S, even years

Prerequisites: PHYS 310, 340B, 450. Feynman diagram language of scattering and decay, space-time symmetries, relativistic kinematics, hadron quantum numbers and quark models, QED, QCD and gluons, weak interactions. (Lecture 3 hrs.)

### 560A,B. Methods of Mathematical Physics (4,3)

Prerequisites: MATH 370A,B or equivalent. Linear vector spaces, eigen-value problem, functions of a complex variable, special functions, properties and methods of solving partial differential equations of physics, integral equations, tensor analysis and group theory. (Lecture 4,3 hrs.)

### 569./470. Introduction to Solid State Physics (3) S, odd years

Prerequisite: PHYS 450. (Undergraduates register in PHYS 470; graduates register in PHYS 569.) Study of the properties of solids from a quantum theoretical viewpoint. Topics include lattice vibrations, elastic constants, and thermal, electric and magnetic properties. (Lecture 3 hrs.)

### 570. Solid State Physics (3) F

Prerequisite: PHYS 450. The modern theory of solids from the standpoint of quantum mechanics. Binding in solids, energy bands, electrical thermal and magnetic properties, imperfections, and semiconductors. (Lecture 3 hrs.)

### 575./475. Modern Optics (3) F, even years

Prerequisite: PHYS 340A. (Undergraduates register in PHYS 475; graduates register in PHYS 575.) Propagation of electromagnetic waves, optical resonators, laser spectroscopy and operation, optical phase conjugation, nonlinear optics and selected applications. (Lecture 3 hrs.)

### 576./476. Modern Optics Laboratory (1) F, even years

Prerequisite: PHYS 475/575 which may be taken concurrently. (Undergraduates register in PHYS 476; graduates register in PHYS 576.) Selected experiments illustrating principles and techniques of current interest in electro-optics and laser physics. Applications include optical methods in communications, atomic spectroscopy, and nonlinear optics. Traditional grading only. (Laboratory 3 hrs.)

### 580./480. Computer Interfacing in Experimental Physics (3) S, even years

Prerequisite: PHYS 380 or consent of instructor. (Undergraduates enroll in PHYS 480; graduates enroll in PHYS 580.) Introduction to modern data acquisition and analysis methods using computer-based equipment and high level software. Selected physics experiments are performed with standard personal computers, research-quality data acquisition hardware, and programmable instruments. The use of the computer as a tool in aiding the execution and interpretation of physics experiments is emphasized. (Lecture 2 hrs., laboratory 3 hrs.)

### 590./490. Special Topics in Physics (3)

Prerequisite: Consent of instructor. (Undergraduates register in PHYS 490; graduates register in PHYS 590.) Topics of interest in physics selected for intensive development. Topics to be selected from such areas as atomic and nuclear physics, astrophysics, physics of materials, applied optics and laser spectroscopy, low temperature physics, acoustics and theoretical physics. Both undergraduate and graduate students may take the course for a maximum of 6 units of credit. (Lecture 3 hrs.)

### 599. Quantum Field Theory (3)

Prerequisites: PHYS 550B or permission of instructor. Selected topics to be chosen from: Many-particle systems and field theory; interactions, bound states, and the S-matrix; gauge theories and Q.E.D.; path-integral picture. Selected applications from condensed matter physics, electro-weak interactions, Q.C.D., lattice gauge theory, conformal field theory, string theory. (Lecture 3 hrs.)

### 691. Directed Study (1)

Intensive study of advanced topics in physics. May be repeated once for credit.

### 694. Seminar in Special Topics (1)

Prerequisite: Graduate standing. Study of research papers and research methods in selected topics. If demand for more than one subject exists, multiple sections may be given in any one semester. May be repeated; only one unit of credit may be applied toward requirements for the master's degree. (Seminar 1 hr.)

### 695. Colloquium (1)

Prerequisites: Graduate standing. Weekly meetings for presentation and discussion of current research in physics even though only 1 unit is for the MS degree. All graduate students are expected to attend each semester they are enrolled in the University. Credit/No Credit grading only. (Seminar 1 hr.)

### 697. Directed Research (1-3)

Theoretical and experimental problems in physics requiring intensive analysis.

### 698. Thesis (1-6)

Planning, preparation, and completion of an acceptable thesis in partial fulfillment of the requirements for the master's degree. A half-hour seminar presenting and defending the results of the thesis is required. Credit to be obtained only upon formal acceptance of thesis.

---

## Astronomy Courses (ASTR)

---

### Lower Division

#### 100. Astronomy (3) F,S

Prerequisite/Corequisite: One course from category B.2 of the GE Cornerstone. Introductory course in astronomy. The earth moon system and the planets, the stars and their constitution. Survey of the methods of astronomical observation. (Lecture 3 hrs.)

#### 100L. Introductory Astronomy Laboratory (1) F,S

Prerequisites/Corequisites: One course from category B.2 of the GE Cornerstone: ASTR 100. Astronomical coordinates, star maps, magnitude, spectral classification, ages of stars, distance to star clusters. Traditional grading only. Not open to students with credit in ASTR 101. (Laboratory 3 hrs.)

### Upper Division

#### 370I. Planetary Environments (3) F, S

Prerequisites: Completion of the G.E. Foundation and the G.E. B.1.b category; upper-division standing. Analysis of planets in our own solar system with particular emphasis on plate tectonics and the locally relevant subject of seismology. Also considered are the origin and evolution of terrestrial life, including the role of extinction events, and the probability of life elsewhere in the universe. May not be used by physics majors toward meeting GE requirements. Traditional grading only. (Lecture 3 hrs.)

---

## Physical Science Courses (PHSC)

---

### Lower Division

#### 112. Introduction to the Physical Sciences (3) F,S

Prerequisite/Corequisite: One course from category B.2 of the GE Cornerstone. Selected processes which illustrate some of the basic principles used by scientists to interpret modern ideas of matter and energy in the physical universe. Students with a full year course in high school physics or chemistry should elect some other lower division course in chemistry, geology or physics. Not open for credit to majors in any of the physical sciences. (Lecture 2 hrs., laboratory 3 hrs.)

### Upper Division

#### 331. Light, Lasers and the Visual Image (3)

Nonmathematical course that describes light, its behavior and applications. Emphasis on image formation, optical instruments, science of color, lasers, holography and analysis of light for elements, planets and stars. Colorful demonstrations using lasers and holograms including kinetic art. Recommended for art and other non-science majors. (Lecture-demonstration 3 hrs.)

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The political science major is designed to provide the student with a systematic knowledge of the nature and scope of political science. A student may elect to major in political science as a preparation for such fields as: (1) college or university teaching, (2) law, (3) government career service, (4) foreign career service, and (5) politics. In addition, a political science major is preparation for general education, good citizenship and participation in political life. Students interested in the fields mentioned above should consult with an advisor to secure aid in planning their programs.

### *Pre-Legal Program and Preparation*

Political Science continues to be one of the more popular and successful roads to law school and careers in the legal field. Combining a broad exposure to liberal arts and other social sciences with an in-depth immersion in government studies and public law, plus opportunities to intern in legal settings, Political Science provides a rich preparation for those interested in pursuing careers in law. Students interested in our program should consult with the Pre-law advisor in Political Science both to plan a carefully thought out undergraduate course of study and to successfully prepare for admission to law schools.

### *General Education Requirements in Government*

The Education Code requires each college graduate to meet (1) a federal government requirement and (2) a California state and local government requirement. Both of these requirements can be met by POSC 100 (for lower division students) or POSC 391 (for upper division students). If the student has completed the federal government requirement, but not the California state and local government requirement, the student should take POSC 326. Students who have taken American federal, state or local government at another institution should check with the political science advisor before enrolling.

## **Bachelor of Arts in Political Science (code 2-8536) (120 units)**

### **Requirements**

Required Courses: (9 units) POSC 300A, 300B, and POSC 100 or 391

Breadth Requirement: (24 units) Three upper division units from five of the following six areas:

- International Relations
- Comparative Politics
- Political Theory
- Public Law
- American Government and Politics
- Public Policy and Administration

Nine units of electives in Political Science courses, 6 of which may be in the lower division. Any upper division courses may be used to fulfill this requirement including POSC 388I, 395I, 418, 447, 448, 494I, 496, 497, 498, or 499. A maximum of 6 units of internship may be used to fulfill degree requirements.

*Concentration Requirement:* (9 units) Nine units from a sixth area, three units of which must be the senior seminar in that area (e.g., POSC 409, 419, 429, 449, 469, or 489.)

*Social Science Requirement:* (6 units) Six upper division units taken from American Indian Studies, American Studies, Anthropology, Asian and Asian American Studies, Black Studies, Chicano and Latino Studies, Computer Studies, Economics, Geography, History, Human Development, Psychology, Sociology, Women's Studies, chosen in consultation with a Political Science Advisor. Total Units: 48

### Bachelor of Arts in Political Science with Honors (code 1-0003)

Students with a major in Political Science may be admitted to the Political Science Department's honors program (option of the University Honor's Program) provided they have:

1. Junior standing, completed POSC 300A and at least two additional upper-division courses in Political Science;
2. A minimum of three semesters remaining before graduation;
3. A minimum cumulative GPA of 3.3, and 3.5 in Political Science courses;
4. Submitted to the Department Honors Committee two letters of recommendation from faculty members and an example of a research or analytical paper written for a previously taken course in Political Science;
5. Received admission approval from the Department Honors Committee.

In order to graduate with Honors in Political Science a student must:

1. Complete all regular requirements for the major in Political Science;
2. Complete 3 units of POSC 490H: Honors Seminar;
3. Complete 3 units of POSC 491H: Honors Research;
4. Complete 3 units of POSC 492H: Honors Thesis;
5. Have at the time of graduation a cumulative GPA of at least 3.3 and a GPA of at least 3.5 in Political Science courses.

### Minor in Political Science (code 0-8536)

The Minor in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include:

Lower Division: POSC 100 or 391, 300A

Upper Division: Five upper division courses (300/400 level) which may include one approved political science internship from 418, 447, 448, or 498.

### Minor in Public Administration in Political Science (code 0-8540)

The Minor in Public Administration in Political Science is available to any non-Political Science major.

A minimum of 21 units which must include: (a) POSC 430; (b) 9 units selected from POSC 431, 432, 433, 436, 438, 442, 449; (c) 6 units selected from POSC 300B, 322, 323, 326, 327, 328, 329, 420, 447, 448; (d) Three elective units from any area in political science chosen in consultation with an advisor.

### Master of Arts in Political Science (code 5-8536)

The Department of Political Science offers graduate study leading to the master of arts degree. The student is urged to become acquainted with the general requirements of the University and the specific requirements of the department as stated in this *Catalog*. Important supplementary information about the steps leading to the master's degree in political science is contained in the Handbook for Graduate Students, which is available from the department upon request.

Before or soon after entering the program, the graduate student will normally consult with the department graduate advisor.

After beginning graduate study, the student is responsible for obtaining the consent of three fulltime members of the department's graduate faculty to serve on her/his graduate committee: one of these committee members, the chair, will be drawn from the student's major field of concentration and will serve as the student's academic advisor while two others will be drawn from the second and third fields of concentration respectively. The student should seek to have established her/his committee prior to the completion of the first year or the first 18 units of work as a graduate student in political science unless an exception is granted by the Department Graduate Committee.

#### Prerequisites

1. A bachelor's degree with a major in political science or a bachelor's degree with 24 upper division units in political science comparable to those required for a major in political science at this university.
2. Completion of a minimum of one upper-division political theory course equivalent to POSC 301 or POSC 303 at CSULB, with a grade of "B" or better.
3. Students whose undergraduate work is deficient in political science will be required to make up certain courses. Deficiencies will be determined by the Department's Graduate Committee after taking into account each student's background and goals. These courses will not count toward credit in the M.A.
4. A 3.0 ("B") GPA in political science courses taken as an undergraduate. (A student whose GPA is less than 3.0 may appeal to the Department's Graduate Committee for a possible waiver of this requirement.)
5. Three letters of recommendation (preferably from academic sources).

#### Advancement to Candidacy

1. Satisfy the general requirements of the University for advancement to candidacy;
2. In order to be recommended for advancement to candidacy, students must obtain the written approval of their master's degree program of course work by their committee chair and graduate advisor.

#### Requirements

1. A student's program is formulated in consultation with an advisor selected from the department's faculty. A minimum of 30 units of acceptable upper division and graduate courses is required. All students are required to take both POSC 500 and POSC 550. A minimum of 15 units must be concentrated in three of the fields into which the depart-

ment's curriculum is divided. An additional six units may be taken in Political Science or in another field of study closely related to the candidate's educational objectives. The program must include a minimum of 18 units in the 500/600 series of POSC;

2. The graduate student must complete one of the following requirements: (a) A comprehensive examination in each of two fields of Political Science (b) A thesis; Students following the comprehensive examination option will earn 3 units of credit in POSC 697 and those writing a thesis will be granted three units of credit in POSC 698;
3. In addition to completing the above requirements, the graduate student must complete (or show that she/he has completed) one of the following requirements:
  - a. A minimum of two semesters of an acceptable foreign language taken at the college level with a grade of "B" or better;
  - b. A demonstrated reading knowledge of an acceptable foreign language;
  - c. A minimum of two semesters of acceptable course work in statistics with a grade of "B" or better.

### Interdisciplinary Minor in Public Policy (code 0-8538)

The purpose of this program is to enable persons majoring in fields related to public policy to gain a broader understanding of the substance of public policies, the underlying social, economic and political factors related to policy alternatives, the dynamics of the public policy decision-making process, the values implicit in these decisions, and methods by which these aspects of public policy may be analyzed.

The minor consists of 21 units including a core curriculum of 12 units and 9 units of electives. A maximum of 6 units may be taken in the student's major department, but no units may be counted in both the major and the minor.

#### Requirements

1. Core Curriculum: (12 units required): Twelve units chosen from among the following courses: ECON 450, GEOG 466, POSC 328, PSY 375, U/ST 3011.

Note: It is strongly recommended that students take the core curriculum courses in sequence, the first two courses during the Junior year; the second two during the Senior year.

2. Electives: (9 units required): At least 6 units of the 9 elective units must be taken in one of the policy area concentrations outlined below. The remaining 3 units may be taken from among any of the elective courses approved for the minor. See program director or a member of the Faculty Advisory Committee for a student handbook that lists all courses approved as electives.

*Policy Area Concentrations:* Community Relations and Social Services, Health Care, Housing and Recreation, Education, Economic Regulation, Justice and Law, Land Use and Ecology, Computational Skills for Public Policy, Foreign Policy and International Relations, Values and Public Policy, Government Processes and Policy.

## Courses (POSC)

### Lower Division

#### 100. Introduction to American Government (3)

Prerequisite/Corequisite: Any GE Foundation course. Introductory survey of American Political Institutions, politics, and policy, including government and politics in California. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. (CAN GOVT 2)

#### 201. Introduction to Political Science (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Introduction to the principles of political science. Major terms, concepts, functions, and institutions relating to the processes of politics.

#### 210. Issues of American Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with the concepts of democracy, limited government, federalism, separation of powers, judicial review, and preservation of individual rights.

#### 215. Issues of Comparative Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Intensive study of issues associated with selected foreign governments, modernization, revolution, political change and world ideological conflict.

#### 220. Issues in Global Politics (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Divergences between nations as they affect political differences between states. The political significance of the encounter of individuals with those of different nationalities.

#### 225. Issues in Political Theory (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. Study and discussion of issues including revolution, power, justice, alienation, the nature of democracy, and other important political concepts. Views of theorists such as Plato, Hobbes, Rousseau, Mill, and Marx will be examined.

#### 230. Issues in Political Economy (3)

Prerequisite: Completion of GE Foundation requirements and POSC 100. The relationship between politics and economics in contemporary societies; theories of political economy; the development of economic and regulatory policies in advanced capitalist democracies.

The Political Science Department upper division courses fall into several curricular sub-groups, as follows:

---

#### Political Theory

---

- 301. Classical Political Theory
- \*303. Modern Political Theory
- \*304. Recent Political Theory
- \*306. Contemporary Political Ideologies
- \*308. American Political Theory
- \*401. Women in Political Theory
- \*409. Senior Seminar in Political Theory

---

#### Public Law

---

- \*311. Constitutional Law: Power
- \*312. Constitutional Law: Rights
- \*316. Administrative Justice and Law Making
- \*318. Modern Legal Systems
- 412. Law and Social Change
- \*414. Jurisprudence
- 418. Legal/Judicial Apprenticeship
- \*419. Senior Seminar in Public Law

---

## American Government and Politics

---

- 321. The Media and American Politics
- 322. Political Parties
- 323. Minority Politics in the United States
- 325. American Political Economy
- 326. California Government in Comparative Perspective
- \*327. Urban Politics
- \*420. Voting, Campaigns and Elections
- \*422. Public Opinion
- \*423. The American Presidency
- \*424. The Legislative Process
- \*428. Political Behavior
- \*429. Senior Seminar in American Government and Politics

---

## Public Policy and Administration

---

- 328. Introduction to Public Policy
- \*329. The Policy Making Process
- 430. Fundamentals of Public Administration
- \*431. Public Policy Analysis
- \*432. Public Values and Public Policy
- \*433. Public Organization and Management
- \*436. Public Personnel Administration
- \*438. Comparative Public Administration
- \*442. Planning Cities and Urban Regions
- 447. Public Administration Internship I
- 448. Public Administration Internship II
- \*449. Senior Seminar in Public Policy and Administration

---

## Comparative Politics

---

- 353. Government and Politics of Western Europe
- \*356. Politics of the Soviet Union and its Successors
- \*358. Contemporary Latin American Politics
- \*359. Latin American Comparative Political Systems
- \*362. Society and National Politics of China
- \*363. Society and National Politics of Japan
- \*366. Governments and Politics of Southeast Asia
- \*367. Governments and Politics of the Middle East
- \*455. Comparative Revolutionary Change
- 461I. The Politics of Development
- \*469. Senior Seminar in Comparative Politics

---

## International Relations

---

- 371. Introduction to International Politics
- \*376. International Law
- \*378. International Organization and Administration
- 482. American Foreign Policy
- \*485. International Political Economy
- \*486. National Security Policies
- \*489. Senior Seminar in International Politics

---

## General

---

- 300A. Political Inquiry
- 300B. Quantitative Methods in Political Science
- 388I. Cyperspace Citizenship
- 391. American Government
- 395I. Politics Through Culture
- 490H. Honors Seminar
- 491H. Honors Research
- 492H. Honors Thesis
- \*493. Special Topics
- 494I. Politics of the Future
- 496. Washington Center Internship
- \*497. Special Topics
- \*498. Practicum in Politics
- \*499. Readings and Conference in Political Science

## Upper Division

General Education Category A must be completed prior to taking any upper division course.

### 300A. Political Inquiry (3)

An examination of the key debates over what constitutes the proper methodological approach to the study of political and social phenomena. Topics include the philosophy of science and theoretical problems in Liberal, Marxist, and Post-Structuralist thought. (Lec 3 hrs)

### 300B. Quantitative Methods in Political Science (3)

Problems of data collection and analysis. Impact of research methods on findings. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course. (Lecture 3 hours)

### 301. Classical Political Theory (3)

Prerequisites: Completion of GE Foundation requirements. The roots of political inquiry in the works of ancient Greek and Roman political theorists such as Socrates and the Sophists, Plato, Aristotle, Cicero, Polybius, and the Stoics. Major themes will be the relationship between the individual citizen and the Polis, justice and equality, democracy and dictatorship, and the political culture of the Mediterranean world.

### \*303. Modern Political Theory (3)

The emergence of modern political thought from the 17th through the 19th century in Western Europe in reaction to the English Civil War and Industrial and French Revolutions. Views of state and society expressed in the differing perspectives of John Locke, Thomas Hobbes, Jean Jacques Rousseau, John Stuart Mill, Edmund Burke, George Hegel, and Karl Marx.

### \*304. Recent Political Theory (3)

A critical study of major themes in political thought in industrial and post-industrial society, from the late 19th century until today. Recent thinkers who have made significant contributions to the understanding of the relationships among the individual, society, and politics will be examined.

### \*306. Contemporary Political Ideologies (3)

A critical examination of the nature and role of ideologies in contemporary politics. Among the major political belief systems studied will be important examples of conservatism, liberalism, socialism, communism and fascism in theory and practice.

### \*308. American Political Theory (3)

Critical examination of theorists, concepts and forces which have shaped American political consciousness from Puritans to present.

### \*311. Constitutional Law: Power (3)

Prerequisite: POSC 100 or 391 or equivalent. Judicial interpretation of the U.S. Constitution regarding judicial review; the power of the Presidency and the Congress; state governmental authority; nature of the American Federal System. Not open to students with credit in POSC 315.

### \*312. Constitutional Law: Rights (3)

Prerequisite: POSC 100 or 391 or equivalent. Analysis of the rights and guarantees contained in the Bill of Rights and other constitutional and statutory provisions with leading cases. Not open to students with credit in POSC 314.

### \*316. Administrative Justice and Law Making (3)

Process by which administrative agencies decide quasi-judicial cases involving private rights, and make rules and regulations of a quasi-legislative nature affecting private rights with reference to leading judicial decisions. Not open to students with credit in POSC 346.

### \*318. Modern Legal Systems (3)

Nature of law, public and private. Emphasis on cases and materials illustrating development of Anglo-American legal institutions and processes. Background for the professional study of law.

### 321. The Media and American Politics (3)

Prerequisites: Completion of GE Foundation requirements; POSC 100 or permission of instructor. Explore the role of print and electronic media in American politics and their relationship to politicians and the public. Assesses the media's impact on government, policy making, election campaigning, and the prospects for democratic deliberation. Special attention paid to the portrayal of political issues and political themes in popular culture, including film, television, and music.

**322. Political Parties (3)**

Prerequisites: Completion of GE Foundation requirements. Organization, functions and practices of political parties in the United States with special emphasis on California parties. Analysis of the part the political parties play in government and the importance of the two-party system in American government. Party responsibility in the United States in comparison with parties in other countries.

**323. Minority Politics in the United States (3)**

Prerequisites: Completion of GE Foundation requirements. Systematic examination of racial and ethnic minority groups in the American political system. Examination of selected public policy issues of significance to American minority communities.

**325. American Political Economy (3)**

Prerequisites: Completion of GE Foundation requirements. History, structure and dynamics of the American political economy; the politics of economic policy; political responses to changes in the global economy; theories of capitalist democracy.

**326. California Government in Comparative Perspective (3)**

Prerequisites: Completion of GE Foundation requirements. The government and politics of American States including intergovernmental relations. Special focus on political institutions, current issues, and public policies in California. May not be taken to fulfill G.E. credit except under category D.1.b.

**\*327. Urban Politics (3)**

The institutions and processes by which social conflicts in American urban areas are generated, articulated, and managed. Urban political culture, power structures, group development and activity, and governance and policy-making are emphasized. Special attention directed toward the evaluation of urban political problems and solutions.

**328. Introduction to Public Policy (3)**

Prerequisites: Completion of GE Foundation requirements. Analysis of major contemporary United States domestic policies including agriculture, income maintenance, economic regulations, manpower training, conservation, crime control and revenue-sharing.

**\*329. The Policy Making Process (3)**

Examination of the processes through which public policies are formulated, adopted and implemented, and the political and organizational contexts which condition these processes.

**353. Government and Politics of Western Europe (3)**

Prerequisites: Completion of GE Foundation requirements. Governments of representative European democracies, with emphasis on governmental structure, functions and political processes and their relationship to current problems.

**\*356. Politics of the Soviet Union and its Successors (3)**

Examination and analysis of the evolution and fall of the Soviet system, with particular emphasis on the crisis of one-party rule and the rise of new political institutions and forces.

**\*357. Politics of East-Central Europe (3)**

Comparative examination and analysis of the political evolution of the countries of East-Central Europe. Particular emphasis on the post-World War II period, the rise and fall of one-party systems, and the impact of Soviet domination.

**\*358. Contemporary Latin American Politics (3)**

Study of government and politics with emphasis on similarities and differences of the Latin American states. Major focus on principal groups and major issues in the political process. Conflicting explanations of the obstacles to development and other current problems will be examined.

**\*359. Latin American Comparative Political Systems (3)**

Comparative study of the political process and public policies of selected Latin American states. Includes an examination of major political, social, and economic issues and problems associated with modernization.

**\*362. Society and National Politics of China (3)**

Study of the People's Republic of China, including its origin, ideology, and organization. Contemporary social, economic, and political developments.

**\*363. Society and National Politics of Japan (3)**

Examination of Japan's political development since 1868 with special emphasis on the social and cultural bases of Japan's political system, party politics, governmental process, political economy, and foreign relations.

**\*366. Governments and Politics of Southeast Asia (3)**

Emergence and development of the contemporary political systems of Southeast Asia.

**\*367. Governments and Politics of the Middle East (3)**

Emergence and development of the contemporary political systems of the Middle East; the Arab-Israeli dispute; the role and importance of the region in international politics.

**371. Introduction to International Politics (3)**

Prerequisites: Completion of GE Foundation requirements. Study of relations among nation-states. Structure of the international political system, and adaptation by states to that structure through the use of power and diplomacy, while maintaining diversity. Instrumentalities appropriate for war and peace.

**\*376. International Law (3)**

Nature and historical development of international law. Determination of rules of international law. International community under law. Recognition of states and governments. Jurisdiction. Settlement of international disputes. War aggression and neutrality.

**\*378. International Organization and Administration (3)**

Examination of historical development, of international organization from the Concert of Europe to the United Nations. Analysis of contemporary international organization, its functions, problems and prospects in the context of the world situation.

**388I. Cyberspace Citizenship (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study how people and institutions are migrating political, social, and economic functions to the Internet. Examine how the Internet is merging mass media, computer, and telecommunications into a new realm for human civilization: Cyberspace. Survey of cyberspace landscapes being settled by "virtual" communities, online commerce centers, Web free speech fora, and evolving governmental institutions for managing property rights, Internet expansion and resolving cyberspace conflicts. Explore the multiple dimensions of participatory citizenship in cyberspace.

**391. American Government (3)**

Prerequisites: Completion of GE Foundation requirements. Survey of American government and politics, including attention to California government. Constitutional foundations and current controversies. Satisfies the general education requirement and the California teaching credential requirement. Not open to students with credit in POSC 100.

**395I. Politics Through Culture (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This is a course that examines the interplay of politics and cultural studies. Students will employ a variety of theoretical perspectives in analyzing contemporary cultural artifacts such as art, film, music, and the media. Traditional grading only.

**\*401. Women in Political Theory (3)**

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as W/ST 402.

**\*409. Senior Seminar in Political Theory (3)**

Prerequisites: 6 units in political theory courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in political theory. Not open to students with credit in POSC 490C.

**412. Law and Social Change (3)**

Prerequisites: Completion of GE Foundation requirements. Issues currently being dealt with in the American legal system (e.g., bus-ing, affirmative action, problems of the environment, sexual discrimination). Examination of both the courts' part in creating

these problems and the degree to which the courts have the potential to correct them.

**\*414. Jurisprudence (3)**

Fundamental legal philosophies, sources and classifications of law. Relationship of law to other disciplines and societal institutions.

**418. Legal/Judicial Apprenticeship (3)**

Prerequisite: Consent of instructor. Courtroom, law office, public legal agency, and/or non-profit legal agency experience in conjunction with reading and research directed by a faculty member. May be repeated for a maximum of six units. No more than three units of this internship course may apply toward the major in political science. A maximum of six units may be earned in 418, 447, 448, and 498 combined. Credit/No credit grading only.

**\*419. Senior Seminar in Public Law (3)**

Prerequisites: Six units in public law courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in public law.

**\*420. Voting, Campaigns and Elections (3)**

Analysis of factors influencing citizen's voting choices; methods used by candidates seeking electoral support; changes and trends in American elections.

**\*422. Public Opinion (3)**

Formation and development of public opinion; methods of measuring public opinion in the political system.

**\*423. The American Presidency (3)**

The roles and powers of the American presidency with emphasis on major public policies of recent presidents.

**\*424. The Legislative Process (3)**

Analysis of the origin, development, and behavior of U.S. legislative bodies. Leadership, organization and procedures, problems and principles of law-making. Legislative relations with the executive and other governmental agencies.

**\*428. Political Behavior (3)**

Introduction to the socio-psychological basis of individual political behavior. Emphasis upon political socialization, political culture and personality as explanations of political participation, the development of political values and political action.

**\*429. Senior Seminar in American Government and Politics (3)**

Prerequisites: Six units in American government and politics courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in policy formation and politics. Traditional grading only.

**430. Fundamentals of Public Administration (3)**

Principles and practices of federal, state and local administration. Not open to students with credit in POSC 331.

**\*431. Public Policy Analysis (3)**

Examination of the meaning and use of concepts and methods employed in public policy decision analysis, including an overview of the decision process, sources and methods of handling policy-relevant data, and methods and techniques of program evaluation and policy analysis.

**\*432. Public Values and Public Policy (3)**

Critical examination of selected value choices involving how and by whom public policy is to be made, and choices involving what should be the content and goals of public policy.

**\*433. Public Organization and Management (3)**

Theories of organization and management with emphasis on their relation to administrative problems in civilian and military spheres of American government. Not open to students with credit in POSC 334.

**\*436. Public Personnel Administration (3)**

Survey of public personnel administration, including the growth and development of the civil service, the personnel agency, recruitment procedures, position classifications, training programs, employee organization and retirement systems. Not open to students with credit in POSC 336.

**\*438. Comparative Public Administration (3)**

Theories, models, structure and function of public administration in selected countries. Not open to students with credit in POSC 348.

**\*442. Planning Cities and Urban Regions (3)**

Policymaking and the role of the planner in cities and urban regions. Activities of federal, state and local governments. Social and environmental consequences of land use, zoning, transportation and design. Historic preservation. New communities.

**447. Public Administration Internship I (3)**

Prerequisite: Consent of instructor. Internships in one of the various federal, state or local governmental units in the immediate area. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

**448. Public Administration Internship II (3)**

Prerequisite: Consent of instructor. Internships in one of the various federal, state, or local governmental units in the immediate area. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

**\*449. Senior Seminar in Public Policy and Administration (3)**

Prerequisites: Six units in public policy and administration courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in public policy and administration.

**\*455. Comparative Revolutionary Change (3)**

Roots of revolution. Emphasis on the historical setting, ideology, socio-economic factors, political leadership, organization and nationalism. Analysis of revolutionary conditions, courses and tactics past and present.

**461I. The Politics of Development (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Problems of political development in the emergent nations of Asia, Africa and Latin America.

**\*469. Senior Seminar in Comparative Politics (3)**

Prerequisites: Six units of comparative politics courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in comparative politics.

**482. American Foreign Policy (3)**

Prerequisites: Completion of GE Foundation requirements. Concepts, strategies, and the shaping of American relations with other states, with special emphasis on the post-World War II period. National security, economic, and political-diplomatic concerns as they present new challenges to the United States.

**\*485. International Political Economy (3)**

Politics of global economic relations, including monetary and trade regimes, markets and multinational corporations. Emphasis on issues of confrontation and collaboration between countries regarding development strategies, services trade and technology transfer. Prospective students are strongly recommended to take POSC 371, 230, ECON 300 or the equivalent.

**\*486. National Security Policies (3)**

Analysis of strategic posture with emphasis on military, political and economic inter-relationships as they influence national security and international politics.

**\*489. Senior Seminar in International Politics (3)**

Prerequisites: Six units of international relations courses, consent of instructor. Intensive study of selected conceptual and theoretical problems in international relations.

**490H. Honors Seminar (3)**

Prerequisites: Admission to the Honors Program in Political Science. The nature and development of political science and its relationship to other disciplines in the Social Sciences. Recent developments in conceptual analysis and theory are emphasized. (Seminar.) Traditional grading only. Course meets with POSC 500.

**491H. Honors Research (3)**

Prerequisite: Admission to the Honors Program in Political Science. Research for writing an Honors thesis under the direction of a faculty member. (Independent Study.) Traditional grading only.

**492H. Honors Thesis (3)**

Prerequisites: POSC 491H. Research and writing of an Honors thesis under the direction of a department faculty advisor. (Independent Study.) Traditional grading only.

**\*493. Special Topics (3)**

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. Topics to be announced in the *Schedule of Classes*.

**494I. Politics of the Future (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of present-day global problems: overpopulation, depletion of resources, environmental decay and their future political implications. Examination of alternative policies, future politics and institutional change. The technological revolutions and the totalitarian temptation.

**496. Washington Center Internship (3)**

Prerequisites: Upper division standing and consent of instructor. Students who are accepted by the Washington Center will be assisted in locating a 30-35 hr. per week career related internship in a federal, corporate or independent sector agency located in Washington D.C. All participants utilize a learning contract. A final written report is required. Students must enroll concurrently in an independent studies course to earn credit for participation in the Washington Center's seminar. Credit/No Credit grading only. Course may be repeated for a max of 9 units. Directed Studies.

**\*497. Special Topics (3)**

Prerequisite: Consent of instructor. Analysis of selected contemporary issues and problems. May be repeated for a maximum of six units with different topics. Topics to be announced in the *Schedule of Classes*.

**\*498. Practicum in Politics (1-3)**

Prerequisite: Consent of instructor and department chair. Political or governmental experience supplemented by reading and research under the direction of a faculty member. May be repeated for a maximum of six units. No more than three units may apply toward the major in political science. A maximum of six units may be earned in POSC 418, 447, 448, and 498 combined. Credit/No Credit grading only.

**\*499. Readings and Conference in Political Science (1-3)**

Prerequisite: Consent of instructor. Directed reading to permit independent pursuit by advanced students on topics of special interest. Hours to be arranged. Graduate students who have had this course as an undergraduate may repeat it.

**Graduate Division****500. Foundations and Scope of Political Science (3)**

Prerequisite: Graduate status or consent of instructor. Approaches applied to the conceptual analysis of political phenomena. Substantive models of social and political order and change as well as methodological arguments about the nature of explanation in political science.

**550. Research Methods in Political Science (3)**

Prerequisite: POSC 500. Methods of empirical research in political science including the formulation of hypotheses, problems and standards of measurement and observation, methods of data collection, research design and logic of data analysis. No prior knowledge of statistics is assumed. Only basic mathematical skills are needed for success in this course.

**590. Advanced Study (3)**

Prerequisite: Consent of Graduate Coordinator and Instructor. Study under the supervision of a faculty member. Student must fulfill requirements of a selected upper division course plus additional work appropriate to graduate study as determined by the Instructor of the course. May be repeated for a maximum of 6 units with different topics.

**599. Graduate Studies (3)**

Prerequisites: Consent of Graduate Coordinator and instructor. Individual graduate level study and research of special topics under the supervision of a faculty member. Traditional grading only.

**600. Seminar in International Politics (3)**

Prerequisite: POSC 371 or equivalent. Seminar is designed to examine in depth various aspects of International Politics, such as the role of power, multiple dimensions of national interest, collective security, world peace, nationalism, and imperialism. Different themes selected for a given seminar become the subject of discussion and exchange of ideas in every session. May be repeated for a maximum of six units.

**610. Seminar in Comparative Government (3)**

Prerequisite: Three upper division units in comparative government. Comparative study of government and politics in selected foreign countries. Intensive study of the political institutions and policies of selected foreign governments. Emphasis on political parties and contemporary governmental policy. May be repeated for a maximum of six units.

**620. Seminar in Political Theory (3)**

Prerequisite: POSC 301 or 303 or equivalent. Analytical and critical examination of the major concepts of political theory. May be repeated for a maximum of six units.

**640. Seminar in American Government and Public Law (3)**

Prerequisite: Three upper division units in American Politics or Public Law. Intensive study of topics and problems in American government including issues in constitutional law and the judicial process. May be repeated for a maximum of 6 units.

**670. Seminar on Special Topics in Political Science (3)**

Prerequisites: Graduate standing and consent of instructor. Research, discussion, and critical evaluation of selected topics and problems of current interest in political science. May be repeated for a maximum of 6 units with different topics. Traditional grading only.

**695. College Teaching Practicum (3)**

Prerequisite: Consent of Graduate Director. Internship provides teaching experience in community college. No more than three units of this practicum may be applied to the Masters requirements in Political Science. Credit/No Credit grading only.

**697. Directed Research (1-6)**

Prerequisite: Consent of Department Chair. Individual research or intensive study under the guidance of a faculty member. Three units required of non-thesis students who have been advanced to candidacy for the master's degree in political science. A maximum of three units may be earned by students with credit in POSC 698. May be repeated to a maximum of six units.

**698. Thesis (1-4)**

Planning, preparation and completion of thesis for the master's degree.

Public administrators today are becoming increasingly aware of the fact that government is, indeed, the people's business. They are challenged to be both effective and efficient. They believe that people tend to support what they help to create. Working with citizens, they have brought the practice of public management to its highest level without giving up the desire to constantly change and improve. The difference is that today's public servants are recognized and rewarded in personal and material ways, making the study of public policy and administration a highly desirable career option.

The Graduate Center for Public Policy and Administration offers the Master of Public Administration degree; Options in the degree program include Public Works Administration and Urban Affairs; and graduate certificate programs exist in Urban Executive Management, the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, and Transportation Policy and Planning. The Center's graduate level programs are designed with a professional emphasis and a recognized need to provide course work that will increase the student's competency in public administrative processes and analysis. The Center's curriculum also is designed to emphasize the student's ability to apply new knowledge, skills, and leadership techniques to the solution of public problems.

Admission applications are encouraged from persons with successful government service who wish to pursue, part-time or full-time, a graduate program designed to prepare them for new opportunities in public service or to expand or extend their capacities in a present position. The Center provides education in public policy and administration to professional persons in such fields as public works, social services, public health, community development, criminal justice, educational administration, recreation administration, finance, personnel, policy analysis, urban and regional planning, systems analysis and urban administration. The Center is accredited by the National Association of Schools of Public Affairs and Administration, Commission on Peer Review and Accreditation (NASPAA, 1120 G Street, NW, Suite 730, Washington, DC 20005, phone: 202-628-8965).

A detailed summary of requirements, current course offerings and procedures for the Master of Public Administration degree program, the Options in Public Works Administration and in Urban Affairs, and the graduate certificate programs, are contained in student handbooks available from the Graduate Center for Public Policy and Administration and their web site at <http://www.csulb.edu/~beachmpa>.

## *Program Standards and Requirements*

### Admission

Students seeking admission to one of the Center's programs should have an undergraduate degree and a desire for graduate study in public administration. A student must have an undergraduate grade point average of 2.75 or better. A student whose overall undergraduate grade point average is less than 2.75, but who presents acceptable evidence of professional potential shown through recent academic performance and experiential background, may be admitted by special action of the Center.

Students applying for admission to one of the Center's programs are required to submit:

1. A completed Center Application Form for the specific degree or certificate program.
2. Transcripts of all course work completed in undergraduate education.
3. Two letters of recommendation from members of the academic profession under whom the applicant has studied, or from persons in positions of administrative leadership with whom the applicant has worked.
4. A one or two page statement concerning the applicant's reasons and plans for pursuing a career in public administration.

Following admission to the University and acceptance in one of the graduate programs, each student should meet with a faculty advisor. The faculty advisor will provide advice to the student on program course requirements and elective opportunities, and counsel the student in the chosen elective area.

### Advancement to Candidacy

The following are requirements for the degree and certificate programs:

1. Satisfaction of the general University requirements for advancement to candidacy;
2. Completion of all degree or program prerequisites;

3. Approval of the candidate's program by a faculty advisor and the Director of the Graduate Center for Public Policy and Administration;
4. Completion of six units of course work at this University toward the degree or program objective;
5. Earned a minimum GPA of 3.0 in all graduate work completed at this University, or transferred from other sources, to meet degree or program requirements.
6. Have passed the WPE.

#### Transfer of Credit

Students who have completed a graduate certificate program in the Public Management Analyst, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, or Transportation Policy and Planning, may transfer up to 15 units of credit earned in the certificate program to be applied to the Center's Master of Public Administration degree program. The student must apply to the Center for admission as a degree candidate.

Students who have completed the academic requirements for the Master of Public Administration degree, prior to applying for admission to a graduate certificate program in the Center, may apply up to 6 units of credit earned in the MPA program for the required or elective courses in a certificate program.

#### Master of Public Administration Degree (code 7-9550)

The Center offers an innovative professional graduate program of studies leading to the degree of Master of Public Administration. The 36-unit program is designed with a professional emphasis and a recognized need to provide students with an increased competency and perspective of the analytical and administrative processes of government. The MPA degree is sufficiently flexible that students may select a program of elective courses oriented toward a generalist program of studies, place emphasis on a staff specialization such as personnel, or permit a focus on a specific public program field such as criminal justice administration. In all cases, a common grounding in the core areas of public policy and administration is required; but beyond this, considerable freedom of choice enables students to select subjects which fit their particular backgrounds or career objectives.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 21 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 660, 670, and 696;
3. Completion of approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Additional elective course work in elective fields to meet the 36-unit minimum;
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

#### University Courses Acceptable for the Master of Public Administration

A wide variety of graduate courses in other departments are also acceptable. Graduate course descriptions are found in the department listings in which they are offered. Consult with Center Faculty for more information.

#### Option in Urban Affairs (code 7-9551)

The purpose of the Option in Urban Affairs within the Master of Public Administration degree is to provide students who have particular interests in urban problems and processes with the opportunity to expand their knowledge and awareness in the field. In this broadly based interdisciplinary program, students can develop an understanding of the systemic nature of the urban environment and the interrelatedness of many urban problems. The program is designed to provide urban managers with ideas and techniques for dealing with various urban situations. Emphasis is on state and local government issues and responses.

#### Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 24 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 555, 577, 610, 660, and 670, and 696;
3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 12 units of elective course work selected from: PPA 512, 517, 522, 523, 525, 527, 540, 546, 547, 548, 549, 550, 567, 571, 575, 581, 590; CRIM 512, 581, 621, 622, 623, 624, 630, 640, 641, 650; ECON 650; EDAD 541, 544; EDP 520, 530, 536, 555, 574, 576, 582, 615; GEOG 600, 650, 666; HIST 673; NRSG 557; POSC 640; REC 521, 571;
5. Successful completion of PPA 697 Directed Research and an approved Student Learning Portfolio.

#### Option in Public Works Administration (code 7-9552)

This Option is designed to provide advanced knowledge to practitioners and pre-career students in the growing field of public works management. Course work prepares students in general public administration and specialized public works management activities, including appropriate technical subjects such as air and water pollution, water supply, waste disposal and management, energy, housing, and transportation.

#### Admission

The general standards for admission are identical to those for the Master of Public Administration degree program. An applicant must demonstrate a background of related undergraduate course work of twelve units, or significant management and/or staff experience in public administration. For this degree option, the experiential background would be targeted to the public works and infrastructure sector.

#### Requirements

1. A minimum of 36 course units in graduate course work, with a minimum of 27 units of 500/600 level courses in public policy and administration;
2. Satisfactory completion of PPA 500, 554, 555, 577, 660, 670 and 696;

3. Completion of an approved internship program (PPA 585) as required course work beyond the 36-unit minimum, or waiver of the internship requirement based on professional experience;
4. Completion of 9 units of elective course work selected from: PPA 515, 522, 527, 535, 540, 547, 549, 550, 552, 560, 575, 590; CE 504, 520, 522, 564, 565, 602;
5. Successful completion of PPA 697 or CE 697 Directed Research and an approved Student Learning Portfolio.

### Graduate Certificate in Urban Executive Management (code 1-9050)

This program is designed to serve the post-graduate executive development needs of men and women in aspiring to top level positions in city and county governments. The goal of this program is to provide urban executives with a comprehensive knowledge of strategic planning processes; dynamics of human relations; strategies for implementing policies; consensus building techniques; and economic and financial forces impacting on local governments

#### Prerequisite

In addition to the general admission requirements, applicants for the graduate certificate in Urban Executive Management should have significant upper level management experience in Public Administration, and a minimum of 10 years of progressively responsible management experience in government.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 542, 547, and 571;
3. Satisfactory completion of 3 elective courses selected from PPA 512, 525, 535, 550, 555, 560, 575, and 577.

### Graduate Certificate in Public Management Analyst (code 1-9010)

This program is designed for men and women who work or desire to work in budgeting, policy formulation, financial management, or program evaluation offices of government agencies. The program prepares candidates with such skills as defining a problem; conducting cost benefit analysis; utilizing basic statistical techniques; conducting behavioral/political analysis; preparing and presenting reports; learning the ability to blend qualitative, behavioral, and political skills necessary for success as an analyst in government.

#### Prerequisite

In addition to the general admission requirements, students should be employed in public service or related activities, or have a goal of public service-related activities.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 4 required and 2 elective courses.
2. Satisfactory completion of PPA 515, 517, 521, and 555;
3. Satisfactory completion of 2 elective courses selected from PPA 522, 523, 527, 540, and 560.

### Graduate Certificate in Public Sector Employer-Employee Relations and Personnel Management (code 1-9020)

This program is designed for public sector managers and those aspiring to enter public service who need the knowledge, skills, and abilities required to deal effectively with the critical area of public sector employee relations and personnel management. The primary goal is to provide the necessary training for public managers to effectively utilize human resources to their greatest potential in conjunction with the needs of the public organization.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 555, 575, and 577.
3. Satisfactory completion of 3 elective courses selected from PPA 527, 570, 571 and 581.

### Graduate Certificate in Public Sector Financial Management (code 1-9030)

This Certificate Program is designed for public managers and others interested in obtaining an understanding of governmental financial management concepts, functions, techniques, and issues. The program is designed to familiarize students with financial management problems and the techniques available for solving them. An emphasis is placed on how to recognize, evaluate, and utilize financial information in decision making.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 3 required and 3 elective courses.
2. Satisfactory completion of PPA 555, 560, and 567;
3. Satisfactory completion of 3 elective courses selected from PPA 522, 527, 540, and 547.

### Graduate Certificate in Transportation Policy and Planning (code 1-9040)

The purpose of this certificate program is to provide instruction in the skills and knowledge appropriate to professional activity in transportation policy and planning for urban transportation. Key support areas include urban planning, policy analysis, environmental policy, intergovernmental policy, personnel policy, and grants administration.

#### Requirements

1. A minimum of 18 course units in graduate course work, including 2 required and 4 elective courses.
2. Satisfactory completion of PPA 522, and 550.
3. Satisfactory completion of 4 elective courses selected from PPA 535, 540, 575, 670, CE 520, 522, 550, 552; ECON 690.

### Courses (PPA)

#### 500. Foundations of Public Policy and Administration (3)

Concepts of the discipline; fundamentals of public organization theory, policy formulation and analysis, and administrative and management processes; management of the public interest; and ethics in government.

#### 510. Public Administrative/Management Processes (3)

Analysis of public administrative/management processes from perspective of public executive, public finance and budgeting, public personnel systems, standards of efficiency and effectiveness in conduct of the public's business, and role and use of organizations and administrative processes to achieve public objectives.

**512. Urban Executive Management (3)**

Students will be provided an overview of the various types of problems confronting today's urban administrator and the possible means of solving some of these pressing problems. Subjects to be included are public policy in a changing society; new strategies for managing local government; new frontiers in planning and controlling financial resources; the dynamics of personnel and labor relations.

**514. Municipal Law for Administrators (3)**

Examination of major laws and legal issues affecting local government today. Basic powers of cities including regulatory (police) powers, corporate (service) powers, taxation and eminent domain will be studied. Will develop problem solving abilities through legal analysis, and will explore new parameters and changing standards in litigious society looking for "deeper pockets," slower growth, and greater citizen involvement in local government. Selected areas of study will include the impact of recent U.S. Supreme Court cases on land use regulation; California Redevelopment Agency law; municipal tort liability, including personal liability and civil rights matters; public-private financial ventures and bond financing; city council meeting and hearing procedures; the "Brown Act," and public records; public works contracts and building code enforcement; and public labor law trends and developments.

**515. Administrative Report Writing (3)**

Preparation of written documents required of public administrators.

**517. Analytical Skills Development (3)**

This course is designed to develop or improve the skills needed to perform analytical work in the public sector. There will be a dual emphasis wherein both quantitative and behavioral/ political aspects of analysis in government are explored. Cost-benefit analysis, and report preparation and presentation will be covered.

**521. Microcomputer Management for Public Administrators (3)**

A seminar for public administrators focusing on the design, development, and management of microcomputer systems and applications in public organizations. There is a dual emphasis in the course: analysis of critical concepts and issues relating to the management of micro-computer systems, and hands-on computer laboratory experience in the design, development and use of microcomputer applications.

**522. Automating Government Administration (3)**

An examination of the use of computers to assist government management, with special emphasis on automation of services such as finance, police and library departments. Will provide an introductory background in computers and their applications to government systems and files for non-computer specialists.

**523. Urban Information Systems for Public Management (3)**

The purpose of this course is to expose MPA students to the most significant information technologies impacting government management as we move to the 21st century: the World-Wide Web (Internet) and G.I.S. (Geographic Information Systems.) This course will introduce students to the tools and techniques used to construct Web pages and their appropriate usage. Students will also be exposed to the design, development and use of GIS in public organizations. This is a hands-on course which makes extensive use of computer technology, including Internet access to the World-Wide and e-mail.

**524. GIS Management and Applications for Public Managers (3)**

Geographic Information Systems (GIS) are rapidly becoming a keystone of government operations. Public managers are finding it increasingly important to understand not only what GIS can do but also how to use GIS applications to solve problems. This course will introduce students to the management and applications of GIS in the Public Sector. The class will cover the requirements for designing, developing and managing GIS applications for solving public sector problems. This course will also provide students with hands-on use of GIS for applications development in a computer lab environment as well as analysis of real-world GIS case studies. Traditional grading only.

**525. Non-Profit Management (3)**

Examination of the history, principal characteristics, scope, and unique management challenges confronting the nonprofit sector in the United States. While the sector as a whole, in all its variety, will be addressed, particular attention is given to the traditional and important role of nonprofits in the delivery of health and human services. Traditional grading only.

**527. Productivity and Performance Measurement (3)**

This course will identify and develop concepts of productivity and performance measurement for the government executive. Recent approaches to management of organizations will be examined to determine their relationship to productivity and performance measurement. Finally, management techniques and methods will be reviewed through case studies, guest speakers, and a workshop format to provide some knowledge of substantive approaches to the measurement of government outcomes. Traditional grading only.

**533. Race, Inequality and Public Policy (3)**

There has been considerable political debate over the problems of income inequality and poverty in the U.S. and the inability of public policies to remedy this situation. The Los Angeles "riots" have renewed this debate. The purpose of this seminar is to critically examine this debate and guide students to an understanding of the multiple sources of inequality in American cities. Particular attention will be paid to ways in which race, ethnicity and gender play a role in structuring the urban environment in which inequality originates and operates. In this way, our discussion of racial inequality and social policy will serve as a springboard for a more elaborate and critical examination of the fundamental philosophical, political and socio-economic problems currently afflicting our post-industrial society.

**535. Intergovernmental Relations (3)**

This course will present fundamental concepts and issues of intergovernmental relations in the United States. Topics covered include history of the field, intergovernmental revenues and expenditures, state and federal legislative processes, legislative advocacy, interorganizational management, and current issues.

**540. Grants Administration and Management (3)**

Study of the various types of financial and technical assistance to local public and quasi-public agencies; the strategies for locating and obtaining grant programs support; and the development of effective project systems for externally funded projects.

**542. Emergency Planning and Management (3)**

Students will study the planning and management processes and the issues involved in large scale emergencies. The nature of natural and technological risk and emergency will be explored via case studies. The public sector roles in contingency planning and response will be assessed.

**543. Coastal/Marine Resource Policy (3)**

Students will study the policy processes as applied to coastal/marine resources. The course will review the uses, issues and conflicts within the coastal and exclusive economic zone, and the public sector responses to balancing development and preservation demands via policy mechanisms.

**546. The Urban Crisis and the Public Administrator (3)**

A survey of the history of urbanization, the literature of urban power relations and decision-making, and the dynamics of race relations in the urban environment. Extensive interface with urban agency representatives will be a major focus of this course.

**547. Local Government Economic Development Processes (3)**

A detailed discussion of the nature, goals and processes of locally based economic development programs. Definition of governmental incentives designed to maximize private investment. A thorough explanation of property-related revenues from both the public and private perspectives.

**548. Housing Problems and the Urban Administrator (3)**

An overview of housing problems in contemporary urban society. This course will increase the public administrator's awareness of the interrelationships between local government administration and housing problems, and facilitate the public administrator's ability to deal with these problems.

**549. The Municipal Community Development Process (3)**

Overview of the municipal community development process with particular emphasis on the integration of municipal planning, zoning, housing, social service, and redevelopment functions. The course will explore basic concepts of each function, their interrelationships and administrative practices. Emphasis will be given to the impact of federal community development block grants and the local process.

**550. Urban Transportation Policy and Planning (3)**

Examines the status of urban transportation activities and needs today and discusses the near and long-term options for the future. Analyzes local, state, federal policy and inter-governmental system; Los Angeles urban transportation development, transit proposals and new policies and activities.

**554. Public Works Facilities and Urban Policy (3)**

Provides a study of public infrastructure essential to urban communities, and an analysis of urban policies and impacts from the perspective of the urban administrator. Students will examine infrastructure maintenance and expansion needs assessment, and intergovernmental financing with concentration on water and wastewater, transportation, solid waste, and public facilities, including schools.

**555. Public Budgeting (3)**

Public Budgeting (PPA 555) focuses on the formulation phase in the budget cycle. The course presents the major concepts and skills associated with budget preparation for all levels of government. Topics include: budget processes and structures, fundamental principles of public finance, economic growth and fiscal impacts, basic principles of government accounting, budget formats, performance measurement, fiscal condition and stress, revenue sources and structures, estimation and forecasting, capital budgeting and evaluating public projects, and fiscal federalism. Traditional grading only.

**560. Public Financial Management (3)**

Public Financial Management (PPA 560) focuses on the execution phase of the budget cycle, and thus, completes the full budget cycle. The course presents the major concepts and skills associated with budget administration for all levels of government. Topics include cash management and investment administration, debt management, purchasing, risk management, financial and managerial accounting, financial reporting, and auditing. Traditional grading only.

**567. Basic Governmental (Fund) Accounting (3)**

Provides a basic introduction to the unique characteristics of governmental and commercial accounting. Differences between governmental and commercial accounting are explained. Governmental accounting terminology basics and principles are discussed. Information is provided on the structure and types of funds and methods of classifying and recording accounting information. Types of financial reports and interpretation of financial statements are discussed. Particular emphasis is focused on the relationship between accounting and budgeting, financial reporting, auditing and other financial management activities for governmental and non-profit agencies.

**570. Negotiating Dynamics: Strategies and Skills (3)**

Examination of negotiating strategies and skills based on tested use of power and psychological principles in negotiations. Different strategies and skills examined for negotiating under varying levels of cooperation and conflict.

**571. Leadership Skills and Strategies in the Public Sector (3)**

Increasingly, urban governments are being criticized for a "lack of leadership" and an inability to move their bureaucracies toward solutions to complex problems. This course examines the theories of administrative leadership and the strategic application of leadership skills in an urban government environment. Students will also review current approaches to organizational excellence and its applicability to urban government leadership.

**575. Public Sector Employer-Employee Relations (3)**

Analysis of prevailing practices and techniques of collective bargaining and its continuing ramification on the economic, political and organization structure in the public sector. Emphasis is placed on a review of the entire employee relations field including the financial implications, costing techniques, impasse resolution including binding arbitration, job action and strike contingency planning, contract administration, worker compensation and public retirement systems. Instruction also provided on negotiation techniques through mock negotiation sessions.

**577. Public Sector Human Resources Management (3)**

The historical development of the civil service/merit system and how this impacts public personnel systems; laws which affect the

operation of a personnel system; analysis of the various components of a personnel system; impact of labor negotiations on personnel systems; importance of written policies and procedures; and role of the personnel system as a change agent. Traditional grading only.

**581. Government/Community Relations (3)**

An investigation of the inter-relationship between governments and community based organizations and the communities in which they operate and serve. Particular attention is paid to strategies and tactics used in diagnosing problems and opportunities and prescribing courses of action in such diverse areas as public safety, planning and community development, arts and culture and health, education and welfare. Elective for graduate students in Master of Public Policy and Administration. Traditional grading only.

**582. Citizen Advocacy and Public Policy Making (3)**

An in-depth analysis of citizen involvement and how it impacts upon policy formulation and public administration. The course involves classroom input from community leaders, action groups, legislators, public administrators, with interaction by the student.

**585. Public Policy and Administration Internship (3-12)**

Prerequisite: Consent of the instructor. A learning experience designed to provide an exposure to and understanding of the governmental environment. Students seeking the MPA degree who do not have managerial experience in government are required to participate in the Internship program. May be repeated for 12 units. Academic credit earned for the Internship program is beyond the 36 units required for the MPA degree.

**590. Special Topics in Public Policy and Administration (3)**

An investigation of a special problem as defined by the instructor that is of current interest to the field of public policy and administration. Course may be repeated for a maximum of 9 units with different topics.

**597. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Independent study in public policy and administration.

**610. Seminar in Urban Affairs (3)**

A broadly based interdisciplinary course which will give students an opportunity to develop expanded awareness of the interrelationships between various urban problems in the urban systemic environment.

**650. Seminar on Issues in Contemporary Public Administration (3)**

Survey of various issues and topics critical to effective public administration in the contemporary United States including the social and political context of contemporary public administration (e.g., increasing diversity of public demands of public agencies, increasing complexity of the intergovernmental network, etc.), responsibilities and obligations of public servants in contemporary governments and selected issues of public management.

**660. Seminar in Organization Theory and Behavior (3)**

Organizational change, effectiveness and allocation processes in public agencies. Theoretical models of open systems, rationalist, conflict, coalition and decision-making theories will be investigated with the aim of presenting a unified set of propositions about organizations. Leadership and small group theory.

**670. Policy Issue Analysis (3)**

This course introduces theories and approaches to policy analysis and a working knowledge of the skills involved in that practice. The core of the course follows the policy analysis cycle and includes: problem recognition, problem definition, development of alternative solutions, analysis of alternatives, selection of policy options, policy implementation and evaluation.

**696. Research Methods in Public Administration (3)**

Application of relevant research techniques to problems in public sector management and analysis. This course focuses on the design, development, and implementation of public sector research projects. The course is centered around the tools and techniques of research and their application in the development of a formal research design. Topics covered include: theories of research strategy, research design development, hypothesis design and testing, qualitative and quantitative data acquisition methods, survey research, initial data analysis techniques, statistical analysis, research results reporting and presentation, and evaluation research applications. Note: It is suggested that students take PPA 696 early in their MPA program in order to accrue maximum benefit in subsequent courses.

**697. Directed Research (1-3)**

Prerequisites: Consent of Center graduate advisor, advancement to candidacy. The definition, presentation and discussion of selected problems in public administration.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Psychology Department maintains an advising and admission office in PSY-206, (562) 985-5680, website <http://www.csulb.edu/~psyugadv>, for undergraduate students. Advisors are available during the Fall and Spring semesters to assist students with admission, registration, and degree requirements, as well as information about graduate study. An undergraduate handbook is available for purchase or on-line at the department's main website at <http://www.csulb.edu/~psych..>

Students desiring graduate information should contact the department office for referral to the Graduate Coordinator.

### ***Admission Under Impaction***

The number of applicants to the major in Psychology exceeds the number that can be accommodated by the Department's resources. For this reason the undergraduate Psychology major has been designated as impacted by California State University. Applicants for admission to the University with a major in Psychology will be designated as pre-majors and assigned a pre-major code. Acceptance into the pre-major category does not imply or assure subsequent acceptance into the major. Similarly, acceptance into the pre-major is not a prerequisite for admission into the major.

Admission into the major is determined solely on the basis of meeting all of the following supplemental criteria:

1. To be admitted to the psychology major, students must have received a grade of "C" or above in PSY 100 (General Psychology), and PSY 110 (Statistics), PSY 200 (Research Methods), or their equivalents.
2. In addition, students must have completed or be concurrently enrolled in PSY 301 (Introduction to Psychology as a Discipline and Profession) at the time of application to the major.
3. Students who meet these criteria and have at least 56 semester units of college level coursework with a GPA of at least 2.50 or at least 36 semester units with a GPA of at least 3.00 will be guaranteed admission to the major. Students with at least 56 semester units of college level coursework and a GPA between 2.00 and 2.49 will be admitted on a space-available basis.

To apply for admission to the Psychology major after meeting the supplemental criteria above, a student must complete the departmental application form obtainable from the Peer Advising Office in PSY 206, and attach transcripts of all previous college work taken elsewhere. The deadline for application for admission to the major for the Fall semester is February 18th of the preceding semester and for the Spring semester is September 24th of the preceding calendar year in order to register through VRR. However, applications are accepted on an ongoing basis.

### **Bachelor of Arts in Psychology (code 2-8130) (120 units)**

Students who graduate with a major in psychology should have current knowledge of:

1. the major theories in psychology and their influences across subfields and time.
2. the major methodologies of psychological research and fundamental statistical concepts.

3. the biological processes underlying behavior.
4. sensation, perception, information processing and retention.
5. how behaviors develop and change throughout the life span.
6. how internal, environmental, and social factors influence behavior.
7. individual differences in behavior, including those related to gender, ethnicity, and culture.
8. different perspectives on the origin and treatment of abnormal behavior.
9. ethical issues in teaching, research, and the practice of professional psychology.

In the course of learning the above, students are expected to graduate with the ability to:

1. design and implement research, analyze data appropriately and judge the significance of findings.
2. critically evaluate psychological research as well as popular notions of human nature.
3. use the primary literature of the field and prepare a clear, organized summary of a topic.
4. use computers for the preparation of manuscripts, the analysis of data, and communication.
5. understand and work effectively with a diversity of individuals and groups.
6. apply theory and research to contemporary problems.
7. maintain currency in the field and utilize that knowledge in their lives.

The psychology curriculum is designed to provide undergraduate students with a broad background in the principles of Psychology.

### Requirements

Lower Division: (14 units) PSY 100, 110, 141, 200.

Upper Division:

1. 2 units – PSY 301;
2. 6 units – two courses from PSY 331, 332, 333, 336, 340 or 341 or 342;
3. 6 units – two courses from PSY 351, 356, 361 or 365;
4. 6 units – two courses (not from the same group):
  - a. PSY 352, 354, 366, 370;
  - b. PSY 310, 314, 315, 359;
  - c. PSY 339I, 346I, 373, 375, 378, 381;
5. 6 units – 400-level PSY courses. No more than 3 units from 405, 406A, or 406B may be counted in this category. PSY 499 cannot be counted to satisfy this requirement;
6. 6 units – any upper division psychology courses not used to satisfy the requirement of sections 2 through 5;
7. 6 units – upper division units in American Indian Studies, American Studies, Asian and Asian American Studies, Anthropology, Black Studies, Chicano and Latino Studies, Economics, Educational Psychology, Geography, History, Human Development, Political Science, Social Work, Sociology, Women's Studies. At least 3 of the units must have an emphasis in contemporary U.S. ethnic studies. A list of acceptable ethnic studies courses may be obtained from the Psychology Advising Office in PSY 206.

Students are advised to consult with the Psychology Advising Office for course choices most relevant to their individual goals.

## Bachelor of Arts in Psychology with Honors (code 1-0003)

### Admission Requirements

1. Admitted to the major.
2. A 3.5 GPA in all Psychology courses.
3. At least a 3.25 overall GPA.
4. Letter of support from a psychology faculty member agreeing to serve as Honor Thesis Chair.
5. Submit honors application to the Psychology Honors Advisory Committee.

### Requirements

1. Complete all regular requirements for the psychology major.
2. Complete the following: PSY 310 (4 units), 490H (3 units), 496H (3 units), 498H (3 units).
3. Complete 3 units in any other 400-level psychology course exclusive of PSY 405, 406, or 499.

## Minor in Psychology (0-8130)

The Minor in Psychology is available to any non-Psychology or non-Liberal Studies major.

A minimum of 23 units which must include: PSY 100, 110, 200, twelve upper division psychology units including at least one course from PSY 331, 332, 333, 336, 341 or 342; and at least one course from PSY 351, 356, 361 or 365.

## Graduate Programs

The Department of Psychology offers graduate study leading to the Master of Science in Psychology (community clinical) and the Master of Arts degree with two options in (1) Research or (2) Industrial and Organizational psychology. In each program a basic core, including a thesis, is required, and there is opportunity for additional work in areas of special interest. The Master of Arts Research option program prepares students for doctoral study and provides a general background in psychology. Clinical electives are available in the Master of Arts Research option program. The Master of Arts Industrial and Organizational option prepares students for professional work; some graduates have entered doctoral programs. Admission to both programs is limited.

The Department has wide and varied course offerings and is housed in specially-designed facilities, including laboratories in physiological, social-personality, human factors and other areas of psychology and computer labs.

### Admission to Graduate Programs

Write directly to the Psychology Graduate Office for an application for admission to the graduate program in psychology. Acceptance by the department is contingent on (a) GPA based on last 60 semester units available at time of application; (b) Graduate Record Examination (GRE) scores on the verbal and quantitative sections; and (c) three letters of recommendation. All application materials, including complete transcripts, GRE scores and letters of recommendation, must be received by the department graduate coordinator by March 1 for the fall semester for the Master of Arts Research option and Master of Arts Industrial and Organizational option.

## Financial Support

A limited number of graduate assistantships (which include monthly stipends) are available through Psychology and other departments on campus. Students accepted into the program may be considered. Federal Work-study assignments are available in the department, but must be applied for through the University Financial Aid Office one or two semesters prior to obtaining the assignment; other aid available includes the Graduate Equity Fellowship (GEF). One student from each Master of Arts option's entering class will be awarded a J. Robert Newman Scholarship.

## Master of Arts in Psychology

### Option in General Research (code 5-8130)

This 30-unit degree program provides graduate psychology training for further study leading toward a doctorate. Core courses include quantitative and research methods as well as courses in the basic content areas of Psychology. Students from our program who later enter doctoral programs consistently inform us that they find themselves very well prepared for doctoral study as compared to other students.

### Prerequisites

1. A bachelor's degree with a major in psychology that includes:
  - A. two courses from the following (not from the same group):
    - a. PSY 331, 332, 333
    - b. PSY 336
    - c. PSY 340, 341, 342
  - B. one of the following: PSY 351; 356; 361; 365
  - C. PSY 310

or

2. A bachelor's degree with a major other than psychology and 24 units of upper division psychology substantially equivalent to those required for the baccalaureate degree at this university, including:
  - A. two courses from the following (not from the same group):
    - a. PSY 331, 332, 333
    - b. PSY 336
    - c. PSY 340, 341, 342
  - B. one of the following: PSY 351; 356; 361; 365
  - C. PSY 310
3. Six units of college level work in chemistry, physics, biology or mathematics as approved by the graduate coordinator. No more than three of the six units may be in approved mathematics courses.

### Advancement to Candidacy

1. Classified status.
2. An approved program of studies for the Master of Arts, General Research Option degree.
3. Satisfactory completion of the CSULB Writing Proficiency Examination. Information is available in the Testing Office (BH-216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.

4. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
5. Be enrolled in regular session.
6. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in PSY 698, Thesis.

### Requirements

1. The student must complete, as a graduate student, 30 units of graduate coursework (500-699), 24 of which must be in Psychology (not including PSY 697) including:
  - a. either 511 or 512 if 411 or 412 or equivalent not taken as an undergraduate;
  - b. one course chosen from 518, 527, 533, 541, 551, 556, or 582, if corresponding 400-level course or equivalent not taken as an undergraduate;
  - c. 696 (comprehensive exam required);
  - d. one course chosen from 631, 632, 634, or 637 (with comprehensive exam); one course chosen from 651, 656, or 661 (with comprehensive exam); and one additional course chosen from either group; 698 (6 units).
2. With the graduate coordinator's approval a maximum of six units from related areas may be used for six of the 30 units.
3. Attendance at 12 Department Colloquia, six of which must be completed prior to preliminary oral examination, all 12 must be completed prior to final oral examination.
4. Completion of all requirements as established by the M.A. Research Committee.
5. Comprehensive examinations taken in three of the four required graduate seminars, as outlined in 1c and 1d above.
6. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

## Master of Arts in Psychology

### Option in Industrial and Organizational Psychology (code 5-8132)

Students admitted to this program prepare for business and industrial positions including personnel and organizational development, employee training, applicant and employee testing, etc. Graduates usually go directly into business and industry, though some enter Ph.D. programs.

### Prerequisites

1. A bachelor's degree with a major in psychology or 24 upper division units of psychology.
2. PSY 200 (Research Methods), PSY 310 (Intermediate Statistics), PSY 314 (Psychological Assessment) or PSY 315 (Principles of Psychological Testing), PSY 332 (Cognition) or PSY 333 (Learning) and PSY 351 (Social Psychology) or PSY 453/553 (Group Dynamics). Students may be admitted to the MAIO Program if they lack only one required course. The missing course must be completed within the first year of graduate study. Students missing more than one prerequisite course at the time of application may be offered provisional admission if they submit an approved plan to take the missing courses prior to admission.

### Advancement to Candidacy

1. Classified status.
2. An approved program of studies of the Master of Arts, Industrial and Organizational Option degree.

3. Satisfactory completion of the CSULB Writing Proficiency Examination. Information is available in the Testing Office (BH 216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
4. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 graduate units).
5. Be enrolled in regular session.
6. Application for advancement to candidacy must be done prior to or concurrent with enrollment in PSY 698, Thesis.

#### Requirements

1. The student must complete a minimum of 30 units of graduate course work. The following courses are required: PSY 581, 585, either 511 or 512, one course chosen from 515 or 582 or 696, 590 (Special Topics, subject to Graduate Coordinator approval), 681, 683, 686, 688 and 698.
2. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.
3. Students with credit in 411 or 412 as undergraduates may petition the MAIO Program Committee to substitute a maximum of 3 units from related areas towards the 30 unit program.

#### Master of Science in Psychology (code 6-8134)

*The MS Program in Psychology has been indefinitely suspended and is currently not accepting applications nor admitting students. For those seeking MFT licensure, it is suggested they contact the Educational Psychology and Administration Department.*

The Master of Science in Psychology degree program covers a broad spectrum of theory and skills in the areas of community and clinical psychology and is specifically designed to meet California State requirements for Marriage, Family and Child Counseling licensure. The program provides training in a wide range of professional skills, including prevention of mental health problems, promotion of social competence, empowerment of disadvantaged groups, and development of counseling and psychotherapy skills.

#### Prerequisites

1. A bachelor's degree with a major in psychology or a major in a related field and 25 units of upper division psychology.
2. PSY 310 Intermediate Statistics; 314 Psychological Assessment or 315 Principles of Psychological Testing; 332 Cognition or 333 Psychology of Learning (or course in Behavioral Modification); 354 Psychology of Women; Ethnic Studies 319 or any upperdivision survey course; 370 Abnormal Psychology; a developmental psychology course; and 373 Introduction to Clinical Psychology.
3. Written application which is designed to screen applicants for skill and interest match with the overall program including a statement of goals and past experience in the field.
4. A personal interview conducted by a selection committee.

#### Advancement to Candidacy

##### Prerequisites

1. Classified status.
2. An approved program of studies for the Master of Science in Psychology degree.

3. Satisfactory completion of the CSULB Writing Proficiency Examination. Information is available in the Testing Office (BH 216). This requirement can also be met by evidence that the student passed the WPE while an undergraduate at CSULB or at certain CSU campuses.
4. A minimum 3.0 overall GPA and a 3.0 GPA in all units undertaken for the program (at least 6 units).
5. Be enrolled in regular session.
6. Application for Advancement to Candidacy must be done prior to or concurrent with enrollment in PSY 698, Thesis.

#### Requirements

1. The program is a 55-unit Master's degree. The following courses are required: PSY 661, 575, 698.
2. A preliminary oral examination on the thesis proposal and a final oral examination in defense of the completed thesis.

#### Courses (PSY)

All courses in this department are traditional grading only unless otherwise stated.

##### Lower Division

##### 100. General Psychology (3)

Prerequisites: Completion/concurrent enrollment in ENGL 100 or equivalent. Introduction to the scientific study of human behavior. Designed to provide the student with a basic background for further study and for practical application in everyday life. (CAN PSY 2)

##### 110. Introductory Statistics (4)

Prerequisites: PSY 100, ENGL 100, and eligible to take a General Education Mathematics course. Calculation and meaning of statistical measures. Descriptive and inferential statistics. Not open to students with credit in PSY 210. (Lecture 3 hours, laboratory 2 hours.)

##### 130. Critical Thinking (3)

Prerequisite: Completion/concurrent enrollment in ENGL 100 or equivalent. The nature of critical thinking; models and strategies; common fallacies of reasoning; self-regulation in the thinking process; application of critical thinking to specific areas. Not Open to students with credit in PSY 230.

##### 141. Psychobiology (3)

Prerequisites: PSY 100 and ENGL 100 or equivalent. Introduction to the study of behavior from a biological point of view. Biological systems and processes underlying behavior, with emphasis on brain mechanisms, presented in the context of fundamental concepts and issues in psychology. Not Open to students with credit in PSY 241.

##### 150. Personality and Social Behavior (3)

Prerequisite: One of the Foundation courses (may be taken concurrently). Psychological principles pertinent to the understanding of personality and interpersonal dynamics. Discussion of research and theories of social motivation, conflict and anxiety, adjustment mechanisms and personality change.

##### 200. Research Methods (4)

Prerequisites: PSY 100, PSY 110 or equivalent and ENGL 100 or equivalent. Introduction to basic research methods in Psychology. Principles of experimentation, naturalistic observation, correlational studies. (Lecture 3 hours, laboratory and field 3 hours.)

##### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 300I. Mind Control or Freedom (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. How people control others using informational, manipulative and coercive approaches. Consideration of basic processes of persuasion, coercive persuasion and coercive control: sources of power in society; and the psychological and ethical implications of freedom and responsibility in coping with control attempts by friends, government, advertisers, cults, etc.

### 301. Introduction to Psychology as a Discipline and Profession (2)

Prerequisite: PSY 100. The course will cover the value of psychology as a field of study including its application for the BA student as well as those seeking advanced degrees. Careers and preparation for graduate work will be stressed. In addition, key ethical considerations will be discussed, as well as contemporary controversies within the field.

### 301A. Psychology as a Discipline and a Profession — Advanced (1)

Prerequisite: PSY 100. Must be taken concurrently with PSY 301. Designed to provide the psychology major with in depth knowledge of the discipline as well as detailed information about graduate study and careers as professional psychologists. Recommended for students expecting to pursue graduate study in psychology.

### 310. Intermediate Statistics (4)

Prerequisite: PSY 110 or introductory statistics course. Basic theoretical concepts of statistics and the use of these concepts in the selection and development of model testing, hypothesis testing and parameter estimation procedures. Both single measure (univariate) and correlation (bivariate) concepts are included. (Lecture 3 hours, laboratory 2 hours.)

### 314. Psychological Assessment (3)

Prerequisites: PSY 110 and 200. Principles of assessment applied to the measurement of individual behavior and to programs intended to affect behavior. Includes interviews, tests and other methods.

### 315. Principles of Psychological Testing (3)

Prerequisites: PSY 110 or one statistics course. Principles and practices of group and individual testing in the fields of intelligence, aptitude, achievement, personality and interest. Emphasis on the evaluation of tests as measuring devices, their applicability and limitations.

### 331. Sensation and Perception (3)

Prerequisites: PSY 141 and 200. Basic phenomena of the senses, their physiological correlates and integration in complex perceptual judgments.

### 332. Cognition (3)

Prerequisites: PSY 141 and 200. Study of higher-order processes basic to the acquisition of knowledge. Includes thinking, problem solving, creativity, information processing, decision making, judgment, concepts and imagination.

### 333. Psychology of Learning (3)

Prerequisites: PSY 141 and 200. Human and animal learning with special emphasis on experimental evidence and techniques.

### 336. Psychology of Emotion (3)

Prerequisites: PSY 141 and 200. Discussion of research, theories and coping mechanisms of human emotions.

### 339I. Psychology of Sport Behavior and Athletic Performance (3)

Prerequisites: Completion of GE Foundation requirements, PSY 100, and upper-division standing. Psychological dimensions of attitudes, behaviors, and performance in sport and exercise environments. Same course as KPE 339I.

### 340. Physiology of Behavior (3)

Prerequisite: PSY 141 and 200. An in-depth examination of central nervous system (CNS) components that underlie the major elements of our behavioral capabilities. Topics include the major structural and functional features of the neuron and of selected systems that are representative of the sensory, integrative, and motor capabilities of the CNS.

### 341. Neuropsychology (3)

Prerequisite: PSY 141 and 200. Neurological correlates of behavior with special emphasis upon central nervous system structure and function. Experimental evidence on which neuropsychological theories of behavior are based.

### 342. Psychopharmacology (3)

Prerequisites: PSY 141 and 200. This course offers a broad introduction to the effects of various medications on the central nervous system and behavior. This includes neurotransmitter functions, physiological and biochemical mechanisms of drug action with emphasis on the effect of psychiatric medications, common "street drugs" and those sold over the counter; their potential for abuse is also considered.

### 346I. Human Sociobiology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human social behavior as seen in context of evolutionary biology. Topics include the importance of kinship in human societies, altruism and reciprocity, human sexuality, parent-offspring relations, ethical and legal systems and religion.

### 350I. Psychology and Contemporary Social Issues (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Application of social psychological principles toward understanding major contemporary social issues.

### 351. Social Psychology (3)

Prerequisites: Completion of GE Foundation requirements and PSY 100. Study of individuals and groups as they are affected by social interactions. Includes such topics as social cognition and learning, attitudes and persuasion, social influence (conformity, obedience), interpersonal perception and attraction (liking and loving), anti- and prosocial behavior (aggression, violence, altruism), cooperation and competition, leadership, group dynamics, sexual behavior.

### 352. Psychology of Male Roles (3)

Prerequisite: PSY 100. Exploration of male roles as they affect interactions between men and men, men and women, and men and children, as well as interactions related to work and play. Course is designed to enhance personal understanding through an examination of theory, research and experience.

### 354. Psychology of Women (3)

Prerequisite: PSY 100. Psychology of sexism; the biological and social determinants of the psychology of women. Open to all qualified men and women students.

### 356. Personality (3)

Prerequisites: Completion of GE Foundation requirements, and PSY 100. Discussion of theories, research, and assessment in personality.

### 359. Self-Observation and Self-Development (3)

Prerequisite: PSY 100. Examination of personal traits and behavior patterns as reflected by objective measures, group interactional procedures and video feedback. Development of self through systematic self-observation.

### 361. Psychology of Child and Adolescent Development (3)

Prerequisites: Completion of GE Foundation requirements and PSY 100. Theoretical and methodological approaches in the study of developmental change processes from prenatal development through adolescence. Emphasis on ethnic, gender, and social class differences in development combined with emphasis on the universal features of human development. Topical coverage includes physical-motoric, social, physiological, and cognitive aspects of development.

### 365. Psychology of Adult Development and Aging (3)

Prerequisite: PSY 100. Methodological and theoretical problems and issues in the study of developmental change processes from young adulthood through old age. Topical coverage includes physical-motoric, social, physiological and intellectual aspects of behavioral functioning.

### 366. Fathers and Fathering: A Psychosocial View (3)

(This course is for both women and men.) Prerequisites: PSY 100, SOC 100 or FCS 111. An overview of the psychological literature on parenting with emphasis on fathers/fathering in the U.S. Focus on current literature and research regarding the perceived and changing roles of fathers, including ethnic fathers, in an effort to diminish stereotypes. Same course as FCS 358.

### 370. Abnormal Psychology (3)

Prerequisites: Completion of GE Foundation requirements and PSY 100. An overview of abnormal behavior as a portion of the continuum of human behavior. The course will cover the field's historical approaches, the range of psychological disorders, as well as their biological, psychological, social consequences, and treatment.

### 373. Introduction to Clinical Psychology (3)

Prerequisite: PSY 370. Survey of the field of clinical psychology including an introduction to its history, diagnostic procedures, therapeutic process, clinical training, research approaches, and ethical issues.

### 375. Community Psychology (3)

Prerequisite: PSY 100. Basic concepts and skills of community psychology, including community assessment, community intervention, program evaluation and social policy analysis, relationships between social systems and individual behavior. Emphasis on economically disadvantaged, minorities, women, youth and the aged.

### 378. Health Psychology (3)

Prerequisite: PSY 100. Research and theory regarding attitudes, beliefs, and behaviors related to health and illness. Individual difference variables will be examined. Analysis of applications of psychology to prevention, counseling, and treatment of major health problems.

### 381. The Psychology of Work Behavior (3)

Prerequisite: PSY 100. Problems and procedures in industrial psychology. Consideration of job analysis, personnel selection and appraisal, organizational and social context of human work, physical environment and consumer behavior.

### 382. Introduction to Cognitive Science (3)

Prerequisites: Completion of all Foundation courses; at least one Explorations course; upper-division standing; at least six units in two areas chosen from computer Science, Linguistics, Philosophy, and Psychology. Introduction to cognitive science including historical development, foundational philosophical presuppositions, core topics, underlying theoretical framework, explanatory goals, different methodologies and theoretical contributions of its constitutive disciplines. Same course as PHIL 482.

### 390. Special Topics in Psychology (3)

Prerequisite: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated with different topics to a maximum of nine units, but no more than six units may be used to satisfy requirements of the major.

**Note: 400-level courses open to Psychology majors and minors only.**

### 401./501. History of Psychology (3)

Prerequisite: Six upper division units in psychology. The historical background and development of psychology as a science. Contributions of major individuals and systems.

### 405. Field Work in Psychology (3)

Prerequisites: Psychology major, junior or senior standing (3.0 GPA), PSY 200, 110, 12 upper division units in psychology, letters of recommendation, consent of instructor. Student works under the supervision of, or in association with, a professional having an advanced degree in a psychological discipline and who is engaged in the practice of some aspect of psychology in the surrounding community. Placements include schools, hospitals, clinics, and community mental health agencies. Nine hours of field work per week for a minimum of 13 weeks. May be repeated to a total of six units. Credit/No Credit grading only.

### 406A,B. Applications of Psychology (3)

Prerequisite: Consent of instructor. Students are expected to take both 406A and 406B. Students apply for 406A-B during the semester before the courses are taken. Theoretical and laboratory training in the topic areas are followed by applied work with clients, schools, businesses, etc., as appropriate. Students are supervised by the course instructor.

### 407./507. Introduction to Family Therapy (3)

Prerequisites: PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in family

structure, historical development of family therapy theory and practice.

### 411./511. Statistical Design and Analysis of Experiments (3)

Prerequisite: PSY 310 or 412 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction.

### 412./512. Multivariate Statistical Analysis (3)

Prerequisite: PSY 310 or 411 or consent of instructor. Accuracy and cost of inference from multiple variables. Theoretical implications of inferred structures. Applications.

### 418./518. Computer Applications in Psychology (3)

Prerequisites: PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hours, laboratory 2 hours.)

### 427./527. Human Factors (3)

Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologist. These skills will include systems and analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours) Traditional grading only.

### 433./533. Research in Cognition and Learning (3)

Prerequisites: PSY 200, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hours, laboratory 3 hours.)

### 436./536. Psychology of Mood (3)

Prerequisites: PSY 100, 200, 310, or permission of instructor. Analyses of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.

### 438./538. Psycholinguistics (3)

Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to the study of language. Theory and research in the production and understanding of language, language acquisition, memory for language, and use of language in its social context.

### 439./539. Language Acquisition (3)

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. (Seminar)

### 441./541. Research in Physiological Psychology (3)

Prerequisites: PSY 200, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.)

### 444./544. Cognitive Neuroscience (3)

Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.

### 451./551. Research in Social Psychology (3)

Prerequisites: PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, lab 3 hrs)

### 453./553. Principles of Group Dynamics (3)

Prerequisite: PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation.

**456./556. Research in Personality (3)**

Prerequisites: PSY 200, 310, 356, or consent or instructor. Research methods and problems in personality. (Lecture 2 hrs, laboratory 3 hrs.)

**457. Psychology of Sexuality (3)**

Prerequisites: PSY 351 or 356 or 370, and Psychology Major with senior class standing. Survey of topics in human sexuality with emphasis on developmental psychology of sexuality, attitudes and feelings related to sexuality, sexual variations and deviations, and sexual dysfunction and sex therapy.

**458. Current Issues in Personality (3)**

Prerequisites: PSY 200 and 356. Current theoretical, philosophical and methodological issues in personality. Coverage may include the person-situation interaction, the role of genetics, aggression, altruism, stress/coping, and gender differences.

**463. Social and Personality Development (3)**

Prerequisites: PSY 361. The development of social behavior and personality in children and adults. Coverage will include theoretical approaches and processes as well as content areas, such as the development of aggression, morality, prosocial behavior, peer relations, and sex differences.

**475./575. Clinical Interviewing (3)**

Prerequisites: Permission of instructor, PSY 314. Study and development of the clinical techniques of observation and the interview.

**477. Psychology of Drinking and Smoking (3)**

Prerequisites: PSY 110, 200, and six upper division psychology units. An examination of theory and research on psychological causes and effects of drinking of alcohol and smoking of cigarettes, including analyses of individual differences on major demographic variables of sex, age, and ethnicity. Consideration of major approaches and methods to recovery from alcohol dependency and achieving smoking cessation. Traditional grading only.

**490. Advanced Topics in Psychology (3)**

Prerequisite: One 300-level course in the subject matter of the course. Advanced study of selected topics in one basic area of psychology, e.g., cognition and learning, emotion and motivation, physiological, social, personality or developmental. May be repeated with different topics to a maximum of nine units. See *Schedule of Classes* for subjects being offered during a given semester.

**A. Applied Social Psychology**

**490H. Special Topics – Honors (3)**

Prerequisite: Permission of the Psychology Honors Program Advisory Committee. Advanced study of selected topics in psychology. Topics to be announced in the *Schedule of Classes*. Course may be repeated to a maximum of 6 units with different topics. Traditional grading only. Course may be repeated to a maximum of 6 units with different topics.

**496H. Research Preparation – Honors (3)**

Prerequisite: Permission of the Psychology Honors Program Advisory Committee. Development of a senior honors thesis proposal. Traditional grading only.

**498H. Senior Thesis – Honors (3)**

Prerequisites: PSY 310, 490H, 496H, and permission of the supervising faculty member. Final completion of an original research project with the product being both an oral and written presentation of the research. Traditional grading only.

**499. Independent Study (1-3)**

Prerequisite: Consent of department. Student will conduct independent laboratory or library research and write a report of the research. May be repeated for a maximum of 6 units.

**Graduate Division**

**501./401. History of Psychology (3)**

Prerequisite: Six upper division units in psychology. The historical background and development of psychology as a science. Contributions of major individuals and systems. Traditional grading only.

**507./407. Introduction to Family Therapy (3)**

Prerequisites: PSY 200, 373, 475 or consent of the instructor. Survey of the field of family therapy including origins of differences in

family structure, historical development of family therapy theory and practice. (Lecture/ Discussion.) Traditional grading only.

**511./411. Statistical Design and Analysis of Experiments (3)**

Prerequisite: PSY 310 or 412/512 or consent of instructor. Simple and complex designs. Statistical inference in economical experimentation and in scientific inference and prediction. (Lec 3 hours.) Traditional grading only.

**512./412. Multivariate Statistical Analysis (3)**

Prerequisite: PSY 310 or 411/511 or consent of instructor. Accuracy and cost of inference from multiple predictors. Discovering structural relationships among multiple variables. Theoretical implications of inferred structures. Applications. (Lecture 3 hours.) Traditional grading only.

**515. Test Construction Theory and Practice (3)**

Prerequisites: PSY 314 or 315. Consideration of problems in the construction of tests for personnel selection, educational screening, personality assessment, aptitude estimating, and measurement of academic achievement. Practice in the development of tests. (Lecture 2 hrs, laboratory 2 hrs.) Traditional grading only.

**518./418. Computer Applications in Psychology (3)**

Prerequisites: C/ST 200 or equivalent; PSY 310 or equivalent or consent of instructor. Foundations of computer technology and its application to psychology. Emphasis on real-time control by digital computers in psychological research and applications. (Lecture 2 hrs, laboratory 2 hrs.) Traditional grading only.

**527./427. Human Factors (3)**

Prerequisites: PSY 310 and two of the following: PSY 331, 332 or 333. Systematic application of psychological principles to the design of person-machine systems. Emphasis in the laboratory on the development of skills required of a human factors psychologist. These skills will include systems analysis, cognitive task analysis, rapid prototyping and usability testing. (Lecture 2 hrs, laboratory 3 hours.) Traditional grading only.

**533./433. Research in Cognition and Learning (3)**

Prerequisites: PSY 200, 310, and 331 or 332 or 333. Research methods in cognition, learning, and perception. Laboratory includes experiments on selected topics. (Lecture 2 hrs, lab 3 hrs.) Traditional grading only.

**536./436. Psychology of Mood (3)**

Prerequisites: PSY 100, 200, 310, or permission of instructor. Analysis of normal mood states, including survey of existing literature. Topics may include the relationship of mood to important antecedents and consequences such as sleep-wake cycles, exercise, nutrition, physical health, stress, and cognition. Self-applications for purposes of mood regulation also will be covered.

**538./438. Psycholinguistics (3)**

Prerequisites: Six units of linguistics or upper division psychology. Psychological and linguistic approaches to study of language. Comparison of human language with communication in lower animals. Language development, disorders, symbolism and universals. (Lecture 3 hours.) Traditional grading only.

**539./439. Language Acquisition (3)**

Prerequisites: Six units of linguistics or upper division psychology, or consent of instructor. Theory and research on the acquisition of first and second languages in children and adults. Psycholinguistic perspectives on the development of phonological, syntactic, semantic, and pragmatic aspects of language. The interacting roles of developmental stages, cognitive processes, individual differences, social influences, and the cultural context will be stressed. (Seminar.) Traditional grading only.

**541./441. Research in Physiological Psychology (3)**

Prerequisites: PSY 200, 310, and 341. Research methods in psychobiology. Includes fundamentals of neuroanatomy, surgical procedures for stimulation, lesioning and recording, pharmacological procedures used in neuropsychological research. (Lecture 2 hours, laboratory 3 hours.) Traditional grading only.

**544./444. Cognitive Neuroscience (3)**

Prerequisites: PSY 332 and one of the following: PSY 340, 341, or 342. Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources. Traditional grading only.

- 551./451. Research in Social Psychology (3)**  
Prerequisites: PSY 200, 310, 351, or consent of instructor. Research methods and problems in social psychology. (Lecture 2 hrs, laboratory 3 hrs.) Traditional grading only.
- 553./453. Principles of Group Dynamics (3)**  
Prerequisites: PSY 110, 200, 351, or consent of instructor. Behavior in groups with attention to such factors as leadership, followership, interaction and influence including organization, management, morale, and efficiency. Problems, techniques and methods of investigation. (Lecture/Discussion.) Traditional grading only.
- 556./456. Research in Personality (3)**  
Prerequisites: PSY 200, 310, 356, or consent of instructor. Research methods and problems in personality. (Lecture 2 hours, laboratory 3 hours.) Traditional grading only.
- 575./475. Clinical Interviewing (3)**  
Prerequisites: PSY 314 or 315. Permission of Instructor. Study and development of the clinical techniques of observation and the interview. Traditional grading only.
- 581. Organizational Psychology (3)**  
Prerequisites: PSY 351 or 453/553. Analysis of organizational behavior and practices from a systems point of view. Consideration of employee motivation, power, leadership, communication, decision-making, and organizational change. Research methods for studying organizations. Traditional grading only.
- 582. Research in Industrial and Organizational Psychology (3)**  
Prerequisites: PSY 200 and 310. Research methods and problems in industrial psychology. Includes direct observational, psychophysical, regression, survey, experimental, and quasi-experimental methods. (Lecture 2 hours, laboratory 3 hours.) Traditional grading only.
- 585. Proseminar in Personnel Psychology (3)**  
Prerequisites: PSY 314 or 315. Advanced consideration of problems and procedures in personnel psychology. Includes both differentiation and synthesis of major areas within this field. Not open to students with credit in PSY 586. Traditional grading only.
- 590. Advanced Topics in Psychology (1-3)**  
Prerequisites: Consent of instructor. Topics of current interest in psychology selected for intensive development. May be repeated (with selection of different topics) for a maximum of six units. Topics will be announced in the *Schedule of Classes*. Traditional grading only.
- A. Large Group Intervention  
B. SPSS-Data Analysis  
C. Levels of Analysis  
D. Introduction to Time Series Analyses  
E. SAS (Statistical Analysis System)  
F. Designing Effective Teams  
G. Issues in Compensation
- 599. Independent Study (1-3)**  
Prerequisite: Consent of department. Unclassified graduate student will conduct independent laboratory or library research and write a report of the research. May be repeated for a maximum of 6 units. Traditional grading only.
- 631. Seminar in Perception and Physiological Psychology (3)**  
Prerequisite: PSY 331 or 340 or 341 or 342 or consent of instructor, consent of graduate coordinator. Critical examination of selected topics in perception, information processing and neurophysiological correlates of behavior. Student emphasis on either perception or physiological psychology. Traditional grading only.
- 632. Seminar in Learning (3)**  
Prerequisites: PSY 333 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in learning. Traditional grading only.
- 634. Seminar in Cognition (3)**  
Prerequisites: PSY 333 or 332 or consent of instructor, consent of graduate coordinator. An examination of method, theory and experimental evidence in selected topics from the area of cognition. Traditional grading only.
- 637. Seminar in Emotion and Motivation (3)**  
Prerequisites: PSY 336 or consent of instructor, consent of graduate coordinator. Advanced consideration of selected topics in animal and human motivation and emotion. Traditional grading only.
- 651. Seminar in Social Psychology (3)**  
Prerequisites: PSY 351 or consent of instructor, consent of graduate coordinator. Critical examination of interpersonal relations, social influence, group membership and influence, and intergroup relations. Traditional grading only.
- 656. Seminar in Personality (3)**  
Prerequisites: PSY 356 or consent of instructor, consent of graduate coordinator. Theories of personality structure, dynamics, and development. Critical examination of research deriving from different theoretical approaches. Traditional grading only.
- 661. Seminar in Developmental Psychology (3)**  
Prerequisites: PSY 361 or consent of instructor, consent of graduate coordinator. Consideration of theoretical and methodological issues in life span developmental psychology. Critical examination of research on selected topics, including development of physiological function, intelligence, language, learning processes, sensory processes, perception, personality and social behavior. Traditional grading only.
- 681. Seminar in Applications of Psychology to Industry (3)**  
Prerequisites: At least 12 units of graduate-level work within the MA/IO program including 511 or 512 and 582. Psychological applications to current problems of industry. Development of thesis proposal and pretest of thesis research techniques required. Traditional grading only.
- 683. Issues of Organizational Development (3)**  
Prerequisites: PSY 581. An examination of the theory, research, techniques, and practices in the field of organizational development, the professional practice of managing change in organizations. The organizational development steps of diagnosis, contracting, data collection, intervention, and evaluation will be covered. Techniques, such as team building, systems analysis, process consultation, large-group interventions and survey feedback will be examined. Special attention will be paid to challenges of organizational development in diverse and international organizations. Traditional grading only.
- 686. Issues in Training (3)**  
Prerequisites: PSY 332 or 333, and 585. This course is designed to provide students enrolled in the MA/IO program with advanced training in the area of training and development programs for organizations. The course will cover issues in the adult learning environment, needs assessment, training design and implementation, evaluation of training, executive and management development, special issues in training, and the learning organization. As the intent of the course is to prepare students to be competent developers and presenters of training programs, a major focus will be placed on providing students with experiential skill practice in the areas of needs assessment, design, and implementation. Traditional grading only.
- 688. Practicum in Industrial and Organizational Psychology (2)**  
Prerequisites: At least 12 units of graduate-level coursework within the MA/IO program. Practice of industrial psychology or human factors in various industrial settings. Individual research and consultation with industrial or governmental organizations. Traditional grading only.
- 696. Research Methods (3)**  
Prerequisites: PSY 411/511 or 412/512, consent of graduate coordinator. The nature and function of research in the behavioral sciences. Experimental, correlational and case study methods. Research design and analysis using multiple linear regression model, general probability models and Bayesian inference. This course is offered particularly for Master of Arts students and includes the required comprehensive examination for MA Research students. Traditional grading only.
- 697. Directed Research (1-3)**  
Prerequisites: Consent of graduate coordinator and department. Theoretical and experimental problems in psychology requiring intensive analysis. Traditional grading only.
- 698. Thesis (1-6)**  
Prerequisites: Advancement to candidacy, consent of advisor. MA/IO students: PSY 681 as prerequisite or corequisite. Planning, preparation, and completion of a thesis in psychology. Must be repeated for a total of six units of credit.

## Master of Physical Therapy (code 7-1226)

The Master of Physical Therapy program is designed to provide entry-level professional preparation in physical therapy consistent with national trends. The proposed curriculum consists of 60 units of didactic course work followed by 12 units of postgraduate clinical internship for licensure to practice physical therapy in the State of California. The professional course work is preceded by appropriate prerequisite courses at the undergraduate level. This program will provide an opportunity for the student with a baccalaureate degree in physical therapy or in a related field of study, or who currently holds a license to practice physical therapy, to pursue a professional masters degree in physical therapy (not an advanced clinical speciality degree). Graduates will be prepared to assume responsible clinical administrative and consultative roles in a broad spectrum of physical therapy practice settings; and be responsive to changing expectations, the expanding body of knowledge, and the physical therapy practice environment.

### Requirements

The Master of Physical Therapy program requires completion of all prerequisite and professional course work described in the following:

#### Program Prerequisites

*Natural Sciences:* CHEM 111A, 111B, 327, PHYS 100A, 100B

*Biological Sciences:* BIOL 208, 211A, 211B, 341, 441, HHS 401, 402, 460, 471

*Biostatistics:* BIOL 260 (or equivalent)

*Behavioral Sciences:* PSY 100, HHS 374

(Note: Computer literacy is expected.)

### MPT Core Requirements

Core: PT 501, 502, 503, 505, 506, 507, 508, 509, 510, 511, 512, 513, 522, 523, 524, 604, 605, 606, 607, 696, 697, OR 698

Electives: 610-619

### Postgraduate Internship Certification Requirements

P T 525 (must be completed to be eligible to take the state examination for licensure)

### Admission to the Master of Physical Therapy Program

The physical therapy masters program is open to all college graduates with a Bachelor of Science degree in Physical Therapy, or other disciplines, who have met prerequisite requirements and demonstrate academic promise and the ability to perform at a satisfactory level during their graduate studies.

To be considered for acceptance into the graduate program, the applicant must:

1. Complete all prerequisite courses with a minimum of "C" (students admitted to graduate status must maintain a minimum 3.0 overall grade point average in all upper division prerequisite coursework);
2. Hold, or be eligible to hold, an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by an appropriate campus authority;
3. Have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted;
4. Submit results of the General Aptitude Section of the Graduate Record Examination (quantitative, verbal, and analytical), taken within the past 5 years;
5. Provide academic and personal references as required;
6. Provide documentation of personal experience in a variety of physical therapy settings; and
7. Be recommended by the physical therapy faculty.
8. All candidates whose preparatory education was principally in a language other than English must demonstrate competency in English. Refer to the CSULB Bulletin for requirements for completing the Test of English as a Foreign Language (TOEFL).

The master's degree program is a 60-unit, four semester full-time course of study. Graduates who have not met licensure eligibility requirements or who do not hold a valid physical therapy license (have not completed the BS degree in physical therapy) will be required to take a post-graduate internship (12 units). The course of study is most appropriate for graduates with degrees in related fields but does not exclude the person holding a baccalaureate degree in physical therapy. For graduates holding the BS degree in physical therapy, courses may be petitioned for the purpose of waving them providing a similar or like course has been completed which meets licensure standards. The emphases in the curriculum is to prepare graduates who desire to practice in a variety of clinical settings, e.g., private practice, acute care, rehabilitation, home health and extended care.

## Advancement to Candidacy Requirements

1. Classified graduate student status.
2. Satisfactory completion of the CSULB Writing Proficiency Examination.
3. A minimum 3.0 overall grade point average in all program graduate work.
4. Be recommended by the faculty to take the comprehensive examination.
5. Enrollment in regular session.

## Requirements for Admittance to Clinical Practice

1. Complete all requirements for the master's at the time of application to clinical practice.
2. Successfully complete either (a) a research thesis or project (PT 698) or (b) directed studies (PT 697) under the guidance of a faculty advisor.
3. If choice b (above) is selected (PT 697) the student must also successfully complete a program comprehensive examination.

## Courses (P T)

### Upper Division

#### 485. Clinical Practice III (6)

Prerequisites: Completion of all professional courses with a minimum passing grade of 2.0 (C) and consent of instructor. Supervised clinical experience (internship) in designing, implementing and managing a physical therapy plan of care in a variety of clinical settings for 18-40 hour weeks. Course fee required.

### Graduate Courses

#### 501. Musculoskeletal and Biomechanical Principles I (3)

Prerequisites: HHS 401, admittance to MPT program or consent of instructor. Advanced study of tissue (bone, muscle, dense fibrous connective tissue, cartilage, nerve) and joint mechanics and pathomechanics including use, disuse, aging, with application to therapeutic procedures and posture and movement of the upper limb. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 502. Musculoskeletal and Biomechanical Principles II (3)

Prerequisites: PT 501 and consent of instructor. Continuation of the investigation and analysis of the biomechanics and the principles of motion analysis. Includes applied mechanics, pathomechanics, investigation of regional pathomechanics of the trunk and lower limb with emphasis on gait and muscle strength testing. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 503. Management of the Musculoskeletal System I (3)

Prerequisites: PT 501, 502, 504 (concurrent), 505 and consent of instructor. The elements of patient/client management of musculoskeletal disorders provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction strategies for specific diagnostic groups, the use of prosected materials and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 504. Evaluation and Management of Musculoskeletal System II (4)

Prerequisites: PT 501, 502 and 503 (concurrent), and consent of instructor. The investigation of disorders of the musculoskeletal system including exercise prescription, strengthening regimens, exercise testing, effects of disuse, life sequence, wellness and prevention, and the theories of pain and pain management and selected preferred practice patterns provided by physical therapists. (Lecture/discussion 3 hours, laboratory 3 hours.)

#### 505. Management of Human Growth and Development (2)

Prerequisites: HHS 401, 460 and consent of instructor. Investigation and analysis of human development from birth to senescence with emphasis on concepts of motor, skeletal and neurological development processes necessary to prepare for evaluation and treatment interven-

tion in musculoskeletal and neurological disabilities. (Lecture/discussion 1 hour, lab 3 hours.)

#### 506. Exercise Physiology for Physical Therapy (2)

Prerequisites: BIOL 341, 441; HHS 401, 460, 471 and consent of instructor. Study of control systems challenged by exercise and altered by chronic exercise that will be critical for patient management. Introduction to exercise measurement and clinical exercise related tools including basic metabolism, analysis of systems involved, exercise test design for different patient subjects, and the pharmacology of exercise. Study of pathology will always be preceded by study of the of the healthy individual. (Lecture/discussion 1, laboratory 3 hours.)

#### 507. Management of the Neurological System (4)

Prerequisites: HHS 460, PT 505 and consent of instructor: The elements of patient/client management of neuromuscular disorders provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, the use of prosected materials and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 3 hours, laboratory 3 hours.)

#### 508. Management of the Pediatric Population (2)

Prerequisites: PT 505, 507, admission to the physical therapy program, and consent of instructor: Management of the pediatric physical therapy patient with neuromusculoskeletal disorders. Includes the examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis to determine the extent of limitations. Also includes the pathophysiology and selection of appropriate intervention approaches and clinical decision making. May include lectures from medical and physical therapy practitioners. (Lecture/discussion 1 hour, laboratory 3 hours.)

#### 509. Management of the Cardiopulmonary System (3)

Prerequisites: BIOL 341, 441; PT 505, 506 and consent of instructor. The elements of patient/client management of cardiopulmonary disorders provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk factor reduction for specific diagnostic groups, circulatory disorders and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 510. Patient Management and Functional Training (2)

Prerequisites: PT 501, 505, 606 and consent of instructor. Patient/client management with emphasis on assistive and adaptive devices, community and work reintegration, environmental, home, and work barriers, ergonomics and body mechanics, and self care and home management (including activities of daily living and instrumental activities of daily living). May include lectures from medical and physical therapy practitioners on selected topics. (Lecture/discussion 1 hours, laboratory 3 hours.)

#### 511. Management of the Geriatric Population (3)

Prerequisites: PT 503, 504, 505, 507 and consent of instructor. The elements of patient/client management of the geriatric population provided by physical therapists—examination (history, systems review, tests and measures), evaluation, diagnosis, prognosis, and intervention (with anticipated goals) including reexamination, outcomes, and criteria for discharge. Also includes primary prevention/risk reduction strategies for specific diagnostic groups, and selected lectures by medical and physical therapy clinicians. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 512. Clinical Electrophysiology I (3)

Prerequisites: BIOL 341, HHS 460, PT 507 (concurrent) and consent of instructor. The investigation of the physiological and neurological basis for the selection of electromyographic assessment tools and for the selection of electrotherapeutic modalities for the management of neuromusculoskeletal disorders. Also includes specific interventions used in the management of the patient/client with neuromuscular disorders. (Lecture/discussion 2 hours, laboratory 3 hours.)

#### 513. Clinical Electrophysiology II (2)

Prerequisites: PT 512 and consent of instructor. Physiological considerations in the use of nerve stimulation studies and electromy-

graphy with the patient/client with neuromuscular disorders emphasizing the rationale for the selection of electrical stimulation techniques for physical therapy intervention as well as functional use of electrical stimulations systems. (Lecture/discussion 1 hour, laboratory 3 hours.)

**522. Clinical Practice I (1)**

Prerequisites: PT 501, 505 and concurrent enrollment in PT 502, 503 and 506. Initial directed clinical practice in a variety of health care delivery systems emphasizing the management of musculoskeletal conditions. (Clinical practice 40 hours.)

**523. Clinical Practice II (1)**

Prerequisites: Completion of the first year of professional program. Supervised clinical practice in a variety of health care delivery systems emphasizing neuromuscular, developmental and pediatric conditions. (Clinical practice 40 hours.)

**524. Clinical Practice III (1)**

Prerequisites: Completion of PT 523. Supervised clinical practice in a variety of health care delivery systems emphasizing single and multiple systems impairments but including the management of cardiopulmonary, prosthetic, and spinal/extremity mobilization conditions. (Clinical practice 40 hours.)

**525. Clinical Internship (1-12)**

Prerequisites: Completion of all requirements for the MPT degree. Twenty-four weeks of supervised full-time clinical practice in a variety health care delivery systems. Six weeks of clinical practice will be completed during the summer following the first year of the academic program and the culminating clinical experience will follow the completion of the second year of the academic program. Satisfactory completion of the internship is required for licensure to practice in the state of California. Must be repeated for total of twelve units. (Clinical practice 24 weeks.)

**597. Independent Studies (1-3)**

Prerequisites: Consent of instructor, and for human dissection, one general introductory anatomy course HHS 401, and HHS 402. Independent studies in any area of physical therapy. Human dissection is available as a special study. May be repeated to a maximum of six units. Traditional grading only. (Independent studies.)

**604. Seminar in Health Care Issues I (2)**

Prerequisites: Admission to the professional program, PT 606. Investigation of the health care delivery system including the regulatory, political, ethical, legal and promotional aspects of health care. (Seminar 2 hours.)

**605. Seminar in Health Care Issues II (2)**

Prerequisites: PT 604 and consent of instructor. Investigation and discussion of the process of planned direction, organization, management, and economics of physical therapy and physical therapy delivery. Includes theories of disease prevention and health promotion. (Seminar 2 hours.)

**606. Seminar in Clinical Decision Making I (2)**

Prerequisites: Admittance to the physical therapy program. The critical analysis of professional literature differentiating documented evidence from secondary information, theory and opinion for the selection of effective evaluation and treatment techniques and the objective summarization of professional literature using clear, concise, scientific writing. The course also includes an introduction to Part I of the Guide to Physical Therapy Practice. Also includes learning principles and patient/family education. (Seminar 2 hour.) Traditional grading only.

**607. Seminar in Clinical Decision Making II (2)**

Prerequisites: PT 604, 605, 606. Continuation of the investigation and synthesis of the data base for the management of the patient/client with disorders of the cardiopulmonary and neuromuscular systems. Includes examination of the psychosocial aspects of disability, community resources to meet the needs of the patient family, social/cultural aspects, patient compliance and advocacy, and learning theories and principles. (Seminar 2 hours.)

**610. Advanced Study in Biomechanics and Kinesiology (2)**

Prerequisites: PT 501, 502 and consent of instructor. Advanced study in the biomechanical evaluation of pathological posture and movement with emphasis on gait. Traditional grading only. (Lecture 1 hour, laboratory 3 hours.)

**611. Advances in Orthopaedic Physical Therapy (2)**

Prerequisites: PT 503, 504 and consent of instructor. Exploration of advanced clinical orthopedic management strategies. Traditional grading only. (Lecture 1 hour, laboratory 3 hours.)

**612. Advanced Study in Clinical Electroneuromyography (2)**

Prerequisites: PT 512, 513 and consent of instructor. Advanced electro-neuromyography assessment and electrical stimulation technology with an emphasis on objective documentation and improvement of neurological status, muscle performance, walking ability and functional capacity. Traditional grading only. (Lecture/discussion 1 hour, laboratory 3 hours.)

**613. Advances in the Management of the Geriatric Population (2)**

Prerequisites: PT 505, 509, 511 and consent of the instructor. Exploration of the clinical management strategies and intervention in aging. Traditional grading only. (Discussion 1 hour, laboratory 3 hours.)

**614. Advances in the Management of the Pediatric Population (2)**

Prerequisites: PT 505, concurrent enrollment in PT 507, and consent of instructor. Exploration of advances in the management of the pediatric physical therapy patient with emphasis on various pathologies. Traditional grading only. (Lecture 1 hour, laboratory 3 hours.)

**615. Advances in the Management of the Neurological Patient (2)**

Prerequisites: PT 506, 507, 508 and consent of instructor. Exploration of special considerations in the patient with neurological impairment. Traditional grading only. (Lecture/discussion 1 hour, laboratory 3 hours.)

**616. Advances in the Management of the Cardiopulmonary Patient (2)**

Prerequisites: PT 509 and consent of instructor. Exploration in the special considerations in the management of the patient with cardiopulmonary and circulatory disability. Traditional grading only. (Lecture/discussion 1 hour, laboratory 3 hours.)

**617. Management and Development of Independent Practice (2)**

Prerequisites: Admission to the professional program, PT 604, PT 605, and consent of instructor. Exploration of the management and business strategies in independent practice. Traditional grading only. (Lecture/discussion 2 hours.)

**618. Advanced Clinical Anatomy (2)**

Prerequisites: PT 501, 502, 503, 504 and consent of instructor. Exploration of the advanced application of clinical anatomy. Traditional grading only. (Lecture/discussion 1 hour, laboratory 3 hours.)

**619. Contemporary Issues in Physical Therapy (2)**

Prerequisites: PT 604 and consent of instructor. Exploration of contemporary and emerging trends in physical therapy practice. Traditional grading only. (Lecture/discussion 2 hours.)

**620. Management of Patients with Orthotic and Prosthetic Needs (2)**

Prerequisites: PT 503, 504, 506, 511 and 512. The prescription, application, and, as appropriate, fabrication of devices and equipment (orthotic, prosthetic, and supportive splinting, taping, devices), including wheelchair seating prescription and adjustments. (Lecture/discussion 1 hour, laboratory 3 hours.)

**622. Clinical Pathophysiology (3) F, S, SS**

Prerequisites: PT 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 512, 513 (concurrent), 606, 620, 696. Pathophysiology of connective tissue in musculoskeletal, neuromuscular, cardiopulmonary and integumentary disorders as a basis for physical therapy evaluation, diagnosis, goal setting and conservative as well as pre and post-operative intervention in patients with multiple systemic disorders. (Lecture/discussion 3 hours.)

**696. Research Methods (2)**

Prerequisites: PT 606 and consent of instructor. Scientific inquiry with emphasis on information searching. Epidemiology, research design (qualitative and quantitative), measurement theory, and applied statistics. Also includes critical inquiry and clinical decision-making guidelines, research ethics, and the development of a proposal on the validation of physical therapy practice. (Lecture/discussion 2 hours.)

**697. Directed Studies (1-4)**

Prerequisites: PT 606, 696, advancement to candidacy and consent of instructor. Research in an area of specialization in physical therapy under the direction of a faculty sponsor. A total of least four (4) units must be completed. Traditional grading only. Course may be repeated in different semesters to a maximum of 4 units.

**698. Research Thesis/Project (1-4)**

Prerequisites: PT 606, 696, advancement to candidacy and consent of instructor. Planning, preparation, and completion of thesis or project in physical therapy. Must be completed for a total of four units.

# RECREATION AND LEISURE STUDIES

The experience of leisure is one of the basic facets of life. It is an elemental experience, essential to the total well-being of every person; it is a reflection and expression of the cultural values of a society; it is an important treatment modality. The provision of recreation services is one of the largest industries in the world, whether measured in dollars spent, persons served, hours of time devoted, or resources used. The study of leisure and recreation is a broad discipline, combining aspects of diverse fields of study and professional practice.

The Department of Recreation and Leisure Studies exists to promote a broader and deeper understanding of the role of leisure and recreation in the lives of all people, and to enhance the quality of experiences available to each person. This purpose is expressed in the four-fold mission of the Department of Recreation and Leisure Studies: (1) to offer a curriculum which leads the student to an increased understanding of the leisure phenomena; (2) to conduct basic research which contributes to the general body of knowledge; (3) to serve the community by conducting applied research and providing consultation and training to practitioners; and (4) to serve society by providing professional practitioners who are skilled, dedicated, and ethical stewards of the profession.

The Department is accredited by the Accreditation Council of the National Recreation and Park Association and

American Association for Leisure and Recreation (National Recreation and Park Association, Council on Accreditation, 22377 Belmont Ridge Road, Ashburn, VA 20148, phone: 703-858-0784).

Students desiring information on undergraduate or graduate degrees or certificate programs in Therapeutic Recreation, Administration of Campus Recreation and Student Service Programs, Administration of Volunteer Services, Administration of Outdoor Recreation, and Administration of Travel and Tourism should contact the department office for referral to one of the faculty advisors.

## Bachelor of Arts in Recreation (code 2-1220) (120 units)

### Academic Program

The curriculum is designed to prepare men and women for positions of supervision and administration in public recreation and parks, armed forces recreation, employee services, therapeutic recreation, outdoor education, camp administration, voluntary youth and adult services, special events, travel and tourism, and commercial recreation.

The curriculum includes courses selected to provide an understanding of human development, service management, and a variety of specialty areas within the leisure services profession.

### Departmental Policies

Each major student must maintain a cumulative 2.0 GPA on all units attempted and achieve a "C" or better in each course of the Recreation major to progress in the sequence of study. Students earning less than a "C" grade in a course required in the major must repeat that course.

Students wishing to substitute courses or deviate in any way from the Department requirements must submit a letter of request to the Department faculty. No more than six units of Recreation-prefix courses may be taken by contract. The Internship is traditional grading only. The Internship is typically taken the last semester before graduation. No other courses may be taken concurrently with the Internship.

### Requirements

Lower Division: REC 141, 225;

Upper Division: REC 321, 325, 351, 371, 421, 423, 425, 427, 431, 441, 448, 480, 498.

Additional Courses: Each major student is required to complete courses in the following groups: REC 100 or 300; Choose one course from the following: HD 307I, 357I, or PSY 370; Choose 9 units from the following: REC 215, 322, 324, 337, 407, 410, 428, 430, 433, 451, 452, 454, 462, 468, 473, 490, 499.

### Minor In Recreation (code 0-1220)

A minimum of 21 units approved by departmental advisor which must include: REC 141, 225, 321, 340I, 371, 448 and one of the following: REC 322, 324, 337, 351, 428, 430, 431, 433, 462, 473 or 490 with consent of the advisor.

## Certificate Programs offered in Recreation and Leisure Studies

The certificate programs offered by the Department of Recreation and Leisure Studies are available to both undergraduate and graduate students, as well as students who already possess a baccalaureate degree and are enrolling through university extension, unless otherwise noted. Students pursuing an approved degree at CSULB may complete the certificate programs concurrently or subsequent to their degree. Courses taken to meet the requirements of a certificate may also be used, where appropriate, to meet the General Education requirements or the degree requirements of cooperating departments. Students wishing to pursue a certificate should contact the department to schedule a meeting with the certificate advisor.

### Certificate Program in Therapeutic Recreation (code 1-1150)

Therapeutic recreation has been identified as one of the fastest growing fields of employment. Recreational therapists work in clinical and community settings using recreation as a tool to assist in post injury rehabilitation and to improve quality of life for people with disabilities. State and National Certification in therapeutic recreation is often required for employment in this field; the curriculum of this certificate program prepares students for the California Board of Recreation and Park Certification exam and for the National Council for Therapeutic Recreation Certification exam. A baccalaureate degree, which may be awarded concurrently, is required for completion of this certificate program.

Core requirements: REC 100 or 300, 351, 451, 452, 454, 498.

Additional courses: 18 units which must be taken with approval from the certificate advisor. This includes an anatomy/physiology course (3 units); abnormal psychology (3 units); a human growth and development course (3 units); and upper division support courses (9 units) from the following areas: sociology, psychology, educational psychology, health science, adapted physical education, and special education.

### Certificate Program in Administration of Campus Recreation and Student Service Programs (code 1-1151)

Campus Recreation and Student Services is a growing field in elementary, secondary and higher education, as it relates to the co-curricular programs offered in support of the educational program, both in public and private institutions. The Certificate will enhance professional development in Student Services such as Student Activities, Student Leadership Development, Residential Life, Student Community Service Volunteer Programs, and Intramurals and Recreational Sports; and Campus Services such as Conferences, Scheduling, Event Planning, and Alumni Relations. For those looking to be Certified Recreation Sports Specialist through NIRSA the courses will prepare them for the certification examination.

Twenty-four (24) units of core requirements including: REC 321, 322, 324, 325, 421, 427, 484; and one (3 unit) evaluation course: REC 441 or equivalent. The remaining six (6) units are electives which must be taken with approval of the advisor of the certificate program. These may include REC, KPE, HDEV, or HRM courses.

## Certificate Program in Administration of Volunteer Services (code 1-1020)

Volunteers support program delivery in a variety of settings, including special events, hospital services, youth and community services. This certificate program prepares students for employment as managers and coordinators of volunteer service programs. The curriculum includes courses selected to provide an understanding of volunteer motivations, as well as administrative and communication skills. The certificate may be earned through continuing education by students not regularly enrolled at the University.

Core requirements: REC 225, 425, 427, 428; REC 485 or 498.

Additional courses: 6 units of elective courses addressing youth development, communication skills, marketing, evaluation or working with diverse populations which must be taken with approval of the advisor of the certificate program.

### Certificate Program in Administration of Outdoor Recreation Resources (code 1-1000)

Outdoor recreation includes both the provision of recreation programs in the outdoors and the management of the parks and public lands that serve as the settings for these recreation experiences. Recreation program management and land management are distinct fields that must work cooperatively. This certificate program prepares students for careers in these interrelated fields. The curriculum includes courses selected to provide an understanding of outdoor recreation behavior, outdoor education, resource management policies, and an introductory understanding of natural science.

Core requirements: REC 427, 430, 431; REC 337 or SCED 401; and one of the following: REC 433, 485 or 499.

Additional courses: 9 units of elective courses from biology, geology or geography which must be taken with approval of the advisor of the certificate program.

### Certificate Program in Administration of Travel and Tourism (code 1-1010)

Travel and tourism is a very large and growing field in which there are usually many opportunities for well-trained individuals. This certificate program provides instruction in the history and theoretical bases of tourism, including its economics, psychology, and sociology as well as the political and legal aspects. The fundamentals of business, food and food service technology, the performing arts, and resource management are themes throughout the program.

Core requirements: REC 462, 468; REC 485 or 498; REC 490 or 499; GEOG 352.

Additional courses: 6 units of upper division courses listed in the University Catalog under the Regional category in the Department of Geography; plus 3 additional upper division units selected in consultation with the advisor of the certificate program.

### Graduate Certificate Program in Leisure Counseling (code 1-1110)

Leisure and recreation experiences add quality and enjoyment to life. When individuals experience significant changes in their lives, often through retirement or disabling injuries, they may need counseling to identify and develop leisure skills appropriate to their new life situations. This certificate program prepares students to

use counseling techniques to enhance quality of life through leisure.

Admission/Prerequisite: Persons holding a bachelor's or master's degree in Recreation or Therapeutic Recreation or a related allied health field (e.g. Occupational Therapy, Music Therapy, Gerontology, Psychology, Adapted Physical Education, Counseling); two years verified experience in counseling approved by the program advisor.

Core requirements: REC 454/554, 503, 590; EDP 532, 533.

Additional courses: 3 units which must be taken with approval of the advisor of the certificate program.

## Master of Science in Recreation Administration (code 6-1220)

The Department of Recreation and Leisure Studies offers a program of graduate studies leading to the Master of Science degree in Recreation Administration. Information about the program is available from the Department. The program helps prepare professional personnel who can contribute to the development of a philosophy of leisure, are competent managers of private and public agencies and programs, and can accomplish the field research necessary to support current and future operations. Unusually fine opportunities exist in this area for interaction with recreation agencies of all kinds.

Applicant should request a copy of official transcript of all college course work be sent to the graduate advisor in Recreation and Leisure Studies Department in addition to the copies required by the Office of Admissions and Records.

### Prerequisites

1. A bachelor's degree with a major in recreation; or,
2. A bachelor's degree with a minimum of 24 units of upper division courses comparable to those required in the undergraduate recreation major at this University. (Students deficient in undergraduate preparation must take courses to remove these deficiencies at the discretion of the departmental graduate committee.)

### Advancement to Candidacy

1. Satisfy the general University requirements for advancement to candidacy;
2. Completion of the Graduate Record Examination and the CSULB Writing Proficiency Examination;
3. Approval of the department graduate advisor and the Associate Dean of Graduate Studies and Research, College of Health and Human Services.

### Requirements

1. Thesis option program: 30 units with a minimum of 24 units in Recreation including REC 521, 571, 595, 591, 696 and 698 (Thesis [4 units] with an oral examination on the thesis); Comprehensive Examination option program: thirty-six units with a minimum of 30 units in Recreation including REC 521, 571, 595, 696, and 697 (Directed Studies and the oral and written comprehensive examinations).
2. REC 696, Research Methodology, must be completed in the first year of the program, or concurrently with the first enrollment in a 500 or 600 course.
3. A maximum of six units may be elected outside the department.

## Courses (REC)

### Lower Division

#### 100./300. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Traditional grading only. (Discussion, 3 hours.)

#### 141. Introduction to Leisure Services (3)

Prerequisite: One GE Foundation Course (may be taken concurrently). Survey of public, private and non-profit agencies engaged in leisure services. Organizing principles of the recreation and leisure services profession. Not open to students who have completed REC 241. Course may be repeated to a maximum of 3 units (CAN REC 2)

#### 215. Management of Outdoor Field Trips (1)

Field experiences in unique outdoor recreation programs. Course content will include planning, logistics and leadership techniques involved in field trip organization. (Activity 2 hours.)

#### 220. Universality of Play (3)

Prerequisites: Completion of GE Foundation requirements. Exploration of the ethnic origins of play from an international perspective. Influence of play on creativity, drive and self image of society. Theory and practicum. Course may be repeated to a maximum of 3 units.

#### 225. The Recreation Program (3)

Methods and materials used in planning and conducting organized recreation programs in public and private agencies. Theory and practicum. Special emphasis on supervised programming field experiences. (Lec 2 hrs, Act 2 hrs.) (CAN REC 4)

### Upper Division

#### 300./100. Orientation to the Recreation Major (3)

Orientation to the professional roles in the field of leisure services; the philosophy, academic requirements, standards, documentation, procedures of the Department of Recreation and Leisure Studies; and computer applications required of all majors. Traditional grading only. (Discussion, 3 hours.) Not open to students with credit in REC 100.

#### 321. Recreation Leadership (3)

Prerequisites: REC 100 or 300, REC 141, 225 or consent of instructor. Theory and application of leadership as it pertains to leisure service agencies. Analysis of interpersonal and group skills necessary for effective leadership. (Lecture/activity 3 hours.)

#### 322. Recreational Sports Supervision (3)

Organization and supervision of recreational sports for community-wide participation. (Lecture 2 hours, Activity 2 hours.)

#### 324. Campus Recreation Services (3)

Prerequisites: Junior Standing. Principles and practices in provision of recreation services on college, secondary, and elementary school campuses.

#### 325. Advanced Program and Event Management (3)

Prerequisites: REC 100 or 300, REC 141, 225. Advanced management of recreation and leisure service programs with special emphasis on event planning and promotion. Includes interpretations of needs assessments and market analysis; analysis and selection of prospective client bases; program design, marketing, promotion, implementation and evaluation.

#### 337. Environmental and Cultural Interpretation (3)

Principles and practices of environmental and cultural interpretation of outdoor recreation resources, including tours, brochures, slide shows and exhibits. (Discussion, 3 hours)

#### 340I. Leisure in Contemporary Society (3)

Prerequisites: Completion of G.E. Foundations requirements; one or more explorations courses; upper division standing. Study of Leisure as an expression of (1) culture including the influences of gender, age, cohort, and racial/ethnic background, (2) society (economic level, access to technology, popular culture, self-de-

structive activities), and (3) wellness including stress management, and individual and collective quality of life.

**351. Foundations of Therapeutic Recreation (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Philosophical and historical foundations of therapeutic recreation and principles of planning, implementing, and evaluating leisure services for individuals with disabilities. (Lecture/Activity 3 hours.)

**371. Human Services Programming in Urban Areas (3)**

Exploration of the social problems, minority populations and community resources of the urban impacted areas in relation to concerns of recreation and human needs. (Lecture/Activity 3 hours.)

**\*407. Starting a Recreation Business (1)**

Examines the basic legal, financial, and practical concerns related to starting a recreation business in California.

**410. Designing Effective Workshops and Conferences (1)**

Course will enable a student to analyze elements of workshop and conference design, and provide the student with the knowledge and skills necessary to develop effective, participative group meetings.

**\*421. Supervisory and Administrative Practices (3)**

Prerequisite: REC 100 or 300, REC 141, 225, 321, or consent of instructor. Concepts and techniques of supervision and administration in recreation agencies; emphasis on recruitment, assignment, evaluation and in-service training of recreation personnel.

**\*423. Facility Design and Operations (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Theories and practical experience in the design, development, operation, maintenance and administration of various recreational facilities. Traditional grading only.

**\*425. Financing Leisure Services (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Financing and budgeting in public and private sector leisure service agencies; management by objectives as related to fiscal elements.

**427./527. Legal Aspects of Leisure Services (3)**

Prerequisites: Upper Division Standing. Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services. Traditional grading only. (Discussion, 3 hours.)

**428./528. Management of Volunteer Programs (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325. Designed to develop an understanding of volunteer services and their value to agencies; to provide knowledge of the structure and function of social agencies, and to acquire administrative skills which will enable supervisors to provide meaningful roles for volunteers.

**\*430. Recreation in the Ocean Environment (3)**

Study of the skills and techniques of administration of an ocean-oriented recreational resource, including management and trip planning. Course content will be supplemented with a week long field trip to Santa Barbara Island. Course fee required.

**\*431. Recreation Resource Management (3)**

Prerequisites: REC 100 or 300, REC 141, 225, or consent of instructor. Review of the techniques of recreation resource management; the role of citizens, government and private agencies in acquisition and development of these resources; development of resource management policies.

**\*433. Management of Organized Camps (3)**

Prerequisites: REC 100 or 300, REC 141, 225 or consent of instructor. Management of the organized camps, with particular emphasis on the role and responsibility of the on-site director; practical experience in all phases of camping. Topics covered include camp philosophies, job responsibilities and staffing, staff dynamics, campers characteristics and needs, camp program development and camp facility management.

**441. Evaluation and Research in Leisure Services (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Foundations of current methods and practices of evaluation and research about leisure and leisure services. Includes the critical need for evaluation and research in leisure services;

research and evaluation concepts, types, and designs; sampling; and information/data collection, analysis, interpretation, and presentation. Traditional grading only.

**\*448. Leisure and Wellness (3)**

Prerequisites: REC 100 or 300, 141, 225, or consent of instructor. An overview of the role of leisure in wellness and wellness programs. Examination of stress and stress management, and an in-depth analysis of leisure education as a major component of wellness programs. Includes assessment of leisure functioning and development, and implementation of leisure education programs. Traditional grading only.

**\*451. Management of Therapeutic Recreation Services (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325, 351 or consent of instructor. Corequisite: REC 452. Comprehensive therapeutic recreation program development, operation, and management. Advanced principles, issues, and trends in therapeutic recreation. (Discussion, 3 hours.)

**\*452. Therapeutic Recreation Treatment/Program Planning (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325, 351 or consent of instructor. Corequisite: REC 451. Development of individual treatment/program plans in therapeutic recreation. Includes assessment of leisure and social functioning, problem identification, development of measurable objectives, determination of plan content and methods, and evaluation of the client's progress. (Lecture-activity, 2 hours; Clinical processes, 1 hour.)

**454./554. Leisure Counseling (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Current processes and procedures in leisure counseling. Includes techniques of leisure needs assessment, development of leisure resource files and leisure values orientation. (Lecture-Activity, 3 hrs.)

**\*462. Travel, Tourism, and Resort Recreation Management (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Current procedures and processes in managing travel, tourism and resort recreation organizations. Discussion includes the organization and management of human resources in the marketing of travel, tourism and resort recreation enterprises.

**\*468. Tourism Planning and Development (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325, 462 or consent of instructor. Analysis of elements which are included in a community development plan. Assessment of the touristic potential of a region or site, enabling legislation, organization, and administration of a tourism development plan, identification of sources of resistance and support.

**469./569. Disability, Culture and Society: Issues & Intervention (3)**

Prerequisite: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 469./569 and SW 469./569. Traditional grading only.

**473./573. Aging and Leisure (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Theories, concepts and influences on satisfaction with retirement focusing on leisure-related issues. Overview of the continuum of services, emphasizing leisure services available to older people.

**480. Philosophy of Recreation and Leisure (3)**

Prerequisites: REC 325 and one of the following: REC 421, 425, 427, and consent of instructor. Open to recreation majors only. Exploration of the philosophical and ethical basis for current practices in recreation and leisure service organizations. (Discussion, 3 hours.)

**483. Professionalism in Leisure Services (1)**

Corequisites: REC 498. Synthesis of experience gained from internship placement with theoretical and applied concepts learned in the academic setting. Preparation for the transition from academic to professional life. Traditional grading only. (Sem, 1 hr.)

**485. Field Work (3)**

Prerequisites: Consent of the instructor. Supervised experience in recreation leadership, supervision or administration approved by faculty advisor or consent of the instructor. Credit/No credit grading only. Repeatable up to 6 units.

**\*490. Special Studies in Recreation (1-3)**

Identification and critical analysis of current problems in selected areas of recreation. Topics to be announced in the *Schedule of Classes*. May be repeated for a maximum of six units of credit with change of topic.

**\*498. Internship in Leisure Services (6-9)**

Prerequisites: Completion of all major requirements; 1000 hours of verified paid or volunteer leadership experience approved by faculty advisor, or 500 hours of experience and fluency in both English and a second language consistent with the CSULB Language Proficiency Requirements; and consent of the internship coordinator. This internship will involve 400 hours of supervised experience in an approved leisure service agency jointly supervised by university and agency personnel. Traditional grading only. (Field work, 6-9 hours.)

**499. Independent Study (1-3)**

Prerequisites: Consent of dept. and approval by department chairperson. Individual projects in areas of special interest. Independent study under the direct supervision of a faculty member. May be repeated for a maximum of 6 units of credit with consent of instructor.

**Graduate Division****521. Recreation Administration (3)**

Organizational theory; planning, staffing and budgeting of recreation programs in governmental and voluntary agencies.

**527./427. Legal Aspects of Leisure Services (3)**

Prerequisites: Upper Division Standing. Political, policy making, and legal aspects underlying the establishment, operation, and termination of public and private leisure services. Traditional grading only. (Discussion, 3 hours.)

**528./428. Management of Volunteer Programs (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Designed to develop an understanding of volunteer services and their value to agencies; to provide knowledge of the structure and function of social agencies, and to acquire administrative skills which will enable supervisors to provide meaningful roles for volunteers.

**554./454. Leisure Counseling (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Current processes and procedures in leisure counseling. Includes techniques of leisure needs assessment, development of leisure resource files and leisure values orientation. (Lecture-Activity, 3 hrs.)

**569./469. Disability, Culture and Society: Issues and Intervention (3)**

Prerequisite: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 569./469 and SW 569./469. Traditional grading only.

**571. Philosophy, Issues and Trends (3)**

Current philosophy, trends and issues in the field of recreation.

**573./473. Aging and Leisure (3)**

Prerequisites: REC 100 or 300, REC 141, 225, 325 or consent of instructor. Theories, concepts and influences on satisfaction with retirement focusing on leisure-related issues. Overview of the continuum of services, emphasizing leisure services available to older people.

**586. Internship in Therapeutic Recreation (3)**

Prerequisites: B.A. degree in Recreation plus REC 351, 451, 485, plus nine units of course work from related allied health departments. Students are required to complete 480 hours within a maximum of 6 months at an agency certified by the California Board of Park and Recreation Personnel. Not open to students with credit in REC 487.

**590. Special Topics in Recreation (1-3)**

Prerequisite: Consent of instructor. In-depth investigation of topics of current interest and concern to students experienced in recreation. May be repeated for a maximum of six units with different topics. Topics to be announced in the *Schedule of Classes*.

**591. Research Proposal Writing (1)**

Prerequisite: REC 696. Course is concerned with variations in research design and methodology. Completion of a thesis proposal is a requirement of this course.

**595. Management Studies (3)**

Administrative studies and surveys; procedures for conducting appraisals of recreation programs and facilities.

**599. Independent Study (1-3)**

Prerequisite: Consent of Graduate Advisor and Department Chair. Independent research under the supervision of a Recreation and Leisure Faculty member. May be repeated up to a maximum of six units. Traditional grading only.

**696. Research Methodology (3)**

Research methodology in recreation. To be completed within the first 12 units of the 500/600 series of courses.

**697. Directed Studies (1-3)**

Prerequisites: REC 698, advancement to candidacy. Independent investigation of field research problems in recreation.

**698. Thesis (1-4)**

Prerequisites: REC 591, 696, advancement to candidacy. Planning, preparation and completion of an approved thesis.

## Department Courses (RGR)

---

### 346. The European Cinema of Communism, Fascism and Resistance (3)

Prerequisite: Completion of the GE Foundation, one or more Exploration courses, and upper division standing. This course will focus on European cinema of the twentieth century as a manifestation of totalitarian and ideological movements preceding, in-between, and following the two world wars. The ensuing and ongoing resistance movements will also be examined.

### 450I. Consequences of the Encounter: The Americas, Europe, and Africa (3)

Prerequisites: Completion of the GE Foundation requirement, completion of one or more Exploration courses and upper-division status. The study of the consequences of the encounter between Africa, Europe, and the America from the voyages of Columbus to contemporary times. Through several disciplines: Art, Literature, and the Social Sciences the course examines the complex results of the encounter in respect to the obliteration, suppression and creation of culture among the peoples of both the Old and New Worlds. Same course as CHLS 450I

---

## Hebrew Courses (HEBW)

---

### 101A. Modern Hebrew 101A (4)

Corequisite: Any Foundation course. This course is designed for non-native speakers. It introduces students to Hebrew and enables them to comprehend and communicate in Hebrew at increasingly complex levels.

## THE FRENCH PROGRAM

A degree in French places the world of international communication and culture at your fingertips. As one of the foremost languages of global diplomacy, relations, and scholarship, a degree in French makes careers in arts management, art history, international business, international relations, teaching, and travel possible. It is also a preferred language for academic pursuit in the social sciences and critical studies. The Francophone world only begins in France, stretching far beyond the Champs-Élysées into Africa, Quebec, the Caribbean, and Tahiti. Additionally, a double major or a minor in French enhances any other degree program, making the student doubly marketable upon graduation. Graduate study leading to the Master of Arts degree comprises another feature of the program. Students who complete the Master of Arts degree in French perfect their knowledge of the Francophone world. They pursue or continue professions in teaching, business, travel, and diplomacy, to name only a few, or proceed to doctoral programs at Ph.D. granting institutions. Teaching Assistantships are available.

Learning either French makes you eligible for study and travel abroad in the International Programs of the California State University System. (We are happy to assist you in including a year abroad into your program of language and literary study.) Students are highly encouraged to participate in work/study abroad options.

## THE FRENCH PROGRAM

Program Director  
Clorinda Donato

### Bachelor of Arts in French (code 2-6812) (120 units)

The major in French consists of 30 upper-division units in the 300-400 level courses indicated below. The number of lower-division units will depend on the amount of French studied previously in high school or college, since students with prior study of French may enter at advanced standing (usually second or third year). The major program satisfies the requirements for the Single-Subject teaching credential in French, but credential candidates must take FREN 414 (Phonetics). Major students should be mindful of the Department's second language requirement: two college years or equivalent of a second foreign language, not English. The Department also recommends inclusion of specified History courses in the program of study. These courses provide additional enrichment to the cultural component of the student's course of study.

#### Requirements

Lower Division: FREN 214. Students who have completed sufficient high school French may take upper-division courses as soon as lower-division requirements have been met.

Upper Division: A minimum of 30 units of upper-division courses which must include FREN 312A, 312B, 314, 335, 336, 411, 440 and three of the following courses: 414, 456, 470, 471, 472, 474, 477, 479, 480, 490. Candidates for the teaching credential must take FREN 414.

Department Requirement: Two years of a second foreign language at the college level or equivalent is required of all majors.

Departmental Recommendation: Students specializing in French should include the following courses in their program of study: HIST 131, 132, and one or more of the following: HIST 335, 336, 337. A selection from the following courses would also be appropriate: HIST 332, 333.

### Minor in French (code 0-6812)

A minimum of 20 units which must include: FREN 312A, 312B, 314, 411 and at least one other upper-division course in French to make a minimum total of 15 upper-division units.

The Minor in French is available to any non-French major.

### Master of Arts in French (code 5-6812)

#### Prerequisites

1. A bachelor of arts degree in French, or:
2. A bachelor's degree with a minimum of 24 upper-division units in French, comparable to those required of a major in French at this University. Deficiencies will be determined by the advisor after consultation with the student and study of transcript records.

#### Advancement to Candidacy

1. Approval of the graduate program by the graduate advisor, the faculty advisor and/or departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies.

2. The candidate should file for advancement upon completion of 6 units and preferably no more than 9 units on the program. A 3.0 GPA is required.
3. Successful completion of the University Writing Proficiency Examination.

#### Requirements

1. Completion of a minimum of 30 units of approved graduate-credit courses with at least 24 units in French distributed as follows:
  - a. 15 units of 600 series courses.
  - b. 9 units of 500 or 600 series courses in French.
  - c. 6 units of other acceptable graduate-credit courses.(NOTE: Courses taken outside the Department as subject to departmental approval.)
2. Two years of college-level study, or equivalent, of another language (e.g., German, Italian, Latin, Russian, or Spanish) with a minimum average grade of "B" or better. This requirement may also be met by passing the Graduate Studies Foreign Language Test (G.S.F.L.T.) In another language with a score of 500 or better. This requirement must be completed before taking the comprehensive examination.
3. A comprehensive examination.
4. Teaching Associates must take FREN 424, Language Acquisition, during the first year of the assistantship.

### Single Subject Teaching Credential, French

#### Requirements

Same as for the major in French with French Phonetics, FREN 414, as one of the 400-level courses.

---

### French Courses (FREN)

---

#### Lower Division

##### 101A. Fundamentals of French (4)

Prerequisite/Corequisite: Any Foundation course. Fundamental skills of speaking, comprehending, reading and writing. For those who are beginning the study of French or who have had one year of high school French or equivalent. (CAN FREN 2); (Lecture 3 hrs., Laboratory 2 hrs.)

##### 101B. Fundamentals of French (4)

Prerequisite/Corequisite: Any Foundation course. Prerequisite: FREN 101A or two years of high school French or equivalent. Continuation of FREN 101A. (CAN FREN 4); Fundamental skills of speaking, comprehending, reading and writing. (Lecture 3 hrs., Laboratory 2 hrs.)

##### 201A. Intermediate French (4)

Prerequisite: FREN 101B or three years of high school French or equivalent, and completion of GE Foundation requirements (or entering competency equivalent to FREN 101B and completion or concurrent enrollment in at least one Foundation course). Continued work in speaking, pronunciation, comprehension and writing. (Lecture 3 hrs., Laboratory 2 hrs.)

##### 201B. Intermediate French (4)

Prerequisite: FREN 201A or four years of high school French or equivalent, and completion of GE Foundation requirements (or entering competency equivalent to FREN 201A and completion or concurrent enrollment in at least one Foundation course.) Continued work in speaking, pronunciation, comprehension and writing, with some reading of modern writers. (Lecture 3 hrs., Laboratory 2 hrs.)

##### 214. Intermediate Conversation (3)

Prerequisite: FREN 101B. Should be taken concurrently with FREN 201A or 201B. Designed to develop basic conversational skills and to prepare for more advanced work in FREN 314. Traditional grading only.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 312A. Advanced French I (3)

Prerequisite: Upper division standing in French or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

### 312B. Advanced French II (3)

Prerequisite: Upper division standing in French or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

### 314. Advanced Conversation (3)

Prerequisite: FREN 214 or consent of instructor. Continuation of FREN 214. Traditional grading only.

### 335. Survey of French Literature I (3)

Prerequisite: Upper division standing in French. From the Middle Ages through the Seventeenth Century.

### 336. Survey of French Literature II (3)

Prerequisite: Upper division standing in French. Eighteenth to Twentieth Century.

### 411. Advanced French Syntax and Composition (3)

Prerequisites: FREN 312A-B or equivalent. Special emphasis on the writing of short compositions and developing an awareness of French style.

### \*414. French Phonetics (3)

Prerequisites: FREN 312 A-B or consent of instructor. General concepts of linguistic science. Linguistics applied to the study and teaching of the French language. Articulatory phonetics as a means to form native French pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.

### 440. French Civilization (3)

Prerequisite: FREN 312A,B (may be taken concurrently with FREN 335 or 336 or with consent of instructor). Significant aspects of French art, culture and social institutions. Credit for these courses may be obtained at a specified French university with which CSULB has an exchange agreement. They will be taught by instructors from CSULB.

### 456. French Cinema (3)

Prerequisite: Senior standing or consent of instructor. Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Traditional grading only for majors/minors. Same course as FEA 456.

### 470./570. French Literature of the Middle Ages (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the period. Texts in modern French.

### 471./571. French Literature of the Renaissance (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the 16th Century.

### 472./572. French Literature of the Seventeenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the century.

### 474./574. The Age of Enlightenment (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers and thinkers of the century. Drama, poetry and prose.

### 477./577. French Literature of the Nineteenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 479./579. French Literature of the Twentieth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 480. Senior Seminar: Self and Society (3)

Prerequisites: FREN 335, 336 and two 400-level French courses, or permission of instructor. This capstone course is a senior seminar focusing on *The Self and Society*. The course will examine a wide variety of literary works, ranging from Medieval works such as *Tristan et Isueult* to twentieth-century Francophone classics such as *L'Enfant noir*; various historical, critical and philosophical works; and some films with literary bases such as *Les Liaisons dangereuses* and *Madame Bovary*.

### 490./590. Special Topics in French (3)

Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated with different topics for up to 12 units.

### 494. Internship in French (1-3)

Prerequisites: Consent of instructor and department chair. Field work in French, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. Course may be repeated for a maximum of 6 units. No more than 3 units may be applied to the major in French.

### 499. Directed Studies (1-3)

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated for three units provided the material is not the same. Additional credit beyond three units is available only under exceptional circumstances and with prior approval of the department, but under no circumstances may the total exceed six units.

## Graduate Division

### 570./470. French Literature of the Middle Ages (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the period. Texts in modern French.

### 571./471. French Literature of the Renaissance (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the 16th Century.

### 572./472. French Literature of the Seventeenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative drama, poetry and prose of the century.

### 574./474. The Age of Enlightenment (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers and thinkers of the century. Drama, poetry and prose.

### 577./477. French Literature of the Nineteenth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 579./479. French Literature of the Twentieth Century (3)

Prerequisites: FREN 335, 336 or consent of instructor. Study of representative writers of the century. Drama, poetry and prose.

### 590./490. Special Topics in French (1-3)

Study of a particular topic in French literature, language, or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated with different topics for up to 12 units.

### 599. Directed Studies (1-3)

Graduate standing with baccalaureate degree or equivalent. Graduate-level in-depth study on selected topics under the supervision of a graduate faculty member. May be repeated for a maximum of 3 units. Topic and study outline of work undertaken to be on file in Department. Enrollment contingent upon approval of Department Chair and faculty member.

### 604. Seminar in a Century of French Literature (3)

Prerequisite: Corresponding 400/500 level century survey course or consent of instructor. Intensive studies in one of the following: (c) 17th Century, (d) 18th Century, (g) 19th Century, (h) 20th Century. Courses may be taken concurrently or repeated if century studied is different. Each seminar gives three units of credit for a total of 18. Traditional grading only.

**688. Seminar in French Literature or Culture (3)**  
Prerequisite: Graduate standing in French. Intensive study of a specific aspect of French literature or culture. Subjects to be announced in the *Schedule of Classes*. May be repeated for credit on different subjects.

**696. Bibliographical Methods of Research (3)**  
Prerequisite: Graduate standing in French. Introduction to methods of research, scholarly writing.

**697. Directed Research (1-3)**  
Prerequisite: Consent of department chair. Individual study under the guidance of a faculty member. May be taken for a maximum of three units.

**698. Thesis (2-6)**  
Planning, preparation, and completion of thesis in French for the master's degree. Optional.

## THE ITALIAN PROGRAM

Program Director

Carlo Chiarenza

The George L. Graziadio Center for Italian Studies

Director

Carlo Chiarenza

The George L. Graziadio Chair of Italian Studies

The Center, established in 2001, promotes the diffusion and the study of the Italian Culture and Civilization. In addition to administering the Italian Program, the Center sponsors lectures, conferences and cultural events. The Center also offers a number of scholarships for study in Italy,

The minor in Italian opens the door to the continuing legacy of culture, taste, and civilization that are the hallmarks of Italy past and present. Italian language and literature furnish the student with a solid liberal arts foundation, ideal for the liberal studies major seeking a humanities-based concentration. The Italian minor can be taken in conjunction with any other major, and is an excellent choice for students majoring in another Romance language, or in Art, Art History, Business, Comparative Literature, Dance, English, History, Music, or the Social Sciences. The Italian program at CSULB is strong and growing, with course offerings ranging from basic and advanced level language courses to literature, civilization, and film.

Learning either Italian makes you eligible for study and travel abroad in the International Programs of the California State University System. (We are happy to assist you in including a year abroad into your program of language and literary study.) Students are highly encouraged to participate in work/study abroad options.

### Minor in Italian (code 0-6814)

The Minor in Italian provides academic recognition to students who have completed a basic course of studies and have achieved competence in the Italian language.

The Minor in Italian is available to any non-Italian major.

#### Prerequisite

ITAL 101A-B

#### Requirements

A minimum of twenty units must include:

Lower Division: ITAL 201A-B, and 214.

Upper Division: ITAL 312A, 312B, and 314.

---

## Italian Courses (ITAL)

---

### Lower Division

#### 101A. Fundamentals of Italian (4)

Prerequisite/Corequisite: Any Foundation course. For those who are just beginning the study of Italian or who have had one year of high school Italian. Practice in grammar, reading, pronunciation, writing and conversation. (lecture 3 hrs., laboratory 2 hrs.)

#### 101B. Fundamentals of Italian (4)

Prerequisite/Corequisite: Any Foundation course. Continuation of ITAL 101A. Practice in grammar, reading, pronunciation, writing and conversation. (lecture 3 hrs., laboratory 2 hrs.)

#### 201A. Intermediate Italian (4)

Prerequisites: ITAL 101B and completion of GE Foundation requirements (or entering competency equivalent to ITAL 101B and completion or concurrent enrollment in at least one Foundation course. Readings of representative writers with oral and written practice. (lecture 3 hrs., laboratory 2 hrs.)

#### 201B. Intermediate Italian (4)

Prerequisites: ITAL 201A and completion of GE Foundation requirements (or entering competency equivalent to ITAL 201A and completion or concurrent enrollment in at least one Foundation course. Readings of representative writers with oral and written practice. (lecture 3 hrs., laboratory 2 hrs.)

#### 214. Intermediate Conversation (3)

Prerequisite: ITAL 101B. Should be taken concurrently with ITAL 201A or 201B. Designed to develop basic conversational skills and to prepare for more advanced work in ITAL 314.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 312A. Advanced Italian I (3)

Prerequisite: Upper division standing in Italian or equivalent. Review of grammatical principles with regular exercises and composition work for the development in increased mastery of the written language.

#### 312B. Advanced Italian II (3)

Prerequisite: Upper division standing in Italian or equivalent. Review of grammatical principles with regular exercises and composition work for the development of increased mastery of the written language.

#### 314. Advanced Conversation (3)

Prerequisite: ITAL 214 or consent of the instructor. Continuation of ITAL 214. More advanced use of spoken Italian to establish strong basis for correct and fluent proficiency in oral idiom.

#### 454. Italian Cinema (3)

Prerequisite: Senior standing or consent of instructor. Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Traditional grading only for majors/minors. Same course as FEA 454.

#### 490. Special Topics in Italian (3)

Prerequisite: Upper division standing in Italian or consent of instructor. Study of a particular topic or aspect of Italian literature, language or culture. Specific topics to be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 12 units.

#### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor and department chair. Independent study under the supervision of a faculty member. May be repeated to a maximum of six units.

## THE GERMAN AND RUSSIAN PROGRAMS

The German program develops the student's language skills, and knowledge of current affairs in German-speaking cultural literacy, which are indispensable for foreign study and employment, business, government service, and careers in teaching, among others. In cooperation with the College of Engineering, the German Program promotes a double major of German and Engineering. In addition, the Program offers a BA in German Studies with a concentration/certificate in the Administration of Travel and Tourism. German Studies maintains exchange programs with the University of Bielefeld, Essen, and Oldenburg as well as Freiburg (Switzerland). German students are also eligible to participate in the German-American Business Student Workshop with the Polytechnic University Hamburg, Germany.

## THE GERMAN PROGRAM

Program Director  
Jutta Birmele

### Bachelor of Arts in German (code 2-6813) (120 units)

The German Studies Program promotes competency in the use of language and understanding of contemporary society in German-speaking countries. It is designed to meet the needs of students seeking a liberal-arts education with an emphasis on German language and culture: those intending to teach at the elementary, secondary, or the college level; and of those planning to use German in professional careers or in pursuit of graduate studies. Efforts are made to accommodate the special needs of students who simultaneously pursue a major in Business, Engineering or a certificate in Travel and Tourism.

#### Requirements

Lower Division: One year of intermediate German or equivalent. Students who have completed sufficient high-school German may take upper-division courses as soon as lower-division requirements have been met. Native speakers of German may not enroll for credit in 101A/B or 201A/B.

Upper Division: A minimum of 30 units of upper-division courses in German, which must include GERM 301, 302, 315, 316, six units of 401, and six units of 400-level literature and culture courses.

Recommendations: Courses should be selected in consultation with the major advisor. The department strongly recommends studies or an internship in a German-speaking country and will assist in such plans

### Single Subject Teaching Credential, German

#### Requirements

The same as for the B.A. plus German 303 and 410:

### Minor in German (code 0-6813)

A minimum of 20 upper division units, which must include: GERM 301, 302, 315, 316, and 401.

The Minor in German is available to any non-German major.

## Master of Arts in German (code 5-6813)

### Prerequisites

1. A bachelor of arts degree in German or:
2. A bachelor's degree with a minimum of 24 units of upper-division courses in German. These courses must be comparable to those required of a major in German at the University. Deficiencies will be determined by the department.

### Advancement to Candidacy

Advancement to Candidacy should take place upon completion of at least six units, preferably no more than nine units applicable to the program, with at least a 3.0 GPA.

The candidate may file for advancement to candidacy only after she/he has filed a transcript of credits or a change-of-objective form, completed the prerequisites, and successfully completed the Writing Proficiency Examination (WPE).

The student graduate program must be approved by the graduate advisor, departmental committee, and the College of Liberal Arts Associate Dean of Graduate Studies. For graduate students interested in multimedia teaching technology, the program provides special projects and practical opportunities.

Teaching Assistantships are available.

### Requirements

1. Completion of a minimum of 30 units of approved upper-division and graduate courses with 24 units in German;
2. A minimum of 18 units in the 500 and 600 series in German which must include GERM 510.
3. A reading knowledge of French, Italian, Latin, Russian, or Spanish. Another language may be substituted only under special circumstance;
4. A comprehensive examination or a thesis.

---

## German Courses (GERM)

---

### Lower Division

#### 101A. Fundamentals of German (4)

Prerequisite/Corequisite: Any Foundation course. For those who are just beginning the study of German. (Lecture 3 hrs., laboratory 2 hrs.)

#### 101B. Fundamentals of German (4)

Prerequisite/Corequisite: Any Foundation course. Continuation of GERM 101A. (Lecture 3 hrs., laboratory 2 hrs.)

#### 201A. Intermediate German (4)

Prerequisite: GERM 101B and completion of GE Foundation requirements (or entering competency equivalent to GERMAN 101B and completion or concurrent enrollment in at least one Foundation course. German grammar review with further development of reading, writing, and conversational skills. (Lecture 3 hrs., laboratory 2 hrs.)

#### 201B. Intermediate German (4)

Prerequisite: GERM 201A and completion of GE Foundation requirements (or entering competency equivalent to GERMAN 201A and completion or concurrent enrollment in at least one Foundation course. German grammar review with further development of reading, writing, and conversational skills. (Lecture 3 hrs., laboratory 2 hrs.)

#### 204. German for Reading Knowledge (3)

Prerequisites: GERM 101A,B or equivalent or consent of instructor. Concentrates on essentials for translation and is designed chiefly for students in any field who are preparing for reading exams in German.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 301. Advanced German I (4)

Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of the basic language skills: reading comprehension, composition, and conversation. Emphasis on reading, comprehension, vocabulary building, and idiomatic usage.

### 302. Advanced German II (4)

Prerequisite: GERM 201B or equivalent. Intensive practice and the consolidation of basic skills: reading, comprehension, composition, and conversation. Emphasis on composition, oral reports, and discussion.

### 303. German Phonetics (3)

Prerequisite: Upper-division standing in German or consent of instructor. General concepts of linguistic science. Linguistics applied to the study and teaching of the German language. Articulatory phonetics as a means to form native German pronunciation habits with emphasis upon the difficulties encountered by speakers of American English.

### 305. German Conversation (3)

Prerequisite: Upper-division standing in German. Intensive practice of spoken German with stress on vocabulary building, pronunciation, intonation, and oral comprehension. Credit/No Credit grading only. May be repeated once for credit.

### 306. Translating German to English (3)

Prerequisite: Upper-division standing in German or consent of instructor. The preparation of translations from German texts of wide-ranging subject matter.

### 309. Business German (3)

Prerequisites: GERM 101A,B or equivalent or consent of instructor. Advanced language course to acquaint students with the terminology of German business. Conversational and written approaches to business correspondence, forms of business and corporate organizations, transportation, banking, management, protection, marketing. (Not open to students with credit in GERM 307 or 308.)

### 315. Survey of German Literature and Culture I (3)

Prerequisite: Upper-division standing in German. German literature from the Middle Ages to the time of Goethe as related to the other arts, to philosophy, and to the social and political institutions of the time.

### 316. Survey of German Literature and Culture II (3)

Prerequisite: Upper division standing in German. German literature from Romanticism to the present as related to the other arts, to philosophy, and to the social and political institutions of the time.

### 380I. Contemporary Germany, Society, and Culture (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. After the peaceful revolution of 1989/90, the united Germany today presents a different picture than at any time in its turbulent history. An important trading partner of the United States and close ally, it owes much of its democratic framework to U.S. influence during the immediate post-war period. The course examines the cultural heritage, the political and social reality, and the economic system through fictional and factual texts. Taught in English. Traditional grading only.

### 398. Topics in German (3)

Prerequisite: Upper division standing in German or consent of instructor. Exploration of topics in language, culture, and literature. Specific topics to be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of six units.

### 401. Advanced German Syntax and Composition (3)

Prerequisites: GERM 301, 302. Practice in developing a style and vocabulary suitable for the writing of reports and essays on cultural and literary topics. May be repeated to a maximum of six units.

### 410. German Civilization (3)

Prerequisite: Upper-division standing in German. Historical development of important German institutions, customs and thought.

### 430./530. German Poetry (3)

Prerequisite: Upper-division standing in German. German poetry from the Baroque to the present.

### 441./541. German Novella (3)

Prerequisite: Upper-division standing in German. The German Novella as a separate literary genre, represented by Goethe, Tieck, Kleist, Keller, Meyer, Storm, Spielhagen, Hesse, Kafka, Thomas Mann, and others.

### 459B./559B. German Literature from 1945 to Present (3)

Prerequisite: Upper-division standing in German. Significant contemporary German writers of prose, drama, and poetry.

### 480. German Cinema (3)

Acquaint students with the art of the medium, particularly as it is realized through the work of the artist most responsible for its success or failure, in this case the director. Traditional grading only for majors/minors.

### 494. Internship in German (1-3)

Prerequisites: Consent of instructor and department chair. Field work in German, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. Course may be repeated for a maximum of 6 units. No more than 3 units may be applied to the major in German.

### \*498. Topics in German (3)

Prerequisite: Senior standing in German or consent of instructor. Exploration of topics in language, culture, and literature. Specific topics to be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of six units.

### 499. Directed Studies (1-6)

Prerequisite: Consent of instructor. Independent study undertaken under the supervision of a faculty member.

## Graduate Division

### 510. The Faces of United Germany: Past, Present, and Future (3)

Prerequisite: Admission to the Graduate Program in German or permission of Graduate Advisor in the German Studies. The course locates the present concentration of international research in the discipline and requires individual research, presentation of findings, and a substantive paper. Traditional grading only.

### 511. Selected Topics in German Culture and Civilization (3)

Prerequisite: B.A. in German or equivalent. Intensive studies in special topics of the artistic, intellectual, social, religious, economic, and political development of the German-speaking countries, as announced in the *Schedule of Classes*. May be repeated for a maximum of 9 units with different topics.

### 530./430. German Poetry (3)

Prerequisite: Graduate standing in German. German poetry from the Baroque to the present.

### 541./441. German Novella (3)

Prerequisite: Graduate standing in German. The German Novella as a separate literary genre, represented by Goethe, Tieck, Kleist, Keller, Meyer, Storm, Spielhagen, Hesse, Kafka, Thomas Mann, and others.

### 559B./459B. German Literature from 1945 to Present (3)

Prerequisite: Graduate standing in German. Significant contemporary German writers of prose, drama, and poetry.

### 590. Approaches to the Study of German Literature (3)

Prerequisite: B.A. in German or equivalent. Evaluation of various methods in interpreting a literary work of art; different levels of interpretation; concepts of literary movements; complexity of structure related to content; literary appreciation; introduction to bibliographical aids. May be repeated with different topics to a maximum of 9 units.

### 599. Directed Studies (1-3)

Prerequisites: Graduate standing. Consent of instructor and chairperson or graduate advisor. Selected topics in German to be pursued in depth. May be repeated for a maximum of 6 units provided subject matter is distinct for each enrollment.

### 697. Directed Research (1-3)

Prerequisite: Consent of graduate advisor. Required of all candidates for the master of arts in German who do not choose to write a thesis.

### 698. Thesis (1-4)

Prerequisite: Consent of graduate advisor. Planning, preparation, and completion of a thesis. Does not count toward 30 units required for the M.A. degree.

## THE RUSSIAN PROGRAM

Program Director

Harold K. Schefski

### Minor in Russian (code 0-6818)

The purpose of the Minor in Russian is to provide interested students with a focused program of studies in the Russian language.

The Minor in Russian is available to any non-Russian major.

#### Requirements

Prerequisites: RUSS 101A(4), 101B (4)

Twenty additional units, of which 12 units must be taken in upper-division course work: RUSS 201A (4), 201B (4), 310 (3), 312 (3), 314 (3), 410 (3).

---

## Russian Courses (RUSS)

---

### Lower Division

#### 101A. Fundamentals of Russian (4)

Prerequisite/corequisite: Any Foundation course. For those who are beginning the study of Russian (CAN RUSS 2). Practice in grammar, reading, pronunciation, writing and conversation.

#### 101B. Fundamentals of Russian (4)

Prerequisite/Corequisite: Any Foundation course. Continuation of RUSS 101A. (CAN RUSS 4). Practice in grammar, reading, pronunciation, writing and conversation.

#### 201A-B. Intermediate Russian (4,4)

Oral and written practice with grammar review.

**201A:** Prerequisite: RUSS 101B and completion of GE Foundation requirements (or entering competency equivalent to RUSS 101B and completion or concurrent enrollment in at least one Foundation course.

**201B:** Prerequisite: RUSS 101B and completion of GE Foundation requirements (or entering competency equivalent to RUSS 101B and completion or concurrent enrollment in at least one Foundation course.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 310. Russian Literature in English (3)

Prerequisites: ENGL 100 or equivalent and/or any course in literature or European history. Taught in English, this course examines the major themes of Russian life as seen through the literature of the nineteenth and twentieth centuries.

#### 312. Advanced Russian (3)

Required background or experience. Ability to read general material in Russian and to translate non-technical material into the language. Extensive reading of Russian writings, review of grammatical principles, and a general consolidation of the four language skills: reading, oral comprehension, composition, and conversation.

#### 314. Russian Conversation (3)

Prerequisite: Upper-division standing in Russian or consent of instructor. Intended to meet specific, everyday situations and to provide help to those who intend to use Russian for travel, work, or classroom instruction.

#### 399. Directed Studies in Russian Language (1-3)

A Directed Studies course designed to meet the individual needs of students.

#### 410I. Introduction to Russian Civilization (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An examination of the characteristic features of Russian culture with special attention to the study of art, architecture, folklore, music, poetry and religion.

#### 428. Russian Cinema (3)

Prerequisite: Upper division standing. This course will focus on the Socio-political and aesthetic aspects of Russian Cinema, delineating the following periods: Soviet Silent Cinema, Stalinist Cinema, Cinema under the Thaw, Cinema under Brezhnev, and Contemporary Cinema.

#### 499. Directed Studies in Russian (1-3)

Prerequisites: Senior standing, consent of instructor. Readings in areas of mutual interest to student and instructor that are not a part of any regular course. A written report or project may be required.

## THE SPANISH PROGRAM

Program Director

Claire E. Martin

Students desiring information should contact the department office for referral to one of the faculty advisors: Credential Advisor, Graduate Advisor, Undergraduate Advisor.

A major in Spanish is a treasured possession. A second major or a minor in Spanish opens many doors, but no matter what field a student plans to enter, be it health services, business, teaching, government, law, medicine, transportation, translation, engineering, or entertainment, a familiarity with Spanish will be invaluable. Bilingualism is almost an imperative in Southern California as well as in many other parts of our country.

In addition, the program provides preparation for those who plan to pursue doctoral work at other institutions. It also provides a liberal education for those who wish to expand their knowledge of the communication process and of Hispanic literature and cultures. The Spanish Program offers courses in language, linguistics, literature, culture and translation leading to the following degrees and certificates: Bachelor of Arts and Master of Arts degrees in Spanish, Single Subject Teaching Credential in Spanish. Concentration in Spanish for the Bachelor of Arts in Liberal Studies, minor in Spanish, Bilingual Concentration for B.A. in Liberal Studies, B.A. in Special Major and the M.A. in Interdisciplinary Studies.

All students are urged to consult the Departmental Student Handbook, in addition to this *Catalog*, for further information regarding the curriculum, programs, requirements and faculty.

## Bachelor of Arts in Spanish

To prepare for a program of courses for the major in Spanish, the student is advised to keep in mind the upper-division options noted below as well as the Basic Core and Prerequisites for courses. The Spanish Program consists of a Basic Core (21 upper-division units) and an Option (9 upper-division units). Please note that all options will satisfy the single-subject credential requirements. However, the Linguistics/Language Acquisition Option is strongly recommended for students interested in the Single Subject Credential Program. For all options, at least one year of a second foreign language at the University level is required.

### Prerequisites

One year of intermediate Spanish at the university level, or equivalent. Students who have completed sufficient high school Spanish or equivalent may take upper division courses as soon as proficiency requirements have been met. Native speakers of Spanish who have never formally studied the language are urged to take SPAN 250 (6-unit GE course).

### Requirements

Students are required to take a minimum of 30 units of upper-division Spanish coursework, which must include: the Basic Core of 21 units as follows: SPAN 312 and 313, 310, 330, 341, 423, and either 430 or 445. In addition to the Basic Core, the student must complete one of the following options:

#### Option in General Spanish (code 2-6816) (120 units)

The option in General Spanish requires 9 upper division units in addition to the Basic Core. The undergraduate advisor should be consulted to ascertain the appropriate courses for this option.

#### Option in Linguistics and Language Acquisition (code 2-6801) (120 units)

The option in Linguistics and Language Acquisition is especially designed for students who are interested in teaching at the secondary or post-secondary levels or who plan to continue graduate study in Linguistics. Nine upper-division units are required from the following courses: SPAN 322, 426, 427, 424 and 494.

#### Option in Literature and Cultural Studies (code 2-6802) (120 units)

The option in Literature and Cultural Studies is designed for students who desire a thorough grounding in the literature and cultures of Spain and Latin America, particularly those students who are planning on graduate study in Spanish. 9 upper-division units are required from the following courses: SPAN 428, 429, 430, 441, 443, 445, 446, 490, 492, 493, and 494.

#### Option in Translation (code 2-6804) (120 units)

The Translation Option introduces students to the challenges of translation per se and provides a practical grounding in various types of translation which are to be found in any work setting. In addition, it will be of value to students planning graduate work in many fields, including comparative literature and translation itself. Nine units are required, selected from the following courses: SPAN 461, 462, 463, 464, 465, 466, 467.

Additional Requirements: A minimum of one year of a second foreign language at the university level is required of all majors.

N.B.: No course being used to satisfy any requirement for the B.A. or minor in Spanish may be taken on a Credit/No Credit basis.

## Bachelor of Arts in Translation and Interpretation Studies

### Option English/Spanish (code 2-6701) (120 units)

The pilot degree in Translation and Interpretation Studies, ending Spring 2006, provides students proficient in both English and Spanish with an opportunity to develop and perfect their linguistic skills and cultural knowledge to pursue a career in the field of translation and interpretation. The areas covered by the B.A. in Translation and Interpretation Studies include technical vocabulary acquisition (legal, medical, business, technical, etc.), written translation research methodology (including the identification and use of primary and secondary sources), sight translation, and consecutive and simultaneous interpretation. The training covers memorization and concentration techniques in terminology acquisition and in both consecutive and simultaneous interpretation such as decalage and the incremental sentence. Instruction includes terminology and methodology resources, extensive use of the internet, court and medical transcripts and documents, video tapes, and numerous audio tapes. Students are trained in the classroom and in the new state-of-the-art simultaneous interpretation laboratory at CSULB. Students work both individually and in groups in written and sight translation, and in the consecutive and simultaneous modes of interpretation, to prepare to work in State, Federal and Immigration courts, in the medical and business sectors, in civil legal litigation, for state agencies such as the Department of Social Services, the Housing Authority and the Agricultural Labor Relations Board, the film industry, and conference interpretation. The purpose of the B.A. is to provide students with in-depth training which is at the same time extensive and varied enough to make graduates highly marketable in both the public and private sectors. The B.A. in Translation and Interpretation Studies also provides invaluable training for students pursuing degrees in Business, Chicano and Latino Studies, Criminal Justice, Finance, Real Estate and Law, Health Sciences, International Studies, Journalism, and Political Science, among many other fields.

### Requirements

Prerequisites: SPAN 312/313 with a "B" or better, or instructor's consent.

The program consists of a Basic Core (21 units) comprised of seven specialized courses in order to meet the professional needs of students preparing for a career path that requires a solid foundation in translation and interpretation techniques and methodologies. In addition, students take three courses (9 units) in linguistics, civilization and literature selected from the following: SPAN 310, 423, 427 and 445, for a total of 30 upper-division units.

Translation and interpretation courses: SPAN 461, 462, 463, 464, 465, 466, 467

## Minor in Spanish (code 0-6816)

### Requirements

A minimum of 18 units in Spanish, at least 15 of which must be upper division and must include SPAN 312, 313, and demonstration of oral fluency or 314. Students must file a Declaration of Minor and receive counseling from the undergraduate advisor.

The Minor in Spanish is available to any non-Spanish major.

## Single-Subject Teaching Credential, Spanish

### Requirements

The same as for B.A. in Spanish.

## Master of Arts in Spanish (code 5-6816)

### Prerequisites

1. A Bachelor of Arts degree in Spanish; or
2. A Bachelor's degree with a minimum of 18 upper division units in Spanish equivalent to the Basic Core of the B.A. in Spanish at this University, with at least a "B" (3.0) average. Deficiencies will be determined by the Master's Degree Committee after consultation with the student and study of transcript records.

### Advancement to Candidacy

1. Approval of a graduate program by the Graduate Advisor, the Department Chair, and the College Associate Dean of Graduate Studies.
2. Requirements: All deficiencies have been removed; the student has passed the Writing Proficiency Examination; the student has maintained at least a "B" (3.0) GPA in all work undertaken as a graduate student;
3. The candidate may file for advancement to Candidacy after filing an individualized Course Planner, completing prerequisites, and completing at least 6 units (preferably no more than nine units) on the M.A. program. The candidate must file not later than one semester or summer session prior to completion of course requirements.

### Requirements

1. Completion of a minimum of 30 units of approved upper division and graduate courses, with a minimum of 30 units in Spanish in the 500 and 600 series in Spanish;
2. Specifically required courses include: SPAN 524 and 650;
3. The student must take two years of one of the following languages: Italian, French, or German, or pass an examination at the intermediate level in one of those languages. A major or minor in a second foreign language may be used to fulfill this requirement, upon approval by the Department. Consult the Graduate Advisor;
4. The student must maintain a GPA of at least "B" (3.0);
5. All students must pass three-hour examinations on the Graduate Reading List in each of two areas to be selected by the student from the following: Spanish Literature, Spanish American Literature, Linguistics. (See the Graduate Advisor for the Graduate Reading List and to set up administration of the examinations. Students may take the examinations (both areas) in either April or November.)

6. No more than six units of transfer graduate credit are allowed, subject to approval by the Graduate Advisor. No more than six units of International Programs course work may be credited toward the 24-unit Spanish requirement for the M.A. at this University. International Programs units will be counted at the 400-level.

## Minor in Latin American Studies (code 0-8527)

The Minor offers students majoring in any subject an opportunity to supplement their education with a focus on the interdisciplinary study of Latin America. The minor's flexible program of study is ideal for students interested either in intellectual enrichment or professional development in their major. Courses used to meet this minor requirement may be counted also, where applicable, toward the General Education requirements, and the major or minor requirements of the cooperating departments.

### Requirements

1. The following are the requirements for the Latin American Studies minor:
    - A. The successful completion of two college intermediate level courses in Spanish, Portuguese or any other language appropriate to the student's area of concentration of the equivalent fluency as determined by the program advisor.
    - B. Consultation with the program advisor, including formal declaration of the minor, and application for graduation.
  2. Completion of 21 units distributed as follows:
    - A. Core (Required of all students) 6 units. Choose from two disciplines: ANTH 323, 324; GEOG 320I; HIST 362, 364; POSC 358, 359; SPAN 445.
    - B. Electives: 15 additional units from the following disciplines. Students cannot duplicate courses taken in the Core: ANTH 323, 324, 345, 490\*, 495\*, CHLS 352, 380, 395, 400, 420, 490\*, 499\*; C/LT 440, 499\*, ECON 490\*, 499\*; FEA 392C; GEOG 320I; HIST 162A, 162B, 362, 364, 366, 461, 462, 463, 466A, 466B, 466C, 490\*, 495\*, 498\*; POSC 358, 359, 497\*, 499\*; SOC 341, 490\*, 499\*; SPAN 341; 441, 445, 492, 550, 490\*, 495\*
- \* The Latin American Studies advisor must approve Special Topics and Directed Studies courses in the area of Latin American Studies.

---

## Spanish Courses (SPAN)

---

### Lower Division

#### 101A. Fundamentals of Spanish (4)

Prerequisite/Corequisite: Any Foundation course. For those who are beginning the study of Spanish or who have had less than two years of high school Spanish or equivalent. Concentration on oral comprehension and speaking. (CAN SPAN 2); (lecture 3 hrs., laboratory 2 hrs.)

#### 101B. Fundamentals of Spanish (4)

Prerequisite/Corequisite: Any Foundation course. Continuation of SPAN 101A. (CAN SPAN 4); (lecture 3 hrs., laboratory 2 hrs.) Concentration on oral comprehension and speaking.

#### 201A. Intermediate Spanish (4)

Prerequisite: SPAN 101B and completion of GE Foundation requirements (or entering competency equivalent to SPAN 101B and completion or concurrent enrollment in at least one Foundation course). Continued development of audio-lingual skills, reading and writing. (CAN SPAN 8); (lecture 3 hrs., laboratory 2 hrs.)

### 201B. Intermediate Spanish (4)

Prerequisite: SPAN 201A and the completion of GE Foundation requirements (or entering competency equivalent to SPAN 201A and completion or concurrent enrollment in at least one Foundation course). Continued development of oral skills, reading and writing. (CAN SPAN 10) (lecture 3 hrs., laboratory 2 hrs.)

### 250. Spanish for Bilinguals (6)

Prerequisite: Near native speaker oral skills and completion of GE Foundation requirements (or concurrent enrollment in at least one Foundation course). This course has been designed to address the particular needs of the bilingual student population. Its emphasis is on the acquisition of a solid grammatical base along with the development of writing and reading skills. Traditional grading only.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

### 310. Introduction to Literary Analysis (3)

Prerequisite: One 300-level course in Spanish or consent of instructor. Discovery of literature as a work of art. Different levels of interpretation; complexity of structure related to content; literary appreciation.

### 312. Advanced Spanish I (3)

Prerequisite: SPAN 201B or equivalent. Extensive reading of Spanish writings, review of grammatical principles and a general consolidation of the four language skills: reading, comprehension, composition and conversation.

### 313. Advanced Spanish II (3)

Prerequisite: Spanish 312 or equivalent. Sequel to SPAN 312, with continuing emphasis on extensive reading of Spanish texts and periodicals, regular composition work based on these readings, and the development of increased mastery of the spoken language through student discussion of the readings.

### 314. Oral Communication (3)

Prerequisite: Upper division standing in Spanish, permission of instructor. Emphasis will be placed on small-group discussion to improve communication skills in Spanish. Intended for non-native speakers.

### 322. Bilingual Teacher (3)

Prerequisites: SPAN 313 or consent of instructor. Development and application of vocabulary for teaching elementary/ secondary school subject matter in Spanish; application in actual teaching situations.

### 330. Literary Masterpieces: Spain (3)

Prerequisites: SPAN 310 or Spanish Program Director's permission and, completion of GE Foundation requirements. Critical analysis of masterworks of Spanish literature. (Lecture 3 hours.)

### 335A. Business Spanish (3)

Prerequisites: Spanish 312-313 (6 units) or instructor's consent. Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on commerce, management, banking, real estate, and labor relations. The course is recommended for students with the appropriate level of language skills majoring in Spanish, business and international studies, Chicano/Latino studies and Economics. Traditional grading only.

### 335B. Business Spanish (3)

Prerequisites: Spanish 312-313 (6 units) or instructor's consent. Study of terminology and practices from the world of business, with a focus on business relating to the Spanish speaking world, including the Hispanic market in the United States. It focuses on marketing, finance, import and export. The course is recommended for students with the appropriate level of language skills majoring in Spanish, business and international studies, Chicano/Latino studies and Economics. Traditional grading only.

### 341. Literary Masterpieces: Spanish America (3)

Prerequisites: SPAN 310 or Spanish Program Director's permission and, completion of GE Foundation requirements. Critical analysis of masterworks of Spanish American literature. (Lecture 3 hours)

### 423./523. Introduction to Spanish Linguistics (3)

Prerequisites: SPAN 312 and 313 or consent of instructor. This course presents an overview of the main issues in Spanish Linguistics. Selected topics from the following areas will be the focus of study: the history of Spanish language, the grammatical systems of Spanish (Phonology, Morphology, Syntax), the sociolinguistics status of Spanish in the U.S. and the teaching of Spanish as a second language. Undergraduates register for 423; graduates register for 523.

### 424./524. Second Language Acquisition: Theory and Practice (3)

Study of the history of second language learning/teaching. Overview of current research in second language acquisition, with emphasis on its implications for teaching Spanish. Evaluation and development of methods, materials, and tests. Traditional grading only. Undergraduates register in SPAN 424; graduates register in SPAN 524. (Seminar)

### 426./526. Spanish Morphology and Syntax (3)

Prerequisite: Consent of instructor. Morphemic and syntagmatic analysis of Spanish; introduction to transformational grammar. (Lecture 3 hours)

### 427./527. Contrastive Analysis of Spanish and English (3)

Prerequisite: Consent of instructor. Study of the known points of similarity and differences between the two languages.

### 428. Spanish Cinema (3)

Prerequisite: Upper-division standing. This course will focus on the socio-political and aesthetic aspects of Spanish Cinema, concentrating on the following periods: Early Francoism, Neo-Realism, The Barcelona School, the Transition Period, Post Franco Years, and new trends in Spanish Cinema. Taught in English. (Seminar 3 hours) Traditional grading only.

### 429./529. Studies in 19th and 20th Century Spanish Poetry (3)

Prerequisite: SPAN 330. The course will examine the salient poets from the last two centuries, including Rosalía de Castro, Gustavo Adolfo Bécquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico García Lorca, Gloria Fuertes, Jaime Gil de Biedma, and other more contemporary figures. (Undergraduates register in SPAN 429; graduates register in SPAN 529.) Traditional grading only. (Seminar 3 hours)

### 430. Spanish Civilization (3)

Prerequisites: Upper division standing in Spanish or consent of instructor. Characteristic features of Spanish culture with special attention to the various institutions, economic, social and cultural configurations, and the ways of thinking.

### 439./539. Modern Spanish Narrative (3)

Prerequisite: SPAN 330 or permission of instructor. Representative 19th and 20th century novelists. Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

### 441./541. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)

Prerequisite: SPAN 341 or permission of instructor. Critical analysis of 19th and 20th century Spanish American prose fiction. Undergraduates register in SPAN 441, graduates register in SPAN 541. (Seminar 3 hours).

### 443./543. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)

Prerequisite: SPAN 341 or permission of instructor. Study of representative 19th and 20th century Spanish American poets. Undergraduates register in SPAN 443, graduates register in SPAN 543. Traditional grading only. (Seminar)

### 445. Latin American Civilization (3)

Prerequisite: Upper division standing in Spanish or consent of instructor. Analysis of main currents in Latin American civilization.

### 446./546. Studies in Spanish Culture (3)

Prerequisite: SPAN 330. This course deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts. Undergraduates register in SPAN 446; graduates register in SPAN 546. Seminar 3 hours. Course may be repeated for a maximum of 6 units. (Seminar 3 hours)

**455. Hispanic Cinema of the Americas (3)**

The course will focus on the development of New Hispanic Cinema as it has affected films produced in the United States and Latin America. Focusing on fourteen directors and fourteen films, we will explore major themes and trends of the New Hispanic Cinema, among them: "Nueva Ola" in Argentina, "Cinema Novo," burgeoning Cuban revolutionary cinema, and "Magic Realism" in cinema of the Southwest United States. Apart from the historical and aesthetic context of these films, we will also look at the authenticity of the work in terms of depicting the cultural, political, and social phenomena of a particular region or country. Traditional grading only.

**461. Introduction to Translation and Interpretation (3)**

Prerequisite: SPAN 312 and 313 with a "B" or better or Spanish Program Director's consent. This course is designed to introduce the student to the basic techniques that are essential to terminology acquisition, concentration, written and sight translation and consecutive and simultaneous interpretation. Traditional grading only.

**462. Written and Sight Translation I: English/Spanish (3)**

This course is designed to train students in sight and written legal, financial, medical and technical translation, and to introduce the student to the basic techniques that are essential to terminology acquisition. (English into Spanish). Traditional grading only.

**463. Written and Sight Translation II: Spanish/English (3)**

Prerequisites: SPAN 461 or Spanish Program Director's consent. This course is designed to train students in sight and written legal, financial, medical and technical translation, and to introduce the student to the basic techniques that are essential to terminology acquisition. (Spanish into English). Traditional grading only.

**464. Consecutive Interpretation I (3)**

Prerequisites: SPAN 461 or Spanish Program Director's consent. This course is designed to train students in forensic consecutive interpretation. Traditional grading only.

**465. Consecutive Interpretation II (3)**

Prerequisites: SPAN 461 or Spanish Program Director's consent. This course is designed to train students in Medical, Civil Legal, Business, Technical and State Agencies consecutive interpretation, and to introduce students to the basic techniques that are essential to terminology acquisition and to the techniques relating to interpreting in the consecutive mode sentences of up to forty words in length. Traditional grading only.

**466. Simultaneous Interpretation English/Spanish (3)**

Prerequisites: SPAN 461 or Spanish Program Director's consent. This course is designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation. (English into Spanish). Traditional grading only.

**467. Simultaneous Interpretation Spanish/English (3)**

Prerequisites: SPAN 461 or Spanish Program Director's consent. This course is designed to introduce the student to the techniques that are essential to the five simultaneous operations that form an integral part of simultaneous interpretation. Spanish into English. Traditional grading only.

**490. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated for a maximum of nine units as long as topics are different each time. Traditional grading only.

**491./591. Nobel Poets and Others (3)**

Prerequisites: SPAN 330, 341, or permission of instructor. Critical analysis of representative works of Nobel Poets (Aleixandre, Jiménez, Mistral, Neruda and Paz) and other significant poets (Albertik, Bécquer, Darío, García Lorca, Garcilaso, Góngora, Guillén, Vallejo, etc.) Undergraduates register in SPAN 491, graduates register in SPAN 591. (Seminar 3 hours).

**492./592. Studies in Hispanic Theater (3)**

Prerequisites: SPAN 330 or 341, or permission of instructor. Representative Spanish and Spanish American plays. Undergraduates register in SPAN 492; graduates register in SPAN 592.

**493./593. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated for a maximum of nine units as long as topics are different each time. Traditional grading only. Undergraduates register in 493; graduates register for 593. (Lecture)

**A. Women and War: Voices of Resistance**

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. Same topic as HIST 490F, W/ST 490K. (Lecture)

**494. Internship in Spanish (1-3)**

Prerequisites: Consent of instructor and department chair. Field work in Spanish, supplemented by readings and tutorials under the direction of a faculty member. Internships, small group discussion/teaching, and other assignments directed by a supervising faculty member. Course may be repeated for a maximum of 6 units. No more than 3 units may be applied to the major in Spanish.

**499. Independent Study (1-3)**

Prerequisites: Consent of instructor and department chair. Individual projects or directed readings with a professor of the student's choice. May be repeated to a maximum of six units. (Requires tutorial meetings and demonstrations of progress as defined in a written proposal.)

**Graduate Division****523./423. Introduction to Spanish Linguistics (3)**

Prerequisites: SPAN 312 and 313 or consent of instructor. This course presents an overview of the main issues in Spanish Linguistics. Selected topics from the following areas will be the focus of study: the history of Spanish language, the grammatical systems of Spanish (Phonology, Morphology, Syntax), the sociolinguistics status of Spanish in the U.S. and the teaching of Spanish as a second language. Undergraduates register for 423; graduates register for 523.

**524./424. Second Language Acquisition: Theory and Practice (3)**

Study of the history of second language learning/teaching. Overview of current research in second language acquisition, with emphasis on its implications for teaching Spanish. Evaluation and development of methods, materials, and tests. Traditional grading only. Undergraduates register in SPAN 424; graduates register in SPAN 524.

**525. History of the Spanish Language (3)**

Prerequisites: One course in Spanish linguistics or consent of instructor. Analysis of written and spoken Spanish from its inception through its current use in the Hispanic world.

**526./426. Spanish Morphology and Syntax (3)**

Prerequisite: Consent of instructor. Morphemic and syntagmatic analysis of Spanish; introduction to transformational grammar. (Lecture 3 hours)

**527./427. Contrastive Analysis of Spanish and English (3)**

Prerequisite: Consent of instructor. Study of the known points of similarity and differences between the two languages.

**528. Romance Linguistics (3)**

Prerequisites: SPAN 525 or equivalent. Methods used in Romance philology and linguistics; origin and evolution of Romance languages, comparative characteristics of Romance languages.

**529./429. Studies in 19th and 20th Century Spanish Poetry (3)**

Prerequisite: SPAN 330. The course will examine the salient poets from the last two centuries, including Rosalía de Castro, Gustavo Adolfo Bécquer, Antonio Machado, Juan Ramón Jiménez, Vicente Aleixandre, Federico García Lorca, Gloria Fuertes, Jaime Gil de Biedma, and other more contemporary figures. Undergraduates register in SPAN 429; graduates register in SPAN 529. Traditional grading only. (Seminar 3 hours.)

**530. Studies in Nineteenth and Twentieth Century Spanish Poetry (3)**

Prerequisites: SPAN 330, 310 or permission of instructor. Study of Nineteenth and Twentieth Century Spanish Poets. (No credit for students with credit in SPAN 585). (Seminar 3 hours).

**538. Studies in Golden Age Literature (3)**

Prerequisite: SPAN 330 or permission of instructor. Study of Sixteenth and Seventeenth Century narrative, poetry and theater. Special emphasis on Cervantes, Garcilaso, Quevedo, Góngora, Lope de Vega.

**539./439. Modern Spanish Narrative (3)**

Prerequisite: SPAN 330 or permission of instructor. Representative 19th and 20th century novelists. Undergraduates register in SPAN 439, graduates register in SPAN 539. (Seminar)

**540. Modernismo in Spanish American Literature (3)**

Prerequisites: SPAN 341. Origin and development of the Modernista movement in poetry and prose during the period from 1880 to 1920.

**541./441. Studies in Nineteenth and Twentieth Century Spanish American Narrative (3)**

Prerequisite: SPAN 341 or permission of instructor. Critical analysis of 19th and 20th century Spanish American prose fiction. Undergraduates register in SPAN 441, graduates register in SPAN 541. (Seminar 3 hours).

**543./443. Studies in Nineteenth and Twentieth Century Spanish American Poetry (3)**

Prerequisite: SPAN 341 or permission of instructor. Study of representative 19th and 20th century Spanish American poets. Undergraduates register in SPAN 443, graduates register in SPAN 543. Traditional grading only. (Seminar)

**546./446. Studies in Spanish Culture (3)**

Prerequisite: SPAN 330. This course deals with some aspect of Spanish culture in an interdisciplinary fashion during a given period. Topics could include social, political, theoretical, and/or historical perspectives on the arts. Undergraduates register in SPAN 446; graduates register in SPAN 546. Seminar 3 hours. Course may be repeated for a maximum of 6 units. (Seminar 3 hours)

**550. Studies in Colonial Spanish American Literature (3)**

Prerequisite: SPAN 341 or permission of instructor. Study of Colonial Spanish American Literature from 1492-1820. Traditional grading only. (Seminar 3 hours).

**560. Studies in Spanish American Culture (3)**

Prerequisite: SPAN 341. In-depth study of some of the essays which have dealt with the problem of what the Spanish American nations are, and what they should be during the republican era. The course includes authors from both the nineteenth and twentieth centuries. (Seminar 3 hours.)

**590. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topic. May be repeated for a maximum of nine units as long as topic is different each time. Traditional grading only.

**591./491. Nobel Poets and Others (3)**

Prerequisites: SPAN 330, 341, or permission of instructor. Critical analysis of representative works of Nobel Poets (Aleixandre, Jiménez, Mistral, Neruda and Paz) and other significant poets (Albértik, Bécquer, Darío, García Lorca, Garcilaso, Góngora, Guillén, Vallejo, etc.) Undergraduates register in SPAN 491, graduates register in SPAN 591. (Seminar 3 hours).

**592./492. Studies in Hispanic Theater (3)**

Prerequisite: SPAN 330 or 341, or permission of instructor. Representative Spanish and Spanish American plays. Undergraduates register in SPAN 492; graduates register in SPAN 592.

**593./493. Special Topics (3)**

Study of a particular aspect of Spanish literature, language or culture. See *Schedule of Classes* for specific topics. May be repeated for a maximum of nine units as long as topics are different each time. Traditional grading only. Undergraduates register in 493; graduates register for 593. (Seminar).

**A. Women and War: Voices of Resistance**

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. (Lecture)

**599. Directed Studies (1-3)**

Prerequisites: Graduate standing, advanced to candidacy, consent of the instructor and Chair or Graduate Advisor. Selected topics on Hispanic Studies to be pursued in-depth. May be repeated for a maximum of 6 units, provided subject matter is distinct for each enrollment. (Approval of Graduate Advisor and Department Chair required.)

**640. Seminar in Spanish American Literature (3)**

Prerequisite: SPAN 341 or permission of instructor. Study of particular period, genre or author. See *Schedule of Classes* for specific topic. (Seminar 3 hours.)

**650. Critical Theory (3)**

Prerequisite: SPAN 310. This course is not an introduction to literary theory, but an introduction to critical theory, i.e., the discipline which in Western countries has replaced the previous one during the past twenty or more years. We will focus on some of its major developments, and also devote a few classes to the demonstration of the practical uses of the models of reading under consideration. (Seminar 3 hours). Traditional grading only.

**691. Seminar in Spanish Literature-The Spanish Civil War and Its Artistic Repercussions (3)**

Prerequisite: SPAN 330, 341 or permission of instructor. The course will examine creative literature written during and after the Spanish Civil War (1936-39) that deals with the war theme. It will include both Spanish and some non-Spanish writers, including Arturo Barea, Constanza de la Mora, Cesar Vallejo, Pablo Neruda, Dolores Ibárruri ("La Pasionaria"), Ernest Hemingway, Juan Goytisolo, George Orwell, and Ana Maria Matute. The course will also include a discussion of the historical background of the war, and some of the art and films inspired by the war. (Seminar 3 hours) Course may be repeated for a maximum of 6 units. Traditional grading only.

## Bachelor of Arts in Religious Studies (code 2-6011) (120 units)

The department of Religious Studies educates students in the scholarly interpretation of religion. Students develop a critical and appreciative understanding of the complexity of religions and their importance in human life; the academic study of religion thus makes an invaluable contribution to historical and cultural literacy. The elements and forms of religion – texts and institutions, stories, moral values, symbols, ritual, doctrine, etc. – are studied in their cultural and historical contexts with sensitivity and intellectual precision. Students are introduced to the major religious traditions and to religion in the modern world. Religious Studies is interdisciplinary, relating world religions and the religious dimension of human life to both the humanities and the social sciences. Students interested in a degree program should apply to the department chair.

## Requirements

A minimum of 36 units is required, distributed in the following way:

Core Courses: 15 units selected from the following: R/ST 100, 103, 202, 210, 301, 322, 331I, 425I, 482I, or PHIL 330.

Area courses: Fifteen additional upper division units from three of the following five categories:

1. *Jewish Studies*: R/ST 311, 312I, 314, 315I, 316, 375, 376I, 490\*;
2. *Christian Studies*: R/ST 312I, 322, 375, 376I, 383I, 471I, 472I, 490\*;
3. *Asian Studies*: R/ST 341I, 343, 344, 351, 352, 353I, 490\*, 495\*
4. *Biblical Studies*: R/ST 311, 312I, 322, 375, 376I, 490\*;
5. *Contemporary Religious Studies*: R/ST 302I, 308, 362I, 383I, 391I, 396\*, 425I, 485, 490\*, 495\*

\*When subject matter of special topics course is applicable, the course may be used.

Six additional units are to be selected from either religious studies courses, or AIS 335, C/LT 342, PHIL 306, 307. Six to eight units of Biblical Aramaic (R/ST 220A and R/ST 220B), Hebrew, Greek or Sanskrit may be substituted.

## Minor in Religious Studies (code 0-6011)

The Minor in Religious Studies is available to any non-Religious Studies major.

A minimum of 21 units in religious studies courses or courses from other departments approved by the Religious Studies Department.

Lower Division: A minimum of six units selected from R/ST 100, 102, 103, 202, 210, or the equivalent.

Upper Division: A minimum of 15 units including three units from each of the following groups: (a) Western Religious Thought: R/ST 311, 312I, 314, 315I, 316, 322, 331I, 375, 376I, 425I, 471I, 472I; (b) Asian Religious Thought: R/ST 341I, 343, 344, 351, 353I. Remaining units are to be selected from Religious Studies courses and the following electives: AIS 335, ANTH 406, AIS 380, B/ST 353, C/LT 342, HIST 333, PHIL 330.

## Certificate in Religious Studies (code 1-6011)

### Requirements

A bachelor's degree with a major in a traditional discipline.

\*A minimum of 30 units in religious studies or courses offered in other departments approved by the Religious Studies Department.

Lower Division: A minimum of nine units selected from R/ST 100, 102, 103, 202 or 210.

Upper Division: A minimum of 21 units including one course from each of the following: (a) Biblical Studies: R/ST 311, 312I, 322, 375, 376I; (b) Western Religious Thought: R/ST 314, 315I, 316, 331I, 471I, 472I, 485; (c) Asian Religious Thought: R/ST 341I, 343, 344, 351, 353I. A minimum of twelve upper division units from the preceding courses and the following electives: R/ST 302I, 353I, 362I, 383I, 482I, 490, 499; AIS 335; ANTH 406; ASAM 380; B/ST 353; C/LT 342; HIST 333; PHIL 330.

## Master of Arts in Religious Studies (code 5-6011)

### Admission

The primary criteria for admission are the same as those for University graduate admission. In addition, the applicant must have a Bachelor's degree in Religious Studies, or its equivalent, and have achieved a 3.0 GPA in the last 60 semester units attempted. Two letters of recommendation from instructors in the undergraduate major should be included.

### Program Requirements

1. Minimum total units: 30 units of upper division or graduate study, at least 24 of which must be in Religious Studies. The remaining six may be in Religious Studies or another field of study related to Religious Studies and/or the candidate's educational interests. Each student's program must include a minimum of 18 units of graduate courses, at least six of which must be in the 600 series (not including R/ST 697 and 698). All students must satisfactorily complete R/ST 501.
2. A thesis or comprehensive examination.
3. Proficiency in a modern research language (German or French) demonstrated by passing either the ETS examination with a score of 400 or better or two years of course work with an average grade of "B" or better. Proficiency in an appropriate ancient research language (Sanskrit, Biblical Aramaic, Hebrew, Chinese, etc.) replaces this requirement for students concentrating in Ancient Mediterranean and Near Eastern Religions or in Buddhist Studies. Exceptions to this requirement, especially for students not planning to pursue further graduate degrees, can be made at the discretion of the Graduate Studies Committee.
4. Advancement to Candidacy is a statement of how the student plans to complete all courses and requirements for the degree, including establishing a date and a committee for the thesis or comprehensive examination. It is best done as early as possible. Students taking a comprehensive examination must be advanced to candidacy no later than the semester preceding the examination. Students writing a thesis are advanced to candidacy at the time they begin their thesis work.

## Courses (R/ST)

### Lower Division

#### 100. Introduction to Religion (3)

Prerequisite or corequisite: One GE Foundation course. Origin, nature, and function of religion in the individual and culture with emphasis upon and reference to outstanding personalities, sacred writings, and basic features of the world's leading religions.

#### 102. Introduction to World Religions I (Early and Western) (3)

Prerequisite/corequisite: One GE Foundation course. A survey of representative figures, themes, the schools in Western religious thought, including Judaism, Christianity and Islam.

#### 103. Introduction to World Religions II (Eastern) (3)

Prerequisite/corequisite: One GE Foundation course. A survey of Indian, Chinese and Japanese religious thought. Emphasis will be on original texts in translations.

#### 202. Religion and Society (3)

Prerequisite: Completion of GE Foundation requirements. Religious and secular views of the relation of persons and society with emphasis upon contemporary problems of personal and social ethics, political responsibility and social structure.

#### 210. Introduction to the Bible (3)

Prerequisite: Completion of GE Foundation requirements. An overview of the Sacred texts of Jews and Christians. Inspiration, Creation, Salvation, and other Biblical themes will be discussed, as well as key persons and events, such as Moses, Jesus, etc. Not available to students with credit in R/ST 101A.

#### 220A. Biblical Aramaic I (3)

Prerequisites: Completion of GE Foundation requirements. Alphabets and grammar of Aramaic, the language of Jesus, will be taught. Exercises will be offered in the proper employment of dictionaries and reference tools. Readings will include: Aramaic sections of the Bible, Dead Sea Scrolls, ancient Aramaic versions of the Bible, reconstructions of the Aramaic sayings of Jesus (e.g. the Lord's Prayer), and early Christian Aramaic writings. Cultural excursions survey history and development of the ancient international language Aramaic, the varieties of Aramaic script, the discovery of ancient Aramaic inscriptions and manuscripts, and modern studies of Aramaic and its role in understanding Jesus and the Judaism of his time. This unique course-offering is highly recommended for all students of the Bible, ancient Judaism, and early Christianity. Not open to students with credit in R/ST 120A.

#### 220B. Biblical Aramaic II (3)

Prerequisites: Completion of GE Foundation requirements. Advanced grammar and readings in Aramaic, the language of Jesus and the international language of the Near East prior to the importation of Greek. Readings from the Aramaic portions of the Bible and related Old Aramaic documents, Dead Sea Scrolls, ancient Aramaic versions of the Bible (Targumin), reconstructions of the Aramaic sayings of Jesus, rabbinic writings, and early Christian Aramaic. Select cultural excursions into the historical impact of Aramaic and special study of unpublished manuscripts. Not open to student with credit in R/ST120B.

## Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 301. Approaching Religion (3)

Prerequisite: Completion of GE Foundation requirements. Study of the methods of religious studies, including the history of religions, comparative and phenomenological study of religions, textual criticism, exegesis, research methods and techniques.

#### 302I. Religious and Social Ethical Dimensions of American Diversity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the religious and social ethical aspects of the adaptation of various American subcultures to the polyglot main-streams of American culture.

#### 308. Comparative Religious Ethics (3)

Prerequisite: Completion of GE Foundation requirements. A comparative introduction to some major ethical questions and modes of moral reasoning in different religious traditions. A basic theme for the course is the fundamental question of how and why ordinary people do good and evil actions. The main focus of the course is introducing the study of ethics within a global perspective, but it also serves as an introduction to each of the religions to be considered.

#### 311. Religion and Literature in the Old Testament (3)

Prerequisites: Completion of the GE foundation requirement, completion of one or more Exploration courses, and upper division status. The Old Testament as a religious, historical and literary document with emphasis on the religion and culture of the early Hebrews. Selected books will be read each term, but prime emphasis will be put on Genesis, Exodus, the early prophets, Isaiah. The period of the conquest and the divided monarchies will be studied.

#### 312I. Intertestament Literature, Palestine History, and Early Christianity (Dead Sea Scrolls) (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Historical

development of Jewish religion and culture in the Second Temple period from the rise of the Maccabees to the beginnings of Christianity with emphasis on the rise of the Jewish State, the coming of the Romans and the beginnings of primitive Christianity (Essenism, Phariseism and Sadduceism).

#### **314. Jewish Religion (3)**

From the end of the Second Temple period to the close of the Middle Ages. Development from Hellenistic Judaism to Rabbinic Judaism to philosophical theology will be gone into in some detail. Readings from Saadya, Halevi and Maimonides, etc.

#### **315I. Modern Jewish Thought/ Zionism (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Will deal with the development of Jewish thought from the enlightenment and emancipation from ghettos, through attempts at assimilation, the Holocaust and the birth of the Jewish State. The development of conservative, reform and orthodox Judaism will also be discussed.

#### **316. Jewish History (3)**

Survey of Jewish history from early times to the present. Subjects such as the Babylonian Captivity, the fall of the Temple, the rise of Rabbinic Judaism, the Dispersion, impact of anti-Semitism, Jewish community and intellectual life in the Middle Ages, Emancipation from the Ghetto, political movements, the Holocaust, Israel.

#### **318. Biblical Hebrew I (3)**

Biblical Hebrew I imparts the basic grammatical inflections, conjugations, and structures of elementary biblical Hebrew and starts the student on the path of mastering the specific vocabulary of biblical Hebrew. It introduces the history and particularity of this language as well as the standard reference tools employed in reading biblical Hebrew.

#### **319. Biblical Hebrew II (3)**

Prerequisite: R/ST 318. Biblical Hebrew II completes the instruction in the grammar of biblical Hebrew and introduces the student to the major syntactical constructions of this language. It further increases the student's biblical Hebrew vocabulary, hones skills in the use of reference books for biblical Hebrew, and allows an initial confrontation with selections from the Hebrew Old Testament itself.

#### **322. New Testament and Earliest Christian Literature (3)**

Prerequisite: Completion of GE Foundation requirements. The emergent Christian community, seen through the missionary and pastoral letters, the synoptic gospels, the radical theologies of Paul and John and the dramatic visions of the Apocalypse.

#### **331I. Islamic Religion and Culture (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The Koran, Muhammad and the rise of Islam as a cosmopolitan faith. The development of Muslim civilization, including literature, theology, philosophy and Sufism (mysticism).

#### **337. Mystical Literatures of Islam (3)**

Prerequisite: Completion of GE Foundation, one or more Explorations courses and upper-division standing. The course is first of all a course in human thought and the history of ideas. It covers mainly Sufism and Shi'ism and their intimate relationship. It also examines the contribution of some great Sufis and Shi'ite thinkers to the development of the inner dimensions of Islam i.e. mysticism, esotericism, and spirituality. The course provides mainly an analysis of different extracts from primary sources. Traditional grading only.

#### **341I. Buddhism (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The Buddha; early Buddhism; the great vehicle; and the vehicle of incantations. The transmission of Buddhism to China, Korea, Japan, Southeast Asia and Tibet. Emphasis on original texts in translations.

#### **343. Religions of China (3)**

Prerequisite: Completion of GE Foundation requirements. Ancient Chinese religious thought; the penetration of Indian Buddhism and Ch'an (Zen); popular religion and the religion of the scholar-official. Emphasis on original texts in translations.

#### **344. Religions of Japan (3)**

Prerequisite: Completion of GE Foundation requirements. The transmission of continental civilization to Japan; shinto, Buddhism and Tokugawa Neo-Confucianism; Genroku culture; and the New Religions. Emphasis on original texts in translations.

#### **351. Hinduism (3)**

Prerequisite: Completion of GE Foundation requirements. An introduction to the religious traditions of Hinduism. Emphasis on the historical and textual study of Hinduism through its various literatures (sacred, narrative, poetic, liturgical, and philosophical). Explores Vedic traditions of sacrifice, the speculative philosophy of the Upanishads, the religious epic and mythological literature, the main gods and goddesses, and the devotional poetry of the medieval poet-saints.

#### **352. Religions of India (3)**

Prerequisite: Completion of GE Foundation requirements. A survey of Indian religions to the present. Emphasis will be on the ways that religions of historic India have developed and interacted.

#### **353I. Religions of Southeast Asia (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. An introduction to the religions of Southeast Asia, with an emphasis on Cambodia and Vietnam. Ancient religion, historical transmission and adaptation of Hindu and Buddhist traditions, and more recent arrivals such as Christianity will be discussed. Some attention will be given to other countries and traditions in the area. (Lecture 3 hours)

#### **362I. Religion and Psychology (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the religious and psychological interpretation of both individual and community religious activity and experience. (Lecture 3 hours)

#### **375. The Historical Jesus (3)**

Prerequisite: Completion of GE Foundation requirements. Historical reconstruction of the life and thought of the "Founder" of Christianity through examination of the preserved sources. Standard historical and religious-historical methods are introduced, practiced in exercises, and integrated into the reconstruction; generally applicable historical and analytical skills are learned. Tendencies of the ancient traditions are studied in the effort to establish what can be known historically about Jesus in his contemporary cultural and political environment.

#### **376I. Christian Origins (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Consideration of Christian origins in the first century and afterwards. In particular, consideration of the two factions in the early Church in Palestine, one following the Apostle to the Gentiles' and the other following the family line of Jesus in a native Palestinian messianic way. Faith vs works. Readings from primary sources like Book of Acts, Paul's letters, Eusebius, and apocryphal literature, and other new discoveries.

#### **383I. Christianity and Global Ethics (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the interaction of Christianity with various secular socio-economic ideologies related to the process of globalization, as well as the response of Christianity to the various ethical issues raised by the globalization of capitalism, democracy, and technology. Appropriate responses to such global issues as population growth, environmental degradation, loss of cultural identity, consumerism, and the ambiguous impact of technology will be considered.

#### **391I. Religion and Science (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines the occasionally harmonious, often acrimonious relationship between religion and science. Using the methods of the history and phenomenology of religion and the history and philosophy of science, students examine, beyond the particulars of the course, the fundamental insights and claims of both religion and science, moving beyond the frequently sharp prejudices they initially bring to their study, to a more reasoned understanding of each alone and in relation to each other.

#### 401. Methods and Theories in the Study of Religion (3)

Prerequisite: Consent of instructor. This course analyzes and compares a variety of methodologies used in the discipline of Religious Studies. Methods selected include: social scientific; phenomenology; structuralism; textual criticism and exegesis; personalist and normative approaches to the study of religion. Readings are designed to raise students' critical awareness concerning the pluralistic methods used in the academic study of religious traditions. Critical hermeneutics such as Marxist, Feminist, Freudian, and Post-Modern will also be explored. Traditional grading only.

#### 425I. Religion and Modern Literature (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The role of the writer and poet in the secular modern world as religious thinker. The themes of alienation, anguish, absurdity, evil, hope, despair, mystic vision, and salvation will be among those treated.

#### 460./560. Jewish Christianity (3)

Prerequisite: Consent of instructor. History and literature of ancient Jewish Christianity in its relationship to Gentile Christianity and Judaism, from the relatives of Jesus through the fourth century. Texts studied include the Gospel of the Ebionites, the Gospel of the Nazoraeans, Hegesippus, the Book of Elchasai, the Pseudo-Clementines, the Disdascalia, and remarks on the Jewish Christians in church writers and Jewish sources. Traditional grading only.

#### 471I. Early Christianity and Society (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Development of Christianity from the New Testament period to the Renaissance with emphases on the growth of doctrine, church institutions and the role of Christianity in ancient and medieval society.

#### 472I. Formation of Modern Christianity (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Restructuring and renewal of Christianity, from the Reformation through the dawn of modern consciousness to the challenge of 20th century secular life.

#### 482I. American Religious Experience (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of major themes in the unique American religious experience. Topics of significance will include the adaptation of European Christianity to novel American circumstances, the proliferation of denominations and the varied religious response to a dynamic American society.

#### 485. Contemporary Religious Thought (3)

Prerequisite: Completion of GE Foundation requirements. Critical examination of the current trends in religious understanding against a background of rapid social change. New movements and issues on the religious scene will be considered and a variety of authors representing both East and West will be studied in order to reveal the emerging patterns of religious thought.

#### 490. Special Topics in Religious Studies (1-3)

Topics of current interest in religious studies selected for intensive development. A maximum of nine units with different topics may be used in the major. Topics will be announced in the *Schedule of Classes*.

D. Zen

#### 499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Directed studies to permit individual students to pursue topics of special research interest. May be repeated up to a total of six units.

### Graduate Division

#### 560./460. Jewish Christianity (3)

Prerequisite: Consent of instructor. History and literature of ancient Jewish Christianity in its relationship to Gentile Christianity and Judaism, from the relatives of Jesus through the fourth century. Texts studied include the Gospel of the Ebionites, the Gospel of the Nazoraeans, Hegesippus, the Book of Elchasai, the Pseudo-Clementines, the Disdascalia, and remarks on the Jewish Christians in church writers and Jewish sources. Traditional grading only.

#### 604. Seminar in Religion in Contemporary America (3)

Prerequisite: Consent of instructor. Advanced inquiry into aspects of religion in contemporary America, including its ethical, cultural, historical or theoretical dimensions. May be repeated, with different topics, up to 9 units. Traditional grading only.

#### 624. Seminar in Ancient Mediterranean Religion (3)

Prerequisite: Consent of instructor. Advanced inquiry into the religions of the Ancient Mediterranean. May be repeated, with different topics, up to 9 units. Traditional grading only. Course may be repeated to a maximum of 9 units with different topics.

#### 646. Seminar in Buddhist Studies (3)

Prerequisite: Consent of instructor. Advanced inquiry into topics in Buddhist Studies. May be repeated, with different topics, up to 9 units. Traditional grading only.

#### 690. Special Topics in Religious Studies (3)

Prerequisite: Consent of instructor. Topics of current interest in Religious Studies selected by the faculty for intensive development. May be repeated, with different topics, up to 9 units. Traditional grading only.

#### 697. Directed Research (1-3)

Prerequisite: Consent of instructor. Directed Studies to permit individual students to pursue topics of special research interest. May be repeated, up to a maximum of 9 units. Traditional grading only.

# RUSSIAN AND EAST EUROPEAN STUDIES

*College of Liberal Arts*

Director

Harold Schefski (Russian)

Department Office

McIntosh Humanities Building (MHB), Room 810

Telephone

(562) 985-8525 or 985-4317

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

Students desiring information should contact the department office for referral to one of the faculty advisors.

## Certificate in Russian and East European Studies (code 1-6040)

Russian and East European Studies has an interdisciplinary program which offers students interested in this field the opportunity to pursue courses leading to a Certificate in Russian and East European Studies. Courses used to meet this certificate requirement may be counted also, where applicable toward the General Education requirement and the major and teaching minor requirements of the cooperating departments.

Interdisciplinary in concept, it covers the fields of anthropology, economics, geography, history, comparative literature, philosophy, political science and the Russian language.

The expanding opportunities for careers and public service in foreign policy administration, international organization, international business activities, education and information for intercultural understanding, make it useful to organize studies leading to a certificate in this ever important part of the world. This will tend to enhance the student's possibility for a career in business, education or government, and broaden the scope of understanding.

Interested students should apply to the Director, Russian and East European Studies, Dr. Harold Schefski, Department of Romance, German and Russian.

### Requirements

1. A bachelor's degree with an approved major;
2. A minimum of two semesters of a Slavic language;
3. 18 units selected from four of the disciplines listed below chosen in consultation with the student's advisor.

No more than six units of any one discipline shall apply toward the certificate;

ANTH 331, 490\*; C/LT 349, 428, 449; ECON 368, 490\*; GEOG 318; HIST 341A, 341B, 441, 490\*, 495\*; PHIL 490\*; POSC 306, 356, 357, 484, 497; RUSS 101A-B, 201A, 201B, 310, 312, 314, 410;

4. Cumulative GPA of 2.75 in all courses in the student's approved certificate program.

\*May be taken only when course work is applicable to Russian and East European Studies. Consultation with director of the center is required.

# SPORTS, ATHLETICS AND RECREATION

## University Programs

Director  
Bill Shumard  
Telephone

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The University sponsors a complete athletic program. The Department of Sports, Athletics, and Recreation is the administrative unit responsible for the supervision of intercollegiate athletic programs, the intramural program, the sport clubs, recreation clubs, and recreational fitness for students, faculty and staff.

The department sponsors a diverse program of intercollegiate athletics for men and women. Both programs compete under the rules of the National Collegiate Athletic Association and the Big West Conference, maintaining membership in both organizations. Women's varsity sports are basketball, golf, cross country, soccer, tennis, track and field, volleyball, water polo and softball. Men's varsity sports are basketball, baseball, track and field, cross country, water polo, volleyball, and golf. Students enrolling in intercollegiate athletic programs must meet all NCAA eligibility requirements. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that CSULB dedicates to its men's and women's teams may be obtained from Cindy Masner, SAR, (562) 985-1904.

The intramural program offers all students the opportunity to play in a wide range of sports and activities. The program includes 25 different activities. To receive credit for this program students may enroll in SAR 200. Students must participate in a minimum of three (3) different intramural tournaments or leagues per semester. As an alternative to direct participation, students can earn class credit by officiating 15 intramural games per semester. Team activities are scheduled at varied times. League competition is available in 16 of the activities for men, women and co-educational participation. Students enrolled in the class must contact the Recreational Sports office to sign up for their activities. Upon completion of each activity, the student must notify the Recreational Sports office of their participation.

Students may participate in any of the club sports activities which are partially funded by the Associated Students, Inc., and administered through the SAR Department. These sports are: Aikido, alpine ski-snowboard, archery, bowling, crew, cycling, ice hockey, Karate Do, outdoor adventure, rugby, sailing, Shotokan Karate, soccer, surfing, Tae Kwon Do, triathlon, volleyball (men's), ultimate frisbee and water ski. Students registering for SAR 210 must attend regular practices and competitions, assist the club with fund raisers and adhere to the rules and regulations. For information on practice times and meeting locations, contact the individual club coach or president. Visit the Recreational Sports web site ([recsports@csulb.edu](mailto:recsports@csulb.edu)) or visit the office at PE Bldg., room 20. In addition to participation in club sport activities, students may also receive credit for leadership training and service performed with any university sponsored program in which club sports is promoted.

Students may apply no more than four (4) semester units of lower-division SAR courses toward the baccalaureate degree within the 20-unit maximum on activity units generally, except that the combined total of lower-division SAR activity units

must not exceed four (4) units and the total of lower-division KPE activity units must not exceed eight (8) units. Upper-division SAR courses, with the exception of SAR 325, may be taken one time only and not in conjunction with the lower division SAR courses. SAR 325 may be repeated for credit to a maximum of four (4) semester units and may be taken in conjunction with any other SAR course.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics.

## Courses (SAR)

### Lower Division

#### 200. Intramural Activities (1)

#### 210. Sport Clubs/Leadership (1)

Participation or competition in sport clubs as conducted under the respective club/team policy or leadership opportunities as outlined by the Recreation Director. Enrollment subject to approval by the coach of the sport or the Recreation Director. Athletes enrolled who fail to qualify for the squad must withdraw from the course. It is the responsibility of the student to contact the representative of each of these teams regarding practice times and eligibility requirements. These courses may be repeated for credit to a maximum of four (4) units. Credit/No Credit grading only.

- A. Archery
- B. Crew
- C. Cycling
- D. Ice Hockey
- E. Martial Arts
- F. Rugby
- G. Sailing
- H. Ski and Snowboard
- I. Soccer
- J. Water Ski
- K. Surfing
- L. Leadership
- M. Triathlon

#### 260-299. Intercollegiate Sports (1)

Competition in NCAA-regulated major and minor sports. Enrollment subject to approval of the coach of the sport. Athletes enrolled who fail to qualify for the squad must withdraw from the course. These courses may be repeated for credit to a maximum of four (4) units. Credit/No Credit grading only.

- 261. Women's Softball (1)
- 262. Men's Baseball (1)
- 263. Women's Basketball (1)
- 264. Men's Basketball (1)
- 265. Women's Track and Field (1)
- 266. Men's Track and Field (1)
- 269. Women's Volleyball (1)
- 270. Women's Water Polo (1)
- 271. Men's Water Polo (1)
- 272. Men's Volleyball (1)
- 275. Women's Golf (1)
- 276. Men's Golf (1)
- 277. Women's Tennis (1)
- 281. Women's Cross-Country (1)
- 282. Men's Cross-Country (1)
- 284. Women's Soccer (1)

### Upper Division

#### 319. Theory and Practice of Minor Intercollegiate Sports (2)

#### 320. Theory and Practice of Major Intercollegiate Sports (2)

#### 325. Student-Athlete Leadership Development and University Service (1)

Prerequisites: Upper division standing. Permission to register needed from instructor. Must be an official member of an NCAA (National Collegiate Athletic Association) Intercollegiate team at CSULB. This course is designed to help student-athlete juniors and seniors hone their communication and facilitation abilities to better function within groups, the community, and in their prospective careers. In addition to focusing on skills needed in any people dynamic and group process, information on academic, athletic, and social development of student-athletes, and how a peer mentor can positively impact that development will be featured. Heavy emphasis will be placed on the experiential component of learning. This course may be repeated for credit to a maximum of four (4) units. This course may be repeated for credit to a maximum of four (4) units and may be taken in conjunction with any other SAR course.

The Department of Science Education is strongly committed to the improvement of teaching and learning in science at all levels, Pre-Kindergarten — University. The activities of the department are highly diversified, ranging from its roots in teacher preparation through science education projects of national significance. Faculty of the Department of Science Education play an important role in preparing and credentialing elementary and secondary school teachers for science teaching. Significant emphasis is also placed on providing experienced teachers with continuing opportunities to refine and raise the effectiveness of their science teaching. Science Education faculty similarly work with university science department teaching assistants. In all its endeavors, the department maintains close ties with the teachers and schools of the greater Long Beach area.

The Department also undertakes projects aimed at pre-college students. The "Head Start on Science" project, one of only two such projects supported by the US Department of Health and Human Services, is developing a "sense of wonder" science component for 4-year old "Head Start" youngsters, their teachers and parents. Other recent projects of the Department have included: The Project to Improve Methods Courses in Elementary Science and the Minority Opportunities in Science Teaching Project (Project MOST), Long Beach Science and Math Teacher Education Partnership (LBESTEP) and Summer Science at the Beach. To complement their teaching activities, Science Education faculty members maintain an active program of research and are involved in a variety of local, state, and university organizations and projects to improve science and environmental science education.

The Science Education Department houses a suite of instructional classrooms and a small multimedia computer laboratory. The classrooms and lab are Internet-wired offering students interconnectivity and access to many web-based instructional materials. The Science Education Department is committed to meaningful integration of technology into the teaching and learning of science. All Science Education students are required to use multimedia tools and electronic probeware in and outside of class. The Department also maintains an extensive Science and Environmental Education Curriculum and Materials Resources Center that includes science teaching guides, textbooks, professional journals, and computer software. Students and local teachers are welcome to explore these resources during campus and daytime hours.

## Courses (SCED)

### Upper Division

#### 302. Elementary School Science Workshop (3)

Prerequisites: SCED 401. A practicum on the development and use of "hands-on" elementary school science teaching/learning activities, units and learning centers. Not open to students with credit in BIOL 302 or NSCI 302. (Lecture 2 hrs., workshop 2 hrs.) Course fee may be required.

**401. A Process Approach to Science (3)**

Prerequisites: BIOL 200; PHSC 112; GEOL 102 and 104; all with a "C" or better grade. The processes of science as they relate to the life, earth, and physical sciences. Practical approaches to understanding how science works will be modeled and integrated throughout. Not open to students with credit in BIOL 301, NSCI 301, or NSCI 401. (Lecture 2 hrs., laboratory 3 hrs.) Course fee may be required.

**403. Seminar in Integrated Science (2)**

Prerequisites: Completion of all credential breadth requirements for Single Subject Teaching Credential in Science, three-fourth of the credential specialization courses, and consent of instructor. Enrollment limited to students who intend to pursue a Single Subject Credential in Science. Requires presentations, discussions, and critical evaluations by students on selected interdisciplinary topics in the sciences. Occasional field trips may be required.

**490. Special Topics in Science Education (1-3)**

Prerequisites: Consent of instructor. Selected topics in Science Education. Course content will vary from section to section. May be repeated in different semesters to a maximum of 3 units with different topics with consent of instructor.

**496. Directed Studies in Science Education (1-3)**

Prerequisites: Consent of instructor. Supervised study of current topics in science education. Course may be repeated in different semesters to a maximum of 3 units with different topics.

**Graduate Division****500. Life Science Applications for K-8 Teachers (3)**

Prerequisites: Admission to M.S. in Science Education program and BIOL 200. This course emphasizes major themes and processes in the life sciences, focusing both on deepening understanding of these concepts and on approaches to teaching this material in the K-8 classroom. Practical approaches to developing and teaching inquiry-based/experiential learning units in biology will be modeled and integrated throughout the course. Traditional grading only. (Seminar, 3 hrs.)

**501. Earth Sciences Applications for K-8 Teachers (3)**

Prerequisite: Admission to the M.S. in Science Education program and GEOL 102+104 or GEOL 106. This course investigates earth science topics with a focus on deepening the connections between earth science concepts and concepts of matter and energy cycling, as well as providing applications of earth science concepts and activities in K-8 classrooms and schools. Traditional grading only. (Seminar, 3 hrs.)

**502. Physical Science Applications for K-8 Teachers (3)**

Prerequisite: Admission to M.S. in Science Education program and PHSC 112. This course investigates physical science topics with a focus on deepening students' science understanding while showcasing applications of physical science for students' personal lives and their K-8 classrooms and schools. Traditional grading only. (Seminar, 3 hrs.)

**550. Current Issues & Research in Science Education (3)**

Prerequisite: Admission to M.S. in Science Education program. SCED 550 is a core course in the M. S. in Science Education. This survey course introduces students to the body of research and practical knowledge shared by the science education community. Course work includes studying and discussing articles chosen from the science education literature relevant to key issues in science education. Course requirements include attending local, state, or national science teachers conventions. Traditional grading only. (Seminar, 3 hrs.)

**551. Science Teaching, Learning & Curriculum Models (3)**

Prerequisite: Admission to M.S. in Science Education program and SCED 550. SCED 551 is a core course in the M. S. in Science Education. The course introduces students to the professional literature about science teaching and learning. The course also traces the historical development of elementary and secondary science curriculum models. Students will look at the role science and education organizations have played in reforming the science curriculum, and analyze curricula from a variety of teaching and learning perspectives. Traditional grading only. (Seminar, 3 hrs.)

**552. Nature of Science (3)**

Prerequisite: Admission to M.S. in Science Education program and SCED550. SCED 551 is a core course in the M. S. in Science Education. This course looks at science from historical, philosophical, psychological, and sociological perspectives. The course examines perceptions of science and scientists, especially views of science in different cultures and times. The course also discusses using these perspectives to teach students about the nature of science. Traditional grading only. (Seminar, 3 hrs.)

**697. Directed Research (1-3)**

Prerequisite: Consent of instructor and admission to M.S. in Science Education program. Independent investigation of a research problem or directed project, under the direction of a faculty member. Traditional grading only.

**698. Thesis (1-3)**

Prerequisite: Advancement to Candidacy for the M. S. in Science Education, 18 units of coursework required for Science Education M.S. completed, and consent of the chair of the thesis committee. Planning, preparation, and completion of the thesis project in Science Education. Traditional grading only.

View the Single Subject Credential Program on-line at [www.csulb.edu/depts/singsubj](http://www.csulb.edu/depts/singsubj).

A teacher with a Single Subject Credential is authorized to teach the specific subjects named on the credential in departmentalized schools. This is commonly done in California high schools and in most California junior high and middle schools. However, a teacher authorized for single subject instruction may be assigned to teach any subject in his or her authorized fields at any grade level: pre-school, kindergarten and grades one through twelve; or in classes organized primarily for adults. The Single Subject Credential Program (SSCP) prepares university students to be credentialed in California for single subject instruction. At CSULB the program includes courses in the student's teaching subject area, in Secondary Education (EDSE), and in Single Subject Education (EDSS).

Students are able to receive information brochures by calling the Single Subject Teacher Education Program office at (562) 985-7622.

## The Single Subject Credential Program

The Single Subject Credential Program is a 33 unit program comprised of six courses (18 units), plus the student teaching semester (15 units). EDSS 300 is the program prerequisite and must be taken prior to other EDSS and EDSE courses. Health Science 411B may be taken prior to, concurrent with, or after EDSS 300, the Level I technology course, and CLAD courses. All course work must be completed prior to student teaching. Student teaching is a full

teaching day, Monday through Friday, for approximately 20 weeks under the tutelage of one or more cooperating teachers and a university supervisor. Program courses: EDSS 300 (separate sections offered for each subject area); H/SC 411B; EDSE 435, 436, 457; EDSS 450 (separate sections offered for each subject area); EDSS 472 (student teaching).

As of July 1, 2002, all candidates for the Single Subject Preliminary Credential are required to demonstrate proficiency in educational uses of computer technology by successful completion of the computer course offered in the candidate's subject, or by successful completion of ETEC 444, or by passing a California Commission on Teacher Credentialing-approved examination. The course or exam may be taken prior to entry into the program or while in the program, but must be successfully completed prior to advancement to student teaching. Candidates in the 10 subject area programs can meet the computer technology requirement through the following courses: Art (ART 305), English (ENGL 337), Home Economics (FCS 387), Health Science (ETEC 444), LOTE (ETEC 444), Mathematics (MTED 301), Music (MUS 386), KPE (KPE 270 and 312), Science (EDSS 300C and 450C and 472), Social Science (ETEC 444).

All professional coursework for the credential must be completed within seven years of admission to the program.

In addition to professional preparation, all credential candidates must demonstrate subject matter competence by one of the following: (a) completion of a Commission-approved subject matter program; (b) passing scores on the PRAXIS and/or SSAT exams; (c) transcript review; (d) a combination of the above. Candidates should confer as early as possible with the Credential Advisor in their subject area to develop an efficient program plan.

## Admission to the Program

Before beginning the Single Subject Credential Program, students should be admitted to the University. Apply for admission if you are (a) a graduating senior at CSULB, (b) transferring from another institution, or (c) returning to the University after an absence of one or more semesters. Admission to the University does not constitute admission or acceptance to the SSCP. Application to the program is normally made as part of the course requirements for EDSS 300. Students may take the EDSS 300 course as early as the junior year with a minimum of sixty units.

## Requirements

1. Complete the prerequisite course EDSS 300 in the appropriate subject area.
2. Perform satisfactorily in the 45 hour field work requirement in EDSS 300.
3. Attain a grade point average of at least 2.67 in all baccalaureate and postbaccalaureate course work or a grade point average of at least 2.75 in the last 60 semester or 90 quarter units attempted.
4. Complete a personal interview with program faculty.

5. Submit two letters of recommendation that speak to the candidate's potential for successful public school teaching.
6. Submit a written statement of professional goals and philosophy of education.
7. Submit an application for a Certificate of Clearance to the California Commission on Teacher Credentialing (CCTC), or provide evidence of recent fingerprint clearance.
8. Submit a tuberculosis skin test or chest X-ray taken within the previous three years. Tuberculosis clearance must be valid through the conclusion of student teaching.
9. Take the CBEST exam. (Passage of the exam is required to advance to student teaching.)
10. Demonstrate proficiency in reading and writing English by (1) attaining the minimum passing score of 37 on the reading portion of the CBEST exam or by (2) achieving a "C" grade or better in a course satisfying the General Education requirement in literature or philosophy and by (1) attaining the minimum passing score of 37 on the writing portion of the CBEST or by (2) passing the Writing Proficiency Exam (WPE).
11. Demonstrate ability to communicate orally in English at the level required of public school teachers by demonstration of English production skills in the course EDSS 300 and through an oral interview with subject matter program faculty. In the case of candidates for a credential in teaching Languages Other Than English, there is a bilingual interview requirement in English and the target language.
12. Demonstrate personality and character traits that satisfy the standards of the teaching profession and suitable aptitude for teaching in public schools through the application documentation, the personal interview, and performance in the course EDSS 300.
13. Submit a completed program application to the EDSS 300 instructor.
14. Complete all requirements for admission to the program unique to the candidate's subject matter program.

## 5-Year Preliminary Credential

Successful completion of the Single Subject Credential Program normally leads to the Preliminary Credential, which is valid for five years.

### Requirements

1. Hold a bachelor's degree from an accredited institution.
2. Satisfy the U.S. Constitution requirement (POSC 100 or 391 or exam or equivalent course from another institution).
3. Pass CBEST.
4. Pass character clearance (fingerprint check).
5. Demonstrate subject matter competence.
6. Achieve course credit in EDSS 300 and complete the following courses with a minimum grade of "C": EDSE 435, EDSE 436, EDSE 457, and H SC 411B. A minimum GPA of 3.0 must be attained in the EDSS and EDSE courses. A minimum of grade of "B" must be attained in EDSS 450.
7. Demonstrate Level I Computer proficiency.
8. Complete student teaching (EDSS 472A,B,C).

## CLAD (Crosscultural Language and Academic Development) Emphasis Preliminary Credential

The CLAD (Crosscultural Language and Academic Development) Emphasis Single Subject Preliminary Credential Program is as follows:

1. Complete all the requirements for the Preliminary Single Subject Credential.
2. Complete six (6) units of college-level foreign language, or equivalent experience.
3. Complete with a grade of "C" or higher the following:
  - a. EDP 302 or PSY 361;
  - b. EDSE/LING 339 or EDP/LING 329 or EDP 454 ;
  - c. CD/LING 485 .

NOTE: The courses listed in (3) above may be taken at any time, but they must be completed within one year from the time student teaching is completed.

### Student Teaching

Student Teaching is a full day, full semester responsibility following the school district calendar. Students teach three classes which represent different aspects or levels of the single subject major. The other two periods are for preparation and observation. Student teachers attend student teaching seminars. The University determines the specific student teaching assignment. There are a wide variety of schools and teaching situations available in the program service area representative of the diversity of the region.

Advancement to Student Teaching is based upon a second thorough assessment of the candidate's qualifications. The process involves an evaluation of the applicant's file and an interview with faculty in the Single Subject Program. The criteria for advancement are as follows:

1. Potential for success in teaching, as indicated by successful leadership, teaching experience, or work experience. Updated information regarding the candidate's most recent experience, including the work in EDSS 450, forms the basis of this assessment. Candidates are urged to submit letters of recommendation which reflect activities undertaken since their admission to the credential program.
2. Continuing motivation for and enthusiasm toward teaching, together with those personality traits believed essential for successful teaching. Evidence includes a strong recommendation from the instructor of the EDSS 450 class and further recommendations from faculty who have worked with or have interviewed the student since the time of admission to the credential program.
3. Academic competence, overall and in the teaching major. The level of academic achievement of candidates is expected to be above average.

### Advancement to Student Teaching Requirements

1. Member in good standing of the Single Subject Credential Program.
2. A GPA of 2.75 in the last 60 units, or 2.67 overall.
3. A minimum grade of "C" in each course in the professional education program and completion of the four education courses with a GPA of at least 3.0. Completion of EDSS 450 with a minimum grade of "B."
4. TB clearance (clearance must be valid through completion of student teaching).
5. By October 1 or March 1 of the semester prior to Student Teaching, file a student teaching application.

6. Pass the California Basic Educational Skills Test (CBEST) prior to the student teaching application deadline.
7. Satisfy subject matter mastery evaluation.

### Student Teaching Application Process

1. Transfer graduate students should recognize that completion of the credential program may take three or more semesters. The major department may require a minimum of six units in the major at CSULB prior to student teaching.
2. Student Teaching applications are distributed at regularly held information meetings. Candidates for advancement to student teaching must attend a meeting. Meeting dates are posted outside the Single Subject Program Office and are available on the website.
3. The application for Student Teaching is reviewed by the student's Single Subject major area. The Credential Center evaluates transcripts. The department then makes a recommendation to the University Single Subject Teacher Education Committee which takes final action. When approved by this committee, the student registers for EDSS 472A,B,C. A priority system is used if sufficient funding is not available to allow all qualified applicants to enroll in student teaching.
4. A Certificate of Clearance must be on file in the Credential Center prior to the beginning of Student Teaching.

### Professional Clear Credential

Beginning teachers have five years to obtain the Professional Clear Credential.

#### Requirements

1. Requirements for the Preliminary Credential (see above).
2. A minimum of thirty (30) postbaccalaureate semester units. Note that these units must be taken after the baccalaureate degree is awarded. The only exception is for second semester seniors who successfully petition in advance of obtaining the baccalaureate to count a maximum of twelve (12) units taken in the senior year toward a postbaccalaureate credential.
3. ED P 350 (mainstreaming).
4. Demonstrate Level II computer proficiency. See your Credential Advisor or the Single Subject Office for courses and options for meeting this requirement.
5. Health Science for secondary teachers. (Note: H/SC 411B satisfies this requirement.)

### Petition Process

Appeals to program decisions or requests for policy waivers are made by filing a written appeal to the Single Subject Program Petition Committee. The Petition Committee reviews the written statement and supporting evidence and interviews the candidate, if necessary. After the review, the Committee renders its final decision. Students follow University policy to appeal a course final grade.

### Single Subject Credential Major Programs

The subject matter programs listed below have been approved by the California Commission on Teacher Credentialing. Completion of a program as an undergraduate major (or as a returning graduate student) meets the subject matter competence requirement for the teaching credential. In most of the un-

dergraduate majors, with careful planning, it is possible for undergraduates to complete the professional preparation (education) courses concurrent with the major, with the exception of student teaching (which may be done the first semester after graduation). Subject matter competence may also be demonstrated by passing the appropriate Commission-approved PRAXIS and/or SSAT exam. Candidates should consult the Credential Advisor in their area of interest to develop an efficient program plan.

### Art Education (code 110)

Students are required to complete 30 units of core courses and an additional 36 units to provide breadth and perspective. Refer to the list of courses under the Bachelor of Arts Degree in Art (Art Education) in the Art Department section of the catalog. Consult the Art Education Credential Advisor for program information.

### English Education (code 120)

All English Education students must complete the following 35-unit core: ENGL 184\*, 310\*, 327 (cross-listed with LING 327), 363\*, 375, 410, 482, LING 339; one course from the following: ENGL 250A\*, 250B\*; one course from the following: ENGL 370A\*, 370B\*. Note that asterisked courses are 4-unit courses.

In addition to the core requirements, English Education students select an area of emphasis from the following choices. Please note that the areas of emphasis vary in the number of units they require.

#### Black Studies Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): B/ST 140, 343, 415, 499; select three units from B/ST 155, 201, 370; select three units from B/ST 180, 240, 340, 346.

#### Comparative Literature Emphasis

Students are required to complete the core of thirty-five (35) units and fifteen (15) units to provide breadth and perspective.

Breadth and Perspective (15 units): select one course from C/LT 261, 361; select three units from C/LT 230, 330A, 330B; select three units from C/LT 250, 251, 410, 412I, 451I, 461; select three units from C/LT 234, 235, 236, 403, 415I, 440; select three units from C/LT 310I, 312I, 414I, 421I, 422I, 431, 432, 438.

#### Creative Writing Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): select nine units from ENGL 405, 406, 407, 499; select nine units from ENGL 385, 386, 459, 463, 467A, 467B, 474, 475, 476, 477A, 477B, 478.

#### Journalism Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of twenty-one (21) units to provide breadth and perspective.

Breadth and Perspective (21 units minimum): JOUR 110, 120, 319, 320, 331, 430; select a minimum of three units from JOUR 300, 312, 323, 370, 422, 431, 490, 499.

### Language and Linguistics Emphasis

Students are required to complete the core of thirty-five (35) units and eighteen (18) units to provide breadth and perspective.

Breadth and Perspective (18 units): select six units from LING 420, 421, 433; select six units from LING 435, 485 (or ED P 485), 486; select three units from ANTH 421 or LING 472; select three units from ENGL 435, LING 460.

In addition, this emphasis requires 12 units or equivalent of a foreign language.

### Literacy and Composition Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of fifteen (15) units to provide breadth and perspective.

Breadth and Perspective (15 units minimum): ENGL 435, 436; select a minimum of six units from ENGL 309, 496, 497, LING 435, 460; select three units from ENGL 300, 317, 405, 406, 407, 417, 418.

### Literature Emphasis

Students are required to complete the core of thirty-five (35) units and a minimum of fifteen (15) units to provide breadth and perspective.

Breadth and Perspective (15 units minimum): ENGL 384; select three units from ENGL 451, 452, 453, 455, 456, 458, 459; select a minimum of three units from ENGL 474, 475, 476, 477A-B, 478, 479; select three units from ENGL 318I (or FEA 318I), 385, 386, 398; select three units from C/LT 230 or any upper division English course.

### Speech Communication Emphasis

Students are required to complete the core of thirty-five (35) units and twenty-one (21) units to provide breadth and perspective.

Breadth and Perspective (21 units): select six units from COMM 130, 210 and 210W, 271; select six units from COMM 331, 333, 335; select 9 units from COMM 306, 309, 355, 410, 411, 451.

### Theatre Arts Emphasis

Students are required to complete the core of thirty-five (35) units and twenty-two (22) units to provide breadth and perspective.

Breadth and Perspective (22 units): THEA 101, 114A, 142, 148, 346, 374, 476; select one unit from THEA 310A or 340A.

### Languages Other Than English (LOTE)

At CSULB, there are four Commission-approved programs in Languages Other Than English: French, German, Japanese, and Spanish. Successful completion of one of these programs constitutes demonstration of subject matter competence in the target language. For subject matter requirements in German, French and Spanish, refer to the Department of Romance, German, Russian Languages and Literatures (RGRL). For subject matter requirements in Japanese, refer to the Department of Asian and Asian American Studies. Candidates should see the LOTE Credential Advisor at the earliest possible date to develop a program plan.

### Health Science Education (code 130)

Complete the requirements for the B.S. in Health Science with an option in School Health.

### Home Economics Education (code 140)

Home Economics Education is also known in the profession as Family and Consumer Sciences Education. Students must complete the requirements for the Bachelor of Arts degree in Family and Consumer Sciences with an Option in Education.

The following general education courses are required: CHEM 100; ECON 100 and 101 or 300; ENGL 100, 101 or 300 or 317; PSY 100; SOC 100 or ANTH 120; and COMM 110.

The required Family and Consumer Sciences courses are: FCS 111, 132, 154, 233, 235, 251, 275, 296, 299, 312I, 314, 321\*; 322, 326, 353, 387, 488, 492, 499, plus 12 units of one of the following concentrations: Child Development and Education Occupations (FCS 214, 414, 416A, 416B); Fashion Design, Manufacturing, and Merchandising (FCS 255, 351, 355, 455); or Foodservice and Hospitality (FCS 270, 375, 377, 464).

The professional education courses may be started as early as the junior year. Although it is possible to complete the educational sequence as part of the undergraduate degree, it is more typical to complete those courses (including student teaching) in two or three semesters after graduation. Students should consult with the Family and Consumer Sciences Education Credential Advisor as early as possible in order to design an efficient undergraduate program of study. Students may also work on a teaching credential while completing a Master of Arts degree in Family and Consumer Sciences.

Students who earn a Home Economics single subject credential will be prepared for careers in teaching youth and adults in various educational settings. Career opportunities include teachers in middle schools, junior and senior high schools, adult or career and technical education programs, and community colleges; positions in cooperative extension, government, and community agency services; and education program specialists in business, industry and government.

### Mathematics Education (code 165)

The requirements listed below reflect current state standards. Advisement sheets are available in the Mathematics Department. Direct questions to the Mathematics Education Credential Advisor.

Students are required to complete the following program of twenty-one (21) lower division units and thirty (30) upper division units.

Prerequisites: Precalculus mathematics (MATH 117) or four years of high school mathematics including two years of algebra, one year of geometry, 1/2 year of trigonometry, and an additional senior-level course.

Lower Division: MATH 122, 123, 224; MATH 233; 247.

Upper Division: MATH 310, 341, 355, 361A\* or 364A, 380, 381, 410, 444, MTED 301, 411; Upper division Mathematics elective (3 semester hours).

\* Preferred course

### Music Education (code 170)

Students are required to complete the Bachelor of Music degree with an option in choral/vocal or instrumental music that includes twenty-seven (27) core units in music education. Consult the Credential Advisor for developing a program plan.

### Physical Education (code 175)

Complete the requirements for the Bachelor of Arts in Kinesiology with an Option in Adapted Physical Education, Elementary School Physical Education, or Secondary School Physical Education.

## Science Education

California Single Subject credentials in science require background in all the sciences, as well as more specialized study in one discipline. For this reason, students are required to complete both Breadth and Specialization courses as outlined below.

### Breadth Requirements

Required of all credential specializations: ASTR 100, BIOL 211A-B, CHEM 111A-B, GEOL 102, 104, and 160, SCED 403, and PHYS 400I. In addition, students specializing in Geosciences or Physics are required to complete PHYS 151 and 152 and MATH 122. Those specializing in either Biological Sciences or Chemistry are required to complete *either* PHYS 100A-B *or* PHYS 151 and 152, *and either* MATH 119A *or* MATH122. It is further recommended that candidates also complete GEOL 240.

### Specialization Requirements

In addition to completing the breadth requirements, students also select one of the following four science specializations: Biological Sciences, Chemistry, Geosciences, or Physics. Requirements for each of these are outlined below.

#### Biological Sciences (code 184)

CHEM 327, BIOL 260, 312, 340, 345, 350, and 370; *and either* BIOL 439, 447, *or* 328; *and either* MICR 300I, 302I, *or* BIOL 303I. It is further recommended that candidates also complete *either* BIOL 313, 324, *or* 332.

#### Chemistry (code 181)

CHEM 251, 320A-B, 441A, 496, 451 *and* MATH 123; *and either* CHEM 431 *or* 441B. It is further recommended that candidates also complete *one* of the following Physical Chemistry sequences: *either* CHEM 377A-B *or* CHEM 371A-B.

#### Geosciences (code 182)

GEOL 273, 324, 341, 343, 428, 433, 450, *and* MATH 123; It is further recommended that candidates also complete GEOL 429 *and either* GEOL 460, 461, *or* 462.

#### Physics (code 183)

MATH 123, 224; PHYS 154, 155, 310, *and* 340A; *and either* PHYS 330 *or* 475-476; *and either* PHYS 380 *or* 496; *and either* MATH 370A *or* 364A.

#### Social Science Education (code 185)

Candidates must complete 45 units from the menu of core requirements listed below. To add breadth and perspective to the basic core, each student must complete 15 additional units in the breadth area. Consult the Social Science Education Credential Advisor for program information.

##### Core Requirements (45 units):

#### Capstone

CLA 495 (should be taken at or near conclusion of the undergraduate major)

#### History

HIST 211, 212, 172, 173, 396, 473. Choose one of the following courses: HIST 469 *or* 485A/B *or* 486

#### Geography

GEOG 100, 306

#### Political Science

POSC 100 *or* 391; POSC 215

#### Behavioral Science

PSY 100 *or* SOC 100 *or* ANTH 120

#### Economics

ECON 300

##### Breadth Requirements (15 units):

Candidates must choose nine units from one field listed below, and six units from a second field listed below:

1. World Perspectives
2. National Perspectives
3. State Perspectives
4. Citizenship Perspectives
5. Ethical Perspectives
6. Diversity and Equity

Breadth courses in each field must be chosen from the following:

1. World Perspectives  
HIST 317, 335, 337, 339, 364, 382B, 383B, 385, 386, 431, 451, 483, 491; GEOG 308I, 309I, 312I, 316, 318, 320I, 326; ANTH 307I, 323, 324, 331, 332, 333, 335, 336; POSC 353, 354, 356, 357, 358, 359, 362, 364, 366, 367; ECON 361I, 363, 365, 368, 369, 370
2. National Perspectives  
HIST 373, 375, 376, 378, 379, 380, 478; POSC 308, 420, 423, 424; ECON 360I; AMST 477A/B
3. State Perspectives  
ANTH 321, 322, 329, 350IC; GEOG 303; 304; HIST 568; POSC 326
4. Citizenship Perspectives  
HIST 480, 489; POSC 210, 312, 412, 428
5. Ethical Perspectives  
HIST 482I; PHIL 160, 203, 204, 306, 307; R/ST 111, 152, 291, 482I
6. Diversity and Equity  
AIS 100, 101; AMST 485A, 485B; ASAM 102, 200, 220; B/ST 120, 121, 210; CHLS 100, 101, 300, 352; HIST 469, 470, 485A\*, 485B\*, 486; POSC 323; SOC 341 (Same as CHLS 352); W/ST 102, 315, 320, 370, 485A\* (Same as HIST 485A), 485B\* (same as HIST 485B)

\*Cannot be used as part of the breadth requirement if this course is chosen as part of the core requirement.

#### Single Subject Teacher Internship

In cooperation with approved school districts, the Single Subject Program offers a Single Subject Teacher Internship. Since the Intern serves as the full-time teacher of record at a cooperating middle or high school, the program is limited to outstanding candidates who have exceptional skills for classroom teaching and who have demonstrated subject matter competence. Interns are generally assigned to teach full-time in a shortage field. Conditions of employment are governed by the Master Agreement, and by school district board policies and regulations. Interns are employed under the temporary provisions of the California Education Code (EC44920).

The internship academic program is the same as the regular Single Subject Program. Interns must complete the profes-

sional sequence prior to the culminating field experience. The culminating field experience substitutes for traditional student teaching, and is for one school year. Interns register for eight Single Subject Internship units (EDSS 572A,B) each semester on a credit/no credit basis. The Single Subject Program provides the Intern with university supervision through the EDSS 572 course. The cooperating school district provides site-based support for the Intern.

### Admission Criteria

Students submit applications for the Internship Program for review and action by the University Single Subject Teacher Education Committee. Upon acceptance into the Internship Program, students must submit the State application for an Internship Credential with supporting documents and fees to the CTC through the CSULB Credential Center. Students must hold an Internship Credential prior to Internship teaching.

### Requirements

1. Hold a baccalaureate degree from an accredited institution.
2. Be a member in good standing of the SSCP.
3. Be enrolled in at least one course at CSULB.
4. Demonstrate subject matter competence.
5. Pass the California Basic Educational Skills Test (CBEST).
6. Meet the U.S. Constitution requirement.
7. Apply for the Internship Program in the CSULB Single Subject Program Office.
8. Have and maintain an overall GPA of 3.0 and a GPA of 3.0 in all upper division and graduate courses in the single subject major and in the professional education courses.
9. Provide verification of a minimum of 40 hours experience with pupils in a school situation, such as serving as a teacher's aide (this may be accomplished in EDSS 300).
10. Have clearance on the CSULB speech assessment.
11. Have health clearance valid through the period of the internship.
12. Submit a Certificate of Clearance.
13. Have an offer of employment as an Intern from a participating school district.

---

### Single Subject Education Courses (EDSS)

---

#### 300A-S. Introduction to Teaching (3)

Prerequisites: Advanced sophomore or junior standing. This course introduces students to the profession of teaching in the state of California, with an emphasis on the specific subject area. It covers in an introductory fashion: the structure, organization and culture of schools; curriculum, instruction, assessment, and classroom management primarily in secondary school settings (but in some cases elementary settings); the history and current status of the subject area; becoming a reflective practitioner. Topics are contextualized in the cultural, linguistic, ethnic, and ability diversities represented in California classrooms. Prepares students for more in-depth study in subsequent courses. Application to the Single Subject Credential Program submitted during this course. Directed fieldwork in a middle or high school (or in some cases, elementary school) required. Three hours lecture weekly. Forty-five (45) hour field work requirement during the course. Credit/no credit grading only, with "A" or "B" quality work required for credit.

300 A. Art

300 C. Science

300 D. Health Science

300 F. Foreign Languages: French, German, Japanese, Spanish

300 G. English

300 H. Home Economics

300 M. Mathematics

300 N. Music

300 P. Physical Education

300 S. Social Science

#### \*450A. Curriculum and Methods in Teaching Art (3)

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching art to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Course fee required. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

#### \*450C. Curriculum and Methods in Teaching Science (3)

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Lecture 2 hours; laboratory 3 hours. Fieldwork requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

#### \*450D. Curriculum and Methods in Teaching Health Science (3) F

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching health science to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. "B" grade or better required to advance to student teaching. Fieldwork requirement. Traditional grading only.

#### \*450F. Curriculum and Methods in Teaching Languages Other Than English (3)

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching languages other than English to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Fieldwork requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

#### \*450G. Curriculum and Methods in Teaching English (3)

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching language, literature, and composition to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**\*450H. Curriculum and Methods in Teaching Home Economics (3)**

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching home economics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**\*450M. Curriculum and Methods in Teaching Mathematics (3)**

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching mathematics to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**\*450N. Curriculum and Methods in Teaching Music (3) F**

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching music to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**\*450P. Curriculum and Methods in Teaching Physical Education (3)**

Prerequisite: Admission to the Single Subject Credential Program; current standard first aid/CPR certification; completion of all skill performance proficiencies with an overall score of 3.5. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching physical education to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**\*450S. Curriculum and Methods in Teaching Social Science (3)**

Prerequisite: Admission to the Single Subject Credential Program. Objectives, curriculum, materials, assessment, and instructional methods and strategies in teaching social sciences to diverse student populations. Builds on prior Single Subject Credential Program courses. Situates content instruction within the context of the total school program. Emphasizes reflective practice based on the California Standards for the Teaching Profession and state curriculum frameworks. Required prior to student teaching; recommended to be taken the semester immediately prior to student teaching. Field work requirement. "B" grade or better required to advance to student teaching. Traditional grading only.

**472A,B,C. Student Teaching (5,5,5)**

Prerequisites: Admission to the Single Subject Credential Program; submission of application to student teaching by the deadline (October 1 for Spring; March 1 for Summer and Fall); passage of CBEST; character and identification clearance (fingerprint clearance); completion of all program course work; demonstration of subject matter competence; approval for advancement to student teaching by the Credential Advisor and University Coordinator of

Single Subject Credential Program. Student teaching must be done in the student's subject major. Student teachers are assigned a minimum of five periods daily for the length of the placement school's semester (approximately 20 weeks). They teach three classes representing at least two different aspects or levels of the subject. Two additional periods are for preparation, observation, and consultation with the cooperating teacher and university supervisor. Seminar classes are held by each subject area during the semester. In selected programs, portfolio assessment is required to advance to student teaching and/or required to earn credit for student teaching. Credit/No Credit grading only. ("A" or "B" level work required for credit.) Course may be repeated to a maximum of 15 units.

**\*490. Curriculum Topics in Selected Academic Subjects (1-3)**

Prerequisite: Consent of instructor. A study of curriculum taught in the secondary schools. Academic subject to be covered will be announced in the *Schedule Of Classes*. May be repeated under different topics but only six units with traditional grading may be applied toward advanced degrees.

**497. Independent Study (1-3)**

Prerequisites: Consent of instructor and Single Subject Program Coordinator. Independent study undertaken under the supervision of a faculty member. May be repeated to a maximum of three units.

---

**Secondary Education Courses (EDSE)**

---

**\*435. United States Secondary Schools/Intercultural Education (3)**

Prerequisite: Admission to the Single Subject Credential Program, or by permission of the Single Subject Credential Program University Coordinator. Critical reflection on issues and questions of equal opportunity and multicultural education in a pluralistic society; philosophy, history, and sociology of education; the curriculum and student population in United States and California secondary schools; current controversies and trends in education. Ten (10) hours of field work required. Traditional grading only.

**\*436. Learning and Instruction in a Multicultural Setting (3)**

Prerequisite: Admission to the Single Subject Credential Program, or by permission of the Single Subject Credential Program University Coordinator. A course in systematic instruction that explores theories of learning, curriculum design and development, assessment and evaluation of student progress, classroom management and discipline, and problems of the adolescent within a multicultural setting. Fifteen (15) hours of structured field work in content areas in the schools required. Traditional grading only.

**\*457. Reading and Writing in the Secondary School (3)**

Prerequisite: Admission to the Single Subject Credential Program, or by permission of the Single Subject Credential Program University Coordinator. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal setting; and the special reading needs of less prepared, English language, and of accelerated learners. Includes individual/tutorial instruction of an adolescent and issues of diversity and equity. At least fifteen (15) hours of field work required. Traditional grading only.

**Graduate Division**

**572A-B. Single Subject Internship (8-8)**

Prerequisite: Admission to the Single Subject Internship Program. Supervised teaching experience in grades seven through twelve. Participants teach on salary in an approved school district while enrolled in eight units per semester for one year. Teaching will be evaluated by the participating school district and university supervisor. Credit/No Credit grading only. (Students are not allowed to enroll in both A and B in the same semester.)

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The major in sociology is intended to serve as preparation for careers in teaching, delivery and administration of social and health services, urban and environmental studies, law, government service at local, state and federal levels and related occupations. The major also provides training for advanced graduate work in sociology, social work and other social sciences. Sociology is also recommended as a second major or minor for students of all other social sciences; for business; for the humanities; especially literature and theatre arts; for ethnic and area studies; for journalism and other various applied arts and sciences.

Students interested in sociology may also wish to consider the liberal studies major with a concentration in sociology. The Liberal Studies program is discussed elsewhere in this *Catalog*. Detailed information about the concentration may be obtained from the Sociology Department Office.

Sociology courses are suitable for fulfilling general education or elective requirements for students of other majors. However, lower division courses selected to fulfill the requirements of the major may not also be used to fulfill the requirements of any General Education category.

## Bachelor of Arts in Sociology (code 2-8560) (120 units)

### Requirements

**Lower Division:** Twelve units of lower division are required. Students must have credit for SOC 100, 142, 200, and 250. It is recommended that students take Cultural Anthropology (ANTH 120) as an elective.

**Upper Division:** All majors are required to have a minimum of 31 upper division units in sociology. This must include (1) at least 16 units in core courses: SOC 335I or 454, 356, 420 or 427, 455, 456; and (2) nine units in one concentration and (3) six units of electives from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed twelve units. Completion of at least 51 semester units of college work is required before students will be accepted into upper division courses.

The department strongly recommends that lower division courses be completed before upper division courses. Taking the courses in sequential order will allow students to gain maximum benefit from the curriculum. Experience has shown that students who take courses out of sequence do not perform as well academically. SOC 200, Introduction to Data Analysis, and SOC 250, Elementary Statistics, should be taken before SOC 455, Methods of Social Research. Required upper division courses also should be taken in sequential order consecutively. SOC 356, Developmental Sociological Theory, should be taken before SOC 456, Modern Sociological Theory.

## Concentrations

### Deviance and Social Control

SOC 345, 423, 440, 441I, 448, 454\*, 463, 491, 495

### Interaction and Group Relations

SOC 320, 325 (or W/ST 325), 335I\*, 336, 340 (or CHLS 350), 341, (or CHLS 352), 345, 346, 423, 426, 454\*, 464, 485, 492, 495, W/ST 401I

### Medical Sociology

SOC 350, 423, 454\*, 461I, 462, 463, 464, 466, 493, 495, H/SC 400

### Research

Concentration currently not available

### Social Change and Global Issues

SOC 350, 372I, 410I, 420\*, 427\*, 449I, 450, 454\*, 494, 495, ANTH or GEOG or HIST 307I, I/ST 317I or I/ST 318I

\*If not taken as one of the core courses

## Minor in Sociology (code 0-8560)

A minimum of 24 units which must include:

Lower Division: SOC 100, 142

Upper Division: SOC 335I and a minimum of 15 units selected from other upper division courses in sociology. Total credit for courses numbered 490 through 499 may not exceed 6 units.

## Courses (SOC)

### Lower Division

#### 100. Principles of Sociology (3)

Prerequisite: Completion or concurrent enrollment in a general education foundation course. Introduction to basic concepts of sociology and sociological analysis, emphasis upon group, status, role, personality, socialization, social processes, institutions, social organization and sociocultural change. (CAN SOC 2)

#### 142. Social Trends and Problems (3)

Prerequisite: Completion of or current enrollment in ENGL 100 or PSY 130 or equivalent. Sociological principles applied to contemporary social trends and problems including family problems, health and illness, inequalities of age, gender and race, crime, drug abuse, urbanization and population growth, poverty, economic change, environmental pollution, and war and terrorism. Students are encouraged to view social problems in a larger socio-cultural context which is both historical and global. They are encouraged to think critically about the relevance of these problems to their own lives and the lives of their children. Open to non-majors for General Education credit in Category D.2.B.

#### 200. Introduction to Data Analysis (3)

A beginning course in the use of computers for accessing and analyzing data. Topics covered include principles of scientific research, data coding, entry, editing, and analysis. Students will use the Statistical Package for the Social Sciences to analyze data, and such software programs as WordPerfect to prepare research documents, and Netscape Navigator to explore the resources available on the Internet. Traditional grading only.

#### 250. Elementary Statistics (4)

Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra as demonstrated on a screening examination, and SOC 200. Introduction to descriptive and inferential statistics and their applications in social and behavioral science research; performance of statistical exercises by interactive computer. Emphasis upon knowledge of which statistical tests to use and how to interpret their results. (Discussion, Lab) (Not open to students with credit in HDEV 250, C/LA 250, ANTH 202, SOC 210, MATH 180, or PSY 210.)

#### 255. Elementary Statistics (3)

Not open to students with credit in C/LA 250, HDEV 250, MATH 180, or PSY 210. Prerequisite: Knowledge of mathematical procedures usually covered in elementary high school algebra and SOC 200. Covers the Concepts and techniques of descriptive and inferential statistics and statistical reasoning as applied to social research. Focuses on the understanding of statistical measures and the assumptions underlying them. Includes use of interactive computers. Traditional grading only.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 320. The Family (3)

Prerequisite: SOC 100 or consent of instructor. Family as a social institution in various cultures with stress on the American family systems. Analysis of forces producing change, organization and disorganization of family systems.

#### 325. Sociology of Women (3)

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society. Open to both men and women. Same course as W/ST 325.

#### 335I. Social Psychology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examines social processes in personality development and the socialization process whereby the individual is integrated into social groups. Includes social influence of family, peers, reference groups and subcultures. Examines the impact of primary groups, social organizations and mass media on attitudes and behavior. Not available to students with credit in PSY 351.

#### 336. Sociology of Small Groups (3)

Prerequisite: SOC 100. Designed to give theoretical and practical understanding of sociological concepts and principles found in the dynamics of small groups, research and theory, the individual in a social situation, the group as a system of social interaction, leadership, methodology, and the small group approach to a problem.

#### 340. The Latino Population in the United States (3)

Survey of the most recent socio-economic information on "Hispanics", issues of immigration and settlement patterns, employment and income, family, language and culture will be examined. Particular attention will be paid to the changing points at which racism has intersected with factors of class and gender. This is a comparative course designed to highlight heterogeneity of the larger Latino aggregate population. Same course as CHLS 350.

#### 341. Central American and Caribbean Peoples in California (3)

Survey of the socioeconomic conditions and cultural life of the Central American and Spanish-speaking Caribbean communities of California: Salvadorans, Guatemalans, Puerto Ricans, Cubans, etc. Not all groups will necessarily be dealt with each time the course is offered. Similarities with and differences from the Mexican-American community will be examined. Same course as CHLS 352.

#### 345. Juvenile Delinquency (3)

Juvenile delinquency as a recent social "invention;" extent and distribution; major explanatory theories ranging from classical to radical views; societal reaction; the juvenile justice system with emphasis on the contemporary trend toward diversion programs.

#### 346. Race, Gender and Class (3)

Prerequisite: Completion of the G.E. Foundation. This course examines the experiences of gender, race and class in diverse groups and populations. An assessment is conducted of the institutionalized systems of sexism, racism and classism and of the economic and political structures and social processes which maintain these systems.

#### 350. International Population Problems (3)

Presents the basic demographic variables (fertility, mortality and migration) and methods (vital statistics and census). Historical and current trends and problems in world population composition, growth

and movement are examined with particular attention to social processes.

### 356. Development of Sociological Theory (3)

Prerequisite: Prerequisite: SOC 100. Social thought and historical forces leading to the emergence of sociology, and an exploration of classical theories into the 1930s including such thinkers as Marx, Durkheim, Weber, Mead and Merton.

### 372I. Living in Space (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Human physical and social adaptations to living in space habitats in Low-Earth Orbit or at key transfer points (such as L5) elsewhere in the solar system. Analysis of psychological reactions to weightlessness and disruption of normal daily cycles and resulting changes in patterns of activities and communication. Effects of changing reference group identification from a nationality or ethnic group to humanity as a whole. The essentials of life support including the production of consumables and protection from space hazards are delineated. Also discussed are recruitment, management of space missions, and political organization of permanent space facilities. A special focus is given to cultural changes associated with spending all of one's time with the same people, such as more symbiotic and less exploitative patterns of interaction and enhanced gender and age equality.

### 374I. Solar System Habitation and Development (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Dynamics of settlements on the Moon, on Mars, in the asteroid belt, and on the largest satellites of Jupiter and Saturn. Expanding the resource base for humanity allows economy-of-scale sharing to supersede zero-sum economic competition. Discussion of the implications of the common-heritage-of-mankind principle embodied in space treaties and the declining significance of nation states for space settlers. Analysis of available propulsion systems and mission trajectories to determine probable structure of transportation vessels and limitations this imposes on initial settlements on various new worlds. Special attention to the enhanced feasibility of space missions utilizing lunar resources, the terraforming potential of Mars, and the type of society which may develop in these locations.

### 376I. Interstellar Migration (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Habitation potential of the nearest Sun-like stars and feasibility of reaching them by means of multigenerational space arks. Analysis of basic evolutionary processes favoring humane characteristics in any species capable of a technological civilization: Mate selection (among those where language has endowed culture with an overriding significance for survival) will reinforce humane traits which make it possible to get along with a spouse during the long childhood that any culture-dependent species must have. Implications of assured survival for humanity and possibility of contacting alien civilizations. Special emphasis on extrapolating the development of human society in the context of our expansion into the Alpha Centauri system and beyond.

### 410I. Social Ecology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analysis of interdependencies of elements of populations, environment, technology and social organization. Examines socio-ecological relationships currently and in historical perspective, in simple and complex societies. Presentation and analysis of world and U.S. problems in social ecology. A field research project will be required.

### 420. Social Stratification (3)

Prerequisite: SOC 100. Characteristics and functions of social stratification especially in the United States. Different theoretical perspectives, how social class affects the opportunity structures, for income, upward mobility and various measures of "the good life" in America today.

### 423. Child Abuse and Prevention (3)

This course will examine child abuse as a social problem; its history and causal factors, including social change and changing fami-

ly patterns. Intervention practices, including identification and investigation, social services and court intervention will be reviewed, especially the roles of health professionals, criminal justice and corrections personnel, social workers and educators. Finally, policy implications will be examined, including the role of concerned citizens and child advocates. (Discussion/Seminar) Same course as SW 423.

### 426. Sociology Sex Behavior (3)

The social context of human sexuality effects of socialization, social class, occupation and religion on sexual attitudes and behavior.

### 427. Social Order and Social Change (3)

Prerequisite: SOC 100 and upper division status. Introduction to classical and recent analysis of social order and social change. Study of institutions and organizational structure of social systems in the past and present and their effects on human life.

### 440. Sociology of Deviance (3)

Prerequisite: SOC 100. Sociological approaches to the study of deviance; a varied look at behaviors, beliefs, physical appearance, emotion, and medical, legal, media influences in defining deviance; central questions include: How do definitions of deviance change? What processes are involved in a person defining him/herself as a deviant? What role do the central institutions of society play in the perception and definition of deviance? (Lecture 3 hours.)

### 441I. Criminology (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Study of the major theoretical approaches to crime, e.g., sociological, psychological, psychiatric, biological. Emerging interdisciplinary approaches to crime. Responses to crime and criminals, e.g., prisons, jails, death penalty, self-help, psychotherapy, social reform, media. Types of criminal behavior. Victims of crime. (Lecture/Discussion.)

### 448. Impersonality, Violence and Survival: An Analysis Through Film (3)

Exploration through film of the societal conditions that facilitate impersonality, and alienation and ultimately violence in modern society. The study of the struggle of the individual to survive, both physically and psychologically, in modern society. Focus on attempts of individuals to transcend social barriers. Course does not include exploitation films but rather films that provide a serious commentary on the nature of modern society. Not open to students with credit in this subject under SOC 490. (Discussion)

### 449I. Sociology of Political Rights (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Examination of the nexus between the political process and legal institutions with a focus on how the sociology of law provides a different perspective than the legal doctrines set forth in published judicial opinions. Emphasizes the development of analytical abilities which are useful to students anticipating a career in the law or other policy-making fields.

### 450. Marxist Sociology (3)

Analysis of human behavior, society and social change from a Marxist perspective.

### 454. Qualitative Methods of Social Research (4)

Prerequisites: SOC 100, SOC 250, and one upper division course in sociology. Review and critique of principles and essential features of classical and contemporary qualitative studies. Examination of the influence of symbolic interactionism and its derivatives. Topics covered: research design, including use of unobtrusive measures; modes of participant observation; interviewing techniques; limitations of "snowball" and other convenience sampling techniques; analysis and interpretation of qualitative data. Field assignments and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours.)

### 455. Methods of Social Research (4)

Prerequisites: SOC 100, 200, 250 and one upper division course in sociology. Topics that will be covered are: research design, including operationalization, measurement, scaling, reliability, validity and sampling; techniques of data collection and analysis; and report writing. Use of the computer and an individual student research project are required. (Lecture 3 hours, laboratory 2 hours.)

### 456. Modern Sociological Theory (3)

Prerequisites: SOC 100, 356 and one other upper division course in sociology. Recommended: courses in the philosophy of science and research methods. A critical review of schools of sociological thought from the 1930's to the present. A minimum of three major schools such as functionalism, interactionism (dramaturgy, ethnomethodology, humanistic post-structuralism), conflict, exchange, and system theory will be covered in depth and considered in relation to the nature of theory construction. Intended primarily for majors in this field. Traditional grading only.

### 461I. Alcohol and Society (3)

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Recommended: an elementary statistics course. Epidemiological and sociological approaches to the study of alcohol use and abuse; sociocultural correlates of alcohol use as disclosed by national and regional surveys; effects of alcohol use on physical and mental health; the role of government and other organizations in the prevention and treatment of alcohol abuse.

### 462. Medical Sociology (3)

Prerequisite: Completion of the G.E. Foundation. Epidemiological and sociological approaches to the study of health and illness; patterns of physical and mental disease; patient and physician perspectives on the development of disease; causes of stress and coping repertoires; types of adaptation of the chronically ill; health care delivery and utilization, particularly in the United States; and interaction of physician, nurse, therapist, health administrator, social worker, patient, and family members.

### 463. Mental Illness and Society (3)

Prerequisite: SOC 100. Epidemiological and sociological approaches to the study of mental health and illness; prevalence and incidence of mental disorders as disclosed by community and national surveys; effects of family history, work experience and life-change events on various facets of intellectual and affective functioning; the social and legal status of the mental patient; the role of government and other organizations in the prevention and treatment of mental illness.

### 464. Aging and Society (3)

Prerequisites: SOC 100 or SOC 142. This course examines aging and the life course. It explores how the aging process is influenced and shaped by societal forces. The course emphasizes adult development and life course transitions. The social epidemiology of the aging process is covered through an examination of the relationship between age status and other variables, including gender, race, social class, marital status, and health status. Dimensions of age-based stratification and surrounding social policy issues are explored.

### 466. AIDS and Society (3)

Prerequisites: SOC 100 or 142 or PSY 100. Recommended: BIOL 100 or 200 or MICR 100 or 101. Places the contemporary disease, acquired immuno-deficiency syndrome (AIDS) in sociological perspective. Covers history, etiology and epidemiology of AIDS. Includes biomedical and sociological research on AIDS. Focuses on behavioral aspects and societal impact of the AIDS epidemic. Traditional grading only.

### 470. Science and Religion in Biography (3)

Prerequisites: ENGL 100 and permission of instructor. Critical comparison of the theories, doctrines and methodologies of religions and quasi-religions in contrast to all the natural sciences including the social and behavioral sciences. Sources of bias in different methods of inquiry (scientific, humanistic and religious) will be examined through classical and contemporary case material, focusing on biographies, with a view toward illuminating the proximate objectives of each mode as well as its ultimate aims. Effectiveness of these alternative approaches to human understanding will be considered in relation to achieving self integration.

### 485. Sociology of Language (3)

Prerequisites: ENGL 100 and upper division status. Structure and use of language varieties in relation to social interaction, social inequality, social change and nationalism.

### 490. Special Topics in Sociology (1-3)

Topics of special interest in sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 6 units.

### 491. Special Topics in Deviance and Social Control (3)

Topics of special interest in Deviance and Social Control selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 6 units (Discussion.) Traditional grading only.

### 492. Special Topics in Interaction and Group Relations (3)

Topics of special interest in Interaction and Group Relations selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 6 units (Discussion.) Traditional grading only.

### 493. Special Topics in Medical Sociology (3)

Topics of special interest in Medical Sociology selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 6 units (Discussion.) Traditional grading only.

### 494. Special Topics in Social Change and Global Issues (3)

Topics of special interest in Social Change and Global Issues selected for intensive study. Topics will be announced in the *Schedule of Classes*. May be repeated with different topics to a maximum of 6 units (Discussion.) Traditional grading only.

### A. Sociology of Migration and Immigration

#### 495. Internship (1-4)

Prerequisites: SOC 100, 142, 335I, junior or senior standing, consent of instructor. Supervised field experience in public and private agencies, relating sociological principles to community situations. Designed to provide career-related work experience in both research and applied fields. Students may enroll for 1-4 units depending on field assignment and time required. May be repeated for a maximum of six units. (6-10 hours per week field experience.)

#### 496. Field Practicum (1-3)

Prerequisites: SOC 495. This course is a continuation of the Internship course (SOC 495.) Students who continue working at an agency in the community will conduct one or more special projects for that agency. Students in the practicum will meet as a group to discuss the progress of their projects and will submit papers which summarize their experiences in carrying out these projects. Students may enroll for 1-3 units depending on field assignment and time required. May be repeated for a maximum of four units.

#### 497. Peer Facilitation in Sociology (3)

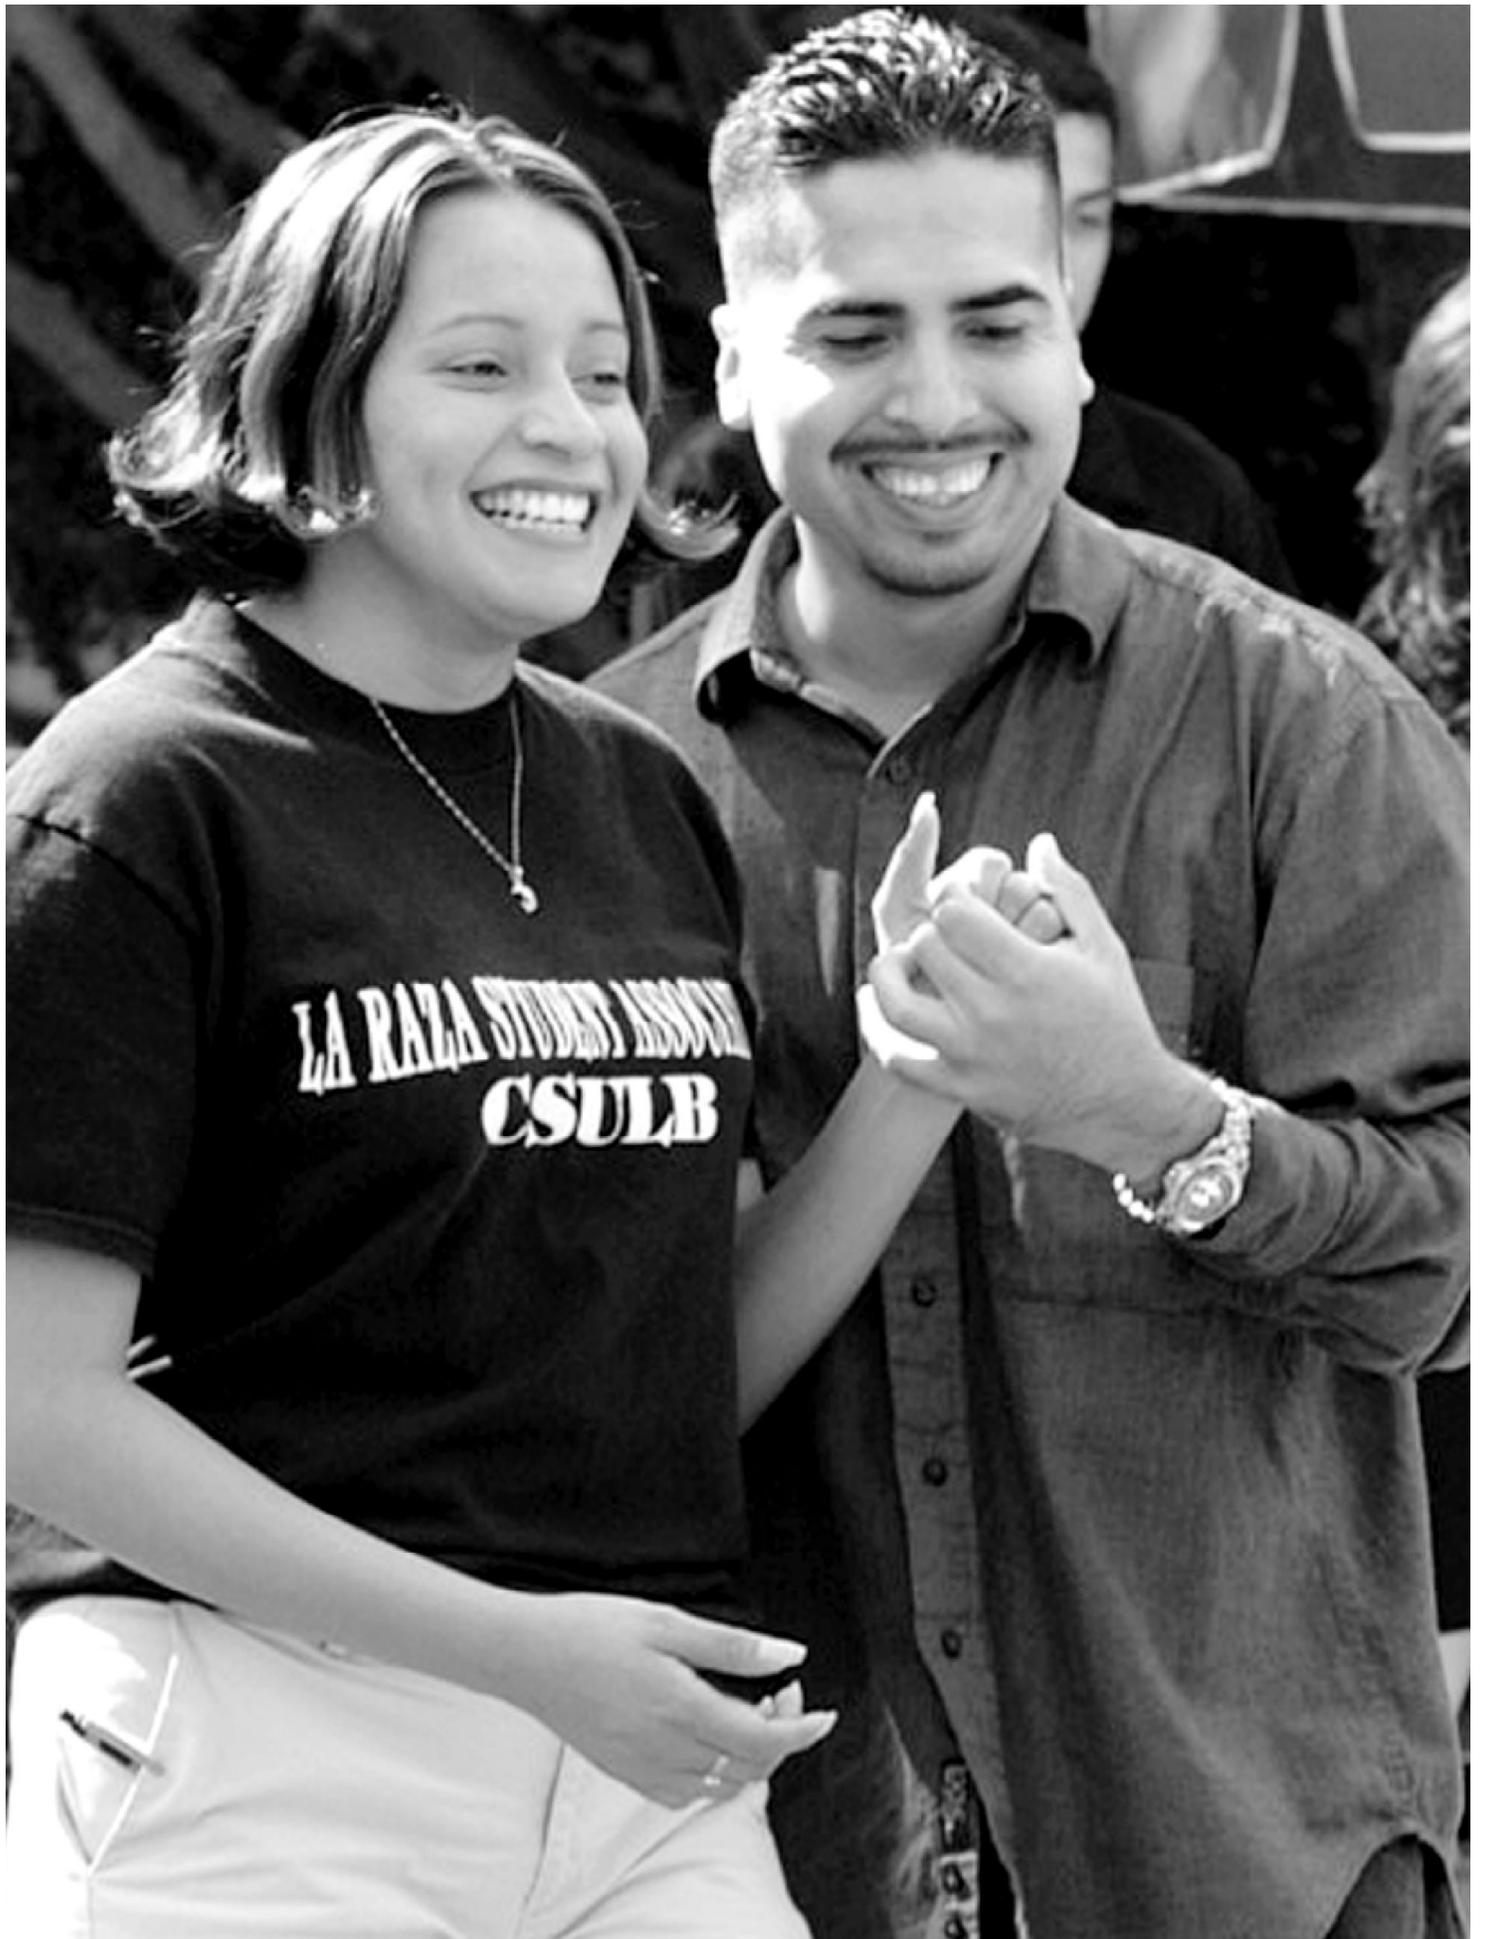

Prerequisites: A grade of at least a B earned in at least one upper division course related to the peer facilitation activity and permission of instructor. Conducting an optional discussion section, assisting an instructor in class exercises, projects or small group discussions, or tutoring individual students in special sessions. Peer facilitation activities will be guided by meetings with the supervising faculty members and supplemented by reading and writing assignments. May be repeated for a maximum of six units. Traditional grading only.

#### 499./599. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of six units when approved by the department. Traditional grading only.

#### 599./499. Directed Studies (1-3)

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. May be repeated to a maximum of 4 units. In exceptional cases, may be repeated to a maximum of six units when approved by the department. Undergraduates who have completed more than 3 units of SOC 499 may not enroll in SOC 599. Traditional grading only.

# STUDENT SERVICES AND CAMPUS LIFE

## Academic Advising Center

The Academic Advising Center, located in Library East room 125, serves students who seek information and advice concerning General Education requirements, electives, University rules and regulations, graduation requirements, academic probation, and disqualification and academic appeals. The Academic Advising Center is the "home base" for all undeclared students, including signature authority on all university-related documents. The Academic Advising Center also presents the Parent Orientation Program (POP) each summer.

Students are seen on an appointment basis. Service is provided by staff and faculty.

The Academic Advising Center is located in Library East, room 125. The telephone number is (562) 985-4837. The Center is open for advising Monday - Thursday from 9:00 a.m. - noon and 1:00 p.m. - 5:00 p.m., and Friday from 9:00 a.m. - noon. Call for evening appointment availability. Hours may vary during the holidays and summer. For POP information, call 985-5458.

## Career Development Center

The Career Development Center provides a continuum of services that culminates with preparing and assisting students and alumni in their transition from the University to professional careers commensurate with their interests, abilities, aspirations and educational attainment.

Career Planning facilitates a student's definition of his/her personal career goals and objectives based on an understanding of one's self and the world of work. The program attempts to provide students the most current career data and information delivery systems in career exploration and decision making processes.

### Career Placement

Experienced counselors assist students in developing effective job seeking skills through one-to-one counseling and workshops in the areas of resume writing, interviewing techniques and job search techniques. Counselors also provide assistance with other facets of the job search process including such topics as networking, accepting or rejecting a job offer, and negotiating a salary.

The Career Development Center receives over 15,000 job listings every year for positions in the areas of business, industry, government, health and human services. Current listings are maintained for student use in the Career Resource Center.

The Center also offers an On-Campus Interview Program for graduating seniors and graduate students. Through this program more than 140 employers visit the campus each year to conduct interviews. The employment opportunities in this program are generally in the areas of accounting, banking, computer science, engineering, finance, government, general management training, insurance, retail management, sales and marketing.

Various campus-wide special events take place every year which offer an opportunity for students to meet employers on a face-to-face basis. Contact the Career Development Center for specific information on annual events such as Career Day, Accounting Recruiting Day, and Job Fair.

A 24-hour, on-line job listing service provides students with access to all of the part-time and full-time job vacancies received by the Center. Visit the Career Development Center for instructions or go to the Center's web site at [www.careers.csulb.edu](http://www.careers.csulb.edu).

The Center is open Monday through Thursday 8:00 a.m. to 8:00 p.m. and Friday 8:00 a.m. to 12:00 p.m. The Center is located in Brotman Hall 250, (562) 985-4151.

Teacher and school administration candidates receive assistance through the Educational Career Services Office in the College of Education. Call (562) 985-5772 for information on the services offered.

## Cooperative Education (Co-Op)

Cooperative Education internships offer students paid work experience in business, industry, government and the non-profit sector. This practical and professional work experience is directly related to a student's academic major or career goal. Students may alternate full-time work periods with full-time academic periods or they may work part-time while simultaneously attending the University. Upper-division Co-Op courses are available for up to 6 units of elective academic credit.

## Educational Participation in Communities (EPIC)

The Educational Participation In Communities (EPIC) program provides volunteer internship opportunities for students who wish to participate in career-related field experience that complement their classroom study. EPIC internships are available with organizations and agencies in the non-profit sector. EPIC participants may qualify for up to three units of elective academic credit that maybe repeated for a total of six units. Contact the Career Development Center at 562/985-4151 for more information.

## Comprehensive Services

Comprehensive Services is a Career Development Center program designed to help students with disabilities meet the challenges of career planning and job placement. A student with a visual, hearing or speech impairment, a learning disability or limited mobility can learn strategies in this program that will help build bridges to meaningful employment. For information about Comprehensive Services call 562/985-8468, log onto [www.careers.csulb.edu](http://www.careers.csulb.edu) or stop by Brotman Hall 250.

## Office of University Ombuds Services

The Office of University Ombuds is an available resource for all students for the purpose of problem-solving, mediation, and expression of concerns related to campus issues. Students who wish to resolve issues informally may access the services of the Office of Ombuds before formally addressing

their problems with the University. The Ombuds works independently as an objective advisor, keeps all matters confidential, and acts as a neutral party in order to ensure a process that is fair and equitable.

The Ombuds advocates for a process of resolving issues informally with integrity and dignity. The Ombuds will not address formal litigation issues, formal disciplinary actions, formal complaints, or grievance hearings. The services provided by the Office of University Ombuds do not compromise or replace university policies or procedures. Discussion with the University Ombuds does not constitute notice to the institution with regard to grievances and formal complaints.

The Office of University Ombuds is located in the University Student Union, Suite 301. The telephone number is (562) 985-5983, and the office is open Monday through Friday, 8:00 a.m. to 5:00 p.m. However, special arrangements for another meeting time can be made upon request.

## Counseling and Psychological Services

Counseling and Psychological Services (CAPS) offers a strong array of services in direct support of helping students achieve a satisfactory and meaningful academic experience. Staff members of CAPS are trained in applied psychology and student development services delivery at the doctoral level. Staff members are skilled in assisting students to translate their individual personal development, career development, and previous educational experience into optimal academic achievement and collegiate life experience.

Students are seen at CAPS by an intake counselor. Psychologists are assigned to students based on the type of problem expressed and/or identified in the initial review. Most individual counseling is short-term and lasts three to five sessions. The staff is also trained to address complex types of career and personal problems that may require more extensive counseling. Crisis intervention services are available on an immediate basis.

An extensive group counseling program exists for specific kinds of counseling issues such as shyness or interpersonal skill development. The mini-workshops offered on campus acquaint students with our focus on enhancing various life skills such as assertiveness and time management. The Center is especially dedicated to working with students from highly diverse backgrounds.

CAPS is open from 8:00 a.m. to 5:00 p.m. Monday through Friday and is located in Brotman Hall 226. The telephone number is (562) 985-4001.

## Disabled Student Services

Information regarding special facilities and services available to students with disabilities may be obtained from Disabled Student Services, Brotman Hall 270, (562) 985-5401.

The Disabled Student Services Office provides support services for students with physical and learning disabilities. Disabled Student Services provides registration assistance, note takers, interpreter services, readers, test proctoring, academic counseling and information on scholarships and careers. Other services include the High Tech (Computer) Center for the Disabled, testing for learning disabilities at the Stephen Benson Learning Disability Program and the Workability IV Program for career and job opportunities. Clients of the Department of Rehabilitation can call to verify the receipt of

authorization for fee payment at this office. For students with severe mobility impairments, Disabled Student Services can assist with disabled parking. Call Disabled Student Services at (562) 985-5401 for more information.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load which is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 8 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

## Educational Equity Services

The Office of Educational Equity Services (EES) assists in the admission and retention of first generation college students and academically and economically disadvantaged students some of whom might not otherwise be enrolled in the University. Programs currently under EES include the College Assistance Migrant Program (CAMP), Educational Opportunity Program, Summer Bridge Program, and the federally sponsored TRIO programs, Educational Information Services/Talent Search, Student Support Services Program, McNair Scholars Program and Upward Bound.

### College Assistance Migrant Program (CAMP)

The College Assistance Migrant Program (CAMP) is designed to serve students who themselves or whose parents are migrant or seasonal farm workers. Work may include production, transportation, packaging or canning of crops, dairy products, poultry, livestock, cultivation or harvesting of trees (nurseries), fishing or fish farming. Students who have participated in programs under the Job Training Partnership Act also qualify for CAMP. The goal of CAMP is to provide outreach and recruitment services to eligible students by assisting them in completing their admissions and financial aid applications. Also offered are parent workshops on motivating their children to enroll in and graduate from college.

The ultimate outcome of CAMP is to provide migrant students with the necessary support services to help them transition easily during the first year in college. The project provides a student-centered array of academic and personal support services geared toward enhancing each student's learning opportunities and quality of life. Also provided is tutoring, academic-skill building instruction, peer and faculty/staff mentoring, assistance with registration, a grant if eligible, exposure to cultural events, and academic programs not usually available to migrant youth. The CAPM office is located at Liberal Arts 3 room 202 and is open from 8:00 a.m. to 6:00 p.m., Monday through Thursday and 8:00 a.m. to 12:00 p.m. on Fridays. The telephone number is (562) 985-2006 or (562) 985-2001.

### Educational Information Services/Talent Search

Educational Information Services/Talent Search is a federally funded program housed at California State University, Long Beach. Its purpose is to identify, select, and assist low-income, first generational individuals between the ages of 12 to 27 to

continue in and graduate from secondary school and enroll in a postsecondary educational program. Services offered include postsecondary admission and application assistance, financial aid information and application assistance, academic advising, and career exploration and planning.

### Educational Opportunity Program (EOP)

The Educational Opportunity Program (EOP) is committed to increasing access to higher education for California residents who are historically low-income and first generation college students. An EOP student has the potential to perform satisfactorily in the CSU, but has not been able to realize this potential because of the lack of economic and educational resources. The Program's goal is to meet the educational needs of the students by providing admissions and enrollment assistance, financial support and academic and personal support services throughout their career at the university.

### Student Support Services Program

Student Support Services Program is a program designed to assist eligible students in achieving their maximum potential in higher education. The eligibility requirements for participation with the CSULB Student Support Services Program are U.S. citizen or permanent resident enrolled at CSULB, low income and/or first generation college students OR physically or learning disabled students and demonstration of an academic need. The Program provides learning skills workshops, academic advising, financial aid application assistance, tutorial services, career exploration, preparatory workshops for the Writing Proficiency Examination and personal and social counseling.

### McNAIR Scholars Program

The McNAIR Scholars Program provides academic support services, research opportunities and involvement in scholarly activities for 25 low-income, first-generation college students to increase their likelihood of enrollment and success in doctoral programs. The program consists of the Summer Research Internship, which concentrates on a research project to be conducted by the McNAIR Scholar with the guidance of his/her faculty mentor, and the Academic Year Scholarly Experience to provide continuation of the summer research project, academic support and assistance in seeking admission to graduate programs and assistance in obtaining graduate financial aid. The Scholars' papers are collected in a publication, the CSULB McNAIR Journal.

### Summer Bridge Program

The Summer Bridge Program provides an intensive five-week residential summer experience for selected first-time freshmen EOP students entering for the fall semester. The program provides English and mathematics instruction, tutoring, orientation to the campus, study skills workshops and

enrichment activities to prepare students for the challenges of college. Participants are required to reside in campus housing for the full five weeks and must successfully complete the program to enroll at the university.

### Upward Bound Program

The Upward Bound Program is a federally funded college preparatory program designed to assist first generation, low-income high school students who have the potential to pursue postsecondary education. The goal is to assist participants in their efforts to successfully complete high school and obtain a college education.

The program provides summer and weekend academic instruction, tutoring, academic, personal and career counseling, cultural activities and college application and admissions assistance.

## Housing and Residential Life

### University Residence Halls

The campus residence hall complex consists of 18 halls and accommodates 1,844 residents, including an International House complex which houses 86 students. All halls are coeducational and the majority of rooms are intended for double occupancy.

Residents may apply to reside in two-story halls utilizing suite designs or more traditional halls which have double rooms on either side of a long corridor. Halls are available with Regular Quiet Hours or Very Quiet Hours and residents may select 12 or 19 meals per week. A limited number of regular single rooms are available. The room and board rate is approximately \$5,700-\$6,200 depending on the accommodations and meal plans selected.

Applications for the academic year are accepted between January 2 and March 25 and applicants are then eligible to participate in a random housing lottery which is held in late March. Notification of lottery results are sent in mid-April. Applications received after March 25 will be accepted, but will not be part of the lottery and will only be accommodated if space is available after all lottery participants are offered space.

Applications are available by calling the Housing and Residential Life Office at 562-985-4187 or by visiting the web site at [www.housing.csulb.edu](http://www.housing.csulb.edu).

### Community Housing

Students, faculty and staff seeking housing in the off campus community may utilize the telephone listing services operated by Housing and Residential Life. The telephone listing service allows property managers to call a 900 number to list available property listings and then allows those seeking housing to call a local (toll free) number, 562-985-7757 to access the listing. The off campus web site is [www.housing.csulb.edu](http://www.housing.csulb.edu).

## Isabel Patterson Child Development Center

In January of 1975, the University and the Associated Students opened the Isabel Patterson Child Development Center to provide quality child care services to the University and community. The facility was made possible by the generous donation of Isabel Patterson, CSULB alumna. The services provided enable a student parent to attend classes at the University. The children of University staff, faculty, administration, alumni and then community are offered these services as space allows, following the registration of children of student parents.

Child Care Services are available for children six months to 2 1/2 years in the Infant/Toddler Program; 2 1/2 to five years in the Pre-school Program; and Kindergarten through second grade in the Schoolage Program.

The environment of the Center allows children to move freely and choose activities that fit their needs. Activities include reading, music, water and sand play, art, science, cognitive games and dramatic play. Some of the program's goals are to help children be responsible and able to solve their problems, to be inner-directed, to be aware of alternatives and able to make choices, and to be free from gender role and other stereotyping. The program includes a family-style breakfast, lunch and afternoon snack.

The Center employs child care and development professionals. The part-time teaching staff is composed of CSULB students who are required to participate in the Center's comprehensive training program. The Center is located on campus at 5700 Atherton Street. For information call (562) 985-5333 8:00 a.m. - 5:00 p.m.

## Learning Assistance Center

Located in Library East-12, the Learning Assistance Center is an all-university academic support service that helps individuals identify and develop effective and efficient learning strategies. Services are available in the following categories:

1. Learning Skills Services
2. Supplemental Instruction
3. Tutorial Services
4. International Students' Conversation Lab

### Learning Skills Services

Learning Skills Services address those areas typically identified as study skills. The Learning Assistance Center

offers individual sessions (personal as well as media) and regularly scheduled workshops covering such topics as Reading Textbooks Critically, Listening and Notetaking Skills, Time Management, Test-Taking Strategies, Memory Techniques, Learning Styles, Preparing Research/Term Papers, and Preparing for Final Exams. These topics can be tailored to individual courses and presented in class at faculty request. Workshops are also scheduled by student organizations and other groups. Software is available to students who want to prepare for such standardized tests as the GMAT, GRE, and LSAT.

Additionally, Learning Skills staff maintain a collection of instructional materials in some of the more highly demanded areas. Faculty in the sciences, in business, and in math, for example, recommend that students use course-related materials housed in the LAC.

### Supplemental Instruction

Supplemental Instruction (S/I) 060 provides a one-unit non-baccalaureate adjunct to select general education courses found to be high risk (i.e., particularly difficult for students to complete successfully). Each section of SI 060 uses the content of the corresponding GE course for students to develop critical thinking and learning skills; the skills emphasized are specifically applicable to this course and transferable to other university courses. Sections are taught by advanced students who know the discipline well and have mastered the associated skills needed for success; participants in S/I typically perform significantly better in the GE course than peers who attempt the course independently.

### Tutorial Services

Tutorial Services offers scheduled group, drop-in and individual appointment tutoring. Free weekly group sessions are led by a trained tutor for several of the more highly requested general education courses. Offerings are based on student requests early in the semester. Individual tutoring is available to all students on an hourly fee-support basis. Access to drop-in tutoring involves a modest fee for unlimited use of any one subject. Tutoring schedules are available at the Learning Assistance reception desk each semester. Students in academic support programs such as EOP, SSSP, and DSS should contact program advisors regarding tutoring resources.

### Conversation Lab

For students whose primary language is not English, the International Students' Conversation Lab provides extensive opportunities to develop English fluency, work on an academic language and to discuss cultural experiences. Tutors discuss academic assignments and work on skills needed to make presentations, prepare reports and study for exams. The service is free to all students.

### Getting Started

Students who want to improve their skills may make appointments with the Learning Assistance Center receptionist (985-5350) for a particular service or with a staff professional who can help them identify the activities that would benefit them most. Further information can also be obtained in person on the first floor of Library East.

## Multicultural Center

The mission of the Multicultural Center is to contribute to the creation of a campus environment which respects and supports cultural, ethnic, and racial diversity. We are an educational resource center which serves as a vehicle for the expression of the needs and concerns of CSULB's increasingly diverse campus community.

The objectives and activities of the Center include: diversity workshops, lectures, and forums; an extensive up-to-date library of journals, magazines, books, video and audio tapes; "The Rainbow Voices," the Center's nationally recognized student performance troupe; a Standing Art Gallery featuring the works of well known artists celebrating our theme of cultural diversity; and student internship opportunities. The Center's resources are available for students, faculty, staff, and community members. The Center is open from 9:00 - 12:00 noon and 1:00 - 5:00 p.m. Monday through Friday. For further information, stop by the Multicultural Center in the Faculty Office 3 Building, Room 3 or call (562) 985-8150.

## Student Health Service

### Student Health Services

Student Health Services (SHS) is a health center providing medical services, preventive health and health education programs to registered students. A highly trained and experienced staff of licensed physicians, registered nurses and other health care professionals are dedicated to student health and well being. The SHS is located on State University Drive and Merriam Drive, between Brotman Hall and the residence halls. The SHS is accredited by the Association for Ambulatory Health Care, and is a member of the American College Health Association.

### Clinical Services

Outpatient medical care is provided for acute injury and illness. Long term or overnight care is not provided. Services include Women's Health, Men's Health, and some specialties. Provisions are made for outside referrals for care beyond the scope of the SHS. An in-house laboratory, x-ray, and pharmacy are available. Visits to the SHS, in house laboratory tests, and x-rays are provided without charge. Laboratory tests sent to outside reference labs are available at low cost. The Pharmacy provides a range of prescriptions and over-the-counter items at low cost. The SHS is open year round. Semester hours are 8:00 a.m. to 6:00 p.m. Monday, Tuesday and Thursday; 10:00 a.m. to 7:00 p.m. Wednesday; and 8:00 a.m. to 12:00 noon Friday. Important phone numbers are SHS Switchboard, (562) 985-4771, and Appointment Desk, (562) 985-1638. *Medical Emergencies arising on campus are directed to University Police 9-1-1.*

### Health Resource Center

The Health Resource Center (HRC) is located in the Student Health Services (SHS) room 268. The HRC provides health education and support to students with a variety of programs and services. Programs include Alcohol, Tobacco & Drug Abuse Prevention Workshop, Nutrition Counseling, HIV Testing and Counseling and Sexual Health Awareness Workshop. Services include computerized health resource service, Health Beach newsletter, personal assistance, multi-

media health information, health education campus outreach activities and volunteer and internship opportunities. For more information call (562) 985-4609 or visit the SHS web site at [www.csulb.edu/centers/shc](http://www.csulb.edu/centers/shc) (click on Health Resource Center.)

### Immunization Requirement Clearance

Immunization clearance is performed at SHS. The SHS provides a range of vaccinations including those required by the California State University system. For new students 18 and younger on the first day of classes, the two required immunizations are Hepatitis B and Measles/Rubella. For new students 19 or older on the first day of classes, Measles/Rubella is required (for those students born after 1957.) Clearance is obtained by showing proof of immunity using medical records or by receiving immunizations (available at the SHS.) Medical and religious exemptions are available. For more information see *Admission to the University, Immunization Requirements* section. You may also phone the SHS at (562) 985-4771, call the Immunization Hotline at (562) 985-5411 or visit the SHS web site at [www.csulb.edu/centers/shc](http://www.csulb.edu/centers/shc) (click on immunization information.)

### Medical Insurance

For chronic, complicated or severe illness or injury, medical insurance is strongly recommended. If a student does not have medical insurance, the Associated Students Inc., sponsors an individual health insurance plan to all enrolled students. This plan may be purchased through the Associated Students Business Office, University Student Union, room 220, or phone (562) 985-8311.

## Student Life and Development

"If all you do is go to class at CSULB, you are not getting a complete education." – President Robert C. Maxson

The Office of Student Life and Development (SLD) can help students broaden their involvement on campus. Through involvement in campus clubs and organizations and/or participation in activities sponsored by student groups, students are able to explore personal and academic interests, develop leadership skills, and gain information and contacts that will prepare for future careers.

There are approximately 250 student recognized organizations including academic associations, fraternities and sororities, and cultural, religious and special interest student groups. Professional staff in Student Life and Development provide leadership development and officer transition opportunities; advise student officers on program planning, development; assist groups with securing Associated Students government grants; approve campus student programs, and facilitate accessing University resources. SLD also administers student academic travel funds, provides presentations on campus life for University 100 courses and Orientation to Campus Life programs, and coordinates transmission of emergency messages to students in the classroom.

## Programs and Activities

### College Organizations

Each academic department has a student departmental association composed of students in that discipline. In addition, there are other academically related organizations and discipline-based honorary societies. Representatives from each departmental association and, depending upon constitutional provisions, other academically related organizations work together on a college student council. The organizations promote interaction between faculty and students, sponsoring speakers, seminars, social gatherings and other activities related to their disciplines. Students also have the opportunity to provide input regarding their educational experiences to their faculty and department chairs, as well as to their deans via departmental associations and student councils, respectively. SLD staff play a key role in coordinating major events such as the Design Student Association Carnival, Engineering Day, Health and Human Services Career Month, Awareness Festival, College of Liberal Arts Weeks, Meet the Industries Expo, and the Nobel Laureate Lecture.

### Greek Life

Students have the opportunity to join national and local organizations with founding values based on community service, scholarship, campus involvement active social development. There are more than 30 fraternities and sororities which reflect a broad range of interests and historical traditions. There are groups with predominantly African-American, Asian-American and Latino membership, as well as chapters with no ethnocultural affiliation.

In addition to their social and cultural programs, sororities and fraternities sponsor national and/or local philanthropies and engage in community service projects. Examples of such projects are providing tutorial assistance and positive role models for children in local schools, initiating food and clothing drives for those in need, raising money for scholarships, etc.

Most national Greek organization chapters are members of one of these coordinating councils: National Pan-Hellenic Council (historically African-American sororities and fraternities), Inter-fraternity Council (fraternities), Panhellenic Association (sororities), and Cultural Greek council (Fraternities and Sororities).

### Lois J. Swanson Leadership Resource Center

Through the Lois J. Swanson Leadership Resource Center (LRC), SLD works with several other University departments and the Associated Students, Inc. (ASI) to develop students as effective leaders for social change. An advisory board of civic, community and corporate leaders provides guidance and support for the activities sponsored by the LRC. These activities teach students community building, leadership and communication skills, clarification of personal values, citizenship and how to handle controversy with civility.

The LRC offers a variety of events each year ranging from workshops to full-scale retreats. An annual highlight is the fall semester Teamwork retreat which is held at a camp in the nearby mountains. Teamwork focuses on personal leadership development through team building experiences and simulations. The retreat offers an excellent opportunity to make new friends and to network with experienced and emerging student leaders. The LRC designs and implements other specialized training for student organizations. SLD also assists in the planning and implementation of ASI student government orientations and retreats.

The leadership development programs are housed in the Lois J. Swanson Leadership Resource Center on the third floor of the University Student Union. The center offers multimedia leadership resources and advice to student leaders and organizations as they practice effective leadership.

### American Indian Student Services

American Indian Student Services is devoted to the recruitment, retention and graduation of the indigenous peoples of North America. A coordinator of Student Life and Development provides admissions, academic and personal advising for American Indian students enrolled in the University; serves as the student life and development advisor to the American Indian Student Council; plans and implements outreach activities that assist in the identification and admission of prospective American Indian students; and assists with financial aid and Bureau of Indian Affairs grant applications for eligible Indian students; and serves as a liaison on American Indian concerns with campus offices. For further

information, call (562) 985-8528.

### Student Transition and Retention Services (STARS/SOAR)

The educational experience presents new students with myriad challenges and pressures. The department of Student Transition and Retention Services directs its major efforts toward the orientation, advising and registration of students and the promotion of their persistence in college through graduation. Special efforts are directed toward advisor training, orientation and advising workshops, as well as research with regard to issues affecting student retention.

The Student Orientation, Advising and Registration (SOAR) program provides newly admitted freshmen and transfer students with initial academic advising, assistance with class selection, registration for the first semester and an orientation to student services and campus resources. These workshops take place in early January and throughout the summer months.

The office is located in the Foundation Building (suite 160) and the telephone number is 562/985-5515. Information also may be obtained on the department's web site at [www.csulb.edu/soar/](http://www.csulb.edu/soar/).

## Testing and Evaluation Services

Information regarding admissions placement and certification examinations may be obtained from the office of Testing and Evaluation Services. Test programs currently offered include the SAT and Achievement Tests, ACT, EPT/ELM, WPE, PRAXIS, and the Nelson-Denny Reading Test. Students are advised to refer to testing requirements described elsewhere in the Catalog, and in particular, the EPT, ELM, and WPE programs. Additional placement or admission examinations may be offered to meet the needs of academic department requirements. Registration bulletins for the above mentioned exams as well as the MCAT, LSAT, CBEST, GRE, RICA, and TOEFL exams are available in the information racks immediately outside of the office.

The Testing Office also provides services to faculty, staff and administrators regarding research design, questionnaire construction and data analysis. The office is located in Brotman Hall 216; phone (562) 985-4007. FAX (562) 985-2415 or visit the Testing Office website at [www.csulb.edu/centers/testing](http://www.csulb.edu/centers/testing).

## University Interfaith Center

The University Interfaith Center (UIC) is an association of 11 faith traditions serving the educational community of CSULB. Member groups represent individual faiths while respecting the diversity of religious traditions and the pluralistic nature of the university. Membership in the association is extended to faith groups who choose to work cooperatively, respecting the integrity of one another's religious traditions. All of the services of the University Interfaith Center are available to the entire campus community—students, faculty and staff.

The UIC aims to enhance the educational experience by encouraging students, faculty and staff in their pursuit of spiritual growth, community building, faith development and personal values. It offers pastoral care/spiritual support, educational programs, student community, worship services, service projects, conferences/retreats and referral information. It also provides a library on topics of religion and a comfortable lounge area where students can meet, share a meal or study.

The UIC is located in the University Student Union, room 103. For information on programs and resources call (562) 985-4369.

## University Outreach and School Relations

The Office of University Outreach and School Relations (UOSR) is the primary student recruitment and guest relations office for the University. The Office disseminates information on the CSU and CSULB admissions and financial aid policies and procedures, on CSULB's academic programs and on student services to prospective students and counselors from high schools and community colleges in the CSULB service area and surrounding communities.

A major focus of UOSR is the implementation of outreach and recruitment programs and services to reach a diverse pool of talented high school and transfer students

for whom CSULB is their "University of Choice". The Office, under the direction of the President, also is responsible for recruitment of President's Scholars (California valedictorians and National Merit Semifinalists and Finalists).

In addition, UOSR administers pre-admissions and application workshops for prospective freshmen and transfer students; the Young Scholars Program for qualified high school students; admissions services for adult re-entry students; and educational awareness and academic enrichment services for elementary and middle school students.

UOSR offers guided campus tours by appointment. Those interested in visiting the campus should call (562) 985-5358. Specialized campus visits for K-12 students, parents, counselors and other interested groups may also be arranged.

The Office of University Outreach and School Relations is located in Brotman Hall Room 289.

## Veterans' Services

The Veterans' Services office coordinates all veterans' financial benefits including initiation of federal and state benefits, maintenance of veterans' status with the Veterans' Administration and continuation of benefits through enrollment certification. In the past, federal grants funded full-time veterans' services at the university. At the present time, minimal federal funding has eliminated specialized veterans' services at many universities; despite the lack of federal funding, a half-time veterans' office is maintained at CSULB. The office is supervised by Counseling and Psychological Services and is located in Brotman Hall 226.

## Women's Resource Center

The mission of the Women's Resource Center (WRC) is to facilitate the educational, professional and personal growth of women on campus. The WRC houses a library of material on women's issues, offers women's support groups, and peer counseling. It provides referrals to campus and community services, scholarship information, and is a clearinghouse for current events of interest to women. The WRC also provides a comfortable lounge where students can study, chat with friends, or hold meetings.

In addition, the Women's Resource Center sponsors educational events throughout the school year and networks extensively with other academic and student services programs. The seminars, workshops and/or conferences range from the more current theoretical women's issues to practical concerns of university women. The WRC is open from 9:00 a.m. to 5:00 p.m. Monday through Friday and two evenings until 6:30 p.m. The Women's Resource Center services are free and available to women and men, campus and community. The WRC is located in Liberal Arts 3-105. For further information, call (562) 985-8687/8576.

## Writer's Resource Lab

The primary goal of the Writer's Resource Lab is to help CSULB students develop as writers by providing personalized writing tutorial services. Students do not need to be taking a writing course to use the Lab's services; they are available to any currently enrolled CSULB student.

At the Writer's Resource Lab, students may consult with friendly and knowledgeable tutors (all of whom are CSULB undergraduate or graduate students) in order to become more comfortable and confident with any aspect of the process of writing. Students are welcome to drop by and use the Lab's library of writing reference materials. Other services include group tutorial sessions and workshops on various writing issues.

For more information or to make a tutoring appointment, stop by the Lab in Language Arts Building - 212 or call (562) 985-4329.

## CAMPUS LIFE

### Academic College Organizations

#### College of the Arts

American Society of Interior Designers, Art Education Student Association, Art Student League, Bachelors of Fine Arts Club, Ceramics Guild, College of the Arts Student Council, CSULB Composers' Guild, Design Student Association, Fiber Guild, Korean Art & Design Students Association, Off 7th Street Dancers, Sigma Alpha Iota (Music), University Players, Visual Communications Design Association

#### College of Business Administration

AIESEC (International Association of Students in Economics & Commerce), American Marketing Association, Associated Business Students Organization Council (ABSOC), Beta Alpha Psi (Accounting Society), Beta Gamma Sigma (Business Administration), Black Business Student Association, Delta Sigma Pi (Honorary Business Administration), Financial Management Association, Hispanic Students Business Association, Human Resources Management Association, Information Systems Student Association, International Business Association, Lambda Alpha International, Pacific Rim Association, Professional Women in Business Administration, Society of Electronic Commerce, Student Entrepreneurial Exchange (SEE)

#### College of Education

Association of Professionals in Student Affairs, Black Student Educators Association, College of Education Student Assembly, Phi Delta Kappa (Professional Education), Pi Lambda Theta (Education), Student California Teachers Association (SCTA)

#### College of Engineering

American Indian Science & Engineering Society (AISES), American Institute of Aeronautics and Astronauts, American Institute of Chemical Engineers, American Society for Quality Control, American Society of Civil Engineers (ASCE), American Society of Mechanical Engineers (ASME), American Society of Mechanical Engineers—Electric Car Project,

American Society of Mechanical Engineers—Human Powered Vehicle Project, ASHRAE (American Society of Heating, Refrigerating & Air Conditioning Engineers), Associated Builders & Contractors, Associated Engineering Student Body (AESB), Associated Engineering Student Body—Robotic Wars Project, Associated Engineering Student Body—Solar Car Project, Associated General Contractors of America (Association of General Contractors), Association of Computing Machinery, Association of Engineering Technologist, Biomedical Engineering Society (BMES), Chi Epsilon (Civil Engineering), Construction Management Association of America, Eta Kappa Nu (Electrical Engineering), IMAPS International Society for Hybrid Microelectronics, Institute of Electrical & Electronics Engineers (IEEE), Institute of Industrial Engineers, Institute of Transportation Engineers, Instrument Society of America, Instrumentation Society of America (ISA), Mexican American Engineers and Scientists, MicroMouse Robotics Team, National Association of Environmental Professionals, National Society of Black Engineers, Pi Tau Epsilon (Engineering), Pi Tau Sigma (Mechanical Engineering), Society of Automotive Engineers, Society of Hispanic Professional Engineers (SHPE), Society of Manufacturing Engineers, Society of Petroleum Engineers, Society of Women Engineers, Structural Engineers Association of Southern California (SEAOSC), Tau Beta Pi (Engineering), Upsilon Pi Epsilon (Engineering)

#### College of Health and Human Services

Alpha Phi Sigma, Alpha Phi Sigma (Criminal Justice), American Association of Family & Consumer Sciences, American Humanatics Student Association, Associated Students of Social Work, California Nursing Students Association, Child & Family Associated Students, College of Health & Human Services Student Council, Criminal Justice Student Association, Eta Sigma Delta (Honorary—International Hospitality Management), Eta Sigma Gamma (Health Science), Health Care Administration Forum, Health Science Student Association (HSSA), International Food Service Executives Association, Kappa Omicron Nu (Honorary—Home Economics), Minority Association of Pre-Health Students, Physical Therapy Club, Pi Alpha Alpha (Public Affairs & Administration), Recreation Society, Society of Consumer Affairs Professional (SOCAP), Sports Medicine Club, Student Affiliates of the American Kinesiotherapy Association (SAAKTA), Student Association of Family & Consumer Sciences (SAFACS), Student Dietetic Association, Student Food Science Society, The Dr. Jack Rose KPE Majors Club

#### College of Liberal Arts

Anthropology Student Association, Asian American Student Association, Associated Students of Comparative Literature, Association of Future Educators, Black Psychology Students Association, Black Studies Student Association, Chicano/Latino Studies Student Association, Club Italia, College of Liberal Arts Student Council, English Student Association, Eta Sigma Phi (Friends of the Classics), French Club, Geography Student Association, German Society, Graduate Communication Association, History Graduate Students Association, History Students Association, Human Development Honor Society, Human Development Student Association, Percussion Student Association, Pi Sigma Alpha (Political Science), Political Science Student Association,

Professional Association of Communicators, Psi Chi (Honorary—Psychology), Psychology Student Association, Public relations Student Society of America, Religious Studies Student Association, Russian Club, Sigma Tau Delta International (English Honor Society), Society of Professional Journalists, Sociology Student Association, Spanish/Portuguese Association, Student Communication Association, Student Philosophy Association, Women's Studies Student Association

### College of Natural Sciences and Mathematics

Biology Student Association, Chicanos/Latinos for Community Medicine, College of Natural Sciences & Mathematics Student Council, Geology Students Society, Math Students Association, Microbiology Student Association, Society of Physics Students, Student Affiliates of the American Chemical Society (SAACS), TOPS (The Organization of Paraprofessional Students)

Bob Freleigh

### Cultural Clubs

Afghan Student Union, African Repertory Ensemble, African Student Association, American Indian Student Council, Arab Student Association, Black Cultural Programming Committee, Black Student Union, Cambodian Student Society, Chinese Student Association, Chinese American Student Association, Hawaii Club, Indian Student Association, Indonesian Student Association, International Students Association, Iranian Student Association, Japan Club, Korean American Students Association, Korean Student Association, La Raza Student Association, Latino Student Union, Nikkei Student Union, Pacific Islanders Association, Pakistan Student Association, Pilipino American Coalition (PAC), Ptahhotep Grand Nubians & Queens of Imani (PGNQI), Thai Students Association, Turkish Student Association, Vietnamese Student Association

### Fraternities

Alpha Phi Alpha Fraternity, Black Greek Letter Council, Delta Chi Fraternity, Delta Lambda Phi Fraternity, Delta Sigma Chi Fraternity, Iota Phi Theta Fraternity, Kappa Alpha Psi Fraternity, Inc., Kappa Sigma Fraternity, Lambda Theta Phi Fraternity, National Pan-Hellenic Council, Omega Psi Phi Fraternity, Panhellenic Council, Phi Beta Sigma Fraternity, Phi Kappa Tau Fraternity, Sigma Alpha Epsilon Fraternity, Sigma Phi Epsilon Fraternity, Sigma Pi Fraternity, Tau Kappa Epsilon Fraternity, The Order of Omega (Greek Leadership Honor Society), Theta Chi Fraternity, Zeta Epsilon Tau Fraternity, Zeta Phi Rho Fraternity

### Honor Societies

Black Scholars Student Association, Golden Key International Honor Society, Mortar Board (National Honor Society), Phi Eta Sigma/Alpha Lambda Delta (Interdisciplinary Freshmen), Phi Kappa Phi (Interdisciplinary), Scabbard and Blade Society, Sigma Theta Tau International, Inc. (Nursing), University Honors Program Student Association,

### Political/Social Action Clubs

American Civil Liberties Union, Cal State Long Beach College Republicans, Model United Nations, Student Coalition to Free Mumia Abu-Jamal, Young Democrats, Young Professional Association of United Nations Association—USA

### Religious Clubs

Asian American Christian Fellowship, Asian Baptist Student Koinonia, Baha'a Club, Beach Student Ministries, Bridges, Campus Crusade for Christ, Catholic Newman Club, Chinese Christian Fellowship, Christians on Campus, Cooperative Protestant Campus Ministry, COPTICS (Coptic Orthodox Christian Club), Grace Community Bible Study, Hillel, IMPACT, International Christian fellowship, Korean Campus Campus Crusade for Christ, Korean Intersity Fellowship, L.A. Church of Christ Campus Ministries, Latter-Day Saints Student Association, Leadership Forum, Methodist Wesley Foundation, Muslim Student Association, Studies in the Old and New Testaments, The Academy: A Wisdom School, The Navigators, University Bible fellowship, Victory Campus Fellowship

### Sororities

Alpha Kappa Alpha Sorority, Alpha Omicron Pi Sorority, Alpha Phi Sorority, Chi Delta Theta Sorority, Delta Delta Delta Sorority, Delta Gamma Sorority, Delta Sigma Theta Sorority, Delta Zeta Sorority, Gamma Phi Beta Sorority, Kappa Psi Epsilon Sorority, Lambda Theta Alpha Latin Sorority Inc., National Pan-Hellenic Council, Panhellenic Council, Sigma Gamma Rho Sorority, Sigma Kappa Sorority, Sigma Phi Omega Sorority, The Order of Omega (Greek Leadership Honor Society), Zeta Phi Beta Sorority,

### Special Interest Clubs

Alpha Phi Omega, American Red Cross Society, ANIME Club, Army ROTC, Best Buddies, Cinema Society, Circle K International, College Students in Broadcasting, Concerned Students for a Bikestation, CSULB "Zen" Sitting Club, CSULB Amateur Radio Association, CSULB Campus for Nader, CSULB Campus Progressives, CSULB Chess Club/University Chess Association, CSULB Entrepreneur Society, Existention Dance Company, Gallery Exhibition Society, Gay, Lesbian & Bisexual Students United, Human Factors and Ergonomics Society, Law Society, Long Beach State Forensic Team, Macintosh User group, MBA Association, META (Movimiento Teatro Y Artes), Multiethnic and Multicultural Association (MeMCA), National Association of Women in Construction, National Student Speech, Hearing, & Language Association (NSSLHA), PhE Peer Health Educators, Residence Hall Association (RHA), Schiller Club, Sixty + Club, Snow Club, Social Dance Club, Society of Free Thinkers, Society of Petroleum Engineers, Student Alumni Association, Students Active in Community Health (SACH), Student for Life Choices, Students for OPTIONS, Students for Social Equality, Upward Bound Association, Vision Ministries

## Sports Clubs

Aikido Club, Alpine Ski & Snowboard Team, Archery Club, Badminton Club, Crew Team—Men, Crew Team—Women, CSULB Sports Club, CSULB Surf Team/Club, CSULB Triathlon Team, CSULB Wushu Team, Cycling Club/Team, Forty-Niner Ice Hockey Team, Gymnastics Club, Karate Do, Men's Rugby Team, Men's Soccer Team, Outdoor Adventure Club, Sailing Team, Shotokan Karate Club, Student Athlete Advisory Council, Tae Kwon Do Club, Water Ski Club/Team, Women's Soccer Team

## Student Resource Centers

There are five student-run resource centers on campus where students may go for information and support.

Activities in the centers vary and may include small group meetings, planning for major cultural events, occasional potlucks, study hall, peer mentoring, and dissemination of information on community resources/volunteer opportunities and scholarships. Some centers may also house selected reading material.

*American Indian Student Study Center*, Faculty Office (FO) 4-282, (562) 985-4963

*Asian Pacific Student Resource Center*, FO4-277, (no telephone)

*Black Student Cultural Center*, FO4-274, (562) 985-4502

*Raza Resource Center*, FO4-263, (562) 985-5223

*Lesbian/Gay/Bisexual/Transgender Resource Center (LGBTRC.)* The LGBTRC is a center run by students for students with the mission of offering support, conducting outreach and providing information to the campus community regarding lesbian, gay, bisexual and transgender (L/G/B/T) issues. The Center maintains a library of books and videos on L/G/B/T topics. Speakers Bureau volunteers are available for classroom or residence hall panel discussions. The Center has community posting boards for jobs, scholarships and events on- and off-campus. The LGBTRC also offers several rap/discussion groups and a lounge is available for students to study or hold meetings. Throughout the year, the LGBTRC sponsors various educational seminars and workshops designed to educate and increase visibility for L/G/B/T concerns.

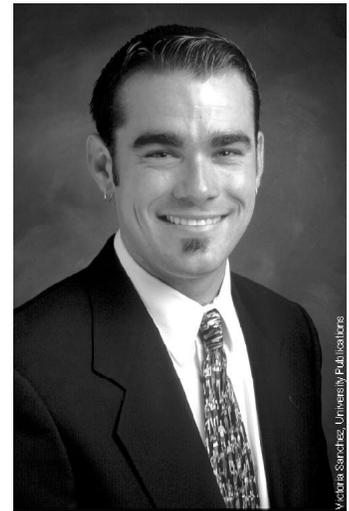

LGBTRC services are open to any student, faculty or staff member interested in the lesbian/gay/bisexual/transgender community. The Center is located in FO4-165. For further information, including Center hours, call 562/985-4585 (general information), 562/985-4588 (event line) or e-mail [lgbtrc@hotmail.com](mailto:lgbtrc@hotmail.com).

## Fraternity and Sorority Housing

Most fraternities and sororities own or lease homes near the campus and provide lodging and meals for their members and pledges. Students interested in affiliating with a sorority or fraternity should contact the Panhellenic Association (for sororities), the Interfraternity Council (for fraternities), or National Pan-Hellenic Council via Office of Student Life and Development, University Student Union.

## Student Government

Student government through the Associated Students Inc. (ASI) is a unique opportunity for service to students by students. Students interested in management of the large A.S.I. corporation and in taking part in the decision-making process of the University, will also find student government rewarding. Every student becomes a member of the Associated Students upon registration. Through the Associated Students, Inc., a non-profit corporation in the State of California, financial support is given to approximately 30 student activity/ interest commissions, a newspaper, college councils and departmental associations, and to various social, athletic, ethnic and cultural programs.

Wayne Stickney-Smith  
2001-2002 ASI President

The governance structure of the Associated Students, Inc. includes legislative, executive, and judicial branches. Students are elected to approximately 28 positions by the student body each year to fill the executive and legislative branches. In addition, students are also elected to policy-formulating bodies of the University including the Child Development Center Board of Directors, the Forty-Niner Shops Board of Directors, and the Academic Senate. Participation in these programs and other campus activities has been a significant part of many students' University experience.

The executive branch of student government is comprised of the A.S. President, A.S. Vice President, A.S. Treasurer and A.S. Administrator. The Associated Students President is the chief executive officer of the Associated Students, Inc. and acts as the representative and host of the Associated Students, Inc. to the University and the general public. The President can initiate or veto Senate legislation and is responsible for executing Associated Students policies. The President is also responsible for making all A.S. executive appointments and has the power to create committees. The President is an ex-officio member of all A.S. executive bodies.

The Associated Students Vice President chairs the A.S. Senate and is a voting member of that body as well as other campus committees. The Vice President is responsible for assembling the agenda for the Senate meetings and serves on several boards and committees. The Vice President assists the President with his or her duties and assumes the President's duties should the A.S. President leave office or become incapacitated.

The Associated Students Treasurer is responsible for the Associated Students finances and enforcement of the A.S. fiscal policy. The Treasurer prepares the Associated Students budget, subject to Senate final approval, and chairs the A.S. Board of Control. The Treasurer approves all expenditures of A.S. monies and assists clubs and organizations with budget preparation.

The Associated Students Administrator is the chief administrative officer of the Associated Students government. Appointed by the A.S. President each year, the Administrator is the executive assistant to the President and is responsible for overseeing the A.S. Commissions, activities, and services. The Administrator also represents the Associated Students and the President on several campus committees.

The Associated Students Board of Control is the fiscal advisory body to the Senate and is chaired by the A.S. Treasurer. The Board handles personnel matters and supervises the use and maintenance of the Associated Students buildings and equipment. All groups requesting Associated Students funding must go before the Board of Control for approval prior to appearing before the Senate. The Board of Control makes recommendations regarding expenditure allocations to the Senate, and the Senate has final approval in all A.S. Board of Control actions.

The A.S. Senate is the legislative branch of student government. It serves as the Board of Directors of the Associated Students Corporation by steering the corporation's finances and policies. The Senate creates and revises its by-laws, allocates funds for old and new programs, approves presidential appointments, fills vacancies in elected offices between elections, and forms committees to study problems and proposals. The Senate also charters on-campus student groups (except fraternities and sororities), which enables these groups to request Associated Students funding for programs, use the Student Union's facilities, plus enjoy the benefits of the Associated Students' support and recognition. The Senate is comprised of 21 voting members, including the A.S. Vice President who serves as the Chair. There are two senators representing each of the seven colleges at CSULB. Senators must be majoring in one of the departments within the college they represent. In addition, there are six Senators-at-large seats also chosen by the general student body.

When a dispute arises, the Associated Students Judiciary may take disciplinary action, including suspension or revocation of charter privileges against recognized organizations on campus. The Judiciary also renders final decisions in election disputes. The decisions of the A.S. Judiciary are the final authority in Associated Students matters. A chief justice and six associate justices are appointed yearly by the A.S. President and approved by the A.S. Senate. The A.S. President also appoints an Attorney General and a Public Defender. This court allows students the opportunity to develop legal skills and address any injustice or wrongdoing in student government.

The Associated Students government offices are located in suite 311 of the University Student Union. For further information, call (562) 985-5241 or write to Associated Students Inc., 1212 Bellflower Blvd., Long Beach, CA 90815-0602.

### The University Student Union

The University Student Union (USU) is located in the center of campus and occupies approximately 180,000 square feet. With large interior patios, flexible multipurpose and meeting rooms, comfortable lounges and food service facilities, the USU is the campus "living room." The USU offers weekly entertainment activities and is home to the USU administrative offices, Alumni Relations, the office of the Associate Vice President for Student Services/Dean of Students, the Associated

Students Inc. (ASI) student government and business offices, the Community Service Officers Program, a Computer Center, a Cultural Center, the Greek Center, the Interfaith Center, KBeach Radio, the Leadership Resource Center, a student Legal Aide office, the Photo/Ticket Center, the Robert C. Maxson Student Organization Center, the office of Student Life and Development, and the Union Newspaper.

In March 1965, the student body voted to assess a fee each semester to construct, maintain and operate a student union building. In March 1995, the student body approved a \$17 million USU Improvement Project. Completed in May 1998, the Project added a third floor to the building and provided space for a Commuter Student Services Area, a Leadership Resource Center, an organization center, a computer center, new meeting rooms, a covered exterior escalator and a new West Wing.

The ground floor of the USU caters to recreational and entertainment services. The Games Area features bowling lanes, video games, billiards, table tennis, a television lounge and an outdoor swimming pool. These programs are open to the campus and community. The first level also houses the Blue Marble Cafe.

The Plaza (second) level houses service areas. The Photo / Ticket Booth offers photo developing and tickets for campus events and area theme parks. ASI Business Office offers health insurance, money orders, public notary, and is the office where student organizations hold their accounts. The Event Planning Office is the central scheduling service for the entire campus. The office of Student Life and Development offers advising for student organizations as well as mailboxes and organizational files. The Computer Center offers students the ability to use both PC and Mac computers conveniently. Planet GraphX provides students with the latest in design. The USU Food Court features nationally branded vendors such as Carl's Jr., Subway, Robek's Juice, Coffee Bean and Tea Leaf, El Pollo Loco and the Candy Counter.

The third level houses the ASI Government office here and offers students the opportunity to participate in campus governance activities. The Cultural, Greek and Leadership Development Centers provide students with valuable resources to enhance their college experience. The Robert C. Maxson Student Organization Center houses 22 active student organizations.

Throughout the USU there are many facilities for student organizations and other groups to schedule events. The multipurpose rooms, meeting rooms, Center Courtyard and the Small Auditorium all provide a variety of facilities for meetings, conferences, speakers, films, concert, luncheons and banquets.

In addition to these services, the USU is home to Gary & Co. Hair Design and Fun-Fest Travel.

### The Soroptimist House

The Soroptimist House, presented to the Associated Students by the Soroptimist Club of Long Beach, provides a facility for parties, receptions, and informal meetings. It has a terraced patio for outdoor events, carpeted lounges, a complete kitchen, and a dance area available for scheduling by all campus organizations and departments. The Soroptimist House has a small, intimate, home-like setting. Reservations may be made at the Event Planning Office in the University Student Union.

The mission of the profession of social work is to improve the quality of life for all people and to enhance human potential for full and productive participation in society. As such, social work has universal application to meet human needs arising from personal-societal interactions. Social Work, based on the history and philosophy of the profession, is committed to working with disenfranchised groups in our society to alleviate poverty and oppression and to empower at risk groups.

The social work method is a change-oriented process which helps individuals and social units of all sizes, structures and functions to discover, mobilize, develop and use their own and outside resources to change personal and social conditions which are barriers to meeting their needs. Change is accomplished through direct service, supervision, consultation, education, community organization, program development and evaluation, organizational and administrative advocacy, policy development, and social or political action.

Social workers are employed in varied settings, including the major societal institutions: health and mental health, child welfare, family services, government, education, justice, aging services, recreation, labor and industry, and religion. They work in many job classifications: direct service, community organization, supervision, consultation, management, administration, education and training, policy analysis and research.

The mission of the Department of Social Work is to prepare a diverse student population for Bachelor of Arts in Social Work (BASW) and Master in Social Work (MSW) degrees for professional social work practice. The graduates of these programs are able to:

- demonstrate competent and ethical practice with diverse and multicultural populations from a base that builds on advances in social work knowledge, values and skills;
- enhance the well-being, and address the needs of diverse and multicultural populations across the life span;
- and advocate for social justice and social change and for elimination of oppression and discrimination.

Additionally, the mission is to provide BASW and MSW education which is broadly accessible so that graduates can serve the needs of local, state and international communities in which they practice. In order to accomplish the mission, the Department draws on a diverse faculty who provides quality social work education and contributes to the community, the profession and the advancement of professional knowledge. The Departmental curriculum assists BASW and MSW students to gain professional knowledge and values and develop an understanding of, and skill in social work methods and techniques required to undertake quality practice within the full spectrum of professional tasks. These expectations are accomplished with the student through the integration of the information and theories of the classroom with supervised practical experience in a variety of social agencies.

The BASW and MSW programs are accredited by the Council on Social Work Education (Council on Social Work Education, Commission on Accreditation, 1725 Duke Street, Alexandria, VA 22314, phone number: 703-683-8080.

Departmental, University and Council on Social Work Education regulations do not permit the substitution of life or work experience for curriculum requirements and expectations.

### Bachelor of Arts in Social Work (code 2-8555) (120 units)

The Department of Social Work offers, in conjunction with the general education requirements, a professional program leading to a Bachelor of Arts in Social Work (BASW). The goals of the BASW program are to prepare students for entry level, professional, generalist social work practice and for graduate social work education, including advanced standing. Students learn to practice as professional social workers with persons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions).

Social Work majors should consider taking courses as electives or for fulfillment of general education requirements in the ethnic studies, women's studies and gerontology programs in the Colleges of Health and Human Services and Liberal Arts. The department can make recommendations concerning those courses which would be most useful to students interested in acquiring broader information closely allied to professional social work practice.

The field work sequence plays an integral role in the BASW curriculum providing an opportunity for the student to apply Social Work knowledge and practice skills in an agency based educationally focused field work placement. Students complete 400 hours of field placement (SW 495A/B) in their senior year for which they earn 14 academic units. Students complete 16 hours per week in an assigned agency placement. A variety of agencies in the surrounding communities are used, and the department's field faculty select the most appropriate field placement site for students.

Students can contact the admissions unit for academic advising concerning the requirements for admission into the BASW program.

#### Admission Under Impaction

The number of applicants to the Social Work program exceeds the number that can be accepted. For this reason, the Social Work Program has been designated as impacted by the California State University. Applicants are subject to supplemental criteria in addition to the requirements for admission to the University. Applicants for admission will be given a pre-major code (2-8554). Acceptance into the pre-major category does not imply or assure subsequent acceptance into the major. Admission is on a competitive basis and is determined on the basis of meeting all of the following supplemental criteria.

1. Complete a minimum of 56 semester units including the five prerequisite courses listed below or their equivalents:
  - A. Cultural Anthropology (ANTH 120)
  - B. Human Biology with lab (BIOL 205) or anatomy/physiology
  - C. Introduction to Psychology (PSY 100)
  - D. Introduction to Sociology (SOC 100)
  - E. Elementary Statistics (C/ST 210; HDEV 250; MATH 180; PSY 110; SOC 250);

2. Earn a minimum GPA of 2.5 in the prerequisites \*noted in 1. and an overall cumulative college GPA of 2.0;

\*Because of the rigorous academic and professional demands of the program, students must demonstrate the ability to perform well academically. Priority will be given to students with GPAs of 2.5 and above who provide appropriate application materials. Students with GPAs of less than 2.5 who submit excellent application materials also will be given consideration.

3. Declare Social Work as a pre-major  
To apply for admission to the Pre-Social Work major, after meeting the criteria above, a matriculated (fully accepted by and enrolled at the University) student must apply by March 1 for the following Fall and;
4. Complete a departmental application which includes statements of biographical and educational background, and community and/or social work experience;
5. Submit two letters of reference (one academic and one personal);
6. Submit transcripts of all previous college work at CSULB and elsewhere.

In determining eligibility of an applicant for admission to the program, the admission committee will consider:

- A. All the information in the supplemental application;
  - B. All college/university academic work completed with emphasis on the prerequisite courses;
  - C. Documented exposure to the field of Social Work in a variety of settings such as work or volunteer experience;
  - D. An interview of the applicant (at the discretion of the admission committee).
7. By the end of the first Fall semester in departmental courses, the following must be completed successfully:
    - A. Abnormal Psychology (PSY 370)
    - B. CSULB Writing Proficiency Examination (WPE) requirement.
    - C. Earn a minimum GPA of 2.0 in the first level of social work departmental courses with a grade no lower than a C (or CR in practicum) in each course.

Students will be permitted to declare Social Work as a major and enroll in subsequent levels of courses after they have successfully completed all of the requirements noted above.

#### Sequence of Required Social Work Courses

Once admitted into pre-supplementary Social Work major, students will take the following sequence of courses:

First Level (fall): SW 220, 221, 330, 350

Second Level (spring): SW 331, 340, 341, 351

Third Level (fall): SW 440, 442, 495A

Fourth Level (spring): SW 441, 465, 495B

All Social Work courses must be completed with a grade no lower than a "C". A grade lower than a "C" in a course means that the student cannot advance to the next level of courses until the course has been repeated and a grade of "C" or above is achieved.

#### Master of Social Work (code 7-8555)

The Department of Social Work offers a professional program leading to a Master of Social Work (MSW). The goal of the MSW program is to prepare students for advanced, entry level, professional, multicultural social work practice. Students also learn to practice as professional social workers with per-

sons and groups representing the range of human diversity and with all size systems (individuals, families, groups, communities and institutions). In addition, students are prepared for advanced, specialized practice in concentrations of Children, Youth and Families or Older Adults and Families.

The MSW program emphasizes ecological and systems perspectives which focus on the fit and interactions of a person or system in relation to the various environments likely to be encountered. Within these perspectives, knowledge, values, and skills are used in a change-oriented process with a multicultural context to help individuals and social units achieve improved quality of life and social participation, including advocacy for just institutions and equitable access to opportunities and resources.

In addition to the mission noted above, the MSW program provides an educational experience which does the following:

1. Provides knowledge of and experience with ethnic diversity, teaches skill in ethnic-sensitive practice, and provides motivation and skill to combat oppressive policies and discrimination. As such, the program actively offers opportunity for graduate education to students of various ethnic, racial, and socio-economic backgrounds who have life experience in bridging cultural gaps;
2. Contributes to the quality of social services delivered in the adjacent community (Los Angeles, Ventura, San Bernardino, Riverside, and Orange Counties) by providing an opportunity for advanced education to students who are already employed in the social services. These students may concurrently maintain employment within the social services and participate in the program to develop advanced skills in their area. Quality of services is also enhanced through close collaboration between the Department of Social Work and community service agencies offering fieldwork experiences and through the labor force of MSW's educated in a program with multicultural emphasis and specializations which reflect the needs of our adjacent community as well as the needs of urban communities nationally;
3. Prepares social workers for leadership and specialized practice with a specific population group. The program maintains high standards and prepares social workers for the depth and complexity of generalist Social Work practice while being able to practice in a chosen area of concentration. Foundation knowledge, values, and skills required for intervention in a multicultural context are applied and developed through work within the area of specialization. Specialization consists of emphasis on a stage of the life cycle: either children, youth, and families or older adults and families. Specialized education is offered concurrently with basic foundation knowledge from entry into the program. Students are expected to have experience in the social services upon which to draw after entry into the program;
4. Teaches analytic skill necessary for reflective and autonomous practice and necessary for contribution to the advancement of knowledge. Social workers should be capable of integrating knowledge and practice, should be able to apply grounded, scientific principles to practice, should be capable of conceptualizing practice principles on the basis of their experience, and therefore should be able to contribute to the development of new knowledge;

5. Educates students to the values and ethics of the profession. The social worker is expected to be committed to the value that people should have equal access to resources, services, and opportunities. Social workers should be advocates of humane and responsive service, have regard for the worth and dignity of the individual, and conduct themselves in accordance with the professional code of ethics.

### Concentrations

The Master of Social Work degree offers opportunity for study in two areas of concentration: Older Adults and Families or Children, Youth and Families. The concentrations reflect two of the major areas of social concern and programs in our society. Child neglect and abuse, single parents, drugs and gangs illustrate the tremendous need for service to children and their families. Interestingly, the other end of the age range also reflects neglect and a need for service. The aged, the fastest growing population segment in our society, often lead healthy productive lives; however, many at risk individuals and their families will require services. For example, older adults in the uppermost age brackets are often frail and, therefore, may have a greater need for social services, income maintenance, housing, health and personal care services. The probability that older women will live longer than men and experience differences in social and economic conditions places many older adults at risk.

With both groups, the family is often the mediating source, and the social worker needs to be able to work with the family as well. Both groups are represented by large numbers in Southern California, and programs are developing to serve the need. Professional social workers have a vital part to play in seeing these services are adequate and sound.

#### The Children, Youth and Families Concentration (CYF)

The Children, Youth and Families (CYF) concentration prepares students for practice in a variety of settings. Students are exposed to the full range of practice skills and have one year of direct practice experience and a second year of more intense direct practice or administrative practice experience.

Field work placements are available in a variety of agencies in the surrounding five-county area, including public, private and non-profit agencies. Typical settings include child welfare/protective services, health care, mental health, public social services, schools, community-based outpatient agencies, corrections/juvenile justice, residential treatment, programs for persons with developmental disabilities, substance abuse treatment and other specialized programs.

#### Required Courses for CYF Concentration

- SW 560 Direct Intervention with Individuals and Families: Focus on CYF
- SW 660 Direct Intervention with Groups and Families: Focus on CYF
- SW 670 Social Work Administration
- SW 681 Advanced Policy and Political Action: CYF
- SW 596 and SW 680 Field work placement in two different CYF agencies
- SW 698/699 Master's Thesis
- Two electives (any scheduled electives)

## Distance Education

The Children, Youth and Families Concentration is also offered at off-campus locations throughout the state. Courses are taught using face-to-face instruction, as well as interactive television. The distance education MSW is offered using a 3-year, part-time model. Students attend courses on Saturdays and complete fieldwork requirements during the second and third years of the program.

### Distance Education Model

#### Fall-Term 1

SW 505 Oppressed Groups  
SW 503A Human Behavior and Environment in Multicultural Perspectives: Focus on Prenatal Through Adolescence

#### Spring-Term 2

SW 503B Human Behavior and Environment in Multicultural Perspectives: Focus on Young Adulthood Through Old Age  
SW 592 Community Projects I

#### Summer-Term 3

SW 550 Computers & Social Services  
SW 693 Community Projects II

#### Fall-Term 4

SW 600 Elective  
SW 596A Field Instruction I  
SW 500 Foundations of Generic Social Work Practice

#### Spring-Term 5

SW 594 Research Methods  
SW 596B Field Instruction II  
SW 560 Direct Intervention: Focus on CYF

#### Summer-Term 6

SW 600 Elective  
SW 698 MSW Thesis I

#### Fall-Term 7

SW 660 Direct Intervention with Groups and Families  
SW 680A Field Instruction III  
SW 699 MSW Thesis II

#### Spring-Term 8

SW 681 Advanced Policy  
SW 680B Field Instruction IV  
SW 670 Social Work Administration: Focus on CYF

### The Older Adults and Families Concentration (OAF)

The Older Adults and Families (OAF) concentration prepares students for practice in the delivery of social services to older adults and their families, in the planning and evaluation of social services and in administration of services and policy development. Students experience one year of placement in a direct practice setting and may select either a direct practice or administrative practice setting for their second year.

Field work placements are available in a variety of agencies in the surrounding five-county area including public and private nonprofit agencies. Typical settings include health care, adult protective services, mental health, community-based outpatient agencies, rehabilitation, programs for the developmentally dis-

abled, substance abuse treatment, senior programs and other specialty services.

### Required Courses for OAF Concentration

SW 561 Direct Intervention with Individuals and Families: Focus on Older Adults

SW 661 Direct Intervention with Groups and Families: Focus on Older Adults

SW 670 Social Work Administration

SW 682 Advanced Policy Seminar: Older Adults and Families

SW 596 and SW 680 Field work placement in two different Aging and Family agencies

SW 698/699 Master's Thesis

Two electives (any scheduled electives)

### Admission to MSW Program

Students interested in full and part-time study are admitted to the MSW program for the fall or summer semester each year. Prospective students should apply directly to the Department of Social Work as well as to the University. International students must also apply to the Center for International Education (562) 985-5476. The Center begins accepting applications for the following fall term on November 1<sup>st</sup>. Review of applications by the department begins the first week of September. Deadline for application is the second Friday of April by 5:00 p.m.

All students who apply to the Master's of Social Work program must complete the following pre-requisites prior to admission:

- Computer Literacy
- Human Biology or Anatomy/Physiology
- Elemental Statistics

### Admission Requirements

To be admitted on a full or part-time basis to the Master of Social Work program, applicants must meet the following criteria:

1. Hold a Bachelor's degree from a university or college of recognized standing, have a liberal arts background, and be eligible for admission to graduate standing at CSULB;
2. Demonstrate satisfactory academic achievement as evidenced by a cumulative undergraduate GPA of 2.50 or above on a 4.0 scale for the last 60 units of course work attempted and/or completed toward degree requirements.
3. Completion of the department's application which requires inclusion of:
  - three reference letters
  - a summary of volunteer and work experience, educational background, and cross-cultural experience
  - a personal statement
  - results of the Graduate Record Examination (GRE) taken within the past five years. This requirement is waived for applicants who have completed a masters degree within a 5 year period prior to the date of admission.
  - an official copy of all college/university transcriptsApplications that do not contain the above materials are considered to be incomplete, and will not be assessed for admissions decisions.
4. Preadmission interviews may be required by the Program faculty.

## Field Work

The field work sequence plays an integral role in the MSW curriculum. The experience offers an opportunity for students to integrate and apply theoretical knowledge and Social Work practice and intervention skills in a community agency setting under the supervision of a qualified field instructor. A variety of agencies within the surrounding counties are utilized, reflecting the diverse settings in which social workers are employed. University field faculty select the most appropriate field placement site for students.

Each student has two field work placements and concurrent enrollment in practice courses during the course of study. Each placement involves 500 hours of field work in a community agency setting and attendance and participation in a field work seminar that meets weekly on campus. The field work sequence encompasses a total of 1000 hours, for which 12 units of academic credit are given. Concurrent and summer block models of field work placement are available. The concurrent model of field work parallels the academic year schedule, with placement beginning in September and continuing through mid May. Students take concurrent coursework and a field seminar while enrolled in field work and are currently in field work two days (16 hours) per week. This must include at least one eight hour weekday and two four hour blocks. The four hour blocks may include early evening hours. The block model of field work occurs during the late spring and summer months, with students completing 36 hours per week (M-F 8:00 a.m. - 5:00 p.m.) in field work while concurrently taking coursework and a field seminar on the remaining work day. Students enrolled in the full time (2 year) model or the part-time (3 or 4 year) models may take one year of concurrent and the second year in summer block field work placement.

Students who are employed in social service agencies may request that their agency be evaluated as a site for their field work for the second year of field work. The agency must be able to meet all criteria established by the Department of Social Work to insure the educational focus of field work and provide a significantly different experience. Evaluation of field work sites and approval to utilize an agency of employment as a field work site will be completed by the field work faculty.

The Department of Social Work will reject an applicant or disqualify an enrolled student whose record of academic achievement or performance in field instruction does not meet the minimum standards of the profession.

### John A. Hartford Foundation

The John A. Hartford Foundation, together with the New York Academy of Medicine, has awarded a grant to support the development of geriatric field practicum sites. The grant funded an alliance of all of the social work graduate schools and four geriatric service providers in the greater Los Angeles area. This consortium was created and sponsored by the Partners in Care Foundation with the goal of enhancing the quality of life for seniors in health care and social services.

Stipends are provided to MSW students in the Older Adults and Families concentration. Information regarding this program is presented to students in the field orientation and applications are made available.

## Inter-University Consortium

The IUC (Inter-University Consortium) is one of the specialized training programs in public child welfare available in the MSW program. It is a collaborative partnership that includes the Los Angeles County Department of Children and Family Services and the Paramount School District. The IUC program has been designed to give students exposure to public child welfare practice through assignment of DCFS cases, as well as experience working with groups of children in the school setting.

Title IV-E stipends are available for one (1) year for students enrolled in the full-time 2 year or part-time, other than summer block, model of the MSW program. Students may apply for either the first or second year of field placement. Students accepted into the program must:

- Be enrolled in the MSW program
  - Be enrolled in the Children, Youth and Families concentration
  - Complete one year of fieldwork in the IUC/DCFS placement
- Complete the designated specialty child welfare curriculum which includes:

- SW643 - Social Work Practice within Child Welfare Services
- SW698B/699A - MSW Thesis (IUC students' theses must focus on a child welfare problem or issue)
- Complete designated specialized training seminars

Students participating in the program must undergo pre-screening for county employment including fingerprinting and DCFS physical and psychological examinations. Students sign a contract committing themselves to one year of full-time paid employment following graduation with Los Angeles County Department of Children and Family Services. Students are responsible for pay-back of the stipend if they are unable to successfully complete any of the requirements of the program.

## CalSWEC

California Social Work Education Center (CalSWEC) is a unique partnership between social work education and the publicly supported child welfare structure. The mission and goals of the CalSWEC program are to reprofessionalize public child welfare. CalSWEC provides financial support to MSW students in exchange for a commitment to work in a public child welfare agency for a minimum of one year for every year of support received. The intent of the program is to strengthen and enhance the quality of practice by professionally trained and educated public child welfare social workers.

Students must first be admitted into the Children Youth and Family Concentration of the MSW program, after which they submit an application and answer various questions designed to ascertain their interest and level of commitment to a career in public child welfare.

Priority is given to applicants representing diverse population groups currently served by child welfare agencies in California. Fluency in a high demand language is also given priority. Years of service and other child welfare experience also weighs significantly into the selection process. Students in the program must be U.S. citizens or have a permanent visa.

An Awards Committee, made up of representatives of the CSULB Department of Social Work and representatives of public child welfare agencies from counties surrounding the University, will review all applications and finalize selection of candidates to whom the award will be offered. Inter-University consortium students are not eligible for the CalSWEC program.

## Full-time CalSWEC Program

The IV-E stipends provide for two (2) years of support for students enrolled in the full-time 2 year model of the MSW program. The student signs a contract to secure full-time employment in a public child welfare agency for two (2) years (one year of employment for each year of support) but is expected to remain in public child welfare employment for longer than this minimum period.

Once accepted into the program students must undergo pre-screening for county employment including fingerprinting and participation in the criminal clearance process.

## Part-time CalSWEC Program

Students eligible to apply for the part-time CalSWEC reimbursement program must be employees of the County Social Services department that provides the child welfare or assistance benefits eligibility functions. All part-time applicants must provide a letter of support from their agency administrator/director. Financial supports for admitted students will include: full tuition and fees, book costs and a travel allowance. The student will receive the actual cost of tuition and fees based on the percentage of his/her enrollment up to full-time in the MSW program. Each student will receive the actual cost of required books up to \$500.00 per semester. The travel allowance will be determined based on the two-way commuting distance from the student's home or work to the campus and/or field work site and return to that location.

Students participating in the program sign a contract to render one year of continuous and satisfactory full-time employment in their home public child welfare agency for each year of IV-E education support.

## CalSWEC Program Requirement

Students participating in the program must meet all of the following criteria:

- Enroll in and successfully complete the Children, Youth and Families Concentration;
- Maintain a B (3.0) average;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public child welfare agency;
- Successfully complete and receive a grade of credit in 1 year of fieldwork in a public agency (different from the first year) or a non-profit agency serving IV-E eligible children (in this case IV-E refers to clients who are TANF eligible).
- Have a valid drivers license, current automobile insurance, and secure the use of a car as required by fieldwork.

Complete required specialized Child Welfare Curriculum including but not limited to:

- SW 643 - Social Work Practice within Child Welfare Services;
- SW 698/699 - Masters Thesis with a focus on Child Welfare population, issue area or service delivery systems;
- Attendance at specialized training seminars;
- Students must reimburse CalSWEC if they are unable to successfully complete any of the program requirements.

CALSWEC students are not eligible for the PPS credential.

## Pupil Personnel Services Credential with Specialization in School Social Work and Child Welfare and Attendance (code 803)

The California Commission on Teacher Credentialing issues the Pupil Personnel Services (PPS) Credential in four specialization areas: Counseling, School Psychologist, School Social Work and Child Welfare and Attendance. The Department of Social Work, College of Health and Human Services, offers the combined School Social Work and Child Welfare and Attendance Specializations of the PPS Credential within the context of the Master of Social Work (MSW) degree.

The PPS Credential in School Social Work and Child Welfare and Attendance authorizes the holder to be employed in the State of California as a School Social Worker and/or a Child Welfare and Attendance Specialist. The credential covers pre-kindergarten through 12th grade service in public and other schools requiring the credential. Individuals with the credential in School Social Work and Child Welfare Attendance are pupil advocates, and provide prevention and intervention strategies that remove barriers to learning. These professionals, in partnership with other educators parents and the community maintain high expectations for all pupils, facilitate pupils reaching their highest potential, foster optimum teaching and learning conditions, and prevent school failure. School Social Work is defined as the application of social work principals and objectives to help fulfill the major purpose of the education system: to provide a setting for teaching and learning in which all children can prepare themselves for the world they now live in, and the world they will face in the future.

Child Welfare and Attendance specialists provide assessment and intervention around issues of attendance for pupils.

## Requirements

1. Successful completion of all of the requirements for the 60 unit Master of Social Work (MSW) degree within the Children, Youth and Families Concentration. Required coursework will be completed in the following sequence areas: Field Work, Human Behavior and the Social Environment, Social Work Policy, Social Work Practice, and Social Work Research;
2. Completion of SW 665, School Social Work as one of the required electives within the 60 unit MSW program, taken either prior to or concurrently with school social work field work placement;
3. Successful completion of required School Social Work Seminar series presenting specialized topics;
4. Demonstrated knowledge in the following areas of pupil personnel services, as defined in the Commission on Teacher Credentialing Standards: Knowledge of techniques for facilitating individual growth and development to achieve academic success; Knowledge of the wide variety of socio-cultural influences that affect pupils in a school setting; Knowledge of human assessment; Knowledge of problem prevention and early intervention; Knowledge of consultation services; Knowledge of learning theory and psychological education; Knowledge of coordination and development of services; Knowledge of legal enablements and constraints; Knowledge of referral and utilization of services; Knowledge of human assessment as direct services to pupils, Knowledge of social interventions; Knowledge of consultation coordination and development

of services; Knowledge of referral, utilization, involvement and use of community resources; Knowledge of social research and services based on research; Knowledge of the code of professional ethics; Knowledge of attendance laws and the rights of minors; and Knowledge of skills using attendance laws and assessment skills.

5. Successful completion of 540 clock hours of field practice in the second year of field, demonstrating all of the required skills and knowledge areas, in an approved PPS site, under the supervision of an experienced MSW level practitioner and an individual who holds a PPS Credential. Supervised hours of field practice will include at least 100 hours in each of two settings (elementary, middle and/or high school), and experience in service delivery with populations representing racial and ethnic diversity, and will cover both school social work and child welfare and attendance competencies and standards.
6. Completion of required Application and forms from California Teachers Credentialing Division, including fingerprints, Certificate of Clearance and Character Reference form;
7. Completion of required health screenings;
8. Successful performance on C-BEST Examination;
9. Certification of program completion and demonstrated competence by the PPS Program Coordinator, Department of Social Work. The student may be required to complete additional course work, field work, or demonstrate specific competencies before approval.
10. Completion of all required forms and procedures of Credential Processing Center, CSULB.

### Advancement to Candidacy

A conditionally classified or fully classified student must maintain a minimum GPA of 3.0 on all courses taken subsequent to admission. In addition, a GPA of 3.0 must be maintained in all courses required for the degree. A student will be eligible for advancement to candidacy for the degree after successfully completing 12 units of graduate level courses in Social Work.

All students must demonstrate competency in writing skills. Students must pass the Writing proficiency Examination (WPE) or score at least a "4" on the GRE Writing Assessment. The WPE must be at least attempted during the first semester of residence in the MSW program. Either the WPE or the GRE Writing Assessment must be passed to advance to candidacy.

### Course Load

The California State University, Long Beach requirement for full-time status as a graduate student is 8 weighted units. For part-time students pursuing the M.S.W. degree in the Department of Social Work, the residency requirement is one year of full-time work; therefore, part-time students pursuing the M.S.W. degree must take at least 2 semesters of at least 3 courses or 9 units. Students who wish to complete the M.S.W. degree in 2 years must take an overload of 6 units for 4 semesters or 15 units a semester.

### Requirements

The Master of Social Work program requires the completion of 60 semester units. Fifty-four units of required courses and 6 units of scheduled departmental electives must be taken to complete a concentration. In the CYF concentration, 57 units of required courses and 3 units of scheduled departmental electives must be taken by IUC, Cal SWEC and PPS credential students.

The program is taken in one of the four following sequences:

#### Plan A: (two years)

- Term 1 — SW 500, 503A, 505, 550, 596A; (fall)
- Term 2 — SW 560 or 561, 592, 594, 596B, 503B; (spring)
- Term 3 — SW 660 or 661, 680A, 693, 698A, 500/600 level elective; (fall)
- Term 4 — SW 670, 680B, 681 or 682, 699A, 500/600 level elective; (spring)

#### Plan B: (four years)

- Term 1 — SW 503A, 505; (fall)
- Term 2 — SW 503B, 550; (spring)
- Term 3 — SW 500, 596A, 500/600 level elective; (fall)
- Term 4 — SW 560 or 561, 592, 596B; (spring)
- Term 5 — SW 660 or 661, 680A, 693; (fall)
- Term 6 — SW 594, 670, 680B; (spring)
- Term 7 — SW 698A, 500/600 level elective; (fall)
- Term 8 — SW 681 or 682, 699A (spring)

#### Plan C: (three years) (Special Sessions)

- Term 1 — SW 503A, 505, 500/600 level elective; (fall)
- Term 2 — SW 503B, 592; (spring)
- Term 3 — SW 693, 550; (summer)
- Term 4 — SW 596A, 500; (fall)
- Term 5 — SW 596B, 560 or 561, 594; (spring)
- Term 6 — SW 698A, 500/600 level elective; (summer)
- Term 7 — SW 680A, 660 or 661, 699A; (fall)
- Term 8 — SW 680B, 670, 681 or 682. (spring)

#### Plan D: (Summer Block Model)

- Term 1 (Summer Session) — SW 503A, 505;
- Term 2 — SW 550, 500/600 level elective (fall)
- Term 3 — SW 503B, 592; (spring)
- Term 4 (Summer Session) — SW 500, 560 or 561, 596C, 596D, 698B;
- Term 5 — SW 693, 500/600 level elective; (fall)
- Term 6 — SW 681 or 682; (spring)
- Term 7 (Summer Session) — SW 660 or 661, 670, 680C, 680D, 699B.

Plans C (3 year) and D (Summer Block), which are done through Special and Summer Session Programs, are more expensive due to higher tuition costs.

For other requirements of Master's degree programs, see the University's graduate degree requirements.

## Courses (S W)

### Lower Division

#### 220. Introduction to Social Welfare (3)

Prerequisite: Completion of GE Foundation requirements. This course offers students a general understanding of social welfare and social work. It provides an analysis of current functions and purposes of social welfare as an institution. The course examines historical and philosophical perspectives on social welfare within the context of cultural, economic, political, psychological and social forces. It also studies the consequences of national welfare in other countries. Introduced in this course are the knowledge, values, and skills that underpin social work practice. Traditional grading only.

#### 221. Introduction to Social Welfare Practicum (3)

Corequisite: SW 220. Consent of instructor. Lecture classes and visiting and observing approved social service agencies and allied activities. Open to social work majors only. Credit/No Credit grading only.

### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

#### 330. Human Behavior and Social Environment: Birth through Adolescence (3)

Prerequisites: Completion of GE Foundation requirements. This course is designed to provide a multi-dimensional view of human development and human diversity from conception through adolescence. A variety of theoretical perspectives will be studied. Emphasis will be on the contexts of development, stressing the ways in which the social environment provides expectations, resources and barriers to human development. The influences of family, peers, institutions and culture will be explored. The effects of socioeconomic status, minority status, sexism and racism will be addressed. The course will offer a comparative treatment of predominant ethnic minority cultures as they interact and interrelate with mainstream society. Implications for social work practice will be discussed. Traditional grading only.

#### 331. Human Behavior and Social Environment: Young Adulthood through Old Age (3)

Prerequisites: Completion of GE Foundation requirements. This course is designed to provide a multi-dimensional view of human diversity and development from late adolescence through death and dying. A variety of theoretical perspectives introduced in SW 330 will be expanded upon and applied to the latter end of the lifespan. Emphasis will be on the contexts of development, stressing the ways in which the social environment provides expectations, resources and barriers to human development. The influences of family, peers, institutions and culture will be explored. The effects of socioeconomic status, minority status, sexism and racism will be addressed. The course will offer a comparative treatment of predominant ethnic minority cultures as they interact and interrelate with mainstream society. Implications for social work practice will be discussed. Traditional grading only.

#### 340. Generalist Social Work Practice (3)

Prerequisites: SW 220, 221, 330, 350. Concurrent enrollment in SW 341. Social work practice as a helping process. Common elements for generalist social work practice with all size systems - knowledge, ethics, values, principles, professional relationships, interviewing and beginning assessment and intervention phases. The activities of the social worker in resolution of social, emotional and environmental problems. Open to social work majors only. Traditional grading only.

#### 341. Social Work Practicum (3)

Corequisite: SW 331, 340, and 351. Minimum of 8 hours weekly experience in approved social service or allied setting. Social work field practice including interviewing, assessment, and intervention activities. Credit/No Credit grading only. Open to social work majors only. Not open to students with credit in SW 340A.

#### 350. Social Policy: Law and Court Decisions (3)

Prerequisite: Completion of GE Foundation requirements. Social policy as defined in legislation and judicial decisions affecting the rights of individual families, minorities, and the general welfare. Traditional grading only.

#### 351. Social Policy: Formulation and Analysis (3)

Prerequisites: Completion of GE Foundation requirements. Policy formulation and analysis related to social welfare institutions and major social welfare policies and programs. Current values and issues in social welfare policy. Traditional grading only.

#### 406A. Applications of Social Work with Older Adults. (3)

Prerequisite: Consent of instructor and upper division status. This course provides an intergenerational service learning experience. In the classroom, the students learn about the bio-psycho-social dimensions of the aging process and basic theory and practice of group work with older adults. Students have the unique opportunity to apply this knowledge by co-facilitating weekly discussion/support groups for older adults in independent living communities. Traditional grading only.

#### 406B. Applications of Social Work with Older Adults. (3)

Prerequisite: Consent of instructor and upper division status. Different topics from 406A. This course can be a continuation of SW 406A or may be taken separately. Students who enroll in 406B only will be required to demonstrate knowledge of issues of concern to older adults and basic group work theory and skill. This course addresses advanced group work skills and increased focus on services for older adults. Students will co-facilitate weekly support groups for older adults in independent living communities. Traditional grading only.

#### 423. Child Abuse and Prevention (3)

Examination of child abuse as a social problem; its history and causal factors, including social change and changing family patterns. Intervention practices, including identification and investigation, social services and court intervention will be reviewed, especially the roles of health professionals, criminal justice and corrections personnel, social workers and educators. Finally policy implications will be examined with a focus on policy as intervention, as well as the role of concerned citizens and child advocates. Traditional grading only.

#### 440. Generalist Social Work Practice with Groups (3)

Prerequisites: SW 331, 340, 341. Concurrent enrollment in SW 495A. Adaptation of generalist frameworks of social work practice to generalist group approaches. Analysis of dynamics, theories, and principles underlying group practice. Programs, practice techniques, and roles involved with groups. Open to social work majors only. Traditional grading only.

#### 441. Generalist Social Work Practice with Communities and Institutions (3)

Prerequisites: SW 331, 340, 341, 351. Concurrent enrollment in 495B. Adaptation of generalist frameworks of social work practice to generalist approaches to community and institutional applications. Analysis of theories and principles underlying community practice. Adaptation of theories and activities to organizational contexts. Techniques and activities applicable to communities and neighborhoods. Open to social work majors only. Traditional grading only.

#### 442. Generalist Social Work Practice with Individuals and Families (3)

Prerequisites: SW 331, 340, 341. Concurrent enrollment in SW 495A. Adaptation of generalist frameworks of social work practice to generalist practice with individuals and families. Theories, techniques, activities, and role of social workers; differential approaches to study, assessment, intervention, and helping processes. Open to social work majors only. Traditional grading only.

#### 465. Research Methods in Social Work (3)

Prerequisites: SW 440 and 442 and one course in elementary statistics. Concurrent enrollment in SW 441, 465 and 495B. This course is an introduction to research methods in social work with an emphasis on the evaluation of social work interventions and agency programs. Open to social work majors only. Traditional grading only.

**469./569. Disability, Culture and Society: Issues and Intervention (3)**

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 469./569 and REC 469./569. Traditional grading only.

**480. Social Work with Families and Children (3)**

Contemporary social welfare programs designed to meet the physical, psychological, and social needs of families and children. Basic principles and methods of providing services, including the role of the social worker. Traditional grading only.

**481I. Immigration Issues in Social Work (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of major historical and contemporary issues regarding legal and illegal immigrant populations in California. Origins of the current immigrant flow and international and federal policies and mechanisms which facilitate immigrant entry into the U.S. Designed to assist social welfare services by examining the unique immigrant experience and focusing on select variables which present barriers to immigrant clients in accessing services. Traditional grading only.

**484I. International Perspectives in Social Welfare for the Elderly (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Critical analysis of aging problems in developed and developing countries, discussing demographic, socioeconomic and humanitarian issues from a social welfare perspective. Discussion of medical, financial and social service programs for the elderly to meet these needs in various countries. Traditional grading only.

**490. Special Topics in Social Work (1-4)**

Topics of special interest in social work for intensive study. Topics will be announced in the *Schedule of Classes* each semester. May be repeated with different topics. Open to social work majors only. Traditional grading only.

**491. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients and Around the Planet (3)**

This course is designed to help the social work student examine conflict and violence, their own and others' responses to conflict situations on the intrapersonal, interpersonal and community levels, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Same course as I/ST 491. Traditional grading only.

**495A. Field Experience in Social Work (7)**

Prerequisites: SW 330, 331, 340, 341, 350, 351. Concurrent enrollment in both of the following: SW 440 and 442. Evidence of satisfactory malpractice liability insurance coverage. Open to seniors accepted for fieldwork. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in social welfare agencies and allied settings. Two hours weekly of campus seminar and 16 hours minimum in agency placement. Credit/No Credit grading only. Open to Social Work majors only.

**495B. Field Experience in Social Work (7)**

Prerequisites: SW 442 and 495A. Concurrent enrollment in two of the following: SW 440, 441, and 465. Evidence of satisfactory malpractice liability insurance coverage. Open to seniors accepted for fieldwork. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in social welfare agencies and allied settings. Two hours weekly of campus seminar and 16 hours minimum (usually Tuesday and Thursday) in agency placement. Credit/No Credit grading only. Open to Social Work majors only.

**499. Directed Studies (1-3)**

Prerequisite: Consent of instructor. Independent study of special topics under supervision of a faculty member. Open to social work majors only. Traditional grading only.

**Graduate Division**

**500. Foundations for Generalist and Multicultural Social Work Practice (3)**

Prerequisite: Concurrent enrollment in SW 596A or 596C. This foundation practice course provides the basic knowledge and skills for generalist and multicultural practice with all size systems. The implementation of principles, ethics, values, professional relationships, interviewing/communication skills and the tasks of the initial, assessment and intervention phases, with attention to multicultural differences and expectations, is stressed. The roles of the social worker are addressed from the ecological systems perspective. Traditional grading only.

**503A. Human Behavior and Environment in Multicultural Perspectives: Focus on Prenatal through Adolescence (3)**

This course reviews key theoretical frameworks (including psychodynamic, bio-psycho-social, cognitive, systems, learning and role theories) for their clinical application to assessment, diagnosis and treatment of individuals and families. Focus is on the impact of poverty, group conflict and socio-cultural factors in prenatal to adolescent development. Traditional grading only.

**503B. Human Behavior and Environment in Multicultural Perspectives: Focus on Young Adulthood Through Old Age (3)**

Prerequisite: SW 503A. This course reviews key theoretical frameworks (including psychodynamic, bio-psycho-social, cognitive, systems, learning and role theories) for their clinical application to assessment, diagnosis and treatment of individuals and families. Focus is on the impact of poverty, group conflict and socio-cultural factors in development from young adulthood through old age. Traditional grading only.

**505. Oppressed Groups: Social Policy Analysis (3)**

This foundation course provides a framework for understanding and synthesizing a large and complex area of knowledge. The primary goal of the course is to develop an understanding of history, structure, and processes of the social welfare system in the United States, social work profession's perspectives on social and economic justices, and issues surrounding equity and fairness. The course will focus on policy practitioners' roles in problem analysis and policy analysis as they apply to oppressed groups. The student will recognize how societal values influence the formation, implementation, and evaluation of social welfare policies, programs, and services. The social, economic, and political context of policy making will be analyzed in order to understand the policy roots of economic and social injustices. Traditional grading only.

**540. Social Work Practice in Health Care (7)**

This course will cover direct practice issues in a variety of health care settings. Policy issues will also be discussed as they affect or dictate direct practice in various health care settings. Traditional grading only.

**550. Computers in Social Work (3)**

This course is designed to provide social work students with an overview of computer tools that can be extremely valuable throughout their careers. These tools include statistical software for data analysis and Internet Browser. The course will focus on social work applications of these programs. Successful completion of this course, as well as Social Work 594: Research Methods in Social Work Practice, will enable students to analyze data gathered for the master's thesis. Traditional grading only.

**560. Direct Intervention with Individuals and Families: Focus on Children, Youth and Families (3)**

Prerequisites: SW 500, 596A, or 596C. Concurrent enrollment in SW 596B or 596D. This course focuses primarily on practice related to personality functioning in, and interpersonal interaction with children, youth, family and adults. Emphasis is on in-depth implementation of the psychosocial study, assessment and intervention. Cognitive-behavioral, family systems, psychosocial and crisis intervention/ brief therapy approaches are examined in relation to the ecological systems framework with special emphasis on additional multicultural perspectives. Traditional grading only.

**561. Direct Intervention with Individuals and Families: Focus on Older Adults (3)**

Prerequisites: SW 500, 596A or 596C, and concurrent enrollment in SW 596B or 596D. Examination of varied practice strategies in depth. Behavioral, cognitive, humanistic, psychosocial and psychodynamic models viewed in relation to the ecological systems and multicultural perspectives. Focuses on assessment through termination phases of the helping process. Traditional grading only.

**562. Social Work and AIDS (3)**

This seminar course covers all aspects of AIDS (Acquired Immune Deficiency Syndrome) and HIV(Human Immunodeficiency Virus) relevant to social work practice. The range of topics to be covered is as follows: child welfare, policy, psychosocial issues, counseling, alcohol and drug use, women, people of color, ethical issues, prevention, mental health, elderly, developmental disability, etc. By course end, students should have a solid working knowledge of the issues and concerns related to persons affected by AIDS and HIV. Traditional grading only.

**569./469. Disability, Culture and Society: Issues and Intervention (3)**

Prerequisites: Senior or graduate status. This is a course using interdisciplinary work about disability as a social construct. Utilizing an oppressed group model, the course will examine society's policies and practices to understand the experience of disability. Includes historical and contemporary perspectives as well as future issues. Social and clinical intervention methods, and program and information resources are covered. Same course as GERN 569./469 and REC 569./469. Traditional grading only.

**590. Special Topics (3)**

Content may vary from semester to semester. May be repeated under different course topics. Approval of instructor needed. Topics will be announced in the *Schedule of Classes* each semester. Course may be repeated for a maximum of 6 units with different topics for majors and 9 units for non-majors. Traditional grading only.

**592. Community Projects I (3)**

Community Projects is a two-semester course sequence that focuses on the acquisition and application of macro practice skills to community problems. The purpose of Community Projects I is to provide students with awareness of the values, concepts, frameworks, skills and techniques required to promote social action and planned change in community and other target systems. The course substantive content includes but is not limited to an exploration of macro practice history and methods, the relationship between professional values and ethical dimensions of community practice, socio-political determinants of community problems and preferred interventions, macro practice theory and models. Special emphasis will be devoted to select macro-practice intervention modalities and their implications for culturally diverse, impoverished communities. Traditional grading only.

**594. Research Methods in Social Work Practice (3)**

An introduction to social work research methods, including research design for both qualitative and quantitative studies. The emphases are on building knowledge and skills for carrying out independent, multiculturally focused research in social work and on the ability to evaluate research findings critically. Traditional grading only.

**596A. Field Instruction I (3)**

Prerequisite: Concurrent enrollment in SW 500. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in a community social agency based upon students' learning needs, interest and area of concentration. Focus on development of foundation of generic interventive modalities in individuals, families, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**596B. Field Instruction II (3)**

Prerequisite: SW 500, 596A, or 596C, and concurrent enrollment in SW 560 or 561. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continuation of supervised practice experience in a community social agency on an advanced level of practice with individuals, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**596C. Field Instruction I (3)**

Prerequisite: Concurrent enrollment in SW 500. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised practice experience in a community social agency based upon students' learning needs, interest and area of concentration. Focus on development of foundation of generic interventive modalities in individuals, families, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**596D. Field Instruction II (3)**

Prerequisite: SW 500, 596A, or 596C, and concurrent enrollment in SW 560 or 561. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continuation of supervised practice experience in a community social agency on an advanced level of practice with individuals, groups and communities with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**599. Independent Study (1-3)**

Prerequisites: Consent of Department and instructor. Independent study of special topics under supervision of a faculty member. Course may be repeated for a maximum of 6 units. Traditional grading only.

**642. Mental Health and the Older Adult: A Multi-Cultural Perspective (3)**

The course will focus on a broad-based selection of demographic, psychological and social issues concerned with the older person and their families. Topics will be described and analyzed from preventive, clinical and cross-cultural perspectives. Traditional grading only.

**643. Social Work Practice within Child Welfare Services (3)**

Prerequisite: SW 503. This course will assist the student in gaining an understanding of the broad field of social work practice commonly known as child welfare services. The content of the course focuses on needs of children for care and protection by society, and programs and services provided by the social welfare and social services delivery systems that are available and needed to insure their well being. Traditional grading only.

**660. Direct Intervention with Groups and Families: Focus on Children, Youth and Families (3)**

Prerequisites: SW 500, SW 560, SW 596A or SW 596C, SW 596B or SW 596D, and concurrent enrollment in SW 680A or SW 680C. Teaching of advanced specialized skills needed to work with children, youth, adults, families and groups. Focuses on clinical work with groups and families with special emphasis on eco-system and multi-cultural perspectives. Traditional grading only.

**661. Direct Intervention with Groups and Families: Focus on Older Adults (3)**

Prerequisites: SW 500, SW 561, SW 596A or SW 596C, SW 596B or SW 596D, and concurrent enrollment in SW 680A or SW 680C. Teaching of advanced specialized skills needed to work with adults, families and groups, emphasizing work with the older adults and their families. Focuses on clinical work with groups and families with special emphasis on eco-system and multicultural perspectives. Traditional grading only.

**662. Legal Issues in Social Work Practice (3)**

Examination of legal aspects concerning children, the family, and the aged, considering such issues as abortion, illegitimacy, right to treatment, mental health commitment procedures, rights of the elderly, children's rights, marriage, and divorce. Legal research methodology and classification of legal resources, principles of legal reasoning, understanding of federal and state court systems. Familiarity with legal assistance programs. Traditional grading only.

**663. Assessment and Treatment of Alcoholism and Substance Abuse (3)**

Social work practice with individual alcoholics, their family systems, and their community network of collaterals. Awareness of prevalence of alcoholism and drug abuse and significance for clinical social work practice. Dynamics and treatment of disease. Special relationship issues, problems of cross-addictions and polydrug use, resource networks supporting substance abuse services, Fetal Alcohol Syndrome, and problems of special groups: women, minorities, youth and elderly. Traditional grading only.

**665. School Social Work (3)**

Social work and the public school as a process in school-community-pupil relations. Attention to the school as a social institution and its organization. Social work services in schools as a specialized field of social work practice and its conceptual framework; models of practice; social work roles; and target groups of children to be served. Examination of major socio-legal policy issues. Traditional grading only.

**666. Human Sexuality and Social Work (3)**

Introduces social work majors to discipline of human sexual behavior. Surveys a range of sexually related issues encountered in the therapeutic relationships, as part of administrative duties, and at the social policy level. Presents knowledge base and requires student examination of own attitudes regarding various aspects of human sexuality. Traditional grading only.

**667. Sex Roles and Gender Discrimination: Women's Issues in Social Work (3)**

This course will examine historical and contemporary causes of gender discrimination against women in order to illuminate the problems faced by women at risk in American society. The special focus of the course will be women at risk for mental health problems, violence and poverty along with other critical issues affecting women, such as substance abuse and eating disorders. Traditional grading only.

**668. Social Work in Neighborhoods (3)**

Designed as an introduction to the concept of neighborhoods and prepares students to assume social work roles and functions in neighborhood settings. Emphasizes the necessity of understanding the culture, physical and social organization, and power relationships of modalities: planning and service delivery, development, and organization. Traditional grading only.

**670. Social Work Administration (3)**

Prerequisites: SW 500; 560 or 561; 596A or C, 569B or D, 660 or 661, and concurrent enrollment in 680B or D. This course addresses the basic processes of management in public and voluntary social welfare and human services agencies. It examines the foundation for effective organizational leadership as well as problem solving, using theories of organizational behavior and management. The course offers frameworks for governance, planning, monitoring, information management, human resources, fiscal responsibility, quality assurance, and community relations. Attention is given to the external forces that affect agencies, including interorganizational relationships. Integrated into the course is content on human diversity, and how multi-culturalism and gender issues influence the internal structure of agencies, the management of their workforce, and their provision of services. This course should be useful for students interested and/or involved in organizational change, and agency and program management. Traditional grading only.

**672. Program Evaluation in Social Services (3)**

Introduction to prevailing types of problem evaluation and preparation for continual evaluation checks or self evaluations as conducted within service agencies. Conceptualization of service delivery system. Program planning evaluation, program monitoring, impact evaluation, and cost-benefit and cost-effectiveness analysis. Traditional grading only.

**673. Supervision/Staff Development/Consultation (3)**

Prerequisites: SW 500; 560 or 561; 596A or C, 596B or D, 660 or 661, and concurrent enrollment in 680 B or D. This course reviews the philosophy, objectives, principles and methods of social work supervision, staff development, and consultation. Consideration is given to the similarities and differences in the roles, knowledge, and skills required, emphasizing the teaching-learning-evaluating components. Issues arising from organizational settings, changing legislation, and program provisions and professional standards are identified and examined. Traditional grading only.

**674. Clinical Diagnosis and Therapeutic Communication (3)**

This course is designed to review the major theoretical approaches to social work treatment. It is designed to teach specific clinical interventions from various theoretical perspectives. The student will be trained to skillfully and therapeutically intervene with a variety of DSM-IV diagnostic categories. Psychotherapy outcome research will be surveyed with emphasis upon client, therapist, and treatment factors. Traditional grading only.

**676. Family Centered Social Work Practice: An Introduction to Theory and Techniques of Family Therapy (3)**

This course is an advanced specialist overview of evolving viewpoints, perspectives, values, intervention techniques and goals of family therapy. The family is viewed as the unit of attention and target of intervention. The course will emphasize the development and enhancement of knowledge, skills, theories and values specific to family therapy and social work practice. Traditional grading only.

**677. Social Work Practice in Mental Health (3)**

This course will review the changing roles of social work in mental health settings, the influence of new psychosocial and psychiatric theories on the care and treatment of mentally disordered clients. Focus on social, economic and cultural factors as they affect social work roles in mental health policies and programs and clinical practice. Traditional grading only.

**680A. Field Instruction III (3)**

Prerequisites: SW 500, 560 or 561, 596A or C, 596B or D, and concurrent enrollment in SW 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised social work practice in a community social agency with focus on advanced direct practice skills and administrative program development areas with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**680B. Field Instruction IV (3)**

Prerequisites: SW 500, 560 or 561, 596A or C, 596B or D, 680A, 660 or 661 and concurrent enrollment in SW 670. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continued supervised social work practice in a community social agency at an advanced level in both direct practice and administration within the student's area of concentration. Preparation for entering professional employment with emphasis on cross-cultural practice. Two hours weekly field seminar and 16 hours in agency placement. Credit/No Credit grading only.

**680C. Field Instruction III (3)**

Prerequisites: SW 500, 560 or 561, 596A or 596C, 596B or 596D, and concurrent enrollment in SW 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the first semester of a two-semester class in which the student completes a year long internship together with a seminar. Supervised social work practice in a community social agency with focus on an advanced direct practice skills and administrative program development areas with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**680D. Field Instruction IV (3)**

Prerequisites: SW 500, 560 or 561, 596A or 596C, 596B or 596D, 680C, 660 or 661. Evidence of satisfactory malpractice liability insurance coverage. This class is the second semester of a two-semester class in which the student completes a year long internship together with a seminar. Continued supervised social work practice in a community social agency at an advanced level in both direct practice and administration within the student's area of concentration. Preparation for entering professional employment with emphasis on cross-cultural practice. Two hours weekly field seminar and 36 hours in agency placement. Credit/No Credit grading only.

**681. Advanced Policy and Political Action: Children, Youth and Families (3)**

Prerequisite: SW 505. This course is designed to provide students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of families and children in contemporary American society. Traditional grading only.

**682. Advanced Policy Seminar: Older Adults and Families (3)**

This course is designed to provide students with an advanced understanding of key issues, concepts, and skills associated with policy analysis, the development of policy alternatives, and political action on behalf of older adults and their families in contemporary American society. Traditional grading only.

**683. Brief Treatment (3)**

Building on content in SW 500, SW 560-561, and other practice courses, this course covers the methodologies used in the basic forms of brief and/or time limited psychotherapy. In recent years brief interventions have become even more a part of the repertoire of the therapeutic community, primarily due to two factors: the empirical research which shows that brief treatment is effective in reducing or eliminating client problems in living and, secondly, insurance policies, managed healthcare and mental health programs will only pay for 20 or so sessions of mental health treatment per year. This course covers the major forms time-limited clinical treatment. By course end, students will have a working knowledge of the methods used in the models, the ethnic, gender and other-sensitivity of the forms of treatment, and the empirical research that supports their use. Traditional grading only.

**690. Special Topics in Graduate Social Work (3)**

Prerequisites: Consent of Department. Topics of special interest in social work selected for intensive study. Topics will be announced in the *Schedule of Classes* each semester. Traditional grading only. Course may be repeated for a maximum of 6 units with different topics.

**691. Non-Violent Conflict Resolution: In Your Life, On the Job, With Your Clients, and Around the Planet (3)**

This course is designed to help the social work students examine conflict and violence, their own and others' responses to conflict situations on the intrapersonal, interpersonal and community levels, and to learn to utilize a set of tools to deal with conflict in a productive, non-violent manner. Although the basic course material is similar for the undergraduate and graduate level, the readings, assignments, and expectations differ for these distinct student populations. Traditional grading only.

**693. Community Projects II (3)**

Prerequisite: SW 592. Community Projects II is designed to integrate student's knowledge of cross-cultural practice, human behavior and research in the context of identifying solutions to social problems. This "hands on" course builds on the analysis of the neighborhood, community or organizational problem that the student task groups completed in Community Projects I. Utilizing planning, program development and program implementation skills/techniques; students are required to develop, implement and evaluate the impact of an intervention which they designed to control, alleviate and/or eradicate the causes or consequences of the problem for the affected population. Traditional grading only.

**698A. MSW Thesis I (3)**

Prerequisites: 30 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy. This is the first semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Traditional grading only.

**698B. MSW Thesis I (3)**

Prerequisites: 30 units in the MSW program completed at a minimum GPA of 3.0 and Advancement to Candidacy. This is the first semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Traditional grading only.

**699A. MSW Thesis II (3)**

Prerequisites: 33 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy, and successful completion of SW 698A or SW 698B. This is the second semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Final comprehensive examination not required. Traditional grading only.

**699B. MSW Thesis II (3)**

Prerequisites: 33 units in the MSW program completed at a minimum GPA of 3.0, Advancement to Candidacy, and successful completion of SW 698A or SW 698B. This is the second semester of a two-semester tutorial class in which the student completes an individual research project which meets University thesis requirements. Final comprehensive examination not required. Traditional grading only.

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

The Department of Teacher Education offers professional education course work that leads to the (a) Multiple Subject Credential and the (b) Single Subject Credential. (Please consult the "Single Subject Teacher Education" section of the University Catalog for information on admission criteria and program requirements for the Single Subject Credential program). The department also offers a Master of Arts in Education with options in either Elementary or Secondary Education. Advanced credentials are offered including the Early Childhood Specialist Credential and the Reading and Language Arts Specialist Credential. All College of Education courses including graduate level (500/600) are assumed to be traditional grading only unless stated otherwise.

### Multiple Subject Credential Program (code 200)

A teacher with a Multiple Subject Credential is authorized to teach grades pre-K through 12 in self-contained classrooms. The Multiple Subject Credential Program (MSCP) at CSULB prepares students to be credentialed in the State of California for elementary and middle school instruction. The program allows for daytime field experiences in elementary classrooms and includes methodology courses and student teaching. Courses for the MSCP can be completed in one summer and two semesters or three semesters, depending upon prerequisites (based on full-time attendance unit loads – see the current copy of the *Schedule of Classes* for full-time unit load requirements). Part-time attendance is allowed, but program requirements must be met within seven years from the date of admission to the program.

Bilingual Cross-cultural Language and Academic Development (BCLAD) Emphasis Multiple Subject Credential Program may be added as an emphasis to any credential. Spanish emphasis is offered on campus. Asian Language emphasis in Vietnamese, Cambodian (Khmer), Korean and Chinese are offered through a consortium of CSU campuses in the Los Angeles area. See Asian BCLAD faculty for requirements. BCLAD in Mexico provides a Multiple Subject Credential with Spanish BCLAD emphasis during a year in Querétaro, México. CSULB and seven other CSU campuses statewide offer this credential in conjunction with the Office of International Programs. A K-12 BCLAD certificate for credentialed teachers is now available pending approval. See Teacher Education BCLAD faculty or the Center for International Education for requirements. BCLAD may also be added to CLAD through State Examinations 4, 5 and 6.

To add the international BCLAD certificate the following courses are required: EDEL/EDSE 541, 542 and SPAN 322, 445.

Six Multiple Subject Credential Program (MSCP) tracks are offered:

- Basic Multiple Subject Credential Program
- Cross-cultural Language and Academic Development (CLAD) Emphasis Multiple Subject Credential Program

- Bilingual Cross-cultural Language and Academic Development (BCLAD) Emphasis Multiple Subject Credential Program. BCLAD may be added as an emphasis to any credential. Spanish emphasis is offered on campus. Asian Language emphases in Vietnamese, Cambodian (Khmer), Korean and Chinese are offered through a consortium of CSU campuses in the Los Angeles area. See Asian BCLAD faculty for requirements. BCLAD in Mexico provides a Multiple Subject Credential with Spanish BCLAD emphasis during a year in Querétaro, Mexico. CSULB and six other CSU campuses statewide offer this credential in conjunction with the Office of International programs. See teacher Education BCLAD faculty or the Center for International Education for requirements. BCLAD may also be added to CLAD through State Examinations 4, 5, and 6.
- Multiple Subject Teaching Internship Program
- Middle Level (CLAD) Emphasis Multiple Subject Credential Program
- Integrated Teacher Education Program (ITEP)

### Integrated Teacher Education Program (ITEP)

See the Liberal Studies section of this catalog.

### Preliminary Multiple Subject Credential

Students completing any of the six tracks of the MSCP and demonstrating effective use of technology at a "basic" level (level 1) will be recommended for the Preliminary Multiple Subject Credential, which is issued for a five-year period. To renew this credential, the holder must meet requirements for the Professional Clear Credential.

Note: For demonstrating "basic" level (level 1) technology, see your credential advisor or the multiple subject office for courses or options for completing this requirement.

### Professional Clear Credential

Candidates for the Professional Clear Credential must meet an approved fifth-year program, and be recommended by an institution which offers a multiple subject credential. A minimum of thirty post-baccalaureate units must be taken. The only exception to the post-baccalaureate requirement is for second semester undergraduate seniors who successfully petition in advance of obtaining the baccalaureate degree to have a maximum of twelve units taken in the senior year count toward post-baccalaureate studies.

The following three courses are required for the Professional Clear Multiple Subject Credential: (a) H/SC 411A, (b) EDP 350, and (c) ETEC 523. These courses may be taken within the five years after receiving the Preliminary Multiple Subject Credential, however, HSC 411A or ED P 350 may be taken as an undergraduate student. To take ETEC 523 as an undergraduate, a student must have prior approval from the program advisor. If they are taken at the undergraduate level, they will not count toward the thirty unit post-baccalaureate requirement for the Professional Clear Multiple Subject Credential. For further information, please contact the Credential Processing Center at (562) 985-4109.

*The following sections apply to all MSCP tracks:*

### Admission

Before beginning the MSCP, students should be admitted to the University. Apply for admission if you are (a) a graduating senior at CSULB, (b) transferring from another institution, or (c) returning to the University after an absence of one or more semesters. Admission to the University, however, does not constitute admission or acceptance to the MSCP. A separate application must be submitted to the MSCP Admissions Office in order to be considered for acceptance into the MSCP.

### Multiple Subject Credential Program Structure

The MSCP is separated into three successive phases. Students may not advance to the next phase before completing the previous one.

- Phase One - Students complete program prerequisite(s) and submit applications to the MSCP Admissions Office. Students must be accepted to one of the MSCP tracks before advancing to Phase Two.
- Phase Two - Students complete core requirements and subject matter competency.
- Phase Three - Students complete student teaching.

### Subject Matter Competency

All students admitted to the MSCP must meet Subject Matter Competency before beginning Student Teaching. At CSULB, Subject Matter Competency can be accomplished in one of two ways: (a) pass the Multiple Subject Assessment for Teachers (MSAT) exam, or (b) submit verification of subject matter competency from an approved subject matter preparation program. For more information about the Subject Matter Competency requirements, please contact the Credential Processing Center at (562) 985-4109.

### Student Teaching

The culminating field experience (EDEL 482, 482B, 482C or 572A and 572B) is the final phase of the MSCP. A separate application for this phase is required, and must be submitted in person to the Multiple Subject Field Programs Office located in ED1 -50 and 51. Applications for Student Teaching must be submitted one semester prior to the first assignment. Application packets are distributed at the Student Teaching Application meetings. Student Teaching Application meetings are held during the first two weeks of each semester. Dates are announced in methods courses and are posted throughout the ED-1 and ED-2 buildings well in advance of the actual meeting dates. Deadlines for submitting applications to student teach are:

Summer/Fall: March 1

Spring: October 1

### Student Teaching Tracks

Student Teaching is a full-day experience with one assignment in a primary classroom (grades K-3) and one assignment in an intermediate classroom (grades 4-6), with at least one grade level separation (e.g., 2,4; 3,5). All students must have one placement in a K-3 classroom where they can gain experience with early literacy instruction utilizing a balanced and comprehensive approach to reading. One student teaching assignment must be in a public school. It is possible to

complete student teaching during one regular semester or two consecutive summers, one entire summer (limited availability), or one summer and part of one regular semester.

It is possible for student teaching to be completed while employed as an emergency permit teacher within the CSULB service area. See the Field Programs Office for details.

### Student Teaching Admission Requirements

1. Admission to one of the MSCP tracks;
2. Passage of the California Basic Educational Skills Test (CBEST);
3. Have completed program prerequisites and core requirements in Phases 1 and 2 of one of the MSCP tracks. Students must pass all five methods courses with no grade lower than a "C" and an overall GPA of 3.0 or higher in the program;
4. Passage of the Multiple Subject Assessment for Teachers (MSAT) is required of all non-Liberal Studies majors. This exam may be waived by submitting verification of successful completion of an approved subject matter preparation program and all subject matter competency requirements must be completed prior to student teaching;
5. A tuberculosis skin test or chest x-ray valid through completion of student teaching;
6. Have received a grade of "C" or higher in EDEL 420 if student wishes to student teach at the kindergarten level;
7. Have submitted a certificate of clearance or proof of filing with Sacramento;
8. Have applied for a Grad Check for the Liberal Studies Certificate (non-Liberal Studies majors only). Must meet with the Liberal Studies Department prior to this application.
9. Have submitted a student teaching application, and an internship application if applying for an internship.

### Multiple Subject Credential Program Tracks – Program Requirements

All candidates are required to comply with all program policies and procedures detailed in the MSCP Handbook which is available for purchase at the Campus Copy Center (562) 985-5050.

#### Admission Requirements

1. Attend a MSCP group advisement meeting either before or while enrolled in EDEL 380.  
Students are recommended to obtain program brochures for the specific program tracks which contain a schedule of group advisement meetings.
2. Complete all prerequisites for the specific MSCP track.
3. Submit a negative tuberculosis skin test or chest X-ray taken within the last three years.
4. Submit one photocopy of all university and/or college transcripts.
5. Submit proof of having taken the California Basic Educational Skills Test (CBEST)
6. Submit three letters of recommendation.
7. Submit a typed personal statement describing why you have chosen teaching as a career, what you hope to accomplish as a teacher, and how you view the role of the teacher.
8. Attend an oral interview with a department faculty advisor.

9. Submit the MSCP application packet along with documents verifying that the above prerequisites will be completed prior to the semester methods courses will be taken, as follows:  
Summer/Fall: January 1 – March 1, June 15-July 15 (see note)  
Winter/Spring: August 1 – October 1

#### THE ABOVE DEADLINES ARE STRICTLY ENFORCED

NOTE: Students enrolled in one or more prerequisite courses in summer session will be allowed to submit MSCP application packets June 15- July 15.

Students who complete prerequisites by the end of the summer may be admitted and begin taking methods immediately in the fall semester if all other admissions requirements are met. Students must receive a grade of "B" or higher in EDEL 380.

### Track One – Basic Multiple Subject Credential Program

A teacher with a Multiple Subject Credential is authorized to teach pre-K through 12 in multiple subject self-contained classrooms. Students should be aware that credentials without CLAD will not be issued after July 1, 2003, and are advised to take a CLAD Emphasis track.

Prerequisite: EDEL 380 (3 units)

Core: EDEL 442, 452, 462, 472, 475 (15 units)

Student Teaching: EDEL 482 (16 units)

### Track Two – Cross-cultural Language and Academic Development (CLAD) Emphasis

The CLAD emphasis credential is highly recommended by our partnering school districts to meet the increasingly diverse student population.

Prerequisites: EDEL 380 with a grade of "B" or better; EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431

Core: EDEL 442, 452, 462, 472, 475. One of the following (EDEL 442, 452, 462, 472, or 475) may be taken concurrently during the semester of student teaching (15 units).

Student Teaching: EDEL 482 (16 units)

### Track Three – Bilingual Cross-cultural Language and Academic Development (BCLAD) Emphasis

Bilingual students (English and Spanish, Cambodian [Khmer], Vietnamese, Korean, or Chinese [Mandarin or Cantonese]) in this track must be admitted to the Bilingual Cross-cultural Language and Academic Development (BCLAD) Emphasis Multiple Subject Credential Program. Ability to converse fluently in a Language of Emphasis is required.

Undergraduates should complete the liberal Studies baccalaureate program with an appropriate concentration. Spanish BCLAD students should take the Bilingual Spanish-English concentration; Asian BCLAD students should take the Language Other than English or U.S. Multicultural Studies concentration.

All candidates must fulfill both CLAD and BCLAD program requirements.

Prerequisites: EDEL 380 with a grade of "B" or better; EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431

Core: EDP/LING 485 or EDEL/EDP/EDSE 439; EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431; EDEL 442, 452B, 462, 472, 475 (24 units)

Student Teaching: EDEL 482B or 482C (for students on emergency bilingual permit, 16 units). Students must be supervised in both primary language and English language development settings.

BCLAD students in Academy for Teacher Preparation (ATP) pathways: EDP/LING 485 or EDEL/EDP/EDSE 439 (3 units); EDEL 452B (1 unit); EDEL 473 (1 unit); and supervised practicum EDEL572 (12 units) in both primary language and English language development settings.

Also required are BCLAD Examinations #5 and #6. For Spanish BCLAD, Examination #5 may be waived by Latino studies coursework (3 units, either CHLS 340 or 350). For Asian BCLAD, see coordinator for appropriate course listing. Liberal Studies Bilingual Spanish-English Concentration courses are recommended preparation for these requirements. Examination #6 fulfills the CLAD foreign language requirement.

The BCLAD program offers a limited number of special bilingual sections of EDEL methods courses each semester; these sections are marked FA in the footnote. These sections are offered in the evening and contain demonstrations and assignments in Spanish and English. These sections provide enrichment opportunities for bilingual candidates to practice primary language pedagogy. BCLAD students may take any section of EDEL 442, 462, 472, and 475. The culture component for the BCLAD is fulfilled in the Liberal Studies Bilingual concentration. Students completing a non-Liberal Studies bachelor's degree or those with a degree obtained from another university must complete the equivalent of the culture/history (CHLS 340 or 350 or BCLAD Examination #5). All BCLAD candidates must pass BCLAD Examination #6 (speaking, listening, reading and writing) in the language of emphasis prior to completion of the program.

### Track Four – Multiple Subject Teaching Internship CLAD/BCLAD

Student Teaching/Internship: EDEL572A-B (16 units) Students must be supervised in both primary language and English language development settings.

Prerequisites: EDEL 380 with a grade of "B" or better; EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431

Core: EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431, EDEL 442, 452, 462, 472, 475 (21 units)

Student Teaching/Internship: EDEL 572A-B (16 units)

Additional requirements for BCLAD: EDEL 452B (1 unit); EDEL 473 (1 unit); EDP/LING 485 or EDEL/EDP/EDSE 439; and BCLAD Examinations #5 and #6. Examination #5 may be waived by coursework (3 units). Examination #6 fulfills the CLAD foreign language requirement.

### Track Five – Middle Level Emphasis

The Multiple Subject Credential with CLAD and Middle Level Emphases is a state-approved professional program to prepare new teachers for careers in the middle school. A teacher with a Middle Level Emphasis certification is authorized to teach in any classroom or organizational configuration in grades 6-8. In addition, holders of the MSCP/CLAD Middle Level credential are authorized to teach multiple-subject matter in grades twelve and below. This credential is intended to provide specialized preparation for teaching linguistically diverse middle level students, including those acquiring English as a second (or multiple) language.

The Middle Level program requires field experience in middle schools and includes specialized methodology courses and student teaching. The Middle Level specific courses can be completed in two semesters and are offered to a cohort of students who progress through the EDMS courses as a group. Many of the courses are held at a local middle school site.

Prerequisites: EDEL 380 with a grade of "B" or better; EDEL/LING 429 or EDP 428 or FCS 409; EDEL/EDP/LING 431.

Core: EDEL 442, 452; EDMS 455, 456A, 456B Note: EDMS 455 may be taken during the semester of student teaching. (15 units)

Student Teaching: EDMS 483 A-B-C (12 units)

### Track Six – Integrated Teacher Education Program

For Integrated Teacher Education Program (ITEP) requirements, please see the Liberal Studies section of this catalog.

### Early Childhood Specialist Credential (code 430)

This advanced credential program is integrated with various field experiences. Course requirements for the master's degree, Elementary Education Option with a specialization in Early Childhood Education closely coincide with those of this advanced credential program. All courses in this program are applicable toward Child Development Permits.

#### Admission Requirements

1. Admission to the University;
2. A minimum GPA of 2.85 on the last 60 semester units of course work;
3. Pass the Writing Proficiency Examination (WPE) or CBEST;
4. Possess a valid basic teaching credential or be in the process of completing the Multiple Subject Credential Program;
5. Provide three letters of recommendation;
6. Verification of successful experiences with young children;
7. Submit a personal statement of teaching philosophy;
8. Complete a personal interview with the Director of the Graduate Program in ECE;
9. Complete a self-assessment of competency in Early Childhood Education;
10. File an approved individual program plan developed with an advisor.

#### Prerequisite

ED P 301.

#### Requirements

1. All of the following courses (37 units): EDEL 420, 421, 422, 452 or 462, EDEL/EDSE 500A or 501, EDEL 522, 523, EDEL/EDSE 530, EDEL 621, 682 (4 units), and 526 or EDP 604;
2. Verification of two years of successful teaching experience, including a minimum of 90 hours in each of the following areas, is required of all candidates prior to completing the Specialist Credential program - a. preschool; b. kindergarten or the primary grades (1-3); c. multicultural settings.

## Reading Certificate (code 410)

The Reading Certificate provides classroom teachers with advanced preparation in reading/language arts assessment and instruction, as well as theory and research in teaching reading, grades K-12. Some candidates may wish to complete the 12-unit Reading Certificate program as a terminal objective, while others may wish to complete it as a prerequisite to the Reading/Language Arts Specialist Credential Program.

Before completion of requirements for the Reading Certificate, the candidate must provide verification of three years of full-time teaching experience in any grades preschool through adult, exclusive of student teaching, internship teaching, or teaching while holding an emergency credential or permit.

### Admission Requirements

1. Bachelors degree and Multiple Subject or Single Subject Credential, or equivalent; CLAD certification strongly recommended;
2. ENGL 481 or ENGL 482, or current equivalent course in children's or adolescent literature;
3. a minimum grade point average of 3.0 in the last 60 units of university course work;
4. three letters of recommendation, at least one from a supervisor;
5. an autobiography and statement of intent;
6. interview with program faculty;
7. for secondary teachers, EDEL 452 or equivalent is strongly recommended.

### Requirements

EDEL/EDSE 540, 551, 558, 559.

## Reading and Language Arts Specialist Credential (coded 410)

The Reading/Language Arts Specialist Credential prepares teachers to become school and district literacy leaders and supervisors. The reading/language specialist's role is multifaceted, including diagnostician, teacher of intervention for children or youth with delayed literacy development, collaborator with other school and district specialists, provider of professional development for classroom teachers, and reading program coordinator or facilitator.

### Admission Requirements

Successful completion of the Reading Certificate program, or a valid Reading Certificate, or equivalent.

### Requirements

EDEL/EDSE 544, 554, 556, 651; advisor-approved elective (3 units)

Note: All courses required for the Reading/Language Arts Specialist Credential can be applied to the MA in Elementary or Secondary Education: Specialization in Reading. See Catalog program description and the faculty advisor in the Department of Teacher Education for more information.

## Master of Arts in Education

### Option in Elementary Education (code 5-3110)

#### Requirements

A minimum of 30 units (33 units for Reading) is required with at least 21 units in the 500/600 level series at this University. In consultation with the Advisor of Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education or designated faculty, students will select a comprehensive examination track, thesis track, or project track.

#### Curriculum and Instruction Specialization (30-36 units)

Prerequisite:

A valid multiple subject teaching credential, or by permission.

Core Requirements:

1. The following (3 units): EDP 400
2. The following (3 units): EDP 520 (comprehensive exam track) or EDP 696 (thesis track)
3. The following (3 units): EDEL 530
4. One of the following chosen in consultation with an advisor (3-6 units): EDEL 695 and Written Comprehensive Examination (3 units) or EDEL 698 Thesis (6 units)

Specialization Requirements:

1. One of the following (3 units): EDEL 500A or 501
2. All of the following (9 units): EDEL 540, 560, 570
3. The following (3 units): EDEL 625
4. Advisor-approved elective (3 units)

#### Early Childhood Education Specialization (30-36 units)

Prerequisites

EDEL 301, or HDEV 307I, or PSY 361 or equivalent, EDEL 420, and EDEL 482 or one year of documented and approved teaching experience.

Core Requirements

1. One of the following (3-6 units): EDP 400; or EDP 419 and EDP 420
2. One of the following (3 units): EDP 500 (comprehensive exam track) or EDP 696 (thesis track)
3. The following (3 units): EDEL 530
4. One of the following chosen in consultation with an advisor (3-6 units): EDEL 695 and Written Comprehensive Examination (3 units) or EDEL 698 Thesis (6 units)

Specialization Requirements

1. All of the following (12 units): EDEL 421, 422, 522, 621
2. Two of the following (6 units): EDEL 523, 526, 622, or EDP 604

#### Reading and Language Arts Specialization (33-36 units)

Prerequisites

A valid multiple subject or elementary teaching credential; CLAD certification is strongly recommended. ENGL 481 or ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 3 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay.

## Program Requirements

1. All of the following (27 units): EDEL 540, 544, 551, 554, 556, 558, 559, 651, and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDEL 695 and Written Comprehensive Examination (3 units) or EDEL 698 Thesis (6 units)

### Middle Level Education Specialization (30-33 units)

#### Prerequisites

A valid multiple or single subject or other valid California teaching credential; one year of middle level teaching experience or middle level student teaching; and one of the following: EDP 302, PSY 361 or HDEV 307I.

#### Core Requirements (12 units)

1. EDP 400, EDEL 530, and EDP 520 (comprehensive exam track), or EDP /LING 595 (project track)
2. One of the following in consultation with the program advisor (3-6 units): EDEL 695 and Written Comprehensive Examination (3 units) or EDMS 695 Project (3-6 units)

#### Specialization Requirements (18 units)

1. Two of the following (6 units): EDMS \*455, \*456A, or \*456B
2. All of the following (9 units): EDMS 582, 584, 693
3. One of the following (3 units): EDEL 540, 560, 570

#### Clear Conditional Admission

1. Completion of program prerequisites.
2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to take the Writing Proficiency Examination (WPE) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

#### Please Note:

Prior to admission to the master's program, students may take up to, but no more than, 9 units of coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education Specialization no later than completing 6 units to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

## Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Elementary Master's Program Option;
4. A minimum 3.0 overall grade-point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Satisfactory completion of the Writing Proficiency Examination (WPE);
6. Personal-Professional Attributes  
Applicants are required to submit a typed essay of not less than three pages, double spaced. The essay shall address the following; how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program advisor;
7. An approved plan of study completed with the Curriculum and Instruction, Early Childhood Education, Reading and Language Arts, or Middle Level Education graduate advisor be on file in the Graduate Office;
8. A student must be enrolled in regular session or the in summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

## Option in Secondary Education (code 5-3140)

### Requirements

A minimum of 30 units for Curriculum and Instruction Secondary Specialization and a minimum of 33 units for Reading and Language Arts Specialization is required with at least 21 units in the 500/600 level series at this University. In consultation with the advisor of Curriculum and Instruction or Reading and Language Arts or designated faculty, students will select a comprehensive exam track or thesis track.

### Curriculum and Instruction Specialization (30-33 units)

#### Prerequisite

A valid secondary education or single subject teaching credential, or by permission.

#### Methods of Social Science Inquiry (6 units)

1. EDP 400
2. EDP 520

#### Core Requirements (15 units)

1. One of the following: EDSE 500A or EDSE 501
2. EDSE 530
3. EDSE 540
4. EDSE 625
5. EDSE 695 (for comprehensive exam candidates) or EDP 696 (for thesis candidates)

## Specialization Requirements (9 units)

Candidates select an area of specialization, in consultation with the program advisor, tailored to their professional goals. A specialization must follow a pattern or theme; a disparate set of unrelated courses is not a specialization. Specializations may follow one of the patterns below or may be uniquely devised by the candidate. A specialization must have the approval of the program advisor. Candidates must submit a written statement containing a coherent rationale for and description of the specialization sequence. Candidates are responsible for taking prerequisite courses if required.

- A. Educational Technology (e.g., ETEC 523, 551, 553, 623).
- B. Educational Foundations (e.g., EDP 573, 574, 575, 576).
- C. Advanced course work in the candidate's teaching discipline.
- D. Advanced course work toward a Supplementary Authorization.
- E. Advanced course work toward the Professional Clear Credential.
- F. Advanced course work toward CLAD certification.
- G. Advanced course work in middle level education.
- H. Research methods courses in preparation for the thesis.

## Capstone Experience (3 – 6 units)

Candidates select one of the following capstone experiences. Selection should be made at the time of advancement to candidacy in order to develop a program plan consistent with the selected capstone experience.

1. Comprehensive Examination (EDSE 695 should be taken during the semester in which the candidate sits for the exam)
2. Thesis (candidates take EDSE 698 for two semesters while writing the thesis, for a total of 6 units; candidates may need to take additional research methodology courses in order to prepare for thesis research and writing)

## Reading and Language Arts Specialization (33-36 units)

### Prerequisites

A valid secondary education or single subject teaching credential; CLAD certification is strongly recommended. ENGL 482 or approved equivalent (can be taken concurrently with program requirements); submit a program application, transcripts showing posted degree and last 60 semester units or 90 quarter units; 3 letters of recommendation from educators, one of which is from a supervisor; and an autobiographical essay.

### Program Requirements

1. All of the following (27 units): EDSE 540, 544, 551, 554, 556, 558, 559, 651, and EDP 595/LING 595 (Please contact advisor prior to beginning coursework)
2. One advisor-approved elective (3 units)
3. One of the following chosen in consultation with the program advisor (3-6 units): EDSE 695 and Written Comprehensive Examination (3 units) or EDSE 698 Thesis (6 units)

### Clear Conditional Admission

1. Completion of program prerequisites.

2. A GPA of 2.85 or higher in the last 60 semester units of coursework taken. Lower division and/or extension courses taken after obtaining the bachelor's degree are excluded from this calculation.
3. University master's degree policy requires students to take the Writing Proficiency Examination (WPE) during the first semester of residence. Students who have met this requirement during the baccalaureate degree program at CSULB or at another CSU campus are exempt.
4. To qualify for University admission in conditionally classified or classified graduate standing, a student must be accepted into a graduate degree program on a conditional basis or as clear conditional status.

### Please Note:

Prior to admission to the master's program, students may take up to, but no more than, 9 units of coursework which may apply to the master's program. There is no minimum number of units required for admission to the program.

In accordance with University policy of "Graduate Transfer Units by Extension", up to 6 units of approved extension/continuing education or transfer credit may be used on a graduate student's program. At the option of the college/school or department offering a graduate degree requiring a total of 30 units, this limit may be raised to 9 units of extension/continuing education credit if taken at CSULB or at another CSU campus.

Students must contact the advisor of Curriculum and Instruction or Reading and Language Arts Specialization no later than completing 6 units to plan an official program.

Students interested in the Specialization in Reading Language Arts must contact the advisor of Graduate Reading in the Department of Teacher Education prior to enrolling in any classes.

### Advancement to Candidacy Requirements

1. All University requirements must be met;
2. Transcripts showing posted degree and the last 60 semester units or 90 quarter units;
3. Completion of all admission requirements for the Secondary Master's Program Option;
4. A minimum 3.0 overall grade-point average and a 3.0 grade point average in all units undertaken for the program (at least 6 units) with no incomplete grades;
5. Satisfactory completion of the Writing Proficiency Examination (WPE);
6. Personal-Professional Attributes: Applicants are required to submit a typed essay of not less than three pages, double spaced. The essay shall address the following: how the program will help them make a contribution to the profession; experience in the profession; and any other information relevant to their personal/professional plans. In addition, students will complete a structured interview with the designated program faculty advisor;
7. An approved plan of study completed with the Curriculum and Instruction or Reading and Language Arts graduate advisor be on file in the Graduate Office;
8. A student must be enrolled in regular session or the in summer session in which advancement to candidacy takes place. Please refer to the "Graduate Degrees and Other Post Baccalaureate Studies" section of the catalog for University advancement-to-candidacy requirements.

---

## Elementary Education Courses (EDEL)

---

### (Lower Division)

#### 100. Introduction to Teaching and Learning in Diverse Contemporary Classrooms (1)

Prerequisite: Acceptance in the Integrated Teacher Education Program. This course will provide members of the Integrated Teacher Education Program (ITEP) with an introduction to teaching as a profession. The course will address the qualities of an effective teacher, components and purposes of an effective professional portfolio, and critical issues in diverse contemporary classrooms. In this course, students will initiate development of their ITEP Reflective Practitioner Workbook. Ten hours of field experience. Traditional grading only.

#### 200. Introduction to the Education Profession (3)

Prerequisite: Enrollment in the Integrated Teacher Education Program and completion of, or concurrent enrollment in, EDEL 100. Forty hours of field experience. This course provides an overview of the teaching profession for students enrolled in the Integrated Teacher Education Program. Students will be exposed to the philosophies of education, the history of education in America, the sociology of education, contemporary issues in education, and the role of education in American society. Traditional grading only.

### Upper Division

#### 300. Democratic Teaching in a Digital Age (3)

Prerequisites: EDEL 100 and 200 (or their approved counterparts) and EDP 180. This course will examine the cultural, linguistic, and technological issues impacting diverse classrooms. Students will identify and apply effective teaching strategies such as differentiated instruction, multiple methods of assessment, integration of appropriate use of technology and equitable classroom management. Students' use of case study methodology to profile an elementary student with specific treatments of the cultural context and instructional issues addressed in the course. 25 hours of fieldwork are required. Traditional grading only.

#### 340. Subject Matter Overview for Multiple Subjects (3)

Prerequisites: Baccalaureate degree and CBEST passed. Overview of content from seven areas: History and Social Studies, Human Development, Literature and Language Studies, Math, Physical Education, Science, Visual and Performing Arts. Analysis and practice in short essay writing and test-taking strategies. Course may be repeated to a maximum of 6 units.

#### 360. Mathematical Concepts of Numbers and Geometry (3)

Not open to students with credit in EDEL 361 or EDEL 362. Unifying concepts of mathematics for elementary teachers. Includes the development of concepts of number, number operations, number properties, problem solving, geometric configurations, constructions, relationships and applications with metric measures. Traditional grading only.

#### 379. Sociolinguistics and Schooling (3)

Prerequisites: LING 329 or equivalent. Study of language variation as it connects to standard language development in society and individuals. Analysis of key sociolinguistic concepts, such as: dialect, speech event, linguistic repertoire, language community, prescriptive and descriptive grammar. Analysis of verbal and written classroom language. Connection between variation and development in speaking, reading and writing. Traditional grading only. Same course as LING 379.

#### 380. Schooling in a Democratic Society (3)

This course is an introduction to the concepts and issues related to K-8 education in a democratic society within historical, social, philosophical, legal, and political contexts. Students will develop personal knowledge and understanding of 1) the competing purposes and values of schools in society, 2) the nature of teaching and the teaching profession, 3) the impact of local, state, and federal government policies on the schools, and 4) contemporary educational issues. Course content and assignments will be related to field experiences (a minimum of 40 hours in a self-contained classroom). Traditional grading only.

#### 380A. Introduction to Elementary Education for Interns (1-3)

Prerequisite: Employed as teacher of record in a regular self-contained classroom in a participating school district. Not open to students with credit for EDEL 380. Curriculum, instruction, assessment, classroom management, and professionalism in elementary teaching. Explore concepts and issues related to United States (California) elementary education including historical, philosophical, and legal implications of teaching in a culturally diverse society; the roles and functions of educators; implications of child development and learning; and the principle of educational equity. This field-based course is offered in one-unit modules. Content is spiraled with emphasis on the immediate needs of beginning teachers with intern credentials. Course may be repeated to a maximum of 3 units. Traditional grading only.

#### \*420. Teaching and Learning in the Kindergarten and Primary Grades (3)

Teaching and learning in the kindergarten and primary grades with an emphasis on experiential approaches, multi-task classroom management, and an integrated curriculum. Discussion of the nature of the learning process, motivation, the value of error, and the use of portfolios for documenting student growth. Practical suggestions for implementing current research findings in curricular areas along with meeting the diverse needs of children in the classroom. Analysis of kindergarten and primary grade programs. Ten (10) hours of field work required.

#### \*421. History and Philosophy of Early Childhood Education (3)

Historical, philosophical and psychological foundations of early childhood education and their relationships to current trends. Overview of the field of early childhood education. Analysis of various programs. Ten (10) hours of fieldwork required.

#### \*422. Curriculum for Young Children (3)

Theory and practice related to the education of preschool and kindergarten children. Emphasis on theoretical constructs of developmentally appropriate curriculum, child-initiated learning, emergent curriculum, anti-bias approaches, and the value of play in the learning process. Discussion of methods of child study, ongoing authentic assessment, selection of materials, and reflective practice. Ten hours of field work required.

#### 429. Language, Learning, and the Developing Child: A Cross-Cultural Perspective (3)

Explores the communicative-linguistic, cognitive, physical, and socio-emotional development of the child from the prenatal to adolescent period across diverse cultures with an emphasis on language acquisition and the learning process. Traditional grading only. Not open to students currently enrolled in the Liberal Studies program. (Same course as LING 429, FCS 409, and EDP 428).

#### \*430. Social and Cultural Diversity in Educational Settings (3)

Experiential opportunity to examine personal attitudes toward distinct groups of persons, to develop multicultural competencies, and examine racism. Study of cultural, historical, social, and psychological factors that promote equal human worth. Same course as ED P 432.

#### 431. Cultural and Linguistic Diversity in Schools (3)

This course addresses the multiple forms of diversity present in schools, including issues surrounding cultural, ethnic, racial, linguistic, faith, special needs, gender, sexual orientation, and socioeconomic difference. Emphasis is on multicultural education, language minority education, and the promotion of learning for all students. The course treats concepts of culture, education equity, stereotyping, and cultural and linguistic contact. History, policy and practice regarding cultural and linguistic minorities in the United States. Models of English Language Development and bilingual education. Special focus on educational initiatives to address the rich ethnic diversity of California schools. Not open to Liberal Studies Majors. Same course as ED P 431 and LING 431. Traditional grading only.

#### 439. SDAIE: Specially Designed Academic Instruction in English (3)

Theories of second language acquisition and practical application: methods of teaching content to English language learners, reading and writing strategies, and curriculum development with applica-

tion to K-12. Traditional grading only. Same course as ED P 439 and EDSE 439.

**\*442. Teaching Language Arts, K-8 (CLAD/RICA) (3)**

Prerequisite: Admission to the Multiple Subject Credential Program or Education Specialist Program. Content, methods, and assessment for teaching language arts to all students, including English language learners, speakers of non-mainstream English, and student with special needs, in culturally diverse, literature based classrooms: first and second language acquisition and English language development, relationships among reading, writing, and oral language, spelling instruction, and structure of the English language. Minimum ten hours of field work in elementary classrooms with at least 25% of students classified as ELL/LEP. Traditional grading only.

**451B. Assessment of Literacy with Bilingual Students (3)**

Prerequisites: Speaking and reading competence in Spanish; consent of the instructor. Examination and evaluation of measures, strategies and materials used in the assessment of literacy development in English and Spanish with bilingual students in the U.S., with emphasis on the issues specific to the assessment, program placement, and instruction of English learners in dual language settings. EDEL 451B requires 10 hours of fieldwork utilizing assessments. EDEL 551B requires a diagnostic assessment/instruction plan. Participation by speakers of languages other than Spanish is possible as literacy assessments in diverse languages become available. Traditional grading only.

**\*452. Teaching Reading, K-8 (CLAD/RICA) (3)**

Prerequisite: Admission to the Multiple Subjects Credential Program or Education Specialist Credential Program. Content, methods, and assessment for teaching reading to all students, including English language learners, speakers of non-mainstream English, and student with special needs, in culturally diverse, literature-based classrooms: phonemic awareness, phonics, vocabulary development, comprehension, diagnosis, and the role of independent reading for proficient and delayed readers, the use of technology in literacy development. Minimum ten hours of fieldwork in elementary classrooms with at least 25% of student classified as ELL/LEP. Traditional grading only.

**\*452B. Teaching Reading in Spanish and English, K-8 (BCLAD) (1-3)**

Prerequisite: Admission to the Multiple Subject Credential BCLAD (bilingual) Program. Theory, research, and instructional methodology for teaching reading in two languages and transfer of literacy skills from first to second language. Traditions in teaching reading in Spanish and English as primary languages and English as a second language. Relationships among: emergent literacy, phonics- and syllabically-based approaches, primary language literacy development, literature-based programs, reading across the curriculum, and other paradigms of literacy. Examination of teacher beliefs, assumptions, theories, instructional practices, assessment and evaluation of literacy development among language minority children; materials selection and microcomputers in reading instruction. Minimum of ten hours of field experience required in classrooms where a non-English primary language is used for instruction. Course is three units except in Track Four - Multiple Subject Teaching Internship Program (TIP) - CLAD/BCLAD, when it is one unit. Traditional grading only.

**452C. Biliteracy: Teaching English and Chinese K-8 (3)**

Prerequisites: Admission to the Multiple Subject Credential Program or permission of instructor. Course Description: Content, methods, and assessment for teaching literacy in English and Chinese bilingual setting: comprehension, phonics, vocabulary and other decoding skills, and writing and related encoding skills including spelling, grammar, handwriting, etc. (in English and Chinese, where applicable). Ten hours of fieldwork in elementary bilingual and sheltered English/Chinese classroom. Course lectures, activities and assignments will be in English and Chinese. Traditional grading only.

**453A. Developing Language and Literacy (2)**

Prerequisites: Admission to the Integrated Teacher Education Program; concurrent enrollment in LING 329 or permission of instructor. Theory, research, and practice of teaching reading/language

arts to all students, including English language learners, speakers of non-mainstream English, and students with special needs; development of children's first and second language; print concepts; letter recognition; phonological awareness and other linguistic processes related to reading; phonics and other word identification strategies; spelling and writing development; vocabulary; and ongoing assessment. Minimum ten hours of directed fieldwork in elementary classrooms with at least 25% of students classified as LEP. Traditional grading only. Course is not repeatable.

**453B. Teaching Reading and Language Arts K-8 (2)**

Prerequisites: Admission to the Integrated Teacher Education Program or consent of the instructor; EDEL 453A. Concurrent enrollment in ENGL 481 or consent of the instructor. Current models of teaching reading/language arts to all students, including English language learners, speakers of non-mainstream English, students with special needs, proficient and delayed readers and writers; vocabulary, comprehension, and developing independent reading; spelling instruction and writing; text structure; content area literacy; study skills; ongoing assessment. Lesson and unit design using literature, literary response and analysis, instructional resources, and technology in the K-8 classroom. Minimum ten hours of directed fieldwork in elementary classrooms with at least 25% of students classified as LEP. Traditional grading only.

**453C. Problems in Literacy Development: Diagnosis and Instruction (1)**

Prerequisites: Admission to the Integrated Teacher Education Program or consent of the instructor; EDEL 453A, B; concurrent enrollment in EDEL/C/LA 400. Teaching children with delayed literacy development; planning, organizing, and managing reading and writing instruction based on assessment, diagnosis, and evaluation of individual student needs. Includes ten hours of directed fieldwork and development of case study. Traditional grading only.

**\*455. Teaching and Learning in the Culturally and Linguistically Diverse Middle School (3)**

Prerequisite: Admission to the MSCP Middle Level Emphasis, Middle Level Education master's degree program, or consent of the instructor. Course focuses on teaching in linguistically and culturally diverse middle schools (grades 6-8). Topics include history, philosophy, foundations of middle school education, middle school reform; the young adolescent, middle school curriculum, learning theories in practice, assessment, interdisciplinary teaching, team dynamics, classroom management and organization, peer coaching, theories and models of second language acquisition including SDAIE, and technology. Traditional grading only. Same course as EDMS 455.

**458. Newspaper in Education (1-3)**

Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem-solving. Understanding mass media. Same course as EDSE 458.

**\*462. Teaching Mathematics in Culturally and Linguistically Diverse Classrooms (1-3)**

Prerequisite: Admission to the Multiple Subjects Credential Program. Learning theories, research, and instructional practices of teaching mathematics to culturally and linguistically diverse students. Emphasis on specially designed academic instruction in English for mathematics, characteristics of effective, equitable mathematics programs, multicultural mathematics materials, and alternatives to traditional assessment. A minimum of ten hours of fieldwork assignments in a classroom where at least 25% of the students are classified as ELL/LEP. Traditional grading only.

**471. Teaching Social Studies in Diverse Classrooms (2)**

Prerequisites: Admission to Methods Phase of the Integrated Teacher Education Program (ITEP). This course is a co-requisite with C/LA 471 and EDEL 473. Theory, research, content, and standards-based teaching for diverse students. Emphasis on integrating curriculum, inquiry learning, social participation and ethics/values in a democratic society with access to the core curriculum for all students. A minimum of ten hours of field work in public school classrooms with at least 25% of the students classified as ELL/LEP. Traditional grading only.

---

## Elementary Education Courses (EDEL)

---

### \*472. Teaching Social Studies in Culturally and Linguistically Diverse Classrooms (3)

Prerequisite: Admission to the Multiple Subjects Credential Program. Theory, research, content and teaching strategies embedded in this course will promote equal learning opportunities, including effective approaches to teaching culturally, linguistically, racially, ethnically, gender, intellectually, educationally and socio-economically diverse students in contemporary elementary and middle schools. Emphasis on integrating curriculum, inquiry learning, social participation and ethics/values in a democratic society with access to the core curriculum for all students. Instructional methods and content will be consistent with state and national standards. A minimum of ten hours of fieldwork in public school classrooms with at least 25% of the students classified as ELL/LEP. Traditional grading only.

### 473A. Content Area Teaching in Diverse Classrooms – ITEP (1)

### 473B. Content Area Teaching in Diverse Classrooms – Spanish (1)

### 473C. Content Area Teaching in Diverse Classrooms – Chinese (1)

### 473D. Content Area Teaching in Diverse Classrooms – Vietnamese (1)

### 473E. Content Area Teaching in Diverse Classrooms – Cambodian (Khmer) (1)

### 473F. Content Area Teaching in Diverse Classrooms – Korean (1)

Prerequisite: Admission to any Multiple Subject Program pathway. Pre- or co-requisite: EDEL 452, 453A & B, 462, 472 or equivalent. Supplement to methods courses in CLAD/BCLAD programs. Theory, research and practice for teaching all content areas in multilingual and multicultural contexts. Specific vocabulary, bilingual and sheltered classroom discourse for bilingual education, pre-view/review, specially-designed academic instruction in English (SDAIE), sheltered instruction and English language development). Presentation of thematic, multi-disciplinary lessons in social science, mathematics, natural science, language arts and other subjects, specifically for English learners in culturally diverse settings. Supplement to methods courses in specific areas. Traditional grading only. Course may be repeated to a maximum of 2 units with different topics.

### \*475. Teaching Science K-8 (CLAD) (1-3)

Prerequisite: Admission to the Multiple Subjects Credential Program. Objectives, strategies, materials and methods for teaching elementary school science. Development of sequenced lessons, integration across content areas; understanding of how children learn science; the development of inquiry-and experiential-based units which address the needs of all learners along with specially designed academic instruction in English. A minimum of ten hours of fieldwork assignments in classrooms where at least 25% of the students are classified as ELL/LEP. Traditional grading only. Course fee required.

### 482. Student Teaching in Culturally and Linguistically Diverse Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential CLAD Student Teaching. All day teaching assignment for one semester in a public school in grades K-6 with assignments at the primary and intermediate level. Emphasis on teaching experiences with children of limited English proficiency. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. Course is repeatable for a maximum of 16 units in the same semester.

### 482B. Student Teaching in Bilingual Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching. All day teaching assignment for one semester in a public school in grades K-6 with assignments at the primary and intermediate level, or one semester of teaching in a designated bilingual classroom (classroom must be within the supervision radius of CSULB). Emphasis on teaching experiences with children of

limited English proficiency and on primary language instruction. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. Course is repeatable for a maximum of 16 units in the same semester.

### 482C. Student Teaching in Bilingual Classrooms (8)

Prerequisite: Admission to Multiple Subject Credential BCLAD Student Teaching. All day teaching assignment for one semester in a public school in grades K-6 in a designated bilingual classroom under an emergency credential (classroom must be within the supervision radius of CSULB), with assignments at the primary and intermediate levels. Emphasis on teaching experiences with children of limited-English proficiency and on primary language instruction. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. Course is repeatable for a maximum of 16 units in the same semester.

### 482D. Student Teaching in Culturally and Linguistically Diverse Classrooms (6)

Prerequisites: Admission to Multiple Subject Credential CLAD Student Teaching. Integrated student teaching assignment for one semester in a public school in grades K-6 with assignments at the primary and intermediate level. Emphasis on teaching experiences with children of limited English proficiency. Weekly seminar. Credit/No Credit grading only, with an equivalent grade of "A" or "B" required for credit. Course is repeatable for a maximum of 12 units.

### \*490. Special Topics in Elementary Education (1-3)

Topics of current interest in elementary education selected for intensive study. May be repeated under different topics but only six units may be applied toward advanced degrees. Topics will be announced in the *Schedule of Classes*.

### \*497. Independent Study (1-3)

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated for credit to a maximum of six units with no more than three units applicable to credential or major requirement.

## Graduate Division

### 500A. Reflective Processes For Beginning Teachers (3)

Prerequisite: Currently teaching and hold credential or consent of instructor. To enhance effectiveness and success in beginning years of teaching (less than four years). Emphasis on acquisition and application of reflective processes. Acquire skills to identify and resolve personal and professional problems; delve into the current literature and research; engage in group processes; create, identify and evaluate alternative solutions and apply these to your own problems and situations. Same course as EDSE 500A.

### 501. Enhancing Teacher Effectiveness: Strategies for Mentoring and Leadership (3)

Prerequisite: A minimum of three (3) years teaching experience. To enable experienced teachers to acquire skills and understandings to improve their own instructional and professional effectiveness, become mentor teachers, and develop strategies for teacher leadership and supervision. Enhance ability to analyze and improve instruction and guide other teachers in using these skills. Conduct applied research on these topics. Same course as EDSE 501.

### 510. Supervision and Coaching in Educational Settings (3)

Utilizes historical, empirical, and theoretical frameworks to look at supervisory and coaching practice in educational settings. The course covers such topics as the development of the field of supervision, historical approaches to supervision, traditional and current models of supervision, supervisory behaviors and practices, and various supervisory and coaching roles in preservice student teaching, induction phase teaching, and inservice teaching. Will be of professional relevance to cooperating teachers, university supervisors, peer coaches, school administrators and others in coaching or supervisory roles. Participants should exit the course with a capacity to engage in context and role appropriate supervisory and coaching practice. Traditional grading only. Same course as EDSE 510.

**522. Parent Education and Involvement in Educational Environments (3)**

Analysis of trends, issues, programs and practices pertaining to parent education and involvement in educational settings. Emphasis on early childhood education in multicultural settings. Discussion of effective two-way communication between school and home, working with volunteers, involving parents as decision makers in school policies, and coordinating community support services for children and families. Analysis of federal and state programs which mandate parent involvement, parent education programs, and working with culturally diverse families. Ten (10) hours of field work required.

**523. Leadership, Advocacy and Supervision of Early Childhood Programs (3)**

Discussion of types of ECE programs, program development and implementation, different management approaches and leadership styles. Analysis of position statements and state documents pertaining to ECE programs. Discussion of promoting professionalism, the change process, and advocacy for young children and their families. Ten hours of field work required.

**526. Advanced Study of Infant and Toddler Programs (3)**

Prerequisites: ED P 301, EDEL 422 or consent of instructor. Curriculum and teaching of infant and toddler programs. Analysis and application of current research on infant and toddler development to group learning settings. Ten (10) hours of fieldwork required.

**530. Intercultural Education: US and Global Dimensions (3)**

Study to enhance teacher intercultural competence through a critical analysis of issues of cultural diversity and global interdependence. Students will investigate the current literature and research and reflectively apply findings to the resolution of interaction and equality problems in education and to the infusion of multicultural and international concepts, skills and attitudes into the K-12 curriculum. Same course as EDSE 530.

**540. Advanced Studies in Literacy (3)**

Prerequisite: A valid teaching credential or admission to an approved masters, certificate, or advanced credential program; or consent of instructor. Emphasizes advanced study of literacy research, theory, and practice. Includes research survey of issues of first and second language acquisition and development, language structure, and curriculum trends in reading and writing pedagogy. Traditional grading only. Same course as EDSE 540.

**541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)**

Prerequisites: A valid California CLAD teaching credential or equivalent. Principles of curriculum development, with a focus on primary language and second language teaching, learning and critical literacy. Candidates will analyze a variety of US and Mexican program sites to conduct research and create curricular programs. (Offered in both the US and Mexico. [new course; BCLAD Domain 4]; 10 hours fieldwork) Traditional grading only. Same as EDSE 541.

**542. Situated Learning in Bilingual Contexts (3)**

Prerequisites: A valid California CLAD teaching credential or equivalent. Hands-on experiences in Spanish language and bilingual-bicultural settings in Mexican public, private and indigenous schools. Interaction with Mexican educators, students and families. Critical analysis of a wide variety of educational models with application to Latinos in US schools. (Offered in Mexico; [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience. Traditional grading only. Same course as EDSE 542.

**543. Integration of Technology in Reading/Language Arts (3)**

Prerequisites: EDP 443 or ETEC 444 or equivalent; or a course approved by CTC, or a course approved by CCTC to meet the Level I technology requirement or approval of the instructor. Exploration of the impact of technology on reading and language arts; investigation and evaluation of software and media programs for reading/language arts. Includes current issues in technology and change strategies for staff development and integration of technology in the curriculum. Traditional grading only. Same course as EDSE 543.

**544. Foundations of Literacy Research (3)**

Prerequisite: California Reading Certificate or consent of instructor. Introduction to critical analysis of literacy research, with emphasis on classic and contemporary studies. Includes experimental designs, descriptive studies, case studies, correlational research, ethnographies, and the teacher-as researcher. Same course as EDSE 544.

**545. Seminar: Current Issues, Trends, and Applied Theory in Reading/Language Arts Pedagogy (3)**

Prerequisite: EDEL 452 or EDSE 457. Credentialed teaching experience or consent of the instructor. Current trends in the teaching of reading in K-12. Emphasis on applied theory to support important trends such as Early Intervention and Literacy Programs. Issues of Language and Cultural Diversity, Adolescent Reading, Adult Literacy, Family Literacy issues. Traditional grading only. Same course as EDSE 545.

**551. Assessment and Instruction in Reading and Writing (3)**

Prerequisites: Admission to Reading Certificate Program or consent of instructor. A comprehensive study of reading and writing assessment and instruction. Examination and evaluation of procedures, strategies and materials effective in designing appropriate reading and writing instruction with an emphasis on early detection and correction of reading difficulties. Fieldwork required. Same course as EDSE 551. Traditional grading only.

**551B. Assessment of Literacy with Bilingual Students (3)**

Prerequisites: Speaking and reading competence in Spanish; consent of the instructor. Examination and evaluation of measures, strategies and materials used in the assessment of literacy development in English and Spanish with bilingual students in the U.S., with emphasis on the issues specific to the assessment, program placement, and instruction of English learners in dual language settings. EDEL 451B requires 10 hours of fieldwork utilizing assessments. EDEL 551B requires a diagnostic assessment/instruction plan. Participation by speakers of languages other than Spanish is possible as literacy assessments in diverse languages become available. Traditional grading only.

**554. Reading/Language Arts Curriculum: Leadership and Supervision (3)**

Prerequisite: California Reading Certificate or consent of instructor. Examines varied roles and responsibilities of the Reading/Language Arts Specialist including intervention, curriculum development, supervision, program development, and leadership. Traditional grading only. Same course as EDSE 554.

**556. Theoretical Models and Processes of Reading (3)**

Prerequisite: California Reading Certificate or consent of instructor. Exploration and analysis of current and historic theoretical models of the reading process, and examination of their influence on curriculum and instructional issues in reading and language arts. Traditional grading only. Same course as EDSE 556.

**558. Language Study for Reading Teachers (3)**

Prerequisites: EDEL 540 and admission to the Reading Certificate program or consent of instructor. The relationships among phonology, morphology, semantics, syntax, and pragmatics, and the teaching of reading. The focus is on developing phonemic awareness, phonics, decoding strategies, vocabulary, spelling, grammar skills, and comprehension in emergent and developing readers, including English language learners. Includes evaluation of instructional materials. Traditional grading only. Same course as EDSE 558.

**559. Practicum in Teaching Reading/Language Arts (3)**

Prerequisites: EDEL 551 and admission to the Reading Certificate program or consent of instructor. Includes methods and intervention approaches for meeting the needs of struggling readers at both early and intermediate levels of reading acquisition, and the tutoring or small-group instruction of these students. Classroom field experience is required. Traditional grading only. Same course as EDSE 559.

**560. Problems of Teaching Elementary Mathematics (3)**

Prerequisites: teaching experience. Advanced study and research in elementary school mathematics. Emphasis on content, methods and materials. Includes individual research.

---

## Elementary Education Courses (EDEL)

---

### 570. Advanced Studies in Teaching Social Studies (3)

Prerequisites: ED P 400, 500, or 696. Intensive study of selected topics in the teaching of social studies in the elementary school from the perspective of the research and methodologies of the social sciences.

### 572A. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically three units in each of two semesters to a maximum of six units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

### 572B. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically three units in each of two semesters to a maximum of six units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

### 572J. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically three units in each of two semesters to a maximum of six units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

### 572K. Multiple Subject Internship (1-8)

Prerequisite: Admission to Track Four - Multiple Subject Teacher Internship Program (TIP) - CLAD/BCLAD or eligible for an Intern Credential and admitted to the Multiple Subject Credential Program. TIP students must take a minimum of 12 units, typically three units in each of two semesters to a maximum of six units per year for two years. All other interns take a maximum of 16 units. Total number of units will be determined by specific program. Credit/No Credit grading only.

### 621. Research Seminar in Early Childhood Education (3)

Prerequisites: ED P 400 and teaching experience. Discussion and analysis of research in the field of early childhood education. Emphasis on appropriate assessment of young children and qualitative research design. Ten (10) hours of field work required.

### 622. Seminar in Early Childhood Care and Education: International Perspectives (3)

Discussion of early childhood programs in various countries around the world. Analysis of social, political, and economic influences on policies related to the care and education of young children. Discussion of the role of international and national agencies providing support for child welfare and education.

### 625. Advanced Analysis of Instruction Through Reflective Strategies (3)

Prerequisites: Teaching experience in grades K-12, EDEL/EDSE 500A or EDEL/EDSE 501, ED P 500 or ED P 696. Advanced study of instructional process through the study of theory and research on teaching. Applied to the observation, diagnosis, analysis, and evaluation of the instructional process in grades K-12. The focus is practical application of theory and research to improve instructional effectiveness through analysis and reflective strategies. Same course as EDSE 625.

### 651. Advanced Diagnosis and Intervention in Reading/Language Arts (3)

Prerequisites: EDEL 551 or equivalent; valid California Reading Certificate or consent of instructor. Includes clinical practicum and seminar on diagnosing and providing appropriate intervention for children with delayed literacy development. Traditional grading only. Same course as EDSE 651.

### 681. Advanced Field Experiences in Early Childhood (4)

Prerequisite: Approval by Early Childhood Education (ECE) area committee. Supervised field experiences required of candidates for the ECE specialist credential who do not have teaching experiences in (1) pre-school; and (2) kindergarten or primary grades; and (3) a multicultural setting. Applications should be made by October 1 for the spring semester, and by March 1 for the fall semester and summer session. May be repeated for a maximum of 8 units. Credit/No Credit grading only. A maximum of four (4) units only for credit toward a master's degree program.

### 682. Exit Assessment of Competencies in Early Childhood Education (4)

Prerequisite: Completion of all requirements for the Early Childhood Specialist Credential. During this advanced field work assignment, the candidate receives a final assessment of competencies demonstrated at the pre-school, kindergarten or primary levels. Applications should be made by October 1 for the spring semester, and by March 1 for the fall semester and summer session. Credit/No Credit grading only.

### 693. Developing Teacher Leadership in Middle Level Education (3)

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or have the permission of the instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Traditional grading only. Same course as EDAD 693 and EDMS 693.

### 695. Seminar in Teacher Education (3)

Prerequisites: Advancement to candidacy, approval of graduate director, and written application to Graduate Office. Application for enrollment must be made by March 1 for the fall semester and summer session, or by October 1 for spring semester. Successful completion of all required course work for the Master of Arts in Education, options in elementary or secondary education. Advanced studies in elementary and secondary education including reviews of the literature, and critique of educational research. Analysis of current trends, critical problems, and issues in education. For qualified candidates preparing to write the comprehensive examination. Traditional grading only. May be repeated once with permission of instructor. Same course as EDSE 695.

### 695C. Seminar in Teacher Education for the Early Childhood Education Specialization (3)

Prerequisites/Course Description: Advancement to candidacy in the Early Childhood Education Graduate Program, approval of the Early Childhood Education Graduate Advisor, and written application to the College of Education Graduate Office. Application for enrollment must be made by March 1 for the fall semester, or by October 1 for the spring semester. Consideration of curriculum role of the school, and topics related to effectiveness and excellence in early childhood education. For qualified candidates preparing to participate in the comprehensive examination process. Traditional grading only. Course may be repeated to a maximum of 3 units.

### 697. Directed Research (1-3)

Prerequisites: Consent of instructor, department chair and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for one-three units to a maximum of three units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by Mar 1 for the fall semester and summer session or by Oct 1 for the spring semester.

### 698. Thesis (3,3)

Prerequisites: Advancement to candidacy, ED P 696, approval by director, department chair and associate dean. Planning, preparation and completion of a thesis under supervision of a faculty committee. Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester and summer session or October 1 for the spring semester.

---

## Education Middle School Courses (EDMS)

---

### \*455. Teaching and Learning in the Culturally and Linguistically Diverse Middle School (3)

Prerequisite: Admission to the MSCP Middle Level Emphasis, Middle Level Education master's degree program, or consent of the instructor. Course focuses on teaching in linguistically and culturally diverse middle schools (grades 6-8). Topics include history, philosophy, foundations of middle school education, middle school reform; the young adolescent, middle school curriculum, learning theories in practice, assessment, interdisciplinary teaching, team dynamics, classroom management and organization, peer coaching, theories and models of second language acquisition including SDAIE, and technology. Traditional grading only. Same course as EDEL 455.

### \*456A. Teaching Language Arts/Social Science in the Middle School (3)

Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching language arts and history-social science at the middle level including interdisciplinary teaching, reading in the content areas, and strategic reading. Includes an overview of elementary school content curricula in the two content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of field work required. Traditional grading only.

### \*456B. Teaching Science and Mathematics in the Middle School (3)

Prerequisite: Admission to the Middle Level Emphasis program, Middle Level Education master's degree program, or consent of the instructor. Focuses on content and methodology of teaching mathematics and science at the middle level. Includes an overview of elementary school content curricula in these content areas. Curriculum development, standards and frameworks, content knowledge, SDAIE strategies, and appropriate middle school pedagogy are emphasized. A minimum of 10 hours of fieldwork required. Traditional grading only.

### \*459. The Middle School Teacher as Advisor (3)

Prerequisite: Admission to MSCP Middle Level Emphasis Program, Middle Level master's degree program, or consent of the instructor. Focus is on the advisor/advisory role of teachers in the middle school, the development of service learning programs, and the function of collaboration among teachers, agencies, professionals, and other stakeholders. Required during the semester of middle level student teaching. Course may be taken by credentialed, inservice middle school teachers. Traditional grading only.

### 483A-B-C. Middle Level Student Teaching in Linguistically and Culturally Diverse Classrooms (4-4-4)

Prerequisites: Admission to MSCP Middle Level/CLAD Emphasis Student Teaching; completion of all requirements for advancement to student teaching. Students teaching represents the culmination of the MSCP Middle Level Emphasis/CLAD Credential Program. Sections A and B consists of ten (10) weeks, full-days, spent in an approved middle school with a limited English proficient student population of at least 26%. Section C consists of an additional five (5) weeks of student teaching to be completed in an elementary school classroom also with a limited English proficient student population of at least 26%. Students must enroll in all sections (A-B-C) simultaneously, equating to 12 units of student teaching. Weekly seminars are required. Credit/No Credit grading only ("A" or "B" level work required for credit.)

## Graduate Division

### 582. Concepts, Structures, and Programs for Middle Level Schools (3)

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Ad-

vanced exploration of the philosophical, historical, and societal foundations of middle level education. Study and evaluation of existing middle level programs, materials, curriculum, and future trends. Design of professional development for middle level teachers. Traditional grading only.

### 584. Issues in Middle Level Education (3)

Prerequisites: Middle level teaching experience, admission to an approved masters program, or consent of the instructor. Intensive study of middle level education issues emphasizing research perspectives and factors that may influence the future direction of middle level education. Topics examined include: instructional strategies and assessment/evaluation methods and materials, the multiple aspects of human diversity in the middle level classroom, impact of current societal events, parental involvement, threats to students' health and safety, risk behaviors that affect the healthy development of young adolescents, and teacher professional development. Traditional grading only.

### 693. Developing Teacher Leadership in Middle Level Education (3)

Prerequisite: Students must be enrolled in either a Teacher Education Masters Program, or the Tier II Professional Administrative Services Credential Program, or have the permission of the instructor. Contemporary research on effective schools identifies teacher empowerment as critical to school improvement and success. This course will involve administrators and teachers in developing middle level teacher leadership. Students will learn and practice collaborative and action research models. Traditional grading only. Same course as EDAD 693 and EDEL 693.

### 695. Project in Middle Level Education (3)

Prerequisites: Advancement to candidacy, Ed P/LING 595, approval by the program coordinator, department chair, and associate dean, and written application to the Graduate Office. Application for enrollment must be made by October 1 for the fall semester and summer session, or by October 1 for the spring semester. Study and analysis in the field of middle level education. Development of culminating masters project, which can take any of the following forms: 1) utilize action-based research to examine a classroom- or school-based issue or problem related to middle level education to explore, analyze, or offer resolution to the problem; OR 2) develop a position paper, issue paper, or policy recommendation. Seminar and individual meetings. Traditional grading only.

---

## Secondary Education Courses (EDSE)

---

### Lower Division

#### 157. Critical Thinking and Analytical Reading (3)

Prerequisite: ENGL 100 or equivalent (may be taken concurrently). Critical thinking and advanced reading comprehension. Includes laboratory experience and access to resource materials.

### Upper Division

#### 339. Linguistics for Crosscultural Language and Academic Development in Secondary School Settings (3)

Principles of language structure, variation and usage for educators. Educational aspects of first and second language acquisition theories. Social and psychological influences on linguistic behavior in middle and high schools. Cultural and political issues affecting language, attitudes, maintenance and shift. Traditional grading only. Same course as LING 339.

#### \*435. United States Secondary Schools: Intercultural Education (3)

Prerequisite: Admission to the Single Subject Credential Program, or by permission of the Single Subject Credential Program University Coordinator. Critical reflection on issues and questions of equal opportunity and multicultural education in a pluralistic society; philosophy, history, and sociology of education; the curriculum and student population in United States and California secondary schools; current issues and trends in education. Ten (10) hour field work requirement. Traditional grading only.

---

## Secondary Education Courses (EDSE)

---

**\*436. Learning and Instruction in a Multicultural Setting (3)**  
Prerequisite: Admission to the Single Subject Credential Program. A course in systematic instruction that explores theories of learning, curriculum design and development, assessment and evaluation of student progress, classroom management and discipline, and problems of the adolescent within a multicultural setting. Fifteen hours of structured field work in content areas in the schools will be required. Traditional grading only.

**439. SDAIE: Specially Designed Academic Instruction in English (3)**

Theories of second language acquisition and practical application; methods of teaching content to English language learners, reading and writing strategies, and curriculum development with application to K-12. Traditional grading only. Same course as EDEL 439 and ED P 439.

**\*457. Reading and Writing in the Secondary School (3)**

Prerequisite: Admission to the Single Subject Credential Program, or by permission of the Single Subject Credential Program University Coordinator. Emphasis on assessment and instruction of individuals and groups; textbook selection and evaluation; vocabulary development; comprehension strategies; content area reading and study skills; writing instruction; application of decoding skills to new and technical vocabulary and spelling patterns; transfer of primary language reading skills into English language skills; English usage in a variety of formal and informal settings; and the special reading needs of less prepared, English language, and of accelerated learners. Includes individual/tutorial instruction of an adolescent and issues of diversity and equity. At least fifteen hours of field experience are required. Traditional grading only.

**458. Newspaper in Education (1-3)**

Use of the daily newspaper as an instructional tool in the classroom. Newspaper articles, features and editorials as a means of providing current content and bases for improvement of reading skills, interests, critical thinking and problem-solving. Understanding mass media. Same course as EDEL 458.

**\*490. Special Topics in Secondary Education (1-3)**

Prerequisite: Consent of instructor. Topics of current interest in secondary education selected for intensive study. May be repeated under different topics for a maximum of six units. Topics will be announced in the *Schedule of Classes*.

**\*491. Special Topics in Teacher Education (3)**

Prerequisite: Consent of instructor. Topics of current interest in teacher education selected for intensive study. A student may enroll for three units to a maximum of six units for certificate and degree purposes, subject to suitable change in course content. Topics will be announced in the *Schedule of Classes*. (Lecture 2 hours, laboratory 2 hours.)

**\*497. Independent Study (1-3)**

Prerequisites: Consent of instructor and department chair. Independent study undertaken under the supervision of a faculty member. May be repeated for credit to a maximum of six units, with no more than three units applicable to credential or major requirement.

## Graduate Division

**500A. Reflective Processes For Beginning Teachers (3)**

Prerequisite: Currently teaching and hold credential or consent of instructor. To enhance effectiveness and success in beginning years of teaching (less than four years). Emphasis on acquisition and application of reflective processes. Acquire skills to identify and resolve personal and professional problems; delve into the current literature and research; engage in group processes; create, identify and evaluate alternative solutions and apply these to your own problems and situations. Same course as EDEL 500A.

**501. Enhancing Teacher Effectiveness: Strategies for Mentoring and Leadership (3)**

Prerequisite: A minimum of three (3) years teaching experience. To enable experienced teachers to acquire skills and understand-

ings to improve their own instructional and professional effectiveness, become mentor teachers, and develop strategies for teacher leadership and supervision. Enhance ability to analyze and improve instruction and guide other teachers in using these skills. Conduct applied research on these topics. Same course as EDEL 501.

**510. Supervision and Coaching in Educational Settings (3)**

Utilizes historical, empirical, and theoretical frameworks to look at supervisory and coaching practice in educational settings. The course covers such topics as the development of the field of supervision, historical approaches to supervision, traditional and current models of supervision, supervisory behaviors and practices, and various supervisory and coaching roles in preservice student teaching, induction phase teaching, and inservice teaching. Will be of professional relevance to cooperating teachers, university supervisors, peer coaches, school administrators and others in coaching or supervisory roles. Participants should exit the course with a capacity to engage in context and role appropriate supervisory and coaching practice. Traditional grading only. Same course as EDEL 510.

**530. Intercultural Education: US and Global Dimensions (3)**

Study to enhance teacher intercultural competence through a critical analysis of issues of cultural diversity and global interdependence. Students will investigate the current literature and research and reflectively apply findings to the resolution of interaction and equality problems in education and to the infusion of multicultural and international concepts, skills and attitudes into the K-12 curriculum. Same course as EDEL 530.

**540. Advanced Studies in Literacy (3)**

Prerequisite: A valid teaching credential or admission to an approved masters, certificate, or advanced credential program, or consent of instructor. Emphasizes advanced study of literacy research, theory, and practice. Includes research survey of issues of first and second language acquisition and development, language structure, and curriculum trends in reading and writing pedagogy. Traditional grading only. Same course as EDEL 540.

**541. Designing Curriculum and Instruction in Primary and Second Language Settings (3)**

Prerequisites: A valid California CLAD teaching credential or equivalent. Principles of curriculum development, with a focus on primary language and second language teaching, learning and critical literacy. Candidates will analyze a variety of US and Mexican program sites to conduct research and create curricular programs. (Offered in both the US and Mexico. [new course; BCLAD Domain 4]; 10 hours fieldwork) Traditional grading only. Same as EDEL 541.

**542. Situated Learning in Bilingual Contexts (3)**

Prerequisites: A valid California CLAD teaching credential or equivalent. Hands-on experiences in Spanish language and bilingual-bicultural settings in Mexican public, private and indigenous schools. Interaction with Mexican educators, students and families. Critical analysis of a wide variety of educational models with application to Latinos in US schools. (Offered in Mexico; [new course; BCLAD Domains 4, 5, 6] 15 hours of field experience). Traditional grading only. Same course as EDEL 542.

**543. Integration of Technology in Reading/Language Arts (3)**

Prerequisites: EDP 443 or ETEC 444 or equiv. Course approved by CTC that meets credential requirement, or approval of instructor. Exploration of the impact of technology on reading and language arts; investigation and evaluation of software and media programs for reading/language arts. Includes current issues in technology and change strategies for staff development and integration of technology in the curriculum. Traditional grading only. Same course as EDEL 543.

**544. Foundations of Literacy Research (3)**

Prerequisite: California Reading Certificate or consent of instructor. Introduction to critical analysis of literacy research, with emphasis on classic and contemporary studies. Includes experimental designs, descriptive studies, case studies, correlational research, ethnographies, and the teacher-as researcher. Same course as EDEL 544.

**545. Issues/Trends in Reading Pedagogy (3)**

Prerequisites: EDEL 452 or EDSE 457. Credentialed teaching experience or consent of the instructor. Current trends in the teaching of reading in K-12. Emphasis on applied theory to support important trends such as Early Intervention and Literacy Programs. Issues of Language and Cultural Diversity, Adolescent Reading, Adult Literacy, Family Literacy issues. Traditional grading only. Same course as EDEL 545.

**551. Assessment and Instruction in Reading and Writing**

Prerequisite: Admission to Reading Certificate Program or consent of instructor. A comprehensive study of reading and writing assessment and instruction. Examination and evaluation of procedures, strategies and materials effective in designing appropriate reading and writing instruction with an emphasis on early detection and correction of reading difficulties. Fieldwork required. Traditional grading only. Same course as EDEL 551.

**554. Reading/Language Arts Curriculum: Leadership and Supervision (3)**

Prerequisite: California Reading Certificate or consent of instructor. Examines varied roles and responsibilities of the Reading/Language Arts Specialist including intervention, curriculum development, supervision, program development, and leadership. Traditional grading only. Same course as EDEL 554.

**556. Theoretical Models and Processes of Reading (3)**

Prerequisite: California Reading Certificate or consent of instructor. Exploration and analysis of current and historic theoretical models of the reading process, and examination of their influence on curriculum and instructional issues in reading and language arts. Traditional grading only. Same course as EDEL 556.

**558. Language Study for Reading Teachers (3)**

Prerequisites: EDSE 540 and admission to the Reading Certificate program or consent of instructor. The relationships among phonology, morphology, semantics, syntax, pragmatics, and the teaching of reading. The focus is on developing phonemic awareness, phonics, decoding strategies, vocabulary, spelling, grammar skills, and comprehension in emergent and developing readers, including English language learners. Includes evaluation of instructional materials. Traditional grading only. Same course as EDEL 558.

**559. Practicum in Teaching Reading/Language Arts (3)**

Prerequisites: EDSE 551 and admission to the Reading Certificate program or consent of instructor. Includes methods and intervention approaches for meeting the needs of struggling readers at both early and intermediate levels of reading acquisition, and the tutoring or small-group instruction of these students. Classroom field experience is required. Traditional grading only. Same course as EDEL 559.

**625. Advanced Analysis of Instruction Through Reflective Strategies (3)**

Prerequisites: Teaching experience in grades K-12, EDEL/EDSE 500A or EDEL/EDSE 501, ED P 500 or ED P 696. Advanced study of instructional process through the study of theory and research on teaching. Applied to the observation, diagnosis, analysis, and evaluation of the instructional process in grades K-12. The focus is practical application of theory and research to improve instructional effectiveness through analysis and reflective strategies. Same course as EDEL 625.

**651. Advanced Diagnosis and Intervention in Reading/Language Arts (3)**

Prerequisites: EDEL 551 or equivalent; valid California Reading Certificate or consent of instructor. Includes clinical practicum and seminar on diagnosing and providing appropriate intervention for children with delayed literacy development. Traditional grading only. Same course as EDEL 651.

**695. Seminar in Teacher Education (3)**

Prerequisites: Advancement to candidacy, approval of graduate director, and written application to Graduate Office. Application for enrollment must be made by March 1 for the fall semester and summer session, or by October 1 for spring semester. Successful completion of all required course work for the Master of Arts in Education, options in elementary or secondary education. Advanced studies in elementary and secondary education including

reviews of the literature, and critique of educational research. Analysis of current trends, critical problems, and issues in education. For qualified candidates preparing to write the comprehensive examination. Traditional grading only. May be repeated once with permission of instructor. Same course as EDEL695.

**697. Directed Research (1-3)**

Prerequisites: Consent of instructor, department chair and associate dean. Individual research or intensive study under the guidance of a faculty member. A student may enroll for one-three units to a maximum of three units for certificate and degree purposes, subject to suitable change in course content. Application for enrollment must be made by March 1 for the fall semester and summer session or by October 1 for the spring semester.

**698. Thesis (3,3)**

Prerequisites: Advancement to candidacy, ED P 696, approval by director, department chair and associate dean. Planning, preparation and completion of a thesis under supervision of a faculty committee. Must be taken for six units. Application for enrollment must be made to the Graduate Studies Office by March 1 for the fall semester and summer session or October 1 for the spring semester.

The Department of Theatre Arts offers three basic programs leading to the bachelor of arts degree with opportunities for options in Performance (acting), Technical Theatre (scenery/costume/ lighting design), and General Theatre. This flexibility of program planning in Theatre Arts has been organized to serve student needs in three principal areas: (1) Enrichment of the student's liberal arts background through the development of appreciations and insights derived from theatre arts courses taken as general education electives. (2) Development of interests and skills that will offer the student life-long satisfactions as an avocational outlet. (3) Preparation for theatre professions in community theatre, recreational theatre, educational theatre, and professional theatre. These courses cover the full range of world drama from both the viewpoint of theatre and dramatic literature.

The W. David Sievers Memorial Scholarship in acting, named for the first faculty member of the theatre program, is awarded annually to new students who exhibit potential in the field of performance. Award consists of a modest sum and is determined through competitive audition judged by faculty. In addition, the Fine Arts Affiliates of the University and the Dramatic Allied Arts Guild of Long Beach provide for monetary awards to qualified students in all areas of theatre. For further information contact the Department of Theatre Arts.

The Department of Theatre Arts offers graduate study leading to the Master of Fine Arts degrees. The candidate is urged to observe the general requirements stated in this *Catalog*, as well as the specific departmental requirements stated here and, more fully, in the Department Program Planners, available upon request from the department.

All majors are required to participate in the departmental production program. Furthermore, majors enrolled in any acting course are expected to audition and participate in departmental productions in that semester. The student is expected to accept any role in which he/she is cast. Majors are also expected to seek approval from their advisor before making any commitment to a theatre program which lies outside of the departmental academic atmosphere.

The Theatre Arts Department holds division II membership in the National Association of Schools of Theatre (National Association of Schools of Theatre, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190, phone: 703-437-0700). The Bachelor of Arts, and Master of Fine Arts degrees are accredited by the association. The department is also a member in good standing with the Theatre Communications Group and the International Theatre Institute of the United States.

## Bachelor of Arts in Theatre Arts

The General Option in the Bachelor of Arts in Theatre Arts provides the opportunity for the student to gain a broad exposure to the discipline. The curriculum requires study in Acting, Technical and Design Crafts, the History, Literature and Criticism of Theatre, and in Directing.

## Requirements

The Theatre Arts core is required for all majors regardless of option.

THEA 010 is required each semester of enrollment. These units are not included in the 120 for graduation.

Lower Division: THEA 010, 101, 114A, 142, 144, 146, 148

Upper Division: THEA 321, 322, 324I, 425, 426, 452, 476

All performance majors will also fulfill four performance requirements to graduate. This requirement is met through acting, understudying, directing or assistant directing for a Mainstage or Second Stage production; acting or directing for a Showcase production; or by a special assignment approved by the performance faculty.

No more than eight units of Theatre Arts activity (cast and/or crew) will apply toward degree requirements. Crew requirements for all majors: One major running crew assignment in residence for each of the areas of costume, make up, stage-craft and lighting to be satisfactorily completed during the semester following completion of the related course. Students with transfer credit in those related courses must fulfill the same running crew requirements within the first three semesters of matriculation into the University.

At the beginning of the semester, all incoming students, including transfer students (including those who have been inactive for a year in our department), are required to audition (in the case of the performance option) or interview (in the case of all other options). Auditions and interviews are conducted by appropriate faculty/student groups. (These auditions are required for admittance to certain upper division classes and are therefore used for appropriate placement of students at their level of competency as determined by the faculty.)

### General Option (code 2-5844) (120 units)

*Production:* Select 3 units from the following: THEA 310B, 340B, 410A, 410B, 440A, 440B

*Performance and Technical/Design:* Select from categories A & B 9 units from one category and 9 units from the other for a total of 18 units:

*Category A. Performance:* THEA 112, 114B, 214, 262, 364, 312, 316, 318, 374, 375, 380, 413, 414, 415;

*Category B. Technical/Design:* THEA 271, 341, 342, 352, 433, 441, 442, 447, 448, 449, 451, 471

### Option in Performance: Acting/Directing (code 2-5847) (120 units)

THEA 112, 114B, 214, 262, and 9 units from THEA 271, 312, 316, 318, 374, 375, 380, 413, 414, 498

### Option in Technical Theatre: Scenery/Costume/Lighting Design (code 2-5848) (120 units)

THEA 341, 352, 433, 451, and 9 units from the following: THEA 340B, 342, 440A, 440B, 441, 442, 446, 447, 448, 449, 455, 457, 472, 498.

## Master of Arts in Theatre Arts (code 5-5844)

### Prerequisites

1. A bachelor's degree with a major in Theatre Arts; or

2. A bachelor's degree with 24 units of upper division work in Theatre Arts, including courses comparable to those required at this University.

Each student applying for admission to a graduate degree program in Theatre Arts must initiate, in the department office, a request to receive a departmental evaluation, based upon diagnostic examination and an analysis of official undergraduate transcripts to determine any deficiencies and all areas which must be strengthened by the graduate program.

### Advancement to Candidacy

1. Satisfy the general University requirements;
2. Remove all undergraduate deficiencies as determined by the departmental evaluation and/or the Dean of Graduate Studies;
3. Submit a program for approval by the department chair, the graduate advisor and the Dean of Graduate Studies.

### Requirements

A minimum of 36 units in approved upper division and graduate courses, including:

1. 22 units in Theatre Arts, of which at least 18 units must be in the 500 and/or 600 series completed at this University. Required courses: THEA 696, 694, 523, 426, 514 or 542, and 698. Determination of the specific courses will be made by the Theatre Arts Graduate Committee and approved by the Theatre Arts Graduate Advisor;
2. 14 approved elective units, of which six may be in approved areas related to Theatre Arts. (No more than 6 units may be in Education. Student teaching and special methods courses will not apply);
3. Each student will select an area of specialization and complete a research thesis. The student must enroll in THEA 698 to a maximum of 4 units and thereafter enroll in XGS 700 until the thesis is complete and approved.

## Master of Fine Arts in Theatre Arts

The Master of Fine Arts Degree in Theatre Arts is the terminal degree offering the minimum professional training deemed necessary by the major Theatre Arts Schools in the United States.

All students admitted to the MFA program are members of California Repertory Company and are subject to the operating procedures of the company. CalRep, the professional arm of the Theatre Arts Department, prepares and performs plays from the canon of international dramatic literature.

### Criteria for Admission to the Program

1. Students applying for the MFA program must have completed a bachelor's or master's degree in Theatre Arts from an accredited institution with a 3.0 GPA in upper-division theatre courses, meet University admission requirements, and submit evidence of creative ability and professional intent in one of the following areas: Acting, Technical Theatre/Design, Theatre Management;
2. When an undergraduate degree has been completed in a program having different requirements than those at CSULB or in some field other than Theatre Arts, additional preparation and time may be required before the student can be considered for classified status in the degree program. Up to 24 units of credit from an MA degree program may be acceptable after review of the faculty evaluation committee and approval by the Dean;

- Admission to the program in Acting requires audition and interview. Admission to the program in Technical Theatre/Design requires interview and/or submission of original work such as manuscripts, designs, renderings, slides, models and/or working drawings;
- All students admitted into the MFA program will be admitted as conditionally classified. In order to obtain fully classified status, a committee from the Theatre Arts faculty must authorize continuation in the program after evaluating academic progress, individual skills development and review of performance or portfolio at the end of the student's first full year of residence.

#### Advancement to Candidacy

- Attain fully classified status;
- Remove all undergraduate deficiencies determined by the departmental evaluation and the Dean of the College;
- Submit a program for approval by the department chair, the graduate advisor and the Dean of the College.

#### Requirements

The MFA degree is a 60-unit degree normally requiring full time residency. Course requirements are arranged according to the following structure depending on the student's choice of option, Acting or Technical Theatre/Design:

##### Option in Acting (code 7-5847)

60 units to include: 501 (one unit), 514, 517 (4 units), 518 (4 units), 519 (4 units), 520A, 520B, 521A, 521B, 522A, 522B, 523, 530A, 530B, 531A, 531B, 532A, 532B, 564A, 564B, 565A, 565B, 566A, 566B, 696, 699 (two units).

##### Option in Technical Theatre/Design (code 7-5848)

###### Costume Concentration

60 units to include: THEA 501, 517, 518, 519, 523, 541, 542, 544, 546A, 546B, 556A, 556B, 583, 584, 586, 656A, 656B, 696; and 4 units from THEA 540, 543, 554; and 9 units of electives. Electives, with advisors approval, can be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

###### Lighting Concentration

61 units to include: THEA 501, 517, 518, 519, 523, 541, 542, 544, 545A, 545B, 548A, 548B, 577, 584, 648A, 648B, 649A, 649B, 696; and 4 units from 540, 543, 554; and 9 units of electives. Electives, with advisor's approval, may be taken from the University at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

###### Theatre Management Concentration

60 units to include: THEA 451, 501 (one unit), 502 (6 units), 503, 504, 517(4 units), 518 (4 units), 519 (4 units), 523, 602 (9 units), 690, 696, 699 (5 units), MKTG 500, ACCT 500 and three units of electives. Electives, with advisor's approval, may be taken from the University at large.

###### Scenery Concentration

60 units to include: THEA 501, 517, 518, 519, 523, 541, 542, 544, 545A, 580A, 580B, 581, 584, 585A, 585B, 685A, 685B, 696; and 4 units from 540, 543, 554; and 9 units of electives. Electives, with advisor's approval, can be taken from the Uni-

versity at large. Recommended electives include courses from Theatre Arts, Art, Art History, Music, and Design.

The options share a common core of courses with offer study in aesthetics, conceptualization, history, theory, literature, and research. The remainder of the courses offer students the opportunity to further develop artistic skills in their particular area of option. The program culminates in a major creative project.

- The Acting option requires work in voice, movement, and process each semester. Process classes explore a wide range of acting styles. Ongoing performances in public presentations are required.
- The Technical Theatre/Design option requires work in a variety of skills development which emphasizes the technological as well as the artistic aspects of design and execution. Continuous advancing assignments in productions for public performances are required.

#### M.F.A. Transfer and Residence Policy

Transfer credit allowable toward the M.F.A. Is normally not to exceed 24 units. All transferred credit use in the M.F.A. Program must be approved by the Graduate Advisor.

#### Courses (THEA)

##### Lower Division

###### 010. Theatre Arts Showcase (1)

Participation in weekly programs dealing with all aspects of Theatre Arts. Required of Theatre Arts majors each semester. These units do not count toward graduation.

###### 101. Fundamentals of Script Analysis (3)

A basic approach to the analysis of the play script, intended to provide theatre practitioners and generalists with the tools necessary to understand the literary text of a play, and its application to work in performance, design and critical/ historical studies. Traditional grading only.

###### 110A,B. Theatre Arts Activity-Cast (1,1)

Participation in acting projects; open to students cast in University-sponsored productions.

###### 112. Beginning Voice and Speech for the Actor (3)

Theory and practice in developing command of oral techniques for stage including breath support, resonance, free vocal release, and articulation. Traditional grading only. (CAN DRAM 6)

###### 113. Introduction to Acting (3)

Prerequisite or Corequisite: A General Education Foundation course. Review of actors and acting, past and present; their work as artists; basic exercises in voice, diction, movement, and personality projection. Open only to non-Theatre Arts majors. Attendance at University sponsored productions required.

###### 114A,B. Fundamentals of Acting (3,3)

Development and preparation of the actor's instrument: voice, body, imagination. Exercises in relaxation, sensory work, motivations and relationships. Individual study of textual problems for actors. (6 hrs lab.) (114A, CAN DRAM 8)

###### 122. Appreciation of Theatre Arts (3)

Prerequisite or Corequisite: A General Education Foundation course. Appreciation and understanding of the arts of the theatre for the non-theatre major; standards for critical evaluation of the live theatre; lecture, discussion, written critiques and attendance at University sponsored productions required; not open to students with credit in THEA 124.

###### 124. Introduction to World Theatre and Drama (3)

Prerequisite or Corequisite: A General Education Foundation course. Introduction to all aspects of theatre including criticism, dramatic literature, movements, themes, historical background and theatrical production from different parts of the world.

**140A,B. Theatre Arts Activity — Crew (1,1)**

Participation in technical play production projects; specific assignment determined at initial meeting; 60 hrs minimum participation time or major crew assignment.

**142. Elementary Stagecraft (3)**

Basic physical equipment of the theatre, elementary scenic design, construction, rigging, painting and drafting. Practical lab assignments dealing with the preparation of scenery and props for University sponsored productions. Traditional grading only. (1 hour lecture, 4 hours lab.)

**144. Stage Make-up I (3)**

Practical introduction to techniques of theatrical make-up. Students must be clean-shaven due to the nature of the course. Preparation of make-up material for University sponsored productions. May be taken concurrently with THEA 146. Traditional grading only. (9 or more hrs lab.)

**146. Costume Crafts I (3)**

Techniques of costume and accessory construction for the stage; use of fabrics, materials and equipment. Preparation of costumes and accessories for University sponsored productions. May be taken concurrently with THEA 144. Traditional grading only. (9 or more hrs lab.)

**148. Stage Lighting (3)**

Theory and practice of modern stage lighting; functions of light; design of lighting layout; properties of various instruments; practical experience in the hanging and focusing of lighting equipment for University sponsored productions. Traditional grading only. (1 hour lecture, 4 hours lab.)

**210A,B. Theatre Arts Activity — Cast (1,1)**

Prerequisite: Sophomore class standing. Participation in acting projects; open to students cast in University-sponsored productions. (3 or more hrs lab.)

**214. Intermediate Acting (3)**

Prerequisites: THEA 112, 114A and B. Should be taken directly following THEA 114B. Introduction to scene study. Application of techniques of body, voice and imagination to dramatic texts thereby stimulating an acting process for the development of a role. Traditional grading only. (6 hours laboratory.)

**240A,B. Theatre Arts Activity — Crew (1,1)**

Prerequisite: Sophomore class standing. Participation in technical play production projects; specific assignment determined at initial meeting; 60 hrs minimum participation time or major crew assignment. (3 or more hrs lab.)

**262. Beginning Movement for the Actor (3)**

Practical study of movement fundamentals, body awareness, physical intentions, and non-verbal communication related to the beginning acting process.

**271. Stage Management (3)**

Management skills required for the professional stage manager. Course examines responsibilities, and function of the stage manager in relation to the director, designers, and performers. Traditional grading only. (6 hrs lab.)

**Upper Division**

**310A,B. Theatre Arts Activity — Cast (1,1)**

Prerequisite: Junior class standing. Participation in acting projects; open to students cast in University-sponsored productions. (3 or more hrs lab.)

**312. Applied Voice and Speech for the Actor (3)**

Prerequisite: THEA 112 or equivalent. Further study of vocal techniques for the theatre, including variety of quality, force, tempo and pitch, scansion, and imagery. Application of basics learned in 112 to more complicated dramatic texts.

**316. Rehearsal and Performance (3)**

Prerequisites: THEA 214. Performance based class focusing on the interrelationship of actor and director. Working with the director on the creative process, interpreting the demands of the director and combining these with the actor's creative process. Traditional grading only. (6 hours laboratory.)

**318. Advanced Scene Study (3)**

Prerequisites: THEA 214, 316, and/or consent of instructor. Intensive scene study in modern dramatic texts. The class is designed to continue and strengthen the process of role development for the actor through scenic exercises. May be repeated to a maximum of six units. Traditional grading only. (6 hours lab.)

**321. History of Theatre and Drama to 1660 (3)**

Prerequisite: THEA 101 or concurrent enrollment or consent of instructor. Development of Theatre Arts from primitive origins to the 17<sup>th</sup> Century. Traditional grading only.

**322. History of Theatre and Drama Since 1660 (3)**

Prerequisite: THEA 321 or consent of instructor. Development of Theatre Arts from the 17<sup>th</sup> Century to the present. Traditional grading only.

**324I. Theatre Today (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course examines current trends, achievements and problems in contemporary Western theatre and dramatic literature. The evolution of a piece of work from script to stage will be studied in order to understand better both the process and the impact of theatre as a defining expression of our cultural milieu. Theatre serves as a voice for each segment of our culture. Consequently, particular attention will be paid to multi-cultural expression in the theatre. The work of African American, Asian American, Latino and women playwrights and theatre groups will be examined in detail and contrasted with theatrical trends in Europe. Same course as C/LT 324I.

**333. The Art of Visual Expression in the Theatre (3)**

The course will explore the history of visual expression in the theatre and introduce the student to the basic skills in stage design including spatial design, composition, and color theory. The course will also cover the fundamentals of the process of designing for the theatre – developing the design from the initial script study through the collaborative process in rehearsal and into the theatre.

**340A,B. Theatre Arts Activity — Crew (1,1)**

Prerequisite: Junior class standing. Participation in technical play production projects; specific assignment determined at initial meeting; 60 hrs minimum participation time or major crew assignment. (3 or more hrs lab.)

**341. Presentation Techniques for Theatre (3)**

Develop an understanding of form, shape, line, and tone through exercises with various media. Explore approach to visualization and presentation techniques for theatre design. Traditional grading only. (6 hrs lab.)

**\*342. Advanced Technical Theatre (3)**

Prerequisite: THEA 142 or consent of instructor. The investigation of the tools, materials, and procedures used in scenic construction and rigging. Supervised practical application of the techniques through scenic drafting and work on University sponsored productions. (9 or more hrs lab.)

**352. Foundations of Visual Expression (3)**

Introduction to the basics of visual composition stressing a link to the arts of Theatre Design. Emphasizes the development of visual discipline, creative skills and the poetic and artistic nature of theatre design.

**364. Stage Combat (3)**

Prerequisite: THEA 262 or consent of instructor. A practical study of unarmed combat for the stage. Covers technique, safety, and application of combat skills to the acting process. Traditional grading only. (6 hrs lab.)

**373. Directing for the Camera (3)**

Prerequisites: THEA 214 or consent of instructor. Study of script analysis, filmic space, creating mise-en-scene, decoupage, and working with the actor. Emphasis on a series of collaborative exercises between director and actor.

**\*374. Fundamentals of Directing (3)**

Prerequisite: THEA 101 or consent of instructor. Introduction to script analysis, rehearsal techniques, director's prompt book and organization of stage space and time. Using contemporary realistic plays to develop actor/director communication skills. Intensive scene work.

**\*375. Intermediate Directing (3)**

Prerequisites: THEA 214, 316, 374, or consent of instructor. Intensive work using nonrealistic plays to develop director's concept, advanced script analysis and an approach to the challenges of style. Introduction to collaboration with set, lighting, costume, sound, and make up designers. Intensive scene work with student actors focusing on rehearsal techniques. (6 hrs lab.)

**\*380. Playwriting (3)**

Creative writing for the stage. Study of character, concept, theme, dialogue and structure.

**410A,B. Theatre Arts Activity — Cast (1,1)**

Prerequisite: Senior class standing. Participation in acting projects: open to students cast in University-sponsored productions. (3 or more hrs lab.)

**413. Film/Video Acting (3)**

Prerequisite: THEA 318 or consent of instructor. Acting techniques required for the stylistic range and variety of film and television scripts. Video recording and playback of scenes and filmic acting exercises to adjust acting skills to these media. Traditional grading only. (6 hrs lab.)

**414. Period Scene Study (3)**

Prerequisite: 318 and/or consent of instructor. Scenes from period plays including Greek, Shakespeare, Comedy of Manners. Analysis of the play's structure in terms of language, background, human behavior. May be repeated to a maximum of six units. Traditional grading only.

**415. Audition Techniques (3)**

Prerequisite: THEA 318 or consent of instructor. This course is designed to acquaint the actor with auditioning skills and practical business information necessary for acting professionally. Topics include: picture, resume, interview, audition, agent, casting, director, unions, contracts, job market and career strategies. Traditional grading only. (6 hrs lab.)

**425. Theatre and Cinema (3)**

Examines relationships between theatre and cinema both historically and within the problematics of realism, comedy and melodrama. Traditional grading only.

**\*426. Dramatic Theory and Criticism (3)**

Prerequisite: THEA 101 or consent of instructor. Study of the major theories of dramatic literature and performance. Analysis of dramatic works from the standpoint of genre, style and structure.

**433. Design for Theatre (3)**

Prerequisite: THEA 344. Integration of the styles and methods of theatrical costume, make-up, scenery and lighting design.

**440A,B. Theatre Arts Activity — Crew (1,1)**

Prerequisite: Senior class standing. Participation in technical play production projects; specific assignment determined at initial meeting; 60 hrs minimum participation time or major crew assignment. (3 or more hrs lab.)

**441. Scenographic Techniques (3)**

A study of the drafting techniques used to translate the designer's vision to the finished set on stage. Includes both traditional and computer aided design and drafting tools. Traditional grading only.

**442. Scenic Technical Skills (3)**

Prerequisites: THEA 342 or consent of instructor. The use of materials and construction methods in stage properties, set dressing and furniture. Painting techniques for scenery and properties. Supervision in the practical application of these elements in University sponsored productions. Traditional grading only. (6 hrs lab.)

**\*443. Stage Makeup III (3)**

Prerequisite: Permission of instructor. Advanced make-up techniques for characterization and style. Students must be clean shaven due to the nature of this course. Supervision in the practical application of these elements in University sponsored productions. Traditional grading only. (4 hrs lab.)

**\*446. Costume Design (3)**

Prerequisites: THEA 101, 146, 344 or consent of instructor. Development of costume design through character and script analysis and understanding of line, space, color, and texture. Planning and presentation of the costume rendering. May be repeated for a maximum of 6 units. Traditional grading only.

**447. Costume Technical Skills (3)**

Prerequisite: THEA 146 or consent of instructor. Analysis of the structure of costumes and accessories. Advanced technical projects using materials, patterning and construction methods in costume and accessories. Supervision in the practical application of these elements in University sponsored productions. (6 hours lab.) May be repeated for a maximum of 6 units. Traditional grading only.

**\*448. Lighting Design (3)**

Prerequisites: THEA 101, 148, 344 or consent of instructor. Techniques of designing lighting for various stage forms; creative planning and projection of designs for specific productions.

**\*449. Sound Design for the Theatre (3)**

Introduction to the scope, tools, materials and practices of sound in the theatre today. Traditional grading only.

**\*451. Computer Applications for the Theatre (3)**

The use of computers in the process of scenic, lighting, and costume design and the application of general purpose software in the management and operation of performing arts organizations.

**\*452. Writing for the Theatre Arts (3)**

Writing non-fiction prose, with emphasis on particular features of writing in the Theatre Arts. Traditional grading only. (6 hrs lab.)

**\*455. Metal Fabrication for the Stage (3)**

Prerequisite: THEA 142 or consent of instructor. A study of metalworking for the designer and technician in the theatre. Traditional grading only. (6 hrs lab.)

**\*466. Costuming for Media Productions (3)**

Exploration of costume skills specific to recorded media including continuity, script break-down and project management. Traditional grading only.

**472. Technical Direction (3)**

Prerequisite: THEA 342 or permission of instructor. The course will cover properties of materials, structural analysis, project planning processes and problem solving as they relate to the construction of stage scenery, its installation in the theatre, and the organizational process. Project work in the areas of scenery construction, rigging, pneumatics and hydraulics, shop organization and layout, and crew training and management will comprise the major portion of the course. Traditional grading only.

**\*476. Theatre Management (3)**

Examination of administration, management and promotion of a producing theatre organization. Practical application required in University-sponsored productions. (9 or more hrs lab.)

**\*490. Special Topics in Theatre Arts (1-3)**

Prerequisites: Senior standing in major or consent of instructor. Topics of current interest in Theatre Arts selected for intensive study. May be taken for maximum of nine units. Topics will be announced in the *Schedule of Classes*.

**\*498. Special Studies in Theatre Arts (3)**

Prerequisite: Senior standing in major or consent of instructor. Independent projects and research of advanced nature in the area of Theatre Arts under faculty supervision. Limited to 6 units in any one area. Area will be designated by letter at time of registration as (a) acting, (b) directing, (c) costume, (d) scenery, (e) properties, (f) playwriting, (j) theatre history, (k) theatre criticism, (l) movement, (m) makeup, (n) lighting, (o) voice, (p) stage management, (q) theatre management, (r) dance, (s) technical direction. Traditional grading only.

## Graduate Division

### 501. Introduction to Graduate Studies (1)

Methodological issues involved in graduate theatre research; bibliographical studies and library research; study and critical evolution of research; methods in the development of research as relates to the theatre artist. Traditional grading only.

### 502. Seminar in Theatre Management I (3)

Prerequisites: Acceptance into the MFA Program. Study of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. The principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study. Traditional grading only. Course may be repeated to a maximum of 6 units.

### 503. Leadership and the Arts (3)

Prerequisites: Acceptance into the MFA Program or senior status and completion of Thea 476 or consent of instructor. Study of contemporary principles of leadership and leadership development processes with special concern for application to people working in the arts. The context for leadership in arts organization is assessed and matched against students' personal leadership styles. Traditional grading only.

### 504. Managing the Not-For-Profit Arts Organization (3)

Prerequisites: Acceptance into the MFA Program or senior status and completion of THEA 476 or consent of instructor. Study of the principles of organizational management as applied to not-for-profit arts organizations. Issues include strategic planning and analysis, organizing, staffing, leading and controlling. Also to be studied are the principles and practices of fundraising in the not-for-profit environment. Traditional grading only.

### 514. History and Theory of Acting (3)

Prerequisite: Minimum of 6 units of acting or consent of instructor. Selected areas of study in the history, theories and criticism of acting.

### 517. Repertory Theatre I (2)

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Traditional grading only. May be repeated for a maximum of 4 units (6 hrs lab.)

### 518. Repertory Theatre II (2)

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Traditional grading only. May be repeated for a maximum of 4 units (6 hrs lab.)

### 519. Repertory Theatre III (2)

Prerequisites: Acceptance into the MFA Program. Design, preparation, rehearsals and performances of selected plays in California Repertory Company and University Players. Traditional grading only. May be repeated for a maximum of 4 units. (6 hrs lab.)

### 520A. Voice I (2)

Prerequisite: Acceptance into the MFA Program. Laying the groundwork in Voice and Speech techniques for professional actors. Traditional grading only. (4 hrs lab.)

### 520B. Voice I (2)

Prerequisites: Acceptance into MFA Program. Application of vocal technique into various styles of verse and prose for meaningful vocal expressiveness. Traditional grading only. (4 hrs lab.)

### 521A. Voice II (2)

Prerequisites: Acceptance into MFA Program. Exploration of extensive vocal variety and expressiveness, using the four components of voice: quality, force, tempo, pitch. Expanding the boundaries. Traditional grading only. (4 hrs lab.)

### 521B. Voice II (2)

Prerequisites: Acceptance into the MFA Program. Analysis and development of dialects and accents for performance. Traditional grading only. (4 hrs lab.)

### 522A. Voice III (2)

Prerequisite: Acceptance into MFA Program. Advanced study of dialects. Coursework covers research, analysis, and performance of selected dialects in the context of a play. Traditional grading only.

### 522B. Voice III (2)

Prerequisite: Acceptance into MFA Program. Exploration of microphone techniques. Coursework covers stand-up, radio drama, dubbing, animation, and practice in the development of a demo-tape for professional voice-over work. Traditional grading only.

### 523. Theory and Practice of Contemporary Theatre (3)

Critical exploration of the major schools of thought between 1970-present including styles, genres and both national and international trends. Contributions of theatre practitioners and theorists and the role of the audience in this period. Traditional grading only.

### 530A. Acting in Repertory I (2)

Prerequisite: Acceptance into the MFA program. Foundation and development of individual and ensemble acting techniques necessary for the repertory actor and company. Applicable and related to performance schedule. Traditional grading only.

### 530B. Acting in Repertory I (2)

Prerequisite: Acceptance into the MFA program and THEA 530A. Variable modules of technique training in ensemble and interaction skills for the repertory actor. Dependent upon needs of individual actor, ensemble and/or performance schedule. Traditional grading only.

### 531A. Acting in Repertory II (2)

Prerequisite: Acceptance into the MFA program. Development of a variety of acting techniques available to the actor for playing situation, character, style and theatricality. Applicable and related to the performance schedule. Traditional grading only.

### 531B. Acting in Repertory II (2)

Prerequisite: Acceptance into the MFA program and THEA 531A. Variable technique modules in further development of repertory acting skills for playing situation, character, style and theatricality. Dependent upon needs of individual actor, ensemble and/or performance schedule. Traditional grading only.

### 532A. Acting in Repertory III (2)

Prerequisite: Acceptance into the MFA program. Advanced and professional technique training of skill variety in the repertory actor. Applicable and related to the performance schedule. Traditional grading only.

### 532B. Acting in Repertory III (2)

Prerequisite: Acceptance into the MFA program and THEA 532A. Variable advanced technique modules for expansion and enrichment of professional acting skills for the individual and ensemble. Dependent upon needs of individual actor, ensemble and/or performance schedule. Traditional grading only.

### 540. Non-traditional Material Use in the Theatre (2)

Prerequisite: consent of instructor. Creative use of non-traditional materials in the design and fabrication of props, accessories and set dressing. Exploration into decorative techniques and processes in the fabrication and finishing. (4 hrs lab)

### 541. Portfolio Development (2)

A study of the content and presentation forms of the designer's portfolio, resume and cover letter. Acquaints the designer/technician with interview skills and practical business information. Traditional grading only. (4 hrs lab.)

### 542. History and Theory of Design for the Theatre (3)

Critical exploration of the evolution of design theory and styles through historical evidence from the Renaissance to the present.

### 550. Computer Graphics for Theatre Design (2)

Hands on course centered on the creation and use of computer based graphic images and their application to costume, scenic, and lighting design and theatre management. Emphasis will be placed on illustration, photo and scanned image manipulation, figure drawing, and paint programs. Traditional grading only.

### 544. Visual Concepts in Theatre Design (2)

Foundations in visual conceptualization emphasizing the development of visual discipline, creative skills and the poetic nature of theatre design. Traditional grading only. (4 hrs lab)

- 545A. Computer Aided Design for the Theatre (2)**  
The application of two and three dimensional computer aided design and drafting programs to problems in technical theatre and design. The course concentrates on the application of 2D CADD programs to common theatrical drafting problems. The course will also explore the use of 3D CADD programs as a tool for the designer in the exploration of the theatrical space. Traditional grading only. (4 hrs lab.)
- 545B. Computer Aided Design for the Theatre (2)**  
Prerequisite: THEA 545A or consent of instructor. Advanced application of computer aided design for the theatrical lighting designer. Traditional grading only. (4 hrs lab.)
- 546A. Advanced Costume Design I (2)**  
Development of costume design through character and script analysis, and understanding of line, space, color and texture. Traditional grading only. (4 hrs lab.)
- 546B. Advanced Costume Design I (2)**  
Prerequisite: THEA 546A or consent of instructor. Exploration of the elements of design as demanded by a variety of scripts and styles. Traditional grading only. (4 hrs lab.)
- 548A. Advanced Lighting Design I (2)**  
Techniques of designing lighting for various stage forms. Traditional grading only. (4 hrs lab.)
- 548B. Advanced Lighting Design I (2)**  
Prerequisite: THEA 548A or consent of instructor. Creative planning and development of lighting designs for specific productions. Traditional grading only. (4 hrs lab.)
- 554. Textile Applications in Theatre Design (2)**  
Exploration and creative application of techniques of manipulating, painting and dyeing textiles for theatrical design. Traditional grading only. (4 hrs lab.)
- 556A. Advanced Costume Design II (2)**  
Development of skills in visual communication and style, including advanced rendering techniques and presentation. Traditional grading only. (4 hrs lab.)
- 556B. Advanced Costume Design II (2)**  
Prerequisite: THEA 556A or consent of instructor. Development of skills in research, interpretation, conceptualization and integrating multiple sources in design. Traditional grading only. (4 hrs lab.)
- 564A. Movement I (2)**  
Prerequisite: Acceptance into the MFA Program. Practical study in movement fundamentals, body mechanics, and non-verbal communication. Exploration of movement as actor's tool to aid in the acting process. Traditional grading only. (4 hrs lab.)
- 564B. Movement I (2)**  
Prerequisite: Acceptance into the MFA Program. Analytical and practical exploration of movement principles of weight, space, time, and energy and their application to the acting process. Traditional grading only. (4 hrs lab.)
- 565A. Movement II (2)**  
Prerequisite: Acceptance into the MFA Program. A practical study of unarmed combat for the stage. Coursework covers technique, safety, choreography, and application to the acting process, including the performance of scenes that include combat. Traditional grading only. (4 hrs lab.)
- 565B. Movement II (2)**  
Prerequisite: Acceptance into MFA Program. A practical study of armed combat for the stage, including quarterstaves, broadswords, sabres, rapiers and daggers. Coursework covers technique, safety, choreography, and application to the acting process. (4 hrs lab.) Traditional grading only.
- 566A. Movement III (2)**  
Prerequisites: Acceptance into the MFA Program. Historical and practical study of movement styles from selected theatrical periods through the eighteenth century. Coursework covers social dancing, movement, manners, and the handling of period costumes, props, and accessories. Traditional grading only.
- 566B. Movement III (2)**  
Prerequisite: Acceptance into MFA Program. Historical and practical study of movement styles of the nineteenth and twentieth centuries. Coursework covers social dancing, movement, manners, and the handling of period costumes, props, and accessories. Traditional grading only.
- 580A. Scene Design I (2)**  
Development of scene design through script analysis and understanding of space, form, line, color, texture and mood. Planning and development of the scenic rendering and model. Traditional grading only.
- 580B. Scene Design I (2)**  
Prerequisite: THEA 580A or consent of instructor. Exploration of the elements of scenic design as demanded by a variety of scripts and styles with specific challenges and complex production format. Traditional grading only.
- 581. Scenographic Techniques (2)**  
A study of the drafting techniques used to translate the designer's vision to the finished set on stage. Includes both traditional and computer aided design and drafting tools. Traditional grading only.
- 583. Theatrical Patterning Methods (2)**  
Exploration of fitting, advanced patterning and construction techniques. Projects in fitting problems, flat patterning, draping, understructures and tailoring for the theatre. Traditional grading only.
- 584. Rendering and Painting for Theatre (2)**  
Introduction to the basics of rendering and painting stressing a link to the arts of theatre design. Developing an ability to depict form and space. Emphasizes the development of visual discipline, drawing and rendering techniques used in the visual presentation of stage design and scenic painting. Traditional grading only for Majors. (6 or more hours lab)
- 585A. Scene Design II (2)**  
Projects in scene design for the multi-set play. Consideration of stylistic unity, current trends and approaches as well as shifting problems. Development of advanced rendering techniques. Traditional grading only. (4 hrs lab.)
- 585B. Scene Design II (2)**  
Prerequisite: THEA 585A or consent of instructor. Further development of skills in scene design for the multi-set play. Development of advanced model making techniques. Traditional grading only. (4 hrs lab.)
- 590. Graduate Design (3)**  
Prerequisite: Acceptance into MFA Program. Advanced design projects and concepts with faculty supervision. Limited to 6 units in any one area and no more than 6 units in all areas in any one semester. Area will be designated by letter at time of registration as (c) costume, (d) scenery, (e) properties, (m) makeup, or (n) lighting. Traditional grading only.
- 602. Seminar in Theatre Management II (3)**  
Prerequisites: Acceptance into the MFA Program. Study of the application of contemporary principles of management processes specifically targeted to people pursuing professional Theatre Arts Management careers. The applications of the principles and practices of marketing, development, fund-raising, and publicity are analyzed and assessed through research and study. Course may be repeated to a maximum of 9 units. Traditional grading only.
- 614. Advanced Period Scene Study (3)**  
Prerequisite: Acceptance by audition into MFA program. Acting in Shakespeare and advanced scene study from selected theatrical periods and plays. Analysis and exercises include language, background, human behavior. Traditional grading only.
- 648A. Advanced Lighting Design II (2)**  
The direct application of cueing and the structuring of the total lighting design within the time constraints of rehearsal and production. Traditional grading only. (4 hrs lab.)
- 648B. Advanced Lighting Design II (2)**  
Prerequisites: THEA 648A or consent of instructor. Development of skills in the lighting design process for a variety of scripts and styles with specific challenges and complex production format. Traditional grading only. (4 hrs lab.)

**649A. Advanced Lighting Design III (2)**

Development of skills in lighting for the musical, opera, and dance. Traditional grading only.

**649B. Advanced Lighting Design III (2)**

Prerequisite: 649A or consent of instructor. Development of skills in lighting for other production venues. Traditional grading only.

**656A. Advanced Costume Design III (2)**

Development of skills in costume design for the musical, opera, and dance. Traditional grading only. (4 hrs lab.)

**656B. Advanced Costume Design III (2)**

Prerequisite: THEA 656A or consent of instructor. Development of skills in costume design for other production venues. Traditional grading only. (4 hrs lab.)

**685A. Scene Design III (2)**

Development of skills in scene design for the musical, opera, and dance. Traditional grading only. (4 hrs lab.)

**685B. Scene Design III (2)**

Prerequisites: THEA 685A or consent of instructor. Further development of skills in scene design for other production venues. Traditional grading only. (4 hrs lab.)

**686. Theatrical Tailoring (2)**

Investigation of tailored garments and understructures in selected historical periods. Projects in traditional and contemporary hand machine tailoring techniques, and in specialized construction for undergarments. Supervision in the practical application of these elements in university sponsored productions. (4 hrs lab.) Traditional grading only.

**690. Special Topics in Theatre Arts (1-3)**

Topics of current interest in Theatre Arts selected for intensive study. May be taken for maximum of nine units. Topics will be announced in the Schedule of Classes. Traditional grading only.

**694. Advanced Studies in Theatre Arts (3)**

Advanced individual projects with faculty supervision in an area of Theatre Arts specialization. Limited to three units in any one area per semester and no more than six units in one semester with a total of nine units in any one area. Areas will be designated by letter at time of registration as (a) acting, (b) directing, (c) costumes, (d) scenery, (e) properties, (f) playwriting, (j) theatre history, (k) theatre criticism, (l) movement, (m) makeup, (n) lighting, (o) voice, (p) stage management, (q) theatre management, (s) technical direction. Traditional grading only. Course may be repeated to a maximum of 9 units.

- A. Acting
- B. Directing
- C. Costumes
- D. Scenery
- E. Properties
- F. Playwriting
- J. Theatre History
- K. Theatre Criticism
- L. Movement
- M. Makeup
- N. Lighting
- O. Voice
- P. Stage Management
- Q. Theatre Management
- S. Technical Direction

**696. Aesthetic Theory and Conceptualization (3)**

A study of theoretical aesthetics as it applies to the creative act. Practical application of research and variable aesthetic elements in production style and conceptualization. Traditional grading only.

**698. MA Thesis (1-4)**

Prerequisites: Advancement to candidacy and consent of department chair. Preparation, completion and submission of thesis. Traditional grading only.

**699. MFA Thesis (1-6)**

Prerequisite: Advancement to candidacy and consent of department chair. Planning, preparation and completion of thesis related to field of specialization. Traditional grading only. Course may be repeated for a maximum of 6 units.

# UNIVERSITY HONORS PROGRAM

*University Academic Programs*

The University Honors Program exists to provide a selected group of qualified students with a unique educational experience. It unites the committed student and faculty member in a learning relationship in which each has the highest expectations of the other. The Program seeks to accomplish these goals in two ways: first, it broadens students' intellectual horizons by encouraging them to explore areas of thought not closely related to their major fields of study; and second, it allows students to work in their major fields in greater depth than would be possible in a conventional course pattern. The work of the first two years satisfies, in part, the University's General Education Requirements and is directed toward the first objective. The work of the Junior and Senior years, which includes independent study experiences and a senior thesis, is directed toward the second objective.

The University Honors Program is designed so that students will not only master a substantial amount of knowledge, but will also develop the capacity for balanced intellectual judgment and the powers of abstraction and conceptualization. Students will be immersed in the learning process and therefore must have both the ability and willingness to do intense and often self-directed intellectual work as well as a desire to make the most of the opportunities available in the University.

Students who successfully complete the requirements of the University Honors Program will receive a Certificate and an annotation on their transcript which mark the graduate as a person of intellectual accomplishment, one who has demonstrated a disciplined curiosity and dedication to the pursuit of knowledge.

Available within the University Honors Program are three alternatives designed to meet the varying needs of students.

1. General Honors;
2. Honors in the Major;
3. A combination of the above for which both the course work prescribed for General Honors and the departmental requirements for Honors in the Major are successfully satisfied.

## *General Honors*

General Honors is a special approach to the General Education Requirements of the University which enhances and builds on them. It is a program of carefully selected courses and specially designed, multi-disciplinary seminars from which a student chooses a minimum of 30 units (a minimum of 18 units in the case of upper division transfers), most of which are applied toward the 51 units of General Education courses required for graduation of all students. Those courses designated for General Honors credit encourage student participation on an academic level not generally possible in the usual curricular offering.

## Objectives

- to provide highly motivated students an exceptional educational opportunity to challenge and expand their intellectual capacities, especially in terms of increased breadth and depth;
- to deepen the students' intellectual experiences by stimulating and guiding their own curiosity;
- to encourage freedom of initiative;
- to provide an academic and cultural environment that inspires creative activity through close working relationships with distinguished faculty;
- to advise students in their academic planning to meet the University's General Education requirements through a cohesive and unified program of study;
- to prepare students to write an Honors Thesis that is a preparation for advanced study, and a demonstration that the student has acquired the intellectual confidence and academic independence that are indicative of the maturely educated person.

## Admission Requirements

There are three ways a student may enter the University Honors Program:

- Incoming students are invited to apply to General Honors on the basis of high school class standings, ACT composite score, and/or SAT scores. Normally, students should be in the upper ten percent of their high school classes, and have a composite ACT score of at least 24, and/or a SAT score of at least 1100, and a GPA of 3.3 or better. However, if not all of these criteria are met, a combination of them may be evaluated in addition to a letter of recommendation and a personal interview with the Honors Program Director.
- Any student who maintains a 3.3 or better overall GPA at California State University, Long Beach in 12 or more units of coursework is eligible to participate in General Honors with a letter of recommendation from one of her/his instructors and a personal interview with the Honors Program Director. Students with a GPA of 3.3 or above in 12 or more units at California State University, Long Beach normally will be granted automatic acceptance into the Program upon application.
- Students not meeting the designated criteria may petition for admission to General Honors. Students are required to submit letters of recommendation from two instructors familiar with their work. These exceptional cases will be reviewed by the Director and the University Honors Council. Students are encouraged to petition if they have a good explanation for not meeting the basic requirements and/or a strong motivation to participate in the Program.
- Transfer students may enter General Honors provided they have a minimum equivalent of a 3.3 average in all course work at the accredited institution from which they are transferring.

Qualified students may enter General Honors as late as the junior year. Where Honors transfer agreements have been negotiated with a community college (such as with Long Beach City College) up to 12 transfer units will be

accepted as meeting the requirements of the CSULB University Honors Program. Otherwise a waiver of some of the required Honors credits (not more than 6) may be granted by the Director and the University Honors Council.

## General Information

Students who have failed to enroll in courses for Honors credit for two consecutive semesters will normally be withdrawn from the program;

A University Honors student who withdraws from the University during any semester will also be withdrawn from the program. A student may apply for readmission at the beginning of any semester in which he/she plans to enroll.

## General Honors (code 1-0001)

### Requirements

Every student electing General Honors in the University Honors Program must complete all university-wide graduation requirements, and the requirements for a major. General Honors is itself not a major.

A student must maintain an overall GPA of 3.00 or better in Honors and in all University courses attempted.

General Honors Plan I (minimum of 30 units) is designed for entering freshmen and consists of a minimum of 21 units of lower- and upper-division General Education courses (which include UHP 100 and UHP 150), UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

General Honors Plan II (minimum of 18 units) is primarily for upper-division transfers from community colleges and consists of nine units of upper-division General Education courses, UHP 300 (a non-General Education course), and a culminating 6-unit senior thesis/project in the student's major (UHP 496, Research Participation, and UHP 498, Senior Thesis/Project).

## Honors in the Major (code 1-0003)

Honors in the Major (minimum of 9 units) is designed for students who elect not to take General Education courses as a part of the University Honors Program or who decide to enter the Honors Program too late to do so; Honors in the Major consists of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498). Students in General Honors whose major department offers an Honors in the Major Program may apply to participate in both programs, in which case the General Honors thesis requirement would be satisfied through the Honors in the Major option.

In consultation with a Departmental Honors in the major Faculty Advisor, a student can plan an enriched course of study in an academic major. This opportunity for program flexibility makes it possible for a student to elect the most relevant, exciting and enriched experiences offered by the department.

Although Honors in the major requirements may vary among departments; usually they entail independent study, seminar courses, high levels of performance, and senior projects or theses culminating in a broad knowledge of subject matter. Information concerning Honors in the Major is available in the University Honors Program Office and in participating departmental offices.

## Admission Requirements

Please contact the department office or the University Honors Program Office for information regarding admission. Normally a student must be a declared major, usually with at least sophomore (30 units) standing.

## Requirements

1. Completion of the requirements for the major. (The approval of the department chair and the Departmental Faculty Honors Advisor must be obtained to change any of the general major requirements);
2. Completion of a minimum of one upper-division Honors—specific course in the student's major department and a culminating 6-unit senior thesis/project (courses in the major department equivalent to UHP 496 and UHP 498).

## Courses (UHP)

### 100. Angles of Vision — Honors (3)

This course emphasizes the kind of analytical and critical approaches that lead to original and creative thinking. The course concentrates on the development of seminar skills: the open exchange of viewpoints in discussion, close reading of major texts, preparation of analytical essays and oral presentations, extensive examination of explicit models and techniques of reasoning, conceptualization of research problems, and writing a documented paper. The course will confer credit in GE Category A.3. Required of all UHP students.

### 150. Exploring a Text — Honors (3)

Prerequisites: ENGL 100. Close reading of a work (or works) of literature — fiction or non-fiction — exploring issues of personal identity, moral choice, freedom and commitment. May be repeated with different topics for a maximum of six units of credit. The course will confer credit in GE Category E. Traditional grading only.

### 300. Junior Colloquium — Honors (3)

Studies of selected interdisciplinary topics, problems or issues with a view toward integration of the areas of study involved in lower-division courses. Course may be repeated to a maximum of 6 units with different topics. Traditional grading only.

### 490. Special Topics — Honors (3)

Identification and critical analysis of current problems in selected areas. Topics to be announced in the *Schedule of Classes*. Course may be repeated to a maximum of 6 units with different topics. Traditional grading only.

### 496. Research Participation — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Traditional grading only.

### 497. Directed Studies — Honors (1-3)

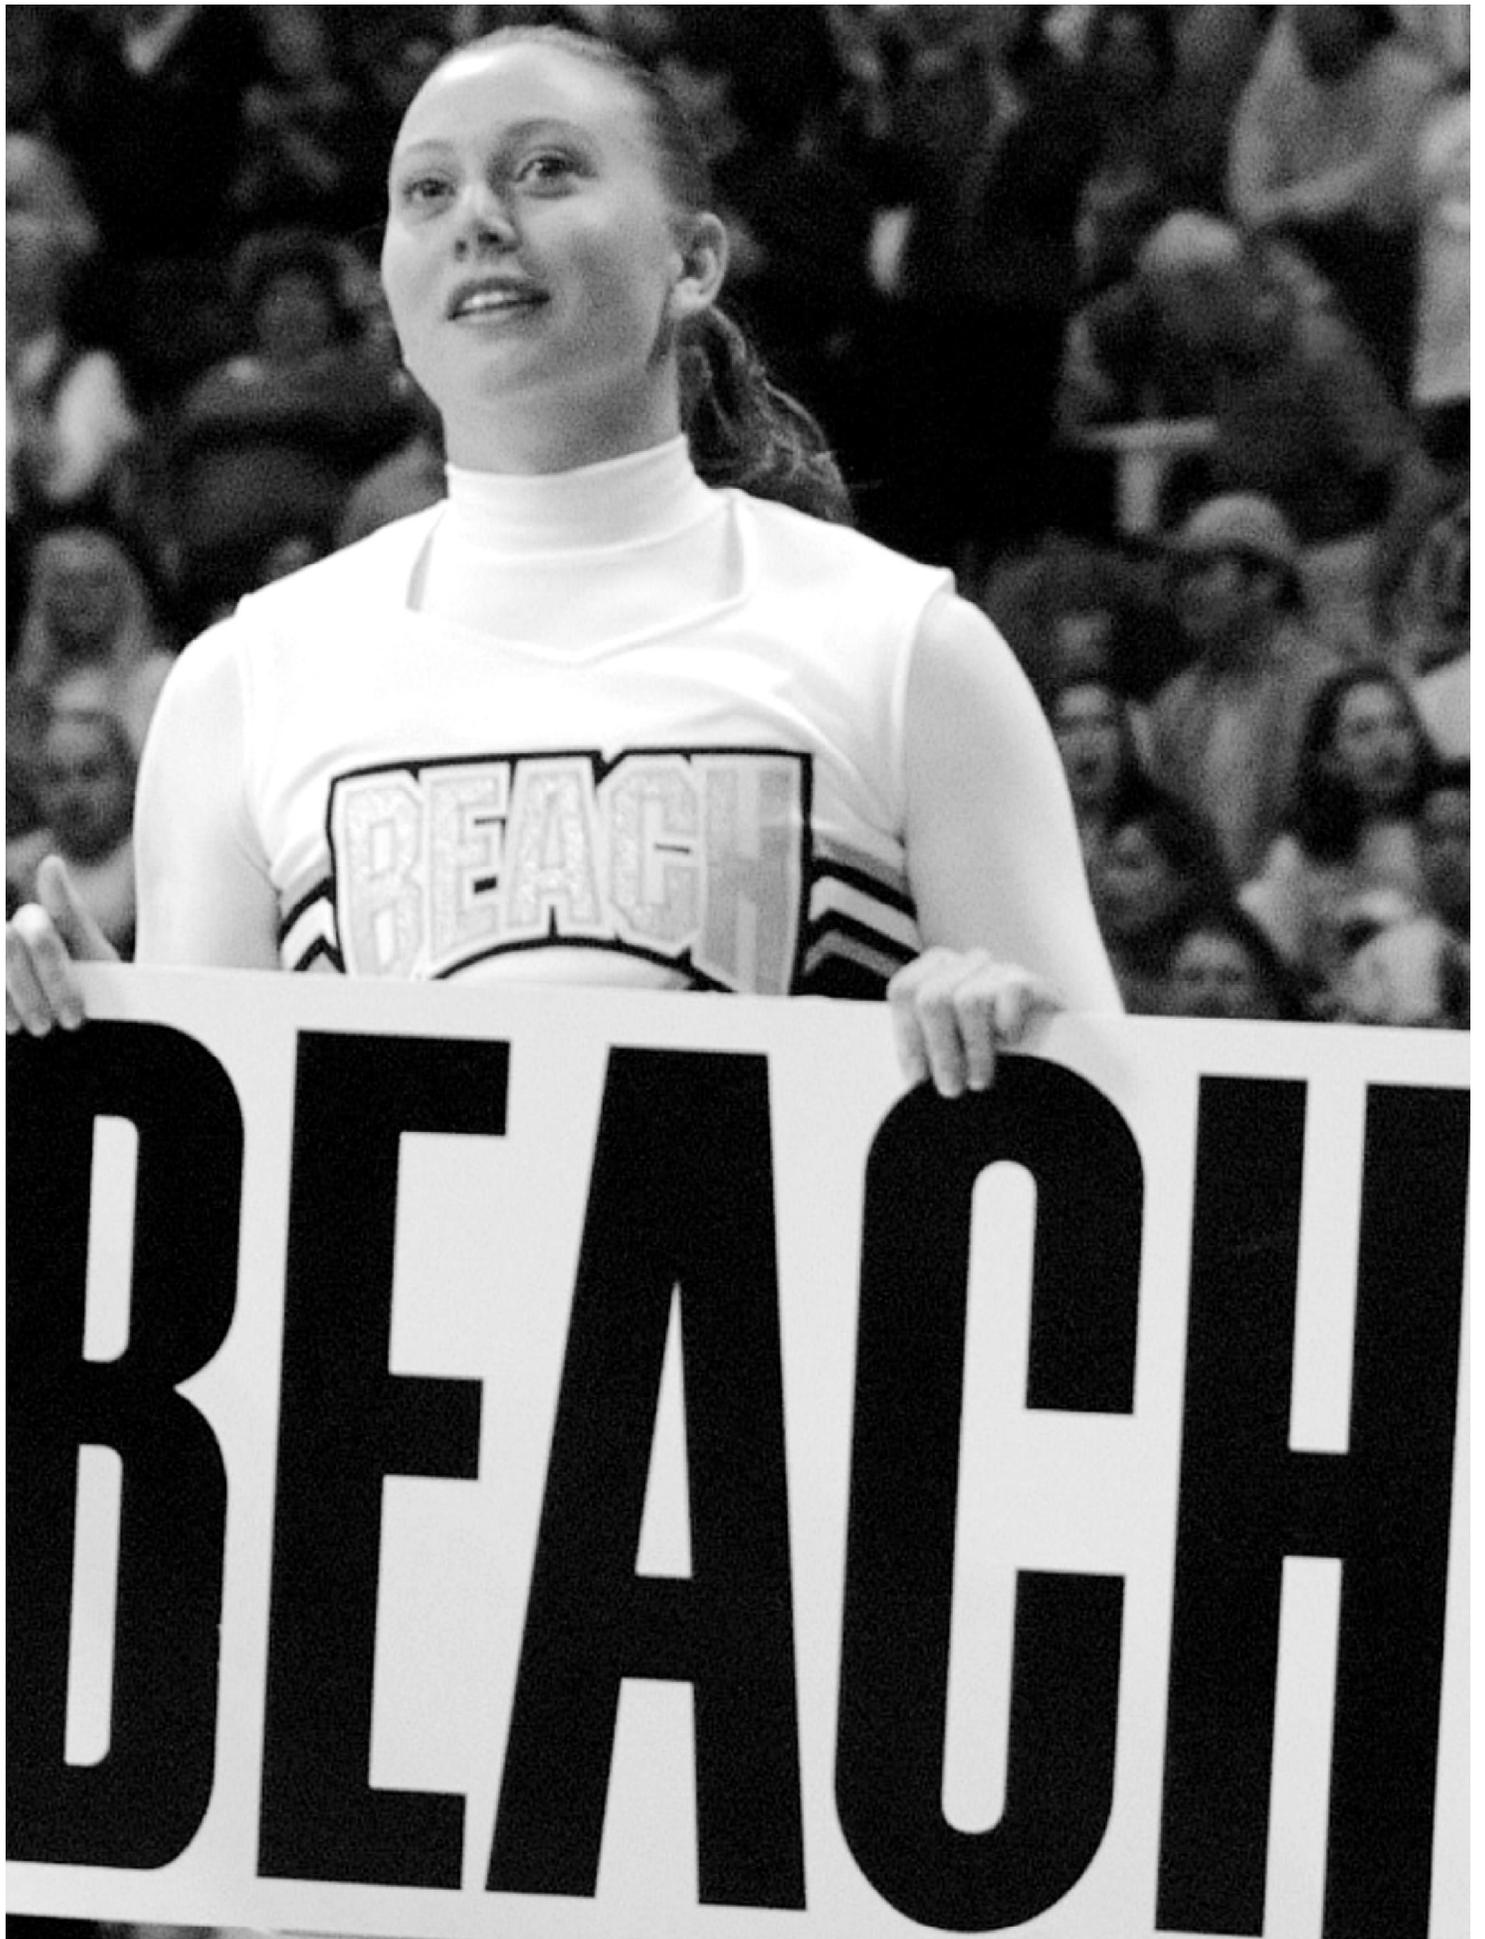

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Independent study under the supervision of a faculty member. Course may be repeated for a maximum of 6 units. Traditional grading only.

### 498. Senior Thesis/Project — Honors (3)

Prerequisite: Permission of the Director of the Program and the supervising faculty member. Final completion of a thesis, or a project; or an exhibit or a performance. Traditional grading only.

## Other

Special honors sections of regular GE courses in various departments as listed under "University Honors Program" to be found in the current *Schedule of Classes*.

# THE UNIVERSITY

## Celebration

On January 29, 1999, nearly 600 members of the faculty of California State University, Long Beach filed two abreast into the Pyramid Events Center wearing academic robes, hoods, and caps. Their colorful procession highlighted the fiftieth anniversary of the signing by Governor Earl Warren of the bill that authorized the creation of a new state college to serve the people of southeastern Los Angeles County and adjoining Orange County and kicked off a sixteen-month-long celebration of the University's record of achievement.

Los Angeles-Orange County State College opened its doors on September 28, 1949, to an entering group of 169 juniors and seniors. The *Schedule of Classes* listed 25 courses taught by thirteen faculty members in support of five undergraduate majors. The campus consisted of two converted apartment buildings at 5381 and 5401 Anaheim Road in Long Beach. Within two years the City of Long Beach purchased a permanent site for the fledgling institution and donated it to the state, construction began on the first permanent buildings, and the renamed Long Beach State College moved to its present location. Two decades later the rapidly growing institution had earned designation as a university and was the second largest in the California State University system. Today more than 30,000 undergraduate and graduate students are pursuing degrees and credentials under the direction of 1600 faculty members, supported by 1150 full-time and part-time staff.

The Legislature voted to establish a state college in the Long Beach area because it recognized that rapid suburban development would create a need for more trained teachers and business employees. Instead of limiting itself to those fields, however, California State University, Long Beach has evolved into one of the nation's leading urban comprehensive universities. In addition to Colleges of Education and Business Administration, CSULB developed a nationally renowned College of the Arts, a College of Engineering that attracts millions of dollars in government contracts and corporate donations, and a College of Health and Human Services that prepares a wide range of skilled personnel for the health care industry. The College of Liberal Arts and the College of Natural Science and Mathematics provide a solid foundation in general education for all CSULB undergraduates as well as majors ranging from anthropology to physics and from biochemistry to philosophy.

California State University, Long Beach has much to offer its students. It is located on and around a low hill less than two miles from the beaches of fashionable Belmont Shore. The beautifully landscaped 320-acre campus features many new and remodeled buildings. The faculty has made a commitment to excellence in both teaching and research. Most University classes are taught in small sections, so students have an opportunity for regular contact with their professors. Many undergraduate students become involved in original research under faculty supervision, better preparing them for entry into graduate programs or the career fields of their choice. No wonder CSULB has attracted more than 250

California high school valedictorians and National Merit Finalists among its current undergraduate population. Whether students choose to live in University residence halls, in apartments off-campus, or at home, CSULB offers a wealth of cultural and recreational opportunities. There are live performances of plays, music, and dance in the University's five theater facilities virtually every night of the week. The

University Art Museum and several departmental galleries afford access to exciting innovations in the visual arts. Eighteen men's and women's sports compete in an NCAA Division I athletic program. The women's volleyball team has appeared in 8 Final Fours in the last 13 years, winning 3 national championships and finishing second in 2001. The athletic program also includes club or intramural competition in approximately 30 different sports. The Associated Students, Inc. and the Office of Student Life and Development sponsor nearly 200 additional campus organizations, ranging from fraternities and sororities to cultural associations, religious clubs, honor societies, political and social action clubs, and special interest clubs. As a result, students at CSULB are assured of a well-rounded collegiate experience if they take advantage of the opportunities that surround them.

## Setting

The hilltop portion on the 322-acre campus overlooks the Pacific Ocean. Eighty permanent buildings house the various colleges, 63 academic departments and programs, 24 centers, 4 institutes, and 4 clinics.

A newly enlarged and remodeled University Student Union is located at the crossroads of the campus, providing a focal point for the total campus community. A centralized student services and administration center in Brotman Hall, near the Union, adds needed services. Specialized facilities for Engineering Technology, Dance, Design, Music, and Nursing have been completed, as has the International House student residence hall and meeting complex.

A state-of-the-art building for the College of Business Administration, complete with decision-support laboratories, multi-media capability, and modern lecture halls, opened in 1991. The Department of Dance occupied its new quarters in the largest and best-equipped instructional dance facility in the nation in time for the spring 1994 semester.

A central feature of the landscape design is a planting of 3,200 Helen Borcher flowering peach trees donated by the citizens of Long Beach. Secluded landscape areas and buildings of appropriate scale help maintain a learning environment that encourages small group identification and personal privacy in the midst of 30,000 individuals sharing the same site, on what is essentially a large urban campus.

Robert C. Maxson, President

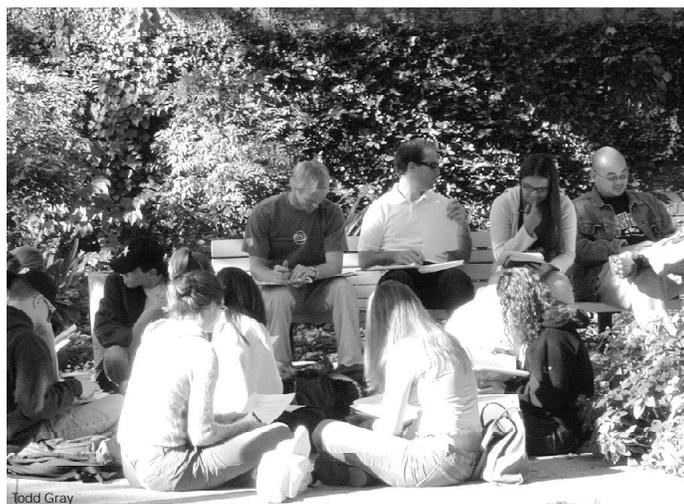

The campus has assumed a highly individual character. In 1965, the International Sculpture Symposium contributed 9 monumental pieces and designs to the University. These works received credits in 21 national and international publications, and in 1972 additional community funds in the form of a trust provided for the completion of the Carlson Memorial Tower, designed by French sculptor Andre Bloc. The campus sculpture collection has continued to expand, with the addition of works by artists such as Guy Dill, Michael Davis, Robert Irwin, Bryan Hunt, and Woods Davy. These acquisitions were made possible by private donations and grants from the National Endowment for the Arts to the University Art Museum.

### Mission

California State University, Long Beach is a large urban comprehensive university in the California State University system. Its mission is high-quality education leading toward a broad range of baccalaureate and graduate degrees spanning the liberal arts and sciences and many applied and professional fields, with emphasis on instruction at the upper-division (junior and senior) and graduate levels, in accordance with the California Master Plan for Higher Education.

CSULB is committed to serving the people of California. To assure access and equity consistent with educational priorities, the University endeavors to serve students who can only attend in the evening as well as those who can attend during traditional daytime hours, those who must attend part time as well as those who attend full time, and those from population groups whose rates of enrollment historically have been lower than average as well as those from groups that have had historically higher rates of education. The University serves students who have graduated in the top third of the State's high school graduating class, students who have completed a community college program, and adults re-entering education.

The University's educational mission is to promote intellectual and personal development and to prepare students for lifelong learning as well as preparing them to succeed in a variety of professional endeavors and to function as informed, contributing members of the community. To these ends, the mission of the undergraduate curriculum is grounded in a strong general education program, emphasizing the acquisition of writing, critical thinking, and analytical skills and knowledge of cultural and artistic traditions, the analysis of human behavior and society in the past and present, and scientific modes of inquiry. The mission of all degree programs is to provide each student with the skills necessary to pursue knowledge and to integrate information from various sources, and also to provide depth in at least

one area of specialization. The mission of the graduate programs is to prepare students to enter careers requiring training beyond the baccalaureate, to advance in their jobs, or to pursue advanced study. Doctoral programs are intended to provide both advanced knowledge and the skills needed to pursue independent research. Educational support programs and services for students emphasize the importance of personal, interpersonal, and societal development.

A fundamental goal of all of the University's programs is to prepare students to function effectively in a culturally diverse

society, by developing an understanding of our diverse heritage, including the essential contributions of women and ethnic minorities. Instruction emphasizes the ethical and social dimensions of all disciplines, as well as their applications to contemporary world issues. Building upon the culturally diverse region it serves and the international character of its faculty, the University emphasizes international education in its curriculum.

The University seeks to involve students in learning

by offering most of the curriculum in small sections taught by fully qualified, professionally active faculty members, and by providing opportunities for undergraduate as well as graduate students to work with faculty members in independent study and research. CSULB serves the surrounding community through applied research, training and community service programs, and consulting for government agencies, non-profit organizations, and private industry.

### Accreditation

The University is accredited by the Western Association of Schools and Colleges (985 Atlantic Avenue, Suite 100, Alameda, CA 94501, 510-748-9001), the agency responsible for granting regional accreditation to colleges and universities in California, Hawaii, and Guam. It is accredited by the California State Board of Education and is on the list of approved institutions of the American Association of University Women. Additional information concerning University accreditation may be obtained from the Office of Academic Affairs. Additional information concerning departmental accreditation may be obtained from the department concerned or the Office of Academic Affairs.

## The Faculty

The faculty of California State University, Long Beach is a dedicated group of men and women. Each has been well-prepared for the work of providing instruction to undergraduate and graduate students. The faculty create an intellectual atmosphere that encourages students to develop a spirit of investigation which becomes a life-long approach to issues and problems. It is the faculty's hope that students will gain respect for excellence of performance and take advantage of the wide range of educational opportunities available to them.

Faculty earn academic rank as they develop their course materials, research, academic and community service, and publications. The highest faculty rank is "Professor," sometimes called "full Professor." The intermediate rank is "Associate Professor." Most faculty begin their careers as "Assistant Professors."

The faculty are assigned to departments and programs within colleges of the University. The department chair is the academic leader of the department faculty.

A dean is the chief academic officer of a college. Deans are appointed by the Provost and Senior Vice President for Academic Affairs in consultation with the President and the college faculty. Most colleges have one or more associate deans to assist in the administration of college resources.

Elsewhere in this *Catalog* you will find the explicit policy of the University on grades and grading as well as policies on class attendance, withdrawal from courses, and cheating and plagiarism. These and other policies reflect the concerns of the faculty that students take seriously the opportunities made available to them. Beyond these rules and regulations the faculty expect student participation in education that may be different from or more active than what students have been used to in secondary schools. For every discipline the fund of knowledge to be absorbed, understood, and added to is expanding rapidly.

The role of the university professor is somewhat different from that of the high school teacher. University faculty are involved in the creation of knowledge as well as the dissemination of it. The expectation is that the students will not only use the 150 instructional days per year to the best possible advantage, but also by reflecting on the learning process, by thinking about how the professor came to understand and organize the knowledge presented, will learn how to take full advantage of the University's resources and those elsewhere, thus taking responsibility for the life-long process of personal education.

## Academic Organization of the University

During the regular session California State University, Long Beach is as large as a small city. More than 30,000 students, 800 tenured and tenure-track faculty, 700 lecturers, and nearly 1,200 staff members study and work on campus each week. In order to operate, the campus has been organized into seven separate units and many academic departments and programs. The names of the colleges, departments, and programs and their current deans are shown at the beginning of this catalog.

Colleges are usually composed of academic areas with some common characteristics. Because of this, colleges themselves suggest a way to look at the enormous fund of knowledge that is this University. One function of a college is to provide a forum for the faculty and the students to express academic matters before a knowledgeable group of people. At the university level this is a very important aspect of the educational process.

For students who have just begun their life in the University, some of the departments of the colleges will be unknown territory. Other departments and programs will turn out to be considerably different from first expectations or previous experiences with high school subjects of the same or similar names. For students who have begun to focus their academic interests, exploration of the departments and programs of a college beyond the favorite first contact area will often prove to be a valuable part of the process of choosing an academic major.

This catalog is organized alphabetically by department and program.

## Departments, Programs, and Studies

The elemental unit of academic organization at this University is the department. Departments are most often coincident with a discipline and usually share the same name. Faculty are members of departments. Thus the department of Biological Sciences has many "programs," including degrees in Biology and Microbiology, a minor in Biology, and a certificate in Biomedical Art. You will also find in this catalog academic areas, like Gerontology, which are not part of any one department. Some of these areas are called "Studies," e.g., Women's Studies, Medieval Studies. This means that the field is essentially an interdisciplinary one and is the product of the activities of faculty from many departments.

## University College and Extension Services (UCES)

UCES is the self-support community-outreach branch of California State University, Long Beach. Its mission is to meet the lifelong personal and professional-development learning needs of citizens, industries, and institutions in the Long Beach area and beyond.

Credit courses and programs are offered by UCES in all terms through Open University and Special Sessions. UCES' Integrated Distance Education for Adult Students (IDEAS) unit is actively developing numerous credit and non-credit courses and programs for delivery over the World Wide Web. Visit the Web site at: <http://www.ideas.uces.csulb.edu/on-line>. In addition, UCES offers more than 550 non-credit continuing education programs in the following areas: business and management, technology, arts, humanities, computer graphic design, and entertainment studies.

UCES also offers custom designed corporate online and on-site training. Other programs also offered through UCES include the American Language Institute, international business, global logistics, and the Systems and Software Engineering Forum for Training (SSEFT).

The Advanced Media Production Center provides training in computer graphics, animation, and video production.

## Academic Senate, Councils, and Committees 2001-2002 Academic Year

The faculty is subdivided into departments and programs. Normally these sub-divisions have committees to discuss curriculum and other matters. Since departments and programs are constituent parts of the colleges, they also send members to college-level committees and councils. These bodies serve to develop, refine, and review curriculum. At the University level faculty members from all of the colleges are elected to several councils and to the Academic Senate. These bodies concern themselves with campus-wide issues. Many of these councils, their subcommittees, and the Academic Senate have also provided for staff, student, and administration membership.

Chair of the Academic Senate — Wayne Dick

(Computer Engineering and Computer Science)

Chair of the Educational Policies Council — David G. Huckaby (Biological Sciences)

Chair of the Graduate Council — Proveen Soni (Marketing)

Chair of the Program Review and Academic Planning Council — Simeon J. Crowther

Chair of the Financial Affairs Council — David Hood (History)

Chair of the Faculty Personnel Policies Council — Kelly Janousek (Library)

Chair of the Teacher Preparation Committee — Bonnie Kellogg (Nursing)

## The University Library

The mission of the University Library ([www.csulb.edu/library](http://www.csulb.edu/library)) is to connect students, faculty, staff, and members of the local community with the information resources they need for study, research, and recreation. The library contains substantial collections of books, journals, government documents, videos, maps, and other physical materials, all listed in its online catalog, COAST ([www.coast.csulb.edu](http://www.coast.csulb.edu)). But these resources are enhanced, and even eclipsed, by the more than

4 million volumes available through the Link+ consortium ([http://www.csulb.edu/library/guide/mutual\\_use\\_statement.html](http://www.csulb.edu/library/guide/mutual_use_statement.html)),

by the library's subscriptions to thousands of web-based reference sources and full-text journals, and by its rapidly growing collection of electronic books. Increasingly, the library is able to deliver needed information to the desktop at any time of the day or night.

The library's staff and faculty are committed to efficient, helpful service, whether it be at the circulation desk, the reference center, the interlibrary services desk, or any of its other departments. Librarians guide scholars through the process of identifying, retrieving, organizing, and evaluating sources of information appropriate to their educational needs or personal interests. A wide range of library instruction opportunities is available to the campus community, from a credit course designed to introduce new students to basic concepts of information literacy, to librarian workshops geared to the needs of a particular course, to in-depth consultation focusing on a specific research topic. The library provides adaptive devices to make its print and electronic resources accessible to the disabled and works closely with Disabled Student Services to insure that equipment, facilities, and collections are responsive to special needs. The University Library's Special Collections Department contains rare, significant, or unusual books, manuscripts, correspondence, art prints, and photographic prints; details can be found at <http://www.csulb.edu/library/guide/serv/special.html>.

### University Computing Resources

The University provides an extensive array of computing resources. Guidelines regarding the use of these resources can be found in the "Policy Governing Access to and Use of CSULB Computing Resources" document. The complete text of the document can be viewed on the CSULB web site at <http://www.csulb.edu/~policy>.

#### Academic Computing Services

<http://www.csulb.edu/acs>  
562-985-4505

Academic Computing Services (ACS) manages campus-wide computing resources including BeachBoard, CSULB's e-learning environment, Open Access Computer Labs, the Development Lab and the Technology Help Desk. Learn more about these ACS resources below or visit the ACS website for more details.

#### BeachBoard, CSULB's E-learning environment

<http://beachboard.csulb.edu>

BeachBoard, CSULB's e-learning environment, provides students with the opportunity to stay connected with their instructors and classmates. BeachBoard may be a component of some or all of a student's courses as either a supplement to the course, as an element of a hybrid course or as the structure for a completely online course. As a supplement to the course, BeachBoard may provide a method of receiving class material, and checking grades, as well as other features. In a hybrid course, a combination of a traditional face-to-face class and online class, BeachBoard may also provide online quizzes, a virtual chatroom and discussion boards. In a completely online course, BeachBoard will serve as the method for all of the course's faculty-student interactions.

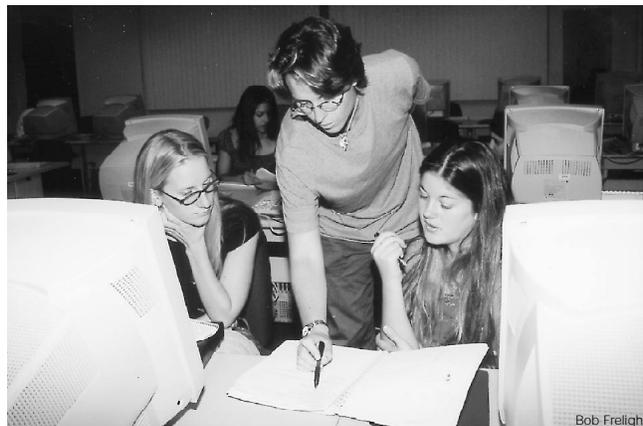

Students, faculty and staff also have the ability to manage their organizations on BeachBoard. These organizations provide the same collaborative features that a course on BeachBoard has and may include email lists, posting of announcements, a virtual chatroom, and discussion boards.

To access BeachBoard, students need a CSULB Internet Account, available at <http://www.csulb.edu/namemaster>. For all questions regarding BeachBoard, please contact the Technology Help Desk at (562) 985-4959, [helpdesk@csulb.edu](mailto:helpdesk@csulb.edu), or visit the THD website at <http://helpdesk.csulb.edu>.

#### CSULB Internet Account

<http://helpdesk.csulb.edu/email.html>

Students can create their own CSULB Internet accounts at <http://www.csulb.edu/namemaster> or visit the Technology Help Desk Walk-In Service Center in the North Campus Center for personal assistance and service. A CSULB Internet account is required to access services including e-mail, web design, BeachBoard, library searches, software downloads, database specialty centers and remote access. Remote connectivity and Internet access is available from a home computer by dialing (562) 985-3500.

#### Development Lab

<http://www.csulb.edu/acs/devlab>

The ACS Development Lab, located in the North Campus Center, supports the use of interactive multimedia instructional materials for both classroom presentations and individual student learning. The lab offers training, consulting, and development expertise on a wide variety of media software applications and hardware, including digital audio and video editing. High quality color printing is also available in the Development Lab.

#### Open Access Computer Labs

<http://www.csulb.edu/acs/labs>

ACS Open Access and classroom labs are located in LA5 and the North Campus Center. These high-speed Windows and Macintosh labs also provide laptop connections and support for wireless computers. Each of the seven colleges' have computer labs available to support specialized hardware and software programs required for their respective departments. Contact the individual college or department for more details. For more information on ACS lab reservations, current hours of operation, tours, and the use of a wireless cart, visit the ACS Computer Labs website.

## Software

[http://www.csulb.edu/aux/bookstore/Computer\\_Store/index.html](http://www.csulb.edu/aux/bookstore/Computer_Store/index.html)

Students can purchase Microsoft products at the Forty-Niner Shops Bookstore under the CSU-Microsoft Enterprise Agreement. The agreement provides licenses for both current and future versions of Microsoft Office Professional, FrontPage, Visual Studio Professional, and Windows operating systems. The Bookstore also provides educational pricing for other software products and hardware.

## Technology Help Desk

<http://helpdesk.csulb.edu>  
562-985-4959

The Technology Help Desk (THD) Call Center is available to all students, faculty, and staff members with a current CSULB Internet account for all computer or technology related issues. The THD is the single point of contact for the university computing community and has professional support representatives available to assist with CSULB Internet accounts, email, BeachBoard, anti-virus, Internet and Browser configuration, application software, and much more.

The THD Walk-In Service Center in the main lobby of the North Campus Center is available to assist in the creation of CSULB Internet accounts, password resets, BeachBoard information, and more.

For current hours of operation and service information, visit the THD website or contact the THD Call Center.

## Research Centers and Institutes

- Bureau of Governmental Research and Services – Michelle Saint-Germain, Director
- California Advanced Manufacturing Institute – Tesfai Goitom, Director
- California Institute for the Preservation of Jazz – Richard Birkemeier, Director
- Center for Advanced Technology Support for Aerospace Industry – Hamid Hefazi, Director
- Center for the Advancement of Philosophy in the School – Sara Goering, Director
- Center for Asian Pacific American Studies – John Tsuchida, Director
- Center for Behavioral Research and Services – Dennis G. Fisher, Director
- Center for Career Studies – Paul Bott, Director
- Center for Collaboration in Education – Kay Goddard, Director
- Center for Commercial Deployment of Transportation Technologies – Stanley Wheatley, Director
- Center for Criminal Justice Research and Training – Arthur Basile, Director
- Center for Disability Studies and Scholarship – Gail Farmer, Director
- Center for Educational Technology and Learning – Robert Berdan, Director
- Center for Electronic Design Automation – Sandra Cynar, Director

- Center for European Studies – Jutta Birmele, Director
- Center for Excellence in Construction – Tesfai Goitom, Director
- Center for First Amendment Studies – Craig Smith, Director
- Center for Health Care Innovation – Connie J. Evashwick, Director
- Center for Humanities – Shirley Mangini, Director
- Center for Information Strategies and Technologies – H. Michael Chung, Director
- Center for Innovative Foodservice Technologies – Vala Stults, Director
- Center for International Trade and Transportation – Forrest E. Harding, Director
- Center for Language – Minority Education and Research – David Ramirez, Director
- Center for the Study of Southeast Asia – Arnold Kaminsky, Director
- Center for Successful Aging – Jeanne Bader, Director
- Center for Usability in Design and Assessment – Gerald L. Hanley, Director
- CSULB Center for Entrepreneurship – Allen Grant, Director
- Graziadio Center for Italian Studies – Carlo Chiarenza, Director
- Hauth Center for Communication Skills – Pat Kearney and Terre Allen, Directors; Scott Allen, Technical Director
- Institute for the Study of Judeo-Christian Origins – Robert H. Eisenman, Director
- Molecular Ecology Institute – Glenn Nagel, Director
- Movement Science Laboratories – John Garhammer, Director
- Physical Therapy Assessment Center – Ray Morris, Director
- Senior University – Donald Lauda, Director

## Fine Arts Public Performances and Exhibitions

The College of the Arts presents more than 350 performing and visual arts events each year; many are works by faculty and students; others are performances by world renowned artists. With the support of the Louise Carlson Cultural Fund and the Lillian Newman Komaroff Memorial for the Performing Arts, the College presents an annual performing arts series featuring outstanding professional artists and touring companies.

Performing arts events are held in a number of specially designed facilities: the University Theatre with a proscenium stage and seating for 400; the flexible Studio Theatre, which seats 230 in several different configurations, including theatre-in-the-round; the Players Theatre, with 86 seats; the Gerald R. Daniel Recital Hall, which seats 280; the Martha B. Knoebel Dance Theater, which seats 250; and the Carpenter Performing Arts Center which can seat up to 1162.

The Department of Art presents a weekly schedule of exhibitions in its newly expanded gallery space. Annual events include a New Faculty Exhibition each October, Winter Art Sale during the first week of December, Student Art Exhibition in the University Art Museum each May, and an Alumni Exhibition each June.

The Department of Dance presents two major performances each year during November and May. The modern dance concerts feature works by CSULB's highly acclaimed dance faculty performed by the faculty and students. Informal concerts featuring choreography by CSULB students are presented each semester.

The Department of Design presents the Senior Design Show, an outstanding exhibition of projects by Interior Design and Industrial Design students each May in the Design Gallery. Design graduate students also present exhibitions throughout the year.

The Department of Music presents more than 100 concerts each year featuring 18 performing groups including the Symphony Orchestra, Wind Symphony, Jazz Ensembles, University Choir, String Quartet, Opera, Forty-Niner Chorus, Men's Chorus, Women's Chorus, Collegium Musicum, and others. During the first week of December, the Choral Studies Program presents the Annual Winter Festival Concert in Long Beach's historic First Congregational Church.

The Department of Theatre Arts produces up to six major productions each year. Acclaimed for powerful acting and innovative sets, the theatre season includes contemporary dramas, classics, and musicals. The California Repertory Company, composed of graduate students pursuing the MFA degree, department faculty, and area professionals, performs five additional plays annually in the new Edison Theatre on Broadway between Pine Avenue and Long Beach Boulevard in downtown Long Beach.

Tickets for all dance, music, theatre arts, and Carpenter Center performances are sold through the CSULB Arts Ticket Office located in the Carpenter Performing Arts Center at 6200 Atherton Avenue. The Arts Ticket Office is open from 11 a.m. to 6 p.m., Monday through Friday, and 12 noon to 4 p.m., Saturdays. A satellite ticket office, located in the southwest corner of the Theatre Arts Building, is open for the convenience of students from 9 a.m. to 11 a.m., Monday through Friday. Ticket offices near the entrances to each of the University's performing arts venues are also open one hour prior to performances. Special faculty, staff, and student rates are available for most performances. Visa and Mastercard are honored. For information or to charge tickets, call the Fine Arts Ticket Office at (562) 985-7000.

### University Art Museum

The University Art Museum, one of the units of the College of the Arts, provides the campus and surrounding communities with quality exhibitions in the visual arts on a year-round

basis and presents scholarly publications, guest lectures, and educational outreach programs designed to reach a broad general public. Programs that are an integral part of the museum include the Museum Studies Certificate Program, which trains students for careers in museum work; Art to the Schools, which brings educational projects in the visual arts into the classroom; the Summer Institute for Teachers, which helps teachers utilize the resources of museums as part of their curriculum; and Get the Picture, a workshop to acquaint youth with the history and heritage of the City of Long Beach and surrounding regions.

In 1984, the University Art Museum was accredited by the American Association of Museums (American Association of Museums, Suite 200, 1225 Eye St., NW, Washington, DC 20005, phone: 202-289-1818) and thus ranks among the top ten percent of the nation's 6,000-plus museums. It is one of only two nationally accredited art museums in a public university in Southern California. Its exhibitions and collections, including the Monumental Sculpture Collection spread throughout the 322-acre campus, have brought the University and Long Beach area recognition from both the professional art community and an international public. The Museum has an active community membership program which offers special events, museum tours, and international travel opportunities planned exclusively for museum members. All students are invited to join ArtPartners, the student and young professional group affiliated with the University Art Museum. For information about University Art Museum activities, call (562) 985-5761.

### The Earl Burns Miller Japanese Garden

Beauty, simplicity, harmony, and peace are all expressed in a traditional Japanese garden. California State University, Long Beach and the community have been enriched by the Earl Burns Miller Japanese Garden, which provides a setting to experience these important qualities.

Mrs. Loraine Miller Collins' appreciation of Japanese culture is reflected in the planning for the garden. The detailed design was careful work of Long Beach landscape architect Edward R. Lovell, whose visits to Japan and a number of its gardens enhanced the project. The Japanese stone sculptures were personally selected by Mrs. Collins, as were the bonsai pines and the furnishings for the teahouse.

The natural effects of the garden design are an expression of the Japanese attitude of respect and love for all nature, a valuable heritage which has been continued. Everything in a Japanese garden has significance: the moss-covered rocks, the brilliant colors of the azaleas, the cascading water, the gracefulness of the forms of the trees, the movement of the colorful koi in the lake. Placement of plants and rocks are all based on asymmetry and rhythm. Every element is part of an overall composition which provides for a delightful sense of peace and harmony.

A unique aspect of the garden is that it has been designed to encourage access by the physically disabled.

### The Forty-Niner Shops

The Forty-Niner Shops, an auxiliary organization, enhances and supports the educational process of CSULB by providing goods and services at reasonable and competitive prices. The Forty-Niner Shops, Inc. operates the University Bookstore, Campus Copy Center, the University Dining Plaza, and a variety

of food and refreshment stations across the campus. The Forty-Niner Shops, Inc. is a nonprofit corporation which has faculty, student, staff and administrative representation on its Board of Directors.

The University Bookstore stocks textbooks, general and reference books, school supplies, clothing gifts, computer hardware, software and supplies. Services offered include ATM services, bus passes, debit cards, gift certificates, check cashing and the sale of money orders and stamps.

The Campus Copy Center offers copying (including color), duplicating, offset printing, book and report binding, transparencies, faxing and shipping. Self service copiers are available for your copying needs at the Main Library, North Campus Center, Bookstore Convenience Store, College of Business, University Dining Plaza, the Outpost, and the Student Career Development Center.

The University Dining Services includes the Residence Dining Halls and the University Dining Plaza which includes the A La Mode, Center Court, the Nugget, and the Chartroom featuring a wide variety of foods. Catering services are available for campus functions. The satellite food operations consist of the Hot Dog Carts, vending machines, The Outpost (located near the College of Engineering), and Pyramid Concessions.

### President's Scholars Program

Donations are sought to endow the President's Scholars Program. The President's Scholars Program at CSULB affords qualifying valedictorians and National Merit finalists from accredited California high schools an exceptional scholarship package. The elements of this package include full payment of the State University Fee and other student fees, an annual book allowance, paid housing in campus residence halls, priority registration, personalized academic advising, parking, and e-mail and internet access. The scholarship for valedictorians is valued at approximately \$25,000 over four years and for National Merit Scholars approximately \$35,000 over four years. The scholarship is renewable annually based on maintenance of satisfactory academic progress.

### University Relations and Development

The Division of University Relations and Development serves as the primary contact with the University's alumni, friends, and community supporters. Its mission is to support the University's position as a flagship institution for excellence in teaching, research, and service by developing private support from individuals, corporations, and foundations. The activities of University Relations and Development include alumni relations, corporate relations, college-based development, estate planning and gifts, KLON radio, major gifts, media relations, public affairs, and publications. Each year, millions of dollars are given to support and further the educational mission of the University.

### Alumni Association

The CSULB Alumni Association is the link between the University and its more than 165,000 alumni. The Association develops social, educational and recreational programs that bring alumni back to campus.

All former students who attended at least one semester at CSULB are considered alumni and are eligible to join the Alumni Association. Graduates and credential recipients can join by completing an enrollment card and paying a one-time \$25.00 fee; non-graduates, including employees and friends of CSULB, may join as associate members for a yearly fee.

Alumni volunteers assist on Alumni Association committees helping to plan Homecoming festivities, commencement, hospitality center, the summer Concerts in the Grove series, and other events.

Members of the Alumni Association receive a benefit package that includes library privileges at all CSU institutions (there are restrictions on computer usage), on-campus assistance at the Learning Assistance Center at no extra charge, the Career Development Center for a yearly fee, an Association credit card, a hotel/motel discount program, and access to membership in health insurance programs. Also available to members are the semi-annual Alumni Calendar of Special Events; the CSULB Review publication; University Student Union privileges; and discounts on some CSULB theater performances, athletics events and local attractions.

For more information on Alumni Association services call the Alumni Relations Office at (562) 985-5252.

### The Annual Fund

Alumni actively and generously support the University through the Annual Fund. Over 55,000 alumni, parents, and friends are contacted annually to support University activities. The majority of donations are undesignated and are used to meet the most critical needs of the University. Some donors prefer to designate their gifts to their departments or colleges.

### Parents' Fund

The Parents' Fund was established to give parents the opportunity to support the University. Parents of currently enrolled and graduated students are contacted yearly by the Annual Fund. The willingness of parents to pledge financial support to the University is a confirmation that CSULB provides an excellent educational environment for the students it serves.

### Senior Gift Campaign

Every graduating senior is contacted near graduation to initiate a pledge in support of the campus. Seniors are asked to donate \$100 to purchase a brick to be permanently placed in the Alumni Brick Plaza. Gifts of \$99 or less are designated to the Annual Fund to be used for essential campus needs. Seniors have proven to be generous and loyal donors to the University.

### Major Gifts and Deferred Giving

The Office of University Relations and Development works with individual and corporate donors in securing current and deferred gifts. Major named gifts on campus include such legacies as the Isabel Patterson Child Development Center, the Earl Burns Miller Japanese Garden, the Carpenter Performing Arts Center, and the Martha B. Knoebel Dance Theater.

Endowed scholarships honoring individuals and families have been established in all areas of the University. Many

individuals have included CSULB in their wills by providing for scholarships and faculty development. The University can also accept the transfer of securities, real property, personal libraries, private collections, works of art, and musical instruments as gifts to enhance educational quality.

Major gifts may serve restricted purposes in accordance with the donor's designation, or their use may be left to the discretion of the President of the University.

### The Academic Corporate Council

The Academic Corporate Council consists of 25 corporate senior executives who provide counsel to the University in the creation of corporate partnerships and serve as advocates and supporters of the University in the community. Each company donates \$5,000 annually to support the President's Scholars Program.

### The President's Associates

The President's Associates is composed of more than 200 alumni, community leaders, parents, and friends whose financial support significantly enhances the quality of education at CSULB.

Each member contributes unrestricted tax deductible gifts of \$1,250 (or more) per year, which are pooled with other charitable donations to fund a wide range of top-priority projects such as the President's Scholars Program.

For additional information about donor opportunities contact the Vice President for University Relations and Development, (562) 985-5197.

### KLON-FM 88 Public Radio

FM88/KLON (88.1 on the FM dial), a noncommercial radio station, is licensed to the California State University, Long Beach Foundation. KLON's primary signal coverage is the southern portion of the Los Angeles basin with secondary coverage to most of Los Angeles and Orange Counties. It has a potential audience of 2,000,000.

The station is on the air 24 hours per day with a program format of jazz, information, and public affairs. KLON provides professional learning opportunities for CSULB students, including a unique opportunity for students in the Film and Electronic Arts and Journalism departments to gain experience in a full-time, professional radio station with direct supervision by faculty members and industry professionals. KLON provides additional learning experiences for students in marketing, graphic design, industrial design, and public relations. FM 88 is a listener-supported radio station, funded by a combination of institutional, governmental, corporate, foundation, and private contributions.

### The Community Service Learning Center (CSLC)

The Community Service Learning Center was established in January of 1998 to institutionalize service learning at CSULB. Service Learning is a teaching method that allows students to see and experience the relationship between theory and practice; integrates and enhances both community service and academic instruction; engages students in responsible and challenging community service; and emphasizes active learning in different environments. Its mission is to develop awareness, understanding, and commitment to service learning by creating a physical and virtual resource

center that facilitates interactions between faculty, graduate and undergraduate students, student services staff, and community partners.

The CSLC works actively to serve educational institutions, government and non-governmental organizations, community agencies, and the CSULB campus community by organizing educational and training tools to aid the development and

implementation of service learning activities across disciplines. The center works with faculty to support student learning objectives, as well as developing successful approaches to establish service learning teaching strategies through existing networks, mentors, and resources. The Center is a member of a growing national community that appreciates service learning as an academically effective and socially beneficial pedagogy and therefore supports exploration in service learning through student theses and faculty research. The CSLC actively participates in campus, system, statewide, and national movements to promote service learning as a means for social and intellectual development.

The CSLC's motto of "shared service, shared learning, shared vision, shared mission" reflects its intent of assisting in the development of a socially aware and advanced forum for intellectual growth. CSULB faculty, staff, students, and administration have shown their support for this intent by including service learning in each of the following university documents: the CSULB Strategic Plan, the Dean's Multi-year Priority Plan, Cornerstones, the CSU Strategic Plan for Service Learning, and the General Education Revitalization Plan.

### University Foundation

The California State University, Long Beach Foundation is a non-profit, tax-exempt corporation organized to administer grants and contracts for research and other activities related to the University's programs. On behalf of the University, the Foundation also accepts donations, gifts, and bequests for University-related use, and provides tax-deductible advantage to the donor.

Research and other activities involving the Foundation are related directly to academic programs. They involve substantial interaction between faculty, staff, and students.

Donations, gifts, and bequests provide a significant addition to the accomplishments of the University. Public funds provide support for most of the instructional and instructional-related activities and facilities.

Counseling and consulting services regarding charitable donations are available to potential donors. Information can be secured from the Vice President for University Relations and Development (562) 985-5197, or by addressing a letter to the California State University, Long Beach Foundation, a 501(c)(3), non-profit corporation recognized by the Internal Revenue Service.

## Honor Societies

- Phi Beta Kappa – Founded at the College of William and Mary in 1776, it is the oldest and most prestigious honor society for students of the liberal arts and sciences. A chapter was established at California State University, Long Beach in 1977.

Graduating seniors are elected to membership in Phi Beta Kappa on the basis of extraordinary scholarly performance at this University, after study of their records by faculty members who are themselves members of Phi Beta Kappa. No action on the part of the student is necessary to initiate consideration. Inquiries should be directed to the President of the University chapter of Phi Beta Kappa, Dr. Dorothy Abrahamse, Dean, College of Liberal Arts.

Two additional societies which may elect students from all academic areas are:

- Mortar Board – Founded in 1918 as an honor society focusing on scholarship, leadership, and service. Mortar Board was the first national honor society founded by and for college senior women, and the membership expanded to include men in 1975. The California State University, Long Beach Cap and Gown Chapter was founded in 1972, and grew out of an honor club established here by seven women in 1963. The Cap and Gown Chapter is one of over

200 Mortar Board Chapters, with a total national membership of over 250,000 dedicated, active scholars.

Mortar Board's focus is on collaboration and balancing positive ideology with practical leadership building experiences. Mortar Board holds that both community service and dedication to academic excellence must remain constant in order to provide a full college career.

Membership is extended to service-oriented CSULB seniors who maintain a minimum 3.0 cumulative GPA.

- Phi Kappa Phi – Founded in 1897 at the University of Maine, it is the oldest and largest national honor society which recognizes and encourages superior scholarship in all academic disciplines. Chapter 86 was established at California State University, Long Beach, in 1963. Admission to Phi Kappa Phi is by invitation only and requires nomination and approval by the chapter and national society. Membership for juniors, seniors, and graduate students is based on integrity of character, one year residence in the University, and outstanding scholarship. Inquiries should be directed to the President of the University chapter of Phi Kappa Phi, Dr. C. J. Walter, c/o College of Business Administration.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:

- Beta Alpha Psi (Accounting) — National scholastic fraternity to give recognition to excellence in the field of accounting.
- Beta Gamma Sigma (Business Administration) — National honorary business society to recognize superior academic performance.
- Chi Epsilon (Civil Engineering) — National honor society open to Civil Engineering majors with a 2.9 GPA.
- Chi Sigma Iota (Counseling) — International honor society open to graduate students with a GPA of 3.5, scholars, and practitioners in the counseling profession.
- Eta Kappa Nu (Electrical Engineering) — National honor society furthering area interests and promoting scholarship. GPA requirements for seniors 2.8, for juniors 3.0.

- Kappa Delta Pi (National honor society for teachers) — encourages high professional, intellectual, and personal standards. Recognizes outstanding contributions to education.

- Kappa Tau Alpha — National honor society that recognizes academic excellence and promotes scholarship in journalism and mass communication.

- Omicron Nu (Family and Consumer Sciences) — National honor society recognizing superior scholarship and promoting leadership and research in

the field of Family and Consumer Sciences.

- Phi Alpha (Social Work) — National honor society to improve the goals of social work on campus. GPA requirement 3.0.
- Phi Alpha Theta (History) – National honor society in history, founded to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians.
- Phi Beta Delta (International Education) — National society, founded at CSULB, recognizes students from all disciplines with high GPAs and extensive involvement in international education or international studies.
- Phi Delta Gamma (Scholarship) — National honor society which fosters academic achievement and professional preparation.
- Phi Delta Kappa (Education) — National organization which promotes service, research, and leadership in education. Members include both students and faculty.
- Phi Epsilon Kappa (Physical Education) — National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.

- Phi Mu Alpha-Sinfonia (Music) — National organization for students in music. Promotes music in America, especially contemporary American music.
- Phi Alpha Alpha (Public Administration) — National society to encourage scholarship among students of public administration.
- Phi Sigma Tau (Philosophy) — National honor society for students with a strong undergraduate concentration in philosophy.
- Pi Kappa Lambda (Music) — National honor society for scholastic achievement in music.
- Pi Lambda Theta (Education) — National organization for undergraduate and graduate students. Purpose is to maintain high standards of scholarship and preparation for teaching.
- Pi Mu Epsilon (Mathematics) — National honor society recognizing distinction in mathematics.
- Pi Sigma Alpha (Political Science) — National honor society for political scientists. Open by invitation to upper-division and graduate students with a 3.0 GPA.
- Pi Tau Sigma (Mechanical Engineering) — National honorary fraternity encouraging and recognizing outstanding scholastic achievement of students in the field.
- Psi Chi (Psychology) — National honor society recognizing distinction in Psychology. Sponsors research and other participation in psychology.
- Sigma Alpha Iota (Music) — National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.
- Sigma Theta Tau (Nursing) — International honor society recognizing superior scholastic achievement, leadership, and community service in nursing.
- Sigma Tau Delta (English) — National honor society conferring distinction for high achievement in the study of English language and literature.
- Sigma Xi (Science) — National honor society.
- Tau Beta Pi (Engineering) — National honor society recognizing engineering students for academic achievement and participation in activities. Members are elected from top 20 percent of the senior and top 12 percent of the junior class.

Sharon Sievers (History)

Kristine Zentgraf (Sociology)

View the CSU, Long Beach *Catalog* on-line at [www.csulb.edu](http://www.csulb.edu) by clicking on "Academics" and then "CSULB Catalog."

It is the goal of the Women's Studies Program to provide for students, the University, and the community an intellectual context from which it is possible to study the experience of women. By definition, this enterprise crosses disciplinary and cultural lines; it means that we are in the University not only to fill in gaps and to facilitate the development of coherent bodies of knowledge about women in established disciplines, but that we represent a core of emerging knowledge that is growing into a new discipline.

Women's Studies seeks to equip students with the knowledge, skills, and perception necessary to their realization of the fullest range of options available to them as human beings. We want to provide and encourage contexts conducive to academic excellence and sensitive to academic freedom that will assist students in 1) the reexamining of traditional ideas about women and men in cultures characterized by patterns of sex-role stereotyping; 2) acquiring an understanding of the history and contributions of women of varying social, racial, and ethnic backgrounds; 3) developing the analytical tools required to understand and appreciate the implications of the last three decades of feminist theory and research; and 4) preparing for a variety of vocations which increasingly demand knowledge about women's experience.

Women's Studies, in its own Program and through courses in other departments and disciplines, offers the University the intellectual excitement inherent in the development of a new discipline, and a humanistic perspective from which to view the accumulated knowledge of other disciplines, particularly their assumptions about women, both as actors and subjects. Women's Studies encourages the development of research and curriculum related to women in other disciplines and departments throughout the University. We also provide information and advising for students and other members of the University community on the subject of women and women's issues.

The Women's Studies Program offers a major and minor. Students may also graduate with a B.A. in Inter-disciplinary Studies that has Women's Studies as one of its disciplines. CSULB also offers a Special Major at the graduate level through which students may design a major combining Women's Studies with another discipline. Designated Women's Studies courses may be used to fulfill the Social Science (Category II) and other General Education requirements, as well as I.C. and H.D. requirements. For additional information and advice relative to these programs, or ways in which to combine Women's Studies with another Major or Concentration, please consult the Program Office or the Undergraduate Advisor.

## Bachelor of Arts in Women's Studies (2-8450) (120 units)

### Requirements

A total of 45 units will be required for the Women's Studies major. Courses cannot be counted for more than one category within the major. Requirements include 6 lower division units to include W/ST 101 and W/ST 102; 39 upper division units distributed among the following categories:

### Core Requirements

*Theory and Methodology* - total 12 units.

Six units to include: W/ST 300 and 415;

One of the following for three units: W/ST 340 or 392;

One of the following for three units: W/ST 314, 365I or 382.

*U.S. and Global Ethnic/Gender Diversity* - total 6 units:

W/ST 318I and 401I

*Women's History* - total 3 units: W/ST 485A or 485B

*Senior Capstone Seminar* - total 3 units: W/ST 495

### Electives - total 15 units

To include 9 units from one of the following clusters and a total of six units from one or both of the other clusters.

### Clusters:

#### Feminist Aesthetics and Cultural Studies

This cluster focuses on the study of art and culture both as sites of women's theoretical and political work and as sources of the construction and representation of women's identities. The courses in this cluster examine forms of women's own self-expression, such as literature, philosophy, theory, and cinema, as well as placed in culture - such as language, art, popular culture, religion or urban space - through which societal ideas about women have historically been created and maintained.

W/ST 314, 315, 316 (FEA 317), 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 365I, 381 (ASAM, HIST), 382 (ENGL), 384 (HIST 338), 402, 406, 410, 420, 425, 432, 455, 475 (ANTH 475, LING 470), W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor); W/ST 494 (depending on topic and with prior approval of the Women's Studies advisor); ENGL 384.

#### Social Change and Social Policy

The courses in this cluster address the role of women within the legal, economic and political structures of our society. Whether they are social policy makers or the ones affected by the distribution of power, women have always played a central role in all of the institutions and practices that make up our society. This cluster examines women's historical and contemporary place within religion; law; science; labor; economics; environmentalism; health care; cities; families; structures of race, class, and sexuality; and political activism.

W/ST 307I, 308, 309I (NSCI), 314, 315, 319 (AIS, ASAM, B/ST, CHLS), 325 (SOC), 338I, 340, 350, 356, 381 (ASAM, HIST), 384 (HIST 338), 402 (POSC 401), 406, 410, 420, 424, 425, 430, 432, 440, 485A (HIST), 485B (HIST); W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor); W/ST 494 (depending on topic and with prior approval of the Women's Studies advisor); ANTH 351; COMM 412; HDEV 320; PSY 110, 200, 354; SOC 200, 250, 346, 454, 455; SW 491 (I/ST).

#### U.S. and Global Ethnic/Gender Diversity

This cluster focuses on the experience of women internationally and among diverse communities and cultures in the United States. Recognizing that women's experiences are defined as much by their positioning within global political, social, and economic systems as by their individual racial, ethnic, religious, class, or sexual identity, this cluster offers a comparative look at both the individual and the global aspects of women's lives. The courses in this cluster study the diversity of histories, experiences, and cultures within the United States as well as their historical and political connections to women around the globe.

W/ST 307I, 315, 319 (AIS, ASAM, B/ST, CHLS), 320 (CHLS 415), 340, 356, 381 (ASAM, HIST), 384 (HIST 338), 406, 424, W/ST 490 (depending on topic and with prior approval of the Women's Studies advisor); SOC 346.

Note: Courses cross listed with any of the above courses are accepted as substitutes.

### Minor in Women's Studies (code 0-8450)

#### Requirements

A minimum of 21 units are required for the Women's Studies minor, to be selected with approval of a Women's Studies advisor. Courses cannot be counted for more than one category within the minor and must be selected from among the following categories:

Lower Division - 3 units: W/ST 101 or 102

Upper Division - 18 units:

Take each of the following for three units each: W/ST 300, 318I, 401I

Take one of the following for three units: W/ST 340 or 392

Take one of the following for three units: W/ST 485A or 485B

Take three additional units from any cluster.

### Courses (W/ST)

#### Lower Division

##### 101. Women and Their Bodies (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to the rapidly expanding body of literature and ideas related to the biology and sexuality of women.

##### 102. Women In Contemporary Society (3)

Prerequisite or Corequisite: One GE Foundation course. An introduction to some of the basic questions raised by the contemporary feminist movement relating to the social, political, and economic status of women.

#### Upper Division

General Education Category A must be completed prior to taking any upper division course except upper division language courses where students meet formal prerequisites and/or competency equivalent for advanced study.

##### 300. Principles of Feminism (3)

Prerequisites: ENGL 100 and upper division status or by consent of instructor. An introduction to principles of feminist history, thought, theory, methodology, and current issues that emphasizes but is not limited to the United States. Traditional grading only.

**3071. U.S. Women and the Economy: Money, Sex, and Power (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. This course is an interdisciplinary examination of assumptions about the economic roles of women; analysis of the sexual division of labor, domestic work, and its ideology; women as wage workers; women and development, U.S. women and the economy. Special focus will be on the origin, migration, settlement, and economic patterns of, problems facing, and attitudes about women from major ethnic and racial groups in the United States.

**308. Women and the Law (3)**

History of women's experience under the law; constitutional law; 19th amendment and ERA; equal protection issues; discrimination in employment; marriage and family law.

**3091. Women in Science (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. The purpose of this course is to increase awareness of the accomplishments of women in natural science, engineering, and mathematics in their socio-historical context; and the obstacles that have precluded easy access to careers for women in these areas. Specific topics encompass the historical roles of women in science, contributions of celebrated women scientists and women scientists who made significant contributions but were ignored or devalued by their scientific peers, and the nature of the research problems they pursued including methodology and outcomes. Other key issues include stereotypes and images of women in science; cultural, societal, and institutional obstacles to the entry and success of women in science; and ways of overcoming these obstacles. Disciplines included in this course are science, history, and sociology. Traditional grading only. Same course as NSCI 3091. (Lecture 3 hrs.)

**314. Women Narrate Their Lives (3)**

Study of the lives of a cross-section of Women in the U.S. from colonial era to the present based on biographical and autobiographical sources.

**315. Black Women in America (3)**

Prerequisites: ENGL 100 and upper division status or by consent of instructor. An examination of American black women from the eighteenth century to the present. Taught from an interdisciplinary perspective and presented in their own voices. Traditional grading only.

**316. Women in the History of U.S. Film (3)**

History of women as they are represented, presented as images, or constructed in the development of U.S. film. Theory and analysis of film from a feminist perspective. Same course as FEA 317.

**3181. U.S. Women of Color (3)**

Prerequisites: ENGL 100 and upper division standing or by consent of instructor. Examines the condition and position, the experiences and accomplishments of women of color in the United States. Explores the social construction of race and gender as they intertwine within the institutional structures of the US, implications of the interactions between and among women of color, both within and across distinct ethnic/cultural groups and the effect of "whiteness" upon communities of color. Covers historical and contemporary issues using theoretical essays, personal narratives, historical documents, literature, and media images.

**319. The Ethnic Experience in the U.S. (3)**

An examination of the dynamics of the development of our multicultural society, emphasizing study of the four distinct ethnic strands of American society (Asian American, Black American, Mexican American, and American Indian) and their role in the maintenance of cultural diversity in the United States. (Lecture/Discussion.) Same course as AIS 319, ASAM 319, B/ST 319, CHLS 319.

**320. Latina Women in the United States (3)**

Prerequisite: Junior standing or permission of instructor. This course will examine the cultural, political, economic, and sexual forces that mold Latina women. The first section of the course will focus on cultural stereotypes and responses to these stereotypes by Latina women scholars. The second section of the course will

focus on Latina class differences and the politics of race. This will provide an overview of the contemporary public policy issues affecting Latinas and the broader Latino community. The contradictions that are identified in this course segment will be juxtaposed against selected African American perspectives to identify areas of symmetry as well as areas of divergence in the domain of political strategizing for political reform and Latina empowerment. The last section of the course will address issues of gender identity and sexuality that challenge, undermine, and strengthen the position of Latina women in the greater society. Same Course as CHLS 415.

**325. Sociology of Women (3)**

Socio-cultural position of women; a brief history of women's role and status; societal attitudes toward women's place in society. Same course as SOC 325.

**3381. Women in Sport (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Survey of women's historical and contemporary involvement with sport. The social, cultural and developmental implications of sports participation for women. Same course as KPE 3381.

**340. Community Service Learning in Women's Issues (3)**

Prerequisites: Upper division standing and two prior women's studies courses, or permission of instructor. This course will allow students the opportunity to practice the theories and knowledge they have gained as a result of studying women's issues. Students will work in the community with agencies addressing women's issues.

**350. Feminist Issues in Mental Health (3)**

Introduces issues related to the mental health of women, from historical, anthropological, sociological and psychological perspectives. Emphasis is on the relationship of power, sexism, sex role socialization and gender stereotypes to mental health.

**356. Women and Sexual Orientation: Lesbianism (3)**

Examination of lesbianism from psychological and historical perspectives; includes discussions of lesbianism in literature, representations of lesbianism in various media; the place of lesbianism in the politics of the women's movement and in gay liberation, and the development of "queer theory".

**3651. Images of Women in Popular Culture (3)**

Prerequisites: Completion of GE Foundation requirements, one or more Explorations courses, and upper-division standing. Analyzes the construction of images of women in popular culture. Discussion of theories of culture, gender and ideology. Analysis of film, advertising, magazines and popular fiction.

**381. Asian American Women (3)**

This course will explore the largely unwritten history of Asian American women. Using an inter-disciplinary perspective, we will look at not only secondary sources but also autobiographical, literary, and journalistic writings; oral histories, diaries, anthropological studies, psychological/clinical reports, and film to reconstruct the lives of Asian American women. We will examine how having been burdened by the triple oppression of gender, race, and class, Asian American women have been actively pursuing equality and dignity. Same course as ASAM 381 and HIST 381.

**382. Women and Literature (3)**

Images of Women in English literature; works in various genres that present the range and complexity of women's lives; feminist critical approaches and bibliographic resources. Specific content will vary. (Lecture-Discussion) Same course as ENGL 382.

**384. European Women's History (3)**

European Women's History is an upper division course which investigates how European history has impacted on women and how women and women's issues have shaped historical events. Issues that the course will address include: the nature, methodology and approaches of women's history; the significance of the Enlightenment and French Revolution for women and the role women played in these events; the work women of all classes did, and how industrialization affected the position of women; women's role in and their relationship to 19th and 20th century wars and revolutions; women's health and sexuality; the role of the women in the family; women's socialization and education; the "Women Question" and attempts to remedy women's position; recent feminist theory; and a speculative look at the future of European women. Same course as HIST 338.

### 392. Feminist Pedagogy: Peer Facilitation (3)

Prerequisite: Consent of Instructor. Peer facilitation of small group discussion, teaching assistance and other assignments directed by a supervising faculty member, supplemented by seminar, reading and journal writing. May be repeated for a maximum of six units. Traditional grading only.

### 394. Middle Eastern Women (3)

Prerequisites: Upper division status. In this course we will explore a wide range of roles played by Middle Eastern women throughout history and seek to understand the multi-faceted thoughts and activities of women. By studying many different kinds of sources, both secondary and primary, including memoirs, biographies, travel accounts, poetry, and film, we will look at women from different geographical and class backgrounds and discuss the most important issues related to women and gender in Middle Eastern history. This course will proceed in chronological order but will also have a strong thematic approach. While the focus of this course is on Muslim women, who are the majority in the region, the experience of minority women will also be addressed. Same as HIST 394.

### 401I. Women in Global Perspective (3)

Prerequisites: completion of Foundation courses, one or more Explorations course, and upper-division standing. Comparison of how different social and cultural systems have affected gender ideologies and gender practices and how women's social, cultural, economic, and political roles have changed over time. The emphasis is on pre-industrial and contemporary Third World societies where the majority of the world's female population lives. Draws on recent anthropological, sociological, historical, political science and women's studies research to understand factors related to gender inequality and women's empowerment.

### 402. Women in Political Theory (3)

Prerequisite: Students must have completed one course in either political science or women's studies. Differential treatment of women and men in western political theories, including femininity, power, rationality and the role of the women in the family. Classic and contemporary texts. Same course as POSC 401.

### 406. Asian Women (3)

Historical experience of women in Asia, with emphasis on Chinese and Japanese societies; links with the experience of Asian-American women.

### 406A. Asian Women: East and Northeast Asia (3)

Prerequisite: Upper division status. In this course, we will explore the diverse experiences of women in China, Japan, and Korea. By studying different kinds of sources, including memoirs, biographies, literature, film, as well as scholarly works by or about North and Northeast Asian women, we will examine how gender was historically constructed and discuss about women's various forms of resistance in this area. This course will proceed both chronologically and thematically. Major issues to be addressed include the discrepancy between gender norms and reality, women's agency in social change, women and the state, and the complex relationship between feminism and nationalism. Asian American women's experiences will also be discussed at relevant places throughout the course. At the end of the course, students are encouraged to critically reflect on some theoretical issues that have been discussed in the scholarship on women's history in general and North and Northeast Asian women's history in particular. Same courses as A/ST 406A and HIST 406A.

### 406B Asian Women: South and Southeast Asia (3)

An introductory course on the experiences of women in two of the most ethnically, culturally, and politically diverse regions of the world: South and Southeast Asia. This course explores the diversity of women's experience in these two regions during the colonial and post-colonial periods. Using different kinds of sources, including memoirs, biography, literature, and film, as well as monographs or about South and Southeast Asian women, we will examine how gender is historically constructed in the two regions, and how women have exercised agency throughout history. This course will proceed both chronologically and thematically. Major issues to be discussed include women's agency in social change; gender as a contentious site of political

discourse; the impact of colonization on women, and women's various forms of resistance. Traditional grading only. Same course as A/ST 406B and HIST406B.

### 410. Women, Religion, and Spirituality (3)

Prerequisites: ENGL 100 and upper division status, or by consent of instructor. A study of the socio-religious construction of the "nature of woman" from prehistory to present day. Analysis of women in traditional religions and new religious movements, in women's religions around the world, and the rise of fundamentalisms.

### 415. Feminist Theory (3)

Prerequisites: W/ST 300 or consent of instructor. Examines contemporary feminist theoretical perspectives. Discussion of primary sources from a number of positions, including liberal, socialist, poststructural, "third world", postmodernist and postcolonial feminisms. Issues include gender and sexuality, race, ethnicity, class and nationality. Focus on discussion of current debates which cross disciplinary boundaries. Active student participation required. Traditional grading only.

### 420. Mothers and Daughters (3)

Analyzes how mothering is "reproduced" in daughters, and why/how patriarchal culture regulates the mother/daughter bond. Readings are primarily literary texts, with theoretical materials drawn from an interdisciplinary framework. Special emphasis is given to the shaping of the mother/daughter relationship in a range of historical, racial, class and sexual contexts.

### 424. Ecofeminism (3)

Upper division standing, prior Women's Studies class or consent of instructor. Ecofeminism examines the complex ways women and nature have been treated through 1) patriarchal socio-religious ideology, 2) socio-economic underpinnings and environmental impact of international development, 3) the practical meaning of environmental devastation on women's lives and how this is tied to patterns of consumption and waste in industrialized nations, and 4) the consequences of and reactions to environmental pollution in the United States today.

### 425. Women and Power (3)

Prerequisites: A previous W/ST class (101, 102, or 300) and upper division status or consent of instructor. Examination of the ways power has been defined, obtained, shaped and maintained, and the effect this has historically had on women. Applies theory to contemporary issues affecting women and explores strategies for empowerment.

### 430. Women and Violence (3)

Women as victims and survivors of physical, psychological, and philosophical violence. Problems of rape, woman battering, incest, pornography and sexual harassment; examination of legal, religious and philosophical issues and alternatives for change.

### 432. Women in the City (3)

Examines the way women respond to the urban environment, both literally and imaginatively. Special attention paid to the sexual division of space, particular needs of immigrant and third world women, and utopian cities of sisterhood. Readings feature literary texts, augmented by an interdisciplinary range of theoretical and empirical studies of cities.

### 440. Issues in Women's Health (3)

Prerequisites: Upper division status; ENGL 100; and W/ST 101, BIOL 205, BIOL 207, or BIOL 211B. The purpose of this course is to help women attain and/or maintain an optimum state of health and to become discerning consumers of the health care industry. Fundamentals of normal physiology and natural defense mechanisms will be covered in order to promote understanding of the cause, prevention and treatment of various conditions or disorders, including reproductive organ dysfunction, menstrual disorders, sexually-transmitted disease, infertility, complications of pregnancy, osteoporosis, cancer, and cardiovascular disease. The importance of lifestyle habits (diet, exercise, stress, etc.) will be emphasized throughout. Other topics will include gender differences in health and mortality, the history and current status of research on women's health issues, and the current political climate regarding women's reproductive rights.

**455. Philosophical Perspectives on Sex and Love (3)**

Prerequisite: 6 units of philosophy or consent of instructor. Philosophical perspectives on sex and love explores philosophical issues concerning sex, gender and love through readings and discussion of classical and contemporary philosophical sources. Topics such as sexual perversion, romantic love and gender discrimination are examined. Same course as PHIL 455.

**475. Language and Gender in Cross-Cultural Perspective (3)**

Analysis of men's and women's communication in its social and cultural context; role of gender in interpreting conversational interactions in the U.S. and elsewhere; acquisition of gender differences; cultural dimensions or perceptions and stereotypes and their effect on communication. Same course as ANTH 475 and LING 470. Traditional grading only.

**485A. History of Women in the U.S. Early Period (3)**

Provides a survey of the roles and activities of American women from colonial period to 1850; variety of female life experiences; slavery, immigration; relationships to the family, economy and political movements. (Lecture) Same course as HIST 485A.

**485B. History of Women in the U.S. Since 1850 (3)**

Changing roles and status of women in economic and social change; suffrage movement; women in union movement and WW II; the decade of the sixties and the "second wave" of feminism. (Lecture) Same course as HIST 485B.

**490. Special Topics (1-3)**

Topics of current interest in women's studies, selected for intensive study. May be repeated with different topics for a maximum of six units. Same course as AIS 490.

**490K. Women and War: Voices of Resistance**

An interdisciplinary course which studies the autobiographical testimonies of women who have experienced war and its aftermath and how their voices have been interpreted in recent years. Included are literary, historical, sociological and psychoanalytical considerations of the impact of war on women during World War I and II, the Spanish Civil War, and confrontations in Central and Latin America. Same topic as SPAN 493A, HIST 490F. (Lecture)

**491. Special Topics (1-3)**

**492. Special Topics (1-3)**

Topics of current interest in women's studies, selected for intensive study. May be repeated with different topics for a maximum of six units.

**494. Research Colloquium (3)**

Prerequisites: Upper division status or consent of instructor. Applied methods and research skills. Specific topics will be chosen by instructor. May be repeated with different topics for a maximum of six units.

**495. Senior Capstone Seminar (3)**

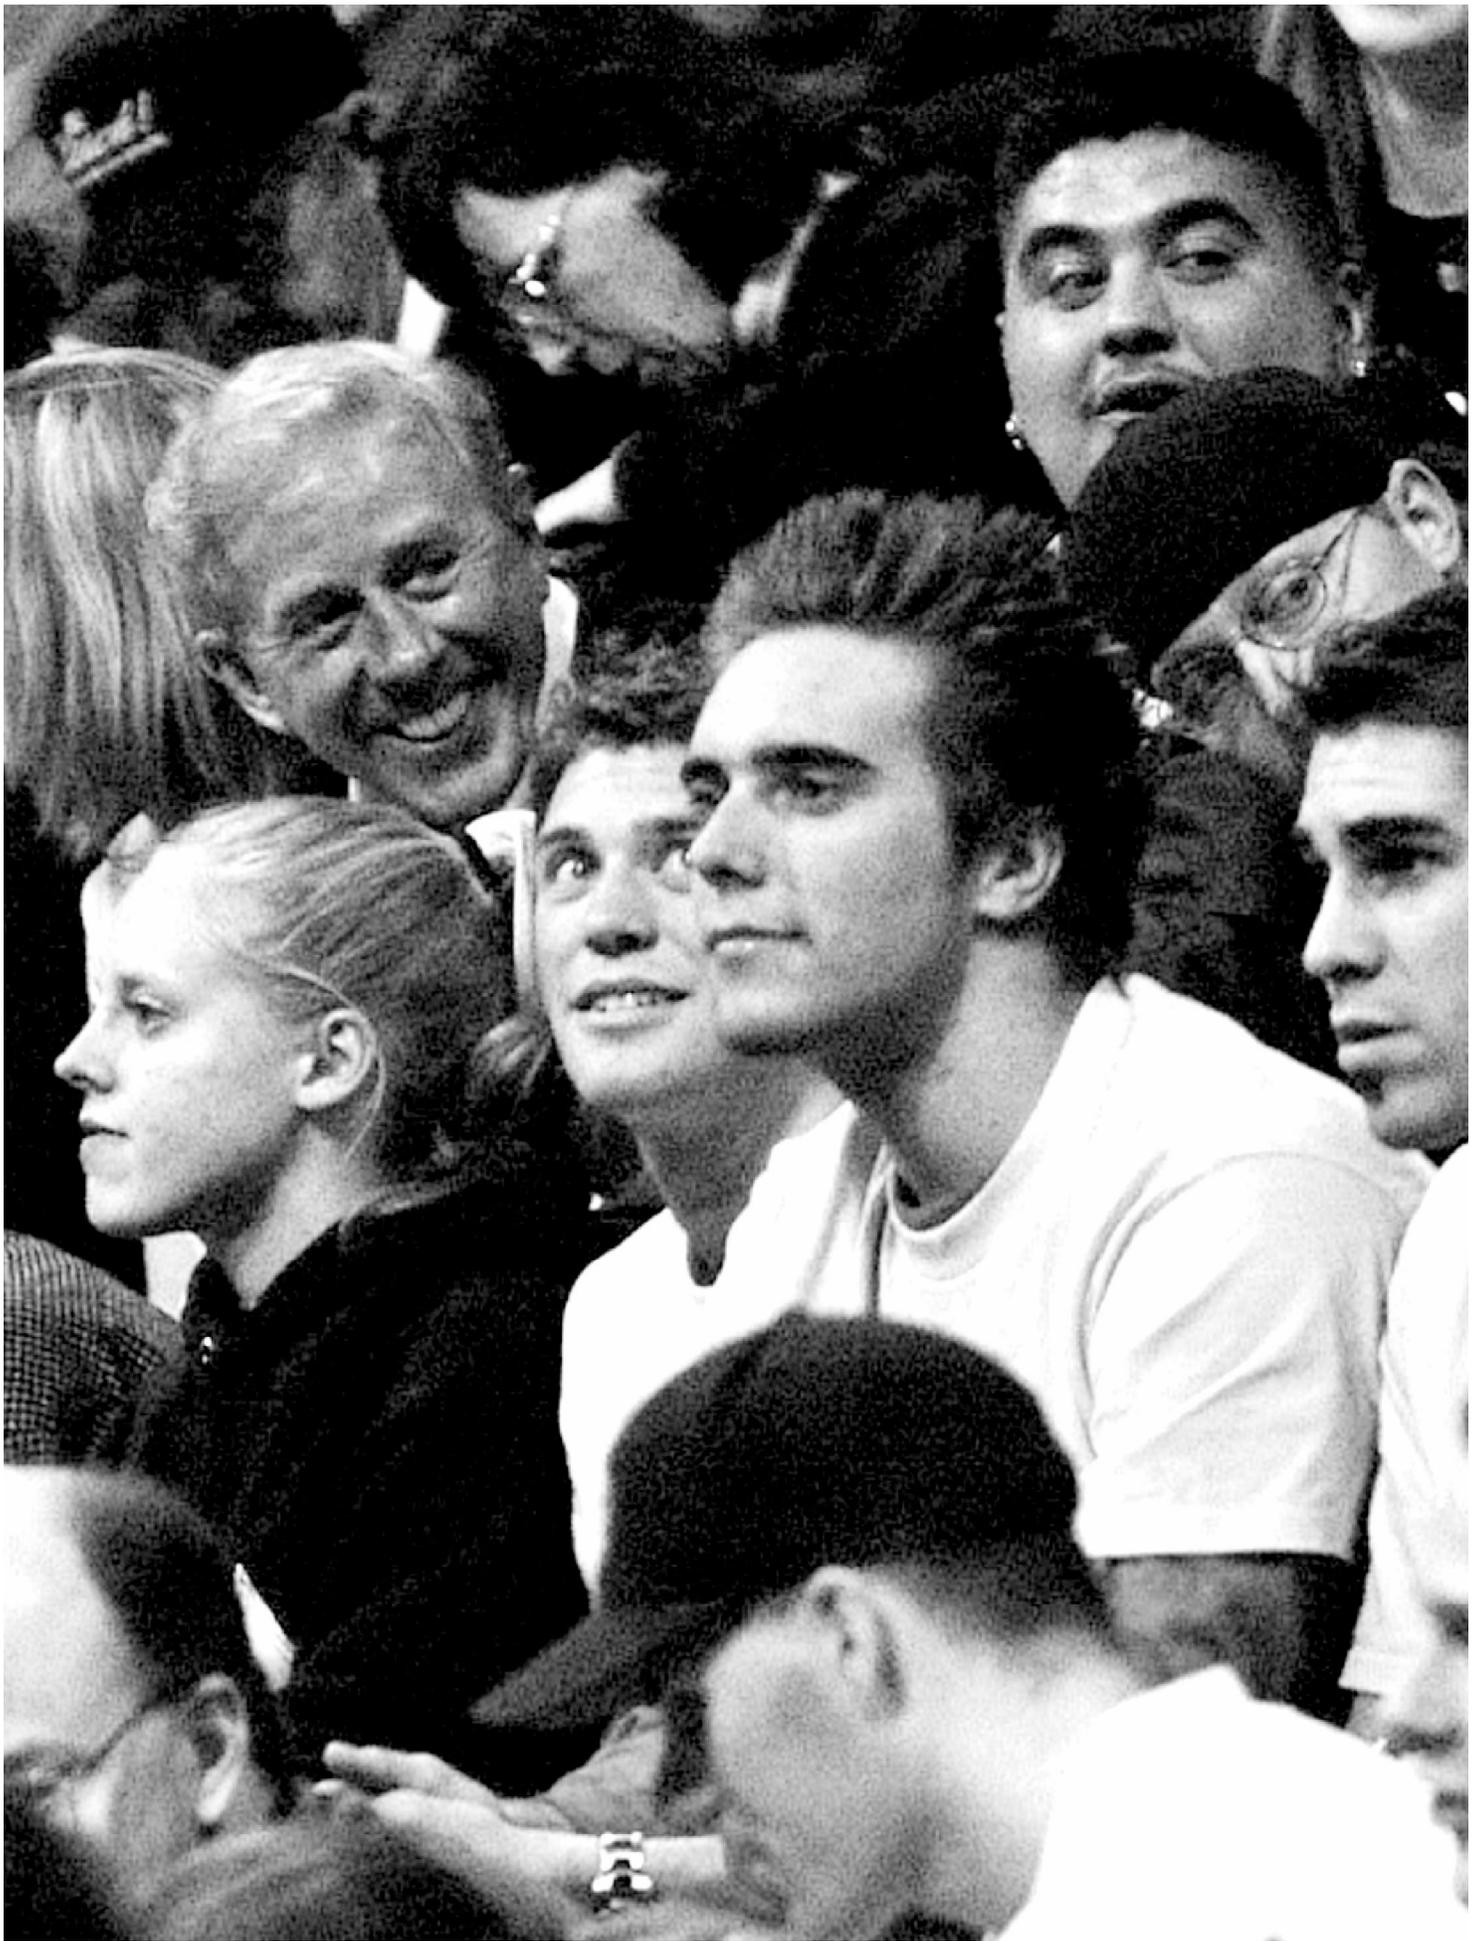

Prerequisites: Open to W/ST majors and minors, or by permission of instructor. Capstone course intended to integrate the multidisciplinary body of knowledge accumulated in the major or minor.

**498. Field Work (1-3)**

Consent of instructor. Practical experience in campus or community organizations concerned with women's issues. May be repeated for a maximum of six units.

**499. Directed Studies (1-3)**

Consent of instructor. Independent work in areas of special interest to student and instructor. May be repeated for a maximum of six units.

# GENERAL REGULATIONS AND PROCEDURES

## Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or CSULB designee. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, college, or administrative office.

Nothing in this catalog will be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and CSULB or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees. Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices, and procedures, or its faculty and staff, may be obtained from Leslie Nix-baker, Director of Employee Relations, Brotman Hall (BH) 303, (562) 985-1742, or from Steve Katz, Director of Judicial Affairs, BH 377, (562) 985-5270.

The Federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at <http://www.sss.gov>.

Information concerning the academic programs of CSULB may be obtained from the Academic Vice President, BH 303, at (562) 985-4128 and may include:

1. the current degree programs and other educational and training programs;
2. the instructional, laboratory, and other physical plant facilities which relate to the academic program;
3. the faculty and other instructional personnel;
4. data regarding student retention at CSULB and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest; and
5. the names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

## Election of Regulations for Degree Requirements

Undergraduate students acquire "catalog rights" with respect to the requirements for a degree program by maintaining "attendance" continuously. This means that, if continuous attendance is maintained and the degree objective is not changed, students may choose to graduate under the requirements for the degree in effect 1) at the time they began the study in a California community college or another campus of The California State University, 2) at the time they entered CSULB, or 3) at the time of graduation from CSULB. Substitutions for discontinued courses may be authorized or required by the Dean of the cognizant College. Students who change their major, including changing from "undeclared" status to a defined degree objective, are governed by the degree major requirements in effect at the time of the change or declaration of major. Students who change from one option to another within the same degree program are not. Students who change majors are advised that some courses counted for General Education or double counted for General Education and a major may become unacceptable for General Education in connection with a new major. These students should check with the Academic Advising Center.

The term "attendance" means, literally, attendance in a course for at least one semester (or quarter) unit credit in at least one semester (or two quarters) in a calendar year, culminating in a record of enrollment on the student's official transcript. For the purpose of establishing catalog rights, the course must be at the baccalaureate or graduate level in a California community college, a California State University, or a University of California campus.

Once "catalog rights" are established, absence related to an approved medical, military or academic leave or for attendance at another accredited institution of higher education will not be considered an interruption of attendance, provided that the absence does not exceed two years. Please see Educational Leave later in this section.

For all students, a failure to remain in continuous attendance will mean that the student must meet the regulations current at the time of resuming the degree program or those applicable at the time of graduation. In addition, for graduate students, a failure to maintain continuous attendance means the automatic revocation of "candidacy" for the degree (advancement to candidacy) and of "catalog rights."

### Academic Calendar

Fall and Spring Semesters: California State University, Long Beach operates on the semester system. Normally, Fall Semester classes begin in late August. The last day of instruction usually comes midway in December; this allows for a week of final examinations prior to the Winter Recess, which begins about the 20th of December. The Spring Semester usually begins in the last week of January and ends in mid-May in time for a five-day final examination period and a week of commencement exercises just before or after Memorial Day. The two regular semesters are the only periods during which a student may establish residency in the University.

### Summer, Winter, and Extended Education Sessions

Summer Sessions courses are offered during three sessions extending through the months of June, July and August. Winter Session is a three-week session beginning in early January. Instruction is also provided during the fall and spring semesters through University College and Extension Services in various formats including Open University and Special Sessions.

### Student Load

Undergraduate students who carry 12 units or more in a fall or spring semester are classified as full-time students. Those who carry fewer than 12 units are part-time students. To be full-time, graduate students must carry at least 9 units.

#### Maximum unit load

Graduates .....	16 units
First Semester Freshmen .....	17 units
Students on Academic Probation .....	17 units
All Other Students .....	18 units
Summer and Winter Sessions .....	1 unit per week of attendance

Exceptions to these limits may be made only on the basis of proven academic ability and the feasibility of the student's schedule. Permission must be obtained (prior to registration) from appropriate authorities: in the regular semester, from the student's major department, in summer and winter sessions, from the College Dean who governs the student's major. (Unclassified majors must consult the Academic Advising Center.)

#### Student Levels

Freshman .....	0.1 to 29.9 units
Sophomore .....	30.0 to 59.9 units
Junior .....	60.0 to 89.9 units
Senior .....	90.0 or more units
Postbaccalaureate .....	holding a baccalaureate or equivalent degree

The faculty recognizes that it is frequently necessary for students to hold part-time positions while attending the University. It advises that good judgment be demonstrated by students enrolling under these conditions. Students whose outside employment could be expected to interfere with the

normal unit load should reduce their academic program accordingly. It is suggested that students plan their schedules based on spending three hours time per week for each unit taken. This may be considered sufficient time to enable a student to do satisfactory work. Students who desire to achieve "A" or "B" grades may wish to spend proportionately more time in their studies. A student's employment and college time combined should not exceed 60 hours weekly. Students who make no allowances for their employment and outside obligations in planning their college programs will bear full responsibility for the resulting level of scholarship.

Veterans should inquire at the Veteran's Affairs Office (BH 226) about unit load requirements for state and federal benefits.

For more information about graduate student load, see regulations governing Master's Degrees in this *Catalog*.

Undergraduate international students on non-immigrant visas must carry and complete a minimum of 12 units per semester unless a reduced load is authorized by the student's advisor and the Center for International Education. Reduced unit loads may be granted for substantial academic reason or compelling personal reasons beyond the control of the student. Failure to secure such authorization results in violation of student status under Immigration and Naturalization Service (INS) and State Department regulations, warranting discontinuance of enrollment.

It is recommended that students with disabilities attempt to modify their schedules, as necessary, to lessen the impact of a disability. However, students with disabilities may request to enroll in a unit load which is commensurate with their ability. Reduced unit load is defined as less than 12 units for undergraduates and less than 9 units for graduates. Such requests must be made to Disabled Student Services prior to each semester affected. If approved, the student will be entitled to all benefits, services, and activities governed by the University which are accorded to full-time students. Eligibility for benefits, services, and activities outside the University's control will be governed by each separate external agency based upon actual unit load.

### Class Attendance

Students are expected to attend classes regularly. Classroom participation is often one of the necessary and important means of learning and in many classes is essential to the educational objectives of the course.

Faculty members must include their guidelines for assigning grades in the syllabus (as required by Policy Statement 99-19, Grades and Grading Procedures). The syllabus must make clear whether any portion of the grade is based on attendance and/or participation. It is the students' responsibility to make themselves aware of each faculty member's guidelines by carefully reading the syllabus.

Faculty members may drop students who fail to attend class during the first week of the semester. However, students should not presume that they will be dropped by the faculty member. Students who have registered for a class, but never attended, should verify with Enrollment Services whether or not they are officially enrolled. It is the student's responsibility to withdraw officially from the class.

Students may have a valid reason to miss a class. When any of the following reasons directly conflict with class meet-

ing times, students are responsible for informing faculty members of the reason for the absence and for arranging to make up missed assignments, tests, quizzes, and class work insofar as this is possible. Excused absences include, but are not limited to:

1. Illness or injury to the student
2. Death, injury, or serious illness of an immediate family member or the like
3. Religious reasons (California Education Code section 89320)
4. Jury duty or government obligation
5. University sanctioned or approved activities (examples include: artistic performances, forensics presentations, participation in research conferences, intercollegiate athletic activities, student government, required class field trips, etc.)

Faculty members are not obligated to consider other absences as excused. Faculty members may require students to provide documentation for excused absences.

There are numerous classes offered on campus where attendance is crucial since student participation is essential. Absence from these courses may impact upon the work and participation of other students. Students who anticipate extended or multiple absences during a particular semester should consult with their advisor and the faculty member before enrolling in any class to determine whether it will be possible to complete the requirements for the course. Students who realize after enrollment that they will have extended or multiple absences should consult with the faculty member to see whether it will be possible to complete the course requirements.

The earliest possible notification is preferred. In some circumstances, it may be possible for the student to notify the faculty member of anticipated absences (e.g. for religious reasons or for scheduled athletic events) during the first week of enrollment. Advance notification (minimally one week in advance) is required for the following absences:

1. Jury duty and other government obligation
2. Religious reasons
3. University sanctioned or approved activities

The California Education Code (section 89320) requires "each state university, in administering any test or examination, to permit any student who is eligible to undergo the test or examination to do so, without penalty, at a time when that activity would not violate the student's religious creed. This requirement shall not apply in the event that administering the test or examination at an alternate time would impose an undue hardship which could not reasonably have been avoided. In any court proceeding in which the existence of an undue hardship which could not reasonably have been avoided is an issue, the burden of proof shall be upon the institution."

It is the responsibility of the student to make advance notification, contact the faculty member to make arrangements to make up any academic work that may be missed, submit assignments on time, and to make arrangements regarding activities, tests, quizzes, or exams that may be scheduled during the absences.

If a student does not notify the faculty member one week in advance of the date of absences for these reasons (jury

duty, governmental service, religious observances, or University sanctioned activities), the instructor is not required to adjust the class schedule or to allow for make up activities, tests, or exams. However, students shall not be penalized for excused absences when circumstances make it impossible to provide advance notice (e.g. student is engaged in a University sanctioned event such as a performance, tournament, or playoff which cannot be anticipated).

Students who expect to be absent from the University for any valid reason, and who have found it difficult to inform their instructors, should notify the academic department office. The department office shall notify the student's instructors of the nature and duration of the absence. It remains the responsibility of the student to arrange with instructors to make up any academic work missed.

In circumstances where an actual assignment, some specific class work, an activity, a quiz, or an exam cannot reasonably be made up, it is the instructor's option to assign alternative work.

### Visitors to Classes

Only students registered for the class either as regular students or as auditors, the instructor, and invited guests of the instructor may attend classes at CSULB. Persons wishing to become guests of the instructor should seek the instructor's permission prior to the scheduled beginning of the class session.

### Course Listings

Courses are listed in this catalog by department, the departments and programs being arranged alphabetically. Each listing gives the course number, title, semester units in parentheses, semester or session offered, and the course description, which includes prerequisites and other restrictions.

An asterisk (\*) preceding the course number indicates that the course is acceptable as elective credit for the master's degree.

### Course Numbers

Any course numbers beginning with zero do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken. Lower-division courses are numbered from 100 through 299. These courses are designed primarily for Freshmen and Sophomores. They provide breadth of understanding and the foundation for the more specialized work in upper-division, advanced courses. Approved General Education courses are listed in the *Schedule of Classes* and are offered at both the lower-division and upper-division levels; no upper-division General Education course may be used in a graduate degree program. Lower-division courses are open to Junior, Senior, and Graduate students; however, lower-division courses may not be applied to any graduate degree program.

Upper-division courses are numbered from 300 through 499. These courses are open to students who have completed the prerequisites to the course, if any, stated in the course description and other departmental regulations given in this catalog. A "Prerequisite" is a completed course or other

measure of academic preparation which provides a foundation for the more advanced course.

Freshmen and Sophomores wishing to enroll in upper-division courses which indicate no prerequisites should consult with the course instructor or other knowledgeable advisor prior to enrollment. These courses are presented to meet the expectations of academically advanced students. Freshmen and Sophomores should not attempt courses with numbers preceded by an asterisk.

Certain 400-level courses are double-numbered with 500-level courses. In these courses the expectations of graduate students, who must enroll in the 500-level course, are greater than the expectations of undergraduates. Grading scales are different for the 500-level course and additional work is required of graduate students. A student may not earn credit for both the 400- and 500-level versions of a course.

Graduate-level courses are numbered from 500 to 799. Courses numbered 500-599 may be opened to senior students upon favorable petition. Courses numbered from 600 to 799 are open only to graduate students.

Included with some of the course numbers is a supplementary letter, or suffix, such as L for "laboratory" or A and B for a year-long sequence. "A-B" means that the courses must be taken in alphabetical sequence; "A,B" designates related courses which need not be taken in sequence. The student is given degree credit for each part of the sequence satisfactorily completed, whether or not the remaining part of the sequence is completed. The "semester or session offered" information is presented as a long-range planning guide. Funding, student demand, and instructor availability may require that a course be offered in a different semester or session or be postponed until a later academic year. F indicates Fall Semester, S indicates Spring Semester, W indicates Winter Session, and SS indicates Summer Session. The *Schedule of Classes* appropriate to the semester or session in question should be consulted for actual course scheduling information. Courses offered only in alternate years are so designated. Many of the courses offered during the fall and spring semesters are also offered during the summer session.

The University reserves the right to make changes in course offerings without notice.

Courses offered through Extended Education conferring Continuing Education Unit credit (CEU) carry no degree credit.

### Course Subject Abbreviations

The following course subject abbreviations are employed in the *CSULB Catalog*, the *Schedule of Classes*, student study lists, academic planning guides, evaluation materials, and transcripts.

#### Abbreviation ..... Definition

ACCT	Accountancy
AE	Aerospace Engineering
AH	Art History
AIS	American Indian Studies
ALI	American Language Institute
ALP	American Language Program
ANTH	Anthropology

ART	Art
ASAM	Asian American Studies
A/ST	Asian Studies
ASTR	Astronomy
BIOL	Biology
B/ST	Black Studies
CBA	College of Business Administration
C D	Communicative Disorders
C E	Civil Engineering
CECS	Computer Engineering and Computer Science
CEM	Construction Engineering Management
CH E	Chemical Engineering
CHEM	Chemistry
CHIN	Chinese
CHLS	Chicano and Latino Studies
C/LA	College of Liberal Arts
CLSC	Classics

## Academic Credit

### Course Credit Units

Each course has a specific credit unit value which is indicated in parentheses following the course title. In typical lecture and discussion classes, the number of course credit units is equal to the number of class hours per week. Thus, in a typical fifteen-week semester a one-unit class meets for a total of fifteen hours during the fifteen weeks while a three unit class will meet forty-five hours during the same period. A typical lecture class may be scheduled to meet once, twice, or three times a week. Any course numbers beginning with zero do not count toward any degree program. However, for purposes of qualifying for financial aid, the unit value assigned to those courses will count for the semester in which those courses were taken.

In other types of instruction, principally laboratories and activities of other kinds, the number of class hours per week is greater than the number of course credit units, depending on the mode of instruction. Courses with variant or mixed modes of instruction are noted in the course description and the *Schedule of Classes*. Summer Session classes require the same total amount of class time, compressed into a six week session.

The instructional "hour" is fifty minutes long, allowing for transit between classes and rest breaks within multi-hour classes. In most classes the student is expected to allow two hours per week of study time beyond class time for each unit of credit. Thus, a three-unit lecture-discussion course normally demands a commitment of nine hours per week averaged over the semester.

### Credit for Activity Courses

Activity courses provide practice in areas such as music, physical education and Sports, Athletics, and Recreation. Students may apply to the degree no more than eight units each of activity course credit in music and physical education and no more than four units of activity course credit in SAR to total no more than 20 units in all areas.

### Independent Study Courses

Each student enrolled in a supervised independent study, research, or reading course (excluding thesis courses) must have an agreement on file in the department office where the course is offered. The agreement is to be made between the student and the instructor at the beginning of the course and must include the following: a description of the work to be accomplished, specific information on the tasks required, the nature of the final report, and the basis for determining the final grade. The agreement must be signed by both the instructor and the student.

### Credit for Cross-Listed Courses

Certain interdisciplinary courses are listed in this catalog under more than one department. Normally, students will receive credit for such a cross-listed course in the department under which they register for it. They may, however, have Enrollment Services indicate that this course may be credited to a different department which also lists it, provided that they make this request no later than the end of the semester preceding anticipated graduation.

### Repetition of Courses for Satisfactory Grade (Repeat and Delete)

Undergraduate students and postbaccalaureate students who are pursuing a second (or subsequent) baccalaureate degree may repeat, for the purpose of excluding the grade from grade-point determination, an undergraduate course taken at California State University, Long Beach in which a grade of D, F, or U was received. Postbaccalaureate students pursuing credential programs, certificate programs, master's degrees or those who have no specific objective are not eligible for the Repeat and Delete policy.

Eligible students may repeat a course once for the purpose of deleting a grade, without prior departmental approval, if the course was taken both times at CSULB. The deletion is automatically calculated at the end of the semester in which the course was repeated. Although the first grade will remain on the permanent record, the grade and grade points of the repeated course on the second attempt will be those used in determining the grade-point average and units earned, provided the second grade was C or better.

Students are not prohibited from continuing to repeat a course in which the grade is unsatisfactory (D, F, U), but all grades earned subsequent to the first repeat will remain in the grade-point determination, and the units earned in the course

will be applied to the degree only once. While there is no time limit for repeating a course, the student's permanent record may not be altered after a degree has been granted.

If students wish to exclude from grade-point determination a grade of D, F, or U in a course taken at another institution, they may do so by enrolling in an equivalent course at CSULB. A petition must be filed with Enrollment Services. The department in which the course is taught must indicate on the petition which particular course may be repeated to delete the previous grade. An official transcript from the institution where the original course was taken must accompany the petition. Only one repeat is allowed for the purpose of deleting a grade, and the repeated grade and grade points will be used in the overall grade-point determination, provided the second grade was C or better.

A grade received in a course taken at another institution may not be used to delete a grade in an equivalent course taken at CSULB.

Except for upper-division courses in the student's major completed more than ten years prior to graduation, students may not repeat or receive unit credit for courses in which they have already received a CR or a C grade or better.

### Repeatable Courses

A student may repeat for additional units or credit toward a baccalaureate or graduate degree any course specified as repeatable in the University Catalog up to the limits specified. Each department determines the unit limits and any other limitations for courses that may be repeated. In addition, except for activity courses, upper-division courses in an undergraduate student's major completed more than ten years prior to graduation, and courses on a graduate student's program of study taken more than seven years prior to graduation, a student may not take or receive unit credit for a course for which the student has already received a CR or a C grade or better, including a course taken at a high school or another college or university.

### Transfer Credit

Students who were in good standing at another accredited institution may, within maximums, transfer credit for baccalaureate or graduate degree course work. Course equivalency for major requirements must be determined; students are cautioned that the University is under no obligation to accept transferred courses for subject credit in addition to unit credit for admission. Normally, however, there is a probability that courses in the accepted core of a discipline will be exchangeable between universities. Policy regarding transfer of courses from California community colleges differs in some respects.

### Transfer of Undergraduate Credit From Accredited Community Colleges

A maximum of 70 semester units earned in a community college may be applied toward the baccalaureate degree, with the following limitations and stipulations:

1. No upper-division credit may be allowed for courses taken in a community college;
2. No more than six semester units in education courses taken in a community college may be applied toward the baccalaureate degree or the professional preparation requirements of a teacher education basic credential program;

3. Individual program regulations for specific transfer limitations should be consulted.
4. Students who transfer general education certification are still required to complete at least 9 units of upper-division courses at the campus conferring the degree.

### Extension Credit

A maximum of 24 semester units of Extension Credit may be accepted toward a baccalaureate degree. At the option of the appropriate college and department, up to six units of Extension Credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. Extension credit may not be used to fulfill the minimum 30-unit residence requirement.

### Open University

The Open University program allows enrollment in regular university credit courses for those people who are not currently admitted to and/or registered at CSULB. Enrollment is on a "space available" basis, subject to the approval of the instructor and the department chair concerned.

Students may apply up to 24 units of Open University Special Sessions credit toward a baccalaureate degree. At the option of the appropriate college and department, up to six units of Open University Special Sessions credit may be applied to a graduate degree. This limit may be increased to nine units in some instances. All units that are applied to a degree are classified as residence credit.

### Credit for Noncollegiate Instruction

CSULB grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, appropriate to the baccalaureate, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Service and the National Guide to Educational Credit for Training Programs. Students must provide acceptable documentation of the training to the Office of Enrollment Services.

### International Program Credit

Course credits earned in universities abroad may be accepted for degree credit at CSULB subject to evaluation by the cognizant department or program upon admission of the student to the University. CSULB students who desire, subsequently, to take courses at a foreign university for degree credit must have each such course approved in advance in writing by the Chair of the appropriate department or program.

The Center for International Education administers many international education and exchange programs. Students fully accepted into one of these programs may, in most cases, continue CSULB residency while studying in the approved foreign institution. Some courses taken through these programs do not have to be approved in advance.

### Acceleration of University Studies

The University provides several means by which students may accelerate their studies; these are discussed below. Each of the following options may be subject to restrictions and regulations within individual academic programs. Therefore, students interested in any of these options should consult with the Chair of the concerned department.

## Advanced Placement

California State University, Long Beach grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of three or better will be granted up to six semester units (nine quarter units) of college credit for each AP course.

Applicants to CSULB who wish to obtain lower-division course credit for completed International Baccalaureate Higher Level courses must submit an official IB transcript. Course equivalency for Higher Level courses completed is determined by the faculty of the appropriate department subsequent to careful review of course syllabi.

For questions or information, please call Enrollment Services at (562) 985-5471 or consult your department.

## Unit Credit by Examination

California State University, Long Beach grants unit credit to those students who pass examinations that have been approved for credit system-wide. These are: the CSU English Equivalency Examination; the College Level Entrance Program (C.L.E.P.) general examination in Mathematics; the C.L.E.P. Subject Examinations in College Algebra and Trigonometry, in Calculus and Analytic Geometry, in Statistics, in General Chemistry, and in German; the College Entrance Examination Board (C.E.E.B.) Advanced Placement examinations; and the American Chemical Society Cooperative Examination.

Students may also challenge some courses by taking examinations developed at the campus. Credit will be awarded to those who pass them successfully. Credits earned in this manner will be recorded as "CR" (credit) on the student's transcript and will be counted toward the total number of units required for the degree although they will not be included in calculation of the grade-point average. Credit by examination may not be used to fulfill the minimum residence requirement.

Students must be enrolled in the University and in the course for which they wish to receive credit by examination. Enrollment is by permission of the department and is only available during the academic semester in which the course is being offered. Students must secure a signed and dated approval form from the department prior to enrolling in the course. Students must provide the instructor with a copy of the signed and dated approval form at the first class meeting. The instructor will ensure that the examination is conducted, scored, and the results reported prior to the end of the third week of classes. Students who pass the examination will receive a grade of "CR." Students who do not pass the examination have two options:

1. continue in the course as a regular student; or
2. withdraw from the course.

The University sets no maximum on the number of credits a student may receive by examination. However, not all courses are available for credit by examination. Information about courses for which credit by examination is not permitted is available in the Department Office, in the College Office, and the Office of Enrollment Services. A student may not receive credit by examination:

1. for an activity course;
2. for any course which is a prerequisite to one for which credit has already been received (see department for possibility of course waiver);
3. to remove a grade of "F," "U," "NC";
4. to satisfy the courses required for a master's degree;
5. for any course in which the content or methodology is such that an examination does not appropriately measure competence.

Application forms to apply for credit by examination are available in the Office of Enrollment Services. Procedures and criteria for requesting unit credit by examination in a given course are available in the appropriate department office.

## Substitution of Courses

Students who believe that a course they have taken (or intend to take) may be appropriate to their program and that this course could substitute for a specified course requirement may request that a substitution of courses be indicated on the departmental program planning guide, filed prior to graduation. Course substitutions are normally limited to cases where the required course cannot be offered or where the student has taken a similar but not identical course elsewhere.

## Waiver of Course Requirement

In addition, students who believe that previous training has sufficiently prepared them in a certain area may request a waiver of a specific course requirement (subject credit only). Requests for waiver of course requirements can be made on an application form available in the department office. The student will be required to justify the request in a way acceptable to the department. A waiver of specific course requirements does not reduce the total number of credits required for the major or the degree.

## Graduate Credit Earned as a Senior

Graduate credit usually may not be earned in advance of the baccalaureate degree. However, based upon faculty recommendation, academic performance (in general a grade-point average of 3.0 (B) in the major), and promise of academic achievement in post-graduate study, seniors may be granted approval to earn a maximum of 12 units of course work in the 400 and 500 levels designated as acceptable for graduate credit and taken at this university towards their prospective graduate programs. Approval is subject to the following conditions: (a) the course work must be in addition to that required for the undergraduate major; and (b) the undergraduate student must have a "Petition to Earn Graduate Credit in the Senior Year" approved by the departmental graduate advisor and the department chair prior to enrollment.

In those areas in which graduate credit is for a credential only, the petition must be submitted to the appropriate department in the College of Education. Petitions submitted after completion of course(s) will not be approved.

## Senior Enrollment in Graduate Courses for Undergraduate Credit

Under special conditions, seniors who have a 3.0 grade-point average or better in their major and who have adequate undergraduate preparation in the subject may enroll in up to 12 units in the 500-599 series to fulfill the elective requirements of the bachelor's degree. The course work may

not be applied to the units of 500-600 level course work required by the department or college for the master's degree. The student must have a "Petition to Earn Credit Toward a Bachelor's Degree for a 500-Level Course Taken in the Senior Year" approved by the instructor and department chair before registration in the class(es) is permitted.

## Grades and Grading Procedures

### Definitions

The following definitions apply to grades assigned in all undergraduate and graduate courses.

- A – Performance of the student has been at the highest level, showing sustained excellence in meeting all course requirements and exhibiting an unusual degree of intellectual initiative.
- B – Performance of the student has been at a high level, showing consistent and effective achievement in meeting course requirements.
- C – Performance of the student has been at an adequate level, meeting the basic requirements of the course.
- D – Performance of the student has been less than adequate, meeting only the minimum course requirements.
- F – Performance of the student has been such that minimal course requirements have not been met.

In addition to the standard grades, the University permits students to select evaluation on a "Credit" or "No Credit" basis. These grades are defined as follows:

CR/NC – A CR is equivalent to an A, B, or C, and NC is equivalent to a D, F, or U. Exceptions: A grade of CR reflects work at the level of B or better, and a grade of NC reflects work at the level of C, D, or F: 1) in certain professional preparation courses, provided that the students are notified of such a policy both in class materials and, as soon as practicable, in the catalog course description; and 2) for graduate students in all courses at the 300, 400, 500 and 600 levels.

There are special regulations and procedures governing the CR/NC grading system described later in this section.

AU – Audit. Enrollment as an auditor is subject to permission of the instructor, provided that enrollment in a course as an auditor will be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. It is the responsibility of the student to request from the instructor what is meant by regular class attendance. A grade of AU is posted to the student's permanent academic record unless the student fails to attend a sufficient number of class meetings. In these cases, the instructor will request that the student be administratively withdrawn from the course. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the last day to add classes. A student who is enrolled for credit may not change to audit after the third week of instruction.

SP – Satisfactory Progress. This symbol is used in connection with courses requiring multiple enrollment, i.e., that extend beyond one academic term. It indicates that

work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a final grade must await completion of additional work. Reenrollment is permitted prior to assignment of a final grade provided the cumulative units attempted do not exceed the total number applicable to the student's educational objective. Work is to be completed within one year of the date of the initial enrollment except for graduate degree theses. If the SP symbol is not replaced by a terminal grade within the specified time period or prior to the student's declared graduation date, it will be changed to a W. An SP symbol cannot be replaced by an I (Incomplete) symbol; an I is not a terminal grade.

- I – Incomplete. The symbol "I" indicates that a portion of required course work (normally not more than one third) has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when that work has been completed and evaluated.

An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned, whether or not the student maintains continuous enrollment. If you are graduating, you must complete the course prior to the expected graduation date. Failure to complete the assigned work will result in an "I" being counted as a failing grade for grade-point average computation, except as noted in item 3, below.

An extension of time may be granted for contingencies such as military service or documented, serious health or personal problems.

The conditions for removal of the incomplete will be reduced to writing by the instructor on a "Requirements for Assigning an Incomplete Grade" form. This form will include a statement of:

1. all work completed in the course, the grades assigned for that work, and the percentages of the final grade accounted for by each item;
2. the work not completed and the percentage that each uncompleted assignment will count toward the final grade; and
3. the final grade the instructor will assign if the course requirements are not completed within one calendar year, or a shorter period as specified on the form, immediately following the term in which the "I" was assigned, without respect to continuous enrollment of the student during this period.

A copy of the agreement is to be given to the student, a copy is to be retained in the department office, and a copy is to be filed with Enrollment Services at the time final grades are submitted. Normally, the student should sign the "Incomplete form." If the student is eligible for an Incomplete, a faculty member may assign an "I" even when the student cannot be present to sign the form. In such a case, the instructor will forward to the student a copy of the form via the department office. When the work agreed upon has been completed and evaluated, a final grade will be assigned by an instructor. If an incomplete is assigned without an incomplete contract attached, or with a contract which is not filled in acceptably, the symbol of RD will

be assigned to the student. The "Requirements for Assigning an Incomplete Grade" form will be considered unacceptable if:

1. more than one third of the work remains to be completed, and no justification has been provided;
2. the work required to complete the course has not been specified;
3. the faculty member failed to sign the form; or
4. the percentage fields have not been filled in.

Notice of the missing form, or a copy of the unacceptable form will be sent to the department chair with the request that the chair work with the faculty member to provide the information necessary to assign the grade of incomplete.

**U – Unauthorized Withdrawal.** The symbol "U" indicates that an enrolled student did not withdraw from the course but failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible (letter grades A-F or an Incomplete). For purposes of grade-point average this symbol is equivalent to an "F." A student who receives a "U" cannot complete additional work and have the "U" changed to a letter grade. In courses which are graded Credit/No Credit or in cases where the student has elected Credit/No Credit evaluation, use of the symbol "U" is inappropriate and "NC" will be used instead. Students who receive "U"s in their first semester of enrollment at CSULB will have those "U"s automatically changed to "W"s. In such cases the student will be notified that this policy applies for that first semester at CSULB only.

**W – Withdrawal.** The symbol "W" indicates that the student was permitted to drop a course after the second week of instruction with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade-point averages.

Students are held responsible for completion of every course in which they register OR FOR WITHDRAWING DURING THE FIRST TWO WEEKS OF CLASSES FROM COURSES WHICH THEY DO NOT INTEND TO COMPLETE. Application for withdrawal from the University or from a class must be officially filed by the student at Enrollment Services whether the student has ever attended the class or not; otherwise, the student will receive a grade of "U" (unauthorized incomplete) in the course. Application for withdrawal is made at the Office of Enrollment Services. (See also the California State University policy on "Return of Fees.")

1. **Withdrawal during the first two weeks of instruction:**  
Students may withdraw during this period and the course will not appear on their permanent records. To do this a student must drop courses using VRR or a U-ASK Kiosk. Fees are not refundable after the second week of classes.
2. **Withdrawal after the second week of instruction and prior to the final three weeks of instruction:**  
Withdrawal during this period is permissible only for serious and compelling reasons. The approval signatures of the instructor and department chairperson are required on the Withdrawal/Drop Request Form. The request and approvals will state the reasons for the

withdrawal. Students should be aware that the definition of "serious and compelling reasons" as applied by faculty and administrators may become narrower as the semester progresses. Copies of such approvals are kept on file in Enrollment Services.

3. **Withdrawal during the final three weeks of instruction:**

Withdrawal during the final three weeks of instruction is not permitted except in cases such as accident or serious illness where the circumstances causing the withdrawal are clearly beyond the student's control and the assignment of an Incomplete is not practical. Ordinarily, withdrawal in this category will involve total withdrawal from the campus except that a Credit/No Credit grade or an Incomplete may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Request for permission to withdraw under these circumstances must be made in writing on forms available in Enrollment Services. The requests and approvals will state the reasons for the withdrawal. These requests must be approved by the instructor, department chairperson and dean of the school. Copies of such approvals are kept on file in Enrollment Services.

4. **Medical Withdrawal:**

*Complete Medical Withdrawal:*

The University may allow a student to withdraw without academic penalty from all classes if the following criteria are met:

- A. A completed Medical Withdrawal Form, including any required documentation, is submitted to Enrollment Services before the end of the semester, and
- B. The student presents evidence to demonstrate that a severe medical or debilitating psychological condition prevented the student from attending and/or doing the required work of the courses to the extent that it was impossible to complete the courses.

The Provost (or designee) will review the evidence presented and, in consultation with appropriate medical or psychological professionals as needed, determine whether the request for a medical withdrawal should be granted.

*Repeat Complete Medical Withdrawal:*

If the student has received a complete medical withdrawal in the immediately preceding term, then additional complete medical withdrawal requests must consider the question of whether or not the student can complete appropriate educational objectives, and must be reviewed on a case-by-case basis. After a repeat medical withdrawal is granted, the student may be required to obtain a clearance from an appropriate medical or psychological professional that states the student is well enough to return to classes with the full expectation that the student will be able to complete the semester and intended educational objectives.

*Partial Medical Withdrawal:*

Students seeking withdrawal from part of their enrollment for any reason, including medical or psychological reasons, are subject to the normal withdrawal policy and process.

#### 5. Instructor Withdrawal:

An instructor may withdraw a student who has never attended a class by completing an "Instructor Drop Card" and submitting it to the Enrollment Services along with the Enrollment Verification List at the end of the third week of classes. Students, however, should not rely on the instructor to do this and should officially withdraw from classes themselves to avoid assignment of a "U" in the course.

An instructor may also withdraw a student who has enrolled in a course requiring "permission of the instructor" or completion of prerequisites if the student has not properly secured this permission or satisfactorily completed the prerequisites before enrolling.

#### Cancellation of Registration or Withdrawal From the Institution:

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the university's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from Enrollment Services, Brotman Hall 123, 562-985-5471.

Students receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid funds withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance received may be subject to return and/or repayment provisions.

RD – Report Delayed. This symbol is used exclusively by the Registrar to permit processing of all final grades when the grades for an entire class section have not been reported by the instructor. The symbol does not imply any academic evaluation.

If an instructor fails to report a grade for an individual student, the Registrar will assume that an "I" could not be assigned and so will enter a symbol "U," discussed above.

#### Course Grading Option Policy

The faculty determine in advance which courses may be taken for traditional (A-F) grade only, CR/NC only, or either. When a course is designated for CR/NC grading only or for traditional grading only, mention of this fact should be incorporated in the catalog course description. Any undergraduate course may be designated for or closed to the option of CR/NC grading whether or not the course is a requirement for an undergraduate degree major, minor, certificate, credential or concentration.

No course in which a grade of CR has been assigned may be used to fulfill the requirements for a master's degree, except that the grade of CR may be permitted for master's theses or projects (to a maximum of six units) when the individual department has specifically designated CR/NC grading for the

thesis/project course in the department, and for fieldwork, practicum, and/or internship courses (also to a maximum of six units). The option of CR/NC grading for graduate students in undergraduate courses is subject to specific regulations of the individual departments regarding their graduate students and regarding the authorization for this option intrinsic to the approved course. Otherwise, no limitation exists as to the number of courses taken by graduate students under this policy.

An undergraduate student may elect CR/NC grading in no more than a total of 24 units, of which no more than 12 may be upper-division units. No more than eight units per semester may be taken for CR/NC grades. Courses graded CR/NC taken at another institution, course credit earned by examination, and courses in which CR/NC grading is the only form of grading are exempt from these limitations.

Normally, the decision to elect the CR/NC grading option for a course must be made by the final deadline for adding courses (the beginning of the fourth week of instruction). The student must either already be enrolled in the course or register for the course at the time the CR/NC grading option is elected. In order to elect CR/NC grading, the student must obtain the signature of the major advisor, as well as a stamp from the department/program in which the course is offered, on the appropriate form, and file the signed form with the Office of Enrollment Services. The decision to register for a course on a CR/NC basis remains in effect unless a change is requested prior to or on the last day to add classes.

An exception to these rules is permitted for students who declare new majors after the final day to add classes. If the newly declared major requires letter grading for the course in question, and the student has elected CR/NC grading, the student may request that traditional grading be used, provided such a change is requested no later than the last day of instruction. The grading option may not be changed retroactively after the end of the semester.

### Assignment and Change of Grades

#### General

1. The faculty member of record in a course section (i.e., the faculty member officially assigned to teach that section) has the exclusive responsibility and authority to assign grades to all students in that section, subject only to the following exceptions:
  - (a) should the faculty member of record be unable or unwilling to complete this task because of death, disability, separation of employment, or prolonged absence from campus during a regular academic term, the department chair or program director, following notification of the faculty member of record where appropriate and with the approval of the college dean, may appoint another faculty member with the most appropriate available disciplinary qualifications to complete the assignment of grades; or
  - (b) in the event of a successful grade appeal (see section on Change of Grade, below.)
2. University policy requires that final grades will be based on at least three, and preferably four or more, demonstrations of competence by the student.
3. In no case will the grade on the final examination count for more than one-third of the course grade.

4. Instructors are expected to keep a record of students' scores on each of the demonstrations of competence on which the final grade is based.
5. Students have a right to be informed promptly of their scores and to review each of their demonstrations of competence with their instructors.
6. Instructors are expected to provide students with an opportunity for demonstration of competence, relevant to the determination of their final grade in the course, as early as is reasonable and no later than the mid-point of the semester or summer session.
7. Instructors are further expected to make clear to their students during the first week of instruction what grading policies and practices will be employed in the class and what rules will apply to withdrawals.
8. If materials submitted for a demonstration of competence are not returned, these materials will be retained for one semester by the instructor or, should the instructor be absent during that term, retained in the department office. A qualified instructor may be appointed by the chair, in the absence of the original instructor, to review the demonstration of competence with the student.

### Final Examinations

It is the policy in most courses to have several examinations during the semester and a final examination. Final examinations are required in all courses for all students, except in certain activity courses or when the Dean of the College authorizes an exception. The schedule of final examinations is given in the *Schedule of Classes*. Permission to take a final examination at a time other than that regularly scheduled must be secured from the instructor at least one week in advance of any change. The instructor may not change the scheduled time for the final examination without authorization from the Dean of the College.

### Final Grade Reports

Within approximately three weeks after the end of the term, reports of final grades are mailed to each student at the end of each semester or session.

### Student Grade Record

A record is kept and grade or administrative symbol notations are indicated for all enrollments beyond the fourth week of instruction. The Registrar will eradicate originally awarded grades from official transcripts but note that there was a grade adjustment made when the following grade changes are made:

1. Grade change due to a clerical error on the part of the instructor of record;
2. Grade change due to a favorable grade appeal;
3. Grade change due to a resolution of RD (report delayed) grade.

The Registrar will not eradicate original grades from student transcripts when the following situations occur:

1. Resolution (make-up) of an incomplete;
2. Repetition of a course.

The Registrar will indicate some grade or administrative symbol for any student enrolled in a course beyond the second week.

## Change of Grade

Grades reported to Enrollment Services are considered to be official and final grades. Changes to final grades can be made only on the authority of the instructor and only on the basis of

1. a computational or recording error, or
2. the evaluation of additional assignments or examinations ONLY when an Incomplete has been previously recorded, except
3. when the dean of the College acts on behalf of the chair of a college-level grade appeal committee as the result of a grade appeal. (See section below on Grade Appeals.)

Except for changes of grades resulting from grade appeals processes, all changes of grades must be filed within one year from the date of the filing of the first grade, without respect to continuous enrollment of the student. Only as the result of a grade appeal will a grade be changed after the award of a degree or credential.

All requests for changes of grade must carry the recommendation of the instructor (except as provided for in the Grade Appeals Procedures), the department chair, and the approval of the dean of the college.

### Grade Appeals

Students have the right to formally appeal the final grade, but only the final grade, in a course. Appeals are limited to situations in which the student believes the grade was "prejudicially," "capriciously," or "arbitrarily" assigned. The appeal must be initiated within the first regular semester after assignment of the grade. It must first be directed to the instructor of the course, orally or in writing. If further action is necessary, the student should appeal in writing to the department chair. If further action is necessary, the department chair will forward the appeal in writing to the Department Grade Appeals Committee. If the issue continues to remain unresolved, the written appeal can be directed to the Grade Appeals Committee of the college in which the course was taken. Information about college grade appeals committees and the University policy (P.S. 99-16) can be obtained from the office of the college dean.

### Academic Appeals

Students may petition for exception to academic policy. Typically, exception requests involve issues such as record errors, General Education substitutions or waivers, exceptions to the repeat/delete policy, and academic renewal.

Students can obtain the "Petition for Exception to Academic Policy" forms in Enrollment Services, Brotman Hall Room 101, or the Academic Advising Center, Library East Room 125. This written appeal will be directed to the Academic Appeals Committee. Petitions must be filed with Enrollment Services, BH Room 101.

### Educational Leave

Any registered student, undergraduate or graduate, in good academic standing may request an Educational Leave. Students requesting an Educational Leave must complete an Educational Leave Form, in advance, including an explanation of their reasons for seeking the leave and a statement of when they intend to resume academic work. The completed form is to be submitted for approval to the student's department chair (undergraduate) or graduate advisor.

## GRADUATION AT CALIFORNIA STATE UNIVERSITY, LONG BEACH

For CSULB the following statistics apply:

**TABLE 1**

One-Year Continuation Rates for Fall 1998, 1999 and 2000 Regularly Admitted First-Time Freshmen Who Attempted At Least 12 Units in Their First Term of Enrollment

CSULB Fall Term	Enrolled	Re-Enrolled One Year Later	Continuation Rate
1998	2,447	2,041	83.4%
1999	3,136	2,556	81.5%
2000	2,976	2,409	81.0%

**TABLE 2**

Six-Year Graduation and Persistence Rates for Fall 1995 Regularly Admitted First-Time Freshmen Who Attempted At Least 12 Units in Their First Term of Enrollment

CSULB Fall Term	Graduation by Spring 1999	Persistence/Enrollment by Spring 1999	Projected Graduation Rate
1995	35.1%	17.1%	52.1%

**TABLE 3**

Eight-Year Graduation Rates and Persistence Rates for Fall 1993 Regularly Admitted First-Time Freshmen Who Attempted At Least 12 Units in Their First Term of Enrollment

CSULB Fall Term	Graduation by Spring 1999	Persistence/Enrollment by Spring 1999	Projected Graduation Rate
1993	46.3%	4.7%	51.2%

The minimum initial leave will be one full semester; the maximum will be one calendar year. A student may request, in writing, in advance, an extension of leave. Under no circumstances will the total number of approved educational leaves exceed two, nor will the duration of approved educational leaves extend beyond two calendar years.

Students returning from an approved one semester educational leave are not required to submit an application form. Students on leave longer than one semester must apply for readmission to the university. Students returning from an absence for which an educational leave was appropriate but not approved in advance must reapply for admission and pay the reapplication fee.

Graduate students who plan to enroll for credit at another institution of higher education during the leave period must obtain prior approval for the transfer of course credit to the student's program from the department graduate advisor, department chair, and the College Dean or designee.

The period of an educational leave is counted in the calculation of elapsed time under the regulations governing the maximum period for completion of degree requirements. (See Baccalaureate and Graduate sections of this *Catalog*).

For the period of an educational leave the student's rights under the "Election of Regulations" rule are preserved, maintaining the right of the student to elect regulations as if he or she had maintained continuous attendance.

An educational leave presupposes no expenditure of University resources or faculty and staff time in behalf of the student during the period of the leave. In addition, no com-

puter facilities, no library privileges, and no student services are available to a student on educational leave.

### Change of Major or Other Objective

Undergraduate students declaring a major for the first time or changing from one degree program or degree option program to another must complete and submit an approved Change of Major/Declaration form. These are available in most department offices and in the Office of Enrollment Services.

Students who are candidates for a certificate or credential program must also file an application card. (Please see Election of Regulations in this section of the *Catalog*.)

The evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes. Graduation checks needing to be redone may carry a special fee.

### Graduation Check

All coursework must have a course grade recorded prior to the granting of a degree, credential, or certificate.

Seniors and graduate students who expect to receive degrees at the end of any semester, winter or summer session must complete the Request to Graduate form and/or Certificate form well in advance. The appropriate request for Spring or Summer candidates must be filed by the preceding

October 1; and for Fall or Winter candidates, by the preceding March 1, at the Office of Enrollment Services. The names of Candidates who file within these deadlines will appear in the Commencement Program published each Spring. Credential students should apply in the Credential Processing Office, located in the Graduate School of Education, or the Office of Enrollment Services by February 1 for December completion and by October 1 for Spring and Summer sessions.

### Graduation with Honors

The following grade-point average criteria are used to identify undergraduate students eligible for the honors specified:

1. 3.95 to 4.00 graduated Summa Cum Laude
2. 3.80 through 3.94 graduated Magna Cum Laude
3. 3.50 through 3.79 graduated Cum Laude

An undergraduate student may be considered eligible for honors at graduation provided that a minimum of 45 units are earned at California State University, Long Beach. For the first baccalaureate degree, the GPA will be determined from units earned at CSULB plus transferred units. For the second baccalaureate degree, the GPA will be determined only by courses taken after the first degree was awarded that are also required by the second degree.

With the approval of the Dean of the College, departments may elect to award departmental honors to their graduates based on GPA and/or other criteria determined by the department. The number of honors awarded by a department will be limited to three students or five percent of graduates, whichever is larger.

University honors will be noted on the diploma and transcript. Departmental honors will be noted on the transcript only.

### Honor Lists

Undergraduate students exhibiting outstanding scholastic achievement are honored by being included on the President's or Dean's List. A certificate will be issued for each semester in which the student receives this honor.

#### President's List

Students will be placed on the President's List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.75 - 4.0. Students earning fewer than 12 graded course units per semester will be placed on the President's List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.75 - 4.0.

#### Deans' List

Students will be placed on the Deans' List to honor them for academic achievement each semester in which they complete 12 or more graded course units with a semester GPA of 3.5 - 3.74. Students earning fewer than 12 graded course units per semester will be placed on the Deans' List in the Spring semester of the academic year in which they accumulate 12 or more graded course units with an academic year GPA of 3.5 - 3.74.

## Graduation Rates

Under the federal Student Right-To-Know law, institutions of higher education are required to disclose information to prospective and current students about institutional graduation rates. The main purpose of the contextual information is to communicate to students more about what we know has guided time and persistence to degree. Information regarding student retention and graduation rates at California State University, Long Beach and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from Van Novack, Institutional Research, BH 133, 562-985-5462.

Under the state Master Plan for Higher Education, the CSU draws its first-time freshmen from the top one-third of California's high school graduates. Since 1960, the CSU has awarded more than 1.2 million bachelor's degrees in hundreds of program areas.

The number of course credit units required to complete major programs varies. Many programs in the humanities, for example, require the minimum 120 semester, or 180 quarter units for graduation, while it often takes 140 semester, or 210 quarter units to complete engineering programs.

Most undergraduate programs can be completed in four years. But earning a bachelor's degree in four years takes much more than a statement of intent. Because undergraduate degree programs require 120 to 140 semester units, students who wish to finish college in four years must attend school every semester and earn an average of 15 to 17.5 units per term. Rules of thumb translate these unit loads into 45 to 52.5 hours per week in class and study. In addition, four-year students must plan with academic advisers a schedule of courses that will enable them to progress through major sequences, while interweaving appropriate breadth courses in general education. The rewards in making college attendance one's highest priority are at least two-fold: (1) lower total out-of-pocket college costs and (2) earlier entry into career tracks and the postbaccalaureate educational pipeline.

From the early '70s to the early '80s, the portion of CSU students balancing work and education increased substantially. The number of CSU students taking fewer than 15 units per term increased, and over one-fourth of CSU graduates have "stopped out" for at least one-term before they earn their degrees. More than any other senior institution in California, the CSU has maintained access for students who need to juggle academic life with work and family obligations. The CSU furthermore continues to seek improved ways to provide high-quality instructional opportunities that better fit the time-to-degree that CSU's non-traditional students require.

Across the CSU system, the average time-to-degree for first-time freshmen who fulfilled the University's eligibility requirements and enrolled full-time in their term of entry (that is, according to the federal definition, enrolled in at least 12 units) has been on a plateau of about 5.2 years for several years.

For regular, full-time first-time freshmen who eventually will receive a CSU baccalaureate, most will have it conferred within 6 years after matriculating at a CSU campus. For

example, by Fall 1990, or six years after entering the CSU, 45.5 percent of the Fall 1984 entering freshman class had earned the bachelor's degree, with all but 3.6 percent receiving the degree at the CSU campus of first attendance. Prior athlete graduation rate information may be obtained by contacting the University Athletic Director's Office.

Two years later in Fall 1992, the CSU graduation rate climbed to 55.8 percent. Just about nine of ten graduates earned their degree at the CSU campus where they began their university career. In Fall 1992, 3.8 percent of the Fall 1984 entering freshman class were still enrolled as undergraduates. Historical trends indicated that most of these non-traditional students eventually will earn bachelor's degrees at CSU campuses. The CSU graduation rate, then, is expected eventually to reach 59.6 percent. A graduation rate of nearly 60 percent is on par with the best of peer state universities and colleges.

The tables above show persistence and graduation rates for first-time freshmen entering CSULB at different times. Table 1 indicates that the one-year continuation rate of full-time, regularly admitted first-time freshmen who matriculated at CSULB in fall between 1998 and 2000 ranged between 81.0 percent to 83.4 percent, or equal to 82 percent on average.

Table 2 shows that more than one out of three full-time, regularly admitted first-time freshmen (35.1%) who entered CSULB in 1995 obtained their baccalaureate degrees within six years and 52.1 percent of these students are expected eventually to graduate.

Table 3 shows that 46.3 percent of freshmen entering CSULB in 1993 completed their undergraduate studies within eight years and that a small percentage of students (4.7%) were still working toward completion of their degrees in spring 2001. About 51.2 percent of these students are expected eventually to graduate.

## Scholastic Probation and Disqualification

### Academic Probation

Undergraduate students are placed on academic probation if at any time their cumulative grade-point average in all college work attempted or their cumulative GPA at California State University, Long Beach falls below 2.0 (C). Graduate students are placed on academic probation when their cumulative grade-point average or grade-point average on all courses applicable to the degree falls below 3.0. Other post-baccalaureate students are placed on academic probation when their cumulative grade-point average falls below 2.5.

Undergraduate students will be removed from academic probation when their cumulative grade-point average in all college work attempted and their cumulative grade-point average at California State University, Long Beach is 2.0 (C) or higher. Students who remain on academic probation for more than two consecutive semesters are subject to academic disqualification. Exceptions may be made for students actively participating in an intervention program.

Graduate students will be removed from academic probation when their overall grade-point average and grade-point average on all courses applicable to the degree are 3.0 (B) or higher.

Other post-baccalaureate students will be removed from academic probation when their overall grade-point average is 2.5 or higher.

Graduate and post-baccalaureate students are subject to disqualification if while on probation they fail to earn sufficient grade-points to be removed from probationary status. Disqualification will bar a graduate student from registering as a matriculated student at this campus. Furthermore, subsequent removal of GPA deficiencies by enrolling through UCES or at another university does not guarantee readmission to CSULB. A graduate student who has been disqualified must file a new application and be accepted by the department or college offering the desired degree program.

### Administrative — Academic Probation

An undergraduate or graduate student may be placed on administrative-academic probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive semesters or in any three semesters;
2. Repeated failure to progress toward the stated degree objective or other program objective (when such failure appears to be due to circumstances within the control of the student);
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (example: failure to take placement tests, failure to complete a required practicum).

### Academic Disqualification

Undergraduate students on academic probation are subject to academic disqualification:

1. As lower-division students (fewer than 60 semester hours of college work completed), if they fall 15 or more grade-points below a 2.0 (C) average on all units attempted or on all units attempted at California State University, Long Beach;
2. As juniors (60-89 semester hours of college work completed), if they fall nine or more grade-points below a 2.0 (C) average on all units attempted or on all units attempted at California State University, Long Beach;
3. As seniors (90 or more semester hours of college work completed), if they fall six or more grade-points below a 2.0 (C) average on all units attempted or on all units attempted at California State University, Long Beach.
4. At any time, if the student remains on academic probation for more than 2 consecutive semesters (i.e., cumulative GPA remains below 2.0 at the end of 2 consecutive semesters).

In addition to the above disqualification standards applicable to students on probation, individuals not on probation may be disqualified when the following circumstances exist:

1. At the end of any semester the student has fewer cumulative grade-points than cumulative units attempted, and;
2. The cumulative grade-point deficiency is so great that in view of the student's overall educational record it seems unlikely that the deficiency will be removed within a reasonable period.

## Disqualification From Impacted Programs

Students who fail to maintain an overall GPA of 2.0 will be immediately removed from an impacted major, placed in the undeclared category (Major Code 0000), or in a general category appropriate to the discipline. To be reinstated as majors in the impacted program, they must reapply at the time when change of major requests are normally accepted.

## Administrative — Academic Disqualification

Students who have been placed on administrative-academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative-academic probation are not met within the period specified;
2. The students become subject to academic probation while on administrative-academic probation;
3. The students become subject to administrative-academic probation for the same or similar reason for which they have been placed on administrative-academic probation previously, although not currently in such status.

For students who subsequently become eligible for Reinstatement (see below), disqualification under the provisions of the preceding paragraphs constitutes a break in "continuous enrollment" within a degree major program and, therefore, students disqualified may not elect regulations in effect prior to disqualification.

## Reinstatement

In order to be considered for reinstatement to the University, a disqualified student must demonstrate academic ability. This demonstration can be achieved by:

1. completing courses through University College and Extension Services and/or Summer Session programs at CSULB; or
2. completing classes at other academic institutions.

All classes taken, at CSULB or other academic institutions, must be applicable for degree credit. Grades earned at other institutions will not reduce the CSULB grade-point deficiency or change the CSULB grade-point average. Grades earned elsewhere are only indicators of academic ability.

After reducing the grade-point deficiency at CSULB and/or demonstrating academic ability at other institutions, the student may petition the Academic Appeals Committee for reinstatement. The Academic Appeals Committee will only consider the petition for reinstatement of students who have remained outside of the university for at least one regular (Fall or Spring) semester after their dismissal.

Petition forms are available at the Office of Enrollment Services and must be filed by December 1 for the Spring semester or August 1 for the Fall semester. Petitions received after that date will be returned to the student to be submitted for consideration for a future semester.

## Academic Renewal

A student may petition to have all grades and units received during one or two semesters of undergraduate work disregarded in the computation of GPA and academic standing. The work so disregarded may have been taken at any collegiate-level institution but no work taken during the disregarded terms, even if satisfactory, may apply toward bacca-

laureate requirements. All grades and units attempted will remain on record. At least 5 calendar years must have elapsed since the work in question was completed and the student must have subsequently completed 15 semester units with a 3.0 GPA (or 30 semester units with a 2.5 or 45 semester units with a 2.0) at this University before filing a request for disregarding the course work.

Petitions for disregarding course work must be submitted to the Office of Enrollment Services. Final determination will be made by the Vice President for Academic Affairs in consultation with the University Academic Appeals Committee. The petitioning student must certify that the work to be disregarded was not reflective of his or her present level of academic performance. This certification must include a statement explaining the extenuating circumstances causing the substandard performance during the term in question. The student must also provide evidence that it would be necessary to complete additional units and enroll for one or more additional semesters in order to qualify for the baccalaureate degree if the request were not approved.

## Cheating and Plagiarism

### Definition of Plagiarism

Plagiarism is defined as the act of using the ideas or work of another person or persons as if they were one's own, without giving credit to the source. Such an act is not plagiarism if it is ascertained that the ideas were arrived at through independent reasoning or logic or where the thought or idea is common knowledge.

Acknowledgment of an original author or source must be made through appropriate references, i.e., quotation marks, footnotes, or commentary. Examples of plagiarism include, but are not limited to, the following: the submission of a work, either in part or in whole, completed by another; failure to give credit for ideas, statements, facts or conclusions which rightfully belong to another; in written work, failure to use quotation marks when quoting directly from another, whether it be a paragraph, a sentence, or even a part thereof; or close and lengthy paraphrasing of another's writing or programming. A student who is in doubt about the extent of acceptable paraphrasing should consult the instructor.

Students are cautioned that, in conducting their research, they should prepare their notes by (a) either quoting material exactly (using quotation marks) at the time they take notes from a source; or (b) departing completely from the language used in the source, putting the material into their own words. In this way, when the material is used in the paper or project, the student can avoid plagiarism resulting from verbatim use of notes. Both quoted and paraphrased materials must be given proper citations.

### Definition of Cheating

Cheating is defined as the act of obtaining or attempting to obtain or aiding another to obtain academic credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of cheating during an examination include, but are not limited to the following: copying, either in part or in whole, from another's test or examination; discussion of answers or ideas relating to the answers on an examination or test unless such discussion is specifically authorized by the instructor; giving or receiving copies of an

examination without the permission of the instructor; using or displaying notes, "cheat sheets," or other information or devices inappropriate to the prescribed test conditions, as when the test of competence includes a test of unassisted recall of information, skill, or procedure; or allowing someone other than the officially enrolled student to represent the same. Also included are plagiarism as defined and altering or interfering with the grading procedures.

It is often appropriate for students to study together or to work in teams on projects. However, such students should be careful to avoid the use of unauthorized assistance, and to avoid any implication of cheating, by such means as sitting apart from one another in examinations, presenting the work in a manner which clearly indicates the effort of each individual, or such other method as is appropriate to the particular course.

### Faculty Responsibilities

In cases where a student is suspected of cheating or plagiarism, the faculty member should arrange for an informal office conference with the student as soon as possible. The purpose of the informal conference is to bring the persons involved together to discuss the issues informally and to discuss courses of action. At the conference the student will be notified by the faculty member of the charge and supporting evidence. For an incident which occurs during or as a part of a final examination, see below for administration of an Incomplete grade.

In cases where there is more than one individual suspected of cheating or plagiarism, the faculty member may decide to call the students to confer jointly as a group, or as individuals, or both. If the faculty member should decide to confer with the students as a group, the students will have the option to also confer with the instructor separately as individuals.

The faculty member will inform the student(s) that both students and faculty have the right to submit a request to the Academic Integrity Committee (discussed below) for a written opinion on whether the accusation is supported by the evidence. All notes and discussions between the student and the faculty member are confidential, except as may be relevant to the Academic Integrity Committee or in subsequent campus disciplinary proceedings. Neither the faculty member nor the student should discuss a specific charge of cheating or plagiarism or any violations with reference to individuals in the classroom before other members of the class.

When the student cannot be contacted and therefore the informal conference cannot be held, as is sometimes the case after final examinations, a grade of "I" (Incomplete) may be assigned, but only if the instructor wishes an additional test of competence. The instructor will have the agreement form for assigning an "Incomplete" sent to the last known address of the student. The agreement form will state the following in the format indicated:

"Under the provisions of the CSULB Policy Statement on Cheating and Plagiarism, an additional test of competency related to the [syllabus name of suspect demonstration, e.g., Final Examination] is requested. [Explain what additional test of competency.] You may decline to do so. Please contact the instructor, the department office, or the Office of Judicial

Affairs for information regarding the University policy on cheating and plagiarism."

The instructor will indicate on the agreement form the grade which will be assigned, normally 120 calendar days following mailing of the Incomplete Agreement, if the student does not respond or, responding, the student does not agree to an additional test of competence.

Charges of cheating or plagiarism cannot be brought against a student more than 120 calendar days after discovery that the work in question may have been plagiarized or that cheating may have taken place.

Notes and evidence will be kept by the department chair or program director for a minimum of five years after the case is settled.

### Academic Integrity Committee

The Chair of the Academic Senate and the Vice President for Academic Affairs jointly appoint an Academic Integrity Committee for the University. This Committee consists of one member from the student body, chosen by the Associated Students Government for a one-year term of office; three members of the full-time, tenured or tenure-track faculty, and one member of the Office of Academic Affairs, who will be Chair, voting only in case of ties.

The primary charge of the Committee is to receive the requests of students accused of cheating or plagiarism or the requests of faculty accusing specified student(s) of cheating or plagiarism. Following its review of the evidence, the Committee will report its opinion to the student(s) and to the faculty member involved on whether the accusation is supported by the evidence. This opinion may not be appealed. However, when new evidence appears to so warrant, a faculty member or student may ask, in writing, the Vice President for Academic Affairs or the Chair of the Academic Senate to request the Committee to reconsider a case.

The Academic Integrity Committee has readily available the rules and procedures governing its operations.

In all cases, a Report of the Committee is advisory to the student, with whom rests the presumption of innocence, and the faculty member, to whom the decision on the evidence and academic action is reserved.

A faculty member or student who requests a review of the evidence in a case of alleged cheating or plagiarism must make such a request to the Academic Integrity Committee in writing no later than 14 calendar days following the date of first notification of the student by the faculty member of the allegation. Except under extenuating circumstances, the student and faculty member will have no more than 14 additional calendar days to provide evidence to the Committee.

To preserve the rights of privacy, the Committee meetings are closed. The Committee may request additional information as may be appropriate to the development of its Report. The Committee is to provide a final Report within 21 calendar days of the submission of a request to it. Should additional time be required, the reasons are communicated to the Vice President for Academic Affairs and the Chair of the Academic Senate as well as the student(s) and faculty members involved.

## Academic Actions

One or more of the following academic actions are available to the faculty member who finds a student has been cheating or plagiarizing. These options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. These actions may be taken without a request for, or before the receipt of, a Report from the Academic Integrity Committee.

1. Review but no action;
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences;
3. A requirement that the work be repeated;
4. Assignment of a score of zero (0) for the specific demonstration of competence, resulting in the proportional reduction of final course grade;
5. Assignment of a failing final grade;
6. Referral to the Office of Judicial Affairs for possible probation, suspension, or expulsion.

A student may appeal a final course grade, the computation of which included an examination or other test of competence in which a score of zero was assigned for cheating or plagiarism, but only on the grounds permitted in the University Policy Statement on Grade Appeals.

An appeal of the final grade may include as written testimony the Report of the Academic Integrity Committee.

## Policy for a Smoke-Free Campus Environment

California State University, Long Beach has a responsibility to provide employees and students with a safe working and learning environment. Given the fact that smoking is the most significant cause of premature and preventable death in the United States today, California State University, Long Beach is declared to be a "smoke-free" campus in accordance with the Governor's Executive Order D-62-87, Government Code Section 19262.

This "smoke-free" policy will apply to all state-owned and University-operated facilities regardless of location. This policy does not include public performances in which smoking is an integral and necessary part of those performances. Smoking is prohibited in all indoor areas, including but not limited to: administrative offices, private offices, laboratories, classrooms, conference rooms, auditoria, lounges, theatres, lobbies, hallways, stairwells, restrooms, libraries, clinics, waiting rooms, reception areas, university vehicles, machine shops, elevators, and food service areas. Where outdoor seating is provided adjacent to indoor food service facilities, non-smoking sections must be designated and posted.

For those employees and students who wish to stop smoking, California State University, Long Beach supports and assists their efforts by providing referrals to cessation programs. The Employee Assistance Program at the Student Health Center may be contacted for information and assistance. The Employee Assistance Coordinator may be reached by calling (562) 985-4771.

## Student Discipline

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are as follows:

### 41301. Expulsion, Suspension and Probation of Students

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus-related:

1. Cheating or plagiarism in connection with an academic program at a campus;
2. Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus;
3. Misrepresentation of oneself or of an organization to be an agent of a campus;
4. Obstruction or disruption, on or off university property, of the campus educational process, administrative process, or other campus function;
5. Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse;
6. Theft of, or non-accidental damage to, campus property; or property in the possession of, or owned by, a member of the campus community;
7. Unauthorized entry into, unauthorized use of, or misuse of campus property;
8. On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis;
9. Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president;
10. Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function;
11. Abusive behavior directed toward, or hazing of, a member of the campus community;
12. Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section;
13. Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section;
14. For purposes of this Article, the following terms are defined:

- A. The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function;
  - B. The term "campus property" includes: (A) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University; and (B) all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.
  - C. The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, sling shot, billy, sand-club, sandbag, metal knuckles, any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club;
  - D. The term "behavior" includes conduct and expression;
  - E. The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
15. This Section is not adopted pursuant to Education Code Section 89031;
16. Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date will be subject to the provisions of this Article as in effect immediately prior to such effective date.

#### 41302. Disposition of Fees; Campus Emergency; Interim Suspension

The President of the campus may place on probation, suspend or expel students for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such students for the semester, quarter, or summer in which they are suspended or expelled will be refunded. If the students are readmitted before the close of the quarter, or summer session in which they are suspended, no additional tuition or fees will be required on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect emergency regulations, procedures, or measures deemed necessary or appropriate to meet the emergency, to safeguard persons and property, and to maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension will be given prompt notice of charges and the opportunity for a hearing within ten days of the imposition of interim suspension. During the period of interim suspension, the student will not, without prior written permission of the President or designated representative, enter any campus of The California State University

other than to attend the hearing. Violation of any condition of interim suspension will be grounds for expulsion.

#### 41303. Conduct by Applicants for Admission

Notwithstanding any provision to the contrary, admission or readmission may be qualified or denied to any persons who, while not enrolled as students, commit acts which, were they enrolled as students, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any persons who, while students, commit acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases will be determined under procedures adopted pursuant to Section 41304.

#### 41304. Student Disciplinary Procedures for The California State University

The Chancellor will prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code will provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admissions or denial of admission under Section 41303; the authority of the campus President in such matters; conduct-related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor will report to the Board actions taken under this section.

The current University regulation on alcoholic beverages is stated in the CSULB Policies, Information and Regulations Handbook published by the Office of Student Affairs.

Additional detailed information relating to student discipline is available in the Office of Student Affairs, and from the Office of the Vice President for Student Services.

#### Administrative Action

Procedures and sanctions of the Office of Judicial Affairs are under the administration of the Vice President for Student Services and are conducted pursuant to the authority provided in Section 41301 of Title 5 of the California Code of Regulations. Copies of Section 41301 of Title 5 may be found in the *University Catalog* and the Campus Regulations available in the Office of Judicial Affairs. Copies of Chancellor's Executive Order 628, "Student Disciplinary Procedures for the California State University" are also available upon request.

The Vice President for Student Services will report annually to the President and the Chair of the Academic Senate a summary of the charges concerning cheating and plagiarism brought before the Office of Judicial Affairs.

#### Judicial Affairs

The Office of Judicial Affairs (Brotman Hall - 377) provides assistance with the interpretation and enforcement of campus regulations. Complete copies of the CSULB Policies, Information and Regulations Handbook, including a listing of infractions which may result in student disciplinary action under Title 5, Section 41301, of the California Code of Regulations, "Probation, Suspension and Expulsion of Students," are available

in this office; also available are copies of Executive Order 628, "Student Disciplinary Procedures for The California State University." General assistance and aid in directing individuals to the proper procedures, departments and personnel may be obtained in this office.

Alleged violations are investigated primarily through informal office conferences with the involved students. The conferences which are held as a result of impending disciplinary action are:

1. to clarify the referral, the charges, or the circumstances involved;
2. to prevent the incidence of, or further occurrences of, violations; and
3. to educate as a preventive experience and to indicate the possible consequences as a result of committing a violation. Discussion is centered on the cause-and-effect relationship of various courses of action and, when possible, alternate paths or solutions are explored.

### The Federal Drug-Free Schools and Communities Act

Each student and employee of California State University, Long Beach needs to be aware of the requirements of the Drug-Free Schools and Communities Act Amendments of 1989 (PL 101-226). These requirements include the notification to each student and employee of campus standards of conduct regarding the use of alcohol and illicit drugs, the legal sanctions which apply, possible health risks, and available counseling and assistance programs. This law, like others the federal government has passed in the last two decades, is tied to eligibility for federal financial assistance. Thus, because California State University, Long Beach receives federal funds such as "federally funded or guaranteed student loans," the law applies to the University and we must comply with its provisions. Under PL 101-226 the Secretary of Education can terminate federal funding for failure to comply and the University has the burden of appealing that decision to an administrative law judge. The law became effective October 1, 1990.

Any questions regarding this law should be directed to the Director of Student Administrative Services at (562) 985-5587.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University makes every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well being of all members of the campus community. To facilitate this process, the University provides a Student Assistance Program and an Employee Assistance Program.

California State University, Long Beach complies with the requirements of the Drug Free Schools and Communities Act Amendments of 1989 by implementing the following:

1. The annual distribution in writing to each student, regardless of the length of the student's program of study, and to each employee of:
  - A. standards of conduct that clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities;

- B. a description of the applicable legal sanctions under local, State, or Federal law for the unlawful possession or distribution of illicit drugs and alcohol;
  - C. a description of the health risks associated with the use of illicit drugs and abuse of alcohol; and,
  - D. a clear statement that the institution will impose disciplinary sanctions on students and employees (consistent with local, State and Federal law), and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct. A disciplinary sanction may include the completion of an appropriate rehabilitation program.
2. Conducting a biennial review of the campus drug and alcohol abuse prevention program to:
    - A. determine its effectiveness and implement changes to the program if they are needed; and
    - B. ensure that its disciplinary sanctions are consistently enforced.

The review is conducted by a panel consisting of the Provost and Senior Vice President for Academic Affairs or designee, the Vice President for Student Services or designee, the Vice President for Administration and Finance or designee, the Chair of the Academic Senate or designee, the President of the Associated Students or designee, and the Chair of the Academic Senate Student Affairs committee or designee.

The review is conducted during the month of October in each even-numbered year. The report of the review panel is submitted to the President by December 1 following the October review period.

The following are members of the review panel recommended by the Academic Senate Committee on Committees for approval by the Academic Senate: a member from the University Counseling Center, a full-time permanent or probationary staff member, an Associated Students Senator, and a member from the Student Health Center.

### Campus Standards of Conduct

Both productivity at work and the learning process are significantly impaired by alcohol abuse and the use of illicit drugs. Substance abuse among college students inhibits their educational development and is of serious nationwide concern.

California State University, Long Beach is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The University is making every effort to create an environment that promotes and reinforces good health. This includes responsible living, respect for community and campus standards and regulations, individual responsibility within the community, and the intellectual, social, emotional, ethical, and physical well-being of all members of the campus community.

On campus property, the solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, are prohibited.

Consumption of alcohol is prohibited in individual offices, classrooms, laboratories, or generally accessible public or open areas, such as the quad and athletic fields.

Information regarding campus policies on the consumption of alcohol may be obtained by calling the Office of Student Life and Development at 985-8668.

Pursuant to Title 5 of the California Code of Regulations, violations by students of the above regulations, when campus related, may, after due process, result in the student being placed on probation, being suspended, or being expelled. Additionally, violations of laws committed on campus property, or at a campus event, will also be subject to referral and prosecution through off-campus authorities. Penalties by enforcement agencies for violations of the law may include imprisonment, fines, or both; these are in addition to administrative sanctions imposed by the University.

More detailed descriptions of student regulations concerning drugs, or alcohol, may be found elsewhere in the *CSULB Catalog*, or in the Residence Hall Calendar and Handbook, or the Regulations for Campus Activities, Organizations and the University Community.

Pursuant to Education Code Section 89535, employees may be disciplined, up to and including termination, for the following causes:

1. Conviction of criminal offenses involving the illegal use of drugs.
2. Appearing for work impaired by the use of alcohol and/or controlled substances.
3. Addiction to the use of controlled substances.

More detailed descriptions of employee regulations concerning drugs, or alcohol, may be found in the *Administrative Policies and Procedures Handbook* and the *Faculty and Staff Handbooks*.

### Don't Put Your Health at Risk

To become dependent upon chemicals such as illicit drugs and/or alcohol is to put your health at risk. Chemical dependency is a condition in which the use of mood altering substances such as drugs or alcohol is associated with problems in any area of life on a more or less continuing basis.

One does not, however, have to be addicted or chemically dependent to suffer health risks from the use of illicit drugs or alcohol.

Alcohol and illicit drugs (in all the many forms) may, and often do, impair physical coordination and judgement, diminish control over impulsive behavior, and cause many short- and long-term health consequences.

Alcohol-related illnesses now represent the third leading cause of death in the United States exceeded only by cancer and heart disease, and medical research has established very strong evidence that alcohol abuse contributes significantly to cancer and heart disease. There is clear evidence of serious negative effects on babies due to use of illicit drugs and alcohol by the mother during pregnancy.

### If You Have a Problem, We Want to Help

The California State University, Long Beach Health Center offers substance abuse programs for students, faculty and staff. These include: a Student Assistance Program for students; and Employee Assistance Program for faculty and staff; and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA testing and eligibility requirements and conference affiliation rules for competition).

An experienced and specially trained therapist under the supervision of the Medical Director serves as the coordinator and counselor for these programs, and medical doctors, other health professionals, and counseling psychologists are available for consultation. All contacts with the Health Center and professional personnel are confidential.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Shifra Teitelbaum, Student Health Center, (562) 985-4609.

The California State University, Long Beach Health Center is located at the corner of State University Drive and Merriam Drive. The telephone number is (562) 985-4771.

## CSULB Statement on Civility and Acts of Violence

California State University, Long Beach, takes pride in its tradition of maintaining a civil and non-violent learning, working, and social environment. Civility and mutual respect toward all members of the University community are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a safe and productive workplace and overall healthy campus climate.

The University espouses and practices zero tolerance for violence against any member of the University community (i.e., students, faculty, staff, administrators, and visitors). Violence and threats of violence not only disrupt the campus environment, they also negatively impact the University's ability to foster open dialogue and a free exchange of ideas among all campus constituencies.

To fulfill this policy, the University strives: 1) to prevent violence from occurring; and 2) to enforce local, state, and federal laws, as well as University regulations, regarding such conduct. The University also has established procedures for resolving and/or adjudicating circumstances involving violence, as well as threats of violence. A threat of violence is an expression of intention that implies impending physical injury, abuse, or damage to an individual or his/her belongings. All allegations of such incidents (i.e., acts and threats) will be aggressively investigated. Allegations that are sustained may result in disciplinary action up to and including dismissal from employment, expulsion from the University, and/or civil and criminal prosecution.

Members of the campus community are encouraged to promptly report any acts of violence, threats of violence, or other behavior which by intent, act, or outcome harm themselves or others. (Approved October 1997.)

## Discrimination

### Introduction

California State University, Long Beach is a comprehensive, urban university. CSULB has a cultural and ethical commitment to provide a climate that enables each individual to realize his/her potential for excellence and that nurtures academic growth and professional development.

The diversity of the University community is a source of pride. Recognizing that each of us is different establishes common ground. Diversity is not limited by boundaries set by federal or state law or regulations. The essence of University policy promoting diversity extends beyond statutory requirements and encompasses the value of each individual.

Diversity thrives when equal opportunity exists and when the environment is free of discrimination, harassment and retaliation.

### Equal Opportunity

California State University, Long Beach is committed to the principles of equal opportunity in education and employment, to affirmative action defined by Executive Order and Federal regulations, and to the protection of civil rights. It is the policy of CSULB to provide programs, services, and benefits, including employment, without regard to race, religion, color, ancestry, ethnicity, gender, marital status, pregnancy, national origin, age, mental or physical disability, sexual orientation, special disabled veterans' status, Vietnam Era or other covered veteran status.

Reasonable Accommodation to disability is considered a means of establishing equal opportunity.

The University policy prohibiting discrimination and harassment, and the complaint resolution procedures are available in each academic department, the University Library, the Office of Equity and Diversity, and the Women's Resource Center, or on the Internet at [www.csulb.edu/oeo/polsfrm.htm](http://www.csulb.edu/oeo/polsfrm.htm)

### University Policy Prohibiting Discrimination and Harassment

Students, employees, volunteers, members of the public, and recipients of services and/or benefits provided by CSULB have the right to a University environment free from discrimination on the basis of: Race, Color, Religion, Gender, National origin, Ancestry, Ethnicity, Sexual orientation, Pregnancy, Marital status, Disability, Age, Medical condition, Special Disabled Veteran status, Vietnam Era Veteran status, Other Covered U.S. Veteran status\*

\*[opm.gov/veterans/html/vgmedal2.htm](http://opm.gov/veterans/html/vgmedal2.htm)

### Race, Color, National Origin, and Disability

The California State University complies with the requirements of Title VII of the Civil Rights Act of 1964 as amended by the Americans with Disabilities Act and the regulations adopted thereunder. No person shall, on the basis of race, color, national origin, or disability, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program of the California State University. The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities, Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder and the Americans with Disabilities Act prohibit such discrimination. Jan Reyes, Director of Equity and Diversity, has been designated to coordinate the efforts of CSULB to comply with these Acts and their implementing regulations. Inquiries concerning compliance may be addressed to this person at 6049 E. 7th St., Long Beach, California 90840, (562) 985-8490.

### Sex

The California State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted there-

under prohibit discrimination on the basis of sex in education programs and activities operated by CSULB. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of CSULB may be referred to Jan Reyes, the campus officer(s) assigned to the administrative responsibility of reviewing such matters or to the Regional Director of the Office of Civil Rights, Region IX, 50 United Nations Plaza, Room 239, San Francisco, California 94102.

The California State University is Committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

### Sexual orientation

By CSU Board of Trustees policy, the California State University does not discriminate on the basis of sexual orientation.

### Endorsement of CSULB Principles of Shared Community

California State University, Long Beach takes pride in its tradition of maintaining civility and mutual respect toward all members of the University community. These are intrinsic to the establishment of excellence in teaching and learning. They also contribute to the maintenance of a productive workplace and an overall positive campus climate. CSULB also takes pride in the diversity of its student body and employees and affirms that this diversity enriches the work and learning environment of the campus.

CSULB affirms that members of the CSULB community have the right to work and learn in an environment free of discrimination. The University affirms the equal human worth of every individual and of distinctive groups of people, and fosters fair and equal treatment and access for all members of the university community. The University will not tolerate discrimination on the basis of race, religion, age, color, creed, gender, disability, sexual orientation, medical condition, national or ethnic origin, veteran status, or any other basis not directly related to qualifications, unless specified by law. These principles are applicable in the administration of its educational policies, admission policies, employment policies, and in participation in university programs and activities or any other programs administered by the University.

In addition to meeting fully its obligations of nondiscrimination under federal and state law, CSULB is committed to creating a community in which a diverse population can learn, live, and work in an atmosphere of tolerance, civility, and respect for the rights and sensibilities of each individual, without regard to economic status, ethnic background, political views, or other personal characteristics or beliefs.

Prohibited Discrimination is treatment of an individual or class of individuals which denies opportunity, participation, or benefit on any of the identified grounds.

Prohibited Harassment is offensive conduct of an unwelcome nature on the basis of any of the characteristics identified. A *hostile environment* may exist when such conduct is persistent and/or pervasive and when it unreasonably interferes with an individual's ability to participate, learn, and/or work. Factors considered in determining whether an environment is hostile include: a) whether the conduct was verbal or physical or both; b) whether the conduct

was a single incident or a pattern of behavior; c) whether the conduct was perceived to be hostile or offensive to a reasonable person; d) whether the exercise of authority was involved; and e) whether the harassment was directed to one or more individuals or class of individuals.

Prohibited Retaliation/Reprisal for filing a complaint of discrimination or harassment, for opposing prohibited discrimination or harassment, or for testifying, assisting or participating in any manner in any complaint proceeding is not tolerated and constitutes separate grounds for complaint.

### Scope

This policy applies to all CSULB programs and activities, including but not limited to:

- Educational, cultural, recreational, and social and/or athletics activities occurring on the CSULB campus and/or sponsored or assisted by CSULB.
- CSULB academic programs and/or activities.
- CSULB-sponsored off-campus programs.
- Housing supplied or regulated by CSULB.
- Employment actions, including but not limited to recruitment, hiring, education, upgrading, promotion, transfer, demotion, layoff, recall, termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.
- Choice of contractors and suppliers of good and services.
- Provision of services and benefits to CSULB students, employees, volunteers, or the public.
- Receipt of CSULB services and benefits provided by CSULB contractors or vendors.

### Reasonable Accommodation

Individuals with disabilities who need assistance or modification to the University's programs and/or activities should inform the person(s) responsible for these programs and/or activities immediately upon knowing that such modification is necessary.

Individuals registered with the California Department of Rehabilitation may be eligible for assistance through that agency.

Students may be eligible for assistance through the Office of Disabled Student Services, located in Brotman Hall 270, telephone (562) 985-5401. For evaluation and service, contact that office directly.

Employees who need reasonable accommodation in order to carry out the duties of their job should inform their immediate supervisor.

If the modification or accommodation provided is inappropriate or insufficient, you may seek the assistance of the Office of Equity and Diversity, located in University Student Union 301, telephone (562) 985-8256.

If a reasonable accommodation has been requested but was not provided, the individual may access the complaint resolution process.

### Confidentiality

The University is committed to maintaining a safe environment in which individuals can be unafraid to discuss concerns. Any member of the University community may seek general information and guidance about discrimination and harassment issues in confidence. However, any promise of confidentiality to the complainant is weighed against the University's legal obligation to maintain an environment free of discrimination and harassment and to take appropriate action to stop prohibited behavior.

### Complaint Process

The University has developed both an Informal and Formal process for the resolution of discrimination and harassment complaints. The Informal and Formal processes are designed to resolve complaints in a timely and responsive manner at the earliest possible stage. Complaints must be filed no later than 180 days from the date of the alleged offense.

Individuals may utilize either of these avenues to resolve a complaint. Once the complaint resolution process has been initiated, all parties are obligated to maintain the confidentiality of all discussions.

Discrimination Contact Persons and a Discrimination Complaint Resolution Officer (Director of Equity and Diversity) have been appointed by the President. These individuals serve as a resource for any member of the campus community.

An Informal complaint may be initiated by notification to or discussion with one of the designated Contact Persons, the chair of an academic department, the dean of a college, the work supervisor, or the Director of Equity and Diversity. Informal discussions may be initiated by any of the Contact Persons to work toward resolution of the complaint. All Informal complaints must be reported by the Contact Persons to the Discrimination Complaint Officer. If the proposed remedy is unsatisfactory to the complainant, or if the complaint is not resolved in the informal process, the complaint can proceed to the formal level.

A Formal complaint may be initiated by submitting a completed, signed complaint form to the Office of Equity and Diversity. The complainant will be required to provide an account of the alleged incident, to describe what effect it has caused, and to propose what remedy is sought. Formal complaint procedures include notification to the individual charged with prohibited behavior. In the formal process, an investigation will be conducted by the Discrimination Complaint Officer (Director of Equity and Diversity) and his/her findings will be reported to the appropriate division executive. Appropriate action will be taken by the division executive.

### Policy on Sexual Assault

Students, faculty, and staff who are victims of sexual assault committed at or upon the grounds of the University, or upon off-campus grounds or facilities maintained by affiliated student organizations, are required by law to be advised of specified information, to include treatment which may be available [California Education Code, Section 67385; California Assembly Concurrent Resolution 46 (1987)]. This policy

is designed to provide the written procedures and information required.

Rape is the most prevalent serious violent crime committed on university campuses. Rape, including acquaintance rape, or any other form of sexual assault, will not be tolerated by California State University, Long Beach. Where there is evidence that campus-related sexual assault has been committed, severe campus disciplinary action will be initiated. Such campus disciplinary action may include, after due process, the possibility of dismissal, suspension or disenrollment. Additionally, where the victim initiates criminal action, the perpetrator is subject to criminal penalties which may include fines and imprisonment.

### Sexual Assault

The term "sexual assault" includes, but is not limited to, rape, acquaintance rape, sexual battery, forced sodomy, forced oral copulation, rape by a foreign object, or threat of sexual assault [California Education Code, Section 67385(d)].

Rape is a criminal offense. "Rape" is defined as non-consensual sexual intercourse. It may involve the use or threat of force, violence, retaliation, or immediate bodily injury. Rape also occurs when the victim is incapable of giving legal consent, for example, when: a) the victim has a mental disorder, or is developmentally or physically disabled; or b) the victim is prevented from resisting the assault due to intoxicating substances (e.g. alcohol or drugs); or c) the victim is unconscious of the nature of the act and this is known to the accused (Reference: California Penal Code, Section 261, and the following sections).

"Acquaintance Rape" is forced sexual intercourse undertaken by someone the victim knows, against the will of the victim or as a result of threats, force or fear. It is estimated that 50-70% of all rapes are acquaintance rapes or non-stranger crimes.

"Sexual Battery" is defined as the touching of an intimate part of another person, if the touching is against the will of the person touched, for the purpose of sexual arousal, sexual gratification, or sexual abuse (Reference: California Penal Code, Section 243.4).

"Assault with intent to commit a sexual battery" is defined as an unlawful attempt, coupled with the present ability, to commit a violent injury (e.g., rape) on the person of another. (Reference: California Penal Code, Section 220; 240; 261; and following sections).

"Consent" is defined as positive cooperation in an act or attitude pursuant to an exercise of free will. The person must act freely and voluntarily and have knowledge of the nature of the act or transaction involved [Reference: California Penal Code, Section 261.6; 266(c)].

"Unlawful Sexual Intercourse" is an act of sexual intercourse accomplished with a female not the wife of the perpetrator, where the female is under the age of 18 years (California Penal Code, Section 261.5).

Any person who willfully and lewdly commits any lewd or lascivious act upon or with a child under the age of 14 years with the intent of arousing, appealing to, or gratifying the sexual desires or passions of either the child or defendant is guilty of a felony. Any person who commits any act in the previous sentence with a person 14 or 15 years old, and the

defendant is at least 10 years older than the child is guilty of a public offense (California Penal Code, Section 288). Any person who intentionally persuades, induces, provides or makes available to another a child under age 16 for lewd or lascivious acts is guilty of a felony, punishable by fine and imprisonment [California Penal Code, Section 266(j)]. Every person who annoys or molests any child under the age of 18 is punishable by fine and imprisonment (California Penal Code, Section 647.6).

### University Jurisdiction

California State University, Long Beach views seriously its obligation to uphold the laws of the larger community of which it is a part. An association with the University does not exempt a person from local, state, or federal laws, but rather imposes the additional obligation to abide by all of the rules and regulations of the California State University.

A student charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to student discipline under the Student Disciplinary Procedures for the California State University (Reference: Chancellor's Executive Order 148, "Student Disciplinary Procedures for the California State University"; and Title V, California Code of Regulations, Section 41301-41304, "Student Discipline").

Employees charged with a sexual abuse violation which is campus-related may be subject to prosecution under appropriate California criminal statutes, as well as being subject to discipline under the California Education Code, Sections 89535-89540. Such campus disciplinary action for employees may include demotion, suspension, or dismissal.

### Campus Reporting Procedures

Persons involved in, or possessing knowledge of, a campus-related abuse violation are strongly encouraged to notify University Police immediately. University Police may be contacted by:

- using any of the blue lighted telephones
- by depressing the red button on all public pay telephones
- simply dialing 985-4101 or 9-1-1

An officer will be dispatched and will assist the victim to a medical facility for medical care and collection of evidence. An officer will assist the victim with a police report should the victim desire to make one. An officer will remain available to the victim until a friend or relative can be located. When requested, a female investigator trained in sexually related violations will be available.

University Police shall contact one or more of the following by telephone, memorandum or both. Alternatively, the victim may contact any of the following personnel or departments.

1. Associate Vice President for Student Services (562) 985-5587, Brotman Hall 377
2. Director, University Counseling Center (562) 985-4001, Brotman Hall 226
3. Director, Student Health Center (562) 985-4771, Health Center
4. Director, Staff Personnel Services (562) 985-4031, Brotman Hall 335
5. Director, Equity and Diversity (562) 985-8256, Brotman Hall 238

6. Senior Director, Judicial Affairs (562) 985-5270, Brotman Hall 377
7. Director, Women's Resource Center (562) 985-8575, Liberal Arts 3-105

The respective units or persons contacted will be responsible for reports, as may be required by law, to be filed for their respective unit, e.g., violations under the Child Abuse Reporting Law, Jeanne Clery Act or Megan's Law.

The following are among the options available to a victim and more than one option may be exercised:

1. Criminal Prosecution: University Police - (562) 985-4101  
Emergency: 9-1-1
2. Civil Action: Consult an attorney.
3. University Disciplinary Process, where accused is:
  - A. Faculty or Staff: Employee Relations Administrator (562) 985-4128; BH 300
  - B. Student: Senior Director, Judicial Affairs (562) 985-5270; BH 377
4. Alternative Campus Housing Assignments: Director, Housing (562) 985-4187; Housing Office
5. Academic Assistance:
  - A. University Counseling Center (562) 985-4001; BH 226
  - B. Women's Resource Center (562) 985-5466; LA3-105
  - C. Academic Advising Center (562) 985-4837; Library East 125

In the event there are requests for information from the press, concerned students, parents, and others, prudence will be exercised, and when required by law, confidentiality will be maintained. When appropriate, only the Department Director (for matters strictly within the Director's purview), or the University Director of Public Affairs (for inquiries by the media), will respond.

Victims are advised that there could likely be a need to identify both the victim and the assailant in the course of investigation and hearings under University student disciplinary proceedings, as well as under employee disciplinary proceedings, or criminal prosecutions. In the case of student disciplinary actions against an assailant, the victim is required to be promptly notified by the Director, Judicial Affairs of the status of the proceedings, and the general terms of the disposition.

Persons are reminded of the importance of preserving such evidence as may be necessary to the proof of criminal sexual assault. With respect to sexual assault involving student discipline, both the accused and the accuser are entitled to have an advisor present during a campus disciplinary proceeding, and to be informed of the outcome of the campus student disciplinary proceeding. Student victims of sexual assault may request changes in academic and living arrangements precipitated by the offense where such changes are reasonably available.

### Support Services

Sexual assault violations often result in physical harm, psychological harm, or both. Even if the victim decides not to report the incident to authorities, it is urged that the victim seek medical and counseling assistance for potential emotional trauma and the possibility of sexually transmitted diseases.

- The University Counseling Center provides crisis counseling as well as ongoing assistance to students who have experienced sexual assault; (562) 985-4001.
- The University Student Health Center offers routine medical examinations, including pregnancy tests and tests for sexually transmitted diseases; (562) 985-4771.
- The University Women's Resource Center provides video tapes, books, and brochures for both men and women, and referrals to community services are also provided; (562) 985-5466.
- S.A.R.T (Sexual Assault Response Team) The University Police is an active participant of the Long Beach S.A.R.T. process. This process offers individual forensic exams to victims of sexual assault and child molestation. Coordination is with University Police, Long Beach Police Department, District Attorney's office, a forensic nurse and a rape crisis counselor. The police dispatcher activates the S.A.R.T process after the officers have connected with the victim. (562) 986-4101 or 9-1-1.

Additionally, referrals may be made to the Rape Crisis Hotline - Long Beach area (562) 597-2002 or to the Sexual Assault Crisis Agency, (562) 433-1287 which offers a 24-hour crisis hotline:

- A. The Rape Crisis Hotline - South Bay area, (310) 545-2111;
- B. The Rape Crisis Hotline - Orange County, (714) 831-9110;
- C. Rape Treatment Center - Santa Monica Hospital (310) 319-4000;
- D. The Victim Witness Assistance Hotline, (714) 957-2737.

Also, the University Counseling Center and the Career Development Center maintain lists of referrals within the community which deal with the issues of rape and sexual assault crisis, including legal, medical, and therapeutic support services. The phone number for the University Counseling Center is (562) 985-4001. The Career Development Center can be reached at (562) 985-4152.

### Victims of Violent Crime Statute

A person who has sustained physical injury as a direct result of a crime of violence, or is legally dependent for support upon a person who has sustained physical injury or death as a direct result of a crime of violence (or, in the event of a death caused by a crime of violence, has legally assumed or voluntarily paid the medical or burial expenses incurred as a direct result thereof) may qualify for indemnification by the State of California for the out-of-pocket wages, medical and/or burial expenses incurred as a result of the crime (California Government Code, Section 13959, et seq.). Claims must be filed with the State Board of Control for the State of California. The Statute provides that, absent certain extenuating circumstances, a claimant has one year from the date of the crime to file his or her claim with the State Board of Control. For further information regarding this program, contact:

University Police CSU, Long Beach 1331 Palo Verde Avenue Long Beach, CA 90840 Telephone: (562) 985-4101	OR Victims of Violent Crime Program State Board of Control State Office Bldg. No. 1, Rm. 102 Sacramento, CA 95814 Telephone: (916) 445-1540

## Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232 g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus and the release of such records. The law provides that the campus must give students access to records directly related to the student, and must also provide opportunity for a hearing to challenge such if the student claims they are inaccurate, records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statutes and the regulations. Copies of these policies and procedures may be obtained at the Office of Enrollment Services or the Office of Judicial Affairs. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release "directory information" concerning students. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Currently, CSULB offices may release only the following types of information: name, major, electronic mail address, dates of attendance, and degrees or awards received. The Director of Athletics may, in addition, provide information concerning participation of students in athletic events, including the height and weight of athletes. The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying information the student requests not be released. Written objections should be sent to the Director of Enrollment Services.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons

have responsibilities in campus' academic, administrative, or service functions and who have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; and to other institutions to which the student is transferring).

## Career Placement Information

The Career Development Center office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system.

## Use of Social Security Number

Applicants are required to include their correct social security numbers (individual taxpayer identification numbers) in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The University uses the social security number to identify students and their records including purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Taxpayers who claim Hope Scholarship or Lifetime Learning tax credit will be required to provide the campus with their name, address, and Taxpayer Identification Number to the campus.

## Security on Campus

### Campus Security Act

California State University, Long Beach University Police, obtains its powers to arrest from the California Penal Code and the California Education Code.

### Reporting Emergencies on Campus

The on-campus emergency phone number is 9-1-1. The non-emergency phone number is (562) 985-4101. Any problems concerning behavior of members of the campus community, thefts, vandalism, fire, and all related matters should immediately be brought to the attention of the University Police.

### Procedures for Reporting Crimes on Campus

Whenever students or employees become victims of a crime while on the campus of CSULB, or whenever they have witnessed a crime or feel that there is a possibility that a

crime is about to occur, they should notify University Police as soon as possible. There are numerous emergency phones located throughout the campus and parking lots, which are direct lines to the University Police dispatcher. Contact University Police by simply locating the nearest emergency phone or by using the emergency phone that is located in all elevators. Individuals may also contact the mobile police units that patrol the campus on a 24-hour schedule. Parking enforcement officers also patrol the parking lots and have direct radio contact with the police dispatcher and the mobile police units. The University Police is located at the far east end of campus, between parking lot "11" and parking lot "9" on Palo Verde Avenue. The Department is open 24 hours a day to respond to any call for service or to any emergency.

### Opening Classrooms

Custodians are responsible for unlocking all outside doors and classrooms which do not contain equipment (audiovisual, computers, etc.) at 7:00 am. University Police personnel are responsible for opening buildings on weekends and holidays. Persons requesting a door opened must have proper authorization. Questions of interpretation and special access matters should be directed to University Police.

### Security of Buildings

It is the responsibility of the person assigned to an office to ensure that the door is locked at the conclusion of work. Further, it is the responsibility of the last instructor teaching in a classroom to ensure that the door is secure and the lights are turned off when the class is concluded. In areas where equipment technicians are employed, it will be their responsibility to secure all doors at the end of the working day. University Police will ensure that all buildings are secured every night. An individual desiring to remain in a building after normal closing hours is required to notify University Police.

Personnel who require access to buildings and rooms must request keys with appropriate departmental approval. Individuals granted special access to rooms and buildings must assume personal responsibility for facilities and equipment during the time they are using these facilities and equipment. Should a faculty or staff member require access to a particular building or room after normal instructional or working hours, presentation of identification to University Police is required. Failure to present proper identification to University Police is grounds to deny the request for access to the building. Graduate Assistants and other students who require entrance to a building during other than normal hours must have proper identification and prior approval in writing from the appropriate administrator. This authorization must be on file with University Police.

Anyone who has difficulty in gaining authorized access to an area or who needs assistance in securing a building or room should contact University Police.

### Policy Concerning Law Enforcement on Campus

California State University Police Officers are sworn Law Enforcement Officers under California Penal Code, Section 830.2, and in compliance with State Statute meet the peace officer standards and training requirements mandatory for all California law enforcement officers. In addition, California State University Police Officers undergo training specially

designed to meet the needs and problems of a contemporary university community.

The primary responsibility of the University Police is the preservation of the public peace and the protection of life and property against all unlawful acts. The department will take all possible measures to prevent crime and accidents, investigate thoroughly all suspicious and criminal activity, and apprehend offenders quickly in all cases where crimes are committed.

### Type and Frequency of Programs to Inform Campus Personnel About Security Procedures and Practices

University Police actively invites fraternities and sororities, as well as sports groups and clubs on campus, to participate in the "Acquaintance/Date Rape" lectures. These classes are scheduled flexibly at no charge to meet the group's needs. The University Police also conducts new employee, new student, and special groups orientations. Officers routinely address residence hall students on a variety of topics, such as drug and alcohol abuse, and the problem of sexual assaults.

### Programs Designed to Prevent Crime

University Police offers an evening escort service for all students and employees. They are picked up and escorted to their vehicles or to the residence halls.

University Police provides employees with information about California law and how to avoid being a victim. Advice is also provided about securing valuables and protecting vehicles.

### Statistics on Major Crimes

University Police reports statistics on major crimes monthly to the Office of the President, to the Chancellor's Office, and to the Department of Justice.

Information concerning CSULB policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from University Police, (562) 985-4101.

Information concerning CSULB annual crime statistics reports may be obtained from University Police, (562) 985-4101.

### Firearms on Campus

Any person who brings or possesses a firearm on the grounds of the University, without the prior written permission of the Chief of University Police, or as otherwise provided by law, is in violation of State law (California Penal Code, Section 626.9), and University Regulations, and is punishable by imprisonment. Any person who brings or possesses a device that expels a metallic projectile, such as a B-B or pellet, through the force of air pressure, CO2 pressure, or spring action, or a spot-marker gun, on the grounds of the University, without the permission of the University Police, is in violation of University Regulations; such action may result in University or legal sanctions.

### Off-Campus Monitoring of Criminal Activity at Campus Events

The University Police Department has a close working relationship with the City of Long Beach Police Department. The meetings are on a monthly basis and discuss areas of possible problems. Reports are exchanged with LBP, LASO, and other police departments.

## Policy for the Use of Alcohol and Drugs on Campus

Alcoholic beverages generally may not be consumed on campus except at sponsored events and with specific approval of the Director of Student Life and Development.

Alcoholic beverages may only be consumed on University premises that have been licensed by the Department of Alcoholic Beverage Control or on other University premises at "approved group sponsored events." Sponsors of such events must obtain prior written approval from the office of Student Life and Development. Approval normally will be limited to events in such areas as the University Student Union, the Soroptimist House, or the Chart Room.

The solicitation, sale, use or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics, as those terms are used in California statutes, is prohibited on campus property. Excepted are drugs which are lawfully prescribed or lawfully permitted for the purpose of bona fide research, instruction or analysis.

CSULB is dedicated to the elimination of the use of illicit drugs and alcohol abuse. The CSULB Student Health Center offers substance-abuse consultation programs for students, faculty and staff who may need assistance in overcoming the personal problems associated with alcohol or drug abuse. These programs include a Student Assistance Program for students, an Employee Assistance Program for faculty and staff, and an Athletic Assistance Program for student athletes (offered as a separate program due to NCAA requirements). All contacts with the Health Center and its personnel are confidential.

More detailed descriptions of campus regulations concerning alcohol and drugs may be found in the current editions of the *CSULB Catalog*, the *CSULB Schedule of Classes*, *Regulations for Campus Activities, Organizations*, and the *University Community*, and the *Faculty, Staff and Student Handbooks*.

# FACULTY

- Abels, Paul (1986)** ..... Professor  
Social Work  
B.A., Rutgers University; Ph.D., University of Chicago. Emeritus, 2000.
- Abrahamse, Dorothy Z. (1967)** ..... Dean  
College of Liberal Arts  
..... Professor  
History  
B.A., Mount Holyoke College; M.A., Ph.D., University of Michigan.
- Abramis, David J. (1985)** ..... Professor  
Management/Human Resources Management  
B.A., University of California, Santa Cruz; M.A., Ph.D. University of Michigan.
- Abramson, Charles A. (2001)** ..... Assistant Professor  
Marketing  
B.A., California State University, Fullerton; M.B.A., University of Chicago; Ph.D., University of California, Irvine.
- Acey, Roger A. (1983)** ..... Professor  
Chemistry and Biochemistry  
B.S., Ph.D., Wayne State University.
- Acosta-Deprez, Veronica M. (1996)** ..... Associate Professor  
Health Science  
B.S., St. Louis University, Philippines; M.S., Ph.D., University of Wisconsin, Madison.
- Adams, Stephen T. (2000)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.A., Grinnell College; M.A., Ph.D., University of California, Berkeley.
- Aguinaga, Jose (2001)** ..... Associate Librarian  
University Library  
B.A., University of San Diego; M.L.S., University of Arizona.
- Aguirre, JoAnn K. (1998)** ..... Assistant Professor  
Occupational Studies  
B.A., M.A., California State University, Long Beach.
- Alexanderson-Lee, Helen C. (1987)** ..... Associate Professor  
Family and Consumer Sciences  
B.S., Ewha Woman's University, Korea; M.S., Washington State University, Pullman; Ph.D., University of Illinois, Urbana.
- Ali, M. Shafqat (1967)** ..... Professor  
Mathematics  
B.S., Agra University, India; M.S. Muslim University, India; M.A., Ph.D., University of California, Santa Barbara. Emeritus, 2001.
- Allen, Judith N. (1996)** ..... Professor  
Dance  
B.F.A., University of Oklahoma; M.F.A., University of North Carolina.
- Allen, Terre (1990)** ..... Director  
Hauth Center for Communication Skills  
..... Associate Professor  
Communication Studies  
B.A., Louisiana Technical University; M.A., Ph.D., Louisiana State University, Baton Rouge.
- Ambos, Elizabeth L. (1989)** ..... Associate Dean  
College of Natural Sciences and Mathematics  
..... Professor  
Geological Sciences  
A.B., Smith College; M.S., Ph.D., University of Hawaii.
- Amirkhan, James H. (1988)** ..... Professor  
Psychology  
B.A., Reed College; M.A., California State University, Northridge; Ph.D., University of California, Los Angeles.
- Ammermann, Peter A. (1999)** ..... Assistant Professor  
Finance, Real Estate and Law  
B.B.A., Roanoke College; M.B.A., Virginia Polytechnic Institute and State University; Ph.D., Virginia Polytechnic Institute and State University.
- An, Shuhua (2000)** ..... Assistant Professor  
Teacher Education  
B.A., Nanjing Normal University, Nanjing, China; M.B.A., Texas A&M International University; Ph.D., Texas A&M University.
- Anand, Rajen S. (1970)** ..... Professor  
Biological Sciences  
B.Sc., Meerut College, India; B.V.Sc A.H (D.V.M.), M.P., Veterinary College Research Institute, India; Ph.D., University of California, Davis.
- Anatol, Karl (1969)** ..... Provost and Senior Vice President  
Academic Affairs  
..... Professor  
Communication Studies  
B.A., Andrews University, Michigan; M.A., Purdue University; Ph.D., University of Southern California.
- Anderson, Haldon L. (2000)** ..... Associate Professor  
Teacher Education  
B.S., M.S., Indiana State University; Ph.D., Florida State University.
- Anderson, Kaye W. (1989)** ..... Associate Professor  
Teacher Education  
B.S., Phillips University; M.S., Ph.D., Southern Illinois University. Emeritus, 2000.
- Anderson, Roy C. (1965)** ..... Professor  
Economics  
B.S., Lehigh University; M.A., Ph.D., Tulane University. Emeritus, 1996.
- Anjo, Dennis M. (1984)** ..... Professor  
Chemistry and Biochemistry  
B.A., M.S., San Francisco State University; Ph.D., Arizona State University, Tempe.
- Anwar, Mohammad Z. (1965)** ..... Professor  
Physics and Astronomy  
B.S., M.A., California State University, Pakistan; Ph.D., University of British Columbia.
- Archie, James W. (1989)** ..... Professor  
Biological Sciences  
B.S., Michigan State; Ph.D., State University of New York, Stony Brook.
- Armento, Greg (1988)** ..... Librarian  
B.A., M.A., California State University, Chico; M.A.L.S., University of Wisconsin.
- Armstrong, Dorsey S. (2000)** ..... Assistant Professor  
English  
B.A., Stanford University; Ph.D., Duke University.
- Arnold, Josh A. (1996)** ..... Associate Professor  
Management/Human Resources Management  
B.A., Point Loma Nazarene College; M.A., Ph.D., University of Illinois at Urbana-Champaign.
- Arroyo, Luis L. (1995)** ..... Professor  
Chicano and Latino Studies  
B.A., M.A., University of California, Santa Barbara; Ph.D., University of California, Los Angeles.
- Ary, James P. (1983)** ..... Professor  
Electrical Engineering  
B.S., St. Mary's College, California; Ph.D., Ohio State University.
- Ashe, Pamela E. (1994)** ..... Psychologist  
Counseling and Psychological Services  
B.A., California State University, Long Beach; M.A., California State University, Dominguez Hills; Ph.D., Howard University, Washington D.C.
- Attinasi, John J. (1993)** ..... Professor  
Teacher Education/Linguistics  
B.A., University of St. Thomas, Texas; M.A., Ph.D., University of Chicago.
- Ayers, R. Dean (1967)** ..... Professor  
Physics and Astronomy  
B.S., M.S., Ph.D., California Institute of Technology.
- Azarmi, Ted F. (1998)** ..... Assistant Professor  
Finance, Real Estate and Law  
B.S., University of Illinois; M.S., Ph.D., University of Wisconsin-Madison.
- Azary, Irisita G. (1997)** ..... Assistant Professor  
Geography  
B.A., Swarthmore College; M.A., University of Pennsylvania; Ph.D., Boston University.
- Azevedo, Ricardo (1999)** ..... Head Coach  
Water Polo  
B.A. National University.
- Babcock, William A. (2001)** ..... Professor  
Journalism  
B.A., Principia College; M.A., The American University; Ph.D., Southern Illinois University at Carbondale.
- Baber, Walter F. (2001)** ..... Assistant Professor  
Public Policy and Administration  
B.A., California State University, Long Beach; M.A., Ph.D., University of North Carolina at Chapel Hill.

- Bachar, John M., Jr. (1969)** ..... Professor  
Mathematics  
B.S., M.S., Northwestern University; Ph.D., University of California, Los Angeles.  
Emeritus, 2000.
- Bachelor, Patricia A. (1985)** ..... Professor  
Psychology  
B.A., M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Bader, Jeanne (1992)** ..... Director  
Center for Successful Aging
- ..... Associate Professor  
Family and Consumer Sciences  
B.A., University of Delaware; M.A., University of Vermont; Ph.D., University of California, San Francisco.
- Bailey, Daniel (1971)** ..... Head Athletic Trainer  
B.A. University of Utah; M.A. University of Southern California.
- Baine, Peter (1968)** ..... Professor  
Chemistry and Biochemistry  
GRIC, Salford University, England; M.S., California Institute of Technology; Ph.D., University of California, Santa Barbara. Emeritus, 2001.
- Baker, Philip C. (1969)** ..... Associate Professor  
Biological Sciences  
B.A., Earlham College, Indiana; Ph.D., University of North Carolina.
- Banuet, Flora (2002)** ..... Associate Professor  
Biological Sciences  
B.A., Ph.D., University of Oregon
- Bao, Xiaolan (1993)** ..... Associate Professor  
History  
B.A., Beijing Teachers' College; M.A., Guangzhou Jinan University, P.R. China;  
Ph.D., New York University.
- Barbara, Donald (2001)** ..... Assistant Coach  
Baseball  
B.A., California State University, Long Beach.
- Barber, Daniel M. (1975)** ..... Professor  
Public Policy and Administration  
B.E., M.A., University of Miami; Ed.D., Florida Atlantic University. Emeritus, 2000.
- Barcellona, John (1989)** ..... Professor  
Music  
B.M., University of Hartford; M.A., California State University, Long Beach; D.M.A., University of Southern California.
- Bargen, Brent (2000)** ..... Assistant Men's Basketball Coach  
Sports, Athletics and Recreation  
B.S., Doane College, Crete, Nebraska.
- Barrett, R. Conrad (1988)** ..... Professor  
Comparative Literature and Classics  
B.A., Stanford University; M.A., University of California, Los Angeles; Ph.D., University of Southern California.
- Battaglia, Anthony (1974)** ..... Professor  
Religious Studies  
B.A., M.A., La Salle College; Ph.D., Princeton University.
- Baum, Alwin L. (1989)** ..... Associate Professor  
Comparative Literature and Classics  
A.B., Indiana University, Bloomington; Ph.D., University of California, San Diego.
- Beattie, Randall C. (1972)** ..... Professor  
Communicative Disorders  
B.S., Northern Illinois University; M.S., University of Illinois; Ph.D., University of Southern California.
- Becker, Harold K. (1963)** ..... Professor  
Criminal Justice  
B.A., M.S., University of Southern California; D. Crim., University of California, Berkeley. Emeritus, 2000.
- Beckman, Alexander L. (1986)** ..... Professor  
Psychology  
B.A., University of California, Los Angeles; Ph.D., University of California, Santa Barbara.
- Behl, Richard J. (1995)** ..... Associate Professor  
Geological Sciences  
B.A., University of California, San Diego; Ph.D., University of California, Santa Cruz.
- Behm, Robert J. (1971)** ..... Executive Director  
California State University, Long Beach Foundation
- ..... Professor  
Occupational Studies  
B.S., Merchant Marine Academy; M.S., Ph.D., University of Washington, Seattle.
- Benitez, Juan M. (2001)** ..... Assistant Professor  
Chicano and Latino Studies  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Benli, Omer S. (2001)** ..... Associate Professor  
Information Systems  
B.S., Purdue University; M.S., University of Missouri, Columbia; M.S.E., University of Michigan, Ann Arbor; Ph.D., Syracuse University
- Bennish, Joseph (1988)** ..... Professor  
Mathematics  
B.A., University of Michigan; M.S., Ph.D., University of California, Los Angeles.
- Berberian, Houri (1998)** ..... Assistant Professor  
History  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles.
- Berdan, Robert H. (1985)** ..... Director  
Center for Educational Research and Services
- ..... Professor  
Educational Psychology, Administration and Counseling/English  
B.A., Northwestern College; Ph.D., University of Texas, Austin.
- Berg, Bruce L. (1996)** ..... Professor  
Criminal Justice  
B.A., Brooklyn College; M.A., Ph.D., Syracuse University.
- Berk, Stephen E. (1970)** ..... Professor  
History  
B.A., Lehigh University; M.A., University of Massachusetts; Ph.D., University of Iowa.
- Bernard, Michael E. (1995)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., M.S., Ph.D., University of Wisconsin.
- Berryhill, Stuart R. (1979)** ..... Professor  
Chemistry and Biochemistry  
B.A., Williams College, Massachusetts; Ph.D., University of California, Berkeley.
- Bersi, Robert M. (1987)** ..... Professor  
Public Policy and Administration
- ..... Acting Vice President  
University Relations and Development  
B.A., University of the Pacific; M.A., Stanford University; Ph.D., Stanford University.
- Bilici, Hamdi (1988)** ..... Professor  
Finance, Real Estate and Law  
B.S., Istanbul University, Turkey; M.B.A., Louisiana State University; D.B.A., Louisiana Tech University.
- Binder, Virginia L. (1967)** ..... Professor  
Psychology  
B.A., William Jewell College, Liberty, Missouri; Ph.D., Indiana University.
- Bippus, Amy Marie (1999)** ..... Assistant Professor  
Communication Studies  
B.A., The Pennsylvania State University; M.A., Wake Forest University; Ph.D., The University of Texas at Austin.
- Birkemeier, Richard P. (1985)** ..... Director  
California Institute for the Preservation of Jazz
- ..... Professor  
Music  
B.M.E., University of Wisconsin, Madison; M.M., Memphis State University; D.M., Northwestern University.
- Birmele, Jutta G. (1990)** ..... Director  
Center for European Studies
- ..... Professor  
Romance, German, Russian Languages and Literatures  
M.A., California State University, San Francisco; Ph.D., The Claremont Graduate School; J.D., Free University Berlin.
- Black, Paul V. (1969)** ..... Professor  
History  
B.S., M.S., University of Southern Mississippi; Ph.D., University of Wisconsin.
- Blankley, Elyse M. (1986)** ..... Professor  
Women's Studies/English  
B.A., Rutgers University; M.A., Ph.D., University of California, Davis.
- Blazey, Michael A. (1990)** ..... Professor  
Recreation and Leisure Studies  
B.A., University of Oregon; M.S., South Dakota State University; Ph.D., The Pennsylvania State University.
- Blecher, Lee (2001)** ..... Associate Professor  
Family and Consumer Sciences  
B.A., University of California, Santa Barbara; M.S., Oregon State University; M.B.A., California State University, Long Beach; Ph.D., University of Southern California.

- Blumenthal, Sharyn C. (1988)** ..... Professor  
Film and Electronic Arts  
B.A., M.F.A., Temple University.
- Bolla, Dallas** ..... Head Coach  
Women's Basketball  
B.S., Stetson University.
- Bordeaux, Valerie (1986)** ..... Director  
University Outreach/School Relations  
B.A., California State University, Fullerton.
- Borowiec, Edward J. (1969)** ..... Professor  
English  
Ph.B., University of Detroit; M.A., Ph.D., University of Southern California. Emeritus, 2000.
- Boston, Archie (1977)** ..... Professor  
Art  
B.F.A., Chouinard Art Institute; M.A., University of Southern California.
- Bott, Paul A. (1976)** ..... Director  
Center for Career Studies  
..... Professor  
Occupational Studies  
B.A., California State University, Los Angeles; M.A., Ed.D., University of California, Los Angeles.
- Bowen, Angela (1996)** ..... Assistant Professor  
Women's Studies  
B.A., University of Massachusetts, Boston; M.A., Clark University.
- Boyd-Batstone, Paul S. (2000)** ..... Assistant Professor  
Teacher Education  
B.A., M.A., California State University, Long Beach; Ph.D., Claremont Graduate University.
- Boylan, William J. (2001)** ..... Acting Director  
Student Transition and Retention Services (STARS)  
B.A., St. Louis University; M.A., California Graduate Institute.
- Brady, Margaret A. (1976)** ..... Professor  
Nursing  
B.S.N., Marquette University; M.S., University of Colorado; Ph.D. University of California, Los Angeles.
- Brazier, Christopher R. (2001)** ..... Assistant Professor  
Chemistry and Biochemistry  
B.S., Ph.D., University of Southampton.
- Brett, James R. (1977)** ..... Director  
Office of University Research  
B.A., University of Virginia; M.A., California State University, Long Beach; Ph.D., University of California, Los Angeles.
- Briggs, Nancy E. (1970)** ..... Professor  
Communication Studies  
B.A., Augustana College, South Dakota; M.A., Ph.D., University of Southern California.
- Brondial, Gervacio (2000)** ..... Assistant Professor  
Music/Liberal Studies  
B.M., M.M., Silver Lake College, Manitowoc, Wisconsin.
- Broughton, Jeffrey L. (1976)** ..... Professor  
Religious Studies  
B.A., M.A., Ph.D., Columbia University.
- Brown, Kendall H. (1999)** ..... Assistant Professor  
Art  
B.A., University of California, Berkeley; M.A., University of California, Berkeley; Ph.D., Yale University.
- Brown, Lester B. (1989)** ..... Professor  
Social Work/American Indian Studies  
A.B., A.M., Ph.D., University of Chicago.
- Brusslan, Judith A. (1994)** ..... Associate Professor  
Biological Sciences  
B.A., Middlebury College, Vermont; Ph.D., University of Chicago.
- Buckley, Troy (2000)** ..... Assistant Baseball Coach  
Sports, Athletics and Recreation  
B.S., Santa Clara University, Santa Clara, California.
- Buis, Douglas William (1998)** ..... Assistant Professor  
Art  
B.F.A., University of Victoria, Victoria BC; M.F.A., York University, Toronto, Ontario, Canada.
- Bunte, Pamela A. (1987)** ..... Professor  
Anthropology/Linguistics  
B.A., Immaculata College, Pennsylvania; M.A., Indiana University, Bloomington; Ph.D., Indiana University, Bloomington.
- Buonora, Paul T. (2000)** ..... Associate Professor  
Chemistry and Biochemistry  
B.S., M.S., Indiana University of Pennsylvania; Ph.D., University of Virginia.
- Burke, Albie D. (1967)** ..... Professor  
History  
B.M., American Conservatory of Music; B.A., M.A., Ph.D., University of Chicago.
- Burman, Howard V. (1988)** ..... Professor  
Theatre Arts  
B.A., Ph.D., The Ohio State University.
- Burnett, Ella G. (1997)** ..... Professor  
Teacher Education  
B.S., M.S., Pittsburg State University; Ed.D., University of California, Los Angeles.
- Burnett, Raymond C. (2001)** ..... Assistant Professor  
Journalism  
B.A., Ohio Wesleyan University; M.A., Ohio State University; M.A., George Washington University.
- Bush, Roland E. (1969)** ..... Professor  
Comparative Literature and Classics  
B.A., California State University, Long Beach; M.A., Ph.D., University of Southern California.
- Byun, Linda H. (1984)** ..... Professor  
Mathematics  
B.A., University of Hawaii; M.A., Ph.D., University of Wisconsin, Madison.
- Cabot, Mathew A. (1999)** ..... Assistant Professor  
Journalism  
B.A., University of the Pacific; M.S., San Jose State University; M.A.T.S., San Francisco Theological Seminary.
- Calingo, Luis Ma. R. (2000)** ..... Dean  
College of Business Administration  
B.S.I.E., University of the Philippines; M.U.R.P., University of the Philippines; M.B.A., University of Pittsburgh, Pennsylvania; Ph.D., University of Pittsburgh, Pennsylvania.
- Campbell, Carole A. (1989)** ..... Professor  
Sociology  
B.A., University of Albuquerque; M.A., Ph.D., University of Colorado.
- Campbell, Joyce M. (1988)** ..... Professor  
Physical Therapy  
B.S., M.S., Ph.D., University of Southern California; Registered Physical Therapist.
- Cannon, Harold L. (1968)** ..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., B.S., M.A., Ph.D., University of Minnesota.
- Cantey, Richard E. (1972)** ..... Psychologist  
Counseling and Psychological Services  
B.S., Louisiana State University; M.A., California State University, Los Angeles; Ph.D., University of Southern California.
- Caputi, Mary A. (1995)** ..... Associate Professor  
Political Science  
B.A., Cornell University; M.A., University of Chicago; Ph.D., Cornell University.
- Cargile, Aaron C. (1996)** ..... Assistant Professor  
Communication Studies  
B.A., University of California, Santa Barbara; M.A., Purdue University; Ph.D., University of California, Santa Barbara.
- Carissimo, Joel W. (1969)** ..... Professor  
Computer Engineering and Computer Science  
B.S., Case Institute of Technology; M.S., E.E., University of Southern California.
- Carlberg, David (1966)** ..... Professor  
Biological Sciences  
B.A., Ph.D., University of California, Los Angeles. Emeritus, 1999.
- Carlile, Susan L. (2001)** ..... Assistant Professor  
English  
B.A., Taylor University; M.A., Ph.D., Arizona State University.
- Carnahan, John A. (1990)** ..... Professor  
Music  
B.S., Duquesne University, Pittsburgh; M.A., University of San Francisco.
- Carney, Michael R. (1981)** ..... Professor  
Music  
B.M., East Carolina University; M.M., Eastman School of Music; D.M.A., North Texas State University.
- Caron, Timothy P. (1998)** ..... Associate Professor  
English  
B.A., Louisiana College; M.A., Ph.D., Louisiana State University.
- Carr, Ashley B. (1984)** ..... Professor  
Theatre Arts  
B.A., Hendrix College, Arkansas; M.F.A., Yale School of Drama, Connecticut.

- Carreira, Maria M. (1995) ..... Associate Professor  
Romance, German, Russian Languages and Literatures  
B.S., Loyola University of Chicago; Ph.D., University of Illinois.
- Carter, Charles L. (1985) ..... Professor  
Physical Therapy  
B.A., Cornell College; M.A., University of Northern Iowa; Ph.D., University of Iowa, Registered Physical Therapist.
- Casey, Jean Marie (1987) ..... Professor  
Teacher Education  
B.S., University of Illinois Champaign; M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Caveness, Jeane Relleve (1981) ..... Director  
Student Life and Development  
B.A., Scripps College; M.A. and Ph.D., Claremont Graduate School.
- Celsi, Richard L. (1989) ..... Professor  
Marketing  
B.A., Mansfield University, Pennsylvania; M.B.A., Ph.D., Pennsylvania State University.
- Cerny, Kay (1982) ..... Professor  
Physical Therapy  
B.S., Miami University, Ohio; M.S., University of Southern California; Ph.D., University of Southern California, Registered Physical Therapist.
- Chaderjian, Bruce J. (1989) ..... Associate Professor  
Mathematics  
B.S., Cal Poly San Luis Obispo; M.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles.
- Chan, Kwan M. (1969) ..... Professor  
Geological Sciences  
B.Sc., University of Hong Kong; Ph.D., University of Liverpool, England. Emeritus, 1998.
- Chase, Michael D. (1983) ..... Professor  
Accountancy  
B.A., Roanoke College; M.A., San Diego State University; Ph.D., University of Southern California.
- Chassiakos, Anastassios (1989) ..... Professor  
Engineering Technology  
Engineering Diploma, National Technical University, Greece; M.S., Purdue; M.S., Ph.D., University of Southern California.
- Chavez, Marcela (1972) ..... Director  
Women's Resource Center  
B.A., California State University, Los Angeles; M.P.A., California State University, Long Beach.
- Cheffer, Natalie D. (2001) ..... Assistant Professor  
Nursing  
B.S.N., B.H.S., California State University, Long Beach; M.N., University of California, Los Angeles.
- Chelian, Michael Singh (1988) ..... Professor  
Electrical Engineering  
B.S., University of Madras, India; M.S., University of Calcutta, India; Ph.D., University of Southampton, England.
- Chen, Catherine T. (2000) ..... Assistant Professor  
Science Education  
B.S., University of California, Los Angeles; M.A., Ph.D., University of California, Santa Barbara.
- Chen, Hsin-Piao (1986) ..... Professor  
Mechanical and Aerospace Engineering  
B.S., National Cheng Kung University, Taiwan; M.S., National Tsing Hua University, Taiwan; Ph.D., Georgia Institute of Technology.
- Chen, Hsun Hu (1985) ..... Professor  
Mechanical and Aerospace Engineering  
B.S., National Cheng Kung University, Taiwan; M.S., National Tsing Hua University, Taiwan; Ph.D., Georgia Institute of Technology.
- Chi, Robert H. (1991) ..... Professor  
Information Systems  
B.S., National Chiao Tung University, Taiwan; M.S., University of Wisconsin, Madison; Ph.D., University of Texas, Austin
- Chiappe, Dan (2001) ..... Assistant Professor  
Psychology  
B.S., M.S., Ph.D., University of Toronto.
- Chiarenza, Carlo (1999) ..... George L. Graziadio Endowed Chair  
Italian Studies  
..... Director  
Graziadio Center for Italian Studies  
..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., The University of Florence, Italy; M.A., Ph.D., The Johns Hopkins University.
- Chinchilla, Norma S. (1983) ..... Professor  
Women's Studies/Sociology  
B.A., University of Pacific; M.A., Ph.D., University of Wisconsin, Madison.
- Cho, Young-Hee (1998) ..... Assistant Professor  
Psychology  
B.A., Pusan National University, Korea; M.A., Ph.D., University of California, Irvine.
- Chong, Philip S. (1986) ..... Professor  
Management/Human Resources Management  
B.E., University of Singapore; M.S., Ph.D., University of Massachusetts, Amherst.
- Chu, Hsiao-Ling, (1972) ..... Professor  
Civil Engineering  
B.S.C.E., M.S., National Cheng-Kung University, Taiwan; Ph.D., North Carolina State University.
- Chun, Chi-An (2000) ..... Assistant Professor  
Psychology  
B.A., University of California, Berkeley; M.A., Korea University, Seoul, Korea; Ph.D., University of California, Los Angeles.
- Chung, H. Michael (1995) ..... Director  
Center for Information Strategies and Technologies  
..... Professor  
Information Systems  
B.S., Seoul University; M.B.A., Ph.D., University of California, Los Angeles.
- Clark, Patricia J. (1990) ..... Professor  
Art  
B.S., Bemidji State University; M.F.A., Cranbrook Academy of Art.
- Cleary, Patricia Ann (1989) ..... Professor  
History  
B.A., Rice University; Ph.D., Northwestern.
- Cohen, Barbara H. (1998) ..... Associate Professor  
Social Work  
B.A., California State University, Long Beach; M.S.W., University of Southern California.
- Cohlberg, Jeffrey A. (1975) ..... Professor  
Chemistry and Biochemistry  
A.B., Cornell University; Ph.D., University of California, Berkeley.
- Cohn, Katheleen C. (1994) ..... Associate Dean  
College of Education  
..... Professor  
Educational Psychology, Administration and Counseling  
B.A., University of Kansas; M.P.A., California State University, Long Beach; Ph.D., University of Southern California.
- Colburn, Alan (1995) ..... Associate Professor  
Science Education  
B.S., Carnegie Mellon University; M.S., University of Illinois; M.S., University of Pennsylvania; Ph.D., University of Iowa.
- Collins, Charles T. (1968) ..... Professor  
Biological Sciences  
B.A., Amherst College; M.S., University of Michigan; Ph.D., University of Florida. Emeritus, 2001.
- Collins, Keith E. (1969) ..... Professor  
History  
B.A., M.S., Indiana University; Ph.D., University of California, San Diego.
- Colman, Keith R. (1970) ..... Professor  
Psychology  
B.A., California State University, Long Beach; M.A., Ph.D., University of California, Los Angeles.
- Connor, Michael E. (1971) ..... Professor  
Psychology  
B.A., California Western University; M.A., California State University, Long Beach; Ph.D., University of Hawaii.
- Constas, Michael (1995) ..... Professor  
Accountancy  
A.B., J.D., Ph.D., University of California, Los Angeles.
- Contreras, Armando N. (1993) ..... Executive Assistant  
Office of the President  
B.A., Harvard University.
- Cooper, Gene R. (1969) ..... Professor  
Art  
B.A., M.A., University of Hawaii. Emeritus, 2000.
- Cooper, Stephen P. (1997) ..... Professor  
English  
B.A., University of California, Los Angeles; M.F.A., University of California, Irvine; Ph.D., University of Southern California.

- Coats, Jennifer (1997)** ..... Associate Professor  
Educational Psychology, Administration and Counseling  
B.A., Occidental College; M.A., California State University, Los Angeles; Ph.D., University of California, Los Angeles, and California State University, Los Angeles.
- Costa, D. Margaret (1974)** ..... Professor  
Kinesiology and Physical Education  
B.S., M.Ed., University of Massachusetts; Ph.D., Ohio State University.
- Councilman, Samuel G. (1968)** ..... Professor  
Mathematics  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Cowan, Peter A. (1981)** ..... Professor  
Civil Engineering  
A.B., University of California, Berkeley; M.S., Ph.D., Utah State University, Logan.
- Cox, Carole (1988)** ..... Professor  
Teacher Education  
B.A., University of California, Los Angeles; M.A., Ph.D., University of Minnesota, Minneapolis.
- Cramer, Renee A. (2001)** ..... Assistant Professor  
Political Science  
B.A., Bard College; M.A., Ph.D., New York University.
- Crass, Scott W. (2001)** ..... Assistant Professor  
Mathematics  
B.A., Evangel College; B.A., California State University, Long Beach; M.A., University of Notre Dame; Ph.D., University of California, San Diego.
- Crayton, Ce Etta F. (1972)** ..... Associate Professor  
Recreation and Leisure Studies  
B.A., Lewis and Clark College; M.S., California State University, Los Angeles. Emeritus, 1998.
- Crego, Clyde A. (1983)** ..... Director  
Counseling and Psychological Services  
B.A., University of Montana, Missoula; Ph.D., Michigan State University, East Lansing.
- Crego, Marilyn M. (2001)** ..... Interim Dean  
University College and Extension Services  
B.A., Occidental College; Ph.D., University of North Carolina, Chapel Hill.
- Cretara, Domenic (1986)** ..... Professor  
Art  
B.F.A., M.F.A., Boston University.
- Croke, Eileen M. (1999)** ..... Assistant Professor  
Nursing  
B.S.N., Northeastern University; M.S.N., California State University, Long Beach; Ed.D., Pepperdine University.
- Crowther, Simeon J. (1968)** ..... Professor  
Economics  
B.S., University of Oregon; Ph.D., University of Pennsylvania.
- Crussemeyer, Jill A. (1998)** ..... Assistant Professor  
Kinesiology and Physical Education  
B.S., Long Island University; M.S., University of Massachusetts; Ph.D., University of Oregon.
- Culotta, Wendy A. (1973)** ..... Librarian  
B.A., University of California, San Diego; M.L.S., University of California, Los Angeles, B.S., California State University, Long Beach.
- Cummings, Tanya R. (2000)** ..... Assistant Professor  
Art  
B.F.A., California State University, Long Beach.
- Curtis, James R. (1995)** ..... Associate Professor  
Geography  
B.A., M.A., San Jose State University; Ph.D., University of California, Los Angeles.
- Curtis, Kenneth R. (1990)** ..... Director  
Liberal Studies Program  
..... Professor  
History  
B.A., Lawrence University; M.A., University of Wisconsin; Ph.D., University of Wisconsin.
- Cynar, Sandra J. (1986)** ..... Director  
Center for Electronic Design Automation  
..... Professor  
Computer Engineering and Computer Science  
B.S., M.S., California State University, Long Beach; Ph.D., University of California, Irvine.
- Dabel, Jane E. (2001)** ..... Assistant Professor  
History and Liberal Studies  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles.
- Dahab, F. Elizabeth (2001)** ..... Assistant Professor  
Comparative Literature and Classics  
B.A., McGill University; M.Ed., University of Alberta; D.E.A., Ph.D., L'Universite de Paris-Sorbonne.
- Dahlen, Rebecca D. (1996)** ..... Assistant Professor  
Nursing  
R.N., Los Angeles County Medical Center School of Nursing; B.S.N., University of Phoenix; M.S.N., California State University, Los Angeles.
- D'Amicantonio, A. John (1988)** ..... Librarian  
B.A., Siena College; M.S.Ed., State University of New York, New Paltz; M.S.L.S., The Catholic University of America.
- Danay, Richard (1985)** ..... Professor  
American Indian Studies  
B.A., California State University, Northridge; M.A., California State University, Chico; M.F.A., University of California, Davis.
- Dank, Barry M. (1968)** ..... Professor  
Sociology  
B.A., Hofstra University; M.A., Ph.D., University of Wisconsin. Emeritus, 2000.
- Das, Mihir K. (1981)** ..... Associate Dean of Instruction  
College of Engineering  
..... Professor  
Mechanical and Aerospace Engineering  
B.S., Bihar Institute of Technology, India; Ph.D., University of Birmingham, England.
- Das, Radhe (1982)** ..... Professor  
Electrical Engineering  
B.S., University of Ranchi, India; M.S. University of Calcutta, India; Ph.D., University of Washington, Seattle.
- Daugherty, Emma L. (1997)** ..... Associate Professor  
Journalism  
B.S., West Virginia University; M.A., Michigan State University.
- Davidson, David B. (1983)** ..... Professor  
Accountancy  
B.S., California State University, Los Angeles; M.A., Ph.D., University of Northern Colorado; CPA Certificate, Colorado.
- Davis, James A. (1985)** ..... Professor  
Kinesiology and Physical Education  
B.A., M.A., San Diego State University; Ph.D., University of California, Davis.
- Davis, Jeffrey P. (1997)** ..... Assistant Professor  
Sociology  
B.A., M.A., North Carolina Central University; Ph.D., North Carolina State University.
- Dean, Ronnie (1999)** ..... Assistant Coach  
Men's Basketball  
B.S. Harris-Stowe State College.
- Dede, Martha J. (1999)** ..... Assistant Professor  
Graduate Center for Public Policy and Administration  
B.S., University of San Francisco; M.P.A., San Francisco State University; Ph.D., Virginia Polytechnic Institute and State University.
- DeGuire, Linda J. (1990)** ..... Professor  
Mathematics  
B.A., Fontbonne College, St. Louis; A.M., Stanford University; M.A., Ed.D., University of Georgia, Athens.
- de Heras, John (1967)** ..... Professor  
Art  
B.A., M.A., University of California, Los Angeles. Emeritus, 1997.
- Deitch, Kathryn V. (1997)** ..... Associate Professor  
Nursing  
B.S., University of Maryland; M.S., Texas Woman's University; M.A., Ph.D., Claremont Graduate School.
- Del Campo, Alicia (2000)** ..... Assistant Professor  
Romance, German, Russian Languages and Literatures  
M.A., University of Chile, Santiago, Chile; M.A., University of Minnesota, Minneapolis; Ph.D., University of California, Irvine.
- Del Casino, Vincent J., Jr. (2000)** ..... Assistant Professor  
Geography/Liberal Studies  
B.A., Bucknell University, Lewisburg, Pennsylvania; M.S., University of Wisconsin; Ph.D., University of Kentucky, Lexington.
- Delgado, Grace P. (2000)** ..... Assistant Professor  
Chicano and Latino Studies  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Demirdjian, Zohrab (1979)** ..... Professor  
Marketing  
B.S., M.B.A., Arizona State University; Ph.D., Louisiana State University.
- Dennis, Christopher D. (1985)** ..... Professor  
Political Science  
B.A., M.A., California State University, Long Beach; Ph.D. University of Georgia.

- Deschenes, Elizabeth (1994)** ..... Professor  
Criminal Justice  
B.A., Colby Colege, ME; M.A., Ph.D., University of Pennsylvania.
- DeSoto, Simon (1969)** ..... Professor  
Mechanical and Aerospace Engineering  
B.M.E., City College of New York; M.M.E., Syracuse University, Ph.D., University of California, Los Angeles.
- Dick, Wayne E. (1981)** ..... Professor  
Computer Engineering and Computer Science  
B.A., M.A., Ph.D., University of California, San Diego.
- Dinielli, Gene L. (1968)** ..... Professor  
English  
B.A., M.A., University of Connecticut.
- Domingo-Foraste, Douglas (1990)** ..... Professor  
Comparative Literature and Classics  
A.B., University of California, Davis; M.A., Ph.D., University of California, Santa Barbara.
- Donato, Clorinda (1989)** ..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles.
- Dorn, Carl H. (1968)** ..... Professor  
Mathematics  
B.A., University of California, Berkeley; Ph.D., University of California, Los Angeles.
- Douglas, Masako O. (2001)** ..... Assistant Professor  
Asian/Asian American Studies  
B.A., M.A., Kobe City University of Foreign Studies; M.A., Australian National University; Ph.D., University of Southern California.
- Dowell, David A. (1977)** ..... Associate Dean  
College of Liberal Arts  
..... Professor  
Psychology  
B.S., Middle Tennessee State University; M.A., Ph.D., University of Tennessee.
- Downey, Sharon D. (1987)** ..... Professor  
Communication Studies  
B.S., Florida State University, Tallahassee; M.A., University of Nevada, Las Vegas; Ph.D., University of Colorado.
- Druzgalski, Christopher (1970)** ..... Professor  
Electrical Engineering  
B.S., M.S., Technical University, Poland; M.S., Ph.D., Ohio State University, Columbus.
- DuBois, Henry J., Jr. (1967)** ..... Associate Dean  
..... Librarian  
B.A., M.P.A., California State University, Long Beach; M.L.S. University of California, Berkeley.
- Ducharme, Catherine C. (1990)** ..... Professor  
Teacher Education  
B.A., California Polytechnic University, San Luis Obispo; M.S., California State University, Fullerton; Ph.D., The Claremont Graduate School.
- Dunbar, Norah E. (2000)** ..... Assistant Professor  
Communication Studies  
B.A., University of Nevada, Reno; M.A., California State University, Chico; Ph.D., University of Arizona.
- Eatmon, Stephanie L. (1998)** ..... Assistant Professor  
Health Science  
B.S., Idaho State University; M.Ed., Loma Linda University; Ed.D., University of La Verne.
- Ebert, Todd (2001)** ..... Associate Professor  
Computer Engineering and Computer Science  
B.S., California State University, Long Beach; M.A., Ph.D., University of California, Santa Barbara.
- Ebneshahrashoob, Morteza (1990)** ..... Professor  
Mathematics  
B.S., University of Tehran; M.S., Ph.D., Oklahoma State University.
- Echevarria, Jana (1993)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., M.A., California State University, Long Beach; Ph.D., University of California, Los Angeles.
- Edgar, Alison (2001)** ..... Assistant Coach  
Women's Basketball  
B.A., Butler University.
- Edmondson, Betty V. (1964)** ..... Professor  
Kinesiology and Physical Education  
B.S., University of Nevada; M.A., San Jose State University, Emeritus, 1999.
- Edwards, Alejandra C. (1986)** ..... Professor  
Economics  
Licenciado En Economia, Ingeniero Comercial, Universidad Catolica de Chile; M.A., Ph.D., University of Chicago.
- Eisenman, Robert H. (1973)** ..... Director  
Institute for the Study of Judeo-Christian Origins  
..... Professor  
Religious Studies  
B.A., Cornell University; M.A., New York University; Ph.D., Columbia University.
- Eldon, Elizabeth D. (2000)** ..... Associate Professor  
Biological Sciences  
B.A., Connecticut College, New London, Connecticut; Ph.D., Indiana University, Bloomington, Indiana.
- Eliason, Lowell J. (1965)** ..... Professor  
Physics and Astronomy  
B.S., Stanford University; Ph.D., University of Utah.
- Ellison, James G. (2001)** ..... Assistant Professor  
Anthropology  
B.A., Michigan State University; M.A., Ph.D., University of Florida.
- Emmons, Timothy D. (1980)** ..... Psychologist  
Counseling and Psychological Services  
B.S., Lewis and Clark College; M.A. Ph.D., Vanderbilt University.
- Eriksen, Shelley J. (1999)** ..... Assistant Professor  
Human Development Program/Sociology  
B.A., Southern Oregon State College; M.A., Ph.D., University of Massachusetts at Amherst.
- Esfandiari, Ramin S. (1991)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., M.A., Ph.D., University of California, Santa Barbara.
- Eshett, Ali (1966)** ..... Professor  
Civil Engineering  
B.S. Technion, I.I.T., Haifa, Israel; M.S., Ph.D., Colorado State University, Emeritus, 1998.
- Espana-Maram, Linda N. (1997)** ..... Assistant Professor  
Asian and Asian American Studies  
B.A., M.A., California State University, Fullerton; M.A., Ph.D., University of California, Los Angeles.
- Evans, Dale W. (1988)** ..... Professor  
Health Science  
B.S., M.S., George Williams College; H.S.D., Indiana University, Bloomington.
- Evans, Edward N. (1970)** ..... Professor  
Computer Engineering and Computer Science  
B.S., University of California, Berkeley; M.S., E.E., California Institute of Technology; Ph.D., University of California, Irvine.
- Evashwick, Connie J. (1993)** ..... Archstone Foundation Endowed Chair  
..... Director  
Center for Health Care Innovation  
..... Professor  
Health Care Administration  
A.B., M.A., Stanford University; M.Sc., Sc.D., Harvard School of Public Health, Massachusetts.
- Eveland, Vern K. (1984)** ..... Professor  
Biological Sciences  
B.S., State University of Iowa, Iowa City; M.S., Ph.D., University of Iowa, Iowa City.
- Ewart, Joan (1998)** ..... Head Coach  
Women's Golf  
B.A. California State University, Long Beach.
- Farber, Stuart (1960)** ..... Assistant Dean of Students  
Student Life and Development  
M.S., California State University, Long Beach; B.A., Ph.D., University of California, Los Angeles
- Farmer, Gail (1985)** ..... Director  
Center for Disability Studies and Scholarship  
..... Professor  
Health Science/Sociology  
B.A., M.A., California State University, Long Beach; D.P.H. University of California, Los Angeles.
- Farmer, Lesley S. (1999)** ..... Associate Professor  
Educational Psychology, Administration and Counseling  
B.A., Whitman College; M.L.S., University of North Carolina at Chapel Hill; Ed.D., Temple University.
- Farrell, Michael J. (1969)** ..... Professor  
Economics  
B.A., Pomona College; M.A., Ph.D., Stanford University.

- Fata, Frank J. (1986)** ..... Associate Dean  
College of Liberal Arts
- ..... Professor  
Comparative Literature and Classics  
A.B., Columbia College, New York; Ph.D., The Johns Hopkins University.
- Fayek, Mamdouh M. (1989)** ..... Professor  
Design  
B.F.A., College of Fine Arts, Cairo; M.A., California State University, Long Beach.
- Fernandez, Maria (2002)** ..... Assistant Professor  
Art  
B.A., Albertus Magnus College; M.A., M.Phil., Ph.D., Columbia University in the City of New York.
- Fiebert, Martin S. (1965)** ..... Professor  
Psychology  
B.S., Queens College, Flushing, New York; Ph.D., University of Rochester.
- Fine, David M. (1968)** ..... Professor  
English  
B.A., M.A., University of California, Los Angeles; M.A., California State University Los Angeles; Ph.D., University of California, Los Angeles. Emeritus, 1998.
- Finn, Neal Brian (1998)** ..... Assistant Professor  
Music  
B.A., M.A., California State University, Los Angeles; Ph.D. University of Northern Colorado.
- Finney, Malcolm A. (2000)** ..... Assistant Professor  
Linguistics  
B.A., University of Sierra Leone, Freetown, Sierra Leone; M.A., Ph.D., University of Ottawa, Ottawa, Canada.
- Finney, Robert G. (1977)** ..... Professor  
Film and Electronic Arts  
A.B., Marietta College; M.A., Ph.D., Ohio State University. Emeritus, 2000.
- Finney, Stanley C. (1986)** ..... Professor  
Geological Sciences  
B.S., M.S., University of California, Riverside; Ph.D., Ohio State University.
- Finot, Patricia (1977)** ..... Professor  
Dance  
B.A., Occidental College; M.A., University of Southern California. Emeritus, 1999.
- Fisher, Carl H. (2000)** ..... Associate Professor  
Comparative Literature and Classics  
B.A., Ohio Wesleyan University; M.A., Ph.D., University of California, Los Angeles.
- Fisher, Dennis G. (2000)** ..... Director  
Center for Behavioral Research and Services
- ..... Professor  
Psychology  
B.A., University of California, Riverside; M.S., University of Alaska, Anchorage; Ph.D., University of California, Los Angeles.
- Fisher, Janet M. (1989)** ..... Professor  
Kinesiology and Physical Education  
B.S., Ohio University; M.Ed., Ph.D., University of Toledo.
- Fisher, Steven A. (1990)** ..... Professor  
Accountancy  
B.S., M.S., University of Akron; D.B.A., Kent State University; CPA Certificate, Colorado.
- Flacks, Marc A. (2000)** ..... Assistant Professor  
Sociology  
B.A., Wesleyan University, Middletown, Connecticut; M.A., Ph.D., University of California, Santa Cruz.
- Fleck, Stephen H. (1993)** ..... Associate Professor  
Romance, German, Russian Languages and Literatures  
B.A., Sonoma State University; Ph.D., University of California, Davis.
- Fornell, Paul D. (1999)** ..... Acting Director  
Career Development Center  
B.S., University of Illinois; M.S., George Williams College.
- Forney, Kristine K. (1978)** ..... Professor  
Music  
B.M., Southern Illinois University; M.A., Ph.D., University of Kentucky, Lexington.
- Forouzesh, Mohammed R. (1987)** ..... Professor  
Health Science  
B.S., University of Oregon, Eugene; M.P.H., University of Tennessee, Knoxville; Ph.D., University of Tennessee, Knoxville.
- Forrest, Laura U. (1999)** ..... Assistant Professor  
Educational Psychology, Administration and Counseling  
B.A., Arizona State University; M.C., Arizona State University.
- Foster, L. Sheila (1967)** ..... Professor  
Computer Engineering and Computer Science  
B.A., Ohio Wesleyan University; M.A., Ph.D., University of Southern California. Emeritus, 2001.
- Francis, Robert D. (1987)** ..... Professor  
Geological Sciences  
B.A., University of California, San Diego; Ph.D., University of California, San Diego (Scripps).
- Frank, Gail C. (1989)** ..... Professor  
Family and Consumer Sciences  
B.S., Texas Tech University; M.A., Ph.D., Tulane University.
- Franklund, Clifton V. (2000)** ..... Assistant Professor  
Biological Sciences  
B.A., Concordia College, Moorhead, Minnesota; M.S., North Dakota State University, Fargo, Ph.D., Medical College of Virginia, Richmond.
- Frantz, Paul L. (2000)** ..... Associate Professor  
Finance, Real Estate, and Law  
B.S., Montana State University, Bozeman; J.D., University of Montana School of Law, Missoula, Montana; M.I.M., American Graduate School of International Management, Glendale, Arizona; LL.M., University of the Pacific, McGeorge School of Law.
- Frates, Janice E. (1997)** ..... Associate Professor  
Health Care Administration  
B.A., University of California, Los Angeles; M.S.W., University of California, Berkeley; Ph.D., University of Southern California.
- Freeseemann, Keith W. (1979)** ..... Associate Professor  
Kinesiology and Physical Education  
B.S., Upper Iowa University; M.A., University of Northern Iowa; Ed.D., University of Southern California..
- Fried, Elliot (1970)** ..... Professor  
English  
B.A., M.A., California State University, Long Beach; M.F.A., University of California, Irvine.
- Friis, Robert H. (1988)** ..... Professor  
Health Science  
A.B., University of California, Berkeley; A.M., Ph.D., Columbia University.
- Fung, Henry C., Jr. (1966)** ..... Associate Dean  
College of Natural Sciences and Mathematics
- ..... Professor  
Biological Sciences  
B.A., University of California, Berkeley; M.T., University of California, Medical School at San Francisco; M.A., San Francisco State University; Ph.D., Washington State University.
- Galbraith, Kevin (2000)** ..... Assistant Track & Field Coach  
Sports, Athletics and Recreation  
B.A., Loyola Marymount University, Los Angeles; M.A., Loyola Marymount University, Los Angeles.
- Galt, Charles P. (1973)** ..... Professor  
Biological Sciences  
B.A., University of California, Santa Barbara; M.S., Ph.D., University of Washington.
- Gao, Tangan (1999)** ..... Assistant Professor  
Mathematics  
B.S., M.S., Zhongshan University, China; Ph.D., Michigan State University.
- Garhammer, John J. (1985)** ..... Director  
Movement Science Laboratories
- ..... Professor  
Kinesiology and Physical Education  
B.S., Pennsylvania State University; M.S., Lehigh University, Pennsylvania; M.S., Ph.D., University of California, Los Angeles.
- Gasior, Bonnie L. (2001)** ..... Assistant Professor  
Romance, German, Russian Languages and Literatures  
B.A., Saint Joseph's University; M.A., Ph.D., Purdue University.
- Gau, Yihnan D. (1988)** ..... Professor  
Mathematics  
B.S., National Taiwan University; Ph.D., Purdue University.
- George, Barbara C. (1961)** ..... Professor  
Finance, Real Estate and Law  
B.A., Bennett College, Greensboro, North Carolina; J.D., State University of Iowa, Member, Iowa State Bar, California State Bar, U.S. Supreme Court Bar. Emeritus, 2001.
- George, Larry N. (1989)** ..... Professor  
Political Science  
B.A., University of California, Irvine; M.A., Ph.D., Princeton.

- George, Simon (1961)** ..... Professor  
Physics and Astronomy  
B.Sc., University of Travancore, India; M.Sc., University of Saugar, India; Ph.D., University of British Columbia. Emeritus, 1998.
- Gessford, John E. (1990)** ..... Professor  
Information Systems  
B.S., M.S., Ph.D., Stanford University. Emeritus, 1997.
- Gharakhanian, Editte (1990)** ..... Professor  
Biological Sciences  
B.A., George Mason University; Ph.D., University of California, Los Angeles.
- Gibson, J. William (1991)** ..... Professor  
Sociology  
B.A., University of Texas, Austin; M.A., Ph.D., Yale University.
- Gilpin, C. Barclay, (1966)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., University of Wisconsin; M.S., Ph.D., Carnegie Institute of Technology. Emeritus, 1998.
- Gilsdorf, Jeanette W. (1989)** ..... Professor  
Information Systems  
B.A., Creighton University; M.A., Ph.D., University of Nebraska.
- Gimmillaro, Brian S. (1992)** ..... Head Coach  
Women's Volleyball  
B.A., California State University, Long Beach.
- Gittleman, Arthur P. (1966)** ..... Professor  
Computer Engineering and Computer Science  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Giurgea, Adrian (2001)** ..... Associate Professor  
Theatre Arts  
B.A., M.F.A., Academy of Theatre and Film; Ph.D., University of California, Los Angeles.
- Glenn, Constance W. (1973)** ..... Director  
University Art Museum  
..... Professor  
Art  
B.A., University of Kansas; M.A., California State University, Long Beach.
- Glezakos, Constantine (1968)** ..... Professor  
Economics  
B.A., Athens School of Economics; M.A., Ph.D., University of Southern California.
- Goddard, Kathryn E. (1969)** ..... Director  
Center for Collaboration in Education  
B.A., University of California, Berkeley; M.S., Indiana University; Ed.D., University of Southern California.
- Goering, Sara L. (1999)** ..... Director  
Center for the Advancement of Philosophy in the School  
..... Assistant Professor  
Philosophy  
B.S., University of Illinois; M.A., Ph.D., University of Colorado, Boulder.
- Godfrey, R. Michael (1989)** ..... Professor  
Information Systems  
B.A., Amherst College; M.P.A., Ph.D., University of Southern California.
- Goitom, Tesfai (1983)** ..... Associate Dean  
College of Engineering  
..... Director  
California Advanced Manufacturing Institute  
..... Director  
Center for Excellence in Construction  
..... Professor  
Engineering Technology  
B.S., National University, Ethiopia; B.S., University of Wisconsin, Platteville; M.S., Ph.D., Michigan State University.
- Goldenberg, Claude N. (1994)** ..... Associate Dean  
College of Education  
..... Professor  
Teacher Education  
A.B., Princeton University; M.A., Ph.D., University of California, Los Angeles.
- Goldberg-Hamblin, Sara E. (2002)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.A., M.A., Ph.D., University of California.
- Goldish, Dorothy M. (1958)** ..... Acting Dean, Undergraduate Studies  
Academic Affairs  
..... Professor  
Chemistry and Biochemistry  
B.S., Stanford University; Ph.D., University of California, Berkeley.
- Goldstein, Avery E. (1990)** ..... Associate Professor  
Family and Consumer Sciences  
B.A., University of California, Los Angeles; M.A., University of the Pacific; Ph.D., Purdue University.
- Golez, Felipe V. (1997)** ..... Professor  
Teacher Education  
B.A., University of California, Santa Barbara; M.A., California State University, Los Angeles; Ph.D., University of New Mexico.
- Gonsalves, John, Jr. (1969)** ..... Professor  
Kinesiology and Physical Education  
B.A., M.A., California State University, Long Beach.
- Goodman, Catherine C. (1985)** ..... Professor  
Social Work  
B.A., University of California, Berkeley; M.S.W., D.S.W., University of California, Los Angeles.
- Gordon, Joanne L. (1989)** ..... Professor  
Theatre Arts  
B.A., M.A., University of Witwatersrand, South Africa; Ph.D., University of California, Los Angeles.
- Gosselin, Edward A. (1969)** ..... Professor  
History  
B.A., Yale University; M.A., Ph.D., Columbia University.
- Gossette, Franklin E. (1987)** ..... Professor  
Geography  
B.A., University of Oregon, Eugene; M.A., University of Oregon; Ph.D., University of California, Los Angeles.
- Grace, Debra M. (2001)** ..... Professor  
Accountancy  
B.F.A., Ohio University; M.B.A., Ohio University; Ph.D., Oklahoma State University
- Granger, Jean M. (1972)** ..... Professor  
Social Work  
B.A., Fisk University; M.S.W., Fordham University; Ph.D., University of California, Irvine. Emeritus, 2002.
- Grannell, Roswitha B. (1967)** ..... Professor  
Geological Sciences  
B.A., Pomona College; Ph.D., University of California, Riverside.
- Gray, Todd (1997)** ..... Assistant Professor  
Art  
B.F.A., M.F.A., California Institute of the Arts.
- Green, Jack (1970)** ..... Professor  
Geological Sciences  
B.S., Virginia Polytechnic Institute; Ph.D., Columbia University.
- Green, James N. (1996)** ..... Associate Professor  
History  
B.A., Earlham College; M.A., California State University, Los Angeles, Ph.D., University of California, Los Angeles.
- Green, Kenneth F. (1968)** ..... Professor  
Psychology  
B.A., Brown University; M.S., Ph.D., University of Massachusetts.
- Greenberg, Suzanne A. (1995)** ..... Associate Professor  
English  
B.A., Hampshire College; M.F.A., University of Maryland.
- Greene, Gary M. (1993)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., University of California, Los Angeles; M.A., University of Southern California; Ph.D., University of California, Riverside.
- Green-Vargas, Debbie (1985)** ..... Assistant Coach  
Women's Volleyball.  
B.S., California State University, Long Beach.
- Gregory, Kenneth M. (1973)** ..... Professor  
Biological Sciences  
B.A., Ph.D., University of California, Berkeley. Emeritus, 2001.
- Grenot-Scheyer, Marquita (1988)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., M.A., California State University, Los Angeles; Ph.D., University of California, Los Angeles/California State University, Los Angeles.
- Grey, Jennifer Jen (1975)** ..... Professor  
Art  
B.F.A., Bradley University; M.F.A., Hoffberger School of Painting of the Maryland Institute.
- Griffin, Wendy (1991)** ..... Professor  
Women's Studies Program  
B.A., M.A., Ph.D., University of California, Irvine.

- Griffith, William H. (1989)** ..... Vice President  
Administration and Finance  
B.S., University of Illinois; M.S., National College of Education.
- Grimmett, Dixie Ann (1965)** ..... Professor  
Kinesiology and Physical Education  
B.S. Brigham Young University; M.A., Washington State University; Ed.D., Brigham Young University, Emeritus, 2000.
- Grobar, Lisa M. (1989)** ..... Professor  
Economics  
B.A., Smith; Ph.D., University of Michigan, Ann Arbor.
- Gross, Mark W. (1988)** ..... Professor  
Physics and Astronomy  
B.S., Washington University, St. Louis; M.S., Ph.D., University of Chicago.
- Grote, Karl-Heinrich (1984-1986, 1990)** ..... Professor  
Mechanical and Aerospace Engineering  
Dr.-Ing., Technical University Berlin, Germany.
- Guerriere, Daniel (1969)** ..... Professor  
Philosophy  
B.A., M.A., Ph.D., Duquesne University.
- Gunal, Nezh (1989)** ..... Assistant Professor  
Engineering Technology  
B.S., M.S., California State University, Long Beach; Ph.D. Candidate, University of Southern California.
- Gunatilake, Sarath (1987)** ..... Professor  
Health Science  
B., Medicine & Surgery, University of Colombo, Sri Lanka; M.P.H., University of Hawaii, Manoa; D.P.H., University of Hawaii, Manoa.
- Gunns, Albert F. (1967)** ..... Professor  
History  
B.A., University of Puget Sound; M.A., Ph.D., University of Washington. Emeritus, 2001.
- Guthrie, Sharon R. (1990)** ..... Professor  
Kinesiology and Physical Education  
B.A., University of California, Los Angeles; B.A., M.A., California State University, Northridge; M.A., California State University, Long Beach; Ph.D., The Ohio State University.
- Gutierrez, Dana Colligan (2000)** ..... Assistant Track & Field Coach  
Sports, Athletics and Recreation  
B.S., University of Maryland, College Park.
- Haas, A. Liesl (2001)** ..... Assistant Professor  
Political Science  
B.A., University of Notre Dame; M.A., Ph.D., University of North Carolina at Chapel Hill.
- Hadlock, David A. (1985)** ..... Professor  
Art  
B.F.A., California State University, Long Beach; M.F.A., California Institute of the Arts.
- Haglund, Elaine J. (1972)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., University of California, Los Angeles; M.A., Ph.D., Michigan State University.
- Hakim-Butt, Karen L. (1994)** ..... Professor  
Kinesiology and Physical Education  
B.S., Slippery Rock State College, PA; M.A., Columbia State Teachers College; Ed.D., University of North Carolina.
- Hall, Darwin C. (1986)** ..... Professor  
Economics  
B.A., University of California, Santa Barbara; M.S., M.A., Ph.D., University of California, Berkeley.
- Hall, Thomas E. (1981)** ..... Professor  
Art  
B.F.A. Kansas City Art Institute; M.F.A. Drake University.
- Haller, Richard (1983)** ..... Executive Director  
Associated Students Inc.  
B.A., California State University, Long Beach.
- Halliwell, Michael J. (1968)** ..... Professor  
Sociology  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Hamano, Fumio (1989)** ..... Professor  
Electrical Engineering  
B.E., M.S.E., Tokyo Institute of Technology; Ph.D., University of Florida.
- Hansen, Eric L. (1989)** ..... Associate Professor  
Management/Human Resources Management  
B.A., Rutgers University; M.B.A., University of Chicago; Ph.D., University of Tennessee, Knoxville.
- Harbinger, Holly (1986)** ..... Associate Dean  
College of the Arts  
..... Professor  
Theatre Arts  
B.A., University of California, Santa Cruz; M.F.A., New York University.
- Harding, Forrest E. (1971)** ..... Director  
Center for International Trade and Transportation  
..... Professor  
Marketing  
B.S., Southern Illinois University; M.S., Northern Illinois University; Ph.D., Arizona State University. Emeritus, 2000.
- Harman, Marsha S. (1966)** ..... Professor  
Sociology  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Harman, Robert C. (1969)** ..... Professor  
Anthropology  
B.A., University of California, Santa Barbara; M.A., Ph.D., University of Arizona. Emeritus, 2000.
- Harris, Alice M. (1969)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., Idaho State University; M.S., Ph.D., University of Oregon. Emeritus, 1998.
- Hartley, Joellen T. (1981)** ..... Professor  
Psychology  
B.S., M.S., University of California, Davis; Ph.D., University of California, Irvine.
- Hartung, Elisabeth S. (1988)** ..... Professor  
Art  
B.S., Iowa Wesleyan College; M.A., University of Northern Iowa; Ph.D., Arizona State University.
- Hassul, Michael (1981)** ..... Professor  
Computer engineering and Computer Science  
B.A., Polytechnic Institute of Brooklyn, New York; M.S., Ph.D., University of California, Berkeley.
- Hayes, Robert E. (1961)** ..... Professor  
Political Science  
B.A., M.A., University of Minnesota; Ph.D. University of Colorado. Emeritus, 2001.
- Hefazi-Torghabeh, Hamid (1985)** ..... Director  
Center for Advanced Technology Support for Aerospace Industry  
..... Professor  
Mechanical and Aerospace Engineering  
B.S., University of Tehran, Iran; M.S., California State University, Long Beach; Ph.D., University of Southern California.
- Hegwer-DiVita, Marie L. (2001)** ..... Associate Professor  
Educational Psychology, Administration, and Counseling  
B.A., M.A., California State University, Los Angeles; Ph.D., University of California, Los Angeles and California State University, Los Angeles.
- Henderson, Alan C. (1987)** ..... Professor  
Health Science  
B.A., University of California, Santa Barbara; M.S., Dr. P.H., University of California, Los Angeles.
- Henriques, Laura (1998)** ..... Assistant Professor  
Science Education  
B.A., Williams College; Ph.D., University of Iowa.
- Herman, Martin (1989)** ..... Professor  
Music  
B.A., Duke University; M.A., University of Pennsylvania; Ph.D., University of California, Berkeley.
- Hershberger, Scott L. (1998)** ..... Associate Professor  
Psychology  
B.A., Florida Atlantic University; M.A., Ph.D., Fordham University.
- Hertz, Robert M. (1969)** ..... Professor  
Linguistics/English  
B.A., Rutgers University; M.A., Syracuse University; Ph.D., University of Southern California.
- Hibbets, Maria R. (1999)** ..... Assistant Professor  
Religious Studies  
B.A., Reed College; Ph.D., Harvard University.
- Hickman, Roger C. (1988)** ..... Professor  
Music  
B.A., University of California, Irvine; M.A., Ph.D., University of California, Berkeley.
- Hickman, William J. (1989)** ..... Associate Professor  
Theatre Arts  
B.A., Bucknell University; M.A., San Jose State University; M.F.A., University of New Orleans.

- Hile, Lloyd R. (1968)** ..... Professor  
Chemical Engineering  
B.S., University of California, Berkeley; M.A., Ph.D., Princeton University.
- Hill, Grant M. (2001)** ..... Associate Professor  
Kinesiology and Physical Education  
B.A., Northwest College of the Assemblies of God; B.A., M.Ed., Seattle Pacific University; Ph.D., University of Iowa.
- Hilt, Jennifer (1998)** ..... Head Coach  
Women's Tennis.  
B.A., University of California, Los Angeles.
- Hintzen, Paul M. N. (1992)** ..... Professor  
Physics/Astronomy  
B.S., University of Minnesota, Minneapolis; Ph.D., University of Arizona.
- Hirshtal, Edith H. (1984)** ..... Professor  
Music  
B.M., M.M., Juilliard School of Music, New York and Temple University, Pennsylvania; Artist Diploma, Peabody Conservatory.
- Hlousek, Zvonimir (1990)** ..... Associate Professor  
Physics and Astronomy  
B.Sc., University of Zagreb, Yugoslavia; M.S., Ph.D., Brown University.
- Ho, Ju-Shey (1970)** ..... Professor  
Biological Sciences  
B.S., National Taiwan University; M.A., Ph.D., Boston University. Emeritus, 1999.
- Hodum, Peter J. (2001)** ..... Assistant Professor  
Biological Sciences and Science Education  
B.A., Bowdoin College; Ph.D., University of California, Davis.
- Hoffman, Rose Marie (1997)** ..... Associate Professor  
Educational Psychology, Administration and Counseling  
B.A., State University of New York at Albany; M.S., Canisius College; Ph.D., University of North Carolina at Greensboro.
- Holiday, Peter J. (1998)** ..... Associate Professor  
Art  
B.A., Columbia University; M.Phil., Ph.D., Yale University.
- Holk, Gregory (2000)** ..... Assistant Professor  
Geological Sciences  
B.S., Arizona State University; M.S., Ph.D., California Institute of Technology, Pasadena.
- Homer, Pamela M. (1991)** ..... Professor  
Marketing  
B.A., Michigan State University; M.A., M.B.A., University of Colorado, Boulder; Ph.D., University of Oregon, Eugene
- Hood, David C. (1966)** ..... Professor  
History  
B.A., University of California, Santa Barbara; Ph.D., University of Southern California.
- Horne, David A. (1988)** ..... Professor  
Marketing  
B.S., M.B.A., Ph.D., University of Michigan, Ann Arbor.
- Hostetler, J. Michael (2000)** ..... Associate Vice President  
..... Dean of Students  
Division of Student Services  
B.A., Goshen College; M.A., Michigan State University; Ed.D., Western Michigan University.
- Hotchkiss, Wilhelmina L. (1990)** ..... Associate Professor  
English  
B.A., California State University, Fullerton; Ph.D., University of California, Los Angeles.
- Hou, Jack W. (1989)** ..... Professor  
Economics  
B.A., National Taiwan University; M.A., Ph.D., Yale.
- Houck, Jean (1990)** ..... Dean  
College of Education  
..... Professor  
Educational Psychology and Administrator  
B.A., Kentucky Wesleyan College; M.A., Western Kentucky University, Bowling Green; Ed.D., Indiana University.
- Hovind, Tor A. (1995)** ..... Associate Professor  
Art  
B.F.A., California State University, Long Beach; M.F.A., Syracuse University.
- Howell, Jayne (1994)** ..... Associate Professor  
Anthropology  
B.A., State University of New York, Geneseo; M.A., Ph.D., State University of New York, Stony Brook.
- Hu, Chi-yu Yang (1963)** ..... Professor  
Physics and Astronomy  
B.S., National Taiwan University, Taipei, Taiwan; Ph.D., Massachusetts Institute of Technology.
- Hu, Helen Chau (1994)** ..... Associate Professor  
English  
B.A., Berea College, KY; M.A., University of Wisconsin; Ph.D., University of London.
- Hubbard, Harold G. (1970)** ..... Professor  
Sociology  
B.A., University of California, Los Angeles; M.A., Southern Methodist University; Ph.D., University of Southern California. Emeritus, 1999.
- Huckabay, Loucine (1984)** ..... Professor  
Nursing  
B.S., M.S., Ph.D., University of California, Los Angeles.
- Huckaby, David G. (1973)** ..... Associate Professor  
Biological Sciences  
B.S., M.S., Louisiana State University; Ph.D., University of Michigan.
- Hughes, Edward J. (1990)** ..... Associate Professor  
Religious Studies  
B.A., Manhattan College, New York City; M.Div., Pittsburgh Theological Seminary; M.A., Ph.D., The Claremont Graduate School.
- Hunt, Herbert G., III (2002)** ..... Professor  
Accountancy  
B.A., University of Vermont; M.B.A., University of Vermont; Ph.D., University of Colorado at Boulder
- Hunter, Harold R. (1987)** ..... Professor  
Health Care Administration  
A.B., Syracuse University; M.B.A., Cornell University; M.P.H., University of California, Los Angeles; Dr. P.H., University of California, Los Angeles.
- Hupka, Ralph B. (1969)** ..... Professor  
Psychology  
B.A., M.A., San Francisco State University; Ph.D., University of Massachusetts.
- Ishimine, Tomotaka (1967)** ..... Professor  
Economics  
B.A., Kobe University, Japan; M.A., M.S., Ph.D., University of Wisconsin.
- Itatani, Carol A. (1975)** ..... Professor  
Biological Sciences  
B.A., University of California, Los Angeles; M.S., California State University, Long Beach; Ph.D., University of Southern California.
- Jackson, Hazel O. (1994)** ..... Professor  
Family and Consumer Sciences  
B.S., Tennessee State University; M.A., Michigan State University; Ph.D., University of Tennessee, Knoxville.
- Jacob, Mary (1980)** ..... Professor  
Family and Consumer Sciences  
B.S., M.S., Women's Christian College, India; M.S., University of London; Ph.D., University of Illinois, Urbana.
- Jacques, David Martin (1998)** ..... Associate Professor  
Theatre Arts  
B.F.A., University of Miami; M.F.A., Southern Methodist University.
- Jaffe, Alexandra M. (2001)** ..... Associate Professor  
Linguistics  
B.A., University of Delaware; M.A., Ph.D., Indiana University at Bloomington.
- Jahn, Min-Ten (1986)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., Taiwan Normal University; M.A., Ph.D., State University of New York, Stony Brook.
- James, Katherine (1993)** ..... Associate Professor  
Recreation and Leisure Studies  
B.A., Carleton College, Minnesota; M.A., Ph.D., University of Minnesota.
- James, Kenneth (1982)** ..... Professor  
Electrical Engineering/Computer Engineering and Computer Science  
B.S., Case Institute of Technology; M.S., California State University, Fullerton; Ph.D., University of California, Irvine.
- Jang, Long-Kuan (1984)** ..... Professor  
Chemical Engineering  
B.S., M.S., National Taiwan University; Ph.D., University of Southern California.
- Janousek, Kelly S. (1988)** ..... Librarian  
B.A., Western Michigan University; M.L.S., University of Pittsburgh.
- Janssen, Maridith A. (1999)** ..... Assistant Professor  
Recreation and Leisure Studies  
B.S., California State University, Sacramento; M.A., California State University, Chico; Ed.D., Oklahoma State University.

- Jarasunas, Emanuel (1976)** ..... Professor  
Engineering Technology  
B.S., California State University, Long Beach; M.S., International Rail University, Germany; Ed.D., Nova University.
- Jensen, Rod M. (2001)** ..... Interim Associate Dean  
University College and Extension Services  
B.A., Augustana College; M.A., California State University, Long Beach; Ed.D., Pepperdine University.
- Jernigan, John C. (1970)** ..... Professor  
Comparative Literature and Classics  
B.A., Southwestern University; M.A., Purdue University; Ph.D., Indiana University.
- Jeynes, William H. (2001)** ..... Associate Professor  
Teacher Education  
B.A., University of Wisconsin, Madison; M.Ed., Harvard University; Ph.D., University of Chicago.
- Ji, Hongyu (1999)** ..... Assistant Professor  
Art  
B.F.A., Central Academy of Fine Arts, Beijing, China; M.F.A., State University of New York, New Paltz.
- Jimenez, Mary Ann (1988)** ..... Professor  
Social Work  
B.A., Immaculate Heart College; M.A., University of California, Los Angeles; M.S.W., San Diego State University; Ph.D., Brandeis University.
- Johnson, Gretchen A. (1969)** ..... Librarian  
University Library and Learning Resources  
B.A., St. Olaf College; M.A., University of Denver.
- Johnson, Keith R. (1997)** ..... Assistant Professor  
Dance  
B.S., Brigham Young University; M.F.A., University of Utah.
- Johnson, Leayn (1981)** ..... Professor  
Nursing  
B.S., Wright State University; M.S., Ohio State University; Ph.D., United States International University.
- Johnson, Patricia-Anne (2001)** ..... Assistant Professor  
Black Studies  
B.A., Upper Iowa University; M.T.S., Ph.D., Garrett-Evangelical Theological Seminary.
- Johnson, Thomas G. (1989)** ..... Associate Professor  
Electrical Engineering  
B.A., Oberlin College; M.S., Youngstown State University; Ph.D., University of California, Davis.
- Johnson, Troy R. (1994)** ..... Professor  
History/American Indian Studies Program  
B.A., San Diego State University; M.A., Ph.D., University of California, Los Angeles.
- Johnson, William M. (1965)** ..... Associate Professor  
Philosophy  
B.A., University of California, Berkeley.
- Johnston, Michael W. (1987)** ..... Psychologist  
Counseling and Psychological Services  
B.A., Missouri Southern State College; M.S., University of Kansas; Ed.D., Indiana University, Bloomington.
- Jones, Ira (1969)** ..... Professor  
Biological Sciences  
B.S., Benedict College, Columbia, South Carolina; M.S., Atlanta University; Ph.D., Wayne State University. Emeritus, 1999.
- Jones, Irene (1990)** ..... Professor  
Romance, German, Russian Language and Literatures  
Ph.D., University of Florence, Italy.
- Jones, F. Stanley (1988)** ..... Professor  
Religious Studies  
B.A., Yale University; B.A., M.A., Oxford University; Dr.Theology, Universitaet Goettingen, Federal Republic of Germany.
- Jordanides, Thimios J. (1964)** ..... Professor  
Electrical Engineering  
B.S., Wayne State University; M.S., San Jose State University; Ph.D., University of California, Irvine.
- Jorgenson, Dale O. (1972)** ..... Professor  
Psychology  
B.A., Ph.D., University of Minnesota.
- Jung, John R. (1968)** ..... Professor  
Psychology  
B.A., University of California, Berkeley; M.S., Ph.D., Northwestern University.
- Kaci, Judith A. (1972)** ..... Professor  
Criminal Justice  
B.S., Loma Linda University; M.S., California State University, Long Beach; J.D., Southwestern University; LL.M., New York University.
- Kaminsky, Arnold P. (1986)** ..... Director  
Center for the Study of Southeast Asia  
..... Professor  
Asian and Asian American Studies/History  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Kammermeyer, Michael J. (1968)** ..... Professor  
Design  
B.S., University of Southern California; M.A., California State University, Long Beach.
- Kampwirth, Thomas J. (1971)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.S., University of Illinois; M.A., DePaul University; Ph.D., University of Illinois. Emeritus, 1999.
- Kao, Hsin-Sheng C. (1989)** ..... Professor  
Asian and Asian American Studies  
B.A., National Taiwan University; M.A., University of Saskatchewan; Ph.D., University of Southern California.
- Kapche, Robert W. (1966)** ..... Associate Professor  
Psychology  
B.S., Loyola University; M.S., Ph.D., Northwestern University.
- Karabenick, Edward (1959)** ..... Professor  
Geography  
B.A., M.A., Wayne State University; Ph.D., University of Michigan. Emeritus, 1998.
- Karenga, Maulana N. (1989)** ..... Professor  
Black Studies  
B.A., M.A., University of California, Los Angeles; Ph.D., United States International University; Ph.D., University of Southern California.
- Kataoka, Hiroko C. (1998)** ..... Associate Professor  
Asian and Asian American Studies  
B.A., Kobe College, Japan; M.A., Ph.D., University of Illinois, Urbana-Champaign
- Katz, Steven M. (1973)** ..... Director  
Judicial Affairs  
B.A., University of California, Los Angeles; M.S., California State University, Long Beach; J.D., Western State University, College of Law, Fullerton.
- Kavianian, Hamid R. (1984)** ..... Professor  
Chemical Engineering  
B.S., Shirza University, Iran; M.S., Ph.D., Colorado School of Mines.
- Kaye, Candace (1999)** ..... Associate Professor  
Teacher Education  
B.S., Texas Theological University; M.A., The University of Texas at San Antonio; Ph.D., Claremont Graduate School.
- Kearney, Michael L. (1960)** ..... Professor  
Finance, Real Estate and Law  
B.S., University of California, Los Angeles; J.D., Loyola School of Law. Emeritus, 1996.
- Kearney, Patricia (1987)** ..... Director  
Hauth Center for Communication Skills  
..... Professor  
Communication Studies  
B.S., Illinois State University; M.A., University of Oklahoma, Norman; Ed.D., West Virginia University.
- Keely, Beth R. (1995)** ..... Professor  
Nursing  
B.A., M.S., California State University, Los Angeles; M.A., Ph.D., Claremont Graduate School.
- Kelemen, William L. (2001)** ..... Assistant Professor  
Psychology  
B.A., University of California, Irvine; M.A., Ph.D., Baylor University.
- Keller, Kathleen L. (1983)** ..... Professor  
Nursing  
B.S., California State University, Long Beach; M.N., University of California, Los Angeles; Ph.D., University of Southern California. Emeritus, 2000.
- Kelley, Kevin M. (1995)** ..... Associate Professor  
Biological Sciences  
A.B., M.A., Ph.D., University of California, Berkeley.
- Kellogg, Bonnie E. (1989)** ..... Professor  
Nursing  
B.A., Mount St. Mary's College; M.S., California State University, Los Angeles; Ph.D., Loma Linda University.
- Kelly, Rory M. (2001)** ..... Assistant Professor  
Film and Electronic Arts  
B.A., University of California, Los Angeles.

- Kelly, Wayne F. (1976)** ..... Professor  
Journalism  
B.A., Butler University; M.S., University of California, Los Angeles. Emeritus, 1999.
- Kenealy, Patrick F. (1988)** ..... Professor  
Physics and Astronomy-Science Education  
B.S., Loyola University, Chicago; Ph.D., University of Notre Dame.
- Kennedy, Elizabeth (2000)** ..... Assistant Professor  
Art  
B.A., M.A., California State University, Long Beach; M.F.A., Ph.D., The Claremont Graduate School.
- Kenworthy, O. T. (2001)** ..... Associate Professor  
Communicative Disorders  
B.A., M.A., University of Washington; Ph.D., University of Wisconsin, Madison.
- Kermode, Lloyd E. (2000)** ..... Assistant Professor  
English  
B.A., Sheffield University, Sheffield, England; M.Phil., Shakespeare Institute, University of Birmingham, England; M.A., Johns Hopkins University; Ph.D., Rice University.
- Khan, Mohammed B. (1984)** ..... Associate Dean  
College of Business Administration
- ..... Professor  
Information Systems  
B.S., Bangladesh University of Engineering and Technology; M.E., Ph.D., Texas A & M University.
- Khatra, Balwant S. (1987)** ..... Professor  
Biological Sciences  
B.V. Sc., Veterinary College, Hissar, India; B.S., Punjab University, India; M.S., Punjab University, India; Ph.D., University of Leeds, England.
- Khoiny, Farideh (1990)** ..... Associate Professor  
Nursing  
B.S., Boston University; M.P.A., California State University, Long Beach; M.N., University of California, Los Angeles; Ph.D., University of Southern California.
- Kiang, Melody (1999)** ..... Associate Professor  
Information Systems  
B.B.A., National Chengchi University, Taiwan; M.S., University of Wisconsin at Madison; Ph.D., The University of Texas at Austin.
- Kim, Barbara W. (2002)** ..... Assistant Professor  
Asian/Asian American Studies  
B.A., Pomona College; M.A., Ph.D., University of Michigan, Ann Arbor.
- Kim, Eun Heui (2001)** ..... Assistant Professor  
Mathematics  
B.S., Chung-Ang University; M.A., Indiana University at Bloomington; Ph.D., University of Connecticut.
- Kim, Simon S. (2000)** ..... Associate Professor  
Educational Psychology, Administration, and Counseling  
B.A., Westminster College, Fulton, Missouri; M.S., University of Kentucky, Lexington; Ph.D., University of Southern California.
- Kim, Yong Hee (1998)** ..... Assistant Professor  
Mathematics  
B.S., University of Alaska; M.S., University of California, Irvine; Ph.D., University of California, Riverside.
- Kingsford, Laura (1980)** ..... Professor  
Biological Sciences  
B.S., Boise State University; Ph.D., University of Utah.
- Kleinfelder, Karen L. (1993)** ..... Professor  
Art  
B.A., M.A., Ph.D., University of Michigan.
- Kleinpeter, Christine B. (1999)** ..... Assistant Professor  
Social Work  
B.A., University of California, Irvine; M.S.W., University of Southern California; Psy.D., Pepperdine University.
- Klig, Lisa S. (1990)** ..... Professor  
Biological Sciences  
B.A., University of Massachusetts, Amherst; M.S., Oberlin College; Ph.D., Albert Einstein College of Medicine.
- Klink, Eileen S. (1990)** ..... Professor  
English  
B.A., University of California, Los Angeles; M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Knafel, Stephen R. (1962)** ..... Professor  
English  
B.A., Union College Schenectady, New York; M.A., Columbia University; Ph.D., Brown University; M.A., California State University, Long Beach. Emeritus, 1999.
- Knipe, Alan (1996)** ..... Head Coach  
Men's Volleyball  
B.A., California State University, Long Beach.
- Knox, Lezlie S. (1999)** ..... Assistant Professor  
History  
B.A., University of Wisconsin at Madison; M.M.S., Ph.D., The University of Notre Dame.
- Knudson, Ruth E. (1995)** ..... Professor  
Teacher Education  
A.B., Bryn Mawr College; M.S., University of Wisconsin; Ph.D., University of California, Riverside.
- Kochan, Roman V. (1969)** ..... Dean  
Library Services
- ..... Librarian  
B.A., M.A., University of Manitoba; M.L.S., University of British Columbia.
- Komisaruk, Catherine H. (2001)** ..... Assistant Professor  
History  
B.A., Harvard University; M.A., Ph.D., University of California, Los Angeles.
- Koob, Jeffrey J. (2001)** ..... Assistant Professor  
Social Work  
B.S., University of Wisconsin, Oshkosh; M.S., University of Wisconsin, Milwaukee; Ph.D., Marquette University.
- Korogodsky, Danila Z. (1996)** ..... Associate Professor  
Theatre Arts  
M.F.A., Leningrad Institute of Theatre.
- Korostoff, Marilyn (1996)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., University of California, Los Angeles; M.A., California State University, Long Beach; M.S., Pepperdine University, Irvine; Ed.D., University of California, Los Angeles.
- Koval, James E. (1985)** ..... Professor  
Family and Consumer Sciences  
B.S., Creighton University, Nebraska; M.S., Texas Technological University; Ph.D., Oregon State University.
- Krause, Marina C. (1968)** ..... Professor  
Teacher Education  
B.A., University of Arizona; M.A., Ed.D., Arizona State University.
- Kress, Jeffrey L. (2001)** ..... Assistant Professor  
Kinesiology and Physical Education  
B.S., M.S., California State University, Fullerton; Ph.D., University of Kansas.
- Krumpak, Thomas J. (1986)** ..... Professor  
Art  
B.F.A., San Francisco Art Institute; M.F.A., California State University, Long Beach.
- Kukalis, Salah M. (1986)** ..... Professor  
Management/Human Resources Management  
B.S., M.B.A., The American University, Cairo; Ph.D., University of Arizona.
- Kumar, Rajendra (1983)** ..... Professor  
Electrical Engineering  
B. Tech., M. Tech., Indian Institute of Technology; Ph.D., University of Newcastle, Australia.
- Kumpf, Lorraine E. (1987)** ..... Professor  
Linguistics  
B.A., Syracuse University; M.A., University of Colorado, Boulder; Ph.D., University of California, Los Angeles.
- Kumrow, David E. (2000)** ..... Assistant Professor  
Nursing  
B.Sc., Gannon University, Erie, Pennsylvania; B.S.N., Niagara University, Niagara Falls, New York; M.S.N., State University of New York, Buffalo; Ed.D., University of Southern California.
- Kvapil, James A. (1988)** ..... Director  
Center for Educational Applications of Brain Hemisphere Research
- ..... Professor  
Art  
B.A., University of the Pacific; M.A., M.F.A., San Jose State University.
- Kwon, Chuhee (1999)** ..... Assistant Professor  
Physics and Astronomy  
B.S., Seoul National University, Korea; M.S., Pohang Institute of Science and Technology, Korea; Ph.D., University of Maryland at College Park.
- Lacey, John M. (1989)** ..... Professor  
Accountancy  
B.S., M.B.A., University of Southern California; Ph.D., University of California, Los Angeles.

- Lacey, Kathleen A. (2000)** ..... Associate Professor  
Finance, Real Estate, and Law  
B.A., San Diego State University; M.B.A., J.D., University of Southern California.
- Lacourse, Michael G. (1990)** ..... Professor  
Kinesiology and Physical Education  
B.S., Springfield College, Massachusetts; M.S., Ph.D., Indiana University, Bloomington.
- Lam, Shui F. (1985)** ..... Professor  
Computer Engineering and Computer Science  
B.S., Chinese University of Hong Kong; M.S., Ph.D., Pennsylvania State University.
- Larson, Daniel O. (1988)** ..... Professor  
Anthropology  
B.A., M.A., University of Nevada, Las Vegas; Ph.D., University of California, Santa Barbara.
- Lau, Beth (1990)** ..... Professor  
English  
B.A., M.A., Ph.D., University of Illinois, Urbana.
- Lauda, Donald P. (1983)** ..... Dean  
College of Health and Human Services  
..... Director  
Senior University  
..... Professor  
Occupational Studies  
B.A., M.S., Wayne State College; Ph.D., Iowa State University.
- Lavay, Barry (1989)** ..... Associate Professor  
Kinesiology and Physical Education  
B.S., Plymouth State College; M.S., Eastern Illinois University; Ph.D., University of New Mexico.
- Lawing, Michael E. (2001)** ..... Associate Professor  
Design  
B.F.A., Layton School of Art; M.F.A., University of Illinois at Urbana-Champaign.
- Lax, Melvin (1977)** ..... Professor  
Mathematics  
B.S., M.S., Ph.D., Rensselaer Polytechnic Institute.
- Lee, Phi Loan M. (1998)** ..... Psychologist  
Counseling and Psychological Services  
B.S., University of California, Los Angeles; M.S., Psy.D., Nova University.
- Le, Son V. (1986)** ..... Professor  
Finance, Real Estate and Law  
B.S., M.S., Ph.D., Iowa State University.
- Leach, Mary Ellen (1968)** ..... Associate Professor  
Kinesiology and Physical Education  
B.S., Florida State University; M.A., University of California, Santa Barbara.
- Lee, Cheryl D. (2000)** ..... Assistant Professor  
Social Work  
B.A., George Washington University; M.S.W., Arizona State University; Ph.D., Arizona State University.
- Lee, Chia-Hsiu Sophie (1998)** ..... Associate Professor  
Information Systems  
B.S., National Chiao-Tung University, Taiwan; M.B.A., Ph.D., University of Texas at Austin.
- Lee, Christopher T. (2000)** ..... Professor  
Geography  
B.S., Northern Arizona State University, Flagstaff; M.A., California State University, Fullerton; Ph.D., University of Arizona.
- Lee, Diane W. (1999)** ..... Assistant Professor  
Psychology  
B.A., California State University, Long Beach; Ph.D., University of California, Berkeley.
- Lee, Jacqueline D. (1989)** ..... Associate Professor  
Family and Consumer Sciences  
B.A., San Diego State University; M.S., California State University Los Angeles; Ph.D., University of California, Los Angeles.
- Lee, Ronald A. (1970)** ..... Associate Vice President  
Information Management and Analysis  
B.A., University of Houston; M.S., Ph.D., University of Oklahoma.
- Lee-Fruman, Kay K. (1999)** ..... Assistant Professor  
Biological Sciences  
B.A., University of California, Berkeley; Ph.D., Harvard University.
- Leinbach, Oliver C. (1996)** ..... Professor  
Design  
B.F.A., Ohio University, Athens; M.A., The Ohio State University, Columbus; M.B.A., Capital University, Columbus; J.D., University of Toledo.
- Leiter, William M. (1966)** ..... Professor  
Political Science  
B.A., University of Massachusetts; M.A., Ph.D., University of Chicago.
- LeMaster, Barbara C. (1997)** ..... Associate Professor  
Anthropology/Linguistics  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles.
- Leonardo, Zeus M. (2000)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.A., Ph.D., University of California, Los Angeles.
- Leung, Alfred F. (1989)** ..... Professor  
Physics and Astronomy  
B.A., M.S., and Ph.D., University of California, Los Angeles.
- Levine, Arthur M. (1974)** ..... Professor  
Finance, Real Estate and Law  
B.A., Princeton University; L.L.B., Yale University.
- Li, Lijuan (1998)** ..... Associate Professor  
Chemistry and Biochemistry  
B.Sc., Jilin University, P.R. China; Ms.Sc./Ph.D., Jilin University, P.R. China; Ph.D., McMaster University, Hamilton, Ontario, Canada.
- Li, San Pao (1976)** ..... Professor  
Asian and Asian American Studies  
B.A., Tunghai University, Taiwan; M.A., Harvard University; Ph.D., University of California, Davis, Emeritus, 2001.
- Li, Xin (2001)** ..... Associate Professor  
Teacher Education  
B.A., Southwest China Teacher's University; M.A., Ph.D., University of Toronto.
- Liang, Xiaoping (2000)** ..... Assistant Professor  
Linguistics  
B.A., Nanjing University, Nanjing, China; M.A., Exeter University, Exeter, United Kingdom; Ph.D., University of British Columbia, Vancouver, Canada.
- Lichty, Margaret E. (2000)** ..... Assistant Professor  
Family and Consumer Sciences  
B.S., M.S., University of Nebraska, Lincoln; Ph.D., Virginia Tech.
- Lieberman, Neil (1975)** ..... Professor  
Art  
M.A., Pennsylvania State University, Emeritus, 1998.
- Lim, Paulino M., Jr. (1967)** ..... Professor  
English  
B.S., M.A., University of Santo Tomas, Philippines; Ph.D., University of California, Los Angeles, Emeritus, 2000.
- Linden, James I. (1968)** ..... Professor  
Psychology  
B.A., University of Michigan; M.A., Ph.D., Michigan State University, Emeritus, 1998.
- Lindner, Rhoda (1969)** ..... Professor  
Psychology  
B.A., Brooklyn College; Ph.D., Indiana University.
- Littlejohn, Alice C. (1986)** ..... Librarian  
B.A., American International College; M.B.A., Syracuse University; M.S., Drexel University.
- Liu, Dar-Biau (1986)** ..... Professor  
Computer Engineering and Computer Science  
B.S., Taiwan Normal University; M.A., Wayne State University; Ph.D., University of Wisconsin, Madison.
- Liu, Jing (1992)** ..... Professor  
Physic/Astronomy  
B.S., Zhongshan University, China; M.S. and Ph.D., University of Michigan.
- Liu, Ping (1999)** ..... Associate Professor  
Teacher Education  
B.A., Qufu Teachers University, China; M.A., University of International Relations, China; Ph.D., Texas A&M University.
- Livingstone, Robert** ..... Head Coach  
Men's Golf  
B.S., California State University, Long Beach.
- Lobodzinski, Slawomir M. (1983)** ..... Professor  
Electrical Engineering  
B.S., M.S., Technical University of Warsaw, Poland; Ph.D., Technical University of Vienna, Austria.
- Locklin, Gerald I. (1965)** ..... Professor  
English  
B.A., St. John Fisher College, Rochester, New York; M.A., Ph.D., University of Arizona.

- Loesch, Robert L. (1969)** ..... Associate Dean  
College of Natural Sciences and Mathematics
- ..... Professor  
Chemistry and Biochemistry  
B.S., University of Illinois; Ph.D., University of Chicago.
- Loganbill, G. Bruce (1968)** ..... Professor  
Communication Studies  
B.A., Bethel College; M.A., University of Kansas; Ph.D., Michigan State University.
- Lopez, Jose (1970)** ..... Professor  
Chicano Latino Studies  
B.A., M.A., California State University, Fullerton; Ph.D., Claremont Graduate School. Emeritus, 2001.
- Lopez, Marco A. (1987)** ..... Associate Professor  
Chemistry and Biochemistry  
B.S., California State University, Los Angeles; M.S., Ph.D., University of California, San Diego.
- Lopez, Rebecca A. (1990)** ..... Associate Professor  
Social Work  
B.A., University of California, Santa Cruz; M.S.W. and Ph.D., Brandeis University.
- Lopez-Zetina, Javier (2000)** ..... Assistant Professor  
Health Science  
B.A., University of Veracruz, Veracruz, Mexico; M.A., University of Houston; Ph.D., University of Texas, Houston.
- Lord, Carol (1999)** ..... Assistant Professor  
Teacher Education/Linguistics  
B.A., Stanford University; M.A., Stanford University; Ph.D., University of California, Los Angeles.
- Lowe, Christopher G. (1998)** ..... Assistant Professor  
Biological Sciences  
B.A., Barrington College; M.S., California State University, Long Beach; Ph.D., University of Hawaii, Manoa.
- Lowenthal, Alan S. (1969)** ..... Associate Professor  
Psychology  
B.A., Hobart College, Geneva, New York; M.A., Ph.D., Ohio State University.
- Lowentrou, Peter M. (1984)** ..... Professor  
Religious Studies  
A.B., University of California, Riverside; Ph.D., University of Southern California.
- Luévano, Susan C. (1995)** ..... Librarian  
University Library and Learning Resources  
B.A., California State College, Stanislaus; M.L.S., University of Oregon.
- Luna, Joanne Tortorici (2000)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.A., California State University, Los Angeles; M.A., University of California, Los Angeles; Ph.D., University of Southern California.
- Luke, Keung P. (1966)** ..... Professor  
Physics and Astronomy  
B.S., M.S., Ph.D., Massachusetts Institute of Technology. Emeritus, 1998.
- Lynch, Patricia A. (1996)** ..... Assistant Professor  
Management/Human Resources Management  
B.A., Smith College; M.B.A., Memphis State University; Ph.D., Georgia State University.
- Ma, Yulong (1997)** ..... Associate Professor  
Finance, Real Estate, and Law  
B.S., Xi'an University of Electronic Science & Technology, China; M.B.A., University of Hawaii; Ph.D., University of Houston.
- MacDonald, Kevin B. (1985)** ..... Professor  
Psychology  
B.A., University of Wisconsin, Madison; M.S., Ph.D., University of Connecticut.
- MacDonald, Susan Peck (1999)** ..... Assistant Professor  
English  
B.A., University of Michigan, Ann Arbor; M.A., Ph.D., University of Wisconsin, Madison.
- Macias, Elena (1997)** ..... Assistant Vice President Sponsored Programs  
Administration and Finance
- ..... Professor  
Social Work  
B.A., Sacramento State College; M.S.W., Ohio State University; Ph.D., Brandeis University.
- Madding, Caroly Conway (1989)** ..... Associate Professor  
Communication Disorders  
B.S., Ohio State University; M.A., California State University, Fullerton; Ph.D., Claremont Graduate University.
- Magaddino, Joseph P. (1973)** ..... Professor  
Economics  
B.A., Canisius College, New York; M.A., University of Connecticut; Ph.D., Virginia Polytechnic Institute and State University.
- Mahapatra, Sitikantha (1983)** ..... Professor  
Accountancy  
B.S., Regional Engineering College, India; M.B.A., Indian Institute of Management, India; Ph.D., Case Western Reserve University.
- Mahoney, Michael K. (1980)** ..... Interim Dean  
College of Engineering
- ..... Professor  
Computer Engineering and Computer Science  
B.A., M.A., Ph.D., University of California, Santa Barbara.
- Mai, Larry L. (2000)** ..... Assistant Professor  
Anthropology  
B.A., M.A., Ph.D., University of California, Los Angeles.
- Maltz, Carl (1986)** ..... Professor  
Computer Engineering and Computer Science  
B.S., California Institute of Technology; M.S., Ph.D., University of California, Los Angeles.
- Malotte, C. Kevin (1999)** ..... Associate Professor  
Health Science  
B.A., Chapman College; M.A., Claremont Graduate School; Dr.P.H., University of California, Los Angeles.
- Manarino, Peter (1984)** ..... Head Coach  
Women's Softball.  
B.S., California State University, Fullerton.
- Mandel, Whitney S. (1989)** ..... Professor  
Journalism  
B.A., M.A., and Ph.D., University of Tennessee, Knoxville.
- Mangini, Shirley (1987)** ..... Director  
Center for Humanities
- ..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., University of New Mexico, Albuquerque; M.A., University of Texas, Austin; Ph.D., University of New Mexico, Albuquerque.
- Mangir, Tulin E. (1994)** ..... Professor  
Engineering Technology  
M.S., University of Southern California; B.S., Ph.D., University of California, Los Angeles.
- Manley, Steven L. (1988)** ..... Professor  
Biological Sciences  
B.A., California State University, Northridge; Ph.D., University of California, Los Angeles.
- Maples, Tracy B. (1992)** ..... Professor  
Computer Engineering and Computer Science  
B.S. and M.S., University of California, Riverside; Ph.D., University of California, Irvine.
- Margulies, William G. (1969)** ..... Professor  
Mathematics  
B.S., State University College, Long Island; M.A., Ph.D., Brandeis University.
- Maricich, Tom J. (1975)** ..... Professor  
Chemistry and Biochemistry  
B.S., University of Washington; M.S., Ph.D., Yale University.
- Marikos, Rhonda (1976)** ..... Director  
Isabel Patterson Child Development Center  
B.A., California State University, Long Beach.
- Marrs, Richard F. (1968)** ..... Associate Professor  
Teacher Education  
B.A., M.A., California State University, Long Beach; Ed.D., University of California, Los Angeles. Emeritus, 2000.
- Marsh, Anthony (1989)** ..... Professor  
Art  
B.F.A., California State University, Long Beach; M.F.A., Alfred University.
- Marshall, Suzanne G. (1999)** ..... Associate Professor  
Family and Consumer Sciences  
B.S.H.E., University of Georgia; M.S., Oklahoma State University; M.A., Ph.D., University of California, Los Angeles.
- Marsot, Alain-Gerard (1968)** ..... Professor  
Political Science  
Licence en Droit, Certificat d'Aptitude a la Profession d'Avocat; Diplome d'Etudes Superieures de Science Politique; Doctorat d'Etat en Science Politique, Faculty of Law and Economics, Paris, France; B Litt., St. Anthony's College, Oxford, England. Emeritus, 1998.

- Martin, Claire E. (1988)** ..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., M.A., University of Massachusetts, Amherst; Ph.D., Yale University.
- Martin, Ingrid M. (2001)** ..... Associate Professor  
Marketing  
B.S., University of New Mexico; M.S., Michigan State University; Ph.D., University of Southern California.
- Martinez, Daniel G. (1964)** ..... Professor  
Mathematics  
B.A., M.A., University of California, Riverside; Ph.D., University of California, Los Angeles. Emeritus, 2001.
- Martinez, Larry F. (1989)** ..... Associate Professor  
Political Science  
B.A., M.A., Ph.D., University of California, Santa Barbara.
- Marykwas, Donna L. (2001)** ..... Assistant Professor  
Biological Sciences  
B.A., University of Pennsylvania; Ph.D., Cornell University.
- Mason, Andrew Z. (1989)** ..... Professor  
Biological Sciences  
B.S., Ph.D., University of Wales.
- Matkin, Ralph E. (1987)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., Kansas Wesleyan University; M.Ed., University of Missouri, Columbia; Ph.D., Southern Illinois University, Carbondale.
- Matthews, Justus F. (1971)** ..... Professor  
Music  
B.A., M.A., California State University, Northridge; Ph.D., State University of New York, Buffalo.
- Maxfield, Lisa M. (1995)** ..... Associate Professor  
Psychology  
B.S., M.S., Ph.D., Syracuse University.
- Maxson, Robert C. (1994)** ..... President  
California State University, Long Beach
- ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., University of Arkansas at Monticello; M.A., Florida Atlantic University; Ed.D., Mississippi State University.
- Maxson, Sylvia P. (1995)** ..... Associate Professor  
Teacher Education/Liberal Studies  
B.S., University of Houston; M.A., Ed.D., University of Nevada, Las Vegas.
- May, Charles E. (1967)** ..... Professor  
English  
A.B., Morehead State College; M.A., Ph.D., Ohio University. Emeritus, 2001.
- Mayfield, Tracey L. (1999)** ..... Senior Assistant Librarian  
University Library and Learning Resources  
B.A., M.L.I.S., University of California, Los Angeles.
- McAbee, Douglas (1997)** ..... Associate Professor  
Chemistry and Biochemistry  
B.A., Point Loma College; Ph.D., University of Texas Southwestern Medical School.
- McCauley, Joan E. (1969)** ..... Librarian  
B.A., University of California, Los Angeles; M.S., in L.S., University of Southern California.
- McCroskey, Lynda L. (1999)** ..... Assistant Professor  
Information Systems  
B.A., West Virginia University; M.A., Arizona State University; Ph.D., University of Oklahoma.
- McDonough, Patrick (1997)** ..... Professor  
Theatre Arts  
B.A., Moorhead State University; M.A., University of Kansas; Ph.D., University of Minnesota.
- McKay, Valerie C. (1988)** ..... Professor  
Communication Studies  
B.A., Humboldt State University; M.A., West Virginia University; Ph.D., University of Oklahoma.
- McKienzie, Kathleen (1999)** ..... Assistant Coach  
Women's Volleyball  
B.A., California State University, Long Beach.
- McLain, Susan (1993)** ..... Associate Professor  
Dance  
B.A., Herbert H. Lehman College, New York; M.F.A., University of Utah.
- McMahon, Maureen M. (2000)** ..... Associate Professor  
Science Education  
B.S., University of Maryland, College Park; M.A., Villanova University; Ph.D., University of Maryland, College Park.
- McPherson, Mary Beth (2001)** ..... Assistant Professor  
Communication Studies  
B.A., M.A., California State University, Long Beach; Ph.D., Ohio University.
- Medoff, Marshall H. (1979)** ..... Professor  
Economics  
B.S., Illinois Institute of Technology; M.S., University of Illinois, Champaign; Ph.D., University of California, Berkeley.
- Medora, Nilufer P. (1989)** ..... Professor  
Family and Consumer Sciences  
B.A., St. Xavier's College, India; M.S., Maharaja Sayajirao University, India; M.S., University of Arkansas; Ph.D., University of Nebraska.
- Mena, Robert A. (1988)** ..... Professor  
Mathematics  
B.S., M.S., Ph.D., University of Houston.
- Mendez, Peter J. (1976)** ..... Associate Professor  
Art  
B.A., M.A., California State University, Long Beach; M.F.A., University of California, Los Angeles. Emeritus, 2001.
- Merryfield, Kent G. (1988)** ..... Professor  
Mathematics  
B.A., Rice University; M.S., Ph.D., University of Chicago.
- Merryfield, Margaret L. (1984)** ..... Professor  
Chemistry and Biochemistry  
B.A., Rice University, Texas; Ph.D., University of Wisconsin, Madison.
- Mezyk, Stephen P. (2001)** ..... Assistant Professor  
Chemistry and Biochemistry  
B.Sc., Ph.D., University of Melbourne.
- Mijares, Ernest R. (1965)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., New York University; M.S.M.E., M.S.A.E., University of Southern California.
- Miller, Alan C. (1974)** ..... Professor  
Biological Sciences  
B.A., Stanford University; M.A., Ph.D., University of Oregon.
- Miller, Julia I. (1988)** ..... Professor  
Art  
B.A., Barnard College; M.A., University of Virginia; Ph.D., Columbia University.
- Miller, Kathleen A. (2001)** ..... Assistant Professor  
Mathematics  
B.A., Boston College; M.Ed., Towson State University; Ph.D., University of Maryland, College Park.
- Min, Sungwook (2001)** ..... Assistant Professor  
Marketing  
B.B.A., Korea University; M.B.A., Korea University; Ph.D., Purdue University.
- Minter, Eugene (1979)** ..... Director  
University Student Union  
B.A., California State University, Long Beach; M.A., National University, San Diego.
- Mitchell, Deborah, H. (1994)** ..... Professor  
Music  
B.M. Ed., M.M. Ed., Hartt College of Music; D.M.A., University of Southern California.
- Mittleman, Leslie B. (1957)** ..... Professor  
English  
B.A., M.A., University of California, Los Angeles; Ph.D., University of Chicago. Emeritus, 1998.
- Miyazaki, Akira (1969)** ..... Associate Professor  
Asian and Asian American Studies  
B.A., Knox College; M.A., University of Hawaii.
- Mizelle, D. Brett (2001)** ..... Assistant Professor  
History  
B.A., Georgetown University; M.A., Ph.D., University of Minnesota.
- Mohamed-Nour, Hassan I. (1988)** ..... Professor  
Electrical Engineering  
B.S., M.S., Assiut University, Egypt; Ph.D., University of Southern California.
- Mohamed, Olfat S. (1998)** ..... Associate Professor  
Physical Therapy  
B.S., M.S., Cairo University; Ph.D., University of Southern California.
- Moloi, Alosi J.M. (1994)** ..... Professor  
Black Studies/English  
B.A., M.A., University of South Africa; Ph.D., University of North, Republic of South Africa.
- Monaco, Kristen (2001)** ..... Associate Professor  
Economics  
B.A., Michigan State University; M.A., Ph.D., University of Wisconsin, Milwaukee.

- Monahan, Genevieve L. (1998)** ..... Assistant Professor  
Nursing  
B.S.N., Boston University; M.S.N., University of Arizona; Ph.D., University of California, Los Angeles.
- Monat, Jonathan S. (1978)** ..... Professor  
Management/Human Resources Management  
B.S., University of California, Los Angeles; M.S., San Diego State University; Ph.D., University of Minnesota, Minneapolis.
- Monge, Alvaro E. (1999)** ..... Associate Professor  
Computer Engineering and Computer Science  
B.S., University of California, Riverside; M.S., Ph.D., University of California, San Diego.
- Moore, Walter H., Jr. (1979)** ..... Professor  
Communicative Disorders  
A.S., Mitchell College; B.A., M.S., University of South Florida; Ph.D., Kent State University.
- Moore, William S. (2000)** ..... Assistant Professor  
Graduate Center for Public Policy and Administration  
B.A., Washington & Jefferson College; M.P.A., The University of Pittsburgh; M.A., Ph.D., Syracuse University.
- Moore-Steward, Thelma R. (1996)** ..... Associate Professor  
Educational Psychology, Administration and Counseling  
B.A., California State University, Dominguez Hills; M.S., Ed.D., University of Southern California.
- Moreno-Alcaraz, Rosa O. (1998)** ..... Psychologist  
Counseling and Psychological Services  
B.A., Loyola Marymount University; M.A., Ph.D., California School of Professional Psychology.
- Morgan, Wayne (1994)** ..... Head Coach  
Men's Basketball  
B. S. St. Laurence University; M.S. Ithica College.
- Morgin, Kristen L. (2000)** ..... Assistant Professor  
Art  
B.A., California State University, Hayward; M.F.A., Alfred University, Alfred, New York.
- Morley, Harvey N. (1989)** ..... Professor  
Criminal Justice  
B.S., California State University, Northridge; M.S., Austin Peay State University; M.P.H., California State University, Northridge; Ed.D., University of Alabama.
- Morris, Raymond J. (1969)** ..... Director  
Physical Therapy Assessment Center  
..... Professor  
Physical Therapy  
B.A., M.A., California State University, Long Beach; Certificate in Physical Therapy, University of Southern California; Registered Physical Therapist, California.
- Morton, W. Edward (2001)** ..... Director  
Career Development Center  
B.A., Westmont College; M.A., California State University, Fullerton; Ed.D.; University of Mississippi.
- Moshirvaziri, Khosrow (1990)** ..... Professor  
Information Systems  
B.S., Arya Mehr Technical University, Iran; M.S., Stanford University; Ph.D., University of California, Los Angeles.
- Müller, Markus E. (2001)** ..... Assistant Professor  
Romance, German, Russian Languages and Literatures  
B.A., University of Tübingen; M.A., University of Kansas; Ph.D., University of California, Los Angeles.
- Muller-Stach, Dieter K. (1968)** ..... Professor  
Art  
Diploma, Academy of Fine Arts, Munich, Germany. Emeritus, 1998.
- Mulligan, William A. (1986)** ..... Professor  
Journalism  
B.S., Brescia College; M.S., T.S.C.T., Murray State University; Ph.D., University of Missouri, Columbia.
- Mullins, Ruth G. (1973)** ..... Professor  
Nursing  
B.S.N., California State University, Long Beach; M.S.N., University of California, Los Angeles; Ph.D., Columbia Pacific University.
- Mulvaney, Susan (1997)** ..... Director  
Testing and Evaluation Services  
B.A., Radford College; M.A., University of Southern California; Ph.D., University of California, Los Angeles.
- Muraoka, Dennis D. (1982)** ..... Professor  
Economics  
B.A., M.A., Ph.D., University of California, Santa Barbara.
- Murray, William L. (2001)** ..... Assistant Professor  
Mathematics  
B.S., Georgetown University; Ph.D., University of California, Berkeley.
- Nagel, Glenn M. (1996)** ..... Dean  
College of Natural Sciences and Mathematics  
..... Director  
Molecular Ecology Institute  
..... Professor  
Chemistry and Biochemistry  
B.A., Knox College; Ph.D., University of Illinois Medical Center.
- Nagel, Greta K. (1999)** ..... Associate Professor  
Teacher Education  
A.B., Knox College; M.S., California State University, Fullerton; Ph.D., The Claremont Graduate School.
- Naimpally, Ashok V. (1978)** ..... Professor  
Chemical Engineering  
B.S., Indiana Institute of Technology; M.S., Ph.D., Syracuse University.
- Nakai, Karen Kawai (1999)** ..... Associate Professor  
Educational Psychology, Administration and Counseling  
B.A., M.S., University of California, Los Angeles; Ed.D., Pepperdine University.
- Nakayama, Kensaku (1987)** ..... Associate Professor  
Chemistry and Biochemistry  
B.S., University of California, Los Angeles; Ph.D., University of California, Los Angeles.
- Naples, Caesar J. (1992)** ..... Trustee Professor  
Finance, Real Estate and Law  
A.B., Yale University; J.D., State University of New York, at Buffalo.
- Nasr, Elhami B. (2002)** ..... Associate Professor  
Engineering Technology  
B.S., M.S., California State University, Long Beach.
- Neal, James A. (1979)** ..... Assessment Project Leader  
Career Development Center  
B.A., M.A., California State University Long Beach.
- Nelms, Barbara J. (1974)** ..... Professor  
Nursing  
B.S.N., University of Iowa; M.N., Ph.D., University of California, Los Angeles.  
B.A., Rutgers University; M.S., Ph.D., University of Miami.
- Newberger, Florence A. (2001)** ..... Assistant Professor  
Mathematics  
B.A., B.S., University of California, Santa Cruz; Ph.D., University of Maryland College Park.
- Nguyen, Loc T. (1989)** ..... Associate Professor  
Accountancy  
B.A., Saigon University; B.A., National Institute of Public Administration; LL.M., M.B.A., San Diego State University; M.B.A., Fairleigh Dickinson.
- Nguyen, Richard P. (1984)** ..... Professor  
Civil Engineering  
B.S., National Institute of Technology, Taiwan; M.S., Ph.D., University of Missouri-Rolla.
- Nguyen, Thang N. (1999)** ..... Assistant Professor  
Information Systems  
B.S., Lavel University, Quebec; M.S., Georgia Institute of Technology; Ph.D., George Mason University.
- Nguyen, Thinh V. (1986)** ..... Professor  
Computer Engineering and Computer Science  
B.S., Ph.D., University of California, Irvine; M.S., University of Southern California.
- Nielsen, Douglas R. (2000)** ..... Associate Professor  
Dance  
B.A., Augsburg College, Minneapolis, Minnesota.
- Nieto, Consuelo (1975)** ..... Professor  
Teacher Education  
B.A., Immaculate Heart College; M.A., Ph.D., Claremont Graduate School.
- Nishio, Alan T. (1972)** ..... Associate Vice President  
Student Services  
B.A., University of California, Berkeley; M.P.A., University of Southern California.
- Noble, Charles (1987)** ..... Professor  
Political Science  
B.A., Cornell University; M.A., University of California, Los Angeles; Ph.D., University of California, Berkeley.
- Noble, Vicente N. (1974)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., M.A., California State University, Los Angeles; Ph.D., Claremont Graduate School.
- Noguera, Norma A. (2001)** ..... Associate Professor  
Mathematics  
B.A., Universidad Nacional, Heredia; M.Ed., Ph.D., Ohio University.

- Nolan, Lawrence P. (1997)** ..... Assistant Professor  
Philosophy  
B.A., M.A., Ph.D., University of California, Irvine.
- Nummedal, Susan G. (1972)** ..... Assessment Coordinator  
..... Professor  
Psychology  
B.A., University of California, Berkeley; Ph.D., University of Minnesota.
- O'Connor, Daniel (1999)** ..... Assistant Professor  
Political Science/Liberal Studies  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles.
- O'Donnell, Julie A. (1994)** ..... Professor  
Social Work  
B.A., University of Wyoming; M.A., Eastern Washington College; Ph.D., University of Washington.
- O'Hara, Linda A. (2001)** ..... Assistant Professor  
Management/Human Resources Management  
B.S., Villanova University; M.B.A., Harvard University; M.S., Yale University; M. Phil., Yale University; Ph.D., Yale University.
- Ohtmer, Ortwin A. (1986)** ..... Professor  
Mechanical and Aerospace Engineering  
Dr.-Ing., Technical University of Braunschweig, West Germany.
- Oishi, Eve B. (1997)** ..... Assistant Professor  
Women's Studies  
B.A., Swarthmore College; M.A., Ph.D., Rutgers University
- O'Lawrence, Henry (2001)** ..... Assistant Professor  
Occupational Studies  
B.S., Winston-Salem State University; M.S., University of North Carolina at Greensboro; Ph.D., Pennsylvania State University.
- Olin, Stanley (1976)** ..... Director  
Housing and Residential Life  
B.A., Washington State University; M.A., Ohio University, Athens.
- Oliver, John (1988)** ..... Professor  
Social Work  
B.A., California State University, Los Angeles; M.S.W., University of California, Los Angeles; Ph.D., Brandeis University.
- Oliver, Nancy Rainville (1988)** ..... Associate Professor  
Nursing  
B.S.N., Alverno College; M.S., University of Wisconsin, Milwaukee; Ph.D., New York University.
- Onofrey, Karen A. (2000)** ..... Assistant Professor  
Teacher Education  
B.S., Westfield State College, Westfield, Massachusetts; M.Ed., American International College, Springfield, Massachusetts; Ph.D., University of Arizona, Tucson.
- Osborne, Cynthia A. (1975)** ..... Professor  
Art  
B.A., Connecticut College; M.F.A., University of Wisconsin.
- Ostrowski, John W. (1988)** ..... Professor  
Public Policy and Administration  
B.A., Youngstown State University; M.A., Ph.D., Kent State University.
- Ottolia, Dorothy J. (2001)** ..... Assistant Professor  
Design  
B.F.A., California State University, Long Beach; M.Arch., California Polytechnic State University, Pomona.
- Outwater, Richard A. (1969)** ..... Acting Associate Vice President  
Academic Affairs, Academic Information Technology  
..... Professor  
Geography  
B.A., California State University, Chico; M.A., University of Oklahoma; Ph.D., University of Minnesota.
- Panagiotacopoulos, Nick D. (1980)** ..... Professor  
Electrical Engineering  
B.S., University of Athens, Greece; M.S., California Institute of Technology; Ph.D., Free University of Brussels, Belgium.
- Para, Donald J. (1988)** ..... Dean  
College of the Arts  
..... Professor  
Music  
B.M., M.M., Western Michigan University; Ph.D., Michigan State University.
- Parentela, Emelinda M. (1996)** ..... Assistant Professor  
Civil Engineering  
B.S., Luzonian University Foundation, Philippines; M.S., Ph.D., University of Nevada, Las Vegas.
- Parker, Douglas A. (1968)** ..... Professor  
Sociology  
B.A., San Francisco State University; M.A., Ph.D., University of California, Berkeley.
- Pastrana, David E. (1973)** ..... Professor  
Finance, Real Estate and Law  
B.A., California State University, Los Angeles; J.D., University of California Berkeley.
- Pattnaik, Jyotsna (2000)** ..... Associate Professor  
Teacher Education  
M.Ed., Dr. Parsuram Institute of Advanced Studies in Education, Orissa, India; M. Phil., Jamia Millia Islamia University, New Delhi, India; Ph.D., Indiana University of Pennsylvania.
- Pavri, Shireen C. (1999)** ..... Assistant Professor  
Educational Psychology, Administration and Counseling  
B.A., St. Xavier's College, Bombay, India; B.Ed., M.Ed., SNDT Women's University, Bombay, India; M.S., Ed.S., Miami University, Ohio; Ph.D., University of Illinois at Urbana-Champaign.
- Pasztor, Eileen Mayers (1999)** ..... Assistant Professor  
Social Work  
B.A., Stanford University; M.S.W., The Ohio State University; D.S.W., The Catholic University of America, Washington, D.C.
- Peck, David R. (1967)** ..... Professor  
English  
B.A., Colgate University; Ph.D., Temple University. Emeritus, 1999.
- Pelters, Wilm (1970)** ..... Professor  
Romance, German, Russian Languages and Literatures  
M.A., Ph.D., Syracuse University. Emeritus, 2000.
- Perez y Perez, Leonardo (1980)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., M.S., Ph.D., University of California, Berkeley.
- Person, Dawn R. (1997)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.S., M.Ed., Slippery Rock University; Ed.D., Teachers College, Columbia University.
- Petray, Clayre K. (1987)** ..... Professor  
Kinesiology and Physical Education  
B.A., Arizona State University, Tempe; M.A., Arizona State University, Tempe; Ph.D., Arizona State University, Tempe.
- Phelps, Charles V. (1999)** ..... Senior Assistant Librarian  
University Library and Learning Resources  
B.A., University of California, San Diego; M.S., University of California, Irvine; M.L.I.S., University of California, Berkeley.
- Piane, Gina (2001)** ..... Associate Professor  
Health Science  
B.A., M.P.H., D.P.H., University of Illinois at Chicago.
- Piar, Carlos (1990)** ..... Professor  
Religious Studies  
B.S., Biola College; M.Div., Th.M., Talbot Theological Seminary; Ph.D., University of Southern California.
- Pickett, Galen T. (1999)** ..... Assistant Professor  
Physics and Astronomy  
B.S., Massachusetts Institute of Technology; Ph.D., University of Chicago.
- Pickard, Kenneth L. (1971)** ..... Associate Professor  
Information Systems  
B.S., Indiana State University; M.A., Ball State University; Ed.D., Northern Illinois University.
- Pinkney-Pastrana, Jill (2001)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.A., M.A., M.Ed. Ph.D., University of California, Los Angeles.
- Plax, Timothy G. (1987)** ..... Professor  
Communication Studies  
B.A., California State University, Long Beach; M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Plechnik, Joseph M. (1985)** ..... Professor  
Civil Engineering  
B.E., Youngstown State University; M.S., Ph.D., Ohio State University.
- Po, Henry N. (1968)** ..... Professor  
Chemistry and Biochemistry  
B.S., Mapua Institute of Technology, Manila, Philippines; M.S., University of Wisconsin; Ph.D., University of California, Davis.
- Polakoff, Keith I. (1969)** ..... Associate Vice President  
Academic Affairs, Instructional Programs  
..... Professor  
History  
B.A., Clark University; M.A., Ph.D., Northwestern University.
- Pomeroy, Charles W. (1970)** ..... Associate Professor  
English  
B.A., Occidental College; A.M., Ph.D., University of Southern California. Emeritus, 2000.

- Potter, Gregory R. (2000)** ..... Assistant Professor  
Science Education  
A.B., M.S., Ph.D., University of California, Davis.
- Potts, Joseph P. (1996)** ..... Associate Professor  
English  
B.A., Loras College; M.A., Ph.D., The University of Iowa.
- Potts, Marilyn K. (1989)** ..... Professor  
Social Work  
B.S., Purdue University; M.S.W., Indiana University, Indianapolis; Ph.D., Purdue University.
- Pounds, Micheal C. (1989)** ..... Professor  
Film and Electronic Arts  
B.A., University of Maryland, Baltimore; M.A., Ph.D., New York University.
- Powell, David C. (2001)** ..... Assistant Professor  
Public Policy and Administration  
B.A., Baldwin-Wallace College; M.A., Ohio University; Ph.D., Miami University.
- Powers, Kristin M. (2000)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.S., University of Wisconsin, Madison; M.A., Ph.D., University of Minnesota, Minneapolis.
- Preston, Louis A. (1970)** ..... Counselor  
Counseling and Psychological Services  
B. Mus. Ed., M. Ed., Texas Southern University.
- Prince, John H. (1974)** ..... Professor  
Music  
B.M., University of Redlands; M.A., California State University, Los Angeles.
- Pusavat, Yoko S. (1972)** ..... Professor  
Asian and Asian American Studies  
B.A., Osaka Women's University, Japan; M.A., California State University, Fresno.
- Quam-Wickham, Nancy L. (1994)** ..... Associate Professor  
History  
B.A., San Francisco State University; M.A., Ph.D., University of California, Berkeley.
- Quest, Charles E. (1966)** ..... Professor  
Philosophy  
B.A., Duke University; Ph.D., Claremont Graduate School. Emeritus, 2001.
- Radisich, Aleksander B. (1999)** ..... Assistant Professor  
Economics  
B.A., Claremont McKenna College; M.A., Ph.D., Princeton University.
- Rahai, Hamid R. (1989)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., M.S., California State University, Long Beach; Ph.D., University of California, Irvine.
- Rahh, Amen (1970)** ..... Associate Professor  
Black Studies  
B.A., California State University, Long Beach; M.A., Azusa Pacific College.
- Rainof, Alexander (1998)** ..... Assistant Professor  
Romance, German, Russian Languages and Literatures  
B.A., Boston University; M.A., Ph.D., University of Michigan-Ann Arbor
- Rajpoot, Subhash (1990)** ..... Professor  
Physics and Astronomy  
B.Sc., Ph.D., Imperial College, London.
- Ramirez, Genevieve M. (1974)** ..... Director  
Learning Assistance Center  
..... Professor  
Chicano and Latino Studies  
B.A., M.A., Rosary College, Illinois; Ph.D., University of California, Los Angeles.
- Ramirez, J. David (1993)** ..... Director  
Center for Language – Minority Education and Research  
..... Professor  
Educational Psychology, Administration and Counseling/Teacher Education  
B.A., St. Mary's College, California; M.S., California State University, Hayward;  
Ph.D., Stanford University.
- Ramirez-Herrera, Maria-Teresa (1999)** ..... Assistant Professor  
Geological Sciences  
B.A., State University of Moscow, Russia; M.S., Universidad Nacional Autonoma de Mexico; Ph.D., The University of Edinburgh, Scotland.
- Ranney, Martha J. (2001)** ..... Assistant Professor  
Social Work  
B.S., M.S.W., California State University, Long Beach; Ph.D., University of Southern California.
- Rasmussen, Karen (1989)** ..... Professor  
Communication Studies  
B.A., Dakota Wesleyan; M.A., University of Wyoming; Ph.D., University of Colorado, Boulder.
- Reddy, Harnatha C. (1987)** ..... Professor  
Electrical Engineering  
B.E., Sri Venkateswara University, India; M.S., University of Baroda, India; Ph.D., Osmania University, India.
- Reddy, Sabine B. (2001)** ..... Assistant Professor  
Management/Human Resources Management  
M.A., Western Michigan University; Ph.D., University of Illinois at Urbana-Champaign.
- Redouane, Najib (1999)** ..... Assistant Professor  
Romance, German, and Russian Languages and Literatures  
B.A., FACLIP, Paris, France; M.A., Universite Laval, Quebec, Canada; M.A., Ph.D., University of Toronto, Canada.
- Reese, Leslie (2001)** ..... Associate Professor  
Teacher Education  
B.A., Stanford University; M.A., California State University, Long Beach; Ph.D., University of California, Los Angeles.
- Reiboldt, Wendy L. (1992)** ..... Associate Professor  
Family and Consumer Sciences  
B.S., Miami University, Ohio; M.S. and Ph.D., Ohio State University.
- Reichard, Gary W. (1994)** ..... Associate Vice President  
Academic Affairs, Academic Personnel, Planning and Assessment  
..... Professor  
History  
B.A., College of Wooster; M.A., Vanderbilt University; Ph.D., Cornell University.
- Reis, Raul F. (2000)** ..... Assistant Professor  
Journalism  
B.A., Universidad Federal do Para, Belem, Brazil; M.S., Kansas State University, Manhattan, Kansas; Ph.D., University of Oregon, Eugene.
- Rendon, Laura I. (2000)** ..... Veffie Milstead Jones Endowed Chair  
College of Education  
..... Professor  
Teacher Education and Educational Psychology, Administration and Counseling  
B.A. University of Houston, TX; M.A., Texas A & I University, Kingsville, TX; Ph.D., University of Michigan, Ann Arbor.
- Resurreccion, Richard L. (1978)** ..... Professor  
Occupational Studies  
B.A., M.A., California State University, Los Angeles; Ed.D., University of Maryland. Emeritus, 1999.
- Reynaud, Peter (2001)** ..... Head Coach  
Women's Soccer  
B.A., California State University, Haywood.
- Rezaei, Ali (2002)** ..... Assistant Professor  
Educational Psychology, Administration, and Counseling  
B.S., M.S., Shiraz University, Iran; Ph.D., University of Calgary, Canada.
- Rhee, Thomas A. (1988)** ..... Professor  
Finance, Real Estate and Law  
B.A., Hankuk University of Foreign Seoul, Korea; M.A., Kent State University; M.A., University of Chicago; Ph.D., Wayne State University.
- Rhoads, Thomas J. (1976)** ..... Professor  
Finance, Real Estate and Law  
B.S., M.B.A., University of Southern California; J.D., Western State University.
- Rhodes, Fen (1967)** ..... Professor  
Psychology  
B.S., Georgia Institute of Technology; M.S., George Washington University; Ph.D., Ohio State University. Emeritus, 2000.
- Rice-Quint, Susan (1987)** ..... Professor  
Social Work  
B.A., State University of New York, Albany; M.S.W., Hunter College; D.S.W., University of California, Los Angeles.
- Rich, Marc D. (2001)** ..... Assistant Professor  
Communication Studies  
B.A., M.A., California State University, Northridge; Ph.D., Southern Illinois University at Carbondale.
- Rintoul, Richard R. (2001)** ..... Assistant Professor  
Music  
B.F.A., California Institute of the Arts; M.M., University of Southern California.
- Riosellis, Britt K. (1994)** ..... Associate Professor  
Health Science  
B.A., M.S., Ph.D., University of Oregon.
- Riposa, Gerry (1989)** ..... Professor  
Political Science  
B.A., Old Dominion University; Ph.D., University of California, Riverside.
- Ritz, William C. (1977)** ..... Professor  
Science Education  
B.A., Ed.M., University of Buffalo; Ed.D., State University of New York at Buffalo. Emeritus, 2000.

- Rivera-Chang, Jose L. (2001) ..... Assistant Professor  
Design  
B.F.A., Catholic University; M.A., The Ohio State University.
- Roberts, Edwin A. (1991) ..... Associate Professor  
Political Science  
B.A., University of Redlands; M.A., Ph.D., University of California, Riverside.
- Roberts, Pamela K. (1989) ..... Professor  
Human Development  
B.A., University of California, San Diego; M.A., Notre Dame; M.A., Western Michigan; Ph.D., University of Wisconsin.
- Roberts, Sharon L. (1974) ..... Professor  
Nursing  
B.S., M.S., University of California, San Francisco; Ph.D., University of Southern California.
- Robinson, Douglas W. (1989) ..... Vice President  
Student Services  
B.S., M.S., Iowa State University, Ames.
- Robinson, James C. (1972) ..... Associate Professor  
Black Studies  
B.A., M.A., California State University, Long Beach; M.A., Ph.D., Stanford University.
- Robinson, Thomas L. (1989) ..... Professor  
Engineering Technology  
B.S., San Jose State University; M.B.A., Pepperdine; Ph.D., Nova Southeastern University.
- Rodrigue, Christine M. (1999) ..... Associate Professor  
Geography  
B.A., M.A., California State University, Northridge; Ph.D., Clark University, Worcester, Massachusetts.
- Rodriguez, Jose I. (1995) ..... Associate Professor  
Communication Studies  
B.A., M.A., California State University, Long Beach; Ph.D., Michigan State University.
- Rodriguez, Victor M. (2000) ..... Associate Professor  
Chicano and Latino Studies  
B.A., University of Puerto Rico, Rio Piedras, Puerto Rico; M.A., Ph.D., University of California, Irvine.
- Rojas, Maythee G. (2001) ..... Assistant Professor  
Women's Studies  
B.A., Pomona College; Ph.D., Arizona State University.
- Rooney, Robert F. (1970) ..... Professor  
Economics  
B.A., M.A., University of California, Los Angeles; Ph.D., Stanford University. Emeritus 1998.
- Ross, Stephen B. (1968) ..... Professor  
Linguistics  
B.A., George Fox College, Newberg, Oregon; M.A., Ph.D., University of Southern California. Emeritus, 1999.
- Roze, Patricia D. .... Professor  
Psychology/Women's Studies  
B.A., California State University, Long Beach; M.A., Ph.D., University of California, Davis.
- Rozenek, Ralph (1988) ..... Professor  
Kinesiology and Physical Education  
B.S., M.S., University of California, Los Angeles; Ph.D., Auburn University.
- Rubio, Olga G. (1997) ..... Professor  
Teacher Education  
B.S., Texas A & I University; M.S., University of Texas at San Antonio; Ph.D., University of Pennsylvania.
- Rueda, Alfonso (1989) ..... Professor  
Electrical Engineering  
B.S., M.S., Massachusetts Institute of Technology; M.A., Ph.D., Cornell University.
- Runyon, Lowell R. (1968) ..... Professor  
Finance, Real Estate and Law  
B.S., University of Colorado; M.B.A., D.B.A., University of Southern California.
- Rush, George E. (1973) ..... Professor  
Criminal Justice  
B.S., M.S., California State University, Long Beach; Ph.D., Claremont Graduate School.
- Russo, Albert C. (1988) ..... Professor  
Physical Therapy  
B.S., M.S., Ph.D., Louisiana State University, Baton Rouge.
- Ruwedel, Mark A. (2002) ..... Assistant Professor  
Art  
B.F.A., Kutztown University of Pennsylvania; M.F.A., Université Concordia.
- Ruyle, Eugene E. (1976) ..... Professor  
Anthropology  
B.A., University of California, Berkeley; M.A., Yale University; Ph.D., Columbia University.
- Sachdeva, Darshan (1973) ..... Professor  
Finance, Real Estate and Law  
B.A., Panjab University; M.S., Florida State University; Ph.D., University of California.
- Safer, Alan M. (2000) ..... Assistant Professor  
Mathematics  
B.S., Syracuse University; M.S., Ohio State University; M.S., Southern Illinois University; Ph.D., University of Wyoming.
- Saint-Germain, Michelle A. (1995) ..... Director  
Bureau of Governmental Research and Services  
..... Professor  
Public Policy and Administration  
B.A., University of California Berkeley; M.S., M.P.A., California State University, Hayward; Ph.D., University of Southern California.
- Salem, Sema'an I. (1961) ..... Professor  
Physics and Astronomy  
B.Sc., American University, Cairo, Egypt; Ph.D., University of Texas. Emeritus, 1998.
- Saltzman, William R. (2001) ..... Associate Professor  
Educational Psychology, Administration, and Counseling  
M.A., Ph.D., University of Maryland College Park.
- Sample, James C. (1990) ..... Professor  
Geological Sciences  
A.B., Cornell University; Ph.D., University of California, Santa Cruz.
- Samuelson, David N. (1966) ..... Professor  
English  
B.A., Drew University; Ph.D., University of Southern California.
- Sanchez-H., Jose (1988) ..... Professor  
Film and Electronic Arts  
B.A., Universidad Autonoma de Guadalajara, Mexico; M.A., Ph.D., University of Michigan.
- Sandoval, Anna M. (1998) ..... Assistant Professor  
Chicano and Latino Studies  
B.A., University of California, Santa Barbara; M.A., Ph.D., University of California, Santa Cruz.
- Sanfilippo, David (1978) ..... Director  
Disabled Student Services  
B.A., San Jose State University.
- Santhiveeran, Janaki (1999) ..... Assistant Professor  
Social Work  
B.S., M.S.W., Madurai Kamaraj University, Madurai, India; Ph.D., Barry University, Miami, Florida.
- Sauceda, James S. (1988) ..... Director  
Multicultural Center  
..... Professor  
Communication Studies  
B.A., M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Saunders, Cynthia M. (2000) ..... Assistant Professor  
Health Care Administration Program  
B.B.A., University of Cincinnati; M.P.H., University of Rochester, Rochester, New York; Ph.D., Columbia University.
- Sawyer, Olukemi O. (1999) ..... Assistant Professor  
Management/Human Resources Management  
B.B.A., M.B.A., Texas Woman's University; Ph.D., University of North Texas, Denton.
- Schefski, Harold K. (1986) ..... Professor  
Romance, German, Russian Languages and Literatures  
B.A., University of California, Davis; M.A., Ph.D., Stanford University.
- Schmidt, Paul C. (1968) ..... Associate Professor  
Political Science  
B.A., Hamline University, St. Paul, Minnesota; M.A., University of California, Berkeley; Ph.D., University of Washington.
- Schmidt, Ronald J. (1972) ..... Professor  
Political Science  
B.A., M.A., University of California, Berkeley; Ph.D., University of California, Riverside.
- Schmidt, Thomas M. (2001) ..... Assistant Professor  
Philosophy  
B.A., M.A., Philosophische-Theologische Hochschule St. Georgen; Ph.D., Johann Wolfgang Goethe-Universität.
- Schroeder, Jan M. (1999) ..... Assistant Professor  
Kinesiology and Physical Education  
B.A., Chapman College, Orange, California; M.S., California State University, Fullerton; Ph.D., The University of Kansas.

- Schwartz, Donald (1987)** ..... Coordinator  
Secondary Education Single Subject Credential Program College of Liberal Arts  
..... Professor
- History  
B.A., City College of New York; M.A., Indiana University; Ph.D., New York University.
- Schwartz, Howard J. (1969)** ..... Professor  
Mathematics  
B.S., M.S., Ph.D., University of Toledo. Emeritus, 2001.
- Schwartz, Morton D. (1970)** ..... Professor  
Computer Engineering and Computer Science  
B.S., M.S., Ph.D., University of California, Los Angeles.
- Scott, George M. (1990)** ..... Associate Professor  
Anthropology  
B.A., University of Texas, Austin; M.A., Ph.D., University of California, San Diego.
- Segalla, Angelo (2001)** ..... Associate Professor  
Mathematics  
B.A., Kean College of New Jersey; M.A., University of California, Los Angeles; M.A., University of Florida; Ph.D., University of California, Los Angeles
- Senozan, Nail M. (1968)** ..... Professor  
Chemistry and Biochemistry  
B.S., Brown University; Ph.D., University of California, Berkeley.  
B.S. Texas A & M University-Commerce.
- Sexauer, Roxanne D. (1990)** ..... Professor  
Art  
B.F.A., University of Iowa; M.F.A., State University of New York, Purchase.
- Shaak, John J. (1962)** ..... Professor  
Art  
B.S., Pennsylvania State University; M.A., Columbia University. Emeritus, 1998.
- Shahian, Bahram (1983)** ..... Professor  
Electrical Engineering  
B.S., University of Texas, Austin; M.S., Stanford University, Ph.D., University of California, Los Angeles.
- Shaw-Sutton, Carol (1989)** ..... Professor  
Art  
B.A., M.A., San Diego State University.
- Sheley, Nancy S. (2001)** ..... Assistant Professor  
Departments of English and Liberal Studies  
B.A., Murray State University; M.A., University of Illinois at Urbana-Champaign; Ph.D., University of Kansas.
- Shen, Kwang Y. (1961)** ..... Professor  
Physics and Astronomy  
B.S., Ph.D., University of Maryland.
- Shim, Jae K. (1981)** ..... Professor  
Accountancy  
B.S., Seoul National University, Korea; M.B.A., Ph.D., University of California, Berkeley.
- Shin, Fay H. (2001)** ..... Associate Professor  
Teacher Education  
B.A., University of California, Los Angeles; M.S., Ph.D., University of Southern California.
- Shumard, Bill (1994)** ..... Director  
Athletics  
B.A., California State University, Long Beach.
- Shuster, Terrence A. (1989)** ..... Professor  
Biological Sciences  
B.A., California State University, Northridge; Ph.D., University of Minnesota, Twin Cities.
- Sievers, Sharon L. (1968)** ..... Professor  
History  
B.A., Augustana College; M.A., University of Nebraska; Ph.D., Stanford University.
- Silveira, Carlos A. (1997)** ..... Associate Professor  
Art  
B.S., Universidade Federal do Rio Grande do Sul; M.F.A., Northern Illinois University; Ph.D., Texas Tech University.
- Sinclair, William A. (1970)** ..... Associate Dean  
College of Health and Human Services  
..... Professor  
Kinesiology and Physical Education  
B.S., M.A., Ph.D., University of New Mexico.
- Singh, Davinder (1983)** ..... Professor  
Economics  
B.S., Benedict College; M.A., Duke University; Ph.D., University of South Carolina.
- Singhal, Bhupendra K. (1980)** ..... Professor  
Design  
B.A., School of Planning and Architecture, New Delhi, India; M.A., University of Oregon, Eugene.
- Skov, Iva L. (1972)** ..... Professor  
Economics  
B.S., M.A., South Dakota State College; Ph.D., University of Southern California. Emeritus, 1998.
- Slowinski, Krzysztof (2001)** ..... Assistant Professor  
Chemistry and Biochemistry  
M.Sc., Ph.D., Warsaw University, Warsaw, Poland.
- Sluss, Sara B. (1995)** ..... Librarian  
University Library and Learning Resources  
B. of General Studies, Wichita State University; M.L.S., Emporia State University; M.S., Pace University.
- Smith, Craig R. (1988)** ..... Director  
Center for First Amendment Studies  
..... Professor  
Communication Studies  
B.A., University of California, Santa Barbara; M.A., City University of New York, Queens; Ph.D., Pennsylvania State University.
- Smith, Judy E. (1980)** ..... Professor  
Nursing  
B.A., M.A., University of California, Los Angeles; Ph.D., Claremont Graduate School.
- Smith, Nancy Jo (1987)** ..... Professor  
Theatre Arts  
B.A., Midwestern State University; M.A., M.F.A., University of Michigan.
- Smith, Reiland R. (2001)** ..... Assistant Professor  
Black Studies  
B.F.A., University of the Arts; M.A., Ph.D., Temple University.
- Smith, Sara W. (1969)** ..... Professor  
Psychology/Linguistics  
B.A., Wheaton College; Ph.D., University of Illinois.
- Snidecor, John C. (1969)** ..... Professor  
Art  
B.A., M.A., California State University, Long Beach.
- Soe, Christian (1967)** ..... Professor  
Political Science  
B.A., University of British Columbia; Doktor der Philosophie, Free University of Berlin. Emeritus, 2001.
- Sondhi, Lydia E. (1985)** ..... Associate Professor  
Family and Consumer Sciences  
B.S., University of Missouri, Columbia; M.S., Oklahoma State University; Ph.D., University of Missouri, Columbia.
- Soni, Praveen K. (1991)** ..... Professor  
Marketing  
B.T., Indian Institute of Technology; M.B.A., Indian Institute of Management; Ph.D., Pennsylvania State University.
- Sowder, Kimberly (1995)** ..... Assistant Coach  
Women's Softball  
B.A., California State University, Long Beach.
- Span, Sherry A. (2000)** ..... Assistant Professor  
Psychology  
B.A., Tufts University; M.A., California State University, Long Beach; M.A., Ph.D., University of Southern California.
- Spangler, George A. (1971)** ..... Professor  
Philosophy  
B.A., Pennsylvania State University; M.A., University of Nebraska; Ph.D., University of Alberta.
- Splansky, Joel B. (1969)** ..... Professor  
Geography  
B.A., M.A., Ph.D., University of California, Los Angeles. Emeritus, 2001.
- Springer, Arnold R. (1968)** ..... Professor  
History  
B.A., Ph.D., University of California, Los Angeles. Emeritus, 2001.
- Ssensalo, Bede (1977)** ..... Professor  
Black Studies  
B.A., Makerere University, Uganda; M.A., Ph.D., University of California, Los Angeles.
- Stanley, M. Sue (1986)** ..... Associate Professor  
Family and Consumer Sciences  
B.A., California State University, Chico; M.S., University of Arizona; Ph.D., Oklahoma State University.

- Stanton, Roger R. (1966)** ..... Professor  
Management/Human Resources Management  
B.S., San Jose State University; M.B.A., California State University, Long Beach; M.P.A., Harvard University; D.B.A., University of Southern California.
- Stanton, Toni L. (1987)** ..... Professor  
Biological Sciences/Women's Studies  
B.S., M.S., University of Maryland; Ph.D., Thomas Jefferson University, Pennsylvania.
- Stefani, Raymond T. (1971)** ..... Professor  
Electrical Engineering  
B.S., Notre Dame University; M.S., Ph.D., University of Arizona.
- Steigerwald, Diane T. (2001)** ..... Assistant Professor  
Religious Studies  
B.S., University of Montreal; M.A., Ph.D., McGill University.
- Stein, James D. (1989)** ..... Professor  
Mathematics  
B.A., Yale; M.A., Ph.D., University of California, Berkeley.
- Steiner, Barry H. (1968)** ..... Professor  
Political Science  
B.A., University of Southern California; Ph.D., Columbia University.
- Stern, Andrew (1967)** ..... Professor  
Economics  
B.A., M.A., New York University; Ph.D., Columbia University.
- Stevens, A. Jay (1968)** ..... Professor  
Political Science  
B.S., Brigham Young University; M.A., Ph.D., University of Maryland.
- Stevens, Thomas G. (1973)** ..... Psychologist  
Counseling and Psychological Services  
B.A., University of Oklahoma; M.Th., Claremont School of Theg; M.A., California State University, Fullerton; Ph.D., University of Hawaii.
- Stone, Craig (1994)** ..... Associate Professor  
American Indian Studies/Art  
B.A., M.A., M.F.A., California State University, Long Beach.
- Strahl, Ronald J. (1986)** ..... Professor  
English  
B.A., DePauw University; M.A., Ph.D., Indiana University, Bloomington.
- Strauss, Judith P. (2000)** ..... Assistant Professor  
Management/Human Resources Management  
B.A., Ph.D., University of Iowa.
- Symcox, Linda S. (2000)** ..... Assistant Professor  
Teacher Education  
B.A., University of California, Los Angeles; M.A., University of California, Santa Barbara; Ph.D., University of California, Los Angeles.
- Strybel, Thomas Z. (1987)** ..... Professor  
Psychology  
B.A., Wayne State University; M.A., California State University, Los Angeles; Ph.D., University of Arizona, Tucson.
- Sullivan, Gerald L. (1968)** ..... Professor  
English  
B.S., General Beadle State College, Madison, South Dakota; M.A., South Dakota University; Ed.D., Colorado State College. Emeritus, 1998.
- Sun, Dee Bruce (1990)** ..... Professor  
Information Systems  
M.A., The Ohio State University; Ph.D., The University of Texas, Austin.
- Swatek, Cheryl (2001)** ..... Assistant Coach  
Water Polo  
B.S., California State University, Long Beach; M.A., National University.
- Swigart, Leslie K. (1971)** ..... Librarian  
B.A., University of Southern California; M.L.S., University of California, Los Angeles. M.A., California State University, Long Beach.
- Sythe, Andrew (1988)** ..... Head Coach  
Track and Field/Cross Country  
B.A., San Diego State University.
- Talberg, Jonathan (2000)** ..... Assistant Professor  
Music  
B.M., Chapman University, Orange, California; M.M., University of Cincinnati.
- Tan, Peng-Hock Philip (2001)** ..... Assistant Professor  
Social Work  
B.A., College of Wooster; M.A., M.S.W., Ph.D., The Ohio State University.
- Tang, Paul C. L. (1986)** ..... Professor  
Philosophy  
B.S., University of British Columbia; M.A., Simon Fraser University, Canada; M.A., Ph.D., Washington University, Missouri.
- Tarrow, Norma Bernstein (1968)** ..... Professor  
Teacher Education  
B.A., Brooklyn College; M.S., Queens College; Ph.D., New York University. Emeritus, 1997.
- Tartre, Lindsay A. (1985)** ..... Professor  
Mathematics  
B.A., M.A., San Diego State University; Ph.D., University of Wisconsin, Madison.
- Taylor, Linda Tiggs Thomas (1989)** ..... Acting Associate Dean  
College of Engineering  
B.A., M.B.A., J.D., University of California, Los Angeles.
- Taylor, Matthew (2001)** ..... Assistant Professor  
Communication Studies  
B.S., Pacific Lutheran University; M.S., University of Oregon; Ph.D., University of Southern California.
- Teng, Robert K. F. (1989)** ..... Professor  
Electrical Engineering  
B.S., Mississippi State University; M.S., Ph.D., Purdue.
- Thayer, Robert E. (1963)** ..... Professor  
Psychology  
B.A., University of Redlands; Ph.D., University of Rochester.
- Theurer, Joan L. (2001)** ..... Assistant Professor  
Teacher Education  
B.S., Concordia Teachers College; M.A., Concordia University; Ph.D., University of Arizona.
- Thibeault, Marie C. (1989)** ..... Professor  
Art  
B.F.A., Rhode Island School of Design; M.A., San Francisco State University; M.F.A., University of California, Berkeley.
- Thomas, Joy E. (1981)** ..... Librarian  
B.A., California State University, Fullerton; M.S., University of Southern California; M.A., California State University, Long Beach.
- Till, James A. (1999)** ..... Professor  
Communicative Disorders  
B.A., M.S., University of Washington; Ph.D., University of Iowa.
- Timboe, Richard** ..... Assistant Vice President  
Information Technology Services  
B.S., United States Military Academy; M. Eng., Boston University; J.D. Western State University, College of Law.
- Tjioe, Djoy T. (1970)** ..... Associate Professor  
Biological Sciences  
B.S., Sioux Falls College; M.S., Ph.D., University of Wisconsin. Emeritus, 2000.
- Toji, Dean S. (1999)** ..... Assistant Professor  
Asian and Asian American Studies  
B.A., California State University, Los Angeles; M.A., Ph.D., University of California, Los Angeles.
- Toma, Ramses B. (1984)** ..... Professor  
Family and Consumer Sciences  
B.S., M.S., Ain Shams University, Egypt; M.P.H., University of Minnesota, Minneapolis; Ph.D., Louisiana State University, Baton Rouge.
- Toohy, Dale P. (1972)** ..... Professor  
Kinesiology and Physical Education  
B.S., Washington State University; M.Ed., Ed., D., University of Massachusetts. Emeritus, 2001.
- Toossi, Reza (1991)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., University of Technology, Iran; M.S., Ph.D., University of California, Berkeley.
- Torabzadeh, Jalal (1986)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., Abadan Institute of Technology, Iran; M.S., Ph.D., University of Southern California.
- Torby, Bruce J. (1961)** ..... Professor  
Mechanical and Aerospace Engineering  
B.M.E., City College of New York; M.S., University of California, Los Angeles; Ph.D., University of Southern California. Emeritus, 2000.
- Torres, Sam M. (1995)** ..... Professor  
Criminal Justice  
B.A., California State University, Fullerton; M.A., Fordham University; Ph.D., Claremont Graduate School.
- Travis, Tiffini A. (1999)** ..... Senior Assistant Librarian  
University Library and Learning Resources  
B.A., University of California, Berkeley; M.L.I.S., University of California, Los Angeles.

- Tsai, Chan-Feng (1982)** ..... Professor  
Civil Engineering  
B.S., Cheng Kung University, Taiwan; M.S., University of Rhode Island, Kingston; Ph.D., University of California, Berkeley.
- Tsai, Shirley C. (1983)** ..... Professor  
Chemical Engineering  
B.S., National Taiwan University; Ph.D., California Institute of Technology.
- Tsang, Chit-Sang (1988)** ..... Professor  
Electrical Engineering  
B.S., Louisiana State University; M.S., Ohio State University; Ph.D., University of Southern California.
- Tsuchida, John N. (1995)** ..... Director  
Center for Asian Pacific American Studies
- ..... Professor  
Asian and Asian American Studies  
B.A., International Christian University; M.A., Ph.D., University of California, Los Angeles; J.D., William Mitchell College of Law.
- Turban, Efraim (1991)** ..... Professor  
Information Systems  
B.S., Technion, Haifa, Israel; M.B.A., Ph.D., University of California, Berkeley. Emeritus, 1999.
- Turley, Steve (1995)** ..... University Coordinator  
Single Subject Teacher Education
- ..... Associate Professor  
Teacher Education  
B.A., Dartmouth College; M.A., California State University, Fullerton; Ed.D., Columbia University.
- Turner, Tuonisia (1996)** ..... Assistant Coach  
Women's Basketball  
B.A., University of Louisville.
- Tuveson, Richard V. (1983)** ..... Associate Professor  
Family and Consumer Sciences  
B.A., St. Cloud State University; M.S., Ph.D., Iowa State University, Ames.
- Twigg, Renee A. (1997)** ..... Director  
Student Health Services  
B.S., Mount St. Mary's College, Los Angeles; M.S., California State University, Los Angeles.
- Tyner, Judith A. (1970)** ..... Professor  
Geography  
B.A., M.A., Ph.D., University of California, Los Angeles. Emeritus, 2000.
- Uku-Wertimer, Skyne R. (1970)** ..... Professor  
Black Studies  
B.A., Livingstone College; M.A., Ph.D., Howard University.
- Underwood, Dessie L. (1999)** ..... Assistant Professor  
Biological Sciences  
B.A., California State University, Fresno; M.S., Ph.D., University of California, Davis.
- Unt, Hillar, (1960)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., M.S., Ph.D., University of Southern California. Emeritus, 1998.
- Vail, Leland S. (1995)** ..... Associate Professor  
Music  
B.M., M.A., California State University, Long Beach; D.M.A., Claremont Graduate School.
- Valentini, Robert C. (1989)** ..... Professor  
Mathematics  
B.A., Carnegie-Mellon; M.S., Ph.D., Ohio State University.
- Van Camp, Julie (1990)** ..... Professor  
Philosophy  
A.B., Mount Holyoke College; J.D., Georgetown University; Ph.D., Temple University.
- van Elk, Marie A. (2000)** ..... Assistant Professor  
English  
M.A., University of Amsterdam; M.A., Ph.D., Rice University.
- Van Giffen, Katherine (1987)** ..... Associate Professor  
Human Development/Educational Psychology, Administration and Counseling  
B.A., University of Puget Sound, Washington; M.A., Ph.D., University of Denver.
- Velcic, Vlatka (2001)** ..... Assistant Professor  
Comparative Literature and Classics  
B.A., University of Zagreb; M.A., Ph.D., University of California, Los Angeles.
- Viera, John David (1983)** ..... Professor  
Film and Electronic Arts  
B.A., University of Illinois, Urbana; M.A., San Francisco State University; Ph.D., J.D., University of Southern California.
- Viera, Maria L. (1989)** ..... Professor  
Theatre Arts  
B.A., University of Illinois, Chicago; M.A., Sangamon State University; Ph.D., University of Southern California.
- Viet, Ngo N. P. (1989)** ..... Professor  
Mathematics  
B.S., University of Minnesota; Ph.D., University of California, Berkeley.
- Vipond, Dianne L. (1988)** ..... Professor  
English  
B.S., McGill University, Montreal; M.A., Concordia University, Montreal; Ph.D., York University, Toronto.
- Vogel, Brenda L. (2001)** ..... Assistant Professor  
Criminal Justice  
B.S., M.S., University of North Carolina at Charlotte; Ph.D., University of California, Irvine.
- Vogel, Ronald E. (1991)** ..... Acting Associate Vice President,  
Graduate Studies and Research
- Academic Affairs
- ..... Professor  
Criminal Justice  
B.A., Western New England College; M.Ed., Springfield College; Ed.D., University of Massachusetts, Amherst.
- Vogt, Mary Ellen (1989)** ..... Professor  
Teacher Education  
B.A., Colorado State University; M.A., California State University, Stanislaus; Ed.D., University of California, Berkeley.
- Volper, Dennis J. (1988)** ..... Professor  
Computer Engineering and Computer Science  
B.A., University of California, San Diego; M.S., San Diego State University; Ph.D., University of California, San Diego.
- Vu, Hung Viet (1988)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., University of Washington, Seattle; M.S., Massachusetts Institute of Technology; Ph.D. University of Michigan.
- Wagdy, Mahmoud F. (1989)** ..... Professor  
Electrical Engineering  
B.S., M.S., Cairo University; Ph.D., Kansas State University.
- Wakerfield, Brett (1992)** ..... Director  
Student Life and Development  
B.S., California State University, Long Beach.
- Wakiji, Eileen (1991)** ..... Associate Librarian  
B.A., University of California, Los Angeles; M.S.L.S., University of Southern California.
- Wallach, Geraldine P. (2000)** ..... Associate Professor  
Communicative Disorders  
B.A., Long Island University, Brooklyn, New York; M.A., New York University; Ph.D., The Graduate School and University Center of the City University of New York.
- Walter, C.J. (1993)** ..... Professor  
Information Systems  
B.A., M.S., Ph.D., University of Iowa.
- Wang, Derming (1983)** ..... Professor  
Mathematics  
B.A., National Chung Hsing University, Taiwan; M.A., Ph.D., University of Georgia, Athens.
- Wang, John Z. (1999)** ..... Associate Professor  
Criminal Justice  
B.A., Liaoning Teachers' University, China; M.A., Liaoning Provincial University, China; M.P.A., Northern Michigan University; Ph.D., Indiana University of Pennsylvania.
- Wang, Rei-Tung (1985)** ..... Professor  
Engineering Technology  
B.Ed., National Taiwan Normal University; M.Ed., University of Wisconsin-Stout/  
National Taiwan Normal University; Ed.S., University of Wisconsin-Stout; Ph.D., University of Tennessee, Knoxville.
- Wang, Yu-Ming (1999)** ..... Associate Professor  
Information Systems  
B.S., National Taiwan University; M.B.A., National Chengchi University, Taiwan; Ph.D., New York University.
- Warford, Reginald (1999)** ..... Associate Head Coach  
Men's Basketball  
B.A., University of Kentucky.
- Watson, Saleem H. (1986)** ..... Professor  
Mathematics  
B.S., Andrews University; M.S., Ph.D., McMaster University, Canada.

- Wayman, Arthur K. (1976)** ..... Associate Professor  
Mathematics  
B.A., California State University, Long Beach; Ph.D., University of California, Los Angeles.
- Weathers, Michael (1992)** ..... Head Coach  
Baseball  
B.A., Chapman College.
- Webb, Charles H. (1987)** ..... Professor  
English  
B.A., Rice University; M.A., University of Washington, Seattle; M.F.A., Ph.D., University of Southern California.
- Weber, William A. (1968)** ..... Professor  
History  
B.A., Harvard College; M.A., Ph.D., University of Chicago.
- Wechsler, Suzanne P. (2000)** ..... Assistant Professor  
Geography  
B.A., Tufts University; M.S., State University of New York at Syracuse; Ph.D., State University of New York, College of Environmental Science and Forestry.
- Wegener, Frederick (1998)** ..... Associate Professor  
English  
B.A., Columbia University; M.A., Ph.D., Harvard University.
- Wegner, Daniel E. (1996)** ..... Assistant Professor  
Recreation and Leisure Studies  
B.A., Wheaton College; M.A., North American Baptist Seminary; M.R.P.A., Clemson University; Ph.D., Texas A & M University.
- Weinstock, Donald J. (1969)** ..... Professor  
English  
B.A., M.A., Ph.D., University of California, Los Angeles. Emeritus, 2000.
- Whisenand, Paul M. (1965)** ..... Professor  
Criminal Justice  
B.S., M.S., Ph.D., University of Southern California. Emeritus, 2000.
- White, Barbara (1990)** ..... Associate Professor  
Nursing  
B.S.N., Loyola University, Chicago; M.S., California State University, Long Beach.
- White, Elaine E. (1974)** ..... Professor  
Nursing  
B.S.N., California State University, Long Beach; M.N., University of California, Los Angeles; Ed.D., University of Southern California.
- Whitney David J. (1995)** ..... Associate Professor  
Psychology  
B.S., Union College; M.A., Ph.D., Michigan State University.
- Whitney, Linda (1996)** ..... Associate Professor  
Teacher Education  
B.A., M.A., California State University, Los Angeles; Ph.D. Claremont Graduate School.
- Wijte, Antonia (2000)** ..... Assistant Professor  
Biological Sciences  
B.S., M.S., Free University Amsterdam, The Netherlands; Ph.D., University of Delaware.
- Wilcox, Richard P. (1967)** ..... Senior Assistant Librarian  
B.A., B.S.Ed., University of Kansas; M.S.L.S., Kansas State Teachers College.
- Wiley, Juniper (1990)** ..... Associate Professor  
Sociology  
B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, San Diego.
- Wiley, Mark L. (1994)** ..... Director  
Faculty Center for Professional Development  
..... Associate Professor  
English  
B.A., M.A., California State University, Long Beach; Ph.D., University of Southern California.
- Williams, Mark T. (1999)** ..... Assistant Professor  
English  
B.S., Utah State University; M.A., The University of Texas at El Paso; Ph.D., University of Arizona.
- Williams, Deborah (1966)** ..... Women's Athletic Trainer  
B.A., California State University, Long Beach; M.A., San Diego State University
- Williams, Emry W. (1996)** ..... Assistant Professor  
Kinesiology and Physical Education  
B.A., Cardiff Institute of Higher Education, Wales, UK; M.A., California State University, Long Beach; Ph.D., The Ohio State University.
- Wilson, Alex H. (1999)** ..... Assistant Professor  
Finance, Real Estate and Law  
B.A., University of Colorado; M.B.A., The University of Denver, Colorado; Ph.D., Drexel University, Philadelphia, PA.
- Wilson, Raymond K. (1999)** ..... Associate Professor  
Biological Sciences  
B.A., Ph.D., University of California, San Diego.
- Wilson, Robert R. (1966)** ..... Professor  
Computer Engineering and Computer Science/Mathematics  
B.A., M.A., Ph.D., University of California, Los Angeles. Emeritus, 2001.
- Witkowski, Terrence H. (1982)** ..... Professor  
Marketing  
B.A., Northwestern University, Illinois; M.S., University of California, Los Angeles; Ph.D., University of California, Berkeley.
- Wolfenbarger, Mary F. (1990)** ..... Professor  
Marketing  
B.S., Vanderbilt University; M.B.P.A., Ph.D., University of California, Irvine.
- Wollmer, Richard D. (1970)** ..... Professor  
Information Systems  
B.A., Pomona College; M.A., Columbia University; Ph.D., University of California, Berkeley.
- Wray, Howard E., (1998)** ..... Executive Director  
Educational Equity Services  
B.S., M.A., Indiana University of Pennsylvania; J.D., Georgetown University.
- Wright, Claudia R. (1988)** ..... Professor  
Educational Psychology, Administration and Counseling  
B.A., M.A., California State University, Los Angeles; Ph.D., University of Southern California.
- Wright, Teresa A. (1996)** ..... Associate Professor  
Political Science  
B.A., Santa Clara University; M.A., Ph.D., University of California, Berkeley.
- Wrynn, Alison M. (2000)** ..... Assistant Professor  
Kinesiology and Physical Education  
B.S., Springfield College, Springfield, Massachusetts; M.A., California State University, Long Beach; Ph.D., University of California, Berkeley.
- Wurzer, David J. (1972)** ..... Professor  
Kinesiology and Physical Education  
B.S., M.A., Northern Michigan University; Ph.D., University of Utah. Emeritus, 2001.
- Xie, Tianwei (1999)** ..... Assistant Professor  
Asian and Asian American Studies  
B.A., M.A., Shanghai International Studies University, China; Ph.D., University of Pittsburgh, Pennsylvania.
- Yamada, Teri A. (1995)** ..... Director  
Center for Southeast Asian Studies  
..... Associate Professor  
Comparative Literature and Classics  
B.A., University of California, Santa Barbara; M.A., Ph.D., University of California, Berkeley.
- Yamashiro, Guy M. (2001)** ..... Assistant Professor  
Economics  
B.A., Washington University; Ph.D., University of California, San Diego.
- Yan, Jun (2001)** ..... Assistant Professor  
Management/Human Resources Management  
B.S., East China Institute of Technology; B.S., Nanjing University of Science and Technology; Ph.D., Texas Tech University.
- Yates, Jerry W. (1974)** ..... Professor  
Design  
B.A., California Polytechnic State University, San Luis Obispo; M.A., Indiana State University.
- Yavari, Parviz (1994)** ..... Professor  
Engineering Technology  
B.S., Shiraz University; M.S., Ph.D., University of Southern California.
- Yeakley, Anna M. (2000)** ..... Assistant Professor  
Social Work  
B.S., California Institute of Technology; M.A., M.S.W., Ph.D., University of Michigan, Ann Arbor.
- Yeh, Hen-Geul (1983)** ..... Professor  
Electrical Engineering  
B.S., Cheng Kung University, Taiwan; M.S., Ph.D., University of California, Irvine.
- Yeh, Hsien-Yang (1988)** ..... Professor  
Mechanical and Aerospace Engineering  
B.S., Cheng-Kung University, Taiwan; M.S., Brown University; M.S., Columbia University; Ph.D., University of Southern California.
- Ying, William H. (1964)** ..... Professor  
Civil Engineering  
B.S., Taiwan Provincial Chenkung University; M.S., University of Missouri School of Mines and Metallurgy; Ph.D., Oklahoma State University. Emeritus, 1998.

**Young, Douglas E. (1988)** ..... Professor  
 Kinesiology and Physical Education  
 B.A., M.S., Ph.D., University of California, Los Angeles.

**Young, Elizabeth V. (1989)** ..... Associate Professor  
 English  
 B.A., Cornell; M.A., Ph.D., University of Michigan.

**Young, Stacy L. (2000)** ..... Assistant Professor  
 Communication Studies  
 B.A., University of Southern California; M.A., San Diego State University; Ph.D., University of Texas at Austin.

**Young Owl, Marcus (1989)** ..... Professor  
 Anthropology  
 B.A., California State University, Long Beach; M.A., Ph.D., University of California, Los Angeles.

**Yudin, Sara (2001)** ..... Assistant Coach  
 Women's Soccer  
 B.A., California State University, Fresno.

**Yur-Austin, Jasmine T. (1995)** ..... Associate Professor  
 Finance, Real Estate and Law  
 B.A., National Taiwan University; M.B.A., University of Missouri; Ph.D., University of California, Irvine.

**Zanutto, Daniel R. (2000)** ..... Associate Professor  
 Music  
 B.A., M.A., California State University, Fresno; Ed.D., University of California, Davis and California State University, Fresno.

**Zentgraf, Kristine M. (1998)** ..... Assistant Professor  
 Sociology  
 B.A., California State University, Long Beach; M.A., Ph.D., University of California, Los Angeles.

**Zepeda, Rafael J. (1987)** ..... Professor  
 English  
 B.A., California State University, Long Beach; M.F.A., University of Oregon, Eugene.

**Zhang, Mason X. (2000)** ..... Assistant Professor  
 Biological Sciences  
 B.S., Zhejiang Agricultural University, China; M.S., University of Minnesota, Twin Cities; Ph.D., University of Wisconsin, Madison.

**Ziemer, William K. (1989)** ..... Associate Professor  
 Mathematics  
 B.S., Purdue; M.S., Carnegie Mellon; Ph.D., Carnegie Mellon.

**Zimmerman, Donald E. (1987)** ..... Professor  
 Electrical Engineering  
 B.S., M.S., Massachusetts Institute of Technology; M.D., Washington University, St. Louis.

# EMERITUS FACULTY

(Number in parentheses indicates year of appointment)

**Ingrid Aall** (1969) Professor Emeritus, 2002

Art

**Herbert L. Aarons** (1965) Associate Professor Emeritus, 1991.

Sociology

**Paul Abels** (1986) Professor Emeritus, 2000.

Social Work

**Rifaat Ali Abou-El-Haj** (1964) Professor Emeritus, 1995.

History

**Ruth H. Afflack** (1966) Professor Emeritus, 1992.

Mathematics

**Irving F. Ahlquist** (1949) Professor Emeritus, 1983.

History

**Eugene Albert** (1967) Associate Professor Emeritus, 1992.

Mathematics

**Leonard O. Albright** (1984) Professor Emeritus, 2000.

Occupational Studies

**Kamal T. Al-Chalabi** (1966) Professor Emeritus, 1990.

Civil Engineering

**Robert L. Alexander** (1964) Professor Emeritus, 1991.

Civil Engineering

**Frank J. Alfieri** (1967) Professor Emeritus, 1994.

Biological Sciences

**M. Shafqat Ali** (1967) Professor Emeritus, 2001.

Mathematics

**Barbara S. Allen** (1970) Professor Emeritus, 1995.

Music

**Charles A. Allen** (1957) Professor Emeritus, 1978.

English

**Kenneth J. Ames** (1968) Professor Emeritus, 1987.

English

**Rhoda M. Andersen** (1974) Associate Professor Emeritus, 1988.

Recreation and Leisure Studies

**Kaye W. Anderson** (1989) Associate Professor Emeritus, 2000.

Teacher Education

**Robert E. Anderson** (1964) Professor Emeritus, 1988.

Music

**Roy C. Anderson** (1965) Professor Emeritus, 1996.

Economics

**Shane Andre** (1967) Professor Emeritus, 1994.

Philosophy

**Edna M. Andrews** (1967) Professor Emeritus, 1982.

Accounting

**Carl R. Anselmo** (1964) Professor Emeritus, 1994.

Biological Sciences

**Blair C. Archer** (1950) Professor Emeritus, 1983.

Art

**Alfonso L. Archuleta** (1965) Associate Professor Emeritus, 1983.

Spanish/Portuguese

**Harold Aspiz** (1958) Professor

English

**William D. Ash** (1957) Professor Emeritus, 1990.

Marketing

**Charles W. Austin** (1966) Professor Emeritus, 1994.

Mathematics

**Arthur M. Axelrad** (1964) Professor Emeritus, 1996.

English

**John M. Bachar, Jr.** (1969) Professor Emeritus, 2000.

Mathematics

**Jerry Bailor** (1968) Associate Professor Emeritus, 1990.

Theatre Arts

**Peter Baine** (1968) Professor Emeritus, 2001.

Chemistry and Biochemistry

**John J. Baird** (1956) Professor Emeritus, 1984.

Biological Sciences

**Dan F. Baker** (1961) Professor Emeritus, 1986.

Radio Television and Film

**Dorothy W. Baker** (1961) Assistant Professor Emeritus, 1983.

Home Economics

**Daniel M. Barber** (1975) Professor Emeritus, 2000.

Public Policy and Administration

**Irmgard F. Bartenbach** (1964) Professor Emeritus, 1988.

German, Russians and Classics

**Kenneth T. Bartlett** (1959) Professor Emeritus, 1993.

Physical Education

**Eleanor H. Bates** (1970) Professor Emeritus, 1988.

Anthropology

**Roger D. Bauer** (1959) Dean, Professor Emeritus, 1992.

College of Natural Sciences and Mathematics, Chemistry and Biochemistry

**Phyllis Beacom** (1979) Lecturer Emeritus, 1991.

Home Economics

**Marion S. Beaumont** (1967) Professor Emeritus, 1996.

Economics

**Louis L. Beck** (1970) Professor Emeritus, 1989.

Teacher Education

**Edwin N. Becker** (1955) Professor Emeritus, 1983.

Chemistry

**Harold K. Becker** (1963) Professor Emeritus, 2000.

Criminal Justice

**Howard B. Beckwith** (1969) Professor Emeritus, 2000.  
Mathematics

**Earl S. Beecher** (1961) Professor Emeritus, 1994.

Finance, Real Estate and Law

**Donald A. Beegle** (1963) Professor Emeritus, 1988.

Health Science

**Bruce E. Beekman** (1958) Professor Emeritus, 1992.

Biological Sciences

**Robert A. Bell** (1969) Professor Emeritus, 1998.

English

**Virginia M. Belt** (1963) Professor Emeritus, 1983.

Finance

**Marilyn J. Bergin** (1971) Senior Assistant Librarian Emeritus, 1997.

**Stewart Berkshire** (1974) Associate Professor Emeritus, 1988.

Accountancy

**David A. Bernstein** (1967) Professor Emeritus, 1999

History

**Arnold J. Berry** (1973) Professor Emeritus, 1992.

Chemistry and Biochemistry

**George V. Betar** (1963) Professor Emeritus, 1981.

English

**Mark C. Biedebach** (1967) Professor Emeritus, 1996.

Biological Sciences

**Albert G. Black** (1962) Associate Professor Emeritus, 1988.

English

**Janet E. Black** (1990) Professor Emeritus, 1998

Social Work

**Stuart E. Black** (1962) Associate Professor Emeritus, 1991.

Computer Engineering and Computer Science

**Enid V. Blaylock** (1966) Professor Emeritus, 1983.

Educational Psychology and Administration

**James H. Bliss** (1964) Professor Emeritus, 1980.

Journalism

**Blaze O. Bonazza** (1966) Professor Emeritus, 1983.

English

**William D. Bonis** (1963) Professor Emeritus, 1991.

Philosophy

**David C. Borders** (1962) Professor Emeritus, 1990.

Art

**Warren J. Boring** (1956) Professor Emeritus, 1981.

Physical Education

**Edward J. Borowiec** (1969) Professor Emeritus, 2000.

English

**James A. Bourret** (1968) Professor Emeritus, 1992.

Biological Sciences

**Donna L. Boutelle** (1967) Professor Emeritus, 1994.

History

**Dean O. Bowman** (1973) Dean Emeritus, 1977.

School of Business Administration

**Robert E. Brasher** (1956) Senior Assistant Librarian Emeritus, 1986.

**J. Wesley Bratton** (1950) Professor Emeritus, 1969.

Education

**Alice M. Brekke** (1970) Professor Emeritus, 1991.

English

**Alexander L. Britton** (1965) Professor Emeritus, 1980.

Educational Psychology

**Helen H. Britton** (1981) Librarian Emeritus, 1991.

**Charles B. Brooks** (1957) Professor Emeritus, 1983.

English

**Robert J. Brophy** (1968) Professor Emeritus, 1993.

English

**Lee M. Brown** (1998) Professor Emeritus, 2001

Journalism

**Ruth M. Bryan** (1962) Assistant Fine Arts Librarian Emeritus, 1977.

**Steven M. Buck** (1961) Professor Emeritus, 1990.

Speech Communication

**William E. Buckner** (1970) Professor Emeritus, 1990.

Home Economics and Gerontology

**R. Burdett Burk** (1954) Professor Emeritus, 1975.

Elementary Education

**Darrell V. Burras** (1957) Professor Emeritus, 1980.

Information Systems

**Jerry D. Byrd** (1982) Lecturer Emeritus, 1992.

Recreation and Leisure Studies

**Guy H. Cain, Jr.** (1960) Associate Professor Emeritus, 1980.

Electrical Engineering

**Daniel A. Campbell** (1962) Professor Emeritus, 1990.

Physical Education

**Janet Campbell** (1965) Senior Assistant Librarian, Emeritus, 1998.

**Herbert L. Camburn** (1960) Professor Emeritus, 1996.

Theatre Arts

**Filemon C. Campo-Flores** (1972) Professor Emeritus, 1996.

Management/Human Resources Management

**David Carlberg** (1966) Professor Emeritus, 1999.

Biological Sciences

**Earl R. Carlson** (1961) Professor Emeritus, 1990.

Psychology

**Robert W. Cash** (1970) Professor Emeritus, 1995.

Educational Psychology and Administration

**Ottis L. Castleberry** (1956) Professor Emeritus, 1983.

Speech Communication

**Augustus Cerillo Jr.** (1967) Professor Emeritus, 2000.

History

**Sudershan Chawla** (1962) Professor Emeritus, 1997.

Political Science

**Chunduri V. Chelapati** (1965) Professor Emeritus, 1996.

Civil Engineering

**Richard H. Chow** (1958) Professor Emeritus, 1986.  
Physics and Astronomy

**David C. Church** (1968) Associate Professor Emeritus, 1986.  
Industrial Education

**Cheryl Clark** (1969) Associate Professor Emeritus, 2000.  
Philosophy

**Robert E. Click** (1962) Professor Emeritus, 1982.  
Art

**Marguerite A. Clifton** (1978) Professor Emeritus, 1987.  
Physical Education

**Robert B. Clyde** (1967) Counselor Emeritus, 1978.

**Joan Cobin** (1973) Professor Emeritus, 1988.  
Nursing

**James E. Cockrum** (1955) Professor Emeritus, 1978.  
Instructional Media

**Floyd A. Cohen** (1965) Professor Emeritus, 1992.  
Mathematics

**Ira S. Cohen** (1959) Professor Emeritus, 1983.  
Political Science

**Charles L. Cole** (1967) Professor Emeritus, 1996.  
Economics

**Charles T. Collins** (1968) Professor Emeritus, 2001.  
Biological Sciences

**James L. Comer** (1971) Professor Emeritus, 1981.  
Physical Education

**Jean L. Conroy** (1961) Associate Professor Emeritus, 1994.  
Mathematics

**Gene R. Cooper** (1969) Professor Emeritus, 2000.  
Art

**August E. Coppola** (1969) Professor Emeritus, 2002.  
Comparative Literature and Classics

**Peter A. Cortese** (1973) Associate Dean, Professor Emeritus, 1991.  
School of Applied Arts and Sciences, Health Science

**Edmund A. Cotta** (1958) Professor Emeritus, 1991.  
Marketing

**Hidden T. Cox** (1963) Professor Emeritus, 1986.  
Biological Sciences

**Duane C. Craven** (1967) Associate Professor Emeritus, 1996.  
Communicative Disorders

**Walter B. Crawford** (1963) Professor Emeritus, 1985.  
English

**Lyle R. Creamer** (1962) Professor Emeritus, 1992.  
Psychology

**Robert D. Crossan** (1955) Professor Emeritus, 1985.  
Educational Psychology and Administration

**Walter C. Crowe** (1952) Professor Emeritus, 1980.  
Physical Education

**Larry G. Curtis** (1969) Professor Emeritus, 1994.  
Music

**Murray D. Dailey** (1966) Professor Emeritus, 1992.  
Biological Sciences

**Donald L. Dame** (1965) Professor Emeritus, 1992.  
Art

**Barry M. Dank** (1968) Professor Emeritus, 2000.  
Sociology

**James E. Day** (1955) Professor Emeritus, 1983.  
English

**C. Thomas Dean** (1952) Dean, Professor Emeritus, 1980  
School of Applied Arts and Sciences, Industrial Education

**Dorothy Deatherage** (1955) Professor Emeritus, 1990.  
Physical Education

**Kee K. DeBoer** (1977) Librarian Emeritus, 1992.

**Molly Debysingh** (1972) Professor Emeritus, 1997.  
Geography
