

SSL Certificate Request Form

Complete this form electronically and submit to security@csulb.edu

Your request will be reviewed by the ITS Desktop and Server Security administrator. The SSL certificate will be created after all appropriate approvals. Under normal circumstances, your request will be processed within 2 business days after obtaining all approvals. You will be notified upon completion.

This form with all final approvals will be retained electronically by ITS. Copies are available upon request. Special notes for the requestor:

- The public key must be 2048 minimum.
- The common name must be the fully qualified domain name of the website.
