preceding award of the baccalaureate degree. Courses completed prior to this ten-year period can be revalidated by such demonstrations of competence or knowledge of the subject as may be prescribed by the department offering the course.

The on-line Catalog Table of Contents has a link at the top to "Road Maps" that show a suggested sequence of courses to enable students to complete all degree requirements in a timely fashion. Since individual circumstances can vary, students should consult their major advisors for assistance in planning appropriate programs.

6. Satisfactory fulfillment of the Graduation Writing Assessment Requirement (GWAR) (See a description of the requirement at the end of this section.)

7. Achievement of a minimum 2.0 ("C") grade-point average in each of the following:
   a. The entire college record.
   b. All units attempted at CSULB.
   c. All courses in the major.
   d. All upper-division courses in the major completed at CSULB.

8. Formal approval by the faculty of the university.

**Student Levels**

Freshman ...........................................0.0 to 29.9 units
Sophomore .................................................30.0 to 59.9 units
Junior .................................................60.0 to 89.9 units
Senior ..................................................90.0 or more units
Postbaccalaureate ......................................holding a baccalaureate degree or equivalent degree

**Restrictions on Units That May Be Counted Toward the Minimum Required for the Baccalaureate**

**Activity Courses**

Activity courses provide practice in such areas as music, dance, physical education and Sports, Athletics, and Recreation. Except as required by a student's major, students may apply to the degree no more than eight units each of activity course credit in music, dance, theatre arts, or kinesiology and no more than four units of activity course credit in SAR, up to a total of no more than 20 units in all areas.

**Transfer Courses**

No more than 70 units of courses from a Community College may be counted toward the minimum unit requirement for the baccalaureate. (For more detail, see the section on Transfer Credit in the Academic Information section of this Catalog.)

**Courses Taken by Non-Matriculated Students in Any Term**

No more than 24 units total taken during any term while in non-matriculated status may be used to fulfill any undergraduate degree requirements. All students who have not been formally admitted to CSULB and who take courses here are non-matriculated students. Courses taken by incoming freshmen during the summer prior to their first fall are considered non-matriculated units. Units taken while in non-matriculated status are also sometimes referred to as extension units, extended education units, or special session credit units.

Courses offered through the College of Continuing and Professional Education (CCPE) conferring education unit (CEU) credit carry no degree credit.

**Open University**

Open University (Adjunct Enrollment) — Through Open University, students who are NOT matriculated in CSULB may take regular university classes during spring or fall semesters for academic credit on a "space available" basis with permission of the department chair and the course instructor. Open University enrollment does NOT constitute admission to CSULB. For more information call the College of Continuing and Professional Education at (562) 985-5561.

**Special Session**

There is no limit on CCPE Special Sessions course credit, including Winter session, applicable to the degree if taken while in matriculated status in the degree program.

**General Education**

**The Significance of General Education**

The components of an undergraduate education include the major, in which the student acquires depth of knowledge, electives that allow a student to explore personal or career-related interests; and General Education (GE). General Education allows students to develop competency in academic skills that are essential to all academic majors. In addition, General Education offers students broad knowledge beyond the focus of the major, as well as exposure to the rich diversity of the human experience.

The General Education program at CSULB sequentially introduces students to the mastery of academic skills along with a pattern of course work that will provide graduates with an understanding of self, the physical world, the development and functioning of human society, and its cultural and artistic endeavors, as well as an understanding of the methodologies, value systems, and thought processes employed in human inquiries. It involves three stages: Foundation, Explorations, and Capstone. Students who begin their college careers at CSULB will complete all three stages, while transfer students who enter the university with a Full General Education Certification will be expected to complete the final (Capstone) stage only.

General Education Breadth requirements are specified pursuant to Title 5, California Code of Regulations, Sections 40402.1, 40403, 40405, 40405.1, 40405.2, 40405.4, and 40508, and Sections 1 and 2 of Chapter III of the Standing Orders of the Board of Trustees of the California State University, and Executive Order 1033. CSU General Education Breadth requirements have been designated to complement the major program and electives completed by each baccalaureate candidate to assure that graduates have acquired noteworthy progress toward becoming truly educated persons. These requirements are designed to provide the knowledge, skills, experiences, and perspectives that will enable CSU students to expand their capacities to take part in a wide range of human interests and activities; to confront personal, moral, and social problems that are an inevitable part of human life; and to cultivate both the requisite skills and enthusiasm for lifelong learning.
The Essential GE Student Learning Outcomes
Upon completion of the GE Breadth requirements, CSU students should show mastery in each of the following:

Knowledge of Human Cultures and the Physical and Natural World
Achieved through study in the Sciences and Mathematics, Social Sciences, Humanities, Histories, Languages, and the Arts.

Intellectual and Practical Skills, including
Written Communication
Oral Communication
Critical Thinking
Quantitative Reasoning
Information Literacy and Technology Literacy
Teamwork
Creativity, Inquiry, and Discovery

Personal and Civic Responsibility, including
Global Competencies
Intercultural Competence (cultural values/traditions-U.S.)
Ethical Reasoning and Social Responsibility
Self-Understanding
Foundation and Skills for Lifelong Learning

Integrative Learning, including
Synthesis and Interdisciplinary Methods of Inquiry

Structure of the General Education Curriculum
Each California State University, Long Beach baccalaureate graduate shall have completed a minimum of 48 semester units of GE courses distributed as described below. The GE program includes three (3) units of approved course work in U.S. History and three (3) units of approved course work in U.S. Constitution and American Ideals required by Section 40404 of Title 5 and EO 405.

The General Education curriculum is organized as three sequential phases. The first is the Foundation, a group of courses designed to provide fundamental learning skills. The second is Explorations, courses distributed across the curriculum that are intended to provide an opportunity to explore the various ways of acquiring and examining knowledge while continuing to develop learning skills. The third is the Capstone, designed to integrate knowledge and skills developed earlier in the curriculum.

In completing the Foundation, Explorations, and Capstone phases of the General Education program, all students must complete a distribution pattern described below.

Within the Explorations and Capstone courses of the General Education program, all students must take one 3 unit course of instruction that focuses on instructive examples of human diversity in the United States (Human Diversity in the U.S. courses). All students must also take one three (3) unit course of instruction that focuses on global issues or world societies and cultures (Global Issues courses).

At least nine (9) units of the General Education program must be approved upper-division Capstone courses taken after the student achieves upper-division standing (completion of 60 semester units) and must normally be completed at California State University, Long Beach.

Only courses on the General Education Master Course List at the time the student takes the course shall count for General Education.

Because the program is intended to provide breadth, no more than 10 units of General Education courses in the student's major department may be used to satisfy the GE requirements. "Courses in the major department" include all courses housed in the department offering the major, regardless of prefix. There is no limit to the number of units outside the major department that may be used to satisfy both the requirements for the major and the requirements for General Education.

A cross-categorized course may be counted (at the student's option) in any one of the approved categories A-E, but not in more than one.

Where appropriate exams exist, Foundation and Explorations requirements may be met by external examinations, such as Advanced Placement or International Baccalaureate exams.

Foundation
The first-year program at CSULB should pay special attention to the development and improvement of fundamental academic skills that are critical to student success in college. Every CSULB student will be expected to demonstrate mastery of key academic skills early in the course of study at CSULB, ideally within the first year. Among the skills most central to success are communication in English, both written and oral, mathematical concepts and quantitative reasoning, and analytical and critical thinking.

Students also need a solid foundation in skills for learning, including the ability to read for information, information retrieval, literacy skills, and basic technology skills.

All students are assessed at entry into the university for readiness for baccalaureate-level work in English composition and mathematics. The first priority for any student who is not prepared for baccalaureate-level work is to become fully prepared for college. Accordingly, students who have not demonstrated readiness for baccalaureate-level English or mathematics must complete the appropriate pre-baccalaureate courses within the first year after admission to CSULB. A student who is required to take either pre-baccalaureate mathematics or pre-baccalaureate composition may register for other 100-level Foundation or other General Education classes only if those courses do not have pre- or co-requisites in the area of deficit.

The following courses make up the Foundation curriculum and must be completed with a grade of at least "C":
- one three (3) unit course in Written Communication in English
- one three (3) unit course in Oral Communication in English
- one three (3) unit course in Critical Thinking
- one three (3) unit course in Mathematics
The Foundation curriculum must be completed by the time the student has completed 36 units of baccalaureate-level work at CSULB.

Courses in the Foundation curriculum will be numbered from 100 to 199. All other General Education courses must have pre- or co-requisites from the Foundation curriculum, and all General Education courses numbered 300 or higher must have the entire Foundation curriculum as prerequisites.

A Foundation course may have a pre- or co-requisite of another Foundation class, if educationally justified.
Explorations

After an early focus on fundamental learning and academic skills, students will have an opportunity to explore human knowledge in many disciplines. The Explorations stage encompasses all areas outside the Foundation curriculum, as described under "Distribution." It excludes the final nine (9) units of General Education, described under "Capstone."

General Education courses numbered from 100 through 199 may be appropriately taken at the same time as courses in the Foundation curriculum.

Although the primary purpose of Explorations is the development of breadth of knowledge, it is expected that all courses will offer opportunities for continued development of foundational skills. Reading, writing, oral discussion and presentation, problem solving, quantitative reasoning, and critically- and analytically-based research are central to the learning of content. For this reason, all courses outside the Foundation must have pre- or co-requisites from the Foundation, and all courses numbered 300 or higher must have the entire Foundation curriculum as prerequisites.

In addition, as students progress through their Explorations, they will be expected to develop additional skills and attributes, including ethical reasoning, analytical reading, creativity, respect for difference, awareness of other cultures, questioning of stereotypes, the values of citizenship, negotiating skills, and other attributes of use in a diverse society.

Capstone

The final nine (9) General Education units form the Capstone. All students, including transfer students who have completed a certified lower-division General Education program, must complete nine (9) units of Capstone courses. The purpose of the Capstone is to bring the strands of the General Education experience into focus, to reinforce knowledge and skills acquired from many areas, and to incorporate depth in the form of more sophisticated tools and analysis. For transfer students, the Capstone may offer an opportunity to connect to the campus in a learning community outside of the major department.

Distribution Requirement

Students must complete a minimum of 48 units of approved General Education courses, distributed as follows:

Category A -- Communication in the English Language and Critical Thinking (all included in the Foundation) -- At least nine (9) units to include:

• Category A.1. -- At least three (3) units chosen from approved courses in Written Communication in English
• Category A.2. -- At least three (3) units chosen from approved courses in Oral Communication in English or a combination of oral and written communication in English.
• Category A.3. -- At least three (3) units chosen from approved courses in Critical Thinking.

Category B -- Natural Sciences and Mathematics -- At least nine (9) units to include:

• Category B.1. -- At least six (6) units of Natural Sciences to include:
  • Category B.1.a. -- At least three (3) units chosen from approved courses in the Biological Sciences, which must include a laboratory experience
  • Category B.1.b. -- At least three (3) units chosen from approved courses in the Physical Sciences, which must include a laboratory experience
• Category B.2. -- At least three (3) units of study chosen from approved courses in Mathematics (included in the Foundation)

Category C. -- the Arts and Humanities -- At least nine (9) units to include:

• Category C.1. -- At least three (3) units chosen from approved courses in the Arts
• Category C.2. -- At least six (6) units from 2 areas chosen from approved courses in the Humanities chosen from:
  • Category C.2.a. -- Literature
  • Category C.2.b. -- Philosophy, and
  • Category C.2.c. -- Foreign Languages

Category D -- Citizenship and Social and Behavioral Science and History -- At least 12 units to include:

• Category D.1. -- At least six (6) units chosen from approved courses in U.S. Citizenship to include:
  • Category D.1.a. -- At least three (3) units chosen from approved courses in U.S. History
  • Category D.1.b. -- At least three (3) units chosen from approved courses in the Constitution and American Ideals
• Category D.2. -- At least six (6) units, from two different disciplines, chosen from approved courses in the Social and Behavioral Sciences and History

Category E -- At least three (3) units chosen from approved courses in Self-Integration

GE Electives -- At least six (6) units required to meet 48 total units in GE. Additional courses to reach the minimum total of 48 units may be chosen from any courses approved for General Education credit in categories B, C, and D. This includes both courses that fit the specific designations above and other approved courses, designated as B.3 or C.3, that meet the general headings of category B or C but do not fit one of the specific required categories. Excess units from all or any combination of Category B or C or D may be applied to this section.

Special requirements -- All students, including all transfer students, must complete:

• at least 3 units from the above categories devoted to the study of Human Diversity in the United States, and
• at least 3 units from the above categories devoted to the study of Global Issues. [Note: Transfer students who began continuous attendance at a California Community College before Fall 2008 and who had General Education Full Certification upon entrance to CSULB are eligible to follow the requirements of earlier catalogs.]

Capstone Requirements -- All students, including all transfer students, must complete at least nine (9) units of Capstone courses. Capstone courses may be used to meet the specific category requirements and the Global Issues and Human Diversity in the U.S. requirements, if those have not been met by other courses.

Students are expected to complete the Capstone requirement at CSULB. An exception will be made for students who transfer from another CSU campus after completing some of the upper-division GE requirement at their campus. To be accepted toward the Capstone requirement at CSULB, the transfer course must be approved for upper-division general education credit at the campus offering the course. Other courses may be used, on an individual basis, to meet the requirement if they are approved for
General Education at the campus offering the course and the purpose of the course meets the criteria for a CSULB Capstone course.

Students who transfer from baccalaureate institutions other than the CSU after completing upper-division General Education courses may petition to have one or more such courses accepted toward the Capstone requirement. Such petitions will be evaluated on the basis of the criteria above.

**GE Requirements for Returning and Transfer Students**

Students who have not maintained continuous attendance status shall be subject to the General Education requirements in effect at the time of their reentry to the university, with the following exceptions:

- Previous CSULB students who were under earlier General Education requirements and who before breaking continuous attendance completed one or more upper-division GE courses shall be required to complete additional Capstone courses as needed to complete the total of 3 units of upper-division General Education courses, of which a minimum of 6 units must be Capstone courses.

- Previous CSULB students who were under the earlier General Education requirements and who before breaking continuous attendance completed one or more upper-division GE courses shall be required to complete additional GE courses as needed to complete the total of 9 units of upper-division General Education courses, of which a minimum of 6 units must be Capstone courses.

Students who enter CSULB with full GE certification from a California Community College must complete both the Human Diversity in the U.S. and the Global Issues requirements if these requirements were not met through transfer, but these students need not complete any other GE courses except the Capstone, which cannot be met through transfer from a community college. Transfer students who enter CSULB without full GE certification or subject-area (partial) certification from a California Community College must either complete the CSULB GE requirements, or complete and obtain a GE certification from a California Community College which will be honored as meeting CSULB's lower-division GE requirements.

**Majors**

Choosing a major is one of the most important, and sometimes most difficult, academic decisions students will make during their college careers. There may be many possible choices of major that would provide preparation for a given career. The section on Degrees, Options, Minors, and Certificates earlier in this Catalog shows the many choices available and where to find information on each. Many departments have additional information posted on their web pages accessible from the university’s home page. Students are encouraged to interview faculty in possible majors and to seek the help of student services professionals to assist them in making this important decision.

**Declaration of a Major**

To help ensure timely completion of graduation requirements, students who have a total of 60 units completed must have declared a major before they may register for the next term. Upper-division transfer students are required to declare their intended major on their application for admission. (PS 06-04)

**Change of Major or Other Objective**

Undergraduate students declaring a major for the first time or changing from one degree program or degree option program to another must submit an approved Change of Major/Declaration form to the Office of Enrollment Services. Most departments submit these forms electronically.

Students who are candidates for a certificate or credential program must also file a Request to Graduate. (Please see Graduation section of the Catalog.)

The evaluation of credits transferred to the University is based in part upon the objective indicated on the application for admission. Students should be aware, therefore, that under some circumstances transfer courses accepted for one purpose may not be acceptable for other purposes.

**Double Major**

Students may complete the requirements for two baccalaureate programs concurrently. One diploma will be issued reflecting both majors. A course, or courses, may be used to satisfy the individual requirements of both majors, without limit, as long as the required pattern of course work is completed for each major.

**Minors**

A minor is a structured selection of courses by which a student can enrich his or her academic preparation through concentrated study of a discipline that is different from, but may be related to, the student's declared major. A minor is a means to augment or complement the major by broadening the student's academic experience or serving as preparation for a specific career. Usually a minor is not required for the baccalaureate; however, students may elect to complete a minor and have that fact noted on their records. Students should consult with an advisor in their major department for recommendations on suitable minor fields of study.

A minor consists of a minimum of 18 units, as specified by the department or program, at least nine of which must be upper-division. The minor may be in a single subject or interdisciplinary. Students may not declare or receive a minor in the same subject as the major, and the major and minor may not have the same title. The description of each minor shall have a statement listing all majors, if any, that may not be combined with that particular minor. The minimum overall GPA in courses toward the minor is 2.0. A minimum of six units of course work toward the minor must be taken at CSULB.

Students should refer to the requirements of the department and college of their major, to see whether a minor is required for that major. Even if a minor is not required, students may elect to complete one or more minors from those available and have that fact noted on their transcripts. Unlike certificates, minors are awarded only as part of a baccalaureate degree. Students may not finish a minor after they have graduated, except in conjunction with a second baccalaureate degree.
